

SAYS COUNTRY ISN'T GOING TO THE BOW-WOWS

Remarks by Republican Leader Mann Picturing United States in the Throes of Business and Industrial Depression Due to the Tariff Arouse Speaker Clark.

He Denounces the Cry of Wolf and Challenges the Patriotism of Those Who Shout It—Root, Cannon, Hilles and Hadley All Branded as Calamity Howlers.

Washington, Dec. 18.—Speaker Clark left his chair in the house today to challenge the patriotism of "calamity-howling" Republicans, after Minority Leader Mann had made a speech picturing the country in the throes of business and industrial depression as a result of Democratic tariff legislation.

"As the greatest calamity howlers in America," the speaker presented Senator Root of New York, former Speaker Joseph Cannon, Chairman Hilles of the Republican national committee, former Governor Hadley of Missouri and Representative Mann.

Vigorously defending the new tariff law, Mr. Clark declared that if there had been any let-up in business it was simply because prudence was being exercised. He said the wish was the father of the thought with the Republican leaders and suggested that it was strange that no one else had seen signs of a commercial depression.

"These men," continued Speaker Clark, "propose to get into the newspapers every day, day after day, that the country is going to the dogs and business is going to the deuce and people that never thought of a pang will begin to study about it. By all thinking men this will be considered a monstrous and unpardonable performance."

"I've heard it said that if a man starts down town and enough fellows tell him he is sick, he will get sick," said Mr. Clark. "That's what these fellows are doing."

Speaker Clark ridiculed the predictions of the Republican leaders. "See Earmarks of a Conspiracy. 'I do not believe,'" shouted the speaker, amid applause from the Democrats, "that I exceed the bounds of propriety or of fact in saying that it looks like a Republican conspiracy against the progress of the republic. Mr. Mann, while howling calamity, declares that he is a calamity howler, but Mr. Root, Mr. Cannon, Mr. Hadley and Mr. Mann have been the greatest calamity howlers in this country this fall. It is strange that nobody else has heard of these signs of the times that are before us."

Speaker Clark said that there were two persons to whom he never talked, but always questioned—James J. Hill, the railroad builder, and Rev. Dr. John T. N. Johnson, of Kansas City, "a Baptist preacher who had some strange notions that he would make three or four million dollars."

Mr. Clark said that Mr. Hill had told him that he did not think there was going to be any panic in this country. Dr. Johnson, he said, had told him that the currency bill would prevent all the money from drifting into New York city and break up gambling on the New York Stock exchange as far as human ingenuity could control it.

WORKERS IDLE NO MORE THAN IN OTHER YEARS

Straw of Lack of Employment Among Unskilled Men and Artisans This Fall Is Not Unusual, It Is Brought Out at an Interstate Conference Held at Chicago

Labor Department Heads of Six Commonwealths Meet to Consider a Problem They Always Expect in the Wintertime—Plan Co-Operation in Procuring Jobs.

Chicago, Dec. 18.—The number of workers out of employment this winter is not greater than in other years, according to the facts brought forward here today in the deliberation of the heads of the labor departments of six states, meeting to plan co-operation in giving employment to surplus labor.

National labor laws and nationwide co-operation in meeting unemployed men problems are the chief objects of the meeting, it was said. This year's problem is the same as that of every year when the winter shuts off many avenues of casual and regular employment, according to P. H. Hart, secretary of the Illinois labor commission and chairman of the conference.

Problem No Bigger Than Usual. "None of the speakers today made any assertion that the unemployed problem is any bigger than usual," said Mr. Hart. "In fact, it is not any bigger than usual. It does not appear that any more men are out of work this winter than any other winter. The labor commissions are meeting this year for the first time to open the subject of co-operation. They have not been brought together by unusual straits of lack of work among laborers and skilled men."

W. J. Leiserson, of Wisconsin; Walter L. Sears, of Massachusetts; Thomas Brown, of Indiana; James V. Cunningham, of Michigan; John T. Fitzpatrick, of Missouri; and Mr. Hart were the labor department chiefs who took part in the meeting, which will continue tomorrow.

Many Idle at Los Angeles. Los Angeles, Calif., Dec. 18.—Means to provide public employment for thirty thousand men and women, said to be out of work in this city, will be discussed tomorrow at a meeting of representatives of civic bodies. There has been drawn up a resolution demanding that the city and county of Los Angeles jointly appropriate \$1,000,000 for public work.

State Funds Not Available. Portland, Ore., Dec. 18.—The state emergency board called at Salem today by Governor West to provide a fund of \$50,000 in order to give work on state roads to the unemployed during the winter months, refused to authorize such expenditure from the state funds, declaring that only the legislature could make this appropriation.

SHORTSTOP HERZOG IS CHOSEN TO MANAGE CINCINNATI CLUB. Cincinnati, O., Dec. 18.—Charles Herzog, former ball player with the New York and Boston National league clubs, was chosen today as the manager of the Cincinnati team for the season of 1914. Herzog steps into the position made vacant by the sale of Joe Tinker to the Brooklyn club. He will play at shortstop, as did Tinker, and guide the team on the field. Herzog is twenty-eight and was born in Baltimore. He is a graduate of Maryland University. He comes to Cincinnati in a trade recently announced by the New York Nationals.

Denver, Colo., Dec. 18.—After having provided for the appointment of a special committee to aid Governor E. M. Ammons in his investigation of the charges made against certain members of the state militia by strikers, the special convention of the allied trades unions of Colorado adjourned tonight. The convention had been called to devise ways and means of giving aid to the striking coal miners of the United Mine Workers of America, and the executive board of the Colorado State Federation of Labor was given blanket authority to handle the situation as they saw fit, even to the calling of a statewide strike.

ONE THOUSAND HANDS THROWN OUT OF WORK

Due to a Strike at a Similar Plant, Big Shoe Factory in Ohio Suspends.

Portsmouth, O., Dec. 18.—The Excelsior Shoe company closed down its plant here tonight, throwing more than one thousand persons out of employment for an indefinite period. Officials of the company stated the action was taken out of sympathy for the Selby Shoe company, which has been troubled by a strike among its employees for the last two weeks. Strike leaders declare that the hundred employees of the latter company are on a strike, demanding that a few discharged employes be reinstated. It was said tonight that other shoe companies may follow the step taken by the Excelsior company.

Indianapolis Banks to Lose Union Funds. Indianapolis, Dec. 18.—As an aftermath of the recent labor trouble and strikes here, it was announced today that the officers of international unions having headquarters here have decided to withdraw from Indianapolis banks on Jan. 1 all the funds of the international organizations that it is possible to withdraw at that time. The deposits amount to between \$4,000,000 and \$5,000,000. The money is divided among a number of institutions, and it is said the withdrawal will not seriously affect any one bank.

In statement issued today it is set forth that the reason for the withdrawal is: "We have reason to believe that said moneys are being used by the merchants, manufacturers and team owners of Indianapolis to destroy and crush out the working people."

GIVES AUTHORITY FOR A STATEWIDE STRIKE. Colorado Labor Convention Also Votes to Aid Governor Investigate the Militia. Denver, Colo., Dec. 18.—After having provided for the appointment of a special committee to aid Governor E. M. Ammons in his investigation of the charges made against certain members of the state militia by strikers, the special convention of the allied trades unions of Colorado adjourned tonight. The convention had been called to devise ways and means of giving aid to the striking coal miners of the United Mine Workers of America, and the executive board of the Colorado State Federation of Labor was given blanket authority to handle the situation as they saw fit, even to the calling of a statewide strike.

State Executive Stands Pat. Today a delegation which called on the governor was told by the governor that he had steadfastly maintained a policy of enforcing the laws, and that he would continue to do so. He would not withdraw the state troops from the strike zone, abolish the military commission, nor dismiss Adjutant General Chase, Major Townsend and Judge Advocate Doughton, against whom charges had been made by the labor delegates. He agreed, however, to make a personal investigation of all charges and asked the labor convention to appoint a committee to assist him.

The governor declared that there was no intention by the state authorities to take prisoners before a military court and that all prisoners held by order of the military commission would be turned over to the civil authorities at the earliest practicable date. He declined, however, to state specifically when the prisoners would be turned over.

FLOUR CITY MILK MAGNATE PAYS A CASH FINE OF \$3,500. Minneapolis, Dec. 18.—Cash payment of a fine of \$3,500 was made today by A. R. Rubin, president of a Minneapolis milk company, convicted last February of conspiracy to raise the price of milk in Minneapolis.

The Weather

Washington, Dec. 18.—The following is the weather bureau's forecast for Upper Michigan: Fair, Friday; Saturday, increasing cloudiness, followed by snow or rain at night; light variable winds.

WASHINGTON'S PEACE SCHEME CARRIED OUT IN TREATY WITH THE NETHERLANDS. Washington, Dec. 18.—Secretary Bryan and Chavalier van Rappard, the Netherlands minister, today signed a treaty providing for any question between the United States and the Netherlands which cannot be settled by diplomats shall be submitted for investigation to an international commission of five members. The period of investigation is fixed at one year, although it may be shortened. The treaty is to run five years.

WILSONS ARE HOSTS AT THEIR FIRST DINNER TO THE CABINET. Washington, Dec. 18.—The first cabinet dinner under the present administration was given by the president and Mrs. Wilson at the White House tonight. Besides the members of the cabinet and their wives or daughters, the vice president and Mrs. Marshall, Secretary Tamm and some close friends of the Wilson family were invited. Covers were laid for fifty.

MILITARY OFFICERS IN FOR PUNISHMENT. President Will, It Is Announced, Take "Some Action" Relative to Carabao Dinner. Washington, Dec. 18.—Investigation of the travesties upon the administration's Philippine policy at the recent annual dinner of the Military Order of the Parolans will result in some action by the president.

Case Dates from July, 1902. It was shown at the trial that in March, 1901, the United Hatters had resolved to unionize the factory of the plaintiffs and that Mr. Loewe had been informed by the union officials that the hatters "would resort to the usual methods" in case their plan should meet with opposition.

Many of the Defendants Dead. Danbury, Conn., Dec. 18.—The so-called Danbury hatters case has been before the courts for more than ten years. Once it was before the United States supreme court. Of the 240 original defendants, more than thirty have since died and two have gone insane.

Union Will Take an Appeal. New York, Dec. 18.—Alton B. Parker counsel for the defendants, announced tonight that the case would probably be taken to the United States supreme court for review.

HATTERS ARE AGAIN BEATEN IN LEGAL FIGHT

Famous Case Originating at Danbury, Conn., Because of the Boycott of the Loewe Manufactory by Trade Unionists Is Decided by Federal Court of Appeals. Tactics Charged Against the Labor Organization Are Held in Violation of the Anti-Trust Law and the Judgment, Now Footing Up \$272,000, Is Affirmed.

New York, Dec. 18.—The United States court of appeals today decided the famous Danbury hatters case in favor of D. E. Loewe & Co., the plaintiffs, and against the United Hatters of North America. The court affirmed a judgment in favor of Mr. Loewe and against the hatters' organization for \$232,130.

Sustaining the second judgment, Judge Coxe declared that it was no longer debatable that the anti-trust act is applicable to such combinations as are alleged in the complaint and that the act makes no distinction between classes of combinations or individuals. The court held that it had been clearly established that the plaintiffs were engaged in an interstate business and that the defendants are members of a trade union and affiliated with the American Federation of Labor, "one of the objects of the latter organization being to assist its members in 'any justifiable boycott and with financial help in the event of a strike or lockout.'"

Case Dates from July, 1902. It was shown at the trial that in March, 1901, the United Hatters had resolved to unionize the factory of the plaintiffs and that Mr. Loewe had been informed by the union officials that the hatters "would resort to the usual methods" in case their plan should meet with opposition.

Many of the Defendants Dead. Danbury, Conn., Dec. 18.—The so-called Danbury hatters case has been before the courts for more than ten years. Once it was before the United States supreme court. Of the 240 original defendants, more than thirty have since died and two have gone insane.

Union Will Take an Appeal. New York, Dec. 18.—Alton B. Parker counsel for the defendants, announced tonight that the case would probably be taken to the United States supreme court for review.

REPORT HE IS PRAYING FOR UNFORTUNATE INVESTORS IS DENIED BY REV. MR. PAGE.

Boston, Mass., Dec. 18.—Rev. Charles L. Page, assistant pastor of the Dudley street Baptist church, issued today a denial of a report that he had made unfortunate investors in railroad securities the special subject of a public prayer. He did this, he said, in justice to the railroads and himself, after he had received a telegram from New York, reading: "Noting your prayers for investors in railroad securities, will you kindly include investors in wheat for May delivery, both in Chicago and New York; also investors in flaxseed and corn, thereby obliging several parties interested in the above, and we will anxiously await results."

OTTO HEINZE BANKRUPT; HIS DEBTS IN MILLIONS. New York, Dec. 18.—Otto C. Heinze, formerly a member of the banking firm of Otto Heinze & Co., is today named in federal court in bankruptcy proceedings which he states that his liabilities and assets are unknown. He gives, however, a list of creditors with secured claims totaling \$500,000 and of unsecured creditors with claims in the neighborhood of \$2,000,000.

SHOWERS OF BOMBS DROPPED ON MOORS. Aviators Play an Important Part in a Rout of Tribesmen by Spanish Troops. Madrid, Dec. 18.—A large force of Moorish tribesmen was routed with heavy losses by the Spanish troops at Mulay Ahsalam, Spanish Morocco. Spanish military aviators threw the Moors into disorder with showers of bombs. The aviators ascended to an altitude out of range of rifle fire and flew directly over the places where the Moors were the greatest numbers. Then came what the dispatch to the Spanish war office describes as a "veritable rain of bombs tossed by hands of airmen into the midst of the Moors."

American Experts Much Interested. Washington, Dec. 18.—Experts in the signal corps at the war department heard the reports of the successful bomb-dropping by the Spanish aviators with keen interest. "This is but an instance," said Colonel Samuel Barber, in charge of aviation in the army, "of the value of the aeroplane in actual reconnaissance and its use as a weapon of offense during an attack. It confirms the experience of other nations in using the aeroplane in actual warfare and is a practical demonstration of the use of the aeroplane in a campaign."

PRINCETON HOCKEY TEAM WINS NEW YORK'S OPENING CONTEST. New York, Dec. 18.—The hockey season here opened tonight with a very fast game in which Princeton defeated St. Paul's school, taking eight goals to three. Baker, Princeton's star player, scored five of his team's goals. The game was remarkable clean, not one of the participants being ruled off for an infraction of the rules.

Henry to Coach a Hockey Team. Amherst, Mass., Dec. 18.—John Henry, catcher of the Washington American league team, was appointed coach of the Amherst hockey team tonight. Henry, who was graduated from Amherst in 1910, was prominent as a hockey player while in college.

MEXICANS ARE AGGRESSORS IN A FATAL AFFRAY

American Sentries at the International Border Line Return the Shots When Fired Upon by Federal Regulars, and One of the Latter Receives a Mortal Wound. Not Until Villa Has Exacted Sums of \$1,000 to \$5,000 Are Wealthy Natives Allowed to Depart from Chihuahua—Shortage of Ammunition Worries President Huerta.

Presidio, Tex., Dec. 18.—An exchange of shots between Mexican and American soldiers on the American line two miles west of Presidio resulted in the death today of Luis Orozco, a federal regular from the army of General Morelos. "The Mexicans fired the first shot. Orozco, who lived several hours, admitted after being shot that he and his companions had crossed to the American side with a note and that when they were halted by the American sentries they fired."

Villa Levies Assessments. El Paso, Tex., Dec. 18.—More refugees who arrived at the border today reported that before General Francisco Villa, his rebel leader, allowed their train to start from Chihuahua city, he exacted from the Mexican families sums ranging from \$1,000 to \$5,000. The refugees were mostly Americans and wealthy Mexican families, who had closed their places of business since the rebel occupation of the city. They said General Villa permitted those who had passes to board the train, but as it was about to leave he personally appeared and ordered assessments. One Mexican merchant said he got off the train to avoid paying \$5,000, but later decided to pay the demand, rather than remain in Chihuahua. The Americans said they had been permitted to go unharmed.

Grave Problems Facing Huerta. Mexico City, Dec. 18.—The representatives of the banks again met at the finance department today to work out their plan to save the Central bank and its dependencies. There is little doubt that President Huerta will issue a decree making state bank notes legal tender. Long lines of note-holders formed in front of the Central bank today, but did not pay the exchange of 20 per cent of the amounts handed to them, but they were allowed to remain in Chihuahua. The Americans said they had been permitted to go unharmed.

Federal Mutiny Is Reported. Vera Cruz, Dec. 18.—It is reported here on good authority that a column of six hundred federal soldiers in the state of Oaxaca, during the absence of the general, the mutineers are said to have shot their officers and joined forces with the Zapata adherents.

JACKSON MAN, IS VICTIM OF THUGS IN ILLINOIS. Peoria, Ill., Dec. 18.—Gladstone H. Hardy, aged twenty-six, of Jackson, Mich., who was beaten by negro thugs last night, died here today. Four negroes are under arrest. Hardy's watch was found on one of the suspects.

Time Limit Is Extended by General Manager MacNaughton. Copper Mining Companies Will Wait Until Jan. 1 Before Importing Men to Take Places of Strikers -- Business Interests Embark Upon an Energetic Back-to-Work Campaign Among the Unemployed -- Their Efforts Antagonized the Western Federation of Miners -- Opposing Meetings Conducted in Villages in Keweenaw County.

Houghton, Mich., Dec. 18.—[Special.]—General Manager James MacNaughton of the Calumet & Hecla and subsidiary companies today agreed at the solicitation of a committee representing businessmen in the northern part of the copper country to extend until Jan. 1 the time limit within which former employees of his companies may return to work. He assured the committee that he would use his influence with other mine managers in the district to have them grant a like extension of time.

This activity of the businessmen followed the intelligence late yesterday that the mine managers are determined to place their properties in operation at the normal capacity at once. It was stated that after Friday the mining companies would fill all vacancies with outside men. The Calumet and Laurium businessmen held a hurried conference at the Calumet town hall and a committee was named to intercede with General Manager MacNaughton. This committee consisted of Frank S. Carlton, Johnson Vinton, Frank H. Schumacher, Joseph W. Sheldon and John Vertin.

Hundreds of applications have been received by practically every company in the district. One company—the Calumet & Hecla—has applications from fifty hundred men, men who know a strike is in progress but who are willing to come here to work in the Calumet & Hecla or its subsidiaries and be brought here within a week. After waiting for close to five months it is felt by the

mine managers that patience has ceased to be a virtue and that the best course open is to fill the existing vacancies. The report of the businessmen's committee was made at a second mass meeting at Laurium this evening.

Rival Meetings Held in Keweenaw. The businessmen will now make a concerted effort to induce the strikers in the Calumet-Keweenaw district to go back to work before Jan. 1. The first meeting of the campaign among the strikers was held this afternoon at the Mohawk, and the Western Federation of Miners promptly called an opposition meeting at Ahmeek. Most of the Keweenaw county strikers were at the latter meeting. About thirty strikers were present at the businessmen's meeting at Mohawk, and the arguments of the businessmen will, it is believed, have a good effect, though they will be met with strong opposition by the federation.

The federation today circulated an extra edition of the Miners' Bulletin containing affidavits purporting to be signed in New York by former employees of the Ashler Detective agency employed in Keweenaw county. The affidavits allege numerous disgraceful conditions known to be false, and one of them is denied by Richard Maher, an Ashler employee who is still in the copper country. An investigation of the other purported affidavits is on foot.

met-Keweenaw district. Those on the list are: Mohawk, Emmett Foley; Ahmeek, John Grierson and Maurice Kenel; Laurium, J. Bruce Eaton; Tamarak, Samuel Bennett; Kearsarge, Dr. J. B. Quick; Red Jacket, Oscar Keenock; Copper City, Anton Anderson; Osceola, Alfred Nichols; Florida, Peter A. Polto; Wolverine, Fernando Petermann; Centennial Heights, John Watt.

Mounted Police Force Recruited. Undersheriff Harris of Keweenaw county was a visitor in Houghton during the day, arriving for the purpose of having repairs made to Sheriff Hepting's automobile. He reported that Keweenaw county is very quiet and he believes the strike disorders are a thing of the past. The undersheriff says that during the strike the position of peace officer in Keweenaw county was almost unbearable. Old friends of the officers refused to recognize them, almost the entire community being in favor of the strike. Now the sentiment has undergone a radical change. Former enemies are making themselves agreeable and many former violent strikers are eager to go back to work just as soon as the tranquility of the county is assured.

Sheriff Hepting is prosecuting the organization of his mounted police force with vigor. He now has twenty-three men enrolled and his equipment includes sixteen horses. There have been delays in getting together the equipment for the horses, but the sheriff expects within a short time to have thirty-three men fully equipped. The force will be made

up to a great extent of former Michigan National Guard cavalrymen, who have served in Keweenaw county during the strike and are familiar with the district. They also are eligible to deputy sheriff commissions.

Sheriff Cruse reported today that there was but one slight intimation of a strike disorder in Houghton county. He had been informed that there had been promiscuous shooting in the woods around Winona. The sheriff at once sent a force of additional deputies to Winona to investigate and to put down any disorder that threatens.

From the Literary Digest. The Literary Digest, through W. S. Woods, its editor, replied today to a letter written by Secretary George L. Price of the Copper Country Commercial club, relative to The Digest's recent publication of misleading strike reports. Mr. Woods says in his letter: "Your effort to set us right when you believe we are on the wrong track is an evidence of good will and friendship which we appreciate. It is our policy to present all sides of disputed questions like this and the information you send will aid us in our treatment of the copper strike. The press reports and comment on this matter have been extremely meagre, many editors, even in Michigan, seeming to think it best to dodge it. We do not follow that policy; however, and so treated it with what material we could get, mainly from The Survey, which usually can be depended upon to give fair treatment. The ex-

tract from the miners' organ was given merely to show what they had to say. We are now planning another article, to be made up mainly of comment from Michigan papers, which should be conversant with all the facts and show the feeling of Michigan on the question at issue. This article will give both sides and will convince you, I am sure, of our entire fairness and impartiality."

Mahoney Assails Supreme Court. Washington, Dec. 18.—C. E. Mahoney of Denver, vice president of the Western Federation of Miners, appeared before the house rules committee to tell about conditions in the Michigan copper mine region.

Mr. Mahoney charged that members of the supreme court of Michigan had been keenly interested in the mining properties, either as stockholders or otherwise, and that it was impossible to obtain redress for the miners before the state courts. It was alleged by Mahoney that the mine operators in Michigan had employed agencies in Chicago, New York and the principal Eastern cities to outfit gunmen for service in the copper mine strike area. "Men are employed frequently," he asserted, "to work in the northern timber belt, and when they are collected armed guards are placed in charge of the railroad cars and instructed to deliver them to the Michigan copper district, where they are kept under threats of death and compelled to labor in peonage."

THE DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY The Mining Journal Company, Limited.

Issued daily except on Sundays. Contains Associated Press dispatches, and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per year, by mail, \$6.00 Per month, by carrier, .60

Entered as mail matter of the second class in the postoffice at Marquette, Mich. FRIDAY, DECEMBER 19, 1913.

WITH THE MOURNERS.

Minority Leader Mann and Uncle Joe Cannon led the croakers' chorus at Washington this week. Mr. Mann assured the house, and the country, that we are even now suffering a real panic due to Democratic misrule and that the tariff is such a fiasco that a currency measure is being jammed through congress to help repair the mischief...

The country is likely to view this mournful croaking as so much partisan drivel. It's true enough that business isn't booming, but when Mr. Mann says we are in the midst of a panic his discretion has been carried away by his partisan zeal. The New York Herald has lately completed a detailed survey, conducted through well informed correspondents, of business conditions. Their general average is indicated to be very good. In some states, Michigan among them, business is said to be at a standstill. Offsetting this, in many states, particularly in the south, business is reported to be on a particularly lively and profitable basis. In the northern states generally a long period of unseasonable weather has had a marked effect on the industrial situation. Woods operations have been badly set back, and this has made for a condition of unemployment where work would otherwise be fairly plentiful. In turn, the curtailment of operations in the woods has reduced the amount of railroad traffic usually enjoyed at this season of the year. Thus peculiar climacteric conditions have contributed to the lull.

Business, to be sure, isn't as good as it might be, but it is as plain as a pikestaff that it is much better than those professional mourners, Minority Leader Mann and Uncle Joe Cannon, are willing to admit. They have apparently not yet sensed that the public is pretty well tired of the time-honored trick of crying down business in the hope that the reluctant conditions will permit a lot of back politicians to point with glee and say "we told you so."

Minority Leader Mann and Uncle Joe had better leave the mourners' bench for an indefinite vacation.

QUARREL SOME SOCIALISTS.

Until the socialists in this county have been able to give a more conclusive exhibition of ability to manage their own business than they have to date, it is not to be expected that they will make appreciable headway with their proposal that they be allowed to manage the public's business.

The socialistic doctrines do not appear equal to the test of conserving harmony even among the socialists themselves. In circuit court this week two factions of the Negaunee local have been full armed with attorneys, contenders in a suit in which, it is said, possession of the Labor Temple, the sanctuary of socialism at Negaunee, is to be the final prize.

Factionalism among the socialists, it appears, resulted from an election attended by practices which the socialists who lost termed "sharp" and wholly unwarranted by the constitution, by-laws, principles of the party or any other test of proper conduct between men and men. The charter of the Negaunee local, it appears, was withdrawn by the state organization, and a state of extreme bitterness has existed between the factions for several months.

Its issue was, of course, a resort to the courts. With their assistance it is expected that the equities of the case, as far as the property interest represented by the Labor Temple at Negaunee is concerned, will eventually be settled.

But of course the courts have nothing to do with the schism in the ranks of the Negaunee partymen. That will have to be composed, if at all, by some other influence.

In the meantime, it is illuminating to note that the broad principles of both

MAQUETTE, MICHIGAN, December 13, 1913. Mr. W. S. Prickett, Roycroft Farm, Sidnaw, Mich.

Dear Sir: This is to certify that the sample of assembled milk from your entire herd, drawn at four p. m., Dec. 10th, plated 18 hours later, showed the presence of 2,966 bacteria per cubic centimeter for an average of eight plates. This, you will note, is less than one-fourth the number permitted for certified milk.

Yours truly, S. D. MAGERS, Prof. Biology, Northern State Normal.

been warned of the menacing nature of the brewing storm and some of them might have been saved. However this may be, the results of that storm, and the increasing number of salt water demonstrations of the utility of the wireless on shipboard, have given a considerable impetus to its use on fresh water, for it is announced that when next season of navigation opens at least fifty additional steamers on the lakes will be equipped with wireless. The prediction is confidently made that a wireless outfit will soon be considered an indispensable part of the equipment of every first class steamer plying the lakes.

The interest of the merchants of the copper country in having the time in which the men now on strike will be permitted to return to work extended until January 1 is easily understood. Many of these merchants have accounts against the strikers. If they are replaced and are forced to leave the district the merchants will stand to lose heavily, as comparatively few of the accounts would, in that event, be settled. Perhaps the managers will be able to see the thing their way. They will not want to cause the merchants any unnecessary hardship, but naturally they want to take conclusive action with regard to the strike without much further delay. It's whipped, and managers want to make it clear that it is whipped.

PLANNING FOR THE FUTURE.

The "No Amalgamation" flag is still carried at the Progressive party's masthead. At Chicago this week the state organization held a meeting of 300 delegates, representing every county in Illinois, at which a decision was reached to put in the field candidates for every office.

Likewise this week the congressional committee began active preparations for the campaign next year, and will open headquarters the first of the year. In Ohio, where the Cleveland Leader, owned by Dan Hanna, which supported the Progressive tickets in 1912, has lately been devoted to the furtherance of the "get together" movement, the Cuyahoga County Progressive club has just pronounced against amalgamation and for full congressional, legislative and county tickets. A Progressive conference will be held in January, to take measures to put a complete state ticket in the field.

It is a fact that must be given full recognition in the consideration of all questions of national politics that the Progressive leadership is undismayed, and is planning confidently for the future. Clearly it will take very sweeping measures to bring the two parties together. The wrongs that were done in 1912 will have to be righted before there will be a chance of such an outcome.

THE REASON OF IT.

Why did Barnes, of New York, support the proposal to hold an interim Republican convention next year, and why did Borah oppose it? This question has been framed by many persons who have regarded the proposed convention as a progressive measure and who know Barnes as a prince of reactionaries. It is answered, in a measure, by the following comment of Ben F. Allen, the Washington correspondent of the Cleveland Plain Dealer:

On the question of holding an extraordinary convention next year the division was not on progressive and conservative lines, as had been expected. It had been expected that the progressive wing of the party would insist, without surrender, for a national convention and that the conservatives would oppose.

Instead there were unexpected changes in this line-up. Senator Borah, a conservative liberal, earnestly opposed the holding of a special convention, while on the other hand the votes of "Boss" Barnes, Republican state chairman of New York, and W. Murray Crane, of Massachusetts, ultra-conservatives, were cast for a convention. The motive in retaining the opinions of these leaders of opposing thought within the party were made perfectly clear at the committee session and indicated that the elements within the party have a long road yet to travel before there can be hope of harmony.

It is likely that the question of liberal control of the Republican party was yet to be settled and that he was not willing to face it until the primary system of selecting delegates had been extended to cover all the states.

On his own part, Senator Borah said the question of conservative or liberal control of the Republican party was yet to be settled and that he was not willing to face it until the primary system of selecting delegates had been extended to cover all the states.

When he was ready for the issue, "interjected Barnes. 'We are ready for a convention because we believe that it will be controlled overwhelmingly by the same, conservative element.'

Wheeling to face Barnes, Senator Borah retorted: "That is exactly why I oppose a special session of the convention. Take my word for it, the primary system of selecting delegates will be in operation in a great majority of the states by 1916. Then we can have a fair test of this question. If the Republican party is to be the party of plutocrats then it might as well be on the scrap heap. I do not intend to face such a contest with my hands tied and feet hobbed."

This clash between the two types of party men emphasized a tendency, commented upon by all observers of the national committee session, toward a division of sentiment along economic rather than party lines. The belief that there must come a division of the political thought of the country into two groups, irrespective of party, one representing the liberal and the other the conservative opinion of the country, frequently was expressed.

This idea was strengthened by the week's action of the members of the Bull Moose party in congress, who met and by resolution denounced the session of the national committee as "hypocritical" and declared against any amalgamation of the Republican and Progressive parties.

The action of the Republican national committee, the Progressive party leaders declared, will not stop the movement now under full way in this country for the assembling of all radicals and progressives in one party and the conservatives and reactionaries in another.

Not one of the nineteen vessels lost on the lakes during the early November storm was equipped with a wireless outfit. Had they all been so equipped, the statement is made that they would have

been warned of the menacing nature of the brewing storm and some of them might have been saved. However this may be, the results of that storm, and the increasing number of salt water demonstrations of the utility of the wireless on shipboard, have given a considerable impetus to its use on fresh water, for it is announced that when next season of navigation opens at least fifty additional steamers on the lakes will be equipped with wireless. The prediction is confidently made that a wireless outfit will soon be considered an indispensable part of the equipment of every first class steamer plying the lakes.

The interest of the merchants of the copper country in having the time in which the men now on strike will be permitted to return to work extended until January 1 is easily understood. Many of these merchants have accounts against the strikers. If they are replaced and are forced to leave the district the merchants will stand to lose heavily, as comparatively few of the accounts would, in that event, be settled. Perhaps the managers will be able to see the thing their way. They will not want to cause the merchants any unnecessary hardship, but naturally they want to take conclusive action with regard to the strike without much further delay. It's whipped, and managers want to make it clear that it is whipped.

PLANNING FOR THE FUTURE.

The "No Amalgamation" flag is still carried at the Progressive party's masthead. At Chicago this week the state organization held a meeting of 300 delegates, representing every county in Illinois, at which a decision was reached to put in the field candidates for every office.

Likewise this week the congressional committee began active preparations for the campaign next year, and will open headquarters the first of the year. In Ohio, where the Cleveland Leader, owned by Dan Hanna, which supported the Progressive tickets in 1912, has lately been devoted to the furtherance of the "get together" movement, the Cuyahoga County Progressive club has just pronounced against amalgamation and for full congressional, legislative and county tickets. A Progressive conference will be held in January, to take measures to put a complete state ticket in the field.

It is a fact that must be given full recognition in the consideration of all questions of national politics that the Progressive leadership is undismayed, and is planning confidently for the future. Clearly it will take very sweeping measures to bring the two parties together. The wrongs that were done in 1912 will have to be righted before there will be a chance of such an outcome.

THE REASON OF IT.

Why did Barnes, of New York, support the proposal to hold an interim Republican convention next year, and why did Borah oppose it? This question has been framed by many persons who have regarded the proposed convention as a progressive measure and who know Barnes as a prince of reactionaries. It is answered, in a measure, by the following comment of Ben F. Allen, the Washington correspondent of the Cleveland Plain Dealer:

On the question of holding an extraordinary convention next year the division was not on progressive and conservative lines, as had been expected. It had been expected that the progressive wing of the party would insist, without surrender, for a national convention and that the conservatives would oppose.

Instead there were unexpected changes in this line-up. Senator Borah, a conservative liberal, earnestly opposed the holding of a special convention, while on the other hand the votes of "Boss" Barnes, Republican state chairman of New York, and W. Murray Crane, of Massachusetts, ultra-conservatives, were cast for a convention. The motive in retaining the opinions of these leaders of opposing thought within the party were made perfectly clear at the committee session and indicated that the elements within the party have a long road yet to travel before there can be hope of harmony.

It is likely that the question of liberal control of the Republican party was yet to be settled and that he was not willing to face it until the primary system of selecting delegates had been extended to cover all the states.

On his own part, Senator Borah said the question of conservative or liberal control of the Republican party was yet to be settled and that he was not willing to face it until the primary system of selecting delegates had been extended to cover all the states.

When he was ready for the issue, "interjected Barnes. 'We are ready for a convention because we believe that it will be controlled overwhelmingly by the same, conservative element.'

Wheeling to face Barnes, Senator Borah retorted: "That is exactly why I oppose a special session of the convention. Take my word for it, the primary system of selecting delegates will be in operation in a great majority of the states by 1916. Then we can have a fair test of this question. If the Republican party is to be the party of plutocrats then it might as well be on the scrap heap. I do not intend to face such a contest with my hands tied and feet hobbed."

This clash between the two types of party men emphasized a tendency, commented upon by all observers of the national committee session, toward a division of sentiment along economic rather than party lines. The belief that there must come a division of the political thought of the country into two groups, irrespective of party, one representing the liberal and the other the conservative opinion of the country, frequently was expressed.

This idea was strengthened by the week's action of the members of the Bull Moose party in congress, who met and by resolution denounced the session of the national committee as "hypocritical" and declared against any amalgamation of the Republican and Progressive parties.

The action of the Republican national committee, the Progressive party leaders declared, will not stop the movement now under full way in this country for the assembling of all radicals and progressives in one party and the conservatives and reactionaries in another.

Not one of the nineteen vessels lost on the lakes during the early November storm was equipped with a wireless outfit. Had they all been so equipped, the statement is made that they would have

EDITORIAL OPINION

Birthday of the Aeroplane.

The aeroplane is ten years old today. A decade ago this morning the Wrights of Dayton saw the culmination of their plans when one of the brothers made a twelve second flight from the sloping side of Kill Devil hill at Kitty Hawk, N. C. Man and machine did not get far from the ground, and they came down from force of circumstances over which the man had no control, but it was the first time that a machine carrying a human being had raised itself by its own power into the air in full flight, had sailed forward and then landed at a point as high as the starting-place.

A great event by man has been going on during these ten years. The air is coming under domination. Who is bold enough to say what another decade will bring forth in aeronautics?—Cleveland Plain Dealer.

Huerta Losing Ground.

Much is still uncertain in the Mexican situation, but there can be no doubt that the revolutionists are getting access to the coast. They have been within the last few days. They are spreading their lines farther southward, not only along the coast, but in the interior of the country. Huerta is plainly losing ground.

The struggle is going against him in other ways than loss of territory. His financial resources are evidently dwindling like his army, and he has fewer trained and reliable officers than he could call upon even as lately as a week ago. There is a steady loss of moral support for the present government, in the capital of Mexico among foreign residents. Huerta is able to show no gains of importance to offset his many reverses.

His drift of events toward the dowry of the usurper cannot continue long without bringing the natural end of the fall of the despot who still retains the use of the sea-ports and custom houses and is still able to tax mercilessly the great bulk of the Mexican people. From all points of view it seems that the end of the Huerta regime cannot be far distant.

Another straw to show the way the strike is blowing. Announcement is made that hereafter the Miner's Bulletin will be printed but once a week.

STATE PRESS

Michigan also leads the Union in postal bank deposits. Some class to the Wolverines, surely.—Jackson Citizen-Press.

It doesn't seem exactly fair to put eleven farmers on a jury to try a horse doctor for his life.—Port Huron Times-Herald.

Money saved by women in the egg-boycott will go toward those much coveted diamonds for Christmas.—Bay City Times.

It is possible that a tactful hint to your best girl would avert the possibility of receiving a necktie for Christmas.—Flint Journal.

The people of Bay City want to hold an election for the choosing of commissioners to revise the charter, but the council doesn't want to let them. As in Saginaw they have had to appeal to the courts and the attorney general to have their rights upheld. Still, we presume there are some good people in Bay City who will argue that under the ward council system the people rule.—Saginaw News.

Chicago's Problem. Providing beds and coffee for workless men is proper, but providing remunerative work for them would save them from the reproach of charity.—Chicago News.

Feline Affair. High cost of living note: A \$500 Persian cat ran away in Washington wearing a \$1,000 turquise and gold collar.—Cleveland Leader.

Old Matter. The census bureau is struck by the fact that the increase in cotton manufactures has been much greater in the South than in the North. But every body outside of the census bureau has known this for thirty years.—Florida Times-Union.

Here's Hoping. Dr. Murphy, of Chicago, one of America's most famous surgeons, says that the trend of the time is away from surgery. Here's hoping Dr. Murphy is altogether correct.—Cleveland Plain Dealer.

Poets to the Front. Special consideration is to be granted to actors in the payment of the income tax because they had the courage to take a light for what they considered their rights. Now let the poets organize and demand fair treatment in this income tax matter.—Chicago Record-Herald.

ANACONDA.

The new converter at the Washoe reduction works is in commission. The machine is of the Great Falls type and is three times as large as the others in use at the Anaconda plant. It is twenty feet in diameter and has three times the capacity of the other machines.

FIT HIS CASE EXACTLY.

"When father was sick about six years ago he read an advertisement of Chamberlain's Tablets in the papers that fit his case exactly," writes Miss Margaret Campbell of Ft. Smith, Ark. "He purchased a box of them and he has not been sick since. My sister had stomach trouble and was also benefited by them. For sale by All Dealers.

A LAUGH OR TWO

What Moses Was.

There was no love lost between a certain pupil and the teacher of a colored school in Richmond. Moses thought the teacher was too critical, to which effect he had expressed himself more than once, with the result that he had been disciplined.

"You are giving attention to what I say, Moses," said the teacher one day during the course of a talk to her class. "Yes, teacher, I is payin' attention, 'deed I is," Moses hastened to say.

"You should never say 'I is,'" admonished the teacher. "I have told you a thousand times. You know the correct way. Give me some good stories to tell." "Yesum," said Moses, meekly. "I am one of de letters of de alphabet. I am a pronoun."—Harper's Monthly.

A Sad Case.

A certain doctor, who is, on his own frank admission, "the ugliest man in four countries," has a keen sense of humor. He is unable to enjoy many real and unconscious reflections upon his facial deficiencies.

Once, after he had arrived too late to succeed a poor woman who had been killed in a factory, the local newspaper published an ambiguous account of the accident. The doctor, with grim appreciation, preserved.

Having first described how the woman had come by her injuries, the paragraph went on to say: "Strong hopes were entertained of saving her until Dr. P. arrived; but these hopes unfortunately proved ill-founded, for the moment the doctor showed his face within the door the poor woman fell back with a gasp and expired."

Could He? Well, Yes.

Just before he left London for a well-earned holiday a Dunoon, Harry Laidler was telling us some good stories in his dressing room at the Palace.

One of them related to a christening ceremony that was taking place in a church in a mining district. The infant that was to be christened was gloriously arrayed in the best of silks, which were a splendid bountiful, when the critical moment arrived, the mother had some difficulty in removing.

With the eyes of the congregation upon her the poor woman was greatly flustered, and her attempts to hold the baby in her arms proved abortive. At the same time seemed likely to end in her dropping the infant on the floor.

The clergyman turned rather impatiently to the father; a tremendously powerful looking collier, who was standing stolidly watching his wife's struggle.

"Can you hold the child?" he asked sharply. "The big collier turned a disdainful glance on the minister, rather a diminutive man. "Man, I could fling him over the Kirk-an' you take!"

In the Railway Carriage.

"The British custom of locking passengers into compartments in railway carriages," says an American railway man, "is productive of all manner of curious and amusing results.

In one occasion I was a witness of this one. On a station a woman with a logzette entered. She gazed sternly upon the man opposite. Before setting herself, she opened the carriage window and sent it down with a bang. At the next station another woman entered. As she sat down, she gave a look at the sitting journal, and pronounced it a fine specimen. Then she shot an appealing glance in the direction of the male person. 'I shall be frozen to death!' she cried.

"If that window is closed, I shall suffocate!" retorted the woman with the logzette. "Just then the porter came around. At the request of the second woman, he began to raise the window. Then at a furious glance from the logzette he desisted. Clearly, he was in a predicament."

"What, sir," asked he of the man opposite, "what would you say 'ow I should do sir?" "It's quite simple," said the man, as he rose to leave the train. "Leave the window as it is until one lady is frozen to death, then close it and suffocate the other. I am getting off here."—Lippincott's Magazine.

PROCEEDINGS OF THE LIGHT AND POWER COMMISSION. At a regular meeting of the Light and Power Commission, held at its office in the City Hall, Nov. 10th, 1913, the following commissioners were present: Sherman, Young, Lewis, Fassbender and Pearce.

Copper Country

INVESTIGATOR HAS GOOD TIME.

J. S. McGill Says He Enjoys Looking Up William Turk Case.

James S. McGill of Pittsburg, special agent for the Carnegie Hero Fund commission, who was in Houghton Wednesday and yesterday, investigating the case of William Turk, who gave up his life at Weeber's lake in an effort to save that of his friend, Gus Kiula, June 15, says that he enjoyed the experience.

Mr. McGill is required by the commission to see all eye-witnesses of the matter under investigation, at no matter what expense of time or money. He went to Weeber's lake Wednesday morning and made himself known to John Weeber, owner of the lake and the resort hotel there. Mr. Weeber gave the investigator every assistance, in fact went to an extreme. It was found that one eye-witness of Turk's death had left the Weeber's lake district and that he was thought to be at Keweenaw Bay.

CALUMET'S NEW POSTOFFICE.

Only One Building Proffered for Lease to the Government.

Although the government some time ago advertised for proffers of a suitable building to house the Calumet postoffice for the next five to ten years, only one proffer has been received so far and the building proffered is so located as to be unacceptable. The postoffice department wishes to locate the office in as central a position as possible. The building proffered is near the Copper Range railroad yards.

HOTELS ARE DESERTED.

Traveling Men Headed for Their Homes to Spend Christmas.

The lobbies of the hotels in the copper country present a deserted appearance just now. The traveling men are either home or are headed that way and will not return until the middle of next month. "Merry Christmas and a Happy New Year" greetings are shouted as the knight of the grip leaves the hostelry, happy because he is going home for a few days.

BOOSTS PRINCESS POINT CUT.

Duluth Commercial Club Favors Portage River Improvement.

The public affairs committee of the Duluth Commercial club is in favor of the Princess point cut project, which the Copper Country Commercial club is trying to get through congress. The Duluth club is interested in any movement that will tend to assist the marine interests and, judging from the report made on the Princess point cut project, Duluth considers the improvement will be of benefit. The report says the cut will shorten the route to Duluth and that the Portage lake harbor of refuge will be used by more steamers if the cut is made.

HUSBAND AND WIFE ARRESTED.

A warrant was issued in Justice Eickern's court at Houghton this week for the arrest of D. E. Rice and wife of that city, both being charged with assault and battery. The complaining witness is Emil Klingbeil, an employe at the Orpheum theater, of which Rice has been the manager for the last two years. A somewhat complicated story of the incidents leading up to the arrest is told. Justice Eickerna has set the examination for next Monday.

CALIFORNIA WOMAN SERIOUSLY ALARMED.

"A short time ago I contracted a severe cold which settled on my lungs and caused me a great deal of annoyance. I would have had coughing spells and my lungs were so sore and inflamed I began to be seriously alarmed. A friend recommended Chamberlain's Cough Remedy, saying she had used it for years. I bought a bottle and it relieved my cough the first night, and in a week I was rid of the cold and soreness of my lungs," writes Miss Marie Gerber, Sawtelle, Col. For sale by All Dealers.

MANY RETURN FROM THE WEST.

Former Copper Country Men Are Coming Home to Get Work.

Former copper country men attracted by reports that they can obtain plenty of work in almost any line of labor in the Keweenaw peninsula are returning from Butte, Mont., Great Falls, Helena and other parts of the West and all are getting employment as rapidly as they apply for it. Yesterday a party of eight former Calumet men, three of them with families, arrived from Montana points. They claim that labor conditions in the copper country are much better than those at Butte, especially when the cost of living is taken into consideration, and that the wages paid here compare more than favorably with the best wages paid in the Montana country.

Two of this party of eight men are experienced miners. They both went West at the beginning of the strike and are mighty glad to get back to Michigan. At Butte they could earn \$3.75 a day. One was earning \$4.25 before leaving here, while the other averaged better than \$4 for more than three months. They will resume their old positions with the Calumet & Hecla company.

One of the returning men is a tinsmith. He has already obtained a good position in Calumet. Two of them are blacksmiths, and they also have procured positions at as fully as good wages as are being paid in Butte. In Butte, these men claim, work is scarce right now and there are hundreds of men there and also in the Southwestern mining regions, through which the party has traveled, without work.

DR. MACDONALD'S APPOINTMENT.

Former Head of Quincy Medical Staff Goes to Mohawk-Wolverine.

Announcement was made yesterday of the appointment of Dr. Neil S. Macdonald as head of the medical staff for the Stanton properties, which include the Mohawk and Wolverine mines and mills. Dr. Macdonald will assume his duties the first of the new year. The appointment is one of the important resident physician posts in the copper country.

Dr. Macdonald was until a year ago physician-in-charge at the Quincy mine, a position he held for several years. After severing his connection with the Quincy, Dr. Macdonald arranged to spend several months in study abroad, but illness in the family prevented. He returned to the copper country two weeks ago to visit and was tired to remain here and open an office. It was while considering this matter that the proffer from the Stanton interests was received and accepted.

Mrs. Macdonald and children are residing in Detroit. They will remain there until spring, when they will come to the copper country to join Dr. Macdonald.

FRIENDLY SUIT AGAINST CITY.

Hancock Will Pay Its Bills in a Somewhat Roundabout Way.

At the Hancock common council meeting Wednesday evening the city attorney was empowered to proceed with a friendly lawsuit in which the municipality will be the defendant. For several months the city clerk has been filing bills contracted before the present administration went into office and these have been assigned to W. H. Mason, who will act as plaintiff in the suit. Alderman Francis brought the issue to a head when he said he was tired of having people ask him when the city intended paying bills that were contracted several months ago. The alderman said that inasmuch as the previous administration frequently took a shot at the administration which preceded it, concerning bills contracted and unpaid, it might not be out of the way to call attention to bills surviving the last administration.

MISSION SOCIETY REPORT.

Rev. A. O. Nylin Gives Out Statement of Receipts and Expenses.

Rev. A. O. Nylin, missionary in charge of the Christian Home Missions society in the upper peninsula, has made known his financial report, covering the period since August 1. The statement of receipts follows: Houghton, \$20; Escanaba, \$23; Hancock, \$17; Iron River, \$21; Marquette, \$11; Ontonagon, \$10; L'Anse au Loup, \$10; Ishpeming, \$3; Neegaunee, \$6; South Range, \$3; total, \$157. The following is the statement of the missionary's expenses for the same period: Hotels, \$85; railroad fares, \$32.40; moving furniture, \$5; clothing, \$22; total expenses, \$147.40.

WILL VISIT FOREIGN LANDS.

Pastor of St. Joseph's Church to Spend Three Months Abroad.

Rev. Father Glaser has completed arrangements for his European trip. He will leave Hancock in February to spend three months abroad. He will visit Italy, France, Germany, Austria and Switzerland. During the absence of Father Glaser, Father Roibinburg of St. Louis will have charge of St. Joseph's parish. The St. Louis priest is in the upper peninsula in the hopes that the northern climate will restore him to his former good health.

COCAINE AND CRIME.

Police authorities have come to regard cocaine as one of the recognized sources of crime. The cocaine fiend seems to have his moral sense destroyed. The morphia devotee is often a man of refined and elevated thought, with delicate perceptions and with a keen sense of honor and obligations except that he will always lie and deceive to get possession of his needed "dope." In his sobriety the alcohol fiend is often a man of conscientious honor; the cocaine fiend seems different. It is believed that cocaine directly stimulates to evil passions and evil deeds.—Family Doctor.

CURED OF LIVER COMPLAINT.

"I was suffering with liver complaint," says a Smith of Point Blank, Texas, "and decided to try a 25c box of Chamberlain's Tablets, and am happy to say that I am completely cured and can recommend them to everyone." For sale

NOTES OF MINING NEWS.

Davis-Daly is now shipping 300 tons of ore a day, mostly from the Hesperus vein. The production for the first-eight days of December exceeded that for the entire month of December a year ago.

The Lake Superior strike has thus far resulted in a reduction of \$4,741,130 in the annual rate of dividends paid by eight of the more important copper producers. Added to this, of course, is the loss in wages.

La Rose having declared a regular quarterly dividend of 2 1/2 per cent and a "bonus" of 2 per cent, payable Jan. 20 to stock of record Dec. 31, this makes 12 per cent for the year. The cash surplus on Nov. 30 was \$1,772,161, of which \$1,021,861 was in cash. The November production was 194,882 ounces of silver, valued at \$110,931. The profit for the month was \$70,424.

Markets

[From Geo. F. Ruez, Ishpeming.]

BOSTON COPPERS.

The activity in the coppers Thursday was confined to North Butte, Copper Range, Butte Balklava, Lake and Calumet & Arizona. Lake advanced to 67 1/2. North Butte was not as active as Wednesday, but the stock was well taken around 27. Calumet & Arizona was up one-half, to 61. Ahmeek declared a dividend of \$2, payable Jan. 10 to holders of record Dec. 20. This is a reduction of \$1, compared with the dividend declaration of the previous quarter. Thursday's closing prices of stocks were as follows:

New York Stocks.

Continued selling of Canadian Pacific, which forced the price down to 212, and buying of Union Pacific and Steel were the features in the New York market Thursday. The Union Pacific report showed earnings for the year ended June 30 of 14 per cent, compared with 13.87 per cent for the previous year. The gross revenue for the year was the largest in the history of the company. The total sales at New York Thursday were 287,800 shares. Closing prices were:

Table listing New York stock prices for various companies like Amal, Anaconda, Can. Pac., etc.

AMERICAN EXPRESS STOCK SELLS BELOW ITS PAR VALUE; CANADIAN PACIFIC WEAK ALSO.

New York, Dec. 18.—The price movements in the stock market today were mixed and in the end only slight changes were registered in the general run of prominent shares, although there were wide movements in isolated cases. Canadian Pacific was weak, dropping six and a half points. American Express yielded five and one-half, to 95, selling below par for the first time in years.

The readiness with which the market absorbed offerings prevented an extended decline and induced traders to give up attempts to hammer the list. While the outlook is too uncertain to encourage an extended forward movement, it was evident that sentiment was more cheerful. The postmaster general's recommendation of government ownership of telegraph and telephone lines exerted only temporary influence on American Telephone.

Wheat Drops to Lower Level.

Chicago, Dec. 18.—Belief that only a positive calamity will prevent a record yield in 1914 carried wheat today to a much lower level. Final prices were as follows: May wheat, 90 1/2; July, 87 1/2; December corn, 69 1/2; May, 69 1/2; standard oats, 40 1/2@41.

"BEAUTY SPOTS" AND CANCER.

A warning against scratching or otherwise irritating "beauty spots," because cancer may result, is issued by Dr. Jean Darien of St. Louis hospital, Paris. In order to allay any alarm, Dr. Darien asserts that if they are left alone there is no special ground for fear in "beauty spots," but if, after any kind of irritation, they grow red and commence itching, a visit should at once be paid to a surgeon. He will, if necessary, remove all danger of cancer by the application of radium "X" rays or the more common electrolytic treatment.

CATARH CANOT BE CURED

With LOCAL APPLICATIONS, as they cannot reach the seat of the disease, Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces. Hall's Catarrh Cure is not a secret medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by Druggists, or Direct from the Manufacturer. Take Hall's Family Pills for constipation.

PRINTING

Not how cheap, but how good. None but the best work turned out at the Mining Journal print shop.

Prices Reasonable

Printers who cheapen the price beyond the living rate, cheapen their product accordingly. You get only what you pay for.

Why Not the Best?

The difference is worth while. Bring your printing to the Mining Journal, get the best there is and get it promptly.

City Brevities

A son was recently born to Mr. and Mrs. Charles Cleary, West Arch street. Misses Kennedy, of Ishpeming, were the guests of Marquette friends yesterday.

Henry Herlich returned yesterday afternoon from a trip through the eastern states.

Miss Grace O'Rourke and Miss Mabel MacKenzie will leave this evening for Ontonagon.

Miss Florence Palmer has left for her home in Calumet, where she will spend the holidays.

Angus W. Kerr, of Calumet, was in the city yesterday, looking after business in circuit court.

A. H. Ryall, of Escanaba, spent yesterday in the city, attending to business at circuit court.

Miss Jean Hotchkiss went to St. Ignace yesterday to spend the holidays with her parents.

Miss Etna McIntosh, who is teaching in the schools of Wakefield, will return to Marquette tomorrow to spend Christmas.

The Ladies' Aid society of the First M. E. church will hold a special meeting this afternoon at 2:30 o'clock in the church parlors.

Miss Katherine D. Wright, teacher in the Gwin schools, will arrive in Marquette today to spend the holidays with her father, B. W. Wright.

Miss Maymie Stratton, a student at the Northern State Normal school, left yesterday afternoon for her home in Hancock, to spend Christmas.

Albert Jacobs left yesterday afternoon for the Soo, after visiting in Marquette for the past three days. He will return Tuesday and will spend the holidays here.

Miss Prondfoot, of the faculty of the Northern State Normal school, left last evening for Chicago on her way to Providence, R. I., where she will spend the holidays.

A meeting of the Ingeborg society will be held tonight in its lodge rooms in Keough's Hall. Officers will be elected for 1914. Lunch will be served, following the meeting.

W. P. Fitch left last evening for Chicago, where he will meet Miss Emily Phelps, a granddaughter, who is returning home to spend the holidays. They will arrive in Marquette Sunday.

Miss Kate Stewart will return to Marquette this afternoon from South Range, where she is a teacher in the public schools, and will spend the holidays with her parents, Mr. and Mrs. E. L. Stewart.

Herman Gundlach, the Houghton contractor, is a Marquette visitor for a few days. He has the contract for the erection of the administration building of the Northern State Normal school.

The funeral of Miss Marie Estalla Whalen, who died Wednesday night, will be held Saturday morning at 8:30 o'clock from St. Peter's cathedral. Interment will take place in Holy Cross cemetery.

The First Methodist Ladies' Aid society will hold a business meeting in the parlors of the church building this afternoon at 2:30 o'clock. Matters of importance to the organization are to be considered.

Each of the three persons who guess nearest the number of covers all aprons now piled in the window of the Paris Fashion store will be given an apron. Guesses may be handed in at any time. A sale of the aprons will open Monday afternoon at 4 o'clock.

Laid up for Winter—The tug Columbia, of the Anderson Fish company, and the tug Theora, of the Parker Fish company, have been laid up for the winter months, following the close of herring season last week.

Act Pleased—Palfrey, Barton and Brown, presenting "The Follies of Vaudeville," pleased large assemblages at the Marquette Opera House last evening. The feature of the act was clever bicycle riding, with an abundance of comedy. Several dances were thoroughly enjoyed.

Schools Close Wednesday—The Marquette high school and the public grade schools of the city will close Wednesday noon for the Christmas vacation. School will be resumed on Monday, Jan. 6, giving a vacation of twelve days.

Most of the high school teachers, who live at distant points, will leave for their homes tonight.

Date Not Set—No date has yet been set for the Peter White Oratorical and declamatory contests, an annual event at the Marquette High school, although several members of the senior and junior classes have commenced the preparation of orations. Directly following the Christmas vacation, rehearsals of declamations will be conducted and the contest will probably be held during the latter part of February.

INSURE WITH PETER WHITE & CO. MEDALS FOR BIRD TALES.

W. B. Mershon, of Saginaw, Arranges Contest for Entire State.

W. B. Mershon, one of Michigan's closest students of bird life and a man who has spared no effort to secure the appreciation and protection of the birds, has announced a prize medal contest, in which the awards will be made May 1, 1914, that will embrace the entire state.

For the best stories on birds and bird life nine medals will be awarded in the upper and nine in the lower peninsula. In addition, there will be a special medal award for the teacher in the upper peninsula public or parochial schools whose room shows the largest number of contestants who present manuscripts of merit. A similar award will be made in the lower state counties.

It is announced that the age of contestants will be considered in making the awards. Children who compete must give their age, name of teacher, grade of school and postoffice address, and manuscripts must be sent to Ben C. Bush, Kalamazoo. The committee in charge of the awards is composed of Mr. Bush, Thomas R. Wyman, of Munising, and J. H. McGilivray, deputy state game warden, of Osceola. The latter is a former Marquette man and at one time was employed on The Mining Journal.

The directors of Ahmeek and Osceola are due to meet for quarterly dividend action. Three months ago Ahmeek declared \$3 and Osceola \$2.

GAVE CHRISTMAS PROGRAM.

Sisters' Music Pupils Made Excellent Impression Yesterday.

A charming Christmas program was given by the junior music pupils of the Sisters of St. Joseph yesterday afternoon at St. Joseph's convent. The performers acquitted themselves of their various parts with great credit and received the hearty applause of an appreciative audience of parents and friends. The following is the program that was presented:

Opening ensemble, "Leaves of Ivy"..... Miller
Ruth Frei, Mary Stafford, Margaret Duvoire, Marie Hewlett,
Violin solo, "Romance".....Conte
Emmet Smith.

Choral, "Winter Winds".....Grindall
Piano sextet, "Playfellows' Waltz".....Lerman
Helen Imeson, Margaret Kruse, Anna May Stensrud, Ruth Hayden,
Madge Lupton, Jennie Tapkin.
Vocal solo, "The Toboggan Slide".....Marie Bureau.

Piano quartet, "March des Tambours".....Vincent
Helen Horan.

Piano quartet, "March des Tambours".....Smith
Marie Vandenberg, Louise Doetsch,
Florence Vaughan, Catherine Deegan.
Piano solo, "Shepherd's Dream".....Ryder
Marie Bureau.

Piano sextet, "Christmas Echoes".....Lerman
Lucille Vandenberg, C. Dutmer, M. Moran, Beatrice Boyer, G. Harrington, M. Kinlin.

Violin duet, "Star of Bethlehem".....Kennedy
Emmet Smith and Emmet Dwyer.
Piano quartet, "Little Gem Waltz".....Cadmus
Blanch Lauret, Marie Hewlett, Ruth Frei, Helen Fassbender.

Vocal solo, "The Gift".....Behrend
Lael French.

Piano sextet, "March Triumphant".....Raff
Cecilia Dutmer, Gerald Harrington, A. Bergan, L. Vandenberg, L. Wolf, H. Clark.

Choral, "Christmas Carol".....Grinnell
Piano quartet, "Easter Dawn".....Fieldhouse
Mary Deegan, Catherine Deegan, Anna Haslett, Ida Haslett.

Vocal trio, "Joyous Bells".....Vincent
Piano quartet, "Floating Echoes".....Phelps
Marie Bureau, Lael French, Helen Horan, Helen Fassbender.

OFFICERS WERE CHOSEN.

Marquette Royal and Select Masters Elect 1914 Officials.

Marquette council, No. 72, Royal and Select Masters, has chosen the following officers for 1914:

Thrice Illustrious Master—Perceval J. Delf.
Deputy Master—William J. Ellison.
Principal Conductor of Work—Harvey B. Hatch.

Treasurer—Louis Pendill.
Recorder—John A. Anderson.
Captain of the Guard—Ransom A. Manhard.

Sentinel—Frank A. Wentworth.

INJUNCTIONS ARE SOUGHT

Federation of Miners Trying to Gain Possession of Property of Ishpeming Miners' Union, Now No Longer Affiliated With the Western Labor Organization.

Two Negaunee Socialist Factions Seek the Ownership of Labor Temple—James Hoogerhyde, State Secretary of the Party, Is Called as a Witness in the Case.

An injunction suit brought by the Ishpeming Mine Workers' union, No. 8, against the Western Federation of Miners, and others, is being heard before Judge Flaminigan in chancery, the union seeking an order to restrain the federation from obtaining to gain possession of the Miners' Union hall, on Cleveland avenue. Today the hearing in the suit for an injunction brought against the "old" branch of the Socialist party in Negaunee by the "new" branch will be continued. The so-called "old" organization is endeavoring to gain possession of the Negaunee Labor temple, now held by the other faction. The trial of the case has been delayed, pending the arrival of James Hoogerhyde, of Lansing, state secretary of the Socialist party.

Cases Watched With Interest.

The two suits for injunction, the first due indirectly to strikes in various parts of the country and the second to an alleged fraudulent election of the officers, are being watched with much interest.

Six years ago the Ishpeming Miners' union became affiliated with the Western Federation of Miners and remained with it up to a year and a half ago. All meetings were held in the Miners' Union hall on Cleveland avenue, which is owned almost entirely by the union. After the union surrendered its charter at the time of its withdrawal, the federation sought to gain possession of the hall and \$1,200 in cash deposited in an Ishpeming bank, basing its claims on a clause in the federation charter.

The withdrawal of the union was due to purportedly excessive assessments made against the organization for the support of labor agitators in various parts of the country. Protests sent to the headquarters of the federation were no ignored. The money paid to headquarters was, it is claimed, more than could be afforded by the members. An injunction proceedings were started shortly after the outbreak of the copper country strike and the case was to have gone to trial at the September term of court, but was postponed. M. J. Kennedy, of Ishpeming, is counsel for the union, and Angus Kerr and E. A. McNally are representing the Western Federation of Miners. Briefs have been filed with the court.

Negaunee Case Delayed.

The hearing of the case brought by the Negaunee branch of the Socialist party vs. J. E. Jontsen and others, known as the "old" branch of the party, was not continued yesterday, the court awaiting the arrival of State Secretary Hoogerhyde. This witness is expected today.

The Negaunee organization was disrupted following what was claimed to be a fraudulent election, as a result of which the state executive committee revoked the charter of the branch. It is said that if it is shown that the state executive committee acted under authority in revoking the charter, the Labor

temple, which was built by the organization as a whole, will remain in the possession of those now in control of it. The object of the visit of Mr. Hoogerhyde to determine whether the state secretary and the executive committee had the authority to rescind the charter.

WRITES ON SMALL POX.

Dr. Markham Discusses Pending Bills and Other Matters.

To the Editor of The Mining Journal: Did you get a glimpse of the head of the Ethiopian in the woodpile? A goodly number of aldermen did. We are getting off easy this time, thanks to the efficient management of the Baraga school, and possibly some slight influence "that troublesome man," referred to in the Chronicle recently, may have had.

Down in Saginaw last year the free vaccination crowd brought in bills for twenty thousand dollars! Perhaps they had no parochial school managers to talk the game or any "troublesome man." Up in Baraga county a few years ago a thrifty doctor presented a bill for \$15,000 for his share in the rake-off of a smallpox scare. If you desire all the particulars ask my informant, Jas. De Haas, a resident of that county at the time.

So you see we are getting off easy if the bills presented are the total. Possibly there may be some yet to go to the board of supervisors. Keep on the lookout. It will do no harm. We may be able to learn something really valuable from this free vaccination campaign. It is proper to inquire if there has been a spread of smallpox among the children of the Baraga school because Father Pinten refused the use of the school as a place to frighten and bulldoze children to be vaccinated. Has any one lost his life because he refused vaccination that you know of? At least two deaths may be fairly charged up to the old method of vaccination whatever the death certificates may read. Any amount of needless misery and lowered vital resistance and expense and loss of time is in evidence against this epidemic of free vaccination.

In Leicester, Eng., they abolished compulsory vaccination about twenty-five years ago, and have had very little vaccination there in the mean time, and no epidemic of smallpox, notwithstanding the calamity howlers have been predicting it year in and year out. It is also a fact that the deaths from other infections and contagious diseases have been less than in the well vaccinated neighboring cities. The anti-vaccinationists are bold enough to say that this is because the vital resistance of the children has not been lowered by introducing poison into their systems. It sounds very reasonable and is worth thinking about.

In Germany there has been little smallpox for some years, while down in Italy it has been epidemic. Both countries are well vaccinated. Italy the most thoroughly. Germany believes in sanitation and her cities are clean. Italy is not so particular. It is claimed by those who have made a study of the matter that cleanliness is a surer preventive of smallpox than vaccination and accounts for the conditions in Germany as well as Leicester.

The smallpox that is prevalent in the upper peninsula this winter is as harmless as ordinary chickenpox and leaves no pitting or other bad effects behind it. Plenty of good doctors failed to recognize it as smallpox until it was well under way, and well they might for no one was sick to amount to anything with it. I think most of us are really ashamed to feel compelled to become a party to quarantining so simple and innocent a sickness as this so-called smallpox now is.

We have the name left of the old type of smallpox and that is about all. It is about time to get a new name, don't you think? To be sure the calamity howlers, not those who cling tenaciously to privileges, and authority, scream from the housetops that a mild epidemic may at any time change to a malignant one. They have been howling this for years until the people know they are guessing or bluffing, and a doctor's guess or bluff is no better than a layman's. Don't you think it a sensible way to deal with smallpox if we had it? That will be one great advantage of the new form of government we are about to inaugurate. It will be flexible and close to the people. Lincoln had great confidence in the final judgment of the people as a whole. They are very apt in the end to be very close to the truth. Take this matter of free vaccination for example. Did they all jump at it? Not by any means. If you were to get an opinion from the people of this city today about their choice of vaccination in the old way or having the smallpox we are having it these days, about nine out of ten would elect the smallpox, especially if they have witnessed both. It is certain the majority are taking their chances on the smallpox rather than vaccination in the old way. There is one more thing for you to consider, namely, if this free vaccination scheme had been pulled off without a hitch, it would not have been long before free vaccination against typhoid fever or diphtheria would have been proposed. Then something would have been doing the work while you were paying the bills for antitoxine used in case of diphtheria! Just inquire of your neighbor who has, or at your drugstore. You are gradually being taught that antitoxine is necessary in every case of diphtheria. I propose to let the cat out of the bag and offer you a safer and better plan with little expense. But that is for another time, though it is closely allied to smallpox matters. The people are entitled to know all the truth that any one knows. But truth tellers often go on the cross, curiously enough. But that matters little, when one takes a broad outlook on life.

COPPER COUNTRY BIDDER FOR INDUSTRY

If Uncle Sam Establishes Armor Plate Plant, Red Metal District Wants It.

[Houghton Correspondence.] The Copper Country Commercial club has set on foot a movement to procure for the district an industrial plant that would be second only to the Calumet & Hecla Mining company in benefit to the community. It is an enterprise in a federal armor plate plant.

A memorial, in the form of a resolution passed by the club, was presented to the house of representatives by Congressman William J. MacDonald, Dec. 9. Mr. MacDonald is preparing a bill to establish the plant in the copper country.

In the meantime, Secretary Price is mailing to every senator and representative in congress a copy of the club resolution and he says the Copper Country Commercial club is going after the plant, just as if it had every reason to believe the claims of this district prevail upon congress so that this is the ideal location.

Recommended by Daniels.

The construction of an armor plate plant by the government has been recommended by Secretary of the Navy Daniels and it is being considered seriously by congress. The Copper Country Commercial club believes that the copper country offers everything that can be asked to fulfill the government conditions.

The object of the secretary of the navy is to take the armor plate business out of the hands of private contractors. He believes that the project is a measure of economy, that private contractors have compelled the government to spend too much money for its armor plate for the navy.

The first resolution introduced in congress in favor of such a plant was introduced Nov. 13 by Congressman Tavenner of Illinois, who recommended Rock Island, Ill. His resolution was referred to the committee on military affairs.

Mr. MacDonald's memorial was referred to the house committee on naval affairs and eventually it will get to the senate committee on naval affairs. In the former committee is Representative Patrick H. Kelley of Michigan, who is a friend of the copper country. The senate committee includes Senator Charles E. Townsend of Michigan, who also is a warm friend of the copper country. The presence of the members of the Michigan delegation on the committee insures for the copper country project a hearing at least.

There are numerous sites in the copper country for such a plant, which will be very extensive. It is estimated that the plant would employ between four thousand and five thousand men. One site suggested is at Dollar Bay. It is suggested because of the convenience to lake and rail transportation.

Friends out of congress have agreed to lend their influence to giving the copper country's claims and the Copper Country Commercial club is assured already that if the government erects the plant it will have to be on a site that offers advantages approaching the ideal. The club believes that site is in the copper country.

Copperdom's Invitation.

The text of the Copper Country Commercial club's resolution, as contained in Mr. MacDonald's memorial, follows: "Whereas, The honorable secretary of the navy recommends that the United States government establish at a cost of \$7,000,000 an armor-plate plant, with a view to removing from the control of private corporations the manufacture of armor plate; and

"Whereas, The honorable secretary of the navy has suggested publicly that all communities believing they possess satisfactory sites for such purpose present their claims for consideration, in order that the government may procure, by purchase or otherwise, the site best suited for the purpose; and

"Whereas, It is the duty of all public-spirited citizens to shed the light of the fullest extent of their powers the agents of our national government in making a wise selection; and

"Whereas, The copper country, of the upper peninsula of Michigan, is possessed of peculiar advantages which must at once commend themselves to investigators; therefore be it

"Resolved, That the Copper Country Commercial club respectfully petition the national house of representatives to

direct the honorable secretary of the navy to investigate fully and consider carefully the facilities and advantages offered by the copper country of Michigan as a site for the proposed government armor-plate factory; that he be requested to compare such facilities and advantages with those of the several other sites under consideration, and that he report, in detail, his conclusions to congress before selecting any site; and be it further

"Resolved, That in prosecuting his investigation, the honorable secretary of the navy be requested to give especial consideration to the following advantages of the copper country of Michigan:

Proximity of Raw Materials.

"First: Copper, iron and nickel are the materials entering most prominently into any metal manufactures. There is produced in the copper country annually 220,000,000 pounds of the world's finest copper. The greatest iron ore and pig iron fields in America lie within one hundred miles of the copper country, in Michigan, and within two hundred miles in Wisconsin and Minnesota. The largest local deposits of nickel are to be found at Sudbury, Ontario. The supplies in each instance are practically inexhaustible. Upon raw copper the government would save from one-seventh to one-third of a cent per pound in freights; the savings on iron and pig-iron, as compared with the Atlantic coast rate, would be forty-four cents the ton. Nickel, as well as its iron, are practically without transfer by boat, and being in freight would be considerable, as compared with any inland point. Chromium and manganese, of which small percentages are used in the manufacture of armor plate, may be obtained in the copper country as cheaply as at any other centrally-located point.

"Second: In the event of hostilities, a plant widely separated from its source of supply could easily be deprived of its raw materials by the enemy's seizing avenues of transportation. The copper country, having an unlimited supply of copper within its borders; with iron ore and pig-iron at its doors, and nickel within easy reach by water, would occupy a strategic position, in that a very small force could protect the short lake or rail routes over which outside materials would come. By treaty provision with Great Britain, the Great Lakes are declared neutral territory, and it is not probable that any invading force would violate this treaty.

Cheap Freight Rates.

"Third: Having direct communication by water with every point on the Great Lakes, and its canals and harbors accomplishing the largest vessels sailing the inland seas, the copper country offers the advantage of very cheap freight rates. Conesville coke may be delivered on local docks at a rate of sixty cents the ton; the rate on coal is thirty cents. Rates on machinery and other heavy supplies are correspondingly low. The limestone best adapted to pig iron manufacture and blast furnace work is found at Kelley's island, whence it may be transported by water direct to any port in the copper country.

"Fourth: The recommendation of the honorable secretary of the navy contemplates the purchase of a 'le, if necessary, at a possible expense of several hundred thousand dollars. The Copper Country Commercial club offers, free of any charge, a half-mile of deep water frontage on Portage lake, traversed by two railroads and comprising twenty-five acres of high, level land, with a solid gravel base. No better site for manufacturing involving the construction of massive foundations can be found. Within ten miles of this site, and connected by water, is a splendid deposit of red sandstone, the best and cheapest material available for substantial and permanent structures.

"Fifth: If good facilities for testing by actual projectiles be desired convenient to the plant the rugged hills of Portage lake, towering to a height of several hundred feet, offer the best natural range imaginable. Against these indestructible barriers there may be erected targets for projecting at any distance required, with no fear of loss of life or damage to property. If testing in water be considered advisable, Lake Superior offers all the advantages of either ocean.

"Sixth: Electric power may be had at \$25 an electric horsepower per year, or less. The completion of a \$10,000,000 hydro-electric project within a year will reduce the cost of electricity to a minimum which would make the development of an elaborate waterpower proposition an extravagance. Good steam coal may be delivered on local docks for \$2.05 to \$2.25 the ton, depending on quality. Excellent water for steaming purposes may be drawn from the lake.

"Seventh: The manufacture of cement from slag will be one of the important by-products connected with an armor-plate plant. The upper peninsula of Michigan and the adjoining iron ranges of Wisconsin and Minnesota afford the finest local market in America for this product, and the low freight rates will enable the government to dispose of its material at a profit which will greatly reduce manufacturing costs.

Center of Technical Ability.

"Eighth: The Michigan College of Mines, the foremost institution of its kind in the world, is noted for its school of metallurgy, whence might be drawn expert metallurgists with the exact technical training required, while its splendid staff of instructors would at all times be at the disposal of the government in an advisory capacity.

"Ninth: Ideal health conditions peculiar to the Lake Superior copper country make for greater efficiency and better workmen. It is a proved fact that, owing to the invigorating atmosphere, pure water and mild temperature, in conjunction with the absence of malaria, typhus, smallpox and infection and contagion generally, the Lake Superior workman will produce more under the same conditions than a fellow-laborer in a less-favored region.

Labor Conditions.

"Tenth: During the sixty years in which the copper country has been prom-

incent industrially, its workers have been the best paid, the best housed, the most efficient, the most enlightened and the most contented body of men in the middle west. Eighteen thousand people are engaged in mining in this district under normal conditions. Among the younger generations, to some of whom mining does not appeal, there is an abundance of labor, both skilled and unskilled.

Abundance of Cheap Power.

"Sixth: Electric power may be had at \$25 an electric horsepower per year, or less. The completion of a \$10,000,000 hydro-electric project within a year will reduce the cost of electricity to a minimum which would make the development of an elaborate waterpower proposition an extravagance. Good steam coal may be delivered on local docks for \$2.05 to \$2.25 the ton, depending on quality. Excellent water for steaming purposes may be drawn from the lake.

OVER 700 NEW NAMES ON ROLL

Owners of Houses on Leased Company Ground Taxed for First Time This Year.

If the field men of the state tax commission, who made the new assessments on Ishpeming property last summer could linger about the corridors of the Peninsula bank for a few hours, while the taxpayers are calling to settle their annual rates, they would be able to hear many expressions on their work that are more frank than complimentary. While there has been no end of talk about the increased taxes resulting from the commission's work, it appears that there are many persons who are surprised to find that they are called on to pay increased rates and some of them are not backward in expressing their disapproval at the new demands on them.

While the high taxes will be burdensome to many of the poorer people, the bank officials believe that the usual percentage of the roll will be paid in on or before Jan. 9, when an additional fee of 3 per cent will be charged for collection. As a usual thing, less than \$1,000 in uncollected taxes is reported to the county treasurer on March 1.

About 750 new names were added to the roll this year, as a result of the tax commission's appraisal of properties. Included among these are several who will pay taxes on personal property for the first time this year. Some of these men have been assessed to the full value of their personal holdings. This is something of a surprise, for most of those who trade out statements at the request of the tax commission did not expect that they would be taxed for the full amount shown.

Another new class of taxpayers on this year's roll are those who own houses on lots leased from mining companies. Heretofore the companies paid these taxes in a lump sum, but the commission this year assessed each lot owned by the mining companies separately, and also assessed each house located on company land.

The clerks who handle the tax money have had a much larger task than usual this year in preparing the tax receipts due to the increase in the size of the roll. Many property owners have already paid their taxes, but the heavy payments will not start to come in until after the first of the year.

ISHPEMING IN BRIEF.

Mr. and Mrs. James Reid will leave today for Detroit, where they will spend the holidays with relatives.

Arthur Devine and family yesterday moved from Christ Olson's property, on Maple street, to the Gylling dwelling, on High street.

The Ishpeming Business college will close Tuesday afternoon for the holiday vacation, and will reopen Monday morning, Jan. 5.

Miss Louise Stone, director of music in the Ishpeming public schools, left yesterday for her home in the East, to spend the holidays.

Miss Florence Brayton, who is attending Stout Institute at Menomonie, Wis., will arrive home Sunday morning, to spend her vacation with her mother, Mrs. Nellie Brayton.

About seventy persons attended the card party given Wednesday evening by the Elks in their new club rooms in C. L. Anderson's block, on Canda street. A fine lunch was served.

Many persons yesterday attended the demonstration of bakery goods at the Hendrickson Estate store. Coffee and the products of the bakery were served all afternoon and evening.

Miss Louise Matthews, a student at the University of Wisconsin, Madison, will arrive home tomorrow for the holiday vacation with her parents, Mr. and Mrs. Richard Matthews.

Edward Olds, who left here several months ago for Beardstown, Ill., to take a position with an electric company, will be home to spend the holidays with his parents, Mr. and Mrs. James Olds.

Miss Rosabelle Robinson will leave Sunday night for Fort William, Ont., where she will spend her holiday vacation with her parents, Mr. and Mrs. O. B. Robinson, formerly of this city.

Dehl and Carson, presenting a dancing and singing act at the Ishpeming theater, made a favorable impression at the opening of their three-day engagement last evening. Their numbers are exceptionally good.

The Duluth, South Shore & Atlantic Railway company is selling fare and one-third round trip tickets for the holidays. Tickets will be sold from now until the first of the year and will be good for return until Jan. 10.

H. Riopelle and Art Devine, of Marquette, issue a challenge to a pool match to any two Ishpeming players. Persons desiring to accept the challenge may communicate with Mr. Devine, in care of Fred's pool room, Marquette.

Elbridge Anderson, who is conducting a college in Tennessee, and whose wife and son have been in Ishpeming the past few weeks, visiting his parents, Mr. and Mrs. C. L. Anderson, is expected tomorrow, to remain over the holidays.

The Cleveland-Cliffs Iron company's paydays for the first half of December will be as follows: Hard Ore, Lake, Cliffs Shafts and Salsbury and North Lake mines, Saturday, the 27th; the Ne-gaunee district, Monday, 29, and Gwin district, Tuesday, 30.

Mr. and Mrs. Lawrence Barnett are expected to arrive here tomorrow or Sunday, from Detroit, on a visit to his parents, Mavor and Mrs. G. G. Barnett. They will leave Christmas morning for Iron Mountain to visit Mrs. Barnett's parents, Mr. and Mrs. C. T. Tampton, for a few days.

METAL FURNITURE.

Sanitation, safety and ultimately economy, will bring about, it is thought, by some, a substitution of iron and steel furniture for the wooden pieces now in general use. Today in office

and public and semi-public buildings and manufacturing plants, iron and steel furniture is replacing wooden, the Iron Trade Review says.

Several important improvements, both in the design and method of manufacturing this type of furniture, have been devised, better to meet the demand. The ease of cutting and shaping sheet metal to meet almost any design tends to lessen its manufacturing cost and increase its popularity.

"An absolute law," said Thomas A. Edison recently, "appears to be operating to substitute steel for wood in the making of furniture. This law is the increasing cost of wood, and soon all furniture will be made of steel, since the steel required for a given piece of furniture costs only one-fifth as much as the wood would cost for the same piece of furniture. Steel furniture is light, since only a little steel is required. And polished steel takes a beautiful finish. It can be finished in perfect imitation of mahogany, walnut, cherry, maple, oak or any other wood. The babies of the next generation will sit in steel high chairs and eat from steel tables. They will not know what wooden furniture is."

KENTUCKY TO HAVE MARKETING BUREAU

Plan to Reduce Consumers' Prices and Increase Producers' Profits Eliminates Middlemen.

Dallas, Tex., Dec. 18.—Through the establishment of a state free marketing bureau, the commissioner of agriculture of Kentucky proposes to eliminate the middle man between farmers and consumers of small farm products in the cities of that state, with a view of reducing prices to the consumer and insuring larger profits for the producers. Announcement of this latest attack upon the high cost of living was made by J. W. Newman, commissioner of agriculture of Kentucky, at a meeting of the Association of Commissioners of Agriculture of the Southern States. His colleagues cordially indorsed the project.

The commissioners of agriculture present, passed a resolution favoring the establishment of similar bureaus throughout the Southern states, affiliated with the organization, and also favored a bureau of the federal government to co-operate with the state bureaus. It is proposed, through this means, to attack the problem of living from a new angle.

Commissioner Newman told the other commissioners present that he had worked out a plan for establishing a free state marketing bureau for Kentucky; that since no state had taken this step and since what was done in Kentucky would either meet the approval of the public or its censure, he said he would like to submit his entire plans to his fellow commissioners, which he did.

The parcel post, he explained, has made it possible to market a great many farm products from outlying districts in an economical way. He said Kentucky had vast areas, ten, twenty, forty and sometimes even fifty miles from a railroad, and butter, cheese, poultry of all kinds, eggs and entire hogs, when cut into hams, sides of bacon, etc., could be marketed through the parcel post.

It is generally conceded, Mr. Newman said, that the marketing of a product costs more than the production of the product. Statistics will bear out the assertion, he said, that out of every dollar spent by the consumer, the producer gets thirty-five cents. If the other sixty-five cents were divided between the producer and the consumer minus what the government would charge for delivering same via parcel post, it would result in a saving of at least 25 per cent to the consumer and add 25 per cent to the profits of the producer, he contended. His plan was outlined in detail, and upon motion of Commissioner Kone of Texas it was indorsed. Each state was urged to establish a similar bureau, and the federal government, through the department of agriculture, was asked to establish a national bureau to coordinate the co-operate with the various state bureaus.

Beyond the admitted fact that there is a consumer for everything grown, and that simultaneously one market should not be glutted and another starved, no outline was made of the usefulness of such a national bureau. The reason of this was that those at the conference with Congressman Summers agreed with him that it would be best not to handicap the representatives of such a bureau by marking out the duties they should perform. Instead, they agreed congress should be induced to appropriate the amount of money necessary to successfully operate a market bureau and secretary. Houston and his associates should prescribe its functions.

In this connection it should be stated in fairness to the middlemen that not always are they to blame for the increased cost of living, and the national market bureau, supplemented by similar state bureaus as proposed by Congressman Summers and Commissioner Newman, will have an influence toward eliminating such conditions. A couple of years ago, for instance, truck growers in the Rio Grande section, with their truck plows, fertilized the soil with a bag which they had produced but found not marketable because other cabbage-growing sections of the United States likewise had an overproduction. A national market bureau, assisted by state bureaus, would, or at least ought, to be in a position to keep posted as to the different crops being planted, and in those sections where climate and soil would produce an overplus the bureau would inform such a section that their energy should be devoted to some other crop not threatened by over production.

HOW TO BANKRUPT THE DOCTORS.

A prominent New York physician says, "If it were not for the thin stockings and thin soled shoes worn by women the doctors would probably be bankrupt." When you contract a cold do not wait for it to develop into pneumonia but treat it at once. Chamberlain's Cough Remedy is intended especially for coughs and colds, and has won a wide reputation by its cures of these diseases. It is most effective and is pleasant and safe to take. For sale by All Dealers.

Join Our Christmas Savings Club Starts Monday, December 29

IN CLASS 5, pay 5c the first week, 10c the second week, 15c the third week, and so on, and we will mail you a check two weeks before Christmas for \$63.75, with interest at 3 per cent.
OR IN CLASS 2, pay 2c the first week, 4c the second week, 6c the third week, and so on, and we will mail you a check two weeks before Christmas for \$25.50, with interest at 3 per cent.
OR IN CLASS 1, pay 1c the first week, 2c the second week, 3c the third week, 4c the fourth week, 5c the fifth week, 6c the sixth week, and so on for fifty weeks, and two weeks before Christmas we will mail you a check for \$12.75 with interest at 3 per cent.

You may reverse the order of payment if you wish to do so.

For instance, in class 5 going up, the payments start with 5c and end with \$2.50. If you desire to do so you may start with \$2.50 the first week and pay 5c less every week until the last payment is 5c. In Class 2, you may start with \$1 the first week and pay 2 cents less every week until the last payment will be 2 cents. In Class 1, you may start with 50c the first week and pay 1c less every week until the last week's payment will be 1c.

Payments must be made every week, or may be made in advance.

Can you think of an easier way to provide money for Christmas presents? Join yourself—get everyone in the family to join. Show this to your friends and get them to join. Everybody is welcome to join.

The Christmas Savings club opens Monday, December 29. Call and let us tell you all about our plan.

NEED FINANCIAL AID.

Army Officers Must Be Assisted If All Dinners Asked for Are Provided.

Lieutenant Martin and Mrs. Martin, in charge of the Ishpeming branch of the Salvation Army, who desire to provide at least fifty-five Christmas dinners for poor families in Ishpeming and Negaunee, assert that there must be, at once, more liberal response to their appeal if their plans are to be carried out. The amount received to date is far short of what is needed.

Mr. and Mrs. Martin expect to distribute thirty baskets in Ishpeming and twenty-five in Negaunee. They have had applications for dinners from families who never before have asked aid. All cases are thoroughly investigated. The dinners will be distributed the day before Christmas. Each basket will contain a chicken, potatoes, cranberries, sugar, coffee, bread, butter, vegetables and fruits.

OLIVER GIROUX PASSES.

Former Wellknown Resident of Ishpeming Died Wednesday in Covington.

Oliver Giroux, who was a pioneer resident of Ishpeming, and who left here five years ago for Covington to make his home with his daughter, Mrs. Julius Fay, died at that place Wednesday night. Death was due to old age, he having recently celebrated his eighty-fourth birthday.

Mr. Giroux lived for many years at the Deer Lake location, and was one of the first settlers there. He worked at the Deer Lake furnace until it closed down, and then he went to Rock's Kilns to enter the employ of the late Andrew Rock, who was operating the kilns and wood cutting contracts.

Mr. Giroux is survived by two sons and two daughters. They are Peter Giroux, of Calumet; Ed Giroux and Mrs. Thomas LaBelle, of Houghton, and Mrs.

Poy, of Covington. The body will be brought here from Covington tonight and will be taken to the home of Ed Trombly, Second street. The funeral will be held tomorrow morning, at 9 o'clock, from St. Joseph's church.

Clearance sale of Ladies Suits, Coats Furs and Trimmed Hats. Prices reduced one-third. F. BRAASTAD & CO. 12-19-13.

MUSICAL SERVICE SUNDAY.

The usual Christmas music will be sung next Sunday morning at the 10:30 service in the Presbyterian church. The program in the evening, commencing at 7 o'clock, will be as follows:

- Arise, Shine for Thy Light Is Come... Elvey
- The Radiant Morn Hath Passed Away... Woodward
- Hosanna... Granier
- Evening and Morning... Oakeley

The destruction of the dry house at the Speculator mine of the North Butte company caused a loss of \$7,000. There is no interference with operations.

Special display of Oriental Rugs at Braastads. 12-19-13.

KEEPS VIGIL FOR SISTER.

Woman Burns a Lamp and Watches Nightly for Lost Kin.

Winsted, Ct., Dec. 18.—Every night Miss Mary Considine sits alone in her home with lamp burning hoping against hope that her sister, Miss Margaret Considine, will return. Two years ago today, Margaret, middle aged, disappeared. The night of her disappearance a light rain was falling and it was thought she jumped into Still river. A search of the waters for weeks afterwards failed to disclose any clue as to her fate. Woods, too, in vain were explored for miles in every direction. What became of Miss Considine is as much conjecture now as it was the night she disappeared.

COUNT WITTE SEES BIG WAR.

Russian Statesman Impressed by Easy Passage of German Budget.

St. Petersburg, Dec. 18.—Count Witte who has recently returned from a tour of several of the more important European capitals, says that there is a grave prospect of a great European war. Count Witte said the general situa-

ISHPEMING THEATRE

Saturday Matinee, 2:30

First Performance Tonight at 7 O'Clock Sharp

tion in Europe impressed him as ominous. He was especially impressed by the easy manner in which the German government succeeded in having the increased military budget passed by the reichstag and the promptitude with which the other class in Germany responded to the financial appeal made to them in connection with the great military plans. He was also surprised at the great resistance shown in France to the three-year-compulsory military service bill and the lack of enthusiasm over the new loan, which really was the cause of its abandonment and the fall of the Barillon ministry. "The situation to my mind is extremely grave," said Count Witte.

For Those Who are Seeking Practical Xmas Gifts

WE SUGGEST THE PURCHASE OF FURNITURE

TO THOSE WHO DESIRE OBJECTS OF LASTING VALUE

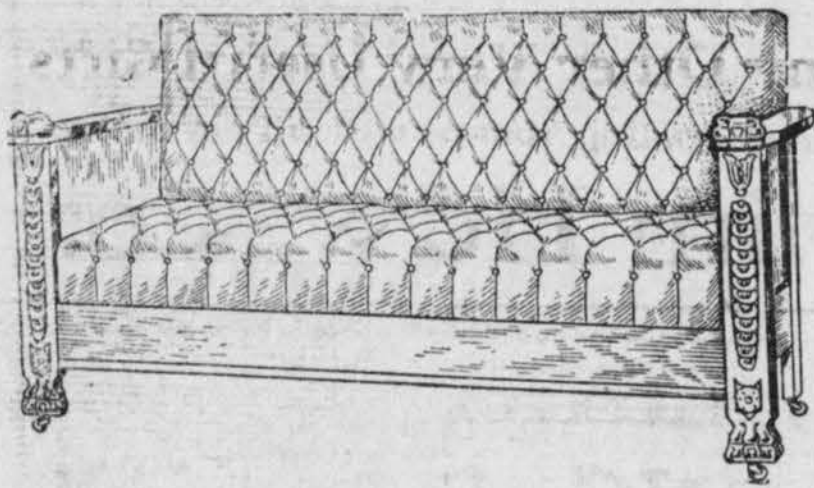

Fine pieces of Furniture will prove attractive as Christmas Gifts, and will admirably meet the sentimental requirements of the donor and the recipient; and more than most other things, such articles will keep alive the spirit of the occasion permanently.

Furniture Gifts to the Family

A Christmas Gift of a piece of Furniture is a gift to the entire family. Each one shares in the joy of possession. Therefore, it is the one Christmas Gift that brings joy to the greatest number. It is the most sensible Christmas Gift.

Quality for Quality—We can and do give you the best values.

Some pieces of Furniture seem to have a sort of a Christmas air about them. The following are a few suggestions from our Furniture Stock. You will find us especially strong in these goods just now. You will have a nice line to select from, and that will please you and the recipient immensely.

NORTHWESTERN TO SPEND MILLIONS

Several Big Contracts for Locomotives and Other Equipment Have Been Awarded.

The Chicago & Northwestern Railway company will spend upwards of \$4,000,000 for equipment during the coming year. Many of the contracts have already been let and some of the equipment will be delivered within a few weeks. In addition to the contracts already placed, it is said that the company will soon purchase a large number of steel passenger coaches.

In the December bulletin issued by the company, the officials announce their plans as follows:

"Contracts have been let by the Chicago & Northwestern railway for new equipment to cost about \$4,000,000. The order for the Chicago & Northwestern railway includes eighteen superheater switch engines to be delivered in April, 1914, and forty Mikado type freight engines, twenty to be delivered this month and the remainder in July next year. Twelve Pacific type passenger locomotives, to be delivered next May, and 2,000 steel gondola cars also have been ordered. One-half of the gondola cars will be delivered this month and the remainder in January.

"Four Pacific type passenger engines, to be delivered next May, and six Mikado type freight engines, to be delivered next July, have been ordered by the Chicago, St. Paul, Minneapolis & Omaha railway. All of the engines will be of superheater pattern and will be built by the American Locomotive company. Orders will be placed by both roads within a short time for several steel passenger cars."

EXTENSION LECTURES.

Professor M. D. Henderson, in charge of the University of Michigan extension department, will deliver one of the two extension lectures to be given in the auditorium of the Ishpeming high school this season. His date is April 9. Professor Jones will lecture on Feb. 3.

EDISON MAKES GIFT.

Thomas Edison, the world's greatest electrician, whose talking pictures were shown at the Ishpeming theater last evening, recently presented Mrs. Gaynor, wife of the former mayor of New York, who died a few weeks ago, with talking picture apparatus and a reel of pictures in which her late husband is heard delivering an address. This feature film

will be shown during the present engagement. The company did not arrive in the city until 6:30 last night, and the first performance was a little delayed. However, the evening shows tonight and tomorrow night will begin at 7 o'clock sharp, and the matinee today will start at 4 o'clock. Tomorrow's matinee will begin at 2:30. Last night's program was favorably received by two large audiences.

FEW PAUPERS IN KANSAS.

State Supports Only One Dependent to Every 2,000 Population.

Topeka, Kan., Dec. 18.—One-fourth of the 105 counties in Kansas have no paupers and have not had for several years, and one-fifth of the counties have no poorhouses, while several of the county poor farms are on the market

because these are no inmates or because it is cheaper to care for the pauper poor in private families than to maintain the poor farm.

Under a new state law, counties may pension poor dependents and this is further expected to reduce the number of poor farms in the state. There are in the whole state only 812 dependents on county charity, against 831 last year or about one in 2,000 of population. This is less than half the number of county dependents there were when the prohibition law went into effect, although the population of the state was much smaller.

The actual number of paupers in the state is only 417, the remainder of county dependents being 35 mildly insane 146 feeble-minded and 13 children. Ninety counties have no insane inmates on poor farms, 61 have no feeble-minded. Six of the county poor farms consist of a large acreage, the rest of which pays for the keep of the inmates.

Under the dependent pension law, counties may award certain monthly payments to dependents who are able to take care of themselves, or to award, by approval of voters, whatever amount may be necessary above \$30 a month

to persons who are wholly dependent by reason of injury or disease. In this way it is possible to keep families and aged couples in their own homes.

Special display of Oriental Rugs at Braastads. 12-19-31.

SOIL POISONS.

Poisons excreted by past crops and left behind in the soil to depress the growth of succeeding crops of the same kind have been reported, and believed in, by agricultural experts. Their theory is disproved by work conducted at the great Rothamsted experimental station in England, and presented in the transactions of the Royal Society of London by Alfred D. Hall, F. R. S., and his assistants, Winifred E. Breckley and William Marion Underwood. Their research yielded "no evidence of the existence in soils on which a particular plant had been growing for sixty years and upward of a soluble 'toxin' having a depressing effect upon the growth of that plant."—New York Times.

SCHOOL CHILDREN ARE GIVEN PRIZES

Those Who Had the Best Gardens Last Summer Now Get Welcome Christmas Money.

William H. Moulton, head of the sociological department of the Cleveland-Cliffs Iron company, and E. E. Scribner, superintendent of the Ishpeming public schools, yesterday presented cash prizes to the school children who kept the best gardens during the summer.

In presenting the prizes, Messrs. Moulton and Scribner requested the children to continue their good work, and to try and do even better next year. Several of the prize winning gardens showed great improvement over those of the previous year and more children competed for the awards.

The prize winners, the amount each received, their street address and their teachers, are as follows:
Central School—Elmer Jarvinen, 294 Hill street, \$4; Miss McDowell, teacher.
Violet Toms, 192 Bluff street, \$4; Miss McDowell, teacher.
Mildred Westmas, 242 Hill street, \$2.50; Miss McDowell, teacher.
Ridge Street School—Dorothy Tripp, 327 South First street, \$6; Miss Creagan, teacher.
Eli Erkkila, 265 Hill street, \$4; Miss Dodge, teacher.
Raymond Peterson, 442 Empire street, \$2.50; Miss Eiman, teacher.
Salisbury School—Mona Parsons, 739 South Pine street, \$6; Miss O. Grotte, teacher.
Doris Chapman, 201 Badger street, \$4; Miss M. Grotte, teacher.
Roy Johns, 903 South Pine street, \$2.50; Miss M. Grotte, teacher.
High Street School—Hilda Fosmo, Detroit Mine, \$6; Miss Olson, teacher.
Blanche Peterson, 750 Empire street, \$4; Miss Burke, teacher.
John Uren, 740 Park street, \$2.50; Miss Olson, teacher.
Grammar School—Edwin Peterson, 323 Battery street, \$6; Miss Dyon, teacher.
Bertie Stevens, 618 Park street, \$4.
Myrtle Brewer, 630 Wabash street, \$2.50; Mrs. Bargh, teacher.

INDIANS COMPLAIN OF MOVING PICTURE

Say History Is Distorted to Make Heroes of White Men and Put Redmen in Wrong.

Pine Ridge Agency, S. D., Dec. 18.—The Sioux Indians are mad. They feel they have been injured and insulted by the moving picture concerns and are preparing to frame a protest at a meeting at which thousands of Sioux will be in attendance. And a committee of redmen is to be sent to Washington to protest to the government against the acceptance as an authentic "moving" film of the battle of Wounded Knee, the last battle between the whites and the reds.

The Indians say the "movie" people distorted the facts of the battle to such a degree that the progress of the red man is belittled, and that, while the film which had just been made on the reservation may be a splendid thing in itself, it does not represent the battle which it purports to show. And since a copy of this film is to be placed in the department at Washington, thus making it really an official record of the last big battle, the Indians are "kicking."

As an example of the inaccuracies with which the Indians say the film abounds they call attention to the fact that Gen. Nelson A. Miles, who takes a prominent part in the film, was probably 50 miles away and so far as known was never on the actual field of battle until he posed for the "movies." Likewise Buffalo Bill, who plays the part of a hero in the film battle, was at the agency 18 miles away, when the engagement was fought.

Say They Were Not Aggressors.

But the most serious point to which the Sioux make objection is that in the film battle they are about equal in number to the soldiers; that they are well mounted, armed with army rifles, and are ready for battle—in fact, that the Indians themselves began the fight. On the other hand, say the Indians, the reds numbered less than 400, a majority of whom were women and children, that they were all on foot during the fight, that most of them had already given up their guns and were therefore defenseless, that what guns they had were old-fashioned muzzle-loaders in a deplorable condition, and that the Indians were not the aggressors.

The soldiers engaged—the Seventh cavalry—was the old General Custer regiment, massacred on the Little Big Horn in 1876, and the Pine Ridge Sioux were the Indians who did the massacring. Every trooper of the Seventh was spoiling for a fight with these Sioux.

As for the claim that many survivors of the Wounded Knee battle took part in the "movie" battle, the Indians say there were no Indian survivors. The Indians were within a hollow square with soldiers on all sides of them. Only one Indian, a lame one, came through without a scratch or got past the line of soldiers. All the others, about 400, were either killed or wounded, mostly killed. At least, in the big grave into which all the dead Indians were thrown there are more than 350, a majority of whom were women and children. After the shooting began, the little band of Indians was raked by a deadly fire from all directions.

White Man Suggests Indian Version.

M. R. Gilmore, curator of the Nebraska State Historical society, who was present when the films were made, agrees with the Indian version. He is indignant over what he calls the misrepresentation which will appear in the films, especially as the government is a third party in the proceedings and expects to file the films as historical data. For sale by the Indians say they did not know

they were reproducing the "Wounded Knee" battle, but understood they were simply taking part in a sham battle for the "movies." Later, when they discovered that the white people called the exhibition "Wounded Knee" and that it was to go down in history, they were indignant.

They have called a meeting of the grand council of the tribe, which will frame a formal protest to the government.

SAYS ARMY RUINS MEN.

Denver Judge Declares Soldier Service Is Perilous Lure.

Denver, Colo., Dec. 18.—George W. Allen, presiding judge of the district court, gave his views concerning young men entering the army and navy while hearing the application of Mrs. Nellie E. Hackney for temporary alimony against Stephen M. Hackney, U. S. A., retired.

"This is another case in which a young man and a happy family has been ruined by the United States army," said Judge Allen.

"Both the army and navy are a ruinous lure to young men."

VESUVIUS IS DUE FOR AN ERUPTION

Scientists Believe Volcano Will Again Destroy Cities—Crater Is 300 Meters Deep.

Naples, Italy, Dec. 18.—Mount Vesuvius is rapidly reawakening to another of its periodic eruptions which from time to time has destroyed at its base the cities of Pompeii and Herculaneum have never failed to exact a heavy toll of life and property. Within the past six months scientific observations made in the crater by French, Italian and German scientists have left no doubt as to the growing state of activity. The last and most arduous of these observations was made recently when Professor Malladra of the Vesuvian observatory and Professors Max Stolz and Paul Jacobi, two Munich scientists, descended into the crater for a distance of 370 meters, the greatest depth ever reached by human beings in the crater of any volcano.

History Is Compiled.

The history of Mount Vesuvius, which scientists have been able accurately to compile from the destruction of Pompeii and Herculaneum down, show that periods of activity have taken place through all the centuries at more or less regular intervals. The last eruption occurred in 1907. Another one is now due. From March of the present year it has been possible to detect evidences of the gradual but certain reawakening of the volcano.

The crater now has a depth of 300 meters. The bottom of the crater resembles very much a huge platform covered with immense rocks and also perforated with fumarole from which gases and vapors are always being exhaled. A huge opening was found. It had a circumference of 160 meters and a depth of 70.

Opening on May 10.

This opening was made on May 10 and for a month afterwards there was not only a constant pouring forth of gases and vapors, but also of fire, which at times was emitted in gigantic blasts of an appalling nature. On August 5 however, there was a new sinking in at the base of this opening which evidently filled up the channel by which the gases and fire were coming from the inner regions of the volcano.

Scientists recently found the entire interior of the mouth incrustated with formations which showed unmistakably that during the month of July molten lava rose to the very bottom of the crater.

They were able to register in one of the fumaroles a temperature of 300 degrees centigrade, while under the rocks on the bottom there was an average temperature of 800 degrees centigrade. This intense heat shows the certain reawakening of the entire volcano.

The channel leading down from the crater into the deeper regions of the volcano has evidently been temporarily choked by the sinking and falling in of portions along its course. When, however, this channel is again free, as it is very likely, it is very likely that the eruption will take place.

"IN A BAD WAY."

Many a Marquette Reader Will Feel Grateful for This Information.

If your back gives out; Becomes lame, weak or aching; If urinary troubles set in; Perhaps your kidneys are "in a bad way."

Doan's Kidney Pills are for weak kidneys.

Local evidence proves their merit. Mrs. Hattie Parker, 175 W. Crescent St., Marquette, Mich., says: "For several years I had headaches and pains in the small of my back. My kidneys were weak and I lost so much strength that I could not get around to do my housework. I was treated by doctors, but got little relief until I began using Doan's Kidney Pills. Two or three boxes made me feel better in every way. I publicly recommended Doan's Kidney Pills several years ago and I am willing to con- firm all I then said about them. They are certainly a fine kidney medicine. Since I gave my first endorsement I have taken Doan's Kidney Pills for cold in my kidneys and they have always done me just as much good as they did when I first used them."

For sale by all dealers. Price 50 cents. Foster-McLaren Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Georgetown, Texas. J. A. Kimbro says: "For several years past Foley's Honey and Tar Compound has been my household remedy for all coughs, colds and lung troubles. It has given permanent relief in a number of cases of obstinate coughs and colds." Contains no opiates. Refuse substitutes. For sale by All Druggists.

Upper Peninsula

Shows Work of the Beaver.

Thomas Moore, hunter and trapper, of Delta county, who caught alive two wolves now included in Victor Johnson's menagerie at North Escanaba, was in the city this week to visit with friends. Moore had with him the butt of a ten-inch birch tree that had been felled by beaver, together with chips nearly three inches in length, showing the power in the jaws of the animal. He also had a piece of a halm of gilead tree that had been twice cut in two by beaver. The specimens of the work of the animals were presented to Alderman William Wickert to be placed on display at his feed store.

See Street Cars to Be Bettered.

Improvements which will give the Soo as good street car service as any other city of the size in the state will be made by the Trans-St. Mary's Traction company. It is expected the cars will be fully equipped with the proposed new fixtures the first of the year. A new heating system will be installed, as well as new headlights, and other changes which will give better service and insure safety will be made. This was the report to the common council of the special committee appointed by Mayor Handy to confer with Superintendent Thomas of the traction company. The committee reported that there were in operation six small cars which were not adequately equipped to furnish proper heat in cold weather. To remedy this, the company has ordered six portable heaters. Another matter which the committee took

up with Superintendent Thomas was the headlights. Each car has in the past been supplied with a kerosene power lamp. A new Tungsten light is being tried out on several of the cars and Superintendent Thomas informed the committee that he had another light on the way, known as the "golden glow." He will place both kinds of lights on the cars so the council can have either one. Mr. Thomas told the committee that the brakes and fenders of the cars were inspected daily.

Fire Sweeps Delta County Farm.

All of the buildings on the farm of Albert Lalonde, a quarter of a mile south of Bark River, were destroyed by fire this week. Starting in the barn from an unknown cause the flames spread to the house and all of the farm outbuildings. The stock in the barn was driven out and some of the household furniture was taken out of the house before the heat became so intense that neighbors who were attracted could not continue the work. The buildings were among the best in the farming district about Bark River and the loss suffered by Mr. Lalonde is a heavy one.

Odd Fellows' Reunion at Escanaba.

Thomas Conlin of Crystal Falls, president of the Upper Peninsula League of Odd Fellows, has called a meeting of the lodges of the district, to be held at Escanaba on Washington's birthday. The official notice was received this week by Impellatore lodge of Escanaba and plans for the entertainment of the visitors were launched at once. The gathering in February will attract members of the three-link order from all of the cities of the peninsula. Some of the lodges will be represented by degree teams that will

put on work in competition for prizes. The reunion is to be an annual event, the gathering at Escanaba being the second arranged since the league was organized. It is expected by the Escanaba Odd Fellows that the meeting there will attract an unusual large attendance.

May Send Blind Boy to School.

Application has been made through the probate court at the Soo, by A. W. Taylor, superintendent of the poor, that Elmer Oberg, eleven-year-old son of Frederick Oberg of Algonquin, be sent to the school for the blind at Lansing. The parents are willing to have their son sent to the institution and the lad would like to go there. The six-year-old sister of the boy is threatened with blindness and she will be examined by physicians. If they think she can be helped she will be sent to Ann Arbor for an operation. A law passed by the last legislature provides that where a child is a cripple and can be benefited by an operation it shall be sent to Ann Arbor and receive the operation without expense to the parents.

No Snow to Handle This Year.

Perhaps one of the most gratifying features of the prolongation of "Indian summer" weather is the big saving in expense it will mean for the townships, villages and transportation companies. For the villages and townships, the funds usually expended for the removal of snow can now be devoted to road repairs and other purposes and for the railroads the saving in operating expenses will partly offset the loss of business. Last year, Calumet township expended for handling snow during the latter part of November and from Dec. 1 to 16 approximately \$800. The cost to the

village of Laurium up to the middle of December last year was \$300. In the village of Red Jacket the cost of handling snow, for labor alone, up to this time last year was \$250. The saving of the railroad companies is even greater than that of the municipalities. Hundreds of section men are usually required to keep the roadbed clear during the latter part of November and early in December and additional equipment must be named. The savings of the railroads in the copper country will alone amount to \$10,000 or \$15,000. Last year the Mineral Range road expended about \$2,500 for handling snow during the month of November and about \$3,000 in December, while the February account exceeded \$10,000. The cost for other copper country roads was almost as great.

Mid-Winter Flowers at City Hall.

Lilac bushes in blossom will soon be the novelty offered by the members of the Escanaba fire department at Station No. 1 at the city hall. Sprigs of bushes cut a week ago have been placed in a tub. All ready on the branches leaves have formed and blossoms are now just breaking out. Within another week it is believed that the bushes will be in full bloom. Sprigs from a cherry tree were also placed in the tub and as they are already showing leaves it is the hope of the firemen to produce a midwinter crop of cherries.

CONSTIPATION POISONS YOU.

If you are constipated, your entire system is poisoned by the waste matter kept in the body—serious results often follow. Use Dr. King's New Life Pills and you will soon get rid of constipation, headache and other troubles. Recommended by The Stafford Drug Co.

WOMEN WARRIORS.

The German Emperor delights to surround himself at the grand parades with four "colonelles." These noble warriors are the Empress, his daughter the Princess Victoria Louise; the Princess of Schaumburg-Lippe, and the Grand Duchess of Hesse-Darmstadt. Accompanied by these four Amazons, the Emperor passes before the regiment, and the crowd gives voice to its admiration.

The "colonelles" are, in fact, superb attractions in their striking uniforms. The Princess Sophia of Prussia, sister of the Emperor and wife of King Constantine of Greece, shares the military taste of her sister-in-law, the Empress, and has retained her title of colonelle of the grenadier regiment of the Prussian Guard.

The Empress of Russia, born Princess Alix of Hesse, is chief of the regiment of Uhlands and of the dragon regiment of the Prussian Guard; Princess Marie of Rumania is "colonelle" of the Rochiori regiment, and the Queen Mother, Marguerite of Italy, does not conceal her pride that she is chief of a battalion of Prussian chasseurs—Tit-Bits.

STOMACH TROUBLES DISAPPEAR. Stomach, liver and kidney troubles, weak nerves, lame back and female ill-disappear when Electric Bitters are used. Thousands of women would not be without a bottle in their home. Eliza Pool of Dewey, Okla., writes: "Electric Bitters raised me from a bed of sickness and suffering and has done me a world of good. I wish every suffering woman could use this excellent remedy and find out, as I did, just how good it is." It has helped thousands of others, it surely will do the same for you. Every bottle guaranteed, 50c and \$1.00. Recommended by The Stafford Drug Co.

Ishpeming Department

PRIZE WINNERS ARE ANNOUNCED

Occupants of Cleveland-Cliffs Iron Company Houses Get Christmas Presents.

W. H. Moulton yesterday announced the Cleveland-Cliffs company prize winners for the best kept premises, vine planting, window boxes and vegetable gardens at the locations in Ishpeming and at North Lake.

The list for Ishpeming is as follows:

—Best Kept Premises—

Mrs. Ernest Kalm, 812 Third street, first prize, \$15.00

Henry Anderson, 831 Empire street, first prize, 15.00

Ole Berg, 643 Maurice street, first prize, 15.00

Mrs. Emil Erickson, 639 Maurice street, second prize, 12.00

Elias Stephens, 618 Park street, second prize, 12.00

Nick Swanson, 628 Empire street, second prize, 12.00

Chas. Anderson, 911 Third street, third prize, 10.00

Mrs. Anna Peterson, 436 W. Empire street, third prize, 10.00

Mrs. Martin Peterson, 442 W. Empire street, third prize, 10.00

Mrs. Ernest Kalm, 812 Third street, fourth prize, 4.00

—Vine Planting—

John Engstrom, 305 New York street, first prize, 10.00

C. R. Adolph, 620 E. Vine street, second prize, 8.00

August Carlson, 309 Battery street, third prize, 6.00

Mrs. Ernest Kalm, 812 Third street, fourth prize, 4.00

—Window Boxes—

Aug. Carlson, 309 Battery street, first prize, 8.00

Mrs. M. E. Shea, 912 Third street, second prize, 6.00

Mrs. Emil Erickson, 639 Maurice street, third prize, 5.00

Ole Berg, 643 Maurice street, fourth prize, 3.00

—Vegetable Gardens—

Joseph Lioret, 710 Maurice street, first prize, 10.00

Elias Stephens, 618 Park street, second prize, 8.00

Alfred Lean, 655 Park street, third prize, 6.00

Benjamin Kimish, 160 Excelsior street, fourth prize, 5.00

John Larson, 611 Michigan street, special prize, 10.00

Total, \$200.00

The prize winners at North Lake follow:

—Best Kept Premises—

Wm. Nault, first prize, 7.00

Sinau Nault, first prize, 7.00

Wm. LaPlante, second prize, 5.00

Adelore Lafanier, second prize, 5.00

Matt Pellow, third prize, 3.00

Wm. Palmer, third prize, 3.00

Wm. Tippet, fourth prize, 2.00

Henry Anderson, fourth prize, 2.00

Total, \$34.00

—Window Boxes—

Wm. Nault, first prize, 5.00

Wm. LaPlante, second prize, 3.00

Adelore Lafanier, third prize, 2.50

Henry Routhier, fourth prize, 2.00

Total, \$12.50

—Vine Planting—

Wm. LaPlante, first prize, 5.00

Henry Anderson, second prize, 3.00

Adelore Lafanier, third prize, 2.50

Wm. Palmer, fourth prize, 2.00

Total, \$12.50

—Vegetable Gardens—

Tony Bueco, first prize, 7.50

Wm. Tamblin, first prize, 6.00

Alb. Lequia, second prize, 6.00

Sinau Nault, third prize, 4.00

John Trethewey, third prize, 4.00

D. H. Dalton, fourth prize, 3.00

Arthur Tippet, fourth prize, 4.10

Total, \$100.00

Buy Ladies Suits, Coats, Furs and Trimmed Hats at one-third less than regular at Braastad's, 12-19-31.

PLANNING LANDSCAPE GARDENS.

Mrs. John B. Henderson of Washington city has a plan for landscape gardens that if carried out will be the finest of their kind in this country and will rival the Kew gardens of London.

She has chosen a site on the Avenue of Presidents which is now covered with thick woods. She has been in London for several months studying the Kew gardens with the hope of undertaking their reproduction and expecting if possible to surpass them. It was Mrs. Henderson who had the name of Sixteenth street changed to the Avenue of Presidents.

LORE OF PRECIOUS STONES.

Dr. George F. Kunz of Tiffany's, author of "The Curious Lore of Precious Stones," has written a series of papers describing the results of the last year of the world-wide search for precious stones.

One discovery of unusual interest to jewelers was the unearthing of beads of chrysoptase strung for a necklace which were found on a mummy disinterred near Nasque, Peru. They are of a pale greenish hue, and Dr. Kunz says in the "Jewelers' Circular-Weekly," they are the first objects of chrysoptase ever found in a South American district.

A string of over fifty beads was seen by Professor Hiram A. Bingham of Yale University, who submitted several to Dr. Kunz for identification. They were believed to be genuine at first.

An interesting instance of the creation of fashion in jewelry is related as follows:

"A most graceful and patriotic gift recently made to the empress by the German emperor is a cruciform ornament composed of helioid and brilliant in a platinum setting. This act of the kaiser

will be sure to make the new stone a favorite in Germany, whence the fashion will extend to other lands.

"The name helioid, ('Gift of the Sun,' from the Greek Helios and doron), was bestowed on the stone by Professor Lucius von Graff, a descendant of the famous Sixteenth century German artist of that name."

The sources of supply in New South Wales of the much-fancied Australian black opal appear to be exhausted, at least temporarily, Dr. Kunz says. Most of the miners have drifted away, and the chances of discovering new deposits are correspondingly lessened. It is reported that in 1912 the quantity of opal material of every kind was 75 per cent. lower than at any time within the past twenty years. During 1911 opals to the value of about \$300,000 were obtained, and the total value of the opals taken from the Australian mines from 1890 to 1911 is estimated at \$6,529,377.

A large mass of black opal from the Australian deposits is owned by a gem dealer in Sydney, New South Wales. It weighs 4,100 carats, or about two pounds three ounces troy. It was found in 1912 in the Queensland mines and is valued at \$50,000.

LOWER STATE NOTES

TRAVERSE CITY—W. J. Mickle and C. R. Webb, of the state food department, within a few hours confiscated 200 short measures in grocery stores here. Liquid measure has been used by the grocers in selling beans, cranberries and other dry measure goods.

JACKSON—Mihard Johnson, sentenced to prison for about a year ago for holding up an automobile party, was among those who came before Governor Ferris to ask clemency. Johnson who is a young man, is serving a life sentence for his crime, and it is declared that the sentence is excessive.

GRAND RAPIDS—The board of park and cemetery commissioners has declared war on inveterate funeral-goers. Commissioners Hamilton says that there are nearly 500 women who make it their business to invade the cemeteries and gaze morbidly at the processions. On Sundays the curious ones are nuisances, say the commissioners.

SAGINAW—Although the Arthur Hill trade school has only been in existence for the last two months, officers are being urged by the Saginaw Federation of Labor to cease disposing of patterns which students are making during school hours. The class in woodwork has made models of articles manufactured by a baking machine concern.

MASON—Ralph R. Waggoner, who came here a few days ago from his home in Minerva, Ohio, is in jail, a raving maniac. He went to the home of his cousins, Joseph and John Waggoner, near here, and stabbed both with a small knife, not seriously. He then escaped, but was found on a county road by a party of officers. It took four men to overpower Waggoner.

FLINT—While playing "stump the leader," Glenn Henderson and Edward Bingham went through the ice in Tawana lake, near Flint, and were rescued by Leo Williams, seventeen years old, Tuesday. Williams made several attempts to save the boys before he was successful. The ice broke several times while he was struggling to reach them. He finally laid down and carefully reaching to the edge of the hole, slowly dragged one after the other to safety. Both were faint from cold and exhaustion.

MUSKEGON—Sensational charges and counter charges are made in the bill for divorce and cross bill filed by Mrs. Eleaze Reed and John O. Reed, respectively, of Whitehall. Reed is a former school commissioner of Muskegon county and the couple recently attracted considerable attention when they drove in an automobile to Muskegon from their home. Mrs. Reed called for help as the machine dashed through Whitehall and the sheriff's force later stopped the car, but the couple continued into this city where they sought attorneys.

JACOBSON—Gov. Ferris inspected every department of the prison and interviewed about twenty prisoners who are asking executive clemency. Among the number were tuberculosis victims. "I do not think the mere fact that they have tuberculosis is sufficient reason for granting clemency," said the governor. "There are four thus afflicted in the institution. I believe they are being well cared for, as well as they would be outside, unless in a tuberculosis hospital. I am making a study of the causes of crime and whether the loss of percentage at an early age has any bearing on the matter. I have not found that it has, though loss of father often causes boys to become wayward and wild, and to fall into bad company. They get into trouble. Drinking causes the downfall of most of them."

LANSING—All the half bushel measures in the state of Michigan are short measures. The standard measure, which has been in use for more than fifty years and is made of brass, was sent to Washington a few days ago to be passed on by the government bureau of standards. After a careful examination the bureau refused to o.k. it, returning it to State Dairy and Food Commissioner Helme with the information that it was short weight. Mr. Helme declared a new measure would be ready in a short time. All persons using the present half-bushel measures in Michigan for commercial purposes will be forced to discard them at a date to be determined by Commissioner Helme and purchase full measures. The change necessitated will cost in excess of \$100,000 to the grocers and merchants of the state, it is estimated. All quart and two-quart measures are also short measures, according to the United States bureau of standards.

GRAYLING—A tragedy a few miles north of Frederic resulted in the killing of Ramney Courney and the wounding of A. Bert Damoth. It is reported that Mrs. Courney, who was living with Damoth, was followed by Courney, who forced an entrance to the house and immediately opened fire with a revolver on his wife, but the bullets passed through her clothes without wounding her. He turned upon Damoth and fired a bullet into his shoulder. Damoth drew a revolver and shot Damoth through the heart. Damoth was then arrested and jailed at Gaylord. The trouble started last summer, when Courney was here

charged with larceny. He remained here until November, when he was dismissed, his wife during this time having been seen frequently with Damoth. It is stated that Courney had pleaded in vain for his wife to return to him. Damoth is a bachelor and lives just over the line in Otsego county. Courney is a woodman and had three small children, the oldest being fourteen years old.

ANN ARBOR—It would seem that there are an unusual number of defectives among the male student body at the University of Michigan this year, according to statistics just collected by Dr. George May, director of Waterman gym. He finds among this year's freshmen there are sixteen who are color blind, 282 who use glasses, eighty-four whose hearing is defective, 138 with irregular hearts, thirty with enlarged hearts, seventy-one with adenoids, 127 with enlarged tonsils and 210 have nasal deformities, eighty-five are afflicted with goiter and sixty-four have been sent to the hospital for tuberculosis examinations. Nineteen per cent of the first year men are flat-footed, said in some cases to be due to low-heeled shoes. Mildred Nilsson is a slightly greater hold upon the yearlings this year than in previous years, a third of the first year men admitting that they use tobacco. To offset this, the youngsters have a better lung capacity than did the freshman of last year. The average age of both this and last year's freshmen is 19.1 years, but the height this year has shrunk from 67.9 to 67.8, and the weight increased from 139.6 to 139.9 pounds.

PRESIDENT WILSON IS GOING TO DIXIE

Three Weeks' Vacation Soon to Be Taken Will, It Is Said, Be Spent on Gulf Coast.

Washington, Dec. 18.—President Wilson will take a three weeks' vacation directly after he signs the currency bill, which is expected to be passed Monday or Tuesday. Where he will go has not yet been announced, though it is said he and his family will select a quiet spot on the coast of the Gulf of Mexico near New Orleans. It will be the longest absence of the president from the capital since he was inaugurated in January. The principle of "boats for all" has been accepted, subject to the proviso proposed by the British delegates, that where the fullest use is made of the space available for the setting of davits pontoon rafts may be provided for 25 per cent of those aboard and lifeboats of a recognized type for the remainder. The life boats may include a limited number of motor boats.

COURT ORDERS J. H. HEWETT, SAID TO PAY HIS WIFE'S BOARD, TO PAY HIS WIFE'S BOARD.

Chicago, Dec. 18.—John Henry Hewett, eighty-three years old, said to be worth \$300,000, was ordered today to pay \$177 to his daughter for the board and care of Mrs. Hewett for three months prior to her death last December. Hewett told the court his wife went to live with his daughter without his consent. "I was always a good provider," he said. Counsel produced an itemized statement of Hewett's household expenses for 1911, which, he said, was copied from Hewett's books. The total amount was \$55.95.

GIANT VESSEL IS LAUNCHED FOR NORTH GERMAN LLOYD

Berlin, Dec. 18.—The 35,000-ton steamer "Columbus" was launched at Danzig yesterday in the presence of the crown prince of Germany and a brilliant assemblage of guests. The christening of the ship was performed by the crown prince.

The new ship, which is the largest ever constructed on the Baltic, will be the biggest in the service of the North German Lloyd. She is the first of sixteen new vessels that will increase the tonnage of that company's fleet by 188,000 tons. Her dimensions are: Length, 775 feet; beam, 83 feet; depth, 54 feet; displacement, 40,000 tons. She will have accommodation for 500 first-class passengers, 500 second-class, 700 third-class and 1,200 steerage. Her 20,000 horsepower engines will drive her along at a speed of twenty-one knots an hour. According to plans, the ship is to be the finest afloat.

CULPRITS SUPPOSED TO BE SUFFRAGETTES

Two Bombs Used in an Effort to Blow Up Walls of a London Prison.

London, Dec. 18.—An attempt attributed to suffragettes was made tonight to blow up part of the southeast walls of Holloway jail by the explosion of two bombs. These are believed to have been secreted in the garden of a house adjoining the jail. The part of the wall attacked was near the cell block where suffragettes are usually confined.

Miss Rachel Peace, sentenced to eighteen months' imprisonment for arson, is the only suffragette at present in the jail. It is alleged that she has been subjected to forcible feeding and at recent militant meetings angry references were made to her treatment, coupled with threats of revenge.

The explosion did no damage to the jail. No arrests have been made, and apparently there are no clues to the culprits, but it is said that the house has been occupied recently by an ardent militant and has been utilized as a rendezvous for suffragettes to signal to the inmates of the prison.

"Pacific" Campaigner Distributes Violets.

Paris, Dec. 18.—A beautiful woman, laden with violets, styling herself "Lady Lillian Clewworth," pacific suffragette, entered the lobby of the chamber of deputies this afternoon and gave flowers to those deputies willing to add their names to her "one-million-signature petition for woman's suffrage."

"Accept these violets," the woman said. "They will make you forget the violence of my misguided sisters."

"GOD WILL CALL ME NEXT" IS PROPHECY OF PONTIFF.

Rome, Dec. 18.—"God will call me next," exclaimed Pope Pius when the news of the death of Cardinal Rampolla was communicated to him by Cardinal Merry del Val.

The news had been withheld from his holiness until after mass. Dr. Amiel was then ushered in and made several optimistic comments on the condition of his holiness' health and his strong constitution. Cardinal del Val, who had joined them, remarked that the same could not be said of Cardinal Rampolla, and added: "Unfortunately the church

WIFE MEETS RIVAL IN PLEA FOR CONVICT

First They Weep, Then Embrace, on Learning of Joint Mission to Prison.

INTERNATIONAL COMMITTEE WORKS OUT A PLAN TO MAKE SAFER TRAVEL ON THE SEA.

London, Dec. 18.—The committee on life-saving appliances appointed by the international congress on safety at sea has agreed on recommendations which will be submitted to the congress early in January. The principle of "boats for all" has been accepted, subject to the proviso proposed by the British delegates, that where the fullest use is made of the space available for the setting of davits pontoon rafts may be provided for 25 per cent of those aboard and lifeboats of a recognized type for the remainder. The life boats may include a limited number of motor boats.

COURT ORDERS J. H. HEWETT, SAID TO PAY HIS WIFE'S BOARD, TO PAY HIS WIFE'S BOARD.

Chicago, Dec. 18.—John Henry Hewett, eighty-three years old, said to be worth \$300,000, was ordered today to pay \$177 to his daughter for the board and care of Mrs. Hewett for three months prior to her death last December. Hewett told the court his wife went to live with his daughter without his consent. "I was always a good provider," he said. Counsel produced an itemized statement of Hewett's household expenses for 1911, which, he said, was copied from Hewett's books. The total amount was \$55.95.

DR. HYDE TO GO ON TRIAL FOR MURDER A FOURTH TIME

Kansas City, Mo., Dec. 18.—Dr. B. Clark Hyde will face trial a fourth time on a charge of murdering Colonel Thomas H. Swope, according to an announcement today from the county prosecutor. The prosecutor found difficulty in arranging to cover the great expense of the last trial and for a time a fourth trial was in doubt. The county court today gave assurance that it would pay the costs of a fourth trial.

CHICAGO PRODUCE QUOTATIONS.

Chicago, Dec. 18.—Butter prices in the Chicago market today were unchanged from yesterday, creameries at 32@35 1/2, cents. Eggs, higher; receipts, 2,846 cases; eggs at mark, cases included, 25 @31 cents; ordinary firsts, 28@29; firsts, 30 1/2@31. Poultry, alive, higher; springs, 12 cents; fowls, 13; turkeys, alive, 16 cents; dressed, 21 1/2.

CHICKASHA, Okla., Dec. 18.—Free wheat pasture is being offered to cattlemen by the farmers in Grady county, and trains of cattle are being shipped into pasture down the wheat fields. The warm, damp weather has given the wheat such a rank growth that farmers fear it will joint if it is not pastured down. Good wheat pasture usually sells at \$3 an acre.

MARGARET WILSON EXPLAINS THE AIMS OF THE "SPUGS."

Washington, Dec. 18.—Miss Margaret Wilson, eldest daughter of the president, has undertaken to explain the objects and aim of the "Spug" society of the District of Columbia, of which she is chairman. Miss Wilson appeals to all interested in the movements to avoid and prevent useless giving and direct their efforts for the benefit of the less fortunate. She presents a plan of each "Spug" member either as individuals or in a squad of other "Spugs" giving some one needy person a happy Christmas.

A MARK OF DISTINCTION SINCE 1860

Duffy's Pure Malt Whiskey

is an absolutely pure distillation of malted grain from which all injurious substances have been removed. It is a wonderful tonic and stimulant in building up and strengthening the body. The system must be kept strong and vigorous so that it will throw off disease. You can build up your body and keep your blood rich by using Duffy's Pure Malt Whiskey as directed. It stimulates and strengthens the heart, aids digestion, builds new tissue and assists in killing disease germs. It is recognized as a family medicine, and should be in every home.

Be sure you get the genuine, in sealed bottles only, at most druggists, grocers and dealers, \$1.00 a large bottle. Medical booklet and doctor's advice free on request. The Duffy Malt Whiskey Company, Rochester, N. Y.

First National Bank, Negaunee, Mich.

CAPITAL AND SURPLUS \$200,000.00.

A LIFELONG GIFT

Parents, do you realize that the success of your children will depend largely upon the start you give them?

When, as a Christmas gift for your son or daughter, you start a savings account for him or her in the First National Bank, you are making it easy for the child to acquire the saving habit—something which will be of lifelong benefit to him.

Try this plan and be an unusually sensible Santa Claus.

A Substantial Christmas Gift.

Open a Savings Account with this Bank in the name of your relative or friend, and at Christmas present the pass book as your gift.

\$1.00 will open an account \$1.00

Mining News

NORTH BUTTE.

Although no official information is forthcoming regarding the ore body which has been opened by North Butte on the 2,600-foot level. Butte advisers are that the strike is a most important one, some of the miners insisting that it outranks in importance any previous ore discovery in the mine. The claim is made that since the present management assumed charge has North Butte been in as fine condition as it is today. Its ore reserves are said to be larger than at any previous time in the history of the company. A stratum which indicates improved conditions of North Butte is that production during the current month is expected to be in the vicinity of 2,800,000 pounds of copper, which will be the largest output in any month for several years. If this expectation is realized, North Butte in 1913 will have produced 28,480,000 pounds of copper, which is also a high record in recent years, the production in 1912 having been 26,380,000 pounds; in 1911, 24,800,000 pounds, and in 1910, 25,200,000 pounds.

GRANBY CONSOLIDATED.

President Nichols of the Granby Consolidated says that the net earnings for the four months ended Oct. 31 were \$253,808, regarding operations, which will be the management has been very actively engaged in carrying out the general program previously outlined. "Grand Forks and Phoenix—The result of operations here for the four months ending Oct. 31, 1913, shows a profit for that period amounting to \$233,808, taking the unsold copper at 1 1/2 cents, New York. Considering the character of ores handled, this indicates highly satisfactory work. In the meantime the company has acquired the properties of the Snowshoe Gold & Copper Mines, which will be operated through the workings

of our Gold Drop mine, which they adjoint at Phoenix, and will be furnishing ore before the first of January.

"Any—Several additional properties tributary to the Anyox smelter have been taken over since the last report, including a limestone property and one copper property carrying an excess of five million tons of tonnage available for material for flux. These properties have been held under option for varying periods sufficient to admit of prospecting and most careful examination by our engineers and some of them are expected to prove of considerable importance, especially increasing the tonnage available for the Anyox smelting plant. No single investment was large, but the aggregate, including the Snowshoe properties, amounts to \$275,000, payments running over various periods.

"The work of completing the new smelter has gone steadily forward without unforeseen difficulties and we are still assured that the date of completion will not be postponed beyond Jan. 15, 1914, the date set tentatively more than a year ago and we again desire to compliment the local management on the energy and foresight exhibited. Some additional development work has been done on the mines at Hidden Creek, making the total reserves now developed at that point about 8,000,000 tons of an average grade of 2.2 per cent from which a recovery of forty pounds per ton is expected.

"The matter of transportation, which is one of our very great importance, has been receiving considerable attention, and the board may have something of interest to say regarding it in one of its forthcoming reports."

TABLE FROM WARSHIP TIMBER.

A beautiful library table, made from the timbers and planking of an American revolution warship which has lain for over 130 years beneath the waters of the Penobscot river, is one of the possessions of George A. Kidder of Waterville, Me. Mr. Kidder himself salvaged the material and it was he who furnished the apparently hopeless pieces of wreckage from the famous old warship, Sky Rocket, into a thing of usefulness and beauty.

The Sky Rocket took part in the disastrous engagement of August 14, 1779 which occurred at the mouth of the Penobscot river, and in the fight which followed was blown up by her American crew in Morse's cave, near Fort Point ledge, opposite West Penobscot, to keep her from falling into the hands of the British.

There her timbers have since rested, scarcely above water at the lowest tide, the traces of the once proud battleship becoming less and less each year through the action of water and ice and the natural process of decay.

A year ago Mr. Kidder visited what remained of the old wreck and made the first attempt to secure portions of the wreckage. Wading out in long necked rubber boots, Mr. Kidder was able to detach small portions, but the rising tide made a trip necessary on the following day, when a timber sixteen or eighteen feet long and a plank fourteen feet long were secured with a few smaller pieces, these being about all that remained in sight of the old warship.

The prizes were towed to land and taken by automobile to Penobscot, thence by sailboat to Rockland, and from Rockland to Waterville by freight. Evening work extending over a period of three months transformed the wood

into the table, which is twenty-nine inches high, forty-five inches long and twenty-six inches wide.

The wood is white oak, beautifully grained and occasionally stained dark from the iron in the ship's construction, though not a single nail or iron bolt has ever been found.

DR. MONTESSORI'S PLANS.

A wonderful school or laboratory in Rome for the study of child psychology and child development is the aim of Dr. Maria Montessori, the originator of the Montessori method of teaching children.

Dr. Montessori states that part of the funds for the laboratory project will be raised by her lecture tour in this country.

"But I will not undertake the work without a sum sufficient to guarantee the life of such an institution for ten years," she said. "She expressed the hope that in that time she might be able to develop the teaching method which has been so successful for children between two and one-half and seven years of age to apply to pupils of older years."

"As a physician," said Dr. Montessori, explaining the method, "I came to the realization that any pedagogical system that was to be of any permanent value must be based upon the observation of life in the individual child, we hope to develop it, and to that end it must be studied during the formative period."

As the biologist drew his conclusions, so Dr. Montessori decided to work. To that end she placed the children in an environment where all the conditions were reduced to such a small measure that they could manage it without assistance and be as responsible as grown-ups.

The children were then permitted to gain impressions through the senses and appropriate the world around them, carefully getting a proper foundation for their lives. They thus gain their education by a natural process of living, and not artificially. They are not taught, but develop and grow, learning being incidental.

"They do exactly what you do after leaving school," was the way Dr. Montessori summed it up. "No rewards or punishments are necessary, and there is no truancy. The children have freedom, but not license. The road to freedom merges into the road to discipline."

Within a year forty schools have adopted her method. Rhode Island is the first state in the union to incorporate it in its school system.

THE DEADLINE OF CANCER.

A few years ago a German gynecologist, Dührssen, made the statement that "more women die of cancer in Germany in one year, than there were killed in the Franco-Prussian war." This will perhaps give an idea of its prevalence. More recently Copman made the statement that "of the people living throughout the civilized world—Europe and North America—who are over thirty-five years of age, one woman in eight and one man in twelve will eventually die of cancer."

In a general way this means that two individuals out of every three who are over thirty-five years of age will die of cancer. Two out of twenty equal one out of ten, and that means decimation. That is to say that cancer not only will decimate those now at an age of thirty-five, but individuals who hereafter reach that age.

There is every reason for enlisting the heartiest public support in the now popular warfare against the white plague. The campaign is really life-saving, and well deserves the prominent place which it has before the public. It is furthest from the writer's intent to minimize or in any way detract from its tremendous import and importance. In fact, all that has gone before has the better prepared the public for education and warning regarding the next most fatal of our maladies, one as yet far more subtle and mysterious, namely, cancer.

Like tuberculosis, cancer is also a destroyer of mankind which spares none, but attacks the rich and the poor, the educated and the uneducated, as well as the ignorant and stupid, the careful as well as the careless; in fact, if anything, it seems rather more prevalent among the higher class. While much may be done by the so-called upper classes to ward off or prevent tuberculosis, no means are yet known by which cancer can be foreseen or averted.

Even with a family history which may be a source of constant alarm, one can do nothing to guard against disaster from the source.—From "The Campaign Against Cancer," by Rowell Park, M.D., in the American Review of Reviews for December.

CLIMATE AFFECTS COLOR.

That racial colors are due to the influence of certain solar rays, is the discovery announced by Prof. Daniel Berthelot of Paris.

The color of the negroes is the result of the ultra violet rays. Whites are unable to understand the effects of these rays, but the thick skin of the negro, being inoculated with the rays, protects him against the harmful effect of the broiling equatorial sun.

The American Indian, according to Prof. Berthelot, derives his color from the red rays of the solar spectrum while the color of the yellow races is the result of the yellow emanations.

Negaunee Department

JOHN HASSETT DIES IN DULUTH

Remains of Former Wellknown Negaunee Man Will Be Received Here Today.

Word was received here yesterday of the death of John Hassett at St. Mary's hospital at Duluth, where he had been a patient for the past two weeks. He had suffered with ulcer of the stomach for the last few years and it finally had a fatal result.

Mr. Hassett was wellknown in Negaunee, he having lived here for a number of years before going to Minnesota some ten years ago. He was married here, and all of his four children were born here. For a number of years he was employed as a brakeman on the Chicago & Northwestern. Later he went into the saloon business in Ishpeming, and in a few years he opened a saloon here.

For the past eight years Mr. Hassett, who was fifty-two years old, had been in the employ of the Duluth, Mesaba & Northern railway as a conductor, running between Duluth and points on the Mesaba range. He made his home in Proctor, Minn. During the past year, owing to the condition of his health, Mr. Hassett had been off the road, and had charge of the yard work at Proctor for the company.

He is survived by his wife and four children, the oldest of whom is a son twenty-one years, several brothers and sisters, Mrs. Dennis Calligan, of this city; Mrs. Margaret Harnish, and Miss Jennie, of Oregon; Mrs. Elizabeth Daley, of Hibbing, Minn.; Agnes, of Detroit; Charles and Thomas, of Hibbing, Minn.; Christ, of Detroit; Joseph, of Chicago; Anthony, of Baraboo, Wis., and William, of Ishpeming.

Mrs. Dennis Calligan, a sister, and Thomas and Joseph Scanlon, brothers-in-law of the deceased, have gone to Duluth, to accompany the body to Negaunee. They will return today and the body will be taken to Mrs. Calligan's home on Clark street.

Mr. Hassett was a member of the Negaunee lodge of the Ancient Order of Hibernians, and of the Proctor branch of the Order of Railway Conductors.

He had made a number of trips to Negaunee during the past few years. He owned a homestead on the Swanzy range that is believed to possess value in mineral.

LOCAL LAZONICS.

A. Storer went to Marquette on business yesterday.

Harry Trembath went to Escanaba yesterday, on business.

B. Arne, of Hancock, spent yesterday in the city on business.

J. M. Edgerton went to Marquette yesterday on legal business.

J. D. LaFkas has returned from a business visit to Chicago.

A. Glick, of Marinette, Wis., was a visitor in the city yesterday.

J. R. Pearce, of Hancock, spent yesterday in the city, on business.

Thomas Piggot, of Sands, was a business visitor in the city yesterday.

Mrs. James Johnson returned last evening from a visit with relatives in Marquette.

J. Sheehan is in the city from Chicago, on a visit with relatives. He will return after the holidays.

The barber shops will remain open until midnight Christmas eve, and will be closed Christmas day.

O. B. Warren, of Duluth, is spending a few days in the city on business for the Cascade Mining company.

Thomas Pellow arrived home yesterday morning from an extended business trip in Detroit and Chicago.

Frank Saladine has gone to Humboldt where he will take a position with the Duluth, South Shore & Atlantic Railway company.

E. B. Raymond, who recently underwent an operation at St. Mary's hospital at Marquette, is reported as improving and it is expected that he will be able to return home in about a week.

Robert Jackson, of Sault Ste. Marie, Ont., who is visiting in the city, and John Martin, Robert Thompson and Ted Wren, went to Sands yesterday, to spend a few days rabbit hunting.

Mrs. Clark Kirkpatrick of Clark Falls, Wis., arrived here yesterday to spend the holidays with her parents, Mr. and Mrs. J. H. Rough. Mr. Kirkpatrick will be here in a few days to remain over Christmas.

Leslie Gaffney, who has been employed as clerk in the postoffice, has taken a position as railway mail clerk and will run between Negaunee and Daggett, going to Daggett on the morning Northwestern train and returning in the afternoon.

Mrs. Frank Smith, who purchased Mrs. M. E. Arland's millinery stock and fixtures Wednesday, has taken possession of the building and is conducting the business. Mrs. Smith was in the millinery business in Marquette for a number of years.

Rehearsals are being held every night for the cantata which will be given in the high school auditorium Christmas evening by members of the Methodist church Sunday school. It is called "Santa Claus and Uncle Sam." The Sunday school orchestra will render a number of special selections.

Mr. and Mrs. Christ Johnson, of Minneapolis, who were called here because of the death of Mrs. A. P. Johnson, will leave for their home Sunday. Mr. and Mrs. Nels Johnson, who came up from Gwinn for the funeral, returned to their home last evening. Julius Schorlemer, a brother of Mrs. Johnson, left last evening for Chicago.

Announcements were received in the city yesterday of the marriage on Sept. 20 of Miss Caroline Johnson to Hubert John Bosses, Jr., of Ashland, Wis. Mrs. Bosses is wellknown in the city, having for a number of years prior to seven years ago been employed as bookkeeper in the First National bank. The cards announced that they were living in Ironwood.

TO WRESTLE CHRISTMAS.

Gwinn and Republic Men Will Contend for County Championship.

Arrangements have been completed for a catch-as-catch-can wrestling match Christmas afternoon at the Gwinn club between Chester D. Kuder, of Gwinn, and Joe Peterson, of Republic, to decide the heavyweight championship of the county. Kuder, who has been wrestling for the past two years, is one of the best grapplers ever developed in this county. He weighs about 180 pounds, is quick in action and is possessed of wonderful strength. The match will be the first public exhibition in which he has ever appeared.

Peterson, who was born and raised in Republic, is a graduate of a physical culture school of Chicago. He has appeared in a number of matches in Duluth and the copper country, and has to his credit victories over old and experienced wrestlers. He keeps in training the year round and is instructor in wrestling in an athletic club at Republic.

The promoters of the match are trying to arrange a preliminary bout between Cecil Bengry, of Ishpeming, and Dick Johns, of Gwinn. These men are lightweights and if they can be matched Gwinn fans will see some good wrestling, as they are fast.

The bouts will commence at 2:30 and an admission of fifty and thirty-five cents will be charged. It is expected that a number of wrestling fans will accompany Peterson from Republic.

AN UNUSUAL CEREMONY.

Minister Who Married Parents Will Officiate at Marriage of Daughter.

Of the coming marriage of Miss Mary Margaret Davis, daughter of F. D. Davis, who was superintendent of schools here for a number of years, an Escanaba paper has the following:

"Invitations have been issued by Mr. and Mrs. F. D. Davis for the wedding of their daughter, Mary Margaret Davis, to Mr. Edwin Linton French, of Sault Ste. Marie, which is to take place at the home of the parents of the bride on the afternoon of December 31. Invitations are also issued for the wedding reception, to be held at the home from 8 to 10 o'clock.

A decidedly unique feature of the coming ceremony will be the fact that the ceremony will be performed by Rev. C. M. Brown, of Joliet, Ill., who officiated at the marriage of Mr. and Mrs. Davis and who also officiated at the christening of the bride to be.

"Miss Davis is one of Escanaba's most popular young society women. After completing a course in the local high school, she specialized in music at Ypsilanti and later took a position as musical instructor in the public schools at Sault Ste. Marie. The groom is assistant superintendent of the cable manufacturing plant at Sault Ste. Marie, and is recognized as one of the leading young business men of the Lock City."

DEEP SEA FISHING.

You let down a heavy lump of lead and two big hooks baited with clams into thirty, forty or sixty feet of water, once wrote Henry Van Dyke in Scribner's—and it's as true now as when he wrote it. Then you wait until something nudges the line, or until you suspect that the hooks are bare. Then you give the line a quick jerk, and pull in hand over hand, with more or less resistance, and see what you have drawn from the grab-bag.

It may be a silly but nutritious cod, gaping in surprise at this curious termination of his involuntary rise in the world; or a silvery haddock, staring at you with round, reproachful eyes; or a pollock, handsome but worthless; or a shiny, writhing dogfish, whose villainy is written in every line of his degenerate, chinless face. It may be that spiny gargoyle of the sea, a sculpin; or a soft and stupid hake from the mud flats.

It may be one of the grotesque products of Neptune's vegetable garden, a sea cucumber, a sea carrot or a sea cabbage. Or it may be nothing at all. When you have made your grab and deposited the result, if it be edible, in the barrel which stands in the middle of the boat, you try another grab, and that's the whole story.

It is astonishing how much amusement apparently sane men can get out of such a simple game as this. The interest lies, first, in the united effort to fill the barrel, and second, in the rivalry among the fishermen as to which of them shall take in the largest cod or the greatest number of haddock, these being regarded as prize packages. The sculpin and the sea vegetable

ELECTED OFFICERS.

Wednesday evening Negaunee lodge, No. 8, Scandinavian Aid and Fellowship Society of America, named the following officers for the ensuing year:

President—Oliver Johnson.
Vice President—Anton Seegen.
Recording Secretary—Charles K. Johnson.
Financial Secretary—Andrew Carlson.
Treasurer—Charles Thoren, Sr.

Marshal—Fred Stamborg.
Chaplain—John Nelson.
Inside Guard—Henry Hendrickson.
Outside Guard—Swan Olson.
Trustee—Henry Hendrickson.

The provision in the charter relating to the appointment of a sick committee by the president was recently done away with and a provision for the election of a commission of five members representing the five wards of the city was substituted. This commission will serve for one year, instead of for one month, as previously was the case. The following were elected as the commission:

First Ward—Fred Stamborg.
Second Ward—Henry Kronberg.
Third Ward—Titus E. Thoren.
Fourth Ward—Fred Calm.
Fifth Ward—Charles K. Johnson.

SCHOOLS CLOSE TODAY.

The public and parochial schools will close today for the Christmas and New Year's vacation. They will be opened

Are You in Business? We know of many instances where a small business started by men of little means but of ability has through wise Banking become strong and prosperous. Let Us Help You.

MINE TAXATION THRESHED OVER

Prominent Operators of the Upper Peninsula Held Important Conference on Stock Pile Assessments and Other Matters With State Tax Commissioners.

Was Urged That the Present Method of Taxing Ore in Stock Works Out Inequitable Results—Lansing Officials Promise Consideration of the Subject.

Well-known mining men of the upper peninsula, including M. M. Duncan and W. P. Belden, of Ishpeming, of the Cleveland-Chief Iron company; F. A. Bill of Negaunee, counsel for the Oliver Iron Mining company; D. C. Davidson, of Iron Mountain, Menominee range manager for the Oliver Iron Mining company; J. R. Thompson, of Ishpeming manager of the American mine of the Hanna company; Charles M. Lawrence, of Palatka; William Kelley, of Velleau; W. J. Richardson, of Crystal Falls; P. J. Webb, of Duluth, Minn.; and Earl Richards, of Crystal Falls, Tuesday conferred at Lansing with members of the state tax commission on matters relating to mine valuations that were left open following the recent revaluation of property in the iron counties.

"We had a highly satisfactory meeting, and I am confident that good will come of it," is the way one of conferees from the upper peninsula summed up the session.

Stock Pile Question Up.

One of the most important matters argued by the mining men, and one that the commissioners promised would receive their attention, is the assessment of stockpiles, which the mining men assert amounts to double taxation.

This question was one of the mooted points in the recent Marquette county hearings, but while the commissioners admitted that there was merit in the contentions of the mining men the tentative assessments reported by their agents were not materially reduced.

The stockpile valuations were based on the Lake Erie prices for the different grades of ore, less the cost of handling and selling. The resultant figures, the mining men contend, are much too high.

This condition, they said, tends to discourage the building up of stock piles during the slack winter season. Under the present method of appraisal, just as soon as ore is brought to the surface no matter how undesirable in grade it may be, or how difficult to sell, or how long it may have to be held, it is given a cash value considerably in excess of ore left in the ground.

One mine manager summed up the matter in this way: "The existence of stock piles is an accident, due to climatic reasons and also to the fact that most of the ore bodies have to be mined underground. As between ore bodies which have to be mined underground and those which may be mined in open pit, a tax system which assesses stock piles would result in glaring injustice to the underground mines. As applied to our underground mines, it means that ore mined during the winter season, when navigation is closed, is placed in stock piles and is given an additional assessment as personal property in April each year, while ore mined thereafter, during the spring season, is not placed in stock pile and is not reassessed."

"As a result substantially half the product of ore mines is subjected to double taxation and the second assessment is made on a much higher basis than the assessment on the ore mined underground. If the Finlay method of valuation is to be followed logically by the board of state tax commissioners the assessment of stock piles should be absolutely abandoned."

Would Work Hardships.

The non-assessment of stock piles would reduce the assessment of the iron mines more than \$3,000,000. The iron mines are valued at approximately \$86,000,000, according to State Geologist Allen. The mining men said they could avoid the stock pile taxation by not accumulating the stock, but that it would throw thousands of men out of employment during the winter. That the present method of arriving at the valuation of the mines is unfair and discourages the iron mining industry, was the chief contention advanced.

The managers said they recognized that the tax commission had sincerely attempted to arrive at proper valuations, that the methods used have, on the whole, been reasonable and that when obvious mistakes have been made the commission has shown a disposition to rectify them. They contended, however, that in their judgment some of the mines have been valued at figures above actual cash value.

This statement was made in the brief filed with the commission: "It is a fact we must face, that men will not invest money in mining enterprises of any kind at less than 10 or 15 per cent. Not only is capital tied up for a long and uncertain period, but the dividends even if they average well, suffer wide fluctuations from year to year. There are available plenty of six per cent. investments in well established, less hazardous industries. Such investments can be liquidated at any time and returns from them suffer a minimum of fluctuations."

Will Conduct Probe.

Commissioner Barnes admitted that the stock pile assessment really looked like double taxation and said the commission will go carefully into the arguments advanced by the mine owners.

Geologist Allen said the appraiser has got to preserve his independence of judgment, but that the department was willing to rectify any errors.

TIME EXTENDED TO FEB. 1

Street Commission Grants Request of Contractor Stensrud.

A Payment of \$271.75 was made to Eric J. Johnson, upon the completion of the second street sewer. The work was approved by the commission. The sum of \$246.50 was paid to Michael Dwyer, builder of a small sewer in Presque Isle avenue.

STUDENTS LEAVE FOR HOMES.

Winter Term of Normal Will Open January 5.

About fifty of the students of the Northern State Normal school yesterday departed for their homes to spend the Christmas vacation. They will return at the opening of the winter term on Monday, January 5. Most of the students, however, will leave this afternoon following the completion of the term examinations today. The examinations have been in progress for the past two days.

Most of the students have already enrolled for the winter term, and it is expected that there will be little change in the number of students compared with the fall term, as few new students enter at this time of the year.

NEW FIRE HALL WILL BE READY FEBRUARY 1

Building Now in Advanced Stage of Completion—Equipment Has Been Ordered.

Marquette's new fire hall will be completed about February 1. The Herman Construction company, of Antigo, Wis., which has the contract, has made excellent progress, as the building was begun less than two months ago. There is now no doubt but what it will be finished within the stipulated time. While the new hall is not to be as large as those in Ishpeming and Negaunee, it will be modern in every respect, and will present an attractive appearance.

Some of the city's fire equipment will be placed in the new hall in February, but the stecco work above the brick work of the first story and around the bell tower will not have been done. This work cannot be done during freezing weather, and will be delayed until early in the spring.

The plasterers and carpenters have finished work on the second floor with the exception of laying hardwood floors which will be done within a few days. Concrete blocks for the floor on the first story have been on hand for some time and will be laid about the middle of next week as soon as the work of the plasterers is completed. These blocks will be laid on the concrete floor, put in several weeks ago.

Four stalls are provided. They are paved with brick, and will be provided with the latest equipment. Two brass poles from the sleeping quarters on the second floor, one in the front of the building and the other in the rear, will be installed for use of the firemen in responding to night alarms. The double doors, both on the east and north side of the building, will open automatically, as will the doors to the several stairs.

All of the equipment, including the indicator and gong, has been ordered and will arrive in sufficient time so that it may be installed and ready for use by February.

PROF. G. E. VINCENT WILL BE INVITED

Board of Education Seeks Him as Commencement Speaker for Class of 1914.

Professor George E. Vincent, president of the University of Minnesota, formerly of Chicago University, will be extended an invitation to deliver the commencement address to the 1914 class of the Marquette High school next June. This decision was reached at a meeting of the board of education last evening. Prof. Vincent is a brilliant speaker and the board is highly hopeful that his services may be obtained. He has spoken in Marquette previously.

The employment of a physical director in the public schools was among the matters discussed last evening. No action was taken. Calisthenic drills have been conducted on the lawns at the various schools during the spring and fall months and in the school rooms during the winter. At the Fisher street school some apparatus has been installed, and the board feels that at this time the employment of a director of this work is not necessary.

The board received a set of questions from the state board of education in regard to the physical work that is now being conducted. While the employment of a physical director is required by state law, it is still, nevertheless, there are few schools in the upper peninsula that have yet procured the services of a director, the physical work generally being conducted in a satisfactory way without the services of a specially trained man.

The school board is now required to come under the provisions of the employers' liability and compensation act and all teachers and employees of the board will be insured under its provisions.

All of the members of the board were present at the meeting. The usual run of bills was presented, allowed and ordered paid.

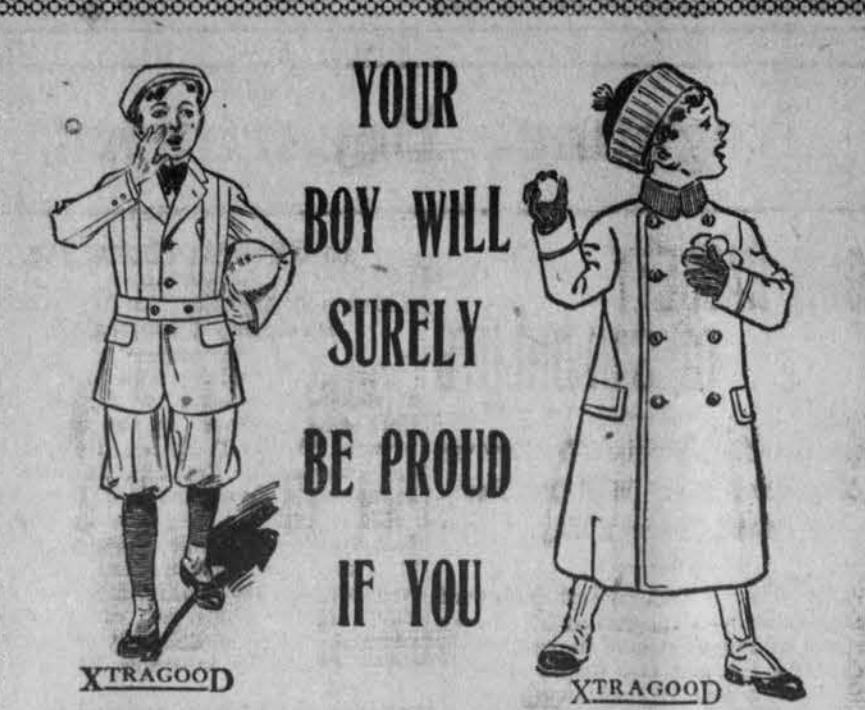

Guaranteed tuning work, repairing, etc. Leave orders at Grinnell Bros. (12-3-4f.)

NOTICE

Munising, Mich., Dec. 12, 1913.

The regular annual meeting of the stockholders of the First National Bank of Alger county will be held at its banking room in the village of Munising on Tuesday, the 13th day of January, 1914 between the hours of 10 a. m. and 4 p. m. for the election of directors and the transaction of such other business as may properly come before the meeting.

TRIAL OF ONE OF THE PUMPS SATISFACTORY

Water Board Is Pleased With Twenty-Minute Test of Platt Centrifugal Machine.

The installation of the three Platt centrifugal motor-driven pumps at the water works station has been completed and the pumps have been inspected by a representative of the General Electric company, the manufacturer. The three-million gallon pump, the medium-sized machine of the three was given a trial run yesterday morning, working to the satisfaction of the members of the water board who were present. The small pump, which has a capacity of two million gallons, will be tried out today and, as soon as all are in proper running order, the pumps will be permanently used, replacing the steam pumps operated for many years.

The pump tried out yesterday gave a pressure of 120 pounds, which is twenty-five pounds more than that of the large steam pump now in use, raising the water 230 feet. The machine was operated for a period of twenty minutes, during which time the pressure was steadily maintained. The largest of the three pumps, which is said to have a capacity of five million gallons a day, will give a head of water of 250 feet and a pressure of 125 pounds. The small pumps, with a capacity of two million gallons, about equivalent to that now in use, will give a pressure of ninety-five pounds and is sufficient for the usual needs of the city. Little water is being consumed in the city now and it is expected that the small pump alone will be ample during the winter months. The switch board for the motors which drive the pumps has been installed and the out-door transformers, which were put in by the light and power commission, are now in commission, stepping the current down from 2200 volts to 440.

The medium-sized pump, tried out yesterday, has a capacity of 2,000 gallons a minute and turns at the rate of 1,150 revolutions a minute. The small pump, which will furnish 14,000 gallons a minute, turns at the rate of 1,700 revolutions a minute. The largest, which will be used for fire purposes, has a given capacity of 38,000 gallons a minute.

A sixteen-inch suction pipe leads from the well to the pumps, the pipe branching out. An eight-inch pipe leads to the small pump, a ten-inch pipe to the medium-sized machine and a twelve-inch pipe to the largest pump. The discharge pipes are of the same size and join, forming a twenty-inch pipe which connects with the water main.

The motors are 400, 200 and 150 horsepower and all are operated by electric current at 440 volts. The amperage of the three motors is 300, 203 and 150.

STEAMER MAJOR SOLD.

Purchased at Auction by Captain Hursley, of the Soo.

W. A. Ross, deputy United States marshal, returned last evening from the Soo, where he had been for the last week on business connected with the disposal of the steamer Major, which was found abandoned near Witsesh point, following the storm in the early part of November, and was libeled by the Superior Steamship company. The boat was sold to Captain Jay Hursley, of the Soo, a resident of Marquette about twenty-five years ago.

Upon arrival at the American Soo a week ago, Mr. Ross took the boat to the new Ontario docks, where he delivered 180 tons of coal to the Valley Camp Coal company, the purchase price being \$1,312. The boat is in poor condition and it is said that it will require from \$5,000 to \$8,000 to repair it. The vessel was formerly known as the John Mitchell and was owned by the Mite-A-J Steamship company. Its name being only recently changed.
