

SENSATIONAL STORY TOLD TO SHERIFF CRUSE

Confession Reported Made by John Huhta, a Former Western Federation Official, Describes in Detail, It Is Said, the Triple Murder at Painesdale Dec. 7.

This Man and Four Others Guilty, It Is Stated, of Killing the Jane Brothers and Thos. Dally in Their Beds—All but One of Those Implicated Now in Jail.

Houghton, Mich., March 1.—John Huhta, former secretary of the South Range union of the Western Federation of Miners; Nick Verbanac, an organizer, and Hjalmer Jansson, a working Jettison, members of the federation, are in the county jail, charged with the murder of Thomas Dally, Arthur Jane and Harry Jane, who were killed in their beds at Painesdale the morning of Dec. 7.

Alleged Leader Still at Large. While the confession of Huhta precipitated the arrests, it is said that there would have taken place within a short time in any event, as Sheriff Cruse has had a number of officers working on the case and it is stated that they gradually were drawing the net around at least Huhta, Verbanac and a man named in the confession but who has not been apprehended.

Huhta approached one of Sheriff Cruse's officers at South Range Thursday afternoon and abruptly stated: "I want to make a confession. I was in the Painesdale shooting." The officer would have taken the man in custody at once, but two of the other suspects were to defer the arrest. Huhta willingly made a later appointment and he was arrested shortly after noon on Friday and brought at once to Houghton.

Huhta stipulated specifically in making the confession that he was turning state's evidence. This may have the effect of lightening his punishment.

Story of the Shooting. Huhta's confession after he had signed and sworn to it, was turned over to Special Prosecutor George E. Nichols, who was called to Houghton by wire Thursday and arrived Friday night. Mr. Nichols would not make public the text of the confession, but Sheriff Cruse made known its general tenor.

According to the sheriff, Huhta said that this shooting and others of similar purpose but of lesser accomplishment was planned by the man who has not yet been arrested. After planning the shooting this man went to Calumet and was there that night, miles distant from the tragedy.

Huhta said that Verbanac, a close associate, got him into the affray and that they and the two other men under arrest did the actual shooting. He went into details as to the number of shots fired, the kinds of rifles used and the position of the various participants in the shooting, as well as how they got away unseen.

The three Englishmen were killed by bullets fired from a distance into the Daily boarding house, of which Daily was proprietor and the Jane boys boarders. Huhta said that as he was shooting a rifle of peculiar calibre, 25-35, he picked up the nine shells he had fired and carried them away with him. He furnished the sheriff with one of the shells.

Ousted from Federation Office. The reason given for the confession, is that Huhta had turned grudge against the Western Federation. He enjoyed a brief period of prosperity while secretary of the South Range union and because he lost his office he determined to get even.

Huhta was made secretary of the union after John Koski, the former secretary, was arrested on a charge of shooting Deputy Sheriff Tim Driscoll during the South Range raid. Huhta is a young Finnish miner and he had never been particularly prosperous. His office as secretary gave him it, is said, \$75 a month, and pickings, the latter in unknown amount. From the time he was made secretary he was flush. He exhibited a generous roll of money at times and he went on debauches with boon companions. His dissipation made his work as secretary suffer and the books became so tangled that the strikers began to murmur for a new secretary. The powers in the federation released Huhta from the lucrative office he was enjoying and his income was cut off.

Nick Verbanac was Huhta's boon companion most of the time during this brief period of splendor. The story of one of their wild nights is told in the records of the county jail.

Escapade Results in Arrest. Early in the evening of Jan. 22 a cutter dashed out of a South Range livery stable and as it disappeared over a hill at the edge of the town two men were carrying the cutter fired pistols in the air, making a celebration of a sort that stirred South Range somewhat. Officers were posted to await the return of the cutter and Nick Verbanac and John Huhta were found to be the night riders. They were arrested and searched and

each was found to have a pistol in his possession. They had since been out on bail under the charge of carrying concealed weapons, awaiting trial in circuit court.

Huhta and Verbanac that day had plenty of money on their persons, dressed well, and were as gay and debonaire as well paid officers of the Western Federation of Miners should be. Verbanac has been flush ever since and when arrested Friday night he had ten \$20 bills in his clothes.

An Investigation Witness. Verbanac has been an active federalist. The day he was arrested on the

SOUTH AFRICAN EXILES WELCOMED TO LONDON BY BIG LABOR ASSEMBLAGE

London, March 1.—One of the largest crowds ever seen in Hyde Park gathered there this afternoon to welcome the labor leaders deported from South Africa recently because of their connection with the general strike. The demonstration was organized by the Trades Union congress, and practically every union in the country sent a delegation.

Processions formed in all parts of the city and marched to the park, where from nine platforms the nine deported men addressed the crowds. The meeting adopted a resolution condemning the action of the South African government in sending the men out of the country.

Strike in France Is Called Off. Paris, March 1.—At a meeting today of the national council of the Miness union, it was decided to call off the strike of coal miners, begun in the southern coal fields on Feb. 24. The national council requested the various organizations to have their men resume work on Tuesday. The strike was called as a protest against the elimination by the senate of some clauses of the underground workers' pension bill. Forty thousand men struck.

Seven Big Sawmills at Everett, Wash., Are Closed to Permit of Reorganizing Forces.

Everett, Wash., March 1.—Seven of the largest lumber mills in Everett, operating under an agreement, shut down last night. It is the purpose of the mill owners, when they resume operations, to bar from their premises all union officers, organizers, walking delegates or any man wearing a union button.

Unemployed Invade New York Church. New York, March 1.—The unemployed invaded Fifth Avenue today and stormed a fashionable church in that thoroughfare. As the choir of the Presbyterian church was singing the opening hymn, one hundred men entered and marched down the center aisle.

Rev. Dr. Howard Duffield, the pastor, stopped the service, and made the newcomers a little speech of welcome and asked them to be seated.

Frank Tannenbaum, an Industrial Worker of the World leader, said: "We are hungry and we are homeless. We want something to eat and a place to sleep." Other speakers said they wanted to sleep in the church.

Dr. Duffield explained he could not grant this request, since he had no authority to do so, but told the men a way would be provided for them to have food and shelter. At the close of the service a purse was made up to provide food and lodging for the men for the night.

EX-CHAMPION CAVILL DIES FROM EXHAUSTION, FOLLOWING LONG SWIM.

Seattle, Wash., March 1.—Arthur R. Cavill, the swimmer who was the first man to swim the Golden Gate at San Francisco, and who was recognized as the champion swimmer of the world from 1895 to 1900, died of exhaustion today, after he had been taken from the water after an unsuccessful attempt to swim across the Seattle harbor, a distance of three miles. The water was cold and a strong wind and adverse current took him out of his course, so that he swam fully four miles during the hour and ten minutes he was in the water. Cavill was thirty-four years old, and was born in London. He held fifty-six medals for lifesaving and had established many swimming records.

FEDERAL LEAGUE SCHEDULE CALLS FOR 154 BALL GAMES; SEASON TO OPEN APRIL 13.

Chicago, March 1.—The Federal league's playing season, which will be opened on April 13, one day before the National and American leagues begin their campaigns, will include 154 games, which will be extended on the cards over nearly six months. The end of the season, President Gilmore said today, will come early in October, or about the time the National and American leagues wind up.

Every club in the league will be represented at the New York dock where the world tourists are expected to land this week. President Gilmore will head the reception committee and is confident of winning for his league some of the best known of the stars.

FIVE WORLD STARS TO COMPETE AT CHICAGO IN BIG BILLIARD TOURNAMENT.

Chicago, March 1.—Five of the world's greatest billiard players will meet this week in an 18.2 talk-line tournament here. The tournament will begin on Monday night and continue each night at the edge of the town two men occupying the cutter fired pistols in the air, making a celebration of a sort that stirred South Range somewhat. Officers were posted to await the return of the cutter and Nick Verbanac and John Huhta were found to be the night riders. They were arrested and searched and

each was found to have a pistol in his possession. They had since been out on bail under the charge of carrying concealed weapons, awaiting trial in circuit court.

MACNAUGHTON WILL OCCUPY STAND TODAY

General Manager of the Calumet & Hecla Properties Will Be the First Witness Called at Houghton on Behalf of Operators—Will Give Testimony This Afternoon.

Unless Unforeseen Delays Are Encountered, the Companies Hope to Conclude the Presentation of Their Case This Week—Mills at Torch Lake Inspected Saturday.

Houghton, Mich., March 1.—James MacNaughton, general manager of the Calumet & Hecla Mining company, will be the first witness for the operators tomorrow before the congressional investigating committee, according to an announcement made tonight by Allan E. Rees, of counsel for the companies. It is planned to have Mr. MacNaughton supply the congressmen with any information they want regarding working conditions, wages, hours of labor and other subjects relating to the existing mine workers' rights.

the day before the burning of the mine office, tittle and postoffice at the Southwestern mine near Aguilar.

It was believed tonight that plans had been made by the committee to take the testimony of "Mother" Mary Jones tomorrow. Members of the committee refused to confirm the report. Other persons interested in the investigation admitted knowledge of the plan, but refused to divulge its details.

"Mother" Jones is confined in a hospital as a military prisoner. If the committee takes her testimony tomorrow, it may do so at the hospital, or it may have the aged strike leader taken secretly to some other place.

The committee spent Sunday in what more nearly resembled a day of rest than any it has experienced since its arrival in Colorado.

CREW OF WRECKED SHIP RESCUED BY LIFESAVERS IN MILE-A-MINUTE GALE.

Wakarusa, R. L. March 1.—The four-masted steamer Jacob S. Winslow, lumber laden, from Terhinda for Providence, crashed on the Black rocks, on the southeast side of Black island, early today. Captain Wilson and his crew of eleven were brought to shore several hours later by the Black island lifesavers, who made the hazardous trip in a surf boat against a raging gale, blowing a mile a minute, and through menacing seas. The schooner ran ashore at low tide, and every sea hammered her farther onto the rocks. The lifesavers believe she will be a total wreck.

JOURNEY INTO MEXICO HALTS UNEXPECTEDLY

Trip of the Commission Appointed to Examine Wm. S. Benton's Body at Chihuahua Ends Abruptly as the Party Is About to Board Train at Juarez.

Passports Are Refused—Carranza Tells Washington He Is the One to Be Consulted, Not Villa—He, too, Proposes to Deal With Britain, Not the United States.

El Paso, Tex., March 1.—The trip of the Benton investigating commission to Chihuahua was postponed suddenly or abandoned today, shortly before the commissioners were about to take the train. Those concerned said that any explanation must come from the state department.

The commissioners were at the train in Juarez, when informed that they were not to go. The commissioners are Charles A. C. Perceval, British consul at Galveston, and James Hambleton, a British subject long resident in Mexico, appointed by Perceval; R. E. Thomas, a lawyer of this city, who has made a special study of international and Mexican law; Dr. A. M. Worsham, of El Paso, and Major W. T. Davidson and Surgeon C. J. Manly, of the United States army.

All of the party were bound to secrecy, but it was learned that they acted on instructions from Washington. At Fort Bliss, General Hugh L. Scott, who appointed Davidson and Manly as assistants in the examination of Wm. S. Benton's body, said that he had no information, further than that the medical man had been notified to be at the train and that later they had reported to him they were not going.

Commissioners Refused Passports. Juarez, Mex., Feb. 1.—The Benton investigating commission today was prevented from proceeding to Chihuahua to examine the slain Briton's body. Colonel Fidel Azula, military commander here, declined to permit them to board the regular passenger train, which was waiting. An authoritative admission to this effect, tonight dispelled reports that the commission was halted on orders from Washington.

Whether the occurrence means delay or the permanent prohibition of the mission could not be learned. The mystery thrown around the incident led to many rumors of an apparently exaggerated nature. The most persistent inquiry failed to establish anything but the one fact that the commissioners were refused passports on this side, and returned to El Paso. No official in Juarez has authority to take such action as was taken in this case. Only two persons in northern Mexico have the power—Venustiano Carranza and Francisco Villa.

The order came as a surprise to the commissioners. Villa has repeatedly expressed his desire to hasten the inquiry, and his offer of a special train to take the commission from this city to Chihuahua, where Benton's body is said to be buried, was formally accepted by Marion Letcher, the American consul here.

George C. Carothers, agent of the state department in many of its dealings with Villa, also delayed his departure for Chihuahua.

Carranza Creates New Complication. Washington, March 1.—No examination of the body of William S. Benton, the British subject executed by General Villa at Juarez, will be made by the commission composed of American and British government representatives, pending the outcome of an exchange of notes between General Carranza, chief of the Mexican Constitutionalists, and the United States.

General Carranza's declaration that Great Britain, instead of the United States, should deal with him concerning the death of a British subject, coupled with the broad intimation that all communications of international affairs should be addressed to him instead of to General Villa, or any other of his subordinates, injected a new complication into the situation, and the expedition to Chihuahua arranged to start from El Paso today was postponed.

President Wilson and Secretary Bryan had a long conference, lasting most of the afternoon, reading the notes from Carranza and other dispatches. Afterwards Secretary Bryan motored to the British embassy at 11 informed Sir Cecil Spring-Rice, the British ambassador, that the expedition to Chihuahua, where Benton's body is buried, had been abandoned until satisfactory arrangements could be made with General Carranza.

Just what instructions have been sent to American Consul Simpich, at Nogales, who is in touch with General Carranza, was not divulged, but representatives of Carranza, who understand the American viewpoint, were busy telegraphing the constitutional commander tonight, urging a change of attitude.

He Doesn't Understand the Situation. Carranza's friends here believe he does not understand exactly the position of the United States with reference to all foreigners in Mexico, and they are seeking to impress upon him that when dealing with the United States he is, in effect, treating with the agent of Great Britain, as England and other powers have practically entrusted to the Washington government the task of looking after its subjects in northern Mexico, particularly where there are no British consular representatives, as at Juarez. That Carranza will recognize this and change his attitude is the confident expression of his friends here.

Washington officials said they did not interpret Carranza's note as unfriendly.

Philadelphia a Sufferer. Philadelphia, March 1.—One of the worst storms in years raged in this region today, paralyzing wire communication, and bringing a heavy rain and snow service between this city and New York to a standstill. High winds accompanied a heavy fall of snow. At Mount Carmel, Pa., the roof of a tabernacle in which a religious revival was being held was blown off, but no one was hurt.

St. Louis, March 1.—A windstorm which struck St. Louis tonight levelled fences and billboards, tore down roofs, electric signs and chimneys and hurled showers of bricks, wood and iron on pedestrians in almost all parts of the city. Fifty persons were injured, several seriously, but none fatally. Plate glass windows in about a dozen downtown stores were shattered by the gale, which at times attained a velocity of fifty-five miles an hour.

BLEACHERS HAS CLOSE CALL FROM A SERIOUS ACCIDENT WHILE LOOPING THE LOOP.

Santa Barbara, Calif., March 1.—While "looping the loop" here today, Lincoln Bleacher, the aviator, lost control of the biplane, and fell sixteen hundred feet. He managed to right himself four hundred feet from the ground and escape with slight injuries.

Brothers Die in Flight in France. Lyons, France, March 1.—Pierre and Gabriel Salves, brothers, were killed today, while making an experimental flight in an all-metal monoplane of their own invention. The left wing of the monoplane gave way and the machine crashed to the ground.

Flyer Is Victim in Argentina. Buenos Ayres, arch 1.—George Newberry, the holder of several aeroplane records in this country, was killed in a flight today near the Andes mountains. Lieutenant Gomez Lastra, a passenger, was seriously injured.

The Weather

Washington, March 1.—The following is the weather bureau's forecast for Upper Michigan: Fair, Monday and probably Tuesday; warmer, moderate variable winds, becoming south.

MICHIGAN COLLEGE LEADS IN RIFLE LEAGUE SHOOT.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.  
MONDAY, MARCH 2, 1914.

## A FLEXIBLE SYSTEM.

Announcement that the commission will discharge \$20,000 of bonds, \$5,000 of them city hall bonds, with money earned by the electric power plant and the water plant directs attention to the greatly increased flexibility in municipal finances secured by the new charter.

Formerly the light and power commission was the sole custodian of the funds earned by the electric power plant, and the same was true of the water board with reference to the water plant. These bodies might have had \$100,000 in their possession, and still the council would have had to proceed to make up the annual tax budget the same as if the city did not possess a dollar of cash assets. The boards could not be required to apply their moneys to purposes other than those having to do with the conduct of the businesses they were organized to look after.

The new charter breaks down the artificial barriers between the finances of the city's two productive plants and the city's general necessities. By virtue of its flexible provisions the commissioners are enabled to administer all the city moneys with reference to obtaining the most beneficial results for its rate payers. For the time, the income of the productive plants can be applied to the retirement of the outstanding bonds.

Because the commission is working out considerable economies and because of the increased freedom it has in handling all city funds, direct taxation should be considerably reduced in Marquette within the next few years, at the same time the people of the city are given improved municipal service.

up" service of parcels intended for shipment. If the express companies will meet this need they will make all the money they are entitled to make.

**THE SHORT BALLOT.**

The New York assembly has just passed a short ballot bill. "The truth is that a short ballot is democratic and that the long ballot is anti-democratic and is generally conceded," the New York Globe comments. "It is perceived that genuine popular rule is more likely to be secured when only such state officers are elected as have important functions; that it is safer to have a governor, directly responsible to the people, name the men to head the various state departments than to have them named by an irresponsible boss. Politics abhors a vacuum as much as nature does, and inevitably the filling out of the ticket was the prerogative of the boss even when he was compelled to meet public opinion with respect to his head."

"The short ballot principle is capable of general application. There is no reason for numerous elective county officers. The elective judiciary system does not work well in a great urban community with fifty or more judges. It is clear that it is impossible to secure discrimination when the election is one involving more interesting matters. Either an appointive system should be devised, or there should be a special judicial election. There is not an intelligent citizen who has a doubt concerning the probable results of placing a long list of judicial candidates at the end of a general ballot. It means the exact contrary of popular selection. It means that a small coterie will do the choosing and that the obligations of the judges will run to their backers rather than to the public."

## PARCEL POST VS. EXPRESS.

From many sources come elaborate defenses of the express companies. A costly booklet was sent through the mails not long ago. Theater programs have contained terse statements of the claims made by these forerunners of the parcel post. The latest argument is that of William A. Marble, president of the Merchants' Association of New York, occupying the greater part of a page in the New York Herald.

As might have been expected, Mr. Marble's statement of fact is unchallengeable. It is true that nobody knows what the parcel post is now costing the government. It is true, consequently, that nobody knows whether the service "pays" or not. It is true that at present it is founded upon fraud, upon fraud committed in the name of the government of the United States, in that the government is receiving from the railroads a service it declines to pay for.

But it does not follow, and Mr. Marble does not say outright that it follows, that the parcel post should retreat in favor of the express companies. On the contrary, his argument is intended to outline a field in which the express companies can perform a service which the parcel post cannot perform. Thus, he sets forth the following "limitations" of the parcel post:

- "It does not provide a 'pickup' service."
- "It does not adequately provide for safety."
- "It does not provide adequate indemnity for loss."
- "It does not provide any indemnity for damage."
- "It excludes a wide range of commodities from quick transportation."
- "It prevents valuable packages from being securely closed."
- "It is obvious that unless all these limitations be removed the parcel post cannot effectively serve numerous imperative transportation needs."
- "What about these limitations?"
- "There is no 'pickup' service. But there soon may be one. Other countries have included it in the parcel post."
- "As for safety, indemnity for damage, and reimbursement for loss, the government has set the limit at \$50. This is obviously less than the value of many shipments of merchandise. But it is ample for more than nine-tenths of all the parcels of every class not shipped as freight."
- "The 'wide range' of commodities which are excluded consists mainly of perishable goods, such as meat and fish, and of explosives. Even perishable goods are receivable for the near zones."
- "Goods which must be sealed can be sent under letter postage."
- "The express companies cannot destroy them for them if they could. They can thrive only in that field in which they are able to give a distinctive service and then only by performing that service as they can."
- "Mr. Marble outlines that field in part. Supplying his omissions, it includes the transporting of articles of more than \$50 value, when such articles cannot be subdivided into several shipments; the transporting of perishable goods beyond the limits set by the parcel post; the transporting of explosives; the transporting of goods exceeding the bulk and weight limits of the parcel post; and, for the present, the collection by 'pic-

into Mexico. His presentation of the tremendous difficulties that would be involved by such an invasion and the heavy price that would have to be paid before it was completed by pacification—if that could ever be—is one of the most impressive that has been made. "It would," as he reminds us, "involve the garrisoning with a sufficient force of every town. It would involve the organization of columns to chase guerrillas into mountain fastnesses and across trackless desert plains and the subjugation of fifteen millions of people. No effort should be avoided to prevent a catastrophe like this."

At Ishpeming the project of acquiring the Nelson House with the purpose of remodeling it so as to give the city a modern hotel is receiving the serious consideration of the Advancement association. The association could do few other things more effective in putting Ishpeming on the map than providing it with a hotel that visitors would talk about after they went away. A modern hotel, conducted in a modern manner, is one of the most valuable assets a town can have. It is to be hoped that the Advancement association will be able to carry its project through to success.

Persons who attach significance to the small Progressive vote in the Chicago primaries last week simply display lack of information concerning the conditions under which the primaries were held. The election law was interpreted in a manner that prevented the Progressives of 1912 from participating in the primaries unless they voted for Republican or Democratic candidates. Thus such Progressive votes as were polled were cast by women or by new voters. And the entire vote of the primary was less than a quarter of the normal vote in Chicago.

Fifty thousand sheep were sheared in one day, at one point, in Australia. In its palmiest days Wall street could turn with pride to nothing like this.

## STATE PRESS.

W. H. Nettleton, 88, of Bristol, Conn., recently closed with Mary Baldwin, aged 68. Parents probably objected.—Detroit Times.

Neither is Mr. Carnegie to be called a prince of peace. He is rather the price of peace.—Pontiac Press Gazette.

A. J. Groesbeck urges that the state Republican committee should undertake the organization of the annual round of midwinter banquets so that the speakers brought in to address the banquets could be employed to the greatest advantage. He would apply the chautauque idea, and arrange these attractions in a circuit on which the "talent" would go from one attraction to another. The expense involved for the single banquet would thus be lowered and the calibre of the speakers would be much heavier than could otherwise be the case.

"In campaign years it would also give the candidates an opportunity to appear before many more voters than is now possible, when there are several banquets on a given date," he asserts. "With so much direct power given the people it is absolutely necessary that they be thoroughly familiar with both issues and candidates. And I do not believe that anything affords the same opportunity for informing the people as does the political banquet."

Mr. Groesbeck's idea is not copyrighted by the G. O. P. It can be adopted by the other political organizations, also. He speaks by the ear when he dwells on the importance of the people becoming thoroughly familiar with issues and with candidates. The newspapers do all they can to that end, but there is a certain something, the ability to judge that comes of personal contact, that cannot be supplied except by the platform speech.

An assemblage of open-minded voters that has heard a candidate speak, and has been given a chance to estimate his personality, is surely better prepared to vote intelligently with regard to that candidate than an equal number of men who have never seen nor heard him.

Modern political methods, the enhanced power of the individual voter, demand that the fullest opportunity be given the electorate to inform itself as to the opposing sides of all issues and the character of the men who are standing for them.

Senator Foraker, whose retirement from public life in Ohio was caused by untimely publicity of Standard Oil letters in which his name figured in a way that showed him to have been on too friendly terms with that corporation at the same time he was believed to be representing solely the people of Ohio, was cheered to the echo at the "get together" banquet at Cleveland last week. So much noise was made on his appearance as to give rise to the query, "Can Foraker come back?"

The Commercial club proposes to busy itself to see whether it cannot stop the flood of exaggerated stories about rough weather in Cleveland. Why not appoint a committee for the suppression of the Humboldt thermometer?

Certain ultra-conservative G. O. P. newspapers are still lacking away at the impossible. They are seeking to base a constructive campaign on the destructive tactics of crying "hard times" at every slight excuse.

Former President Taft is evidently fully in accord with the idea of President Wilson that much should be entrusted before American troops are sent

women warned to leave Washington will accept the offers of work "although many are in destitute circumstances."—Louisville Courier-Journal.

## A LAUGH OR TWO

Patriotism.

An old Scottish gardener was showing to a tourist the securities of the loch and of the little village of Duddingston. It was evening, and as he expatiated on the lovely scene and on the glories of his country, the moon rose over a hill. The old man stopped short in the middle of a sentence and gazed at the moon in admiration. Then he turned to the tourist and said: "There's a moon for ye! I tell ye, mon, we're a grand nation!"—Tit Bits.

## Private of the Line.

Private Judkins was the newest recruit on the Texas border. The corporal sent him back to the quartermaster for a rope. Private Smiffkins eyed him on his errand, and inquired what sort of a rope he wanted. "I don't know," answered Judkins. "Well, I'll tell you," Smiffkins volunteered, and he did. Judkins went on and tackled the quartermaster. "Corporal sent me for forty feet of skirmin' line, sir," he said.—Unknown.

## Malicious Story.

A publisher's reader told at the Players' club in New York a story about Mrs. Florence Barclay, author of "The Ropewalk."

"Mrs. Barclay was working in her garden," he said, "and fell into talk with an old chap with a grass hook, who had been hired to cut the grass. 'The talk turned to looks, and Mrs. Barclay said: 'And have you read 'The Rosary'?' 'Well, ma'am,' said the old gardener, scratching his head with his grass hook, 'I ain't exactly what you might call read it, but I've tried to, ma'am.'"

## Hard to Keep.

The dinner was given by a colored man named Ebenezer White, and the guest of the evening was George Washington Green, chief deacon of the little church that White occasionally attended. Green, of course, was eloquently said, and at his conclusion Mr. White began to carve the chicken. Then Deacon Green became facetious.

"Brother White," he smilingly remarked, "do not do your neighbor's yard work for me." "No, sah!" came the prompt response of Mr. White, as he deftly piled loose a well-roasted wing. "But he try hard 'nuff to keep 'em."—Argonaut.

## Like Smith.

Representative Carter Glass, apropos of the new currency bill, said the other day: "The banks now find that the currency bill is for their own good as well as for the people's. The banks at first were wrongfully enraged. They were like Smith."

"As Smith's train started for the west he stuck his head far out of the window in his excitement, whereupon a brakeman called: 'Look out or you will have your head knocked off.' 'Knocked off,' hey? roared Smith, shaking his fist at the brakeman. 'Well, it won't be knocked off by anybody this size of you, you saved-off, hammered-down pigmy!'"

## Non-Committal.

A lecturer went to Yonkers with a letter to a Yonkers citizen from a man in New Rochelle and succeeded in getting an engagement. His three-hour lecture proved to be very interesting. Next day Mr. Yonkers met Mr. New Rochelle. "What did you mean," asked Yonkers, "by recommending that lemon lecturer?" "I didn't recommend him."

"Well, I just guess you did. I've your letter right here in my pocket."

"Better read it over again—carefully."

"Mr. Yonkers, did I say purposely non-committal."

"I have heard Mr. B's lecture. It is as interesting as it is instructive."

"And it wasn't either," said Yonkers. "Then the comparison holds," said New Rochelle.—New York World.

## Practical Experiment.

The friends of a certain distinguished professor frequently dropped into his laboratory for a chat in the evening. Generally they found him busily engaged in some experiment.

One evening, when two friends called, they found the professor leaning anxiously over a spirit lamp, on which a small pot was bubbling.

"Well," said one of the callers, "what is it tonight?"

"Gnocchi," murmured the professor. "Gnocchi?" asked one.

"Pneumococci" asked the other.

"No."

"Spirochaeta?"

"No."

The callers ran the scale of micro-organisms as far as they knew it. Then one of them said:

"Well, we give it up! What is it?"

The professor smiled blandly. "Sausages!"—Boston Herald.

## EDITORIAL OPINION

### Well Killed.

The better sense of the United States senate asserted itself yesterday in the killing of the Norris resolution asking the attorney general to give out the details of the trust agreement between the judiciary department and the New Haven railroad as to the surrender of the Boston & Maine stock control. With all due respect to the proponents of the measure, they were simply "butting in" on a situation they could not help.

This arrangement is now in process of making. Its terms and details will be soon learned by the world. A senate inquiry at this time would simply embarrass matters without doing any good, as Senator Lodge showed conclusively in yesterday's debate.

We cannot think there will be any "monkey business" hostile to the general good in this agreement. If there should be, there will be no lack of criticism vigorous enough to change it.—Boston Post.

### For the People's Choice.

Roger Sullivan, the Democratic boss, is the leading candidate for the Democratic senatorial nomination in Illinois. He is the leading candidate because the other candidates, who have not a machine to facilitate their running, have not yet got well under way. It is scarcely to be expected that Sullivan will be nominated.

A few years ago Sullivan might have been nominated by a partisan convention. He might have been elected by a boss-dominated legislature. It was not very long ago that an Illinois legislator sent William Lorimer to the United States senate.

Which brings to mind the fact that Lorimer is still looking for vindication. It is said that he will make an active fight for the Republican nomination this year.

Among the nightmare possibilities of politics must be considered the nomination of Sullivan and Lorimer by their respective parties. In such case the Illinois Bull Moose would merit one of the greatest victories in American history—very long ago that an Illinois legislator sent William Lorimer to the United States senate.

### Michigan's Minerals.

A Herald reader in Milbrook, Mich., writes to inquire how Michigan ranks in the iron industry of the United States. The query opens an interesting field for speculation and for potent thought emphasizing Michigan's commercial importance to the Union and to the world.

The last official government figures available are from the United States Geological Survey and cover the output for the year 1912.

On the basis of these figures Michigan holds sixth place among the states in the total value of its total mineral production, with an output in 1912 valued in excess of \$80,000,000.

Michigan ranks second in the production of iron ore, valued at \$50,000,000. In 1911 Michigan's production of iron ore was 8,945,053 long tons, valued at \$23,170,190; and in 1912 was increased to 12,717,468 long tons, valued at \$29,003,162.

Michigan stands third in the production of copper—being exceeded only by Arizona and Montana. The production of copper in Michigan amounted in 1912 to 218,138,408 pounds, valued at \$135,992,837—a decrease in quantity, but an increase in value of over \$8,000,000.

Meanwhile Michigan stands first in the mining production of salt, calcium chloride and graphite.—Grand Rapids Herald.

### Britain Our Good Friend.

The consistent and friendly position assumed by the British government with respect to the Benton murder in Mexico is said to cause a feeling of much satisfaction and gratification on the part of President Wilson and other administration leaders at Washington. And there is good reason for this feeling, for during the week the representative leaders of the British government have several times made it plain that they have entire confidence in the plans and efforts of this government in dealing with the troublesome Mexican situation, and that nothing will induce the British nation to deviate from its program of harmonious co-operation with the United States.

Two especially significant expressions along this line were made in the British house of commons during the present week. One was made by Sir Edward Grey, who, in discussing the Benton affair, said: "I should like to add that the fact we are communicating with the government of the United States does not, of course, imply that it has any responsibility for what has taken place." He continued by saying that Great Britain is using the good offices of the United States to discover what is happening in the state of Chihuahua. It has no consular officers there and must depend on the reports of American consuls for accurate information. The United States is gladly doing a favor in furnishing this information. It is not wishing it in discharge of any international obligation. And to this was added the statement of the British under secretary for foreign affairs, Mr. Dyeck Ackland, who announced that his government had no idea of intervening. Intervention, he said, "would be both futile and impolitic." Reparation for

## LOWER STATE NOTES

### LANSING—The supreme court has granted Edward N. Dingley, of Kalamazoo, a stay of ten days in order that the supreme court might review the action of Circuit Judge Stewart in sentencing Dingley to pay a fine of \$200 or serve thirty days in the county jail for contempt.

### ALMA—Lafayette Peters, seventy-one years old, a pioneer citizen of this county, is dead at his home four miles west of here. Peters, who was a wealthy farmer, left \$10,000 to the Woman's Foreign Missionary society, of the Methodist church, and \$500 to the Methodist church at Elwell.

### MUSKEGON—Claiming that he had been internally and possibly permanently injured as the result of an automobile collision, Dr. E. Bussard of Muskegon Heights began suit for \$15,000 damages against Louis C. Walker, president of the Shaw-Walker company of this city. The doctor claims that since the accident he has had several internal hemorrhages and has been seriously ill. The accident occurred about two months ago.

### HASTINGS—In availing his store from being burned by a blazing oil stove, William Martin of Rutland township and his little daughter were badly burned. While Martin was carrying the stove out he called to the child to open the door. The blaze ignited her clothing. Running out of doors she rolled in the snow, putting out the fire. Her hair, jacket and one ear were burned. Martin's hands were almost burned to a crisp and skin grafting will be necessary.

### PORT HURON—The collision of two Grand Trunk freight trains head-on at Maumandia, Ont., seven miles from Sarnia, Ont., resulted in the death of Charles Symes, twenty-five years old, of Sarnia, a fireman, and a brakeman, Chesire, who was riding in the engine. Symes was found lying across the dead man's body under the wreckage of the locomotive entirely unburnt. Seventeen freight cars were buried in all directions and one locomotive was demolished. The cause of the accident is not known.

### LANSING—Lieutenant John B. Dolan, head of the military department at the Michigan Agricultural college, and coach of the Aggie snaphooters, has issued an order that the members of the rifle team must abstain from "fussing" and other social activities during the training season. "A little 'fussing' now and then is beneficial to the best of men," said Lieutenant Dolan, who has coached this rifle team, but should not be indulged in when clear-headed and a steady hand is required."

### LAPEER—Internal Revenue Collector M. J. McLeod at a banquet here presented some interesting figures to show that prosperity is not as rampant as the Democrats are claiming. He took the figures on his own office in Detroit, explaining that the internal revenue tax is entirely a tax on the wealthy classes. In October, the receipts of the Detroit office fell off \$119,341.77 from October, 1912; November, \$193,443.18; December, \$172,425.74, and January still further shrank, \$216,175.84. The figures made a profound impression on the audience.

### LANSING—The state of Michigan saved approximately \$50,000 by awarding a contract to the lowest bidder. At the last session of the legislature an act was passed requiring a new compilation of Michigan laws. This meant that a contract must be let for binding the books when printed. The Robert Smith Printing company, of Lansing, has generally been awarded this contract. This year their bid for the contract was approximately \$50,000 more than was that of Lawrence & Van Buren of this city. It will cost about \$75,000 to bind the books. The state board of auditors also let the contract to the lowest bidder. The Wynkoop-Hallenback-Crawford company, of Lansing, secured this contract. Bludgen & Seibert, of Lansing, secured a \$15,000 binding contract.

### OWOSSO—Odel Chapman, pioneer Owoosso attorney and for many years a "wet" sympathizer, but now foremost advocate of local option, has given notice through a local newspaper that he will make complaint against all keepers of gambling places or who are conducting cigar stores or other places of business in which penny machines are used. Many such machines are in operation here, Chapman states that he takes this step because of a personal fight started against him by the wets. He refers directly to an argument that took place in the Elks temple here a few days ago in which he was heckled by a number of business men in a local option argument until the controversy reached the verge of violence. Chapman says that one of the men accused him of espousing the local option cause for money consideration.

### BATTLE CREEK—Admission was made by an official of the Postum Cereal company that Charles W. Post intends to move this industry from Battle Creek within three years. He will not take it far, however, the new site to be Springfield place, west of the city, but beyond its limits. The Postum Cereal plant, while one of the largest in the world, Michigan, has many wooden buildings, and Post fears a fire may get started some day and destroy his famous "white city." Hence he intends to build a new "white city," this one absolutely fire proof. His reason for wanting to move to Springfield place is twofold. First, because he feels that it is hurting a good residence section in Battle Creek; second, because he believes a rural community will be less exacting on the taxation question. As Postville employs about a thousand people, the removal means quite a big item.

### HASTINGS—John Marietti, aged twenty years of Hastings township, has been arrested on a charge of assault and battery on complaint of Joseph Stinchcomb, aged nineteen years, schoolmaster of Star school No. 10, Johnston, who declared Marietti attacked him. Stinchcomb requested Marietti's two younger

the killing of Benton can be secured by the ordinary diplomatic methods, and one such incident in a lawless territory like northern Mexico would certainly not justify so heroic a demonstration as armed intervention.

Great Britain can rely on the United States to intervene if violence in Mexico becomes general and intolerable. We shall have to do the worst of the rest interest and in the interest of the rest of the world. And in order to put ourselves in a position to intervene, if need be, with the least damage to our status as an American power, a promise of co-operation on the part of some of the leading South American republics is most essential and would be most welcome.—Oshkosh Northwestern.

## NOTICE.

Notice is hereby given that I, John D. Ross, am the legal owner of bounty land warrant No. 14875, for 200 acres, issued under Act of March 3, 1855, in the name of William Hall, and that said warrant having been lost I have given application to the commissioner of pensions for a duplicate.

JOHN D. ROSS.

## NOTICE TO CONTRACTORS.

Sealed proposals will be received by Dr. E. H. Campbell, secretary, board of trustees, Newberry State Hospital, at Newberry, Mich., for the following buildings: A tubercular ward, a residence, a bakery building, and additions to power house and Cottage No. 1. Proposals to be filed with the commissioner of pensions for a duplicate of or before 12 o'clock of the 16th day of March, 1914.

JOHN D. ROSS.

## NOTICE.

Revised plans, specifications and instructions can be seen at the Newberry State Hospital and also the offices of the architects.

The right to reject any and all bids is reserved.

CHARLTON & KIENZEL and E. DEMAR, Marquette, Mich., and Milwaukee, Wis. 2-25-35-3w

## NOTICE.

brothers to remain after school for misdemeanors. The oldest brother came to the school to find out why his brothers did not come home. When told that one of them could go, he said to the other one: "Come on, you've stayed long enough." When the schoolmaster objected, Marietti engaged him in an argument, which resulted in a rough and tumble fight in which the schoolmaster came out victor. Marietti asked for quarter, but the minute he rose to his feet he again attacked the schoolmaster, with the assistance of a young brother. Again Stinchcomb got the better of the fight. Marietti will appear in court on March 7.

## UPPER PENINSULA.

### St. Ignace Boy Stepping Up.

A. A. Dolan, a St. Ignace boy, is now head purser of the D. & C. Steamship company's line of steamers, having been promoted from the Western States to the City of Detroit. Mr. Dolan began at the bottom and by strict attention to the duties of whatever position he was given, he has been steadily advanced until he is at the top of the purser's list.

### A Batch of Mortgages.

One hundred and two mortgages given by the Upper Peninsula Land company to the Western Lumber Securities company, each for the amount of \$960, were received for record at the court house at St. Ignace last week. They were first placed in the hands of the county treasurer, who will collect a tax on each instrument of \$5, or a total of \$510. They will then be turned over to register of Deeds Wood to be recorded.

### Home Bank Buys Munising Bonds.

Last October the electors of Munising decided to bond the village for \$23,000 to be expended in providing a safe and adequate water supply. Representatives of outside bond houses have been bidding for the bonds, but the issue has been sold to the First National Bank of Alger county, which will pay a premium of \$544, as well as the cost of lithographing the bonds. The bank is at Munising. Its bid was the highest presented.

### Trains to Iron River.

"All aboard for Kelo, Crystal Falls and Iron River!" It is expected such a call will be heard at Channing today when the Chicago, Milwaukee & St. Paul road will commence operating regular passenger trains over the new branch. According to information at hand, the company will run four passenger trains each way daily between Channing and Iron River. These trains will connect at Channing with the north and southbound trains on the main line. The St. Paul will also run a sleeping car into Iron River. The opening of the branch will not be attended by any ceremonies on the part of the company, but it is certain that Iron River will greet the first train with some noisy demonstration.

### THE FORTY YEAR TEST.

An article must have exceptional merit to survive for a period of forty years. Chamberlain's Cough Remedy was first offered to the public in 1872. From a small beginning it has grown in favor and popularity until it has attained a world wide reputation. But it is something better for a cough or cold than you will understand why it is so favorite after a period of more than forty years. It not only gives relief—it cures. For sale by All Dealers.

'GO TO CHURCH SUNDAY, MARCH 15'

# BUILDING MATERIAL

From heavy timbers to finest factory work. Largest and most complete stocks of building material in Michigan.

Complete line of Yellow Pine, Fir, Cypress, White Pine, Oak and Birch finish, Doors, and Front Doors. Windows and Sash. Mouldings, Turned Work, Porch Columns. All kinds of Frames and Mill Work. Stair Material. Window Glass, Art and Plate Glass for Store Fronts. Patent Store Front Material. Building and Insulating Papers and Felts. Prepared Roofings—all kinds. Tar Felts. Etc. Front Boards.

## BIG HOCKEY CONTEST AT HOUGHTON TONIGHT

Portage Lake and Calumet to Meet in What May Be the Season's Crucial Game.

The one big hockey game of the season will be played at Houghton tonight. The game may mean a championship for Calumet. It may mean a victory for Portage Lake to play off the triple tie for the championship.

The Portage Lake hockey fans evidently like to see the team fighting in the last ditch. There is no denying that the hockey interest in Houghton and Hancock during the winter has been as keen as compared to the excitement of previous years. This was when the team was joggling along, winning and losing and holding its own. But tonight the team meets Calumet in the last scheduled game of the Western league series and much is at stake. There is therefore an expectation of a record-breaking crowd will be in attendance.

If Calumet loses to Portage Lake, the two will be tied.

If the Canadian Soo wins from the American Soo team Tuesday night, Calumet, Portage Lake and the American Soo would be tied, providing the first proposition works out.

If Calumet wins and the Canadian Soo wins, it is Calumet's pennant.

If the American Soo wins and Calumet loses, it is the American Soo's pennant.

If the triple tie does occur, Portage Lake has a chance.

The Calumet team will use the same lineup in this game as was used at Calumet Thursday night, when Calumet won in a ten-minute overtime period by a 3 and 2 score. This means that Mognate will be in the goal, Paul Romer at point, Ransome Treglowan at cover point, Joe Treglowan at rover, Chester Stroud at center, Bill Monroe at right wing and Jack Mahan at left wing.

The Calumet fans will go to Houghton on a special train which will leave the Mineral Range station at 7:15 and will run right to the Amphitheatre. The train will return to Calumet, following the game.

### ARE READY FOR MARQUETTE.

College of Mines Basketball Team Defeats Lakes at Practice.

The Michigan College of Mines basketball team defeated the Lake Linden Independents Saturday evening in a one-sided exhibition by the score of 52 to 11. The Lakes were considerably off color while the college showed the best exhibition work it has shown this year. In the first game with the Lakes it was nip and tuck. Rowell and Walters scored heavily for the college in Saturday night's contest. Brisson made most of the points for the Lakes on fouls. The college team is in fine condition for the game with Marquette next Saturday. All the best men are in the game now and the team is strong in combination work.

### CALUMET ANNUAL DOG RACES.

Big Field in Dan Cusick's Annual Canine Classic Saturday.

A big field of boys and dogs entered the annual dog races conducted at Calumet Saturday afternoon under the management of Dan Cusick. Through the generosity of the business every entrant was given a prize. The following were the winners of the stated prizes, first, second, third and fourth, in the order named:

Large dogs' race—Harold Toplin, Hubbell; Chester Pellow, Richard Bastian, John Johnson and Milton.

Medium sized dogs' race—Harold Holve, Herbert Swenson, Oscar Jones.

First small dogs' race—Joseph Stepienka, Arthur Thortvarten, Wesley Young, Carl Bray.

Second small dogs' race—William Mondan, Chester Pellow, Dominick Glacich.

Free-for-all—Herbert Benson, Harold Toplin, Richard Bastian, Harold Pellow.

### WOMAN'S CLUB OFFICERS.

The Calumet Woman's club has elected officers for the year 1914-15, as follows: President—Mrs. Mary M. Phelps. First Vice—Mrs. Mable Calk. Second Vice—Mrs. Minnie Baldwin. Recording Secretary—Mrs. Mildred Harvey. Corresponding Secretary—Mrs. Lyle Tucker. Assistant Secretary—Mrs. Helen Lamont. Trustee—Mrs. Estelle Thompson.

## THE EASIEST WAY TO END DANDRUFF

Stop Falling Hair and Itching Scalp.

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the fingers tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you want to keep your hair looking rich, do by all means get rid of dandruff. For nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everybody notices it. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

## SENSATIONAL STORY TOLD TO THE SHERIFF

John Huhta Reported to Have Confessed the Triple Murder of Dec. 7 at Painesdale.

(Continued from Page One.)

charge previously described he wore in the button hole of his gay coat a Socialist party button. He appeared at nearly every session of the congressional investigation in Hancock. He testified as a witness and supporter of some of the reputed abuses that the federation attorneys charged and on one occasion he acted as a check on an interpreter of Polish. At all times he was gay and pleasant and apparently his conscience was not bothered by the charges.

He began to eat into the Huhta conscience after Huhta lost his job.

Huhta turned against his former boon companion with a venomous fierceness when he saw that the latter was still spending federations money having while Huhta was barred from the fount. He implicates Verbanac in several affairs, even as far back as the Riedel shooting at a Copper Range train early in the strike. Huhta is one of the men indicted for carrying concealed weapons in the South Range mine.

Jallonen and Juttunen are not well known to the sheriff's officers, as they have not been openly active in strike affairs.

### FEDERATION IN POLITICS.

Ticket Nominated at South Range by Strikers and Sympathizers.

The village of South Range, the youngest municipality in Houghton county, seems to be in control of the Western Federation of Miners. The following ticket was nominated at the village caucus Saturday night:

President, Jacob Utti; clerk, Valmer Sipula; treasurer, August Molanen; assessor, Louis Kangas; trustees, Victor Olgren, Martin Feira, Anton Stimac and George Pastoria, the latter for one year to fill the vacancy caused by the resignation of Dominic Zana. The ticket was named the Citizens' ticket.

All of the nominees are strikers or strike sympathizers. Jacob Utti is the most prominent merchant of the village and has every cent of his wealth pledged on bonds for strikers who have been arrested on various charges.

### NEW FIRE DEPARTMENT.

Employees of the Calumet & Hecla Mills Organize Company.

For the protection of the Calumet & Hecla mills and adjoining property, the mill employees at Torch Lake have organized a volunteer fire department. The personnel and officers follow:

President—Superintendent Fisher. Vice President—C. H. Benedict. Chief—James Keast. Assistant Chief—Edward Bennetts. Secretary—Frank Smith. Treasurer—William Bennetts. Firemen—William Kramer Jr., Peter Wis, James Smith, Joseph Lamoth, Fred Therian, Matt Kammercham and William Kramer Jr. Chief Engineer—John Dolan. Foreman—Ambrose Redpath. Teamster—Harry Herbison. Coats and caps have been ordered, as have a hose cart and other equipment.

**FAT MEN BEST SALESMEN.**

So Thinks London Firm After Careful Study of Subject.

London, Feb. 27.—Ponderous men with massive shoulders, an ample waistband and No. 15 shoes scanned this advertisement in a morning paper and—pondered: Wanted—Big fat men as travelers; tall preferred, to call on professional men in connection with good lines; thin people need not apply. Address, etc.

Is the fat man coming into his own at last? they asked themselves. Are the thin, wiry men to step into the background and give them the chance for which they have waited so long? The advertisement is a perfectly genuine one, issued by a city firm of repute, and it seems to herald not only a new era for fat men, but also a controversy as to the relative value of fat and thin men in certain branches of business.

Inquiries show that the firm in question require big fat travelers because their experience has proved that they are better business getters than the small thin ones.

"We have three big fat travelers already in our employ," the manager told a reporter yesterday, "and it is a fact that they secure a great deal more business than the small, thin ones. Don't ask me to give you a reason for it—I cannot."

"It may be that the big ones inspire confidence in customers—big men at ways seem to be reliable and they are certainly not so 'jumpy' as small ones. In reply to a query as to how many big fat men his firm intended to in-

gage, the manager said: "As many as we can get."

**ALONG BROADWAY.**

On Broadway, nature has used her biggest, fattest type forms. Tall, flat building fronts, brazen with many windows and ribbed with commercial gilt lettering six feet high; shrieking proclamations of auction sales written in letters of fire on vast canvases; railway posters in scarlet and blue and green; rotary barber poles striving at the national colors and producing vertigo; banners, escutcheons, crests, in all the primary colors—surely none of these things need poring over. They would shriek out at you even if you passed them with your eyes closed. I know the windows where little youths in gymnasium dress demonstrate the virtue of home exercises; the windows where other young men do nothing but put on and take off patent reversible near-ivory collars; where young women deftly roll cigarettes; where other young women whittle at sticks with miraculously stopped razors. I know these things by heart, yet I linger over them in flagrantly unhygienic attitudes, my shoulders bent forward and my chest and diaphragm in a position precisely the reverse of that prescribed by the doctor—Simon Strunsky, in the Atlantic.

**GO TO CHURCH - MARCH 15.**

M. J. McGinty, of Trout Creek, was a Marquette business visitor Saturday.

Miss Caroline Wanberg, of Ishpeming, spent the week-end in the city as the guest of friends.

Miss Agnes McCarthy has resigned her position as night operator for the Michigan State Telephone company.

William Johnston, of Negaunee, who is now employed in Munising, was a Marquette visitor Saturday afternoon.

The Marquette Study club will meet at 3 o'clock this afternoon with Miss Maxwell at the Normal school dormitory.

Will Mullaly left yesterday afternoon for Onota to resume his teaching duties, after spending the week-end at his home.

R. C. Henderson, of Norway, Mich., who was here for the February term of circuit court, left Saturday evening for Chicago.

The members of the junior and senior branches of the Girls' Friendly society will go on a snow-shoe tramp tomorrow evening.

A story hour for children in the primary grades will be conducted at the Peter White public library tomorrow afternoon at 4 o'clock.

George J. Webster, general manager of the Lake Superior Iron & Chemical company, left Saturday afternoon for Detroit, to be gone on business for a few days.

C. J. Thoren, of Negaunee, went to his home Saturday afternoon, after having spent several days in the city as viceroy for the February term of circuit court.

Theo Higbee, who was called here last week because of the death of the late Mrs. George C. Higbee, left Saturday evening for Chicago on his way to Alma, Mich., where he is attending college.

Miss Bertha Smith, stenographer in the offices of J. M. Longyear, is visiting at her home in Menominee for a few days. She will also visit with friends in Iron River and Crystal Falls before returning.

Mrs. Willard McCormick left yesterday afternoon for Bay City, Mich., where she will join her husband, who is employed as linotype operator for the Bay City Tribune. Mr. McCormick left Marquette several weeks ago.

Mrs. William Schley, of Munising, came to Marquette Saturday and attended the presentation of "The Red Rose" at the opera house that night. She is a guest of Mrs. Charles Young, East Ohio street, until this evening.

A meeting of the Marquette Grade Teachers' association will be held this afternoon at 4 o'clock at the Ely school. Professor J. E. Lautner, of the Northern State Normal school, will speak on "The Need of Social Spirit in American Life."

Arzie Smith, of Trout Lake, is a Marquette visitor for a few days. He is here to attend the annual gathering of the Northern Forest Protective association, which is to be held here tomorrow.

Former Physical Director King of the Munising Y. M. C. A., who recently resigned that position, was in Marquette Saturday afternoon on his way to Calumet, where he will visit with friends for a few days before leaving for the western coast, where he has accepted a similar post.

Lawrence Ewing, son of W. S. Ewing, of Cherry Creek, arrived in the city Saturday afternoon from East Lansing, where he has been attending the Michigan Agricultural college. He has just been graduated from the institution, completing what is known as the "short agricultural course."

Frank Granduch, of Big Bay, who was injured Nov. 22, while at work in a lumber yard at that place, is gradually improving at St. Mary's hospital. Granduch was held at the hospital at Big Bay for three months, but recently his condition became worse, and he was brought to the hospital here.

Brotherhood Meets Tonight—The Methodist Brotherhood will meet tonight at 8 o'clock in the church parlors. C. F. Button will be the speaker, taking as his subject, "The Duty of a Good Man in Social Service." The meeting is open to all men.

A Novelty Dancing Act—La Belles de Sevilla, a European dancing novelty act, with six people, is the billing at the Marquette Opera House for today, Tuesday and Wednesday. The act was seen at the Ishpeming theater a short time ago, and was favorably commented on there.

Contract for New Hoist—The New Arcadian mine in the copper country has given the Lake Shore Engine works, of this city, a contract for the construction of a hoist, which will be set up at the mining property within a month. It will be capable of hoisting a skipload of two tons from a depth of 1,500 feet.

Club Rooms Open Tonight—Tonight marks the formal opening of the rooms of the Varsity club in the Guild Hall. The bowling alleys, pool and billiard tables and reading rooms are ready for use. All members are requested to be present. Refreshments will be served throughout the evening.

May Open This Evening—Because of the mild weather, the ice rink has been closed for the last few days. If conditions are favorable today, it is probable that the rink will be open this evening. Arrangements will be made for band concerts and other attractions during the week, if the cold weather continues.

Roycroft Cow Holds Record—Eminent Bess, the Jersey cow owned by W. S. Prickett, owner of the Roycroft farm, Sidnaw, Mich., is the holder of the world's record for butter-fat production. Last week's Michigan Farmer says: "The cow worthy of first mention is the Jersey cow, Eminent Bess, 209,719, owned by W. S. Prickett, of the Roycroft farm, Sidnaw, Mich. During the 365 days from Sept. 12, 1912, to Sept. 11, 1913, Eminent Bess produced 18,782.96 pounds of milk, containing 962.9 pounds of butter-fat, the average per cent of fat being 5.126. Figured on an 80 per cent butter-fat basis this would be equivalent to 1203.6 pounds of butter. The age of the cow at the beginning of the test was six years, two months. In making this record Eminent Bess surpassed all other cows of the Jersey breed and today holds the world's record for yearly Jersey production. It

is worthy of mention that in making this record Eminent Bess not only surpassed the high record cow of her own breed, namely Jacoba Irene, but she also surpassed the record of the world's record Guernsey cow, Spotswood Daisy Pearl, 17,696, both in pounds of milk and in pounds of butter-fat. At the present time this cow holds the state record for semi-official yearly production of butter-fat. She also holds the state records for breed for both milk and butter-fat."

Program at the Grand—"The Big Horn Massacre," a picture portraying Guster's memorable and tragic battle with the Indians, will be shown at the Grand theater today. It is in two reels. The other pictures will be: "A Motorcycle Elopement" and "Skelly's Skeleton," two comedies, and "The Mystery of the Dover Express," a thrilling drama. Two matinees will be given, at 3 and 4 o'clock, as will three performances in the evening.

Will Talk on Medical Inspection—Professor S. S. Stockwell, of the faculty of the Northern State Normal school, will deliver a lecture at the First Baptist church this evening on the subject of "Medical Examination in Education." The address will commence at 7:45 o'clock. Numbers will be given by the Baptist Brotherhood quartet. Professor Stockwell has made a thorough study of medical inspection. The subject is one of timely interest.

Purchased Pool Room—Leo B. Griffin, who recently purchased a half interest in the pool room owned by Leo E. Bureau, has purchased the remaining share of the business. He will manage the establishment. The business is located in the store room in the Nester block formerly occupied as a meat market by the late Frank W. Hatway. Mr. Griffin will make some changes at once. One billiard and three pool tables are now in place. Another pool table will be installed. Mr. Griffin plans to conduct a lunch counter in connection with the business.

Personal Injury Case Before Court—Saturday circuit court was busied with the suit brought by Andrew Egland against the Raymond Concrete Pile company, a corporation. The case originates from an accident which occurred while the new concrete dock of the Lake Superior & Ishpeming railway was being constructed. Wm. P. Holden, of Ishpeming, represents the defendant company, and LeGendre & Driscoll are the counsel for the plaintiff. Court sessions will be resumed at 9 o'clock this morning. It is not likely that all cases on the docket will be disposed of before the last of the week. The Egland case may go to the jury this morning.

Preliminary Contest Tonight—This evening at the Marquette High school will be held the preliminary contest in declamation to determine those who will be entered in the Peter White oratorical and declamatory contest, Wednesday evening. Six persons will be chosen from seventeen candidates. There will be no preliminary contest in oratory, as but four students have prepared orations. The number in the declamatory contest is, however, the largest since the Peter White prize was first offered. The program this evening will commence at 7:30 o'clock. Wednesday evening there will be a program of musical numbers by the students of the school.

Would Pension Life-Savers—The members of the Marquette life-saving crew are showing interest in the bill recently introduced to create a "coast guard" by combining the existing life-saving and revenue cutter services. The bill, if enacted into law, will automatically provide pensions for men in the life-saving service, because it carries a provision that the consolidated service "shall constitute a part of the military forces of the United States, which shall operate under the treasury department in time of peace, and operate as part of the navy in time of war." The offices in the coast guard would correspond to the present offices in the revenue cutter service. The officers and enlisted men in the life-saving and revenue cutter services would be transferred to corresponding positions in the new service.

### SCIENTIFIC STUDY OF ROAD BUILDING

Department of Agriculture Officials Figure Cost of Hauling on Country Highways.

Washington, March 1.—The cost of hauling over country roads is largely determined by the size of the load that can be hauled, the number of trips that can be made in a day and the wear and tear on teams and equipment, according to the office of public roads, department of agriculture. Steep grades, as well as ruts and mud holes, serve to decrease both the speed and the load. On the principle that a chain is no stronger than its weakest link, the maximum load that a team can draw is the load that it can draw up the steepest hill or through the steepest mud hole on that road.

Whenever possible, roads should be located on straight lines between terminal points. In hilly or mountainous country, however, the attempts to keep the straight between terminals often leads to the serious error of heavy grades. Straightness and grade must therefore be handled together. The best location is one which is straight in general direction, is free from steep grades, is located on solid ground and involves the largest possible number of people. Roads should be located for the benefit of the public as well as the private land owner.

#### Eliminate the Hills.

The elimination of one or two steep hills on a line of road frequently enables horses to draw three or four times as much as they could draw on the old road. It takes approximately four times as much power to draw loads up 10 per cent grades (ten feet vertical in 100 feet horizontal) as on a level, but on a 4 per cent or 5 per cent grade a horse can usually draw (for a short time) as much as he can draw on a level. A 4 per cent grade is therefore considered the maximum on roads subject to heavy hauling. Many steep grades may be avoided by locating the road around instead of over the hill—the handle of the bucket is longer on the hill than it is vertical. By going around we avoid two steep hills.

If the road must pass up a steep hill or mountain side, the steepness of the grade may be decreased by increasing the length of the road. In other words, eliminate steep grades by locating the road on curved or zigzag lines, and not in a straight line from the bottom to the top of the hill. These curves should be carefully plotted and the straight stretches located with an instrument. This improves the looks of the road and does not add materially to its cost.

#### Should Have Sunshine.

In studying the relation of grade to distance the following calculations is interesting: To lift a ton one foot high requires 2,000 foot pounds of energy; on a road the surface of which offers 100 pounds of tractive resistance per ton, the same energy would roll the ton a horizontal distance of twenty feet. To save one foot of grade the road may therefore be lengthened twenty feet.

Roads should never be located so close to stream beds as to be subject to overflow, or on ground which is constantly damp and marshy.

The earth road should have at least six hours of sunshine each day. This can be secured either by locating the road with southern or western exposure, or by having such brush and trees as impede the drying action of the sun and wind removed. With gravel and stone roads, this is not so necessary, as a certain amount of moisture is needed on such roads, especially in the summer time.

Re-locating roads is not an engineering problem alone. One must also consider the effect of the road on those who now live upon it. Many farmers dislike to have the road placed back of their house or out of sight of it. It requires tact and good judgment to secure a suitable location without arousing harsh antagonism.

### CABIN IN WOODS FOR BRIDE'S HOME

Minneapolis School Principal to Become Wife of Wisconsin Forester in the Spring.

Minneapolis, Mar. 1.—Deep in the pine forest of Douglas county, Wisconsin, the northwestern corner of the state, a log bungalow is nearing completion. It is roomy and artistically designed. The floors are of hard wood and inlaid; the walls are larchlapped. In front of the clearing Mirror Lake stretches away in a blue sheet toward Lake Superior, half a score of miles away.

In this home, named "Fairhope" by its owner, at the end of the present Minneapolis school year will be continued the romance of Miss Rose M. Rider, principal of the Silvey Pratt school this city, for there she will go as the bride of Andrew Tollofson, a woodsman of that northern district.

Miss Rider, one of the best known of Minneapolis teachers, has reached the age that brings discretion, and her hair is threaded with white, but to her life is just in the making.

Ten acres have been cleared and by spring the bungalow will be completed, and then as Mrs. Tollofson the teacher, who will retire with the closing of the school year, will make her home in the solitude that she and her intended husband love so well. They will live in Fairhope throughout the year.

"Yes, it is true I am to be married in the spring," said Miss Rider, "and like most brides-to-be, the future is very bright. I first met Mr. Tollofson several years ago at Solon Springs, Wis., where with some other teachers I was spending the summer. He is untaught so far as knowing the classics is concerned, but he is wise in the knowledge that makes real men. All his life he has lived in the woods. He knows and would like so other home."

"Always, although reared in a town, the mighty solitude of the forest has appealed to me, and the prospect of ending my days there is very alluring. Mr. Tollofson and I have many tastes and ideas in common. He is rugged and hardy, and although not himself an educated man, is a member of the educational board of the township, and determined the children of that sparsely settled section shall have the education denied him.

### FISH BECOME ILL ON BOARD TRAINS

Game Warden Nurses Sometimes Sit Up All Night With the Sick Little Things.

Topeka, Kan., March 1.—Professor E. L. Dyer, state fish and game warden, wants to declare a boycott on some of the railroads because traveling on these railroads make the fish sick. Unless some of the roads do make some greatly needed repairs on the tracks, Prof. Dyer may refuse to take the state fish car on these lines, and people will have to drive considerable distances to better railroads to get the fish and bullfrogs desired for their ponds and lakes.

"I suppose most people will laugh when they hear about fish getting sick," Prof. Dyer said. "But it is the real truth as much the truth as that of people getting seasick on trains or steamers. They get just as sick and vomit in the same way that people do when they have seasickness. The real name for seasickness, according to the looks, is 'ma de mere,' but in the case of my fish it is 'mal de tracks.'"

Young Fish Escape Illness.

"The young fish are not bothered with seasickness apparently, but the older ones are. We take out 10,000 to 14,000 fish at a carload, but these young fish, a few months old. We often take out carloads of 6,000 or 8,000 big fish, one and two years old, old enough and big enough to spawn the next spring, and it is these chaps that get so seasick that they actually act as if they did not want to live."

"Some of the branch railroad lines in Kansas are simply awful. It feels like there is not a rail joint even with any other joint, and the ties are so loose they rock and sway whenever the train goes over them. The fish can't stand big and heavy and on these poor railroads it swings and creaks and waves about much like a small boat on the sea. The sensation is not much different, especially in the smaller boats. We are often forced to let half the water out of the tanks to keep it from splashing all over the car."

Some roads are right.

On some of the roads we can fill the tanks up to within an inch of the top and run along all day without a sick fish, and then be shunted off on some of the branch lines and have a carload of sick fish in half an hour. Often we have to stop and lay over between trains to let the fish get well.

"Sometimes the entire working force in the car is standing over the tanks skimming off the vomitings of the fish. The vomitings spoil the water and the fish would die in a few hours unless we kept the water skimmed all the time. Many nights we have kept a man at work all night, sitting up with sick fish and skimming the water every few minutes."

"I don't know whether there is any cure for this or not. I doubt it. There does not seem to be any certain cure or preventive for sickness in persons, so I doubt if there is one that could be in the least effective with fish on a railroad train and traveling on winding, twisting, crooked railroad tracks on some of the branch lines in Kansas."

Sent 200,000 Fish Last Year.

The state fish car already has distributed more than 200,000 fish to the ponds and streams of Kansas since October. The distribution will be delayed until the rains come in the fall and put water in the ponds and streams after the long drought. The car made just twenty trips last fall and then had to be stopped because of the ice covering the streams and ponds. It will start out again in the spring as soon as the ice breaks up and a half million fish will be distributed in the spring.

This is the first year of the new fish hatchery. The water was turned into the eighty new ponds a year ago last October, making the hatchery the largest in the world.

### SCORES WOMAN FOR HER VANITY

Professor Says Her Fondness for Display Is Obsession—Poor Man the Producer.

Columbus, Mo., March 1.—"Many a modern woman is engaged largely in showing what a heap big injun her husband is by wearing the most expensive clothes he can provide, and making a holy show of herself," declared Prof. H. J. Davenport of the economics department of the University of Missouri.

"In primitive society woman was a producer, but with the growth of a more complex order woman's work has been the modern feminist movement is really a question of whether the woman shall remain idle or shall follow the occupations she used to have on leaving the home for the business area."

Women's Tasks Gone.

"The woman in the home used to be the mistress of an intricately organized domestic society. Those tasks have been taken over by the factory system. Spinning has migrated to the factory. There are no candles to make, apples are canned by a cannery, the steam laundry cleans the clothes the factory made for us, and the public schools are taking the child from the mother's knee at an even earlier age for an ever increasing thorough training."

"Our women worry over little things that their grandmothers had no time to consider because of real tasks. The crowning glory of human life, the 30 and 90-year-old grandmothers, the placid, tender, mellow, wise veterans, glory crowned by hardship and struggle and accomplishment is now visible only in the degenerates of an earlier and more vigorous generation of women."

"The women have become the spenders. To cure a Cold in One Day Take LAXATIVE BROMO QUININE tablets. Stop the Cough and Headache and work of the Cold. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box. 25 cents."

### MONOPOLIES BEARING SEEDS OF OWN DECAY?

Bureau of Corporations Is Investigating Whether Trusts Are Really Efficient.

Washington, Mar. 1.—Does the non-political system contain in itself the seeds of its own decay? That question Commissioner Joseph E. Davies, of the bureau of corporations, declared, in his annual report, made public today, a federal investigation now under way hopes to answer.

In a review of a working program for the bureau Commissioner Davies points out that aside from an economic study of the trust question, retail price maintenance is one of the questions to be taken up. Trusts, their efficiency and reforms, however, are to comprise the principal work for the coming year. The effect of some federal action for the purpose of investigation and publicity on trust affairs, whether it be the bureau of corporations as now organized, or a commission as proposed in the pending administration bills in congress, Commissioner Davies emphasizes. In his report, he discussed the monopoly question at length, saying, in part:

"The question is whether the trust form of organization is really efficient. If it be found that smaller competitive units in industry can produce commodities more cheaply, or even as cheaply as monopolistic units, and that they have other and greater advantages than those claimed for the monopolistic trust system, then the problem is finally settled in favor of the competitive system, and the chief argument for the regulation of monopoly is destroyed. This is a scientific question of fact, and it is the plan of the bureau to investigate this question."

"While from a governmental point of view there are various aspects of the trust question which are of importance, such as the relation of trusts to popular government and their effect on the social and economic conditions of labor, there are two aspects of it which are peculiarly within the domain of the bureau, namely, the effect upon the cost of production and distribution and the effect upon the price to the consumer."

"It is contended by some that with the increase in the size of industrial enterprises there goes a reduction in the cost of production, although in this respect it is accompanied by lower prices to the consumer and does not involve a reduction in wages or an impairment of the conditions of labor."

"As to the matter of obtaining news at the White House, it is much the same as that employed by the reporter who demonstrated their economic inefficiency. Combinations which have obtained control of the market and it is admitted, have prospered, but this is not the case with the trusts. In this position, and not to superior efficiency. According to those who hold this view, there is a point beyond which the increase in size of operations does not result in an increase in economy and efficiency, but rather in waste and loss, so that the maximum efficiency is not attained by large combinations, but instead by concerns of moderate size. If this latter contention be true, then, as has been said, the monopolistic system contains in itself the seeds of its own decay."

"Again, some of those who dispute the superior efficiency of large combinations contend that this claim is made merely as a blind for the purpose of selling watered stock. They say that such organizations are established for the purpose either of getting control of the market and exacting excessive prices from consumers, or of issuing large amounts of watered stock for the purpose of selling such stock to the public. In the first case, it is argued such combinations are not concerned with the promotion of greater efficiency, but merely with obtaining a monopoly; in the second case, they are chiefly concerned with selling the stock, and as they claim to have a general public that it has a great value due to monopoly they are obliged to find another selling argument, namely, superior efficiency."

"Of almost equal importance with the determination of this question of comparative efficiency is that of the policy of such large industrial combinations as have achieved a substantial control of the market. Those who alleged that such industrial enterprises result in greater economy and efficiency in production often overlook the equally important question whether or not they absorb all the benefits of such economies in increased profits without conceding any share thereof to labor in higher wages, or to consumers in relatively lower prices or improved quality of goods, etc. The determination of the facts in respect to this question also might not be such as to establish broad generalizations or conclusions, but the importance of having the facts is none the less obvious."

### HOW NEWSPAPER MEN MEET THE PRESIDENT

Nation's News Is Given Out at Stated Conferences With All Correspondents at Once.

Washington, March 1.—Just how and how much the newspaper men come into contact and get news from the president of the United States is a question frequently asked by the layman of the Washington correspondents. It is a known fact that more stories are written out of the capital city than any other in the country. Pick up any newspaper and glance over the date lines, and the one that rears with most frequency is "Washington, D. C."

As to the matter of obtaining news at the White House, it is much the same as that employed by the reporter who demonstrated their economic inefficiency. Combinations which have obtained control of the market and it is admitted, have prospered, but this is not the case with the trusts. In this position, and not to superior efficiency. According to those who hold this view, there is a point beyond which the increase in size of operations does not result in an increase in economy and efficiency, but rather in waste and loss, so that the maximum efficiency is not attained by large combinations, but instead by concerns of moderate size. If this latter contention be true, then, as has been said, the monopolistic system contains in itself the seeds of its own decay."

"Again, some of those who dispute the superior efficiency of large combinations contend that this claim is made merely as a blind for the purpose of selling watered stock. They say that such organizations are established for the purpose either of getting control of the market and exacting excessive prices from consumers, or of issuing large amounts of watered stock for the purpose of selling such stock to the public. In the first case, it is argued such combinations are not concerned with the promotion of greater efficiency, but merely with obtaining a monopoly; in the second case, they are chiefly concerned with selling the stock, and as they claim to have a general public that it has a great value due to monopoly they are obliged to find another selling argument, namely, superior efficiency."

"Of almost equal importance with the determination of this question of comparative efficiency is that of the policy of such large industrial combinations as have achieved a substantial control of the market. Those who alleged that such industrial enterprises result in greater economy and efficiency in production often overlook the equally important question whether or not they absorb all the benefits of such economies in increased profits without conceding any share thereof to labor in higher wages, or to consumers in relatively lower prices or improved quality of goods, etc. The determination of the facts in respect to this question also might not be such as to establish broad generalizations or conclusions, but the importance of having the facts is none the less obvious."

"The room is named for its shape and when the correspondents file in they discover President Wilson standing at one end of the oval with his back to a row of half a dozen desks and a fortified front of him. He stands erect in characteristic attitude with hands behind his back as he nods and smiles at the formidable army of pencil pushers."

Much Formality Required.

The correspondents form in a crescent moon-shaped crowd facing the president and remain standing. They are no sooner comfortable within the room than they begin to shoot questions at the president.

**The California Limited**  
All-Steel Pullmans

Newly equipped with all-steel Pullmans, and is exclusively for first-class travel

Take that California outing this season. Play golf, and auto on royal highways. Stay at luxurious resort hotels. Visit the old missions. All the joys of outdoor life are possible here in mid-winter. On the way, stop at Grand Canyon of Arizona.

The California Limited is an all-steel Pullman train, exclusively for first-class travel. Runs daily between Chicago, Kansas City, Los Angeles, San Diego, Oakland and San Francisco, with Pullman for Grand Canyon. Fred Harvey dining-car meals are served.

Four other Santa Fe trains to California. Three run daily; these carry standard Pullmans, tourist sleepers and chair cars; all classes of tickets honored.

The Santa Fe de-Luxe, between Chicago, Kansas City and Los Angeles, runs once a week in winter; America's finest train—'extra fast, extra fine, extra fare.'

The only railroad under one management through to California; double-tracked half way; safety block-signals 'all the way.'

### TEACH YOUNG MEN THE CULINARY ART

Cooking Class for Boys Is Started at the Kansas State Agricultural College.

Manhattan, Kan., Mar. 1.—A class in cooking for boys is being taught at the Kansas Agricultural college. The class is open to all boys in the school, but most of those in the class are students in civil engineering and in the school of agriculture. They are the ones to whom such work will be of the most value.

Fourteen young men are enrolled in the class, and they are learning the "how" and the "why" of simple meals. Several times boys have taken work in the regular classes in cooking as offered in the home economics course, but there never before has been a special class for them. The young men appreciate their opportunity and are very much in earnest in their work.

The course as outlined is practical. The first work is on beverages. The boys are taught the making of good tea, coffee and lemonade. With everything studied during the term, a short lecture is given upon the nutritive value of the food in question, and upon the simplest and best methods of preparation. The boys learn that cereals need plenty of cooking in order to bring out their full nutritive value and make them easily digestible. Vegetables come next, and they learn to avoid duplications, such as rice and potatoes at the same meal, since both are starchy foods. After the lectures they get actual work of cooking the different vegetables and meats.

Under the study of meats they prepare parboiled steaks, roasts, brown steaks, minced meats on toast, creamed dried beef, chops and veal cutlets.

Man Cooks Eggs.

When the average man prepares a meal for himself, he usually cooks eggs. But how many men really know how to make an omelet, or can even boil an egg so that it will be tender and easily digested? That is the kind of work given in this class, and the boys are taught that there is a right and wrong way of cooking everything, and that the right way is the easiest and best. They learn to make custards and puddings in the study of milk, and then find out that cheese can be used as a substitute for the meat.

The boys are taught how to make a fireless cooker without expensive materials. Practice is given in the preparation of cereals and vegetables in the fireless cooker. At one period they clean, dress and bake chickens and then at the next meeting of the class a lesson in carving is given.

Pancakes, corn bread, baking powder biscuits and ginger bread are made in the lesson on quick breads, and then several periods are devoted to the making of yeast breads.

Several of the boys are batching this year, and many of their problems are solved for them in class. The class meets twice a week, two hours at a time, and two college credits are given for the work.

## ASSOCIATION WANTS HIGHWAYS IMPROVED

Cliffs Drive and Roadway Around by Teal Lake Are in Need of Attention.

The Ishpeming Advancement association will soon ask the city officials of Ishpeming and Negaunee to improve the Cliffs and Cambria mine drives, so that they will be in good condition for automobile and team driving. The officials of Tilden township have already been asked to appropriate a sum sufficient to improve the portion of the Cliffs drive that passes through their township.

If the public is given an opportunity to use these fine driveways to better advantage than in the past, the Advancement association will be highly commended for its work, as there has been a general demand of late that they should be improved. The Cliffs drive is now in such condition that very few auto drivers chance taking their cars over it. The hills are heavy and there are very few places to turn out between the Winthrop location and the Negaunee road, on the hill north of the former site of the Anthony Powder works.

The Negaunee portion of the Cambria mine road is in fairly good condition, as it was improved a few years ago, but the Ishpeming end has never received much attention. There is an excellent foundation, however, and the necessary work would not involve a heavy outlay. It would, however, require several thousand dollars to put the Cliffs drive in good condition.

The distance around the Cliffs, going south from Ishpeming to the Winthrop, and then to the old Iron Cliffs mine, and coming out on the Negaunee road, is less than twelve miles. The run returning by the Cambria and Lillie portions to Ishpeming would be nearly twenty miles.

A few thousand dollars expended on these two roads would give this end of the county one of the most attractive driveways in the state. The road around the Cliffs is particularly beautiful. In passing over it the remnants of a one-time prosperous mine and furnace location can be seen. A few miles further there are still occupied, but most of the old structures have either been torn down or have rotted away. Portions of the old furnace kilns are still standing and the dwelling known as "The Maples," occupying a picturesque spot, is still kept in good repair and is occupied. This road passes on the shore of several attractive lakes, and there is a fine spring midway on one of the hills, north of the powder company's former plant.

### FOR THEIR ALMA MATER.

For Michigan College of Mines Men Form Club in Butte, Mont.

Graduates of the Michigan College of Mines now resident in Montana have organized a Montana Alumni College of Mines club. Former Ishpeming men are prominent among the organizers. Leverett S. Ropes, son of Mrs. Julius Ropes of this city, is president of the club, and Frank Donahoe, son of Timothy F. Donahoe, former mayor of Ishpeming, now a resident of Butte, is a member of the board of managers.

Of the organization The Anaconda Standard says: "In order that old memories may be kept green and old acquaintances not forgotten, a club was formed at a dinner at the Silver Bow club last evening. The club is to be known as the Montana-Michigan College of Mines club. "All graduates and students of the institution will be given an opportunity to join the new organization. The officers elected last evening just before the first annual dinner are as follows:

President, H. S. Ropes, vice president, Alexander Leggat of Butte, secretary-treasurer, and James J. Carrigan and Frank Donahoe the board of managers. "The membership will be open to those who are qualified and who live anywhere in Montana. It is planned to give another dinner at the Silver Bow club and to have the full membership present. The secretary asked that those who were qualified communicate with him."

### COMEDY ACT TONIGHT.

Savoys & Co., With Their Bull Dogs, Will Be Seen at Ishpeming Theater.

The Savoys & Co., with their acrobatic bull dogs, will be the vaudeville attraction at the Ishpeming theater tonight, tomorrow and Wednesday evenings. They are said to present one of the funniest acts on the vaudeville stage. The Norfolk Ledger-Dispatch of Norfolk, Va., said of the act: "In preparing the closing bill of the season the Colonial management did not forget the 'Little Folks' and the act booked especially for the youngsters. The James Savoy Trio has made a big hit this week. It consists of two men, a woman and six clever bull terriers. Their feats in acrobatics are remarkable to say the least. They are funmakers, too, as every one can testify who has seen them closing the show and tritting the audience in screams of laughter with their ball game. Never saw dogs play ball? Well, they are doing it at the Colonial."

A fine picture program will be presented this evening. It will consist of a two-reel silent feature drama, "Quality of Mercy," a Pathé Weekly, and "The Two Fathers," a Lubin drama.

### DEATH OF FORMER RESIDENT.

David Sullivan, a municipal judge in Chicago, who lived in Ishpeming some years ago, died Saturday night. His nephew, Edward Hevly, and his niece, Mrs. James Smith, of Lake Linden, left last evening for Chicago to attend the funeral. Judge Smith worked on the Mining Journal under the late A. P. Swineford, and finally gave up his position on the paper to enter a law school in Chicago. He was elected judge a few years ago. Judge Smith was about sixty years of age and is survived by his widow, one son and one daughter.

## MATRIMONIAL EVENTS.

Two Wellknown Ishpeming Couples Were United in Marriage Saturday.

Oscar Nicholls and Miss Lennea Nelson, daughter of Otto A. Nelson, head accountant for F. Braastad & Co., were united in marriage Saturday noon by Rev. J. G. Haller at the First Methodist Episcopal church parsonage. William Nicholls, brother of the groomsmen, and Miss Ellen Nelson, sister of the bride, were the attendants.

Mr. and Mrs. Nicholls had planned to keep their marriage a secret until they had departed from the city, but news of its occurrence leaked out and a large delegation of their friends were present at the South Shore station, when they left Saturday evening. They went to Marquette to attend the production of "The Red Rose," and then took the night train for Duluth and other Minnesota points. They will be absent a week or more.

Mr. Nicholls and his bride are among Ishpeming's most popular young people. For several years Mr. Nicholls has been the Cleveland-Cliffs Iron company's head chemist at the Negaunee mine, and his bride has been employed in the Fashion Suit company's store here.

### Devold-Adams Nuptials.

Oscar A. Devold and Miss Ida Adams, wellknown and popular young people of Ishpeming, were united in marriage at the home of the bridegroom's parents, Mr. and Mrs. Oliver Devold, on Maurice street, Saturday night. Rev. Mr. Hill, of the Norwegian Lutheran church, officiated. The groomsmen were attended by George Adams and Cy Huff, and the bridesmaids, Miss Inza Devold were the bridesmaids. Miss Inza Devold came home from Mable, N. D., to attend the marriage. Only relatives of the couple were present. Following the ceremony a wedding dinner was served.

Mr. and Mrs. Devold will keep house on Wabash street. Mr. Devold is employed as a plumber by F. A. Farson, Negaunee.

### DIED IN THE WEST.

Former Ishpeming Woman Passed Away Suddenly Saturday.

Mrs. W. R. Luke, sister of Mrs. Fred Ougie of this city, passed away suddenly Saturday at her home in Great Falls, Mont. Mrs. Jane Blackney, a sister, left last night for Great Falls to attend the funeral.

Mr. Luke and his family left Ishpeming about twenty years ago for Montana. Mr. Luke visited relatives here for a week or more a year ago last fall, but Mrs. Luke had not been in the city since they departed for the West. The deceased, whose father was Captain Gary of the Lake Superior Hematite mine for a number of years, was brought up here, and she is remembered by many of the older residents.

Mrs. Luke was fifty-five years of age and besides the husband there are four daughters and two sons, all grown up, surviving her.

### ISHPEMING IN BRIEF.

S. H. Collick left Saturday for Ann Arbor, where he will have his eyes treated.

Mr. and Mrs. F. E. Keese are the parents of a daughter, born yesterday morning.

Trebloek Bros. have finished cutting their harvest of ice at Teal Lake and Mud Lake.

Miss Stella Skud has returned home from a several weeks' visit with relatives in Detroit.

Mrs. C. Peltier, an old resident of Ishpeming, is confined to her home on Division street.

Miss Hilda Brodine, head milliner in F. Braastad & Co.'s store, left last night for Chicago on business for the concern.

A reward will be paid at the Ishpeming theater box office for the return of a brown fur neck scarf lost in the playhouse Saturday evening.

Mrs. Thomas McNamara and two children arrived in the city Sunday morning from Fierro, N. M., and will visit their home here, living at 427 Cleveland avenue.

The work of laying a new cross-tied brick floor in the wagon room of the fire hall is about completed. The old floor did not stand up as well as it was expected it would.

L. E. "Pop" Geelan has returned from Linden, N. D., to which city he was called two weeks ago on account of the illness of his mother. Mr. Geelan left the patient much improved.

Mrs. Charles Holm and daughter have arrived in the city to join Mr. Holm, who recently came with the Cleveland-Cliffs Iron company to accept a position as traffic manager at the Photo Powder company.

Mrs. John A. Olson left last night for Chicago, where she will receive treatment in Augustana hospital. She was accompanied by her husband, who will remain with her a few days.

The members of the Cleveland-Cliffs Iron company's bowling league will enjoy their annual banquet Wednesday evening. The Hematite City Four will assist with the entertaining.

The Misses Jennie and Myrtle Andrews entertained about twenty of their friends with a straw ride party Friday evening. After the outing a supper was served at their home on Empire street.

The Hematite City Four will fill a two-days' engagement at the Star theater, Negaunee, starting this evening. The boys offer a complete new repertoire of songs, and Ed. Ham will play one of his latest piano selections.

Maurice Rutledge, who spent the past several weeks with his parents in Detroit, has returned to take a position with the Marquette County Gas & Electric company. He will have charge of the outside work of the gas system.

The bowling league schedule at the Empire alleys this week is as follows: Monday, teams 1 and 6, also 1 and 4; Tuesday, 10 and 9, also 3 and 9; Wednesday, 5 and 7, also 4 and 7; Thursday, 2 and 8, also 6 and 8; Friday, 10 and 6, also 10 and 9.

Albert Peterson, a former resident who holds the position of head blacksmith at the Jones & Laughlins company's Forbes mine at Iron River, was called to Ishpeming because of the critical illness of his father, who lives on a farm in the Green Creek district.

Mrs. Patrick Hughes, who had been a resident of Ishpeming for nearly fifty years, died Saturday morning, after an extended illness, due to old age. She was seventy-four years old. Her husband died nearly twenty years ago. She is survived by three sons, John and Dennis Hughes, residing here, and Timothy Hughes, living in Butte, Mont. The latter is expected to arrive in the city tomorrow morning to attend the funeral.

## DON'T WANT W. H. TAFT TO HEAD THE COLLEGE

Presbyterians Protest Against Lafayette Trustees Choosing Unitarian Executive.

Philadelphia, Feb. 26.—Former President Taft, now at Yale, is being considered for the presidency of Lafayette college, Easton, Pa., to succeed Dr. Eberhart G. Warfield, according to the Presbyterian church here. The report that a plan is under way to place a Unitarian at the head of a Presbyterian college caused a mild sensation in theological and scholastic circles here.

A statement issued at the offices of the Presbyterian says: "Those responsible for this report are also authority for statement that money has been provided to furnish a salary equal to or possibly in excess of that which Mr. Taft is receiving at Yale. The greatest embarrassment to the carrying out of the scheme is the opposition of the synod of Pennsylvania which, by the charter of the college, holds a veto power over the election of all trustees and members of the faculty. But it is probable that the synod of Pennsylvania will consent to placing a full fledged Unitarian at the head of its only Presbyterian college."

New Yorkers Back Move.

The Rev. Dr. Davis S. Kennedy, editor of the Presbyterian, said he had reason to believe that a few wealthy trustees of Lafayette college living in New York were behind the movement to bring Mr. Taft to Easton.

Presbyterian leaders of this city, including influential members of the general assembly, the synod of Pennsylvania, and the presbytery of Philadelphia, heard the news with a storm of protest. If the proposition to place a Unitarian at the head of a Presbyterian college is considered, they said, it would stir up the biggest row 't has had since the Presbyterian church for many years. A prominent official of the presbytery said that ninety-five of every 100 Presbyterians were aggressive Unitarians. To them Jesus Christ is God. They pointed to the fact that Lafayette college was founded by Presbyterians and was under the supervision of a Presbyterian synod. Other leading clergymen and laymen said the proposition was meretricious and that they were not only personally opposed but would exert influence against the seating of Mr. Taft.

Trustees of Lafayette college living in this city professed ignorance of any such movement. Alumni of Lafayette who are numerous in Philadelphia, received the report most cordially and while they declared they had heard nothing official from Easton on the question of Mr. Taft being offered the vacancy, they welcomed the idea and said that despite any religious differences of opinion they would be entirely satisfied, in fact gratified, to have former President Taft offered and accept the place.

Miss Ryan wishes to announce the organizing of ladies' and also children's classes in Physical Culture and Folk dancing. Phone Austin Studio, 297V, or 103 Main St., Vaclerk Block.

## SEES NO CHANGE TO REUNITE PARTIES

Congressman Woodruff Asserts the Progressive Movement Cannot Be Stopped.

Detroit, Mich., Feb. 26.—Congressman Roy O. Woodruff, of Jay City, declares that there can be no amalgamation of the Republican and Progressive parties, or rather no return of the latter to the Republican fold. He also asserts that the Progressive candidate for governor in Michigan next fall will receive more votes than the candidate received in 1912.

"The Progressive movement cannot be stopped," said Congressman Woodruff. "If all the leaders in the party were to return to the Republican party tomorrow they could take with them less than 10 per cent of the rank and file of the party. The only way the parties can be joined is the acceptance by the Republicans of the principles of the Progressive party and the placing in entire control the men who brought the Progressive party into being."

Discussing conditions in Michigan, the Bay City senator was insistent that instead of losing its hold the Bull Moose party is growing stronger every day. Asked why the party vote fell off so in the judicial election of last spring, he said:

"It was lack of organization. The Republicans had township tickets and city tickets and in some cases county tickets to bring them out and so did the Democrats. And yet nearly 100,000 voters, having no hope of victory, but firm in their stand for principle, went to the polls and voted for the Progressive candidates for the supreme bench."

He also declared that the Progressive party was now perfecting an organization in the various counties and would be prepared in November to put up a real fight.

### On Speechmaking Tour.

"The man who heads the Progressive ticket in Michigan next fall will receive more votes than Mr. Watkins received in 1912, particularly if Mr. Watkins consents to become the party candidate again."

"We will have county tickets in most of the counties and will be prepared properly to conduct the campaign to get our votes to the polls. If Mr. Watkins is the candidate he will have the acquaintance and prestige which comes from having received 155,000 votes before and will also be able to take advantage of the knowledge he gained in that campaign."

Congressman Woodruff is now on a speechmaking tour of the state, he being booked for the various Progressive banquets which will be held in Michigan within the next two weeks.

### HEALTH AND THE OPEN WINTER.

The old-time theory that an open winter is prolific of ill-health seems to be disproved for the present season, in Chicago at least. The winter has been unusually mild, the thermometer on Jan. 28 recording 60 degrees. There has been practically no snow throughout the months of December and January. According to the Bulletin of the Chicago department of health, there has been for the eight weeks ending Jan. 24 a reduction of 29.6 per cent in the pneumonia death rate as compared with the average of a like period for the previous five years; 23.7 per cent in the rate of tuberculosis; there have likewise been reductions of measles, which dropped 82 per cent; scarlet fever, 43 per cent; diphtheria, 24.2 per cent; and whooping cough, 18.2 per cent.

The Bulletin accounts for this by the opportunity given by the mild weather for out-door living and better ventilation in living quarters. It is estimated that in the diseases named there has been a saving of 515 lives during the six weeks of December and January for which the comparison was made.

### WHERE OUR MONEY GOES.

During the calendar year 1912 one of the banks of Naples received in small remittances from emigrants domiciled in foreign countries \$11,870,885; of this sum \$9,824,120 came from the United States.

## THE SANITARY ALL GAS KITCHEN

Picture to yourself this kitchen in operation—the Rud Automatic Gas Water Heater in the basement—without any attention—save the turn of a faucet, supplying you with unlimited, inexpensive, pure hot water. How convenient for cleaning and scrubbing—and time-saving to start your various cooking operations.

Think of the modern Gas Range—especially equipped for any mode of cooking—heat easily regulated to a "just right" temperature—no dirt—no ashes—no excessive labor, and all this comfort and convenience at a low cost for gas.

The best demonstration of the merits of these "comfort makers" is to see them in operation at our showroom or a postal will bring you complete information by return mail.

Marquette County Gas & Electric Company.

## Upper Peninsula

Is Bride of a Millionaire.

A wedding ceremony in which the whole community of St. Ignace took deep interest was performed at St. Ignace's church when Miss Mary Adelaide, eldest daughter of Mrs. M. E. Mulderon, was united in marriage to William J. Byrne of Chicago. The ceremony was performed by Rev. Father Moeckler, parish priest. Father Sommers of Mackinac Island assisted. The altar was elaborately decorated with potted plants and cut flowers. The bride entered the church on the arm of her uncle, John Mulderon, who escorted her to the altar to the strains of the Lohengrin march, played by Irene Murray, and preceded by the maid of honor, Miss Bessie Mulderon, sister of the bride. The bridegroom was attended by Jack Mulderon. The bride wore a gown of light blue chiffon, with bridal veil, and carried a bouquet of bride's roses. The maid of honor was attired in a pink satin gown, with shoulder veil. Many guests were in attendance. At the conclusion of the ceremony the wedding party drove to

the home of the bride's mother. Here was served the wedding breakfast. The house was decorated with cut flowers and potted plants. The bride, says the St. Ignace Enterprise, was born in St. Ignace and most of her life has been spent in that city. She is a graduate from the LaSalle High school and also from St. Xavier's seminary of Chicago. Up to the time of her marriage she was teacher of the primary department in the LaSalle school. The bridegroom is a millionaire contractor of Chicago. He is interested in some of the largest engineering projects in the country. Mr. and Mrs. Byrne will spend their honeymoon in the South and West. First they will visit with his parents at their winter home in Mobile, Alabama, afterwards going to Los Angeles, where they will be the guests for a time of the bride's brothers, Charles and Wager. Later they will tour Europe and on their return will take up their residence in Chicago.

### Sad Case at Escanaba.

One of the saddest cases ever brought to the attention of the authorities is that of Mr. and Mrs. John Swanson, consumptives, who today will be taken to the county almshouse for treatment while their four small children will be taken by neighbors, says the Escanaba Press. Six months ago Swanson contracted a cold which resulted in starting the dreaded disease. A short time later his wife contracted the disease and for several weeks both have been failing. When the matter was brought to the attention of the authorities the couple were given a critical examination with the intention of sending them to a state hospital, but they were found to be in too advanced a stage. Being in poor circumstances, the family has been cared for by the city and to lessen the cost both the husband and wife will today be taken to the county almshouse. The four small children, ranging from two years to ten years of age, have been taken by neighbors and although they are said to be slightly affected with the disease it is thought that with the proper treatment they will recover. When the mother learned that her children were to be taken from her she declared she would not be separated from her little ones, but when told neighbors would take them she became calm. As both the husband and wife are in the last stages of the disease, their stay at the county home will probably be brief.

## There is a Vast Difference

in the work of undertakers not so much in the general part, but in the unseen details.

We perform our duties in such a manner as to welcome the closest inspection.

Gladstone Babe Born With Teeth.

Mr. and Mrs. Edward Bogenschutz of Gladstone must forego the parental pleasure of discovering baby's "first tooth." A ten pound son that has arrived at the home of the family is already equipped with five sound teeth. Mrs. Bogenschutz was formerly Miss Sarah Sheehan of Escanaba.

## Big Expenditure Planned.

It is reported that the Lake Superior Iron & Chemical company will install a retort system at its Manistique plant. The money for making the improvement has been practically assured, it is said. The proposed improvements will call for the expenditure of more than \$250,000. The company has expended a large sum on the plant and the works will be first-class in every respect as soon as the retorts are added. From present indications there will be no brick used in Manistique this season than during its entire previous history. The Williams flooring plant is to be constructed of that material and the new depot will utilize a large quantity of brick, as will the retort plant.

## Insane from Excessive Study.

Sheriff Dykes and Judge of Probate Brackett have returned from Traverse City, where they placed Emil Marinelli, of Vulcan, in the state institution for the treatment of insane, reports the Iron Mountain Press. Young Marinelli was a high school student and it is believed his insanity was caused by excessive study. He is seventeen years of age. His delusions embrace the more violent of the socialistic doctrines and he was constantly referring to the labor troubles in the copper country and Colorado. At times he was violent, and as he is a powerful young man it was necessary to place him under restraint in removing him to the hospital. The specialists at the institution were of the opinion the young man would recover his reason under treatment.

## Kills Wild Cat With a Fork.

Farmers at Bootjack, near Lake Linden, may now retire at the end of their day's work without fear of being disturbed from their heavy sleep by the depredations of a certain wildcat that had made itself bothersome of late. Also the farmers need have no fear that said wildcat will enter the coops and arouse Lord Chanticleer and his flock. Joseph Fountain ended any trouble this wildcat may have by plunging a fork into the cat's throat. Fountain was driving home when the cat ran from the woods and walked directly in front of the horses. The team was stopped and the driver watched the cat

## Soda Relieves Indigestion or Acid Stomach

Few stomach sufferers know that indigestion, sourness and gases are not caused by a lack of digestive juices, but result always from acidity, meaning there is an excess of hydrochloric acid in the stomach, which retards digestion and promotes food fermentation. Everything eaten soaks in the stomach like garbage soaks in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. Then we get a heavy, lumpy feeling in the chest, we belch gas and eructate food or have heartburn, water-brash, bloating and nausea.

A well-known authority states that a 10-grain Sodagen tablet taken any time, followed by a tumbler of water instantly neutralizes these stomach acids; stops fermentation, absorbs the gases and sweetens the entire digestive tract. It says any pharmacist can supply a package of 10-grain Sodagen tablets, as they are constantly prescribed for stomach acidity because of their harmlessness to the digestive organs, being composed of Soda, Calcium Carbonate and Magnesia U. S. P.

evaded service in Michigan and that he had tried to do the same in Washington, Mr. Kinney replied: "That is not true." Miss Kinney appeared to take her father's trouble composedly. She chattered goodnaturefully of the case and mentioned having taken a kodak picture of Mrs. McNabb when she was in Escanaba, Mich. Mr. Kinney was not adverse to having a picture of Mrs. McNabb, and she seemed to be greatly surprised. "Why," he said, "I never had a picture of her."

Mrs. McNabb, according to Miss Kinney, is a brunette, and at one time held some sort of position as a traveling representative for a benevolent institution. She has three little daughters. Miss Kinney added. Her husband has been dead for some time. Mr. Kinney's wife died several years ago.

Attorney Charles Poe, of Washington, who was retained by Attorney A. P. Dixon, of Stambam, Mich., to bring the case in the District courts when he ascertained that Mr. Kinney was temporarily in the city, stated yesterday that his client had procured writs of attachments against all the millionaire's property in Michigan, but had never been able to obtain personal service on him.

In the declaration filed in court Mrs. McNabb related that on June 7, 1912, in Escanaba, Mich., Mr. Kinney, who, she states, is reputed to be worth more than \$10,000,000, promised her that he would marry her and she alleges, that he would build her a home, worth \$5,000 or more, and would insure her life for \$9,000 in some standard insurance company and make the policy payable to her three children. He promised, too, she alleges, that he would support and educate her three girls until they became self-supporting or married. She alleges that the agreement was contingent on the promise of marriage. She is still ready and willing to accept the agreement, but Mr. Kinney has refused, she alleges, to marry her, and she wants \$900,000 damages.

Mrs. McNabb alleges that Kinney was so determined to marry her that he persuaded her to give up her boarding house. It is further alleged by Mrs. McNabb that her friendship with the millionaire dates back to the days when he was a poor prospector. They drifted apart, both married, but lost their life companions, she says, and then, thrown together again, his heart warmed toward her, she continues, and after several meetings in Milwaukee and in Upper Michigan he offered himself, she alleges, and was accepted. Mrs. McNabb expresses the opinion that Mr. Kinney yet would wed her but for the adverse influence of his children.

## "Hub" Huebel to Take a Bride.

Announcement is made in Chicago of the engagement of Miss Marice Eleanor Novak, of that city, to Herbert H. Huebel, of Menominee. The bridegroom-to-be, formerly of Chicago, is a prominent member of the University of Michigan football team, is well-known to upper peninsula people. The bride-to-be is the daughter of Frank H. Novak, 11952 Stewart avenue, Stewart Ridge, Chicago. The wedding will take place some time during the coming summer. Mr. Huebel last season coached the Rose Polytechnic school football squad at Terre Haute, two years ago. Mr. Huebel was prominently known as the "little quarterback" of the Michigan varsity. He is tired from the university course to enter into business with his father, C. J. Huebel, and is now vice president of the Iron Range Lumber & Cedar company and the C. J. Huebel Cedar company. Miss Novak is a charming young woman who, during the holidays, was a guest at the Huebel and Coman homes in Menominee. Her father is a prominent attorney. Miss Novak is an alumna of St. Xavier's academy, Chicago, having graduated from that institute two years ago.

## INDIGESTION OVERCOME

Overcome by Simple Remedy.

Hurried and careless habits of eating, irregular meals and foods that do not harmonize tend to weaken the digestive organs and result in different forms of stomach trouble.

If you are one of the unfortunate who have drifted into this condition, eat simple foods only, slowly, regularly and take Vinol, our delicious cod liver and iron tonic.

Mrs. I. J. Smith, Thomasville, Ga., says: "I suffered from a stomach trouble, was tired, worn out and nervous. A friend advised me to take Vinol. My stomach trouble soon disappeared and now I eat heartily and have a perfect digestion and I wish every tired, weak woman to take Vinol, for I never spent any money in my life that did me so much good."

Plan an Observance.

In honor of the event, in appreciation of the efforts of the railway company to hasten the construction of the branch line to Iron River, and in view of the excellent train schedule that the road has provided, the people of Iron River have decided to turn out en masse and take a ride to Channing on the first train to leave Iron River. The trip will be made under the auspices of the Union club.

The Iron River band will accompany the excursion and music will be provided all the way to Channing and back, and at the various stops. The train will be decorated with streamers, bunting, flags and pennants. It is expected that 500 persons will take the trip to Channing.

## Will Entertain Officials.

A party of the officials of the Chicago, Milwaukee & St. Paul will travel north on the Chicago-copper country train to join the Iron River delegation at Channing. Upon the return of the train to Iron River the excursionists will march from the depot to the Union club rooms, where the officials will be tendered a reception.

James R. Peebles, who has been agent for the St. Paul company at Republic for the past thirteen years, has been promoted to the position of agent at Iron River. Mr. Peebles has already assumed his duties. During his residence in Republic he has taken an active part in the town's affairs and for a number of years has been the justice of the peace there.

## LOCAL LACONICS.

A meeting of the fire department will be held this evening.

The employees of the Rolling Mill mine were paid Saturday.

A. D. Laskas has returned from a business visit to Chicago.

Victor Carlson, the Gwin contractor, spoke at the school and yesterday in the city on business.

Al Belzer, decorator at the Savings Bank store, has returned from a visit at his home in Milwaukee.

The employees of the Republic Iron & Steel company's Cambria and Hartford mines were paid Saturday.

The fire department was called out Saturday evening to extinguish a chimney fire at the residence of Marino Carso, Clark street.

Mrs. August Heikka, who has spent the past month in the city visiting with her parents, Mr. and Mrs. Oscar Field, has returned to her home in Eben.

The senior and junior class basketball teams of the high school will play the second game of the inter-class series at the high school this afternoon after school.

John Gundry, who recently returned from Stambam, will leave tonight for Kansas City, Mo., where he will take a position with the Union Pacific Railway company.

The funeral of the late Mrs. L. J. Dousserson, who died Thursday in Superior, Wis., was held yesterday afternoon at St. Paul's church, and was largely attended.

Thomas Collins has purchased the grocery stock of the late Victor Parkkanen. He will dispose of some of it immediately and will move the remainder to his store on Jackson street.

Will E. Johnston, who recently returned from Detroit, and is now employed as a steam fitter at the paper mill at Munising, is in the city on a few days' visit with his folks.

Mrs. Charles Holmberg arrived home Saturday morning from Chicago, where she spent three weeks. During her stay there she underwent a slight operation, and is now completely recovered.

Team No. 5, composed of Kenneth Sterling, Everett Sporley and Walter Hansen, will bowl team No. 13, Osmond Rogers, Eldred Rogers, and Percy Greenway, at the Palace alleys tonight.

Members of the senior commercial class of the high school are rehearsing a play that will be given the latter part of April in connection with the play a demonstration in business methods will take place.

S. Adler, boys' director at the Ishpeming Young Men's Christian association, spoke to the high school boys in the gymnasium Friday on the object of the boys' conference to be held in Escanaba next week. He invited the Negaunee boys to send delegates to the conference.

# Negaunee Department

## ST. PAUL SERVICE GREATLY IMPROVED

Operation of New Branch Into Iron River Will Benefit the Traveling Public.

Negaunee and Marquette county people generally are well pleased with the new train service for Iron River that will be started today by the Chicago, Milwaukee & St. Paul railway over the Channing-Iron River branch. The new service will enable Marquette county people to go to Iron River in few hours. Previously, owing to the inadequate train service, the trip required the greater part of a day.

A train will leave Iron River to connect with the morning north-bound train at Channing. This train will be run between Iron River and Channing, making afternoon connection. According to the new time card, a train will leave Iron River in the morning at 6 o'clock, passing through Crystal Falls at 6:38 and connecting with the train from the south at Channing. A train will leave Channing for Iron River on the arrival of the train from the south. Another train will leave Channing at 10:30, on the arrival of the morning train from Marquette and will reach Iron River about noon.

A train will leave Iron River at 11 a. m., and will connect at Channing with the afternoon train from the south. Persons coming from the south must remain at Channing until the evening train.

In honor of the event, in appreciation of the efforts of the railway company to hasten the construction of the branch line to Iron River, and in view of the excellent train schedule that the road has provided, the people of Iron River have decided to turn out en masse and take a ride to Channing on the first train to leave Iron River. The trip will be made under the auspices of the Union club.

The Iron River band will accompany the excursion and music will be provided all the way to Channing and back, and at the various stops. The train will be decorated with streamers, bunting, flags and pennants. It is expected that 500 persons will take the trip to Channing.

## WILL OPEN STUDIO.

Professor Charles Sadler, leader of the Star theater orchestra, will in a few days open studios here and at Ishpeming. He already has a large class of pupils who are being instructed on the violin. Prior to coming to Negaunee Professor Sadler played for four years with Ballmann's Symphony orchestra, a well known Chicago organization. He studied in Switzerland and he spent two years in Berlin, Germany. His studio will be at 555 Iron street.

## VAUDEVILLE TONIGHT.

The Hematite City Four will be the vaudeville attraction at the Star theater tonight and tomorrow night. The quartet is presenting a complete new program of songs, and Ed Ham will play some of his new compositions on the piano. Tonight's feature picture will be "A Son of His Father," a Lubin drama. It deals with the career of a professional gambler. Other pictures on tonight's program are "You Have Got to Pay," a Pathe drama, and a Pathe Weekly. The management has booked "Uncle Tom's Cabin," a two-reel Kalem feature, for Friday. A special matinee will be given Friday afternoon at 4:15 for the school children.

## COMMUNICATED.

Through the columns of The Mining Journal we wish to complain of the treatment accorded to us by the official, W. R. Meyers, who referred the basketball game played at the Gwin club-house Friday evening between the Negaunee High school team and the Gwin High team.

We wish to say that Mr. Meyers used very poor judgment in calling fouls on the Negaunee team. Fourteen fouls were called on while there were few, if any, called on the Gwin boys during the second half.

We do not want it understood that we are complaining of the treatment accorded us by the players, it being the best possible. But nevertheless the work of the official could have been a great deal better.

(Signed.)

MEMBERS OF THE NEGAUNEE HIGH SCHOOL TEAM.

## WATER TANK EXPLOSION IS FELT MILES AWAY

### Peculiar Accident in Boston Suburb Wrecks a Dwelling and Shakes Nearby Houses.

Boston, Mass., March 1.—A high pressure hot water tank in the home of Joshua C. Kelley, Winchester, exploded with terrific force early in the morning, wrecking a portion of the house and awakening, but not injuring, Mr. and Mrs. Kelley and their maid.

The force of the explosion was so great that it was felt a mile away, neighboring houses being shaken, causing many people to believe that an earthquake had occurred. One of the neighbors sent in a call for the fire department while others rushed to the scene of the explosion.

Mr. and Mrs. Kelley were sleeping in an open porch off the second story, while the maid was in an attic room on the third floor at the time the tank blew up. They were badly frightened, but not in the least injured. The force of the explosion was so great that the partitions in the basement were destroyed, the windows and doors blown out and much other damage caused. One of the outside doors was thrown a distance of 150 feet and the screens were scattered about the yards of the neighbors.

The first floor, including the sitting room, dining room, hall and kitchen, felt the full force of the explosion, the floor being bulged up six or eight inches and tables, chairs and other furnishings scattered about in all directions. In the dining room a large glass cabinet filled with choice china, cut glass and bric-a-brac was wrecked and its contents strewn about the floor. In the kitchen the plastering sheathing and baseboards were torn off and in the sitting room pictures, lamps and furnishings were thrown down and broken.

One of the freaks of the explosion was the throwing of a chair in the reception hall against the ceiling with sufficient force to make dents there. In the basement the hot water heating apparatus was thrown from its base and moved several feet, while the pipes were twisted and broken. A large section of the tank was thrown 15 feet into the coal bin, and the brick wall of the coal cellar was blown in.

The heating apparatus was examined a few days ago and was supposed to be in perfect working order. What caused the tank to explode is a mystery.

Guaranteed tuning at Grinnell Bros' Music House.

## CHORUS HISSES STAR ON STAGE OF THEATER

Ziegfeld Girls Nearly Cause Riot at Toronto When Josie Collins Waves British Flag.

Toronto, Mar. 1.—Josie Collins caused a strike, and almost a riot, on the part of the chorus of Ziegfeld's "Follies" at the Princess Theater by waving a British flag at a point where the Stars and Stripes should have been used, and before the trouble had quieted down, one of the girls had been fined and others discharged.

The finale of the first act represents a scene at Panama, and, at the proper moment for enthusiasm, Miss Collins should wave "Old Glory," but Miss Collins being English, and in an English city, thought she would make a personal hit on the opening night by springing the Union Jack instead.

The members of Ziegfeld's chorus are all American and properly patriotic, and while the English subjects out front cheered wildly at sight of the national emblem, the girls in the show hissed right out on the stage and kept it up after the applause had ceased, so that the sibilant sound was plainly audible to those in front.

When the curtain had fallen, one little chorus girl stepped up in front of Miss Collins and made a face in the English singer's face. Miss Collins demanded an instant apology in the presence of the company and the chorus. Little chorister refused to make it. Charles Mitchell, brother of Julian Mitchell, and stage manager, fined the girl \$5 and laid her off for a week.

Immediately the chorus came to her rescue, demanding that Miss Collins apologize to the company for not using the Stars and Stripes and insulting them with the English flag. They also demanded that the punishment of their offending member be canceled. The prima donna refused to apologize and the chorus declared that they would not go on in the second act. Stage Manager Mitchell again got busy and told the chorus that they were all discharged.

"Daddy" Rosenbaum, Ziegfeld's representative with the company, rescinded Mitchell's order.

The altercation caused the curtain to be held an unusually long time and edges of the fracas came plainly to the ears of the spectators in front. The next day Ziegfeld sent peremptory orders to Miss Collins, and the stage manager was instructed to see to it that no flag but that of the United States was used by her at any future time.

## NO DIFFERENCE.

The Proof Is Here the Same As Every-where.

For those who seek relief from kidney backache, weak kidneys, bladder ills, Doan's Kidney Pills offer hope of relief and the proof is here in Marquette people have used Doan's and Marquette people recommend Doan's. Kidney remedy used in America for fifty years. Why suffer? Why run the risk of dangerous kidney ills—fatal Bright's disease. Here's Marquette proof. Investigate it.

Mrs. D. M. Parker, 613 Division St., Marquette, Mich., says: "My back ached most all the time. When I got up in the morning I felt tired and all worn-out. When I tried to straighten after stooping, sharp pains darted through my sides. One of my friends advised me to try Doan's Kidney Pills and I did, although I had taken other remedies without much benefit. Doan's Kidney Pills greatly relieved me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

## CONDUCTOR LEFT BEHIND; CAR CARRIES MANY FREE.

Milwaukee, Mar. 1.—When the motor-car of a northbound Milwaukee Northern road train rushed out of the terminal station and leaped onto his platform at about 7:30 o'clock P. M., he didn't wait to see if the conductor was aboard. He just tapped his bell a couple of times, put on his power and was off.

There were a goodly number of passengers on route and some of them observed with stung satisfaction and sly winks that there was no conductor to pick up the fares. The motorman, with his mind and his eyes on the track ahead, was all unaware of this and when he got a stop signal he stopped, to be sure, without looking to see where it came from. And when he got a "go ahead" signal he simply went ahead, without looking back into the car to see that it was one of the wags that gave it.

This proceeding was repeated at intervals until the car reached Burleigh street, and by that time many passengers had enjoyed free rides home. Then the motorman had a hunch. There was something suspicious to his trained ear in the signals he got and he stopped the car and looked back. No conductor.

A cautious inquiry or two and the motorman was satisfied that there had been no conductor at any time on the trip. Then he refused to budge his car until the following one had caught up, bringing with it the conductor who had missed connections at the terminal station.

## MILES AND MILES.

The mile, the ordinary mile, is 5,280 feet long. The geographical and the nautical mile are each 6,080 feet. The Scotch mile is 5,292 feet long and the Irish mile, 6,720 long. The German mile is nearly five miles long—24,218 feet. The Dutch mile is 19,295 feet. The Danish mile is 24,875 feet. The Swiss mile is 27,439 feet. The Swedish mile is 22,923 feet.

## THE MOTHERS' FAVORITE.

A cough medicine for children should be harmless. It should be pleasant to take. It should be effective. Chamberlain's Cough Remedy is all of this and is the mothers' favorite everywhere. For sale by all dealers.

# ASSAILANT IS CAPTURED

### Anton Semiski, Trout Creek Woodsman, Saturday Confessed to Shooting Mike Rapset With Intent to Rob—Is Held on a Charge of Murderous Assault.

### Was Arrested by Constable McGinty, of Trout Creek, at Sidnaw, While Purchasing Ticket for West—Brought Here and Identified by the Wounded Man.

Anton Semiski, a Trout Creek woodsman, confessed assailant of Mike Rapset, who was brought to St. Mary's hospital Friday evening with three bullet wounds in his head and one in his wrist, was captured early Saturday morning at Sidnaw by Officer McGinty, of Trout Creek, while he was returning from that city.

### Made Capture at Sidnaw.

Leaving Marquette late Friday night, after having brought Rapset to St. Mary's hospital, Officer McGinty headed for Trout Creek to join the employees of Weideman & Son's camp in a search for Semiski, who, after shooting Rapset, headed for Kenton. Semiski had made his way to Sidnaw, where he was recognized by Officer McGinty just as he was purchasing a ticket for Duluth. Semiski made no attempt to get away, and did not resist arrest. He readily answered all questions put to him about Rapset, and told McGinty that he had shot the man to rob him of the \$500 or more on his person.

### Assault Was Cold-Blooded.

Officer McGinty said Saturday that Semiski had made a complete confession of the shooting. Semiski and Rapset were walking to the camp of Weideman & Son, while Rapset was riding himself. Semiski fired two shots from behind him, both of which took effect. As Rapset turned around he was struck in the wrist by the third shot and the fourth took effect in the forehead. The weapon was a .22-caliber revolver.

The story as reported at St. Mary's hospital Saturday morning by Semiski agrees in nearly every detail with the account of the shooting given by Officer McGinty to the Mining Journal Friday night.

It was brought out that Semiski beat Rapset with a club after he had fired the shots, and threw the body in the snow. Kicking snow over Rapset's prostrate form, he is alleged to have said, "Now you can stay there and die." Later, Rapset arose himself from his semi-conscious state and made his way to one of the lumber camps.

### ATTEMPTED SUICIDE

### Patient at St. Luke's Hospital Tries to Cut His Throat.

Affected, it is said, by periodical insanity, Charles Lind, of Alger county, attempted to cut his throat with a pocket knife at St. Luke's hospital at about 3 o'clock Saturday morning. He was ill and had been confined at the hospital for some time. Lind was uncontrollable and on Saturday was taken to the county jail, where he was confined during the day. He was taken to Munising Saturday evening to be examined as to his sanity.

Lind had obtained possession of a pocket knife at the hospital and was about to draw the blade across his throat, when one of the nurses snatched it away. At times since last fall Lind had manifested fits of insanity, it is said. Less than two months ago, he

# JUDGE SESSIONS GIVES OPINION

### Makes Ruling in Case of American Sulphite Pulp Co. vs. Munising Paper Co.

### STOLE A MARCH.

Miss Bessie Wilson and Dr. L. C. M. Conley wedded Friday.

After having given their friends to understand that they were to be married Saturday noon, Miss Bessie Wilson, daughter of Mr. and Mrs. John C. Wilson, East Park street, and Dr. L. C. M. Conley, of Detroit, were wedded at the parsonage of the First Presbyterian church Friday evening at 8 o'clock. Rev. Platte T. Amstutz officiated. Dr. and Mrs. Conley left Marquette Saturday afternoon for Detroit, and will make their home at 2500 Woodward avenue.

Dr. Conley recently finished his work as interne at the Grace hospital, Detroit, and came to Marquette Thursday. He will practice in Detroit. He went to Detroit from Cincinnati, where he resided for six years, and his work there has been particularly successful. Miss Wilson has been a nurse at Grace hospital for the past year, and met Dr. Conley while employed there. Until leaving here for Detroit she had resided continuously in Marquette. Her education was received in the Marquette schools.

# INSPECTORS' DECISION HAS BEEN REVERSED

### So Says Captain MacKinnon, Recently Found Guilty of Violating Navigation Laws.

A reversal of the decision of United States Inspectors York and Gooding, of this city, in the case of Captain Donald L. MacKinnon, of Menominee, who was found guilty recently of a violation of the navigation laws, has been announced by Captain Charles M. Westcott, of Detroit, supervising inspector for this district, according to a statement made Saturday at Menominee by Captain MacKinnon.

MacKinnon was part owner of the tug James H. Martin, and of the barge Fly, both of which were in Lake Michigan in the storm the early part of November. His license as engineer was revoked by the inspectors following their investigation into the seaworthiness and the handling of the boats in his control on the night of Nov. 9. Captain MacKinnon now says that a duplicate of his license had been returned to him.

Captain MacKinnon, interviewed in his apartments on board the barge Wisconsin Saturday morning, was emphatic on this point, but was unable to produce the license. "I mislaid my letters the other day and the license was among them," he explained. "I presume I could find it if I searched long enough, for it is somewhere about the barge, but I fail to remember where I put it." He said the new license permitted him to act as chief engineer on lake vessels of under one hundred tons burden, and that it was an exact duplicate of the license revoked by the inspectors last month.

Through his attorney, M. J. Doyle, Captain MacKinnon avers that he has filed in the court of admiralty, a department of the federal court at Grand Rapids, a motion to have the case brought against the tug Martin and the barge Plymouth dismissed. The action was brought by the C. J. Huebel Cedar and Lumber company, of Menominee. He bases his action on the grounds that the court of admiralty, in which he says Huebel filed proceedings, has no jurisdiction in mortgage foreclosures, which could be brought in a circuit court. The motion will be heard today before Judge C. W. Sessions.

### A CLEAR COMPLEXION

### Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

### Says Dr. Edwards, a Wellknown Ohio Physician.

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few wellknown vegetable ingredients mixed with olive oil, naming them Dr. Edwards Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter that one's system collects. If you have a pale face, hollow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women, as well as men, take Dr. Edwards' Olive Tablets now and then just to keep in the pink of condition.

Dr. Edwards' Olive Tablets, the successful substitute for calomel—10c and 25c per box. The Olive Tablet Co., Columbus, Ohio.

# JUDGE SESSIONS GIVES OPINION

### Makes Ruling in Case of American Sulphite Pulp Co. vs. Munising Paper Co.

Judge C. W. Sessions Saturday filed an opinion in the case of the American Sulphite Pulp company vs. the Munising Paper company for infringement of patent with F. J. Schultheis, clerk of the United States district court. The judge held that the American Sulphite Pulp company is entitled to a decree, but that inasmuch as the American Sulphite patent was issued in 1895, and expired on June 27, 1905, and since that time has 'dragged its weary way along' apparently without any desire on the part of either litigant for its termination, the patent is not unusually long and the delay is inexcusably long after the patent was granted, a suit to determine its validity was instituted in the United States circuit court for the district of Maine. That suit was decided by the circuit court in November, 1895, and by the circuit court of appeals of the first circuit in April, 1897, or nearly seventeen years ago. Another suit, instituted for the same purpose, was decided by the United States court for the northern district of New York in February, 1907, and by the circuit court of appeals for the second district in November, 1907. In each of the cases above cited, the circuit court of appeals reversed the decision of the lower court, sustained the validity of the patent, and gave the claims a broad construction. The issues here presented differ in no substantial particular from those presented and determined adversely to the defendants in those cases. This record contains nothing to justify—not to say require—a different conclusion.

"Complainant is entitled to a decree; but, inasmuch as the Russell patent expired more than six years ago, no injunction is necessary. Both parties will be given thirty days in which to take additional proofs, if necessary, and to make a showing before this court as to the amount of the money decree to be rendered. Complainant will recover its costs of suit to be taxed."

# MARCH COMES IN "LIKE ROARING LION"

### Temperature Underwent a Sudden Drop Saturday, Followed by a Severe Storm.

According to the old adage, March is to go on "like a roaring lion." The temperature underwent a sudden change at a late hour Saturday afternoon, the mercury dropping precipitately toward the bulb, and this was followed by a storm that was one of the worst this winter. The storm was general and extended over more than two-thirds of the country, according to H. R. Patrick, weather observer. A cold wave warning was received Saturday morning and the change came six hours later.

Train service in the lower part of the state has been greatly delayed. The South Shore has, however, been affected to little extent. The train from the east yesterday did not connect with the Michigan Central at the Straits, for the reason that the Michigan Central train was ten hours behind schedule time. The St. Paul train due yesterday morning at 10:15 o'clock did not arrive until after noon.

Sunday morning and late Saturday night the wind attained a velocity of thirty-six miles and more. At 11:07 o'clock the extreme velocity of fifty miles an hour was reached, and at other times during the night the speed of the wind was nearly at that rate, the velocity exceeded that of the storm the early part of November. Forty-four miles was the maximum recorded on that occasion.

At no time Saturday night or yesterday were the temperatures exceptionally cold, although the mercury hovered about the zero mark. The temperatures yesterday were: Seven a. m., 7 degrees; noon, 9; 7 p. m., 11; highest, 11; lowest, 3. The maximum wind velocity for a period of five minutes from 7 o'clock Saturday evening until 7 o'clock yesterday morning was thirty-seven miles from the northwest. Yesterday from 7 o'clock in the morning until last evening, the maximum velocity was thirty miles from the north at 8:20 o'clock in the morning.

The snowfall was not much more than an inch, but was drifted in places. The force of the wind broke up all the ice in the harbor and bay, and a heavy sea is running on the lake.

# COLERIDGE AS A SOLDIER

### In his young days the poet Coleridge had a little love affair which ended in disaster, for the young woman refused him.

In his young days the poet Coleridge had a little love affair which ended in disaster, for the young woman refused him. In despair he enlisted in a cavalry regiment, which he hoped would be ordered on foreign service. For family reasons he dropped his correct name, but from a feeling of sentiment retained the initials; so Samuel Taylor Coleridge became the private Elias Tompkins Cambridge. The regiment did not leave the country, and it was not long before his soul wearied of barracks life and its utter absence of romance. His military life ended in a curious fashion. One day while Coleridge was doing a weary twenty-go two officers strolled past. One of them made use of a Greek quotation, which the other corrected. The first insisted on his correctness, while the other was just as positive he was wrong. While they disputed the sentry suddenly presented arms and respectfully informed them that they were both in error. He gave the exact quotation, name of the author, and other circumstances. If his musket had spoken the hearers could not have been more astonished. The incident led to an inquiry and the poet was restored to his family.

Guaranteed tuning at Grinnell Bros. Music House. (1-14-tf.)

# POPULAR MUSICAL COMEDY.

### "The Red Rose" Entertained Theatergoers Saturday Night.

"The Red Rose" slightly modified, but still one of the most popular musical comedies of the last few years, entertained a capacity assemblage Saturday evening at the Marquette Opera House. Contagious music, the strongest claim to attention presented in the play, was not as much in evidence as on its former presentation here. The several choruses were well balanced, and their singing was exceptionally good. The voices of the principals, however, did not compare favorably with those who participated in the first presentation of "The Red Rose" here.

Miss Lottie Kendall, who takes the part of "Lola," the artist's model, the role formerly played by Valeska Surratt, is not gilded with an unusual voice, although she is a clever actress and a graceful dancer. She is a dash and a pleasure. "Come Along, My Charley," "I Like to Go on a Home-noon With You," "The Queen of Vanity Fair" and other songs still are popular. In fact these gems of musical comedy have lost little, if any, of their original glitter. The dancing of all the members of the company was excellent. The quality of the performance included several novelties.

Al Rank as Dick Lorimer plays the leading masculine role in an acceptable manner. With Miss Kendall he presented some of the song hits of the play in a pleasing way. Miss Kendall's gown almost out-Valeskaed the chorus and other feminine members of the company followed precedent. The stage settings were elaborate.

# ORE SITUATION IS INDEFINITE

### However, Some Boats Have Been Chartered from Marquette at Forty-Five Cents.

Whether as much ore will be carried down the lakes this year as during the past season of navigation is a matter of much doubt among marine men, but some are taking encouragement from the fact that already steamers are being chartered at the old rates from the head of the lakes and from some of the other ports, also at the rates of last year. A number of boats have been chartered from this port at forty-five cents. Some have been chartered from Escanaba at thirty-five cents and from Duluth and Superior at fifty-five cents.

It is also problematical at the present time whether the coming season of navigation will equal that of the 1913 season in point of merchandise and bulk freight handled. The vessel owners are optimistic about the volume of business for the approaching season, but few of them are of the opinion that it will compare with that of last year. If the labor troubles at the coal mines in West Virginia continue for sixty days more, steamboats will face a serious situation this year, as there will undoubtedly be a shortage of fuel for vessels, as well as much cargo coal.

# WANT SIX WEEKS MORE.

### Lumbermen Need That Much Time to Get Timber Out of Woods.

The freezing temperatures of Saturday night and yesterday brought to a spring-like weather of the latter part of last week caused among the lumbermen. Fully six weeks more time is needed, they say, to get out a cut equal to that of previous years.

The coming season is going to be a good one, the lumbermen believe. Inquiry for lumber is good, and they say that even if prices do not advance materially a brisk movement will be business. In other words, quick and large sales at low prices are preferred to high prices and business stagnation. The shortage of logs has hampered some of the mills recently, but the delivery of lumber is now on the increase.

"February has been one of the best months in years," a Marquette lumberman said Saturday, "and we are now pushing operations to the limit, anticipating that warm weather may come soon. However, despite all that we can do, we shall probably have a shortage of logs."

"We are finding it very difficult this spring to get enough good men in the camps. There are too many men who will come to the camps for a few days, and then return to the cities. Our crews are continually broken up and costly delays are caused. And delays are now the worst thing that could happen to us. We are offering the men good wages, the best of board and quarters, and still we are unable to get enough. What the logging operators want is men who will go to the camps and stay all winter. We pay this class of men more money, and give them the preference, when hiring."

But workmen are so scarce now that we take almost anyone who wants a job.

"There is considerable uneasiness in the camps as spring approaches, and many want to go to the cities. This makes the problem of help extremely difficult."

# LEARN TO USE GENUINE GAS COKE AND SAVE MONEY.

It takes nearly two ton of high-grade Pennsylvania coal to make one ton of coke. That is why you get fifty bushels of coke to twenty-seven bushels of coal in a ton. All the dust, dirt, soot, tar, gas, sulphur, smoke, etc., have been removed at the gas plant. Genuine Gas Coke is the pure carbon which remains. Coke will not give good results unless properly handled. It requires less draft than coal and the furnace should always be kept full of coke whether you want a hot fire or not.

To hold fire over night shut fuel damper and all bottom drafts and open charging door. (2-18-tf.)

# Clothes that suit!

## — at Ormsbee & Atkins

A man dressed in one of our handsome, well-bred Suits or new style Spring Overcoats is a herald of prosperity. He feels better and is worth more in any walk of life, than if he is carelessly clad in uncertain clothes. We've conservative clothes for conservative men—and real "five wire" clothes for young men.

### We are proud of every garment

Yes, and then we are inflated with a little extra pride for the reason that we are able to offer our good clothes at such very moderate prices. And we earnestly urge you to call to see the season's new models and fabrics, look at the price and try just as many garments as you choose.
