

PAYROLL DATA ARE PRESENTED AT COPPER QUIZ

Mining Companies Introduce Evidence Tending to Show That the Wages in Keweenaw Region Are Much Better Than Represented by Witnesses for the Federation

Telling of Bringing Hundreds of Men to the District, Superintendent Potter Denies They Were Confined Against Their Will—Night Sessions to Be Held

Houghton, Mich., March 4.—The copper mining companies today produced before the congressional investigators figures from their books to support their contention that the wages paid to mine workers were much better than represented by witnesses for the federation.

What the Books Show Richard Got. In his testimony, W. J. Rickard, president of the Copper Union of Michigan, testified that he received only \$4.30 for twenty-six days' work in the Osceola mine, that about twelve years ago.

Mr. Rickard read figures showing the pay received by fifty or more mine workers who had appeared as witnesses for the strikers, or whose pay dockets for five months had been introduced. They proved, he said, that the general average was high, even though the wages received in certain months were low.

Mr. MacNaughton Won't State Salary. The cross-examination of James MacNaughton, the general manager of the Calumet & Hecla, ended abruptly this morning, after he had refused to tell O. N. Hilton, counsel for the Western Federation, the amount of his salary.

At the opening of the day's session, Attorney Hilton took up the question of training. "Did trammers prefer the long push in the shaft?" he asked.

At the opening of the day's session, Attorney Hilton took up the question of training. "Did trammers prefer the long push in the shaft?" he asked.

NEGRO'S 30-YEAR SENTENCE FOR STEALING KISS FROM GIRL AROUSES IRE AT LOS ANGELES.

Los Angeles, Calif., March 4.—Protests, threats of recall and denunciations poured in today on Judge Willis of the superior court because of his action yesterday in sentencing to thirty years' imprisonment Charles Guyton, a young negro, convicted of highway robbery, although his only loot was a white girl's kiss.

Deputations of white women visited the judge today to demand that action be taken to save Guyton from such severe punishment.

BOSTON'S MAYOR RAISES HOB WITH MUNICIPAL PAY ROLL.

Boston, March 4.—One hundred "gentlemen employees" of Boston were ordered today to do road construction work by Mayor Curley, "as a beneficial spring exercise."

Governor Walsh sent to the legislature today a special message saying that he would refuse to accept an increase in his salary from \$8,000 to \$12,000 a year.

ILLINOIS MINERS WILL VOTE ON PROPOSED LOAN. Peoria, Ill., March 4.—The Illinois organization of the United Mine Workers of America, in convention here, decided today to take a referendum vote of the members on the proposed loan to the international organization \$150,000 to aid in carrying on the strike of miners in Colorado.

TELLS WHAT A CONTRACT WITH THE UNION MEANS

Colorado Independent Coal Operator Relates His Experience With United Workers.

Walsenburg, Colo., March 4.—"Under a contract with the United Mine Workers of America, about all a mine operator has to do is to pay the miners what they ask, dig up the money to do it and find a market for what little coal they produce."

This did E. G. Bettis, operator of the independent Royal George mine, in Fremont county, summarize what he asserted was his experience under union conditions between Oct. 7 and Dec. 22, 1913. He was a witness for the mine owners late today in the federal investigation of the coal miners' strike.

Mr. Bettis signed a contract with the union committee, stating the mine to be closed down for a whole night because the union wanted the miners to attend a meeting of the union organization. He testified that the union tried to prevent him from selling coal to an electric light and power company which furnished money to his mine as a reason for the fact that the electric company also furnished power to the Victor-American Fuel company.

SIEGEL BANK DEPOSITORS CLAMOR FOR THEIR MONEY.

New York, March 4.—A hundred depositors in the private bank of Henry Siegel, who failed recently when his chain of enterprises in the East collapsed, had to be forcibly ejected from the United States commissioner's office today, after they had protested in vain over the postponement of a hearing in bankruptcy proceedings.

POLICE ARREST DISTURBERS IN A GOTHAM CHURCH

March of Industrial Workers on Religious Edifices in New York Is Stopped When Two Hundred Men Ignore Warnings and Enter a Roman Catholic Building.

Women Scream as Intruders Appear—Whole Party of Invaders Is Rounded Up—Had Listened First to Speech Advising "Tactics of French Revolutionists."

New York, March 4.—Nearly two hundred men, part of those who, under the leadership of the Industrial Workers of the World, have been marching on church edifices recently, were arrested tonight at St. Alphonse's Roman Catholic church, in West Broadway, after they had disregarded warnings that if they entered the edifice it would be under peril of arrest.

As the men neared the church, detectives informed Frank Taunbaum, who has headed the demonstrations, that if the men entered the building they would have to take the consequences. Taunbaum called on the men to follow him.

DOORS ARE LOCKED BY POLICE.

A Lenten service was in progress when the men marched in. Women screamed when they saw the intruders, who, paying little attention to this, quickly occupied seats well in front.

When the last of the men had entered, the detectives ordered the doors locked. Meanwhile, police reserves had been summoned.

When the policemen entered the church, pandemonium ensued. For half an hour there was wild disorder, due in a measure to the efforts of the police to separate the intruders from the worshippers. Rev. J. G. Schneider and several other priests, who tried to pacify the men by talking to them, found their good intentions useless.

The men were taken from the church in twos and conveyed in patrol wagons to the nearest police stations. Later they were taken into the domestic relations court for a preliminary hearing.

LEADER IS DEFIANT.

When Taunbaum was told by the detectives that he and his followers were at liberty to enter the church, but would do so at their peril, he replied that he cared nothing about any result.

That the police would take action against the demonstrators became known earlier in the day. It is understood that the course taken was the result of a conference between Mayor Mitchell and Police Commissioner McKay, held this afternoon.

Previous to the march on the church, probably one thousand persons listened to speeches in Rutgers square. The police charge that these speakers ridiculed the churches which had sheltered the unemployed on previous nights and urged that drastic methods be adopted to get what the orators claimed were the rights of the needy.

FIFTY PLEA UTTERED.

By order of Police Commissioner McKay, the speeches were taken down stenographically, including, it is said, a plea by Taunbaum for the adoption of "the tactics of the French revolutionists."

At the conclusion of the speaking, Taunbaum, holding in his possession a rifle, said: "Now we are going for a walk; I wish to warn you men not to do a thing that will lead to your arrest."

Within a comparatively short time, one hundred and ninety men and a woman of the party, who were ordered to leave the march were in custody, and shortly after 11 o'clock the entire company had been gathered in the domestic relations court for a hearing.

It was a motley array that was lined up before Magistrate McAdoe. Most of the prisoners were foreign born. One man had \$750 in his possession, which he said he had earned as a machinist. No one of the others had more than a dollar in his pockets.

BOSTON UNEMPLOYED ASK WORK.

Boston, March 4.—The unemployed marched up Beacon hill today and asked for work from the legislative committee on social welfare. The parade was headed by Morrison I. Swift, who has been active in behalf of the unemployed for several years.

After the chairman of the committee had announced that the petition of the unemployed would be carefully considered, and an effort made to find some solution of the problem, Mr. Swift's delegation departed. Upon leaving the station, they marched to St. Paul's cathedral, where the leader called for Dean Rousmaniere. When he was told the latter could not see him, Swift left a letter asking:

THE WEATHER

Washington, March 4.—The following is the weather bureau's forecast for Upper Michigan: Scattered snows, Thursday; Friday, fair.

JUDGE IS NOT SWAYED BY PLEA BOMB-PLANTER IS SCION OF NOBILITY.

New York, March 4.—After the attorney for Pietro Giambruno, one of six bomb planters lately found guilty, had pleaded for his client today on the ground that he was a real count, the scion of a noble Palermo family, Giambruno received the maximum sentence of not more than nine years and six months in prison.

ZANG EXONERATED FOR KILLING "RED" SIMON.

St. Louis, March 4.—The grand jury here today decided that Henry Zang was justified in killing Wesley "Red" Simon three hours after Simon went on trial last Monday for the murder of another gangster, Zang, who was to have been the chief witness against Simon, testified today that he shot the defendant when he thought Simon was about to kill him in accordance with threats made on Zang's life by the gang of which Simon is said to have been a member.

The killing took place in a saloon across the street from the municipal court's building during a ten-minute court recess in the Simon trial. Zang probably will be released tomorrow.

SURGEONS SEPARATE NEW "SIAMESE" TWINS

Operation of Extreme Delicacy Is Performed at Paris With Special Instruments.

Paris, March 4.—Magdaline-Suzanne, the French "Siamese twins," were separated today by a surgical operation of extreme delicacy. The operation was performed by two men with specially constructed instruments.

Magdaline-Suzanne were joined together in the region of the stomach and it was found that part of the intestines of Magdaline was within Suzanne's abdomen. This had to be detached from the wall of the fibrous cartilaginous bridge connecting the two children. A local anesthetic was used and the babies cried a little during the operation, which lasted fifteen minutes.

Both children appeared to stand the operation well, but the surgeons could not give a definite opinion as to the ultimate success of their work. No such operation has taken place in France since Dr. Doyen in 1902 separated the two Hindoo children, Radica-Roodica, who died of typhoid fever, but the operation was performed by French surgeons, appeared to functionate like an innuë gland.

Lydston said the operation, if it proves a permanent success, may be a new remedy for Bright's disease, hardening of the arteries and ailments due to premature senility. The surgeon said he had been unable to find any record here or in Europe of such an operation ever before having been performed.

REMARKABLE OPERATION AT CHICAGO.

Chicago, March 4.—Dr. G. Frank Lydston announced tonight to the Chicago Medical association that he has successfully transplanted the generative glands of a dead youth to the body of a living man. Dr. Lydston declared that when he was unable to find a subject willing to undergo the operation, he made the transplantation upon himself.

An operation performed Jan. 16, 1914, Dr. Lydston said, seemed to have been successful, and the gland, taken from a young man eighteen years old, who had been dead seven hours, appeared to functionate like an innuë gland.

Lydston said the operation, if it proves a permanent success, may be a new remedy for Bright's disease, hardening of the arteries and ailments due to premature senility. The surgeon said he had been unable to find any record here or in Europe of such an operation ever before having been performed.

Lydston said he also had implanted in a woman of fifty-nine years the generative organs of a woman of seventeen years, who had been dead from violence for twelve hours. This operation, he said, had been performed too recently for him to predict results. The wound, however, he declared, was healing rapidly and the operation gave evidence of being successful.

Butchered Young Woman LAST SEEN WITH CHINESE. Stockton, Calif., March 4.—After six weeks' search for Esther Crozier, her butchered body was found today in Trapper Slough, near Holt, where she was last seen in company with a Chinese. Her body was found cut into eleven pieces and was held in four sacks, which were exposed by the fall of the water in the slough. A Chinese in Holt has been arrested.

CHICAGO PRODUCE QUOTATIONS.

Chicago, March 4.—There was no change in butter prices in the Chicago market today, creameries at 23¢-30¢ cases; eggs, higher; receipts, 8,119 cases; eggs at mark, cases included, 28¢-29¢; ordinary firsts, 28¢-28½¢; firsts, 29¢-29½¢. Poultry, alive, lower; springs, 10½¢ cents; fowls, 14¢.

SENATE WILL TAKE UP THE MEXICAN CASE

Spirited Debate Dealing With the Number of Americans Killed and Other Matters Will Open Within a Few Days—Mr. Fall Urges a Change of Policy.

Diaz Followers Appear Before a Committee and Ask This Country's Support for a New Revolution—Proposition They Advocate Ridiculed as Preposterous.

Washington, March 4.—Although Great Britain's reluctance to press the Benton case at this time has made the Mexican situation less acute, there are several aspects which it is now practically certain will occasion spirited debate in the senate in a few days.

It became known tonight that facts and data concerning the number of foreigners killed in Mexico since armed revolution began there are being gathered by the state department for Senator Shively, ranking member of the foreign relations committee, who is expected to present the official records showing conditions in the southern republic. It was reported that Senator Fall, of New Mexico, would open the debate with a speech urging a change of policy.

DIAZ FOLLOWERS AMAZE COMMITTEE.

Incidentally, the New Mexico senator today presented to the foreign relations committee Pedro del Villar and Cecilio Ocon, representing the political interests of Felix Diaz. Members of the committee were frankly amazed when the Mexicans sought the moral support of the United States government to bring about peace in Mexico by another revolution headed by Diaz. The committee has no idea, it is said, of the exact purpose of their visit, other than they wished to present information about the situation in Mexico. Members of the committee flatly stated that the United States could not recognize any such movement.

Villar and Ocon severely arraigned Huerta as corrupt and Carranza and Vilas as bandits, and argued that Felix Diaz had behind him a host of loyal Mexican citizens who would rush to his support to establish a real government in Mexico. They wanted, it is said, to get a promise from the American government that it would uphold Diaz and recognize him if the counter revolution succeeded. Several members of the committee characterized the proposition as preposterous.

TEXAS REQUEST PROVOKES DISCUSSION.

The request of Governor Colquitt, of Texas, that the federal government of Nuevo Leon for the extradition of Clemente Vergara occasioned much discussion here. The Texas governor had asked the state department to tell him what it looked upon as the legally constituted government in northern Mexico—for by the special treaty with Mexico extradition proceedings may be carried on between governments in adjacent border states without reference to the American state department.

Secretary Bryan suggested to Governor Colquitt that he might ask for the extradition of the offenders from "the government of Nuevo Leon," leaving it to the Texas governor to determine who that individual was. The extradition has been asked for on the charge of horse-stealing. Secretary Bryan said that under the treaty the offenders, if extradited, could not be tried for murder, because Vergara was slain on Mexican soil.

HUERTA TO BUILD BLOCKHOUSES.

Mexico City, March 4.—Talking for the first time today to a few newly arrived newspaper correspondents, President Huerta reiterated that he has an army of 250,000, with which he is determined to fight the rebels until they are subdued or exterminated. He added that he was about ready to begin the construction along the railroads of four thousand block houses, about a mile and a half apart, in each of which would be placed ten men. Orders already had been given for barbed wire, he said, and this would be strung along the rights-of-way of the railroads.

LIVESTOCK EXPORTS PRACTICALLY PROHIBITED.

Mexico City, March 4.—A virtually prohibitive export tax has been placed on cattle and hogs. This is not a measure by which it is expected to bring revenue to the government, but one calculated to conserve the country's food supply. Shippers, attracted by better markets abroad, recently began exporting to such an extent as to cause apprehension.

CARRANZA ORDERS BAUCH INQUIRY.

Nogales, Sonora, Mex., March 4.—General Carranza ordered tonight an investigation of the Bauch case by the commission sent to look into the death of William S. Benton, a British subject. This action was taken after the receipt of a report from General Villa regarding the disappearance of Gustav Bauch, an American.

STEEL STOCKS ARE STRONG; TWENTY-ONE MORE FURNACES PUT IN BLAST LAST MONTH.

New York, March 4.—An increased demand for steel today revealed the scantiness of the floating supply and, although the buying was not heavy, an advance of fair proportions was achieved. Despite the lack of outside interest in the market, investment brokers said that purchasing of dividend-paying stocks had been going on steadily. The steel stocks were especially strong today. The absorption of these stocks was stimulated by the strong showing of the February

TAFI DECLARES FOR WIDESPREAD EXTENSION OF THE CIVIL SERVICE.

Amherst, Mass., March 4.—"Civil service reform should be extended to include all appointive officers in the national government, except those in the cabinet, the judiciary and the higher positions upon which the political character of the administration depends," former President Taft said tonight, during an address to the students of Amherst college. Congress, he added, should not be required to confirm appointments.

HOUSE OF COMMONS FAVORS PARTICIPATION IN SAN FRANCISCO FAIR.

London, March 4.—By a substantial majority, the house of commons tonight put on record a desire that the government reconsider its refusal to participate officially in the Panama-Pacific international exposition and agree to participate. A memorial to this effect, signed by more than three hundred and fifty members of the house of commons, representing all political parties, will be presented to Premier Asquith tomorrow.

MR. BRYAN TO MAKE TRIP TO CHILI NEXT SEPTEMBER.

Washington, March 4.—Secretary Bryan today informed the governing board of the Pan-American union, composed of the representatives here from all the American republics, that he had accepted the invitation of Chili and would visit Santiago, Chili, next September at the time of the meeting there of the fifth Pan-American conference.

JOHN BASSETT MOORE QUILTS FEDERAL SERVICE.

State Department Councillor's Resignation Is Accepted—He at Odds With Bryan.

Washington, March 4.—John Bassett Moore, councillor of the state department, has resigned his position as councillor of the present administration on international questions, concluded his service with the government today, when President Wilson accepted the resignation. Mr. Moore had submitted a month ago. Coming at the present time, the departure of Mr. Moore from a position second only to that of Mr. Bryan attracted widespread comment.

Although the resignation had been in the president's hands since Feb. 2, last, to take effect today, this fact had not been generally known. There had been reports some months ago that Mr. Moore did not find his labors entirely congenial and was about to resign, but these reports were denied. It was then explained, and again officially explained today, that Mr. Moore had come into the administration with an understanding that his tenure was provisional for a year, so that he could return to his duties as head of the department of international law at Columbia University.

This fact was strongly emphasized in the official correspondence made public tonight. Although the official statements—one from the president, one from Mr. Bryan and Mr. Moore's own letter of resignation—made no mention of the subject, it is a matter of common report that Mr. Moore's personal viewpoint on some of the most important policies relating to foreign affairs were not always in accord with those of his superiors. It was said that when the question of recognizing the Huerta government was being discussed, Mr. Moore submitted a memorandum citing precedents by which the United States would be justified in recognizing the Huerta government.

The resignation of Mr. Moore leaves two important places to be filled. The other is that of solicitor, from which Joseph W. Folk resigned a few days ago. For the position of councillor, among those mentioned are Hannis Taylor, of Alabama, minister to Spain under Cleveland; Henry White, former ambassador to France; and John Lind.

"BILL" SULZER WHACKS THE POLITICAL BOSSES

Ex-Governor Uses Big Stick on "Machine" in Violent Attack at Albany.

Albany, N. Y., March 4.—A display of rhetorical fireworks by Assemblyman William Sulzer was the feature of today's session of the legislature. Mr. Sulzer made a bitter attack on the "political machine" which controlled both houses of the legislature when he was governor. He denounced the whole range of legislation passed at the extraordinary session.

"The state primary bill," Mr. Sulzer shouted, "resembles a direct primary bill about as much as a jackrabbit resembles a jackass. I denounce it here as a farce and a fraud. Mr. Murphy would not permit his marionettes to pass a genuine bill, because he knew it would put him out of business. This mighty bug and cry about the reorganization of the Democratic party is farcical. They are only putting new faces on old scoundrels, to keep the crows out of their political cornfields."

"Mr. Speaker," interjected an assemblyman, "I rise to ask what bill is before the house?" "Bill Sulzer," shouted the former governor, "and he will proceed to say that unless his own or similar amendments are adopted to the primary law, the same old bosses will control everything at the next election, or before."

WOMEN START FIERCE MELEE IN LONDON HALL

Militants Show Their Bitterest Animosity Is Directed at the Labor Party, Despite It Is Only One That Has Espoused Their Cause—Treachery Is Charged.

When J. R. MacDonald, Chairman, Begins Speaking at a Rally of His Political Organization, Suffragettes Howl Him Down—The Ensnuing Fight Lasts an Hour.

London, March 4.—Militant suffragettes tonight gave further proof that their bitter animosity is reserved for the Labor party, the only political party which has espoused their cause. As soon as J. Ramsay MacDonald, chairman of the Labor party, began speaking at a Labor party rally here suffragettes, aided by male supporters, started to howl him down.

Women users had been engaged to deal with women interrupters and men to attend to masculine disturbers, but as "howlers" for their own sex the women proved failures. For an hour a fierce struggle raged. There were frequent fire fights between men, while women grabbed one another by the hair, scratched faces and tore clothing. Windows were smashed and chairs broken. Eventually the police were summoned and MacDonald got a chance to finish his speech.

Sylvia Pankhurst addressed a meeting tonight outside the house in which she is entrenched against the police. She said she intended to be present in Trafalgar Square Sunday, not to preach peace, but to advise the people to do as much damage as possible.

The hostility of the militant suffragettes toward the members of the Labor party is of long standing. The militants charge that the Laborites, though openly espousing their cause, are really traitors, inasmuch as they do not force the government to give women the vote. The barring of suffragettes from the Labor party's convention in Manchester last March added to the hostility.

While that convention was in session, militant suffragettes bolted, barred and chained the doors of the hall. Unaware that they were locked in, the Laborites cheered heartily the speeches of delegates favoring giving women the ballot. The delegates found out only at lunch time that they were prisoners and workmen with files and chisels had to be summoned to cut the bars and chains and release them.

Senate Expected to Vote Today. Washington, March 4.—The cause of woman suffrage was championed in the senate today by Senators Thompson, Owen, Chamberlain and Sherman, who spoke in support of the proposed constitutional amendment to give women the vote in all states. Senators Reed and Vardaman were prepared to speak against the amendment and probably will do so tomorrow, when a vote may be reached.

The attitude of some Southern senators was indicated when Senator Vardaman said: "The negro question may come up to vote against this amendment." "Stump Speakers" Given Points. Chicago, March 4.—A political speech should be as beautiful as a painting; its sequence of ideas should resemble the natural passages of chords in music," said Miss M. Katherine Lyons today to a class of members of the Women's party of Cook county.

The teacher was an instructor in oratory and her pupils were prospective stump speakers seeking light on how best to capture elusive votes in the coming chief elections.

CHIEF CLERK W. F. SHIPLEY NOT SUGGESTED FROM OFFICE; COL. GOETHALS PRAISES HIM.

Washington, March 4.—Inquiry today of Colonel George W. Goethals, chairman of the Panama canal commission, who is now here establishing the dispatches dated Panama on or about Feb. 9 last, stating that W. F. Shipley, chief clerk of the subsistence department, had been suspended on grounds of incompetence were erroneous.

Colonel Goethals says Mr. Shipley was not suspended at that time or at any time since. He also speaks of Mr. Shipley as an entirely competent official and says he is now satisfactorily discharging the important duties of chief clerk of the subsistence department of the canal. It appears that Mr. Shipley had spoken of resigning in order to accept a business position which had been offered him, and this may have given rise to the other statements in reference to him.

Colonel Goethals also entirely exonerates Mr. Shipley from any connection with the alleged transactions which led to the suspension of John Burke, manager of the commissary committee.

HOPPE, 500; SLOSSON, 35.

Chicago, March 4.—William Hoppe defeated George Slosson in the night session of the 182 balckline billiard tournament here today, 500 to 35. In the afternoon game, Kogi Yamada defeated Calvin Bonarrest, of Chicago, 500 to 414, in twenty-eight innings.

BEARS HAMMER WHEAT.

Chicago, March 4.—Bears ruled in the wheat pit today with the aid of lower cables and optimistic reports concerning the winter crop. Final prices were: May wheat, 83¢ cents; July, 88¢; May corn, 67½¢; July, 60½¢; standard oats, 40½¢-40¢.

THURSDAY, MARCH 5, 1914.

A CLOSING INCIDENT.

The closing sessions of the investigating committee are about the principal evidence of a tangible nature that there has been a strike in the copper country.

The time of stress is largely passed. That it should have been attended by so little disturbance of the ordinary course of trade and commerce is remarkable.

The close of the congressional investigation draws on apace. Its later stages have been less marked by manifestations of a leaning toward the side of the strikers than were the first sessions.

One condition is not being in any way glossed over. It has been restated by Mr. MacNaughton in the most emphatic terms.

The showing of the companies in rebuttal of the evidence and testimony submitted by the witnesses for the Federation has been so strong on the important points that little likelihood is left that the congressional committee will return any sweeping report of a radical nature.

The strike is over, as the congressional committee ascertained, and they will act wisest if they consider principally how its lessons may be best applied.

IT'S THE TIME O' THE YEAR. The gentlemen who have been variously mentioned as candidates for the G. O. P. nomination for congress in the Twelfth district now make an impressive list, of from ten to a dozen names.

REDUCING THE FOOD COST.

Secretary of Commerce Redfield says that the tariff already has reduced costs, especially of food, to the American people.

"The tendency is clearly in the direction of a reduction in the cost of food and clothing through a removal of the tariff tax," said the cabinet officer recently before the Wheeling, W. Va., board of trade.

"The new tariff has not thus far resulted in any material increase of importations of manufactured articles to compete with the products of our own factories, but rather its important effect has been to add to our food supply.

"The eastern and western coast so far have received the greatest benefits from food importations. While the inland has not benefited directly it has benefited indirectly by the added supply of food-stuffs.

"The Commonwealth Power company proposes to network the lower part of state with interurbans. It would, in short, largely monopolize the interurban traffic.

Concerning Jim Helme's caustic arraignment of the "J" hop at the Michigan Agricultural college, the Lansing State Journal comments: "One could not read Mr. Helme's article and feel that it was a dispassionate criticism.

After all, why blame the groundhog? He only says it coming and decked.—Pittsburg Gazette-Times.

It seems to be settled that Sir Thomas Lipton's challenger, Shamrock IV, is to have a centerboard. This is adopting the American construction, but whether it will win the cup or not can be told only by the wind.

Referring to the attempt to change the control of the parcel post system from the postmaster general to congress, the Grand Rapids Press says: "An amendment to the bill as it passed the house, proposed by the senate committee, to prevent the postmaster general from making changes in the conditions of the service was defeated by a vote of thirty-three to twenty-four.

It is a well known fact that the parcel post rates are adjusted in accordance with the actual cost of the service and that the railroads are fairly paid for the additional traffic they are called on to handle.

Great Britain proposes to do nothing precipitate about the Benton case, but later it will doubtless be the principal item in a weighty bill of damages that will be rendered against some responsible Mexican government, or against this country after the occupation.

When the conversational tide turned to the mayor's recent dinner, Congressman Kenneth D. McKellar, of Tennessee, smilingly ventured that he was reminded of the kick of a party named Patrick.

better after the race.—Pittsburg Dispatch. Gathering of the Clans. New Jersey clans are gathering for the extermination of the mosquito, which is one of the interests that never had a special representative in congress.

A LAUGH OR TWO

The Secret.

Mrs. Stuyvesant Fish is known to give the most sumptuous dinners in the world. She is also known as the possessor of a trenchant wit.

It is said of Mrs. Fish that the success of a rich but ill-favored New York girl's marriage with a spendthrift nobleman was recently discussed in her presence.

"The girl won't let her husband touch a penny of her principal, and that, you see, keeps up the interest."

First Impressions.

Ex-Senator Clark had just bought in New York a magnificent Italian rug for \$21,000. To a friend who declared that he saw nothing remarkable in the faded antique rug and carpets spread about him, Mr. Clark said:

"You are not yet familiar with this subject. It is so with porcelains, with jades, with opals, with diamonds, and with critics at first are rather absurd."

"It's like the young woman's first view of the sea. She was a servant, she had never seen the sea before, and her mistress, nodding towards the great, wind-whipped expanse of ocean with its gulls and flying clouds and distant sails, said:—

"There, Mary, is the sea. What do you think of it?"

"Oh, mum, Mary cried, 'it smells just like oysters.'"

Might Help Some.

When the conversational tide turned to the mayor's recent dinner, Congressman Kenneth D. McKellar, of Tennessee, smilingly ventured that he was reminded of the kick of a party named Patrick.

Came to the office of the mayor of a western town some time since the mayor's secretary, in a wailing voice, complained that the water pipes of his house had burst, filling the cellar full of lakes and oceans and drowning the chickens that he kept there.

"I am very sorry, Pat," said the mayor, after listening to the sad story, "but you can do anything for you. You will have to complain to the water company."

Whereat Patrick promptly got on the hike, heading straight for the office of the water company. A half hour later he again lunged into the august presence of the mayor.

"Glad news, I hope, Patrick," remarked the mayor in a kindly voice. "What of the water company tell you?"

"They towled me, yes, honor," answered Pat a little heatedly, "that the best thing for me to do was to kape ducks."—Philadelphia Telegraph.

The Touch System.

Private William Mc Dermott, better known to his comrades as "Lucky Bill," was being examined by the regular army surgeon in order to have his claim for a pension verified.

"What's the matter with your leg?" asked the surgeon.

"Shot it below the knee," returned "Lucky Bill."

"The surgeon examined the injured limb, winked at his assistant, and returned again to the applicant.

"Why, man, there's nothing wrong with your leg," he said. "Your wound is entirely healed, and while it may cause you to limp a little, it will never hinder you from making a living."

"Oh, yes it will," argued Bill. "But how?" asked the surgeon. Bill hesitated a moment. Then his face brightened.

"I'm a song-and-dance artist," he said; "and you can test how I'm going to dance with a stiff leg."

When he returned to camp, a friend asked him how he made out.

"First-rate," answered Bill. "Why don't you go over?"

"I would if I had been injured," answered his friend.

"You lost the tip of your index finger, didn't you?" said Bill. "Just tell them you are a typewriter and use the touch system."—National Monthly.

Worried the Senator.

Senator John K. Shields, of Tennessee, likes to be alone and likes his own fireside better than the gilded glories of a manly hostelry. On his big plantation on his estate he has a large colonial mansion surrounded by several hundred acres of fine land on which he pastures his cattle, ponies and goats.

It seems to be settled that Sir Thomas Lipton's challenger, Shamrock IV, is to have a centerboard. This is adopting the American construction, but whether it will win the cup or not can be told only by the wind.

Referring to the attempt to change the control of the parcel post system from the postmaster general to congress, the Grand Rapids Press says: "An amendment to the bill as it passed the house, proposed by the senate committee, to prevent the postmaster general from making changes in the conditions of the service was defeated by a vote of thirty-three to twenty-four.

It is a well known fact that the parcel post rates are adjusted in accordance with the actual cost of the service and that the railroads are fairly paid for the additional traffic they are called on to handle.

Great Britain proposes to do nothing precipitate about the Benton case, but later it will doubtless be the principal item in a weighty bill of damages that will be rendered against some responsible Mexican government, or against this country after the occupation.

EDITORIAL OPINION

In Need of a Receiver.

The recent announcement from Spain that a revolutionary movement is on in Portugal, which is a constant threat to the continuance of even a nominally Republican form of government.

Portugal today seems to need nothing so much as to go into the hands of a competent and trust worthy receiver able willing to take care of her for a time and nurse her back to prosperity and social health, much as the United States once took Cuba in hand and developed her.—Detroit Free Press.

"Hecking" the President. The Hon. Joseph R. Knowland of the Alabama district of California, and a Republican of the old-fashioned subsidy sort, on Saturday, March 1, printed in the Record an alleged report of a speech by Woodrow Wilson of New Jersey in 1912 approving the exemption from tolls of American coasting vessels.

His amiable object, of course, is to prevent the repeal of the tolls-exemption clause in the tariff act. Mr. Wilson, we don't think he will do either. So far as the President is concerned, he can, if the speech be correctly reported, simply say that on fuller knowledge and more mature consideration he has changed his opinion.

There will be some national interest in the by-election in the seventh New Jersey district which is to be held April 7. The election is to fill the vacancy created by the death of Congressman Robert Gun Bremer, the cancer victim.

Mr. Bremer was a Democrat, and his election was due to the splitting of his opposition. The district is normally Republican, and in the last state election went against Governor Fielder by a heavy majority. Only once has it been carried by a Democrat in a two-party fight.

This year Democrats, Progressives, Republicans and Socialists will have tickets in the field. The Socialist vote is not negligible. The district includes the cities of Paterson and Passaic, which have normally large Socialist votes, and the recent labor troubles in Paterson may have increased the Socialist following. The Progressives, too, are seriously in the fight.

A material falling off of the Progressive vote might result in a Republican victory, because of the district's normal Republican strength. Such a result could scarcely be interpreted as a vote of lack of confidence in the national administration. The heavy vote of the district against Governor Fielder, who was personally backed by President Wilson, might have been more justly taken as an expression of dissatisfaction.

President Wilson, of course, is desirous of a Democratic victory in his own state. But conditions in the seventh district are so complex that the result will need careful analysis before it can be accepted as having any bearing on national politics.—Cleveland Plain Dealer.

More Opportunities. If congress follows presidential advice and prohibits interlocking bank directorates, it will really and truly create opportunity in commercial life.

By insisting that one man shall stick to one job, it will materially multiply the number of men required in the banking operations of the country.

This multiplication spells opportunity—opportunity for young men in the business world—opportunity for them to be drafted into the important financial operations of a city and a state—opportunity for them to expand in their point of view—opportunity for them to grow.

In other words, it will spread out the banking burden of the country over more shoulders than to have heretofore been put to the task.

In this one result alone we can see far-reaching advantages in the legislation proposed.

It is a mighty rare and unusual thing when it is possible for mere law to really create opportunity. But in this instance it seems self-evident that such a law as we here discuss would work this very miracle. For this reason alone—quite regardless of the technical advantages that may be claimed for the abolishing of directorates—the proposal is sound at the core.—Grand Rapids Herald.

Lower State Notes. KALAMAZOO—W. O. Harlow, an automobile dealer, a few weeks ago gave a man who came to his garage begging for food a job. And now the police are searching for the man. He disappeared with \$350, taken from the garage safe.

HARBOR SPRINGS—Albert Tolbert and two companions narrowly escaped death, when his ice boat, going at a rate of a mile a minute, was wrecked on the breakers at Petoskey.

LANSING—Secretary of State Martindale is at Jacksonville, Fla., still a sick man. On the way south the train followed a snowstorm until within 100 miles of Jacksonville, and for a time the secretary, who had remained in the north. It is not expected that even if Mr. Martindale improves in health he will return to Lansing for at least another month.

ALPENA—William Bates, a log driver, escaped death by a hair when he became caught in a log jam at Hillman, Pimmett beneath many logs. Mr. Bates was unable to move and efforts to raise him had to be made with the utmost care, lest the logs start rolling and kill him. His right leg was caught between the logs for a half hour. In that time a temporary structure was built to hold the logs, and he was removed. As the rescuers cleared the log pile, it crashed to the ground.

ANN ARBOR—A letter received from Mrs. O. Reed from Germany states that Dean J. O. Reed is not improving as hoped for, but is growing worse. Professor Reed is dean of the literary department of the university. His health began to fail nearly four years ago and within a couple of years after he had accepted the position. Because of his devotion to the department and his effort to bring about certain changes which he considered would be for its betterment, he failed to take the rest which his physician told him was necessary and was virtually a martyr to his loyalty. Two years ago he suffered a complete breakdown. After he went abroad he was placed under the care of the leading German physicians. For a time Professor Reed improved, but the last letter received tells of his losing ground.

CADILLAC—That guess made in the early days of the drilling for oil by one of the boss drillers who are operating on the outskirts of this city, that 100 feet would be drilled in a day and that 3,000 feet would be reached—if oil was not struck sooner—in one month's time, was surely a poor guess. Several weeks have passed since that time and thus far the drill has penetrated but little over 400 feet. The drill is still passing through white sand, practically the identical soil started with on the surface. Only five feet of thin gravel have been passed. It seems likely now to Theodore Cross, who is in charge of the operations, that the same experience will be noted for at least 200 feet more before hardpan is found. In all his many years of well drilling, Mr. Cross has never before known of the sand so deep, nor has he ever before on a drilling job where the work went so slow, it being more difficult to drive through the sand than through rock.

ANN ARBOR—Ann Arbor parents are stirred because they have learned that the mental efficiency tests being held in the lower grades of the public schools. The work was not secretly done, but it was not advertised. It is understood that these tests for mental efficiency had been made for several months before all the school trustees knew the work was being done. Superintendent Slauson gave permission for the tests without consulting the board. These tests are being made under the supervision of the educational department of the University of Michigan. This year they have been made by Chang Ping, one of the most refined of the Chinese students in the graduate department of the university. Gustave Stolt, whose child was one to submit to the test, said he proposed to hold the school board responsible for what he considered an injury sustained by his child during the test. He said that until the test his child had been ahead of the others in his class, but that since then, because of the strong electric lights used, the child's eyes have become affected.

LANSING—A. C. Carton, state land commissioner, draws a salary from the state of \$2,500 a year. This is the amount given the state land commissioner or under the law. Commissioner Carton is also a member of nine other commissions. In fact Carton carries more jobs for the amount of money he receives than any other state officer in Lansing. Aside from being state land commissioner, he is secretary of the public domain commission. By virtue of his office of land commissioner, he is also a member of all kinds of ways and I find Foley's Honey and Tar Compound always fixes me up in good shape when I catch cold or have a bad cough. I recommend it gladly." Refuse substitutes. For sale by all druggists.

Classified Want Directory

LOST—On North Front street, north of Hewitt avenue, Monday night, a fur-lined glove. Please leave at Mining Journal office.

WANTED. WANTED—A dish washer at Lake Independence Hotel, Big Bay. Good wages. 5-5-14.

WANTED—Bookkeeper by a Munising firm. Address "Bookkeeper" at this office by mail. 3-3-14.

WANTED—A good girl for general housework. Apply 1025 N. Front street.

WANTED TO RENT—A modern eight or ten-room house. Must have hot water or steam heat. Central location. Inquire 348 E. Arch street. Phone No. 63-J. 2-24-14.

WANTED—An ambulance. Write to W. W. Carmody, Munising, Mich. 2-19-14.

WANTED—Salesmen, \$75 per month and all expenses to begin. Experience not absolutely necessary. Make orders from dealers for cigarettes, cigars, snuff, smoking and chewing tobaccos. Penn. Wholesale Tobacco Company, Station 1000, New York, N. Y. 1-13-2mo.

FOR RENT. HOTEL FOR RENT OR SALE—Interior newly papered and painted, partly furnished. Cheap if taken at once. Inquire or write to Mrs. M. Howard, Turin, Mich., Marquette county, Mich. 2-5-14.

TO RENT—Very desirable corner store in the Cole block, corner Third and Bluff streets. There is without doubt as much travel up Third street as down it. Also four-room flat in same building. Marquette County Savings Bank or Charles T. Gault. 3-4-14.

FOR RENT—Seven-room house, corner of High and Crescent streets. Hot water heat, all modern conveniences. Apply to John Robertson. 2-9-14.

FOR RENT—Six-room cottage, 300 W. Park street. Inquire 348 W. Park street. 2-7-14.

FOR SALE. FOR SALE—Single sewing machine, price, \$15; also two-burner kitchen oil stove. Inquire at 1042 N. Front street. 5-5-14.

FOR SALE—Player-piano and music, at a bargain. Address J. C. Woodworth, Marquette, Mich. 2-25-14.

FOR SALE—Two fresh milk cows. Apply to H. E. Bittner. 2-20-14.

FOR SALE—House and two lots, 60 West Washington street. Ground sufficient for carrying on truck business. Will sell cheap. W. A. Ross, 135 W. Ohio street. 3-4-14.

NOTICE. Notice is hereby given that I, John D. Ross, am the legal owner of bounty land warrant No. 114375, for 100 acres, issued under act of March 3, 1855, in the name of William Hall, and that said warrant having been lost, I have made application to the commissioner of pensions for a duplicate. 2-26-14 JOHN D. ROSS.

REPUBLICAN IRON COMPANY. The annual meeting of stockholders of Republic Iron Company will be held at the office of the company, No. 1703 Morris building, No. 1422 Chestnut street, Philadelphia, Pa., on Wednesday, March 18th, 1914, at 12 o'clock M., when an election will be held for directors to serve during the ensuing year, and for the transaction of such other business as may lawfully come before the meeting.

D. BREWER GEHLY, Secretary. 3-4-18

AUCTION SALE OF LANDS. Notice is hereby given that the following described lands in Baraga county, Michigan, to-wit: 8 1/2 of NE 1/4, Section 31, 8 1/2 of NE 1/4, Section 11; 8 1/2 of the NW 1/4, Section 17; 1/2 of Section 28, North of Range 23 West; 8 1/2 of NE 1/4, Section 28, and W 1/2 of SW 1/4, Section 28, all in Township 33 North of Range 23 West; also 8 1/2 of SE 1/4, Section 4, E 1/2 of SW 1/4, Section 9; N 1/2 of SW 1/4, Section 17; W 1/2 of Section 18, and W 1/2 of NE 1/4, Section 30, all in Township 51 North of Range 33 West, will be sold at public auction, subject to a sale will be conducted by the sheriff of Baraga county. Title not guaranteed. Lands will be offered in parcels as described above.

These lands partially belong to an estate and must be sold. Full information may be had by addressing the undersigned, Sheriff, Sanit St. Marie, Michigan, or L. G. Hillyer, Baraga, Michigan. Dated January 22, 1914. L. G. HILLYER, Sheriff.

ESTATE OF FLOEBE McKENNA, Owner. 1-15-10.

sition commission. He is a member of the board of control of St. Clair flats, a member of the state board of canvassers, commissioner of immigration for the state, member of the state swamp land board, and a member of the state board of equalization. He did have a job as one of the commissioners of the Michigan Pioneer and Historical society, but resigned. The legislature says he shall do the work connected with these several commissions and departments, but makes no provision for compensation.

BATTLE CREEK—A commercial orchard, consisting of 16,000 trees to be planted on the Holder farm, just north of Battle Creek, by a farmer's stock company. It will cost \$35,000. The plan is to have fifty acres of apples, with peach trees as fillers. For a few years peaches will be raised between the young trees for "hog feed." The gubers have been successfully raised in this county on a small scale and farmers say they are better for swine than corn. The Holder farm adjoins the Sanitarium farm, which is to be set out to forest trees—30,000 of them. The work is sure to attract more than statewide interest.

BAY CITY—Habeas corpus proceedings were started in the circuit court for Ada Seder, of Vassar, by her next friend, Mary Fuchs, for the recovery of her two-year-old child. Mrs. Seder is under twenty years of age and the child was placed in the local children's home by the father, Peter Seder. Gertrude Markey, matron of the home, appeared with the child in court, but on account of officers being unable to get service on Seder, who is in Alger, Arenac county, adjudgment was taken on March 7. Mrs. Seder, who was Ada Hoffman before her marriage, has started divorce proceedings in Tuscola county against her husband, alleging extreme cruelty and desertion. They were married Aug. 1911, and lived together until last August.

PLAIN TRUTH THAT'S WORTH MONEY. Using Foley's Honey and Tar for a cough or cold may save you both sickness and money. F. F. Monahan, Menomonee, Wis., says "I am exposed to all kinds of weather and I find Foley's Honey and Tar Compound always fixes me up in good shape when I catch cold or have a bad cough. I recommend it gladly." Refuse substitutes. For sale by all druggists.

GO TO CHURCH SUNDAY, MARCH 15! BUILDING MATERIAL

From heavy timbers to finest factory work. Largest and most complete stocks of building material in Michigan.

Complete line of Yellow Pine, Fir, Cypress, White Pine, Oak and Birch finish, Doors, and Front Doors. Windows and Sash. Mouldings, Turned Work, Porch Columns. All kinds of Frames and Mill Work. Long Distance Telephones in All Our Offices.

CONSOLIDATED FUEL & LUMBER CO.

Yards and Offices: Ishpeming, Negaunee, Marquette and Gwinn. General Offices: Ishpeming, Michigan

Copper Country

GOOD WILL FARM IS OVER-CROWDED

Has Thirty-Seven Children and Homes for Some of These Must Be Found.

Good Will Farm might be criticised if it put out a handbill offering to dispose of the following "items": Two fine baby boys, four months. Two little boys, three years. Two little girls, eight years. But Good Will Farm will have to do something like that, because the institution is crowded and as it is the business of the institution to keep children only while homes are being sought for them the farm needs must make known the children it has on hand in the hope earnings may be excited in mother hearts and thus insure to the youngsters good homes and the love and care that is their birthright.

Mrs. Donaldson, superintendent of the farm, cannot cry her "warms" in the market place, but she can talk about the healthy and lovable children she has awaiting homes. She can describe the youngsters to reporters, who can tell something about the matter to the readers of newspapers, to the end that from among the latter there may come men and women who would like to have the sunlight of the laughter of little ones in their homes.

COMMENCEMENT SPEAKER.

O. T. Corson of Columbus, O., Is Selected for High Schools.

Superintendent John A. Doelle of the Houghton schools yesterday completed arrangements with Hon. O. T. Corson of Columbus, O., to appear here as the commencement orator for all copper country high schools next June. The schedule of addresses and commencement exercises dates is as follows: Chassell, Friday, June 12. Lake Linden, Monday, June 15. Dollar Bay, Tuesday, June 16. Hancock, Wednesday, June 17. Houghton, Thursday, June 18. Calumet, Friday, June 19.

COMMERICAL CLUB MATTERS

At a special session of the directors of the Copper Country Commercial Club Tuesday afternoon in the office rooms at Houghton, there was appointed a special committee to investigate an industry which is desirous of locating in the region. This committee will report to the club in the near future. One of the members of the club has been interested for some time in a proposed plan to build a canal on the Royal. This matter will be taken up with the authorities on such matters. Another item of importance is the plan to build a dam in Lake Superior. Secretary Price says that the plan is to procure several seals, place them in the water and watch developments.

BASKETBALL GAME TOMORROW.

The Calumet and Hancock High school basketball teams will meet tomorrow evening in a game at the North Star hall, Hancock. It will be the first time these teams have tried conclusions this season. Each of the two has defeated the Houghton High. The game will commence at 8 o'clock. Harry Fisher, member of the Hancock sophomore team, suffered the fracture of an arm Tuesday evening in a practice game. An opposing player pushed him against the wall.

LAST MEETING OF COUNCIL.

There will be a regular meeting of the Houghton council this afternoon at 4 o'clock in the village hall, the last of the present administration.

Try MUSTEROLE For That Lame Back!

Rub it on briskly—massage it in thoroughly, and note how quickly MUSTEROLE drives out the stiffness and soreness. It beats a mustard plaster seven ways, and best of all, it doesn't blister or burn. MUSTEROLE is a clean, white ointment made with oil of mustard. It comes in handy white glass jars. Get a jar from your druggist today. MUSTEROLE is recommended by doctors and nurses. Millions of jars are used annually for Bronchitis, Croup, Stiff Neck, Asthma, Neuralgia, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Colds, Whooping Cough, Croup, and all other ailments of the chest and throat. At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50. Accept no substitute. If your druggist cannot supply you, send 25c or 50c to the MUSTEROLE Company, Cleveland, Ohio, and we will mail you a jar, postage prepaid. W. H. Thurmond, Rockfish, Va., says: "Musterole is the greatest thing I ever got hold of for muscular rheumatism. It affording instant relief to sore stiff joints and muscles."

FESING COMPLIMENTED BY STATE ENGINEER

Maps of Houghton's Water and Sewer Systems Win Praise for Draughtsman.

Village Engineer Herman Fesing this week completed the compilation of the information relative to the Houghton water and sewer systems and has received an acknowledgment from State Sanitary Engineer Rich. Mr. Rich states: "These maps are the finest specimens of draughtsmanship I have ever seen." The records filed with the state sanitary engineer by Mr. Fesing are required by a recent act of the state legislature and contain a very large expenditure in the cases of some cities, so large, in fact, that the cities are now fighting the matter in the state supreme court. The Houghton records entailed much expense, but the council could not see any way out of it and authorized Mr. Fesing to go ahead. The result is an engineering accomplishment of which any engineer might be proud. The work includes detailed maps of the village, one showing the location of all sewer lines, the other a water map of the same scope. The water map measures 45 by 130 inches and the sewer map 45 by 96 inches. These maps are too large to permit of filing and they have been delivered to the state in sections 24 by 36 inches each. The water maps and charts take up ten of these sheets and the sewer records six. The records also include a detailed statement of the entire sewer and water equipment.

The records contain a mass of information from which the following data have been compiled: The water system was started in 1884 and has been improved continuously from 1891 to 1909 until the village now is completely served. There are 99,975 feet of water pipe of all sizes. These pipes deliver an average of 270 gallons of water a day at each connection, meaning each house tap, hydrant and other delivery point. The daily consumption of water, including waste and the fire and street consumption, is approximately 297,000 gallons. The water pipes range in size from three-quarters inch to ten inches. There are 1,100 connections of all sorts at which water is delivered. The sewer system totals 66,241 feet of four to six-inch pipe. The maps furnished to the state include detailed drawings of all of the sources of water, all of the reservoirs and other prominent features of the system. The maps are reproduced in a recent style of black and white chemical print, resembling steel engraving.

LIION AND THE LAMB.

The old adage is that "if March comes in like a lion it goes out like a lamb," and vice versa. No one believing this but everyone takes an inquiring glance at the weather on the first of March, hoping it will be blustery in order to give pleasurable anticipations for the first of April. This was true Sunday and the weather was much like the fiercest lion that ever was seen by a certain fabled creature who may even now be taming the fierce jaguars of the pampas hard by the Amazon. The records of the weather bureau have a faculty for dulling the edges of the teeth of wise saws like the one with which this story opens. These records were consulted yesterday and they show that the lamb and the lion had an even break on the weather on the first day of March in the preceding ten years. The following table of March first weather since the opening of the weather bureau station in Houghton has been compiled.

NEW OFFICER FOR THE YANTIC.

F. S. Barton has arrived in Hancock to assume the duties of chief gunner's mate on the training ship Yantic. He came from a receiving ship at Norfolk. Barton has been in the service many years. He is a native of S. Quinlan, of similar rank, who had been aboard the Yantic since last November. Quinlanburg has been ordered to a receiving ship at Norfolk.

THIRD RECENT DEATH IN FAMILY.

Harber Payne, thirty-five years of age, died at Hancock at an early hour yesterday morning, victim of tuberculosis. He was the third brother in the family to pass within a comparatively short time. The surviving relatives are two brothers, Ed of Houghton and Thomas of Virginia, Minn., and one sister, Mrs. A. B. Gillis, of Port Arthur.

RUB RHEUMATIC PAIN, SORENESS, STIFFNESS

Instant Relief With a Small Trial Bottle of Old "S. Jacobs Oil."

What's Rheumatism Pain only? Stop drugging! Not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" directly upon the "tender spot" and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism cure which can not burn the skin. Limber up! Quit complaining! Get a small trial bottle from your druggist, and in just a moment you'll be free from rheumatic pain, soreness, stiffness and swelling. Don't suffer! Relief and a cure awaits you. "St. Jacobs Oil" has cured millions of rheumatism sufferers in the last half century, and is just as good for neuralgia, neuritis, lumbago, backache and sprains.

SPRING BLOOD AND SYSTEM CLEANSER.

During the winter months impurities accumulate, your blood becomes impure and thick, your kidneys, liver and bowels fail to work, causing co-called "Spring Fever." You feel tired, weak and lazy. Electric Bitters—the spring tonic and system cleanser—is what you need; they stimulate the kidneys, liver and bowels to healthy action, expel blood impurities and restore your health, strength and ambition. Electric Bitters makes you feel like new. Start a four weeks' treatment—it will put you in line shape for your spring work. Guaranteed. All Druggists, 50c and \$1.00 at The Stafford Drug Co.

HELD FOR THE CIRCUIT COURT.

Anton Semaska and Roy Curry Bound Over by Justice Little.

Anton Semaska, who was arrested Saturday night on a charge of shooting Mike Rapsa near Sidlaw, was yesterday bound over to the Houghton county circuit court by Justice Little of Houghton. Semaska shot Mike Rapsa, who is now confined to a Marquette hospital, while they were walking into Weidman's camp from Trout Creek, Ontonagon county, the shooting taking place in Houghton county. He was remanded to jail in default of bail.

OLD MINER IS SATISFIED.

He Likes the One-Man Drill and Makes Excellent Wages.

"The Mining Journal's copper country department is in receipt of the following interesting letter from an old miner, relative to the wages paid in the copper country mines: "I have been a miner employed in the copper mines for fifteen years and have worked in a great many mines. I find the working conditions better since the one-man drill has been in operation than any other time of my life. The miners of the copper country have made more money on the one-man drill than was ever made on the two-men machine. On the one-man machine you have the same price on contract as you have on the two-man drill. I have been working at Superior going on three years. I have been on contract most of the time and my smallest pay was \$102. My largest pay was \$140. I also made as high as nine dollars a day on a two-shifts contract. There are miners today that are on strike that have made more money than I and I can prove it.

COLDEST FEBRUARY ON RECORD.

Monthly Meteorological Statement Issued by Observer Cowdrick. The month of February, 1914, was the coldest on record in Houghton during the fourteen years of the existence of the weather bureau station there, according to the monthly report issued yesterday by Weather Observer Howard B. Cowdrick. The lowest temperature was 27 below zero on the twelfth and this is the lowest temperature recorded for any February. The mean average daily zero, which is 19.4 degrees colder than the normal for February. The warmest February ever recorded was in 1911, when the mean was 22.

MARKETS

Table with columns for various commodities like Wheat, Corn, and other market prices.

SOUTH RANGE MEN JAILED.

Kauppi and Merila Alleged to Be Perjurers and Swindlers.

Prosecuting Attorney Lucas yesterday ordered the arrest of Matti Kauppi and John Merila of South Range, charging them with perjury and with obtaining money under false pretenses. The perjury charge is based on affidavits signed by the men and printed in yesterday's issue of the Miners' Bulletin. The charge of obtaining money under false pretenses is based on an allegation that the men procured \$300 from F. E. Denton, general manager of the Copper Range Consolidated company, for giving him certain information known by them to be false.

B. T. BARRY ON COMMITTEE.

Copper Country Fair Prepares For Fall Show-Statistics.

At the annual meeting of the directors of the Copper Country Fair Tuesday afternoon, when it was decided to hold the fair September 29 and October 1, 2, and 3, the following committee was named: B. T. Barry, C. H. Fridmold, Ben Sparks, John Edwards, John G. Stone and Secretary L. N. Haas. These six men will have charge of the fair. The appointment of Mr. Barry as chairman is a promise by the directors that the amusement features next fall will be unusually attractive. Mr. Barry has had much experience in these matters and his much leisure time to devote to them. His associates on the committee are young and enthusiastic and there will be more ginger in the fair next fall as a result. County Agricultural Geisner was at the fair meeting and he complimented the directors on the success of their corn contests, by which school children have been enabled to interest their parents in corn growing. He said that as a result there are now more silos in Houghton county than in any other county in the upper peninsula and twenty more are to be built this year. The directorate was well represented at the meeting, the men from the most distant points being August Wallen of Ewen and Haakon Lundin of Baraga.

COPPERDOM PROSPEROUS.

Banking Resources Increase Nearly a Million in Three Months.

An increase of almost a million dollars in copper country bank resources in the past three months is proof that so economically sound are conditions in that favored region that even a six-months' strike and all the adverse publicity resulting therefrom cannot effect its prosperity. The Michigan Investor, in an issue of February 28, states that in October, 1913, three months after the beginning of the strike, bank statements showed the total resources to be \$18,167,929.10. A statement issued February 4 gave the total resources as \$19,107,967.98, an actual gain of \$940,038.88. An even more significant feature of the February statement is that the total deposits were \$14,017,367.38. In February, 1913, the total deposits were \$15,051,235.23, a gain of \$1,033,667.95, and this in spite of the fact that the strike leaders claimed that from 7,000 to 15,000 men were out of employment and subsisting on strike benefits of 84 to 87 cents a day. The fact that there are thirteen banks in Houghton county among them being some of the strongest institutions in Michigan. These never has been a bank failure in the history of the copper country, and never a time when the honest evidence was not reported in its publications. The fact that in which they have weathered the squall precipitated by the Western Federation of Miners would indicate that this trust was well placed.

NATURALIZATION APPLICANTS.

County Clerk Kaiser yesterday posted the applications for citizenship of Mike Palagi of Calumet, Nicholas Ewen, Jr., of Houghton, and Edwin Rogers of Hancock.

Lower State Notes

ADRIAN—After nine years of diligent searching John Quinn of Selma, Kas., has found his lost son in Clayton, near here, at the home of G. Jacobs. Nine years ago the Quinn family was separated by the death of John Quinn. Five children were too much for the care of John Quinn, so he placed the two youngest in an orphanage in Omaha, with the stipulation that they were not to be removed. Through some misunderstanding Merin Quinn was given to a family, who later passed him on to other hands until no trace of the boy could be found by the father. At that time Mr. Jacobs, who was living in Nebraska, adopted the waif and brought him to Clayton. Three weeks ago a letter came from the orphanage, stating that the father of the boy was putting forth every effort to find his son and that he would like to visit the youth at the Jacobs home to see whether he was his missing boy. On his arrival in Clayton, Mr. Quinn found his boy, and Mr. Jacobs, although very much attached to his ward, consented to give the boy to his lawful parent.

CROSS, FEVERISH, SICK CHILDREN NEED "CALIFORNIA SYRUP OF FIGS"

Look Mother! See if the Tongue Is Coated Which Denotes Sluggish Liver and Bowels. Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleaning at once. When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has sour stomach, diarrhoea, remember a gentle liver and bowel cleansing should always be the first treatment given. Nothing equals California Syrup of Figs for children's ills. Give a tea spoonful and in just a few hours all the foul waste, sour bile and fermenting food, clogged in the bowels, passes out of the system and you have a well and playful child again. All children love this harmless fruit laxative and it never fails to effect a good "internal" cleansing. Directions for babies, children of all ages and grown-ups are plainly on each bottle. Mother, keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50 cent bottle of California Syrup of Figs. Then look and see that it is made by the "California Fig Syrup Company." We make no cheaper size. Don't be fooled.

MOTHER GRAY'S SWEET POWDERS FOR CHILDREN

For Colic, Wind, Flatulency, Constipation, Headache, Diarrhoea, and Stomach Troubles. It is a safe and reliable remedy for all these ailments. It is made by the California Fig Syrup Company.

SANITATION IN THE TROPICS.

Not only the railroads of this country, but also the great tropical plantation companies have found it profitable to apply to their enterprises the principles of modern sanitation, thereby keeping the death-rate among their employes at a point that compares favorably with the rates of communities more favorably situated. The methods employed are efficient medical and sanitary organization and the application of the methods demonstrated in the work on the Panama canal. In its detailed reports of the medical department for 1912 and 1913, the United Fruit company, one of the largest of these plantation enterprises, with plantations in Panama and other Central and South American countries and in Cuba, with an aggregate of over 65,000 employes, shows some astonishing results. For instance in the Panama division, for 1912 the average death-rate for the whites among the employes was 12 and of the blacks 13.6 per thousand. In 1913 the death-rate among the whites was 3.33 and of the blacks 7.7, giving a general average of 7.5 per thousand. This extremely low mark was not attained in the other divisions of the company's plantations, but with a splendid sanitary organization, by large expenditures for suitable houses, hospitals, drainage and mosquito elimination, and by periodic visits to all the plantations by physicians, the health has been kept at a high average. The sanitary forces always are first in the field when new plantations are opened up, and all the principles of modern

sanitation in the tropics are applied as rapidly as possible. The reports state that this work has not followed in the form of that on the Panama canal, but that the work of mosquito elimination and other measures were applied immediately after the demonstration of mosquito transmission of the tropical fevers. The problems involved are difficult and the work is enormous, but this large corporation has found that it pays abundantly. The reports show that the personnel of the medical organization has been drawn from all of the best medical schools in the United States, and constitutes an efficient sanitary force. With the completion of the Panama canal the journal of the American Medical Association thinks that large plantations like those of the United Fruit company will continue to furnish opportunities for the young men from the colleges to gain experience and do research work in the tropical diseases.

GO TO CHURCH - MARCH 15.

Busy Queen hive will meet at 8 o'clock this evening in Keough's Hall.

Miss Martha Fisher has gone to Superior for a two weeks visit.

Mrs. George McCombs and daughter, Elizabeth, left Wednesday morning for a two weeks' visit with her daughter, Mrs. W. C. Hart, in Wakefield.

Superior hive, No. 217, L. O. T. M. M. will meet this afternoon at Fraternity hall for the election of delegates to the county convention and other business.

The Marquette City basketball team and the quintet representing the Gwin club will play Friday evening at Gwin. There will be dancing after the game.

The Ladies' Aid society of the M. E. church will hold an Easter sale of aprons, caps, bags, home-made baking and canines. The details will be announced later.

Mrs. M. H. Egan has gone to Escanaba to attend the funeral of Frank L. Winegar, a veteran employe of the Northwestern. He was an uncle of Senator T. C. Winegar.

Ira Carley, of Ingalls, and E. C. Anthony, of Negaunee, are in Marquette to attend a meeting of the board of control of the prison. W. H. Johnston, the third member, is now spending a few weeks in Florida. Mr. Anthony will leave for Detroit this week and may go South a little later in the month.

Frank Trombley, formerly leader of the Ideal orchestra here, was a Marquette visitor yesterday. Mr. Trombley went from Marquette to Escanaba to take the leadership of the military band orchestra. The organization he says, is making excellent progress and bids fair to become one of the best known orchestras in the upper peninsula.

Fourteen members of the Bible class of the Presbyterian Sunday school, accompanied by Rev. Platte T. Amstutz, teacher of the class, went to Middle Island point yesterday afternoon and returned last evening. They spent the night at Cosy cottage. A hot supper was served, which was followed by singing and other amusements. The members of the class liked both ways.

Harmony Singing Act—Fougere and Wilson, in a harmony singing act, will be at the Marquette Opera House this evening and the remainder of the week. Tomorrow the management is offering a special feature in pictures of the Hagenbeck and Greater Wallace circuits. There will be matinees at 2:30 and 4 o'clock.

Union Prayer Meeting—Union prayer meeting services will be held this evening in the Presbyterian church. They will be the last of this series of meetings, as next week will be devoted to cottage prayer meetings. All persons who are participating in the "every member canvass" of the Presbyterian congregation is urged to be present for conference and instruction after the prayer meeting.

Store Destroyed by Fire—The store owned at Mangan by S. T. McLeavy was a complete loss in a fire that broke out Tuesday night, shortly after seven o'clock. There was no fire protection and as the fire was well started when discovered it was not possible to do anything to prevent a total loss. The stock was valued at about \$1,000. Mr. McLeavy was in the store building when the fire was discovered in a hallway, but efforts to stay its progress were futile.

Firemen Elect Officers—The Marquette fire department last night elected officers as follows: Assistant chief, James J. Donovan; second assistant, Martin Delaney; captain, M. V. Mullaly; first asst. captain, P. L. Hopkins; lieutenant, Malcolm Bell; secretary and treasurer, John Siegel; company No. 2 first assistant captain, Frank LaBonte; second assistant captain, F. V. McGuire; lieutenant, Joseph Love. William J. Johnston, superintendent of the pumping plant, is chief by virtue of his election by the commission, and the other officers were elected with his approval.

Jury Out Last Night—The jury in the case of Mrs. Wilfred Robbins, administratrix, vs. Trebilcock Bros. of Ishpeming, suit for damages because of the death of the husband in a cave-in at a pit at the Silver lake dam, constructed by the defendants over a year ago, was still out at a late hour last night. The case was given to the jury at the close of the morning session of the court. It was followed by the case of M. L. Olmstead vs. Herman Bittner. Olmstead entered into a contract to dig a well for Bittner, but did not complete the contract, it is alleged. Now he is suing for wages for the time that he worked. This case, it is expected, will occupy the attention of the court through most of today's session.

Announcement is made of the coming marriage of Thomas Tippet, formerly of Marquette, and Miss Flossie Dowdick, of Marquette, says the Hancock Journal. The ceremony will take place March 12. Thomas Tippet is the son of Mr. and Mrs. Benjamin Tippet of the Quincy location. Miss Dowdick is the daughter of Mr. and Mrs. William Dowdick. She is well known to the residents of Quincy, having spent five or six weeks there with friends last summer. Mr. Tippet has been in Marquette for the last five or six months, going there after the outbreak of the strike. The wedding will take place the evening of March 12 and the young couple will leave the following day for Hancock, where they will visit. They expect to live in Marquette.

INSURE WITH PETER WHITE & CO
KICKAPOO WORM KILLER EXPELS WORMS.

The cause of your child's ill—the foul, fetid, offensive breath—the starting up with terror and grinding of teeth while asleep—the sallow complexion—the dark circles under the eyes—are all indications of worms. Kickapoo Worm Killer is what your child needs; it expels the worms, the cause of the child's unhealthy condition. For the removal of seat, stomach and pin worms, Kickapoo Worm Killer gives sure relief. Its laxative effect adds tone to the general system. Supplied as a candy confection—children like it. Buy a box today. Price 25c. All Druggists or by mail, Kickapoo Indian Med. Co., Philadelphia or St. Louis.

UNCLE SAM IS NOT PREPARED FOR WAR

Could Throw 58,000 Thousand Men to the Mexican Frontier, Then Depend on Volunteers.

Washington, March 4.—Serious unpreparedness of the United States for effective military operations will be disclosed if it becomes necessary to intervene in Mexico, according to the highest officers of the army.

Even if the American army should find it easy to vanquish the rudely organized Mexican forces in actual battle the lack of proper training, equipment and organization by the United States regulars and volunteers would result in a needless loss of many lives. In case of intervention President Wilson, as commander-in-chief of the army, would be able to send to the front as the first line of fighters about 58,000 officers and men of the regular army.

For the second line he would be compelled to call out the national guard of the various states, which could furnish about 65,000 men.

The regulars would be found well drilled and generally well equipped for service, except in field artillery and ammunition for field guns, the shortage of which would prove a serious handicap.

It would be necessary to spend several months in getting most of the citizen soldiers into proper condition for effective service.

The regular army is limited by law to 100,000 men. At present the army actually numbers 85,500 men, of whom 58,000 are distributed in the states and the remainder in the Philippines and other possessions.

The Standing Army.

The regular army at present is distributed geographically as follows:

	Enlisted.	Officers.	Men.	Total.
In United States.....	3,800	34,028	28,206	65,834
In Alaska.....	55	4,102	1,153	4,210
In the Philippines (reg.).....	116	10,297	10,743	10,974
Philippine scouts.....	189	5,463	5,383	5,672
In China.....	41	1,106	1,207	1,288
In Porto Rico.....	23	282	618	923
In Hawaii.....	271	6,418	6,689	7,370
In Isthmian canal zone.....	51	835	880	986
Troops en route and at stations at other foreign points.....	90	342	432	864
Totals.....	4,885	80,274	85,569	91,228

Although it would be possible to make 58,000 men into Mexico at once, the available fighting force would dwindle tremendously with the beginning of operations. Army officers say they would not be surprised to find the available force reduced to 40,000 by sickness and other contingencies before actual operations were commenced.

FROM FOREIGN LANDS

Berlin, March 4.—Persons who tried to bribe money enriches German treasury.

Gifts or reward public officials in Germany with gifts of money unwittingly increased the funds of the imperial treasury by more than \$7,000 during the past year. This was the sum turned over to the treasury by officials who resisted temptation in the form of anonymous letters containing money. Most of the money came to army officials, although nearly every department of the government was represented. Persons sending such gifts render themselves liable to prosecution for insult and attempted bribery of public officials.

New Bomb Is for Use of Aviators.

Berlin, March 2.—Two Austrian inventors announce the perfection of a "light bomb" which will make safe the landing by aeroplane at night. The device, which is attached to an aeroplane and may be released at will, is fitted with a parachute and burns four minutes, illuminating all the country below. In a recent test the bomb, released at a height of five hundred yards, lighted up the country for a radius of about a mile and a half so brightly that the aviator had no difficulty in selecting his best landing place. The device can also be used in warfare for sent work at night, the aeroplane above the light being in-

"GO-TO-CHURCH ON MARCH 15th."

INVESTMENT

A municipal bond is a good thing to own—safe, pays a good rate of interest, easily converted into cash or used as collateral. Small economies and savings will soon enable you to make such an investment, sooner than you think.

If you will determine to stop the careless spending of money, and will adopt our

System for Saving

it will be easy to make the small regular deposits on our Red Card, and the results will prove very surprising and satisfactory to you.

Marquette National Bank

Such a device has long been needed, for up-to-date aviation is calling for flights at night in order to break long distance flight records and to take advantage of wind-still hours. Most of the competitors in the last grand prize race in Germany accomplished parts of their flights by night, but this was so hazardous that a number of aviators were killed in trying to land in the dark. The German aviator Sebelge has accomplished his 2,000th ascent, showing that acrobating for a careful flyer is not highly dangerous. He covered in his 2,000 flights more than 18,000 miles and spent 380 hours in the air.

Gambling Fostered in Mexico City

Mexico City, March 2.—Gambling houses are now wide open in Mexico City. General Huerta's assertions that there is plenty of money in the capital appears to be well borne out in the high stakes. At one house a Yucatan recently lost 5,000 pesos in ten minutes, yawned and bought another stack of hundred peso chips. A certain government employe's losses on the same wheel are reported to have been 60,000 pesos in three nights. In the clearing the gambling house took both the man's house and his furniture. The gambling institutions are under the protection of the government, which has granted to one concern the exclusive right to the gambling privileges in the federal district for the consideration of 50,000 pesos a month. This proprietor is privileged to get as much as he can out of sub-contracts and under such arrangements scores of houses have been fitted up in a luxurious manner. Government detectives inspect most of the houses, however, looking for enemies of the existing administration and agents of certain bond companies and also to check off the players in search of those whose

financial integrity their houses have guaranteed. A number of vacant positions in certain houses of the city already have been created and filled with new men because of the reports which those agents have made.

Few Fatalities Among Berlin Firemen.

Berlin, March 2.—The Berlin fire department has a remarkable record for few fatalities among its fire fighters. In sixty years only nineteen men have lost their lives in the service, the last case being that of Deputy Chief Grabow, who just died of injuries received in fighting a factory fire. For twenty-five years, from 1853 to 1878, there was not a single fatality. The less dangerous conditions here, as compared with those in New York, are due largely to the absence of high buildings and firetraps. Engines and trucks also make less haste on the way to fires, only three fatalities having occurred in this connection in sixty years.

WHAT OF GRATITUDE.

He who has done you a kindness will be more ready to do you another than him whom you yourself have obliged.—Holmes.

PAYROLLS PRESENTED AT COPPER INQUIRY

Mining Companies Show Wages Much Better Than Stated by Federation Witnesses.

(Continued from Page One.)

do their duty? A—It might be. Q—Do the trammers frequently push two and a half tons 2,900 feet? A—Not frequently. Referring to the employment of mules, Mr. MacNaughton said that that was only an experiment and that wherever practicable mules are being used. Mr. Hilton referred to a delegation calling on the witness and inquired that August Beck had summoned the men to appear before the general manager. The latter replied that the men were not summoned for the express purpose of ascertaining whether they were members of the federation, but were asked if they were affiliated with that organization. Taking up the question of convictions, Attorney Hilton asked: Q—Do you know of any of the federation men being convicted? A—I don't think of any; there must have been, so many are guilty. Q—Are you familiar with the conviction of any operators for inciting acts of violence? A—I would have to look up the record. Is Asked About Socialism. Q—Did you ever join the Socialist party? Attorney Rees objected, but the witness replied, "I did not."

ton asked: "Did you say to Mr. Moffatt that you would not countenance the existence of any union which would be turned into the Western Federation?" A—Yes. Q—Then you refuse to treat with the members of the federation as long as they retain their union cards? A—No. I said no such thing. I am desirous of meeting the men on some common ground and they still would be members of the federation. But I will not consent to the reinstatement of any man in his membership in the Western Federation of Miners.

Discussion Over Salary. At this point Attorney Hilton wanted to know the salary of the witness, asserting that he had heard the salary of Mr. MacNaughton was \$100,000 and that of Quincy Shaw was a like amount and that he had his opinion of the man who would take a \$100,000 salary or a \$30,000 salary when he had employees earning twenty cents a day. Mr. MacNaughton answered as stated previously, following which the chair took up the subject with the remark that the testimony was not alone for the committee but for the entire court. "What was your objection to telling this committee?" asked Congressman Casey. "Individually," asked the witness. "For the record," replied Mr. Casey. Attorney Rees said he would advise his client not to answer. The chair did not undertake to compel a reply, but thought it was a matter of general interest. Judge Taylor suggested that the company might object if the witness did not. Congressman Casey was of the opinion that the committee had a right to examine the books. Finally, the matter was passed and Attorney Hilton resumed the witness. Replying to Attorney Petermann, Mr. MacNaughton presented a statement of the number of men employed at each mine and the nature of their employment. The total for the Calumet & Hecla was given as 7,581.

sired to show that the courts were open and to show the falsity of a statement by Vice President Mahoney of the Western Federation who on Dec. 17 told a congressional committee in Washington that every person who came into court regardless of what was the charge against him, was convicted. The prosecutor's report did not include sentences, and this omission was commented upon. It was brought out that nearly all of the convicted men were strikers and one had been sentenced to six months in the county jail. The original charge against that defendant was assault with intent to murder and he was found guilty of intimidation. Congressman Switzer asked the specific charge. "Shutting up a house," replied Attorney LeGendre, of counsel for the federation. "How and why did he shoot up the house?" asked the congressman. Attorney LeGendre made no reply. It also was brought out that the sentences, in most cases, were thirty days, which Attorney LeGendre said was more severe, for simple assault, than any justice of the peace in the county had ever meted out.

The injunction was next given attention, Attorney Rees reading the original writ, affidavits and other papers into the record. Few Federation Men in C. & H. In Mr. MacNaughton's direct examination yesterday the witness produced figures to show that out of 4,327 underground employees of the Calumet & Hecla before the strike only 239 were members of the Western Federation. Out of this number ninety-eight have since turned in their cards and returned to work. "If conditions were the same as before the strike why would federation membership make a difference?" asked Mr. Casey. "Unfortunately," said Mr. MacNaughton, "we cannot restore conditions. It is something of an anomaly from the religious point of view that the anniversary of Christ's death may fall on any one of thirty-five days, while the anniversary of His birth is always the same. It is no less of an anomaly from the astronomical standpoint, for there seems no reason why, having adopted the solar year as the basis of our calendar, should cling to the lunar year for the establishment of one date. It should not be difficult to fix the rational date for Easter. If Christ was crucified on the fourteenth day of the March moon astronomers ought to be able to calculate on what date this fell. They say that in all probability it fell on April 7 of the year 30 of the Christian era. Why, then, not fix Easter once and for all as the first Sunday after April 7? It is to the contrary of New that we owe the perpetuation of our anachronistic method of reckoning Easter. This council decreed that it should be the first Sunday after the first full moon that occurs after the vernal equinox, March 21. That time to reform the Julian calendar, which had been in use ever since Julius Caesar, in 46 B. C., and prescribed that a year should consist of 365 days, every fourth year having 366. This Julian calendar was a reform of a still more ancient system based upon the motions of the moon, which system varied widely in different lands. In Rome it had originated with Romulus, who established a year of ten months, having alternately thirty-one and thirty-five days, making 304 days in all. Numa Pompilius added the months of February and January, and in the year 452 B. C. the Decemvirs placed them where they now stand. When Pope Gregory undertook to reform the Julian calendar, that had by

and giving up the card is a part of that. No manager can consistently ask non-federation men to work with men who have treated them so. Some men we will not take back under any consideration, whether they turn in their cards or not, men who have been convicted of violence or crimes of which we know have been guilty of violence, whether convicted or not." Mr. Howell wanted to know if the federation might not contain good men who had been swayed by hotheads. "The men who have been swayed by hotheads formerly and will be faithful again," was the answer.

Inducements to Return to Work. There had been testimony on the federation side of the case to the effect that Mr. MacNaughton had tried to bribe men to return to work. He was asked to make a statement regarding this charge. He related two instances. Pat Mulligan, an old employee, who is an avowed socialist and was a member of the federation before the strike, asked to be given work, offering to turn in his card. The general manager told him that he could give him work but that he would ask him, before going underground, to put in a few days trying to prevail upon the Calumet & Hecla strikers to return, to reason with them. Mulligan reported after a few days that he could do nothing with the strikers. He returned to work and is working. The witness explained that he had made this offer to Mulligan because Governor Ferris had asked the companies to make an effort to get the men back to work by solicitation. The case of Jacob Lustig was referred to. Mr. MacNaughton said he had sent for this man, an old employee, who had been in the mine before the strike, and had tried to get him to return. He had not been a member of the federation before the strike, had acted as a deputy after it started and only joined the federation because his wife did not want him to act as a deputy and his savings were gone and he was afraid to return to work. He joined to get the strike benefits. When asked by the manager to return he refused, because he was afraid.

"This man Lustig said you offered him \$100 to return to work," said Congressman Casey. "There was absolutely no such talk," answered the witness.

HANCOCK SOCIALISTS CAST A LIGHT VOTE

Ticket of the Party Is Supported by Only Eighty-Seven Electors in Primary Balloting.

Hancock, Mich., March 4.—In Hancock's city primary election today, William J. Hoffenbacher, city clerk, was renominated on the ticket of the United City party. This was the principal contest. Mr. Hoffenbacher published a majority of 436 over his opponent for the nomination, Eneas MacAuley. In the first ward, John Snyder defeated Sydney Donahue for constable by twenty votes. In the second ward, Alderman Francis defeated William Ward, 136 to 60, for the aldermanic nomination. In this ward, Supervisor Mason defeated Leo Ebertosky for the nomination to that office, 143 to 71, and Harry O'Shinisky won over John Penrose, 109 to 92, for constable. In the third ward, Supervisor Funky was nominated over Dave Casper in the fourth ward, ward Supervisor Hosking defeated Edward Cashon, 208 to 100. These were the only contests, all on the United City ticket. On the Socialist ticket, the only other presented at the primary, there was no contest. Mr. Hoffenbacher published only eighty-seven ballots being cast under that party name. The United City party total was 1,189. Some of the defeated candidates on the United City party ticket, it was generally understood, were standing in sympathy with the Western Federation of Miners. WHY DATE OF EASTER VARIES. It is a Movable Feast and Falls on the First Sunday After the Full Moon After the Vernal Equinox. Lent this year began on Feb. 25, three weeks later than last year, being, of course, based on the date of Easter, which is April 12 this year, as against March 23 in 1913. Very few people can tell why Lent varies so from year to year and why Easter may come as early as March 22 or as late as April 25. It is something of an anomaly from the religious point of view that the anniversary of Christ's death may fall on any one of thirty-five days, while the anniversary of His birth is always the same. It is no less of an anomaly from the astronomical standpoint, for there seems no reason why, having adopted the solar year as the basis of our calendar, should cling to the lunar year for the establishment of one date. It should not be difficult to fix the rational date for Easter. If Christ was crucified on the fourteenth day of the March moon astronomers ought to be able to calculate on what date this fell. They say that in all probability it fell on April 7 of the year 30 of the Christian era. Why, then, not fix Easter once and for all as the first Sunday after April 7? It is to the contrary of New that we owe the perpetuation of our anachronistic method of reckoning Easter. This council decreed that it should be the first Sunday after the first full moon that occurs after the vernal equinox, March 21. That time to reform the Julian calendar, which had been in use ever since Julius Caesar, in 46 B. C., and prescribed that a year should consist of 365 days, every fourth year having 366. This Julian calendar was a reform of a still more ancient system based upon the motions of the moon, which system varied widely in different lands. In Rome it had originated with Romulus, who established a year of ten months, having alternately thirty-one and thirty-five days, making 304 days in all. Numa Pompilius added the months of February and January, and in the year 452 B. C. the Decemvirs placed them where they now stand. When Pope Gregory undertook to reform the Julian calendar, that had by

WOMAN COULD HARDLY STAND Because of Terrible Backache. Relieved by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I suffered from displacement and inflammation, and had such pains in my sides, and terrible backache so that I could hardly stand. I took six bottles of Lydia E. Pinkham's Vegetable Compound, and now I can do any amount of work, sleep good, eat good, and don't have a bit of trouble. I recommend Lydia E. Pinkham's Vegetable Compound to every suffering woman."—Mrs. HARRY FISHER, 1642 Juniata Street, Philadelphia, Pa. Another Woman's Case. Providence, R. I.—"I cannot speak too highly of your Vegetable Compound as it has done wonders for me and I would not be without it. I had a displacement, bearing down, and backache, until I could hardly stand, and was thoroughly run down when I took Lydia E. Pinkham's Vegetable Compound. It helped me and I am in the best of health at present. I work in a factory all day long besides doing my housework so you can see what it has done for me. I give you permission to publish my name and I speak of your Vegetable Compound to many of my friends."—Mrs. ABRIL LAWSON, 126 Lippitt St., Providence, R. I. Danger Signals to Women are what one physician called backache, headache, nervousness, and the blues. In many cases they are symptoms of some female derangement or an inflammatory, alternative condition, which may be overcome by taking Lydia E. Pinkham's Vegetable Compound. Thousands of American women willingly testify to its virtues.

Senate Document Introduced.

Attorney Rees read into the record that part of the senate document including the Moffatt proposal and the Alliance pledge. He said that some fifteen hundred persons had signed the pledge. The chairman said that he noticed that Mr. Rees was not wearing his button. His reply was to the effect that he had not been wearing it when appearing, officially. Next, Mr. Rees read the "appearance" in the case of Moyer vs. J. H. Rice and others, demanding a bill of particulars. He read a report of the meeting of the Citizens' Alliance in the Amphidrome, Houghton, and the resolution which was adopted. Mr. Rees supplemented his remarks with the statement that the Copper Country Commercial club had made an exhaustive inquiry. Attorney LeGendre interrupted with the request that he wanted some of the speeches to go into the record "to show the character of the men making them." Attorney Rees replied: "If any of the speeches go in, I certainly want mine to go in." With the reading of notices that were posted by the Commercial club in December, relative to the eight-hour day, the grievance provision and other conditions made by the companies, an amusing colloquy followed. Congressman Howell asked if the Commercial club was neutral. Attorney Rees replied in the negative. Attorney LeGendre—"There is not any one here who is neutral." Attorney Rees—"I'll agree with you, Chairman Taylor—I haven't discovered any neutral ground since I've been here. Prosecutor's Report Presented. This closed the subject, and Attorney Rees read the report of Special Prosecutor George Nichols. Congressman Taylor asked the purpose of the report, and Attorney Rees replied that he de-

CONTAIN THYSELF.

If thou conqurest, do not exult too openly; nor, if thou art conquered, bewail thy fate.—Horace. OFFICIAL PROCEEDINGS OF THE CITY COMMISSION. A regular meeting of the Commission of the City of Marquette was held in the commission chamber of the City Hall on Monday, March 2, 1914, at 7:30 o'clock p. m. Mayor Fred H. Begole presiding. Present—Commissioners Pearce, Sink and Werner. The following was presented: To the City Commission: For the purpose of co-operation and effective administration, the duties of chief of the fire department and of superintendent of the water system have been conferred upon one and the same person. It is believed that the public service will be further promoted by assigning the chief of the fire department to the department of water and transferring to the department of water the immediate control of the fire department, including the hose houses and premises, trams, vehicles, apparatus, fire alarm system and all other appurtenances of the fire department, and the employment and control of the fire department, such assignment, transfer and control to be deemed the pleasure of the head of the department of public health and safety; the department of water, in the meantime, to be deemed the agency of the department of public health and safety in the direction, control and management of the entire fire department of the city. The undersigned departments consent to and recommend the assignment and transfer be made, and that the respective departments, officers and employees be ordered and directed to conform to the same in all respects. DEPARTMENT OF PUBLIC HEALTH AND SAFETY. Fred H. Begole, Mayor. Jacob P. Werner, Commissioner. Moved by Commissioner Pearce, supported by Commissioner Sink and adopted. That the recommendation of the departments of public health and safety and water, concerning the assignment of the chief of the fire department to the department of water and the same be hereby adopted, and such assignment and transfer be hereby made in accordance with the terms of such recommendation. Years—Commissioners Pearce, Sink and Werner. The official bond of Timothy T. Hurley, market keeper, sureties, Herman E. Blumenthal and John Siegel, \$1,000, was presented. Moved by Commissioner Pearce, supported by Commissioner Sink and adopted, that said bond of Timothy T. Hurley be approved. Years—Commissioners Pearce, Sink and Werner. The liquor application of William Rivers, Sr., was presented. Moved by Commissioner Sink, supported by Commissioner Werner, and adopted, that said liquor application be referred to the department of public health and safety and the city attorney. Years—Commissioners Pearce, Sink and Werner. Moved by Commissioner Sink, supported by Commissioner Werner, and adopted, that James A. Thomason be and he is hereby appointed street superintendent at a salary of \$100 per month, with an allowance of \$25 per month additional for living, for six months of each year. Years—Commissioners Pearce, Sink and Werner. The city clerk submitted report of fees collected by him and paid to city treasurer for week ending February 28th, 1914, amount \$125. Said report was ordered placed on file. Moved by Commissioner Werner, supported by Commissioner Sink, and adopted, that the mayor appoint two citizens of Marquette to serve with himself as a committee to confer with the board of supervisors of Marquette county, with a view of securing the co-operation of that body in regard to a full time health officer, who will serve both the interests of the city and county in this vicinity. Years—Commissioners Pearce, Sink and Werner. The mayor thereupon appointed Mr. James Russell and Dr. Harry J. Hornbogi as members of such committee. The city clerk submitted the following bills: Pay roll of city officers, February, 1914, \$ 530 12 Robert P. Byrne, Treasurer, for interest on stamps and postage, 90 00 D. S. Donovan, paid for postage stamps and interest, 8 75 Pay roll of mayor and commissioners, February, 1914, 75 00 Lake Shore Printing Works, for prints for health department, 10 00 Pay roll for convalescent hospital, 265 85 John Dunlavy, services at dump ground, 6 00 C. E. Nelson, labor and supplies, 24 00 Pennell's Pharmacy, book for city market, 1 25 Marquette Gas Light Co., for gas, 1 40 Charles Gouin, civil engineer, 15 00 Pay roll of police, February, 1914, 350 00 Department of Light and Power, batteries and lamps for police, 2 10 Pay roll of Peter White Public Library, February, 1914, 320 00 Pay roll of Department of Public Works, February, 1914, 691 91 E. H. McIntosh, inspector Eastern Truck Survey, 115 00 E. J. Murray, for services as deer shepherd, 25 25 Hosh & Reeler Co., feed for deer, 10 75 W. W. Whittaker, repairs on snow plow, 2 20 J. P. Anderson, paid for postage stamps and supplies, 1 00 Wm. J. Johnston, Sec'y, pay roll of water and fire departments, 1,117 41 Wm. A. Kern, balance due on salary supplies, 182 30 National Carbon Co., battery supplies, 70 28 J. E. Byrne, Treasurer, paid for interest on stamps, 12 28 Department of Light and Power, installing switchboard at water works, 382 18 R. P. Byrne, Treasurer, pay roll of Department of Light and Power, Marquette Gas Light Co., coke, 6 00 T. J. Farney, labor and material, 15 75 Western Express Co., express, 1 00 A. H. Westlake, supplies, 4 20 Marquette City & Presque Isle Ry Co., street car tickets, 6 00 James Plekandis & Co., coal, 63 70 Joseph Fay, board of horses, 40 40 R. P. Byrne, Treasurer, paid for interest on stamps, 12 28 H. H. Westlake, supplies for wash machine Co., supplies for Holophone Works, glassware, 5 50 H. H. Westlake, supplies for wash machine Co., supplies, 34 50 Hibbard, Spencer, Bartlett & Co., supplies, 43 21 Mackintosh-Sink, and adopted, 102 67 Electric Supply Co., supplies, 203 21 H. H. Westlake, supplies for wash machine Co., supplies, 318 59 Charles Herelle, expenses, 11 82 Wm. A. Kern, balance due on salary for January and February, 1914, 10 00 Moved by Commissioner Pearce, supported by Commissioner Sink, and adopted, that bills as read by city clerk be allowed and ordered paid. Years—Commissioners Pearce, Sink and Werner. Mayor Begole called Commissioner Werner to the chair, who presided for the remainder of the meeting. Moved by Mayor Begole, supported by Commissioner Sink, and adopted, that Anton O. Kruger be and he is hereby appointed harbor master of the city of Marquette at a salary of \$10 per month. The commission then, on motion, adjourned. DANIEL S. DONOVAN, City Clerk.

TWO MINERS CRUSHED BY FALL OF GROUND

Bodies of Jonah and John Frost Recovered in Salisbury Mine Late Last Evening.

Crushed beneath tons of ore by a fall of ground at the Salisbury mine at 4 o'clock yesterday afternoon, Jonah Frost and John Frost, father and son, both of Ishpeming, were killed. The bodies were first seen by those who have been tunneling through the mass of debris shortly before 11 o'clock last evening, and were taken to surface a short time later. Both Frost and his son were experienced miners and were among the most efficient men employed at the Salisbury property. A rescuing party of three or four men at a time, all that could be worked to advantage, labored to the limit of their power during the seven hours intervening between the accident and the recovery of the bodies.

Both Frost and son had been working for some time in the sixteenth level. They were employed on contract No. 10. Shortly before 4 o'clock yesterday afternoon they were making preparations to blast, when the back of the drift collapsed. In all from forty to fifty feet of dirt fell, crushing the men beneath hundreds of tons of ore. Until the bodies were recovered, it was not known whether the men were dead, and many held out hope, thinking that possibly the miners might have been working beyond the place where the fall of ground occurred. Various means of signaling were used without avail. Pounding on the timbers was resorted to and a pipe was also driven through the fall of ground. Directly after the accident occurred rescuing crews were sent into the workings, and tunneling through the fallen dirt was commenced. Not once did the work halt, new men replacing those who were fatigued.

The two ill-fated men were about to blast away the timbers and had the charge set, it is believed. No other miners were working near them at the time. The ore being mined was of the soft variety. Captain John Dunstan, who is in charge of the Salisbury property, did everything in his power to effect an early rescue and was at the scene the greater part of the time after the accident.

The elder Mr. Frost had been a resident of Ishpeming for about ten years, and had been a miner since he was nine years old. His son has done mining work for nearly twenty years, having commenced when only eleven years old. Both came to the United States from the Isle of Man and had made Ishpeming their home ever since. The wife of the elder Mr. Frost died in England six months ago. He is survived by a daughter, Adelaide, of Ishpeming, and one son, who works as a miner at the Mary Charlotte property at Negaunee. His son had worked at the Salisbury mine

for fifteen years, previous to which he worked in lead and zinc properties in the Isle of Man. He was thirty years of age and had a wife and infant daughter, who live at 747 South Pine street.

MANY BOYS TO ATTEND.

Ishpeming Delegation to U. P. Conference at Escanaba Will Be a Large One.

Ishpeming now promises to be as largely represented at the second annual Upper Peninsula Boys' conference in Escanaba as any other city. Practically every boys' organization here will send delegates. The Ishpeming High school club will send R. Hendrickson and T. Magnuson; the Swedish Mission Sunday school, Hugo Swanson and George Quaal; the Ishpeming Y. M. C. A., H. Bryden and R. Potter, and the Trima club of the Presbyterian church, John Shand and Burdick Olson. The delegates from the other organizations in the city were announced some days ago.

A meeting of all the committeemen and adult advisors for the conference was held last evening. During the week past the Escanaba boys have been hard at work on the plans for the event. Practically every city and town in the upper peninsula will be represented. Escanaba homes will be thrown open to the boys and everything possible for their entertainment and pleasure will be done.

FAREWELL PARTY.

The eighth of a series of parties field under the auspices of Company No. 42, Uniform Rank, Knights of Pythias, will be given in Braastad's Hall Friday evening, March 6. As this is the last date that this hall will be open to the public for social functions it will be a farewell party. All future dates have been cancelled as the hall is to be used for business purposes only.

Door prizes valued at \$5.00 will be given to the lady and gentlemen holding the lucky number. The lady's prize is an eight piece set of Rogers Brothers 1881 silverware, consisting of a sugar shell, butter knife and six tea spoons. The gentleman's prize will be a Comet Safety Razor outfit, consisting of a safety razor and twelve blades, shaving brush, metal can containing a ten cent cake of William's shaving soap and a strop. These prizes are now on display at Joseph Gill's candy store.

"FATHER AND SON" BANQUET.

The "Father and Son" banquet at the Ishpeming Y. M. C. A. last evening was largely attended. The supper was served at 6:30 o'clock. On its conclusion the guests took advantage of the facilities of the building. The swimming pool, gymnasium and pool and billiard tables were used extensively and various games were played. Toasts were responded to by Mayor G. G. Barnett, William P. Belden, W. C. Plummer, John Shand and Robert Potter.

ROCK BEER THIS WEEK.

The famous rock beer of the Upper Peninsula Brewing company will be on draught Thursday, Friday and Saturday, March 5, 6 and 7. 3-4-3t.

MEETING UNIMPORTANT.

Little Business Transacted at Meeting of Council Last Evening.

At the March meeting of the common council last evening, little business other than the allowing of bills and the presentation of the reports of the city officers was transacted. The voting and registration places for the spring election were designated.

Voting Places Designated.

The following resolution, designating the registration and voting places in the several wards of the city, was adopted: Resolved, That the following places be and they are hereby designated by this council as the registration and voting places in the several wards in said city of Ishpeming for the general election to be held in said city on Monday, the sixth day of April, 1914, and for the registration of such election to be held on Saturday, the twenty-eighth day of March, 1914:

- First ward—New fire hall on Lake street.
- Second—Lake Superior old office.
- Third—Basement of Grammar school.
- Fourth—No. 2 hose house.
- Fifth—No. 4 hose house.
- Sixth—Erick Anderson's dwelling.
- Seventh—James Callow's store.
- Eighth—High school building.
- Ninth—Basement of Ridge street school.
- Tenth—No. 3 hose house.

Judge West's Report.

The February report of Municipal Judge West showed four prosecutions during the month for violations of city ordinances, one assault and battery case and three for drunkenness. The receipts for the month were as follows:

Fines, criminal case	\$16 00
Costs	15 50
Civil cases	19 00
Received from county for justice fees	27 95
Received from W. H. Trevarrow, officers' fees	11 20
Total	\$89 65
Paid county treasurer in fines	16 00
Balance	\$73 65

ISHPEMING VS. NEGAUNEE.

Friday evening in the gymnasium of the Negaunee High school will be played one of the last games of the season between the Negaunee and Ishpeming High school basketball teams. Because of the keen rivalry between the teams a large crowd is expected to be in attendance. Although the Ishpeming team has outplayed Negaunee in the games previously put on this season, Negaunee has given it a hard run in nearly every contest. There will be dancing in the gymnasium after the game Friday evening.

INTERESTING QUESTION DEBATED.

At the Swedish Lutheran church Tuesday evening, the question, "Resolved, That inventions have been of service and not a detriment to humanity" was argued by members of the Men's Sick Benefit society. The affirmative was led by F. E. Bayard and the negative John E. Ohman. The debate will be continued on Wednesday evening, April 8, at which time a jury of nine persons will decide which side has had the better of the argument.

THE SANITARY ALL GAS KITCHEN

Picture to yourself this kitchen in operation—the Ruud Automatic Gas Water Heater in the basement—without any attention—save the turn of a faucet, supplying you with unlimited, inexpensive, pure hot water. How convenient for cleaning and scrubbing—and time-saving to start your various cooking operations.

Think of the modern Gas Range—especially equipped for any mode of cooking—heat easily regulated to a "just right" temperature—no dirt—no ashes—no excessive labor, and all this comfort and convenience at a low cost for gas.

The best demonstration of the merits of these "comfort makers" is to see them in operation at our showroom or a postal will bring you complete information by return mail.

Marquette County Gas & Electric Company.

REMODELLING SALE

TWO DAYS ONLY -- FRIDAY and SATURDAY, MARCH 6-7

We have just placed an order for a modern electric passenger elevator to serve all floors of our building. Our third floor, formerly used as a dance hall, will now be used exclusively for the display of Furniture, Rugs and Trunks, thus giving us an additional floor space of almost eight thousand square feet.

Our Ladies' Suit, Coat and Millinery departments will be moved to the second floor, in room formerly occupied by Furniture department. This will be the largest Suit or Coat department north of Milwaukee.

We announce a Rousing TWO DAYS' SALE of lines listed below to make room for the enormous Spring lines that our buyers recently purchased in New York.

Ladies' Suits and Coats		MILLINERY		FURNITURE		FURS AT 1/3 OFF	
Winter models		\$3.50 to \$8.50 values,		Our regular prices are low, but during this 2-days' sale we will allow a special discount of 20%		Gold and White Bavarian China, the most popular pattern — 25% OFF	
at less than 1/2 PRICE		CHOICE, during this sale 75c					
MEN'S TROUSERS	Boys' Knee Pants (Knickerbocker) 25c to \$1.25 REAL BARGAINS	Men's Underwear Heavy weight, grey or brown, all sizes. 50c	Men's Black Hose Linen heel and toe, 10c Silk Hose, popular shades, 25c	Mackinaws For men, women & children. Reduced prices on all lines.	Sweaters All grades 25% Off	BABY CUTTERS 25% Off	WOOL BLANKETS 25% Off

IN SPITE OF THE LOW PRICES WE WILL GIVE "S. & H." GREEN TRADING STAMPS WITH EVERY PURCHASE.

F. BRAASTAD & CO.

Ishpeming Department

F. BRAASTAD & CO. TO REARRANGE STORE

Will Occupy Third Story of Their Building and Also Will Install an Elevator.

The utilization of the third floor of the Braastad block, which has been used as a dance hall since the erection of the building, for the furniture department, now quartered on the second floor, and the moving of the ladies' suit department from the first to the second floor, which will hereafter be entirely devoted to that branch of the business, are improvements shortly to be undertaken by F. Braastad & Co. The proposed ladies' suit department will be the largest in any store north of Milwaukee. The installation of a ten-passenger electric elevator, to operate from the basement to the third floor, will make the upstairs salesrooms easy of access, and will be a much-needed improvement.

The removal of the ladies' suit department to the second floor will provide more room on the first floor, for the drygoods department, which of late has not had sufficient floor space. The changes are to be started at once.

The elevator, which will be furnished by the Hiller company will be placed in the front part of the building between the grocery and drygoods departments. It is expected that it will be in operation by April 1. It will be equipped with modern safety devices.

The floor space to be given over to the ladies' suit department will be 100 by 75 feet, giving the department approximately 8,000 square feet of additional floor space. The floor space of all the departments will be about 40,000 square feet.

Because of the proposed improvement a sale of ladies' winter wearing apparel will be held the next two days.

LEVY AND THE SYMPHONY GIRLS.

The Ishpeming theater is today offering an exceptional attraction, "Jack Levy and the Symphony Girls." In Marquette two weeks ago this act received a cordial welcome, and their numbers were enthusiastically applauded. The pictures for today are "The Express Car Mystery," a Kalem drama in two reels, "A Cause for Thankfulness," an Edison drama, "Why I Am Here," a Vitagraph comedy, and "Ancient Thebes," a Vitagraph topical.

JUST RIGHT FOR BACKACHE AND RHEUMATISM.

Foley Kidney Pills are so thoroughly effective for backache, rheumatism, swollen, aching joints, kidney and bladder ailments that they are recommended everywhere. A. A. Jeffords, McGrew, Neb., says: "My druggist recommended Foley Kidney Pills for pains in my back, and before I finished one bottle my old trouble entirely disappeared." For sale by all druggists.

HIGH SCHOOL CONTEST FRIDAY EVENING

Large Number of Students Will Compete for Honors in Oratory and Declamation.

With the elimination of sixteen contestants in the preliminary declamatory contest at the Ishpeming High school, eight students are left to participate in the final test, which will occur Friday evening in the auditorium of the high school, when, also, eight contestants will seek honors in oratory. One person in each event will be chosen to represent the Ishpeming High school in the sub-district oratorical and declamatory contest that is to be held in the Negaunee High school the early part of April. At that time persons will be chosen to participate in the upper peninsula contest, which is also to be conducted in Negaunee.

The program Friday evening will commence at 7:30 o'clock, and the program for Friday evening follows:

- Orations—Nancy Olson—"Child Labor." John Sibley—"The Negro." Arnold Calm—"Intervention in Mexico." Ruth Davis—"Joan of Arc." Holburn Bryden—"Heroes of Common Life." Walter Larson—"The Common People." Edgar Holmgren—"Americanism." Lydia Olson—"The Value of Music."

Declamations—Hildur Sandberg—"Death of Lafayette." Grace Terrill—"Henry W. Grady." Mark Small—"Webster's Reply to Hayne." Edward Dunstan—"Our Duty in the East."

Ralph Chase—"Love and Loyalty of the Negro." Mildred Ramsdell—"Toussaint L'Ouverture." Ellen Kettunen—"Humanity's Cause Triumphant." Frances Shea—"The Grave of Napoleon."

The orators are members of the junior and senior classes of the school. Those in the declamatory contest represent the freshmen and sophomore classes. The orations are the compositions of those participating, and some are of exceptional merit, it is said.

MUSICIANS RECOGNIZED.

After reviewing the early contempt held in all European countries for American musical effort, a prospectus lately issued calls attention to the triumph that was scored by Sousa and his band while on a tour throughout Europe. It says:

"The glittering success of the 1910-11 international Tournee of Sousa and his band, proves that Europe is quite willing to accord America standing as a musical country, and to pay for the privilege of listening while America bids for this consideration."

The Sousa Band represented the best musical talent of America. Every man was a master of the instrument he served.

"In addition to the usual soloists of great promise, one in particular, Miss Nicoline Zedler, Violin Virtuoso, is a great credit to American teaching methods."

"Miss Zedler is of Swedish parentage, but her musical training was accomplished entirely in America. She has had but one teacher Mr. Theodor Spiering. Mr. Spiering conducts the Spiering Violin School formerly of Chicago, but now of Berlin and was first violinist and director of the Spiering Quartette—which was one of the best string quartettes in America several years ago. For the season 1910-11 he was assistant conductor and concertmaster of the New York Philharmonic Orchestra."

"For six years he had Miss Zedler under his tutelage, and thoroughness as teacher of violin."

Miss Nicoline Zedler's appearance in Ishpeming on March 10 at the Swedish Lutheran church under auspices of the Young People's society will bring out a full house, judging from the advance sale of tickets. The committee in charge of the concert has found it very easy to dispose of tickets. Every music loving man and woman in the city should hear Miss Zedler. Such musical treats are rare in this territory and it was only by the united effort of seven church organizations in the upper peninsula that Miss Zedler could be induced to visit this region."

DISORDERED KIDNEYS CAUSE MUCH MISERY.

With pain and misery by day, sleep-disturbing bladder weakness at night, tired, nervous run-down men and women everywhere are glad to know that Foley Kidney Pills restore health and strength, and the regular action of kidneys and bladder. For sale by all druggists.

AT THE FASHION SUIT CO. OPENS TODAY WITH SENSATIONAL CUT PRICES

One of the Biggest Clean-Sweep Sales Ever Held in Ishpeming

Every dollar's worth of Winter stock for Ladies, Misses and Children must go, as we must have the room for our Spring line which is arriving daily.

Remember, today is the opening day of the sale. You will see thousands of dollars' worth of new goods just received, which we will offer a special inducement to early buyers. Don't wait, but come today.

Fashion Suit Company -- Main Street

ISHPEMING IN BRIEF.

Mrs. M. A. Kahn will entertain at cards Saturday afternoon.

Teams 8 and 2 and 8 and 6 will bowl at the Empire alleys tonight.

Messrs. Skud, of Ironwood, and Goldman, of Bessemer, are visiting at the home of Mrs. N. E. Skud.

Miss Ethel Weland, Walter Rowe and Markus Willey entered the Ishpeming Business college this week.

Raymond Thomas entertained a number of his friends at a 6 o'clock dinner at his home the latter part of last week.

The funeral of the late Mrs. Mary Hughes was held yesterday morning at 9 o'clock from St. John's church, with interment in the Ishpeming cemetery.

Richard Matthews is home from Duluth, where he went to attend the funeral of the late Captain Joseph Sellwood. Mrs. Matthews will remain in Duluth for several days.

A meeting of the minstrel show committee of the Y. M. C. A. will be held this evening at 7 o'clock, when plans for the entertainment will be chosen. The musical numbers will be chosen.

Fred Prout, of the Ishpeming Business college, has taken a position as bookkeeper and stenographer for Winter & Sines in Negaunee. Axel Harma recently accepted a position with the Cuddey Packing company.

The pay days of the Cleveland-Cliffs Iron company for the last of February are as follows: Hard Ore, March 11; Lake, 11th; Cliffs Shaft, 11th; Salisbury, 12th; North Lake district, 12th; Negaunee district, 13th; and Gwinn district, 14th.

A special train will be run to Marquette from Ishpeming Sunday morning, leaving about 7 o'clock, for the accommodation of Ishpeming people desiring to attend the ceremonies of the ordination of Walter Lally into the priesthood.

The banquet given last evening to the members of the C. C. I. company's bowling league at the company's club

rooms was greatly enjoyed. Entertainment was provided during the early part of the evening and the supper was served at 10:30 o'clock.

The members of the Ishpeming Ski club and their ladies will meet at the club house Thursday evening.

Funeral services for the late Mrs. Elizabeth Trevarthen were held yesterday afternoon at her home in Beacon. Rev. T. E. Collier, of Champion, officiated. The body was brought to Ishpeming and interment took place in the Ishpeming cemetery.

Mrs. George Grummett, formerly a resident of Ishpeming, who is now living in Bismarck, N. D., is critically ill and was recently operated on at St. Alexin's hospital there. Her daughter, Mrs. William Eldred, has been visiting there for the past six weeks.

Upper Peninsula

Manistique Forging Ahead.

That Manistique is making rapid and long upward steps is shown by the completed improvements and additions that will take form during the current year. Among these are the five buildings of the Williams Flooring factory; the plant of the Manistique Handle factory; the Soo Line's \$50,000 depot; the light and signal station at the dock and res. Keeler's residence, and the retooling plant of the Lake Superior Iron & Chemical company. The total amount to be invested in these new deals will exceed \$500,000. It is apparent that Manistique is entering upon a successful era. The unity of its business men is achieving results hitherto undreamed of.

To Move House 12 Miles Over Ice.

One of the most unusual undertakings of its kind ever attempted in the Marquette region was the moving of a twelve room house from Masonville to Escanaba on the ice of Little Bay de Noc, a distance by the direct route of twelve miles. John K. Stack, Jr., is the originator of the idea. The house is a handsome residence formerly owned by the Escanaba Lumber company. The work of preparing the house for its journey has been started. Upon reaching the ice the dwelling will be placed upon sets of sleighs arranged under the structure and it is expected that exceptional progress will be made when the house is started on its trip. Upon reaching Escanaba the house will be taken to the south shore, where an easy landing can be made, and then will be moved to a permanent location in the southwestern part of the city. Several years ago a number of small houses at Garth were moved across the ice on the bay to the Marquette chemical plant location, but the house now to be transported is many times larger.

Lesselyong-Houghten Nuptials.

At the marriage of Miss Monita Margaret Lesselyong, eldest daughter of Frank H. Lesselyong, of Ironwood, and Dr. Lester Orlo Houghten, of Bessemer the ceremony was performed at St. Ambrose church by the Rev. J. B. Moriarty. The bride was attended by her sister, Miss Lillian Lesselyong, and her brother, Edward F. Lesselyong, was the best man. The bride wore a navy blue traveling suit. The wedding was a small affair, only members of the family being

in attendance. A wedding breakfast followed at the home of the bride's parents. The bride was born and reared in Ironwood and is popular. Dr. Houghten, who was assistant surgeon for the Newport Mining company at Ironwood for several years, was appointed surgeon of the Newport company's Anvil and Palms mines at Bessemer several months ago. The young people have a host of friends in the geographic range towns. Dr. and Mrs. Houghten have gone to Detroit to visit the bridegroom's parents and other relatives. On their return they will reside at the Anvil mine, where the Newport company has provided a new residence for them.

Jackies Plan Outing in the U. P.

D. E. Franklin of the U. S. S. Michigan writes George E. Holstein of Manistique from Guantanamo Bay, Cuba, that a party of sailors from the ship intend to spend September in camp at some point in the upper peninsula, and makes inquiry concerning conditions and attractions. The jackies want a place where they can obtain fish, boats and a cabin.

WHAT THE PULSE TELLS.

Physicians are beginning to believe that the rate at which your pulse beats is a sort of index to the extent of the chemical changes that are taking place in your body. The beats become more rapid when you are using your muscles, as in walking or running, because this necessitates a greatly increased amount of chemical change. Not only all the more vigorous activities of the body, but such hitherto unsuspected ones as the slightest muscular movement and the production of carbon dioxide, are accurately reflected in the pulse-rate. In very young babies, for instance, it has been noted that even the raising and lowering of a limb will often elevate the pulse-beat from ten to twenty beats while violent exercise such as nursing or crying, causes an increase of fifty to sixty beats. When the pulse is increased for twenty minutes, as it is during a nursing, it takes about ten minutes for the rate to return to the normal. And during long continued exercise baby's pulse sometimes drops below normal and continues there for four or five minutes.

In diagnosing disease the pulse can be of the greatest service only when its rate during working hours is compared with that during sleep, when the body's activities are at their lowest ebb. The lowering of the pulse-rate during sleep is merely the result of more nearly perfect restfulness. The number of beats would be decreased as much while awake if we could only maintain the same degree of rest. If an irregularity in the pulse-rate is due to certain diseases of the heart it will persist whether asleep or awake, but if, on the other hand, it is caused by some purely nervous affection it will disappear during sleep.

SPECIAL "HEALTH WARNING" FOR MARCH.

March is a trying month for the very young and for elderly people. Croup, bronchial colic, lagrippe and pneumonia are to be feared and avoided. Foley's Honey and Tar is a great family medicine that will quickly stop a cough, check the progress of a cold, and relieve inflamed and congested air passages. It is safe, pure, and always reliable. For sale by all druggists.

SPECIAL ANNOUNCEMENT

Ishpeming Cloak & Suit Co.

GOING OUT OF BUSINESS

Mr. S. Ree, our manager, has put in his resignation, to enter into another business—not being able to secure a capable manager I have decided to close out this business—the store will be closed until 9 o'clock Friday morning to mark down the entire stock—nothing is reserved—everything must be sold at the earliest possible date—the prices we are asking are almost ridiculous but the only aim we have is to wind up this entire business within ten days—our stock, amounting to nearly \$10,000 has been marked down to \$3,000, in other words you can buy \$3.00 worth for \$1 and in some instances \$5 worth for \$1. We also offer for sale all of our fixtures—counters, mirrors, desks, tables, sewing machine, cash register, etc. The opportunity is here for you to save a lot of money. We have engaged competent help to give you the best of service. Just come to look and give yourself a chance to reap the benefits, don't let your neighbor get all the good things away from you. This stock is fresh and clean and it will be an opportunity to buy for future wants.

Signed, J. F. GRUENHECK

- Henderson—The Flight Brothers.
- Baum—Father Goose Book.
- Burgess—The Wonder Treasury.
- Williams—Boys' Book of Indians in the Wild West.
- Smith—The Railroad Book.
- Stevens—Pinocchio in Africa.
- Patti—Ballads of Be-Ba-Boes.
- Brayton—The Peekaboo Book.

MINING NEWS

CALUMET & HECLA "SANDS."

Regrinding and Leaching Process Will Greatly Increase Copper Recoveries.

Important possibilities center around experiments now being made looking to the re-treatment of the millions of tons of Calumet & Hecla sands, especially by the regrinding process, and the percentage of losses is constantly being reduced. The question is how to do it economically.

In their immense accumulations of "sands" at Lake Superior Calumet & Hecla and Tamarack own about 12,000,000 tons of low-grade ores, the "ore" running about fifteen pounds of copper per ton in the case of Calumet & Hecla and twelve pounds in the case of Tamarack. While no official figures are possible at this time, and while the process itself has not yet been worked out at all important particulars, the Calumet & Hecla people are confident that they have devised a scheme, practical in its operation and economical in its results, whereby highly important potentialities accrue to the 40,000,000 tons of Calumet & Hecla and the 12,000,000 tons of Tamarack "sands."

For the purposes of comparison it may be well to set down the estimates of the Calumet & Hecla engineers with respect to these sands at the time of the attempted consolidation several years ago. These figures are substantially as follows:

It will be seen that Calumet & Hecla estimated that in its sand pile there was over 137,000,000 pounds of extractable copper, which could be saved at a treatment cost of six cents per pound, or a profit on 13% of copper, of 7 1/2 cents per pound, or \$10,262,000. As it would take thirty years to mill these sands at a rate of something over 1,000,000 tons per year, the "present worth" of the above profit (as figured for purposes of consolidation) was amortized down to \$1,211,000, or better than \$41 per ton of sand. The so-called re-grinding process. The company now contemplates a further recovery by submitting the residue from the re-grinding to a chemical or leaching treatment, which it has been demonstrated will add materially to the net yield. In this connection it is worth noting in mind that only about 80 per cent of the above "sand piles" is available for re-treatment. It will surprise those familiar with the progress of experiments to date if the new re-grinding and leaching process fails to make a recovery of substantially over 50 per cent of the copper contents of the tailings, or say at least eight or nine pounds in the case of Calumet & Hecla and seven or eight pounds in the case of Tamarack. It is reasonable to expect, therefore, that Calumet & Hecla will ultimately recover between 250,000,000 and 300,000,000 pounds of copper from its tailings, while Tamarack should secure at least 75,000,000 pounds, with the probable profits in each case very much greater than was originally estimated could be obtained.

Nothing can bring you peace but the triumph of principles.—Emerson.

Negaunee Department

ATTEMPT TO POISON HUSBAND CHARGED

Negaunee Woman Held for Hearing for Serious Offense, on Complaint of Better Half.

Mrs. Elizabeth Fashion was arrested yesterday by Marshal Newcombe on complaint of her husband, James Fashion, who asserted that the woman attempted to poison him. She was arraigned before Judge William Verlan, and furnished \$1,000 bonds to secure her appearance for a hearing next Thursday.

That he and his wife had trouble Tuesday morning, culminating in an attack in which she beat him up, is Fashion's story. Later they patched up their difficulties. While he was eating his breakfast, he asserts, Mrs. Fashion waited on him. As she poured out his coffee, he noticed, he says, a peculiar odor. Upon examination of the cup he says he found poison.

Marshal Newcombe later had the contents of the cup analyzed, and it was found to contain a disinfectant. At the hearing Mrs. Fashion claimed that she did not know anything about the lye, or how it got into the coffee.

Fashion told the marshal that he will at once begin divorce proceedings, and Mrs. Fashion, who is well known in the city, has given the officers much trouble. She conducted a restaurant on Iron street at one time, and the place was a center of disturbance. About three years ago she figured in a case at Marquette, but was released on a suspended sentence. Fashion married her shortly afterward.

Prosecuting Attorney Kennedy will conduct the hearing next Thursday.

DEFEATED ISHPeming

Negaunee Club Bridge Team Won Second Game of Series.

In the auction bridge contest between the members of the Ishpeming club and the Negaunee club at the Negaunee club Tuesday evening the latter won by 3,715 points. F. A. Bell and the Rev. Hicks were the largest winners of the evening, they having defeated their opponents, W. S. Hillier and H. G. O'Keefe, by 1,674 points. Eight tables were played and after the card series an elaborate lunch was served.

In the games played at Ishpeming several weeks ago the Negaunee men lost by over 4,000 points. A third series will be played shortly to decide the winners.

The scores Tuesday evening were as follows:

Ishpeming—	
Potter and Vilas	2,880
Vandewater and Cooley	2,918
Girize and Davis	2,125
Bigelow and Tommensen	1,851
Hullins and Moss	1,826
Main and Stakle	1,610
Hillier and O'Keefe	1,261
Ruez and Nixon	1,112
Total	14,783

Negaunee—

Abel and Phil Levine	3,905
Bell and Hicks	3,053
Gouge and Hawke	2,600
Andrews and Anthony	2,575
C. V. R. Townsend and Perkins	1,780
Hansen and Whittington	1,634
Maidland and Pattison	1,691
Schultz and Meilner	1,359
Total	18,498

PLAYING GOOD GAMES.

Some fast games are being played in the inter-class series in the high school gymnasium.

This afternoon the eighth and ninth grade teams will meet. Monday afternoon the freshmen and juniors and the sophomores and seniors are scheduled for games. The latter teams will line up as follows:

Seniors—J. Doty, center; Guy Roberts and Fred Townsend, forwards; Harry Biscomb and Frank Willman, guards.

Freshmen—Flannery, center; Marka and D. Frederickson, forwards; J. Harrington and Rickard, guards.

STUBBORN, ANNOYING COUGHS—CURED.

"My husband had a cough for fifteen years and my son for eight years. Dr. King's New Discovery completely cured them, for which I am most thankful," writes Mrs. David Moor, of Saginaw, Ala. What Dr. King's New Discovery did for these men, it will do for you. Dr. King's New Discovery should be in every home. Stops hacking coughs, relieves a gripe and all throat and lung ailments. Money back if it fails. All druggists. Price 50c and \$1.00. Recommended by The Stafford Drug Co.

THOMAS CURTIS, JR., PRAISED FOR HEROISM

Coroner's Jury Makes Special Report on Conduct of Young Man at Maas Mine.

It is believed that officials of the Cleveland-Cliffs Iron company will take steps to direct the attention of the Carnegie Hero commission to the bravery of Thomas Curtis, Jr., who risked his life Monday at the Maas mine when he warned six other men of danger they were in because of an unexpected flow of quicksand in the first level of the mine. Largely because of Curtis' quick wit and bravery, the only fatality was the death of John Juhala.

Following the inquest in Judge Argall's court room yesterday the jury found "That the deceased came to his death through an unavoidable accident caused by an unforeseen run of quicksand, gravel and water in the workings of the Maas mine." Following the inquiry, which was conducted by Coroner William Prim, at Ishpeming, the jury gave out the following statement:

"We, the undersigned jurors, consider it our duty to add our words of praise for the brave act of Thomas J. Curtis, Jr., who at the risk of his own life devoted further into the mine to notify his fellow workers of the danger they were in, thus undoubtedly preventing further loss of life.

(Signed) E. C. Anthony, W. L. Bedford, Joseph Curtis, Irving Argall, John Kelly, Joseph Chipman and Coroner William Prim."

"THE LION AND THE MOUSE."

Famous Lion Play Will Be Produced in Pictures at the Star.

At the Star theater tonight will be offered the most notable picture production ever looked for the popular Negaunee house. It is a six reel photo play based on Charles Klein's great dramatic success, "The Lion and the Mouse," and enacted for the Lubin company by a company of star players.

The drama is one that made its marked success because of the intense interest of its scenes and its rapid movement from beginning to end, and thus it lent itself readily to reproduction for the picture machines.

This production has only lately been taken away from the big city houses and sent into the smaller towns. It was offered in the upper peninsula at the Marquette house a week ago, where it made a pronounced impression, and last evening it was thrown on the screen to capacity crowds at the Ishpeming theater.

The Negaunee engagement was arranged for in Chicago this week by Manager Butler. It will initiate the policy of the new Star management to give the Negaunee public the highest class productions that can be booked for the smaller towns.

The show tonight will start at 7 o'clock and it is planned to give the play three times. Because of the heavy expense of booking the feature the scale of admission prices will be twenty and ten cents. The production will be offered in a special matinee tomorrow afternoon at 2 o'clock.

WON BY LARGE SCORE.

Team No. 14 defeated team No. 6 by 214 pins in the three-men bowling league match at the Palace alleys Tuesday night. The following scores were made:

Team No. 6—Tot. 1,050
Rough 135 99 122 356
Gaffney 99 112 153 364
Bellstrom 129 97 104 330

Team No. 14—Tot. 1,690
Peterson 122 149 102 373
Vincent 140 182 171 493
Henrickson 108 145 145 398

WANTED AT CRYSTAL FALLS.

Marshal Newcombe received a long distance call yesterday from the chief of police at Crystal Falls, who inquired about Carl Emberg, the man arrested at Superior, Wis., last week and who was brought back here and tried for stealing \$31 and a gold watch from John Wentala. The Crystal Falls authorities want Emberg, who is charged with a theft of jewelry there. Emberg has been turned over to the immigration officials, and it is thought that he will be deported.

Piles Cured in 6 to 14 Days
Your druggist will refund money if FAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 Days. The first application gives Ease & Rest. 50c.

Did You Ever Lose Any Money?

Have trouble making change? Get a check on any town and have to pay to get it collected? Want to borrow a little money and it didn't suit the Bank to loan? An account with this bank will save all these annoyances.

NEGAUNEE NATIONAL BANK

NEGAUNEE, MICHIGAN

DESIGNATED U. S. DEPOSITARY

LOCAL LACONICS.

The council will meet this evening.

Miss Mildred Gullackson has returned from a two weeks' visit with relatives in Iron River.

Frank Trombley, leader of the Escanaba band, spent yesterday in the city, visiting with friends.

Miss Kore Peterson, of Iron River, is in the city to spend some time visiting with her aunt, Mrs. John Stecker.

Robert Johnson left yesterday for Detroit, where he will spend the next few weeks visiting with relatives.

Walter Hansen left yesterday for Manistique, to spend a few days on business for the Michigan Inspection bureau.

Miss Esther Sjoquist, who is employed as a stenographer for the Chronicle at Muskegon, is in the city on a visit with her parents.

George Williamson, who has been confined to his home for the past three months by rheumatism, was able to get out yesterday.

Thomas Sheehan and daughter, Margaret, of Iron Mountain, spent a few days this week visiting with his mother, Mrs. Johanna Sheehan.

A. J. Klumb, of Menominee, auditor for the Leisen & Hens Brewing company, arrived in the city yesterday to spend a few days on business.

John Gundry, Sr., and family have returned from Stambaugh, where they have been living for the past few months, and will again make their home here.

The members of a Ladies' Guild of St. John's church will meet tomorrow afternoon in the Guild Hall with Mesdames Orr Schurtz and Felix Delarye.

Max Croll is down from the Mesaba range for a three weeks' visit with relatives. Mr. Croll is employed as a steam shovel runner by the Oliver Iron Mining company.

John Olson, the eleven-year-old son of Matt Olson, a Negaunee township farmer, died yesterday morning at the Mesaba Heights sanitarium. The boy had been a patient at the sanitarium but a short time.

A large cement and concrete mixer for the Cascade Mining company at Palmer was received here yesterday. The mixer will be used in the construction of several mine buildings that will be built by the company the coming summer.

The Marquette City and Gwin club basketball teams will clash at Gwin tomorrow night. These teams will later make trips to the copper country. After the game there will be dancing. Music will be furnished by the Gwin orchestra.

Annar Kroghdahl, who has been visiting with his father-in-law, Fick Chiquette, and family, has come to Iron River to spend a few days on business for the United States Mine Rescue bureau. Mr. Kroghdahl is a member of the mine rescue car's crew.

The members of the Altar Guild of St. John's church will be entertained Saturday evening at the home of Miss Viola Williamson, East Main street. The hostesses will be the Misses Ethel and Olive Neely, Pearl Trathen, Eva Anderson, Dorothy Roberts and Viola Williamson.

Mining News

LAKE SUPERIOR STRIKE.

To all intents and purposes the strike of the Lake Superior copper miners is a thing of the past, and the whole district is rapidly resuming normality. Many of the miners who left the district at the time the Western Federation was making such a commotion are returning and seeking employment. At practically all of the Calumet & Hecla properties, with the exception of Albeck and Ials Royale, the force of men now at work is equal to or greater than before the strike was started last July. Tamarack is still shut down, as the operation of this property is such a close proposition—the grade of the ore being so low and costs so high—that it is not considered the part of wisdom to attempt a resumption of operations until the mine can be assured of a complete complement of experienced miners. Inexperienced men cannot be used at Tamarack if any profit is to be made on the present metal market. At Calumet & Hecla proper there are very many more men on the payroll today than was

Guaranteed tuning at Grinnell Bros. Music House. (11-14-11)

Persons who wish to procure an excellent quality of cream will be pleased to know that the local market is now being supplied from the farm at Rumely which during the summer season furnishes the well known Rumely strawberries. The Rumely farm cattle are selected stock and tested and those who have used the cream are very well pleased with it. The trade is being supplied by Winter & Suss of this city. 2-28-e.o.d.-11

SOUP TO NUTS! EAT WITHOUT FEAR OF DYSPEPSIA—PAPE'S DIAPEPSIN

Digests Food When Stomach Can't—No Indigestion, Sourness or Gas—Stop Starving!

You can eat anything your stomach craves without fear of indigestion or dyspepsia, or that your food will ferment or sour on your stomach, if you will take Pape's Diapepsin occasionally. Anything you eat will be digested; nothing can ferment or turn into acid; poison or stomach gas, which causes belching, dizziness, a feeling of fullness after eating, nausea, indigestion (like a lump of lead in stomach), biliousness,

Heartburn, Water brash, Pain in stomach and intestines, Headache from stomach are absolutely unknown where Pape's Diapepsin is used. It really does all the work of a healthy stomach. It digests your meals when your stomach can't. It leaves nothing to ferment, sour and upset the stomach. In a large 50-cent case of Pape's Diapepsin from your druggist, then eat anything you want without the slightest discomfort or misery. Besides every particle of impurity and Gas that is in your stomach and intestines will vanish. Should you be suffering now from indigestion or any stomach disorder, you can get relief in five minutes.

CONTEST HELD AT HIGH SCHOOL

Miss Marian Hathway, in Oratory, and Miss Alida Anderson, in Declaration, Won First Prizes in the Peter White Annual Event Conducted Last Evening.

Mildred Bell and Mildred Magers Were Awarded Second Honors, and Harold Thompson and Miss Frieda Fine the Third-Sub-District Contest at Negaunee.

Miss Marian Hathway and Miss Alida Anderson won the Marquette High school in the sub-district oratorical and declamatory contest which is to be held at Negaunee the latter part of this month. They were chosen at the Peter White contest, held at the high school last evening. In all, six declamations were given, these by contestants selected at a preliminary contest held Monday evening, and four orations were delivered. Two hundred persons were in attendance.

Oration Speak Effectively. The thought and composition of the four orations were good and the delivery was excellent. Miss Marian Hathway, the winner of the first prize, \$15 in gold, spoke effectively and she held the attention of her auditors closely.

Miss Mildred Bell, who won second honors in oratory, spoke on "A Day for Our American Forests." The Mission of Modern America was the subject of the oration of Miss Mildred Magers. Both of these were delivered admirably. In the topic taken by Miss Lois Parr, "Helen Keller," there was much to interest. Miss Parr told of the great powers of America's deaf, dumb and blind woman whose achievements have been a marvel to humanity. Although Miss Parr did not win one of the prizes, her efforts were highly commended.

Declaimers Show Careful Training. The declamations were all excellent and the judges had some difficulty in choosing the winners. Miss Alida Anderson, who was awarded first place, took Beecher's essay on "The American Flag," which she recited in an impressive manner. The declaimers all showed the result of careful training.

Harold Thompson, who took second prize, chose as his topic, "Christopher Columbus," by Mott. Miss Frieda Fine, the winner of third honors, spoke on "Eulogy on Lafayette," by Everett. Teachers who took part in the declamatory event were Gertrude Kraft, "The Mother of Lincoln," by Black; Walter McKie, "Inaugural Address," Roosevelt, and Grace Zerbel, "Character of Washington," Everett. All the declaimers were accorded warm applause.

The judges on thought and composition were Rev. W. H. Smith, Professor C. C. Spooner and Frank J. Russell. J. H. Primeau, Jr., Professor S. S. Stockwell and James Russell were the judges on delivery.

The boys' quartet, composed of James Corbett, William Morrison, Harold St. John and Markham Borseson, sang, "Drink to Me Only" and "For-saken." They were thoroughly appreciated. A vocal duet by Miss Signa Gilliland and Miss Stella Patrick, "See the Pale Moon," was enthusiastically received. The high school orchestra made its first appearance before a large gathering. It played "The Assembly Waltzes."

Presentation Made by Principal. G. H. Roller, principal of the high school, made the presentation of the six prizes to the winning contestants. The amount of the prizes totaled \$53. Mr. Roller told of the fund that had been established by the late Peter White for the award of prizes in oratorical and declamatory work. He mentioned the great benefit that the students derive from work of this kind, and commended those who had participated in the contests.

The district contest is also scheduled to be held in Negaunee this year, and the winners of the sub-district contests in various parts of the upper peninsula will participate in this. It will be held the latter part of April.

Go-to-Church Mar. 15. WHEREAS, the 15th day of March, has been designated by citizens of Marquette as a date when special effort shall be made to convene the people of this community at public worship in the several churches; and

WHEREAS, we recognize the church, to be the only permanent institution whose sole aim and object is to establish righteousness in the world; therefore be it

RESOLVED, that the Marquette Study club give unequalled approval of the Go-to-Church movement and urge its members to co-operation with the Marquette citizens in their endeavor to procure on the above date the largest possible attendance in the churches.

MARQUETTE STUDY CLUB.

DOYLE TO BE MARINER.

Menominee Attorney Is to Incorporate a Navigation Company.

M. J. Doyle, a well-known Menominee attorney, tells the Menominee Herald Leader that he has a bill of sale of the barge Wisconsin, formerly owned by Captain Mackinnon, whose license as engineer was recently cancelled by Inspectors York and Gooding, and that if any of Mackinnon's creditors seek to take the vessel he will fight them through all the courts they choose to go to.

"The property of one man cannot be held by the debts of another," Mr. Doyle asserts, "and I, and not Mackinnon, am the owner of the Wisconsin. A bill of sale to that effect is recorded at Milwaukee with the federal officials, subject to the maritime laws of the United States."

Mr. Doyle further vouchsafed the information that he is to become a mariner man himself, as he is organizing a navigation company. The Wisconsin will be repaired and will become one of the vessels of the fleet. "Capt. Mackinnon is an expert mariner," Mr. Doyle is quoted as saying, "and I will probably employ him when actual navigation commences in the spring. The proposed fleet will consist of a tug and four barges, and the new company will be capitalized for \$2,000. Articles of incorporation will be filed in a short time."

Captain Mackinnon confirmed Mr. Doyle's statement that he was the purchaser of the Wisconsin, asserting that the purchase was made last fall when he, the captain, found himself in straitened financial circumstances. The Wisconsin has been filed by the C. J. Huebel connection with a claim of damages against Captain Mackinnon. Their attorneys insist that Mr. Doyle's contentions about the ownership of the craft have no bearing in the case, but Sheriff Kell thinks perhaps they have.

Anyway he says he will not serve the papers unless he has an order from the circuit court, or unless the Huebel company shall file a proper bond that would have the effect of relieving him from any responsibility.

LITTLE PROSPECT OF EARLY OPENING

First Spring Ice Report Indicates That It Will Be Late Before Lakes Are Open.

That there is little chance of an early opening of navigation is indicated by the first of the spring ice reports by the lake marine service at Detroit. This report, which is based on the records of American and Canadian observers all over the great lakes district, shows that the ice field over the extreme western portion of Lake Superior extends out about twenty miles. Extensive fields are reported to the north of Keweenaw Point, and over the eastern portion. At Whitefish Point the field is heavily windrowed and stationary.

In the northern portion of Green Bay the ice is solid. In Michigan the fields are reported along the western and southern shores and also over the southeastern portion but are not heavy.

At the Straits the ice is solid and not covered with snow. Open water is reported to the east of Bois Blanc island. In Lake Huron the fields are moving with the winds over the northern portion and are also reported over the central portion. The high winds of the 1st moved the field from the mouth of the lake to the east shore. St. Clair river is frozen from below Port Huron to Lake St. Clair where the ice averages fifteen inches. Detroit river is open from the lake to about 3rd street, but frozen from there to Lake Erie.

In Lake Erie the western portion is covered with ice to the east of Kelley's island where open water is reported. Along the south shore and over the eastern portion the fields extend beyond vision but are not heavy.

In Ontario the fields are not heavy and but few reported. Most of the harbors are closed east of Charlotte. In comparison with the same period last year there appears to be less ice and it is not as heavy. Most of the ice found during the cold weather of February.

The details for Lake Superior follow: Duluth Harbor ice twenty-three inches in thickness; the field extends from two to six miles out unbroken and beyond are broken fields and open water.

Two Harbors: Harbor ice twelve inches in thickness and broken up around docks; open water in lake extends beyond vision. Bayfield: Ice in harbor eighteen inches in thickness; it is reported that the field extends beyond vision from the islands.

Washburn: Ice in harbor twenty-four inches in thickness; bay froze over on Jan. 1. Ashland: Harbor ice twenty-four inches in thickness. Harbor ice ranges from fourteen to twenty-five inches; the lake is frozen over to Isle Royale; ice fourteen inches at Thunder Cape and twenty-five at the breakwater; no channel yet.

Ontonagon: Harbor ice twenty inches in thickness; the field in the lake extends out about a mile. Portage: Fields moving with the wind extend out about four to five miles; some open water visible. Eagle Harbor: The ice fields extend beyond vision; the ice in the harbor averages sixteen inches.

Houghton: The harbor ice averages fifteen inches. Pequaning: Harbor ice is sixteen inches in thickness and extends beyond vision. Marquette: Harbor ice three inches in thickness; the field in the lake extends out about a mile. February were light and of small area.

Munising: Harbor ice sixteen inches in thickness. Grand Marais, Mich.: Harbor ice is sixteen inches in thickness; no heavy field ice visible in the lake; there has been but few fields noted during the winter; open water to east and west of this port.

Whitefish Point: The ice in the bay is fifteen inches in thickness; no open water visible; the ice fields are stationary; fields heavily windrowed. Sault Ste. Marie: Thickness of ice in the harbor 17.5 inches.

ORDINANCE FOR POOL ROOMS LIKELY

City Attorney Brown Is Drafting Tentative Measure to Be Put Before Commission.

The next step the commission is likely to take to assure that public morality in Marquette will be beyond reproach is the adoption of an ordinance for the regulation of the pool rooms.

This ordinance, it is said, will be regarded more in the light of a preventative measure of bad conditions than a corrective measure. The pool rooms have since the time last winter when several saloonmen became involved in a series of cases in which they were charged with harboring minors. Recently when Mr. Pettit, an agent of the National Playgrounds and Recreational society made a close survey of social conditions in Marquette, he found little about them of which to complain.

Nevertheless the commission has in mind defining in definite terms what the pool rooms can do and what they cannot do. They have not heretofore been regulated by a special ordinance, but have been conducted under the terms of the general state law, which relates particularly to the presence in them of minors.

Now Attorney Brown is drafting an ordinance that will shortly receive the consideration of the commissioners. This ordinance will embody a number of suggestions made to the commissioners and will considerably restrict the liberty the pool rooms now enjoy. One of the things that has been suggested, and one that meets with considerable favor, is the proposal that a definite closing hour be fixed for the pool rooms, as for the saloons, and the same hour for both, 11 p. m., has been suggested.

It is also proposed to prohibit, under severe penalty, the use of any gaming device or the playing of any game of chance in or about the pool rooms. It is possible that there will be more definite provisions than those contained in the state law dealing with the general subject of minors.

The proposed ordinance will be before the commission at an early date and it is likely that it will be adopted, perhaps with some modifications, without much delay.

WHO IS IT REMEMBERS WASHINGTON COUNTY?

Yet It Existed and Once Bode Fair to Be One of the Most Important in the U. P.

How many men are there in Marquette county today who know that, once upon a time—as the story books run—part of its territory was incorporated in Washington county? How many men are there in the upper peninsula who know that there ever was a Washington county north of the straits?

But there was a Washington county, and for a few months it possessed a considerable part of the area of the central part of the peninsula. It was, however, soon disorganized and cut up because the act by which it was organized, when attacked in court, failed to stand the scrutiny of the keen judges who passed on its right to existence.

One of the few men in the city who has a map of the upper peninsula showing Washington county is S. E. Byrne. Yesterday he dug it out of a dust laden bookcase for the inspection of a Mining Journal man. It rested snugly behind the back cover of the Michigan Manual for 1899, and on the fly leaf of the manual was found the name William D. Williams, for the old manual was once the property of one of the early judges of the Marquette-Houghton circuit.

In the upper peninsula of '99 were found but ten counties, where there are now fifteen. They were Ontonagon, one of the most generous in area, which then included the present county of Gogeb; Houghton, Keweenaw, Washington, Marquette, Delta, Menominee, Schoolcraft, Chippewa and Mackinac. Out of the area included in Washington county were carved Dickinson and Iron counties and part of its territory was annexed to Marquette; in '99 one of the smallest of the upper peninsula counties.

DEMOCRATIC FEASTS ARE SET. Mississippi Congressman Picked as Spell-binder on Michigan Circuit.

Washington, March 4.—Not to be outdone by the Republicans and Progressives, both of whom have held a series of banquets in Michigan during the last month, the Democrats are planning to stir up the voters at political meetings during March. Congressman Byron P. Harrison of Mississippi has been chosen as the spell-binder to be sent out from Washington. Congressman Harrison is a fiery southern orator and in addition a brilliant young man who can marshal facts and figures to advantage.

Mr. Harrison will be joined in Michigan by Gov. Ferris and other prominent members of the party in the state. On March 10 they will speak in Detroit, the home of Congressman Frank E. Doremus. Democrats in Washington have an idea they will be able to defeat Congressman Hamilton, next fall and have arranged for two banquets in his district. The first is at Three Rivers on March 11 and the second at Hastings, March 12. Another banquet has been arranged at Clare on March 13.

LEARN TO USE GENUINE GAS COKE AND SAVE MONEY.

It takes nearly two ton of high-grade Pennsylvania coal to make one ton of coke. That is why you get fifty bushels of coke to twenty-seven bushels of coal in a ton. The dust, dirt, soot, tar, gas, sulphur, smoke, etc., have been removed at the gas plant. Genuine Gas Coke is the pure carbon which remains.

Coke will not give good results unless properly handled. It requires less draft than coal and the furnace should always be kept full of coke whether you want a hot fire or not.

To hold fire over night shut fue damper and all bottom drafts and open charging door. (2-18-14)

Guaranteed tuning at Grinnell Bros' Music House. (1-14-14)

TEA AND COCOA TO BE THEIR ONLY STIMULANTS

Shackleton and His Men Will Take No Alcoholics to the South Pole Region.

London, March 4.—Total abstinence from alcoholic stimulants will be strictly observed during Sir Ernest Shackleton's trip across the south polar continent. He and his men propose to work long hours, including eight hours, marching every day, but for stimulant they will rely on nothing stronger than tea or cocoa. The tea will be taken at midday to refresh the men for the afternoon march, and the cocoa the last thing at night to preserve the body heat during the hours of sleep. Sugar will figure largely in the rations. On his last expedition Sir Ernest and his companions took two or three lumps of sugar every two or three hours and he says ten minutes after eating they could feel the heat going through their bodies.

The men thus far chosen for the expedition are between thirty and forty-one years of age. Shackleton, who is thirty-nine, believes that men are at their best between twenty-five and forty. A man, he says, does not reach his full strength until he is twenty-five, and whatever may be the superiority of youth in the way of spring, nerve and enthusiasm, these do not weigh against the staying power of an older man or the balanced judgment of one who has experienced hardship.

The working day arranged for the transcontinental party calls for an hour of preparation after waking, then a four-hour march, an hour's rest, and another four-hour march. Sleep time, which is previous trips has been observed between 7 p. m. and 4 a. m. will be cut to eight hours.

Sir Ernest is busy arranging for details of the expedition, which is regarded as the biggest undertaking ever attempted in polar exploration, since the distance to be traversed from Weddell sea to Ross sea is 1,700 miles.

At first Shackleton proposed to return from the South pole to Ross sea by one of three routes that was taken by Scott in his ill-fated expedition, or by Amundsen in his successful one, or a new one known as the western route, crossing the great range of the Victoria chain of mountains. It has since been decided that unless conditions prevent the expedition will avoid the two old routes and come out either through the Victoria range or by a route to the eastward of Amundsen's track. If this can be done the expedition will open entirely new ground.

This greatly increases the difficulties and dangers of the journey, for the party will not have the advantage of a chain of food depots which proved such a material aid to their predecessors. They will, however, be helped by the resources of science to a degree never dreamed of by former explorers. The expedition will be assisted by a wireless installation which will keep it in touch with its base for most of the time and will besides have aeroplane sledges.

Two steamers will support the expedition. A Norwegian steamer, for which negotiations have been opened, will take Sir Ernest and his party to the Weddell sea, while the Aurora, which has been much Antarctic service, will go to the Ross sea to pick them up when they accomplished their journey.

The first steamer will leave Buenos Aires some time in October and push to the Antarctic, reaching if possible seventy-eight degrees south latitude, where a good landing place was found by the German expedition. If the ice conditions are favorable, winter quarters will be established, depots laid out and the start made the following season. In the meantime the Aurora will have started from New Zealand to land a party in the Ross sea to meet the transcontinental party. Sir Ernest believes that the trip can be accomplished in five months, but should the obstacles be insurmountable he will have the base in Weddell sea to fall back upon. The first part of the trip, that from Weddell sea to the pole, is giving the explorer most serious thought. The distance is about eight hundred miles and through an entirely unexplored region. The party have no data whatever to go upon, but believe that with the dogs, which proved fitted with aeroplane propellers, all obstacles will be overcome.

Neither of the steamers will winter in the Antarctic. The Aurora, after landing the supporting party in Ross sea, will return to New Zealand, going back later to bring the whole party home. The other steamer will return to South America, after landing Sir Ernest Shackleton and his friends, going in the following year to pick up the Weddell sea party. Both ships will burn oil and will be fitted with tanks so that any specimens taken may be brought home alive.

ADMIRERS AMERICAN STYLE. Duchess of Sutherland Denies, However, English Women Have to Copy.

New York, March 4.—It isn't true that English women are dowdy until they learn to dress from the smart American girls who have married in their country. So says the Duchess of Sutherland, denying the statement of Lady Decies, who, being an American woman herself, may be slightly prejudiced.

"I have been accustomed all my life to seeing smartly dressed English women," said the duchess, who, with her husband spent a day in New York while returning to England from the West Indies. "We do not dress like French women—we have too much understanding about ourselves. You see, we are so much taller and larger in figure that we would look absurd dressed in purely French fashions."

"I hardly think American women are responsible for the smart dress of our women, although we tremendously admire your women. We have several beauties among your young women who have married into our families.

"I wish we could get in England your American tailor, but no tailors in the world make better clothes for women than your tailors do. I mean by that the severely tailored street clothes—not what the French call the fancy tailor suits they excel in those. It's a positive joy to look at you women on Fifth avenue in their shopping and walking suits. They are so smart and trim and good-looking," she added.

The young duchess is almost six feet tall, but so splendidly proportioned that she is hardly noticed. She was formerly Lady Ellen Gladys, daughter of the Earl of Lanesborough.

ALL ILLITERATES NOT NEGROES. Whites Who Cannot Read or Write Nearly Triple Those of Blacks.

Washington, March 4.—Startling figures about the number of adult persons living in the United States who are unable to read and write were brought to light during the consideration in the house of the literacy bill introduced by Congressman Dudley M. Hughes of Georgia. The bill authorizes the commissioner of education to investigate illiteracy and co-operate with school officials, teachers and others in eradicating it.

Statistics quoted during the debate on the bill showed that 8 per cent of the adult population of this country was illiterate, which is much more than in most other civilized countries of the world. The federal census shows that in 1910 there were in this country 5,516,163 persons ten years of age and over who are unable to read and write.

About the time the discussion between congressmen was the hottest Congressman Patrick H. Kelley of Michigan got into the fray to show that illiteracy varied greatly in different states. He declared that illiteracy varied from 1.3 per cent to 16.4 per cent, that is from fourteen in a thousand in some states to 164 per thousand in others. Mr. Kelley formerly was superintendent of public instruction for Michigan and was interested in showing that states where the colored population was most dense and where immigrants of a certain class had settled were the localities which caused the literacy statistics of this country to appear bad.

Congressman Stafford of Milwaukee showed, however, that these factors did not enter so largely into the situation as might be supposed. Of the 5,516,000 illiterates only 1,300,000 were colored people, leaving 4,216,000 white illiterates. This makes the illiteracy among the

For True Skin Beauty

True skin beauty is not indicated by extreme whiteness or a "chalky effect." If you are naturally dark or fair, the true beauty of your skin is shown by its clarity, softness, smoothness, and freedom from redness and blemish.

DESJARDINS' GOLD CREAM

promotes true skin beauty. It exerts a mild yet effective cleansing action on the pores, it keeps the skin soft, has a slight bleaching effect and an application of it enables the skin to resist either extremely cold or hot weather. You should have it on your toilet table. Per jar, 25c.
