SEARCH FOR LONG LOST STEAMER.
Americans Hope to Find the Grant and \$5,000,000 Cargo.

Christ Church, N. Z., March 19.—Much interest has been aroused here and throughout the colony concerning the expected arrival of the United States barkentine which has been dispatched from the United States in search of the General Grant, believed to have been buried beneath the water at Auckland island at the time of the wreck of the vessel in 1866.

According to reports current here the ill-fated vessel contained billion valued at close upon \$5,000,000, besides a vast quantity of other valuable cargo. Much difference of opinion exists, however, as to the estimated value of the cargo, owing to the varied meaning given to the terms "nine tons spelter" and "170 boxes sundries."

Thinks Cargo Is Gold.

At the time of the wreck the General Grant was on its way from Melbourne to San Francisco and it is held that the spelter, zinc and sundries included in the cargo list were really miners' gold, the entry being made in order to minimize the reported value of the goods.

The present salvage enterprise has been undertaken by the General Grant salvage syndicate and the promoters are confidently looking forward to a big haul.

Previous attempts to recover the treasure were made in 1876, 1877, 1878 and in 1886, but without result.

The big selling event of the season, Braastads Great White Sale, tomorrow and Monday.

(Additional Ishpeming on Page 7.)

WOODMAN OFFICIALS WILL WIN FIGHT

Is Not Expected That Insurgent Movement Will Result in an Overturn.

Ishpeming Woodmen have learned that there is much activity among the members of the Modern Woodmen of America in this and other states relative to the selection of the delegates who will attend the various state camp sessions in May. The camps have already selected delegates to attend the county conventions, which will be held a week from next Wednesday, April 1. The convention for Marquette county will be held at Gwinn. It is not expected, however, that there will be any fights in upper peninsula county conventions, as it is understood that the insurgents are very few in number in this district. The men in control are those who favored readjustment of rates following the Chicago head camp session two years ago last January.

The position taken by the national officials of the order on the rate question will go a long way toward eliminating spirited contests at the forthcoming head camp session, to be held in June in Toledo. It now appears that no effort will be made to force a rearrangement of the rates.

Many of the conservative members have feared lest the developments of the past two years might result in a complete change in the society's management, for they hold that the putting of new and inexperienced men in high positions would affect seriously the society's future. The rate discussion has caused serious differences in the order. Members who honestly opposed the proposed new rates have been known as insurgents. Another faction, few in number, was insurgent against both the rates and the management.

The rate question will be left to the delegates to the Toledo head camp. Most of these will go to the meeting instructed either by their local, or county, camps. The insurgent element has some strength in the lower peninsula, especially in and about Grand Rapids. Many of the insurgents have declared openly

INCREASED FREIGHT TRAFFIC REPORTED

Railroads in Northwest Are Now Enjoying More Business Than for Some Months Past.

A railway official who visited Ishpeming this week reported a notable increase during the past few weeks in the demand for freight cars on practically every railway in the Northwest. There has been an increase in the movement of all classes of products, except coal, since Feb. 15.

Shipments of forest products have been exceptionally heavy the past month, and it is expected that the movement will continue good until the camps break up. The early part of the season was disastrous, but there has been sufficient snow in the woods in most sections for a month past to permit the operators to get out their timber. As a result the lumbermen have been bending all their energies to get the winter's cut of logs and ties to the railroad landings. The ice roads are now in exceptionally good condition, as a result of the present cold spell, and the operators are taking advantage of the change.

The February statements of gross earnings of many of the railroads showed a substantial increase and this month promises to be more satisfactory still. Westbound shipments are excellent. The early breakup of the ice in the lakes has led to the holding back of stuff that would otherwise have gone forward by rail from a number of the larger lake ports. It cut off inquiry for cars covering some prospective grain shipments.

It is said that there has been a decided improvement in the railway traffic in the copper country. The merchants who held off buying as long as they possibly could, because of the strike, are in the market again, some of them buying heavily. They feel that the strike has petered out and they are purchasing goods at a livelier rate than at any time since the men gave up work.

The last weekly traffic bulletin of The Michigan Central Railway reports an increase and a heavy demand for

practically all classes of equipment. There was a remarkable call for box cars for moving merchandise, paper, etc., and a shortage in refrigerator cars was noticed in the potato loading districts. The demand for automobile cars is also very heavy.

Because of the light snowfall this winter it is expected that farming operations will begin earlier than usual in the west, and there is reason to believe that a greatly increased area will be seeded this spring.

Braastads Great White Sale, tomorrow and Monday.

ISHPEMING IN BRIEF.

Mrs. H. S. Smith entertained the members of the Bridge club yesterday afternoon.

The members of the Y. M. C. A. who are to take part in the minstrel show next month held a rehearsal last night.

George A. Newett, who has been in Arizona for the past two months, will leave Bisbee in a few days and will arrive home early in April.

Mrs. Richard Matthews, who has been in Duluth since the death of her brother-in-law, the late Captain Joseph Seewood, arrived home yesterday.

Workmen were employed yesterday repairing the water main on North Main street, opposite the Selloood block, where a leak was discovered Wednesday.

Will and Gordon Rogers arrived home yesterday from Chicago. Gordon, who was taken down about a month ago with pneumonia, will remain at home for a month.

Births recorded in the city yesterday were a daughter to Mr. and Mrs. Vincenzo Sestito, 312 Junction street, and a daughter to Mr. and Mrs. Emil Vuorei, 227 Hill street.

The employees of the Cleveland-Cliffs Iron company will receive their pay for the first half of March as follows: Hard Ore, Lake and Cliffs shafts, next Wednesday, the 25th; Salisbury and North Lake districts, the 26th; Negaunee district, 27th and Gwinn district, 28th.

J. F. Grenbeck, proprietor of the Ishpeming Cloak & Suit company, is here from Fond du Lac, Wis., for a few days, assisting at the closing out sale of his stock in the Martley block. The sale has been wonderfully successful and Mr. Grenbeck hopes to wind up his business here soon.

Braastads Great White Sale, tomorrow and Monday.

DANCING IN DIFFERENT LANDS.

The men and women of races spread all over the world have shown a marvellous skill and patience in imparting rhythm and music to the most unlikely, the most rebellious regions of the body, all wrought by desire into potent and dazzling images. To the vigorous races of northern Europe in their cold damp climate, dancing comes naturally to be dancing of the legs, so naturally that the English poet, as a matter of course, assumes that the dance of Salome was a "twinkling of the feet." But on the opposite side of the world, Japan, and notably in Java and Madagascar, dancing may be exclusively dancing of arms and hands, in some of the South Sea islands even the hands and fingers alone. Dancing may be carried on in the seated posture, as occurs at Fiji in a dance connected with the preparation of the sacred drink, ava. In some districts of southern Tunisia dancing, again, is dancing of the hair, and all night long, till they perhaps fall exhausted, the marriageable girls will move their heads to the rhythm of a song maintaining their hair in perpetual balance and sway. Elsewhere, notably in Africa, but also sometimes in Polynesia, as well as in the dances that had established themselves in ancient Rome, dancing is dancing of

ROYAL

The Standard for Baking Powders the World Over is an Absolutely Pure, Cream of Tartar Baking Powder

CREAM OF TARTAR is the crystallized acid of grapes refined to absolute purity and ground to a creamy flour.

Highly refined products of the grape, properly combined with bicarbonate of soda and a little corn starch to absorb atmospheric moisture, are the sole ingredients of the ideal, high-class, standard baking powder.

Many acids have been tried during the last hundred years to find a substitute for the grape cream of tartar which would cost less.

Cream of tartar powders being healthful themselves, add to the healthfulness of the food.

MANY NEW BOOKS.

List of Recent Additions to Peter White Public Library.

Within the past few weeks nearly two hundred books have been placed on the shelves of the Peter White Public Library.

- List of recent additions to the Peter White Public Library, including titles like 'The Adventures of Captain O'Shea', 'The Pirates of the Caribbean', and 'The History of Painting'.

Says It's the Best Remedy

Has kept Joseph W. Spiers in health for so long a time that he recommends Duffy's Pure Malt Whiskey to anyone who wants a good medicine.

"I have been using Duffy's Pure Malt Whiskey for a long time and find it to be a very good remedy—the best I have ever used, and I can recommend it to my friends, also anyone who wants a good medicine."

The words of commendation this wonderful tonic stimulant receives from people holding responsible positions in life has done more to spread the truths of its benefits to mankind than anything we can say in print.

Duffy's Pure Malt Whiskey

has been before the public for half a century and its medicinal value is undoubted. It is an absolutely pure distillation of carefully malted grain.

Sold in sealed bottles only by most druggists, grocers and dealers, \$1.00 a large bottle. If in need of advice, write our Medical Department.

Word has just been received of a further modification of the parcel post service that is likely to add to its popularity and utility.

LAKES CRUISE DURING AUGUST

Marquette Division of Michigan Naval Brigade Will Have a Two Weeks' Trip, Visiting Prominent Cities—Voyage to the Panama Canal to Come Later.

Reserves Here Will Undergo Physical Tests This Summer, as Provided by New Law—Members Are Making Preparations for Parade on Decoration Day.

The naval reserves fleet of eight vessels on the Great Lakes will and the summer cruise this year at Detroit, according to information obtained by Grant Stephenson, of Wells, commander of the Michigan naval brigade and captain of the training ship Yantic. Commander Stephenson is in Washington at present. He is attending a meeting of the officers of various naval brigades.

The point at which the eight vessels will gather to begin their cruise this summer has not yet been determined, according to the officers of the navy department. Commander Stephenson expects that the cruise will extend from Aug. 10 to Aug. 24, and that several days will be spent in the vicinity of Mackinac Island. The members of the Marquette division, which is included in the Hancock battalion, are showing much interest in the plans for the Great Lakes maneuvers, as well as in the proposed trip to Panama, which is expected to take place in the fall.

Physical Tests This Summer.

Under the provisions of the new naval militia law, the divisions must meet certain standards of equipment and the men in the militia must pass prescribed physical tests. Three years' time is given to each division in which to make good. Referring to the new law, Commander Stephenson said: "I believe the Michigan naval militia can meet the requirements today, so we are anxious to have the board of officers of the navy department give the battalion at Detroit and the battalion at Hancock the test as early as possible. The navy department does not know when the officers will be sent, but it is not probable the board will visit the Great Lakes' cities for three or four months."

The physical examination of the men composing the Marquette division was to have been made by the officers last fall, but, owing to some important matters arising at that time, it was deferred. The new naval militia law provides that the militia shall be supplied with \$200,000 annually from the federal treasury for equipping the battalions in the various states. It makes the men subject to the call of the president, who formerly would have had to call upon the states before the men could be mustered into active service. The law specifies that each of the reserves shall spend at least thirty days on one of the battleships of the navy.

Parade Decoration Day.

Plans are now being made by the Marquette division for the observance of Memorial Day, May 30. Commander Roy Rydholm is making the arrangements, which will include a parade, together with the members of the Albert Jackson post, G. A. R. Other plans for the observance of the day will be mapped out shortly.

Drills are being conducted by the Marquette division every Thursday evening. The attendance is excellent. Many of the reserves have commenced to specialize in one line of work, which will benefit them greatly, especially on the cruises. Last evening much of the time was given over to signal practice.

COURTNEY STOOD PAT.

Candidate Confined His Efforts to Appeal Through Organization.

Yesterday, commenting on developments at Washington in connection with the Marquette post office appointment, The Mining Journal quoted a Democrat who said that at the same time effort was being made to discredit in Washington Judge O'Brien's interest in the Marquette situation, he was being sought in an effort to have him nullify his stand in favor of Mr. Byrne.

"I find some misapprehension has arisen as a result of the statement in The Mining Journal," this man asserted yesterday. "To correct it I may say that I am satisfied that J. S. Courtney made his appeal entirely through the organization, and at no time was an applicant for the support of Judge O'Brien. As has been stated, Mr. Courtney entered the contest as an organization Democrat, and he maintained that stand throughout."

Word was received yesterday from F. S. Byrne, the appointee to the office, that he would remain in Washington a few days and would visit in Baltimore before his return. He will take charge of the office early in April, at a date to be determined later.

CITY TEAM TO COPPERDOM.

Will Play Engineers and Mining College Men Next Week.

Friday and Saturday of next week the Marquette city basketball team, claimant of the championship of the upper peninsula, will play the teams of the Calumet Engineers and the Michigan College of Mines on their home floors. Both copper country teams were defeated by the Marquette quintet in games played here.

The Marquette players will not play the Calumet Y. M. C. A. on the forthcoming trip, that team apparently not being desirous of meeting the Queen City septet in a return game. Up to the present the Marquette five has won every game during the season. The players who will make the copper country trip will be: Joe Ring and Burton Frei forwards; Catlin, center; Christensen, Peterson and Lindstrom, guards.

SPECIAL SALE.

Ladies' and Children's Winter Coats and Ladies' Winter Suits and Dresses at Half Price Today. L. GETZ Department Store. (1-20-14.)

SURPRISES THE SHERIFF.

Hayco, Shackle King, Gets Out of Hand-cuffs at County Jail.

In a remarkable demonstration of how he can free himself from all manner of handcuffs, straight jackets and other contrivances of like nature, Hayco, known as "the Siberian shackle king," opened a three days' engagement at the Marquette Opera House last evening. His performance was watched with the greatest wonderment.

Yesterday afternoon Hayco visited the Marquette county jail and, before a group of spectators, was locked with the various handcuffs kept at the institution. He freed himself from these readily, without the use of a key. Today he will be locked in one of the cells at the jail, and he maintains that he will be able to release himself within a short time.

Hayco's greatest feat in his opera house act is to free himself from chains with which he is bound by numerous handcuffs, three around his wrists. One of the cuffs used last evening belonged to a member of the Marquette police force.

Hayco performs many remarkable

feats. Four years ago, with his wrists bound with three pairs of handcuffs, he leaped from the Belle Isle bridge at Detroit, and, upon coming up for the third time, had removed all of the wristlets.

APPEALS FOR PROBATION.

Willard Comer, Marquette Convict, Says He Is Victim of Society.

Willard Comer, a convict at the Marquette prison, sentenced from Kalamazoo to a term of five to fourteen years for forgery, has written to acquaintances in that city an appeal for probation. He says that he desires to make something of his life. Comer was sent to a reform school when eleven years of age. He is now twenty-four. The following are extracts from a recent letter he has written:

"We have invented a use for every drop of blood and for every hair, and we boast of our economy and waste no part of the critter. But we throw the whole man in the garbage pails of society if he wears one blemish or fails in one obligation of the law. We saw the blasted limb from the tree to save his life, but we force the wearer of a blasted name to wear his snitch to perdition. The mightiest mission of civilization is still before the world and the noblest ambition of charity is yet to come.

"The universe is satisfied with material wealth but hungry for simple kindness. It is only from having suffered ourselves that we learn to pity and forgive. The judgment of the inexperienced is hard and cruel. They have had no experience of sorrow to teach them that our misfortunes are not all of our own making and how often we can do our best and yet fail.

"It is the experienced, those whose eyes have been washed clean with tears, who have stumbled and fallen and picked themselves up again and again who know how, in the conflict, the bravest heart often falters and the strongest hand often grows weary, who have no word of reproach for the vanquished."
