

DEATH ROSTER NOW UPWARDS OF A THOUSAND

Official Figures Given Out by the Canadian Pacific Steamship Company Raise the Number of Victims of the Empress of Ireland Disaster to 1,024.

Total Saved Is Placed at 452, of Whom 232 Are Officers and Members of the Crew—Of the Twenty-One American Passengers Aboard Only Six Survive.

Quebec, June 2.—The confusion as to the number of persons who perished in the Empress of Ireland disaster last week has been one of the distressing features of the tragedy.

Last Friday the company stated at its Montreal office that the Empress carried 1,287 persons when she weighed anchor on her final and uncompleted voyage.

The names of twenty-one American passengers who were on the Empress of Ireland when she went down are contained in an official report sent by the American consul here to the state department in Washington tonight.

Only About 200 Bodies Recovered. Of the 1,024 who died, the bodies of only a few more than two hundred have been recovered.

The names of the American survivors given by the consul are: Charles Clark, Detroit; Mrs. George C. Richards, Terre Haute, Ind.; Rudolph Bach, Rochester, Minn.; Miss F. H. Dunley, Deaver, and Evan Karalaski, Duluth, Minn.

American lost whose bodies have not been found or identified are: John Fisher, M. W. Mauney, H. L. and A. J. Heath, Chicago; George C. Richards, Terre Haute, Ind.; Alexander Banthorne and George Johnston, Santa Barbara, Calif.; the Misses Jessie and Florence Bawden, Hillsboro, Ills.; A. Martier, Indianapolis, and Miss Eva Searle, Seattle.

Collier's Stem Badly Twisted. Montreal, June 2.—The collier Stordstad, which rammed the Canadian Pacific liner Empress of Ireland in the St. Lawrence river last Friday, causing the loss of more than a thousand lives, completed unloading her cargo of coal today and it was possible to make a thorough inspection of her bow, shattered by the shock of the collision.

Registered Laid a Total Loss. According to the statement of the Montreal postoffice officials, the heavy register of the Empress of Ireland was a flying will join in training and in the reports dated Book No. 1913.

GUNNER IN JAIL. DANIELS' SALUTE ONE BOOM SHORT. Annapolis, Md., June 2.—Because he failed to count correctly or in some other manner missed the number of guns being fired when Secretary of the Navy Daniels was a visitor at Annapolis last Saturday, a chief gunner's mate at the Naval academy is in the "brig" of the station ship Reina Mercedes.

INTERESTED MAIL, amounting to 1,903 packages, which went down on the Empress is a total loss and there will be no compensation for the senders or addressees of those packages.

SPANISH POLITICIANS FIGHT DUEL WITH SABERS; BOTH MEN ARE WOUNDED. Madrid, June 2.—Antonio Maura, son of the former premier, and Radical Deputy Rodrigo Soriano fought a duel with sabers today.

But the Deadlock Is to Continue, It Appears—"Anything Coming from the Federals Will Receive No Consideration," a Constitutional Statement Avers. Buletin.

Washington, June 2.—Upon being informed tonight that the Mexican delegates at Niagara Falls had announced the willingness of General Huerta to resign, once Mexico "is politically pacified," the Constitutional agency authorized this statement.

HAMMERS WIELDED BY SUFFRAGETTES

Ejected from a Lloyd-George Meeting, Militants Wreak Vengeance on Windows. Criccieth, Wales, June 2.—Suffragettes today visited the constituency of David Lloyd-George, while the chancellor of the exchequer was addressing an open-air meeting.

Performance Staged at Buckingham. London, June 2.—Two young militants this afternoon chained themselves to the main gates of Buckingham palace.

Aron Plot Is Frustrated. Leicester, Eng., June 2.—An attempt by the suffragette arson squad to burn a mansion was frustrated today by the timely discovery of fire under a staircase on which inflammable materials had been piled.

N. E. NELSON OF DULUTH DIES IN AUTO WRECK. A. A. CORNELL, of Northfield, Minn., Also Is Killed When Motor-car Overturns. St. Paul, Minn., June 2.—Two men were crushed to death and four women and one man narrowly escaped a similar fate three miles from Farmington, Minn., today, when an automobile in which the party was riding from Northfield to St. Paul overturned and rolled into the ditch.

Proposed Plan of Government. The Mexican delegates tonight telegraphed General Huerta to send them as once the names of the men who will be satisfactory to him for places in the new provisional government to consist of two men chosen by Huerta, two by the Constitutionalists and a neutral provisional president selected by common agreement of all the parties.

WHITMAN.

District Attorney Whitman, the best advertised district attorney in the country, will seek the Republican nomination for governor of New York.

The low order of Democratic administration in New York state since Mr. Murphy nominated Dix for the governorship makes the situation one in which independent voters will not be likely to take any chances on existing voters.

The low order of Democratic administration in New York state since Mr. Murphy nominated Dix for the governorship makes the situation one in which independent voters will not be likely to take any chances on existing voters.

Mr. Whitman has been his own man in New York county and would no doubt be his own man in Albany.

A WISE DECISION.

Representative Bayliss is well advised in declining to enter with Judge Yelland an elimination contest in the seven upper peninsula counties, to determine which man shall be the sole candidate in this end of the Eleventh district.

These considerations aside, it appears that Judge Yelland gave Mr. Bayliss abundant reason for refusing to entertain any proposal whatever when he outlined the wild terms that it should be agreed that the winner would pay all the loser's expenses and assure him control of patronage in his county.

It is well there is to be no elimination contest. When Representative Hinkley of Emmet county decided that he didn't want to remain in the race in the Eleventh district, he got out.

A contest between Senator Scott and Representative Bayliss would be between two men who have had legislative experience and who in acquiring that experience have made records that are open to the public's inspection.

But if Judge Yelland is in, he is in, and we have a condition, not a theory. The contest will be none the less between Senator Scott and Representative Bayliss.

THAT LONG VACATION.

Soon the city schools will be closing for ten weeks' vacation, remarks the Grand Rapids Press. July, August, Well, it is the custom. July, August, the last two weeks of June and the first of September are reckoned too hot for school going.

Quite hopeful of mediation, Judge Lamar is quoted as saying. Judge Lamar will come up to many persons' ideas of what an optimist should be.

much of their old efficiency. Too many stars, by far, indeed. Semi-pro baseball will never thrive on lopsided scores.

A LAUGH OR TWO

No Change. "The late S. R. Crockett, the author of 'The Stickit Minister,'" said a New Yorker, "was an invalid for years, and yet disliked doctors cordially."

Not on Himself. Representative Hobson was talking about the difficulties of the prohibition legislation on which, for many years, he has worked.

Under and Over. Upton Sinclair, in a lecture in New York, said of a certain type of multimillionaire:

Cutting and Polishing. Holman Black was congratulated in Denver after a particularly eloquent sermon. On his mastery of the pulpit oratory.

Good Excuse. A hunter over in the mountains once had a dinner with a querulous old fellow who was complaining about hard times.

On Bachelors. Nat C. Goodwin reproached, at an after-theater supper in New York, a bachelor for his bachelorhood.

Up in the Air. "General Funston," said a man just back from the Mexican front, "was admiring one day in Vera Cruz the splendid flying of one of our army airplanes."

Modest Remarks. Representative Percy E. Quin, of Mississippi, lives in a section where magnolia trees are perhaps a little more numerous than they are anywhere else in the country.

General Felix Diaz is hanging around the outskirts of the Niagara Falls negotiations. He finds the hanging around there much more pleasant and safe than he did in Mexico City.

EDITORIAL OPINION

A Canadian Draw-back. A large part of the distance between Canada's chief seaport and Europe is covered by river navigation. On the map it looks much safer than the vast expanse of the open ocean.

Of course the exact opposite is the truth. The fogs of the St. Lawrence and the gulf of the same name into which it flows are a serious hindrance to the maritime traffic of Montreal. The narrow river channel is much more dangerous than the open sea.

Answering the proposal of Judge Yelland for an elimination contest in the upper peninsula counties, Representative Bayliss returns a polite negative, saying that it would accent sectional lines in the primary fight, a thing about which too much is heard already.

engagement, but in doing so he wrote a letter to Mayor Weaver, putting on record his opinion of the Penrose machine. Urging the mayor to do his utmost to secure the indictments, Mr. Root said:

There is more at stake here than the mere punishment of isolated offenses. There is the question whether your city shall continue to be governed by criminals or shall take its place on the list of American cities capable of honest self-government. I have taken very great interest in the cases because I have acquired absolute confidence in the sincerity of your purpose and in your pluck and persistency.

When leading Republican papers and prominent individual leaders of the Republican party thus indicate their belief that Senator Penrose is a menace to his state, as well as to the Republican organization, many of the honest, independent Republicans of Pennsylvania feel disinclined to support Penrose, even though he has secured a renomination in apparently regular form.—Oshkosh Northwestern.

Huerta's Title. The Mexican constitution provides, in case there is a vacancy in the presidency and the vice presidency, that the foreign secretary shall succeed as provisional president.

The effect of fear. There was a noticeable diminution of trans-Atlantic travel after the Titanic disaster. The effect of the sinking of the Empress of Ireland is already apparent. Reservations have been cancelled at the offices of many of the lines. It is impossible to estimate how many intending tourists have abandoned their plans.

Such results are natural. A perusal of the details of the Empress horror cannot fail to have a deterring influence. Men and women picture themselves in a position similar to that of the victims of the catastrophe. Apprehension and nervousness would seriously mar the pleasure of their vacations. They prefer the safest form of travel.

It is this nonsense to contend that Huerta succeeded to the Mexican presidency in a regular manner and that he has a transmissible title.—New York Globe.

POLITICS

Lieutenant Governor Ross has announced definitely that he will not be a candidate for governor. It has been generally expected that sooner or later he would declare "himself out of the contest, although he had been flirting with the idea of being a candidate for some weeks past.

Dana H. Hinkley, of Emmet county, who recently announced himself a candidate for the Republican nomination for representative in the Eleventh district, has now followed the example of Grant T. Stephenson, of Wells, and taken himself out of the race.

I have seen shell-games and others, but this was as simple as the game of heads I win, tails you lose. Mr. Grant T. Stephenson in announcing his withdrawal several weeks ago, charged that you had admitted that you did not bid for the position of representative in the Eleventh district from you so far as I am aware. If Mr. Stephenson's statement is true and you do not expect to win, why are you a candidate? You also indicated in a letter to Judge Rumels of this city that you did not expect to carry your campaign into that part of the district lying below the straits. You no doubt have consulted the election statistics, and if so, you are aware that you must secure thousands of votes below the straits, or you have no expectation of winning. Why are you now a candidate? Having been assured that I will not talk patronage with you, do you still expect to secure it through someone else? Now, Judge, I really do expect to win, and we will have the good people to know that, should I be nominated and elected, I intend to do my utmost to represent all of the people throughout the entire district. Judging from your attitude, your ambition seems to be along a different line, therefore, there can be no reason why you should not continue to be a candidate, and give the people a chance to vote, if they wish, for the political ideas you seem to represent. I have no desire to make any deal with you or with any other person. I have never sought to win a political contest by manipulation of the wires, having always gone straight to the people who will ultimately decide this contest. These people—the rank and file—spoken of so frequently by you, are the party no good. It is bound upon my case in the August primaries. My candidacy is now in their hands, and it gives me much comfort and pleasure to know that they are to be the jury in this case. I shall await their verdict on the night of August 25, and will cheerfully abide by it, whatever it may be. The Rockland Reporter says of the congressional situation in the Twelfth district: "It seems to be the determination of the Republicans in Houghton county to, for some reason or other, create dissension in their ranks again this year and possibly send a Democrat or something else to congress. "We surmise this from their action in placing James T. Fisher, a Calumet banker, in the field against W. Frank James. This looks like a mighty poor move, at a time when it is more than ever necessary for the party to present a solid front. "In W. Frank James the party has a sure winner. His work at Lansing has proven his calibre and entitled him to any honor the district is able to confer upon him, knowing from experience that he will represent us faithfully and ably in Washington. He is popular throughout this whole district and the state, and we have no doubt he will receive the nomination; but the fight will do the party no good. It is bound to cause dissension, and this is harmful. "As to Mr. Fisher, while the man may be able and above reproach, an idea is prevalent that he is being put forward by the mining interests as their candidate. However this may be, we think his chances in the primaries outside his own immediate locality are small."

Today's weather: Fair and warmer. Yesterday's temperature: Seven at 10; 39 degrees; noon, 79; 7 p. m., 66; highest, 77; lowest, 49.

T. Lindsay has gone to Chicago on business. Tom Clancy was here from Ishpeming yesterday.

Al G. Goodney was in the city from Ishpeming yesterday.

F. C. Moore, of Duluth, was a business visitor in Marquette yesterday.

R. A. Moder, of Calumet, spent yesterday visiting friends in Marquette.

A. E. Delf left last night for Detroit, where he will spend a few days on business.

John M. Millar, of Escanaba, spent yesterday in Marquette transacting business.

The C. I. A. to the B. of L. E. will meet this afternoon at 3 o'clock in Keough's Hall.

Charles T. Jones, of Detroit, a former resident of Marquette, was in the city yesterday, visiting friends.

Mayor Begole and Dr. R. C. Main, city health officer, inspected the cattle at the Roycroft dairy at Sidway yesterday.

The senior class of the Marquette high school gave its annual picnic at Presque Isle Monday evening. A dance was held in the pavilion afterwards.

The fire department was called out early yesterday morning to extinguish a blaze at the old Grace furnace dock. This was the second time that the dock has been afire in three days.

Joseph H. Primeau, Jr., left yesterday morning for Detroit on account of the reported seriousness of his father's condition. Mr. Primeau Sr. has been removed from his hotel to the Grace hospital. He was injured when a false wall caved in.

**Infant Dies**—Leo Francis, infant son of Mr. and Mrs. Fred Gingrass, of Baraga avenue, died at 11:20 o'clock last night. The funeral will be held at 2 o'clock this afternoon at St. John's church. Interment will be in Holy Cross cemetery.

**Marine Activities**—The Cleveland City steamer Andaste unloaded a cargo of coal at the Pickands dock yesterday. The large Thompson will discharge today a cargo for the South Shore railway. At the Presque Isle dock, the steamer Niagara is unloading steel rails for the L. S. & I. railway.

**Octorara Due Saturday**—The Octorara, the first of the Anchor Line passenger steamers to arrive in Marquette this season, is due to tie up at E. B. Spear & Son's dock Saturday. She arrives at 8 a. m. and departs at 9. But very few inquiries have been received so far for passage on the Anchor Line and the first few trips will be mostly to the handling of freight. A good passenger business is looked for during the latter part of the month.

**Chicago's Mayor Here**—Mayor Carter Harrison of Chicago, accompanied by Oscar E. Mayer and William Demmie of Chicago and William Hamilton and N. W. Campau of Detroit, was in Marquette yesterday morning on his way to the Iron Mountain club, where he will spend a few days. The mayor had words of praise to offer for the progressive appearance of Marquette. He commented both on the appearance of the streets and the general beauty of the city.

**Experiment on Potatoes**—J. W. Blosser, a graduate from the Winona Lake Agricultural college, will superintend the raising of Sir Walter Raleigh potatoes on a twenty-acre Skandia farm owned by A. T. Roberts of Marquette and R. P. Bronson of Ishpeming. The experiment is designed to test the belief of Colonel C. W. Mott, manager of the Upper Peninsula Development bureau, that an exceptionally good quality of potatoes can be grown on land in the upper peninsula, if properly cared for. The crop will be marketed in the fall.

**More Marriages**—The marriage license business at the county clerk's office has picked up considerably in the last few days. Yesterday five licenses were issued, and on several occasions previous as high as four have been granted in one day. Until a week ago only one license was issued a day and many times there was an interval of many days between licenses. Those who were given licenses yesterday were: Gustave E.

Johnson of Negaunee and Miss Hulda Marie Olson of Crystal Falls; Charles Rutledge of Marquette and Miss Maude Ellis of Gwin; Hans Richard Anderson of Tilden township, and Miss Leontina Anderson of Iron River, and Leander Jarvela and Miss Wilhelmina Friman of Humboldt.

**INSURE WITH PETER WHITE & CO**  
**FAVORS BUYING DOCK SITE.**  
 Committee of Commercial Club Passes Resolution Favoring Purchase.

At a meeting of the ways and means committee of the Commercial club, held last night in the band room of the city hall, a resolution favoring the purchase by the city of the dock site of the old Grace furnace, to be used as a municipal dock, was passed. The members of the committee expressed the belief that this would be a great asset to the city. The means of raising the money for the purchase were not discussed.

The committee favored the establishment in Marquette of a central delivery system, but took no definite action in the matter. The inauguration here of a bureau of credits was also discussed informally, action being deferred until Monday evening, June 15, when a special meeting of the committee will be held. At that time, the purchase of the Grace furnace site will be further discussed and some action taken in regard to establishing a bureau of credits and the central delivery system.

Due to counter attractions, last night's meeting was not fully attended. It is the desire of the committee to have the opinion of each of the members on the three projects that are pending action by the body, and for that reason it was decided to discuss them only informally, until the opinion of all of the members have been brought out. Most of the members of the committee are merchants, and it is thought that, since all three matters are of vital importance to the commercial interests of the city, the whole committee should pass upon the projects.

**WORKED MEN TOO LONG.**  
 Interstate Commerce Commission After Chicago & Northwestern Railway.

Complaint has been filed in the United States district court by the interstate commerce commission against the Chicago & Northwestern railroad for the alleged violation of the eight-hour law. The complainant alleges that the company allowed the following employees to remain on duty for a period more than sixteen hours during twenty-four: E. A. Cox, E. C. Kramer and J. P. Croner, engineers, and E. Sorlie, A. Logan and James O'Brien, firemen. A judgment of \$3,000 and costs is asked.

**HAVE NEW METHOD OF PILING LUMBER**  
 Money and Time Saving System Is Instituted in Iron Mountain Yard.

The G. von Platen Lumber company, with offices in Grand Rapids and mill at Iron Mountain, has a piling yard quite different from the yards that most Michigan operators have in use. The almost universal way of piling lumber is to build tramways out into the piling yards, about fifteen feet up from the ground. The lumber as it comes from the endless chain grading carriage is loaded on two wheel trucks so evenly balanced that the horse and two elevated truck that haul it out to the yard can be backed under it and if then can be chaired down for hauling.

From each of the tramways the lumber is piled on both sides from fifteen feet below the tramways to fifteen feet above in long even rows. Then between each of the rows of piles the railroad track runs in the ground level so that it is between two rows of piles. Pilers can load the cars from both sides of the track.

At the von Platen mills they do not have the elevated track for hauling the lumber out, but use the railroad track both for hauling the lumber to be piled and shipped out by rail after piling. In place of the lumber being loaded on two wheeled trucks from the grading carriage they have a heavy four wheeled railroad truck on which is built a platform ten feet high. These cars back up to the grading carriage and the lumber is placed on them to be hauled to the piling yard; the elevated platform on the cars takes the place of the tramways, their height giving the pilers clearance to commence piling on the ground ten feet below the truck platform level, and then carrying the piles up ten to twelve feet above the platform level. Both the old elevated tramways and the elevated truck platform are to make it easy for the pilers for if the lumber had to be piled from the ground level it would be almost impossible to make the piles twenty-five feet to thirty feet high as they now are and if piles were only ten feet high it would take twice the piling space and necessitate building twice as much track to get to the piles.

One of the benefits of the elevated platform truck plan is that lumber will dry out quicker, for the track being on the ground gives the air a good chance to blow down through the space occupied by the track. With the elevated trams the underpinning obstructs the circulation of air so that the bottom of the piles, that most need the air does not get it so freely with the track on the ground, and the elevated platform car method of hauling.

**Makes Big Saving.**  
 By this new method, the original cost at the tramways is avoided and as the original cost for tramways for a mill cutting 15,000,000 feet per year is about \$7,000, this yearly saving at 6 per cent, would be \$420 per year. Then the tramways need continual repairs that amount easily to \$300 annually, making the tramway method cost \$1,000 a year more than the von Platen method. The original cost of the elevated platform truck is probably about the same as the tramway method. On the other hand the new method has its disadvantages because it requires more piles and therefore larger piling space, because when piling lumber along the same track, and it is desired to get lumber from some of the piles to take to the planer, or are loading three or four grades on the same car, you are delayed in the work unless

DONATES MUCH SPACE TO DESCRIBING CITY

Christian Science Monitor Publishes Long Article on Marquette and Its Advantages.

Upon request of the Christian Science Monitor, the Marquette Commercial club and the Woman's Welfare league recently furnished information for a lengthy article which appears in the Tuesday (May 26) issue of that publication.

"Few cities of its size are more favored or enjoy more distinctions than Marquette. In addition to being called the most attractive city in northern Michigan it is the wealthiest. Not only is it a center of culture but it is a peer among cities in governmental affairs.

"The city has thirty-two miles of improved streets, graded and macadamized; sixteen miles of curbs and gutters and thirty-five miles of concrete walks. Nearly 120 miles of macadamized roads radiate from the city, which was a pioneer good-roads advocate. The water-plant is municipally owned and the sewer system represents an investment of \$1,500,000. The city property has a value estimated at \$1,500,000. Its bonded indebtedness is \$246,000.

Park Is Kept Natural. "There are three beautiful parks. Presque Isle park, one of the show places of northern Michigan, contains 203 acres. It was a gift of the federal government to the city, and is visited annually by hundreds of persons from all parts of the United States.

Achievement Through Unity. "The Commercial club is primarily a business organization, but its constitution and by-laws place no limit on the scope of the club's work. The Welfare club was formed for the express purpose of bettering civic conditions; the city commission was elected on a platform of progress. The combination is a strong one of commercial, industrial and civic interests.

People Have Ideals. "This is Marquette's way of doing business. The same earnestness of purpose has made it a morally clean city, where living shows regard for ideals.

SAYS RELIGION MUST BE MORE THAN ABELIEF

Jacob Shield, Christian Science Lecturer, Expounds Theories of Doctrine.

"The Religion of Divine Law" was the subject of an interesting lecture delivered before a good-sized assemblage in Fraternity Hall last night by Jacob S. Shield, a prominent Christian Scientist and a member of the board of trusteeship of the First Church of Christ, Scientist, of Boston, Mass.

"Thoughtful men are beginning to realize that religion must be more than a mere belief. They are learning that it cannot be inherited, transferred nor adopted; that it is not the chattel of any particular organization or church, and that it is not acquired by fasting or feasting.

The Mission of Christ. "Only one man has lived upon this earth who can be referred to as a perfect or ideal thinker, the man Christ Jesus. Many honest Christian people believe Jesus to be God, and address much of their prayer and worship to him.

Healing by the Early Christians. "Jesus taught his disciples how to heal the sick and reform sinners, and they in turn taught others, so that, as history records, the healing was practised nearly three centuries after the crucifixion, and then it became so densely overshadowed by the evil in mortal mind that the human consciousness could no longer retain it.

Upper Peninsula

Escanaba Taxes Lighter This Year.

It is estimated by A. J. Pappin, city clerk, that the valuation of the taxable property in Escanaba will be at least \$150,000 higher than it was last year. The valuation in 1912 was \$3,918,110. In 1913 this amount was increased to \$4,132,705.

Senator James Not Worrying. Senator Frank James, of Hancock, spent Saturday night with friends in the city, enroute to his home from Crystal Falls, says the Iron Mountain Press.

AN ORDINANCE AMENDING SECTIONS THREE, FOUR, FIVE, EIGHT AND THIRTEEN OF AN ORDINANCE RELATIVE TO PUBLIC MARKET AND PUBLIC SCALES.

The City Commission of the City of Marquette ordains: Section 3. That sections three, four, five, eight and thirteen of an ordinance entitled, "An ordinance relative to public market and public scales," be amended to read as follows:

Section 3. The public market and public scales shall be maintained and conducted through the department of public health and safety and be kept by a market master to be appointed by the Commission on the nomination of said department, who shall serve during the pleasure of said department and the Commission, and shall perform such duties and receive such compensation as shall be prescribed by such department or the Commission, and gives such bond as may be required by the Commission.

Section 4. The market master shall be the market keeper and shall be the city weigh-master, and under the direction of the department of public health and safety and the Commission shall have the care and management of the public market and the city scales. He shall have and exercise all the powers of a policeman.

Section 5. The public market and public scales shall be subject to such rules and regulations as may be prescribed by the Commission. Unless otherwise ordered by the Commission or the department of public health and safety, the public market shall be kept open for all appropriate business during such hours of each week day as the Commission or said department shall direct; and on Sundays the market shall be kept open only for stabling of animals during such hours as may be directed by the Commission or said department.

It's the Quality that sells Camels—not Premiums. No matter how much you pay for cigarettes—5c, 10c, 15c, 20c or 25c—you simply haven't got enough money to buy a smoke in the same class with Camels!

Don't look for premiums or coupons in Camel cigarettes. The cost of the tobaccos prohibits their use.

TAMARACK.

Losing Money by Operating, but Less Than by Lying Idle. Tamarack is earning no profits from mining, but loses less money by operating than in lying idle and piling up fixed charges for pumping, taxes, etc., says the Boston News Bureau.

Shaft 5 has been hoisting rock for two weeks.

There are 109 men underground working in the shaft, and the working force at Tamarack just now of around 225. The total Tamarack personnel at full working strength should number 450, and this number will be reached in a few weeks.

Shaft No. 3 is enjoying the finishing touches of repair work and is about ready to begin hoisting rock.

Its production at grade should be similar to that of No. 5. Plans just now do not call for opening shaft No. 2 which is tributary to both the Osceola and the Calumet conglomerate lodes.

### CLIFFS DRIVE DISCUSSED.

Fiklen Township Has as Yet Taken No Action for Road Improvement.

The proposed improvement of the Cliffs drive was taken up at the June session of the Ishpeming Advancement association yesterday afternoon. Fiklen township has not done anything towards the improvement of the highway, according to the clerk of the township. The fire department also is anxious to have the highway improved, as the department was considering giving the visiting firemen a ride around the drive as one of the entertainment features during the tournament in August.

A communication from T. L. Christian regarding the improvement of the railway right-of-way in the business section of the city, was referred to the municipal committee. In part it follows: "I have read in the newspapers of the efforts being made to induce the railroad companies to beautify the grounds along their right-of-ways through the business section of the city.

"It is my recollection that when the Marquette and Western railway was built, the city ordinance published in the paper at the time, giving them a right-of-way along Canda street, contained the provision that the railroad company should construct a concrete wall surmounted by an iron fence between their tracks and the street.

"I would suggest that this matter be looked into by the Advancement association. The common council should be asked to request the Duluth, South Shore & Atlantic railway, successor to the Marquette and Western railway, to comply with the ordinance."

### OFFICERS INSTALLED TOMORROW.

Sir Humphrey Davey lodge, Sons of St. George, will meet tomorrow evening to install officers, chosen at a recent session. Those who will be installed are: President—William H. Trevarrow. Vice President—Nicholas Bennetts. Secretary—John H. Williams. Treasurer—Samuel Tremblay. Messenger—Essott Harris. Assistant Messenger—Joseph Thomas. Inside Sentinel—John Brewer. Outside Sentinel—Thomas Carlyon. Chaplain—Ed Hocking. Trustee—Charles Burt. Delegates to Grand Lodge—Joseph Billings, Ed Corey and George Johns.

### MATHER'S GROVE CLOSED.

As a result of the destruction of shrubs and other property in Mather's grove by irresponsible persons, the grove is closed to the public. This is to be deeply regretted, as it is an ideal recreational spot, and the only one in the city. But during the week past considerable damage has been done. The decision to close the grove has been forced by those who have abused its privileges.

### ISHPEMING BRIEFS.

### CROP THRIVING.

Growth Much Ahead of That Last Year at This Time.

That crops this year are three weeks ahead of those of last year is the statement of R. P. Bronson, who has a large acreage south of the city under cultivation. The size of Mr. Bronson's farm is just double that of last year, and the indications are that this season will be the most profitable in many years. Roy Smoker is in charge, and he, together with his brother, J. J. Smoker, own homesteads in the district.

Mr. Bronson's tract consists of about five thousand acres, several hundred of which are cultivated. A great part of the cultivated area is devoted to clover and rye. The ground planted with vegetables is twice as large as that of last year. The alfalfa is thriving excellently. It is expected that two crops will be reaped this year. The alfalfa is now eight inches high. The height of the clover is from six to eight inches. The rye planted last fall has attained a growth of four to five inches.

J. J. Smoker, who owns a tract directly adjoining that of Mr. Bronson, has much of it under cultivation. He will reap an excellent harvest this year.

### Upper Peninsula

#### Water for Man and Beast.

The public drinking fountain on the Mary street side of the Fair Savings bank store at Escanaba has been placed in commission for the use of the public. A bubble cup is constantly belching forth clear, cold water. A large trough provides an easy method for watering horses, and down at the bottom of the fountain is a smaller place for dogs to quench their thirst.

#### Farm Dwelling House Burns.

The dwelling occupied by J. O. Gustafson of Escanaba township and owned by Mrs. B. Murphy of Escanaba has been destroyed by a fire starting, it is believed, from a defective chimney. When the alarm was given both men and women of the Flat Rock settlement rushed to the place and succeeded in saving considerable of the furniture, together with all of the remaining farm buildings. A heavy wind was blowing and other buildings were repeatedly on fire.

#### Two Years in Pen; Then Deportation.

Mike Smolenski, who pleaded guilty to a criminal intent to commit the crime of murder, the victim being Walter Radumski of the Ashland location at Ironwood, was sentenced by Judge Cooper to serve a term of not less than two years and not more than six years in Marquette prison. It having developed that Smolenski came to this country from Russia seven months ago, the court made a recommendation that if Smolenski's behavior proves to be good during the two years, he should then be paroled and deported to Russia as an undesirable.

#### Seed Potatoes Scarce.

The Palatka school, Iron county, has had difficulty in getting enough good seed potatoes this year for the school gardens. An order was placed for twenty-four bushels of Sir Walter Raleigh pure seed potatoes, but that variety is so scarce that only 12 bushels was received and Principal Walsh has been inquiring about the country for more. The boys are determined to carry away more prizes at the county fair than they did last year. In addition to the potatoes, experiments with corn and other vegetable crops will be made. Over 150 tomato plants were set out this spring.

#### Mill Employee Is Badly Hurt.

John Maki, an employee of Chas. Hubbard & Sons, of Bennington, had a narrow escape from death in the mill the other day. Maki was employed on the dump cart and had climbed the elevator to discharge a piece of bark, when his clothing caught on a set screw of a shaft. Nick Anderson heard his screams and released him, though Maki suffered a fractured knee, a broken hip and internal injuries. The shaft also stripped most of the clothing from his body. He was taken to Hancock on the tug Morse. He will be laid up for several months.

#### Died in Cornwall.

Relatives and friends have been advised of the death of Captain John Tregeubio in Cornwall, England. Captain Tregeubio was superintendent of the Babst mine at Ironwood, and was living in Ironwood about twelve years ago. He was alderman of the Eighth ward for several years. He accumulated a fortune in California & Arizona and other copper flotations of fifteen years ago, and retired from active mining. Three sons live at Ironwood—veteran, James and Thomas—a married daughter lives at Dead, S. D., and one daughter is in England. It is understood that the estate has been willed to the children in equal shares.

#### Seney Man Gone; Leaves No Trace.

Mike Mulligan, a well-known resident of the Seney neighborhood, has mysteriously disappeared from his home between that village and Grand Marais, and absolutely no trace of him can be found. The missing man, says the Manistique Courier-Record, left his home the morning of April 2, with the intention of going to Seney to visit a relative for a day or so, but he never arrived there. At Seney he remained over night, sleeping in a hotel chair on account of the fact all the rooms were filled. The night watchman says that Mulligan left the building about half past two, remarking he would continue his trip to Germafast and arrive there by breakfast time. Just what transpired in the lonely darkness of the woods may never be known. But from the moment of the closing of the hotel door the man vanished. Sheriff Howard was notified and a thorough search of the immediate locality was made. There are many deep ditches and marshes into which Mulligan might have stumbled and fell, but they have all been carefully searched, without results. This gives rise to the theory the man may have become suddenly deranged and is even yet wandering aimlessly. However, it is the general opinion in the neighborhood that

Mulligan stumbled in the darkness and fell into some of the numerous ditches or streams which at that time were greatly flooded, and his body was carried into the Manistique river and will some day be recovered from that stream. His wife and other relatives are averse to believe he is dead. He is described as being fifty-two years of age, with mixed gray hair and moustache; two stiff fingers on the right hand; scar across the top of his nose and on right side of his forehead. At the time of his disappearance he wore a blue suit, with a black sweater under his coat, green checked cap and gray soft shirt. He wore No. 10 shoes, and limped, his right leg being slightly crippled.

**Fire Destroys Fine Summer Cottage.**  
Edgewater cottage, at the mouth of Rock River, was destroyed by fire last week. The cottage, built a number of years ago by C. C. Brown, of Chatham, was one of the prettiest and most comfortable in Alger county and its furnishings and equipment were of the best. It contained many keepsakes and some family heirlooms highly prized by Mr. and Mrs. Brown. Nothing was saved from the structure and there was no insurance on it or on its contents. A new steel boat and a wooden row boat owned by Messrs. H. B. Freeman and O. R. Tredway of Munising were destroyed.

**Eruption All Over Child's Body.**  
Began With Small Red Spots. Cried Almost Day and Night. Used Cuticura Soap and Cuticura Ointment. Well in One Week.  
R. F. D. No. 2, Jackson, Mo.—"Our daughter who is ten months old was suffering from an eruption all over the body. In the beginning they were small red spots and afterwards turned to bloody sores. We tried all sorts of ointments but they did not procure any relief for our child. She had no rest day or night and we tried everything to procure relief for our baby. She cried almost day and night and we scarcely could touch her, because she was covered with sores from head to foot. We had heard about the Cuticura Soap and Ointment and made a trial with them, and after using the remedies, that is to say, the soap and the Ointment, only a few days passed and our child could sleep well after one week she was totally well." (Signed) August F. Bartels, Nov. 25, 1912.

**TO REMOVE DANDRUFF**  
Prevent dry, thin and falling hair, allay itching and irritation, and promote the growth and beauty of the hair, frequent shampoos with Cuticura Soap, assisted by occasional dressings with Cuticura Ointment, afford a most effective and economical treatment. Sold by druggists and dealers everywhere. Liberal sample of each mailed free with 32-p. 8kin Book. Address postcard "Cuticura, Dept. T, Boston."  
Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

**Pioneer Soldier Critically Ill.**  
Julius Meisler, Crystal Falls' only veteran of the Civil war who saw actual service, is lying at his home, fighting what seems to be his last great battle against death. Mr. Meisler has been confined to his bed for several months and is reported gradually growing weaker. The aged ex-soldier, who is now seventy-six years of age, enlisted in the Union army in February, 1862, and after twenty-two months of actual service was honorably discharged at Brownsville, Texas, in 1863. He was with Grant during the capture of Vicksburg and took part also in the battle of Chickamauga and the battle of Chattanooga. He also participated in the capture of Mobile.

**Fire Losses Small.**  
Game Warden Andrews is of the opinion that the reports of losses from forest fires in Dickinson county have been grossly exaggerated. He cites the report relative to the "destruction of Alfred," where the loss is placed at \$20,000. Warden Andrews declares that the buildings were old and abandoned camps. It is also stated that the timber loss is small—a few thousand dollars, perhaps. Mr. Andrews states that advices received from the Stephenson company indicate a small loss instead of over \$20,000, as has been printed. Investigation shows that other reports sent out from Escanaba were padded in like proportions.

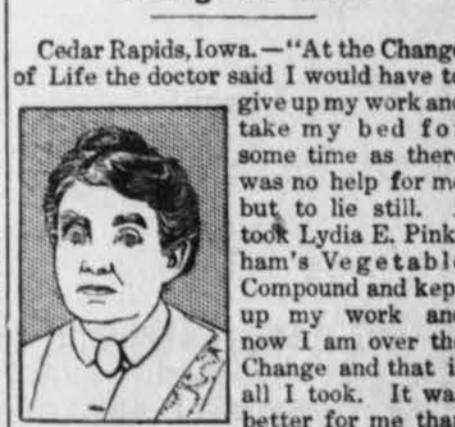

**Newberry Guests Routed by Flames.**  
When the Hotel Murphy at Newberry was gutted by fire at an early hour in the morning, the guests were driven from their beds in scanty attire. The fire alarm was turned in about 3 o'clock, and when the firemen arrived flames were breaking through the roof. Three streams of water were soon at play and hard work the fire was confined to the second story. Meanwhile willing hands were removing the furniture from the first floor and the occupants of adjoining buildings were getting ready to move their stocks of goods. After two hours hard work the firemen had the fire well under control, but the interior of the building was a wreck and ruin. The second story was gutted and the roof burned away in many places, while the damage caused by the deluge of water poured into the first floor was almost as much as that caused by the fire itself. Landon O. Quinn figures his loss will amount to six or eight thousand dollars, partly covered by insurance. As soon as the loss is adjusted work will be started to rebuild the structure. This is the second hotel fire at Newberry within four months, the McLeod house being burned to the ground last February. Only two hotels are now left in Newberry and how the traveling public is to be cared for until new places are built is something of a problem. Contracts for the erection of a three-story brick hotel to replace the old McLeod house have been let. The fire at the Murphy started in room 15, occupied by a guest who was somewhat the worse for liquor when he retired, and was probably caused by a lighted cigar or a pipe. The firemen are given great credit for the way in which they handled the fire, which at one time threatened the entire business portion of the town. The hotel

was a wooden structure, one of the oldest buildings in town and was dry as tinder, and that the fire was confined to the second story is, declares the Newberry News, something remarkable.

**Boiler Explosion Wrecked Mill.**  
A score of lives were saved by the fireman at the Doud Bros. sawmill at Librie when he noticed that the steam gauge had registered the limit. Rushing into the mill, he shouted a warning. Twenty men ran to safety. A moment later the mill was blown to pieces. No one was seriously injured, although there were several narrow escapes. The damage aggregated \$2,500. The cause of the explosion is laid to the failure of the safety valve to work. The mill was destroyed, there being nothing left but a hole in the ground and debris. Many windows in town were broken by the force of the explosion. One of the freaks of the destruction of the mill was the blowing of the boiler door, weighing five hundred pounds, five hundred feet to the Soo Line railroad tracks. Doud Bros. have now lost two mills by fire in Librie.

**IOWA WOMAN TELLS OTHERS**  
How Lydia E. Pinkham's Vegetable Compound Carried Her Safely Through Change of Life.

Cedar Rapids, Iowa.—"At the Change of Life the doctor said I would have to give up my work and take my bed for some time as there was no help for me but to lie still. I took Lydia E. Pinkham's Vegetable Compound and kept up my work and now I am over the Change and that is all I took. It was better for me than all the doctor's medicines I tried. Many people have no faith in patent medicines but I know this is good."—Mrs. E. J. Ricketts, 354 8th Avenue, West, Cedar Rapids, Iowa.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dreads of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetites, weakness and in quietude, and dizziness, are promptly heeded by intelligent women who are approaching the period in life when woman's great change may be expected. Lydia E. Pinkham's Vegetable Compound invigorates and strengthens the female organism and builds up the weakened nervous system. It has carried many women safely through this crisis. If there are any complications you don't understand write Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass.

HUGE AMOUNT PAID IN LIFE INSURANCE

Distribution in the United States and Canada in 1913 Approximated \$646,455,000.

New York, June 2.—Life insurance organizations of the United States and Canada distributed \$646,455,000 in 1913, according to computations by The Insurance Press.

ated in part, that aggregated \$228,250,000. The aggregate of the life insurance written and revived in the United States by the regular companies was almost \$3,360,000,000, the increase amounting to about \$152,000,000.

Increase of Policy Loans.

The unfavorable feature of the transactions in all parts of the United States was the extent of the applications for loans on life insurance policies.

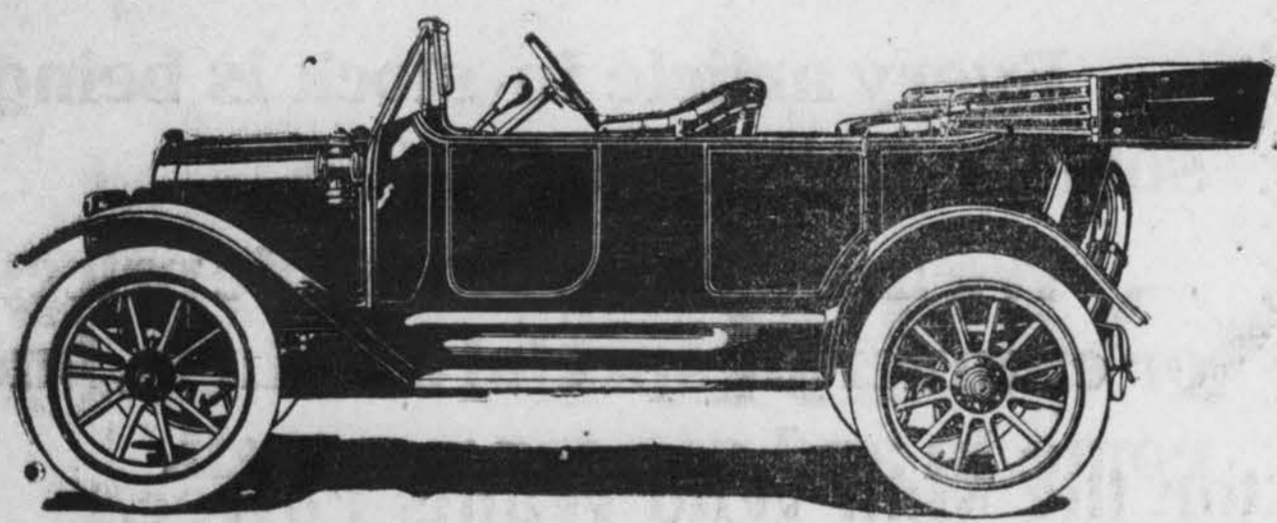

Since 1906 this review of the distribution of life insurance money has mentioned the applications for loans on policies as indications of the fluctuations of business conditions.

and economy of management are the determining factors in the preparation of accounts of the distributions of premium savings, erroneously termed "dividends." Such distributions amounted to more than \$101,200,000 in 1913 for all of the companies of the United States.

Biggest Claim in Year's Record.

The largest claim paid last year was on the policies that had been held by Albert F. Holden, who died on May 18 in his home on the Lake shore boulevard in Bratenahl, a suburb of Cleveland.

After graduation in 1888 he became a mining engineer in Utah, advancing rapidly to the position of managing director of several mining companies in the western and southern States.

The Maxwell \$750 Car

More Automobile for the Money Than You'll Find in Many Cars Selling for \$1000 or More.

In Brief—

A full 5-passenger car; 4-cylinder, 25 horsepower motor, cone clutch; sliding gear transmission; 3/4 floating rear axle; left drive; center control; 56 inch tread; 103 inch wheel base; 30x3 1/2 inch tires, front and rear; actual weight 1685 lbs.

Or to Go Into Detail—

Motor

Motor cast en bloc; 3 3/8 inch bore; 4 1/2 inch stroke; adjustable valves completely enclosed. Extremely large crank shaft for this size motor; all bearings of bronze with babbitt lining.

Simms high-tension magneto furnishes spark direct to plugs. No coil, therefore no vibrators to get out of order. Zephyr carburetor—Atomizer type; no springs to get out of adjustment; Ideal hot and cold air supply controlled from dash to suit starting and running, no matter what the temperature.

Splash lubrication system, made positive in its action by slow moving plunger pump.

Transmission

Selective type transmission—three speeds forward and one reverse. Main drive shaft has Hyatt roller bearings at front end; bronze bushing with babbitt lining at rear. Adjustable cone clutch lined with motobestos—takes hold firmly yet without sudden gripping.

Control

Left drive; 16 inch steering wheel; Gemmer irreversible steering gear. Spark and throttle control rods enclosed in steering column and operated beneath steering wheel. Foot throttle or accelerator pedal with foot rest.

Transmission control lever in center of car is operated by right hand. Emergency brake lever at right of control lever. Clutch and service brake pedals are adjustable. Contracting (service) and expanding (emergency) brakes actuate on 12 1/2 inch brake drums bolted to rear wheels. "Safety First," surely!

Springs and Frame

Easy riding is assured by four springs of semi-elliptic type. Front springs, 32 inches long; rear 40 inches long fixed at front and shackled at rear and mounted on a rocking seat.

The frame tapers from 33 7-16 inches at rear to 28 inches at front—this insures that body rests solidly its complete length.

Body and Equipment

Handsome streamline body—protected from mud and dirt by fully enclosed fenders and convex filler aprons; aluminum hood rest; beaded doors and concealed door handles; scuffing plates; tire holder; two side and one rear oil lamps; 10 1/2 inch gas head lights supplied by a Prest-O-Lite tank.

Perfectly fitted top, with envelope and Jiffy storm curtains; adjustable windshield; Stewart Speedometer; large water filler cap on radiator—or, as you must have noticed the Maxwell "25" at \$750 comes to you with complete equipment ready for driving—No extras to make the first cost really more than it would appear.

Clara E. Kieren Married to Victor E. Duvinage of Marquette.

Miss Clara E. Kieren stole a march on her many friends last Tuesday when she was quietly married to Victor E. Duvinage of Marquette. The ceremony took place at St. Paul's church at 5 o'clock, Rev. H. A. Buehholz officiating. The couple were attended by Mrs. William Gratzke of this city and T. M. Kieren of Milwaukee, a brother of the bride. Mrs. Duvinage is the only daughter of Mrs. Elizabeth Kieren. She was born and raised here. For a number of years she has conducted a dressmaking establishment. Mr. Duvinage is a building contractor at Marquette. The couple left on the morning train for a ten days' visit at Duluth, St. Paul and Minneapolis. They will be at home to their friends after July 3 at 224 Case street.

Escanaba and Ishpeming Each Win Two Games in the Opening of the Schedule.

Escanaba and Ishpeming are tied for first place in the Marquette-Delta county baseball league, as a result of the opening games Saturday and Sunday. Ishpeming won both from Negaunee and Escanaba took the two contests from Gladstone.

Manager Al Willman of Negaunee will strengthen the team for the games with Gladstone here next Saturday and Sunday. He knows of several fast men who want to come here and it is expected that they will be in the lineup Saturday. The team will practice today at the Union Park. George Travarthen will try out for a position on the team. Mr. Travarthen played for several seasons with the Bessemer team and is a fast infielder.

A. C. Harrington, manager of the Marquette County Gas & Electric company, will this week put men to work building the bleachers at the Negaunee side of the diamond. Mr. Harrington will meet the expense.

### WILL DECORATE GRAVES.

The members of the Negaunee fire department will hold memorial services Sunday morning. They will march to St. Paul's church in a body for the services, which will commence at 10:30, after which they will go to the cemetery in automobiles to decorate the graves of the deceased members. The Negaunee band will furnish the music for the parade.

# MAXWELL "35"

## A Car for the Man Who Wants Power, Reliability, Good Looks and at the Same Time Low Up-Keep Cost

You'll find every desirable feature in the Maxwell "35" and several you will not find embodied in any other car and anywhere near its price

**Motor of ample power to take car with full load anywhere, any time.**

The motor in the Maxwell "35" is of the "bloc" type with 4-inch bore and 4 1/2-inch stroke, developing full 35 horsepower. Adjustable valves completely enclosed. Three-bearing, chrome nickel steel crankshaft. Two inch connecting rod bearings. All bearings of nickel, babbitt cast. Splitdorf dual ignition, independent of the starting and lighting system. Splash oiling system insures proper lubrication of every moving part of the motor; oil reservoir operated by vacuum system maintains constant oil level in crank case. Holley single adjustment carburetor, with hot and cold air supply controlled from dash to suit changes in temperature.

**Transmission of well known make and acknowledged to be the most reliable**

The transmission is mounted on the rear axle and is the dependable Covert-selective type, three speeds forward and one reverse. All gears of heat-treated nickel steel. Noiseless roller bearings. Clutch is of adjustable cone type; leather faced with spring plungers for easy engagement. No jerky starting as a ride in the "35" will prove.

**Much depends upon the steering gear and control parts of a car**

You can depend absolutely upon the reliability of the Maxwell "35" steering and control mechanism. The steering gear is the famous "Barnes" make (there's nothing better manufactured) located on the left side and mounted rigidly to side member of frame and firmly braced at the dash. Spark and throttle control rods enclosed in steering post and operated on top of steering wheel. Accelerator operated by right foot. Gear shift lever is in center of car and is operated by right hand. Emergency brake lever alongside operates 1 1/2 inch expanding brake. Clutch and service brake pedals are both adjustable. The foot (service) brake controls 14-inch contracting brake acting on brake drums bolted to rear wheels.

**The easy riding qualities of this car unsurpassed**

You'll experience no fatigue, no matter how far you travel in a Maxwell "35." Long 36 1/2-inch semi-elliptic front springs together with the 42-inch three-quarter elliptic rear springs supplemented by soft, deep upholstery provide comfortable riding qualities that are hard to equal. 33x4-in tires also add their share to the comfort-giving features of this car.

**A starting and lighting system that is in keeping with all the other good points of this model**

The electric starting and lighting equipment of the Maxwell "35" is known as the Deaco independent system. The generator and starter motor are separate units. We have no hesitancy in stating that there is not a better starter on any car than that used on the model "35."

**Other worthy features of this splendid motor car**

Weston-Mott rear axle; clear-vision windshield; electric head, side and tail lights; electric horn; speedometer; and spare tire carrier at rear.

The body of the "Maxwell '35'" like all other Maxwell bodies was designed by Bruce Ott, who is recognized as the foremost automobile body designer in the industry. There is beauty in its every line and curve; it is finely upholstered and of ample proportions. A demonstration in this sterling quality Maxwell will substantiate our every claim for it and prove that no car in the field around its price is better made. May we show you its many points of superiority?

# FOREST FIRE DAMAGE \$50,000

Reports That Have Been Received from Deputies in All but Two or Three Counties Show That This Figure Will Cover the Damage This Spring in Upper Peninsula.

Schoolcraft County Is Shown to Be the Heaviest Loser—Reports from Lower Peninsula Are Not In—Damage for the Most Part Was to Logs Left on Skidways.

The damage from forest fires in the upper peninsula this spring will not exceed \$50,000. State Forestry Warden Wm. R. Oates has received reports from deputies in all but two or three counties of the peninsula, and these losses aggregating approximately \$40,000. No reports have yet been received from the lower peninsula.

The reports to date indicate that for the most part the havoc wrought was in the destruction of skidways in the woods. The reports are filed by counties, every fire that occurred in each particular district being listed.

The heaviest loss was in Schoolcraft county, and here the damage totals only \$200. Three thousand hemlock logs on skids were burned, as were ten cords of hemlock bark. As far as is known, this county is the heaviest sufferer in the state. Where standing timber was scorched, it was counted as a total loss.

The next heaviest loss was in Rabe township, Chippewa county, according to the estimates received by Mr. Oates. The damage there is put at \$2,500.

Damage Overestimated. "The reports that I have received," said Mr. Oates yesterday, "sustain my belief that the damage from forest fires in many places in the upper peninsula this spring were at the time grossly over-estimated. My deputies were instructed to procure information as nearly accurate as possible, and I believe that the loss as it has been reported to me covers details which in the estimate of one unfamiliar with the work would have been overlooked, and still the aggregate is lower than the estimate made by a great many people."

"The damage from forest fires last spring was much lower in comparison. But the comparison is not fair, for the reason that last year there were steady rains and the fires were given no chance to make a headway. This spring everything was dry, and had the department had such an effective organization and had it not received the hearty cooperation of the township fire warden and supervisors the damage would have been much higher than it is."

The reports show that in but few cases has there been damage to personal property. A few stacks of lumber camps were destroyed, but for the most part the flames were kept well away from the buildings.

No Lower State Reports. Mr. Oates could give no estimate of the damage wrought in the lower peninsula. He stated, however, that he believed it would not exceed that of the upper peninsula. The deputies there are busy procuring figures on the damage done and are making their reports to William J. Pierson, of Boyne City, chief deputy fire warden. It is expected that the figures will have been reported to Mr. Oates' office by the latter part of this week. Considering the weather conditions, Mr. Oates believes that the department has been fortunate this year in keeping the damage down to a comparatively small total.

While the deputies in the lower peninsula are busy making estimates of the damage caused by the fires a fortnight ago, bush fires are reported breaking out in several localities in that territory. Mr. Oates yesterday received telegraphic notice that several fires had

started in the slashings in Cheboygan county. They are considered insignificant, however, and are being watched closely by the fire wardens so as to prevent them from spreading and getting into the timber. No fires have been reported the last week in the upper peninsula.

### WOMEN ELECT.

At the annual meeting of the Ladies' auxiliary of the Episcopal diocese of Marquette, held yesterday at St. Paul's church and which was attended by thirty-five delegates from Ishpeming, Negaunee, Houghton and Calumet, the following officers were elected for the ensuing year:

Mrs. Austin Farrell, Marquette, president.

Mrs. Thomas Bailey, Sault Ste. Marie, first vice president.

Mrs. H. L. Ramsdel, Ishpeming, second vice president.

Mrs. C. R. Collinwood, Houghton, third vice president.

Mrs. B. G. Burt, Marquette, secretary-treasurer.

Mrs. M. M. Duncan, Ishpeming, president of the United-Offering.

Mrs. C. V. R. Townsend, Negaunee, president of the Junior Auxiliary.

Mrs. E. E. White, Ishpeming, secretary of the Spirit of Missions.

Bishop G. Mott Williams delivered an address at the morning service, and informal talks on missionary topics were made by the delegates. Lunch was served at 1 o'clock in the Guild hall to the visiting delegates. The meeting was well attended.

## STEAMSHIP DISASTER DOESN'T STOP WEDDING

**Mat Lamm, of Chatham, Empress of Ireland Passenger, Is Safe and Sound.**

Isaac Tenteri, brother-in-law of Mat Lamm, who was supposed to have been drowned in the loss of the ill-fated Empress of Ireland in the St. Lawrence river, has received word from Mr. Lamm that after the ship had been rammed he plunged into the water and struck out for shore and made it. He is now in Quebec.

Lamm was formerly employed as a carpenter at Chatham. His brother-in-law was a clerk in the store of C. C. Brown at that place. Lamm had started on a trip back to Finland to be married. He had taken passage on the doomed steamer, but despite the fact that the boat has gone to the bottom his plans have not been thwarted. Undaunted he has already taken passage on a White Star liner and will again brave the dangers of the deep to join his fiancée in his native land. Lamm was not a resident of Marquette, as was at first announced, but was merely listed from here on the passenger roll of the boat.

### MRS. MURRAY'S DEATH.

Resident for Almost Half a Century Has Passed Away.

Mrs. Harriet Robbins Murray, seventy years old, and a resident of Marquette for almost half a century, passed quietly away at her home, 225 East Ridge street, Monday evening. She has been ailing for the last several years, but only during the last week had her condition been critical.

Mrs. Murray was born in Odgensburg, N. Y., June 21, 1844, and with her mother took up her home in Marquette in 1865. The following year she was married to David Murray, who had been a resident of this city since 1854. He died Oct. 22, 1911.

Mrs. Murray was at one time active in the social life of the city. She had been a life-long member of the Episcopal church. She is survived by one daughter, Mrs. L. E. Durham, of Cleveland, Ohio, and a son, Dr. William Robbins Murray of Minneapolis. She was the mother of Frederick W. Murray, who died last month.

The funeral services will be held at 2:30 o'clock this afternoon at the residence. Interment will be in Park cemetery.

## PUMPING STATION RUN ECONOMICALLY

Experiment Shows That Big Pump Consumes More Power Than the Two Smaller Ones.

An experiment conducted at the city pumping station yesterday showed that while the city is using two pumps to supply the water, the consumption of electric current is comparatively small.

In order to test out a suggestion that the city was wasting money by having two pumps in operation, when one would answer the purpose as well, William J. Johnston, superintendent of the water works, and Charles Rettalle of the lighting department visited the pumping station and ordered the big pump put in operation. It was run for a few minutes only, but long enough to show that while the two small pumps consumed 250 kilowatts an hour the water works, and Charles Rettalle of the lighting department visited the pumping station and ordered the big pump put in operation. It was run for a few minutes only, but long enough to show that while the two small pumps consumed 250 kilowatts an hour the water works, and Charles Rettalle of the lighting department visited the pumping station and ordered the big pump put in operation.

By operating the two small pumps required a power of 400 kilowatts an hour. The pump was at once stopped and the officials went away satisfied that the city is operating the plant on an economical basis as is possible.

The new check valve recently installed at the pumping station to better facilitate the changing from one pump to another was also given a trial. It worked perfectly, although it was the first time that the pumping had been thrown onto the larger machine. In closing down the big pump, the officials first started one of the smaller pumps, and when the large machine had come to a standstill the other of the smaller pumps was put in operation, the triple change being made without a hitch.

Preparations are being made to dispense with the emergency boiler, which is now being kept in reserve at the station for use in case of fire or in the event of an unusual drain on the water supply. The boiler will be rendered useless when the emergency connection with the feed wire of the Cleveland Cliff system is made within a few weeks. The abandonment of the extra boiler will mean an added savings to the city.

### SOCIALISTS ARE GIVEN BITTER ARRAIGNMENT

**Peter W. Collins, Knights of Columbus Campaigner, Plays Principles of the Party.**

"Socialism is antagonistic to God, country and trade unionism." That was one of the epigrams of the speech delivered in Escanaba last Sunday evening by Peter W. Collins of Boston, who under the auspices of the Knights of Columbus, is conducting a campaign against socialism and who is to appear under the auspices of Marquette county at the Baraga auditorium Friday evening, June 6. Admission to the lecture will be free. Mr. Collins bitterly arraigned the socialists in his Escanaba address.

"Turning defiance into the ranks of socialists who were in the room prepared to ask questions, Peter W. Collins, of Boston, unmercifully lashed socialism and gave to the Escanaba public the most lucid explanation of the foundation principles of the socialist cult, ever offered in this city," declares the Morning Press.

"A thorough knowledge of his subject, coupled with an interesting manner of speech, make of Mr. Collins an ideal man for the work that he has undertaken. Although brought to this city by the Knights of Columbus, the meeting

conducted by Mr. Collins was nonsectarian and his entire effort was directed toward the exposition of the idea that the fight against socialism is the work of believers in all forms of religion.

"The intimate knowledge held by Mr. Collins of his subject made the questioning of the speaker a disappointing task, as was found by two socialists who arose to ask questions. Carl Thompson, clerk of the city of Milwaukee under the socialist administration, and Benjamin Mackkilian, a carpenter contractor, were the men who essayed to ask questions of the speaker and answers came so quickly that both abandoned the effort to confuse the speaker. Mr. Mackkilian by questions asked by him and answers to questions put by the speaker was claimed by Mr. Collins to be in no means a socialist, but merely a believer in social reform, one of thousands today mistakenly in the ranks of the Socialist party."

"The Milwaukee speaker was brought to Escanaba expressly to conduct the work of questioning Mr. Collins for the Escanaba members of the Socialist party. Mr. Thompson was forced to undergo the ignominy of hearing the recent socialist administration in Milwaukee, of which he was a part, given a terrific grilling. Mr. Collins boldly asserted that the socialists in complete control of the affairs of the city of Milwaukee, had demonstrated the impossibility of carrying into effect their principles. The speaker asserted that Milwaukee was never so mismanaged as during the socialist administration, reading from reports to show that the administration hired scores of needless workers who devoted their time to the distribution of socialist literature and under the guise of employees of the city drew salaries from the municipality."

"When Mr. Thompson arose to question the speaker he was unable to effectively deny the serious allegations concerning socialist misrule in Milwaukee and after a few questions that were answered by the speaker by quoting from socialist authorities the Milwaukee leader retired and gave up the effort. Mr. Thompson challenged Mr. Collins to meet him in a debate and the challenge was immediately accepted, with the date, place and time fixed."

"To support his contentions Mr. Collins quoted from the principles of the socialist platform and eminent socialist authorities, each of whom was shown by the speaker as not coming from the working classes. He told the mistake in impression that was held by many that socialists are strong defenders of labor unionism and asserted that in fact history had shown that socialism is directly opposed to trade unionism. In telling of the 'coming conflict,' he asserted that the great struggle of the future is not to be between capital and labor but between socialism and trade unionism."

"Reading from socialist authorities and the principles of socialism, the speaker showed the antagonism of the movement to all religion; toward the sanctity of the home and toward established government."

### "LEAH KLESCHNA" PLEAS.

Famous Players' Production Makes Favorable Impression at Opera House.

The story of "Leah Kleschna," a feature production of the Famous Players film corporation, presented at the Marquette Opera House last night, is well told. Carlotta Nilsson, who plays the title role, is an attractive little actress and takes her part capably. She is supported by an able cast.

The theme of the play, which deals with the adventures of a girl who from childhood was taught by her father to be a thief, is a departure from the usual run of police and detective stories. It has a wealth of baffling incidents which keeps the interest of the spectators stimulated at all times. It will be presented for the last time in Marquette at three performances this evening. There will be no matinee this afternoon.

The Magnani Four, "The Musical Street Pavers," who are supplying the vaudeville entertainment, have an entertaining act. They produce harmony in all manner of implements. Brooms, stoves and several other articles pound forth volumes of music at their touch.

IN THE DISTRICT COURT OF THE UNITED STATES FOR THE WESTERN DISTRICT OF MICHIGAN, NORTHERN DIVISION.

No. 220.

In the matter of the petition of W. H. Grattwick, et al. owners of the steamer Major, for limitation of liability. Motion.

To the President of the United States of America, the Marshal of the United States for the Northern District of Michigan.

Whereas, a libel and petition were filed in the District Court of the United States for the Northern District of Michigan on the 13th day of April, 1914, by W. H. Grattwick, Martha Grattwick, Emma Smith, Mitchell, Alfred Mitchell and Mary Begg Owen, as owners of the steamer Major, her engines, boilers, boats, tackle, apparel and furniture, at the time said steamer Major met with disaster on Lake Superior on November 13, 1913, and her loading freight, and praying for a limitation of its liability concerning the matter growing out of said disaster, for the losses and expenses in said libel and petition mentioned, and praying that a motion of the said court in that behalf be issued that all persons claiming damage for any loss, damage or injury may be thereby cited to appear before the said court and make due proof of their respective claims and all proceedings being had that if it shall appear that the said petitioners are not liable for any such claim, loss, damage or injury it may be so finally decreed by this court;

And Whereas, said steamer Major has been sold at marshal's sale in the salvage suit of the Superior Steamship Company now pending in this honorable court for

the sum of thirteen hundred and fifty dollars (\$1,350), said sum being now held in the registry of this honorable court and said court has ordered that a motion issue against all persons having claims or claiming damage for any loss, destruction, damage or injury occasioned by or growing out of said voyage and disaster, citing them to appear and make due proof of their respective claims;

You are therefore commanded to cite all persons having any claim or claiming any loss, damage or injury growing out of said disaster to file and petition herein on or before the said last named date or within such further time as the court may declare, and to have and receive such relief as may be due.

And what you have done in the premises do you then make return to this court, together with this return.

Witness the Honorable Clarence W. Sessions, Judge of the District Court of the United States for the Western District of Michigan, this 15th day of April, 1914.

FRED J. SCHULTZ, Deputy Clerk.
