

PRESIDENT IS TAKEN TO TASK BY MR. TILLMAN

Senator Thinks a Big Mistake Was Made in Pressing for Repeal of the Tolls Exemption at This Time—Says It Will Imperil Party in Coming Elections.

Wm. Alden Smith Insists Mr. Wilson's Idea Was to Make an Ally Out of England in the Mexican Situation—Ollie James Censures O'Gorman and Vardaman.

Washington, June 9.—The senate marched forward steadily today toward final action on the bill to repeal the tolls exemption clause of the Panama canal act.

Senator Tillman of South Carolina today made an unusual speech. He criticized the president in vigorous terms for bringing the tolls issue before the country at this time and endangering the chances of the Democratic party in the congressional elections next fall.

Senator Tillman announced he would vote for repeal, only because he felt his state party convention had freed him from the tolls "joker" in the Baltimore platform.

Senator Tillman of South Carolina today made an unusual speech. He criticized the president in vigorous terms for bringing the tolls issue before the country at this time and endangering the chances of the Democratic party in the congressional elections next fall.

from Senator Boies Penrose of Pennsylvania.

Senator James said he favored the repeal bill because he thought it must be passed to save the nation's honor and because it repealed a subsidy.

UPPER HOUSE HOSTILITY STAVES OFF SUFFRAGE FOR THE WOMEN OF DENMARK.

Copenhagen, Den., June 9.—The enactment of woman's suffrage in Denmark and the abolition of all property qualifications for electors of members of the upper house are proposed by a constitutional amendment bill, which passed the lower house of the Danish parliament today.

When the bill was sent again to the upper house today, the Conservatives absented themselves from the house. The coalition of Socialists, Radicals and Moderates in favor of the bill was not sufficient to carry the measure, as no vote of the upper chamber is considered valid unless more than one-half of the sixty-six members participate.

Premier Zable announced that the government would advise the king to dissolve the upper house, in order that a new chamber, which would act constitutionally, might be elected.

SOVEREIGNS ENJOY STATE BALL IN PEACE

Police Keep Suffragettes Out of Buckingham—Trouble in Sight Today, However.

London, June 9.—King George and Queen Mary were able to enjoy the brilliant state ball at Buckingham palace tonight, as there was no interruption by suffragettes, thanks to rigorous police precautions.

There is every prospect, however, of trouble at Westminster tomorrow, when Sylvia Pankhurst and other militant leaders will march with a body guard of their supporters to demand an interview with Premier Asquith. This will certainly be refused. A great force of police has been detailed to keep order.

The general public no longer views the suffragette activities with its former tolerance, and the presence of police is needed to protect the suffragettes themselves from the anger of the crowd. This was witnessed on two occasions in London today, when women, selling the militant organ "Suffragette," were mobbed and were finally obliged to escape in taxis.

Miss Pankhurst's friends have tried to dissuade her from joining in the procession to Westminster, fearing "no great a strain on her over-taxed health."

At the meeting at which the names of the deputation were being chosen, nearly the whole gathering rose when Sylvia's name was called, shouting: "No! She can't stand it; she will die!"

Miss Pankhurst protested that nothing would deter her and it was decided that she should be carried shoulder high in the procession.

COLONEL ROOSEVELT IS GUEST OF KING

Spends Three Hours With Alfonso at Summer Palace and Has a "Bully" Time.

Madrid, June 9.—King Alfonso and Queen Victoria were the hosts of ex-President Roosevelt today at a luncheon at their summer palace at La Granja, forty miles from Madrid.

Colonel Roosevelt and his party, which included Ambassador Willard, Mrs. Nicholas Longworth and Kermit Roosevelt and his fiancée, Miss Belle Willard, proceeded to the palace in automobiles. There were many titled persons also at the luncheon. On his return the colonel declared in his characteristic manner that he had had a "bully" time.

The Spanish king and the ex-president are old acquaintances, having met for the first time at the funeral of King Edward VII in London. The colonel is an admirer of King Alfonso's democratic ways. During the three hours they spent together, the two formed a mutual respect for a discussion of Spanish history, of which the colonel has been a close student.

Colonel Roosevelt will continue his sight-seeing tomorrow, and is planning a trip to Toledo. To the question of a Spanish newspaperman, "How do you like our king?" the colonel made a tactful but uncommittal reply. He referred to Spain in flattering terms, and declared that the Spanish language would eventually supplant French in common usage on account of the development of South America.

STRIKES IN ITALY ALARM GOVERNMENT

Political Parties Apparently Are Supporting the Strife—Disorders in Many Cities.

Rome, June 9.—The general strike proclaimed yesterday as a protest against the repressive measures taken by the government in connection with demonstrations at Ancona Saturday, when several men were shot down, is spreading and gaining in intensity.

The sentiment of the workmen has been fanned by the killing of another striker at Florence today. The government views the moment with anxiety, as it is believed to be supported not only by the socialists, but by the Radical party, which is anxious to embarrass the ministry.

Serious Rioting in Rome. In Rome tonight a thousand strikers

PROSPECTS AT NIAGARA FALLS SEEM HOPEFUL

Every Indication of Constitutionalist Participation in the Conference in Some Form Is Word from Washington—Carranza Is Reported in Conciliatory Mood.

While Unwilling to Suspend Hostilities He Will, It Is Predicted, Accept the Peace Plan as It Relates to Proposed New Government—Mr. Wilson Optimistic

Washington, June 9.—Every indication in Washington pointed to some form of participation by the Constitutionists of Mexico in the mediation conference at Niagara Falls.

While his agents here awaited from General Carranza final word as to the answer to be forwarded to the South American mediators in response to their proposals, the delay was accounted for by telegraphic disturbances between the United States border and Saltillo. It was expected that the definite position of the Constitutionists would be communicated to Niagara Falls before many hours.

Outlook Appears Favorable. Some of those in touch with the first chief of the Constitutionists insisted tonight that the revolutionary leader would not consent to an armistice in the campaign against the Huerta government, but that he would express willingness to acquiesce in the peace proposals as they relate to the establishment of a provisional government, pending a general election, provided ample representation is given in the provisional government to the belligerents against Huerta.

Should Carranza refuse a cessation of hostilities, it seemed improbable here that his representatives would be received in the mediation conference, but this contingency failed to affect the optimism of President Wilson and Secretary Bryan as to the outcome of the Mexican difficulties.

Huerta Plan Objectable to U. S. Niagara Falls, Ont., June 9.—The United States is unwilling to extend recognition to a new provisional president if named according to the method prescribed by the Mexican delegates, which is that General Huerta would appoint as minister of foreign affairs the man who is agreed upon here to head the new government.

Washington contends that if General Huerta is permitted to name the foreign minister, who by constitutional succession would be elevated to the presidency, even though the selection be made here, such an act would be construed as recognition of the Huerta government. On this issue the mediating plenipotentiaries came to a flat disagreement late today.

Although the three South American diplomats argued strongly from the Mexican viewpoint, there was good reason to believe tonight that the Mexican delegates would not insist on this arrangement if they found the United States absolutely determined against it. There is a possibility that a compromise method will be agreed upon.

Scheme Is Suggested. Pedro Lascurain, who is minister of foreign affairs when President Madero was assassinated, could be reappointed to the cabinet and succeed to the provisional presidency and then appoint as foreign minister the man agreed upon by all parties for the new provisional executive. Lascurain is persona non grata with the Constitutionists, but it is not believed there would be objection from them to his brief tenure of office in order that the transition might be constitutionally effected.

General Villa in Torreon. Torreon, June 9.—General Villa has arrived here, and has begun preparations for an aggressive campaign against Zacatecas. He will proceed south soon.

tried to march to the Quirinal. The mob came to a violent contact with troops and police, who fired nine volleys in the air before the crowd gave way. A large number of soldiers and strikers were injured. The strikers attempted to reform their shattered ranks and another fierce engagement with the police took place before they were dispersed.

In the cities where the strike is in force, no newspapers were published today. From many parts of Italy come reports of disorders. At Genoa, the strikers compelled the storekeepers to close their places of business. At Turin, rioters seized two wagonloads of tobacco belonging to the state and threw several cases of cigarettes through the window of a cafe and burned the remainder before cavalry dispersed them.

At Venice, several clashes occurred between strikers and police, one of the latter being seriously injured. After forcing all the stores to close, bands of

ODD OFFENSE COSTS \$200 FINE AND TERM IN JAIL

St. Charles, Mo., June 9.—Frank Watson, 2300 and sentenced to six months in the workhouse here today for breaking up a revival meeting last night by rolling a beer keg down the center aisle. Two other men who were with Weis at the time will be tried tomorrow.

KID WILLIAMS IS A NEW STAR IN FISTIC WORLD

Knock-Out Blow Administered to Johnny Coulon in the Third Round of a Battle in the Vernon Arena Gives Baltimore Boxer the Bantamweight Title.

Fighting Is Fast, but Is All the Marylander's Way—Taking a Beating and Losing the Championship Nets the Chicagoan \$8,000—The Victor Gets \$2,500.

At the Ringside, Vernon, Calif., June 9.—Johnny Coulon, bantamweight champion of the world, lost his title tonight to "Kid" Williams, of Baltimore, who knocked him out with a stiff right-handed punch to the chin in the third round of their championship contest.

The fighting was all Williams' way from the start. Coulon seemed to be unable to solve the problem of landing anywhere in the short interval of the first two rounds, and was saved at the close of the second only by the timely ringing of the bell.

Bettors Picked Williams. The result proved the wisdom of the bettors who favored Williams from the start, holding that Coulon's illness that kept him out of the ring a year had robbed him of championship form. The odds on Williams went as high as two to one. At the ringside, while no betting was in evidence, it was plain that there was plenty of money placed just before the contest at ten to six.

At the opening of the first round, the crowd repeatedly called for Williams to "get in and do it," evidently assured that he was capable of making good his claim to the championship title.

Coulon got in but not really effective blow during the short contest. Towards the close of the first round he managed to reach Williams' face. Although the champion was obviously outclassed from the beginning, his blow to Williams' countenance elicited uproarious cheers from the crowd.

Bout Exciting Throughout. The fighting was fast and exciting from the start. Williams held the center of the ring and kept Coulon sparring near the ropes. When the former champion received the blow which deprived him of his title, he fell within a few

feet of Williams' corner of the ring. As Referee Eytan raised the champion's arm, signifying him to be the winner, the crowd rose and cheered lustily. Williams ran around the referee and attempted to assist the ex-champion to his feet. Coulon appeared shaky and scarcely able to walk. As soon as he had gone a step or two, however, he went to his corner unassisted and refused Williams' proffered aid.

Before Coulon had reached his corner, the seconds of both men had leaped into the ring, followed by other ring officials and several policemen. The latter went to the aid of the former champion and drove back the throng which was gathering to see what damage had been inflicted. A way was opened and Coulon was taken to his dressing room at once. Williams donned his dressing robe and followed shortly after. Both boxers had left the ring before a crowd which usually is over-anxious to reach the exits had moved from the seats.

For eight minutes' work in the ring and taking a beating at the hands of the champion, Coulon netted about \$600. Before he would agree to meet Williams, he demanded a guarantee of \$5,000, which was granted, with the privilege of taking 40 per cent. of the gate receipts. The crowd was one of the largest seen at Vernon for months, and Coulon took the gate percentage. In addition to this he received \$1,000 from the new champion, which was an agreement between the two men.

Besides acquiring the bantamweight title, Williams received \$2,500 as his end of the purse.

Ritchie to Fight Welsh in London. New York, June 9.—Willie Ritchie, the world's champion lightweight pugilist, signed articles of agreement here tonight for a twenty-round bout with Freddie Welsh, the English champion, for the world's lightweight championship. The fight will take place in London on July 4, next.

Mike Gibbons Defeats Brown. Boston, June 9.—Mike Gibbons, of St. Paul, was awarded the decision over George "Knockout" Brown, of Chicago, after twelve rounds of fighting here tonight. Gibbons outpointed Brown in every session.

LOUISIANA HOUSE KILLS BILL DESIGNED TO REVIVE THE HORSE-RACING GAME. Baton Rouge, La., June 9.—The Reinhardt bill, providing for the restoration of horse racing in Louisiana, was killed today in the house, fifty to fifty-five.

At each session of the legislature since 1908, when horse-race gambling was abolished in Louisiana, there has been talk of introducing a bill to regulate and restore the sport. Four weeks ago the Reinhardt bill was presented. At first it was not generally taken seriously. Its friends began to grow in number, however, until the whole state was aroused.

The brief campaigning for and against the bill was marked by three mass meetings in New Orleans, two for and one against it. Women's organizations took part against and preached about it.

Mackmen's Lead in the American League Race Is Broadened; Athletics Beat Tigers While Washington Loses to St. Louis. Sox Defeat the Highlanders for Fourth Consecutive Time. That Also Boston's Feat in the Series With Cleveland. Wonderful Catch by Wheat Snatches Victory from the Cubs. Minneapolis Wins from Louisville, 3 to 2, in Twenty Innings.

with an error and a pass, scored all of its runs in the third.

Philadelphia, 3; Pittsburg, 1. Philadelphia, June 9.—After Conzelmann fanned Reed and Becker in the sixth to win the game from Pittsburg, getting the most of the game, a pass to Magee, Cravath's single and Luders' double. Mayer pitched in excellent style, the visitors not getting a man past second until the ninth.

St. Louis, 5; New York, 2. New York, June 9.—St. Louis evened the series with New York today by winning in the tenth. Sallee bested Demaree in a pitchers' battle, the New York twirler weakening in the tenth.

Philadelphia, 7; Detroit, 3. Detroit, June 9.—Philadelphia defeated Detroit today in an erratic game studded with errors and brilliant individual performances. Shawkey was unsteady, but the Tigers could not hit him in the pinches. In the second inning Baker made his second home run in two days. Cobb stole home in the fourth.

Baltimore, 7; Indianapolis, 6. Indianapolis, June 9.—Mullin weakened in the eighth here today and Baltimore scored four runs and tied the game. Harter went in for Indianapolis in the ninth, and was found for one run, the visitors winning the game.

Baltimore, 7; Indianapolis, 6. Indianapolis, June 9.—Mullin weakened in the eighth here today and Baltimore scored four runs and tied the game. Harter went in for Indianapolis in the ninth, and was found for one run, the visitors winning the game.

St. Louis, 6; Pittsburg, 5. St. Louis, June 9.—Singles by Tobin and Boucher and a three-base blow by Ward Miller in the seventh gave St. Louis the two runs which enabled the home club to win from Pittsburg today.

St. Louis, 6; Pittsburg, 5. St. Louis, June 9.—Singles by Tobin and Boucher and a three-base blow by Ward Miller in the seventh gave St. Louis the two runs which enabled the home club to win from Pittsburg today.

St. Louis, 6; Pittsburg, 5. St. Louis, June 9.—Singles by Tobin and Boucher and a three-base blow by Ward Miller in the seventh gave St. Louis the two runs which enabled the home club to win from Pittsburg today.

ALBERT SHERMAN, SAGINAW, FOUND DEAD, IS BELIEVED TO HAVE BEEN MURDERED.

Saginaw, Mich., June 9.—The body of Albert Sherman, superintendent of the Saginaw-Bay City Railway company, was found hidden today in a clump of bushes a mile west of Zilwaukee. After a post-mortem examination, Coroner Alden asserted that murder was indicated. There was a severe bruise on the forehead. Sherman was said to have been threatened in Zilwaukee by men whom he had caused to be arrested for robbery.

BRITISH POLO TEAM WINS EASILY IN PRACTICE GAME. New York, June 9.—Only six periods of play were taken up by the English challenging polo team at Westbury today. Opposing the regular English four were the Duke of Penaranda, J. Watson Webb, J. G. Milburn, Jr., and J. A. Trully, the substitute English back. The challenging four won by a total of 115 to 33 goals. Owing to the warm weather, the game was called after six periods. The Hurlingham team displayed good team and combination work. The British team may possibly put in another practice before Saturday's international match.

Struck by Motorcar, Small Son of Thomas Davis Dies from Fractured Skull. Houghton, Mich., June 9.—[Special.]—The four-year-old son of Thomas Davis of Tamarack Mills, near Lake Linden, was fatally injured at 8:15 o'clock last evening, the result of being struck by an automobile. The child died an hour and a half afterward. Inquiries have failed to reveal the identity of the owner of the car. It is known that a girl was driving the machine and that there were four other passengers.

The little boy was playing in the road near the Ahmeek mill, Hubbell, when the car approached. He was looking in the direction the automobile was going, but when he heard the sound of the horn the machine was upon him and he turned in the same direction the car did. Though the girl driver almost threw the auto into the ditch, the car ran into him. Death resulted from a fracture of the skull.

Coroner Fisher of Calumet is preparing to conduct an inquest as soon as the identity of the driver of the car and the passengers can be learned.

COPPERDOM BOY IS AUTO'S VICTIM

OLD SOUL'S RAYS KEEP MERCURY AT HIGH NOTCH

States Between Missouri Valley and Alleghany Mountains Swelter for the Third Day in Succession—Heat Wave Is Due to Hit the Atlantic Seaboard Today

Detroit Reports Four Deaths, a Girl Driven Insane and More Than a Score of Prostrations—Temperature at Springfield 100—Chicago's Record Ninety-Eight.

Chicago, June 9.—The third day of the record-breaking heat wave throughout the state between the Missouri valley and the Alleghany mountains brought reports of more deaths and prostrations.

In Chicago, three deaths and a score of prostrations were reported to the police. The official temperature of the street was ninety-eight degrees—one degree less than the day record. Possible showers and a cloudy sky are expected to bring relief tomorrow.

At Springfield, Ills., the mercury soared to 100, while other points throughout the Middle West sweltered under similar conditions, Memphis having an official temperature of 96; Nashville, 98; Louisville, 96, and St. Louis, 98.

Pittsburg reported the hottest weather for forty years at this time of the year, resulting in three deaths, while Detroit reported four deaths, a girl driven insane and more than a score of prostrations. High temperatures also prevailed throughout eastern and southern Kansas, Oklahoma and Missouri.

The Atlantic seaboard escaped the excessive heat, although rising temperatures are predicted there tomorrow.

In the Northwest, heavy rainstorms are reported to have done much damage to farm property.

HOUGHTON TO SPEND \$2,000 IN CELEBRATING THE FOURTH. Houghton, Mich., June 9.—[Special.]—The Houghton Fourth of July soliciting committee tonight reported pledges totaling \$1,532. This does not complete the work of the committee, however. It is expected the fund will exceed \$2,000.

Washington, June 9.—The following is the weather bureau's forecast for Upper Michigan: Fair, Wednesday and probably Thursday; slightly cooler Wednesday in west portion.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

WEDNESDAY, JUNE 10, 1914.

A FULL TICKET.

In Ohio Charles L. Thurber, the secretary of the Bull Moose state committee, has announced candidates for member of congress from twenty-one of the twenty-two congressional districts, and it is said that in the twenty-second district, also, there will be a Progressive in the field.

For the campaign of 1914 the Progressives and Republicans will be far apart in Ohio, for both parties are to have state tickets, with the personnel of the Progressive candidates exceptional and superior, if anything, to that of the Republicans.

Naturally the outlook is pleasing to the Democrats who, if the belligerent Moores and Republicans were together, would be due to be cleaned out of many seats in Ohio.

A FAMILY ROW.

Over in Wisconsin Senator La Follette will again figure in a campaign to which he is not directly a party. Governor McGovern, who incurred the senator's wrath by standing as the candidate of the Roosevelt forces for chairman of the Republican convention in 1912, has announced that he will seek to be the successor of Uncle Joe Stephenson.

Opposed to him is a La Follette Republican, behind whom the dyed-in-the-wool La Follette forces are expected to rally. In Wisconsin, at least, there will be a truce between Republicans and the Progressives, it having been struck in favor of Governor McGovern, because he stood so firmly with the Roosevelt delegates at Chicago.

The campaign should be a peppery one. McGovern won his spurs as a fighting official first as district attorney of Milwaukee county and later in state office. Until the break at Chicago he was actively identified with the La Follette wing of his party and at all times had the support of the belligerent senator.

Now that La Follette is to back another candidate it is likely that the canvass will take on a picturesque aspect, for both McGovern and his old leader can hit hard, if the fighting is forced. And the situation is such that the fighting is likely to be forced.

Meanwhile it is also interesting to note in Wisconsin a renewed activity of the old leaders who were put out of business by the uprising wave of La Folletteism. Encouraged by the discussion among the progressive leaders and professing to see a distinct wave of public sentiment in favor of a more conservative treatment of public affairs, they have banded together with the purpose of aggressively supporting all conservative candidates. It is a frankly "stand-pat" movement that, when nearly every man playing any part in politics is vociferously avowing some degree of progressivism, stands almost alone.

STRAW VOTES.

The Calumet News comments that "the straw vote suggested by Houghton county Republicans who are seeking party harmony as a means of avoiding friction that might develop in a bitterly contested congressional primary is being seriously considered by Joseph E. Bayliss, of the Soo, and Judd Yelland, of Escanaba," etc., etc.

What has happened in the Eleventh district has been an emphatic veto of the proposal by Mr. Bayliss, a course in which he has the sincere approval of his closest advisers. The expense of covering seven counties by a postal card canvass would be great, and it is almost certain that the number of voters responding would be too small to give the result any standing as an indication of the final judgment of the district. The theory of these votes may be all right, but they would be found not to work out very well in practice.

With the suggestion that there should be a preliminary vote in Houghton county Senator James' friends outside that county will surely have little patience, and if it appeared that the plan was being seriously considered the senator would be showered with requests not to be a party to any other test of sentiment than that which will be registered at the primaries late in August.

Little reason exists for such a test. Despite some suggestions that such a thing might happen, there is no likelihood that any iron country candidate will try to slip in between James and Fisher. And these two men ought to be able to get through a ten weeks' campaign without bringing their friends together in any personal differences of

serious nature. They can do this by confining themselves to their records. Let Senator James show what he has done in a constructive way in politics, and then let Mr. Fisher state his case.

That is the thing in which the voters of the district will be particularly interested. The personal attributes and idiosyncrasies of the candidates are a matter of wholly secondary importance, as is, also, their respective attitudes through the recent strike in the copper country. The latter phase of the controversy is a mighty dangerous one, from whatever angle it is viewed, and the copper country people will act wisely if they let it drop from sight, as far as that may be possible.

CLIPPING STATES' RIGHTS.

Some of the few votes against the administration bills for the more effective regulation of railroads and other interstate corporations, when these measures came up for passage in the house of representatives, were cast by southern Democrats, who objected to the absence of specific guarantees against encroachment upon the province and powers of state commissions and commissioners. It was one of the feeble outcroppings which occur, now and then, of the old and once formidable doctrine of states' rights.

But steadily the sphere of the national government is widened. Gradually but surely the states lose a part of their old powers. By legislation approved by most of the representatives of the states that were the chief strongholds of the states' rights doctrine which long dominated the South, the national government is narrowing the activities of the states and extending its own authority. By executive action which is no less familiar to Democratic presidents than to those elected by the Republican party, the central power of the nation has been made a greater factor in the entire country and the state governments have been crowded into the background.

The roots of this change are as much industrial and commercial as they are political. The growth of great business organizations of many kinds, covering all sections of the country, has absolutely demanded more effective means of controlling and curbing these corporations. The nature of modern methods in business has compelled congress to widen its usefulness, just as it has been forced to deal with new problems in conserving and developing resources in many states at the same time.

It is not a change to be regretted, but it is a mighty force to be watched and guarded against possible misuse. The national government could not help enlarging its activities. No other power could do the work which had to be done. But the national authority, no less than that of the states, may easily be misdirected and made an instrument of oppression if it is entrusted to the wrong hands.

The Calumet News is of the opinion that the reception of former Governor Osborn should be above partisan politics. "He has been carrying the story of 'Michigan' all around the world. He has been personally advertising Michigan in all quarters of the earth in the course of a long globe trotting circuit. He has made Michigan better thought of wherever he has been. He is unquestionably to be figured among those few who are entitled to share in the honor of being 'first private citizen' in the commonwealth. Indeed, about his only contender therefore is James Burrill Angell."

Of course Mr. Britton does not expect the passage of his bill making it a criminal offense punishable by fine and imprisonment for government officials to go on the chautauqua circuit. It's only his way of getting in a poke at Mr. Bryan. You see he is a loyal partizan, but he doesn't own a newspaper. He finds Congressional Record publicity the cheapest.

Marsa Henry Watterson is of the opinion that events are being shaped up so that "the Roosevelt label may be pasted on the Republican side." And indeed there's no denying that more solicitude for the feelings of the colonel is now being displayed in G. O. P. circles than for, lo, these many years.

Conditions are now ripe for more forest fires. The extremely hot weather of the past few days has blistered the countryside and a little carelessness might be the means of causing great damage. Extreme caution in the woods is necessary, and cannot be too strongly urged.

Judge Yelland, of Delta, is strong for elimination projects. And just now his candidacy stands for the elimination of an excellent chance to land an upper peninsula man as member from the new Eleventh.

The Detroit Free Press' political scribe the other day elaborated a program for the Osborn banquet at Lansing this evening. After Mr. Osborn had made the principal address, Whit-

ney Watkins, Progressive candidate for governor in 1912, was to arise and tell how he was all for the "get together" stuff and that Mr. Osborn was the man to lead the way to the pasture in Michigan. It was a fine story. The only trouble was that Whitney Watkins pulled the props from under it by declaring that as far as he was concerned there wasn't a word of truth in it, and that he begged leave to report himself as still an unreconstructed Bull Moose!

Robert Y. Ogg, of Detroit, who was a tentative candidate for congress, has given up that project and will again stand for the state senate. It will be much better for the credit of the state to have Ogg performing at Lansing, rather than at Washington.

The Detroit automobile magnate who aroused the wrath of the Democrats by suggesting that congress would help some by at once adjourning reflected, nevertheless, the views of most of the stay-at-home voters.

Mr. Osborn says he has not yet decided whether to run for governor. The suspense is very trying on the gentlemen who have their minds all made up on that subject.

The passage of such a measure as the Covington trades commission measure without a roll call is a most sinister mark of the degeneracy of the national house of representatives.

This bill in its present form is perhaps the most revolutionary measure passed by either chamber of congress for many years. It may be, it must be, that

EDITORIAL OPINION

Another Benefit from Parcel Post. Announcement has been made in Philadelphia that the Adams Express company is about to establish a cheap transportation service for food products which will welcome any innovation between the producer and the consumer and that the rates will be somewhat cheaper than those of the parcel post service.

This departure will suit all parties except the middlemen. Uncle Sam finds the parcel post service something of an embarrassment because of its rapid growth. He will take no offense at any rival enterprise which will relieve him of part of the burden of handling perishable products quickly. The consumer does not care who furnishes the service that will cheapen his cost of living. The producer will welcome any innovation that will give him a more direct communication with the consumer, for this raises the hope of better rates for his produce and the avoidance of some of the losses he incurs through the slow and indirect medium of communication to which he has heretofore been subjected.

Necessity is the mother of invention and the uses of adversity are often profitable. But for the formidable rivalry encountered under the parcel post service it is not likely that the express companies would have sought out this new and apparently very promising field of activity in public service. Its discovery gives ground for the belief that the transportation services have carelessly overlooked other important services by which they can earn fair profits and make themselves more useful to the community.

A LAUGH OR TWO

Planning a Future.

"Do you think you can support my daughter in the style to which she has been accustomed?" "Yes," replied the slangy young man after some hesitation. "But don't you think I'd better stick around with your family a few weeks so as to get accustomed to it?"—Washington Star.

Matter of a Comma.

"Bill," the poet gasped, staggering into his friend's room. "Why, what's wrong?" the friend inquired, startled, as he grasped hold of the tottering man. "Wrong!" the poet muttered. "Ye gods! I wrote a poem about my little boy. I began the first verse with these lines: 'My son! My pigmy counterpart.' 'Yes? Yes?'"

"The poet drew a long breath as he took a newspaper from his pocket. 'Read!' he blazed suddenly. 'See what that criminal compositor did to my opening line. The friend read aloud: 'My son! my pigmy counterpart.'—National Monthly.

He Won.

"What is the matter with the bar of today?" said, at the Lawyers' club in New York, a lawyer of yesterday. "Why has brutality usurped wit? Why has the bully supplanted the raconteur?" "Elihu Root was the hero! I remember a case he once won from me, a breach of promise case. My client, for all her broken heart, was a very pretty and vivacious girl. Root defeated her—and me—by ending his defence with the words: 'Gentlemen of the jury, do you really think that this charming young lady's life is blighted or that her prospects of getting married are prejudiced in the least? I don't suppose you do. Perhaps there's not one of you who would be averse to forming the acquaintance of so delightful a person. Why, look at her now—she is actually smiling at me; but I must at once inform her that I am not in the matrimonial market.'"

No "Stimmylants" for Jim.

"I think, madam," said the professional polite young doctor to the wife of his first patient in the backwoods of a decidedly non-prohibition state, "I think that your husband needs a good stimulant of some sort, and I will leave for him some—"

"No, sir," she said, with marked decision. "You ain't a-goin' to leave Jim no stimmylants like ki-kinne or tinkler of iron nor that maff stuff some folks takes nowadays without knowin' what it'll do to their systems! An' Jim is both down on all stimmylants, 'im good to fix him up a quart or so o' good rye whiskey to take first thing in the mornin', and I'll stir him up a good, strong whiskey eggnog at noon, and let him have a steamin' hot brandy punch along in the middle of the afternoon, an' give him a glass o' grape wine at night; but as for stimmylants, he ain't got it; take none of 'em, long as I can help it."—Z. D. in Judge.

The New Dances.

Billy Sunday, the evangelist, was asked, after his Philadelphia season, what he thought of the new dances. "What do I think of the new dances?" said Mr. Sunday. "Well, let me tell you a story. A young man and a girl in evening dress sat in a conservatory. A certain trickled and gurgled in a marble basin before them. Palms drooped their long leaves over them. 'The light was dim. Distant music sounded softly. 'Suddenly the young man, overcome by the girl's beauty, seized her in his arms, and crushed her madly to his breast. 'Why, Mr. Trevanion,' she said, putting her white hand on his shirt bosom and pushing him coldly away, 'you forget yourself. This sort of thing isn't proper here.' 'So saying, she took his arm, and they went out on the 'ballroom floor and indulged in a maxixe.'"

UPPER PENINSULA.

Second Class Postoffice.

On and after July 1st, next, Munsing will be rated by the postoffice department as a second class office. Postmaster Stewart's salary on and after that date will be increased to \$2,100 a year.

Injured Miner to Get \$5,000.

The supreme court has affirmed the decision in the case of Victor Ranta vs. the Newport Mining company, a jury in the Gogebic county circuit court having awarded Ranta damages in the sum of \$5,000. Ranta was injured in "A" shaft of the Newport mine on March 23, 1909. He was a chute tender, and while engaged in pounding the side of a two-compartment chute to release the ore that had become clogged the chutes gave way and Ranta was covered with timbers and ore. He was standing near the bottom of a 47-foot chute. He sustained a fractured leg and other injuries, and fell and broke the leg a second time while in the hospital.

Lightning Destroys Suit of Clothes.

During a recent storm lightning struck the house of John Samanen, Rock River township, about a mile northwest of Chatham. The boards were splintered and torn off the corner. The lightning then passed diagonally through a log in the upper part of the house into the second story. From a log it jumped to a partition in the center of the room, where it burned both shoulders out of a new coat, the property of a farm hand, and rained his trousers. The board partition was fired. The farm hand and Mrs. Samanen and the children were rendered unconscious by the shock. The former recovered first, "rushed up stairs and extinguished the flames.

Honest Boys Are Rewarded.

H. Cornell of St. Ignace went down town the other forenoon, drawing from the bank \$76 in currency. Having occasion to use some money shortly thereafter, he discovered he had lost his pocketbook and contents. Two boys, Willard Vallier and his brother, found the money in front of La Roque's drug store and turned it over to Mr. La Roque, but it was not until the next morning that Mr. Cornell learned the cash had been found. He rewarded the finders with a five-dollar bill.

AN ORDINANCE AMENDING SECTIONS THREE, FOUR, FIVE, EIGHT AND THIRTEEN OF AN ORDINANCE RELATIVE TO PUBLIC MARKET AND PUBLIC SCALES.

The City Commission of the City of Marquette ordains: Section 1. That sections three, four, five, eight and thirteen of an ordinance entitled "An Ordinance relative to public market and public scales," be amended to read as follows: Section 2. The public market and public scales shall be maintained and conducted through the department of public health and safety and be kept by a market master to be appointed by the Commission on the nomination of said department and shall serve during the pleasure of said department and the Commission, and shall perform such duties as may be prescribed by the Commission, and his compensation shall be as prescribed by such department and the Commission, and his bond shall be as required by the Commission. Section 3. The market master shall be the market keeper and shall be the city weighmaster, and under the direction of the department of public health and safety and the Commission shall have the care and management of the public market and the city scales, and shall exercise and execute all the powers of policeman. Section 4. The public market and public scales shall be subject to such rules and regulations as may be prescribed by the Commission. Unless otherwise ordered by the Commission, the public market shall be kept open for all appropriate hours during the day, and the market shall be kept open for the Commission or said department shall direct, and the market shall be kept open only for stabling of animals during such hours as may be directed by the Commission or said department. Section 5. Animals not for sale may be stabled and kept in the public market, and in advance to the market master of the following fees: One animal, the daytime of each day.....10 cents Two animals, in the daytime of each day.....15 cents One animal, in the night-time.....15 cents Two animals, in the night-time.....25 cents Section 6. All fees shall be paid to the market master and weighmaster, unless otherwise provided by the Commission or the department of public health and safety, and shall be paid into the city treasury at the close of each

Today's weather: Fair. Yesterday's temperatures: Seven a. m., 80 degrees; noon, 89; 7 p. m., 78. Highest, 91 degrees; lowest, 74.

Charles Cummings left last night for Chicago.

F. C. Holden was a passenger to Chicago last night.

Mrs. W. H. Van Iersterne left last night for Detroit.

Rev. Albert Rantalahti, of Ishpeming, spent yesterday here.

C. R. White, of Detroit, was a Marquette visitor yesterday.

Mrs. S. M. Jones left yesterday for Duluth, on a brief visit.

W. F. Kerwin, of Menominee, spent yesterday calling on friends in this city.

J. H. Lewis and family left yesterday afternoon for Buffalo, for an extended visit.

Nick Wurth, of Escanaba, was among yesterday's business visitors in Marquette.

J. E. Burtless will leave today for Saginaw, to attend the U. C. T. state convention.

Ernest L. Pearce, of the Lake Shore engine works, is in Canada, on a business mission.

Mrs. Otto L. Arnold, of Iron Mountain, is spending a few days with relatives in Marquette.

Mrs. John R. Van Evert, who has been visiting at Virginia, Minn., returned to Marquette yesterday.

John Bogue, of Ontonagon, was in Marquette yesterday, transacting business and calling on old friends.

Tom Daoust, of Wells, was paid bounty at the county treasurer's office yesterday for two wildcats and a wolf.

The W. C. T. U. will meet with Mrs. J. A. Pearce this afternoon at 2:30 o'clock at her home on Bluff street.

Will Russell, of St. Paul, Minn., who had been visiting in Marquette for a few days, left for his home last evening.

Mrs. Elizabeth Begole, who has been attending school in Kenosha, Wis., returned to her home in Marquette yesterday.

The Misses Minnie Moore and Emma Minor, who spent the winter in California, have returned to Marquette for the summer.

Mrs. D. E. Charlton and two sons arrived in Marquette yesterday morning for a visit with her parents, Mr. and Mrs. James Russell.

Maleon Youngs, who has been spending the last three months with his grandparents, Mr. and Mrs. Dawson of Marquette, leaves this morning for his home in Calumet.

Mr. and Mrs. J. E. Kraft leave this morning for Saginaw, Detroit, Buffalo and Niagara Falls. They will be absent from the city ten days or two weeks. At Saginaw, Mr. Kraft will attend the annual state convention of the United Commercial Travelers.

Parents Are Bereaved—Mayne Weina, infant daughter of Jacob Willa, died Monday at the family home on Union street. Funeral services were held yesterday.

Store to Close—The Parish Fashion store will be closed all day today to enable Mr. Cohen and his clerks to lower the price marks and otherwise prepare for the annual spring sale, which starts Thursday morning. The sale is one of the big affairs held twice annually at the store.

Competitive Examination Today—This afternoon at 1:30 o'clock a competitive examination for the position of editor-in-chief of "The Tatler," the monthly magazine published by the students of the Marquette High school, will be held at the school. A large number of students are seeking the office.

No Feature Film—Because an operator had hopelessly damaged the film, "Cholera 7759" was not shown at the Marquette Opera House last night, as was scheduled. There will be no feature film this week. The commencement exercises of the Marquette High school will be held in the opera house this evening, starting at 8:15 o'clock.

Good Bill at the Grand—"A Sack of Cards," a two-reel Lubin drama featuring Edgar Jones and Louise Huff, heads an exceptionally good motion picture bill at the Grand theater today. Other pictures to be shown are "With the Eyes of Love," an Edison drama featuring Augustus Phillips, and "Stung" and "Dippy's Dream," Kalem comedies. The fourth installment of the "Perils of Pauline" will be shown Thursday.

Exam at the High School—Examinations for editor-in-chief of "The Tatler," the Marquette High school publication, will be held at 1:30 o'clock this afternoon at the school. Copies of the commencement number of the "Tatler" will be distributed at the exercises in the opera house this evening. The issue contains a review of the class day exercises, cuts of the present staff of the paper and of each of the high school classes, members of the faculty and the boys' and girls' basketball teams, a unique history of the school and a good contribution of "grinds."

Swedish Methodist Convention—The annual convention of the Swedish schools and Epworth league of the Swedish Methodist Episcopal churches of the Lake Superior district will be held in Marquette June 23 to 27. One or more delegates from every church in the district, which comprises all of Michigan and Wisconsin and part of Minnesota, will attend. Bishop Quayle will deliver an address in the First M. E. church Tuesday evening, June 23. All other meetings will be held in the Swedish church. The officers and members of the Marquette church are preparing a program of entertainment.

INSURE WITH PETER WHITE & CO

CITROLAX! CITROLAX! CITROLAX!

First—get the name down pat—then buy it of your druggist. Just the very best thing for constipation, sick headache, sour stomach, lazy liver, sluggish, constipated bowels. The pleasantest, surest, nicest laxative you ever used. Tastes good—like lemonade. Acts promptly, without pain or nausea. Gives you the most satisfactory flushing you have ever had. For sale by All Dealers.

UNIVERSITY RECEIVES THE BONES OF A HIPPO

Former Governor Chase S. Osborn Tells How He Killed Big Animal in Africa.

Ann Arbor, Mich., June 9.—The bones of a giant hippopotamus, shot by ex-Gov. Chase Osborn in South Africa, have been received at the university, and will be set up and placed on exhibition in the university museum.

The story of the slaying of the giant animal, told by Mr. Osborn in the letter, in part follows:

"After breakfast I took my Savage and started up the river, where hippo pools had been reported. I counted 22 hippos in a pool half a mile long. I had secured a complete skeleton of the foal hippo of Madagascar, and I desired a good modern specimen to compare with it.

"Picking out the biggest exposed head in the pool, I fired. In an instant all the heads disappeared. I was shooting at a point between the eye and ear and a surface less than 4 by 8 inches. I judged the distance between us to be 250 yards. There was no little uncertainty as to whether the shot had struck home. The hippo would remain under water two minutes and then come up with a spout, much like a whale. They remained in evidence ten seconds, and I got in a hasty shot again. I shot five times in all. There was no assurance that I had made a hit, as the hippos grow wild and my last shots went at a distance of 350 yards.

"I ran up the bank, in pursuit as they broke water towards the end of the pool. I wished to kill but one, and so I waited to see if I had accomplished that, and sat hidden on the bank, in the shade, and watched the pool. As soon as they thought they could safely do so, most of the herd walked out of the pool, and marched away. I counted 17. It was a unique parade. In an hour and a half I saw a dead hippo floating low in the water. It was a big one. In a quarter of an hour more another dead one floated.

Natives Are Jubilant.

"I returned to camp and told of my success. They were gleeful, for not only is the meat splendid, but the hide is the most valuable of any animal in Africa. Duncan said one good hippo was worth \$250 to him, and as I wanted only the skeleton he was plainly delighted.

"The word passed like magic among the natives, and when we got to the pool with trek tow, ropes and oxen, there were between 40 and 50 men and women assembled. It was 2 in the afternoon. The tropical sun reflected from the sands of the river bed like an oven. There was a blinding glare on the pool. Then I discovered something that made me shudder. I counted nine pairs of silvery, beady eyes around the nearest floating hippo. There were crocodiles. Then I knew why the natives had held back, though their mouths were watering for the hippo meat. I told the natives to beat the water and yell their loudest, to frighten the crocodiles away, while Duncan and I would bombard the saurians with our rifles. A fine young Mohanian led the way, and carried a rope's end, and I followed. I freely confess I would not have ventured for the continent of Africa, nor would the blacks for anything else except to satisfy their hippo hunger. The plan worked, and the boys fairly swam to the hippo, and attached the rope. They towed the big beast, like a raft, till it grounded. We had to drive the oxen into the pool, so that the trek tow could be made fast. When all was ready, the hippo was hauled onto the sand. It was all that 16 oxen and 20 men could manage and while doing it they had to stop ten times to rest and breathe.

Removes Tjiti Hoodoo.

"It was dark, by then, and it was necessary to leave two of our own trusty men on guard against both the rapacity of the natives and the meat-eating animals, to all of which the hippo is a titbit. Tjiti did not want to go because he said it was his spirit animal and he dared not eat of it. I learned that when a Makalanga babe is born it is assigned a guardian spirit in the form of some animal. At first I pool-pooled Tjiti, but he was firm. Then I told him I was a bigger medicine man than those who gave him the hippopotamus and that I could remove the prohibition. He was willing.

"With a stick I drew a circle about

10 feet in diameter in the sand, and had him walk around the circumference three times, then lie down within the circle, and row over three times. Next he had to bow to the hippo three times and repeat the bowing to the invisible spirit within the circle. With that I cut off a small piece of the hippo and rubbed it on Tjiti's stomach, his forehead, behind his ears, and on his back. Such implicit faith had Tjiti, coupled with a huge appetite for hippos, that my spell worked, and he ate enough to make him as sick as any other natives."

The Piano We Build

Sell, and back with an Unlimited Guarantee — the GRINNELL BROS. (own make) — is produced with this one idea ever in view: TO embody in it THAT QUALITY WHICH MAKES, IN EVERY CASE, AN ENTHUSIASTIC PURCHASER.

It's built on scientific principles—that's why every GRINNELL BROS. (own make) piano has the same full, wonderfully rich tone; the same splendid reliability, without exception.

Its builders know piano construction, not alone through the building of this piano, but through the experience of years in repairing and rebuilding pianos of practically every make.

And only the very highest grade materials that can be purchased are used in any part. QUALITY is the result sought; QUALITY is the result attained—otherwise we would not today need three piano factories to supply the demand, as is the case.

You Purchase DIRECT From the Manufacturers

At our price it's absolutely the best piano value obtainable—a statement investigation will amply verify. You can easily buy on the Grinnell payment plan.

GRINNELL BROS., Marquette, Mich.:

Please send me free, postpaid, catalog of your own make piano; also Booklet of Purchasers.

THAT SAME INDIVIDUAL ATTENTION THIS STORE IS NOTED FOR WILL BE ACCORDED EVERY CUSTOMER DURING THIS SALE. PLEASE BE PATIENT DURING TIMES WHEN STORE IS CROWDED

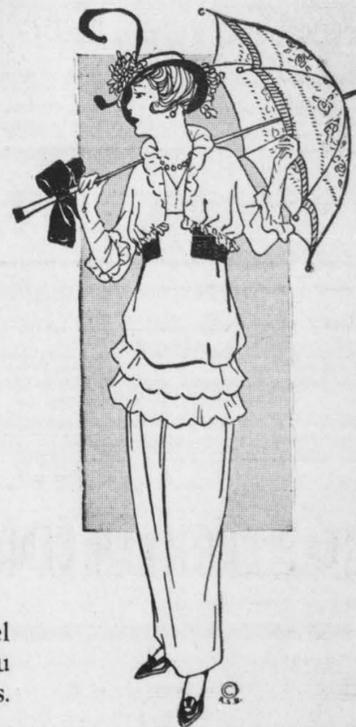

ANNOUNCING the best piece of bargain news that it has ever been the fortune of women in Marquette and vicinity to read.

A comprehensive and **SPEEDY** mid-season clearance that offers you the choice of our wonderfully complete stock of

Stylish Cloth and Silk Coats, Suits and Dresses

at prices so low in comparison with their actual worth that the economy alone demands your immediate attention.

Most opportune is this sale in its advent because it offers a pleasing array of apparel especially desirable for midsummer and early fall wear, priced so very low that you cannot afford to be without a new suit, coat or dress when you can buy them like this.

All cloth and silk Suits, values from \$20 to \$30 for only **\$15**

Imagine choosing from a group of the season's newest and best suits, worth up to \$30 at the modest price of \$15

Perhaps you're beginning to tire of the suit you bought early in the season. This sale offers you a chance to enjoy a new one at a price well within the reach of every purse.

Short, loose coats, wide hips, tapering skirts and raglan or kimono sleeves are the distinctive style touches. Both the conservative colors and the new hues. All exhibit the highest class of workmanship. You'll admit they're the best bargain you ever saw at \$15

Other suits not in this assortment are marked at \$12.50 and \$18.75

All Silk Dresses, every style and worth \$22.50 to \$32.50 for **\$17.50**

If you've wanted a \$25.00 or \$35.00 dress, but hesitated to spend that amount for it, here's a chance to get it for much less, but you must act quick.

Dressy silk frocks for best wear—pussy willow silk crepe, charmeuse taffetas and flowered silks—all shown in smart, becoming designs. Priced at... \$17.50

Many silk and wool Dresses at..... \$7.50 to \$13.50

Cool, Summer Dresses, just the sort you'll need these warm days, shown in crepes and ratines, voiles, rice cloths and other popular fabrics. Some models are designed for strenuous wear, others for more dressy occasions. Every hue of the 1914 color rainbow is included. All exhibit the same quality of workmanship of higher priced dresses. Priced... \$4.75 to \$9.85 A saving of a full third their original cost.

Alterations and fittings are extra during this sale.

TUB SILK BLOUSES AT \$2.95

NEW MODELS IN TAILORED CLOTH SKIRTS AT 5.00

All cloth and silk coats, \$17.50 to \$19.50 values, your choice **\$10.75**

A spring coat is always the one garment which the woman with a small allowance feels she cannot afford.

Now she can secure for the small price of \$10.75, a fine cloth or silk coat which earlier in the season would have cost her from \$17.50 to \$20.00, and nearly a whole season's wear is assured her yet, not to mention early fall.

Among the pretty colors are white and cream, tango and blue, green and navy, tan and black. Fabrics are eponges and gabardine cloths, chevots and serges, moire silks and wool bengalines.

Coats that were made to sell at \$25.00 and even as high as \$35.00 are to sell in this sale for..... \$18.75

There are other lots as low as \$ 5.00

SALE OPENS THURSDAY, JUNE 11th

This is truly a phenomenal event made possible only through our earnest desire to sell every garment in our store during the season for which it is made. We will not carry a single garment over because our firmly established policy of complete new stock each season is a rule that we enforce most rigidly. We want you to be certain when you come here each new season that every garment you see is new---something bought especially for the season in which it is shown. Hence these most remarkable price reductions that mean such splendid savings for you.

ALTERATIONS AND FITTING WILL BE TREATED ON THE PLAN OF "FIRST COME FIRST SERVED." PURCHASES MADE EARLY IN THE WEEK ARE GIVEN THE FIRST ATTENTION.

PLAYGROUND PLANS ARE WELL ADVANCED

Arrangements Made for Starting Classes Monday—Apparatus Not Completed.

In carrying out playground and recreational work this summer, under the direction of W. E. Turner, physical director in the public schools, "Safety first" will be the slogan. The plans for the work are now well advanced, and the first classes will be conducted Monday, although the apparatus will not be ready for several weeks.

The playground at the Central school, Division street, will be the largest. It will be the most centrally located, and the apparatus there will be somewhat more complete than at the other four school grounds.

Many manual training students are now devoting full time to turning out the playground equipment, and the greater amount of the heavy construction work remains to be done in the school machine shop. The piping, of which the frame for each piece of equipment will be constructed, has not yet arrived, but setting it up will not require much time.

At the Central school ground the apparatus will be distributed on both sides of the walk leading to the main entrance of the building. There will be three pair of flying rings, three steel swings, two horizontal bars, six traveling rings, one steel flexible ladder, one steel trapeze, one steel climbing pole, one climbing rope, two long chutes of steel construction, and two steel ladders for chutes. The apparatus will be of the most substantial construction, and will be practically indestructible. The chutes will be so built that there will be no danger for the child and the least wear on the child's clothes.

The apparatus at the other four grounds will be similar to that to be placed at the Central school.

For furthering the "safety first" movement, Mr. Turner will include instruction in safety first work as a part of the regular course in physical instruction and recreation.

Sessions Open Monday.

Next Monday morning at 9 o'clock the playground work for the summer will commence, and classes will be conducted regularly thereafter. Each morning there will be classes for the boys from 9 to 12 o'clock, and for the girls in the afternoon from 1 to 5 o'clock. There will be sessions in the early evening from 6:30 o'clock to dark for both boys and girls at the Central school ground. The work will include general play and class work. During the evening at the Central school the girls will be apportioned a part of the apparatus, and the boys the other part.

Marching, free hand drills, Indian club and dumb bell drills, wand drills, calisthenics and folk dancing will be a part of the child's training. Two Victrolas have been ordered, with a good supply of records which will be used for both indoor and outdoor work.

For the playground training the children will be divided into classes according to size, and not age. All will be expected to attend classes promptly. When school sessions are resumed in the fall a playground demonstration will be held, and only those who have done good work will be entitled to take part in the demonstration.

Mr. Turner has formulated plans for a Fourth of July celebration for the pupils. It will include a variety of contests, with prizes for the winners. There will be a patriotic program by the students. A band will be engaged. Ishpeming's playground work has already attracted notice, and Mr. Turner has received a request from the National Playground and Recreation Association, of New York, asking for information and photographs.

Members of the junior and senior classes of the Ishpeming High school are meeting twice a week at the Ishpeming Y. M. C. A., and are receiving instruction in playground supervision. They have been showing considerable interest.

HEARING IN SELLWOOD CASE.

Yesterday Was Date Set for Continuation of Proceedings.

The hearing in the three-cornered contest over the Joseph Sellwood estate, which was started last month and then adjourned, owing to the serious illness of Mrs. LaRue S. Mershon, a daughter, was resumed yesterday in the probate court at Duluth.

At noon Monday the court had not been informed as to the present condition of Mrs. Mershon, who is one of the principal legatees under the will, which is being contested by her sister, Mrs. Ophelia Leithhead. Mrs. Mershon has been suffering from a nervous breakdown, and at the time of the hearing in May her physician said that it would be impossible for her to testify.

AGED RESIDENT DIES.

Johannes Peterson, Aged Eighty-One Years, Passed Away Monday.

After an illness with nephritis extending over a period of eight months, Johannes Peterson, aged eighty-one years, one of Ishpeming's oldest residents, died Monday morning. He was an early resident of this city, and had made his home here for fully forty years. His home was on East Vine street.

Two sons and two daughters survive. They are Otto Peterson and Mrs. Otto Kellgren, of Ishpeming, Hokan Peterson of Big Bay, and Mrs. Robinson, of Indiana. All will be here for the funeral services, which will be held Thursday afternoon at 2 o'clock from the Swedish Lutheran church. Interment will take place in the Ishpeming cemetery.

Mr. Peterson was among the best known Swedish residents of Ishpeming. For many years he worked as a stone mason and plasterer.

MUST OBSERVE ORDINANCE.

Persons Using Hose Between 4 and 5 O'Clock Will Be Prosecuted.

The board of public works is going to enforce strictly the ordinance regulating the use of garden hose while the city pumps are in operation. In one section of the city visited by the board yesterday afternoon nearly a dozen lines of hose were found in use. Hereafter all offenders will be prosecuted. Last summer fourteen persons were fined for using hose at a forbidden time.

The pumps are run every day between 4 and 5 o'clock in the afternoon to force water to the higher points, particularly Hill and Marquette streets. With a number of garden hoses in use while the pumps are running, this is impossible. The ordinance also provides that no garden hose shall be used while the pumps are in operation for a fire. The sounding of the fire bell is the signal to shut off the water from the garden hose.

CLASS DAY YESTERDAY.

Exercises Were Held Last Evening at Ishpeming High School.

The auditorium of the Ishpeming High school was filled to its capacity last evening by the relatives and friends of the members of the 1914 graduating class who assembled for the class day exercises. Tomorrow night the commencement exercises will be held at the Ishpeming theater, commencing at 8 o'clock.

Last night's program opened with the president's address by Archie Lemire. This was followed by the class history by Miss Alice Hoover, a vocal solo by Miss Julia Jeffery, faculty notes by William Small, the class poem by Miss Margaret Rogers, and a piano solo by Carl Gustav Olson. The class will be read by Miss Eva Gronberg, the junior response by Holburn Hyden, and this was followed by a vocal solo by Miss Hazel Martin. The Misses Hazel Frye, Marian Bargh and Edith Haglund read the class prophecy, and the gittatory was delivered by Miss Alice Keese. The presentation of the memorial was made by Miss Agnes Parsons. The exercises closed with the singing of the class song by the members of the class. The words were written by Stanley Barnett.

JUNIOR BASEBALL SCHEDULE.

Games Will Be Played Semi-Weekly Throughout Summer Months.

A schedule of the semi-weekly games to be played by the teams entered in the junior baseball league during June has been outlined. The directors will schedule the games three weeks in advance. Teams from the Salisbury, New York Wolverines, Cleveland Cubs, New York Cubs and Strawberry Hill have entered.

The schedule is:

June 12—Salisbury vs. New York Wolverines; Burt diamond. Cleveland Cubs vs. New York Cubs; Third street diamond.

June 17—Salisbury vs. Strawberry Hill; Burt diamond. Cleveland Cubs vs. New York Wolverines; Cleveland diamond.

June 20—Salisbury vs. New York Cubs; Third street diamond. Cleveland Cubs vs. Strawberry Hill; Burt diamond.

June 24—Salisbury vs. Strawberry Hill; Burt diamond. New York Wolverines vs. New York Cubs; Third street diamond.

June 27—New York Wolverines vs. Strawberry Hill; Burt diamond. Cleveland Cubs vs. New York Cubs; Cleveland diamond.

July 1—Salisbury vs. Cleveland Cubs; Burt diamond. New York Cubs vs. Strawberry Hill; Third street diamond.

RECOVERED FROM INJURY.

Miss Sylvia Linden, who was injured in a street car accident in Detroit about eight months ago, has returned to her home in West Ishpeming, after having been confined in a Detroit hospital for more than seven months. Miss Linden was badly hurt in the accident, which occurred on Michigan avenue. She has partially lost the use of her right arm, and the amputation of three of the fingers of her left hand was necessary.

HERE FROM GRIMMINGES, ONT.

James Tobin has arrived here from Grimmings, Ont., where he is employed in diamond drill work by the Sullivan Machinery company, and will visit with his family. Grimmings is north of Cobalt, and is becoming known as the center of the gold field of that region. The gold outcrops on surface and is being followed with the drills. Mr. Tobin says that the outlook for the district is promising.

BOARD IN SESSION.

The council, sitting as a board of review, was in session yesterday, and will sit for two days or more additional. Next week a meeting open to the public will be held. A meeting of the council was held Monday night, as the executive committee was not ready to report adjournment was taken until Friday night, at 7:30 o'clock.

DON'T EXPERIMENT.

You Will Make No Mistake if You Follow This Marquette Citizen's Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. These are frequently symptoms of kidney trouble, and a remedy which is recommended for the kidneys should be taken in time.

Doan's Kidney Pills are a good remedy to use. No need to experiment. It has acted effectively in many cases in Marquette. Follow the advice of a Marquette citizen.

Mrs. Leonard Richer, 407 Rock St., Marquette, Mich., says: "One of my family had kidney and bladder weakness and had little control over the kidney secretions at night. We tried remedy after remedy and spent a great deal of money but nothing brought relief until Doan's Kidney Pills were used. They improved her health and acted beneficially in every way. The public endorsement I gave Doan's Kidney Pills some years ago still holds good. I still think they are the best kidney remedy any one can buy. The one of our family who took them has not been bothered by her kidneys or back since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

MANY REGISTERED.

The names of seventy-nine men and boys have been registered at the Ishpeming Y. M. C. A. for entrance in the swimming campaign that is to be conducted from June 15 to 29. It is expected that more than a hundred will have registered before the campaign opens. At a meeting of the Y. M. C. A. directors Monday night consideration will be given to the plan of conducting a girls' swimming campaign.

OLIVER OFFICIALS HERE.

W. J. Olcott and J. H. McLean, of Duluth, president and general manager of the Oliver Iron Mining company, arrived in Ishpeming yesterday in their private car, and spent the day conferring with W. H. Johnston, general superintendent of the company in the Marquette district. They looked over the company's properties here.

TRI MU CLUB ELECTION.

At a meeting of the Tri Mu club Sunday, officers were elected, to serve until June, 1915, as follows:

President—Winford Wahlman.
Vice President—Russell Floyd.
Secretary—Carl Anderson.
Treasurer—Milton Peterson.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

J. C. HENNE, 616 Co., Toledo, Ohio.
Sold by druggists. Take Hall's Family Pills for constipation.

LAKE SUPERIOR & ISHPEMING RAILWAY.

MUNISING, MARQUETTE & SOUTH-KASHTON RAILWAY.

TIME TABLE

In Effect June 7th, 1914.

WEEK DAYS.

TRAINS LEAVE MARQUETTE

For Harvey, Mangum, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwin, Princeton, Rumely, Chatham, 6:45 am.

For Marquette, Harvey, Mangum, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwin, Princeton, Rumely, Chatham and Munising, 9:25 am.

For Birch and Big Bay, 12:30 pm.

For Negaunee and Ishpeming, 9:35 am.

TRAINS LEAVE ISHPEMING

For Marquette, Harvey, Mangum, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwin, Princeton, Rumely, Chatham and Munising, 3:50 pm.

On Saturdays a train will leave Ishpeming for North Lake at 10:35 a.m. and 3:35 p.m. Returning will leave North Lake at 10:55 a.m. and 3:25 p.m.

TRAINS LEAVE NEGAUNEE

For Marquette, Harvey, Mangum, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwin, Princeton, Rumely, Chatham and Munising, 3:58 pm.

TRAINS LEAVE BIG BAY

For Marquette and M. M. & S. 11:00 am.

E. Ry Stations, 11:30 am.

TRAINS LEAVE BIRCH

For Marquette and M. M. & S. 11:32 am.

E. Ry Stations, 12:25 pm.

SUNDAYS.

TRAINS LEAVE MARQUETTE

For Harvey, Mangum, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwin, Princeton, Rumely, Chatham, 8:45 am.

For Marquette, Harvey, Mangum, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwin, Princeton, Rumely, Chatham and Munising, 5:20 pm.

For Birch and Big Bay, 8:50 am.

For Negaunee and Ishpeming, 7:50 pm.

TRAINS LEAVE ISHPEMING

For Marquette, Harvey, Mangum, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwin, Princeton, Rumely, Chatham and Munising, 7:45 am.

For Marquette, Harvey, Mangum, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwin, Princeton, Rumely, Chatham and Munising, 4:20 pm.

TRAINS LEAVE NEGAUNEE

For Marquette, Harvey, Mangum, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwin, Princeton, Rumely, Chatham and Munising, 7:53 am.

For Marquette, Harvey, Mangum, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwin, Princeton, Rumely, Chatham and Munising, 4:28 pm.

TRAINS LEAVE BIG BAY

For Marquette and M. M. & S. 11:00 am.

E. Ry Stations, 11:30 am.

TRAINS LEAVE BIRCH

For Marquette and M. M. & S. 11:32 am.

E. Ry Stations, 12:25 pm.

Sunday train from and to Big Bay does not connect with Sunday train to and from Munising.

Marquette News

SHOALS IN HARBOR ARE BEING CHARTED

Marquette the First and Only Port on Lake Superior to Be Visited.

The shoals of Marquette harbor are the first on Lake Superior to be charted according to the new methods now being used by the United States lake survey. The crew of the U. S. lake survey boat, Colonel J. L. Lusk, was interrupted in their work along the west coast of Lake Huron, and ordered here. J. C. Sunderland, junior engineer of the force that is making the survey, yesterday said he was not informed of the reason for the survey here, at this time, but he believed that it must be urgent. After the crew has finished the work here, about a month hence, they will return to Lake Huron and complete a survey of the west coast. Not another port of Lake Superior will be touched this summer.

The last official survey of the Marquette harbor was made in 1866-7. Since that time more data have been incorporated at intervals in the map, the most extensive work having been done in 1901-2. During the three or four weeks the crew of the Lusk is here it will cover the entire shore line from Chocomaug to beyond Presque Isle, a rocky islet near Presque Isle. The docks and the topographical features of the city will be re-charted, and every shoal found along the shore in the area mentioned will be charted on the map of the Harbor of Marquette and Presque Isle, a revision of which was completed in 1912.

First Survey Impact.

The first survey of the harbor was made with a lead line. This method, while it is reliable as far as it goes, does not go far enough, and it is especially unsuited to the conditions in the harbor here. As in the harbor here, and in fact, in all the surrounding waters, the lake bottom is most irregular the soundings were frequently deceiving. Two feet from a rock which may nearly reach the surface of the water, a depth of more than 100 feet may be found. Under the old method the soundings could not be made sufficiently close to each other to secure the requisite accuracy.

The sweep system now used is much more satisfactory. A large wire drag is employed. When the wires encounter a rock they catch, and the shoals are revealed. The drag is used industriously until the exact location and height of the shoals have been determined.

Marquette is considered by the lake survey to be one of the most important harbors on Lake Superior, as many heavy draft boats are constantly arriving and leaving the harbor. It consequently has to be well charted to insure safety to shipping.

Crew Established Points.

During the past week, the members of the crew of the Lusk have been busy establishing points about the city and vicinity, so that the triangulation work may be carried on. At different places along the shore and at Presque Isle, flags have been placed in order that the crew, when out in the lake, will have something to guide them.

This part of the work now has been practically completed, and the drag was put in use in the harbor for the first time yesterday. The engineers will, this year, have several additions to make to the detailed map of the city, published in connection with the chart of the harbor. Several men have been going through the city, checking over the map compiled in 1912, and comparing it with the improvements that have been made. The new Jones furnace, the St. Luke's hospital and the Catholic Diocesan orphanage will be among the notable additions to the map.

Mr. Sunderland, who has charge of the work, has four assistants, who will be busy here during the next few weeks. They are: D. E. Jennings, E. Duncan Bell, T. J. Mitchell, and H. G. Ryerse, of Detroit.

"SANE FOURTH" IS FAVORED.

Marquette residents are opposed to a tumultuous celebration of the Fourth of July in this city this year—the kind at which it is sought to make the "eagle scream." While they feel the day should not be overlooked, they are almost unanimous in the belief that the observance should be restrained. The doctrine of a safe and sane Fourth, which has been rather strictly observed in Marquette in recent years, still retains its favor.

Marquette's city ordinance governing the sale of fireworks is much in line with the suggestions received here from John T. Winship, state fire marshal. The size of the firecrackers is limited by the ordinance to an explosive that will make a noise, but at the same time will be harmless to those employing it. Marquette's objection to the Fourth will not be marred by a series of casualties. But few accidents from the observance of the day have occurred here in several years, and the city officials will take stringent measures to see that the record is lived up to this year.

Fire Marshal's Proclamation.

State Fire Marshal Winship's proclamation in regard to the observance of the day follows: "It is now but a few weeks until the newspapers of the country will begin the publication of the list of those killed and injured, together with the amount of property destroyed, by the careless use of fireworks and firearms in the celebration of Independence Day."

"For several years many of the cities and towns of Michigan and the entire press of the state, as well as throughout the United States, have advocated a safe and sane Fourth of July."

"The people have begun to realize to some extent the awful toll of human life exacted by useless and needless celebrations. The hundreds of children crippled and disabled for life each year is appalling, while property burned, property that never can be replaced, runs into the hundreds of thousands. Statistics show that efforts along the line of a safe and sane Fourth have not been in vain. The following record for the past four years ought to be of sufficient interest to the people of Michigan to secure their united cooperation in helping to make 1914—'All cities sane, killed and injured, none:'

1910—20 sane cities, 5,407 killed and injured.
1911—21 sane cities, 2,223 killed and injured.
1912—161 sane cities, 1,603 killed and injured.
1913—203 sane cities, 1,163 killed and injured.

"Annually the mayors of our cities issue proclamations concerning the use of cannon crackers and other dangerous noise and fire producers upon the Fourth. But it may be impossible for any police force absolutely to enforce the provisions of an ordinance."

"It is suggested that the place to begin is with the sellers. Ordinances which shall regulate or prohibit the sale of the more dangerous varieties of fireworks can be enforced much more easily than can those seeking to regulate or prohibit their use after they are once sold."

A Drastic Measure.

"A few cities have already absolutely prohibited the sale of fireworks, and the fact that outside of the property loss there are from 100 to 500 deaths annually, directly attributable to these dangerous agencies, is sufficient justification for this action."

"But the drastic legislation would not be required if the municipal authorities would enforce proper regulatory measures. And enforcement of these measures can more easily be secured if the parents of the land will appreciate the danger and act accordingly in making their purchases."

"Parents are urged to back up to the fullest extent possible all efforts of authorities to lessen the dangers of life and property. And especially are they urged to use the utmost care in their purchases and later in the use of these 'joys' of youthful heart."

"In a number of Michigan towns and cities the past few years safe and sane celebrations have been held. The use of fireworks in many instances was entirely done away with. Basket and picnic dinners were held in the parks. Good speakers were obtained, and outdoor sports of all kinds were enjoyed. The splendid result that not a single accident was reported from these towns."

"In other towns where celebrations were held fireworks were used only in the evening, the firing of them being in charge of the police and fire department and his men, a special location being selected for the fireworks stand and every precaution taken to guard against accident or fire."

"Dealers throughout the state will soon be laying in their usual supply of fireworks, and the press and local authorities of the towns and cities of Michigan at this time should call attention to the awful records of the loss of life and property in former years, so as to greatly reduce this record for 1914."

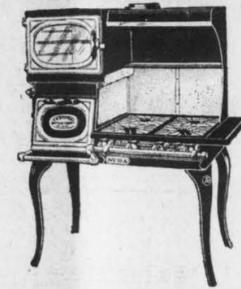

AUSTRALIA NEEDS MACHINERY.

Washington, June 9.—Neil Nelson, Australian government commissioner for the Panama-Pacific exposition, is in Washington visiting the various departments to make arrangements for the admission of exhibits which will be installed in the Australian building at San Francisco. He has been authorized by his government to expend \$400,000 on the exhibit and hopes as a result to bring about closer trade relations between the United States and Australia.

"The people of the United States, that is the people of the west coast of the United States," Mr. Nelson said, "are really our closest white neighbors and Australians are especially partial to American goods and American people. Our country is practically without manufacturing establishments. We are in the conditions that the United States was 100 years ago. We have much raw material to sell and we expect to ship lots more of our meat and wool to this country after the Panama canal is opened."

"We will then be only 9,000 miles from New York. In return we expect to buy increasing quantities of American manufactured products. American machinery is especially popular in Australia. The Americans have learned to make their machinery light and comparatively inexpensive. It is up-to-the-minute and offered at such a price that it is possible for its users to discard it in a few years for later models."

Have You a Cabinet Gas Range?

If Not, Buy One This Month and Receive \$5.00 in Exchange for Your Old Gas Range

The New Features Are:

- Elevated Oven—no stooping
Glass Door—no burned bread
Automatic Lighter—no matches
Porcelain Enameled—easy to clean

Marquette Gas Light Company

LUMBER EXPOSITION PROVES BIG WINNER

Forestry Products Show Offers Displays of Particular Interest to Michigan People.

New York, June 9.—The first annual forestry products exposition is coming to a close in the Grand Central palace, New York, having been moved there from the Coliseum, Chicago, where it was shown for a week.

It is of interest not only to the owner of standing timber, the factory owner and the big investor, but also to the general public and the man planning a little job of back steps."

The time has gone by when lumber will sell itself. Lumbermen all over the country have discovered this and so the National Lumber Manufacturers' association formulated the idea of a forestry products exposition in order to show the public the various kinds of woods, their usefulness, their availability and their relative merits."

"The inroads of substitutes has brought lumbermen to the conclusion that they must advertise their products just as the tar roofing shingle men and the wall board men advertise their products."

Years ago back in the good old Michigan days of white pine the lumbermen had but to saw logs and put the lumber in their yards and buyers came and selected such as they could use for

their particular needs. Today the lumberman must go to the buyer, study his requirements and then fill his wants, not with just one kind of wood but generally with many varieties.

Remarkable Showing of Woods.

Never before have the beauty, stability and utility of wood products been so effectively brought before the attention of the public as in this first forestry products show.

A birdseye view of this exposition would show you a main street, indoor, running about the length of two short city blocks. Down this street are a variety of one-story bungalows and houses built by the various lumbermen's associations to show off what can be done with redwood, cypress, yellow pine, fir, hemlock and other woods. Each association, such as the Michigan Hardwood Manufacturing, shows in its individual way what could be done with its particular woods which, in this case, are birch, oak and maple.

The cypress manufacturers some ten years ago were almost unknown, but by advertising their wood as "Cypress the Wood Eternal," they have materially forced up the demand and the price for their product.

The redwood exhibit commands great interest, as this wood is now coming into the Michigan and eastern markets. It is found in but four counties in California and is an excellent wood for all outdoor exposures, such as silos, green-house construction and all porch or siding work. The trees are from 200 to 700 years old and therefore the wood contains almost no sap or water to make the wood warp, shrink or crack.

Modern Logging Scenes.

The national box manufacturers show that they use one-tenth of all the lumber cut in the United States for making

their boxes and they also bring out the fact that they have \$100,000,000 invested in their box business.

We, as a general rule, know little about wood preservation and this is being eliminated by the facts and figures given by the American Wood Preservative association.

To the general public the motion picture exhibits of the "Modern Logging" scenes are most interesting. Here are seen the "caterpillar engine" hauling its train load of supplies and logs over an air ice made road. Here is the mammoth self-propelling logging machinery picking up great logs and handling them as though they were feathers.

The United States forestry service has a \$10,000 exhibit illustrating timber estimating, paper making, drying of lumber and a thousand and one technicalities that could be studied over for days at a time.

This forest products exposition is a success and it will now be an annual affair, taking place in Chicago and New York. It is bound to be of material aid to Michigan timber holders through advertising the lumber business before the general public.

SENATOR SMITH MAKES RECORD ON PENSIONS.

Washington, June 9.—Senator William Alden Smith is making a record during the present session of congress in pension matters. For years Senator Smith has championed the cause of the old soldier, but he never was compelled to work for long as a member of a minority party. Despite the fact that he is a Republican, he has succeeded in obtaining favorable reports on forty-one pension cases during this session. Only two senators, Shively of Indiana and Bristow of Kansas, have obtained more

pensions this session than has the Michigan senator.

HELPS "BACK TO THE FARM."

Federal Aid to Agricultural Instruction Based on Rural Population.

Washington, June 9.—A grand total of \$23,120,000 will be expended by the United States government within the next nine years for instruction and practical demonstrations in agriculture and home economics under the provisions of the Smith-Lever act, according to a bulletin just issued by the department of agriculture. During this time the states will have to appropriate \$18,800,000. All this money will be expended in giving instructions to persons not attending agricultural colleges. None of the money may be used for building purposes, rentals or college instruction. As not more than 5 per cent. of each annual appropriation may be used for printing or distributing publications, 95 per cent. must be expended in agricultural extension work.

For the year 1914-1915 Michigan will receive \$10,000 from the government on condition that the state furnishes an equal amount. The next year Michigan will receive \$28,000 federal aid; in 1916-1917 she will receive \$43,000.

Each fiscal year thereafter until 1922 Michigan's share may be obtained by adding \$15,000 to the amount received the previous year. For the fiscal year 1922-1923 Michigan's amount will have reached \$133,016. Thereafter the amount received will be based upon the proportion of rural population in the state to total population based upon the census of 1920.

Guaranteed tuning at Grinnell Bros' Music House. (1-14-14)

The Paige—and Public Demand

In Three Years, Paige Sales Have Increased From \$44,000 to more than \$1,250,000 a Month

These astounding figures are indisputable evidence of Paige supremacy in the medium price field.

They indicate an increasing demand for Paige cars that is without parallel in the middle division of the Automobile Industry. They affirm plainly and clearly that the Paige is a "preferred" investment with the motor buying public—the "first choice" of men who weigh motor car values.

As you turn these figures over in your mind, remember that increased sales can only come as a result of increased demand. The public does the buying—the public alone determines whether automobile sales shall increase or decrease.

So—above all—these figures mean that the motor public has rendered an overwhelming verdict in favor of the Paige. In the most substantially convincing way—by an investment of over \$1,250,000 a month—Motor Car buyers have selected the Paige as the best value of the medium priced field.

With the facts before you—in the face of such sweeping evidence—can you afford to purchase any car until you have carefully investigated the Paige? Isn't it logical to assume that there is a tangible, practical reason back of this marked preference for one car.

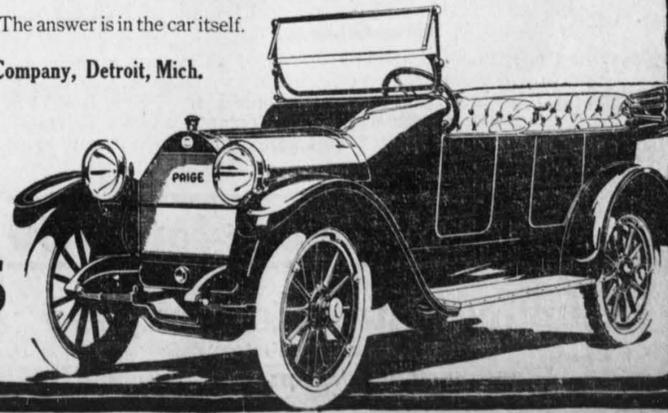

See the Paige today. The answer is in the car itself.

Paige-Detroit Motor Car Company, Detroit, Mich.

ASIRE & PALMER UPPER PENINSULA DISTRIBUTORS, MARQUETTE, MICH.

'36' Glenwood Model \$1275

Model "25" \$975.

"TIZ" FOR TIRED AND SORE FEET

"TIZ" for Puffed-Up, Burning, Sweaty, Calloused Feet and Hurting Corns.

When your poor, suffering feet sting from walking, when you try to wriggle your corns away from the leathers of your shoes, when shoes pinch, and feet fight, when feet are swollen, sore, chafed—don't experiment—just use "TIZ." Get instant relief. "TIZ" puts peace in tired, aching, painful feet. Ah! how comfortable your shoes feel. Walk five miles, feet won't hurt you, won't swell after using "TIZ."

Sore, tender, sweaty, smelly feet need "TIZ" because it's the only remedy that takes pain and soreness right out of corns, callouses and bunions. Get a 25 cent box of "TIZ" at any drugist or department store. Get a whole year's foot comfort for only 25 cents. Think of it!

BIG MINNESOTA AREA IS DECLARED "DRY"

Supreme Court Decision Also May Banish Saloons at Duluth and Minneapolis.

Minneapolis, Minn., June 9.—When the United States supreme court reversed the decision of the district court in the so-called Indian liquor cases yesterday, the action not only had the effect of declaring "dry" a 15,000-square mile region in central and northern Minnesota, but may cause two-thirds of the state, including Minneapolis and Duluth, to be placed in the prohibition column. The territory included in a treaty upon which the supreme court passed directly covers a portion of the central part of Minnesota larger than three New England states.

Although the decision only directly affects the territory covered by a treaty of the government with the Chippewas in 1855, it is believed by many that

the decision is equally effective in regard to two previous pacts covering the greater portion of southern and western Minnesota and from which the prohibition clause in the 1855 document was copied. If enforced literally, all of this city west of the Mississippi river and all of Duluth will be "dry" territory, until congress sees fit to lift the liquor embargo. State officials were reluctant today to discuss the subject, until they had received and studied a copy of the decision.

Test Vote at Washington Probable.

Washington, June 9.—Nation-wide prohibition through an amendment of the federal constitution will be considered tomorrow at a special meeting of the house rules committee. Prospects of a vote on prohibition at this session have been the subject of general discussion lately, and Majority Leader Underwood has expressed willingness to have the question put before the house for a test.

The Democratic leaders believe that while the Hobson resolution might command a majority, it could not receive the two-thirds vote necessary for passage.

It is the contention of geologists that the Mediterranean was once a great inland sea.

VERDICT A TRIUMPH FOR SCHUMANN-HEINK

Diva Wins on Every Issue in Her Suit for Divorce from Wm. Rapp, Jr.

Chicago, June 9.—Mrs. Schumann-Heink today won her suit for divorce from her husband, William Rapp, Jr. Justice Sullivan instructed the jury to return a verdict favoring the diva on every issue. One of these was complete vindication on the charges which her husband made by insinuation.

The prayer of the bill filed by Mrs. Schumann-Heink was for an absolute divorce. No mention was made of alimony and the decree, when it is drafted, will follow the petition of the singer.

The diva declared that she would go to Europe next week. Rapp, before he left the courtroom, said he would remain in Chicago. "I do not care to say what my plans are now," he added.

The case was made notable by the fact that the singer's attorneys read in

to record a number of endearing letters written by Rapp to a Mrs. Catherine Dean of New York.

"There was no other end," said Schumann-Heink, after the verdict was announced. When a reporter asked her if she intended to marry again, she said: "Ah, my life now is devoted to my children and my art."

Someone whispered that the singer had received three proposals in the morning mail. But this she denied with a peal of laughter.

Rapp did not appear to be perturbed by the verdict.

JANE EST IS SENTENCED TO WORKHOUSE FOR CAUSING TROUBLE AT CHURCH MEETING

New York, June 9.—Jane Est, an Industrial Workers of the World leader, who took an active part in the descent on the churches by that organization last winter and was arrested in April, after a disturbance in Dr. Parkhurst's church, was arrested again today when she interrupted a religious meeting of the Peace Forum. She demanded that she be allowed to take the stand and address the assemblage.

When arraigned in a police court later Miss Est was sentenced to a term of three months in the workhouse on Blackwell's island, after Frank Urban, a speaker at the meeting, had testified that she tried to strike him when he refused to allow her to address the gathering. Miss Est, in giving her "pedigree," said she had no home and was a student of philosophy and sociology.

STOCK MARKET IS DULL; THE SENTIMENT CHEERFUL; PRICES GAIN FRACTIONALLY.

New York, June 9.—Another small advance in stocks was recorded today. While traders continued to show indifference to outside influences, the sentiment was cheerful and the inquiry broad. The good impression produced by yesterday's crop report was strengthened today by the favorable character of the weekly review of weather conditions. The ease with which quotations were advanced on comparatively small buying indicated a scarcity of stocks, but the bulls were not aggressive and in the last half of the day the trading was decidedly slow.

WHEAT VALUES WEAKEN ON NEWS OF BIG CROPS.

Chicago, June 9.—Bearish deductions from the government report sent wheat down today to about the lowest price so far this season. Final quotations follow: July wheat, 85½ cents; September, 83½; July corn, 71¼; September, 68½; standard oats, 41¼@41½.

CHICAGO PRODUCE QUOTATIONS.

Chicago, June 9.—Butter was easier in price in the Chicago market today; creameries were quoted at 26@26½ cents. Eggs, lower; receipts, 23,789 cases; eggs at mark, cases included, 16@18½ cents; ordinary firsts, 17@17½; firsts, 18@18½. Poultry, alive, lower; turkeys, 14½ cents.

COLUMBIA RATIFIES THE TREATY.

Bogota, Colombia, June 9.—The Colombian congress in special session today ratified the treaty with the United States by which Colombia is to receive \$25,000,000 and certain concessions in the settlement of the long standing dispute between the two countries over Panama.

Upper Peninsula

Large Strawberry Bed.

A. W. Thompson, supervisor, is engaged in planting an acre of strawberries at his farm in Norway township, Dickinson county. Mr. Thompson expects to pick berries this season from a bed over an acre and a quarter in extent. The plants are in healthy condition and he has reason to expect a large crop. Mr. Thompson has about half an acre of currants, but does not expect much of a crop this season.

Bond Issue Is Voted.

The recent special election held in Felch township, Dickinson county, was favorable to an issue of bonds for highway purposes. The vote was practically unanimous, there being only four votes in opposition. The proposition carried permits the issuance of \$10,000 worth of bonds for building new roads and the repairing of the present highways. Felch is in good condition financially, having no debts, and the bonds will find a ready market.

Peninsula Proud of It.

The Manistique Pioneer-Tribune says: An advertisement of the Northern Normal, located at Marquette, appears in this issue. This institution, under President Kaye, has forged to the front and is now considered one of the leading institutions of the kind in the Middle West. For some reason or other, Manistique has not had a large representation in the school, the lower peninsula normal being given the preference. This is not as it should be. Less money is expended in carriage by attending the Marquette school, and its graduates are the equals if not the peers of any normal in the country. Interested persons should write Mr. Kaye for a catalogue and other information.

In Business in the Philippines.

Leonard A. Winkel, of Manistique, who has been in the government service in the Philippines the last two or three years, has gone into business, being a member of the firm of Hanson, Winkel & Co., importers and exporters. W. E. Hanson, a former resident of Manistique, is the senior member. He is at present located in Seattle and is in the lumbering business. He will attend to the company's American business. Mr. Winkel will be actively engaged in looking after the business in the Philippines, and associated with him is L. V. Toon, a Chinaman. Chinamen are the traders of the Orient and Mr. Toon has had ample experience in the business. The firm expects to have branch offices at Iloilo and Cebu.

ALWAYS LEAD TO BETTER HEALTH

Serious sickness starts in disorders of the stomach, liver and kidneys. The best corrective and preventive is Dr. King's New Life Pills. They Purify the Blood—Prevent Constipation, keep Liver-Kidneys and Bowels in healthy condition. Give you better health by ridding the system of fermenting and gassy foods. Effective and mild. 25c. The Maxwell \$750 Car

More Automobile for the Money Than You'll Find in Many Cars Selling for \$1000 or More.

In Brief—

A full 5-passenger car; 4-cylinder, 25 horsepower motor, cone clutch; sliding gear transmission; 3 floating rear axle; left drive; center control; 56 inch tread; 103 inch wheel base; 30x3 1/2 inch tires, front and rear; actual weight 1685 lbs.

Or to Go Into Detail—

Motor

Motor cast en bloc; 3 3/8 inch bore; 4 1/2 inch stroke; adjustable valves completely enclosed. Extremely large crank shaft for this size motor; all bearings of bronze with babbit lining.

Simms high-tension magneto furnishes spark direct to plugs. No coil, therefore no vibrators to get out of order. Zephyr carburetor—Atomizer type; no springs to get out of adjustment; Ideal hot and cold-air supply controlled from dash to suit starting and running, no matter what the temperature.

Splash lubrication system, made positive in its action by slow moving plunger pump.

Transmission

Selective type transmission—three speeds forward and one reverse. Main drive shaft has Hyatt roller bearings at front end; bronze bushing with babbit lining at rear. Adjustable cone clutch lined with motobestos—takes hold firmly yet without sudden gripping.

Control

Left drive; 16 inch steering wheel; Gemmer irreversible steering gear. Spark and throttle control rods enclosed in steering column and operated beneath steering wheel. Foot throttle or accelerator pedal with foot rest.

Transmission control lever in center of car is operated by right hand. Emergency brake lever at right of control lever. Clutch and service brake pedals are adjustable. Contracting (service) and expanding (emergency) brakes actuate on 12 1/2 inch brake drums bolted to rear wheels. "Safety First," surely!

Springs and Frame

Easy riding is assured by four springs of semi-elliptic type. Front springs, 32 inches long; rear 40 inches long fixed at front and shackled at rear and mounted on a rocking seat.

The frame tapers from 33 7-16 inches at rear to 28 inches in front—this insures that body rests solidly its complete length.

Body and Equipment

Handsome streamline body—protected from mud and dirt by fully enclosed fenders and convex filler aprons; aluminum hood rest; beaded doors and concealed door handles; scuffing plates; tire holder; two side and one rear oil lamps; 10 1/2 inch gas head lights supplied by a Prest-O-Lite tank.

Perfectly fitted top, with envelope and Jiffy storm curtains; adjustable windshield; Stewart Speedometer; large water filler cap on radiator—or, as you must have noticed the Maxwell "25" at \$750 comes to you with complete equipment ready for driving—No extras to make the first cost really more than it would appear.

Ishpeming

"PAID IN FULL" NEXT FEATURE.

This Noted Drama at the Ishpeming Theater Friday June 12.

With Tully Marshall and members of the original Broadway cast, "Paid in Full," one of the motion picture features of the Famous Players Film company, will be presented at the Ishpeming theater Friday of this week. This play is Eugene Walter's five-act theatrical hit, produced under the personal direction of Augustus Thomas. It is presented in five parts, with two hundred and ten scenes. The story of the play, in brief follows:

Captain Bill Williams, a rough old trader and mariner, president and general manager of the Latin American S. S. company, who has amassed considerable fortune through trading in slaves and supplies along the coast of Africa, and whose past life has been but a series of vivid brutality, is the executor of the estate of his one-time general manager, a Mr. Harris. Harris' daughter Emma, still remains an inmate to Joe Brooks, a clerk in the office of Captain Williams' steamship company, incurs the enmity of her father, and is cut off in his will; Jimmy Smith, dock superintendent for Captain Williams, although a rival of Joe Brooks for the hand of Emma, still remains an intimate friend of both Emma and Joe, and is a frequent caller at the Brooks' home.

Captain Williams, with the marked brutality of his past life, designs to rid Emma of Joe that he may accomplish his own desires, and consequently becomes oppressive in his treatment of Joe. Joe becomes socialistic in his ideas and whines of Jimmy's better position and the lack of a proper wage which he believes the captain is holding from him. The captain calls on Emma frequently at her humble Harlem home and forces his attentions on her by inviting her to dinner and taking her on auto rides. During one of the captain's visits, Joe returns to hear the captain remark that it is a shame that Emma has to be without a man's help, and in a strong scene denounces the captain for underpaying her and depriving her of her just earnings. The captain, keen upon his desire to oppress Joe and eventually win Emma for himself, forgives Joe's outburst of rage and determination, and assures Emma that Joe will continue in his employ.

Joe, as part of the captain's plot, is promoted to the position of collector for

the company. His downward path begins with the theft of money that he may take his wife to the theater. He becomes speculative from then on, plays the races, gambles in other ways and continues his misappropriation of collections that he may give his wife happiness such as Jimmy or Captain Williams might offer her. Captain Williams, watching the development of the lowly plot he has planned, decides upon a trip to Guatemala. Joe explains to Emma that his salary has been raised, and the Harlem flat is forsaken for an apartment amid better surroundings. He continues his misappropriation, endeavoring to replace what he has taken, but only gets in deeper. Jimmy engages detectives to watch Joe and secure evidence. Captain Williams and Jimmy return unexpectedly from their trip, and Jimmy calls at the Brooks' home. Along with Joe he tells him that Captain Williams knows all, and Joe, in desperation, tells Emma that he has been stealing money to buy her happiness and pleads for her forgiveness and help. Captain Williams calls and sarcastically reminds Joe that he will see him at the office in the morning. With every means of escape blocked, with disgrace and a prison sentence imminent, Joe cowers under his realization and begs and pleads with his wife to go to Captain Williams that night and square his indebtedness "the way other women have squared things for their husbands." Emma shrinks from him in horror, but finally agrees, and after telephoning to Williams, leaves on her mission. Jimmy, hearing of her coming, and still loving Emma, warns the captain that "she must be smiling when she returns," and leaves that she may be spared the humiliation of a meeting with him.

The captain's great love for Emma conquers his brutal desires, and with an appreciation at last, that "deceit is the right thing after all," because of his wholesome regard for Emma and her future happiness he signs the release of Joe's indebtedness. Emma returns to Joe with her mission completed and with his misappropriated \$16,850 paid in full. She spurs Joe's further attentions and leaves his house. Joe wanders the path remark that it is a shame that Emma has to be without a man's help, and in a strong scene denounces the captain for underpaying her and depriving her of her just earnings. The captain, keen upon his desire to oppress Joe and eventually win Emma for himself, forgives Joe's outburst of rage and determination, and assures Emma that Joe will continue in his employ.

Joe, as part of the captain's plot, is promoted to the position of collector for

Negaunee Department

HOT WEATHER HINTS FROM HEALTH OFFICER

Monthly Bulletin for June Contains Many Valuable and Timely Suggestions.

In the June issue of the health department's monthly bulletin, Dr. C. J. Larson, the health officer, offers some valuable suggestions on "Hot Weather Hygiene" and "Infant Hygiene During Hot Weather." In an introductory paragraph he says: "Our summers are unusually delightful and decidedly healthful. While the temperature may go high occasionally, the air is dry and the heat can be well borne. The occasion for any special hot weather hygiene is not as great as in more southern parts; still there are certain rules that should be observed, and especially with relation to young children."

Fruit and Vegetable Diet Best.

The health officer continues: "The energy and heat developed in the body comes from what we eat. In cold weather more fat and rich foods are needed to supply the necessary heat and energy required. In hot weather very little in the way of fats should be consumed, and the same is true of all foods containing much sugar. No heavy meals should be eaten. More fluids are needed to supply the increased loss by evaporation, but no great quantity should be taken at any one time, as that will over stimulate perspiration. A more vegetable diet, with slightly acid drinks, and as much fresh fruit as possible, is best."

"Do not wear wool next the body; that's an old exploded theory. Wool is almost impervious to moisture and the fluids excreted through the skin are not soaked up and dried off, but remain to a large extent and make one feel clammy," and "subsequently cooled one feels decidedly chilly. Cotton or linen should be next the body and if one feels the need of more protection that is afforded by these usually thin and open-meshed garments, then light weight wool can be worn outside of this. You may avoid all sitting or sleeping in a comfortable in warm weather, but try this and then wear wool only and see the difference."

A warm sponging at night and a cold sponging in the morning will cover the bathing necessities of the hot weather period. Avoid sitting or sleeping in a direct draft, and see that you have plenty of fresh air in your living quarters night and day, and you never will get pneumonia in the hottest season—and by the way pneumonia is not at all uncommon in the hottest weather."

Infants Suffer Greatly.

"Young infants suffer more during the hot weather than any others, especially those that are artificially fed. The breast fed infant usually escapes the perils of hot weather. It has fresh milk every feeding. But the bottle fed ones—what have they?"

"Remember to fill the bottle with a fresh lot every feeding. Clean the bottle directly after every feeding, and seal it again before using the next time. Cow's milk is suitable for infant feeding only after modification. Some brands of condensed milk make excellent infant foods when mixed as directed on the cans. All milk and milk substitutes should be kept on ice until used. Feed only once every 2 to 3 hours in the day, but give the child cold water every hour of the day in hot weather. The writer has been called to see children who were crying all the time and a drink of cold water relieved the child and put it to sleep."

"PAID IN FULL" THURSDAY.

The Famous Players' mammoth production of Eugene Walter's greatest success, "Paid in Full," will be shown at the Star theater Thursday evening. The play, which ran for five seasons in New York, is in five reels and there are more

than two hundred dramatic scenes. The motion picture production was staged under the personal direction of Augustus Thomas. The story of the play appears in the Ishpeming department today.

REV. R. YONKER LIVED HERE.

Rev. W. R. Yonker, whose death at Niles, Mich., was noted in these columns yesterday, was formerly pastor of the Negaunee Presbyterian church. He lived here for several years and had many friends in this city. Mr. Yonker was fifty-two years old and is survived by a widow and two sons, Ralph Yonker, one of the sons, graduated from the Negaunee High school.

TOOK SECOND HONORS.

Chris Tucker, of Calumet, who won the district oratorical contest here last month, won the second honors at the state contest at Muskegon last week. Mr. Tucker's subject was "Robert Emmett." Verne Eagle, of St. Johns, won first place. His subject was "The Grand Ideal."

LOCAL LACONICS.

E. M. Klein spent Monday and yesterday in Chicago on business.

A son has been born to Mr. and Mrs. William Conway, MacKenzie avenue.

Charles Brady, of Escanaba, was the guest of friends in the city yesterday.

Mr. and Mrs. Harlow Pearce are the proud parents of a daughter, born Monday.

The Negaunee acie of the Eagles will hold a meeting this evening in Levine's Hall.

August Allen returned yesterday from a several days' business visit to the copper country.

Elmer Peralla has purchased a twin cylinder Pope motorcycle from John W. Elliott, the Negaunee agent.

Mr. and Mrs. William Thomas will leave Saturday morning for a ten days' visit at Detroit. They also will visit at Bay City.

Harry W. Jackson went to Gladstone and Escanaba yesterday to be absent several days on business for the Peter Schoenhofen Brewing company.

Captain and Mrs. Samuel Hoar, who spent the last month here visiting with Mrs. Hoar's sister, Mrs. John Jones, have returned to their home at Virginia, Minn.

Erickson & Son, the Ishpeming contractors, yesterday started work on a bungalow at the corner of Peck street and Brown avenue for Arthur Hansen. They expect to complete the dwelling before July 15.

Samuel Collins, Sr., will leave next Wednesday for Montreal, Can., where he will take passage on the Cunard liner Andania, which sails June 29 for England. He will spend several weeks visiting in England.

J. H. Winter has returned from Huron Mountain, where he spent the past week on a camping and fishing trip in company with Carter H. Harrison, mayor of Chicago, and Oscar Mayer, a well-known Chicago business man.

The Duluth South Shore & Atlantic railway is offering reduced round trip rates from all stations on the line to Sault Ste. Marie from Thursday until Sunday, during the Finnish Evangelical Lutheran church convention there.

Mr. and Mrs. William J. Stevens and Mrs. Anna Tamblin will leave next Tuesday for Quebec, from where they will sail Thursday on the Allen liner Calgarion for Liverpool. Mr. and Mrs. Stevens will visit at London and will return here in the fall. Mrs. Tamblin will go to Cardiff, Wales, where she intends to make her home.

Henry Santrey and the Sherwood sisters will close their engagement at the Star theater this evening. For Thursday they will engage Cutting & Zuida, who give a high class musical act. Tonight's pictures will be "The Double Shadow," a two part Edison drama, and a Pathe Weekly. A good comedy picture also will be shown.

Peter Trudell, Jr., the postmaster has been informed by the department of labor that at least 100,000 harvest hands

will be needed in the west, particularly in the states of Oklahoma, Kansas, Missouri and South Dakota during the next few months. The scale of wages will range from \$2 to \$3.50 per day and board. The several states are maintaining free employment agencies. Full information has been posted in the lobby of the postoffice.

Munising Boy Fatally Shot.

Richard, the five year old son of Mr. and Mrs. William Cooper, of Munising, was fatally shot Saturday morning. A thirty-two calibre rifle fell from where it was hanging on the wall, and upon striking the floor, was discharged, the soft nose bullet striking the boy in the neck causing an ugly wound and severing the jugular vein. The boy lived but a few minutes and died before medical aid could be summoned.

Bay Rescues Valuable Horse.

The barn at Gibbs' mill at Iron River has been destroyed by fire, incurring a loss to building and contents of \$2,000 to \$4,000, partly covered by insurance. The barn accommodated fourteen horses and storage room for camp outfits, hay and feed. Only three horses were in the structure. One of them was a registered French Percheron stallion. Men were afraid to go into the building after him, but a boy walked in and led him out. The other horses also were rescued. A large quantity of hay, feed, camp equipment and harness was destroyed.

Will Head Manistique Schools.

Professor T. W. Clemo of Republic, has been elected superintendent of schools at Manistique to succeed Geo. P. Edmunds, whose resignation was recently accepted. Mr. Clemo has followed the avocation of teaching for the last twenty years. He is a graduate from Albion college and did special work at Chicago University and at the state university. During that period of time he has been in charge of but three schools—two years in the copper country, eight years at Bellaire, and ten years at Republic. He is married and has two children. Mr. Clemo is amply equipped for years he has been school examiner of Marquette county.

New School for Munising.

An eight-room school building to take the place of two existing structures is to be erected at Munising. The probable cost has not yet been decided. A site 276 by 300 feet has been acquired.

Had Premonition Death Was Near.

Stricken suddenly, Anton P. Urban, a prominent business man of Stambaugh, died of apoplexy at his home. He had not complained of illness until twenty minutes before that time. Without warning he sank into a chair, and before a physician could be summoned he was dead. While Urban had not complained of feeling ill he apparently had a premonition that he would not live long. He had carefully arranged all of his business affairs to the minutest detail, and everything was found in the best financial and orderly condition. Urban was thirty-three years old and had lived in Stambaugh five years. He was a Russian by nativity and had been in the United States but of white years. He had adopted himself to the customs of this country. He formerly lived in Norway, where he was married eight years ago. Urban was popular among the Polish people and was well liked by all other nationalities. He leaves a widow and four small children.

Strong-Walters Nuptials.

Of the marriage of a former Marquette young man, the Munising News says: Miss Nellie V. Walters, daughter of Mr. and Mrs. E. S. Walters, and Edward P. Strong, were united in marriage at 7 o'clock p. m. at the home of the bride's parents. The ceremony was witnessed by the members of the immediate families. It was performed by Rev. Charles J. Johnson, pastor of the First Methodist Episcopal church. The bride carried a bouquet of lilies-of-the-valley and wore a gown of white broadcloth chameuse with pearl trimming. The bridesmaid, Miss Alberta Walters, of Sault Ste. Marie, Mich., sister of the bride, wore a gown of blue crepe de chene. The house decorations were roses, lilies, pansies and green foliage. The wedding march was played by the bride's sister, Miss Beatrice Walters, and an instrumental solo by her sister-in-law, Mrs. E. S. Walters, Jr. A wedding supper was served at the home of the bride's parents. For the last eight years the bride has held the responsible position of cost clerk in the office of the Munising Paper company. For the last nine years the bridegroom has filled with conspicuous success the position of auditor and assistant secretary of the company. Mr. and Mrs. Strong were favored with a considerable number of useful and valuable presents. The out-of-town guests were the bridegroom's mother, Mrs. S. Strong; his sister, Miss Jessie Strong, and his brother, Harold, all of Marquette. Mr. and Mrs. Strong left on honeymoon lake trip and expect to be absent at least two weeks. They will be at home in Munising after July 1st.

\$30,000 DAMAGE IN RUMLEY FIRE

Combined Efforts of One Hundred Men Are Unable to Prevent Having Attaining Large Proportions—Blaze Works Its Way Into Stand of Green Timber.

Flames Breaking Out in the Rock River District Yesterday Morning Cause Loss to Marquette Interests, in Addition to Burning a Logging Camp.

Several unoccupied buildings in the vicinity of Rock River were yesterday burned by a brush fire, which broke out early in the day. Among the buildings reported destroyed was a large barn belonging to the Peter White estate, a cottage owned by G. G. Shaver, of Marquette, and a deserted boarding house. It is also said that a logging camp in the vicinity was wiped out.

The blaze was fanned by a high wind during the day and had gained considerable headway. Several men from the state forestry department were dispatched to the scene and were endeavoring at a late hour last night to get the flames under control. The fire is supposed to have been caused by a spark from a railroad engine. The blaze was reported to have raged deep into the slushings and was burning in the direction of a large area of standing timber, when the last reports were received.

Loss at Rumley.

According to estimates reported to State Forestry Warden Oates of Marquette yesterday, the damage done by the brush fire in the vicinity of Rumley will aggregate \$30,000, double the maximum estimation placed on the loss by the officials Monday. More logs and cordwood than was at first thought have been destroyed.

Despite the efforts of more than one hundred men, who made a determined effort to get the Rumley blaze under control before daybreak yesterday, the flames were not subdued and kept on wreaking additional damage yesterday morning. According to advices from the deputies received here late yesterday afternoon, the fire at that time was gradually burning out. The big force of men has been retained, and by building fire lines and by means of dirt has been waging a determined fight to keep the flames from spreading to the standing timber. Mr. Oates said last night that if it did not rain, and the wind kept up, the fire was likely to be carried into the green timber. He could not tell the amount of damage that might result. The green timber, he thought, would furnish poor food for the flames, and unless the fire becomes exceedingly hot the loss doubtless would not mount up to considerable figures.

Other Fires.

A report from the department's deputy at Peppanung yesterday said that a bad brush fire was raging there, but gave no details as to the damage done.

Dangerous fires are reported in the vicinity of the Little Garlic river near Little Presque Isle. The flames there were plainly visible from Presque Isle yesterday afternoon. The amount of damage done is not known, but the fire is considered serious.

Reports were received late yesterday of several other brush fires in different places in the peninsula. Late last night the weather man's prediction of thunder showers seemed to have gone awry. The danger will increase, with the continued dry spell.

Warns Sportsmen.

Mr. Oates again calls the attention of the hunters, campers and fishermen to the danger of throwing matches and leaving burning camp fires in the forests. Although the majority of the fires that have been reported the past few days in the vicinity of Marquette are supposed to have been started by sparks from railroad engines, some fires have no doubt resulted from carelessness on the part of people in the woods. The weather conditions now make the necessity for care essential.

GEORGIA JACQUES PASSES.

Niece of Mrs. David Todd of Marquette Dies in Missouri.

Georgia Jacques, fifteen years old, daughter of George W. Jacques, died Monday at the home of the family in Slater, Mo. The body will be received in Marquette today. Funeral services will be held at 4 o'clock this afternoon at the home of David Todd, of West Bluff street. Miss Jacques was a niece of Mrs. Todd, Rev. Walter H. Smith, of the Methodist church will officiate at the services. Interment will be in Park cemetery.

FORMER RESIDENTS RETURN.

James Doyle and Charles L. Richards Arrive from New York Yesterday.

James Doyle, superintendent of the Interborough company, and Charles Richards, representative of the Galena Signal Oil company, of New York, both former residents of Marquette, arrived here yesterday morning on the steamer Edward V. Townsend, of the Cambria iron company.

Mr. Doyle left Marquette twenty years ago, and for a time worked on the street railways in Chicago. He later went to New York and now superintends the equipment of the Interborough, which handles 3,000,000 people every day and employs 22,000 men. Mr. Doyle and Mr. Richards accompanied John D. Mangum, who has returned from the Forest Products Exposition in New York, and who was their guest on several occasions while he was in that city.

For painting, paper hanging or tinting ask C. A. Lawrence for prices. Phone 925-J. 6-4-14

RISKS HIS LIFE.

Roy Lambert Plunges Auto Into Curb Rather Than Chance Collision.

Rather than take a chance on injuring pedestrians or colliding with another automobile, Roy Lambert, of Presque Isle avenue, last night risked his life in an effort to bring a crippled machine to a stop on the steep incline between Washington and Ridge streets on Third street. He guided the big car into the curbstone at the intersection of Third and West Bluff streets, and luckily escaped with only a sprung front axle.

Lambert swung over the crest of Third street hill at a speed of about fifteen miles an hour, and by the time he reached Bluff was traveling in his uncontrolled machine at probably thirty miles an hour. He reeled west into Bluff street, the big seven-passenger Great Western machine skidding to the curbstone and threatening to capsize. The car hit the curbing with a glancing blow which accounts for the slight damage.

The accident occurred at about 7:30 o'clock last evening. Washington street was crowded with pedestrians at the time Lambert saw that if he continued straight down the hill, a fatality probably would result, and so he risked injuring himself rather than take the chance of slipping through the heavy traffic of Washington street. The brakes on the car had refused to work. There was no one else in the machine.

SENIORS PUT ASIDE TIES OF SCHOOL LIFE

Class Day Exercises in the High School Auditorium Were Well Attended.

Bidding adieu to its pleasant associations in the institution for the last four years and willing its position there to the juniors who are to succeed it, the senior class of the Marquette High school last night held its class day exercises, the last formal function before commencement. The latter will take place in the opera house this evening, beginning at 8:15 o'clock.

The auditorium of the high school, where the exercises were held, was filled to capacity with friends and relatives of the graduates. The members of the class who took part in the program were seated in a row on the stage. The exercises constituted one of the most enjoyable features of commencement week.

Harold E. Spon, president of the class, in his address, extended a greeting to the parents who were present, welcomed that which is to come and laid farewell to the school on behalf of his classmates. Mildred Magers, in the class history recounted various events associated with the class and its inception four years ago and told of the progress that had been made and the achievements in school endeavors and in athletics which the seniors had scored.

Conjuring with time, fifteen years hence, Marjorie Borson found the members of the class in all walks of life, from justices of the peace and militant suffragettes to merchant princes and leading women of the nation.

Advises Juniors.

John Morrison delivered the address to the juniors, admonishing them to follow in the footsteps of the class that was to precede them into the world, and furnishing for them a criterion upon which to base their actions for the next school term should be based.

Alfred Kerolla delivered the class oration. He took for his subject "Opportunity." The speaker urged the members of the class, who were entering a new field of activity, to seize and improve each opportunity that was afforded. His address was well delivered. Naomi Kerolla had the giffatory number. From a large decorated basket she passed out gifts of various kinds, ranging from tin horns to hair curlers, each symbol of some characteristic of its recipient.

The class will bequeathing the attainments of the seniors to the juniors, were read by Myrl Trevillion. According to the testament, hobbies and achievements, dear to those departing from high school life, were ruthlessly cast upon the class which is to take the seniors' place. The will was cleverly gotten up and was one of the most entertaining of the numbers on the program.

Elizabeth Sheldon, valedictorian, chose "The Power of Ideals" as her subject. She urged the members of the class to aim high and raise in ambitions accordingly. Clara Clendenning sang the class song, a tribute of loyalty to the school. Estelle Patrick played a piano solo, "Morgan Romantic," by Jorda. Iven Chamberlain sang pleasingly, "I Love Where the Rose Is." Muriel Ockstadt, "Love Sorrow," and Estelle Patrick and Signa Gilling, "See the Pale Moon." Miss Ross was the accompanist.

MAY BREAK SPEED LAWS.

But Mayor Says That Only Two City Officials Have the Privilege.

To prevent, if possible, further drownings here this summer, the pulmonator apparatus, now kept at the fire house on Spring street, will be pressed into service, and yesterday Mayor Begole gave Chief of Police McIntosh and William J. Johnston, superintendent of the fire department, the right, in case a drowning is reported, to seize the first automobile that comes across, and drive at full speed to the scene.

"We usually have two or three drownings here every season," said the mayor yesterday, "and I am going to see if we cannot prevent some of the fatalities. I have given the police chief and the fire chief authority to appropriate any one's automobile, and to disregard the speed laws while on their way to the scene of such an accident."

What arrangements have you made for your hot water this summer? The most economical and convenient way to heat water is with a gas water heater. Ask your neighbor who has one and then phone the Gas company. 6-6-14.

DETAILS OF DEATH STILL UNKNOWN

Parents of Miss Della Richardson Do Not Know Cause of Daughter's Demise.

Word was received here yesterday of the sudden death at Missoula, Montana, of Miss Della Richardson, daughter of Robert Richardson, 1025 High street. The news came entirely unexpectedly and was a great shock to family and friends. The telegram gave no details and up to a late hour last night no further word had been received. The bereaved parents believe that Miss Richardson must have met with an accident.

Mrs. Richardson received a letter from her daughter only last Sunday. This said that she was well and that a party she was going to be attending Sunday. It is believed probable that the young woman suffered an accident on that expedition. The remains are expected to arrive here Thursday morning.

Miss Richardson was formerly deputy county clerk here. She left for Missoula three years ago to visit relatives, and while there obtained a position as stenographer for a railroad company. She was born in Simcoe county, Canada, and came to Marquette when five years old.

Besides her parents, Miss Richardson is survived by four brothers: Charles W. of Marquette; J. F., of Superior, Wis.; Roy, of Butte, Mont.; and Chesley, of Missoula, Mont., and seven sisters: Mrs. John Robertson, of Marquette; Mrs. Harry Long, of Staples, Minn.; Mrs. John Anderson, of Livingston, Mont.; Mrs. Ray Bell, of Nanton, Alberta, Canada; Miss Anna, of Chicago; Miss Viola, of Painesdale, and Miss Julia, of Missoula, Mont.

EASTERERS TOLD OF PROSPECTS HERE

Forest Products Exposition May Bear Fruit in the Way of Factories.

Promises to come to Marquette and look over the prospects for the establishment here of lumber manufacturing plants were made by one of the eastern experts to John D. Mangum, at the Forest Products Exposition held in the Grand Palace, New York city. Mr. Mangum, who was representing the Marquette Commercial club, arrived here from the exposition yesterday. He met the prospective investors on their own grounds, and is almost positive that the campaign he conducted will bear fruit.

Mr. Mangum had only words of praise for the success of the exhibit. The hardwoods of the upper peninsula, he said, attracted as much attention in proportion as any products at the show. They especially appealed to the architects, builders and manufacturers, who were among the most numerous attendants. The brown ash and red birch grown in the peninsula attracted special attention.

The low rate at which power can be procured in Marquette astounded the New Yorkers, Mr. Mangum says. The largest users of power in New York city can get no lower rate than four cents, and think it impossible that power can be provided for three quarters of a cent.

Mr. Mangum found that the people of New York, for the most part, had but a hazy idea of what conditions in the upper peninsula are. They think that the winters here are unendurable, and that the country is unproductive. Mr. Mangum believes that the upper peninsula country should be thoroughly exploited in the east. "This city," he said, "has already received much advertising in the eastern trade papers."

FRENCH SCHOOL GRADUATION.

Class of Nine to Received Diplomas in Jean of Arc Hall June 17.

At the commencement exercises of the St. John's parochial school Wednesday, June 17, nine pupils will be graduated. The exercises will be held in Jean of Arc Hall. Rev. Father Bucholtz, of Ne-gaunee, will deliver the address. His subject will be "True Education." The Misses Marie Lemire, Loretta Perron, B. Theriault and A. Neault, members of the class, will receive gold medals and certificates for entrance into the tenth grade of the public high school. The remaining members of the class, the Misses L. Martin, M. A. Bernard, A. Paquette and M. Gagnon, will receive silver medals and diplomas entitling them to enter the ninth grade of the high school.

The commencement program is as follows: Duet, "Lachasse aux Gazelles"—Misses B. Theriault and A. Neault. "Less Refrains des Grand Mamans"—Drill by twenty-eight girls. Solo, "Blue Belle"—Mark LaBonte. Hosiery in cotton, silk or lisle and pure silk—all colors.

Light Trousers in flannel or worsted.

Soft Shirts or anything to embellish a wardrobe.

ORMSBEE & ATKINS

A Big Line of Everything for Men and Boys to Wear.

We Give Gold Stamps.

DOW GENERAL MANAGER AT THE BIG BAY PLANT

Woods Superintendent Given Important Promotion by Lake Independence Co.

G. C. Dow, for the past eight months superintendent of woods operations for the Lake Independence Lumber company, at Big Bay, and prior to that superintendent of woods operations for the Lake Superior Iron and Chemical company, has been appointed general manager of the Lake Independence company, in which capacity he has already taken over charge of the company's extensive operations at Big Bay. In addition to having general supervision of the woods operations, as formerly, he will have charge of the operation of the mills and finishing plants. The position he takes is one that has been filled by Jay B. Deutch for the past few years. Mr. Deutch will continue to be connected with the company, and will be on the road, it is said.

The important promotion Mr. Dow has received at the hands of the company's directors, after such a brief period of service with it, is said to have been due to the notable success with which he met in handling the woods operations. He greatly reduced the existing costs and showed unusually ability in conducting the work. Under his direction several camps and a large force of men were worked.

The Lake Independence company is controlled by the Brunswick, Blake Colquhoun company, large manufacturers of bar room supplies and bowling alley equipment, and it is engaged in turning out lumber for the latter company's finishing plants. A bowling pin plant is one of the departments of the Big Bay enterprise. Its operations are extensive, and as it takes rank with the most important lumbering industries in the upper peninsula the position to which Mr. Dow is called is a most important one.

Jay B. Deutch, the retiring general manager, has been supervisor from Powell township the past few years.

FILING "CLEAN UP" REPORTS.

More Than Half the School Children in the City Say They Took Part.

All but a few of the schools of the city have filed with City Health Officer Main, the reports of their students on the part they took in the "clean up" campaign last month. Of the 2,500 or more children attending the schools of the city, between 1,500 and 1,700 have reported that they took part in the work. The reports were not distributed in the high school nor in the kindergarten. Nearly all of the reports from one school indicate the same kind of work.
