### Huerta's Existence Ignored.

The brief protocol was significant of two things:

It makes no mention of General Huerta as the provisional president and, as stated in the Associated Press dispatches Suffragettes in London Raid a last night, it omits the method of transfer which the Mexican delegates and mediators suggested and to which the United States strenuously objected on the ground that its retention would be tantamount to recognition of the existing regime. The Mexican plan provided that Huerta should name as minister of foreign affairs the man agreed upon here for provisional president. The omission of reference to the method of succession and the flat statement that on a certain date there shall arise in Mexico a provisional government to which the United States shall accord recognition atisfy the insistence of the American delegates that there should be taken no steps that could be

#### OSBORN TO RUN?

The stories of the lower state newsto the banquet in honor of former Governor Osborn, at Lansing Wednesday evening, leave practically no doubt that his hat will soon be in the ring. Indeed his gubernatorial campaign, the scribes say, has already been started, for many speaking dates have been booked for him. Thus his candidacy is as definite as anything can be definite that has not finally been signed, sealed and delivered. And of course it is a candidacy to be

One Industry That Is Busy. One of the disturbing features of the immediate industrial situation is another report of decreases in the unfilled orders of the steel companies.

To the truly faithful, however, this will not cause distrust. Why worry about the condition of business in the steel line or any other line of mere financial concern when the really important branch of the nation's activities is breaking all records? What is there to alarm the regular optimist in depression of business as long as congress continues to show unflagging activity?

Unfilled orders in steel mills may be dwindling, but are not the unfilled orlers in congress constantly accumulatng? Faster than the wheels of legislaion can dispose of the material cast into the hopper the program maker heaps still other orders upon the pile. Let the steel mills slacken down

# WORK PROGRESSING.

The improvement of the right-of-way of the Chicago and Northwestern rail-way in the business district of Ishpemng is progressing, and the work will be inished within a short time. Earth has been used to fill in the low ground, and sod will be laid. Heretofore the right-of-way has been an unsightly spot, and the sodding of this area for a distance of two blocks will be a big mprovement.
