They must be beyond all experience to make a dent upon this year's bulging bins. There are blemishes upon

the situation, no doubt, but the main spring of prosperity is wound so tight this year that the machine cannot be stooped by a little grit in the works, of by any troubles not as real as the crops.

#### THE NEW ORDER.

The campaign this year for the Re publican nominations for county offices will not lack for eventfulness. Of the five important and lucrative offices to be filled, contests have already been framed up for four. And the contests are shaping themselves in a manner to invite the entry of a Progressive ticket, this despite the good advice that has been showered on the possible entrants by the newspapers in the western end of the county, where the trouble is brewing.

In the good old convention days the gentlemen who looked after the nominations saw, in Marquette county at least, to two things, namely, that the candidates were fit men and that a cer tain balance was maintained between tical situation.

Next to the perversity of these champions of sickness the most remarkable thing about them is their utter lack of originality. As they fought the study of anatomy four centuries ago, so they are fighting the study of cancer and

route to Presque Isle would be closed It is understood that the company's of ficials have already entered into nego tiations with the commission relative t abandoning the thoroughfare and opening a new avenue. The property ad joining Pine street on both sides, d most from the last dwelling house on th graded part to the furnace in the exnorthern part of the city, i treme owned by the Cleveland Cliffs company According to the deed procured by the company from the city, the corpora allowed the privilege of utiliz ing the area on either side of the thor oughfare up to the very edge of the roadway. It is also allowed to build over the street, or under n, out not upon it. It is understood that steps will be taken to have the deed legally set aside, and thus remove all obstacles in the way of the erection of the new plant, in case the officials decide upon its erection.

#### Investigations Extensive.

The matter has been under considera tion among the officers of the company for the last several weeks, and it i thought the final decision will reached in a short time. There is, how ever much investigating still to be done Some of the heads of the company at uncertain whether the method of com centrating the material here and doin; the work by machinery has any ad vantages over the present system o preparing the wood with crosscut say by hand in the forests. Then, there is to be made a report on the advisability of the location and on several othe features of the project. In the event of Pine street bein,

closed to allow for the erection of th proposed plant, Mayor Begole has unde consideration a plan for extending th lakeside boulevard from Chocolay to Presque Isle and have it protected by adequate walls.

#### Mrs. Pellinen Volunteers to Give Up Her Medicine Vending.

Mrs. Viktor Pellinen, the woman wh sold the bottle of medicine to Mrs. Herman Ojala, of Fitch avenue, the effects of which are alleged to have caused the death of the latter's four-months-old baby, has given up the practice of selling the stuff in an effort to stane off action against her by Prosecuting Attorney Kennedy.

Dr. Main, city health officer, visited Mrs. Pellinen's home last Friday evening and at that time she was loath to dis continue the sales. Saturday morning however, she appeared at Dr. Main's of fice, in company with a Finnish minister and was in an entirely different frame of mind.
