

HUERTA DELEGATES GET AN ULTIMATUM FROM U. S. ENVOYS

Washington Insists That Its Plan for the Pacification of Mexico Be Accepted.

ITS ATTITUDE UNALTERABLE

Unless Dictator's Agents Yield, Consenting to a Constitutionalist Regime, Niagara Reports That Mediation Will End Today or Monday—Bryan, Still Hopeful, Says Matters Are 'Proceeding Satisfactorily'—No Orders to Army or Navy.

Niagara Falls, Ont., June 19.—Justice Lamar's memorandum to Emilio Rabasa, head of the Mexican delegation, announcing that the United States "must insist" on the acceptance of its plan for the pacification of Mexico, is Washington's ultimatum. Unless the Huerta delegates yield, mediation will end tomorrow or Monday.

This is the firm determination of the United States, as it was conveyed to the mediators today. Ambassador De Gamba of Brazil and Minister Suarez of Chile asked the American delegates if their position had changed, in view of the Carranza-Villa split, and the reply was in the negative.

It was an informal talk, but served to advise the mediators that the published statements of the American and Huerta delegates, with their opposite views on the type of man to be selected for provisional president, defined clearly the unalterable attitude of the American government.

Just what the policy of the United States would be in the event of the failure of mediation or what disposition it would make of the American troops at Vera Cruz is unknown to the American delegates.

The mediators held no formal session today.

Important Conferences at Washington.

Washington, June 19.—Hope that the wavering mediation program still might bring peace to Mexico was expressed here tonight by Argentine Minister Naon as he took the train for Niagara Falls, after a series of conferences with President Wilson and Secretary Bryan and Luis Cabrera, of the Washington agency of the Constitutionalist.

It was not denied that the diplomat had come for a final word with the highest officials concerning the deadlock at Niagara Falls, but no inkling as to what passed between the minister and the secretary of state was to be had.

After his talk with the minister, Secretary Bryan reiterated that "mediation was progressing favorably." "I maintain hope for two reasons," Mr. Bryan said. "The first is that I am in the position of knowing more than you, and the second is I see no reason for changing my attitude. When I despair of success, I will announce it."

No Move by Military Authorities.

One outstanding feature of the situation here today was the fact that notwithstanding forecasts of the failure of the mediation, not the slightest movement has been made by the military authorities indicative of a purpose to extend the activities of the army or navy in Mexico.

Moreover, it is well understood at the war department that for his part General Huerta does not intend to order an attack upon the American troops at Vera Cruz. So with both sides willing to refrain from a resumption of hostilities, it is believed to be probable that the only result in the event of collapse of the mediation negotiations at Niagara Falls would be a recurrence to the conditions that existed before mediation was initiated.

Neither Mr. Naon nor any of those with whom he had conferred would say whether any new plan had been devised to break the seemingly final deadlock at Niagara Falls. In official quarters, however, it was made known that there had been no change in the position of the United States government as set forth in the declaration yesterday by the American delegates, that only a Constitutionalist could be accepted to head the provisional government in Mexico City.

Neither Mr. Bryan nor Mr. Naon would admit that there had been a consultation with a representative of the Constitutionalist. When a representative of the Associated Press who had seen Mr. Cabrera enter the Argentine legation asked Mr. Cabrera about his visit, the latter expressed amazement.

"But you do not deny that you were there?" he was asked. "Certainly I deny it." "But you were seen when you drove up in the victoria with the old gray horse."

"But can I not still insist that I was

POLICE INSPECTOR SLAIN AT BOSTON

Dies in Battle With Man Grand Rapids Seeks for Murder—The Latter Wounded.

Boston, June 19.—Police Inspector Thomas F. Mullen, slain today in a sensational revolver battle following an attempt to arrest Lawrence Robinson, who is wanted at Grand Rapids, Mich., on charges of murder and robbery.

Robinson was taken to a hospital, suffering from three bullet wounds. The probably will recover. His companion, Joseph F. Daniels, was locked up on a charge of first degree murder.

The shooting took place in a crowded basement restaurant. Private detectives, who had trailed Robinson, enlisted the aid of Norton and two plain-clothes officers. Entering the cafe, they followed Robinson sitting at a table with Daniels.

When the police inspector placed his hand on Robinson's arm, there was an instant display of revolvers. A shot said to have been fired by Robinson struck Norton in the abdomen and he fell. Leaping over the hood, Robinson darted for the stairway leading up to the street.

Three shots from the officers' weapons struck the fleeing man just as he reached the steps. Although severely wounded, he emptied his revolver in the direction of the detectives and reached the street, where a policeman overpowered him.

Inside the cafe, meanwhile, the detectives had grappled with Daniels and had arrested him. Pittsburg is said by the police to be the home of Daniels. The police say he is wanted in Trenton, N. J.

Grand Rapids Exploit.

Grand Rapids, Mich., June 19.—Lawrence P. Robinson is wanted in Grand Rapids in connection with the daylight robbery of the Thomson jewelry store here last September, in which affair three men connected with the concern were shot and killed by two robbers, who escaped with about \$2,200 worth of diamonds.

Walter Lawrence, arrested at Covington, Ky., three months ago, is now being held here. The police allege that Lawrence and Robinson were in Grand Rapids together at the time the jewelry store was robbed. Rewards totalling \$7,500 have been offered for the arrest and conviction of the murderers.

Two men entered the jewelry store, which is in the heart of the city. Ignoring pedestrians, the robbers pointed revolvers at the clerks and ordered them to hand over diamonds and money. An attempt at resistance was made and both robbers blazed away. Paul Townsend, J. N. Thomson and Edward Smith, all employees, fell mortally wounded. The bandits seized a tray of gems, dashed out into the street and escaped.

INSANITY ON THE INCREASE.

New York, June 19.—Dr. A. J. Ransford, of King's Park hospital for the insane, in a paper read today at the second annual conference of the Eugenics Research association at Columbia University, asserted that the number of insane persons in the institutions of the United States has, in proportion to population, nearly doubled during the last forty years. The average per one hundred thousand, according to Dr. Ransford's figures, has increased from 8.65 to 23.2.

HOW METALS AND COAL ARE MINED WILL BE SHOWN AT THE 'FRISCO FAIR IN UNIQUE GOVERNMENT EXHIBIT

Washington, June 19.—At the request of various mine operators and the exposition officials, the United States Bureau of Mines has undertaken to construct, in cooperation with the mining industry and the manufacturers of mining machinery, a mine beneath the floor of the Palace of Mines and Metallurgy at the Panama-Pacific exposition, San Francisco.

The financial and operative success of the mine is assured through promised exhibits whereby typical metal and coal mining operations will be reproduced by full-size working places in which mining machinery will be installed and operated.

The walk of the mine will be covered with either ore or coal, typical of the mine illustrated. Among others, the Copper Queen Consolidated of Arizona, Bunker Hill Sullivan company of Idaho, Homestake Mining company of South Dakota, Goldfield Consolidated Mines company of Nevada, Jones & Laughlin company of Michigan, Lehigh Coal & Navigation company of the anthracite field of Pennsylvania, Pocahontas Fuel company of West Virginia, Consolidated Coal company of Kentucky and Pacific Coast Coal company of Washington have each agreed to reproduce one of their working places or stopes and to contribute the sum necessary for the installation and operation. Tentative promises of similar action have been received from the Rock Island Coal company, Peabody Coal company and Pittsburg Coal company.

Various mining machinery and appliances have been promised, including a mine cage and cars by the Joshua Healy company; a cage, hoist, and motor by the Denver Engineering Works; locomotives by the Westinghouse Electric & Manufacturing company; pumps by Byron Jackson; air compressor, drill, sharpener and winch hoist by the Compressed Air Machinery; drills and coal cutters by the Ingersoll Rand company; and the Sullivan Machinery company; lamps by the Ingersoll Manufacturing company and the Koehler Manufacturing company, and enamel signs by Stonehouse Enamel Sign company. There is little doubt that other necessary machinery and appliances, such as safety lamps, portable electric lamps, fan, mine telephones, mine rescue apparatus,

switches, track and so forth, will be received as exhibits.

The entrance to the mine will be through the Bureau of Mines space, and visitors will be attracted to it by being given portable mine lamps and by being lowered in a very slowly moving cage while a panoramic effect of the strata lining a mine shaft will pass by them so rapidly as to produce the illusion of descending to a considerable depth. In case of crowds, these may enter by a slope. Exit will be by a slope into the main booths of the Bureau of Mines, where actual radium emanations will be shown.

There will be a motion picture room which visitors will pass in going from mine to mine. It will be shown such great open workings as are not illustrated by the underground mines, such as those of the Utah Copper company and those of the Nevada Consolidated company at Ely, the iron diggings at Hibbing, Minn., hydraulic gold mining, and the quarrying of building stone.

Twice each day there will be an imaginary explosion of fire in some portion of the mine announced by telephone to the superintendent's office in the Bureau of Mines space on the surface, and rescue men wearing breathing apparatus will enter the mine and bring out supposed victims, who will receive first aid treatment in the surface emergency hospital.

In the Bureau of Mines space on the floor of the main building there will be, in addition to the radium booths, exhibits of carnotite, pitchblende and other radium ores, their alloys and concentrates; an emergency mine hospital and smoke room for rescue training; exhibits of fuel efficiency, smoke abatement, explosives, mine welfare work, etc.

The prime purpose of the mines will be that of educating the investing public, stockholders, members of legislatures and the uninformed antagonists of the industry relative to the importance of the mining industry, its extent, variety and the cost of operation.

Washington, June 19.—L. C. Byer, of St. Louis, Republican, representing the Twelfth Missouri district, was unseated by the house late today by a vote of 147 to 98. His election was contested by Michael J. Gill, Democrat. On the vote to declare Gill elected, thirty-one Democrats voted with the solid Republican minority against him.

POLICE INSPECTOR SLAIN AT BOSTON

Dies in Battle With Man Grand Rapids Seeks for Murder—The Latter Wounded.

Boston, June 19.—Police Inspector Thomas F. Mullen, slain today in a sensational revolver battle following an attempt to arrest Lawrence Robinson, who is wanted at Grand Rapids, Mich., on charges of murder and robbery.

His election was contested by Michael J. Gill, Democrat. On the vote to declare Gill elected, thirty-one Democrats voted with the solid Republican minority against him.

YALE WINS BOAT RACE; LEADS BY FOUR INCHES

Harvard Loses by Fifth of a Second in 4-Mile Match That Will Live in History.

New London, Conn., June 19.—By a margin of four inches, Yale won the 'varsity' four-mile eight-oared race from Harvard on the Thames river here late this afternoon, after a struggle which will stand out in rowing history when the competing oarsmen are forgotten.

Through a four-mile lane of steam yachts and motor boats, the sixteen crewmen tailed at the crimson and blue-piped cars as no galley slaves ever labored under the lash, while thousands of spectators on shore shrieked hysterically.

When the racing shells had cut past the final line of flags, few of the thousands knew whether victory had perched upon the bow of the Yale or of the Harvard racing craft.

Judges Seen Gesticulating.

On board the judges' boat at the finish line could be seen the arbiters of the race frantically gesticulating in conference, while first a blue flag and then a crimson one was waved at the end of a long pole.

Finally, as the Harvard colors began to sink, the judges resorted to the megaphone and shouted across the water that Yale had won its first varsity race for seven years by less than a foot, in 21:16, with Harvard crossing the line one-fifth of a second later. Then the Yale legion lost all restraint.

But the victors and vanquished saw or heard little of the celebration, for exhausted nature was taking her toll. Dribbling slowly up-stream with the tide went the two shells, side by side. Too exhausted to hold themselves upright those who had the strength splashed water on their fallen crew mates.

Crimson Crews Take Lesser Races.

Harvard won both forenoon races, taking the eight-oared event for junior crews by seven lengths and the freshmen eight-oared event by four lengths. Harvard's time in the first was 11:34, and in the second 11:45. The distance in each race was two miles.

DOCTOR REPORTS CONTROL OF SEX IN PROPAGATION

Atlantic City, N. J., June 19.—That the artificial control of sex has passed the experimental stage was the statement made tonight by Dr. Oscar Riddle, in charge of the evolution station of the Carnegie Institute. He was addressing the American Academy of Medicine.

"Sexes at will with pigeons and doves," said Dr. Riddle. "The sex of frogs and toads is settled by manipulation, and that of cattle, to some extent, can be regulated through fixing the mating period."

As to human beings, Dr. Riddle declared the extent of sex control would depend upon the success now being secured by scientific experiments with mammals, and he would not be surprised if eventual success were achieved.

PART OF WOMAN'S BODY FOUND IN MOHAWK RIVER; LOOKS LIKE CASE OF MURDER.

Schneidart, N. Y., June 19.—Part of the body of an unidentified young woman whom the authorities believe to have been murdered was raised from the bottom of the Mohawk river here late today by fishermen. The upper part of the trunk and the legs had been hacked away. The rest of the body had been wrapped in oil cloth, securely sewed in

PRESIDENT MOYER ARRIVES IN BUTTE

Federation of Labor and Mine Workers Join in Effort to Win Back Seceders.

Butte, Mont., June 19.—Each faction of the Butte union of the Western Federation of Miners held committee meetings tonight.

The meeting of the conservatives was presided over by Charles H. Moyer, president of the Western Federation of Miners, who came here with the avowed purpose of putting the Butte union on a sound business basis and keeping it from withdrawing from the federation.

The seceders made arrangements for a hall that will seat five thousand for their Sunday afternoon meeting at which their plan of future action will be disclosed.

Mr. Moyer was accompanied here by James Lord, in charge of the mining department of the American Federation of Labor, who left his official duties in Trinidad, Colo., for that purpose.

The aid of the United Mine Workers was pledged to Mr. Moyer in the following telegram from John P. White, president of the organization:

"From press reports I learn influences are at work in Butte to destroy organized labor and the Western Federation of Miners in particular. In order to assist in countering such influences, on behalf of the United Mine Workers of America I pledge our united support to your organization and officers in the crisis now confronting you at Butte."

Mr. Moyer conferred with the officers of the Montana Federation of Labor and John C. Lowmyer, member of the executive board, and R. R. McKenzie and C. H. Tanner, auditors of the Western Federation, together with officers of the Butte union, including Bert Riley, president, who returned to Butte today for the first time since the riots of last Saturday. The Western Federation officials will announce their program before the end of the week, according to Mr. Moyer, who, in a statement issued soon after his arrival, deplored the split in the union.

The federation officials, now that they have James Lord, a representative of the American Federation of Labor, here, called into consultation officials of all the other Butte unions affiliated with the American federation to induce the unions to exert their influence upon the seceders. The radicals—the seceders—are opposed to any affiliation with the Western Federation and favor the formation of an independent union which shall be without the jurisdiction of any international body.

G. Gregory and William Devaney have been arrested on warrants charging that they were instigators of the riot which broke up the parade of the miners' union last Saturday. They are the only men who have been put in jail in connection with the riots. John Nelson, a policeman, swore out the warrant. Nelson charges that Gregory and Devaney pushed him through a plate glass window.

FORMER EXECUTIVE A CANDIDATE FOR THE REPUBLICAN NOMINATION FOR GOVERNOR.

Sault Ste. Marie, Mich., June 19.—Former Governor Chase S. Osborn today formally announced himself a candidate for the Republican gubernatorial nomination. In a statement addressed to the people of the state, Mr. Osborn says:

"I am a Republican candidate for governor.

"My personal happiness does not depend upon holding any office. It does depend upon willingness to render service. I feel that the people of Michigan are entitled to a wider choice of candidates.

"The Republican party can best regain a position of usefulness and confidence by returning to the spot where it took the wrong trail and again proceeding in the right way. It seems to me only in that way can the broken thread be tied and the tangled skein untangled.

"The highest genius of government in Michigan and in the nation resided in the Republican party previous to two years ago. It will live there again, if the right steps are taken. To adopt a purpose and policy in accord with the higher public demands is not enough. The party must be given candidates whose character and record invite the strictest trust and who will be a guarantee of fulfillment.

"If I am chosen governor I will give the state much the same kind of an administration that I gave before. With the experience gained during the period I was governor and as a result of study and travel since, I should be able to do the work even better.

"I would ask all citizens to vote for the welfare and dignity and character of Michigan before considering any party or any candidate. Secondly, vote for the restoration of the Republican party to sense and duty. And, lastly, vote for the candidate who is most likely to serve these ends.

"I return to Michigan with thankfulness to God for my preservation during long journeys by sea and land, with deeper love for my country and standing home; with hope for the future usefulness of the Republican party, and with no bitterness or ill-feeling toward any human being in the world."

INVESTIGATORS AT QUEBEC HEAR FURTHER TESTIMONY EMPRESS STEERED BADLY.

Quebec, June 19.—Evidence intended to corroborate the contention of some of the members of the crew of the Canadian Pacific liner Empress of Ireland that the liner was steering erratically just before she was rammed by the collier Stordard and went down with a loss of more than a thousand lives was today presented before the dominion commission investigating the disaster.

Members of the crew and the pilot of the collier Alden, which passed the ill-fated liner but a few hours before she went to the bottom, swore on the witness stand that the Empress was zig-zagging in her course and that they had been forced to turn the Alden aside in order to avert what they believed would have been a collision.

Jacob Saxe, third officer of the Stordard, who was aiding in the navigation of that vessel just prior to the collision, gave similar testimony.

Washington, June 19.—The following is the weather bureau's forecast for Upper Michigan: Fair, slightly warmer, Saturday; Sunday, increasing cloudiness, and warmer.

EXPLOSION TRAPS MANY COAL DIGGERS IN A WESTERN MINE

HILLCREST HORROR THE THIRD DISASTER INCROW'S NEST PASS

Hillcrest, Alta., June 19.—The mine in which today's disaster occurred is but one mile from Frank, Alta., where a great disaster took place ten years ago. The mines have been operated at intervals for twelve years. Because of the danger in working the properties, it has, at times, been difficult to get men. The Hillcrest mines are under the same mountain as the Frank collieries.

This is the third disaster which has befallen inhabitants of Crow's Nest pass. Four years ago thirty-five men were killed in the Bellevue mine, and ten years ago Frank was wiped out by the neighboring mountain toppling over and burying one hundred and twenty-five persons.

a burly sack and weighted down with a twenty-pound slab of concrete. City and county officials hope that a white overskirt and part of a petticoat, which were found in the sack, may help to establish the victim's identity.

CHASE S. OSBORN ENTERS THE LISTS

Former Executive a Candidate for the Republican Nomination for Governor.

Sault Ste. Marie, Mich., June 19.—Former Governor Chase S. Osborn today formally announced himself a candidate for the Republican gubernatorial nomination. In a statement addressed to the people of the state, Mr. Osborn says:

"I am a Republican candidate for governor.

"My personal happiness does not depend upon holding any office. It does depend upon willingness to render service. I feel that the people of Michigan are entitled to a wider choice of candidates.

"The Republican party can best regain a position of usefulness and confidence by returning to the spot where it took the wrong trail and again proceeding in the right way. It seems to me only in that way can the broken thread be tied and the tangled skein untangled.

"The highest genius of government in Michigan and in the nation resided in the Republican party previous to two years ago. It will live there again, if the right steps are taken. To adopt a purpose and policy in accord with the higher public demands is not enough. The party must be given candidates whose character and record invite the strictest trust and who will be a guarantee of fulfillment.

"If I am chosen governor I will give the state much the same kind of an administration that I gave before. With the experience gained during the period I was governor and as a result of study and travel since, I should be able to do the work even better.

Washington, June 19.—The following is the weather bureau's forecast for Upper Michigan: Fair, slightly warmer, Saturday; Sunday, increasing cloudiness, and warmer.

205 Men Are Entombed at Hillcrest, Alberta, and Are Probably Dead.

DEADLY FUMES BALK RESCUERS

Blast from an Unknown Cause Wrecks Colliery and Shakes Country for Miles Around—Moans of Victims Spur Workers to Desperation, but Only a Score of the Buried Toilers Are Extricated Alive—Hope Is Abandoned as Hours Pass.

Hillcrest, Alta., June 19.—The probable death list in the Hillcrest colliery explosion was tonight officially placed at 205. This morning 225 men entered the mine as the day shift. Twenty were rescued alive and twenty-three bodies have been taken out, leaving 182 still entombed and probably dead.

Lethbridge, Alta., June 19.—A mighty explosion, coming tonight a moment's warning, today entombed 225 miners employed in mine No. 20 of the Hillcrest Collieries, Ltd. Despite the efforts of two-score mine experts, laboring tonight amid the death-dealing gases and debris, hope of rescuing alive the scores of men still in the mine is waning.

Women Turn Sadly Homeward.

At dusk tonight a silent group of white-faced wives and mothers stood at the mouth of the mine, which had been closed by the explosion, still hopeful that the moans for help that issued from the inner workings earlier in the day might be repeated and aid the scientifically equipped experts in their efforts at rescue.

As the night wore on, however, many of the women's minds bowed, turned sadly homeward, their action expressing the general feeling that hope was lost.

The explosion, which occurred about 9 o'clock this morning, shook the countryside for miles around. Riffed via roofs from men's miners' cabins and demolished numerous small buildings. A moment after the explosion, a score of panic-stricken surface workers fled from the mine, followed by a dense cloud of smoke and poisonous fumes. Appeals for help were dispatched to many towns, and in the meantime the residents organized an emergency crew and turned feeble and ineffective hands toward the work of rescue.

Faint Moans Finally Cease.

When the first rescue crew arrived this afternoon, a large force of men set to clear the shaft, turning desperately from one point to another as the moans of the entombed men came feebly from the bowels of the mine. The moans became fainter and finally ceased. Thousands of tons of rock had fallen into the mine, and it is feared that the men, even had they escaped death from the poisonous fumes, probably were crushed to death by the falling debris.

No information as to what caused the explosion has been given, but it is generally believed it was due to the forming of gases. Thomas Quigley, superintendent of the mine, is among those entombed. Thomas Corke, a well-known official of the miners' union, was among those who lost their lives. It was announced tonight.

Debris in Chaotic Mass.

WHY NOT CONFER NOW?

Mr. O'Reilly, secretary of the school board, says he has received no letter from the mayor, or the commission, suggesting a conference between the two bodies on the subject of public playgrounds. If he had, he would, he asserts, have directed the matter to the attention of his fellow members, and the conference would doubtless have been held.

Then why not hold the conference within the next few days, or weeks? Mayor Begole says the commission is not unsympathetic with the playground movement. And surely the school trustees should not be. It is intimately related to the schools and can be made a valuable supplementary aid to the present scheme of education, if introduced on sane lines and properly supported. And, as Mayor Begole suggests, the school board is the body that should have general supervision of the activity.

The playground movement is but one phase of the general recognition now accorded what will presently be regarded as a truism in the theory of social economy, namely, that we should prevent bad effects that we are now having so much trouble dealing with. The playgrounds movement has at root the desire to make the boy better material for citizenship, to keep him out of juvenile mischief of vicious tendency and to make him a less frequent visitor to the courts of juvenile delinquency. This is the really important aspect of the playgrounds movement. It is ever so much more than a proposal to provide the boys and girls merely with amusement.

The school board, though the state law requires physical instruction, has no physical instructor, because it has no gymnasium in which to conduct the work. If it had a physical instructor, the playgrounds would no doubt be properly supervised, because a man would be employed capable of directing both lines of work. Viewed in one aspect, it appears that the question gets back to Marquette's lack in physical school equipment. The board has discussed informally plans for providing a gymnasium. It appears to be getting along to a time for action. The taxpayers of the city will endorse any reasonable project for the better equipment of the schools and the ultimate welfare of the children. All the board has to do is to plan wisely.

MAKING WAR IMPOSSIBLE

Appropos of recent expressions as to the possible uselessness of war vessels come further detailed accounts of experiments conducted by Giulio Ulivi, a young inventor of Florence, Italy.

The request of the government Ulivi undertook to show what could be done with what he calls F rays, and he has proved that such rays can be passed through obstacles and made to explode powder in a manner that certainly is startling.

It's all very well to say "let them starve" about the hunger strike militants. But still it would be mighty inconvenient if they did starve. And that's why Premier Asquith gave way to the hunger strike of Sylvia Pankhurst and agreed to meet the deputation of suffragettes. The premier does not care to take chances on being a party before the fact to the death of Sylvia, and he is sufficiently impressed with the tenacity of the militants, evidently, to apprehend that if she didn't have her way she might starve herself to death. The militant problem is indeed a difficult one for the officials who are called on to deal with it.

It has been better than even money all along that Villa and Carranza would soon to the parting of the ways, but there has been a substantial opinion that they would manage to stick together until they had taken Mexico City, or until Villa had taken it. But now the Constitutionalists movement has become a matter of wheels within wheels.

Mr. Groesbeck is well pleased with the courtesy of his reception in the upper peninsula. The upper peninsula is ever courteous, and there has yet to be a candidate from south of the straits that it has not sent home tickled to death with his reception, whatever was destined to come to pass on election day.

The Constitutionalists having the divided section of Mexico they have conquered into two parts, it now appears that the administration has the necessity of deciding which Constitutionalists it is favoring.

It may be a straw that shows the way the wind is blowing: Representative MacDonald confided to friends in Marquette that Senator James, of Hancock, is the man he expects to have to run against.

One thing, at least, has appeared a cinch all along, namely, that both Mr. Mangum and Mr. Roberts would not run for the state senate.

If the state is going in for public ownership of railroads, why not have it try out its hand on a narrow gauge road, three miles long, with no way stations,

SCHOOLS ARE GOOD.

When it is considered that perhaps the greater number of the young men who are admitted to Annapolis qualify for their examinations by taking special instruction under men who make a specialty of preparing candidates, it is a fact that reflects credit, indeed, on the schools of this region, as well as on the young men concerned, that the two applicants designated by Congressman MacDonald should have passed notably good examinations without such special preparation.

Both young men are graduates of their local high schools, and one of them did some work at the Normal. All the education they have obtained they secured at home. Yet their examination papers are said to have been unusually good. It goes to show that the facilities the high schools of the upper peninsula offer the youth of the district are excellent, and ample to give a useful and thorough education, if they are taken full advantage of.

Educational methods are not failing on this side, where they fail, for the facilities are, as a rule, unexcelled. Where the results are disappointing it is due largely to the sloth and lack of ambition on the part of the young people who ought to be making the most of them. The education offered by the well appointed high school today is equal to that offered by most colleges not many decades ago.

Before Ohio established workmen's compensation the average award in damage suits arising from accidental killing in industry was less than \$10,000 of which a large part went to lawyers. Thus far under the new state insurance plan the average award for accidental deaths has been \$2,551, of which the surviving dependents got all. No need to comment on these results of working men's compensation laws.

Boarding his steamer, Colonel Roosevelt said: "I will make just one reference to politics. I will not run for governor of New York." Nor is it likely that this statement was dictated primarily by the advice of his physician to refrain from public speaking, which makes it impracticable for him to make the kind of a campaign he would have to make if he did run for governor. It is more probable that the colonel has never seriously considered running for governor. There have been too many good reasons why he should not to make the reasons why he should look impressive. His statement on this score just before his embarkation gives the Progressive leaders in New York notice to waste no more time making plans based on the possibility of his being a candidate.

A LAUGH OR TWO

On Charity.
 John D. Rockefeller, Jr., was talking about charity.
 "Help a man out of a hole," he said, "and he may forget you once he's out. But rest assured of this, he'll never fail to yell promptly to you for succor from the next hole he falls into."

Back Numbers.
 Nat Goodwin said at the Players' club in New York:
 "There is no call for the old-fashioned, Chesterfield type of man today. Today is the day of the maxixe, the slashed skirt, and the cigarette. With these the Chesterfield type can't cope."
 "I overheard two pretty girls in Sherburne's. They were taking tea, smoking cigarettes in long amber tubes, and swinging their slim silken ankles in and out of the slash in their skirts."
 "Fred," said the first girl, "kissed me solemnly on the forehead after I accepted him. Wasn't that funny?"
 "If a man kissed me on the forehead," said the other girl, "I'd call him down. Yes, sir, I'd call him down four inches."

On His Last Leg.
 David Belasco, apropos of the inroads moving pictures have made on the regular theater, said in New York:
 "The cream of the theater has not suffered. No, the best has not suffered. But down at the bottom, down amongst the skim milk, so to speak, there the suffering has been terrible."
 "I heard of a sad case the other day. There was a chap who had a dog named forming parrots. For a long time, thanks to the movies, this chap had been out of a job. But, at last, his agent wired him that he'd signed him up at a good price."
 "Several days passed. Then the agent received on a soiled postal card from the poor fellow this tragic declaration:
 "'Can't accept. Have eaten my act.'"

Knew Enough to Keep Dry.
 "It looks like rain!"
 "I beg your pardon."
 "I say it looks like rain."
 "What does?"
 "The weather."
 "The weather, my dear sir, is a condition."

USE ALLEN'S FOOT EASE

The antiseptic powder to be shaken into the shoes. If you want rest and comfort for tired, aching, swollen, sweating feet, use Allen's Foot-Ease. It relieves corns, blisters, and callous spots. Just the thing for Dancing Parties, Patent Leather Shoes, and for breaking in new shoes. It is the greatest comfort discoverer of the age. Try it today. Sold everywhere. Don't accept any substitute. For FREE trial package, address Allen S. Olmsted, Le Roy, N. Y.

BRIDGES OR CULVERTS?

If it made a success of managing a line where failure would be attended by no serious consequences, it would be easy to secure public approval for the project of taking on more mileage.

Chase S. Osborn has not as yet announced his candidacy for governor. He has, perhaps, been too busy with commencement and other addresses to find the time to be able to think about it.

In Menominee men who think Menominee is a good town, and hope to see it a better one, are doubtless asking themselves "why is an alderman?"

EDITIORAL OPINION

A Dutchman and a German in Albania.
 William of Wied, king of Albania by the grace of the great powers, presented a rather sorry spectacle when he fled from the second and far more serious attack on Durazzo by the discontented Mohammedan tribesmen. It was an altogether unkingly proceeding. It was reminiscent of the flight of young Manuel when the first shots were fired in the streets of Lisbon. Had Manuel been half a king he would have remained to face the music, and had he remained the revolution would have been ridiculously abortive. William's flight from Durazzo before he had even smelled gunpowder would have been as permanent as Manuel's departure from Lisbon had it not been for the Austrian and Italian guns and gunners that sent him back to keep him there.

Having found it impossible to get away William's backbone stiffened miraculously. Apparently he is now prepared to make the best of a bad royal job from which he cannot escape. Durazzo has been an effective national guard, and this week William led his own soldiers, displayed great bravery and considerable military skill, and won the respect of a people who had looked upon him as a pitiful nonentity.

William took command of his troops only after Colonel Thomson, the Dutch officer who had organized the Albanian gendarmes, and upon whom had devolved the gigantic task of pacifying Albania, had been killed. Thomson and his handful of Dutch associates had done excellent work, and had made the beginning of an effective national guard. The colonel, fighting in a land in which he had no interest, and in behalf of a sovereign for whom he probably felt little respect, died the death of a hero. He will not be remembered in history, for his services were not of sufficient importance. Even William of Wied will be worth scarcely more than a footnote. But the death of Thomson and the new found gallantry of William shed a little glory on a sordid and wearisome chapter of contemporary history.—Cleveland Plain Dealer.

Diplomacy at Niagara Falls.
 How pleasant it is to note the great respect and consideration that exists between the mediators and the Constitutionalists, and also no doubt between all the others interested in mediation! And how glad mediation fail when all those people value each other so highly, while Carranza has such "distinguished consideration" for the others and "the mediators are scarcely behind in their appreciation of the Constitutional leader? We gather from his note to the mediators, very politely ignoring the proposal to declare an armistice, that he is overwhelmed with joy that they should have seen fit to notice him with a letter, and from their reply that they are grief stricken at the necessity of calling his attention to the fact that he has not declared an armistice.

"I have had the honor of receiving your courteous note," says Carranza. And he adds in a whole paragraph at the end of his letter to say "I take pleasure in reiterating to you the assurances of my high and distinguished consideration." Then his representative, R. Zubaran Capmany, through whose hands the correspondence passed, who mailed Carranza's letter to our trial, with some other similar function, was so carried away by enthusiasm that he could not resist the temptation to seize his pen and write on the letter, all by himself and over his own name: "The undersigned renews on this occasion to your excellencies, the plenipotentiaries of Brazil, Argentine and Chile, the assurances of his most distinguished consideration." And then in return, in acknowledging the "honor" of the Carranza letter, he writes:

EASIER THAN WALKING.

The topic turned to the rising generation, and former Governor Judson Harmon of Ohio was reminded of a small party named Willie.
 "One night Willie was trying to make a toy locomotive circulate when his mother glanced up from the baby she was disrobing for the night.
 "Willie," said she, "just run upstairs and bring me baby's nightgown, won't you?"
 "I don't want to," complainingly responded Willie. "I got to make this train go."
 "For shame, Willie," expostulated mother. "If you are not kind to your little sister she will put on her wings one of these days and fly back to heaven!"
 "If she has got wings?" was the indifferent rejoinder of Willie, "let her put them on now and fly upstairs for her nightgown."—Philadelphia Telegraph.

CHANCE FOR REFORM.

No more wiggles and twists in dancing is the verdict of the masters of the light fantastic art. "Who will be wigged and twists in politics"—Chicago Record-Herald.

Right!
 Mr. Rye, the Tennessee candidate for governor, has proven an inspiration to all the paragraphs in the country.—Washington Herald.

Cause for Indignation.
 In the report that Senator Dominguez of Mexico was very indignant when his tongue was cut out by Huerta's orders, we have something that appears rather probable. But Senator Dominguez's indignation probably reached its climax later when he was shot.—Pittsburg Dispatch.

Odd.
 The average salary of government employees in Washington is \$1,979, while the average for the entire country is \$948. Yet it is the Washington employee who always shouts loudest for a pension.—New York World.

Electricians who were wiring a house in Bath, Me., ran up against a new proposition as far as obstacles went. It is one of the old houses built to last and in places the wires had to be sent through timbers fourteen inches thick, and quite unaffected by their extreme age.

PILE CURED AT HOME BY NEW ABSORPTION METHOD

If you suffer from bleeding, itching, blind or protruding piles, send me your address, and I will tell you how to cure yourself at home by the new absorption treatment; and will also send some of this new method to you for trial, with references from your own locality if requested. Immediate relief and permanent cure assured. Send no money, but tell others of this offer. Write today to Mrs. M. Summers, Box P, Notre Dame, Ind.

To Avert Danger in Fogs.

The fitting of the Canadian Northern liner Royal George with the Marconi-Bellini-Tosi radio goniometer otherwise known as the "direction finder" or "radio compass," is evidence of a belief amounting to certainty that vessels need no longer lose their bearings in fogs. With an equipment of separate aerial wires, consisting of triangles bisecting each other at right angles, a ship may receive signals showing accurately from what direction another vessel is approaching. A collision would be prevented. A vessel in distress, if located and approached in the thickest weather. If a fixed wireless station is within fifty miles, the radio fog compass will give to the wireless operator or the navigating officer his exact position.

Independently of this range finder radio telegraphy has had advantages in storms and fogs. With two operators on each vessel, many messages are exchanged between ship and shore stations, conveying information about neighboring vessels. Also, the received signals increase in strength as the distance between the wireless installation decreases. The aerials of the radio compass work on this basic principle, since they receive best when their plane is in the direction of the sending station. And the mechanical pointer attached to the instrument indicates the direction of the strongest impulses.—New York Times.

The Lesson of Defeat.

The loss of the polo trophy is rather a nasty blow to American pride, but it will be a blessing in disguise if it develops the right sort of spirit. There has been something of a tendency toward satisfied complacency in this country over our prowess in sports. It found expression in victory by a general attitude of conscious superiority that must have been intensely galling to those who met defeat at the hands of our representatives and did was anything but accidental with true sportsmanship. On the field of athletic rivalry we've adversaries are properly to be regarded as worthy foemen, not as puny opponents hopelessly doomed to rout. That sort of a foreman, indeed, is not a rival; he is a victor, and a true sport cannot be looked for where either participant is overwhelmingly superior to the other. It is the evenly matched contest, that strains the last ounce of strength to win, that makes real sport.

The polo games have restored a proper standard of values in this matter. They have shown that Americans are not peerless athletes, and that we must strive hard to cope with our friendly foes from across the water. So much the better, if we view it rightly. The necessity for developing every muscle to its maximum and doing this kind of a spur. The over-confident nation, like the over-confident individual, quickly loses the fighting edge of fitness and gets fat and lazy. It is well to know that we have to keep in training, because otherwise we wouldn't train.

Also it is well to have a realization brought home to us all, potential contenders, or more spectators, that we are not a chosen people, but are of flesh and blood just like the other peoples, and that we are under the necessity of doing our level best to win from others. It's an antidote to vanity. There were unpleasant symptoms that we needed some such antidote, and perhaps it's just as well it was applied. Let us learn from defeat, not only how to bear defeat, but how to bear triumph when it comes again. Let us generously cheer our present conqueror that in our turn to conquer we may avoid the swagger and the strut that may win any victory.

The British won. All the better; they're the more worth fighting another time.—Detroit Free Press.

LOWER STATE NOTES

BAY CITY—Mrs. Philomena Sayen, 76, died at her home here while turned services for her son, Joseph Sayen, were held at Visitation church. Seven died in Detroit Sunday afternoon. This is the fourth death in this family within a week. Two grandchildren of Mrs. Sayen, Emmet Sayen, aged 19, and Fred Schenmehl, 24, were drowned in Toledo last Sunday.

PONTIAC—Frank J. Titus, leading jeweler of this city, was arrested in a capias suit for \$5,000 for the alleged alienation of the affections of William B. Gray's wife. He gave a bond of \$2,000 and was not locked up. Titus and the woman were found living together in Detroit, by the husband of the latter, several weeks ago, it is charged, and she sued Gray for divorce. He is contesting the suit.

PORT HURON—James McMillan, the young man arrested for assault Tuesday when the steamer Greyhound touched at this port, was taken back to Goodrich, Out., by Provincial Detective Moore, of that place. McMillan was a happy youth despite the fact that he was under arrest. Until the arrival of the officer he believed he was wanted on a murder charge as the result of a fight which took place at Goodrich on June 10.

BATTLE CREEK—Eighty years old and feeble, Mrs. Angeline Petre asserted her independence by leaving the home of her daughter, Mrs. Charles Belcher, in Marshall and moving to her own home near Marengo which she abandoned last fall. She started to do her own shopping and walked across a railroad track. A fast freight hit her and knocked her 60 feet and then ran over her, cutting her body to pieces. Though Mrs. Belcher protested against her mother going to Marengo, she is prostrated at the result of the move and the part she played by not being more firm in her arguments.

ANN ARBOR—Roy Davis, a senior law student from Mineral Ridge, was drowned in the Huron river, and R. D. Calkins, a freshman in the same department, from Eugene Ore, was rescued just in time for his life to be saved with a pulmotor. When near the old pup mill Calkins' canoe was caught in an eddy and overturned. Davis was sucked to the bottom by the strong undercurrent. Calkins, who was an expert swimmer, also disappeared. When he again came

Classified Want Directory

WANTED.
 WANTED—Carpenter work by the day of contract; thirty years' experience. Work guaranteed; prices right. A postal to Lock Box 177 or phone Carpenter, Brunswick Hotel. 6-20-14
 WANTED—Good wages will be paid a capable local editor by The Mining Journal.
 WANTED—A competent girl for general housework. Small family. Good wages paid. Enquire 220 Division street, corner Genesee.
 WANTED—A night clerk. The New Summit Hotel. 6-17-14
 PIGEONS pay dollars where chickens pay cents; small capital needed; small space required; always paid up; ready markets; sent for May issue of our Journal; fully explained there; price ten cents. Reliable Squad Journal, Versailles, Mo. 6-2-14

FOR RENT.

HOUSE TO RENT—A moderate furnished house to responsible family. Apply at 12 W. Arch street. 6-20-14
 FOR RENT—House at 40 East Arch. Enquire 421 North Front. 6-4-14
 FOR RENT—A camp. Two camp lots for sale. H. R. Patrick, phone 67. 6-19-2008
 TO RENT—Very desirable corner store in the Cole block, corner Third and Third streets. There is without doubt as much travel up Third street as on Front street. Also four rooms, price ten cents. Reliable Squad Journal, Versailles, Mo. 6-4-14

FOR SALE.

FOR SALE—A \$250 piano for sale at \$100. Apply Enquire 100 N. Third street. 6-20-14
 FOR SALE—30-foot, half cabin launch; 10 horsepower Kalmberg engine. Address M. Mining Journal. 6-20-14
 FOR SALE—Household furniture. Enquire at 214 W. Fair avenue. 6-20-14
 FOR SALE—One gasoline yacht, length 23 feet, 8-foot beam, motor enclosed cabin; Emerson engine, 16 to 20 h. p.; 145 gallon gasoline tank, and fully equipped with lamps; life preservers and other accessories. Cost \$1,500 to build two years ago, and has been painted and overhauled this spring. Will sell for \$750. 14 E. River, 305 Washington street, Escanaba, Mich. 6-18-14
 FOR SALE—Large, five-passenger car, in excellent condition; cheap. An leaving the city. Telephone 779-J, or inquire corner Center street and Presque Isle avenue. 6-17-14
 FOR SALE—One galvanized iron garage, one three-quarter size billiard table and machine of Plymouth, one grand piano. Inquire L. A. Boyd, 510 E. Arch St. Phone No. 522-J. 6-13-14
 FOR SALE—One trap, convertible one or two seats, with easily detached canopy top. Cost \$210.00; sell for \$75.00. A. E. Archambeau. 4-23-14

BIDS FOR ROAD WORK.

Sealed bids will be received by the Marquette county road commission at its office in Ishpeming, until 6 p. m., Thursday, June 25, 1914, for macadamizing three miles of road between Hampton and Michigan. Specifications and form of contract and bonds may be seen at the office of the board in Ishpeming. Each bid must be accompanied by certified check for \$200 to W. H. Johnston, chairman, for \$200 as a guarantee that the bidder, if awarded the contract, will execute the same and furnish the required bonds.
 Blank forms on which to make bids may be obtained at the office of the board in Ishpeming. The board reserves the right to reject any or all bids, and the unsuccessful bidder will be returned.
 W. H. JOHNSTON, Chairman. 6-17-61

LANSING

The graduation exercises of the local eight grade will be carried on in considerable gloom. Four who were to have their final grade to prepare to enter high school in the fall went out riding, the machine skidded on a hill four miles from Grand Lodge and two of the quartet, both girls, are badly hurt, while the two boys escaped unharmed. The two girls, one of whom so badly hurt that she had to be taken to the hospital to give a definite opinion as to the extent of her injuries, are Madeline Dixon and Sara Larabee, 17 years old. The boys were Ralph Bates and Frank Bradford. Bates is a son of Madison F. Bates, the president of the Bates Tractor company, and it was his car which was being used.

CADILLAC—Thousands of fish, killed by a strange disease, are scattered along the shores of Lakes Cadillac and Mitchell and the same conditions are found about lakes in Mason and Missaukee counties, according to Deputy Game Warden Kidder, who was here investigating the wholesale death of the fish. Until Kidder finished his investigation it was thought that dynamites had killed the fish. However, he stated that the fish were killed by disease. Black spots were found on the bodies of the dead fish, but the fish near death were picked up and similar spots appeared on them. Kidder believes poisonous food, possibly fish flies, has caused the deadly disease. At present it looks as though all the fish in the lakes in this section would be destroyed. Several diseased fish were caught and sent to Lansing for examination.

bridges or culverts? If it made a success of managing a line where failure would be attended by no serious consequences, it would be easy to secure public approval for the project of taking on more mileage.

Chase S. Osborn has not as yet announced his candidacy for governor. He has, perhaps, been too busy with commencement and other addresses to find the time to be able to think about it.

In Menominee men who think Menominee is a good town, and hope to see it a better one, are doubtless asking themselves "why is an alderman?"

FOR FOURTH OF JULY PARENTS IN ENGLAND EXPRESS GRATITUDE

Prizes for Sports and Parades, Aggregating Hundreds of Dollars, Are Announced.

Mrs. Haas, chairman of the Houghton Fourth of July sports committee, yesterday announced the list of events on the sports program, as follows:

Flag of war, five-men teams, to take place at foot of Isle Royale street—Prizes, \$15 and \$10.

Barrel rolling race; boys, 100 yards—\$3 and \$2.

Dog race, harness to cart—\$5 and \$3.

Girls' roller skating race, Houghton club to Douglas House—\$3, \$2 and \$1.

Flag race, four men to team; each man to run 100 yards—\$12 and \$8.

Cameo races—Bridge to Peninsula Wholesale Grocery dock—\$8, \$5 and \$3.

Grouse polo; vertical; corner Sheldon street and Bridge—\$5.

Obstacle race; start with dash, then through barrels and finish with sprints; total distance, 150 yards—\$5 and \$3.

100 yards swimming race for men; Reach & Soeber dock to Peninsula Wholesale Grocery dock—\$5 and \$3.

Same for boys—\$3 and \$2.

Grouse polo over water—\$5.

Pie-eating contest on land—\$3 and \$2.

Three-legged race for boys—\$3 and \$2.

Consolation race for boys—\$3 and \$2.

Log-rolling contest, if sufficient entries—\$10.

In the foregoing list the location of all of the sports is not given, but Chairman Haas will announce these, as well as the exact time for each event, in due season. None of the events will be run unless the number of entries is satisfactory to the committee.

The log-rolling contest is expected to be the big, spectacular sporting event. The \$10 prize here announced is only tentative. If there be a big field of entries, it is understood a number of star hitters from L'Anse, Baraga, Piquette, Lake Linden and Ripley are arranging to enter, the committee will make it worth while. The prize will be in proportion to the number of men and the winner has to eliminate.

The parade committee has announced the following prizes:

Barrel race and floats—First prize, \$100; second, \$50; third, \$25; fourth, \$15; fifth, \$10; sixth, \$5; next five best, \$3 each; next five best, \$1 each; total, \$225.

Barrel race on foot—First prize, \$20; second, \$15; third, \$10; fourth, \$5; fifth, \$3; sixth, \$2; next three best, \$1 each; next five best, \$1 each; total, \$74.

FRENCH CELEBRATION.

Visitors from All Over the Upper Peninsula Are Expected.

With Hon. Hector M. Laferte and Rev. Father Desjardins as the principals, thousands of French people will participate in the celebration of St. John's day, June 24, at Electric Park. Visitors will be present from all parts of the upper peninsula. Reports from Ontonagon and Baraga counties are that both districts will be well represented.

That the committee acted wisely in selecting Electric Park for the festivities is a point upon which the officials of every St. John de Baptiste lodge in the district agree. The musical program will in no sense be shadowed by the galaxy of orators. Miss Desormier of Lake Linden and Francis Corbett of Houghton will sing, the various brass bands will give a concert and a chorus of fifty voices from St. Joseph's school will sing several selections.

CONCERT AT HURONTOWN.

The Portage Lake Glee club will give a concert at the Hurontown M. E. church next Tuesday evening for the benefit of the church. Director Mitchell is arranging a particularly attractive program.

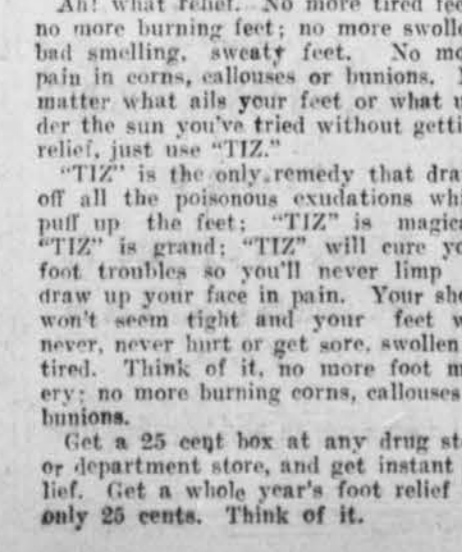

"TIZ" FIXED MY SORE, Tired Feet

"O, Girls, Don't Have Puffed, Up, Burning, Sweaty Feet or Aching Corns."

"TIZ" makes my feet just dance."

... Ah! what relief. No more tired feet, no more burning feet, no more swollen, hot, red, inflamed feet, no more pain in corns, calluses or bunions. No matter what ails your feet or what under the sun you've tried without getting relief, just use "TIZ," remedy that draws off all the poisonous exudations which puff up the feet; "TIZ" is magical; "TIZ" is grand; "TIZ" will cure your foot troubles so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore, swollen or tired. Think of it, no more foot misery; no more burning corns, calluses or bunions.

Get a 25 cent box at any drug store or department store, and get instant relief. Get a whole year's foot relief for only 25 cents. Think of it.

Father and Mother of Murdered Jane Boys Return Thanks for Money Sent Them.

Dr. Edward T. Abrams, of Dollar Bay, president of the Houghton County British-American club, has received from Mr. and Mrs. William Jane of Cornwall a letter expressing their gratitude for the money the organization sent to them. The couple are the parents of the Jane boys, who were murdered in the Daily boarding house at Painesdale the evening of Dec. 7. Mr. Jane says he is from being in comfortable circumstances through reports of his own large farm have been circulated in the copper country. The letter follows:

"We received the letter with the check for 250 pounds and ten shillings. Will you kindly thank all those who helped us out in a poor broken-hearted father, mother and sisters such a handsome present and who extended to us their sympathy in our sad bereavement. You are all strangers to us, yet we feel that you have all been like brothers and sisters to us. We may never meet in this life, but I hope we will meet in heaven."

The letter is signed by William and Sarah Jane and is preceded by the line: "From the broken-hearted father and mother of Harry and Arthur Jane."

A closing paragraph says: "I hear that it is rumored at Painesdale, and in fact all through the copper country, that I have a large farm. This is not true, as I only am a poor workingman, getting sixteen shillings a week. I have nothing more than what my two hands can get for me; that is, before you so kindly sent us that check."

NOW ATTORNEY OLIVER.

Former Justice, Fifty Years Old, Graduates at Michigan.

Among the graduates from the law department of the University of Michigan next week, says a Lansing dispatch, will be a man of fifty, a man old enough to be the father of the next oldest man in the class, and for the matter of that, old enough to be the father of more than one member of the faculty that has taught him his law.

The man is Charles Oliver—pronounced O-Lee-vee, if you please, or he will prefer to be called Charles—born in Montreal a good French-Canadian, and he comes to the university from Hancock, where he will return as soon as he is granted his degree, to start upon the practice of his profession.

"I never yet undertook anything that I did not succeed in, and I shall not fail in this," said Mr. Oliver, though he added, "I know full well that I shall never be able to do what a young man might, I'm too old—there are too few years left, but I'll build up a good practice, and I shall be successful, and being successful I shall be content."

For fifteen years Mr. Oliver was police magistrate in Hancock. He had held another political office for five years before he was first elected magistrate. Mr. Oliver voted for this spring after twenty years of political quietude, he awoke one day to the realization of the fickleness of Dame Politics. He found himself defeated in the nomination to succeed himself as municipal judge.

"Today I am glad it happened," said Mr. Oliver, "and today I know I shall never go into politics again. I had twenty years of the sweets of victory, and then I found myself kicked out, kicked out when I was no longer a young man. Now I'll stay out. There is always a kick-out coming to the man in politics, and he'll get it sooner or later."

"Judge Oliver" as they call him in Hancock, stands near six feet in his stockings, and his brown hair is but barely touched here and there with a silvery thread, while his eyes have the kindly twinkle of a young man's. Hearty of voice, is speaking with a marked French accent, big and strong of frame, also. He believes in every way his last a hundred years, and he carries well his 200.

Here is a secret—nothing but the fact that he had a wife and family depending upon him kept the judge from donning the mole skins and getting out on Ferry field last fall to fight gridiron battles for the glory of the maize and line of Michigan.

ANTI-SOCIALIST LEAGUE.

Finland Organization Meets Sunday at Calumet and Mass.

The Calumet branch of the Finnish Anti-Socialist League will hold a meeting Sunday afternoon in the Finnish Temperance hall on Eighth street, Red Jacket. There will be members in attendance from the towns of Keweenaw county, as well as from Calumet, Laurium, Ontonagon and Tamarack and from the farming districts of Houghton and Keweenaw counties. At this meeting final arrangements will be made for the excursion to be run to Hancock next tomorrow for the big county meeting to be conducted under the auspices of the Hancock branch of the league.

A big meeting of Finnish people and others opposed to socialism will be held at Mass City, Ontonagon county, tomorrow afternoon. The socialists, it is claimed, have been trying to establish their cause in Ontonagon county as a sort of last resort, because they are being slowly but surely driven from Houghton county. President N. A. Lempe of the Calumet division of the Anti-Socialist will address the Mass City meeting. A strong branch of the Anti-Socialist league will be organized on Sunday.

COMFORTING TO STOUT PEOPLE.

Foley Cathartic Tablets are a specially gentle yet perfect working order. No biliousness, no constipation, no distress after eating, no greasy, gassy taste. A stout person who uses them constantly will really feel thinned out and more comfortable as a result of their use. For sale by All Dealers.

TEN DAYS FOR A WALK.

Trespass Case From Highway—Carl Krause Case Up Again.

Ole Raisen and Walter Anderson of Hancock and Calumet, were taken to the county jail yesterday, each to serve a sentence of ten days for walking across the farm of Peter Peterson. That was their offense, technically trespass, but they aggravated it by persisting in walking across the fields after being warned and on the last occasion they used vile and indecent language to the owner of the land, with the result that he had recourse to the law. Justice Eickhorn of Hancock heard the case.

Kenton Trapper a Defendant.

In Justice Eickhorn's court yesterday also was heard the case of the people as represented by the state game warden's department, vs. Carl E. Krause of Kenton. Attorney A. H. Brown of Ontonagon was present to defend Krause, and his explanation of the case was: "Whenever the state game warden's department hasn't anything else in particular to do it sends an officer up to arrest Krause." Krause is a trapper, and he is under arrest on a charge of having deer hides in his possession illegally. The case was not concluded yesterday.

TWO BISHOPS COMING.

Methodist Episcopacy to Be Well Represented Next Month.

Rev. J. H. Oatey of Hurontown, president of the District Epworth league of the Houghton district, Methodist Episcopal church, is arranging the program for the district institute, which is to be held at Electric Park the week of July 22, coincident with the district ministerial convention and the Copper Country Chautauqua. Those who will participate include Bishop Lee of Atlanta, Ga., and Bishop Burt of Buffalo.

The Epworth League institute will be a big religious gathering in itself. More than one hundred delegates from all parts of the upper peninsula, including Marquette and territory north and west, will be present. The league now has forty chapters in the district.

NOT SHRIEVALTY CANDIDATE.

Mine Inspector James Corrects a Rumor As to His Ambitions.

Thomas James of Calumet, mine inspector for Houghton county, who was a business visitor in Houghton yesterday, denies that he is a candidate for the Republican nomination for sheriff.

Mr. James said that a rumor of his candidacy had been published and it was unwarranted by him. "I have all the troubles I want right now," he said, in denying the rumor.

IT WAS COLDER YESTERDAY.

But It Has Been Colder in June, Much Colder, Says Expert.

There was some little dissatisfaction with the weather yesterday. There was no doubt it was cold. Even old inhabitants of the copper country, who have lived in the region for an unreasonably long time, said that June usually is much warmer.

To allay any suspicion, Weather Observer Cowdrick of Houghton was asked about the matter. He said that the temperature yesterday was about normal for June, but that it had been much warmer in the past. "I have had it as cold as thirty-four in June," he remarked, in support of his contention.

RURAL LIBRARIES A BOON.

Twelve Boxes of Books Returned to the Library Show Wear.

The rural traveling library branch of the Houghton public library's activities is one that gives to the people reached about as much pleasure and profit as any enterprise of the institution. This week there have been returned to the library twelve boxes of books that have been in use in rural communities since last September.

The plan is to send a box of fifty books to each of the rural communities in Portage township. Each box remains in the community five months, and is then returned to another community. In each five months period the box enjoys an average circulation of 300, showing that each book is read at least six times.

The majority of the books are in-teresting because they are into communities that have no other library. Reports from the volunteer librarians in the various communities show that the books are read with care. The libraries are placed in the following communities: Askold, Eto, South Eto, Otter Lake (2), Houghton, Dodgeville, Superior, 12, Royale mine, Isle Royale mine, Pilgrim and Entry.

WEEKLY LUMBER REVIEW.

Gossip of the Trade in the Copper Country—Price Quotations.

Copper country lumbermen report a more cheerful tone to the lumber trade, at least a more cheerful prospect. The situation seems to be that consumers are changing their buying from cargo to carload lots, evidently being convinced that buying the lumber in smaller quantities as needed is the proper method.

A leading copper country manufacturer yesterday expressed confidence that this adjustment is completed the trade will be much more active.

The following is a range of lumber prices quoted in the copper country during the week:

Cargo hemlock, \$14.50, about \$1 off from last year.

Birch, No. 2 common and better, \$21, about \$2 off.

Maple, No. 2 common and better, \$21, about \$2 off.

Ash, elm and basswood are quoted at about the prices ruling a year ago, though the demand is smaller. A recent report was that a small order, though only a small order.

Bark peeling is at its height. The copper country will market 20,000 cords this summer. Prices for bark are steady as compared with last year, a little off from two years ago, owing to the removal of the bark from South American "sunning extract."

The Dollar Bay Lumber company resumed operations at its mill Saturday, after a two weeks' suspension while the smokestack, which had been blown down in a storm, was being rebuilt. Manager Clements of this company, formerly with the Nestor company at Baraga, has taken up his residence at Dollar Bay.

Hebard & Sons are peeling bark from 700,000 feet of timber at Peppanung. The Baraga Lumber company has reported that the mill at Isle Royale and hardwood logs out south of L'Anse au Loup.

The steamer Peters cleared Saturday from the Worcester Lumber Co. dock, "Russell," with a half million feet of hardwood lumber for Chicago. The schooner Cors A. of Port Arthur, making weekly trips to the Canadian ports, is now at the Canadian ports with hardwood from Keweenaw Bay ports.

PLAYGROUND OPENS TODAY.

The Laurium playground, at the corner of Hecla and First streets will be officially opened for the summer today, with Miss Irene Farnham as supervisor and play instructor. The Laurium playground has been popular the last four years, hundreds of children spending a great deal of their time there. There are sandboxes, swings, teeters and other play equipment.

CURES STUBBORN, ITCHY SKIN TROUBLES.

"I could scratch myself to pieces" is often heard from sufferers of Eczema, Tetter, Itch and similar Skin Eruptions. Don't Scratch—Stop the Itching at once with Dr. Hobson's Eczema Ointment. Its first application starts healing; the Red, Rough, Itchy Skin is soothed by the Healing and Cooling Medicines. Mrs. C. A. Einfield, Rock Island, Ill., after using Dr. Hobson's Eczema Ointment, writes: "This is the first time in nine years I have been free from the dreadful ailment." Guaranteed, 50c. Recommended by The Stafford Drug Co.

Washing Won't Rid Head of Dandruff

Dissolve It, That's Best Way

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary kerosene and pour it into a tin when retreating, use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and itching and itching stop at once, and your hair will be frisky, glossy, silky and soft, and look and feel a hundred times better than it did before.

If you want to preserve your hair, do by all means get rid of dandruff, for nothing destroys the hair more quickly. If not only starves the hair and makes it fall out, but it makes it brittle, stringy, dull, dry, brittle and falls out, and you notice it. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

GOING TO SPRINGFIELD, ILL.

Angus W. Kerr Announces Intention to Leave Copper Country.

Angus W. Kerr of Laurium, former prosecuting attorney of Houghton county, who returned Thursday to L'Anse to assist in the strike trials as counsel for the Western Federation of Miners, intends to leave the copper country permanently, at the close of the strike.

Kerr announced at a luncheon Thursday that he intends to practice law at Springfield, Ill.

Like Baseball Bleachers.

The Juarez amphitheater, like most others, is divided into two sections, "semitra" and "sol," or "shade and sun."

On the semitra side, where the price of a seat was two pesos, sat the elite of the Juarez bull ring, made up of women. They came very early and stayed very late because—according to the posters—it was all being done "in honor of the great Gen. Francisco Villa."

REPLACING BURNED FORESTS.

How Government Is Starting New Trees Where Fires Destroyed.

Burke, Mont., June 18.—On the Little North Fork of the St. Joe river, in northern Idaho, on one of the areas severely burned by fires, the forest service is now at work reforesting 4,000 acres of land valuable only for timber production. A crew of about 120 men has been assembled on this watershed and it is now busily engaged in setting out the little plants which will some day grow into large trees.

The work is being handled from two camps, organized in three small crews in each camp for the field planting work. Each of the small crews consists of fifteen planters, a water boy, flagman and stak boy. In the morning each planter takes about 1,100 of the seedling trees in a bag strapped on his side. The crew then goes to the place where the day's work is to start and stretches out in a line with the men eight feet apart, like skirmishers, each armed with a one-hand grubbing hoe.

The three crews from one camp make a line about 400 feet long, which divides over the country, climbing mountains, crawling through windfall and crossing streams. The men pause every eight feet to put in the plants. During the course of the day each man plants an average of about 1,100 seedlings, so that the men from each camp cover a strip about 400 feet wide by one and one-half to one and three-quarters miles long.

The plants used are mainly white pine and yellow pine from the government nursery at Houghton, Mont., where young trees are raised at the rate of several million a year. The crews on the Little North Fork are setting out 100,000 plants per day, thus reforesting about 140 acres daily. During the spring planting season about 2,000,000 plants will be used on the 3,000 acres. The cost of doing the actual planting work is about \$2.71 per acre. The plants themselves cost to raise in the nursery about \$3 per thousand, or about \$2.10 for the 700 plants needed for each acre. Thus the total cost of the planting work is not far from \$5 per acre. Although the government will have to wait probably 10 years before a crop can be harvested from this land, it is estimated that the amount of timber produced even at present timber values will result in a return of about 5 per cent compound interest on the investment. In addition to this very reasonable return in the shape of timber from land worthless for any other purpose, there will be a large but unmeasured return in the control of stream flow which will result from the reforesting of this area. This is one of the largest planting jobs that the government has undertaken in one season on one unit.

District 1 of the forest service is reforesting each year between 5,000 and 6,000 acres in Northern Idaho and Western Montana. This work, in addition to furnishing employment to a considerable number of men each spring and fall, will when the timber is ripe for cutting, give a large money return to the counties in which the national forests are located. Since the counties secure a return of 35 per cent of the gross receipts of the forests for school and road purposes, this planting work, even at present timber values, which are likely to increase greatly in the future, will result in an estimated return to the counties when the timber is cut of about \$7 for each acre which is reforested.

The name Uncle Sam was first used in Troy, N. Y., when some goods bought for the government and marked U. S. were inspected by Samuel Wilson, a government employe, whose nickname was Uncle Sam. The similarity of the initials suggested the adoption.

Highways in Missouri are to be lined with peach and other fruit trees and the legislature will pass laws to protect them.

WOMEN ARE FANS AT BULL FIGHTS

Keep Up Interest in Great Mexican Game—How the Fight Goes On.

Juarez, Mexico, June 18.—If the good ladies of Juarez held ladies' aid society meetings or did the family darning on Sunday afternoons a choice lot of matadors, picadors, banderilleros and capeadors might be otherwise engaged as bartenders, barbers or cobblers.

It's the feminine fans in Juarez who furnish the "velvet," otherwise known as the profits, at the weekly bull-fights. In no city in Mexico, according to a prominent bull-fight promoter, do women form quite so large a number of the Sunday afternoon crowds that watch the bloody sport as in this border town. And it is only a 15-minute ride by street car to El Paso, Texas, where the above mentioned ladies' aid societies and darning circles held forth on Sunday afternoons.

A third of the crowd that saw five bulls tormented to death, a horse torn to pieces and a matador severely gored by a maddened bull on a recent Sunday in the Juarez bull ring was made up of women. They came very early and stayed very late because—according to the posters—it was all being done "in honor of the great Gen. Francisco Villa."

NOT SHRIEVALTY CANDIDATE.

Mine Inspector James Corrects a Rumor As to His Ambitions.

Thomas James of Calumet, mine inspector for Houghton county, who was a business visitor in Houghton yesterday, denies that he is a candidate for the Republican nomination for sheriff.

German Coffee Cake

Made Without Yeast

By Mrs. Janet McCormick Hill, Editor of the Best Cooking School Magazine.

There is no warm bread quite as appropriate for Sunday morning breakfast as German Coffee Cake, yet it seldom made by housewives who do not bake their own bread. If K C double raise Baking Powder is used it will be just as good as if raised with yeast and it will have the further advantage of being fresh and warm. Save this recipe and try it next Sunday.

K C German Coffee Cake

Three and one-fourth cups sifted flour; 2 level teaspoons K C Baking Powder; 1 level teaspoon salt; 5 tablespoons melted butter; 2 tablespoons sugar; 1 egg; milk.

Sift dry ingredients together, beat the egg, add milk and butter to the egg to make one and one-quarter cups; stir all together with inverted spoon to a stiff batter. Turn into greased pan and spread evenly. Brush top lightly with melted butter. Sprinkle sugar and ground cinnamon over the top. Bake in moderate oven.

Dutch Apple Cake or Prune Kuchen can be made with this same batter by covering the top with pared and sliced apples, or cooked prunes with the pits removed, skin sides down. Dredge with sugar and cinnamon the same as for Coffee Cake.

"The Cook's Book" contains 90 just such delicious recipes. You can secure a copy free by sending the colored certificate packed in the 25-cent can of K C Baking Powder to the Jacques Mig. Co., Chicago, being sure to write your name and address plainly.

REPLACING BURNED FORESTS.

How Government Is Starting New Trees Where Fires Destroyed.

Burke, Mont., June 18.—On the Little North Fork of the St. Joe river, in northern Idaho, on one of the areas severely burned by fires, the forest service is now at work reforesting 4,000 acres of land valuable only for timber production. A crew of about 120 men has been assembled on this watershed and it is now busily engaged in setting out the little plants which will some day grow into large trees.

The work is being handled from two camps, organized in three small crews in each camp for the field planting work. Each of the small crews consists of fifteen planters, a water boy, flagman and stak boy. In the morning each planter takes about 1,100 of the seedling trees in a bag strapped on his side. The crew then goes to the place where the day's work is to start and stretches out in a line with the men eight feet apart, like skirmishers, each armed with a one-hand grubbing hoe.

The three crews from one camp make a line about 400 feet long, which divides over the country, climbing mountains, crawling through windfall and crossing streams. The men pause every eight feet to put in the plants. During the course of the day each man plants an average of about 1,100 seedlings, so that the men from each camp cover a strip about 400 feet wide by one and one-half to one and three-quarters miles long.

The plants used are mainly white pine and yellow pine from the government nursery at Houghton, Mont., where young trees are raised at the rate of several million a year. The crews on the Little North Fork are setting out 100,000 plants per day, thus reforesting about 140 acres daily. During the spring planting season about 2,000,000 plants will be used on the 3,000 acres. The cost of doing the actual planting work is about \$2.71 per acre. The plants themselves cost to raise in the nursery about \$3 per thousand, or about \$2.10 for the 700 plants needed for each acre. Thus the total cost of the planting work is not far from \$5 per acre. Although the government will have to wait probably 10 years before a crop can be harvested from this land, it is estimated that the amount of timber produced even at present timber values will result in a return of about 5 per cent compound interest on the investment. In addition to this very reasonable return in the shape of timber from land worthless for any other purpose, there will be a large but unmeasured return in the control of stream flow which will result from the reforesting of this area. This is one of the largest planting jobs that the government has undertaken in one season on one unit.

District 1 of the forest service is reforesting each year between 5,000 and 6,000 acres in Northern Idaho and Western Montana. This work, in addition to furnishing employment to a considerable number of men each spring and fall, will when the timber is ripe for cutting, give a large money return to the counties in which the national forests are located. Since the counties secure a return of 35 per cent of the gross receipts of the forests for school and road purposes, this planting work, even at present timber values, which are likely to increase greatly in the future, will result in an estimated return to the counties when the timber is cut of about \$7 for each acre which is reforested.

The name Uncle Sam was first used in Troy, N. Y., when some goods bought for the government and marked U. S. were inspected by Samuel Wilson, a government employe, whose nickname was Uncle Sam. The similarity of the initials suggested the adoption.

Highways in Missouri are to be lined with peach and other fruit trees and the legislature will pass laws to protect them.

WOMEN ARE FANS AT BULL FIGHTS

Keep Up Interest in Great Mexican Game—How the Fight Goes On.

Juarez, Mexico, June 18.—If the good ladies of Juarez held ladies' aid society meetings or did the family darning on Sunday afternoons a choice lot of matadors, picadors, banderilleros and capeadors might be otherwise engaged as bartenders, barbers or cobblers.

It's the feminine fans in Juarez who furnish the "velvet," otherwise known as the profits, at the weekly bull-fights. In no city in Mexico, according to a prominent bull-fight promoter, do women form quite so large a number of the Sunday afternoon crowds that watch the bloody sport as in this border town. And it is only a 15-minute ride by street car to El Paso, Texas, where the above mentioned ladies' aid societies and darning circles held forth on Sunday afternoons.

A third of the crowd that saw five bulls tormented to death, a horse torn to pieces and a matador severely gored by a maddened bull on a recent Sunday in the Juarez bull ring was made up of women. They came very early and stayed very late because—according to the posters—it was all being done "in honor of the great Gen. Francisco Villa."

REPLACING BURNED FORESTS.

How Government Is Starting New Trees Where Fires Destroyed.

Burke, Mont., June 18.—On the Little North Fork of the St. Joe river, in northern Idaho, on one of the areas severely burned by fires, the forest service is now at work reforesting 4,000 acres of land valuable only for timber production. A crew of about 120 men has been assembled on this watershed and it is now busily engaged in setting out the little plants which will some day grow into large trees.

The work is being handled from two camps, organized in three small crews in each camp for the field planting work. Each of the small crews consists of fifteen planters, a water boy, flagman and stak boy. In the morning each planter takes about 1,100 of the seedling trees in a bag strapped on his side. The crew then goes to the place where the day's work is to start and stretches out in a line with the men eight feet apart, like skirmishers, each armed with a one-hand grubbing hoe.

The three crews from one camp make a line about 400 feet long, which divides over the country, climbing mountains, crawling through windfall and crossing streams. The men pause every eight feet to put in the plants. During the course of the day each man plants an average of about 1,100 seedlings, so that the men from each camp cover a strip about 400 feet wide by one and one-half to one and three-quarters miles long.

The plants used are mainly white pine and yellow pine from the government nursery at Houghton, Mont., where young trees are raised at the rate of several million a year. The crews on the Little North Fork are setting out 100,000 plants per day, thus reforesting about 140 acres daily. A GOOD FOOT RULE

USE SHELLEY'S CORN REMEDY

Jones' interest in his business is not the interest of the professional money maker, and I would remind you Terise, that an "amateur" is a man who is in love with his work. Shelley's Corn Remedy eases the feet and gives absolute comfort. It removes the friction caused by Dame Fashion's freaky shoes. It is a fine corn cure and no mistake. You will prize a trial bottle at 25 cents.

City Brevities

Today's weather: Fair and slightly warmer. Yesterday's temperature: Seven a. m. at degrees; 44; 7 p. m., 45. Highest, 46; lowest, 40.

The Boy Scouts here will start at 9:30 o'clock this morning.

Max Reynolds went to Munising yesterday afternoon on a business trip.

Dr. S. M. James left yesterday afternoon for Saginaw, on a brief business trip.

Philo P. Chase, of Ishpeming, was among Marquette's business callers yesterday.

Mrs. LaVerne Sees, of Negaunee, spent yesterday in Marquette with friends.

Mrs. A. Beneshok is expected to arrive in Marquette today from Gladstone, for a visit with her daughter, Miss Ruth.

Thomas D. Kearney, of Ann Arbor, a member of the state tax commission, was a Marquette business caller yesterday.

Shelley B. Jones has returned from the lower peninsula, where he has been on a business trip for a number of days.

Mrs. Charles Brennan, of the Soo, will arrive in the city today for a visit here as the guest of Miss Mary Cleary, Champion street.

Miss Marian Cleary, of this city, and a Mr. McQuade, of Grand Rapids, will be married in Marquette on June 24, Midsummer's day.

Peter Scholtus leaves this morning for Newberry to attend the wedding of his brother, Bert Scholtus, to Miss Lillian M. Liberty, of Newberry.

Miss Gladys Curtis, a graduate of the Normal here and a teacher in the Crystal Falls schools, is a visitor in Marquette for several days, on her way to her home in the lower peninsula.

Mrs. W. J. Bloy, of Laurium, will arrive in Marquette today, to be present at the Normal commencement exercises. Her daughter, Miss Ruth, is a member of the graduating class.

Tracy Kaye, son of Professor J. H. Kaye, arrived in Marquette last evening from Freda, Mich., in the copper country, where he has been teaching school for the past year.

Arthur Wilson and Victor Bergdahl have arrived here from Crosby, Texas, and will visit here for a short time. They now own farms in Texas and are making their homes there.

The Marquette City & Presque Isle railway has commenced to raise its tracks on North Front street from Michigan to Ohio street. The worn rails will be replaced with new.

Mrs. Ed Quarters, who has been confined to a hospital in Laurium for the last four weeks, is recovering and is now staying at the home of her mother, Mrs. Charles Rotz, of Laurium. She will return to her home in this city as soon as fully recovered.

The auditing committee of the county board of supervisors held a meeting at the courthouse yesterday morning. The Morgan Heights sanitarium committee was also in session. The June meeting of the board will be held next Monday morning at 11 o'clock, when the board will give consideration to tax equalization matters.

At the Grand—There will be an eight-act matinee at the Grand theater this afternoon at 2:30 o'clock. "Broncho Billy and the Rattler," an Essanay Western comedy, will be the feature of the program.

Charged With Serious Offense—Eino Peltto, a Nestoria young man, was brought to the county jail yesterday morning. He is charged with a serious statutory offense. He will be given a hearing before Judge S. E. Byrne the early part of next week.

District Court Opens July 14—The July term of the United States district court will convene at the Soo July 14. The term promises to be an unusually short one, as few cases have been set for trial. It is expected that the court will be in session only a few days.

Are Making Repairs—Ed Quarters, head janitor of the Marquette public schools, has commenced the repairing of the school buildings which is always done during the summer vacation. The cleaning and renovating of the buildings will be begun within a short time.

President Kaye Entertained—Professor J. H. Kaye, president of the Northern State Normal school, entertained the members of the 1914 graduating class at his home last evening. The president's reception for the Seniors has been conducted annually for a number of years. The entire membership of the class was present last night. The home was prettily decorated for the occasion.

Baseball Tomorrow—The Maas mine team, Negaunee, and a strong team of Marquette amateurs will play a game of baseball at the Fair grounds, beginning tomorrow afternoon at 2:30 o'clock. The Maas line up as follows: Catcher, Short, pitcher, Quinn; short-stop, Robare; first base, Berry; second, Williams; third, Fletcher; left field, Corbett; right field, Lawrence; center field, Gauthier.

Stucco Work Being Done—The stucco work, which will complete the finishing of Marquette's new fire hall, corner of Front and Prospect streets, is now being done, and will be finished within the next few days, it is expected. Only the south side of the structure now remains to be done. The stucco is of a dark cream color, and the finish is somewhat similar to that of Guild Hall. It covers the second story and the tower of the building. The first story is of brick construction.

Normal Students Leave—Yesterday marked the formal closing of the spring term of the Normal school for the members of the Junior class. The Seniors will be here until next Wednesday. Among those who departed for their homes yesterday were the Misses Mildred Anderson, Myrtle Caverne, Jane Doyle, Brighetta Murphy, Reginald Johnson, Edie Swanson, Jamie Yoki, Calumet; Miss Kathryn Tennant, Lake Linden; Misses Millicent Pascoe and Ella Gray, Chassell; Miss Mary Jane Hampton, Iron Mountain; Miss Mollie Shea, Atlantic mine; and Miss Florence Palmer, Calumet.

Lower State Notes

KALAMAZOO—Victor L. Palmer, official of the defunct Michigan Buggy company, recently sentenced to two years in penitentiary, for using the mails to defraud, by Federal Judge C. W. Sessions, and under indictment for numerous offenses in the circuit court of Kalamazoo, has been surrendered by his bondsman, George W. Palmer, of Wasco, a relative. Judge Stewart permitted Palmer to go on his own recognizance for trial which will probably take place after Palmer has served out the sentence in the federal prison.

ANN ARBOR—More than 44,000,000 red cross Christmas seals were sold last December, according to a report issued by The National Association for the Study and Prevention of Tuberculosis, and the American Red Cross. In this way \$440,000 was netted for anti tuberculosis work in various parts of the United States. The sale in 1913 is a gain of 4,000,000 seals over 1912, or 10 per cent. It is hoped that this year the \$600,000 mark will be reached. The seal design for 1914 has been selected and orders for the printing of 10,000,000 seals have been placed.

BENTON HARBOR—Nearly lake waters took the first victim of the season at Paw Paw lake, north of here, when Milo Kiss of Chicago was drowned. The canoe in which he and another boy were riding tipped over and Kiss sank almost immediately. The companion was rescued. The body has not been recovered. The opening of the resort season at this lake has been marked by tragedy. A week ago the body of a young man who had committed suicide, was found on the shore. His identity has not yet been established.

BAY CITY—Atanas Oley, 24 years old, of the firm of Isaac Oley & Co., liquor dealers, of this city, was instantly killed, and Felix Payant, 20, of Faribault, Minn., was probably fatally injured when an automobile in which they were riding several miles north of Bay City skidded and turned over in a ditch. Oley was caught under the car as it rolled over and crushed beyond recognition. He was taken to have been married next week to Miss Mary Payant, sister of the injured man, Payant, who is a school teacher, was visiting in this city.

LANSING—Over 2,500 signatures to Ferris petitions for governor have already been forwarded to headquarters here. Many of them contain the names of more Republicans than Democrats. In one case a petition with 30 signatures contained 20 Republicans. Many personal letters are coming to State Chairman Shields in which more petitions are asked for. Many are writing that they filled their petitions in a few minutes. One man writing that he attended a farmers' club meeting, and all the voters present, including ten Republicans, signed. The petitions indicate that the governor has a strong following in the upper peninsula and in the city of Detroit.

HOLLAND—With more than a hundred persons present, the annual banquet of the Hope college alumni was held in the new home of the Women's Literary club. The banquet was one of the most enjoyable ever held. Gerrit J. Diekmann acted as toastmaster. Most prominent among the speakers was Chase Osborn, former governor of Michigan. His subject was "The Boer in South Africa." Mr. Osborn recently returned from a world tour, and on this account his remarks had an increased interest. Others were J. J. Althois, who spoke in behalf of this year's graduating class; Prof. H. E. Decker, who spoke to the alumni and Prof. Milton J. Hoffman for the college.

REED CITY—Where is Merrill Mills, aged 18, of Lincoln township? This is the puzzling question since the thorough dragging of Ealey lake and the services of a professional diver have brought no results. A week ago an upturned boat that young Mills had used was found in the lake and it was supposed he was accidentally drowned. But since the dead body has not been recovered the opinion seems to be that he has run away. A chum who had worked with Merrill near Ashton claims he saw him go through Grand Rapids the day after he disappeared. The distracted mother has been under the doctor's care the past week and her condition has been critical. She has appealed to the papers to help find the missing son.

LANSING—Whether Alderman Thomas Gliman of Detroit, who was indicted by a grand jury, will be tried in Wayne county or whether Judge Phelan's action in ordering a change of venue to Monroe county, will be sustained is a question that is now before the supreme court. Attorney James McNamara representing the indicted alderman, filed a brief with the supreme court in support of his application for a writ of mandamus to compel Judge Phelan to vacate his order in which he decreed that the case should be tried in Monroe county. Prosecuting Attorney Allan H. Frazer, of Wayne county, did not file a brief and the case was not argued before the supreme court, as Frazer says he is willing to try Gliman either in Monroe or Wayne counties.

BATTLE CREEK—For over a year the Sanitarium, which is strictly vegetarian absolutely opposed to coffee, and death on the use of stimulants in any form, has been nettled by the presence of a little cafe, known as the "Red Onion," which tempted its hungry guest directly across the street by its odors of beefsteak, coffee, and the fragrance of Havanas. No power seemed able to regard the place as a life saving station for "San" patients on a diet. The sanitarium has just completed a deal by which Gammenthaler gets \$30,000 for property. The "Red Onion," originally an old street car, but now much enlarged, will be razed and the grounds parked. Gammenthaler, a former sanitarium employe, had a hard time raking up \$24,000 to buy the property, a year ago, but now he has a profit of \$12,000 to bank. Furthermore, he insisted, in selling, that the sanitarium furnish him a building site, in less "teasing" locality, and the sanitarium did so.

O. E. Hager, of the Landscape Department of Will O. Doolittle, Munising, is in Marquette for the summer. Those desiring any work such as pruning or treatment of trees, shrubbery and hedges, grading, lawn work, etc., can leave orders with E. R. Taub, the florist, and they will receive attention. 6-18-14.

The popularity of the product of the Marquette City Dairy is due to its excellent herd of cattle and modern dairy equipment. 6-15-14

TO KEEP BUSINESS

FOR THE NEXT TWO WEEKS

We Offer Tremendous Reductions All Over the Store

Beginning this morning one of the most sweeping price reduction sales will be opened at the Hub. We have priced every article so it will be converted into cash in a short time. We want the cash to buy our fall and winter stock. We buy direct from the manufacturers thus saving you the wholesaler's profit. To do this we must have cash. We are now offering you goods at such a figure that purchase will resolve itself into an investment—not an expenditure. Our spring and summer goods are new and up-to-date. We do not carry merchandise over from one season to another. Come today expecting big bargains—it does not matter if you do not need a thing—come and look anyway.

Boys' Suits

We use the same care in selecting our boys' suits as in the men's garments. That's why our boys clothing always looks better. Try it and see.

Boys' \$4.00 suits in brown and grey mixtures made in plain or Norfolk style, full peg pants, a strong serviceable suit for vacation. A big humping value at only **\$2.38**

Boys' Norfolk suits in all popular shades worn this season. Here is a saving seldom offered you. Supply limited. While they last these \$6.00 values will be sacrificed at each only **\$3.48**

Boys' \$6.50 blue serge and fine pencil stripes in blue. In Norfolk and plain cuts. We want them to hump for themselves. Each only **\$4.48**

First Match Game of Baseball on Record Took Place at Hoboken, New Jersey, Sixty-Eight years Ago. Now the Sport Is Played in Many a Land

Sixty-eight years ago yesterday the first match game of baseball on record was played. The game was between the Knickerbocker and New York Baseball clubs in the Elysian fields at Hoboken, N. J. The players were members of the leading New York families, and engaged in the sport as a pastime. A levy of town belles in the group of spectators made the occasion seem like a social function. The field was marked off into the baseball diamond so familiar to-day. None of the players wore gloves, masks, or protectors. It was the custom for the batter to say where he wanted the ball thrown. The pitcher, or "giver" as he was then called, delivered it with an underhand toss, according to the rules of the game. It was thought that the pitcher had an unfair advantage over the batter when he threw the ball overhand, hence the rule. The catcher stood at a safe distance behind the batter, ready to catch the ball on the bound. The rules dictated that if he caught the third strike on the first bound the batter was out; otherwise he must throw to first

base to put him out. Likewise, the fielders, or "scouts," were permitted to catch hits on the first bound. Three outs retired the side. The team that first scored 21 runs, or "aces," regardless of the number of innings played, was accounted the winner. After the game, the players resorted to one of the famous taverns of the day where the victors had a dinner at the expense of the vanquished.

—NOW—

To-day baseball holds the nation in its grip. Presidents, statesmen, millionaires, and bankers forsake their desks to attend the games. More than thirty-million fans pay more than \$10,000,000 every season to watch the five thousand professional ball players making up the more than fifty major and minor leagues in the United States. These athletes combined earn salaries amounting to more than \$6,000,000 a season—some star players are said to receive more than \$15,000 for six months' work. The outcome of games is awaited

throughout the country with deeper interest than many of the grave problems that confront the government. There is hardly a school, a university or a social club in the country that is not represented at least once on the baseball diamond during the year. There are many baseball nines made up of girls and women who can play nearly as well as their brother-players in many minor leagues. Baseball is not only the national game to-day; it is rapidly becoming international. Wherever the United States flag flies, in the Philippines, Hawaii, Porto Rico, or Alaska, there are rabid baseball fans and professional players. In the shade of Japan's famous cherry trees, native university students are "lining 'em out." Co-incident with the adoption of the principles of a republic, the Chinese also adopted the American game of baseball. And now comes the news that the French Athletic association has decided to adopt baseball as a national sport. In fact, the sun never sets on baseball's kingdom.

YESTERDAY'S GAMES.

AMERICAN LEAGUE.
Detroit, 3; Washington, 2.
Detroit, June 19.—In the tenth inning of today's game, with one out, second out and Bush on third base, Boehling purposely passed Cobb and Crawford. Veach singled, and Bush scored the run that gave Detroit its second straight victory over Washington. Cobb had a perfect day at bat, with three singles and two passes in five times up.
Score: R. H. E.
Washington 010001000—1 9 0
Detroit 0000100101—3 10 3
Batteries: Boehling and Henry; Dabuss, Main, Coveleskie and Stange and Baker. Two-base hit—Smith, Washington.

St. Louis, 6; Philadelphia, 2.
St. Louis, June 19.—After Philadelphia scored two runs in the first today, St. Louis came back and, by bunching five hits with errors and a base on balls, scored five runs and was never headed, the home team winning.
Score: R. H. E.
Philadelphia 200000000—2 6 3
St. Louis 50001007—6 9 1
Batteries: Wyckoff, Bressler and Schang; Weiland and Agnew. Two-base hits—Baker, Philadelphia; Shotten, Howard and Leary, St. Louis.

Chicago, 3; Boston, 2.
Chicago, June 19.—Chicago won from Boston here today. Benz held the visitors to five hits, while R. Collins was hit hard.
Score: R. H. E.
Boston 100100000—2 5 1
Chicago 10010010—3 11 2
Batteries: R. Collins, Bedient and Cartright and Thomas; Benz and Schalk. Two-base hit—Hooper, Boston. Three-base hit—Speaker, Boston.
Cleveland-New York postponed; rain.

NATIONAL LEAGUE.
New York, 6; Cincinnati, 0.
New York, June 19.—Herzog, former third baseman of the New York team, made his first appearance today as manager of the Cincinnati team and received a great ovation. His team was easily shut out by the champions. Cincinnati made a poor impression, piling up seven errors.
Score: R. H. E.
Cincinnati 000000000—0 5 7
New York 01003002—6 9 0
Batteries: Ames, Koestner and Clarke; Marquard and Meyers. Two-base hits—Clarke and Koestner, Cincinnati.
Chicago, 8; Philadelphia, 7.
Philadelphia, June 19.—A poorly

played game here today was won by Chicago in the tenth. In that inning, Leach led off with a home run and Good scored on his single and steal of second and Irelan's fumble of Zimmerman's grounder.
Score: R. H. E.
Chicago 0120020002—8 11 3
Philadelphia 0300021001—7 7 3
Batteries: Zabel, Lavender, Cheney and Neelham; Jacobs, Raxey, Mayer and Burns and Killifer. Two-base hits—Good and Zimmerman, Chicago. Home runs—Becker, Philadelphia; Leach, Chicago.

Boston, 7; St. Louis, 5.
Boston, June 19.—Boston won from St. Louis today in a game which lasted two hours and forty-seven minutes, a record for the season here. The visitors developed a batting streak in the eighth and two homers, a triple and three singles added four tallies, for the while overcoming Boston's lead.
Score: R. H. E.
St. Louis 000001040—5 12 1
Boston 00001024—7 13 2
Batteries: Griner, Sallee and Snyder; Rudolph, James and Whaling. Two-base hits—Whaling and Maraville, Boston; Magee, St. Louis. Three-base hits—Gilbert, Boston; Beck, St. Louis. Home runs—Miller and Wilson, St. Louis.

FEDERAL LEAGUE.
Kansas City, 5; Baltimore, 4.
Kansas City, June 19.—Kansas City made it three out of four by winning today's game from Baltimore. Gilmore's double, with Chadbourn on second, scored the winning run in the ninth.
Score: R. H. E.
Baltimore 003000100—4 13 1
Kansas City 101002001—5 12 1
Batteries: Suggs, Smith and Jacklitsch; E. Packard, Stone and Easterly.

Brooklyn, 8; St. Louis, 6.
St. Louis, June 19.—Brooklyn took its third victory from St. Louis here today. Evans' home run, with the bases full, gave the visitors the lead in the third.
Score: R. H. E.
Brooklyn 00410002—8 12 3
St. Louis 001014000—6 9 2
Batteries: Marion and Owens; Davemport, Herbert and Simon.
Indianapolis-Buffalo game postponed; rain. Others not scheduled.

AMERICAN ASSOCIATION.
Kansas City, 5; Louisville, 9.
Milwaukee, 3; Indianapolis, 2.
St. Paul, 1; Cleveland, 2.
Minneapolis, 4; Columbus, 2.

Current Chatter of the Diamond and the Field.

"Cy" Farrell, first baseman of the University of Notre Dame team, has been signed by the Chicago Americans.

The Federal league will give a \$1,000 automobile to each player on the winning team, according to a report from Chicago.

Fritz Maisel, of the Yankees is giving City Milan, the Washington star, a tussle for the base-stealing honors in the American league.

Twenty-two men in the National league are batting for 300 or better, while the American league can show only a dozen batsmen in the 300 class.

Joe Jackson, Nap slinger, faces a month's inactivity. The club physician has notified him that he must get to bed, as he is suffering with water on the knee.

The Brooklyn National league club has released Pitcher Bull Wagner to the Toronto club of the International league. Wagner joined the Brooklynians from New Orleans in 1912.

Manager Herzog is getting disgusted with the work of Johnny Bates in the outfield. He is willing to concede that Joe Tinker had Bates sized up about right last year.

Charles Herzog of the Reds wants to get Dode Paskert of the Phillies for the Cincinnati team. Herzog believes that with the fleet-footed Paskert he could win the National league flag.

The attendance at the Polo grounds this year has not fallen off, so there does not seem to be any truth in the reports this is a bad year for the pastime so far as New York is concerned.

John M. Ward, business manager of the Brookfields, when asked regarding the report that Eddie Collins, the Philadelphia Athletics' second sacker, had come to terms with his club, admitted that an

offer had been made to Collins, but that Collins had refused to accept it. Ward said negotiations with Collins were at an end.

Catcher Clarke is doing sterling work behind the bat for the Reds. He was considered one of the weakest backstops in the league last year.

Clark Griffith's Washington Senators had the American league pennant wrapped up nicely, and then the Browns and Naps cut the string.

The St. Louis Cardinals have purchased Second Baseman Betzel of the Columbia (S. C.) team. Betzel will report at the close of the South Atlantic league season.

Umpire Rigler is out with a boost for Charley Herzog, manager of the Cincinnati Reds. Rigler says that Charley uses the best judgment in working pitchers he ever saw a young manager display.

The Boston Braves are first in fielding and last in batting, according to the National league averages. Evidently Evers and Maraville are doing the fielding for the Braves, while Hub Perdue takes care of the batting.

Walter Johnson, premier pitcher of baseball, denies absolutely that he has received a definite offer from the Federal league. He added that he would stick with the American league. "I'm satisfied," said Clark Griffith's star. "It is true that the Federals have asked me to consider them in 1915, but I have denied them this. I am going to remain with the Senators."

Battle Creek has a new third sacker. His name is Hagel, formerly with Ishpeming. Hagel played last year with Moose Jaw, pennant winners in the Western Canadian league, and late in the season switched to Regina. His record last year was good. In seventy-five

games he was at bat 249 times, got 63 hits, 18 stolen bases and 12 sacrifice hits. His batting average was .293.

Frank Davis, outfielder of the St. Joseph Western league club, has been sold to the Terre Haute club of the Central league.

Walker has won seven out of eight games pitched for Ludington, three of them by the shutout route. Slaft Warner has won seven out of eight for Cadillac.

Michigan State league fans are proud of Abe Bowman's pitching performance against Washington for Cleveland in holding the Nationals scoreless while the Naps scored four runs off the delivery of the mighty Walter Johnson. Abe pitched fine ball for Muskegon two years ago.

George McBride has never played better ball during his career with the Nationals than he is now playing. His fielding is nothing short of remarkable and he is the man who holds the team together and makes its great defensive work possible. To have him out of the line-up would be the severest blow that could be dealt the Senators and that, too, notwithstanding the fact that he is far from being a hard hitter. Just how many bases would be stolen on the catchers if it were not for the ability of McBride to handle all sorts of throws and get the ball on the runner is hard to estimate. The catchers are handicapped by reason of the failure of several of Griffith's pitchers properly to hold the runners on the bases. This forces them to throw without steadying themselves, and the heaves, as a result, are not always to the mark. But with McBride covering that matters not. Most of the times he gets the ball with his gloved hand and with the same motion touches the runner.

JUVENILE BALL LEAGUE.

Boys of the Y. M. C. A. Will Play Series of Games.

S. Adler, boys' secretary of the Young Men's Christian association, has arranged a schedule of baseball games for teams composed of boys holding membership in the organization. The first games were played this week, when the Wolverines defeated the Cleveland Cubs by a score of eleven to seven, the Salisbury nine won from the Strawberry Hill team by a score of 14 to 6 and the Cleveland Cubs defeated the New York Tigers, 16 to 2.

Rivals Issue Challenge.

The Rivals baseball team challenges any amateur nine in the upper peninsula for games either here or out of the city. The members of the team have played together for several seasons and they play excellent ball. They are: Harper, pitcher; Sam Harper, catcher; Lawrence Gunnville, first base; Carl Hall, second base; Fisher, third base; Henry Hall, shortstop; Fred Jambon, right field; Ralph Chase, center field; A. Tommila, left field.

W. Thurlall the optometrist is now in Ishpeming at the Nelson House ready to serve his many patrons. If you need glasses call and see him or telephone for private calls, your eyes carefully and scientifically tested and glasses guaranteed to fit.

TAXES PROBABLY WILL BE HIGHER

Much Interest Shown in Work of Board of Review and State Tax Commission.

If the state, county and city tax levies for 1915 are as high as they were this year, Ishpeming property owners will pay a higher tax in December, 1915, than they did in December this year, as a result of the reductions in the mine values allowed by the state tax commission. Mayor Barnett yesterday said that there is some hope that the state and county taxes will be lower than a year ago. As for the city appropriations, it is impossible to tell at this time just what they will be.

That the agents of the tax commission were careless in their work last year is evident from the fact that a number of property owners' names were not placed on the roll at all. The omissions were discovered this week when the property owners called to learn the valuations on their property. They informed the board that they did not have to pay any taxes last year. Practically all of them called at the bank in either December or January and were informed that their names were not on the roll.

According to the valuations placed on the properties by the board of review, the omissions will run between \$50,000 and \$60,000. The taxpayers whose properties were not assessed last year cannot be compelled to pay the taxes they escaped, so that those who were lucky enough to be overlooked by the commission are that much ahead.

Roll Totals Over \$14,000,000.

The clerks of the board of review finished totaling the tax roll yesterday. After allowing for the deductions granted the mines and adding the assessed valuations of the real estate properties omitted last year, the roll totaled \$14,869,014, compared with \$15,560,070 last year, a difference of \$691,056.

The assessed value of real estate is \$11,282,991, and the personal property assessment is \$3,149,923. The valuation of real estate last year was \$12,248,129, and personal property \$3,311,950.

The valuation on the Pittsburg & Lake Angeline iron company's Lake Angeline property has been reduced from \$128,500 on real estate to \$83,048, and the value of the company's dwellings has been reduced from \$24,200 to \$16,500, making the company's valuation \$99,548.

The valuation on the Cleveland-Cliffs iron company's Cliff Shafts property, including mine and buildings, is \$2,417,500; the valuation on the Salisbury mine and buildings is \$63,000; on the Cleveland Lake mine, including mines, buildings, etc., \$2,553,220.

The Oliver Iron Mining company will be assessed \$2,504,180 on its Section 16 property, and \$1,819,849 on the Hard Ore and Hematite mines, including buildings, etc.

The tax rate in Ishpeming last year was \$1.69, not \$2.69, as has been stated.

IRON COUNTRY WILL SEND MANY DELEGATES

The Ishpeming and Negaunee Italian Lodges affiliated with the Upper Peninsula Italian-American Federation have sent word to Calumet, where the annual convention is to be held, that they will be represented by a large delegation. Plans have practically been completed for the convention, the dates of which are June 25, 26 and 27. The delegates from Ishpeming and Negaunee will leave Wednesday afternoon at 4:20 o'clock, and will arrive in Calumet that evening. They will be met at the Calumet station by the Calumet & Hecla band and by hundreds of the Calumet Italians, who will escort them to the Italian hall where a supper will be served.

The first two days of the convention will be given over exclusively to the consideration of business matters, a number of which are slated to come up. Practically all of the organizations affiliated with the federation combine social and insurance features, and it is probable that some attention will be given to insurance problems. Several amendments to the by-laws will also receive the consideration of the delegates. The business sessions of the convention will be held in the Italian hall in Red Jacket and the reunion has been set for the last day at the Calumet & Hecla park.

Thursday, June 25, will be given over to business matters entirely, and in the evening the delegates will visit with their copper country friends. The evening of the following day an elaborate banquet will be served in the Italian hall, at which toasts will be responded to by some of the best known Italian speakers in the upper peninsula.

Saturday, June 27, will be the big day of the gathering. With all business disposed of, the delegates and copper country members will enjoy a reunion at the Calumet & Hecla park. Some of the iron country delegates will not leave

WILL REPRESENT HIGH SCHOOL.

Winifred Wahlman and Ralph Chase, students of the Ishpeming High school, will leave next week to attend the state high school camp meeting at Torch lake, in the lower peninsula. It is expected that several other upper peninsula boys will also attend. The camp will open on Friday.

CAMPAIGN A SUCCESS.

In all 152 registrations have been received at the Young Men's Christian as-

for the copper country until Saturday. The eight Calumet societies and visitors from all parts of the upper peninsula will gather at the Italian hall at 9 o'clock in the morning, and headed by the Calumet & Hecla and Laurium bands, will proceed through the streets of Red Jacket to the park. During the afternoon an evening music for dancing will be provided by the Calumet & Hecla band. Both dinner and supper will be served at the park.

The Upper Peninsula Italian-American Federation was formed at Negaunee six years ago. Its primary object is to bring the Italians of the upper peninsula together for an annual reunion and outing.

Winifred Wahlman and Ralph Chase, students of the Ishpeming High school, will leave next week to attend the state high school camp meeting at Torch lake, in the lower peninsula. It is expected that several other upper peninsula boys will also attend. The camp will open on Friday.

In all 152 registrations have been received at the Young Men's Christian as-

SOUTH MAIN ST. FASHION SUIT CO. ISHPEMING, MICH.

TO SPEAK AT BIG MEETING.

Ishpeming Superintendent of Schools Slated for Address at Convention.

E. E. Scribner, superintendent of the Ishpeming public schools, will leave July 3 for St. Paul to attend the fifty-second annual meeting of the National Educational association. Monday afternoon, July 6, he will address the convention on "Economy and Education".

Mr. Scribner is a member of the board of directors, and will attend a meeting of the executive council in St. Paul on the 4th. It is expected that one of the members of the Ishpeming board of education will also attend the meeting.

CHILDREN'S DAY PROGRAM.

Young People of Salisbury M. E. Church Will Entertain Sunday Evening.

The children's day program for tomorrow evening, commencing at 7 o'clock, in the Salisbury Methodist Episcopal church will consist of several excellent numbers by the children, who some of the older people will also take part. Rev. Lewis Keast, the pastor, will give the address. The program, which is entitled "The Army Victorious," will be as follows:

- Song—The Victorious Army.
- Prayer—Wm. Cowley.
- Song—Shout the Battle-cry, Scripture Reading—James Roberts.
- Primary Song—We are Little Soldiers.
- Recitation—Our flag.
- Song—Onward—Marching Onward.
- Salute the Flag—The School.
- Song—Lord of All.
- Salute—The Christian Flag—The School.
- Reading—The King's Soldiers.
- Song—The Ranks of Light.
- Recitation—The Sword of the Spirit.
- Recitation—Loyalty.
- Song—Fly Your Colors.
- Address—Rev. Lewis Keast.
- Recitation—Will You Help? Collection.
- Recitation—Beverly.
- Solo—Clifford Finch.
- Song—Raise the Shining Banner.
- Benediction—James Grenfell.

CARD OF THANKS.

We take this opportunity of extending our sincere thanks to the many kind friends who extended their sympathy during the illness and following the death of our beloved wife and mother. We all wish to thank the I. O. O. F. for their floral offering, and also the Cigar Makers' union.

J. M. SMITH and family.

Enter Mrs. Voelker's vocal and sight reading classes and prepare for entrance to Normal music school in the fall.

Ishpeming Department

FIRST AID CONTESTS AT MINING MEETING

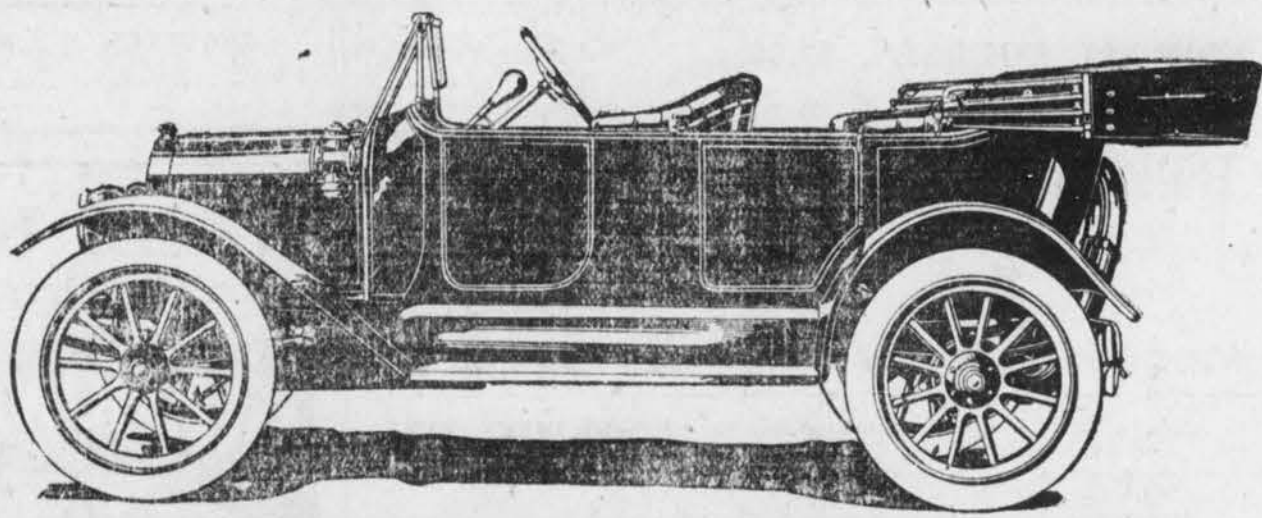

Marquette County Teams Will Participate in Contests the Latter Part of August.

The rules that will govern the first aid contests that will be a feature of the Lake Superior Mining Institute's annual meeting to be held here the latter part of August, have been outlined by the committee, composed of Charles E. Lawrence, chairman, of Palatka; D. N. Sutherland of Ironwood, William Conibear of Ishpeming, W. H. Schacht of Painesdale and M. H. Godfrey of Virginia.

aid teams on the Marquette range will participate in the contest, the committee's announcement, which is as follows, is of particular interest: "A first aid contest and a mine rescue exhibition will be held under the auspices of the Lake Superior Mining Institute at its annual meeting, Ishpeming, Michigan, the date of which will be announced later. The first aid contest will be open to teams representing Lake Superior mining interests and the rescue exhibition will be given by teams from Marquette county. Cash prizes and trophies will be presented to the teams exhibiting the most skill. Judges will be selected from surgeons and first aid men, who are not identified with mining companies. A list of awards and field events will be announced at a later date. "The committee on the practice for the prevention of accidents is in charge of the contest. The members of this committee are Chas. E. Lawrence, chairman, Palatka; D. E. Sutherland, Iron-

wood; Wm. Conibear, Ishpeming; W. H. Schacht, Painesdale, and M. H. Godfrey, Virginia, Minn. "The following rules will be in effect: ENTRANCE RULES. "All entries shall close July 20th, and must be filed with William Conibear, Ishpeming. "A team is composed of five men, including a captain. "Each team will select its own patient in addition to the five operating members thereof, or will have a mine present selected for them. "All members of a team shall be bona fide mine workers. "The teams will bring their own first aid material, including bandages, splints, blankets, stretchers, etc., and will not be allowed to leave the patient to secure material. CONTEST RULES. "The captain will select the patient and designate the member or members of the team to perform the event. "The captain will control his team in their field work by giving audible commands. "The captain may select himself as one of the members who will perform the event. "The captain or other members will not prompt the person performing the

event unless he is one of the performers. This will not apply to full team events. "At the conclusion of any event, the captain will raise his right hand and announce his team number. The team will remain at post until relieved by the judges. "The triangular bandage will be the standard used in the contests, but roller bandages may be used and equal credit will be given for their proper use as with the triangular bandages. "All splints must be prepared on the field for each event requiring their use. Specially designed splints may be used, but they must be assembled during the time of each event requiring their use. "No practicing will be allowed on the field before the beginning of the contest. "The teams will be numbered consecutively, beginning at No. 1, and they will occupy their consecutive positions on the field. "Each judge will mark the team number, event, and discount for each team judged, sign his name and deliver, to the recorder, his record. "The recorder will foot up the discounts and mark points made by each team in each event. The total points will be divided by the number of events and the quotient will be the average for each team for the whole contest. "Time will not be an element unless the team or men performing run over the allotted time or fail to give treatment properly. All events shall commence and be finished at the sounding of a gong. "All exceptions to these rules must be made to the committee on the practice for the prevention of accidents, Mr. Charles E. Lawrence, chairman, Palatka, not later than thirty days prior to the day of the contest. The decision of the committee will be final. DISCOUNTS FOR JUDGING CONTEST. "Not doing the most important thing first, 5 points; failure of captain to command properly, 2; slowness in work and lack of attention, 4; failure to entirely cover the wound or being unable to give location of injury, 4; ineffective artificial respiration, 10; splint improperly padded or applied, 2; tight, loose, or improperly applied bandage, 6; insecure or granny knot, 5; unclear first-aid material, 5; failure to have on hand sufficient and proper material to complete a dressing, 5; lack of neatness, 2; awkward handling of patient, 5; assistance lent by patient, 5; tourniquet improperly applied, 5; failure to stop bleeding, 5; not treating shock, 5; failure to be aseptic, 10; improper treatment, 10; failure to finish in the allotted time should be discounted one point for each minute over time."

The Maxwell \$750 Car

More Automobile for the Money Than You'll Find in Many Cars Selling for \$1000 or More.

In Brief!

A full 5-passenger car; 4-cylinder, 25 horsepower motor, cone clutch; sliding gear transmission; 3 floating rear axle; left drive; center control; 56 inch tread; 103 inch wheel base; 30x3 1/2 inch tires, front and rear; actual weight 1685 lbs.

Or to Go Into Detail—

Motor

Motor cast en bloc; 3 3/4 inch bore; 4 1/2 inch stroke; adjustable valves completely enclosed. Extremely large crank shaft for this size motor; all bearings of bronze with babbit lining.

Simms high-tension magneto furnishes spark direct to plugs. No coil, therefore no vibrators to get out of order. Zephyr carburetor—Atomizer type; no springs to get out of adjustment; Ideal hot and cold air supply controlled from dash to suit starting and running, no matter what the temperature.

Splash lubrication system, made positive in its action by slow moving plunger pump!

Transmission

Selective type transmission—three speeds forward and one reverse. Main drive shaft has Hyatt roller bearings at front end; bronze bushing with babbit lining at rear. Adjustable cone clutch lined with motobestos—takes hold firmly yet without sudden gripping.

Control

Left drive; 16 inch steering wheel; Gemmer irreversible steering gear! Spark and throttle control rods enclosed in steering column and operated beneath steering wheel. Foot throttle or accelerator pedal with foot rest.

Transmission control lever in center of car is operated by right hand. Emergency brake lever at right of control lever. Clutch and service brake pedals are adjustable. Contracting (service) and expanding (emergency) brakes actuate on 12 1/2 inch brake drums bolted to rear wheels. "Safety First," surely!

Springs and Frame

Easy riding is assured by four springs of semi-elliptic type. Front springs, 32 inches long; rear 40 inches long fixed at front and shackled at rear and mounted on a rocking seat.

The frame tapers from 33 7-16 inches at rear to 28 inches in front—this insures that body rests solidly its complete length.

Body and Equipment

Handsome streamline body—protected from mud and dirt by fully enclosed fenders and convex filler aprons; aluminum hood rest; beaded doors and concealed door handles; scuffing plates; tire holder; two side and one rear oil lamps; 10 1/2 inch gas head lights supplied by a Prest-O-Lite tank.

Perfectly fitted top, with envelope and Jiffy storm curtains; adjustable windshield; Stewart Speedometer; large water filler cap on radiator—or, as you must have noticed the Maxwell "25" at \$750 comes to you with complete equipment ready for driving—No extras to make the first cost really more than it would appear.

A Real Automobile for \$750

Michigan Distributors Woodward at Warren Ave., Detroit

"Quick-as-a-Wink" Hot Water

the "Pittsburg" way provides unlimited convenience in the home. Steaming hot water for the bath, shave or massage, is available any hour, day or night, instantly at a turn of the faucet. The ordinary conveniences of the toilet become luxurious when the hot water supply is unlimited; as it is with a

"Pittsburg" Automatic

gas water heater in the house. Kitchen and laundry needs are fully provided for without the discomforts of overheated stoves, or slow heating water backs. Hot water the "Pittsburg" way costs about ten cents per hundred gallons and is instantly available in bath, kitchen or laundry every hour of the 24. Let us demonstrate the "Pittsburg" for you?

MARQUETTE COUNTY GAS & ELECTRIC CO.

SPECIAL SERVICE SUNDAY. Sunday evening at the Swedish Lutheran church at 7:30 o'clock a special musical service will be held. The public is invited to attend. The program will be: Song... Congregation. Organ Prelude. Song, The Comforter... Mixed Quartet. Solo, The Lord Is My Shepherd... Miss Helga Gothe. Address... Rev. Fred Wyman. Song, O Taste and See... William Reed. Solo, Hear Us O Father... Arvid Hult. Song, The King of Kings... Male Quartet. Song, Jehovah... Bierly Congregation. Offering... Mixed Quartet. Song... Benediction... Mixed Quartet.

KATHLYN PICTURES TODAY. The pictures in the eleventh series of the Adventures of Kathlyn will be shown today at the Ishpeming theater. An eight-act matinee will be given at 10 a. m., and two shows will be given in the afternoon, the first starting at 1:30 and the second at 2:45. The pictures this morning will be "Whiffles Picks a Partner," "Pathe-play comedy; 'The Root of Evil,' two-rolled Lubin drama; 'The Fire Jugglers,' a Selig drama; 'The Warrior's Maid,' two-rolled 'Adventures of Kathlyn,' 'Sophie's Birthday Party,' Essanay comedy, and 'The Bondage of Fear,' Biograph comedy. Marshall, Dean and Reeves, the three clever boys, will close their engagement this evening.

ISHPEMING IN BRIEF. Mrs. A. F. Matland and Miss Myrtle Mitchell will serve at the Golf club today. Mrs. James Paul and two sons, of Atlantic, are visiting Thomas Nesbitt and family. The hours for masses at St. John's church tomorrow will be 7 and 9 o'clock, instead of 8 and 10 o'clock. The members of the Salisbury Sunday School society will hold their annual picnic next Wednesday, Midsummer day. Byrns Insurance agency has received a Mitchell six cylinder passenger car, which has been sold to Dr. W. S. Piottet. The Ishpeming baseball team will play at Gladstone today and tomorrow. The Escanaba and Negaunee teams will meet at the Union park. The funeral of the late Mrs. Jesse Bieble Dave will be held tomorrow afternoon at 2 o'clock, with services at Grace Episcopal church. R. J. Wise, secretary of the Young Men's Christian association, who has been absent from the city, is expected to arrive home on the 20th. The various mercantile establishments of Ishpeming will close next Wednesday, Midsummer Day, at 10 o'clock a. m. for the remainder of the day. There will be no morning delivery. Front street, from Pine to the fire hall, and Pine street from Pearl to Front, are ready for the tar macadam. The work of paving the foundation for the macadam on Canda street is progressing rapidly. Mrs. E. M. Casper, formerly Miss Minnie Fredine of this city, and daughter, Marjorie, of Chicago, are in the city on a visit to her parents. They were accompanied by Mrs. Casper's sister, Miss Dagmar Fredine, who spent the past eight months in Chicago. The Young Men's Christian association building will be closed on the 24th. A number of the members plan to spend the day at Camp Wiskaming. George Johnson, Harry Vanhala and Einar Johnson will spend today and tomorrow at the camp. The "V" has purchased

three row boats from the Marquette County Gas & Electric company for Lake Michigan. The boats were formerly used in the pond at Cleveland park.

The funeral of the late Thomas Hickey, held yesterday morning from St. John's church, was largely attended. The obsequies were under direction of the funeral director, August Order of Hillemans. Rev. J. A. Keel, pastor of St. John's, conducted the services.

At the morning service Sunday at the First Methodist Episcopal church, Rev. J. G. Haller, the pastor, will preach the second of a series of sermons on "Inspired Characters of History," his topic being "Luther, the Inspired Reformer." The subject of his sermon in the evening will be "Jeptah."

The Cleveland-Cliffs Iron company's pay days for the first of June will be as follows: Hard Ore, Lake and Cliff-Shafts mines in this city and Republic mine next Thursday, the 25th, Salisbury and North Lake district, the 26th, Negaunee district, the 27th, and Gwin district, the 29th.

The bricklayers will finish work today on the addition to Stone Simons' block, corner Main and Division streets. Abram Blanding, who for some years past has conducted a saloon there, will move to the addition, with the entrance facing Division street. The Main street room will be rented for some other purpose.

The Lake Superior & Ishpeming Railway company is to grant excursion rates on Saturdays and Sunday throughout the summer. Trains will leave here Saturday at 3:50 p. m. and on Sunday at 7:45 a. m. Tickets will be good for the return trip on Monday. The round trip rate to Marquette will be fifty cents, and to Munising, Princeton, Birch and Big Bay, \$1.25.

Another new team of horses to be tried by the Ishpeming fire department was received in the city yesterday afternoon. This is the third team received, the other four horses having been received early in the week. The team received yesterday was bought from Walter B. Palmer of Ottawa, Ill., and the other four were purchased from Ellsworth McNair, of Chicago. The horses will be given a thorough try-out in department work. The best of them will be retained, while the others will be sold, together with the old horses.

ACTIVITY IN ROCK ISLAND IS DAY'S ONLY FEATURE IN WALL STREET MARKET. New York, June 19.—Except for the Rock Island securities, which were unusually active and covered a wide range of prices today, the market was quiet and flat. The undertone was firm, and there was a light upward tendency. Early in the day it was reported that the Rock Island reorganization plan would be announced shortly, and heavy trading in the securities of the company resulted, the dullness during the early hours.

WHEAT PRICES ARE HIGHER. Chicago, June 19.—Big export business here and higher prices at Liverpool kept the wheat market today on the advance. Closing prices follow: July wheat, 83 1/2; August, 81 1/2; July corn, 69 1/2; September, 67 1/2; standard oats, 41 1/2.

KOSKI CASE AT L'ANSE IS GIVEN TO THE JURY; PRISON TERM FOR GORSHE. L'Anse, Mich., June 19.—[Special.]—The Henry Koski case, a trial in the Baraga county circuit court on a charge of assault with intent to murder Deputy Sheriff Timothy Driscoll, went to the jury at 5 o'clock this afternoon. The jury had not reported at 10 o'clock. Judge O'Brien this afternoon sentenced Striker Frank Gorshe, convicted of assaulting Deputy Sheriff Barker, to a prison term of one to ten years. When brought up for sentence, Gorshe denied shooting Barker. It is learned that this man had been in the United States only three months before the outbreak of the strike. He joined the union as soon as he struck the copper country, but had never worked a day in the district.

ROCK ISLAND COMMITTEES ADOPT REORGANIZATION PLAN CALLING FOR \$15 ASSESSMENT. New York, June 19.—Committees representing the collateral trust bonds of the Chicago, Rock Island & Pacific railroad company and the committees representing the stockholders of the Rock Island company today reached a tentative agreement for the reorganization of the Rock Island system.

The plan contemplates the elimination of both holding companies, a return to the old Chicago, Rock Island & Pacific Railway company and the creation of non-emulative 7 per cent preferred stock of the railway company. This preferred stock is to be sold for cash, with part of the existing common stock of the railway company.

Both bondholders and stockholders are protected under the plan, it is stated, and \$30,000,000 new money will be obtained, this money being deemed necessary to finance the road for the next three years. Common and preferred stockholders who do not pay a proposed assessment of \$15 a share will be wiped out.

MINISTRY'S LAWYER CRITICS ARE CONVICTED IN RUSSIA; SEQUEL TO THE BELISSA CASE. St. Petersburg, June 19.—The trial of twenty-three lawyers on a charge of insubordinating the ministry of justice during the trial of Mendel' Belissa ended today in the conviction of all the defendants. Two were sentenced to eight months, and the others to six months each.

At the time of the trial the lawyers drew up a strong protest in which it was alleged that the ministry of justice and the court at Kiev, before which Belissa was tried, were inspired by racial and national enmity.

Vera Tebeberiak's Brother Arrested. Kiev, Russia, June 19.—Singaievsky, a brother of Vera Tebeberiak, who was the principal figure in the trial and acquitted last autumn of Mendel' Belissa on the charge of murdering the boy Yushinsky, was arrested today. A strict police surveillance also was established over Vera Tebeberiak, which is accepted as an indication that the long rumored proceedings are about to be instituted against her.

At the time of the Belissa trial two secret agents related how, posing as criminals anxious to screen him, they learned from Singaievsky that he, with two others, had killed Yushinsky in

Vera Tebeberiak's house, the alleged rendezvous of a gang of thieves.

VARDON FOR THE SIXTH TIME WINS THE BRITISH GOLF TITLE. Prestwick, Eng., June 19.—Harry Vardon of South Hertfordshire, Eng., today for the sixth time won the British open golf championship. Vardon's aggregate for the seventy-two holes was 206 strokes.

Francis Guinet, open champion of the United States, finished with an aggregate of 222, and was not among the first fifty competitors. John Henry Taylor, last year's winner, was second at the finish, with an aggregate of 209.

UMBRELLAS AND DISPOSITIONS. The man who sat nearest the window said to a New York Times reporter that he didn't mind the wet weather.

"It gives me a chance to see how people carry their umbrellas," he said. "I have such firm faith in my umbrella decisions that I wouldn't be afraid to choose a wife with them for a guide."

The woman on his left smiled. "I'm glad I'm not out there in the street," she said. "You'd be picking out all the kinks in my disposition along with the rest of them."

"Oh," said the man, "I sized you up a long time ago. You carry your umbrella, when it's furled, just like that woman across the street. You grab it in the middle and go forging ahead with the ends of the handle digging into the unfortunate pedestrians who go before and follow after."

"And what does that signify?" she asked.

"Alertness, activity, selfishness and independence," he said.

"U-m-m, thank you," said the woman.

"But just look at the third woman in the procession," said the man. "I pity the men folks about her house. I dare say they have to get their own breakfast about six mornings out of seven. I never yet saw a woman who dragged her umbrella along so that you could track her by the trail of its tip who was not dilatory and shiftless."

"That other woman who is hustling along, holding to the top of the umbrella handle like grim death and pointing the tip down and forward in a kind of southerly-southwesterly direction, is altogether different. She would set the world on fire if it wasn't waterlogged. I am not sure that I'd want to be married to her, either. She'd be too energetic. She'd push everything before her, and when she took a notion to clear things up a mere man would have nowhere to lay his head. What she is good for is serving on committees."

"That woman in the gray skirt is a year-and-a-half sort of person. She wants to agree with everybody and follows wherever led. Women who carry their umbrellas with the point downward and backward are always unassertive."

"But just look at that girl who spins around, swinging her umbrella around in a circle as if it were a magic wand. I like her. She's jolly and good natured and gets more pleasure out of life than ten ordinary people."

"But here," he added, "comes the most event-tempered woman of the lot. She catches her umbrella protectively under her arm as if she doesn't want even to get hurt in the crowd. That woman is thoughtful and kind."

HEALTH OFFICER STARTS CAMPAIGN

Believes That Cleanliness Will Result in Appreciable Decrease of Housefly Pest.

Dr. R. C. Main, city health officer, has outlined an active "swat the fly" campaign, which will be started at once and continued through the summer months. Just what good will result remains to be seen, but it is a noteworthy fact that campaigns of this nature have been successful in many cities.

In various ways information regarding the dangers resulting from the presence of flies will be carried into the homes. It is probable that posters will be distributed in all sections of the city.

Dr. Main, in speaking of the proposed campaign yesterday, said: "The straight road to safety lies in clearing out all the rubbish and putting it in covered receptacles, to be carted away. It is of small use to swat flies after they have got possession. Prevention is better than cure. To avoid both mosquitoes and flies drain off any stagnant water about the place. Fill up the ground dents, where mud can collect in rainy weather. Remove all old pans and pails, boxes and baskets from the backyards and sheds. Do not allow the remnants of meals, peelings or vegetable offal to remain anywhere near the door. It is necessary not only to clean up the cellars, but to see that the refuse turned out is carted away to the nuisance ground, to be burned or otherwise destroyed at once, and to shift every vestige of such heap that is within calling distance of home."

"Let every person do his share of this cleaning process and reflect that in doing so he is really safeguarding his own health and that of his family, as well as the comfort of his neighbors. There may be and are aesthetic reasons for desiring a slightly city and streets free from litter, and civic pride in a 'city beautiful' is a most laudable thing. The appeal to aid in this campaign should receive the co-operation of all residents interested in the health of the city."

DRY CONDITIONS WERE NOT GENERAL

Upper Peninsula and Northern States Were Principal Sufferers in Recent Drought.

Drought conditions during the past few days, which have caused considerable damage to crops in the upper peninsula, have not been as general over the country as has been believed to be the case. The weekly bulletin from the central office of the weather bureau at Washington shows that the upper peninsula and the northern states were the greatest sufferers, but in the central and southern portions of the country there has been an abundance of rain, too much in certain districts, in fact. Further reports of damage to hay crops in Marquette county were received yesterday. It appears that only hay on high ground was damaged to any great extent. The bureau's bulletin has the following to say of the crop outlook and the weather conditions in various parts of the country:

"The weather, on the whole, was favorable for growing crops, and the harvesting of grain in the southern portions of the wheat belt, although severe heat and continued drought were locally injurious to southward of the Ohio river, and excessive rains caused damage in some of the northern portions of the corn belt, and a somewhat delayed crop growth in portions of the elevated districts of the West."

"In the winter wheat belt the weather was favorable for a continuation of the excellent outlook and harvesting in progress in Oklahoma, Kansas, Missouri, and the southern portions of the Ohio valley. Some local damage by dry or otherwise continues to be reported, but no important losses appear to have been sustained. In the spring wheat belt the weather continued favorable and all crops made rapid growth, except that locally there was somewhat too much rain and too little sunshine."

"At the beginning of the week generous showers were received in the middle Missouri valley and lighter amounts over the central and northern plains region and the North-west. Unsettled, showery weather continued during most of the week to westward of the lake region, with occasional twenty-four hour amounts exceeding one inch. Little rain was received in the Southwest, including Texas and Oklahoma, while little or none occurred from the lower Lake region northward to the central and northern Plateau region westward to the Pacific coast."

"Over most of the Lake region and the upper Ohio valley and thence eastward to the Atlantic coast the precipitation was quite light, some falling in many portions. The precipitation was less than the normal in many districts, but drought conditions existed only in a few sections."

current was tried out for a short time and gave excellent satisfaction, the power operating the pumps as efficiently as with the power from the city plant at Dead river.

Will Be Married in Newberry—Bert Scholtus, a well-known Marquette young man, left yesterday afternoon for Newberry, Mich., where he will be married this afternoon to Miss Lillian M. Liberty, formerly of Marquette. The wedding will take place at 4 o'clock at the bride's home. The couple will reside in Marquette, where Mr. Scholtus is employed in the postoffice.

Playground Superintendent Here—R. E. Martin, who was recently engaged by the citizens' playground committee to take charge of recreational work among the children of Marquette, has arrived in the city and will start on his new duties within the next few days. He has inspected the playgrounds. Mr. Martin does not believe that playground apparatus is altogether necessary for the development of the child, but maintains that by furnishing attractive amusement much good can be derived.

James Matthews for Inspector—Petitions were circulated in Marquette yesterday for James Matthews, of Negaunee, who is seeking the Republican nomination for the office of mine inspector. Mr. Matthews will run against John T. Quinn, of Ishpeming, who has held the office for a number of terms. Mr. Matthews is well-known to many in Marquette. At one time he was mining captain at Michigamme, later at Palmer on the Cascade range, and he was also captain at the Salisbury property of the Cleveland-Cliffs Iron company at Ishpeming for a number of years.

Kathlyn Picture Today—The ninth installment of the Adventures of Kathlyn will be the feature attraction of the Marquette Opera House today. The picture is "The Spellbound Multitude." At the morning show, which will begin at 10 o'clock, eight reels of pictures will be shown. There will be a continuous afternoon matinee, commencing at 2:30 o'clock. The evening shows will be given at 7:10, 8:10 and 9:10 o'clock. The Three Kratons, who are now appearing at the theater in a novelty hoop act, billed as "School Days in Hoopland," are an excellent attraction. Their many stunts with hoops of various sizes are carried out with precision.

GET RID OF THE TORMENT OF RHEUMATISM.

Remember how spry and active you were before you had rheumatism, backache, swollen, aching joints and stiff, painful muscles? Want to feel that way again? You can—just take Foley Kidney Pills. For they quickly clear the blood of the poisons that cause your pain, misery and tormenting rheumatism. For sale by All Dealers.

ALWAYS LEAD TO BETTER HEALTH

Serious sickness starts in disorders of the stomach, liver and kidneys. The best corrective and preventive is Dr. King's New Life Pills. They Purify the Blood—Prevent Constipation, Keep Liver, Kidneys and Bowels in healthy condition. Give you better health by ridding the system of fermenting and gassy foods. Effective and mild. 25c. NO GAME FOR A NAIRVOUS MON.

"Is Surely Full o' Many Whimsies, But 'Tis a Gude Game for a' That."

In the American Magazine Brand Whitlock, formerly mayor of Toledo, writes a golf story entitled "Doting Fathers," in which a Scotch professional, named Dewar, delivers himself of some interesting comments on caddies and other outside influences that affect a man's game disastrously. Following is an extract:

"Dewar pushed the tobacco into his pipe with a blunt thumb, and when he had lighted it, pulled at it comfortably a moment and said:

"'Tis a strange game, Willie. 'Tis a game o' many whimsies."

"He smoked on, drawing in great drafts with his powerful suction, and then heperated with a deep satisfaction:

"'Aye, a game o' many whimsies."

"I thought you liked a gallery," said the boy, who knew that the shrewd Scotch character was not without its element of vanity.

"'Ah! no aversae tae a gallery, lad! His gray eye twinkled an instant in the memory of some mighty match. 'Ah! mind me Ah was playin' wi' Jimmy Braid, when we were lads, and the gallery—ah, it warnad the cockles o' mah heart! But dae ye mind, Ah've seen me lose a game just because there

were a caddie, maybe, got onto mah naivies. Do ye mind the lad that stan' gawkin' about wi' his mouth open? The lad that has somethin' the matter wi' him? He breathes, ye ken, through his mouth. The doctor was sayin' th' other day that it wad be advisible for 'im to gie him a dra-t, ye ken, an' I observed that it was to be hoped, for the sake o' iters an' society at large, that he wad go under it soon, or else gie ower eatin' those green apples on that tree doon by the second green."

"Do the apples hurt 'im?" asked Willie.

"'No, Ah'm afraid not," said Dewar, "but they hurt mah game. I could murder him wiout compunction—an' him champion' and snarling lak a wild boar the while."

"He wagged his head and then said again, charmed by his own phrase:

"'Aye, 'tis a game o' whimsies, and deefinit for a nairvous mon."

"He smoked complacently, as though he hadn't a nerve in his body."

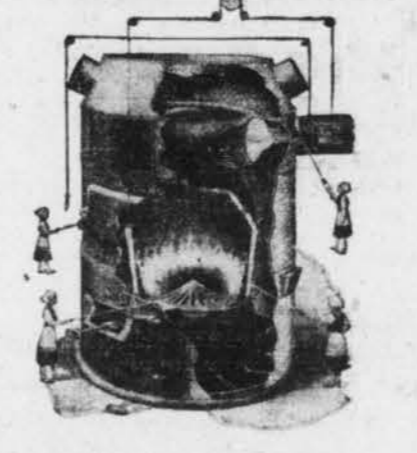

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

The Mission of a Good Soap

They say that soap is a civilization. This is probably true. Anyhow, you will find the most soap used in these countries that are most civilized. Soap performs an important part in every-day life and the more highly civilized, refined and cultured the people are, the better soap they demand. We take a great deal of pride in calling your attention to the variety of soap we handle. You will find the very best toilet and medicinal soaps in our stock. Tell us for just what particular use you want it and we will be able to supply you with the soap that will perform its mission in the right way.

COMPANY ASKS LOWER VALUE

Tax Commissioners, Here Yesterday, Listened to Statements of Pioneer Iron Company Representatives About Assessment of the North Marquette Furnace.

Made Strong Plea for Material Cut and It Is Expected Decision Will Be Forthcoming Today—State Expert Gives Figures on Cost of Reproduction.

Orlando F. Barnes and Thomas Kearney, members of the state tax commission, will sometime today, in all probability, announce their decision in regard to the plea for a lower assessment on the Pioneer iron company's North Marquette property, which was the subject of a formal rehearing here yesterday.

Last year the tax commission practically doubled the assessment returned by the Marquette assessor, placing it at \$1,088,000. The company protested the taxes, and then brought suit for recovery on the ground that they were unduly high.

May 26 last, the company's officials appeared before the state tax commission and asked for a rehearing. In support of the request they presented the reports of S. K. Kennedy and H. O. Wentz, experts in furnace construction and operation, who had been retained to make a valuation of the plant.

These experts had prepared exhaustive inventories, which they explained personally, and they also discussed at length furnace practice and furnace bookkeeping as exemplified at the Marquette plant. They estimated the value of the plant as a going concern at about \$500,000. On the showing by the company a rehearing was ordered by the commission.

State Expert Present.

At the hearing yesterday there was present Professor W. F. Vernon, of the University of Michigan, retained by the commission as an expert, and who had made a study of the cost of reproduction of the plant. His figures placed this cost at between \$1,300,000 and \$1,400,000. Against the plant stands a book value of nearly \$1,000,000, but this includes charges for various experimental work-trips to Europe in connection with its development and various other similar items.

Professor Vernon did not deal with the market value of the property, but confined his attention entirely to reproduction cost, which was the principal subject of discussion between the parties to the hearing. The summing up by W. P. Beiden, for the Pioneer iron company, was a strong plea for a material reduction based on the showing of the company's experts. It was listened to attentively, as was all the other discussion of the session, by the members of the commission.

Messrs. Barnes and Kearney yesterday afternoon visited Ishpeming, where the board of review was in session, and took up various matters of official business. They returned to Marquette early last evening, and gave considerable time to consideration of the plea of the Pioneer iron company.

DIPLOMAS AWARDED GRADUATING CLASS

Seniors of Baraga High School Held Commencement Exercises Last Evening.

With impressive ceremonies, thirteen graduates from the Baraga High school, the class of 1914, were presented with diplomas by Rt. Rev. Bishop Eis at commencement exercises held in the Baraga auditorium last evening. Nine students were graduated from the classical course, and six of these also received commercial diplomas. Four students received commercial diplomas alone.

The auditorium was filled with friends and relatives of the graduating class, and every member of the program, in which several members of the class took part, was heard with the greatest interest. Rev. J. Moriarty, of Ironwood, was the speaker, and his discussion of the national schools of the day and the relation of religion to education was the feature of the program.

Father Moriarty laid particular stress on the subject of religion in education. He lamented the fact that many of the men and women of today have no idea of God, and he declared his belief that through the parochial school could this condition best be corrected. The parochial schools are not in a position to advance religion, the speaker said. He referred to the Baraga high school as one of the best parochial institutions in the state, and expressed a desire that the members of the parish would in the future show the same ardent zeal in the promotion of its welfare that they have shown since its establishment. In closing his address, Father Moriarty congratulated the members of the graduating class and gave them much good advice to follow throughout life.

The evening's program ended with the conferring of the honors by Rt. Rev. Bishop Eis, who prefaced his remarks to the students by a short talk on parochial school education.

Stage Prettily Decorated.

At 8 o'clock the graduates marched to their places on the stage, which was banked with flowers and ferns. Setting off the flowers was a sign with purple electric globes, bearing the figures "1914". The stage was set with a scenic background, the entire setting being particularly attractive.

The class song "Summer Fancies" by Motra, a number which was thoroughly appreciated by the assemblage. The salutatory was delivered by Miss Hazel M. Heron. The young woman was enthusiastically applauded. A violin solo, Mendelssohn's Spring Song, by Miss Mary M. Mulvey, was the next number of the program. This pleasing selection was

MINE COMPANY WINS BIG CASE

DeGrasse et al. vs. Verona Iron Company, Argued in Marquette Over a Year Ago, Decided This Week by Judge R. C. Flannigan in Favor of Defendant.

Paul Shook, Wellknown Crystal Falls Man, Gets Third Interest in Valuable Mine from Zimmerman and Clotts—M. J. Sherwood One of the Attorneys.

In the case of Lorenzo A. DeGrasse and wife, M. H. Moriarty et al. vs. the Verona Iron company, which was argued before Judge Flannigan in Marquette in February last year, the judge this week, in Iron county circuit court, handed down an opinion favorable to the defendant company.

The DeGrasses, Mr. Moriarty and the other plaintiffs are interested in the fee of a valuable iron property neighboring to the Zimmerman in the Spring Valley district of Iron county, leased to the Verona company, a subsidiary of Pickands, Mather & Co. The lease was made in 1896 and has fifty years to run. Suit was brought because the Verona company had been content to pay the minimum royalty and had done nothing to develop the property.

Judge Flannigan found for the defendant company on the ground that the lease covering the property provided for only a minimum royalty and had no provision obligating the company to proceed within any limited time to make the mine a producer.

The case has been followed with much interest in Iron county, and it is said that if the plaintiffs had won it would have resulted in the filing of numerous similar actions, for there are other instances in which the owners are waiting impatiently for the development of properties on which they are receiving only minimum royalties.

Judge Flannigan's decision was not unexpected, in view of the fact that several months previously he had handed down a decision in a case identical except in the identity of the plaintiff—Andrew Young vs. the Verona company—in which he found for the defendant company.

The minimum royalty paid on the property involved in the latest litigation is \$1,000, and it has been paid regularly for eighteen years, since the lease was entered into. In 1909 an exploratory shaft was sunk, but the work was abandoned within a few months and since then no effort has been made to open the property. The plaintiffs assert that they entered into the lease with the understanding that the Verona company would proceed without loss of time to demonstrate the value of the property and put it on a producing basis. But the lease is silent on this point.

Shook Wins Case.

Another case disposed of by Judge Flannigan this week was that of Paul Shook vs. Zimmerman and Clotts, suit for a third interest in the Zimmerman mine, in which the judge found for the plaintiff.

In behalf of Mr. Shook, who is a well-known saloonman in Iron county, it was shown that the defendants had promised to "shook up" with him, in case he showed them where they could get hold of a promising iron property. He was instrumental in it was contended, in getting an option on the Kinney property, which Zimmerman and Clotts later exercised, but Shook got no share in the mine. The defendants disputed Shook's story, but the decision bears it out. The interest at stake is said to be a valuable one.

M. J. Sherwood, of Marquette, has been associated in the case, in the interest of Mr. Shook.

Both the DeGrasse and the Shook cases have been hanging fire for over a year, Judge Flannigan having made them the subjects of careful consideration.

HAPPY, HAPPY WASH DAY!

"SKITCH" Made It So

No More Rubbing Clothes on a Washboard—No More Making Your Hands Tender And Sore in Hot Suds Use "SKITCH"

Who'd be so foolish as to rub clothes on a wash-board now when SKITCH will clean your clothes better and quicker without rubbing? SKITCH is a wonder! Use three teaspoons of SKITCH to a boilerful of clothes and it just skitches the dirt out of the clothes while you sit and rest or do up your other work. Mrs. Alice Juhre of 540 Stovell Ave., Milwaukee, says: "My clothes are all out on the line now by 9 o'clock. It used to be 12 and often later before I was done. And I wonder he so, went out from bending over a wash-board. SKITCH is a perfect god-send to women."

Don't worry for a minute. That SKITCH can hurt your clothes. SKITCH positively is guaranteed not to injure the finest fabric. It's so harmless you can even eat a handful of it without hurt.

Get a 10 cent package of SKITCH from your grocer and try it—seven big washings in every package—just a five-cent over a cent to save the hard work of a wash day—less than the soap used in the rubbing would cost. If your grocer won't supply you with SKITCH send his name to me and I'll send you a free sample. Hans Fichtenberg, Milwaukee, Wis.

A big line of everything for Men and Boys
WE GIVE GOLD STAMPS.

WILL DECORATE GRAVES.
Knights of Pythias to Conduct Memorial Exercises Tomorrow.

Tomorrow, June 21, Marquette lodge, No. 6, Knights of Pythias, will conduct memorial services for its departed members. The lodge will assemble at one hall at 9 o'clock in the morning, and will proceed from there directly to the cemetery. It will attend exercises at the Methodist Episcopal church, at 11 o'clock, and here, W. D. Smith, the pastor, will preach a special sermon.

In going to the cemetery the members will be in parade formation.

Yesterday the Pythian Sisters, the ladies' auxiliary to the Knights of Pythias, held a picnic at Prosque Island. The Marquette lodge of the order is known as Cloverland lodge, No. 106. It was organized a year ago and the membership has been growing steadily. The members are making preparation to attend the grand lodge meeting of the Sisters, which is to be held in Ishpeming in September in conjunction with the grand lodge session of the Knights of Pythias.

What arrangement have you made for your hot water this summer? The most economical and convenient way to heat water is with a gas water heater. Ask your neighbor who has one and then phone the Gas company. 6-6-1f.

DISCUSSES PLAYGROUNDS.

Mayor Begole Has Some Comment on the Live Subject.

To the Editor of The Mining Journal—It is but a truism to state that the business of this city, both relating to the public schools and the departments which come under the city charter, must be carried on with simplicity, truth, directness, economy and with a unity of purpose. This must be done by the men who accept office, if they wish their acts to meet with the approval of the people who own the school buildings, the city hall, the electric light plant, the water works, the streets, and above all because they pay the taxes which provide for their maintenance.

It should be our work to harness more efficiently the activities of both the school board and the city commission with the view of obtaining better service for the people of Marquette, and with that sole end in view the city commission stands ready at all times to meet with members of the school board in joint conference for a frank and free discussion of question in which our duties may appear to overlap.

Secretary O'Reilly of the school board in an interview printed in The Mining Journal states he has received a letter from the city commission requesting a meeting to discuss the playground matters; that had such a letter been received the meeting would have doubtless been held.

The correspondence above referred to was addressed by me to H. A. St. John, treasurer of the city playground committee, and was delivered to Superintendent of Schools Gehrand. Two different dates were set for such a meeting to be held at the mayor's office. Members of the school board were conspicuous by their absence. Secretary O'Reilly is begging the question.

FRED H. BEGOLE, Mayor.

COUGHS AND COLDS WEAKEN THE SYSTEM.

Continued Coughs, Colds and Bronchial troubles are depressing and weaken the system. Loss of weight and appetite generally follow. Get a 50¢ bottle of Dr. King's New Discovery today. It will stop your cough. The first dose helps. The best medicine for Stomach Troubles, Colds and all Throat and Lung Troubles. Mr. O. H. Brown, Muskegon, Mich., writes: "My wife was sick during the hot summer months and I honestly believe Dr. King's New Discovery saved her life." Good for children. 50¢ and \$1. Recommended by The Stafford Drug Co.

NOTICE.

I have just returned to the city and have opened up my paint shop again and I can do your painting and paper hanging on short notice. Call 925-J for good work.
