

REBEL LEADER ANSWERS NOTES OF MEDIATORS

General Carranza Reiterates He Was Willing to Take Part in the Peace Conference, and Realized That Their Object Was the Pacification of Mexico.

But He Declares It Impossible to Discuss an Armistice, the Military Movements of the Constitutionals, Land Question or to Name a Provisional President.

El Paso, Tex., June 21.—General Venustiano Carranza has forwarded his reply to the two notes of June 2 and 3, sent him by the mediation commission at Niagara Falls, Ont., last night.

Carranza's note, it is understood, reiterated his willingness to have participated in the various conferences, whose sole object he recognizes to be the pacification of Mexico, and whose good offices he tentatively recognizes.

Carranza stated he believed that he only complies with his duty as first chief of the Constitutionals when he declares that a grave error has been committed in attempting to solve such questions of supreme importance to the Mexican people.

The feeling in Saltillo, where Carranza has established his capital, according to the word reaching this city, is that the first chief's reply has ended the diplomatic incident connected with the interchange of notes between the mediation commission and Carranza.

WASHINGTON THINKS THAT MEDIATION CAN GO ON.

Washington, June 21.—Washington officials tonight expressed confidence that Mexican mediation at Niagara Falls would continue for some time, and intimations were given that there might soon be developments in the internal Mexican situation to open the way for an agreement upon terms of peace.

The representatives of General Carranza at Washington principally Rafael Zubaran and Luis Cabrera, have not been satisfactory either to General Carranza or General Villa in their handling of negotiations at the White House.

The plan was said to be a result of the visit of Minister Naon of Argentina to Washington, where President Wilson is understood to have emphasized the written statement of Justice Lamar that any agreement reached by the mediation board, which was not approved by the Constitutionals, would be a "paper agreement," and would not accomplish the purpose of the United States, which is the pacification of Mexico.

NORTHERN PART OF VERA CRUZ STATE AND ALL OF PUEBLA HELD BY REBELS.

Saltillo, via Laredo, Tex., June 21.—The entire northern part of the state of Vera Cruz and most of the state of Puebla are under the control of Constitutionals according to an announcement at General Carranza's headquarters today.

General Nicholas Flores reported that he had taken the town of Orizatlan in the state of Hidalgo and placed himself and 4,000 men under the orders of General Carranza.

WILL PUBLISH CORRESPONDENCE.

Tokio, June 21.—Japan and the United States have arranged to publish simultaneously at Tokio and Washington this week the text of the correspondence bearing on the California anti-alien land act, according to an announcement made here today.

The Missouri department of forestry this afternoon discovered that the university of Missouri, through an error in transcribing land lists, had been in possession of 160 acres of land which it has owned since 1862.

VAUDEVILLE ACTOR, HELD FOR MURDER OF WIFE AND CHILD, TAKES OWN LIFE.

Cincinnati, O., June 21.—Robert Maloney, of Cincinatti, a vaudeville actor known as "Willard, the Wizard," committed suicide in jail here today by jumping from the fourth tier of cells to a cement floor.

CREW OF SUNKEN Schooner SAVED AFTER DRIFTING FOR 24 HOURS IN ROWBOAT.

Port Eads, La., June 21.—Captain Charles Lawrence and a crew of twelve of the schooner J. R. Allison, which foundered at sea Monday, June 15, were brought here today on the pilot boat Annie Wilson. When the J. R. Allison went down, the captain and crew put off in two small boats and after more than twenty-four hours were picked up by the steamer Helen W. Martin, about two hundred miles off South Pass.

GOLF, SKATING AND SKIING FOR WOMEN TO BE EVENTS IN THE OLYMPIC GAMES.

Paris, June 21.—Golf contests, in which women may compete, fancy and speed ice skating and skiing were today given places in the Olympic games by delegates to the International Olympic congress. Gymnastics also will be permitted, but only in the games of 1916, at it was decided by the committee that many of the gymnastic competitions were of the nature of field and track events and should be classed as such. Ice hockey was barred as an event.

VILLA DENIES HE HAD CHAO EXECUTED

Brands as Lie Report That He Proclaimed General Angeles Provisional President.

Torreon, Mex., June 21.—Rumors that General Angeles had been proclaimed provisional president by General Villa, and that General Chao had been executed, were denied today by General Villa. As soon as this report reached his headquarters, General Villa said that he had heard nothing of General Angeles' dismissal from Carranza's cabinet, as reported from Saltillo.

Chao was seen here two days ago, as he was about to entrain his troops to move against Zacatecas. General Villa said that he was a guest at his house and the two of us parted on the best of terms.

The rumor that I proclaimed General Angeles provisional president of the Mexican republic is a fabrication. "Nothing has been further from my mind. As to the story that General Carranza has deposed General Angeles as secretary of war, I know nothing."

FIGHTING AT ZACATECAS RENEWED UNDER VILLA.

Saltillo, via Laredo, Tex., June 21.—Fighting has been resumed at Zacatecas under the direction of General Villa, according to dispatches received here. It is stated that three positions held by the federalists had been captured by the Constitutionals, but their locations were not made clear. No report of the casualties has been received.

SOUTH AMERICAN ARBITERS PLAN NEW COURSE OF ACTION.

Niagara Falls, June 21.—The mediators today proposed a new course of action which eventually may work out a solution of the Mexican problem. The new course of the plan, which is designed to prevent a deadlock between the American and Mexican delegates, has been closely guarded, but it became known, however, that another effort was being made to bring Constitutionals into close touch with the purpose of the mediation without the formality of admitting them.

The suggestion contemplates separate conferences between the American delegates and representatives of the Constitutionals. Justice Lamar and Frederick Lehman would continue their dealings with the Huerta delegates through the mediation board. In this way all elements in the Mexican situation would be drawn together and there would be no necessity for the declaration of an armistice until some agreement was reached and approved by the Constitutionals.

The plan was said to be a result of the visit of Minister Naon of Argentina to Washington, where President Wilson is understood to have emphasized the written statement of Justice Lamar that any agreement reached by the mediation board, which was not approved by the Constitutionals, would be a "paper agreement," and would not accomplish the purpose of the United States, which is the pacification of Mexico.

It was reported tonight that the Washington government already had extended an invitation to General Carranza to send his representatives to Niagara Falls, N. Y., to confer with the American delegates. The reported departure of Fernando Calderon, leader of the Liberal party, from Saltillo for Washington, presumably to take charge of the Constitutionals' interests in the United States, was believed to have some bearing on the developments here.

New Jersey is said to have the greatest proportion of railroad mileage of any state in the country, or one mile of railroad to every three square miles of territory. This makes an unusual risk of forest fires set by railroads.

12 DROWNED WHEN LAUNCH TURNS TURTLE

Two Men and Ten Women and Children Meet Tragic Death in Oswego Canal When the Small Craft on Which They Were Riding Hits a Submerged Log.

Nineteen Were on Boat Returning from Day's Outing—There Was No Time to Get Life Belts Before All Were Plunged Into the Water, Declares Captain.

Syracuse, N. Y., June 21.—Twelve persons, most of them women and children, were drowned in the Oswego canal tonight, when a launch upon which they were riding, struck a submerged log and capsized. The dead:

- MRS. GEORGE H. ADAMS, Syracuse. MARGARET ADAMS. LILLIAN ADAMS. BABY ADAMS, aged six months. MRS. HARRY WELSH, Syracuse. CATHERINE WELSH. JOHN MOGG, Syracuse. FLORENCE DAINER, Syracuse. EARL DAINER, Syracuse. CHARLES SCHULTZ, Syracuse. MISS MAHEL THIBBETS, Syracuse. HOWARD CRANE, Liverpool.

The disaster occurred south of Mud lock near Onondaga Lake in an isolated section of Syracuse. There were nineteen passengers on the boat. Only seven of these reached the canal bank safely.

They were on their way home after a day spent at the lake resort. "Everyone for himself."

According to Captain Dainer, ten passengers were aboard when he started on the trip. "I had started on my journey, and was less than a quarter of a mile from the lock when the launch struck a stump," he said. "Before I knew what happened, the boat tipped over. I had life preservers aboard, but there was no chance to use them. There was no opportunity to rescue the women and children. It was every one for himself in the darkness."

The launch was a twenty-five foot craft. "The story that I executed General Chao is a malicious lie," General Villa said. "General Chao is with the division of the north at Zacatecas, and far from dead. Two days ago he was a guest at my house and the two of us parted on the best of terms."

The rumor that I proclaimed General Angeles provisional president of the Mexican republic is a fabrication. "Nothing has been further from my mind. As to the story that General Carranza has deposed General Angeles as secretary of war, I know nothing."

SCHEDULES FOR TODAY.

Table listing game schedules for American League, National League, and Federal League for today and yesterday.

Washington, 7; Detroit, 3. Detroit, June 21.—A home run by Walter Johnson, with the bases full,

BAN JOHNSON WILL SEEK TO KEEP CHASE FROM THE FEDS.

Chicago, June 21.—Steps will be taken tomorrow to restrain Hal Chase, former American league star, from playing another game with the Buffalo Federals, according to an announcement tonight by Charles A. Comiskey, president of the Chicago Americans, after he had been informed that Chase had played in today's Federal league game.

104 MINE EXPLOSION VICTIMS YET ENTOMBED

Hope for Their Rescue Alive Abandoned Saturday—Ninety-One Bodies Recovered.

Hillcrest, Alta., June 21.—Although a large force of workmen continued clearing away the debris in the mine, where 105 miners were entombed by an explosion last Friday, no additional bodies were recovered today. Ninety-one bodies, corrected figures show, have been removed. Hope of rescuing alive any of the 104 miners still in the mine was abandoned yesterday.

The jury summoned last night viewed the bodies of the victims today and then adjourned, the inquest until early in July.

WILSON TO PASS ON DYNAMITERS' CASES

Expected to Announce Decision This Week on Petition for Executive Clemency.

Washington, June 21.—President Wilson is expected this week to announce a decision on the petition of Frank M. Ryan, former president of the structural iron workers' union and twenty-nine other defendants in the dynamiting cases, who have asked for executive clemency to save them from jail sentences. The convicted men are at liberty on bail, but unless the president intervenes they must go to jail Thursday.

The attorney general is understood to have recommended that Ryan and the others be denied executive clemency, but that something might be done for a few of those receiving lighter sentences.

LIONS STRIKE DOWN AND KILL BROOKLYN MAN

Manager of Vaudeville Attraction Met Horrible Fate When He Entered Car Where Performing Animals Were Caged—His Body Was Partially Devoured.

Lioness Vainly Endeavored to Save Him—Escaping Beast Caused Panic in Neighboring District—Trainer Says That They Always Were Tractable.

Chicago, June 21.—Emerson D. Dietrich, of Brooklyn, manager of a theatrical production presenting a troupe of trained lions, was killed and partially devoured tonight by six lions, when he entered the car in which they were caged. While the keepers were trying to recover Dietrich's body from the beasts, a lion escaped from an adjoining cage and terrorized the residents of the thickly populated quarters in which the car stood. The lion finally was driven back to his car, having harmed no one.

A pike pole from the fire department finally was used to withdraw Dietrich's body from the lions, after it had been sprinkled with formaldehyde, to drive the animals away. George McCord, the keeper of the lions, was unable to help Dietrich. "When he went into the den," McCord said, "Teddy, the leader of the attack on him, began to play with him, and he told the beast to get down. Four of the lions were facing him. Finally, Teddy shunk around behind him, and in a minute was on his back. Four others leaped for him a moment later, and I think his neck was broken then."

One Tried to Save Him. "Teddy, the oldest of the lions, tried to save him, but the others pushed her away, and she watched them, without joining in the attack."

The lions were owned by Mme. Adgie Castillo, to whom Dietrich was engaged to be married. She declared she had formerly taken care of the animals herself, and said none of them ever before had given indications of viciousness. Two more pitifully injured by the lions had been used in hundreds of public performances, according to Mme.

BUTTE MINERS START A UNION OF THEIR OWN

Rejecting All Overtures of President Moyer of the Western Federation They Launch an Independent Organization—M. McDonald Is Chosen Head.

All Voting Done Yesterday by Acclamation at Mass Meeting of 5,000 Seceders—Moyer, in Last Effort to Save His Union, Gets Resignations of Local Officers.

Butte, Mont., June 21.—Seceders from the Western Federation of Miners launched an independent miners' union today, rejecting the overtures from President Charles H. Moyer and his associates.

They elected as temporary president M. McDonald. There is little hope of compromising the two factions and with the issues sharply drawn an open breach is expected within a few days. Federation officials have threatened to import miners to fulfill the contracts with the operating companies.

GEORGIA PEACH VS. BIG BUTCHER BOY

Ty Cobb Under Arrest in Detroit for Row Over Alleged Insult to Mrs. Ty.

Detroit, June 21.—Ty Cobb, the famous center fielder of the Detroit American league baseball club, was arrested last night in the butcher shop of W. L. Carpenter on Hamilton boulevard while engaged in a fist fight with Harold Harding, twenty years of age, one of Carpenter's employees. Harding told the police that Cobb assaulted him after the ball player had drawn a revolver on the proprietor. Carpenter confirmed the charge and said Cobb attacked Harding when the latter attempted to interfere. An eye witness will not be able to play baseball for several days. He injured his thumb during the scuffle with Harding. The explanation given by the ball player after his arrest was that the butcher insulted Mrs. Cobb. Carpenter denied the charge, but admitted that Cobb rushed into the butcher shop, made the allegation and then started trouble.

Trouble Over a Fish. A fish which Mrs. Cobb purchased from Carpenter earlier in the day is believed to be responsible for the affair. Cobb claimed tonight that his wife returned the fish, told the butcher the purchase was not satisfactory and during words which followed Carpenter insulted her.

Cobb said he went to the butcher shop to demand an apology from the proprietor. Cobb later was released from the police station. No formal charge was made against him, but friends of the ball player said they understood that court proceedings might be instituted. An eye examination today disclosed that Cobb's thumb is broken. A long statement to the newspapers was dictated by Cobb. In it he declared that Carpenter grabbed a butcher's cleaver when the two began their argument. "I have a permit to carry a revolver and I told Carpenter I had the means to protect myself," said the outfielder. "Our little affair was practically over when Harding bit me. He seemed to want trouble and I was so angry I gave him what he was looking for."

Cobb has been permitted to carry a weapon for some time. Threatening letters which he received caused him to arm himself, he said. Pittsburgh, 7; Kansas City, 3. Kansas City, June 21.—Pittsburgh took advantage of Kansas City's misplays today and won, 7 to 3. With two men on in the sixth, Adams intentionally passed Berry and Barger's hit went through Kreuger, allowing Barger to get to third, while three runs were scored. Two more Pittsburgh men scored before the inning closed.

St. Louis, 5; Philadelphia, 0. St. Louis, June 21.—St. Louis bunched hits in two innings and Bush and Brown and won from Philadelphia today, 5 to 0. Philadelphia's five hits off James were scattered through six innings. In only two innings, the first and fourth, did Philadelphia get a man as far as second base. Fast fielding saved James on both occasions.

Chicago, 5; Boston, 3. Chicago, June 21.—Chicago had little difficulty hitting Foster today, and won the final game of the series with Boston, 5 to 3. Fournier, who succeeded Hal Chase at first base, fielded in fine form and hit the ball hard. He was robbed of what appeared to be a sure home run, when Henrickson made a great jump against the right field fence for the long drive. In the second inning Schalk slid into second base and wrenched his knee. He was forced to retire.

St. Paul, 5; Cleveland, 1. Second game: St. Paul, 2; Columbus, 1. Second game: Kansas City, 7; Indianapolis, 6. Second game: Kansas City, 6; Indianapolis, 10.

Cleveland, 7; Minneapolis, 6. Second game: Cleveland, 3; Minneapolis, 3. Game called in tenth, to comply with the Sunday law.

SATURDAY'S SCORES. AMERICAN LEAGUE. Chicago, 5; Boston, 3. Philadelphia, 5; St. Louis, 2. New York, 7; Cleveland, 1. Detroit, 1; Washington, 0.

NATIONAL LEAGUE. New York, 7; Cincinnati, 2. Pittsburgh, 4; Brooklyn, 3. Boston, 3; St. Louis, 2. Chicago, 5; Philadelphia, 4.

AMERICAN ASSOCIATION. Louisville, 1; Milwaukee, 0. St. Paul, 5; Columbus, 1. Second game: St. Paul, 2; Columbus, 1. Second game: Kansas City, 7; Indianapolis, 6. Second game: Kansas City, 6; Indianapolis, 10.

BUTTE MINERS START A UNION OF THEIR OWN

Rejecting All Overtures of President Moyer of the Western Federation They Launch an Independent Organization—M. McDonald Is Chosen Head.

All Voting Done Yesterday by Acclamation at Mass Meeting of 5,000 Seceders—Moyer, in Last Effort to Save His Union, Gets Resignations of Local Officers.

Butte, Mont., June 21.—Seceders from the Western Federation of Miners launched an independent miners' union today, rejecting the overtures from President Charles H. Moyer and his associates.

They elected as temporary president M. McDonald. There is little hope of compromising the two factions and with the issues sharply drawn an open breach is expected within a few days. Federation officials have threatened to import miners to fulfill the contracts with the operating companies.

A mass meeting today was attended by 3,000 miners. All voting was done by acclamation. The report of the executive committee, in whose hands had been left the drafting of the insurgent policy, was adopted without change. It provided for the eventual formation of a permanent organization. Temporary headquarters will be established and an assessment of fifty cents per month levied. Membership rolls will be opened on Tuesday.

Federation Not Recognized. No official notice was taken of the Western Federation of Miners and President Moyer had no one present to offer compromise.

Unofficially it was announced that the seceders reason for not accepting advances from the Western Federation of Miners was determined opposition to the national as well as local officers, and a strong desire not to affiliate with any national organization.

The future policy in Butte of the Western Federation will be announced at a meeting on Tuesday. Persons interested in a compromise hoped that the seceders would not take any definite action until Moyer had an opportunity to outline his policy.

Many Members of I. W. W. The seceders have an executive committee of twenty, a majority of whom are known to be members of the Industrial Workers of the World. McDonald, the temporary president of the new union, is a member of the Industrial Workers.

The regulars of the Butte local of the Western Federation of Miners, under the leadership of Charles H. Moyer, president of the federation, yesterday obtained from the present officers of the local union and the recently elected officers who are to take office in July, their resignations, hoping to hold a new election, and thereby save the Butte local from destruction.

Moyer last night announced that he had the resignations and that a complete plan formulated to save the union would be announced at a meeting on Tuesday night. Moyer hoped to forestall the action that the seceders took today.

The Western Federation holds contracts with the mine owners, and besides the mines has jurisdiction over all other mine workers.

May Not Let Seceders Work. The Western Federation has the power by its contract with the mine owners to say who may be lowered into the mines, and the federation's agent at the mine has the power to order engineers not to lower any of the seceders into the workings.

Under the contract between the federation and the mine owners the federation if it has not enough men in Butte to work the mines must furnish them from the outside. President Moyer tonight would give out no statement in regard to the action of the insurgents except to say that he would remain in Butte until the Western Federation of Miners has been re-established, and has the complete control of local union affairs.

LONDON MOBBS AGAIN BAITING SUFFRAGETTES AS PASTIME

London, June 21.—Suffragette baiting has become the regular Sunday amusement of London crowds. The police were kept busy in Hyde Park today protecting the women and escorting them to places of safety.

Various suffragette meetings were broken up and the speakers hustled from the platforms, with threats of a ducking in the river. From the temper of the crowds these threats, probably, would have been put into execution, except for energetic action by the police.

Little discrimination was shown and several women spectators were subjected to rough treatment. The disorders finally became serious and the police were obliged to use their truncheons to disperse the rioters.

LORD LORIS WON STEEPLECHASE. Paris, June 21.—The grand steeplechase de Paris, four and one-half miles and valued at \$30,000, was won today by James Hennessy's chestnut horse, Lord Loris. Sidney Platt's bay colt, Cladius, was second and I. Sentes' Martinez II, third. Lord Loris was quodded at four to one in the betting. Stanis in 1912 paid \$46,915 for United States playing cards.

THE DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE Mining Journal Company, Limited.

Issued daily except on Sundays. Contains Associated Press dispatches, and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per year, by mail, \$6.00. Per month, by carrier, .50.

Entered as second class matter of the second class in the postoffice at Marquette, Mich.

MONDAY, JUNE 22, 1914.

THE FIELD MADE UP.

Mr. Osborn, in his compact statement, lays the final doubts entertained by skeptical persons on the score of his candidacy for governor.

Mr. Osborn, the candidate, is certain to be a factor. Most persons competent to pass opinions on the subject incline to the belief that victory at the primary will lie between him and Mr. Groesbeck.

Mr. Groesbeck has been the most active of the candidates. He now has an organization of no small extent, with ramifications even into the upper peninsula, and he has interested in his campaign large numbers of men who have long been active in state affairs.

The advantage in organization Mr. Groesbeck seemingly enjoys he will likely maintain. It has been gained by persistent work over several weeks, if not months. The supporters of Mr. Osborn will not be able to catch up with it.

But the necessity of such a campaign is not as great now as it was then. In 1910 Governor Osborn was not as well-known in the state as he is now.

Mr. Osborn's candidacy insures a field of five candidates for the Republican nomination. Besides Mr. Groesbeck there is Secretary of State Martindale, whose friends assert that his quiet campaign has borne results that will be surprising.

The state tax commission Saturday announced a reduction in the assessment of the Pioneer Iron company's North Marquette plant from \$1,088,000 to \$780,000.

This action was taken following an exhaustive hearing in which experts for the company detailed their views of the present value, as a going concern, of the plant, and after the commission had taken counsel with its own expert as to the reasonableness of the company's contentions.

In effect, it gives the company half of what, on the figures of its experts, it ought to get, but probably about as much as is expected to receive.

BOTH SIDES ARMED.

It is amusing to see how different the arming and drilling of Nationalist volunteers in Ireland looks to the British opponents of home rule for Ireland from similar preparations of the Ulster Unionists who have been getting ready for civil war to prevent the establishment of a Dublin government with authority over their province.

In the end, of course, the government will have to brush aside all such armed bodies, of whatever political bias or connections, and make the laws of the United Kingdom effective in every county and city where they may be challenged. It will never do to let the imperial parliament be defied and its acts nullified anywhere in the British Isles.

The Chicago Tribune says that while Mr. Lorimer was still senator it was proposed to organize his La Salle St. bank under a federal charter. But when Mr. Lorimer was ejected from the senate, and lost his influence in national affairs, this plan was changed, and the bank was incorporated under the state law.

There is to be any elimination contest between Generals Villa and Carranza, the course of events in Mexico the past several months clearly make Villa the one best bet. Villa has what President Wilson has described as "a single track mind." He knows where he is going, and has a pretty definite idea of how he is going to get there.

Mr. Paine had become much disturbed over some stomach difficulty and had decided to consult a noted specialist. Accordingly he was ushered into the office of the great physician, complaining that he felt badly right then.

As Huerta is in no position to fight and as the administration doesn't want to fight, it is a deluded person who expects that any press of critical events will follow on the heels of a collapse of the Niagara Falls negotiations.

Everything that Colonel Roosevelt has been quoted as saying on the subject has gone to warrant the conclusion that he does not like the idea of paying Colombia \$25,000,000 to restore its self-respect in connection with our possession of the Panama canal zone.

The collapse of the mediation conference will make a difference more apparent than that in the Mexican situation. It will, it is predicted, merely transfer the arena of the "watchful waiting" policy from Niagara Falls to Vera Cruz.

The perennial discussion about street carnivals in Ishpeming, Negaunee and Marquette can be settled once and for all by setting a daily license fee for such attractions so high that no manager would think of touching it.

result in relief which would not come in the case of another patient. As a rule, I advise the sufferer to take a sea trip. The man of whom I speak, a large, fine looking chap, was suffering from hay fever in its most aggravated form. I offered the usual suggestion that he take a trip at sea.

"He gave me a look of disgust and prepared to depart. 'Doggone old!' he exclaimed. 'I'd do capital of old ocean liner. I'll do sea!'"

The Wranglers. George J. Gould was congratulated at a sufrage tea in Lakewood on his gift of \$1,000 to the sufrage cause.

"Well," said Mr. Gould, "I hope nobody will say about me now what I said recently about another contributor to the sufrage."

"This chap and his wife are always wrangling. Well, I heard at the club that he had made a donation to woman's sufrage. So I said:

"His wife's an anti, I suppose?" "But, doc," he said, "I'm not going to prescribe drugs for a man in your condition. No, sir, what I'm going to prescribe for you is gardening."

"The patient started and his unhealthy pallor turned to a dull brick red. He sympathetically said, 'Gardening is the cause of all my trouble.'"

"Humph, what kind of gardening?" said the doctor incredulously. "Roof," the man replied.

"You look it, too," said the doctor, sympathetically. "I'm not going to prescribe drugs for a man in your condition. No, sir, what I'm going to prescribe for you is gardening."

"The patient started and his unhealthy pallor turned to a dull brick red. He sympathetically said, 'Gardening is the cause of all my trouble.'"

of these thrifty western farmers, but the latter declare they need many more workers to gather their crops, while they are in prime condition. A little later the same call will come from the seeders for harvest hands spreads and increases, it very likely will follow that many of the farmers will find it utterly impossible to secure the help which they need, simply because there is no system and no adequate organization for meeting the necessities of the western farmer when their annual harvest season falls due.

Every year this harvest hand problem becomes more acute. If fertilizer, harvesters, seed wheat, traction engines or box cars are needed in a particular section, the need is almost instant which will contemplate a concentration of effort in the agricultural operations in summer, and in other lines of production in winter. The factories can wait; the harvests cannot.—Oskosh Northwestern.

Justice vs. Sentiment. The press of Berlin, Germany, is up in arms over the "sympathy wave" which is said to have struck German courts and juries in handling capital crimes. The phenomena is one quite easily understood here in Grand Rapids—because the point at issue is not money and securities, was settled by agreement out of court. Rev. Martin is pastor of the Methodist church in Dexter.

CHARLEVOIX—The steamer Beaver arrived from Beaver island and brought a charred piece of the cabin that was identified as that of the gasoline boat Vega which burned off Lake Island with the loss of three men's lives, Yettaw, William Heath and Henry Pappineau. None of the bodies has been found. It is claimed by old seamen that there is an undercurrent at this particular point of the lake so strong as to carry the bodies out of the water, making it doubtful whether they will ever be recovered. Jerry Yettaw, who was half owner of the boat, was not a practical boatman, and he employed Heath to navigate the craft. Just before leaving Charlevoix, Pappineau was taken on board for the trip.

LANSING—Several applications for bond issues and increases of capital stock have received the approval of the state railroad commission. An order was signed by the commission authorizing the Detroit & Port Huron Shore line to issue \$800,000 in bonds for the retirement of \$800,000 bonds of the Rapid Railway company and \$3,000 of the Port Huron & C. Clair & Marine City Railway company. The Menominee & Marinette Light & Traction company has been authorized to increase its capital stock from \$1,000,000 to \$1,250,000. Permission has been granted to the Rapid Railway & Western to issue \$600,000 of par value corporate bonds, while the Escanaba & Garden City Transportation company is authorized to issue \$1,000,000 of par value capital stock. The Detroit United Railway company has been authorized to issue \$500,000 in bonds for the retirement of a like amount of bonds of the Detroit Railway company.

UPPER PENINSULA. Catching California Trout. Fishermen report excellent catches of brook trout, rainbow trout, steelhead, heads in Munising bay. A few California trout and occasionally a German brown trout are taken.

House Caught; Bled to Death. A valuable horse owned by the Munising Leather company met an accidental death in an unusual manner last week. The horse strayed from camp and became entangled in a barbed wire fence. It got free after a hard struggle, but the wire cut so deeply the horse bled to death.

Is Chosen Bank Cashier. Truman Gilmet of Manistique has been elected cashier of the Garden State bank at Garden, Delta county. Eight years ago he accepted a position with the Chicago Lumber company and steadily advanced until he reached the post of head bookkeeper, which position he resigned a short time ago.

New Plan for Electric Company. Material for the construction and equipment have been ordered for the new and modern plant which the Electric Light & Power company is about to erect at Munising. The building will be constructed chiefly of stone, one story high, 45x130 feet. In part the equipment will consist of three 150-horsepower boilers, one 250 kilowatt three phase generator, one 100 k. w. three phase generator, and vacuum pumps for a central public heating system. A new general office, a display room, a work shop and testing room and a private office are included in the plans.

Died Following an Operation. In the passing of W. W. Edwards, secretary of the Edison-Sault Electric company, the Soo loses a highly respected citizen. Mr. Edwards died at the city hospital as the result of an operation which he underwent following an attack of appendicitis. Since July, 1900, Mr. Edwards had been associated with the Edison company, during which time he held various positions, gradually working his way up to become secretary. He went to the Soo from Chicago and was first employed there as commercial teacher in the high school. The first commercial department in the school was organized and installed by Mr. Edwards. He was forty-two years of age and is survived by a widow.

Fine New Hotel for Trout Lake. Out of the ashes of the old Trout Lake House, burned last winter, is arising a structure larger and superior in every way and a credit to the Chippewa county town and its enterprising proprietor, J. W. Smith, says the St. Ignace Republican. The building is so far advanced that Mr. Smith has set the date for the grand opening at Sept. 1. This is to be made one of the biggest events the town ever held. A thousand or more invitations will be sent out. The plans are to have a celebration during the afternoon, a big supper, followed by dancing and merry-making in the evening. The building has a frontage of seventy-five feet, with two wings one 100 feet and the other eighty-three feet in length. A court makes possible every one of fifty-three guest rooms being outside rooms, with plenty of light and fresh air. The building is three stories high, with full cement basement, and the front will have two balconies, supported by mammoth columns resting

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY. Every family without exception should keep this preparation at hand during the hot weather of the summer months. Chamberlain's Colic, Cholera and Diarrhoea Remedy is worth many times its cost when needed and is almost certain to be needed before the summer is over. LOWER STATENOTES

MONROE—Ben Mack and Fred Mack, brothers, twenty-one and twenty-nine years old, respectively, sons of William Mack, were instantly killed by lightning while seated on a wagon under an apple tree, eight miles west of here during a severe electrical storm. Their team of horses and a dog were also killed.

LANSING—The state board of charities and corrections, has revoked the license of Dr. E. B. Spinnery, who conducts a sanitarium at Smyrna, Dr. Spinnery has been a well-known physician in Michigan for years, and has operated maternity hospitals in various places. Complaints against his Smyrna institution have been numerous. According to the state board the board has records of cases in which birth certificates were signed in the name of Dr. Spinnery when it was known that he was not at the hospital.

ANN ARBOR—Mrs. Mary Martin, of Dexter, has been granted a divorce from her husband, Rev. Thomas M. Martin, the grounds being extreme cruelty. Rev. and Mrs. Martin were married Sept. 18, 1906, and last March they separated. Mrs. Martin claimed her husband was of a jealous disposition. The custody of the one child, a six-year-old daughter, was awarded the mother. The dower of the property of the court, consisting of about \$2,000 in money and securities, was settled by agreement out of court. Rev. Martin is pastor of the Methodist church in Dexter.

CHARLEVOIX—The steamer Beaver arrived from Beaver island and brought a charred piece of the cabin that was identified as that of the gasoline boat Vega which burned off Lake Island with the loss of three men's lives, Yettaw, William Heath and Henry Pappineau. Copper Country

TAXES WILL NOT BE UNDULY HIGH

Part of the Expense of Meeting Strike Demands Was Provided for Last Year.

The equalization committee of the Houghton county board, which went into session Friday at the county building...

The object of the session is to equalize the assessments of the county so that no district shall bear an unequal share of the burden of taxation.

It is expected that on the whole, the valuations of the county will be reduced compared with those of last year.

The equalization is being made this year earlier than usual, in advance of the anniversary of the strike, which may lead to the belief that the first tax within the year since the strike opened is now being spread.

There seems no reason to believe that the taxes levied for 1914 will be unusually high.

COMMERCIAL CLUB BANQUET

Secretary Price of the Copper Country commercial club is providing for a large part of the past and expected strike expenses in the tax levy for 1914.

Present indications are that there will be not less than 600 business, professional and mining men gathered for the event.

Charles Salassa, steward of the Mico-entia club, is in charge of the menu, and he has prepared a bill of fare which will put every man present upon good terms with his inner self.

For the accommodation of South Range and Portage lake guests, the Copper Range railroad will run a special train, arriving at the doors of the armory a half-hour prior to the opening of the banquet.

The business of the evening will consist of the election of an executive board for the ensuing year; reading of annual reports, and taking a vote upon two important amendments.

The secretary's and treasurer's report will show a most gratifying balance upon the proper side of the ledger and a 23 per cent. increase in membership during the first year.

Home from school for blind.

Eight-Year-Old Boy of Calumet a Prodigy, Despite Handicap.

Although condemned by fate to endure a handicap visited on few of his fellows, eight-year-old Carl H. Christenson, of Calumet, brother of Martin Christenson, of the Calumet & Hecla offices, is smarter, far, and learns much more quickly than the majority of boys of his age.

The boy is a veritable prodigy, according to his teachers in the state school for the blind at Lansing, from which he has just returned.

His head is crammed as full of school knowledge as is that of the average boy of thirteen or fourteen. He is more ready with his hands and feet than the average boy of fifteen.

Off for cycle tour.

Percy Hammond and John Steinhilber, of the Adams township high school, at Painesdale, left yesterday in the Anchor line steamer for Duluth, from which they will tour to Chicago in a side-car motorcycle.

Pimples Removed With our Saxo Salve

Amherst, Ohio. "I had a pimple on my face which grew until it was as large as a silver dollar. Doctors said it would have to be cut out and when my druggist asked me to try Saxo Salve, I made fun of him but did so, and it entirely cured me. I cannot say enough in praise of Saxo Salve."

Deckhand is injured. Samuel Monroe, a deckhand in the steamer Warner, unloading coal for the C. & H. at Lake Linden, fell from a deck house Saturday afternoon and sustained a fractured knee cap.

BURIED WITH MILITARY HONORS.

Remains of the late Oscar F. Hendrickson interred at Calumet.

The remains of the late Oscar F. Hendrickson, a private soldier, who died while on duty at Vera Cruz, June 3, were interred yesterday afternoon at Lake View cemetery, Calumet.

The funeral service, accompanied by full military honors for the deceased soldier, was held in the Calumet armory, under the auspices of the Calumet Engineers.

MARY FOLSOM CAN'T EXPLAIN HER DEED

Smith Graduate, Who Killed Husband, Is Believed to Be Insane.

Portsmouth, N. H., June 21.—"I do not know why I killed him," was the statement attributed today to Mrs. Mary Folsom, a Smith college graduate, who was arrested yesterday on the charge of shooting her husband, Henry A. Folsom, while they were driving near Exeter.

The Folsoms have a summer home at Newmarket, eight miles from here. When Chief Andrew Davis and a medical referee reached the scene Mrs. Folsom made no resistance to arrest and handed the weapon to the police officer.

She was a very fine man, Mrs. Folsom is said to have declared today. "I could not have been in my right mind when I did this. I had no reason for doing it."

Mrs. Folsom is under the charge of nurses in a private room at the jail. One of the county officials expressed the opinion today that the woman would not be tried. He pointed out that she was released two years ago from an asylum, where she had been confined for three years and that steps could be taken to have her recommitted.

The Folsoms have a summer home at Newmarket, eight miles from here. When Chief Andrew Davis and a medical referee reached the scene Mrs. Folsom made no resistance to arrest and handed the weapon to the police officer.

Revolt literature spread in Venezuela.

Caracas, June 21.—The long predicted revolution, headed by General Jose Manuel Hernandez, has started, at least on paper. The proclamation calling the Venezuelans to arms is dated in Trinidad on May 22, and was published in the principal newspapers of Caracas on this same date by order of the government.

Never before has the government taken upon itself the task of distributing revolutionary literature. Dr. Marquez Bustillos, provisional president of Venezuela, evidently has done this to show that the government is not afraid of General Hernandez and that he is very willing that everybody should know the nature of the revolution.

Companions: Victory will be with us due to the justice of our cause, our bravery, decision and energy. God will bless our army because it will mean the story of a brave and ungodly people, who have been sacrificing themselves against the oppressors.

Queen of Needle makes Playthings That Must Be Examined With Microscope.

Washington, June 21.—Through the happy medium of the National Geographic society, the smallest dolls in the world, who are, too, the quaintest figure in Mexico's quaintest town Cuernavaca.

This little girl is called Queen of the Needle and the natives of the village will tell you unhesitatingly that no clever Mexican dollmaker has ever been known.

The operation of making consists in forming a tiny framework of wire barely six months in length and then winding the same with many turns of silk thread. After the frame has been properly formed it is ready for dressing.

The clothing is cut according to the character of the doll and fitted carefully about the small figure. The most difficult work, that of embroidering, is then begun.

Wonderful Hair Dressing.

After dressing the figures it is necessary to add the hair, and what is undoubtedly an example of the tiniest and most marvelous hair dressing known is then performed on each doll.

TOO MANY STUDENTS IS COMPLAINT OF GERMANY.

Berlin, June 21.—Too many university students is the old complaint being voiced in both Germany and Austria.

The trouble in Berlin and Germany as a whole, concerns the medical students mainly.

In Austria the complaint is general.

Students of the English court of the fourteenth century were crowded last week when a book was discovered in London containing the details of the Black Prince, the son of Edward the Third.

City Brevities

Today's weather: Unsettled, showery. Yesterday's temperatures: Seven a. m., 52 degrees; noon, 54; 7 p. m., 55. Highest, 56 degrees; lowest, 49.

Joseph Kelly, of Munising, was a caller in Marquette yesterday. Miss Theora Swift has gone to Appleton, Wis., where she will spend some time.

W. R. Burt, of the Soo, was a Marquette business caller Friday and Saturday. I. S. Tow and H. S. Blanding, of Munising, were Marquette business callers Saturday.

John Siegel, the Third Street grocer, calls attention to his special ad in this issue on page eight.

Arthur Anderson has returned from Michigamme, after having spent the last few days at his home.

L. J. Bouer, of Chicago, who has been in Marquette for the last three weeks, left Saturday morning for his home.

Mrs. Richard A. Parker and Everett Parker, of Denver, Colo., are guests at the home of Mr. and Mrs. W. S. Hill.

Miss Genevieve Condon has arrived from Calumet to spend the summer here. She is a teacher in the Calumet schools.

Miss Lillian Constance and sister, Mrs. Thomas Price, went to Munising Saturday and Sunday, for a visit with friends.

Henry Rouleau, of Baraga, was in Marquette Saturday and Sunday to take the South Shore examination on engineer's rules.

Miss Audrey Schunk, who has been teaching school at Iron Belt, Wis., has returned to her home in Marquette for the summer months.

Miss Emily Gustafson has returned from Hancock, where she is a teacher in the public schools. She will stay at her home here this summer.

Mrs. H. Gregory and granddaughter, Miss Elizabeth Ellison, have gone to Duluth, where they are visiting Mrs. Gregory's daughter, Mrs. C. H. Merritt.

Mrs. William Fassender arrived in the city Friday evening from the copper country, where she has been visiting with relatives for the last two weeks.

Prof. G. L. Brown, of the Normal school faculty, has returned from Alba, Mich., where he delivered the commencement address to the graduating class of the high class.

The fire department responded to a call Saturday for the home of Joseph L. Smith, corner of Ohio and Oak streets. It was a minor chimney blaze, and little damage was caused.

Miss Blanche Primeau arrived in Marquette Saturday evening on the steamer Octorara, coming from Calumet, where she has been teaching for the last year. She will spend the summer months at her home.

W. A. Ross, deputy United States marshal, arrived in Marquette Saturday from a two days' trip to Iron River and Crystal Falls, having been called there on business for the United States district court.

Miss Lonetta Warcham, of Calumet, who has been visiting with Marquette friends for the last few days, leaves today for Ann Arbor, to be present at the graduation exercises of the University of Michigan.

George M. Unsworth, of Calumet, arrived in Marquette Saturday evening, to be here for the commencement exercises of the Northern State Normal school. His daughter, Miss Mildred, is a member of the graduating class.

Orlando F. Barnes and Thomas Kearney, members of the state tax commission, and Prof. W. F. Vernon, of the faculty of the University of Michigan, have returned to the lower part of the state, after having spent Friday and Saturday in Marquette.

J. H. Primeau, who was severely injured in Detroit several weeks ago, when he was caught on the street by some falling timbers, will be brought to his home here this week. He is now at one of the Detroit hospitals, but it is expected that by the latter part of this week he will be sufficiently recovered so that he can make the journey.

Captains C. M. York and C. M. Gooding, United States local inspectors, have returned from the copper country, where they have been inspecting vessels for the last few days. Captain C. H. Westcott, of Detroit, supervising inspector for the district, is now making an inspection trip of the upper lakes and will visit both the Duluth and Chicago sub-districts.

Marriage Licenses Issued—Marriage licenses were issued Saturday by the county clerk to Warren G. Roberts and Miss Cora C. Carpenter, of Evansville, Wis., and Carlo Bossone and Marianna Bollo, of Negaunee.

Marquette Cubs Won—The Marquette Cubs were the victors in a game with the North Ends yesterday. The score was 9 to 2. The batteries were H. Cresitere, J. O. Donnell and F. Clement for the Cubs; H. Paekel and S. Macklum for the North Ends.

Yesterday Year's Longest Day—Yesterday, June 21, was the longest day of the year, with fifteen hours of daylight. The sun rose earlier and set later than any other day in the three hundred and sixty-five. From now until Wednesday the days will be fully as long as yesterday, when the amount of daylight will gradually diminish.

Engine Broke Down—State patrol boat No. 4 has been in port for the last few days, to have repairs made to its engine. The boat's master is Captain Rose. She was far out in the lake the middle of last week when her engine broke down, and she was towed in to the Marquette harbor by a passing steamer. The repairs to the engine were finished Saturday.

Feature Program Today—"The End of the Umbrella," the seventh picture of the "Dolly of the Dailies" series, featuring Mary Fuller, will be shown at the Grand theater today. Other pictures on today's program are "The Antique Engagement Ring," a two-reel Vitagraph feature, "Maria's Three," and "Galligins' Accident Policy," Biograph burlesque comedies.

Entertainment for Seniors—This evening on the lawn at the Northern State Normal school, a short comedy, "Spoons," will be presented by members of the class, under the direction of Mrs. Rushmore. The entertainment is given in honor of the graduating class, following the play, the class will be entertained at a reception given by Mrs. Rushmore in Longyear hall.

City Brevities

Octorara in Port—The Anchor Line steamer Octorara was in port Saturday evening with the largest list of passengers so far this season. The boat arrived here from Houghton somewhat late, having been delayed by a fog in the upper part of the lake. One hundred and fifty passengers were on board. The passenger business has increased materially during the last week.

Night Force Victorious—A baseball team, composed of members of the night force of The Mining Journal, won from the day force in a game played yesterday morning at Meeske's park. The game ended with the score 7 to 2. The contest was marked by good fielding and good pitching. The batteries of the two teams follow: Day force: W. Leski, Berry, Baarous and Harry Leski; night force: Kelly, Corbett and Toupin.

A Harmony Singing Act—Marshall, Dean and Reeves, in a harmony singing, whistling and dancing comedy act, are at the Marquette Opera House the first half of this week. They include in their act a school room scene that is full of excellent comedy, and their harmony numbers are excellent. Their sketch is entitled, "School Days in Bingville," Wednesday only "The Bishop's Carriage" with Mary Pickford in the leading part will be the attraction. It is a four part production by the Famous Players' Film company. There will be a matinee.

Mill Team Was Winner—A ball team representing Schneider & Brown's mill, Deauville, defeated the West Ends yesterday afternoon by a score of 6 to 3. The mill team is looking for other games, and arrangements can be made by notifying U. J. Shirtz. The batteries yesterday were: Schneider & Brown's, Scofield and Swanson and Belongie; West Ends, Gantner and Leski. The line-up of the mill team was: Belongie, first base; Lemkie, second base; Stevens, third base; Novaek, shortstop; Jack Hill, right field; Haley, center field, and Shirtz, right field.

INSURE WITH PETER WHITE & CO. PYTHIANS CONDUCT MEMORIAL SERVICE

Heard Special Sermon by Rev. W. H. Smith at First Methodist Church Yesterday.

Sixty or more members of Marquette lodge, Knights of Pythias, gathered at the First Methodist Episcopal church yesterday morning to hear a special sermon by Rev. Walter H. Smith, the pastor; the occasion being the lodge's annual memorial observance. After extending a hearty greeting to the lodge, Rev. Mr. Smith said that he had chosen for his text, Mt. 9:29, "According to your faith, so shall it be done unto you," because it was one of the chief tenets of the Knights of Pythian fraternity.

"The principle enunciated in the text applies in three realms," Mr. Smith said. "We may exercise confidence in principles, in God and in men. Of the three realms in which this principle works one cannot be said to be more important than any other. We shall confine our study, however, to the working of this principle in the relationship of man to man."

"Lack of confidence in our fellows hurts us more than it hurts the person in whom we disbelieve. Whether we all realize it or not we must have an ideal world in which to climb. If we have not created for us ready made an ideal world then we must create such a world of relationship for ourselves. The man or the woman who sleeps his or her soul in jealousy and suspicion is killing in the end the finer instincts and graces of the soul. The tender graces of the spirit can no more grow in such an atmosphere than roses can grow in the Sahara. The man or the woman who peoples his or her community with immoral folk is robbing his or her own soul of the opportunity to grow. Said the apostle, 'Shun profane babblings and old wives' fables.' Be not conformed to this world, but be ye transformed by the renewing of your mind. 'Whatever things are true, whatsoever things are honorable, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there be any (such thing) as virtue, and if there be anything praiseworthy, think on these things.'"

"Says Dr. Jewett, 'Power belongs to the positive; our confidence generates our force. What is the quality and range of our confidence? The answer to this question will give the measure of our possibilities, and will reveal to us our responsibilities in the ministry of expulsion.' Well may the Knights Pythian fraternity preach the doctrine of confidence and faith. Well may the Church emphasize anew this regenerating force which makes for the liberation of the spirit of man."

Rev. Mr. Smith continued: "No more beautiful illustration of the power of confidence is to be found anywhere in literature than the story of Damon and Pythias. Pythias is doomed to die by order of the Emperor Dionysius I. Damon offers himself as hostage with his brother bids farewell to his family. The time is short. Damon is about to die on the scaffold, when Pythias, his noble charger white with foam, appears upon the scene. Dionysius is so affected by the trust and confidence displayed by the two men that he frees them both and begs for a place in their marvelous friendship. Ever thus does confidence override the mistakes and the sins of men and redeem her children to a newer and nobler life. Goethe was right when he said, 'The one real and deepest theme in the world is the battle between faith and unfaith.' Jesus Christ was right when he said, 'According to your faith, so shall it be unto you.'"

The members of the lodge met at Fraternity Hall at about 9:30 o'clock, and marched from there to the cemetery, where they decorated the graves of the deceased members of the fraternity. Each of the members wore a red carnation. Upon returning at 11 o'clock they proceeded directly to the Methodist church, where they listened to Rev. Smith's sermon.

CENTRAL DELIVERY WILL BE DISCUSSED

Merchants to Meet at 8 O'Clock This Evening to Talk Over Proposed Plan.

Grocers, butchers and other merchants of the city who are interested in the central delivery plan, which is being proposed by the Marquette Commercial Club, will meet at 8 o'clock this evening at the city hall for a further discussion of the matter.

Secretary Daley has now made all preparations for the Marquette sight-seeing tour, which will be conducted Wednesday. Cards have been sent to everyone in the city likely to be interested, and from the number of answers that have been received it is indicated that a large number will take part in it.

They are asked to meet in front of the city hall promptly at 8:45 o'clock Wednesday morning. Among the places to be visited will be the docks of the Lake Superior & Shipping railway, Schneider & Brown's mill, the Pioneer furnace, the Lake Shore Engine Works, the Upper Peninsula brewery, the South Shore shops, Vandenberg's dairy, Pickands' coal dock, Spear's quarry, and the Marquette Box & Lumber company.

Major Peek, U. S. Engineer, consulted with Commissioners about Boulevard.

Following out the advice of Major E. D. Peek, U. S. engineer, the commission will take steps to prevent further damage to the Lakeshore boulevard, running north from Ridge street to the Pine street drive at the Pioneer Iron company's furnace, with the purpose of ultimately again opening it to traffic and making it a permanent part of the Marquette system of driveways.

Another thing necessary to assure the permanency of the driveway will be the construction of a cribbed seawall from the junction with the Pine street road for a considerable distance southeast. In former years it was necessary to protect the Presque Isle drive from this point north in a similar manner, and unless such protection is given the Lakeshore boulevard it will be useless to re-open it.

The boulevard was, before it was damaged, one of the most attractive drives about the city, and one of the most popular. The commissioners were much impressed with what Major Peek had to offer on the subject. The appropriations for this year made no provision for any work at this point, but it is likely that ways and means will be found for at least making a start with it this season.

SHAKE OFF YOUR RHEUMATISM. Now is the time to get rid of your rheumatism. Try a twenty-five cent bottle of Chamberlain's Liniment and see how quickly your rheumatic pains disappear. Sold by All Dealers.

What arrangement have you made for your hot water this summer? The most economical and convenient way to heat water is with a gas water heater. Ask your neighbor who has one and then your own Gas company. 6-6-14.

When you want painting or paper hanging done call up C. A. Lawrence, Phone 925-J. 6-16-14.

Recognition is given in the new seamen's bill, reported to the house the latter part of last week, to the extraordinary degree of safety already attending navigation on the great lakes in the summer months. The lake passenger boats, in view of their excellent record, are given special exemptions which will enable them to continue in operation without piling their decks with such a mass of lifeboats as to destroy the existing degree of safety and to render them actually dangerous.

Lake passenger boats keeping within three miles of shore (and this is taken to mean within three miles of shallow water) are conceded to be carrying all the lifeboatage necessary.

Lake passenger steamers going more than three miles from shallow water are called upon to carry lifeboatage for 50 per cent of the persons on board during the summer months, and of this provision three-fifths must be lifeboats. The form of the bill shows that testimony of naval designers, constructors and owners given since the discredited LaFollette-Furness seamen's bill reached the committee last October was listened to with profit.

All classes of men engaged in seafaring are provided for, whereas the Furness bill aimed at the aggrandizement of the deckhands at the expense of all others—firemen, stewards, cooks, water tenders, etc. The new Alexander bill is commented on as being the first real bill for seamen that has ever come to congress.

If passed as it stands the new bill will impose the same rules for domestic shipping that have been laid down for the world's shipping in the London safety program. The following are the essential modifications as regard navigation on the lakes:

"Between May 15 and Sept. 15 there shall be lifeboat accommodations for 50 per cent of all boats of which two-fifths must be lifeboats and not to exceed three-fifths lifeboats.

"All boats whose construction is started after July 1, 1915, to run more than three miles off shore, shall be constructed to carry enough lifeboats for all on board of which accommodation, not to exceed 25 per cent, may be lifeboats.

"Steam vessels operating on the great lakes three miles or less from shore shall carry such lifeboat and raft accommodations as shall be determined by the board of supervising inspectors and approved by the secretary of commerce."

The Furness provision that there shall be two able seamen to every lifeboat is amended and the term "certificated lifeboat man" is substituted for the term "able seaman." Any member of the crew showing possession of ability to handle a lifeboat may become a "certificated lifeboat man."

PROTECTION OF DRIVE PLANNED

Major Peek, U. S. Engineer, consulted with Commissioners about Boulevard.

Following out the advice of Major E. D. Peek, U. S. engineer, the commission will take steps to prevent further damage to the Lakeshore boulevard, running north from Ridge street to the Pine street drive at the Pioneer Iron company's furnace, with the purpose of ultimately again opening it to traffic and making it a permanent part of the Marquette system of driveways.

Another thing necessary to assure the permanency of the driveway will be the construction of a cribbed seawall from the junction with the Pine street road for a considerable distance southeast. In former years it was necessary to protect the Presque Isle drive from this point north in a similar manner, and unless such protection is given the Lakeshore boulevard it will be useless to re-open it.

The boulevard was, before it was damaged, one of the most attractive drives about the city, and one of the most popular. The commissioners were much impressed with what Major Peek had to offer on the subject. The appropriations for this year made no provision for any work at this point, but it is likely that ways and means will be found for at least making a start with it this season.

SAYS NEW CONSTITUTION FOR CHINA IS GOOD ONE

Former Advisor to Yuan Shi-Kai Approves of "One Man" Government for Celestials.

Peking, June 21.—Dr. Frank J. Goodnow, who plans to give up his post of advisor to the president of China and to return to America in August to become president of Johns Hopkins university, is pleased with the revision of the provisional constitution of this country. Though the revision of the constitution is criticized and ridiculed by the foreign press in China—the Chinese press not daring to do so—Dr. Goodnow says it is much like the drafts he drew up at the request of the president. "It is modeled in a large measure," he says "on the constitution, making allowance for a president as differing from emperor."

It will be remembered that President Yuan Shi-kai found the Provisional constitution, which these radical reformers drafted two years ago at Nanking, unsuited to the effective administration of affairs during the critical first years of the republic. He desired, therefore, to see the permanent constitution drawn up on lines which he deemed suitable to this country. But these radical reformers who wanted a "people's government" disregarded the President's wishes and advice, and when the parliament was assembled, undertook the work of drafting the permanent constitution not only without seeking his assistance but in distinct opposition to him. The committee selected to do the work declined to receive a message from him and also refused to admit his personal emissaries into their conferences. Thereupon Yuan Shi-kai took matters in his own hands, issued a mandate dissolving the Kwang Ming T'ung, the radical party, which was the largest. As a result parliament ceased to function, because there was

not a sufficient number of members left to muster a quorum. The president later caused a committee to be appointed for the purpose of revising the Provisional constitution. The committee was composed directly and indirectly of nominees of his own group of politicians; the present revision was the result.

As reported in the cable despatches, the revised constitution gives the President practically dictatorial powers. He has held them hitherto—to such an extent as any single man can be a dictator—but not legally. He now is surrounded with the form of legality. "Japan's constitution," Dr. Goodnow explains, "has been a successful attempt to adapt ideas of European representative government to an Asiatic people that has always had an autocratic government. The last two years especially show that the Japanese people are getting control of their government. It looks to me as if a constitution like that now adopted by China, if the people only work it, is capable of developing representative government."

"Of course, it is true that the president has wide powers under the constitution. He has, in the first place, practically supreme powers over the executive and administrative branches of the government. He appoints all civil and military officers, and has the power to dismiss all officials with the single exception of judges; and his exercise of this power is not subject to the control of the legislature.

"He also has large powers of legislation, and holds practically absolute veto power over the actions of the legislature. That is to say, he has power to issue ordinances not contrary to law, to promote public welfare, as well as execution of law. And in times of urgency, when the legislature cannot be called together, he has the power to issue ordinances which supersede existing law. It thus will be seen that the President has concurrent power of legislation with regard to matters which have not been regulated by law.

"By means of the power of veto he can prevent legislation. On the other hand the legislature is given no power for repealing, either expressly or im-

plied, unless its action has the president's approval.

"If, however, a legislative body which it is all effective can be developed, it is hardly to be doubted that it will exercise great influence over the president's power of legislation. If the body is incapable it will not hamper him. If it is effective and really represents the people the president will not be likely to use his power of veto in serious matters.

"For the past two years China has been financed by foreign loans. Unless we can look to a great increase in taxes further loans will have to be made. They, to be valid, must, according to the constitution, be made by the legislature, whose action also is necessary for any increase in taxation. The early English parliaments did not exercise control over the appropriations; they had authority only over taxation.

"This constitution, it is to be remembered, still is a provisional constitution, adopted for the purpose of permitting transition with safety and as little friction as possible from the autocratic government of the past to some form of representative government based on European ideas. The Provisional constitution itself provides for a permanent constitution which is to be submitted to a citizens' conference to be convoked by the president and to be organized by the same body which has drawn up the present revised provisional constitution.

"If experience should show that the powers granted to the president by the provisional constitution are too large and that it is possible under conditions now existing in China for a legislative body capable of effective action to develop, there is no reason to suppose that China may not take successfully its first steps along the road of constitutional government under this revised provisional constitution—as has already been indicated in Japan under a similar instrument.

"Of course the success of the Revised Provisional Constitution as of any constitution that might at this time be adopted, depends on the action of the president. The expression of any views with regard to the president's attitude must be largely based on a personal

opinion and belief. It is my belief and opinion that the president is sincerely desirous of contributing to the establishment of a form of representative government which will permit China to save the problems that are before her. President Yuan is, of course, unaccustomed to the forms and practices of constitutional government as it is seen in Europe and America. He also must be guided in much that he does by those who are about him and must make use of the means which are at his command. He is naturally inclined to take a conservative rather than a radical view of the situation. And the disorders in the country prove that such an attitude on his part is correct.

"I feel sure that he wishes to give China a form of government that will permit of the representation and expression of the views of the important and influential classes of the community. The Chinese people have been accustomed to a personal government and not the rule of law. Here is a point in favor of the new constitution. It lays stress on personal government as contrary to the revolutionaryists' attempt to establish. This is in the nature of evolution and not a radical and dangerous change."

IRISH FARMERS GOING IN DEBT \$5,000,000 EACH YEAR.

London, June 21.—A departmental committee which has been going into the conditions of agricultural credit in Ireland finds that the indebtedness of Irish farmers has been increasing at the rate of \$5,000,000 a year since under the Wyndham land act they commenced to settle on their own land. The opinion is given in the report that facilities for supplying credit on sound lines to the smaller and medium rural classes in Ireland are inadequate. The professional moneylenders have made an invasion of the island, and nearly have driven out the "gombeen men" who are sub-contractors and shopkeepers serving as moneylenders.

As a solution of the credit problem the committee suggests that rural Ireland might itself supply the money it

needs, since the real community has \$65,000,000 on deposit in the postoffice savings banks, a huge sum which is transferred to London for investment in government securities when it might be employed at home. The committee recommends the establishment of a sound system of co-operative credit to safeguard the farmers from moneylenders.

ATLANTIC POOL CONFERENCE MUST DEFINE STATUS OF BRITISH LINES U. S. QUIT.

Berlin, June 21.—When the Atlantic Pool conference renews its deliberations in London Aug. 5, it will still, notwithstanding its earlier sessions in Berlin, London and Cologne, find itself facing one problem which apparently is no nearer solution now than at the close of the first meeting of the conference. This is the attitude of the British lines doing business with Canada as to their quota under any renewal of the existing pool. The present agreement, which expired Jan. 1, last, has been renewed until the London conference, but failure to reach an agreement there would mean the end of the pool.

The Canadian line says it is learned that the Canadian line's quota for the five years should be taken as the basis for the quota to be assigned them. This business, however, has fallen off sharply in the last year, dropping, in fact, to 50 per cent of the former figure, and the other members of the pool object to any division of business that does not take this decline into account. Director Ballin of the Hamburg-American line proposed that the half of the five-year average be taken as a basis for reckoning the Canadian line's quota, with the proviso that as soon as this business should show an increase of 20 per cent the lines in question should be entitled to a revision of their quotas upward.

Representatives of the Cunard line advise the acceptance of this proposal. The Canadian representatives then asked for time to consider, which was granted by the conference adjourning.

Fig growing is being tried in Texas.

CLEANING

This is the season of the year when you want everything about the house looking spick and span. Have you thought of your rugs, or the dresses, suits, quilts, etc., that are too good to discard? We can clean them, making them look as good as new. Our cleaning and dyeing process is up-to-the-minute. Give us a trial.

We are also making a specialty of family washing, at prices that are right.

Needham Bros,' Laundry
Ishpeming, Mich. Division Street

WANTED—Lady or gentlemen agents in Marquette, Negaunee, Ishpeming and Houghton. Experience unnecessary. Address X, Mining Journal office, Ishpeming, 6-22-14.

FOR SALE—Eight-room house and small house in rear. Large house rents for \$17 and small one for \$8. No. 469 North First street. Price \$2,750. E. C. Cooley. 6-18-14.

FOR RENT—Seven-room cottage. Everything convenient. Inquire 719 Morris street. 6-18-14.

FOR RENT—Warehouse for storing autos, rigs, household goods, etc. New building, concrete floor, connected with city sewer. Inquire Stephen Simons, 141 East Pearl street. 6-15-14.

WANTED—American girl at Owl Cafe. Phone 550-W. 6-14-14.

ISHPEMING IN BRIEF.

Miss Olga Erickson left Saturday night for points in the West, on a visit to relatives.

Carl Tomella and family, of Marquette, were guests of William Leininger and family yesterday.

Mr. and Mrs. M. C. Scully, of Marquette, attended the funeral of 41e late Mrs. Bickle Dave here yesterday.

H. G. O'Keefe has returned from Minneapolis, where he attended a meeting of representatives of wholesale grocery concerns.

The second dinner-dance of the season will be given Friday evening at the Golf clubhouse. Dinner will be served at 6:30 o'clock. Dinner tickets will be fifty cents and dance tickets \$1. Those desiring dinner are asked to notify Mrs.

Ishpeming Department

WOODMEN DELEGATES HAD WARM SESSION

Fight Between Opposing Factions Was Continued from Opening Until Closing Day.

One of the Ishpeming men in attendance at the lead camp session of the Modern Woodmen of America, held last week in Toledo, O., writes friends here that the contest between the delegates who stood by the administration and those representing the insurgent faction was a hot one. There was no let up in the "wire-pulling" and word combats between the opposing sides from the time they arrived in the city until the election was over.

The administration forces did not have as many delegates as they expected a week before the convention opening. They expected that they would have a majority of about 100, but when the ballots were counted their lead was only forty. The delegates on both sides stood pat, from beginning to end, and it was evident from the ballot on the new officers was taken that the administration slate would go through without a hitch.

All of the former members of the board of directors were slated for reelection, but four of the seven auditors were dropped. M. R. Carrier, of Lansing, Michigan's only representative on the auditing board, who has held the office for some fifteen years or more, was rejected, as were two of the other old members.

John A. Sundeen, who led the insurgent forces at the last lead camp session, is said to have gone over to the administration side. Sundeen comes from Minnesota, where the anti-administration sentiment has been strong for the past four or five years. Sundeen fought harder against the rates in rates, proposed by the lead officers at the Chicago convention two years ago, than any other member of the society, and it was a great surprise to those attending the Toledo meeting that he lined up with the administration forces.

The Toledo convention is said to have been the most spirited the Modern Woodmen have ever held. The administration forces did not offer a new schedule of rates, nor did the insurgent delegates seem anxious to propose a change, so the rate question is practically dead for the present at least.

TAX COMMISSION IS CRITICISED

F. Braastad, Ishpeming's Heaviest Individual Taxpayer, Expresses Views.

To The Mining Journal:—I would like to express my views on tax matters in the city of Ishpeming. I wish it understood, at the outset, that I have no objection to the valuations in the valuations of mining properties. I do believe, however, that proportionate reductions in the valuation of other property should be granted. As Ishpeming is distinctively a mining town, it is unnecessary for me to suggest the thought that the value of all property goes up in proportion with the mines, therefore, I feel that property owners in general are entitled to this consideration.

I want to ask the members of the tax commission and the board of review if the individual property owners are not being discriminated against, in a manner that the mine is not as taxable as it was a few years ago. Two years ago the valuation of the Lake Angeline was set out from \$450,000 to approximately \$128,000. This year the valuation of the mine is further reduced by the tax commission to \$88,948, while the value of the other property has been increased from \$24,300 to \$16,500. Why has this reduction been granted in the valuation of the company's dwellings, while the valuations of dwellings of the individual property owners remain the same as last year?

Has Company Been Favored?

As to the value of the Pittsburg & Lake Angeline Iron company's dwellings, it would seem that the tax commission has specially favored the corporation. I understand that the company has forty-seven houses on the tax roll, with a value of \$10,500. This would make the average value of the company's houses and lots, \$221. I know that there are some pretty good houses included in this list. For instance, there is the one formerly occupied by Captain Thomas Walters, surrounded by a lawn of almost an acre; the one occupied by Assistant Superintendent C. T. Kruse and family and the one occupied by Mrs. George E. Persons and family. Any one of the three houses is almost as good a property as my home (location not considered) on which the assessed valuation is \$7,000 or a little more than one-half the total valuation of the Pittsburg & Lake Angeline Iron company's forty-seven houses and lots. If this is justice and equal taxation, I fail to see it.

I am not objecting because of personal taxes alone, but I am satisfied that other taxpayers in the city are being hit as hard, proportionately, as I am. My stock of merchandise is valued at \$67,000; my business block, \$40,000 and other properties in proportion, so that I pay nearly twice as much taxes, including personal tax, as the Pittsburg & Lake Angeline Iron company.

An Unreasonable Question.

I notice that the members of the boards of review in Marquette county have acquired the same habit as the members of the tax commission, namely, asking property owners if they would sell their homes or business blocks for the amount at which they are valued. This I consider a very unreasonable question. There are many reasons why men should not sell their homes at the assessed prices. So far as I am concerned, I will sell my home for an amount equal to the value placed on it by the tax commission. How many of the councilmen will sell their holdings at the assessed prices?

I would like to ask if the Pittsburg & Lake Angeline Iron company would sell its properties at the prices on the assessment roll. If the answer is "no," should I be asked of the other corporations operating properties here. Could they afford to sell at the figures representing their assessed valuations? I think not. The same is true of almost every individual property owner in the city. Therefore, this question, asked by members of the tax commission and boards of review is not only unreasonable, but I consider it rather impertinent.

How Board Can Help.

One day this week I had a talk with O. E. Barnes, chairman of the state tax commission. He informed me that any reductions the board of review might make as to the valuations of personal properties can be made without reference to the commission, and that the tax commission would consider recommendations made by the board relative to real estate values. The members of the board tell us that they have no power, that the tax commission is supreme. According to Mr. Barnes, the recommendations and judgment of the board with reference to the value of real estate would be given due consideration and in all probability reductions recommended would be granted. Why then does not the board of review recommend reductions in valuations equal to the same percentage granted the mining companies?

If the board of review has no power, as was stated this week by some of its members, why hold sessions for several days and draw pay from the city's treasury? Why make fools of poor men who lost half shifts from their work in order to make complaints on their assessed valuations? Why not abolish the board of review entirely and save this expense and worry to the property owners?

The members of the board of review have been rather liberal in the use of the taxpayers' money. This is not surprising, when it is considered that about 50 per cent. of the members of the council are non-taxpayers, so that they have little regard for how our money is spent. I do not wish the people of Ishpeming to feel that I am a "trough" on the tax question. On the contrary, I think all will agree that I have done my share toward the maintenance and upbuilding of the city. I have never

objected to public improvements and I have always paid my share cheerfully, but the tax burden has reached a point where it is a great hindrance in conducting mercantile business.

It seems to me that the time has arrived when a general protest against the apparent unfairness of the state tax commission should be registered, in no mild form.

F. BRAASTAD,
Ishpeming's heaviest individual taxpayer.

WON SLUGGING BEE.

Ishpeming Defeated Gladstone Yesterday by Score of 12 to 11.

The Ishpeming baseball team yesterday won a slugging bee from the Gladstone nine by a score of 12 to 11. Ishpeming marked up nineteen hits, while Gladstone was gathering eighteen. Maloney was the Ishpeming pitcher. A double header was scheduled, but weather having prevented the proposed Saturday's game, but only one contest was played.

THEY TALK AUTOMOBILE.

Tyler & Carr, the vaudeville team that will entertain at the Ishpeming theater tonight, tomorrow and Wednesday evenings, have what they term a tangle talk automobile conversation. They are chauffeur and mistress, and their country touring has the touch of realism that makes all motorists kin. Their act is very different from the average vaudeville sketch and is being well received. Tonight's picture program will be made up of a Pathe Weekly, "Ancient Ruins of Thebes," "A Romance of the Forest Reserve," a Selig drama, and "The Scar," a biograph drama.

ISHPEMING BRIEFS.

The third installment of "The Perils of Pauline" will be shown tomorrow evening, also at a special matinee Wednesday at 2:30, at the Lyric theater. The installment is said to be full of

INTEREST IN POLITICS KEEN

With Primary But Two Months Off and the Candidates Active, More Discussion of Public Questions Heard in the U. P. Than in Any of Several Months Past.

Entrance of Chase S. Osborn in Gubernatorial Race Commands Most Attention, and Many Figure That Victory in August Lies Between Him and Groesbeck.

With the August primaries now only two months off, with A. J. Groesbeck, candidate for governor, in the upper peninsula on a preliminary trip, with the announcement of the candidacy of Chase S. Osborn, and with the candidates for congress actively in the field in the Twelfth district, the past week has witnessed the most noticeable revival in political interest hereabouts that has occurred in nearly two years.

The candidacy of Mr. Osborn has commanded the most attention and has given rise to the most discussion. It has all along been regarded as one of the possibilities, and, therefore, though it comes late, it occasions little surprise. The general direction of the Osborn campaign will, it is said, be in charge of Gilbert Dame, who was dairy commissioner under his administration, but in large measure the canvass will be looked after by Mr. Osborn himself, who is planning on a state-wide speaking tour. On the score of aggressive newspaper support Mr. Osborn, it is stated, will surely fare very well. Eighteen leading newspapers are said already to be definitely committed to him.

Due, perhaps, in large measure to the fact that they had counted Mr. Osborn out of the race, a number of his field lieutenants of 1910 are now committed to other candidates. One of these is W. R. Oates, of Marquette, the state game and fish warden, who has been touring the upper peninsula with Mr. Groesbeck. In 1910 Mr. Oates looked after the Osborn campaign in this district, and was also active in the canvass in other parts of the state. Mr. H. Dufour, of Charlevoix, Mr. Osborn's executive secretary for a time, who was also prominent in the Osborn campaign, is likewise active for Mr. Groesbeck, and C. A. Palmer, insurance commissioner under Osborn, is said to be friendly to Groesbeck, though he is not now active in politics.

New Organization Forming.

But while the Osborn lieutenants of 1910 are to some extent committed in other quarters, a new Osborn organization is forming. Its beginnings date back several weeks, to the inception of the movement designed to force Mr. Osborn to become a candidate. Mr. Dame and other lower state men have been active in it, and they have done considerable work. While much of the burden of the campaign will rest on Mr. Osborn himself, he will not lack for workers, though, because of his late entry, the organization is bound to be inferior, as a working machine, to that which supported him in 1910. The campaign that year was actually begun in the latter part of 1909.

Mr. Osborn is generally regarded as a serious factor, and it is predicted by most politicians in this district that victory in the primaries will lie between him and Mr. Groesbeck. They base this opinion on Mr. Osborn's undoubted powers of appeal on the stump and the effectiveness of his personal campaign four years ago and on their belief that Mr. Groesbeck is in touch with the men active in the Republican organization and is likely to get a large vote in Wayne.

Wayne, it is asserted by many persons, will be one of Mr. Osborn's weak spots, and those who say this also predict that he is not going to get the vote in the upper peninsula that he might be expected to, because of his residence in this district. Mr. Osborn had numerous "runs in" with leading upper peninsula Republicans during his previous term. In the course of his fight for the presidential primary last, it will be remembered, he denounced certain well-known men connected with the mining industry for their work in "flaming up" Senator Murray against the measure. These incidents are not forgotten, and if what is heard about the clubs and other resorts where politicians do most congregating is not to be heavily discounted, Mr. Osborn will not fare at all as well up this way as he did in 1910. But the attitude of the rank and file of the voters, which will be the determining factor, has not been delved into very deeply, and perhaps the issue will depend more than anything else on the course of the campaign.

In western Michigan Mr. Osborn appears to be in high favor, and he is expected to make a great run there. The Grand Rapids newspapers are most cordial where he is concerned, despite the fact that Mayor Ellis, of Grand Rapids, is one of the candidates, and apparently Mr. Osborn is assured of a large vote in Kent. Generally throughout the lower part of the state, it is said, he will get a substantial vote.

Three Other Candidates.

In addition, there are three other candidates who will appeal to the Republican electorate. Of them Secretary of State Martindale is the best known, and he has many supporters who will take exception to the forecast that the race will lie between Mr. Osborn and Mr. Groesbeck. They dispute with the latter his claim of a big lead in Wayne and

predict that their candidate will be strong there. However, the general view of apparently disinterested politicians is not in agreement with their contentions. After Martindale came Commander Gardner, of the G. A. R., and Mayor Ellis, of Grand Rapids, whose strength is unknown, but who are not generally figured for place. It has been said that Mayor Ellis will appeal particularly to the labor vote. He is regarded as an adroit politician and has overcome no end of coalitions to defeat him as mayor of Grand Rapids. His acquaintanceship in the state, however, is not at all as general as those of the other candidates. What part the "wet" and "dry" controversy will play in the contest is another interesting subject of speculation. Groesbeck is generally figured a "wet," not because of any direct expressions by him on the subject but because it is felt could have the strength he commands in Wayne county. There has been some talk that Mr. Osborn might espouse the cause of the "drys," but it has no warrant in anything he has said, and reflects principally the fact that early in his administration he had a "run in" with some of the prominent "wets" in the legislature.

Interest in District Contest.

The interest in the Republican primary contest in the Twelfth district is, with the greater activity of the candidates, Senator James and James T. Fisher, increasing. Public opinion makes James a favorite in this contest. Mr. Fisher's friends decline to admit the soundness of this view, however. Representative MacDonald is not being underestimated the way he was earlier in the year, when many persons seemed to have the idea that he would not be a serious factor. It is now indicated that he will make a strong run, as indicated reports show that he has much strength among the workmen and that in his support party lines are likely to be broken down to a considerable extent.

VALUATION IS CUT \$308,000

New Figure on Pioneer Iron Company Will Considerably Reduce Its Taxation.

The engineers for the Pioneer Iron company figured out a present value for the North Marquette plant of \$500,000. The state tax commission's expert, Professor Vernon, arrived at a reproduction cost for the present plant of something in excess of \$1,300,000.

The commission, after due consideration of the showing of the company and consultation with its expert adviser, Saturday reassessed the property at \$782,000, a \$308,000 reduction from the old figure of \$1,088,000.

With this readjustment the officials of the Pioneer Iron company are satisfied, and it is likely that the suit of the company against the city on the score of the 1913 taxes, which were based on the assessment of \$1,088,000, will be settled out of court.

The commission is said to have figured on the value of the North Marquette plant in three or four different ways each giving a figure approximating that finally fixed as the new valuation.

MARRIED IN NEWBERRY.

Bert Scholtus and Miss Lillian M. Liberty United in Wedding Saturday.

In the presence of a few relatives and close friends, Miss Lillian M. Liberty, daughter of Mr. and Mrs. Joseph Liberty, Newberry, was married to Bert, "Hap," Scholtus, of Marquette, Saturday afternoon at Newberry. The ceremony was performed at 3:30 o'clock by Rev. E. H. Scott, of the Methodist Episcopal church. The couple were attended by Mrs. O. H. Underwood, of Gladstone, a sister of the bride, and Peter Scholtus, of this city, a brother of the bridegroom.

The bride was attired in a gown of ivory satin, with shadow lace cap, and carried a bridal bouquet of white roses. The bridesmaid wore a pink and white crepe dress, trimmed with shadow lace, and carried a bouquet of pink and white carnations. Supper was served at the bride's home, following the ceremony.

Mrs. Scholtus is well-known to many Marquette residents, she having spent two years at St. Luke's hospital training school previous to February of this year. She was graduated from the hospital at that time, and has been practicing in Newberry since then.

Mr. Scholtus has spent the greater part of his life in Marquette. He attended the Marquette schools and was graduated with the class of 1906. He has been prominent as a baseball player, and was a member of the Marquette team for a number of seasons. He is now employed as a clerk in the Marquette postoffice. He is a son of Mr. and Mrs. John Scholtus, North Third street.

The out-of-town guests present for the wedding were Mr. and Mrs. Scholtus, Peter Scholtus, Mrs. C. K. Scholtus, Mrs. O. H. Underwood and son Clarence, of Gladstone.

BACCALAUREATE HEARD BY MANY

Graduating Class of Northern State Normal School Yesterday Afternoon Listened to Address by President J. H. Kaye—Told Students of Their Responsibility

Class Day Exercises Will Be Held at Presque Isle This Morning at 9 O'Clock—Commencement Program at Opera House Tomorrow Morning at 10:30 O'Clock.

Commencement week at the Northern State Normal school was formally opened yesterday afternoon with the annual baccalaureate address, which was given by President James H. Kaye, in the assembly hall of the institution. The hall was filled with relatives and friends of the graduates. President Kaye's address, which carried a special message to the class, was an eloquent one, and was followed with the closest attention. He took as the lesson the thirteenth chapter of First Corinthians, and based his address on the last verse of the chapter, "Faith, hope and charity, the greatest of these is charity."

Developed Meaning of Charity.

In following up the words of St. Paul in the verse quoted, the speaker developed the meaning of the word charity, saying that what we mean today by our words, "charity and love" are not all of what St. Paul meant.

"The new version uses the word 'love' for the older term, 'charity,'" President Kaye said. "But Paul did not use either of the words we use. He implied neither what our words love and charity imply, but rather the sentiment of reverence and respect for humanity. Paul's meaning comes from the Greek word that stood for all acts of a reverential nature. It was used to express the memory of the dead and in performing funeral honors. It was used to express the sentiment which the Romans expressed by 'salve'—hail and be happy. It did not express that respect which binds mother to child, or wife to her husband, but that wide kindness which flows out from the heart to the whole human race."

The Higher Interpretation.

In discussing the broader meaning of charity, the speaker brought out the idea that our latest and best civilization is based upon the higher interpretation, which St. Paul gave us. He developed the obligations which students should have because of the education and opportunities they have received.

"The crass individualism of the nineteenth century is already crumbling before a higher and complete view of the individualism of the twentieth century," Mr. Kaye said. "We are rapidly turning from the materialism of the nineteenth century to the study and betterment of man in the twentieth century. The problems the supreme problems of the twentieth century—are social and ethical, and nowhere can we turn to a better solution than to Christ's teachings, which under the name of the education and the reiteration of those teachings was given by St. Paul in this chapter on respect for all mankind."

"Both church and state are rebuilding upon this higher conception of the meaning of charity, as given by St. Paul," President Kaye said, "and he placed before the graduates their great responsibility and the staleness of their calling and urged them to live up to their highest ideals. In closing he said:

"We trust that you take with you in your memory what you have learned of good, the betterment of the world, and that you, forgetting anything not kind and good should there have been such, feeling that our hearts, our love, our respect, our hopes are all with you and that though you pass from our sight and from these halls, you do not pass from our hearts or from our prayers, and the earnest prayers for you in your new work. We place the honor, the success, the usefulness, the very glory of our beloved school in your hands, feeling that it is well placed."

BISHOP EIS TO BE PRINCIPAL SPEAKER

Will Address Hibernians at State Convention at Calumet in August.

Rev. Bishop Eis, of Marquette, will be one of the principal speakers at the state convention of the Ancient Order of Hibernians, which will convene in Calumet Aug. 18, 19 and 20. He will take part in the program for the first day, when all the delegates and members of the state orders assemble at the Red Jacket town hall, Division No. 4, of this city, will be among those represented at the state meeting. Arrangements for the gathering are now being made by Division No. 2, Calumet lodge, and it is now indicated that the number present for the meeting will be large.

Following the opening session at the Red Jacket town hall, at which Bishop Eis will speak, the delegates will form a rank and march to Sacred Heart church, where solemn high mass will be celebrated by Bishop Eis. He will also give the sermon. Rev. Father F. X. Barth, of Escanaba, will be among the priests to take part in the opening exercises.

HEALTH SPECIAL COMING.

State Train Will Visit Marquette the Latter Part of August.

The latter part of August has been tentatively selected as the time the state health special train will visit the upper peninsula, this announcement having been made by the state board of health and the dairy and food commission, under whose direction the train will be run. Leaving Lansing on Aug. 2, the train will stop at many cities in lower Michigan until Aug. 11, when it is scheduled to arrive at St. Ignace.

From that date until the end of the month the train will remain in the upper peninsula. In addition to the subjects presented in the exhibits of previous years, there entirely new subjects will be included, namely, month hygiene, home sewage disposal, and school sanitation. In addition, the "baby exhibit," showing the proper care and nutrition of babies, will be greatly elaborated.

The last few months the state board of health has been confronted by many problems of sewage disposal. Most of the complaints came from places where there is no regular sewer system. The experts of the board have been working night and day on these problems, and if the force were doubled there would still be plenty of work for them. On the

league. Places were set for forty-five persons, members of the society coming from all parts of the upper peninsula. An excellent menu was prepared by the students of the domestic science department, under the direction of Miss McCallum. Professor C. C. Spooner was toastmaster, and Professor J. E. Lauther delivered the annual address. Other speakers were Miss Irene Barron, Miss Cora Harris, Miss C. E. Maxwell, Miss Grace Farrell, Miss Doris King, and President Kaye.

It is probable that the Arlington hotel will be made the headquarters of the convention.

The last few months the state board of health has been confronted by many problems of sewage disposal. Most of the complaints came from places where there is no regular sewer system. The experts of the board have been working night and day on these problems, and if the force were doubled there would still be plenty of work for them. On the

From that date until the end of the month the train will remain in the upper peninsula. In addition to the subjects presented in the exhibits of previous years, there entirely new subjects will be included, namely, month hygiene, home sewage disposal, and school sanitation. In addition, the "baby exhibit," showing the proper care and nutrition of babies, will be greatly elaborated.

MUSLIN UNDERWEAR

BEST VALUES TO BE FOUND ANYWHERE

WE ARE putting out this week our second large lot of Muslin Underwear and we challenge comparison on our unmatched values.

Judging from the price quality and style standard; these ready-to-Wear garments put home sewing out of the question.

All materials—Muslins Laces, Embroideries are thoroughly good. We buy of the very best manufacturers, having many styles made especially for us in order to get just what we think will suit our trade.

It would pay you to come in and buy some of those night gowns, skirts, combination suits, corset covers and princess slips before they are all gone.

FANCY FRESH PINEAPPLES FOR PRESERVING

I was fortunate in buying a large quantity of fancy Pineapples below cost and they will be on sale today at the small price of TWO for 25c, a small price for big Pineapples. They wont last long—order early. Positively the last chance to buy them at this price this year.

John Siegel, Third Street Grocer
