## MONTANA GOVERNOR REVEALS HIS REQUEST FOR FEDERAL TROOPS

### Asks Forces Be Sent to Fort Missoula, Ready for Duty in Case of Further Rioting.

## BUTTE IS QUIET FOR TIME BEING

### Police Begin Active Campaign Against Lawlessness When Ar- rested Man Is Found Armed With Explosives—Reserves Are Called Into Service—Those Re- sponsible for Tuesday's Fatal Disorders Will Be Prosecuted, It Is Announced—Inquest Today.

Washington, June 26.—Indications tonight were that President Wilson would not act immediately upon the request of Governor Stewart of Montana, renewed today, that federal troops be moved from Fort Vancouver to Fort Missoula, so as to have them near at hand in case of further serious trouble among the miners at Butte. The president has not returned the matter to the war department for action and probably will not do so until he considers it absolutely necessary.

Senator Meyers late today received from Governor Stewart a telegram saying the situation at Butte was unchanged and that all was quiet.

### Rioters Will Be Prosecuted.

Butte, Mont., June 26.—Soon after word was received here tonight that President Wilson was considering Governor Stewart's request for federal troops in Montana, so as to be prepared for an outbreak here, County Attorney McArthur announced that he will begin a vigorous prosecution of the men who caused the riots Tuesday night when one man was killed, others were wounded and the building of the miners' union destroyed. The county attorney asserted that his investigation has convinced him that after the inquest tomorrow into the killing of Edward Noy he will be able to make an arrest on the charge of murder.

The city authorities have called into duty all men on the waiting list of the police force. At the city hall the statement was made that an active campaign against lawlessness in Butte is to be instituted. The finding of a bottle of nitric acid and a bottle of glycerine in the pockets of a man arrested for the strike, was given as the reason for the police activities. The city was quiet today.

### 1,559 Names on New Union Roll.

The officers of the new independent union of the miners continued enrolling men who have revolted from the Butte union of the Western Federation of Miners. Altogether, 1,559 names now are on the list of the new organization. Men loyal to the old union failed today to follow President Charles H. Meyer's instructions to reopen the offices of the union here. Peter Breen, chairman of the committee organizing the vigilantes, offered the old union the use of his law office until other quarters can be found.

At the inquest tomorrow each man who enters the court room that the coroner has provided for the proceedings will be searched for arms, according to the county attorney, who announced that a witness will testify that Noy was killed by a bullet fired by a man in the street, and not by a bullet from the miners' hall.

### Federation Head Remains in Helena.

Despite his previous announcement that he would speak in Anaconda tonight, President Meyer remained at Helena. The mayor of Anaconda had advised Mr. Meyer not to visit Anaconda at this time.

The new union will hold its first meeting next Tuesday. The initiation fee and dues for July have been placed at fifty cents. The officers for the present are to receive the scale paid union miners, \$3.50 a day. The officers' wages were placed at the mining scale, because high assessments are held partly responsible for the internal strife in the Butte union No. 1.

### "Wrecking Crew" at Work, Says Meyer.

Helena, Mont., June 26.—"The wrecking crew of the Industrial Workers of the World is the force at work in Butte," asserted President Charles H. Meyer of the Western Federation of Miners here today. "I have positive information that at least six hundred Industrial Workers of the World agitators have arrived at Butte within the last few weeks. One hundred and forty of them got off the train at Butte in one day."

Asked for an explanation of the statement of President McDonald to the effect that the new union was to be ridged of the Industrial Workers of the World element, Mr. Meyer replied:

"That merely is a blind. The Industrial Workers of the World has gone too far in showing its hand in Butte and some of the known agitators will drop back into the ranks in order to restore public confidence in the so-called union. The results, however, will be the same. They started in to get me six years ago and, failing that, they are now determined to get the federation."

### He Will Keep Away from Butte.

Mr. Meyer said he had no intention of returning to Butte at the present time. "I am in touch with the Butte situation here," he said, "and can handle it as well from Helena as if I was on the ground. An office will be opened in Butte and a temporary secretary will be placed in charge."

### FOOD POURS INTO SALEM FOR RELIEF OF 18,000 PERSONS MADE HOMELESS BY FLAMES.

Salem, Mass., June 26.—Measures for the relief of the eighteen thousand persons made homeless in yesterday's conflagration were proceeding with military precision tonight. More than thirty-five hundred were directly dependent upon the relief committee for shelter, while forty-five hundred wait patiently in the various bread lines for the food which streams into the city in abundance. Those cared for in the tented camps were of the poorer class, mostly foreigners.

An insurance adjuster who went carefully over the devastated area tonight estimated the loss at \$12,000,000, of which \$10,000,000 was covered by insurance.

The total number added to the ranks of the unemployed was estimated at nine thousand.

The list of dead as a direct result of the fire was placed tonight at four.

## NO TRIAL OF MOYER AT L'ANSE IN JULY

### Special Prosecutor Nichols An- nounces He Will Ask That Case Be Continued.

Houghton, Mich., June 26.—[Special.]—George E. Nichols, special prosecutor for Houghton county, in charge of mine strike cases, announced today that in all probability Charles H. Meyer and the other officers and members of the Western Federation of Miners, indicted for conspiracy in bringing about and conducting the strike, will not be tried at L'Anse at the present session.

On July 6, the date set for the opening of the trial, Mr. Nichols will move for a continuance, on the ground that material witnesses for the prosecution will be unable to be present. He has no doubt the continuance will be granted on his showing. Mr. Nichols reached the conclusion to ask a continuance when he learned today of the impossibility of procuring certain important witnesses at the time originally set for the trial.

Though confident that Judge O'Brien will grant the continuance, Mr. Nichols wants it granted by consent, the usual procedure. Today he wired Attorney Hilton, at Denver, and Attorney Carr, at Springfield, Ills., they being counsel for the defendants, asking for their consent. Mr. Hilton, wired at once, asking Mr. Nichols to meet him in Chicago next Monday to discuss the details. Mr. Nichols will leave for Chicago Sunday night.

Asked as to the possibility of granting the continuance, Judge O'Brien said today he could not express an opinion until the motion is made to him at L'Anse July 6.

### WILLIAM SCHULTZ, CHICAGO, WILL HANG FOR MURDER.

Chicago, June 26.—William Schultz late today was convicted and sentenced to hang for the murder Feb. 24 of Mrs. Elizabeth Healy, wife of a druggist. The woman was found in the kitchen of her flat, with her throat cut.

### COBB WILL STICK TO DETROIT TEAM, DECLARES NAVIN.

Detroit, June 26.—"All this talk about Ty Cobb going over to the Federal league is a piffle," said Frank J. Navin, president of the Detroit American league baseball club, today, with reference to reports that the famous player is dissatisfied with Detroit conditions. "He is more anxious than anyone else to prove that that unfortunate occurrence of Saturday was a mistake of the head and not of the heart. When he gets back in the game he will do everything he can to make up for lost ground. To prove his loyalty to me this year he signed a two-year contract, when he could have merely signed for one year and watched developments in the Federal league."

## JOHNSON AND MORAN BOTH DECLARED FIT

### Heavyweight Pugilists Will Enter Today's Big Battle at Paris in Excellent Condition.

Paris, June 26.—Jack Johnson, world's heavyweight champion pugilist, and Frank Moran, of Pittsburgh, who hopes to wrest the title from the big Galveston negro, were early to bed this evening in their training quarters for a restful sleep before their twenty-round battle tomorrow night.

Each man today declared himself physically fit for the fray and each was highly optimistic that victory would rest with him. Experts who have closely watched them while in training bore out the assertions of the fighters that they are well fitted for the battle.

Moran had only light exercise this morning. He spent the remainder of the forenoon lolling about his quarters and in picking wild flowers in the nearby woods. This afternoon he came into the city for a thorough examination by physicians, who declared him to be physically perfect. The doctors expressed admiration over the marvelous muscular development of the white man and the regularity of the action of his heart and lungs.

Johnson did his usual morning run on the road near his training camp. Afterwards he rode into Paris in a new automobile to cash a check. Entering the bank, he was surprised to meet an old acquaintance, an attorney from his home town in Texas, to whom he declared he never was in better condition.

### Hard Pitches Toughen Challenger.

Everybody in Moran's camp was cheerful tonight and was confident the Pittsburgh man would win the championship. Their confidence, they said, was due to the constant improvement in offensive and defensive work, in hard hitting and in ability to take punishment that Moran had shown during his training. In the latter department of the fighting game, Moran's test has been a severe one.

In order to toughen the challenger, Willie Lewis, the American middleweight fighter, who has been helping to condition Moran, recently has been making Moran stand with hands at his sides and with legs well braced while Lewis has rained blows to the point of his jaw, trying to knock him down. As a result of this strenuous training, Moran will enter the ring tomorrow night showing scars above both his eyes, left there by the hard punches of his sparring partner.

### Champion a 3 to 1 Favorite.

Johnson also has trained assiduously, but not so strenuously. He began his work two weeks earlier than Moran and has been careful not to overdo it. He said today that he was prepared to adapt himself to the tactics of Moran.

Under the rules, hitting in clinches will be permitted, and Johnson believes that his ability in undercutting and infighting will give him somewhat the advantage over Moran.

In the betting tonight, Johnson is a three to one favorite.

Washington, June 26.—The following is the weather bureau's forecast for Upper Michigan: Thunder showers, Saturday, cooler at night; strong east to northeast winds. Sunday, unsettled, probably showers in east portion.

## LAW-MAKERS OF THE NATION A THRIFTY SET. LIVE ON "MUCLAGE AND MILEAGE" PERQUISITES WHILE YEARLY SALARY OF \$7,500 IS STORED AWAY.

Washington, June 26.—While President S. W. Strauss, of the American Society for Thrift, is delaying time and space and having himself interviewed simultaneously in Paris and Washington on the virtues of saving and how to make a Ben Franklin out of every American, members of congress are practicing thrift with a vengeance. According to an investigator who has just completed a preliminary study of the way senators who accumulate what to him means "a rather lowly fortune" are being piled up out of the wages and emoluments received by legislators on Capitol Hill, Washington, D. C. This investigator goes so far as to say that several "thrift" members have "cleared up" between \$25,000 and \$30,000 out of a couple of terms of office, while others who have served five or six terms have become rich beyond the standards of avarice pertaining in their backwoods communities.

### Perquisites Generous.

There is no hint of "graft" in the exposition of the manner in which congressmen become rich, made by the inquisitive representative. It is accomplished by plain frugality and by being immune to the sting of the "social bee." The average senator or representative who accumulates what to him means "a comfortable fortune" does it by living on his "mileage and muclage," as they say in the cloakroom.

That is another way of saying that they live on the perquisites that are attached to the office of senator and representative. Even so, many live as well as they lived at home before they were elected, and it is said by those who try it, for their physical strength is not sapped, nor their health undermined by the "whirl of society," which engulfs so many of their colleagues. There are at least a score of representatives who are living on \$1,800 a year and supporting families. There are one or two senators whose household expenses do not run over \$2,500 a year. The perquisites attached to their offices furnish the sum necessary for living expenses and their salaries of \$7,500 a year are "salted" away against the time when some other man will take their place in congress.

### What "Mileage" Comes To.

The mileage allowance of members of congress varies according to the distance

## AIR CRAFT IN WARFARE; 120 YEARS AGO AND NOW.

One hundred and twenty years ago yesterday the balloon made its first successful appearance as an engine of war. It was at the battle of Fleurus during the French revolution. It was this balloon that enabled the revolutionists to win the battle and subsequently establish the French republic. At the rise of this day the huge sphen bag, inflated with hydrogen, was tugging at its anchor ropes in the French republican camp. The opening of the battle was a signal for General Morlot to climb into the basket of a cord that hung from the cable until the balloon and aeronaut rose high above the battlefield. Beneath him lay the enemy's lines in full view. While the balloon gently eddied in the breeze, Morlot drew a sketch of the enemy's strategic position and then tossed it back to a heavy flag-bedecked packager. Thus every move of the foe was reported to the commander-in-chief on the ground below in ten hours in which the balloon remained aloft. The commander's questions, written out and attached to a cord that hung from the balloon, were hauled up by the aeronaut and quickly answered. The idea of using a balloon in warfare had been conceived, but not used, twelve years before, at the siege of Gibraltar. At that time Joseph Montgolfier, who later made the world's first successful passenger-carrying balloon, proposed to introduce into Gibraltar an entire army, which, borne by the wind and gas, will enter right above the heads of the enemy. But the siege was raised before his idea could be demonstrated.

### —NOW—

Today airships constitute one of the most important factors in modern warfare. All the great world powers have equipped their armies with fleets of aeroplanes and dirigible balloons, and scientists are bending every energy toward inventing new explosives and perfecting means of hurling them from the clouds with greater accuracy. Some authorities even predict that the next great war will be fought in the clouds by squadrons of airships. Today American aviators are scouting over the Mexican lines around Vera Cruz, and are demonstrating their marvelous utility. Equipped with the latest devices of the ultra-modern army scout can fly over the enemy's country, sketch or photograph the topography of the land below, the forts, cities and troop positions. By wireless telegraph he can send back the information to his headquarters, miles away. With the modern rapid fire gun he can defend himself with a stream of bullets. Or he can drop high explosive bombs from his lofty craft, scattering death wherever they strike—a year ago it was reported a Mexican rebel aviator dropped a bomb that killed fifty soldiers instantly. If it is night, the aviator can drop a star bomb that explodes and sheds a lasting and radiant light on the spot he is hovering over. To escape from the new aerial guns designed to fight airships, the modern aviator can drop the new German bomb that spreads a dense, heavy pall of smoke between earth and airship and thus permit the aviator to escape. Or he can drop another kind which gives off a poisonous gas, capable of killing every living thing within 100 yards.

Bitseh, Alsace-Lorraine, June 26.—Major Buechner, a passenger in a military aeroplane, was killed today by the explosion of the motor when the machine fell. The fall was only ten yards.

## COLUMBIA IS FIRST; PENNSYLVANIA SECOND

### New York City 'Varsity Crew Wins at Poughkeepsie—Minor Honors Go to Cornell.

Poughkeepsie, N. Y., June 26.—In a thrilling four-mile triangular struggle with Pennsylvania and Cornell, the Columbia University eight-oared crew won by a scant length the premier race of the twentieth annual regatta of the Intercollegiate Rowing association on the Highland course late this afternoon.

Pennsylvania finished second, defeating Cornell by the length of its shell, with Syracuse, Washington and Wisconsin taking the wash of the leaders in the order named.

The official time:  
Columbia ..... 19:37 4-5  
Pennsylvania ..... 19:41  
Cornell ..... 19:44 1-5  
Syracuse ..... 19:59 2-5  
Washington ..... 20:01 3-5  
Wisconsin ..... 20:20

Columbia's victory was the result of a desperate and sustained spurt in the final half-mile. The Cornell crew, completely exhausted in trying to keep pace with the victors, faltered and slipped back into third place at the finish.

Better fortune attended the efforts of the Cornell junior varsity and freshmen eights, each combination mentioned winning its race in impressive fashion.

At the close of the junior eight-oared two-mile race by one and one-half lengths; Columbia was second, Pennsylvania third and Syracuse fourth. Cornell's time was 11:15 2-5.

Cornell's time in winning the freshmen race was 19:28. Syracuse was second, Pennsylvania, Columbia and Wisconsin finishing in the order named.

## LOUISIANA LEGISLATURE PASSES BILL LEGALIZING 20-ROUND PRIZE FIGHTS.

Baton Rouge, La., June 26.—Twenty-round prize boxing bouts will be legalized in Louisiana, under the terms of a bill passed by the state senate today. The measure already has been passed by the house. Governor Hall has not indicated that he will veto the measure. Under the present statutes, only ten-round no-decision bouts can be held. A revival of boxing is expected to follow the enactment of the law.

Louisiana will be the second state in the Union to legalize twenty-round championship fights. California now having a law similar to the one passed today.

## YACHT RESOLUTE TAKES EIGHTH STRAIGHT RACE IN THE TRIAL COMPETITION

Oyster Bay, N. Y., June 26.—The cup class yacht Resolute, of New York, straight victory in the preliminary race series today. The Resolute's margin in corrected time at the finish over the Vanitie was five minutes and forty-six seconds, and over the Defiance six minutes and thirty-two seconds.

## CHICAGO WHEAT MARKET BREAKS 2 CENTS A BUSHEL ON NEWS OF BIG HARVEST.

Chicago, June 26.—Thrashing returns so abundant as to cause enthusiastic comparison with the sands of the sea

## CARRANZA'S AGENTS CONFIDENT HE WILL TREAT WITH HUERTA

### Hostilities Will, However, Be Continued Regardless of Peace Conferences.

## DEFINITE WORD STILL AWAITED

### Sanguine Their Leader Will Au- thorize Negotiations With Fed- eral Chief's Envoys at Niagara, Constitutionalists at Washing- ton Wire Him for Positive An- swer—Meanwhile, Army Will Advance—Is Expected to Reach Mexico City Within a Month.

Washington, June 26.—Representatives of the Mexican Constitutionalists in Washington tonight expressed confident hopes that General Carranza would accept the invitation of the South American mediators at Niagara Falls to participate in informal conferences to compose the internal affairs of Mexico.

Whether General Carranza would accept the invitation, however, still remained an open question, despite the fact that some of his agents here had telegraphed him at Monterrey for a definite answer. The message was sent after the arrival in Washington of General Carranza's private secretary, M. Alfonso Breceda, who brought personal information from the revolutionist leader to his Washington agents, Rafael Zubaran and Luis Cabrera.

Mr. Zubaran said tonight he believed General Carranza would authorize the participation of his representatives in the proposed conference, but that, in the meantime, the military campaign of the revolutionists against General Huerta would proceed.

Secretary Breceda brought to Washington the positive information that it is the purpose of the Constitutionalists to continue their military campaign, regardless of peace conferences. San Luis Potosi, it was stated, would be the next objective point of the military aggression against Huerta.

After San Luis Potosi, the revolutionists expect Huerta's troops to make their last stand at Querataro. Their leaders have so indicated to the Washington government, and they insist that General Huerta and his subordinates who have triumphed thus far in the conquest against Huerta will be on the verge of entering Mexico City within a month, possibly not that long.

### Zacatecas a City of the Dead.

Zacatecas, Mex., June 25.—[Delayed.]—The military wire here today was lit the last night in Zacatecas, usually one of the liveliest cities in Mexico. It was a city of the dead. Everywhere dead men and horses had been piled in the gutters to allow traffic on the streets and sidewalks. Today began the burying of those who fell. The bodies of the horses were burned.

During the night frightened civilians who had remained indoors during the four days of attack stole through the streets, dodging barefooted sentries who paced to and fro uneasily and watchfully. The city lay in a bluish silence, pallid, because of the awful tragedy in its streets and environs. Hundreds of wires swung in hopeless tangles from telegraph poles, tripping pedestrians and horses throughout the night.

The challenge of a sentry and the answer of an occasional civilian; the jingle of the mounted patrol, answering the faint chimes of the bells of the church on La Bufla hill—these were the only sounds heard during the first night of desolation, darkness and death.

### NEW YORK STOCKS CLOSE DAY AT GAINS RANGING BETWEEN 1 AND 2 POINTS

New York, June 26.—Judging from the relative firmness of today's stock market, much of the apprehension produced by the Clafin failure of yesterday seems to have been dispelled. Following London's lead, stocks opened at general advances, the gains in many standard issues extending to more than a point. Much of this gain was lost before the end of the first hour, when fresh liquidation, due to rumors dealing with Lehigh Valley and the government, caused a loss of about half the advance. In the latter session, moderate buying of the leaders imparted the best tone of the day, which was maintained to the close, the rise in the most important shares ranging between one and two points.

Chicago, June 26.—There was no change in the prices of butter in Chicago's market today, creameries still being quoted at 20¢26½ cents. Eggs, higher; receipts, 14,559 cases; eggs at market, cases included, 16¢18 cents; ordinary firsts, 16¢16½; firsts, 17¢17½; poultry, alive, higher; springs, 20¢21 cents; fowls, 16.

## REPUBLICANS ASSAIL ANTI-TRUST MEASURE

### Trade Commission Bill Puts Business in Straight Jacket, Says Senator Borah.

Washington, June 26.—Republican attack on the federal trade commission bill was opened in the senate tonight by Senator Borah, who told his colleagues the passage of the measure would lead, not to certainty among business men as to what they might lawfully do, but to another period of uncertainty, such as followed the enactment of the Sherman anti-trust act.

Senator Borah criticized particularly that provision in the bill which says that "unfair competition" is unlawful. He declared that leading lawyers in the senate were unable to agree on what the term means, and insisted it was unjust to ask the businessmen of the country to determine a matter where the national legislators had failed.

"You are putting business in a straight jacket," said Senator Borah. "You should define what shall constitute unfair competition."

### Democrats Defend the Legislation.

Senator Newlands said that it would be almost impossible to define practices that constitute unfair competition, and Senator Lewis asserted that if such definitions were put in the bill there would be a great deal of confusion, and which were admittedly unfair, but which would not be unlawful because not specifically mentioned.

"We're ready for the fight, and we are going to fight until we put this trust legislation through if it takes a summer," declared Senator Williams, of Mississippi. "We did not act like fools in the tariff matter, we did not act like fools in the currency matter and we are not going to act like fools in this matter. We are going to be conservatively constructive."

The Mississippi senator put President Wilson's speech of yesterday to the Virginia editors into the congressional record. "One reason we are going to do this," he said, "is because we have a brave and worthy captain who knows how to do things and who knows how to influence other people to help him to do things. Hitherto he and we have been irresistible and have produced legislation that has been conservatively constructive and on the whole very wise."

## OYSTER BAY IDEA IS T. E. WILL RUN FOR GOVERNOR.

Oyster Bay, N. Y., June 26.—The impression prevailed in Oyster Bay tonight that despite Colonel Roosevelt's renewed assertions that he would not run for governor, he might be forced to do so. The colonel went over the whole subject again today with George W. Perkins, head of the national executive committee, and when they had finished their talk they were no nearer than before to a solution of the problem. The former president refused to say what he would do, should his associates persist in their demands.

**THE DAILY MINING JOURNAL**  
 A MORNING PAPER PUBLISHED BY  
**The Mining Journal Company, Limited.**  
 Issued daily except on Sundays. Contains Associated Press dispatches, and is especially devoted to the Upper Peninsula interests.  
**SUBSCRIPTION RATES:**

 Entered as mail matter of the second class in the postoffice at Marquette, Mich.  
 SATURDAY, JUNE 27, 1914.

**WASTE OF PUBLIC MONEY.**  
 A Negaunce man addressing The Mining Journal suggests economy in the expenditure of public funds as one effective approach to a solution of the problem created by high taxes. Blood can be seen on the moon, he says, and there'll be the devil to pay if the burden of supporting the several governments is not reduced.

Whether or not there is blood on the moon, there's no doubt that the Negaunce man points a remedy that would, within a few months after its application, greatly decrease the volume of complaint about taxes.

His charge that the public funds are expended with a cheerful alacrity that shows too small thought for details can easily be substantiated. And, if he studies the matter closely, he will find that this carelessness in expenditure occurs principally in the governments closest to him, namely, in the city and county governments.

While there is a tremendous ado on occasions about state taxes, it is in the nature of things that there is less wastefulness in the expenditure of state moneys than in the conduct of local governments. The state appropriation bills are prepared over a period of weeks and under close scrutiny of house and senate committees and of the newspapers, to say nothing of the governor and other officials. They are thoroughly discussed, and many of 132 statements of various degrees of ability are busy evading schemes for saving money. We repeat, there is reason to believe that the state, as a whole, secures much better values than many municipalities and county governments.

Marquette is now being much more efficiently administered than under the old form of government. Here a marked improvement has been wrought by the adoption of a modern charter. The taxpayer's dollar will henceforth go further than before. But at Menominee is being illustrated how two-by-four officials frequently place themselves in the way of progress. Also it is worthy of comment that while commission government offers great possibilities of savings for the taxpayers, Marquette is the only city in the upper peninsula that has it today, and thus is practically the only city that has a modern business system for handling its ramified affairs.

Turn to the county government. Marquette is an unusually well governed county, as counties go. There has rarely been even a hint of suspicion about the conduct of its affairs. Yet there is no person in the county today, and no member of the board of supervisors, who for a moment would attempt to assert that they are being handled with the same economy of administration that is expected of men in charge of the mining corporations. In proof of this, it has merely to be asserted that the board has never made any single effort to replace the burdensome and expensive fee system for compensating officials by the straight salary system. Here, alone, is a simple expedient that would save several thousand dollars annually.

When The Mining Journal's Negaunce friend analyzes the matter to the bottom he will find that most of the waste of tax money occurs in the political divisions in which he is able to influence action directly, by his own voice and vote. And there will be a measure of reform in these fields only when he, and the men who share his views, make a study of the question, find what is amiss, ask a lot of inquisitive questions and force apathetic representatives to take appropriate action.

**NO "ISLE OF SAFETY."**  
 Congress has been reminded again that the District of Columbia is in a fair way to become an "isle of safety" for tax dodgers. Representative Prouty informed the house recently of a single case where the state of Michigan lost \$500,000 in personal taxes and death duties because one of her millionaires maintained in the capital city a "legal" residence.

Although delightful as a residential city in the winter Washington has political disadvantages which induce many of its people to maintain official residence elsewhere, says the Grand Rapids Press. Residents of the district have no political powers. The government is directly under control of congress which conducts the administration through commissioners. The residents have no vote on presidential candidates. Half the expense of administration is borne by the federal governments, which has a tendency to lighten taxes. And the popularity of the district with some of very rich men is ascribed to the absence of an inheritance tax. For the sake of turning over their estates intact these men surrender their political rights.

Most of the taxpayers in the country could not afford to maintain two residences, one at Washington and one at home, even if they wanted to evade taxes. The poor man has to pay; he cannot escape. The rank and file have a right to expect that the fortunate

in his eye and a gun on his hand, he not unaturally, having money in his pocket, chose the \$50. But this does not change the fact that the ninety days would have been a more fitting penalty for his offense.

With one gubernatorial candidate in its midst, two representatives of other gubernatorial candidates and a candidate for congressman, all in one and the same day, Escanaba cannot complain that its political importance is being slighted.

The banquet of the Copper Country Commercial club, with 500 guests present, shows that it is a live organization. And with the entire copper region to draw on for members it must, also, be the largest organization of the kind in the state, with the exception of the Detroit Board of Commerce.

**STATE PRESS**

"No woman obeys her husband," says Dr. Anna Shaw, but why flout it in our faces, Doc?—Detroit Free Press.

If Tom Lipton wants to lift a cup he'd better hurry over and do it before the prohibitionists make it unlawful.—Pontiac Press-Gazette.

**A WISE DECISION.**

The withdrawal of Mr. Fisher from the congressional contest is well advised. The friends who urged his candidacy on him allowed their enthusiasm to run away with their discretion. They saw a popular demand where no popular demand existed, and if they expected any tremendous rallying to their candidate, they were disappointed by the issue, for no rally occurred.

As a matter of fact, Senator James had the nomination pretty well sewed up before the project to launch the Fisher candidacy was seriously considered. The newspapers of the district were generally committed to the senator, and when they were informed that Mr. Fisher would run they kept right on being for him. The senator had completed an extended preliminary canvass and had been received with much approval. And in a contest in which the reasons why he should be nominated would have been aggressively set forth his strength would likely have grown more pronounced, rather than have shown any falling off.

For Senator James is entitled to the Republican nomination, and this could have been made very clear. He is no superman, and no doubt far criticisms can be raised against him. But he gave his district good service at Lansing. He sought to represent all its varied interests, and his influence aided the men who wanted the enactment of sound legislation. Thus it comes there is fair promise that if Senator James should be sent to Washington he will be unimpaired neither of the legitimate interests of large industrial concerns in the district, nor of those of the men behind the shovels and picks and tram cars.

Senator James would have been nominated because on his record he should be nominated. Mr. Fisher doubtless sensed something of this after he had tested sentiment here and there, thus his withdrawal. It shows him possessed of excellent ultimate sense, for there are times when discretion tanks high among the major virtues. In a large way the political significance of his step is not important. It will not ultimately benefit Senator James particularly, for now those who oppose him will assert that the mining companies got Fisher out of the way because they wanted James for their candidate.

The most effective and best offset to this is the senator's legislative record. It ought to go far with fair-minded men to show that he could be trusted to be a square dealing representative of all the interests in his district.

At the University of Michigan commencement dinner Chase S. Osborn recorded himself as opposed to President Hutchins and Justice McAlway in their views on the recall of judges and judicial decisions, and placed himself in full agreement with the position of the most advanced Progressives on these points. "The entire problem is as to whether the people of this country really do govern or whether they are intelligent and honest and responsible for us," he said. "There is no difference between government by a few judges and lawyers unheeded and government by a king. The high general character of the judiciary in this state and nation proves the capacity of the people for the work of selecting and electing judges. If they are intelligent enough to elect, it is safe and proper to permit them to discharge judges. The recall of judicial decisions on constitutional questions seems to me to be a plain and safe right of the people. The constitution is the creation of the people and they have a right to declare what it means, if an issue arises. If anybody is hurt by the actions of the people it can only be themselves. Only love them and trust them and the people will rise to the highest conceptions of justice and honor. Thwart them and flout them, and their collective fury is an elemental force."

If the Gladstone team can be turned up to a pace where it can win some games the new Marquette-Delta county league will develop an interesting race. The other three teams are presenting a good exhibition of the national sport.

When Ty Cobb had his choice of a \$50 fine or ninety days in the Detroit House of Correction as penalty for his descent on a Detroit butcher shop, with blood

morning how she had slept. She hid a yawn behind her hand and answered: "The bed was good, and I'd have slept fine, young man, only I was afraid somebody would be wanting a bath and the idea of strangers passing back and forth through my room worried me so I just couldn't snatch a wink."

**Plain for Smith.**  
 Mr. Brown had just had a telephone put in connecting his office and house, and was very much pleased with it. "I tell you, the telephone is a wonderful thing. I want you to dine with me this evening, and I will notify Mrs. Brown to expect you." Speaking through the phone—"My friend Smith will dine with us this evening." Then to his friend, "Now listen and hear how plain my reply came back." Mrs. Brown's reply came back with startling distinctness. "Ask your friend Smith if he thinks we keep a friend."

**The Relic Maker.**  
 A Chattanooga man recently met on the highway a very dapper of his acquaintance with his arm in a sling. "Is your arm broken?" asked the Chattanooga man solicitously. The old fellow grinned. "No, boss, it ain't broken—only gun sore."

"Ah, been hunting?"  
 "No, sub; ain't been huntin'; been shootin' at trees."  
 "Target practice, eh?"  
 "No, sub; ain't target practice; jest shootin' at trees."  
 "But why do you shoot at trees?"  
 "Well, you see, it's jest like dis. I goes out into de woods an' I selects my trees an' I shoots bullets into 'em. In a little while de trees grows 'round de bullets. Den I cuts 'em down to sell to persons from de north as relies of de battle of Lookout Mountain."

**TIMELY QUIPS**

**Educational.**  
 We feel a pride in the college graduates, of course, but we feel still more pride in their fathers, who put up the money for their education.—Washington Herald.

**Neighborly.**  
 The trouble with a good many near neighbors is that they are only near neighbors.—Washington Post.

**The Feudists.**  
 June always witnesses the revival of the feud between the girl who tans and the girl who freckles.—Chicago News.

**Memory Note.**  
 American tourists and agents abroad should also remember that they are "sample Americans," whether they intend it or not.—Chicago Herald.

**See?**  
 An English yacht that can win the America's cup will be regarded as something of a freak.—Washington Star.

**Scientific.**  
 Scientists claim they have about perfected a black tulip. And now will some scientist please tell a wondering constituency just what an "heauty" attaches to a black tulip?—Cleveland Plain Dealer.

**VOICE OF THE PEOPLE**

To The Editor of The Mining Journal:—Reading in your today's issue that inferential defense of the state tax commission, its integrity, etc., and the Journal properly weighing public sentiment when conceding that "the tax question," it may be pertinent to allow space for some specific example of how some corporations are favored at the expense of the general taxpayer.

One case in point, not to impose on your good nature with too many, is the Winona mine of this city, operated by Corrigan, McKinney & Co., of Cleveland, and consisting of the E1/2 of S.E. 1/4, Sec. 17-47-46. This mine has described taxes assessed in 1913 at \$92,150 and the E1/2 of the N.E. 1/4, just north of the Winona, same section, belonging to the Keweenaw Land association at \$65,000, or a total of \$157,150. Meeting this year our November review is notified by a tax commission that the Winona mine in the whole tier of four forties and its total assessment is only 96,183. Over \$60,000 is thus knocked off in a single lick here, and neither explanation, information or opportunity for protest is given our local authorities. The simple way so of the corporation representative at Lansing, and in private, was evidently all the commission cared for.

And it becomes remarkable that no recent or past record of any lease or transfer of the two northern forties to the Winona mine exists and the forties are in no way separated from the operation of that mine, the mine in fact not being operated at all, there being only a short derrick into it from the joining fronton to the west. The whole face of the transaction indicates that the commission here were simply "taken in" by the persuasive and attorney.

The duly elected assessing and reviewing authorities of a community have the right to insist that they shall also be

heard before such sweeping reductions are made. Nor could such reductions take place if some practical, as well as theoretical system of mine valuations, as recommended in the Finlay report, was adhered to.

But to cover this tax question pages of your valuable journal might be required, for the present this specific item will do.

K. S. MARKSTRUM,  
 Bessemer, Mich., June 25, 1914.

**POLITICS**

Referring to the candidacy of Chase S. Osborn the Iron Mountain Press says: "As a campaigner the former governor has no superior in Michigan. Regarding the success of his candidacy many opinions are recorded. Many upper peninsula Republicans will not vote for him. On the other hand, many Progressives and Democrats will vote for him. The Press believes that he will be nominated despite the fact that he will not have the active support of many former champions."

We are assured that Martindale will have 15,000 plurality in Wayne county. "Grassbeck's" friends are claiming about the same plurality for their candidate. Deacon Ellis alleges that he will have the support of the wageearners in Wayne, which, if true, will be no inconsiderable vote. Osborn also has a large following in the state metropolis and Gardner and Linton are not without clear features betokening right living and moderate habits. His jaw is square and firm; his eye is straight and steady, and his entire personality is that of a man of purpose and conviction. While the sentiment in the city and county seems not yet to have crystallized in favor of any congressional candidate, it is certain that Mr. Bayliss left a good impression and will hold his own with other candidates."

Indicating the friendly attitude toward Representative Bayliss in the lower state counties of his district is the following reference to his candidacy from the Gaylord Advance: "Hon. Joe Bayliss of Sault Ste. Marie, who served four years as sheriff of Chippewa county, two years as state representative, and is now a candidate for the Republican nomination for congress from the Eleventh district, was in town Tuesday and Wednesday, getting acquainted with some of his lower peninsula constituency and sounding the congressional sentiment. Bayliss is a good man to look at. His entire countenance shows determination, his clear, clear features betoken right living and moderate habits. His jaw is square and firm; his eye is straight and steady, and his entire personality is that of a man of purpose and conviction. While the sentiment in the city and county seems not yet to have crystallized in favor of any congressional candidate, it is certain that Mr. Bayliss left a good impression and will hold his own with other candidates."

Judge R. P. Hudson, of the Soo, who was in Escanaba this week in the interest of the candidacy of Governor M. Osborn, has this comment for the newspapers: "There is of course somewhat of a change in the political lineup in the last year, but I think I am within the truth when I say that the average Governor Osborn will pole nearly, if not quite, as large a proportion of the Republican votes at the primaries as he did before. I find throughout the state where I have been that there is a strong belief that Governor Osborn is the only Republican who can be elected next November. He is particularly strong with the laboring men and the farmers all over the state. The working-men's compensation law, passed during his term, has earned him the strong support of the laboring men and whatever his strongest enemies may say of him, they are forced to admit during his whole administration he did what he thought was right and just and he did it regardless of its effect politically. His rigid economy in regard to the extension of public institutions, while it gained him some disfavor among the various boards of the state institutions, brought the state from a condition of bankruptcy to one of comparative opulence, and the farmers can appreciate that kind of economy. On his return home from his trip around the world, Governor Osborn was besieged by letter and personal appeals that he become a candidate this year, and he was made to feel that he was the only Republican who could in any degree consolidate the

Republican party. As his personal attorney and close friend I know his candidacy is at a considerable sacrifice of time and personal convenience. I have just talked today in Escanaba with a traveling special agent of one of the large insurance companies who has been through the entire state since January, and he tells me that there is no question of Governor Osborn's nomination and election."

**EDITORIAL OPINION**

**Lost in the Wheat.**

The wheat is so high in Kansas and Nebraska that no homo under six feet dares to apply for a job as a harvest hand. It is reported already that several short hoboos who ventured into the wheat fields are missing, and one man in Nebraska wandered about in his field until he nearly starved to death before he found his way out.

Of course these are only stories, but they go to illustrate the fact that the western states are raising a wheat crop this year which will excel in size any crop raised in many years. The call for harvest hands has become almost frantic, and many farmers fear that their wheat may spoil before they can get it out. The estimated crop of wheat this year is 900,000,000 bushels and America will again take her place as the leading bread furnisher of the world.

Thus far no attempt has been made to attribute the large wheat crop to the Democratic administration. It will be remembered that back in McKinley days Mark Hanna claimed credit for an immense wheat crop and said that the people should thank the Republican administration for the same.

It begins to look for the first time as though politics has nothing to do with the crops and that a bumper crop is just as liable to happen along during a Democratic administration as during one of the Republican persuasion. The farmer with his great crops this year will save the day for the party in power.

From general prosperity figures the change in administration will not be noticed.—Grand Rapids News.

**Mayer Getting His Reward.**

There can be no justification for the violent actions of the insurgent miners at Butte, Montana. But on the other hand there is not the slightest reason for wasting sympathy on Charles R. Moyer and those other agitators associated with him who are the object of malcontent ire. Moyer is reaping what he has sown. His well-taught pupils are turning against him the diabolical instruction with which he has poisoned their minds.

The Western Federation of Miners for years has been known as a non-anarchist society. Under the direction of its leaders it has rejoined in lawbreaking and in violence. It has always been more ready to employ force than argument or reason. Where it has been in position to do so it has acted with despotic disregard of other people's rights and with barbaric indifference to fair play. Its methods have never received the countenance of the better elements in trades unionism.

Such an organization needs a crafty as well as a strong leader and there is no doubt that Moyer has manipulated the federation with skill. Just now however, he is suffering the results of a bad error. The tax he laid upon the Butte local for the support of the Calumet strikers has been more than its members would bear, particularly as he has succeeded in delivering no coals in exchange for the sums he has demanded. He has failed to make good as a predatory leader and his henchmen are showing their teeth.

How well Moyer understands the temper of his followers and how well he knows what he has educated them to be is proved by the promptness with which he got out of the way as soon as he saw they were getting beyond his control.

This has been an unfortunate season for Moyer. First he was driven from Calumet by men who would not endure his organization; now he is driven from Butte by disintegrated members of his own union.—Detroit Free Press.

**Too Much Preventable Illness.**

It is a rather curious fact that while the death rate throughout this country has been growing smaller for a number of years, illness is more prevalent and longer continued than during any other period in recent history. This extraordinary condition of affairs was recently brought to public attention by the establishment of a prominent life insurance company, who urged that effective steps be taken to check the spread of the ordinary and more prevalent forms of disease.

It recently was estimated by Professor Irving Fisher of Yale university, who drew this conclusion from a careful computation of percentage tables, that approximately 3,000,000 persons, or about 3 per cent of the entire population of the United States, are ill at any one given time from ailments which, if taken in hand in good season, could easily be prevented. In other words, pure carelessness and neglect on the part of the people is responsible for the fact that about 3 per cent of the population constantly is ill and under the care of physicians. And while this is "good" for the physicians, it means needless expense and inconvenience in a vast number of cases, and represents an economic loss of stupendous proportions. And the inconsistency of this condition is readily apparent in the fact that while illness is on the increase, vital statistics show the mortality rate has actually been reduced.

In a way this is a creditable showing for the physicians, and also doubtless reflects some of the results of recent organized efforts to check diseases of more contagious and dangerous character, but it does not indicate a commendable degree of carefulness, either on the part of the public generally, or with medical authorities, in guarding against the more ordinary and common forms of disease. One step of correction proposed is to require physicians to make complete reports of all diseases which come under their observation, thereby to afford reliable information to serve as a guide in direct remedial legislation. Undoubtedly this would help to solve this problem, but the main point is to get the people to be more careful of their own health, and to observe simple rules of sanitation, diet and habits conducive to good health.

That the death rate has actually been reduced is cause for considerable satisfaction, for this means that the average length of human life has been extended by the application of scientific systems and methods. No less important and desirable, however, would be the reduction of illness among the people as a whole, and it would seem that this should be possible of accomplishment, with even greater ease and success than have attended the effort to reduce the mortality rate.—Oshkosh Northwestern.

**Classified Want Directory**

**LOST**—Bill purse, containing \$28, probably at Presque Isle, Wednesday. Returns to J. Sharland, 212 W. Hewitt avenue. 6-26-14

**WANTED**—Men to learn the barber trade. We prepare you in few weeks. Can earn while you learn. Tools given. Jobs waiting. Big demand for our barbers at surprising wages. Write today. Mohr Barber College, Milwaukee, Wis. 6-27-14

**WILL PAY** reliable woman \$250 for distributing 2000 free packages Perfumed Soap Powder in four towns. No money required. Ward & Co., 216 Institute Pl., Chicago. 6-27-14

**WANTED**—Two girls to work. Look after fine lunch room. Apply M. F. Goldberg, Third street. 6-26-14

**WANTED**—An all-around experienced man for grocery, meat and delivery business. Must be capable. Wages according to capability. Frank Houser, Muskegon, Mich. 6-25-14

**WANTED**—Good, experienced dry goods lady, with good reference. One who talks the Finnish language preferred. Apply The Mining Journal. 6-25-14

**WANTED**—A good cook. Good wages. Call 375-3 or apply 602 Spruce street. 6-25-14

**WANTED**—Competent cook. Enquire 401 East Ridge street. 6-25-14

**WANTED**—Ten hoop makers. Call or write A. C. Babcock, Antrim, Mich. 6-22-14

**WANTED**—Carpenter work by the day or contract; thirty years' experience. Work guaranteed; prices right. A postal to Lock Box 117 or phone Carpenter, Brunswick Hotel. 6-20-14

**WANTED**—Good wages will be paid a capable local editor by The Mining Journal.

**PIGEONS** pay dollars where chickens pay cents; small capital needed; small space required; always panned up; ready market; send for May issue of our Journal; fully explained; no extra charge. Reliable Squab Journal, Versailles, Mo. 6-2-14

**FOR RENT.**

**FOR RENT**—Nicely furnished rooms. Apply 115 East Arch street. 6-27-14

**FOR RENT**—Six-room house, furnished, for July and August. Inquire of B. T. Hixson, South Shore freight office. 6-27-14

**HOUSE TO RENT**—A moderate furnished house to responsible family. Apply at 142 W. Arch street. 6-20-14

**FOR RENT**—House at 403 East Arch. Enquire 421 North Front. 5-4-14

**FOR RENT**—A camp. Two camp lots for sale. H. R. Patrick, phone 687. 6-16-14

**TO RENT**—Very desirable corner store in the Cole block, 2nd and Third and Elm streets. There is without doubt as much travel up Third street as up Front street. Also four-room flat in same building. Marquette County Savings Bank or Charles T. Gell. 3-4-14

**FOR SALE.**

**FOR SALE**—Fresh milk cows, at City Market. 6-26-14

**FOR SALE**—Merchants Hotel. Inquire Carl Boldt, 209 South Third street. 6-26-14

**FOR SALE**—Equipped motor boat in fine condition, with boat house. Cheap. Platte T. Amstutz. 6-26-14

**FOR SALE**—Six fresh milk cows. Apply Mendel Shoer, 518 South Seventh street. Phone 783-W. 6-25-14

**FOR SALE**—A \$250 piano for sale at \$100. Apply Emil Aho, 116 1/2 N. Third street. 6-20-14

**FOR SALE**—26-foot, half cabin launch; 10 horsepower Kahlenberg engine. Address M. Mining Journal. 6-20-14

**FOR SALE**—One trap, convertible one or two seats, with extra enclosed canopy. Top cost \$210.00; sell for \$75.00. A. E. Archambeau. 4-23-14

**LAKE SUPERIOR & ISHPEMING RAILWAY.**

**MUNISING, MARQUETTE & SOUTH-EASTERN RAILWAY.**  
 TIME TABLE  
 In Effect June 7th, 1914.

**WEEDEN DAKES.**  
**TRAINS LEAVE MARQUETTE**  
 For Harvey, Manungu, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwinn, Princeton, Rumely, Chatham and Munising ..... 6:45 am.  
 For Birch and Big Bay ..... 8:00 am.  
 For Negunnee and Ishpeming ..... 9:35 am.

**TRAINS LEAVE ISHPEMING**  
 For Marquette, Harvey, Manungu, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwinn, Princeton, Rumely, Chatham and Munising ..... 5:50 pm.  
 On Saturdays a train will leave Ishpeming for North Lake at 10:25 a.m. and 3:05 p.m., returning with leave North Lake at 10:55 a.m. and 3:25 p.m.

**TRAINS LEAVE NEGAUNNEE**  
 For Marquette, Harvey, Manungu, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwinn, Princeton, Rumely, Chatham and Munising ..... 5:28 pm.  
**TRAINS LEAVE BIG BAY**  
 For Marquette and M. & S. 11:00 am.  
 E. Ry Stations ..... 4:30 pm.

**TRAINS LEAVE MARQUETTE**  
 For Harvey, Manungu, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwinn, Princeton, Rumely, Chatham and Munising ..... 8:45 am.  
 For Birch and Big Bay ..... 8:50 am.  
 For Negunnee and Ishpeming ..... 10:15 am.  
 (7:30 pm.)

**TRAINS LEAVE ISHPEMING**  
 For Marquette, Harvey, Manungu, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwinn, Princeton, Rumely, Chatham and Munising ..... 7:15 am.  
 For Marquette and M. & S. 11:00 am.  
 E. Ry Stations ..... 4:30 pm.

**TRAINS LEAVE BIG BAY**  
 For Marquette and M. & S. 11:00 am.  
 E. Ry Stations ..... 4:30 pm.  
**TRAINS LEAVE BIRCH**  
 For Marquette and M. & S. 6:30 pm.  
 E. Ry Stations ..... 6:32 pm.  
 Sunday train from and to Big Bay does not connect with Sunday train to and from Munising.

**SUNDAYS.**  
**TRAINS LEAVE MARQUETTE**  
 For Harvey, Manungu, Yalmer, New Dalton, Skandia, Carlshend, Little Lake, Gwinn, Princeton, Rumely, Chatham and Munising ..... 8:45 am.  
 For Birch and Big Bay ..... 8:50 am.  
 For Negunnee and Ishpeming ..... 10:15 am.  
 (7:30 pm.)

**BUILDING MATERIAL**  
 From heavy timbers to finest factory work. Largest and most complete stocks of building material in Michigan.  
 Complete line of Yellow Pine, Fir, Cypress, White Pine, Oak and Birch finish, Doors, and Front Doors. Building and Insulating Papers and Kelsa. Prepared Roofings—all kinds. Tar Felts, etc. Wall Boards.  
**LUMBER**  
 LOWEST CASH PRICES  
 We would be pleased to have you call at our offices, and look over the stocks in our warehouses and yards. Hemlock, Pine and Fir Construction Material, such as Timbers and Joists, Studgings, Etc. White Pine, Cypress, Red Cedar and Basswood Siding. White Pine, Yellow Pine, Fir and Cypress Flooring. All kinds of Maple, Birch, Beech and Oak Flooring. Wainscotting, Ceilings and Finishing Lumber. Nails. Hardware.  
**Shingles, Lath, Plasters, Cements, Sewer Pipe, Lime, Brick, Fire Brick and Clay.**  
**RUSH ORDERS RUSHED. QUICK LOCAL SHIPMENTS.**  
 Long Distance Telephones in All Our Offices.  
**CONSOLIDATED FUEL & LUMBER CO.**  
 Yards and Offices: Ishpeming, Marquette and Gwinn. General Offices: Ishpeming, Michigan

# Copper Country

## INTER-CITY MATCH TAKES PLACE TODAY

### Duluth and Houghton Golfers to Meet in Year's First Contest for the Cole Cup.

Houghton will entertain today a large number of the leading business and professional men of Duluth, men who are brought together by their interest in golf, which game has had much to do with promoting the social and business relations of the Zenith City and the copper country.

The visit today is for the purpose of playing the first of the season's inter-city matches for the Thomas F. Cole trophy, a magnificent silver cup. This inter-city contest has been going on for nearly a decade. It was originated by W. O. Calverley, who donated a cup that now decorates the trophy room of the Duluth club. When that cup had been won after a period of years of play, Mr. Cole, who is president of the Northland club, donated another cup, in order to continue the pleasant social intercourse between Duluth and the copper country. The first matches were played for the Cole cup last season and the clubs broke even, each winning its home game. Thus they start today on an even basis.

The actual list of Duluth players will not be known till the delegation arrives this morning, but some days ago a tentative list was sent, as follows: Dr. Callum and Messrs. Patrick, Baley, Croze, Mullen, J. Crosby, G. Crosby, Wells, Walker, White, Alexander, Tweed, Orlean, Myers, Abrams and Mead. The golf committee of the Portage Lake club could not yesterday announce its tentative list was sent, as follows: Dr. Callum and Messrs. Patrick, Baley, Croze, Mullen, J. Crosby, G. Crosby, Wells, Walker, White, Alexander, Tweed, Orlean, Myers, Abrams and Mead. The golf committee of the Portage Lake club could not yesterday announce its tentative list was sent, as follows: Dr. Callum and Messrs. Patrick, Baley, Croze, Mullen, J. Crosby, G. Crosby, Wells, Walker, White, Alexander, Tweed, Orlean, Myers, Abrams and Mead.

The Portage Lake team will be weakened by the absence of Tal Goodell, who always has played with the Portage Lakes, though a member of the Duluth team, he having originally been a Portage Lake member. He is one of the cracks of the Duluth club and if here undoubtedly would be matched against Patrick, Duluth's best. In all probability John C. Pryor will have the honor of trying conclusions with Mr. Patrick today.

Arrangements for the entertainment of the visitors will open established lines. There will be open house all day at the Houghton, Ontonagon and Portage Lake golf clubs. Luncheon will be served at the Ontonagon at noon and in the evening there will be a dinner at the Houghton club in honor of the visitors.

### Final in President's Trophy.

John C. Pryor and F. L. Cairns have qualified for the final in the president's trophy event of the Portage Lake club. Mr. Pryor reached the last frame several days ago. Mr. Cairns qualified by beating D. L. Robinson on Thursday afternoon. It is probable that the final will be played tomorrow.

### ITALIAN DAY AT CALUMET.

#### Big Parade and Picnic of Upper Peninsula Federated Societies.

The annual convention of the federated Italian societies of the upper peninsula, in session at Calumet, ends today, after three days' sessions. The day will be devoted to a parade of all societies, to be followed by a picnic at Calumet & Hecla park, at which Bernard P. Barasa of Chicago will deliver the principal address in Italian and James MacNaughton of Calumet in English. It is expected there will be six hundred Italians in the parade this morning.

### BASEBALL AT SUPERIOR TODAY.

The Calumet & Hecla league game scheduled for this afternoon at Houghton has been changed to Superior. Hecla and Portage will be the opposing teams. A special train on the Isle Royale railroad will be run from Isle Royale to Superior, leaving at 4 o'clock, for the accommodation of players and fans, and will take the crowd back to Isle Royale after the game.

### "TIZ"—A JOY TO SORE, TIRED FEET

#### "TIZ" Is Grand for Aching, Burning, Puffed-Up Feet and Corns or Callouses.

"How 'TIZ' does help sore feet."

Good-bye sore feet, burning feet, swollen feet, sweaty feet, smelling feet, tired feet.

Good-bye corns, callouses, bunions and raw spots. No more shoe tightness, no more flapping with pain or drawing up your face in agony. "TIZ" is magical, acts right off. "TIZ" draws out all the poisonous excretions which puff up the feet. Use "TIZ" and wear smaller shoes. Use "TIZ" and forget your foot misery. Ah! how comfortable your feet feel.

Get a 25 cent box of "TIZ" now at any drugist or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded.

Get a 25 cent box of "TIZ" now at any drugist or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded.

## GROWERS QUITTING STRAWBERRY FIELD

### Ontonagon Farmers, Hampered by Train Schedules, See More Money in Other Crops.

Judging from reports received by copper country produce men, the Ontonagon strawberry growers are becoming a thing of the past. It is said that the Ontonagon growers find they can devote their attention to other crops with greater profit. In any event, the Ontonagon berry harvest will be much smaller this season than for several years.

The reason for this is that the railroad freight facilities out of Ontonagon to Chicago, the natural market, are not favorable to the Ontonagon berry. It is asserted by Ontonagon growers that the freight arrangements now get their berries into Chicago in the afternoon, the Detroit market, resulting in a delay of nearly twenty-four hours, and a consequent impairment of the quality of the fruit.

With Ontonagon gradually pulling out of the strawberry field, Lake Linden is becoming the copper country strawberry center. In the Trap Rock valley tributary to Lake Linden, has been organized a strawberry growers' association, with nine members, who control the output of the district. The association made its first deliveries to home markets this week. It is marketing through Gentry & Sons of Calumet and Milwaukee.

### COMMERCIAL CLUB RECRUITS.

#### Annual Banquet Attracts a Number of New Members to Organization.

A direct result of the successful annual banquet held by the Copper Country Commercial club at the Calumet armory Thursday evening was an increase in membership of more than half a hundred. A considerable number of non-members attended the big birthday party as guests of friends, and a majority of those filed applications for membership before leaving the "festive banquet."

Among the new members are four men representative of the mining and manufacturing interests of Marquette, Ishpeming and Ontonagon, and a majority among the most prominent in their particular lines in the upper peninsula. Another recruit is Colonel Lou J. Beane of Hamilton, O., prominent in the board of trade of that bustling Buckeye city, who was unanimously elected to honorary membership.

### WITH MILITARY HONORS.

#### Funeral of Peter Patrick, Naval Sailor, Will Be Held Today.

The remains of the late Peter J. Patrick, sailor in the United States navy, who was injured on the cruiser Salem, in Mexican waters, through the explosion of a boiler tube, lying on the hospital ship, will be interred at Lake View cemetery, Calumet, with full military honors this afternoon. The body was received yesterday and was taken to the home of the parents, Mr. and Mrs. Alex. Patrick, in the Trap Rock valley, near upper city.

### TWO BISHOPS ARE COMING.

#### Bishops Leete and Burt of Methodist Episcopal Church.

For the first time in the history of Methodism in the copper country, two bishops of that denomination are to visit the region at the same time to deliver addresses. Bishops Leete and Burt of Atlanta and Buffalo, respectively, are the prelates. They are coming here next month to attend the Chautauqua and the Epworth League and Methodist Episcopal Ministerial association conventions all three of which will take place at Electric Park the week of July 22-26.

Sunday, July 26, Bishop Burt will preach at Grace church, Houghton. This service will be attended by the M. E. congregations of Houghton, Houghtonville, Hancock, Dollar Bay, and the South Range towns. The same morning Bishop Leete will conduct the service at the Calumet M. E. church, with the congregation made up of Methodists from Laurium, Centennial, Mohawk and other sections of that township in the county. Bishop Leete will preach at the First M. E. church, Hancock, in the evening, at a mass service attended by congregations from Pawabie, Dollar Bay, Quincy, Houghton and Hancock. At the same time Bishop Burt will have charge of a service at the Calumet M. E. church, with the north and churches to draw from.

It is interesting to note that Bishop Burt is a Cornishman, born in Cornwall, He came to this country when a child and gained his education in the public schools of that denomination, and himself for the ministry. Bishop Leete was a member of the Detroit conference previous to his elevation to the bishopric for six years was pastor of the Detroit Central M. E. church. Both men are well known to Methodists of copper country. Bishop Burt is resident bishop of the Detroit conference, which includes the upper peninsula.

### NEW YORK RABBI HERE.

Rabbi J. Strod of New York City last night conducted services of the First congregation of Israel, Temple Jacob, Hancock. Mr. Strod came here in response to a call for a regular pastor. Other rabbis will visit the district during the summer, and from among them the permanent selection will be made.

### LODGE NAMES DELEGATES.

Sidney Skinner and John Manley have been named by One and All lodge, Sons of St. George, of Calumet, as delegates to the grand lodge meeting to be held at Ishpeming July 16, 17 and 18. A large delegation of members of One and All lodge will attend the reunion at the Hematite City the last day of the convention.

## HAS NO SUBSTITUTE

# ROYAL BAKING POWDER

### Absolutely Pure The only baking powder made from Royal Grape Cream of Tartar NO ALUM, NO LIME PHOSPHATE

Liberal prizes are being offered to induce entries for the calumet cup in the morning and a double prize for the best kind of extension work would be to insure the purity of the seed potatoes that are to be sold by Michigan farmers to farmers in other states.

"It is now up to the state board," said Mr. Geismar yesterday. "I think, in fact, that the agricultural development of Michigan, the conserving of the purity of the potato crop. If the state board do not provide the inspection we must try to have it brought about that the national department of agriculture shall do it."

"This is a time when Michigan can take the lead in an important agricultural enterprise, instead of falling behind after other states have taken the lead. Minnesota and Wisconsin are going to establish an inspection of seed potatoes. Maine and Virginia soils are so infected that the government threatens to quarantine their potatoes. It is an excellent chance for Michigan to insure the purity of her seed potatoes and to establish a profitable market."

The importance of this matter to Houghton county cannot be over-estimated. The Houghton County Potato Growers' association will this fall have for market thousands of bushels of pure bred seed potatoes, which will be free from disease. If they can be sent under a state certificate of purity and health, they will find a ready market.

The plan urged by the Lansing meeting is to have state inspectors to check up the work of the inspection committees of the farm bureaus and potato growing associations, giving each farmer a certificate if his potatoes come up to the required standards.

At the Lansing meeting the experts devoted some time to the study of potato diseases, their identification and prevention. The information gained by Mr. Geismar is at the disposal of the farmers of Houghton county.

## Mining News

### UTAH COPPER.

There is no phase of the operations of Utah Copper more fascinating to the engineering fraternity and the stockholders of the corporation than that relating to the possibilities of still further reducing the company's mining and milling costs. Today the company stands alone in the industry in the world in its ability to mine and mill a ton of ore for less than seventy cents, and this includes seven and one-half cents to represent the retirement of the stripping expense.

In this connection the recent statement of Director Jackson that all underground mining and development work had been discontinued has not received the attention it deserves. Henceforth the Utah Copper company will mine by steam shovel only and the mining cost for 1914 should in consequence show a substantial reduction from the very low figure of 32.8 cents registered in 1913.

### RED JACKET FOURTH OF JULY.

The Red Jacket Fourth of July sports committee has arranged a fine program of sports, a program which contains a lot of the good, old-fashioned events, as well as a few new and other interesting contests. The committee is hoping to appeal to the lovers of the old-fashioned Fourth of July celebrations, as well as those who like the new order of affairs, and therefore the "chasing of the greased pig" contest, the "pie-eating" contest, "chasing the greased pig" contest and other events of the sort have been arranged. There will be no other celebration in the Calumet district, with the exception of the carnival festival at the Laurium park.

The committee, fearing that the motorcycle races proposed to start and finish in Red Jacket would result in the injury of children or older persons during a day when all streets will be crowded, has decided to reject the offer of Elmer MacDonell to start the proposed "around-the-county" contest in the village. It is probable that the races will be held elsewhere, however, as there have been received so many entries and such great interest is being evinced that MacDonell doubtless will go ahead with the project.

There is no phase of the operations of Utah Copper more fascinating to the engineering fraternity and the stockholders of the corporation than that relating to the possibilities of still further reducing the company's mining and milling costs.

In this connection the recent statement of Director Jackson that all underground mining and development work had been discontinued has not received the attention it deserves.

As a result of a fair demand for American iron from foreign sources and a goodly volume of domestic short covering, prices in New York hardened Friday and the strength was maintained up to the close. Vague assurances to the effect that the Clavin affair is likely to be local rather than general in its effect produced a moderate change for the better in sentiment, as much of Thursday's liquidation was based on the apprehension that the commercial fabric, taken as a whole, was likely to be severely shocked as a consequence of the mortality in the drygoods trade.

Much interest was exhibited in the remarks of the president, insofar as they pertained to the future prospect. Final quotations at New York Friday follow:

Remember how spry and active you were before you had rheumatism, backache, swollen, aching joints and stiff, painful muscles? Want to feel that way again? You can—just take Foley Kidney Pills. For they quickly clear the blood of the poisons that cause your pain, misery and tormenting rheumatism. For sale by all Dealers.

## Throw Washboards Away

### No More Rubbing

#### Oh, the Joy of It! "SKITCH" Cleans Clothes Better Than Rubbing Does, and Makes Clothes Wear Twice as Long.

"Drapery, slavers, crumple—to let any woman rub on a washboard when SKITCH will save it all."

The hard work of wash day just clean knocked out. Use three teaspoons of SKITCH to a boilerful of clothes and a bar of soap, and that's all. Throw the washboards into the scrap heap. Save all the soap you now use in rubbing out the clothes. SKITCH just naturally, quickly skitches the dirt right out of the clothes while you sit and rest or do your housework.

SKITCH is a wonder! Nothing else like it ever thought of. Absolutely guaranteed not to hurt the finest fabric. In fact it saves your clothes because SKITCH saves the wear and tear of rubbing.

Get a 10 cent package of SKITCH and see. Enough for seven wash days in a package of SKITCH—less than two cents for a wash—less than the soap used in rubbing without it. Who'd break their backs rubbing clothes for 2 cents?

done as the mine has reserves of 332,500,000 tons, but a figure of seven and one-half cents per ton has been set up as a fair charge to represent the cost of this work as measured against current output. As over \$2,000,000 is being expended annually in the stripping department it is small wonder the company's cash does not pile up more rapidly in the face of earnings equal to more than twice the dividends.

## Markets

### BOSTON COPPERS.

Contrary to expectations, the market showed decided strength Friday. The only strong point in the situation at present, however, is the low level of prices which prevents the bears from selling short and restricts liquidation to small titled holders. Tompach has declared the regular dividend of twenty-five cents, payable July 21 to stock of record July 30. Nipissing has declared the regular dividend of twenty-five cents, payable July 20; books close June 30, reopen July 21. Closing prices at Boston Friday follow:

Adm. 28 1/2, Anaconda 32 1/2, Am. Smelt. 30, B. C. 25, Calumet 30, C. & N. 25, E. A. 25, G. & I. 25, H. & I. 25, J. & I. 25, K. & I. 25, L. & I. 25, M. & I. 25, N. & I. 25, O. & I. 25, P. & I. 25, Q. & I. 25, R. & I. 25, S. & I. 25, T. & I. 25, U. & I. 25, V. & I. 25, W. & I. 25, X. & I. 25, Y. & I. 25, Z. & I. 25.

After an exhaustive discussion of the matter, the Escanaba city council voted to adopt the schedule of lighting and power rates proposed by the board of public works. The aldermen in favor of the adoption were: E. W. Wickert, Tolan, Norous, Cutbush and Stom. The aldermen voting in the negative were: Polts, Wood, Johnson and Buchholz. The rates for the coming year are as follows: First 150 kilowatts, 7 cents per k. w.; second 150 kilowatts, 6 cents per k. w.; next 200 kilowatts, 5 cents per k. w.; all over 1,000 kilowatts, 4 cents.

## Upper Peninsula

### Injured Blacksmith Loses Eye.

Alfred Gustafson of Amasa underwent an operation at St. Joseph's hospital at Marquette this week for the removal of his left eye. The organ was injured when the young man was engaged in cutting steel in an Amasa blacksmith shop. An examination with an X-ray showed that the sight was impaired, the splinter of steel crushing the eye.

### New Lighting Rates Adopted.

After an exhaustive discussion of the matter, the Escanaba city council voted to adopt the schedule of lighting and power rates proposed by the board of public works. The aldermen in favor of the adoption were: E. W. Wickert, Tolan, Norous, Cutbush and Stom. The aldermen voting in the negative were: Polts, Wood, Johnson and Buchholz. The rates for the coming year are as follows: First 150 kilowatts, 7 cents per k. w.; second 150 kilowatts, 6 cents per k. w.; next 200 kilowatts, 5 cents per k. w.; all over 1,000 kilowatts, 4 cents.

### So to Lay a \$36,500 Pavement.

Acting in accordance with the prevailing sentiment of the majority of the property owners on Portage avenue, the common council of the Soo voted unanimously in favor of constructing a bituminous pavement on the entire length of Portage avenue to the water power canal bridge. The resolution adopting this type of pavement was adopted by the vote of every alderman. City Engineer Melbarge advised the council that the cost of the pavement would cost practically the same—\$24.00 per square yard. He said that both types of pavement were of about the same durability, lasting fifteen or twenty years. The total cost of the Portage avenue pavement would be about \$36,500. One-third of the expense will be paid out of the general street fund of the city while the other two-thirds will be borne by the abutting property owners. A special assessment will be levied, payable in five annual installments. At the next meeting of the council it will be determined whether the city shall do the work or it shall be let to contractors.

### Wants Whole County Re-assessed.

As the result of action taken by the board of supervisors, the state tax commission will be asked to make an assessment of all property in Delta county. When the board accepted the valuations as fixed by the supervisors of the townships and the boards of review of the cities, Supervisor Frank Burleson, of Bay de Noc, gave notice that he would at once request the commission to make a reassessment. A proposal to raise the assessed valuation of all real estate 10 per cent, that the total valuation might approach the figures placed on the county by the state board of equalization, was defeated after a prolonged discussion by a vote of eleven to twelve. The increase was unanimously proposed by the committee on equalization. Instead, a motion was made and carried by a vote of nineteen to five that the figures as reported by the different townships and cities be accepted. As Supervisor Burleson had raised the valuation of property in his township over that of a year ago by \$78,900, he refused to accept either proposition as a result will seek to procure a complete reassessment of all property in the county. As finally adopted by the board the valuations of property in the different cities and townships are placed on the tax rolls of this year with the following reductions and additions as compared with the assessed valuations a year ago: Baldwin township, \$6,000 less; Bark River \$32,000 more; Bay de Noc, \$78,900 less; Brampton, \$70,922 less; Cornish, \$5,782 less; Escanaba township, \$7,130 less; Fairbanks, \$31,350 more; Ford River, \$8,710 more; Garden, \$26,315 more; Maple Ridge, \$43,422 more; Masonville, \$8,075 less; Naima, \$31,975 more; Wells, \$191,716 more; Escanaba city, \$133,910 more; Gladstone, \$88,772 more.

### Merchants Will Buy at Home.

As the first step in a movement of the Escanaba Businessmen's association to encourage "trading at home," a resolution will be drafted and signed by the merchants, pledging themselves and their families to supply all their wants at home stores. The resolution will remain at the office of Secretary C. E. Jacobson for ten days. Inquiries have been sent out by the officers of the association to five hundred families of the city, asking them to name the articles they had purchased outside the city and why. A total of 102 answers were received. The results were made public, together with the recommendations of

Quality Not Premiums

20 for 10 cents

Don't expect to find premiums or coupons in Camel Cigarettes. The fine quality of choice Turkish and domestic tobaccos blended in CAMELS prohibits any other "inducements." You can't make Camel Cigarettes bite your tongue, or parch your throat and they don't leave that cigarette aftertaste.

Remember, Camels are 20 for 10 cents, so stake a dime today.

If your dealer can't supply you, send 10c for one package or \$1.00 for a carton of 10 packages (200 cigarettes), postage prepaid, to the nearest express office, if you don't find CAMELS as representing 10c each, the other nine packages, and we will refund your money.

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

## Murderer's Toy Pistol.

The current issue of the Michigan Bulletin of Vital Statistics contains the following timely warning to parents: "It is well at this time, just before the Fourth of July, to take a 'stitch in time in the way of prevention, rather than to be obliged to mourn the fatal results a few weeks later from the unrestricted use of that pernicious enemy of the patriotic American youth, the deadly, treacherous blank-cartridge toy pistol. Some cities have passed ordinances upon this subject. It is well to pass them and to enforce them. There is also a general state law which has been on the statute books for nearly thirty years, which appears to cover the subject pretty thoroughly. This is: 'An act to prevent the sale and use of toy pistols (compiled laws of 1897, sections 1153, 1152, public acts No. 138 of 1888.) That no person shall give or furnish to any child under the age of thirteen years, any cartridge or any form or material, or any pistol, gun, or other mechanical contrivance, specially arranged or designed for the explosion of the same. Any person violating any of the provisions of the foregoing section, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than ten dollars, nor more than fifty dollars, and costs of prosecution, or imprisonment in the county jail not less than ten days, nor more than ninety days, or both such fine and imprisonment in the discretion of the court. It shall be unlawful for any person under the age of thirteen years to have in possession or use any of the articles named in section one of this act. This law, if enforced, would undoubtedly have saved many of the most unfortunate victims who annually succumb in Michigan to one of the most horrible deaths known to medical science."

Today's weather: Unsettled; probably occasional showers. Yesterday's temperatures: Seven a. m., 54 degrees; noon, 57; 7 p. m., 56. Highest, 59 degrees; lowest, 50.

R. C. Young spent yesterday in Munising on a brief business trip.

Julius Jacobson, of Negaunee, is a Marquette visitor for a few days.

Harry Jackson, of Negaunee, spent yesterday in Marquette with friends.

D. B. Gray, of Iron Mountain, was a Marquette business caller yesterday.

P. W. Younger, of Minneapolis, spent yesterday in Marquette with friends.

Miss Bessie Chapman, of Ishpeming, spent yesterday afternoon in the city.

Mrs. Clarence Neault, of Green Bay, is visiting relatives at 219 Rock street.

Dr. Torrens, of Chicago, has arrived in Marquette to spend the summer months.

W. S. Wright left last evening for Duluth, on a several days' business mission.

Mrs. George E. Trothwey, of Ishpeming, is in Marquette for a visit with friends.

A. L. Rose has gone to Houghton and Calumet, to be gone several days on business.

D. W. Powell, and son Arthur, went to Houghton, for a short stay, yesterday afternoon.

Frank W. Davis, of Hancock, was a Marquette business visitor Thursday and yesterday.

Joseph Knapp Thursday brought in a forty-pound lake trout, which he caught in his nets.

A meeting of the O. R. C. will be held tomorrow afternoon at 3 o'clock in Keough's Hall.

F. H. Withey spent Wednesday and Thursday in Munising, on business, returning yesterday afternoon.

W. S. Ewing arrived in the city yesterday afternoon from a visit to the western part of the county.

Nels Eldin arrived in the city yesterday afternoon, from the copper country, where he has been on a business trip.

The Misses Carrie Van Evert, Jean Farrell and sister and Miss Swan went to Grand Island yesterday, to spend a few days.

Mrs. W. H. Smith left early this morning for the Soo, where she was called because of the serious illness of her mother.

Miss Jennie Delays, of Negaunee, spent last evening in Marquette, attending the Masonic party given by the Arab patrol.

A. Cameron, the Third street baker, who has been a patient at St. Luke's hospital for the last five weeks, returns home today.

There will be a dancing party at the Town and Country club for members and invited guests Tuesday evening, June 30, from 8 to 11 o'clock.

There will be choir practice at the Episcopal church this evening at 7 o'clock sharp. From now on, during the summer months, practice will begin at seven.

Frank Lewis, a student at the University of Michigan, has arrived home to spend the summer months. He is enrolled in the engineering department.

Mrs. Hjalmar P. Beckman was operated on at St. Luke's hospital Thursday. She had been ill since last November. Her condition is now improving.

Miss Norrine Turner, who has been visiting at her home here, leaves this evening for Chicago, where she will resume her duties in Michael Reese hospital.

Mrs. John W. Morton and Miss Leone Morton, of Alma, Mich., mother and sister of Mrs. Frank H. Withey, arrived in the city yesterday afternoon for an extended visit.

Dr. and Mrs. Coffin, Miss Bangs, and Rev. Harold Johns, of Iron Mountain, returned to their home yesterday, after a short stay in the city. They made the trip both ways in a Ford touring car.

A daughter was born recently to Mr. and Mrs. John A. Hallberg, of Winnipeg, Can. Mrs. Hallberg was formerly Miss Anna Sweder, of this city. She has lived in Winnipeg for the past year.

Dr. and Mrs. Roy Sexton and two daughters, of Streator, Ill., arrived in Marquette yesterday morning to spend the summer. Mrs. Sexton will study music here this summer under Dr. Tor-

rens, of Chicago, who has arrived in the city.

The dancing party given last evening in Masonic Hall by Arab patrol, of Ahmed temple, Nobles of the Mystic Shrine, was largely attended. It was the first social function given by the new organization of fez wearers.

Colonel C. W. Mott, of Menominee, manager of the Upper Peninsula Development bureau, was a business caller in the city yesterday, coming here from Calumet, where he attended the Copper Country Commercial club banquet Friday evening.

Mrs. H. M. Cunningham, Miss C. E. Maxwell, Miss Linton and Mrs. J. H. Kaye left for Munising Thursday by automobile. Their car broke down near the AuTrain river. They finally reached Munising. The party returned home by train last evening.

Mrs. P. H. Stafford left last evening for Omaha, Neb., where she will attend the funeral of Mr. Stafford's brother, who died there recently. Mr. Stafford was in Omaha at the time of his brother's death. They will return to Marquette within a few days.

Baseball Today—The Maas mine baseball team of Negaunee will play the Marquette Shamrocks at the fair grounds this afternoon at 2:30 o'clock. Scofield and Downey will be the battery for the Shamrocks, and Anderson and Aas for the Maas mine team.

Bicycle Hits Auto—Yesterday afternoon about 1 o'clock, a man riding a bicycle at the corner of Front and Main streets collided with a Ford car driven by Miss Elizabeth Tonella. The bicycle hit the rear hub of the auto, and the man was thrown off, but he escaped without any injury. The bicycle was slightly damaged.

Warning to Merchants—That a young man has been passing out bad checks among the merchants of the city was the information given out last evening by one of the Marquette banks. The identity of the person is not known, but he has rid himself of some worthless paper. Merchants are urged to be on the lookout for him.

Had Appreciative Audience—Before a large audience at the Swedish Lutheran church last evening, the Minnesota College Concert troupe presented an excellent program. All the eleven numbers on the program were appreciated. Harry T. Fagerstrom, pianist, who accompanies the troupe, is endowed with unusual ability and his renditions were much to the liking of the audience.

Funeral at Skandia—The body of the late Mrs. Hilma Beckman, who died Thursday at the Morgan Heights sanitarium, was taken to the home of her parents, Mr. and Mrs. Lars Beckman, of Skandia, yesterday morning. Mrs. Beckman was thirty-five years of age. The funeral will be held tomorrow afternoon from the Swedish Lutheran church at Skandia.

Road in Poor Condition—V. S. Hillyer, of Ishpeming, superintendent of the county road commission, reports that the contractor is now working on the Sand hill road at Skandia and that the highway will practically be impassable for several days, except for the most powerful cars. It will be fully a week before the road is wholly covered with clay at this point.

Alice Joyce This Afternoon—At a special matinee at the Marquette Opera House this afternoon, "Nina of the Theater," featuring Alice Joyce, which was shown last evening, will be repeated. This is a two-part feature and is the first of a series of Kalem specials featuring the great motion picture favorite. There will be eight reels shown at the matinee. The vaudeville is furnished by Tyler and Carr, the "auto bugs."

Leave for Sweden—The Soo News says: "Mrs. Andrew Nelson, of Marquette, who had been visiting friends and relatives in the city, was joined yesterday by her husband, who is division roadmaster for the South Shore Railway company. Mr. and Mrs. Nelson left last night for New York city, where they will board an ocean liner enroute to Sweden to visit relatives. Before returning, they will visit Germany, France and other European countries."

College Inn Opens Today—The College Inn, managed by M. F. Goldberg, will open this morning at 9 o'clock in the Goldberg block, on West Washington street, opposite the city hall. New fixtures have been put in during the last few days. The place will open from 6:30 a. m. to 11 p. m. Four people will be employed at the inn. The upper floor has been divided into rooms, which will be rented. The bowling alleys in the block will be open to the public.

Delegates for Outing—The delegates and visitors who assembled in Marquette this week for the annual district convention of the Epworth leagues of the Swedish Methodist church will be entertained today by the Marquette leguemes. Marquette residents who have promised the league the use of autos for the day are asked to have them at the Swedish Methodist church, at the corner of Third and Ridge streets, at 9 o'clock this morning. The delegates will be taken first to the Marquette prison and will be shown through that institution. From the prison the party will go to Presque Isle, where a picnic will be held during the remainder of the day.

Telephone Girls' Dance—Preparations for the annual ball to be given Monday evening in Fraternity Hall by the operators of the Michigan State Telephone company have been completed. The admission charge will be seventy-five cents a couple, with twenty-five cents extra for each additional young woman. Those who have not received invitations this time but who have been invited to parties given by the operators in the past will be cordially welcomed. Trombly's five-piece orchestra will furnish the music for the dancing, which will begin at 9 o'clock. The hall will be prettily decorated with ground pine and daisies and with white bells suspended from the ceiling.

**Homecoming=July 2-3-4**

**Novel Features Planned to Entertain City's Visitors**

Today The Mining Journal publishes the first of a three-day series of Negaunee Homecoming numbers, and it takes this opportunity to thank the businessmen of the city for their hearty co-operation in making them a success. They were prompt to see the advantages that would be derived for themselves and the city from their publication.

That the homecoming and Fourth of July celebration will be a conspicuous success is a foregone conclusion, as many former residents have already informed relatives and friends here that they will renew old acquaintances and enjoy the several programs.

The members of the local committees in charge of the various features are making elaborate plans for the observance. The co-operation of the leading women of the city, who are helping in various ways to arrange the programs, is proving very valuable. The women

tations. Harry Trembath, the secretary, reports that many additional names are being brought into his office, and he expects that at least 1,500 cards will be mailed.

The free attractions engaged to perform on the streets will give their first shows Thursday afternoon, and each attraction will perform every afternoon and evening during the remainder of the week. In addition, there will be bands on the streets every day. The several outside bands engaged will participate in the parade on the morning of the Fourth. The Ishpeming and Marquette councils and other officials of these cities will participate in the parade, riding in automobiles. The businessmen are already at work on their floats, and the mining companies will also be well represented. Various comic features will be introduced.

**Interest to Homecomers.**

Former residents who have not been in Negaunee during the last five or ten years will find that many important changes have taken place here. The city has never before looked as well as it does now. Many fine business

CIE Drive.

are particularly interested in the children's festivities, planned for Friday.

For several weeks past the children have been preparing for the parade, announced for early Friday evening. Some unique displays will be introduced, and it is expected that not less than 1,000 boys and girls will be in line.

**Many Invitations Issued.**

The general committee has already sent out in the neighborhood of 1,000 homecoming invi-

blocks and residences have been erected, and the streets are now in fine condition. The mines will doubtless be points of great interest to homecomers, as extensive improvements have been made about the properties, particularly in the east end of the city.

One feature of the recent civic improvements that will be greatly enjoyed by the homecomers, as well as other visitors, will be the fine pavement of Iron street, which was completed last year. As Iron street will be the center of

# Welcome!

On this occasion we extend a cordial invitation to our friends to visit with us. We will be particularly pleased to have former residents call and renew acquaintanceship.

## NEGAUNEE STATE BANK

# 1844 Negaunee 1914 Homecoming—July 2-3-4

activity during the week, most of the crowds will congregate there. The thoroughfare will be free from dust, and the pavement will be kept in such condition that it can be used in place of the sidewalks when the latter are crowded. The various free attractions will perform at different points along Iron street.

### A Unique Feature.

The free shows on the streets will be a new feature here. Negaunee has the unique distinction of never having allowed a carnival company to exhibit within the city limits. The free attractions will help greatly to enliven things during the afternoons and evenings.

Every homecomer, as well as pioneers who have lived here since prior to 1877, will be furnished with attractive badges. The principal ornamentation of the badge will be a picture of the stump under which ore was first discovered

being appointed marshal of the day, and he will be assisted by an efficient staff of aides. Mr. Anthony has held this post of honor many times on similar occasions.

The council of the city of Ishpeming and the Marquette city commission will have the places of honor at the head of the parade on Saturday, the Fourth.

The parade, which will be one of the largest ever held in the upper peninsula, will be headed by three bands, and two other bands will play on the streets during the procession.

### The Judges.

The judges have been chosen from different places in the county, and will be as follows: Automobiles in Parade—Mesdames Orr

Scene on Carp River near Marquette County Road.

at the Jackson mine in 1844. The homecomers' and pioneers' badges will be given out in the vacant store room of the Scandinavian society's block on Gold street. All homecomers will be requested to register, and a record of the pioneers who are given badges will also be kept. It is thought that there are some 1,000 men and women now living in the city who have resided here since prior to 1877.

Schurtz, T. J. Flynn, W. L. Bedford, E. M. Klein and Miss L. Steele.

Decorations of the Business Houses and Residences—Mrs. J. H. Hornbogen, Marquette; Mrs. H. O. Young, Ishpeming, and Mrs. C. V. R. Townsend, Negaunee.

Business and General Floats—A. T. Roberts, Marquette; Ed. J. Butler, Ishpeming, and Thomas M. Wells, Negaunee.

Mining and Fraternal Floats—D. W. Powell, Marquette; T. J. Nicholls, Palmer, and Thomas Pellow, Negaunee.

Calithumpians—Captain Peter W. Pascoe, Republic; Charles T. Kruse, Ishpeming, and Joseph Fay, Marquette.

The wrestling contest, to be held at the Adelphi rink, will be one of the most important attractions of the celebration. Over 100 entries have already been received. The judges

**Homecoming—July 2-3-4**

will be Frank E. Keese, Ishpeming; William Jory, Gwinn, and James H. Rough, Negaunee.

**Special Train Service.**

Special train service has been arranged for from all of the cities and towns of the county, and excursion tickets will be sold on each of the three days. A special will leave Marquette each evening at 7:15 and will leave Negaunee on the return trip at 11 o'clock.

The parade, which will be one of the principal attractions on Saturday, will form on Cyr street, and will move on Iron street to Pioneer avenue; on Pioneer avenue to Main street; on Main to Healy avenue; on Healy to Peck street; on Peck to Pioneer avenue. Automobile owners are requested to cover the prescribed route twice.

The parade will be made up in the following order:

Ishpeming city band, Marquette city commission, Ishpeming common council, Negaunee common council, board of public works and city officers, decorated automobiles, mercantile floats, society floats, mining and trade floats, brass bands, calithumpians and new parade features.

**Prizes Liberal.**

The cash prizes offered for the parade sections will be a big inducement in the bringing out of a number of fine floats. The prizes will be: Mercantile floats, \$25; \$15 and \$10; representative floats, \$25, \$15 and \$10; mining floats, \$25, \$15 and \$10; decorated automobiles, \$25, \$15 and \$10; calithumpians, best group, six or over, \$20; best group three to five people, \$12; best appearing couple, \$6; best comic couple, \$6; best appearing single, \$3; best comic single, \$3; best decorated business blocks, \$15, \$10, \$5; best decorated residences, \$10, \$7, \$3.

**Wrestling Prizes Large.**

The prizes for the catch-as-catch-can and Cornish wrestling tournament are the largest ever offered for a wrestling exhibition in the upper peninsula. The prizes will be for each event: First, \$100; second, \$60; third, \$40; fourth, \$25; fifth, \$15, and sixth, \$10. The first of the wrestling events will take place Thursday evening at 8 o'clock, when only the catch-as-catch-can style will be wrestled. All of the wrestlers in this class entering in the tournament will weigh in at 7:30 at the ringside. Friday evening at 7:30 the catch-as-catch-can tournament will be concluded and Saturday afternoon at 1:30 the Cornish wrestling tournament will commence.

Friday will be children's day, and an account of the events for the children can be found elsewhere in The Mining Journal. At 8:30 Friday evening the streets will be thrown open for dancing and five bands will furnish the music. The pavement will be cleaned and washed and will be in fine condition. Bands will furnish music all during the day and evening.

**Baseball Games.**

Saturday and Sunday afternoons the Negaunee league team will meet the Ishpeming team in league games, commencing at 2:30. Saturday afternoon the street sports will be held on

Iron street, commencing at 1:30. The events and prizes for the sports, which will be free for all, will be as follows:

Boys' foot race, 100 yards. Prizes, \$3, \$2 and \$1. West Iron street.

Men's foot race, 100 yards. Prizes, \$5 and \$3. West Iron street.

Running broad jump. Prizes, \$5 and \$3. Case and Jackson streets.

Twelve-pound shotput. Prizes, \$5 and \$3. Case and Kanter streets.

Slow horse race. Judges to assign drivers. Prizes, \$10 and \$5. Pioneer avenue.

Running high jump. Prizes, \$5 and \$3. Pioneer avenue and Main street.

Peg-leg race. Prizes \$5 and \$3. East Iron street.

Three-legged race. Prizes, \$5 and \$3. East Iron street.

Fat men's race, over 225 pounds. Prizes, \$5 and \$3. East Iron street.

**Leading Wrestlers Will Take Part in Big Tournament**

Many entries will be received for the wrestling tournament to be held during the last three days of the week, in connection with the homecoming and Fourth of July celebration, and both the Cornish and catch-as-catch-can events will be well filled out. The wrestling will start Thursday evening in the Adelphi rink, and will be continued Friday evening and Saturday afternoon and evening.

The prizes, aggregating \$500, are the most liberal ever offered for a wrestling tournament in the upper peninsula. One-half of this sum will go to the Cornish, the other half to the catch-as-catch-can grapplers. While the program has not yet been finally arranged, it is understood that there will be wrestling in both events each session, with alternate bouts in each style. There are many clever catch-as-catch-can wrestlers in Marquette county, and it is expected that all of them will participate. A few contestants are also expected from the copper country.

**Reception to Homecomers.**

Thursday will be reception day, and the homecomers will be expected to register in the large store room of the Scandinavian society's block, on Gold street. Members of the committee will be on hand to receive the former residents and to present them with badges. The homecomers will be requested to register their names, present place of residence, and the year in which they came to Negaunee.

In the neighborhood of 1,500 invitations have been sent to former residents, and it is certain that many have been overlooked, though the collection of names has been under way for more than six weeks past.

**The Fourth a Big Day.**

The Fourth will be the big day of the celebration, and events will be staged in rapid succession until late at night. The main feature

IRON ST

of the program will be the parade at 9 o'clock. It is expected that a large number of beautiful floats will be shown, and there will also be many industrial displays, as well as comic floats. The decorated automobiles will be a feature of the parade.

The parade will be formed at the western end of Iron street, where there is ample room for the assembling of both floats and automobiles, and will pass through the principal business and residence streets. Judges for each division will be selected by the local committee.

### Children's Day Program Will Be Notable Feature

The members of the committee in charge of the children's day festivities have prepared a program that will be highly interesting both for the children and their elders. The sports will begin at 9:30 in the morning and will be continued throughout the day and evening. The children's parade will start between 6:30 and 7 o'clock in the evening, and it is anticipated that it will be one of the most interesting features of the homecoming celebration.

The committee has requested that no fire crackers or other explosives of any kind be used any time Friday. There will be music all day and the free vaudeville attractions afternoon and evening.

The program will be as follows:

9:30 A. M.—EAST IRON STREET.  
Boys' Foot Races—Classes A, B, C, D, E and F. PRIZES—\$1.00, 50c, 25c for each class.

### Medard Gauthier Resident of Negaunee Since 1857

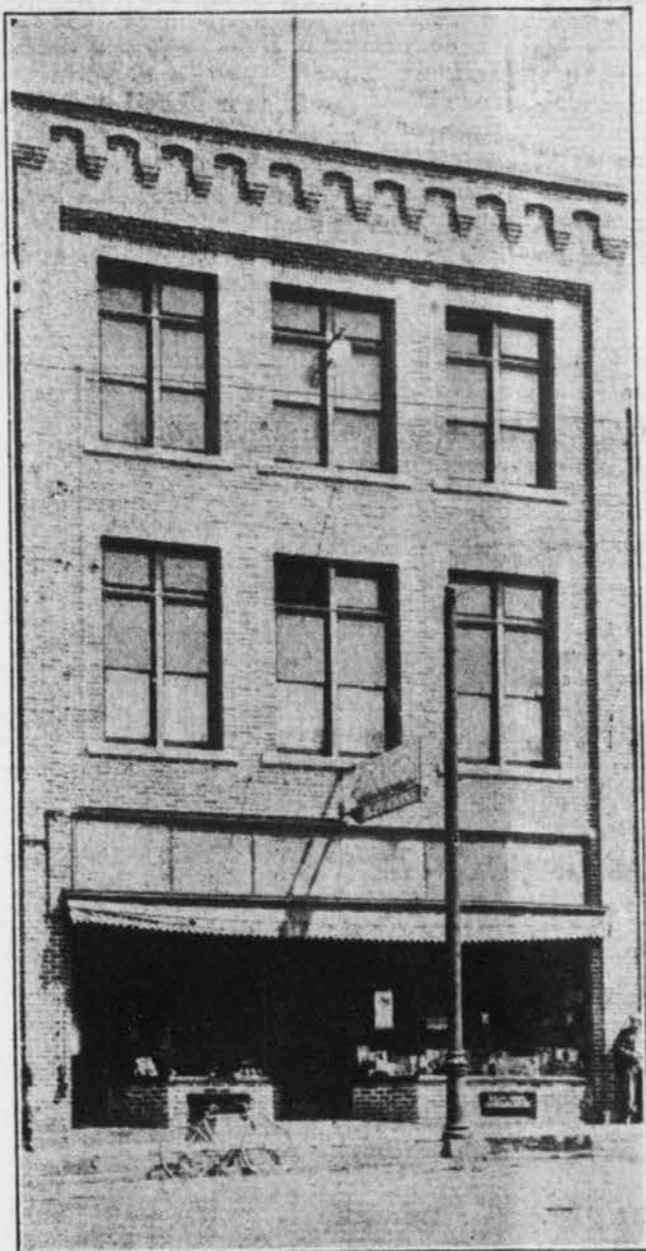

Medard Gauthier, whose picture accompanies this article, has for a number of years past had the distinction of being Negaunee's oldest pioneer resident. Mr. Gauthier, who next September will celebrate his eighty-first birthday, went to Marquette from his native place in Montreal, Can., in 1855, and he came to Negaunee in June, 1857. He has lived here continuously ever since.

During the greater part of the first two years of Mr. Gauthier's residence in the county he chopped wood at Collinsville. He gave up work there to take a position at the Jackson mine, under Samuel Peek, the property's first superintendent, who remained in charge until he gave way to Captain Harry Merry, who was induced by Mr. Peek to come to Negaunee to take the management of the property.

Speaking of his early life in Negaunee, Mr. Gauthier recently said that he was not employed long under Captain Merry, who imported men from his home town in Ohio to work at the property. He is now the only man living who worked at the Jackson under Superintendent Peek, though there are a number still living who were employed under Captain Merry.

Mr. Gauthier worked in the old No. 1 pit, immediately west of the office building. He was employed most of the time in landing buck-

"The Savings Bank Saves"—

deputing our business policy from a saving as well as from a quality standpoint

### APOLOGY

We sincerely regret that our new business block will not be completed for the Homecoming celebration, thus depriving us of the pleasure and privilege of bringing before the public the most beautiful business house in Northern Michigan.

### SPECIAL

We call special attention to our immense showing in bunting, flags, etc., for decorative purposes. We shall be pleased to quote prices.

Come to Negaunee  
for  
**HOMECOMING**  
and  
**Fourth of July  
Celebration**

We will welcome you at our store, where you will always find a fresh, up-to-date stock of Dry Goods, Men's, Women's and Children's Furnishings, etc. Special line of Men's Shoes, Ties, Warm Weather Shirts, etc., for the big doings.

**P. Rasmussen**

ets and tramping. He has an excellent recollection of many of the early events at the mine and about the city. He remembers what a great convenience the plank road proved for transporting ore from the Jackson to the Marquette docks. The cars were pulled by mule teams, and as practically the entire distance was down

the site of the former Harris building. He was successful as a wood chopper and coal maker and he saved almost enough money while engaged at that work to erect his business block on East Iron street.

The block was erected in 1865 and in the following year Mr. Gauthier put the stone found

Medard Gauthier.

grade, from three to seven tons could be taken to a load.

**Chopped Wood and Made Charcoal.**

After leaving the employ of the Jackson, Mr. Gauthier engaged in wood chopping for the Pioneer furnace, on the east shore of Teal lake, where he built a shack and lived with his family. For two years he made charcoal from the wood he chopped, his beds being quite close to

the site of the former Harris building. He was successful as a wood chopper and coal maker and he saved almost enough money while engaged at that work to erect his business block on East Iron street.

For a year following the completion of the block, Mr. Gauthier conducted a saloon, but he did not like the business and sold out, taking a job with the Marquette, Houghton & Ontonagon Railway company as section hand. He remained on the road for some thirteen years, when he was promoted to the position of section foreman. He held this job for three or four

years, when he resigned to open a boarding house in his building.

**Farms Sold to Good Advantage.**

When the vacant lands near the old cemetery in the eastern part of the city, now owned by the Cleveland-Cliffs Iron company was offered for sale, Mr. Gauthier bought eleven and one-half acres, which a few years ago he sold to the Cleveland-Cliffs Iron company for \$21,000. The deal for the sale of the land was negotiated by George J. Maas, who made the ore discoveries on the property with diamond drills.

Mr. Gauthier has for several years enjoyed the fruits of his savings, and he is now living comfortably in an attractive home at the corner of Teal Lake avenue and Lincoln street. He has not been enjoying the best of health since last fall, but in good weather he always takes, and greatly enjoys, his customary walk of from three to five miles. He does not use glasses and he looks as young as the average man of sixty or sixty-five years.

Negaunee's next oldest pioneer in point of years of residence here, is his son, Noel Gauthier, who, for several years past, has been assistant postmaster. Mr. Gauthier was nine months old when he came to Negaunee with his parents in 1857.

**Jackson Was Marquette  
County's First Iron Mine**

Among the homecomers will doubtless be several men, who, in the early development of

Above—Stump, where Ore was first discovered.  
Below—Monument to the discovery of iron ore, erected by Jackson Iron Co.

the iron industry here, worked at the Jackson mine, where ore was first discovered in 1844.

under a pine stump, the location of which is now marked by a monument. Many of the visitors and present residents of the city will discuss with interest incidents that occurred in and around the Jackson mine in the early days. There are now but few living here who worked at the Jackson prior to 1870, but there are a number of residents who were employed at the property in the seventies and eighties.

While ore was discovered at the Jackson in 1844, and the whole of Section 1, Town 47, Range 27, was owned by the Jackson Iron company, it comprising the original entry made on a permit from the secretary of war in 1845, little progress was made in the way of developing the ore body until the opening of the St. Mary's ship canal and the completion of the plank road to the "Jackson mountain," as the location was then called.

For a number of years the Jackson was considered a most wonderful property, and it outranked all others in the district. The Jackson company was the first mining company organized to operate properties in Marquette county, and it was from the Jackson ore that the first Lake Superior iron was made. The product of the Jackson was then considered of excellent quality, and it went a long way toward establishing the reputation of the Lake Superior ores. The great financial success of the Jackson company stimulated mining enterprises, practical exploration, investment of capital, immigration and the settlement and improvement of the county.

**How Company Got Its Name.**

The Jackson company derived its name from the city of Jackson, in the lower peninsula, where in 1845 the corporation was organized. Some of the old-timers will likely remember some of the men interested in it. Among them were Abram V. Berry, P. M. Everett, S. T. G. W. and F. W. Carr, E. M. Rockwell, F. M. Courtland, W. H. Monroe, A. W. Ernest and F. Farrand, all of Jackson.

In 1848 a re-organization of the company was effected, under an act of incorporation passed by the legislature, and the name assumed was the Jackson Mining company of Michigan. A few years later the name was changed to the Jackson Iron company.

A short time prior to 1848 a forge had been constructed on the Carp River, in which iron ore was made into blooms. The daily product of this forge, when in full blast, was about three tons of iron. The manufacture of blooms there was abandoned in 1866.

In 1850 about five tons of Jackson ore had been shipped to Newcastle, Penn., and there worked up. This small shipment was followed two years later by one of seventy tons, sent to Sharon, Pa., which was smelted in a blast furnace. The first regular shipments from the mine began in 1856, the company shipping that year 5,000 tons. The aggregate shipments from that date to 1882 amounted to upward of 2,000,000 tons of ore, being nearly the same for the Cleveland. Until 1864 the Jackson, Cleveland and Lake Superior were the only companies which shipped ore from the region.

NEGAUNEE, MICH.

# 1844 Negaunee 1914 Homecoming—July 2-3-4

the Jackson in the early period of its activities was due to Captain Harry Merry, who is well remembered by all of the old-time residents of Negaunee. Captain Merry came to Negaunee and became manager of the Jackson mine in 1858, retaining the position for twenty-four years, when he resigned and moved to his former home in Cleveland.

#### Ore Was in Great Demand.

In the early period of its operations, the Jackson mine ore was in great demand and it brought the highest prices. This was due to its superior quality and the care which had been observed in selecting it. Part of the Jackson product was of first grade hematite, possessing a percentage of manganese. Frequently pockets of rich hard ore were encountered. The formation was badly broken up, the veins doubling and folding in a manner nearly to defy definite determination.

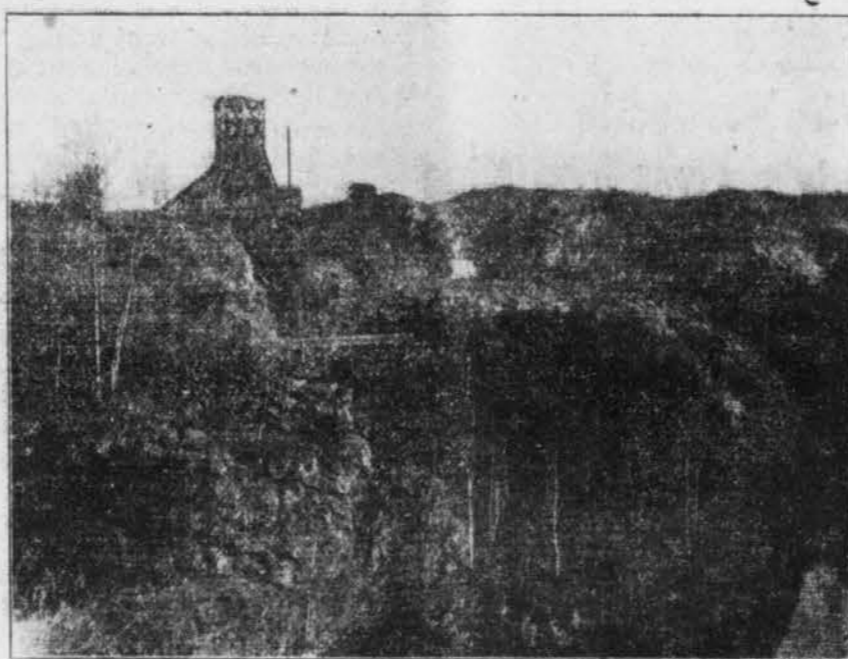

In the early history of the Jackson all of the drilling was done by hand. The ore at times was badly mixed when it came from the pits, and required most careful sorting. The com-

little mining work has been done in that period. All of the old buildings, with the exception of the office, barn and a warehouse, have long since been razed, but homecomers will find quite a number of the original dwellings on the site.

#### Iron Cliffs Drive Always Held in Highest Favor

There is in both Negaunee and Ishpeming a strong demand for the widening and repair of the Iron Cliffs drive, so that it may be used to advantage by autoists. For more than forty years past this beautiful drive has been popular with the residents of the Twin Cities, but the road is so narrow in places that it is safe only for parties riding in carriages.

For some years there has been little or no traffic over the road during the winter, but it will be kept open in the winter in the future.

Old Jackson Pit, where Iron Ore was first mined in Upper Peninsula.

pany used no power drills. When the compressors and power drills were first being introduced for mining work, Captain Merry did not believe they were likely to be practicable in the Jackson. Neither was the diamond drill used to any great extent at the Jackson until some time after it had proved its worth in other parts of the Marquette range. The difficulty attending the use of drills at the Jackson arose mainly from the peculiar nature of the rock. The small, loose pieces of hard jasper wore out the diamonds so rapidly that it was almost impossible to proceed with the work.

#### Inspect Famous Spot.

Few homecomers will fail to inspect the spot where the monument marks the place where ore was first discovered. Many will also be interested in the pits about the Jackson, some of which have not changed much in appearance in the past quarter of a century, as very

as the Pittsburgh & Lake Angeline company is opening a mine on the shore of Iron Mountain lake, one of the chain of attractive lakes on the hill south of, and overlooking, the Negaunee-Ishpeming road.

With a few hundred dollars the Cliffs road could be made passable for auto traffic. Part of the road lies within the city limits of Negaunee, but the greater part traverses in Tilden township. Negaunee repaired its end of the road a few years ago, but the driveway needs widening in many places between the main highway and the Iron Cliffs location.

Homecomers, who have not seen the Cliffs drive in years, will find it more attractive this summer than ever before, as it was never in better condition for carriage driving. The Cleveland-Cliffs Iron company, which owns the greater part of the land, has never permitted the cutting of the trees, and the lakes have

been protected by the city of Ishpeming as the source of its water supply.

### Firemen to Welcome Home-Comers in Fine Building

The officers of the Negaunee fire department will be pleased to have homecomers visit the department's headquarters. They will find the new hall a great improvement over the old headquarters, occupied for many years until some four years ago.

Most of the men who composed Negaunee's original fire company, which was organized in 1869, have passed away. The department was re-organized in 1882, at which time a steamer was purchased.

The records of the fires that occurred in the early days were destroyed recently, and nothing is positively known by any of the present members of the department as to just how early conflagrations were fought. Prior to the organization of the fire company in 1869, Negaunee's original fire fighters were comprised prin-

Negaunee Fire Team.

cipally of bucket brigades. Several men who were members of the original company are still living in the city. The active members of the department when it was organized were John Mulvey, E. C. Anthony, Nicholas Laughlin, Sr., M. H. Crocker, James F. Foley, Charles Martel, Gad Smith, T. M. Wells, Charles Wasmuth, Henry Lee, T. E. Donahoe, Angus McDonald, A. C. Seass, L. H. Stanley, Frank Dusehaine, P. B. Kirkwood, Michael Shea, Charles Thoren, Sr., Donald McDonald, Benjamin Neely, Fred Haupt, J. E. Suess, John Lee, Charles Muck, Sr., William Labanon, James Clancey, John C. Downing and Martin Heiser.

Charles Muck, Sr., was the first foreman of the company, Charles Wasmuth was assistant foreman, and Martin Heiser was hose captain.

The company's first engine was a hand pump, which the foreman christened the "Up mit-er an' down mit-er." It was never known by any other name. This engine was used until 1882, when it was replaced by the city's present steamer, and was sold to the Newberry department.

The late George Sheldon, of Houghton, who was a resident of Negaunee for several years, was the first chief of the Negaunee department.

The Negaunee department is now well equipped with apparatus and the organization is efficiently managed. Its membership is made up largely of men who have had many years experience in fire fighting. Julius Johnson, the chief, has been in charge for a number of years past, and much credit is due him for the efficiency of the department.

**LADY PATRONS**

The wife is expected to look after the household expenses. A checking account is a great convenience to her, giving her a record of her household expenses. This bank encourages such accounts. Special attention is given to the business of lady patrons of this Bank.

**BOY DROWNS IN LAKE MICHIGAMME**

**Seven-Year-Old Alfred Hill, While Swimming, Goes Beyond His Depth and Sinks.**

Alfred Hill, aged seven years, son of Nestor Hill of Michigan, was drowned in Lake Michigan Thursday evening.

The boy was in the water with several other youngsters of about his own age. He waded in beyond his depth and as he was unable to swim, quickly sank. The other youngsters were not old enough to help him and they ran ashore. Within a short time several men had congregated and they soon recovered the body, but the boy could not be brought back to life.

The funeral will be held Sunday afternoon from the Methodist church in Michigan, besides his parents, the boy is survived by five brothers and sisters.

**ISHPEMING IN BRIEF.**

Mesdames Ed. Gurzi and C. H. Mass will serve at the golf club this afternoon.

Captain W. J. Richards, of Crystal Falls, was an Ishpeming visitor yesterday.

Winter & Suess are now receiving strawberries from the Alger County Farm at Rumley. 6-27-3t

Rev. J. M. Rogers and family have departed for Ana Arbor, where they will reside in the future.

Miss Lucille Magnusen, of Menominee, is visiting at the home of John Olson and family, of Bessemer street.

Mrs. T. F. Nolan and two daughters are here from Butte, Mont., on a visit to her mother, Mrs. John Dahlstrom.

Mrs. E. P. Tillson, who spent the greater part of the past year in California, arrived in the city yesterday.

Miss Viola Lidberg, who conducts a millinery business at Crystal Falls, is here on a visit to her mother and other relatives.

Mrs. Joseph Pryor, Jr., and children, of Michigan street, will leave tomorrow for Chicago and Kalamazoo, on a visit to relatives.

Professor Hillberg, editor of a Swedish paper, published in Chicago, will give an address tomorrow evening in the Swedish Methodist church.

Mr. and Mrs. Leo Lafreniere, Mr. and Mrs. Peter Corou, and Ovid Corou have gone to Camp Alice, on the Black river, where they will spend a few days.

William Andrews, who left Ishpeming eleven years ago, is in the city from Neenah, Wis., where he has lived the greater part of the time he was away from here. He will spend a few weeks in the city, visiting friends.

The Ishpeming and Gladstone baseball teams will meet this afternoon, also tomorrow afternoon, at 2:30 o'clock, at the Union park grounds. Goulette will probably pitch today for Ishpeming and Mahoney will likely be on the mound tomorrow.

Notices advertising the special registration, to be held on Saturday, July 11, have been posted. There will be a special election July 29 on the bonding of the city for \$30,000 to complete the proposed Third ward sewer. The registration boards will be in session on the 11th from 8 a. m. to 8 p. m.

Thomas Currow, who a few weeks ago moved his barber shop from Main to Division street, has an attractive pole in front of his place of business. It was painted by his wife, who is skillful with the brush. Mr. Currow says that since his wife has painted the pole he has become a very strong believer in woman's suffrage.

An eight-reel matinee will be given this afternoon at 2:30 o'clock at the Ishpeming theater. Two special features will be included in the program. One is an Essanay two-reel drama, "In the Moon's Ray"; the other, "The Vanity Case," a Vitagraph drama, in two parts, "The Fight on Deadwood Trail," a sensational Kalem drama, and "Gertie Gets the Cash," and "Hubby's Night Off," a Lubin comedy that will be included in tonight's program.

Ballo Bros., the Spanish serenaders, who are filling an engagement at Ishpeming theater, present a pleasing musical act. They are clever performers on the banjo and mandolin. They will conclude their engagement tonight. The vaudeville act for the first half of next week will be the Two Stephanoses, who introduce piano-acordion, musical alarm clocks, etc., together with comedy singing and acrobatic dancing, including the latest Parisian tango.

Mrs. G. VonStratum, of Hurley, Wis., who came to the city to attend the marriage of her son to Miss Ruth Goodman, has been the guest of honor at several functions given during the week by Ishpeming friends. Mrs. C. W. Jarvis entertained for her Thursday afternoon; Mrs. H. O. Young entertained yesterday afternoon; Mrs. B. P. Bronson entertained at dinner last evening and Mrs. J. M. Hayden will entertain this afternoon. Mrs. VonStratum's husband, Dr. F. G. VonStratum, and Mr. and Mrs. Kimball Clark, who came down to attend the wedding, departed for their home Wednesday night.

**DEAFNESS CANNOT BE CURED**

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. & C. CHENEY, Co., Toledo, Ohio. Sold by druggists, 75c.

Take Hall's Family Pills for constipation.

**TO ATTEND ENCAMPMENT.**

Members of Uniform Rank Will Go to Terre Haute, Ind., Next Month.

The international encampment of the Uniform rank, Knights of Pythias, will be held at Terre Haute, Ind., commencing July 19 to 25, 1914. All uniform rank companies of the supreme domain are expected to be present at this meeting. About twenty members of Zenith company, No. 42, of Ishpeming, expect to attend, leaving in full dress on the evening of July 18. The company is now holding two drills a week, under Captain William Millman. The next drill is to be held at Union park at 9 a. m. tomorrow morning.

For the general encampment the major general has announced that prizes are to be awarded for inspection and proficiency in drill, the aggregate amount being \$4,500.

At the same time the subordinate lodges of Indiana will hold a Golden jubilee meeting. This meeting is held to properly celebrate the fiftieth anniversary of the instituting of the order of Knights of Pythias. Military and subordinate lodges parades will be held and the celebrated Iola Third Rank team, of Dayton, O., consisting of 110 men, will confer the third rank on Wednesday evening, July 23.

Prizes are also offered to subordinate lodges that participate in the parade. Any lodge in the supreme domain is eligible to enter the contest for any of the prizes. The aggregate amount to be offered is \$1,675.

There will be entertainment also for the Pythian Sisters, Wednesday morning, July 22, a reception and musical will be given by the Sisters Past Chiefs association No. 1, in the Pythian temple. July 21, they will be the guests of the Fidelity club Pythian Sisters on a boat trip up the Wabash river to old Fort Harrison, a place which every true American desires to visit.

**SERIES OF SERMONS.**

Sunday morning Rev. J. V. Haller, pastor in the First Methodist Episcopal church, will again take up the series of morning sermons on Inspired Characters in History. He will conclude the discussion of Dr. Martin Luther, the inspired reformer. All not otherwise indicated, who are interested in the origin and character of the great movement called protestant christianity, are cordially invited.

In the evening there will be the usual service with a short sermon by the pastor.

**COMFORTING TO STOUT PEOPLE.**

Foley Cathartic Tablets are a specially good little regulator that keeps your system in perfect working order. No biliousness, no constipation, no distress after eating, no greasy, gassy taste. A stout person who uses them constantly will really feel thinned out and more comfortable as a result of their use. For sale by All Dealers.

**ATTRACTED LARGE CROWD.**

Braastad's Closing Out Sale Started With a Rush Yesterday Morning.

It is doubtful if there has ever been a closing out sale of merchandise in Marquette county that has attracted so much widespread attention as the one announced by F. Braastad & Co. this week, and which opened yesterday. Mr. Braastad's protest on the score of high taxes and the announcement that he was being forced out of business has caused very general comment throughout the upper peninsula, and many of the papers reprinted from The Mining Journal his discussion of tax conditions. The crowd began assembling at the store yesterday morning at 7 o'clock and the departments were well filled with customers all day. Many extra clerks were engaged. At times during the day there was a line of automobiles and other vehicles a block in length in front of the stores.

Thursday evening Mr. Braastad sent out twenty-one telegrams cancelling orders for merchandise that had been placed some time ago.

**TEMPERANCE CONVENTION TODAY.**

A temperance convention will be held in the Norwegian Lutheran church today. In the evening, commencing at 8 o'clock, the following program will be given, after which coffee and cake will be sold:

- Piano Solo..... Muriel Watters.
- Piano Duet..... Ingeborg Johnsen and Liljan Olsen.
- Vocal Solo..... Lucile Magnusen.
- Reading..... Kristine Flaas.
- Piano Duet..... Ingeborg Johnsen, Alfhild Thompson.

**CANDIDATE FOR MINE INSPECTOR.**

Richard Penberthy, one of Ishpeming's oldest and best known miners

**PERSONALITY**

in business is equally as important as stability. We believe that courtesy is a valuable asset to any institution, and this we offer you coupled with safe, sane and conservative financial practice. Your account is invited.

**The Miners' National Bank**

ISHPEMING, MICH.

will seek the nomination for mine inspector on the Democratic ticket, and he will begin circulating his petition today.

Mr. Penberthy has been mining in America for the past forty years, and has been engaged in mining work in Ishpeming for twenty-three years, having been employed most of the time at the Lake Angelina mine. He has had training in all branches of mining work and as he is well and favorably known members of the Democratic party here believe he would make the strongest candidate they could nominate.

The Democrats of the county intend to name a complete ticket this fall.

**NOTES OF MINING NEWS.**

The strength in Utah Consolidated is accompanied by a report of another dividend declaration shortly. The last payment—\$1—was made March 21 last, the only payment thus far in 1914. In the last two calendar years \$1.50 a share has been paid annually, while in 1910 and 1911 fifty cents a share was declared each year.

The activity in United Verde Extension has been in anticipation of favorable results to be announced at any time from the new development work at the property.

**COUGHS AND COLDS WEAKEN THE SYSTEM.**

Continued Coughs, Colds and Bronchial troubles are depressing and weaken the system. Loss of weight and appetite generally follow. Get a 50c bottle of Dr. King's New Discovery today. It will stop your cough. The first dose helps. The best medicine for Stubborn Coughs, Colds and all Throat and Lung Troubles. Mr. O. H. Brown, Muscatine, Ala., writes: "My wife was sick during the hot summer months and I honestly believe Dr. King's New Discovery saved her life." Good for children. 50c and \$1. Recommended by The Stafford Drug Co.

Ishpeming, Mich. Division Street

### NOTES OF MINING NEWS.

Practically all of the big sellers have lowered their asking price for copper to 13 1/2 cents a pound. Ray Consolidated made another new high record production in May, with an output of 6,395,000 pounds of copper. For the past three months the property has been producing at the rate of 75,000,000 pounds per annum, against the 1913 record of 82,900,000 pounds. Under present conditions the dividend is, of course, being earned by a very comfortable margin even on the relatively low price for copper.

Alhbeck's quarterly dividend of \$2 is payable July 10 to stock of record June 22. Three months ago \$2 was declared a year ago.

The Shattuck-Arizona Copper company's regular quarterly dividend of fifty cents per share is payable July 20 to stock of record June 30. Books will be closed from July 1 to July 5, inclusive.

### THE JOY OF DANCING EXERCISE.

Very few women or men seem to care to Tango or get Dancing Exercise unless they are assured the freedom from aching feet that Allen's Foot-Ease, the antiseptic powder to be shaken into the shoes, always gives. Since the tendency to hold Dancing parties has become almost a daily and hourly necessity in every community, the sale of Allen's Foot-Ease, so the Druggists report, has reached the high-water mark. Sold everywhere 25c. Trial package free. Address Allen S. Olmsted, LeRoy, N. Y.

ALWAYS LEAD TO BETTER HEALTH Serious sickness starts in disorders of the stomach, liver and kidneys. The best corrective and preventive is Dr. King's New Life Pills. ## MENOMINEE RANGE TAXPAYER PROTESTS

Methods of State Tax Commission Are Assailed by Man Who Challenges Contradiction.

A prominent Menominee range business man, who for the past two or three years has been criticizing the methods employed by the state tax commission in determining the values of mining and other properties in that district, has written a Marquette county friend and asking letter that was prompted by his knowledge that there is much dissatisfaction expressed by property owners here over the valuations placed on their properties by the state tax commission, and concurred in by the board of review. He believes that the boards of review in all of the upper peninsula cities and towns where the tax values are considered annual should take steps to have them readjusted for the benefit of their respective communities.

The writer says: "I hope that business men and others in Marquette, as well as other counties of the upper peninsula, who are fair to all classes of property will not be down in this contest. We have been fighting this thing at Crystal Falls for three years; in fact this 'putting over' reductions started here with a snap, or secret session, of the tax commission at which the valuation of one property was reduced over a quarter of a million dollars and the \$7,000 they escaped in taxes shifted off onto the other property. The other sections were not affected until recently because this movement had not spread, but it has spread with a vengeance unless there is something done by a concerted effort of the people of this mining section.

"We are not asking that the mines be 'soaked' with high values. We have helped the mines to maintain as low values as they could get and we believe that they ought to reciprocate, not to average.

How Mines Are Valued. "However, it is mainly to call attention to the methods of the state geologist that I am writing. I spent a day visiting with the commission last spring and learned many things that I didn't know before, and which are generally known would put a damper upon the methods of this commission, the members of which, by-the-way, tell you that they know absolutely nothing about mines and depend entirely upon their state geologist. Mines are valued upon their contents, respectively, and no improvement is made upon the average royalty based in cases where there is no earnings because of inaction and this factor is applied to the one which is reported to be in the mine in sight.

"As an example, we have a mine here that has been a big dividend payer in the past. Its reserves are as great as ever. That mine was closed in July of last year and allowed to fill with water because the company had other properties which they were opening up and which they wish to get far advanced as this one and at the same time conserve their ore for their own mills. No ore was mined out of that property last year yet the value was depreciated \$200,000. When I inquired why, I was told that the mine was closed and no development work done, therefore there was no profits and the general factor was used instead of the factor obtained from the profits. Another property here has been closed for twenty years. Last year the assessment was \$175,000. "If the board of review contended that it ought to be \$250,000 and for the purpose of equalizing between the different pieces of property this mine was placed at \$250,000. Complaint was made to the commission and they came here and put the property back to \$175,000. This year, although there has been no ore mined out of it—the property has been full of water for twenty-four years to my personal knowledge—the value has been boosted to \$250,000.

How Valuations Were Changed. "A property that has a couple of drill holes in it was assessed by the commission last year at \$60,000. Ben Neely had this on option and was trying to place it. But 200 feet of sand barren and sludge in the ore kept him from mining. He made his representations to the local board and was reduced to \$25,000. The commission, at this same session, put Mr. Neely's exploration back to \$60,000. Mr. Neely had to let go of it and it reverted to the Longyear interests. They went to mining water and got the property reduced to \$25,000 on this year's roll.

"I merely cite these few instances out of many to show that there is absolutely no regularity to the work of the commission, notwithstanding their boast that they are doing things on a scientific basis. Some of you property owners should investigate this and the more you investigate the more your eyes will be opened. I am of the opinion that the job is too big for some of the people who are doing the work, and I think that if you will make a careful investigation of what is going on you will come to the same conclusion.

"As I said before, I am not writing in any spirit of animosity to business of property but in an effort to get justice. I am sure that it is a difficult task to value property and that it is easier to sit around on the side lines and find fault than it is to do things, but men who attempt such work should at least be fair and that is not what we have been able to get out of the commission so far."

### HOT WEATHER TONIC AND HEALTH BUILDER.

Are you run down—Nervous—Tired? Is everything you do an effort? You are not lazy—you are sick! Your Stomach, Liver, Kidneys, and whole system need a Tonic. A Tonic and Health Builder to drive out the waste matter build you up and renew your strength. Nothing better than Electric Bitters. Start today. Mrs. James Duncan, Haysville, Me., writes: "Completely cured me after several doctors gave me up." 50c and \$1.00. Recommended by The Stafford Drug Co.

### EXPECT TO TAKE SERIES.

Escanaba Aggregation Is Confident Of Results of Games This Week.

The members of the Negaunee baseball team will go to Escanaba today to meet the South City bunch in two games. Manager Willman has had the team out every day this week, and is going to Escanaba to win. Monte Murso, who held "Frank" Olmsted's squad to four scattered hits here last Saturday, will most likely be sent to the mound today, and Hihner Leaf will work tomorrow.

"That Escanaba is confident of taking both games from the locals is evident from the following from yesterday's Press: "For the first time in nearly three years a Negaunee league baseball team will come to Escanaba tomorrow to clash with the locals at South park in a two game week-end series. Not since the days when Negaunee trimmed Escanaba for the pennant in the first year of history in the Marquette-Delta county league has a Negaunee team appeared at the local pastime grounds and the appearance of that squad on Saturday and Sunday should attract a record breaking crowd.

"Not content with trimming Negaunee in two straight games last Saturday and Sunday the local leaguers will in the present series make a desperate effort to so thoroughly tame the rampant northerner that Escanaba fans will be able to forget the humiliation heaped upon them three years ago by the pennant winners of that season.

"Manager Schram will send a new hurler against Negaunee in the opening game on Saturday while either Garland or Aronson will do the heavy on Sunday. VanEffen is the local scheduled to tame Negaunee in the first combat and his performance in the box will be watched with great interest by all local fans. Negaunee will send a considerably strengthened team to Escanaba for the present series and two stiff battles are in prospect."

### WILL BRING WRESTLER.

Jake Arneht, a former well known Negaunee man, who is now located at Iron River, where he conducts a pharmacy, has informed the committee in charge of the wrestling tournament that he is coming over with a first-class wrestler. His man wrestles under the name of "Farmer Brown" and his manager, Mr. Arneht, claims that he will show that he is worthy of the name.

### Upper Peninsula

#### Confiscated Fish Distributed.

J. B. Eddy, deputy state game warden, distributed a quantity of whitfish to the Soo General hospital and Lorett academy at the Soo this week. The fish were some he had seized from fishing boats at DeFon, because they were under the length prescribed by the state law.

#### Excellent Attendance Record.

Edith Dahlberg, a member of the large class of eight graders graduated at Escanaba and presented the highest school, enjoys an unusual record. In six years she has never been absent nor tardy. In entering the high school she will make an effort to lengthen the record to ten years.

#### Carnival at Iron Mountain.

W. Johnson, special representative of the "Miller" circus, shows, which will open a week's engagement at Iron Mountain, commencing next Monday, is in the city and will remain until the arrival of the company. The Miller organization carries eighteen attractions and is a bigger enterprise than when it visited the same city a year ago.

#### Sues Twice for Same Reason.

The case of Matt Grimrod vs. Village of Stambaugh has been noticed for trial in the Iron county circuit court. According to the allegations of Grimrod, he fell over a sidewalk obstruction and received permanent injuries. Damages are demanded in the sum of \$10,000. While living at Iron Mountain two years ago Grimrod was successful in procuring a verdict for \$7,000 in a similar suit against that city.

#### Repairs Shoes by Machinery.

Edward Duchaine, a deaf mute, who for ten years was located in Gladstone, will in the future conduct a repair shop in connection with the business of the Manning Peterson Shoe company at Escanaba. Mr. Duchaine has long held the reputation of being one of the most competent shoemakers in the district and in establishing a shop at Escanaba he has installed machinery that will make his establishment one of the best equipped in the peninsula. He has electrically driven sole sewing machines, buffers and trimmers.

#### Brass Band Leaves Park.

The Escanaba Military band has leased South Park and will spend between \$1,200 and \$1,500 in making improvements. With these completed the band will give dancing parties twice each week and in addition the pavilion will be leased for private functions. The pavilion is being enlarged and when completed will be 100 by 30 feet. A new hardwood floor is being laid. The pavilion will be provided with disappearing doors that will make possible the

### A Notre Dame Lady's Appeal

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, neuralgia, the kidney or neuralgia pains, to write to her for a home treatment which has repeatedly cured thousands of these cases. She feels it her duty to send it to all sufferers FREE. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes, giving elasticity and tone to the whole system. Write to Mrs. M. Summers, Box R, Notre Dame, Ind.

FOR SALE—Modern eight-room, two and one-half story house. Bath, electric lights and gas. 327 Barn Street, Negaunee. 6-24-tr

## "THE MILLION DOLLAR MYSTERY"

quick opening or closing of the building. Lights will be placed throughout the park, illuminating the grounds.

#### Electric Iron Causes Fire.

At 3 o'clock the other morning the Red Jacket fire department responded to a call. The fire was in the Polish sisters' convent of the St. Anthony church. It started through neglect to turn off the current of an electric iron which had been used during the evening, the iron having been left on the ironing board. The fire made its way from the kitchen, after damaging that room, and awakened the occupants of the house. The blaze was soon extinguished. The roof was partly destroyed.

#### Installing New Process.

R. E. Strom of the Strom Veneer company of Jamestown, New York, and A. Frank Phillipson, of Chicago, are in Escanaba to install a new veneer bleaching process at the plant of the Bird's Eye Veneer company. With the installation of the secret process of bleaching the Escanaba factory and the one in Jamestown, will be the only two in the world possessing the formula. By the use of the process, it is said, the bird's eye maple, which generally turns yellow with age, may be sold with a guarantee to retain its natural color for a life time.

#### Three Houses Hit by Lightning.

During a terrific electric storm at Escanaba this week, three buildings were struck by lightning, 125 telephones of the Michigan State Telephone company were burned out, telegraphic service was impaired and shade trees were struck and splintered in different parts of the city. The houses struck were as follows: P. T. Connell, 329 South Campbell street, corner of roof hit by bolt and shingles torn away; Verner Olson, 1311 Wells avenue, chimney demolished and plaster torn from one room on second floor; E. Nyberg, 1109 Hartnett avenue, chimney demolished, large hole torn in roof and plaster torn from wall in two rooms. At none of the

buildings was a blaze started and the loss in each case will not exceed \$100. The Nyberg house is occupied by two families and in a room of the second floor the head of one family was sleeping. The lightning bolt crashed through the roof and the side of the room, less than three feet from the bed, and scattered great quantities of plaster over the sleeping man. He was awakened with a start.

#### Bible Saves Man's Money.

A large boarding house of Andrew Jacobson at Ironwood, including most of the contents, was destroyed by fire the other forenoon. The firemen were quickly on the scene, but were handicapped in their work by the absence of fire pressure at the hydrants. At one time four houses adjoining the burning building were on fire, bucket brigades succeeding in extinguishing the incipient flames until relief came with hose-line connections made with the water system of the Newport Mining company. Jacobson estimates his loss at close to \$2,000, divided \$2,300 on buildings and \$700 on furniture. Erick Lappi, one of the boarders, recovered \$515 in currency and \$40 in gold that he had put between the leaves of a bible in a trunk, the fire destroying the trunk and its contents. The heavy book saved the money from destruction.

Prof. T. J. J. See, who believes that he has discovered the hitherto unknown cause of gravitation, is in the government service, being mathematician and astronomer in charge of the naval observatory at Mare Island, California.

#### DON'T LOSE SLEEP COUGHING AT NIGHT.

Take Foley's Home and Tar Compound. It glides down your throat and spreads a healing, soothing coating over the inflamed tickling surface. That's immediate relief. It loosens up the tightness in your chest, stops stuffy, wheezy breathing, eases distressing, racking, tearing coughs. Children love it. Refuse any substitutes. Contains no opiates. For sale by All Dealers.

WILD SWEET PEA IN ABUNDANCE HERE

Presence of Plant Along Shores of Lake Recently Called to Attention of Government.

On the sandy shores of Lake Superior, both north and south of Marquette, grows a strange variety of wild sweet pea, which is suitable for cattle feed. The plant was recently called to the attention of A. V. Piper, of Washington, D. C., government agronomist, by H. R. Patrick, weather observer of this city, who had observed it near Lake-wood, and had heard that it grew on the shores of the lake west of Presque Isle.

Mr. Piper writes that he is familiar with this variety of wild sweet pea, Lathyrus maritimus, but was not aware that it existed in any great amount along the shore of Lake Superior.

The pods of the plant are of about the same size as the cultivated pea, and the seeds are edible. Each year new shoots are sent out from the old roots, in which respect the plant differs from the cultivated variety. Mr. Piper doubts whether the plant would have any commercial value. At least no attempt has been made to cultivate it. It thrives in the sandy soil, and furnishes good pasture in some sections. In referring to the finding of this plant Mr. Patrick wrote the department of agriculture as follows:

"Secretary of Agriculture, Washington, D. C. 'Sir: I am forwarding in a separate package what I believe to be a valuable, new variety of wild sweet pea, suitable for cattle feed, and which will grow on the barren sands near any large body of water, and keep the sand from shifting. Perhaps they will grow inland on the pine plains.

Plants Are Hardy. 'These peas have been growing in the sand along the south shore of Lake Superior, and particularly near Marquette, for the past nine years. They have increased rapidly in thickness of stand and in number of patches. They are hardly light and heavy frost proof, the roots remain alive all winter, and the plants increase in number in the spring and during the summer by sprouting from the old and from the new roots. I do not know how long it takes the seed to begin growing. The few seeds I am sending you I found buried in the sand. They have been in the ground all winter and do not show any signs of life. The pea vines grow on top, and on the far side of the sand banks near the lake, and on the adjacent sand flats. Their main roots are buried about two inches below and run parallel to the surface.

The sifting of new sand from the beach after each wind storm does not affect them in the least. They remain in blossom from May 15 to Oct. 5, and green to and after the first killing frost.

The peas are good to eat and are much used by those living near the patches. Some owners of cows mow the peas with a scythe and feed them to their cattle. New shoots soon grow from the old roots.

Known as Beach Pea. C. V. Piper, the government agronomist, in reply to Mr. Patrick's letter, wrote:

Your letter of recent date in reference to a wild sweet pea is referred to this office. The pea in question is the beach pea (Lathyrus maritimus) which occurs wild on the sandy seacoast throughout the northern hemisphere and also on the shores of the Great Lakes. Under such conditions it often furnishes a very considerable amount of pasture, and as you state in your letter, the seed also are good to eat as human food and are often used for this purpose. The plant seems never to have been brought into cultivation, and it is doubtful if it would possess any value except under the conditions where it occurs naturally. The notes you send in regard to them are of interest, as I did not know of their being so abundant on the shores of Lake Superior. On the New England coast and on the Alaska coast the plant is very common.

Very truly yours, C. V. PIPER, Agronomist in Charge.

SUNDAY AT THE CHURCHES.

German Lutheran—Services will be held Sunday at 10 a. m. Sunday school at 11:15 o'clock.

First Church of Christ, Scientist, Blacker street—Services at 11 a. m. Subject, 'Christian Science.' All are welcome.

St. Paul's Episcopal—Sunday school, 9:45 a. m. Morning prayer, with sermon, 11 o'clock. Evening prayer and sermon, 7:30 o'clock.

First Baptist—Sunday school, 9:45 a. m. Morning worship, 11 a. m., with sermon on 'The Second Greatest Promise of Christ.' Junior B. Y. P. U., 3 p. m.; senior B. Y. P. U., 6:45 p. m. Union evening service, 7:30; at the Presbyterian church, Rev. Walter H. Smith delivering the sermon. A mid-week prayer service will be held at the Baptist church Thursday, at 7:45 p. m.

First Methodist Episcopal—Dr. Del Harta, the tenor soloist will sing at this church at 11 o'clock morning service. Mr. Del Harta has just closed a successful season in opera. His last engagement was in Carnegie Hall, New York city. Topic of the sermon at this service, 'The Ministry of the Merry Heart.'

Subject of the sermon at the 7:30 union service in the Presbyterian church, 'The Prodigal Son.' Sunday school at 9:45. Adult Bible study classes in the audi-

torium. Epworth league at 6:45. devotional topic, 'The Immigrant Tide,' leader, Mrs. King. There will be the usual class meeting on Tuesday evening, and prayer meeting on Thursday evening.

Presbyterian church—Sunday school at 9:45. All classes are asked to be prompt and enthusiastic for a record breaking summer attendance. Morning worship at 11, the service to be the celebration of the Lord's supper. There will be a number of applications for church membership. J. H. B. Kaye and C. R. Everett will be ordained and installed elders of the church. The ordination of elders is an interesting ceremony, and all who are interested in this service will be welcome. The kindergarten, which has met regularly at this hour, has been discontinued for the summer months. Senior C. E. at 6:30. Topic, 'Civil Reforms That Endeavorers Should Promote.' This meeting will be the last before the summer vacation, which will last through the months of July and August. The union evening service will be held this week in the Presbyterian church. The Rev. Walter H. Smith will preach on the theme, 'The Prodigal Son.' This very interesting parable furnishes the basis of helpful discourse. Come and hear it.

BILL HITS LAKE BOATS.

Operators Are Mystified Over Provision Relating to Life-Saving Craft.

Passenger line officials of the great lakes are as much in the dark over the provisions of the amended seaman's bill, recently reported by the house committee on merchant marine and fisheries, as they were on the LaFollette measure, because of their inability to interpret the meaning of the clause applicable to steamers plying "three miles from shore which must carry 50 per cent. lifeboat and lifeboat capacity."

Frank E. Kirby, a famous marine architect of Detroit, who is now in Washington studying the provisions of the new bill, says it will mean the discontinuance of business for several day line fleets on the great lakes if it is passed in its present form. "If we were required to carry lifeboat and lifeboat capacity for 50 per cent. of our passengers we would have to cut the carrying capacity of the steamer Put-in-Bay from 3,500 to 1,500, and this would compel us to operate at a loss or go out of business," said E. A. Dustin, president of the Ashley & Dustin line. Representatives of the various steamer lines on the great lakes will meet in Detroit within the next two weeks to dissect the bill and decide upon a course of action, if it decided the measure is inimical to their interests. Several of these boat lines are holding off in the construction of new passenger steamers until the pending legislation is out of the way.

Lower State Notes

KALAMAZOO—Four children in an automobile driven by Miss Bernice Brakeman were injured when the machine was struck by a Lake Shore passenger train. Two of the children, Clair Brakeman, and Louis Brakeman, were brothers of the driver, Marjorie Hall and John Hayes were playmates, all were taken to Borgess hospital. It is said the driver did not see the approaching train.

LANSING—Auditor-General Fuller and Governor Ferris are planning a reform in Michigan procedure and want the legislature to pass a law by which the present confusion in the names of plats of land in the various counties can be overcome. As the law stands now it makes no difference if a dozen men record a dozen plats of the same name. The result is that when non-resident owners of real estate begin to write in for their taxes and other information, giving the location of their property the county officials confuse the titles.

OWOSSO—An Owosso June wedding solemnized this week at St. James Lutheran church was given unusual interest by a pretty romance. Rev. Adolph Zuberbier, a Lutheran missionary to the Apache Indians at Cebicue, Ariz., which is 100 miles from the nearest railroad mission, came a month ago to claim as his bride Miss Mary Wirtzke, an Owosso girl he had never seen. They had become acquainted through correspondence instigated by mutual friends and had exchanged photographs and other tokens. It was decided on Rev. Zuberbier's arrival to postpone the wedding until the present time as their friends might all attend. The young missionary will take his bride to Cebicue, where she will assist him in his work of schooling the young Apaches in the English language and the gospel. On Sundays he preaches to the older Apaches.

LANSING—The state industrial accident board is seriously considering the sending out of another warning requesting employes not to sign any papers offered them by their employers. A new scheme apparently to beat the compensation law has been uncovered and it is doubtful just what the board can do to circumvent it. Within the past few days reports have come to the board that certain employers throughout the state were asking men, once granted compensation, to sign a paper refusing to abide by the compensation act before they were taken back to work. The first report of this character came from Lansing, while other cities have reported similar cases. Evidently the new move is one which the employers have agreed upon. The plan, as reported to the board, seems to be that when a man who has been injured and returns ready for work faces the employment agent he is asked to sign a paper waiving all rights under the compensation law. This is done despite the fact that the employe has optioned to work under the law. If he refuses to sign the paper he is not given any work. Several employes who have been so approached have written the board, asking what they should do. At first glance, at least, this action on the part of employers looks like an attempt to evade the law—in spirit, at least. It would ultimately result, the board figures, in a blacklist on employes who have at one time or another come within the scope of the law and have been given compensation.

What arrangement have you made for your hot water this summer? The most economical and convenient way to heat water is with a gas water heater. Ask your neighbor who has one and then phone the Gas company. 6-6-14.

EMPLOYERS SECRETARY.

The schools of Iron River have grown so rapidly that the school board has found it necessary to appoint a secretary who will devote his entire time to the work of bookkeeping and looking after business matters. J. B. Henely has been named for the position and will maintain a permanent office in the

high school building. Mr. Henely is an expert bookkeeper and will install a new system and set of books. He will purchase the supplies, look after the upkeep of the buildings in the township and attend to other business details that have been taking too much time of Superintendent Cavanaugh and members of the board.

### YESTERDAY'S GAMES.

AMERICAN LEAGUE.  
Philadelphia, 9-6; Washington, 0-5.  
Philadelphia, June 26.—Both games of today's double-header here with Washington went to Philadelphia, the visitors forfeited the first, in the fourth, 0 to 0, and the second being decided in ten innings. Umpire Chill repeatedly called balls on Pitcher Engle, of Washington, thereby upholding the claim of Captain Thomas, of Philadelphia, that the twirler was delivering the ball unfairly by having both feet off the rubber when he pitched. Manager Griffith protested and refused to order his men to resume play after Chill had pulled his watch and ordered the players to their positions. Chill then declared the game forfeited. The score at the time was 2 to 0 in favor of the Athletics, with the bases filled and two men out. In the second contest, after Baker had driven in five runs for Philadelphia on two hits over the right field fence, Washington developed battling strategy in the eighth and ninth innings and tied the score. The Mackmen scored on Strunk's single, Barry's sacrifice and Schang's single.  
Second game: R. H. E.  
Washington 1 0 0 0 0 0 0 2 2 0—5 8 1  
Philadelphia 2 0 2 1 0 0 0 0 1—6 12 1  
Batteries: Ayers, Bentley, Boehling and Henry; Shawkey, Bender and Schang. Two-base hits—Foster and Morgan. Washington. Home runs—Baker (2), Philadelphia.

St. Louis, 2; Cleveland, 0.  
St. Louis, June 26.—With Shotton on base, Williams' home run over the right field fence—the longest hit made here in years—in the first inning this afternoon gave St. Louis the victory over Cleveland and also put the Browns in second place.  
Score: R. H. E.  
Cleveland 0 0 0 0 0 0 0 0 0—0 6 0  
St. Louis 2 0 0 0 0 0 0 0 2—5 1  
Batteries: Collamore and O'Neil; Hamilton and Crossin. Two-base hits—Leary and Lavan, St. Louis; Chapman and Olson, Cleveland. Home run—Williams, St. Louis.

Boston, 2; New York, 1.  
New York, June 26.—Boston won a ten-inning pitchers' battle from New York here today. Janvrin opened the tenth with an infield hit and Gardner sent him to third with his third single. A wild pitch by Fisher sent Janvrin home.  
Score: R. H. E.  
Boston 0 0 0 0 0 1 0 0 0 1—2 6 1  
New York 0 0 0 0 1 0 0 0 0 0—1 5 0  
Batteries: Combs, Leonard and Cady and Carrigan; Fisher and Nune-maker. Two-base hit—Hooper, Boston.

Chicago, 2; Detroit, 1.  
Chicago, June 26.—The Chicago White Sox won their seventh consecutive game today when they defeated Detroit. The game was a pitchers' battle between

**THERE WILL BE 4 DAYS OF THE BIGGEST \$10 WORTH**

MONDAY

Faber and Dubuc, the former having a shade the better.  
Score: R. H. E.  
Detroit 0 0 0 0 0 0 0 1 1 3 0  
Chicago 0 0 0 0 0 2 0 0 2 5 3  
Batteries: Dubuc and Stange; Faber and Meyer. Two-base hit—Faber, Chicago.

### NATIONAL LEAGUE.

Brooklyn, 7; Philadelphia, 4.  
Brooklyn, June 26.—Brooklyn got out of the cellar position today by beating Philadelphia in a free-hitting and loose-fielding game.  
Score: R. H. E.  
Philadelphia 0 1 0 0 1 0 0 1—4 13 1  
Brooklyn 3 2 1 0 0 1 0 1—7 11 3  
Batteries: Jacobs, Mattison, Baumgartner, Tineup and Burns; Pfeiffer and McCarty and Fischer. Two-base hits—Burns, Philadelphia; Fischer, Brooklyn. Three-base hit—Wheat, Brooklyn.

Pittsburg, 3; St. Louis, 2.  
Pittsburg, June 26.—A triple by Mitchell, followed by Kelly's sacrifice fly, gave Pittsburg the victory over St. Louis in the tenth here today.  
Score: R. H. E.  
St. Louis 0 0 0 0 1 0 0 0 0—2 5 1  
Pittsburg 0 1 0 0 0 1 0 0 1—3 11 1  
Batteries: Sallee and Snyder; Cooper, McQuillan and Gibson and Coleman. Two-base hits—Cather, St. Louis; Mitchell, Pittsburg. Three-base hits—Mitchell and Mowrey, Pittsburg.

New York, 8-10; Boston, 4-4.  
Boston, June 26.—By batting all of Boston's pitchers hard, New York won both games of a double-header here today.  
Score: R. H. E.  
New York 1 1 0 0 4 0 0 2 0—8 13 2  
Boston 0 0 1 0 0 2 0 1 0—4 7 4  
Batteries: Mathewson and Meyers and McLean; Tyler, Crutcher and Whaling. Two-base hits—Bescher, New York; Gowdy and Connolly, Boston. Three-base hit—Fletcher, New York. Home run—Connolly, Boston.  
Second game: R. H. E.  
New York 0 0 3 0 0 6 0 1 0—10 14 2  
Boston 0 0 0 0 1 0 1 1 1—4 8 1  
Batteries: Fromme and Meyers and McLean; Vaughan and Hargrove; Douglass, Lear and Clark and Gonzales. Two-base hits—Zimmerman, Chicago. Three-base hits—Saier (2) and Leach, Chicago. Home run—Vaughn, Chicago.

Chicago, 6-1; Cincinnati, 2-0.  
Cincinnati, June 26.—Chicago won both games of a double-header from Cincinnati here today. The second game was called at the end of the seventh, on account of darkness. Chicago won the first contest by hitting Douglass hard, two triples and a home run being made off him in the third. The second game was a pitchers' battle between Humphries and Ames.  
Score: R. H. E.  
Chicago 2 0 3 0 0 1 0 0 0—6 7 2  
Cincinnati 1 0 0 0 0 1 0 0 0—2 7 2  
Batteries: Vaughn and Hargrove; Douglass, Lear and Clark and Gonzales. Two-base hit—Zimmerman, Chicago. Three-base hit—Saier (2) and Leach, Chicago. Home run—Vaughn, Chicago.  
Second game: R. H. E.  
Chicago 0 0 0 1 0 0 0 0—1 3 2  
Cincinnati 0 0 0 0 0 0 0 0—0 5 0  
Batteries: Humphries and Bresnahan; Ames and Clark. Two-base hits—Schulte and Sweeney, Chicago. Three-base hit—Herzog, Cincinnati.

FEDERAL LEAGUE.  
Baltimore, 6; Brooklyn, 4.  
Baltimore, June 26.—Errors and the lack of control of Brooklyn pitchers were responsible for Baltimore's victory here today.  
Score: R. H. E.  
Baltimore 2 0 3 0 0 0 1 0 0—6 6 1  
Brooklyn 0 1 0 2 0 0 1 0 0—4 10 2  
Batteries: Quinn and Jackitsch; Jun, Hoek and Land.

Buffalo, 4; Pittsburg, 2.  
Buffalo, June 26.—Three hits off Knetzer, smart base running and an error gave Buffalo three runs in the sixth today, enough to win from Pittsburg.  
Score: R. H. E.  
Buffalo 0 0 0 0 1 3 0 0—4 8 1  
Pittsburg 0 1 0 0 1 0 0 0—2 7 1  
Batteries: Krapp and Blair; Knetzer and Berry.

Others not scheduled.  
AMERICAN ASSOCIATION.  
Kansas City, 8; Minneapolis, 11.  
Cleveland, 3; Columbus, 3. Game called in the twelfth on account of darkness.  
Others postponed; rain.

### What's Doing in Baseball World

Since his bout with the Detroit Butcher boy, Ty Cobb has decided to quit using the knuckle ball.  
Walter Johnson says the reason for his slump is that he changed his style in pitching. Wasn't the old style good enough?  
With the Brooklyn Feds drawing 150 at home games, it has to be done to recoup by increasing the size of the holes in their doughnuts.  
Ebbets is working his head off to draw the Brooklyn fans away from the Federals and it is said in the City of Churches that he is succeeding.  
Pitcher Batehley of Champaign, Ill., is being watched closely by Cleveland scouts. His work in the Illinois-Missouri league attracted considerable attention.  
Pitcher Bill James of the Boston Braves pitched June 2, 6, 8, 11, 16, 17, 19 and 20. Upon the dates not mentioned, between June 1 and 21, he did nothing except warm up.  
In 1807 Ned Hanlon, the manager of the Baltimore Orioles, wanted to trade John McGraw for Kid Elberfeld. John's ability as a manager did not show on the surface then.

Mr. McGraw, the genial manager of the Giants, got peeved recently and told Umpire Emshie that he was losing his sight. "I can still see the clubhouse," retorted Mr. Emshie, and he sent the little Napoleon to that very place.  
Fred Clarke, manager of the Pittsburg Pirates, is not in favor of umpires alternating behind the bat and on the bases. He says they should stay in one place. "Why," argues Clarke, "it's just like switching a shortstop and first baseman."  
More than one thousand persons attended a midnight baseball game played here last night, says a dispatch from Fairbanks, Alaska. The game was the opening event of the festival of the mid-

night sun, features of which will be a carnival parade and general merry-making.  
Atlanta is not to get Infielder Rivington Bisland, after all, Manager Birmingham of the Naps having decided to keep the New York boy for the remainder of the season unless, perchance, he should be able to pick up a more likely utility infielder from the minors during the next two months.  
John McGraw says it cost the New York Nationals \$25,000 in increased salaries to get all the Giants to sign new contracts eliminating the ten-day clause. He thinks that cheaper, however, than going to court in case of jumps, and he much prefers that the players should have the money rather than the lawyers.  
Business Manager John M. Ward of the Brookfeds has stated that six new players will join the team within the next few days. One of them is said to be Charlie Stengel of the Dodgers.  
The Baseball Players' Fraternity has at last decided to take Federal leagues into its fold. Ed Gagnier, shortstop of the Brookfeds, states that he has been asked by President Fultz to solicit members.

### Upper Peninsula

Carcass of Cow Confiscated.  
Deputy State Food Inspector George E. Rowe, of Laurium, and Dr. Collins have confiscated the carcass of a cow which was being kept in cold storage at the Samuel Anderson general store for a Hometown farmer, reports the Iron Mountain Tribune-Gazette. It is said that the cow broke one of its legs in the woods and it was then killed. Deputy Rowe and Dr. Collins had the carcass keroseened and sent to the city's dumping ground.

Inheritance Tax of \$392 is Paid.  
The inheritance tax on the personal property of the estate of the late William Holmes of Menominee has been paid. The sum was \$392.77, check for which has been received from W. A. Holmes of Crystal Falls, executor of the estate. The will is the shortest ever probated in Menominee county, being only six words long. The estate is one of the largest ever handled in the court. All was left to Mrs. Holmes, wife of the deceased. Although personal property valued at \$83,121 was left, debts amounting to \$43,893.71 were paid.

Gets Important Federal Post.  
Joseph P. Kropidowski, of Detroit, son of Joseph Kropidowski of Ironwood, has been appointed by the department of justice as Washington special agent for the investigation of violations of the federal anti-trust laws. His headquarters will be in Washington. The position is a permanent one. The news of the selection of Mr. Kropidowski for the post has been received with much satisfaction by the young man's many friends in Ironwood, who predict for him a successful career in the service of the government. Mr. Kropidowski has been engaged in the practice of law at Detroit.

Modern Street Car Received.  
A "pay-as-you-enter" street car for the Charlotte street division at Escanaba has arrived in the city and has been assigned to the traction company, where the motors and other necessary equipment will be installed. The vehicle is thoroughly modern. The doors are opened by the motorman, in the front of the car, and as the doors open the step drops down to allow the passengers to enter. After the closing of the doors the step folds up, leaving the outside barren of steps or handles for children to catch onto. The car is thirty-two feet in length and will seat that many passengers. It is beautifully finished in oak and, in addition to being equipped with reversible seats, has electric push buttons. The front and rear platforms are spacious and smokers will be allowed to ride there. The car will be equipped with the motors of the Fourth of July, when it will be formally introduced to the patrons of the Charlotte street line.

# DETROIT & NORTHERN MICHIGAN BUILDING & LOAN ASSOCIATION

HANCOCK, MICHIGAN

# WILL ERECT NEW PLANT

Lake Superior Iron & Chemical Co. Will Shortly Commence Building a Chemical Works at Its Ashland (Wis.) Property—Former Capacity Will Be Doubled.

Newberry Furnace Closes June 30, but Employes Will Continue at Work, Making Repairs—Elk Rapids Stack Continues in Operation With a Full Force.

During the present summer the Lake Superior Iron & Chemical company will start the erection of a chemical works at its furnace at Ashland, Wis. The plant will replace the one destroyed by fire three months ago. Its construction will provide work for the greater number of men laid off at the furnace when that property recently suspended operations. The equipment of the plant will be the most modern procurable, according to an official of the company. The capacity of the works will be double that of the old establishment.

Contracts for the erection of the chemical plant were let this week. Construction will be started at once. The Zaremba company, of Buffalo, will erect the greater part of the plant. Contracts for other parts of the work have been awarded to the Vulcan Copper Works company, of Cincinnati, O., and the Detroit Heating & Lighting company, of Detroit.

Newberry Furnace Closes June 30. Definite announcement of the course the company is to pursue at its Newberry property was made yesterday. The company stated some time ago that it was contemplating closing this furnace until there was a revival in the iron business. The plant will be blown out Tuesday, June 30. Repairs will be made, and this will employ part of the company's working force. The sawmill operated in conjunction with the furnace will continue in commission and the woods operations will not be curtailed to any extent. The company will make every endeavor to keep in its employ every man now on the Newberry payroll.

The company's Manistique plant has been shut down for the last ten days, and it will likely remain out of blast throughout the summer. Extensive improvement work is planned, including the installation of the retort system of manufacturing chemicals.

The Elk Rapids plant of the Lake Superior Iron & Chemical company continues in full blast. It is likely that it will remain in commission throughout the summer.

Outlook is Brightening. Despite the discouraging news of the closing of furnaces in all parts of the country, steel and iron manufacturers report a further brightening up in the trade outlook the last few days. It is intimated that railroad managements feel satisfied that a rush of equipment orders will follow the interstate commerce commission's decision in the Eastern rate case and that some are quietly placing their orders in advance.

Consumers are said to feel so satisfied that the bottom in quotations has been reached that they are endeavoring in many quarters to place orders for third quarter and fourth quarter delivery on the basis of the present lists, but the mills are generally rejecting these offers. Manufacturers think they will get substantially higher prices for fourth quarter shipments.

Proposed Chicago Trip of Marquette and Copper Country Commercial Clubs Seems to Have Been Dropped.

Whether the proposed Chicago trip of the Marquette and copper country commercial clubs will be made this summer is a question, but it now seems doubtful that the plan will be carried out. The tour was proposed by the copper country organization, and was taken up by the Commercial club here. E. A. Daley, secretary, has recently written to Secretary Price, of the Copper Country club, asking for information, as it seems that interest in the project in that part of the upper peninsula has died out.

The delay in the repairing of the Covington township road seems to be the principal stumbling block in the way of the tour. The work is now progressing, but it will not be finished until the latter part of July.

## CHARGED WITH FORGERY.

Harry E. Davis and Brother, of Toledo, O., Rounded Up Last Night.

Charged with having passed a number of worthless checks at the stores of Marquette merchants, Harry E. Davis and brother, both of Toledo, O., were arrested by the police at about 9:30 o'clock last evening, and are now in the city lock-up. The men are alleged to have passed the first check at 4 o'clock yesterday afternoon, after having deposited \$1 at the Marquette County Savings bank about 3 o'clock in order to obtain a bank book, which they are said to have filled with figures showing substantial deposits to their credit. Three bogus checks were cashed.

It is said by the police department that the men now in jail went to one of the hotels several times during the several hours they are charged with operating and changed clothes, and it was not until last evening, when they are alleged to have attempted to pass a check at the candy store of Mrs. O. Gilbertson, on West Washington street, that the first clue as to the identity of the forgers was learned. Mrs. Gilbertson refused to cash the check, and the men are reported to have gone from there to the store of M. F. Goldberg, where they presented a check for \$7.50, signed with the name of Mrs. Gilbertson. The check was not cashed.

The brothers had left a suitcase at the South Shore station, and when they appeared there they were arrested by the officers. Upon being taken to the city jail, the men were in possession of a suit of clothes from Jacob Rose's store, a hat from the store of Anderson & Bennett, and \$18 in money. Checks were presented at the stores of David E. Nason, Jacob Rose, Anderson & Bennett, M. F. Goldberg and Mrs. O. Gilbertson.

## REPRESENTED CITY AT STATE MEETINGS

Charles Retallic, Superintendent of Light Department, Arrived Home Yesterday.

Charles Retallic, superintendent of the electric light and power department, arrived home yesterday afternoon from a ten days' trip, on which he represented Marquette at a meeting of the Michigan Association of the National Electrical Association and also at a meeting of the League of Michigan Municipalities, held in Bay City. Mr. Retallic will give a brief summary of his trip before the city commission at its meeting Monday night.

The party of electrical men, of which Mr. Retallic was a member, left Detroit Wednesday afternoon for Buffalo, arriving there Thursday morning about 9:30. They spent about three hours in the vicinity of Niagara Falls, and then left for Youngstown, a small town on the shore of Lake Ontario. From here they took the steamer Rochester, a boat chartered especially for them, for Toronto, arriving there Saturday morning. While they were on the boat Thursday, Friday and Saturday, meetings were held from 9 to 12 o'clock each morning, 2 to 5 o'clock in the afternoon and 7 till 10 o'clock in the evening. These meetings were devoted entirely to electrical affairs. Taking the train from Toronto the party arrived in Detroit about 4 o'clock Saturday afternoon.

Monday Mr. Retallic went to Pontiac, to look over their form of commission government and get ideas, which he will present to the Marquette commissioners. Tuesday, Wednesday and Thursday he attended the meeting of the League of Michigan Municipalities in Bay City. Mr. Retallic was the only representative from the upper peninsula, but nearly every town and city of any size in the lower peninsula had a delegate at the meeting. Various phases of city administration were considered at this meeting, including the disposal of sewerage, the paving of streets and the lighting of the city. Two hundred and fifty delegates were in attendance.

## VICTROLAS! VICTROLAS!

We handle everything in the line of Victrola goods, and at the present time we have the finest stock of records we have ever had; and too, we are in a position to get anything that is made in a very short time. Our Victrolas can give you from \$25.00 to \$200.00—cash or installments. We are always pleased to demonstrate the into our customers in matter whether a purchase is made or not. Courtesy and fair treatment to our customers is our motto. Step in the House of Grinnell Bros. and let us entertain you—if only for a few minutes. Grinnell Bros. Music House, 104 West Washington St. 6-26-5L.

# PLAYGROUNDS OPEN JUNE 29

R. F. Martin, New Recreational Director, Will Have Charge, and Will Have One Woman and Three Men Assistants—System Will Be Similar to Ishpeming's.

Three Grounds Will Be Utilized and All Children Will Be Welcomed—Each Wednesday Parents' Day—Rules Will Be Few, but Strictly Enforced.

Under the direction of R. F. Martin, a trained recreational director, three supervised playgrounds will be conducted in Marquette during the next two months by the Citizens' Playground committee, whose members have been foremost in promoting the playground work here. The grounds will be conducted in a manner similar to the plan now in effect in Ishpeming, which has been working out there with a large measure of success.

The three grounds to be utilized are located at the corner of Bluff and Front streets; at Washington park; and at the Fisher street school. The equipment at each is sufficient. Once arriving last week Mr. Martin has made a thorough survey of the playground situation here, and during the past few days he has formulated his plans for the summer's activities.

Will Have Four Assistants. Mr. Martin has chosen four Marquette young people to assist him in his work. Wilmer Harkin will be in charge at the grounds at the corner of Front and Bluff streets; Russel Frei at Washington park, and Carl Hanson at the Fisher street school. Miss Estelle Patrick will have charge of all girls and small children and will make the rounds of the several playgrounds each day. Mr. Martin will have general supervision, and will devote a portion of his time to each of the grounds. They will be under his care and direction from June 29 to Aug. 29.

The opening of the grounds under supervision will take place Monday next, at 2 o'clock, and they will be open every day, except Sunday, Monday morning and Thursday afternoon. The hours will be from 9 to 11 in the morning, 2 to 5 in the afternoon, and from 7 to 8 o'clock in the evening.

Every boy and girl in the city who complies with the rules laid down by the Citizens' playground committee will be permitted to use the grounds. The rules will be few, and simple, but they must be adhered to strictly. No profane language or smoking will be permitted, and courteous conduct will be expected of all.

The coming week will be spent largely by the director and his assistants in getting acquainted with the children and in obtaining the enrollment. The apparatus will be placed in the best possible condition. The work will consist of a large extent of games, and basketball and playground ball will be taught at the outset. Later, volley ball, dodge ball, soccer, duck on the rock, captain ball, various tag games and singing games will be introduced. Folk dancing will be included in the regular course, and story telling hours for the small children will be held at intervals. During the season athletics will be emphasized and a certain standard will be set. All pupils meeting this standard will be rewarded by the presentation of a pin, or other insignia. At the close of the season a grand field day will be held to determine the playground championship of Marquette. There will be tournaments in the various games and exhibitions of other phases of playground work.

## Wednesday Is Parents' Day.

Mr. Martin has set aside Wednesday as Parents' day, and all adults will be welcome at the grounds on that day each week. The games between the teams from the different grounds will be scheduled so that some of the contests will be held then.

The directors will insist on honesty, true sportsmanship, cleanliness, politeness, obedience, truthfulness and justice, this making their work develop both the physical and moral natures of the boys and girls.

Of the playground, Dr. Woods Hutcheon, the noted expert, says: "Rather a playground without a school than a school without a playground."

COMMISSION MIGHT HELP. So Writes W. J. Small, in Discussion of the Tax Problem.

To the Editor of The Mining Journal: The several articles appearing in your columns during the week from Ishpeming and Negaunee on tax matters indicate that the reductions in valuations in mining properties are based on the theory of depreciation in the value of the mines. Mines that are steady shippers, it would appear to me, must certainly depreciate in value from year to year, correspondingly to the amount of ore shipped. No person wants to pay any more taxes than he has to. Mr. Jennings' letter in yesterday's issue, on the Negaunee page, hits the nail squarely on the head. Why are so much taxes required from the people? It is not a fact that much of it goes to keep up the wheels of the political machine? Look at the vast array of office and deputy sheriffs, game wardens, commissions and boards of controls for every little institution in the state, and in addition a host of county officers and road commissions, the majority of whom have more or less political pull, or are able vote getters.

Could not some of the many offices be consolidated? There are none of these filling the positions but what seem to have ample time to devote to the booming of their favorite candidates for the various offices. This is where a vast amount of our tax money goes. A few days ago I read in a lower state paper, in big black head lines, "\$10,000,000 in the state treasury" and still the state tax is to come in, which the report says, will be higher than last year. Again we see in about the same sized type, "\$10,000,000 decrease in valuations in Houghton county." Still the upper peninsula is being boomed as a valuable country to live in. Land values are being boosted. If you don't think so try and buy some for what its on the tax roll for.

What is the remedy for the tax ills? At the last session of the legislature a bill passed leaving optional with the people the question of governing counties under a commission. So far we have heard of a single county in the state taking advantage of the provisions of this law. Commission government has been tried in many cities and proved a success. Why not try it out in the county? Right here in Marquette it has proved all that was claimed for it by those who advocated it. Taxes are 20 per cent lower, even with reduction in valuations.

If it proves successful in counties it might be adopted in the conduct of state government, with equal success. A change of some kind to reduce the burden of taxation is necessary and the sooner a start is made the better. Increase in property valuation should cause a reduction in the tax rate, but on the contrary the rate soars aloft at corresponding speed. It hits the small taxpayer just as heavy as it does the large ones. Fewer cooks are wanted at the porridge pot. The people have the club but are afraid to wield it. Its a case of put up, or shut up and pay the fiddler.

W. J. Small.
