MARQUETTE, MICH., TUESDAY, JANUARY 5, 1915.

PRICE FIVE CENTS.

## NO PARDON FOR TRAITOR REPLY OF CARRANZA

Constitutionalist Chief, Even Though Threat That His Brother Will Be Executed Is Hurling at Him, Says Conduct of General Cannot Be Forgiven.

If His Brother's Death Is Necessary to His Country, Writes First Chief, Then He Is Sure the Brother, as a True Soldier, Would Make the Sacrifice.

Washington, Jan. 4.—Official dispatches from Carranza headquarters at Vera Cruz to the agency here today confirm earlier reports of the capture of General Jesus Carranza and the execution of all his staff on the Isthmus of Tehuantepec. Carranza, who is a brother of the first chief of the Constitutionals, was taken prisoner, according to the agency here by General Santibanez, who turned traitor to Carranza. After the execution he wrote Carranza asking pardon, saying that if it were not granted he would execute General Jesus Carranza. "Carranza's reply, feelingly dictated, was 'Such traitorous conduct can receive no pardon. If my brother's death is a necessary step toward the triumph of our principals and the establishment of peace, I am willing that he die. And I know that with the feelings of a true soldier, my brother will be willing to sacrifice his life for his country'." "The first chief as soon as he was aware of the plight of General Carranza ordered troops to the isthmus. This morning they routed Santibanez's column near San Geronimo and the traitor with 150 men fled," says a statement issued by the agency.

### VILLA AND SCOTT TO MEET.

Washington, Jan. 4.—Brigadier General Scott, chief of staff of the United States army, and General Villa, commander-in-chief of the forces of the Guiterres government in Mexico, have arranged to confer on the international bridge at El Paso, with a view to arriving at an understanding that will permanently prevent further firing into American territory by Mexican factions fighting along the international line.

General Scott left Naco, Ariz., for El Paso, tonight, and General Villa is on his way north, due to arrive at the border probably Wednesday.

### AGUA PRIETA GOES DRY.

Douglas, Ariz., Jan. 4.—Aguia Prieta, the Mexican town across the border, has gone dry, shattering the hopes of American saloon keepers who were put out of business Dec. 31 by the Arizona dry law and expected to reopen in the Mexican town. Colonel Gomez, the Constitutionalist commandant of Agua Prieta, issued an order today forbidding the sale or importation of liquor.

### EARTH SLIDES PROMPT POSTPONEMENT OF THE PANAMA CANAL CRUISE

Washington, Jan. 4.—The possibility of the postponement of the cruise of the international fleet from Hampton Roads to San Francisco through the Panama canal in connection with the opening of the canal and the exposition was suggested today in the course of a conference between Secretary Garrison and Colonel Goethals, governor of the canal.

### FRANKIE BURNS WINS HANDILY FROM CONWAY

New Orleans, Jan. 4.—Frankie Burns, of Jersey City, won over Frankie Conway, of Philadelphia, in the fourth round of a fifteen-round fight here tonight. Conway apparently was unable to defend himself and the referee stopped the fight. In the third round a straight left sent Conway down for a count of five. The weights were announced at 118 pounds, ringside.

### BILL PROHIBITS SALE OF LIQUOR TO MINORS ON BOARD STEAMSHIPS

Washington, Jan. 4.—A bill to prohibit the serving of intoxicating liquors to minors on American vessels in waters within the jurisdiction of the United States, was passed today by the house. It would impose a fine of \$500 for violations.

## BILL ALLOWS GOVERNMENT TO BUY SHIPS

Proposed Measure, Up in Senate Today, Providing for Financing \$10,000,000 Shipping Corporation, Meets With Opposition from the Republican Members.

Commerce Committee Minority Report Declares Every Craft Set Afloat by Government Adds One More Risk to Our Being Drawn Into the Present War.

Washington, Jan. 4.—Government purchase of ships as proposed in the administration bill to create a shipping board, finance a \$10,000,000 shipping corporation and expend not to exceed \$300,000,000 for the purchase or chartering of ocean carriers became today the foremost issue before congress.

By a vote of 46 to 29 the senate made the ship purchase bill the unfinished business to be supplanted only by appropriation bills. Charging that an effort was being made to rush the bill with undue haste, Republican senators, among them Senators Gallinger, Lodge and Root, served notice that the measure would be fought to the last ditch.

### "WOULD INCREASE WAR DANGER."

Minority members of the commerce committee filed a report, written by Senator Burton, and endorsed by Senators Nelson, Perkins, Smith of Michigan and Oliver, asserting that the plan proposed would not relieve shipping conditions because it would be impossible for the government to get ships enough to do any good. It pointed also to danger of international complications arising, declaring that "every craft set afloat by the government would add one more risk of our being drawn into the present war."

### NO CO-OPERATION, CHARGE.

Washington, Jan. 4.—Lack of co-operation between the navy department, the Atlantic fleet and congress is charged by Rear Admiral Austin M. Knight, in charge of the naval war college, in a report dated at Newport, Dec. 18, and embodied in the revised record of naval bill hearings made public today by the house naval committee. Admiral Knight was one of the officers whom Representative Hobson, of Alabama, vainly sought to have called to testify before the committee.

### AMERICAN REGISTRY GRANTED BOAT SAID TO BE E. N. BREITUNG'S

Washington, Jan. 4.—American registry was granted today to the steamship Dacia, recently sold at Port Arthur, Tex., by the Hamburg-American line to Edward N. Breitung, of Marquette, Mich. The Dacia, which formerly sailed under the German flag, is the first vessel purchased by an American from citizens of a belligerent nation to be admitted to American registry since the war began. Other transfers have involved no actual change of ownership, the vessel's belonging to Americans.

### WILL MAKE SPECIAL ISSUE OF GOLD COINS FOR THE EXPOSITION

Washington, Jan. 4.—A memorial issue of gold coins to commemorate the Panama Pacific International exposition is authorized by a bill which passed the house today. It already has passed the senate.

### FEWER PERSONS KILLED BY AUTOS IN N. Y. CITY BUT MORE IN THE STATE

New York, Jan. 4.—Fewer persons were killed by automobiles in the streets of New York city, but deaths through such accidents increased in number elsewhere in New York state in 1914, according to figures issued today by the National Highway Protective association.

## OHIO COAL OPERATORS TO BREAK WITH U. M. W.

Will Deal With Strikers Individually—Want Them to Work "Open Shop."

Cleveland, O., Jan. 4.—The Eastern Ohio coal operators at an adjourned meeting tomorrow will decide formally to break off all negotiations with the United Mine Workers' union; will plan to evict striking miners because they have paid no rent since the strike was called, the first of April, last, and will decide to make overtures to the miners as individuals to work "open shop" under the scale rejected by the miners' organization. This was the belief expressed tonight by those in touch with the situation.

## SUFFRAGISTS TO INSURE CAMPAIGN FOR THE VOTE

Preparing to Take Out Policy for \$25,000, but Have Only \$500 Toward Premium.

New York, Jan. 4.—Insuring against possible failure to win the vote in the 1915 campaign in this state, is the latest move of the suffragettes. Three members of the Women's Political union will try to arrange tomorrow with an insurance broker to take out a policy by which the organization will receive \$25,000 in the event that the suffrage amendment is lost this year. The insurance committee already has \$500 towards the premium.

"We will not insure for less than \$25,000," said a member of the insurance committee today, "and, of course, we may not be able to pay the premium. It all depends on the rate demanded. If we win we will be willing to lose the money paid on the policy, and if we lose the campaign, we will at once begin another with the insurance money."

### TO ASK WILSON FOR SUPPORT.

Washington, Jan. 4.—Women suffragists fighting for a federal constitutional amendment enfranchising their sex will concentrate their campaign upon the White House again Wednesday, when a delegation of Democratic women will ask President Wilson to support their movement, which is to be taken up in the house Tuesday, Jan. 12.

### TO PROBE POWER OF PRESIDENT TO GIVE OUT FEDERAL JOBS

Washington, Jan. 4.—Differences between President Wilson and some members of the senate over federal appointments resulted tonight in the senate judiciary committee ordering an inquiry into the authority of the president to make a recent appointment to fill a vacancy created during a session of congress.

This action followed the decision of the committee to recommend rejection of the appointment of Ewing G. Bland, of Kansas City, to be United States marshal for the Western Missouri district. Bland was given a recent appointment to the marshmanship, which was vacant before congress adjourned last October. After the present session began, his nomination was sent in and Senator Reed has been fighting its confirmation ever since.

### JAP BRIDES, WHOSE PHOTOS WON THEM HUSBANDS, ARE HERE

San Francisco, Jan. 4.—Seventy picture brides from Japan arrived here today on a liner to meet husbands they have never seen. Fifty more arrived within the week on other steamships.

Until the husbands claim them the brides are being housed at the United States detention station.

In the eyes of the Japanese law, and so for the purposes of the immigration officers, the brides have been married. There has been an exchange of pictures, an approval by the heads of the two contracting families, and a formal declaration of intention, in writing, before a Japanese official. The brides come tagged and numbered, are correctly dealt out to the right husbands, and then usually are taken in hand by the Japanese association, which escorts them to the marriage license bureau, after which a religious service is held.

### AUSTRIAN STATEMENT.

The following official communication was issued this evening at Vienna:

"In the severe battles in the district south of Gorlice, which were fought under the worst weather conditions, our brave troops assured themselves, through getting possession of an important line of hills, of a favorable base for further operations. In the Carpathians there has been no change."

### RUSSIANS CLAIM VICTORY.

Petrograd, Jan. 4.—The following statement from the general staff of the Russian army in the Caucasus was issued tonight:

"The battle of Sari Kamysch (Transcaucasia) is still proceeding to our advantage. At sunrise Jan. 3 our troops attacked Ardahan and toward evening, after fierce fighting, the Turks were dislodged from their trenches, having sustained heavy casualties."

### WOUNDED PRISONERS TO BE EXCHANGED

London, Jan. 5, 3:11 a. m.—A dispatch to the Daily Chronicle from Berlin by way of Amsterdam says the first exchange of wounded prisoners of war will take place in Geneva this month.

## Atrocious Climatic Conditions Hinder Fighting Both In East and West Theaters. Poland and Caucasia Centers of Interest

## RUSSIANS SAY AUSTRIANS ARE FARING BADLY

CLAIM MORE PROGRESS IN WEST GALICIA HAS BEEN MADE.

### VISTULA LINE UNCHANGED

### ARMIES OF DUAL MONARCHY CAPTURE MANY PRISONERS, THEY AVER.

### PLANES BOMBARD KIELCE

### LITTLE DAMAGE HAS BEEN DONE, HOWEVER, BY THESE ATTACKS.

London, Jan. 4, 10 p. m.—According to the official Russian report tonight the line along the Vistula river is unchanged, but in Galicia the Muscovites claim to have made more progress against the Austrians. The Austrians, however, claim to have captured a large number of prisoners. The report declares the fighting is going on under atrocious weather conditions. Austrian aeroplanes daily bombard Kielce, Russian Poland, but, according to the Russians, little damage has been done.

### DROP BOMBS ON KIELCE.

Petrograd, via London, Jan. 4, 7:25 p. m.—Austrian aeroplanes are daily bombing Kielce, in Russian Poland, sixty-four miles northwest of Cracow. Ten bombs were dropped on the railroad station and fort sheds on Jan. 2. Little damage was done.

The official communication issued from Russian general headquarters tonight at Petrograd follows:

"During Jan. 3 no important change took place on the left bank of the Vistula. In many sections there have been the usual artillery engagements and secondary actions.

"More desperate fighting took place on the night of Jan. 2-3 in the region of Bolimow, where the Germans, after an energetic attack, forced one of our trenches, but immediately were dislodged from it by our counter attack, abandoning six machine guns and a number of prisoners.

"In West Galicia, on Jan. 2 we made progress again, taking more than a thousand Austrian prisoners and several cannon and machine guns. In the region of Uzok Pass we took an equal number of prisoners and captured several guns and rapid-fires. In this action an entire Austrian battalion, with eleven officers, surrendered.

"On our extreme left wing, our troops passing through the whole of Bukovina, have occupied the town of Szezawa, one verst (two-thirds of a mile) distant from the Austro-Romanian frontier."

## BRIITISH BATTLESHIP BOMBARDS CAPITAL OF GERMAN EAST AFRICA

Mairobi, British East Africa, via London, Jan. 4, 11:17 p. m.—The British battleship Goliath and light cruiser Fox have carried out successful operations against Dar-Es-Salaam, capital of German East Africa. The warships bombarded the town, inflicting considerable damage. All the German vessels in the harbor were disabled. Fourteen Europeans and twenty natives were made prisoners.

The British loss was one killed and twelve wounded.

Dar-Es-Salaam, the best built town on the coast of German East Africa, is a military station with an excellent harbor, situated forty miles south of Zanzibar. It is the terminus of an important caravan route, the residence of the governor and has large commercial interests. The white population in 1909 was estimated at 1,600; the total population at more than 20,000.

## SUBMARINE WHICH SANK FORMIDABLE ESCAPED UNHARMED

Berlin, by Wireless to Sayville, L. I., Jan. 4.—An official announcement made public through the official press bureau today says:

"A German submarine boat reports by wireless to the admiralty in Berlin that it has torpedoed and sunk in the English channel off Plymouth the British battleship Formidable.

"The submarine was pursued by British destroyers, but escaped undamaged."

### SUMMARY OF THE WAR NEWS

Upper Alsace seems to be the center of the most important fighting in the western arena of the war. Engagements of a violent nature are being fought in the region of Senheim, which the French call Cernay, lying about eight miles northwest of Muelhausen. The French forces have occupied the heights around Senheim, and, in addition have driven the Germans out of Steinbach, a village farther to the south.

At other points along the front extending from the North Sea there has been only intermittent cannonading.

Both Russians and Germans admit that no important change has taken place of late on the front along the left bank of the Vistula. In West Galicia the Russians are making steady progress, and, according to their official statement, have captured many Austrian prisoners.

British warships have bombarded Dar-Es-Salaam, capital of German East Africa, where, it is reported, much damage was inflicted and all the German vessels in the harbor were disabled.

The British government will reply to the American note concerning contraband within a few days.

England and her allies are said to have reached an understanding with Italy, which promises to be satisfactory to all the countries affected. It was a German submarine which sank the British battleship Formidable on New Year's day in the English channel. This announcement was made from Berlin which so was advised from a wireless from the submarine. The Formidable, according to the same authority, met with disaster off Plymouth.

## DRAFT OF REPLY TO U. S. SUBMITTED TO FRANCE

That Republic Interested Because of Her Activities in the Mediterranean.

London, Jan. 4, 7:45 p. m.—The British government's reply to the American note concerning contraband probably will be sent before the end of this week. An outline of the reply has been submitted to France, which is greatly interested because of the activity of French ships in searching Mediterranean cargoes.

A statement probably will be issued shortly showing that Italy has arrived at an understanding with England and the other allies concerning contraband, satisfactory to all the countries affected.

It can be stated authoritatively that only five cargoes destined for Italy have been stopped at Gibraltar since Nov. 15. Two of these were released within three days and the others as soon as the alleged contraband could be removed.

Since Dec. 4 no cargoes destined for Italy have been intercepted by the allies.

Rubber cargoes destined for American firms and held in English ports probably will be released soon or purchased by Great Britain, which needs much rubber for the manufacture of tires, bed blankets and boots.

Constant negotiations are in progress between the allies and the neutral European countries situated near Germany, looking to the tightening of the export regulations which will prevent American shipments from reaching Germany and Austria through neighboring countries other than Italy.

A loosening of the regulations applying to American cargoes, it is said by British officials, will depend largely on assurances from neutral countries that they will not assist in supplying Germany, Austria and Turkey with munitions of war.

## FIGHT IN CAUCASUS SECOND ONLY TO THE INVASION OF POLAND

Petrograd, Jan. 4, via London, Jan. 5, 3:40 a. m.—The situation in the Caucasus is now assuming importance second only to the German invasion of Poland. The advance of the Turkish troops to Ardahan is not considered by military observers here a serious menace to Tiflis, although the city is reported to be under Enver Pasha's objective. Ardahan lies midway between the frontier and the Caucasian capital, and guards the pass through the Armenian mountains to Tiflis.

Meanwhile another Turkish army is now in Urmiya, preparing for an invasion of the Caspian coast of the Caucasus.

A lieutenant general, a staff officer in Petrograd, today gave the Associated Press the following status of affairs in the Caucasus:

"The exact number of Turkish armies in the field is unknown, but we are informed that they aggregate three-quarters of a million men, of which number 250,000 remain between Techtatja, Adrianople and Constantinople, guarding against unfavorable developments in the Balkans. About 300,000 are operating against us in the Caucasus. The remaining troops, if mobilized at all, are scattered throughout the Turkish empire, guarding Mediterranean ports against an English descent, and it is rumored that a certain number are concentrating in Syria for an attack on Egypt."

## GREEK RESERVISTS CALLED TO COLORS

Winnipeg, Man., Jan. 4.—Instructions have been received that all Greek reservists now in Canada must report at once to the colors. The mobilization order states that they must be ready to take up their duties with their regiments March 1.

## BELGIAN RAILWAYS PUT IN COMMISSION ONCE MORE BY GERMANY

Brussels, via The Hague to London, Jan. 4, 9:55 p. m.—The Germans have placed the entire Belgian railroad system in operation and are employing about 8,000 railroad men, of whom 1,100 are Bavarians. Many of these men have just been brought into Belgium.

## BAD WEATHER FORCES LULL IN WAR WEST

AFTER HOUSE TO HOUSE FIGHTING FRENCH REGAIN STEINBACH.

### BERLIN ADMITS THIS LOSS

ALLIES, DRIVEN FROM TOWN ONCE, RETAKE IT OVERNIGHT.

### OISE-SEA LINE IS CALM

RAIN AND COLD FORCE ARMIES TO SLACKEN FURY OF THEIR ATTACKS.

London, Jan. 4, 10 p. m.—The latest news from the battle fronts indicates but little activity, the lull evidently being enforced by the bad weather. Steinbach, a village in Upper Alsace, is now in the hands of the French, after house-to-house fighting. This loss Berlin admits.

The day was marked by artillery engagements, with occasional infantry dashes for slight gains. On the line from the Oise to the sea very little fighting has occurred, however.

The following official communication was issued by the French war office tonight:

"The only report which has been received up to the present has reference to Upper Alsace, where engagements of a very violent nature continue in the region of Cernay (Senheim)."

"Last night our troops lost, then regained the territory around the church at Steinbach. This morning they occupied the entire village."

"The German works to the west of Cernay, captured by us yesterday, were lost for a brief period, following a very violent counter attack, but the Germans were not able to maintain it, and the position remains in our hands."

## SWEDISH STEAMER IS REPORTED LOST WITH CREW OF TWENTY MEN

London, Jan. 5, 2:50 a. m.—According to advices received here from Stockholm the Swedish steamer Carma has been lost in the North sea with her crew of twenty men. It is presumed that the Carma struck a mine.

## REOPENING OF LONDON CHANGE AND PEACE TALK SEND STOCK PRICES UP

New York, Jan. 4.—Reopening of the London stock exchange, peace rumors from abroad, and some evidence of January reinvestment demand exercised more or less influence over today's moderately active and strong market for securities. Leading shares, especially the international division, rose from one to three points, with gains of almost as much in less prominent stocks.

General news of the day included an unofficial estimate pointing to a substantial increase in December tonnage of the United States Steel corporation. Railroads in the West and South made more adverse reports of earnings for November, St. Paul showing a net decrease.

## HOUSE COMMITTEE TAKES UP RESOLUTIONS THAT RESTRICT EXPORT OF ARMS

Washington, Jan. 4.—Hearings on pending resolutions to restrict the export of arms and munitions to the belligerent nations of Europe began today before the house foreign affairs committee. Delegations from New York, Philadelphia, Chicago and Baltimore, representing German-American and Irish-American organizations appeared. All urged immediate action on the resolution of Representative Bartholds of Missouri, which would empower the president to prohibit the exportation of all war supplies. They insisted that at present the United States is not observing strict neutrality because Great Britain is able to secure supplies in this country and to prevent Germany and Austria from drawing from the same source.

Copper Country

WILL VACCINATE FREE TO STOP SMALLPOX

PORTAGE LAKE TRIMS CALUMET IN HOCKEY

Township Board, at a Special Meeting, So Orders Health Officer Conrad.

A case of small-pox was reported from West Houghton Sunday to County Physician Labine and the patient was at once ordered to the county detention hospital.

The board met yesterday afternoon in special session and it was decided that Dr. Conrad should make arrangements to vaccinate all persons in the township at their own request.

The health officers are agreed that vaccination is the only preventive for small-pox in spite of a more or less widespread sentiment against the practice.

The township board is prepared to take any steps that may be necessary to prevent the spread of small-pox in Houghton and in Portage township.

Dr. Conrad yesterday afternoon in special session and it was decided that Dr. Conrad should make arrangements to vaccinate all persons in the township at their own request.

DEATH OF STEPHEN FRAMPTON.

Former Resident of Houghton Dies at His Home in Ripley.

Stephen Frampton, seventy-two years of age, died yesterday morning at his home in Ripley. Mr. Frampton formerly lived in Houghton.

The deceased was a native of England, where he learned the trade of carpenter. He came to the United States about 30 years ago and for a time was a carpenter employed at the fuse factory of Senter & Prince, then located east of Haas's park.

He later worked at his trade for various Houghton firms and he located in Ripley 15 years ago. He had not been actively at work for several years.

Mr. Frampton is survived by three sons and a daughter, Frank of Hammond, Ind.; Donald of Houghton, Indianan; and Harold and Miss Annie, living at home.

It takes hold of the usual cough or cold at once and cures it in 24 hours. Splendid for whooping cough, bronchitis and winter coughs.

It is truly astonishing how quickly it kills a cold, soothes the inflamed membranes in the case of a painful cough, and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a highly concentrated compound of genuine Norway pine extract, combined with gualac, and has been used for generations to loosen the membranes of the throat and chest.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex," and follow the directions printed on the wrapper. Refund given with this preparation. The Pinex Co., Ft. Wayne, Ind.

Do not get your Pinex from a cheap store. Pinex (50 cents worth), pour into a pint bottle and fill the bottle with sugar syrup, stirred for 2 minutes, gives you as good a syrup as money can buy.

Then get from your druggist 2 1/2 ounces Pinex (50 cents worth), pour into a pint bottle and fill the bottle with sugar syrup, stirred for 2 minutes, gives you as good a syrup as money can buy.

Then get from your druggist 2 1/2 ounces Pinex (50 cents worth), pour into a pint bottle and fill the bottle with sugar syrup, stirred for 2 minutes, gives you as good a syrup as money can buy.

APPLETON BUSINESS MEN

Will Try German Plan of Fighting Alcoholism.

Appleton, Jan. 4.—At a meeting of thirty-six business and professional men here it was decided to have an efficiency institute here the latter part of February, in an effort to educate the people as to the effect alcohol has on the system.

It will not be a prohibition campaign and it was decided that it would not be practical to hold a no-license campaign in the spring.

The method carried out in Germany in the temperance cause will be used, diagrams, charts, literature and lectures being brought into use to show the effect of alcohol. Liberal newspaper advertising and posters in all factories and public places are proposed in an effort to get the people talking.

The campaign will last four days and will be held in the Armory. At the meeting last Wednesday night W. O. Thiele was elected president; Professor Charles Treat, vice president; A. R. Eads, secretary, and Judge T. H. Ryan, treasurer.

The move was largely brought about by the Rev. Henry Stauffer of Menasha. He was sent to Germany for information to be used at the meeting. He said the temperance movement in this country and England is a religious, while in Germany it is non-religious, but educational, and that country is twenty-five years ahead of us in temperance work. He said officials of the Menasha Woodmenware company had written him that after an investigation they had learned that 75 per cent of their accidents last year were due to drink.

RIGID PASSPORT RULES. State Department Warns Travelers of the New Restrictions.

Washington, Jan. 4.—A warning to Americans going abroad, issued by the state department, makes it plain that great embarrassment will result unless proper precautions are taken as to passports. No persons are allowed to enter Germany now unless they have passports to which their photographs are attached and which are indorsed by German diplomatic or consular officers.

The rush for passports (for Europe) has been great, and has shown that many of the applicants have not understood fully the rigidity of the requirements. Consequently the department has issued this warning.

"The bureau of citizenship of the department of state, which is charged, among other duties with the issuance of passports and which is already overworked, receives many telegrams and long-distance telephone calls from New York, Philadelphia, Boston and other points in regard to obtaining passports for persons who are on the eve of leaving this country for Europe.

"Numerous messages have been received from persons in New York who are to sail on the Lusitania today. They were informed that the only sure way to obtain the passports in time would be to send personal application by messenger from New York. Some of the persons were obliged to go abroad on very short notice to look after near relatives or attend to urgent business, while others had merely put off making applications for passports, imagining that they could obtain them at the last moment without difficulty.

"Some of them were shocked to learn that under the new regulations it is necessary for every applicant for a passport to make a sworn application before a clerk of court or notary public to the department with duplicate unmounted photographs, one attached to the application, one to be attached to the passport by the department.

"The department has received notice that on and after Jan. 1 no persons will be allowed to enter Germany unless they have passports to which their photographs are properly attached, and which are vided by diplomatic or consular officers of Germany. Passports must also be issued for Italy, Russia, Turkey, and the Balkan countries, and it is advisable to have them vised for France, Spain and probably other European countries. The

**ADVERTISING**

There are two kinds of advertising—one, to get the best of the buyer and let him yelp; the other, to establish good will, to create a sentiment in favor of the person or store. On the night of Dec. 24 I had the pleasure of saving a widow's cow. I proved to her what I had said: "Ask Jones, he knows." You must play fair with the people; give them more than their money's worth; tell them bluntly, forcefully, understandingly, entertainingly, instructively; sometimes with a bang and sometimes with the soft pedal. Found in your message and you will have your cash register ringing. Jones' ads are not written for people who pin their faith to the Saffron Journals—but for people of intelligence.

o'clock in the band room at the city hall. Plans for a credit rating system and a central delivery service will be perfected and ordinances to protect merchants from mail order houses, canvassers and peddlers will be recommended. All persons interested are urged to attend.

Married at San Francisco—Frank B. Wallace, formerly of Marquette, who was employed by the South Shore railroad during his residence here, was married to Miss Vera Teresa Schearmann, of North Platte, Neb., at San Francisco, Dec. 1. They are now at home at the Matsonia apartments, Post and Leavenworth streets, after a wedding trip to Santa Barbara, San Diego and Los Angeles. Mr. Wallace left Marquette seven years ago, and is now employed with the Southern Pacific Railway company.

SICK HEADACHE.

Sick headache is nearly always caused by disorders of the stomach. Correct them and the periodic attacks of sick headache will disappear. Mrs. John Bishop of Roseville, Ohio, writes: "About a year ago I was troubled with indigestion and had sick headache that lasted for two or three days at a time. I doctored and tried a number of remedies, but nothing helped me until during one of those sick spells a friend advised me to take Chamberlain's Tablets. This medicine relieved me in a short time." For sale by all dealers.

**MICHIGAN WOMAN GETS HUSBAND'S WAGES EARNED DURING PRISON TERM**

Manitowic, Wis., Jan. 4.—A check for \$21 has been forwarded by Sheriff Herman Schuetz to Mrs. Edward Gostage in Michigan, this being the first money paid to Mrs. Gostage from wages which her husband is receiving as a prisoner under the new law providing hard labor in or out of jail. Gostage was sentenced several months ago and has been employed, his wages being collected by the county through the sheriff.

Under the law dependents of a prisoner may receive his wages after the county has deducted for board and court costs. Have been paid and Mrs. Gostage some time ago made application to have money sent her, saying that it was needed for an operation which one of her children must undergo. However, there was a considerable bill of court costs to be settled and the county had hard money coming.

Gostage deserted his wife and children in Michigan six years ago it is said. He came here with Mrs. Mabel Probert, the woman who was murdered in Evergreen cemetery by Danielson, a rejected lover.

Such headache is nearly always caused by disorders of the stomach. Correct them and the periodic attacks of sick headache will disappear. Mrs. John Bishop of Roseville, Ohio, writes: "About a year ago I was troubled with indigestion and had sick headache that lasted for two or three days at a time. First payments are due the week of Dec. 28th, but you can join the Club at any time during January by making back payments.

**SELF DENIAL PAYS**

You can't accumulate money without self-denial. Are you looking forward to the day when you will have everything you now want, and deluding yourself with the idea that you will then begin to accumulate money? That day will never dawn for you. Each day will bring new wants and if you continue to indulge in them your life will end in want. Indulgence today means for you future want, while self-denial today means future indulgence. Start a self-denial account today. Watch over it and in the years to come it will watch over you.

**ROOSEVELT SHOCKED BY FOREIGN POLICY**

Tells Interviewer Secretary Bryan Lives in World of Tenth-Rate Fiction.

London, Jan. 4.—The Morning Post publishes a long interview with special correspondent, Ernest A. Belcher, had with Colonel Roosevelt recently at Oyster Bay. When asked for his views, the ex-president replied:

"I am just a plain American citizen and can say anything I like about any subject in the world, so free away."

Mr. Belcher says he asked Mr. Roosevelt first to give his views on American foreign policy, particularly as it affected the Far East.

"Lamentable," he exclaimed, "England has made some bad blunders in foreign policy. I see by today's papers you are remedying one of long standing by proclaiming a protectorate over Egypt, but comparing your blunders with ours is like comparing the English channel with the Atlantic ocean. Your channel has hitherto allowed you to tolerate your Keir Hardies. You may imagine what the Atlantic ocean makes us put up with."

"Take the question of Japan. I am convinced the only way to deal with Japan is a combination of firmness and courtesy. That was my reason for concluding the agreement in 1907 for the absolute exclusion of further Japanese labor from the Pacific coast, but otherwise most scrupulous courtesy in our dealings with that highly civilized and sensitive nation."

"Our relations with Japan were then perfectly cordial, because we were agreed upon reciprocal treatment. I knew then a cultured Japanese gentleman may mix or, perfectly equal terms with any American, and I wanted Japan to know we would welcome her students, her travelers, her scientists, her business firms on an absolutely reciprocal basis."

"But now, whether dealing with Japan or any other nation, we have neither firmness nor courtesy. The Democratic party is so afraid of the labor vote that it allows the unions of California to insult Japan. Then we go to the congress of pacific intentions from Washington."

"Of course we are pacific, but our present policy is criminal, doubly so when our navy is totally inadequate for defensive purposes."

"What can you expect when the secretary of state lives in the clouds—not, in the clouds, in a world of tenth-rate fiction?"

Mr. Belcher asked the colonel whether he was aware of pledges of candidates for the California legislature with reference to the proposed amendment of the anti-land bill. He made a note of the figures and agreed that the situation was disquieting, though he did not consider it serious.

"Don't take the British empire," said the ex-president. "Take Australia or New Zealand. What is the population per square mile in those countries?"

Mr. Roosevelt said Mr. Belcher, smiled at the idea of Japanese duplicity. He said steadily, relentless hatred of Germany for the past fifteen years was the real reason for Japan's entry into the war.

"Just until Japan steps in and annexes the country. It will be a good thing for Japan, but for the rest, I think they would prefer to be under the American flag."

**RURAL SCHOOLS BADLY HANDLED**

Improved Hygiene to Follow Probe by Experts—Disease Is Easily Spread.

Washington, Jan. 4.—Amazing unsanitary conditions in rural schools disclosed by an investigation by the United States Public Health Service in Eastern Tennessee and Northern Georgia will result in a nationwide campaign for improved hygiene in the country school houses, it is announced.

Examination of nearly 25,000 persons, mostly school children, and many school buildings, showed among many other unhealthful conditions soil pollution contributing to hook worm infection. Large numbers of school children examined were suffering from trachoma, a dangerous contagious eye disease, which, if not treated in time, impairs or even destroys vision. Also many physical and mental defects were observed, most of which the health service physicians say could be corrected by improved hygiene and early treatment, but which if neglected will cause needless suffering and hardship in later life.

The investigators found little or no attention given to sanitation in the construction of the largest number of school buildings visited. Either in location, heating, lighting, or ventilation, seating of pupils, food arrangements, or sanitary conveniences, they were found wholly inadequate and in several respects positively dangerous.

Drinking Water Bad. Drinking water for the children was found to be often derived from shallow wells, or unprotected springs which may cause the spread of disease. Open water buckets and common tin dippers were used extensively in the schools examined.

The necessity of extending to rural schools the same sanitary advantages now enjoyed by urban schools is, therefore, obvious, said the health service in a statement just issued. "This neglect of sanitary precautions observed in rural communities is undoubtedly due to lack of sanitary knowledge. Instructing the people in the value of sanitation would serve to make them adopt measures, such as are now in force in cities, for the proper construction and maintenance of school buildings and the regular medical inspection of school children. School hygiene has a great economical value, in that it serves to prevent the spread of diseases, and makes the children more in the schools healthier members of the community and of the country at large."

Buying Chickens. Advice to housewives to buy chickens unscrupulous and with their heads feet still on is given by the United States department of agriculture in a bulletin just issued.

An unscrupulous chicken, it says, shows its lack of freshness or its unfitness for food much more clearly than does a fully dressed bird. A crafty poultry dresser can easily remove certain significant signs of staleness, the department warns.

When the feet of a chicken are removed the housewife loses one of the easiest methods of telling the age of the bird. Young chickens have smooth, clean feet and shanks. Old birds have rough, scaly legs, and buttons or spurs. The head of a chicken that is not fresh will show a greenish color below the bill, sunken eyes and a discoloration on the neck, all of which indicate decay.

The department of agriculture has issued a ruling that where fish, olives or tomatoes are packed in brine the label should state the net weight of the actual food exclusive of the brine. In the case of tomatoes, which are packed in brine, the label should be such as to distinguish them from ordinary canned tomatoes.

Under another new ruling, packages of mixed candies labeled "all fruit flavors," "assorted fruit flavors," "fruit flavors," etc., are considered misbranded if the candies contained therein are prepared by the use of both true and artificial fruit flavors, for the reason that such labeling would give the impression that only true fruit flavors had been used.

AMERICAN COUNTESS DIES. Washington, Jan. 4.—Word has been received here through the Netherlands minister of the death in Brussels last Wednesday of Countess de Buisseret, daughter of General and Mrs. Story of Washington.

WEATHER FORECAST. Washington, Jan. 4.—The following is the weather bureau's forecast for Upper Michigan: Cloudy and warmer, Tuesday; probably local showers; Wednesday, local snows and colder.

GIANTS GET LOBERT FROM PHILADELPHIA. New York, Jan. 4.—The New York National league baseball club today procured the services of Hans Lobert, third baseman of the Philadelphia Athletics, as the result of a trade consummated in Philadelphia. In exchange for Lobert the Philadelphia club will receive a cash consideration and the following players: Hal Demaree, pitcher; Milton Stack, third baseman; and Jack Adams, a young pitcher bought last fall from New Orleans. This announcement was made tonight by Manager McGraw of the Giants upon his return from Philadelphia.

EUROPE NEEDS WHEAT; WHEAT PRICES RISE. Chicago, Jan. 4.—Europe's bitter need of bread resulted today in a spectacular rise in the Chicago market today. Wheat prices here. It was pointed out, however, that the tip-top quotation attained today, 81.24 1/2 for May delivery, was still roundly fifty cents a bushel under the price forced here in 1893 by Joseph Leiter during a worldwide peace—81.25. May wheat, 81.42; July, 81.22; May corn, 73 1/2; July corn, 70 1/2; standard oats, 51 1/2 @ 52.

**SEEKS TO SEND MAN TO PRISON WHOM SHE HAD SAVED IN PAST YEARS.**

Superior, Wis., Jan. 4.—Several years ago when Paul Vens appeared in court on a charge preferred by a young girl of Allouez, Mrs. Vens remarried her husband to save him from prison. In court now Mrs. Vens is trying to send the same man to jail.

Vens was arraigned in municipal court here charged with assault with intent to do great bodily harm. He demanded an examination and the case was adjourned. At the time of the first trouble Mr. and Mrs. Vens were divorced. When the girl in the case preferred charges against Vens, Mrs. Vens was to appear as a witness for the plaintiff. Vens had his preliminary examination and was bound over to higher court. In the meantime Mrs. Vens suffered a change of heart.

She lost most of her spite for Vens and in order to make it impossible for the authorities to compel her, a wife, to testify against her husband, she remarried Vens. At that time she was quoted as saying that "Vens was not good enough for her, but too good for any other woman."

DECLINE OF PICKETTING. Boston reports an abnormally low season for picketers. The visiting gentry are alleged to be in desperate straits, facing the alternative of going to work or turning gunmen. According to the active writer on the statistics of crime, Class A dips, or first grade nimble fingers, are unable to net \$15 a week (in the course of a six-day week) by picking an average of sixty pockets a day. To net \$15 a pickpocket must flick at least 815 in the course of the day. In the case of a near-good chain are gaining tremendous popularity at the Hub. To lift such dress is utterly wasted energy. There is no market for it. You cannot dispose of it in small lots or by the drayload. Also, it is dangerous for the dip, to clutter up his pockets with such ornaments.

No matter how felt-footed you are, a pocketful of such metal clanks and brings down upon you the suspicion of the plain-garbed man-hunters.

Ponder the immense amount of worry and annoyance involved in this petty thing of the pocket. A return of 200 to 300 distinct and separate felonies, miserable forty-cent felonies, and yet so great offenses against society that each one jeopardizes your liberty for from five to ten years. If you are fond of rumming up totals, contemplate the cumulative sum of 3,600 years in jail as penalty for a net return of \$15.

The romance comes completely out of this fascinating calling when you bring it down to a hard-pan fifteen-dollar-a-week basis. No need to moralize or folioize. It would only be rubbing it into the underworld that the picturesque doler is evil-omen and therefore likely to be evil-spending. Indeed, they have not the spirit of still meaner parasites. At every turn they are hedged about by spies and informers, who blackmail them for what they may be sponged out of them.

Can misery descend lower than the lot of a fifteen-dollar-a-week pickpocket surrendering a title of his earnings to an organized system of gutter black-mail? Hardly, unless we analyze the case of the parasite, a parasite, and then there is that modern contraption, the folding bill wallet, which fits snugly in the buttocked hip pocket. Surely we may reason that not only does the pickpocket face a hard winter, but that there is danger that his calling will pass away altogether.

The apprehension of the Boston crime expert that the pickpocket must either seek honest drudgery or turn gunman is laid upon a very frail foundation. He may be driven to honest drudgery of some sort, but it is not in his make-up to turn gunman. The gunman of today is a holdier sort and lugs in packs like wolves. They are strong-arm men of a peculiar kind. The pickpocket is a future hybrid, part ferret, part fox and part rodent. He rarely develops violence unless hopelessly cornered. There should be no more romance about him than there is about crawling vermin—Philadelphia Ledger.

SHOULD A MINISTER MINGLE? Clergymen should not carry the "man among men" policy to the point where "reverence for their high calling" is jeopardized by their unbecoming personal leadership impaired, counsels Dr. Shailer Mathews of Chicago.

The test of a man's spiritual temperament as well as of all other of his qualities—is his ability to be true to form in any emergency. To meet and to be on familiar terms with all sorts and conditions imperils no dignity except that sort of dignity supported only by externals.

Successful preachers, nowadays, are men of the world, in the highest sense of that abused term.

The greatest preacher of all made rough fishermen His comrades, broke bread with the sinful and walked the common way.—Detroit Free Press.

OUCH! BACKACHE! RUB LUMBAGO OR STIFFNESS AWAY. Rub Pain from Back With Small Trial Bottle of Old 'St. Jacob's Oil.'

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest 'St. Jacob's Oil' at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone.

**ARCHAEOLOGISTS DENY OHIO'S CLAIM TO LEAD**

Charles E. Brown Asserts Wisconsin Records Will Be Double Those of Hawkeye State.

Madison, Wis., Jan. 4.—"Ohio probably contains a greater number of prehistoric remains than any other equal area in the Mississippi valley." The correctness of this statement, made to an archaeological atlas of Ohio just issued by the Ohio State Archaeological and Historical society, is disputed by the Wisconsin Archaeological society.

The Ohio atlas contains a collection of maps of the eighty counties of that state upon which are located its prehistoric Indian antiquities. The total number of archaeological remains is shown to be 3,396; burial mounds, 3,513; enclosures, 587; effigy mounds, 53; ordinary burials, 714; cemeteries, 39; village sites, 334; stone graves, 17; petroglyphs, 17; flint quarries, 109; caches, 6; rock shelters, 35.

"While no actual count of the Indian mounds in Wisconsin has yet been made," says Charles E. Brown of the Wisconsin Archaeological society, "it is certain from an examination of the state society's records that their number is at least twice as great as that of Ohio. Not only is this true, but the number of such earthworks in Wisconsin greatly exceeds the number of all classes of prehistoric Indian remains in the state of Ohio."

Dr. A. B. Stout, an authority, recently estimated the total number of mounds of all classes in Wisconsin at about 15,900.

"The published surveys of the Wisconsin society show that in eastern Sauk county 734 mounds were located, about Lake Koshongkong 481, and about Lake Waubesa 188, in Racine county 158 were plotted, in Winnebago county 145, and in Waushara county 361. In eleven counties in northwestern Wisconsin over 500 mounds were found and in Trempealeau and adjoining counties over 300. Heavily six occur in one locality near Heaford Junction in Oneida county."

"Of effigy mounds Wisconsin has a big lead over all other states. Many hundreds of these singular animal-shaped structures have been surveyed in the past ten years by the field workers of the state society. Ohio possesses Lake Wales, Ill., Ill., Ill., Iowa and Minnesota an insignificant number of mounds. 'Village sites and ordinary Indian burials and cemeteries are as numerous in Wisconsin as in Ohio, but in the number of its enclosures Ohio exceeds any other state in the union. Wisconsin has no flint quarries worthy of the name, but it possesses pipetown, quarries and lead diggings, neither of which occur in Ohio."

"The Wisconsin society has not yet published a state archaeological atlas, its printed 'Record of Wisconsin Antiquities,' in which the state's prehistoric and recent Indian remains are listed by counties and townships, and its place. Four additions to the original record, which appeared in 1906, have now been issued.

THE RUBBER OUTLOOK. The continuance of the English embargo against far eastern rubber is rapidly producing a situation which may prove serious for the United States. Already prices of Ceylon rubber are 40 per cent higher in the New York market than in London. But this does not mean a great deal practically, because of course no Ceylon or other far eastern rubber is coming in and these prices are made simply on old rubber changing hands.

At the moment up-river para is selling at about seventy-five cents per pound and is coming forward in respectable quantities, but less than our normal total requirements. Para price is up 25 per cent since the war started, but this is obviously not a radical enough swing to indicate a hopeless condition respecting the embargo.

As things stand at the present time, the United States, which uses between 40 per cent and 48 per cent of the world's rubber, is able to get its supplies practically only from Brazil. And the Amazon basin, owing to financial conditions that have prevailed there and the low values which ruled during 1913 and most of this year, has been produced to the same extent as a year ago. From July 1 to Dec. 1 this year receipts at Para were but 11,400 tons against 13,100 tons a year ago.

However, the American situation has GAS, HEARTBURN, INDIGESTION OR A SICK STOMACH. "Pape's Diapsespis" Ends All Stomach Distress in Five Minutes.

Time it! Pape's Diapsespis will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

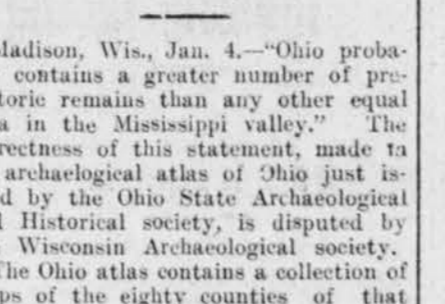

If your meals don't fit comfortably, what you eat fits like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion. Get from your pharmacist a fifty-cent case of Pape's Diapsespis and take a dose just as soon as you can. There will be no sour risings, no belching, no indigestion, food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal gripping. This will all go, and, besides, there will be no sour food left over in the stomach, no poison your breath with nauseous odors.

Pape's Diapsespis is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there. Relief is five minutes from all stomach misery in waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapsespis" to keep the entire family free from stomach disorder and indigestion for many months. It belongs in your home.

**THIS LIFE PRESERVER IS NOT CONTRABAND, BUT SO MANY MEN ARE LOOKING FOR IT.**

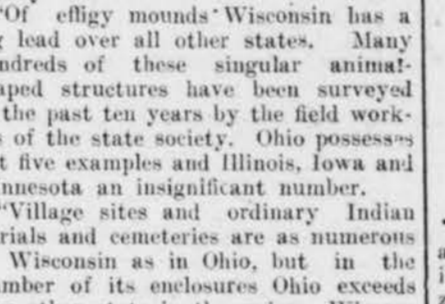

THAT'S RIGHT—YOU'RE SURE TO BE PICKED UP BY A STEAMER, OR YACHT, SO IT'S WORTH TO STAY CLOSE BY.

ON LAND OR SEA, MEN LIKE TO BE NEAR THE GOOD JUDGE.

FROM man to man what's more to the point than word of "Right-Cut," the Real Tobacco Chew. That's the reason why "Right-Cut" users see to it that their friends know about it too.

A little chew of pure, rich, mellow tobacco—cut fine, short shred—seasoned and sweetened just enough, cuts out so much of the grinding and spitting.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end.

It's a ready chew, cut fine and short shred so that you won't need to grind on it with your teeth. Grinding on ordinary candied tobacco makes you spit too much.

The taste of pure tobacco does not need to be covered up with molasses and licorice. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

One small chew takes the place of two big chews of the old kind.

**IF SKIN ITCHES AND BREAKS OUT APPLY SULPHUR**

Get Ounce of Bold-Sulphur Cream and Heal Eczema, Eruptions Right Up.

For years, common bold-sulphur has occupied a secure position in the treatment of cutaneous affections, by reason of its parasite-destroying property. It is not only parasiticidal, but also antipruritic, antiseptic and remarkably healing in irritable and inflammatory conditions of the skin.

The moment you apply it to an itching or broken out skin the itching stops and the healing begins, says a noted dermatologist. Just common bold-sulphur made into a thick cream effects such prompt and remarkable results, even in aggravated Eczema that it is a never-ending source of amazement to physicians.

While not always establishing a permanent cure it never fails to subdue the angry itching and irritation and heal the Eczema right up and it is often years later before another eruption appears on the skin.

Any good pharmacist will supply an ounce of bold-sulphur cream which should be applied to the irritated or inflamed parts like the ordinary ointments. It isn't unpleasant and the prompt relief afforded is very welcome, particularly when the eruption is accompanied with itching.

### LORD IS FIGHTING TONNAGE TAX BILL

Former Ishpeeming Resident Comments on Failure of Grange to File Petitions.

George Lord, a former well-known Ishpeeming man, who left here to take a position in the secretary of state's office during the administration of the late John W. Jochim, of this city, is actively engaged in the fight on the tonnage tax. After the failure of the grange to file the petition for the proposed bill, Mr. Lord was quoted as follows:

"Do you know that more petitions were returned to the executive committee of the state grange without a single signature on them than were returned with any signatures? The whole idea of initiating the bill fell perfectly flat. It ought to fail before those who understand anything about taxation.

"Of course this movement is not a movement in which the great body of grangers are approving. George B. Horton, the one man in the grange who knows more about the tonnage tax than any other man connected with the organization, is opposed to the tonnage tax. He used to favor it but after getting into the tax commission and finding out something about what the mines now pay toward the taxes of the state he has changed his view.

"This reminds me of a point which has not yet been brought out to any considerable extent. One would think from all the talk about the tonnage tax that it would figure largely in the taxes paid in the state. Instead, if the tonnage tax were applied, or if the mines were raised in their taxes, that money would apply only to the state taxes. It would not in any way be applicable to the county or the school or the local taxes. The state taxes amount to only about 15 per cent. of the total taxes levied. Therefore, whatever should be done with the mines would apply only to this small proportion of the taxes the people pay. Supposing, for instance, the mines were to pay all the state taxes, it would relieve the taxpayers of only a very small portion of the taxes he pays. It would relieve him of only a small fraction of the 15 per cent. of all the taxes he pays, for the mines now pay a large portion of the state tax which, as I said, is but 15 per cent. of all the taxes levied. The difference to the average taxpayer if the mines were to pay the entire state tax would probably be only about 75 cents."

### HANRAHAN-BUTTRICK NUPTIALS.

Representative of Carpenter-Cook Company Wedded in Marinette.

Of the marriage of Howard Hanrahan, a representative of the Carpenter-Cook company, who makes his home in this city, to Miss Minnie Buttrick, of Marinette, the Eagle-Star says:

"The bridegroom was dressed in a tuxedo and the bride was in a gown of white and pink. The ceremony, impressively performed by Rev. H. C. Postlewaite, Miss North, and while the ceremony was in progress, Miss Northstrum played Mendelssohn's bridal music.

"The bride's gown was fashioned from white champagne, lace and train and trimmed with Chantilly lace and pearls. The long veil of tulle was in cap effect and caught with orange blossoms and ropes of pearls. The bridal bouquet was a shower of white roses and lilies of the valley. The maid of honor was crowned in pink champagne with tulle and long white pearls. She carried a bouquet of Killarney roses. The flower girl wore a pretty frock of white and carried a basket tied with pink ribbons and filled with ferns, sweet peas and rose petals which were strewn in the pathway of the bride.

"The rooms of the Buttrick residence were decorated with princess pine, elk moss, smilax, Killarney roses and day-broc carnations.

"The bride and groom's itinerary for the bridal journey includes stops in Milwaukee, Waukegan and Chicago. The guests from away were Mr. and Mrs. James H. Hanrahan, parents of the groom and Miss Gladys Hanrahan of Pentaga and George Korstange of Detroit.

"The bride, who is a daughter of Mr. and Mrs. Frank Buttrick, was born in this city and graduated from the Marinette High school. For several years she held a position in the Stephenson Public library. She is a vocalist of ability and her sweet voice was often heard in church choirs here and elsewhere.

"The groom is a representative of the Carpenter-Cook company of Menominee with headquarters in Ishpeeming, where he has a home all in readiness for his bride."

### BRONCHO BILLY TONIGHT.

G. M. Anderson, the favorite cowboy actor of the Western Essanay company, will play the principal part in "Broncho Billy's Favorite," an Essanay western drama, included in tonight's program at Ishpeeming theatre. Another picture will be "The Wolf's Daughter," a powerful Lubin feature; "A Costume Piece," a Vitagraph comedy; and "Her Sacrifice," a Selig drama. The matinee tomorrow, when the third episode of "Zudora" will be shown, will be given at 4 o'clock, instead of 2:30.

### ELECT OFFICERS.

The following officers and teachers of the District Sunday school have been elected:

Superintendent—R. Kinrade.  
Assistant Superintendent—Mrs. Menear.  
Treasurer—J. Menear.  
Secretary—Oscar Brown.  
Assistant Secretary—T. Trevarrow.  
Teachers—Messrs. Kinrade and Warrington; Mrs. Menear, Mrs. Pearce, and Miss Hanna.  
Organist—Miss Richards.  
Assistant Organist—Miss Nancarrow.

### HAD FEET FROZEN.

Veteran Commercial Man Confined to Hospital in Saginaw.

Harry Brehmer, the American Candy company's representative, who has travelled in the upper peninsula for thirty-five years, is in a Saginaw hospital, suffering with frozen feet. Mr. Brehmer was to arrive in Ishpeeming tomorrow, a number of his customers having received cards from him before Christmas, stating that he would be here Jan. 5.

Mr. Brehmer was in the lower peninsula and he desired to spend Christmas with his brother in Saginaw. He missed his train after getting off at a small station, twelve miles from Saginaw, and he decided to walk to the city. When he arrived at his brother's house he discovered both of his feet were badly frosted. Physicians say it will be some time before he will be able to resume work.

### PREPARING FOR SKIING.

The members of the Duluth Ski club have decided to hold a tournament at Sault this winter. The grounds were opened to the public for the first time this season on New Year's day. A couple of toboggan slides have been added to the hill. The date for the tournament has not yet been selected.

### ISHPEEMING IN BRIEF

A meeting of the city council will be held tomorrow evening.

H. Prosentine, auditor for the Oliver Iron Mining company, is here on business.

C. H. Marsh, the upper peninsula representative of Carson, Pirie Scott & Co., is in the city.

Miss Julia Nadeau, of Munising, spent the week-end visiting relatives and friends in the city.

Miss Mabel Berriman has left for the Soo, where she has accepted a position as teacher in the public schools.

Mr. and Mrs. Herman F. Heyn left last night for Florida, where they will spend the remainder of the winter.

R. P. Bronson, who has been confined to his home the last two weeks with a severe attack of bronchitis, has recovered.

Dr. B. A. Schimondle of Chicago, who spent the holidays with his brother, E. C. Schimondle, and wife, has returned to his home.

Colonel A. H. Boyd of the Denver Rock Drill company, who has been in Denver for the last few months, has returned to Ishpeeming.

Clyde Mitchell, who has been home for the holidays with his parents, left yesterday to resume his studies at a college in the lower peninsula.

The ladies of the Golden Eagle society will tomorrow evening meet in the Midton hall, they having changed from the Swedish Home society's hall.

Miss Helen Braastad left last night for Northwestern university, in Evanston, Ill., to resume her studies, after a couple of weeks' visit with her parents.

The newly elected officers of uniform rank, Zenth lodge, Knights of Pythias, were installed last evening. The officers of Zenth lodge will be installed tomorrow evening.

There were 315 births in Ishpeeming in 1914, compared with 323 the previous year. The total number of deaths was 124, while in 1913 there were 132. There were thirty-four births last month and nine deaths.

Wilfred Hegman and John Syriala, who were charged by Walter Rione with stabbing him about six weeks ago, were released yesterday. Rione could not furnish proof that either of the men stabbed him.

The Cleveland-Cliffs Iron company's paydays for the second half of December will be as follows: Harp Ore, Lake, Cliffs Shatts, Monday, the 11th; Republic, Salsbury and North Lake, the 12th; Naganaga district, 13th; Gwin district, 14th.

Next Sunday the Fireside club of the Y. M. C. A. will hold open house in the gymnasium. Ladies are invited. The Fireside club's regular meetings are for men only. Next Sunday Dr. and Mrs. Henry Holz will sing. Mrs. Will Hebbard will give a recitation, and the Y. M. C. A. orchestra and brass quartet will furnish selections.

Fred Held will today open a retail meat market in the Bruan block, on Main street. Mr. Held has resided in Ishpeeming for the past twenty years, during all of which time he had been in the employ of F. Braastad & Co. and J. J. Lohler, having spent the past ten years with the latter. He will do a cash business and will sell at reasonable prices.

### MAKE BIG CONTRACT.

Corrigan-McKinney & Co. Buy Season's Supply of Coke.

Corrigan-McKinney & Co., who operate a number of mines in the Lake Superior district, have closed a contract for a twelve months' supply of coke for its furnace plants. It is estimated that the concern will consume 5,000 tons a month. The management has announced that the company's six furnaces will be operated full blast and will take somewhat more ore than they did last year.

The company shipped approximately 350,000 tons of ore from their iron county properties last year, but in view of the announcement that all of its furnaces will be operated this year, it is thought that the output will exceed a half million tons.

Among the properties under Corrigan-McKinney control are the Tully, Baker, Dunn, Armenta, Tolman, Inden and Great Western. The corporation has large stockpiles at the latter property. Most of this ore, which is of low grade, has been in stock for some years.

### CARD OF THANKS.

We desire to express our thanks to the Knights of the Golden Eagle, Trevelyan lodge, No. 299, Order Sons of St. George, and to all our friends and neighbors, who so kindly remembered us in our bereavement by their kindness and floral offerings.

MRS. JOHN BARTLE and Family.

### EGYPTIAN GEMS TO BOSTON.

An amethyst necklace, believed to have been worn by Crown Princess Anastasi, is on its way to the Boston Museum of Fine Arts, according to a letter received by W. C. Winslow of the Egyptian Research Account society.

Dr. Flinders Petrie, the field secretary of the society, who has forwarded the necklace, says in the letter that it is one of the finest he has ever seen, the settings of the stone being gold anulets of unique workmanship.

### AFTER MEASLES Whooping Cough or Scarlet Fever

"The extreme weakness often results in impaired hearing, weakened eyesight, bronchitis and other troubles, but if Scott's Emulsion is given promptly, it carries strength to the organs and creates rich blood to build up the depleted forces."

Children thrive on Scott's Emulsion. It is Free from Alcohol.
