New Baseball Park.

Menominee and Marinette may have a new baseball field next season. The plan is to purchase a plot of ground on the Menominee side near the Bridge street bridge and, by filling, to convert it into a park containing an athletic field as well as a baseball diamond. A. H. Hillis, Marinette city engineer, has already been engaged to survey the field. It is estimated that \$2,500 will be necessary to build the park. With the three Madison men to bolster up the team, and all the players returning excepting Smith and Sheehan, the Twins will be one of the strongest organizations in the circuit next year.

Of ore shipments for the past season from the Crystal Falls district to the Escanaba docks the Crystal Falls Diamond Drill says: "Some idea of the immense slump in the iron ore industry may be gleaned from the shipment figares from the Crystal Falls district last hipping season. The total shipments, with the Hemlock estimated, is less than half million. Corrigan, McKinney & Co., in the years 1906 and 1907 shipped rom this district one and a quarter

THE DAILY MINING JOUENAL.

Change in Constitution Also Fig ures in Lively Dispute With Danish Sovereign.

Reykjavik, leeland, Dec. 4 .- [Corr pondence of the Associated Press.]celand is in the throes of a political risis and the people are hugely enjoyin t because it provides them with som thing to talk about these long, cold win ter nights. It is nothing less than puarrel between the liberal party, whic s in the ascendancy, and his majesty, the king of Denmark, who is, of course, th ruler of Iceland.

It has led to the resignation of th prime minister, Eggerz, but he has con sented to remain in office for the presen and if matters are arranged to his satis faction he will no doubt withdraw hi resignation altogether.

There are two points of disagreement with the king. The first concerns the constitution. I celanders, being progressive folk, want an up-to-date constitu tion and in the last session of parliament various changes in the old constitution The Chauffeur Officer, Social Lines were agreed to in accordance with the popular demand. But when the prime minister sent them to the king for hi signature-without which they could not become effective-he refused to affix it He maintained that the constitution of leeland could not be changed without the sanction of the Danish parliament. The sturdy Icelandic liberals on the other hand contended that their own parliament was quite competent to fix up their constitution and that the Dan-

ish parliament had no business to meddle with it. The other point at issue concerns the flag question. Iceland for some time been anxious to have a flag that it could call its own and the king, it i said, promised that its desires should be gratified. The liberal majority in the parliament here, having complete faith in the patriotism and good taste of the prime minister, authorized him to go ahead and get up a flag and settle the matter personally with the king. But the king declined to consider the design for a flag submitted by the prime minister, alleging that there was no evidence it was the sort of flag the Icelandersor a majority of them-really wanted.

The king has announced that he will mmon before him some of the leading oliticians of Iceland to talk things over attention is devoted to rifle practice as and see if some satisfactory settlement of the disputed matters cannot be ar-

MILLION MEN JOIN **ENGLISH HOME GUARD** Obliterated, Drills His Employer, the 'Squire.

London, Dec. 22 .- [Correspondence of The Associated Press.]-Almost unob served, England's Home Defense Army -whether it be called the "Volunteer Training Corps," or the "National Guard," or the "Special Constabulary"has grown to a membership of more than a million men in a space of less than three months. Moreover, this is only a beginning; apparently the number will be quadrupled before Spring, Occurrences like the German naval raid on the Hartlepools and Scarborough in mid December sent hundreds of the male population, old and young alike, hurrying to take their places in this civil guard, which will have an important work to do if invasion ever becames a reality. Drilling is carried on generally three or four evenings a week, in parks squares, and school-yards all over England. The force is to be equipped as soon as possible with gray-green uniforms. Officers have been assigned. There are

engineer, ambulance, transport, signai, bicycle and motorcycle companies. Much soon as the elements of drill are completed. As to what the duties of these civilian

to see that the population of the threatened towns was guided to safety. Ar rangements for such an exodus already have been made tentatively in most

Takes Stand. London, Dec. 22 .- [Correspondence o the Associated Press.]-One of th

hardest problems facing the British public with the beginning of the New Year is that of caring for the Belgian by thousands of miners because it refugees in England, who now number at least 160,000. Most of them are at present guests in private houses all over the country, and but a small proportion are assembled in hotels of oarding houses.

It is obvious that private hosts will not care to make their hospitality permanent In fact, many of the offers of helter in private homes were limited to a period of one or two months. The government has not assumed a very efinite responsibility in the matter, although evidently it will be compelled o do so soon. The government is handicapped,

moreover, by the fact that its resourceare already strained by the necessity of providing lodgings for war prisoners and interned aliens.

Find Industrial Problem.

The chief difficulty is industrial. The maintenance of 160,000 men, women and children in idleness for months, of even years, is a prospect fraught with

lisastrous possibilities, but apparently there is no alternative. The English labor unions maintain with the great est firmness that the English worker nust have first claim in the English labor market, and that no possible good can come from finding room for a Bel gian by throwing an Englishman out o employment. Even with the super ision of the labor exchanges to insure that the Belgian competes on a wage basis with the English laborer, it is evident that there is not work available or one in ten of the men and women

who must be provided for, A difficulty right at the start of the problem is that there has been no comoilation of data regarding the refugees in England. Even as to their number, there are only hazy "estimates." The government has now started the work of registration, which, however, will probably take a long time to carry through, even partially. It is suggested that certain charitable agencies might be asked to assist in gathering

soldiers will be should invasion be atthis very necessary information as 1. the history, training and occupation of tempted, there is no definite information. They would be expected, it is said. each refugee.

HAD SAME COUGH FOB SEVERAL YEARS

Woman Fifty Years Old-Coughed More or Less Since Childhood-Found No Relief Until She Got Vinol.

PAGE FI7E.

Dayton, Ohio.—"I want everybody to know what Vinol has done for me. I am now fifty years old and ever since I was a young girl I have had a cough most of the time, and sick headaches which left me weak and with no desire for food.

"I took all kinds of medicines but nothing seemed to do me any good. Finally my druggist asked me to try Vinol, saying that if it did not help me he would refund my money. I felt so much better after taking one bottle I bought more. Now my cough is entirely cured. I have no more sick headaches. I have a good appetite and feel better than I ever did in my life, and I cannot recommend Vinol too highly."-Mrs. J. C. SCHNEIDER, Dayton, Ohio.

Vinol is not a secret nostrum, simply a combination of the medicinal elements found in cod livers, together with tonic iron, contains no oil and is delicious tasting. We ask every man or woman in this vicinity suffering from chronic coughs, colds or bronchitis, and every weak, run-down person to try Vinol.

Washington, Jan. 6 .- The committee f they are treated summarily as non on statistics and standards of the Chamcombatants and a few of them are exc. er of Commerce of the United States has just issued a report on "General Crop and Business Conditions, as of December 12, 1914."

While acknowledging the wide-spread and depressing effects of the European war on industrial and commercial conditions, the report is generally reassurng. Economy naturally prevails among all classes, though remarks have been noted that this does not extend to aubiles. Purchases of goods for future delivery are far smaller than isual. Collections are uniformly reman and aristocrat have trained side by ported as poor. Lately a marked change side through the long Winter evenings has been noted in a lessening of the may soften or even obliterate the sharp earlier difficulty of obtaining loans from lines which have divided class from class banks and in an easing of interest rates. in England. For the present, at least, it It is stated that conditions in the is certain that social distinction is south, while slowly improving, still present a serious problem. Elsewhere

Here is a typical illustration: In order the feeling gathers strength that a steadily improving future is immediate ly ahead.

Crop Yields Large.

Crops in general have been good. The entire wheat crop shows an inrease of 121/2 per cent. over that of last year, and in some southern points the increase is over 100 per cent. The eport states that all indications are that, the amount of wheat being held for higher prices is much less than is

generally supposed.

mand remunerative prices. The report points out that while we ordinarily get most of our supply from Germany, there seems to be no difficulty in obtaining the necessary seed, and a larger acreage of sugar beets is expected next spring than in 1914.

Maté, either hot or iced, seems to appeal to everybody. Maté is particularly wel-come when served with light refreahments, for its nutritious and hunger-satiafying properties make a cup of Maté and a bit of cake equal an ordinary meal in sustenance. In Buenos Aires, Montevideo, Santos, Santiago, Valparaiso and other cosmopolitan Cattle Business Handicapped.

and progressive cities in South America. Maté long has been the favorite beverage

LANSING-Secretary Dennis Alward of the Republican state central com mittee has issued the call for the spring convention at Grand Rapids, February 12. Owing to the fact that there was a slight falling off on the vote cast for secretary of state, there will be four less delegates at the coming convention than in the convention held at Kalamazoo last fall. Secretary Alward says that there will be 1.468 delegates entitled to seats at the Grand Rapid. meeting. Wayne county will have 210 delegates, which is a loss of nine compared with 1914. Kent county gains 13

and will be entitled to 81 seats. Ing ham county loses one and will have 32 delegates. There is no change in Bay ounty, which remains at 26. Genese county gains one and will be entitled to 20 seats. Jackson county gains four and will be entitled to 29. Oakland county remains at 34, while St. Claur ounty losses one delegate and is entitled to 30. Muskegon county loses one and will have 20 seats, while Lenawee loses four and will be entitled to 27. The date for the county conventions has not been announced. Chair man Gilman Dame will name the tem-

porary chairman of the convention. INSTRUCTING THE "CUB."
