

GENERAL BELIEF IS OFFERS BY U.S. WON'T BE TAKEN

France, Russia, England, Serbia and Belgium Said by Officials to Be of One Accord as to Reprisals to Be Made on Germany for War on Commerce.

Ambassadors Gerard and Page Send Encouraging Reports, However, in Regard to Proposal to Lift Embargo on Food and Cease Submarine Campaign.

London, Feb. 26, 7:40 p. m.—France, Russia, England, Serbia and Belgium are said by English officials to be in absolute accord as to reprisals to be made on Germany, Austria and Turkey in retaliation for the German submarine campaign.

While it can be authoritatively stated that the nature of the reprisals has not been agreed upon absolutely as yet, England and her allies have decided upon the main points which probably will be announced Monday by Premier Asquith.

Simultaneously the position of all the opponents of Germany toward neutral countries, whose trade is so vitally affected by the present naval methods, will be submitted to the neutral governments.

There is every reason to believe that England fully intends to make all food stuffs for Germany absolute contraband. Encouraging Reports Received.

Washington, Feb. 26.—Encouraging reports from both Ambassadors Gerard and Page, at London and Berlin, respectively, were received by President Wilson and his cabinet today, concerning the attitude of Great Britain and Germany toward the latest American proposal for the safeguarding of neutral commerce from the dangers of submarines and mines, and the unrestricted shipments of foodstuffs to the civilian population of belligerent countries. Complete replies are not expected for several days.

British to Use Gun Under Water? New York, Feb. 26.—The Reverend James O. Hannay, canon of St. Patrick's cathedral in Dublin, arrived here tonight on the steamer Baltic from Liverpool, brought a report of measures he said he learned the British admiralty has undertaken to combat Germany's submarine warfare. A submarine gun has been devised, Canon Hannay said, which distributes a mine with great precision under water. One gun of this type had been completed and construction of others was being expedited, he added.

DENIES SPECULATORS ADVANCE WHEAT PRICES Joseph Leiter, Loser of Millions in Attempt at Corner, Testifies at New York Probe.

New York, Feb. 26.—Joseph Leiter, noted wheat operator of fifteen years ago, testified today at the state inquiry into the increased cost of bread. "There isn't anybody left in the speculative market now," Mr. Leiter said. "The speculators got out after the price passed the \$1.40 mark. A small trader was forced out and the big one was frightened out. The rise would have come sooner had it not been for speculation."

"High prices are due then, not to speculation, but to the demand for wheat; which is right," Mr. Leiter was asked. "Yes, that's it exactly."

Mr. Leiter did not think the elimination of speculation in wheat would lower the price. "Take away from the farmer their ability to estimate their profits by exchange prices, and they will have food, as well as the tobacco growers of Kentucky did and fix the price. The farmers would be able to organize a trust that would make the biggest trust of the day look puny in comparison."

When asked if it were possible to control or corner the wheat crop, Mr. Leiter said: "Certainly, I tried it once, but you lose so much burying the corpse, that there is nothing in running corners."

TWENTY-ONE DIRECTORS OF NEW HAVEN ROAD INDICTED AT NEW YORK New York, Feb. 26.—The federal grand jury today returned a superceding indictment against twenty-one directors, former directors and counsel for the New York, New Haven & Hartford Railroad company, charging violation of the Sherman anti-trust law. The indictment, similar to the one returned last November, was brought to overcome objections made by certain defendants to the manner in which the first indictment was secured.

SUPREME COURT NOW TO DECIDE FRANK'S FATE Washington, Feb. 26.—Argument on the Georgia federal court's decision refusing a writ of habeas corpus to Leo M. Frank, under death sentence for the murder of Mary Phagan, the Atlanta factory girl, was concluded today before the United States supreme court. A decision probably will not be given for at least several weeks.

Should the supreme court affirm the decision of the Georgia federal court, nothing would stand in the way of the state carrying out the death sentence.

ALIENS ATTACK INTERIOR FORTS IN TURK STRAIT

Warships Enter Dardanelles, After Razing Outer Structures Guarding Entrance, and Begin Shelling Strongholds on Waterway—Dragging for Mines Begun

Four Forts Reduced by Guns of French—One Is Burning—Fire of Defenders Reported Weak—Constantinople Says Three of Attacking Ships Were Damaged

London, Feb. 27, 4:40 a. m.—The allied fleet has bombarded interior forts in the straits of the Dardanelles, according to an Athens dispatch to Reuters' Telegram company. The fire directed upon Fort Dardanos is said to have been particularly severe and the Turkish reply feeble. The Sold-El-Bahr lightship at the entrance to the Dardanelles is in flames. The fort at Dardanos is the first to be passed after those which guard the entrance of the straits.

Dragging for Mines. Paris, Feb. 26, 5:57 p. m.—An official communication issued by the French minister of marine today confirms the announcement of the demolition of the forts guarding the entrance to the Dardanelles, and says that mine dragging operations are now proceeding in the straits. The communication follows: "The bombardment of the forts at the entrance to the Dardanelles was resumed at a great distance yesterday, at 8 o'clock in the morning. This was followed by a bombardment at shorter range. Four forts were completely destroyed. One of them was mined by the Germans. "Mine dragging in the straits is being effected under the protection of the armored and other cruisers of the combined fleet."

Interior Forts Shelled. Paris, Feb. 26.—The Athens correspondent of the Havas agency sends the following dispatch regarding the bombardment: "News received from the island of Tenedos last night says that the bombardment of the Dardanelles continued with violence from 9 o'clock in the morning until six in the evening. The fire from the forts was intense during part of the day, but diminished and ceased before midnight. Forts Erthorlog, Sold-El-Bahr and Orhanli suffered a great deal, especially Sold-El-Bahr, which was on fire, the flames being seen from Tenedos. One of the allied cruisers entered the strait during the evening and bombarded the forts for an hour. It then withdrew safely. "The result of the fire of the Turkish forts is not definitely known, but it appears to be established that none of the allied vessels have been seriously damaged."

The Athens correspondent of the Exchange Telegraph company, in a dispatch dated Friday, says: "The bombardment of the exterior forts of the Dardanelles has resulted in the destruction of Forts Sold-El-Bahr, Kum Kale and Orhanli. "A French cruiser penetrated the strait and remained an hour, bombarding the interior forts. It departed undamaged."

Three Ships Damaged? Constantinople, via London, Feb. 26.—Three warships of the allied fleet were damaged in the bombardment of the Dardanelles forts Feb. 23, according to an announcement given out today at the headquarters of the Turkish army here.

AURORA CITY COUNCIL OFFERS \$1,000 REWARD FOR MURDERER'S ARREST Aurora, Ill., Feb. 26.—Women of this city locked themselves within doors tonight, or ventured in the streets only in groups of two or three, while the men gathered to discuss the best means by which to apprehend the murderer who struck down and killed Miss Emma Peterson in the streets last night, and who is believed to be the same person who killed Miss Jennie Miller in a similar manner some months ago.

The city council tonight announced a reward of \$1,000 for the arrest of the murderer. Bloodhounds were put on the trail today, but nothing was accomplished.

Men Held in Chicago. Chicago, Feb. 26.—Detectives arrested Frank Ramsey here tonight, while he was carrying a satchel containing silverware valued at \$200. Joseph Bradley, who was with Ramsey, was arrested also. They refused to explain their possession of the silverware, Ramsey was arrested, according to the police, in connection with the death of Miss Jennie Miller in Aurora, Ill., Nov. 19, 1914, but proved an alibi and was released. Detectives searched Ramsey's room tonight and found a piece of galvanized iron pipe about fourteen inches long under the bed. The chief of police of Aurora was notified of the arrests.

WINS 64-MILE DOG RACE, MAKING IT IN SIX HOURS Nome, Alaska, Feb. 26.—Fred Ayer, driving a team of fourteen foxhounds, finished first late today in the sixty-four mile Solomon derby for dog teams. His time was six hours and twenty-three minutes. Percy Blatchford, driving the Downing Blatchford team was second in six hours and thirty-eight minutes.

GERMAN OFFICER ASKED HIM TO SPY, SAYS STEGLER

Man Accused of Obtaining Passport by Fraud Tells of Supposed British Naval Plan.

New York, Feb. 26.—Charles H. Griffiths, attorney for Richard P. Stegler, the German naval reservist arrested here Wednesday on the charge of fraudulently obtaining an American passport, announced tonight that he would place in the hands of the federal authorities tomorrow an anonymous typewritten letter received by Mrs. Stegler yesterday, which would be compared with letters alleged to have been written to Stegler by Captain K. Boy-Ed, naval attaché at the German embassy at Washington. Stegler, according to Mr. Griffiths, has told the federal authorities that Captain Boy-Ed wanted him to go to England as a spy. The letter, which Captain Boy-Ed today denied having written, or knowing anything about, reads as follows: "War With Germany Ruin U. S."

"Reading today's New York American, allow me to tell you that it was your fault that your husband has been arrested and will have to go to jail for many years, and will be always a looked-at scoundrel. Accept the advice to keep your mouth shut, and you will be free before you at first consult a lawyer. Besides, you put your country in a bad position because your case will only increase the ill-feeling of the Germans against the Americans, and you know that a war with us Germans would be the greatest disaster for the Americans."

Mr. Griffiths said that both Mrs. Stegler and Stegler himself, to whom he showed the letter today in the Tombs prison, had declared that certain characteristics of the typewriting and other peculiarities resembled a letter he had received from Captain Boy-Ed in the possession of the United States district attorney.

"This thing is too ridiculous to answer," Captain Boy-Ed said, when asked today if he wrote the letter. "I have been accused of so many things that I would not be surprised if they tried to fix the Rosenthal murder on me, or the responsibility for the next subway accident."

British Plan New Move. Captain Boy-Ed strongly reiterated his denial that he had anything to do with Stegler other than to try to help him get a position in the German navy. Mr. Griffiths said, his declaration that Captain Boy-Ed had wanted him to go to England as a spy. As told by the attorney, Stegler was informed by the naval attaché that the British admiral was fitting out at Batten a submarine of merchant type, which were to be sent, disguised as German boats, to the mouth of the Elbe and Weser rivers and sunk there in order to blockade Cuxhaven, Bremerhaven and other German ports.

"I was to get all the information about this," Stegler was quoted by Griffiths as saying. "I also was to watch all shipping movements in the Mersey. I was to try to locate the strength of the English fleet supposed to be in St. George's channel. I was to make absolutely no notes, but to deposit directly on my memory. I was then to go to Rotterdam and then to the German harbor, where I was to meet German officers and give them a secret password. I was told to be very careful in regard to meeting these officers, as Captain Boy-Ed said there were English spies in the German lines, who were the uniforms of German officers and even the Iron Cross."

"I was to go to Berlin and deliver my information to Herr Bendall, head of the German intelligence bureau. "That Stegler had sought the assistance of George Sylvester Viereck, editor of a German newspaper, in obtaining an American passport was asserted by Mr. Viereck today, who said Stegler had come to him and requested that he use his great success in the trans-Atlantic region."

Turk General Executed. Copenhagen, via London, Feb. 27, 3:07 a. m.—The newspaper here published a Berlin dispatch reporting the killing of a prominent Turkish general in Syria. His death was ordered from Constantinople, it is said, the charge being made that he committed treason, in endeavoring to carry out negotiations for peace with the allies of the triple entente. The basis for the general's execution, it is stated, was the proclaiming of himself as sultan, the limiting of Turkey to Asia, and the abandoning of Palestine and Mesopotamia to England.

Russian General Captured. An official Berlin statement today says: "During the recent battle in the Mazurian lakes district of East Prussia, the commanding general of the Russian twentieth army corps and ten other commanding officers were made prisoners."

BRITISH BEGIN INVASION OF GERMAN TERRITORY IN SOUTHWEST AFRICA London, Feb. 26, 10:50 p. m.—A serious invasion of German Southwest Africa by the Union of South Africa forces is now under way. The troops which landed in Walvisch and Luderitz bay are advancing along the railways from those ports to the main line which runs north and south through practically the whole length of the colony, while another force is concentrating in Northern Cape colony to advance from the south.

General Botha is leading the forces which advanced from Walvisch bay, and is directing their operations. In a speech to his troops General Botha said the campaign would continue until the German colony was captured, and he assured them also that the rebellion in the Union was being quelled. He said his troops would be joined by strong reinforcements which would make their success certain.

AUSTRIAN SCHOOL KIDS TO WORK IN THE FIELDS London, Feb. 26, 8:20 p. m.—Vienna dispatches, forwarded to Reuters' Telegram company, say that the Austrian minister of education has authorized the employment of school children in

Progress In Poland Claimed By Petrograd. Battle In Carpathians Still Is Undecided. New Move By Teutons Expected In France.

RUSSIAN FRONT HOLDS FIRMLY ALL ALONG LINE

FROM NORTH POLAND TO CARPATHIANS FOE IS BALKED, IS CLAIM.

GERMAN LOSSES SAID BIG THOUSANDS LOST IN BATTLE AND PRISONERS IS PETROGRAD'S ASSERTION.

SLAVS IN CAUCASUS REPORT 'PROGRESS, WITH GREAT SUCCESS.'

London, Feb. 26, 10:50 p. m.—In the eastern theater of war the big battle along the Russian front line which follows rivers almost the whole way from the Baltic to the Carpathians is still undecided. The same is true also of the battles in the Carpathians and in Bukovina. Petrograd dispatches, however, claim that the Russians are more than holding their own in north and central Poland, and that in the Carpathians they are making such a steady advance that not only the Hungarians, but the Austrian armies fighting in Bukovina are threatened.

The following Russian official statement was given out tonight in Petrograd: "According to supplementary information our successes in the Przasnysz region (northern Russian Poland) during Feb. 24 and 25 and the night of Feb. 26 were extremely important. The Russians, courageously shattering the resistance of the Germans with rifle fire and bayonet, progressed vigorously. The enemy is retreating along the whole front, abandoning prisoners, cannon, machine guns and commissariat."

Machine Guns Do Great Damage. "Our success was supported by the self-acting work of our armored motor cars, which poured their machine gun fire into the Germans at constantly decreasing distances, in some instances only a few score yards. The enemy's losses were very great. Up to the present it has been ascertained that during Feb. 24 and 25 we captured thirty officers, 2,600 men, seven cannon, eleven machine guns, and a huge quantity of equipment and commissariat supplies."

The official communication from the headquarters of the Russian army of the Caucasus, dated Feb. 24, says: "Our troops have progressed with great success in the trans-Cloruk region."

Turk General Executed. Copenhagen, via London, Feb. 27, 3:07 a. m.—The newspaper here published a Berlin dispatch reporting the killing of a prominent Turkish general in Syria. SUMMARY OF THE WAR NEWS

Heavy fighting is in progress in various parts of North Poland between the Germans and the Russians. Petrograd claims an important success in the region of Przasnysz, where the Germans chronicled a victory for themselves a day or so ago. The Russian war office says the Germans in this vicinity have been forced to retreat over a twenty-mile front, with heavy losses in killed, wounded or prisoners. A large number of guns also were captured.

In the west advances and the taking of trenches in the Champagne and the capture of "important fractions" of the German line farther west are claimed by the French. Artillery engagements have been in progress along the whole line.

Having silenced the forts at the entrance to the Dardanelles the allied fleet is now covering the work of mine sweepers in the channel, preparatory to attempting further progress along the narrow waterway leading to the sea of Marmora.

The British government, through its chief industrial commissioner, has ordered 10,000 working shipyard engineers of the Clyde to return to work Monday, declaring that "important munitions of war urgently required by the army and navy" are being held by the strike.

Owing to disturbances following meetings at which speeches were made for and against Italy's participation in the war, the Italian government has decided that in the future no such meetings will be held.

Prince Henry of Prussia probably will become commander of the German high seas fleet, succeeding Commander Ingenohl, who has been ordered to Berlin from Kiel.

government Mr. Brice adds both sides have blamed it, and the government points to this as the best proof of its impartiality.

GENERAL'S DAUGHTER APPEALS TO EMPEROR TO DISCHARGE FATHER Geneva, via Paris, Feb. 26, 2:30 p. m.—Through the medium of the Swiss Red Cross Mademoiselle Leman, daughter of General Leman of the Belgian army, who defended Liege against the Germans in the early part of the war, has appealed to Emperor William of Germany to allow her father to return to his home in Belgium. Her argument is that the general, having lost the use of both his legs, can no longer be regarded as fit for military duty. Her appeal has been forwarded to Emperor William.

SPANIARD IN MEXICO REFUSED VILLA MONEY; PAYS DEATH PENALTY San Antonio, Tex., Feb. 26.—A message from San Luis Potosi, delayed in transmission by a messenger, says a wealthy Spaniard, of Matamoros, was executed by Villa soldiers. It was alleged in the message that the Spaniard was taken to a cemetery with two other men who had refused to contribute money to the Villa officers and there shot to death. Relatives, it was said, were not permitted to remove the body until the next day (Tuesday).

FIVE HUNDRED CHINESE ORDERED FROM GERMANY OWING TO LACK OF FOOD London, Feb. 26.—The Evening News publishes a dispatch from Rotterdam, saying that owing to the shortage of food in Germany the German authorities have ordered the expulsion of five hundred Chinese. A strong Netherlands police force has been sent to the frontier to prevent these men from entering Dutch territory, and complications are expected, the correspondent declares.

"FARM TO TABLE" SYSTEM IS ADOPTED IN RUSSIA Petrograd, Feb. 26, via London, Feb. 26, 4:20 p. m.—In view of the growing increase of the prices of all commodities, especially food and fuel, the government at Petrograd has suggested the operation of middle men, so that henceforward commodities will move directly from the producer to the consumer. The penalty for the infringement of these regulations is three months imprisonment and a heavy fine.

ALL RUSSIANS NOW ARE LIABLE TO SERVICE London, Feb. 27, 1:45 a. m.—The Russian consular general here has issued a statement received from Petrograd announcing that Russians living abroad will henceforth be liable to military service and must return immediately to Russia. Those belonging to the classes called to the colors who remain abroad after March 1 will be liable to punishment according to the Russian law.

MORE CRAFT FOR NAVY PROVIDED IN MEASURE PASSED BY THE SENATE Washington, Feb. 26.—Congress worked away steadily today and tonight on its task of cleaning up supply bills which must be out of the way before adjournment on March 4. The senate passed the naval bill, \$152,000,000, the appropriations bill, \$6,000,000, and the diplomatic bill, \$4,200,000, while the house spent the day in debating the general deficiency measure.

The senate added about \$8,000,000 to the naval bill as it passed the house, providing in the two battleship construction program five sea-going submarines, instead of one, for sixteen instead of eleven coast defense submarines, for a gunboat and a hospital ship, and adding \$1,000,000 for an armor plant and \$300,000 for a projectile factory.

WAR MEETINGS IN ITALY ARE TO BE PROHIBITED Rome, Feb. 26.—The Italian government has decided to prohibit in the future meetings called for the purpose of arousing sentiment for or against Italy's participation in the war. This step was taken owing to the serious disorders, which have resulted from such meetings, in which a number of persons have been killed or wounded.

PRICE OF NEWSPAPER RAISED. Seattle, Wash., Feb. 26.—The Post-Intelligencer, now sold at one cent a copy, announced today an increase in price to two cents.

GERMANS RUSH TROOPS TO WEST TO HOLD FRENCH

SOLDIERS HURRYING FROM POLAND TO CHECK ADVANCE OF ALLIES.

GROUND IS STILL TOO SOFT BELIEVED TEUTONS WILL BE UNABLE TO ACCOMPLISH MUCH IN BAD WEATHER.

A BIG MOVE IMPENDING? LONDON THINKS SILENCE OF BERLIN MAY BE PRELUDE TO NEW EVENTS.

London, Feb. 26, 10:50 p. m.—The continued progress which the French are said to be making in the Champagne district, and the pressure which the allies, without attempting any great offensive, are designed to bring to bear on the German lines in the west, have, according to news received from Holland, induced the Germans to make another effort in the west before the allied forces reach their maximum strength.

By day and by night, say the Dutch newspapers, big motor cars loaded with German soldiers are hurrying through Belgium to the western front, and the troops which had been sent to northern Belgium are going back to the trenches. The fact that some of the troops now passing through Belgium come from the eastern front, suggests to the military observers that the Germans have decided that they are able to hold the Russians in their present position, while the Germans are carrying out their new offensive in the west.

Big Move Impending? The silence of the German general staff, which today said that there had been no change on either front, is taken in London as confirmation that some big move, such as that suggested, is under way. It is declared that the allies are displaying no uneasiness. They believe that the situation of the ground must prove a great advantage to the Germans, and although all the new troops of the allies are not yet ready, they will be able to repel any new attack.

During the last couple of days the British have slightly improved their position in the region of La Bassée, while the French report further progress by their troops in the vicinity of Perthes and in the Argonne and repeated successes by their artillery in destroying German guns and trenches.

BRITISH GOVERNMENT ORDERS SHIPBUILDERS TO RETURN TO WORK London, Feb. 26, 8:41 p. m.—While labor conferences were being held today to decide what action should be taken regarding the reform of the Clyde shipbuilders to grant an increase of four cents an hour in wages to the shipyard engineers, some of whom already are on strike, the government made a dramatic move in sending a letter to both employers and workmen, ordering the resumption of work on Monday and promising that arrangements would be made for the dispute to be referred to a court of arbitration.

Sir George Asquith, chief industrial commissioner, pointed out that in consequence of the delay in reaching a settlement, the requirements of the nation were being seriously endangered. Had the utmost been allowed to spread 100,000 men would have been involved.

Washington, Feb. 26.—Congress worked away steadily today and tonight on its task of cleaning up supply bills which must be out of the way before adjournment on March 4. The senate passed the naval bill, \$152,000,000, the appropriations bill, \$6,000,000, and the diplomatic bill, \$4,200,000, while the house spent the day in debating the general deficiency measure.

NO NEED FOR DELAY.

Senator Verrier is preparing a bill that provides for abolishing the spring elections and for making all the state officials who have then been elected, except supreme justices, appointive by the governor.

Numerous members of the legislature have given thought to these proposals. Senator Wood has been credited with the laudable purpose of undertaking the considerable job of writing revised primary and general election laws.

While the complete revision of the primary and the general elections statutes is, as remarked, a large sized order, one whose completion will require considerable time, and may not be possible in the life of the present legislature, no apparent reason exists why the legislature should not move without delay to secure the advantages that are outlined in the proposed Verrier bill.

The spring election to be held in April should be the last of its kind ever held in the state. And when it is being legislated out of existence the solons should also see to it that if the county commissioner of schools is to be nominated by direct vote, the date of the nomination is made the date of the biennial fall primary, so that counties may be spared such unnecessary expense as Marquette has been compelled to undergo this spring in making a choice between two candidates.

HARDLY POSSIBLE.

On the score of the showing by the railroads before the legislative committee Governor Ferris says: "I am inclined to believe the data are correct. It hardly seems plausible that all these men of affairs would deliberately falsify, even in a matter of such grave import as this."

It not only does not seem plausible, but it does not seem possible. The railroads are being administered by a new generation of men. These men have scrapped the bad traditions of management that brought the railroads so much grief. They are not opposed to regulation. All they ask is that, on occasions, it be permitted to run for the railroads, as well as against them. They are far too intelligent to go to a legislature in which they are certain to encounter considerable suspicion with figures that cannot stand the most searching inspection.

Much of the suspicion of railroad figures can be attributed to lack of knowledge of the conditions under which they are made. It is perhaps forgotten that, in no small measure, the railroads have had their bookkeeping taken out of their hands. The layman does not always recall the extent to which the federal interstate commerce commission is concerned itself with the manner in which the railroads conduct their business.

There can be no reasonable doubt that the figures submitted to the legislature will stand up under any test that they are put to. Then the practical question will be "what is a fair earning for a railroad?" The legislature will ultimately, if it does justice by all concerned, have to answer this question in accordance with the principles of sound business practice. And that appears to be all the railroads are asking.

CONCERNING ALLIES.

Every shift in the fortunes of the great war has a political as well as a military effect. Every change increases or diminishes the chance of this or that nation, now neutral, joining its fortunes

upper peninsula. Its rural townships are populous and poll no small part of the total vote. Under these circumstances, it appears that if the optionist forces cannot win Chippewa they have but small chance in any other part of the upper peninsula.

When American ships bearing supplies to Germany are lifted out of water by German mines it appears to be a case of Germany hoisted by her own petard.

STATE PRESS

Whenever matters in Mexico get as bad as possible, a change for the worse usually takes effect the next day.

A New York man fell dead when he won a lawsuit after fourteen years of trials. His last words were: "This is so sudden!"—Saginaw News.

Boston boasts of a husband who likens his wife's soulmate to a heavenly being. Around here we have plenty of men who'd soon make an angel of him.—Menominee Herald-Leader.

William Alden Smith, senator from Michigan, calls Democrats "treasury looters." Does the accidental senator remember what became of the \$400,000,000 lent by Cleveland in 1893, which dwindled to a deficit under Harrison in 1893? That there is a deficit, caused by the European war, is a fact, but that there has been any looting is absolutely false.—Hastings Journal-Herald.

Medical.

According to a new regulation Alabama families can import no more than one quart of whisky a month from other states. But what are they going to do in case of ague?—Cleveland Plain Dealer.

EDITORIAL OPINION

Safety First.

After all, and practically speaking, is not the fuss over Germany's well meant warning as to the risks to our merchant ships entering the "war zone" rather a case of much ado about comparatively nothing? She stipulates that the forts will not be used against her, and the Smithsonian news from the solar system has not had a fair chance.—Chicago Tribune.

In defending the rights of non-combatants at sea, it is not necessary to cite British precedents, which German men unreasonably view with a certain resentment and suspicion. It is needful only to go back a few months and recall the actions of a man whom Germany and the world will delight to honor when the kaiser's admiralty is forgotten.—She stipulates that the forts will not be used against her, and the Smithsonian news from the solar system has not had a fair chance.—Chicago Tribune.

On Oct. 28 of last year, the Emden entered the harbor of Penang in the Straits settlements, better known to middle-aged readers as the Malay peninsula. She got away from the harbor by disguising herself as using the British flag—an entirely legitimate stratagem, provided she flew her own colors before opening fire. Having gained the harbor, she riddled the Russian cruiser Jemtchug lying there and steamed away. On her way she fired at a patrol boat, thinking it a destroyer, but missed. The summary of the affair given in a military paper goes on thus:

"Discovering his mistake, the captain lowered a boat and sent an officer aboard an English ship in the station of a gentleman. He took scrupulous care to save the lives of non-combatants. If his lips were not sealed by discipline, it would be interesting to know what Captain von Muller thinks of the proposal to torpedo merchant ships without warning or investigation, even at the risk of sinking neutrals.—Chicago Journal.

All the facts are not at hand concerning the sinking of the two American merchantmen which have gone down during the past few days after contact with mines. There seems to be no doubt, however, that the vessels were virtually trespassers.

This nation must stand ready to protect the rights of its shippers, but it cannot provide them with brains. The only way to protect them is by the destruction of these vessels is the fact that the crews are compelled to suffer the result of the recklessness of the ship owners and masters. They are powerless to protect themselves or to protest against any jeopardizing of their lives and go to their fate like driven cattle, without choice. If anything is done it should be something to protect them rather than the ship owners.—Lansing State Journal.

A Scientific Scoop Falls Flat. It is unusual for the Smithsonian annual report to find itself in the best seller class, but it appears that the latest document of the institute in question has been in extraordinary demand by librarians and professors, so that new editions have had to be ordered.

The report contains several remarkable papers of interest to specialists, and at least one that under most cheerful conditions, would have created joy and deep interest among the plain millions of the world's population. Alas, because of the terrible world war, the general public has not even heard of the scientific scoop.

A professor demonstrates in the annual that the ideas of savants of Spencer, Darwin, Lyall and Huxley's day were all wrong as regards the cooling of the sun and the destruction of the earth with all its wonderful works of civilization. Humanity may settle down to a future of bliss, unless the radiation from the sun is stable; we shall not

PAIGE
"The Standard of Value and Quality"

"I Drive A Paige"

WHEN you hear these words, you will find a satisfied, contented man.

Paige owners don't have to be told that they drive a good car. They know it—they realize it more and more every day.

And they can afford to be contented because Paige Ownership involves no regrets—there are no repair bills or excessive costs of upkeep to take the spirit out of the pure joy of motoring.

The Paige Glenwood "Four-36" costs \$1075. Just that. Not \$1075 plus. And the epoch-making Paige "Six-46"—\$1395.

The Paige-Detroit Motor Car Company Detroit, Michigan

SAMUEL J. MITCHELL Distributor Marquette, Mich.

freeze or starve—except the unemployed of our "civilization." Evolution will go on for immeasurable periods of time, and we may reach dizzy heights; why, even municipal and state governments may be reformed and some efficiency injected into them.

But the scorp fell flat because millions have been wondering whether the so-called human mind is worth anything, whether immeasurable time will do much for it, and whether our civilization is more than a superficial veneer. Of course, pessimism is irrational and impossible. Life is worth living, and work is the best thing in life; but the bitter war has made many temporary pessimists everywhere, and the Smithsonian news from the solar system has not had a fair chance.—Chicago Tribune.

The Precedent of the Emden. In defending the rights of non-combatants at sea, it is not necessary to cite British precedents, which German men unreasonably view with a certain resentment and suspicion. It is needful only to go back a few months and recall the actions of a man whom Germany and the world will delight to honor when the kaiser's admiralty is forgotten.—She stipulates that the forts will not be used against her, and the Smithsonian news from the solar system has not had a fair chance.—Chicago Tribune.

On Oct. 28 of last year, the Emden entered the harbor of Penang in the Straits settlements, better known to middle-aged readers as the Malay peninsula. She got away from the harbor by disguising herself as using the British flag—an entirely legitimate stratagem, provided she flew her own colors before opening fire. Having gained the harbor, she riddled the Russian cruiser Jemtchug lying there and steamed away. On her way she fired at a patrol boat, thinking it a destroyer, but missed. The summary of the affair given in a military paper goes on thus:

"Discovering his mistake, the captain lowered a boat and sent an officer aboard an English ship in the station of a gentleman. He took scrupulous care to save the lives of non-combatants. If his lips were not sealed by discipline, it would be interesting to know what Captain von Muller thinks of the proposal to torpedo merchant ships without warning or investigation, even at the risk of sinking neutrals.—Chicago Journal.

All the facts are not at hand concerning the sinking of the two American merchantmen which have gone down during the past few days after contact with mines. There seems to be no doubt, however, that the vessels were virtually trespassers.

This nation must stand ready to protect the rights of its shippers, but it cannot provide them with brains. The only way to protect them is by the destruction of these vessels is the fact that the crews are compelled to suffer the result of the recklessness of the ship owners and masters. They are powerless to protect themselves or to protest against any jeopardizing of their lives and go to their fate like driven cattle, without choice. If anything is done it should be something to protect them rather than the ship owners.—Lansing State Journal.

putting on his gloves, "you'd better plead guilty and throw yourself on the mercy of the court."

"I'll do it if you say so, sir. What are you going to charge me for the advice?"

"Two dollars."

A Joke From Punch. Here is the last war joke from "Punch."

"McTavish (to convalescent soldier)—"I am hearing ye have a bullet in ye yet. Are ye now gavin to ha'e it ta'en out?"

Soldier—"No the noo, ye see, I'll be gawn back to the front in a wee while, an' when I come back I'll jist ha'e them a'oot together!"

Pardonable Ignorance. The Kansas City Girl—"Don't you have any jitneys here?"

The Cleveland Girl—"What are they?"

The K. C. Girl—"Why, they're 3-cent automobiles."

The Cleveland Girl—"Oh, yes, I know the kind. Our next-door neighbor has one, and they joke him so much about it that he only brings it out after dark."

Cleveland Plain Dealer.

Wild Wagging. A timid little girl stood looking out of the nursery window and asked her mother: "Mother, mother! Here is a wild dog."

"Oh, no, that dog is not wild; he belongs to the man who works across the street, and is a nice dog," she said.

After a moment's thought the child, unaccustomed to dogs, replied: "Well, his head may not be wild, but his tail is awfully wild."—Woman's Home Companion.

Father Was Different. Some time ago a family named Douglas employed a new cook named Belinda. Being a full-blooded African, Belinda was certainly some bructee. One evening just after the lord and master had headed for the cigar store Belinda inquisitively approached her mistress.

"Dat husband ob yoo's, Mrs. Douglas, remarked the colored girl, without apologetic sputters, "he ain't no 'Merican, is he?"

"Oh, no, Belinda," indulgently smiled the mistress, "he is a Scotchman."

"Oh," thoughtfully returned Belinda, "I thought he was somebun' or udah. Could see in a minute, missy, dat he wasn't like us."—Philadelphia Telegraph.

LOWER STATE NOTES

UTICA—William Licht, fifty-six years old, living south of Utica, was instantly killed when his shotgun was accidentally discharged while he was climbing through a fence along a railroad track while hunting. The top of his head was blown off.

SAGINAW—William Schultz was arrested \$25 damage by a jury in the circuit court in a case against Ernest Krumhauer, a police officer. It developed that Krumhauer struck Schultz five times in arresting him, and the jury allowed him \$5 a blow.

BAY CITY—The DePont DeNemours Powder company has started work on a \$50,000 addition to its local plant, for the manufacture of acetone. The work, which is being done by a local contractor, is under the direction of Badger & Sons company, of Boston. Structural steel will be furnished by the McIntire-Marshall company, of Detroit. The plant is to be completed in ninety days.

BAD AXE—After being out eight hours a circuit court jury returned a verdict of not guilty in the case of Dr. M. R. Lyman, charged with causing the death of Ethel McCumber by an illegal operation. Several of the physician's patients testified they say him at his desk during the entire time the prosecution contended the operation was performed.

DETROIT—Wires leading into seven Detroit motion picture theaters were cut by deputies of the state fire marshal's office. Before midnight five of the theaters carried out the instructions of Thomas C. Shafer, deputy state fire marshal, and were permitted to give their shows. There were no performances in two theaters and it is promised that eighteen more will be closed unless the proprietors live up to the rules as laid down by the fire marshal.

BATTLE CREEK—Official announcement has been made that Battle Creek's Y. M. C. A. will close its doors March 1.

Though the association owns a beautiful three-story building on East Main street and only a few years ago was one of the largest associations in the state, finances have become depleted and recently the secretary, C. H. Richmond, resigned and the assistant secretary, Conrad Jongeward, sent word from the west that he would not be back. An effort to interest business people in a financial campaign failed.

GRAND RAPIDS—The coroner's jury in the investigation into the death of the seven men who were killed beneath the walls of the Brown & Schler firm, blamed all officials for not ordering the tottering wall down immediately after the fire. Fire Marshal Lemoy and Building Inspector Davidson were reprimanded for failure to serve written notice ordering the owners to tear down the wall. Contracts Heretz and sons were declared to have committed a "serious error of judgment" in letting workmen labor under the weakened wall.

LANSING—Judge Stewart Hagley, of Detroit, plotted 200 members of the State Association of Grocers and Meat Dealers before the grand jury. This amendment stated their case for the Sunday closing bill and within half an hour had the pleasure of hearing the bill reported out. It was amended to except the Sundays in July and August, when stores may be open until 10 p. m., to serve people wanting ice and milk. This amendment was suggested by the merchants. When the committee unanimously voted to report the bill, as amended, affirmatively, there was loud cheering.

KALAMAZOO—Rev. Caroline Bartlett Crane, of Kalamazoo, converted Dr. W. J. Mayo, famed Minnesota surgeon, to suffragism, he assisted in an address here. "I had never taken any interest in the question until Mrs. Crane visited our home some time ago. She soon convinced Mrs. Mayo and myself that suffragism was about the best thing there is in politics." Dr. Mayo ridiculed the "twilight sleep" idea, which is being advanced by many doctors. He could see no advantage in it. Leakage of the heart, always considered a fatal disease, he said, could be cured by operations in many cases.

PORT HURON—Because a telephone girl at Stratford, Ont., chanced to overhear a description of William Brown, who lived in a shack near St. Clair and was taken to a St. Clair hospital in an unconscious condition last week, when he died later, apparently without relatives or close friends, his body may be claimed by a brother, Tuesday a local undertaker, in whose establishment Brown's body was awaiting a claimant.

The Cleveland Girl—"What are they?"

The K. C. Girl—"Why, they're 3-cent automobiles."

The Cleveland Girl—"Oh, yes, I know the kind. Our next-door neighbor has one, and they joke him so much about it that he only brings it out after dark."

Cleveland Plain Dealer.

Built-in mileage is far better than patched-up adjustments

When you buy Diamond Tires you buy tires that are built to give you the maximum tire service—tires that give you freedom from trouble and relieve you of the necessity of having adjustments made.

This is what a dealer who sold many thousands of Diamond Tires last year has to say about the service they gave the buyers:

"Gentlemen: "Cleveland, Dec. 15, 1914. "The performance of Diamond Tires during the past year has been eminently satisfactory. The claims for adjustment were almost a negligible quantity. On the other hand, we have had a great many voluntary reports as to the excellent service our customers have had from Diamond Tires. We feel that a perfect balance has been worked out in the scientific construction of these tires. The net result is that there appears to be the proper relation between the inside carcass and the outside rubber, so that there is no excess of either. The tire seems to wear out naturally and only after having given a very large mileage. "THE FOREST CITY RUBBER CO. "W. E. Crofut, President."

Similar reports of Diamond service have been received from dealers all over the country. Added to the wonderful Diamond service you can now buy Diamond Squeegee Tread tires at the following "FAIR-LIST" PRICES:

Table with 4 columns: Size, Diamond Squeegee, Size, Diamond Squeegee. Rows include 30 x 3, 30 x 3 1/2, 32 x 3 1/2, 33 x 4.

LAHNALA TESTIFIES IN HIS OWN BEHALF

Boy Accused of Father's Murder Makes Complete Denial of Charges Against Him.

John Lahnala, charged with the murder of his father, August Lahnala, at Oskar Sept. 3, 1914, who has been on trial at Houghton the last two weeks, went on the stand in his own behalf yesterday and offered a complete denial of all the allegations against him.

The case for the defense was opened Wednesday afternoon with the preliminary statement of Attorney W. A. Burritt, but a day intervened because of the illness of three of the jurymen and the actual opening of the defendant's case against the allegations of the people did not take place till yesterday morning.

John Lahnala's Story.

John Lahnala has been described before as about twenty-one years of age, typically Finnish in appearance, blonde, pale, absolutely lacking in anything aggressive. He looked even more colorless and negative yesterday when he took the stand.

In common with most people of his race, though born in Houghton county, the defendant wanted to testify in the tongue of his forefathers. He speaks English fluently, but he would not tell his story on the stand excepting through an interpreter.

In narrative form, the story advanced from the testimony of the young defendant is as follows:

He was born at Oskar, a farming locality of Houghton county, son of August Lahnala, the latter a native of Finland. He attended a country school in the winter for a few terms and can read English. He was taught to read Finnish by his mother.

Up to the age of sixteen John stayed at home and worked on the farm, but he became dissatisfied because his father would not pay him anything for his services, would not give him money with which to buy clothes. He often asked his father for clothes and money, but the father contented himself with insisting to provide them and failing to do so.

John denies that he ever had any actual quarrel with his father about the matter. He threatened to leave home unless he could get some sort of recompense for his labor on the farm, and he finally did so, the father offering no objection.

Boy Seeks His Fortune.

As John says that he left home when he was sixteen years of age, and as that was in 1912 he cannot be more than eighteen of age, though the understanding has been that he is twenty-one. He left in May, 1913, and worked first at Redridge, later at Beacon Hill. He returned home for the buying that year, then went to Minnesota and Dakota for five months. While working in the copper country he visited his home nearly every Sunday. When he returned from Minnesota he lived with his brother Willy at Zurcher's farm. Later he went to live with Willy at Rumley, the latter having purchased a farm there in the spring of 1914.

Denies Stories of Threats.

In the testimony brought out by the people Lahnala was said to have threatened to kill his father or to have indicated an animus by calling his father vile names.

John Zurcher testified that John had threatened to kill his father if the latter corrected his wages at Redridge.

John Zurcher testified he heard John refer to his father with a vile name while John was working for him.

Mrs. Vetriza Lahnala, aunt of the defendant, testified that Mrs. Lahnala, mother of the defendant, had said in substance in the presence of John that the latter had the nerve to kill his father.

John specifically denied all these allegations when questioned by his attorney.

Establishing the Alibi.

Continuing his story, John was brought up to the time of the murder. His testimony was to this effect:

On the day before the murder, Sept. 2, he had been living with his brother Willy at Rumley, but took a job at Sweeney, on the railroad section. Instead of going to work that morning he and other section men got drunk and that night—Friday night, before the murder—he slept outdoors, in the woods between Swanzy and Little Lake. There are a number of these small locations in Marquette and Alger counties, close together.

On arising from his outdoor sleep Saturday morning John walked in to Little Lake and there about noon bought some food in the mill grocery store and put in the afternoon loafing about the location, leaving late in the afternoon by train for Rumley. This was the day of the murder.

John testifies that he arrived in Rumley, Alger county, about 9 o'clock that night, just about the time the murder was committed, and that he slept in the house of his brother Willy.

"Bun" Goodman a Witness.

An interesting witness brought by the defense to testify in the trial is B. J. Goodman of Little Lake, vice president and manager of the Little Lake Lumber company. Mr. Goodman is known all over the iron country and in his own end of the upper peninsula as "Bun" and he has a reputation as a teller of dialect stories.

The defense brought him to identify John Lahnala as a man who purchased in the company's store at Little Lake, on the day of the murder, a box of crackers and a can of sardines.

time and the time was within six minutes of expiration when Bassett made his memorable tally. Bassett had just before this showed one other good quality in a hockey player by engaging in an altercation with Murray, for which both were benched for five minutes. Slocotte and Dietz tried an apparently safe combination about a minute later, but Tallion was impregnable. About this time Cullman went out, hit on the nose by the puck, and Pepin was dropped by the Soo till Cullman came back from the hospital. The Soo's fifth score came three minutes before the game ended.

SEEKS LONG-LOST DAUGHTER.

Mrs. Emma King of L'Anse au Loup, Calumet county, is searching for her missing daughter, who she says disappeared in 1907.

Since then she has not communicated with her relatives, but the mother has been keeping up a continuous search ever since and has never given up hope.

The case came up again in Duluth this week when Mrs. King wrote Chief Troyer, enclosing a photograph of the missing girl. Wherever and whenever Mrs. King hears of any girl whose identity is in doubt she hopes the incident is a clue to her missing daughter and she follows it up.

The case at Duluth was that of a young girl who was knocked down and injured by a runaway team of horses. This girl refused to give her name to the Duluth police. The distracted L'Anse mother read of the case and at once the hope of finding her daughter revived. She hoped that this unidentified girl might be Emma Pickard and she communicated with Duluth police. Her effort proved fruitless, however.

Emma Pickard left L'Anse in 1907 and was supposed to have joined a carnival company in Hancock. She has disappeared as completely as if the earth had opened and swallowed her, but her mother still clings to the hope that the daughter is alive and will come back to her.

SOO SEVEN IS GIVEN BRISK OPPOSITION

Lock City Champions Take Second Match from Portage Lake by Score of 5 to 3.

The Soo hockey team added another victory to its string of triumphs last night by defeating Portage Lake, 5 to 3, in a game played at the Amphidrome. The first period was in the Soo's favor, but Portage Lake showed a reversal of form in the second half and played the visitors to a standstill, keeping the puck on Soo ice three-quarters of the time. Thompsonett of the Soo was injured when he fell, cutting a deep gash in his neck, and is out of the game for the rest of the season.

Thursday Night's Match.

The comparatively few people of Houghton and the country around about who cared to risk six bits or so on the chance of seeing a hockey game at the Amphidrome Thursday night were rewarded. They saw the best game played on this ice since amateur hockey became an institution hereabout. The Soo and Portage Lake were opposed, and the Soo won by a score of 5 to 3, but the Soo had the toughest opposition of its present triumphant season in bringing that score about.

The solitary score that Portage Lake registered against the champions of the Western league was made by Eddie "Bolo" Bassett, a little fellow who has been ambitious to get into a green and white sweater for some seasons, but for some reason or other did not get into the much-desired apparel till late this season. It was Hobson's choice with Manager Grege this season apparently.

In the game against Calumet Tuesday night Bassett played center, and he put up as fine a mid-ice game as has been observed in this territory for some time, measured in hockey seasons. Thursday night the youngster dug in from the first face-off, never letting up in the pursuit of his proud ambition, to score against that Soo team. He did it. He is entitled to a lot of credit. And this credit need not take anything away from his team mates, for if seven young men ever worked hard to attain a little athletic glory the septet making up the Portage Lake hockey team did.

These references seem to make much of a team that suffered defeat, but they grow out of the fact that the team worked just as hard in circumstances predicated of sure defeat as they would have in an even break. Winning the game did not make so much difference; trying to win it did. A hockey game is a contest devoid of arbitrary order, and that of Bassett's score is rather difficult to bestow praise where it is due. For instance, Bill Trathen, point of the Portage Lake team, seldom is mentioned in the reports, because it is not the business of a point to score. But Bill kept on boring in Thursday night, rushed the puck into the Soo territory repeatedly and finally split the glory with Bassett, as it was on a pass from Bill that Bassett got the chance to make this score that is so notable because of its lonesomeness. Bill has been doing things like this all season. This is a tardy recognition of them.

Every member of the team worked hard and well. Ole Haas was back in the game, with an injured foot that would have excluded any athlete from duty. He played the best game of his career. So did Slocotte, Cullman and Haug. Dietz, the new player, was at right wing in place of Exley, who was out of the game on account of illness. Dietz is a fast player, and he knows exactly how to play the right wing position, but it must be admitted that he is ineffective in shooting. However, the defeat of the Portage Lakes goes back to Zeke Tallion, the Soo's wonderful goal milder. With a reasonable ordinary player in the net, the Soo would not have won Thursday night.

No credit is to be taken away from the Soo team. It is a team of stars.

And Now for the Score.

The play was lightning fast for half the first period and in the first ten minutes Tallion repelled an attack that was hair-raising. Then the Soo got to going and Wilson scored on a pass from Godin, sixteen minutes. With seven minutes to play, Thompsonett scored from a wing shot and Coutu scored on a pass from Wilson one minute later. Godin scored the Soo's fourth just before the half ended. Portage Lake, 0.

The Portage Lakes kept up their desperate attack from the face-off in the second half, with the Soo countering just as hard and Tallion and Haug both did great work. It was exciting all the

time and the time was within six minutes of expiration when Bassett made his memorable tally. Bassett had just before this showed one other good quality in a hockey player by engaging in an altercation with Murray, for which both were benched for five minutes. Slocotte and Dietz tried an apparently safe combination about a minute later, but Tallion was impregnable. About this time Cullman went out, hit on the nose by the puck, and Pepin was dropped by the Soo till Cullman came back from the hospital. The Soo's fifth score came three minutes before the game ended.

Since then she has not communicated with her relatives, but the mother has been keeping up a continuous search ever since and has never given up hope.

The case came up again in Duluth this week when Mrs. King wrote Chief Troyer, enclosing a photograph of the missing girl. Wherever and whenever Mrs. King hears of any girl whose identity is in doubt she hopes the incident is a clue to her missing daughter and she follows it up.

The case at Duluth was that of a young girl who was knocked down and injured by a runaway team of horses. This girl refused to give her name to the Duluth police. The distracted L'Anse mother read of the case and at once the hope of finding her daughter revived. She hoped that this unidentified girl might be Emma Pickard and she communicated with Duluth police. Her effort proved fruitless, however.

Emma Pickard left L'Anse in 1907 and was supposed to have joined a carnival company in Hancock. She has disappeared as completely as if the earth had opened and swallowed her, but her mother still clings to the hope that the daughter is alive and will come back to her.

DAN CUSICK'S DOG RACE.

Promoter of Canine Derby at Calumet Asks Court to Adjourn.

Prosecuting Attorney Galbraith reported for duty at the county building at Houghton yesterday morning with a diplomatic mission in addition to his work as prosecutor in the Lahnala murder trial. He had been delegated by Dan Cusick of Calumet, promoter of the annual dog derby, to ask Judge O'Brien to adjourn court so that the judge, jury, bar and spectators might go to Calumet today to take in the races.

The judge was compelled to decline. He said he would do most anything for Dan Cusick, because the latter, having suffered physical disabilities that would have crushed an ordinary man, had by his sunny temperament made a place in the world for himself, but that the Lahnala murder trial is of such importance that only the most extraordinary consideration could compel its adjournment.

KURO TRIAL FOR MARCH 16.

Justice Funkey Will Try Victim of Misplaced Confidence.

Isaac Kuro, victim of misplaced confidence, will be tried March 16 by Justice Funkey on a charge of the larceny of \$67 from a Quincey boarding house. He pleaded not guilty to the charge yesterday morning and was remanded to jail in default of bail.

He is the man who, being in trouble in Ontonagon, betrouth himself of an acquaintance with Undersheriff Helkila of Houghton county and besought the latter's friendly interest, to the extent of asking the latter to pay a fine.

The undersheriff recalled that Ike had been named in a warrant since last September and had made himself scarce. The undersheriff of course helped Isaac to get out of the Ontonagon jail, but only for the purpose of furthering the ends of justice in Houghton county. Isaac was sacrificed, which is something his Biblical namesake escaped.

FOR PAST MASTERS' NIGHT.

Houghton Masonic Lodge Preparing for Big Time Monday.

Worshipful Master Arthur P. Kleener and Secretary James Fisher are making a special effort to make the annual past masters' night of Houghton lodge, F. & A. M., a memorable event. It is to be next Monday night, March 1, and Masons from all over the copper country are expected to attend.

Because of the residence of a large number of members of the lodge in South range towns, a Copper Range special train will be run out of Houghton at 11:35 o'clock, after the meeting, to get these visitors home.

Houghton lodge has had twenty masters in its history. Fifteen of them still are living. The deceased masters were: Thomas N. Lee, Jr., John Q. McKernan, George Fuller, W. M. Stevens, M. J. Whitney, Joseph Mayvorn, John W. Rice, Edward F. Douglas, George W. Quirk and Frank Major.

The surviving past masters are William Condon, William Bath, John H. Roe, F. W. Stoye, Edgar Rashleigh, George Y. Harris, John M. Nelson, G. H. Banks, James Fisher and Henry Gibbs.

Of the living past masters, only William Condon is not now a resident of the copper country.

The program for Monday night includes the conferring of the M. M. degree with all the old masters in the

THE WARMEST FEBRUARY.

First Month of the Name to Be Lacking in Zero Weather.

From Weather Observer Cowdick, of Houghton, it is learned that if February keeps up its present record it will break all February records in the matter of temperature. Thus far it is the first February noted at the office to have no zero weather, in fact it is ten degrees above the average daily temperature for the month. In the past February has had a record—in 1904 and 1914—of twenty-seven below zero.

As the weather has the faculty of adhering pretty closely to the law of compensation, March may be expected to make up for what February has failed to produce in the way of frigidity.

READY FOR FEDERAL BUILDING.

J. L. Owen of Duluth Engineer's Office Visits Superintendent Banks.

J. L. Owen of Duluth, a member of the office staff of Major Peck, in charge of the United States engineer's office, was in Houghton yesterday for the purpose of assisting Superintendent Banks of Portage lake in condemning a lot of old maps and records in his office. They were of an immense mass of old papers that had become obsolete.

Superintendent Banks said that this cleaning out is one of the preliminaries to moving to the federal building which is to be erected in Houghton. It was recalled that the federal site agent when in Houghton this winter declared that the new building would not be available for about six years. Mr. Owen said that this had not been his experience with federal buildings and he believed that as the site had been procured Houghton would see a new building within two years at the most.

DEMISE OF W. J. LIGHT.

Former Manager of Tamarack Co-Operative Store Dies at Mt. Clemens.

Mrs. Edwin Hancock of Hancock was advised Thursday night by wire from Mt. Clemens of the death in that city of her brother, William J. Light, of Sault Ste. Marie, nt. Mr. Light having been in Mt. Clemens for treatment for the malady that caused his end.

The late William J. Light was well known in the copper country, where he had spent his life up to about twelve years ago. He was in the lumber business in the Canadian Soo for the last several years, having left the cop-

per country to engage in that business with the Soo Lumber company in the American Soo, later leaving the concern for his Canadian venture.

During his residence in the copper country Mr. Light was engaged in the mercantile business in Hancock with William Condon, later was in partnership with Edwin Hancock and for some years was manager of the Tamarack Co-Operative company store in Calumet, his last connection in this district. He was sixty-nine years of age.

The deceased is survived by two sisters in the copper country, Mrs. Hanswood of Hancock and Mrs. Courtney of Ontonagon. A son, Dr. Carl J. Light, was with him at the time of his death.

WOULD IGNORE BARAGA COUNTY.

W. S. Prickett Approves All-Houghton County Route to Iron Country.

The plan advanced recently by L. M. Geismar, Houghton county agriculturist, to ignore Baraga county entirely in the attempt to make a highway connection with Iron county, by building an all-Houghton county road south through Alston and Laird to the county line, has met with a warm advocate in W. S. Prickett, the Sidnaw dairyman and land dealer. Mr. Geismar has received the following letter from Mr. Prickett:

"You are on the right track in advocating a road south through Houghton county via Alston. There is now a good road from here to the north side of 48-36 where there is quite a settlement. There is also a good road south from Sidnaw to Perch lake, a passable road from Perch Lake to Atkinson and a good road from Atkinson to Iron River. I do not know much about the road on the south side of 49-36 to Al-

ston but understand there are quite a few farmers along this road.

"Such a road as I have outlined would mean almost an airline between Houghton and Iron River and, taking into consideration the fact that part of it already is built, it would seem to be the most desirable road that Houghton county possibly could figure on in going south. This road would run through the heart of the very best farming lands in the south end of Houghton county and would mean that the only natural outlet for farmers along it would be Houghton and Hancock, from which it would seem to be that the businessmen of Houghton county ought to be very much interested in it."

DETAILS OF THE ROUTE.

Accompanying Mr. Prickett's letter is a large map of the territory the road would traverse. He has marked on it in red ink the existing roads. His data show that it would be necessary to build three miles of entirely new road from Otter Lake to Alston and south of Alston, between there and Sidnaw, about a half mile of new road, for the remainder of the distance through Houghton county, six miles, the road is passable, as it is through Iron county to Iron River.

Mr. Geismar says the lands that would be tapped by this road are the finest farming lands in Houghton county. He says that the existing roads defined by Mr. Prickett are not all modern highways, but they are passable and would serve for a beginning. He suggests that the townships first built such roads as are to be built and collect the state reward, after which the roads could be turned over to the county road commission for maintenance.

KEWEENAW S. S. ASSOCIATION.

Secretary Hyslop Sends Out Preliminary Convention Plans.

Thomas Hyslop, secretary-treasurer of the Keeweenaw Peninsula Sunday School association, has sent to the different Sunday schools in the copper country notices advising them that the annual convention will take place in Hancock next month, the tentative date being March 26. It is also announced that E. K. Mohr, who has assisted in several of these conventions in the past, will be present. Mr. Mohr is now devoting all his time to Sunday school work in the upper peninsula, and his offer to be here the week of March 21 has been accepted.

The association will arrange for district meetings for Mohawk, Calumet, Lake Linden, Pewabic and Trumontain. As the success of these gatherings will depend to a great extent upon the cooperation of the home schools, the request is made that schools use their best efforts to promote the success of the meeting nearest their town.

Plans have been furthered to have large delegations at the annual convention, schools being advised to select delegates those who will derive the most benefit. The delegates will be expected to make brief addresses.

Angus F. Macdonald of Hancock is president of the association. The convention will elect a new vice president this year to succeed Hugh E. Johnson, formerly of Hancock, who is now a resident of the lower peninsula.

KEEP IT HANDY FOR RHEUMATISM.

No use to squirm and wince and try to wear out your Rheumatism. It will wear you out instead. Apply some Sloan's Liniment. Need not rub it in—just let it penetrate all through the affected parts, relieve the soreness and draw the pain. You get ease at once and feel so much better you want to go right out and tell other sufferers about Sloan's. Get a bottle of Sloan's Liniment for 25 cents of any druggist and have it in the house—against Colic, Sore and Swollen Joints, Lambs, Sore and like ailments. Your money back if not satisfied, but a dose gives almost instant relief. Buy a bottle today.

JUDGE BENTLEY'S CONDITION.

George C. Bentley, judge of probate still is in St. Joseph's hospital, Hancock, where he has been for the last three weeks suffering with a serious ailment. His son, Hugh Bentley of Cussons, Minn., who is here, said yesterday that Judge Bentley is showing some improvement. Judge O'Brien of the circuit court is acting as probate judge in Judge Bentley's stead.

400 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Destroying the foundation of the disease and giving the patient strength by building up the constitution. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all druggists. Take Hall's Family Pills for constipation.

Shall the German People Starve?

Officials in Germany anxiously assert that Great Britain's embargo operations will force starvation upon non-combatants in Germany.

To the world at large this contingency presents itself unexpectedly, because German authorities have heretofore denied the possibility of such an extremity.

Can Great Britain Be Isolated?

In retaliation for Britain's course in preventing importations of food from neutral nations into Germany, that country threatens to draw a cordon of submarines and mines around the British Isles and shut them off effectually from the outside world, declaring that starvation is a game which two can play.

Starvation has played an important part in the past in ending wars. How powerful an influence will it have in hastening peace now?

THE LITERARY DIGEST for February 27th, on sale at all news-dealers to-day, contains the most complete and reliable information on this critical situation and mirrors every phase of public opinion respecting it.

With thrilling developments confronting the American people, now, more than ever before, it is necessary to have THE LITERARY DIGEST in your home, because it gives with absolute impartiality, all the details of every phase of the war news. There is no other medium which will give the reader such an all-sided and reliable knowledge.

And it is not only in reporting the news of the war that THE LITERARY DIGEST is incomparable, because the news of every other field of human interest—Science, Politics, Invention, Literature, Art, Music, Drama, Sports—finds admission to its pages and the most important occurrences in these fields are brilliantly described by text and picture.

Buy THE LITERARY DIGEST this week. The issue of February 27th is particularly interesting.

CHILDREN HATE PILLS, CALOMEL AND CASTOR OIL

If Cross, Feverish, Constipated, Give "California Syrup of Figs."

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

100 GUESTS PRESENT.

The faculty of the Northern State Normal school and about one hundred guests last night sat down to the annual faculty dinner, served by the senior and junior students in the domestic science department, under the direction of Miss McCallum, supervisor of that department. The dinner was appetizing and delightful. It was served in cafeteria style. The tables were placed in the dining room of the quarters of the domestic science department and in the corridor adjoining.

Following the dinner, the guests retired to the society rooms on the third floor of the building, where an excellent music program was presented. Informal dancing was then enjoyed.

Called by Death of Father—Marshall Curtis, who has been in Marquette the last year or more in the engineering department of the Lake Superior & Ishpeming railway, was called to New York yesterday afternoon because of the death of his father, who passed away suddenly. Mr. Curtis believes that the attention he must now give to his father's business affairs will necessitate that he return to New York to remain. He will return to Marquette in about two weeks for a short stay.

City Brevities

Today's weather: Generally fair and continued cold. Yesterday's temperatures: Seven a. m., 14 degrees; noon, 18; 7 p. m., 20. Highest, 20 degrees; lowest, 14.

Mr. and Mrs. John J. McCarthy leave this morning for Escanaba.

George Mercer left last night for Chicago, on a several days' business trip.

Miss Ruth Hassenger of Ishpeming, was a Marquette visitor last evening. The Marquette banks will be open tonight, today being South Shore payday.

J. N. Olson, of Ishpeming, was among the business callers in the city yesterday.

W. J. Fax, of Escanaba, spent yesterday in Marquette, attending to business matters.

Mrs. Kate Dudley, of Negaunee, is visiting her daughter, Mrs. Fred Frel, North High street.

Morris Stevenson, teacher in the District schools, arrived in the city last evening to spend the week-end at his home.

Joseph Thoney, of Chicago, has arrived in the city to attend the funeral of his brother, Fred W. Thoney, tomorrow afternoon.

R. F. Birchard, purchasing agent of the Lake Superior Iron & Chemical company, left last night for Munising on a brief business trip.

Percy G. Teeple and party left yesterday afternoon for Mr. Teeple's camp at Au Train lake, where they will spend the week-end.

Mrs. J. E. Burtless left last night for Front Creek, called there because of the illness of her daughter, Lella, who is a teacher in the Trout Creek schools.

The Misses Elvira and Hulga Sandberg of Ishpeming, who have been guests at the home of J. M. Lindstrom, North Fourth street, left last night for their home.

The chorus that is preparing the special music for Good Friday at St. Paul's church will hold a rehearsal at 7:30 o'clock tonight in the Morgan Memorial chapel.

Selden Cray, of this city, was taken ill while in Munising yesterday and is confined to his room at the Beach Inn. Mrs. Cray will leave for Munising this morning to assist in his care.

Funeral services for the late Mrs. Caroline Pelmar will be held this morning at 11:30 o'clock at the home of

George Pelmar, East Michigan street. The body will be taken to Ishpeming for burial in the Ishpeming cemetery.

Forty friends of Mr. and Mrs. William Suttell, West Park street, surprised them at their home last evening. The guests were entertained with dancing, cards and other amusements. An excellent supper was served.

William Robarge, of Dixon, spent yesterday in Marquette.

Inspected Lodges—William J. Johnston, district deputy exalted ruler of the Elks, will arrive home today from the copper country, where he has been conducting the annual inspections of the Hancock and Calumet lodges.

Want Hill Iced—Coasting enthusiasts ask that the hill on North Front street be again prepared for coasting purposes. The thaw last week, followed by the heavy fall of snow, has put a damper on the coasting, and the hill must be iced before it can be used by "bobs."

Will Move to Library—Albert Jackson post of the G. A. R. will move its quarters from the city hall to the Peter White Public Library, as a result of the moving in of the new city engineer and street superintendent. The Commercial club will probably move into the quarters that have been occupied by the veterans, and the new city official will take the Commercial club rooms.

Eight Reels Today—The Marquette Opera House will present an eight-reel matinee this afternoon. The program will include four comedy reels and the twelfth episode of "Zudora," the Thau-houser mystery play. In the evening there will be the usual four reels. A general admission of ten cents will be charged in the afternoon, and the usual admission prices will prevail in the evening. The matinee will start at 2:30 o'clock.

Candidates Are Active—While little interest in the primary election of Wednesday, March 3, has been aroused in Marquette, the candidates seeking the Republican nomination of county school commissioner have been exceptionally active the last few weeks. Commissioner Sterne, of Ishpeming, who is a candidate for renomination, has personally seen many of the voters, and his opponent, Simon Anderson, also of Ishpeming, has been equally active.

Furnace Men Here—The managers of the several plants of the Lake Superior Iron & Chemical company were in Marquette yesterday for a conference with George J. Webster, general manager of the company. Those here were R. W. Durrett, of Newberry; J. S. Edmundson, of Manistique; J. D. Dunn, of Boyne City, and H. B. Webster, of Ashland. The manager of the company's Elks Rapids plant was the only official not in attendance.

May Have Club Rooms—The Arab Pasha of Ahmed Temple may take over the club rooms in the Opera House block that will be vacated by the Marquette lodge of Elks, which today moves into its new temple. The last of the Elks furniture will be installed in the temple today, and everything is in readiness for the dedicatory services tomorrow afternoon at 3:30 o'clock. The time of the dedication has been set half an hour later to permit the entire membership to attend the funeral of the late Fred W. Thoney.

Special Delft Program—The Delft theatre will offer eight reels at its matinee this afternoon at 2:30 o'clock. The program will include: "The Lieutenant Governor," a two-reel Essanay drama, with Ruth Stonehouse, Lester Cuneo and John Cassar; "The House of Silence," a Biograph drama; and "Who's Who in Hogg's Hollow," a Vitagraph comedy. In addition, four other reels will be shown. Ten cents will be the general admission price in the afternoon. There will be three shows in the evening. Tuesday the Delft will show a special Paramount feature, "Marta of the Lowlands," with Mme. Bertha Kalich in the title role.

Our Weekly Chat

Spring, with its blossoms and fragrance, its flowers and sunshine, will soon be with us. We shall want lighter things to wear then.

How many of you even suspect that some of these things are already to be seen in our store?

They really are here. And they are so far above what we have shown in previous years that you will wonder as much at their beauty as you will at our forehandfulness in providing them just a little before the time you actually need them.

From day to day these spring stocks broaden, just as your knowledge of the new styles will broaden if you stop in occasionally to see them.

Very truly,

R. S. Dutton

YOUR LATER YEARS

HAVE you thought of them? How will it be with you when you've passed the meridian of life?

Guard against the time when age cuts down your earning capacity—or when reverses might step in to rob your life of much of its sweetness. Be provident and your savings will make you independent—comfortable.

Prepare for your future and the welfare of those dependent upon you. Preserve the respect and confidence of others by living with a purpose!

Deposit your funds here, where you're assured safety and strength, conscientious service and attention.

RULING LOOKS TO INCREASED SAFETY

Storm Shutters and Doors Must Now Be Provided on All Lake Vessels.

Interpretation of the requirements of the federal government in the matter of material to be used in construction of storm shutters and doors for all vessels on the Great Lakes is given in a letter signed by Capt. C. H. Westcott, supervising inspector of the eighth district, and Capt. N. B. Nelson, supervising inspector of the ninth district. Vessel owners had sought an explanation and an inquiry was made by the local inspectors of steam vessels at Detroit. In part the communication of the supervising inspectors follows:

"Referring to storm doors and shutters for windows, made from one-inch pine or other woods and commercially known as two inches thick, made of two-inch material though slightly thinner in the finished product, may be accepted.

"The same ruling will apply to doors required by the rule to include in thickness, which means and should be interpreted as requiring doors commercially known as two inches thick, made of two-inch material though slightly thinner in the finished product. Panels thinner than the frame of the doors should not be accepted.

"The regulation requiring use of storm doors and shutters was added to the general rules and regulations of the board of supervising inspectors at the board's meeting in January, 1914. It forms part of section 1, Rule XI, and reads as follows:

"Steamers navigating the waters of the Great Lakes and so constructed as having deckhouses on the main or spar deck and exposed to the sea, shall be provided with storm shutters for the windows, and where the doors of such deckhouses are not constructed of steel or iron plate, or of wood having a thickness of not less than two inches, the doors shall be provided with storm doors or shutters. Provided, that where the boiler house is located on the main or spar deck and exposed to the sea, an avenue of escape shall be provided up through the top of the boiler house with the necessary ladders and scuttles, thereby enabling the boiler house doors to be kept closed during heavy weather.

"The rule is construed to apply not only to freight steamers but to passenger steamers of the propeller type, covering across lake routes.

Sunday at the Churches

First Methodist Episcopal.

The pastor will deliver the second in a series of Sunday morning Lenten sermons on the central theme, "Memorable Scenes and Sayings of Jesus," tomorrow morning at 10 o'clock. The subject, "The Fire Divine and the Presence of Christ," in the evening, the pastor will deliver the second in a series of sermons on "Good Cheer Messages," the specific subject being, "The A B C of Christian Life and Experience." The second of a series of love-feast will be conducted by the Rev. Dr. C. A. Japoles, assisted by several laymen. This meeting will commence at 10 o'clock. Wide-awake boys and girls, young men and women, will greatly enjoy and profit by the religious instruction received in the Bible school, which commences at 9:45. An interesting and instructive time awaits those who attend the Epworth league devotional meeting at 6:45 p. m. Miss Viola Pearce will give an illustrated talk on "The Changing East." President Kaye will be the principal speaker at the monthly meeting of the Methodist Men's Brotherhood, next Monday evening. A class meeting is held on Tuesday evening at 7:30 o'clock, and on Thursday evening at 7:30 o'clock. An encouraging interest has been manifested in the public service and a generous welcome awaits all who attend.

First Baptist.

The Sunday school session will henceforth begin promptly at 9:45 a. m., and the introductory exercises will be diversified with short, pointed, and interesting stories of incidents in the varied life of different mission fields. Be on time, if you want to hear these stories. You will find classes of all grades. The Bible class meets at the pastor's study. Morning worship at 11 a. m., when a brief discourse adapted to the children will be given, and to this service both young and old are invited. Junior Baptist Young People's union at 3 p. m., and Senior Baptist Young People's union at 6:45 p. m. Evening service at 7:30 o'clock, with sermon on "Lifted and Lifting." Midweek prayer service Thursday evening at 7:30 o'clock. At this service the pastor will give an extended talk on "Distinctive Baptist Principles," which every member of the church should hear, but more especially the younger members. The public is cordially invited to all these services.

German Lutheran.

Services will be held Sunday at 10 a. m. Sunday school at 11:15. Our regular Lenten services will take place Wednesday evening at 7:30 o'clock.

St. Paul's Episcopal.

Children's service and Sunday school at 9:45 a. m.; morning prayer and ser-

The Young People's Bible Study class will meet Tuesday evening at 7:45 o'clock. Devotional service and prayer meeting Wednesday evening at 7:45. The Ladies' society will meet Friday afternoon at 2:30 o'clock in the church parlors.

First Church of Christ, Scientist.

Services will be held Sunday at 11 o'clock. Subject, "Christ Jesus."

AVERS HE GOT \$450,000 FOR TEN MONTHS' WORK

Former Chairman, Testifying at Quiz of Rock Island, Says He Was Asked to Resign.

Washington, Feb. 26.—L. F. Loece, chairman of the executive committee of the Chicago, Rock Island & Pacific railway company, and of the Frisco system for ten months in 1904, testified before the interstate commerce commission today in the investigation of the financial affairs of the Rock Island during the regime of the Reid-Leeds-Moore group, in control of the railroad from 1901 to 1914.

Mr. Loece said he had been guaranteed \$300,000 by Mr. Leeds when he left the presidency of the Baltimore & Ohio to take the new position. This was in addition to the annual salary of \$87,500 he received from the Rock Island and a similar sum from the Frisco. At the end of ten months Mr. Reid asked him to resign, the witness said, saying that the directors faced the necessity of sustaining his actions and losing the services of several other officials, or of parting with his services. Mr. Loece said he resigned, and in settlement of his agreement with Mr. Leeds received \$450,000 in Rock Island railway bonds.

R. A. Jackson, general counsel for the Rock Island from 1902 to 1910 also told the commission he had been asked to resign by Mr. Reid and had no knowledge of why. While he had no agreement, he said, he had received \$100,000.

"Didn't you think it strange that Mr. Reid, your lifelong friend, should ask you to resign a \$50,000 position?" asked Chief Counsel Folk of the commission.

"I did not speculate on that and am not lying awake nights worrying over the mystery," the witness said.

PRESIDENT WON'T CALL EXTRA SESSION, IS BELIEF

Washington, Feb. 26.—Administration senators tonight were inclined to doubt that President Wilson would call an extra session of the senate after March 4 to consider the Colombian indemnity and the Nicaragua canal right treaties, or for any other purpose. The president and his cabinet discussed the advisability of such action, but so far as is known no decision was reached.

Upper Peninsula

Erdlitz Elected Chairman.

Frank Erdlitz was elected chairman of Menominee's charter commission at the first formal meeting of that body. The next session will be on March 5. Michael J. Dolye, who was appearing before the pardon board, was the only member of the commission not present. The names of Mr. Doyle, Mr. Erdlitz and C. A. Spies were put into nomination for chairman. An informal vote showed: Erdlitz, 7; Doyle, 2; Spies, 1.

Rector Reuses a Call to Pontiac.

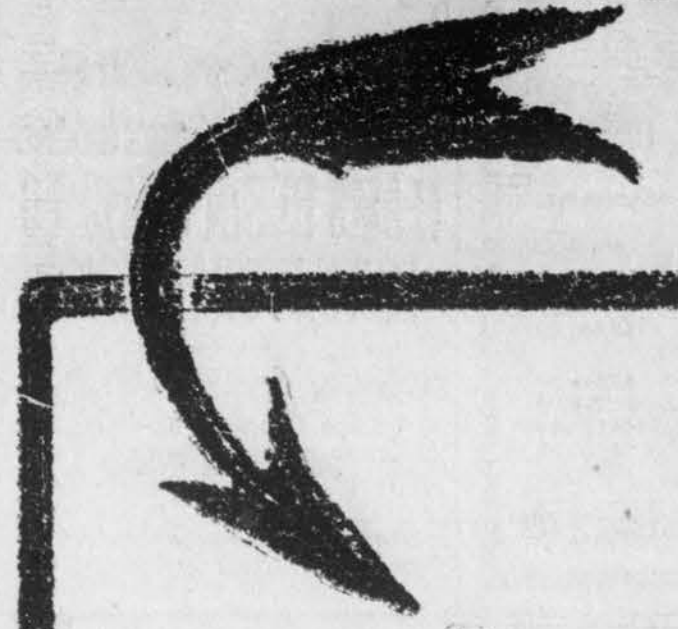

The members of Christ church, Episcopal, of Calumet, are highly pleased with the announcement that Rev. J. A. TenBroeck, the rector, has decided not to accept the call to the pastorate of the church of Pontiac, Mich. Rev. Mr. TenBroeck had considered the invitation to accept the Pontiac pastorate for several weeks, and finally decided to remain in Calumet, although the offer made to him was a fine one. Rev. Mr. TenBroeck's long connection with the Christ's Episcopal church has been most successful and his many friends are pleased that he is to continue with it.

To Take Pictures of Dog Derby.

Red Jacket's annual dog derby, "Pop Corn Dan" Cusick, manager, has become a classic. Its bid for renown has at last won the attention of moving picture producers, and the record of the big event planned for today will be preserved in pictures. Manager Kenneth Voght of the Grand Theater recently called the attention of the Hearst-Sells company to the desirability of procuring pictures of this race, and he has received the following letter, which is self-explanatory: "We thank you for your favor and have made a note of the dog derby to be held on the 27th, which we will be pleased to cover." Arrangements have been made to police the course in a much better manner than ever before. In addition to the officers of the village of Red Jacket, the special police of the C. & H. Mining company have volunteered their services and the members of the Red Jacket fire department will assist. There are more than twenty live entries for the race. The value of the prizes exceeds \$250.

No Owner for \$300

At the Lumberman's National bank, Menominee, there is \$300, with interest added, apparently minus any owner. The money was deposited nineteen years ago by William Somerville, under the name of judge of probate. Mr. Somerville, who retired as probate judge some time later, died in 1904, and all hope of tracing the ownership of the money through him ended at that time. A notice from a bank examiner at Washington brought John Stiles, the first trustee of the fatherless deposit. It is thought that the money may have been deposited by Judge Somerville for some guardian, and that latter the guardian may have died either prior to or shortly after the death of Mr. Somerville and the heirs of the estate

Nineteen games are on the schedule of the University of Wisconsin baseball team. The team meets nearly all the conference nine and besides has games with Notre Dame and other institutions.

ALLAN LINE STEAMER, CRUSHED IN ICE JAM, SAVED BY U. S. CUTTER

St. Johns, Newfoundland, Feb. 26.—The Allan line steamer Mongolian, reported leaking badly with two hundred passengers aboard, was heading for Halifax, N. S., tonight, convoyed by the United States coast guard cutter Seneca. An encounter with ice is believed to have forced the liner to turn back from a voyage from Philadelphia and St. Johns and Glasgow. All the passengers were taken on at this port. A wireless from the Mongolian tonight said that all was well on board.

KEEP YOUR CHILDREN STRONG

Some children catch one ailment after another, have colds after colds, while other children are seldom sick. If your children are pale or frail, if they catch colds easily, lack ambition or are backward in school, they need SCOTT'S EMULSION which is rich in the food elements to create good blood to strengthen their bodies and brains—SCOTT'S EMULSION is free from alcohol or habit forming drugs. CHILDREN RELISH IT. REFUSE SUBSTITUTES.

Ishpeming Department

(Ishpeming News Continued on Page 7.)

TEAMS BEGIN MATCHES FOR U.P. CHAMPIONSHIP

Ishpeming, Crystal Falls and Marquette Winners of Opening Basketball Games.

Ishpeming, Marquette and Crystal Falls were the victorious teams in the opening games of the upper peninsula basketball tournament in the gymnasium of the Ishpeming Y. M. C. A. last evening. Ishpeming won from L'Anse, 42 to 10; Marquette from Menominee, 22 to 21, and Crystal Falls from Negaunee, 29 to 17. The games were witnessed by a crowd of spectators that filled the gymnasium to overflowing. The Crystal Falls boys exhibited last team work and were remarkably quick on the floor, their work being the clearest of all the teams that participated. The Marquette-Menominee game was the thriller of the evening, Marquette obtaining the winning point on a free throw by "Bill" Morrison after time had been called.

Negaunee-Crystal Falls.
The tournament opened with the Negaunee-Crystal Falls game. The Menominee range team held the Negaunee boys throughout, the score having been 13 to 7 at the close of the first half. Collins and Frederickson were the stars of the Negaunee squad, and Bjork and the Bowden brothers were the leading players in the Crystal Falls lineup. The points made by each of the players follow:
Negaunee—Collins, center, 11; Frederickson, forward, 4; Sumi, forward, 2; Willman, forward, 0; Doyle, guard, 2; Hawke, guard, 0.
Crystal Falls—Bjork, center, 21; Carlson, forward, 2; C. Bowden, forward, 2; Soderman, guard, 4; J. Bowden, forward, 0.

Marquette-Menominee.
Sonnenberg, guard of the Marquette team, opened the game with Menominee with a clean shot for a goal, two-thirds the length of the gymnasium. Marquette was in the lead at the close of the half, 16 to 10. During the last few seconds of play the score was 21 to 19 for Marquette. A Menominee man threw a quick basket, and a second later the whistle for a foul blew, but in the excitement it was unheard by the players. When time was called for the close of the contest, the referee gave the Marquette team the opportunity for the free throw it should have had. Morrison, who had missed every free throw during the latter half, tightened up and made a clean throw, giving Marquette the game by one point. It was the most exciting contest yet had ever been seen on the Ishpeming floor.

The lineups and the points made by each man follow:
Marquette—L. Morrison, forward, 11; W. Morrison, forward, 5; Maline, center, 0; Sonnenberg, guard, 2; St. John, guard, 1.
Menominee—Jernquist, forward, 1; Erdlitz, forward, 0; DeBree, center, 9; O'Connor, guard, 2; Teisler, guard, 0.
Ishpeming-L'Anse.
Although the score does not indicate it, the Ishpeming team did not have an easy time with the L'Anse quintet. The diminutive height of the L'Anse players and their exceedingly light weight were their handicap, for in team work and fast floor playing they were fully superior to the Ishpeming squad. Ishpeming led, 28 to 7, at the end of the first half, and held the lead at the close, 42 to 10.

Urgent of the Ishpeming lineup, was the star of the game. In addition to scoring fourteen points, his general work showed up to advantage, and he displayed remarkable quickness.
The scores made by each of the players follow:
Ishpeming—Smedberg, center, 10; Urgent, forward, 14; Magnuson, forward, 14; Hendrickson, guard, 0; Gustafson, guard, 4.
L'Anse—Tollefson, center, 0; McKindling, forward, 2; R. Sanregret, forward, 4; L. Sanregret, guard, 4; Trudeau, guard, 0.

This afternoon the Marquette and Crystal Falls teams will play, and the Ishpeming squad will play Republic. Tonight the winners of the afternoon matches will play for the upper peninsula championship. In addition to this game, the losers in the afternoon game will compete in an exhibition contest.

Seven Teams in Attendance.
Seven of the eight teams that were entered are competing at the Y. M. C. A. for the upper peninsula high school basketball championship. The teaming team withdrew yesterday on account of the illness of one of its players. The other teams are those of the Menominee, L'Anse, Negaunee, Crystal Falls, Marquette, Republic and Ishpeming schools. Most of the boys arrived in the city yesterday morning. They are being entertained by citizens.

The players in the different squads were registered at the Y. M. C. A. as follows:
Menominee—Richard Erdlitz, Alfred Teichler, Ralph Jernquist, Frank O'Connor, Roy DuBree and Henry Byrns, with C. R. Hedgecock as coach.
L'Anse—Rowland Sanregret, Leo Sanregret, Lester Trudeau, Leo Tallefer, Gerald McKindling, LeRoy Clynne, with Ed Sanregret as coach.
Negaunee—William Collins, Duncan Simm, J. Frederickson, William Hawke, William Bath, Everett Doyle, John Stark, Arthur Heiser, Morgan Quinn, Franklin Millman, and Thomas Collins, with Professor Smith as coach.
Crystal Falls—Carl Bjork, Dewey Bjork, Edwin Carlson, James Bowden, Chester Bowden, Harold Richards, Emil Soderman, and R. A. Coombe as coach.
Marquette—Leonard Morrison, William Morrison, Maline, Sonnenberg, Veirling, St. John and Cushman as coach.
Republic—Earl Peterson, Eugene Tornberg, LeRoy Geach, Emil Isaacson, Wilbur Pascoe and Fred Collister.

Ishpeming—Clifford Gustafson, Ted Magnuson, Dewey Urgent, Rusoia Hendrickson, Dave Smedberg, Ed Olds, and L. O. Cant as coach.
Three games were played last night. There will be three this afternoon, commencing at 2:30, and the final game will be played this evening.

WILLIAM ST. JOHN CANDIDATE FOR JUDGE

Clerk of Municipal Court Will Oppose Judge West for Republican Nomination.

Will St. John, who has been clerk of the municipal court since it was established, is a candidate for judge on the Republican ticket, in opposition to Judge West, who will seek reelection. Mr. St. John was urged to become a candidate three years ago, but he declined to do so. He is familiar with the duties of the office, and is well liked. Mr. West, who has filled the office satisfactorily, feels that he is entitled to another term. The contest for a municipal judge promises to be a lively one, as both men have friends who will work hard in their interest.

Dr. E. G. Robbins has been discussed as a possible candidate for mayor, but he said yesterday that he was not to be considered a candidate.
Much interest has been aroused in the election during the past two or three days. There promises to be many candidates. The leaders of the People's party have not yet announced that they will put a ticket in the field, but it is assumed that they will have a full slate of candidates.

At the election Wednesday the taxpayers who wish to vote on the sewer bonding proposition will have to cast their ballots before 5 o'clock. The polls will remain open for the primary election until 8 o'clock.

Watch our sewing week specials, March 1 through March 6. J. SELLWOOD & CO.

ISHPEMING IN BRIEF.
Albert Melka has left for Denver, Colo., where he will accept a position.
The city road plow was used yesterday for the first time this winter on the roads in the outlying districts.
The Ishpeming hockey team will play the Marquette team at the municipal rink here Sunday afternoon at 2:30 o'clock.

E. R. Nelson, who some time ago accepted the agency for the Overland automobiles, expects to receive a demonstration car within a few days.
Mrs. R. A. Burke of Dirite, formerly of Ishpeming, will sing a solo at the Y. M. C. A. Minstrel club's charity concert next Thursday evening in the "Y" gymnasium.

A. C. Harrington, manager of the Marquette County Gas & Electric company, who has been in Chicago the last few days, on business, is expected home this morning.
The members of the women's guild of the Y. M. C. A. will conduct a pantry sale this morning between 9 and 12 o'clock in Tillson's drug store. Hot pasties will be sold.
Bernard Eger and Hubert Jarvis will leave this afternoon for Toledo, O., where they will take a two months' course in automobile work in the Overland company's factory.

O. Lafreniere, whose place of business was robbed by two boys a week ago Thursday, has recovered part of the money and is in hopes of getting the remainder. Mr. Lafreniere says he has a good case and will resort to court proceedings if his money is not forthcoming within a reasonable time.
Frank Grenfell and Miss Olive Carlson, both well-known young people of Ishpeming, were united in marriage Thursday evening at the home of the bride's parents, Mr. and Mrs. Peter Carlson, on York street. Rev. N. C. Karr, pastor of the First Methodist Episcopal church, performed the ceremony, in the presence of a number of friends of the couple.

At the Firsides club's meeting tomorrow afternoon at 3:30 o'clock in the

Catarrh of the Head

"Peruna Cured me In Six Weeks."

5,000,000 People In This Country Have Catarrh.

Mr. Tom E. Dady, No. 3, Manhattan St., Rochester, N. Y., writes: "I was troubled with catarrh of the head for many years before I paid much attention to it, but a few months ago I was so annoyed by headaches and difficulty in breathing through my nose, and my eyes smarted and looked so inflamed that I felt I must do something to relieve this state of affairs."
"I noticed one of your ads. in the paper, and then and there decided to try Peruna. I am pleased to say that it came up to all my expectations, for in six weeks it had driven the catarrh out of my system and I have not been troubled since."
Mrs. A. J. Tompan, 1122 Wyoming St., San Antonio, Texas, writes: "I suffered over nine years with catarrh of the head, nose and ears. Five bottles of Peruna have restored me my health."

Y. M. C. A. building, Edgar Swanson will present a report on the boys' conference held last week in Calumet, and there will be singing by the "Y" quartet, composed of F. C. Bennett, E. J. Townsend, Charles Hawes and R. J. Wise; a piano solo by Miss Merle Watters, and a piano duet by the Misses Hazel Smith and Audrey Viscott.

SUNDAY AT METHODIST CHURCH.

At 9 o'clock tomorrow morning, the men's class will meet in the First Methodist Episcopal church; at the 10:30 o'clock service Rev. N. C. Karr, the pastor, will preach on "Belonging to one Kingdom." The Sunday school classes will meet at 2 o'clock, and the Epworth league at six, the topic to be "Winsome to Win Social." The league leaders will be Rev. N. C. Karr and Sidney Rose. "Echoes of the Boys' Conference at Calumet" will be given by Thomas Williams and Leslie Bettison. At the 7 o'clock service there will be a music program by the choir.

BUTTE UNION WAS MILKED TO FINISH

Federation of Miners Sought to Secure Its Property, When It Pulled Out.

Former Ishpeming members of the Western Federation of Miners, from whom Charles H. Moyer, president, and his associates recently tried to get their real estate and bank balance, will be interested to learn how the members of the Miners union in Butte, Mont., fared. The Federation, according to a Butte report, sought to force that city what it attempted to do here.
The union, as did the Ishpeming union, fought the Federation in the courts, and was successful. It was shown that in about eighteen months the Butte miners' union paid into the Federation, in per capita tax assessments levied and donations, a sum in excess of \$1,000,000. Between July 1, 1913, and July 1, 1914, the union paid in assessments, donations and per capita \$138,925.60, and from Jan. 1, 1914, to June 15 of the same year it paid \$78,550.

The officers of the Butte union showed that they were not themselves permitted to send money to places where the Federation officers said it was needed, and thus had no assurance that the money ever reached the members who were in need. The Butte miners were among the heaviest contributors to the striking workmen of the copper country.
The Butte union charged that Moyer, Guy E. Miller, Ed O'Brien, John C. Lowney and Charles Mahoney had conspired and confederated themselves together with other members of the alleged and pretended board of the Western Federation of Miners for the purpose of plundering the Butte union and getting the property and funds of the organization.
The Butte union was the strongest branch of the Federation. It was always a liberal contributor to strikers in other districts, as its members earned better wages than the workmen in most other camps. It is said that there were times during the copper country strike when the members were assessed as high as \$5 a month, in addition to their regular dues and other union expenses.

Sewing week at Sellwood's, Monday, March 1, through Saturday, March 6. (2-26-21)

BOWLING SCORES.

Team No. 8 defeated team No. 1 in last night's match at the Empire bowling alleys. The scores follow:

| Team No. 8 | Total |
|----------------|------------------|
| Thompson | 173 211 187 571 |
| Johnson | 155 169 499 |
| Peterson | 181 134 172 487 |
| | 529 500 528 1557 |
| Team No. 1 | Total |
| Gelan | 148 153 168 469 |
| W. Hendrickson | 205 180 123 508 |
| Andrews | 115 176 126 417 |
| | 468 509 417 1394 |

Tonight the Cleveland Cliffs and Ishpeming city team No. 1 will meet in a special match on alleys 1 and 2. City team No. 2 will bowl the Negaunee city team on alleys 3 and 4. Both matches will begin at 9 o'clock.

See our meat price list in this issue. We handle the best meats. Our prices are always low. F. Braastad & Co. "ELAINE" TODAY.

The fourth episode of "The Exploits of Elaine," which was shown last evening at Ishpeming theater, will be repeated at the eight-reel matinee this afternoon at 2:30 o'clock. This serial is regarded by many as being equal to "The Million Dollar Mystery," the final episode of which will be shown next Tuesday afternoon and evening. The matinee program today will be an exceptionally strong one, including an Essanay two-reel feature, "The Place, the Time and the Man," "The Rival Stage Lines," a Selig western comedy, "The Girl of the Open Road," an Edison drama, "The Way Back," Biograph drama, an "Sophie's Fatal Wedding," an Essanay western comedy, Turno and Turno, the vaudeville performers, present a novel act.

PROMPT ACTION WILL STOP YOUR COUGH.

When you first catch a cold (often indicated by a sneeze or cough), break it up at once. The idea that "it does not matter" often leads to serious complications. The remedy which immediately and easily penetrates the lining of the throat is the kind demanded. Dr. King's New Discovery soothes the irritation, loosens the phlegm. You feel better at once. "It seemed to reach the very spot of my cough" is one of many honest testimonials. 50c. at your Druggist.

AFTER MANY YEARS.

MANY ACTORS AT FRONT.

Berlin, Feb. 10.—(Correspondence of the Associated Press.)—The large number of actors now in the field for Germany is indicated by a recently remark of the emperor while on one of his flying trips to Berlin. Bent on a visit to a staff physician, Dr. von Iberg, his majesty encountered a well-known playwright and Gustav Kadelburg, the actor. Summoning them to him, he announced that many others of their profession were at the front, including two famous actors who have received the Iron Cross. "I am very well satisfied with them," the kaiser declared. "They fight very well indeed."

BAKERS ASK NO INCREASE

While Prices Have Risen in Other Parts of the Country the Last Few Weeks, Marquette Concerns Have Not Decided on Higher Prices for Products.

Marquette Representative of Milling Company Presents Figures Showing Relative Cost of Wheat and Other Grain Products, Prepared by an Expert.

While increases in prices have been announced by bakers in various parts of the country, the bakers in this city are asking no more for their products now than formerly.

Flour is now costing the bakers nearly \$10 a barrel. Home consumers are paying \$1.15 for twenty-five pounds of retail. The commodity has reached one of the very highest stages attained in a long period of years.

Since the advance in wheat prices, women's clubs in the various parts of the country have been considering various substitutes for white flour, and there have appeared in periodicals articles purporting to show that bran and rye are excellent and cheaper.

Expert Opinion.

The milling company has obtained the opinion of Dr. Hutchinson, a noted authority, relative to the food value of the various substitutes that have been proposed since the increase in flour has been made, and it presents it as follows: "Rye—The composition of the different flours derived from rye varies very considerably with the fineness of milling; but fine rye flour is much poorer in protein than flour of a similar grade produced from wheat. Fine rye bread is therefore poorer in building material than wheat bread, but it is somewhat superior in this respect to bread made from maize. The digestibility of fine rye bread is about equal to that of good wheat bread, but the coarse varieties, especially pumpernickel, are very wasteful foods, 32 per cent. of the protein even in moderately fine rye bread being lost, as compared with 20 per cent. in white bread. In the case of pumpernickel the loss rises to 42 per cent."

"Corn—Corn has about the same food value as a winter or soft wheat flour, which figures from \$1.25 to \$1.50 per barrel actually lower in nutrition than spring wheat flour."

"Raisins—Raisins show only 2.6 per cent. protein against 12 per cent. in spring wheat flour, and on a whole, considering their nutritive value, must be counted as a luxury."

"Molasses—Molasses is mostly sugar in different forms and water."

"Bran—In the last year or two bran has come into considerable prominence owing to the fact that it is of great value in the diet of persons afflicted with chronic constipation and indigestion, but the object of its use is to form bulk in the stomach and intestines, and is not regarded valuable as a nutrient, owing to the high proportion of cellulose of a wood character which prevents the proper absorption of the food constituents."

"It will be seen from this that flour

even at \$10 a barrel is still the cheapest food, and the substitutes suggested by the club women will in many cases not cheapen the cost per pound, and when it does, it will do so at the expense of the nutritive value."

WILL MAKE CHANGE. Street Car Tickets May Now Be Purchased from Conductors.

The announcement of the Marquette City & Presque Isle railway that street car tickets may now be purchased from the conductors on the cars will meet with the general approval of the traveling public. The tickets, which sell for twenty-five cents, and, heretofore, had been obtainable only at the office of the company. The selling of tickets, it is expected, will eliminate the making of change frequently, and will save considerable time, especially on the run from Presque Isle to Hewitt avenue, on which but one operator is employed.

Within the next few weeks fare boxes will be installed on all cars. These will be placed at convenient points in the front vestibules, and passengers will deposit their tickets or coin in the receptacles. Each fare box will be in full view of the operator of the car. It is nearly two months since the "pay-as-you-enter" system went into effect on the Marquette cars, and it is gradually winning the favor of the public.

SEVERAL LODGES TO BE REPRESENTED

Dedication of Marquette Elks' Temple Takes Place Tomorrow Afternoon.

Members of the Ishpeming and Negaunee lodges of Elks, in addition to the Munising lodge, who are affiliated with Marquette lodge, and several members of the order from the copper country, will be in Marquette tomorrow to attend the dedication service of the Marquette Elks' temple. The services will begin at 3:30 o'clock, instead of 3 o'clock, as previously was announced, in order that all members of the fraternity may attend the funeral of the late brother Fred W. Thomey, which will be held from St. Paul's Episcopal church to Park cemetery at 2:30 o'clock.

The Ishpeming and Negaunee Elks will come to Marquette in a body, arriving here at 2:45 o'clock. There will be at least 150 of the up-the-road members here. The Munising delegation will arrive here Sunday morning.

The dedicatory address, as has been announced, will be delivered by Myron J. Sherwood, Joseph Fay, chairman of the building committee, will present to the lodge the keys to the building. The lodge officers will formally open the temple.

At the conclusion of the ceremonies, refreshments will be served in the club rooms. Invitations to attend the dedication have been sent out to every Elks' lodge in the state, and the committee has been informed that several of the lower state members will be here.

The last of the temple furniture was received yesterday and has been installed.

WRITES HERE FROM TIEN TSIN, CHINA

Ed Knapp, of This City, Is Now With United States Army in That Country.

Ed Knapp, of this city, who is now with Co. L, Fifteenth infantry, United States army, in Tientsin, China, writes to relatives in Marquette relative to the country and surroundings, under date of Jan. 27.

"I have just arrived from Peking," he says, "having been there on a five days' leave. I certainly enjoyed the trip, in spite of the intense cold. I visited a number of the temples, and also saw the building that was in the United States at the World's Fair. Two of the temples I saw are said to be so ancient that they cannot be traced in Chinese history. The interiors were interesting, and many of the inscriptions and engravings were wonderful. Four Chinese soldiers escorted me through the temples, and they did not leave my side until I was out of the buildings. "On the third day I took a junk, and journeyed a considerable distance along the great Chinese wall. The wall has decayed to such an extent that portions of it are falling away. Large sections of the wall fell years back and have been completely covered by sand. Sandstorms occur frequently, and are of great force. The wall extends from Peking to the sea and thence to Shanhai, which has now grown to be the most up-to-date city in China. "The absence of streets in the Chinese cities was one of the first things I noticed. All public ways are known as roads. The coast cities are largely made up of concessions to the people of the various nationalities. The trip was one of the most interesting I have ever taken."

MARQUETTE GIRLS AGAIN VICTORIOUS

Won Basketball Game from Negaunee School Team Last Night, 27 to 13.

By defeating the Negaunee girls' team last night at Fraternity Hall, the girls' basketball squad of the Marquette High school places itself in the lead among the girls' teams of this part of the upper peninsula. It was its second victory from the Negaunee team, and was won by the score of 27 to 13. There was a large assemblage present to witness the contest, and the efforts of the players were cheered enthusiastically by the rooters of both contingents.

Miss Beulah Pratt, forward of the Marquette five, carries away the honors, with eight field goals and two free throws to her credit, a total of eighteen points. Miss Rydholm, the other forward, scored four goals and one free throw, the other nine points made by the Marquette players. Owing to the effective work of the Marquette centers, the ball was in the Marquette territory the greater part of the time. However, this does not signify that the Negaunee girls were at all inactive. They fought desperately until the last minute of play. She

The other members of the Marquette team were Dolcie Bergen, jumping center; Agnes Brall, side center; Ruth Bielenberg and Marie Harkin, guards. Miss McDonald, of the Negaunee line-up, led in the number of points scored by the members of that team. She threw two goals and scored five free throws, a total of nine points. Miss Bellstrom, the other forward, scored two field goals.

The other members of the Negaunee team were: Crane, jumping center; Dwyer, side center; DeFries, side center; Johnson, Connors and Gaffney, guards. Miss Grace Stafford, director of physical training at the Northern State Normal school, was the referee of the contest.

WON BY THREE PINS.

Northwesterns Victorious in Bowling Match at Munising.

The Northwesterns, a specially organized Marquette bowling team, captained by R. C. Lowe, won a victory at Munising last night, defeating a picked team from that city by three pins. The Marquette men won two out of three games. The match was rolled at the Ellis alleys. The scores follow:

| | |
|---------------------|------------------|
| Northwesterns— | Total. |
| Haslett | 161 135 154 450 |
| Lawrence | 127 208 176 511 |
| Birchard | 177 171 122 470 |
| Lowe, (Capt.) | 160 115 181 456 |
| Manes | 175 163 157 495 |
| | 860 792 790 2342 |
| Munising— | Total. |
| Oie | 161 194 155 510 |
| Acker | 121 139 124 424 |
| Freeman | 134 144 190 468 |
| Hannah | 170 152 195 517 |
| Ellis | 174 128 188 490 |
| | 760 767 852 2379 |

In a second match between the Munising men and a Marquette team, the Munising players evened up for their first defeat, winning by 236 pins. Not one of the Marquette men got in the "500" class. At the conclusion of the matches the Munising bowlers entertained the Marquette men at an appetizing chicken supper. The scores made in the second match follow:

| | |
|------------------|------------------|
| Munising— | Total. |
| Oie | 167 198 169 534 |
| Acker | 163 149 189 501 |

| Sahotia | 188 128 190 506 |
| Levine | 181 170 137 488 |
| | 832 883 846 2561 |

RECEIVES SUPPORT.

Proposal to Bring Fritz Kreisler Here Meets With Approval.

The canvass being made with a view to bringing Fritz Kreisler, violinist, to Marquette, has been productive of excellent support among the businessmen of the city. One who is interested in the undertaking said last night that if other residents accord anywhere near the same degree of support, Kreisler's coming is assured.

It was stated: "The prospective engagement not only appeals to the businessmen as a matter of civic interest, but the commercial value of Marquette's name hereafter being associated with that of Kreisler as a matter of advertising is appreciated. The businessmen have given the proposition their enthusiastic support."

The canvass, which is in charge of Will Tucker, son of George Tucker, who is assisting in the undertaking, will be continued today, when it is expected sufficient assurances of support will be had to complete the arrangements.

We Have TRUNKS You Can Trust

When going from home take a good trunk. It means peace of mind during the journey and comfort after you arrive.

Boxes extra strong and cloth-lined—trimmings and corners of steel or brass—best brass locks—steel or brass hinges—strong leather straps—and all sizes.

PRICES: \$5, \$7, \$10 to \$25

Hand Bags and Suitcases

made from Cowhide, Calf, Alligator or Grainleather leather or linen lined—strong catches and handles—steel frames

PRICES: \$1, \$2, \$3, \$5 to \$20

and we can fill any trunk, bag or suitcase requirement in a few days if our stock should not please you.
