

BEACHEY FALLS TO HIS DEATH IN FRISCO BAY

Attempting His Daring Perpendicular Drop, Famous American Aviator Plunges 3,000 Feet at Exposition, When Monoplane Fails to Stand the Strain.

Strapped in His Wrecked Machine Flyer Is Unable to Free Himself After Sinking—Body, Found Two Hours Later, Shows That He Died in the Water.

San Francisco, March 14.—The spectacular career of Lincoln Beachey, one of the most daring of American aviators, was ended today when he fell to his death at the Panama-Pacific exposition in sight of thousands of spectators.

Beachey was completing his second flight of the day when the accident took place. Having previously electrified the crowd with a series of aerial somersaults, the aviator sought to add an additional thrill by making one of the sensational perpendicular drops which usually feature his flight.

Had a New Machine. The fatal fall was attributed to the fact that Beachey trusted his life to a new monoplane. An exceptionally large crowd had been attracted to the fair grounds to see whether he would attempt the same breath-taking stunt in the new machine that he had performed in his trim little biplane.

On the first flight all went well and the aviator's familiar tricks were indulged in, with the exception of the perpendicular drop. This Beachey had saved for the climax. It proved too much of a strain for the frame of the monoplane.

The machine was at an altitude of about 3,000 feet when Beachey shut off his power. For about two thousand feet it dropped head on for the earth and then the aviator grasped his control levers to adjust the plane for the graceful descent which had characterized his previous flights.

Plane Crumpled Like Umbrella. At that point the wings crumpled like a collapsed umbrella and the aeroplane, turning over and over in its fall, plunged into San Francisco Bay, narrowly missing a vessel lying at the government transport dock.

Thousands of spectators rushed to the nearby water front, but with the exception of a few splintered fragments of the aeroplane floating on the surface of the bay no sign of the wrecked machine could be seen.

Launches put out immediately, equipped with grappling hooks and a boat's crew from the battleship Oregon, which was anchored a short distance away, joined in the attempt to recover the body of the aviator, who was supposed to be wearing a life jacket under forty feet of water.

The body was recovered shortly after 5 o'clock, after a two hours search.

Met Death by Drowning. That Beachey was still alive when he struck the water and had sustained no major injury as a result of the fall, except a broken leg, was the opinion expressed by Dr. David E. E. Stafford, who examined the body at the morgue tonight.

The face, Dr. Stafford said, was discolored from choking and strangling, indicating that death was due to drowning.

Cuts on the aviator's hands were taken to indicate that he had made desperate efforts to release himself from the mesh of twisted wires and rods in which he was entangled.

When the machine fell Beachey was protected by the engine, propellers and hood of the monoplane, which struck the water first. It was pointed out that if Beachey could have disengaged himself he probably would have managed to keep afloat long enough to be rescued.

NECESSITIES OF LIFE SAID SCARCE IN VIENNA. Venice, Italy, via London, March 14, 7 p. m.—Private letters received here from Vienna say that the poorer classes in that city are suffering acutely on account of the scarcity of food.

Meat has long since disappeared from their tables. Bread is scarce and high in price, it being almost impossible to buy flour. Lard costs more than butter. Although eggs, milk and butter have risen greatly in price, it probably will become still more difficult to obtain them in the near future as farmers are unable to procure fodder and are killing their cows and other farm stock.

COUNT WITTE, DIPLOMAT, DEAD. London, March 14.—Count Sergius J. Witte, Russia's first prime minister, died Friday night, says a Petrograd dispatch to Reuter's agency.

Count Witte, who was born in 1849, was one of the Russian plenipotentiaries at Portsmouth in the negotiations for peace with Japan in 1905. He afterwards was made a count and appointed president of the new ministry but retired in 1906 and held no important posts after that time.

SUBMARINE U-29 SUNK FIVE SHIPS IN THREE DAYS

German Raider Sends One French and Four British Steamers to the Bottom, Operating in the English Channel and Off Scilly Islands—Eight in All Attacked.

Pastest of Kaiser's Underwater Craft Succeeds in Dodging All Attempts to Ram Her, and Creates Terror Among All the Crews of the Steamers Time to Leave the Vessels.

London, March 14, 10:30 p. m.—The submarine U-29, one of the largest and fastest of German underwater craft, had a successful three days' raid on the Scilly islands and in the English channel, where on Thursday, Friday and Saturday she succeeded in sinking four British steamers and one French steamer, and damaging three others.

The German commander gave the crews of most of the steamers time to leave their vessels, and in some cases towed the ships' lifeboats, with the crews, to passing steamers by which they were brought to port.

The U-29 was chased by patrol boats, but proved too elusive for them, while steamers which tried to ram or escape her found that the submarine was much faster than similar craft which had previously been sent on a mission to destroy Great Britain's overseas trade.

With a German submarine in the water around the Scilly islands, which the big liners pass on their way across the Atlantic, there is much uneasiness in shipping circles, and during the course of the day a report, which also reached the American liner New York by wireless, was circulated to the effect that one of them had been torpedoed.

This report, it is believed, arose from the sinking of the Andalusian, a British steamer, which belongs to the Ellerman line.

The British collector Invincible was torpedoed today off Cross-Well and sunk. All the crew were saved.

An admiralty report yesterday showed that of 88 British vessels sunk or captured by hostile action from the commencement of the war to March 10, 22 were victims of submarines.

The British 10, seven British steamers have been torpedoed, but of these three were not sunk. The number of ships sunk is considered small in view of the number of ships proceeding to and from British ports.

Hoists German Flag. Penzance, via London, March 14.—The British steamers Indian City, Headland and Andalusian were torpedoed off the Scilly islands Friday morning by the German submarine U-29. The Indian City was sunk but no lives were lost.

In describing his experiences, Captain Williams of the Indian City, who has arrived here, said: "At 7:30 Friday morning, while south of St. Mary's island, I sighted what I thought was the periscope of a submarine 300 yards away. The submarine dived and came up astern."

"I kept the steamer going but the submarine caught up with me and the captain told me to put up my flag. I hoisted the German ensign. The Germans then told us to get into the boats which we did. He then blew up the steamer."

Norwegian Ship Sunk. Hull, via London, March 14.—Fourteen survivors of the crew of the Swedish steamer Hanna which was torpedoed by a German submarine off Scarborough on the east coast of England were landed here by a steamer which picked them up. Six of the crew were lost. When she was torpedoed she was displaying her national colors, according to the survivors, and had her name and nationality painted on her side in letters reaching from her masts to the water line. Therefore, the men declare, it was impossible for her to be mistaken for a British ship.

French Steamer Destroyed. Bordeaux, via Paris, March 14.—The steamer Auguste Conseil, from Cardiff for Rouen, with a cargo of coal, was torpedoed by a submarine off the Start Point, near the southern extremity of Devon, Eng., on Thursday afternoon. The crew of twenty-eight men is reported to have been saved by a Danish steamer and taken to Falmouth.

The Auguste Conseil, belonging to the Societe Les Affreux Reunis, was a steamer of 1,852 tons. She sailed from Lyons, France, on Jan. 25, for Havre, where she arrived on Feb. 5. Maritime records contain no information concerning her movements after that date.

EPIDEMIC OF TYPHOID IN SERBIA LESSENING. London, March 15, 3:42 a. m.—A dispatch to Reuter's Telegram company from Athens says: "The epidemic of typhus fever in Serbia is now reported to be diminishing. Many doctors died from the disease and the American Red Cross units also suffered. One American doctor committed suicide while in delirium. Another doctor and several American nurses were attacked by the disease, but are now convalescent and are preparing to return to the United States. A hundred doctors are coming to Serbia to assist in stamping out the disease."

MORE TROUBLE IN MEXICO CONFRONTS WASHINGTON

Port on the Pacific Coast Reported in State of Anarchy—Disorders at Progress.

Washington, March 14.—While conditions in Mexico City have improved, the food and water supply being replenished and the capital placed in order once more by the Villa-Zapata convention government, situations fraught with difficulties for the United States have arisen at the port of Progreso, on the Atlantic coast, and at Manzanillo, a port on the Pacific side.

Wireless reports from the American consul at Manzanillo state that a condition of anarchy prevails there, the Carranza troops in possession being unable to maintain order; that foreigners are apprehensive and the food supply decreasing, while the Villa-Zapata troops are investing the approaches to the town. Admiral Howland, commanding the Pacific fleet, is understood to be preparing to take foreigners away from Manzanillo, if conditions do not improve. Several American ships are in the vicinity.

Demands by the United States upon General Salazar, the Zapata commander in Mexico City for the punishment of soldiers who murdered John B. McManis and the payment of adequate compensation to the family were repeated yesterday to General Villa. "As Villa and Zapata," said Secretary Bryan, "have been co-operating I thought it was a good idea to make representations to Villa as well, so that the offenders would be punished."

As the finances of the Villa-Zapata government have been in control of Villa, the question of an indemnity to the family of McManis will be settled by the northern chief, General Salazar has already promised to punish those guilty of the crime.

THAW'S COUNSEL TODAY WILL ASK HIS RELEASE

New York, March 14.—Harry K. Thaw's fight against being sent back to the state hospital for the criminal insane at Matteawan, following his acquittal yesterday of the charge of conspiracy in connection with his escape from the institution in 1913, will be begun in earnest tomorrow. Thaw, who was remanded to the Tombs prison, pending the argument of his attorneys' motion that he be sent back to New Hampshire, where he was extradited to stand trial on the conspiracy charge, had nearly recovered today from a severe cold, which, for a time last week, threatened to incapacitate him.

Tomorrow afternoon Thaw's counsel will argue their motion for his return to New Hampshire, taking the ground that he was brought here to stand trial on the conspiracy charge, and that having been acquitted, the commitment on which he was originally sent to Matteawan, is not operative, and he should be returned to the state from which he was brought on extradition proceedings.

Should they fail to obtain a ruling in their client's favor, Thaw's attorneys expect to sue out a writ of habeas corpus and at a hearing which they hope to have in this judicial district, instead of up-state, as in previous proceedings of the sort, seek to show that he is sane and entitled to return to his home at Matteawan, where he was sent after his acquittal on the ground of insanity, of the murder of Stanford White.

GOVERNOR PARDONS PEORIA SCHOOL MAN, IN PRISON FOR THEFT

Juliet, Ills., March 14.—Newton C. Dougherty, former Peoria school conductor, of embezzling school funds, reached the Illinois state penitentiary here at 9 o'clock last night and at five minutes past 10 a long distance telephone message from Governor Duane made him a free man.

Dougherty spent the sixty-five minutes in the prison in the office of the warden who was trying to get the governor's pardon, which had been signed by Dougherty's school lands with the authorities and ran out of the prison to catch an electric car for Chicago. He pleaded guilty in 1905 and was sentenced to a term of one to ten years in November, 1911. He was paroled a year ago, followed by a release, when Dougherty filed civil suits to recover real estate in various parts of the country.

Application for a pardon was made early this year, based on the claim that he had paid the penalty for his crime.

BOWLING CONGRESS. J. Lellingner, of Chicago, bowled himself into first place in the singles today, when he rolled a total of 674, replacing Harrison, of Peoria, who scored 622 yesterday. In the doubles, S. S. Meyers and W. Peters, of Chicago, forged to the front, with a score of 1,170. At midnight there had been no changes in the leader of the five-men event.

The standings of the three highest, in each division, follow: Singles—J. Lellingner, Chicago; 674; J. M. Semitz, Aurora, Ills., 658; George Oberg, Rockford, Ills., 628. Doubles—S. S. Meyers and W. Peters, Chicago, 1,170; J. Laugmayer, and T. Denon, Chicago, 1,158; W. C. Laidlow and C. M. Brayshaw, Peoria, 1,143. Five-men team—Peerless, No. 1, Aurora, 2,745; North Avenue, Chicago, 2,731; Semradek, Chicago, 2,686.

Peoria, March 14.—G. W. Garrison of Peoria, yesterday swept aside the high mark of 595 held by J. J. Dietz of Peoria when he rolled 622, bowling into first place in the singles. New bowlers also appeared at the close of the afternoon in the doubles when Ladelow and Drasen of Peoria went into first place with 1,143. In the five men events the Peerless team, No. 1, of Aurora with 2,745 went into first place.

Lines for Struggle Being Drawn in Poland. British Airmen in France Play Big Part; Germans Are Worsted Thus Far Is Claim.

ARMIES IN EAST STRAIN AT LEAST TO OPEN BATTLE

VAST RUSSIAN AND GERMAN FORCES LINING UP IN NORTH POLAND.

ONLY SKIRMISHES TOLD OF

COMBAT WILL NOT BEGIN IN EARNEST FOR A FEW DAYS, IS BELIEF.

EACH DENY OTHER GAINS

PETROGRAD'S AND VIENNA'S OFFICIAL REPORTS ARE CONTRADICTORY.

London, March 14, 10:30 p. m.—News from the eastern war zone continues to be scant.

The German and Russian armies which are concentrating for a big battle around Przasnysz apparently have not yet come into touch. The fighting thus far reported has hardly been more than an affair of outposts.

Petrograd's Account of Situation. Petrograd, March 14, via London, March 15, 12:55 a. m.—The official statement from general headquarters issued tonight, follows: "Between the Niemen and Vistula rivers there has been fighting only in the valleys of the Odnobog Orza and in the direction of Przasnysz, along a total front of sixty verstas (about forty miles). The enemy's attempts to advance have everywhere been repulsed. On March 13 our troops opened a counter attack and seized several villages."

In other regions, on the right banks of the Oboer and Narow rivers and on the left bank of the Vistula, only artillery engagements have taken place. "The Carpathians violent snowstorms continue. In the region of Lajpovk pass we have made progress in capturing more than five hundred prisoners, including fourteen officers and six machine guns. On the Balbe-Baszelew Studein front the Austrians continue their efforts to pierce our line, but have suffered heavy losses."

German Losses Said Heavy. "In the region of Kozicki and Rozoka the Germans have renewed their violent attacks, which have everywhere been repulsed. Colossal losses have been inflicted on the enemy. By means of a counter-attack we captured many hundreds of prisoners. In eastern Galicia we easily repulsed repeated attacks near the village of Niedzwicka, on the Dniester. During this engagement an Austrian battalion was dispersed by our counter attack. By a sudden assault we captured the enemy's position near Mikowicz in the Przewozul region and made prisoners of the Austrian battalion holding these positions."

Austrians Claim Successes. Vienna, March 14, via London, March 15, 1:11 a. m.—The following official communication was issued today: "The situation in western Galicia is unchanged. The enemy's attacks along the lower Nida and south Gorlice were repulsed after short fights. In numerous sections of the Carpathians violent attacks by the Russians occurred. For instance, on the battle front near Lajpovk ridge and the Uzkow pass, in the Opor valley, and near Wyszok, there were violent night engagements and many Russians fell into our hands, including four hundred who surrendered in a fight at close quarters. Fighting also developed in the position south of the Dniester. An attack by strong Russian forces of infantry came under an effective fire and soon stopped and then collapsed entirely, the Russians losing severely. Russian dismounted cavalry, advancing farther eastward, again were repulsed."

FUNERAL SERVICES HELD FOR MRS. ROCKEFELLER ARE ATTENDED BY FEW

Tarrytown, N. Y., March 14.—Funeral services for the late Mrs. John D. Rockefeller were held late today at the family home at Pocantico Hills. Only members of the family, close friends, and employees on the estate attended. After the services, it was announced that the body of Mrs. Rockefeller will be placed in a receiving vault here until it is decided whether the burial will take place at Pocantico hills or in the family plot at Cleveland, O.

WEALTHY OF POLAND RELIEVING DISTRESSED

Berlin, via Wireless to Sayville, L. I., March 14.—The following was given out today by the Overseas News agency: "A committee headed by the Polish leader Princes Zartoryski is traveling in Russian Poland and spending 500,000 marks (\$825,000) for provisions to relieve the distressed population."

SUMMARY OF THE WAR NEWS

The magnitude of the British victory around Neuve Chapelle continues to grow, as shown by a statement from the British war office which declares that in three days' fighting the German losses could not have fallen far short of ten thousand men. Prisoners to the number of 1,729 were taken by the British. Regarding those operations the French official statement says: "The success gained by the British armies at Neuve Chapelle proves to have been complete. They captured three lines of trenches and also tells of advances in the Champagne and Artois regions, but Berlin declares that all the attacks by the French in Champagne broke down under the German fire with heavy losses to the French.

In the eastern zone the expected battle in Russian Poland around Przasnysz is developing slowly, while both Russians and Austrians claim to have made gains in Galicia and the Carpathian mountains. Regarding the operations in England and disturbed over the remarkable activity of the fast German submarine U-29, which, for three days, has been torpedoing steamers at various points off the Scilly islands and in the English channel. The U-29 has attacked not less than eight steamers, five of which she sank.

The loss of the French steamer Auguste Conseil, torpedoed off the English coast, has just been reported. The crew was saved. A German hydroplane has been wrecked off the Danish coast. "In fighting for the empire Irishmen are fighting for Ireland," John Redmond, the Irish leader, told an audience in a speech at Manchester. Mr. Redmond said that Ireland had been admitted to her proper place in the British empire, "with perfect and absolute good faith and loyalty." He declared that a quarter of a million Irishmen had joined the colors, and more were making ready.

It is announced from Washington that a close watch is to be kept on ships clearing from American ports, in accordance with the government's determination to make more rigid its precautions against violations of neutrality.

Six American army officers are on their way to the eastern war theater to observe the fighting from the German line.

Regarding the operations in the Dardanelles by the warships of the allies, late dispatches are lacking in details of the progress being made, but advices from Sofia, by way of London, report that the state archives are being packed up at Constantinople, preparatory to removal. Eski Shehr, in Asia Minor, may be the new Ottoman capital.

SNOWSTORMS HINDERING ALLIES AT DARDANELLES Only Intermittent Engagements Are Reported—Bombarding Smyrna Ports.

London, March 14, 10:30 p. m.—While heavy snowstorms are reported to be hindering the operations, the bombardment of the Dardanelles and Smyrna ports continues on days when the weather permits.

Reports from Athens say that the super-dreadnought Queen Elizabeth has been destroyed, by indirect fire from the guns of Saros, several shore batteries. At the same time a violent deluge is going on between the Turkish forts and the ships of the allies and the Turkish troops have come under the fire of the warships. The Smyrna forts were bombarded again yesterday.

As Constantinople Tells of It. Constantinople, via Berlin, via Wireless to London, March 14, Midnight—Turkish headquarters report on the Caucasian front the Russians delivered an attack on the Turkish positions at Artvin (forty miles south of Batum). They, however, were quickly repulsed. On March 7 the Turks repelled all the Russian attacks on the heights near Artvin and occupied a Russian position.

A correspondent of the Wolff bureau telegraphs that in a slight attack on Wednesday and Thursday the allied fleet bombarded the searchlight installation at Dardanelles fort in the Dardanelles. One British cruiser was struck by a Turkish shell and withdrew from the firing line. After three minor successes were snuffed the correspondent adds, the others fled without achieving their purpose. There were no losses on the Turkish side and the searchlight plant remained intact.

All Allied Ships Damaged? Berlin, via Wireless to Sayville, L. I., March 14.—The following was given out today by the Overseas News agency: "Reports from Athens state that during the bombardment of the inner forts of the Dardanelles, all of the warships of the allies engaged were hit."

ALLIES' WARSHIPS WAIT FOR THE ETTEL TO APPEAR

French and British Cruisers Are Watching Outside Virginia Capes for Raider.

Newport News, Va., March 14.—French as well as British warships are crisscrossing outside the Virginia capes waiting for a raider.

Government authorities here are awaiting instructions from Washington regarding representations to be made to Commander Thierichens, of the German cruiser concerning the detention of Charles Frank and Robert Rogge, members of the crew of the American sailing ship William P. Frye, sunk in the south Atlantic on Jan. 28 by the German commerce destroyer. Such statements have been made to the collector of customs here by one of these men being detained against his wishes, and the question is whether the German commander has a right to take men from an American ship and hold them for service in the German navy, even if they are of

WAR IN FRANCE FAVORS ALLIES, LONDON AVERS

CO-OPERATION OF BRITISH AIRMEN WITH THE LAND FORCES A FACTOR.

TWO VANTAGE POINTS HELD

NEUVE CHAPELLE AND VAU-QUOIS ARE CAPTURED BY FRENCH TROOPS.

ARMIES FIGHT STUBBORNLY

GERMAN LOSSES FOR LAST THREE DAYS PLACED AT ABOUT 10,000 MEN.

London, March 14, 10:30 p. m.—The importance of the occupation of Neuve Chapelle is again emphasized in the official British report of the progress of the war on the western front. Desperate efforts by the Germans to recover the ground gained by British regulars and Indians were repulsed. According to the report issued by the French war office tonight, the Germans in the morning delivered several minor attacks and in the afternoon a very heavy one. The total number of German prisoners taken in three days was 1,729, and it is estimated that the total German losses were not far short of ten thousand.

Airmen and Troops Co-operate. British airmen also have been active again and have destroyed a train at Dan, a short distance from Lille. This co-operation between the air and land forces has become more pronounced, the airmen always trying, when any fighting is in progress, to obstruct the movement of German troops.

The Belgian army continues to gain a little ground at the head of the river Yser, and in Champagne, the Artois and the Vosges there has been fighting of varying importance. The Germans have again bombarded Ypres, Steenok and Brucines. In the latter two towns the cathedrals have suffered further damage. The French have occupied Embrunet, on the railway midway between Luneville and Rixingen on the borders of Lorraine.

French Take Another Important Town. Some idea of the stubbornness of the battles on the western front, which receive only a few words in the daily official reports, can be gathered from the French account of the capture of the village of Vanquouis, on the eastern border of the Artois region, which was issued today. For days the French and Germans contended for this village, the importance of which from a tactical point of view is very great. Heavy losses must have been sustained by both sides.

British Official Report. London, March 14, 9:25 p. m.—The war office tonight made the following announcement: "A heavy counter attack delivered by the enemy on Saturday afternoon and several minor counter-attacks earlier in the day all were repulsed."

"Judging by observations on various positions on the field of battle and by statements of prisoners, of whom there are now 1,729 the enemy's losses must have been very heavy, and cannot have fallen far short of ten thousand men since the 11th day."

"A train at Dan, Don station was blown up by air action on Sunday morning."

"The situation in Italy is reported to be reaching a climax. Considerable feeling has been aroused by the discovery of a large number of old French rifles, which, it is alleged, are being sent by the Germans to Tripoli."

From Vienna comes the statement that the whole ministry, including Baron Burian, is now supporting Emperor Francis Joseph in his refusal to make any territorial concessions to Italy in return for that country's continued neutrality."

EVANSTON HIGH SCHOOL WINS BASKETBALL TITLE

Chicago, March 14.—The sixth annual central states basketball tournament which has been held for the past three days at Evanston ended last night with the Evanston High school heavyweight team capturing first place. Evanston defeated the Collinsville team in the finals 71 to 20. Gary won second place by defeating the Evanston lightweights 32 to 19.

The visit here of Halli Bey, president of the Turkish chamber of deputies, according to general reports, was for the purpose of making an offer under which Turkey would permit Bulgaria to occupy Adrianople and other territory which Turkey won back after the second Balkan war, providing Bulgaria attacked Greece and also occupied Greek Macedonia.

The Bulgarian premier's answer to this proposal was non-committal.

Geneva, via Paris, March 14.—Foreign Minister Gheorghiu, of Bulgaria, left Neu-Chapelle yesterday for Sofia. It is believed here that the future course of the Bulgarian government will be strongly influenced by his report from Rome and Vienna, where he has spent the last month on a special mission.

WEATHER FORECAST. Washington, March 14.—Following is the weather bureau's forecast for Upper Michigan: Unsettled and snow, Monday; cloudy, Tuesday.

**THE DAILY MINING JOURNAL**  
A MORNING PAPER PUBLISHED BY  
**The Mining Journal Company, Limited.**  
Issued daily except on Sundays. Contains Associated Press dispatches, and is especially devoted to the Upper Peninsula interests.  
SUBSCRIPTION RATES:  
Per year, by mail.....\$6.00 Per month, by carrier..... .50  
Entered as mail matter of the second class in the postoffice at Marquette, Mich.  
MONDAY, MARCH 15, 1915.

**THE MAJOR IS RIGHT.**

Major Mathews, of the 300th, commander of the first battalion, Third Regiment, M. N. G., is pessimistic concerning the future of the National Guard. The apathy of the public is for it a heavy handicap. Enlisted men are frequently penalized by employers because their membership in some manner interferes with their work. Instances are recorded where guardsmen have lost positions because they were called for extended duty. The public apparently fails to realize how important an adjunct to national defense the organization could be made.

Thus when Major Mathews is somewhat pessimistic, he is only honest in opinion and frank in statement, and he reminds us that, in summing up our resources for war, it would be a very serious mistake to attach any great importance to the National Guard. The company units are usually far below full strength. The aggregate drill period for a year is so small as to possess little real value, and the men themselves are, as a whole, little better fitted by physical training for field operations than a similar number of men called directly from civilian life would be.

For the National Guard it is principally to be said that, in time of national need, it would furnish a body of recruits that, because the members have elementary training in the manual of arms, in the military formations of small units and in setting up and conducting camps, could be whipped into fighting trim in less time than would be required for an equal number of raw men. The formation of the larger units of which they would be a part, and all the major operations of the organization of a really effective army to complement the small force of regulars, would have to be carried out after the occasion had actually arisen.

When the National Guard and the attitude of the public toward it is viewed reasonably, as Major Mathews is inclined to view it, one is forced more and more to the conclusion that this country will never have the nucleus of an effective fighting force, ready for early service, until the regular army is regarded somewhat in the light of a training school and men are sent through it on short enlistments, thereafter to be part of the reserve for a number of years. When we have 400,000 or 500,000 of these men, all assigned to the skeleton organizations, their uniforms and guns waiting for them, if there is an occasion for summoning them to the colors, and occasional concentration camps to test their preparedness, then only will we have some tangible foundation for an effective national defense. At present our military establishment must be regarded as a good deal of a joke, good, as far as the regulars are concerned, what there is of it, but wholly inadequate when the duty it may any time be called to face is considered.

**IS ON ITS WAY.**

With seventy votes in the affirmative, the house has passed the Odell bill proposing to place the appointment of the game warden in the hands of the public domain commission. Some dozen Republicans voted with the few Democrats in opposition to the bill, but the vote cast for it is sufficient, if it sticks, to override a veto, should the governor refuse his assent to the legislation. And that, it is expected, is the thing the governor will do. The way the Republicans have rallied to the measure suggests, however, that such action will be without avail.

The Democrats characterize the bill as "pure politics," and they are, in large measure, correct in this description. That such a bill would have been passed if a Republican governor had been elected is extremely unlikely. At the same time, it is "pure politics" which ought to serve the public interest. Tenure in the state game warden's office will likely be more constant, if the chief is responsible to the domain commission, than has been the case in recent years, when we have had a succession of game wardens, according to the ebb and tide of personal influence in state affairs. A proved official, who has shown constructive ideas about game conservation, energy in the office, and a fair attitude toward his subordinates, will doubtless be retained indefinitely to the advantage of the state. Virtual, if not actual, civil service should rule the department. Deputies should be removed only for cause connected with their work, and their appointments should be based always on their qualifications for their prospective duties.

Thus as far as the interests of the state are concerned the proposed change may be viewed with equanimity. The Republicans assert that if Governor Ferris had not been set on appointing one particular man—not an upper peninsula man, by the way—for the office, the bill

that this is as far as the present legislature will go, for, apparently, the legislators are now set in a wide expanse of figures.  
Detroit is making much more noise about the passage of the auto tax bill that takes away some \$300,000 of its tax money than the rest of the state made when the paid representatives of Wayne county sallied over to Lansing and induced the state board of equalization to whittle a couple of hundred millions off its assessed valuation, as returned by the state tax commission.

**STATE PRESS**

Mr. Wilson's bill for a merchant marine has become a submarine—Grand Rapids Press.  
What has become of the man in whose vocabulary there remained that old-fashioned word "shillings"?—Jackson Citizen-Press.  
Now if Mr. Burlank will kindly invent a self-pulling dandelion and a self-swallowing fly our welcome to spring will be much more hearty.—Saginaw News.  
John Hays Hammond, once somewhat in the public eye, decries espionage and secret treaties. He is right. Let the women be the diplomats.—Owosso Argus.  
Detroit has let its politics degenerate until our entire political machinery is relegated to the professional place hunters, the men who live by politics through holding jobs or distributing jobs. Our captains of industry and commerce devote their time to making money and indifferently allow anyone who cares to pick the candidates and to run for office. That is why Wayne county's delegations are kicked out of conventions and why Wayne county is the goat of rural politicians when taxes are assessed. When the leaders of Detroit's business wake up and give their attention to politics and government this city and county will resume the proud place they occupied under their fathers and their predecessors.  
In this estimate of the situation there is much that is valid. It would, however, be too much to expect the Free Press, lay due stress on the part that the Detroit newspapers, including itself, have played in the degradation of which it complains. In matters that affect its municipal concerns no city in the country is worse served by its newspapers than Detroit. They are eternally seizing upon these questions as bases for their peculiarly bitter fights, and in scoring their "points"—and they play to the box office—they work themselves up into white heats and present such diametrically opposed views of not difficult issues that they are a force for the confusion, rather than the enlightenment, of the community.  
And in the war of factions with which Detroit is afflicted each newspaper, or group of newspapers, has its particular lot of pet factionists, in whose interests the news is warped and editorialized. An article on the subject discussed by the Free Press that fails to take cognizance of a condition so generally remarked on among well-informed residents of the state at large must be regarded as woefully incomplete.  
An OFFICIAL VIEW.  
Frequently we read stories that the German prisoners who come into the allies' camps are not up to the class of Germans who were in the first line in the early weeks of the war, that they are comparatively old men and that their morale is obviously shaken. The official military observer at the British headquarters effectively lays these tales when he says: "No signs of weakening are yet visible in the morale of the German troops as a whole. There is yet no reason why an intensely brave and determined and wellorganized army like that of the Germans should feel discouraged. \* \* \* This confidence will be overthrown and the morale of the troops will be shaken only by the consciousness of crushing defeat in the field, but this end can be attained only by increasing pressure of vast numbers of men and guns throughout the coming months."  
No disposition is evidenced here by a responsible British officer to "lick the Germans with his mouth," but rather a sober realization of the enormous proportions of the task and the heavy sacrifices that it will involve, if it is possible. What is here written is in the spirit of the reply credited to Kitchener, when asked when the war would probably end: "I don't know when it will end, but it will begin in May." Sober resolution to see the thing through, no matter what it costs, is a characteristic shared by all the principal combatants, and it is the thing that makes the outlook for early peace so poor, and suggests that the price already paid in blood and treasure in the arbitrament of war must pale into insignificance in comparison with what must be paid before the issue is determined.  
From Lansing it is reported that the railroad rate issue will come to a head this week, when the committee of the house and senate will assemble to deliberate on the question whether a bill shall be reported out, and, if it is decided to put the matter before the legislature, what kind of a bill the majority favors. A decision not to report out any bill would lay the issue for the present session, though in that event it is likely that steps would be taken to prepare data for use when the matter is up again. There is much opinion

ment rumors were the plain intimations of the British chancellor of the exchequer in his remarks in the house of commons on Feb. 15 upon the financial preparations of the allied powers. Reviewing the condition of Russia, France, and Serbia, he said that there were other states "preparing for war, and it is obviously our interest that they should be well equipped for the task." After explaining that the plan of a joint loan by the three allies had been rejected at the Paris conference he made this statement:  
"There was only one exception which we decided to recommend, and that was in the case of borrowings by small states. We decided that each of the great allied countries should contribute a portion of every loan made to the small states who were either in with us now or prepared to come in later on, that the responsibility should be divided between the three countries, and that at an opportune moment a joint loan should be floated to cover the advances either already made, or to be made, to these countries outside the three great allied countries. That was the only exception we made in respect of joint loans. Up to the present very considerable advances have been made by Russia, by France, and by ourselves to other countries. It is proposed that, if there is an opportune moment on the market, these should be consolidated at some time or other into one loan, that they should be placed upon the markets of Russia, France, and Great Britain, but that the liability shall be divided into three equal parts."  
That is sufficiently direct and explicit. It can hardly be doubted that if there is the lesser States have been preparing "to come in later on"; it is known that advances have been made—the chancellor confirms the published reports—and they were plainly for war preparations. The probability that the war will soon enter upon a new phase is therefore one not to be overlooked.—New York Times.  
Lost, Strayed or Stolen.  
If the Turkish government is sufficiently up to date to know that it pays to advertise, some such announcement as the following should appear in the papers of Constantinople.  
"Lost, strayed or stolen, one holy war of Mohammedans against Christians. When last seen setting out from Berlin to start revolutions in Algeria, Egypt and India, but seems never to have arrived at any of these places. Is imperatively needed at the Dardanelles. Anyone furnishing reliable information as to its whereabouts will be presented with an iron double cross and a second-hand Krupp."  
It is doubtful, however, if any advertising could uncover the present hiding place of the "jihad" on which Germany relied to paralyze the arms of Britain and France.  
Never was there a more complete fasces. The Mohammedans of India and North Africa are fighting in the French and British armies. Syria, Arabia and Persia heard the call to arms—and disregarded it. The "holy war" has not even availed to rouse the flagging energies of the Turk. The Gaiour is battering at the gates of Constantinople as its commander, the faithful is about to flee from the capital which his ancestors conquered nearly five centuries ago—and still Islam does not rally to the ancient pastime of cutting Christian throats. Verily, the time are out of joint.—Chicago Journal.  
Hitting the Cheap Car Owner.  
What is a motor car? The majority in the lower house at Lansing look upon it as a road destroyer primarily, but as a tax collector secondarily. The majority would tax all cars of equal weight and power upon the same basis and turn the funds so raised over to the state for highway purposes; while the minority would assess cars according to value and leave the taxes in the community where the property is located.  
The majority is correct in theory; but its members have pushed their contention to absurd lengths. The tax is too high. The owner of a thirty horsepower car, weight 3,000 pounds, is taxable for \$15 under the act. It makes no difference whether the car is of 1912 vintage and worth \$200, or of 1915 make and worth \$8,000. The trimmings of style and vanity make no difference; quality is not considered. If it is not practicable to arrange a sliding scale which takes value into account, the tax per horsepower and per hundred pounds should be reduced in order not to discourage motorcar owning among the masses.  
Furthermore, there is neither decency nor justice in the refusal of the house machine, dominated by members of the rural districts, to split revenue from this tax equally between local and state funds. Grand Rapids asks no aid of the countryside in maintaining its pavements which are as much a service of motorcars as the rural districts. As roads are at the service of city residents, aligning town against country in a legislative hall is mighty poor business, as the members will some day discover.—Grand Rapids Press.  
A LAUGH OR TWO  
Arriving at Conclusions.  
A group of workmen were passing the dinner hour in political argument. An interesting deadlock had been reached when one of the men turned to a mate who had remained silent during the whole of the debate. "Ere, Bill," he said, "you're pretty good at an argyle 'n' what's your opinion?"  
"I ain't goin' to say," said Bill. "I thrashed the matter out afore with Bob Jones."  
"Ah," said the other, "and what did you arrive at?"  
"Well," said Bill, "Bob, he arrived at the hospital."—National Monthly.  
Real Sociability.  
"A plainman and his horse, a mountaineer and his dog, a spinster and her cat, an Irishman and his pig," sagely observes a well-known politician, "all these suggest familiar opportunities for the shrewd campaigner to reach an owner's heart through his pet."  
"A Colonel Van Wyck of Nebraska, who was running for congress years ago, found that there was a certain Irishman in his district who steadfastly refused

**"When Good Fellows Get Together"**  
You will find fresh-rolled cigarettes of deliciously mellow "Bull" Durham in evidence at banquets, club smokers and other social gatherings of men of wealth, prominence and experienced tastes. In the fragrant smoke of this mild, delightful tobacco formality gives way to congenial good-fellowship. If you would be fashionable, expert in the company of connoisseurs, you "roll your own"—and your tobacco is "Bull" Durham.

**GENUINE "BULL" DURHAM SMOKING TOBACCO**

To millions of experienced smokers there is no other tobacco fragrance comparable to the wonderful, unique, mellow-sweet flavor of "Bull" Durham—no other cigarettes so fresh, tasty and satisfying as those they roll for themselves with this golden-brown, bright Virginia-North Carolina tobacco.  
Roll a "Bull" Durham cigarette today—you will experience a distinctive form of tobacco enjoyment.  
**FREE** An illustrated Booklet, showing correct way to "Roll Your Own" Cigarettes, and a package of cigarette papers, will both be mailed, free, to any address in U. S. on request. Address "Bull" Durham, Durham, N. C.  
THE AMERICAN TOBACCO COMPANY

to record the candidate any support. So it was with much surprise that the colonel was advised by the Celt just before election day that he had concluded to give his vote to the other candidate.  
"Glad to hear that, Pat," said the colonel. "I rather thought you were against me."  
"Well, sir," said Pat, "to tell the truth, I was; and when you staid by my pigeon and talked that way for two hours or more, ye didn't judge me a hair's breadth. But, sir, after ye was gone away I got to thinkin' how ye reached yer hand over the fence and scratched the pig on the back till he laid down the pleasure of it; it was this I made up my mind that with a rate colonel was as sagable as that. I wasn't the man to vote agin' him."  
The Next Best Thing.  
Here is a little story that was told by Congressman-elect Michael Liebel, Jr., of Erie, Pa., the other night when reference was made to the exceedingly thoughtless.  
Late one night an irascible old gentleman entered a cafe in a country town, took a seat at one of the tables and vigorously pounded with his cane until a waiter hastened his way.  
"Why don't you get on the job?" he irritably demanded, the customer glaring at the waiter. "Do you think I can sit around here until resurrection day? Bring me some bread and butter and a cup of coffee, and bring them with some speed!"  
"I am very sorry, sir," apologized the waiter, "but we haven't a slice of bread left in the house. You see it is very late."  
"Well, don't stand there like a blooming idiot!" loudly interrupted the customer. "If you haven't got any bread bring me an order of toast!"—Philadelphia Inquirer.  
Misunderstanding.  
A group of patriotic and very enthusiastic boys was assembled around a sign outside a well-known London hospital. A passerby was asked by one of them:  
"Please, sir, can you tell us which general it is who is in the hospital?"  
"General?" replied the man. "I don't know of any general in this hospital."  
"Oh, yes, sir—look for yourself," cried all the boys together.  
The man fixed his gaze on the sign and read, "General Lying-In Hospital."—London Answers.

**Classified Want Directory**

**WANTED**  
WANTED—Girl for general housework. Mrs. Boyer, 418 E. Ohio St. 3-12-31  
WANTED—Kitchen girl at Hotel Summit. 2-8-15  
WANTED—At the Grand Hotel, Quinn, a good cook. Wm. Jory, proprietor. (3-6-15)

# Copper Country

## WILL PRAY FOR PEACE TO STRICKEN EUROPE INTER-COUNTY ROAD WILL BE HIS THEME

Special Services to Be Held in All Roman Catholic Churches Sunday, Next.

Announcement was made in all Catholic churches of the copper country yesterday morning of the setting aside by his holiness, Pope Benedict XV, of next Sunday as a day of prayers for peace. An elaborate order of services will be announced during the week. In all of the churches the Blessed Sacrament will be exposed all day next Sunday and the faithful are invited to visit the churches during the day to offer up their personal petitions for peace in Europe.

**Presbyterian Men Aspire.**  
The men of the Houghton Presbyterian church have come to the conclusion that to get more out of the church they must put more into it, more of themselves and their efforts. A number of the men of the church have given expression of this idea to Rev. Frank P. Knowles, the pastor, and the latter called a meeting for yesterday afternoon at 2:30 o'clock at which the matter was discussed.

It is a coincidence that this meeting should follow the recent evangelistic efforts of Rev. Walter Russell, who conducted meetings at this church during the week. However the suggestion was made before the evangelist began his work. The result may be the organization of a class for Bible study or a club for social service or some other method of expressing the desire of the men to cooperate with the church and its pastor.

Mr. Russell, the evangelist, left Friday night for Bay City to begin at the First Presbyterian church there a week of special services. His meetings in Houghton are looked upon as having been eminently successful. They drew large assemblies and made undoubtedly lasting impressions.

From the waters of the northwest coast of western Australia a total of 2,544,200 pounds of mother-of-pearl shell was fished, at an average selling price last year of \$1,250 a ton.

### Engineer BurrIDGE, of Menominee Range, to Address Houghton Meeting Tomorrow.

Taking advantage of the fact that the directors of both the Houghton County Farm Bureau and of the Copper Country Commercial club are to hold regular sessions at Houghton Tuesday afternoon, Secretary Price of the latter organization has arranged a joint meeting of the boards, following their respective business sessions.

The commercial club is to listen on this occasion to an address by A. L. BurrIDGE, engineer for the Iron county road commission, and as the farm bureau has in a way committed itself to advocating a direct road south through Houghton county to Iron county it is thought best to have the directors of the latter present when Mr. BurrIDGE advances his ideas.

Leo M. Geismar, county agriculturist, who first suggested the direct route through Houghton county, and Randolph Martin, Houghton county road engineer, also are to be present to give such advice and suggestions as their experience makes valuable.

Proceeding the joint meeting, the farm bureau will meet at the Douglass House to elect officers for the ensuing year.

**Farmers Indorse Road.**  
Farmers living on the west side of Otter lake to the number of thirty have endorsed the trunk highway plan, taking that action directly after the organization of a garage. Resolutions favoring the construction of a highway through Dumour, Laird and Portage townships were passed and the secretary of the garage was instructed to forward copies to the clerks of the various townships. The resolutions follow:

"Whereas, the right kind of a movement has been started toward opening an improved road from the northern to the southern end of Houghton county, and

"Whereas, this proposed road will

give direct outlet to the county seat for the residents of Dumour, Laird and the southern portion of Portage townships, and will at the same time open up and assist in the development of some of the best agricultural lands in Houghton county; therefore, be it resolved, that we highly recommend the building of said road, and urge the several townships through which it is to run to take an early date such steps as are necessary for the opening of said road; and be it further resolved, that the said road be built under the direction and with the cooperation of the Houghton County road commission."

**Much Interest in New Grange.**  
"As has been characteristic of all grange meetings, this 'assembly' was large and great interest was manifested in the organization. Delegates were present from Alton and Samba granges. The attendance was approximately one hundred. Among the visitors were Mr. and Mrs. Charles Anderson, Mr. Anderson representing the state grange, of which she is an officer. The organization will be known as 'Palo grange, No. 1922.'

Leo M. Geismar of the county farm bureau has received petitions from fifteen or more 'pioneer' farmers who desire that a co-acting association be established in that part of the county. Mr. Geismar spent yesterday among the farmers and the results of his canvass will be made known at Tuesday's meeting of the bureau."

### ST. PATRICK'S DAY.

**Various Celebrations in the Copper Country Wednesday.**  
St. Patrick's Day is to be celebrated in the various towns of Houghton county Wednesday, the various Irish organizations having decided not to hold a joint program this year.

The Hancock celebration will be in charge of the A. O. H., but the program as yet has not been announced.

A concert will be given by the Ladies' auxiliary to the A. O. H. at Lake Lindon Wednesday night, and the Young Ladies' League of St. Ignace church, Houghton, will give a concert Wednesday night in the parish hall.

In all of the Catholic churches with English-speaking congregations in the county a high mass in honor of the patron saint of Ireland will be celebrated at 8 o'clock on the morning of his anniversary.

The most important celebration is that to be conducted in Calumet by the A. O. H. of Calumet at the Laurium bank hall Wednesday night. The following program is announced:

- Irish march—Laurium orchestra.
- Selection—Orchestra.
- Vocal solo, "Ireland, Yes 'Tisland"—Miss Ozine DesOrniers.
- Selection—Laurium orchestra.
- Vocal solo, "Shoogy Sloe"—Sidney Johns.
- Vocal solo, "My Wild Irish Rose"—Miss Raffino.
- Violin solo—Albert Eddy.
- Selection—Laurium orchestra.
- Address—Rev. Father Miller.
- Selection—Laurium orchestra.
- Vocal solo, "Collect"—Miss Nettie Raffino.
- Selection, "The Harp That Once Through Tara's Hall"—Knights of Columbus quartet.
- Selection—Laurium orchestra.
- Vocal solo, "Killarney"—Mrs. Frank J. Kohlhaas.
- Vocal solo, "Eyes of Irish Blue"—Patrick Lang.
- Vocal solo, "Come Back to Erin"—Miss Krough.
- Selection—Laurium orchestra.
- Vocal solo—Miss Harriet James.
- Reading—Miss Agnes Mitchell.
- Selection—Laurium orchestra.
- Vocal solo—Charles Weiner.
- Selection—Laurium orchestra.
- Pianist—Miss Krough.

### ITALIAN INVESTIGATOR TALKS.

Dr. Castiglione Pleased With Conditions Among His Compatriots.  
Claims of labor agitators relative to labor and living conditions in the copper country do not jibe well with the opinion of Dr. C. E. De Palma Castiglione, royal inspector of emigration for the Italian government, who is conducting an investigation of conditions in the community as regards his countrymen. Dr. Castiglione has been in the copper country three or four days. He is pleased with what he has learned of conditions, and he did not depend upon mining company officials or superintendents or anyone who might be tempted to prejudice him. He is making a personal investigation, under orders from his government.

Dr. Castiglione says that conditions here, as contrasted with conditions elsewhere, are exceptional. He has completed similar surveys in the coal mining districts of Pennsylvania and Illinois and in Chicago. He finds that the Italian people, as a whole, are happy and prosperous in America, but in no place do they seem so well off as in the copper country. They appear not only prosperous but contented and are respected.

### MOTHERS' MONTHLY MEETINGS.

**Schedule of Programs in the Kindergartens of Houghton This Week.**  
The following schedule of mothers' meetings is announced for the Houghton schools during the present week:  
East Houghton, Monday, 2:30 p. m.—Miss Stockley of Hancock will give a talk on moving pictures.  
Hurontown, Tuesday, 2:30 p. m.—Miss Harriet L. Allen will discuss the library and its use.  
Houghton Central, Wednesday, 2:30.—Primary classes in reading and language, with a short talk relative to the conducting of these classes.  
There will be a parents' meeting at the Douglass Houghton building Friday night.

### SUGAR BEET CONTRACTOR.

Representative of Menominee Company to Be in Chassell Today.

The land department of the Worcester Lumber company of Chassell is advised by the Menominee River Sugar company of Menominee that its contract agent, J. A. Pittman, will arrive in Chassell today and will sign contracts with all farmers who care to undertake the raising of sugar beets. He will remain in the township till Thursday for this purpose. Manager Meurebke of the land department has arranged for contracts for fifty acres and believes that considerable more acreage will be booked.

### HEARS OF COUSIN'S WOUNDING.

John J. Zealand of Houghton Advised Relative in War Is Hurt.

John J. Zealand of Houghton was advised Sunday by a dispatch from Houghton, Ont., of the wounding of his cousin, Lieutenant Colin Gibson, an officer of the Royal Fusiliers. The advice received by Sir John Gibson of Hamilton, Ont., is only that his son has been shot through the lungs, but that his condition is satisfactory. In what battle Lieutenant Gibson received his wound is not stated. Mr. Zealand says the young officer is a fine young fellow and that he has been making a good record in the British army since he went over with the first Canadian contingent.

### UNUSUAL WINONA INCIDENTS.

**Mining Location Stirred by Girl Heroine, Wild Cow and the Mumps.**

Hannah Seppanen, a fourteen-year-old Winona girl, is the heroine of the location. Were it not for her resourcefulness John Manninen, Jr., a ten-year-old boy, might now not be living. John went skating on the frozen surface of No. 2 tunnel. He broke through the ice and was submerged, but managed to extricate himself and all would have been well but for his devotion to business. The youngster sets newspapers and had a bundle of his stock with him, having deposited it on the ice when he went skating. Though soaked with the chilly water, he decided to go back after his papers and just as he approached them he broke through the ice again and went under. Hannah Seppanen was passing and she ran out on the ice and rescued the exhausted child.

### Baby Attacked by Cow.

The two-year-old infant girl of Gus Kempainen of Winona was playing in the kitchen yard, enjoying the spring sun, which reflected pleasantly from the red dress that she wore. The family cow was at large on the lot and it may be that the red dress of the baby excited the anger of the usually placid milker. In any event, the cow rushed at the baby, knocked her down and attempted to gore her. The mother ran out of the house and drove the animal away. The baby was uninjured.

### Children Have the Mumps.

Winona is in the throes of an epidemic of mumps. There are about 165 children regularly attending the Winona school, but during the last week one hundred of them have been absent through having the mumps or being quarantined in homes in which the disease is found. As a result of this large percentage of absences the board of education has ordered the school closed for this week.

### KEEPING THE STRIKE ALIVE.

Copper Country Seems to Enjoy That Old Bitterness.

There seem to be influences at work in the copper country for the purpose of keeping up the old bitter feelings that were engendered by the strike. The following incident illustrates:  
George Borek was arrested Friday night at New Alouez, charged by Joseph Jasper with "intimidating" him on Aug. 30, 1913, by pulling him from a street car, an offense alleged to have been committed thirteen months ago. The most pitiful thing about the matter is that the man is to be tried on the charge, which undoubtedly will result in making the defendant and his family and friends all the more dissatisfied with conditions.

In the meantime, the anti-socialist campaign, which is an entirely different matter, has for its object the curtailing of any future industrial war, is going on apace. The success that has attended the campaign in the copper country has spread. A striking application for advice or assistance comes from the town of Phelps, Vilas county, Wis., a large and thriving farming community, where the seeds of socialism were planted a year or so ago and where they seem to be thriving. The officials of Phelps have written and asked members of the Calumet branch of the Anti-Socialist league to lend them an anti-socialist lecturer, one who can stand up and answer questions. They have asked for a man who can go to the mine and lecture for a week or two weeks. Phelps, Wis., has a large Finnish population. Some of the Finnish people of that place have gone to the town fathers it is understood and asked for assistance in ridding the town of the stigma of socialism, which accounts for the activity of the officials in the matter. The executive committee of the Anti-Socialist league here will probably send to Phelps a lecturer who has been doing excellent work in the copper country the last few months.

### ONTONAGON KAOLIN DEPOSIT.

Secretary Price of the Copper Country Commercial club has received from the Willis Shaw Machinery company of Chicago a request for a sample of at least twenty pounds of kaolin from the Ontonagon kaolin beds. The company previously was furnished with a small sample and found it insufficient for the analysis to be made to determine the fitness of the material for use in a certain wall paper manufacturing process. The company's request has been referred to W. B. Jeffs of Rockland, owner of the kaolin beds.

A meeting of Houghton merchants will be held at the Commercial club office Tuesday night for the purpose of discussing a local co-operative delivery plan.

### CENTENNIAL MINER KILLED.

An unusual accident occurred at the Centennial mine when Fabian Smak aged twenty-eight years, was killed by a fall of ground. The accident took place at the twenty-ninth level of No. 2 shaft. The formation in the Centennial and Wolverine is of such a nature that falls of ground occur very infrequently. The deceased is survived by a widow and four children, the oldest child being six years of age.

### FOR A BAD COLD.

The surest way to stop a cold is to live on the liver and cleanse the bowels, and the nicest cathartic to do this is a 10-cent box of Cascarets. Take one or two Cascarets tonight and your cold may be gone by morning.

---sold by Grocers everywhere.

#### AUTO SEASON PROSPECTS.

Many New Cars Already Ordered by Copper Country People.

A lively automobile season is in prospect in the copper country. It will be an early season, too, one thing. The premature summer has caused automobile owners to change the delivery dates specified last fall or the garages where their cars are being overhauled and as a result the latter are rushed with work. It is expected that automobiles will be in general use in the district fully a month earlier this year.

And there are to be an unusual number of new cars in the district this year. One Houghton garage right now has five new cars on its sales floor, all of which have been sold and are waiting for owner. Two additional cars of the five passenger size are expected any day to fill orders. The company expects to sell many more than these.

The Northern Garage of Houghton has been made a Bosch service station by the Bosch Magneto company, which should establish in part of the electrical and mechanical plant for the use of ten owners of Bosch equipment, such as magneto and starting and lighting systems. The recharging of Bosch magnetos will be a large part of the service.

#### UPPER PENINSULA

Child Struck by Auto.

Struck down by an automobile driven by Capt. Larson, Myrlon Thompson, five-year-old daughter of Charles Thompson, 208 Ludington street, Escanaba, lies at her home with her right leg fractured and bones about her body. The child was walking across the street from her father's bakery to the Michael Center meat market on an errand, when she was hit by the car.

**Farmers' Institutes Arranged.**  
Chippewa county is to have six one-day farmers' institutes in March, in charge of a speaker sent out by the state agricultural department. Arrangements for the meetings have been completed. E. H. Wyatt, secretary of the county institute society. The places and the dates are as follows: At Rudyard, March 15; Kinnos, March 16; Pickett, March 17; Pine Grove, March 18; Larch, March 19; Bentley, March 20. W. F. Taylor, of Shelby, Mich., a well-posted authority on Michigan agriculture, has been assigned to speak and will have charge of the six institutes.

#### LIBRARY ART EXHIBITION.

Collection from Chicago Art Institute on View in Houghton.

A loan collection of pictures, representing various branches of art, will be shown at the Houghton public library under the auspices of a number of Houghton women, with Mrs. W. J. Urin in general charge. Mrs. Urin will be assisted by Mrs. Hubbard, Mrs. Baudin and the Misses Allen, Osborne and Wilcox.

The collection is comprehensive and made up entirely of the work of the artists of the Chicago Art Institute. The exhibition will open at 7:30 o'clock this evening and thereafter will be on view every afternoon and evening. For the opening reception, which will be in charge of the general committee, tea will be served by pupils of the domestic science department of the high school.

#### NEW ARMOUR REFRIGERATOR.

Work on demolishing the old Armour & Co. refrigerator on Dodge street, Houghton, occupied by S. Karger & Sons with their wholesale meat business, was made way for a modern building, was begun Saturday and will be completed today. The concern has not as yet announced the letting of the contract for

#### WILL RENATE ESCANABA.

Information has been received by the Thatcher Insurance agency that the Michigan inspection bureau is shortly to begin a re-inspection of all property in Escanaba, with a view of rotating the entire city. A determined effort has been exerted to obtain lower insurance rates and the council at different times has carried out reforms and made purchases of fire-fighting equipment to meet the suggestions of the inspection bureau. A rigid inspection will be made of the entire business district, when special attention will be given to the wiring of buildings. Heavy domestic marks will be given where substandard work is found in basements, and in cases where electric light cords are found hanging over rails. It is expected that the inspectors will begin their work today.

#### QUAKE-PROOF HOMES.

Can man protect himself against earthquakes? Japan says yes, for of recent years she has been applying the results of seismology to the construction of bridges, embankments, tall chimneys and similar works. Built on anti-earthquake principles, these new buildings have up to now defied Japan's persistent quack-medicine efforts to shake them down. Had the houses of Avezano been erected on the Japanese rules instead of on dry-building principles it is likely that they would have been as little less than the steel built houses cracked in all directions, but did not bury their inmates under shapeless ruins.—London Chronicle.

#### A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this just get about four ounces of plain common liquid arvon from any drug store (this is all you will need), apply it at night when retiring, use enough to moisten the scalp and rub it gently with the finger tips. By morning most, if not all, of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single dandruff you may have.

You will find all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft and look and feel a hundred times better.

#### NOTHING WANTING.

Some time when you have a bad cold give Chamberlain's Cough Remedy a trial and you will find nothing wanting in that preparation. It loosens a cold, relieves the lungs, aids expectoration and enables the system to throw off the cold in much less time than the usual treatment. Mrs. L. R. Allison, Logansport, Ind., says: "I have never found anything that gave me relief like Chamberlain's Cough Remedy does." For sale by all druggists.

### PLAYING FAIR

Most advertisers have attained some strong but standing  
feature as an index of excellence, while saying one thing in forty  
thousand different illuminating ways.  
The point of merit must be real, not pretense—you must play  
fair with the people—tell them bluntly, forcefully, understandably,  
sincerely, entertainingly, instructively—sometimes with a bang,  
sometimes with the soft pedal—what you have or can do. The in-  
telligent reader will fill your coffers to overflowing. The simpler  
the better. Saturday, March 13, Rich, Red Old California Port—  
the blood builder this day for medical purposes only—twenty-five  
cents a quart.

### The Superior Hotel

Well furnished rooms. Steam heat.  
Electric lights. All outside rooms.  
Free baths \$2.00 per day.

Jos. E. Michelin Propr. 12-29-15.

A "bank" house is an Arctic hotel  
made of logs with moss chimneys, a dirt  
roof and a dirt floor. A great sheet  
iron stove keeps it warm. Two rows  
of bunks, covered with grass or brush,  
extend along the walls. The old-fashion-  
ed string and latch hold the whip-  
sawed door closed and there is a place  
to cook the meals. To stay over night  
costs a dollar.

### Our Weekly Chat

In his recent speech to the American  
Electric Railway association, which held  
its annual meeting in Washington,  
President Wilson advised his hearers to  
give "A full equivalent for the money  
you receive the full equivalent in service,  
not trying to scrimp in the service  
to increase profits."  
This applies not only to "big busi-  
ness" but to small business as well. It  
is one thing that causes the small busi-  
ness to grow.  
It is one feature that has character-  
ized this store since the beginning. It  
has been and will be our endeavor to  
give you a broad, efficient and satisfac-  
tory store-service. Service here is never  
skimped for any purpose.

—And that is not all. There are 12-  
inch guns at Fort Tompkins and Fort  
Wadsworth that could reach past the  
point where the vessel of the Queen  
Elizabeth class would begin her fire.

### City Brevities

W. H. Masters, of Munising, spent  
Saturday in Marquette.  
Mr. and Mrs. E. W. Fisher, of Munis-  
ing, were in the city Saturday.  
Mrs. T. Duquette left for Chicago last  
night to observe the styles in dress.  
Booth Goodman, of Ishpeming, was a  
Marquette visitor yesterday afternoon.  
C. A. Schaffer and party spent the  
week-end at the Schaffer camp at Onota.  
Miss Josephine Nadeau spent the  
week-end in Marquette, visiting friends.  
James Myers, of Diorite, visited with  
Marquette friends Saturday and Sun-  
day.  
P. P. Thompson, of Diorite, was a  
Marquette visitor Saturday and yester-  
day.

J. F. Chambers left last night for Du-  
luth and Minneapolis, on a several days'  
business trip.

P. P. Wells, who has been in Mar-  
quette for several weeks, left yesterday  
for Billingham, Wash.

Fred L. Keeler, of Lansing, state su-  
perintendent of public instruction, is a  
Marquette visitor for a few days.

Mrs. E. A. Florentine, of Evena, who  
had been visiting with Marquette  
friends, left last night for her home.

Mrs. Kathrine, of Milwaukee, who has  
been visiting Marquette friends for several  
weeks, leaves this morning for her home.

The members of Lake Superior com-  
mandery, No. 30, Knights Templar, will  
meet at the hall tonight at 7:30 o'clock  
for drill.

The merchants will meet at 7:30  
o'clock tonight in the band room of the  
city hall. It will be an important ses-  
sion, and all are urged to attend.

Miss Ethel Hamby went to Oak Park,  
Ills., Friday night, called there because  
of the death of her aunt, Mrs. George  
W. Clegg. Mrs. Clegg was a frequent  
visitor in Marquette and was known to  
many persons here.

F. S. Case left Saturday afternoon for  
Newberry, to attend a meeting of the  
asylum board. He will return to the  
city today. Thomas Conlin, of Crystal  
in Marquette yesterday afternoon, on  
his way to Newberry.

Bible Class Meeting—The quarterly  
business meeting of the adult Bible  
class of the M. E. church will be held  
in the church parlors tonight at 7:30  
o'clock. All members and friends of the  
church are asked to be present to bid  
farewell to Rev. and Mrs. Jacobs, who  
leave Wednesday for their home in  
Lowell, Mich. Refreshments will be  
served.

A Comedy Sketch—Haggerty and Le-  
Claire, in an Irish singing and comedy  
sketch, entitled "Casey, the Butcher,"  
are the vaudeville billing at the Mar-  
quette Opera House for the first half of  
the week. The team gives an excellent  
act. It performed at Ishpeming last  
week. One of the pictures today will  
be "A Tragedy of the Rails," a two-  
reel Edison drama, from the popular  
story "33 Runs Wild." Gertrude Mc-  
Coy and Augustus Phillips are featured.  
"The Noble Role," a Lubin comedy, also  
will be shown.

An Attractive Program—The program  
at the Delft theatre today will com-  
prise the Hearst-Selig news pictorial,  
with a number of "war scenes"; "The  
Girl Telegrapher's Peril," one of the  
Hazard of Helen series; "The Knight  
Before Christmas," a Vitagraph com-  
edy-drama, and "Another Shade of  
Green," a Lubin comedy. Tomorrow  
the theatre will present Robert Ed-  
son in "Where the Trail Divides," a  
Paramount production. On Wednes-  
day Maurice Costello in "The Evil Men  
Do," a Broadway Star feature, will be  
shown.

INSURE WITH PETER WHITE & CO.  
NEW YORK IS SAFE  
FROM BOMBARDMENT  
Experts Say 15-inch Naval Guns Could  
Not Reach City With Forts Intact.

Washington, March 11.—Assertions  
that the long-distance bombardment of  
the Dardanelles forts has demonstrated  
that New York city could be bombard-  
ed, with entire safety to themselves, by  
battleships of the type of the Queen  
Elizabeth and the Agincourt, whose  
guns outrange those in the forts de-  
fending New York, are based on mis-  
information and misapprehension, accord-  
ing to experts here. They said that such  
assertions have been made before, and  
have been shown to have been founded  
on erroneous ideas.

"In the first place," said a prominent  
officer today, "the effective range of  
the guns of the Agincourt or Queen  
Elizabeth is not 26,000 yards. The  
best that has ever been claimed is 23-  
000 yards, while 21,000 yards is the  
safer figure. Now, on the other hand,  
the effective range of our 12-inch  
guns is 23,000 yards, as they are now  
mounted and operated.

"The enemy attacking New York  
would be aloft, and the advantage in  
range finding would be with us. In the  
next place, we have many mortars in  
all those fortifications with an effec-  
tive range of 19,000 yards under ordi-  
nary circumstances, and for which a  
range of 23,000 yards can be safely  
claimed if put to the crucial test.

"Now if any one who is at all ex-  
ercised on the subject will take the  
trouble to get a map of New York and  
the harbor and with a compass strike  
off the radii showing the effective range  
of our guns, they will find that the  
12-inch guns of Fort Hancock will  
reach to a point two miles south of  
Coney Island and a mile west of the  
western point of Rockaway Beach.  
That is the spot from which it is sug-  
gested vessels of the Queen Elizabeth  
type would turn loose on Wall street.  
From that point to the Times building  
is about 26,000 yards, the exaggerated  
range of the guns of the British dread-  
nought. As a matter of fact the 12-  
inch guns at Fort Hancock on Sandy  
Hook can reach effectively some dis-  
tance beyond the point where the bomb-  
arding ship would have to take pos-  
ition.

"And that is not all. There are 12-  
inch guns at Fort Tompkins and Fort  
Wadsworth that could reach past the  
point where the vessel of the Queen  
Elizabeth class would begin her fire."  
Let Conklin fix your watch.

### Mining News

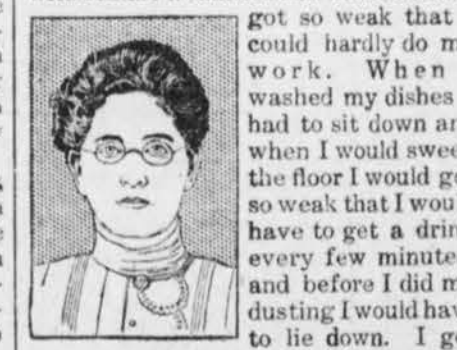

There has been no appreciable change  
in conditions at the Old Dominion  
since the shutdown on last Friday on  
account of water troubles. Advice  
from General Manager Beckett state  
that the water has not risen above the  
sixteenth level, and although weather  
conditions have not changed for the  
better he believes he can cope with the  
situation with the present pumping  
capacity.  
Some idea of what Old Dominion has  
been up against may be gleaned from  
the statement that one day last week  
the pumps handled nearly 14,000,000  
gallons of water, or more than double  
their rated capacity, and comprising  
with normal of not over 4,000,000 gal-  
lons a day. For a time it looked as  
though the water flow had reached its  
maximum, but it finally broke through  
the 12th level, and the unequal fight  
was lost.  
Thus far it is not believed that any  
serious damage has been done. How  
long the property will remain closed it  
is impossible to state, although as  
the extraordinary rain and snowfall  
has been practically incessant since  
Christmas, the Old Dominion man-  
agement hopes that the worst is now over.  
The 16th and 18th level pumps are, of  
course, out of commission, but so far  
as surface is concerned—and that is  
what is causing all the trouble—this is  
not vital, as this flow is handled with  
the pumps on the 12th level and those  
above.  
The Old Dominion management  
naturally much regrets that the flood  
came when the property was making  
such a splendid record as to quality of  
ore and costs, but takes the philoso-  
phical view that it is all a part of  
the mining game.

CORUNNA—Frank H. Rush, admin-  
istrator of the estate of the late Mrs.  
Maudie C. Thompson, who died last Sat-  
urday, has begun suit in the circuit  
court to compel the surrender of Union  
Telephone company stock valued at \$10,  
000. Mrs. Thompson lived here sup-  
posedly in almost destitute circum-  
stances. The administrator asks an

injunction to restrain those now holding  
the stock from disposing of it or collect-  
ing dividends. Those named as defen-  
dants are William Baker, of Louisiana;  
a sister, Mrs. Ella M. Perrin, and a  
niece, Vive B. Perrin, of Detroit; Inez  
P. Day, of New York; Arthur F. Benson,  
of Minneapolis; H. G. Parker, W. J.  
Melchers and the Union Telephone com-  
pany, of Owasco, of which Mr. Melchers  
is general manager.

### COULD NOT STAND ON FEET

Mrs. Baker So Weak—Could  
Not Do Her Work—Found  
Relief In Novel Way.

Adrian, Mich. — "I suffered terribly  
with female weakness and backache and  
got so weak that I  
could hardly do my  
work. When I  
washed my dishes I  
had to sit down and  
when I would sweep  
the floor I would get  
so weak that I would  
have to get a drink  
every few minutes,  
and before I did my  
dusting I would have  
to lie down. I got  
so poorly that my folks thought I was  
going into consumption. One day I  
found a piece of paper blowing around  
the yard and I picked it up and read it.  
It said "Saved from the Grave," and  
told what Lydia E. Pinkham's Vegeta-  
ble Compound has done for women. I  
showed it to my husband and he said,  
"Why don't you try it?" So I did, and  
after I had taken two bottles I felt  
better and I said to my husband, "I don't  
need any more," and he said "You had  
better take it a little longer anyway."  
So I took it for three months and got  
well and strong."—Mrs. ALONZO E.  
BAKER, 9 Tecumseh St., Adrian, Mich.  
**Not Well Enough to Work.**  
In these words is hidden the tragedy  
of many a woman, housekeeper or wage  
earner who supports herself and is often  
helping to support a family, on meagre  
wages. Whether in house, office, fac-  
tory, shop, store or kitchen, woman  
should remember that there is one tried  
and true remedy for the ills to which all  
women are prone, and that is Lydia E.  
Pinkham's Vegetable Compound. It  
promotes that vigor which makes work  
easy. The Lydia E. Pinkham Medicine  
Co., Lynn, Mass.

"A Bank account pays a large dividend  
socially, in addition to its steady fi-  
nancial returns."  
—J. PIERPONT MORGAN

THE man who would draw success  
to him—the man who would  
win the confidence and respect of others,  
must have confidence in himself.

No man can have this necessary con-  
fidence unless he has established himself  
and has control over himself, his habits,  
his money and lives with a purpose.

The man who saves is the man who is  
trusted, and helped. His standing in  
the community is high. His honor and  
integrity is reflected upon his family.

Start an account here, and add to its saving benefits the prestige of an  
intimate connection with a bank of character and record like ours.

### SHOT LIKE RABBITS AS THEY CLIMBED

Hungarian Novelist Describes the Russian Attacks in the Carpathian Snow.

London, March 14.—The Morning Post's Hungarian correspondent says that Francis Molnar, the popular Hungarian author, contributes a vivid description to the Budapest newspaper, Azest, of two Russian attacks in the Carpathian mountains in the last days of February. His account, which is dated February 27, from the Imperial and Royal Press Headquarters in the Carpathians, is as follows: "Officially it was reported north from the line Battfeld-Tepreges-Flora the Russian attacks have been unsuccessful. What this sentence really means I had exceptional opportunity of witnessing in the mountains. "The Russians toward evening attacked the mountain on the slopes of which, high up, were our trenches. They

started from the valley below, but the snow was so deep it had to be shoveled away to make the advance possible. In the steep places steps were cut. "From the heights the Russians could be seen breaking their way through the snow and slowly creeping upwards in six regularly divided lines, one behind the other. The same distance was kept between the lines as they followed each other, the men being two paces apart. After every man of the first line came five others. This meant that the first or even the second line was destined to fall. "These two broke a way in the snow, which came up to their necks, so as to make way for three others continuing in their path. "Our officers warned the Tyrolean troops in the trenches to keep cool, aim slowly and shoot precisely. In the semi-darkness none could see clearly the small black figures as they broke their way through the white snow, as their advance was naturally slow. The sharpshooters simply picked off the first line. They had ample time to aim at a figure two or three times if they happened to miss him at first. "Then the second and third line followed the path in the snow, but these advanced already in closer line and in our trenches the machine guns began their work. The Russians shot very seldom, for they had enough to do to force their way ahead. The machine gunners thus had ample time to aim accurately, beginning from the first man on the left to the last one on the right flank. Soon all three lines were lying in the snow. Another three of the Russians' lines were still advancing in a way which suggested unparalleled bravery and endurance. Soon, however, they became exhausted. Many were wounded or killed by rifle and machine gun fire and in an hour or so no more figures

were seen moving in the snow, many of them having returned to the valley. "Our officers said they simply did not understand the military meaning of such an attack. They surmised, however, that a general from some other part of the front and ignorant of the nature of the ground had ordered the attack delivered at whatever cost. The six lines were drawn from the gallant Siberian Corps. "I was present the next day when the prisoners were examined, and these men said that out of three regiments engaged in the attack, only 650 men returned. "I saw another unsuccessful attack around the village. This village is situated in the valley between two elevated lines; this means that north of the village on top of a hill are the Russians and south of it on the mountain slopes are our trenches. The two lines are lying at each other over the village, and it one side wants to attack the other it has first to descend to the village. The Russians have a serpentine road leading down to the village. Our guns were ranged a week ago on every point of this serpentine road, while the heavy artillery had every house of the village covered. "The Russians here again proved their utter contempt for death. During the day they descended in small groups from their entrenchments to the village so as to gather there for a contemplated night attack. "As long as this movement continued we did not touch them, for our command wanted to know precisely how many of them would come and wished to begin the action only after this had been ascertained. "Up to the afternoon 800 were counted by our observers and when these were all in the village a message was

### COLONIES ASK VOICE IN SETTLING THE WAR

Closer Federation of the British Empire Is Foreseen as a Result of the Strife.

London, (Correspondence), March 1. Whatever may be the outcome of the great war there is no doubt that it will not end without having done much to bring about the closer federation of the British empire. There are many who

believe that it will give the final impetus to the movement for the establishment of the United States of Britain with an Imperial parliament, in reality as well as in name, to govern the sister states. There never has been a time in the history of the British Empire when conditions were more favorable for the accomplishment of this ideal. The grant of home rule to Ireland has removed one cause of friction not only in the home islands, but throughout the empire, for there is no doubt that the great influence of the Irish in the dominions beyond the seas did much to keep apart the dominions and the home land. Now this friction is removed and the Irish in the dominions, as at home, are among the most loyal supporters of the empire, in which they are about to take their rightful place as full partners. "May Unite Colonies. It is not proposed at present and, indeed, it would not be practicable to include the crown colonies in any scheme of federation. The proposal is that the self-government dominions should be given an equal share in the common government of the empire and that possibly India might be included. Egypt has become a member of the family so recently that she has not yet been seriously considered. Before the war there was, of course, a large volume of opinion in favor of the scheme of federation, and one of its foremost advocates was Earl Grey, formerly governor general of Canada. It must be admitted, however, that the movement languished and that even in the dominions themselves there was little enthusiasm for it. The people of the dominions felt that they were getting on very well as they were. The war, however, has changed all

### DON'T SUFFER WITH NEURALGIA

Musterole Gives Delicious Cornfort. When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little MUSTEROLE on the temples and neck. It draws out the inflammation, soothes away the pain—gives quick relief. MUSTEROLE is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister! Doctors and nurses frankly recommend MUSTEROLE for Sore Throat, Bronchitis, Croup, Stiff Neck, Asthma, Neuralgia, Congestion, Pleurisy, Rheumatism, Lumbago, Fains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chillsains, Frosted Feet—Colds of the Chest (it often prevents Pneumonia). At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50. Be sure you get the genuine MUSTEROLE. Refuse imitations—get what you ask for. The Musterole Company, Cleveland, Ohio.

### TO REMOVE DANDRUFF

Get a 25-cent bottle of Danderine at any drug store, pour a little into your hand and rub well into the scalp with the finger tips. By morning the dandruff is not all, of this awful scurf will have disappeared. Two or three applications will destroy every bit of dandruff; stop scalp itching and falling hair.

# Change in Ownership Sale

## The H. F. Handford Shoe Stock Sold

Having purchased this stock of Shoes from Mr. Handford I am placing every pair of Shoes in the store on sale at prices never before offered the public anywhere. Highgrade Footwear at less than cost of manufacture. This change of ownership is bonafide. The sale is bonafide. I mean business.

## This Stock Must Be Sold to Make Room for New Goods

In order to dispose of the old stock as soon as possible I am slashing prices regardless of cost or loss. You benefit. These Shoes are going to be sold, some of them, for LESS THAN ONE HALF what they cost wholesale. It makes no difference whether you need a pair of shoes now or not---it will pay you to buy now for future use. You never will get another chance.

### COME AND SEE THE SHOES AND THE PRICES

#### Ladies' Shoes

I have divided all the Ladies' Shoes in this stock into three lots.

(Ishpeming News Continued on Page 7.)

### TEAM NO. 7 LEADS BOWLING LEAGUE

Nos. 4 or 9 Must Win Three Straight to Tie and Are Not Likely to Do It.

Team No. 7, composed of Grummett, Quayle and Gleason, will undoubtedly hold first place in the Ishpeming Businessmen's Bowling League, although Nos. 4 and 9, by taking three straight, can tie No. 7. However No. 4 is not likely to take three straight from No. 7, the way the teams have been going.

C. E. Thompson improved his average by two points last week, and now has the high individual average neatly stored away. In his last match Thompson also bettered the high score of 233 by rolling 246. Thompson is expected to do good work at the Upper Peninsula tournament at Marquette this week. Ishpeming is going to send its best bowlers to the tournament.

The strong C. C. I. team showed in its match against Negaunee last week that they have good staying qualities in the face of defeat. They made a bad start in the first two games, but came back strong in the last one and made a total of 2,668, which is higher than any team has rolled in Marquette, so far. The C. C. I. team has not rolled a match lower than 2,668. Its score in every match being around 2690 and 2690. Interest in the tournament is at a high pitch and Thursday, Ishpeming Day, will, according to all accounts, be a hummer. Some thirty or forty bowlers will go down.

No. 4's high match of 1,611 was exceeded during the week by No. 8, which rolled 1,641, a very good score. At the same time they took No. 2's high single record of 595, making 692. The best bowling of the week was done by Gray and Johnson.

Four five-men teams will go to Marquette. The bowlers are also entered in singles, doubles and triples. Ishpeming has a team entered in the tournament who call themselves "Dark Horses." Who they are nobody will know until their time to roll is announced.

The team standings March 13 were:

Team	W.	L.	P.C.	Ave.
No. 7	18	6	750	591
No. 13	18	6	425	530
No. 9	15	9	625	497
No. 10	13	11	541	496
No. 8	14	13	518	497
No. 2	11	13	458	501
No. 1	12	15	444	491
No. 3	11	16	407	478
No. 6	10	16	373	473
No. 5	8	16	335	466

The individual standings follow:

Name	G.	Ave.	Tot.	High
Thompson	27	184	4977	246
Gray	24	179	4313	227
Brickson	24	178	4293	221
E. Hendrickson	24	178	4272	232
Braastad	24	176	4237	221
Quayle	24	176	4225	228
Grummett	21	175	3671	226
Johnson	27	172	4654	205
Hayden	24	172	4144	225
Geelan	27	168	4550	233
Lindberg	21	168	3692	211
Bettison	21	167	3523	194
Dyer	18	166	2988	204
Schilling	27	165	4478	223
Heindel	27	165	4467	223
Lundin	24	163	3912	205
Campbell	24	161	3863	205
Anderson	21	161	3384	191

Riedinger	24	140	3380	181

High match—1,641, team No. 8.  
High single match game—692, Team No. 8.  
High individual game—246, C. E. Thompson.  
High individual match—626, Jack Gray.  
Low match—1,270, team No. 8.  
Low single match game—401, team No. 6.  
Low individual game—99, E. E. Riedinger.  
Low individual match—362, J. R. Martin.

#### Weekly Digest.

Team No. 7 has just about cinched first honors. They have one match left to bowl and that is against No. 4. "Peck" Bettison is the life of No. 4.  
Geelan made 233 in the beginning of the league and nobody touched it until almost the finish, when Thompson in his last match made 246. Pop now has no laurels to rest upon.

Riedinger is again back in the cellar position. He likes the place, and would just as soon be there as next to last, as the public can pick out his name quicker.  
Martin showed up last week and managed to squeeze in fifteen games, incidentally boosting his average from 138 to 147. Martin claims that next year he will give them all a race for high average.

Hayden couldn't stand the strain last week, and fell back two points.  
Too bad Burke was not in the form at the beginning that he has been showing lately. He has been going at a good clip and would probably finish with the big ones if the league had three weeks more to go.

Pete Denn, who many think is out of the game, still makes us young ones hustle and much credit should be given him for the standing of his team, which is tied for second place.

Only three matches remain to be rolled off, and it is hoped that the boys will finish up before Thursday, March 18, which is Ishpeming day at the tournament at Marquette.

Braastad again lowered his average one point, and next year he plans on visiting Mr. Schmidt, of Chicago, for at least a month or more.

Geelan finished at 168 average.

Mrs. Peter Cullen has returned from Coleraine, Minn., where she visited her daughter, Mrs. Dennis Callaghan.

### MEMBERS WITHDRAW FROM A. O. U. W.

Proposed Transfer to Iowa Jurisdiction Would Mean Heavy Payments by Them.

Michigan members of the Ancient Order of United Workmen, who since the dissolution of the Michigan grand lodge, have been paying their dues to the Supreme lodge, have been informed that they are to be transferred to the Grand lodge of Iowa. With notice to this effect came statements asking for payments of amounts from \$80 up to more than \$200, which, the supreme lodge officers say, are required to place them on a fair footing with others affiliated with the Iowa grand lodge, on the age basis. These special assessments, which can be paid in installments, are charged against the certificates in the event of death and represent the difference in the mortality experience of the Grand lodge of Iowa and the Supreme grand lodge jurisdiction.

The membership of the society in Ishpeming has been reduced to about twenty-five and a few of these members Saturday said that they believed the entire number would surrender their policies, as they felt that they are being imposed upon. For several years past they have been paying exceptionally high assessments. Some of the older members have paid on \$2,000 insurance all the way from \$10 to \$14 a month.

For some time before the Michigan grand lodge went out of existence Michigan Workmen were frequently called upon to pay extra assessments and the calls came so rapidly, and for such large amounts that many of them quit the order. The younger members who transferred to the supreme lodge jurisdiction were fairly well satisfied with the assessed rates, but they are now hit by the plan to transfer them to the Iowa branch of the order.

### A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards Olive Tablets, who will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter that one's system collects.

If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women, as well as men, take Dr. Edwards' Olive Tablets now and then just to keep in the pink of condition.

Dr. Edwards' Olive Tablets, the successful substitute for calomel—10c and 25c per box. All druggists. The Olive Tablet Company, Columbus, O.

and the extra assessments levied because of the transfer would weigh particularly on the older members. One Ishpeming member, who some years ago reduced his insurance from \$2,000 to \$500, has been notified that a lien of \$80 has been placed against his certificate, representing the amount which has been contributed by the class B members of his age. This lien, unless paid by him, will draw 4 per cent compound interest, which is the legal rate required by the statutes of Iowa upon the valuation of certificates, and will be deducted from the amount of his insurance at his death. He was further notified that there will be an additional lien of \$213, which represents the difference in the mortality experience of the Iowa grand lodge and supreme lodge. The second lien will be reduced by the amount of each assessment paid until it is entirely wiped out. However, if the member can furnish a health certificate satisfactory to the grand master workman of Iowa this second lien will not be made effective.

In the event the member desires to pay the amount of the first mentioned lien he can do so upon passing a medical examination. Unless this is paid and the medical examination is accepted, the sum, with interest, would be deducted from the face of the policy.

The grand lodge of Iowa has been operating on a legal reserve basis, as required by the national fraternal congress table of mortality and the Iowa statutes. It is said that the Iowa grand lodge is in a prosperous condition, and that it is in the hands of competent management, but as all of the members here are well advanced in years the rates that they would be required to pay are very high.

For some time before the Michigan grand lodge went out of existence Michigan Workmen were frequently called upon to pay extra assessments and the calls came so rapidly, and for such large amounts that many of them quit the order. The younger members who transferred to the supreme lodge jurisdiction were fairly well satisfied with the assessed rates, but they are now hit by the plan to transfer them to the Iowa branch of the order.

At one time the Ancient Order of United Workmen was the leading fraternal society in Ishpeming. During its active period it had a membership in excess of five hundred and one year it carried away the state prize for the largest percentage of gain. In one class, adopted about twenty-six years ago, 110 members were taken in.

### "HAZARDS OF HELEN" TONIGHT

The Dramatic Mirror commented as follows on the fourth episode of "The Hazards of Helen," which will be included in tonight's picture program at Ishpeming theater.

"It is naturally rather an exaggerated statement, no matter how much a certain picture deserves praise, to say that it is 'the best there is' for we may find soon some railroad producer who will entirely eclipse 'The Stolen Engine,' but we doubt it."

Other pictures to be shown are the Hearst-Selig News Pictorial, "The Fable of the Club Girls and the 'Four Times' Veteran," Essay comedy; "The Wonders of Magnetism," Edison educational, and "A Weighty Matter for a De-

### Lawrence College Appleton, Wisconsin

Do you want to be thoroughly prepared for the responsibilities of life? Do you want to take a place in the world, physically, socially, mentally equipped to live your own? THEN GO TO COLLEGE.

1. It is beautifully and healthfully located.
2. It has sixty-five years of successful work back of it.
3. It is on the "Accepted Lists" of the General Educational Board of the Carnegie Foundation, and of the German Universities. It has chapters of Phi Beta Kappa and the Association of Collegiate Alumnae.
4. It has a faculty of forty-six specialists.
5. It has been more successful in intercollegiate athletics than any other college in the Middle West. For four successive years it has held the Wisconsin state championship in football, and for the past two years the state championship in basketball and in track.
6. Its credits are accepted without discount at the best universities of America.
7. Last year it won the Wisconsin state contest in oratory, all three of its intercollegiate debates, the Wisconsin state Latin contest, and took second place in the Interstate Oratorical Contest.
8. It is an inexpensive college.
9. It is finely equipped with apparatus and buildings.
10. It maintains high scholastic and character ideals.

Catalogue Furnished Free on Application. 3-12-15

"an Edison comedy." Norwood & Anderson, who are presenting a comedy sketch, "What Else Could He Think?" will be the vaudeville attraction tonight, tomorrow and Wednesday.

### EFFICIENCY IN GUNNERY.

Lyman H. Howe Shows Some Highly Interesting Views of U. S. Navy.

One of the things impressed on those who see Lyman H. Howe's reproduction of every phase of life in the United States navy, which will be shown at Ishpeming theater a week from Wednesday, the 24th, is the fruit of "scientific management." Our gunners, for instance, did 1,200 times better at Vera Cruz than at Santiago. In the Spanish-American war our bluejackets fired one shot in five minutes and hit only one time in thirty. Today our men fire two shots a minute, and at a distance of over 6 miles hit the bull's eye one time in every three. And they hit the target every single time.

And here's another striking fact: The coating of a battleship in past years has been a slow process. Several years ago it took an hour to take aboard and store thirty tons of coal. Our super-dreadnaughts of today—in

the same time load from 330 to 350 tons and one of them has recently made a record of 550 tons in an hour. How this is done is shown by Lyman H. Howe's film.

Frank Goodman, who has charge of mining properties at Hurley, Wis., spent yesterday with his folks here.

George B. Sedgwick arrived home Saturday, on a few days' visit to his mother and other relatives.

### SELLERS KITCHENEEDS FITTED WITH SELLERS NEW PORCELAIN TABLE TOP

Can now be bought at this store for the first time in this city.

### THIS NEW TABLE TOP

is the greatest improvement that has been made on kitchen cabinets in years and is the only absolutely perfect work table on the market.

It is as white as snow and as easily cleaned as a china plate. Heat or cold cannot affect it. Its glossy surface, as smooth as flint, remains the same after years of use and with ordinary care will last a lifetime.

### JUST THINK THIS OVER

When you buy your kitchen cabinet, you will want and have a right to expect one that will give you years of service. The work table should be made of material that will last as long as the cabinet, can be easily cleaned and kept clean.

For years, all cabinet manufacturers have covered their work tables with nickleoid, nickelene or aluminum. All of these materials have been found wanting in some respect and begin to show signs of wear from the first day they are used. Then, too, these tables were placed alike on all grades of cabinets and you were offered no better work table with the high grade cabinet than you were with the moderate and low priced ones.

There has been a growing demand for a table top that would "Stand the test of time." That demand can now be satisfied with this new "Porcelain" work table on any Sellers Kitcheneed.

You are cordially invited to call and inspect our new line of Kitcheneeds fitted with these new worktables. We agree to prove to you by actual test at our store the superiority of this Table Top over others and to make good all our claims for it.

F. BRAASTAD & CO.

### Ishpeming

#### ISHPEMING IN BRIEF.

A daughter has been born to Mr. and Mrs. I. Mills, 607 North street. The infant daughter of Ainsworth Thompson, North Third street, died Friday. The funeral was held Saturday morning, with services at the house, conducted by Rev. Jacobson.

The Junior B. basketball team of the Y. M. C. A. defeated the Beaver Patrol team of the Negaunee schools Saturday afternoon at the "Y" gymnasium, the score being 15 to 14. The Junior B. lineup was Edgar Wahlman, center; Harold Olds and Lawrence Butler, forwards; Osborne Williams and Harold Sundberg, guards. The Negaunee team's lineup was: Liverton, center; Jewell and Fare, guards; Collins and Roger, forwards. Edgar Swanson of the Y. M. C. A. was the referee.

Mrs. Watters, wife of W. H. Watters, a former well-known business man of Ishpeming, died Saturday in St. Louis, Mo. Mr. Watters, who represented the Plato Powder company in Marquette county for many years, left Ishpeming more than fifteen years ago. He and Mrs. Watters had been frequent visitors to relatives and friends in Ishpeming and Negaunee since they moved East. The deceased was a sister of the late Captain Samuel Mitchell of Negaunee. Besides the husband, there is one daughter surviving.

Several pictures of exceptional merit are included in this week's bookings at the Ishpeming theatre. Tonight's program includes the fourth episode of the "Hazards of Helen" series, said to be one of the best railroad pictures ever filmed, and the Hearst-Selig News feature. Tomorrow, matinee and night, "The Idler," the first five-reel feature to be shown here in some weeks, will be presented. Wednesday, matinee and night, the program will include the thirteenth episode of "Zudora" or the "820,000,000 Mystery" and "Any Woman's Choice," featuring E. X. Bushman. Thursday, Sophie and Slippery Slim will be offered, in "Sophie's Sweetheart." Friday night, part one of "The Fates and Flora Fourflush," entitled "Trenchery in the Clouds," will be shown, in addition to the "Exploits of

Elaine" and other good pictures. "The Fates of Flora Fourflush" is a burlesque on the sensational serial pictures and is said to be most diverting. It is a Vitagraph production and will be shown in three parts.

#### "A PAIR OF SIXES."

H. H. Frazee's worldwide success, "A Pair of Sixes," comes to the Ishpeming theatre on Friday of next week, the 25th, direct from its run of nearly a year at the Longacre theatre, New York city. Never in the annals of farce have so many people laughed so much and so long as at "A Pair of Sixes," where they watch the frenzied efforts of the two quarrelling partners to beat each other. The efforts of the office staff to please this almost impossible combination is almost as funny as the strife of their elders, and the lawyer and the fair girl who injects the love interest also add their quota of laughter. Mr. Frazee has probably never put over a play so entirely satisfactory as "A Pair of Sixes."

#### WHEN MARQUETTE PEOPLE

Publicly Testify, It's Evidence Not to Be Ignored.

When residents of Marquette are willing to recommend Doan's Kidney Pills in this paper, is there any good reason to try a kidney backache or bladder remedy that is not as well recommended? Mrs. Leonard Richer, 407 Rock St., Marquette, says: "One of my family had kidney and bladder weakness and had little control over the kidney secretions at night. We tried remedy after remedy and spent a great deal of money, but nothing brought relief until Doan's Kidney Pills were used. They improved this person's health and acted beneficently in every way. The public endorsement I give Doan's Kidney Pills some years ago holds good. I still think they are the best kidney remedy anyone can buy. The one of our family who took them has not been bothered by her kidneys or back since." Price 50c. at all dealers. Don't simply ask for a kidney remedy--get Doan's Kidney Pills--the same that Mrs. Richer recommends. Foster-McLure Co., prop., Buffalo, N. Y. Cotton seed meal is gaining popularity as cow feed in Canada.

### Negaunee Department

### MANY LUMBERMEN CLOSE THEIR CAMPS

Soft Weather Puts an End to the Season's Operations in the Woods Hereabouts.

Owing to the continued soft weather of the past week, a number of lumbermen who have been operating camps near Negaunee and along the line of the Chicago & Northwestern railway have had to give up work for the winter. Some operators took advantage of the two weeks cold snap in February and got most of their winter's cut out of the woods.

The warm weather has ruined practically all of the ice roads over which the operators were hauling, and has left the roads in the thickly timbered stretches in a soft condition, which necessitates the cutting down of the size of the log loads hauled over them. On the plain near Negaunee and Maple Ridge there is little or no snow left on the roads, and the jobbers who depended on these roads will either have to wait until after the break-up in order to use wagons or leave the logs in the woods until next winter.

Most of the Negaunee operators report a successful season, and they have now discontinued operations. Some of the operators had jobbers getting out timber, most of which has already been disposed of, besides conducting camps on a large scale themselves. The prices paid for timber this year were not as good as in former seasons and a number of operators have had their output hauled to the railway sidings with the intention of leaving it there to await an advance in the market. The highest prices paid this year were for pulp wood and thousands of cords of the product were shipped to the paper mills in Northern Wisconsin. For several weeks during the months of January and February the Chicago & Northwestern and Duluth, South Shore & Atlantic railway companies moved an average of 100 cars a day of pulp wood from camps in Marquette, Alger, Delta and Baraga counties.

Labor conditions were most favorable as men were looking for work and the wages paid were lower than for some years. In past years when the mining companies operated their properties nearly at capacity the lumbermen were handicapped by the lack of men and were often forced to pay exorbitant wages to inexperienced hands.

#### WILL GIVE PLAY.

Republic Knights of Pythias Will Present "A Woman's Honor."

The members of Beacon lodge, Knights of Pythias, of Republic, assisted by several ladies of the town, are rehearsing a drama, entitled "A Woman's Honor," which they will present at the Pastime theatre after Easter. The cast of characters follows: Gen. Mark Lester, a hero of the Cuban Ten Years' War. David Davidson Pedro Mendez, his half-brother.

Dr. A. J. Peters Dr. Garcia, surgeon of the Madonna. Gilbert Hall, M. D., in love with Olive. Arthur Carlson Robert Glenn, a Wall street banker. Al J. Hocking Gregory Grimes, Lester's private secretary. W. E. Nelson E. Nelson Glenn's brother, Arthur Uberg Sally, Glenn's daughter. Mrs. A. J. Hocking Olive, Glenn's daughter. Mrs. R. B. Wallace Maria, wife of Pedro. Mrs. W. E. Nelson

#### TO AMEND COMPLAINT.

New Start to Be Made in Case of Gaffney vs. C. C. I. Co.

Mrs. Ellen Gaffney, of Negaunee, through her attorney, Andrew Nelson, of Duluth, has filed an amended complaint in the district court at Duluth, in the action against the Cleveland-Citizens Iron company for \$3,000 damages claimed

of the alleged removal of her mother's and father's bodies from the former Catholic cemetery here.

Judge Cant recently sustained a demurrer interposed by H. J. Gramis, attorney for the mining company, on the ground that the complaint did not allege facts which, if proved, would constitute a cause for action. The court gave the plaintiff's attorney leave to amend the pleadings.

The remains of Mrs. Gaffney's mother, Mrs. Annie Kilgallen, who died in 1875, were buried in the Negaunee cemetery, and later those of her father. She alleges that when the old cemetery was abandoned they were moved without her consent.

### PAYABLE ON DEMAND

If you carry money on your person or have it in your home it is "payable on demand." When the burglar comes 'round you not only lose your money but your life is in danger. Fool the burglar and deposit your money in this bank. Your money will be safe and draw interest.

### Negaunee National Bank

Morgan Quinn and John Johnson.

#### FUNERAL TOMORROW.

Mrs. Robert Rigg, a well-known Negaunee resident, died at 5 o'clock Saturday morning at her home on Merry street. Mrs. Rigg had been in poor health for the past eight weeks and early last week her condition became critical. She was forty-nine years old and had been a resident of the city for almost twenty years. Besides her husband four daughters, Mrs. W. H. Jones, Elsie, Edith and Doris, and one son, Harry, survive her. The funeral will be held tomorrow afternoon from St. John's Episcopal church, Rev. R. T. Hicks will conduct the services.

#### "EXPLOITS OF ELAINE."

The first two reels of the Pathe Film company's serial, "The Exploits of Elaine," will be shown at the Star theater tonight in connection with the regular program. They tell of the adventures of a scientific detective in his search for a super-criminal. The pictures will also be shown tomorrow night. The other pictures on tonight's program will be "Broncho Billy's Christmas Spirit," an Essanay Western drama, "Auntie's Portrait," a Vitagraph comedy, and "The Girl of the Open Road," an Edison drama.

#### REMOVE TO EVELETH.

Captain Michael B. Kelly and family, former well-known Negaunee residents,

last week removed from Hurley, Wis., to Eveleth, Minn. Captain Kelly has been employed at the Montreal mine at Hurley for the past seven years, but he recently resigned to accept a better position on the Mesaba range. He is succeeded at the Montreal by Joseph Stevens, another former Marquette county man. Mr. Stevens has recently been employed as shift boss at the Pabst mine, Hurley. Before he left Hurley, Captain Kelly was presented with a gold watch, valued at \$110, by the employees of the Montreal mine. The presentation was made at the dryhouse. The ladies of Hurley presented Mrs. Kelly with a silver set and a silver bowl.

#### NEGAUNEE LAONICS.

Mrs. J. Olsen spent the weekend at Gwinn, where she was the guest of relatives and friends. Rudolph Olsen has returned from Escanaba and Menominee, where he spent several days on business. Earl W. Bell, a former resident of the city, is here from Lansing, to spend a few days on business.

A large force of men was employed by the city Saturday digging drains and opening up catch basins. W. A. Garner came up from Munsing Saturday, to spend the weekend here visiting with Mrs. Garner.

Miss Ruth Treloar, of Doric, is spending a few days here as the guest of Harry Chapman and family. Mrs. Samuel Goodman and daughters, Pearl and Viola, were the guests yesterday of relatives at Marquette.

Mr. and Mrs. W. H. Bowen have returned from a several weeks' visit with relatives and friends at Detroit.

Mrs. Thomas Gribble has returned from Gwinn, where she spent the greater part of last week visiting with friends.

Mrs. L. Sher, who has been confined to the Negaunee hospital for several days, has returned to her home on Iron street.

Miss Catherine A. Quinn has gone to the lower peninsula, where she will spend a few weeks visiting with relatives and friends.

Fred C. Bennett has returned from Republic, where he gave a song recital on Saturday evening at the Pastime theatre.

DINNER THEATER! DANCE!! The last of the successful season of Masonic parties, March 19, at Colonial Hall. A special feature of this party will be the dinner of winter-caught Lake Superior whitefish, prepared by our own best chef. At the close of dinner the Masons and their ladies will be entertained in the Opera House theater until 8:30. Marquette Clark will be shown in "Wildflower," a Paramount feature, and Charles Chaplin, the great comedian, in "His New Job." Following the theater party continuous dancing until 11:15 p. m. (3-11-15)

#### NEGAUNEE LAONICS.

Fred Pascoe visited yesterday with friends at Marquette.

Arthur Francis, of Gwinn, visited with Negaunee friends Saturday.

William Cushing, of St. Ignace, spent yesterday in the city, visiting with his folks.

Mr. and Mrs. Jacob Aho, of Ann street, are the parents of a daughter, born Saturday.

HUNGER THE BEST SAUCE. There is no sauce equal to natural hunger. If you would relish your meals like a hungry boy, take Chamberlain's Tablets. They improve the digestion and create hunger. H. D. Parmenter, Criderville, Ohio, writes: "I have used Chamberlain's Tablets for stomach trouble, biliousness and constipation of and on for the past ten years and have never seen their equal yet." SATURDAY "THE MAN FROM THE SEA" Lubin feature.

Watch for date of "AMERICA" THE WONDERFUL SEVEN-REEL SPECTACULAR PRODUCTION FROM THE NEW YORK HIPPODROME.

SUMMER COURSE IS DISCUSSED

Opening of the Manual Training School During Vacation Months for Boys Who Are Not Employed Is Favored by Many Who Have Studied the Plan.

Fred L. Keeler, State Superintendent of Public Instruction, is in Marquette Aiding in the Selection of Equipment for the New Normal Building.

Since the meeting of the board of education last week, there has been general discussion of the plan of teaching manual training in the Marquette schools during the summer months. Many persons who have inquired into the proposal have endorsed it, saying it would mean much to the boys, many of whom now spend the summer vacation in idleness.

In Ishpeming, summer training has been carried out successfully, and will be conducted again this year.

Superintendent Keeler, here.

Fred L. Keeler, of Lansing, state superintendent of public instruction, is in Marquette for a few days, discussing with President Kaye, the equipment that will be provided for the Northern State Normal administration building, which will be completed within a few months.

MR. WALKER TO "ONE WHO TRAVELS"

Points Out Discrepancies With Facts in Letter on Passenger Fare Issue.

"On the Line, March 12, 1915. Editor Marquette Mining Journal: Dear Sir:—Referring to article in your paper of this morning, signed "One Who Travels," I do not like to take up your space in this matter, but apparently the gentleman who writes these articles has such a wrong conception of many things that he should be set straight, even though it is quite probable that very few attempt to follow his line of reasoning.

"He states that 11-10ths of the passenger earnings come from the traveling men, or rather, men of his profession. This statement is ridiculous. It is a well known fact that most traveling men travel on mileage books, which are sold on 25¢ cents per mile basis, and during the year 1914 our total receipts from mileage books amounted to 2.4 per cent of the gross passenger earnings. It will, therefore, seem apparent that his estimate that 11-10ths, or about 70 per cent, comes from the traveling men is grossly exaggerated.

"As to his statement regarding the increase granted in freight rates, in this he also grossly exaggerates. We did have a slight increase in merchandise rates, which figures 1.4 or about 1.5 per cent on the base of business which it covers, and it only covers a very small proportion of the general freight business of the railroad.

"He is also in error when he says we received any relief from the interstate commerce commission. If he scanned the form himself he would find that the increase granted by the interstate commerce commission only applied to lines in southern Central United States territory, and that lines west of Chicago territory, which include Mackinac and South St. Marie, received no benefit from this so-called 5 per cent advance.

"He is also inaccurate in stating that we get any benefit from any increase in interstate passenger rates.

"He states that all fair-minded men would be glad and happy to grant an increase in revenue to 2½ cents a mile. If that is so, he ought to be satisfied because that is now what he is paying by the purchase of mileage books.

"He thus favors an increase of 50 per cent. As a matter of fact he would not be increased at all, provided the court decided that 18¢ cents was not a fair rate for this railroad, and even if it were decided that two cents were a fair rate, the increase would be 25 per cent, instead of fifty, another slight exaggeration.

"I note the gentleman's modesty about talking to us about our taxes. We have

nothing to conceal about our taxes. Our observation is that we are taxed to the full extent on the property which we operate.

Yours very truly, "W. W. WALKER," "Vice Pres. and Gen. Manager."

ASKS FOR SUGGESTIONS. W. A. Ross Would Have Prize Lists for Fair Departments Studied.

HANDFORD STORE IS TRANSFERRED

One of City's Oldest Mercantile Establishments Purchased by Victor Erfft.

The Handford shoe store, one of Marquette's oldest mercantile establishments, was Saturday sold to Victor Erfft, of this city, who will take over the business this morning.

Mr. Erfft announces a clean-up sale to open today, during which he will endeavor to dispose of the entire stock. On its conclusion the store will be restocked with the up-to-date footwear.

The store, located in the Adams block on South Front street, has recently been remodeled. It now has an attractive front, and the interior has been put in first class condition. Mr. Erfft plans the installation of new fixtures, and will make the store as well equipped as any in this part of the peninsula.

Harry F. Handford, the former proprietor of the store, will now devote his time entirely to his duties as superintendent of the poor for the first district of Marquette county. He had been in business at the Frost street stand for thirty-five to thirty-six years.

CONFIRMS AUTHORITY OF HEALTH OFFICER

State Veterinarian Authorizes the Tests of Cattle and Condemnation of Infected.

The authority of the health officer to make tuberculin examinations of cattle, as required by city ordinance, and to condemn cattle hopelessly affected by the disease has been confirmed by the action of the state veterinarian, Dr. Dumphy, who Saturday reported on a cow examined and ordered on adversely by Dr. Main. Dr. Dumphy was accompanied here by Secretary Harper, of the state livestock sanitary commission.

This action by Dr. Dumphy upholds the contentions of the city commission, City Attorney Brown and others who have looked into the matter that the health officer has full power to make such tests and to condemn diseased cattle, a thing that has been questioned by some persons. One man even went so far as to threaten the head of the health department with arrest for violation of the practitioners' act.

Dr. Main recently wrote to Attorney General Fellows for an opinion as to his authority, and Mr. Fellows left the matter entirely in the hands of Dr. Dumphy. The latter's action furnishes a precedent for all future cases of this sort.

OUTLAY IN MARCH WILL SHOW DECREASE

Cost of Poor Relief in the County as High in February as in January, Last.

The cost of poor relief to Marquette county in February was about the same as for January, according to H. E. Handford, superintendent of the poor for the first district. In the first district the disbursement was somewhat less than in January, as was the expense of maintaining the poor house. In the third district, which includes the townships in the western part of the county, Superintendent Chase also was able to reduce the outlay slightly. The demand for relief has been most pronounced in Negaunee and Ishpeming, which are in the second district, and during February the expenses of that district were higher than for January.

Families that had never before sought relief from the county have obtained aid in the present winter. This is especially true in the mining towns, where the number of the unemployed has been large. Here there has been a slight improvement and Mr. Handford looks to a more favorable showing in the amount of money expended the present month. Everything has been done by the superintendent to encourage men to seek employment.

Your family will need a spring tonic. Why not give them Hollister's Rocky Mountain Tea. Nothing equals it as a tracing blood purifying system cleansing spring medicine. 35¢. Tea or Tablets. Jones Drug Store.

NOTICE

I have been employed to act as attorney for the trustees of the Military Road lands belonging to the J. C. Ayer estate, to protect said lands against trespass and pillage. The prompt communication to me of any information as to trespass on said lands will be esteemed a favor.

A. B. MILLER, Marquette, Mich.

TOURNAMENT RECORDS ARE PLACED HIGHER

Keuhl Now Leads in the Singles, and Manes and Jenks in the Doubles.

—Highest Scores to Date— Singles—Keuhl, 609, Doubles—Ora Manes and Frank G. Jenks, 1,258.

—Records in the Singles and the Doubles at the upper peninsula bowling tournament were placed still higher Saturday. In the singles, Keuhl rolled a total of 609, three pins better than the record previously established by Frank Jenks. In the doubles, Manes and Jenks placed the high mark at 1,258 pins. The previous high score was held by Haslett and Lawrence.

Keuhl is now in line for one of the grand average awards. In the five-men event Saturday morning he rolled 618 pins, and in the doubles he scored 571, which with his singles record of 609 gives him a total of 1,189 for the nine games. His average is 132.2.

The "Gents" record of 2641 pins continues to stand at the head of the bowling list, but it is in danger. Today the Mineralites roll, and this quintet is made up of probably the strongest aggregation of bowlers in Marquette.

Manes, Van Iderstine and Ford still hold the lead in the triples, with 1665. Following are the scores made Saturday: —Five-Men Teams— W. W. W. ————— 195 191 222 618 Keuhl ————— 185 158 147 491 Richards ————— 122 171 129 422 Muir ————— 158 148 142 448 Gooding ————— 157 182 211 549 Withey ————— 817 850 861 2528

No Hopes ————— 178 201 178 557 Leskie ————— 157 121 107 385 Stolpe ————— 158 143 161 362 Williams ————— 145 171 144 468 Gillette ————— 168 172 139 479 ————— 806 850 720 2391

—Triples— Keuhl ————— 236 165 154 555 Bernhard ————— 179 171 154 504 Love ————— 140 148 162 450 ————— 555 484 470 1509

Sullivan ————— 126 151 146 423 Sears ————— 140 148 155 444 Edlund ————— 167 148 147 462 ————— 433 448 448 1329

—Doubles— Eldredge ————— 123 170 151 444 A. E. Miller ————— 167 144 137 448 ————— 290 314 288 892

Jake Werner ————— 158 167 179 504 Cussell ————— 179 160 161 500 ————— 357 324 340 1001

Edlund ————— 171 196 166 533 Sullivan ————— 111 146 178 435 ————— 282 342 344 968

Haslett ————— 158 104 160 422 Gasper ————— 114 133 129 376 ————— 272 257 280 798

Manes ————— 188 245 195 628 Jenks ————— 228 171 231 630 ————— 416 416 425 1258

—Singles— Keuhl ————— 204 190 215 609 Richards ————— 175 154 130 459

Today's schedule will open with the Mineralites bowling at 4 o'clock this afternoon. Tonight the Ishpeming bowlers will roll their doubles and triples. Any Marquette men desirous of bowling in the singles, doubles or five-men events may enter today, tomorrow or Wednesday, these days not having been completely filled out with visitors' schedules.

Tomorrow will be Dorrite day. Two five-men teams will roll, and there will be a number of entries in the doubles and singles. The Negaunee bowlers will be here Wednesday.

BOYS TO INDUSTRIAL SCHOOL.

Ishpeming Delinquents Taken to Lansing Yesterday by Officers.

Nateline Cospito and brother, Leonard, who were Friday committed to the state industrial school at Lansing by Judge Potter, left for Lansing yesterday in charge of H. P. Handford and Jack Benning. The boys had confessed to having broken into Latrenerie's saloon at Ishpeming, and having stolen more than \$20. They are twelve and ten years of age, and one of them is said to have acknowledged writing a threatening "black-hand" letter to a resident of Ishpeming. They are bright for their age, but it has been impossible to keep them in school and they have been a constant source of trouble for the Ishpeming officers.

A few days after the theft of the money from the Ishpeming saloon they came to Marquette to attend a basketball game. After a meal a Marquette restaurant they nearly floored the waiter by tipping him with a \$5 bill.

Many persons who saw the boys at the South Shore station yesterday expressed surprise that youngsters of such tender age should have committed so serious an offense. The boys' parents were at the station to bid them goodbye. The mother was held for some days on the charge of having received the stolen money, but was later released.

A LASKY FEATURE PLAY.

"Where the Trail Divides" at the Delft Theater Tomorrow.

A Jesse L. Lasky feature play, "Where the Trail Divides," with Robert Edison as "How," the Indian boy, will be exhibited at the Delft theater tomorrow. The production is in five parts. The story follows: Little "How," an Indian boy, and little Bessie Rowland, about the same age, are adopted by Colonel Lander,

You Don't Have To Buy Just Take A Look

at the splendid assortment of new styles in men's, young men's and boys' we are showing. Note the style, the extra value, quality and the unusually low price.

Then You'll Know why we are so anxious to have you buy your new suit and furnishings here - it means that when you learn the better quality the newer styles and the more lasting satisfaction you get here

That You'll Come Again and the price you pay is no more - sometimes less - than you pay elsewhere.

ORMSBEE & ATKINS

A Big Line of Everything for Men and Boys to Wear.

Bessie's parents having been killed. "How" is sent to school and makes rapid headway in the white man's mode of civilization and education. Craig, the colonel's nephew, shows as much attention on Bess as "How" becomes jealous. At the graduation dance, Craig proposes to Bess and is refused, while "How" presses his suit and is accepted.

At Buffalo Butte ranch at Coyote City Craig brings on a violent scene with Colonel Lander, with the result that Lander has an attack of heart failure and dies. Colonel Lander has with him to Craig and Bess. Craig orders "How" from the ranch. "How" buys a cabin and land and he and Bess are married.

"How" then goes on a long trip and, returning unexpectedly, discovers Bess and Craig in each other's embrace. A year later Craig and Bess are married. In the meantime "How" has discovered oil on the property he gave to Bess and follows the Craig to New York. Bess discovers that Craig is unfaithful. "How" convinces Bess that her property is worth a fortune and prevails upon her to return West, meantime keeper Craig a prisoner all night, to give Bess a long start. Craig follows to the West and attacks Bess and endeavors to steal the deed to the property. "How" disposes of Craig and, shortly thereafter, Bess and "How" are married again.

BOOKS AT LIBRARY.

GOSSARD CORSET DEMONSTRATION AT FOSTER'S TODAY, MONDAY, MARCH 15 Mrs. Oswald Miller, the expert corsetiere, will hold a demonstration at our store all day today. In our long experience selling corsets we have learned that the most satisfactory way to select a corset is to have it fitted by a trained corsetiere. Upon the success of your corset fitting depends the success of your new suits and dresses. You are cordially invited to attend. J. H. FOSTER CO.
