

KING WILL HELP IN BRITISH TASK TO FIGHT LIQUOR

George V Adds Plea to That of Shipowners and Government Officials That Some Vigorous Measures Be Taken to Combat the Evil of Drunkenness

Ruler Willing to Give Up Alcoholic Beverages Himself—Enemy Spies, It Is Said, Ply Workmen With Drink to Incite Trouble—Talk of Total Prohibition.

London, March 31, 10 p. m.—King George has added his plea to that of the ship owners, and, in some cases, that of the laborites, themselves, that some vigorous measures be adopted to cope with the question of drunkenness, which, it is urged, is having the effect of delaying the delivery of munitions of war.

The king has volunteered, if it is considered advisable, personally to give up the use of all alcoholic liquors and to issue an order against their use in the royal household. Such a notification has been sent to David Lloyd George, the chancellor of the exchequer, by the king's private secretary.

Favor Total Prohibition. The press and the public favor some drastic measures, a majority of the newspapers expressing the belief that total prohibition which would apply to all classes, is necessary. The government, however, has not yet reached a decision on the question.

To bring about total prohibition, the government must have an act of parliament passed. It is pointed out that to prohibit the sale of liquor only in the localities where men are engaged in the manufacture of munitions, would cause a great outcry and that aside from total prohibition, apparently the only way of dealing with the matter is a further curtailment in the hours of sale.

Some persons favor prohibiting the sale of spirituous liquors, but allowing the crews of ships engaged in the manufacture of munitions to have their share in which to get into their boats.

In the case of the latter vessel, however, the submarine fired before the crew left the steamer and shells passed along the bridge on which the captain and an apprentice were standing. Both vessels were sunk off the Scilly Islands.

The Crown of Castile was sunk by shell fire, but this did not prove sufficient to send the Flaminius to the bottom, and a torpedo had to be used.

German Submarine Ramméd. As an offset to this, a French destroyer rammed, and, it is believed, sank, a German submarine off Dieppe, according to a French official statement.

As the destroyers have been unable to round up the submarines operating on the British coast, ship owners have petitioned the government to be allowed to arm their ships. This has not been permitted heretofore as ships could then be considered ships of war and be sunk without notice.

The heavy loss of life in the sinking of the Falaba and the Aquila has aroused a storm of indignation throughout the country and the demand is made that crews of submarines be treated as pirates if captured.

Crown of Castile Sunk. Harry, Wales, March 31, 8 p. m.—The crew of the British steamer Crown of Castile, which was sunk by a German submarine off the Scilly Islands Monday, was landed here this evening by the French steamer Magellan.

It was stated by members of the crew that the steamer was sunk by the shell fire of the submarine and not by a torpedo. One four-inch shell, which was deliberately aimed at the bridge on the steamer before the crew had left it. It passed between the legs of an apprentice, who was standing by the captain. After the crew got into the boats of the steamer, the German commander headed the men cigars.

The members of the submarine's crew, it was asserted, boasted that during the four days previous to the sinking of the Crown of Castile, they had sunk seven British vessels, including the steamer Falaba.

"Britannia Rules the Sea?" "We thought at first," one of the German officers is quoted as having said, "that we would sink you with all hands. But it was decided ultimately that we would give you a chance."

As the boats were leaving the Crown of Castile, the members of the crew say, some of the Germans jeered at the men from the steamer and sneeringly shouted: "Britannia rules the waves, does she?"

Ten Submarines in Channel? Madrid, via Paris, March 31, 9:40 p. m.—According to the crew of the Spanish steamer Augustina, which has arrived at Santander from England, ten German submarines are operating in the English channel. One of them, the U-28, stopped the Augustina, but released her after an examination of her papers.

SERIOUS ISSUE CONFRONTS U.S. IN FALABA CASE

Owing to Drowning of Leon C. Thresher, When German Submarine Sent British Steamer Down, Situation Fraught With Grave Possibilities Say Officials.

Berlin, It Is Pointed Out, Was Warned Beforehand That the Loss of an American Life Would Be Considered An Unfriendly Act—Two More Ships Destroyed

Washington, March 31.—While no official notification of the death of an American mining engineer, Leon C. Thresher, on the British liner Falaba, sunk by a German submarine, had reached the American government today, officials viewed the situation as fraught with grave possibilities.

The American note of inquiry in reply to the German notification of a submarine blockade of England, contained a plain warning that the loss of American lives, through the German program of sinking merchant vessels, would be viewed as an unfriendly act.

It was suggested in some circles that the German position would be to place responsibility for the destruction of the Falaba upon her captain, contending that his efforts to escape rendered his vessel liable to attack under the rules of international law.

Mr. Thresher lived in Hardwick, Mass., before going to England. His mother lives there now.

Two More Ships Sunk. London, March 31, 10:35 p. m.—Two German submarines, the U-28 and another, the number of which has not been ascertained, which have been operating off the west coast of England during the past few days, have added two more British steamers, the Flaminius and Crown of Castile, to their list of victims, totalling five since Saturday evening.

There was no loss of lives on the Flaminius and Crown of Castile, but the crews of both vessels have time in which to get into their boats.

In the case of the latter vessel, however, the submarine fired before the crew left the steamer and shells passed along the bridge on which the captain and an apprentice were standing.

Both vessels were sunk off the Scilly Islands. The Crown of Castile was sunk by shell fire, but this did not prove sufficient to send the Flaminius to the bottom, and a torpedo had to be used.

BARON ROTHSCHILD IS DEAD AT LONDON

Head of British Branch of Great Banking Firm Passes After Surgical Operation.

London, March 31, 9:40 p. m.—The death of Nathan Mayer Rothschild, first Baron Rothschild, head of the British branch of the great banking firm, occurred at his London residence this afternoon. Lord Rothschild underwent an operation for the removal of the prostate gland on Saturday.

The news of the death of Lord Rothschild created a shock, for, besides the great power he wielded, Lord Rothschild was one of the most popular men in London. His popularity spread far beyond financial, social and sporting circles, as all classes shared his benevolence. Once a year every omnibus in London was decorated with his racing colors, for on this day he sent to each driver and conductor a brace of pheasants.

Among the first to send condolences to the family were the king and queen and the Queen Mother Alexandra. Lord Rothschild's heir, the Hon. Lionel W. Rothschild, who rejoined his regiment on the outbreak of the war, is not so well known as other members of the family. Although he has some of the money for a time, he took little part in the debates.

Nathaniel Mayer Rothschild was born Nov. 8, 1840, eldest son of the late Baron Lionel Nathan de Rothschild, and was created an English peer in 1885. While it is not known just what portion of the Rothschild fortune was in the possession of the member who died today, the total Rothschild wealth has been estimated often as high as \$2,000,000,000.

BAR MENTION OF PAPERS AT WESTERN RATES CASE. Commerce Commissioner Daniels, Hearing Railroads' Petition, Rules on Testimony.

Chicago, March 31.—Clifford Thorne, chairman of the Iowa railroad commission, took the witness stand today in the western rates case in opposition to the forty-one western railroad systems' petition that they be permitted to increase freight rates. Mr. Thorne testified the railroads had asserted they were not making money with which to maintain their roads and had advertisements in Iowa newspapers to that effect.

Mr. Thorne went on the stand after Wayne E. Ellis, state attorney of the Iowa commission, had testified as to the accuracy of figures given in opposition to the railroads. Mr. Ellis declined to answer certain questions. Then Mr. Thorne volunteered. He said the roads had asserted they did not have money with which to maintain their lines.

"Who made any such contention in this case or anywhere else?" asked C. C. Wright, general solicitor for the Chicago & Northwestern road, and acting as counsel for all the roads.

"Your paid advertisements in Iowa newspapers," answered Mr. Thorne. "I want to say that no one in this case has had anything to do with any advertisements in Iowa or anywhere else, and the railroads do not claim that they are not maintaining their roads properly."

"Now, gentlemen," said Interstate Commerce Commissioner Daniels, "I want it understood once for all that there must be no further reference to newspapers. I have heard them mentioned before. We are going to try this case on the witness stand, and we don't want any more talk about newspapers."

JOHNSON WRESTLES BULL, PUSHES A STEAM ROLLER, TO OBSERVE HIS BIRTHDAY. Havana, Cuba, March 31.—At the conclusion of today's training routine in the camp of Jess Willard, who is to fight Jack Johnson for the heavyweight championship of the world next Monday, there was a conference between the fighter and his handlers, concerning the plan of the battle.

Just what the manager of the white man will be against the big black was not made public. Willard says he is confident he will win, but declares he cannot tell whether the fight will be a long or short one. If Johnson stands up and exchanges blows for a while, Willard declares he will defeat the champion in quick time, believing that no man can stand up under his punches. If Johnson covers up, eludes and blocks, the white man says the battle will be a long drawn out one, but that eventually he will be the winner.

Johnson was out for a five-mile run on the road early in the morning. Later he pushed a steam roller and wrestled a bull. When cautioned against over-exercising himself, Johnson said he must celebrate his thirty-eighth birthday, which occurred today.

TWO WEEKS REQUIRED TO RAISE SUBMARINE. Washington, March 31.—Expert divers from the New York navy yard were ordered to Honolulu tonight to aid in raising the sunken submarine F-4. They will leave at once for San Francisco to board a steamer for Hawaii.

The impossibility of immediately raising the submarine has been realized for several days. Rear Admiral Moore estimates that 400 tons of salvaging the vessel and restoring the bodies of the twenty-four officers and men entombed in her waterlogged hull will occupy two weeks.

WEATHER FORECAST. Washington, March 31.—The following is the weather bureau forecast for Upper Michigan: Fair, Thursday and Friday.

The united kingdom has only 30,740 schools, against 87,000 in France, 57,000 in Italy and 171,500 in the United States.

AUSTRIANS PUT IN BAD PLIGHT IN CARPATHIANS

IF RUSSIANS CONTINUE ADVANCE FOE'S REAR WILL BE ENDANGERED.

COMMUNICATIONS IN PERIL. SLAV HORDES SWARMING INTO HUNGARY BEHIND DEFENDERS OF PASSES.

TEUTONS DECLARED ROUTED. ATTEMPTED STRATEGY IN POLAND TURNED DEFEAT, IS THE CLAIM.

London, March 31, 10:35 p. m.—The Russians are holding the Germans in north central Poland; in the south they are putting forth all their strength to force their way through Lesok and Lupkow passes, in the Carpathians, with the result that some of the heaviest and most continuous fighting of the war is in progress there, both sides laying claim to successes.

The Russians, who have already forced Dukla pass, are slowly making their way down the southern slopes of the Carpathians into Hungary, and, according to British critics, must soon compel the Austrians and Germans defending the two other passes to fall back or be threatened with interference with their communications.

Of the fighting in the Carpathians the official Russian statement tonight claims the Slav offensive continues, saying that on the 30th, thirty-eight officers and nearly two thousand men were taken prisoners along with five machine guns.

It also says that the 27th sea fleet has broken a number of Turkish torpedoes in Asia Minor, about one hundred and fifty miles east of Constantinople. The official Austrian statement declares again that the Russian attacks in the Carpathians have failed.

The Austrians claim that since the first of March they have captured altogether 183 officers and 40,000 men.

Dispatches to Swiss newspapers say the Austrians have suffered enormous losses in northeastern Hungary. It is estimated that they lost eighteen thousand men on Monday and the Russian are credited with annihilating a column of 4,900 Austrians in an hour.

German Maneuver a Failure. A feat of German forces in northern Poland, attended with unusually heavy losses, is reported unofficially from Petrograd. This information is to the effect that the Germans fell back in the Niemen river district, expecting that the Russians would pursue them and be crushed by a flanking movement. Petrograd states that the maneuver failed and that "entire divisions" of Germans, themselves caught in a trap, were annihilated.

The German official statement of today makes no specific reference to such an engagement. A Russian victory in the campaign against Turkey is announced from the headquarters of the Caucasian army. In the fighting in Turkish Armenia, along the coast of the Black sea, the Russians captured the town of Artvin.

Ready to Quit Trieste. Venice, March 31, via London, April 1, 1:33 a. m.—Reports received from Trieste say that the Austrian troops in Trentino are in a miserable condition, being penniless, hungry and ill-clad. Their pay has been cut from four pence per day to two pence and their rations from five loaves of bread a week to two loaves, it is said. Men considerably over forty years of age, the reports say, are being kept in the trenches, ill-equipped, and their uniforms badly worn after only a month of practice drilling.

The condition of the civil population is said to be equally wretched. Private letters from Trieste say that numbers of the people are literally starving.

It is reported that the authorities have made complete arrangements for the evacuation of Trieste at the first sign of an enemy's approach. The officials, it is stated, have received precise instructions how to act and where to go. If the enemy comes from the sea they are ordered to flee to Gorz, to the north, and if from the land, to Adelsberg, to the east.

It is said that the depression in Austria arising from the fall of Pizzardi is constantly increasing. The intelligence classes now regard Galicia as lost forever, the reports have it, and express doubt whether the Austrian resistance in the Carpathians can withstand much longer the Russian attacks there.

Russians Had Successful Week. A second official Russian statement issued late tonight says that from the 20th to the 29th of March the Russians in the Carpathians have taken as prisoners 292 officers, eight surgeons, 16,207 men of the rank and file and captured twenty-two guns.

In reference to the fighting in the Bosphorus region, the statement says the Russian fleet has destroyed many Turkish colliers and bombarded a number of towns on the Black sea coast of Asia Minor.

SUMMARY OF THE WAR NEWS

Submarine activity continues in the waters about the British isles. Two more steamers have been sunk, one by a torpedo and the other by shell fire. They were the Flaminius and Crown of Castile. The crews of these two vessels were safely landed.

The French ministry of marine reports that a French light cruiser fired on a German submarine as she was diving off Dieppe. In the opinion of the ministry the French vessel possibly succeeded in ramming the submarine.

French airmen have dropped bombs on the Germans and their positions in Belgium and various sections in France. Apparently the Russians are content to hold their own in Poland, while in the Carpathians a great army, now being still reinforced, is driving against the positions, the acquisition of which would lead into Hungary. From both Petrograd and Vienna come official statements indicating that outwardly, at least, both sides are satisfied with the way the tide is setting.

Quiet prevails for the time being in the Dardanelles, but the Russian Black sea fleet has bombarded several ports in Asia Minor, some distance east of Constantinople.

The king of England is using all his influence to bring about some action with respect to the drink question.

PRINZ EITEL TAKES ON 16,000 TONS OF COAL. Believed Only Blind to Keep Allied Cruisers on Watch; Think Ship Will Interne.

Newport News, Va., March 31.—Under supervision of the United States navy the German converted cruiser Prinz Eitel Friederich was filling her bunkers with coal, 1,600 tons of which had been delivered alongside late in the day. When the coal barges arrived at the pier, the Prinz Eitel Friederich is believed to have been ordered to intern.

As the first sacks of coal were hoisted on the barges the ship's band struck up a German national air, and until a late hour, the sailors labored to the accompaniment of patriotic music. It was estimated the coal would be in the vessel's bunkers before morning.

Commander's Course Unknown. Despite the coaling operations the future course of Commander Thierich remains a mystery. The coal he was permitted to take aboard was measured by American naval officers on the basis that it would be sufficient to take the Eitel to the nearest German port. Bremen was the port which figured in the official naval appointment.

One report that received some credence tonight was that the German captain had asked for a pilot. Another rumor was that he wished to have his ship piloted to the Norfolk navy yard to be interned, and would abandon his proposed dash to sea in a daring attempt to run the allied blockade of the Virginia capes. Why he should desire so much fuel if he intended to intern was explained in one source or the ground that he wanted to make it appear up to the very last minute that he intended to sail in order to hold the allied warships off the capes.

Information from the ship itself is variable. Officers and men, when they talk to friends, do not agree. Some insist the raider will brave the gauntlet of enemy warships and others assert they believe the ship will be interned. U. S. Soldiers Guard Eitel.

Washington, March 31.—A detachment of coast artillerymen was sent from Fort Monroe to the Newport News shipyard today to mount guard over the German commerce raider, Prinz Eitel Friederich, under a command of Thierichs had asked that a patrol be maintained around his ship.

ITALIANS IN ILLINOIS LINED UP FOR GUN FIGHT. Douglas, Ariz., March 31.—Mistakenly called federal bugle calls blown by General Elias Callie's troopers, for notes from their own command, from which they had become separated in battle, 125 Villa soldiers attached to Governor Maytorena's column, marched calmly into the enemy's hands yesterday, according to Agua Prieta advices.

Upon discovering their plight the Villa partisans surrendered and joined Callie's command.

Mrs. McManus Gets \$20,000. Washington, March 31.—The payment of 100,000 pesos, or \$20,000 in gold at the prevailing rate of exchange in Mexico City, to Mrs. Ruth McManus, widow of John B. McManus, the American dairy proprietor killed by Zapata troops on their reconquest of the city, was officially reported today by the Brazilian minister at Mexico City. Mrs. McManus received the money in person from representatives of the Villa-Zapata government.

An official statement by the Villa-Zapata convention government in Mexico City, received today by the state department, says that Carranza officials during their occupancy of the capital removed from the national treasury government bonds and other securities valued at 16,000,000 pesos. Many of the securities, which had been deposited as guarantees by concessionaires and contractors, are owned by foreigners. Major General Funston, commanding the American forces at Brownsville, Tex., reported today that all was quiet across the border at Matamoros.

UNITED STATES IS NOT A PARTY TO AGREEMENT OF COPPER EXPORTERS. Washington, March 31.—The arrangement between the American copper exporters and the British government, announced yesterday in New York, is an official in character, and the United States itself is in no sense a party to it. The sanction of the department is not required for any such agreement, though the officials are cognizant of it and rather welcome it.

The copper exporters will be required to submit with each shipment certificates from the government of the country to which the copper is to be shipped that it will not be re-exported to a belligerent country.

BOMBARD SUBMARINE BASE. ANGLO-FRENCH AEROPLANES RAID NAVAL YARDS AT BRUGES, BELGIUM.

FRONT IS GENERALLY QUIET. OFFENSIVE, LONG EXPECTED, NOT YET DEVELOPED IN WEST THEATER.

London, March 31, 10:35 p. m.—So far as actual fighting is concerned, the official reports contain little news. The big effort in the west, which has been so long awaited, seems to be still far off, and the operations are confined to an occasional attack and counter attack, while the airmen on both sides are busy watching the opposing forces and dropping bombs where they might be expected to do the most damage.

The Berlin communication states that all French assaults were beaten back with heavy losses to the attacking forces. The Amsterdam Tjld says that thirty German soldiers were killed and sixty wounded near Thourout, Belgium, on Saturday, by bombs dropped by five airplanes of the allies. Bombs were dropped on the German submarine base near Bruges yesterday, the Tjld also says, but with what results is not known.

The French night statement mentions nothing startling in the fighting along the long front, except that French aircraft last night dropped bombs on the German positions in the Woerle, in Champagne and in Belgium. Today the maritime station at Bruges and an aviation camp at another point were bombarded by aviators.

HUERTA ABOUT TO START ANOTHER REVOLUTION? Report from Barcelona Says Former Head of Mexico Sailed With That Intention.

Madrid, Spain, via Paris, March 31, 9 p. m.—General Victoriano Huerta, and his secretary sailed today from Cadix on board the trans-Atlantic steamer Antonio Lopez, according to advices received here from Cadiz. General Huerta's family remains in Barcelona, reports from which place say that a rumor is in circulation that Huerta is on his way to direct a new revolution in Mexico.

The steamer Antonio Lopez is due to touch at Porto Rico, Cuba, Venezuela, and Colon.

AN INCIDENT.

No need to become excited because the county has held out \$2,000 or more delinquent taxes on Marquette city. The county is good for the two thousand and it will be forthcoming in due time. It has been mixed up with the general fund, or perhaps, we are told, was paid to some other division of the county by mistake. Officials need not be expected to be impeccable. They are entitled to get the right figures into the wrong column once in a while. It is rather more difficult to understand what particular merit attaches to a county audit that fails to correct such discrepancies. The public has been of the opinion that when an auditor attested to the correctness of a set of books it could understand not only that all the money had been honestly handled, but that the proper individuals, or townships, or cities, as the case might be, had been given full credits and that all the moneys had been placed, or paid over, where they belonged. If an audit doesn't mean this, why an audit?

The incident—it need not be regarded more seriously—suggests certain other things, however. Why should a delinquent tax account be kept in such a manner that a city has to pay a high priced auditor to find out how it stands with regard to it? Is there not here prima facie evidence of cumbersome and inadequate methods? These are questions bound to be asked.

And that the incident should have arisen in connection with transactions in the treasurer's office again directs attention to the unbusinesslike condition that the county governing authorities continue to tolerate in this office. We have the anomalous condition of the titular treasurer being a mere seat warmer while the county, either directly or indirectly, pays the clerical force that carries on the work that he is, in theory, paid to do.

How long, pray, would methods like this be tolerated by the executive of the Cleveland-Cliffs Iron company, or of the Oliver Iron Mining company? Is there any sufficient reason that any person can point to why the county governing body should not establish the rule that the county treasurer shall receive reasonable compensation, no more, and then either pay for having the work done, or do it himself?

The Mining Journal is of the opinion that there is no reason outside of the exigencies of politics. If there is, it is open to correction. The burden of county government is needlessly heavy, and it grows heavier from year to year.

HOUGHTON MERCHANTS ACT.

The Houghton merchants who were recently impressed with the results obtained with the central delivery system at Escanaba are planning to install the system within a few weeks, or as soon as the details can be worked out. Inquiry in Houghton shows that under the system ten drivers will do the work that it now takes twenty-nine to do, and it is estimated that a merchant can reduce his delivery cost from \$3,300 to \$1,500, or proportionately. The great saving promised is one of the things that should make the financing of the plan in Houghton, Marquette or any other city, easy. Any investment a business man would have to make would be quickly returned to him by the savings, and should it be necessary to borrow money any bank would be willing to lead to work out a plan so essentially sound and so certain to make good. Helpful co-operation between business men, better earnings on capital investment and better service to the public have been found to follow on the introduction of the system. The Houghton merchants wisely plan to lose no time in making it effective.

THE LANSING TEMPEST.

The probe into the conduct of the railroads in their campaign for higher fares is turning up nothing of interest. First was called Frank Sparks, Lansing correspondent of the Grand Rapids Herald, whose use of the term "slush fund" in an article dealing with the efforts of the railroads was the immediate cause of the inquiry. Sparks said that the article was "true" without particularizing as to whether either Representative Wiley or Representative Symonds, whose views it set forth, used the offensive term "slush fund." For their part, Messrs. Wiley and Symonds expressly denied that they had insinuated that the railroads were employing improper methods and gave as their opinion that the men representing the roads were above such methods. To a question by Senator Roberts whether he considered the use of a publicity fund by the railroads as improper, if the facts submitted to the public were correct, Representative Symonds returned a negative answer. All the newspaper correspondents at the capitol were called and none of them were able to inform the

committee of any improper methods resorted to by the railroad men.

While the committee's probe may seem out of proportion to the occasion that gave rise to it, the atmosphere will be cleared and the stories and innuendo that have been current in conversation will be laid. The committee is seeking conscientiously for the serpent trail of the railroads. If it cannot find it the reason will be that there is no serpent trail. The railroads have spent some money on publicity. The amount has been by no means as large as some guesses have put it. In the upper peninsula papers, for instance, there has been, as far as The Mining Journal has noticed, but one article paid for by the railroads, and it was less than two columns in length. But whether the amount spent has been \$10,000, \$50,000 or \$100,000 the expenditure has been a legitimate one, and the railroads are not open to adverse criticism for making it. Their campaign for higher rates may not at all times have been characterized by the best judgment—it is strange that any railroad man would have listened to the suggestion that the Cunningham interview should be published as an advertisement—but it has been clean to a degree. Any doubt of this lingering in the minds of suspicious persons should, and doubtless will be laid by the pending inquiry.

MORE JOSEPHUSING.

The sympathy of the public was with Ensign Austin in his efforts to have set aside his dismissal from the navy, several years ago, for having violated a harsh rule, since done away with, which prohibited marriage for officers of his rank. Marriage for a man on ensign's pay is, beyond question, a very serious matter, and has a tendency to force him out of the navy into a more remunerative pursuit, but that is, according to American ideas, a matter for his personal judgment.

Therefore when Secretary Daniels obtained his reinstatement through congress, there was general satisfaction, except, possibly, among those older officers of the navy whose days, no longer given in the least to romance, are devoted exclusively to the maintenance and perfection of the service.

Certainly Josephus Daniels therein performed a meritorious deed. But Josephus didn't stop there. Here was a beautiful opportunity for him to slip over in the characteristic Josephus way, and he proceeded blithely to slip.

"If I were an ensign," he proclaimed grandly, and so that the gallery could hear, "and I were in love with a girl, and I knew that my marriage to her would result in the entire breakdown of the navy, if not of the government itself, I would marry her anyway."

Nobody doubts that he would. And, unfortunately, though he could not possibly be an ensign in the navy and still be Josephus, it is very much possible for him to be the secretary of the navy.

Former Governor Osborn early in January noted that, on his arrival in Lansing, he glimpsed "the trail made by the cloven hoof of the railroad lobby," therefore the legislative probers this week considered calling him as a witness until they learned that he was en route to the coast. It's just as well that they have not gone to the trouble of calling him back, for he would have to tell them that he was speaking figuratively, and that all he saw at Lansing as sign of the "cloven hoof" was the rotund and eminently business like W. W. Walker, Charles Webb, of Houghton and the U. P., and other such like figures, who can be regarded as devilish only by a fearful strain on the imagination. In short, Mr. Osborn was talking picturesquely, not by the card.

Less and less is being feared of the complaints of American producers that they cannot ship copper to Germany. The allies are hungry for all the copper they can get, thus, with local demand pretty flat and German and Austrian demand entirely cut off, we still have advancing quotations. We are forced to the conclusion that the producers were less concerned about the fate of international law than they were about finding purchasers for their product.

Let us hope that in the excitement of "probing" the legislature will not forget that the principal issue before them is the need of the railroads for more generous incomes.

Our new dreadnaught, the Pennsylvania, is not only the largest warship afloat, but it is also larger than some guesses have put it. In the upper peninsula papers, for instance, there has been, as far as The Mining Journal has noticed, but one article paid for by the railroads, and it was less than two columns in length. But whether the amount spent has been \$10,000, \$50,000 or \$100,000 the expenditure has been a legitimate one, and the railroads are not open to adverse criticism for making it. Their campaign for higher rates may not at all times have been characterized by the best judgment—it is strange that any railroad man would have listened to the suggestion that the Cunningham interview should be published as an advertisement—but it has been clean to a degree. Any doubt of this lingering in the minds of suspicious persons should, and doubtless will be laid by the pending inquiry.

EDITORIAL OPINION

Pure Water for Travelers.

Although the high officials of this government are compelled to give a good deal of their attention to the European war and questions connected therewith, they find time to attend to many matters of such relatively small importance one might think they would be overlooked. For instance, the secretary of the treasury, Mr. McAdoo, recently announced an amendment to the interstate quarantine regulations, prohibiting river boats or lake steamers engaged in interstate passenger transportation from furnishing their passengers with drinking water not up to a certain standard of purity. In other words, travelers on the lakes and rivers of this country are to be protected against the possibility of contracting disease through the medium of impure or contaminated drinking water, and vessel owners and captains must see that this rule is obeyed. This is merely a part of the general scheme which the United States public health service is putting into operation for the protection of the health of the traveling public. Other regulations have been promulgated in the past prohibiting the use of common drinking

Fortified Tires Now in the Light

The supreme test of a tire is to hold top place—the place in the sun—and for years. Goodyear tires have done that. Long they have led, both in sales and prestige.

Men expect much of the top-place tire. They look for a superior tire in it. Any seeming fault, due to mishap or misuse, becomes a defect in this glare.

But Goodyear Fortified Tires, after years in this light, hold higher place than ever. Last year men bought 1,475,883 Goodyears of the pleasure-car type alone. That's about one tire for every car in use.

Who Is Wrong?

Is it the Goodyear user, whose choice is confirmed by some 400,000 others? Or is it the man who still assumes that another tire is better? Lower Prices. On February 1 Goodyear made the third big price reduction in two years. The three total 45%.

planning to use thoroughly up-to-date methods without regard to expense. It is their idea to take moving pictures of fighting of death in its horrible forms and of "atrocities" along the French front. No detail that is obtainable will be omitted. The pictures are to be shown in America in order to increase the peace sentiment. Undoubtedly Mr. Carnegie and his subordinates are able to carry out their scheme they will secure some valuable and disagreeable pictures but that the presentation of these views to the public will have the effect desired is much to be doubted. If the millions who ultimately return to their homes from the present conflict do not prove eloquent enough peace advocates out of their own experiences to stop further combat among the nations of the world—and such a development is not without human experience—then surely the offer-

lost of moving picture films will have no such effect. Grievous war views have been shown before this. Some of the photographs of the American Civil war are frightful enough to satisfy the most morbid imaginations; but they have not stopped war.

One difficulty in the way of the success of this new Carnegie scheme is the lack of any ethical appeal in the program. The pictures will strike principally at men's fears. The persons showing them assume, perhaps unconsciously, that those who are to look at them will be cowards who can be deterred from war by seeing its terrors in vivid fashion. But happily the great majority of men and women are not cowards. They may be brought to hate war as an evil thing; indeed, most people today do most emphatically consider it an evil. But if they are worth anything in the world they are not to be kept from it either by a campaign of silence or by mere scheme to make it a bugaboo.—Detroit-Free Press.

## BOY OF FOUR YEARS DROWNS AT ATLANTIC

Son of Isaac Ericsson Falls Into Shallow Ditch and Is Caught Beneath the Ice.

Jacob, four-year-old son of Isaac Ericsson, of Atlantic, was drowned late Tuesday afternoon in peculiarly distressing circumstances. The little fellow and a girl of the same age were walking near a ditch that has been cut through a swamp a short distance from the Ericsson dwelling. This ditch is only eighteen inches wide and carries about sixteen inches of water. Ice had formed at the edges of the ditch for only a few inches in width, and the little fellow walked on this ice. His feet slipped and he fell in such a way that he went face downward into the water, his momentum carrying his head under the ice at the opposite edge of the ditch.

It is supposed that the shock of the cold water caused the youngster to gasp and that his lungs filled at once, so that death must have been almost instantaneous, the ice holding his head down so that he could not rise or get breath. The little girl ran to the Ericsson home to tell what had befallen her playmate. Mrs. Ericsson hurried to the ditch. There she saw her little son, dead, sitting up in the water. The current had swung the body out from beneath the ice and had raised it to a sitting posture.

The family has the sympathy of the entire community, more so because the circumstances of the death were particularly distressing. The child was known as a particularly lovable little fellow.

### DETAILS OF MASS FATALITY.

Captain Ninness Found Dead in Skip—His Death Unexplained.

The unconscious form of Captain William J. Ninness, head mining captain of the Mass Consolidated Mining company, was found in a skip at the level of B shaft at 8 o'clock Tuesday morning. Captain Ninness had a fractured skull, and from the effects of this he died at noon, without any explanation of the accident having been reached.

Captain Ninness started underground from surface about 8 o'clock in a skip, with a new drilling machine that he intended to test. What transpired after the skip left surface can only be conjectured, as the captain was alone. It is known that last Saturday he suffered a fainting spell and it is thought that a similar seizure was responsible for his death.

The fracture was at the base of the skull and could not have been caused by a falling body. It is believed that the man fainted and fell into the bottom of the deep skip in such a way as to fracture his skull. The method employed by Captain Ninness in riding in the skip lends color to this. He braced himself at the top of the car, partly supported with his hands on the rail, so that he could fall a considerable distance into the skip.

Captain Ninness, formerly a shift boss, was appointed head mining captain by Captain James M. Wilcox, formerly superintendent, eight years ago. Superintendent E. W. Walker spoke in the highest terms of his deceased subordinate yesterday and expressed the general regret his death caused at the mine.

Captain Ninness was reared in Neenah, but went to Ontonagon county many years ago. He is survived by his wife and three children, Mrs. Thomas Allen, William J. Ninness, Jr., and Samuel Ninness. He leaves also a brother at Munising.

## E. UREN RETURNS FROM ENGLAND

Former Houghton Man Discusses Conditions in Albion During Wartime.

Edgar Uren, a former employe of the Copper Range railroad, who spent the last six months in England, has returned to Houghton. He was employed by the Michigan Central railroad during the preceding year and suffered an injury that compelled a long rest, so that he decided to spend the time at his old home in Plymouth.

Since the outbreak of the war Mr. Uren visited many parts of England and also went to Paris. He does not care to discuss the war particularly, because of the sad memories it conjures up. He says, however, that Paris is a dead city, a somber, joyless echo of the once great center of gaiety.

Mr. Uren's particular memory of England in wartime is the number of wounded soldiers to be seen in any part of the island. Everywhere one goes in England, he says, can be seen men walking on crutches, men with arms in slings, bandaged men, cripples of all degrees and a simply incredible number of men who have not been wounded but whose nerves have been shattered by service in the trenches and who have been incapacitated.

Everywhere in England soldiers can be seen. The king's uniform is everywhere, in every hamlet. Men are training for the war in every part of England.

Another distressing memory is of the soldiers who have come home for a seventy-two-hour furlough. They come back with the mud and blood of trenches and battlefields on them and constitute one of the saddest scenes on the island.

### SPEAKS FOR NEUTRALITY.

President James H. Kaye of Marquette Normal at Trumount.

President James H. Kaye of the Northern Normal college at Marquette will be the principal speaker at the Sons of St. George observance of Good Friday at Trumount tomorrow afternoon.

Mr. Kaye arrived in the copper country yesterday. He spent yesterday visiting the Calumet schools. Today Mr. Kaye will visit the Stanton township schools, while tonight he will talk to the South Range Literary club on "Charles Dickens and His Influence on the Nineteenth Century."

President Kaye's address tomorrow afternoon will be on the general subject, "Achievements of Englishmen in Science and Education." He considers that this is an English celebration and that his address should have an English character. He will not advert to the war excepting to urge neutrality. President Kaye is an ardent foe of the hyphenated American. He says that there should be no British-Americans, just plain Americans, and he expects to make some reference to this in his address.

President Kaye is English by birth and blood, but he was none the less born an American citizen. He was born in England when his father was there on a business mission at the time of the civil war. The elder Kaye remained in England for some time during the war, but vindicated his Americanism at the time by being the secretary of the English Abolition society, which was favorable to the northern arm.

## COPPER RANGE AND THE QUINCY INCREASE WAGES

The Copper Range Consolidated Mining company yesterday announced a 10 per cent. increase in wages, affecting twenty-eight hundred employes of mines and mills. In a majority of cases, the increase restores the cut in pay made at the opening of the European war.

The Quincy Mining company announces an increase of 3 per cent. in wages. This is a restoration of one-half the war cut.

Kitchener in Houghton, and this is the way of it. A member of the Houghton Light Infantry wrote Major C. D. Mathews of the Soo, asking him for information as to the manner of enlisting in a Canadian contingent in the English army in the European war. The major considered the matter serious enough to report it back to Captain W. J. Sanders, of the Light Infantry. After advising the captain that he should discourage any members of his company from any such course, the Soo major added: "Tell them what General Sherman said about war."

## AIMS TO REFORM MEN AT PRISON

Captain Shaw Tells of Brighter Day League Work at Marquette Penitentiary.

Captain Albert Shaw of the Marquette corps of the Salvation Army will deliver an address tonight at the Calumet Salvation Army hall on "Religion Behind Prison Bars." Captain Shaw is the founder of the "Brighter Day League" of Marquette prison.

The captain in an interview yesterday discussed his work at the prison. He says it has been very successful, and for this success he bestows high praise on Warden James Russell and Deputy Warden Catlin for their co-operation.

The Brighter Day league was organized in August, 1913, with ten members, inmates of the prison. By June, 1914, the membership had increased to ninety-three, and it is now 167, exclusive of seventy-six who have been discharged since joining the league. Of these latter, seventy-three have given evidence of reform. Only three have fallen and have been returned to the prison.

The league meets in the prison yard every Sunday morning and it is conducted wholly by the convicts. They are the preachers and the choir, the Salvation Army being content to act wholly in an advisory capacity.

Captain Shaw believes this league will be an agent for permanent good among convicts and ex-convicts. The members are eager to get new inmates on the roll, and the day a man enters the prison he is approached by a leaguer with a request that he join and try to learn the way to the brighter day.

### EXPLAINS CHURCH CENSUS.

Rev. F. P. Knowles Says No Statistics Will Be Compiled.

Because of a somewhat general misunderstanding of the forthcoming church census of the copper country, Rev. F. P. Knowles, pastor of the Houghton Presbyterian church, who has been active in bringing it about, gave out an explanation yesterday.

The census will not be taken for the purpose of collecting or compiling statistics. No figures, data, statistics or reports will be made or given out. The purpose of the census is to learn the active or passive affiliations of all the people of the district. Each person will be asked to fill out the information on a card, and these cards will be sent to the pastor of the parish in which the person lives. He alone will have the information. No attempt will even be made to learn the number of cards taken.

E. K. Mohr, of Detroit, who has charge of the census, will do the work Sept. 1, with the aid of a large corps of assistants. The information will be gathered within two hours on that day, according to Mr. Mohr's plan of campaign.

### FISH SUPPLY IS LIMITED.

Heavy Winds Shift Ice, Making the Industry Precarious.

Copper country markets forecast yesterday that they will be unable to supply the exceptional demand for fish the last week of the Lenten season. Orders had been filed with outside companies. Telegraph replies are that the supply cannot be furnished. Explaining the situation, a Green Bay company wired that winds a few days ago had shifted the heavy fields of ice directly in the area where fishermen had been operating, making the industry precarious. Fishermen refused to take chances of getting caught in the floes and losing their nets. Fishermen operating near Portage Entry and on Keweenaw bay have been unable to meet the demands made upon them, and only a limited supply reached any of the markets yesterday.

### DELINQUENT TAX RETURNS.

Treasurer Schutte of Schoolcraft Collected All Personal Taxes.

Joseph Schutte of Lake Linden, treasurer of Schoolcraft township, yesterday made to County Treasurer Bram at Houghton his returns of delinquent taxes for 1914. Out of a total roll of \$24,311.58, Mr. Schutte collected all but \$194.98, and none of the delinquents are for personal taxes, all of which he collected. This record approaches closely that of Treasurer William Wills of Osceola township, who collected every cent of his tax roll and returned a white delinquent list.

### BOARD OF CONTROL MEETS.

The Michigan College of Mines board of control, in session at the college, decided yesterday to ask the faculty and the alumni association to co-operate in preparing for the thirtieth anniversary reunion of the college in Houghton in 1918. The meeting transacted nothing else of importance. William Kelly of Vulture, president of the board, and the copper country members were present.

### ASKED TO CONTROL TRAFFIC.

Sheriff Cruse Named on Committee for the Templar Conclave.

Sheriff James A. Cruse has been notified by M. M. Morrison of Calumet, chairman of the executive committee of the Knights Templar conclave, that he had been appointed chairman of a committee on traffic and spectators during the conclave parades in June.

The duties of the sheriff in this connection are to insure the freedom of the streets from obstructions during the Hancock-Houghton and Calumet-Laurel parades of the conclave. The commanderies execute intricate maneuvers involving the width of the street during these parades and traffic would spoil the effect. The sheriff's committee also is expected to insure that there will be no invasion of the big drill field at Calumet during the exhibition drills.

### MISSION AT ST. JOSEPH'S.

DDominican Priests of Wide Reputation Coming to Hancock.

A two week mission is to be conducted at St. Joseph's church, Hancock, by Rev. Father Theute and the Very Rev. Father Brubank, Dominican priests. It will open the morning of April 11. For the first week the mission will be exclusively for women, and for the second week for the men. The evening services will commence at 7:30 o'clock. All the sermons will be given in English. The mission will close April 23. The last previous mission at the church was conducted six years ago. Rev. Father Theute is wellknown in the district. He had charge of a retreat at Assinibois for the priests of the diocese, two years ago, and he conducted a mission at St. Cecilia's church, Hibbald, last spring. While the mission is arranged by the pastor of one particular parish, it does not follow that these special services are not open to congregations of other Catholic churches. The experience at Hancock in the past has been that the services are attended by many men and women of other parishes and of other religious beliefs.

### DONATE PLATFORM FOR CHAPEL.

Employees of Verville Factory Make Novel Gift to Convent.

There was installed in the chapel of St. Joseph's convent at Hancock this week a new platform for the chapel altar. The platform contains 8000 pieces of wood. It is a donation from the employees of the Verville furniture factory of Hancock, Lake Verville, a member of the firm, superintending and assisting in the work of making it. The platform is unique, as not a nail was used in constructing it. Glue was used to bind the thousands of pieces of wood together. Some of the pieces are an eighth of an inch square. Mahogany and birch are used for the materials used to great extent.

The work was undertaken by the men in the evenings, after their daily labors were finished. The time required was three weeks. Inserted in the platform are an anchor, cross and heart of wood, symbolic of faith, hope and charity.

### PORTAGE LAKE CHAMPIONS.

Juniors Defeat Mohawk for the Intermediate Hockey Cup.

The Portage Lake Juniors are the intermediate champion hockey team of the copper country, winning the title Tuesday night by defeating the Calumet Juniors with a score of 3 to 2. Calumet was substituted for Mohawk in the final game. The game was exceptionally fast and stubbornly contested in the second half, the first period being rather tame. The lineup and summary follow:

Calumet—Linquist, goal; A. Chayle, point; Vogler, cover; W. Chayle, rover; Turquist, center; Morrison, left; McDonald, right. Portage Lake—Rheault, goal; Auger, point; Frenette, cover; Peterson, rover; Hind, center; Richards, left; Grant, right. Goals for Portage Lake, Frenette, Peterson, (2); for Calumet, W. Chayle and A. Chayle. Referee, Hogan; judge of play, Haug. As a preliminary, Dollar Bay defeated Pequaming with a score of 5 to 3.

### NEW POSTMASTERS TAKE HOLD.

James J. Byers in Houghton—Jacob Steffes in Lake Linden.

As announced yesterday, James J. Byers will today assume the duties of postmaster in Houghton. At the same time, Jacob Steffes will become the postmaster of Lake Linden. The latter succeeds Postmaster Amesse, who has held the office for many years, serving first under McKinley, then under Roosevelt for two terms, then one term under Taft and two years under Wilson. Mr. Amesse and his daughter, who has been his assistant, do not step out of office with length of service only to their credit, but with a record of faithful performance of duties and of courtesy to the public. Patrons of the post-office are satisfied they will receive the same consideration from Mr. Steffes. Mr. Steffes might have taken over the office several weeks ago, but remained until his term as village clerk expired.

### MATTILA'S EXAMINATION HELD.

Justice Partanen of South Range yesterday devoted nearly the entire day to the examination of John Mattila of Burtie, charged by Henry Rimpola with assault with intent to murder. Mattila is the man who terrorized Burtie last Saturday. After hearing the testimony, the court adjourned to permit the transcription of testimony. Mattila doubtless will be bound over to the circuit court.

### GRACE M. E. APPOINTMENTS.

T. E. Mitchell and Edgar Rashleigh, a committee designated by Rev. Dr. Rankins, the pastor, to select preachers to supply the pulpit of Grace M. E. church, Houghton, during the month of April, in the pastor's absence, yesterday announced the following appointments: April 11—Rev. Isaac Wilcox, Mohawk, morning; Alex. Roseberry, Hurontown, evening. April 18—Rev. Stephen Polkinghorne, Powah, morning; Rev. W. H. Collycott, Osceola, evening. April 25—Rev. W. E. Marvin, Hancock, district superintendent, morning and evening.

It is expected that a series of special services will be arranged for this church during the coming month, or in May. The Thursday evening prayer services have been exceptionally well attended, an average of seventy-five persons being present.

OFFICER AND PRETTY GIRL

FURNISH INTERESTING STORY

Paris, March 17. (Correspondence of the Associated Press.) The following story of a pretty girl and a susceptible officer which ended in the discovery of a system of espionage, is published here: "An officer, about to take the train to rejoin his regiment, was accosted by a pretty girl who blushing asked if he would post a letter for her at Paris, so it would arrive more quickly at its destination. 'I'm writing to my sweet heart,' she explained. 'The officer promised to render this little service. The girl in a burst of gratitude threw her arms about his neck and kissed him. 'I have your word,' she cried after him as the train started, 'you'll post it at Paris this evening.' 'Before reaching Paris the officer had time to reflect upon some of the curious circumstances of the affair. He pulled the letter out of his pocket and found the address read: 'Madame X. ....' Then he recalled that the girl had told him she was writing to her sweetheart, 'Madame X. ....' in that case could only be an intermediary. 'He reasoned that the peculiar cir-

#### EUROPEAN LIQUIDATION NO LONGER IS FEARED IN AMERICAN MARKETS

New York, March 31.—That the financial markets of the United States no longer fear European liquidation of American securities was made evident today when the governing committee of the New York stock exchange recommended the abolition of minimum prices, which were established as a safeguard on Dec. 15, last. The decision was reached after the most active trading day since the final week of last July. Transactions in stocks today embraced 199 different issues, with a total of 745,000 shares. Over sixty per cent. of the total output was limited to specialties and the common stock of the Chicago, Rock Island & Pacific railway. The further rise in Rock Island was without explanation, but bore all the marks of an open contest for the annual high, which is to be held April 12.

Closing prices of stocks in the markets yesterday are reported by J. A. Minnear & Co., of Laurium, as follows:

### MOTHER RESTORED TO HER FAMILY

Writes a Letter to Tired, Worn-Out Mothers Telling How Vinol Made Her Well and Strong.

Jackson, Miss.—"I shall feel repaid for writing this letter if I can help any tired, worn-out mother or housekeeper to find health and strength as I have. I have a family of five, sew, cook and do my housework and I became very much run-down in health. I had indigestion and stomach pains and headaches. Often I would be in bed for several days at a time, and before I took Vinol I tried too many remedies to mention without benefit. A friend asked me to try Vinol. I did so and before I had taken one bottle noticed a big improvement. Now I am well and strong and my old time energy has been restored. Vinol has no superior as a tonic for mothers and housekeepers."—Mrs. J. N. MELTON, Jackson, Miss.

We ask every tired, care-worn, run-down, nervous man or woman in this vicinity to try Vinol, our delicious cod liver and iron tonic without oil, and they too will soon be able to say that Vinol has built them up and made them strong. Remember, we will return your money if it fails to benefit.

### EASTER SERVICES IN ALL CHURCHES

Choir of Grace Church Will Render the Cantata, "From Olivet to Calvary."

Wood Friday will be observed in all of the churches of the city by special services.

Tomorrow evening at 7:30 o'clock, in Grace Episcopal church, the choir will sing the sacred cantata "From Olivet to Calvary," by J. H. Maunders. This cantata recalls some of the incidents which marked the last few days of the Saviour's life on earth, the rejoicing of the multitude, with hosannas and palms; the lamentation over the beautiful city; the supper of the Passover; the garden of Gethsemane; Christ before Pilate and the triumph of Calvary. The cantata is written for tenor and baritone solos, and has several very impressive choruses.

The Easter day services will be: Holy Communion at 8 o'clock. Choral Communion at 10:30 o'clock. Choral Evensong and Musical service at 7 o'clock.

The following music will be sung:

Salisbury Methodist Church. Easter will be observed at both the morning and evening services at the

Salisbury Methodist Episcopal church. The morning service will commence at 10:30, the evening service at 7 o'clock. In the morning the pastor will preach on "Life Everlasting." In the evening the members of the Sunday school will take part in an Easter service of song, entitled, "The Radiant Light." The following numbers will be given: The Voice of Peace—Song by the school. Invocation—William Pryor. Responsive Scripture Reading. The Choir Celestial—Sunday school chorus. The Morn Is Come—A Recitation. Love and Life—Solo. What is the Fairy's Name?—Recitation. Joy of Easter Morn—Selection by the school. Easter Blossoms—A Recitation. Go to Galilee—Song by the Sunday School. Happy Morning—Primary Selection. A Child's Thought of Jesus—A Recitation. Happy Bells—Selection by the children's choir. Filling Easter Baskets—Primary Exercise. Visions of Glory and of God—Songs by the School. Easter offering. All Earth Rejoicing—Sunday school chorus. An Exercise—By Five Boys. Crowned with Glory—The choir. Easter Is Here—A recitation. The Robbins Call—Recitation. Tarry Not Beside the Tomb—Sunday School Chorus. Benediction.

Swedish Lutheran Church. The Easter services at the Swedish Lutheran church on Division street will begin this evening, at 7:30 o'clock, with holy communion. Good Friday there will be services in the morning at 10:30 a. m., and in the evening the choir will render an Easter cantata, "The First Easter," by Ira Biscoe Wilson. Admission is free, but a free will offering for the benefit of the choir will be taken.

At the morning service at 10:30 a. m., the choir will sing several new selections and the pastor will preach on the Gospel of the day. In the evening the Sunday school will give an Easter program, which has been prepared with great care. There will be no admission charge, but a free will offering will be taken up for the benefit of the Sunday school. To all these meetings the public is cordially invited.

Presbyterian Church. There will be services Friday afternoon at three o'clock, when the choir will sing Shelley's "Death and Life." The Sunday morning service will be the usual Easter service, with special music by the choir. In the evening at 7 o'clock the services will be conducted by the pupils of the Sunday school. This customary union Easter service of the young people will this year be held in the Presbyterian church at 7 o'clock a. m. All the young people of the city are invited and expected at this service. The treasurer's books of the Presbyterian church will be kept open until after next Sunday in order that any payments not yet made may be put in the "budget envelopes" at that time.

First Methodist Church. The members of the Women's Home Missionary society of the First Methodist Episcopal church have prepared an especially interesting program of musical numbers and readings, to be given Wood Friday evening at 7:30 o'clock in the church parlors. At the conclusion of the program a lunch will be served. There will be an admission charge of ten cents, and the public is invited to attend.

ARE STRONG CANDIDATES. Charles Fagerberg and Conrad Carlson, the nominees for treasurer of the Republican and People's parties, respectively, are considered strong candidates. Mr. Fagerberg has been a resident of Ishpeming for many years and he is well and favorably known. He has been in poor health for several years and has not been able to work. His popularity was evident at the convention Tuesday evening, when he showed greater strength than even his most sanguine friends anticipated he would. The People's party nominee is not very well known, outside of the Fifth and Sixth wards, as he has been badly crippled with rheumatism for twenty-eight years, ever since he was five years of age, and has not been able to get around. He was driven down to the People's party convention Tuesday evening and that was the first time he had been in the business district in fifteen years. His mother has been a widow for twenty years and she has supported her family ever since the death of her husband. She has another son besides Conrad.

MUSICAL ACT TONIGHT. The McNeil Trio, presenting a musical act, will be the vaudeville attraction at Ishpeming theatre tonight, tomorrow and Saturday. Tomorrow, Good Friday, there will be a matinee at 2:30 o'clock. In tonight's picture program there will be a strong Vitagraph drama, in two reels, entitled "The Plot," with Maurice Costello in the leading part. Other pictures are "Love, Oil and Grease," a Kalem comedy, and "The Quality of Mercy," a Vitagraph drama.

RHEUMATISM YIELDS QUICKLY TO SLOAN'S. You can't prevent an attack of Rheumatism from coming on, but you can stop it almost immediately. Sloan's Liniment gently applied to the sore joint or muscle penetrates in a few minutes to the inflamed spot that causes the pain. It soothes the hot, tender, swollen feeling, and in a very short time brings a relief that is almost unbelievable until you experience it. Get a bottle of Sloan's Liniment for 25c, of any Druggist and have it in the house—against Colds, Sore and Swollen Joints, Lumbago, Sciatica and like ailments. Your money back if not satisfied, but it does give almost instant relief.

BUSINESS COLLEGE SOLD. E. P. Bower, Menominee, Buys Institution Conducted by M. L. Clancey. The Ishpeming Business college, owned and conducted for the last three years by M. L. Clancey, was sold yesterday by Mr. Clancey to E. P. Bower of Menominee. The consideration was not made public. Mr. Bower is the proprietor of the Menominee Business college, which he purchased from Mr. Clancey five years ago. It is a successful institution and is as well known in its particular field as is the college here. The same system of bookkeeping and stenography is taught at each. The Ishpeming college has made excellent progress under the direction of Mr. Clancey. It has been built up from a mediocre establishment to one of the most efficient institutions of its kind in the state. Its equipment is excellent. The college occupies spacious quarters in the Sellwood block. It has graduated a large number of young men and women, many of whom are holding positions of trust and responsibility. Seventy-five students are enrolled at present. Mr. Bower will continue the institution on the same high plane as it is now conducted. Mr. Clancey intends to leave the city. He has, however, not announced his plans for the future.

BUILDING IMPROVEMENTS. Louis Erickson & Son Have Several Extensive Repair Jobs on Hand. John Eman, manager of the Ishpeming Store company's business, has given Erickson & Son a contract to enlarge his dwelling, at the corner of Maple and 17th streets. The building, which is one story, will be moved to the north side of the lot and a second story and basement will be added. The work will be started within a week or so. Erickson & Son are making good headway with the job of remodeling the dwelling on North Fourth street that J. H. Quinn a few weeks ago purchased from Otto Eger. J. E. Lindborg is putting in the basement. J. P. Krupp has the contract for the plastering, and the Lake Superior Steam Heating company will install the heating plant. Since letting the contract to Erickson & Son, Mr. Quinn has decided to build a veranda extending across the front. The living room in the house will be fourteen by twenty-two feet in size. Erickson & Son will, with a week or ten days, have the addition to Mrs. J. Lindborg's dwelling, on Empire street, enclosed.

A CURE FOR SOUR STOMACH. Mrs. Wm. M. Thompson, of Battle Creek, Mich., writes: "I have been troubled with indigestion, sour stomach and bad breath. After taking two boxes of Chamberlain's Tablets I am well. These tablets are splendid—none better." For sale by All Dealers.

### WENNERBERG CHORUS.

The famous Wennerberg Male chorus of Augustana college, Rock Island, Ill., will give a concert at the Swedish Lutheran church next Wednesday evening, at 8 o'clock. The chorus will be assisted by William Wrigley, violin, Carl Lindgren, basso cantante; Lawrence Lundberg, piano, and Professor J. Bergquist, organ. Tickets are fifty cents; children under twelve years twenty-five cents. It is anticipated that this will be one of the best musical treats of the year in Ishpeming.

### VICTOR JACKSON INJURED.

Victor Jackson, a miner employed at the Cleveland Lake property, was injured late yesterday afternoon in a blasting accident. Powder and particles of ground were blown into his body, face and hands. His sight is believed to be unimpaired, and otherwise his injuries are not particularly serious. Mr. Jackson was removed to the

Ishpeming hospital. He has a wife and two children and lives on Vine street.

### SMALL GAIN FOR A LOT OF WORK

Robbery of Joseph Bessalo's Saloon Yesterday Netted Trifling Sum of Money.

Another robbery was committed in the city Tuesday night, or yesterday morning, when entrance was gained to the saloon of Joseph Bessalo, on Silver street, and all the money in the cash register was taken. Although the rear door of the building was smashed in with an ax, and two other doors were forced, Mr. Bessalo, who lives over the saloon, did not hear the intruder at work, and he was not aware that his place had been entered until he opened up in the morning.

Mr. Bessalo and the police officers are of the opinion that the robbery was committed by a person, or persons, familiar with the building. The rear entrance opens on an alley and the first door leads to a woodshed. Off of the woodshed is a door leading to the back room of the saloon. Another door had to be forced before entrance could be had from the back room to the saloon. The outside door was forced, but the door into the back room was heavily bolted, and it was with great difficulty with a pick, which was left inside the building. After gaining admission to the back room door the robber evidently thought he might have to make a hasty getaway, so he opened up a window in the rear of the place.

After gaining entrance to the saloon the cash register was easily reached. The thief got only a few dollars. The handle and hinges on the safe door in the front of the building were broken and twisted, but the effort to open it

day night for California, to be absent six weeks.

Miss Loraine Barnaby, who teaches near Granville, in Dickinson county, arrived home yesterday, to remain until Tuesday.

H. P. McWilliams, manager of the Hendrickson Estate stores, left Tuesday evening for Chicago. He will be back Saturday.

James Malloy, who has lived in Milwaukee for several years is home to visit his mother, who has been ill for some weeks past.

The barber shops of the city will be open this evening until 9 o'clock and will be closed tomorrow morning at 11, to be closed the remainder of the day.

The Misses Florence Brayton, Azzaline Gunville and Louise Harwood, who teach school at Stambaugh, are expected home tomorrow to spend their Easter vacation.

The newly elected officers of Ishpeming lodge No. 447, B. P. O. E., will be installed this evening. Refreshment, will be served at the conclusion of the meeting.

The A. W. Myers Mercantile company's stores will be closed today and tomorrow evening, because of the funeral of the late Mr. Myers, which will be held in Milwaukee.

The official ballot for the municipal election is on file in the city recorder's office, where it can be inspected by candidates who desire to see if their names are properly spelled.

Archie Lemire, who has been in the employ of John Beauchamp, the barber, will leave today for Detroit, where he will accept a position with an automobile manufacturing concern.

J. C. W. Chipman, who for a week or more had been going to Marquette for treatment, was taken critically ill there Tuesday afternoon and is now confined to St. Luke's hospital.

John Malloy, one of Ishpeming's oldest residents, who has been ill and confined to his room for the past week or more, was yesterday moved from his boarding place to the Ishpeming hospital.

The members of the "Y" minstrel club have decided not to produce the musical comedy, "Stageland," they will meet this evening at the Y. M. C. A., to discuss the advisability of giving another minstrel show.

Silas Harper, who was nominated for alderman in the Ninth ward at the People's party convention Tuesday evening, has withdrawn. He says he was not a candidate and did not know that his name was to be used.

About thirty boys of the Ishpeming high school entertained their girl friends at a supper last evening in the Y. M. C. A. building. Superintendent E. E. Scribner gave a talk and Holburn Bryden was toastmaster. Several of the boys and girls responded.

The Glee club of Cornell college will give an entertainment this evening commencing at 8 o'clock, in the high school auditorium, under auspices of the Athletic association. The admission will be twenty-five cents for adults and fifteen for school students.

The members of the Ladies Aid society of the Episcopal church will serve a hot supper in the church parlors Monday, election day, between 4:30 and 7 o'clock. The charge will be twenty cents. The officers of the league request all those who have pink slips to bring them in Monday.

Arthur Anderson, who spent last week in Alger county for the Hendrickson Estate bakery, will leave Tuesday for the copper country and will be absent about ten days. The firm intends to make a strong bid for outside business for the bakery, at which ten men are now employed. It has had a good business in Alger country for a number of years past.

### WAS FORMER RESIDENT.

Funeral of the Late Captain W. J. Ninness, of Mass, May Be Held Here.

The late Captain W. J. Ninness, who was instantly killed in an accident at the Mass Consolidated Mining company's property, at Mass, Tuesday morning, was a former Negaunee resident. He was born here and made his home in the city until he was over twenty years old. He left here some thirty years ago with his parents for Ironwood.

Captain Ninness was a son of the late Edward Ninness, who died at Ironwood ten years ago, and whose funeral was held here. During the family's residence in this county they lived near the Rolling Mill mine, and Mr. Ninness did exploratory work for some of the mining companies. Besides the father, two sisters of the deceased captain are buried in the Negaunee cemetery. His mother and abrother, Edward of Munising, survive him. Although no information was received here yesterday, it is thought that burial will be made here.

### TOWNSHIP TICKETS.

At caucuses in Forsyth and Spur townships Tuesday evening tickets were nominated. One hundred and fifty voters attended the caucus at Gwinn. The Forsyth ticket follows: Supervisor—George R. Jackson. Clerk—T. I. Engman. Treasurer—Charles Soderstrom. Justice of the Peace—George J. Saris.

Highway Commissioner—E. J. Manigold.

### ELECTED OFFICERS.

Three hundred members attended the annual meeting of the New Era association, when officers were elected for the ensuing year. Plans were discussed for a picnic that will be held by the society at the Perala farm near Palmer the latter part of June. The officers and committees are as follows:

President—James Hawke. Vice President—William Tom. Secretary and Treasurer—Adolph Sjolholm.

Directors—Paul Barasa, Irene Datsun and William Edwards.

Picnic Committee—Fred Kent, Irene Datsun, Paul Barasa, Abel Levine, William Jones and Mrs. Fred Marala.

### HAVE MANY FLOWERS.

The most elaborate showing of Easter flowers ever offered in Negaunee is that which has been prepared by the employees of the Negaunee Greenhouses for the Easter trade. It includes every known variety of spring blooming flower. William Helmsdorfer, the florist, has made a special effort to produce a large quantity of Easter lilies and other Easter flowers. The lilies are said to be the finest that have ever been grown in the upper peninsula. There is a fine display of potted and cut flowers of all kinds, and many orders have already been looked for Easter.

### INJURED AT ATHENS.

Emil Akkela, employed at the Athens mine, was injured late Tuesday night at the bottom of the shaft by being hit by a chunk of rock which fell from the side of the opening. The chunk fell a distance of eighteen feet. Akkela was removed to his home and it is expected that he will be able to resume work in a few days.

# ADJUSTMENT WILL BE MADE

### Delinquent Tax Money Due Marquette or Other Cities and Townships of the County Will Be Paid Over to Them as Soon as the Amounts Are Determined.

### Auditor Dresser Is Called Upon to Make an Explanation of the Discrepancies Found by Auditor for Marquette City—The Items Will Be Carefully Checked.

Delinquent tax money due Marquette city, or other cities and townships of the county, and withheld because of errors in the accounting, will be paid over as soon as the amounts due are determined. This was the decision of the supervisors yesterday after they had heard the explanation of J. A. Dresser, accountant, as to how it came that the errors had not been made good when he was engaged on the last audit of the books of the county treasurer. Marquette city claims \$2,200 in delinquent tax money.

Supervisor Thompson, who broached the subject pointed out that Mr. Dresser had failed to direct attention to the errors, and asked for an explanation. "Mr. Dresser has failed to call our attention to these items, if he knew them," Mr. Thompson said. "We desire to know how they may be rectified."

Mr. Dresser's Explanation. In reply Mr. Dresser acknowledged that the claims in behalf of Marquette city was correct. "I have checked up the items that Mr. Higgins has referred to, and the claim is a just one. When I came here I analyzed the entries on the journal and found them correct. I spent five or six hours checking the items and found no discrepancies. The errors occurred in transposing items, and were a matter of oversight. I took too much for granted and the errors crept in. There are no mistakes in the credits, and the money received is properly accounted for on the Negames' cash book. The cash and disbursements have been carefully and thoroughly audited."

"It may be that every city and township in the county has money due on delinquent taxes. The use of the journal has been dispensed with of late, so it is now impossible for serious errors to occur."

Mr. Dresser further explained that the errors may be easily rectified. Marquette city, he said, would doubtless receive the largest amount, as the delinquent taxes at Ishpeming and Negaunee and in the townships are comparatively small.

"There is one point that I want to emphasize," said Supervisor Thompson, as soon as Mr. Dresser had finished, "and that is that these discrepancies are purely mistakes in accounting. The county has the money, and as soon as an adjustment is made it will be paid over. I am satisfied that there is no cash difference."

Supervisor Yungbluth, of Ishpeming, moved that the matter be left in the hands of the committee on county officers' accounts, who will determine what is due each city and township. The committee held a brief session yesterday afternoon, and will assemble again shortly.

### February Poor Relief.

A report of the disbursements of the county superintendent of the poor for February shows a small decrease, as compared with January, when \$5,700 was paid out, owing to the large amount of relief necessary in Negaunee and Ishpeming. For February the disbursements amounted to \$5,300.12. The expenditures on poor house accounts were \$842.30; first district, \$529.09; second district, \$3,145.01; and third district, \$808.82.

Applications of Edward Trombley and Thomas Harper for the office of motor policeman were referred to Sheriff Moloney.

# MANY WEIGHTS AND MEASURES CONDEMNED

### County Sealer T. M. Wells Has Been Active Since His Appointment to Office.

That the activities of the county sealer of weights and measures have not been without result was shown by a report of T. M. Wells to the county board yesterday. Since his appointment two months ago, Mr. Wells has examined and tested 325 scales and measures in all parts of the county. Many faulty ones were condemned and others were ordered repaired.

In many instances short weights were given innocently, Mr. Wells says. Many scales were in use that had not been cleaned since the day they were purchased, and they were very inaccurate.

Mr. Wells has tested 154 scales, of which eight were destroyed and thirty-five were set up for repairs. He inspected ninety dry measures, of which he condemned fifteen. 111 counter weights and 179 counter measures, Mr.

# REPORT FAVORABLY ON FARM EXPERT

### Plan Will Be Carried Through, If Present Bill Passes the Legislature.

Recommendation that the county hire an agricultural specialist was made to the supervisors yesterday by the special committee that had been investigating the proposal. It was decided to file application for an expert with the state board of agriculture, so that early action may be had, if the proposed bill for county agriculture expenses is passed by the legislature.

The committee made the point that the question at issue is whether the county needs the services of an expert, rather than whether it can afford one. The county will, it is expected, receive \$1,200 annually from the state to apply on the salary and it is estimated that about \$1,500 additional will be required for the proper carrying out of the work.

The object of the work of the county agricultural agent, as officially stated by the Michigan Agricultural college and the United States department of agriculture, is to give instruction and demonstrations in agriculture in order to secure the adoption of better farm practices, organization and administration, to the end of increasing the profit of farming and improving rural social life.

Men well trained in science and the practice of agriculture, and known as county agricultural agents, are employed in each county or like area of the state (with or without assistants), as rapidly as circumstances warrant and funds permit. These agents co-ordinate and apply the results of several departments of the Michigan Agricultural college, the United States department of agriculture, and other research institutions, with such studies of farm practice and farm organization as may be made by the agent in the course of his work, to the end of carrying concretely to the farmer the results of scientific research, on their own farms, a knowledge of sound principles and successful practices in agriculture. They also aid in the reorganization and redirection of the agriculture of the community, and in the correlation of all economic and social forces with the agencies working for the improvement of agriculture and country life, in so far as may be possible and desirable; and bring into existence when needed, and co-operate with, agricultural clubs, associations, and other organizations whose objects are the improvement of agricultural practices, marketing methods, and educational, home, and social conditions throughout the country.

Farmers and members of their families are met individually and in groups for the purpose of study, instruction and demonstration in field, barn, creamery, school, and elsewhere.

### The Delft Program.

A two-reel Vitagraph drama, "Life's Game," with A. D. Vastburgh and Billy Dimeon, will feature the program at the Delft theater today. Other pictures will be "Heart's Desire," a Selig drama, and "Gus and the Anarchists," and "Cupid's Target," Lubin comedies. The twelfth episode of "The Master Key" will be shown Saturday instead of tomorrow, owing to tomorrow being Good Friday.

### "Old Dutch" Today.

Low Fields, the comedian, and Vivian Martin, famed as a motion picture actress, are the leading players in "Old Dutch," a five-part production of the World Film corporation, which will be presented at the Marquette Opera House today. "Old Dutch" was one of the most popular attractions on the stage when produced by the Shuberts, and Low Fields then attained one of the successes of his career.

"Old Dutch" is the story of an inventor whose dream comes true. The inventor, Old Dutch, played by Mr. Field, accounts himself fortunate when he succeeds in financing his device, the telephone, and goes with his daughter to Palm Beach to enjoy a good time with the first money payment. But here the troubles of Old Dutch begin. For the sake of peace he had changed his name; he lost his money, and he and his daughter are compelled to work out their board at the hotel. A vaudeville team, Rings and Rings, impersonates them. But the financier's son, Harold Rockmore, in love with the daughter, rights things and happiness is restored to the old inventor.

In the character of old Ludwig it is said that Mr. Fields finds a role which gives him scope for the full piece of screen delineation. He is greatly appreciated in the well-conceived impersonation of the old inventor.
