

CARRANZA'S MEN DEAL HARD BLOW TO VILLA'S ARMY

Matamoros Garrison Attacks Be-seigers, Inflicting Heavy Losses—Northern Chief's Guns Do Little Damage—His Casualties Are Estimated at About 300.

Constitutionalist General Executes 200 Prisoners in Report and When Questioned Says: "They Have Been Disposed of"—Huerta Rapped in Statement

Brownsville, Tex., April 13.—In a sortie today the Carranza garrison at Matamoros inflicted a heavy blow upon the Villa army besieging them. General Saulo Navarro, second in command of the Villa troops, was brought to Brownsville tonight seriously wounded, and the Carranza consulate here claims the Villa dead numbered three hundred. The sortie drew from the Villa forces their long-promised shelling of Matamoros, but the shelling stopped when the Carranza garrison returned to the trenches and to-night firing had ceased, with the positions of the armies practically unchanged.

Villa Prisoners Executed? Laredo, Tex., April 13.—Mexican soldiers in Nuevo Laredo today declared General Herrera had caused two hundred Villa prisoners to be executed yesterday after the Villa defeat twenty miles south of here. The Carranza commander's only reply to Americans who questioned him regarding the report was: "The prisoners have been disposed of." Later Americans returning from the battlefield, said they saw bodies of Villa soldiers, which apparently had been lynched after being shot.

Statement Scores Huerta. New York, April 13.—General Victoriano Huerta, formerly provisional president of Mexico, arrived here last night from Spain, was attacked tonight in a statement issued by Francisco Urquidí, consul-general in New York for the Villa provisional government in Mexico, who declared that both factions in Mexico, however opposed they divided, were united in opposition to Huerta. Urquidí said he doubted if Huerta would attempt to start another revolution in Mexico. He believed, however, that Huerta's stay in this country will result in one advantage to those opposed to him. "We shall be able to know better," the statement concluded, "who are the friends upon whose aid he is relying."

MAJOR LEAGUES OPEN THEIR SEASON TODAY

New York, April 13.—The call of "play" will sound tomorrow for the two major leagues of organized baseball. Despite the war among nations abroad and the continuation of strife between divergent baseball interests at home, big league managers tonight expressed belief that the coming season would be a successful one for the game. Influences of the European conflict and other factors militating against interest in the sport are declared to have spent their force, and baseball men seem confident that the game again will be well patronized by the public.

U. S. INSURANCE BUREAU PAYS \$401,000 FOR EVELYN

Washington, April 13.—The government war risk insurance bureau paid its first claim today for losses due to the European war. A treasury warrant for \$401,000 was drawn in favor of the owners of the American steamer Evelyn, sunk off the coast of Holland, supposedly by a mine, Feb. 20. The Evelyn was the first American boat lost during the war.

EDITOR OF THE STAR IN KANSAS CITY DEAD

Kansas City, Mo., April 13.—Funeral services for William R. Nelson, editor of the Kansas City Star, who died early today, will be held next Friday afternoon. It was announced tonight, telegrams paying respect to the memory of the editor, which began to arrive soon after his death was announced, came in by hundreds this afternoon.

MOTHER TAKES LIVES OF CHILDREN AND SELF

Spokane, Wash., April 13.—Mrs. Luther A. Leonard and her four children were found dead in the family home here today. The police reported Mrs. Leonard had poisoned her children and then had poisoned herself. Neighbors told the police that Mrs. Leonard had been despondent because her husband had met financial reverses and that she had been ill.

ASKS FOR TIME TO REPAIR SHIP AT PORT IN U. S.

Lieutenant Captain Thierfelder Formally Requests American Government for Opportunity to Prepare German Raider, Kronprinz Wilhelm, to Go to Sea.

Reiterates He Will Not Interne—"They May Sink Us," He Says, "But That Has No Terrors for Me"—Allies Cruisers Are on Watch for Third Enemy Vessel

Newport News, Va., April 13.—Lieutenant Captain Thierfelder, commander of the German converted cruiser Kronprinz Wilhelm, delivered to Collector of Customs Hamilton late today formal request for time to repair his ship in this port. While it is understood the German commander asked for three weeks as the maximum he stated he would make every effort to complete temporary repairs and leave port before that time.

Captain Thierfelder did not request coal and provisions, explaining that he would do this when the Washington government has decided how long he may remain in neutral waters. While opinion prevails here that the Wilhelm will intern, Captain Thierfelder insists he will return to the high seas. "We must get out," he said again today. "We got in and we can get out. The fact that warships of the enemy are waiting for us must not deter us. They might sink us, but that has no terrors for me."

Late tonight it was reported that while two warships were guarding the Virginia capes four or five others were searching the Atlantic for another German sea raider. This served to revive speculation as to the German cruiser Karlsruhe, several times reported destroyed. Officers of the Wilhelm asserted they did not believe the Karlsruhe had been sunk.

NAVY HEADS SEE PERIL TO UNITED STATES SHIPS

Fear Allies Watching for the Kronprinz Wilhelm May Attack by Mistake.

Washington, April 13.—The arrival of the German cruiser Kronprinz Wilhelm at Newport News just at this time was distinctly embarrassing to the navy department. It means that during the entire time that the British blockade fleet is held off the Virginia capes, which may be thirty days if the Prinz Eitel precedent is followed, it will be in the way of the Atlantic fleet, now in the waters preparing for spring target practice in Tangier sound. The fleet steaming in and out must watch out for the British and French blockaders, and the possibility of an American warship being mistaken for the German raider will always be present.

The navy department, however, is better prepared than ever before to enforce neutrality. When the Eitel situation became threatening, Secretary Daniels was required to detach the reserve battleship Alabama from the Philadelphia navy yard. Now he has the entire strength of the modern American navy on the ground where it can be used for any emergency.

Secretary Daniels said he had notified the Norfolk navy yard authorities to have a board of survey examine the Kronprinz. If his commander's contention that it needs repairs to be made seaworthy is proved, some time will be given. He will also be allowed all the provisions and coal needed to carry him to his home port, which in this case will be Bremen.

Raider's Coal Supply Cut Off.

The Kronprinz took refuge in Newport News directly because the Odenwald was prevented from leaving San Juan. Had the latter vessel escaped, it would have refilled the Kronprinz's bunkers and furnished it with enough food to continue its raiding career. When this was made impossible, through the Odenwald's detention, the German embassy addressed a strong protest to the state department for what is termed improper action in the Odenwald case, and the Kronprinz made for port.

So far as is known here, there is no longer a single German commerce destroyer on the high seas. If allied commerce is not to be allowed free passage after getting beyond the zone of submarine activity, another raiding squadron must be put to sea. Officials here say it must come from German waters, as the German vessels now in American ports are unarmored.

There is growing belief among naval officials here that Germany plans a new sea movement, supplementing its submarine blockade off the British and French coasts. Ever since the Eitel entered Newport News there has been an air of expectancy at the German embassy and in German circles here. Suggestions that the last German cruiser squadron now at Kiel might come to the aid of the few isolated raiders left in the Atlantic have been heard, but always German officials have refused to talk about such a scheme. Yet there is not the slightest doubt that Commander Thierfelder of the Eitel expected aid from the other ships and that when he did intern, under orders from the German embassy here, he was much disappointed.

The gold bullion received from Alaska last year amounted to \$14,576,015.

ADMITS HE DISLIKES TO HIRE UNION LABOR

Western Union Official Says Organized Employees Did Not Treat Company Fairly.

Chicago, April 13.—The commercial telegraph business, the present subject of inquiry by the United States commission on industrial relations, in session here, was presented from widely divergent angles today.

Among the witnesses were S. J. Konenkamp, president of the Commercial Telegraphers' Union of America, who completed his testimony; Belvidere Brooks, vice president and former general manager of the Western Union Telegraph company, and H. B. Perham, president of the Order of Railroad Telegraphers. Mr. Brooks made his opposition to the Commercial Telegraphers' union, as at present constituted, plain.

"I will not say that we object to the present officials, but that inference may be drawn," he remarked. "Thirty years ago our company opposed the union, but just prior to 1907, when a strike was called which cost us \$5,000,000 the union became rejuvenated and we made no protest. Then came strike talk and we offered arbitration. On June 20, 1907, through the instrumentality of Dr. Neill, commissioner of labor, and participated in by Mr. Perham and Mr. Konenkamp, then a member of the executive committee of the union—S. J. Small, vice president—an agreement was reached. The very next day a strike was called in San Francisco, which eventually spread all over the country. Since then we have not cared to employ men interested in the union."

Mr. Perham took the stand to explain that when the strike was called, S. J. Small was on the Pacific coast and could not be reached with news of the agreement and the men in San Francisco walked out in ignorance of it. Commissioner Ashton asked if it would be possible for Mr. Perham's executive committee to make an important agreement and leave him in ignorance of it. The witness thought not.

AIDES OF MISS TANZER IN "HEART BALM" SUIT HELD BY GRAND JURY

New York, April 13.—Rae Tanzer, Maxwell and David Slade, of the law firm of Slade & Slade, her attorneys in the breach of promise suit she brought against James W. Osborne, former district attorney of New York county, and Albert J. McCullough, a detective employed by the Slades, were indicted today by the federal grand jury which has been investigating the circumstances surrounding the filing of the suit. Miss Tanzer is charged with using the mails in an attempt to defraud, while the Slades and McCullough are charged with conspiracy.

Seven indictments have now resulted from the grand jury's investigation of the suit brought by Miss Tanzer. While the investigation was in progress Miss Tanzer confessed that she had made a mistake and that James W. Osborne was not the man she knew.

The indictment against the Slades charged they arranged for a "false and misleading photograph to be taken in such a manner as to indicate that the said James W. Osborne and the said Rae Tanzer had heretofore been willingly photographed together." This photograph, it is alleged, they intended to use as evidence in judicial proceedings which might ensue. The photograph, it was said, was never taken, but was to have been taken from photographs of Osborne and Mrs. Tanzer, taken at different times, but fixed on the same plate.

FLYNN DEFEATS REICH AFTER A HARD FIGHT

New York, April 13.—Rocky Flynn, of Boston, outboxed Al Reich, of New York, in a ten-round bout here tonight. Reich had Flynn groggy in the sixth round, but just before the bell scored a heavy right to the jaw. Thereafter Flynn had decidedly the better of it. Flynn weighed 198 pounds and Reich 205.

Boston, Mass., April 13.—Joe Jeanette, of New York, defeated Sam Langford, of this city, in a two-round bout tonight. The negro heavyweights mixed freely, but Langford's apparent lack of condition gave Jeanette the advantage.

New York, April 13.—Gumbart Smith, California heavyweight, out-fought Charles Weinert, of Newark, N. J., in a ten-round bout in Brooklyn tonight. Smith weighed 180 and Weinert 177 pounds.

CHRISTIAN SCIENCE BILL IS KILLED IN ASSEMBLY

Albany, N. Y., April 13.—Party lines were cast aside today when the assembly defeated the Thorn bill, intended to exempt Christian Science practitioners from the state law requiring physicians to be examined and licensed. The vote was forty-six yeas to seventy-nine nays. Being an assembly measure, the bill is now dead. Majority Leader Hinman said its enactment into law would imperil public health, inasmuch as it would permit persons to practice healing with any state regulation or supervision.

FLORIDA HOUSE WOULD PUT 'DRY' ISSUE TO VOTE

Tallahassee, Fla., April 13.—The lower house of the Florida legislature passed a resolution today providing for submitting to the voters in 1916 a constitutional amendment for state-wide prohibition. The senate has not yet acted.

WEATHER FORECAST.

Washington, April 13.—The following is the weather bureau's forecast for Upper Michigan: Fair Wednesday and Thursday, rising temperature.

Russians Held on Threshold of Hungary. Austrians Reinforced, Battling Fiercely. Big Move by Allies Looked For Soon.

EAST CAMPAIGN HINGES ON PASS TEUTONS ARE IN

TWO GATEWAYS INTO HUNGARY STILL CLOSED TO THE RUSSIANS.

BESKID AND UZSOK VITAL AUSTRIANS, HEAVILY REINFORCED, HOLD FIRMLY AGAINST INVADERS.

GERMANS ARE IN CHARGE? BELIEVED BERLIN GENERAL STAFF IS DIRECTING THE OPERATIONS.

London, April 13, 10:12 p. m.—Two gateways into Hungary remain barred, despite the tremendous hammering by the Russian forces, and, as the Beskid pass is the less important of the two strategically, a further advance into Hungary depends upon the possession of Uzsok pass, where the invaders are meeting with the most stubborn opposition.

Several days ago the Russians captured a position which gave them command of a road leading to the rear of Uzsok pass, but since then the Teutonic allies have checked the movement in this direction. The importance of the Carpathian operations is indicated by the half-hearted actions reported from the other sectors on the long eastern front, where even the counter offensive in eastern Galicia, which evidently was planned to divert the Russian effort from the passes, seems to have been prosecuted with little energy.

Heavy Reinforcements Sent.

The people of the dual monarchy are said to be greatly cheered by the number of German reinforcements passing through Budapest on their way to the Carpathian front to take part in the operations, which are now believed to be in charge of the German general staff. The whole campaign in the east pivots on Uzsok pass, where the Austro-German forces are in such great strength it appears the efforts of the Russians to reach the Hungarian plains are likely to be prolonged.

Russians Repulsed, Says Vienna.

Vienna, via London, April 13, 7:17 p. m.—The following official communication was issued today at army headquarters: "The Russian offensive which began on March 20 has now been arrested. When the attempted eruption during the Easter holidays in the Latorca and Ondawa valleys failed, the enemy again attempted to advance in the wooded mountain regions on both sides of Uzsok pass, but all attacks during the last few days were repulsed with heavy Russian losses. "On the remainder of the front the situation is unchanged."

TO ASK UNITED STATES TO LEARN HOW GERMANS TREAT BRITISH CAPTIVES

London, April 13, 11:10 p. m.—The British foreign office has instructed the British ambassador at Washington to ask the American government to investigate the conditions of imprisonment imposed on British officers by Germany as a retaliatory measure against the imprisonment of German submarine crews in England.

33,000 WOMEN OF BRITAIN IN SPECIAL WAR SERVICE

London, April 13, 10:32 p. m.—Thirty-three thousand women have registered themselves for special car service up to the end of March. This statement was made tonight by Walter Runciman, president of the board of trade, at a deputation representing the various women's societies in London. The government, the speaker continued, insisted that women employed by government contract work be paid the same piece rates as men.

EXPLOSION AT LENWICK THE RESULT OF A FIRE

London, April 13, 4:20 p. m.—Ae fatal explosion at Lenwick, Shetland island, yesterday, was the result of a fire, according to recent dispatches reaching London. Considerable property was wrecked and four men and one boy lost their lives. No further details have been received.

AMERICAN WOMEN LEAVE TO TALK PEACE AT HAGUE

New York, April 13.—Forty women delegates to the International Women's Peace conference at The Hague, headed by Miss Jane Addams, of Chicago, sailed for Rotterdam today aboard the Holland-American time-steamer Nordam. The conference is set to begin April 28.

SUMMARY OF THE WAR NEWS

Where for the last eight days there has been violent fighting in the Weever region, calm now reigns, apparently with a view to giving the belligerents a chance to gain their second wind.

In the Carpathians near the Uzsok pass the fighting continues with the same intensity that has prevailed for weeks. Petrograd asserts that after desperate encounters several heights were captured by the Muscovites and with them fifty-three officers and two thousand seven hundred men, one gun and twenty machine guns. Vienna declares that the Russian attacks in the vicinity of the Uzsok pass were repulsed with heavy losses.

The British government has agreed to purchase the cargo of food-stuffs destined for Germany on board the American steamer Wilhelmina. The owners of the cargo have accepted Great Britain's offer.

AUSTRIANS CONFIDENT OF EVENTUAL VICTORY

Entire Blame for Present Hostilities Is Placed on Russian Government. Vienna, April 13, via The Hague to London, April 13, 3:35 a. m.—Confidence regarding the outcome of the war is the watchword everywhere expressed in competent Austro-Hungarian quarters, despite the enormous sacrifices entailed. The Associated Press correspondent, during a month's stay in the dual monarchy, had an opportunity to meet and talk with virtually all the leading statesmen and almost none who indicated or intimated the slightest doubt regarding eventual success in the struggle.

Responsibility for the war was put squarely on Russia, which, for years, according to the views expressed, has been steadily working toward the destruction of the monarchy, using and encouraging Serbia as a "stalking horse" for this purpose. The composite views of the statesmen are about as follows:

Russia Back of It All?

"The spark which kindled the war, was, it is true, an incident of the saddest nature for us, but the incident represented merely the consequence of a series of deeds and activities aiming at the destruction of Austria-Hungary. Americans, who quite naturally paid little attention at an earlier date to the events in central and eastern Europe, saw the curtain go up only at the moment when a great power, Austria-Hungary, was about to call little Serbia to account. Their first impression was that of the misuse of our greater strength. The situation in reality was quite different.

"For years it had been openly preached in Serbia that the southern provinces should be torn from the monarchy. It has been proven that the participation of officials and officers in the instigation of murders was not an isolated case. Secret societies which were conducting a propaganda against us and intriguing against us within the monarchy were directed and prompted by men in official positions. Serbia, therefore, was tacitly involved in a state of war against us, which no state in the world could have tolerated.

"Serbia, however, would never have ventured to act so provocatively unless backed by Russia, whose government used Serbia as an outpost entrusted with the duty of annoying, exhausting and provoking us until a suitable moment arrived to carry out its pan-Slavistic plans."

GREAT BRITAIN TO BUY CARGO OF WILHELMINA AND PAY FOR DELAY

London, April 13.—The British government has agreed to purchase the cargo of the American steamer Wilhelmina and to compensate the owners for loss. An agreement to this effect was reached today with the W. E. Green Commission company of St. Louis.

The Wilhelmina, an American steamer, sailed from New York for Hamburg Jan. 22 with a general cargo of food products. She was taken into custody by the British marine authorities, since when her case has been pending.

Under the agreement of today Great Britain will pay the price the owners would have realized on the cargo had it gone to Hamburg and also to compensate the owners for the loss sustained in consequence of the ship being stopped. The government will also pay for delay to the ship so far as it has been caused by the British authorities.

DR. ELIOT SAYS TIME FOR PRAYERS FOR PEACE IS NOT YET AT HAND

Boston, Mass., April 13.—Charles W. Eliot, president emeritus of Harvard University, declared at a meeting of Baptist ministers here that the present was no time to pray for peace, especially a peace-at-any-price. A sudden termination of the European conflict would set civilization back several centuries, Dr. Eliot said. Replying to a question, the speaker expressed this opinion that ministers should not remain neutral when their ideals of civilization were being smashed.

POPE GIVES \$10,000 FOR WAR SUFFERERS

Rome, via Paris, April 13, 11:35 p. m.—Pope Benedict has sent to Cardinal Mercier \$10,000 for the Belgian sufferers from the war. The pope also sent \$5,000 to the bishop of Cracow for the Polish war sufferers.

REGION AROUND ALPS VISITED BY STORMS

Milan, via Paris, April 13, 11:30 p. m.—Winter has returned in the Alps. The snow lies several feet on the peaks, and the temperature has fallen

EXPECT EVENTS OF VAST SCOPE IN WEST SOON

LONDON LOOKS ON "WEAKENING OF GERMANS" AS A BIG FACTOR.

ALLIES' SUCCESSES AN AID POSSESSION OF LES EPARGES IS OF GREAT STRATEGICAL VALUE.

SIGNAL FOR OFFENSIVE? ADVANTAGES OF ANGLo-FRENCH LIKELY WILL BE FOLLOWED UP.

London, April 13.—Field Marshal Sir John French's message to his countrymen at home that "I know when the time comes for us to make our grand move we can break through the Germans," and a British eyewitness' statement that there are plain signs of the "gradual weakening of the German resistance," are accepted here as an intimation that the present steady pressure on the western front will shortly develop into events of vast scope. It is expected that the next three months will be especially memorable in this epoch-making war.

Military writers are of the opinion that the reported French successes between the Meuse and the Moselle—an important region stretching between the rival fortresses of Verdun and Metz—have given a promising opening for the spring campaign. They regard it as the signal for the general offensive movement, which has been awaiting the arrival of adequate accumulations of men, equipment and supplies. Despite the gallant German attempts to recapture the position of Les Eparges, possession of which enables General Joffre to give another twist to the screw of the vice wherewith he hopes to grip the German position of St. Mihiel, that projection into the French line which the invaders have held tenaciously for so many months, the allies still have the upper hand in that all-important Verdun district.

BRITISH TORPEDO BOAT ENTERS DARDANELLES RETURNING UNINJURED

London, April 14, 2:12 a. m.—Reuter's Tuesday correspondent, telegraphing from the Dardanelles, says: "The British torpedo boat destroyer Renard entered the Dardanelles yesterday on a scouting mission and ran up the strait at high speed for over ten miles, penetrating the waterway probably farther than any other British ship has yet gone. A heavy fire was directed at her, but the destroyer was not hit.

"The British battleship London, which followed the Renard into the strait, drew most of the enemy's fire. The batteries on the Asiatic side were active, but those on the European side were quiet. Possibly the Turks have withdrawn part of their artillery on the European side in order to be able to mass it quickly at any spot the allied armies may choose for a landing."

GOVERNMENT PLANNING LIQUOR TRADE CONTROL ASSETS LONDON PAPER

London, April 13, 8 p. m.—The Evening Chronicle says the government is considering a plan for complete state control of the wholesale and retail trade in the domestic supply of alcohol. The plan, the newspaper adds, involves a state monopoly in the manufacture and sale of alcoholic liquors.

Probably no session of the British parliament since the opening of the war has been awaited with keener interest than the sitting which will begin tomorrow. A "dry" England, unknown except for a period of two years, one hundred and fifty years ago, is not beyond the possibilities, but the government has given not the slightest official hint as to what action may be expected.

CIVIL WAR VETERAN MURDERED IN SLEEP IN SOLDIERS' HOME

Milwaukee, Wis., April 13.—Attacked while asleep in the local home of the National Soldiers' home here last Monday night, Romanzo Blair, a Civil war veteran, was stabbed under the heart and mortally wounded. F. O. Swanson, a Spanish-American war veteran, is held as his assailant.

ICE CRUSHES MAIL BOAT; THREE MEN DROWNED

Bayfield, Wis., April 13.—Three men were drowned and two others narrowly escaped death in the waters of Cleopatra bay within sight of shore last night when the United States mail boat between this city and Lapointe was crushed by ice floes. The dead: NOELS CIZEN, SR., CLARENCE WRIGHT, CHARLES RUSSELL. All three men lived at Lapointe.

CLOTHING TAKES FIRE, NUN DIES FROM BURNS

Springfield, Ill., April 13.—While praying in the chapel of St. John's hospital, Sister Mary Magdeline, a daughter of George Joyce, a former officer in the British army, received burns which resulted in her death today, eight hours after the accident. Her clothing caught fire from a wax candle. She was sixty years old.

TO OBSERVE THURSDAY. THE DAY LINCOLN DIED

Washington, April 13.—President Wilson tonight signed an executive order providing that fitting observances be given to the anniversary of the death of Abraham Lincoln, who died fifty years ago Thursday. It directs that flags be displayed at half-mast.

WEDNESDAY, APRIL 14, 1915.

THE ANNUAL ELECTION.

The Negamee council has had its annual election of liquor dealers. This is one of the things that go to make saloon sentiment. The public is certain to get disgusted with a system that makes the question of which particular men shall be permitted in the saloon business the pivot on which elections turn.

field would have clearly demonstrated. He argues that the provident associations of the various cities administer funds of charity more advantageously than individuals can possibly dispense relief.

WHAT IS WRONG.

The bandying about of the blame for the bad condition of the submarine that sank in Hawaiian waters, if there is any blame to be placed, should not be allowed to obscure the condition that the responsibility for the shortcomings in our army and navy must be shared by the Republican and Democratic parties alike, and that of the two the Republican party must shoulder the larger share.

The fundamental trouble with the army and navy is due to the fact that political considerations have been allowed to play too large a part in their conduct. Proper concentration of the army in a limited number of army posts so as to permit not only of economical maintenance of the troops, but their exercise in large units, and the abandonment of purely political navy yards have been prevented by the unpatriotic attitude of representatives and senators who have been willing to subordinate national to personal, or party, interests.

CHIPPEWA WET.

The dries in Chippewa county have accepted the finding of the county canvassers that the county is wet by a majority of forty-one votes. They suspect that behind the returns there are certain fraudulent conditions that if inquired into would make the result different, but the limitations of the statute, while permitting a recount of the actual votes, make it impossible to go behind the returns for such an inquiry as would be necessary to confirm, or lay, their suspicions.

On this point W. S. Foster, an attorney for the dries, is quoted in the Soo News as follows: "The law certainly needs amending so that such conditions as are alleged to have existed here can be thoroughly inquired into. The better element of both wets and dries want the elections properly conducted. Temporarily, the obstacles we meet here work to the advantage of the wets, but the next time such a situation comes up in some other part of the state the tables may be reversed, and the wets may be in the same situation we are in now."

ROCKEFELLER ON BENEVOLENCE.

John D. Rockefeller contributes to the current number of the Saturday Evening Post a notable article on "Benevolent Foundations and Efficient Philanthropy." While he defends foundations against onslaughts of critics, who see in them a menace to the public welfare, by his customary argument that the legislatures of the states from which the foundations receive their charters have ample power to correct any evil tendencies, the most persuasive thing in his article is his reasoning in support of organized charities and benevolences as against unsupervised personal giving.

He gives some concrete illustrations. A missionary was very desirous of establishing a hospital at a certain place. But the board of his denomination showed conclusively that it should be located at another place. The board knew conditions in all parts of the land, whereas the individual missionary had but circumscribed knowledge. An attempt to found an orphan's asylum in a certain city is mentioned. An expert's investigation showed that there was room and to spare in existing orphanages. Mr. Rockefeller contends that much money has been wasted on colleges that could not possibly succeed, a fact that an expert examination of the

before he can be said to have finished the job he started in on.

Huerta says he is not going to Mexico. If Mexico had any sort of a settled government it would be an announcement of some importance, but, as the case stands, to Americans it can have no great interest. Huerta could go to Mexico, if he wished to risk his skin, and confusion would be no worse confused. In fact, if he went to Mexico via Vera Cruz, and tumbled Carranza out, there might be an appreciable gain for the distracted country. The administration may have its own ideas about what Huerta's movements on this continent should be, but if public opinion ruled he would be permitted to go and come with regard to Mexico to suit his own plans and convenience.

The best the legislature will be able to do is to hold the biennial appropriations down to about \$16,000,000, it is said. Michigan is a growing state. It must expect to see the appropriations keep pace with its population and the increasing needs of its boards and institutions.

One estimate has it that there are fifty-five votes in the house for the "sliding scale" railroad rate bill passed by the senate. At the same time, there are said to be seventy votes there for the submission of statewide prohibition.

In the case of the Riggs National bank vs. McAdoo and Williams the wise thing for the public to do is to reserve judgment until it has all the facts before it.

STATE PRESS

It's a long street railway franchise that has no jitney.—Grand Rapids Herald.

It is said General Felipe Angeles may be the next president of Mexico. Hard luck, Filly.—Flint Journal.

The Duke of Orleans complains that he is barred from fighting. He ought to come to this neutral country and express an opinion on the war.—Lansing Journal.

Caruso is to receive \$7,000 a night in Buenos Aires. Still some people say South America has a financial stricture on account of the war.—Grand Rapids News.

No, that seven-man school board bill is not restricted to Detroit. All any Michigan city has to do in order to come within its provisions is to get at least 250,000 inhabitants.—Saginaw Courier-Herald.

TIMELY QUIPS

Tally. Anybody can keep an expense account. But the trouble is to make it tally with the cash.—Cleveland Leader.

Enthusiasm. Just to prove the richness of their real estate, enthusiastic suburbanites now bring in specimens of it on their feet.—Chicago News.

Flirtations. The assertion that Americans flirt with business is tempered by the reflection that flirts often make the best life partners.—Washington Post.

No Change. The New York man who speaks seven languages fluently acknowledges that his income is but \$480 a year. Talk is still cheap, in spite of the war.—Cleveland Plain Dealer.

Neutrality. Italy demands a high price to remain neutral, while the United States is neutral without charge and at a heavy expense to its own commerce.—Kansas City Journal.

Great! Dr. Rittman, who has discovered a way to make gasoline half as costly to the manufacturer as it now is, has achieved more than has been achieved by either side in a war that is costing \$20,000,000 a day.—Louisville Courier-Journal.

Dogged. The Terre Haute registers registered a dog as a voter. But they did not let the dog vote and therein made their attack on the public welfare. If the dog had voted there was an even chance that he might have voted in a half decent way.—Pittsburgh Dispatch.

EDITORIAL OPINION

The Idol of France. Of course the French people cheer the name of Joffre and lionize others of the successful heroes of the war, but the real idol of the nation today is a piece of mechanism which bears a number instead of a name and which was a mystery until the fighting had been in progress for several weeks.

Next to the tri-color standard of the republic nothing will excite the intense enthusiasm of the effervescent people more quickly than the glory of the artillery branch of the army—"75"—a field gun which has been already wonderfully efficient in scores of battles.

It was just twenty years ago that General Mathien, then head of the artillery branch of the French war office, set Major Deport, head of the workshops at Puteaux, the task of inventing a machine gun of field caliber capable of firing twenty-five shots a minute and safe from recoil. Deport lost no time in getting at the task, and evolved a machine so perfect that the two principal gunners are able to remain on the carriage during the firing without danger from the recoil, and it is still so easily moved as to be available in almost any kind of a location.

aware of its value but the French army soon learned about it when hostilities opened and the French made a stand long enough to demonstrate what it could do.

Today "75" is a magic number with the French—and with good reason.—Grand Rapids Herald.

A Battle Front of 1,656 Miles.

The stupendous proportions of the present war—the like of which was never before known in history—is called to attention by an article in the French paper, "Le Matin," which declares that the total length of the battle fronts at the present time is not less than 1,656 miles. Of this distance the Russians hold more than one-half or 831 miles, while the French occupy trenches along a front of 540 miles, the Serbians and Montenegrins are operating along a line of 217 miles, the British are caring for thirty-one miles, and the remainder of the Belgian army has a front of seventeen miles.

One has only to appreciate—if he can to it—the stupendous area included in the scenes of active operations of the present war in order to understand how difficult it is to grasp the problem of the struggle in its entirety, or to properly correlate the incidents and actions of one part of the war zone to those of another part. Nor should it be forgotten that even the figures given do not entirely express the enormous proportions of the war, for there is also to be taken into account, as well as the small "side-show" conflicts in Africa and elsewhere. And then there is the naval side of the war, not to be measured in actual miles, but nevertheless a very important factor, and which may be far more so as the war progresses.—Oshkosh Northwestern.

A Learned Agitator.

The country, and in particular its public schools, should be headed off promptly, in the opinion of President Benjamin Ide Wheeler of the University of California. Otherwise, he seems to fear, the finish will be certain and dismal.

Democracy is vanishing, he finds. Americans rant about it a great deal, but are slipping back into aristocracy. "Public schools are for rich men's sons, who have a slim chance enough any way. Vocational training is an effort of the aristocracy to hold the sons of laboring men in a life of toil. It is a trick of the Europeans to sidetrack boys."

All this Dr. Wheeler is reported to have said several days ago—and has not since been denied by him. The statements were voiced before a teachers' association in San Francisco and are therefore to be accepted as expressions of honest belief. The eminent educator could scarcely have stopped to the making of will accusations merely to attract attention. Nor could he have been trying to carry favor—as might have been suspected had he shouted the same sentiments from a packing case at an I. W. W. street meeting.

His conclusions seem oddly at variance with common observation. In this part of the country, at least, the schools that rich men's sons attend are private schools. Vocational training, instead of being propagated by "the aristocracy" to sidetrack poor boys from the road to affluence, owes its rapid extension, so far as we have noticed, to its popularity among common people having common sense and is most loudly advocated by those who purport to speak for the great working population.

"To hold the sons of labor men in a life of toil!" If President Wheeler knows of any other kind of life that is open to the sons of men, millions would be glad to hear the secret. The life of toil, spoken of so slightly by this scholar who talks like an anarchist, is the common lot. That is precisely why vocational education enjoys common approval, since the best chance of general reward for toil is seen to lie in ability specially trained in some branch of business.—Cleveland Leader.

A LAUGH OR TWO

The Only Thing. Morris Hillquitt said in a recent lecture in New York: "We have wages war prices for necessities here—such necessities as bread, meat and so on—that they have in the actual war areas. "If necessities go much higher, the only thing for the poor to do will be to start to live on luxuries."

War. Captain Boy Ed, the German naval attaché, said at Washington luncheon: "My dear friend has no picture-sensibility, no beauty. "A wounded soldier in Charleroi was asked to describe his impressions of a modern battle. He ceased his face bandages and replied: "A modern battle? What's it like? Well, first you hear a dense of snoring, and then the nurse says, 'Try and take a little swaller of this.'"

An Absinthe Dinner.

"The abolition of absinthe is, of course, a good thing for France," said ex-Ambassador Myron T. Herrick. "Absinthe is a very strong drink. "From five to six, the aperitif hour, all France used to smell of absinthe, a potent, poisonous kind of snuff. Everybody in all the cafes drank the

opaque green drink. But no one took more than one. No one got drunk. "To get drunk on absinthe is a serious thing. It takes away all appetite for days. A man said once that he had just come from an absinthe tapers' dinner."

"An absinthe tapers' dinner—and what's that?" they asked him. "Oh, it consists," he answered, "of absinthe, rare beef, and a dog. "A dog?" But what's the dog for?" "Why," he replied, "to eat the rare beef, of course."

The Husband's Burden.

Senator Lodge said at a luncheon in Washington: "The burden of neutrality is a heavy one. It is difficult to keep the mind off it. We exponents of neutrality, in fact, are like the man who advanced to the glove counter and said: "I want a pair of gloves. "Yes, sir," said the salesman. "But, toned gloves, I presume, sir. And how many buttons—two, four, six, eight?" "Oh, I don't care how many," said the patron, "just so they don't button down the back."

Perversity. Mrs. Arthur Dodge, discussing the suffrage movement, said in Washington: "If women would only put to good use the duties they already have, instead of grasping at others which are unfit for them!" "These suffragettes remind me of the dog."

"Did the dog eat much when he got into the ladder?" he asked her cook. "He ate every blessed thing, ma'am," the cook answered, "except the dog biscuit."

The Typical Turk.

"The Turks are a kind-hearted, jovial people. The typical Turk is the Kioja Nasreddin, of whom Turkish history is full. "The speaker was Captain Dow. "The Kioja was a friend to animals. Thus he is always depicted, when riding his donkey, as carrying his saddlebags under his arms so as to relieve the donkey of their weight. "Another story of the Kioja is that he was lacerated one day by a voice in his garden saw something white, and shot an arrow through it. "Investigation proved that the white thing was his own nightshirt hanging on the line. When he realized this, the Kioja, with tears in his eyes, knelt and prayed fervently. "What were you praying about?" his wife asked, when he rose to his feet. "I was thanking Allah," he replied, "that I wasn't in my shirt when I shot my arrow through it."

LOWER STATE NOTES

HOLLAND—Holland real estate valuation will be boosted \$2,714,046 to bring it up to the cash value basis adopted by the state tax commission some time ago, or a total of \$8,997,476. The total assessed valuation of real estate in Ottawa is placed at \$17,700, an increase of \$3,000 over last year's figures.

DETROIT—Last Sunday was the "biggest" Detroit has known in several years, according to police announcement. Salubrious Police Commissioner Gillespie's order to remain closed, as did practically all of the so-called clubs. Leading hotels served meals in their regular dining rooms as usual, but no liquor was dispensed.

YPSILANTI—Gordon Metz, two-year-old son of Mr. and Mrs. George Metz, was knocked down and run over by a fast interurban car. The only injury sustained was a cut on his forehead. Dr. Ralph Southard and Motorman Gus Peterson, believing he was killed, so reported the accident. His escape was considered little short of miraculous as he lay between the rails while the car ran over him.

CADILLAC—The minimum salary for Cadillac school teachers will be \$500, according to the contracts offered the teachers for their services here another year. A number of teachers will not return next year, having resigned their positions. George A. McGee will continue as superintendent. Jay R. Hamilton, high school athletic coach, has been offered his same position at an increase in salary, but has not decided whether he will teach and coach another year.

HOLLAND—Dr. W. O. Trome, the federal inspector who directed the warfare against the loot and the disease in the townships of Allegan and Ottawa counties since November, has closed his home district in Wheeling, W. Va. Since Dr. Trome and his deputies were on the job more than five hundred head of cattle and hogs were slaughtered in Fillmore township and the disease in each herd was traced to the creamery.

ZEELAND—At the annual stockholders' meeting of the Bauer Creamery company the following officers were elected: President, William Flipsey; vice president, Fred Behrens; secretary, E. H. Schmeister; treasurer, H. Hroonwald; trustees, John Erntzer and H. Kantenberg. The annual statement of the company showed that 5,981,443 pounds of milk had been received during the last year, from which 275,895 pounds of butter had been made. The total receipts, including \$346,12 cash on hand, for the year, were \$7,928,23. The expenditures for this year, including a 29 per cent dividend amounting to \$1,084, were \$7,086,22.

KALAMAZOO—When James E. Balch takes the oath of office as mayor of Kalamazoo it will be with the realization that he is mayor of Kalamazoo through his wife's influence. Mrs. Balch, one of the most prominent suffragists in the state and for many years an official of the Kalamazoo Suffrage association, did not take what might be termed an active part in the campaign, but it is known that every suffragist in Kalamazoo exerted her influence in behalf of Mr. Balch's election. His majority of 56 in a Republican city where the majority for the G. O. P. usually runs about 1,500 created much surprise.

LANSING—Final consideration of the increased fare bill in the house and the probable passage of the statewide prohibition bill in the senate makes this week one of the most important in the history of the 1915 legislature. Since the recent local option elections there has been a decided change in sentiment in the house, where supporters of the

Straight bill are now counting on at least seventy votes. Supporters of the graduated fare bill are counting on fifty-five votes in the house, but it is generally conceded that the margin is very close and the opponents of the measure believe that it will fail to receive the required majority.

BATTLE CREEK—Dr. C. S. Hubbard, head of the Little San, arrested in Grayling on a charge of obtaining \$900 from Mrs. Agnes Findlay under false pretences, was brought to Battle Creek. At the city jail the physician refused to discuss the case. Stories of the manner in which the doctor conducted his sanitarium are freely circulated. A number of men who said they had cashed his worthless checks made their losses known. It is believed that large sums were secured by the doctor on these checks. Officers who have been investigating the record of the doctor before he came to Battle Creek say that he served seven years in a western prison and now is wanted in two western cities for charges of swindling.

KALAMAZOO—"We have obtained absolutely no trace of Harry Irvine. One of my deputies reached the house in Detroit where he remained Friday night about two hours after he left that city in his high-powered motor car," said Sheriff Ralph Chapman who is discussing the disappearance of the municipal court clerk who funds probably amounting to \$6,000. Whether he crossed into Canada or went in some other direction the sheriff says he has not heard. With each hour the alleged shortage of Irvine increases. Not only has he not been reaped a harvest in the court where he worked, but amounts ranging from \$150 to \$500 were obtained from friends on personal notes and mortgages. Irvine recently promoted a sales agency for money from his friends ostensibly to buy the second-hand cars. Inquiry shows that he had never used the money for the purpose it was borrowed. What action the council will take because Judge Glenfield failed to see to it that a bond be filed for his clerk as required by law is not determined. It is probable that an investigation will be made into this feature of the case.

GRAND RAPIDS—In reply to the challenge of an atheist who asked how a sane man can believe in a God who had the power to stop the horrible slaughter of the European war, yet refused to do so, A. W. Wishart, of the Fountain Street Baptist church, declared that the responsibility for ending the war lies with the Christians of the world and not with God. Rev. Mr. Wishart asserted that in a world where there was no responsibility upon human beings, where God interfered every time an evil impeded there could be no sympathy, benevolence, rejoicing nor triumph. Such a world, he said, would present as many difficulties as the world we now have. "Judging from history, the sternest purpose is to develop a type of character or personality, not a machine," Mr. Wishart said. "This requires a world of risks and defeats, mistakes and calamities. The human race must suffer the consequences of ignorance which can only be avoided by overcoming ignorance. It is time that Christians ceased praying to God to stop the results of their hatred, greed and rivalry and addressed themselves to the task of stopping hatred, greed and rivalry which are the potent causes of war."

UPPER PENINSULA Work of Menominee's Sealer. The first annual report of C. J. Wuellner, sealer of weights and measures at Menominee, shows that during the year Mr. Wuellner inspected 387 weighing devices. Of these 275 were found correct, fifty-one were found incorrect and thrown out and fifty-six were corrected by the inspector. One practice which the department has corrected was the use of liquid filled standard measures. There is a difference of about five cubic inches. Another practice which Mr. Wuellner discovered was the use of heavy wrapping paper by the big packing companies, which had made the local dealers pay for the weight of the paper with the paper on it. The paper on a hundred pound piece weighed from two to four pounds, the report said. Of dry measures inspected, twelve were incorrect. Of liquid, forty-five were correct and seventeen incorrect.

Driscoll Carried Five Wards. Geo. O. Driscoll, Independent, who was elected mayor of Ironwood by a majority of 217, defeating Henry Rowe, who has served in the position the past two years, had a majority in five wards. His majority of 179 in the First is probably the largest ever given for mayor in any ward since the organization of the city. The large number of "straight" tickets voted by the electors of the ward carried by Dr. Driscoll, however, was not experienced by other candidates for aldermen were successful in five wards, the Independent party candidates winning in three. In supervisors, the two parties broke even, both electing four. The vote was 1,821, the largest polled in a municipal election for many years.

The Republican plurality in Gogebic county for justices of the supreme court was 1,156. The Progressive vote fell from first to third place in the count. The total vote polled by the leading candidates for justice of the supreme court follows: Republican, 1,778; Democrat, 622; Progressive, 529; Prohibition, 217; Socialist, 172; total, 3,318.

At Bessemer, Mayor W. J. Trevarthen was re-elected by a majority of eighty-nine over E. W. Felling, the entire ticket headed by Mr. Trevarthen being successful with the exception of one candidate for alderman.

Miss Laura Bowden, unopposed for county commissioner of schools, received 1,889 votes.

Testing the Life of a Tungsten. What is the life of a tungsten electric light globe? To settle this question and at the same time satisfy any suspicion that may exist in the mind of consumers that the tungsten lamp may not be as durable as the old carbon light, the Houghton County Electric Light company has started a novel experiment at its central office. A unique mechanical contrivance has been arranged to subject the globe to such jolting as it would receive in ordinary use, in fact jolting which is even more severe than the globe would receive in the mere touching of the switch, either at the light or the button. The jolts are recorded mechanically so that an accurate count may be obtained.

WANTED

WANTED—A young man to conduct a household. Apply M. F. Goldberg, Third St. 4-14-15. WANTED—Porter at Hotel Summit. 4-14-15. WANTED—A cook and second girl. Mrs. Austin Farrell, 521 E. Arch St. 4-13-15. WANTED—A girl for general housework. Inquire Mrs. Richard Baker, 425 E. Ohio street. 4-13-15. WANTED—Girl to help with housework, mornings only. Apply 1025 North Front St. WANTED—Second hand sofa fountain. J. P. Propst, Trout Lake, Mich. 4-9-15. WANTED—Second cook at Clifton Hotel. 3-29-15. WANTED—Dining room girl at Hotel Summit. 3-8-15.

FOR RENT

FOR RENT—The east store, No. 131, in the Gregory block, Washington St. Apply to H. Gregory, 301 N. Fourth St. 4-6-15. FOR RENT—Property at 401 W. Washington St. Suitable for a school and a living house. Inquire on premises. Phone No. 723. 4-5-15. FOR RENT—Two pleasant rooms, overlooking Lake Superior, which I will rent, with board, to a single lady, including address. Inquire at Journal. (3-29-15) FOR RENT—At \$20 a month, modern six-room house. C. C. Spooner, 510 E. Prospect St. 3-8-15. TO RENT—Two apartments on the 2nd and 3rd floors of the Cook block, corner Third and Blue streets. The corner apartment has one very large room and two small ones. Fully decorated for lodge purposes, but would be very desirable for business use. Marquette County Savings Bank, Charles F. Geill. 3-4-15.

FOR SALE

FOR SALE—Fine parlor organ; cheap. A. Espey, 135 Blue St. 4-14-15. FOR SALE—Horse, buggy and harness; cheap. Sinclair Bros, First St. 4-14-15. FOR SALE—Bargains in furniture, rugs. Call forenoon, 217 E. Hewitt Ave. 4-15-15. FOR SALE OR RENT—After May 1, 1915, residence at 152 Champion St. now occupied by A. R. K. building. Rent, \$10.00. 60 Genesee St. Apply at F. W. Sambrak Lumber Co.'s office. 4-10-15. FOR SALE—18-foot launch, 3 1/2 H. P. Etd. engine, recently overhauled. Boat painted this spring. No. 1 condenser. Equipment: Oars, two spark coils, 150 feet new rope, 45-lb. anchor, tool box, full set boat tools, motor, 100 ft. of 1/2 inch gas line, 45-horse, half-inch in boat. Also gas, gasoline cans, etc. Inquire of Frank H. Wilby, Savings Bank building. 4-10-15. FOR SALE—My farm of 60 acres in whole or 3 or 10-acre parts. An ideal place for any purpose. For information call Ed Covain, Marquette, Mich. 4-10-15. OR SALE—At once, beautiful walnut sideboard and chairs. Mrs. A. E. Taylor, 146 W. Hewitt avenue. (3-31-15)

On Monday the company placed a brand-new tungsten globe in the jolting contrivance, and started a guessing contest. No charge is made and anyone who desires to make a guess is invited to do so, and if his judgment as to the number of jolts the light will stand is good the guesser has an excellent chance of being rewarded with a prize.

Crystal Falls City in Straits.

The people are beginning to wake up to the fact that the city of Crystal Falls is in some pickle as a result of the elimination of the saloons, comments the Crystal Falls Daily. The revenue of \$14,000 that has been put upon the city platted by the liquor shops every year will not be forthcoming this year, and as a result there will be absolutely nothing with which to do business the coming year. At the same time, the city council allowed claims that wiped out the money in the treasury, so that between now and the voting of the appropriation next September there is absolutely no money available with which to pay running expenses. There will be some income from the electric light and water users, but that income will all be absorbed by the necessary labor and supplies. We have been raising \$22,000 in city taxes, says the Daily. In addition, we have had \$14,000 from liquor licenses, making a total of \$36,000. At the least estimate, trim as much as possible, it will require \$32,000 to run the city. All of this must be raised in taxes. Then, the school district is in a bad way. It is estimated that it must raise \$225,000 in taxes. The revenue of \$14,000 that has been put upon the city platted by the liquor shops every year will not be forthcoming this year, and as a result there will be absolutely nothing with which to do business the coming year. Copper Country

SATURDAY TO BE GET-TOGETHER DAY

Co-Operation Is Planned by the Progressive Farmers and Businessmen of Chassell.

There is going to be a big noise at Chassell" was the announcement made a few days ago by prominent businessmen and agriculturists of the farm and lumber village. The noise is going to break loose on Saturday of this week. It is to be a "Get-Together Day" meeting, founded on the idea that the Chassell businessmen and Chassell township farmers have interests in common. Paul Muerheke, manager of the land department of the Worcester Lumber company, and Frank Shrewsbury, manager of the Chassell Creamery company, have been the prime movers in the affair. They have the hearty co-operation of the Chassell merchants and leading farmers. The plan involves an invitation to all of the farmers of Chassell township and that part of Portage township adjoining to be in Chassell next Saturday, prepared to spend a day of enjoyment, prepared to form the personal acquaintance of the Chassell businessmen. The Chassell merchants will provide all the entertainment, mental and material, and the expect of the farmers only that they will enjoy themselves, while leading a willing ear to a few suggestions for the mutual benefit of Chassell businessmen and Chassell farmers.

As a tangible inducement to the farmers to visit the town, and particularly to bring their wives, the businessmen have made a horizontal reduction of 10 per cent on the prices of their goods, in order to make Saturday a bargain shopping day for the farm household. In many cases more attractive merchandising inducements even than this are offered. The merchants joining in this part of the movement are E. J. Wilkinson, John A. Gagnon, P. Reid Ebor, the Chassell Mercantile company, W. O. Mitchell, A. Bishop, the Chassell Drug store and Napoleon LaPierre.

One of the Benefits.

The big reason for this movement is that the farmers and businessmen of Chassell are losing actual money through haphazard farming methods. Chassell farmers have been specializing on potatoes, with the result that the township is over supplied with potatoes and the merchants have to go into other markets to buy products that they sell even to Chassell farmers.

The item of chicken feed alone is enough to make the farmer stop and take counsel with himself. Two Chassell merchants spend annually \$7,500 for chicken feed. They want the Chassell farmers to grow wheat, oats, barley, corn, sunflowers, and they will contract with the farmers to take off their hands up to \$8,000 worth of these products annually.

The Chassell Creamery company wants the farmers to pay more attention to dairying. And there are a lot of suggestions that the merchants making in this part of the movement are E. J. Wilkinson, John A. Gagnon, P. Reid Ebor, the Chassell Mercantile company, W. O. Mitchell, A. Bishop, the Chassell Drug store and Napoleon LaPierre.

Interesting Program.

The meeting at which the Chassell Township Improvement association will be organized with offer the following program in the Knights of Pythias Hall: Music by Chassell Boys' band. Address: "Co-Operation between Town and Country"—George L. Price, secretary Copper Country Commercial club. Organization of the improvement association. Address: "Farm Education"—John A. Doelle, superintendent Portage township schools. "Diversified Farming"—Paul Muerheke. "Building Up the Dairy Herd"—Frank Shrewsbury. "Business Farming"—M. A. Nadeau, cashier Chassell bank. The chairman of the meeting will be J. S. Larue, a progressive farmer of the township. As a result of this meeting the progressive men of the township hope to form pleasant relations among the farmers and businessmen, to the end that co-operation will result, to the great benefit of both.

OFFICIAL NAVIGATION OPENING.

Weather Observer Covdick of the Houghton station announced yesterday that he will on next Friday begin displaying storm signals for the benefit of marine men. This is the official opening of navigation, no matter if a boat is not in sight.

Soap and Cuticura Ointment for skin purity and beauty. **Scalp Free by Mail**

EX-SENATOR SMITH CHOSEN CHAIRMAN

Hubbell Solon Succeeds A. D. Edwards as Presiding Officer of County Board.

The first meeting of the newly elected board of supervisors of Houghton county was held at the county building yesterday. There are two new members, F. W. Denton succeeding A. D. Edwards as the representative of Adams township and Michael Doyle, Jr., succeeding Charles Mason as supervisor from the Second ward of the city of Hancock. Charles Smith of Hubbell, supervisor from Torch Lake township, was the unanimous choice for chairman. Mr. Smith succeeds Mr. Edwards, who had served as head of the board since the death of John Duncan of Calumet more than a decade ago. The new chairman has been a supervisor for many years.

Committees Named.

The following committees for the ensuing year were appointed by Chairman Smith: Finance—Eddy, Seeber, Johnson, Hosking. Highways and Bridges—Hartman, O'Rourke, Burgan, Lawton. County lands—Hamar, Thompson, O'Rourke, Denton. Equalization—MacNaughton, Koepel, Lawton, Harris. County buildings—Lawton, Hamar, Hosking, Denton. County poor—Koepel, Burgan, MacNaughton, Salmu. Supplies and printing—Harris, Eddy, Hartman, Doyle. Hospital—Eddy, Seeber, Funkey, MacNaughton. Resolutions were introduced by Supervisor Eddy and read into the minutes of the meeting, after a unanimous vote, extending the thanks of the board to retiring Chairman Edwards.

Two resolutions adopted by Houghton county farmers were presented. The resolutions had reference to the proposed trunk highway designed to connect with the Iron county system, creating a continuous good road from the copper country to the Wisconsin border. The original plan provided for an outlet through the Baraga superhighway, a piece of road rolled down upon him as he was at work in the shaft. His body was picked up three levels below the scene of the accident. Panfil leaves a wife and ten children.

Bronzo-Krivanic Inquest.

The inquest of Coroner Fisher into the death on Monday of John Bronzo and Anton Krivanic, who died in No. 6 South Hecla shaft under a fall of ground, resulted in a verdict of accidental death. The testimony showed that the men were crushed under a mass of rock measuring thirty-one feet long, fifteen feet wide and two and one-half feet thick. The four men injured at the time of the fatality were all reported at the Calumet & Hecla hospital yesterday as being in a satisfactory condition.

Matt Novotzky, thirty-three years of age, died yesterday morning at the Calumet & Hecla hospital as the result of an accident underground in the C. & H. April 5. He suffered a broken back.

FOR COUNTY Y. M. C. A. WORK.

Secretary George Westerman Inquiring Houghton Businessmen.

George Westerman of Calumet was a Houghton visitor yesterday in the interest of the proposed organization of a county Y. M. C. A. The object is not to establish association buildings in the various towns, but merely to carry on the association work with the available facilities. Iron county is the only county in the upper peninsula where the system is in operation. Mr. Westerman has met with encouragement in his work at Houghton and Hancock.

VETERAN ATTORNEY HERE.

Dan H. Ball of Marquette, dean of the legal fraternity in the upper peninsula, is in Houghton on a professional visit. He is the guest of Allen F. Rees.

BE FULL OF JOY! TAKE CASCARETS

Feel Fine! Remove the Winter's Liver and Bowel Poison While You Sleep. Spend 10 Cents! Don't Stay Sick Bilious, Headachy and Constipated.

PLANS FOR THE CHAUTAUQUA.

Speakers Have Been Booked—Big Musical Attractions Sought. With three speakers of national reputation booked to appear at the chautauqua meetings at Electric Park next summer, the committee in charge has turned its attention to the music features of the program. It is hoped to engage a high-class orchestra. The committee will meet in Hancock within the next two weeks to consider propositions received from the lyric bureau. Bishop William Burt of the Michigan and Detroit Methodist conferences, Clinton N. Howard and W. W. Fox, president of Capital college of Music and Oratory of Columbus, Ohio, are to be the speakers. The chautauqua dates are July 21 to 24. Each of the speakers will give two addresses. Mr. Howard was one of last summer's lecturers. Bishop Burt has not yet visited the copper country. He was to have appeared at the 1914 chautauqua, but illness prevented. Mr. Fox also is a stranger to the district. There is a possibility that the district meetings of the Houghton Methodist Episcopal Promoters' association and the Epworth league will take place during chautauqua week, as was the case last summer.

Missionary Conference.

Notice has been received that the annual meeting of the Detroit conference of the Woman's Foreign Missionary society of the Methodist Episcopal church will take place at Saginaw April 27, 28 and 29. In the neighborhood of one hundred and twenty-five delegates are expected to attend from the seven districts, which comprise all of the eastern and southern parts of Michigan and the

upper peninsula. An interesting program has been prepared. The first evening's entertainment will be featured by "The Torch Bearers," a missionary pageant in which seventy persons will take part. Two noted speakers will give addresses—Miss Gertrude Vahlender, who spent a number of years in missionary work in India, and Mrs. Lena Leonard Fisher. District Superintendent Marvin is now in the iron district, and it could not be learned yesterday who will be the delegates from the Houghton district. However Rev. Reuben Chubb, of the First M. E. church of Hancock, said the district will be represented.

MILLIONS OF LAKE TROUT.

Superintendent Wires of Federal Hatchery Will Plant Them.

John C. Mann, Houghton member of the Michigan Fish commission, yesterday was advised by Superintendent Wires of the United States fish hatchery at Duluth that the latter would, within the ensuing ten days, ship a car of lake trout fry for planting in waters contiguous to the copper country. The little fish will be planted in Keweenaw bay and probably off the fishing stations on Keweenaw point. This shipment of fry will total millions, the exact number not having been stated. Mr. Wires last fall collected an immense amount of lake trout and whitefish eggs in the copper country fishing fleets, and this is his repayment.

ARMENIAN HELD UP.

Trimountain Man Relieved of \$60—Three Suspects Arrested. Warrants were sworn out yesterday before Justice of the Peace Bartanen of South Range for the arrest of Victor Maki, John Wutanan and Isaac Niva, all of Palmesdale. The three men are charged with highway robbery. The complaining witness is an Armenian who was held up on the Trimountain road, between South Range and Trimountain, Monday evening while on his way home. He was relieved of \$60. Three men met the Armenian. Two held his arms, while the other went through his clothes and took the money. The sheriff's office was notified. Maki was the first suspect arrested. The other two were apprehended later in the day. The men are being held in the county jail in default of bonds. They will be given a hearing before Justice Bartanen tomorrow.

ANOTHER MINE FATALITY.

Joe Panfil Killed in C. & H.—Banovitz Dies from Injury.

Joe Panfil, forty-four years of age, a roller fan in No. 4 shaft of the Calumet branch of the Calumet & Hecla mine, was killed yesterday noon when a piece of rock rolled down upon him as he was at work in the shaft. His body was picked up three levels below the scene of the accident. Panfil leaves a wife and ten children. Bronzo-Krivanic Inquest. The inquest of Coroner Fisher into the death on Monday of John Bronzo and Anton Krivanic, who died in No. 6 South Hecla shaft under a fall of ground, resulted in a verdict of accidental death. The testimony showed that the men were crushed under a mass of rock measuring thirty-one feet long, fifteen feet wide and two and one-half feet thick. The four men injured at the time of the fatality were all reported at the Calumet & Hecla hospital yesterday as being in a satisfactory condition.

KEWEENAW CENTRAL ROAD.

Trains Are to Resume Operations the First of the Coming Month.

It is announced that the Keweenaw Central railroad will resume operations the first of May. This means regular passenger, freight and mail service to all points north of Mohawk. Several improvements have been made along the line, among them the building of a steel trestle for the Mineral Range Central at Keweenaw. Engines and cars are being overhauled. The casino at Crestview will be prepared at once for the opening of the resort and dancing season. The road will be ballasted and otherwise repaired at once. It is expected that the road will be made to run to Lac la Belle this year. The old road to Lac la Belle is in such bad condition it can hardly be placed in good order at a cost that will not prove prohibitive. The plan to extend a spur line to Lac la Belle by a new route has been abandoned because of the high cost. The directors of the road look forward to a good year.

SEEBERVILLE CASE HELD UP.

Action of Prosecutor Nichols May Postpone the Retrial.

There is little likelihood that the trial of Joshua Cooper, Edwin Polkinghorne, John Groff and Arthur Davis, charged with the Seeberville killings of August, 1913, will be proceeded with next Monday. This will be the trial of Judge Flannigan having granted the men another chance to prove their innocence, but as Special Prosecutor Nichols is trying to convince the supreme court that Judge Flannigan had no right to grant a new trial the action of proceeding under his order while there exists a possibility the higher tribunal may set it aside is doubted by their attorneys. In the meantime, Mr. Nichols has asked for a continuance, pending the action of the court. Attorney Larson said yesterday that when his associate, O. J. Larson of Duluth, arrives today the defense will decide whether or not to fight the motion. As the order of the supreme court, if adverse to the defense, would be operative if the trial were proceeded with, Attorney Larson says he faces the possibility of getting an acquittal in this court and having it rendered null by the supreme court. "We do not like to keep these men in jail," said Mr. Larson, "but the situation seems to leave us no other course. It is likely that after I have consulted with Mr. Larson today we will agree to the continuance."

WOMAN TAKEN TO COUNTY JAIL.

Mrs. Mary E. Roberts of Laurium was taken to county jail yesterday, being unable to furnish bonds for her appearance at the next term of circuit court. Mrs. Roberts was arrested yesterday by Undersheriff Heikkila on a warrant charging her with a serious offense. It is alleged that a criminal conviction was attempted. Mrs. Roberts was arraigned before Justice Prince at Lake Linden and waived examination. Bonds were fixed at \$500. The case will not come up at the present term of court.

WILL TAKE CENSUS OF PARISH.

The board of trustees of St. Patrick's church of Hancock has decided to take a census of the parish. Enumerators will be appointed shortly to make a thorough canvass of the city. The board wants to know how many persons in Hancock are members of this parish, and it has concluded the only way to get the data is to take a census.

COLLEGE COMMENCEMENT PLANS.

Class Day Exercises of the M. C. M. Thursday—Dinner Friday Night.

The annual commencement exercises of the Michigan College of Mines will take place at the college gymnasium next Friday night. The address will be by Dr. James F. Kemp, professor of geology at Columbia University. The annual dinner will be given at the Houghton club Friday night.

INCREASING WORKING FORCE.

Now 150 Men Employed at the Hancock Consolidated Property.

The working force at the Hancock mine is gradually being increased. It is expected the property will soon be employing as many men as before operations were discontinued last fall. The payroll now contains 150 names. The five dividends of \$1 each declared by the Champion Copper company in the past few weeks have been entirely from 1914 operations.

EX-COLLEGE STUDENTS ELECT.

Suomi Association Chooses Officers at Meeting Held at Hancock.

Former students of Suomi college, Hancock, graduates and others, met Monday evening at the college and elected officers for the coming year, as follows: President—John Vayntinen. Secretary—Olga Pantti. Treasurer—Emil Tolonen. Corresponding Secretary—Charles Kukkonen.

The association will ask the committee in charge of the arrangements for the silver anniversary celebration of the Finnish Lutheran church at Hancock next June to arrange an outing for the former students. The association will stand the expense.

TO RESUME ALGOMAH OPERATIONS

President R. M. Edwards Pays Brief Visit to the Property.

President R. M. Edwards of the South Lake, Algomah and other mining companies, who has been in the East some time, got back to the Lake district Saturday but left almost at once for Boston. Mr. Edwards made a brief inspection of some of the properties under his management. Algomah, which is to resume mining, will not begin operations again for another week, it is understood. The shaft is down 415 feet and about 4,000 feet of drifting has been done. The property has been idle since the summer of 1913. South Lake has driven drifts a distance of nearly fifty feet in both directions from the fourth level reached by the crescent and fairly good looking ground has been encountered all the way. North Lake has cut a healthy looking amygdaloid thirty-eight feet wide, with lightly disseminated copper near the footwall, growing heavier toward the center and beyond.

MINING NEWS

OLD DOMINION.

Old Dominion's resumption of operations comes at a particularly opportune moment. With copper selling at better than 16 cents per pound and the cost of about 8 1/2 cents per pound Old Dominion, as soon as it can get back to normal production, should very quickly recover the ground lost during the month's closure. Although Old Dominion's production in 1914 was but 70,500,000 pounds of copper, the property is in shape to output at least 25,000,000 pounds a year. It is not to be assumed, of course, that it can immediately turn out copper at this rate, but as the water is now below the sixteenth level there should be a gradual increase to at least 30,000,000 pounds as soon as things get "warmed up." The major portion of

WINONA.

The problem of the Winona Copper company is to find some commercial process, economical and efficient, which will save the very fine particles of copper which so far all experiments have failed to do. The company's product is very flaky in character and engineers have been unable to date and find the ways and means of preventing heavy losses in the mill trainings, and until some solution is reached we do not believe Winona will attempt to resume rock shipments from its mine. The company has about \$100,000 of cash on hand and a stock of unsold copper amounting to 600,000 pounds. There are 100,000 shares, par \$25, full paid. The mine is one of the disappointments of the Lake Superior copper district. It has for years held out just enough promise to warrant the expenditure of further development and experiment funds, but its future is still unsolved.

ISLE ROYALE.

The hoist and boiler at No. 1 shaft Isle Royale are ready for operation. The hoist shaft has been begun. The twenty-second level north and the twenty-sixth level north drifts on the west side are in good looking vein. The Isle Royale hole at No. 2 shaft is in good copper ground on the twenty-second level south, twenty-ninth level south being still in poor ground. In No. 4 shaft the stopes are fairly good and No. 5 was average during March, but all openings for the month in No. 3 shaft were in copper ground. There were 57,572 tons of rock treated during March and the estimated copper production was over 700,000 pounds. The stamp mill is entirely enclosed. One head is nearly ready for operations. This production, even though the company is without its milling facilities, marks the highest amount of monthly product yet reached. The company has a considerable surplus over its liabilities and if the price of copper holds for this year at 17 cents per pound the company should be able to resume dividends the latter part of this year.

ANACONDA.

The statement can be made that the successful development of the so-called flotation process means more to the Anaconda company than anything which has happened in connection with its affairs for many years. Together with the leaching process it will make possible the production of an additional 50,000,000 pounds of copper from the same tonnage of ore, and will make commercially available millions of tons of low-grade ore which might not otherwise be counted in the reserves. It is officially stated that the flotation process as applied to Anaconda ores—and both the high grade and lower grade concentrating ores will be so treated—will bring the recovery in the form of

"TIZ" FOR ACHING, SORE, TIRED FEET

"TIZ" for Tender, Puffed-Up, Burning, Calloused Feet and Corns.

"Ah! Boys, 'TIZ' is the thing!"

People who are forced to stand on their feet all day know what sore, tender, sweaty, burning feet mean. They use "TIZ," and "TIZ" cures their feet right up. It keeps feet in perfect condition. "TIZ" is the only remedy in the world that draws out all the poisonous exudations which puff up the feet and cause tender, sore, tired, aching feet. It instantly stops the pain in corns, callouses and bunions. It's simply glorious. Ah! how comfortable your feet feel after using "TIZ." You'll never limp or draw up your face in pain. Your shoes won't tighten and hurt your feet.

Get a 25 cent box of "TIZ" now from any drugist, department or general store. Just think! a whole year's foot comfort for only 25 cents.

We are pleased to announce that we have renewed our agency for the famous

City Brevities

Today's weather: Fair, rising temperature. Yesterday's temperatures at 7 a. m. 37 degrees; noon, 56; 7 p. m. 45. Highest, 60 degrees; lowest, 26.

G. A. Trueman, of Munising, was here yesterday.

A. E. Boswell, of Muskegon, is here for a brief visit.

Harold E. Nilson, of L'Anse, spent yesterday in Marquette.

F. P. Neesham, of Ishpeming, was a business caller here yesterday.

C. A. Fridovich, of Houghton, is a Marquette visitor for a few days.

Will Novett, of Ishpeming, visited with Marquette friends yesterday.

Lucien Eaton and C. Brewer, of Ishpeming, were in Marquette yesterday.

County Treasurer Barabe, of Negaunee, was a Marquette visitor yesterday.

Mrs. Oscar Siewert, of Ishpeming, is in Marquette for a visit with relatives.

D. H. Ball left yesterday morning for Houghton, on a several days' business trip.

E. C. Eastman, a Marinette, attorney, is here for the United States district court.

Irving H. Jackson, of Crystal Falls, was a business visitor in Marquette yesterday.

Henry Hallam and party left yesterday for Deerton on a several days' camping trip.

George Brewer, of Ironwood, is here attending the April term of the United States district court.

Sheriff Pelissier, of Alger county, is in Marquette in attendance at the United States district court.

The county clerk yesterday issued a marriage license to Gust Dupont and Jennie Nieuwenkamp, of Marquette.

Judge Sessions, who is presiding at the April term of the United States district court, arrived here Monday night.

The county board of canvassers met yesterday at the court house and reviewed the vote cast at the election on April 5.

United States Inspectors York and Gooding leave today for Houghton, where they will conduct the spring inspection of several vessels.

The ladies of the First Baptist church will serve supper in the parlors of the church tonight at 6 o'clock. The public is cordially invited to attend.

The Modern Brotherhood of America is arranging for a dance and luncheon at Keough's Hall Monday night. The Imperial orchestra will provide the music.

Mrs. A. Mathews arrived home yesterday afternoon from an extended trip. She visited her daughter, Mrs. C. C. Wilcox, of Kalamazoo, for some days past.

Branch No. 7, U. S. C. E. C., will give a "Hard times" dancing party in Bureau's Hall tonight. The Imperial orchestra will provide the music. The public is invited.

Carl A. Anderson, clerk of Menominee, was in Marquette yesterday to appear before the federal grand jury which is now in session at the United States district court.

Mrs. Herman O'Connor, wife of United States Marshal O'Connor, who is here for district court, left yesterday afternoon for Grand Rapids, after a two days' stay here.

Miss Anna M. Follis, who has spent the spring vacation with her parents, Mr. and Mrs. Thomas Follis, left yesterday for Fond du Lac, Wis., to resume her studies at Grafton Hall.

Father Jolecy, of St. John's church, left last night for Escanaba, to assist in the funeral services for the late Mrs. Henry Abenstein, of Escanaba, who passed away Monday. The funeral will be held this morning.

Marshal Trevarrow and Deputy Marshal Collins, of Ishpeming, were in Marquette yesterday to appear before the grand jury at the United States district court, now in session. They are witnesses in the Denardi case.

The superintendents of the poor held their meeting at the court house yesterday morning, and had dinner at the county poor farm. Both P. P. Class, of Ishpeming, and C. L. Sporely, of Negaunee, were here for the session.

Keeno, the handcuff and shackle expert whose act will be one of the features of the Spring festival at Guild Hall April 26, has sent to the festival committee a large box of handcuffs and shackles that will be used by him in his

exhibition here. The irons have been placed on display in the window of Rose's store.

Mrs. W. H. Selden and daughter, the Misses Katherine and Anna, left yesterday for their home in Stambaugh. They were here for the annual convention of the upper peninsula missionary societies of the Presbyterian church.

Will Speak in Escanaba—James Russell, leaves this morning for Escanaba, where he will this afternoon address the Escanaba Women's club on "Causes of Criminality."

Young Men Reprimanded—Several Marquette young men, who made a disturbance near Presque Isle the other night, were taken before Judge Bryne Monday, and were reprimanded by the court. The complaint was made by Custodian Hume.

Funeral of Mrs. Orr—The funeral of the late Mrs. Archie R. Orr, of Niles, Mich., formerly of Marquette, was held Sunday at Niles. Mrs. Orr lived at Negaunee for several years and was well-known in Marquette county. She was a daughter of Judge Charles R. Brown and a sister of City Attorney Brown. Her husband and three daughters survive her.

Had Profitable Meeting—Members of the Marquette board of education arrived home last night from Negaunee, where they attended a joint meeting of the boards of education of Ishpeming, Negaunee and Marquette. They were entertained at dinner, and afterwards inspected the Negaunee high school building. They report a profitable meeting.

Evangelistic Meetings—Beginning tomorrow night, August Dahlquist, of Rockford, Ill., an evangelist, will conduct a series of revival meetings in the Swedish Baptist church, corner of Ohio and Third streets. Meetings will be held every evening, excepting Saturday, and in the morning, afternoon and evening on Sunday. The services will continue for two weeks or more.

Visiting Nurse Report—The following report of the activities and disbursements of the Visiting Nurse association for March was presented at the monthly meeting of the officers of the association yesterday afternoon: Number of patients, 88; visits made, 1,487; office calls, 79; garments given, 112; shoes and rubbers, 22 pairs; eye glasses, one pair; sent to hospital, two persons; disbursements, \$156.58.

INSURE WITH PETER WHITE & CO.

Upper Peninsula

School Head Reengaged.

The school board of Gladstone has reengaged Superintendent E. J. Williams for the ensuing year.

Shaft-Sinking Record.

The steel shaft that is being sunk at the Newport mine at Ironwood is 21 x 13 feet in size. From March 1 to April 1 it was sunk 190 feet. This is said to break the world's record for sinking a shaft of this size. The shaft has four skips, road, ladder road and a pipe road. It has been sunk to date at the rate of 150 feet a month. When completed it will be 2,000 feet deep.

Aftermath of Big Prize Fight.

"Black Bill" Mansfield is serving ninety days in jail for disturbing the peace, says the Newberry News. Bill got into a heated argument over the relative merits of Jack Johnson and Jess Willard as fighters, and, claiming finding him without his razor, he went home to get a gun with which to settle the dispute. The officers gathered him in and the judge thought ninety days would be about right.

Big Mortgage Filed.

A mortgage covering the timber holdings of the Stack Lumber company in the Schoolcraft, Alger, Mackinac, Delta and Luce counties has been received by County Clerk Forshar, for recording. The mortgage runs to the Continental Trust company of Chicago and is for \$250,000. The document has nearly 100 pages and must be recorded in the various counties where the property is located. —Pioneer Tribune.

See Filled With Vagrants.

For the past few weeks the lockup at the city hall has been filled nightly with lodgers, and it is seldom the number of applicants for a free bed is less than fifteen, says the Free Times. Most of these men are able-bodied, and they represent every nationality on the face of the globe. Some of them never appear the second time, but others are nightly bachelors and one or two have been in town for a month. The police

GOING AWAY THIS SUMMER?

Prices, 5c and 10c. Orchestra at Night

officers are unable to learn how these men find their food or where they spend their days. There have been no reports of begging within the city limits recently, and there is little work here now for common laborers. Most of the applicants appear early in the evening, coming between 7 and 9 o'clock. As a rule they are an unkempt lot, and the stench about the jail is stifling at times.

Mayor Chosen Without Opposition.

Every candidate on the Citizens' ticket, at Mackinac Island, with the exception of Archie Pond, who was defeated by Peter Early, was elected. Mayor Preston and Clerk Chapman, on the Democratic ticket, did not have any opposition. The full list of officers elected are as follows: Mayor, W. P. Preston; clerk, A. J. Chapman; treasurer, Clarence Laehance; supervisor, Peter Early; aldermen, George B. Truscott, Walter Pfeifferman; assessor, William Smith.

Propositions Carry at the Polls.

The electors of Arvon township, Baraga county, have voted to bond the township for \$5,000 for the erection of a town hall, the vote being forty-two for and twenty-two against the proposition. The electors also granted the Baraga County Telephone company a franchise or right to erect and maintain a line between Skanee and L'Anse. The vote on this proposition was 100 for and twenty against. The building on a telephone line between these two towns has long been agitated by the people of Skanee. The company will commence hauling the poles preparatory to erecting the line as soon as the roads dry out sufficiently.

Butterfly Breaks Out of Cocoon.

All the pupils of the Palatka (Iron county) school who have been patiently watching a cocoon found in the woods

last fall were rewarded for their long vigil the other day, when a large butterfly broke from its silken prison. The butterfly measured six and one-half inches from tip to tip and the wings were gorgeously decorated with all the brilliant hues of the rainbow. Principal Clark of the Stambaugh High school identified it as belonging to the native silk worm family. The specimen is one of the finest ever seen there and will be mounted by Mr. Clark so that it may be kept by the school.

Heavy Fine Imposed for Assault.

Almeri Rogers was fined \$50 and costs by Justice Brown on the charge of assaulting Dr. Lockhart at the election polls at Palatka, reports the Iron River Reporter. Dr. Lockhart was a challenger and challenged Rogers when the latter went to the polls to vote. In the argument that followed Rogers slapped the doctor on the face. In default of payment of the fine Rogers was sent to jail in Crystal Falls for sixty days. The fine was made heavy because of the fact that the assault was upon an election officer working in the discharge of his duty, and was recommended by Prosecuting Attorney Waifen. The purpose of the heavy penalty was to teach respect for an officer, and especially at the election polls.

BEWARE OF COUNTERFEITS FOR CATARRH THAT CONTAIN MERCURY as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is too fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials freely. Sold by druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

LINKS MRS. McNABB WITH TWO OTHER MEN

Witness in Pending Suit Charges Relations With J. C. McMillan and a Mr. Wheat.

Washington, April 13.—That Mrs. Ida M. McNabb of Milwaukee, who is suing John S. Kinney for \$500,000 for breach of promise, lived at hotels in Wisconsin, Michigan, and Ontario as the wife of James C. McMillan, a married man, is the sworn statement of Mrs. Jennie McEachren of Sault Ste. Marie, Mich. Mrs. McEachren was the first witness called by Miss Harriet Freese, attorney for the Michigan mine owner.

Good Will farm at Houghton, Mich. Mrs. McEachren said one of the first places she visited with Mrs. McNabb was Crystal Falls, Mich. They had a room together there, but Mrs. McNabb left it in the evening prepared to stay away all night. She returned the next morning.

Mrs. McEachren testified that she went to Florence, Wis., with Mrs. McNabb and Mr. McMillan. They went to the Hotel Polderman.

"When it came time to retire," Mrs. McEachren said, "Mrs. McNabb and Mr. McMillan occupied a room off the parlor. I occupied the parlor."

"What time did they come out in the morning?"

"Probably about 8 o'clock."

"When did you next meet her?"

"I don't know, but I recall meeting her with Mr. McMillan in Ishpeming during the spring of 1911."

"Where did you stay?"

"At the Urban house."

"Tell what transpired there."

"They had rooms on the same floor I was on. I got up Monday morning and

went to the room assigned to Mrs. McNabb. I rapped and opened the door, it being unlocked. Mrs. McNabb was only partially dressed. Mr. McMillan was in the room. I backed out, calling to Mrs. McNabb that I was leaving on the morning train."

Mrs. McEachren said the next time the three were together was at the Soo. She said they met on the American side and crossed over to the Canadian side. Mrs. McEachren said she stayed for lunch, but that Mr. McMillan and Mrs. McNabb secured a room.

Mrs. McEachren explained that Mrs. McNabb had told her she intended to marry McMillan if he obtained a divorce. Mrs. McEachren testified that she saw McMillan register at the International hotel as Mr. and Mrs. J. C. McMillan. She said that Mrs. McNabb came back to the American side two days later.

At Iron Mountain, Mich., so Mrs. McEachren testified, Mrs. McNabb stopped at a hotel in the same room with a Mr. Wheat. On Saturday she received a wire from Mr. McMillan saying he would come to pass Sunday with her.

"Mrs. McNabb was in quite a commotion," the witness said, "because she did not know how to get rid of Mr. Wheat. He left on the same train that Mr. McMillan arrived on."

On cross examination, before Mrs. McEachren took the stand, Mrs. McNabb denied she had been registered as the wife of Mr. McMillan at the Hotel Polderman in Florence or at the International hotel in Sault Ste. Marie, Ont.

Mrs. McNabb testified that Mr. McMillan and his wife were separated at the time.

After Miss Freese had concluded her cross examination Mrs. McNabb's attorneys took her back to her first Sunday with Kinney.

"Did Mr. Kinney tell you anything about which you have not told us?"

"A number of things."

"What were they?"

"Well, he told me that he thought Miss Freese was the brightest lawyer in the United States. He said he thought she was something of a martyr herself."

"I told him Miss Freese would make him a better wife than I would. I suggested that he reconsider his proposal to me."

"He said he didn't want to reconsider."

WIFE SAYS NEW DANCES SPOILED PASTOR HUSBAND.

New York, April 13.—"He was a good husband until he learned to dance the new dances about two years ago," said Mrs. Christine Wheeler, charging her husband, the Rev. Francis H. Wheeler, with non-support, in the Yorkville domestic relations court.

The Rev. Mr. Wheeler for eight years was Episcopal chaplain of St. Luke's hospital and was founder of the Authors and Compilers' association.

Mr. Wheeler told the court that he is without a charge now and makes barely \$10 a week. Magistrate Cornett ordered him to pay his wife \$7 a week.

COTTON TRADE GROWING.

Memphis, Tenn., April 13.—The unusual conditions in cotton manufacture brought about by the war in Europe has brought to the convention of the American Cotton Manufacturers' association a large representation of the cotton mill men. One of the principal subjects of discussion is the export trade in cotton goods, which is reported growing with leaps.

DR. PARKHURST UPHELD.

New York, April 13.—There is no cause of action against the Rev. C. H. Parkhurst because he wrote a letter advocating a fight on whisky and champagne rather than a fight for prohibition in California. This is the decision the moderators' council, New York presbytery, announces.

Combing Won't Rid Hair Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

GARRISON ORATOR ON JEFFERSON DAY

Talked on "Democracy" to Audience Gathered in New York City.

New York, April 13.—Lindley M. Garrison, secretary of war, delivered an address on "Democracy" at the Jefferson Day dinner of the National Democratic club at the Hotel Savoy in this city tonight.

Mr. Garrison said:

"One hundred and seventy-two years ago Jefferson was born; eighty-nine years ago he died. Between those dates a nation was born, passed successfully through its early perils, and had grown lusty and strong. He took great part in all that went on and had much to do with the way it went. He had an acute mind, an observing eye, a sensitive temperament, and an ardent imagination."

"He was very quick to observe the manifestations of the newborn spirit of mankind, to realize the immense importance of its awakening, and to endeavor to give it proper form and substance."

"He read intelligently and considered profoundly what they had to say who, if they had not caused the change, had caught its spirit and expressed it."

"From these sources and by these causes Jefferson's own conceptions were formed, his political philosophy was formulated, and he became the founder of a great party which has survived every sort of political vicissitude and is today strong, virile and militant."

"This, of course, could not be if there were not something vital and nourishing in its principles—something that got into the blood and minds of men and made them cling to it and cherish it through the days of discouragement and defeat—days when it seemed as if it had been done to death and never could arise again—days that were in very truth, its Valley Forge. From these depths it never would have arisen had it not been for the great principles which had given it birth; principles towards which mankind had been tending for long ages—ages of tyranny, of suffering, of blood and tears; principles born of man's conscience, and his manhood, evolved in his agony and defended with his life; principles which spell liberty and opportunity and hope to all who embrace them and can enforce them."

The Day of Kings.

"Let us go back and dwell a while in the atmosphere of those early days; let us realize the conditions and observe their consequences. We will no doubt be astonished to recollect that what has become customary and apparently self-evident to us was novel, extraordinary and entirely revolutionary then. Then practically all the nations of the earth were governed by self-imposed rulers. Knowledge then, as now, was power—but only the powerful had knowledge."

"The great mass of mankind was inert, unconscious of itself and its potentialities. What it had was given to it or allowed to it. The burdens of the world were borne by it—but as to the direction in which they should be borne, the mass of mankind had nothing to say; they must be encouraged to live and to multiply and to labor, but their voices were dumb, their wishes unheeded, and their desires unsatisfied."

"Slight revolts on too narrow foundations had taken place, but nothing of importance had been achieved, and mankind was divided into those who ordered and those who obeyed, with little or no chance for transition from one class to another."

"But the seed of change had been sown. Men were beginning to realize that something was wrong with the existing philosophy and conduct of life. There seemed to be no reason in the claim that some might have full play for their talents and others not; that some should arrogate to themselves the making of the laws and the enforcing of them and that others should have nothing to do therewith; that there should be self-appointed drivers and involuntarily driven."

"Great souls evolved these ideas, great minds pondered them and gave expression to them; and little by little, like pollen blown over fertile fields, the ideas spread and took root and flourished."

The Idea of Democracy.

"This was born the—era of democracy—that life and opportunity and honor were the heritage of each and all equally; that when men gathered in human societies and formed governments, justice must be the foundation and the cornerstone and the pillars and the roof of justice—which means liberty to each equally; which means no preference or favor for any; no thing given to one and withheld from the other; equality of voice in the making of the laws and in their enforcement; equality of voice in the naming of those to administer the laws; and an equal opportunity, unhampered by unjust laws, to expand and develop and obtain just returns for

what talents, strength and skill each possessed.

"This is what democracy with a little d means, and what Democracy with a capital D stands for."

"The essential foundation of such a philosophy is a sturdy citizenship; one which asks no favors and grants none; wants no special privilege and gives none; a citizenship which believes that the citizen should support his self-created government, and not permit the government created by all the people to be subverted to the personal profit or benefit of some of the people. Its two efficient agents are representative government and home rule; the former because the individual citizen is of necessity so occupied with his own affairs that he must entrust the collective business to his chosen representative selected for that purpose; the latter because only in that way can democratic government be wisely and efficiently conducted."

"The least government that is consistent with the proper doing of those things which must be done collectively, the better; the more the individual citizen is permitted to expand, develop his character and his energy and his talent without hampering restrictions, the better. Under such a system the local affairs should be left absolutely to local management; those which have been confided to the state governments should be left there, and those which were lodged in the federal government should be fully exercised by it. Each in its sphere should be strong, self-sufficient, and proud and able to bear its own burdens and solve its own problems. If one of such entities is permitted to intrude upon the sphere of another, it saps the strength of the latter, produces confusion, and tends to weaken the whole structure. Our nation is like one great human body composed of various parts, each of which not only performs its own function but likewise contributes to the strength and efficiency of the whole. We are thus citizens with local powers and responsibilities, state powers and responsibilities, and national powers and responsibilities; and we can and should measure up to our full stature in each respect."

Trustees for Human Family.

"I often wonder whether we sufficiently realize the tremendous importance of this great experiment now being tried upon this continent; one that has greater potentiality for the happiness and welfare of mankind than any other known to history. We are in very truth trustees for the whole human family; a very peculiar and full sense of that word. If, by greed, neglect or perverseness, we permit this great experiment to fail, it will be many long ages before those who come after us will be able to embody a like spirit."

"Filled with the sense of our responsibility, proud of the opportunity to contribute our part, conscious that only by eternal vigilance can we preserve our precious heritage and hand it on unharmed, let us go forward to the end that government of the people, by the people, and for the people, shall not perish from the earth but shall grow stronger and stronger with the passage of time."

PRESIDENT NOT TO SAIL THROUGH PANAMA CANAL.

Washington, April 13.—President Wilson has decided definitely not to accompany Secretary Daniels on his contemplated trip through the Panama canal to San Francisco in July. It was said at the White House that the question of the president visiting the Panama-Pacific exposition was dependent on the condition of the international situation.

CHICAGO PRODUCE QUOTATIONS.

Chicago, April 13.—Butter at Chicago today was unchanged. Creameries were quoted at 22¢31 cents. Eggs were lower. Receipts amounted to 28,675 cases. At mark, cases included, eggs sold at 18¢19½ cents; ordinary firsts, 18½; firsts, 19½. Poultry, live, was unchanged. Fowls were marked at 15½ cents and springs at 17½.

RAILROAD LAW HELD INVALID.

Washington, April 13.—The supreme court has held unreasonable the Wisconsin statute requiring that two trains in each direction be stopped daily in towns of 200 population on lines operating four or more trains through such towns.

KING THANKS PRESIDENT.

Washington, April 13.—President Wilson has received the following cablegram from King Albert of Belgium: "I thank you heartily for the greeting of friendship you sent me on the occasion of my birthday."

A CURE FOR SOUR STOMACH.

The Beer That Made Milwaukee Famous.

BRITISH COLUMBIA.

The British Columbia Copper company is considering resuming operations in order to take advantage of prevailing copper metal prices. Development work has put into sight 7,000,000 tons of ores in new territory acquired during the past two or three years. Negotiations for financing a mill with initial capacity of probably 1,000 tons a day, with provisions for increasing to 2,000 tons daily, will be entered into shortly. At its Mother Lode mine the company has a three furnace smelter which formerly handled the product. At one time British Columbia produced about 7,000,000 pounds of copper a year, and for a

time, owing to precious metal values, turned its copper out at a fairly low cost. Several dividends were then paid. New financing finally became urgent and this was accomplished through the medium of the Canada Copper corporation, which was formed for the purpose.

STOMACH TROUBLE CURED.

Mrs. H. G. Cleveland, Arnold, Pa., writes, "For some time I suffered from stomach trouble. I would have some stomach and feel bloated after eating. Nothing benefited me until I got Chamberlain's Tablets. After taking two bottles of them I was cured." For sale by All Dealers.

HAIR COMING OUT?

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 2-cent bottle of *Bandrolin* at any drug store, pour a little in your hand and rub it into the scalp. After a few applications the hair stops coming out and you can't find any dandruff.

Ishpeming Department

COUNCIL NAMES SALOON KEEPERS

Thirty-Two Retail and Four Wholesale and Retail Licenses Are Granted.

At a special meeting of the council Monday evening, the applications for retail liquor licenses from the following were approved:

Alex Anderson, 503 Bank street.
Abraham Blanding, 109 East Division.
James H. Billings, 114 North First.
Edward Beckman, 122 South First.
Erick Carlson, 206 Cleveland avenue.
Nicholas Cox, 111 West Pearl.
Charles Coveahg, 121 Cleveland.
Antoine Dobbs, 112 East Pearl.
Charles Gustafson, 113 South Third.
Peter Gunnerson, 743 East Michigan.
James Gleason, 210 Stone.
Dennis Hickey, 213 West Pearl.
Charles Johnson, 102 South First.
Joseph Kelly, 116 West Division.
Mike I. Kuitala, 207 East Pearl.
Ovilas Lafreniere, 122 West Division.
Bruno Nardi, 121 West Pearl.
August Norrell, 605 North Seventh.
Albert Nault, 370 East Bank.
Frank Nardi, 300 West Division.
Charles Olson, 513 Cleveland avenue.
John P. Outwaite, 213 East Euclid.
Gust Olson, 113 North Second.
John Ring, 626 East Bank.
Napoleon Rohar, 122 East Pearl.
Charles J. Sanberg, 801 Maple.
Charles Simon, 219 South Main.
Oscar Salme, 317 East Pearl.
George F. Thoney, 803 North First.
Louis N. Toutloff, 110 South Main.
George Voelker, 205 Barnum.
C. O. Wallenstein, 619 Cleveland.

Application for wholesale and retail licenses were granted to the Keely Brewing company, Edward Weidner, Menominee River Brewing company and the Upper Peninsula Brewing company. A druggist license was granted August Suttinen.

The council adopted the following resolution thanking Mayor Barnett and Hart V. Grigg, the retiring alderman from the Seventh ward, for their services during the years they have held office.

"Whereas, G. S. Barnett has served the city of Ishpeming for the past three years as mayor, with honor and credit to all the citizenship of the entire city and

"Whereas, Hart V. Grigg has served the city of Ishpeming for many years as alderman from the Seventh ward therefore, be it

"Resolved, That this council, on behalf of the people of the city, extend to Hon. Geo. S. Barnett and Hon. Hart V. Grigg its thanks for the many services rendered and time spent in the interest of the city and its people."

Mayor Barnett thanked the council for the kind expression in the resolution and also for the many courtesies and kindness shown him during his term of office. He expressed a hope that the council would show the same consideration to his successor as was shown to him.

FOR "MORE DAYLIGHT"

Detroit Workmen Said to Favor Change in Time.

An Ishpeming supporter of the "more daylight" movement sends the following from the Detroit News to The Mining Journal:

"Workmen, mechanics, office clerks, engineers, plasterers, carpenters, plumbers and laborers—the men to be most affected if Detroit adopts eastern standard time, which is one hour faster than standard, now in use—are almost universally in favor of the faster schedule, according to petitions circulated by the More Daylight club of Detroit.

"Resolutions giving decided expressions in favor of eastern time and more daylight have been passed by several labor unions, and the campaign has about resolved itself into a fight of workmen for more daylight hours at home in the evening.

"Henry Kline, president of the carpenters' union, wrote to the club: "Why should anybody be against eastern standard time?" he asked. "I would like to see the clocks set ahead three hours instead of one, and then about 1 o'clock we would be through for the day."

"In giving expression to the attitude of the structural iron workers' union in favor of the movement, Samuel P. Tobin, president wrote:

"I think everybody ought to be in favor of more daylight. Eastern standard time will give me an hour more daylight when I get home after work, and I know of a lot of ways that I could use an extra hour."

PROTEST INCREASE IN COAL FREIGHTS

Advancement Association Wires Railroad Commission—Consumer to Shoulder All.

The executive committee of the Ishpeming Advancement Association yesterday wired to the state railway commission a protest against the increased freight rates on anthracite coal from Marquette to Ishpeming, which goes into effect tomorrow. The Duluth, South Shore & Atlantic and Lake Superior & Ishpeming railway lines some days ago announced that the increase would be twenty cents a ton, from thirty-five to fifty-five cents, on hard coal and five cents a ton, from thirty-five to forty cents, on soft coal.

The committee's telegram follows: "Ishpeming, Michigan, April 13, 1915. "To the Railway Commission, " Lansing, Michigan.

"Gentlemen—We believe that the railroads should be assisted to profitable operation, but we protest against such drastic advance in anthracite freight rates between Marquette and Ishpeming.

"Following the notice of the proposed increase in rates, the management of the fuel concerns decided to increase the price of coal the amount of the increase in the freight rates, so that the consumer has to stand the entire burden. For some years the difference in the price of coal in Marquette and Ishpeming has been the amount of the freight rates.

A member of the Advancement association yesterday said that inasmuch as the companies have made a radical difference in the increase between the soft and hard coal, it appears that they are discriminating in favor of the heavy consumers, who use a considerable tonnage of soft coal. He said the committee would offer no objection to an increase on hard coal equal to that proposed for the increase between the soft and hard coal, but that the greater part of the burden would fall upon poor people it feels justified in entering a protest.

Under the proposed new rates but coal will cost \$8.95 a ton; stove coal, \$8.70; mixed hard coal, \$8.85; pea coal, \$8.95; split, \$5.90; Pocahontas, \$5.90; pile run soft coal, \$5.15, and forked soft coal, \$5.65.

"POTASH AND PERLMUTTER."

Much Talked About Comedy at the Ishpeming Theater Tonight.

"Potash and Perlmutter," the most famous comedy produced within the memory of present day theatergoers, comes to the Ishpeming theater tonight, direct from its second year at the Colan theater, New York city, where it played to nearly a million people before A. H. Woods decided that the rest of the country also had a right to enjoy it.

"Potash and Perlmutter" is a dramatization of the characters and incidents made famous through the Saturday Evening Post stories by Montagu Glass. There is plenty of romance, as well as fun in it, and Cupid is kept busy throughout the three acts. There are touches of pathos, too, but if the eyes grow dim it is from tears of laughter.

"Potash and Perlmutter" will be presented by a company of splendid artists, all of whom have been seen in New York, and who include Lew Welch, Jules Jordan, Edward Shoben, Thos. J. Tempest, Joseph Sterling, Fred Fleck, Jr., J. W. Wood, Roy W. H. Leydon, Irving Southard, Robert Barber, Jan Feanley, Katherine De Barry, Jean King, Mildred Barker, Ethel Bruce, Dolly Gray, Mabel Vanette.

FINNEGAN AT WORK AGAIN.

Wellknown Engineer, Who Formerly Lived Here, Resumes Run.

William Finnegan, a wellknown engineer of the Peninsula division of the Chicago & Northwestern Railway line, who was injured last September at Stephenson, when the engine he was driving toppled over, has resumed his work. Mr. Finnegan resided in Ishpeming a number of years ago, when he ran a switch engine and since then has been a frequent visitor to the city.

JACKSON MAN EATS A SQUARE MEAL

A. W. Hobbs Ends Stomach Suffering Quickly With Wonderful Remedy.

A. W. Hobbs of 1801 East Main St., Jackson, Mich., after about ten years suffering from derangements of the stomach and digestive tract, took Mayr's Wonderful Remedy. He got the surprise of his life—and swift relief.

he was injured. He did not recover as rapidly as it was thought he would and during the seven months that he has been idle he has consulted some of the leading specialists of the country.

Mrs. Voelker's mid-spring term in vocal culture and piano opens Tuesday, April 20.

ISHPEMING IN BRIEF.

Captain Arthur Buzzo is here on a visit to his family.

J. H. Billings is painting the exterior of his business block on First street.

Miss Edna McNeely has returned from a week's visit with friends in Marquette.

Charles Trevern, former alderman of the Sixth ward, has been taken down with pneumonia.

Will Walters, superintendent of the Jones & Laughlin Forbes mine, at Iron River, arrived in the city yesterday.

P. A. Houser, wife and family have arrived here from Garden City, Mo., to locate on a farm owned by R. F. Bronson in the district south of here.

John Healy of the Lake Angelina owns a cow that gave birth to three calves yesterday. They all died. The cow also gave birth to three calves last spring, but none of them lived.

Tomorrow will be ladies' night at the Ishpeming Ski club. It will be the last meeting of the season, with the exception of the annual business meeting announced for Monday, the 19th.

Rev. O. Eckardt, of Radjambury, British India, will speak at the Swedish Lutheran church Sunday morning, April 25, at 10:30 a. m. Rev. Eckardt will illustrate his lecture with objects from India.

Births recorded in the city yesterday will appear in the Ishpeming Gazette tomorrow, Friday and Saturday. The act is said to be different from any model act ever shown in the theaters of this section. Special seating is used.

The Lyric will today present to its patrons a six reel feature showing the World's tour of the Giants and White Sox baseball clubs. There will be a matinee at 3:30 and the evening show will start at 7 o'clock. The usual prices will prevail.

By Mayor Wahlman now. Mr. Wahlman qualified at 4:30 o'clock yesterday afternoon for the office with the electors of the city chose him on Monday, April 5. The mayor will preside at the next meeting of the common council.

Mrs. M. M. Main and daughter, who visited here for the last two or three weeks, have returned to their home in Cyran. They were accompanied by Mrs. Main's mother, Mrs. Fred Tompe-

son, who will spend a week or so visiting her daughter. Dr. Main will remain here for a week or so, assisting his brother, Dr. S. G. Main.

The members of the Women's Missionary society of the Presbyterian church will meet tomorrow afternoon with Mrs. J. C. Aitshlager, at her home on North Third street. A report of the Presbyterian meeting held in Marquette last week will be read.

The members of the Ladies' Home and Foreign Missionary society of the Swedish Lutheran church will meet in the Young People's hall this afternoon at 2:30 o'clock. The subject for study is "Corea and Its People." After the program coffee will be served. The public is cordially invited.

NOTHING SO GOOD FOR A COUGH OR COLD.

When you have a cold you want the best medicine obtainable so as to get rid of it with the least possible delay. There are many who consider Chamberlain's Cough Remedy untried. Mrs. J. Boroff, Elida, Ohio, says, "Ever since my daughter Ruth was cured of a severe cold and cough by Chamberlain's Cough Remedy two years ago, I have felt kindly disposed toward the manufacturers of that preparation. I know of nothing so quick to relieve a cough or cure a cold." For sale by All Dealers.

In the year 6 A. D. an income tax was established in Rome on all incomes in excess of \$4,000.

FOR SALE—Steel-tire open buggy. Inquire Jacobs' blacksmith shop or Howard Manley. (4-14-15)

WANTED—Experienced man wants position as gardener. Inquire 345 S. First St., Ishpeming. 4-12-15

Responsible Methods

Our conception of Ideal Service is a service that offers to patrons every accommodation consistent with security and strength.

Every transaction is subjected to careful consideration and is guided in spirit as well as in letter by the laws and ideals of responsible banking methods.

Long experience with the commercial and financial needs of Ishpeming has enabled our officers to guide this intensive service for the best interests of all patrons.

BETHLEHEM STEEL HEADS OTHER SHARES TO THE TOP BUT ALL DROP AT CLOSE.

New York, April 13.—Wild and active speculation in securities was resumed today under the lead of Bethlehem Steel, which rose and fell within a range of thirty-two points and closed with a net gain of exactly one point.

Its high price of 135 was recorded mid-way of the afternoon session. From that figure it yielded ten points, but towards the end its fall assumed wide proportions, the stock declining to 123 and finishing at 125. All branches of the stock list, which had moved forward with Bethlehem Steel earlier in the day, were more or less affected by the severe break, some leading issues yielding more than their gains and closing with net losses. But for the inexplicable movement in Bethlehem Steel, the average of the final prices probably would have been the

COUNTY SCHOOL MEN MEET HERE

Ishpeming and Negaunee Party Entertained at High School Yesterday Afternoon.

Members of the boards of education and the school superintendents and principals of the high schools at Ishpeming and Marquette were entertained here yesterday by the Negaunee school board, Superintendent Orr Schultz and E. A. Miller, principal of the high school.

On the arrival of the visitors a reception was held in the superintendent's office, after which the party went to the assembly room of the high school, where William P. Belden, a member of the Ishpeming board, addressed the students. Following Mr. Belden's remarks musical numbers were given by the high school orchestra and glee clubs. The children of the fifth, sixth and seventh grades presented a physical culture review, and an exhibition in the gymnasium following the program in the auditorium.

The party visited the manual training building, which is one of the best equipped in the upper peninsula, where the classes were at work. After the inspection of the schools the boards met in a conference in the superintendent's office. A dinner was served in the domestic science department at 5 o'clock.

The meeting was attended by Dr. Harry Hornbough, H. A. St. John, E. S. Bice and Joseph Neidhart, trustees; A. R. Watson, superintendent, and Principal McClintock, of Marquette, and William P. Belden, John Skoglund, August Lindberg, Joseph Hooper, William Thomas, trustees; Superintendent Scullery, Principal Davis and Albert E. Stearns, county commissioner of schools, of Ishpeming.

UNITED CHARITIES.

Stores of Local Organization Are Now Becoming Depleted.

The ladies of the United Charities association in charge of the relief work would be pleased to have Negaunee people send any underwear, shirts, stockings and suits to the association's headquarters, as the stock of wearing apparel is rapidly being distributed. The ladies appeal at this time especially to women who are doing housecleaning.

The demand for clothing and other necessities has become greater during the past two weeks than was expected by the association, as there are still many unemployed men in the city, whose families are receiving aid.

An invalid's wheel chair would be greatly appreciated. It is wanted for a man who has been confined to his home for the past several years and has been unable to leave the house, excepting when he has been carried out in a rocking chair.

LOCAL LAONICS.

Austin Farrell, of Marquette, was here yesterday.

William Davey arrived home yesterday from Maple Ridge.

Joe Peterson is here from Maple Ridge on a few days' business visit.

William Yates has gone to Duluth, to spend a few days on business.

Charles Harris, of Detroit, is here to spend a few days on business.

Mrs. Phil Levine was the guest of Marquette relatives yesterday.

Mrs. M. C. Quinn was the guest yesterday of friends at Marquette.

George Shing, of Gladstone, a former Negaunee resident, is in the city.

Mrs. Thomas Collins visited yesterday with relatives and friends at Marquette.

Mrs. Albin Brodine, of Sands, was operated on yesterday at Dr. Robbins' hospital.

An Edison dictating machine has been installed in the office of the First National bank.

Mrs. Joseph E. Stuss has gone to Milwaukee to spend a few days visiting with relatives.

Officers of the Eastern Star will be installed at a meeting which will be held tomorrow evening.

Captain David Klingland has returned from San Francisco, Cal., where he contracted the expedition.

Contractor F. E. King has returned from Hancock, where he spent a few days visiting with his family.

Mrs. Andrew Lindquist and son, Morris, will leave in a few days for Chicago, where they will visit with relatives.

Harry Jennings, who was employed until recently by the late August Schorlimer, has returned to his home at Marquette.

The installation of officers of the Negaunee lodge of Elks will take place this evening. Theodore A. Thoren, past exalted ruler, will have charge.

Captain Richard Trezona, of Eveleth, Minn., is here on a visit with Thomas Pellow and family. Captain Trezona is one of the best known mining men on the Mesaba range.

Mr. and Mrs. F. A. Bell arrived home yesterday from Mason, Mich., where they were called because of the death of Mrs. Bell's mother, Mrs. Staley. The funeral was held Saturday afternoon.

The three months' old daughter of Frank Wollner, Park street, died yesterday morning after an illness of several days with pneumonia. The funeral will be held tomorrow afternoon.

Invitations have been issued for the Junior reception which will be given by the class of 1916, Negaunee High school, Friday evening, April 23, at the high school gymnasium. Tickets will be sold for one dollar and dancing will commence at 8:30.

Bruno, the three-year-old son of Jacob Sara, who resides at the Patch location, died Monday afternoon after an illness of two months. The funeral will be held this afternoon from the home. Rev. F. V. Kava, pastor of the Finnish Lutheran church, will conduct the services.

MRS. HENRY ABENSTEIN.

Death of Sister of Rev. Fr. Buchholtz Is Mourned at Escanaba.

Of the death of Mrs. Henry Abenstein, sister of Rev. Fr. Buchholtz, at Escanaba last Sunday, the Press of that city says:

Following a critical operation to which she submitted Tuesday, Mrs. Henry Abenstein passed away early Sunday afternoon. The operation was planned to remove a obstruction of the intestines, in a desperate effort to save the patient's life. She recovered from the shock, and was thought to be on the road to recovery. But Saturday evening her condition became critical and she steadily lost strength. At 1:45 o'clock on Sunday afternoon, surrounded by her relatives, she passed away.

"Mrs. Abenstein was a quiet, home-loving woman, who held the love and esteem of all who knew her. In her death scores of Escanaba people have lost a sincere, devoted friend. She was born in this city 18 years ago, all of her life had been passed here and in her list of acquaintances were many of the city's pioneer residents.

"Mrs. Abenstein is survived by her husband and little daughter, Catherine, two years of age, in addition to Anna and Austin Abenstein, children of her husband. She is also survived by her aged parents, Mr. and Mrs. Jacob Buchholtz, and three brothers, Rev. Father Buchholtz of Negaunee, Alderman William Buchholtz of this city and John Buchholtz of Green Bay.

Funeral services will be conducted at St. Joseph's church at 9 o'clock on Wednesday morning. Interment will be at St. Joseph's cemetery. Solemn requiem high mass will be celebrated by Rev. Father Buchholtz, assisted by Rev. Father Barth of St. Patrick's church at Escanaba. Rev. Father Corcoran of Iron Mountain, sub-deacon, and Rev. Father Jensen, of St. Joseph's church, master of ceremonies. A short sermon will be delivered by Rev. Father Barth."

KETONEN WON MATCH.

Duluth Wrestler Made Short Work of Walter Willoughby at Ashland.

Waino Ketonen, middleweight champion wrestler of the world, who gave an exhibition here last Wednesday, defeated Walter Willoughby in a finish match at Ashland, Wis., on Saturday night. A Duluth paper had the following account of the match:

Waino Ketonen showed at Ashland, Wis., Saturday night, just why he is the greatest of all legitimate 158-pound wrestlers in the world. The little Finn decisively defeated Walter Willoughby in nineteen minutes, using up the Mellem man so completely that he was unable to answer the call of the referee for the second bout.

A special train was run up from Mellem, the home of Willoughby, carrying 150 personal friends of the former Cleveland star. The Mellem contingent was certain of a Willoughby victory.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does but have no bad after-effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. Headaches, "dullness" and that lary feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "logged up" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. At 15c and 50c per box. All druggists.

The Olive Tablet Company, Columbus, O.

The Battles of Business

Are won by preparation and co-operation. Preparation includes the building of an acquaintance and a growing reserve of cash on deposit with your bank. Co-operation means getting the bank's aid in fortifying your enterprise and strengthening its outposts or in planning and carrying out its campaigns.

An alliance with the Negaunee National Bank will be material aid to your success.

Negaunee National Bank

Designated United States Depository

Having about twelve pounds the advantage in weight, and having trained for two months with the aim of winning back his former laurels, the pride of Mellem entered the ring confident of pinning the shoulders of his Duluth opponent to the canvas.

"Ketonen went behind Willoughby in the first mixup and clamping on his famous leg scissors to the body proceeded almost from the start to apply wicked holds. Near the expiration of the nineteen minutes Willoughby escaped from a combination arm hold by a superbman effort. Willoughby went behind the little Finn, and then Ketonen with lightning-like effect clamped on a wrist lock, turned Willoughby and then switched into a reverse hamlock.

"So twisted was Willoughby in the grueling struggle that his shoulder was badly wrenched and his trainer refused to permit him to come out for the second bout, thus forfeiting the match to Ketonen.

"The fans of Ashland and Mellem were dazzled by the sudden and wholly unexpected victory of the little Duluth boy, but at the same time were free in praising the strength and speed of the Finn."

CHICKENS STOLEN AND KILLED.

Sixteen chickens belonging to William Penrose, of the Cornistown location, were stolen from his coop some time Monday night. They were killed in the coop, the heads having been twisted off and thrown out of a window. Mr. Penrose notified Marshal Newcombe of the robbery yesterday.

TRUE BILLS ARE RETURNED

Grand Jury in the United States District Court Yesterday Indicted Two Persons, the Names of Whom Are Withheld, Pending the Making of the Arrests.

Alleged Violation of Mann Act in Menominee County Is One of the Matters Receiving Consideration—Denardi Case from Ishpeming Is to Be Heard.

Two true bills were returned yesterday by the grand jury in the United States district court. The names of the persons indicted are withheld by District Attorney Walker until arrests are made. The grand jury will convene again at 9 o'clock this morning for the consideration of further business, and the April session of the court will begin at 10 o'clock. Judge Sessions will preside. Due to the findings of the grand jury yesterday and to the fact that several important criminal matters still await consideration, it is expected that the term will continue throughout the week, although no criminal cases were listed on the docket.

Violation of Mann Act.

One case before the grand jury involves an alleged violation of the Mann "white slave" act, the case originating in Menominee county. None of the details was divulged yesterday. Announcement that the case would be considered by the grand jury was first made by Judge Sessions yesterday morning in his charge to the jury. At least ten Menominee county persons are here to testify.

Witnesses in the case of Salim Nehra, of Munising, charged with having misled the United States mails, were before the jury yesterday.

Following are the names of the grand jurors:

C. W. Frimodig, Houghton; John N. Mitchell, Hancock; Fred Scott, Bergland; Harold Nilson, L'Anse; John Dunham, Daggett; Samuel Chynoweth, Calumet; John LaSalle, Menominee; Albert J. Smith, Trumountain; Gustaf Lyman, Ishpeming; Marvin Brown, Sault; George Brewer, Ironwood; Lucas Herman, Calumet; Gene Bethan, Houghton; Paul Frederickson, Skandia; Andrew T. Sethey, Norway; Henry Pykias, Hancock; James Stephens, Northland; John Rose, Ironwood; William Ivey, Point Mills; William Gillespie, Alston; and Harry Vivian, Amasa.

Cases on the Docket.

Below are the cases listed on the bar docket for the April term.

- Bankruptcy—
John Waltz—Hearing on objections to discharge.
Nathan D. Forgostein—Hearing on objections to discharge.
- Issue of Fact—
Hoose & Person Construction company vs. the Newton Engineering company—Trespass on case.
- Equity—
The Continental and Commercial Trust and Savings bank vs. the Marquette City & Presque Isle Railway company—Foreclosure.
- Union Trust company vs. the Lake Superior Iron & Chemical company—Foreclosure.
- First National bank vs. F. B. Chesbrough—Assumpsit.
- Maria H. Galloway vs. Edwin G. Adams—Bill to quiet.

IS INSPECTING SCALES.

County Sealer of Weights and Measures in Marquette.

T. M. Wells, of Negaunee, county sealer of weights and measures, examined scales in the greater number of grocery stores in the business part of the city yesterday. He found several that did not meet the requirements, and ordered that they be repaired and put in proper order before his next visit. However, the percentage of faulty scales was not as large as when he first began the inspection about two

months ago, a fact which shows a disposition on the part of the store keepers to live up to the law. After completing his work in the cities, Mr. Wells will busy himself in the townships. The territory is large, and it will require many weeks to cover it.

"M" CLUB PROGRAM.

Music and Dramatic Entertainment at High School Friday Night.

A music and dramatic entertainment for the benefit of the "M" club of the Marquette High school will be given in the auditorium of the school Friday night at 8 o'clock. The public is invited. The program follows: Orchestra selection—School orchestra. Reading, selected—Miss Maude Hall. Solo, selected—Mr. Spessard. Reading, "Rosa"—Miss Rhea Aichambaut. Quartet, selected—Misses Schlabaugh, Flynn, Price and Zerbil. Reading, selected—Mrs. Rushmore. Solo, "My Mother Bids Me Bind My Hair"—(Hayden)—Mrs. L. Vierling. Selection—School orchestra.

TUG COLUMBIA MAKES GOOD CATCH

Nets Were Lifted Thirty Miles North of Marquette, in the Vicinity of Big Bay.

The tug Columbia, of the Anderson Fish company, which returned yesterday afternoon from the first trip of the season, brought in from 700 to 800 pounds of whitefish and trout. The nets were set the early part of the week and were to have been lifted Monday, but the tug did not venture beyond the breakwater, owing to the heavy seas. The catch is considered a good one for this season of the year.

The Columbia yesterday made its way about thirty miles north of the city, off Big Bay. The nets were but little damaged by the storm of the early part of the week. Large fields of ice were encountered and some difficulty was had in making the trip. Near Granite Island, ten miles north of Presque Isle, is a field believed to be at least forty miles in extent. It was necessary to skirt this field to reach the fishing grounds.

The tug Theora of the Parker Fish company left yesterday morning on the first trip of the season, returning last night after having set out its nets. The gasoline boat of the firm of Rosen & Hansen also went out yesterday for the first time this spring.

Despite the fact that there are large fields of ice off Marquette, there has been an improvement in the general ice conditions on Lake Superior. A report was issued this week from Whitefish point to the effect that the ice had been blown out of the bay, and that no ice was visible for twelve miles below the point.

Sault Ste. Marie yesterday reported that the ice in St. Mary's river is breaking up, and navigation will probably be open there by Thursday.

The Straits of Mackinac are virtually free of ice, and by Thursday no impediment will be offered to navigation.

LAST NIGHT'S BOWLING SCORES.

Team No. 5 of the Elks-City Bowling league won two of the three games of its match with team No. 11 at the Elks alleys last evening. The winners led in the total score by only forty-eight pins, however, team No. 11 rallying strongly in the last game, which it took, 853 to 732. Haslett was high man, with two "200" scores and a total of 585. The details follow:

Team No. 5	Haslett	214	225	146	585
	Leskie	181	183	179	543
	H. Johnson	182	154	135	471
	Zryd	138	153	176	467
	Coleman	166	168	116	450
		881	883	732	2516
Team No. 11	Erickson	201	159	187	547
	Widloff	150	134	138	422
	Byrens	161	131	163	458
	Espel	159	180	181	520
	Lawrence	150	187	164	501
		821	704	853	2408

Team No. 5 took three straight by forfeit. Team No. 3 failing to appear. Tonight Teams No. 2 and 6 will bowl.

For milk, cream, butter and buttermilk of superior quality call up the Marquette City Dairy. The most modern, practical dairy in the state. Phone 225. F. H. Vandenberg, Proprietor. 4-8-1w.

STUDIED ESCANABA DELIVERY SYSTEM

Flanigan Brothers Are Contemplating Establishing a Central Delivery Here.

Flanigan Bros. have in contemplation the establishment of a central delivery system in Marquette for the benefit of the merchants, who have felt they could not finance the proposition at this time. Louis and Martin Flanigan were in Escanaba last week, and looked over the system that has been in operation there for a year or more. They were well impressed with it and, if the plan is accorded sufficient support, they will put a system in operation in Marquette. Many of the merchants have agreed that a central delivery system would be a saving, but as the entire body of merchants was unable to agree on definite action was taken.

That the Escanaba system is one of the most efficient and workable in the state is demonstrated by the fact that it has been investigated every few weeks by representatives of cities in various parts of the state. In every instance, the system has made a good impression.

Under the Escanaba system, the merchants make five deliveries daily. These are at 7, 8:30, 10:15, 2 and 4:30 o'clock, which allows the purchasers to know the exact time at which a delivery will be made. As a consequence orders in the stores holding membership in the organization are placed systematically.

In the city of Ann Arbor, whence the Escanaba merchants got their idea, sixteen wagons are at present doing the work that seventy-six did under the old plan of every merchant for himself. At Escanaba, ten wagons are doing the work that thirty-six formerly did, and it is certain that the deliveries of every merchant of the city should be accomplished with the same equipment and without additional outfit.

Theatrical

The Deft Theater.

A Charles Chaplin comedy, "A Night Out," will feature the program at the Deft theater today. It is a novel production of the Essanay company. With Ben Turpin the hero goes to a hotel, where the two proceed to make the town dry by drinking up all the liquid refreshments to be had. After spilling a pie over a "dandy" and a Welsh giant being nearly choked to death they are hurled into the street. They manage to zig-zag their way up to their rooms, where they are horrified by running across a woman in pajamas, with a poolie. The dog insists on following Chaplin into his room, and the pajama-clad woman rushes after it. The terrified Chaplin takes refuge in the bathroom. In the meantime, the husband of the pajamas returns, and a melee ensues in which the innocent Mr. Chaplin is threatened with death by a bullet. The husband decides that death by hurling his victim against the wall is more fitting. Chaplin strikes the bathroom door and lands in a tub full of water, head down. Matters are satisfactorily explained. Though the scenes are full of fun, it is Mr. Chaplin's unique antics that injects the comedy into the production.

In addition, the Deft today presents "O'Geary of the Royal Mounted," a three-reel Broadway Star feature.

Marquette Opera House.

The Opera House today features "The Adventures of a Boy Scout," in five parts, at both matinee and evening shows. The film has been endorsed by the national headquarters of the Boy Scouts of America and by many prominent men. The story of the picture follows:

Tom Slade, sixteen, falls under the influence of the Boy Scout movement, and while he at first affects to treat the idea with contempt he finally becomes a heroic character in the organization. Deserted by his father, Tom encounters Mary Temple and her brother, Wilfred, children of John Temple, the landlord who evicted Tom and his father. Tom is induced to make an effort first toward self-support, and as he becomes acquainted with the scout movement he begins to earn his own self respect. Temple is violently opposed to the scout movement, as is his son, Wilfred, but the scouts render Mrs. Temple a service and oust her sympathy. Then the scouts prevent the robbery of the Temple residence by Bill Slade, Tom's father, and his pals. Temple still refuses to recognize the value of the services the scouts have rendered him. He and his son go off on a fishing trip and get lost in the woods. Mrs. Temple asks the scouts to search for them. In the wood Temple has found Slade, who is also lost, and the men fight until they both fall unconscious. They are discovered late at night by the scout patrol. Temple undergoes a complete change of heart. Bill Slade goes to work and becomes a useful member of society.

"Abe" and "Mawruss" Perlmutter, who come to the Marquette Opera House Saturday afternoon and night, are the lovable partners created by Montague Glass in the Saturday Evening Post. The firm name is "Potash and Perlmutter." The partners have a designer named Ruth Goldman, who has a lead like Andrew Carnegie and a physique like Lillian Russell. Then, there is a rascally lawyer, named Feldman. Incidentally the partners have hearts of gold.

The story of "Potash and Perlmutter" revolves about the efforts of the two partners to save their new bookkeeper, Boris Andrieff, from the clutches of the Russian government. They really know little about Boris, except that as a bookkeeper he is a great musician, and they quarrel incessantly about him, but when he is sent back to Russia and perhaps a Siberian prison they risk their every cent to save him.

For a time it looks as though the partners may have to lose everything through their quixotic ideas and Potash is going to lose, besides, a desirable son-in-law—when everything turns out happily. Cupid has been busy, too, with "Mawruss" and the ending is doubly happy. There are tears as well as laughter in "Potash and Perlmutter" but for the most part they are tears of joy.

ANCHOR TO BE MONUMENT.

Will Mark Graves of Fifty-seven Lost When Vessel Sank in 1856.

Port Washington, Wis., April 12.—Plans are being made to place the anchor of the old steamer Toledo, which was wrecked off this port nearly sixty years ago, on a permanent and suitable foundation in the Union cemetery, where it will be dedicated on Memorial day, as a memorial to the unfortunate men who lost their lives in one of the worst disasters in the history of the lake. The loss of the Toledo happened on a stormy night in the fall of 1856. The steamer had stopped at the pier to unload and take on freight. The sea was so high, however, that the captain pulled out before the work was completed, for fear the ship would be ground to pieces pounding against the pier. When well out in the lake the anchor was thrown out and the boat began to pound against the heavy anchor chain. It was literally ground to pieces and sank.
