City Brevities

Today's weather: Fair. Yesterday's temperatures: Seven a. m., 38 degrees; noon, 36; 7 p. m., 34. Highest, 42 degrees; lowest, 31.

C. H. Matthews, of Duluth, was among the business callers in Marquette yesterday.

O. Croghan, of Crystal Falls, spent yesterday in Marquette on a business mission.

Division No. 4, Ancient Order of Hi-bernians, will meet in Keough's Hall at 8 o'clock tonight.

H. Paulson, of Crystal Falls, was among the business visitors in Marquette yesterday.

B. W. Burritt, of Hancock, was in Marquette yesterday, to attend United States district court.

W. J. Parks and William Kline, of Lake Linden, were among the visitors in the city yesterday.

George D. Westerman, of Calumet, arrived in Marquette yesterday afternoon, on a short business visit.

Nels Cadrette, of Duluth, who has been in the city the last few days, left last night for his home.

Mrs. L. Shell, of Sibley, Iowa, has arrived in the city to visit her daughter, Mrs. Harlow A. Clark.

Lucien Eaton, J. N. Olson, Dr. W. S. Picotte and John S. Olson, of Ishpeming, were in the city yesterday.

The St. Cecilia Music club will meet tonight at 8 o'clock in Professor Magnum's studio in the Harlow block.

Miss Myrtle Schmidt, of the Michigan State Telephone company, left last night for Houghton on a several days' business trip.

W. P. Bedford, agent of the South Shore railway at Negaunee, was in the city yesterday to attend the United States district court.

Mrs. A. E. Archambeau and daughter, Miss Florence, left yesterday afternoon for Mt. Clemens, Mich., Detroit and Toledo, for an extended visit.

Superior hire, No. 217, Ladies of the Modern Maccabees, will give a card party and dance in Fraternity Hall tonight. Trombly's orchestra will furnish the music. The public is invited.

A rummage sale will be conducted in the parlors of the First Methodist Episcopal church today, beginning at 9:30 a. m. and continuing until 5 p. m. Articles of many descriptions will be offered for sale.

Mr. and Mrs. Jacob Rose arrived home yesterday morning from a three months' trip. They visited Florida and Texas, and later went to California. They attended the exposition in San Francisco and San Diego and were present at the Mardi Gras in New Orleans.

Soo Canal Passages—Upbound vessels passing the ship canal at the Soo Monday night and yesterday were: The Neepawan, 8 o'clock Monday night; Robert Wallace, Renoyle, 9:30; Lambert, 11:30; Port Colborn, 5:30 o'clock yesterday morning; Mathews, 9; Lakewood, 9:30; Oster, 10:30; Crowe, noon; Midland King, 4 p. m.

Welfare Club to Meet—The Women's Welfare club will hold its April meeting in the band rooms of the city hall at 3 o'clock this afternoon. Reports from the several committees which have arrangements for the homecoming celebration in hand will be heard.

There will also be a general discussion of the reports of the city commission for the past year; a meeting of the executive board of the club will be held at 2:30 o'clock.

INSURE WITH PETER WHITE & CO.

Upper Peninsula

Lays Arrest to Jealousy.
Alphonse Thibault of Gladstone was arraigned before Justice Huber here the other day and fined \$20 for killing a deer last November without having a license. He attributes the prosecution at this late date to the jealousy of a fellow hunter.

Present Saloonmen Retained.
The six saloonmen now doing business in Newberry have granted new licenses. John Barber was reappointed city marshal, and John Garland nightwatch. Dr. H. E. Perry received the appointment of health officer.

Luce County Road Work.
The board of Luce county road commissioners is preparing to resume work. The first work undertaken will be the surfacing of the road graded last fall from Newberry to McMillan. J. A. Broad, civil engineer, will be in charge of the operations this season.

Emptied in Seventy Seconds.
An electric fire alarm system recently installed at the high school at the Soo was satisfactorily tried out the other morning. Unknown to either faculty or students an alarm was sent in and the building was cleared in seventy seconds. Considering there are more than four hundred students in the school, and that some of them had to descend from the third floor, this is an excellent record.

Closing the Blind Pigs.
The city's police department has succeeded in rounding up three more of the Soo's blind piggers. John Jeneka and Frank Ferris were arraigned before Judge Frederick and each was assessed a fine of \$100 or ninety days in jail, the limit allowed in the justice court. Jeneka paid the fine and Ferris dug his up later. Peter McKoskie was convicted by a jury and the judge sentenced him to the same fine as the other two. McKoskie had two friends who produced the cash. The police have considerable difficulty procuring evidence against this class of law violators.

Diversified Farming Pays Best.
The farmers of "Cloverland" have been taught a costly lesson the past year. The majority of the tillers of the soil raised mammoth crops of potatoes, and as a result there is no demand for the tubers and the prices quoted are so low it does not pay the farmer to haul them to market. There are Schoderlaff county farmers who have from 2,000 to 3,000 bushels of potatoes on hand at present. Diversified farming brings the best results. There is something radically wrong in the manner of marketing potatoes. While an infinitesimal price is being offered in this north country, the retailer sells the tubers in Chicago at \$1 a bushel. If the farmers were properly organized, they might invade the city markets by filling mail orders for potatoes at fifty or seventy-five cents a bushel. They

STOP AND REFLECT

YOU who have settled in matrimony—you who intend to some day—think of those around whom your whole thoughts are centered. Think of the duty imposed upon you to provide comfort and happiness for them.

as well as the consumer would profit thereby. When a commodity passes through a half dozen hands before it reaches the ultimate consumer, he, as well as the producer, loses.—Manistiquie Pioneer-Tribune.

School Superintendent Resigns.
Newberry people learned with regret that E. P. Koepfgen, superintendent of schools, had tendered his resignation to the board of education, to take effect at the end of the present school year. Mr. Koepfgen is efficient and popular. He is undecided as to his future movements, but will probably take a post-graduate course at Ann Arbor. Eight of the teachers employed in the high school and grades have also indicated their intention to seek other engagements.

DIED LAST NIGHT.

William Rivers, Sr., Passed Away at St. Mary's Hospital.

William Rivers, Sr., a well-known resident of Marquette, died last night at St. Mary's hospital, after an illness of a month or six weeks. Mr. Rivers had made Marquette his home during the greater part of his lifetime. He had a large acquaintance. For a number of years he was engaged in the liquor business. Several of the members of his family survive.

City Brevities

W. S. Wright went to Houghton last night on business.

Thomas Ristell, of Calumet, spent yesterday in Marquette.

M. H. Moriarty was here from Crystal Falls yesterday.

Fred Doucette, of AuTrain, was a Marquette business caller yesterday.

R. F. Birchard left yesterday afternoon for Newberry on a brief business trip.

Miss Helen Teeple left last night for Orlando, Florida, for an extended visit.

Miss Eleanor Espel left yesterday for Detroit, to visit friends for several weeks.

John Carlson, the Third street grocer, has bought a Buick touring car from the Cloverland Auto company.

The ladies of the O. R. C., have postponed until April 29 the card party which was to have been held tonight.

Mr. and Mrs. Albert Sanders, of Ishpeming, spent yesterday afternoon in Marquette with relatives and friends.

The Ladies' Auxiliary to the Brotherhood of Locomotive Engineers will meet in Keough's Hall at 3 o'clock this afternoon.

The county clerk issued a marriage license yesterday to Einar G. Gilbertson and Minnievon DeMarce, of Marquette.

Marshall Trevarrow, of Ishpeming, was here yesterday, in attendance at the Denard case in the United States district court.

United States Inspectors York and Gooding left yesterday morning for Sault Ste. Marie, to conduct the inspection of several vessels. They will be gone until the latter part of the week.

More than one hundred members of Marquette lodge, No. 104, F. & A. M., attended a whistish dinner in Colonial Hall last night. A regular meeting of the lodge was held at the conclusion of the supper.

Parish Meeting Tonight—The members of the parish of St. Paul's church will hold the annual meeting at Guild Hall tonight. Supper will be served at 6 o'clock, after which business matters will receive attention.

Will Meet April 23.—The first meeting of the new board of supervisors will be held at the court house at 11 o'clock the morning of April 23. A chairman will be selected. The clerk asks that all bills against the county be placed in his hands by Friday, April 23.

Richards Store Opens—A. C. Richards announces the opening of his store in the Elks' temple. In addition to a fine line of paints, wallpaper and other decorating material, he has a complete line of sporting goods. The last of the goods received were placed in the show cases and on the shelves last night, in readiness for the opening today. The show cases are of the latest pattern and finished in light oak. In one corner of the store, a rest room for patrons has been fitted up. The public is given a cordial invitation to attend the opening.

MADE TRIP FROM SOO IN 20 HOURS

Steamer Republic, the First Boat, Is Now Unloading Coal at Pickands' Dock.

The steamer Republic, of the M. A. Hanna company, loaded with 4,300 tons of soft coal for the South Shore railway; arrived in Marquette yesterday noon, and is now discharging the cargo at the Pickands coal dock. The Republic was somewhat more than twenty hours making the run from the Soo, ice floes at Crisp point and in the neighborhood of Grand Island hindering her progress yesterday morning. The run from Sault Ste. Marie usually is made in fourteen hours. At times Monday night, Captain Herman Wendorf said, the vessel barely crept along, owing to the heavy ice, but from Grand Island to Marquette no ice was encountered.

The Republic was sighted several miles from port, and was watched closely by many persons. Drawing about seven-hundred feet of water, the vessel went aground a few feet distant from the dock, and some of her cargo had to be removed before she could be brought close to the wharf. The water at this point has always been of sufficient depth to accommodate the largest vessels on the lakes, but the bottom had evidently filled in somewhat during the winter.

The Republic will load ore at the Sault Ste. Marie dock. She will probably clear Thursday.

One of the next vessels to arrive in port will be the United States light-house tender Marigold, which is now at work near the Soo. Buoys will be placed off the Marquette and Presque Isle breakwaters, and the tender will take the light-house crews to Stannard and Grand rocks, and to other lights in this part of Lake Superior.

DEPUTY ATTACKED GERMAN CENSORS

Told Reichstag at Recent Sitting That Their Work Has Been Shortsighted.

Copenhagen, April 6.—(Correspondence of the Associated Press.)—The newspapers here have obtained copies of the official report of the debate in the German Reichstag on the Imperial Budget, including the text of the speech made by the Socialist Deputy, Stadthagen, which the military censors refused to allow the German newspapers to publish. The speech dealt entirely with the German press censorship.

Stadthagen said in part: "From all parts of the country come strong protests against the severity, the inequality, the injustice, the inefficiency of the censorship. The military censors have made the whole of the Socialist Press a target for their malicious attacks, which are not intended to preserve military secrets, but to suppress the free discussion of questions in regard to which the people of Germany have the fullest right to express their opinion. The Volkszeitung, our local organ at Danzig, was suppressed for saying that there was no danger of a famine in Germany, but that the price of many necessities of life was too high for the working classes and imposed considerable hardships on them. At Konigsberg our local daily paper was suppressed for saying that the victories won by the German army were due to the fact that universal manhood suffrage exists in Germany and to the right possessed by German workmen to combine in trade unions or in political associations.

"At Kattowitz our paper, the Freie Presse, had always appeared at three o'clock in the afternoon, but the military censor there insisted on seeing all the proofs before publication, and then declared that he had no time to read them before three o'clock, with the result that the publication of the paper had to be delayed until some hour of the evening, sometimes later, according to the whim of the august official who wielded despotic sway in those regions.

"The Vorwaerts received a warning from the military authorities because it protested against widely sensational reports of English atrocities on German prisoners on the ground that such reports stimulated public enthusiasm for the war, and hence to discredit them meant diminishing enthusiasm for the war. When the Vorwaerts protested against the publication of a report that the German army had captured Belfort and seven French army corps (about 350,000 men) at one stroke, the military authorities in Berlin warned the editor that he was doing a public disservice, and exposed his paper to the penalty of suppression. The Vorwaerts was not allowed to reply to attacks made on it by another Berlin paper, the Neueste Nachrichten, which is a Conservative organ, although this journal had been permitted to libel the Vorwaerts in the grossest terms of abuse.

"On another occasion the Vorwaerts was not allowed to publish a speech made in the Berlin Town Council by Herr Wurum, in which the authorities were urged to prevent the prices of necessary commodities of everyday life from being raised above a certain level. The publication of the Vorwaerts was temporarily suspended for declaring that the hostility existing in other countries against Germany was due to the fact that the German method of government is based on autocracy and militarism, which together had produced many undesirable features.

"We were even forbidden to reprint an attack on the English censors published by the London weekly paper Truth. The Vorwaerts was forbidden to publish an article saying that the destruction of the despotism of the czar would be a blessing to the Russian people; doubtless our astute censors thought this was an indirect hit at the German emperor. The Vorwaerts was not allowed to publish a speech made by the English member of parliament, Ramsay MacDonald, in which MacDonald spoke against the war, and other anti-war utterances made in England were likewise suppressed. Why?

"These are only a few cases selected from many of which we know, but they suffice to show that the censorship is badly administered, inefficiently conducted, and unjustly balanced, so that energetic measures should be taken by the supreme authorities to remedy what is really a grave danger to the welfare of the German nation."

GERMANY'S FOOD PROBLEM NOT ACUTE

American Banker, Lately in Berlin, Tells British Not to Overestimate It.

London, April 6.—(Correspondence of the Associated Press.)—An American banker who has just returned from Berlin, talked with a party of English newspapermen on his arrival in London. He gave them rather a different idea of the state of affairs in Berlin than that conveyed by most of the English newspaper comment. He said: "You English should not be deceived by newspaper statements reaching you from various Continental points to the effect that Germany is on the brink of starvation. I have just closed my house in the fashionable residential part of Berlin. My household budget was not more than 25 per cent higher on March 19 than it was year ago. Various staple articles of food cost more—as they do in London—but hardly one is beyond the reach of the ordinary middle-class householder, or even of the humbler classes. Everybody must have a bread ticket, and there is no shortage of bread. My family of four and two servants never used the whole of our tickets for the week. The potato-flour bread is only slightly less palatable than the old time wheaten loaf.

"At present no German is capable of even of dreaming of the possibility of defeat. I find also a vast amount of foolish misapprehension in England about industrial conditions in Germany. Trade does not seem to me to have been materially dislocated. The shops appear to have their regular flow of customers. The coffee houses, the restaurants, the theaters, the concert halls, the picture palaces, and other establishments dependent on public patronage seem to be doing as well as eight months ago. The coffee houses which have cabarets are always crammed.

"It is generally understood here that Germany is at the moment short of artisan labor? Unemployment is almost non-existent. Wages are high. A skilled man who used to get only \$1 or \$1.25 a day can now earn \$2.50 or \$3. Everything connected with the output of munitions is working at almost capacity day and night. Sundays and holidays, without cessation. New factories have sprung up like mushrooms to produce goods heretofore imported into Germany.

"A German friend of mine who used to make furniture and found his business temporarily shelved by the war is now making shrapnel, employing women and girls in place of the men who have gone to the front.

"It is also wrong to conclude, as I sometimes read in the English newspapers, that Germany is so near the verge of her resources that boys of fifteen are being dragged into the army. Nothing of the sort. A German lad of my acquaintance, a fine athletic fellow of eighteen, has not been summoned, although he is ready to volunteer. They do not need him.

"In short, to the casual observer, there is no outward sign that Germany is on the verge of a famine in either men, provisions, munitions, or money. The plentifulness of money is almost the only 'bluff' that Germany is putting up. The money so plentifully in circulation is paper currency of value as low as 25 cents, flowing from the Imperial treasury like water.

"The Germans in my judgment, thanks to farsighted precautionary measures and natural frugality, can never be starved into surrender. They can be inconvenienced—they are now—but that is a different thing."

ABOUT RHEUMATISM.

People are learning that it is only a waste of time and money to take medicine internally for chronic and muscular rheumatism, and about ninety-nine out of a hundred cases are one or the other of these varieties. All that is really necessary to afford relief is to apply Chamberlain's Liniment freely. Mrs. H. Miller, Loansport, Ind., writes: "I have used Chamberlain's Liniment for rheumatism and it always gives relief." For sale by All Dealers.

STREET TREES AS ASSETS.

Even if a town or city cannot realize readily on the money value in its shade trees, cannot even issue bonds against them, as it might upon its water supply, they are nevertheless a tangible asset to the municipality. The testimony of the real estate men proves that without the necessity of further argument. In a less definite way the value of highway trees has been appreciated in this state for at least 100 years, in proof of which are superb old trees still standing along many a village street, and still further evidence of an ever increasing appreciation of their importance is found in a study of the statutes enacted from time to time to encourage roadside planting and to protect the trees from wind injury. But every now and again it becomes necessary to call public attention to the trees, lest they be forgotten in the hurly-burly of modern life. Our forefathers were able to stick a tree in the ground and let nature do the rest. Those things have passed. A hard frost has fallen to the trees, what with imported "bugs" of assorted shapes and sizes to prey on their life blood, and with man pushing his ingenious improved pavings and drainings around their feet, and his chafing and burning wires through their tops. Happily those trees that our forefathers planted were mostly possessed of good old-fashioned New England constitutions, and able to withstand a lot of abuse, but we may not neglect them with impunity today. They need friends now as never before.

EXPANSION IN EXPORT TRADE.

Trade Paper Comments on Condition of Iron and Steel Business.

Of the general situation in the iron and steel trade, the Iron Age says:

"The expansion in export business has been marked in the past few weeks. March contracts with foreign buyers of iron and steel products were probably in excess of 250,000 tons, not including 100,000 tons of shrapnel bars recently placed for France. No order has yet been placed here for 40,000 tons of rails for France, as reported, and the fantastic story of a large French order for bridges to span the Rhine scarcely needs denial."

"A vast amount of shrapnel business has been and is still being distributed in this country by a Canadian interest which has an \$8,000,000 contract with Russia, but with this as well as a good deal else in the supply lines there are complications which make negotiations long drawn out. The disposition is growing to proceed very conservatively in regard to new contracts where many intermediaries are at work."

"With half of April gone, there is some light on the situation as to prices of plates, shapes and bars, which were advanced to 120c., Pittsburgh by leading manufacturers. Less weakness has appeared than a part of the trade predicted, yet new business in these lines is still limited. Sales of bars and shapes have been made at 120c. Pittsburgh, and Pittsburgh mills have taken plate business at 115c., while some Ohio plate mills have sold as low as 110c., Pittsburgh."

"The steel plants are now estimated to be operated on an average of 75 per cent. of capacity, while wire mills are running at about 90 per cent. of capacity. While the export trade is still the most prominent feature, the volume of domestic orders from both the east and west is said to be increasing."

CARD OF THANKS.

We wish through The Mining Journal to express our thanks for the many favors extended us during the illness and after the death of our beloved little twin son and brother, Byron. We feel particularly grateful to the members of the choir that sang and to Rev. and Mrs. Edwards and all who sent flowers.

Markets

METAL GROUP THE FEATURE OF STOCK MARKET ADVANCE; 1,000,000-MARK AGAIN PASSED

New York, April 20.—The stock market was put to another test of its strength today, but wound up the session not only with general advances, but with some more high records for the current movement.

CLOSING PRICES OF STOCKS IN THE MARKETS

Table listing closing prices for various stocks including Anaconda, Amalgamated, and others.

GERMANY'S COPPER FINE.

A correspondent of the London Chronicle writing from Basel, Switzerland, says the scarcity of copper in Germany is a question of burning urgency and may help to end the war.

WHEAT PRICES BREAK.

Chicago, April 20.—Wheat values became much unsettled today, owing to a sudden break of 7/8 cents in the price of the May delivery. The break, which was said to have been started by an error in regard to a single order, was quickly followed by a nearly complete recovery, but peace rumors tended further to disturb confidence.

CHICAGO PRODUCE QUOTATIONS.

Chicago, April 20.—Butter quotations were lower here today. Creameries were marked at 22 1/2 cents. Eggs were higher. Total receipts were 25,000 cases. At mark, cases included, eggs sold at 18 1/2 cents; ordinary flats, 18 1/2 to 18 3/4; first, 19 1/2 to 19 3/4. Poultry, alive, was firmer. Fowls sold at 15 cents and springs at 18.

Oysters can only live in water that contains at least thirty-seven parts of salt to every 1,000 parts of water.

Responsible Methods

Our conception of Ideal Service is a service that offers to patrons every accommodation consistent with security and strength.

Every transaction is subjected to careful consideration and is guided in spirit as well as in letter by the laws and ideals of responsible banking methods.

Long experience with the commercial and financial needs of Ishpeming has enabled our officers to guide this intensive service for the best interests of all patrons.

Mining News

TENNESSEE.

That there was little or no curtailment of copper production by the Tennessee Copper company last year when practically all of the mines of the country cut down their output is evidenced by company's statement that the 1914 yield was 12,871,113 pounds, against 12,339,516 pounds in the preceding year.

COPPER SHARE EARNINGS.

Prime Lake copper, 19 cents; electrolytic, 17 cents. The stimulus for the activity and rising prices in the copper stocks is found in the foregoing quotations for the metal, let alone the keen appetite of the public to be "in the market." At present producing companies are piling up profits that a few months ago would have appeared beyond the range of reason, even by the most sanguine. For example, Calumet & Hecla, which is once more operating at full capacity, is earning, from its own operations alone, at least \$65 per share. When it is recalled that only a few months ago dividends had to be suspended, it is realized what a remarkable change has come almost overnight in the fortunes of this old Lake Superior producer.

A correspondent of the London Chronicle writing from Basel, Switzerland, says the scarcity of copper in Germany is a question of burning urgency and may help to end the war.

Table showing Annual production and Cost per lb. for various copper companies like Anaconda, Calumet, and others.

SHATTUCK-ARIZONA.

Shattuck-Arizona is a rich, although small, mine which produces its copper at a low cost. Normally its output is about 15,000,000 pounds of copper a year at a cost of about 7 1/2 cents per pound.

CARD OF THANKS.

We wish to thank our Ishpeming relatives and friends for the sympathy and the many favors extended to us during our bereavement. We also feel under great obligations to friends on the Mesaba range.

EDWARD LOCHER and Family.

IS CONVICTED UNDERMANN ACT

Salim Nehra, an Assyrian, of Munising, is the second person found guilty under that statute at the April Term of United States District Court in This City

Tony Denardi, of Ishpeming, charged with sending alleged "Blackhand" letters through the mails, discharged by Judge Sessions on Motion of Defense.

Salim Nehra, of Munising, was yesterday found guilty in the United States district court of a violation of the Mann "white slave" act, after several hours' deliberation by the jury. It is the opinion of observers that Nehra's own testimony, in which there were many discrepancies, had much to do with his conviction.

Nehra was alleged to have taken an Assyrian woman from Munising to New Hampshire, and to have lived with her in the latter state. The man was first held for sending threatening letters through the United States mails. The indictment, however, charged a violation of the Mann act. The defendant showed little concern when the verdict was returned. Nehra was remanded to jail to await sentence. Clarence Lando, of Mackinac county, who pleaded guilty to violating the Mann act, is also held at the jail, awaiting sentence.

Nehra's testimony consisted principally of a flat denial of all that had

been said by the witnesses for the prosecution. The allegation that he had several times threatened relatives living in Munising was brought out by the examination. Assyrians of Munising testified in general that they had been molested at varied times by Nehra.

Denardi Is Discharged.

One of the surprises of the term came late yesterday afternoon when the court discharged Tony Denardi, of Ishpeming, under indictment on the charge of sending a threatening letter through the mails. When the prosecution closed, Charles E. Burton, counsel for the defense, asked Judge Sessions to direct a verdict of acquittal. Concurring in Mr. Burton's view, the court discharged Denardi.

Letters to mining officials in Ishpeming, making various threats, were introduced in evidence. Denardi, it was charged, had conceived the letters, and his son had written them. The case hinged on the testimony of Denardi's son. The boy on the stand denied that his father had had anything to do with the authorship of the letters. The boy claimed that the idea had come to him, and that his father did not know the letters had been sent until he was arrested.

The court has now taken up the case of D. Laupres, of Lake Linden, charged with perjury and concealment of assets. The first witnesses were examined late yesterday afternoon. Laupres, who was formerly a Lake Linden merchant, filed a petition in bankruptcy several months ago. He is accused of having concealed part of the stock of merchandise from his creditors.

Let Conklin fix your watch.

EXAMINER REPORTS ON MEDICAL INSPECTION

Children in All but Three Schools Tested as to Sight and Hearing.

Health Officer Main has prepared for the board of education a statement of the medical inspection work in the Marquette schools covering January, February and March, which will be presented at the next meeting of that body. In March Dr. Main examined children as to hearing and vision, and found many that were defective. This latter examination was made in all but three schools.

"It will be noticed that in the March report no figures are given for defective vision and hearing cases in three of the schools—The Normal, the High school, and the Fisher street school," Dr. Main says. "That is because the tests in these schools have not been completed by the inspector. For the most part this work has been done first by the teachers who then referred every abnormal and doubtful case to the inspector for re-examination. This fact accounts for the unusually high numbers for the column 'Children referred for suspected abnormality.'"

"If the board will permit, I should like to omit for this year the vision and hearing tests and the weighing of the children in the high school. It has been impossible to make the progress with this work that was expected and the school is so near the close of the term that probably little good can result from its hurried completion now. I believe that we can do the work more systematically another year and so expedite it considerably."

Following is the March summary of Health Officer Main's report:

Number of visits to schools, 53
Children given preliminary inspection, nine.

Children given physical examination, 44.

Children subsequently referred for suspected abnormality, 300.

Second and succeeding examinations of the same children, 200.

Total number of examinations made, 722.

Cases of defective vision discovered, 122.

Cases of defective hearing discovered, 11

Other abnormalities, not previously reported, 79.

Number of exclusions from school, 4.

Cases terminated and discharged, 63.

Visits of health officer to cases at homes, 47.

Visits of cases to health officer, 49.

A statement of the work of the medical examiner for January and February, combined from the two monthly reports of Dr. Main, follows:

When You Sit Down to Think Don't Forget To Think of Ormsbee & Atkins

and think of all the good things we have to offer you at the lowest possible prices for the quality we offer.

Theatrical The Delft. A Vitaphone Broadway star feature. "A Daughter's Strange Inheritance," presenting Norma Talmadge, VanDyke Brooke and Donald Hale, is to be presented at the Delft theater today. It is a strong play, one of the best productions of the Vitaphone company. Other pictures will be "Lodging for Two" and "The Terrible Trunk," Edison comedies. A special orchestra will play at the evening performance. "The Black Box." The opera house will today offer the first installment of "The Black Box," the serial now being filmed by the Universal company, with Herbert Rawlinson, Anna Little and William Worthington in the leading roles. The production is heralded as the biggest "mystery" picture yet conceived. It is a dramatization from the works of E. Phillips Oppenheim. The principal character in the "Black Box" is Sanford Quest, criminologist, a modernized Sherlock Holmes. But where this world famous character detected crime and apprehended criminals by the force of his logic and observation alone, "The Black Box," created by the fertile brain of Mr. Oppenheim, is better equipped as far as motion pictures are concerned. Deduction and logic are difficult to represent on the screen. Sanford Quest brings to his aid all the modern and ultra-modern inventions of science. The use of mechanical contrivances is one of the features of the production, which is in fifteen installments, each of two reels. Hypnotism is worked a great deal and serves to help out the mystery. A girl is hypnotized by the detective and told to do certain things at a certain time, and is then awakened from the trance. The cast includes the best players of the Universal company.

JACOB ROSE The Store of Quality A criterion of your taste is your shoes. They must harmonize with the correctness and beauty of the rest of your costume. Burt Shoes for women have the smartness and novelty demanded by metropolitan taste and the high quality which makes them satisfactory to discriminating people everywhere. We have for your choice appropriate models for street, dress, dancing and sport. Buy hosiery here—and gloves, too.

Table with columns: North Marquette, Third Street, Fourth Street, Normal, Froebel Annex, Howard High, Byington, Northgate, Oberlin, Fisher, Hampton, Total. Rows: Number of visits to the school, Number of children given a "Preliminary" inspection, Children referred to inspection for suspected abnormalities, Second and succeeding examinations of same children, Total number of examinations made, Abnormalities found (not previously reported), Children excluded from school, Cases terminated and discharged, Visits of health officer to cases at their homes, Visits of cases to the health officer, Children given physical examination.

CHARITY SPRING FESTIVAL. Persons Selling Tickets Will Report at Guild Hall Sunday Afternoon. Persons who have been selling tickets for the charity spring festival, to be held at Guild Hall the night of April 26 under the direction of McKinley council, Royal Arcanum, are asked to meet at the Guild Hall Sunday afternoon between the hours of three and five. Committees of the Visiting Nurse association

and the South Marquette Reading club will also be there at that time to make further arrangements for their booths and the supper. These two organizations are to receive one-half of the proceeds of the entertainment. A cash prize of \$5 will be given to the person selling the most tickets up to Saturday night. Keeno, the man of mystery, who is to appear at the festival, will give a sensational free act Saturday afternoon in the business streets, provided the weather is agreeable. Keeno is known as the

"Handoff King." If arrangements can be made, he will drive blindfolded through the streets. After the festival music program Monday night, there will be general dancing. A cash prize of \$5 in gold will be awarded the best pair of waltzers. That watch put away in the drawer because it won't run—let Conklin fix it. He will make it a timepiece. Bronze is an alloy of copper and tin.
