U.S. TO DEMAND EXPLANATION OF GERMAN ACTS

TERMS OF NOTE FIRM AND UNMISTAKABLE IN ASKING WHAT WAS THE JUSTIFICATION FOR LOSS OF AMERICAN LIVES AND SHIPS

Disregarding Circular Received from Berlin, Cabinet Unanimously Sanctions Determined Course of President Wilson in Enforcing Edict to Safeguard Neutrals.

Washington, May 11.—President Wilson had practically decided tonight on the first step in the policy which the United States government will pursue as a result of the sinking of the British liner Lusitania with the loss of more than a hundred American lives.

The president will act promptly—within another day or two. A draft of a communication to be sent to Germany was submitted to the cabinet today and approved unanimously. While no announcement was made, it was learned that the United States would present a demand for and insist upon an explanation of the series of incidents which have occurred since the proclamation of a war zone around the British Isles—the sinking of the Falaba, causing the death of Leon C. Thresher, an American citizen, the attack by German airmen on the American steamer Cushing, the torpedoing of the American steamer Gullight and finally the destruction without warning of the Lusitania with a toll of more than a thousand lives.

The circular from the German government to neutral countries assuming responsibility and promising reparation for any damage in the war zone to neutral vessels will not affect the determined course of the president. The circular was considered by the cabinet today, but high officials later pointed out that there is no guarantee in it that the lives of Americans will be safeguarded as submarines cannot accommodate passengers or crews of the vessels they attack.

MESSAGE TO BE SENT TO BERLIN VOICES THE INTENSE FEELING IN AMERICA.

In what was described by those familiar with the document as firm and unmistakable terms the president voices the intense feeling of the United States over these happenings and in the name of international law demands an adherence by Germany to the established rules of maritime warfare. The note asks that some assurance or guarantee be given hereafter that unarmed merchant vessels carrying non-combatants be visited and searched when encountered on the high seas by the German navy and passengers and crew transferred to a place of safety before any prize is destroyed.

The president points out, it is understood, that the United States, in its note which said Germany would be held to "strict accountability" for any attacks on American vessels or lives, had not admitted any right on the part of Germany to carry on such methods of warfare and declares moreover that the giving of official notice of an intention to commit an unjustifiable act did not justify the act or make it lawful.

PRESIDENT IS PREPARED FOR POSSIBLE EVENTUALITIES ARISING FROM CRISIS.

What will follow in event of refusal by Germany to comply with the wishes of the note about to be sent to one of the president's official family would predict. They said the president was determined to act firmly and deal with each situation as it arose. It was pointed out, too, that in his speech in Philadelphia, referring to peace, Mr. Wilson was expressing merely an ideal that he wished America could and would follow.

Persons familiar with the president's point of view indicated that he was by no means unprepared for, or unaware of, the possible eventualities of the present crisis and knew that circumstances and events over which the United States might have no control might make vigorous action necessary.

STOP TRADE WITH GERMANY--COL. ROOSEVELT; CALMNESS AND PATIENCE IS BEST--WM. H. TAFT

Syracuse, N. Y., May 11.—Former President Theodore Roosevelt tonight made a plea for prompt action by the United States on account of the Lusitania disaster, while commenting on President Wilson's speech of last night to a gathering of naturalized Americans in Philadelphia. Mr. Roosevelt was particularly interested in that part of the president's speech in which the latter referred to "such a thing as a man being too proud to fight" and "a nation being so right that it does not need to convince others by force that it is right."

"I think that China is entitled to draw all the comfort she can from this statement," said Mr. Roosevelt, "and it would be well for the United States to ponder seriously what the effect upon China has been of managing her foreign affairs during the last fifteen years on the theory thus enunciated."

"Without twenty-four hours' delay this country should and could take effective action by declaring that view of Germany's murderous offenses against the rights of neutrals all commerce with Germany shall be forthwith forbidden and all commerce of every kind permitted and encouraged with France, England and the rest of the civilized world."

"This would not be a declaration of war. It would merely prevent munitions of war being sent to a power, which, by its conduct, has shown willingness to use munitions for the slaughter of unoffending men, women and children."

"I do not believe that the firm assertion of our rights means war, but it is well to remember there are things worse than war."

"Let us as a nation understand that peace is of worth only when it is the hand maiden of international righteousness and of national self-respect."

BE PATIENT, CALM, SAYS TAFT.

Philadelphia, May 11.—Former President William H. Taft urged patience and calmness in the present international situation and called upon the citizens of the country to stand by President Wilson, in an address at the Union league here tonight. Referring to the sinking of the Lusitania Professor Taft said the "inhumanity of the circumstances in the case presses us on, but in the heat of even just indignation is not the best time to act when action involves such momentous consequences and means untold loss of life and treasure."

"There are things worse than war," Mr. Taft declared, "but delay due to calm deliberation cannot change the situation or minimize the effect of what we finally conclude to do. With the present condition of the war in Europe, our action, if it is to be extreme, will not lose its efficacy by giving time to people whose war it will be to know what they are facing."

"A demand for war that cannot sur-

vive the passion of the first days of public indignation and will not endure the test of delay and deliberation by all the people is not one that should be yielded to."

The president, said Professor Taft, was acting like Washington, Lincoln and McKinley in trying to avoid war. In the present situation it was imperative that he should know the opinion of the country without regard to prejudice.

"The task of the president is a heavy one," continued Mr. Taft. "He is acting for the whole country. He is anxious to find a way out of the present difficulty without war."

At the conclusion of his address Mr. Taft proposed a toast to "the president of the United States." This was drunk standing, amid an outburst of enthusiasm.

**SWEARS TIE GULLIGHT
HAD STARS AND STRIPES
FLYING WHEN ATTACKED**

Washington, May 11.—The state department late today made public a sworn statement by Ralph E. Smith, chief officer of the American steamer Gullight, describing the torpedoing of that vessel May 1, off the Scilly islands. When torpedoed, the officer says, the Gullight was flying a large American ensign, six by ten feet in size. He said he saw the submarine, but "could not distinguish or see any flag flying on her."

Smith further says that shortly before the submarine was sighted two British patrol boats, the Iago and Fleyt took positions on either side of the Gullight and ordered her to follow them to the Bishop lighthouse.

"I personally observed our flag was standing out well to the breeze," the officer stated.

**VANDERBILT'S BODY FOUND
SAYS LONDON NEWSPAPER**

London, May 12, 2:30 a. m.—The Daily Mail asserts that the body of Alfred Gwynne Vanderbilt has been found and is being taken into Queens-town.

**VERMONT EPISCOPAL RECTOR
SAVED BY CHANGING SHIPS.**

Bennington, Vt., May 11.—When the news of the sinking of the Lusitania was received here it was generally believed that the Rev. W. M. Warlow, rector of St. James Episcopal church in the adjoining town of Arlington, was among those who went down with the liner. He had gone to New York with the intention of taking passage on the Lusitania, but when he read the warnings in the newspapers, he changed his booking to the New York of the American line. Before leaving for New York the rector told several of his parishioners that he dreaded the trip. He is a native of England and his only son, an officer in the British army, is now

stationed in Ireland. In order that he might see the young man before he was ordered to the continent he took a two months' vacation.

**RAGE AGAINST GERMANS
SWEEPS OVER BRITAIN;
MOB VIOLENCE FREQUENT**

London, May 11, 9:30 p. m.—Never since the war began has such a wave of anti-German feeling swept through the country. It is due entirely to the sinking of the Lusitania.

Workmen are refusing to labor alongside men of German birth, whether they are naturalized or not. In many towns the premises occupied by Germans have been stormed and damaged or destroyed, and even the exchanges in London and provincial towns which have not permitted persons with German blood in their veins to retain their memberships are taking the drastic step of barring the doors to them, regardless of all considerations.

There have been riots in Liverpool, Manchester, Salford and Birkenhead. In Liverpool the Germans have been interned and those who are naturalized subjects of Great Britain have been advised to go to interior towns or submit to internment. Many of them have decided upon the latter course.

A demand is being made by the newspapers that all the twenty-five thousand Germans still at large be similarly treated. This evening deputations from the stock exchange, the Baltic exchange, Lloyd's and the corn exchange marched to the house of commons and presented a petition to the attorney general which called attention to the grave danger that exists by allowing alien enemies to remain at large in the country.

**KAISER WARNS GREECE
IN LETTER TO QUEEN.**

Paris, May 10.—Following is the text of the message which the Kaiser sent to his sister, the queen of Greece:

"Our offensive is progressing successfully on all fronts. On the eastern front the Russians have lost since the beginning of the war 700,000 men, including 70,000 officers. On the west front the French have had a few small local successes, but so great are their losses that it will suit us admirably if they continue to have a great number of similar successes.

"Our final victory is certain. We, I, those who still dare to draw the sword against us."

"My compliments to Tino."
"WILHELM."

London, May 12, 2:44 a. m.—Anthony E. Wilding, of New Zealand, former lawn tennis champion of Great Britain, and who several times has been a member of the Australasian team in the Davis cup matches, has been killed in the fighting in the Dardanelles.

NOTICE SENT TO NEUTRALS FROM BERLIN SAYS ALL SHIPS SUNK WILL BE PAID FOR; ACTION IS A COMPLETE CHANGE OF FRONT

After Investigation, Message Reads, if It Is Found German Government Is at Fault, Reparation Will Be Made Without the Necessity of Going to Prize Court.

Washington, May 11.—Germany, through Ambassador Gerard, today notified the United States that submarine commanders have been specifically instructed not to harm neutral vessels not engaged in hostile acts; and that Germany would pay for damages to such ships in the war zone.

Neutral ships carrying contraband will be dealt with, the announcement says, according to the rules of naval warfare. If neutral ships are accidentally damaged in the war zone, Germany will express its regret and pay damages without prize court proceedings.

The German government justified its submarine warfare on the grounds that England is threatening to starve the civilian population of Germany by prohibiting neutral commerce in foodstuffs and other necessities.

CIRCULAR INDICATES COMPLETE CHANGE OF ATTITUDE BY GERMANS.

In previous communications Germany has disclaimed responsibility for any harm that may befall neutral vessels venturing into the war zone.

The text of the announcement cabled by Ambassador Gerard, which was issued by the Berlin foreign office in the form of a circular, said the imperial German government "naturally has no intention of causing to be attacked by submarines or air craft such neutral ships of commerce in the zone of naval warfare or definitely described in the notice of the German admiralty staff of Feb. 4, last, as have been guilty of no hostile act. On the contrary, the most definite instructions repeatedly have been issued to German war vessels to avoid attacks on such ships under all circumstances. Even when such ships have contraband of war on board they are dealt with by submarines solely according to the rules of international law applying to prize warfare."

WILL PAY FOR DAMAGES SUSTAINED BY NEUTRAL SHIPPING IN NAVAL WAR ZONE.

The circular continues:

"Should a neutral ship nevertheless come to harm by German submarines or aircraft on account of an unfortunate (following word missing in text) in the above mentioned zone of warfare the German government will unreservedly recognize its responsibility therefore. In such a case it will express its regrets and afford damages without first instituting a prize court action."

"It is the custom of the German government, as soon as the sinking of a neutral ship in the above mentioned zone of naval warfare is ascribed to German war vessels, to institute an immediate investigation into the cause, and the German navy places itself in communication with the interested neutral government so that the latter may also institute an investigation."

"If the German government is thereby convinced that the ship has been destroyed by German vessels, it will not delay in affording damages as heretofore stated. In case the German government, contrary to the viewpoint of the neutral government, is not convinced by the result of the investigation, the German government has also, already on several occasions, declared itself ready to allow the question to be decided by an international investigation commission, according to Chapter III of The Hague convention Oct. 18, 1907, for the peaceful solution of international disputes."

TWO OF THE GREATEST BATTLES OF THE WAR ARE IN PROGRESS IN THE EAST AND THE WEST

London, May 11, 10:40 p. m.—With two of the greatest battles of the war in progress—one between Arras and the Belgian coast, and the other in western

Galicia—to say nothing of the operations in the Dardanelles and lesser engagements along the eastern and western fronts, the armies of the belligerents are now fully occupied. The battle in northern France and Flanders might be divided into three sections. From the coast to Dixmude the Belgians, supported by French marines, have taken the offensive, and, besides repulsing German counter attacks, have gained a footing on the right bank of the Yser canal. Around Ypres, particularly to the east of that town, the Germans continue to attack the British lines and are again using gas and a tremendous amount of artillery. According to the French report the Germans' heavy railway guns have gained a footing on the right bank of the Yser canal. Around Ypres, particularly to the east of that town, the Germans continue to attack the British lines and are again using gas and a tremendous amount of artillery. According to the French report the Germans' heavy railway guns have gained a footing on the right bank of the Yser canal.

The result of this battle, which doubtless will not be decided for days is awaited with deep interest. According to the French report the Germans' heavy railway guns have gained a footing on the right bank of the Yser canal. Around Ypres, particularly to the east of that town, the Germans continue to attack the British lines and are again using gas and a tremendous amount of artillery. According to the French report the Germans' heavy railway guns have gained a footing on the right bank of the Yser canal.

hours. The peace party, however, hopes that the country will remain neutral. Former Premier Giolitti, one of the chief exponents of the policy of peace, it is reported, will enter the Italian cabinet, taking a post without portfolio.

A press dispatch from Athens says that in the fighting on the Gallipoli peninsula Friday and Saturday the allies made important advances and that the Turkish losses were estimated at forty-five thousand. A Turkish communication tonight declares that the Australian submarine AE-2 has been sunk while trying to enter the sea of Marmora. Her crew of thirty-two are reported to have been captured.

**NON-COMBATANTS ARE
NOW HISSED IN PARIS.**

Paris, April 30.—[Correspondence of the Associated Press.]—Few young or middle-aged men are to be seen in the provinces of France now, but there are enough of them promenade the Paris boulevards to exasperate mothers, wives, sisters and sweethearts of soldiers.

"Why isn't he at the front?" has become a constantly growing question, generally followed by a denunciation, and sometimes resulting in deplorable incidents. A young actor was hissed at Lyons when someone in the audience put that question. He asked for a hearing and in a choked voice said that he was obliged to speak of something that he had tried for a long time to ignore himself. "It makes no difference now, though," he said. "The doctors give me only six months more to suffer. It would be a great consolation if I could spend that time fighting for France but in spite of my supplications, they won't have me."

Many incurables have been offered in this way to disclose their secret sufferings. Many foreigners also, who passed for French on the boulevards have declared they were Russian, English or Belgian. Deputy Henri Galli of Paris asked why they were not serving their respective countries. The reply was that the Russians were mostly political refugees who would be put into prison instead of the army if they returned, while England has no obligatory service, and many Belgians benefited from the old law under which conscription was by lot.

Some of them, also, having served in the civil guard or being married, are exempt under existing laws. Galli remarked that there was nothing to prevent the English and Belgians from enlisting in their own armies, and as for the Russians, there was room for them in the foreign legion.

The Belgian army has been refusing to volunteer the privilege of choosing their regiments and this is supposed to confirm the report that the government intends by decree to modify the existing recruiting laws and call out all physically fit men between the ages of nineteen and twenty-five, married as well as single. No more passports for Holland are believed to men in this category wishing to return to Belgium.

Copper Country

PLAYMATES TOLD HIM THE POISON WAS CANDY

Phosphorus Preparation Designed to Kill Rats Causes Death of Baltic Small Boy.

One of the most unfortunate accidents resulting in death ever reported in the South range district came to light Monday night when the physician of the Copper Range Consolidated medical staff made a report of a post-mortem examination of the body of Martin Steinlaek, six years of age, who died Sunday night. The autopsy proved that the boy died of phosphorus poisoning and investigation revealed that he ate rat poison.

Martin, who lived with his parents, Mr. and Mrs. Otto Steinlaek, of Baltic, returned home from school Friday afternoon and at once went out to play with other small boys of the location. He came back in a little while and complained of being sick. His illness took a violent form that evening, and Sunday night he died.

Phosphorus Effects Found.

The physicians found that the condition of the internal organs indicated phosphorus poisoning, and the mother was asked if the boy might have eaten some matches. She was positive he had not. She told of his playing with other boys after school, and these latter were located and interviewed.

Martin's playmates said that the little fellow had found in an alley a partly filled tube and they had told him it was chocolate candy. He ate part of the contents of the tube. Fortunately, the boys remembered when Martin had thrown the tube when he had found its contents not to his taste.

Defense of Autopsy.

The physicians offer this case as a defense of the practice of performing an autopsy in cases of death from doubtful or unknown causes. Many of the foreign peoples of the copper country have a native horror of a post-mortem examination, feeling that it is desecration to operate on a dead body.

In such cases death often remains a mystery and the bereft relatives never can have the consolation of knowing that possibly no one but the deceased is to blame for the death. An autopsy clears up all mysteries in such cases.

The toll weevil did about \$200,000,000 damage to the cotton crop in 1913. Nearly 18,000 square miles of new territory became infested during the year. Every effort is being made to control these depredations, particularly by the use of powdered orthoarsenate of lead.

Sick Women Made Well

Reliable evidence is abundant that women are constantly being restored to health by Lydia E. Pinkham's Vegetable Compound

The many testimonial letters that we are continually publishing in the newspapers—hundreds of them—are all genuine, true and unsolicited expressions of heartfelt gratitude for the freedom from suffering that has come to these women solely through the use of Lydia E. Pinkham's Vegetable Compound.

Money could not buy nor any kind of influence obtain such recommendations; you may depend upon it that any testimonial we publish is honest and true—if you have any doubt of this write to the women whose true names and addresses are always given, and learn for yourself.

Read this one from Mrs. Waters:

CAMDEN, N. J.—"I was sick for two years with nervous spells, and my kidneys were affected. I had a doctor all the time and used a galvanic battery, but nothing did me any good. I was not able to go to bed, but spent my time on a couch or in a sleeping chair, and soon became almost a skeleton. Finally my doctor went away for his health, and my husband heard of Lydia E. Pinkham's Vegetable Compound and got me some. In two months I not only regained my health like a new woman and am at my usual weight. I recommend your medicine to every one and so does my husband."—Mrs. TILLIE WATERS, 530 Mechanic Street, Camden, N. J.

From Hanover, Penn.

HANOVER, PA.—"I was a very weak woman and suffered from bearing down pains and backache. I had been married over four years and had no children. Lydia E. Pinkham's Vegetable Compound proved an excellent remedy for it made into a well woman. After taking a few bottles my pains disappeared, and we now have one of the finest boy babies you ever saw."—Mrs. C. A. RICKBONE, R.F.D., No. 5, Hanover, Pa.

Now answer this question if you can. Why should a woman continue to suffer without first giving Lydia E. Pinkham's Vegetable Compound a trial? You know that it has saved many others—why should it fail in your case?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs. It has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS. FOR ADVICE.

Your letter will be opened, read and answered by a woman and held in strict confidence.

ASKS TAX COMMISSION TO PROBE MINE VALUES

Houghton County Board Adopts Resolution Presented by Supervisor F. W. Denton.

F. W. Denton, general manager of the Copper Range Consolidated Mining company, representing Adams township on the Houghton county board as supervisor, yesterday began an attack on the present system of determining the valuations of the producing mines of Houghton county.

Characterizing the present system as "unfair and illogical," Mr. Denton asserted that under the Calumet & Hecla Mining company has not been paying its just share of taxes for a number of years. He asserted also that under the system the Copper Range Consolidated properties have been assessed too high and he offered a resolution that the county board take advantage of the offer of the state tax commission in a recent circular.

Mr. Denton recalled that the state tax commission had offered to come into any county and assist its supervisors in determining valuations before the annual meetings of the boards of review. He asked, in his resolution, that the state tax commission be invited to come to Houghton county, to preside over a meeting for the consideration and discussion of the mine valuations and to fix these valuations for the ensuing year.

MacNaughton Accepts. James MacNaughton, general manager of the Calumet & Hecla Mining company, member of the board from Calumet township, seconded the motion without comment and it was passed without discussion.

Earlier in the meeting, Mr. MacNaughton, as chairman of the equalization committee, had announced that the annual informal meeting of the committee for the purpose of considering valuations would take place Thursday morning in the county building. He asked all of the supervisors to attend this meeting and to take part in the discussions.

After Mr. Denton's motion had passed, Mr. MacNaughton said that in spite of the motion the committee must meet, because it must dispose of matters relative to the city of Hancock, whose board of review meets May 17, and it would not be expedient to await the arrival of the tax commission before taking action on this one district.

County Clerk Kaiser was instructed to communicate at once with the state tax commission and to invite that board to call the meeting for Houghton county at an early date as possible.

Light and Traction Probe. Supervisor Rourke of Franklin township brought up the question of the new schedule of the Houghton County Traction company, which has cut its service from half-hourly to hourly between Houghton and Calumet. He said the

LOOK YOUR VERY BEST

CUTICURA

Soap and Ointment, both fragrant, super-creamy emollients, are the first requisites in preserving skin beauty and purity.

Samples Free by Mail. Cuticura Soap and Ointment sold everywhere. Write for sample of each mailed free with 25¢ box. Address Post-office "Cuticura," Dept. 37, Boston.

of his township were under this schedule given only one car an hour and he felt they were entitled to as good a service as the people of Houghton and Hancock, who have fifteen-minute service.

Mr. Rourke also called attention to the charges made in certain parts of the county that the Houghton County Electric Light company is discriminating, in that it gives service for eight cents per kilowatt to some and charges for the same service twelve cents to others.

The Franklin supervisor offered a resolution that the general manager of the two companies be invited to attend the next meeting of the Houghton county board and explain this apparent discrimination. This resolution prevailed.

A Motorcycle Cop. Supervisor Rourke also put over another resolution. He called attention to the frequency of accidents on the Hancock-Calumet and Hancock-Lake Linden highways, through the excessive speed of automobiles and motorcycles.

Supervisor A. G. Johnston of Duncan township, formerly chairman of the Marquette county board of supervisors, was named chairman pro-tem in the absence of Chairman Charles Smith.

Supervisor Seiber, for the hospital committee, reported that Superintendent Foley is arranging for the tuberculosis sanitarium chicken ranch ordered at last meeting and that the expense will probably be \$300.

Supervisor Hosking, for the hospital committee, offered a resolution that the tuberculosis sanitarium in company with an architect to look into improvements that are needed. He said the sanitarium is crowded and that a condition of peculiar importance exists. There are many patients in the last stages of tuberculosis and no special provision is made for them.

He believes they should have more comfortable quarters than the open-air rooms provided for incipient cases, rooms in which they may spend their last days in the society of their friends. The building committee was instructed to investigate.

BIG STACK AT CALUMET IS BADLY DAMAGED

Awe-Inspiring Electrical Storm Experienced in Copperdome Early Yesterday.

The mammoth 256-foot stack of the Calumet & Hecla company at the Red Jacket shaft, which cost \$500,000, was seriously damaged in the electrical storm of early yesterday morning. A bolt of lightning that struck the stack tore off nearly all of the outer shell of brick for a distance of thirty feet from the top, and did considerable other damage, necessitating extensive repairs if not the rebuilding of the stack.

The awe-inspiring and sleep-wrecking thunder storm of early yesterday morning was local to the copper country. No other district of the great Lakes reported anything like the conditions prevailing in the Keweenaw peninsula. The storm was accompanied by an exceedingly heavy rain, seventy-two hundredths of an inch having fallen in fourteen minutes, between 2:45 a. m. and 3 a. m.

The Soo, Escanaba, Duluth and Marquette reported only showers. Weather Observer Crowlark said yesterday that the storm was a local disturbance purely and a meteorological freak. "Ordinarily," said Mr. Crowlark, "such a storm follows a very hot day. That it followed weather conditions as prevailed on Monday is remarkable. It fooled the authorities, for they had forecast for last night and today fair weather."

Another peculiar feature of the storm was that it was not a hot, humid day. The air movement showed practically no velocity, at least none that would indicate on the record that the weather was anything but fair.

Mr. Crowlark says that he always is asked by a number of people, directly after such a storm as this, to explain lightning and thunder. He says that this is not a good specimen of an electrical storm for explanation purposes, because it was not founded on normal conditions.

Ordinarily, as has been said, such a storm follows a hot, humid day. The heated air has been absorbing rapidly large quantities of water from swamps and large bodies of water, and as the air constantly is rising this saturated air soon reaches higher and cooler levels and the result is expansion of the air and condensation of the water. The rapid condensation of the water in the air causes an electrical discharge, which is called lightning. Scientists do not go very much further with the explanation. Lightning is a peculiar form of electricity, one that little is known about. Thunder merely is sound. It is the sound resulting from the production of the electrical discharge.

Rain Caused Heavy Damage. The rain caused considerable minor damage in the copper country. In the west end of Hancock, cellars were flooded, the pavements and sidewalks in different parts of the city were covered with sand and dirt washed down from the hill and the dwelling of B. E. Tilon, on Hancock street, was struck by lightning. Little damage was done by the bolt. A small patch of plaster was knocked from the ceiling and the family were given a bad scare.

The intensity of the storm recalled to the minds of many Hancock people the thunder and lightning storm of fourteen years ago, when the Finnish Lutheran church was struck by lightning, two persons were killed and the church was burned to the ground. Rev. Mr. Rieppa, the pastor, was in the church at the time, directing the work of cleaning the building. A woman engaged in the work and the pastor were killed instantly. Windows in some of the business houses were smashed, the two city banks being included in the list.

HEARINGS AT HOUGHTON.

President J. A. Kennedy Investigates Claims for Compensation. Rev. J. A. Kennedy of Lansing, president of the Michigan industrial accident board, yesterday conducted hearings in the Houghton county building.

The hearing of the case of James G. Wilkinson of Hancock, who claims \$25,000 from the Houghton county building, was postponed.

Baltic Mining Company Case. Mr. Kennedy had set yesterday morning for the hearing of the case of David Odosso vs. the Baltic Mining company. Odosso did not appear and the case was postponed.

In this case the man lost the sight of an eye. The injury to the organ was the result of the bursting of small blood vessels in or near the eye and physicians of the Copper Range Consolidated staff found that this was a direct result of the fact that the man has a very high arterial blood pressure. Odosso does not set up that the eye was injured, but that the strain of lifting in the mine caused the rupture.

The company contests on the ground that it cannot be responsible for the man's physical condition. It is expected that Odosso's case will be disposed of by affidavits and that no other public hearing will be set.

MORRIS MATCH RULES CHANGED.

Portage Lake Golf Club Advised of Method of Selecting Players. The Portage Lake Golf club has been advised by the Western Golf association that the rules for the conduct of the annual Tom Morris memorial match, in which the Portage Lake club won second place last year, have been changed.

Heretofore the clubs participating have held a special match the Memorial Day to determine a special pair for the course and to select by elimination the best eight players to constitute the team. This is now changed. There will be no preliminary match and the best eight players will be selected arbitrarily by the golf committee. The memorial match will be played June 18.

The golf committee of the Portage Lake club is awaiting action on the part of the Memoree club before arranging the dates for the club's stated matches. The upper peninsula championship is to be played at Memoree this year and when that club selects the dates for the tournament the Portage Lake club can arrange its schedule so as not to conflict. In the meantime, the club course is in use daily by an ever-increasing field of golfers. This promises to be the big golf year in the copper country.

RECEIVES MEXICAN RIFLE.

Is Souvenir of All Who Participated in Vera Cruz Siege. John Drouin has written relatives in Hancock that he will shortly send home a Mexican rifle, presented him by the United States government as a souvenir of the siege of Vera Cruz, the Mexican city taken by American troops more than a year ago. Mr. Drouin is aboard the Arkansas, now in New York. The big battleship recently returned from Cuba and is expected to remain in American waters for a time. The young man writes that he likes the service more each day and probably will not be home this summer. His term of enlistment has two years yet to run.

GREENLAND EPWORTH LEAGUE.

New Chapter Has a Charter Membership of Twenty-Five. A chapter of the Epworth league, recently organized at the Greenland M. E. church, met Friday night at the home of Rev. R. C. G. Williams, pastor of the Greenland circuit, twenty-five members being present under the leadership of Morris Engstrom, the president. The membership is composed almost wholly of young converts. A series of entertainments is projected for the purpose of raising funds to improve the church building.

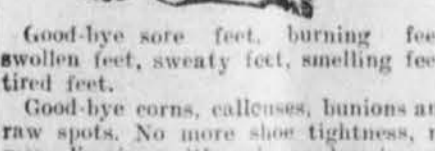

A Junior Temple of Honor is being organized at Greenland. Boys of every denomination and nationality are invited and urged to join.

WHOOPIING COUGH.

"About a year ago my three boys had whooping cough and I found Chamberlain's Cough Remedy the only one that would relieve their coughing and whooping spells. I continued this treatment and was surprised to find that it cured the disease in a very short time." writes Mrs. Archie Dalrymple, Crooksville, Ohio. For sale by All Dealers.

USE "TIZ" FOR SORE, TIRED FEET

"TIZ" for Puffed Up, Aching, Smarting, Calloused Feet and Corns. "TIZ" makes my feet smaller. Good-bye sore feet, burning feet, swollen feet, sweaty feet, smelly feet, tired feet. Good-bye corns, calluses, bunions and raw spots. No more shoe tightness, no more limping with pain or drawing up your face in agony. "TIZ" is magical, acts right off. "TIZ" draws out all the poisonous excretions which puff up the feet—the only remedy that does. Use "TIZ" and wear smaller shoes. Ah! how comfortable your feet will feel. "TIZ" is a delight. "TIZ" is harmless. Get a 25 cent box of "TIZ" now at any drugstore or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded.

LOOK YOUR VERY BEST

man to go on the shelf," he said yesterday. "The government has treated me well and I have no complaints to offer." The captain will remain in the service as long as he is able to continue his duties.

MARQUETTE MINING MACHINERY.

Nels Flodin Presents the Douglass House With Picture of Products. A recent addition to the decorations of the Douglass House is a large framed picture of various products of the Lake Shore Engine works of Marquette, for which Nels P. Flodin, well-known mining machinery salesman, is the principal agent.

Mr. Flodin is one of the most active members of the company and one of the best known to mining men generally. The picture shows a multiplicity of machines and devices manufactured by the Lake Shore Engine Works for various upper peninsula mining companies. Prominent in the picture is the Eureka ore shoveler, one of the company's latest devices, for the construction of which Mr. Flodin generally is given credit by mining men.

This device is for shoveling ore in iron mines and delivering it directly into tram cars. It is a mechanical marvel according to mining men who have tested it and it is, apart from any other merit it may have, Nels Flodin's best-loved brain child.

FATE OF CALUMET MINER.

John Jackolini, Stranger, Killed After Working Three Hours. John Jackolini was instantly killed Monday afternoon on the seventy-first level of No. 7 shaft of the Calumet & Hecla Mining company. A falling timber was the cause of death and it was purely accidental. Jackolini was a stranger. He is believed to have come from Ishpeming or Negaunee. He went to work about 12:30 Monday noon and was killed within three hours of that time.

NOTES OF THE TEMPLARS.

Palestine Commandery to Divine Service—Temple Redecorated. Palestine commandery, Knights Templar, will attend divine service at Trinity church, Houghton, next Sunday morning. The members will meet at the asylum, Masonic temple, and will march to the church in a body. The parade of the Templars on Sunday will be the first public appearance of Palestine commandery since the members have been drilling in anticipation of the state convocation.

The executive committee in charge of the forthcoming convocation yesterday received from the Houghton county board of supervisors permission to cross the Houghton county-bridge-in parade during the convocation. A contract was yesterday let by the Masonic building association to Frank J. Webber for the redecoration of the Masonic temple in anticipation of the convocation. Mr. Webber is peculiarly equipped for this work and the temple will have his hands in a manner that will make it worthy of the important function it is to perform during the convocation, the entertainment of the grand commandery of Michigan.

SALARY GOES UP 40 PER CENT.

Coast Guard Captain McCormick Benefits by New Law. Captain Thomas H. McCormick of the Canal Coast Guard station is one of the keepers on the shores of Lake Superior to receive the 40 per cent. increase in salary provided in recent act of congress. For every five years the captains of the stations have served they receive an increase of 10 per cent. up to 40 per cent. Captain McCormick has been in the service for thirty-five years.

The same law provides that a man in the service for more than thirty years may receive a retirement salary of three-fourths of his most recent remuneration. Captain McCormick, however, does not care to retire at this time. "I am too young a man to quit yet. I am too young a

ORIGIN OF "EDITOR." One of the most interesting verbal or philological trails that scholars now are following into the past for light on origins is that which has the word "editor" stamped upon it. Yale's authority on evolution of English speech, Professor Lounsbury, could find no earlier use of the term as applied to the chief writer and director of a periodical than in 1708; but there is evidence in the superb collection of British and American newspapers owned by the Antiquarian society, Worcester, Mass., that it was so used in 1761. The alleged use of the title in the Boston Newsletter of 1728 proves, on examination of the file in the Boston public library, to be inaccurate. Undoubtedly Isaiah Thomas, in 1773, spoke of himself as editor of the "Royal American Magazine." The interesting point to be noted, while the hunters are busy on the trail, is that, relatively speaking, "editor" is a new word in journalism. "Printer" and "publisher" preceded it. Any information bearing upon the present controversy, in which Professor Melvin Lee of New York University is one of the chief disputants, will be welcomed by him.—Christian Science Monitor.

City Brevities

Today's weather: Unsettled, probably showers. Yesterday's temperatures at 7 a. m., 52 degrees; noon, 70; 7 p. m., 78. Highest, 83 degrees; lowest, 39.

M. E. Schlach, postoffice inspector, left last night for Chicago.

William E. Mead, of Chatham, was a business visitor here yesterday.

J. E. Keenan, of Iron River, spent yesterday in Marquette on business.

Harry T. Culver, of L'Anse, was a business caller in the city Monday.

Tom Chaney, of Ishpeming, was a Marquette business visitor yesterday.

Mr. and Mrs. H. O. Young, of Ishpeming, were Marquette visitors yesterday.

John D. Mangum left yesterday morning for Oconto, Wis., on a brief business trip.

Mrs. C. A. Tripp, left yesterday afternoon for Bad Axe, Mich., to visit relatives.

Carroll Trevillion, daughter of F. J. Trevillion, North Front street, is ill with pneumonia.

Marshall Trevarrow, of Ishpeming, was among the Marquette business callers yesterday.

A. S. Cameron leaves this morning for a week's business trip through the upper peninsula.

Ray Zerbel arrived home yesterday morning from Chicago, where he went on a brief business trip.

Lawrence Jacobs, manager of the Delft theater at Escanaba, is in the city for a short visit.

A. H. McDougall, of Sault Ste. Marie, was a business caller in Marquette Monday night and yesterday.

Reuben Samuelsen and Bruno Brandt leave today for Jackson, Mich., where they have accepted positions.

Miss Katherine Hoely, who has been in Chicago for several weeks, visiting relatives, has returned to Marquette.

Miss Esther Hoelund, of Gwinn, who has been in Duluth the last few months, has arrived in Marquette to visit relatives.

E. E. Brigham, of Munising, superintendent of the woods operations of the Cleveland-Cliffs iron company, was in Marquette yesterday.

W. C. Fowler, of Chicago, inspector for the German-American Life Insurance company, is in Marquette, on official business, for a few days.

Mrs. S. Foucher left Sunday morning for Timmins, Ont., to visit her husband, who is employed by the Hollinger Mining company.

Members of the city baseball team are requested to meet this evening at the City Hall at 7:30 o'clock. Others interested in the sport will be made welcome.

The Women's Temperance Union will meet at 3 o'clock this afternoon at the Methodist church. New members will be formally received, and a tea and treat will be served.

Mr. and Mrs. Frank Morin, of Garden City, Mich., who were married yesterday morning at that place, have arrived in Marquette to visit Mr. Morin's uncle, Joseph Morin, proprietor of the Quessa City Hotel.

The steamer Republic, of the Hanna fleet, called at the South Shore dock yesterday. The Pathfinder, of the Interlake Steamship company, has completed unloading a cargo of soft coal at Pickands' dock.

Will Open This Week.—The latter part of this week Guy Freese will open a barber shop in the Greenwood block, in connection with Fred Frei's pool room. Two chairs will be installed. The shop will be partitioned off from the Lillard hall.

Interest in Golf.—Members of the Town and Country club are participating in golf extensively for the early part of the season. Two teams will be sent to the annual tournament of the Upper Peninsula Golf association at Menominee in August.

Cut Arteries.—Walter McMahon, the five-year-old son of James McMahon, Champion street, severed two arteries in his wrist the other day by falling on a sharp wire a short distance from his home, where he was playing. He was taken to St. Mary's hospital and later to his home, and is recovering.

Planning Elks' Ball.—Marquette lodge, B. P. O. E., will give the first ball to be held in the new temple a week from Friday night, May 21. The arrangements are in the hands of a special committee, composed of Al Shauer, Jack Horgen and Oswald Barber. Invitations will be sent out the latter part of this week.

Heart Disease Caused Death.—William Smith, one of the caretakers at Park cemetery, dropped dead from heart disease while at work yesterday afternoon. He was seventy-five years of age. Mr. Smith made his home on Alger street. He is survived by a wife and several daughters. Coroner Printz.

Jackson Man Eats A Square Meal

A. W. Hobbs Ends Stomach Suffering Quickly With Wonderful Remedy.

A. W. Hobbs of 1801 East Main St., Jackson, Mich., after about fifteen years of suffering from derangements of the stomach and digestive tract, took May's Wonderful Remedy. He got the surprise of his life—and swift relief.

Mr. Hobbs has told his own story in a letter, part of which is given here. "After taking three doses of your stomach remedy I am in perfect condition. I have not felt so well for fifteen years."

"I can eat anything now and it does not distress me. I hope those afflicted as I was will proceed to get your remedy at once."

May's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfied, factory money will be returned.

Indian was secured for the express purpose of getting evidence against some of the liquor dealers. The second case is reported to be of a different nature, the complaining witness and others who furnished the information being disinterested parties. Purported government Indian agents visited the Soo about two years ago, used a reservation Indian from Garden River as a decoy and brought charges against twenty-five or more retail and wholesale liquor dealers, under the state law. Two of the cases were tried in justice court and the defendants were bound over to circuit court, but the juries found the defendants not guilty, and the prosecuting cases were dismissed by the prosecution.

Mr. and Mrs. Osborn Return. Former Governor and Mrs. Chase Osborn have returned to their home at the Soo, after a six months' absence. After a long stay in the East, they sailed from Philadelphia on the maiden voyage of the Northern Pacific line steamship, going through the Panama canal to San Francisco. They visited the two exhibitions and many points of interest in the Southwest.

Four Manistique Graduates. The Michiganian, the student publication at the state university, gives a list of persons eligible for graduation in June. There are four Manistique young men, James Harold and P. V. O'Hara and Hollis and Verne Harshman. The O'Hara boys graduate from the literary department, Hollis Harshman from the law college and Verne Harshman from the dental college.

Jenson Sawmill in Operation. The L. Jenson company's lumber mill at Even resumed operations Monday morning. The plant had been shut down for some time for repairs. The shipment of lumber has been fairly good of late, reports the Cleveland Press, and considerable room has been made in the yards, which were filled to capacity when the mill ceased operations.

SOO CANAL PASSAGES. Sault Ste. Marie, Mich., May 11.—[Special.]—Upbound vessels passing the canal the last twenty-four hours were Cort, Magna, 8 last night; Cherokee, Fassett, Nelson, Holland, 10:30; West-on, 11:30; Leonard, Hanna, 2 a. m.; Bunsen, Bell, 3:30; Huron City, 4; Crete, 6:30; Glenyon, 8; Assiniboia, 8:30; Princeton, Nasmyth, 1 p. m.; Winnipeg, 4:30; North Wind, 5:30; Tonic, 6:30.

According to La Razon the number of domestic animals in Argentina at the end of 1914 was as follows: Horned cattle, 25,500,000; horses, 9,700,000; mules, 5,080,000; asses, 340,000; sheep, 80,000,000; goats, 4,820,000; pigs, 3,050,000.

Buenos Aires is the largest city in the world south of the equator.

MAKE HOME YOUR HOME. THE word HOME is often robbed of all its sweet, tender significance, because of the spectres of rent days, the interest days or foreclosures, perhaps. Yet it isn't such a big step to actually owning a home. A few dollars put into the Bank regularly has enabled many persons in this community to OWN their homes. Have something to show for your labor. Regular saving and banking here will pave the way.

Stirring Pioneer Days Recalled. Buried in the old Maroff & Oberg building, which has been standing in Third street for nearly a year while a new building was under construction, are the remains of the original court house of Iron county, says the Iron River Reporter. They comprise only a disjointed skeleton of the old temple of justice, but there is enough of it to make a ghost haunt the conscience of the thieves who carried away the records one dark wintry night, more than thirty years ago, and transferred the county seat to Crystal Falls. Few residents of Iron River know that the middle section of the old store building was once the pride of the pioneers of Iron county, was pointed to as the seat of the county government and as a show place for visitors. The building was about thirty feet square, with a window on either side and a door in front. In this one room all the business of the county was transacted. One night the courthouse was broken into and all the records were carried to Crystal Falls on a sleigh. Possession being considered nine points of law, a temporary courthouse was maintained at Crystal Falls until an election was held a few years later. By casting more ballots than have ever been voted in Iron county since that

date, the courthouse was declared officially moved to Crystal Falls. The Iron River courthouse was later converted into a business house. The original has been added to and backed away until now there are only parts of the old walls, sills, studding and rafters left, but the outline of the former pride of the West side of the county is still clearly defined in the middle of the old building.

Gladstone Raises Teachers' Pay. The school board of Gladstone has authorized an increase in the pay of grade teachers for veterans, to a maximum of \$62.50 a month. The following teachers will not return: M. E. Wheatley, Leda Stollwagen, Anna Mackin, Carrie Gormsen, Irene Reiser and Hilda Swenson. New additions to the corps, with some vacancies to be filled, are Eddie Gamble, Anna Olson and Irene Baker.

Liquor Dealers Appeal to High Court. Albert Gerber and Alex Turner, saloonmen of Bruce Crossing, are bringing an action of mandamus in the circuit court to compel the members of Stannard township board to approve of the surety company bonds offered by them. The Iron Press reports their action based on a decision of the supreme court that township boards have no power to arbitrarily refuse a surety company bond, but can do so only after a bonafide inquiry into the security of the company on the ground that a bond in that particular company would not be sufficient for sale.

Resigns as Postmaster. Jerome Brown has tendered his resignation as postmaster at Matchwood and has been informed he will be relieved as soon as practicable. A civil service examination for applicants for the office will be held at Matchwood, which is in Ontonagon county, Saturday, June 12.

St. Ignace Municipal Officials. The following appointments of Mayor Wing of St. Ignace have been confirmed by the council: City attorney, Henry Hoffman; city marshal, John McLean; health officer, Dr. J. F. Darby; park custodian, Frank Mosler, Sr. The salary of the city attorney has been raised to \$300 a year.

Stambaugh Without Police Protection. The Stambaugh council has taken another slice out of the expense budget. It has voted to abolish the office of marshal. May 15 is the date set for Marshal Chard to give up his star and leave the village without police protection. As the village is deeply in debt, has no money in the treasury and no saloon license revenue coming in to tide matters over until taxes are paid, the new council started out at its first meeting to offset the deficiency in the treasury with rigid economy, says the Iron River Reporter. A pruning of expenses was made wherever there was a chance. When the question of abolishing the office of marshal came up, there was considerable discussion and the matter was held in abeyance. Later, however, when only red ink could be seen on the ledger the council voted to do without police protection.

Indian Cases Instituted Again. Soo liquor dealers face another fight under the old state law which prohibits the selling of intoxicating liquor to a person of Indian blood or descent, says the Times. The first charge was brought against Frank Hand, a bartender at the Commercial Hotel, who is accused of having sold a pint bottle of whiskey to an Indian. The complainant was Clarence T. Johnson, a government agent in the Indian service, whose home is in California. He named three witnesses besides himself to the alleged transaction. When arraigned on the charge in justice court yesterday afternoon, Hand demanded an examination, and the hearing was adjourned. It is understood that the government agent has been busy in the city for several days accumulating evidence against other liquor dealers. The first suit will be handled as a test case to determine the validity of the state law. If a conviction is secured, similar suits will follow. In this connection evidence has already been given for a second case, but the names of the parties are suppressed. The Hand sale is said to be of the nature of a "frame-up," that is, the

It's Your Privilege To Select Your Druggist As You Do Your Physician

No reliable druggist would ever question your right to choose your own physician. No reliable physician will ever question your right to choose the druggist who is to supply your drugs and fill your prescriptions.

When we ask for your drug business we do so only on the promise of giving you best drugs and best service at reasonable prices. When we compound a prescription it is certain to have the precise qualities it should have.

BARMBECK HOSPITAL UNIQUE INSTITUTION

Germans Have There All Sorts of Devices for Restoring Broken Men.

Hamburg, April 26.—(Correspondence of the Associated Press.)—Germany is patching up and mending her broken soldiers with remarkable speed at the new "Krankenhaus" in Barmbeck, a suburb of Hamburg. This great hospital, which covers several acres of ground, was completed early last fall at a cost of many millions of marks, and has a capacity of 2,000 beds. Nine hundred of them now contain soldiers.

The most interesting part of the hospital is the orthopedic institute, where the soldiers are being massaged, and bathed, and exercised back into usefulness, either on the battlefield or in private life. A heretofore unheard-of percentage does get back the use of paralyzed limbs and damaged functions.

When the bullet struck or shell wound that put the soldier out of business has healed, it leaves him disabled in almost as great a variety of ways as there are wounds, and frequently with greatly impaired ability to walk or run, or to use his hands, arms and fingers.

TESTS SHOW BLIND HAVE SIXTH SENSE

Sightless Ones' Ability to Locate or "Feel" Objects Called "Touch at a Distance."

New York, May 11.—Experiments with blind children at the New York State School for the Blind at Batavia have revealed what is almost a sixth sense, the sense of location of objects. The investigators call it "touch at a distance."

Dr. F. Park Lewis of Buffalo, chairman of the directors of the school, and Charles A. Hamilton, superintendent, have been making the tests for several months. Dr. Lewis made demonstrations Friday in Buffalo before the State Medical society, which were repeated yesterday in Batavia by Mr. Hamilton and Edward M. Van Cleave, superintendent of the institution for the blind here.

The experiments yesterday were conducted in a school campus. Two seventeen-year-old boys, totally blind, were told to locate a sort of target. They did so quite readily, becoming aware of its presence when twelve feet away. One boy "seemed" to hear it, he said; the other "just felt it." The boys were then told to throw stones at the target from a distance and they scored several hits.

NOTORIOUS INFORMER IS HELD IN ITALIAN PRISON

Rome, May 11.—(Correspondence of the Associated Press.)—The Archbishop of Milan, Cardinal Ferrari, who once a year visits the prison of that town and celebrates mass in the presence of the prisoners, found among them this year Giannino Abbatemaggio, the notorious informer in the famous trial which took place at Viterbo in 1911 of the supposed murderers of the Camorrist, Gaetano Cuccolo, and his wife at Naples in 1906.

Abbatemaggio is still serving a term of thirteen years for burglary, to which he was condemned before the Cuccolo trial began and which it is said that he is in no hurry to see finished as his former Camorrist associates have sworn to do him to death when he comes out in revenge for his having betrayed them to the authorities. George B. McClellan, the former mayor of New York, in some impressions he wrote at the time of the Cuccolo trial described Abbatemaggio as "a handsome little fellow, in appearance a traditional Italian tenor."

One of the most remarkable facts connected with the Cuccolo trial was the high level of intelligence and oratory of the Neapolitan criminals who were tried for so base a crime and among them all Abbatemaggio was perhaps the most fluent.

General Headquarters, British Army, France, April 30.—(Correspondence of the Associated Press.)—Some historian of the distant future, seeking to trace the origin of puttees as worn by the peasants of Northern France, will have to go back to the great war. Puttees have apparently come to stay among the towns and villages occupied by the British army.

BISHOP COLTON DIES, AFTER BRIEF ILLNESS

Buffalo, N. Y., May 11.—The Rt. Rev. Chas. H. Colton, bishop of the Buffalo diocese of the Roman Catholic church, died late last night, after a brief illness. He had been a member of the hierarchy since 1903. The bishop had only recently completed the erection of Buffalo's magnificent cathedral, a structure costing nearly two million dollars, and was to consecrate the edifice the latter part of this month.

Washington, May 11.—In the case of Wesley W. Gage, a wealthy New Yorker, against the Erie railroad company, the interstate commerce commission has held that a 50-trip family ticket, good for transportation for a man and members of his immediate family, does not include a well-to-do son-in-law who lives with but is not dependent upon him.

London, May 11.—All signs point to preparations by Germany for submarine warfare on a much larger scale than has previously been attempted. An Exchange Telegraph dispatch from Copenhagen states that fifteen submarines are being built at Kiel for use in the Baltic. Neutral arriving at Geneva from Pola on the Adriatic say that three German undersea boats have arrived there and are being prepared for launching. Two Zeppelins have also arrived at Pola.

Paris, May 11.—Leading Catholics have strongly urged the pope to quit Rome and take temporary refuge in Spain if Italy declares war. The pope peremptorily refused. He had been assured that his personal security will not be imperilled while the holy see will be preserved. There is danger that communications between the Vatican and Austria and Germany will suffer, but the pope thinks he would commit a tremendous political error by voluntarily going into exile.

WEALTHY NEW YORKER LOSES ON APPEAL TO INTERSTATE COMMERCE COMMISSION

Washington, May 11.—In the case of Wesley W. Gage, a wealthy New Yorker, against the Erie railroad company, the interstate commerce commission has held that a 50-trip family ticket, good for transportation for a man and members of his immediate family, does not include a well-to-do son-in-law who lives with but is not dependent upon him.

Notice of School Bond Election and Registration of School Electors. Notice is hereby given that the Board of Education of the Public Schools of the City of Marquette, State of Michigan, has duly estimated and determined it to be necessary, in order to advance the interest of public education in said school district, to immediately purchase a new schoolhouse site in some central place in said district, and to erect, furnish and equip a school building thereon; and has estimated and determined that for said purpose a sum of \$140,000 is necessary and required, and that it is necessary to raise for said purpose, and said Board proposes to raise for said purpose, the sum of \$140,000, by borrowing the same upon bonds to be issued therefor, pledging the faith and credit of said school district for the payment of the principal and interest of such bonds; said bonds to be payable on the first day of July in each year, as follows: \$5,000 in 1920, and a like sum each year for ten years thereafter; \$10,000 in 1921, and a like sum each year for three years thereafter; and \$45,000 in 1923; with interest thereon at the rate of four and one-half per cent per annum, payable semi-annually on January first and July first in each year.

Pure Food Expert Investigates Grape-Nuts

Before Grape-Nuts was included in the Pure Food Directory of the New York Globe, the publishers sent their expert, Alfred W. McCann, to get the facts about this famous cereal food—what it is made of, how it is made, and whether or not too much had been claimed for it.

The makers have always held that Grape-Nuts is a body and brain-building food; that it contains the vital mineral elements lacking in white flour, and foods made from white flour; that it digests more readily than any other prepared cereal food, etc.

McCann came to Battle Creek at the Globe's expense. He investigated—had the run of the factory—upstairs, down-stairs and all over the place.

In the N. Y. Globe April 1, 1915, he said:

"Any man who can go to Battle Creek and come away with the statement that he is not amazed is given to the habit of bearing false witness against his neighbor.

"I watched the delivery of the wheat to the Grape-Nuts bakery. It was selected wheat too. I watched the mills grind this wheat, and there was no patent flour stunt pulled off in grinding it, either. The wheat went right through the rolls and came out as honest and as unrefined as when it went in. I saw this wheat mixed with barley malt in a mixing room that is a model of cleanliness.

"Grape-Nuts is an honest, genuine, wholesome, good, fool-proof breakfast food.

"Grape-Nuts is all Post ever claimed for it. Instead of over-estimating the truth he didn't tell ten per cent of it."

There you have it! If you want to know more, write Alfred W. McCann, care N. Y. Globe, N. Y., or come to Battle Creek and see for yourself. There's no mystery about Grape-Nuts.

This wonderful food DOES build body, brain and nerve tissue. It DOES furnish the vital mineral phosphates usually lacking in the daily dietary. It is easily digestible, economical, and comes ready to eat, fresh and delicious.

"There's a Reason" for Grape-Nuts Sold by Grocers everywhere.

COFFEE FACTORY TURNS OUT ARTILLERY SHELLS

Bremen, April 24.—(Correspondence of the Associated Press.)—A coffee factory in which artillery shells as well as coffee are being made, is to be seen in Bremen and in Luebeck ammunition is manufactured in a ship-building plant and in a cannery. In fact, in practically every factory where there is the proper machinery, munitions of war are being made. Some of the plants conceal the work from the foreign press, but the Germans are quite frank about it, and let visitors see some of the unimportant processes of construction.

London, April 24.—(Correspondence of the Associated Press.)—Lord, keep us wounded men modest and open our eyes to the proper heroism of those men and women who, despite the brags show of the battlefield, sacrifice themselves day by day to the tedious tasks for which we have not the courage. It is the prayer with which a wounded soldier concluded an article in the Express, pleading for less hero worship.

NEW PENSION SCHEME IS NOW RECOMMENDED

London, April 30.—(Correspondence of the Associated Press.)—A new scheme for the administration of all pensions, grants and allowances to disabled British soldiers and sailors or their dependents, is announced in the report, by the special government committee which has been considering the subject.

The central administration of the pensions is to be in the hands of a committee of twenty-five, to be known as the "statutory committee." At least two members of the committee must be women, while two must be representatives of labor.

Fifteen members of the committee will be selected by the government, the others will be nominated by various charitable and relief fund organizations whose funds and operations will be more or less under the supervision of the new body.

One of the duties of the statutory committee is to decide questions of fact with regard to pensions for dependents other than wives and children (whose compensation is fixed by law) and to decide the scale of such payments. It is to be advised by local committees, which will be created in every county, borough and township.

The committee is to have a chairman who is a paid official. Apparently all the other members will serve without remuneration. The members will include direct representatives of the treasury, the financial department of the admiralty, and the financial department of the war office.

POPE REFUSES TO MOVE RESIDENCE TO SPAIN

Paris, May 11.—Leading Catholics have strongly urged the pope to quit Rome and take temporary refuge in Spain if Italy declares war. The pope peremptorily refused. He had been assured that his personal security will not be imperilled while the holy see will be preserved. There is danger that communications between the Vatican and Austria and Germany will suffer, but the pope thinks he would commit a tremendous political error by voluntarily going into exile.

WOUNDED MAN PRAYS FOR PUNY HEROISM

London, April 24.—(Correspondence of the Associated Press.)—Lord, keep us wounded men modest and open our eyes to the proper heroism of those men and women who, despite the brags show of the battlefield, sacrifice themselves day by day to the tedious tasks for which we have not the courage. UNCLE SAM'S FOX FARM

Probably a good many of our readers were surprised to learn that Uncle Sam had just sold twenty silver foxes at \$312 a pair for breeding purposes and wondered where he got them. It seems so out of the line of ordinary functions of governmental administration. But it appears that there are many more silver foxes in the government reservation on the Pribilof Islands, where the seals used to congregate, and Uncle Sam is devoting the time and energies of his employees there to doing a little business in furs.

The price may seem large to many, but if the foxes are of good grade it is exceedingly low. Up in Prince Edward Island they have gone mad over silver foxes in the last few years and the price has risen to \$40,000—yes

REGISTRATION OF SCHOOL ELECTORS

Notice is also hereby given, that the Board of Registration of said school district will be in session at said City Hall on Saturday, May 29th, 1915, from the hour of eight o'clock in the forenoon until eight o'clock in the afternoon, for completing the list of eligible school electors of said district, at which time and place unregistered school electors of said district will be given an opportunity to have their names entered in the proper Register of School Electors of said district.

JAMES C. W. CHIPMAN VICTIM OF PARALYSIS

Prominent Ishpeming Resident Passed Away Yesterday Morning in Marquette Hospital.

James C. W. Chipman, former chief clerk of the Oliver Iron Mining company on the Marquette range, who for the past six weeks had been a patient in St. Luke's hospital, was notified yesterday morning at 11 o'clock. His passing was not unexpected by his Ishpeming friends, who had been frequent callers at the hospital to see him, as his condition had been precarious for two or three weeks past.

Mr. Chipman, who retired from active service with the Oliver company last fall, after having served twenty-five and one-half years as chief clerk, felt as well as usual during the early months of the winter but about two months ago he began taking treatment at the hospital. He was stricken with paralysis about six weeks ago and died at the hospital yesterday morning at 5 o'clock, and the body will then be shipped on the evening train to Boston, Mr. Chipman's former home. It will be accompanied East by Thor Oren, of the Oliver chemical force.

Mr. Chipman, who was seventy-two years of age, was born and educated in the city of Boston and he resided there continuously until he came to Ishpeming in July, 1889, to succeed the late Oren E. Downing as cashier and chief clerk with the Lake Superior Iron company. Mr. Chipman was also, Mr. Downing's successor in Boston with Franklin Snow & Co., a wholesale fish concern, when the latter resigned there to come to Ishpeming to accept the cashiership of the Lake Superior company.

Mr. Chipman was a most efficient accountant. Prior to accepting the position with the Lake Superior company he had no previous experience in mining work, but he had little difficulty filling the position satisfactorily. He was a most pleasant gentleman to meet and during the years that he was cashier for the Oliver company he was respected not only with the office employees, but all of the other men with whom he had business. He was charitable in an unostentatious way and did much good. He was a book lover, and was a liberal contributor to the Carnegie public library. Mr. Chipman was also a writer and fiction contributed by him are now enjoyed by the library's patrons. He was also a very liberal contributor to the Young Men's Christian association.

Mr. Chipman is survived by one sister, who made her home with him here for several years until a few years ago, when she returned to Boston. He served as alderman from the Second ward for five consecutive years, commencing in 1895. It was the request of Mr. Chipman, made some time ago, that no flowers be sent in the event of his death. Friends are asked to comply with Mr. Chipman's wishes.

CELEBRATED ANNIVERSARY.

Mr. and Mrs. John H. Williams Were Married Twenty-Five Years Ago.

Sixty friends of Mr. and Mrs. John H. Williams, North Third street, gave them a surprise Monday evening, when they called at their home, the occasion being the twenty-fifth anniversary of their marriage in Ishpeming by Rev. J. P. Varner, who was pastor of the First Methodist Episcopal church. Mrs. Williams has been a resident here since she was two years old, having come to the city from Trojan, Norway.

Rev. Norman C. Karr, pastor of the First Methodist Episcopal church, was spokesman Monday evening. After reading the twenty-seventh psalm, he gave an interesting talk, and concluded by presenting Mr. and Mrs. Williams with a silver tea set and spoons and a silver valise, with the emblem of the Pythian Sisters set with diamonds and pearls.

Mr. and Mrs. Williams responded with appropriate words. Following the presentation, Mrs. Cecelia Gondret, evangelist for the Swedish Methodist Episcopal church, gave a talk and sang "And God Watcheth the Sparrow." Mrs. Edwards accompanying her on the piano. John, the brother, falls in love with Dora. Dora's heart has gone out to little Katie, little dreaming that it is her own child. The day of the wedding arrives. A storm breaks out at sea. The fishing schooner that Frank is on, is driven ashore and wrecked. The volunteer life savers launch the life boat. The waves are too high for them, so they run to the church as Dora and John are about to be married and call for volunteers. John does the necessary. The life boat is safely launched. Frank is rescued and brought ashore. When Mrs. St. John recognizes her son Frank, she rejoices as only a mother can. He is carried to her home and revived. Dora comes in and recognizes her former husband, Frank. The story is then told of the past. Instead of thanking God for his rescue, he becomes more abusive and jealous of John, thinking he is still trying to win Dora. He smuggles a bottle of whiskey into the house and starts to drink. As he goes out the door, an old friend of the evil days in the city turns up, Steve Stetson. Steve has become a tramp and when he sees Frank with a roll of money, he demands a part of it. Frank pretends not to know him. He wanders out to the edge of a cliff, followed by Steve. There is a struggle and Frank draws his gun. Steve manages to get his hand on the gun and as he

RURAL SCHOOLS IN EXCELLENT CONDITION

Are Given High Rating by Deputy State Superintendent of Instruction.

George N. Otwell, state superintendent of public instruction, and Albert E. Sterne, county commissioner of schools, inspected during the past week the township schools of the county for the purpose of selecting and designating the standard schools.

To arouse the spirit of improvement among the people, as well as among school officers and teachers, and to lay out a field of definite achievement, the superintendent of public instruction provides the standard school plan. A certain degree of economic environment, in comfortable and sanitary conditions and in the ability and character of the teacher is fixed upon as necessary for a proper efficiency of the school. When the requirements are met, the state gives a special mark of approval by awarding to the school a metal plate bearing the words "Standard School" and by conferring upon the school a diploma certifying to its excellence.

As a result of this inspection the department has designated the following as "standard schools":

- School No. 2, Skandia township. School No. 1, Ishpeming township. School No. 2, Humboldt township. School No. 4, Humboldt township. School No. 5, Ely township. School No. 1, Republic township. School No. 3, Republic township. School No. 1, Forsyth township. School No. 2, Forsyth township. School No. 3, Forsyth township. School No. 5, Turin township. School No. 1, Tilden township.

Mr. Otwell says that Marquette county is second in number, first in percentage, first in the percentage of points for standard schools of the eighty-three counties of Michigan, and that the county would be so ranked in the forthcoming report of the superintendent of public instruction. The fifteen plates and diplomas are to be forwarded immediately.

"AS YE SOW" TODAY.

W. A. Brady Production Today at Ishpeming Theater.

"As Ye Sow," a W. A. Brady motion picture production, in five reels, with Miss Alice Brady, the well-known star, in the leading part, will be the attraction at Ishpeming this afternoon and evening.

The story is of Mrs. St. John who lives with her two sons, Frank and John, and her daughter, Dolly, in a small town on the Cape Cod coast. John has been studying for the ministry. Many are expected to take place in the little church. Frank, the black sheep of the family, goes to New York to seek his fortune.

In New York, he gets a good position in the sales office of an automobile company. Dora Mason, petted daughter of a New York millionaire, persuades her father to buy an automobile. They go to the sales rooms where Frank is working. She is attracted to Frank immediately. When the sale is completed, she tells her father she needs a chauffeur. Frank applies for the job and is accepted by Mr. Mason. In the meantime, Frank has become mixed up with a crowd of very fast young men and changes his name.

Frank persuades Dora to run away and get married. The night that Dora leaves, her father dies of heart disease. Frank takes to drink and becomes very abusive. A little baby girl is born and Dora is wrapped up in her love for the baby. Frank becomes jealous and decides more of his time to his fast friends. Dora asserts herself and says that unless he reforms, he need not come back. In a drunken rage he threatens to kill her and the child.

The nurse has the baby out in the park. Frank comes on and steals the baby. He goes to the little Cape Cod town and leaves the baby on the doorstep of his mother's home. He runs away and ships on board a fishing schooner. When Mrs. St. John finds the little baby, she thinks it is a gift from heaven to take the place of her lost boy, Frank.

After mourning three years for her child, Dora thinks a trip to the sea shore would brighten her up and gets off at the little Cape Cod town, not knowing that it is Frank's home. There are no hotels there, and by chance she is taken in by Frank's mother as a paying guest. John, the brother, falls in love with Dora. Dora's heart has gone out to little Katie, little dreaming that it is her own child. The day of the wedding arrives. A storm breaks out at sea. The fishing schooner that Frank is on, is driven ashore and wrecked. The volunteer life savers launch the life boat. The waves are too high for them, so they run to the church as Dora and John are about to be married and call for volunteers. John does the necessary. The life boat is safely launched. Frank is rescued and brought ashore. When Mrs. St. John recognizes her son Frank, she rejoices as only a mother can. He is carried to her home and revived. Dora comes in and recognizes her former husband, Frank. The story is then told of the past. Instead of thanking God for his rescue, he becomes more abusive and jealous of John, thinking he is still trying to win Dora. He smuggles a bottle of whiskey into the house and starts to drink. As he goes out the door, an old friend of the evil days in the city turns up, Steve Stetson. Steve has become a tramp and when he sees Frank with a roll of money, he demands a part of it. Frank pretends not to know him. He wanders out to the edge of a cliff, followed by Steve. There is a struggle and Frank draws his gun. Steve manages to get his hand on the gun and as he

is turning it on Steve, they lose their balance, Frank falls over the cliff, the guns explode and kills Steve.

When Dora is told of the accident, the old Biblical quotation comes back to her, "As Ye Sow, So Shall Ye Reap."

The matinee prices will be at ten cents for adults and five for children, and this evening the charge will be fifteen cents for adults and ten for children on the first two floors, and ten for adults and five for children in the gallery.

WAR VETERANS MET.

Members of Grand Army and Women's Relief Corps Had Pleasant Session.

A pleasant social event took place Monday evening at the home of John D. West, North Fifth street, when the Women's Relief Corps met in conjunction with members of Chas. H. Towne post No. 8, Grand Army of the Republic, and a few friends. Mrs. Bailey, of Detroit, department president, and Mrs. Wills, of the Marquette corps, were present.

A program of instrumental and vocal selections was given by the Misses Minnie Cornish and Collick. Two recitations were given by Mrs. W. J. Hubbard, and short addresses were delivered by the department president, Mrs. Bailey, and Mrs. Wills.

Edward C. Anthony and John Scott talked briefly on the great work of the W. R. C. Light refreshments were served. The West home was decorated with flags, laurel, and cut flowers.

CARNEGIE LIBRARY HAD RECORD YEAR

More Than 93,000 Books Were Given Out for Home Reading in Twelve Months.

The report of the board of trustees of the Carnegie Public Library for the year ending March 27 has been filed with the city recorder and will be presented to the council at its next meeting. It includes a detailed financial statement.

The circulation the past year was 93,380 volumes and was the largest on record. The circulation for the previous year was 84,532 volumes. During the year the library purchased 1,347 books, and received eighteen books through gifts. The number of books worn out and discarded was 264.

The financial statement is as follows:

Table with Receipts and Disbursements columns. Receipts include Balance on hand, Tax levied, annual appropriation, Fines collected. Disbursements include Salaries, Fuel, Telephone, etc.

Librarian Brayton's Report. The report presented to the board of trustees by Mrs. Nellie E. Brayton, the librarian, is as follows:

Table with Circulation by Months column. Lists circulation for April through March.

RECORD OF THE PAST. No Stronger Evidence Can Be Had in Marquette.

Look well to their record. What they have done many times in years gone by is the best guarantee of future results. Anyone with a bad back, any reader suffering from urinary troubles, from kidney ills, should find comforting words in the following statement.

Mrs. Hattie Parker, 175 W. Crescent St., Marquette, says: "For several years I had headaches and pains in the small of my back. My kidneys were inactive and I lost so much strength that I couldn't get around to do my household work. I was treated by doctors, but got little relief until I began using Doan's Kidney Pills. Two or three boxes made me feel better in every way. I recommended Doan's Kidney Pills several years ago and I am willing to confirm all I then said about them. They are certainly a fine kidney medicine. Since I gave my first endorsement I have taken Doan's Kidney Pills for cold in my kidneys and they have always done me just as much good as they did at first."

Price 50c. at all dealers. Get Don't simply ask for a kidney remedy, get Doan's Kidney Pills—the same that Mrs. Parker had. Foster-Milburn Co., Props., Buffalo, N. Y.

zines to contribute are asked to telephone Mrs. W. H. Johnston, who will send a messenger for them. A meeting of the Decoration day dance committee of Zenith lodge, Knights of Pythias, will be held in the lodge rooms this evening. Eman & Swanson are painting Edwin Johnson's horse on North Third street. Mr. Johnson and his family will take possession within a few days.

The members of the Epworth league of the Salisbury Methodist church will be entertained tomorrow evening at the home of Mrs. Samuel Greenfield.

A practice for the mock trial to be given shortly by the Epworth league of the First Methodist church will be held tonight in the league rooms at the church.

Pentecost Mitchell, vice president, and George D. Swift, secretary and assistant treasurer, of the Oliver Iron Mining company, spent Monday and yesterday in the city.

Mrs. Menear, of Dionite, was surprised at her residence Monday evening by a number of friends. She will leave the latter part of this week for Laurium to make her home.

One of the Cleveland Cliffs Iron company's steam shovels, which has been working at the Lake Angeleine mine for several days, was yesterday moved to the Salsbury mine stock pile.

The funeral of the late James Rogers was held yesterday afternoon from the First Methodist Episcopal church and was largely attended. Services were conducted by Rev. N. C. Karr, the pastor.

Mrs. Emma E. Bailey, department president of the Women's Relief Corps, Detroit, and Mrs. May V. Wills, of Marquette, were Monday and Tuesday guests at the home of Peter Carlson, 140 York street.

The Lake Superior Steam Heating company has been awarded a contract to install a steam heating plant in the Jones block. Eman & Swanson have been given the roofing contract. They will start work this week.

The examination of James H. Billings, who is charged with keeping his saloon open Sunday, was started yesterday morning in Judge St. John's court. All

of the witnesses were not examined and a postponement was taken until tomorrow. The information against Mr. Billings was given by his daughter-in-law, Mrs. William Billings, to Prosecutor Kennedy and she and a girl who was formerly employed in the Billings hotel testified that his place of business was open on Sunday, April 4. The men subpoenaed as witnesses denied having been in the place on that day.

TRUE GREATNESS OF U. S.

Americans are the greatest philanthropists in history. During the last year Europe has been deluged by a tonnage of blood, but America has been flooded with gifts of gold. Europe staggering beneath its burden of hate, has fallen down on the starway of progress, but America, with a passion for human service, has made light her way by her lavish gifts of wealth and love. Wealthy Americans gave away during 1914 to educational and charitable institutions \$315,000,000—almost twice the amount given in 1913. Eighteen different Americans bequeathed sums ranging from one million to sixteen million dollars. While Europe's surplus wealth has been devoted to training and equipping men to slaughter efficiently, American millions have been devoted to feeding the poor, clothing the naked, healing the sick and enlightening the minds of men, and the largest, but one, of these gifts was bequeathed anonymously. This "aged millionaire" asked no other pleasure than the joy of giving. Emerson says, "A great man is always willing to be little."

John D. Rockefeller gave a total of \$5,902,508. His largest bequests were for the Rockefeller Institute for Medical Research and \$1,019,908 to the University of Chicago. Andrew Carnegie gave \$2,000,000 to international peace propaganda. Edwin Ginn, the Boston publisher, bequeathed another million for the same work. Francis A. Ogden, a Texan, bequeathed his entire estate valued at several millions to the education of the children in rural communities. Others bequeathed their millions to building hospitals and improving the condition of the poor. A grand total of more than \$75,000,000 was left to the colleges.

King-ridden, hate-defiled Europe is reaping the chaos and agony of war; but money-making, service-appealing America is achieving true grandeur. Carlyle was right: "Oh, it is great and there is no other greatness—make one nook of God's creation more fruitful, better, more worthy of God; to make some human heart a little wiser, manlier, happier—more blessed, less accursed.—From Leslie's."

HOW'S THIS? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. E. J. CHENEY & CO., Toledo, O. We, the undersigned, have known P. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out all obligations made by him in this respect. NATIONAL BANK OF COMMERCE, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.

Markets

MARKET AT NEW YORK REGAINS ITS STRENGTH.

New York, May 11.—The unusual excitement and weakness which characterized yesterday's stock dealings were lacking today. Prices rose buoyantly at the opening, presumably in response to the feeling of confidence inspired by President Wilson's public utterances, fell back slightly during an interim of dullness, and closed with a renewal of the strength which made the initial trading noteworthy.

Closing prices of stocks in the markets yesterday are reported by J. A. Minnear & Co., of Laurium, as follows:

CROP DAMAGE REPORTS BOOST WHEAT PRICES.

Chicago, May 11.—Alarming crop damage reports today compelled traders in wheat to disregard fears about possible consequences of the sinking of the Lusitania. After an exciting advance the market closed strong at nearly the highest level of the session, 5 1/2 to 6 1/2 cents above last night. May wheat, 157 1/2; July wheat, 132 1/2; May corn, 76; July corn, 78 1/2; May oats, 53 1/2; July oats, 63 1/2.

CHICAGO PRODUCE QUOTATIONS.

Chicago, May 11.—Butter, lower; creameries, 20@27 1/2 cents. Eggs, higher; receipts, 28,000 cases. At mark, cases included, eggs sold at 17@18 1/2 cents; ordinary firsts, 16 1/2@17 1/2; firsts, 15 1/2@16. Poultry, alive, unchanged.

LAW AGAINST BILLBOARDS.

Laws designed to preserve the beauty of the highway by preventing, as far as possible, the placing of advertising signs on buildings, trees and stones along the highways, are now in effect in Connecticut, Pennsylvania, Massachusetts and New York. The New York law, which went into effect recently, makes it a misdemeanor to place a sign on any tree, stone or structure within the limits of a highway, or on any private property without the consent of the owner. It is also provided that any sign placed in violation of this law may be removed and destroyed by anyone, without resort to legal formalities.—Popular Mechanics Magazine.

Mining News

RAY CONSOLIDATED.

The Ray Consolidated company has outstanding 1,547,729 shares, plus a small issue of bonds convertible into stocks at \$20. With all bonds converted Ray Consolidated would have 1,600,000 shares. The company this year should get its production up to 75,000,000 pounds or better, and the cost in some months should go down as low as eight cents per pound. So long as copper stays at seventeen cents Ray Consolidated can earn \$4 per share. The latter part of this month the directors of Ray, Chino and Utah Copper will meet for dividend action, and the general opinion is that Ray Consolidated dividend will be restored at the former rate of \$1.50 per share—37 1/2 cents quarterly.

ENORMOUS COPPER SALES.

It is doubtful if copper investors and those identified with the copper industry have any adequate conception of the enormous sales of copper which have been effected in this country during the past sixty days. While it is impossible to state in actual figures just what this aggregate is, the following is an important statement from one of the largest copper selling agencies in this country: "Our sales of copper in this country for twelve months last year were 89,892 tons as compared with the first four months of this year, 88,012 tons. In other words, we have done in four months over here about as much business as was done in twelve months last year." If the above figures represent long tons—and long tons only are used in calculating export business—it means that the agency referred to sold 291,358,080 pounds of copper last year; while for the first four months of

this year it has sold 197,146,880 pounds, or within a little over 4,000,000 pounds of last year's aggregate.

GRANBY CONSOLIDATED.

When the Granby Consolidated directors held their May meeting it will be with the knowledge that the company's floating debt has been cared for, leaving resumption of dividends a possible topic of discussion. The general belief is that the former quarterly rate of \$1.50 will be restored and paid in June. During the first quarter of 1915 Granby, from its two properties, produced nearly 7,000,000 pounds of copper, an amount far in excess of any previous records. Neither smelter was worked to capacity in that period; in fact, Grand Forks operations were just resuming at the beginning of the year while the Hidden Creek plant was running alternately one and two furnaces, as conditions permitted. Granby has had no difficulty in laying down copper in New York from its new smelter at Ansox for eight cents a pound. With three furnaces in continuous blast and a fourth held in reserve, that cost is expected to be materially lowered. The saving of copper from dust will be an important factor in this direction, while the use of the Panama canal from the Pacific to New York, effecting a saving in freight, will also be a factor in lowering costs.

MILITARY AUTHORITY.

Let us now see what happens when two or more countries go to war. First, every belligerent must notify each of its enemies, if it has not already done so, of the names of the societies that are authorized to render assistance in the official medical service of its armies. The Red Cross is the chief, in some instances the only one, of these societies. When this notification has been given, the personnel (nurses, surgeons, litter-bearers, etc.) and equipment of the Red Cross enter the field subject to military laws and regulations; that is, the Red Cross forces take orders from the military authorities. Insofar as the conditions of modern warfare permit, they must be respected and protected by the enemy. If one of their number is accidentally shot in long-range fighting, this is looked upon as a matter that cannot be helped. But if they fall into the hands of the enemy, they are not to be regarded as prisoners of war; in such a case, they may be compelled to continue in the exercise of their functions under the enemy's direction. While they remain in his power, he must grant them the same pay and allowances granted to persons of the same grade in his own army. When their assistance is no longer indispensable he must send them back to their own army or country in such manner as military necessity dictates, and he must permit them to take with them their private property. The protection due them from the enemy ceases if they commit acts injurious to him. They may, however, arm themselves and use arms in self-defense.—Review of Reviews.

ATHLETES GUESTS AT SCHOOL BANQUET

Football and Basketball Players and School Officials Were Entertained.

The members of 1914-15 high school basketball and football teams, Superintendent Orr Schurtz, Principal Miller and Coach Smith were the guests of honor at a banquet given last evening in the domestic science department of the high school. The occasion was the presentation of high school athletic letters to members of the basketball team. Those who played in two or more games were honored.

Mr. Smith presided as toastmaster and made the presentation. The body of the letter is blue and it is shaded with maize. Although last season's basketball team won a small percentage of the games played, it gave a good account of itself, as it was composed mostly of inexperienced players.

A program of toasts and speeches was given while the banquet was in progress, after which there was a round table conference. The members of the teams present were: Basketball team—Frank Willman, William Collins, William Hawke, Jonas Fredrickson, Everett Doyle, Duncan Simu and Tom Collins.

Football team—Lenart Villberg, John Stark, Henry Liquin, Louis Marotti, John Niemi, Earl Flannery, Morgan Quinn, Jay Smith, Henry Nelson, S. Corbium and B. Nelson.

The toasts were as follows: "The Team"—William Collins. "Athletics at the Boys' Conference"—Lenart Villberg. "Football in the Far North"—William Hawke.

"Necessity of a Second Team"—Morgan Quinn. "Athletic Control"—Mr. Schurtz. "Clean Athletics"—Mr. Miller. Presentation of Letters—Coach Smith.

The menu, which was prepared by Miss Doyle, supervisor of the domestic science department, served by the girls and was as follows: Cream of Tomato Soup, Croutons, Baked Ham, Escalloped Potatoes, Corn, Succotash, Parker House Rolls, Raisins, Fruit Salad, Water, Reservere Pudding, Angel Food Cake, Chocolate Nut Cake, Sponge Cake, Cream, Coffee, Sugar.

FIRE AT BRAMPTON. Fire, which started about 2 o'clock Sunday morning, destroyed a store and residence building owned by W. D. Sumnerfield, postmaster at Brampton. The building, which was one of the largest at Brampton, and its contents were a total loss, and Mr. Sumnerfield and family had to escape in their night clothing. It is not known how the fire was started.

LOCAL LACONICS. John Moffatt has received a five passenger Ford automobile. Jacob Dorf, of Marquette, spent yesterday here on business. W. D. King has gone to Spruce to spend a few days fishing. T. H. Harris is spending a few days on business in the copper country. R. S. Archibald has gone to Ironwood, to spend a few days on business. Peter Kremer, of Marquette, was a business caller in the city yesterday. Charles H. Webb, of Houghton, was in the city yesterday on a short business visit.

Mr. and Mrs. H. C. Wagner and daughter, Ann, are spending a week visiting at Chicago. Jack Fahay has returned from Rapid River, where he spent a few days visiting with his parents. Samuel Hear, of Virginia, Minn., who spent several days here on business, has gone to Crystal Falls. John B. Perenchio has returned from Calumet, where he spent a few days visiting with relatives and friends. Captain and Mrs. Perkins have returned to their home at Dorote, after spending a few days here visiting with relatives. Mr. and Mrs. Julius Johnson departed last evening for Rochester, Minn., where Mrs. Johnson will consult with Dr. Mayo. The funeral of the late Fred Beaulieu was held yesterday from St. Paul's Catholic church and was largely attended. Sep. Nelson, who has been employed for the past several months in an iron mine at Loyal Mountain, N. Y., has returned to the city. The Misses Goldie Harris and Mildred Andrus will leave tomorrow for Winona, where they will spend a week visiting with the former's sister, Mrs. J. H. Cox. Hilmer Leaf has accepted a position as stenographer in the First National bank, succeeding the late Fred Beaulieu. Mr. Leaf is a graduate of Ferris Institute at Big Rapids. Residents of Lathrop have commenced raising money for the erection of a Catholic church at that place. At a dancing party given Saturday evening \$30 was taken in for the fund. George Feigel, agent for the Upper Peninsula Brewing company, yesterday moved his family to Negaunee from Marquette. Mr. Feigel will occupy the brewing company's residence on Gold street. Mrs. Fred McComber and daughter, Blanche, of Hibbing, Minn., are visiting relatives for a few days. They were here to attend the funeral of Mrs. McComber's nephew, the late Charles Wasmuth, which was held yesterday. Clark Kirkpatrick, H. W. Read and C. C. Patterson, of Escanaba, and D. H. Hoops, of Chicago, general agent for the Chicago & Northwestern Railway company, were in the city yesterday. The party made the trip from Escanaba in

Mr. Kirkpatrick's Peerless touring car. They reported very heavy roads between here and Escanaba.

The Lathrop baseball team defeated the Trombley team by a score of 25 to 4 in a game played on the latter's grounds Sunday afternoon. The Calloun brothers were the battery for Lathrop and Bailey, Lusardi and Hill were the Trombley battery.

A Hearst-Selig news picture, showing the first pictures of the earthquake in Italy and a Zeppelin raid on Yarmouth, England, will be the feature of the program at the Star theater today. "The Regenerating Love," a three reel Lubin drama, and "Patsy at College," a Lubin comedy, will be the other pictures shown.

Andrew Lindquist, the contractor, has commenced building a garage for Charles Johnson at the rear of his house on Main street. Mr. Johnson has received the Oakland touring car which he recently purchased from J. J. Wentala. Mr. Lindquist has also started work repairing William Quinn's residence on Case street.

Fans, do you remember Cy Young? Not Cyrus "The Great," but humble Cy who shortstopped for Marquette by the Marquette and Delta County league flourish. By giving the Kansas City American association line-up the once over, you occasionally find brother Cy. While the Kaws were in Milwaukee Cy happened to break into the box score and Manning Vaughn, who shoots a few squibs for the Milwaukee Sentinel, blabs: "The Kansas City club has a youngster named Young in its line-up. We'll present a part of second-hand spark plugs to anyone guessing his nickname."—Escanaba Press.

WOMEN OF HOLLAND WORKING WITH WILL

Social Betterment Program Is Continued as Belgian Refugees Are Sheltered and Fed.

The Hague, Netherlands, April 30.—(Correspondence of the Associated Press.)—The immense drains made by the refugees from Belgium on the goodheartedness of Dutch women have by no means exhausted their efforts for the betterment of social conditions in their own country. The strain of Belgian relief work has undoubtedly been very great, and still is especially heavy upon the wives and daughters of the Netherlands. Holland was totally unprepared for any such emergency as the arrival over night within her borders of more than a million destitute neighbors. It was the women of the Netherlands who had to find immediate accommodations until the relief work could be systematically organized. They did it magnificently and without a whimper. Thousands of homes in Holland still shelter refugees, notwithstanding the general provisions which have been made for the unfortunate Belgians. One house in The Hague alone, has afforded asylum to over one hundred Belgians for nine months.

In addition to this work of pressing necessity, the women of Holland are carrying on their suffrage campaign, are knitting and sewing for their own soldiers and their families, and are keeping up such work of social improvement as the schools of household arts and the schools for working women, which exist in many of the larger cities. In the former, young ladies of the better families of the Netherlands are taught the care of children, teaching, cooking and whatever else may be necessary or useful in the formation of a model wife and an efficient mother. These schools are, of course, paying organizations.

The schools for working women in Amsterdam, Rotterdam and The Hague, however, are in the nature of charities. Here the daughters of the people are taught to be independent or aid to their families. They are trained as housemaids, cooks, sempstresses, laundresses and nurse maids. If they are able they pay a small tuition fee; if not, they are received just the same, and no one but the treasurer knows who has paid and who has not. The schools are provided with babies for the nurses to practice on, and even with older children, who serve as the raw material for kindergarten instruction.

In the school for working women in Rotterdam last year 109 girls were turned away on account of lack of accommodation for them. This year the number has been less, since the general condition of hard times has forced many families to send their girls to work earlier than usual; also the absence of many men mobilized to guard the neutrality of Holland has greatly increased the demand for working women. The annual report of the Rotterdam school for working women, which has just been issued to cover the year 1914, shows that the tuition fees received in this school amounted in that year to

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove it

Dr. Edwards' Olive Tablets, the substitute for castor oil derived from Dr. Edwards' Olive Tablets, get at the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them. Dr. Edwards' Olive Tablets act gently on the bowels, and by stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous cathartics do without any of the bad after-effects. All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or disagreeable effects of any kind. Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath. Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil, you will know them by their olive color. Take one or two every night for a week and note the effect. Live and let live. The Olive Tablet Company, Columbus, O.

what the Y. M. C. A. does for the needy men students. If a Columbia housewife wants someone to look after the children while she goes out for an evening, the first place to which she is likely to turn is this bureau. A telephone call will bring a university girl with her books, prepared to study for the next day's lessons if her duties of the evening will permit. For this service the girl is paid twenty cents an hour. Some girls have found regular employment in the homes of faculty members and are not dependent on the calls to the bureau. The bureau constantly has requests for young women to do all sorts of tasks about the house. A versatile girl earning her way may, in the course of a term, care for children, serve formal dinners and do general housework, sewing and darning. For sewing twenty-five cents an hour is paid. Some make their way by stenographic work and some by tutoring. Stenography usually brings twenty-five cents an hour and tutoring fifty cents.

Miss Helen Triplett is a part-time stenographer in a university office. She finds time, she says, for study, work and play. She carries a full course in the university. Miss Myrtle Wright pays her own way by stenography and tutoring. "Last year my expenses were about \$200," she says. "That would be a good deal to save while teaching school. I know, because I taught school for several years, beginning at \$30 and working up to \$80. "I do not think that a girl need lose any of the social life of the university in working her way through. I never enjoyed myself more in my life than during the year and a half I have been in Columbia."

French scientists have found the spectroscopic a valuable and speedy instrument for analyzing mineral waters.

HOW TO FEED 20,000 IS PROBLEM IN HAMBURG.

Hamburg, April 30.—(Correspondence of the Associated Press.)—How to feed some 20,000 persons, direct or indirect sufferers of the war, quickly, cheaply and nourishingly, is a problem for the solution of which Hamburg has its women largely to thank. As month has succeeded month, the kitchens in Hamburg have increased in number to forty-five, scattered in every part of the city, located in schools, factories, turner halls and other buildings. In each one, from one hundred to eight hundred persons are fed at least once each day. In a majority of cases the kitchens have been managed by volunteer women and girls. The price per meal is fifteen pennings (a little less than four cents), and so carefully has the whole work been systematized that this sum exactly meets the cost. Any one who is unable to pay this amount can get the meal with a ticket that is obtainable from charitable sources. Funds that set the "war kitchen" underway and maintain it and its associated features are supplied partly by the government, part by the state and city of Hamburg, and partly by private subscription. The menu at each meal in all the forty-five kitchens is exactly the same and served at the same time. Each meal takes on the character of a goulash or stew, popular in Hamburg under the name of "Cooked Together." In addition to these forty-five institutions, which in the main are intended to feed adults, there are countless smaller kitchens where light children's meals are prepared for pupils, and domestic schools of the state of Hamburg feed 16,000 children daily. The meals of course are the acme of plainness, and are served in huge, steaming bowls. An Associated Press correspondent visiting Hamburg joined a somewhat motley throng of war sufferers—wives and widows of soldiers and men too old to go to the front, and found the meal palatable and nourishing—and the service excellent.

CONFERENCE ON DELIVERY PLAN

Grocers and Butchers Met Last Night with Flanigan Bros., Who Propose Installing a Centralized System—Proposition Made by Firm Received With Approval.

Twenty Merchants Are Needed to Put the Plan in Operation Here—Thirteen Have Attached Their Signatures to the Compact and Other Signatures Are Assured.

The conference at the city hall last night between grocers and meat dealers of the city and Flanigan Bros., who propose to install a central delivery system, was productive of a mutual understanding. Flanigan Bros. made clear just what they contemplate and the merchants explained what they desire in the way of efficient service.

The outcome of the meeting was the agreement of thirteen dealers to adopt the plan of Flanigan Bros. provided a total of twenty enter into the compact. Every merchant present appeared cognizant of the advantages offered by the central delivery system. All were favorably impressed with Flanigan Bros.' proposition. It was figured that a saving of at least 20 per cent. could be effected.

Those who provisionally agreed to adopt the proposed service are: John Siegel, Frank LaBonte, Estate of David Murray, represented by James Flanigan, Clifford Dagenais, Charles Dorais, Napoleon Bernard, John Lammi, Russell Morin, J. Q. Lewis & Co., John Carlson, Fasshender & Pearce, Charles J. Anderson, E. E. Bracher.

Proposition Presented.

The proposition made by Flanigan Bros. was conceded to be fair and reasonable. Among other things, the firm agrees to buy the delivery equipment of the merchants. The horses will be utilized by Flanigan Bros., and the wagons will be sold. Larger wagons are required in the central delivery service. The prices to be allowed each merchant for his equipment will be determined at a conference, the allowance in each case to be held to his credit for delivery service. Thus, no merchant will be required to make any money payment for a period of several months.

In estimating the average cost of delivery for each single horse and wagon at from \$30 to \$50 a month, Flanigan Bros. have placed the figure conservatively. It was on this basis that they estimated each merchant could net a saving of 20 per cent. For dealers whose service costs them more than the estimate, the saving would be proportionately greater.

There are twelve merchants who have not signed for the central delivery service. However as some of these have expressed themselves in favor of the proposition, it appears wholly probable the desired twenty names will be obtained.

CLASS ACTIVITIES TODAY.

Seniors and Juniors of High School Will Clash at Longyear Field.

The annual clash rush of the seniors and juniors of the Marquette High school will take place at Longyear field this afternoon and tonight. It will be supervised by E. D. Cushman, instructor of physical training.

The first event will be held at 4:30 o'clock. The windup is set for 9 o'clock. As planned now, a tug-of-war between the members of the two classes will be the opening event, followed by a pole rush. A neutral period of forty minutes will later be allowed for refreshments. During the early part of the evening there will be contests between the members of the opposing classes, the final clash to take place between 8 and 9 o'clock tonight. The large pole, which the seniors must carry across the juniors' line, was furnished by General Manager K. S. Baker, of the Michigan State Telephone company.

Baseball is now receiving attention at the high school. The team is practicing under Mr. Cushman's direction. Games with outside organizations will be played the next few weeks.

All shoe repairing is guaranteed at the Shoe Hospital, 425-1st City Hall.

WEDDED IN IRON MOUNTAIN.

Miss Josephine Paquette Married to Ed Gauthier, of That City.

The Iron Mountain Tribune-Gazette of Monday published the following: "Miss Josephine Paquette, of Marquette, and Ed Gauthier, of this city, were married at 7 o'clock this morning at St. Joseph's church Rev. Father LaForest. Miss Eva Monrograin, of this city, was bridesmaid. The bridegroom was attended by his brother, Fred. The wedding was a quiet one. Mr. and Mrs. Gauthier left this morning on a honeymoon trip to Milwaukee, Minneapolis and other cities. They will make their home in Republic where Mr. Gauthier is employed by the C. M. & St. Paul as operator. The bridegroom was born and reared in Iron Mountain. He has many friends who wish he and his bride a happy wedded life."

BOATS TO START.

Cleveland-Cliffs Steamers to Start Schedule on May 15.

Although there has been no official announcement of the fact, it is understood that the vessels of the Cleveland-Cliffs fleet that were not put in commission on May 1 will leave Lake Erie May 15 for Lake Superior. But three of the iron company's boats are now sailing—the Andaste, Frontenac and Pontiac. There are nine other vessels of the fleet. The greater number of the boats will carry coal to this port. All will load ore.

MOTOR POLICEMAN MAKES A CAPTURE

Lands Runaway Back in County Jail—"Sib" Larson Is Again in Trouble.

It is not every day that the county's motor policeman, Ed Trombley, is called upon to run down a prisoner who has escaped from the county's custody, but such was the duty imposed on him Saturday when Ed Kuttilla, of Negaunee, sentenced to thirty days for drunken and disorderly conduct, struck out from the court house grounds, where he was working, and started up the Marquette-Negaunee road.

Kuttilla's absence was noticed by Under-Sheriff Bennett but a minute or two after he had left and he telephoned Mr. Trombley, who was last week appointed a deputy sheriff, instructing him to pick the man up on the road west of the city. Trombley came upon Kuttilla near the brewery location, and ordered him to turn back. Kuttilla didn't welcome the order, but when Trombley made a play to draw a gun he became tractable, and climbed onto the rear seat of Trombley's motorcycle. He then had a fast ride back to jail.

"Sib" Larson in Trouble.

"Sib" Larson, of Ishpeming, overtime ball player, and an adept at getting into scrapes and out of them with seeming little difficulty, has added another chapter to his record of misdeeds. Brought before Judge Perry Monday night for forging a check for \$5, cashed by the Wear-U-Well store on North Third street, he pleaded guilty, and was sent to the county jail. Yesterday a friend in Ishpeming paid over the \$50 necessary to obtain his release.

Larson was arrested in Negaunee Monday afternoon by Marshal McIntosh and brought here on the evening train. Mr. McIntosh has in his possession a number of other checks, said to have been passed by Larson and subsequently found to be worthless, which must be taken up if Larson is to continue to enjoy freedom. Larson has promised to make them good, the officers say.

Theatrical

The Delft. A Vitaphone Broadway Star feature, "From Headquarters," in three acts, presenting Earle Williams and Anita Stewart, will feature the program at the Delft theater today. The other picture to be exhibited will be "She Would Be a Cowboy," a Kalem comedy. Opera House.

The fourth episode of the Universal serial, "The Black Box," entitled "An Old Gem," will be one of the pictures to be presented at the Marquette Opera House today. The program will include "A Maid by Proxy," a Nestor comedy. The Clipper trio, comedy and harmony singers, will make their last appearance. "What Happened to Jones," a World Film corporation production, with Fred Mace, Josie Sadler and Mary Charleson, will be shown tomorrow, and "The Conqueror," a Paramount picture, on Friday. John Emerson, is featured in this latter picture.

KNIGHTS TEMPLAR HERE ON JUNE 7

900 to 1,000 Visitors from Lower Peninsula Will Visit Marquette for Two Hours.

Officers of Lake Superior commandery, No. 30, Knights Templar, have been notified that on June 7, Marquette will be visited for two hours by 900 to 1,000 knights and their families from the lower part of the state, who will be on their way to Houghton to attend the state meeting of the commanderies. The party will arrive on two steamers, and the time of their visit will be spent in seeing the city and Presque Isle. Owing to the large number of persons in the party, the Marquette commandery has sent word that they will provide entertainment only for the women and children, who will make up about forty per cent of the party. Automobile rides will be arranged for them.

Detroit commandery, No. 1, the best drilled in the state, and Damascus commandery, also of Detroit, will give an exhibition here.

The band of Abused patrol will play on the streets during the hours of the party's visit. This band has rapidly come to front as a musical organization. Organized less than a year ago, it has already attained a high degree of excellence. The concert given last week at Lakeside park was heard with much appreciation, and was remarked upon most favorably. The organization is directed by George Hayden, of Ishpeming, and the greater number of the players are from Ishpeming and Negaunee.

SCHOOLS TO RECEIVE MORE PRIMARY MONEY

This Year's Rate Will Be \$7.40 Per Capita, as Compared With \$7.10 a Year Ago.

The Marquette schools will this year receive approximately \$1,000 more in primary money than they did a year ago, on the basis of the same number of persons of school age, for both years. As the school population is slightly larger the amount of primary money will be still further increased.

Figures compiled this week by Superintendent of Public Instruction, F. L. Keeler show that \$26,434 school children will figure in the apportionment, which this year will be at the rate of \$7.40 per capita, or perhaps more. Last year Marquette had 3,398 persons of school age, that is between five to twenty years. The rate per capita last year was \$7.10.

On the basis of the same number of persons Marquette will this year receive \$25,452.25 as compared with \$24,125.80 a year ago. Superintendent Keeler says that there has been an increase of 10,887 children since the last year. According to a report of the state treasurer, there was \$6,148,595.50 in the primary school fund on April 30. This is an increase of more than \$1,000,000 compared with a year ago. The gain is due to the fact that the Pere Marquette and the Ann Arbor railroads were behind in their taxes when the last apportionment was made, and they have since paid up.

URGES ORGANIZATION OF ASSOCIATIONS

C. W. Waid, Potato Expert, Is Working in the Peninsula for Better Tubers.

C. W. Waid, secretary of the Michigan State Potato association, who has been working in the upper peninsula of late, urges the formation of local associations wherever there is sufficient interest to insure their success. "A dozen men each of whom grow several acres of potatoes is enough to form a nucleus for an association," he says.

"The secretary will assist in the formation of local associations when requested to do so. W. E. Raven of Marquette, or J. W. Weston, of Escanaba, will be directly available for farmers in the upper peninsula and will assist in forming local associations when requested to do so.

"The objects of the members this year are: "First, to standardize varieties, that is, select one early variety and one late, and grow no others. Success or failure depends upon doing this. The market demand is for potatoes which are uniform in size, shape and color. The first step, therefore, is to get communities to plant one variety.

"Second, seed treatment, the members of the associations should treat their seed with formalin, or corrosive sublimate, especially for scab and black rot or rhizoctonia.

"Third, all members of local potato associations, as well as national and state associations, will receive a copy of the potato supplements, six issued annually. The first copy will be sent out May 1. Sample copies can be secured of the Market Growers' Journal Co., Louisville, Kentucky for twenty-five cents.

"Fourth, field inspection—in order this year to assist in the development of better seed potatoes, the association will arrange to inspect one fourth acre of potatoes of each farm owned by a member of a local association. All diseased hills will be removed and when possible, the best hills will be sorted out and saved at digging time. The growers must make special request of their local secretary, state secretary or county agriculturist if they wish this work done. These requests will be filed as received and in the order received. If we secure more than can be taken care of, those which are received first will be given first consideration.

"The one fourth acre plot can be planted in the regular field of potatoes, a piece with 10 rows 650 inches apart and 435 ft. long, or eight rows, three feet apart, 435 feet long will make this one fourth acre plot.

"If the grower wishes to try out two varieties to decide which is best, it might be well to plant the two varieties in such a way that part of the plot will come on one side and the rest on the other side.

"Last of all, do not go into this work unless you have a desire to do so. We are not trying to urge you into doing something that you are not interested in.

"Two standard late varieties are the rural types, 61 Sir Walter Raleigh, Rural New Yorkers, Russell Rurals, and Carmon No. 3 and the Green Mountain types (State of Maine Vermont, Gold Coin and Uncle Sam.)

"Two standard early varieties are the Irish Cobblers and the Early Ohio."

XTRAGOOD

Buyers of XTRAGOOD Clothes for Boys

quickly realize their great style, good looks and the utmost service in wearing.

We invite an early call to old and new customers to come in and look over our new stock of Boys' Clothing.

The Blouse for Manly Boys Boys' K-S Tapeless Blouses

can't be improved in style, quality and workmanship. No string to tie or hang loose around the waist—and after wearing one the boy wants no other make.

A splendid assortment to choose from.
