

VILLA'S FEAR IS U. S. MIGHT TRY TO FORGE PEACE

Decision to Ask General Carranza for Conference on President Wilson's Warning Was Result of Apprehension America Would Intervene, It Is Explained

Dr. Gomez, Cabinet Minister Under De La Barra, Urges Zapata, With Other Two Leaders, to Unite in Forming Government—Hundreds Starving in Capital.

El Paso, Tex., June 7.—General Francisco Villa has decided to ask General Venustiano Carranza to agree to a neutral territory for a conference to consider the suggestions contained in President Wilson's note, according to a telegram received here tonight from the private secretary to Villa.

General Villa ordered his secretary to come from Chihuahua to Aguan Calientes to draft the note to Carranza.

Colonel Ruiz's statement relates that Villa decided to invite Carranza to agree to a truce to prevent further sacrifices on the republic which might produce intervention, and that when General Villa, in keeping with this suggestion, ordered his troops to retire, General Obregon started in pursuit, bringing on a battle in the station of Leon.

San Antonio, Tex., June 7.—Dr. F. Vasquez Gomez, prominent for many years in the life of Mexico, announced tonight that he had telegraphed an appeal to General Carranza, Villa and Zapata, urging them to cease fighting and send delegates to a peace conference which might compose the differences between their factions.

Thirteen Gutierrez Men Executed. Brownsville, Tex., June 7.—Three Mexican generals and ten other Mexicans connected previously with the army of General Eulalio Gutierrez have been executed by Indians composing part of the Carranza army under General E. P. Nafarrate, according to Carranza advices made public in Matamoros tonight.

Carranza officers said the party was being sent by Gutierrez to the United States with a million and a half pesos, which was to be used in organizing another revolution in Mexico. They were captured last week, it was said, and promptly executed.

Hundreds of Children Starving. San Antonio, Tex., June 7.—Streets of Mexico City are filled with wailing beggars for food and the death rate is averaging five hundred a day, many of them children who die from hunger, it was said in a letter received today by a relative here from S. Jamison Swearing, for fifteen years a merchant in the capital. The letter says: "At night the streets go to the doleful cry of the children who plead for food, and when morning comes their little bodies are stiff. Ambulances are removing their bodies by the hundreds every day."

SAYS IT IS HARMING SUFFRAGISTS' CAUSE Mrs. McCormick Condemns Woman's Congressional Union in Address at Chicago.

Chicago, June 7.—The existence of two national organizations working for women's suffrage has developed a conflict within the cause, according to Mrs. Stanley McCormick of New York, who criticized adversely the suffrage organization known as the Congressional Union in an address at the mid-year conference of suffrage leaders in this city today.

For the first time since 1889 there are two national organizations working for suffrage. One is the National American Woman Suffrage association, organized for state work in all of the non-suffrage states and for federal work in forty-one out of the forty-eight states. The second, made up of a comparatively small group of women, is known as the Congressional Union. This new association proposes to organize within the states, in spite of the already existing state organizations, not to obtain suffrage within the states but merely to bring pressure to bear on congress for the passage of the Anthony amendment.

Illinois Supreme Court Republican Once More. Chicago, June 7.—Republicans gained a majority in the supreme court of the state in today's election, returning their sitting judges and electing Warren W. Duncanson of Marion, from the First district. The election of William M. Farmer, Democrat, of Vandalia, was conceded. Three Republicans, Orrin N. Carter, Chicago, Seventh district, Frank K. Dunn, Third district, and James H. Cartwright, Sixth district, were re-elected. The election ended the Democratic majority of the court which came last February for the first time in years when Governor Dunne appointed Watson to fill the vacancy caused by the death of Alton C. Vickers of the First district.

HUGE ZEPPELIN FALLS TO EARTH A BLAZING MASS

Young Canadian in Aeroplane Attacks Dirigible a Mile in Air, His Bombs Turning Machine to a Roaring Torch—Crew of 28 Perish as It Plunges to Destruction.

Sighting Gas Bag 6,000 Feet Up, Amateur Aviator Gives Chase, Skilfully Soars to High Level and Wrecks Raider—First Success of Kind Known to World.

London, June 7, 8:37 p. m.—For the first time on record a Zeppelin in the air has been destroyed by an aviator in an aeroplane.

Worshipful Warford, a young Canadian sub-lieutenant in the royal navy, who mastered the aeroplane only this summer, performed the feat, and tonight is somewhere within the British lines, while the Zeppelin lies in ruins, sprawled on the roof and ground of an orphanage near Ghent, emitting a blazing mass, after being struck by the young aviator's bombs. His crew of twenty-eight men were killed. Several occupants of the orphanage building also perished.

The theory is advanced that this Zeppelin was the craft which raided the east coast of England last night. The fact that it was in the air over Belgium between Ghent and Brussels at 3 o'clock in the morning leads to the belief that it was returning from an expedition, not starting. In this raid five persons were killed and forty injured.

Incendiary Bombs Pierce Gas Bag. Dawn breaks early these days and the huge Zeppelin could be sighted far off. It is presumed that the craft was headed for Ghent, where Warford came winging swiftly under the gray skies. The Zeppelin, which was flying comparatively low, began to mount at once, but the British wasp, faster and more agile, was in long spirals, reaching a position over the German's right bank. From this point of vantage, Warford pierced the Zeppelin's shell repeatedly with his incendiary bombs.

Without parallel in this war, or any other, is the story which the young aviator will have to relate, for the details of his exploit hang together like the fragments of a puzzle. First came the long pursuit, according to the admiralty report, the aeroplane was six thousand feet up. To reach this altitude would require nearly twenty minutes and the Zeppelin, meantime, could drive forward approximately fifteen miles. Then, followed the maneuvering for position and, finally, the dropping of the bombs, from which the dirigible tried vainly to escape. Minor explosions occurred, and, at last, one of terrific force and the Zeppelin burst into flames.

Shock Capsizes Plane. At that moment Warford must have been at close range over the dirigible, for almost simultaneously with the outburst, his machine turned completely over and for a moment he hung head down with his monoplane, all control of which had been lost, pitching and tossing in the swirl currents of air, which rushed up to fill the vacuum created by the downward plunge of the blazing gas bag.

Then, by a desperate effort, Warford righted his machine far above the earth and planned to a landing behind the German lines. He alighted unhurt, set his propeller going again and flew off to the west.

Whether the Zeppelin's machine guns or rifles were turned on the aviator is not disclosed, but in order to obtain such an advantageous position, the British lieutenant must have handled his machine skilfully, for this is an extremely difficult feat. Although the target the Zeppelin presents is extensive it can be lifted by its own buoyancy to a great height, while the pursuing aeroplane has to rise in spirals by the power of its engine alone.

Zeppelin Crew Perished in Flames. Some of the reports say that the non-combatant victims were two nuns and two orphaned and that others were injured, but a Reuter dispatch received tonight says two nuns and two children were killed and many others injured. All versions agree that the Zeppelin's crew perished and this seems certain as the great craft was struck while more than a mile in the air and must have been a roaring torch before it struck the earth.

British aviators also dropped bombs on an airship shed north of Brussels. According to the official announcement the shed burst into flames, apparently indicating that a Zeppelin was inside.

A wireless dispatch from Berlin gave, in an official announcement, the location of the pieces attached in the Zeppelin raid of last Friday night. It is stated the fortified mouth of the Humber and the naval port of Harwich, both on the east coast of England, were visited, and that many bombs were dropped, causing considerable damage.

Frenchman Aided Warford. London, June 8, 2:19 a. m.—The Daily Telegraph's Rotterdam correspondent gives the following additional details of the destruction of the Zeppelin airship near Ghent: "Sub-lieutenant Warford was assisted in his attack on the Zeppelin by a French aeroplane. The aeroplane pursued the Zeppelin a long distance, harassing it with rifle fire while the German craft replied with rifles and machine guns.

GERMAN FORCES BATTERING WAY TOGET LEMBERG

Teutonic Troops Which Swept Through Stry Continue Drive Farther Eastward Threatening Galician Capital—Duplicate Tactics Used to Capture Przemysl.

Russian Military Authorities Look for Heavy Fighting at Mosteisk, Where a Determined Stand Will Be Made—Both Sides in the West Suffer Great Losses.

London, June 7, 11 p. m.—If the Germans have transferred troops from the east to the west, as reported, they have held sufficient men on the eastern front to continue, without relaxation, the offensive which has carried them and the Austrians almost across Galicia.

The forces which pinched Przemysl into surrender are battering their way eastward, and, according to both the German and Austrian official communications, are, at one point in the southeast, hardly more than sixty miles from the Russian frontier. The troops, which swept through Stry, have continued farther east until they are thirty miles beyond that town and Lemberg, the position of which appears precarious.

Further north they are eighteen miles to the east of Przemysl. So that, roughly speaking, the encircling movement on Lemberg is duplicating that at Przemysl. The Germans also are on the offensive in the Baltic provinces. The official statement records the crossing of the river Windau to the southwest of Libau.

Russians to Stand at Mosteisk. A Petrograd dispatch received in London tonight says: "Telegrams from Riga report the Germans active to the north, northeast and east of Libau. The military authorities expect heavy fighting at Mosteisk, where the Russians will make a determined stand."

The Teutonic allies took seven thousand prisoners, thirty-one cannon and thirty machine guns when they entered Przemysl, says a Berlin dispatch. Hard fighting and heavy losses for both sides, notably to the north of Arzavitsa, where the French seem determined to nibble their way forward, continue in the west, but the contests are hardly more than trench warfare, contrasted with the fighting in Galicia.

Violent engagements are in progress in the western zone near the town of Xenoville St. Vast, to the north of the Aisne, and on several other sectors, with gains of positions and trenches by the allied forces, according to the announcement of the French war office.

To the north of the Aisne two thousand Germans have been killed in an endeavor to retake from the French two lines of trenches which were captured Sunday. In addition two hundred and fifty prisoners and six machine guns were taken while many other machine guns were found on the ruins. Heavy casualties were suffered by the Germans, according to Paris, southeast of Hebuterne. Progress also is reported for the allies between Soissons and Rheims and in Champagne. The French reports mention the use by their troops of a flaming liquid, which was sprayed on the German trenches "by way of reprisals."

German-Slav Ships in Battle. Although no official accounts have been received of the recent fighting in the Baltic sea between Russian and German warships, a Petrograd dispatch indicates that it came as a result of a German attempt to land troops along the Gulf of Riga. It is reported several German transport and one large vessel were sunk and that the Russians lost an auxiliary.

The French mine layer Casablanca was sunk by a mine in the Aegean sea, with a probable loss of about sixty men, German submarines sank the British steamers Star of West and Sunlight, and the trawler Arctic in home waters. Five members of the Arctic's crew were rescued, but four lost their lives by the shell fire of the underwater boat. According to an official announcement from Berlin the Russian mine layer Amor was sunk in the Baltic by a German submarine.

Says Dead Choked River. London, June 8, 3:59 a. m.—The fiercest fighting of the war, as far as the Baltic provinces of Russia are concerned, occurred a few days ago in a battle for the mastery of the Dvina river, according to the Post's Petrograd correspondent. The river changed hands five times in one day and at nightfall the stream was completely choked with the bodies of thousands of dead, so that a plank roadway for artillery was laid by the victorious Russians across a solid bridge of bodies, the correspondent says.

Constantinople in Dire Straits. Paris, June 8, 1:04 a. m.—All information reaching here from Constantinople says the Havas agency's correspondent at Athens, "agrees in representing the situation in the city as at most desperate. The Young Turks are in dire straits. They are only being upheld by the assistance and ceaseless efforts of the German ambassador and Eyver Pasha, the war minister.

The media supplies in the city have been exhausted and lack of coal has forced many flour mills and the waterworks which supply the city with drinking water to shut down."

SERBS NEARING SCUTARI; ALBANIAN DON'T RESIST. London, June 8, 3:25 a. m.—The Serbians invading central Albania have occupied Katsielluma and are now two days' march from Scutari," says the Morning Post's Berne correspondent. "The Albanians are not resisting."

WAR CRAFT WILL COST \$16,000,000 OR MORE

Huge Battleship Arizona to Be Launched at New York Navy Yard June 19.

Washington, June 7.—The thirty-ninth battleship built for the American navy since 1892 will take the water June 19, next, when the superdreadnought Arizona slips from the ways at the New York Navy yard. Compared to the first American battleship, the Indiana, launched in 1893, the Arizona will be nearly twice as long, half again as wide and of three times as great displacement. Against the Indiana's four 13-inch guns and eight 8-inch, the Arizona will carry twelve 14-inch and twenty-two 5-inch rifles, the same armament as her sister ship, the Pennsylvania, recently launched at Newport News.

In addition to the great size of the new ship's main battery, the guns are of forty-five caliber as against the 35 caliber of the Indiana's thirteen-inch guns, identical with those aboard the same old Oregon, which played their part in the battle of Santiago. For the fourteen of the Arizona in her turret, the Oregon could have halted any one of the fleeing Spanish ships almost without leaving her station. The Arizona's guns have a range over at the low elevation of American navy mounting, of fifteen miles or more against eight or nine miles for the old thirteens.

The Arizona will be the fourth battleship built by the United States in its own navy yard at New York. The others were the Connecticut, dreadnought Florida and the superdreadnought New York, at present one of the largest, swiftest and most powerful of American fighting craft. Against the New York's displacement of 27,000 tons, however, the Arizona will displace 31,400 tons, and will measure 400 feet in length and 97 feet 5 inches in width. She will mount twelve 14-inch guns to the ten 14s carried by the Texas and they will be carried three to a turret as aboard the Pennsylvania.

Directly upon the launching of the Arizona the level of the navy department's greatest experiment in naval construction, the electrically driven superdreadnought California, will be laid at the New York yard. She will be nearly a thousand tons heavier than the Arizona although carrying the same equipment and arrangement of guns, but is expected to develop greater speed than the twenty-one knots desired of the Arizona.

Comparing the most recent government-built battleship to the first turned out, navy officials point to the fact that although the Arizona has twelve guns to the Connecticut's ten and displaces 15,400 tons more water, being nearly twice as large, she will carry only 915 men as against the 1,012 needed to handle the smaller ship. This is due to the improvement in mechanical appliances for battleships in the last decade and also to the fact that oil has been substituted for coal as fuel, decreasing the necessary irremovable force, and that only two sizes of guns compose her armament against the four sizes aboard the Connecticut. The result is a reduction in ammunition handling forces, and also the fact that oil has been substituted for coal as fuel, decreasing the necessary irremovable force, and that only two sizes of guns compose her armament against the four sizes aboard the Connecticut.

The Arizona will be sponsored by Miss Esther Ross of Preston, Arizona, nominated by Governor Hunt of Arizona. As she looks in the water immediately after the launching, the ship will have cost the government \$7,425,000. An even greater sum will go for her guns and armor and other equipment and when she goes into commission her cost to the country will have reached the huge total of \$16,000,000 or more. This cost represents a reduction of nearly \$500,000 in guns and armor, according to the navy department, under the prices paid for the Pennsylvania's offensive and defensive equipment. It was in dealing with contracts for the Arizona's armor that Secretary Daniels demanded competitive bidding and succeeded in effecting the saving.

SAYS BRITISH SOLDIER THREW BOMBS, HURLED AT HIM, BACK AT ENEMY. London, June 7, 7:07 p. m.—The exploit of a British soldier who lay in the crater made by a shell and hurled back at the Germans bombs which they tossed into the excavation to kill him is related in a dispatch from the front under date of June 4, from the official observer attached to the British army, as given out in London tonight.

"After having got into a German trench and finding he was the only survivor of his party he managed to crawl deep in a shell crater nearby," the observer says. "The Germans knew where he was, but could not shoot him from approaching. They therefore, contented themselves with throwing hand grenades into the crater. All day long this British soldier remained in the hole with a few yards of the enemy, picking up and hurling back bombs with which he was pelted. At night he managed to crawl safely back to our lines."

KING CONSTANTINE REPORTED IMPROVING. London, June 8, 1:45 a. m.—In a dispatch from Athens dated Monday Reuter's correspondent says concerning the condition of King Constantine: "A bulletin issued at 8 o'clock this morning says that the king's wound appears to be slightly better, but that the monarch passed a disturbed night and had little sleep. Repeated attacks of vomiting prevented the king from retaining nourishment. The general condition, however, has been relatively good. At noon today the patient's temperature was 99.9."

BUDDHISTS IN CEYLON RISE AGAINST MOSLEMS; MURDER AND ROB MANY. London, June 7, 8 p. m.—A riotous outbreak in Ceylon by Buddhists against the Moslems, in which numerous Moslem shops were looted and many murders occurred, is told in an official communication made public here tonight. The statement says: "The disorder is due to a sudden outbreak of racial and commercial animosity and is not directed against the European population or the colonial government. Much Moslem merchandise has been destroyed. There have been numerous murders and several bridges were shot. The best telegrams state that the situation is in hand and improving."

WEATHER FORECAST. Washington, June 7.—The following is the weather bureau's forecast for Upper Michigan: Fair Tuesday; Wednesday partly cloudy, warmer.

TEN MORE COUNTIES IN MINNESOTA MAY ENTER THE DRY LIST. St. Paul, June 7.—Early returns tonight from the twelve counties which voted on the saloon question under the popular option today indicated that perhaps ten counties would enter the "dry" list. There are 121 saloons in the twelve counties. In Blue Earth and Todd counties, where vigorous campaigns have been in progress for several weeks, the results were not expected to be known today tonight. Both factions are confident of victory.

GERMAN ARMED STEAMER DESTROYED BY BRITISH. London, June 7, 9 p. m.—The German armed steamer, German von Wisemann, has been destroyed near Spinix haven, according to a statement given out this evening by the British official press bureau. The statement says the vessel was destroyed by the shell fire of a British naval force. The steamer had been lying in Lake Nyassa, South-east Africa, since last August.

Spinixhaven is in German territory on the eastern shore of Lake Nyassa.

GERMAN BELEEF MEDIATION WILL PUT END TO WAR

Von Ghell Geldemeester, Son of Religious Adviser to Queen of Holland, After Interview With High Berlin Officials, Says Neutral Pressure Might Bring Peace

Acting With Knowledge, but Not Authority, of Germany, He Tells on a Visit to Washington, of the Strong Sentiment Favoring the Cessation of Hostilities.

Washington, June 7.—Von Ghell Geldemeester, son of the religious adviser to Queen Wilhelmina, of Holland, has, by a brief visit to Washington, after conferences in Berlin with high German officials, set in motion much speculation here about the possibility of peace in Europe.

Mr. Geldemeester, it became known today, saw Dr. von Jagow, the German foreign secretary, and other members of the imperial ministry shortly after the Lusitania was sunk and received certain impressions concerning the German attitude toward the war and the ultimate making of peace.

With the knowledge, though not with the authority, of the German officials, he started for Washington in the hope that informally he could portray German feeling in German quarters. On his arrival last week he visited Count von Bernstorff, the German ambassador. The latter, learning that Mr. Geldemeester had been in Berlin and had been at the German foreign office, gave his visitor a letter of introduction setting these facts forth.

The ambassador asked the Associated Press tonight to emphasize that Mr. Geldemeester carried no credentials from Germany and had absolutely no official connection with that government. Mr. Geldemeester left Washington Saturday without seeing any prominent officials of the American government. He started on a trip to New York, Chicago and other cities with the idea of convincing the editors of German-American newspapers of the help they can render in promoting better and more friendly relations between Germany and the United States.

While in Washington the visitor from the Netherlands gave the impression to those with whom he talked that there was a peace party of some importance in Great Britain, as well as in Germany, and that what was most needed at present was a continued pressure by the neutrals for mediation. He intimated to some of his friends that he feared his own country—Holland—might even be drawn into the conflict if it continued, but believed that efforts by neutrals to mediate, if begun now, would be successful.

Most significant of the impressions which Mr. Geldemeester brought from Berlin, it was said today, was that a larger section of the populace and an important element in the German government itself were not in sympathy with the extreme militarists and believe a discussion of peace terms not undesirable.

Just how far Mr. Geldemeester may have been encouraged in Berlin to present his views to the people in the United States is not definitely known.

In allied quarters here any talk of peace emanating from Germany is looked upon with circumspection and doubt.

Not War of Conquest. Amsterdam, via London, June 8, 4:15 a. m.—The Cologne correspondent of the Tyl says a report is current that Austria and Germany will shortly announce their conditions of peace in which emphasis will be given to the declaration that the German allies are not engaged in a war of conquest, but seek only to insure the security of their territories.

RUSSIA IS CALLING ON EVERY AVAILABLE MAN TO MAKE AMMUNITION. London, June 8, 3:25 a. m.—The Times' Petrograd correspondent describes how the Russian authorities are organizing every possible industry for the production of munitions, running factories day and night with three shifts of men and engaging every available specialist, in addition to all students of the technical colleges.

The need of explosives, the correspondent adds, is pictured in an account by the correspondent: "The Navy Vremya of the operations at Raldyn, where he says, within twenty-four hours the Germans fired 700,000 shells.

"The wave of high explosives," the correspondent is quoted as saying, swamped our trenches, broke among the divisional staff and reserves, and even among the remote transport columns. The curtain of bursting shells rendered the enemy's trenches invisible and it became impossible to bring up teams to remove our guns."

WASHINGTON, June 7.—The following is the weather bureau's forecast for Upper Michigan: Fair Tuesday; Wednesday partly cloudy, warmer.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

TUESDAY, JUNE 8, 1915.

TAXES.

The mines are meeting with some success in securing revision downward of their valuations. They have impressed the tax commission by their arguments and have been assured that they will be given due consideration.

But this process of reduction of mine values cannot long go on without a certain injustice being worked out for the holders of general property in the mining regions, unless they, also, are granted corresponding reductions.

General property in this city is assessed at particularly lofty figures. The greater part of it is on the roll at 100 per cent. Some of it is actually assessed at more than that it can be bought for.

The Mining Journal believes that it is one of the city commission should take cognizance of without delay. It believes that even now a strong case could be made for a general reduction of Marquette assessments, a case that would likely lead to material reductions in the present top-lofty assessments.

PEACE? NOT YET.

The Kaiser is said to be ready to talk peace. No doubt he would be willing enough, if the allies were equally ready. If he could talk peace at this juncture, and effect peace, it would have to be brought about on terms most advantageous to him.

There will be ready approval for the action of the administration in revoking the passports of the two Americans in Germany who have gone out of their way to criticize President Wilson's course in the German negotiations.

Announcement is made by the Soo News that the proprietors of that newspaper, George A. Osborn and Chase S. Osborn, Jr., have purchased the Fresno, Cal., Evening Herald, and that the personal connection of the latter with the Soo News will be terminated.

There is a general tendency among amateur critics of naval affairs to try to influence the decisions of the experts in the United States navy in respect to the way in which the sea forces of the country shall be developed.

For one thing they are mostly of the opinion that the submarine has proved itself superior to the battleship. They argue that the big fighting machines have been rendered obsolete by the underwater craft and it is folly to spend money for ships that cannot keep the sea against the little submarines.

man commerce. They have not been strong enough to set free any part of Germany's merchant marine. They have not changed the conditions which cut German ports off from intercourse with the rest of the world, except in the mine-guarded Baltic sea.

And the German submarines have not been able to stop the constant movement of great numbers of British army transports carrying soldiers to and from France. They have not prevented the shipment of arms, ammunition and supplies of all kinds for the British army in the field in France and Flanders.

Watch your roadster close. The auto thief is approaching.

EDITORIAL OPINION

Can it Be All a Dream? The latest story about the Ford Motor company reads more like one of Schererzade's fairy tales to her blood-thirsty Sultan. Scholarly than like a prosaic statement of modern business.

And all this has grown up before the sight of those who have lived in the city of Detroit a mere dozen years or so. What former romance of quick fortune rivals it? No other business ever came to such dimensions before in twice, or five times, the period of its duration—if, indeed, any other business in the records of the world has at any time come to the prodigious luxuriance of the Ford concern. It is a dream, surely; we shall be waking up in one of these days and returning to the humdrum routine of life with a sigh for the wonderful things we have gazed upon in our sleep.

Sixty million dollars is the measure of the accumulated assets. Twenty-seven million dollars is in the banks in

An Investment in Promptness

In the quick closing of long-range business, Western Union Day Letters or Night Letters pay large profits on their cost.

THE WESTERN UNION TELEGRAPH CO.

NEW YORK NEW ORLEANS

The balanced accounts show a surplus of nearly fifty million dollars. What incomprehensible sums they are! And twelve years ago not a dollar of it all existed; nothing but an idea, perhaps even it then still unborn.

One hears sometimes a saying, common enough among certain classes of people, that "all wealth is created by labor." It has just enough truth to be glittering. How much of the Ford wealth was created by labor? The labor would have been there, there or somewhere, in the United States or Europe, if Henry Ford had never lived, and it would have been applied to occupation of some kind, but it would not have accumulated these millions of money and property. It takes more than toil to produce capital. The fertile mind of some one to invent, the executive genius of some one to direct, these and other ingredients enter into the creation of wealth, and without them labor would today be housed in caves and its most intelligent application would be the chasing of animals for food.—Detroit Free Press.

Low Ebb for Russian Arms. No letter evidence of the vigor of German arms can be presented than the capture of Przemysl, Austria's chief fortress in Galicia. Surrendered on March 22 to the Russians after a six month's siege, the invaders were able to hold this strong position for only seven days. In the meantime the Russian army made their great drive to the summit of the Carpathians, were repulsed, outflanked and forced half way across Galicia. Przemysl was the key-stone of the defense of the once-conquered province and the czar's men may now be forced to yield Lemberg and the other Galician cities.

The present weakness of the Russians is due chiefly to shortage of ammunition. Przemysl's garrison could not man its guns. The prophesy made by the German's early in the war that Russia would be helpless after the initial supplies of ammunition were exhausted are being borne out. This is low ebb for Russian arms.

Archangel, Russia's sole European port not under blockade, has just been declared open to commerce. Consequently her winter purchases of ammunition may be made in great quantities. In amount and value these are enormous and their receipt is sure to stiffen the Russian resistance. However, two months must elapse before these supplies reach the firing line. Unless allied operations in the west and south drive Germany to transfer troops in large numbers from one frontier to the other her troops may be able to occupy Lemberg, Warsaw, and Riga in short order. Their recent drive places them within striking distance of those important Baltic cities, and once the Russian line is broken in Galicia it will be comparatively simple matter to complete the circle around Warsaw.

The Polish capital is the grand objective of German strategy. The danger of Slav invasion of Hungary is now eliminated. Consequently if men can be spared for the job the fate of Warsaw may be decided before the Russians recover from the present demoralization. Mackensen's operations so far show the greatest generalship of the war, an exploit far more complicated and creditable than Von Hindenburg's defeat of the Tenth Russian Army.

Whether the former general staff can put through its plans for the seizure of Poland depends less upon the handi-capped Russians than upon their well equipped allies. A general attack all along the line in France would force Germany to transfer so many of her veterans that offensive action in the east must wait. That attack, already a month overdue, does not materialize. The allies feel out certain positions, gain a little here, lose a little there;

Simplified spelling is not the only qualification of the successful stenographer, if we may believe the Cleveland Plain Dealer.

"What did you learn at the school?" the boss asked the fair young applicant for the stenographer's job.

"I learned," she replied, "that spelling is essential to a stenographer."

"Good. Now let me hear you spell essential."

"The fair girl hesitated for the fraction of a second."

"There are three ways," she replied. "Which do you prefer?"

"And she got the job."

Why He Was Hypocritical. A man with a purple face entered one of those public houses where tea, coffee or cocoa can be obtained as easily as beer, and after a casual glance at the stranger at the window seat, ordered a pint of tea.

"But bring it in a beer jug, Sam," he said, confidentially to the landlord. "I dare'n't risk bein' seen drinkin' tea."

"That was too much for the stranger's curiosity."

No Gallantry There.

Representative Martin B. Madden, in an address in favor of woman suffrage, said in Washington:

"It seems to me that the men who oppose the suffrage are selfish. They want to have the best of everything without paying for it. They remind me of the clerk."

"A clerk and a lawyer were on the way downtown on the trolley the other morning, when the lawyer looked up from his paper and said:

"My, that's a pretty girl over there in the corner."

"The clerk looked up from his paper in his turn. Then he smiled. 'I know her well.'"

"Holy smoke, man," said the lawyer, "if you know her, why don't you go and sit with her?"

"I will," the clerk answered, "as soon as she pays her fare."

Would Know Him in Heaven. "Sir Thomas Lipton," said a Chicago tea broker, "has turned his yacht Enrica into a hospital ship and gone off in her to the aid of Serbia."

"Maybe this philanthropy will secure the recognition of Sir Thomas in London society. I doubt it, though. English society is so exclusive."

"Sir Thomas once told me a story about his native aristocracy. He said a good old city knight had died, a millionaire pork dealer, who had tried for thirty years to work his way into society by means of philanthropy, but in vain."

"After the old knight's death a countess whose estate had adjoined the knight's in the country, sighed and said: 'Poor dear old Sir Samuel! And so he's dead, eh? He was very good to all my local charities. He was so vulgar, poor boy, I couldn't know him in London, but we shall meet in heaven.'—Washington Star.

LOWER STATE NOTES

BATTLE CREEK—Michigan wets and dries will watch with interest the trial of N. A. Smith, secretary and treasurer of the Furniture City Brewing company of Grand Rapids, for alleged violation of the local option law, as the same circumstances prevail elsewhere in dry territory. Smith's arrest followed that of Sam Rifkin, a Russian, who took orders for Grand Rapids beer and peddled it with his own wagon to his customers. Smith has been bound over to circuit court.

SAGINAW—John K. Kline, managing editor of the Daily News, and Andrew B. Turnbull, former advertising manager and for the last two years advertising manager of the United States Graphic company, have purchased the Green Bay (Wis.) Free Press. They will take possession June 15. The Free Press will be independent. Mr. Kline has been managing editor since State Insurance Commissioner John T. Winslow sold out his interests with the late Eugene M. Sweeney, five years ago.

FLINT—When Nelson C. Welchbach, of Sandusky, O., faced his cloping wife at the boarding house where she was rooming here as the wife of Chester Chadwell, of Erie, Pa., she threw her arms about Chadwell's neck and said she preferred her affinity to his husband. As a result both the woman and Chadwell were arrested on a statutory charge, and both waived examination. They were sent to jail. Welchbach is the proprietor of a restaurant in Sandusky. He formerly lived in Erie, O., where he employed Chadwell as a cook. When he sold the place he understood that Chadwell was to remain with the new owners. On May 25 he saw Chadwell on the street in Sandusky and when he went home that night his wife was gone, leaving their two-year-old son, "Wee-wee" behind.

The little boy pulled the string tight and smiled up at her. "My mother's fat, too," he explained.

The Clever Clerk. William Dean Howells, at a dinner in Boston, said of modern American letters:

"The average popular novel shows, on the novelist's part, an ignorance of his trade which reminds me of a New England clerk. In a New England village I entered the main street department store one afternoon and said to the clerk at the book counter:

"Let me have, please, the Letters of Charles Lamb."

"Postoffice," right across the street, Mr. Lamb," said the clerk, with a polite, brisk smile.

She Won Out. Simplified spelling is not the only qualification of the successful stenographer, if we may believe the Cleveland Plain Dealer.

"What did you learn at the school?" the boss asked the fair young applicant for the stenographer's job.

"I learned," she replied, "that spelling is essential to a stenographer."

Classified Want Directory

LOST—Team of bay mares wearing halters. Finder please notify George Phillips, Rumely, Mich. 6-7-14.

WANTED—Competent maid for general housework. Good wages will be paid to right party. Apply 421 N. Front St. Phone 867-3. 6-7-15

WANTED—Elderly lady to keep house with two little girls. 118 Fisher St. Call mornings. 6-3-15

WANTED—A woman cook. Gwinn Hotel, 65-25-14

WANTED—Scrap brass. Lake Shore Engine Works, Marquette, Mich. 6-5-15

WANTED—A competent servant. Apply 225 E. Ridge street. 6-5-15

FOR RENT—Six room house, electric lights, heat, 130 W. Hewitt Ave. W. S. Hill, Nestor block. 6-5-15

TO RENT—Two apartments on the second floor of the Coles block, corner Third and Blue streets. The corner apartment has one very large room and two small ones, nicely decorated for lodge purposes, but would be very desirable for business use. Marquette County Savings Bank, of Charles T. Geill. 8-4-15

FOR SALE—Cottage on Middle Island point; also 19-foot launch. C. A. Shelton. 6-8-15

FOR SALE—Fine parlor organ; cheap. A. Espel, 135 Bluff St. 4-14-15

OR SALE—At once, beautiful walnut sideboard and a book case. Mrs. A. E. Taylor, 140 W. Hewitt avenue. 6-3-15

Copper Country

SHIP WITH TEMPLARS MEETS WITH MISHAPS

Strandings Delay South American—Ball Opening the Conclave Postponed Till Tonight.

The copper country is for this week the host of the Michigan grand commandery, Knights Templar, the occasion being the fifty-ninth annual convocation of the state organization. The conclave is held in this district in deference to Right Eminent Sir Gordon B. Campbell, grand commander, of Calumet, and it is held in the copper country, not alone in either Houghton or Calumet.

In this respect the conclave is unique. It is held on a wider stage than ever before, in more picturesque surroundings, in circumstances in every way unusual, and these considerations have impelled as large an attendance as ever was seen at a conclave, in spite of the fact that the scene is so far removed from the asylums of the great majority of the commanderies.

It probably did not require a conclave in the copper country to convince the Knights Templar that Michigan is a big state, geographically; but they know the fact better in a physical sense. It is a long trip that most of these knights and ladies have made to do honor to the copper country, and the copper country appreciates and will do its utmost to show the visitors that though miles separate their homes and the copper country the latter is very close through the things that go to make up the ideals the Templar knight-hood represents.

The Knights Templar are an order of chivalry of historic lineage. Each Templar is, in fact, a sentimentalist for which he is ready to unshackle his sword, the badge of his knight-hood, a cavalier "sans peur et sans reproche," a modern Bayard. Such are the men the copper country welcomes today and hopes to entertain right royally throughout the week. It should be the duty of every copper country resident to prove to these gallant knights and their ladies that the copper country is a castle wherein dwells true knight-hood, even though all in it have not received the accolade of the Templar.

Summary of the Program.

Today—Portage Lake Day: Parade through Hancock and Houghton at 9 a. m.

Demonstration at Michigan College of Mines by students and Bureau of Mines rescue car.

Business session of grand commandery at Masonic temple, Houghton.

Sightseeing tour of the district.

Grand ball at the Calumet Colosseum.

Wednesday—Calumet Day: Special trains from Houghton and Hancock at 9 a. m.

Parade through Calumet district.

Exhibition drills by commanderies, afternoon.

Evening band concert by Calumet & Hecla band.

Thursday will be sightseeing day: 8 a. m.—Boats for Hubbard and

Hubbard.

9 a. m.—Grand commandery officers and ladies leave on special automobile tour.

Dinner will be served aboard the steamer North American and South American.

1:00 p. m.—Automobiles leave Lake Linden for Keweenaw county tour.

5:30 p. m.—Boats leave Lake Linden returning to Houghton.

8:30 p. m.—Moving picture exhibition showing views of many mining activities throughout the world, Kerredge theater, Hancock.

Midnight Thursday—The steamer with the visiting knights and ladies leave for home.

One Big Steamer Delated.

Only one of the two big steamers chartered by the lower peninsula commanderies had arrived last evening. This is the North American. The vessel was given a noisy greeting by the whistles all along Portage lake. The big steamer docked at Houghton. The other chartered ship, the South American, met with mishaps in the St. Mary's river and will not reach Houghton until this morning. Because of this fact the grand ball at the Colosseum, which was to have been held last night, was postponed until this evening. The ball will be one of the big features of the opening day. It will be attended by thousands of Masons and their ladies from the four copper country counties and from the state at large. What with the elaborate decorations, the resplendent uniforms of the Templars, the music of the Calumet & Hecla band, it will be a noteworthy event. The Templars coming by boat will live aboard the North American and the South American. They will return to Houghton tonight from the Colosseum in special trains.

The mishaps to the North American's sister ship are described in a Sanit St. Marie special dispatch to The Mining Journal: "The steamer South American, having on board four hundred Knights Templar on their way to the annual convocation, which is being held in the copper country, experienced two groundings in the trip through St. Mary's river in a dense fog early this (Monday) morning. The vessel ran ashore at Nine-Mile point, below the Soo. At daylight she was released by the tug Schenck, with little trouble. After backing up the canal and while proceeding toward Lake Superior, the South American grounded on the Muddy Ground near Round Island. The tug Schenck and Sabin succeeded in releasing her after several hours, and she proceeded. The weather has been rainy for the past eight hours, with a high northwest wind blowing.

A Few Personal Matters.

Mr. and Mrs. B. F. Moore of Duluth, former Houghton residents, are here for the conclave and visiting Houghton friends.

C. M. Gooding and C. M. York, marine inspectors, of Marquette, are here on business and to take in the conclave.

Mr. and Mrs. B. W. Hicks of Vulcan, accompanied by Miss Susie Kearns and E. Copeland of Miss, are visitors for the conclave.

"Bob" Hudson, the young Napoleon of the Chippewa county bar, who held the circuit judgeship for a while, arrived with the Soo commandery last night. He is past commander of the commandery and his law partner, A. J. B. Hudson, is the present commander, which shows how they keep things in the firm.

Eminent Sir Harry T. Emerson of Menominee, grand standard bearer of the grand commandery, arrived in Houghton yesterday morning. All other members of the grand commandery, excepting Grand Commander Campbell, who lives in Calumet, arrived in the steamer last night.

Ahmed (Shrine) Temple band of Marquette and the advance delegation of Marquette Templars arrived in Houghton last night on the South Shore. The Esconima full delegation arrived at the same time. "The other upper peninsula commanderies, with the exception of the Soo, which came by steamer, are expected early this morning by rail.

The members of Palestine and Montrose commanderies and their ladies have received a distinguished lodger. The knights are instructed to wear them and the ladies are requested to, as they will help visitors to identify the copper country members. The lodge wearers are ready to place themselves at the disposal of visitors for information and entertainment at all times during the conclave.

Cheboygan Commandery Arrives.

The first delegation to arrive in the copper country for the conclave was that of the Cheboygan commandery, No. 50. The delegation is six feet, one inch tall and wears an imposing dragon mustache that should look well above the impressive Templar uniform in the parades today and tomorrow.

The Cheboygan commandery, for this occasion, consists of Dr. William Gifford Rice, who is the commander of his commandery. Dr. Rice made the trip early because of the opportunity to travel on Sunday. He arrived Sunday night and is at the Douglas House, which will be headquarters for the Cheboygan delegation.

The doctor says that this is an awkward time of year for the Cheboygan Templars, most of whom are lumbermen and unable to get away from business. But this is only a handicap as far as numbers are concerned, as Dr. Rice probably will know more people in the aggregate by the time the conclave is over than will the entire membership of the largest delegation in the district.

MOTORED FROM IRON COUNTRY.

Mr. and Mrs. H. K. Myers of Vulcan and G. A. Goodrich of Iron Mountain spent Sunday in Houghton. They motored to the copper country and made the return trip yesterday in the same way. They report the roads in reasonably good condition.

HEARING IN BANKRUPTCY COURT.

Referee R. T. Loney has notified the creditors of the bankrupt Hamel estate of Gladstone that there will be a hearing in his office in Houghton next Monday of a petition to sell Utah lands and stock.

Visit California's Expositions

via Northern Pacific Ry.

Low fares daily—liberal stopovers. Daily transcontinental trains over the Scenic Highway through some of Earth's grandest and most inspiring scenery to Spokane and North Pacific Coast cities or along the Picturesque Columbia River. Connections with steamship lines at these points. Great Northern Pacific S. S. Co. at Astoria or "Siesta Rail Route" to San Francisco. Choice of routes returning.

Stop at Yellowstone National Park

America's only Geysers and Nature's own world's Exposition. See the strange phenomena and unequalled beauty of Wonderland, enter via Gardner Gateway, reached only by the Northern Pacific Ry. Ask about Personally Recor'd Tour to and through the Park during the season.

Send at once for free travel literature and information including home-own excursion folders and let us assist you in planning your 1915 vacation. It will be a pleasure.

PORTAGE CANAL TRAFFIC.

Official Data Show Gain in Business Over May a Year Ago.

The commerce of Portage lake during the month of May reflects the revival of good business in the copper country, according to the monthly statistical report issued yesterday by Superintendent George H. Banks.

For the purposes of comparison, the following major items are taken from the report for May, 1914:

Total vessels	142
Total tonnage	193,172
Soft coal, westbound, tons	93,027
Copper, westbound, tons	860
Total cargo, westbound	173,130
Total copper, eastbound	4,950
Total cargo, eastbound	58,890

May Report, 1915.

The following is the report for May, 1915:

Bound Down	No.	Net tons.
Steam	45	77,114
Tow barges	43	12,292
Totals	58	89,406
Bound Up	No.	Net tons.
Steam	84	191,436
Tow barges	16	20,329
Totals	100	211,765
Total number of vessels	158	
Total tonnage	301,171	

Statement of freight and passengers carried:

Bound Down		
Copper, tons	18,423	
Flour, bbls.	387,830	
Wheat, bush.	339,180

SAVOY FATALITY INQUIRY.

Inquest Is Postponed—Fire Marshall Dewey Addresses Audience.

As reported yesterday, the inquest into the death of Bernard Ohman, burned in the Savoy (Hancock) theater last Thursday evening, was postponed by coroner Finney until June 13. The postponement is to give authorities time to complete the investigation, opened last Saturday. A large number of witnesses will testify. Sheriff Cruse, prosecuting attorney Galbreath and Deputy Fire Marshall Dewey are in charge.

Deputy Fire Marshall Dewey Sunday night delivered three short addresses to three audiences at the Orpheum theater, Hancock. This theater has a big Sunday night business, and from the time the theater is filled for the first exhibition the lobby is crowded until the third performance opens. The state law provides that theaters must keep their exits clear, and when Mr. Dewey, happening to pass the Orpheum Sunday night, saw the condition there, he volunteered to Manager Noonan to talk to the audiences. Mr. Dewey told the people that they must not block lobbies, that they must stand in aisles and in the rear of the auditorium. "I do not want to arrest the manager of this theater," he said, "but if his patrons persist in maintaining the condition I saw in the lobby tonight I will have to do so."

Speaking yesterday of his investigation since the Savoy fatality, Mr. Dewey said that the theater managers of the copper country are obeying the law.

NATURALIZATION HEARING.

Judge O'Brien held yesterday as naturalization day in the circuit court at Houghton and, with the assistance of Examiner Block, admitted fifty new citizens. The judge will open court at

Eagle River, Keweenaw county, today. There are four strike cases pending on the criminal calendar in that county.

OLD FATHER AWAITS SON.

Aged Houghton Man Has Not Been Told Boy Was Killed in Battle.

This is one case where a newspaperman does not know just what to do. Houghton is some thousands of miles from the European conflict, but it is none the less interested and the very distance makes the participation of a Houghton soldier all the more interesting to Houghton newspaper readers. Here is the story:

A young man living in Houghton up to a year or so ago was in Canada during the war broke out and with the impetuosity of youth he enlisted. His ancestry, if not his nativity, impelled him to this course. He wrote home glowing accounts of his hope for adventure, confident that his star would see him through its safety.

The young man's father is old. The old man took pleasure in his son's letters from Canada and from England up to a few months ago. Then the letters stopped coming and the old man began to wonder why. He is anxiously awaiting news of his boy. His other sons and daughters could give him no news, but it would be sad news, because his son was killed in his first engagement on French soil.

The soldier died in April '09, the most desperate sort of English arms in the war. The family suffer to see the old father in his mental anguish through the son's apparent neglect to write. But they are convinced that the truth would kill him.

That's why a newspaper story is being covered up.

ADOPTS COPPER COUNTRY IDEA.

Williamsport, Pa., Will Have a Credit Bureau Like the One Here.

The merchants of Williamsport, Pa., have adopted the plan of the Copper Credit Bureau and will at once organize a similar bureau with an initial membership of two hundred. This report of his visit was made by Secretary E. L. Price, of the Copper Country Bureau, on his arrival home from Williamsport yesterday morning.

Mr. Price was invited by the Williamsport chamber of commerce to visit that city and explain to the merchants the system in vogue here. It was adopted at once, the system is an excellent one in essentials from that of other credit bureaus, but it is peculiar in that it is conducted by an organization of merchants and not by a private concern. This plan gives the merchants greater satisfaction, as through it they do not delegate the handling of accounts to disinterested persons. Mr. Price remained in Williamsport three days to get the bureau started toward organization.

Mr. Price, who is also secretary of the Copper Country Commercial club, which is a chamber of commerce, is interested in investigating the results attained by the similar organization in Williamsport. He finds that this is a town with anthracite and bituminous coal fields, as well as oil fields, adjoining, occupying an "ideal location" for manufacturing. The chamber of commerce is backed by a half million dollars guaranty fund.

"In spite of these conditions Williamsport has not procured a new industry in two years," said the secretary, "so the apparent non-success of the Copper Country Commercial club is not peculiar to this organization."

FINNISH TEMPERANCE LEAGUE.

Annual Convention to Take Place at South Range Next Week.

The committee in general charge of the arrangements for the annual convention of the Finnish temperance societies of the copper country, which is to take place at South Range the latter part of next week, has completed the tentative program. The meeting opens Friday, June 18, and closes on Sunday. The last day will be a general roundup of the societies, following two days of business meetings by delegates, and one thousand people are expected to be present at South Range park for an all-day picnic.

The feature of the gathering will be the singing of five Finnish choruses, one from Calumet and four from Hancock. There will be a parade Sunday morning, headed by the Hancock Finnish band. A unique incident of the picnic will be the reading by Miss Elizabeth Purty of a poem by Mrs. Johanna of Jacksonville, O., dedicated to the copper country Finnish temperance league.

RENOVATE HANCOCK SCHOOLS.

Board Decides to Overhaul the High and Wright Buildings.

Directly after the Hancock public schools close for the summer vacation the E. I. Wright and high school buildings will be turned over to a force of decorators. Following the decorating the schools will be scrubbed from top to bottom. This work was authorized by the board of education some time ago prior to the issuance of the recent circular letters of State Superintendent of Public Instruction Keefer, who urges that every school in the state be given a thorough cleaning during vacation time.

It is the plan of the school authorities to sow grass seed and, if possible, have the Wright and high school buildings surrounded by lawns instead of miniature deserts. The sand is especially annoying on windy days when the dust makes it necessary that all windows in the buildings be closed.

MANY RECRUITS ARE ENLISTED.

Houghton Light Infantry Virtually a New Company—Camp Plans.

The Houghton Light Infantry will go to state encampment at Grayling next August virtually a new company. Captain Smith now musters seventy-eight men at drill, a strength that is satisfactory, though not quite up to the required maximum. Within the last month the company has enlisted forty-two recruits.

"This is about as intelligent a bunch of new fellows as we ever took into the company," said Captain Thomas S. Smith. "I put them through the white-drill for the first time the other night, and they took to it so readily that before the drill hour was over they knew the signals without an error, a fine showing for new men."

With these forty-two new men and

NAVAL OFFICER ON A VISIT.

Lieutenant Robin Young, U. S. N., Assigned to the U. S. S. North Carolina.

Lieutenant Robin Young, U. S. N., assigned to the U. S. S. North Carolina, who has been visiting his parents at Marquette, arrived in Houghton last night for a brief visit with his brother, Manager R. L. Young of the Citizens' National bank.

SUMMER MANUAL TRAINING.

Hancock Schools Will Continue Plan Successful Last Year.

The plan of the Hancock board of education a year ago, providing a summer term in the manual training department of the public schools, will be adopted again this year, and C. W. Bedinger, instructor, has been engaged to take charge. Mr. Bedinger has been instructor in manual training the last year.

One hundred students have already enrolled for the summer course and it is expected half as many more will register during the next two weeks. This course is not limited to scholars, but is open to all persons wishing to take advantage of the opportunity.

Two periods a week is the time allotted for the summer school, and he may arrange these hours to suit his own convenience. The schedule will likely be based the latter part of next week and as many persons as desire to take advantage of the summer term should send in their names early, the sooner the better.

CHURCH ANNIVERSARY.

Quarter Centenary of Finnish Lutheran Denomination to Be Celebrated.

The present week will mark an important event in the history of the Finnish Evangelical Lutheran church of this country and Canada—the silver anniversary of the establishment of the denomination's first church in America. The celebration, which will be in Hancock, will open tomorrow. Several hundred visitors are expected.

Wednesday evening a class of young men will be ordained into the ministry at the Finnish Lutheran church. The young men were graduated from Suomi college this year.

Headquarters for the celebration will be at Suomi college, where refreshments will be served and souvenirs will be on sale.

The program for Wednesday evening follows:

Prayer.

Pipe organ solo—Prof. K. W. Kilikka.

Songs—Hancock Mixed choir.

Address—Rev. Mr. Rantalahti, Indianapolis.

Vocal solo—Miss Mielow.

Song—Savel choir.

Pipe organ solo—Prof. K. W. Kilikka.

Vocal solo—C. O. Jaakola, Calumet.

Devotional—Mrs. Lipsanen, Philadelphia, Pa.

Song—Hancock Mixed choir.

Organ solo—Prof. Kilikka.

Song—Savel choir.

Selection—Mixed choir.

Prayer.

STREET CAR ROMANCE.

It was the same old kind of night. The earth was all blossoms, the air was all fragrance and the sky was all moonlight. A going-on-middle-aged couple lingered under the cherry trees, and then went on hand in hand through the soft shadows. The moon seemed to search out and smile upon each blossom

RUSSIA, BIGGEST OF NATIONS.

Russia lacks only ten longitudinal degrees of stretching half way round the earth, and possesses one-sixth of the land area of the planet. Russia's Asiatic possessions are forty times as great as those of Japan, even since the Russo-Japanese war. The variety of Russia's resources make the empire second only to the United States as the greatest food producing country in the world. It leads all nations in mineral wealth and timber supply.

DEAFNESS CANNOT BE CURED.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional medicine. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Other cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure, sent for free trial.

Take HALL'S Family Pills for Constipation.

Reach Down in that Old Bottom Drawer

and get out a fresh pipeful of PEERLESS. Man, that's tobacco satisfaction for you. *Just like old times, ain't it*—when you used to work on the outside, before you took the inside job. And the old PEERLESS habit is a mighty good habit, too.

A naturally sweet, juicy chew or rich, fragrant smoke of pure Southern Kentucky tobacco, aged for three to five years to bring out all the mellowness and smoothness—that's

PEERLESS Long Cut Tobacco

PEERLESS is a natural, honest tobacco for men who like their chewing or smoking to have a solid satisfaction. to it. You get tobacco-hungry lots of times, and no insipid "hash" will come anywhere near suiting you.

You must have your PEERLESS. It's as satisfying as a square meal. Been on the market for 50 years and still is the old standby of the he-boys with vigor and vim in them.

A week's trial will prove that PEERLESS can keep right on satisfying you, day after day. Then you will keep right on using PEERLESS.

Sold everywhere in 5c packages. Other sizes 10c, 20c and 40c Packages, and 45c Tin Packs.

Mute Couple Are Married.

Carlyle L. Otto of Iron River and Miss Martha Blumel of Glidden, Wis., probably have the distinction of being the first mute couple to be married under the Wisconsin organic law since that state put a ban on indiscriminate marriage, says the Iron River Reporter. Loss of the faculty of speech and hearing is not regarded under the Wisconsin law as a bar to marriage, and both Mr. Otto and Miss Blumel passed highly satisfactory medical examinations. The couple were married at the home of the bride, Rev. Father Lorenz of Delavina, Wis., performing the ceremony in the sign language. Father Lorenz is chaplain for the school for the deaf at Delavina. Mr. and Mrs. Otto arrived in Iron River last evening and will make their home here. Mr. Otto is employed by the Western Union Telegraph company.

Auto Accident Has Fortunate Ending.

An automobile accident that fortunately resulted in no one being seriously injured happened last evening about 7:20 o'clock on the county road near Bass lake, reports the Iron Mountain Tribune. A car belonging to Superintendent E. F. Brown and being driven by his son, Fayette, in which Lucille, Eleanor William, Douglas and Dorothy Brown and Jean Russell were riding was struck by the hub of the large Paige automobile owned by J. H. McKenna, causing it to sheer to the edge of the road, where it traveled

partly on the grass for some distance and on hitting a stone tipped over on the side. The occupants were thrown out and shaken up. Miss Lucille Brown received a severe bruise above the eye. The other occupants, aside from suffering minor bruises and cuts and being severely jolted, were none the worse for their experience. Both automobiles were traveling in the same direction, the Brown auto from a trip to Twin Falls and the McKenna car, which was being driven by Henry Dahlquist, from a trip to Florence. Considerable damage was done to Mr. Brown's car. It was towed to this city.

Iron Washer Taken from Babys Throat.

When the two-year-old son of Ben King, of Stambaugh, was six months old, he swallowed an iron washer that came off a door knob. The washer was removed last Saturday from where it had lodged eighteen months ago, says the Iron River Reporter. The little fellow apparently suffered no ill effects from swallowing the washer until he became old enough to eat solid food. Then he encountered difficulty in swallowing. Recently, when he became more dependent upon solid food, the annoyance became more acute and he subsisted on liquids entirely. He was taken to Stambaugh hospital, where an X-ray photograph was made and the washer was located in the throat passage on a parallel with the fifth rib. Dr. McBurney took the little fellow to the Presbyterian hospital in Chicago to have the obstruction removed. The washer was extricated with forceps, being pulled out the same way it went in. While the little fellow will not completely recover for some time it

MAN'S HAPPINESS

is in the ratio of his realization of his ideals.

Men of achievement are men of ideals. Beautiful ideals are sunshine, for great minds are like gardens—to be fertile, productive of great things, they require sunshine of inspiration; without this the minds are sterile and never bloom. Let us get together. Marquette could stand a few more flowers. We are going to be a long time dead. "Let us live by the way." Anyone can tear down—what we like is that friendly hand. City Brevities

Today's weather: Fair. Yesterday's temperatures: Seven a. m. 49 degrees; noon 45; 7 p. m. 50; highest 52 degrees; lowest 43. Mrs. Otto Koeh is in Chicago for a visit with friends. Miss Josephine Quinn left yesterday for Munising, on a brief visit. W. F. Carr left yesterday afternoon for Ackerman on a business trip. A son was born last week to Mr. and Mrs. Archie Hibbard, Genesee street. W. H. Moulton, of Ishpeming, was a business caller in the city yesterday. Selden Cray left for Hubbell yesterday afternoon, for a few days' visit. Percy Delf went to Calumet yesterday, for the Knights Templar convalesce. Dr. H. J. Hornbogh left yesterday for Iron Mountain, on a brief business trip. Miss Katherine Handford leaves tomorrow for Detroit, on a several weeks' trip. V. L. Harde, of Trout Creek, spent yesterday in Marquette, on a business mission. J. J. O'Connor and A. B. Comer, of L'Anse, were business callers in the city yesterday. C. J. Spellman, of Houghton, was among the business visitors in the city yesterday. Dr. and Mrs. H. H. Loveland, of Republic, visited with Marquette friends yesterday. John J. Hauserman, of Negaunee, spent yesterday in Marquette, on a business mission. The county superintendents of the poor will meet this morning at 11 o'clock at the court house. Born Sunday, at St. Mary's hospital, to Mr. and Mrs. E. M. Gorst, East Crescent street, a daughter. Miss E. Bosworth leaves tomorrow morning for Detroit, to visit relatives and friends for a few days. Mr. and Mrs. A. T. Roberts left last night for Houghton, to attend the convalesce of the Knights Templar. August Erickson left yesterday afternoon for Houghton, to attend the convalesce of the Knights Templar of Michigan. John Carlson left last night for Minneapolis, where he will attend the annual meeting of the Swedish Lutheran synod.

Presque Isle chapter, Order of the Eastern Star, will hold a meeting tomorrow evening at 7:30 o'clock in Masonic Hall. Fred J. Schulteis has gone to the copper country to attend the Knights Templar convalesce as a member of the Marquette commandery. The funeral of the late Miss Mary L. Vadnais will be held at 8:30 o'clock this morning from St. John's church, with burial in Holy Cross cemetery. The automobile which struck a small boy in South Marquette Saturday night was driven by Rudolph Laux, and not by First Chief Johnston, as has been stated. Miss Norone Turner, daughter of Mrs. Anna Turner, Genesee street, was graduated from the Michael Byrne hospital, Chicago, June 2. Miss Turner had been in the hospital for several weeks. Shepherds lodge, No. 926, Modern Brotherhood of America, will give a "homecoming" ball in Fraternity Hall, the night of July 5. The Knights of Pythias orchestra will provide the music. Bert Hixson, local freight agent for the South Shore railway, whose resignation takes effect June 10, has sold his residence property at the corner of High and Ohio streets to Fred Forsman. Miss Janet McKinnon has arrived home from Big Bay, where she has been teaching school the last year, and will spend the summer with her parents, Mr. and Mrs. A. McKinnon, East Arch street.

Among the Marquette Knights Templar attending the state convalesce in the copper country this week are: Harvey B. Hatch, W. J. Ellison, A. T. Roberts, G. A. Carlson, August Erickson, J. H. O'Meara, James H. Kaye, E. L. Pearce, Charles Retaille and T. C. Howie.

Delegates Elected—At a meeting of Shepro lodge, Modern Brotherhood of America, last night, Leo Cyr and William Barnes were named delegates to the district convention of the order, to be held in Menominee July 5.

Jitneys in Marquette—The first jitney busses have put in their appearance in Marquette. Several Ford cars are being used in the service, which was commenced last week. The fare charged is ten cents to any part of the city.

Married in Ishpeming—Eskil Lundin, of Ishpeming, who has made his home in Marquette the last two years, and Miss Mammie Osier, of Negaunee, were married Saturday in Ishpeming. They will make their home in Marquette. Mr. Lundin is employed in Fred Crawford's tailor shop.

Many Saw "The Spoilers"—The story of Rex Beach's famous novel, "The Spoilers," in motion pictures, presented for the second time at the Marquette Opera House yesterday afternoon, and last night, drew crowded houses at each exhibition. Standing room only was available last evening.

A Two-Minute Session—The city commission was in session exactly two minutes last night, only that period of time being needed to allow the bills, accept the clerk's report on license collections and order the commencement of work on the construction of a small water main in East Crescent street.

Found Aged Paper—Arthur Baragawane, an employee of the Marquette City & Presque Isle Railway company, while engaged in repairing a street car the other day, found behind one of the mirrors a Brooklyn (N. Y.) newspaper dated nearly thirty years ago. The car was purchased from an Eastern concern years ago.

Return from Huron Mountain—A large party of Chicago people, who had been at the Huron Mountain club several days, left last night for their homes. Among those in the party were Mrs. Hooper, the Misses Cudaby, Hind and Miller, Henry Hooper, Jr., J. Andrews King, Columbus Healy and Vaughan Spaulding.

Took Men to Escanaba—Chief Tolan, of the Escanaba police department, arrived in Marquette yesterday morning

to get Fred Dumoral and Frank Higgins, the two men arrested by Chief of Police McIntosh Saturday for the theft of an auto from E. J. McMartin, of Escanaba. Mr. McMartin's car was left on the road near the Marquette prison. He came here yesterday for the machine and drove it back to Escanaba.

Motoring to Conclave—A party of Traverse City men were in Marquette Sunday night and yesterday on their way to Houghton to attend the state convalesce of the Knights Templar. They made the trip here without mishap, coming by way of Escanaba. They left for Houghton at noon yesterday. Those in the party were J. H. McLaughlin, J. V. McIntosh, W. W. Parr, C. O. Longneckor, W. H. Abbott, J. M. Gillett and C. L. Greibick.

Marco-O'Connors—Miss Ruby Marco, of Marquette, and Thomas O'Connors, of Sault Ste. Marie, were married Saturday morning at the rectory of St. Peter's cathedral. Miss Marco, who had lived here for many years, moved to Cadillac about two years ago. Mr. O'Connors is employed by T. L. Durocher & Son, the Soo contractors. Mr. and Mrs. O'Connors are spending their honeymoon at camp near Middle Island point.

Will Visit Brother—Lieutenant Robert Todd Young, son of J. W. Young, left yesterday afternoon for Houghton to visit his brother, Roy A. Lieutenant Young is now an officer of the South Carolina, which is in drydock at Philadelphia. He has spent the past two or three years in Pacific waters, and left there in February, when he was transferred to the South Carolina. He pre-

Killed a Big Snake.

While driving to L'Anse from Skanee the other day Joseph Erickson killed a snake near Hebard's logging camp 11. The reptile measured five feet, two and one-half inches.

Stork Fund Bank Filled.

The first bank for the baby fund of the United Charities of Iron River to be filled was that in the Iron River pharmacy. It contained a total of \$4.21 in pennies and nickels. There are four such banks distributed about the village. The baby fund is a separate fund set apart to provide for babies in homes of the poor when the stork arrives.

Timber Holdings.

The Charles Hebard & Sons Lumber company of Pequanung recently purchased the timber on six hundred acres in L'Anse township, Baraga county, from the Zenith Lumber company. The timber is in Towns 31-31 and 31-32, filling out the Hebard lands in these sections. The Hebard logging road runs in the vicinity. The company is operating its camps to the limit, cutting and skidding logs, peeling bark and making cedar.

Dr. Hampton, of Norway, Is Dead.

Word received at Iron Mountain late last week reported the death of Dr. Hampton, aged twenty-seven years, of Norway, at the Presbyterian hospital in Chicago. Dr. Hampton was physician for the Loretto Mining company, a position he had held for the last two years. He graduated from the Rush Medical college and after practicing his profes-

sion in a hospital went to Norway. He was held in high esteem by officials of the Loretto Mining company and a wide circle of friends in Norway and vicinity.

New Home for Sisters.

Charles Johnson has been given a contract for the erection of a new home for the sisters, in charge of the St. Anthony's parochial school, Calumet. The foundation was erected last year. The building will be 32x45, two stories, of solid brick. It will have a "ship" roof, with fireproof asbestos shingles. All conveniences will be installed. The building will be finished in oak, with hardwood floors.

Find Net Full of Dead Fish.

A flagrant violation of the state fish laws was revealed last week when a Soo party of sportsmen hauled up a gill net at the upper end of Hay lake, while trolling, that is said to have contained five hundred pounds of dead fish. The net was discovered in shallow water. It was taken out in deep water and sunk. The net was in fairly good condition and by the appearance of the fish it was evident that it had not broken loose from its holdings for any great length of time.

A Letter from Alaska.

The L'Anse Sentinel has received a letter from Ed Danielson, a former resident of Pelkie, who is now at Knik, Alaska. Danielson says, in part: "I am now located in the Matanuska valley, about forty miles below the great coal fields that Uncle Sam is going to open up with a railroad. This winter we had six inches of snow here and the coldest was eleven below zero. The land is covered with small timber and is easy to clear and the soil is a volcanic ash and very fertile. I saw oats here last summer, six and one-half feet high."

Inter-County Road Ready in Fall.

A. L. Burridge, Iron county road engineer, reports that work on the Beechwood-Gogebic county highway is progress-

ing satisfactorily and that connection with Gogebic county will be made this fall, so that an automobile may go over the road without much trouble. At present grading is being done just west of Beechwood. Mr. Burridge says that nearly four hundred men are being given employment on the roads of Iron county. Barnum & Counihan, of Iron River, have been awarded the contract by the state highway department to build two concrete bridges on the Beechwood-Gogebic road. One bridge will be at Cook's Run and the other at San Souci. Each will be of fifty-foot span.

Automobile Turns Turtle; Boy Killed.

Onie Hurja, sixteen-year-old son of Matt Hurja, of Crystal Falls, was almost instantly killed when an automobile he was driving skidded at the intersection of the Amasa-Iron River road, near Fortune Lake, turned turtle and crushed him beneath the tonneau. The back of one seat struck him under the chin and his neck was broken. Young Hurja had been working for R. B. Webb in his garage. A Finnish picnic was held at Fortune Lake and Hurja was taking the merry-makers back to Crystal Falls. He had made one trip and was returning to Fortune Lake for another load when he turned to one side at the intersection of the Amasa-Iron River road to allow another car to pass. As he did so his car skidded and turned over.

Pioneer Iron Maker.

John S. MacDonald of Minneapolis is Iron River to look after property interests. This is Mr. MacDonald's first visit there in more than two years. Mr. MacDonald first became interested in Iron River in the early eighties, when he was connected with the charcoal furnace operated there at the time. He had to drive from Quinnesec, part of the time making the trip on horseback and part of the time being tied into a buckboard to keep from falling out, as the roads were so rough. He was paymaster for the furnace company and usually had a large sum of money on his person, but never had any mishap happen to him. Mr. MacDonald has suffered considerably from rheumatism the last several years and has had to spend much of his time in the South.

CITROLAX

CITROLAX CITROLAX CITROLAX

Best thing for constipation, sour stomach, lazy liver and sluggish bowels. Stops a sick headache almost at once. Gives a most thorough and satisfactory flushing—no pain, no nausea. Keeps your system cleansed, sweet and wholesome. Ask for Citrolax. Sold Everywhere.

LIGHT REFRESHMENTS THE RULE

A letter from Paris conveys the information that in the French capital cakes, ices, and fruits have supplanted the after-theater supper. Playgoers who before Gallien's reign went to the restaurant or cafe now rush to the pastry cooks, who have amiably fallen into the custom and keep open until after midnight. Those who have only a thirst to quench find fruit at the first corner. All along the leading thoroughfares in the vicinity of theaters orange girls, surrounded by crowds of eager customers, have become a familiar figure and promise to be a permanent feature of night life in Paris.

THAT TERRIBLE BACKACHE

From which so many women suffer is significant of organic trouble. It talks with other symptoms, such as headaches, nervousness, and depression, that nature requires assistance. For forty years Lydia E. Pinkham's Vegetable Compound, a simple remedy made from roots and herbs, has been the one effective remedy in such cases. It speedily removes the cause and restores the system to a healthy normal condition.

Paris Fashion-isms

Advertising is a mighty force in these days—and a force for good, because only in the long run can a good store or a good commodity endure the light of publicity; and being good, the attraction of a large and growing colony of users—a clientele, if you please—enables the owners to make the desired thing or commodity better and better. The world has never been served so well as today. Money has never before had such buying power in insuring necessity, comfort and luxury. Ad-

vertising has been an equal partner of invention in making this true. And it is only through integrity in advertising such as this store employs that a steady and constant growth can be assured. Whatever you read in our advertisements you can rely upon as being absolutely true in every detail. We urge you to follow our advertisements carefully throughout the season, because through them we are telling you the news of this store the same as we would in person if you could come here each day of the week.

FATHER BORDAS OF ST. JOSEPH'S PASSES

Death of Veteran Clergyman of the Diocese Occurred Yesterday Morning.

Father Edward Peter Bordas, pastor of St. Joseph's Catholic church, passed away yesterday morning at 6:15 o'clock. His death was due to a complication of diseases, and he had been in poor health for many years.

No priest in the Marquette diocese was better known or more highly esteemed than Rev. Bordas, who had labored in the diocese for thirty-three years. He had charge of numerous parishes, and thus became widely known.

Father Bordas was born in the diocese of Limoges, France, Oct. 12, 1843, so that within a few months he would have been seventy-two years of age.

During the ten years that Father Bordas had been pastor of St. Joseph's church he has practically cleared up the debt on the property.

He was a liberal contributor out of his private purse and it is said that the greater part of his estate will be used for church and charitable purposes.

Father Bordas had one brother, who lives in France.

ISHPEMING IN BRIEF.

The heavy rains the past few days have extinguished the forest fires in the Dead river district.

George Dougherty is here from Marquette on a visit to his brother-in-law, J. H. Quinn, and family.

Mrs. Duncan Campbell and Rose Pascoe left Sunday night for Houghton, where they will visit friends for a short time.

The Oak street sewer, which the city has been constructing since the middle of the winter, will be completed within ten days.

The arguments in the dry wet court proceedings in Alger county will be presented in the court house at Munising Friday evening.

Miss Mary Small, who teaches school in Gilbert, Minn., has arrived home, to spend her summer vacation, the schools having closed last week.

The person who was seen taking a bicycle from near Cleveland field yesterday is asked to leave it at the Marquette County Fire & Electric company's office and avoid trouble.

Mr. and Mrs. Donald McDonald of Rochester, Minn., are the guests of Mr. and Mrs. John Pascoe of Spruce street. Mr. McDonald and Mrs. Pascoe are brother and sister.

The Tabitha club has postponed the party that was announced for this evening in the Anderson hall, because of the death of Rev. E. P. Bordas, pastor of St. Joseph's church.

The Misses Mae Lally, Lydia Roberts, Ella Jacobs and Gladys McGee announce that they have withdrawn from the popular lady contest being conducted this week in connection with the Knights of Pythias carnival.

Rev. Father Jodeloy of St. John's church, Marquette; Rev. Father Hollinger of Republic, and Rev. Henry Buchholtz of Negaunee, were here yesterday assisting in completing the arrangements for the funeral of Rev. Father Bordas.

Mrs. Win, P. Belden and son, William, left Sunday evening for Richford, N. Y., where they will spend several weeks on their farm. Joe Robear will leave today for Buffalo on the Tonawanda, with their automobile. Mr. Belden will join his wife and son later.

LOST—Gold brooch, between Lake Antrim and crossing at Marquette. Return to Olive Sherman, 707 S. Pine street. 6-8-15

FOR RENT—Furnished room, suitable for light housekeeping. Inquire of B. Clifford, 117 E. Division St. 6-8-15

FOR SALE—Household furniture, also piano, in good condition, cheap for cash. Inquire Mrs. C. H. Ransquist, National Mine. 6-7-15

BAD WEATHER HIT REISS CARNIVAL CO.

Only a Few of the Shows Were Ready for the Crowds Last Evening.

The Reiss Carnival company was not able to open all of its shows last evening as the wet weather interfered with the work at the grounds, but all of them will be ready tonight.

The company arrived from Bessemer Sunday night and yesterday morning the task of moving the equipment from the train to the Cleveland field was begun. The field was in bad condition as a result of the heavy rains Saturday night, Sunday and yesterday, and many of the heavy wagons sank deep into the mud, with the result that much time was lost.

Mr. Reiss has a good sized outfit, as the shows cover a large area and several of the tents are larger than are usually seen with carnival companies.

The members of the Ishpeming Pythias lodge were not able to advertise the opening last evening with their parade as large a scale as they had planned, because of the bad weather.

The weather this spring has not been favorable for the carnival companies, and nearly all of them have suffered losses, though the Reiss company has more than played even up to this time.

It had a good business last week at Bessemer, considering the size of the town, and the weather was favorable with the exception of Saturday. One girls' show of twelve people joined the carnival Saturday at Bessemer.

The company will go from here to the copper country and from there to Menominee, then to Iron River and Iron Mountain.

Clearance sale of ladies' coats and suits in progress at Braastad's.

HEMLOCK MINE CLOSED.

Menominee Range Property Has Been Worked Out, and Is to Be Abandoned.

The Hemlock mine at Amasa is to be abandoned, as the ore bodies have been worked out. The last piece of machinery was brought to surface last week and the shaft has been sealed.

The property was first discovered in 1887 and in 1890 was leased to the Hemlock River Mining Co., a subsidiary of the well-known Icelandic-Mather Co. of Cleveland.

In 1891 the first shipment of iron ore was made to the docks at Escanaba. From that time up to the present the Hemlock was always one of the oldstandbys of the county, giving employment to a large number of men the year round.

In the aggregate, it has produced and shipped to market 2,400,000 tons of ore, which would make an average of 90,000 tons yearly. At present there is in stock about 200,000 tons yet to be shipped.

The equipment, which has been consigned to the Hemlock River Mining Co., will be sold to the highest bidder.

Excelsior Team Defeated Marquette Rivals by a Score of 19 to 0.

The Ishpeming Excelsiors defeated "Gon" Harrington's Rivals, of Marquette, at the Union park Sunday afternoon by a score of 19 to 0. The Marquette players made but one clean hit off Tuomala, who twirled for the Excelsiors, while the Ishpeming players made fourteen safe drives.

The summary of the game is as follows:

Table with 2 columns: Excelsiors and Rivals. Rows for A. B. R. H. P. O. A. E.

Excelsiors: A. B. R. H. P. O. A. E. Embell, ss, 5 2 3 1 0 1 1 2. Urpshart, lf, 4 2 0 0 0 0 0 0. Gonville, rf, 5 3 2 12 0 0 0 0. Rhl, cf, 6 3 4 0 0 0 0 0. Gauthier, cf, 5 1 1 2 0 0 0 0. Ayott, 3b, 3 1 1 2 4 0 0 0. Mandley, 2b, 5 2 1 2 3 0 0 0. Young, c, 3 3 0 6 0 0 0 0. Tuomala, p, 4 2 2 1 6 0 0 0.

Earned runs—Excelsiors, 7. Stolen bases—Embell (4), Gonville (3), Rhl, Urpshart, Swanson, Mandley, Johnson, Gauthier. Three-base hits—Rhl and Tuomala. Two-base hits—Swanson and Tuomala. First base on errors—Excelsiors, 4; Rivals, 1. Strike out—by Tuomala, 6; by Smack, 3; King, 1; by Smack, 4. Double play—Johnson to Gauthier to Leski. Passed balls—Young, 1; Leski, 1. Left on bases—Excelsiors, 6; Rivals, 2. Hit by pitcher—Embell and Gonville. Umpires—Hampton and O'Donnell.

Ladies' waists in organdies, voiles and tub silks. Remarkable values at 98 cents. F. Braastad & Co.

CHAPLIN COMEDY TODAY.

World's Greatest Film Comedian Will Be Seen Here in "By the Sea."

"By the Sea" one of Charles Chaplin's latest comedies, will be included in today's program at Ishpeming theatre. School children from the kindergarten to the eighth grade, inclusive, will be admitted to the matinee at 4 o'clock on coupons clipped from yesterday's issue of The Mining Journal. Other pictures in the program are "A Woman's Revenge," an Edison two reel feature drama, and the Hearst-Selig News weekly. In this picture will be shown Edward Breitung's ship, "Dacia," flying the Finnish flag, and President Wilson witnessing the first league ball game of the season.

A film critic on one of the Chicago papers wrote as follows about "By the Sea": "Charles Chaplin's latest comedy, 'By the Sea,' is a sink-a-bath of battleships. Chaplin, with his big feet performing their usual trick provoking paralyzation, wanders down to the sea shore. There is some wind blowing, so Chaplin anchors his hat to his head with a young cable. He meets a pedestrian whose hat is similarly attached. "The two bump their hats off and they scramble for them. When the hats finally are recovered each has the wrong one. This causes considerable embarrassment when the two cables go taut as the men separate. Anger soon takes the place of embarrassment when the cables become lopsidedly entangled, and they battle all over the beach. "After they have fought themselves weary they shake hands and decide to have a drink. They get ice cream cones and each insists that the other have the honor of paying for them. This is unsatisfactory to the drug clerk and another row starts. They smear each other with ice cream and incidentally he spatters a six foot dandy, which precipitates still more trouble. "While the battle is in progress Charles leaves his new found pal in the lurch, and slips off to flirt with the sweetheart of the dandy. His perfidy is discovered, however, and the result would stir the rivalries of the earth, if not the forlorn gloom on the face of the earth. The value of Charles Chaplin's time to the Essanay company is indicated by the offer of \$25,000 by the management of Madison Square garden, New York, for a two weeks engagement. The offer has been rejected, but the famous comedian loses nothing thereby, as George K. Spoor, president of the Essanay company, presented him with a check for the same amount. In order to have him continue his work in the studio, this was a bonus in addition to Chaplin's salary. Chaplin has made wonderful strides in his profession. Three years ago he was drawing a salary of \$10 a week. His salary with the Essanay company is now \$1,500 a week.

Clearance sale of ladies' coats and suits in progress. All prices reduced one-third. F. Braastad & Co.

Markets

BETTER PRICE FOR METALS GIVES COPPERS STRENGTH ON PROFESSIONAL MARKET

New York, June 7.—Renewed manipulation in the war and motor specialties and an abrupt decline in Canadian Pacific were the contrasting features of today's professional and irregular market. Bethlehem Steel came forward in the last hour, rising 1/2 to 158, or within a point of its best quotation made a month ago. Canadian Pacific fell four points to 149 1/2, its minimum quotation since 1908. According to gossip on the exchange Canadian Pacific was sold here for Amsterdam account, the latter presumably representing German interests.

Coppers again were the strongest individual group, Amalgamated adding to its recent gain on the successful dissolution of the company, together with firmness in the metal market where the quotation ruled at 19 1/2 cents.

Table of market prices for various commodities including metals and agricultural products.

CHICAGO PRODUCE QUOTATIONS.
Chicago, June 7.—Butter, steady; creameries, 22@27 1/2 cents. Eggs, steady; receipts, 21,843 cases; at mark, cases included, 16@17 1/2 cents; ordinary firsts, 16@16 1/2 cents; firsts, 17@17 1/2 cents; poultry, alive, lower. Hens, 13 cents.

COST.
Friend of the college president—What did this beautiful dormitory cost you?
College president—Three doctor's degrees. One for the man that put up the money and the others for two friends of his.—Life.

A STRICT PARTY MAN.
"Do you promise to love, honor and cherish this woman?"
"Yes," said the politician; "whatever the platform is, I subscribe to it."—Louisville Courier-Journal.

A MISTAKE MADE BY MANY.
When you suffer pains and aches by day and sleep disturbing bladder weakness by night, feel tired, nervous and run down, the kidneys and bladder should be restored to healthy, strong and regular action. It is a mistake to postpone treatment. Foley Kidney Pills put the kidneys in sound, healthy condition and keep them active and strong. Sold Everywhere.

Negaunee Department

GOLDEN WEDDING ANNIVERSARY TODAY

Mr. and Mrs. Paul Webb Have Been Residents of Negaunee Forty-Six Years.

Mr. and Mrs. Paul Webb, pioneer residents of Marquette county, will today observe their golden wedding anniversary at their home on Snow street. They were married fifty years ago in the parish church in the parish of Stoke Damerel, Devonshire, England, by Rev. W. T. son July 25. They have resided in Negaunee continuously for over forty-six years and have made their home in the Jackson location all that time.

Mr. and Mrs. Webb, who were twenty-five and twenty years old, respectively, at the time of their marriage, came to this country in 1869 and lived for a few months at Marquette before coming to Negaunee. Eight children were born to them, four of whom are living. The oldest, Fred Webb, is a resident of Evanston, Ill., and the youngest is Sidney Webb, of Marquette. There are two daughters, Mrs. John H. Mortley, of Los Angeles, Calif., and Mrs. Julius Jacobson, of this city, who is at present at Los Angeles. Owing to the absence of their children, Mr. and Mrs. Webb will not celebrate their golden wedding formally at this time, but expect to do so on Mr. Webb's seventy-fifth birthday on July 25.

When they came to Negaunee there were only log houses in the town. The cemetery was being moved from where the Cyr building, occupied by King's Inn, now stands. At that time there were only a few stores and a bank in the town. The old Jackson House, which was the principal hotel, stood where J. H. Sawbridge & Son's hardware store is now located.

Mr. Webb was first employed at the Jackson mine, and was later made shift boss. He worked for a long term of years under the late Captain Henry Merry, they both having come to Negaunee in the same year. After the Jackson property was abandoned Mr. Webb worked for a few years at the Cambria mine and since quitting work as a miner some fifteen years ago he has been employed as janitor at the Jackson school.

Besides their four children Mr. and Mrs. Webb have four grandchildren, namely: Olympia May Mortley and Evelyn Irene Mortley, of Los Angeles, Calif., and Elizabeth and Eliza Marion Webb, of Marquette.

LOCAL LAONICS.

John Johnson spent yesterday on business at Marquette. Theodore A. Thoren spent yesterday on business at Marquette. F. A. Bell was a Negaunee business visitor yesterday at Marquette.

A son was born yesterday to Mr. and Mrs. Louis Ducas, Snow street. W. J. DeGouyer, of Calumet, was in the city on business yesterday. John D. Chubb, of Chicago, was a business visitor in the city yesterday.

The Owls society will meet tomorrow evening at 7:30 in Williams hall. Mrs. T. W. Durham, of Marquette, was the guest of Negaunee friends yesterday. Joseph Servanne will leave tomorrow morning for Detroit, where he expects to reside.

T. R. Lindsay and George E. Webb, of Marquette, were business visitors here yesterday. Walter Bashaw arrived here yesterday morning from Duluth, and will spend a week visiting with relatives.

Mrs. Charles Taylor left yesterday for Oak Grove, Mich., where she will spend a few weeks visiting with relatives. Mrs. Richard Roberts and daughter, Carrie, will leave tomorrow for Detroit, where they will spend a few days visiting with relatives and friends.

Mr. and Mrs. N. Oswald, of Turin, visited with relatives and other experienced men who worked for Mr. Lindquist. The combined outputs of Champion

Thomas Johns has taken a contract to erect a modern residence for William J. Leverton on Snow street. This work of excavating for the foundation has been started.

Because of rainy weather yesterday the physical demonstration which was to have been given at the high school playgrounds to the grade school children was postponed until tomorrow evening at 7:15.

John P. Miller and Thomas J. Flynn, the former a delegate and the latter a trustee, left yesterday to attend the eleventh annual session of the Michigan Jurisdiction of the Catholic Order of Foresters, which will be held at Ironwood today and tomorrow.

Arthur Moll, son of Dr. and Mrs. C. F. Moll, of Kenton, a graduate of the Negaunee High school and at present a student at the University of Wisconsin at Madison, was recently operated upon at the Mercy hospital, Chicago, and is rapidly improving. The operation was necessitated by an injury he received during a friendly scuffle some time ago on the university playgrounds.

John Rough, Jr., who is a student at the University of Michigan, was seriously injured in an automobile accident near Ann Arbor Decoration Day. He was a member of a party who were returning to Ann Arbor from Detroit, where they had spent the day. The car in which he was riding collided with a heavier car and was turned over, throwing him out. Mr. Rough was thrown a distance of about fifty feet and he landed on his head. He was the most seriously injured of the party and spent several days in a hospital. He had several bad scalp wounds.

COMMENCEMENT TO OCCUR THURSDAY

Class of 1915, Negaunee High School, Has Forty Members—Class Play Tonight.

The commencement exercises of the graduating class of the Negaunee High school will be held Thursday evening in the high school auditorium. The class is composed of forty members, and is the thirty-second to be graduated from the Negaunee school.

When the class entered the high school in 1911 it numbered fifty-nine persons. The officers are: William Collins, president; Haro E. Rigg, vice president; Minnie Eddy, secretary, and Margaret Anderson, treasurer.

The members and the courses they have completed are as follows: Scientific course—Sadie Helen Casey, Thomas Collins, William Collins, Elaine A. Ethinger, Mae Isabelle Farnson, Rose M. Gaffney, Minnie Claire Eddy, Tyna McElvada Kodla, Katherine Elizabeth Macdonald, Tami D. Mitchell, Harry Rigg, James H. Rough, Mildred E. Thomas, Philippa Yelland.

Language courses—Edna Louise Crane, Lorraine A. Connors, Viola Larson Lamb, Ethel, Edna M. Mitchell, Henry R. Nelson, Dorothy Roberts, Tena Schorlemmer, Della E. Stephens.

Elective course—Tyna M. Mattila, Ethel W. Miller. Commercial course—Margaret Anderson, Iona Marie Allison, William H. Bath, Leo E. Dodemort, Clara Hatch, William J. Hawke, Charles Arthur Letcher, Louis J. Marotte, Doris Marion Mitchell, Jennie T. Rund, Dagmar M. Salo, Eric Stark, John R. Stark, Joseph M. Sundin, Ethel May Uren, Minnie Evelyn Yeale.

Tonight the class play, which with the musical and dancing specialties has been directed by the Misses Katherine Williams, Julia McAuliffe and Mildred Andrus, will be given in the auditorium. The play, "The Varsity Coach," is a typical college comedy, in four acts. The cast of characters is as follows: Robert Selby ("Bob"), assistant coach of the crew; William Hawke, Howard Dixon, his roommate; William Collins, Chester Allen, a college friend; Dick Elsworth, a college friend.

Monie Kent, a "dick"; William Bath, Mrs. Moore, matron of the college house; Elaine Ethinger, Ruth Moore, her niece; Edna Crane Miss Serena Selby, Bob's aunt; College girls; Della Stephens Genevieve Allen; Lorraine Connors; Daisy Doane; Tena Schorlemmer; Ethel Lynn; Tami Mitchell.

MANY GO TO CONCLAVE.

A large party of Negaunee residents departed yesterday afternoon for the county to attend the fifty-sixth annual convocation of the Michigan Grand Commandery of Knights Templar, which is in session there this week. Members of the Shrine band and Negaunee, Marquette, Escanaba and Gwinn Templars traveled in special cars attached to the Duluth, South Shore & Atlantic Railway passenger train. The Negaunee and Gwinn people who are attending the convocation expect to return home Thursday morning, and a special sleeping car that will be attached to the train will be set

Dalby and Morris Nylander, of Gwinn.

RAPID RIVER WON.

Negaunee Team Was Outplayed in Contest Put On Sunday.

The Negaunee City baseball team was defeated Sunday by the Rapid River nine by the score of 10 to 1. Swanson, the left-handed southpaw, who was in the box for Rapid River, let the Negaunee men down with two hits, one a three-bagger by Heinonen and the other a single by Tall. Ford was in the box for Negaunee for the first six innings, but during the latter part of the sixth inning he collided with Joe Holman, third baseman, and injured his arm so that he was forced to retire, and Earl Rule was sent in. Up to that time Rule had yielded but four hits. The Rapid River batters made only two hits off of Rule in three innings.

Negaunee's only run was made in the eighth inning. Rule, the first man up, got to first and scored on Heinonen's three-base drive. Swanson had nine strikeouts to his credit and Rule one. Negaunee got three safe drives in four trips to the plate. His first hit, made in the first inning, was a three-bagger and scored two runs. Swanson was responsible for five of Rapid River's runs. The Negaunee players arrived home yesterday morning, well pleased with the treatment given them by the Rapid River players and fans. The Rapid River team will be brought here for a return game within a few weeks.

HAS PURCHASED BUSINESS.

Gust Danielson, the stone and brick mason, has purchased the concrete business of Andrew Lindquist, who will leave in a few weeks with his family for Chicago, where they will make their home. Mr. Danielson has had experience in concrete construction and will do all kinds of work. He will employ the same finishers and other experienced men who worked for Mr. Lindquist.

BOARD OF REVIEW.

Notice is hereby given that the annual meeting of the board of review of Richmond township will be held at Palmer Wednesday, Thursday and Friday, June 9, 10 and 11, 1915. WM. KORRILL, Supervisor. (6-7-5)

THE GOOD JUDGE IS SUBSTANTIALLY APPRECIATED
JUDGE, THAT IS "THE GOOD JUDGE"—REAL TOBACCO CHEW MENTHOLATED, AND INTENDED TO SHOW THE GRATITUDE LOVERS OF GOOD TOBACCO FEEL TOWARDS YOU.
SUCH TOKENS OF APPRECIATION ENCOURAGE MEN TO TELL OTHERS OF WHAT THEY KNOW WILL ADD TO THE PLEASURE OF LIFE.
A reward for merit—the way men are taking to the Real Tobacco Chew, and telling the good word to friends.
A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.
THE REAL TOBACCO CHEW IS NOW CUT TWO WAYS!! W-B CUT IS LONG SHRED, RIGHT-CUT IS SHORT SHRED!
Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end. The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.
"Notice how the salt brings out the rich tobacco taste."

Mining News

GRANBY CONSOLIDATED.
Granby Consolidated has freed itself from floating debt through the proceeds of \$2,000,000 bonds which stockholders of that company subscribed for at par. Those not taken by shareholders went to the underwriters, White, Wend & Co. The directors now have no hindrance, technical or otherwise, to prevent them from taking dividend action and this, it is fully expected, will be done either at their regular meeting on June 15 or at a special session which may be called for the purpose prior to that time. The former rate of \$1.50 quarterly at least should be distributed. From the Anxox smelter an output of more than 2,000,000 pounds of copper was secured in May, according to preliminary returns. This production was obtained without reference to the fine dust, which when treated will return four pounds per ton, increasing the total extraction from Hidden Creek ore to about 40 pounds of copper per ton.

ARIZONA COMMERCIAL.
For the next three months, at least, Arizona Commercial will make the bulk of its shipments to the Phelps-Dodge Copper Queen smelter at Bisbee, Arizona. Old Dominion has been handling Arizona Commercial ores, and the change to the Copper Queen is because Old Dominion is unable to treat any substantial tonnages of sulphide ore except from its own mining operations. The contract with the Copper Queen calls for a maximum of 120 tons per day, and Old Dominion will help out so that shipments can be maintained at from 4,000 to 4,500 tons per month. The change to the Copper Queen will naturally involve a small additional expense to Arizona Commercial. Underground conditions show constant improvement. Both the raises at the east

DISCUSSED THE FICTION PROBLEM

Address of Miss Genevieve M. Walton, Librarian of the Ypsilanti Normal, Before the Upper Peninsula Librarians Friday Night, Was of Timely Interest.

Believes That Fiction Is Given too Much Prominence in the Present Day—Speaker Talked Also of the So-Called Immorality of Some of the Latest Novels.

In her address on "The Present Day Fiction Problem" before upper peninsula librarians at their annual convention here Friday night, Miss Genevieve M. Walton, librarian of the State Normal college at Ypsilanti, spoke of many of the questions involved in the work of the librarian, considering the topic from three phases, the history, the fiction and the public. The address was of interest not only to the librarians, but to the general public.

"First of all," Miss Walton said, "the fiction problem of the present day is economic as well as academic. The public library is supported by the tax of the people who claim a right to be served what they want in books. Furthermore, the library must have a strong circulation to command the fair appropriation which is imperative to the equipment."

"In all discussion we hear the circulation divided into fiction and non-fiction. Now, I do not know that the blame for this unfortunate nomenclature belongs to the library, but I do know that it places the negative on the wrong side of the balance sheet, and that here is a place for constructive working which would be an enormous factor in all discussion and the printed reports thereof."

"In the reports, I believe, fiction is given both an undue percentage and prominence. Certainly, a fair amount of fiction is literature, though possibly a readjustment on this basis might suggest the fact that a good deal which is classed as history, philosophy and religion is pure fiction. It has been said, 'The novel was in its development first impossible, then improbable, and is now inevitable. Conceding, as we must, its being inevitable, our work is to endeavor to deal justly with all sorts and conditions of men who come to the library for fiction.'"

Discussed Morality.

Miss Walton talked at some length on the morality and immorality of certain novels. She made mention of an article in *The Dial*, which is devoted to criticisms of present day literature, in which it was said: "We Americans approach all art with a chip on our shoulder and we call that chip Morality."

WHITTING-BROWN.

Well-known Marquette Couple Married Yesterday by Rev. B. G. Burt.

At the home of the bride's parents, Mr. and Mrs. F. N. Whitting, 1125 North Third street, Miss Lillian Whitting and Ernest A. Brown were united in marriage at 3:30 o'clock yesterday afternoon.

Arch to Hewitt avenue, is now in progress. The rock dressing of the street has been spread, and with the first fair weather the asphalt surfacing material will be laid.

The stairway leading from the South end of Spruce street to Lake street is being rebuilt by the street department, the work having been begun this week.

The Fair avenue sewer improvement will be completed within a few days. The last of the pipe was laid this week.

SCHOOL PLAY TONIGHT.

"Purple and Fine Linen" Will Be Presented at Opera House.

The seat sale for "Purple and Fine Linen," the three-act comedy to be presented at the opera house tonight by the seniors of the high school, indicates that the players will be greeted by a large audience. Last night the greater number of the desirable seats had been disposed of, although some remained both in the parquet and balcony.

KNIGHTS TEMPLAR GO TO COPPER COUNTRY

Thirty-Five to Forty Members Are Representing Lake Superior Commandery, This City.

Thirty-five to forty members of Lake Superior commandery, No. 39, Knights Templar, left yesterday for Houghton to participate in the state convocation of the order, which will continue throughout the week. The commandery will take part in two parades, one in Houghton and one in Calumet, and will participate actively in the other events of the big meeting.

The lower state Templars, including Detroit commandery, No. 1, did not stop in Marquette yesterday morning, as had been planned, owing to the delay of the steamers North American and South American at Sault Ste. Marie. A dense fog impeded the progress of the big boats and, in addition, the South American twice stranded in St. Mary's river. Only the North American reached Houghton early last night and, in consequence, the grand ball was postponed until this evening.

FOREST FIRES THREATENING

Outbreak of Flames Near Pickeral Lake Saturday Caused Considerable Alarm.

Forest fires in the neighborhood of Pickeral lake, fifteen miles south of Marquette Saturday threatened many of the camps there and burned over considerable timber before they were brought under control. None of the camps was touched by the flames, but destruction was narrowly averted in several instances. The fire was brought under control a short distance from Charles Brown's camp. It had ignited the roof of a barn near the camp, but the building was saved by prompt work.

Deputy Forest Warden Keupp, of this city, was in charge of the forest lighting force and was assisted by the owners of camps in that vicinity. The heavy rain Saturday night and early Sunday morning was general over the upper peninsula, and yesterday it rained in many parts of the region, extinguishing many incipient fires. Small fires were reported Saturday in the neighborhood of Eagle Mills, Green Garden and in the Dead river region, and these doubtless would have spread rapidly had not the heavy downpour occurred, a brisk wind having fanned the flames. Near Green Garden a large stock of timber piled near the M. M. & S. E. track was periled. The underbrush now is so thoroughly soaked that there will be little danger from fires for some time.

Theatrical

"Girl from the Golden West." At the Delta theater today there will be shown a special feature, "The Girl from the Golden West," a five-part release of Lasky-Belasco, with Mabel Van Buren in the title part. The extraordinary success of the play on the speaking stage was due to many causes, says W. Stephen Bush in the Moving Picture World, every one of which will equally operate in favor of the filmed version. In the first place the play is of the virginal American type, its dramatic construction is singularly free from flaws, the atmosphere comes upon us conventional morals of the East like a storm from the mountain tops, the scenery is the best and the most picturesque in all California. In "The Girl from the Golden West" we sympathize with every one of the principal characters. The girl who has preserved her maidenly modesty in the riotous saloon of the frontier, the "road agent," whom the simple faith and love of the girl converts into a gentleman in the rough, the big-hearted sheriff, a keen sportsman and always "on the square," these are types which will charm and delight.

On Thursday the Delta will show a six-reel photoplay featuring Charles Chaplin, entitled "Tillie's Punished Romance."

Benefit concert at city hall tonight.

SIXTY DELEGATES EXPECTED TODAY

Episcopal Diocesan Meeting Will Convene This Morning at St. Paul's Church.

Delegates to the annual convention of the Episcopal diocese of Marquette, which comprises the upper peninsula, and the Women's Auxiliary, the missionary branch of the church, will assemble in Marquette today for a three days' session. It is expected that from sixty to seventy-five persons will be in attendance. The first of the visitors will arrive early this morning. Other delegates will not be here until tomorrow. The diocesan meeting will be in session tomorrow and Thursday, and the auxiliary meeting today and tomorrow.

The convention opens at 11 o'clock this morning with corporate communion of the auxiliary and an address by Rt. Rev. Dr. Mort Williams in St. Paul's church. Luncheon will be served to the delegates at 12:30 o'clock in Guild Hall. At 1:30 there will be a business meeting of the auxiliary in Morgan Memorial chapel. At 4:30 p. m. the delegates will visit St. Luke's hospital.

Tonight at 8 o'clock the auxiliary and the young people of St. Paul's church will present in Guild Hall "The Call of the Little Blue Box," a dramatic story of women's work in missions. The entertainment will begin at 8 o'clock. No admission will be charged, neither will a collection be taken. The public is cordially invited to attend. Thirty persons will take part. The program will be:

- Contra solo, "He Shall Feed His Flock" (from Messiah).....Handel
- Miss Ethel Hambley.....
- "The Call of the Little Blue Box.".....Part I—
- Impersonation of 1889, Spirit of Origin.....Miss Frances O'Meara.
- Impersonation of 1901, Spirit of Growth.....Miss Naomi Olson.
- Impersonation of 1913, Spirit of the Present.....Miss Signa Gilling.
- Part II—
- Playlet, "What Filled the Blue Box".....Mrs. N. P. Florin, Mrs. Wm. Robinson and Miss Jean Latrell.
- Impersonation of Miss Thackara.....Miss Margaret Conklin.
- The Anvik Church.....Mrs. M. J. Sherwood.
- Impersonation of Aki Kuroo.....Miss Marjorie Needham.
- Part III; The Next.....
- The Great Call.....Miss Flora E. Hill, Dorothy Jones, Elsie Jones, Harriet Jennings, Elsie Jennings and Ruth McLean.
- Reception, "All Boxes Invited".....Mrs. C. M. Gooding, Evelyn Jennings, Dorothy Latrell, Mabel Hall, Helen Harkin, Mary Trudeau, Edith McLean, Grace Miller, Alice Hardiman, Gwendolyn Kennerly, Florence Ryan.
- Part IV; The Future.....
- Spirit of 1916.....Miss Stella Patrick.

CONCERT TONIGHT.

Benefit Music Event Will Be Held at the City Hall.

The series of meetings to be conducted by Colonel Stephen Marshall and Major Clarence Boyd, of the Salvation Army, will open with a concert at the city hall tonight at 8 o'clock. The proceeds will go to the Marquette branch of the organization. The Ishpeming corps will participate in an open-air service at 7 o'clock and the Knights of Pythias brass band will play at the city hall at 7:45.

COL. STEPHEN MARSHALL.

At 8 o'clock. In the absence of Mayor Beagle, Commissioner Sherman will preside at the concert. Colonel Marshall and Major Boyd will conduct a service in the city hall assembly room tomorrow night at 8 o'clock. Children will be admitted, soldiers enrolled and Major Boyd will sing several solos. No admission charge will be made at this meeting, and the public is invited.

500 CANAL PASSAGES.

Sault Ste. Marie, Mich., June 7.—[Special.]—Unbonded vessels passing the canal the last twenty-four hours were: Buffalo, 11 p. m.; Sherwin, midnight; Hoyt, Trimble, Widener, 1 a. m.; Morgan, 1:30; Kirby, Hartnell, 2; Juppeneage, Calumet, 2:30; North American, 4:30; South American, 7:30; Uccott, Corey, Agnew, noon; Nipigon, Mary, 12:30 p. m.; Samuel Morse, Phelps, 1; Farrell, 1:30; Fordonian, Perkins, Cornell, 2; Dan Hanna, Walsh, 2:30; Maritana, 3; Ward Ames, Mack, Improval, Cort, Mias, 4:30; Linn, Fritz, Donner, 4; Niko, Grace Hollan, 6:30; George Stephenson, Roebing, Roberts, 7:30; Wm. Mather, 8.

Benefit concert at city hall tonight.

WILL OBSERVE JUNE 24.

St. Jean Baptiste Societe Is Planning for Celebration.

The St. Jean Baptiste societe is arranging for the celebration of June 24, Midsummer Day. A parade will be held in the morning, starting from Bureau's Hall at 8:30 o'clock. At 9 o'clock high mass will be said at St. John's church. The parade, in which children, as well as members of the societe, will participate, will proceed from Bureau's Hall to Fisher street, east to Front street, north to Washington, and to the church. It will be headed by the band, which will furnish music throughout the day.

The lodge will hold a picnic on the beach at the foot of Crescent street. Refreshments will be served. In the evening a dance will be given in Fraternity Hall. Trombley's orchestra will provide the music. The hall will be decorated.

Benefit concert at city hall tonight.

Upper Peninsula

Auto Rips Clothes from Boy's Body. Matt, the ten-year-old son of Matt Mattson, a Hancock manufacturer of carbonated drinks, narrowly escaped serious injury when he stepped in front of an automobile owned by A. J. Veriville. He was knocked down and dragged a considerable distance, a part of the car catching in his clothing, literally ripping it from his body. External bruises constituted his only injuries.

Girls' Brigade Planned. One hundred mothers, who are members of St. Patrick's church, Escanaba, met with Rev. Father Barth last week to formulate plans for an organization of the young girls of the parish into a brigade, to be conducted along the lines of the boys' brigade. There are three hundred girls eligible as members. They will be divided into three companies, with officers, and probably will wear some kind of a distinctive uniform.

Garden Druggist Is Bound Over. Roy Kuehn, the Garden (Delta county) druggist, whose arrest for selling liquor without a license was an outcome of the Gooley lay fatality, when two men lost their lives, was taken to Escanaba by Sheriff Andrew Iverson and arraigned. He waived examination and was bound over to circuit court for trial. Bonds were fixed at \$200. Surety was furnished by A. S. Putnam, of Manistique, owner of the drug store.

Will Be an Interner at Brooklyn. George Curry, a former well-known Iron River young man, who has been attending the medical department of the state university for the last five years, has been appointed a member of the staff of the Long Island college hospital, Brooklyn, N. Y., and will take the post when he finishes his work at Ann Arbor this month. Thirty-six of the forty-two students of the senior class have obtained staff positions in hospitals. Twenty of these will go to out-of-town hospitals.

Stroke Whiskers; Gets Fifteen Days. Men have been arrested for various heinous crimes, but not for John Yjupa to be sentenced to fifteen days in the county jail for pulling the whiskers of a pioneer resident of the city, says the Escanaba Press. Yjupa is a greater admirer of aged men. So, in accordance with his usual custom, he proceeded to stroke the beard of a man whom he mistook for a friend. His stroking instinctively broadened into a pull and before he knew it his victim was yelling for help. Declaring that he had been assaulted. Officers arrested Yjupa, and in police court he was given the limit "for stroking whiskers," or fifteen days in jail. He was allowed the alternative of paying fine and costs, but this he rejected.

Motor Fire Truck Proves Worth. The motor truck certainly proved its worth when through the promptness with which the firemen were able to get to the ground and use the chemical apparatus the fire in E. Lassimus' house was quenched with but a comparatively small damage, says the Crystal Falls Drill. The firemen were on the scene in less than two minutes after the alarm came in. A guest at the Lockwood says that he heard the alarm when it started to ring the box number and before the ringing was completed the truck was out of the barn. There has been a lot of controversy over this truck matter, but when the skies are cleared the people will be glad that the city assumed the expense necessary to procure the apparatus.

Perronville to Have a Church.

A Catholic church is to be constructed at Perronville, Delta county. Mr. Perron has donated the site and has also given land for a cemetery. Lumber has been ordered and will be delivered within a few days. It is believed the building will be completed and ready for formal dedication within ninety days. It is expected that a resident priest will be named, that matter having already been taken up with Bishop Eis at Marquette. The church will be erected on a small hill, directly east of the Perronville store, a decidedly attractive site. The location of a church at Perronville will prove a great convenience for the people of a wide district about that village. At present the people have to go to Schafer to attend service.

Mineral Land Litigation Settled.

The case of Frederic I. Carpenter vs. Flora B. Holt, residuary legate of the late Miss Verna I. McDonald of Escanaba, which has been pending in the United States courts for the last few years, has been settled out of court, the Crystal Falls Drill reports. The suit involved the title to an undivided three fifty-sixths interest in a mining estate of 1,557 acres in Crystal Falls and Mastodon townships, Iron county. The lands include the fee of the Carpenter mine, operated by the Hollister Mining company, and the Neely property, under lease to the Cleveland-Chief Iron company. By the terms of settlement Mr. Carpenter's title to the disputed interest is confirmed. Benj. C. Neely, of Crystal Falls, is an equal partner of Mr. Carpenter in the tract in litigation.

Benefit concert at city hall tonight.

CORAZA HAVANA CIGAR.

OLD AGE Will Find You

still drudging along unless you make an effort in your younger days to lay aside a little at a time by the savings habit, the proceeds of which in later years will mean to you comfort and happiness. It is the real key to independence, preventing one from depending on others after reaching old age.

FUNDS IN OUR SAVINGS DEPARTMENT DRAW INTEREST AT THE RATE OF 3% PER ANNUM, COMPOUNDED SEMI-ANNUALLY

FIRST NATIONAL BANK

MARQUETTE, MICHIGAN. Send for our booklet, "Modern Banking"
