

QUIET PREVAILS, BUT TROOPS ARE HELD IN ATLANTA

While No Further Trouble Is Expected in Georgia Because of Commutation of Leo M. Frank's Sentence, Militia Is Kept Under Arms as a Precaution.

Governor Slaton Congratulated in Letters and Telegrams from All Over Country for His Action—Mob Attacking the Soldiers Was Easily Put in a Good Humor.

Atlanta, Ga., June 22.—State troops continued tonight to guard the suburban home of Governor Slaton, but quiet prevailed there and in the city after the demonstrations of yesterday and last night by people most bitterly opposed to the commutation of Leo M. Frank's death sentence.

Governor Slaton spent several hours at his office in the capital. A policeman accompanied him to and from his residence in an automobile. There was no demonstration. The governor said tonight the guard was continued at his home to prevent any possible attempts to damage the property. He could not say when the troops would be removed.

MANY CONGRATULATE GOVERNOR.

The crowd which visited my home last night was not composed of the best people of Atlanta," declared the governor. "Today I have received telegrams from hundreds of people in Georgia and throughout the country congratulating me upon my action in this case."

MOB EASILY MADE HAPPY.

Last night's crowd appeared to be entirely leaderless and was quick to switch from apparent anger to humor. Missiles of all sorts were hurled at the soldiers until someone started to sing: "I Didn't Raise My Boy to Be a Soldier," and with shouts of laughter the entire throng joined in the chorus.

JOLIET WARDEN WON'T RESIGN BUT REFUSES TO LIVE IN HIS SUITE

Joliet, Ill., June 22.—Edmund Allen, warden of the state penitentiary, whose wife was burned to death in her bed Sunday night, definitely set at rest rumors that he would resign immediately.

OPPOSES PARDON, SAYING WOMAN WILL ONLY POSE FOR 'MOVIES' IF FREED

Harrisburg, Pa., June 22.—The state board of pardons tonight announced that it had refused to recommend pardon for Mrs. Helen Boyle, the accomplice of James Boyle, her husband, in the kidnapping of "Billy" Whittier from his home at Sharon, Pa., in March, 1908.

CHICAGO PRODUCE QUOTATIONS.

Chicago, June 22.—Butter and eggs unchanged. Receipts of eggs, total, 20,719 cases; poultry, alive, higher; fourth, 14 cents; springs, 20¢ to 25¢.

FRAUD CONSPIRACY IS CHARGE AGAINST 128

Indianapolis Politicians Indicted, Accused of Conducting Illegal Election.

Indianapolis, Ind., June 22.—Not half of the 128 men indicted by the Marion county grand jury here today on charges of conspiracy to commit felonies, such as are defined by the election laws of the state and the laws against bribery and blackmail, had surrendered to Sheriff George V. Coffin and given bond tonight.

Thomas Taggart, Democratic national committeeman for Indiana; Joseph E. Bell, mayor of Indianapolis; Samuel W. Merritt, chief of police; and Robert W. Metzger, Republican member of the board of public safety, were among the first to acknowledge service in the case and give surety.

The bonds of those who surrendered today ranged from \$2,500 to \$10,000. It was estimated that if all of the 128 men were to give bond the total would run to more than \$300,000. Mr. Taggart and Mayor Bell proclaimed their innocence and asserted they had committed no crimes for which they should be indicted.

The indictment, which is in forty-eight counts, and covers 228 typewritten pages, charges that the conspiracy began prior to the primary of May 3, 1914, and extended through the election of Nov. 3, 1914. It charges illegal voting, intimidation, false registration, padding the tally sheets, stuffing the ballot boxes, illegal manipulation of voting machines, blackmailing of schoolteachers and resort owners, bribery and vote-buying. Conviction carries with it a fine of not less than \$25 nor more than \$5,000 and imprisonment of not less than two years or more than fourteen years.

JURY TO DETERMINE THAW'S SANITY CHOSEN

Seventh Attempt of Slayer of Sanford White to Obtain Freedom Is Begun.

New York, June 22.—Harry K. Thaw's seventh attempt to gain his freedom since his arrest nine years ago this month for the murder of Stanford White, was begun here today with the selection of a jury to inquire as to his sanity. If the jurors decide in his favor and Justice Hendrick, presiding, wins the power to reverse their verdict, accepts it, Thaw will obtain permanent release from the Matteawan insane asylum, where he was incarcerated after being acquitted of murder at his second trial, and from which he escaped in 1912.

Tomorrow John B. Stanchfield, Thaw's attorney, will outline his case and the taking of testimony will begin. Thaw has about fifty witnesses, including a number of alienists, to prove that he is sane and entitled to his freedom. The state also has a large number to testify against him. Among the latter probably will be William Travers Jerome, Thaw's prosecutor at the previous trials. Thaw said after the jury was completed that he was entirely satisfied with it.

"They are an intelligent body of men," he said, "and I will have little difficulty in convincing them that I am sane as they are."

ADVERTISING MEN IN FAVOR OF TEMPERANCE

Impromptu Discussion of Subject at Convention Shows Liquor Is Frowned On.

Chicago, June 22.—The eleventh annual convention of the Advertising Clubs of the World quieted down today after a joyous welcome by the city and started at its serious business. The delegates separated into more than a score of sections for discussion and argument and interchange of ideas. In the final morning gathering before the convention disintegrated an impromptu discussion of temperance called forth a demonstration of cheers.

"The applause given the idea of temperance by the country's advertising men is significant of the national trend of thought," commented H. S. Houston, of New York, whose name has been mentioned as the next president of the Associated clubs.

"These men are in closer touch with public feeling and desires than any other class except newspapermen and perhaps better than politicians. They reflect a general state of mind on a grave problem and conclusions may be drawn from their attitude."

In the newspaper section the following standard of practice was adopted. It represents the aims and purpose of most of the newspapers of the United States: "The standard binds the members: To make none but true statements of circulation; To maintain advertising rates as published; To reject fraudulent advertising; To oppose free publicity."

DIAMOND RINGS BLOWN IN STREET BY STORM

Muskogee, Okla., June 22.—A rain and wind storm of unusual violence here late today blew a store front out of a jewelry store and sent two hundred diamond rings rolling down a business street. Although the storm was at its height a large crowd collected and began searching for the rings. The proprietor of the store and his clerks managed to recover many of the rings before a crowd gathered. Thirty stones, valued at \$2,500, were not recovered, the jeweler said.

ANACONDA INCREASES ITS DIVIDENDS TO 50¢

New York, June 22.—The Anaconda Copper Mining company today declared a dividend of fifty cents a share, an increase of twenty-five cents over the rate paid since September last.

PRESSURE BY U.S. CALLED REASON JAPS DON'T HELP

Netherlands Publication Asserts Tokio Was Prevented from Sending 300,000 Troops to Europe as Result of Hint to Britain Washington Did Not Desire It.

American Officials Read Article With Interest but Maintain Silence, Neither Confirming nor Denying Its Truth—Is Known Secret Negotiations Took Place.

The Hague, via London, June 22, 10:40 p. m.—The Handelsblad, in its edition of today, asserts that Japan was prevented from sending three hundred thousand troops to Europe as the result of an unofficial hint to Great Britain from Washington that such an expedition would be undesirable.

The newspaper declares that a Japanese army of that strength was landed in Manchuria, where it was exercising preparatory to departure for the European battlefield, but that Great Britain, after receiving the intimation from the United States, informed Tokio that she was "sorry, but, under American pressure, must request that the Japanese government do nothing further concerning the dispatch of an expeditionary corps to Europe."

"After this," the Handelsblad continues, "the Japanese army disappeared from Manchuria, probably much to the relief of Great Britain, which has never desired Japanese participation in the fighting in Europe."

OFFICIALS MAINTAIN SILENCE.

Washington, June 22.—Government officials tonight heard without comment of the article published in the Handelsblad. Neither confirmation nor denial of the story was to be had. It is known that there were exchanges between the American and British governments while the recent Japanese-Chinese negotiations were in progress, but their nature was kept secret.

The United States knew that Japan had at least one hundred thousand men in Manchuria when she was waiting for China's reply to her demands. It was generally understood here, however, that the army was there for effect upon China.

All reports from Tokio have indicated that Japan has not been called upon for a European expedition and has not considered sending one.

NOT THOUGHT MARINES WILL LAND IN MEXICO

Sonora Troops, Admirals Is Told, Can Handle Yaquis—U. S. Asked to Keep Out.

Washington, June 22.—Denials of friction in the Carranza ranks and of dissonance among the Villa leaders were repeated today by the respective agencies of the Mexican factions. United States officials had no reports from their own representatives, but the belief still prevailed in official quarters that the trouble between General Obregon and General Carranza had not been healed.

According to official information Carranza refused to take the advice of General Obregon and accepted the resignations of some of the cabinet ministers, whose retention was insisted upon by Obregon.

Didn't Heed Carranza.

Other advisers say that General Pablo Gonzalez, the Carranza commander, marching against Mexico City, who was ordered to halt until Carranza reorganized his cabinet, has gone ahead and is now reported within a few miles of the old capital.

Yaqui Situation Clearing.

Less anxiety was felt over the situation in the Yaqui valley today, after Admiral Howard reported that he had been given assurances that one thousand five hundred Sonora state troops were available for operations against the Indians who have been threatening American settlers. Officials now are quite confident that it will not be necessary for Admiral Howard to land his troops.

Admiral Howard today sent a statement presented to him by the Mexican military commandant at Guaymas, suggesting that Americans leave the Yaqui valley, but promising to protect them if they remained, or to escort them if they departed. The commandant said a landing of American marines would be likely to "cause Americans trouble all along the coast."

Hancock, Mich., June 22.—[Special.]—Otto Hess, a miner at the Quincy mine, drilled into a missed blast charge this afternoon and was instantly killed. The funeral will be held tomorrow.

SAY ITALIANS STRIKE FUTILELY AT AUSTRIANS

Reports from Teutonic Lines Assert Fortifications Are Virtually Impregnable.

Berlin, via London, June 22, 11:52 p. m.—Dispatches from the Italian front report serious reverses experienced by the Italians during the last four days in their attempts to storm the Austro-Hungarian line along the Isongo river, a few miles from the Italian frontier.

The attacks, the reports say, were preceded by three days of terrific artillery bombardment. The Italians then in thick lines of skirmishers, one behind another, charged repeatedly up the heights, the summits of which were held by the Austrians, only to be mowed down by rifle and machine gun fire.

The attacks were repeated six times in two days, and each time declared to have been repulsed with heavy losses. The attackers left large numbers of dead between the lines and many wounded could be seen making their way down by rifle and machine gun fire.

Eugen Lembo, correspondent of the Zeitung Am Mittag, telegraphs an account of the Austrian fortifications on the south of the Tyrol front. The Austrians, he says, not content with trenching on the surface, have blasted galleries in the interior of the mountain summits, which end in chambers for the artillery.

"The muzzles of the guns," the correspondent adds, "thus peer through concealed loopholes in the vertical cliffs from positions utterly inaccessible to the enemy. The infantry positions are similarly blasted into the face of the cliffs and are virtually impregnable. The Italians on this front are devoting their efforts to bringing up heavy artillery and the building of roads, and therefore have not yet launched a vigorous offensive."

MINNEAPOLIS HONORS WILSON FOR HIS COURSE

Minneapolis, Minn., June 22.—"Wilson Day" was observed here today as an endorsement by the people of Minneapolis of President Wilson's conduct of the relations of the United States with foreign countries. The day was proclaimed a holiday by Mayor Nye, with former Governor Vail Sant, vice the principal speaker at a mass meeting, where resolutions praising the president were adopted. A mammoth parade preceded the mass meeting.

GERMANS DENY DESIRE OF PEACE WITH RUSSIA

Frankfurt, Germany, June 22, via London, June 22.—The Frankfurter Zeitung publishes an inspired article from Berlin denying positively rumors which are being circulated in certain quarters of Berlin that negotiations are under way looking to the conclusion of peace with Russia.

MANY ARE KILLED WHEN QUAKE ROCKS LOWER CALIFORNIA

Los Angeles, June 22.—Several deaths are reported at Calexico as a result of an earthquake. Fire is reported to have started in some places. The extent of the damage is unknown. The high school at Brawley, a few miles north of El Centro, is said to have been destroyed.

San Francisco, June 22.—Advice received from El Centro late tonight stated that between ten and fifteen persons were killed by falling walls caused by the earthquake, which occurred about 9 p. m. At 10 o'clock, the report said, two large fires which had threatened the town were under control, but lesser conflagrations still were burning.

San Diego, Calif., June 22.—The town of Calexico, Calif., on the Mexican border, was reported to be in flames late tonight as a result of the earthquake felt in various parts of the Southwest. No details were received, as telegraphic communication has been interrupted.

Los Angeles, Calif., June 22.—Reports from El Centro, in the imperial valley, stated that a severe earthquake was felt there at about 8 o'clock tonight. Electric wires were broken, the report stated, throwing the town into darkness. Buildings were severely shaken.

SISLER'S BALL PLAYING BEATS PENNSYLVANIA

Ann Arbor, Mich., June 22.—Sisler's pitching, batting and baserunning was too much for the University of Pennsylvania baseball team today and Michigan won 10 to 0. Sisler was in the box seven innings, allowed only four singles and struck out eight men. He finished the game in left field. In four times at bat he made a home run and three singles, stole a base and scored three runs.

R. H. E. Pennsylvania . . . 00000000—0 0 2 Michigan . . . 02320030—10 11 1 Batteries: Wisner, Murdoch and Dolan; Sisler, Davidson and Benton.

WEATHER FORECAST.

Washington, June 22.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer Wednesday; Thursday showers.

LEMBERG'S FALL IS DEEMED SURE IN A FEW HOURS

Nothing but a Sudden and Unexpected Blow by Duke Nicholas Can Now Save Galician Capital—London Looks for Almost Immediate Evacuation.

Austro-Germans, Well Equipped, Are Only Ten Miles from City, Held by Poorly Supplied Muscovites—Offensive in West by Franco-British Is Hope of Czar.

London, June 22.—Nothing but a sudden and unexpected blow by Grand Duke Nicholas, commander-in-chief of the Russian forces in the field, can now save Lemberg, the capital of Galicia, in the hands of the Russians for nearly ten months, from returning to the possession of its former owners, but the almost immediate evacuation of the city by the Russians is expected in London.

After yielding on the Grodek lines the Russian armies retired to virtually the outskirts of the city of Lemberg itself. Many unconfirmed rumors have reached London that Lemberg has already fallen.

An unofficial message from Berlin says the Russians have been defeated all along their line in front of Lemberg, and are now fighting for time in order to save their guns and other war material. According to this dispatch the Austrians and Germans are ten miles from Lemberg.

In the opinion of British observers this retirement has been, up to the present time, a well-executed movement. Dispatches reaching London say the armies of Emperor Nicholas are virtually intact and that their ability to resume the initiative, once their ranks have been refilled and their ammunition replenished, has not been greatly impaired.

TEUTONS GET BIG ADVANTAGE.

This interval, however, it is argued here, will give the German allies opportunity to reap the fruits of the victories in Galicia. They will be able to withstand assaults from the east with much smaller forces than they required successfully to attack and large masses of men will be released. Whether these armies are to be used against the Russians farther to the north or against the British and the French in the western arena is a secret of German headquarters.

Discussing the reception in Petrograd of the bad news from the Galician front the Daily Mail's correspondent in the Russian capital says:

RUSSIA WANTS ALLIES' AID.

"An appeal to the country to maintain calmness, signed by the Russian general staff, is posted in public places throughout the city, giving assurances that the whole truth is told in official communications and that wild rumors being circulated are unfounded.

"Military men view the situation without alarm, although admitting it may be some time before Russia is again able to resume a vigorous offensive. They assert that Russia has borne for ten months the chief burden of war, suffering the greatest losses and material, improving the situation in the west.

"While she is reforming for a renewal of the battle Russia looks to the allies to carry the war forward and give Germany no rest. The situation as regards ammunition is expected to improve daily."

6,045,000 AUSTRO-GERMANS.

London, June 22, 12:20 p. m.—A Reuters dispatch from Petrograd says it is estimated there are two million Austrians and Germans on the one-hundred-mile-front from the lower Tanev to Mikolajow and forty-five thousand along the Dniester front. The number of Germans and Austrians from the Baltic to Bukovina is placed at four million.

RUSSIANS CAPTURE 5,000 MEN.

London, June 22, 2:45 a. m.—A dispatch to the Central News from Petrograd gives the following Russian official communication made public Tuesday: "In the Dniester district a complete success has been attained after six days of fighting near Snowidow. The Russians captured over three thousand prisoners."

RETIRE AS FAST AS POSSIBLE.

Austrian Headquarters, June 22, via London, June 22, 12:35 a. m.—Despite the Russian resistance the general Austrian advance in Galicia continues at the normal daily pace. The Austro-German troops have swept through the advanced

BLOODY BATTLE MAY SPELL RUIN TO EITHER SIDE

What Appears to Be the Fiercest and Most Desperate Struggle of the West Is Now Raging—Fate of Northern France Is Declared to Hang on the Outcome.

One Stretch of Field from Arras to Belgian Border Is Covered With Dead for a Distance of Eight Miles—Dunkirk Is Again Bombarded by Big German Gun

London, June 22.—What may prove the bloodiest battle of the war in the western theater is now on in France. In the Vosges the Germans have retired to the east bank of the Fecht, according to their own admission, but they assert that all French attacks have been repulsed.

The fighting around Arras continues to be desperate and sanguinary, the Germans counter-attacking to offset the recent French gains. A wireless dispatch from Berlin says:

BOTH SIDES' LOSSES FEARFUL.

"Neutral reports declare that the battle raging near Arras may decide the fate of northern France. The French are very strong, but the Germans are continuously receiving reinforcements. The losses on both sides are fearful."

One stretch of the field from Arras, eight miles toward the Belgian border, is said to be covered with dead. Dunkirk, on the French coast, was bombarded yesterday by a long range German gun, as was done several weeks ago. At that time the German gun was said to have been located by an aviator and silenced. In yesterday's attack several persons were killed.

DESCRIBES FRENCH OFFENSIVE.

Paris, June 22, 5:55 p. m.—The fighting of May 30 to June 19, resulting in the conquest by the French of the system of works and trenches which the soldiers call "the labyrinth," is described today in a dispatch from an official observer at the front. The labyrinth, lying between Nouville St. Vaast and Ecurie, formed a salient point of the German line and its position was a strong one.

"At the end of May the French decided to finish things and the order was given to take the labyrinth inch by inch," says the observer. "Everywhere except on the right we captured the first line. Behind this were a great number of barricades. We took some of these while others stopped us. One hundred and fifty prisoners, surprised in their holes by the furious charge of the French infantry, fell into our hands.

WOULD USE AIRSHIPS TO BRING WAR TO END

London, June 23, 3:30 a. m.—H. G. Wells, in an article in the Daily Express, argues that a method for ending the war would be for the allies to build and send a tremendous fleet of aeroplanes to the rear of the German lines and destroy all the German ammunition factories. He contends that it would be cheaper to launch 2,000 aeroplanes against Essen than to risk one battle ship.

STEAMER TORPEDOED, BUT CREW IS SAVED

London, June 22.—All the crew of the British steamer Cristobol, sunk yesterday in home waters by a German submarine, have been landed at Fraserburgh, Scotland, according to dispatches tonight. Earlier reports were that thirteen men were missing.

PRISON TERM AND FINE IS DE WET'S PUNISHMENT

Bloemfontein, Union of South Africa, via London, June 22.—Sentence of six years' imprisonment and a fine of £2,000 (\$10,000) was imposed today on General Christian De Wet, one of the leaders of the South African rebellion against the British government, who was found guilty yesterday of treason on eight counts.

SUBMARINE ALLOWS SHIP TO GO AFTER DESTROYING CARGO

Newcastle, Eng., June 22, 11:56 p. m.—The Norwegian mail steamer Venus arrived here today minus the larger part of her cargo of foodstuffs, which was thrown overboard, the captain asserted, under a threat of a German submarine commander that otherwise the Venus would be sunk. This is the first time that a German submarine boat is reported to have permitted a vessel to escape under such terms.

BLOODY BATTLE MAY SPELL RUIN TO EITHER SIDE

What Appears to Be the Fiercest and Most Desperate Struggle of the West Is Now Raging—Fate of Northern France Is Declared to Hang on the Outcome.

SUBMARINE ALLOWS SHIP TO GO AFTER DESTROYING CARGO

New York, June 22.—Confirmation of the much discussed French credit by American bankers was received today when J. P. Morgan & Co. announced the virtual completion of a one-year loan to the Paris branch of the Rothschilds, the latter acting for the French government, the Bank of France, and a syndicate of French bankers. The amount of the loan and its interest yield are not yet to be determined, but it is estimated that the sum is not likely to exceed \$50,000,000 at approximately 5 per cent. It will be secured by collateral in the form of high grade American railway bonds.

SLATON'S COURAGEOUS ACT.

The extent to which Georgia has been stirred by the Frank case was shown by the ominous nature of the demonstration against Governor Slaton when it became known that he had commuted Frank's sentence from death by hanging to life imprisonment. When it is necessary to call out the state militia to protect the life and property of a state executive, public sentiment, or mob sentiment, has been aroused as it has rarely been aroused before.

The impression the country will gain from this surprising episode will confirm the impression made on it by the proceedings that resulted in the conviction of Frank. It has believed that the Georgia public, particularly that part of it that readily flows into mobs, has been so beside itself over the Frank case that there can be no confidence that substantial justice was done. It has seen red whenever the name of Frank has been mentioned, and has been governed in its attitude by an unreasoning hostility, rather than by comprehensive knowledge of the proceedings. It has played to the limit a "hunch" that Frank is guilty.

The manner in which Governor Slaton's action was received carries more testimony than any amount of words could to its courageous nature. He could have had no doubt that it would cause a riot of criticism, if not a mob demonstration. He would have been able to make a strong case for a decision that sent Frank to the gallows. He could have pointed the vote of the board of pardons, two to one, against commutation, and he could have cited the opinions of the prosecution, innumerable attorney lawyers and much excellent citizenship in support of his contention that he had done the right thing.

Public men are not often in a position in which they could have justified the easier thing to do as adequately as Governor Slaton could have done in this case. That he should have chosen the harder way in itself suggests the existence of compelling reasons why he should not permit Frank to be hanged. His statement makes clear what these reasons are. Holding them, he could not have done other than he did, but he deserves full recognition for the strength of character that led him to face the most unpleasant consequences in doing what he thought he ought to do.

That there will be general approval in the country at large for Governor Slaton's course the nature of the comment prior to his action leaves no doubt. Frank may be guilty, but the number of persons who have reached the conclusion that he is not guilty, or that there is so much doubt of his guilt that he should not be hanged, is so great as to leave no question that the evidence was not conclusive, while it is clear that the manner of his conviction was open to serious criticism.

More light may yet be shed on this Frank case. If it is forthcoming, if it is shown that Frank really was not guilty, he will be alive to secure whatever amends can be offered him. It would be a national tragedy in a case like this to have vital evidence uncovered after Frank was dead.

HOW TIMES HAVE CHANGED.

The commercial effects of the European war are manifesting themselves in a widening circle. The fall of sterling exchange in the New York market to the unparalleled figure of a trifle over \$4.77 is interesting, as it shows that a premium of approximately two cents on the dollar is being paid on purchases of American goods through sales of sterling bills. It is believed that this situation is too heavy for England to endure indefinitely, and steps looking to a modification may be expected. Most of the gold that formerly went from this country to the old world has come back. Great Britain could strengthen her position and make exchange more favorable to her interests by sending still larger quantities of the precious metals here, but this she evidently is reluctant to do, as it would lessen her stock of gold at home. It is intimated that Great Britain, as well as other European powers, may have to establish large credits here, and the unusual spectacle of Americans investing liberally in government securities of the old world may yet be witnessed. This is a radical change from the situation existing soon after the beginning of the war, when financial circles of this country were apprehensive

regarding the result of European investors unloading American stocks and bonds on our shrinking market.

PRESENT NOT THE TIME.

Pope Benedict, who is at the heart of things and who until lately has been in contact at the papal court with representatives of all the great warring powers, is quoted in an interview in a Paris newspaper as expressing the opinion that the hour has not come for intervention in the hope of bringing about peace. This opinion should be something of a corrective for much of the loose peace talk that emanates from Washington, and which seriously deals with an alleged possibility that overtures to end the strife will soon be undertaken. It has its origin, it is to be believed, largely with newspaper correspondents who have to keep the pot boiling, rather than with responsible men in the administration, who must see the situation with something of the clearness possible to Pope Benedict, although they are not as close to the scene as he is.

In a general way, the peace talk doubtless originates from a belief that the Germans would now be willing to entertain overtures. And no doubt they would. They are in a most advantageous position. The terms they would be able to demand properly, if the allies wanted peace now, would be most substantial. They have everything to gain from peace this summer, if such a thing can be considered possible, and probably everything to lose by a continuation of the war. If the cold hard fact that early peace can only come at the expense of the allies is frankly faced, the futility of discussing a possible early termination of the war will be very clear, indeed, for it is not conceivable that the allies will stop midway in their great undertaking of making their future safe.

SINKING SWEDISH SHIPS.

Scandinavia, through self-interest, has been long suffering and kind, but even the patience of the north country may be exhausted by continued strain. From Baltic capitals come tales of rising wrath at the continued destruction of Danish, Swedish and Norse ships by submarines, says the Grand Rapids Press. If protests avail nothing Scandinavia threatens reprisals.

Thus far the Baltic countries have endured in silence for several excellent reasons. Like the United States they are more or less unprepared. Sweden, the most militant of the three nations, feared Russia more than Germany and influential Swedes have been inclined to bear with German raids because they believe Germany is doing a good work for Sweden by fighting Russia. More potent than these considerations, however, are the trade advantages which have come to all three countries through the war. Not only are Denmark, Sweden and Norway selling their own products to the belligerents at war prices, but they have become way stations for food and non-contraband supplies from America which eventually are carried across the Baltic to German ports. The British "paper" blockade has led each of the governments to guarantee that no contraband shall pass through their countries, but trade responds briskly to high profits and governments are powerless to shut off such business entirely. Certainly Danish, Swedish and Norse importations are altogether too large for domestic purposes; and the excess must somehow eventually get into Germany.

Scandinavian neutrality is therefore extremely important to Germany. The Baltic nations do Germany more good by remaining neutral than they could even by joining her cause. Sheer folly is behind a military policy nagging those nations into anti-German reprisals sure to result in an almost complete paralysis of trade in food and raw materials.

GROWING NEVERTHELESS.

The war still keeps up an almost complete embargo upon immigration. Since the beginning of the year there has been practically no net gain from that source, the emigrants about balancing the small number of immigrants entering the United States.

In recent years it has been the fashion to speak of this country as depending almost wholly upon immigration for its growth. Of course, students of statistics knew better. They were well aware that in the south, for instance, where immigration has been extremely light, the rate of growth has not been low. They also understood that the net gain by immigration, taking the country as a whole, never accounted for more than half of its increase in population, even in years when immigration was especially heavy.

Now it is very apparent that the lack of immigration enough to make any material difference in the population of the United States is far from stopping the growth of the nation. The republic

is so vast that its natural increase in numbers is great. Without immigration of any kind its growth would be more than 1,000,000 every year. Only Russia and India exceed that rate of expansion.

As will be noted in State Game Warden Oates' discussion of the game laws, as outlined in another column, the last legislature greatly strengthened the hands of the department by amendments to make it easier to cope with violators with success. The Mining Journal has already referred to the provisions making it illegal to shoot partridge from automobiles and to have a net in possession within half a mile of any inland lake or stream. The provision requiring a license from all hunters, and the one making the opening of the bird and rabbit season the same date, also will enable the department to give the birds better protection. The limitation of one deer for each hunter will greatly decrease the kill of this animal. All these requirements are marked gains for effective protection, and the better the protection that is given the more effectively the diminishing quantities of game will be preserved.

Last evening an indignation meeting of the residents of Hubbell was to have been held, for the purpose of protesting against the action of the council in turning over the streets of the village to the Reels Carnival company. Whether or not the protest that will be made to that body will result in a cancellation of the engagement, the incident is enlightening as to the growing realization that carnivals are tawdry and demoralizing affairs, and that they do the community harm more by the vulgarity and crudeness of the alleged entertainment they purvey than by the money they drain out of it. They are bad enough at the best, which is all the more reason that the community permitting them to take over its streets should insist that they should be on their best behavior throughout their engagement.

STATE PRESS

Some men get rich because of their ability to separate others from their coin.—Bay City Times.

The Harvard man who has invented a substitute for sleep must have been living in an apartment house where there were no phonograph restrictions.—Detroit Free Press.

Senor Manuel Tagle is proposed as the next president of Mexico and no doubt he will cheerfully accept the honor, as he is safe in the United States.—Grand Rapids Press.

Villa sends word that he is ready to parley. The Mexicans are great talkers and they can't hold a conversation with a light battle at the same time.—Pontiac Press-Gazette.

It is suspected that the reason the motorist cuts out his muffler is not because it makes him go faster, but because it calls public attention to see how fast he can go.—Flint Journal.

While Speaker Clark has invited all Missouri to the wedding of his daughter, it is not necessarily assumed that Genevieve will be particularly delighted if all Missouri appears.—Saginaw Courier-Herald.

Rumania's entrance into the war is virtually assured, a dispatch says, by a pact which she signed a few days since. The European concert can, by this time, be called a full orchestra.—Detroit News.

We sincerely wish the government would quit issuing statistics on the goods industry in America. Every time we read them we change our order from spring lamb to liver and bacon.—Lansing Journal.

TIMELY QUIPS

Careful Shoppers.
Some ladies don't care to buy a postage stamp without looking over an assortment.—Kansas City Journal.

Artistic.
There is a photograph showing the ear with a rifle on his shoulder. But he wasn't in a trench.—Cleveland Leader.

Very.
Americans may be short of materials for the dyes, but when it comes to the bleachers, there is where we are strong.—Chicago News.

Watery.
Russia seems to have riveted itself on the water wagon by adopting the settled policy that it wants less vodka and more ocean.—Pittsburgh Dispatch.

Thanks!
There's always something to be thankful for. The mud in Kansas is deep, but we don't have to wave around in it shooting at people.—Emporia Gazette.

Snaky.
It might please one belligerent if the United States would force a way through the blockade, but we are not in the business of helping others to tune their own rattlesnakes.—Wall Street Journal.

Educational.
Colorado's lady senator says it took her two years to learn how to keep still. At that, her quickness at learning is creditable as compared with some other legislators one might mention.—Cleveland Plain Dealer.

The earth's fertile regions are calculated at 20,000,000 square miles; steppes, 14,000,000, and deserts, 4,861,000 square miles.

CORAZA HAVANA CIGAR.

EDITORIAL OPINION

Crossing the Ocean.

All those ultra pacifists who have figured that 3,000 miles of Atlantic Ocean are all the defense that the United States needs, and that until this ocean dries up we need no defensive developments of our own; all such pacifists will please note that German submarine No. 51 has voyaged from Wilhelmshaven, Germany, to Constantinople, Turkey. The distance traveled is about 5,000 miles. It is approximately 3,000 miles from Liverpool to New York and 4,800 miles from Yokohama to San Francisco.

It is true that our geographical position is splendidly isolated and that in this isolation lies our liberal defensive advantage. But we cannot afford to depend upon this isolation alone for our security. We must contemplate defensive development which will permit us to capitalize the natural advantages which these oceans have given us. We dare not rely solely upon nature and advantage. But we cannot afford to depend upon this isolation alone for our security. We must contemplate defensive development which will permit us to capitalize the natural advantages which these oceans have given us. We dare not rely solely upon nature and advantage. But we cannot afford to depend upon this isolation alone for our security. We must contemplate defensive development which will permit us to capitalize the natural advantages which these oceans have given us. We dare not rely solely upon nature and advantage. But we cannot afford to depend upon this isolation alone for our security. We must contemplate defensive development which will permit us to capitalize the natural advantages which these oceans have given us. We dare not rely solely upon nature and advantage. But we cannot afford to depend upon this isolation alone for our security. Copper Country

CAPT. F. PETERMANN DIES AT WOLVERINE

Pioneer of Lake Superior, a Resident Since 1858, Passes at the Ripe Age of 78.

Captain Ferdinand D. Petermann, one of the oldest and most highly regarded residents of the copper country, died yesterday morning at his home in Wolverine.

Captain Petermann was the father of Colonel John P. Petermann, commander of the Thirty-fourth Michigan regiment in the Spanish war, and of Albert E. Petermann, member of the legislature from Calumet.

The deceased was a native of Germany, born in 1837. At the age of eighteen he emigrated to the United States and located at Buffalo, where he remained five years, coming to Lake Superior in 1858.

On Dec. 1 the railroad operating steamship lines must abandon the lake part of their business, the interstate commerce commission having ruled that a railroad may not be operating a steamship line.

Mr. Jones says his company is going to attempt to handle at least a large part of this business. To this end it will next season extend its operations into Lake Erie, by making Cleveland its first port of call.

DR. C. L. ADAMS TO CALIFORNIA.

Dr. C. L. Adams, pastor of the Calumet M. E. church, left for Chicago Monday, there to join a brother from the East. The two will go to points in southern California and then will visit the fair at San Francisco, after which they will visit in northern California with a brother whom Dr. Adams has not seen for forty years.

Monday Was Astronomy, Almanac and Weather Man Agree.

Monday was the first day of summer. This is according to the almanac, with the science of astronomy and the weather bureau agreeing. The copper country public is doubtful.

PORTAGE LAKE CLUB TO SEND TWO TEAMS

U. P. Golf Association's Annual Tournament at Menominee Aug. 5, 6 and 7.

F. W. Nichols, secretary of the Portage Lake Golf club, yesterday received from Fred H. Haggerson of Menominee, secretary of the Upper Peninsula Golf association, a notice of the selection of Aug. 5, 6 and 7 as the dates for the annual upper peninsula tournament.

The Portage Lake club is considering the matter of sending a team to the state meet at Grand Rapids this summer. An invitation to do so has been received from the club in question.

While the club's score apparently was not a creditable showing in this company. The invitation is the result of Portage Lake's being runner up last year in the Tom Morris memorial match.

The Portage Lake club is developing a lot of capable golfers, and if the members had the time to participate in more tournaments outside they undoubtedly would show up well.

Looking upon it as an honor for the club to be invited to the U. P. Golf association tournament, the club has accepted the invitation.

Mr. Nichols says his company is going to attempt to handle at least a large part of this business. To this end it will next season extend its operations into Lake Erie, by making Cleveland its first port of call.

Baseball

STANDING OF THE TEAMS.

Table with columns for American League, National League, and Federal League, listing teams and their records.

WHERE THEY PLAY TODAY.

Chicago at Cleveland. St. Louis at Detroit. Boston at Philadelphia. New York at Philadelphia. Pittsburgh at Cincinnati. Brooklyn at Boston. Philadelphia at New York. St. Louis at Chicago. Federal League: St. Louis at Brooklyn. Chicago at Baltimore. Two-base hit—Crawford, Detroit; Shea and Hamilton, St. Louis.

WATER FOR AHMEEK MILLS.

Citizens of Ahmeek Mills have perfected an organization for the purpose of raising funds to defray the expense of procuring water from the village of Hubbell. Already 100 feet of three-inch pipe has been laid. The pipe is furnished by Osceola township, but the individual consumers must stand the expense of making connections and the other work.

SALVATION ARMY SOLICITING.

Miss Ramsey, captain in charge of the Portage Lake work of the Salvation Army, has been advised that two Salvationists from Chicago are in the copper country soliciting for the work in that city. Miss Ramsey says that while these solicitors are authorized she wishes the public to understand they are not soliciting for the benefit of the copper country work and friends of the Army should not contribute to them under a misapprehension.

TO MUSIC CONVENTION.

Mr. and Mrs. W. E. Hopper of Houghton will leave this week for Los Angeles, where Mrs. Hopper will attend the biennial convention of the National Federation of Musical Clubs as a delegate from the St. Cecilia club.

PRESIDENT PAINE HERE.

President William A. Paine, of the Copper Range Consolidated, accompanied by his son and assistant, Ward Paine, arrived Monday from Boston to visit the company's properties. The Messrs. Paine are the guests of Mr. and Mrs. F. W. Denton of Painesdale.

WILL FIGHT FOR ITALY.

Five Calumet and Laurium young men, native Italians, are on their way to New York city, whence they will sail the latter part of the week for Naples. They will report for duty in the Italian army. Consular Agent A. C. Marinelli of Laurium has charge of the five native lads. It is expected that several other Calumet men will go to Europe to take up arms for king and country.

WILL GO TO SPOKANE.

John McLaughlin, who, with Frank Kramer, got back to Calumet Sunday from Port Huron, where they attended the state convention of the Eagles, will go to Spokane to attend the national convention of the order, which will open Aug. 2. Mr. McLaughlin was elected a

Hughie Jennings

Manager of Detroit "Tigers", says "After a red hot finish in a ball game a pipe full of Tuxedo makes victory sweeter, or defeat more endurable. Ee—yah for Tuxedo."

"Come on, boys—Smoke Up! With TUXEDO!" "Ee—yah!" That's Hughie Jennings' battlecry, out there on the coaching line by third base. He's one of the peppier, gingeriest men in baseball; always up on his toes, rooting for dear life, making those runs come in.

Want to get some of that old snappy feeling yourself? Smoke Tuxedo, same as Jennings does. It'll boost you right up into the zingdooyee class of fellows who are always on the go, full of vim and good nature, piling up success

Tuxedo advertisement featuring an image of a Tuxedo cigarette pack and text describing the product as mild and wholesome.

COMMERCIAL CLUB BANQUET. Three Hundred Businessmen at Houghton Dinner Last Night.

The second annual banquet of the Copper Country Commercial club took place last night at the Houghton Amphitheatre, with three hundred businessmen in attendance.

Businessmen's Band Concerts. A committee of businessmen of Red Jacket has arranged for a special series of concerts to be played in the village by the Calumet & Hecla band through the summer months.

Upper Peninsula. A Coming Marriage. The Manitowish Pioneer-Tribune announces the coming wedding of Miss Blanche Virginia Hixon, of that city, and Allan Hubbard White of Meriden, Conn.

Warrants Must Issue, Rules Judge. The practice of presenting attorneys sitting as primary and final judges on applications for warrants of arrest, and denying redress at law for offenses and injuries suffered, has been given a severe jolt by Judge Flaunigan in circuit court, says the Iron River Reporter.

FRECKLES. Now Is the Time to Get Rid of These Ugly Spots. There's no longer the slightest need of feeling ashamed of your freckles, as the prescription ointment—double strength—is guaranteed to remove these homely spots.

Father's Wound Not Fatal. Crazed with drink William Sullivan last Wednesday evening shot his aged father, Michael Sullivan, with a 38-55 caliber rifle, inflicting a flesh wound in the neck that is serious but will not likely be fatal, notes the Iron River Reporter. The bullet was deflected by

COULD NOT STAND ON FEET

Mrs. Baker So Weak—Could Not Do Her Work—Found Relief In Novel Way.

Adrian, Mich.—"I suffered terribly with female weakness and backache and got so weak that I could hardly do my work. When I washed my dishes I had to sit down and when I would sweep the floor I would get so weak that I would have to get a drink every few minutes, and before I did my dusting I would have to lie down. I got so poorly that my folks thought I was going into consumption. One day I found a piece of paper blowing around the yard and I picked it up and read it. It said 'Saved from the Grave,' and told what Lydia E. Pinkham's Vegetable Compound has done for women. I showed it to my husband and he said, 'Why don't you try it?' So I did, and after I had taken two bottles I felt better and I said to my husband, 'I don't need any more,' and he said 'You had better take it a little longer anyway.' So I took it for three months and got well and strong."—Mrs. ALONZO E. BAKER, 9 Tecumseh St., Adrian, Mich.

Not Well Enough to Work.

In these words, hidden the tragedy of many a woman, housekeeper or wage earner who supports herself and is often helping to support a family, on meagre wages. Whether in house, office, factory, shop, store or kitchen, woman should remember that there is one tried and true remedy for the ills to which all women are prone, and that is Lydia E. Pinkham's Vegetable Compound. It promotes that vigor which makes work easy. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

Distressing Rash Covered Face.

Head and Ears of Child. Kept Getting Worse. Very Irritating. Face Quite Disfigured. Used Cuticura Soap and Cuticura Ointment. Trouble Entirely Healed.

Clay Center, Neb.—"I want to tell what Cuticura Soap and Ointment has done for my little girl. Her face, head and ears were just completely covered with a sore eruption. It made its appearance in the form of a rash and kept getting worse and spread until her face and ears were almost a solid mass, very irritating and causing great itching and distress. It made her restless at night and her face was quite disfigured. Nothing we did brought any relief. Finally I decided to give Cuticura Soap and Ointment a trial. I washed her face with Cuticura Soap, dried it lightly and applied Cuticura Ointment. I could notice an improvement with the first application and in two weeks the trouble was entirely healed." (Signed) Mrs. G. O. Slick, July 31, 1914.

Sample Each Free by Mail.

With 32-p. Skin Book on request. Address post-card "Cuticura, Dept. T, Boston." Sold throughout the world.

To Open Meat Market—G. T. Boyers, West 13th street, will open a meat market on the corner of Third and Bluff streets Saturday morning. Mr. Boyers is an experienced man in this line, he having been connected with several large meat packing houses as salesman. A complete set of new fixtures is now being installed, including a large meat cooler.
Water Test Satisfactory—An analysis of the city water made by Dr. R. C. Main yesterday gave the following results: At incubator temperature seven bacteria per cubic centimeter were found; at room temperature 110 bacteria per cubic centimeter. As a final proof of the purity of the water it was found that there was no gas production in lactose bile. This is the final test for sewerage contamination.
Picnic Greatly Enjoyed—Several hundred children, pupils in the Baraga and St. John's schools, and the Sisters who are their instructors, were the guests of the Knights of Columbus at the annual picnic yesterday, at the foot of Crescent street. The children attended mass at 8 o'clock at St. Peter's and St. John's, and then marched to the picnic grounds, carrying American flags. The line of march was nearly four blocks long. At the grounds dinner was served and refreshments were given the children throughout the day. Games and athletic contests were enjoyed. Klamert's band furnished the music.

City Brevities
Today's weather: Fair.
Yesterday's temperatures: Seven a. m., 39 degrees; noon, 55; 7 p. m., 49. Highest, 62 degrees; lowest, 49.
Fred Bennett called on his trade here yesterday.
Rev. Fr. Paquette left yesterday for Lake Linden.
Joseph Barabe was down from Negauce yesterday.
The Castalia arrived at the South Shore dock yesterday.
The board of supervisors will meet this morning at 11 o'clock.
J. E. Stuess, of Negauce, was a business caller in the city yesterday.
P. W. Brown, purchasing agent for the South Shore, left last night for Chicago.
Miss Ruth Beneshok, of Gladstone, is making a few days' visit with friends here.
Mr. and Mrs. W. J. McCormick, of 903 N. Third street, are the parents of a son.
The Lady Maccabees of the World will hold their regular meeting this evening.
Mrs. Robert Blemhuber left yesterday for Saginaw, where she will visit for several days.
Felch Pendill has accepted a position with the surveying crew on the L. S. & L. railway.
Miss Mary Holley, formerly a resident of Marquette, is in the city, the guest of Miss Helen Teeple.
Fred Fonlkes, of Superior, Wis., is in the city on a several days' visit with relatives and friends.
William Rothschild of Chicago, is here on a visit with Mr. and Mrs. L. S. Shauer of Division street.
The yacht Sea Fox, owned by Allan Rees, of Houghton, returned yesterday from a trip to Grand Island.
John E. Hodge, F. F. Fredlund, R. H. Herrick and C. S. Longyear are in the city from Minneapolis, Minn.
The Misses Jennie Delarye and Elizabeth Stuess, of Negauce, are visiting friends in the city for several days.
Miss Corrine Elster, of Calumet, is in the city on a few days' visit with Miss Blanche Primeau, of W. Hewitt avenue.
The members of the board of corrections and charities will be in the city today. They will make an official inspection of the Marquette prison.
Miss Grace O'Rourke, who graduated from the Normal school yesterday, will leave today for her home in Ontonagon accompanied by her mother, who visited here during the commencement exercises.
W. R. Mates, of Saginaw, has opened an office in the city, and will be manager of a northern Michigan film exchange. He has the agency for the Afo feature film service for the upper peninsula.
Work on the new front in the Variety store, which was commenced last week, is being rapidly pushed to completion. The plate glass windows are now being installed, and the new front will be finished in a few days.
A special meeting of Presque Isle chapter, No. 493, O. E. D., will be held Thursday evening at 7:30 sharp. The box lunch has been postponed, but a special program has been arranged. Visiting members will be welcome.
The playground apparatus, which has occupied a place on the corner of Front and Bluff for two years, was removed last week to the North Marquette playground. The work was carried out under the supervision of Mr. Cushman, the playground director.
In connection with the prayer meeting at the Presbyterian church this evening, a service preparatory to communion will be held at 7:45 o'clock. The services will be followed by a joint meeting of the session and the board of trustees of the church.
The fire department was called to Lake street at 10 o'clock last night to extinguish a blaze in a pile of railroad ties stacked up near the gas house. A chimney fire at the corner of Waldo street and Fifth avenue was responsible for an alarm to which the department responded yesterday afternoon.
As Thursday, June 24, is Midsummer day the grocery stores will be closed. They will, however, be open this evening until 9:30 o'clock. The meat markets that will observe the day by closing are: Wm. Dorais, N. R. Bernard, Charles Dorais, Charles Anderson, Anderson & Mellin, Central Meat Market, F. Q. Lewis, Fasshender & Pierce and Bureau Bros.
A large number of Normal students left the city for their homes yesterday. Among them were Ellie Swanson, Veronice Kelly, Marjorie Campbell, Margaret McClellan, Ethel Stoddart, Mami Yoki, Mathilda Zimmer, Mary Shea, Catherine McLennan, Mildred Sodergren, Catherine Carmen Martin, Sissie Lord, Orea Prentiss, Alma Baril, Gustave Rizzardi, Mary Soraruf, Iron Mountain; Anna Standaaway, Mary Hayes, Christ Flaa, Catherine Nolan, Gerald Anderson, Islipening;

Helen Ulen, Marie Michels, Houghton; James O'Neill, Catherine McGee, Hancock; Barbara Hornice, Tena Magnuson, Menominee; Ella Gray, Millicent Pascoe, Classell.
Mrs. John Stolpe, of Marquette, who has been visiting her daughter, Mrs. Ole Peterson, suffered a severe injury through a fall down the basement stairs of the Peterson home. She had stepped over the threshold by mistake for that leading into the kitchen. Her thigh bone was fractured near the hip. Mrs. Stolpe was removed to St. Francis hospital, Escanaba, where she is doing well.—Gladstone Delta.
INSURE WITH PETER WHITE & CO.
A PROSE POEM ON MACKEREL.
I can't overemphasize the beauty of these fish. You must see them for yourself to grasp the reason for my enthusiasm.
Examine them. Look at the shape of them.
See their graceful lines, built like a torpedo for speed.
Look at that fine, solid nose, that beautiful firm back, that powerful two-blade propeller-shaped tail.
Study the stripes and dots.
Like the human finger-print, each mackerel possesses an individualistic design.
No two were ever seen alike. The variations are simply infinite. The flesh is fit for the gods!
What a thing of beauty the mackerel is!—New York Globe.

ALLEGED SHOP-LIFTERS TO GET HEARING TODAY

Hakala Is Expected to Plead Guilty; Woman Admits Complicity.

John Hakala and Lydia Korpi, who were arrested Monday, charged with shop-lifting, on the complaint of John Eunan, manager of the Ishpeming Store company, probably will be given a hearing today.

It is understood that Hakala will plead guilty, but the woman denies the thefts. She did admit to Prosecuting Attorney Kennedy yesterday that she had been Hakala's accomplice for a week. She said she had not stolen anything, but usually held the attention of the clerk while Hakala did the stealing.

The woman told the prosecutor she is not a resident of Henning, Minn., as she stated to the police Monday. She now says her home is in Wisconsin, where her husband is. She said she was on her way to the copper country to visit friends and stopped off at Negaunee, where she met Hakala, who induced her to remain in this country. The two told Mr. Kennedy and Marshal Trevor where they had stolen different articles and the merchants were asked to identify their goods. It is understood that only Mr. Eunan will press the charge against them as the other merchants prefer to have them tried on the one complaint.

The stores from which goods were stolen were Johnson Bros. company, A. M. Myers Mercantile company, Red Cross Drug store, Ishpeming Co-Operative society, and E. A. Johnson, of Ishpeming; and Levine Bros., J. M. Perkins and Peter Rasmussen, of Negaunee. The charge against the pair is petty larceny.

PYTHIANS TO MENEMINEE.

Ishpeming Will Be Well Represented at Upper Peninsula League Meeting.

From thirty-five to fifty members of Zenith lodge, Knights of Pythias, will leave today to attend the annual meeting and degree team contests of the Upper Peninsula Pythian league at Menominee. Nine of the members, John S. Olson, Oscar Lindberg, John Martin, Frank Olson, Harry Peterson, William Hooper, J. A. Biggley, O. W. Nichols and E. O. Bergry, will make the trip in automobiles, using J. S. Olson's and Harry Peterson's cars. They will leave at 5 o'clock.

Among others who will attend the meeting are Arvid Hult, Thomas Holme, Arthur Anderson, Harvey Watters, Matt Richards, George Johnson, George Dunston, Vernon Dunston, Frank Medlyn, Charles Thomas, Al Watters, Henry Endahl, William Millman and Sam Hooper.

The team will compete in both the first and third rank contests. They expect to put on their work either this afternoon or this evening.

MARQUETTE COUNTY SONS TO REUNION

Committee Estimates That from 300 to 500 Will Go to Houghton Next Month.

The transportation committee of the several Marquette county branches of the Sons of St. George met Monday evening to consider plans for attending the annual reunion in Houghton, from July 14 to 17, inclusive. They had received a proposal from the management of the South Shore railway for special train service on the 17th, when the parade, wrestling tournament and other big amusement features will be held. The company offered to run a train for a guarantee of \$350, but inasmuch as a large number of the members and their families plan to go to the copper country early in the week, to reside there for several days, it was decided not to arrange for a special train.

The South Shore is offering a rate of a fare and one-third, or \$3.20, from Ishpeming to Houghton and return. Tickets will be sold from the 13th until the 17th, inclusive, and will be good for return until the 19th.

The Marquette county delegation to the reunion will, it is expected, be between 300 and 500. The South Shore will be asked to provide extra coaches for the morning train of Saturday, the 17th, when a large number will go to the copper country.

The transportation committee for Trelawney lodge, composed of Ed. Betts, William St. John and Joseph Hoeking, and for Sir Humphrey Davey lodge, William Bamford, James Williams and Nicholas Bennett.

Each lodge has appointed a committee of members, but they have not yet submitted reports. It is expected that one band, and possibly two, will go from Marquette county.

Several Marquette county Cornish wrestlers will participate in the tournament. The first prize will be \$75; second, \$50; third, \$30, and fourth, \$20.

It is expected that ten lodges will have delegations in the parade on Saturday. Congressman James, of Hancock, will marshal the parade. There will be prizes for the best appearing lodges and the lodge having the most members in line. Neither Trimountain or Houghton lodges, under whose auspices the celebration will be held, will compete for the prizes.

PLAY OF GLADIATOR DAYS.

"Spartacus," in Eight Reels, at the Lyric Today and Tomorrow.

"Spartacus," George Kleine's latest photodramatic spectacle, which portrays on the screen historic and romantic events attendant upon the revolt of the gladiators against Roman rule, is announced as the attraction at the Lyric theater for today and tomorrow, with a matinee Thursday at 3:50 o'clock.

"Spartacus" is one of the most stupendous things yet conceived and produced in animated photography. It is presented in eight parts, subdivided into three acts, and necessitates the enlistment of seventy-five hundred actors in making its various scenes, of which Rome and Turin were the locale. Spartacus, the Thracian prince and gladiator, is the heroic central figure. Gladiatorial combats and the revolt against the Romans, with its resultant sanguinary battles, in all of which he is the leading character, arouse the enthusiasm of the spectator. It was his overpowering and reciprocated love for the daughter of Crassus, the Roman consul, that is the basis for the love story current throughout the photodrama. The tragic denouement is the dramatic episode portraying the killing of the jealous rival of Spartacus by the lions. He was flung to the waiting jaws by Spartacus when the latter, in the heat of his sweet heart with announcement of his innocence of the death of Crassus saved the gladiator from a similar doom. Gripping, spectacular and thrilling scenes follow each other throughout the presentation of this most pretentious photodrama.

MAY FINISH TODAY.

Board of Review Expects to Wind Up Business This Afternoon.

The stream of callers to the sittings of the board of review was thinned out somewhat yesterday and the members of the board expect to finish today.

A number of changes have been made in the tax rolls, which will be about \$100,000 less than last year. Of this sum, about \$250,000 represents reductions in the valuations of mining properties, and \$150,000 reductions in personal property, exemptions, and the like. Several business men obtained reductions in personal property valuations, as few of the stores have such large stocks as a year ago.

The reductions on the mining property were granted by the state tax commission. The valuations in that estate were increased in a few instances.

Ladies' coats and suits at half price. At Braastad's.

GOOD HEADWAY WITH ROAD.

John Hill and John Snell, who have the contract for the reconstruction of three and one-quarter miles of the main highway between Champion and Michigamme, were in the city Monday, accompanied by Ole Wiggins, who works for them. They are making good progress, in spite of the bad weather, and the hills are now in such condition that automobiles can get over them without assistance from the contractors' teams.

Mr. Wiggins had a close call a few days ago. He and some of the other workmen were practicing shooting at a target, with a twenty-two calibre rifle. As one of the men was preparing to shoot, the gun went off accidentally. The bullet passed through a metal tag on Mr. Wiggins' hat, inflicting a wound in the right side of his head.

Millinery at half price. Braastad's.

"MONEY" STRONG PLAY.

Offering at Ishpeming Theater Today Has Many Sensational Scenes.

"Money," a production of the World Film company, in five parts, will be the offering at Ishpeming theater this afternoon and evening. One of the leading figures is John D. Maximilian, who owns the Maxim Steel Works, where the workmen are discontented with their wages. Crosby, the superintendent, tries to avert a strike by persuading Mr. Maximilian to accede to the men's just demands, but he fails. Partly to show his contempt for labor, Mr. Maximilian spends \$1,000,000 on a wonderful banquet to which he invites the great ones of the earth. Unbridled luxury, profligacy, sensuality characterize the gorgeous function, from which Miss Maximilian withdraws in disgust. It is abruptly terminated by the invasion of the Maxim Steel works employes, who smash up the feast and put the revellers to rout.

In revenge, the abduction of Miss Maximilian is planned, but the plot fails, Crosby's sweetheart being mistaken for the rich girl. Hope nearly loses her life through the shipwreck of a yacht, but she is rescued from drowning by Crosby. Meanwhile, Maximilian's Fifth avenue palace is burned down and he loses his life. Miss Maximilian succeeds to the management of the Maxim Steel works and decrees equitable wages to the men.

The matinee performance will be given at 2:30 o'clock and the prices will be ten cents for adults and five for children. The evening prices will be five, ten and fifteen cents.

ISHPEMING IN BRIEF.

Dr. Gillispie and family are here from Stephenson, having made the trip in his car.

There was a heavy hail storm at the Winthrop Monday afternoon. No hail fell in Ishpeming.

Will Newett and his sister, Miss Marie, have returned from a visit in Chicago and Milwaukee.

Mrs. Richard Williams, of Mohawk, formerly of this city, is visiting relatives and friends in Ishpeming.

Thomas Ludra has gone to the Menominee range, where he has obtained work at the Forbes mine.

The Misses Louise Harwood and Florence Brayton who teach school at Standau, are home to spend their vacation.

The F. Braastad company employes have planned a picnic for tomorrow, Midsummer Day. The firm's stores will be closed all day.

Miss Mae DeTourville will spend the next few weeks in Chicago. She will take an advanced course in dermatology at Burnham's.

Mrs. Charles Cornish came down from the copper country yesterday to visit her parents, Mr. and Mrs. John Verran, and other relatives.

A. R. Wallin, of Rockford, Ill., is relieving E. C. Schimmler, cashier of the Cudahy Packing company, while the latter is on his vacation.

John Mader of Marshall Wells company, Duluth, and A. C. Hansen, of the Christian Knitting Mills, also of Duluth, were in the city yesterday.

The larger shops of the city will remain open tonight until 10 o'clock and will be open tomorrow morning until 10, closing for the balance of the day.

The employes of the Oliver Iron Mining company will receive their wages for the first half of June as follows: Lake Superior mines, Saturday, the 26th; Queen Mine, Monday, 28th, and Steguiller, Tuesday, the 29th.

Thomas McNamara, who has charge of mining properties in Mexico, is here on a few days' visit to his mother, Mrs. Thomas Brazil, and other relatives. He came to Ishpeming from

The Miners' National Bank, Ishpeming, Mich.

Woodward, where he attended the funeral of his brother, the late John McNamara, held Thursday in that city.

The members of the junior class of the Y. M. C. A., who liked to Gwina Monday, did not arrive there until 9 o'clock that evening. They left Ishpeming at 8 o'clock in the morning.

Clyde E. Hoffman, representative of the Lincoln chautauque, which will be in Ishpeming from July 27 to 29, inclusive, will be in the city Friday. He will meet those who signed the contract, to complete arrangements for the ticket campaign.

Miss Minda Kroglund, who the past two years has been employed in the Photo Powder company's office here, has been transferred to the sales office in Duluth. She left for her girl friends' night. A number of her girl friends gave her a farewell surprise Monday evening, presenting her with a traveling bag. C. Hohn, who has been in the

employment of the company here for some time, has also been transferred to the Duluth office.

An interesting baseball game was played Monday evening at the Oliver grounds when the McCabe team of the First Methodist Episcopal church and Harry Lobb's team, known as the Gophers, met, the latter winning by a score of 7 to 1. The teams will play again next Tuesday evening. Donald Moody and Charles Bort make up the battery for the McCabe team. Butts Prin and Henry Johnson filled the points for the Gophers.

WILL GET AFTER BOYS.

J. H. Malloy, Ishpeming agent for the Chicago & Northwestern Railway company, has asked the police to arrest any boys found riding on trains in the Ishpeming yards. Several boys, some of them but five or six years old, have been boarding trains, as they left the station, and jumping off at the Third street crossing. The boys also ride on freight and ore trains passing through the city. Mr. Malloy points to the danger of this practice and asks the Ishpeming police to help him stop it.

Ladies' coats and suits at half price. At Braastad's.

In the year 1913 120,000 persons left the United States with the intention of settling in Canada, compared with 40, 143 in 1912.

CARLYLE SAID:

"It's a grand thing for a man to have had a 'sair fecht' in his youth."

This wise Scotchman believed that when a man had a "sore fight" in youth there would be developed in him just the qualities necessary to win success later on. The history of many a savings account in the First National Bank bears strong testimony to the truth of this statement.

Mining News

SHATTUCK-ARIZONA.

The Shattuck-Arizona Copper company owns a rich, although small, copper mine situated in the Bisbee, Arizona, district. Its ore runs high in copper content with large silver and gold values. The ore does not carry lead in appreciable quantities. When operating to capacity, the company produces 15,000,000 pounds of copper per annum, the cost of which, after crediting receipts from the sale of gold and silver, is ordinarily 7 1/2 cents per pound, or less. With copper at its present price of 20 1/2 cents a pound, the company should, therefore, earn nearly \$2,000,000 per annum, or about \$3.50 per share on 550,000 shares outstanding against a present dividend rate of \$2 per share. On 20 1/2-cent copper the company could very properly increase its dividend rate, as on Jan. 1 last its balance sheet showed current assets of \$7,100,000 against current liabilities of about \$50,000, since which time there must have been a substantial increase in cash.

GRANBY CONSOLIDATED.

Hayden, Stone & Co. say: "With the further increase in production that may be looked for from the Hidden Creek property, it is not at all unlikely that earnings of Granby Consolidated will, for a time, run at the rate of over \$30 per share per annum, though it is hardly likely that this amount will be actually realized in any one year, on account of the difficulty that is met in operating this property at full capacity during the winter months. There is, however, no question but that this new property is going to pay the stockholders a large return on the amount of money that has been invested in it by their company."

LAKE COPPER COMPANY.

Lake should within a few weeks commence to produce copper in small amounts and gradually increase to the capacity of its present equipment. Previously when Lake operated it had to contend with a shortage of labor and low-priced copper which naturally prevented its making a respectable showing. Now, however, labor is abundant and more efficient than ever in the Lake Superior copper district, and with copper at its present price—and Lake's metal commands practically the top notch—the property ought to acquire itself creditably. Lake will never be a big mine nor a low-cost producer, but it can make a very satisfactory profit under the conditions now obtaining.

ALLOUEZ.

Knowledge of the exceptionally fine showing which Allouez is making has raised the hopes of investors and that a dividend will be declared at the meeting of the directors next week. This, of course, is possible, although it can be stated that this far no such decision has been arrived at. In fact, except for casual reference in directors' meeting to the company's improving situation and its bearing on inauguration of dividends the matter has been discussed officially, says the Boston News Bureau. Of the ability of Allouez to pay dividends there is no question. The date when they shall be started depends, however, largely on the say-so of the Calumet & Hecla interests who have by far the largest stake in the property. The Calumet & Hecla treasury holds 41,000 shares of the stock, and in view of the relatively high prices at which it was acquired and the length of time it has been owned, it goes without saying that Calumet & Hecla is quite as anxious as anybody that these shares shall become income-yielding. The Calumet & Hecla position is that while the company's treasury is now in better condition than ever, it will do no harm to err on the side of conservatism and accumulate sufficient cash so that when once dividends are inaugurated they may be continued with some degree of regularity. To do this might, in times of depression in the copper market, necessitate drawing upon surplus, which should be accumulated now. This, however, is not taken to indicate that Allouez dividend will not be declared before the summer is over. The company is producing close to 12,000,000 pounds of copper per annum, its cost is running better than 20 pounds of refined to the ton and costs are below 8 cents per pound. This means a 25-cent copper—earnings at the rate of over \$1,700,000 per annum, or \$17 per share on 100,000 shares outstanding. As Allouez had on June 1 working capital of about \$600,000 it is obvious that it will not take long to put the treasury into such position as will warrant a dividend declaration.

PREMIER UNABLE TO WRITE.

Count Okuma, though he is the author of books and pamphlets and innumerable magazine and newspaper articles, dictates all his work to a secretary and so far as is known has never even written his own signature. The truth of the matter is that he forms the beautiful Chinese characters like a school boy, and, since the autographs of the great are highly prized in Japan, the many expedients have been unsuccessfully tried to get a scrap of his writing. A friend once made an attempt which came near being successful. He pretended to have forgotten how to form a certain Chinese character and asked how it should be written. Count Okuma took up the brush and paper, which had been conveniently placed at his elbow, but the plot failed at the last moment, for he put down the writing material with a smile and traced the character with his finger in the ashes of the hearth—Carl Crow, in "The World's Work" for June.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.

This remedy always wins the good opinion, if not the praise, of all who use it. Mrs. F. A. Hood, Burrows, Ind., writes, "I have found Chamberlain's Colic, Cholera and Diarrhoea Remedy a positive cure for cramps and summer complaint." For sale by All Dealers.

Negaunee Department

POTATO CROP WILL BE SHORT THIS YEAR

Many Farmers, Who Plant in Lowlands, Will Not Have Any Yield at All.

It is likely that there will soon be a marked advance in the price of potatoes that have been carried over from last season. The continued wet and cold weather of the past several weeks has put back the new crop considerably, and new potatoes will not be in the market until later than usual. Meanwhile heavy demands are being made on the old stock, and it is growing less. Any changes in prices will be toward higher levels.

The outlook for the crop in this vicinity varies according to the nature of the ground that has been planted. Farmers who till the lowlands between here and Eagle Mills do not expect to have any potatoes at all. Seed that was planted three weeks ago has not yet sent shoots above the ground. One farmer yesterday said that the seed he planted for early harvesting had only commenced to sprout, when by this time of the year the shoots should be eight or ten inches above the ground.

Experienced potato growers fear that if there is much more rain before the plants have sprouted all of the seed potatoes will rot before they have time to germinate. Some of the potatoes which were planted about six weeks ago on the high lands are just commencing to grow above the ground and it will be several weeks before they will be ready for digging.

Practically every farmer between Negaunee and Eagle Mills planted more potatoes this year than last, anticipating a big demand and high prices. Those who produce large crops will do well, it is said, as there is sure to be a shortage in this region.

The corn crop will also be late this year, as it is far behind the average year. Oats are only about two inches from the ground, whereas at this time of the year they should be nine and twelve inches high. The hay on the highlands is coming up in good style, but there will be a shortage, because of the loss of the large amount which is usually cut in the lowlands.

Negaunee residents who planted gardens early in the spring have yet to have any returns from them. In gardens that were touched by the frost it has been necessary to plant several times. Beans, which should be in blossom now, have nearly all turned yellow, while the lettuce, cabbage, turnip, radish, cucumber, onion, pea and tomato plants have either been killed by the cold or have rotted.

All of the green stuff being sold in the stores is, being shipped here from points in southern Wisconsin and Illinois.

DIED AT SANITARIUM.

Mrs. Elizabeth Anderson, who had been a resident of Negaunee for a number of years, died Monday evening at the Morgan Heights sanitarium, where she had been a patient for the last three months. Mrs. Anderson was thirty-eight years old and is survived by five children, the oldest thirteen and the youngest five years old. Mr. Anderson died at Morgan Heights last September. The funeral of Mrs. Anderson will be held from the Oliver Johnson's undertaking parlors, this afternoon. Rev. F. V. Kava, pastor of the Finnish Lutheran church will officiate.

WON AGAIN SUNDAY.

Escanaba won the game Sunday against the Manistique nine by a score of 9 to 4. Einar Swanson, of Ishpeming, was in the box for Escanaba, and he held the Manistique batters safe all through the nine innings. He allowed eight hits, one a two-bagger, and struck out eight men. The feature of the game was the base running of Murray Boyle, of Escanaba, who stole second, third and home in one inning. Next Saturday and Sunday Escanaba will play the fast Green Bay aggregation at Escanaba.

PICNIC TOMORROW.

The members of the Swedish Lutheran church Sunday school will hold their annual picnic tomorrow at Cleveland Park. Extra street cars will carry the children to the park. The youngsters will leave the church on Cyr street at 9 o'clock. Refreshments will be served from free. Next Sunday morning at 10 o'clock a large class will be confirmed at the church and in the evening holy communion will be given to the members of the confirmation class.

DREADNAUGHTS WON YESTERDAY.

In the opening game of the Playground Baseball league at the high school playgrounds yesterday afternoon the Dreadnaughts won from the Trojans, 13 to 11, after a terrific finish. The contest was watched by a large crowd. The Dreadnaughts had a comfortable lead until the eighth inning when the Trojans started to find their

man and scored eleven runs, tying the score. Then, pounding the ball in the ninth, the Dreadnaughts brought in two runs, enough to win. Clarence Goodman pitched for the Dreadnaughts, Dan Sness and Goodman starred for the Dreadnaughts and Samuelson and Mitchell for the Trojans. Goodman made two wild pitches and Mitchell one.

The Steel Projectiles and Invincibles will play this afternoon at 2:30 o'clock.

SHERRY-STIERLE NUPTIALS.

Frank E. Sherry, of Menominee, and Miss Evelyn Stierle, daughter of Max Stierle, of Marquette, were united in marriage Monday evening at 5:30 o'clock by Rev. Mr. Karr, pastor of the Methodist Episcopal church at Ishpeming. The couple were attended by Miss Louise Stierle, sister of the bride, and Miss Karr. A wedding supper was served at the home of the bride's grandmother, Mrs. H. E. Wood, Iron street. Only relatives of the couple attended. Mr. and Mrs. Sherry left yesterday for Chicago. They will make their home at Menominee, where Mr. Sherry is associated with his father in the contracting business.

Roller skating Thursday afternoon and evening at the Negaunee Roller rink. Evening, 7 until 9, after which there will be dancing until 1 o'clock. Admission, ten cents; ladies, free. Five cents a dance will be charged. Good music. (6-23-21)

LOCAL LACONICS.

Charles L. Sporley spent yesterday at Escanaba.

C. J. Spellman, of Houghton, was in the city yesterday.

Joseph Yell, of Sands, was here yesterday on business.

F. C. Barnhart, of Escanaba, was here yesterday on business.

Joseph E. Sness was a business visitor yesterday at Marquette.

R. Jurnham is here from Duluth to spend a few days on business.

Melvin Elliott has returned from a visit with friends at Marquette.

Captain James H. Rough spent yesterday on business at Marquette.

A Boulson and family have gone to Redruth to spend the summer at their camp.

Ben Webber and Sam McCall arrived home yesterday from a fishing trip to Sands.

Titus Larson, of Little Lake, spent yesterday with Negaunee relatives and friends.

Miss Ellen Nyquist, of Gwinn, is visiting with Negaunee relatives and friends.

Jacob Salo left yesterday for the Escanaba river, where he will fish for a few days.

Fred Ware and Harry Biscombe rode to Marquette and return yesterday on their bicycles.

Mrs. George Barry, of Gwinn, is the guest of her parents, Mr. and Mrs. J. S. Sness, for a few days.

Miss Norine Reidy, who teaches in the schools at Hibbing, Minn., is home to spend her vacation.

A daughter was born Monday evening to Mr. and Mrs. Al Phillips of the South Jackson location.

Mrs. Fred Raymond and son, of Munising, spent yesterday here with E. H. Raymond and family.

Mrs. Brodine has gone to Chicago, where she will submit to an operation at the Augustana hospital.

A solemn high mass will be celebrated tomorrow morning at 9 o'clock at St. Paul's church in honor of the feast of St. John de Baptist. The French societies of the city will attend in a body.

Rev. Father Tostevin, of Perkins, will preach in French Sunday morning there.

WE solicit your business. We are certain it will be valuable to us and we are no less certain it will be valuable to you. We are always glad to consult and advise with those who do business with us and who contemplate placing business in our hands. All matters entrusted to us are held strictly confidential. Three per cent. paid on savings.

Negaunee National Bank

Designated United States Depository

will be two masses at 8 and 10:30 o'clock. Rev. H. A. Buehholz, the pastor, will leave tomorrow for a lake trip to Buffalo.

August Allen and Jafet Rytkonen are spending a few days at the Escanaba river, on a fishing trip.

John Ollio and family have returned from a few days' visit with relatives and friends at Three Lakes.

The dry goods and clothing stores will remain open until late tonight and will close at noon tomorrow.

Andrew Hartvig, A. Libershal and August Anderson, of Marquette, visited with Negaunee friends yesterday.

Miss Ruth Brazau, of Marquette, is visiting with her brother, A. V. Brazau, and Mrs. Brazau for a few days.

Bud Johnson and Dan Bennett have gone to Little Lake, where they will spend a few days at Dan Shea's camp.

Henry Willers, a member of the firm of Peterson & Willers, has gone to Chicago to spend a few weeks on business.

Miss Lampi Parkina, who has been visiting here the last few days with her parents, has returned to Marquette.

Dr. C. J. Tarson is spending a few days on business at Chicago. He expects to return home Friday or Saturday.

Patrik Gaffney arrived home yesterday morning from Chicago, where he has been employed for the last few weeks.

Miss Catherine Crane has returned home from Lansing, where she has been attending the Michigan Agricultural college.

James King, son of W. D. King, departed yesterday for Detroit, where he will take a position in an automobile factory.

Michael Madigan, of Marquette, road master for the Marquette, Munising & Southern railway, was in the city yesterday on business.

Miss Ethel Lee has returned from Winona, where she has been employed as a teacher. Miss Lee has been re-engaged and will return to Winona in September.

There will be a meeting of the Order of Oubs this evening in Williams' hall. Henry Nault has gone to Manistique where he has taken a position with a painting company.

Mrs. George DeFrance, daughter Mae, Mrs. C. A. Johnson and Mrs. Philip Logan and two daughters left yesterday for the Hogan camp at Cascade Junction to spend a few days camping.

John E. Hodge and C. S. Longyear, of the E. J. Longyear company, who were here in connection with the departure of miners for Norway yesterday morning, left last evening for their homes at Minneapolis.

Mrs. Ida Kinsman, who has been teaching school at Detroit the past year, will arrive home today. She will be accompanied by her sister, Miss Myrtle Jackson, who has been visiting in Detroit for the past two weeks.

A crowd of three hundred relatives and friends of the Negaunee men who departed yesterday morning for Norway, where they will be employed by the E. J. Longyear company, were at the depot yesterday morning to bid them goodby.

"His New Job," a two reel Essanay comedy feature, with Charles Chaplin in the leading role, will be the feature at the Star theater tonight. "The First Commandment," a three act Kalem drama, featuring Tom Moore and Marguerite Courtrot, will be the other picture shown.

EUROPE'S SLAUGHTER LISTS.

From April 15 to May 31 the total British casualties since the beginning of the war, according to official statements to the House of Commons, increased from 129,347 to 258,659, or 85 per cent, in seven weeks. This period covers the Battle of Ypres and operations at the Dardanelles.

Considering the size of the British land forces that have been engaged, over a quarter of a million men represent very severe losses. It is significant that the casualties include one officer to every twenty-five men of other ranks. This is a form of depletion that tells very sharply against an army of volunteers like Great Britain's. Its regular army was very small, and by this time has largely melted away. To fit officers for service in leading troops in the field is a far slower process than whipping recruits into shape.

What figures the French losses have reached is not known, although it is reported that their hospitals hold never less than 250,000. Germany has lost probably close to 2,225,000. When the final reckoning is made, it will show a slaughter to bladden forever the history of civilization.—New York World.

WHY SUFFER FROM RHEUMATISM?

When relief from rheumatic pains may be had at so small a cost it is surprising that anyone should fail to avail himself of it. Joseph Capparelli, Canastota, N. Y., suffered intensely with pains due to rheumatism in his limbs for a long time. A friend told him about Chamberlain's Liniment. One application relieved him wonderfully, and a few days' treatment effected a cure. Many others have found quick relief by applying this liniment. For sale by All Dealers.

NORMAL CLASS GETS DEGREES

Bishop Anderson, Commencement Orator, Delivers Notable Address on "The Relation of Education to Life" to the Assemblage at the Annual Exercises.

Urges Expression of Individuality on His Hearers and Exalts the Family as the Foundation of All Social Relations—Annual Dinner Held in the Gymnasium.

The commencement exercises at the Northern State Normal yesterday morning were distinctly the most noteworthy that have been held since the opening of the institution fifteen years ago, both because of the dedication of the new administration building and because of the size and splendid personnel of the graduating class.

After two delightfully rendered recitations by a well trained chorus, the Rt. Rev. Chas. P. Anderson, bishop of Chicago in the Episcopal church, was introduced and delivered one of the strongest addresses ever heard in Marquette on any theme.

The bishop's subject was "The Relation of Education to Life." We must conceive of education, he said, as of everything else that is worth while, as something that can neither be achieved nor properly applied on any basis except work.

The Two-Fold Responsibility. Bishop Anderson discussed the two-fold responsibility of life, first the development of the individual personality, in all its aspects and functions, body, mind and spirit; second, the due recognition of the social relationship in the family, the community, the state and the church.

Everyone, he said, must of course have a proper deference to authority, but men and women must also have the courage to be themselves. They must assert their individuality in a determined way, to influence society, as well as in letting society influence them.

Traced Growth of War. After a fine appeal for a patriotism that is genuine, Bishop Anderson declared that patriotism is not the highest social feeling, but that the world is learning from the untold misery of the present war that patriotism will not rise into international ideals.

A stirring appeal to put the whole consideration of social, industrial and economic questions on the highest moral grounds, in which he urged that none of these things could be brought to pass except through the ideals of Christianity, brought Bishop Anderson's fine address to a close.

The bishop's manner is clear-cut and direct. His epigrammatic style is wonderfully effective. He is undoubtedly one of the greatest speakers that Marquette has yet been privileged to hear.

GAME LAWS ARE STRENGTHENED

Changes Made by Legislature Are of a Nature to Make Enforcement Easier and at the Same Time to Conserve the Game Supply, State Warden Oates Says.

Additional Restrictions in Regard to Partridge and Limitation of Deer to One for Each Hunter Are Valuable Provisions—Some of the Details.

"The game laws were greatly strengthened by the amendments adopted by the legislature," State Game Warden Oates asserted yesterday, when questioned about the nature of the changes the department had finally been able to secure.

"In the latter case perhaps first in importance is the limitation of one deer for each hunter, instead of two, as the law stood before amendment. This will reduce the legal kill approximately 50 per cent. It is a measure of conservation I believe to be urgently needed, for with the wild country being constantly encroached on by farmers and by road extensions, and the number of hunters increasing annually the fate of the deer, as far as general hunting is concerned, would have been sealed unless a larger measure of restriction was provided.

"The partridge will be much better protected by the provision making it illegal to shoot this bird from automobiles and also by the provision making the opening of the rabbit and partridge seasons identical. This year the partridge will be further protected by the amendment providing for a gun license for all hunters. The license will become effective Oct. 1, when the bird season opens, and as hunters will have no business in the woods before that date there should be a marked decrease in the amount of partridge shooting before the season opens.

This Provision Important. "I regard the provision making it illegal to shoot birds from automobiles as most important. This is a particularly deadly form of hunting. Last fall some heavy bags were made between Marquette and Munising by Marquette and Irons. At that time the birds were shot it would have been but a few seasons before they were practically cleaned out in all districts that could be easily reached by automobiles.

"Spring shooting of water fowl is now forbidden by state law. The federal prohibition on this shooting is being fought in some states on the ground that it is unconstitutional, and the Michigan legislature will have to settle this question for the state by expressly putting it under the ban by local statute. Because there was some question whether the prairie chicken was included in the group of game birds for which the season is closed, it was named specifically, and the closed season extended from 1918 to 1920. This group includes the Monongia or English pheasant, quail, black fowl, capercaillie, hazel grouse, spruce hen or Canadian grouse, prairie chicken, wild turkey, killdeer, including shore and meadow birds.

"Because these birds in some localities prey on game fish it is provided that the department may issue permits to hunt, at any time, blue heron, shell drake, terns, and mergansers.

More Protection for Fish. "Turning to the fish laws, the legislature fixed the close of the trout season at September 1, instead of September 15, the better to protect the fish in the early spawning season. This change had been asked by many sportsmen's clubs and will meet with general approval. Protection is now given the steelhead, the open season being from June 15 to the last day of February, and protection is given also to blue gills, sunfish, perch and crappies. While they may be caught at any time, they can only be taken above five inches in length, and it is unlawful to take more than twenty-five in one day or more than twenty-five in possession at any one time. They can only be taken with hook and line, and it is unlawful to sell or buy them. Not more than thirty-five brook trout can be taken in a day and it is illegal to have more than fifty in possession at any one time. All non-resident fishermen must obtain license. The fee is \$1 for fish other than trout, and \$3 for all game fish.

"The extension of the gun license requirement will increase the revenue of the department and at the same time make regulation of hunting more effective. Heretofore it has not been necessary for a resident hunter to secure a license unless he hunted outside the county in which he lived. But under the amended law, all hunters who have to have a gun license, for which the charge will be \$1 for residents of Michigan, \$10 for non-residents and \$15 for aliens. The deer license will be an additional charge, \$1.50 for residents and \$25 for non-residents and aliens. Persons who trap furbearing animals other than beaver must obtain the hunter's license. For trapping beaver the special \$10 license is required.

"The attention of sportsmen was earnestly directed to the changes in the law, with the reminder that ignorance thereof will not be regarded as a sufficient defense in cases of violation. It is the policy of the department to direct its work as much as possible along educational lines. It would much prefer to obtain its results by the co-operation of the hunters and fishermen, and their fullest assistance in making the laws effective is desired."

Cantzonetta. Weidig
Professor Carl Jessen.
"One Hundred Years from Now".
"Mother O' Mine". Toms
R. E. Richard.
Clavotte. Gluck-Brahms
Arage (Storia). Liszt
Professor Carl Jessen.

Theatrical

Marquette Opera House.

The Chin-Yuen-Lee troupe of Chinese illusionists, which has been mystifying spectators at the opera house the last two days, will make its final appearance at the theater this evening. The performers are adept to unusual degree, their act probably the most remarkable of its kind ever seen in this circuit. The tenth episode of "The Black Box" will be shown tonight. It is entitled "The Ship of Horror" and is said to be the most thrilling of the series to date. A comedy production, "Uncle's New Blazer," will round out the picture program.

Delit Program.

"Ma's Girls," a production of the Selig company in two reels, will be shown on the screen at the Delit theater this afternoon and evening. It is a Western drama featuring Tom Mix, the cowboy actor. The picture depicts a rattling good story replete with stirring incidents. "The Thief in the Night," a Lubin drama, will also be shown, as will one of the humorous "Jarr Family" series. The latter, which is by the Vitagraph company, is entitled "Mr. Jarr and the Lady Reformer." Its producers guarantee it will provoke laughter in copious quantities. Tomorrow the Delit will exhibit the much-talked-of photodrama, "The White Mask."

"Hypocrites" Next Monday.

A strikingly novel film will be seen at the opera house next Monday. This is "Hypocrites," a photoplay written and directed by Lois Weber (Mrs. Phillips Smalley) and released by Bosworth, Inc. The play deals with hypocrisy in a daring and original manner, but with all of Miss Weber's artistry and delicacy. One of the inspirations for the story was the painting by A. Faugerson, "The Truth," now in the Paris salon, a painting which has caused more discussion

Improved Banking Hours

Is it not a fact that "banking hours" are usually your busiest business hours?

You can deposit money at this institution any time of day or night. Simply send us your money orders, checks and drafts by mail.

Many concerns use this method of banking and find it satisfactory and safe. Send for our booklet, "Modern Banking," and learn how to bank at your leisure.
