

RUSSIANS TRYING DESPERATELY TO HALT VON MACKENSEN'S ARMY; WARSAW STILL IS HOLDING OUT

Teutonic Advance Northward Into Poland Seriously Threatens Grand Duke Nicholas' Center Path of Retreat--Germans Tightening Both Ends of Arc.

BRITISH SUBMARINE CREEPS TO TURK CAPITAL, RAIDING SHIPPING AND SINKING A GUNBOAT

London, Aug. 2, 11 p. m.—While the Austro-Germans continue to tighten the wings of their great eastern battle front with success at both extremities, including the occupation of Mitau in the north and further progress beyond Chelm in southeast Poland, the situation before Warsaw proper remains unchanged and obscure.

Few additional details have reached London concerning the plans for the abandonment of the city, but apparently the time has not arrived for the Russians to relinquish their precarious hold on the capital, or at least no word of its evacuation has come to London.

TRY TO HOLD VON MACKENSEN.

Ivangorod, southeast of Warsaw, heretofore erroneously reported invested, is now nearing that state in fact, according to the Berlin announcement, but Ivangorod eastward to Chelm, and beyond, the Russians, who had to abandon the railway, are fighting most desperately in an endeavor to hold up Field Marshal von Mackensen's advance northward into Poland, a movement which seriously threatens the Russian center retiring from Warsaw.

FIRE DAMAGES TURK CAPITAL.

There has been no important fighting on the Gallipoli peninsula for two weeks. Reports from Athens say that a serious fire in Constantinople has destroyed three thousand buildings including the military hospital.

The Italian authorities, according to a late estimate, have in their possession something over seventeen thousand Austrian prisoners.

BRITISH SUBMARINE DARING.

The western theater has furnished nothing to alter the situation and it remained for the British navy to furnish an unexpected contribution to the day's news by the sinking of a German destroyer off the German coast by a submarine and a strange assortment of performances by another British under-sea boat operating in the sea of Marmora. The craft not only crept so close to Constantinople as to launch torpedoes at lighters in the Golden Horn, presumably awaiting munitions from the arsenal, but, with its guns, bombarded, and, for a time, tied up, the railway skirting the Asiatic coast, delaying a troop train and causing havoc among the ammunition stores. In addition the submarine considerably damaged Turkish shipping and sank one craft believed to be a gunboat.

The submarine performed the remarkable task of passing beneath the mine fields in the Dardanelles. Altogether this underwater boat, sailing in a direct line to the points attacked, and returning to the mouth of the Dardanelles, traversed at least 250 miles.

London, Aug. 2, 8:50 p. m.—The British admiralty tonight announced that a British submarine had returned and reported the sinking of a German torpedo boat destroyer believed to be of the G-196 class on July 26 near the German coast.

The German destroyer G-196 was completed in 1911. The vessel displaced 680 tons and was capable of traveling at a speed of more than thirty-two knots an hour. She was fitted with two twenty-four pounders and three torpedo tubes. Her complement in normal times was seventy-three officers and men.

London, Aug. 2.—Three more British vessels have been torpedoed by German submarines. They are: Steamship Clintonia, sunk off the coast of France. French snappers rescued most of the crew.

Steamer Fulgins; crew landed. Steamer Beverlich; sixteen of the crew landed, rest supposed to be still in boats.

Both of the latter two boats, were sunk in home waters.

Portland, Ore., Aug. 2.—Shoe reform was discussed here today at the opening session of the nineteenth annual convention of the American Osteopathic association.

GERMANY BUYS TRINKETS IN AN EFFORT TO OBTAIN MORE COPPER RESERVES

Berlin, Aug. 2, via London, Aug. 2, 2:45 a. m.—Large crowds of women and boys flocked to the Berlin gas works and market halls today, carrying copper kettles, pots, desk ornaments and other articles, in accordance with the recent request of the government that the metal supplies of the country be delivered to it for public purposes. This mobilization of copper will occupy three days. Today's deliveries yielded enormous piles at each receiving depot. The government pays cash for each copper article at the market price. The metal obtained today covered only part of the available supply, since wire and the roof plates of museums, churches and other public buildings, which will aggregate enormous quantities, remain untouched. This metal will be called for until it is needed.

ALLIED PRESS SARCASTIC IN REFERRING TO KAISER'S CLAIM HE DISLIKED WAR

Paris, Aug. 2, 9:50 p. m.—Emperor William's address to his people on the anniversary of the war was the subject of lengthy and sarcastic comment today in the French press.

GERMANS IMPOSE HEAVY LEVY.

Petrograd, Aug. 2, 1:30 p. m., via London, Aug. 2, 6:40 p. m.—Refugees from Windau on the Baltic, who have arrived at Riga, relate that the first act of the Germans in taking possession of Windau was to impose a levy of fifty thousand rubles (\$25,000) to be worked out by the inhabitants of the city on the roads and bridges and on their farms.

WARSAW WAS IN A PANIC.

Warsaw, July 31, via Petrograd, Aug. 2, 1 p. m., to London, Aug. 1, 6:20 p. m.—The information that the Vistula line was to be abandoned by the Russians and the beginning of the removal of factories, government institutions and hospitals created intense excitement among all classes of the population of the Polish capital. It was feared that the military authorities might deem the evacuation of the city by the inhabitants a military necessity and would destroy a great part of the city to prevent its use by the Germans as a base.

AMERICAN CONSUL CLERK IS RELEASED AT BERLIN

Berlin, via London, Aug. 2, 7:45 p. m.—Harris L. Wilson, of Portland, Ore., and Washington, the clerk in the American consulate in Berlin who was arrested last week on a charge made by the German authorities of assisting a British subject to obtain an American passport in order to escape from Germany, will be released tomorrow, at the request of the American government, and sent back to the United States.

SAY GREECE WOULD GO TO THE AID OF SERBIA

London, Aug. 3, 3:55 a. m.—A dispatch to Reuters' Telegram company from Athens says that the Greek newspapers, without distinction as to party, in commenting on the Turko-Bulgarian entente, say that in case Bulgaria wishes to attack Serbia, Greece would prove that the Greece-Serbia treaty is not a vain word and would consider it an obligation of honor to aid Serbia immediately.

New York, Aug. 2.—The allies are preparing to continue the war for at least three years more, if necessary, according to William Ellis Cory, former president of the United States Steel corporation, who arrived today from Bordeaux.

DELIVER NEW DESTROYER TO THE U. S. GOVERNMENT

Philadelphia, Aug. 2.—The new torpedo boat destroyer Ericsson, built by the New York Shipbuilding company, was delivered to the government at the Philadelphia navy yard today. The Ericsson, which is 200 feet long, has engines of 17,000 horse power and on her trial trip developed a speed of twenty-nine knots.

NEUTRAL RIGHTS TOPIC OF NOTES BEFORE LANSING

Three Communications from Great Britain and One from Berlin Are Under Consideration at the State Department, All Relating to Trade With Belligerents.

GERMANY, IN ITS DOCUMENT, DEFENDS ATTITUDE TAKEN TOWARD THE DISPOSAL OF W. P. FRYE CASE; LONDON MAINTAINS ALLIES MAY INTERFERE WITH ANY SHIP.

Washington, Aug. 2.—Three notes from Great Britain and one from Germany, all dealing with the commercial rights of neutral nations in war time were before Secretary Lansing tonight.

The British notes probably will be given out for publication Wednesday morning and the German note for the following day.

The British notes are long communications defending the allies' efforts to suppress trade between their enemies and neutral countries, even by the stoppage of abnormal commerce through the neutral countries of Europe adjacent to the Teutonic allies.

GERMANY DOESN'T ALTER STAND.

The German note, continuing the discussion over the sinking of the American ship William P. Frye by a German commerce raider, deals with the American contention that not only international law, but special provisions of the treaty of 1828 between the United States and Prussia had been violated. The note makes no substantial change, it is understood, in the original German contention that while the treaty of 1828 does confer special privileges and exemptions upon American shipping, these all can be met and the right still reserved to sink merchant ships if the owners are compensated.

BERLIN WAITS NOTE TO BRITAIN.

Berlin, by Wireless to Sayville, L. I., Aug. 2.—Among the items prepared today by the Over-Seas News agency for transmission by wireless telegraphy abroad was the following:

"Notwithstanding reports to the contrary the German government has not yet decided whether the American note regarding German submarine warfare will be answered. The government awaits the text of the announced American note to Great Britain before deciding what further steps will be taken."

NOTORIOUS BANK ROBBER GETS TWENTY-FIVE YEARS

Henry Starr, Bandit Who Tried to Reform, but Failed, Pleads Guilty to Hold-Ups.

Chandler, Okla., Aug. 2.—Henry Starr pleaded guilty to bank robbery today in the circuit court and was sentenced to twenty-five years in the penitentiary. A jury was being impaneled this afternoon for the trial of Claude Sawyer, one of Starr's alleged accomplices.

Henry Starr, last of the Starr gang of bandits was charged with the robbery of two banks of Stroud, Okla., into which he led his gang last March and took an aggregate of \$5,000. Starr was arrested after the robbery and four of his men—Claude Sawyer, "Bill" Maxwell, Charles Johnson and Louis Estes—were captured and are awaiting trial.

Henry Starr's life has been full of action. He has made rich hauls in bank robberies, engaged in the looting of trains, battled with jesses seeking to arrest him, aided in quelling a jail-outbreak and unsuccessfully tried following a pardon by President Roosevelt in 1903 to reform.

Henry Starr was born in Fort Gibson, Okla., Dec. 2, 1873. His father, George Starr, was a respectable full-blooded Cherokee Indian. His mother, Mary Scott, was a quarter blood Cherokee. Of the three children, Henry was the youngest. He attended a Cherokee National school until he was eleven years old. In 1891 Starr began work on a ranch near his home. A horse was stolen. Starr was arrested, taking Pont Smith and placed in jail. In two days he was acquitted.

Some time later, while on his way through Nowata to the Indian payment grounds, Starr was asked by a stranger to carry a grip to the grounds. Starr put the grip in his buggy and drove on. United States marshal stopped him and found the grip contained whisky.

"They took me to jail at Muskogee," said Starr. "There I was only a kid and father and mother had brought me up to think it was an awful disgrace to be in jail. I was innocent. When I got out I felt I was less than a dead as disgraced. I came out with blood in my eye."

Starr, with a companion, committed his first robbery in July, 1892, holding up the express office at Nowata. Starr was arrested, and jumped his bond. He returned to Nowata in less than a month and killed Floyd Wilson, a deputy marshal, when Wilson attempted to arrest him. Starr then escaped to the Osage hills in Northern Oklahoma.

URGES "FOOD THEFT" TO OFFSET HIGH COST

Kansas Health Official Asserts Cheaper Fruits Often Are the Most Nutritive.

San Francisco, Aug. 2.—Relative food values and increases in the price of foodstuffs were discussed today by Dr. S. J. Crambaine, secretary of the Kansas state board of health, at the Panama Pacific Exposition.

Dr. Crambaine first called attention to the inevitable increase in the price of food, and, in making a plea for "food theft," declared that the cheaper grades of fruit sometimes were the more nutritive.

"It occurs to me," he said, "that at least in some instances the marketing of often inferior grades of food in fancy containers, together with the use of brilliant labels, is bordering very closely on the prohibition in the law that foods must not be made to appear better than they really are. If the truth were known of the actual caloric value of many of the fancifully packaged foods, their sale would encounter a heavy slump."

"Probably the greatest waste in food products in this country occurs because of improper methods of gathering and marketing. This applies to berries, fruits, many vegetables and notably to eggs."

"Sufficient experimental work has already been done to show that excessive heat in the preparation of foods destroys vital principles and so it is found that in sterilizing milk and in canning most of the foods, the process deprives them, to some extent, of their vitamins. We are just beginning to understand how it is possible that in the midst of plenty, people may be actually starving—starving in the sense that normal metabolism is interfered with, producing a disease which ultimately proves fatal."

"It is now pretty generally accepted that that mysterious disease, pellagra, is a disease of metabolism, induced, in all probability by the monotonous diet of the poor—who live in a very large measure out of the ear."

BULL MOOSERS WHO PLAN RETURNING TO O. O. P. GIVEN GODSPEED BY T. R.

Oyster Bay, N. Y., Aug. 2.—Colonel Theodore Roosevelt who reached here this morning from his western trip, issued a statement tonight relative to the recent published announcement of some of the Progressive party leaders in New York state that they intended to enroll with the Republican party this year.

"As regards the Progressives who have announced their intention of enrolling as Republicans in this state, I have nothing to say," he said.

"I promised President Roosevelt I'd be good," said Starr, recently. "I meant it. Why, I named my boy after Roosevelt—Roosevelt Starr."

After his pardon in 1902, Starr married, went to Tulsa and engaged in the real estate business. In 1907 he moved to Skiatook, Okla. With his wife and son he attended the inauguration of C. S. Haskell as first governor of Oklahoma. Starr believed that he had re-established himself.

But the state of Arkansas had not pardoned Starr, and he was still a convict. (Continued on Page Five.)

U. S. WILL ASK THE COOPERATION OF CENTRAL AND SOUTH AMERICA IN SETTLING MEXICAN PROBLEM

Diplomats From Argentina, Brazil, Chili, Bolivia, Uruguay and Guatemala Invited To Confer at State Department on Question---No Armed Intervention Planned.

VILLA TAKES ALL MERCHANDISE IN CHIHUAHUA; LEADER REPORTED CONTEMPTUOUS OF AMERICA

Washington, Aug. 2.—The United States has decided to ask the co-operation of South America and Central America in the next step to restore peace to Mexico.

The ambassadors from Argentina, Brazil and Chile, and the ministers from Bolivia, Uruguay and Guatemala have been asked to confer with Secretary Lansing here Thursday.

While the state department characterized the coming conference as an informal one the sentiment has been growing among American officials that the next step in the Mexican situation should be one which would meet the approval of the world and would be taken in concert with the nations of Central America and South America, even if in the last event the trend should be toward military action.

QUESTION IS A COMMON CAUSE.

Action in concert with Central America and South America is planned to show that the United States considers the Mexican question the common cause of the Pan-American group and that this government entertains no idea of territorial aggression, but is acting solely as Mexico's nearest powerful friend and neighbor.

ARMED FORCE IS NOT PLANNED.

At this stage it is not believed that military operations are being contemplated as a next step. It is known, however, that if the situation should come to pass where armed force might be necessary to open the railway to Mexico City for protection of legations and non-combatants, or should an armed occupation be necessary as a prelude to restoration of constitutional government.

HOYNE AND REDFIELD IN TILT ABOUT PROBE OF CHICAGO DEATHSHIP

Chicago, Aug. 2.—Conflict between the department of commerce and State's Attorney Macley Hoyne arose today during the investigation of the steamer Eastland disaster because Robert Reid and C. C. Eckloff, federal steamboat inspectors, who gave the Eastland its last license, were brought together before Secretary of Commerce Redfield and the steamboat inspection service board.

Application for a writ of habeas corpus to take the inspectors from state custody was filed with Federal Judge Landis by the inspectors' attorney after a consultation with A. L. Thurman, secretary of the department of commerce. Judge Landis will hear the case tomorrow.

KILLS WIFE, HER SISTER AND BROTHER, AND THEN ATTEMPTS HIS OWN LIFE

Chicago, Aug. 2.—Leaving a young woman, over whom he had had trouble with his wife, in his automobile in front of the house, George H. Jones, forty-eight years old, a garage owner, today entered the home of his brother-in-law, and shot to death his wife, her sister and her brother, and tried to slay his own son. He then returned to the automobile, drove the young woman home and tried to commit suicide.

NEGRO ADMITS MURDER OF MISTRESS, POLICE SAY

Murphysboro, Ills., Aug. 2.—Joe Deberry, the negro servant under arrest at Harrisburg for the murder of Mrs. J. H. Martin, confesses the crime today, according to the police. Mrs. Martin was slain in her home here Friday. The authorities say Deberry said he was "gin-crazy" and angry because Mrs. Martin insisted that the dinner dishes be washed. Deberry wanted to go to town and when Mrs. Martin asked if he were intoxicated he became angry and struck her down with a poker.

Green Farm Transferred.

Asquith brothers of Waterloo, Iowa are now owners of Hemlock Farm at Green, Ontonagon county, which was developed by Thornton A. Green. A year ago he was compelled to sell it as the pressure of business did not allow him the necessary time to look after it. It was sold under contract at that time to W. H. Hosmer of Dubuque, Iowa, who found himself unable to swing it as it should be handled, and he has just sold the place to S. A. and F. R. Asquith of Waterloo, who will stock the farm at once. This farm has a water system, electric light plant and an up-to-date dairy farm and milk plant. Due to Mr. Hosmer's inability to handle the farm, it has been practically at a standstill for a year. Harry Brainerd is now in charge of the farm.

Houses at White Pine Location.

Excavation work has been started for fourteen new modern houses at the White Pine location, Ontonagon county. Two of these will be very elaborate, one being for the Superintendent, T. H. Wilson, and one for Mr. Gould, efficiency engineer. Five will have eight rooms each and several will have six rooms each. All will be modern in all particulars. The foundations will be concrete. These are being built by the mining company, while Ed. Ulseth of Calumet has a contract for the wood-work. The lumber has been purchased in Ashland and is to be safely delivered at the Iron River dock, where W. J.

Child's Injuries Fatal.

A fractured skull, resulting from a fall of twelve feet from a second story porch to a board walk, resulted in the death of Allen James Cairns, the 14-month-old child of Mr. and Mrs. James Cairns, Parmeter street. The child had been playing on the rear porch, and crept near a place large enough for him to crawl through between the railing and the porch. His mother and an uncle were in the house at that time and when the parent went out on the porch the child disappeared through the railing. At first it was not thought by physicians that the skull was fractured and hope for its recovery was entertained. The child remained unconscious after the fall. An operation was performed at the St. Joseph's hospital which disclosed the fractured skull. The child did not regain consciousness after the operation.

Sold Utah Lands.

I. N. Bushong has returned to Gladstone from Salt Lake City, where on behalf of the Hammel estate, he has arranged a sale on contract of the lands owned by the defunct bank in Millard Co., Utah. There are 350 acres, for which he secured a price of \$40 an acre, payable on installments in seven years. "It is impossible," says Mr. Bushong, "in the present condition of the lands, to obtain a cash price for them. The purchasers will clear them, put water on, and bring them under

If investigation shows that the film is not objectionable, it will be shown at a later date. The picture is adapted from Rufus Steele's story in the Saturday Evening Post.

Fix Bonds at \$20,000—Samuel Korpi, charged with feloniously and brutally assaulting a woman who was employed on a farm just outside of the city, was yesterday afternoon bound over by Justice S. E. Byrne to the next term of circuit court under bonds of \$20,000. Justice Byrne fixed the bonds so high that there will be no possibility of Korpi's liberation before his hearing. Korpi has a record which, in the opinion of the authorities, brands him as a dangerous criminal.

Makes Record Catch—A six-pound speckled trout which A. H. Westlake caught Sunday at the mouth of the Rock river was exhibited yesterday at A. C. Richards' sporting goods store on Washington street. The trout is conceded to be the largest caught this season in the waters around Marquette and it is likely that a fish of similar size has not been landed in several years. Mr. Westlake was accompanied by Frank Withey on the fishing trip

and together they brought in an exceptionally fine mess of fish, five of which weigh 19 1/2 pounds, the individual weights being six, four, three and three-fourths, three, and two and a half pounds. The big fish will be entered in the Field and Stream Publishing company's contest.

INSURE WITH PETER WHITE & CO. WAITS 21 YEARS FOR BOARD BILL IN VAIN.

Hoboken, Aug. 2.—Always expecting she would be remembered in his will, Mrs. Anna Behrmann for twenty-one years let the board bill of Henry Kampen, Hoboken grocer, run on unpaid, and for eight years nursed and fed his invalid son without pay. When the grocer died he left Mrs. Behrmann his personal property, but after his debts were paid nothing was left. There was really valued at \$40,000, so Mrs. Behrmann sued the estate for \$16,712. She claimed she was entitled to \$12 a week for caring for the father and \$8 a week for the son. Before Judge Speer, in the county court house, Jersey City, the jury gave a verdict for \$1,500.

NOTICE. Members of Superior Hive will hereafter pay assessments to Mrs. May V. Wills, finance keeper, 518 W. Washington street. (7-27-15)

20,000,000 POUNDS OF TEA HELD FOR ARMY

London, July 29.—(Correspondence of the Associated Press.)—Twenty million pounds of tea, about one-fourth of the bonded warehouse stock in the United Kingdom, is stored in the Port of London's Cutler street warehouse, awaiting the orders of the war office. It is intended for the supply of the British forces at home and abroad. The bulk of it has come from India and Ceylon. About twice a week orders are received for the dispatch of certain specified quantities, according to an approved sample supplied by the war office. Fifty thousand pounds is about the usual size of the order.

As soon as the order is received, the warehouse officials analyze the samples, and prepare instructions as to the particular classes and quantities which must be blended to produce the required bulk. Chests are opened by the hundred and their contents are heaped together until the observer sees before him a veritable mountain of tea. While men known as feeders continue to add to the heap, other employes with wooden shovels are set to work blending the tea. Fifteen or twenty men are engaged in the work which requires considerable skill. The thoroughness with which the blending is done is ascertained by expert "tasters." The tea is put up in stout tins, generally containing 15 pounds each, and two of these tins are put into a wooden case.

NOTORIOUS BANK ROBBER GETS TWENTY-FIVE YEARS

(Continued from Page One.)
forgotten the Bentonville bank robbery. It has an indictment hanging over Starr and when Oklahoma came into the Union, the Arkansas authorities got a requisition for Starr and asked Governor Haskell to honor it.
"I didn't know what the governor might do, so I hid out," said Starr. "I couldn't afford to go over there. They would have handed it to me for life. I went up into the Osage country and arranged with a friend to call me by telephone and give me the decision of the governor. One day he called and I understood him to say: 'He has granted it,' but what he said was: 'He hasn't granted it.' And so I fled.
"That mistake of one word put me in the brush again. I had to dig in. Banks were being robbed in Oklahoma about this time and Starr was blamed.

All afterward were proved the work of others but Starr found it necessary to leave the state. In June, 1908, he robbed the bank at Amity, Colo. He was arrested a year later and sentenced to from seven to twenty-five years in the Colorado state prison. Good behavior won a parole.
"After my release I went to Holly, Colo.," said Starr. "I saved up and started a little restaurant. But I couldn't stay there. The people were afraid of me. I was living straight but I couldn't reconcile them. Finally the warden of the prison let me go to Wyoming.

All Were Against Him.
"I went to Wyoming with \$10. I had to go under my right name. I hunted work. I worked on the section for \$1 a day. I cut glass; I dug ditches; I worked in a furniture store; but every time I got a job some one would point me out as the bad man from Oklahoma and they kicked me out. I couldn't light any where, I couldn't 'beat back.'
"Last June I was out of a job and couldn't find one. I started for home one night on a freight train. I brose my Colorado parole. I got home June 11, last. I stayed around till September and meanwhile banks were robbed in Oklahoma. They blamed them all on me, but I didn't have a hand in them. It was for his son that the bandit held up the Stroud bank.
"I wanted to make a stake for him," said Starr. "I wanted to make a big haul, fix the boy out and go off somewhere and be forgotten."
The robbery of the bank at Stroud was the most daring in the history of Oklahoma. On March 27, 1915, Starr and his men rode into the town tied their horses to the stock yards fence, left one of their number in charge and proceeded to the two banks. The officials of the two banks were covered with revolvers and \$5,000 in currency was taken. As the bandits were escaping Paul Curry, a fifteen-year-old boy ran into a butcher shop and obtained a short barreled rifle used for killing hogs. He fired at Starr. The bullet struck the outlaw in the leg, shattering it. As Starr fell, Curry shouted: "Throw away your gun or I'll kill you." Starr did. Louis Estes, one of the gang, was wounded, but, with the others, escaped. Estes, Claude Sawyer, "Bud" Maxfield and Chas. Johnson, later were captured.
"I am a bank robber and have been caught; that's all that is to it," said Starr, following his arrest.

POLICE HAVE TO HANDLE CROWDS SURGING TO SEE CHAS. BECKER'S FUNERAL
New York, Aug. 2.—The funeral of Charles Becker, executed in Sing Sing prison Friday for instigating the murder of Herman Rosenthal, was held today from the church of St. Nicholas of Tolentine, the Bronx. So great was the crowd around the church and the Becker home, nearby, that police reserves had to be called. One carriage was filled with floral tributes. The largest of these was a floral cross bearing the inscription "sacrificed to politics."
Those who saw the casket noticed that it bore a new plate reading "Charles Becker, died July 30, 1915," a plate removed by the police here the allegation that Becker was "murdered by Governor Whitman."

MACHINISTS MAY CALL STRIKE IN NEW ENGLAND
Boston, Aug. 2.—Officers of the International Machinists' union, who are in this city in connection with the movement to obtain increased wages and shorter hours at plants where munitions of war and machines for their manufacture are being made, tonight received telegrams ordering them to attend a general conference to be held at Hartford, Conn., next Sunday. According to one of the vice presidents of the union the conference will consider the expediency of calling a general strike at all war munitions plants in New England, which have not at that time granted the union demands.

TRAVEL TO CALIFORNIA THROUGH A MAZE OF SCENIC WONDERS.
The enjoyment of sightseeing is the main reason why you are going West this year—therefore, you will want to select a route that will provide the utmost in scenery and service.
The cool northern route of the Chicago, Milwaukee & St. Paul railway to the Pacific North Coast is pre-eminent for the route of thrilling mountain views. It penetrates the heart of three great ranges—the Rockies, the Bitter Roots and Cascades—with every mile of the journey disclosing some new vista of loveliness—all close at hand, to be enjoyed from the all-steel, across-continent trains. "The Olympian" and "The Columbian."
Side trips to the wonderland of Yellowstone can be made from Butte and to Rainier National Park from Tacoma. If desired, you can leave the train at St. Maries, Idaho, and without extra cost take the "Trip of Shadows," a forty-mile boat trip down the picturesque "Shadow" St. Joe River to Spokane, where the journey to the "Milwaukee" is resumed. This is an exclusive feature of this route.
From Seattle and Tacoma you journey south over the Rainier-Shasta route to California, thence return home direct from either Los Angeles or San Francisco, on the steel-equipped "Pacific Limited" over the Central Route of the "Milwaukee."
In this year of low fares you can see a vast extent of the wonderful West at moderate cost. Investigate now. Send or call for western travel literature and full information. Address local agent of the Chicago, Milwaukee & St. Paul Railway.

Looking for Forger.
City and county officers are still searching for the person signing himself Edward Graham to the check issued on A. M. Chestrough and cashed at Hayden's saloon at Marquette. Sheriff Orr brought in a man from Thompson, by the name of Graham, but he failed to answer to the description given of the man who cashed the forged check. So far only one check is known to have been issued for \$24.50 and it was cashed at Hayden's saloon on Wednesday. However, it is thought that more checks have been issued in other parts of the county.

Boy Drowned in River.
John Zambrowitz, son of Mrs. A. Zambrowitz, Ayer street, was drowned while swimming in the Montreal river near the pumping station at Ironwood. Young Zambrowitz, in company with several other boys, had been playing about the river all day. While attempting to cross, he was seized with cramps and sank before aid could reach him. The water is about ten feet deep where he went down, but several youngsters dived in after the body and succeeded in bringing him to surface immediately. Aid was sent for, but Zambrowitz died before the doctors arrived. The boy was thirteen years old and leaves his mother and four brothers and two sisters to mourn his loss. Alfred Zambrowitz, the father of the lad, was one of the miners killed at the Norrie mine four years ago, when thirteen men were imprisoned by a cave-in.

Replacement of all horse-drawn vehicles by motor service wagons and auto trucks has been recommended by Herbert E. Fay, superintendent of the San Diego water works department.

Lumberjack Struck by Train.
A lumberjack named John Saari was picked up early Tuesday morning lying along side of the Northwestern water tank at Hurley with his left leg and right hand badly mangled and brought to Runstrom's hospital, where it was found imperative to amputate his leg below the knee and a part of his right hand. Nothing is known how the accident occurred, but it is thought Saari either attempted to catch a passing ore train or that he was struck by a train while sleeping near the tracks. Saari had been working in a camp near Saxon and Monday cashed a forty dollar check in one of the Hurley saloons

DR. EDW. A. GOURDEAU PASSEDAWAY YESTERDAY

FIREMEN LEAVE TODAY FOR MANISTIQUE MEET

Wellknown Ishpeming Physician a Victim of Cancer of the Throat.

Dr. Edward A. Gourdeau died yesterday afternoon at Laurier's camp, at Little Lake, where he spent the last month.

Dr. Gourdeau's death was not unexpected by friends as he had been failing for some time. Death was due to cancer of the throat, from which he suffered for about a year.

Dr. Gourdeau knew for more than six months that his death was a matter of only a short time. On Jan. 15 he went to Chicago for consultation with Dr. Murphy and other surgeons. They told him there was very little hope of a cure. He took X-ray treatments and desired to take the radium treatment.

The Chicago physicians told him that would not cure him. He made a second trip to Chicago in March, but remained only a few days.

Dr. Gourdeau was one of the best known physicians in the upper peninsula and was regarded as one of the ablest. He was known to be generous and did a much charitable work in the country. Dr. Gourdeau never pressed a patient for money, and it was largely because of his generosity that he did not acquire wealth.

Dr. Gourdeau was born in Canada sixty-three years ago. He was graduated from the medical department of McGill college, Montreal. After completing his course at McGill he began the practice of medicine in Alpena. He remained in Alpena only a short time, when he came to Ishpeming, more than forty years ago. He had been located here ever since.

Mrs. Gourdeau died here about twenty years ago. Dr. Gourdeau is survived by two sons, Edw. and Grover, and two daughters, the eldest of which is a widow. Grover Gourdeau has been located in Chicago for some time and Edward is in Detroit. His youngest daughter and her husband live in Imperial, Ore.

L. Clement, one of Dr. Gourdeau's most intimate friends in Ishpeming, and William Leininger, the undertaker, went to Little Lake last night. They will return this morning with the body, which will be taken to the home of Romeo Pepin, on East Division street. Grover Gourdeau is expected this morning from Chicago. Dr. Gourdeau was a member of the French society and of the Ishpeming lodge of Elks.

"TANGO TOWN" TONIGHT.

"Tango Town," the big musical comedy production, in which some of Marquette county's best talent appears to excellent advantage, under the direction of Donald McDonald, will be put on at Ishpeming theater tonight. The already large seat sale is indicative of a large assemblage. Many Marquette and Neegaunee people who witnessed the performance at the Marquette opera house last week will be present again tonight. The members of the company are all wellknown. The stage will be beautifully set with special scenery. Special electrical effects will be used. The curtain will rise at 8:15.

Teachers' Examinations.

Three Days to Be Devoted to Work at Marquette State Normal.

The county commissioner of schools has announced that a teachers' examination will be held at the Northern State Normal school at Marquette, Aug. 12, 13, and 14. The examination will be as follows:

First Day—Morning, orthography and spelling, arithmetic (written and mental), theory and art; afternoon, geography, government and United States history.

Second Day—Morning, grammar, physiology, reading; afternoon, penmanship, agriculture, school law, state course of study and geometry.

Third Day—(For first and second grade applicants) algebra, botany, general history and physics.

Full credit in theory and art will be given to those who have done the reading circle work, and who furnish the commissioner with a written outline of the work before Aug. 7.

"THE DUTCHESS" AT THE LYRIC.

"The Dutchess," a special three-reel feature, will be shown at the Lyric theater today. The moving picture is adapted from the famous novel of the same name and the action has been made by the producers. "Fares Please," a jitney comedy, will also be shown.

W. Thurler, the optometrist, is now at the Nelson House, Ishpeming, ready to serve his many patrons. Eyes scientifically examined and fitted with glasses. All work guaranteed. Telephone for private calls. 7-9-4f.

TWO COMMON SUMMER AILMENTS.

Thousands of hay fever and asthma victims who are not able to go to the mountains find relief in Foley's Honey and Tar Compound. It attacks the inflammation, soothes and breaks raw and rasping bronchial tubes and helps to overcome difficulty in breathing and makes sound, refreshing sleep possible.

DEATH OF MATT KARPENSKY.

One of Michigan's Oldest Residents Answers Final Call.

Matt Karpensky, one of Michigan's pioneer residents, died Saturday evening at the home of his son George, with whom he had lived for some time. Mr. Karpensky was ninety-six years of age and had been in feeble health for some time. Mrs. Karpensky died last November.

Mr. Karpensky was wellknown and had many friends in the western end of the county.

Besides his son George, Mr. Karpensky is survived by three daughters—Mrs. William Harrington, of Ishpeming; Mrs. Beady, of Duluth, and a daughter residing in the West.

The funeral will be held this morning at 10 o'clock from the Catholic church. Rev. Father Hassenberg will conduct the services. Interment will be in Lakeview cemetery.

PHYSICIANS TO MEET AT SAULT STE. MARIE

Upper Peninsula Medical Society's Annual Gathering Tomorrow and Thursday.

A number of Marquette county physicians will attend the annual meeting of the Upper Peninsula Medical Society tomorrow and Thursday at Sault Ste. Marie, held under the auspices of the Chippewa County Medical society. The meetings will be held in the reading room of the Sault Ste. Marie club.

Dr. G. G. Barnett, of this city, who was to read a paper at the meeting, will be unable to attend. Dr. Braden of the Ishpeming hospital will read the paper. Other physicians who will attend from here are Drs. Henry Holm and R. A. Burke. The programs for the two days follow:

WAR IS HELL.

Tasson Tells His Side of Controversy With John Baer.

Mike Tasson was given a severe scolding by the Iron Ore Saturday because he arrested and put in jail John Baer, with whom he had a warm discussion about the European war in front of the city building. Baer, who is an old resident of Ishpeming, was in the employ of the Cleveland Cliffs Iron company for many years, and is now on the corporation's pension list. He is a strong supporter of Germany's contention, he having been born in that country.

Tasson, who has been roundly censured for jailing Mr. Baer, thinks the Iron Ore has done him an injustice, and he asks that his side of the affair be published.

"I have been an officer in Ishpeming for the past fifteen years. I have made a great many arrests," he said, "and I do not make a practice of arresting people unless they deserve it. Before meeting Baer, I had placed under arrest an Italian and brought him to the city building to appear before Judge St. John. The judge was not there and I stood outside awaiting his arrival with my prisoner. Mr. Baer came along and we began to discuss the war. He got excited and because I did not agree with him, he began to abuse me. He called me some pretty mean names, and I told him he had better move on. When I spoke to him this way he became more excited, and he acted as though he wanted to fight. The more I tried to persuade him to move away the worse he became and I finally told him I would put him in jail. This stirred him up worse than ever, and I was forced to make good my threat in order to avoid clashing with him.

"I have nothing against Mr. Baer and I entered into a discussion with him in a friendly way, but he lost his head. He was left in jail only a short time, long enough to get over his rage."

HEAVY ROYALTY.

Minnesota's strong box has been swollen this year to the extent of nearly \$300,000 as the result of royalties of ores taken from state properties in the Minnesota field. The shipments of iron ore this year from the Minnesota state lands are already as large as the shipments for the season 1914 up to a corresponding time.

The ladies of the third division of the First Methodist Episcopal church will conduct an ice cream social tomorrow afternoon at the home of Mrs. T. F. Gill, East Empire street.

DROPPING hints right and left to get started on the Real Tobacco Chew.

Oh, the users know what the Real Tobacco Chew does for a man—and lots of men want their friends to get in on the joy of the small chew that satisfies.

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

THE REAL TOBACCO CHEW IS NOW CUT TWO WAYS!! W-B CUT IS LONG SHRED, RIGHT-CUT IS SHORT SHRED!

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end.

The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

One small chew takes the place of two big chews of the old kind.

Notice how the salt brings out the rich tobacco taste.

TO SPEND \$3,000 FOR ADVERTISING

South Shore Subscribes to Unit for the Support of Chicago Herald's Permanent Bureau of Industrial and Natural Resources—Commercial Club Appropriates \$300

Upper Peninsula to Be Exploited by Moving Pictures and Travelogue—Purpose to Bring Home-seeker and Investor in Touch With Agricultural Development

The Marquette Commercial club has subscribed \$300 toward a permanent bureau of industrial and natural resources to be maintained by the Chicago Herald for the purpose of bringing the home-seeker and the investor in touch with agricultural development in the United States. The upper peninsula will contribute \$3,000 toward the fund to be used for this purpose.

The Chicago Herald will spend about \$100,000 in this advertising scheme and has divided the parts of the country which it plans to exploit into thirty units, one of which is the upper peninsula of Michigan. The L. S. S. & A. Ry. subscribed for the upper peninsula unit and is subdividing it among the cities and companies interested in the agricultural development of the peninsula.

W. W. Walker, general manager and vice president of the South Shore, intends to make the counties along the south shore of Lake Superior and along the line of the railroad the principal beneficiaries of the advertising to be done. The counties in the southern part of the peninsula have heretofore received the greatest returns from former advertising. J. F. Jeffries, agricultural expert for the South Shore, will take the pictures and make the arrangements for the peninsula's display.

A Permanent Exhibit.

A permanent exhibit will be maintained on the bank floor of the Ashland building at the corner of Clark and Randolph streets in Chicago, where moving pictures will be shown daily and literature supplied by the members will be distributed. Each member will be entitled to five hundred feet of moving pictures in the travelogues to be given by the Chicago Herald in four hundred towns and cities of the United States. Each member is also entitled to 4,000 lines of advertising copy in the Herald, and if this is divided by the South Shore according to the subscriptions made, Marquette will be entitled to 400 lines.

The features to be advertised by the upper peninsula have not yet been arranged, but there is plenty of material for moving pictures that would attract home-seekers and investors if properly presented. The upper peninsula's agricultural resources have not yet been scratched and yet some of the farms which have been established have acquired national reputation. The determination of the upper peninsula farmers to promote live stock development will probably be played up by the South Shore agents and the possibilities will be illustrated by pictures of the Roycroft and Kimballgard dairies.

ORE SHIPMENTS INCREASED.

L. S. & I. Docks Have Handled 709,592 Tons This Year.

One shipment from the L. S. & I. docks for July were 412,098 tons, according to the monthly reports submitted yesterday. The shipments during July in 1914 were 222,106 tons and in 1913 the July shipments were 252,725.

A comparison of the total shipments for the last three years shows a decided improvement over last year and General Manager H. R. Harris estimates that the year's shipments will total from 80 to 85 per cent of the shipments made in 1913, which was an unusually good year. The company has this year shipped 709,592 tons of ore. Last year the shipments through July 31 totaled 490,347. In 1913, however, the million mark was passed with an ore shipment for the year of 1,080,304.

NOTICE.

The Arbeiter Unterstutzung Verein of Marquette at a meeting held Sunday Aug. 1st, appointed a committee of three to receive and collect contributions to a fund for the purpose of rendering medical aid to the German and Austrian armies. The following were chosen for the committee: Henry Siegel, John Kind and U. F. Beyer. Contributions can be mailed to any member of the committee. 8-3-15

FIREMEN RECEIVE \$100.

Commission Orders Sewer Connections to Be Made Within Sixty Days.

The city commission last night passed an appropriation of \$100 to help defray the expenses of the Marquette fire department at the Upper Peninsula Firemen's tournament at Marquette. Mayor F. H. Begole announced that individual notices are being served on property owners who have not made sewer connections giving them sixty days in which to make the connections and do away with cess pools and privies. It is the firm intention of the commission to begin proceedings at the end of sixty days against persons who have not complied with the city ordinance, which applies to all who can possibly make the connections. Most of the property owners of the city have already had from six months to a year's notice to comply with the ordinance.

COMMITTEE ARRANGES PRIZES.

Cleveland Potato Congress to Be Held Oct. 27, 28 and 29.

Announcement of the classes and varieties of potatoes which will participate in the \$500 prize award at the Cleveland Potato Congress to be held in Marquette Oct. 27, 28 and 29, was made yesterday by the committee on arrangements. The families into which the varieties are listed are Rural, Green Mountain, Burbanks, Irish Cobbler, Early Ohio, Rose and Triumph.

Prizes will also be given for the county potato association exhibit, the seed potato exhibit, the best graded table stock, and the boys' and girls' club display. The potatoes exhibited will be the property of the Commercial club and will in turn be exhibited at the state and national potato shows.

The extension committee of the M. A. C. is supporting the congress and will have its agents present to show the effects of treating seed, using fertilizers, and the rotation of crops. A special booth will be arranged to show potato diseases and their remedies. Among the potato diseases to be thus explained are scab, blackleg, black scurf, silver scurf, late blight, early blight, and potato wilt.

ANOTHER BEAUTY PRIZE.

Marquette Awarded Third Place in National Billboard Contest.

Ugly billboards? Not for Marquette! The Poster Advertising association at the annual convention held in Atlantic City awarded the Delt Poster Advertising company, of which Morgan W. Jopling is manager, third prize in the contest among cities of ten to twenty thousand population for the most pleasing billboards.

The prize money is \$40 and will be divided by Q. Crandall, stage manager of the Marquette Opera House, and Lowell Blowers, the operator, Mr. Jopling having promised them the prize money if any would be won. Mr. Crandall and Mr. Blowers do the bill posting and have worked hard to produce works of art.

The billboards used in Marquette are arranged like picture frames. The board is surrounded by a green moulding and inside this is placed a white matting. The poster is placed in the center of the white matting. This arrangement is the last word in outdoor advertising.

The first prize in the fourth class was awarded to Connellville, Pa., and Brownwood, Tex., won the second prize.

JULY A COLD MONTH.

Mean Temperature of 60.2 Recorded by Marquette Weather Bureau.

Last month was within a half degree of being the coolest July in the forty year history of the Marquette weather bureau. The average for the month was 60.2 and the record was established in 1881 when the average for July was 59.7 degrees. Only one other July has been colder than last month and that was in 1894. The highest temperature recorded during the month was 80 on the 19th and the lowest was 45 on the 25th. The normal temperature for July is 64.9 degrees. The total precipitation for the month was 1.78 inches, which is considerably below the normal of 2.30 inches. Rain fell on eleven days and thunder storms occurred on the 2nd, 3rd, 22nd, and 23rd. The foggy days were on July 7, 8, 11, 12, 16, and 17. Nine days were clear.

MISS E. B. THORNTON IS MARRIED TO C. A. CARR

Pretty Home Wedding Held Yesterday Afternoon at Home of Robert Brunner.

Charles A. Carr of Minneapolis, and Edna B. Thornton, of Green Garden, were married at 3 o'clock yesterday afternoon at the home of Robert Brunner, 201 E. Park street, Rev. Ames A. Maywood of Jackson, formerly pastor of the Methodist church of Marquette, officiating.

They were attended by William Carr, brother of the groom, and Miss Ethel Thornton, a sister of the bride. Mendelssohn's Wedding March was played by Mrs. F. A. Hatch, violin, accompanied by Mrs. C. J. Dean on the piano. Before the appearance of the bridal couple, William R. Hill, eighty years of age, the father of Mrs. Robert Brunner, played a violin solo, "Haste to the Wedding."

The ceremony was performed in the southeast corner of the living room under a canopy of green and white. Edna Thornton and Ruth Dow, the ribbon girls, entered first and formed an aisle leading to the canopy. The best man and the bridesmaid followed the girls and the bridal couple ended the procession.

The bride is a graduate of the Marquette high school and of the Northern State Normal. During the last two years she has taught in the public schools of Minneapolis. Mr. Carr was formerly employed in the auditor's office of the South Shore railroad and is now revising clerk for the Soo line in Minneapolis, where the couple will make their home. They left at 5:30 on the Tonesta of the Anchor Line on their wedding trip.

Many musical numbers were given during the afternoon. F. A. Hatch sang "When Love is To," his sister, Mrs. C. J. Dean being the accompanist. Miss Gertrude Schneider of Saginaw gave a piano solo, "Eloorado," and followed by the "Sextet from Lucia," responding to encores with other numbers. Mrs. F. A. Hatch sang "A Perfect Day." Mr. and Mrs. F. A. Hatch sang "Greetings." Miss Edna Schneider gave a vocal solo. The closing musical number was a violin solo, "The Girl I Left Behind Me," played by William R. Hill, accompanied by his daughter.

Among the visiting guests were V. A. Rivett of Munising, and Miss Lottie Liberty of Manistique. The guests were relatives and the most intimate friends of the couple. The decorations were in white, green, and pink.

Hockin-Jeanson.

Miss Edyth Jeanson, daughter of M. Jeanson of 358 Harrison street, and Robert Hockin, son of Mr. Jane Hockin of Vancouver, B. C., a fireman on the South Shore railroad, were married at 8 o'clock last night by Rev. P. T. Anstutz, pastor of the Presbyterian church, at the parsonage. They were attended by Mr. and Mrs. W. E. Ross. The marriage was a surprise to the friends of the couple. The bride has been a clerk in Fred Bureau & Son's store the last two years.

Theatrical

The Leopard and His Spots.

There is an old saying that "a leopard can't change his spots," and this seems to be as true of the characteristics of human beings as marks on the hides of wild animals.

When "A Gentleman of Leisure," the chief character played by Wallace Edinger in the photodramatization of the same name, starts out to commit burglary on a bet he takes a real crook into partnership so that he may proceed with professional dexterity. But, so to speak, the crook can't stop croaking. So Edinger finds himself in the positively ridiculous position of continually trying to keep his own "pail" from stealing everything he can put his hands on, regardless of place or ownership. The "pail," quite naturally, can't see why a man should commit one robbery and not commit others. This five-reel feature will be shown at the Delt theater today.

Vivian Martin in "Little Miss Brown."

William A. Brady's comedy, "Little Miss Brown," based upon the stage play of the same name, will be today's feature at the Marquette opera house. Vivian Martin's much admired comedy gifts are given every chance of showing themselves in this production. She plays the part of Betty Brown who has two lovers, one of whom she so indifferently flirts with that she finds herself alone in a Hartford hotel, where she is mistaken for the wife of a young man who has come to the hotel to meet his wife, his uncle, and his aunt. Betty Brown has some amusing adventures and misfortunes before the entanglement is straightened out, and she sends the unwelcome lover to the right-about and declares for the right one.

BRAKEMAN WAS CURED.

F. A. Wootsey, Jacksonville, Texas, writes: "I was down with kidney trouble and rheumatism; had a backache all the time and was tired of living. I took Foley Kidney Pills and was thoroughly cured." Thousands have written similar letters. Foley Kidney Pills are tonic in effect and act promptly. Sold Everywhere.

Upper Peninsula

Many Tramps Visit Soo.

Whether the tramps and vagabonds are pulling off some kind of a home-coming stunt in the Soo is not known, but the number that has been brought before Judge Frederik in police court would indicate something of this nature. There has been an unusual number of this class brought to police headquarters during the past week. During the summer months the police department gives service as an employment office. Police Chief Mitchell is the agent in charge. When the department officials think that a man is deserving of a chance he is turned over to the chief. The chief generally gets him a job on a boat and he leaves the city. Men of all nationalities and from all parts of the country are taken in by the local police during the navigation season. Most of them get off boats there all to get back in time, and are shipped on some other vessel that needs men.

Former Soo Resident Killed.

Injuries received when he was run down by an automobile truck in Minneapolis, resulted in the death of Neil A. McLachlan, formerly a resident of the Soo but who had since resided in that city. C. M. Probst, the driver of the car, was arrested by the police and the chief of police has asked the grand jury to investigate the case, as there has been an unusual number of auto accidents in Minneapolis within the past few weeks. Mr. McLachlan lived in the Soo for five years, leaving here in the spring of 1907. Surviving are the widow, two daughters—Miss Edith McLachlan of Edmonton, Alberta, and Mrs. Cummings of Minneapolis; two brothers—John B. and William McLachlan; and two sisters—Mrs. Charles E. Olds of Fort Wayne, Ind., and Miss McLachlan of Hannibal, Mo., also survive him.

Police for Sick Woman.

The friends of Mrs. J. S. Jacka are having a good laugh at her expense, although the incident has a sad side to it that takes some of the joke away, says the Iron River Reporter. A Polish neighbor of Mrs. Jacka was taken suddenly ill and death was apparently near. Mrs. Jacka was summoned and seeing the seriousness of the occasion she hustled the neighbors out and providing assistance for the dying woman in her absence, she hastened to her own house and calling up the central girls said, "Send the priest out here right away." Central misunderstood Mrs. Jacka, thinking she said "police," so she hustled out got Marshal Broad, Ed Massie, and a couple of deputy sheriffs and they went racing out to the Jacka residence in an automobile. Much to Mrs. Jacka's chagrin and her neighbors amusement, some of them suggested that the fire department ought also to have been notified.

Park Policewoman Pulls Revolver.

Mrs. Jacka, Gladstone's policewoman assigned to duty at the City park, is doubtless without a rival when it comes to resorting to harsh methods to maintain order on her beat. But Mrs. Jacka overstepped her authority a bit when, armed with a "shiny" club, and a revolver, she placed under arrest, Arthur Wilhelm, whom she charged with destroying property. Wilhelm, who is chief on the steamer Minneapolis, went to the city park in company with some young ladies, it being his intention to go in bathing. The ladies informed him that the building at the edge of the park was a public bathhouse and that there he might change his street clothes for his bathing suit. He went to the place and pushing open the door entered and proceeded to don his bathing suit. Mrs. Jacka appeared on the scene, pointed a revolver at the young man's head and requested him in the name of the law to accompany her to the office of the city clerk, to make settlement for the lock which he broke to enter the bathhouse. Wilhelm, who bears the reputation of being a most gentle young man, tried to explain to the irate guardian of the peace that he had done no wrong, but as the danger was so great he still yielded at him he decided to accompany the officer. When they arrived at the office of the city clerk, it is said that he was forced to shell out one "bone" for alleged damages. Having gained her point, the policewoman went back to her beat to see that no others dared perform such violent acts of degradation. The matter was reported to Chief of Police Louis Danielson and Mayor Perry and the mayor has since informed Mrs. Jacka as to some of the rules of the police department.

Fare Five Cents Straight.

It has come at last, hereafter, at least until further notice, and a higher power only knows when that will be, Soo people will get no more street car tickets at the rate of six tickets for two bits. In fact, the sale of tickets is to be discontinued. According to a statement from official sources, the city has cut into the company's revenue to the extent of about \$40 a day. In Detroit, this wouldn't mean much; but in the Soo it would go a long way toward liquidating the daily pay roll. Superintendent D. F. Thomas, of the Transit St. Mary's Traction company, has issued a statement to the public to the effect that because of the falling off in the company's revenues, owing mainly to the jitney traffic in the city, the company has deemed it necessary to take advantage of Section 8 of its franchise and discontinue the sale of six-for-a-quarter tickets. That means that, hereafter, the company will charge straight five cents. Mr. Thomas explained to the Soo News that the company, having no money in the repair fund, had been obliged to borrow \$8,000 to make repairs occasioned by the new paving on Portage avenue, and he declared that besides this the operating expenses have never before been as high in a general way. It is well known that for the most part, at least in the street railway business on both sides of the river and Mr. Thomas declared the company had been forced to adopt a policy of general retrenchment.
