RUSSIANS LEAVE WARSAW TO GERMANIC ARMIES

Excursion Boat Christopher Columbus, Plying to Milwaukee for Twenty Years, First to Undergo Trial, and Passes Admirably, in Opinion of Experts.

MY

Mayor Thompson, Says He Will Make It His Duty to See That Probe of Eastland Disaster Is Satisfactory to Public.

Chicago, Aug. 5.—Stability tests for big lake passenger steamers, ordered by the city as a result of the Eastland disaster, began today when the steel whaleback excursion steamer Christopher Columbus, which has made daily trips between Chicago and Milwaukee for twenty years was subjected to an unusual inclining test in an effort to tip it over.

The test was arranged by the Goodthe vessel. Seven thousand five hundred bags of sand, weighing one hundred pounds each, were loaded on the upper decks.

LISTED ONLY TWELVE DEGREES.

The vessel steamed to a point in the inner burbor where the sand was trans ferred to one side of the boat. The test aboard. The great weight of sand listed the boat only twelve degrees,

to see that the investigation of the impracticable. Eastland disaster is entirely satisfactory to the public.

The letter is in answer to a com to the president several days ago.

The special federal grand jury which has been investigating the Eastland disaster, held a special session today and adjourned until next Tuesday, when, it is said, indictments may be returned.

REVOLTERS IN HAITI ARE READY TO DISARM,

Washington, Aug. 6. Hopes for peaceful settlement of the disturbances n Haiti were brightened today by re ceipt of a message from Rear Admiral Caperton, commanding the American naval forces at Port Au Prince and Cape Haitien, announcing that the troops of Resolvo Bobo, leader of the revolution would disarm on their arrival at the capital. General Bobo's men are re-Port Au Prince.

SHOWER OF METEORS MONDAY AND TUESDAY

EDITORIAL OPINION

Men's Clothes for Men.

The style committee of the Clothing Designers' association of America has given to a waiting world word of what fall and winter styles are to be. Tell ors, it is announced, will discourage the movement for fanciful and festive innovations in male attire. Thoughtful observers have looked

with mixed feelings, for a rennaisance pre-Elizabethan picturesqueness among men who give the best in them to consideration of costume. Without departing from established modes, it has been possible for a man of gay temno high school co-ed could surpass him in front, Mrs. Scott, exclaimed: in colorful daintiness.

Specimens have been observed on our streets clad in filmy vestments, delicately tinted; Lord Byron collars reealing the hollow spots in their chests; sox of beguiling radiance embellished oxford shoes, the whole picture was topped by a drooping Panama girt with

flaming vari-colored scarf. The conservative business man, we learn from the designers, wants a gar ment of dignified and manly cut and dislikes the scenic splendors which cer tain manufactures have attempted to

We might further say with safety that the conservative business or professional man not only refuses to arseaworthy. Portage Lake is well ray himself flamboyantly, but it disturbs his peace of mind to encounter the tripping youths who favor that sort of thing. A reversion to men's clothes for men will save us from many painful spectacles,—Detroit News.

Yankee Ingenuity Will Help.

Yankee ingenuity is proverbial, and lready it is being applied to the solution of some of the military problems which have been forced to attention by the present great war. Trench fighting on a scale practiced in the present war, bits in this column. So here it is: record for rainfall the weather man will for instance, is one of the novelties of this great conflict. The trench itself is not modern. Since firearms came into general use earthworks have been the efuge of fighting infantry in all camaigns. But in the older days the trench was a temporary affair, meant o hold for a day or two at the most, while the army back of it made other dispositions. In modern war it is the soldiers

lwelling place; his bedroom, his kitchn, and when the rain is profuse, and he soil not too porus, his bathroom. German and French soldiers lived in trenches within half a mile of each other all last winter. The earthworks that protected Warsaw from three German armies operating against that beleaguered city are caves in which modern engineering has rivaled the activities of a molehill.

Obviously, this method of warfare has come to stay, and the natural law n military science is that no obstacles are unsurmountable Shrapnel is in effective against the modern trench. The German melinite shells are, no doubt, the last word in the present war. They, however, are not all-conquering, have been driven back from before

HANCOCK PLEASED AT GETTING TOURNEY

Business Men Will Unite With Department in Making 1916 Meet a "Hummer."

There was joy in Hancock yesterday over the selection of that city for the 1916 tournament and convention of the Upper Peninsula Firemen's association. Houghton is not particularly cast down over the loss of the tournament, but Hançock is "real excited" about it.

portunity for reprisal. It is recalled by some people who bear grudges well that this year, when Houghton, in entertaining the Sons of St. George of Michigan, put on free shows and a varied program, Hancock offered the same week counter attraction, a carnival, the Heinz & Beckman shows. Some few Houghton people thought that nancock showed a mean and petty spirit in do-

Should the precedent be followed Houghton would have a carnival next summer while Hancock is having the firemen's tournament. As a result Houghton would draw somewhat from

But, Houghton will not do this. The Houghton businessmen remember that the Hancock firemen were approached with a proposal that they arrange for that opposition carnival during Sons of St. George week and that the Hancock firemen refused to have anything to do with the plan.

Hancock has entertained the firemen of the upper peninsula but once in the history of the association. While this was thirteen years ago pleasant memories of that occasion still linger with the firemen of the upper peninsula. The meet was not only a big success in point of attendance and entertainment, but the department had close to \$2,000 left after meeting all obligations. This money was turned over to charitable institutions, St. Joseph's hospital receiv. that it was not quite a mile in length, ing \$1,000 of the sum.

JOHN LINGA IN A BAD WAY. Old Offender Out on Bonds Creates Disturbance-Back in Jail.

RICHEST MAN IN MEXICO. URGE ARMOR FOR Julio Madero So Described by Commentator on Recent wedding. A portrait alleged to be that of Miss

who was married at Los Angeles in June to Julio Madero, graduate of the Experience Has Shown It Pre-Michigan College of Mines, has been circulating through the press, and the sens Effect of Others.

London, July 22. (Correspondence of Mexico's richest man. She is considered the Associated Press) The London one of the republic's most beautiful newspapers are urging upon the Brit-women. Madero is a brother of the late ish government the advisability of adopting the steel helmet, as well as some simple form of protective breast armor, for the troops in France and Flanders. France, Russia and Germany erty and the scattering of the family, have been experimenting along this will be interesting to his Houghton line for some time, and France has re cently definitely adopted a light steel helmet, suggesting in design the headpiece worn by men-at-arms six centuries ago.

"One of the most remarkable features of this war," remarks the Times, has been the return to older, if not to ancient, methods. The steel fort has been discredited and the earthwork justified; the strength and direction of the wind has become a leading factor once again, as it was in the days of bows and arrows, since aeroplanes are affected by the wind and gas attacks determined by it; hand grenades, bombs, and catapults have assumed real importance. Finally, the question of armor for the fighting man himself as come up for consideration."

The value of a light protective armor s attested in several recent articles in the British medical journals. Dr. Dev raigne, a French army surgeon, discusses in the Lancet the result of his tests of the new French helmet and gives it his unqualified endorsement. 'The soldier who wears a helmet." h says, "escaped light wounds of the head and even wounds that would in ordinary circumstances have been severe are greatly mitigated. The helmet fre quently turns off the bullet, in other cases dents or stops it, while in other cases it is perforated but acts as a heavy drag upon the force of the projectile so that hair and dirt are not driven into the tissues of the head."

DEMOCRATIC SERVIA.

The Servians of independent Servia offer to the student of political philosophy one of the rare examples of a purely democratic society. Servia is far more democratic than either America or Artaxerxes had at one time, before England. In our countries wealth is the battle of Cunaxa, an army nearly very unequally divided; we can only redress these social inequalities in our Darius of Persia brought more than politics. In Servia no one talks about democracy. It is no more necessary to emphasize the fact of democracy in Servia than it is for the human body to emphasize the function of breathing There is only one important class—the peasant proprietors, who number 86 per cent, of the population. There is practically only one kind of wealth land and that is equally divided up. There is no pauperism, and, on the other hand, no one is really rich. There is, there fore, no social problem in Servia, and

Chippewa's Hay Is Damaged. Thousands of dollars worth of damage to Chippewa county's large hay crop will undoubtedly result from the heavy rainfall during the past four days, says the Soo News. This county, as well as the entire upper lake region has experienced something unusual in weather conditions-conditions that were entirely unlooked for at this time of year. It is known that many farm ers had hay in the fields ready to place under shelter and this will be damaged Just how much hay there is in the county in this condition is not known; but So hay dealers expect that the damage will reach several thousand dollars. course, there will be plenty of hay that is not injured greatly, but its value or the market will be deteriorated.

Wood Pile for Jail Prisoners.

Charter members of the Society fo the Prevention of Useless Industry, for whom a jail sentence is often a vaca tion much to be desired, may not enjoy their sojourn in the Menominee jail during the next few months. The rea son why is obvious when a glance is taken at a large pile of hardwood which is stored in the yard just back of the jail. The wood is in five foot lengths and is of husky proportions. Before it can be used for purposes of giving warmth in furnace or stove each piec will have to be sawed twice and then split with an axe. Furnished with sawbuck and saw, Charles Putchie who is nearing the end of a thirty day stay in jail for annoying girls on the street, and John Smith, Jr., vagrant extraordinary, who will finish a fifteer day sentence for drunkenness within few days, began work on the woodpile Hogan of Baraga avenue, left yesterday this week. Now John, Jr., has never been overly fond of work, it is alleged and consequently he did not look over ly happy as he wielded the saw. The day morning was quickly put out by de- size of the pile of maple wood-seven teen cords in all-was not very en couraging for John and by the time he gets out be may not be very enthusias tie over jail life. "It's a good thing for them to have something to do," said Sheriff Charles Bauer. "They are go A meeting of the Ladies" Aid society ing to have to work regularly after this the German Lutheran church will be and 'earn their 'oard.'

Press Pans MacLean.

RUSSIAN ENVOY

Denies Ill-Feeling Over Lack of They Mark the Resting Place of Offensive in the Western War Zone.

London, Aug. 4.-Count Alexandre C. Benckendorff, the Russian ambassador to Great Britain, issued in London position after a year of war, laying our own conditions.

Commenting on the reports that Russia was dissatisfied with the efforts the entente allies were making in the west, clover; at the roadside, in clusters un-

the west while the Germans were mak- flowers that sprinkle growing grain. ing their onset in the east. This may For here, ten months gone, the battle be so, but not a trace of ill feelings has more appreciated than in Russia."

The Russian government's declara-German forces from the western front favorable conditions for active operations by our allies there's is characterized by the Times as "a somewhat un-usual official statement." The Times declares this indicates "that there must be some lack of co-ordination between the responsible military authorities in dure and is marked with its cross. The the east and west if the publication of only distinction is in the color of the such official statements is really neces-

The newspaper makes this the text for again urging "the imperative necessity for closer co-ordination between the operations in both main theaters as well as on the Italian front." From information at its command the Times does not believe, however, that withdrawals of troops from the western front have materially weakened the German position there, as experience has shown that when such withdrawals are made there they are immediately replaced by troops of more recent formation. The Times insists that the main German forces still are in the west and that the recent operations in the east were undertaken in large part by Austrian armies.

ASK MORE WAR CASH.

Reichstag Has No Doubt of Loan's Success.

Berlin, via London, Aug. 5.—The chief business of the reichstag, which assembles Aug. 19, will be to vote new credits for war purposes. While the details of the new bonds have not been arranged, it is assumed in banking cirlast loan, will be unlimited. The rate will be five per cent., but the subscription price is expected to be somewhat above 99, as compared with 981/2 for

the March loan. The prospects for the success of the next loan are regarded as being highly satisfactory. The great German banks say they have completely sold out their bonds of the two previous war loans and now have unusually heavy deposits. These recently were swollen so abnormally that the Berlin banks a short time ago reduced the rate paid on current deposits to the normal level.

JULIA MARLOWE TO QUIT FOOTLIGHTS

BATTLEFIELD OF MARNE PRAISES ALLIES IS DECKED WITH FLAGS

the Soldiers Who Fell in the Decisive Fight.

Acy-en-Multien, Department of the Oise, France, July 22.—(Correspondence of the Associated Press.-Since the today a statement reviewing Russia's fourteenth of July, in many of the smiling fields of the "Isle of France," stress on the identity of the aims of fresh, tricolored flags have thrust their Russia and Great Britain and asserting standards proudly above the browning that peace was impossible "except on stalks of ripe wheat. On almost every sunny hillside, in almost every valley between the Marne and the Aisne, in der fruit trees, the red, white and blue "It has been said that the Russian of France, like a more vital fleur-de-lys, public hoped for a strong offensive in pales the poppies and daisies and corn-

of the Marne was fought, and here, tobeen manifested and the sober view day, the fields are sown with graves, which considers only military possibili- each with its four posts thrust solidly in ties has always prevailed. Nowhere the ground with wire stretched between has the colossal effort of Great Britain to mark the spot where some soldier and France in the Dardanelles been lies. No farmer ploughs above them, though his field be patch-worked with hundreds of the tragic mounds, as many tion that the reported withdrawal of fields are. More, he cuts the weeds or the aggressive grain from every one, for the campaign in the east "creates even those of the invaders, and every one is marked with its cross or its head

Not the French graves alone are marked. The burial place of every German fallen in battle has its own fence about it, is kept free of concealing ver crosses. The French are white, and the Germans are black. And on each is printed a number, the number of the regiment to which the dead belonged There is seldom anything else. Now and again, where the name of the man was known, where his being an officer served to identify his body, the name is on the cross, and a wreath from his comrades or his family who have made a pilgrimage to the spot where he lies. Otherwise, he is only a soldier of France, and all soldiers of France are equal in

New Flags for the Graves.

On the fourteenth of July the countryside of this part of the republic, which since the days of the Capets has been known as the 'Isle of France," was scattered with living people, soldiers on leave from the front, young widows in heavy black leading little children, older people bowed with age and sorrow. ome a long way, stumbling along the sunny roads, peering into the fields, all searching for their own. Most of these searching groups car

ried new flags to replace the windwashed and sun-bleached emblems that had marked the graves since the battle of the Marne. Some of the comrades carried many, one for the grave of each man of his regiment who died on th hilltop, or who lies buried in the valley. When he returns to his regiment, "down there," in the trenches, after his leave of absence, the "poilu" tells those of the regiment who remain that each grave he could find of theirs has a brand new flag on it and that it was thus he spent the national holiday.

Next before the entrance to the Cemetery of Acy-en-Multien is a tomb, not unlike many others in the hills and valleys that lie between the Marne and the Aisne . It is perhaps sixty or seventy feet long-so long that there was not room for it within the cemetery walls. Like the smaller graves, it, too. is surrounded by a wire fence, and new flags and flowers, constantly renewed decorate it. At one end is a temporary cross of iron, upon which is this legend "Here repose 72 soldiers of France, fallon on the field of honor in September, 1914. They recaptured Acy from the Germans: they contributed to the victory of the Marne, which saved France? Here almost every day there comes to this peaceful village, and to many like it throughout the "Isle of France." slender figures muffled in heavy black. They kneel beside such long, common graves and pray a while. The approaching visitors uncovers. The kneeling figure at

"Your husband, Madama?" "Perhaps." she answers wistfully, "1 vas his regiment and he was killed here somewhere hereabouts, at least." Still neeling, she runs her hands lightly along the wire that separates her from the mound, as if it were the body of er beloved, covered perchance with the glorious tri-color. Her eves, as they look out over the radiant hills and beyond, gleam unshed tears.

"For France!" she says, very softly. EXPLAINS AFRICA LOSS.

In Farmers' Bulletin No. 660 recently sued from the department of agriculture a new definition for a weed is supgested. The author of this bulletin it discussing a definition of a weed, says A weed has been defined as a plant out of place. This definition is not en tirely satisfactory, for two reasons: (1) Because a plant may be out of place and still not be a weed in the popular sense, as rye growing in a wheat field or Ken tucky bluegrass in an alfalfa field, and (2) because a plant may not be out of place and still oe a weed in popular language, as is described in a subsequent section of this bulletin on the good points about weeds. In reality a weed s a wild plant that has the habit of in truding where not wanted."

The old definition by which a weed was called a plant out of place, while a very catchy phrase, does not clearly represent usage. The hundreds of wile plants which inhabit a field which i not planted to crops are in commo usage called weeds; yet the vast majority of these plants are decidedly in place and are serving a useful purpos

DOGFISH TRAINED FOR WAR.

A man who described himself as Isaac Blake, better known as "Ike, the Inventor," walked into the Brooklyn Borough hall recently and unfolded a brand new scheme for protecting American ships from attack by submarines.

"I live down at Hook creek," said Ike, and I own a lot of dogfish, which I have tamed and trained. If the government will hire them I will send out a pack of my sea hounds to escort any American vessel bound for the war zone. When the ship reaches there my trained ogfish will go ahead of it scouting for ubmarines. Spotting an undersea boat they will come to the surface and bay

"The man on the bridge, thus warned of danger, will change the course of his. ship so as to clude the submarine. To prevent the submarine from following ts prey my dogfish will bite and otherwise harry it until it is driven off. I am looking for somebody in the service of the government to whom I may proprly submit this scheme."

Ike was advised to go down to the navy yard and tell it to the marines .-New York Times.

INSPECTOR FINDS TUBERCULAR COWS

But Condition of Dairymen's Prospect for Shipments Aggregat- known physicians in the upper penia-Stables Shows Gradual Improvement.

Dr. F. W. Menhennitt, the city dairy and milk inspector, informed the council at its monthly meeting Wednesday evening that he had found tubercular ows among the animals tested. He visited all the dairies during July and issued seven licenses to sell milk and cream. The condition of stables has een improved and that all samples of nilk tested were above ordinance reuirements. There were a few minor iolations, but they were all corrected without prosecuting.

Mrs. John Hanala, 221 Davis street, and Mrs. Emily Bennett, 1314 North Third street, petitioned the council to exempt them from the payment of water taxes. Their petitions were referred to the committee on water works On recommendation of the committee on fire department, Fire Chief John Lacev was authorized to attend the meeting of the national fire chiefs, the city to pay his expenses. For the contract of painting No. 3 hose house Sodergren Bros, were the lowest bid ders, and were awarded the contract.

Mayor Wahlman reported that he had taken up the matter of insurance on the old jail and old fire hall properties, with a view to securing a lower insurance rate, but the insurance agents informed him that a lower rate could not be granted, on account of the condition on the table.

The receipts of the municipal court for the month were \$159.95. Of this sum \$60 represented the fines and \$45.50 the costs in criminal cases; \$26 was received on account of civil cases and \$28.45 from the county. The sum paid the county for fines collected was \$60, leaving a balance of \$99.95.

The report of the claims and accounts mmittee, presented by Alderman Olon, showed total expenditures in bills of \$5,541.98 and for pay roll \$7.312.25, making a grand total of \$12,854.25. The amounts drawn from the different funds were as follows:

Highway fund \$ 2,794.20

General fund	498.38
Fire fund	266.80
Sewer fund	303.28
Water fund	183.13
Library fund	121.97

ourdeau, who died Monday afternoon, after several months suffering from MOVEMENT OF ORE ancer, was held yesterday morning at o'clock from St. Joseph's church, under auspices of the L'Union Canadian rancaie society, of which he was one STILL SHOWS GAIN the oldest members. There was a rge attendance of members and many other friends paid their last respects to Dr. Gourdeau, who was one of the best-

ing 40,000,000 Tons or More Excellent.

Mining men of the Lake Superior dis rict are now of the opinion that the hipments this season will reach 40,000, 000 tons. Shipments from the head of the lakes up to July 31 were more than probably are, but they are the only 2,000,000 tons ahead of those to the corresponding date last year. The ship ments in July exceeded those of July, we hold. 1914, by 823,785 tons, and those from The death of Dr. Gourdeau remove the Marquette and Escanaba docks showed a large gain.

In 1914 32,032,000 tons of ore wer forwarded. With the gain already re corded this year and an ample suppa of boats to carry the ore in, the outlool for a smashing total for 1915 is being

In the past few days Bessemer p ron has been advanced another twer ty-five cents, sales having been mad at \$14 a ton, against a previous man ket of from \$13.60 to \$13.75. Quota tions are advancing for all classes materials and further advances are predieted. Billets are exceptionally stron; one company asking as high as \$3.00 per 100 pounds. Some manufacturers of special steel used in the making o mumtions are said to be sold up to several months ahead

Commenting upon the general situa tion in the trade, The Iron Age says: "The Steel corporation's report has given a new measure of the steel trade : the buildings. The matter was laid prosperity. That there was a marked ise in the second half of June tallies with other facts showing how rapidly the recent improvement came.

"The market developments of week have been equally stirring. new business the leading item is a to tal of 220,000 tons of bars placed by Cleveland interest for shipment to France, bringing the total on this acount to 350,000 tons, which has been divided between the steel corporation and the Lackawanna Steel company An additional 100,000 tous will placed for delivery in the next months if prices and deliveries can be arranged. France is also in the market for shell forgings for more than 1, 100,000 shells, 6-inch to 11-inch, to be delivered at the rate of 6,000 a day. "There has been some further ship

ment of steel from Chicago to the Pittsburgh district. A new departure is seen in plans for the rolling of a large tonnage of export rounds on the rail mill at Ensley. "Semi-finished steel has

apidly in the East, as foreign inquiry has increased. Considerable shipments have been made to France and Great Britain. At Philadelphia \$30 to \$32 has been paid for re-rolling billets, and sales by Eastern Pennsylvania steel companies are reported at even higher prices. The scarcity of billets has evidently taken some consumers unawares. At Youngstown, billets and sheet bars for prompt shipment have sold as hig

STEEL SHARES AGAIN ARE CONSPICUOUSLY BULLISH; RAILROADS ADVANCE ALSO.

New York, Aug. 5.-The demand for New York, Aug. 5.—The demand for the popular specialties showed no sign of abatement today and there was an other advance of good proportions. Bethlehem Steel maintained its reputation as the most spectacular of the war shares. It passed the 300 mark early in the day and reached 307, an advance of seventeen points. Later it relaxed to 301. The urgent demand for United States Steel continued and the action of this stock gave tone to the

whole market. It rose to 721/2, another new high record since 1912. Railroad stocks played little part in the forenoon rise, but on the recovery which followed the early relapse, they were bought heavily at advancing prices

BOSTON "COPPERS."

Boston, Mass, Aug. 5.-"While the local copper share market continues to be disappointing, there are unmistakable evidence of a quiet accumulation of the better class of copper stocks, especially in New York and the excellent statement issued by Utah and Chino are proof enough of the splendid prosperity the copper industry is enjoying. This condition will make itself felt marketwise in due course of time.'

Fitzgerald, Hubbard & Co. Ishpeming, Mich. Aug. 5.- "Steel stocks went up today, with another two point advance in Steel Common and nearly five points in Crucible and the usual big advance in Bethlehem. The latter issue sold at 305, or 15 points kinds of bull tips on the railroads and no feature in those issues today. American Zine and Butte & Superior were active, but at the expense of prices. What few sales were made in the copper shares were at lower figures. This condition cannot long continue and there must be a change one way or the

CHARGES AGAINST GERMANS.

Paris, Aug. 4.—The commission pre sided over by Georges Payell, president of the French court of accounts, has presented to Premier Viviani the final report of its investigations into acts on the part of German soldiers in violation of the rights of man.

This report contains 12,000 words, and against the fire of French troops, as well as of the employment by the troops of Emperor William of cartridges in which the bullets were reversed in order to cause more serious wounds; split bullets, and other bullets cut to make them more rending.

Continuing the report, orders given by General Stenger are shown, directing his soldiers to kill the wounded enemy and to take no more prisoners, The report devotes considerable space

allegations of the inhumanity of the ermans to their prisoners of war, which it says is proved by the evidence of the victims. Many prisoners of war butts of muskets. At St. Die thirty played: French prisoners were assassinated in March, "Barnum & Bailey's Favorthis manner by Bavarian troops. The truth of this is vouched for by

WORK ON SEWER

Will Likely Be Well Supported Street Cars Have Not Run Through to East Iron Street for Nearly a Month.

Negaunee is making a strong bid for The businessmen and other property he firemen's tournament in 1917 at the owners on East Iron street are becom annual meeting being held this week in Manistique. The members of the de-Manistique. The members of the de-partment in attendance at the reunion have distributed several hundred badges the framen and others present. among the firemen and c*hers present and have succeeded in enlisting ... auch a business block on the former site of Lansing.

The work, which has been under way for over a month, was first hampered when one of the trenches was filled up during the night by a heavy rain storm. will seek the meeting in 1917, but it is Mr. Lowenstein has also had difficulty keeping men employed on the job, as the work is all in quicksand, necessitating he use of piling the entire distance Much of the work had to be done under water, and now it is thought that the ompleted portion of the sewer will have onsiderable sand in the pipes.

Iron street has been torn up for over bree weeks. On the south side of the street the ditch was filled after the pipe was put in, but no work was done to out the roadway in good condition.

There has been considerable speculi ion the past few days as to whether Mr. Lowenstein can put the street back n as good a condition as he found it. the vote received by the latter city on \$2,000 to assure his doing this before He was required to put up a bond of the work was started. As it is now the quicksand under the roadbed has commenced to shift, and the road is cavng a little bit every day, as the sand washes away.

> PROWLER FRIGHTENED AWAY. Jnknown Man Tried to Enter Robert G. Jackson's Residence on Case Street.

AUTHENTIC WAR FILMS NEXT WEEK

Pictures Taken by New York Sun Artists Will Be Shown in Ishpeming.

At the Ishpeming theater Thursday and Friday afternoons and evenings of next week the New York Sun's war pictures, comprising 6,000 feet, will be

These pictures represent no propabeen cut with a knife, or some other ganda; there will be no violation of sharp instrument. A hole large enough | neutrality. They were taken just for for an ordinary sized man to get their news value and under the direction of the New York Sun, one of the greatest and most conservative journals

in America. The camera squad from the New York Sun went to the war in Europe armed with motion picture cameras. Some of the men had credentials and some by sheer craft, nerve and strategy penetrated to the fronts of all bat-tle lines of Europe.

Took Great Risks.

In order to get these pictures they took as great and as thrilling risks as any soldier in actual conflict They stood in the thick of battle with bullets whistling around their ears and

shells bursting about them and made marvelous records or what war actualy as in 1915 These are not pictures of fleeing refigees or ruined cathedrals the pictur-s

do not follow safely in the wake of the war, but are pictures of fighting and actual destruction.

The pictures show, for instance, the dashing charges of the Bavarian cavalry, the entry of the Germans into Belgium; an armored train belching death as it speeds along; engineers blowing up a bridge to check the German advance on Lys. There are pictures of Peter Trudell, Sr., has returned from the great guns in action. One of the pictures was taken on board a battlethip which was bombarding Slype on the Belgian coast, the great guns hucling destruction at the villages miles away. Another picture shows the damage done to Slype by the bombardment.

Views of the Kaiser.

There are some remarkable pictures f Kaiser Wilhelm. In one picture the visiting with his brother, S. K. Weed-German emperor strides out before the man, and Mrs. Weedman. view of the spectators and shakes hands with his staff in a most affab'e way, appearing the very incarnation of the military spirit. As he stands beside the road his intere t and keen observation of the soldiers filing past can e noted.

Gen. Von Hindenburg, one of Germany's greatest warriors, was caught by the camera in active warfare, acompanied by his bodyguard. The picture also shows Prince Ludwig Ferdinand in his duty of assisting that wounded

ROAD TO BIG BAY

County Commissioners Expected to Give Matter Serious Consideration at Meeting to Precede Next Gathering of Board of Supervisors-\$30,000 Is Required

Powell Township, Which Has Spent \$30,000 On Highway, Threatens to Build Toward Ishpeming Since Effort to Connect With Marquette Failed MOVIES OF WAR ARE

The proposed new road from Marquette to Big Bay will receive serious consideration at a meeting of the county time before the next meeting of th county board of supervisors on Sept. So many factors must be weighed by the supervisors in framing an appropria tion measure, that it is quite unlikely any of them will come out strongly in favor of the construction of the Big Bay road until the road commissioner have made their report, but it is understood that many of them are anxiou to see the road started next year.

The supervisors expect to appropriate been the custom heretofore. The construction of the eleven miles of road necessary to the opening of the Big Bay territory would cost \$30,000, accord ernoon by V. S. Hillyer, superintendent of the county road commission. This would be a tremendous cut into the wish to put through other work which attention, the larger expenditure will not be considered.

Construction Possible.

Members of the commission said yes terday that the construction of the Bi Bay road may possibly be undertaken It would mean much to the develop ment of the country north of Marquette and would be a long step toward the completion of a road through the Huron Mountains to L'Anse. However, the county commission has in the past few years built many dirt roads which will require improvements next spring and the commission may recommend that these roads be cared for before new work is attempted.

Had Margutte township been bonded for \$15,000 a year ago as was proposed there might now have been an excellent highway connecting Marquette and Bis Bay. Powell township bonded itself for \$30,000 in order to build a road from Big Bay to the township limits, ex peeting that Marquette township would rising, but the latte township pleaded poverty and the move

May Build to Ishpeming. * Big Bay has been looking toward the county for action for a long time and has almost grown discouraged with its failure to open the road through Mar quette township. Unless something done shortly, it threatens to te itsel up to Ishpeming by running a roa through to Ishpeming township. Such

action would divorce its commercial in

and would be a big blow to the city.

terests almost entirely from Marquette

When Fred Hoffman, supervisor from Powell township, was questioned las night regarding this possibility, he confirmed it. "Had we gone into the sit nation more thoroughly when we built our \$30,000 road to the Marquette town ship limit last year," said Mr. Hoffman we would have gone down into Ishpem ing and it would have been much easie for us. We are now considering the im provement of eight or nine miles of log ging road which would connect our nev road with the Ishpeming read. This logging road passes Hill's dam on the Yellow Dog river and needs some grad ing. We are waiting to see what Mar quette can do for us, however, before we take such a step."

Wants Definite Action.

Mr. Hoffman said that Powell town ship is this year repairing the bad spot in the road and it is now in very goo condition. "If the county would build a road to meet ours," he said, "we would fix up our end of it in good first class shape, but we have no desire to work in the dark and want some assurance that the county will do some

The opening of the entire Big Bay country would follow the construction of the proposed road and Mr. Hoffman last night suggested that Powell town ship might give much assistance to the county later in the building of a high way through the Huron Mountains to connect with the Skance road from L'Anse. The Arvon township road commissioners are anxious to have a high way leading into Marquette. It would he fifty miles long, but that would not daunt them in the least because they are anxious to make this city their market center.

Survey Completed.

The survey of the eleven mile stretch in Marquette township has recently beer completed by Mr. Hillyer. It is said that the best route would be along the railroad, because it gives a better grade The opening of a fine farming country north of Marquette and the consequent increase of trade which would accrue to Marquette businessmen are not the only considerations impelling residents of the city to favor strongly the construction of the Big Bay road at this time. About twenty-five camps owned in Marquette are located at Buckroe and other point along the shore. The number of camps would rapidly increase were a road to go through. Automobiles have gone ov er the trail which now leads through the woods to Big Bay, but it is a trip which has no charm for the average automobile owner. Once the automobile becomes familiar in that part of the upper peninsula, its development will be

road commissioners to be held some Views of European Conflict to Be Shown at Marquette Opera House Next Week.

Marquette's first opportunity to se uthentic moving pictures of the Eu pean war will be given Tuesday and ednesday of next week at the Maruette Opera House under the auspices The Mining Journal. All the methods modern warfare and their destructive \$50,000 for good roads next year as has effects are vividly shown, which with the lecture which accompanies the pic tures makes the attraction one of the aost interesting ever shown in the city

There are 6,500 feet of solid pictures ing to an estimate made yesterday aft- that is there is none of the space taken up by titles. In a picture of this size the titles were taken into the meas rement there would be 9,000 feet of appropriation and if the supervisors film. A lecturer who thoroughly under stands the conditions under which the they may think need more immediate pictures were taken and of the conditions which exist in the war stricken Europe fully describes everything shown n the curtain.

Among the many views shown which ere of especial interest at this time one perhaps attracts more attention han the pictures of Field Marshal voi lindenburg. At this time he is one of the biggest men in Germany, as his reat strategy has been the salvation f the German empire in holding out the ussian hosts. Among the many other emarkable features are the German adance in Belgium, the '42 centimeter' lowitizers in action, the kaiser reviewng the German troops, the charge of r he Bavarian cavalry, artillery duels utside of Louvain, aeroplane attacks nd armored train fights.

It was the aim of the management to nake the pictures absolutely neutral, and in his their success will be noted by the spectator. The rulers of the nations of Europe are seen in portraiture of the vast armies and navies ities of Belgium, France, East Prussia nd Russia Poland are seen with dead oldiery littering the streets in some

We did not drop it. "And when you throw it, sir, you must look out and not hit the man behind and knock the bomb out of your carried in Japanese bottoms, our chief hand. That has happened before now. "They say that you sometimes pick When the bill was passed congress had buck before they explode," it was sug-

right," said the sergeant, "Of course

Quick Action Required.

"Yes, sir, I've read things like that in ome of the accounts of the reporter who write from 'Somewhere in France, real independence of spirit. They do not You don't happen to know where that is, sir? All I can say is that if you are going to do it you must be quick about it. I shouldn't advise delaying your deor more reasonable regulation, mindful cision, sir, or perhaps when you reach of an international situation which the down to pick it up neither your hand American congress cannot reform in one nor the bomb would be there. They'd have gone off together, sir."

> "Have you ever been burt in your handling of bombs?" one asked. "Oh, no, sir! Bombs are well be haved if you treat them right. It's all in being thoughtful and considerate of

ommerce commission, it cannot legislate kind of a patent fuse set in a shell of Meanwhile he was jerking at som egulation, which must be regarded as high explosive.

"This is a poor kind, sir. It's been partially subject to what Germany, Engand, and Japan require of their ship discarded, but I thought and, and Japan require of their ship like to see it. Never did like it! Aldiscarded, but I thought that you might

The audience carried out instructions to the letter as army regulations re mire. We not behind the protection of one of the practice french traverses. H contract and eating, sleeping, and living threw the discard beyond another wall of earth. There was a sharp report, jurst of smoke and some fragments of earth were tossed into the air.

In a small affair of two bundred yards of trench the other day it was stimated that the British and German ogether threw about five thousand ment ownership or government subsidy bombs in this fashion. It was enough to sadden any minister of munitions However, the British kept the trench.

Bombing Service Popular.

"Do the men like to become bombers? ne asked the subaltern. "I should say so. It puts them up in Dunn, 7:30 last night; Odanah, Cream front. It gives them a chance to throx Green, 12:30; Perkins, 1:10; Block, throwing record for distance. He was Magna, 2:30; Argo, 3:30; rfettler, In- pleased as punch with himself. A first terlaken, 6: Laughlin, Yates, 6:30; class bombing detachment has a lot of

To bomb has become as common Hebard, 9:30; Follette, Aztec, 15; verb with the army as to bayonet. "We Beorge Crawford, II; Cowle, Morden, bombed them out!" means a section of 11:30; Wilbert Smith, noon; Buffalo, trench taken. As you know a trench 1:30; Hamonie. 2; Ellwood, Hollay, is dug and built with sandbags in zig-2:30; Crescent City, Allegheny, Alex Eag traverses. In following the course of a trench it is as if you followed the sides of the squares of a checker board up and down and across on the same tier of squares. The square itself is a GASES FAIL TO REPRESS BRITISH bank of earth with the cut on either side and in front of it. When a bomb Toronto, Aug. 5.-A special corre- ing party bombs their way into the spondent with the Britis hheadquarters possession of a section of German trench there are Germans under cover The more I see of the British army of the traverses on either side of them ansing, the old territorial roads, and in the field the more I am impressed The German is waiting around the corner to shoot the first British head that

shows itself. "It's important that you and not the Boehes chuck the bombs over first," exmay be as troublesome to you as to the

With the bombs bursting in their faces the Germans who are not put out of action are blinded and stunned. It itterness, and there are no flowers, Yet the moment when they are thus off even the menace of the new death has guard the aggressors leap around the

"Stick 'em, sir!" said the matter-of fact sergeant. "Yes, the cold steel is ean jest even when they are gasping for best. And do it first, . As Mr. Macbreath. "Another peasonp fog." said a Pherson said, it's very important to do

Rifle Won't Do Here.

It has been found that something short is handy for this kind of work. In such cramped quarters—a ditch six feet deep and from two to three feet broad-the rifle is an awkward length to permit of prompt and skilful use of

"Yes, sir, you can mix it up better with something handy, sir-to think British soldiers would come to fighting like assassins, sir," said the sergeant. "You must be spry on such occasions It's no time for wool gathering."

Not a smile from him or the subaltern all the time. They were the kind you would like to have along in a tight corner whether you had to fight with knives or fists or seventeen-inch howit-

(7-27-tf) F "Then, sir, I expect that most of the better.

The Cry Of The Day Is "System"

There is no line of Human Endeavor in which, sooner or later, pause is not made to see wherein things can be better systematized, that a greater degree of success may be realized. In these days of keen competition, success depends upon system - system upon the part of the management; system in dealing with the public; system in the interior organization. System means a better product, a wider market, greater dividends.

GET THIS INTO YOUR SYSTEM.

All that you have read above is the absolute truth. Ask the active head of any successful enterprise. It takes some concerns longer to see it than others, but such a time comes to them all, if indeed they are not continually on the alert to improve their system. What is good for a corporation or firm is good for the individual. System in the handling of your personal finances will mean more success for you personally, . and the necessary system will be supplied by a Bank account. If you are not already a depositor with us, we invite you to come in and talk the matter over with us. Let us show you how it is done.

THE FIRST NATIONAL BANK, MARQUETTE, MICH.

ANNOUNCEMENT

The following prices f. o. b. Detroit, effective Aug. 2, 1915.

ord	Runabout							. \$	390.00	
ord	Touring Car								440.00	
ord	Town Car								640.00	

No speedometer included in this year's equipment, otherwise cars fully equipped

There can be no assurance given against an advance in these prices at any time. We guarantee, however, that there will be no reduction in these prices prior to August 1, 1916.

Profit-Sharing with Retail Buyers

On August 1, 1914 we made the announcement that if we could make and sell at retail 309,000 Ford cars between August 1, 1914 and August' 1, 1915 we would share profits with the retail purchasers, to the extent of from \$40 to \$60 on each car. We have sold over 309,000 Ford cars in the time specified, and profit-sharing checks of \$50 each will be distributed as rapidly as possible after August 15, 1915. Retail purchasers who have not yet mailed us their profit-sharing coupons, properly endorsed, should do so without delay.

Our plan to profit-share with retail purchasers of Ford ears during 1914-15 has been most successful. We thoroughly believe in it, but, realizing the uncertainty of conditions generally makes it advisable to defer any announcement of future profit-sharing

We are, however, confident of our inability to reduce costs for several months, and therefore can offer no profit-sharing for ears delivered during August, September and October, 1915,

E. W. Jones, Marquette Co. Agent 112 Spring Street Marquette, Michigan

sombs would be exploded. Bombs are very peculiar in their habits. What do

on think, sir ? It was no trouble to show stock, as he clerks at the stores say. He ented-but, no, not all invented. These yould mount into the thousands. Every British inventor who knows anything new kind of bomb. One means all the inds which the British war office bas

onsidered worth a practice test. There were yellow and green and blue nd black and striped bombs, egghaped, barrelshaped, conical and conave bombs; bombs that were exploded by pulling a string or pressing a buton-all these to be thrown by hand. without mentioning grenades and other igger varieties which were thrown by nechanical means which would have hade a Chinese warrior of Confucius' ime or a Roman legionary feel at home.

The "First Born."

"This was the first born," the subalern explained— "the first thing we ould lay our hands on when the close narters trench warfare began." It was out of date, now, as grand ather's smoothbore—the tin pot bomb which both sides used early in the winer. A'wick was attached to the high

xplosive wrapped in cloth and stuck an ordinary army jam ean. "Quite home-made, as you see, sir," emarked the sergeant, "Used to fix hem up ourselves in the trenches in odd hours-saved burying your refuse jam tins according to medical corps diection-von threw them at the Boches, Have to use a match to light it -very old-fashioned, sir. I wonder if that old fuse has got damp. No, it's going all right"-and he threw the jam pot which

ade a good explosion "But here is the best; we're discarding the others," he went on as he picked up It was a pleasure to throw this crown-

ng achievement of the experiments. It tted your hand nicely: it threw easily it did the business; it was foolproof gainst a man in love or a warpost. "We saw as soon as this style came out," said the sergeant, "that it was bound to be popular. Everybody asks

"DANISH PRIZE MILK" takes the place of my milk and cream requirements. I like it far

LIFE OF THE EASTLAND FOR PASSENGERS PASSED

Detroit, Mich., Aug. 5 .- The Eastland as a boat is doomed, according to De rought forth all the different kinds of troit vesselmen. With the prejudice of ombs which British ingenuity has in the entire nation against her, and the eyes of government inspectors focused tpon her, they declare she will never make another trip with passengers bout explosives has tried his hand at and though it is suggested that she may serve her last days as a sand scow, the peculiarity of her hull is such that she

nay not even be available for that umble purpose "When a boat goes over as the Eastand did, or has some other accident er passenger-carrying days are over, aid one Detroit vessel owner. "Sh night be transported to some other re tion, and, with her identity voncealed by a new name and new construction might make another start; but I don think the government would allow that in the case of the Eastland.

"Sometimes boats can be rebuilt or ut down to run as freight carriers at the Eastland could not be. Si hasn't deckroom to carry enough freigh o pay, and if a cargo were put in l hold, the expense of loading and ording would eat up the profits. The Eastland might be cut down

sand-sucker, but she draws too muc and-suckers are built to go in shallow daces. She might be made a barge. "The Eastland was built for speed quipped magnificently, and was worth
