

GERMAN PINCERS SHUT TIGHTER ON RUSSIANS

RAILWAY LINES TAKEN, MUSCOVITE ARMY IS IN PRECARIOUS STATE

Field Marshal Von Hindenburg's Encircling Movement Against Czar's Forces which Evacuated Vilna Increases Misgiving in England--French Troops Cross Aisne-Marne Canal, Berlin Admits--British Retaliate Successfully Against Attack

London, Sept. 21, 10:50 p. m.—The German encircling movement against the Russian army which evacuated Vilna has appreciably intensified and tightened, and with the retreating forces virtually without rail communication, their retreat seems to have reached the most critical juncture. There is increasing misgiving in England with regard to the outcome of the maneuver. The latest Berlin official communication shows important advances by Field Marshal von Hindenburg's right wing, as well as progress by Prince Leopold of Bavaria on the center.

BRITISH BALANCE SCORE.

The only development from the point of view of the allies, as an offset to the continued rush of the Germans in the east, is the news received from Paris that French troops have crossed the Aisne-Marne canal, a claim which Berlin concedes. The British front, which has been so quiet for weeks, has been hammered by the German artillery, but, according to the British official reports, prompt retaliation by the British balanced the score.

Heavy bombardments continue along the Austro-Italian front, with both sides claiming advantages for their guns at various points.

Constantinople reports that on the Gallipoli peninsula, allied troops continuing fortifications near Anafarta and Seddul Bahr, have been dispersed by Turkish guns and a large portion of the allied trenches near Aral Burnu were destroyed by the Turkish artillery fire.

BULGARIANS ON SERB FRONT.

The Serbo-Bulgarian frontier has been declared a war zone by Bulgaria, according to a semi-official dispatch from Berlin. Bulgarian troops are said to have concentrated near the Serbian frontier, while German and Austro-Hungarian troops are declared to be along the Serbian border line.

A Berlin newspaper reports that a large British transport, bound from Egypt for the Gallipoli peninsula, has been sunk by a German submarine off the Island of Crete in the Mediterranean. Russian ships have sunk a German submarine which has been operating recently in the Black sea, according to an Odessa dispatch.

APPEARS S. W. M'CALL IS NAMED IN MASSACHUSETTS BY G. O. P. TO BE GOVERNOR

Boston, Sept. 21.—Approximately 40 per cent of the total vote cast in today's primaries showed a sharp contest for the Republican nomination for governor between former Congressman Samuel W. McCall and Grafton D. Cushing, with indications that McCall had won by a plurality of about 3,000.

The vote for former Governor Eugene N. Foss was comparatively small. Governor David L. Walsh for re-nomination had an easy race against Frederick D. Detrick, the only other contender for the Democratic nomination.

GERMANS USING SILK TO MAKE SANDBAGS

Amsterdam, via London, Sept. 21.—Silk and velvet are now being utilized by the Germans for making sand bags for the trenches in Belgium, according to the correspondent at Roulers of the Telegraf. This measure has been necessitated because the supply of jute has been exhausted.

BRYAN AND WILSON WILL CONFER TODAY AT THE WHITE HOUSE

Washington, Sept. 21.—William J. Bryan will confer tomorrow with President Wilson. The engagement was made today at the White House at Mr. Bryan's request. What the two men will discuss was not disclosed.

FORMER TREASURER OF WISCONSIN DIES

Rice Lake, Wis., Sept. 21.—Sewell A. Peterson, fifty-six years old, former state treasurer, died last night from gunshot wounds in the stomach accidentally sustained while hunting five miles from here yesterday.

ARMED NEUTRALITY BULGARIA'S PURPOSE IT IS ANNOUNCED

Washington, Sept. 21.—General mobilization of all the military forces in Bulgaria, effective today, for the purpose of armed neutrality, has been ordered by the Bulgarian government. Official announcement of this order today was communicated by his government to Mr. Bonarotoff, the Bulgarian minister here. Athens, via Paris, Sept. 21, 10:55 p. m.—Bulgaria is reported to have mobilized 100,000 men. Several cavalry regiments are declared to have left Sofia for unknown destinations. Officials and diplomats here, who alone have been apprised of these reports, appear greatly disturbed over the situation.

MORAL UPLIFT WORKER IS DEAD AT NEW YORK

Anthony Comstock, Known All Over Nation for Activities, Victim of Pneumonia.

New York, Sept. 21.—Anthony Comstock, secretary of the New York Society for the Suppression of Vice, died at his home in Summit, N. J., tonight after a brief illness. Mr. Comstock, while on his vacation ten days ago, contracted a cold, which later developed into pneumonia. Mr. Comstock was noted for many years for his crusades against immorality. He began back in 1872 when he was a dry-goods clerk in a New York store and succeeded in suppressing an objectionable book that was being circulated among his co-workers. So effective was he over the success of his initial effort that Mr. Comstock decided to make the crusade against vice his life-work.

In 1873 the New York Society for the Suppression of Vice was formed by a group of prominent New York men and Mr. Comstock was made its special agent. He pushed his campaign in earnest and thousands of arrests and convictions resulted. The same year the postoffice department employed Mr. Comstock as an inspector and it is said that he had much to do with detecting fraudulent transactions through the mails.

Through his attacks on exhibitions and sales of pictures which were regarded by many as works of art, Mr. Comstock remained much in the public eye and was often severely criticized. Winchester, Va., Sept. 21.—William H. Baker, chocolate manufacturer and banker, died at his home here today, aged sixty-five. Tuxedo, N. Y., Sept. 21.—James W. Alexander, former president of the Equitable Life Assurance society, died tonight at the home of his son here, after an illness of several months. Mr. Alexander succeeded Henry B. Hyde as president of the Equitable in 1899.

OFFICERS OF VESSEL WHICH BURNED AT SEA DON'T KNOW FIRE'S CAUSE

New York, Sept. 21.—The Anchor line steamship Tuscania arrived in port tonight with 339 passengers and seventy of the crew of the Greek steamship Athina, which was abandoned at sea late Sunday afternoon, after she had been afloat for thirty-six hours. Every person on board the burning vessel was rescued. The steamship Roumanian Prince is due here tomorrow with fifty-six of the crew and five passengers, rescued at the same time.

The officers of the Athina said tonight that they did not know what caused the fire. They said there was no panic on board.

FORMER TREASURER OF WISCONSIN DIES

Rice Lake, Wis., Sept. 21.—Sewell A. Peterson, fifty-six years old, former state treasurer, died last night from gunshot wounds in the stomach accidentally sustained while hunting five miles from here yesterday.

JOHN D. TAKES PICK HIMSELF IN COAL MINES

Primero, Colo., Sept. 21.—John D. Rockefeller, Jr., slept in a coal camp tonight. After a busy day of inspection, in the course of which he swung a pick in the Frederick mine, the Standard Oil magnate, late in the afternoon, reached the Primero camp. Before retiring Mr. Rockefeller ate dinner in the miners' boarding house, then spent the early evening talking with the men who had just come from the underground workings.

Mr. Rockefeller's day of inspection began at the Frederick mine at Valdez, about fifteen miles west of Trinidad. There he donned blue overalls and jumper and trudged through two or three miles of narrow tunnels, perhaps a thousand feet below the crest of the hill into which the mine is driven.

TAKES A PICK HIMSELF.

In one of the "rooms" where miners were toiling at the Granite-like face of the coal, Rockefeller borrowed a pick and chopped away lustily until chunks of coal came rattling down to the floor to his immense delight. Then, standing in the dim glare of the light on the caps of himself and his companions, Mr. Rockefeller made a little talk to the three or four grimy coal diggers, whose toil he had interrupted.

"Men, we are partners in this business," he said. "Anybody from inside the camp or from outside who has been telling you that we are enemies has been trying to deceive you. I can't get along without you and you can't get along without me. If I had all the money in the world I couldn't run these Colorado mines without you workmen, and you, with your brawn and muscle could not earn a living digging coal out of the ground unless there was capital to buy these mules and lay the tracks and provide a market for the coal. We are partners, that's what we are, and I want to do business with you on that principle."

MEN APPRECIATE MAGNATE.

Then Mr. Rockefeller turned to leave. "You are not as bad as you are painted," remarked one of the miners as he picked up his pick and went back to his toil. Mr. Rockefeller had to wait for the second table at the Primero boarding house. When he arrived, tired and hungry, the boarding boss said all the tables were filled. So the representative of Wall street and the Standard Oil millions waited for the men who had earned their day's wages digging coal.

TIGERS OUT DOWN LEAD OF THE BOSTON RED SOX

Detroit Defeats Philadelphia, While Rain Prevented Boston-Cleveland Game.

New York, Sept. 21.—The elements helped the Detroit Tigers to cut down the Boston Americans' lead slightly today, rain causing a postponement of the scheduled double-header between Boston and Cleveland, while the Tigers took a game from Philadelphia. The two games which Boston was to have played with Cleveland probably will have to be cancelled as there will be no opportunity to play them off in the present series and the two teams are not scheduled to meet again this season. The Red Sox led the Tigers tonight by four games, which, barring accidents, or a sudden and unexpected reversal of form is expected to be sufficient to win the pennant.

The Philadelphia Nationals made their position in the pennant race more secure today by winning both games of a double-header from St. Louis thereby gaining half a game on the Boston team, which won a game from Cincinnati, and increasing their lead by a whole game over Brooklyn, which cold weather prevented from playing in Pittsburgh. Baseball critics now consider it doubtful if either Boston or Brooklyn will be able to overtake the speedy Phillies who have a five and one-half game lead over the Braves, who take second place today. The Phillies are a full six games ahead of Robinson's Superbas.

HARRIMAN-LAWRENCE WEDDING.

Lenox, Mass., Sept. 21.—William A. Harriman, eldest son of the late Edward H. Harriman, of New York, was married today to Miss Kitty L. Lawrence, granddaughter of Charles Lanier, of New York.

Beloit, Wis., Sept. 21.—Archbishop Sebastian G. Messers, of the Milwaukee archdiocese, has issued a letter to the pastors of two Catholic churches here protesting against a rule said to have been adopted at Beloit college making it compulsory for students to attend non-sectarian religious services there.

SUBMARINES ORDERED TO LET SHIPS ESCAPE IF THERE IS ANY DOUBT

Berlin, Sept. 21, via London, Sept. 22, 5:05 a. m.—Commanders of German submarines have been given strict orders, it has been learned authoritatively, that in case of doubt as to the intentions of liners they are to take the safe course and permit the ship's escape rather than run the slightest risk of error.

ANOTHER BRITISH SHIP IS A SUBMARINE VICTIM

London, Sept. 21.—The British steamer Linknoor, 4,048 tons gross, built last year, has been sunk. The crew was landed.

WILSON CALLED SELF-WILLED IN DUMBA LETTER

Papers Found on Archibald Contain Interesting Parts.

Berlin, Sept. 21. By Wireless to Tucker, N. J., Sept. 21.—The Overseas News agency gives out the following dispatch from Vienna: "Political circles expect that the foreign office, without awaiting Dr. Dumba's arrival from the United States, will detail Kajetan Mery von Kaposch, former ambassador to Rome, as ambassador protempore at Washington."

London, Sept. 21, 6:30 p. m.—Of the thirty-four Austrian and German papers found in the possession of James F. J. Archibald, the American newspaper editor, when he was apprehended Aug. 30 at Falmouth, while proceeding from New York on board the steamer Rotterdam for Rotterdam, seventeen are described as having been made public and the other seventeen as being "insufficient to warrant publication."

Count von Bernstorff, the German ambassador to the United States, in one letter says that Mr. Archibald "is proceeding to Germany to collect material for lectures in the United States in the interest of the German cause."

In a letter addressed to Mr. Archibald, Count von Bernstorff says: "I have heard with pleasure that you wish once more to return to Germany and Austria after having promoted our interests out here in such a zealous and successful manner."

WILSON SELF-WILLED—DUMBA.

The document included a letter from Dr. Constantin Theodor Dumba, the Austro-Hungarian ambassador at Washington, to the Austro-Hungarian minister of foreign affairs, which criticized Secretary of State Lansing's reply to the minister's protest against the large deliveries of weapons to the allies. The letter declares the legal arguments of Mr. Lansing are "certainly very weak" but adds that to return to the question is useless, "having regard to the somewhat self-willed temperament of the president."

"The president has broken all the bridges behind him and made his point of view so definite that it is impossible for him to retreat from his position," says another paragraph.

SPEAKS OF AMERICAN 'VIEW.'

"As for the note to protest against British interference with shipping, which has so often been notified and as often postponed, I learn that the issue is expected in consequence of the imminent declaration of cotton as contraband. The feeling which obtains amongst the great American importers was accurately represented in Mr. Meagher's speech. Meagher is one of the principal exporters of the United States, for he is a partner in the Chicago firm of Armour & Co., who, with the firm of Swift, controls the meat market of the whole western hemisphere.

"Mr. Meagher, whom I recently met on a yacht, and whose acquaintance I already had made in Chicago, absolutely regards England's acts as arbitrary. No fewer than thirty-one ships with meat and bacon shipments of his firm for Sweden, valued at \$10,000,000 have been detained in English ports for months under suspicion that they ultimately are intended for Germany."

MORE TROOPS SENT TO MEXICAN BORDER

Washington, Sept. 21.—A regiment of field artillery has been ordered from Galveston to El Paso, Tex., according to an announcement from the war department late today. The purpose of the movement was not stated.

GREATEST WAR BUDGET IN HISTORY FOR BRITISH

MOST DETAILS OF HUGE LOAN ARE AGREED ON

New York, Sept. 21.—Borrowers and lenders of the vast sum sought in America on behalf of Great Britain and France were said tonight to be in virtual accord on all details of the proposed loan except two. These, it was said, were not of prime importance. Formal proclamation of the success of the negotiations is expected within three or four days and, possibly, within forty-eight hours.

WHAT HAS BEEN DONE.

A rough inventory of what was accomplished, it was said, would read about as follows:

Members of New York's so-called pro-German banking houses will help float the loan.

Mentions of war no longer enter into the topics discussed. While it cannot be guaranteed that they will be excluded from the loan's operations, it is the present tentative plan to continue paying for them by shipments of gold and American securities from London and Paris to New York.

LOAN PROBABLY \$700,000,000.

The size of the loan has been definitely agreed to, subject, of course, to eleven-hour revision. It will be less than \$800,000,000, probably \$700,000,000 or thereabouts.

The notes issued for the loan will run five years.

These notes will carry a conversion privilege entitling the holders to surrender them at maturity, if desired, for joint Anglo-French government bonds bearing 4 1/2 per cent interest and covering a period of probably twenty years, redeemable, however, at the option of Great Britain and France before maturity and at the conclusion of a term not as yet disclosed.

PRO-GERMANS IN DEAL.

Members of at least two big financial institutions regarded as pro-German in their sympathies were said to have pledged their support to the project and others were expected to fall in line. One of the two was Kuhn, Loeb & Co., whose power in the financial world has been rated as second only to that of J. P. Morgan & Co. The firm itself will not subscribe to the issue, it was said. There were indications, however, that some of the firm's members would subscribe as individuals.

Other powerful financial interests it was said, also were willing to subscribe. This report was strengthened by the presence, during the day, of William Rockefeller and Henry C. Fryck at the office of J. P. Morgan & Co. Mr. Morgan has been devoting virtually his entire time recently to the negotiations, and it was announced that some of the Rockefeller and Fryck millions would be invested.

SPORTING WRITERS SPLIT ON KILBANE-MITCHELL

Milwaukee, Wis., Sept. 21.—In a ten-round no-decision boxing contest between Johnny Kilbane, Cleveland, champion featherweight, and Ritchie Mitchell, Milwaukee, the opinion of sporting writers at the ringside was divided, some calling the affair a draw and others a slight shade to Mitchell. Kilbane weighed 126 and Mitchell 124 1/2, at 3 o'clock, Mitchell finished without a blemish, while Kilbane was bleeding from eye, nose and mouth. Both boys were strong at the end.

U. S. NORTH DAKOTA IS IN SORRY SHAPE.

Philadelphia, Sept. 21.—The dreadnought North Dakota, the gunners of which last year held the record for marksmanship in the United States navy, will have to be equipped with new turbine engines before she can take her place in the advance line again, according to statements made at the Philadelphia navy yard, where the vessel has been in reserve since July.

The officers at the navy yard would not discuss the condition of the vessel, which was constructed at the Fore River yards at a cost of \$5,971,000, and launched in 1910, but it was admitted that the engines are not in good condition. It was stated unofficially that during the maneuvers last spring the turbines were so erratic that one of the high naval officials advocated taking the North Dakota entirely out of commission.

Most of the officers and men of the dreadnought have been transferred to other vessels. The regular crew consisted of 52 officers and 886 men, while at present there are only about 10 officers and about 200 men attached to the vessel.

MOST DRASTIC TAXES ARE NEEDED TO GET FUNDS FOR EQUIPMENT

New Military Requirements Create Overnight Additional Expenditures not Reckoned with, Says Chancellor of Exchequer In Introducing Bill In Commons--House Apparently Unanimously Favors Measure Which Will Be Only Temporary

London, Sept. 21, 8:55 p. m.—The greatest war budget in the world's history was introduced in the house of commons today by Reginald McKenna, chancellor of the exchequer, as another step toward financing the war, which is now costing Great Britain nearly \$25,000,000 daily.

New military requirements and changed methods of warfare have created overnight additional expenditures which had not been reckoned with even in the comparatively recent estimates of David Lloyd George, the munitions minister, necessitating in this budget, the third since the outbreak of hostilities, the most drastic and far-reaching taxes in the history of the country, and involving even free trade.

TAX IS ONLY TEMPORARY.

Hereafter automobiles, bicycles, moving picture films, clocks, watches, musical instruments, plate glass and hats will pay a tax of 33 1/3 per cent ad valorem, though, as Mr. McKenna explained, the objects of such "taxation are purely temporary, and without regard to a permanent effect on trade," being primarily designed to discourage imports and remedy the foreign exchange situation.

Spirits and beers, which have been the subject of so much agitation, remained untouched by the new schedule. The principal blow fell on incomes, the existing tax on incomes not only being jumped 40 per cent, but its scope widened so as to tax even workmen earning as little as \$14 weekly.

The very wealthy must contribute to

the government more than one-third of their revenue. The one-cent mail will be abolished entirely and the weight heretofore carried in the mails for two cents will be reduced. The rate on telegrams, which is twelve cents for twelve words, is increased to eighteen cents, and there is also to be a proportionate increase in telephone charges.

SUGAR PRICES AFFECTED LITTLE.

The sugar tax, though largely increased, will mean only an extra penny per pound burden for the general public, for the sale of all sugar is now regulated by the royal commission, which will reduce the price to refiners and dealers. General debate on the budget is yet to be held, but it was apparent that Mr. McKenna's suggestions were received by a virtually unanimous house.

ANOTHER WAR LOAN NEEDED.

The chancellor said incidentally that he would have occasion to call on the country for another war loan. Mr. McKenna estimated that the government's revenue for the current year would be £272,000,000 (\$1,269,000,000), that the expenditure would reach £1,590,000,000 (\$7,350,000,000) and that the dead weight of debt at the close of the financial year would be £2,200,000,000 (\$11,000,000,000).

"We have troubled our debt and doubled our taxes," he added. "If the war continues these proposals cannot be our last word. Our great resource is the continued willingness of the people to bear their share."

CITIZENS LEARNING HOW TO BE SOLDIERS ARE WORKING HARD

Chicago, Sept. 21.—The citizen soldiers at the civilian army camp at Fort Sheridan went through eight hours of hard work today. Beginning at 6 a. m., with the temperature below the freezing point, the professional and businessmen, accustomed to cozy office quarters, learned their first lesson in "the school of the soldier."

How to stand erect how to face about, mark time, and march in squad and company—and how to juggle that marvelous pack; these were the chief lessons which confronted the "rookies" today. Just before mess call tonight Colonel W. J. Nicholson ordered "extra blankets for all" much to the appreciation of all concerned.

17 MINERS MEET DEATH IN FIRE IN COAL MINE

Nimeton, Eng., Sept. 21, 6:31 p. m.—Seventeen miners lost their lives today as a result of a fire in the Exhal colliery. About 250 workers were trapped below the surface, but all except seven-teen escaped.

TWO WOMEN WALK 30 MILES TO PLEAD

Jefferson City Mo., Sept. 21.—The heroic struggle of Mrs. Robert Duggett, of Freeburg, Osage county, and her nineteen-year-old daughter to support themselves and a family of younger children came to light when the mother and daughter walked to this city, a distance of thirty miles, to appeal to the board of pardons for a parole for their husband and father, who is serving a two-year sentence for assault with intent to kill.

Tears of compassion sprang to the eyes of members of the board of pardons when the mother told them how her daughter was compelled to leave railroad ties and chop cordwood to get food and clothing for younger members of the family. The mother said she had been taking in washing six days in a week to add to the daughter's earnings. "The women discovered" that it was necessary to secure the signature of the prosecuting attorney and trial judge to their petition, so they announced they would walk back to Freeburg and get them. V. R. McCue, member of the board told them he would write to Judge Bruner before the case was tried and get his recommendation.

ACTRESS AND A MAN ARE FOUND MURDERED, THEIR HEADS CRUSHED

Memphis, Tenn., Sept. 21.—Evidence of a double murder was brought to light today when the bodies of Mrs. Margaret Favar, an actress, and a man partially identified as J. J. Crowell, believed to be a resident of Greenwood, Miss., were discovered in an apartment in the central residence district. The heads of both victims had been battered in with a hammer and the bodies slashed with a razor. Messages from the Greenwood, Miss., police say Crowell was manager of a cotton oil mill there and had a wife and child.

RAILROADS WILL ASK ARGUMENTS ON RATES

Washington, Sept. 21.—The interstate commerce commission today granted a request by the railroads interested for time in which to prepare a formal petition asking for a reopening of arguments of the western advance rate case, so far as certain rates are concerned.

THIEF UNWITTINGLY SNAPS PHOTOGRAPHS OF HIMSELF.

St. Louis, Mo., Sept. 21.—By an arrangement of hidden cameras placed at different points in the room, George E. Hankamann, a photographer, with a studio in Belleville, made a thief, who had broken into the establishment, photograph himself while at work. The cameras were arranged so that when the thief entered the studio a thread attached to the door tripped the shutter. Threads were attached to various other objects, and before the thief departed, he had photographed himself several times.

Hankamann refused to show the photographs of the intruder, saying that he believed, with a little persuasion, the thief, whom he knows, would return the property. Hankamann declares the likenesses are excellent and show the marauder in different positions as he was gathering up loot.

TODAY'S WEATHER.

Washington, Sept. 21.—The following is the weather bureau's forecast for Upper Michigan: Fair Wednesday and Thursday, with slowly rising temperature.

THE DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY The Mining Journal Company, Limited.

Issued daily except on Sundays. Contains Associated Press dispatches, and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per year, by mail, \$6.00 Per month, by carrier, .50

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

WEDNESDAY, SEPT. 22, 1915.

PER NONE BUT AMERICANS ON GUARD

IT PAYS TO ADVERTISE

The shingle manufacturers of the upper peninsula and northern Wisconsin, led to scrutinize trade conditions by the high cost of manufacture, compared with the going prices for their product, and the difficulty of selling, have made the belated discovery that it pays to advertise.

Some of the difficulty the manufacturers meet with in pursuing their business profitably is attributed to the tariff arrangements that open up the American market to Canadians as it has never been opened before.

And now they propose to see what they can do to restore their business to a profitable basis by approaching their selling problem in a modern way.

AN ACCEPTED TRADE

The pro-German comment on our trade in munitions has been so reiterated and so generally emphatic as to suggest that it is somewhat the exception for a neutral nation to go as far as we are now going in supplying a combatant people with the means of war.

Berlin, July 26, 1904.—The Berliner Tagblatt learns from Essen that large orders for war material have been received by the Krupp works from the Russian government.

Brussels, Aug. 2, 1904.—That Russia is drawing on foreign sources for war material is shown by the fact that the steamer Florida left Antwerp on Saturday for Lihau with a full cargo of heavy guns and ammunition destined for use in the far east.

Pittsburg, Sept. 8, 1904.—Japan has ordered from the Carnegie Steel company 7,500 tons of the finest nickel steel plates for battleships.

Ottawa, Sept. 14, 1904.—It is understood that the Japanese government is negotiating for the purchase of mines in Montana and the Canadian territories for use in the winter campaign in Manchuria.

Brussels, Oct. 2, 1904.—The Antwerp correspondent of the Brussels Soir says that 200,000 tons of coal have been purchased in England by German houses for the Russian fleet.

Vienna, Oct. 12, 1904.—The semi-official Hungarian agency, the Budapest Correspondence, states that Japan has sent to Fiume three experts to watch over the construction of the torpedoes to be delivered to the Japanese government during the next three years.

tion, near Peking, 3,000,000 rounds of Russian rifle ammunition consigned to a Russian firm at Tien-tsin, and evidently destined for Port Arthur.

Victoria, British Columbia, Jan. 14, 1905.—The Japanese steamer Kanagawa Maru, which is sailing shortly from Puget sound for Japan, will have a number of submarines on board.

Tokio, Feb. 12, 1905.—A German steamer with warlike stores for Vladivostok was seized on Feb. 10 in the northern seas.

Paris, March 8, 1905.—Yesterday an order was given by the Russian government to a French military contractor for 80,000 three-inch shrapnel shells, subject to the condition that they should be provided by a French firm.

Yet the years 1904-05 passed without the right of neutrals to sell as largely as they might desire of munitions being questioned. The reason is obvious.

Every day that Europe wastes and America saves the contrast between the financial prospects of the old world and the new becomes sharper and more impressive.

It is not altogether a question of national safety. In large part it is the freedom of the United States from tremendous loads of debt which impresses European investors.

The United States has never had a rival in respect to natural resources. Now it is rapidly gaining ascendancy in capital. Its banks are drawing gold from many lands.

Mr. Rockefeller, Jr., is inspecting the Colorado mines in which the Rockefeller family has the predominant interest.

Mr. Rockefeller, Jr., can't be about better business than determining the conditions of work and the conditions of living confronted by the great army of men and women who are carried on the family payroll.

Municipal ownership, a Detroit, who is well informed about the current of opinion in the city where life is worth living, tells The Mining Journal, is likely to fail.

New York, Oct. 12, 1904.—The Russian order for thirty submarines of the Protector type, which are now being built, has been immediately followed by an order from Japan for fifty submarines of the Holland type.

The Mining Journal believes in municipal ownership under favoring circumstances. What its value to a community can be has been brilliantly demonstrated here.

Mr. Ford's plan for a little submarine might be taken to indicate that he was backsliding on his pacifist program were it not for the fact that he makes it clear that he proposes to play it up in an effort to prevent the building of big battleships.

Americans who don't know what to make of the Balkans may feel consoled. They are as well off as the powers at war, to whom the questions involved are of far greater importance.

But the British agents who, in due time, copped the Dumba correspondence were by no means as innocent as Mr. Archibald.

Archibald claims that he is innocent. At least it appears that he is far too innocent to be abroad just now.

TIMELY QUIPS

Bulge. The question is, who is willing to put another bulge in Bulgaria.—Washington Herald.

Busy. No trouble to find a man who is willing to stop his own work to tell some other man how to keep busy.—Philadelphia Telegraph.

Changed Maps. The present war will not only change the map of Europe, but also the European conception of the map of America.—Chicago Herald.

Dare He? Some of us can't help wondering whether the man who offers Colonel Roosevelt \$10,000 to fight in the trenches in Europe would dare to say it to his face.—Cleveland Leader.

Schwab. It must be a matter of constant amazement in Berlin and Vienna that the greatest neutral exporting industry of the United States.—Ohio State Journal.

Simple Days. This fuss about one-piece bathing suits makes many bathers long for the simple days when the boys enjoyed themselves in the old swimming hole in nothing more than a birthday suit.—New York Evening Telegram.

EDITORIAL OPINION

University in Line

There has been a system of military training in connection with Wisconsin university for many years. But at times it was argued that men high in authority have estimated such training too lightly; that they reluctantly tolerated it, and would have been glad to abandon it, had not a provision in the charter rendered its continuance obligatory.

Recent developments at the university exhibit a most desirable change of sentiment. The September University Bulletin, which speaks officially for President Van Hise and his associates in authority, is enthusiastic in its advocacy of keeping the military training feature so far to the front that it will not be out-ranked by any of the colleges and universities.

The war department, the Bulletin says, "places the Wisconsin university cadet command in the distinguished class, which is high praise and honor. The regiment is urged to put forth efforts that will continue it in that class. The Bulletin well says: 'A student will be better able to serve his country in time of peace as well as in time of war,' because of the military training.

There is only one thing that has kept us out of Mexico. It is the fact that the American public has had no adequate means of coming to a full realization of what conditions in Mexico are.

There is only one thing that has kept us out of Mexico. It is the fact that the American public has had no adequate means of coming to a full realization of what conditions in Mexico are. Even the press has remained unawakened. The difficulty of non-official investigation in Mexico in prevailing circumstances is very great.

what its government knows. And that knowledge is withheld because the president and his former secretary of state have not wished to have their policy forced by an aroused public sentiment.

This is an astonishing situation in which to find a self-governing people. We have talked a good deal about the evils of secret diplomacy in the chambers of Europe. We have held up banners in holy horror at the spectacle of whole peoples swept into a vortex which aristocrats and cabinets have prepared behind the closed doors of official assembly.

But where is the freedom of a people when the very sources of intelligent judgment and good conscience are kept shut by their elected representatives? Mr. Wilson and Mr. Bryan weave rhetorical tributes to the moral sense of our people and dedicate us all, willy nilly, to the service of humanity now and forever. But what has been done so far to know what we are doing?

That, it would seem, is the basis of any freedom that is anything but a fraud. We elect our presidents to be our executives, not our conscience.

To check the jingo and the self-seeking sensationalist is one thing. It can be accomplished openly. To keep the truth away from a free people in order that a policy may not be overthrown is tyranny, no less in America than in Europe.

If the American public could visualize stricken Mexico there would be no more watchful waiting and no traffic with blood stained factions.—Chicago Tribune.

Mr. Bryan and Mr. Pickwick. We favor heartily the exportation of Mr. Bryan at Mr. Bryan's cost.

During a dinner party the questions arose as to when a man should be privileged to kiss a young woman. "Don't you think," said one of the guests, "that when a young man buys grand opera tickets for a girl, spends \$8 for a supper after the performance, and then takes her home in a taxiab, he should kiss her good-night?"

A well known New York artist recently paid a visit to the Kentucky mountain country in order to paint some pictures of the scenery. He chanced upon a cottage among the hills covered with wild honey-suckle vines with which he became enamored.

Approaching this hut from the pathway he saw a lanky mountaineer sawing wood in the dooryard. The artist set up his easel and began to sketch in the cottage and trees. Finally, the mountaineer approached.

"What you be doin', Mister?" he asked, suspiciously. "I am painting your picturesque dwelling," replied the painter.

"The hut dweller disappeared and came back in a few moments with his wife and daughter. "Mind ye," he said, pointing to the painter at work, "I've got me witnesses—your doin' this at your own expense."

A LAUGH OR TWO

They Had No Effect. "Don't all those papers make you tired?" asked the kindly disposed man of the little newsboy who was struggling along under a huge load of evening papers.

"I was defending a prisoner for hours, standing him off from all means of defending him, under the circumstances. I set up the plea of insanity. I argued it at length, read many extracts from works of medical jurisprudence, and had the patient attention of the court. The prosecuting attorney did not attempt to reply to my argument or controvert my authorities.

"I seemed to have things my own way, and whispered to the prisoner that he needn't be uneasy. Then came the judge's charge, in which he reminded the jury that there was no dispute between counsel as to the facts of the case. Indeed, there could not have been, for several reasons.

"I called on Pilkington last evening," said Mr. Dowson. "Did you have a pleasant time?" inquired Mr. Pickington, who was beating his wife when I went in.

"I begged him to go on, but he said some other time would do just as well." "You begged him to go on!" "Why, yes; I didn't want to spoil the fun, you know!"

"Oh, you brute! Do you mean to say that you could have looked on calmly while he beat his wife?" "Certainly! Why not?" "I thought you had at least a spark of manhood left! I suppose you will be beating me next!"

"Yes, I think I could if you'd play cards with me." "Play cards?" "Yes; that's what Pilkington and his wife were doing!"—Pittsburg Chronicle-Telegraph.

AMERICAN FAMILY SOAP The Test of Time! Made by three generations of soap makers for three generations of soap users. Always the same pure soap. COLD OR WARM WATER without boiling.

HEM-AR 10¢ Quality Superb. Mergers Makers of the Finest Egyptian Cottons in the World.

eral witnesses had sworn positively that they saw my client deal the horse. "But," concluded the court, "the plea of insanity has been set up, and I charge you, gentlemen of the jury, that it should receive your very grave and serious deliberation; but I must be allowed to say, gentlemen, that for myself, upon a review of the whole case, I can discover no evidence of insanity on the part of the prisoner, except, perhaps, in the selection of his counsel."

Warm Friendship

"Look here!" sternly said Squire Peavy, "this is about the seventh time you have been up before me in a year!" "Yassah," replied Brother Hooker, "I's proud to say 'tis 'cawdin to muh recollection, I never was one o' dese flattery pussons dat's head today and some's else tomorrow; when I like a man I gives him all muh business. Yassah, when a gentleman was muh 'steem I 'lieves in standin' by him."—Woman's Home Companion.

Grouchy Bachelor

During a dinner party the questions arose as to when a man should be privileged to kiss a young woman. "Don't you think," said one of the guests, "that when a young man buys grand opera tickets for a girl, spends \$8 for a supper after the performance, and then takes her home in a taxiab, he should kiss her good-night?"

"I certainly do not!" was the quick response of another of the guests, a confirmed bachelor. "You don't?" exclaimed the other in surprise. "Why not?" "Because," answered the bachelor, "it seems to me that he has done enough for her."

Playing Safe

A well known New York artist recently paid a visit to the Kentucky mountain country in order to paint some pictures of the scenery. He chanced upon a cottage among the hills covered with wild honey-suckle vines with which he became enamored.

Approaching this hut from the pathway he saw a lanky mountaineer sawing wood in the dooryard. The artist set up his easel and began to sketch in the cottage and trees. Finally, the mountaineer approached.

"What you be doin', Mister?" he asked, suspiciously. "I am painting your picturesque dwelling," replied the painter.

"The hut dweller disappeared and came back in a few moments with his wife and daughter. "Mind ye," he said, pointing to the painter at work, "I've got me witnesses—your doin' this at your own expense."

It Wasn't the Car

About 2 o'clock in the morning Mr. and Mrs. Hy were awakened by a mysterious noise. "Listen!" said Hy, and they sat up in the dark.

"Somebody's breaking into the garage," Mrs. Geer whispered. "I'll go and see," answered Hy. "In dressing gown and slippers he stole out of the house and across the lawn. The garage doors were locked. There was no sign of anything wrong. He returned to the house and reported.

"I wonder what could have been?" said Mrs. Geer. "I am sure I heard something." "So did I," said Hy; "but the car's all right."

"They were almost asleep when suddenly Mrs. Geer aroused with a start. "Perhaps it isn't the car at all," said she. "Perhaps it's baby."

"By George, never thought of him!" They found that their six-month-old son had fallen out of his crib.—Newark News.

A Pleasant Pastime

"I called on Pilkington last evening," said Mr. Dowson. "Did you have a pleasant time?" inquired Mr. Pickington, who was beating his wife when I went in.

"I begged him to go on, but he said some other time would do just as well." "You begged him to go on!" "Why, yes; I didn't want to spoil the fun, you know!"

LOWER STATE NOTES

MI CLEMENS—The second "dry" Sunday in Mr. Clemens since the governor's bid brought no relief to the parched throats. The thirty thirsty were able to discern a crack in the lid here and there. Three saloons generally observed the closing order.

DETROIT—When Patrolman Lattimer attempted an arrest in front of a pool-room on Chene street he was bested by a mob. The officer drew his revolver and fired. Mike Elvast, aged 18, fell by a bullet shot in his lungs. He died half an hour later. The officer went to the poolroom to arrest two young men who were charged with disorderly conduct.

SAGINAW—William E. Griffin, forty-four, formerly prominent lumberman in Saginaw, East Jordan, Traverse City, Manistee and Chicago, is dead at Butte, Mont., of injuries sustained in an automobile accident a week ago. His mother, Mrs. Carrie Griffin, and sister, Margaret, reared with death across the country, arriving in time to see him before he died.

DETROIT—Louis Mondry, twelve years old, of 302 Wesson avenue, was probably fatally injured when he fell sixty-five feet from the steeple of St. Frederick's church, in course of construction at Junction and Norton avenues. He was taken to the West Side branch of Grace hospital. Workmen had left a scaffold swinging against the steeple. According to the police report, the boy climbed to the highest point on the building and was waiting about on the narrow plank when he lost his balance. He alighted on his head, suffering a fracture of the skull and internal injuries.

EAST LANSING—With a new president, a new gymnasium under construction and prospects for an unusual football team and a record breaking freshman class, the Michigan Agricultural college will enter on its fifty-ninth year today, when fall term sessions will begin in East Lansing. "The incoming freshman class, according to B. J. Faunce, secretary to Acting President Kedzie, should total in the neighborhood of 600 students. In the college itself there will be plenty of room for the newcomers, but there is a possibility that some difficulty may be encountered by the authorities in finding rooms, for the growth of East Lansing itself has not kept pace with the growth of the college, and housing accommodations are likely to be somewhat crowded.

This same possibility was feared a year ago by the college authorities, but it was safely tided over at that time.

GRAYLING—Before Hal Davis and Inez Macaulay, widely known vaudeville couple, were divorced, they spent their summers on a country home they owned at Portage lake near this village. In March of last year, Mrs. Hal Davis was granted a divorce in Saginaw, but the summer home continued to be owned jointly, until recently when Davis' interest went to his divorced wife. By action brought in the Crawford county circuit court by Marjorie Hanson, of Grayling, this land was sold at auction Saturday to Attorney George L. Alexander, of Grayling, for \$1,733.65.

James J. Corbett, her husband, who was a Chesaning, Mich., girl. Her divorce was granted on grounds of extreme cruelty and non-support. Neither of them were at the sale Saturday, as Davis is in vaudeville and Miss Macaulay on the coast acting for the painter.

BALDWIN—A Chicago company which recently purchased the machinery belonging to the Great Northern Portland Cement company, now defunct, and whose plant was formerly located at Marlborough, will hold a public auction sale of the apparatus on the grounds, including the buildings, which will be sold to the highest bidder, an extensive rotary, pipes, a great loading crane and other huge machines. Marlborough is ideally situated on a beautiful lake and was once the scene of thrift and prosperity, but now has sunk to waste and desolation. One of the immense buildings of the former flourishing plant was unroofed and another demolished by the storm of last Saturday. The once up-to-date cottages in the village which sprung up around the plant have crumbled into decay, their windows broken and porches falling. The failure of the concern is written everywhere in the surroundings. The hotel, the school house, boarding house and about a dozen of the cottages, however, are still in use and in a good state of preservation and give a little show of life to the dreary scene.

DETROIT—Love's young dream ended for Tillie Radulski when her husband, Victor, wealthy Hamtramck contractor and politician, compelled her to sleep in a dog house and conspired with Hamtramck police to cause her arrest whenever she ventured on the streets, according to the story she told before Judge Murphy in support of her petition for temporary alimony. Tillie alleged that she met Radulski, then 35, when she was but 15. He married her, and her parents' obtaining custody of them, she swore. Then began a process of cruelty almost without precedent, she told the court. Her husband used his political influence to turn the Hamtramck police against her, she declared, and, as a result, she was arrested many times as a disorderly person, although she was innocent of any wrongdoing. On one occasion, she said, her husband gave her a revolver and told her to go on to the commons and kill herself. She took the weapon, she said. She intended to go to her mother's home and leave it there, she said, but she had not gone two blocks when her husband saw her and arrested for carrying concealed weapons. On another occasion she was arrested while returning from her mother's home with a basket of food. At one time her husband drove her from the house in her nightdress at 3 o'clock in the morning, she said, and was compelled to spend the remainder of the night in a dog kennel with a big St. Bernard. She remained there until her husband left for his office, she said. She returned to her mother's home June 1, 1915. Mrs. Radulski is 18 years old. "I was a good girl. He was the only sweetheart I ever had, and I loved him," said the family should be provided with, Colic and diarrhoea often come on suddenly and it is of the greatest importance that they be treated promptly. Consider the suffering that must be endured until a physician arrives or medicine can be obtained. Chamberlain's Colic, Cholera and Diarrhoea Remedy has a reputation second to none for the quick relief which it affords. Obtainable everywhere.

Classified Want Directory

TAKEN

TAKEN—An umbrella from the postoffice shortly after noon yesterday. If returned to 241 W. Michigan St. no questions will be asked, otherwise employment on hand will be employed. 9-21-15.

LOST

LOST—Automobile tire on road between city and Lawson. Finder please return to Cleveland Auto Co. for reward. 9-18-15.

WANTED

WANTED—Men to learn the barber trade. The world is constantly needing more barbers. Our graduates earn good wages. Few weeks completes with us. Prepare now. Money earned while learning. Write Mike Barber College, Milwaukee, Wis. 9-18-15.

WANTED—A good competent maid for general housework. Apply at 340 East Arch St. Mrs. Frank H. Withey. 9-16-15.

FOR RENT

FOR RENT—Three furnished rooms. Call phone 386-J. 9-22-15.

FOR RENT—Furnished room, steam heat, light and bath. Inquire at 154 W. Ridge St. 9-22-15.

FOR RENT—Office on second floor of Mining Journal building.

FOR RENT—Three unfurnished upstairs rooms. Bath and light. Inquire. Price, Michigan St. Phone No. 721-J. 9-21-15.

FOR RENT—The north store of Fraternity block, J. A. Williams, Sec'y. 8-24-15.

FOR RENT—Two apartments on the second floor of the Coles block, corner Third and Bluff streets. The corner apartment has one very large room and two small ones. Fully equipped for lodge purposes, but would be very desirable for business use. Marquette County Savings Bank, or Charles F. Gell. 9-21-15.

FOR SALE

FOR SALE—A gas range, aavenport and a wardrobe. Apply 127 E. Ridge St. 9-22-15.

FOR SALE—Camp at Middle-Island Beach. Apply E. C. Lemon or B. G. Bart. 9-22-15.

FOR SALE—Dodge Bros. touring car. Fully equipped. Fine condition. Run 22000 miles. Phone 887-J. 4740 St. 9-22-15.

FOR SALE—Two lots, each 50x150 ft. in the new district at end of Prospect St. For information inquire of C. H. Duvall, Opera House Bldg. 9-21-15.

FOR SALE—Cheap, 1915-1916 Ford Runabout. Fully equipped. Run fifty miles. Financing Motor Co. 9-17-15.

FOR SALE—Five-passenger Packard automobile; mechanically in excellent condition; equipped with new Michelin tires and Kellogg-Stratton Ignitor. Call telephone 812. 9-14-15.

FOR SALE—A Ford car, five-passenger, in excellent condition and good running order; equipped with shock absorbers, tires, whistle, top, wind shield, good lights with one extra, turn tubes, jacks and tools. Price \$225. J. P. Richards, Brampton, Mich. 8-30-15.

FOR SALE—Boarding house. To be occupied the first of September. 10-15-15. 1410. Inquire T. A. Berglund, Fineston, Mich. 8-24-15.

ONE RESULT WAR MAY BRING

"One medical triumph may emerge from this war which will be worth all the billions in money which it will cost." "When I asked the eminent surgeon, Dr. W. W. Keen, who made that assertion, what it implied, he continued:

"A way to stop infection in wounds after it has been developing for a day or two." Surgeons and scientists are on the trail of that secret and Dr. Keen hopes that they will soon find it. A great many more wounded soldiers out of every 100 die than wounded sailors. One reason is that the soldier rarely can get the prompt attention given to a wounded man-of-warman.

The other reason is that there is far less danger of infection on board ship than on land. All but twenty of them, or France, Belgium and Poland.

Dr. Keen told me that in a land overrun by domestic animals for centuries the likelihood of a soldier's wound becoming infected is far greater than in a wild, uncultivated region. He cited some most interesting figures to prove it.

During the civil war only a few more than 500 soldiers were afflicted with tetanus. All but twenty of them, of something like 97 per cent, died.

Statistics furnished for a Bavarian army of 60,000 show that in the present war a far greater number of wounded soldiers are stricken with "lockjaw" but that only about 50 per cent of them die. They now know how to treat the disease more successfully than fifty years ago.

Much of the civil war fighting was done in a country not highly tilted, whereas the German troops have been battling upon the garden spots of Europe. So you will see that it would be more dangerous to have a battle in Lancaster or Bucks county than in the Nevada desert.

So impregnated with disease are some of the fields in France and Belgium, where the trench fighting has occurred, that Dr. Keen says a solution of ordinary earth injected into a guinea pig has killed it in eighteen hours.

Combing Won't Rid Hair Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips. Do this tonight, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have with the finger tips. You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

Copper Country

MANY CHANGES MADE IN M. E. PASTORATES

Dr. Rankin, Houghton, Retired, Succeeded by Mr. Perkins— Rev. Pierce to Hancock.

Rev. Dr. J. R. Rankin, who soon is to retire from the active ministry of the Methodist Episcopal church, and will leave Houghton and Grace church to take up his home in California, arrived yesterday from Port Huron, where the annual Detroit conference was held and where he handed in his resignation.

The dispatch of yesterday morning with the announcement of the appointments in the Houghton district, including the upper peninsula west and north of Marquette, gave the name of Rev. Grant Perkins as that of the newly appointed pastor of Grace church, Dr. Rankin said that he met his successor at Port Huron but that he is not well informed as to Rev. Perkins' career, excepting that formerly he was pastor of the Methodist Episcopal church in Rome and latterly has been stationed near Detroit.

Changes in District. The changes in the South range churches are few. Rev. R. H. Prouse, pastor of the Trinitarian M. E. church, will be transferred to Tamarack and will be succeeded at Trinitarian by Rev. W. G. Prouse, now at Iron River, but formerly at Houghton. There are no other changes. David Slugg, a lay preacher of Painesdale, has been made pastor at Amasa.

Mr. Crosby to Alpena. Ward reached Hancock yesterday morning that Rev. Reuben Crosby, pastor of the First Methodist church of Hancock for the last three years, has been assigned pastor of the Alpena church, succeeding Rev. James Pascoe who recently resigned because of poor health. Rev. Mr. Crosby was slated for the Alpena charge three years ago but a change was made later to accommodate Mr. Pascoe whose term as district superintendent ended at that time.

Pewabic Gets Rev. Keast. Rev. Lewis Keast assigned to Pewabic, is not a stranger to the copper country. He has been pastor of the Ispeming Methodist church, has preached in different copper country churches, was stationed for a time at Dollar Bay. He comes to Pewabic from Jesseville. The Pewabic appointment is a promotion.

Conference in Ironwood. With a majority of forty votes over its nearest competitor Ironwood was selected for the 1916 conference. The conference will be the fourth to be held in the upper peninsula during the sixty-one years the Detroit conference has been in existence.

RIFLEMEN MAKE GOOD SCORES. Houghton Rifle Club Shot Sunday— Official Scores Announced.

President F. L. Batchelder of the Houghton Rifle club yesterday gave out the scores shot at the Houghton range on Friday, Sunday, as follows: 150 possible; Batchelder, 144; Nancarrow, 130; H. L. Swift, 129; Hutton, 125; Stern, 123; Peterson, 111; Brunson, 108. In a qualifying shoot Dr. Stern made expert marksman with score of 210 out of a possible 230. Trathen made sharpshooter with 203. Other members not shooting in the qualifying round Sunday will be permitted to shoot with the Houghton Light Infantry next Sunday at the time of the company's postponed medal match.

Just a Little KIRK'S JAP ROSE SOAP

is needed to give a generous quick cleansing lather, in hard or soft water; for the reason it is economical, and preferred by many who have tried it.

Your Dealer Sells It

TWIN COUNTIES FAIR OPENS AUSPICIOUSLY

Exhibits and Entertainment Are Comparable to Those of the Copper Country Show.

The Twin Counties fair opened at the Laurium Palastra and Laurium Driving park yesterday morning. It is the first fair in the Calumet-Keweenaw district and for an initial attempt is most praiseworthy, comparing with the old established Copper Country Fair of Houghton in both exhibits and the entertainment provided.

The following is the program as carried out yesterday and to be given with slight changes every day throughout the week: 9:00 a. m.—Doors open. 9:30 a. m.—Address of welcome by president of Twin Counties fair association. 10:00—Concert by Hearst's Colorized band. 11:00 till 12:00 m.—General inspection of exhibits. Noon—Luncheon served by ladies of W. C. T. U. 2:00—Opening concert numbers. 2:15—Four Nelson Comiques, vaudeville entertaining troupe. 2:45—Idania Troupe, five ladies, flexibility artists. 3:00—Concert by Calumet & Hecla band. 3:30 till 5:00—Dancing. 3:34—Opening of sports program in Driving Park. Pulling contest for draft horses. Parade of fire department. Horse races, both harness and running. 7:00—Opening concert numbers. 7:30—Kelley Brothers in athletic exhibition, boxing and Cornish wrestling. 8:00—Concert, by Calumet & Hecla band. 8:50—Four Nelson Comiques. 9:00—Idania Troupe. 9:30—Imperial Quartet. 10:00—Hearst's Colored Entertainers. 8:00 till 11:00—Dancing.

Special Days Features. Special days for various important sections of the district have been arranged and on those days the attendance from the various districts is expected to be large. Keweenaw day, Thursday, there will be a parade of Keweenaw and Calumet people, with Keweenaw and Calumet bands, through the streets of Calumet and Laurium, leaving the Calumet station of the Copper Range railroad at two o'clock. Torch lake day, Wednesday, the Hubbard Miller band and other bands will parade to the fair, upon arrival in town, headed by a Torch lake band. It is proposed to close the stores of the Torch lake towns the afternoon of Wednesday. On Portage lake and Range day, Friday, there will be a parade of the visitors from the south end of the county, who will be warmly welcomed by a large "loosters" committee upon their arrival from the cars to the fair grounds. The parade will be headed by one and probably two bands. A very big delegation from the south end of the county is expected. In the Cornwall north end of the county and Keweenaw county will send a big delegation to the Houghton fair on Calumet-Keweenaw day.

DEATH OF CAPT. E. J. WATTERS. Chief Mining Captain of the Tamarack Dies After Long Illness.

In the death of Capt. E. J. Watters of Tamarack the copper country lost Monday night another of the old, wise and high table lands along the Pike river. These lands are 150 to 200 feet above the level of Portage lake and has a good air drainage. The result is that the trees, particularly and principally apples, are loaded with ripening fruit.

GOES TO COUNTY INFIRMARY. Mrs. Mary Saarela, of Laurium, Inmate, Becomes County Charge.

Mrs. Mary Saarela, of Laurium, sixty-eight years old, who was picked up on Friday in Hancock demented, has been sent to the county sanitarium. This action was taken at the advice of Dr. LaBino, county physician.

Another peculiar case in the county jail is that of John Draws, of Houghton. He was arrested Sunday on suspicion of being drunk and disorderly but is held for examination as to his mental condition. Mrs. Draws has petitioned for the examination.

"DIXIE." Of the numerous ills that affect humanity a large share start with constipation. Keep your bowels regular and they may be avoided. When a laxative is needed take Chamberlain's Tablets. They not only move the bowels, but improve the appetite and strengthen the digestion. Obtainable everywhere.

JUDGE FEAD GETTING "WISER."

Newberry Jurist Is Learning Some of the Technicalities of Mining.

Judge Louis H. Fead, of Newberry, who is presiding over the Houghton county circuit court temporarily may be able to qualify as a mining authority before the cases he is to try have been concluded. The suit of Edward Piva vs. the Calumet & Hecla Mining company which has been on trial for the last two days, is a case in point.

In this case Piva is suing for damages for a personal injury in the Calumet & Hecla No. 4 shaft. He was a trapper and while he was pushing a car there was a slip of the hanging and the rock came down on his leg. The injury is different from the more familiar "fall of ground."

The attorneys for the plaintiff have introduced expert witnesses and Judge Fead has heard from their lips almost a complete glossary of traditional Cornish mining terms, which have become a part of the language of this copper country. He has heard of stulls and stopes of trams and lagging, of raises, winzes, drifts and all the other nomenclature of the underground worker.

An interesting witness yesterday was John Dunnigan, of Ahmeek, former mine inspector for Keweenaw county, one of the picturesque characters of the strike. Mr. Dunnigan is a man of venerable appearance, with a still massive and powerful frame. He has been a miner for forty years, thirty-five of them in the copper country. Judge Fead heard in him a typical old time miner.

"DRAINING" ELECTRIC CURRENT. Young Electrical Engineer Explains a Somewhat Delicate Affair.

A tall young fellow wearing glasses and the usual student's dress, stood in Sheldon street yesterday morning superintending the operations of a busy young man who was doing things with copper wires that ran into or emerged from a manhole in the brick pavement.

The tall young man explained to a curious reporter that he was draining current from a cable. "Interesting if true," hazarded the reporter. "How did the cable happen to get filled with current and if you shut off the current from the battery do you have to empty the cable?"

The electrical engineer, for the young man was no less than that, looked pityingly on the ignorance of the reporter. He went into a long dissertation on amperes, electrolysis, positive and negative current, ohms, switches, shorts, volts and what not.

PLANS FARMERS' MEETINGS. County Agricultural Geismar Preparing for Fall and Winter.

The agricultural season of 1915 being over or nearly so, County Agricultural Geismar is planning his own regular meetings for the ensuing fall and winter. He plans first a series of farmers' meetings in co-operation with the granges of the county.

"There were only five granges in the county at the beginning of the present season," said Professor Geismar, "and now we have more than twenty. We now have more assistance in bringing the farmers to interest themselves in their problems. A schedule of these meetings will be prepared shortly. The granges are so distributed that meetings held at granges have been very successful in the county. With the assistance of the granges we should have a great educational campaign well under way with the passing of the coming winter."

Storm Sewers Needed. "Memorandum must have storm sewers. The present sewer system was built for the purpose of taking care of sanitation and the burden of the burden of taking care of storm water. Immediate steps should be taken for a general plan of storm water sewers." This was a statement of Thomas Hasley, named city engineer pending a permanent appointment, said Mr. Hasley. "The sewer on Ogden avenue would not take care of the storm water when the street was paved. Something had to be done with this water. I asked the council to build a thirty-inch storm water sewer down Main street, but they would not do it. The water is now being carried in the gutter and it is a nuisance."

"The sewer on Ogden avenue would not take care of the storm water when the street was paved. Something had to be done with this water. I asked the council to build a thirty-inch storm water sewer down Main street, but they would not do it. The water is now being carried in the gutter and it is a nuisance."

Storm Sewers Needed. "Memorandum must have storm sewers. The present sewer system was built for the purpose of taking care of sanitation and the burden of the burden of taking care of storm water. Immediate steps should be taken for a general plan of storm water sewers." This was a statement of Thomas Hasley, named city engineer pending a permanent appointment, said Mr. Hasley. "The sewer on Ogden avenue would not take care of the storm water when the street was paved. Something had to be done with this water. I asked the council to build a thirty-inch storm water sewer down Main street, but they would not do it. The water is now being carried in the gutter and it is a nuisance."

Upper Peninsula

Worked on First Lock. Colixte D. Bernier, 324 Ridge street, for forty-three years a lockman at the St. Mary's Falls ship canal and, with Joseph Campbell, the only member of the original crew which operated this first lock, died suddenly at his home at the age of sixty-eight years. Mr. Bernier also carried mail on foot between the Soo and Marquette and between the Soo and Saganaw before the stage coach had made its appearance in those parts.

Left Considerable Estate. Emil Gensburg, late of Menominee, did not leave a will. This fact developed when a petition for the appointment of an administrator for the estate of the former store owner, who died two weeks ago, was filed in probate court. The petition says the personal property of Mr. Gensburg is valued at \$50,000, the real estate in addition including the home on Main street and a small piece of property, Mrs. Della Gensburg, the widow, will be named administratrix of the estate on Oct. 9. In the meantime she has been appointed special administratrix and furnished a bond of \$50,000. She was also named guardian of her two sons by Judge John Steiler.

To Remodel Theater. Within two weeks the work of transforming the Bijou at Iron Mountain into a modern opera house will commence. The building will undergo many changes and when the work is completed it will be large enough to accommodate the largest number of other residents in that locality have recently decided to construct. Frank's objections are not, however, stated because no one has been able to get through the road, owing to the fact that a loaded short-gun reposing at a business-like angle in Chaffes arms is a most effective restraint. The road has been used previously as a supply road and it was the intention of the farmers to convert it to use as a public highway. Chaffes' objections, according to complaints received at the office of Prosecutor Rushton, took concrete form when he built a fence across the road and he himself halted with all attempts to use the road, it is said. Prosecutor Rushton issued a warrant for Chaffes' arrest, charging him with assault. Sheriff Iverson with a resident of the district who swore to the warrant left the city in an automobile for the scene of the trouble.

Hayes Brothers Being Sued. Answer to the cross-complaint in litigation involving the sale of land in Marion county, Oregon, valued at \$750,000, was filed in the federal courts at Chicago, according to dispatches from that city, by Mrs. E. Miller of San Jose Cal. The suit was started last August by Fenton F. Grisby, administrator of the estate of Mrs. Wanda Miller Alexander, deceased, alleging conspiracy on the part of the Hayes brothers, J. O. Hayes of San Jose to get possession of the land, J. O. and E. A. Hayes were formerly residents of Hurley, and have large interests in the Ashland mine, the Germania mine at Hurley and several other properties throughout the west.

Good Race in Sight. James H. McDonald, under sheriff of Chipewa county, better known as simply "Jim," will take up a new vocation at the county fair this week. "Jim" is going to be a jockey. Will Mary King, two-year-old, will drive his two-year-old trotting filly, Patchette, against the two-year-old pacing horse, Sunny Jim, but learned you were in DeTour and I could not wait. I saw your challenge for a race at your county fair at Houghton Park, Sept. 21, one-half mile heats, best heat, in the company of five marbles or chalk and a side bet of \$100 on the result. I can hardly afford to lose for money. The race was arranged after the following letter was received by Mr. McDonald from Mr. Schulte: "I ran up on the Snooks to see you on about a mile and a half race. While Benmore held the locals to four scattered hits in four runs, I held the leaders to victory."

Have You Read "The Cinder Pond"

By MRS. RANKIN

It's delightful reading and while intended for the young cannot but bring back happy memories of younger days to those Marquette grownups who used to fish and swim in the old "Cinder Pond."

A Copy Costs Only \$1.25.

More than twice as wide as Niagara and fully fifty feet higher, the falls of Igazu in South America is one of the great wonders of that continent.

City Brevities

Forecast: Fair.
Yesterday's temperature: Seven a. m., 45 degrees; noon, 52; 7 p. m., 46. Highest, 52 degrees; lowest, 40.

W. B. McClintock has returned from Battle Creek.

J. B. Simpkins left for New York city this morning.

Dr. E. C. Dudley left last evening for Chicago. He had been a guest at the Huron Mountain club.

Mr. and Mrs. Joseph Nault have gone to Escanaba and Green Bay to visit relatives for several weeks.

Mr. and Mrs. S. R. Kaufman and children left last evening for Chicago on their way to New York city.

Mrs. W. A. Jellison has gone to Dunn's Valley, Canada, to spend two weeks with her brother, Joseph Bussiman.

Seats for the Lyman Howe engagement at the opera house go on sale at Bigelow's store this morning at 8:30 o'clock.

K. S. Baker and Ora Manes, of the Michigan State Telephone company, went to Ironwood last night, on a business mission.

Mrs. G. H. Christy, who had spent several weeks at the Huron Mountain club, left last night for her home at Sewickley, Pa.

Mr. and Mrs. S. A. Sumner, guests at the Huron Mountain club of late, were passengers for Detroit yesterday afternoon.

Wm. F. Morgan, superintendent of transportation of the M., M. & S. E. and L. S. & L. railroads, is transacting business at Chicago.

A meeting of the Woman's Christian Temperance union will be held in the Methodist Episcopal church parlors this afternoon, convening at 3 o'clock.

Mrs. E. L. Pearce entertained at a thimble party yesterday afternoon in honor of her guest, Miss Ruby Trevillion of Calumet. A company of twenty were present.

Mrs. William Robertson and Miss Alice and Joseph Reau, Jr., have returned to their homes at Escanaba. They came to Marquette to attend the funeral of J. E. Reau.

Mrs. John Reid and Miss Jane Roger, who for five weeks had been guests at the residence of Dr. E. L. Drake, East Hewitt avenue, left yesterday afternoon for their home at Detroit.

George Tucke, who is in Boston, Mass., is receiving there this week the thirty-third degree in Masonry, the highest rank in that fraternal order and a rank with which only a limited number of members are honored.

President James B. Kaye, of the Northern State Normal, and Mrs. Kaye and their daughter Mildred arrived home from southern Michigan Monday night. They had visited for a month at Epworth Heights, near Ludington.

Ford Buyers Get Dividend—Upper Michigan buyers of Ford cars yesterday received from the company their checks, each for \$50, the amount of their share in the corporation's distribution of profits.

Rohlf Dwelling Sold—The Carl Rohlf dwelling house on South Third street, opposite the courthouse, has been sold to Wesley Sweet. It is a two-story building of brick construction. The transaction was made by August Rohlf of Pass Christian, Miss., who was here for some days recently, engaged in settling the estate of his late father.

Will Motor to Milwaukee—E. J. Earling, a prominent coal dealer at Milwaukee, is due to arrive in Marquette this morning, accompanied by his son

Alton. They will join Mrs. Earling and her daughter, Mrs. Carl A. Hoppe, who have been spending the summer here, and with them will leave for home during the day, making the trip in Mr. Earling's motorcar.

Low Rates to Baraga—On account of the Baraga county fair to be held Sept. 24 and 25, the South Shore road will sell excursion tickets to Baraga from all stations from Marquette to Michigan, inclusive, for the trains of Sept. 24. At Kenton Mass and copper country stations the tickets will be on sale both Sept. 24 and 25. The round trip rate will be one and one-third fare. Tickets are valid for return passage until the 27th.

Drey Case to Jury Today—The case involving the financial status of Joseph J. Drey, merchant, of Iron River, will go to the jury in the United States district court here today. The last of the testimony was adduced yesterday, and the arguments of counsel were made. Judge Sessions will charge the jury this morning. The case involves the question whether Drey is or is not bankrupt. His creditors allege insolvency, which Drey denies.

INSURE WITH PETER WHITE & CO.

MARQUETTE MEN TO ATTEND.

According to Bay City advices elaborate entertainment for the hundreds of Odd Fellows expected to attend the annual meeting of the grand lodge of the order in that city next month is being planned. The convention will be held from Oct. 18 to 21, inclusive. John A. Williams and Roy Rydholm are the delegates chosen to be present as the representatives of Marquette lodge, No. 108, and both expect to be in attendance. Grand lodge degrees are to be conferred the afternoon of Monday, Oct. 18, following a formal reception to the visitors. A model lodge to be conducted in the evening is another feature of the opening day's program. Business meetings will be held Tuesday, Wednesday and Thursday. The degree of chivalry will be conferred Wednesday and, as a special feature for Thursday, the Diamond degree team of Detroit will exemplify initiatory work.

LOTS AT BUCKROE SOLD.

M. H. Foard reports the sale of two fine summer camp sites at Buckroe to William Leeman, of High street. The lots, numbered 5 and 6, are each 400 feet in length, with a frontage of 190 feet on the shore of Lake Superior. Lot No. 7 has been sold to G. L. Beal, also of this city. Three lots are still available. Buckroe has become of late years one of the most popular outlying locations in the vicinity of the city. On several Sunday evenings recently as many as fifty passengers have boarded the Lake Superior & Ishpeming Marquette-bound train. It is expected the railroad company will erect a waiting room at the station shortly.

IRON COMPANY DISSOLVED.

A decree of Judge R. C. Flannigan, filed in the office of the clerk of the Marquette circuit court, formally dissolves the Republic Iron company, the property of which was sold some time ago to the Cleveland Cliffs Iron company. The Republic company was organized under the laws of the state of Michigan April 15, 1870. Its corporate existence was renewed March 21, 1909. The petition on which the court acted was filed by W. H. Donner, Pow-ell Stackhouse, D. Brewer Gehly, Wm. Kelly, Edward T. Stuart, Herbert F. Black and H. S. Endsley, directors and stockholders. Judge Flannigan's decree recites that as the company is not now a going concern, it is beneficial to the interests of the stockholders and all concerned that the corporation be dissolved. Wm. Kelly of Vulcan, general manager of the company, is appointed receiver of its estate and effects.

WOMAN'S IDEA OF \$1,000.
An Oklahoma farmer's wife who had read in press dispatches from Washington that a conscience stricken New Yorker had recently sent \$10,000 to the treasury as reparation for something he conceived he had taken from the government wrote to Secretary McAdoo asking for \$1,000. She said she needed the money worse than the government did. The writer explained that if she got the concession she intended to purchase a cow, Ford automobile and a set of false teeth.—Washington Corr. New York Sun.

The Three Important Links in The Chain of Confidence

RIGHT DRUGS means more than purity—it means also potency. We buy only drugs of standard strength and keep them in a way that insures against deterioration.

RIGHT SERVICE—You like the way we do business. Everything is done here to facilitate the handling of trade. Our rapidly increasing trade proves that our methods are appreciated. Use our free delivery service.

RIGHT PRICES—Careful and extensive buying enable us to furnish the highest grade of goods at a price lower than you often pay for inferior goods elsewhere.

We ask for your drug business on the basis of right goods, right service and reasonable prices.

T. R.'S SHADOW DARKENS G. O. P.

Plans to Submit Colonel's Name in Certain Primaries Command Attention.

Washington, Sept. 21.—The Roosevelt shadows has fallen athwart the Republican pathway for 1916 and there is something akin to consternation in Washington among the leaders of the G. O. P. Roosevelt's name probably will go upon the ballot in the primary elections in several states. Among the early primary ones are Minnesota, Indiana, Illinois and even in staid old New Hampshire.

That Roosevelt will carry Minnesota over any Republican now mentioned is the representation made to the national Republican leaders here. In fact he is likely to duplicate the performance of 1912, when he received more votes than were cast for Taft, who was being backed by the Fairbanks machine. There is a strong revolt in Indiana against the Fairbanks-Hemenway-Watson machine. Either Fairbanks or Watson will be presented to the national convention as the state's candidate for president if the stand-patters have their way.

If Fairbanks fails to develop strength the plan is to substitute Watson. The progressive sentiment in Indiana is about ready, it is said, to vote for Roosevelt to rebuke the machine.

Montana is said to be for Roosevelt, and Senator Jones was quoted not so long ago as saying that if Roosevelt's name were upon the ballot in Washington, he probably would prevail.

In Illinois, an interesting situation has arisen, and there are charges of bad faith. Charles G. Dawes of the Central Trust Co., has espoused the cause of Senator Sherman, ostensibly, and has crowded Leader Mann off the boards. Now it is whispered that the real purpose of the Dawes move is to get a delegation for trading purposes and that it probably will be turned over to Fairbanks.

Fairbanks and Dawes are business partners in many enterprises. This has aroused the Progressives, who threaten to put the name of Roosevelt on the ballot and disarrange the plans of Dawes.

Thus Roosevelt is looming up in several states. Nobody expects him to be nominated. But with a bunch of delegates behind him, his capacity for trouble would be fair. Besides, the Republican leaders do not look forward with complacency to the possibility of Roosevelt carrying the first few primary elections as he seems in a fair way to do.

Senator Borah for president on the Republican ticket in 1916, with Justice Hughes as second choice, although neither is yet an avowed candidate, is the sentiment of Republican leaders in the state of Washington, according to a state-wide canvass concluded by the Spokane Chronicle. A review of the canvass, quoting the views of many, was given out by the National Progressive Republican union.

The canvass showed very little interest in the candidates of Weeks, Whitman, Sherman, Cummins, and there was no Fairbanks sentiment. On the other hand the conservatives among the state party leaders, who are very scarce, cast their straw ballot for ex-Senator Root. Ex-Senator Burton, Ohio, appeared to have much strength as a compromise between conservatives and radicals.

E. E. Flood, president of the state agricultural board, declared Borah to be "the biggest man in American politics." "In Senator Borah I believe we have the man of the hour. He is neither too radical nor reactionary. His long service of the people has made him as well known in the east as in the west, and his capability requires no advertisement. Should he be selected, the Republican party will be again returned to power, and the division made in 1912 will be forgotten and healed over."

Werner A. Rupp, Republican state chairman in 1912, while expressing personal admiration for Mr. Root, came out in strong terms for both Borah and Hughes. Of the former, Mr. Rupp writes: "Borah comes more nearly meeting the conditions that will be required of the next Republican candidate than any other now suggested."

22,000,000 ATTEND U. S. SCHOOLS IN '14

Public Schools Show Greatest Increases and Have 556,000 Teachers.

Washington, Sept. 21.—There were 22,000,000 persons enrolled in educational institutions in the United States in 1914, according to the annual report of the commissioner of education just issued. Of these over 19,000,000 were in elementary schools; 1,374,000 in secondary schools, both public and private, and 216,000 in colleges and universities. Close to another 100,000 were in normal schools preparing to be teachers, 67,000 were in professional schools, and the remainder were scattered through other institutions.

The teachers for this educational army numbered 700,000, of whom 566,000 were in public schools.

In point of rapid growth the public high school still presents the most impressive figures; the enrollment for 1914 is greater by over 84,000 than for the year before.

The cost of education for the year, as estimated by the bureau, was \$750,000,000.

"This three-quarters of a billion is a relatively small amount when compared with other items in the public expense," declares the report. "It is less by \$300,000,000 than the cost of running the federal government. It is only a little over three times the estimated cost of admissions to moving picture theaters in the United States for the same year."

Measured in terms of products of the soil, the United States spent somewhat more for education in 1914 than the value of its cotton crop, somewhat less than the value of its wheat crop, and less than half the value of the annual harvest of corn, while the nation's bill for education was less by nearly a hundred millions than the value of the exports from the harbor of New York in the calendar year just passed.

Little increase is noted in the average term for public schools. Between 1910 and 1912 the increase was from 127.5 days a year to 158.1—a growth of only six-tenths of a day in three years. Attendance has improved, however. The average number of days attended by each person enrolled increased from 115 in 1910 to 115.6 in 1913.

NORTHERN STATE NORMAL SCHOOL
MARQUETTE, MICHIGAN

Fall Term opens September 27, 1915
New Buildings — New Equipment

The Northern State Normal offers a two years' Life Certificate and Diploma Course for graduates of high schools. It offers regular courses leading to the Graded School Certificate and Rural School Certificate.

The school also offers courses for training teachers for special work in Kindergarten, Music, Drawing, Nature Study and Domestic Science.

It has exceptionally strong corps of instructors who are specialists in their departments, and its training school gives an excellent opportunity for the training of teachers.

There is an excellent dormitory in connection, which makes an ideal home for students. Its expenses are moderate. Students who finish the Life Certificate Course are granted fifty-six hours credit at the University of Michigan.

5,000 AMERICANS IN ALLIES' ARMIES

Ambassador Page Frequently Asked to Send Home Youths Who Have Enlisted.

London, Sept. 21.—As a part of the work put upon him by the war, Ambassador Page has been hunting up American youths who have enlisted in the British army and seeing that anxious parents in the United States have them back home again.

During the last few months the ambassador has discovered no less than 100 such Americans in the ranks of the British army, all of whom enlisted as Canadians so as to get to the front and fight for the allies.

The ambassador's efforts have been confined to the investigation of whereabouts of youths whose relatives have asked him to find them; they do not concern hundreds of other Americans, of military age, have enlisted but of whom no inquiry has come. To attempt to dig out every American citizen who is fighting under the British or the French colors would be a job that would require establishing a separate department for the embassy.

Sometimes ago Gen. Samuel Hughes, in command of the Canadian forces at the front, estimated that no fewer than 2,000 of Uncle Sam's citizens were enlisted with the Canadian troops. Since that time more have arrived, while still others have come direct to England and, on various pretexts, enlisted as Englishmen so as to get into the war.

Taken all together, it is a fair estimate that 5,000 Americans are now in the trenches to help the allies defeat the Germans. As a matter of fact the number may be far above that. One estimate heard this week was that 7,500 Americans were enlisted under the British and French colors.

When Ambassador Page gets a letter from an American mother whose son has disappeared from home and from whom word has come that he has taken up fighting with the allies, the ambassador gets immediately into touch with the war office. Speedy inquiry is made, and in a few days the ambassador invariably receives an official communication that the runaway American boy has been found "somewhere in France," and that the commander of his regiment has been ordered to send him back to London.

Forthwith comes the pro-Ally soldier to London where, at the war office, he receives an honorable discharge from the army. An attaché of the American embassy is on hand to see that the ex-warrior is started on his way. The embassy buys him a ticket on a steamer to New York and the embassy makes sure he takes the liner.

Runaways Often Object.

Often times the runaway soldier interposes a stout objection to having his war career cut off, but the embassy is obdurate. It is pointed out to the sympathetic soldier that only Englishmen are allowed to serve as soldiers in the British army and that, his well-meant deception having been discovered, Great Britain, much as she might like to keep him, cannot do it.

The writer a few days ago came upon two soldiers in khaki on the Strand. Both had the insignia of a Canadian regiment. They inquired of the writer how to get to Victoria station and when he spoke one of them observed, with a smile:

"Oh, you're an American!"

The writer confessed, whereupon both soldiers, in a breath, replied with avidity:

"So are we."

It developed that one came from Grand Forks, Mich., the other from Minneapolis and that both had enlisted in Canada as natives of Canada. They knew of more than twenty other Americans from Michigan and Minnesota, who

HEAVY LAND SLIDE AGAIN BLOCKS CANAL

Panama, Sept. 21.—A serious slide in the canal occurred north of Gold Hill, on the east bank. There had been a previous slide at this point, but the new movement is much greater. The mass almost entirely fills the channel, so that the earth shows above the water where ships ordinarily pass.

It has not been possible as yet to estimate the yardage involved, but it amounts to more than 100,000 cubic yards.

The dredging division has hopes of cutting the channel through in four or five days, but the general opinion is that it will be a week at least before vessels, even of light draft, will be able to pass through.

TAX COLLECTIONS NORMAL.

Collections of the city tax due July amount to date practically to the amount reported by City Treasurer Robert P. Byrne at the time in past years. Including \$65,737.04 levied for school purposes and \$3,600 levied on account of special assessments for improvement work the roll aggregated \$138,589.52. To date a total of \$116,587.66 has been paid. Of this amount, \$108,806.07 was received by the city during July, during which month no collection fee is charged; \$11,072.07 was paid in August, and \$648.92 has been collected to date this month. Thus approximately 90 per cent of the total roll has been turned into the city treasury to date. Since a collection fee of 1 per cent is added to each unpaid amount each month after July it behooves taxpayers to settle as expeditiously as possible. The roll is turned over to the county treasurer March 1. By that time the collection fee has grown to 8 per cent, and each month thereafter the charge continues to increase by 1 per cent, until the account becomes delinquent and is subject to accumulation by tax title purchasers.

Theatrical

Three Noted Stars in "Resurrection."

Three dramatic stars appear in the William Fox production of Count Leo Tolstoy's "A Woman's Resurrection," which will be shown at the opera house today. They are Betty Nansen, the famous Royal actress of Europe; William J. Kelly, a young American leading man, and Edward Jose, noted for his striking work in "A Fool There Was." The photoplay is in five reels. In it Betty Nansen, as Katusha Maslova, plays the part of the erring woman who, more sinned against than sinning, falls into the lowest depths of degradation only to find amid the wild steppes of snow-covered Siberia a spiritual re-birth. As Prince Dimitri, Mr. Kelly gives an equally superb performance, which runs the gamut from love

to burning remorse and despair. To Edward Jose falls the remarkably effective part of Simonson, the faithful servant of Dimitri who befriends the miserable Katusha in her darkest hours and in the end gives up his life to save his master's. Simonson is a most unusual role and in Jose's hands it stands out with sharp distinction. Nobody could fail to be moved by the dog-like devotion of Simonson, who endures the knout, insults and finally death itself to protect his master's honor. The vanderbilts will be furnished by the King children, who close their engagement here today.

Delft Theater Program.

The picture program at the Delft today will consist of "The Bondwoman," a Broadway favorite feature in three reels, and "The Evolution of Cutey," a Vitagraph comedy in which Wally Van and Gussy Fitzgerald play the leading parts. "The Bondwoman" depicts an interesting story staged in a large city and its suburbs. Vera Fuller Mellich appears as Amy Blanchard, the bondwoman, who marries unhappily to save her father from prison; Henry Hallau is Richie Lewis, the banker, husband of Amy; James B. Ross has the role of Horace Blanchard, the father; Robert D. Walker is Milton Lacey, the publisher; Helen Lindroth is La Reine, the actress, and Mary Taylor Ross appears as Mrs. Horton, the housekeeper.

Y. M. C. A. HAS PROPERTY OF \$100,000,000 VALUE.

Chicago, Sept. 20.—Property totaling more than \$100,000,000 is now owned by the Young Men's Christian association in cities throughout the country, according to the annual report made public today. The money is invested in 739 buildings with their libraries and equipment.

The current expenses of the work in the United States totaled last year \$13,000,000. In foreign lands there was an expenditure of \$433,100.

There was a gain of 40,000 men and boys enrolled in Bible classes, the total numbering 164,000. The total association membership is 629,789. Employment was found for 53,257. In physical training 447,000 were enrolled.

BUREAU'S REPORT SHOWS PROGRESS

Nearly 300 Families Have Located on Farms in County in Past Three Years.

The township supervisors of the upper peninsula have furnished Colonel Mott, secretary of the Upper Peninsula Development bureau, with statistics showing the progress that has been made in the sale and development of farming and timber lands during the past three years. Every county in the upper peninsula has shown substantial gains in the number of families who have settled on farm lands, rural population, acreage of land sold for farms, and acreage of timber lands sold. The report also gives the amount spent in each county on good roads, number of fruit trees planted, amount of money paid into the bureau from each county in the three year period, and the proportion of expense paid by each county for each new family locating in the county.

According to the statistics compiled by the Marquette county supervisors, 288 new families have settled on farming lands in this county in the past three years, equal to an increase of 1,152 in the rural population, figuring on a basis of four to each family.

The number of acres of land sold for farming in the three year period in Marquette county is 10,858, while 53,920 acres of timber lands have been sold.

The sum spent in Marquette county for good roads in the three years is \$178,782. The number of fruit trees planted is 10,247 and the total amount of money paid to the Development bureau from the county is \$6,923.76. The proportion of expense paid out of the county funds for each new family settling on farming lands is \$24.03.

Average Cost \$8.80 Per Family.
 The average cost of aiding new families to settle on farming lands is much lower in most of the counties than it is here. The costs given have not been borne entirely by the counties, but the amounts include contributions by citizens and other means of raising funds. The average cost per family has been \$8.80. The sum spent in the three years in locating the new families was \$3,780,000.

The sum furnished the Development bureau during the three years, exclusive of about \$3,000 a year from the railroads and outside interests, was \$33,291.71.

Ontonagon leads all other counties in the upper peninsula in the number of families placed on farming lands during the three-year period, the total

there being 574, at an average cost to the county of \$4.32. Houghton county expended a larger sum than any other county in the peninsula in proportion to the population, in aiding the new settlers. The cost there was \$26.60 for each family and 230 new families settled on lands. The cost in Houghton county was higher than any other in the upper peninsula. Marquette county showing the second highest cost, and Dickinson county is third. A total of ninety-eight new families settled in Dickinson and the cost to the county was \$14.90 a family. Menominee county brought in 479 new settlers at a cost of \$14.28 a family to the county.

Nearly 4,000 Families.
 In the three-year period 3,782 families settled on farming lands, making a total increase of 15,144 in the rural districts. The number of acres of land sold for farming purposes was 325,590 and the number of acres of timber lands sold was 583,256.

The sum spent for good roads in the three years in the upper peninsula was \$2,195,700. Ontonagon county is in the lead, its total being \$302,300. Houghton county came next, with an expenditure of \$206,500. Next came Gogebic, with \$232,750. Menominee, \$132,350. Alcona, \$141,275. Baraga, \$109,200; Chippewa, \$125,110; Delta, \$144,800; Dickinson, \$80,700; Iron, \$124,000; Keweenaw, \$50,000; Luce, \$102,200; Mackinaw, \$78,700; Schoolcraft, \$95,033.

There were planted in the three years, in the upper peninsula, 236,557 fruit trees. Menominee county leads in this respect, with 40,908. Delta county, comes next, with 30,205. Mackinaw is next, with 29,679. Marquette county is not up to the other large counties in the upper peninsula in proportion to the number of new families settling, its total being 10,247. Baraga planted 17,330 trees, Chippewa, 16,100, Ontonagon 12,885 and Schoolcraft, 16,875.

Every county in the upper peninsula contributed toward the Development bureau. Marquette county contributed a larger sum than any other, its total, as stated above, being \$6,923.76. Menominee county was second, with \$6,841.55; Houghton county was third, with \$6,140. The other counties ranged from \$1, contributed by Keweenaw, to \$3,117 contributed by Delta.

The figures presented show that the upper peninsula is beginning to wake up and it is anticipated that from now on the gain in the rural districts will be greater than in the past.

ELKS PLAN BIG TIME.

Ishpeming Lodge Will Entertain Members from Escanaba, October 7.

A class of fifteen candidates will be received by the Ishpeming lodge of Elks at a session Oct. 7, commencing at 7:30 sharp. In anticipation of an unusually large attendance, the Anderson hall has been engaged and will be used instead of the society's usual meeting place, the Milton hall.

A delegation of members from the Escanaba lodge will be guests of the Ishpeming lodge.

Following the meeting a banquet will be served in the Nelson home dining room, which will be appropriately decorated. There will be an interesting program of toasts and musical numbers. Trombly's orchestra will furnish the music.

The Escanaba members will arrive on the Northwestern train at 4:20, and they will be met at the station by Ishpeming members with automobiles and taken for a sight seeing tour of the city. It is expected that there will be about fifty in the party.

HOWE'S PICTURES TONIGHT.

Treat Is in Store for Those Who Attend the "Travel Festival."

In commemoration of the world's greatest engineering achievement—the completion of the Panama canal—Lyman H. Howe will take spectators at the Ishpeming theatre this evening on a film journey through the locks and lakes of the great waterway that now links the Atlantic with the Pacific, and then continue to both California expositions via its inimitable exhibition. Every foot of the film covering this noteworthy feature was photographed by Howe's own camera men and may be seen only at his own exhibition.

Although celebrating the same event, the two expositions are entirely different and in order to acquaint the legion of "Howe travelers." Arrangements were made by Mr. Howe with the exposition officials both at San Francisco and at San Diego for special facilities. The photography is so marvelously fine even to the mirrored reflections in lagoons, that the officials of the San Diego exposition set aside and observed July 7 "Lyman H. Howe day" in recognition of the skillful, masterly and artistic filmization of the scenes.

CARD OF THANKS.

We desire to thank our Ishpeming friends for the sympathy and favors extended to us during our recent bereavement. We feel under great obligations to all, and especially to those who sent floral offerings.

FRANCIS ON WARPATH.

Ishpeming Legislator Is Interviewed by Detroit Free Press Reporter.

Representative Francis, of Marquette county, is on the warpath after Dr. Abrams, of Houghton, member of the state board of health, says the Detroit Free Press.

This evening he told Governor Ferris that Dr. Abrams had "botched" the placing of a laboratory of the state board of health for the upper peninsula by putting it at the College of Mines and Mining at Houghton. Governor Ferris turned Mr. Francis over to the mercies of the state board of health.

"In placing the newly authorized laboratory at Houghton," said Mr. Francis, "Dr. Abrams has only followed his own ambition, to the utter disregard of the entire question of health of the entire peninsula. I introduced the bill into the legislature asking for the laboratory, and now Dr. Abrams takes the credit and places the laboratory in his own town."

"Either Marquette, Ishpeming, Negaunee or Michiganville, much better suited by reason of being on trunk line railroad, should have been selected."

BANQUET FOR SWANSON.

Retiring Boys' Secretary of "Y" Will Be Entertained Friday Evening.

The members of the Young Men's Christian association will give Edgar E. Swanson a complimentary supper next Friday evening, in the "Y" building. Mr. Swanson recently resigned the position of boys' secretary and will leave soon for North Park college, Chicago, to prepare for the ministry.

Mr. Swanson has been an efficient worker for the association and his departure is generally regretted, especially by the boys who have been under his charge the greater part of the past year. Those who plan to attend the banquet are requested to hand in their names to the committee, which is composed of Alonzo Nichols, Berl Dalton, Roland Stanford and Albert Sandberg.

ISHPEMING IN BRIEF.

J. N. Green, of Hancock, was an Ishpeming business caller yesterday.

H. F. Nickerson, of Houghton, is spending a few days in the city, on business.

Dr. William Menhemmet has gone to Chicago, to be absent a few days on business.

Archie Beer has returned from Houghton, where he has been employed for the past several months.

Mrs. Fred Tommesen has gone to Chicago, to spend a few days visiting with relatives and friends.

Mrs. Ruth Mueck was down from Michigan yesterday, on a visit to her aunt, Mrs. John Altschwager.

LeRoy Christian and L. W. Morgan are spending a few days in Chicago, on business for the Cleveland Cliffs Iron company.

George Bell, the tailor, who has been confined to his home the past few days with a slight attack of pneumonia, was able to be up yesterday, and he expects to be down to his place of business within a few days.

Mrs. T. N. Trenberth has returned from an eight weeks' visit to San Francisco and other points in the west. She was accompanied by her daughter, Irene, who has now gone to Cadillac, where she has taken the position of supervisor of music in the public schools. Mrs. Trenberth and her daughter spent some time at the Panama exposition.

CARD OF THANKS.

We wish to express our appreciation of the many favors and the sympathy extended to us during the illness and after the death of our son. We wish particularly to thank friends who sent floral offerings.

CARL LINDELL and Family.

FOR SALE—Red bull, with white spot on belly, about a year and a half old, horns about six inches long. Will be sold at public auction at the city pound, Cleveland Ave., on Saturday, Sept. 25, at 2 o'clock. MIB: Tasson, poundmaster.

LOST—Bunch of five or six keys. Reward. Return to Mining Journal's branch office. 9-22-15

FOR SALE—Plate glass show cases and shelving. M. P. Kirkish, 408 North Maple street. 9-16-2w

Saving Is a Sensible Proposition

The First National Bank does not believe in trying to scare people into saving money. Systematic thrift is such a common sense thing that it ought to appeal to every sensible person.

But it is human nature to forget and to procrastinate, so we believe in reminding people of their duty to save a portion of income regularly, and call attention to the fact that this bank provides a strong place for savings, and pays 3 per cent interest.

ISHPEMING IN BRIEF.

Power Bargh has taken a position in the Woolworth store.
A daughter has been born to Dr. and Mrs. R. A. Burke, of Diorite.
Dr. I. Scotte, of Michigan, was an Ishpeming business caller yesterday.
Earl Leiminger, of Trout Creek, visited with relatives in the city yesterday.
A son was born yesterday to Mr. and Mrs. Gust Mantilo, 172 West Superior street.
Mrs. L. C. Patrick, of Marinette, Wis., is the guest of her niece, Mrs. H. C. Hanrahan.
The Ladies' Auxiliary to the Ancient Order of Hibernians will have a social hour following the meeting this evening in St. John's Hall. Henry Navins and

Miss Anna Hennessey will render solo and Miss Lorraine Barnaby will be heard in a reading.

John Maroney, who spent the past several weeks at his homestead in Canada, has returned to the city.

Robert Potter will leave today for Harvard college, Cambridge, Mass., where he will enter as a student.

Philo P. Chase, Joseph Dionne and "Pat" Mandley are spending a few days duck hunting in the Dead River district.

J. M. Snythe, geologist for the Cleveland Cliffs Iron company, has returned to Boston, after spending several days in the city on business.

Winsand & Daugless have engaged in chimney sweeping. Those desiring their services can reach them by leaving orders at Tremblat Bros' paint shop.

James L. Reid, the Edison-Moore company's representative, left yesterday for St. Ignace and other points in that vicinity, to be absent a week or so.

Alex Nordi who has been employed in Al Saunders' barber shop for the past four years has resigned to accept a position as barber with John Beauchamp.

The members of Peninsula Rebecca lodge, No. 173, entertained the Marquette and Negaunee Rebecca's Monday evening with a banquet and program.

J. Evans of Wetmore is relieving William Hawes as third trick operator at the South Shore depot. Mr. Hawes is ill with rheumatism and confined to his home.

Eric Rickstad, driver of one of the fire department's teams, is confined to his home, on Vine street, with pneumonia. "Shorty" Anderson is doing his work at the fire hall.

Albert Van, Francis Beauchamp and Rock Beauchamp came down from the copper country Monday on their motor cycles. Mrs. Francis Beauchamp is also here visiting relatives, she having come down by train.

Mrs. A. A. Lind left yesterday for Muskegon, on a visit to her father, who lives there, and her daughter, Bolinda, who is taking a course in trained nursing in Hackley hospital. She will be away about a month.

Mike Tasson, the poundmaster, who some days ago imprisoned a full that did considerable damage at West Euclid street properties advertises the animal for sale at public auction at the pound next Saturday, the 25th, at 2 o'clock.

Gordon Watters has the highest score in the ten-pin billiard contest at Wanek's pool hall. He has several high games, the best of which is 220. Mr. Wanek will give a prize at the end of the month to the player who has made the highest score.

The women of St. Joseph's church congregation are meeting with success in their fair in the Anderson Hall this week. There was a large attendance Saturday night, at the opening of the fair, and there were also good crowds present Monday and last night.

LONG HUNT FOR VIOLATOR ENDS

Charles Justala Goes to County Jail—Deputies Seek Him More Than a Year.

Charles Justala, who has made his home in the woods of Marquette county for the past several years, was arrested yesterday for a violation of the game laws by Deputy Game Warden John Rough and John Mohr. He was brought to the city and was given a hearing before Judge Irving H. Argall, with the result that he was sent to Marquette to serve sixty days at the county jail. The deputies had been on the lookout for Justala since Dec. 7, 1914, when he killed a deer and sold the meat at Dr. J. A. Farson's store. He was arrested several different times, but he always managed to evade them. For the past few months his whereabouts were unknown, as he does not remain in one locality for any length of time.

"In getting Justala I think we have rounded up one of the most persistent violators that we ever carried a gun in the upper peninsula," said Deputy Warden Rough yesterday. "He has served two earlier jail sentences for game law violations, and as soon as his term expires he will be re-arrested, as we have another charge against him."

Justala was raised in the woods. He kills game from one end of the year to the other, and boasts of it to his friends. The warden was informed last week that he was in the Escanaba river district and he spent four days looking for him. He moves from one camp to another, and knows all of the short cuts and old logging roads in the county. One week he is in the district south of Palmer and the next that is heard of him is from the Yellow Dog and Silver Lake country.

The warden visited all the camps in the Escanaba district but one, and they knew that if he did not find Justala there he had got away again. They left their camp at 4 o'clock in the morning, and walked into this camp shortly after 6, and found their man seated at a table, eating breakfast. It was necessary for them to handcuff him before he would go with them.

The camp where Justala was taken was within three miles of Republic, and he had been thereabouts for over two weeks. Every camp he visits he makes his home if the place is unoccupied.

Justala asked Judge Argall what he intended to do with him, and when he was told that he was going to jail he became indignant and said: "I've killed game in the upper peninsula for the last seven years and I do not see why they want to stop me. I have as much right to kill what I want as any one else has. As soon as I get out I will kill everything in sight, and I won't buy a license either. I have never worked a day in my life and I don't intend to start now just because you are going to send me to jail. They will see down there whether I will work or not. The next time you get me, believe me, you will have to go some."

The deputies found a number of camps that had been destroyed by fire which they believe were deliberately set on fire, as the ground was burned only where the camps stood.

Mr. Rough, who has been a member of the department for several years and is one of the most efficient officers in the service, said yesterday that John Mohr, who was recently appointed, is one of the best men in the woods that he has ever met. Mr. Mohr likes the work. He is an expert marksman and is well informed about the territory in which he will work.

Partridge, this year, will be scarce, the warden reports. Many of the young birds died as a result of the prolonged cold and wet weather. Districts that have always been known to have lots of birds have been practically cleaned out, the warden says.

ENTERTAINMENT TOMORROW.

Excellent Program Arranged for Concert at Mitchell M. E. Church.

A concert will be given tomorrow evening at the Mitchell Methodist Episcopal church by members of the Epworth league society, assisted by Ishpeming talent. The admission will be fifteen and ten cents, and the public is invited to attend. Ishpeming people who will take part are Mr. and Mrs. Leslie L. Austin, Miss Hazel Martin and Miss Muriel Watters. The program will be as follows:

Organ solo—Mrs. L. L. Austin.
Chorus—Ishpeming and Negaunee Epworth League members.
Piano solo—Athanasius Broad.
Double quartet—Negaunee Epworth league members.
Duet—Mr. and Mrs. L. L. Austin.
Vocal solo—Miss Hazel Martin.
Trio—Negaunee Epworth league members.
Chorus—Joint chorus.
Piano solo—Miss Muriel Watters.
Vocal solo—Leslie L. Austin.
Violin solo—Charles Rowe.
Quartet—Ishpeming Epworth league.
Chorus—Joint Chorus.

HOW TO GIVE GOOD ADVICE.

The best way to give good advice is to set a good example. When others see how quickly you get over your cold by taking Chamberlain's Cough Remedy they are likely to follow your example. This remedy has been in use for many years and enjoys an excellent reputation. Obtainable everywhere.

FOR RENT—Furnished rooms for light housekeeping at 316 Main St. 9-22-15.

LOST—A gray Mackinaw, between Ishpeming and Negaunee. Finder please return to Mining Journal office, Negaunee. 9-20-15.

STYLE SHOW TONIGHT.

E. M. Klein has arranged with the management of the Star theater for a motion picture style show at the theater tonight, in connection with the regular program. The pictures will show the season's styles worn by living models. Coats, suits and millinery will be shown, and the garments pictured can be seen at Klein's opening tomorrow, Friday and Saturday.

ORGANIZED FOOTBALL TEAM.

A number of boys residing at the North Jackson location have organized a football team. It averages about 120 pounds and the players range from fourteen to sixteen years of age. The first game will be played Saturday morning with a team from the South Jackson location. The lineup of the North Jackson's will be: Wesley Jen-

nings, center; Walter Farrer, quarterback; David Fredericksen, full back; John Kainanen, right half back; Tom Farrer, left half back; Clifford Borlace, left end; George Jewell, right end; Duncan Haupt right tackle; Gerald Rodgers, left tackle; Alfred Tressider, right guard and Fred Chenoweth, left guard.

LOCAL LACONICS.

T. N. Giese, of Escanaba, was a business visitor in the city yesterday.

Mrs. Otto Leach, of Duluth, is the guest of Negaunee friends for a few days.

Dan Shea arrived home yesterday morning from a several days visit at Escanaba.

Swan Pilo is confined to his home on Clark street with an attack of typhoid fever.

Jack Kieren has returned from a two weeks' visit with relatives and friends at Milwaukee.

Miss Bessie A. Kosman, of Calumet, is spending a few days in the city, visiting with friends.

Anton Hendrickson is constructing a concrete sidewalk on Pioneer avenue, adjoining the Star theater.

Mr. and Mrs. Joseph Morrow left yesterday for Calumet, where they will spend a few days visiting.

Miss Mae DeRaine left yesterday for Cheboygan, where she will spend a few weeks visiting with friends.

Anton Hendrickson has taken a contract to repair the cement block walls of the Kooko building, Iron street.

Clifford A. Monroe, who spent a few days here visiting with relatives has returned to his home at Duluth.

Baptiste DeMartin has moved his family from North Lake to Negaunee and is occupying a residence on Cherry street.

Mrs. T. H. Calligan and son, Donald, have gone to Duluth, to spend a few weeks visiting with relatives and friends.

A Japanese tea and white elephant sale will be given by members of the Altar Guild of St. John's Episcopal church Friday evening at Levine's hall. The hall will be attractively decorated with Japanese articles. Tea will be served and candy and white elephants

LEVINE BROTHERS

MAKE PLANS FOR NEW CITY COURT

Amendment to Be Submitted in December Will Empower the Commission to Designate from Among the Justices One to Serve as Municipal Judge, on Salary.

All Fees Will Go to the City, and When Terms of Existing Officials Expire Only One Will Be Elected—Commission Believes Amendment Will Carry.

Marquette voters will pass on the proposal to organize a municipal court at the annual December city election, when also they will choose a commissioner to fill the vacancy caused by the expiration of the term of Commissioner Sink, who will be a candidate for re-election.

City Attorney Brown is now drafting the amendment that will present the proposal to the electorate. Its submission is made possible by an act passed by the legislature early this year making it optional for the cities of the state to provide themselves with such courts.

As the present justices of the peace will have to fill out their terms, the amendment will empower the commission to designate from their number one man who shall act as the municipal judge for the ensuing three years or more, until the terms of all the justices shall expire, when, and thereafter, the voters will elect only one justice, who shall be the municipal judge.

The man who will be designated municipal judge by the commission will receive an adequate salary, which he will have to agree to accept in lieu of fees which will go to the city. The commission has no power to require any of the justices to accept its designation and its terms in regard to the fees, but as the salary that will be paid will amply compensate the judge for his time it is expected that it will not experience any difficulty in filling its office on these terms. It is the understanding that the office will first be tendered the justice of greatest experience.

Two justices were elected at the last annual election, in December. They were Messrs. Byrne and Marks. The other two justices are John Robertson and Peter Primeau.

Expect Voters to Approve.

As there has long been a lively sentiment here in favor of the establishment of a municipal court, the city officials expect that the proposed amendment will be approved by a large majority, and they will be surprised if there are any considerable opposition to it. Lapping introduced the plan several years ago, having been the first city in the upper peninsula to do so, and it has been well pleased with the manner in which it has worked out. The court is not entirely self-sustaining, but the small expense for the city entailed by it is much more than compensated for by the improved handling of minor court business, compared with the old justice system.

In Marquette it will not be necessary to incur any expense to provide the municipal court with suitable quarters, as the so-called bandroom at the city hall was originally planned with the idea of providing quarters for a court, and it can easily be made to serve this purpose admirably. The only expense that will be involved is the salary of the judge, and perhaps of a clerk, if one proves necessary, and this will be largely offset by the fees that will be collected.

The attorneys generally favor the establishment of the proposed court, and they are of the opinion that it will bring about a much more satisfactory handling of the minor legal business of the city than has ever been had before.

HUNTING LICENSES ON SALE.

Incomplete Returns Show 303 Permits Issued in County to Date.

Including a book of fifty sold by Deputy William Oley of Ishpeming, the records at the office of the county clerk yesterday showed that 303 hunting licenses have been issued in Marquette county to date this season. No returns have, however, been received from the almost a score of deputies engaged in giving out permits elsewhere in the county. There have been received from the state offices at Lansing a total of 2,900 licenses. It is expected that all of these, and more, probably, will be sold.

To callers at the courthouse the licenses may be procured for \$1. Twenty-five cents more, much less than the expense of a trip to the county seat, is collected by the deputies, the appointment of whom was made for the convenience of hunters. Licenses are issued at these prices only to citizens and to persons who, by presenting their permits, have declared their intention of becoming citizens. The rate to aliens and to non-residents of the state, as provided by the game laws, is \$10. The licenses give their possessors authority to hunt small game, such as ducks, geese, partridges, woodcock, snipe, rabbits and hares, within season, until April 1, next. The desire to procure hunting privileges at this small cost has caused a considerable number of aliens to apply of late for first papers. Last Saturday, alone, fourteen men called at the courthouse for this particular purpose. No licenses are issued to any persons under seventeen years of age.

ACME "SUIT CLUB" CASE.

Governor Ferris to Be Asked to Request Prisoners' Return to Michigan.

Marquette people who contributed to the coffers of the concern will be interested to know that Prosecuting Attorney W. J. Galbraith of Houghton county is leaving today for Lansing for the purpose of personally presenting the case of the Acme Cloak & Suit club before the state's executive. He has hopes of obtaining a writ of replevin for the four members of the band who are in custody at Cheyenne, Wyo. The legal documents incident to the replevin are already in the hands of the governor, so that the state's legal department will have opportunity to review the facts before the prosecuting attorney arrives at the capital.

The mass of documents includes an

application for the writ, affidavits testifying to the connection of the defendants with the concern, copies of the warrant and complaint, together with an application on the governor of Wyoming for the return of the prisoners to Michigan. In the event Governor Ferris issues the writ, it is likely that Prosecuting Attorney Galbraith will go direct to Cheyenne. The fact that the defendants have intimated they will contest the requisition and have engaged capable counsel forewarns the prosecutor he may expect a legal battle.

The outcome of the case is attracting much interest in Keweenaw, Houghton, Baraga and Marquette counties, in which the "suit club" is said to have operated and profited to the extent of at least \$10,000. It already has been established, it is said, that the suit club purchased less than a hundred suits during the nine months it existed in Houghton county, though at least four hundred people are reported to have paid in a stipulated sum each month.

While four of the operators are in custody, four others, including the so-called proprietor, are still at large. They are under police surveillance, however, and may be apprehended at any time. There appears to be little hope that even part of the money can be recovered, though the Houghton county officers declare that a heavy sentence may be imposed upon the conviction of the perpetrators. The charge upon which the writ is based is conspiracy to defraud.

NORTHERN NORMAL AWARDS CONTRACT

Charles Pelissier to Grade the School's Athletic Field, an Area of 435 by 318 Feet.

Charles Pelissier was yesterday awarded a contract to grade the athletic field with which the Northern State Normal school is to be equipped. Seven bids were submitted and considered. The contract calls for the moving of 2,900 yards of earth. The field, 435 by 318 feet in area, adjoins the Normal gardens on the west. It has already been cleared and grubbed. Mr. Pelissier did this work several weeks ago. The ground will now be levelled and supplied with drain tile. While the field will be available for use this fall it will not be finished until next summer. Some earth, material cut from the higher parts of the area, will be used for filling, and it is desirable that this shall settle before the top dressing of clay is put on and the running track is built. The field will contain a tennis court, a baseball diamond and a football ground. The running track will be a quarter of a mile in circumference. With the grounds completed, the Normal will be possessed of the finest athletic field north and west of the Straits of Mackinac.

The Brotherhood of all Railway Employees will hold a meeting in Bureau's Hall at 8 p. m. this evening. All members are requested to attend. 9-2211

SPECIAL MEETING.

The Brotherhood of all Railway Employees will hold a meeting in Bureau's Hall at 8 p. m. this evening. All members are requested to attend. 9-2211

BIG CARGO OF ORE SHIPPED YESTERDAY

Steamer W. P. Snyder, Jr., Clears from the L. S. & I. Company's Dock With 12,111 Tons.

The steamer W. P. Snyder, Jr., of the Shenango Steamship & Transportation company, cleared from the Lake Superior & Ishpeming dock yesterday with the largest cargo of ore ever loaded into a vessel at that pier. The cargo weighed 12,111 tons. The record previously was held by the steamer Grant Morden, of the Canada Steamship line, which on June 12, this year, left the dock with 11,371 tons. The Snyder, which took on ore from the Lake mine at Ishpeming, was loaded in five hours. This particular class of ore is a soft material, much of which it is necessary to poke from the pockets, there is not running as freely as the harder varieties. The Snyder is consigned to Toledo. In addition to this 993-tonner, the L. S. & I. dock yesterday loaded the steamer Frontenac and large Chattanoga, for Huron. The steamer Shealde was due to arrive last night. The South Shore dock yesterday loaded the steamer Samuel Morse, consigned to Cleveland.

FROST PREDICTED.

Temperature Here Last Night Expected to Get Under 38 Degrees.

Should the predictions of the weather bureau have been borne out, and there was every indication last evening that the forecast would not go awry, Marquette and vicinity experienced a frost last night. Frost for all of Upper Michigan was, in fact, the expectation of the weatherwise yesterday afternoon.

Frost occurs when the dew condenses and the resultant particles of water freeze, forming ice crystals. Dew condenses at a temperature of 36 to 38 degrees. The temperature at 7:30 o'clock last evening was 46, the cool wind which had blown from the west during the day had slackened and it was judged that a temperature of 37 degrees or less would be registered before 6 o'clock this morning.

Marquette people can take some satisfaction in the likelihood that the temperature here this morning is on a par with that experienced in Illinois; it may, in fact, be indicated last night, be somewhat warmer in this vicinity than in a considerable area south of Chicago. Points as far south as Kansas yesterday reported frost, with a particularly heavy visitation of the kind at Rapid River, N. D.

Many cucumber and tomato beds in Marquette were put under cover last evening by prudent householders. Possession of vegetable gardens is cognizant of the warning issued by the weather bureau.

SECOND-HAND CARS.

When in the market for second-hand cars, will pay you to look over our line of cars. Have some excellent bargains.

MUNISING MOTOR CO. 9-17-61

INSURE WITH PETER WHITE & CO.

COUNTY'S RECORDS ARE OF MUCH VALUE

A Little Incident Proving the Worth of Data Kept on File at Courthouse.

"I'd like to ascertain the age of Johnny So-and-So," said a young woman who stepped into the office of the county clerk at the courthouse the other day. Within a minute or two she had been supplied with the information sought. "Ah, I thought so," she remarked. "Johnny was only four at his last birthday."

A reporter who happened into the office at the time had his curiosity aroused. It developed the young woman is a school teacher. The parents of some youngster had sent him to school as a pupil of the first grade. The teacher considered Johnny too young and, anyway, the grade contained more youngsters than could properly be accommodated. It is a provision of law that, while children of four years may be and are received in the kindergarten, the age limit in the first grade is five. Examination of the county records convinced Johnny had no right in her room. Presumably, the youngster was sent back home.

This is one instance proving the value of the records kept by the county. Data concerning all births, deaths and marriages in the county since 1867, inclusive, are on file. Whether a man is a legal voter, whether and when he has obtained naturalization, is all told by the books. In the office of the register of deeds are records dating back to 1852, they showing all the real estate transactions in the county since that time. Just at present a copy of one of these old books is being made, and since this particular record contains 800 pages of closely written matter, much of it faded, the task is a tedious one. The deeds and United States patents registered in this book are being copied into a still larger book by the use of a book typewriter. Yesterday 402 pages had been rewritten, and this work had required several weeks. Each document must be copied exactly, even to errors, if there are any. These particular records date back to 1854. The paper on which they were written had become in a bad state of preservation, and the ink was fading. It became imperative that a new book be made. It is of interest to note that the first entry in this book was made by Peter White.

An especially large deed to be recorded at the courthouse here is expected shortly. It is the deed which transfers the property of the Lake Superior Iron & Chemical company to the recently organized Charcoal Iron company of America. A consideration of \$4,000,000 is involved. The deed covers sixty typewritten pages.

SPECIAL MEETING.

The Brotherhood of all Railway Employees will hold a meeting in Bureau's Hall at 8 p. m. this evening. All members are requested to attend. 9-2211

REV. CHAS. J. JOHNSON STAYS IN MARQUETTE

Pastor of First Methodist Episcopal Church Is Reappointed to Queen City Charge.

As requested by the church and as was expected, Rev. Charles J. Johnson has been re-appointed to the First Methodist Episcopal pastorate of this city. Mr. Johnson's appointment was announced at the close of the annual meeting of the Detroit conference at Port Huron Monday night. The assignments of pastors to all the churches in the Houghton district are as follows:

William E. Marvin, Hancock, superintendent, fourth year.
Alpha—Chester Shoemaker.
Amasa—David Shugg.
Allouez—Ahmeek—To be supplied.
Athletic and Ballie—Henry Rogers.
Bessemer—J. H. Giddon.
Big Bay—To be supplied.
Calumet Finnish Mission—K. A. Nurmi.
Calumet, First—C. L. Adams.
Centennial—C. A. Johnson.
Tamarack—R. H. Prouse.
Champion—R. E. Miller.
Crystal Falls—W. B. Coombe.
Dollar Bay—Ernest Brown.
Escanaba—Guy V. Hoard.
Ewen—George Smith.
Gladstone—Frank M. Field.
Greenland—R. C. G. Williams.
Gwin—F. C. Breckman.
Hancock, First—R. M. Pierce.
Pewabic—Lewis Keast.
Hermansville—J. M. Pengelly.
Houghton—W. Grant Perkins.
Hurontown—N. M. Oatey.
Iron Mountain, Central—Wm. Edmonds.
Iron Mountain, First—S. T. Bottrell.

Send for Our Booklet entitled "MODERN BANKING"

250,000 endowment for superannuated preachers is the first time a preponderance of laymen has been allowed on any conference commission.

On motion of Dr. Charles Bronson Allen, the conference voted to create the salary of the secretary of the new fund by taxing each pastor in the conference 1 per cent of his salary. This will mean a salary for the secretary of nearly \$4,000, from which the expenses of the campaign will be deducted.

The conference refused to concur in a memorial to the general conference from Mississippi protesting the creation of negro bishops.

W. A. ROSS ENLIGHTENED.

Mrs. Verna Mersereau Replies to Marquette Man's Query.

In Monday's issue of The Mining Journal a communication from W. A. Ross was published under the heading, "Ross Wants to Know." The communication was as follows:

"To The Mining Journal: On Monday, Tuesday and Wednesday evenings of last week Mrs. Verna Mersereau, the Egyptian dancer, appeared at the Marquette Opera House, after having been heralded for a week previous, by slides on the curtain. I am informed that this dance was executed almost entirely in the 'nude.' The query is, Where was Moralist Penill and our Mayor Pro Tem during this artistic performance? Are they respecters of persons? Or was this art?"

Under the date, "Enroute to Munising, Sept. 20," The Mining Journal yesterday received from Miss Mersereau the following response:

"To The Mining Journal: In answer to what Mr. W. A. Ross 'Wants to Know':

I note the letter states Mr. Ross was 'informed.' This proves he did not see the performance personally, but took some one's word for it.

I notice also that 'Moralist' Penill and the Mayor Pro Tem were silent about my performance, from which I take it they understand Egyptian mythology and can appreciate the real artistic merit of this art.

Again, I will say as to the 'nudity' of the costume that this is not so. I was entirely clothed in the costume of the time of the act, which is 3,000 B. C. There is not a rube or a suggestive dance step or pantomime in the entire story.

I am very sure if Mr. Ross will take time to look up some ancient history and Egyptian mythology he will, as those understanding my art, recall his mistaken ideas as expressed in The Mining Journal.

I hereby request the gentleman in question to go to Ishpeming, where an opening Thursday, Sept. 23, and witness the same 'Romance of Old Egypt' that was performed at the Marquette Opera House Sept. 13, 14 and 15, viewing it for his personal satisfaction.

I should be pleased to meet Mr. Ross, also his 'informant,' at which meeting my mother, who always accompanies me, could explain my art in fuller detail.

Having played in most of the important theaters in the United States, and abroad, I am much surprised to meet with criticism in this part of the country. It is therefore evident that I am the first exponent of the classic dances so much appreciated elsewhere.

Respectfully yours,
MRS. V. MERSEAU.

OBTAINING HYDRANT LEVELS.

To facilitate municipal engineering tasks in the future, the department of public works is procuring the levels of all the hydrants and catch basins in the city—the distance at which each lies above the surface of Lake Superior. The data will be an aid to the department in street gutter and sewer construction and will always be on hand for reference. Bruno Primeau and an assistant are obtaining the levels by the use of a transit and yesterday had completed the work as far north as Hewitt avenue. Mr. Primeau leaves for Ann Arbor the first of next month to complete his course in the mechanical engineering department. He becomes a senior this year.

Sir Hiram Maxim's many inventions include roundabouts and mousetraps.
