

GREEK MOBILIZATION BRINGS ALL BALKANS UP TO A WAR FOOTING

"Elementary Prudence" Is How Athens Characterizes Action--Roumania Was Prepared--Russian Successes May Make Bulgaria Hesitate Joining Alliance.

Washington, Sept. 24.—A statement cabled to the Bulgarian legation here today by Premier Radoslavoff announces that Bulgaria does not intend aggressive action against any of her neighbors, and that her mobilization is not to be construed as indicating that she is about to enter the war.

London, Sept. 24, 10 p. m.—As "a measure of elementary prudence" Greece has ordered the mobilization of her naval and military forces. Thus the action of Bulgaria in making military preparations has brought the last remaining Balkan states under arms, for Roumania, while not fully mobilized, for some time has had her troops ready for an emergency.

What plans Bulgaria really has in mind and what Greece and Roumania will do when these plans mature are still matters for speculation. One thing seems clear, however, Bulgaria and Turkey, for so many years sworn enemies, have composed their differences.

RUSSIAN SUCCESSES IMPORTANT.

The successes which the Russian General Ivanoff has been having in Galicia and Volhynia, it is considered in military circles here, may still have an influence in more than one way in the Balkans. General Ivanoff has been so successful that the German Field Marshal von Mackensen, who is fighting north of the Pripiet marshes east of Brest-Litovsk, has, according to the German official report, been compelled to withdraw his lines somewhat as it was endangered of being encircled, while the Austrians have been driven back across the Styria and, according to one account, have evacuated the fortress of Lutsk in the Volhynian triangle of fortresses, which they captured during the great drive.

EASES BALKAN SITUATION.

These successes, which extend to the Roumanian frontier, would, in the opinion of military observers, serve to ease the situation on the Roumanian flank, should Roumania join Russia, and, in addition, might well prevent the Austro-Germans from sending an army, which, it is estimated, must consist of at least a half million men to make an attack on Serbia.

In the center the Russians are still falling back, while in the north Field Marshal von Hindenburg continues to make progress with his offensive against Dvinsk, although at a much slower rate than formerly as the Russians are stiffening their resistance.

East of Vienna the Germans admit a temporary check during which they lost guns to the Russians.

ARTILLERY WARFARE CONTINUES.

There has been a continuation of the furious artillery struggle in the west. According to the Berlin official report a British attack south of the LaBassee canal broke down under the German fire.

After a fortnight of comparative inactivity, during which they sank only five British merchant ships, German submarines again are on the move off the Irish coast. Since Tuesday they have sent five British steamers to the bottom.

WANT BULGARIA NEUTRAL.

Milan, Sept. 24, via Paris, 3:45 p. m.—Additional details of the recent interview between King Ferdinand of Bulgaria and a number of Opposition leaders are given in a dispatch from the Sofia correspondent of the Corriere della Sera, who says he received his information from a trustworthy source in Nish. "The audience was an historical one," the correspondent writes, since seldom has royalty heard such plain speaking. One by one the Opposition leaders protested against the adventurous policy of throwing Bulgaria into the arms of Germany and attacking Serbia, stating that this was contrary to popular sentiment and the interests of Bulgaria.

RECALL SECOND BALKAN WAR.

"They warned the king that they held him responsible for the disastrous policy of 1913, (Bulgaria's defeat in the second

Balkan war) which they called 'criminal folly.' They protested solemnly against the present policy of making common cause with Germany against Russia, Bulgaria's friend and liberator, saying it would be the ruin of the country and that Ferdinand would be held responsible.

"All were agreed in demanding the convocation of parliament, inasmuch as the Radoslavoff ministry was supported only by a small minority, and asserted that if the government continued its present course disturbances of the gravest character would be provoked."

KING'S LIFE MAY BE FORFEIT.

"M. Stambulievsky, representing the peasants and the agrarians, told King Ferdinand that if he obstinately continued his policy his dynasty and his life would be imperiled.

"The king showed resentment at the frankness of his interlocutors. He contented himself with replying merely that he would inform the premier of their opinions."

The correspondent added that these were the precise facts in regard to the interview, though it was to be expected that the Bulgarian government would deny any such statement.

MORATORIUM FOR GREECE.

London, Sept. 25, 2:36 a. m.—A dispatch to the Exchange Telegraph company from Athens says:

"Without distinction of parties the press unanimously approves the measures taken by the government in defense of Greece. All Greek steamers have been requisitioned. A moratorium will be immediately established.

TO DECLARE MARTIAL LAW.

London, Sept. 25, 2:03 a. m.—A dispatch to the Exchange Telegraph company from Athens says:

"A decree has been promulgated convening the chamber of deputies on Wednesday to pass an act of martial law and to put at the disposal of the government all the state railways. The transportation of merchandise has been forbidden."

TELLS OF RUSSIAN VICTORY.

London, Sept. 25, 2:30 a. m.—"The battle north of Lutsk was a great success for the Russians. We took four thousand prisoners and recaptured the town of Lutsk," says the Petrograd correspondent of Reuter's Telegram company.

SPAIN AND AMERICA NOW GOOD FRIENDS

So Says M. Alvarez at Paris in Assuring Sympathy of Liberals to Allies.

Paris, Sept. 24, 6:30 p. m.—Melquiades Alvarez, leader of the Reformist party in the Spanish Cortes, who is here as a delegate of the Liberal elements in Spain to assure the French government of their sympathy with the entente allies, said to a correspondent of the Associated Press today:

"Spanish sensitiveness resulting from the Spanish-American war has entirely disappeared and relations with the United States are more cordial than ever before.

"The two governments, each of which is charged with the care of complicated interests of the belligerents of different countries, are working in complete harmony. Early in the war the Spanish government expressed to the United States its willingness, when a proper opportunity arose, to co-operate with the United States in promoting peace.

"The Spanish government is absolutely neutral in the war, although you may say that all the Liberal elements are favorable to the allies."

WAR HAS DISRUPTED SCHOOLS IN TURKEY

Washington, Sept. 24.—There is little hope of reopening missionary schools and colleges in the interior of Turkey, according to a dispatch today from Ambassador Morgenthau, who said many school properties remained vacant "for lack of teachers, pupils and patrons."

Petrograd, via London, Sept. 24, 8:55 p. m.—The death of Peter Nikolaievich Durnovo is announced. He had been Russian minister of the interior, a member of the council of the empire and leader of the party of the Right in the council.

TELLS OF MASSACRES OF ARMENIANS, SAYING 450,000 TURK VICTIMS

New York, Sept. 24.—Dr. M. S. Gabriel, president of the Armenian General Progressive association in the United States, has received from Nubar Pasha, diplomatic representative in Paris of the head of the Armenian church, advices in regard to the massacres of Armenians in Turkey, in which it is stated that "Christian martyrdom has at no time assumed such colossal proportions."

The letters contain an appeal to the United States to "intercede and stop the persecutions."

Dr. Gabriel said that from information contained in the letters and from other reports he had received directly, he estimated that 450,000 Armenians had been put to death, and 600,000 rendered homeless or exiled, out of a population of 1,500,000.

GERMANS RAISE BID TO 16c FOR COTTON BUT CANNOT GET IT

Washington, Sept. 24.—The group of German firms which recently offered to buy a million bales of American cotton at fifteen cents a pound if delivered in Bremen today cabled Senator Hoke Smith they now are willing to pay sixteen cents. Delivery at Bremen will be impossible, however, unless some modification of the British order-in-council and contraband orders can be had.

Berlin, Sept. 24, via London, Sept. 25, 12:10 a. m.—The German war loan raised Sept. 21 is the largest financial operation in the world's history, said Dr. Karl Helfferich, secretary of the Imperial treasury, to the Associated Press today. With a total of 12,000,000,000 marks (\$3,000,000,000) and from small sums not yet reported, the secretary said it exceeds Great Britain's last loan, and attracts much attention all over the world as an unprecedented piece of financing.

"The present loan," Dr. Helfferich continued, "enables the government to liquidate treasury bills taken over by the Reichsbank and other banks, provides Germany with money for the winter campaign and renders unnecessary the raising of another loan before March.

ENGLAND'S EXPENSE HEAVIER.

"England hitherto has raised \$4,062,500,000 and Germany \$6,250,000,000 in long-term loans, whereas England's war expenditures up to the present time are hardly less than Germany's and soon will exceed Germany's for England is now spending nearly \$5,000,000 (\$25,000,000) daily against Germany's not much above \$3,000,000 (\$15,000,000). That means that Germany is spending twenty-five cents per capita daily and England fifty cents. I doubt, therefore, whether England's finances possess confidence that their resources will outlast ours."

BRITAIN LIKELY WILL LET GOODS CONTINUE TO U.S.

Washington, Sept. 24.—The way was cleared today for the release of American-owned goods of German and Austrian origin now held up at neutral ports of Europe by the British order-in-council. The British embassy notified the state department that it was prepared to receive applications for permits to export such goods in cases where American importers had either paid for the purchase price before March 1, 1915.

Vigorous informal representations have been made by the state department in its efforts to secure an agreement for the release of this merchandise, worth about \$167,000,000.

FRENCH BUY UP DOGS OF ALASKA-RACE FAME FOR ALPINE TROOPS

Nome, Alaska, Sept. 24.—The Allan-Darling team of racing dogs, winners of the famous 412-mile all-Alaska sweepstakes race, was sold today to Lieutenant Haas of the French army, who will take the dogs to France, for use in Alpine service.

A. A. (Scotty) Allan, the noted racing dog driver, will accompany the dogs to France. Lieutenant Haas bought all the dogs and equipment owned by Allan and Mrs. Charles E. Darling, of Berkeley, Calif. The French officer also bought the pick of their dogs in this camp. Altogether a total of 100 dogs and several sleighs were taken.

U. S. ARMY AVIATORS BREAK ALL RECORDS

San Diego, Calif., Sept. 24.—Sergeant William Ocher and Corporal Albert Smith, attached to the United States army aviation corps at North Island, this afternoon made fifteen loops each while engaged in flights, shattering all army and navy aviation records.

HIS WHOLE FAMILY DEAD THROUGH WAR.

San Francisco, Sept. 24.—Word of the death "through war" of his father, mother and two brothers in Scotland has been received from the British government by Andrew A. ("Scotty") Findlay, trainer of the Los Angeles club of the Pacific Coast league. The cablegram, Findlay said here today, read: "Lost through war, Alexander Findlay, Mrs. Findlay, and their sons, Herbert and Daniel."

His parents, Findlay said, lived on a small island near the mouth of the Clyde river, about 40 miles from Glasgow. He was unable to account for the cause of the death of his family.

Daniel, the older of the two brothers, was a soldier, convalescing at home from wounds received in France.

WEATHER MAN NOT BELIEVED; MAN PAYS FINE

Racine, Wis., Sept. 24.—After the manner of defense once employed by Abraham Lincoln in clearing a client of the charge of murder, Attorney Guy Benson today introduced a weather calendar in municipal court to show that Frank Doveschick, of Milwaukee, had not violated the game laws by firing his gun before sunrise on Sept. 22 while hunting near Wind Lake. The calendar was one kept by Major Hersey, Milwaukee weather forecaster, and showed that the sun rose at 5:38 on the morning in question, or a minute prior to the discharge of the gun at 5:39 as charged in the complaint.

Municipal Judge Smeiding, however, apparently did not place great faith in the weather man and sentenced the defendant to a fine.

ALLIES TO GET \$500,000,000?

New York, Sept. 24.—Negotiations over the proposed credit loan to Great Britain and France continued today without noteworthy development, but the accompaniment of many reports relating to matters said to be under consideration.

For the first time since the Anglo-French financial commission reached New York a fortnight ago, there was talk today that the loan might not be so much as a half billion dollars. It seemed definitely established that it would not exceed this sum. Authoritatively, it was said that this was the amount on which negotiations at present were based; but there prevailed in some quarters the belief that a half billion

GERMANY'S LOAN CALLED BIGGEST MADE IN WORLD

Secretary of Imperial Treasury, Discussing \$3,000,000,000 Transaction, Declares Nation Now Is on Good Financial Basis—Asserts Resources Inexhaustible.

Dr. Helfferich Compares England's Expenditures to Those of Central Empire, Stating Britain Pays Twice as Much—Appears Allies Can't Get Over Half Billion

Berlin, Sept. 24, via London, Sept. 25, 12:10 a. m.—The German war loan raised Sept. 21 is the largest financial operation in the world's history, said Dr. Karl Helfferich, secretary of the Imperial treasury, to the Associated Press today. With a total of 12,000,000,000 marks (\$3,000,000,000) and from small sums not yet reported, the secretary said it exceeds Great Britain's last loan, and attracts much attention all over the world as an unprecedented piece of financing.

"The present loan," Dr. Helfferich continued, "enables the government to liquidate treasury bills taken over by the Reichsbank and other banks, provides Germany with money for the winter campaign and renders unnecessary the raising of another loan before March.

Denies Money Was Demanded.

"Everything said abroad about Germany putting on pressure and using force to secure subscriptions to the loan is a pure invention. We appealed solely to the financial power and patriotism of our fellow citizens. Our success must open the world's eyes to recognition of how strong is Germany's financial power and how strong her will.

"I am confident that the success of this loan, which proves that we are standing firmly upon our own feet, will contribute toward the good relations between Germany and the United States, notwithstanding the Morgan-Holden incident. Independence is the first word in American history as well as the first word of true friendship. America cannot class us among her poor relations."

FINANCES ARE INEXHAUSTIBLE.

Dr. Helfferich asserted that Germany was financially able to continue the war indefinitely. Her people, he said, were earning higher wages and saving more money than in peace times. The country was supplying its own needs and buying little abroad, and making no debts to foreign countries.

In conclusion the secretary said that a shortage in supplies of some raw materials like cotton and wool might cause inconvenience, but the people were learning to economize. Old woollen clothing was being re-worked into shoddy and coats could be worn shorter. Substitutes for some materials were being found, he added.

TODAY'S WEATHER.

Washington, Sept. 24.—The following is the weather bureau's forecast for Upper Michigan:

• Showers Saturday and probably Sunday.

14-YEAR-OLD NEGRO BOY LYNCHED FOR ASSAULT ON WHITE GIRL OF 8

Jackson, Ga., Sept. 24.—Joe Persons, a negro boy of fourteen, was hanged here today for assaulting an eight-year-old white girl. The boy admitted he committed the crime and stoically announced he was ready to die. Although he weighed only seventy-five pounds, his neck was broken by the fall.

Salute to Governor IS FAILURE BECAUSE OF HOME-MADE POWDER

Portland, Ore., Sept. 24.—When Governor Moses Alexander of Idaho and his staff left here today on the steamer Rose City for San Francisco, an officer and gun crew of the Oregon naval militia on the historic cruiser Boston attempted to honor the governor with a seventeen-gun salute. After four shots, however, the guns became silent.

The captain of the Rose City, apprised in advance of the intended honor, stopped his boat awaiting conclusion of the salute. No more guns were forthcoming, however, and after a time the steamer proceeded.

Failure of powder made by the men of the Boston to do its work caused the fiasco. Home made powder was used, it was said because the government powder appropriation for the naval militia had become exhausted.

JOHN D. GRIMY, WENDS HIS WAY IN STEEL PLANT

Pueblo, Colo., Sept. 24.—A perspiring man with collar wilted and with his dusty coat slung over his arm today plodded and dodged his way through the big steel plant of the Colorado Fuel & Iron company. The man was John D. Rockefeller, Jr.

In the rooms where half-naked workmen are protected from the searing heat by blasts of cool air; into the rail mill, where cataraacts of sparks mark the course of the saw through the red hot steel, besides the track where steam and electric trams threatened their unwary visitor from the floor, the ceiling and the walls—through the dirtiest and most dangerous portions of the plant, Rockefeller made his way shaking hands with the workmen and asking a stream of questions of the company officials who piloted him.

TROOPS MAY CROSS BORDER.

No new orders have been given General Funston. He is in full charge of the border situation and is authorized to deal with emergencies as may be necessary. Repetition of such affairs as that of today may be followed by American troops crossing the border to deal with escaping raiders and their accomplices.

The matter will be laid before the state department tomorrow in order that representations may be made to General

COREY WILL COME BACK TO THE STEEL INDUSTRY AT HEAD OF MIDVALE CO.

New York, Sept. 24.—William E. Corey, formerly president of the United States Steel corporation, it was learned from an authoritative source tonight, is to return to the steel industry and become the head of the reorganized Midvale Steel company. Perry Rockefeller, son of William Rockefeller, and nephew of John D. Rockefeller, and others well known in the financial world are to become associated with him. Mr. Corey retired from the presidency of the United States Steel corporation in 1911 after eight years in that office. Since then he has spent much of his time in France.

DYNAMITE IN MAIL ADDRESSED TO ITALY

Without Trip to the Coast to New York and Later Rough Handling.

New York, Sept. 24.—Eight sticks of dynamite weighing twelve pounds were found in a package in the foreign branch postoffice here today. The package was mailed at Napa Junction, Calif., Sept. 1, and arrived here Sept. 7, being sent to the foreign branch office.

Postal authorities said the package was addressed to Signor Virginia Rossio, P. O. Ceva, Italy, and the name of the sender was given as Luigi Ghirardi, of Napa Junction.

The package containing the dynamite received much handling during her trip across the continent, being transferred to and from various mail bags. On receipt at the Grand Central terminal it was shot down a long chute and must have struck the bottom with considerable force. The failure to explode is explained by the heavy wrappings of newspapers.

The package was held for insufficient postage, but postal authorities have been unable to locate a Luigi Ghirardi at Napa Junction.

ALLEN SURE NEGRO TRUSTY SLEW WIFE.

Joliet, Ill., Sept. 24.—Edmund M. Allen, former warden of the Illinois state penitentiary here, returned to testify before the grand jury against "Chicken Joe" Campbell, a Negro convict, suspected of murdering Mrs. Allen in her apartments at the penitentiary the morning of June 20.

Campbell was a trusty, employed as a house servant by the warden, and came under suspicion when the charred body of Odette Malize Allen, former prima donna and opera star, was found on her burning bed.

Allen branded Campbell as a liar, and said he would disprove Campbell's alibi. He mentioned his wife's name in public for the first time since the tragedy which caused him to resign from the prison.

Jack and Kathryn Allen, 16 years old, his two children, accompanied Allen and testified before the grand jury also.

STUDENT IS DEAD AS RESULT OF CLASS RUSH

Princeton, N. J., Sept. 24.—Heart failure, superinduced by participation in the annual class rush at Princeton University, today caused the death of Stockton Wells, a freshman from Madison, N. J. Representatives of the four classes at the university met tonight and decided to discontinue all class rushes for the present year.

In building your house don't forget the closets. What would your poor family skeleton do without one?

Tell a girl she has no brains and she will forgive you if you tell her she is pretty.

MEXICAN RAIDERS KILL ONE AMERICAN SOLDIER IN FIGHT WITH TROOPS

Incident at Progreso Regarded as Washington With Gravity--Repetition May Result In U.S. Forces Crossing Border--Bandits Escape to the Other Side of the River.

Washington, Sept. 24.—Details of a fight today between United States cavalrymen and Mexican raiders at Progreso, Tex., in which an American trooper was killed and the captain commanding was wounded, were given in a report today from Major Anderson at Mercedes, forwarded to the war department tonight by Major General Funston.

After looting the Progreso postoffice storehouse and burning it the raiders escaped across the Rio Grande under cover of rifle fire from several hundred Mexicans on the south side of the river.

PRIVATE STUBBLEFIELD FALLS.

The private killed was Henry W. Stubblefield, of Big Stone Gap, Va., and the captain wounded was A. V. Anderson.

Department officials would make no comment in the absence of the secretary, but it was apparent that the incident was regarded as one of the most serious of the many disturbances along the border.

TROOPS MAY CROSS BORDER.

No new orders have been given General Funston. He is in full charge of the border situation and is authorized to deal with emergencies as may be necessary. Repetition of such affairs as that of today may be followed by American troops crossing the border to deal with escaping raiders and their accomplices.

The matter will be laid before the state department tomorrow in order that representations may be made to General

HEIRESS IN MALE CLOTHING NABBED ON BAGGAGE CAR

Los Angeles, Cal., Sept. 24.—Masquerading as a boy while accompanying the man she claims as her husband while on a "bumming" trip from Denver to this city, pretty 17-year-old Bessie Wright was discovered to be a girl at San Bernardino, when, in a fistic encounter with a Salt Lake passenger train brakeman, her great wealth of blonde hair fell down her back as a heavy cap was knocked from her head.

The girl was fighting side by side with her alleged husband, William Wright, of Denver, to keep from being ejected from the train. The pair were caught on top of a baggage car. They were jailed by the San Bernardino police. The girl was sent to the detention home.

Blue-eyed, with soft skin and every evidence of breeding and culture, the story the girl tells is one of romance and love opposed by her millionaire father, whose identity she refuses to divulge, and an elopement despite conditions which made them start to "beat" their way to Los Angeles in most hazardous ways.

The San Bernardino police scout the statement that they two are married. Wright is twenty years the girl's senior. But the girl protests indignantly that they were married in La Junta, Colo., but cannot produce a marriage certificate.

Meeting Wright as a guide in the Garden of the Gods at Colorado Springs while she was attending a fashionable house party there, the girl's story is that she fell madly in love with him and when he proposed marriage, ran to her father for consent.

The millionaire parent flew into a rage and ordered her home, she says. Instead with but a few dollars of her own and with Wright almost penniless, they eloped together, stealing a ride on the Santa Fe flyer out of Colorado. That was several weeks ago, the girl says.

They had been riding on the tops of baggage cars until halted at San Bernardino, hoping to find employment here. The girl's father is a big owner in the Golden Cycle and Bull Hill mining properties at Cripple Creek, Colo., she says. But she won't give her name. She says her father would send for her and annul her marriage to Wright, for whom she would rather die than leave, if he knew their whereabouts and gives this reason for hiding her name.

BOY HIT BY BASEBALL DIES ONE DAY LATER

St. Louis, Mo., Sept. 24.—Karl Vollmer, aged eleven, died today from an injury received yesterday when he was struck on the head with a baseball. After the accident he went home and an hour later his mother found him on the floor unconscious. A physician was unable to find any traces of injury.

Several garages in southern California wash the cars with water heated by the sun's rays.

Carranza, whose troops occupy the territory opposite Progreso.

Following is Major Anderson's report: "Party of about eighty Mexicans attacked storehouse at Progreso postoffice at about daybreak this morning, broke into store, looted place and set fire to it. A detachment of troops B and C, Twelfth cavalry, numbering about twelve men, were fired upon as they approached the store. The fire was returned.

PRIVATE STUBBLEFIELD FALLS.

"Private Henry Stubblefield, troop B, Twelfth cavalry, was shot twice in the body and was killed. Reinforcements closed in from all sides. Four officers and about sixty of our men participated in the fight. The firing kept up for about two hours.

"Captain A. V. P. Anderson, who was in command, received a flesh wound in the arm, but is not considered dangerous. Two horses were killed and one wounded.

"The Mexicans were pursued in brush to the river. Several hundred Mexicans on the other side of the river kept up a heavy fire to cover crossing of Mexicans. A large part, if not all, have recrossed now (5:20 p. m.). Mexicans fired some two thousand shots and our men about one thousand. Two Mexicans were reported shot in boat crossing the river. Several were shot on the other side of the river. Some of the Mexicans were in uniform and some in civilian clothes. A captain reported in full uniform. Sufficient troops here to handle situation."

TROOPS MAY CROSS BORDER.

No new orders have been given General Funston. He is in full charge of the border situation and is authorized to deal with emergencies as may be necessary. THE DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY The Mining Journal Company, Limited.

Issued daily except on Sundays. Contains Associated Press dispatches, and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES:

Per year, by mail, \$6.00 Per month, by carrier, .60

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

SATURDAY, SEPT. 25, 1915.

\$87,749,270, against \$153,984,944, a year earlier. August howed exports valued at \$261,975,771 against \$110,367,494 in August, 1914, an increase of 137 per cent.

PUT NONE BUT AMERICANS ON GUARD.

OUR FAIR AGAIN.

If the Houghton Gazette has gathered that the Marquette fair was a failure it has gathered a one sided impression.

The attendance was disappointing not because the fair proper was not an excellent one, but because there was not enough fuss and feathers about the carnival attractions to command the attention of an exacting public.

WHERE JAMES STANDS.

Congressman James seems to have adopted a policy of coming right out and telling where he stands on vital questions.

In the matter of military preparedness for defense and woman's suffrage Congressman James has expressed himself for both of them.

In contrast to his definiteness is the uncertainty of the position of Congressman Frank Scott of the Soo district on certain big issues.

Congressman Scott is definite, however, in the matter of continuing Fort Brady. He is opposing its abandonment.

UNPRECEDENTED TRADE.

During the first year of the war the trade of the United States broke all records, according to figures, covering the period from August, 1914, to August, 1915, made public this week by the bureau of foreign and domestic commerce.

IT DEPENDS.

Following an all day conference of Progressive leaders from fifteen states, Victor Murdock, chairman of the national committee, announced that the Progressive organization will run a straight Progressive ticket in 1916.

Brother Henry says that former President Taft is not a candidate for the Republican nomination in 1916.

Prohibition should not be put forward in 1916, says Mr. B. In other words, Mr. B. has added another to his very varied collection of issues.

STATE PRESS

War reports indicate that the French and English have pretty nearly bitten off a Turkey wing.—Saginaw News.

Food prices are up in Detroit and so are rents, and so are taxes. But that is immaterial so long as no one disturbs the wage level.—Detroit Journal.

Another continent has been discovered up near the North Pole. Wonder how many more will be found up in that neck of the woods.—Kalamazoo Telegraph-Press.

Correspondent Archibald now realizes that there is a vast difference between "carrying a message to Garcia" and carrying a message for Mr. Dumba.—Detroit Free Press.

Czar Nicholas is almost as farsighted as the Kaiser. Before going to the front he wisely decided to send the Duma members home and hide the key under the door mat.—Kalamazoo Gazette.

A hotel keeper in Hohanoy, Pa., broke three ribs in shaking hands with a guest who was particularly unbecomingly friendly. He is now in bed.—Cleveland Leader.

Joseph G. Cannon offers to become the candidate for congressman at large, though he is not a candidate for anything else.—Detroit Free Press.

Governor Ferris doesn't believe in military training of business men. He is preparing for a drive through the state with his preparedness for Democratic political defense is all right—his after another term.—Jackson Citizen-Press.

EDITORIAL OPINION

The Decisive Campaign Near.

Without wishing the Balkans nations ill, newspaper readers in this neutral land appreciate the possibility of decisive action in that jealous and turbulent corner of the European arena.

FACTS ABOUT THAT LOAN.

Many misstatements of fact about the huge credit Great Britain and France are seeking to establish in the United States have been made by both the advocates and the opponents of the loan.

been all on one side. The widely published statement that the bonds would be a first mortgage upon the entire British empire and France and her colonies is false.

The German plan, presumably, is to hold the French and Russian lines while pursuing a critical campaign in the southeast for the relief of Constantinople.

Again the Armenians.

Twenty years ago, when the civilized world was horrified by Turkish savagery as vented in massacres of Armenians, France and Russia and the war agreed that the treaty of securing the Sultan to promise more humane behavior.

It Needed Explanation.

A Kansas Citizen relates that recently while on a trip about the environs of San Diego and Coronado Beach in a sight-seeing motor car, the driver pointed out various buildings, buildings, hotels, etc., as the property of J. D. Spreckels, Jr., the sugar magnate.

Saved His Life.

It is probable that no class of men is criticized more unjustly than doctors. Many of the stories at their expense, however, are both amusing and good-natured.

All But the Breaches.

Charles M. Schwab said at a dinner in New York: "The Englishman is the best-dressed man in the world, Americans excepted, of course; and it was an amusing thing to see on my last visit to London, all sorts of English swells in khaki uniforms that didn't fit them."

After Mr. Comstock, What?

Anthony Comstock is dead. The ideas he held are not dead, but they are dying. Ten years ago, and from present indications they will soon cease to be active.

True Enough.

Old Uncle Will was still faithful to his young "missus." The truth of his long standing statements had long since ceased to be depended upon.

His Joyous Discovery.

Once upon a time there was a wag who wandered away from home because he was not properly appreciated in his own town.

DOUGLASS HOUSE FIRE CAUSES SLIGHT LOSS

South Wing of Hotel at Houghton Damaged by Water—Department's Work Praised.

Falling sparks from the chimney from the ranges of the Douglass House Eitzen set fire to the roof of the hotel yesterday morning at 7:30 o'clock. That a serious fire did not result is due only to the efficiency of the Houghton fire department, as John C. Mann, proprietor of the hotel, asserts.

The smoke stack runs up from the kitchen through an air shaft through which the kitchen is ventilated. The sparks fell into the shaft and after burning through the roofing attached to the wooden frame of the air shaft and soon the flames spread beneath the roof and over a considerable area.

The fire department responded promptly to the alarm, fortunately being only a block distant. Within an hour the blaze, which was in a particularly awkward place, had been extinguished and without very great damage to the roof. None of the interior of the hotel was damaged.

It was necessary to throw on considerable water and from 7:30 the principal damage will come. The water occasioned considerable inconvenience for the guests, some of whom were just arising. One guest in this wing emerged from his bath to find his bed flooded, his clothing soaked and his bed in like condition.

The fire affected only the south wing of the hotel. About ten rooms will be out of commission for a day or so but business will not be interfered with. So rapid was the work of the department that even the characteristic odor following a fire is not noticeable in the hotel.

It was not possible yesterday to determine the exact monetary loss, but it is not considerable and is covered fully by insurance.

HAMPDEN THREATENS REVENUE.

Organizer of the Camels Wants Some of His Victims Prosecuted.

A score or more of the members of Houghton temple, Camels of the World, are shaking in their boots with fear of the law and are boiling mad with rage toward W. K. Hampden, organizer of the temple. The cause is this:

Hampden is under arrest on a charge of soliciting members for an organization not licensed in Michigan. He has written Secretary Leon Atkin of Houghton temple that if he is convicted and fined every member of Houghton temple that solicited a member for the temple will be prosecuted under the same statute.

SUIT CLUB GANG FIGHTS.

Starts Habeas Corpus Proceedings to Prevent Extradition.

Edward McCormick, assistant prosecuting attorney of Houghton county, was advised yesterday by Prosecuting Attorney Galbraith, who is in Cheyenne, Wyo., seeking the extradition of four members of the Cheyenne suit club gang.

ROACH & SEEBER CO. EXPANDS.

The Roach & Seeber company announced yesterday that it has broken ground for a big addition to its branch house at Ironwood. The addition will be one hundred by forty feet in ground dimensions, concrete construction, two stories and a basement. It will be equipped with a sprinkler fire protection system and other modern improvements.

with you when Yachting, Camping, Motoring, Fishing, or Golfing. A nutritious, satisfying Food Drink ready in a moment. A good lunch when tired or run down. Simply dissolve in water, hot or cold. A fine night's rest is assured if you take a cupful hot before retiring. Our Lunch Tablets are the acme of convenient nourishment. Dissolve a few in the month when fatigued or hungry. Sample free. HORLICK'S, Racine, Wis. No Substitute is "Just as Good" as HORLICK'S, the Original.

SEE FOR YOUR FURS

Calumet Likes the Plan. Superintendent Hall Will Have Night School for Attens.

Superintendent E. J. Hall of the Calumet public school likes the plan of the naturalization bureau for night schools for aliens, as described in these columns yesterday. He yesterday agreed to open such a school, on being presented with the department's plan by Naturalization Examiner Henry Block.

Mr. Block will now seek the assistance of Houghton, Hancock and Painesdale schools.

Disables from Lansing say Superintendent of Public Instruction Fred L. Keeler has started out to learn the percentage of illiterates in Michigan. To accomplish this Mr. Keeler has written superintendents of schools in the state urging the establishment of free night schools.

Many of the cities of Michigan have conducted free night schools with remarkable success during the last two years, says Mr. Keeler, "and I believe these courses should be established in all schools."

H. D. Lee, superintendent of the Hancock public schools, was asked for an expression on the plan of night schools yesterday morning. "Mr. Keeler's letter has not reached this school," said the superintendent, "but I am strongly in favor of the night school plan. This institution is the city library, in this city hall, and which has on its shelves 10,000 volumes. The official reason for this library's being is to furnish a complete and official record of the municipal affairs and history of the city of New York. From the viewpoint of the bibliophile or the historian, the most valuable books in the library are the records of the town in the days when the Dutch ruled Manhattan, and it was known as New Amsterdam. The old Dutch records consist of seven fat volumes covering the period between 1647 and 1674.—Pittsburgh Dispatch.

JUVENILE DEPREDATIONS.

Sheriff's Office Has Calls from East Houghton and from Ripley.

An excess of the animal spirit in youth of East Houghton and of Ripley was the occasion for two calls on the sheriff's office Thursday night.

In East Houghton reports were made that boys were throwing stones at electric light poles, using the glass insulators as targets, endangering not only the lighting of the section but the lives of passersby as the breaking of an insulator might cause a live wire to burn off and drop to the ground. The same boys are accused of stealing fruit from the garden of John W. Ruhl on Blanche street. Deputy Sheriff Vivian was placed in charge of this case. He expects to make arrests today as some of the boys, or at least boys who know the facts, have snitched.

The Ripley case is somewhat more serious. Two boys, who are believed to be the culprits, stole a brass nozzle from the fire hose of the Company's Lumber and Machinery works. They did not take the trouble to unscrew the nozzle but cut the hose. The thief is supposed to have been made to sell the pipe to a junk dealer. An arrest in this case is expected this morning.

ATTORNEY GENERAL RENEGES.

State Lawyer Does Not Know What to Do With Destructive Beavers.

Attorney J. F. Hamblitz complained recently to Attorney general that the fellows that the land of his client, Philip Lang, of Pike river, is being destroyed by water backing up from beaver dams on the land of Joseph Colombe, adjoining. The beavers are protected by law, as to break open a dam is a penal offense, admitting that the attorney general is passing the buck to the state game warden is going to help his client any. He says: "I can't see how a 85 beaver can be permitted by law to destroy \$800 worth of crops and I'll not bother the game warden at all. What will do will be to petition for an injunction against the owner of the land on which the beavers have their dam. If he breaks the dam he breaks the law and is liable to break into jail but as he is going to break my client if he does not do one or the other I am going to see if the courts cannot solve the problem for all concerned."

WILLIAM WALLEN PROMOTED.

Chief "Trouble Shooter" of Western Union Goes to Minneapolis.

William Wallen, for the last four years construction foreman for the Western Union Telegraph company in the copper country, will leave today for Minneapolis to take a position in charge of maintenance of Western Union railroad wires running out of that city. It is a promotion for Mr. Wallen and one that the telegraph fraternity of the copper country considers he has well earned. During his residence in Houghton the "trouble shooter," as he is known telegraphically, has made many friends who will regret his departure.

A MEETING OF JANITORS.

Superintendent Doelle Calls the Knights of the Broom Together.

There is to be a somewhat unique meeting in the superintendent's office in the Central school next Monday night, a meeting of janitors. In his call of the meeting Superintendent Doelle says it is called "to talk over problems of mutual interest."

The Business Institute

163-169 Cass Ave., Detroit, for their handsome catalog. The Business Institute is the largest, best-equipped business school in Michigan, and is one of the leading schools of the kind in America. During the past six months there were approximately a thousand applications for Institute students to fill positions. This certainly should interest young men and women.

Assist Your Stomach

To Get Rid of the Poisonous Gases and Fermenting Food.

A good long fast will do this sometimes. A trip to the mountains. Tramping. Roughing it. Yes, very good remedies. But are you going to avail yourself of either one of these remedies? No? Then the next best thing is to try a bottle of Peruna. Take it according to directions. You will have a natural appetite. All gas and fermentation in the stomach will disappear.

Read what Mrs. Emma Bell, Box 204, Fort Pierce, Florida, says: "I was taken suddenly with swelling of the stomach and bowels, and great distress. Very painful. Three doctors gave me no relief. Could not eat anything. Everything soured. I began taking Peruna and was soon strong enough to do work. After taking five bottles I can truthfully say I am well. I gained twenty pounds."

German-Americans. But he would find nothing of the sort. So far as the federal government and states are concerned he would discover nothing changed from the day he left us.

"The mighty convulsion we are witnessing he would ascertain to be due entirely to foreign complication, to a determination on the part of our German-Americans not to be intimidated through thick and thin, right or wrong; to a sudden self-revelation that, unlike himself, they by the ten thousand had not really transferred their allegiance to the country of their adoption; to a determination on their part to compel the government at Washington to adopt their point of view.

Mr. Villard said that to allow nationalistic groups to develop in this country as they had in Austria-Hungary would be most disastrous. After dwelling on the evils to be encountered by a further growth of these groups he said that the present development of them was a challenge to American statesmanship and to our loyalty to all things American."

POTASH FROM FELDSPAR.

A young chemist, a Yale graduate, working near the custom house, the other day showed Dr. Thomas H. Norton, the department of commerce's commercial agent, a new process for extracting potash from feldspar. Dr. Norton is here to help solve the problems of a war shortage in dyestuffs and other substances, and potash is one of them. He was so much impressed with the young inventor's feldspar process that he said later:

"I have examined the chemical factors of this process and am convinced that it is reliable and of value. Tests have been successfully made with several hundred tons of feldspar. The inventor himself believes that the efforts to build up a potash industry based on kelp ought to be continued without letup, for kelp affords us a very much greater source of supply than feldspar. But I consider this new process important in several respects.

"In the first place it promises an economical way of liberating aluminum and silica from feldspar. Aluminum, silica and potash are closely united in the feldspar of the Allegheny mountains and in our four hills in the West. We have to use an alkaline process before we can split them with acids. Now the release of this aluminum quickly and cheaply is of great importance to the aluminum industry in the United States, which uses 300 tons of pure aluminum daily.

"Secondly, the new process of getting potash from feldspar is more direct than extracting it from kelp. This young man's method will give us potassium carbonate almost directly from the rock, and potassium carbonate is the great desideratum. Having that, we can immediately get any kind of potash salts, including nitrate. To get potassium carbonate from the kelp we have to use rather a roundabout method.

"Germany has the one great natural monopoly of potash. We have been taking half her output. Now we cannot get it. The American farmer has never learned to use enough potash as a fertilizer. The Germans get thirty-eight bushels of wheat per acre to our fifteen by being liberal with potash. We are getting kelp containing \$150,000,000 worth of fertilizer go to waste on the Pacific coast each year."—New York Sun.

COMPULSORY MILITARY SERVICE.

There are doubtless in this country some who are prepared to urge the adoption of the European system of universal military service at the present time. In the opinion of this writer a system can only be justified on the ground of necessity, and such necessity does not exist in the case of the United States. The ideal government is that which interferes least with the liberties and happiness of its good citizens, and a military system which in time of peace abstracts young men from their families and forces them into the army upon attaining a prescribed age constitutes a serious interference with the individual and the family order of things.

If we should so regulate the system of conscription as to provide for a standing army of but 500,000 men, or in fact any number less than the maximum attainable by conscription then we would cease to have universal service and the system would fall down. It would fall down because it would cease to be universal. It is to be regretted that in a system of universal military service the soldiers are not paid. The few cents a day allowed them constitutes a commutation of tobacco and other non-necessities. All the male population serve, so that in the end all strive in civil life under the same handicap of required military service.

We were to adopt what some are pleased to call a modified form of universal military service it would be in effect a limited universal service, which, as the term indicates, would be anomalous. When enforced military service ceases to be universal in its application favor-

COLDS DO NOT LEAVE WILLINGLY.

Because a cold is stubborn is no reason why you should be. Instead of "wearing" it out, get sure relief by taking Dr. King's New Discovery. Dangerous, bronchial and lung ailments often follow a cold which has been neglected at the beginning. As your body faithfully battles those cold germs, no better aid can be given than the use of this remedy. Its merit has been tested by old and young. Get a bottle today. 50c and \$1.00.

City Brevities

Today's weather: Cloudy with probably rain.
Yesterday's temperature: Seven a. m. 48 degrees; noon 47; 7 p. m. 50; Highest, 50 degrees; lowest, 46.

Mrs. Blanche Robertson left last evening for Crystal Falls.
Miss Cameron, of Newberry, is here to attend the Normal.

There will be a choir meeting this evening at the Methodist Episcopal church.
Miss Adda Eldredge returned home yesterday morning, after spending a week at Chicago.

The Rt. Rev. Bishop Eis and Rev. Father Seifert left this morning for Newberry and Grand Marais.

James Robertson, assistant general freight and passenger agent for the South Shore, left last night for Calumet.

Rev. Charles Epstein left last evening for his home in Plainfield, Ill., after spending the past two weeks in this city.

William Rutledge, of Rockford, Ill., returned to his home last night, after spending two months at the Camp Sosawagaming.

Miss Agnes Charles, of Ishpeming, returned to her home last night, after a several days' visit with Miss Anna Devine, Fourth street.

Mrs. J. E. Ream and daughter, Viola, left last night for their home at Escanaba, having come here last Saturday to attend the funeral of Mr. Ream.

Mr. and Mrs. John Harris and granddaughter, Evelyn, are spending the week at Calumet, the guests of Mr. and Mrs. Wm. Saunders, formerly of Marquette.

Frank Belland, who has been sick at St. Mary's hospital for the past two weeks, is recovering rapidly and expects to be able to leave the hospital in a few days.

Mrs. N. Young and daughter, Frances, left Thursday for their home in Seattle, Wash., after visiting for the past two weeks with her sister, Mrs. James Dobson, Rock street.

Mrs. Wm. Price and daughters, Betty and Minnie, left last night for their home in Ashley, Pa., after spending two weeks at the home of her brother, G. A. Warner, Third street.

Mrs. Mary Day, formerly of Marquette, but now of Superior, is critically ill. Mrs. Day is the mother of Mrs. M. V. Mullaly, of this city, who was called to Superior early this week.

Mrs. Wm. Rice, Washington street, was surprised last night by thirty of her friends. The affair was in honor of her birthday. Dancing and games were enjoyed, after which lunch was served.

Miss Celia Malbon, of Chicago, who has been visiting at the Fletcher home on Blenheim avenue, for a month, left last night for her home. She was accompanied by Miss Myrtle Fletcher, of this city, who will visit at the Malbon home for a week.

Charles Korpi, of this city, while working on the roof of the L'Anse station, slipped and fell to the ground yesterday morning. His leg was broken and his back slightly injured. Mr. Korpi was resting comfortably at St. Luke's at a late hour last night.

Miss Ada Pelletier and Miss Joan d'Arc Tureme were pleasantly surprised last evening by about forty of their friends, at the Pelletier home, 443 West Washington street. Several hours were spent at games and dancing, following which lunch was served. The young women leave this afternoon for the copper country, to be gone about two weeks.

Concert at Normal—The Royal Gwent Welsh Glee club was heard last evening by an appreciative audience at the Northern State Normal. It is one of the best choral organizations that has ever visited Marquette, and its members won unqualified approval and much applause.

Football Today—The Marquette High school football team will play the first interscholastic football game of the season this afternoon at the fair grounds against the Ishpeming Highs. It will start at 2:30 o'clock and there will be special street car service to the grounds. The Marquette squad has been developing rapidly and Coach Cushman is hopeful that the score will turn out right. The Marquette team will line up as follows: Captain W. Morrison, fullback; St. John, right half; L. Morrison, left half; Lane, center; Malone, right guard; Daniels, right tackle; Lyons, right end; Johnson, left guard; Sonnenberg, left tackle; Pendill, left end, and Gustafson, quarterback. In addition to this line-up the following substitutes will be on the side lines in uniform and will probably be given a chance to play in part of the

game: Johnson, Deutsch, Price, Beaudry, Brown, Hagen, Cole, Richardson, Havenar, Schunk, Moran and McIntosh.

Ross Is Honored—Albert E. Sharpe, grand chancellor of the Knights of Pythias order in Michigan, has appointed William A. Ross to the committee on mileage and per diem, of the grand lodge, as well as deputy chancellor of the order in the upper peninsula. His appointment to the mileage committee entitles Mr. Ross to attend the next meeting of the grand lodge. His appointment as deputy chancellor for the upper peninsula means that Mr. Ross will have to do considerable traveling in the district visiting Knights of Pythias lodges. Mr. Ross plans to devote much of his time to his duties as deputy chancellor.

Pittsie Ryan in City—Pittsie Ryan blew in yesterday afternoon from the eastern part of the peninsula. Pittsie is the globe-trotting newsboy, who is on the last lap of a 40,000 mile jaunt that has taken him all over the world. He was in Marquette in April and since then has worked up through Minnesota, into Canadian territory and back again to the states. The past several weeks he has been touring the upper peninsula, and has visited all the towns in the district. He backtraveled to this region to make some mileage he needed to complete the record for his trip. He expects to leave Marquette Sunday for his home in Alberta, Canada.

Not Enthusiastic—The plan of State Game Warden Oats for making the Tahquamenon marshes a duck preserve is not causing any particular enthusiasm among the Newberry sportsmen, says the Newberry News. "They believe that if the plan is carried into effect they will be deprived of a great deal of legitimate sport. It is due to their efforts that wild rice is found in the Tahquamenon river. Year after year wild rice has been planted in this river by local sportsmen until now it has secured a firm foothold. Their first efforts to secure a growth of the rice were failures, but they were not discouraged and renewed the plantings, until at last their efforts were crowned with success. To secure a growth of wild rice entails considerable labor and expense and naturally the local sportsmen are not particularly enthused at the prospect of the date taking over these grounds. We believe that a further investigation upon the part of Mr. Oats will convince him there is little to be gained by establishing a preserve in these waters. It is true the Tahquamenon affords a natural breeding place for ducks, and as such it is now serving its purpose without molesting any local sportsmen. For some unaccountable reason, however, the ducks leave these waters soon after the first fall storms, presumably gathering in large flocks for their flight southward. Local sportsmen get only a few weeks shooting in the first part of the season and comparatively few ducks are killed. Possibly if all shooting was prohibited the ducks would remain longer in these waters. As a breeding place and a refuge during the mating season these waters are now accomplishing every purpose they would be a 'preserve' created."

Upper Peninsula

Fair a Success.

The Dickinson county fair was a success from a financial standpoint for the first time in many years, says the Iron Mountain Press. It was also a success in nearly every other department. Considering the adverse season, the showing of the grain and vegetable department was surprisingly good. The flower show was a beauty and the display in the household department most commendable. The cattle show was extra good. In the line of amusements, the program was the best ever planned by the society. The attendance was encouragingly large. The management is deserving of high praise.

Holdings Optioned.

The Lake Antoine district, Dickinson county, will be the scene of considerable exploratory work in the near future, according to the present outlook. In addition to the options secured from John L. Buell by the Newport Mining company, it is learned that the holdings of the Houghton Mineral Land & Mining company are also in demand and may be the seat of exploratory work. The holdings of this company extend from the lake in a westerly direction to the St. Paul tracks. It is learned that President Baird, of the company, has recently granted an option on the property and negotiations are now pending for placing the same with a large mining concern. It is the contention of many that the district contains a large body of ore.

ROOSEVELT STRONG FOR MUNITIONS TRADE

Denounces Those Who Oppose It in Severe Terms as Enemies of America.

New York, Sept. 23.—"Every man or woman who in the name of peace now advocates the refusal on the part of the United States to furnish arms and munitions of war to those nations who have had the manliness to fight for the redressing of Belgium's wrongs is serving the devil and not the Lord."

Two of a Kind. "As for the persons who base their actions upon greed in such a crisis as this little needs to be said. The beef baron or the representative of the cotton interests who wishes to ignore the butchery of our women and children and to take sides against the allies so that he may make money by the sale of cotton and beef is faithless to every consideration of honor and decency. It is entirely fitting that the sheer materialist should in such an issue stand shoulder to shoulder with the professional pacifist, the peace-at-any-price man, and with his sinister brother, the hyphenated American. These men by their actions seek to condone the murder of American men, women and children and the tramping of Belgium into bloody mire. They are false to the cause of humanity. They come perilously near being treasonable to this country. It is hard to decide which is the most abject quality; the creed of the mere materialist or the short-sighted cowardice of the professional pacifist. As for the hyphenated-American he endeavors to serve his foreign fatherland without exposing his own wretched carcass to the danger which would come to him if he served in the trenches beside his fellow countrymen who have stayed at home—and who at least pretend to no divided allegiance."

U. S. German Prey!

A representative of a great American arms manufacturer informed me recently that they had been about to abandon their work prior to the beginning of this war because the Germans systematically endeavored to undersell them in every country. It has been the settled policy of Germany to drive all other nations out of the business of manufacturing arms and supplies because of course if this were once substantially accomplished the rest of the world would be completely helpless before Germany; and Germany has made it evident that she knows no such things as international morality and looks upon all other nations, including the United States, merely as possible prey. The Americans who are now striving to prevent the sale of munitions of war to the countries endeavoring to secure redress of their wrongs, that is, the allied powers, are playing the game of a ruthlessly militaristic and anti-American Germany against their own country as well as against the interests of humanity at large. They are profoundly unpatriotic from the standpoint of international morality and looks upon all other nations, including the United States, merely as possible prey. The Americans who are now striving to prevent the sale of munitions of war to the countries endeavoring to secure redress of their wrongs, that is, the allied powers, are playing the game of a ruthlessly militaristic and anti-American Germany against their own country as well as against the interests of humanity.

"Foolish Pacifists."

The foolish professional pacifists who advocate refusing to sell munitions of war to the allies are proposing a course of action as wicked as it is base; and those making such a proposal or approving and advocating action in accordance therewith should be listed on a roll of national dishonor.

The fall flower of treachery to the duties of the United States and to the rights of the nations of mankind is best observed when the professional pacifist and the hyphenated American strike hands on some public occasion. Recently a so-called labor peace conference was held at Washington for the purpose of intimidating public servants by political threats into refusing to allow the export of arms and munitions to the allies. The newspapers reported that one of the officials of a German-American organization announced that "the members of his organization would not enlist in the event of war between the United States and Germany." If this statement is correct the gentleman in question and those for whom he spoke are traitors and in the event of war should be dealt with in summary fashion. The hyphenated American has been shown in actual practice to be loyal only to that part of his title which precedes the hyphen. He is thoroughly disloyal to the "American" part of his hyphenated cognomen, and he must be thus disloyal because of the necessities of the case. The professional German-Americans of this kind ought by rights immediately to be deprived of their United States citizenship. Their place is not here. Their place is in Germany, in the trenches; and the sooner they get thither the better it will be for every thing decent in American citizenship.

SOURCE OF COMETS.

Professor Elis Stromgren, director of the Copenhagen observatory, has carried out, with the aid of J. Braae, an investigation to determine whether comets come originally from interstellar space, as has been commonly supposed, or originate within the solar system. His method of research involves the backward computation of planetary perturbations for eight comets. The conclusion reached is that all comets heretofore observed have originated within the solar system.

HIS REST WAS BROKEN.

O. D. Wright, Rosemont, Neb., writes: "I was bothered with pains in the region of my kidneys. My rest was broken by frequent action of my kidneys. I was advised by my doctor to try Foley Kidney Pills and one 50-cent bottle made a well man of me." They relieve rheumatism and backache. Sold Everywhere.

SIGNS OF SANITY IN BERLIN.

The report from Berlin that bankers and business men are to be consulted by the government before the German answer to the United States is framed must be accepted as a hopeful sign of better understanding between the two countries.

Thus far Germany's American policy has been dictated by two elements—the admiralty and the general staff. The admiralty is Tirpitz, who is responsible for the submarine policy and who in his vanity has resisted every attempt to modify it. The general staff has frankly advanced the opinion that if war with the United States would compel the Washington government to stop the exportation of munitions of war in order to equip an American army then such a war would work to the military advantage of Germany.

The financial and business interests of Germany look much further ahead than the military autocracy. They see that while war with the United States might temporarily interrupt the shipment of munitions to the allies the economic results would be most disastrous to Germany, which must depend upon American loans and the American markets for the rehabilitation of German industry after the war is ended. In this they are right; for if Germany forced the United States into war not a dollar of German loans could

be floated here after peace was re-established, and tariff retaliation would be swift and certain. The economic fate of Germany rests with the United States. This country can destroy Germany industrially and financially, and it will destroy Germany if a military-mad autocracy is permitted to have a free hand in shaping the policy of the Imperial government toward the republic.—New York World.

EGG FED LOBSTERS A SUCCESS.

Scrambled egg fed lobsters will in all probability be the table dainty of the next generation. Thousands of egg fed lobsters have already been liberated in Rhode Island waters, and the success of the state hatchery at Wickford promises to bring a further extension of the work.

Summer visitors to the New England coast were blamed by Deputy Commissioner H. E. Moore of the United States fisheries bureau for the failure of the short lobster law. Secret understandings, he said, between vacationist and fisherman made it possible for the latter to sell his underlength catch without fear of detection. As a more practicable substitute a double gauge measure was recommended. A standard sized ring for lobster pots, it was said, would prevent the capture of lobsters over the specified size.—New Bedford corr. New York Sun.

FOUR LOVERS.

Pearls for a necklace, pearls from out the sea. This was the gerudon that the first gave me;

Pearls that were worth a sultan's ransom, Slaves and temples and the cities of a king.

Singing at my window, singing while I slept, Long was the vigil that the second kept, Of my eyes like morning and my hair like night, And my arms for a girdle of the heart's delight.

Fair was the third one, fairer than the sun, Fairer than an empress could see and not be won;

He clasped my knees and pleaded that love was sweet, And his red lips burned upon my naked feet.

Naught have you given me, nothing have you said, You have not beauty and you have not gold.

Yet my heart shall love you till the world is old, Who shall tell the way the heart is led? —Margaret Widdemer, in the International.

Upper Peninsula

Garbage Incinerator a Success.

According to a table prepared by Mayor Cruise, of Iron Mountain, the municipal garbage incinerating plant is saving the taxpayers the comfortable sum of \$2,701.46 a year. The cost of garbage collection and disposal per year prior to the installation of the incinerator was \$5,961.46. The estimated cost, based on contracts and operation of plant, is \$3,259 a year. Under the old system the average expenditure for a period of four years was: Cleaning alleys, \$1,925.49 and for collecting garbage \$4,035.97. Under the present system the figures are: Contract let June 7th for cleaning alleys and collecting garbage, \$2,160; labor at incinerator, \$900; repairs, coal, etc., at incinerator, \$500.

Lightning Bolt Starts Fire.

During a severe electrical storm a large barn, 80 feet long and 24 feet wide, on the farm of Nels Larson, at Quinnesec, was struck by lightning which got it on fire and completely destroyed it. Along with the building the barn contained 15 tons of hay, a farm wagon, garden tools and other various articles. Mr. Larson only carried \$150 insurance and the loss he sustained is a severe one, his estimate being \$1,000. Soon after the fire started many Quinnesec people hurried to the scene to render all assistance possible. A "bucket brigade" was immediately formed and through its hard work the flames were prevented from reaching the house. The heat was so intense that the paint on the north side of the house was scorched. Mr. Larson is one of the pioneer residents of Quinnesec, having resided there thirty-four years and with the exception of a few years spent in mining there, he has followed the occupation of farming. His farm is about a half mile back of the old Quinnesec mine.

Iron Mountain Students.

Iron Mountain will send a considerable number of students to the various colleges and preparatory schools this fall. The list following includes about thirty members of the last graduating class of the Iron Mountain high school:—Michigan University—Herman Henze, Norman Davidson, Ashley Bang, Grant Laing, John Garvey, Dona Cota, Henry Miller, Norman Miller, Elliott Anderson, Merlin Cudlip, Otto Davidson, George Merlitz, David Sundstrom, Northern Normal School—Sigrid Westberg, Esther Lundren, Esther Lundquist, Gustav Rizzardi, Edith Eck, Ellen Fall, Joseph Martin, Doris Mitehelli, Myrtle Nowatzki, Viola Peters, Eliza Thomas, Henrietta James, Eva V. Martin; Michigan Agricultural College—Neno Dapra, Charles H. Donaldson, John O'Callaghan, Fred Utley, John Scherer; University of Illinois—Howard Randler; University of Valparaiso—Fritthof Carlson; Chicago College of Medicine and Surgery—Gereon Fredrikson; Lawrence University—Edna Parmelee, Annie Rule; Wisconsin State Normal, Oshkosh—Helen Mason, Evelyn Browning, Helen Garvey, Louise Stockly, Gladys Tolman, Julia Tolman; Boston University—Harold C. Cole; Northwestern University—Orville Scandling; Lewis

Institute, Chicago—William Johnson, Roy Anderson, Arthur Nelson, Walter Johnson; Colorado College of Mines—Louis Eisle; Augustana College—Adolph Fant, Esther Fant, Edith Johnson; Cornell University, Ithaca, N. Y.—Fayette Brown; County Normal, Port Huron, Mich.—Esther Weeks; Milwaukee Normal School—Elizabeth Brown; Michigan Normal School, Ypsilanti—Jean Russell, Orea Prenevost.

Petitions Are Posted.

The posting of petitions to the board of supervisors, asking for the submission of the question of local option at the election next April in Delta county, has been completed in each of the voting precincts in the county and the petitions will be filed with the county clerk before the supervisors meet in annual session on the second Monday in October. The number of names necessary in order that the election may be ordered in this county is 1,378. The petitions which will be presented to the supervisors will have about 1,500 names. The circulators of the petitions, says the Escanaba Journal, in Escanaba and Gladstone found more difficulty this year in securing signatures than they did last year—not that there has been any change of sentiment, but because the liquor contingent made it so unpleasant for the signers a year ago that many of them would not sign this year. Great care has been exercised in the circulating, posting and certification of the petitions, and the liquor dealers will have a hard time trying to find technical errors in them. G. A. Young, district superintendent for the State Anti Saloon League, says that the posting of the local option petitions is now completed in Delta, Baraga, Schoolcraft and Luce counties. Mr. Young says that sufficient names have been obtained to the petitions in Menominee county to have the question submitted and the posting of the petitions has been begun.

DRYS TO MEET IN DELTA IN NOVEMBER

Escanaba, and Not Marquette, Will See Launching of Campaign.

Marquette, which it was recently announced would be the place of meeting when the first gun in the fight to make Michigan dry was fired in the upper peninsula, has been given the go-by in favor of Escanaba, and its auditors will not respond to the eloquence of former Congressman Hobson and the other dry orators.

This decision was reached after a canvass of anti-saloon leaders in the upper peninsula, in which the question "Shall the convention be held in Marquette or Escanaba?" was put. Escanaba was chosen by a vote of two to one. The reason therefore is said to be that Delta county will next spring be a scene of a local option contest. It is hoped to give the dry side of this campaign impetus by holding the big meeting there. This consideration was held to offset the advantage of Marquette in being more centrally located.

The Escanaba meeting will be held in November. Among the speakers will be former Congressman Hobson, of Alabama; former Congressman Landis, of Indiana, and Dr. Cairns, one of the most prominent of the anti-saloon workers. Delegations from all parts of the upper peninsula will attend, it is announced.

The meeting is expected to result in the organization of an upper peninsula division of the state body that will work for the success of the prohibition amendment to the constitution that will be submitted in the fall election in 1916. Plans will also be outlined for having the upper peninsula field worked for signers to the petitions asking the submission of the amendment.

Sunday at the Churches

St. Paul's Episcopal.

9:45—Children's service and Sunday school.

11 a. m.—Morning prayer with the following program:

Processional Hymn "Hark the sound of holy voices" Shaddick.

W. H. H. Hall

Hymn "In the hour of trial" S. Lave

Sermon—The Meaning of Temptation.

Anthem—"O taste and see" J. Goss

Recessional hymn "Ten thousand times ten thousand" Dykes

The pastor will preach both morning and evening. There will be no early communion.

First Baptist.

This is Rally Day Sunday at the First Baptist church. This is every-member-present day. Every member of the Sunday school should be promptly with us at 9:45 a. m. Be sure to bring that new pupil. Every member of the church and congregation should be with us at 11 a. m. and 7:30 p. m., for the services of worship. The morning message is on "The Unused Resources of the Church," and the evening theme, "Great Convictions and Small Enthusiasms." Bring your friends to both services. Every member of the B. Y. P. U. should be with us at 6:30. Notice the earlier hour, 6:30 instead of 6:45. The Farther Light society leads the service. The annual meeting of the association is held at Calumet, Sept. 27-29. The mid-week meeting of the church will be held on Thursday evening, 7:30, and will be addressed by Mrs. Elwin Simpson, of Detroit. All are invited.

Presbyterian Church.

Sunday school at 9:45 a. m. Everybody is thinking about Rally Day, which is to be observed soon. The prizes promised a year ago to the scholars presenting the best records for the year will soon be announced. Every person will do well to keep up the effort until the last day because the best record may be determined by the last week of endeavor. Morning worship at 11. At this time the Lord's Supper will be participated in. All members of the church and visiting christians of any evangelical church are invited to this service. Evening worship at 7:30. Sermon theme, "Pen Portraits of Inspiring Individuals, VI Jonathan." An equal welcome to the oldest resident or the newest stranger. Come.

Methodist Episcopal.

The pastor, Rev. Charles J. Johnson, having returned from the recent session of the Detroit annual conference, will occupy the pulpit next Sunday at both services. In the morning the sermon subject will be "The Prophetic Ministry of the Primitive Church." The service will commence at 11 o'clock in the evening, the service commencing at 7:30; the pastor will preach on the subject, "The Sublimity of a Great Conviction." The Sunday school and the adult Bible class will convene at 9:45 a. m. The Epworth league devotional service will be held in the parlors of the church at 6:45. The mid-week prayer service will be held Thursday evening at 7:30. Strangers and visitors are always welcome.

German Lutheran.

English services will be held at 7:30 p. m. The confirmation class will meet Monday at 4 p. m.

First Church of Christ, Scientist.

Services will be held Sunday at 11 o'clock. Subject, "Reality."

Swedish Lutheran.

Morning worship at 10 o'clock, subject of sermon: "The Commandments of God and the Traditions of the Eld-

ers." Sunday school at 11:30. Evening service at 7:30, subject: "The Liberty to which Christ has called." Devotional service and prayer meeting Wednesday evening. The Ladies' society will meet on Friday afternoon at 2:30. The confirmation class meets this morning at 10 o'clock.

Theatrical

Marquette Opera House.

"The Cub," by Thomas Buchanan, will be the feature at the opera house today, in which Martha Hedman plays the leading role. The Payne children will appear in a juvenile, singing and dancing act. Matinee and evening.

Delta Theater.

Francis X. Bushman, voted the world's most popular photoplayer, is presented in "The Battle of Love," a three-act Essanay feature play, by Mrs. Wilson Woodrow. "The Honeymoon Past," a Vitagraph comedy, will also be shown. Two matinees and three evening shows.

Howe Packed the House.

Lyman Howe, premier producer of travel pictures last night took an assemblage that packed the Marquette Opera House on a tour through the Panama canal and on a visit to the San Diego and San Francisco expositions. The canal pictures were sufficiently comprehensive to give an excellent idea of the manner in which the locks are handled and the class of traffic that is passing through them. Various vessels from the sluggish old tramp that looked as if it hadn't had a touch of paint in five years to the crowded and dapper passenger steamer, were shown in passage. There were views of the dredges fighting a hand-to-hand battle in one of the big cuts, the electric locomotives that are used to haul the ships, and the quarters of the soldierly on duty in the canal zone. Each exposition was thoroughly pictured, with photography remarkable for its clearness and some of it for its color values. Other scenic pictures showed the parks of Paris, a rail trip across Norway, and scenes in Holland and Belgium. The program contained other interesting numbers, and the usual offering of wholesome and ingenious fun.

Upper Peninsula

Struck By Automobile.

Peter Nelson of S. M. Johnson Ice Co., Escanaba, was hurt when an automobile driven by A. R. Moore crashed into the bicycle, he was riding and threw him to the pavement. The bicycle was entirely demolished, but the injuries to Mr. Nelson were not sufficient to keep him from his position at the ice plant. The accident occurred on Charlotte street, the wet and slippery pavement being blamed in a measure for the spill.

Barn With Contents Burned.

When a spark from the engine of a threshing machine alighted upon the roof of a big barn at St. Nicholas, on the Beaver creek, Delta county, yesterday afternoon and lay there unnoticed until a fire had secured a big start. Barron brothers, owners of the barn and its contents lost practically everything. The entire structure together with the contents was burned to the ground. Sixty tons of recently cut and stored hay was in the barn. Other articles used in the farming work on the place were also lost. A small amount of insurance was carried, not enough to cover the loss.

To Petition State Commission.

Menominee's oft-repeated plea for a new Chicago and Northwestern passenger station has gone to the Michigan railway commission with a request for action on it. The Menominee Commercial club took off the table, where it has lain for nearly a year, the petition which it was proposed to send to the Michigan commission. With only one of the fourteen directors present at the meeting dissenting, it was voted to send the petition to the rail body. Sixteen of the members of the club proposed taking the petition to the railway commission when it was first brought up a year ago, and the discussion at this time resulted in its being tabled. In the meantime no action had been taken by the railway company toward the desired new station. The Commercial club voted to join in the protest, which towns in this vicinity plan to make before the interstate commerce commission on the freight rate increase granted roads in the central freight territory. The commission, after granting a request for increases ranging from 5 to 25 per cent on commodity freight rates, postponed the date that these rates are to go in effect until Dec. 8. It set Oct. 18 as the date for a hearing on the rates which Menominee and other towns in this vicinity feel are discriminatory.

Walks Not Up to Specifications.

There is not a concrete sidewalk in the city of Menominee that has more than four inches of concrete upon it, which is a simple way of saying that there is not a sidewalk in the city which comes within less than two inches of living up to the specifications. This was the startling information which reached city officials from a contractor who has had many walks himself. The information was the direct result of an investigation started by Mayor M. B. Lloyd. It was the discovery by the mayor that the cement on a sidewalk laid last year in front of his factory was not more than four inches thick that gave the first hint that officials had received that the sidewalk specifications were not being lived up to. The mayor's belief expressed at the council meeting Monday was that the city should employ an inspector to watch the contractors, and see that the specifications were not violated as they had been in the walk he had investigated. Several of the aldermen agreed with the executive that the city should employ an inspector for this work. After some discussion at the meeting the contract for building walks was let to Peterson and Anderson, contractors whose bid of eight and one-half cents for concrete work and 30 cents a yard for filling was considered the lowest of the three submitted. The firm had built walks for the city before. Then the mayor went out to look for an inspector. Then came an intimation from the Peterson and Anderson firm

Millinery Opening Today and Monday September 25th and 27th. All the newest fashions for autumn and winter. SMITH'S MILLINERY THIRD STREET, OPPOSITE POSTOFFICE

NORTHERN STATE NORMAL SCHOOL MARQUETTE, MICHIGAN Fall Term opens September 27, 1915 New Buildings -- New Equipment The Northern State Normal offers a two years' Life Certificate and Diploma Course for graduates of high schools. It offers regular courses leading to the Graded School Certificate and Rural School Certificate. The school also offers courses for training teachers for special work in Kindergarten, Music, Drawing, Nature Study and Domestic Science. It has exceptionally strong corps of instructors who are specialists in their departments, and its training school gives an excellent opportunity for the training of teachers. There is an excellent dormitory in connection, which makes an ideal home for students. It's expenses are moderate. Students who finish the Life Certificate Course are granted fifty-six hours credit at the University of Michigan. For information or catalogue write to DORIS I. BOWRON, Secretary. JAMES H. KAYE, President.

GETTING READY. During the ten years preceding the outbreak of the war, while Great Britain was paying off its debts, Germany and Austria-Hungary between them increased their national debt by the enormous sum of about \$1,500,000,000. See the Velvet Trimmed Hats from \$3.00 to \$5.00 which the Marquette Millinery Co. is showing. 9-25-21

Official's Action Called Arbitrary. The Escanaba W. C. T. U. officials had a quantity of anti-saloon literature printed, with the intention of having it circulated on the fair grounds. Wednesday boys began circulating the leaflets, and they were ordered not to do so. The boys reported to the officers of the W. C. T. U., and the ladies appealed to Prosecuting Attorney Rushton. Mr. Rushton, says the Escanaba Journal, told them to tell the boys to go ahead with the distribution. The boys resumed and they were again stopped. It is claimed that President T. E. Strom threatened the boys with arrest if they did not stop circulating the leaflets. Prosecutor Rushton yesterday said: "The boys had a perfect right to distribute the leaflets at the fair grounds, and if any overzealous officer had arrested any of the boys I would have ordered their immediate discharge. It was a very poorly considered, arbitrary action to stop the circulation of the anti-saloon literature. The liquor dealers and breweries circulated their literature from their booths one year ago, and there was not a word of objection or the fair officers. I believe that either side of the liquor question had a perfect right to circulate any of its literature." The ladies feel considerably incensed because of the action of the fair officials last week, and they think that back of it lies the fact that President T. E. Strom is attorney for the Richter Brewing Co.

SUDDEN MUSCULAR ACHES AND PAINS—NEED NOT BE! That is—if you use the right remedy. Sloan's Liniment is a real necessity in every home—for young and old. Its merit is praised in dozens of letters. A stiff neck from colds, children's sprains, those aching muscles, that sharp neuralgia pain—these find guaranteed relief in Sloan's Liniment. Every home meets with sudden aches and accidents. Your home needs a bottle. 25c, 50c, and \$1.

Toledo, O. Sample cars of the above are now on exhibition in our sales rooms, 124 Washington street. Asire & Palmer Marquette, Mich.

FARMERS ARE SEVERELY HIT

After Trip Through Marquette and Alger County H. J. Koepf Says That Half Crops Is the Best They Can Do, and They May Fare Worse Than That.

Unfavorable Weather Is Now Preventing Harvesting of Grain and the Continued Rain Threatens Even Those Potato Fields That Promise Good Yields.

H. J. Koepf, deputy game warden, and who has had years of experience in practical farming in Marquette county, yesterday said, on the close of a trip to all parts of Marquette and Alger counties, that the condition of the crops this year is far the worst it has been in any season in his knowledge in the district. The plight of many of the farmers is, he says, one to occasion real concern, and some of them will have a difficult time getting through the winter.

"I regard it as conservative to say that as things stand in many of these counties will not have more than 50 per cent of their usual crops for sale or exchange, and if the unfavorable weather that has prevailed of late continues much longer they will hardly have 25 per cent. Conditions could hardly be worse, and most of the farmers are sadly discouraged. This is a new country and one in which until recently the farmer was given little assistance. As a result, most of them live on from one year to another, dependent almost entirely on each season's crops. A poor crop year is a great hardship to them. One when there is hardly any crops at all, as this year, is little less than a calamity.

"A trip through the farming districts just now shows grain that is ripe, but cannot be cut because of unfavorable weather, other grain that is in shock, but that cannot be threshed because it is wet and an almost uniformly bad condition of the potato crop. Much of the grain was blown down by the hard wind and rain storms in the early fall, and now the clover is finding its way through it. Grain that should have been cut and threshed several days ago is being softened by the rain and by the time it is dry so much of it will have fallen out of the heads that it will hardly pay to thresh the crop.

"In the districts back from the lake the frosts played havoc with the potatoes, and many fields were entirely killed. Within ten miles back from the lake this crop fared much better, particularly where the planting was done on high grounds, and in some cases there will be excellent yields. But now there is danger that even the good fields will suffer through the continued wet weather. The ground is soggy in all directions and unless the planting was done on high grounds, the potatoes will be ruined. Unless they get it they will have no more than 25 per cent of the usual value in the stuff they are able to get in."

Birds Are Scarce.
Mr. Koepf made the trip through Marquette and Alger counties with Deputy Andrews, of Iron Mountain, and they visited many places that are but rarely reached by the officers. As a result of their work, they successfully prosecuted several violators of the game laws.

Portrait of Harvey.
Will Be Received from His Widow for Peter White Library.
Mayor Begole has received a letter from Mrs. Susan Van Epps Harvey, who now lives at Hastings on the Hudson, N. Y., informing him of the shipment of a portrait of the late Charles Thompson Harvey, which will be displayed in the portrait room of the Peter White Public Library. During the past few years several portraits of men prominent in Marquette affairs in the decade 1850-60 have been secured for this room, and the trustees hope to secure others. Among those now hung are portraits of Peter White, S. P. Ely, A. R. Harlow, Sidney Adams, P. M. Everett and James Stiles.

"FINALE."
To the Mining Journal: In answer to Mr. Mersereau's letter of yesterday, I wish to say that from the many remarks of approval expressed to me in the last few days, I am fully convinced that my viewpoint, in the Ross-Jim Pendill-Mersereau-Mayor Pro Tem Egyptian Mythology discussion, is clearly understood by the public in general and I am satisfied. Furthermore, I write nothing for publication. I cannot prove, and its small matter to me what Mr. Mersereau believes or does not believe.

SCHOOLS MAY BAR CHILDREN.
Common colds are contagious and boards of health in many cities are considering barring children with colds from school. Foley's Honey and Tar is an old and reliable family medicine and frees children from coughs, colds, croup and whooping cough. Parents may save trouble by giving before school opens. Sold Everywhere.

The Savoy

the center of spirited interest in our fall opening exhibit of men's wear.

TOWNE TOGS stand for all that is smartest in ready-to-wear for young men. The Savoy is only one of the many distinctive models we show in Towne Togs — and the patterns and fabrics are as distinctive as the models.

ARCHAMBEAU A SPEAKER.

Has Place on Program of United National Clothiers' Convention.

A. E. Archambeau, the Marquette member of the United National Clothiers, has a place on the program of the third semi-annual buying convention, announced for Chicago for Oct. 4, 5, 6, 7, 8 and 9. At the session at the Hotel Sherman on Tuesday, the 5th, he will discuss "Co-Operation or Elimination; Which?" and at the banquet of the convention that evening he will act as master of ceremonies.

The organization has been making rapid progress since it was formed less than two years ago, and it now includes several upper peninsula clothiers, in addition to Mr. Archambeau. As yet it is a buying organization, pure and simple, which seeks to gain for its members the advantage enjoyed by the large stores and the chain stores, but it is possible that it will be developed on the lines of the Rexall corporation, and in time enter the manufacturing field. Mr. Archambeau has been active in its affairs for the past several months.

RECALL ELECTION AT MUNISING ON OCT. 19

Dr. George A. Trueman Will Be Candidate Against Thomas G. Sullivan.

October 19 there will be a recall election in Munising in which Thomas G. Sullivan, the mayor elected in January, when commission government became effective in the town, will again have to go before the voters. The candidate in opposition to him will be Dr. A. Trueman.

Plans for the recall of Mayor Sullivan were made in the late summer, when it was announced that the election would be held on the date of the regular charter election in Munising, the first week in September, but it was found that the petitions were defective.

The September election resulted in the defeat of Commissioner Johnson, an "administration" man, who was elected with Mayor Sullivan in January, a fact which has greatly encouraged Mayor Sullivan's opponents. New petitions have been secured adequate, the campaign has already been started, and it is expected to be perhaps the hottest that has ever been waged in Munising. Mayor Sullivan has been identified with the wet faction in the county, and was one of the leading opponents of the movement to make Alger county dry. Dr. Trueman has long been prominent in political and business affairs in the village.

The charges preferred against Mayor Sullivan are substantially the same as were contained in the first petitions. He is alleged to have made appointments of incompetent men and to have refused to enforce the liquor laws and those relating to gambling.

Case of Wilson.
Regarding the charge made in the new recall petitions against George Wilson the Munising News quotes from the official records of a meeting of the Alger county board of supervisors held March 7, 1907:

lowing resolution and moved its adoption: "Whereas, From an examination of the books and records in the office of the county treasurer of Alger county, it appears that George Wilson, late county treasurer, on account of moneys collected by him as such treasurer, is indebted to said county in the sum of \$1,449.97, no part of which sum has been paid by him to his successor. "And, Whereas, it appears that demand has been duly made upon said Wilson for said money, and that he has failed to pay the same to his successor. "And, Whereas, It appears that said Wilson, at the time of entering upon the duties of his office as such treasurer, gave bond for the faithful discharge of the duty as such treasurer with the Fidelity and Deposit company of Maryland, as surety. "Now, Therefore, Resolved, that a demand be made upon said Bonding company for the payment of said sum of money as aforesaid, and that the prosecuting attorney of this county be requested to send a certified copy of this

resolution to said Bonding company and to demand the payment from said company of said sum of Fourteen Hundred and Forty-Six and 7/100 dollars. "Which resolution was supported by Supervisor Lohb and carried by the following vote: Ayes—Akkala, Leighton, Lohb, McMillan, Swanson, Walkup and Wyman. "Nays—None."

INSURE WITH PETER WHITE & CO.

SOO CANAL PASSAGES.

Sault Ste. Marie, Mich., Sept. 24.— [Special.]—Upbound vessels passing the canal the last twenty-four hours were: McDougal, Thomas, 7, last night; Andrews, 7:30; Selwood, (small) Samuel Mather, 8; Howard, Hanna, Tomlinson, 9; William Mather, 1 a. m.; Phipps, 7:30; Corey, 9; John Donaldson, 9:30; James Donaldson, Dayton, Wright, 10;
