

BILLION FOR DEFENSES BULGAR PORT IN PERIL

WILSON'S PLANS ARE TO QUADRUPLE ARMY AND DOUBLE NAVY

President Will Lay Before People of the United States, in Address at New York Nov. 4, His Program for Preparing America to Protect Itself in Case of Attack-- Policy Includes Erection of New and More Powerful Fortifications at New York, Chesapeake Bay, San Francisco and Other Great Harbors--Would Throw Line of Submarines Around Entire Land.

Washington, Oct. 18.—A national defense program that probably means an expenditure of a billion dollars in the next six years will be laid before the people by President Wilson Nov. 4 when he goes to New York to make his first public address since the scope of the policy upon which his administration has embarked became known. He will speak on national defense and the reasons which have impelled him to approve plans to about double the navy and quadruple the trained fighting forces ashore within a few years.

New York, San Francisco and other great harbors from attack. Gigantic sixteen-inch rifles will be mounted in all these defenses of the first class where enemy craft with modern guns would be dangerous from a great distance. Another expenditure contemplated is for fitting the present twelve and fourteen-inch rifles with carriages that will give them greater range. Much has been accomplished in that way and the work will be carried on until every fort is modernized.

Washington, Oct. 18.—The \$68,000,000 increase to be asked for the navy next year the bulk would go into four big ships, two superdreadnoughts and two battle cruisers. They would be the first of the sixteen capital ships to be laid down within five years under the administration program, the last of which would not be in commission until 1925.

Of the \$68,000,000 increase to be asked for the navy next year the bulk would go into four big ships, two superdreadnoughts and two battle cruisers. They would be the first of the sixteen capital ships to be laid down within five years under the administration program, the last of which would not be in commission until 1925.

Washington, Oct. 18.—The alleged unlawful methods by which the New York, New Haven & Hartford railroad company is charged with having secured a monopolistic grip on the transportation traffic of New England were set forth to the jury today by Robert L. Batts, government counsel, in opening the case for the government at the trial of William Rockefeller, Louis Cass Ledyard, Edward D. Robbins and eight other past and present directors of the road for alleged conspiracy to violate the Sherman law.

Suits to force the foreclosure of competing railroads, secret acquisitions of stock, the incorporation of dummy companies for the sole purpose of concealing ownership of rail and steamship lines taken over, fictitious sales of securities in order to deceive the authorities of Massachusetts as to their actual ownership, the use of money to obtain control of a Boston newspaper and for favorable legislation, the sacrifice of millions of dollars of stockholders' money in acquiring competing properties, the burning of books and the transfer of records to Canada beyond the jurisdiction of the federal authorities—these were some of the acts alleged by the federal attorney as having been committed by the New Haven directors "with criminal intent and with full knowledge that they were unlawful."

According to plans laid out by experts of the navy and war departments these expenditures would produce by 1925 a first line of dreadnoughts and battle cruisers numbering forty-three; a fleet of coast defense submarines that would fringe the Atlantic and Pacific coasts with an almost solid line of defense against attack; a fleet of nearly 175 destroyers and squadrons of huge sea-going fleet submarines to operate with the battle squadrons at a great distance from shore.

Mr. Batts emphasized in his address that had the New Haven combination been attained in the natural and legitimate growth of business it might not necessarily have come within the scope of monopolistic corporations which the Sherman law was intended to reach. But the law was designed not only to protect the public from the destruction of healthful competition but to protect the stockholders and the railroads themselves from becoming the victims of unfair methods. It was the method used by the New Haven bringing about a situation "where every person doing business in New England was at the mercy of a powerful combination" that the Sherman law was intended to punish he said.

Neither war nor navy department estimates for the coming year have been as yet made public in detail. It was learned today, however, that of the \$72,000,000 increase over last year's bill to be asked by the war department, \$46,000,000 would go toward reserve material and coast defense work, the remaining \$26,000,000 to be used in building up the new armies, regular and continental. Part of this \$46,000,000 would go into building and arming the new forts which will guard the entrance to Chesapeake bay.

St. Louis, Oct. 18.—The first important government suit under the Clayton anti-trust act was begun here today by Attorney General Gregory against the United Shoe Machinery company. The petition filed in the federal district court charges the shoe company with unlawful practices that substantially lessen com-

petition and tend to monopolize. Temporary and permanent injunctions are sought.

SUFFRAGETTES ONELECTION EVE TALK ALL NIGHT

Newark, N. J., Oct. 18.—The vigor of the hot campaign waged by women workers for suffrage rose to its highest pitch tonight, election eve, in every section of New Jersey. All day the yellow banners of the suffrage associations and the green, white and purple of the Woman's Political Union fluttered from hundreds of automobiles from Cape May to the New York line and tonight there were few communities in the state, even of the smallest, where the voices of feminine orators were not lifted in the streets for the cause.

CARSON QUILTS; BALKAN POLICY THOUGHT CAUSE

London, Oct. 18, 10:40 p. m.—Sir Edward Carson, attorney general, has resigned from the British cabinet. The resignation of Sir Edward Carson, the first open manifestation of the divergence of views known to exist among the ministers, is the result, according to an authoritative statement, not of the controversy over conscription but the condition of affairs in the Near East.

MAN HELD IN BRITAIN AS A GERMAN SPY IS WANTED IN AMERICA

New York, Oct. 18.—Franz Rintelen, now held in a military detention camp in England as an alleged spy for the German army, was indicted in the United States district court today on a charge of engaging with Edward Meloy in a conspiracy to defraud the government in attempting fraudulently to obtain a passport.

BRITISH CHURCH HEAD BARS TABLET CALLING GERMANS "MURDERERS"

London, Oct. 18, 9 p. m.—The wall of a church is not an appropriate place to perpetrate hatred, was the reason given by Sir Philip Wilbraham, chancellor of the diocese of Chester, in refusing to permit a Lusitania memorial tablet in a church to bear the inscription "who was murdered on the Lusitania by the Germans." The word "murdered," Sir Philip said, would have to be taken out of the tablet. He argued that the inscription should read: "Who lost his life when the Lusitania was torpedoed by the Germans." This was agreed to.

NAME NEW MAN TO LEAD ALLIES IN DARDANELLES

London, Oct. 19, 12:10 p. m.—Major General Charles Carmichael Mouro has been appointed to command the Dardanelles expedition in succession to General Sir Ian Hamilton, who is returning to England to make a report. This announcement is made by the war office.

NOTHING DEFINITELY KNOWN

In reply, Lord Lansdowne said it was impossible for any member of the government to give an assurance that the troops would be continued in the Dardanelles operations or withdrawn from them.

DEDEAGHATCH IS THREATENED

On the other hand, it is pointed out the capture of Strumitza is of real strategic value, as its occupation permits the defense of the southern end of the railway and compels the Bulgarians to keep a force there. Enos, too, is of value, as, although not a good landing place, its occupation threatens Dedeaghat, which has a great harbor and is fortified and mined. The civilian population already has left Dedeaghat, which is entirely in the hands of the military, under German officers.

TO ABANDON DARDANELLES?

Berlin, by Wireless to Tuckerton, N. J., Oct. 18.—A special dispatch to the National Zeitung "from the Russian border" says: "Your correspondent learns from a well-informed source that the abandonment of the Dardanelles campaign by France and Great Britain already has been decided upon. Russian circles interested in this matter have been informed that the allies will not suspend operations on the Gallipoli peninsula all at once, but will gradually withdraw troops from there."

VOGEL'S MINSTRELS TONIGHT. "Japland," the Season's Newest Offering, at Ishpeming Theatre.

"Japland," one of the largest traveling organizations, employing the services of John W. Vogel's Big Minstrels and a complete cast for opera, a girl chorus, concert band and double symphony orchestra, will be seen at the Ishpeming theater this evening.

The book deals with the world's tour of a famous grand opera company which encounters opposition at Tokio with an American minstrel. An informal reception in their honor is held in the tea garden of the Mikado, the band and orchestra of Vogel's Big Minstrels furnishing the music for the occasion.

A grand double performance in the form of an out-of-doors Cabaret is the result of the meeting the artists of both combinations endeavoring to outdo the other that the Mikado and his suite being entertained in royal American fashion.

The minstrels give their first part in costume, and the operatic contingent sing selections from the many compositions in their vast repertoire, the numbers including a duet from "Pinafore," trio from "Lolanthie," the Swan Song from "Lohengrin," "Three Little Maids from 'The Mikado' and the Sextette from "Lacin."

The specialties from the minstrel olio prevent monotony and the beautiful girl chorus lures the hearts of the Japanese onlookers with captivating fangoing gyrations and pretty songs. The play is in two acts and fourteen scenes—all

carried by the company—and is pictorially, as well as for gorgeous costuming, a spectacle entirely worth while.
