

BRITAIN WAITS ANXIOUSLY FOR OFFICIAL NEWS

WANTS HALF BILLION FOR THE NAVY ALONE IN NEXT FIVE YEARS

Secretary Daniels Makes Known Official Estimate in National Defense Program, Revealing Construction It Is Hoped to Have Accomplished--Will Recommend to Congress an Addition of 11,500 Men to Man Increased Fighting Craft--Intentions Are to Spend \$6,000,000 on Aviation Branch, and Arrange Special Service So Civilian Airmen Could Join.

Washington, Oct. 19.—Official estimates of the navy's part in the administration's billion dollar national defense program were made public tonight by Secretary Daniels. They show that within five years it is proposed to spend \$502,482,214 on construction of new ships, development of aircraft and creation of a huge reserve of ammunition and guns for the navy.

The five-year building program contemplates construction of ten dreadnoughts, six battle cruisers, ten scout cruisers, fifty destroyers, fifteen sea-going submarines, eighty-five defense submarines, four gunboats, one hospital ship, two ammunition ships, two fuel oil ships and one repair ship. The last of these vessels will be built and in commission late in 1924.

On naval aviation it is proposed to expend \$6,000,000 during the five years, and on the reserve munitions \$25,000,000. These figures, with the addition of \$48,518,427 for completion of ships already

MELLEN TO TELL OF NEW HAVEN ON STAND TODAY

New York, Oct. 19.—Charles S. Mellen, former president of the New York, New Haven & Hartford Railroad company, will take the stand tomorrow as a witness for the government in the trial of William Rockefeller, Lewis Cass Leary, Edward D. Robbins and eight other defendants charged as directors of the road, with monopolizing transportation traffic of New England by unlawful methods.

Through Mr. Mellen the government expects to prove a large majority of the alleged unlawful acts committed by the New Haven directors, which Robert L. Batts, attorney for the government, has for two days been describing to the jury. Mr. Batts completed his address today, the longest of its kind in the history of the federal court in this district.

The former president of the New Haven, whose testimony before the federal grand jury and the interstate commerce commission gained him immunity in the case, is prepared without reserve, the government attorneys believe, to disclose publicly for the first time the full story of the numerous transactions by which the alleged monopoly was effected, insofar as they come to his knowledge.

The recital of Mr. Mellen's own activities in New Haven affairs virtually formed the wisp and wisp of Mr. Batts' address. He was mentioned today as having gone to President Roosevelt in 1907 to learn whether there would be any federal activity against the New Haven in connection with its ownership of steamship lines, and of having fruitlessly advised the New Haven directors to sell them to Charles W. Morse rather than risk the chance of their being declared unlawfully held.

Clickasha, Okla., Oct. 19.—Seven persons were killed today and a score of passengers injured when Rock Island passenger train No. 11 collided head on near here with a freight train. None of the passengers were hurt fatally, according to physicians. Of the dead three were train men.

TODAY'S WEATHER. Washington, Oct. 19.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy Wednesday; probably rain in western portion; Thursday, fair.

EXPECT DATE SOON FOR WILSON-GALT WEDDING; MAY BE IN HOLIDAYS

Washington, Oct. 19.—Announcement of the date of the wedding of President Wilson and Mrs. Norman Galt is expected this week. The president and Mrs. Galt are understood to have about reached a decision. It is said to be probable that the wedding will take place during the Christmas holidays, though it may be earlier. Miss Margaret Wilson, the president's only unmarried daughter, who finished a short concert tour in Cleveland, O., today, will arrive at the White House tomorrow or Thursday. Soon afterward the first of a series of musicales to be given by her will be held at the White House.

BOY MOTOR CAR THIEF KILLS POLICEMAN WHO CAME TO ARREST HIM

Los Angeles, Calif., Oct. 19.—The outlying foothills, cheap lodging houses within the city and the haunts of graduates of a nearby reformatory were being searched or watched tonight for Harry Duncan, who shot and killed Police Sergeant J. S. Toole, a son-in-law of Congressman Martin B. Madden, of Chicago, at the Duncan home early today. Toole, who had previously arrested three boys who confessed to a motor car theft, went to Duncan's home to arrest him as an associate. The young man rose from his bed while Toole and another police officer talked to his mother, and fired a pistol from the head of the stairs.

BANK ROBBERS ESCAPE IN AUTO WITH \$2,500

Seattle, Wash., Oct. 19.—Two men robbed the Citizens' bank of Renton, six miles from here today and escaped with about \$2,500 in currency. They fled toward Seattle in an automobile, shooting as they went.

TEN MEXICANS FORFEIT LIVES; WRECKED TRAIN

Brownsville, Tex., Oct. 19.—Ten Mexicans today paid with their lives for alleged complicity in last night's wrecking of a St. Louis, Brownsville & Mexico passenger train on the outskirts of Brownsville, the killing of three Americans and the wounding of four others. Peace officers said tonight they had clues to other Mexicans connected with the wrecking. No secret was made that more would be killed if civilian possess catch them.

The first Mexican killed was an unidentified young man, a passenger on the wrecked train, who was accused of revealing the hiding place of Dr. E. S. McCain, deputy state health officer here, who took refuge in the lavatory of the car when the bandits began firing.

TEN MEXICANS KILLED.

Sheriff W. T. Vann, of Brownsville, denied reports of this Mexican's death, but tonight it developed that possess killed the man after Sheriff Vann left the scene of the wreck. Only the bare facts of the killing of other Mexicans today were obtainable as the possess were careful not to give out details. The second Mexican killed was alleged to be a "partner" of the young man on the train. Four Mexicans were hanged to trees at various points and four others were shot.

Probably 1,500 cavalrymen and infantry today joined in searching for traces of the bandits for a distance of thirty miles up the American side of the river. Hundreds of civilians, led by scores of deputies, joined in.

Civil and military authorities today did not agree on whether any of the bandits in the robbery had crossed from the Mexican side of the river. Military officers believed the raid was made up from the American side.

PEOPLE GREATLY ANGERED.

The death of Dr. McCain late today was the third to result from the wreck. As deputy state health officer here he was widely known and his death aggravated the feeling among Americans more than any previous incident in the three months of border disturbances. Dr. McCain was shot in the abdomen when the bandits learned he had taken refuge in the car lavatory and fired through the door. Harry J. Wallis, prominent in Texas politics, was wounded slightly at the same time. The four injured, three of them by bullet wounds and the fourth by scalds when the train was wrecked by a removed rail, were said tonight to be on the way to recovery.

OFFICIAL ARMY REPORT.

San Antonio, Tex., Oct. 19.—Twenty bandits were engaged in the attack on the passenger train near Brownsville and a dynamite bomb was found unused where they burned a railroad bridge, it was revealed tonight in the official report of the incident as received

POWDER BLAST KILLS 14 MEN IN BUTTE MINE

Five Hundred Pounds of Giant Explosive Blows Up, Wrecking Surface Buildings at Granite Works, Instantly Killing Fourteen Men, and Injuring Eight.

Bodies of Many of the Dead Are Picked Up in Fragments—Five of Victims Were Waiting Near Powder Car at Time—Cause of Accident Not Known

Butte, Mont., Oct. 19.—Fourteen men were killed at the Granite Mountain mine of the North Butte Mining company at 1:30 o'clock today by the explosion of 500 pounds of giant powder. Eight other men, working on the surface, were seriously injured. One of them, Edward Bray, a shift boss, probably will die. The bodies recovered and identified are:

- JAMES A. BLOW, assistant foreman. J. D. LEAHY, nipper. JOHN MCAULEY, rope man. JOHN WINSTON, shift boss. LAUCEY GRISHAM, shift boss. ERNEST WATSON, shift boss. R. L. WATSON, sampler. RICHARD GENDLE, electrician. ED CARLSON, top car man. PAT MORRISSEY, shift boss. WILLIAM BENTON, electrician. WILLIAM BUTCHER. JAMES POWERS.

WERE LOWERING POWDER.

Three men were engaged early this afternoon in lowering powder to the 2,800-foot level. One car containing about 500 pounds of giant powder was at the collar of the shaft waiting to be lowered after which a number of bosses and miners were to go below. Five of the men were waiting in the "dog house," a small room near the shaft, when suddenly the explosion occurred. John Davey, the only one of the three at the surface to survive the explosion, left the car to get a timber 100 feet back from the shaft. He was thrown to the ground by the explosion, but was not badly hurt.

MANY BODIES IN FRAGMENTS.

The blast swept away the frame structure in which the men were waiting at the shaft, together with the air shaft beside the steel gallow's frame. Two painters were at work on this air shaft at the time of the explosion. Neither was killed, but both were injured. Many of the bodies were in fragments.

John D. Pope, general manager of the North Butte company, said tonight that he had no theory as to the cause of the explosion.

"To the best of my knowledge," said Mr. Pope, "no one was at the car of powder when it exploded. There were between ten and twelve boxes of powder in the car when it went off. If there were ten boxes that means that there were 500 pounds of giant powder."

at Fort Sam Houston by Major General Frederick Funston and forwarded by him to Washington. The report follows:

"Passenger train due Brownsville at 10:50 o'clock last night was derailed at a point seven miles north of Brownsville by having a rail loosened attaching a wire to it and jerking rail away just in front of engine. Engine, caboose, baggage and mail and express cars derailed; passenger coaches on train.

BANDITS FIRED ON COACHES.

"As soon as engine and cars left the track a band of about twenty bandits opened fire on coaches, killing Corporal McBee, Troop E, Third cavalry; mortally wounding Dr. E. S. McCain, deputy state health officer at Brownsville, who died this morning; also wounding Corporal Laymon, Troop D, Third cavalry, seriously wounding a civilian named Wallis. Engineer was killed when engine left track and conductor and several passengers were badly bruised but not seriously hurt.

"One hundred and twenty feet of railway bridge near scene was burned after complete preparation. Dynamite bomb found on spot but none used. After considerable firing on coaches bandits went through train and robbed passengers. Troops, both cavalry and infantry, rushed to spot as soon as practicable and are now scouring country."

GERMANS AFTER SPIES IN BELGIUM, IMPOSING SEVEREST OF PENALTIES

London, Oct. 20, 2:57 a. m.—Recently there has been a sweeping roundup of spies and suspects of various kinds by the German authorities in Belgium, according to messages from the Dutch frontier. It is said there have been hundreds of arrests and scores of executions. The roundup followed the beginning of the Anglo-French activity on the western front.

General von Bissing issued a long proclamation containing references to "attempts by Belgians to endanger the safety of the German army," and threatening penalties of the utmost severity against any person detected committing offenses against the specially devised code of regulations for the conduct of civilians.

MORAN EARNS RIGHT TO FIGHT WILLARD FOR CHAMPIONSHIP

New York, Oct. 19.—Frank Moran, of Pittsburgh, knocked out Jim Coffey, the Dublin giant, in the third round of a ten-round match here tonight. A right cross to the jaw in the third round sent Coffey to the floor for a count of five. Apparently helpless, Coffey scrambled to his feet and held on to the ropes. Moran rushed at him and struck him again. The referee then stepped between the men, giving Moran the credit of a technical knockout. Moran weighed 200 pounds, Coffey 201.

The Pittsburgh boxer owed his victory to his superior ring generalship. Coffey was the aggressor at the beginning of the bout, but Moran, conserving his strength, waited for the opportune moment.

By his victory, Moran earned the right to meet Jess Willard, the present holder of the world's championship. It was announced before the fight that Willard would meet the victor.

SUFFRAGE FAILS IN NEW JERSEY; VOTE DECISIVE

Jersey City, N. J., Oct. 19.—The defeat of woman suffrage in New Jersey was conceded at 10:20 o'clock tonight by Mrs. E. S. Feickel, president of the New Jersey State Woman Suffrage association. Her admission was borne out by unofficial early returns from every section of the state, which indicated that the majority against suffrage was decisive.

Four hundred and ninety-four of the state's 1,891 voting precincts gave a majority of 12,514 against adoption of the constitution amendment to enfranchise women, according to the returns.

President Wilson's own precinct, the seventh election district of Princeton borough, voted against suffrage by a majority of more than two to one, the figures being: 464 against 150.

VOTE IS TWO TO ONE.

In some sections of the state early returns indicated that the vote against suffrage was more than two to one.

Where suffrage triumphed the unofficial returns showed the majorities to be small.

Returns came in much more rapidly than had been anticipated. The tide was all one way—against woman suffrage. Leaders at the headquarters of the suffrage association here realized early in the evening that only a landslide in the rural sections could save the day for them. Late returns showed that instead of the hoped for landslide the country communities had, in many cases, voted against the amendment.

FIRST SUFFRAGE VOTE A PRESIDENT HAS CAST

Mr. Wilson's Ballot Favored Enfranchising Women—Is Met by Cheering Crowds.

Washington, Oct. 19.—President Wilson returned to Washington tonight from Princeton after casting the first ballot ever given by a chief executive of the United States in favor of woman suffrage.

The president's brief visit to his legal residence was marked by a more enthusiastic welcome from the Princeton students than ever before had been given him on any of his numerous trips. The young men gave noisy evidences of their approval of his stand on the suffrage question. Cheering, singing, whistling and marching in close formation, they greeted the former head of their university uproariously and hundreds of them remained near him from the time he arrived until his departure.

Woman suffrage workers were not much in evidence during the president's visit and only two approached him to thank him for voting for their cause.

President Works on Train.

The president put in a hard day's work going and coming from Princeton. He spent several hours on the train with his stenographer dictating answers to letters. He also worked on the note to Great Britain regarding interference with American trade which was sent to him from the state department some time ago.

BALKANS, ENLISTMENT AND THE DARDANELLES CAUSE OF UNEASINESS

Illness of Premier Asquith and Delicacy of Negotiations Among Allies Prevent House of Commons from Throwing Light on Operations in the Near East—General Munro's Dispatch to Turkish Straits Leads to Hope of More Determined Attack—Voluntary Service in Army Receiving Its Last Trial, Failure Meaning Conscription It Is Thought.

Paris, Oct. 19, 9:35 p. m.—An Italian squadron has left for the Near East under sealed orders, supposedly to participate in the blockade of the Bulgarian coast, according to a Brindisi dispatch received here this evening, but which had been delayed in transmission.

London, Oct. 19, 9:45 p. m.—Owing to the illness of Premier Asquith and the delicate negotiations which are proceeding between the allies, the enlightenment which today's meeting of the house of commons was expected to throw on the Balkan operations, over which Sir Edward Carson is believed to have resigned from the cabinet, and on the substitution of Major General Munro for General Sir Ian Hamilton to command in the Dardanelles, was not forthcoming.

There were more than a hundred questions in the house on the orders of the day, dealing chiefly with near eastern affairs, the Dardanelles and the methods of raising necessary men for the army, and while the ministers answered many of them in no case was the information which the public was anxiously awaiting supplied.

VOLUNTARY SYSTEM'S LAST TRIAL

It is generally agreed, however, that for the moment at least the controversy over recruiting has been silenced, for the conscriptionists, or a majority of them, have decided to give Lord Derby's new scheme a fair trial and to assist him in every way to get the men to increase the size of and fill the gaps in the army. It is understood that the voluntary system is receiving its last trial and despite the opposition throughout the country those favoring national service for all will endeavor to force its adoption should Lord Derby fail in his efforts.

So far as the Dardanelles and the Balkans are concerned a good deal of the pessimism which reigned a week ago has disappeared. It is believed that instead of any idea existing of abandoning the attempt to open the straits and sea route to Constantinople, the appointment of General Munro means a more strenuous effort and that when the right moment comes the Italian navy, if not the Italian troops, will co-operate.

It is known that the forces on Gallipoli have not been weakened for the Balkan campaign and while the task is difficult the majority of the British public are confident that it will ultimately be accomplished.

SERBS FALL BACK FARTHER.

In the Balkans the Austro-German and Bulgarian armies continue to claim progress against the Serbians, but, except in the north, where the Serbs are being forced back into the mountains, the various reports do not go far toward clarifying the situation.

The Bulgarians have cut the railway between Uskup and Nish, so it is likely that except in the extreme south, where they have the support of the Anglo-French troops landed at Saloniki, the Serbs are falling back to stronger natural positions. Istip and Kotechana, it is said, have already been evacuated.

Italy, which, singularly enough, is still technically at peace with Germany, has declared war on Bulgaria and Russia is expected to follow her example almost immediately. When this formality is completed it is possible that the action which Italy and Russia intend to take in the Balkans will be defined.

ALLIES TALK TO GREECE.

The allies also have made a new diplomatic move with respect to Greece, the British and Russian ministers having delivered a note to Athens explaining that the allies do not agree with the Greek government's interpretation of the

CARRANZA GIVEN RECOGNITION AS MEXICO'S CHIEF

Washington, Oct. 19.—Venustiano Carranza was formally recognized today as the chief executive of the republic of Mexico by the governments of the United States, Brazil, Chile, Argentina, Bolivia, Uruguay, and Guatemala.

Diplomatic representatives of the first six Latin-American countries, selected in the order of their rank here, were parties to the Pan-American conference on Mexican affairs, but the action of Colombia and Nicaragua indicates that all the other republics of the western hemisphere will follow the lead of their sister nations in extending recognition.

U. S. TO SEND AMBASSADOR.

Each of the governments sent a letter to Eliseo Arredondo, personal representative here of Carranza. All were couched in the same form, and that of the United States added a formal expression of an intention soon to accredit an ambassador to Mexico.

Henry Prather Fletcher, at present American ambassador to Chile, practically has been decided upon as the next ambassador to Mexico. Although a Republican in politics he was elevated from the rank of minister to ambassador after a long and successful record in the diplomatic service.

CARRANZA TOURING REPUBLIC.

Laredo, Tex., Oct. 19.—General Venustiano Carranza, head of the de facto government in Mexico, will visit the Mexican border at Piedras Negras and Nuevo Laredo within the next week or two, it was said in advices received in the latter town tonight from Torreón, where General Carranza arrived today on his trip of inspection through the northern states of the republic.

SUBMARINE TORPEDOES FOUR GERMAN STEAMERS

Stockholm, via London, Oct. 19, 8:10 p. m.—Four German steamers, the Pernambuco, Soederhamn, Johannes-Russ and Dalalven, have been torpedoed in the Baltic sea off Oseloosund, to the south of Stockholm by a British submarine. The Pernambuco and Dalalven were sunk but the Soederhamn and Johannes-Russ are still afloat. The crews of all the steamers were saved.

THE DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY
The Mining Journal Company, Limited.

Issued daily except on Sundays. Contains Associated Press dispatches, and is especially devoted to the Upper Peninsula interests.

Per year, by mail.....\$6.00 Per month, by carrier..... 60

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

WEDNESDAY, OCT. 20, 1915.

NOT MORE BUT AMERICANS ON GUARD

WATER SERVICE.

The Mining Journal yesterday had an inquiry from Menominee, where purchase of a privately owned water company by the city is now contemplated as one possible outcome of the long dispute about water service there, asking how Marquette acquired its water plant, by purchase or condemnation.

The answer was that Marquette did not have to acquire its water plant by either expedient, for the reason that as soon as the city had passed the well, or spring, stage it proceeded to install its own plant and has owned and conducted it ever since. It has been extended and improved as occasion has demanded until the entire city is properly served, and such expenditures as seemed necessary to preserve the public health—as for instance the last extension of the intake—were made with proceeds of bond issues. Now the plant's earnings are being used to retire the bonds and in the course of a few years the plant will be an unencumbered asset of the city.

Water supply is one utility that no community should permit to pass from its control. The reason is obvious. Circumstances may, and often do, arise when an expenditure is required for the purpose of assuring the public health that cannot be regarded as justifiable, from the business viewpoint, on the rates that may be current for water service. Naturally there is much pulling and hauling between public and company, and it is almost invariable that there is much delay in carrying out work that is imperatively necessary. Escanaba has had a trying experience of this nature in past years, and Menominee has not escaped similar trouble.

Now Menominee has authorized a vote on an issue of \$285,000 of bonds to be used (1) to buy the present company, or (2) in the event of its refusal to sell for what the city regards as a fair price, to install a municipal system. While there is now vigorous controversy about what ought to be done, there is agreement on one thing, namely, that when Menominee first granted a franchise for water service by a privately owned company it stored up no end of trouble for itself.

LUMBER IS LAGGARD.

The Escanaba Manufacturing company, according to the Press, has posted a bulletin carrying the unwelcome information that the wages of the men will be cut 10 per cent. It furnishes more evidence of the unsatisfactory condition of the lumber and lumber products market. It is in marked contrast to the general optimism in American industry and among American bankers. In general lines industry is gathering momentum every day. Steel is again king and iron promises not to lag far behind. The bankers are optimistic to a degree. In view of the volume of the foreign trade and the bounteous crops, they cannot see how we are to fail, in 1916, to have one of the most prosperous years it has ever been our good fortune to enjoy. But the lumber interests see no rift in their cloud, and the tangible evidence of their dissatisfaction with conditions suggests the seriousness of their concern. In this day and age the officials of a company who have to order a wage cut feel about as badly about it as the men who have to stand the loss. They know what an unfavorable impression such a thing makes on the general public and the opprobrious comment it invites.

WHY RAILROADS ARE DISTRESSED.

The official figures compiled by the Bureau of Railway Economics for the decade of 1905 to 1914, inclusive, make the reason for the financial distress of American railways very clear. They have been paying more for everything they buy while compelled to accept lower compensation for services rendered. Take the item of taxes, for example. The roads of the United States paid in 1905 only \$63,474,679 in taxes, while in 1914 they paid \$159,371,100. It is true that state and municipal taxes are higher generally, but they have not increased 136.9 per cent in a decade, on an average. The valuation of the railways has been largely increased for purposes of taxation.

The total operating expenses of railways increased 58.2 per cent between 1905 and 1914, or from \$1,390,602,162 to \$2,209,313,139. Yet the net operating revenue increased but 22.4 per cent.

are theoretically at peace Italy will likely see to it that its action in the Balkan regions is so defined that it will be called on to fight only Bulgarians.

The objection that abandonment of the Dardanelles would hurt the allies' prestige in the Near East is hardly valid. All the practical damage that can be done as a result of impaired prestige has, with Bulgaria allied with the Teutons and Greece and Roumania looking on, already been done. The fate of the Dardanelles will now be decided in fields remote from blood-soaked Gallipoli. It can be taken for granted that the Serbian campaign will now take precedence over that of the peninsula. Troops withdrawn from there—and likely troops have already been withdrawn—will pass through Saloniki, bound for points north.

The death of Robert B. Ward, of Brooklyn, is full of portent for the Federal league.

STATE PRESS

Bulgaria having finally decided what her cause is will proceed to implore the Almighty's blessing upon her holy cause.—Detroit Times.

With Lake Michigan all along its front, Chicago ought to be able to quench its thirst at any time and pick up a few typhoid germs in the bargain.—Bay City Times.

Enough different pictures have been shown of the prospective first lady of the land so almost anyone should have found one that will satisfy him that she is suited for the position.—Saginaw Courier-Herald.

There is one advantage of secret diplomacy. When Grey is successful you can laud his methods, and when he fails you can censure his methods; and remain in delightful ignorance in both instances.—Detroit Journal.

Champ Clark has tied up his bound dog and is out with open support for the president. In other words he has restored the A to its original place in his first name for the substitute U that W. R. Hearst once placed there.—Saginaw News.

In view of the press gush accompanying the announcement of his engagement we incline to the opinion that President Wilson, would like to limit the scene of the "pitiless publicity" for which he once gave such unqualified endorsement.—Jackson Patriot.

As indicating the warrant for a belief that there will be another cabinet shake-up in Great Britain, there is the condition that the Northcliffe newspapers, which practically formed the coalition cabinet in May, have again opened fire on the cabinet group, this time with Earl Grey, the minister of foreign affairs, as their particular object. Faulty diplomacy, these papers, choosing to ignore that the character of these developments was intimately effected by the trend of military operations, say, has characterized the handling of the allies' interests in the Balkans.

What Great Britain could gain from constituting a new cabinet at this time, or through the precipitation of a general election, is difficult to discern. In the coalition cabinet are associated some of the strongest men of both parties, and if the government is to be carried on by others it would seem to follow that it would have to be placed in the hands of comparatively untried officials. And we have always been told that it is dangerous to swap horses in the middle of a stream.

The holding of a general election would possibly result in a Conservative majority. The war government—particularly the war government when it was exclusively in the hands of the Liberals—is open to effective attack, as any war government in Great Britain in such a war would certainly be, but is the time propitious to give form to such attacks and to center the public's attention on a political campaign? And yet there is a strong suspicion that there is a basis of politics for the assaults on the cabinet.

It has been one of the greatest advantages of Germany that it has suffered less by deflection of interest from the principal business of the day by political and internal troubles than have its enemies. The kaiser's government has held a firm and sure hand on the reins of both domestic and international politics. The superior power of an autocratic form of government for the serious business of making a world war has been demonstrated, as in peace was its superior power for carrying on an effective world war for trade.

In it all there is not a suggestion that if democracy is ultimately to endure it may have to make certain compromises with autocracy?

Even if the course of the German-American correspondence had not persuaded Mr. Bryan that he would be more at home outside the cabinet than in it, the same result would doubtless have been attained by the President's program for preparedness. It appears mild and conservative enough, when the responsibilities this government has to meet are considered, but it would have been too strong to meet the approval of Mr. Bryan. But public opinion is so generally upholding the President's proposals that Mr. Bryan, it can be predicted, will not protest overmuch about them. Mr. B., it appears, has picked another wrong horse.

man is said to have found three like-messes on the film. Which, of course, is merely a matter of photography, no matter what the superlatives may say.—Cleveland Plain Dealer.

EDITORIAL OPINION

McAdoo's Scheme a Sham.

In his Indianapolis speech, outlining a revamped scheme for the creation of a government-owned merchant marine, Secretary McAdoo succeeded in disclosing quite thoroughly the futility and vanity of the whole administration plan. His new suggestion is that the government instead of buying ships—build them itself, and design them so that they will be quickly transformable into auxiliary naval vessels. Or, rather, they will be auxiliary naval vessels, transports, cruisers, tenders, etc., detailed temporarily to other use. Some of these ships Mr. McAdoo would operate under direct government control, others he would lease to private parties under restrictions.

We should here remember that this proposed legislation is not even ostensibly for the purpose of building up a government-owned merchant marine to be auxiliary to privately-owned fleets operating under the American flag. Something of this sort was suggested last year, we believe, but that action has been forgotten. Now the nation is being introduced to a device for creating something which will take the place of these private fleets, some of which have been legislated out of existence by the seaman's law. That this has more or less been the intent of the government all along was made very clear by Mr. Bryan while he still was secretary of state.

However, as the government-owned merchant vessel would not, according to the latest scheme, be a merchant vessel at all, but only a ship of war, designed for other purposes, congress in passing an act embodying the suggestion of Mr. McAdoo would be authorizing only the semblance of a government-owned merchant marine which would vanish instantly when most needed.

Great Britain subsidizes certain merchantment, it is true, and reserves the right to convert them into auxiliary cruisers, transports, and so on, in time of war, and in the last year she has taken over a number of vessels. This, however, affects only a small portion of her privately-owned fleet and does not hamper her at all in maintaining commercial relations with the world outside. She has boats aplenty for both war service and for trade.

But if the American congress were to adopt the McAdoo-administration scheme, at the very first suggestion of war this nation would find itself without a single merchant vessel of domestic ownership. The flag of the republic would be unrepresented on the high seas except aboard ships of war. Trade carried in domestic bottoms would vanish instantly without a hostile stroke from the enemy. War would completely wipe out even the shadow of an American merchant marine.—Detroit Free Press.

A LAUGH OR TWO

The Greater Fear.

Mayor Armstrong, of Pittsburgh, was defending a sanitation scheme that had been attacked on the ground of its expense.

"We all pretend," he said, "that we desire our cities to be sanitary, but too many of us are like Smith."

"Smith, on being handed a dingy, dirty 25-cent piece, put in his mouth and sucked it—to make sure, he explained, that it was good."

"But," said a horrified onlooker, "Smith, aren't you afraid of microbes?"

"You bet I'm afraid of microbes," Smith agreed, "but I'm still worse afraid of getting bad money."

THE CRITICS IN THE GALLERY.

Robert W. Chambers, the novelist, said at the Century club in New York:

"We novelists have to remember that the public, while claiming stonily to like truth and realism, really likes—really likes—well, here's a story:

"Two women stood in a queue waiting to get in to see a melodrama."

"This'll be a good show," said the first woman. "Life, you know. Real life. Nothin' overdone."

"Yes, I like life, too," said the other woman. "I don't want to be put to sleep, though. Still, I can't stand nothin' far-fetched."

"Same here," said the first woman. "And then they went in and sat through five acts wherein the hero killed 36 Kaffirs with his naked hand, found a diamond as big as a duck's eye, smashed with his revolver from a mile away the bottle of poison that the beautiful heroine was about to swallow rather than yield to the blandishments of the villain, and finally killed the latter in an aeroplane duel, slightly off stage, inheriting later an unexpected dukedom, and so forth and so on."

"When the curtain fell to the sound of wedding bells, the two women looked at each other with glistening eyes."

"Grand, wasn't it?" said the first. "Life, real life, eh?"

"You bet," said the second. "That's life, that is. Nothin' far-fetched or overdone."

NEW YORK COLLEGES.

About the last thing many persons would think of New York as being is a "college town." As a seat of a seat of manufacturing and trade, a center of fashion, art, music and pleasure it is recognized abundantly here, there and everywhere. But that it is a college town is only occasionally recalled to us by some great celebration in Columbia, in the College of the City of New York or the New York university.

Yet as a college town in the way that universities come into the term we lead the world in point of numbers of students. This year in Columbia alone there are 14,575 students enrolled, as against an estimated number of 3,310 in Yale and 4,359 registered at Harvard. The city college statistics are not reported yet, but the New York university has 6,000 students, with the registration not complete.

Add to this the number of undergrad-

NOTES OF POPULAR SCIENCE.

Books were used by the French in war in the eighteen century.

Tea and coffee should be kept in glass jars rather than in canisters.

"Twelve lessons suffice to teach any one to guillotine," says the French official executioner.

Hens, as a rule, should be killed at the age of two years and a half, when the first sign of the moult appears. Their best laying days are then over.

CAUSE OF CONSTIPATION.

Constipation results from a lack of moisture in the residual matter in the food. To effect a permanent cure more water must be taken half an hour before breakfast and about the third of a glass an hour and a half after each meal, also eat an apple or banana before breakfast and before going to bed. Make sure that you come every winter to breakfast whether there is an inclination or not. When a medicine is needed take Chamberlain's Tablets as they are mild and gentle in effect, but no medicine should be taken when operations can be induced naturally each day. To effect a permanent cure time and patience are required as bad habits are more easily formed than broken up. Obtainable everywhere.

Copper Country

HANCOCK HIGH SCHOOL QUILTS FOOTBALL LEAGUE

Calumet's Refusal to Accept Coach Rosa as Referee Causes Break in the Copper Country.

The Hancock High school football team no longer is a member of the Copper Country Interscholastic Football League, and the game scheduled between Hancock and Calumet in Calumet next Saturday will not be played. This announcement was made yesterday morning, it being claimed that Calumet's refusal last Saturday to accept Coach Rosa as referee of the Houghton-Calumet game automatically severs Hancock's relations with the league.

Calumet's protest on Rosa as referee was no surprise to the Hancock team, as it was reported two days before the game that Calumet would not permit the Hancock coach to officiate. Coach Shields of Calumet denied that any protest had been filed but it was learned last Friday afternoon that another official had been chosen.

This action on the part of Calumet leads to the fear that it is likely to interfere seriously with the promotion of high school athletics in the copper country. Members of the Hancock team and of the high school faculty would not discuss the situation to any great extent yesterday.

It has been the understanding of the Hancock team that the coach of the team not playing would officiate as referee of the game between the other two teams. Coach Shields of Calumet claims there was no such agreement. However, in the Hancock-Calumet game at the Driving park a few weeks ago, the Houghton coach acted as referee and Hancock met Houghton on Vivian field Oct. 9 Coach Shields, of Calumet, was in charge of the game. Under the circumstances Hancock naturally expected Coach Rosa would referee the Calumet-Houghton game.

DENTON PROTESTS HIGH ASSESSMENT

Adams Supervisor Says C. & H. Is Valued too Low—Bars Spreading Taxes.

The taxpayers of Houghton county could not learn yesterday what they individually have to pay to the county and state this year because of the protest of Supervisor Denton of Adams township against the report of the equalization committee. As an indirect result of his protest the taxes of the county cannot be spread until the state tax commission comes into the county and reviews the assessments of Adams township.

The invitation to the tax commission will be made by Supervisor Secher of Elm River township or by taxpayers spoken for by him at the meeting.

The basis of the protest and the invitation to the tax commission is found in the fact that the equalization committee added to the assessment of Adams township, as reported by Supervisor Denton, the sum of \$2,000,000. Mr. Secher said that he protested on behalf of landowners, other than mining companies, in that township.

Report of the Committee.

Chairman MacNaughton of the equalization committee made his report to the board as a matter of routine.

The assessed valuation of Adams township was \$12,945,210 and the committee's increase made it \$14,945,210, including the personal property valuation, which was not changed.

The real valuation of Franklin township was increased by \$122,000, making the total equalized valuation \$4,613,085.

The sum of \$5,265 was deducted from the real valuation of the fourth ward of Hancock, making its equalized total \$1,114,760.

With these changes the total equalized valuation of Houghton county is \$85,337,390 if the report of the committee is permitted to stand by the tax commission.

Supervisor Denton's Protest.

At the conclusion of the reading of the report Supervisor MacNaughton moved the adoption of the report and at this point Mr. Denton made his protest. He read it and the gist of the statement follows:

"I protest against the increase in the valuation of Adams township and charge that the methods of the equalization committee are illegal, discriminating and unfair. The valuation of Adams township by the committee is unfairly high and those of the Calumet & Hecla mines are unfairly low.

"Supervisor Secher of Elm River township joined his protest with that of Mr. Denton. He said that if the resolution to adopt the report carried that the taxpayers be represented could not get any action from the tax commission. Therefore until these people could bring the matter to the attention of the tax commission and get a hearing of their case he would move that the resolution to adopt the report be tabled. His motion passed without a dissenting vote.

"Mr. Secher explained at the close of the meeting that the invitation to the tax commission will be to review the assessments of Adams township, but

that when the commission comes into the county it can extend its investigations beyond that limit if it sees fit.

In anticipation of the coming of the tax commission the board adjourned for two weeks from yesterday.

The Annual Budget.

While the supervisors could not, because of the tabling of the equalization, authorize the spreading of the taxes over the rolls of the various townships, it could, and did, vote to raise the money required for the next year, as follows:

General fund	\$135,000
Four fund	85,000
Salaries	43,000
Soldiers' relief	2,000
Total for county purposes	\$265,000
Road purposes	75,000
State tax	271,631
Total state and county	\$611,631

As soon as the state tax commission completes its work in Adams township, so that the proportion of this amount to be raised by each township can be known, the board will spread the taxes.

As an aftermath of the discussion over the Denton protest, Supervisor Burgen of Osceola township, stated that he believed the board is entitled to know why Mr. Denton believes Osceola township is assessed too low. He asked Mr. Denton to explain. The latter said that it was a big subject, that he did not have the date in his possession and that he would rather wait till the whole matter is over.

County Roads Budget.

The board of county road commissioners presented an amended appropriation bill. The total of \$75,000 asked for at the first session of the annual meeting was not disturbed, but this time of \$39,000 for the Ontonagon road, from Painesdale to Winona, was dropped and the commission substituted for it part or parts of the road between Lake Linden and Dollar Bay. The amount asked is the same as for the Ontonagon road.

It is learned that the commission included the Ontonagon road in this year's appropriation plan because it is a part of the original general scheme to build as soon as possible the main trunk lines leading from the county to adjoining counties, as has been done in the cases of roads leading to Baraga and Keweenaw counties. But public sentiment was found to be against the building of a road to Ontonagon while the much traveled road between Dollar Bay and Lake Linden required attention and thus the commission, without awaiting action by the county board on its original appropriation bill held a special session and amended the bill to the form in which it was presented to the board and accepted at this meeting.

To Survey for New Highway.

When the road commission's report and budget were up Supervisor Johnson of Dumau township asked that \$1,300 be added for the purpose of making a survey for a proposed road between Houghton and the south end of the county, as explained by him at the first session of the annual meeting a week ago. This sum was added by resolution.

Supervisor Secher, through whose township of Elm River the proposed Ontonagon road would go for the greater part, wanted to adopt the original budget of the commission, but received no support.

The early part of the session was devoted to routine matters, the approval of county boards' and officers' reports. In each case it was a mere formality until the report of Mrs. Martin Foley, matron of the tuberculosis sanatorium, came up. The hospital committee in its report expressed itself as commending Mrs. Foley for the excellence of her report.

RAIN HINDERS SEWER WORK.

The hope of the business district of South Range village for an adequate sewer system in operation this fall is growing dim. South Range has hoped for that sewer system for four years, that being the elapsed time since it was decided that such was necessary and could be built without draining the little village treasury.

A contract was let last summer to Hall & Laby of Calumet and for a time the work progressed rapidly. But the almost continuous rain during the summer and fall has entailed a great amount of extra work, has slowed down the construction process and latterly it has been so bad that work had to be stopped altogether.

Village Clerk Sipponen said yesterday that it is not unlikely that the work will be stopped for the next spring as it is present conditions permit no further possible to do good work either in excavation or the laying of the concrete pipe.

The contractors could complete the work in a month of good weather but have no means of knowing how long it would take in the weather as it has been for several weeks. The septic tanks, for the disposal of the sewage have been completed and about half of the pipe laid. The work is well advanced considering the weather.

The Reinforced Concrete Sewer Pipe company, which has been contracted for furnishing the pipe and has been working on the ground, will have its part of the work completed within the ensuing week.

WON'T CLOSE SCHOOLS.

County Institute too Soon After U. P. Meeting, It Is Explained.

The Houghton public schools will not close next Friday for the Houghton-Keweenaw county institute, which Governor Ferris is to conduct at Calumet. Superintendent Doelle announced this fact yesterday in his circular calling the monthly teachers' meeting, the text of which circular follows:

"The monthly teachers' meeting for October will be held on Friday, Oct. 23, at the usual time and place. The following is the program:

The School Savings Bank—T. W. De Haven.

Practical Hygiene—C. J. Wagner.

Remarks—J. A. Doelle.

We shall not dismiss school on Friday of this week for the county institute, because almost all our teachers attended the upper peninsula meeting at Marquette which necessitated the closing of our school for nearly three days. Consequently we do not feel justified in closing so soon after the other meeting. In view of the fact that Governor Ferris will have charge of the institute we wish to urge all who can to attend the evening session in the assembly room of the Calumet High school.

PLAN CONCERT AND SOCIAL.

The Junior Temple of Honor of Painesdale will entertain next Saturday night at the Sara Sargent Paine Memorial library with a concert and social. A feature will be a fish pond. The program, as arranged by Edwin J. Goodfellow, follows:

Piano—Misses Ida Trudgeon and Flora Cox.

Invocation—Rev. Richard Carlson.

Address, Work of the Juniors—T. H. Kemp.

Solo—Miss Nettie Nancarrow.

Instrumental selection—Miss M. McLeod and Francis Coyne.

Duet—Misses Winnie and Pearl Hall.

Recitation—Mrs. James Teague.

Selection—Trimountain male quartet.

Solo—J. C. Rule.

Address, Temperance Work—Wilfred Holman.

The concert will begin at 8 o'clock and the social will follow.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear, there is only one safe cure for deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous membrane of the tube. When this tube is inflamed, it has a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

J. C. CHENEY & CO., Toledo, Ohio. Sold by druggists, 75c.

Take Hall's Family Pills for constipation.

FOR CONSTIPATION.

When you want a pleasant laxative try Chamberlain's Tablets. They are mild and gentle and produce no griping or other unpleasant effect. Obtainable everywhere.

How to get ideal heating!

First: Follow your architect's advice to have radiator heating. Appropriate the money for this before you start your plans. Second: Examine the shapes and patterns of AMERICAN Radiators and IDEAL Boilers in our showrooms, or see them as illustrated in our catalogs. Third: Tell your heating contractor to furnish and install

AMERICAN & IDEAL RADIATORS & BOILERS

should you lease. Never wears or rusts out; serves you daily with comfortable heat for your whole house with much less trouble than it takes to run one stove for one room. A million buildings at home and abroad, have been equipped and are immediately put in the "preferred class."

The most important phrase in your building specifications is: "To be heated with an IDEAL Boiler and AMERICAN Radiators." When this is done, it settles for all time the question of comfort and economy in your home, for these outfits last for generations; never need repair, and can be operated by a child.

Millions of dollars have been saved to property-owners by IDEAL Boilers and AMERICAN Radiators in reducing bills for heating all kinds of buildings. Any local fuel including cheapest grades of soft coal, screenings, pea, buckwheat, coke, lignite, oil, gas, wood, etc., can be used with highest results.

Country or city houses, old or new, can be easily outfitted and all dealers everywhere know how to put in IDEAL-AMERICAN heating. You will be surprised at the reasonable first cost, and bear in mind the fuel saving, cleanliness, and absence of labor that you will enjoy as long as your building lasts.

Send at once for our booklet "Ideal Heating" whether you are intending to remodel or build now or later. Call at any of our showrooms, you will not be pressed to purchase and you will gather a fund of heating information which will be invaluable. Act NOW!

An unfailling, stationary Vacuum Cleaner—in sizes now at \$150 up!

You should know about our ARCO WAND Vacuum Cleaner, for dustless, complete cleaning of rooms, furnishings, etc. Sits in basement or side room and cleans through iron suction pipe running to each floor. Easily put in OLD buildings. Fully GUARANTEED. Last as long as the building—like radiator heating. Send for catalog.

AMERICAN RADIATOR COMPANY

Sold by all dealers. No exclusive agents. Public showrooms at Chicago, New York, Boston, Worcester, Providence, Philadelphia, Washington, Baltimore, Buffalo, Rochester, Pittsburgh, Cleveland, Cincinnati, Detroit, Atlanta, Birmingham, New Orleans, Indianapolis, Milwaukee, Omaha, Minneapolis, St. Paul, St. Louis, Kansas City, Denver, Seattle, Portland, Spokane, San Francisco, Los Angeles, Des Moines, Toronto, Brantford, (Ont.), London, Paris, Brussels, Berlin, Cologne, Milan, Vienna.

DRAINAGE COMPANY GIVES UP.

Will Not Fight Injunction of Farmers on Sturgeon River.

Attorney J. F. Hambliter, representing the complainants, has been advised by the attorneys of the Houghton Land & Drainage company that the latter will not contest further the injunction bill brought by Archie Ruelle and John Deziel, two Sturgeon river farmers, to prevent the company's diverting water from Sturgeon swamp into the lower Sturgeon river.

This company was incorporated Sept. 20, 1911, for the purpose of reclaiming the swamp lands between Chassell and Arnhem, known as the Sturgeon swamp. They expected to open several thousands of acres of rich lands to farmers by this means. The original plan was to drain the water of the swamp into the Snake river but it was found that the drainage canal would have to cross the right-of-way of the D. S. S. & A. railway and the latter demanded that the company build an expensive concrete culvert to protect the railroad tracks.

Then the company determined to change the course of its drainage flow and divert the water into the lower Sturgeon. Several miles of canals had been dug before this purpose was announced but the Sturgeon river farmers named decided that the drainage would pollute their water supply and they brought the injunction suit. Judge O'Brien granted the temporary injunction in November, 1913, and since then the reclamation work has been at a standstill. The company is composed of Cleveland, O., capital and it has been impossible to learn of its intentions. G. F. Hancock of Chassell is resident engineer and he is equally in the dark.

But, on the granting of the temporary injunction the attorneys for the Houghton Land & Drainage company secured a transfer of the case to the federal court at Marquette, for the hearing on the permanent bill. This was due to come up shortly but will not now as the company has decided not to fight the matter. They have advised him of this purpose and the case is ended. If the company now intends to continue the project the water will have to be drained elsewhere than into the Sturgeon river.

Just Apply This Paste and the Hairs Vanish

(Helps to Beauty)

A safe, reliable home-treatment for the quick removal of superfluous hairs from your face or neck is as follows: Mix a stiff paste with some water and provide delicate, apply to objectionable hairs and after 2 or 3 minutes rub off, wash the skin and the hairs are gone. This simple treatment is unfailling and no pain or inconvenience attends its use, but to avoid disappointment be certain you get genuine deLiaison.

SIG TRIES FOR EASY \$50?

Little Chicago Fight Manager Mistaken About Stakeholder.

Sig Hart, the little Chicago manager of prize fighters, is either trying to get away with an easy \$50 or he has a bad memory. Judging from a letter received yesterday by The Mining Journal's copper country correspondent from Eyer Hammer, a Chicago fighter, Sig is trying to put something over. In his letter Hammer says:

"About a year ago the writer was supposed to meet Bill Baker in your city. The bout was arranged for by my former manager, Sig Hart, who did so after I had informed him I could not make the weight. As a result Hart is claiming \$50 from me, which he claims is the amount of forfeit money he sent you for my appearance and which he claims he lost. Kindly inform me if you ever received the amount."

Hart is mistaken in this matter. He did not deposit \$50 forfeit in the hands of the correspondent and there is no memory of any effort having been made to pull off a fight between the men named.

Hart is remembered in Houghton as having managed a number of fight shows in the Amphidrome in 1903 and

WON'T CLOSE SCHOOLS.

County Institute too Soon After U. P. Meeting, It Is Explained.

The Houghton public schools will not close next Friday for the Houghton-Keweenaw county institute, which Governor Ferris is to conduct at Calumet. Superintendent Doelle announced this fact yesterday in his circular calling the monthly teachers' meeting, the text of which circular follows:

"The monthly teachers' meeting for October will be held on Friday, Oct. 23, at the usual time and place. The following is the program:

The School Savings Bank—T. W. De Haven.

Practical Hygiene—C. J. Wagner.

Remarks—J. A. Doelle.

We shall not dismiss school on Friday of this week for the county institute, because almost all our teachers attended the upper peninsula meeting at Marquette which necessitated the closing of our school for nearly three days. Consequently we do not feel justified in closing so soon after the other meeting. In view of the fact that Governor Ferris will have charge of the institute we wish to urge all who can to attend the evening session in the assembly room of the Calumet High school.

Dandruff Surely Destroys The Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it off. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

NAPOLIONIC DOCUMENT JUST BROUGHT TO LIGHT

London, Oct. 1.—(Correspondence of the Associated Press).—A Napoleonic document in the form of a diary kept on St. Helena by one Andrew Darling, a carpenter, has just been brought to light here, which gives new information on doubtful points regarding Napoleon's death. The diary was kept during May 1821. A description of the dead emperor's body, under the date of May 5, is of special interest, as Darling acted as undertaker, built the coffin and ground up some plaster of paris statuettes to make the plaster for the death mask. He wrote:

"About eight I went with General Montholon to the room where he was and saw him and was much astonished to see him so much wasted in the body, but at the same time look so well so young, and with such a pleasing countenance."

The size of the coffin I made was as follows: Length 5 ft. 11 in., depth 12 in., width at the head 10 in., shoulders 21 in., feet 8 in. At that time I understood that he was to be in state and to be opened about 2 o'clock, but was not aware that he was to be put into the coffin with his hat on.

On the 7th there is this entry:

"I believe they wished his heart to be taken home with them, but did not get permission; therefore they wished to preserve it, which was accordingly done in the following manner:

"His heart and stomach, as I have already mentioned, was in a silver vase or tureen, having been part of his plate with a cover to it, on which was his coat of arms with an eagle on the top, which was then put in by Dr. Rutledge, and an old shilling soldered on the heart, a considerable delay having taken place owing to the construction of the vessel, it was past 8 o'clock before the two men finished."

STOMACH TROUBLES

Digestion is largely a mechanical process. When there are stomach troubles, there is usually a weakness of the muscles upon which digestion so largely depends. To strengthen these muscles and overcome stomach troubles our druggists, The Stafford Drug Co., guarantee Vinol, a reliable non-secret remedy, which contains iron to purify and enrich the blood, the medicinal extractives of fresh cod livers, purified oil, and the nourishing properties of beef peptone, all combined in a delicious native wine. If you are suffering from stomach trouble, it will pay you to try it. Vinol is sold in Indianapolis by the F. P. Tibbon Drug Co., and in Neguapee by Arnett Bros., druggists.

Names New Secretary.

H. D. Lee, superintendent of Hancock public schools, yesterday announced the appointment of Miss Virginia Courtney as his secretary to succeed Miss Cecil M. Light, resigned. Miss Courtney has assumed her duties. Miss Light's resignation becomes effective today. She will leave tomorrow for Washington, D. C., to take a position in the publication department for the government.

CANAL HELPS COAST.

San Francisco's debt to the Panama canal is indicated in the statement that in three months that city's trade with Europe increased 100 per cent., and with New York and Atlantic ports 200 per cent., while the number of steamship lines which use the port has increased from three to sixteen.

TIME TO STOP.

A little knowledge is a dangerous thing. That, at least, is the verdict of a Shenandoah (Va.) man. This man, having enjoyed a prosperous business year, decided to invest some of his surplus cash in an automobile. There was

After your cold drive stop at Stafford's Drug Store for a cup of delicious hot coffee or chocolate. Just what you need for a "warmer."

GROWTH OF THE MOVIES.

It is only ten years since the "movie" was competing with nothing but the "nickelodeon." It had no theaters, it was housed in converted shops, unlighted and unventilated, patronized only by the poor of the tenements who were lured to the odorous darkness of windowless bedrooms and so starved for entertainment that a magic-lantern show was drama enough for them. The theatrical magnates regarded the movies as lightly as the dreadnaughts regarded the first submarine. When the nickelodeons and dime museums had all been wrecked by it, the vaudeville managers began to suffer, but the potentates of Broadway were still unworried. Their galleries disappared, but they were sure that the thing was a passing fad. They were sure that the dwindling of their "road business" was due to the dance craze or hard times. When the suburbanites, who used to pour into Broadway on theater trains, began to go to the movies in their home towns, the managers regarded it as merely temporary. When the stock companies in the "provinces" began to lose, it was accepted as a relief from the hurtful competition with the road business. And from the road business itself slowly faded out to nothing.

With the fading of that road-profit, the bankruptcies began. Broadway became a movie thoroughfare, and the spoken drama went into the side streets to build itself "Little" theaters and "Bandbox" theaters such as "Punch and Judy" theaters, not much larger than

the converted shops from which the movies had emerged.

The positions of these two rivals in New York has now been almost completely reversed. The movies are playing to "two-dollar" audiences; the "legitimate" theaters are carrying on secret cut-rate campaigns that have reduced their prices by half. The high-salaried stars are going before the camera to earn Mary Pickford incomes. The playwrights are being paid more for

Stop That Stubborn Cough

Coughs treated in the beginning rarely cause much trouble, but a stubborn cough, one that has been neglected, indicates a chronic inflammation of the air passages and should receive careful treatment. At this stage the system cannot throw it off without aid. The needed help is

Our Emulsion of Cod Liver Oil

There is no other remedy so reliable for the cure of chronic coughs, lung troubles, or for any debilitated condition. Our Emulsion is palatable and easy to take, because the very best oil is used in its preparation and it is always freshly made.

their movie-picture rights than they get from their stage royalties. The moving-picture managers are gaining millions and the theatrical managers have lost millions.—Harvey O'Higgins in the October Metropolitan.

THE PLACE FOR LOVERS.

Ian MacLaren wrote that Gaelic is the best of all languages for terms of endearment, that it has fifty ways of saying "darling." The old tongue of the Isle of Man, a picturesque island almost equally near to Ireland, Scotland and England, is said to be even better furnished with terms for the use of lovers, that it has—or had—ninety-seven ways of saying "my dear."—Indianapolis News.

City Brevities

Today's weather: Local rains. Yesterday's temperature: Seven a. m., 49 degrees; noon, 53; 7 p. m., 59. Highest, 65 degrees; lowest, 47.

M. F. Goldberg returned from Houghton last evening.

E. R. McPhee left yesterday afternoon for Detroit.

J. M. Longyear and A. T. Roberts were passengers for Duluth last evening.

Mrs. Elizabeth Young, of Escanaba, is visiting her son, R. C. Young, Pine street.

Mrs. Fred Jackson, of Negaunee, was a visitor yesterday at the home of Mrs. Dubois.

The G. I. A. to B. of L. E., will meet this afternoon at 3 o'clock in Keough's Hall.

James Deegan left last night for Superior, after a few days' visit with relatives in this city.

Miss Cecilia Finney, of Calumet, is visiting her cousin, Miss Josephine Finney, Harrison street.

Division No. 4, A. O. H., will hold a regular meeting this evening at 8 o'clock in Keough's Hall.

W. N. McPhail, publisher of the Cleveland Press, of Ewen, was a business visitor here Monday.

A marriage license was issued yesterday to Thomas Mager and Florence Penore, both of Champion.

Mr. and Mrs. E. Bertrand returned last evening from Escanaba where they visited relatives for a few days.

Judge Charles R. Brown, of Benton Harbor, is spending several days here visiting his son George P. Brown.

Miss May Taylor will leave for Crystal Falls this morning to visit her sister, Mrs. R. W. Jones, for a few weeks.

Mrs. Geo. D. Sherman has returned from Detroit where she has been visiting friends for the last few weeks.

Mrs. John Block arrived home Monday morning after a three weeks' visit with relatives at Detroit and Chicago.

A. H. Meyer and Miss Hilda Hanson left last night for Chicago, to purchase the holiday goods for the J. H. Foster company.

The Young People's branch of the Salvation Army will hold their regular monthly social tonight at the Salvation Army Hall.

LaVerne Stafford, secretary of the Michigan Christian Endeavor union, will speak at the Presbyterian church tonight at 7:30 o'clock. All young people are especially invited to hear him.

Mrs. A. H. Meyer, who spent the past month at Detroit, the guest of her daughter, Mrs. Einar Tellefsen, arrived home Saturday. Mrs. Tellefsen accompanied Mrs. Meyer and is visiting at the Meyer home.

Mrs. J. E. Piper and daughter, Florence, who have been guests at the home of Mrs. B. M. Graves, for the summer months, left last night for their home at Miami, Ariz.—Mrs. Piper and Mrs. Graves are sisters.

The Woman's Welfare club will hold their regular meeting in the band room of the city hall this afternoon at 2 o'clock. A full attendance of the members is requested, as plans for the year's work will be fully discussed.

Lattrell Not Dead—Relatives of Lawrence Lattrell yesterday denied the report, published in a newspaper two weeks ago, to the effect that he was drowned in the Escanaba river, as they have received word from him stating that he was well and working every day.

Marine Notes—The Simon J. Murphy cleared for Cleveland from the South Shore dock yesterday afternoon at 4 o'clock. The steamer Frontenac arrived yesterday morning with a cargo of soft coal for Spear and Sons. The coal barge Chattanooga arrived at Pickands dock at 1 a. m. yesterday, with a cargo of soft coal for Pickands. The shipmen cleared for Ashabula at 2:45 p. m. yesterday from the upper harbor. The Pontiac cleared at 11:33 for Cleveland from the L. S. & I. dock.

and that he considers that the assessing district he represents has been discriminated against in such equalization for the following reasons: The committee of said board of equalization reported to said board that the real property to be assessed at an equal and uniform rate with other real property in the county of Delta, disregarding the undervaluation of said real property in the townships of Baldwin, Cornell, Escanaba, Maple Ridge, Masonville, Vells and the city of Escanaba, which said board refused to consider.

Many Await Deportation.

Some six persons will be sent from the Soo by the immigration department for deportation to their respective countries. At present a number are held here waiting to be deported. Recently orders were received from Washington that no more deportations would be made of Austrians, Germans or Russians until after the war is over. Whether this action was taken as the result of the submarine warfare is not known. One reason for it is, however, that after the war started there were no German or Austrian steamship lines operating

Upper Peninsula

New Fire Truck Used.

Escanaba's new Kissel Kar motor fire truck, delivered on Sunday, was given its first tryout, when it was driven to a fire at the home of Emanuel Olson, at Mary street and Park avenue, from No. 3 station, on Hartnett avenue. The truck reached the station at the same time with the team from No. 2 station at the city hall. The fire was started in a bed, on the second floor of the house, and the blaze was extinguished with chemicals with but a small loss. The new truck is the latest word in fire fighting apparatus. The acceptance of the truck will be followed, it is expected, by the elimination of No. 2 fire station, at the foot of Dousman avenue.

Dam Near Completion.

The Escanaba Traction company's dam across the Flat Rock river, at Chandler's Falls, is nearing completion, and is a stupendous piece of work. The dam proper is 450 feet long, with earth embankments on each end, making a bridge of 1,800 feet. The height of the structure is thirty-two feet from bottom of tail run to power house floor. Flood water runs over a 150-foot spillway, passing through three sluice gates, twenty feet wide by thirteen feet in height. The sluice gates are operated by a traveling crane of twenty-ton capacity. The same crane also operates the flume gates which admit water to the water wheels. The flume gates are built of one piece of steel, are twenty-five feet wide and sixteen feet high. These massive gates slide on a set of steel rollers. A steel bridge is built over the overflow dam. The dam has an automatic flush board, and has a fish run, also a log sluice way. The power house is built of concrete reinforced by steel, is ninety-five by fifty feet in size and 130 feet in height. The machinery was manufactured by the Allis-Chalmers company of Milwaukee, and consists of two units of 100-horsepower each, that are of the latest improved type. The water wheels are

vertical. The water wheel runner is mounted on a vertical shaft and runs in what is known as a concrete scroll case. The generators are of the umbrella type, on top of which are the heavy yokes, carrying the entire weight of the shafts runner and motor; also a thrust bearing, which runs in a constant oil bath. There are two Lombard governors for regulating the speed of the units. The switchboard and electrical appliances are of the latest improved models. The water, after passing through the wheels, is discharged into the tail race, which has been excavated through the solid rock sixty feet wide and ten feet in depth. This race is 1,800 feet in length. The entire concrete work is as smooth as an iron casting.

Petition for a Rehearing.

Supervisor Mason, of Gladstone, has filed at the office of County Clerk A. J. Pepin, at Escanaba, a formal application to the state tax commission, asking for a review by that body of the valuations of property in Delta county fixed by the county board of supervisors. In his petition Supervisor Mason alleges that real estate in the townships of Baldwin, Cornell, Escanaba, Maple Ridge, Masonville, Vells and the city of Escanaba are grossly undervalued and that personal property in the townships of Cornell, Baldwin, Escanaba, Maple Ridge, Masonville and the city of Escanaba is not properly valued. The petition says, in part: "Your petitioner certifies that a member of the board of supervisors of Delta county he objected to the equalization from which this appeal is taken and that he voted against its adoption;

between the United States and their respective countries. The provisions made for the deportations state that they shall be returned on the boats of the same line on which they came over. If these people are held here until the war is over a number of them will not be deported, as their three-year terms will have expired.

Bunch of Arrests at the Soo.

Two houses occupied by Austrians on Groscep avenue, at the Soo, were raided by the police department, with the result that more than half a dozen men were taken to the Central police station, two for selling liquor illegally, and others for being drunk and fighting. Captain Elliott headed the first raid, which was made on a house at 600 Groscep avenue. He was assisted by Patrolman Jones and Roberts. Five men were arrested, including George Zorowski, said

To Overcome Eczema

Never mind how often you have tried and failed, you can stop burning, itching eczema quickly by applying a little zemo furnished by any druggist for 25c. Extra large bottle, \$1.00. Healing begins the moment zemo is applied. In a short time usually every trace of pimples, black heads, rash, eczema, tetter and similar skin diseases will be removed.

For clearing the skin and making it vigorously healthy, zemo is an exceptional remedy. It is not greasy, sticky or watery and it does not stain. When others fail it is the one dependable treatment for all skin troubles.

Zemo, Cleveland.

to be the keeper of the alleged "blind pig." The others taken into custody on charges of being drunk and fighting were: Joe Kowski, Peter Tazer, Henry Boski and Anthony Bushta. It appears that a free-for-all fight had taken place in the house, as Anthony Bushta was beaten up and it was necessary for a physician to take twenty-two stitches in a head wound. Chief Mitchell and Patrolman Lawler later raided a house at 422 Groscep avenue, and brought in Peter Harco, alleged to have been keeping a "blind pig", and also Louie Moleski. Harco, the officials say, admits selling liquor illegally.

Marquette National Bank

PREACHER'S PLAIN LANGUAGE.

The archdeacon of London, preaching in St. Paul's cathedral on Sunday, referred to the recent Zeppelin raid on London:

"I need not go farther back than last Wednesday," said the archdeacon, "to tell you that that battle has changed into murder. Speaking with all the restraint that is due from every preacher, and with the knowledge and consent of the censor, I tell you that to one hospital alone were taken the dead bodies of little children of fifteen, ten, seven and five years, and of one little baby, so that the nursery became a slaughter house."

"Of the imperial murderer who allowed it, if he did not order it, all we can say is in the words of the psalmist, the most awful punishment given to a man: 'I will set before thee the things that thou hast done.'"

Plans have been made for the forming of a union for furniture workers in New York city.

GERMANS GIVE UP DESIGN ON CALAIS

Plan Expansion in the East Rather Than Outpost on English Channel.

Berlin, via Amsterdam, Oct. 19.—The Kaiser has abandoned the road to Calais, according to a leading article in the Berliner Tageblatt, which purports to explain the real meaning of the Germans' new move in the Balkans.

The article declares Germany has decided to thrust to the Near East, because in that direction now lies the most promising hope of attacking the British empire, the Germans being determined to prove that military power is capable of overthrowing naval power.

Purpose of Germany.

The Tageblatt's article is unquestionably the frankest statement of German purpose that has appeared in the official press since the beginning of the war. A translation follows:

"Throughout the war myriads of Germans have had their gaze fixed at Calais. Their spokesmen declared that those who were not prepared unhesitatingly to risk not only our own future, but that of generations yet unborn, in the conquest of Calais were enemies of the empire.

"Unmoved by such sentiments or by those who propagated them, the German general staff acted according to the circumstances arising from the development of the war drama. It accepted the lesson that the nearest passable road for an attack upon our roughest foe does not lead by way of Calais.

"Our strength, as that of our allies, lies in land power. We must seek to deliver the decisive blow in another direction, whether the process of accomplishing it is tedious and wearing or not. The principal thing is that we are finally on the way to Constantinople and the Dardanelles.

"With Belgrade in our hands, the first obstacle already has been overcome. A doctrine which for decades dominated world politics is on trial: The theory that sea-power is the decisive influence upon the course of history.

"Mahanism or Moltkeism—that is now the question.

Hits at United States.

"Are essentially land powers, like Germany, Austria-Hungary, Turkey and Bulgaria impotently at the mercy of England and Yankeland, which stands behind her simply because Britain at present still commands the sea, or are these land powers strong enough to enforce their liberty and make room for their future development, even against the tyrant of the sea and his slavish menials; and, if need be, in spite of them?—that is the question.

"It will not be decided between the Danube and the Dardanelles, but the decision will be brought nearer, for behind the Dardanelles first lies Egypt.

"If England wants war to the knife she will have it. She can count upon that just as surely as upon the success of her efforts to set the German armies on the march to Constantinople."

Save Time!

Most toilet and bath soaps must be rubbed and rubbed to get a lather, particularly when the water is hard.

KIRK'S JAP ROSE Soap

lathers instantly and freely in hard or soft water, rinses away like magic, leaving the skin soft and perfectly clean.

Wilson a Fine Tenor, Says His Daughter.

Cleveland, Oct. 19.—Miss Margaret Wilson, daughter of the president, disclosed to the world that her father is a cultured tenor.

"He has a beautiful voice," said she. "It is really of fine quality, but he has not sung professionally, excepting in a male quartet at college."

Miss Wilson, who gave a recital here, said she preferred the artistic career to that of a social one, and that her sole ambition in life is to sing.

"Society is not a career," she said. "My earliest recollection is that music appealed to me intensely. When we were frightfully poor, my parents engaged a cultured German governess. We could not afford a piano, but she sat at an old organ and sang German lieder to us by the hour. I often think of it, when I am singing. I wish I could create such a subtle atmosphere for every song as she did, as I looked and listened, amazed and delighted."

Nathan Strauss, Jr., owner and editor of Puck, says: "There is only one thing funnier than the man who does not think women have brains enough to vote, and that is the woman who agrees with him."

CORNER OF BELGIUM BUSTLES WITH TROOPS

More Men Maintaining the Line Than Are on Guard in the Trenches.

Dunkirk, France, Oct. 5.—(Correspondence of the Associated Press).—On the map of Europe the portion of Belgium that remains to the allies is not large, but now it is such a busy part of the world that one who whirls through it for several days in a military motor car, as an Associated Press correspondent is now doing, is likely to think that it is a very large part of Europe, the villages are so full of French, Belgian and British soldiers, there are so many camps, hospitals and bases of one sort and another—here an aviation camp, there an ambulance station and so on—that to visit the country is to realize the many-sided activities of warfare as one perhaps could not realize them in any other way.

For one man in the trenches there are three carrying supplies and ammunition, building roads, repairing bridges, stringing telephone wires and constructing barbed-wire entanglements.

This trip comprised almost two hundred miles of travel in what may be roughly described as a triangle, Dunkirk, Nieuport, Dunkirk and Ypres at the three corners.

"I don't suppose we can go into Ypres?" asked the correspondent. "You would be a fool to try and you would be a dead man if you got there," was the chauffeur's answer.

Between Dunkirk and Ypres one can find all grades of demolition. What happened to Dunkirk by the action of a Krupp gun over twenty miles away almost everybody in the world knows now. But what happened to that gun it would be of greater interest to know, and neither the French nor the Germans are saying anything about it. But the people of Dunkirk know that it has not been in action for two months.

Countryside Broken Up.

As one travels inland from Dunkirk towards the south through Bergues he can readily appreciate why France, Holland and England are full of refugees wearing their hearts out with thoughts of their demolished homes, for there are to be seen little villages with not a building inhabited, hardly one unmarked by shell fire. Handsome sixteenth century facades, modest brick structures, artistic little churches, have all gone into war's melting pot. The streets are as devastated as the sections of San Francisco or Baltimore after their conflagrations.

The French are holding the dunes along the coast, then the English, then more French, then the English again, and finally the long line of French reaching to Switzerland. It is not often pointed out that the French are sandwiched in between their allies in this fashion.

Stopping before a 105mm. gun, cleverly concealed in a grove, a gun which had been silent but a few moments and was "doing its bit" in an artillery action spreading over one hundred miles, a correspondent asked the lieutenant in charge when he intended to fire again.

"Whenever they telephone us," was the reply. "We have fired only twice this morning." When the line of action is as long as the route from New York to Philadelphia, each gun has an easy time of it and there is plenty of opportunity for conversation. Indeed, when the correspondent approached the group they were laughing at a story of the lieutenant. He was telling them of a devoted orderly. The lieutenant had been sent to the hospital as a result of poison gas. "I should have left the hospital after three days," said the lieutenant, "but my orderly would not let me."

"Have any shells burst around here yet?" "Not very near, this big gun is pretty well concealed and if the enemy's aviators see it we can easily move it."

"You can't see any Germans from here, can you?" "Saw No Enemy in 11 Months."

"I have been at the front eleven months," said the lieutenant. "I have seen many dead Germans and many German prisoners, but I have never seen a German in action, except the man in the Taube."

A half dozen privates gathered round and the conversation became general, being interrupted occasionally by visits to the observatories in the trees, where the correspondent was shown the German lines and could see the shrapnel bursting over both sides. It all seemed too remote. The correspondent observed, "It does not seem very close to us."

"Perhaps not just this minute, but in the road there not over fifty feet away they blew up one of our caissons a few days ago and you can go out and pick up some souvenirs if you wish to."

These observatories were of fascinating additions to Adirondack camps, being successive flights of stairs with strong landings, winding round the highest trees, painted the color of trees and covered overhead with foliage. There is no military secret about this, for it is well known that both sides have the same kind of lookouts.

"You men all seem very happy," said the correspondent. "We certainly are; we know what we are fighting for; we are well treated and we know that we shall win. It is the men who will win this war pour la Patrie." When a French soldier says "pour la Patrie" he says it with a thoughtful earnestness that gives one a firm faith in democracy.

The firing was evidently within short mortaring distance to the southeast and the correspondent got up to leave. "Sorry we could not entertain you with our 105mm.," said the lieutenant, "but we never know when we shall get the telephone call."

In an artillery action of such magnitude gunners were far orders like policemen or firemen, by telephone, and like policemen and firemen they are very glad to see callers in the intervals of their activity.

NONE SO GOOD AS CHAMBERLAIN'S.

"I consider Chamberlain's Cough Remedy the best medicine on the market for colds and coughs," Mrs. D. H. McDowell, Fort Wayne, Ind. Obtainable everywhere.

FRIENDS OF FORESTS ARE MUCH CONCERNED

Fear Results of German Occupation—Fontainebleau Will Be Spared.

Paris, Oct. 1.—(Correspondence of the Associated Press).—The friends of French forests behind the lines have been reassured by the announcement that Fontainebleau will not be touched and that the cuttings in other forests for the needs of the army are done by government foresters. The necessary timber for the front will be furnished without causing serious inroads. There is still considerable anxiety as to the fate of forests within cannon range and behind the German lines. Civilians, evacuated forcibly by the occupying troops and finally sent back to France by way of Switzerland, state that trains bringing supplies to the army instead of returning empty carry back, among other things, immense quantities of the choicest timber of the departments of Moselle and Meurthe, the Ardennes, the Vosges and the Meuse.

A year's systematic cutting in the estimation of competent authorities would furnish many millions of dollars worth of timber without necessarily ruining the forests. All depends on how and where the cutting is done.

Senator Jules Meline, who was born at Remiremont, in the Vosges, where 37 per cent of the territory is timbered, and still lives there, tells the Associated Press that the war ravages on the forests have been considerable along the battle front, but in proportion to the total wooded country are really insignificant. Some woods, like the Bois de la Gruze, have been practically destroyed beyond the hope of recovery, but in many other places, excepting among the pines, it is hoped that a great many damaged trees will survive.

Forest fires are unknown in the region of the fighting, and no damage is anticipated from fire no matter how intense the cannonading. The timber value of all trees standing along the battle front will have been greatly diminished by the numerous bullets in their trunks because the circular saws that easily went through the lead bullets in the trees after the war of 1870, break their teeth on the hardened projectiles of 1915.

The timbered regions of France cover 18 per cent of its area and comprise more than twenty-three million acres. Fourteen per cent of this acreage is in the departments that have been overrun by the warring forces and of that 14 per cent more than half is still occupied by the Germans.

"The supposition that the destruction of forests was widespread," says Senator Meline, "arises from the profound impression that is produced by certain battlefields where the trees have been razed to the ground. When these fields are compared with the total of three and a half million acres of wooded land in the zone of operations the damage becomes less disquieting."

MOST FAVORED-NATION RIGHTS FOR THE U. S.?

Paris, Oct. 1.—(Correspondence of the Associated Press).—Hope is expressed in commercial circles of Paris that after the armistice France will see her way to granting the United States most-favored-nation rights. Nothing can be done in this direction during the war, but the possibility of action later is under consideration by French fiscal authorities.

At present complaints by the two countries against each other's tariff systems are mutual. French exporters assert that the United States tariff unfairly restricts their American market, and American merchants object to the enforcement against them of the maximum rates of the French maximum and minimum tariff, which is powerful rival, Germany, is not rather was in enjoyment of most-favored-nation treatment in accordance with the treaty of Frankfurt.

As answer to the French assertion, it is pointed out that notwithstanding the alleged high American duties French exports to America largely and steadily increased from the opening of the century to the year 1913, except during 1908, a year of great financial trouble to both countries; and that, as French trade with America is mostly in articles of luxury for the rich, the latter can easily bear the higher prices caused by the duty.

"But if it increased in spite of the tariff," rejoins the Frenchman, "how much more would it not have increased if the tariff were more favorable?" "The increase would have occurred is not considered by American authorities as proved. They look for the expansion of French trade with America, and particularly for successful French rivalry with Germany, in another direction. In effect they say to the French: 'You must broaden the bases of your trade by the production of cheaper classes of goods on a large scale and for this purpose you must reorganize your industries.' The advice is not very palatable to the French, who are more influenced by tradition than perhaps any other people. Still, something is being done, for an association has been formed since the war began with the special object of capturing German trade by the federation of French industries."

SHORTAGE OF COKE IS FELT IN BERLIN.

Berlin, Oct. 1.—(Correspondence of the Associated Press).—With the approach of fall and winter, the shortage in coke that exists in Germany because of the war is being increasingly felt. The stoppage of English coal is responsible for the shortage.

The supply of coke formerly was manufactured from a mixture of English and Upper Silesian coal. Since the importation of the former ceased there has been a vain search for a substitute from which good coke could be made.

Austrian, Silesian, Bohemian, Polish and Westphalian coal all have been tried, and the result in each case has been the same. The resultant coke is so brittle that it breaks and virtually cannot be used with any degree of success because the pieces fall through the grating.

Price has ceased to be the controlling factor in the coke problem. The city of Berlin alone has expended an excess of some \$900,000 marks for coal supposed to be a substitute for the English product, as its mayor recently announced in rebuking a man who had charged that the shortage was due to niggardliness on the part of the municipality.

Each of the coals tried have been fine gas producers, but the residue has been unavailable for grate furnaces, and gas establishments that formerly sold coke as well have had to leave their contracts only partially filled. Experiments are now being made with a new kind of Westphalian coal.

400,000 BUSINESS MEN FOR TRAINING CORPS.

London, Oct. 1.—(Correspondence of the Associated Press).—The business men who wear the gray-green uniforms of the Voluntary Training Corps have increased until there are now over 400,000 of them. Still the difficulties as to their status and what they regard as the aloofness of the war office as to their usefulness continue. The red brassard with the "G. A." (which means "Georgius Rex") has not, as it seems to the volunteers, been accorded the full recognition that the sacrifices and the earnestness of the members warrant. But they grow in numbers and their president, Lord Desborough, and many others who are influential in the organization, including Lord Rosebery, who is the president of the Scotch branch, are hopeful that most of the duties of home defense may soon be entrusted to the volunteers.

In England and Wales alone there are already established forty county brigades or regiments. In Scotland there are seventy separate corps and new ones are being formed so suddenly and generally that those in charge of the movement are having difficulty in preventing organization on other than the accepted lines. In the county of Lancashire, for example, there are over 15,000 members,

Firestone Faith

The Firestone ideas of motor-ing are founded on a belief in the wisdom and common sense of the motorist—and this faith has been justified.

Firestone success has proven that the car owner wants safety, comfort and Most Miles per Dollar. He wants the quality that costs less to use.

The Non-Skid lettering is an imprint of safety. You need it always—but particularly at this time of year. It holds the standard for endurance and economy. The letters prevent spin or skid in any direction, they radiate the heat of road friction, insure perfect traction with gasoline economy, car-protection and maximum comfort. Everywhere experienced motorists praise Firestone performance.

Firestone NON-SKID TIRES

of whom 4,000 are in the city of Manchester.

Men who are not eligible to join the army, either on account of age or other disqualification, are in this organization, equipping themselves with rifle and uniform, drilling as many hours weekly as they can spare from their regular work, learning to shoot, to dig trenches and to perform guard duty and are performing functions of a police character ranging from coast patrol to watching over local water supplies. As an example of their work, the coast of Hampshire is now patrolled from Poole to Bournemouth by volunteers.

On Saturdays and Sundays, in particular, the uniform of the volunteers are seen at railway stations, on buses and throughout all parts of England on the roads leading to the camps where they put in the week-end drilling. Even the disturbing lack of interest at the war office in the volunteers and the recent ruling that a man with the uniform may be arrested if in a theater do not seem to check the growth of the organization.

BISHOP OF LONDON WRITES ABOUT ZEPPELINS

London, Oct. 1.—(Correspondence of the Associated Press).—A long pastoral letter dealing with the subject of Zep-

pelin raids has been issued to all the Episcopal churches in the metropolitan district by the Bishop of London. In it the bishop advises his flock as to the "proper spirit in which to face the danger of these coming evenings." He says, in part:

"We have no right to leave the task of saving the freedom of the world to our children; we must see it through to the end. And in doing so we must be ready to take our share of the danger. There must be a kind of glorying in London at being allowed to take our little share of danger in the Zeppelin raids."

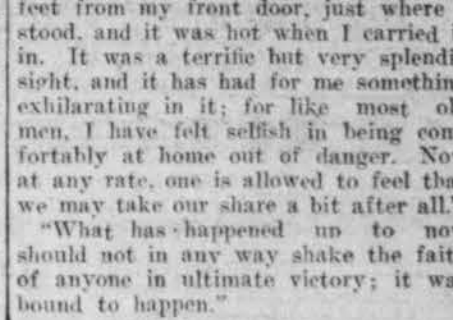

"As a gallant old clergyman said after one of the raids, 'The Zeppelin passed right over our house and was there spotted by the aircraft. One of their fuses, weighing over a pound, fell six feet from my front door; just where I stood, and it was hot when I carried it in. It was a terrible but very splendid sight, and it has had for me something exhilarating in it; for like most old men, I have felt selfish in being comfortably at home out of danger. Now at any rate, one is allowed to feel that we may take our share a bit after all.'"

"What has happened us to now should not in any way shake the faith of anyone in ultimate victory; it was bound to happen."

What Is Your Blood Pressure?

The age of the 40s is a critical period in every person's life. And one of the most common things that make it critical is increased "blood pressure" with its accompanying "hardening of the arteries."

Scientists have fully proven that increased blood pressure is caused by poisonous deposits in the delicate tissues of the arteries. One of the chief agents in this process is coffee, with its poisonous drug, caffeine.

"A man is as old as his arteries," life insurance companies say, and the Blood Pressure Test is one of the principal factors nowadays in determining a "risk." How do you stand?

If there is any doubt about coffee's hurting—if you have frequent headaches, biliousness, sleeplessness, nervousness, or heart flutter—try a 10 days' change to

Instant Postum the pure food-drink

Made of prime wheat roasted with a bit of wholesome molasses, Instant Postum contains no caffeine, no cumulative, harmful drug, nothing but the good food values of the cereal.

Postum comes in two forms: The original Postum Cereal—must be well boiled, and Instant Postum—the soluble form, made in the cup instantly.

One of the first steps away from increased Blood Pressure in coffee drinkers is POSTUM.

ISHPEMING TAX RATE LESS THAN NEGAUNEE'S

So Declares City Official in Statement Comparing Figures for the Year.

To The Mining Journal:—There seems to be a misunderstanding among many taxpayers as to a comparison of the tax rate in this city and that in Negaunee, judging from the many inquiries received during the last week, since statements were published in your paper, giving the tax rate in both cities for the year 1915. The impression seems to prevail that the taxes will be much lower in Negaunee than in Ishpeming. For the information of those who appear confused in the matter, I will state that the tax rate in Negaunee for general city purposes is considerably higher than in Ishpeming, as \$109,500 will be raised there, compared with \$90,250 that will be raised in Ishpeming. Included in the latter is \$8,000 appropriated for the construction of an incinerator plant and \$14,000 that is appropriated for street lighting, while Negaunee has no appropriation for the latter.

In Ishpeming \$35,000 will be raised for highway purposes, while Negaunee will raise \$40,000 for its streets and highways. Ishpeming will raise \$2,500 to be used for paying interest and redeeming bonds, while Negaunee will raise \$8,500 for the same purpose. The cost of maintaining Ishpeming's fire department is \$7,500, while Negaunee appropriated \$10,000 for that purpose. The appropriation for the Carnegie library is \$7,500, while the Negaunee appropriation is only \$1,000 for the library fund, which I understand is not enough to pay the salaries of the librarian and her assistant. Ishpeming has appropriated \$2,000 to the sewer fund, \$750 to the cemetery fund and \$35,000 to the contingent fund. In Negaunee the contingent fund appropriation is \$20,000. Ishpeming will raise \$25,000 more for school purposes than Negaunee, the total here being \$65,000, and in Negaunee, \$40,000, while the one mill tax in Ishpeming, on a total valuation of \$14,414,390, is \$14,414.39, while Negaunee will raise on its one mill tax \$15,921.56, on a total valuation of \$15,921,560.

In spite of the fact that Ishpeming will raise \$27,250 less for general purposes than Negaunee, and will contribute \$25,000 more to the maintenance of the public schools, there is a difference of only a little over \$4,000 in the total sum to be raised, exclusive of the amounts that will be paid for county and state taxes. The latter sums have not yet been determined.

While I do not know the number of children attending the schools in Negaunee, I am satisfied that the cost per capita in the two cities will show a balance in favor of Ishpeming. Comparing the population of the two cities the rate here is small in comparison to Negaunee.

CITY OFFICIAL.

DEATH OF BARNEY KILPATRICK.

Ishpeming Man Passed Away Monday in Milwaukee Hospital.

Barney Kilpatrick, who left here a few weeks ago to become a patient in a Milwaukee hospital, where he submitted to two operations, died Monday. He was suffering from a disease of the glands. One operation was on his neck. In the other one of his legs was amputated.

Mr. Kilpatrick was ill for some time before he left Ishpeming, and was confined to the Ishpeming hospital before he was taken to Milwaukee.

The remains have been taken to Cheboygan, his former home, where his wife, two children and his mother, are. Mr. Kilpatrick had been a resident of the county for about five years. He worked in Marquette for about a year and a half, leaving there to come to Ishpeming to take a position as solicitor and collector for the Metropolitan Life Insurance company. He left the insurance company eighteen months ago to take a position with the Jewel Tea company. He resigned some weeks ago on account of his health. He was about thirty-one years of age.

The Carnegie public library will be closed today for fumigation, by order of the health officer, Dr. V. H. Vandeventer.

SEVERE PIMPLES ALL OVER FACE

Would Burn and Itch. Scratched and Pimples Spread. Disfigured While They Lasted. Used Cuticura Soap and Cuticura Ointment. Face Clear as Anybody's.

Bruning, Neb.—"I had matted pimples all over my face so thick that you could hardly put the point of a needle on my face without touching one. They would burn and itch and I would scratch them till they would bleed. Then that would leave a mark. Scratching caused the pimples to spread. They disfigured me while they lasted."

"I underwent two treatments and used different soaps and ointments but they did no good. Then last of all I used Cuticura Soap and Ointment. I used the soap every morning and evening and the Ointment every evening just before I went to bed. To-day my face is as clear as anybody's." (Signed) Miss Myrtle Orth, June 7, 1914.

Keep your skin clear, scalp clean and free from dandruff, and hair luscious and glossy by using Cuticura Soap and Ointment.

Sample Each Free by Mail

STEEL CONCERNS TURN DOWN ORDERS

Leading Iron and Steel Companies of America Are Now Working Plants to Capacity.

From the steel centers of the east it is reported that hundreds of additional men have been taken on during the past week. Operations are now said to have reached almost a capacity basis in many lines, and some of the companies are turning down orders for delivery for the first quarter of next year, in the belief that higher prices will prevail later.

One of the oldest operators at Pittsburgh has expressed himself as follows upon the situation:

"The net earnings of the various steel companies over the next six months, in my opinion, will exceed the expectations of the most optimistic. For the first time in its history, the United States Steel corporation is getting the benefit in the way of earnings from its enlarged capacity. It is getting only fair prices at present, but before the close of the year the margin of profit will be as wide as it was in its best years. I predict that within the next three months United States Steel will be earning at the rate of \$25,000,000 a year.

"This would mean close to 30 per cent for the common stock. Even if the Steel corporation takes no action on the common dividend at the next meeting, the shareholders will have their equity in all this cash which is available for either dividends or new construction."

What is regarded as, perhaps, the most satisfactory development in the steel trade at present is the appearance of heavy buying by the railroads. Contracts for about 20,000 tons of steel for railroads are reported to have been closed in the East during the last few days and several of the large systems are making inquiries for cars. The placing, by the Baltimore & Ohio railroad, of an order for 62,500 tons of rails is thought to presage rail buying by other lines. There are estimated to be definite inquiries in the market for 4,500 cars, and such roads as the New York Central, Pennsylvania and Reading are said to be figuring on considerable new equipment.

With conditions as they are, prices are advancing. Some of the Eastern steel makers are now quoting \$14.5, Pittsburgh, on bars, plates and structural. This is an advance of \$1 a ton over the minimum, recently made by the leading makers. Forging billets at Pittsburgh have been advanced from \$33 to \$34 a ton, iron bars from \$1.50 to \$1.56 per 100 pounds, Philadelphia, and steel hoops from \$1.40 to \$1.50 per ton, Pittsburgh. At Chicago, the price of cast iron pipe has been advanced \$1 a ton. The large amount of vessel work, coming forward in the East, is said to have done much to stiffen the plate market.

Buyers for the European governments are now endeavoring to place fresh orders for early 1916 delivery, and they are encountering rising markets on all sides. France is said to have held back large requirements for the first half of next year, which must soon be placed. Italy has been asking for bids upon bar wire, plates, billets and bars running up, it is said, to 100,000 tons.

"POTASH & PERLMUTTER."

Comedy That Proved Last Season's Best Attraction Coming Next Week.

"Potash & Perlmutter," Al H. Wood's comedy, which was the best attraction that played the Ishpeming theater last season, will be seen here again a week from Friday, the 29th.

From the wealth of material in the Montague Glass stories of the firm of garment makers a play of wondrous humor and a thousand or more laughs has been woven. It is in three acts. In the first, the office and a portion of the work-shop can be seen. In the second act "Potash & Perlmutter" reach the pinnacle of their success, and their rise is illustrated in the reproduction of their new offices on Fifth avenue. The home life of the Potash is shown in the third act.

WILL BE "THE BUTLER."

To The Mining Journal—I would like to suggest that the name of the new theater, being erected on Main street, be changed from "The Ideal" to "The Butler." I offer this suggestion because I have heard many say that they thought the house should be named after the builder. I have also heard many express disapproval of "Ideal," as the name is so common, and can be found attached to patent shoe polish, gas heaters, steam boilers, and many other articles.

I wish to say, also, that the citizens of Ishpeming appreciate Mr. Butler's enterprise in providing a theater for Main street. This is particularly true of those who have property or business on that thoroughfare.

A WELL WISHER.

In reply to the above, I will state that I have received many suggestions along the line offered by "A Well Wisher" and I have decided to comply with the request of these friends and name the new theater "THE BUTLER."

VOGEL'S MINSTRELS.

John W. Vogel's Minstrels delighted a large crowd at the Ishpeming theater last night in an old time minstrel show with novel settings. The production was entitled "Japan" with Japanese costumes and scenic effects. Eddie Malle and Bobby Gossman scored as headline minstrel men. A large and interesting olio added much zest to the entertainment.

Learn to know it, learn to eat it. In its purity Baer's Prize Pig Sausage excels all others. Ask your grocer. (10-14-64.)

"THE CLEMENCEAU CASE."

Trio of Motion Picture Stars Will Be Seen in Feature Today.

"The Clemenceau Case," by Alexander Dumas, will be the Fox feature offering at Ishpeming theater at a special matinee this afternoon at 4 o'clock, also this evening. The cast is one of the strongest that has ever appeared in a Fox picture and includes Theda Bara, William F. Shea and Stewart Holmes, well-known stars. The production is in five acts.

"The Clemenceau Case" is said to be the capstone of Dumas' towering genius. Iza's sinister beauty and its effect on the lives of two men from the main plot of The Clemenceau Case, Pierre, her husband, she casts off. Constantin Ritz she leaves with his career as a talented sculptor, blasted. In turn she toys with Ritz, but Pierre saves Ritz against himself. He allows himself, ap-

FORMER RESIDENT GETS GOOD POSITION

O. J. Ethier Has Been Appointed Chief Deputy Treasurer of St. Louis County, Minn.

O. J. Ethier, of Stunt township, St. Louis county, Minn., a former Negaunee resident, who was born and brought up here and who left here about eighteen years ago to take a position as a mine clerk and bookkeeper on the Mesaba range, has been appointed chief deputy treasurer of St. Louis county, Minn., with headquarters at Duluth.

"Announcement was made by County Treasurer George H. Vivian of the appointment of two deputies in his office to fill the positions vacated by the removal of Joseph T. Nelson chief deputy and cashier, and Gust L. Wedan, bookkeeper and assistant cashier, following a disclosure of an alleged shortage of \$3,100 in their accounts.

"The county treasurer has appointed O. J. Ethier of Stunt township to fill the position of chief deputy and cashier in place of Mr. Nelson and has selected George A. Pearce of this city to succeed Mr. Wedan.

"Mr. Ethier for several years has been connected with the Corrigan-McKinnon company of Cleveland, well known operators on the Mesaba iron range. A few years ago when the company maintained offices in Duluth, Mr. Ethier was employed in the capacity of chief clerk and cashier. Later he went to Cleveland and was afterwards transferred to the large Stevenson mine in Stunt township, where he has been located for the last twelve years.

"The newly organized Knights of Columbus Social and Athletic club will hold its first meeting this evening, commencing at 8 o'clock. A new indoor baseball game will be introduced and a smoker will be held at its conclusion.

"In the membership campaign for the Ishpeming and Calumet associations of the Y. M. C. A. Ishpeming last night reported a gain of 4% miles. This makes a total of 22 1/2 miles, bringing the Ishpeming team within 1 1/2 miles of Michigan in the race. Calumet was not heard from last night.

"J. S. Wahlman, who has the contract for the erection of the new moving picture theater on Main street, is making excellent progress with the work. The side wall is up about twenty feet and the rear wall is up nearly ten feet.

"Mr. and Mrs. A. F. Hagen, of Lake Linden, are visiting Ed. J. Phillips and family for a few days. They stopped off here on their way home from Ironsides and Wisconsin points, where they spent several weeks. Mr. Hagen is superintendent of the Calumet & Hecla company's stamp mills at Lake Linden.

"A football eleven, the 'Jitney' team, has been organized and has arranged a game for Saturday afternoon with the High school second team. Several former high school players have positions on the Jitney eleven.

AMERICAN FAMILY SOAP advertisement with logo and text: Pure and Sure Penetrates every thread of the fabric leaving it sweet and clean without the slightest injury.

LICENSES RECEIVED.

Several Negaunee Men Have Been Deputized to Sell Them.

Justices of the Peace Irving H. Argall, John Alpine, William VerRan and John T. Burns, city recorder, have been deputized by County Clerk Jenks to issue deer licenses here. They received their license tags yesterday and will place them on sale today.

"The Negaunee men who are selling the licenses expect to dispose of a large number this year. Last season over 200 Negaunee hunters purchased licenses. Many of the Negaunee men plan to leave for their hunting camps a week before the opening of the season in order to get the places ready for their stay.

"Five Negaunee 'card sharks' were arrested Sunday morning at 6:15, while indulging in a 'quiet little game,' by Officer Richard Yelland. The men, Matt Kija, Axel Sundi, Wilfred Aker, V. Maki and John Jolton, were arraigned before Judge Irving H. Argall yesterday morning, and paid fines and costs which amounted to \$65.

GAMBLERS ARRESTED.

Charles Taylor spent yesterday on business at Saults.

LOCAL LAONICONS.

R. S. Archibald spent the past few days on business at Ironwood.

William Swartzberg was a business visitor yesterday at Marquette.

E. M. Klein is spending a few days partridge hunting at Au Train.

A daughter was born yesterday to Mr. and Mrs. Charles Steele, Case street.

Miss Jennie Weik is confined to her home on Ann street, because of illness.

George McCall departed yesterday for Duluth, Minn., where he will take a position.

Harold Barrett and Joseph Rickard spent the past few days rabbit hunting at Saults.

Work was started yesterday by the city, grading the railroad crossings on Silver street.

Guy Katus has gone to Detroit, where he is secured a position with an automobile company.

Ray Brotherton returned home yesterday morning from a short business visit at Escanaba.

Mr. and Mrs. Louis Levine, of Republic, visited yesterday with Negaunee relatives and friends.

Miss Mae Morrisette will leave tomorrow for Sisseton, Wis., to spend a few weeks visiting with relatives and friends.

Miss Julia Buckley, who was the guest of Mr. and Mrs. Charles Steele for a week, has returned to her home at Escanaba.

A few days here as the guest of her sister, Mrs. John Maga, has returned to her home at Escanaba.

The Misses Evelyn and Clara Raymond returned home yesterday from a month's visit with relatives and friends in the copper country.

Miss Christine Berg, who spent the past two weeks here visiting with her sister, Mrs. Louis Maga, has returned to her home at DePere, Wis.

Mr. and Mrs. T. H. Calligan and son, Donald, who spent two weeks here visiting with relatives and friends, have departed for their home at Sioux City, Ia.

James O'Brien, Jack Heiser and Victor Billeaud are spending the week at the former's camp at Saults. They will install a new water pump at the camp during their stay.

C. Meilleur received his new Buick demonstrating car yesterday. He drove it to the city from Marquette. Mr. Meilleur has the agency for the Buick company in Negaunee.

The third episode of 'The Broken Coin' will be the feature tonight at the Royal theater. A two reel Irish melodrama, 'The Ulster Lass,' and a Jokers comedy, 'A Skin Game,' will be the other pictures.

Rev. C. E. Lindquist, pastor of the Swedish Lutheran church, has gone to Manistique, where he will assist at a mission meeting, which is being conducted there. He was accompanied by Rev. Wyman, of Ishpeming.

The members of the Negaunee fire department are requested to meet at the fire hall tomorrow afternoon at 1:15 for the purpose of attending the funeral of the late Henry Theile, who had been an honorary member for several years.

Frank Willman, who is employed by the city electrical department, will leave tomorrow for Lansing, where he will visit with his brother, Walter, and cousin, John Gaffney, who are attending the Michigan Agricultural college. The boys will go to Ann Arbor on Saturday to

attend the M. A. C. Michigan football game. Mr. Willman will visit at Detroit and Chicago before he returns home.

August Allen and Jafet Rytkonen, owners and managers of the Star and Royal theaters, gave a midnight supper last night at the Breitung hotel to their employees, in honor of the fourth anniversary of the opening of the Star theater. The fourteen employees of the two theaters were present.

The recently organized Knights of Columbus social and athletic club, of the Ishpeming council, which includes all of the members of the council, will open its 1915-16 season's activities by holding a baseball smoker this evening in its club rooms in the Lossyong building, Ishpeming, at 8 o'clock. Arnold Saladin, of this city, is treasurer of the club.

The funeral of the late Henry Theile, who died Monday morning at the Presbyterian hospital, Chicago, where he had been a patient for two days, and whose remains were received here yesterday morning, will be held tomorrow afternoon from his home at 313 Brown avenue. The services will commence at 2 o'clock, and Rev. R. T. Hicks, pastor of St. John's Episcopal church, will officiate. The members of the Negaunee fire department and German Aid societies will attend the funeral in a body.

The eighth grade football team won its first victory Saturday afternoon when it defeated the Lake team 14 to 13. The game was fast and the outcome was in doubt until the last minute of play. Wesley Jennings, the eighth grade right half back, scored the two touchdowns for his team, and Rudy Field kicked the goals. The team has arranged several games to be played Saturday mornings. The eighth grade line up is as follows: George Haupt, center; Axel Olson, right guard; Connie Lacombe, left guard; Leo Field, right tackle; John Teiker, left tackle; Albert Doty, right end; Rudy Field, left end; Clair Knight, quarterback; Wesley Jennings, right half back; Clifford Sanders, left half back and Ernest Haupt, full back.

'A Skin Game'

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

If peevish, feverish and sick, give 'California Syrup of Figs.'

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals 'California Syrup of Figs' for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious 'fruit laxative' for it never fails to affect a good 'inside' cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 30-cent bottle of 'California Syrup of Figs,' then look and see that it is made by the 'California Fig Syrup company.'

GATHER SPAWN FOR HATCHERY

Number Gathered by Marquette Fishermen in Last Few Days Indicates Record Yield—Expect to Total Over 15,000,000 by the End of Spawning Season.

Spawn Sent to State Hatcheries at Duluth—After Hatching Out in Spring, Fish Are Distributed Through Michigan Waters—Advocate Marquette Hatchery.

This year's collection of lake trout spawn, which is now being gathered by Marquette fishermen to be sent to the federal fish hatchery at Duluth, Minn., will far exceed the amount obtained here in any previous year. It is the opinion expressed by Robert Stiles, of the United States fish bureau, who is supervising the care and transportation of the spawn. The yield Monday alone totaled over 1,600,000 eggs, which brought the aggregate for two days' fishing to 2,900,000. Spawning gathering will continue until about Nov. 8, and during this period it is estimated that the number of spawn obtained will be between 15,000,000 and 20,000,000.

Previous to this year the record yield was in 1913, when about 12,000,000 spawn were obtained. Last year's total of 10,000,000 represented an average season's yield. The weather thus far this fall is particularly favorable for spawning gathering, as the lake trout have been keeping within a short distance of the shore, where they are easily caught.

Eighty Per Cent Hatched. The scientific propagation of lake trout at the government hatcheries at Duluth has been found to be of inestimable value in increasing the supply of these fish for Michigan waters. Eighty to 85 per cent of all the spawn sent to the Duluth hatcheries is developed, which is immeasurably above the average for the natural reproduction of the fish. In the spring, after the hatching is complete, part of the fish will be shipped here, and the remainder distributed at other ports. Owing to the lack of space at Duluth for developing so many fish at one time, and because of the limited facilities for transportation, Marquette will probably not receive more than a small fraction of the lake trout hatched from the spawn sent up from here.

Advocates Hatchery Here.

"A fish hatchery right here at Marquette would solve this problem nicely," said Dan Morrison, manager for the Parker Fish company yesterday, in discussing the percentage of lake trout obtained from the Duluth hatcheries. "With so many millions of spawn hatched at Duluth at the same time, the limited space there makes it necessary to effect a distribution of the fish as soon as possible. Because of the difficulties of transportation, this means that Marquette receives only a small fraction of the fish that our own hatchery would yield. Another advantage of a Marquette fish hatchery would be that it would afford us ample room to care for the newly hatched fish until they grow large enough to protect themselves. As things are, the fish are deposited in these waters when they are hardly as large as a pin, and many of them perish.

"To build a hatchery here and equip it according to the usual plan for government hatcheries would require an expenditure of about \$15,000. The expense for maintenance, including the permanent employment of three men, with additional help through the spawning season, would amount to \$2,500 per year and upwards, depending upon the scale of operations.

Marquette Yields Half.

Lake trout spawn are gathered annually from two points on the north shore, from eight or nine places about Isle Royale, from Munising, Marquette, and from about four other sources. Of these, Marquette supplies over one-half the total yield. Nets are stretched about eight miles up and down the coast, extending out a half mile from shore.

Although this is the closed season for lake trout, fishermen engaged in the gathering of spawn for the government hatchery are permitted to keep all the fish caught in their nets.

Monday the fish from Theora and Columbia averaged a ton of fish apiece, and there was besides the catch of several fishermen who use gasoline boats. The number of lake trout deposited in these waters after hatching next spring will

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off With Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should be clean to clear after you have taken the tablets a few nights. Cleanse the bowels and the liver with Olive Tablets. Dr. Edwards' Olive Tablets are the successful substitute for calomel—they never cause any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating. No one who takes Olive Tablets is ever cured with "a sick" feeling, bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color. Dr. Edwards spent years among patients afflicted with bile and bowels, and Olive Tablets are the immensely effective result. Make one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists. The Olive Tablet Company, Columbus, O.

COUNTY FARM INMATE DIES FROM EXPOSURE

George Belegar, Aged 83, Wandered Away Last Saturday—Found Dead Yesterday.

George Belegar, the aged inmate of the county poor farm, who wandered away last Saturday, was found dead yesterday morning, his body lying alongside the creek near the old stone quarry in South Marquette. Death had been caused by exposure, and Coroner William Prip, of Ishpeming, decided that no inquest was necessary.

Belegar, who was eighty-three years old, and in feeble physical and mental condition, strayed from the county farm last Saturday morning, but his absence was not discovered until that afternoon. He had wandered away before, and as he had always returned within a short time the authorities at the institution were not much concerned over his absence. When he failed to put in his appearance by the following night, however, a search was started, but no trace of the body was found at 11:30 yesterday morning by Alex Fraser, a railway employe, who was searching for muskrats along the creek. He recognized it as that of Belegar, and informed the keeper at the county farm, but for days the body was lying face down alongside the creek, with one arm in the water. The clothes were soggy with moisture, and it is not known whether the aged man crawled through the creek and was emerging on the other side, or whether the faint flicker of life in his body gave out just as he reached the creek. It is thought that he had been dead since Saturday night, as he was last seen around the stone quarry Saturday afternoon about 5 o'clock.

Belegar had been an inmate of the county poor farm for over twenty years, having been there since Sept. 22, 1893. He has neither relatives nor friends, and the county will bear the expense of his burial.

2,400 CONVICTS AT SAN QUENTIN PRISON

Members of American Association Pay Visit to California Penitentiary.

James Russell, who has been in the west the past two weeks, in attendance at the annual meeting of the American Prison association at Oakland, Cal., visited with the members of the association the much talked of San Quentin penitentiary, the state prison of California.

"The prison impressed the visitors principally by its size," Mr. Russell said yesterday. "It has a population of 2,400, of one much larger than the population of all three Michigan prisons. Its location is most forbidding. It is on a thumb of land on the bay, opposite San Francisco, surrounded on three sides by water and on the landward side towering cliffs, surrounded by Gatling guns, from inside the prison walls there is not a spear of grass; no, not even a weed. The yard is a sun baked clay, which seethes up into dust under the feet of the men.

"The prison was originally built there because a deposit of clay suggested a brick making industry, but since the work at the prison has been greatly expanded and many industries are conducted. Our information about the institution was limited by the fact that the officers were in a furor because a man had just killed himself by throwing himself out of the fifth story window of one of the towering buildings in the narrow enclosure.

"The impression made by this great penitentiary on the prison men from all parts of the country was not a happy one. Many men appeared to be lolling about the yard, and their attitude was one of insolence. They sized our party up most searchingly and judging by their expressions they were not greatly impressed by us. There were many evidences of lax discipline and we were surprised to find the convicts smoking cigarettes in the jute bag factory. The men were unkempt and their attitude indicated that they were not well in hand."

Warden Simpson, of the Jackson prison, and members of the board of control of the Michigan institution were in attendance at the association meeting. Many of the speakers expressed the opinion that the so-called "honor" system has been carried entirely too far in the prisons of the country, and that much mischief will result.

WILL CLOSE ROAD.

Repairs on Carp River and Lake Street Bridges to Be Started Next Week.

After next week the road between the Lake street bridge and the Carp river bridge will be temporarily closed. The department of mines works will replace the long bridge on Lake street and put a concrete floor on the other bridge, which will necessitate the closing. All traffic will have to make a detour upstream, where a new road is being built.

Belegar had been an inmate of the county poor farm for over twenty years, having been there since Sept. 22, 1893. He has neither relatives nor friends, and the county will bear the expense of his burial.

OLD RESIDENT DIES.

Placid Mallette, Aged 61, Succumbs After Long Illness—Infant Also Dies.

Placid Mallette, aged 61 years, who has been a resident of this city for many years, died yesterday at his home, 439 Craig street, after a lingering illness. He is survived by a widow and seven children, of whom two are daughters and five sons. Funeral services will be held on Thursday at 8:30 a. m. at St. John's church, with interment at Holy Cross cemetery.

CENTURION IN COLLISION.

Comes Together With Lumber Steamer E. L. Hines Off Port Sanilac.

The steamer Centurion, which makes regular trips to the Marquette harbors, collided with the lumber steamer E. L. Hines, of the Hamilton Transportation company, off Port Sanilac in Lake Huron, in the dark early Monday morning. The Centurion is owned by the Cleveland-Cliffs line, and was up-bound with a cargo of coal. The Hines was damaged to the extent of about \$15,000 but proceeded to Port Huron under her own steam. The Centurion continued on the lake, after standing by to render assistance to the Hines. The cause of the collision has not been ascertained.

KNIGHTS OF PYTHIAS HONOR DIGNITARIES

Held Reception Last Night for State Grand Chancellor and Record Keeper.

Grand Chancellor Commander A. E. Sharpe, of Sault Ste. Marie, and W. E. Hampton, of Charlevoix, grand keeper of records and seals, were entertained at a special meeting of Marquette lodge at a special meeting of Pythias, which was attended by 125 members. As these dignitaries take high rank in Pythian circles, the grand chancellor commander, in fact, being the highest official of this order in the state, members of the Marquette lodge deemed the visit a great honor, and because of this the entertainment last night was along more lavish lines than usual.

A. E. Sharpe and W. E. Hampton were attending the meeting of the copper country Knights of Pythias for the last few days, and on their return trip, stopped over to favor the Marquette lodge with a visit. A telegram sent previously to Grand Chancellor W. A. Ross of this city made known the intended visit and arrangements were made for their reception.

The meeting last night was featured by speeches from the visiting officials, and by the initiation of four new members.

PHONE COMPANY READY FOR WINTER

Linesmen Throughout State Have Been Preparing for Season of Storms.

"Getting ready for winter" is an annual task of the telephone companies. It is especially important in the upper peninsula, where the winter storms are most severe, and so it is given particular thorough attention in this region. It has been in progress the past several weeks, according to K. S. Baker, the district manager, and is now well advanced.

"General repair work is in progress on the thousands of miles of toll lines owned and operated by the Michigan State telephone company throughout the state, getting long distance circuits in such condition that there will be the least possible amount of trouble," said Mr. Baker. "In this district the company has covered completely the toll lines between Marquette and Seney, Ironwood and Thomas, Republic and Humboldt, Michigan and Houghton, Houghton and Painesdale, and Marquette and Ishpeming. And there has been numerous pole moving jobs, the company has had to undertake because of the new and better roads being built throughout the district.

"The company prides itself on the excellent service rendered on its toll lines. To keep these circuits in perfect condition requires careful attention to the minutest details at all times, and especially during the months immediately preceding the stormy days of the winter season. You may not believe it, but during partridge and deer season we are put to great expense by careless and thoughtless hunters destroying our property. Especially in this case with insulators and the wires. In many cases we have had lines shot in two by some overzealous hunter aiming the 'wrong way.' It is the established policy of the company to anticipate trouble and to remedy defects on its lines before any difficulty arises. This requires the expenditure of thousands of dollars. A considerable amount of equipment is discarded that might possibly be made to do further service at the risk of interruptions. However, 'service first' is the slogan of the organization, which has always believed it

The Real Value of Money

consists not alone in what it can do for one to-day, but as well in what, accumulated, it can accomplish tomorrow.

The Accumulation of Money upon the part of the ordinary individual means strict adherence to certain well established rules of conduct.

Chief Among these Rules is this very obvious one: The expenses of living should always be less than the income.

The First National Bank, Marquette, Mich., is the place to do the accumulating. Small deposits are always welcome, and if you will make it a rule to deposit your surplus at interest, you will have something of value for your tomorrows.

HIGH SCHOOL ISSUES SEPTEMBER REPORT

Clarence Zerbel Leads the Entire School With Average of 93.5—Other Averages.

Clarence Zerbel, with an average of 98.5, leads the senior class of the high school, besides attaining the highest average for the entire school, for the month of September. The new system for tabulating class and individual averages was recently perfected by principal H. D. Hughes, and the complete report for the first month of the school term was announced yesterday. By this new report, the comparative averages of the respective classes are shown, besides the highest individual class and school averages.

To the parents of the students attaining the highest averages, letters of a complimentary nature are sent by principal H. D. Hughes, while parents of students below the average grade are requested to look into the causes for the deficiency.

The summary for the month of September follows: Average grade of entire school, 83.2. Average Grade by Classes—Juniors, 84.2; Seniors, 83.4; Sophomores, 82.6; Freshmen, 82.3.

Percentage of Failures by Classes—Seniors, 2.5; Sophomores, 2.9; Juniors, 4.2; Freshmen, 6.1.

Percentage of Grades of 90 per Cent. or Above, by Classes—Seniors, 22.4; Juniors, 21.3; Freshmen, 18.6; Sophomores, 14.6.

Percentage of Grades Under 80 per Cent., by Classes—Juniors, 16.4; Seniors, 17.8; Sophomores, 20.6; Freshmen, 30.0.

High Scholarship Honors by Classes. Seniors—Clarence Zerbel, 98.5; Walter Koepf, 96.25; Gertrude Kraft, 95.3; Nancy Lindstrom, 92.00; Elmer DeArmier, 91.75; Orville Bell, 91.75; Clara Hansen, 91.6; Mabel DeHaas, 91.5; Edward Van Evert, 91.5.

Juniors—Sadie Hill, 96.25; Helen Johnson, 95.3; Alice Micklow, 92.7; Frieda Fine, 92.5; Charlotte Cummings, 92.00; Adeline Glover, 90.00.

Sophomores—Eleanor Fredericksen, 93.5; Rhoda Frei, 92.5; Philip Spear, 91.75; Walter Frei, 91.00.

Freshmen—Donald McLean, 93.00; Florence Ryan, 91.50; Gladys Johnson, 91.00; Ida Lar-geness, 90.75.

Scholarship Honors for Entire School. Clarence Zerbel, (senior) 98.5; Walter Koepf, (senior) 96.25; Sadie Hill, (Junior) 96.25; Gertrude Kraft, (Senior) 95.3; Helen Johnson, (Junior) 95.3.

Theatrical

Opera House. "Wormwood," a Wm. Fox production with a powerful cast and elaborate settings, is today's attraction at the opera house. This is a \$100,000 photo-dramatization of Marie Corelli's greatest novel and play, and contains a cast of renowned players, headed by Ethel Kauffman and Charles Arthur. It is the story of Beauvais, the unhappy victim of the absinthe curse, who is started on his downward career when he learns on the eve of his wedding that his fiancée has given her love to Sylvio, his dearest friend. In the grip of absinthe, the wormwood-distilled liquor, Beauvais becomes little better than a brute. The story is one of powerful intensity, with a climax that has seldom been equalled for sheer pathos and heart-rending pity.

Tomorrow's feature at the opera house will be another Wm. Fox production, entitled "The Two Orphans," with Theda Bara and William Shea.

Delft Theater. Marguerite Courtot is the center of interest in "The Vanderhoff Affair," the four reel Kalem production, which is being shown today at the Delft theater. The story is told to be a constant succession of thrilling situations, in which Marguerite Courtot is particularly effective in several charming scenes. The star depicts the role of a girl, whose father has left her in the keeping of his brother, who feeds her the insanity weed to her. His object is to have her committed to an insane asylum, so as to inherit her fortune. The hero, however, manages to learn the truth, and the ensuing scenes provide a constant succession of thrills.

If you can raise \$27.50 you had better buy five tons of coke from the Marquette Gas Light Co. at once and save money. 10-20-15

MENOMINEE SKEPTICAL.

Questions Highs' Present Right to Aspire to State Championship.

Menominee is somewhat skeptical of the Marquette Highs' right at this juncture to aspire to state championship honors. The Herald-Leader says: "The Marquette football team, according to reports breezing out of the north-land, is negotiating with a southern peninsula team for a game to decide the championship of the state.

Well, Well, Well! Far be it from us to discourage the championship aspirations of anyone, least of all those of our friends from the prison city, but Marquette must first win the upper peninsula honors before it can go very much further toward claiming state football supremacy.

This is just to call attention to the fact, for fear it may have slipped your mind, Marquette, that Menominee is still in Michigan. And Menominee's football team—do not forget it—is still unbeaten, and furthermore has full confidence of remaining so.

The Escanaba Mirror is right with us in the suggestion that before Marquette can claim the championship of anything over its own county, it had better beat Menominee or else get some other team to do so. The Mirror says: "According to the 'dope,' Marquette High school is primed for the state championship, and is now trying to interest the Marquette school board in the matter enough to secure its cooperation. However, there is still Menominee to be reckoned with, and if comparisons at this stage of the game give any line on the relative merits of the two squads, it is a toss-up whether Marquette or Menominee is the better. A game between the two would be the means of settling the question, and this is the intention of backers of both squads, it is believed.

BULGAR DIPLOMAT TO BE PROSECUTED

Sofia, Oct. 19, via London.—Not only has M. Majaroff, Bulgarian minister to Russia when diplomatic relations between the two countries were broken, been dismissed from the diplomatic service, but he will be prosecuted because of the interview he is charged with having given to a Progress newspaper criticizing the action of his government. It is stated here, General Radko Dimitrieff and all other reserve officers who have not returned to Bulgaria will be considered deserters and treated accordingly.

A shortage of gold balls in Germany is reported, but it isn't causing anywhere near so much alarm as would result from a shortage of siege guns and high explosive shells—Springfield Union.

WOMAN COULD NOT SIT UP

Now Does Her Own Work. Lydia E. Pinkham's Vegetable Compound Helped Her.

Ironton, Ohio.—"I am enjoying better health now than I have for twelve years. When I began to take Lydia E. Pinkham's Vegetable Compound I could not sit up. I had female troubles and was very nervous. I used the remedies a year and I can do my work and for the last eight months I have worked for other women, too. I cannot praise Lydia E. Pinkham's Vegetable Compound enough for I know I never would have been as well if I had not taken it and I recommend it to suffering women."

Daughter Helped Also. "I gave it to my daughter when she was thirteen years old. She was in school and was a nervous wreck, and could not sleep nights. Now she looks so healthy that even the doctor speaks of it. You can publish this letter if you like."—Mrs. RENA BOWMAN, 161 S. 10th Street, Ironton, Ohio.

Why will women continue to suffer day in and day out and drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

Who's your tailor?

TRADE MARK REG. 1900 BY ED. V. PRICE & CO.

If you have ever had a suit made here you know all about the kind of service we give our customers.

If you haven't, you are overlooking the one best bet in clothes satisfaction.

When you can get the benefit of the very best tailoring organization in the world at prices no higher than the ordinary kind you would be making a big mistake if you didn't take advantage of it. Of course you would. That's reasonable.

It's a fact that our customers come back for the next suit, and it's simply the good fit, the good workmanship, the good quality of goods, and the general satisfaction that makes them come again.
