

GREECE DECLINES BID OF ALLIES FOR ASSISTANCE

ATHENS AWAITS DECISIVE BLOW BEFORE ACTING

Refusal of Island of Cyprus and Other Concessions to Bring Hellenic Government to Aid of Serbia Against Bulgarian-Teuton Armies Was Expected.

Not Until Anglo-French Can Win Victory, Assuring That Alliance Forces Won't Overrun His Land, Will King Constantin Change Attitude, It Is Believed.

Athens, via London, Oct. 22, 10:40 p. m.—It is officially announced that a bombardment of the Bulgarian coast from Dedeaghat to Porto Lagos, a distance of thirty-eight miles, was begun by the allied fleet yesterday.

London, Oct. 22, 8:30 p. m.—The British Mediterranean squadron today bombarded the Bulgarian port of Dedeaghat in the Aegean sea, according to a telegram from Sofia received by Reuters' Telegram company by way of Amsterdam.

Sofia, via London, Oct. 23, 12:15 a. m.—No damage was done by the bombardment of Dedeaghat by the allied fleets.

London, Oct. 22, 10:10 p. m.—Greece has declined for the present the allies' offer to her of Cyprus and other concessions, territorial and financial in return for her adherence to the Serbo-Greek treaty of alliance, which would mean military aid to assist in meeting the Bulgarian and Austro-German attacks against her former ally. The reply of Greece to the offer, which reached the foreign office tonight, is a long one and while it has not been made public there is reason to believe that the Hellenic kingdom bases its decision not to join the allies on the ground that the Anglo-French force landed at Saloniki is not, in the Greek government's opinion, strong enough for the task allotted it.

WAITING FOR ALLY VICTORY.

The refusal to accept the allies' offer was not unexpected, as it has been stated often in official circles that both Roumania and Greece were withholding their assistance until the allies either won a decisive victory or proved to the Greeks and Roumanians their ability to do so or until the operations had reached a stage which would assure them that their countries would not be overrun by the forces of the central powers or their Turkish and Bulgarian allies.

While Greece's refusal of the offer is indefinite so far as the present is concerned, it is felt by London commentators that a material strengthening of the entente allied contingent at Saloniki would have a pronounced influence on the attitude even of the Greek government. It also is believed by observers here that Greece cannot persist in her present ambiguous position and that public opinion, which is generally understood to favor the entente allies, probably will exercise its influence.

SITUATION ADMITTEDLY SERIOUS.

There is no inclination here or in the capitals of the other members of the quadruple entente powers to minimize the seriousness of the situation in Serbia. The Austro-German and Bulgarian campaign is developing slowly, but the plans are now fairly clear. The Austro-German center is advancing down the Morava valley from Semendria while the Bulgarians have got across this valley to the south and command the Belgrad-Nish-Saloniki railway. The Austro-Germans have three other forces engaged, one in the northwest near Shabatz, one at Belgrad and the third which has not yet crossed the Danube about Orsova. The Bulgars also have other armies moving across the frontier near Zaitar, Piro and Nish, and farther south near Egrí Palanka and Kohane, and claim to be already in Velezo, on the Vardar river. It is this latter force the Anglo-French troops landed at Saloniki probably will first encounter.

RUSSIANS FORGE AHEAD.

The Russians, taking advantage of the removal of German troops on the front

to reinforce Field Marshal von Hindenburg for his drive at Riga, which seems to have been checked, have been delivering some fierce strokes at the German center on the Styr and in Galicia. In all these they have had at least partial successes.

The latest offensive by the Russians was assumed north of Tarnopol, where the carrying of Austro-German positions gave the Russian soldiers nearly 8,000 prisoners, two howitzers and a number of machine guns. These prisoners, added to those taken near Baranovich the day before, make a total of more than 11,000 Austrians and Germans captured in two days.

The Germans on the other hand claim that their counter attacks, both on the Styr and at Baranovich, were successful, and according to the Berlin official communication the Russians taken prisoner totalled upward of 4,000. The Germans admit, however, the loss of six guns on the Styr.

FRENCH REPULSE ATTACKS.

In the west another German attack, according to French accounts, has been repulsed in Artois while a contemplated attack in Champagne was presented by the French artillery.

The Italians continue their offensive in Tyrol and Trentino, where it is progressing, and along the Isonzo. No advance is reported in the latter region.

During the week ending Oct. 20 only one British steamer, the Salerno, was sunk by a German submarine. This is the lowest record in British ships sunk for months. Unofficial reports say that the British submarines have added three more ships to their bag in the Baltic during the last twenty-four hours. Some mystery surrounds the sinking at Hamburg by the Germans of three British steamers which have been interested there since the beginning of the war. They were all small vessels.

GERMANS LOSE 60,000 MEN.

London, Oct. 22, 2:35 p. m.—A dispatch reaching London from Nish today says official announcement has been made at the Serbian capital that the losses of the Austro-German army of invasion have reached 60,000 dead wounded and prisoners. The Serbians are said to have repulsed the invaders.

ITALIAN ATTACKS SUCCEED.

Rome, Oct. 22, via Paris, Oct. 3, 2:10 a. m.—An official statement issued here tonight by the Italian war office says: "The offensive successfully begun in the Tyrol and Trentino has been extended all along the line to the sea. Many Austrian positions have been taken."

The statement adds: "On the Carso the enemy's lines have been broken at several points and the enemy's forces annihilated. Twenty-five officers and 1,184 men have been made prisoners."

SOLDIERS KILL TWO MEXICANS, SAID OUTLAWS

Brownsville, Tex., Oct. 22.—A detachment of the Sixth cavalry late today fired on and killed two supposed Mexican bandits who were crossing the Rio Grande at the San Pedro ranch twelve miles up the river from Brownsville. Both were armed. The bodies were not recovered.

Two Mexicans whom the sheriff's department is holding as bandit-suspects, were arrested today by two Mexican special deputy sheriffs near the scene of Monday night's train wreck, robbery and murders. The Mexicans could give no clear account of themselves.

Mayor Albert Brown today called a meeting of representatives from the towns in this section to be held tomorrow for the purpose of discussing the border situation with a view of alleviation of its terms.

VON BERNSTORFF SLEEPS IN NEW YORK BECAUSE HE CAN'T FIND BED IN HOME

Washington, Oct. 22.—Between diplomatic worries and the trials of house-cleaning, Ambassador von Bernstorff is having a tough time. After one of his recent hurry-up trips to Washington to confer with Secretary of State Lansing, who worked on high ladders and scaffolds had disorganized everything, the immaculate ambassador rushed out of one door, under a ladder, dodged a paint pail and reached safety in the opposite doorway.

"Will you stay here over night or return to New York?" he was asked.

"I'd like to stay here, at least one night," he said, and waved his arms desperately toward the workmen, "but I cannot find my bed."

Union carpenters are opening a big organization campaign throughout the Toronto district, Canada, which extends as far east as Whitty.

EDITH CAVELL DIED BRAVELY GERMANS AVER

British Nurse Went to Execution Like a Heroine, Asserts Teuton Chaplain—Woman Previously Had Told Confessor She Was Not Afraid—Is Called a Martyr.

Brand Whitlock, American Minister to Belgium, Making Every Effort to Obtain Body—Paper Says That Taking of Miss Cavell's Life Increases Indignation.

GERMAN PAPER'S ACCOUNT.

Amsterdam, via London, Oct. 23, 3:47 a. m.—The Vossische Zeitung's Brussels correspondent describing the trial of Miss Edith Cavell and the other persons accused with her, says: "The evidence showed the existence of a regular organization to bring officers and men of the allied armies who had been left behind in Belgium, over the Dutch frontier. Most of the thirty-five of the accused did not deny the accusation. On the contrary, they declared they considered it their duty to help their country."

"The leader of the organization was Prince Reginald De Croy, who could not be arrested, but whose wife, Princess Marie De Croy, was among the accused. The chief accomplice of the princess was Miss Cavell.

SMUGGLED MEN OVER LINE.

"British and French soldiers were smuggled over the Dutch frontier with the help of the Countess de Belleville. Regular stages were established and the officers and soldiers were escorted from stage to stage by trustworthy persons to a central point in Brussels, which was the British hospital.

"Here they remained until they could safely be taken to Holland, which was done at the dead of night over the suburban tramway line to the frontier. Miss Cavell denied having compelled other persons to lodge fugitives when her own house was full."

COMMERCIAL INVASION FACES AMERICA, HE SAYS

Former Vice President Fairbanks Asserts Protective Tariff Is Imperative After War.

Louisville, Ky., Oct. 22.—Warning that the United States should prepare for a "commercial invasion" as well as for a military invasion was voiced by Charles Warren Fairbanks, former vice president, in an address delivered at a political meeting here tonight.

"The present prosperity of certain industries based upon war orders is inherently temporary," he said. "Within the period of the next administration, our own national life and the markets of the world are going to be profoundly affected by the great conflict now raging abroad. We must meet that with a constructive pro-American program, which consists of: first, the restoration of the protective tariff; second, adequate preparation for national defense; third, the restoration of the American flag to the oceans; fourth, organization to market our wares in the world markets.

"We must not only have our own ships, we must establish ample banking facilities at strategic points in both hemispheres so as to affect credits more and more through our own agencies and to extend credits. We must send young men to the different countries to learn the language of the people, to learn their wants, whims and prejudices. If we are to win new trade, we must do business as others desire rather than to try and force upon them our methods."

HELD UP LIKE HEROINE.

"We sat quietly talking until it was time for me to go. She gave me parting messages for relatives and friends. She spoke of her son's needs at the moment and she received the assurance of God's words as only a Christian can do.

"Then I said goodbye and she smiled and said: 'We shall meet again.' "A German military chaplain was with me at the end and afterward gave her a Christian burial. He told me: "She was brave and bright to the last. She professed her Christian faith and said she was glad to die for her country. She died like a heroine."

Mr. Whitlock, in enclosing the letter he wrote to Baron von der Lancken, the German governor, at the request of President Faider, of the court of appeals in Brussels, and the president of the Belgian School for Nurses, asking that Miss Cavell's body be delivered to the school, says:

TRYING TO OBTAIN BODY.

"I have not received a written reply to my note to Baron von der Lancken on the subject, but he came to see me yesterday afternoon and stated that the body had been interred near the prison where the execution took place and that under the regulations governing such cases, it was impossible to exhumate the body without written permission from the minister of war at Berlin.

"He added that he had no authority to ask for permission to exhumate the body, but that immediately upon the

return of the governor general he would request him to take the matter up.

EXECUTION CALLED INHUMAN.

The Hague, via London, Oct. 22.—Indignant over the execution in Brussels of Miss Edith Cavell, an English nurse, the Nieuwe Courant, after relating the story of her execution, calls her "one of the great martyrs of centuries," but recognizes the fact that by sheltering her own countrymen who were enemies of Germany she committed a punishable crime.

"But the execution was inhuman," the paper declares. "The Germans apparently desired to give a terrifying example, which, however, only aroused bitterness and strengthened the opinion in neutral countries that Germany is ruling Belgium with unnecessary cruelty and harshness."

WASHINGTON GOVERNMENT TAKES STEPS TO START VIGOROUS INQUIRY INTO ORIGIN OF MEXICAN OUTLAW BANDS IN TEXAS—DEPARTMENT OF JUSTICE WILL SEND AGENTS.

Washington, Oct. 22.—Eliseo Arredondo, who received the recognition of the United States and the Latin-American republics for the Carranza government in Mexico, will leave here tomorrow for the Mexican border to present in person to his chief the communications handed him by Secretary Lansing and ministers last Tuesday.

Mr. Arredondo has had long talks with Secretary Lansing and members of the Latin-American diplomatic corps on Mexican affairs generally and will make a full report on the negotiations he has conducted here. It is understood that among the subjects he will discuss with General Carranza will be the situation on the border resulting from persistent raids by Mexican bandits in American territory.

TROUBLE STARTED ON U. S. SIDE?

In addition to strengthening the military forces on the border the United States government today took steps toward instituting a more vigorous inquiry into the origin and cause of the raids. President Wilson conferred with Attorney General Gregory, who is preparing to send a large squad of agents of the department of justice to the scene. Secretary Garrison ordered the Twenty-eighth infantry from Galveston to Harlingen and another regiment is being held in readiness for immediate service. Officials here are convinced that the Carranza authorities have no connection with the disturbances and are anxious to stop them. The belief prevails that influences on the American side of the line have much to do with a conspiracy to cause trouble.

VILLA HAS 16,000 MEN.

San Antonio, Tex., Oct. 22.—General Villa has under his command between 16,000 and 18,000 men, divided into eight or nine divisions, according to information reaching the headquarters of the southern department, United States army, in an official report today. Details of the movements of Villa troops in the state of Sonora, contained in the report said General Mendez, with six hundred men, had occupied Esquedá. An unknown number of Villa troops is in possession of Fronteras. General Urbuleja, the Yaqui Indian chief, who occupied Naco with 800 Yaquis, is believed to be sending a force to capture Anavaechi pass, which the Carranza garrison on Naco is said to be endeavoring to reach. No information of General Villa's personal activities was given in the report.

GUNNER STILLSON MADE U. S. DIVING INSPECTOR

Washington, Oct. 22.—Gunner George D. Stillson, one of the navy's expert divers, who made possible the recovery of the wrecked submarine E-4 at Honolulu, has been appointed assistant inspector of the new diving school to be organized at the Newport, R. I., navy torpedo station.

NINE INTERNED GERMANS HAVE ESCAPED SO FAR

Washington, Oct. 22.—An official list of missing members of the crews of the two German auxiliary cruisers issued tonight by the navy department shows that of a total of 783 officers and men, one commissioned officer, two doctors, an six warrant officers have broken parole. Not one bluejacket is missing.

CHICAGO NEWSPAPERMAN IS JOINED IN WEDLOCK

Chicago, Oct. 22.—Arthur Park, release editor of the Associated Press in its Chicago office, and Miss Gladys A. Russ, also of this city, were married here yesterday afternoon. Mr. and Mrs. Park have gone west on a honeymoon trip.

Mr. Park is wellknown in the iron and copper countries. He covered the Michigan copper strike in 1913 and has been sent to the upper peninsula on various other assignments.

U. OF M. AGGIES TO CLASH TODAY ON THE GRIDIRON

Elvens from Ann Arbor and Lansing Will Meet This Afternoon in What Is Expected to Be Snappy, Good Football—Nebraska Will Play Notre Dame. In East Contests Are Scheduled Which May Result in Unexpected Upsets and the Making of History for Game—Minnesota Captain Barred as Professional.

Chicago, Oct. 22.—Though four games in which Big Nine teams oppose each other are on tomorrow's football program, two contests outside the conference are likely to attract much attention in the central states. The two are the clash between Nebraska and Notre Dame and the annual meeting of Michigan and the Michigan Aggies. Topping the conference games in interest is the Wisconsin-Ohio State game. The schedule includes the following games:

Purdue vs. Chicago. Ohio State vs. Wisconsin. Iowa vs. Minnesota. Northwestern vs. Illinois. Notre Dame vs. Nebraska. Michigan Aggies vs. Michigan. Oberlin vs. Case. Western Reserve vs. Akron.

MUCH AT STAKE IN EAST.

New York, Oct. 22.—Although the football season has just crossed the midway mark the elvens of the leading Eastern colleges and universities will tomorrow face one of the most dangerous stages of their play. By an unusual coincidence there is not one of the big institutions teams that will enter the week-end contest certain of ultimate victory. As a result of this peculiar situation interest in the outcome of these games is keen since the possibilities for upsets and the making of football history exists in everyone of the principal matches. The schedule includes these games:

WILSON TALKING TO CONGRESSMEN OF ARMY PLANS

Washington, Oct. 22.—Formal announcement of the army plans in the national defense program to be laid before congress by the administration this winter awaits word from President Wilson that he has concluded his conference with congressional leaders on the subject.

While the president has approved the plan, which called for building up an army of more than 1,200,000 men in six years he has not yet had an opportunity to discuss it with all members of the house and senate, whose views he wishes to obtain.

Boston, Oct. 22.—The establishment of a permanent council for national defense was urged as a primary measure of preparedness by speakers at a mass meeting held under the auspices of the National Security league tonight.

IS NOT 'MILITARISM.'

It was the opinion of Governor Walsh that those citizens who were frightened by the word "militarism" were needlessly alarmed because, he said, there could be no such word "in a country where the citizens are soldiers and the soldiers are citizens."

ADVOCATES BIG NAVY, BUT OUT OF POLITICS

Chicago, Oct. 22.—A greater navy, a naval reserve and a merchant marine were urged by Admiral Robert Ross, U. S. N., retired, builder of the naval training station at Lake Bluffs, Ill., in an address at a luncheon of the campaign committee of the Navy league here today. Politics, he declared, should have no part in the solution of these problems.

CRUISER SAN DIEGO GIVEN SHOOTING TROPHY

Washington, Oct. 23.—The armored cruiser San Diego, flagship of the Pacific fleet was awarded today the Spokane trophy for the navy's highest score with turret guns for the year 1914-1915. The trophy was won last year by the battleship Arkansas.

WASHINGTON, OCT. 22.—The following is the weather bureau's forecast for Upper Michigan: Fair and slightly warmer Saturday; Sunday, fair.

STATE PRESS

Old-fashioned knockers have been eliminated from front doors—but we still have neighbors.—Lansing State Journal.

Uncle Sam has decided to recognize Carranza as the probably will stand for no undue familiarity.—Pontiac Press-Gazette.

About all it means when squirrels gather a big supply of nuts for the winter is that the crop isn't a failure.—Battle Creek Moon-Journal.

Henry Ford has given \$10,000 to the Canadian Red Cross, which will not doubt be received with better grace than were his opinions on the allies' war loan.—Detroit Free Press.

Poking fun at Henry Ford's suggestion for a miniature submarine is now in order. If history is due to repeat, this means the unqualified success of the plan.—Detroit News.

Steel gets in the sea are said to have stopped the German submarines and about all that remains to make this world look like a bird cage is to string nets in the air to keep the Zeppelins off.—Grand Rapids Press.

We must depend upon private industry for private needs, if war should come. Our industrial resources are ample for the purpose, but they should be trained and organized in time of peace, just as reserve soldiers should be trained and organized.—Adrian Telegram.

Hundreds of thousands of helpless Christian men, women and children are butchered in cold blood by the Moslem fanatic and a distinguished representative of a Christian nation asks that world to look upon the mutilated corpses and to believe that it was necessary.—Kalamazoo Gazette.

New York businessmen need not leave the city for lessons in trench warfare and mining operations. Nothing is lacking but a hostile warship in the offing and a Zeppelin in the upping.—Springfield Republican.

EDITORIAL OPINION

Down to the Husks

William Jennings Bryan's tirade in the Commons against preparedness for war is a sad thing to read because it is so striking an example of the piteousness of the man who has reached the husks, who has lost the spirit and retains only the semblance of apostleship, who has remaining at his command only the dry bones of technique and juggles back and forth the little tricks of his trade, ignorant of their stoniness and hollowness.

It is a long time since we have read anything more futile, more hopelessly fallacious, than this tirade by the secretary of state. We have the worn-out and discredited cry against the "jingo"; the old sneer at the prudent man who dares to discern danger from abroad, the old futile assurance that this nation never will be attacked but that if it is it will defend itself, though how or with what is left to the imagination. We have, too, the old slanderous statements about a subsidized press, fluntings against some imaginary glorification of brute force, the old blatant and hollow demagoguery about the greed of the armory-plate factories that stir up wars and are now trying to make this republic their victim. These are all bogies and false spirits that might have influenced public sentiment two years ago, but in the white light of the facts of today they take their proper places at the back of the cupboard to which are consigned the discarded myths and fictions of the race.

It is understood the government intends to reply to some of Mr. Bryan's charges and assertions—argument there is none in his tirade. We do not believe it needs to worry about these utterances. The country is pretty well awakened just at present and on the whole it will be able to distinguish the shadow from the substance without very much assistance.—Detroit Free Press.

The Main Unit

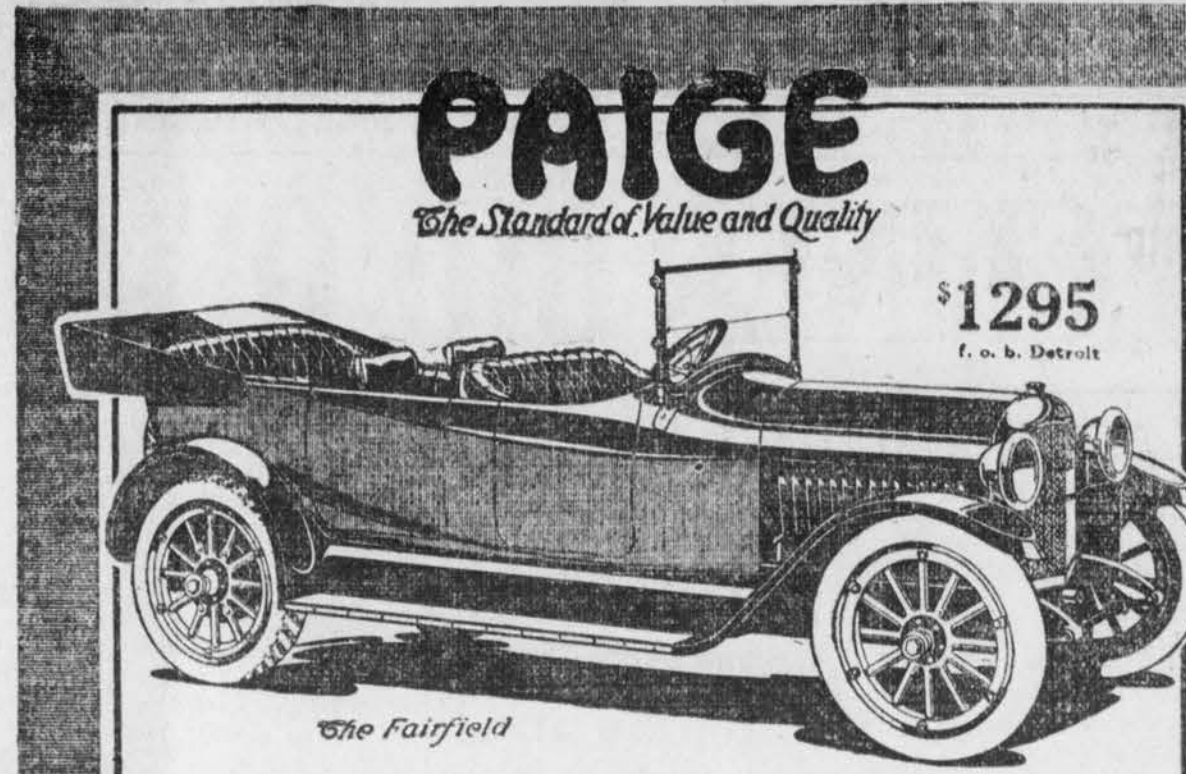

It is evident that there still must be put forth earnest agitation for a decided increase in the United States army. Apparently there are congressmen who oppose an increase. No pains should be spared to convince them of the vital importance of a much larger force of thoroughly trained soldiers, some of whom can be diverted to train volunteer troops in case it becomes necessary to call for volunteers.

It is known that the army staff corps, composed of picked men of the service, better informed as to the needs of the army and the country than any other class of officials, is very anxious to have

Orrine for Drink Habit

TRY IT AT OUR EXPENSE.
We are in earnest when we ask you to give ORRINE a trial. You have nothing to risk and everything to gain, for your money will be returned if after a trial you fail to get results from ORRINE. This offer gives the wives and mothers of those who drink to excess an opportunity to try the ORRINE treatment. It is a very simple treatment, can be given in the home without publicity or loss of time from business, and at a small price.

ORRINE is prepared in two forms: No. 1, secret treatment, a powder; ORRINE No. 2, in pill form, for those who desire to take voluntary treatment. Costs only \$1.00 a box. Come in and talk over the matter with us. Ask for booklet. The Stafford Drug Co., Front St., Marquette; City Drug Store, Negaunee, Mich.

Unique in Beauty, Quality and Popularity

WE believe that the Paige Fairfield "Six-46" is the most beautiful and the most distinguished-looking motor car—regardless of price—made in this country.

We know that no car in design, in workmanship, in materials, in features that mean luxurious motoring, in manufacturing methods and ideals offers more Sheer Value than the Paige Fairfield "Six-46".

We know that the Paige Fairfield "Six-46" is pre-eminently the most popular and most successful six-cylinder car of the year.

To combine in a single car the greatest beauty, the highest quality and the greatest public appreciation is, we believe, a unique achievement.

And yet the new Fairfield "Six-46"—at a still lower price—\$1295—is a still greater Value—a still greater Wonder-Car.

Such assets you buy in the seven-passenger Paige Fairfield "Six-46"—for \$1295.

If you want a five-passenger car, you must see the Paige Hollywood "Six-36"—\$1095.

Paige-Detroit Motor Car Company, Detroit, Michigan
S. J. Mitchell, Marquette

You can equip the Fairfield with a most luxurious Winter-Top—permanent roof, removable windows. It is really a touring limousine. Price \$250.

Cabriolet... \$1600
Sedan... \$1900
Town Car... \$2250
(Closed cars on "Six-46" Chassis)

an increase to 225,000 officers and men who could be called upon at an hour's notice to serve well in any emergency.

It is also known that Chairman Hay of the house military committee is opposed to a reasonable increase, and there is reason to fear that his opposition has influenced the President and secretary of war to ask for only an increase of 25,000. That would leave less than 75,000 ready for instant use. The balance would be needed on the Texas border, in Alaska and in the Philippines. That would mean a too insignificant army of trained soldiers in case of an emergency.

The proposition to create a continental army of 600,000 young men of the college student age is attractive but theoretical. It might be very difficult to induce that number of young men to volunteer for uncertain experience in preparation for thorough soldiering. Who would train the 600,000? Officers and men of the regular army are too few to be depended upon.

The press and the public, seeing the necessity for substantial national defense, owes it to the country to take up anew the agitation in behalf of a larger regular army. It is proposed to double the navy. That is commendable. It is equally important that the army should be strengthened. The best navy that was ever created could not insure that a foreign army would not be landed somewhere on our extended coast. That done, a strong army would be demanded, and at once.

There never was a more opportune time for bringing about a suitable condition of preparedness than the present. Everybody knows now, as never before, that there is danger of war breaking out at almost any time. Two years ago the ten nations now engaged in deadly conflict would have laughed to scorn the man who predicted that they would within a few months be at war.

The experiences of Europe have made it known, and so clearly that every one who gives the matter serious thought must know, that the nation that is not prepared to defend itself commits a crime against itself.—Milwaukee Sentinel.

La Follette's Blunder

Though it might have survived the shrinkage in lake passenger traffic following the Eastland disaster and would ordinarily have withstood the reduction of revenue incident to the low prices and spring shipments accompanying the Michigan fruit crop, a steamship line that has done a profitable passenger and package carrying business on Lake Michigan for more than thirty-five years has been forced to the federal courts for a receiver rather than attempt to continue in business under the handicaps to be imposed by the La Follette seaman's law, which becomes effective next month.

The company is said to be decidedly solvent and to have sought timely shelter under the lee of the court with a view to remaining so through squally weather just ahead. It is unlikely that many other lake lines will deem it advisable to take the same precaution, but the fact that one long-established and hitherto-successful concern should have hesitated to attempt to continue in business under the new conditions is significant enough.

What the La Follette blunder will do to the American merchant marine on salt water, and especially on the Pacific, is

already painfully evident. That it is not to let the shipping of the Great Lakes escape unhurt is now demonstrated.

Its prompt correction by the new congress could be taken for granted, if it could only be assumed that public opinion in parts of the country not directly interested in ships could be made to understand what a staggering blow the last congress, with the best intentions in the world, dealt a merchant marine already nearly exterminated by decades of legislative neglect, error and abuse.—Cleveland Leader.

A LAUGH OR TWO

Breaking Bad News

When Hogan burst into the house, crying: "Mrs. Flannigan, your man, Mike, has just fell off the scaffolding and killed himself, head!" Mrs. Flannigan collapsed into a chair.

Facile Profits

"How did you like the show?" asked the ticket taker at the theater.

Not Sharp Enough

Had Heard It Before

While engaged in a conversation two prominent police magistrates began telling stories of funny cases that had been brought before them.

DEAFNESS CANNOT BE CURED

By all applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous membrane of the Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

LOWER STATE NOTES

CADILLAC—The Cadillac public schools have been closed as a precaution against the further spread of influenza. Three children have died of the disease in the past three days and there are four other cases in the city. The disease started in the northern part of the county.

HASTINGS—An agent of the H. H. Peterson company, of Buffalo, N. Y., has notified local farmers that he will be in Hastings to purchase 500 horses for the European army. All animals must be between five and ten years old and weigh from 1,050 to 1,400 pounds. No grays are wanted.

BIG RAPIDS—Mrs. C. V. R. Pond, formerly superintendent of the State Women's Relief corps, has received the appointment of matron of the woman's department of the Soldiers' Home in Grand Rapids, and assumes her duties Nov. 1. Mrs. Pond is the widow of C. V. R. Pond, a newspaper man of Coldwater.

LANSING—Governor Ferris says of the defeat of equal suffrage in New Jersey: "I do not expect the eastern states to vote as rapidly along such lines as the western states. Western voters are more democratic, in my judgment. You remember the time when a man had to acquire property to have a vote. The women should not be discouraged because they were defeated in New Jersey; it is going to be a hard battle, but they will win in the end. Personally, I am for equal suffrage."

DEAFNESS CANNOT BE CURED
By all applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous membrane of the Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
F. J. CHENEY & Co., Toledo, Ohio. Sold by druggists, 75c.
Take Hall's Family Pills for constipation.

Copper Country

DECISION AGAINST ROAD SONS OF REVOLUTION DISAPPOINTS ELM RIVER FOR COPPER COUNTRY?

County Commission Recalls Plans for Ontonagon Highway—Repairs Will Be Made.

The taxpayers of Elm River township are not a little disappointed at the decision of the county road commission in recalling its purpose to build the Ontonagon road this year. When the commission announced its original budget that the Ontonagon road was to be included in the plans for 1916 the taxpayers rejoiced as they have waited long for a good trunk line road through the township.

Their joy caused a corresponding gloom when it was learned the commission had "backed water" and had decided to build the Dollar Bay-Lake Linden road instead.

But Elm River township is not downhearted by this disappointment and the township board already has begun making plans for a road program for next year in order to let the taxpayers realize to some extent the hope raised by the commission's original announcement.

Of the proposed Ontonagon road eight miles run through Elm River township. Of this road five miles are in pretty good condition and that is almost impassable and there are two miles at the Adams township line in the same condition. The township board will repair these roads first and will then, if the funds are available, make general repairs of the other five miles.

This work will be done out of the regular highway fund and will not require any additional levy.

REVISION OF ELECTION LAWS.

Acting Village Clerk Marion Passes the Buck to the Public.

Any elector of Houghton now has an opportunity to go right to headquarters with any suggestion he may have to make regarding improvements, revisions, changes, amendments or suppressions of the election laws.

Acting Village Clerk Marion yesterday received from Clerk Pierce of the Michigan house of representatives and Secretary Howard of the senate a communication. It is a long affair, but the gist of it is that these officials have been asked to draft a bill for the revision of the election laws. They ask village clerks, city clerks, county clerks and others to help them with suggestions.

Clerk Marion says that he knows nothing about the election laws and does not know anyone else who knows anything about them, but he is willing to place the combined knowledge of the village of Houghton at the service of the Lansing men. He means that, if any one in Houghton has any suggestions to make he will be glad to forward them to Lansing.

Mr. Campbell went back home to Kincardine, Ont., a few weeks ago for the first visit in many years. On his return he was halted at the Canadian Soo by a United States immigration official and questioned as to his identity. He explained that he had been a resident of the United States for thirty-five years but that he had never taken out his papers. In the days of his original immigration the laws were not rigid and he had not been registered as entering. He was registered on this occasion and his residence with Uncle Sam is concerned he has been born again.

The expatriate visited a number of towns in Bruce and Gray counties, Ontario, two of the most populous counties in the Dominion. He says that he found little evidence of interest in the war, at least as indicated by any large number of enlistments.

THIS IS THE LAST DAY.

Dog Owners Have But One More Day in Which to Save Fido.

The village dog campaign is having a good effect. Already eighty-five dog owners have come to the village clerk's office and paid their taxes.

The embargo on dogs goes into effect tomorrow. After that date all unlicensed dogs will be captured and will be slaughtered after being held three days.

Chief Voith has his perambulating cage and his trusty assistants ready. It will get into action bright and early this morning.

BEST LIVER AND BOWEL LAXATIVE FOR FAMILY USE

"Cascarets" regulate women, men and children without injury.

Take when bilious, headachy, for colds, bad breath, sour stomach.

Instead of nasty, harsh pills, salts, castor oil or dangerous colic, why don't you keep Cascarets handy in your home? Cascarets act on the liver and thirty feet of bowels so gently you don't realize you have taken a cathartic, but they act thoroughly and can be depended upon when a good liver and bowel cleansing is necessary—they move the bile and poison from the bowels without gripping and sweeten the stomach. You eat one or two at night like candy and you wake up feeling fine, the headache, biliousness, bad breath, coated tongue, sour stomach, constipation, or bad cold disappears. Mothers should give Cascarets to their children at any time—they are harmless and safe for the little folks.

MASSIE-QUIRK NUPTIALS.

Miss Jane Quirk Becomes Bride of Bessemer Construction Contractor.

At Trinity church Thursday in the presence of a large number of friends, Miss Jane Louise Quirk, daughter of Mrs. Ida Quirk, became the bride of Paul N. Massie of Bessemer. The wedding was not an elaborate one and invitations had not been issued, but the great personal popularity of the bride was attested by the large attendance.

The ceremony was performed by Rev. William Reid Cross, rector of Trinity. It was performed in front of the flower banked altar, where Mr. Massie, attended by his best man, George Rupp of Bessemer, had waited his bride as she approached on the arm of her uncle, John Edwards, accompanied by her bridesmaid, Miss Anna L. Haug. As the bride party walked to the altar Paul Allen Boyner played the wedding march on the grand organ.

The bride wore a blue chiffon broadcloth traveling suit and carried valley lilies and yellow roses. Miss Haug wore a street costume and carried red roses.

Mr. and Mrs. Massie left immediately after the ceremony on a wedding journey to eastern cities. They will make their home at Bessemer.

The bride of this wedding has lived all of her life in Houghton, with the exception of the time spent at the University of Michigan and a few years of teaching. She always was looked upon as one of Houghton's prettiest and wisest girls and these qualities remain with her. Connected as she is with one of the oldest families of Houghton, by ties of blood, her wedding occasioned more than the usual interest for Houghton people.

Mr. Massie is engaged in the concrete construction business in Bessemer. He met his bride when they both were students at the university and their romance developed later when Miss Quirk was a teacher, for three years in the Bessemer schools.

Preceding the wedding, Mrs. B. T. Barry entertained at dinner Wednesday night for the bride party and fifteen guests. It was one of the most delightful private entertainments of the season.

Other entertainments given for Miss Quirk preliminary to the wedding were by the Misses Haug and Mrs. John Edwards of Houghton and by Mrs. L. W. Ives and Miss Lillian Scott of Hancock.

SENILE WIFE ABUSER.

Antone Latita of Atlantic Jailed for Assault on Spouse.

South Range—Antone Latita of Atlantic is in jail for ten days on conviction of assault and battery on his wife. He is sixty-eight years of age and is senile through long addiction to drink, which habit rouses him occasionally to violent fits of temper.

Antone came home Thursday night and drove his aged wife out of the house, hastening her departure by throwing a pad of bears over her, which is the most unaccountable fact in the case. He usually is more careful of his beer.

Marshal Ogren of South Range arrested the old man and yesterday in Houghton Justice Little sent him up for ten days. It is no new experience for him, he having an unenviable record.

PILGRIM GRANGE SOCIAL.

Election Next Friday To Be Marked by a Sauer Kraut Luncheon.

At the regular monthly meeting of Pilgrim grange, to be held next Friday at the home of J. G. Bertrand, Pilgrim, the grange will vote on three members of the executive committee of the state grange.

The election will be made the occasion of a social gathering and a Kraut's kraut luncheon will be served. The Kraut to be donated by the Kraut Manufacturing company.

CALUMET WOMAN'S CLUB.

The Calumet Woman's club at its regular meeting yesterday afternoon at the Y. M. C. A. gave a program of Southern melodies.

TO ATTEND FUNERAL AT SOO.

Miss Margaret Prevost, clerk of the Arlington hotel, Calumet, left yesterday for the Soo to attend the funeral of her brother-in-law, J. C. Willis, who was killed in that city this week in an accident at the locks.

PRESIDENT FITCH HERE.

Upper Peninsula

\$1,000 for Bureau.

Voting 14 to 9, the Chippewa county board of supervisors appropriated \$1,000 for the work of the Upper Development bureau. Those voting for the proposition were as follows: Supervisors Baker, Bernier, Henry, J. F. Goetz, Eider, Ecker, Ripley, Rainey, Kendrick, Kirvan, McEvoy, Lapish, Rummels and McMahon. Those against the proposition were: Supervisors Aldrich, Atkins, Campbell, Curtis, A. Goetz, Kemp, Ladd, Parker and Hallowell.

In all of the talk given regarding the appropriation the point was brought out that the other counties in the upper peninsula are helping the bureau, and if Chippewa county, the largest in the upper peninsula, refused to do its share the county would be practically isolated from the other counties in the peninsula. Others pointed out what the bureau has been doing in the way of developing agricultural interests in Cleveland, and the number of new settlers who have been induced to locate in this part of Michigan. Chippewa's appropriation may somewhat influence other counties in their action on this question.

Agreement Reached.

Mayor Lloyd and R. M. Andrews, editor of the Menominee Herald-Leader, who had been at odds over municipal ownership plans for the water system, have agreed on a source of action they will both support. If the council will take the necessary action the people of Menominee will have an opportunity at the polls to register their will on two separate propositions, viz: First, Shall the city of Menominee offer the Menominee water company \$200,000 for its plant, and give the company thirty days to accept or reject the offer? Second, Shall the city of Menominee build a municipal water plant of its own? The Herald-Leader will urge the free-holders to vote yes on the first proposition, to be submitted Nov. 1, so that an offer of \$200,000 may be made to the water company in due form, for the purchase of its plant, and it be given thirty days to accept or reject such offer. Both sides to the controversy have shown their willingness to be fair and neighborly in discussing a question of prime importance to the city of Menominee.

New Machinery to Be Put in.

Following one and one-half years of uninterrupted work, the plant of the Manistique Handle company is to be closed down in a week or ten days for repairs and the installation of new machinery. Manager Baker has planned to close the plant for sometime until much needed enlargements are made, but orders have been so brisk that it was almost impossible to do so. However, the business is increasing so rapidly and the need of additional machinery has become so imperative it is necessary to close at once. The plant will remain idle only long enough to make the needed repairs and install the new machinery, probably not more than two weeks. The additional machinery will be for the purpose of manufacturing rods and rail handles, from the waste products of the plant. While it will mean the employment of from ten to fifteen additional men, it will not increase the purchase of timber, as pieces too small to utilize for the large broom and mop handles which are the standard product of the plant will be made into rods and rail handles. The fact that the plant has never closed down before in the eighteen months which it has been running and constantly increasing orders means much to Manistique. Orders already received will keep the plant running for months after remodeling is complete.

Schoolcraft to Have Agent.

Schoolcraft county farmers are to have the services of an agriculturist. The supervisors, without a dissenting vote, passed a motion appropriating \$1,000 for that purpose. It is probable that the agriculturist will begin work next spring. The services of a competent man will be obtained through the Michigan Agricultural college, and he will be under the general direction of that institution. The upper peninsula counties have agricultural agents at the present time—Houghton, Iron, Gogebie, Dickinson and Marquette. According to the report of the Michigan Agricultural college, the work is roughly classified as to organization, soil and crop problems, livestock, roads and farm buildings, farm school, farm institutes and farm schools. Under the first classification the agent is expected to organize farmers' clubs, livestock associations, etc., which will have for their purpose the discussion and dissemination of information in regard to farm problems. The social side is not overlooked in connection with these organizations. Under soil problems comes the expert's work. Such problems as whether the soil needs liming, kinds and

amounts of fertilizers, drainage, etc., would be brought to his attention for solution. Stock problems, especially methods of preventing diseases such as hog cholera, would come in for a share of his attention. Under farm management, he would be called upon to give expert advice on the thousand and one intricate problems which confront the farmer.

ALLIES IN HOLE, SAYS PRESS MAN

Military Correspondent of London Evening Standard Comments on the Situation.

London, Oct. 22.—"We are in a hole," says the military correspondent of the Evening Standard, commenting on the present situation. "It is not the first time we have been in a hole, for it was touched and got at Cambrai and Landreux on August 26, 1914, and again in Flanders a year ago, but we did not know it then. This time we do know it. We have lost faith in the ability of our statesmen and in the strategic conduct of the war and in the willingness of the people to support the war; three or four very serious questions now exercise the minds of politicians and public alike, and threaten to wreck the government; in France the best known soldier has resigned; in Russia public opinion is badly shaken. . . . Few great powers are full of good will for one another, but each is a law unto itself.

"On the enemy's side we find unity of purpose, singleness of control and constant willingness to sacrifice everything and take all the consequences have been held up here and repulsed there, but they can claim that, whereas they have never been badly beaten anywhere since the battle of the Marne, they have added Poland to their conquests and threaten to overrun Serbia."

Urges Unity at Home.

The writer goes on to argue that the only way for Great Britain to meet the situation is to cease attacks on her statesmen and face the facts with quiet determination, bearing in mind that if England is suffering Germany is suffering more, and that "on the fronts which matter most they (the Germans) are doing no more than holding their own," and are now unable to increase their forces in the field, and soon will be unable to maintain them.

"Of the Serbian situation the writer says:

"The question of the moment is the extent to which we can or should assist Serbia with reinforcements. Unfortunately the long southern arm of the railway crossing Serbia runs very close to the Bulgarian frontier at several places, and troops are urgently needed to protect this line throughout its length; but to do any real good we must send her at least 200,000 men. If that number is immediately available well and good; if not we must remember that it will take time to withdraw men from the western front and get them in action in the Balkans, and therefore we may be as powerless to save Serbia as we were to defend Belgium.

"Moreover, Russia will not be able to do much until the frosts of December render the country passable, and the slow equipment of her armies enables them to advance. Thus Germany has time to settle Serbia's business unless the Entente Powers can quickly lead 200,000 men at Saloniki or can deal the Germans such a smashing blow in the west as will cause the immediate withdrawal of all Germanic troops from the Serbian front.

"Some suggest we should use sea power to force Greece to go to the aid of Serbia, but the Serbian army may be unable to find an asylum and may not be able to find it in Montenegro, and Greece may join us as soon as we have landed enough troops to give her efficient protection.

"We understand it is munitions and not men that Russia lacks. Her ports are still open. Why should she not send troops by sea to Saloniki or Flinders where they would meet their munitions and transports?"

Truth's Comment.

The feelings and temper of the British public are thus portrayed in this week's issue of Truth.

"The last week in London has been one of the most harrowing we have gone through since the war began. Not only has the military situation on the continent developed new causes for alarm, not only have Zeppelins dropped their bombs close to our doors, not only have the croakers, croakers, made their voices heard to heroic sacrifices by the presence of the enemy, blessedly ignorant of the quakings and squealings at home and the wrangling over the best method of making war. The longer the war lasts the more contemptible grows the non-combatant seems to create."

OUSTED COP SUES SUPERIOR OFFICER.

Jackson, Mich., Oct. 22.—Ex-Patrolman George Minser was found guilty of drunkenness last night after a two days' trial in the police court. The verdict partly settles one of the most obnoxious upheavals in the Jackson police department in many years.

An appeal to the circuit court was announced by Attorney Frank L. Blackman for the defense, who stated that the hearing asked for before the city commission and a \$2,000 damage suit against Captain Hudson for alleged physical injuries to the ex-patrolman would proceed, so far as he knew.

"We are sure no one but Captain Hudson caused the broken ribs and other injuries the patrolman sustained and shall ask for a judgment," the lawyer stated. "As far as I can tell, we will present the former patrolman's case and contend he should not have been discharged at the commission meeting," Mr. Blackman said. But he was not so positive in this assertion as in regard to the civil suit.

Minser denies the charge of drunkenness. Testimony as to two broken ribs and other injuries was introduced and an attempt made to impeach Patrolman Hahn by three city firemen. Witnesses who saw Minser a short time before the trouble at the police station testified they saw nothing abnormal or to indicate drunkenness in his actions.

MAYOR BARS HOLY JUMPERS' MEETING

Plainfield, N. J., Oct. 22.—The Holy Jumpers, or members of the Pillar of Fire and the Burning Bush, have run counter to Mayor Leighton Calkins, who has denied them permission to hold meetings in the streets or public places

PE-RU-NA
For Catarrh Wherever Located.

A sure, safe, time-tried remedy for Catarrhal Affections of every description. Sold by all Druggists. Write the Peru-na Co., of Columbus, Ohio. They will advise you free.

of the city, not in denial of the right of free speech, but because of its abuse."

Mayor Calkins has taken this step after receiving full support from the common council.

Several fights have occurred at the meetings of the stoly Jumpers, because of their attacks on other churches.

WINTER GARDEN CHORUS WEARING 'EM NOW, AFTER

MAYOR MITCHELL'S ORDER

New York, Oct. 22.—The edict went forth from the Shubert offices last night that chorus girls at the Winter Garden simply must wear tights. This action was due to orders issued through the office of Mayor Mitchell. The mayor had received numerous complaining letters from theatergoers protesting against the styles at the Winter Garden. Police Inspector Daly made a visit to the show the other night. The new style was seen at last night's performance. With the exception of four girls appearing as "toy dolls" in the Toyland scene of the first act, every show girl was amply provided with tights.

During all its previous seasons the Winter Garden's principal stock in trade has been its pretty but scantily attired chorus.

My Name Is Coffee I Fool the People

All the people can't be fooled all the time, but I've been pretty successful in fooling part of them, although more and more, I am sorry to say, they are getting wise to my pretensions.

How do I fool them? I'll tell you.

When scientists say I am not a food, I tell the people that coffee "is a food," and when drunk "with hot milk—a meal in itself, we may say."

Then when the court says, "coffee is not a food," I trim my sails to the breeze and tell the people "there is no reason for supposing that coffee possesses any value as a food."

Nevertheless, to keep them coming, I tell them it is a "half food," "an encouraging contribution to human efficiency." And the people—some of them—fall for it.

When noted authorities say the caffeine in coffee is a poisonous drug and hinders digestion, I bring forward some chaps who say it "is not a poison," "it is an aid, not a hindrance to digestion." This fools some.

But, there's been such a stir against me, especially by Postum, that I am hard put for arguments, so one of the latest things I am telling is:

"Beware of taking coffee with a lot of cream in it." It is the cream, I try to make it appear, and not the drug, caffeine, that makes a combination that "will in time lead to chronic indigestion and stomach, heart, and liver troubles." And some believe me—I hope.

But I whisper on the side to people who like cream in their coffee, "Coffee is always improved when cream is added to it." You see, I get them coming and going.

There's one safe way with coffee. Quit it, and for a pleasant, delicious, wholesome, nourishing beverage, use

INSTANT POSTUM

—America's pure food-drink.

Made of wheat, roasted with a bit of wholesome molasses, Postum is free from caffeine or any harmful substance. It points the way to health and comfort and freedom from coffee troubles.

"There's a Reason"

Quotations concerning coffee in this advertisement are from issues of the Tea and Coffee Trade Journal and Simmons' Spice Mill.

PILES CURED AT HOME BY NEW ABSORPTION METHOD

If you suffer from bleeding, itching, blind or protruding piles, send me your address, and I will tell you how to cure yourself at home by the new absorption method; and will also send some of this new treatment free for trial, with references from your own locality if requested. Users report immediate relief and speedy cures. Send no money, but tell others of this offer. Write today to Mrs. M. Summers, Box P, Notre Dame, Ind.

After your cold drive stop at Stafford's Drug Store for a cup of delicious hot coffee or chocolate. Just what you need for a "warmer."

City Brevities

Today's weather: Fair. Yesterday's temperatures: At 7 a. m., 40 degrees; noon, 46; 7 p. m., 40. Highest, 47 degrees; lowest, 38.

Miss Georgia Hobbins left last night for Chicago.

Howard O'Keefe, of Ishpeming, was in the city yesterday.

A. J. Kroenke, left yesterday afternoon for Eckerman.

Dr. A. W. Deadman, returned yesterday from Sand River.

Miss Fern Storley, of Ishpeming, spent yesterday with friends in the city.

Mrs. Ida I. Schultz and daughter left yesterday afternoon for St. Ignace.

Born, to Mr. and Mrs. Harry Livingston Kaufman, of Cleveland, Oct. 15, a son.

Mr. and Mrs. A. E. Miller and two sons, left yesterday afternoon for the Soo.

Earl Bracegirdle, of Alpha, Mich., spent yesterday in the city with relatives.

Mr. and Mrs. John Fisher and daughter, Nellie, of Ishpeming, arrived in the city last evening.

The Order of Railroad Conductors, will meet tomorrow afternoon at 5 o'clock in Keough's Hall.

The gate to Presque Isle will be closed at 5 o'clock every evening, beginning today, (Saturday).

Miss Mary Macdonald, who is teaching school at Sand River, is spending the week-end in this city.

E. A. Derloith returned yesterday morning after spending a few days at Milwaukee and Waterloo, Wis.

Miss Hilma Johnson left last evening for Republic, where she will visit with friends and relatives for a week.

Miss Agnes Oberg was a passenger last evening for Republic where she will visit for a week with relatives and friends.

Miss Ivan Chamberlain left for the Soo, where she will witness the football game between the Marquette and Soo High.

Captain and Mrs. Shute, of Ishpeming, spent yesterday in the city, the guests of Captain and Mrs. Shaw, of the Salvation Army.

Mr. and Mrs. Lawrence Sharkey and Mr. and Mrs. David Depew, of Munising, motored to this city last evening in Mr. Sharkey's car.

Miss Mae Rowe, who has been visiting friends in the city for the past two weeks, left yesterday morning for her home at Pittsfield, Mass.

Miss Esther Munson and Miss Irene Peterson, who are attending the Normal, left last evening to spend the week-end at their homes in Republic.

Dr. C. E. Koon, who has been the guest of Dr. and Mrs. O. G. Youngquist for the past week, left yesterday afternoon for his home at Grand Rapids.

Mrs. E. F. Marr, of Grand Rapids, who has been visiting for the past week with her son, O. L. Marr, of this city, left yesterday afternoon for Calumet.

J. G. Winterbothen, of Chicago, is visiting in the city, the guest of Dr. and Mrs. H. T. Carriel, Pine street.

Mrs. Carriel is Mr. Winterbothen's sister.

Governor Woodbridge N. Ferris arrived in this city at 5 o'clock this morning, from the copper country, where he has been conducting the teachers' institute. He is expected to remain here for several days, visiting the Marquette prison and the Northern State Normal school.

Largest Lake Trout—A forty pound lake trout was caught in the nets pulled up yesterday by Captain Albert Anderson, of the Columbia. The fish is probably the largest caught here this year.

Mar Notes—The Bransford cleared for Cleveland yesterday afternoon at 3:45 from the South Shore dock. The Angeline arrived at the L. S. & L. dock at 8 o'clock last night. The John Staaton will clear about 6 o'clock this morning for Ashtabula.

Business Conditions Good—W. R. Burns, formerly of Munising, who for the past two years has spent most of his time in Alabama, where he owns the controlling interest in the St. Clair county telephone exchanges, writes that business is booming in that state. The telephone exchanges in which he is interested have just closed an agreement for the exchange of business with the Western Union company. Mrs. Burns and her mother, Mrs. E. Lobb, will leave shortly for Pell City, near Birmingham, where they will spend the winter. Mr. Burns has finished a cottage there for their occupancy.

SOUTH SHORE EXCURSION.

On account of the foot ball game at Sault Ste. Marie, Saturday, the South Shore has authorized special excursion fares for afternoon train of October 22nd, and morning train of October 23rd, with limit of October 24th, at \$7.75 for adults and \$3.90 for children.

For the Cloverland Potato Congress at Marquette, Mich., Oct. 27 to 29 the South Shore will have the usual low round trip fares in effect from all stations in Michigan including Saxon, Wis. to Marquette and return. Tickets on sale Oct. 26, 27 and 28, with return limit of Oct. 31. 10-22-H.

MANY EXHIBITS HERE FOR POTATO CONGRESS

First Entry for Next Week's Convention from Germfask—Shipment from Presque Isle.

Judging from the amount of entries received and the interest being evinced in the affair, the Potato Congress to be held at Guild Hall on Oct. 27, 28, and 29, should prove a gratifying success. The first of the exhibits entered was that of James Lupton, of Germfask, immediately after which came a large number of others.

That the exhibit is creating widespread interest is indicated in a letter received yesterday from C. L. Randall company, potato growers of Millersburg, in Presque Isle county. This enterprising concern is expressing a bushel of Rural Potatoes to the congress, with a scientific explanation of the method used in their development. These potatoes will be exhibited without being permitted to contest for any of the prizes, as only entries from the fifteen upper peninsula counties are eligible to the liberal cash awards.

The results of this Potato Congress are being watched with interest by the government officials. The upper peninsula has been long recognized by the United States government as the most

productive field in the country for potato growing, and government experts are concentrating most of their efforts in this region. They freely impart to the upper peninsula farmers the results of their scientific research in potato growing, and it is expected that the farmers will co-operate with the experts in making the most of the natural advantages of this soil. If the potatoes at the coming exhibit do not show a higher standard of quality than last year's exhibit as a result of the government's efforts here, it is possible that the experts may be withdrawn, in favor of some other Western state.

HARVARD PROFESSOR AT 19.

Norbert Wiener, 19 years of age, has been appointed an assistant professor of philosophy at Harvard college. In this capacity he will be called upon to instruct men who are his elders. As a boy of 13 Wiener received the degree of Bachelor of Arts from Tufts college. The degree of Doctor of Philosophy was awarded to him at Harvard in 1913 and for the last two years he has been a traveling fellow of Harvard at Cambridge university, England.

INSURE WITH PETER WHITE & CO. HOW AN ENGINEER KEEPS WELL.

Railroad engineers are more exposed to catching cold than other workers. E. G. Dunaphant of Monette, Mo., has run a Frisco engine twenty-five years and all the medicine he has taken is Foley's Honey and Tar. He writes: "I always keep it in my house and recommend it to all who have a bad cough or cold."

Theatrical

Delft Theater.

"Satan Sanderson," starring Orrin Johnson, one of Broadway's foremost matinee idols, will be shown at the Delft theater today as the first of the world-famed Metro features now included in the Delft program. The play is a dramatization of the successful novel of the same name, in which Orrin Johnson takes the dual role of the incorrigible "Satan." It tells the story of a wayward son, a loving girl, an indulgent father and retribution in one of its varied forms. It brings into the play the powerful dramatic ability of the star and the superb cast, and its many delicate scenes, poignant situations and virile climaxes, combine to make this one of the really superb photo-play productions of the day. "Satan Sanderson" is in two hundred scenes, requiring a cast of forty principals and numerous extra people, and over forty thousand dollars was lavished on its production.

Opera House.

Nat Goodwin, the most beloved of all stars, will be presented in "The Master Hand," a World Film feature of gripping intensity, at the opera house today. The story opens with the marriage of James Ralston with a rich widow, who is an invalid with one daughter, Jean. Being in financial difficulties, Ralston plans to get control of his wife's fortune. A woman doctor, Miss Lane, attends Mrs. Ralston and by

drugging her, reduces her to such a condition of physical impotence, that little difficulty is found in securing an order for her commitment to the sanitarium maintained by the unscrupulous Dr. Caspide. After a lapse of fifteen years, Ralston finds himself in financial straits as a result of heavy speculation. He tries to make his daughter marry an old friend, Bigelow, (Nat Goodwin), to whom he appeals for help in recovering his lost money. Bigelow suspects some shady dealings, and his part in bringing the affair to a happy conclusion makes a story of the most absorbing interest.

PRIMITIVE LIFE IN TURKEY.

Owing to the lack of building stone and almost total lack of wood of any kind in one of the interior districts of Turkey, all houses in both town and country are built of mud bricks called "kerpiche," which is a mixture of mud and straw. The houses are not large and part of them are always used for the stable, one or two rooms only being reserved for the use of the family, which lives in the simplest and most primitive manner. Everyone sleeps rolled up in a blanket on the earth floor.

SUDDEN MUSCULAR ACHES AND PAINS—NEED NOT BE!

That is—if you use the right remedy. Sloan's Liniment is a real necessity in every home—for young and old. Its merit is praised in dozens of letters. A stiff neck from colds, children's sprains, those aching muscles, that sharp neuralgia pain—these find guaranteed relief in Sloan's Liniment. Every home needs with sudden aches and accidents. Your home needs a bottle. 25c, 50c, and \$1.

NORMAL SCHOOL MAKES GAIN IN ENROLLMENT

Has Increase of Eighty-Nine Over Previous Record—New Gymnasium and Athletic Field.

This year's enrollment at the Northern State Normal is the largest in the history of the school, according to the figures given out yesterday by President James H. Kaye. Out of the record-breaking attendance of 385 students, which exceeds by eighty-nine any previous enrollment, 350 are young ladies. But even the enrollment of men, small as it appears in comparison with the feminine contingent, represents an increase of eleven over last year's number. The attendance at the training school, too, is very creditable. There is an enrollment of 300, including all grades from the kindergarten to the tenth. The curriculum this year is practically the same as in former years, with the added courses of mechanical drawing, manual training and physical training for the men. The latter course is under the direction of W. B. McClintock, and forms somewhat of a radical addition to the school's activities.

New Gymnasium.

The course in physical training for men was made possible largely through the spacious gymnasium, with its splendid equipment. The gym is eighty-seven by ninety feet, and has a high ceiling with an immense skylight, which affords ample light. A circular running track, halfway between the floor and ceiling, is a particularly attractive feature of this department.

In addition to the physical training work in the gymnasium, the male students are now being thoroughly trained in coaching for baseball, basketball, volleyball, and other games. A course in football coaching will be added as soon as the new athletic field is completed.

Athletic Field Soon.

The athletic field will occupy the southwestern part of the campus. Work is progressing on it with all possible dispatch. The grading will be completed early next week, when a quarter-mile track will be laid out. The leveling and finishing of the track will take some time, but it will be in excellent condition next year. The fact that the new athletic field will contain a quarter-mile track indicates its extent. It will also contain a baseball diamond and a football gridiron. It is expected that ultimately a grandstand and bleachers will be erected.

The new field will furnish a decided stimulus to the athletic activities of the students. They will enter into football, baseball and other games with far more enthusiasm than formerly, and it is expected that the various schedules arranged with other teams will make the field a center of athletic interest during the latter part of next May, or early in June, it is planned to hold a track meet here for the upper peninsula high schools. The athletic field will have been completed by this time, and with every possible facility and advantage here, this meet, and similar affairs, should prove highly successful.

Assembly Programs.

The commodious and beautifully appointed assembly room, which has attracted so much favorable comment, is also coming in for its share of attention. Every Tuesday morning a school chorus of 250 voices assembles here for singing exercises. Thursday mornings a general assembly of the entire normal school body is held, and interesting programs are given. For this week's assembly there was an address on the subject "The Education of the Future," delivered by Professor G. L. Brown.

SHINGLE MEN PLAN FOR BETTER BUSINESS

Recent Tests Show Wooden Product Stands Hurricanes Best of All Materials.

The white cedar shingle manufacturers of the upper peninsula and northern Wisconsin, who recently organized for the development of their trade, see promise of a larger and better market in the marked demonstration of the virtues of wooden shingles in New Orleans and other southern cities that have recently been visited by hurricanes. Photographs and descriptions of the damage done show that the wooden shingles stood where other shingles were blown off. As a result of desire to improve fire protection, wooden shingles have been under the ban in certain parts of many cities, but the damage done through the unroofing of buildings covered with other material has been so great that there is now a demand in the south for revision of the building codes so that wooden shingles may again be used.

"The contention that wooden shingles are more inflammable than other forms of roofing has received a setback with the progress of modern science," said J. F. Swan, secretary of the Northern Hemlock & Hardwood Manufacturers association. "Dr. Herman Von Schrenk of St. Louis, cooperating with the lumbermen of that district, has been conducting a series of experiments which show that shingles properly treated with fireproof paints resist heat and flames better than many so-called fireproof materials. Similar experiments have been conducted by the government at its laboratory at Madison.

"With that argument against the use of wooden shingles successfully refuted, manufacturers of white cedar shingles are preparing to inaugurate a active campaign of education and start the cedar mills which have been closed down. The manufacturer of lumber products in Wisconsin and Northern Michigan is one of the leading industries of those states. It has been hard hit, however, because of the action of congress

Big Sale of Women's Suits and Skirts Today

The First Big Event of the Fall Season

Style 1057

Special Closing Out Suit Sale No. 1

Come today \$1 and see what and your Old Sewing Machine will do.

in the adoption of its recent tariff schedule. Under that law Canadian shingles of red cedar have been admitted to the United States free of duty, while shingles shipped to Canada have been subject to tariff. The result has been that the market is being flooded with Canadian products at war prices and the local manufacturers have suffered in proportion.

"It is to be a part of the effort of the manufacturers to educate the people as to the virtues of the homemade product, on the theory that conditions demand the support of local industries employing a very large percentage of the laboring class of the state, provided the product is equally good. "It is to be a part of the plan to show that the Wisconsin and Michigan grade of material is not only equal to, but has superior qualities over the Canadian and western products of red cedar. What with the boost that will follow the revision of building codes in the South and the education of the people as to the superior qualities of the products of Wisconsin and Michigan, it is the hope of the manufacturers that they will be able to operate their plants to greater capacity and that the condition of unemployment which has marked this state will be greatly ameliorated during the next year."

A mass meeting of White Cedar

Shingle manufacturers has been called for this week at Milwaukee to consider the situation.

Sunday at the Churches

Presbyterian Church.

Sunday school 9:45. It is hoped that all of the two hundred and fifty young people that attended the supper Thursday evening will be on hand promptly for Bible study. Morning worship at 11 o'clock. Sermon theme, "The Victor's Reward, VII Rest and Sovereignty." This is the last of the series of sermons to be given on the seven letters to the seven churches. It is greatly desired that the interest in these sermons may culminate in much good to those who have heard them and indirectly to many others. Junior Christian Endeavor at 4 o'clock. Miss Clara Hansen, leader. Senior Christian Endeavor at 6:30. Subject, "Capturing politics for God" Ps. 33: 8-22. This will be the opening meeting of the year. All young people are cordially invited to attend. New life has come to the society and great things will soon be done. Miss Kern will lead the first meeting. Evening worship at 7:30. Sermon theme, "Old Mantles on Young Shoulders." This sermon is meant especially for the young people, but the older ones will not be neglected. Old and young are most cordially invited to hear it. Strangers in town are made most welcome to all of these services.

First Baptist.

The Sunday school begins at 9:45 a. m., and you are asked to bring a new scholar with you. The morning worship at 11 o'clock will embrace a discussion by the pastor of some of the important features of our work presented at the great Baptist state conference at Saginaw last week. The Junior B. Y. P. U., 2:30 p. m. The Young People's Devotional service at 4:45, will be led by H. F. Sharp, and the topic is "Capturing Politics for God." The evening service at 7:30 will contain a sermon on "The Rectangular Gospel." The mid-week prayer service will be on Wednesday evening at 7:30. These services need your presence and you need these services.

Methodist Episcopal.

"Why I Believe in Jesus Christ" is the subject from which the pastor will preach at the service of public worship, commencing at 11 o'clock in the morning. "The Ever-Living Christ" is the subject from which the pastor will preach at the service, commencing at 7:30 o'clock in the evening. The Bible school, including the Adult Bible class and the Young Men's class, will meet to study the scriptures at 9:45. The topic for study is "Elijah's Heavenly Defenders." Young people will be greatly interested in the Epworth league meeting, held in the parlors of the

church, at 8:45. Topic, "The Call of Missions—Men and Money." The mid-week prayer service is held Thursday evening at 7:30. Part of the evening will be devoted to a devotional study of the 140th Psalm. The general public is welcome to any and all of the above services.

Swedish Lutheran.

Morning worship at 10 o'clock, subject: "Jesus Showing Mercy on Two Blind Men." Sunday school at 11:30. Evening service at 7:30. Subject, "How Paul Encourages Others to Accept Jesus." Devotional meeting Wednesday evening at 7:45. Congregational business meeting after the service. Confirmation class Saturday morning at 10 o'clock—Carl E. Lundgren, pastor.

St. Paul's Episcopal.

Children's service and Sunday school at 9:45 a. m.; morning prayer and sermon by the rector at 11 o'clock. The topic of the sermon will be "Conscience." At 7:30 p. m.—Evening prayer and sermon by the rector on the theme, "Evolution and Character." There will be no service of holy communion at the usual early hour.

First Church of Christ, Scientist.

Services will be held Sunday at 11 o'clock. Subject, "Probation After Death."

GRASSHOPPERS IN ICE.

Stories of grasshoppers of a remote past age frozen in the ice of a Montana glacier have long been regarded as mere fanciful tales of unvarnished old prospectors but recent investigations by

Castle Brew

IT'S GREAT!

Positively No Better BEER made

Nothing But the Best brewing material, together with the purest spring water, is used in its manufacture.

Try a case. In quarts or pints

U.P. Brewing Co.

scientists have shown that such a glacier actually exists. Myriads of the insects lie in heaps beneath a solid mass of ice. It is believed that in trying to cross the mountain range their progress was checked by a powerful wind and when they settled on the ice mass to rest they were chilled and afterward embalmed in a mass of ice and snow which settled on them.

HUNTING BOOTS

We have a complete line of high top Shoes for hunting and rough weather, in all sizes and lengths; built for business.

ISHPEMING MEN ROLL BIG SCORES
 In Special Ten-Game Match Bowlers Average Better Than 200 to the Game.

The most remarkable bowling that has ever been recorded in Ishpeming occurred Thursday evening, in a special ten-game match between Tolvio Saline and E. Hendrickson, which was won by Hendrickson. This match, which had been hanging fire for some days, was beyond question the most interesting that has ever been rolled at the Empire alleys, and the result was in doubt until the last game.

A large crowd was assembled at the alleys. Saline being the older and more experienced bowler, and having taken part in several upper peninsula tournaments, felt confident of victory, but Hendrickson's friends were equally sure that he would win. Each man had his followers and there was some of the liveliest rooting that has ever occurred at the alleys.

Saline knocked down 2,044 pins and Hendrickson 2,084, giving the former an average of 204 and the latter one of 208. At the end of the ninth game Saline was ahead by forty-six pins, but Hendrickson began making strikes from the start and he wound up with a score of 277. This score ties the record made last year by Jack Talo, and is the highest ever made on the alleys. Hendrickson had seven games with scores over 200, and Saline had scores above 200 in five.

Carl E. Thompson, who is regarded as one of the best bowlers in the upper peninsula, has challenged the winner for a similar match. Hendrickson will undoubtedly accept the challenge, and the match will be rolled within the next week or two.

The scores were as follows:

E. Hendrickson	179	181	177	536
Burke	195	177	125	497
Heindel	165	179	203	547
	539	537	505	1580

No. 7 Won by Large Margin.

In the Business Men's league bowling contest Thursday evening between teams Nos. 7 and 3, the former won by a margin of 319 pins. All the members of No. 7 rolled in good form, while the members of No. 3 were off color. Following are the scores:

No. 7—				
E. Hendrickson	179	181	177	536
Burke	195	177	125	497
Heindel	165	179	203	547
	539	537	505	1580
No. 3—				
Sporley	171	146	169	486
Gribble	122	131	112	365
Campbell	128	150	132	410
	421	427	413	1261

COMEDY PICTURES BOOKED.
 J. Rufus Wallingford Series Will Be Shown at Ishpeming Theater.

The new adventures of J. Rufus Wallingford, by George Randolph Chester, which are produced in twelve complete stories, each of two reels, by the Ishpeming company, will be shown at the Ishpeming theater. The first story, entitled "A Bungalow Bungle" will be included in the program next Thursday evening. As another feature will be shown the following Thursday, the second of the Wallingford stories will not be given for two weeks.

The Wallingford stories have been special features for years in the Saturday Evening Post and the pictures are said to be among the very best comedies that have been produced.

Among the prominent players in the cast are Burr Melrose, Max Figma and Lolita Robinson, all well-known stage favorites.

CLEVELAND-CLIFFS TO INCREASE OPERATIONS
 Mining to Be Resumed at Salisbury and Crew Is Put to Work at Lake Angeline.

The Cleveland-Cliffs Iron company, which a few weeks ago purchased at public auction the Pittsburgh & Lake Angeline holdings in this city, is preparing to explore the Lake Angeline mine, and preparations are also being made for a resumption of mining at the Salisbury property, on the opposite side of the hill, immediately south of Lake Angeline.

Men are now at work repairing the shaft at the Lake Angeline and within a few days a crew will be employed exploring the old drifts and levels. It is not announced just what exploratory work will be done, but it is assumed that diamond drills will be employed.

Among those put on at the Lake Angeline are former employees of that property, who are working under direction of Eldred Harris, who was a shift boss there for a number of years before the mine was closed down.

For more than a year past the work at the Salisbury has been confined to the opening of a new drift and the repairing of the shaft and other equipment. This work has practically been completed and mining operations will be resumed at once, with an additional force of some seventy-five men or more. A crew of about thirty men has been engaged in the drifting.

One of the two large stockpiles at the Salisbury has been practically cleaned out during the past two or three months. One of the piles consisted of high grade ore and the other of low grade. The former has now been shipped and the company now has plenty of room for stocking the winter's output.

The plans for the resumption of work at the Salisbury and the operations at the Lake Angeline will be gratifying news for the workmen formerly employed at these properties. Most of the Salisbury men, laid off more than a year ago, have since been employed at other properties of the Cleveland-Cliffs company.

It was reported some time ago that the Cleveland-Cliffs Iron company had planned to extend a drift from the Salisbury to the Lake Angeline and hoist any ore that might be found in the latter property through the Salisbury shaft, but The Mining Journal is informed that any ore that may be found in the Lake Angeline will be hoisted through the Lake Angeline shaft.

The Cleveland-Cliffs Iron company has added a considerable number of men to its working force on the range within the past two or three months. Large increases have been made at Negaunee to work at the Cliffs shafts and North Lake properties. The Cliffs shafts is now producing heavier than at any previous time for several years past.

CONVENTION AT CRYSTAL FALLS.
 Representatives of Methodist Church Will Meet On Menominee Range.

It is expected pastors and lay delegates from the First Methodist and Salisbury churches of this city will attend the annual fall convention of the district stewards and laymen of the Methodist Episcopal church, in the Houghton district, to be held in Crystal Falls, Nov. 11 and 12. The convention will be similar to that of a year ago which was such a success.

At the annual meeting of the district stewards, the salary of the district superintendent will be fixed. Nearly every church in the district has voted to pay its share of the traveling expenses of the lay delegates. The delegates are expected to reach Crystal Falls by Wednesday evening, Nov. 10.

D. Johnson and F. E. Linder, of Chicago, will give public lectures in the Anderson hall this evening at 8 o'clock, also on Sunday at 3 p. m., and next Tuesday at 8 p. m. The subjects at tonight's meeting will be "The Future Aim," "The Father's House and the House of Mammon." Seats will be free. There will be no collection.

HOW TO BE EFFICIENT.
 Nothing saps the vitality like kidney trouble. It causes backache, headache, stiff joints, sore muscles, "always tired" feeling, rheumatism and other ills. To be efficient, you must be healthy. Foley Kidney Pills strengthen the kidneys, help them do their work of filtering out from the system the waste matter that causes the trouble. Sold everywhere.

RECEPTION FOR PASTOR.
 Members of Swedish Methodist Church Honor Rev. Mr. Edwards Thursday.

Rev. C. F. Edwards, pastor of the Swedish Methodist church, and his family, were tendered a reception by the congregation in the church Thursday evening. The reception was in honor of Mr. Edwards' return as pastor for the second year. He attended the annual conference, recently at Atwater, Minn., but before his departure he was invited to return to the Ishpeming church by C. G. Peterson, a member of the church board, in behalf of the congregation presented Mr. Edwards with a purse and Mrs. Edwards with a beautiful bouquet of flowers. The presentation was a complete surprise to the pastor, who responded to Mr. Peterson's remarks. Sweet talks also were given by August Nyblum and Nels Danielson, both of whom expressed appreciation in behalf of the congregation for the services of the pastor during his first year here. Several excellent musical numbers were given by the choir and refreshments were served.

Bally day will be observed tomorrow in the church by the members of the Sunday school organization after the regular morning service. Rev. Mr. Edwards will preach a special sermon on the topic "Diamonds and Grindstones."

EIGHT-REEL MATINEE TODAY.
 An exceptional program, including "The Freshman," the miniature college musical comedy, and eight reels of pictures, will be given this afternoon at 2:30 o'clock at the Ishpeming theater. The pictures include the second episode of "Next of the Navy," "Honest Sarge News," "The Way of a Woman's Heart," a Selig two-reel feature drama, "The Range Girl and the Cowboy," a Selig western comedy, featuring Tom Mix; "Finnian Haddie," a Lubin comedy, and "Broncho Billy and the Card Sharp," an Essanay western drama, featuring G. M. Anderson. Tonight's feature will be "A Woman's Mistake," the third story of the Grandin series, a Klein drama, in two reels.

VICTIM OF TUBERCULOSIS.
 John Korpela, who, for some time prior to last spring, worked at the Cleveland-Cliffs Iron company's North Lake mine, died Thursday at his home at West Ishpeming from tuberculosis. Mr. Korpela was twenty-seven years old and is survived by his widow and three children. He was well-known in Ishpeming, having resided here a number of years. The funeral will be held tomorrow afternoon, at 2 o'clock, with services in the Finnish Apostolic church, on Cleveland avenue.

Mrs. C. S. Sining, of Gladstone, has returned to her home, after spending a week visiting her parents, Mr. and Mrs. W. H. Beckerleg.

ISHPEMING IN BRIEF.
 The officers of lodge No. 1 of the Scandinavian Health & Fellowship society desire The Mining Journal to state that all former members are asked to join.

Miss Myrtle Johnston is home from the Marquette Normal for the week end.

Charles Armstrong of Vancouver, B. C., is here on a visit to his uncle, David Johnston, of Ridge street.

Miss Ida Gill, of this city, has taken a position in the office of the county school commissioner in Houghton county, succeeding Miss Alvida Rankin, resigned. During the summer Miss Gill was employed with the Building & Loan association at Hancock.

The Ishpeming and Gladstone football teams will play tomorrow afternoon on the Union park grillion. The Gladstone team decisively defeated the Ishpeming eleven here last season, but this year's Ishpeming team is much stronger than last year. It is reported that Gladstone has a very fast team. The

Ishpeming players are selling tickets in the hope of obtaining sufficient money to pay the visiting team's expenses. Tickets are twenty-five cents each.

The young women of the Swedish Lutheran church congregation will entertain next Wednesday evening in the young people's hall with a country store. There will be a program and refreshments will be served. There will be no admission charge. The public is invited.

PREACHER WAS LAID UP.
 Rev. C. M. Knighton, Havana, Fla., writes: "For three months I suffered intense pain in the kidneys and back which at times laid me up entirely. I used 1/2 bottles of Foley Kidney Pills and all the pain disappeared. I feel as if 20 years had been added to my life." Relieves rheumatism, backache, sore muscles, stiff joints. Sold everywhere.

All Women's Suits \$15.00

Starting today, we hold our final clean-up of Women's Suits. Every Suit in stock valued up to \$30.00 will be sold at \$15.00. They are all new fall models, some fur trimmed. We do not alter these Suits at this price.

Ishpeming, Mich. **N. E. Skud Estate** Mich.

SUNDAY AT METHODIST CHURCH.
 The men's classes at the First Methodist Episcopal church will meet tomorrow morning, at 9 o'clock, and at the 10:30 services Rev. E. C. Karr, the pastor will preach on "The Church of God." The Sunday school class will meet at 2 o'clock and at 4, when the Epworth league will hold its meeting. W. J. Traylor will preach on the topic "The Mission For Men and Money." Mr. Treloar also will render, a vocal solo. At the evening services, commencing at 7 o'clock, Rev. Mr. Karr will preach on "Walking With God."

TWO CHILDREN HAD CROUP.
 The two children of J. W. Nix, Cleveland, Ga., had croup. He writes: "Both got so choked up they could hardly breathe. I gave them Foley's Honey and Tar and nothing else and it completely cured them." Contains no opiates. Cuts the phlegm; opens air passages. Sold everywhere.

Negaunee Department

SOLD LACE TO TWIN CITY HOUSEWIVES

The Gormans 'Worked' Ishpeming and Negaunee Before Going to Gwinn.

Miss Gorman and her brother, who were taken into custody Thursday afternoon upon their arrival from Gwinn, where they fraudulently represented lace which they were selling as genuine Irish lace, were sought for by a number of Marquette county people yesterday.

When Marshal Newcombe had the Gormans in custody he did not know that they had "worked" Negaunee and Ishpeming, or he would have held them for further developments.

Negaunee housewives have complained to the police that the canvassers, besides swindling them did not swindle on a uniform scale of prices, for some were charged more than others.

GIVEN FEDERAL JOB.

Swanson Bros. to Install Plumbing Apparatus in Ypsilanti Postoffice.

Swanson Bros. have been awarded the contract to install the plumbing and heating apparatus in the postoffice, which will be erected at Ypsilanti by J. S. Wablan, the Ishpeming contractor.

Swanson Bros. have successfully completed a number of large plumbing and heating jobs in the upper peninsula.

WILL GO TO COAST.

S. S. Collins, Sr., will leave here the early part of next week for the Pacific coast. He will spend a few weeks at the San Francisco Exposition and will also visit at Los Angeles.

LOCAL LACONICS.

Edward Swanson is at Iron Mountain on business.

W. M. Quinn returned yesterday from a business trip to Escanaba.

Mrs. William Layne, of Marquette, is the guest of Negaunee relatives.

Joseph Verecillo, of Duluth, is spending a few days in the city, visiting with his folks.

Mr. and Mrs. Grover Prouse have gone to the copper country to spend a few days visiting.

Mrs. M. C. Quinn has returned from a visit to relatives and friends in the copper country.

W. B. Pattison arrived home yesterday morning from a business visit at Iron Mountain.

Miss Alice Mercier has gone to Marquette, to spend a few days visiting with relatives and friends.

A dance will be given this evening at the Labor temple. Williams' five-piece orchestra will furnish music.

The Misses Hilma and Esther Erickson have returned from a few weeks' visit with relatives and friends at Chicago.

leave for Little Lake this evening to spend Sunday hunting at Goodman's camp.

The Misses Leona Kellan and Florence Flynn, students at the Normal, arrived here yesterday afternoon to spend the week end visiting M. H. Curley and family.

Captain and Mrs. Richard Roberts left yesterday for Detroit, to visit for a few weeks with their son, Ed. Roberts and family, and daughter, Miss Carrie Roberts.

The pantry sale today at Haupt's store by the ladies of the Altar Guild of St. John's church will be held this afternoon instead of this morning, as had been previously announced.

The members of the Women's guild of St. John's Episcopal church are making preparations for the annual supper and sale to be given in a few weeks at the Scandinavian hall. A chicken pie supper will be served.

The work of laying brick for the barn for Winter & Sness was started yesterday by F. E. King. The warehouse and refrigerating plant, which is now under cover, is rapidly nearing completion, and in a few weeks will be ready for use.

Miss Esther Tornberg, formerly of Republic, was married on Wednesday afternoon, at Davenport, Ia., to Fred Lund of that city. Mr. and Mrs. Lund will reside at Davenport. Following the ceremony they departed for Chicago, where they will visit for a few days, later going to Republic to visit relatives.

Gunnar Larson, who has been a patient at Mayo Brothers hospital, Rochester, Minn., for the last two months, arrived home yesterday morning. When Mr. Larson left Negaunee for Rochester his condition was critical and it was necessary to perform several transfusion operations to save his life. He has now almost completely recovered.

The high school second football team will go to Marquette today to meet the Marquette second team. The Negaunee line-up will be as follows: Ed Meilleur, center; "Mike" Roberts, left guard; Arthur Hooper, left tackle; "Chuck" Connors, left end; Elmer Mitchell, right guard; Elmer Arscott, right tackle; Ed O'Donoghue, right end; "Panney" Edwards, quarterback; John Walkama, left half; John Tynd, fullback; Ben Nelson, right half; John Kainainen and Sam Korhonen, substitutes. The team will leave at 10:30 this morning and will be accompanied by H. A. Smith, the high school coach.

The mere mention of sausage brings at once to the mind a breakfast served with Bae's Prize Pig Sausage, and Cakes. Ask your grocer.

Upper Peninsula

Praise for Holbein. Editor Holbein of the Manistique Pioneer-Tribune went to Chicago the latter part of last week for medical treatment. His health has been failing for some months, and for many weeks past he has done all his work at this home. Brother Holbein has been giving the people of Schoolcraft county one of the most readable and most ably edited weekly newspapers in the country for the past twenty-five years. And it has been a newspaper that has always stood for the right. Mr. Holbein's life in every way squares with the clean, honest living precepts which he has ever given his readers. We most earnestly hope that he may be spared for another quarter century of service for the good of humanity and for the purpose of Escanaba Journal.

Says Mayor Faltered. He has always "fought the good fight," and the world has seen of his backbone and fearlessness. Acting Mayor MacKilich held a star chamber session Tuesday evening presiding the regular meeting of the city council. He had a nice little sugar-coated dose that he wanted to slip down the throats of the aldermen, but, fortunately for Escanaba, several of the aldermen knocked off the sugar-coating and what remained didn't look good to them. Their stomachs revolted, says the Escanaba Journal. The weak-stomached fellows were: Aldermen Edward Smith, C. N. Wood, Harry North and J. S. Sheehan. The franchise under which the Northern Michigan Water Co. is operating the water system in this city provides that the city may purchase the system at any time, the purchase price to be fixed by three competent hydraulic engineers—one to be appointed by the city, one by the company and one by the circuit judge. The public is well aware of the present agitation in connection with the water system. The owning company wants a new franchise, or they are willing to sell for about \$400,000. The city wants to have the system appraised. The acting mayor of the city made one grand survey of the whole universe, and the only "competent hydraulic engineer" that came within range of his vision was J. E. Escanaba, the Goat.

FOR SALE—Cheap. Coal stove, used one winter. Inquire 432 Iron St. 10-23-64.

STOMACH UPSET? Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested food, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramping or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 15c and 25c per box. All druggists.

The Olive Tablet Company, Columbus, O.

Byrns. And the star chamber session Tuesday evening was for the purpose of trying to get the members of the city council to agree to the said J. E. Byrns, "competent hydraulic engineer," as the city's representative on the board of appraisers.

And the acting mayor wanted the appointment of J. E. Byrns, "competent hydraulic engineer," to take with it a fixed compensation of \$700. J. E.'s services as "competent hydraulic engineer" are not in very active demand, so he needs the \$700. But Smith, the strenuous alderman from the Sixth, voiced his objections. He opened fire on the sugar-coating with solid shot and shell, and grape and canister. Aldermen Wood, North and Sheehan rendered effective service at the battery. When the battery fire had ceased the sugar coating was all gone, and the other eight aldermen present, active lieutenants of the acting mayor, couldn't say a word. And when the council meeting was held a few moments later the acting mayor didn't have the courage to present the name of J. E. Byrns, "competent hydraulic engineer," as the city's representative on the water system board of appraisers.

Broommakers in Galveston, Texas, have formed a local and affiliated with the international organization of the craft.

IRRITABLE CHILDREN OFTEN NEED KICKAPOO WORM KILLER.

There is a reason for the disagreeable and fretful nature of many children. Think of the unrest when the child's body is possessed by tiny worms sapping its vitality and clogging its functions. Whatever may be the cause—Your child's peevishness and irritability has a cause. Give Kickapoo Worm Killer a chance and if worms are there this humanly harmless remedy will eliminate "that children have worms is a fact," the annoying parasites. 25c. a box.

PLAN RETORTS FOR FURNACE

Work on Battery of Ten That Will Replace Over Forty of the Kilns Soon to Be Started at the North Marquette Plant of the Pioneer Iron Company.

Each Will Have a Capacity of Ten Cords of Wood That Will Be Carbonized in Twenty-Four Hours—Yield of the Distillates Will Be Increased Greatly.

Work will shortly begin at the North Marquette-furnace of the Pioneer Iron company on the erection of a battery of ten retorts for the production of charcoal and the distillates that are used in the chemical plant. These retorts will replace half of the present battery of kilns, eighty-six in number. They will be built by the company's own workmen from plans now being prepared, and they will be under construction through the winter. The time when it will be possible to put them into use will depend largely on the weather that will prevail through the winter months, but Austin Farrell, the general manager of the company, expects that they will surely be in commission next summer.

The kilns at the furnace have now been in use for twelve years, and they are in none too good condition. This, and the greater efficiency of the retort system in production of distillates, is responsible for the decision to proceed with the new work at this time.

The retorts will each have a capacity of ten cords of wood daily, and will be similar to those at the Newberry plant of the Charcoal Iron Company of America, only slightly larger, as the retorts at Newberry have a capacity of but eight cords. The units in the North Marquette installation will be between forty and fifty feet long, seven to eight feet high and seven to eight feet wide, approximately.

Wood Is Baked.

The wood is carbonized in the retorts by baking it. Each retort is, in fact, a great oven. The wood is loaded onto cars that are run into it on a standard gauge track, four or five cars to a retort, and it is baked over a hard fire until the process of carbonization is complete. The retorts are connected with each other and with the chemical plant by a system of mains, as are the kilns, and the smoke is drawn off and made to yield the distillates that are refined into valuable products. When the carbonization is complete the retort is opened, the charcoal withdrawn and used in the stack or placed in storage, and another lot of wood is run in for baking.

Whereas carbonization in the kilns, each of which at the Pioneer furnace will hold from eighty to ninety cords of wood, requires four to five days, it is completed in the retorts in twenty-four hours, and the product of distillates, the raw material for the chemical products, is about 25 per cent greater. Various fuels are used in the retorts, refuse of mills where they are operated in connection with a lumber industry, but as there is no refuse material at the North Marquette plant the fuel will be soft coal.

Because of their higher efficiency retorts are now being generally installed for industries that need charcoal or that are seeking wood distillates for by-products. Most of the upper Michigan and northern Wisconsin furnaces now use them, and the kilns are decidedly out of date.

ILLEGAL VOTING CHARGED.

J. M. Prentice Placed Under Arrest at Munising Thursday.

Another arrest for illegal voting in the Munising recall election a week ago today occurred Thursday, when J. M. Prentice was taken into custody. Thomas C. Sullivan signed his bond for appearance for the examination on the 30th. The Munising News says that the

cases against James Manning, Frank Fortune and James McCaulley, who were arrested a week ago for illegal voting, will be pushed to the limit. The case against Emmett Sullivan, who, as city clerk, is charged with encouraging and abetting illegal registration is set for hearing on the 27th.

GOVERNOR HERE TODAY TO CONSIDER PARDONS

Will Visit Marquette Prison to Investigate Pleas for Twenty-Five Convicts.

Governor Woodbridge N. Ferris, who yesterday conducted the Houghton-Keweenaw county teachers institute at Calumet, will today visit Marquette prison for the purpose of investigating pleas for pardons that he has under consideration. They are twenty-five in number and include the pardon petition of Joshua Cooper, James Croff, Edward Polkinghorne and Arthur Davis, who are serving sentences in the prison on conviction of having killed Steve Butrich at Sebeville during the strike.

In an interview in Calumet yesterday Governor Ferris said that he had given the cases of these men earnest consideration. He would not intimate what his probable decision would be. He said that he must first see the men themselves and that he would stop in Marquette today for the purpose.

It will be remembered that a petition signed by 10,000 women of Houghton county was sent last winter to the governor, asking that he pardon these men. The governor was asked, yesterday, as to his political ambitions, if there is any truth for example in the oft repeated assertions that he might be a candidate for vice president or for United States senator. The governor laughed at the questions and said he is not a candidate for anything.

The institute was attended largely at all three sessions yesterday. The governor talked at each session as did President John W. Cook of the Northern Illinois Normal.

The governor gave his characteristic advice to the teachers, handed them common sense discussions of their problems and his, and on the whole made the institute very interesting.

In the afternoon, at the close of the institute session, the governor gave a hearing to a delegation of Houghton county Democrats. The subject of the conference was not given out.

EXPECT HARD BATTLE WITH SOO TEAM TODAY

Teams in Grim Earnest—Marquette Appears to Have Slight Advantage.

The Marquette-Soo football clash this afternoon at Saul Ste. Marie should provide many a thrill, as there is little to choose between the strength of either team, and each one will enter the fray with the same grim determination to win. The clean-cut victory of the Soo team over Escanaba last week, which resulted in a 20-0 score, shows that this eleven is a dangerous adversary, and realizing this, the Marquette team has gone through a week of particularly hard practice.

If the Soo team adopts line-smashing tactics, it is expected that the advantage will be all with the Marquette eleven. Gustafson, it is understood, will more than likely be in his place at quarter, which would add considerably to the Marquette hopes. The entire Marquette team has displayed unusual ginger and speed in practice during the last couple days, and have perfected a series of new plays with apparent ease. With both teams in top-notch form, today's game should be a sizzler from start to finish, regardless of the outcome.

A number of rooters accompanied the team to Saul Ste. Marie yesterday, and quite a few others will leave here this morning. Among those who will make the trip to witness the game are Mrs. H. J. Hornbogen, her two sons, Karl and Dan Hornbogen, Miss Gem Sherman, Phillip Hopkins, H. D. Hughes, Carl

Tauch, Clyde Richardson, William Clabo, Peter King, Frank Sabotka, Leo Derowich, Irwin Ryan, Charles Oliver, Howard Schrandt, Louis Eggers, Joseph Deasy, John Deasy, Donly Martin, Alfred Thomas, Robin Wallace, Norman Dobson, Harry Seigel, Arthur Urbach, Ian Brown, Clarence and Thor Windoff, Frank, John and Roy Miller, Merleus Moore, Edward Johnson, and Henry Croister.

GILLETT HEARING POSTPONED.

Adjourned Until Next Friday Because of Non-Appearance of Only Witness.

The hearing of J. T. Gillett, which was scheduled to take place before Justice Samuel F. Byrne at 1 p. m. yesterday, was postponed until next Friday morning at 11 o'clock, owing to the non-appearance of Lawrence Olmsted, witness for the prosecution. J. T. Gillett, who has just completed a ninety-day sentence in the county jail, immediately after his release became embroiled in a little difficulty with T. J. Farney, who swore out a warrant charging assault and battery. Olmsted was the only witness to the affair, and a subpoena was issued to insure his appearance at the hearing next week. In the meantime, Gillett is out on \$100 bail.

MARQUETTE VISITED BY LACE SWINDLERS

Their Stay Here Cut Short by Order of Marshal McIntosh—Victims in Ishpeming.

Tell almost any woman that she does not know the difference between genuine Irish point lace and a poor imitation, and she will rise in righteous indignation and deny any charge with more vehemence than the most slanderous comment would bring forth. She will even add that if there was anything for which she was ever noted, it was as a connoisseur of fine laces, and particularly Irish point laces. It's a well-known frailty of the gentler sex, and it is the same the world over.

Therefore when Marshal McIntosh was notified yesterday morning that two prominent women of Ishpeming had fallen victims to the persuasive powers of Miss Anna Gorman and her brother, two traveling house-to-house canvassers, and had purchased some so-called Irish point laces, only to find out later that they were anything but the real thing, he knew what to expect. The marshal, being wise in the ways of the opposite sex, handled the situation with delicacy. He promised first to save the victims the humiliation of being known in their plight, and then proceeded to get back their money.

He met the 10:50 a. m. train, on which he was notified that Miss Anna Gorman and her brother would come to Marquette, and accosted the couple after they stepped out of the train. He demanded the return of \$13.50, the amount of the two Ishpeming sales, and after this was produced, he advised the canvassers to make their stay here as short as possible. They left for the West on the 11 p. m. train yesterday.

While the marshal was awaiting the two Ishpeming women at his office yesterday afternoon, to return their money, he received an additional complaint over the telephone from Ishpeming, but as the lace vendors had already left for the West, it was too late to act.

Miss Anna Gorman and her brother had victimized a number of Gwinna matrons on the day previous, and were about to commence operations in this city, when their plans were rudely interrupted by Marshal McIntosh.

FUNERAL OF MRS. KREMER.

Will Be Held at St. Peter's Cathedral This Morning at 8:30.

Funeral services for Mrs. Catherine Kremer, who died last Tuesday morning at Duluth, will be held this morning at 8:30 at St. Peter's Cathedral, with burial in Holy Cross cemetery.

The remains arrived in this city yesterday morning at 5 o'clock, and were taken to the home of Charles E. Willeson, brother of the deceased.

Among those who have come to Marquette to attend the funeral are Martin A. Willeson, Charles F. Kremer, and Minnie Kremer, Mr. and Mrs. Elroy King, of Duluth, M., and Mrs. Bartley McNamara, of West Superior, and Mr. and Mrs. Ben J. Willeson, of Calumet.

STREET DEPARTMENT COMPLETES NEW ROAD

May Keep Chocolatey Road Open Until Wednesday—Dwellers on Spring Street Warned.

Efforts will be made by the street department to keep open the road between the Lake street bridge and the Carp river bridge until Wednesday, in view of the Potato Congress next week, which is expected to result in additional traffic. The Carp river bridge is to have a new concrete floor, while the other will be moved and the space filled in. This will necessitate closing that part of Chocolatey road between the two bridges while the work is being done, which will require about three weeks. The detour road is already completed, and in case the street department decides that the old Lake street bridge is unsafe for use, the road will be closed before Wednesday.

The street department sent out notice yesterday to the occupants of dwellings on Spring street, east of Front street, notifying them that unless this thoroughfare were kept in better condition, it would result in being closed entirely. This thoroughfare is not a city street, but the private property of the South Shore railroad, who insist upon its being kept in presentable condition. The place has been littered with garbage and refuse of every description, in spite of previous warnings, and the railroad officials threaten to close it permanently as a thoroughfare, unless better conditions prevail. Inasmuch as the city has no jurisdiction over this property, and its closing would probably entail a series of lawsuits, the street department is thoroughly in earnest about enforcing this edict.

SOO CANAL PASSAGES.

Sp's pressed for 50 cents. Wm. Colvard, tailor, Vierling Bldg. 10-21-61.

COLD DO NOT LEAVE WILLINGLY. Because a cold is stubborn is no reason why you should be. Instead of "sweating" it out, get sure relief by taking Dr. King's New Discovery. Dangerous bronchial and lung ailments often follow a cold which has been neglected at the beginning. As your body faithfully battles those cold germs, no better aid can be given than the use of this remedy. Its merit has been tested by old and young. Get a bottle today. 50c and \$1.00.

"DON'T DIE ON THIRD"

In the parlance of the diamond, this has become a recognized rule for the supreme moment of the game. The great Cobb has pulled more than one contest out of the fire because of the belief that it is better to die in the attempt to score than to be left on third with no real struggle to his credit. The great effort at the proper moment often wins.

This same rule might with profit be adopted into the lives of our people. Many a man reaches Third Base toward the realization of his dreams and then dies there waiting to be driven home. The chances of this happening are much less than in our National game. Whether one reaches the goal in life he has set depends upon himself, and if he gets around to third, the determination that got him that far will finish the circuit. Our Savings Department was organized for people who have some definite aim in life. For such people no scheme for saving, by whatever name you may call it, has anything over the regular Savings Account. Deposits may be made in such accounts just when the Depositor chooses and in such amounts as he chooses. Regular deposits, however, every week or every month, are what count.

The First National Bank, Marquette, Mich.

DUOFOLD HEALTH UNDERWEAR

maintains the natural heat of the body under all conditions and is soft and comfortable to the skin.

is in two fabrics knitted together with air space between. Fine soft cotton next to the skin is comfortable, prevents or absorbs excessive perspiration, the air space ventilates, the wool on the outside keeps you warm.

NO OTHER UNDERWEAR like "DUOFOLD" Won't you look into it.

We have them for Men, Women and Children.

JACOB ROSE THE STORE OF QUALITY

These are days in which to put your faith in clothes of known value.

ADLER-ROCHESTER is more than a label in your coat—It is an expression of highest ability in design, of real quality in material. It is the sign of the pioneer young men's clothes makers

IN times like these—with materials uncertain in price and quality—the only sure way to get full value for your money is to buy an article of known repute—guaranteed by a name of known integrity—

ADLER-ROCHESTER Ready-to-Wear Suits and O'Coats \$20 - \$25 - \$30
