TWO ALLEGED GERMAN SPIES HELD AT NEW YORK

GERMAN CRUISER SUNK BY A BRITISH SUBMARINE

WARSHIP SENT TO THE BOTTOM IN THE BALTIC

Craft Is Declared to Have Been of the Prinz Adalbert Class—First Loss German Navy Has Suffered Since Recent Operations of Underwater Craft Began

Bulgarians Report the Capture of Uskup and the Austro-Germans Claim Steady Progress in Serbia, Thus Apparently Coming Closer to Their Ultimate Object

Petrograd, via London, Oct. 24, 11:25 p. m.—A British submarine operating near Libau attacked and sunk a German cruiser of the Prinz Adalbert class, according to official announcement made tonight.

The loss of this cruiser is the first the German navy has suffered in this theater of war since the British recently began, with increased earnestness, a submarine war against enemy ships of all kinds. From reports reaching London the underwater craft have been most successful in these operations.

ALLIES SHELLS KILL 1,000.
London, Oct. 25, 3:25 a. m.—The bombardment of Dodegatch caused the death of ten civilians and over a thousand soldiers and there also were a large number of soldiers wounded, says a dispatch to the Exchange Telegraph company from Athens.

A large proportion of the military casualties, the correspondent adds, were in the barracks which housed the Fourth Bulgarian regiment. The barracks were crowded with soldiers, who were preparing for their meal when the bombardment was opened at 1 o'clock with accurately aimed shells, which demolished the barracks, burying the occupants in the ruins.

Troops engaged in digging trenches around the town also sustained heavy losses.

DAMAGE IS ENORMOUS.
Fires caused by the exploding shells destroyed the railway station and surrounding buildings, doing enormous damage. It is stated that the entire loss from five bombardments, which lasted four hours, will be several million pounds.

The correspondent says the bombardment was directed by aeroplanes which flew over the town in the afternoon. Twenty warships participated. The Bulgarians are now engaged in preparing defense works on the surrounding mountains.

Porto Lagos was fiercely bombarded by eight warships Thursday and again on Friday.

London, Oct. 24, 10 p. m.—The Bulgarians, according to their official report issued today, have reached Uskup, an important junction on the Saloniki-Nish railway, and have placed themselves across the route by which the allies reinforcements for the Serbs would travel.

The Austro-Germans in the north have begun a more vigorous offensive and have crossed the Danube near Orsova. This brings much nearer the linking up of the armies of the German allies and those of Bulgaria and the opening of the way through Bulgaria to Constantinople.

Success is not being achieved without heavy losses as the Serbians, veterans, well entrenched in their mountains, are offering stubborn resistance and are making the invaders pay a big price for every mile of country invaded.

FRENCH AND SERBS SIDE BY SIDE.
French troops are fighting beside the Serbs in the southeastern section and reports from Athens say that other steps are being taken by the allies to help their small partner. Additional troops are being landed at Saloniki; Bulgarian ports in the Aegean and Black seas are being bombarded and

U. S. SOLDIERS IN BRISK FIGHT WITH MEXICANS

Bandits on Texas Border Are Believed to Have Planned to Surround Detachment of Fourth Infantry and Deliver Surprise Attack, But Were Discovered.

Private Herman L. Moore, Wounded in Skirmish, Will Die It Is Feared—Pursuers Set Out After Outlaws in Fifty Automobiles; Cavalry Is in Hot Chase.

Brownsville, Tex., Oct. 24.—Soldiers of the Fourth United States infantry and Mexican bandits engaged in a skirmish tonight at the scene of the train robbery and murders of last Monday. One American soldier, Private Herman L. Moore, was wounded in the fight, according to reports received at Fort Brown.

Sergeant Arthur Estridge of Company C, Fourth infantry, was in command of the detachment attacked. He reported to Fort Brown headquarters that five Mexicans were seen to cross the railway track just beyond where the infantry was stationed. The soldiers promptly opened fire on the Mexicans, while the commander gave alarm to headquarters. When the Mexicans returned the fire their number seemed larger. The firing lasted about five minutes. Probably one hundred shots were fired. Private Moore was wounded in the abdomen and is not expected to live. There were no Mexicans killed so far as is known.

AIMED TO SURROUND SOLDIERS.
The plans of the Mexicans are believed to have miscarried. It is thought they intended surrounding the Americans to deliver a surprise attack. This was prevented, it was believed, by the vigilance of the soldiers who saw the five men crossing the track. Reports from the scene said there seemed to be about sixteen Mexican in the band. When the Americans opened fire the Mexicans

GERMAN OFFICIAL TRIES TO JUSTIFY CAVELL EXECUTION

Berlin, via The Hague and London, Oct. 24.—Dr. Alfred Zimmermann, German under-secretary for foreign affairs, has issued an official explanation of the recent execution in Belgium of Miss Edith Cavell, the British nurse. He prefaced his remarks by the declaration that he had examined the evidence and found the verdict, though regrettable, to be just. His statement follows:

"I see by the British and the American press that the shooting of an English woman and the conviction of several other women in Brussels for treason have created a great impression and that we are being severely criticised. It is indeed hard that a woman must be executed, but remember to what shall a state come which is in war, if it allows to pass unnoticed a crime against the safety of its armies because committed by a woman. No law book in the world, least of all those dealing with war regulations, makes such a differentiation and the feminine sex has but one preference according to legal usages, namely that women in a delicate condition may not be executed. Otherwise man and woman are equal before the law and only the degree of guilt makes a difference in the sentence for the crime and its consequences.

DENONCES CAVELL 'CONSPIRACY'
"In the Cavell case all the circumstances are so clear and convincing that no court martial in the world would have reached any other decision. For it concerns not the act of one single person, rather it concerns a well thought-out world wide conspiracy which succeeded for nine months to render the most valuable services to the enemy to the disadvantage of our army. Count-

less British, French and Belgian soldiers now again are fighting in the allied ranks, who owe their escape from Belgium to the activity of the band now sentenced, at the head of which stood Miss Cavell.

"All those convicted were fully cognizant of the significance of their actions. The court went into just this point with particular care and acquitted several co-defendants only because it believed doubt existed regarding the cognizance of the punishability of their actions. Those convicted knew what they were doing. Countless public proclamations have declared that support of enemy armies would be treated with the severest penalties, even that the lives of traitors would be sacrificed.

TRAIN HITS AUTO; FAMILY OF EIGHT DASHED TO DEATH

Mrs. William Stoldt, Her Five Children and Her Sister Are Instantly Killed and Mr. Stoldt Mortally Hurt When Grand Trunk Locomotive Strikes Car.

Bodies Are Strawn Along Tracks for a Distance of More Than a Quarter of a Mile—No One Is Known to Have Seen Accident Which Occurred Near Detroit.

Detroit, Oct. 24.—Seven members of one family were instantly killed and an eighth was fatally injured today by a Grand Trunk passenger train which struck an automobile at Fraser, Mich., sixteen miles from Detroit. The dead are:

MRS. RACHEL STOLDT, forty-seven years old.
PEARL STOLDT, seventeen.
ESTHER STOLDT, fifteen.
HAZEL STOLDT, twelve.
MABEL STOLDT, ten.
MARTHA STOLDT, six.
MISS MINNIE ENGEL, a sister of Mrs. Stoldt.

WILLIAM STOLDT, a farmer of Troy, Mich., the husband; will die.

BODIES DRAGGED QUARTER MILE.
There were no witnesses of the accident. Apparently Stoldt, who was driving the automobile, did not see nor hear the approaching train and drove the machine on the crossing directly in front of the locomotive. The train was stopped and the crew gathered up the bodies which were scattered along the right-of-way a distance of a quarter of a mile.

U. S. PLANNING FOR BIG TRADE WITH WORLD

Washington, Oct. 24.—Elaborate plans for a world-wide campaign for trade by the United States are revealed in the estimates of the department of commerce expenditures for the next fiscal year to be presented to congress this winter. Through the bureau of foreign and domestic commerce the department proposes to aid American merchants and manufacturers in taking advantage of wonderful opportunities now before them and in preparing for the struggle for trade supremacy which commercial officials are certain will follow the European war.

The reorganization of the staff in Washington and an increase to about twice the present extent of the foreign commercial service are contemplated, according to a statement discussing the new estimates made public today by Dr. E. E. Pratt, chief of the bureau. Appropriations will be sought to provide for extensive investigations of commercial conditions abroad and for tariff inquiries by the cost of production division.

CANT CONSIDER INDIVIDUAL.
"There are moments in the lives of peoples when consideration for the individual is a crime against the whole. Once and for always the activity of our enemies had to be stopped and sentence has been carried out to frighten those who might presume on their sex to partake in enterprises punishable with death.

BIG OPPORTUNITY OPEN.
"As a part of the general program of 'preparedness,' said Dr. Pratt, 'the secretary of commerce will request congress to make a largely increased appropriation for the bureau of foreign and domestic commerce. Secretary Redfield believes that commercial preparedness should not be overlooked. That the United States is facing a great and unusual opportunity for increased world commerce and he has expressed these convictions to enable the department of commerce to do a larger and more effective work in promoting commerce than is now possible.

"One of the most important increases asked for is for an increased clerical staff in Washington. This amounts practically to a reorganization of the bureau with additional divisions and de-

partment for new branches of the work which has recently been undertaken."

INQUIRE INTO ALL MARKETS.
"The commercial-agent service is the backbone of the trade promotion organizations. It is anticipated that under the appropriations asked for it will be possible during the fiscal year 1916-1917 to make investigations of the possible foreign markets for cotton textiles, motor vehicles, railway supplies, boots and shoes, agricultural implements, furniture, machinery of all kinds, electrical power equipment, structural material, wearing apparel, investment possibilities, etc. No large increase will be asked by the bureau for the establishment of branch offices in the United States, but the bureau hopes to extend this service through the co-operation of the local commercial organizations.

FORMER SENATOR SMITH DIES IN CALUMET AT 76

Calumet, Mich., Oct. 24.—Charles Smith, former member of the state senate, of which he was dean for many years, died here tonight. Mr. Smith was seventy-six years old. He had served sixteen years in the legislature and was one of the most widely known men in northern Michigan. He was a veteran of the Civil war.

RUSSIA MAY TRY TO GET A LOAN OF TWO BILLION

Petrograd, Oct. 24, via London, 2:55 p. m.—An imperial ukase issued today authorizes the Russian minister of finance to transact on foreign markets credit operations amounting to 5,500,000,000 rubles (\$2,750,000,000) and also to issue abroad the necessary treasury bonds in pounds, francs and dollars.

Explaining his plans, Pierre Bark, the finance minister, said the whole fiscal system of Russia would be reformed on the basis of the income tax, which already had been approved by the duma and now was under consideration by the council of the empire.

TO MONOPOLIZE STAPLES.
All textiles, he said, also would be taxed, which would bring into the treasury \$75,000,000 annually. Schemes for creating tea, sugar and match monopolies are being worked out.

The question of a 6 per cent internal loan shortly will be determined as the Russian money market is rich in resources, the proof of which, said the minister, will be found in the recent statement that current deposits in private banks had reached the marvelous total of \$2,000,000,000 and that the increase in deposit accounts for the year ending in September amounted to \$350,000,000, of which the savings bank deposit monthly increase was \$25,000,000.

U. S. PLANNING FOR BIG TRADE WITH WORLD

Washington, Oct. 24.—Elaborate plans for a world-wide campaign for trade by the United States are revealed in the estimates of the department of commerce expenditures for the next fiscal year to be presented to congress this winter. Through the bureau of foreign and domestic commerce the department proposes to aid American merchants and manufacturers in taking advantage of wonderful opportunities now before them and in preparing for the struggle for trade supremacy which commercial officials are certain will follow the European war.

The reorganization of the staff in Washington and an increase to about twice the present extent of the foreign commercial service are contemplated, according to a statement discussing the new estimates made public today by Dr. E. E. Pratt, chief of the bureau. Appropriations will be sought to provide for extensive investigations of commercial conditions abroad and for tariff inquiries by the cost of production division.

BIG OPPORTUNITY OPEN.
"As a part of the general program of 'preparedness,' said Dr. Pratt, 'the secretary of commerce will request congress to make a largely increased appropriation for the bureau of foreign and domestic commerce. Secretary Redfield believes that commercial preparedness should not be overlooked. That the United States is facing a great and unusual opportunity for increased world commerce and he has expressed these convictions to enable the department of commerce to do a larger and more effective work in promoting commerce than is now possible.

MEN HAD HARBOR MAPS AND A VAST QUANTITY OF EXPLOSIVES HIDDEN

Robert Fay, Lieutenant in Imperial Army, and Accredited Representative of Wilhelm Strasse Foreign Office, Arrested with Brother-in-Law, Admits, Police Say, He Was Paid to Wreck American Munitions Plants.

INGENIOUS DEVICES FOUND, INTENDED, IT IS BELIEVED, TO BLOW UP SHIPS

New York, Oct. 24.—Police tonight detained Robert Fay, said to be a lieutenant in the German army, and his brother-in-law Walter Scholtz, in Weehawken, N. J. Explosives and survey charts of New York harbor are said to have been found in their possession.

New York, Oct. 24.—In the arrest of Robert Fay, a lieutenant in the German army, and Walter Scholtz, his brother-in-law, tonight the police and federal secret service agents believe that they have detained leaders in a plot to wreck American munitions plants and ships carrying munitions.

According to Captain Tunney, of the New York "anarchist" squad, Fay confessed that he came here to work out a plan for stopping the shipment of munitions. He said, Tunney avers, that he was supplied with \$2,000 for carrying out his operations.

Papers found in his room showed he was a German secret service agent.

HAD MAPS OF HARBOR.
A vast quantity of high explosives and survey maps of New York harbor were found in the prisoner's room in Weehawken, N. J., where the arrests were made.

Both men are held on technical charges of disorderly conduct. An additional charge of attempted bribery may be made against Fay. He is said to have offered a police officer \$1,000 to release him and made an advance payment of \$60 when the officer agreed to his proposition. The officer, it is said, accepted the \$60 and then arrested him.

The men are declared to have been testing a bomb in a small grove when apprehended.

DEVICE TO WRECK SHIPS.
Five steel mines, said by the police to belong to the prisoners, later were found in a West Hoboken storehouse. Each was packed in a separate wooden case and fitted with an attachment which might be fastened to the stern of a ship by a wire. Contact with the propeller of a ship, it is said, would explode the mine.

Two suitcases found in the men's room in Weehawken were filled with explosives, letters written in German and official looking documents. Among the explosives were several sticks of dynamite and various kinds of acids used in the manufacture of explosives.

One of the papers, it is asserted by the police, showed Fay to be a lieutenant in the German army and connected with the German foreign office in the Wilhelm Strasse.

Fay is said to have come to this country shortly after the battle of the Marne. Scholtz has been in the United States for seven years. Efforts of the police to identify him as a former member of the emperor's household failed.

Members of both the New York city "anarchist" squad and New Jersey police detained the men and questioned them tonight. Tomorrow they will be turned over to the federal authorities for investigation.

WERE SHADOWED TEN DAYS.
The detention of Fay and Scholtz came after a search of ten days. Reports that suspicious appearing men had been seen loitering about the Jersey docks when munitions were being loaded and also about munitions plants caused Captain Tunney of the "anarchist" squad and his men to be detailed to the New Jersey side.

STRIKERS' COMMITTEE HAD FEDERATIONISTS; CONFERENCES ENDED

El Paso, Texas, Oct. 24.—Declaring that the conference between the managers of the companies in the Clifton-Massey copper strike district of Arizona and the committee of strikers held here daily for a week had been so pervaded by the influence of the Western Federation of Miners that they were futile, the managers stated today that the conferences were concluded. The managers represented the Arizona, Shannon and Detroit Copper companies, all affected by the strike.

A lengthy statement issued by the managers follows, in part: "With influence of the Western Federation of Miners has attended each development of the situation which the federation agitators forced upon community that is now stricken."

FIVE CATHOLIC PRIESTS GIVE LIVES AT FRONT
Ottawa, Oct. 24.—Five priests of the Ottawa Roman Catholic diocese have given their lives to the cause of the British empire at the front. It was announced here today. All met death on the battlefield. They were French reservists. It is stated that the record for enlistments from one church parish in Canada is held by St. Patrick's Roman Catholic church here, 220 members of the congregation joining the Canadian expeditionary force.

TODAY'S WEATHER.
Washington, Oct. 24.—The following is the weather bureau's forecast for Upper Michigan: Cloudy and probably rain and warmer, Monday; Tuesday, rain or snow and colder.

Secret Agents in District.
"Secret agents of the Western Federation of Miners entered the district early this year, when, on account of the European war, the companies were confronted with the necessity of striving to aid their employees in the face of decreased output. This was necessarily attended by a reduction in wages, following improvement in the market early in this year, the managers of the companies adopted a sliding scale based on the average selling price of copper. This scale gave the employees even higher wages than they had received previously at corresponding copper prices."

The managers assert the scale was satisfactory to the employees until Western Federation of Miners agitators

IRISH POINT.
 Two persons have been in great trouble in Marquette county because they sold Irish punt lace that wasn't Irish point at all, but a cheap imitation. The only thing Irish about the wily team appears to have been a rich brogue that was used for selling purposes only, as when it came in contact with the police the brogue was sacrificed to the necessity of clear and rapid explanation. But the housewives who bought appear in a bad light. They should know Irish punt when they see it. Buying from itinerant peddlers is bad business at the best. It is still worse business when the purchaser has no information about the merchandise that is being traded in. Under such circumstances it becomes doubly imperative to trade at home, for the home merchant can be depended on to make correct representations about his goods.

WILL PUSH CASES.
 In Munising it is announced that the prosecution of the men arrested for illegal voting will be carried through to the bitter end. That there is need for stern procedure in these cases is indicated by the success of the prosecution in the circuit court last week in securing a conviction for a similar offense in the January election. The recent Munising campaign was enlivened by no end of charges of improper voting and the number of arrests that have been made suggests that there is fire behind the smoke. Many communities in heated elections have suffered from altogether too much of this sort of thing. Marquette is no exception. There have been elections here in which the vote of "floaters" was perhaps the determining factor. But the public would no longer tolerate the old practices. They belong to a past that will not be allowed to have a resurrection.

STILL UNSOUND.
 The condition of the national finances continues to be unsound. Notwithstanding all of the so-called "war taxes" imposed the revenues of the government fall short of the figures for the corresponding part of last year, while its expenditures exceed the disbursements in the like months of 1914. In September the customs revenues were more than \$2,000,000 below the record for the same part of last year. The decrease in internal revenue, including the income tax and the tax on corporations, was about \$1,000,000. A well-managed business suffering such losses in revenue, despite higher charges, would resort to strict economy. It would be merely common sense, but the national administration is not so prudent. Its disbursements last month were nearly \$600,000 more than in September, 1914.

Now the country is confronted by the necessity of increasing greatly its expenditures for national defense. Both the navy and the army must have more money. Their cost will exceed the average of recent years by perhaps half a billion dollars in the next five years. Will the same men who have failed to economize in ordinary matters, while the revenues of the government are falling off, be trusted to use such vast additional sums wisely and well?
PEACE? NOT YET.
 Considerable talk of peace is heard just now. But it has the wrong source to warrant much expectation of early overtures of serious import. It mostly comes from Berlin. One Berlin story has it that the war will be over by spring. Its principal basis is the professed confidence of the Germans in the sound business sense of the British. The position of the allies has become impossible. The British, with their sound business sense, are sure to recognize this and to conduct themselves accordingly.

Germany has no idea of keeping Belgium. The objective of the channel ports has been given up. But Germany intends to have its colonies back, and, in addition, some colonies of the allies in a trade for Belgium. And Germany is to help itself very generously to indemnities, with particularly severe demands on France for the evacuation of the northern departments. Indemnities are earnestly desired not alone to recompense the empire for its war costs, but because at the same time they make the empire more powerful they will decrease the potential power of its possible enemies for coping with it in the future. As for Russia, the Germans' projects appear to have changed. At first there was no design to do aught with Russian territory than to take enough of it to correct certain military lines. But now marked expansion in the east is contemplated, or the erection of a Polish state which shall be a German understate. And through the Balkans the Germans will find the road to the east that will compensate them for their abandonment of all channel projects.

Thus the Germans are ready for peace,

oneselves," was meant to apply only to the local option controversy, and not to the discussion over M. O., and thus in no manner applied to our mayor. As The Mining Journal recalls it, the letter in which the phrase was used was general in its nature and apparently outlined a broad Menominee policy which it took to apply to the water controversy, as well as to other questions. Evidently it misjudged Mr. Doyle's intent.

New York will vote on woman suffrage next month. The New Jersey vote can be taken as a fair index to the chance the woman have of carrying it.

The Feds propose to invade New York with ten-cent baseball. This means that in the long run the public will get in the Feds park ten-cent baseball.

STATE PRESS
 Great Britain has declared war on Bulgaria, but one declaration of war more or less, doesn't cut any ice these days.—Flint Journal.
 The congressmen are preparing to work for preparedness next winter by finding jobs for their friends in the army and navy departments.—Jackson Citizen Press.
 "Serbians kill 20,000 Tenthons and wound 40,000," says a bulletin. Apparently little Serbia is not in any particular need of sympathy after all.—Kalamazoo Gazette.
 The efforts required by Americans to maintain a neutral attitude towards the present war approaches in difficulty the demands upon the active participants in the trenches.—Jackson Patriot.
 Italy is to be the next to ask for a loan and maybe we may as well let her have it now as to wait until she gets out on the corner with lead pencils and shoe strings.—Grand Rapids Press.
 The promised lowering of state taxes under the Republican regime has resulted in a raise of 55 per cent. When it gets down to brass tacks, no political party has a monopoly on the secret of giving you low taxes.—Bay City Times.

As he admits himself, though, that he hasn't got them anyway, the action of the French pretender in telling King Ferdinand of Bulgaria to take back his revoked orders may be considered as largely formal.—Saginaw Courier-Herald.
 Gen. Grant was removed after Shiloh in the southwest to give place to Gen. Halleck. After Halleck had failed, Gen. Grant was again placed in command.
 "After the battle of Chickamauga, Gen. Thomas taking his place, and later Gen. W. T. Sherman, who had been side-tracked from an important command late in 1861, superseded Gen. Thomas. Gen. Ben Butler was removed from command at New Orleans, Gen. Banks succeeding him. Gen. Hunter was relieved of the command of the Shenandoah valley and Gen. Sheridan given his place. Gen. Fremont was removed from two different armies.
 The wonder is that there have been so few changes among the commanders in the present war rather than so many. So far neither side has developed a Grant, Sherman or Sheridan.
 It is interesting to note that the two generals who were removed from important command early in the war, and waited until after Vicksburg, July 4, 1863, for recognition in the regular army they had fought for at Fort Donelson and Shiloh, towered above all others at the end of the war.—Lynnes.
 The position those two great chieftains held the last year of the war, or omit their triumphs for the nation.
 It should not be forgotten that there were many changes of commanders in the confederate army. Gen. Beauregard, who commanded the first Bull Run, was superseded by Gen. J. E. Johnston, and when the latter was wounded President Davis didn't place an officer in temporary command, but at once named Gen. Robert E. Lee, who commanded the end of Gen. Johnston's army, and who, after Chickamauga, was himself again superseded, this time by Gen. Hood.—Milwaukee Sentinel.

EDITORIAL OPINION
 Swapping Horses.
 The changes of army commanders in the present war is a faint reminder of what was done during the war of the '60s in this country.
 Early in that war, before a great battle had been fought, Gen. Winfield Scott, a hero of the Mexican war, stepped aside for Gen. McClellan, who in turn was exchanged for Gen. Burnside, later for Gen. Bragg after the battle of Gettysburg. These changes for the army of the Potomac, Gen. Grant was removed after Shiloh in the southwest to give place to Gen. Halleck. After Halleck had failed, Gen. Grant was again placed in command.
 "After the battle of Chickamauga, Gen. Thomas taking his place, and later Gen. W. T. Sherman, who had been side-tracked from an important command late in 1861, superseded Gen. Thomas. Gen. Ben Butler was removed from command at New Orleans, Gen. Banks succeeding him. Gen. Hunter was relieved of the command of the Shenandoah valley and Gen. Sheridan given his place. Gen. Fremont was removed from two different armies.
 The wonder is that there have been so few changes among the commanders in the present war rather than so many. So far neither side has developed a Grant, Sherman or Sheridan.
 It is interesting to note that the two generals who were removed from important command early in the war, and waited until after Vicksburg, July 4, 1863, for recognition in the regular army they had fought for at Fort Donelson and Shiloh, towered above all others at the end of the war.—Lynnes.
 The position those two great chieftains held the last year of the war, or omit their triumphs for the nation.
 It should not be forgotten that there were many changes of commanders in the confederate army. Gen. Beauregard, who commanded the first Bull Run, was superseded by Gen. J. E. Johnston, and when the latter was wounded President Davis didn't place an officer in temporary command, but at once named Gen. Robert E. Lee, who commanded the end of Gen. Johnston's army, and who, after Chickamauga, was himself again superseded, this time by Gen. Hood.—Milwaukee Sentinel.

VOICE OF THE PEOPLE
 Menominee, Mich., Oct. 22, 1915.
 To the Editor of The Mining Journal.
 By what legend among of psychic phenomena you could have even remotely connected my published letter that "Menominee need take no instruction from any city in the state nor from any man or men not of ourselves" with the mayor of Marquette or his recent visit to Menominee passeth human understanding.
 The letter referred to dealt plainly and fully and exclusively with the "local option" controversy in Menominee. It did not deal with the interpretation of reference to Mayor Begole or his visit to our city.
 As a matter of fact, I was chairman of the public meeting at which Mayor Begole spoke and in introducing him to the audience here personal testimony of my high appreciation of his talents, accomplishments and usefulness as a public citizen. We were all glad to have him.
 Your article, therefore, does me grave injustice and was not pleasant reading for me, holding Mayor Begole as I do in the highest esteem.
 "Either is Menominee inclined to build a Chinese wall around itself, for it gives and takes freely, in the matter of information.
 The Mining Journal and myself, however, apparently read the word "instruction" differently. We will gladly take information from even China, but I have never seen anything to indicate our willingness to be instructed by the Orient.
 What I denounced, and what I do denounce, is the conduct of a conference of preachers who were here yesterday—who will not be here tomorrow—who have no substantial interest whatever in the community—who do not contribute one penny to Menominee's fortunes or misfortunes, undertaking to lead a few agitators in the lower peninsula who make a living by creating agitations in other communities fomenting an issue in this community at this time without a moment's investigation of antecedent, existing or prospective conditions attendant upon the local option subject. We certainly will take no such instruction.
 It is well known that these men to whom I refer have not given one minute's thought to the subject, nor do they care about it at all, excepting as it brings up to a department of frenzied fanaticism with which most of us down here have no patience.
 In the face of the supreme court pronouncement that the details of the local option law were incorporated in the statute to avoid expense and disturbance

of existing conditions lightly" the promoters of the local option petition in this county very quickly invoked the law that "the affidavit of signatures attached to the petition of fraudulently signed signatures that was presented to the board of supervisors, while in the same breath they would sweep out of the statute the technical requirements that were placed there as some safeguard for furnishing "opportunities" to make perjury or libel could follow or not and would also naturally deter those making and filing petitions from any extensive signing of names fraudulently."
 All this, however, is neither here nor there, so far as your editorial is concerned. My sole concern is to remove all apprehension in every quarter that Mayor Begole or his visit to Menominee have even the faintest relation to the letter referred to.
 Yours truly,
 MICHAEL J. DOYLE.

A LAUGH OR TWO
 She Wasn't That Kind of a Girl.
 A young college student, full of new wisdom, was discussing a topic with a maid recently arrived in his home.
 "I held your attitude once," said the student after a short pause.
 "My attitude?" exclaimed the maid, drawing herself up to her full height, indignantly added. "You did not!"—Judge.
 Encouragement.
 He was very helpful, but she liked him and was willing to encourage him, and she saw her opportunity when he said:
 "That's a beautiful dog you have there, Miss Ethel. Is he affectionate?"
 "Is he when she's not archly. Here, Bruno! Here, good dog! Come and show Charlie Smith how to kiss me."—Exchange.
 Lap of Luxury.
 Ruth Chatterton, the pretty little star of "Daddy Long-Legs," shows us that a wee child can sometimes guess right the very first time.
 "What is meant by the lap of luxury?" asked a teacher of a class of little girls.
 "Please, ma'am, I know," exclaimed the smallest of the lot, holding up her hand.
 "Well, what is it, dear?" inquired the teacher kindly.
 "It's when a cat steals into the lap of the teacher and licks the cream off the milk," responded the little one.
 And the teacher, on reflection, wasn't quite sure that her pupil was wrong.—Young's Magazine.
 Why She Wept.
 Mrs. Enderly, wife of Judge Enderly of a small Michigan town, complained one day that she had accidentally swallowed a button which she was holding in her mouth, preparatory to attaching to some garment.
 As the lady was rather given to making great ado over trivial mishaps, and as the judge was much preoccupied, he did not pay much heed. Soon after, however, finding her in tears, he made kindly inquiry as to their cause.
 "It's your heartless indifference to anything that happens to me," sobbed the aggrieved little woman. "I didn't suppose you'd worry much because I swallowed a button, but I did think you might have taken enough interest in it to inquire what kind of a button it was."
 Not New-Laid.
 Some workmen on an ostrich farm in South Africa one day found a live shell left by some artilleryman who had been at target practice on the plains a few days before. Not knowing it was a live shell, they white-washed it and placed it in an ostrich's nest, thinking to play a joke upon the boss.
 The next morning one of the hands, an Irishman, came around to look for eggs, and finding, as he thought, a large one, he seized on it at once.
 In his astonishment at finding it so heavy he dropped it, with the result that it exploded with direful effect. Pat was hurled several yards away, but, strangely enough, beyond lying stunned for a few minutes, he was unhurt.
 "Whew, boys!" he murmured, when he recovered his senses, "he said that egg was the staled I ever knocked across!"—London Tit-Bits.

UPPER PENINSULA
 Found Dead in Shack.
 Wm. Fossell was found dead in a small shack near McMillan, Lake county, Michigan, and a coroner's jury has returned a verdict of death by drowning. The body was found in the lake, according to a post mortem examination. The deceased was subject to convulsions and this is supposed to have been the cause of his sudden death.
 Killed Himself at Newberry.
 Charles Holm committed suicide at the Johnson House, Newberry, by cutting his throat with a razor from ear to ear. He was awakened for breakfast about 5:30, but did not arise. Later someone went upstairs to call him the second time, when he was found lying on the floor with his throat cut and a razor lying nearby. Holm was a young man of good habits and steady employment. No reason can be assigned for the rash act.
 Byrns Named Appraiser.
 J. E. Byrns, successful businessman and for a number of years a member of the board of public works, has been named by Mayor B. J. MacKilloan and members of the city council to undertake immediately the work of preparing the city's appraisal of the property of the North Michigan Water company. Mr. Byrns will undertake the work, which will cost \$700 and his appraisal report will be submitted to the council as soon as it is completed. Opposition to the appointment of Mr. Byrns, inspired by an individual whose name Friday edits a local weekly paper, made the selection of Mr. Byrns certain, but three votes being cast against the appointment. Incidentally the interests that opposed the plan of Mayor MacKilloan and the council came in for a sharp grilling by the mayor and council members. Immediately following the appointment of Mr. Byrns as appraiser, his resignation was promptly accepted. The appointment of an appraiser opens the actual work of the municipality toward either the purchase of the plant of the North

LOWER STATE NOTES
 MUSKOGON—Warmly opposed by Mayor Arnt Hillison, the request of the West Michigan Development Bureau that this county vote \$500 towards the maintenance of that booster organization, was turned down by a vote of twenty-one to ten. J. I. Gibson of Grand Rapids, secretary of the bureau, urged the supervisors to make provision for at least that amount this year.
 EAST LANSING—George Brown has been elected worshipful master of the new East Lansing chapter of the Masonic lodge, for which permission to organize has been asked of the main order. W. E. Laycock has been named senior warden and W. E. Easton, junior warden. Plans have been formulated for the erection of a three-story temporary building with a large auditorium to house the new organization.
 LUDINGTON—The committee on officers of the charter commission reported their recommendation that the mayor's salary be \$300 per year; that the aldermen be called commissioners; the aldermen at large be called supervisors; the mayor and the city engineer, together with one alderman, appointed by the mayor, serve as a fire commission; and that an officer's absence from his seat for eight consecutive meetings constitutes cause for declaring his office vacant.
 MT. CLEMENS—A warrant was issued for Lillian Hudson, who, it is charged, has been running a disorderly house on North Front street. It is said that Glennie Thomas and Carrie Van, fifteen years old, were out of the state reform school this week, were responsible for the warrant being issued, as they testified that they had been at the house with two young men who may also be arrested. The business men here are up in arms and it is believed the case will be closed and women of the streets driven out of the city. A number of them came here when the lid was clamped on in Detroit. Mrs. Hudson was released on her personal bond to appear for a hearing.
 FLINT—Prosecuting Attorney Clifford A. Bishop and Chief of Police James Cole threw a bomb into the "red light" district of Flint when the former made application in circuit court for injunctions against both occupants and landlords of three houses of ill-fame. Action is taken under a new law passed by the last legislature and invoked here, it is believed, for the first time in Michigan. If the prosecutor's injunctions are granted the occupants must vacate, the owners of the buildings will be restrained from permitting the use of the buildings for any purpose whatsoever for one year. Saturday, Oct. 30, is the day set for the hearing, but it is not believed the case will be contested. The action on the part of the prosecutor is taken as proof of a split between the mayor and the prosecutor's wing of the Republican party, as a result of the mayor's determination to run for sheriff.
 LANSING—Michigan counties owe themselves \$1,285,712 on good roads building—that is, the counties have paid to the state that much for road building and have not received the money. Auditor General Fuller has figured up the good road taxes and the rewards from each county from 1903 to date. Six counties owe so far not taken down a cent of rewards on roads: Baraga, Chippewa, Mackinac, Montcalm, Oshtemo, and Otsego. All the others have had some rewards, although Gladwin county has had but \$92, and Lake county \$750. The heaviest figures are of Wayne county, which shows an excess of tax of \$721,997. In other words Wayne has paid that much more money for its state roads than it has taken in. Wayne has also received in road rewards \$175,258. Next to Wayne, Kent shows the biggest excess in tax, having paid \$216,980. Houghton county a next with \$115,266. Thirty-four counties have received more reward money than they have paid out in road taxes. Delta county has the lead with \$54,000 excess; next is Saginaw with \$52,000, and then Oceana with \$49,000. Muskegon has a \$32,000 excess and Grafton \$39,000. There are two comparatively very small excesses—Lake with \$1,184 and Charlevoix with \$1,091. The total taxes levied from 1903 to 1915, inclusive, amount to \$2,852,000 while the rewards paid total \$2,569,288.

DEAFNESS CANNOT BE CURED
 by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed, the hearing is affected, and the hearing is lost. It is entirely closed, and the result is, unless the inflammation is removed, deafness is the result. The inflammation is caused by catarrh, which is often followed by a permanent condition of the mucous surfaces.
 We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure.
 F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. The Hall's Family Pills for Constipation.

took the stand that the Bulgarians had a right to be ruled by whom they desired and, as the other powers could think of no suitable rejoinder, Ferdinand won his seat. It was not yet a throne, and did not become so for many years; but from the time he entered Bulgaria, Ferdinand worked toward independence. In escaping the Turkish bond he took care to avoid obligating himself to Russia, and so stood forth a free agent at the outbreak of the great war, able and willing to send his troops whichever way lay the most profit, recognizing no scruples whatever as to the revenge upon Servia, burning to make his state more powerful and himself more imposing.
 "Thirty-four years ago this man, whom Europe has disliked so heartily and courted so hungrily, was stripping off a hundred other scions of famous European families. Today he is king of a sovereign state, with power to dictate the course of events in a world war. He has chosen boldly, as his viceroy, the man he has chosen steadily, but, if he has, Ferdinand will be more important than ever after this man. Yet no one can tell whether this man then will be monarch of the United Balkans, a gentleman-adventurer upon a tippy throne, or an exile on some far Isle.—Grand Rapids Press.

FOR RENT

 Michigan Water company, or the construction of a new water works plant. The making of the appraisal requires a statement of the approximate value at this time of all the property of the water company in Escanaba.
 Amendment Proposed.
 Members of the city council have taken final action looking to the amendment of the municipal charter to allow the issuing of bonds either for the purchase of a waterworks plant or the construction of a new plant. The amendment will be submitted to a vote of the people after it has been formally passed upon by the governor, which step is now to be taken. To provide for the construction of the long awaited and much discussed Delta avenue sewer members of the council instructed the board of public works to prepare plans and specifications as follows:
 Mines of Dickinson.
 The annual report of Mine Inspector Trestral, of Dickinson county, has been issued and contains the usual interesting information regarding the mines of the county. According to the report, there are seventeen operating mines in the county, but only eight of the number produced ore during the season. The producers are: Chapin group, Pewabic, Walpole, Aragon, Penn group, Loretto and Indiana; The non-producers: Millie, Traders, Cundy, Munro, Norway, Breen, Groveland and Calumet. The producing mines are credited with the following outputs for the year ending Sept. 30: Chapin, 307,958; Pewabic, 236,012; Walpole, 1,553; Aragon, 186,173; Penn group, 248,698; Galeon group, 55,714; Loretto, 84,057; Indiana, 41,745. The total production for the year covered by the report is 1,141,930 tons of ore. This is, in comparison with a production of 1,405,936 last year, a decrease of about 260,000 tons. Notwithstanding the decreased production, the railroad tables will show increased shipments, we believe, as several large stockpiles were loaded out. The number of men employed by the several companies is given at 1,820; 1,296 underground and 524 on the surface. These figures are misleading to the lay reader, as the companies enumerate in their returns only the number of days during which the men worked. To illustrate, a mine could have 800 men on the payroll at present and 200 for another period, but in preparing the table only the number of days' work performed during the year would be taken into consideration. However, according to the table, the average number of men at work is as follows: Chapin, 490; Millie, 1; Traders, 2; Pewabic, 237; Walpole, 5; Cundy, 1; Munro, 1; Norway, 1; Aragon, 233; Penn group, 420; Vulcan, 168; Loretto, 120; Breen, 1; Groveland, 1; Calumet, 1; Indiana, 57; Explorations, 32. The most noteworthy feature of the report is that only one fatality occurred in the mines during the year. Last year there were five. A considerable number of non-fatal accidents are chronicled, but none of them will lead to total disability. The percentage is .54 per 1,000 men employed.

BOARD OF EDUCATION PROCEEDINGS.

Marquette, Mich., Aug. 12, 1915. Meeting of the Board of Education held at the superintendent's office at 8 o'clock p. m.
Members Present—President J. F. Neidhart, H. J. Hornbogen, Edw. S. Bice, H. A. St. John and Jas. O'Reilly.
The superintendent reported on the recommendation of the superintendent relative to change being made in first language, science and geometry text books.
Voted that Edw. S. Bice, H. A. St. John and Jas. O'Reilly be appointed to act as Board of Registration, Aug. 28.
Voted that J. F. Neidhart, H. J. Hornbogen and H. A. St. John be appointed as election commissioners and to act as inspectors of election, Sept. 6, 1915.
The secretary turned over to the treasurer the sum of \$100.00, which was collected from S. B. Jones, on book account.
Reading of a communication from Dr. R. C. Main, relative to the merits of the Perry Testing Laboratory of Detroit. Said communication was placed on file.
Voted that the requisition of the superintendent for school supplies be allowed. Also permission be given him to have the 1914-15 High school records bound.
Reading of a communication from Perkins, Fellows and Hamilton of Chicago. Same was placed on file.
Voted that the bills be allowed and ordered paid.
No further business, the meeting adjourned.
JAMES O'REILLY, Secretary.

Northern State Normal school on said dates.

Reading of a communication from Mrs. M. Haley, requesting increase in salary for janitor services at North Marquette school. The secretary was instructed to advise Mrs. Haley that no increase would be allowed.
The secretary turned over to the treasurer check for \$20, which was received from the Skaneateles school board, in Arvon township, as tuition fee for one pupil from said township attending high school.
The secretary was instructed to notify School Board Journal that subscriptions of J. F. Neidhart, H. J. Hornbogen and James O'Reilly would not be renewed.
Voted that the requisition of superintendent and science department be allowed and that bids be asked for on supplies for science department.
Reading of a report from State Superintendent F. L. Keefer, stating that forty-five names had been taken from the Marquette census list, because of not being in compliance with the law, leaving a total of 3,436 names.
The superintendent reported the High school population of the city, by wards, as follows: First ward, 40; Second ward, 45; Third ward, 81; Fourth ward, 105; Fifth ward, 201; total, 372.
Voted that the bills be allowed and ordered paid.
No further business, the meeting adjourned.
JAMES O'REILLY, Secretary.

NEW STYLES IN FISH.

Among the new fish in New York's aquarium is the batfish, with a head like a bat and two large fins used for walking on the bottom of the sea; also a gag fish, which gasps so for breath that it seems as though every moment would be its last. It is said that heretofore few sober men have beheld either of these creatures.

That Russian retreat might be described as "the longest run of the season," to use a theatrical expression. Cincinnati Times-Star.

City Brevities

Today's weather: Cloudy and warmer, probably rain.
Yesterday's temperatures: At 7 a. m., 34 degrees; noon, 48; 7 p. m., 44. Highest, 51 degrees; lowest, 32.

J. O. Maxey, left Saturday afternoon for L'Anse.
J. R. Van Evera left last night for Iron River.

Francis Lane is visiting in the city with relatives.

Joseph Morrow, of Escanaba, was in the city Saturday.

N. K. Bernard spent the weekend at Duluth on business.

Clark Osgood, of Ishpeming, was a visitor in the city yesterday.

Joseph Commers, of Ishpeming was in the city Saturday on business.

M. H. Moriarity, left last night, for his home at Crystal Falls, after a visit in the city.

Mrs. Thomas Nault returned last night from Negaunee where she visited for a few days.

W. H. Johnston, of Ishpeming, and E. C. Anthony, of Negaunee, were in Marquette Saturday.

R. H. Zerbel returned home Saturday evening after a few days' trip to Chicago and Detroit.

Edward Stensrud, of Michigan, was in the city Sunday, visiting with friends and relatives.

E. N. Breiting returned to this city yesterday morning, after spending the last few days in Chicago.

Mrs. John Hanley and son, Frank, left Saturday afternoon for the copper country to visit with relatives.

Mrs. Edward O'Donnell, of the Soo, is visiting at the home of Mrs. Wm. Layne, East Hewitt avenue.

Simon Hetu, of Michigan, is visiting at the home of Mr. and Mrs. Theo. Pulver, East Prospect street.

Mrs. Ben Woods, of the Soo, is visiting at the home of Mr. and Mrs. Stephen Woods, West Ridge street.

H. C. Reynolds returned yesterday afternoon from Deerton, where he spent the week-end at the White camp.

Mrs. Mary Hatch, is visiting at the home of her son, Harvey. Mrs. Hatch expects to spend the winter here.

Clifford Ekstrom, Raymond St. Cyr, and William Beckman, spent the week-end at their cottage at Lakeview.

Miss Elsie Fassbender left Saturday evening for Negaunee, where she will visit with friends for a few days.

Mr. and Mrs. C. W. Taylor motored from Negaunee with a party of friends yesterday, and spent the day here.

Miss Mae Rahilly, of Michigan, is visiting in the city, the guest of Miss Myrtle Pulver, East Prospect street.

Miss Julia Terrene left Saturday afternoon for the copper country where she will visit with friends and relatives.

William Godley, Jr., of Escanaba, is visiting in the city with his father, William Godley, clerk at Hotel Marquette.

Mr. and Mrs. Arthur Nault and children, of Escanaba, spent the weekend with Mr. Nault's parents, Mr. and Mrs. John Nault.

Miss Margaret Reichel, Miss Katherine Tealy, and Miss Elsie Fassbender, spent the weekend at Primeau's camp at Lakeview.

Henry W. Snyder left for Grand Rapids yesterday afternoon, after spending the day here visiting with his son, Theodore Snyder.

Miss Tessie Ford, who has been visiting with Miss Katherine Monroe, for a few days, left Saturday afternoon for her home at L'Anse.

Miss Anna Devine, North Fourth street, left Saturday morning for Forest Lake, Michigan, where she will substitute as teacher for a month.

James J. Winterbotham, who has been visiting with Dr. and Mrs. Hovard T. Carriel for three days, left yesterday for his home in Chicago.

The Misses Ruth and Elsie Wamberg, of Ishpeming, returned home last evening, after a few days' visit with their sister, Mrs. A. Forbes, of this city.

Mr. and Mrs. Ben Willesen, who arrived here a few days ago to attend the funeral of Mrs. Catherine Kremer, left yesterday afternoon for the copper country.

Mrs. F. W. Hatch and daughter, Irene, who have been visiting at the home of Mr. and Mrs. Harvey Hatch, for a few days, left last night for their home at Chicago.

Mrs. William Van Lister, of Escanaba, who has been visiting with her parents, Mr. and Mrs. M. Fassbender, Washington street, left for her home Saturday evening.

Mr. and Mrs. L. G. Kaufman, with their son, Gravaer, left yesterday for Chicago on their way to New York, after spending a week at their camp near Birch.

Miss Mae Maclean, left Saturday evening for Escanaba where she will visit with friends and relatives. Before returning home she will visit at Manistique.

Miss Anna Kennedy, of the accounting department of the Michigan State telephone company, returned last night after spending the weekend at her home in Ishpeming.

M. E. Aspre, A. H. Palmer, and H. A. St. John Saturday motored to a camp on the Little Lake Road, below Scandia, where they spent the week-end on a hunting trip.

Mr. and Mrs. J. E. Kraft returned last night from Ironwood and Bessemer where Mrs. Kraft had been visiting with her daughter, Miss May Kraft, for the last week.

C. F. Willesen had bulletins Saturday from the Marquette-Soo football game, and keen interest was shown in its progress. Surprise was general that the Marquette team won by so large a margin, as it was generally expected that the Soo eleven would hold the players from this city to a close score. There was also much inquiry Saturday for the results of the U. of M.-M. A. C. game.

and the sweeping victory of the latter caused much comment.

Dancing Party—The Aca Sable club gave an enjoyable dancing party last Friday night at Bureau's Hall. The hall was attractively decorated in the club colors of green and white. Miss Grace Bruce, vice president of the club, and James Miller led the grand march. Delicious punch was served, and the affair in general was voted a thorough success by the large attendance.

Marine Notes—The L. S. & I. dock reported the following clearances: The Centurion cleared for Buffalo yesterday at 12:45 p. m. The Perseus cleared for Buffalo at 3:30 p. m. Sunday. The Robbins cleared for Shtabula at 1 a. m. Sunday. The Angeline cleared for Toledo on Saturday at 9:30 p. m. The W. P. Snyder cleared for Buffalo at 9:30 p. m. Saturday. From the South Shore dock the Durston cleared for Cleveland at 7:00 p. m. Saturday.

INSURE WITH PETER WHITE & CO.

Upper Peninsula

A Goodly Colony.
Andrew Bjorkman left Iron Mountain for Flint accompanied by his son, Gust, Harley Pridoux and Ewald Kullberg. Mr. Bjorkman has secured positions for the young men in the factory of the Buick Automobile company. About twenty Iron Mountain young men are now employed by the company and all are doing well, several having won promotions since their engagement.

Killed a Horse.
A valuable horse owned by Andrew Bjorkman was shot at Spread Eagle, Dickinson county. The horse was in a pasture near the summer home of Mr. Bjorkman at the time. It is the supposition that the horse was shot by some hunter who was engaged in head-lighting for deer. The Spread Eagle district is the scene of much illegal hunting, and many of the violators, it is said, reside in Iron Mountain.

Reject Turner Tender.
The board of public works at Norway has postponed consideration of the electric lighting proposition submitted by Noel H. Turner. The tender which Mr. Turner believed meant a saving of \$2,000 a year in comparison with the present system, was considered too indefinite by the board. Mr. Turner had planned to improve a water-power on Sturgeon river at an expense of about \$20,000. He may decide to go ahead with his plans at an early date, notwithstanding.

School Nurse Leaves.
Miss Clara B. Harper, visiting school nurse in Menominee for the past three years, has tendered her resignation to the board of education. Miss Harper came to Menominee from Milwaukee. She accomplished much in helping the children get rid of diseases which made them inefficient in their school work. She made frequent visits to the mothers and aided them in making their boys and girls better students. Probably her greatest work was her interest in delinquent students and her co-operation in helping to establish a Fresh air school in the city.

Fredeen a Loser.
Gust Fredeen, who has the contract for building several miles of Luce county roads, is a big loser because of the continued wet weather. He has still about a half mile of road to build to complete his contract. As far as this month he has been able to work just exactly three days. He has a large crew of men and horses and his loss is considerable every day he is compelled to lay idle. The unfinished portion of the road is now a sea of mud and it will need several days of fine weather to dry it off sufficiently to resume work. Automobiles attempting to negotiate this stretch are finding the going hard and many of them are being hauled through.—Newberry News.

Patrol for the Tahquamenon.
The state game warden's department is making arrangements to keep a strict watch on the hunters along the Tahquamenon river this fall and will have a large force of deputies on duty in this section all through the season. Last week a high-powered speed launch was placed on the river for the use of the game warden, Johnny Baril, of Saginaw, chief state deputy, who has had a hunting lodge on the river for many years and who knows the country thoroughly, will be in charge of the force. It has been a subject of common report that one or two parties of sportsmen who hunt in that territory, and who always come out with their licenses filled, have employed skilled hunters to bag their game. And this causes us to wonder—well, we just wonder.—Newberry News.

Bouty Out on Bail.
Charles Bouty for the present is a free man. The youth who yielded to the temptation of taking the unbanked and unwatched savings of 89-year-old Prosper St. Louis of Hermansville in July, held at Menominee awaiting trial since the middle of August, was released on bonds. Bonds of \$5,000 were furnished by Bouty's mother, who lives at Spaulding, and Thomas Kell, also from Spaulding. Bouty is expected to plead guilty to a charge of grand larceny before Judge R. C. Flannigan. Since he has been at the jail he has been a model prisoner. Bouty took between \$2,250 and \$3,000 from a trunk in which St. Louis, who did not believe in banks, kept his money. Bouty bought a small automobile and later started on a trip west, visiting the San Francisco fair. He was returning toward home by way of Montreal and had reached Galdstone when he was arrested.

Fake Eastland Victim.
"I was made deaf and dumb when caught in the terrific crush on the steamer Eastland, when that boat sank in the Chicago river. I am trying to secure funds for medical treatment. Please help me." This printed on a card sent to the St. Louis office of the American Red Cross, was a fraud. The man, who had handed about Escanaba supplied Gust Anderson, an able bodied woodsman, with cash for several days. He probably never saw the Eastland, or the Chicago river, and he demonstrated that he could curse volubly and noisily when his ruse was discovered by the police and

No one has ever been worse off for keeping money here. Hundreds have been worse off for not having done so.

he was placed under arrest. In Anderson's pocket a long list of the names of his victims, and the amounts given by them, was found, denouncing that he found the "Eastland victim" ruse a money-getting proposition. He was arrested before Judge Emil Glaser on a charge of obtaining money under false pretenses and was bound over to the circuit court for trial.

Appeals to Circuit Court.
The Breen estate tangle has gone into circuit court for settlement. Still dissatisfied because Probate Judge John Stiles, of Menominee, did not appoint Mrs. Joseph Gregg, of Chicago, administrator of the estate of Bartholomew and Catherine Breen, Attorney Eugene Carpenter of Grand Rapids will ask Judge Flannigan to reverse the ruling. Louis Dobeas, of Ingalls, was the man chosen by Judge Stiles to act as administrator of the estate. The action was originally brought by the heirs of Bartholomew and Catherine Breen and the heirs of Thomas Breen in probate court in order to clear up title to some mining lands in the upper peninsula. The firm of Sawyer and Sawyer represented the heirs of Thomas Breen in the action. In the meantime the Breen heirs and the Breen Mining company is mixed up in an action which is soon scheduled to go on trial in Kent county, adding another complication.

After Itinerant Merchants.
Escanaba has invoked the Michigan statute against hawkers, peddlers and outside salesmen in order to give her own merchants a square chance at selling goods. Under this statute home-for-home canvassers representing outside firms who go around showing samples and taking orders for their goods, to be delivered later on, are absolutely prohibited from doing further business of that character unless they have secured a state license. The police have been instructed to insist upon complete recognition of an order by Mayor MacMillan that this law be strictly enforced. The only exceptions noted in the statute apply to traveling salesmen selling to retail stores or men canvassing for the sale of fish, groceries or food stuffs. The license fee of \$50 must be paid to the city treasurer in all other cases. W. J. O'Brien, representing J. A. Chapman company of Milwaukee, who informed that he would have to have a state license to do business in Escanaba, wired headquarters and received instructions from his firm to leave the city. Another canvasser, a salesman by the name of Dillon, boasted to local people that he had "cleaned up" over \$1,000 in orders in a radius of two blocks, and that prominent Escanaba people were his customers. Mr. Dillon has left the city.

Plan Huge Reservoir.
Examinations have been made, preliminary to surveys, for the establishment in Vilas county, Wisconsin, and Gogebic county, Michigan, of one of the largest reserve water reservoirs in the United States, according to a dispatch from Eagle River. The project is the conception of mining companies owning property on the Ontonagon river, in Michigan, and the intent is to establish a water basin that will cover thirty square miles. It will make a vast lake of the entire Cisco lake region of that part of Vilas county southward from the mouth of the Ontonagon river. The middle branch of the Ontonagon river has its source in the group of lakes in Vilas county that include Cisco lake, Lake Lindsay, Lake Morely, Crooked lake, Lake Mamie and Thousand island lake, and connecting streams. To the west, separated from this chain by a low ridge a mile long, are Palmer lake and Tenderfoot lake, both large bodies of water. The reservoir project will not immediately affect the greater chain, but the height of water it is proposed will, it is said, cause an overflow into Palmer lake and Tenderfoot and thus in the west branch of

The Ontonagon, which has its source in Palmer lake. There is much low land adjacent to historic Tenderfoot that would be overflowed, sending the waters west to Presque Isle river and the hundreds of lakes adjacent to that stream. The full extent of the probable overflow is known only to the surveyors who have examined the country for the men who are back of the reservoir project, but settlers in the region and the owners of cabins, summer homes and resorts in the territory express the fear that if the plan is carried out what is now one of the most popular and picturesque resort districts in Northern Wisconsin will be transferred into lake and swamp. The Cisco lake district is the terminus of the Northwestern railway's summer train service. In this district is located Sylvanville lodge, owned by O. C. Davidson, Thomas F. Cole, John H. McLean and a number of the U. S. Steel officials. Marvin Hughton, son of the former president of the Northwestern, and several freight traffic managers of the system, has a home on Thousand Island lake that stands in a tract of 4,000 acres of land circling the lake, and which cost him \$60,000 for improvements alone. There are several summer homes of Chicago people on the lakes, and several Milwaukee men own cabins there. Tenderfoot resort numbers a score of hand-made cabins and the Bent resort, on Lake Mamie, will be partly inundated if the reservoir plan, as proposed, is carried out. Dr. Frankenthal, head of Michael Reese hospital in Chicago and John Drake, an millionaire Chicago hotelman, also have valuable summer home property in the district. One of the biggest sufferers from the proposed reservoir project would be the lumber companies—the Strange, Alexander and Cisco Lake companies—which own many thousands of acres of rich timber land adjacent to the lakes that would be overflowed, if an eight-foot head was to be had where the middle branch of the Ontonagon makes its way out of Cisco lake. Already men who own land and homes on the Cisco lake chain and adjacent lakes are planning an organization to oppose the granting of a charter by the Wisconsin legislature, which will be necessary before the reservoir project is carried out.

FOREIGN INVESTMENTS.
Speaking of President Lore's recent calculation of \$2,500,000,000 American railway securities held abroad before the war, and contrasting it with Sir George Paish's earlier estimate of \$2,931,000,000 held by England alone, W. R. Lawson writes in the London Financial Times that the English over-estimate has been large enough to modify greatly the other English estimate of \$85,000,000,000 accumulated wealth in England, and \$12,000,000,000 annual income.—New York Post.

The Beauty of Our First Showing of Suits at \$18.50 and \$25.00

Can only be appreciated by seeing them. An unusual variety of new styles, including the various fur-trimmed effects. Never have we offered such a splendid variety. Beautiful styles in Broadcloths, Whipcords, Poplins and Gaberdines. Effectually trimmed with Braid, Velvet and Marten, Opossum or Beaver, all the seasons favored colors.

Wonderful Fur Values

Always leaders in Furs. Hatters offer you every new Fur in sets or separate Muffs. Being expert Furriers we can actually save you considerable money. See us on dependable Furs. Now

GERMAN CRUISER SUNK BY SUBMARINE

(Continued from Page One.)

It is believed that men and munitions are being sent to Serbia by still another route.

Without the active co-operation of Greece and Roumania, however, the allies, it is feared here, will not be able to do much for some weeks. The Russian troops who have landed at Donau, Coulnard, have, according to Berlin, reinforced. If this is so, it is probable that the landing was intended as a diversion, in the hope of drawing German troops from the Riga and Dvinsk regions, where very heavy fighting is still in progress.

VON HINDENBURG IS UNDAUNTED.

There is no news of Field Marshal von Hindenburg's drive toward the Dvina, southeast of Riga, but northwest of Dvinsk he has made another attempt to reach the river and claims to have forced the Russians from their positions, inflicting great losses on them and taking nearly 3,000 prisoners. However, which has figured prominently in all the recent communications, has been captured by the Germans.

The persistence with which the Germans are attacking in this region shows the importance they attach to the capture of Dvinsk, Riga and the line of the Dvina river before the winter sets in.

On the rest of the eastern front the Russians continue their isolated attacks, which are designed to prevent the Germans from establishing a line of intrenchments such as they succeeded in doing before Warsaw last year, after the first attempts to take the city failed.

Except for a few attacks by the Germans the fighting in the west has consisted for the most part of artillery engagements and some exciting contests between the airmen.

BULGARS CONQUER USKUP.

Sofia, Saturday, Oct. 23, via London, Oct. 24, 9:30 p. m.—The Bulgarian troops have completely conquered Uskup.

NO INTEREST IN LIFE

Health Gone—Position in Danger—Both Saved by Vinol.

Marquette people please do us the favor to read this letter:

Brooklyn, N. Y. "I was completely run-down, had no appetite and lost all interest in life. I thought I surely would have to give up my position. I learned of Vinol, and after taking one bottle felt better. I have taken it for a few weeks and it has built me up and cured me. If people who feel weak, nervous and rundown would only try Vinol I know it would help them as it did me." Robert Mitchell, 1295 Herkimer street, Brooklyn, N. Y.

This Brooklyn man's case is only an additional proof of what we have been telling Boston people for years. We claim and are continually proving that Vinol is the greatest health and strength creator for overworked and run-down people obtainable. We will back this statement by agreeing to return any one's money who will try it and who finds our claim not true. The Stafford Drug Co., Marquette, Mich. Vinol is sold in Ishpeming by F. P. Tillson Drug Co. and in Negaunee by Arnett Bros., druggists.

A CLEAR COMPLEXION Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter that man's system collects.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets regularly for a time and note the pleasing results.

Thousands of women, as well as men, take Dr. Edwards' Olive Tablets now and then just to keep in the pink of condition.

Dr. Edwards' Olive Tablets, the successful substitute for colomel—10c and 25c per box. All druggists.

The Olive Tablet Company, Columbus, O.

says an official communication issued today.

GERMANS CLAIM STEADY GAINS.

Berlin, via London, Oct. 24.—The Serbian campaign, according to information reaching Berlin, is progressing favorably for the central powers although the operations are retarded by bad weather and the exceedingly difficult topography of the country.

The German, Austrian and Bulgarian forces are reported to be gaining ground everywhere without interruption. The mention in Saturday's statement from the German general staff that the troops of the central allies had crossed the Dvina river shows that the Teutonic forces are operating on Serbia's western front, a fact which heretofore had not been suspected. This almost completes the circle of the armies carrying out a general corral against the Serbian forces.

SERBIANS USE GREAT SKILL.

While all reports indicate that the Serbians are fighting with splendid courage and show great skill in utilizing the irregularities of the country's topography, still, it is stated, they are unable to cope against them on all the fronts. Dr. Stephen Steiner, the Lokal Anzeiger's correspondent at German southeastern headquarters, reports that the Serbians are unable to summon the moral force to withstand the fearful effect of the German and Austrian artillery.

SEES DANGER IN GASOLINE AS DESCRIBED IN AD

Lansing, Mich., Oct. 24.—The state fire marshal's bureau is somewhat disturbed over advertisements calling the attention of Michigan housewives to a method of home dry cleaning by the combination of certain chemicals with two gallons of gasoline.

"The bureau takes no exception," says Fire Marshal John T. Winslip, "to the efficiency of this as a cleaning proposition, but it is very apprehensive of the danger to life should such cleaning be undertaken within the home. All cleaning by gasoline, within the ordinary household, we deem dangerous, and especially the use of such a quantity of gasoline as two gallons."

Mr. Winslip warns the public against all cleaning of this character conducted except in the open air. The records of the bureau show that twenty women and children have been sacrificed since the first of January by the careless use of gasoline.

SOLDIERS IN SKIRMISH WITH MEXICAN BANDITS

(Continued from Page One.)

took to the brush while the soldiers awaited reinforcements from Brownsville, eight miles away. Army officers at Fort Brown said that, as it is only four miles to the Rio Grande from the place of attack, the Mexicans' retreat across the river could be prevented by reinforcements in automobiles.

PURSUE IN AUTOMOBILES.

The departure of reinforcements from Fort Brown tonight was the quickest in the history of the late border troubles. Within six minutes after the reports of fighting were received a half dozen civilian owned automobiles filled with soldiers filed out through Brownsville on the main streets. Police cleared the streets of all traffic and gave the military automobiles the right-of-way.

The report was received here while the infantry band was giving a concert at Fort Brown. Of the more than one hundred automobiles at the post half that number were offered as transportation for the soldiers. Two companies of infantry were taken out in this manner. Two troops of cavalry followed the automobiles closely.

ONE MEXICAN IS KILLED.

This incident and the killing of a Mexican who refused to halt as he was fording the Rio Grande on horseback near the Mercedes canal head gates late last night were the only disturbances in the Lower Rio Grande valley during the last twenty-four hours. The Mexican was killed by a detachment of the Sixth cavalry commanded by Captain J. P. Hanson. A companion of the slain man escaped. Reports were current today that General Eugenio Lopez, the twenty-four-year-old commander of the garrison at Matamoros, had disarmed all troops in Matamoros, in an effort to ascertain if any of his men were participating in raids into American territory. The reports were denied here, however, by Carranza Consul Juan Z. Garza.

CARRANZA TO PROBE RAIDS.

That First Chief Venustiano Carranza, now touring northern Mexico, will make a personal inquiry into border troubles during his expected visit in Matamoros Oct. 26, was indicated by Consul Garza tonight. It was said that the first chief is making his visit to Matamoros principally for that reason.

LIEUTENANT COLONEL CARDENAS, WHO WAS IN COMMAND OF THE CARRANZA GARRISON WHICH EVACUATED NACO A FEW DAYS AGO, WAS KILLED TODAY IN A DUEL WITH MAJOR ANAYA. ANAYA, WHO LATER WAS PLACED UNDER ARREST, WAS WOUNDED IN THE LEG. CARDENAS WAS SAID TO HAVE MADE AN INSULTING REMARK TO ANAYA.

SIXTH CAVALRY FIRED ON.

Brownsville, Tex., Oct. 24.—A detachment of the Sixth United States cavalry, stationed near the Mercedes canal, forty miles up the Rio Grande from here, was fired on from the Mexican side of the river late Saturday from a point noted as a "Mescaal" resort. The Mexicans fired twenty-five shots. The fire was returned by the American troops and the Mexican firing ceased.

BASEBALL SEASON COMES TO CLOSE

Lively Search for Players Indicates Magnates Have Faith in Future.

New York, Oct. 24.—With the playing of the final games in the Pacific Coast league pennant race, the curtain was rung down on the championship baseball season of 1915 today. While the past year has proved far from profitable to many club owners and some of the minor organizations were forced to disband, the season just closed has been fruitful of interest in many respects. The demand for players shown by the result of the drafts by major league clubs augurs well for the future of the game and demonstrates that the financial shortcomings of the season have not shaken the faith of the backers of the clubs throughout the country.

While the finishes for some of the 1915 championship pennants were hard fought, the closest was that for the Federal league flag. This was won by the Chicago team by the narrowest possible margin, through taking the final game of a doubleheader, which was called on account of darkness at the end of seven innings. A rather peculiar outcome of the various races in the major and minor leagues was that none of the 1914 championship clubs repeated its victory, with the single exception the Canadian league pennant winners, who retained the banner at Ottawa. Following is a list of the winning clubs in the principal leagues with the results of the season's play:

Table with columns: League, Clubs, W., L., P.C. (Winning percentage). Lists major and minor league champions and their records.

In order to avoid confusion during relay races at the intercollegiate A. A. A. annual indoor meet it has been deemed advisable to recommend a change from given distances to laps for all the relay events in future. This change would enable each relay to start and finish at a given point instead of at fractional parts of a track like that in Madison Square Garden, where there is a ten-lap-to-the-mile track over which the initial relay meet was decided last May. Two new events, a straightaway hurdle race and the fastest distance possible indoors, have been proposed. In these contests no college will be allowed to start less than four men, so that team competition will be adhered to and points awarded as in other events. In each heat, preliminary, semi-final and final, the places will count four, three and one in points, so that while the team with the highest aggregate score will win, the possibility of one star athlete winning for his college will be precluded. These changes are to be passed upon, and in all probability adopted, at the annual meeting of the association, to be held at Boston on Nov. 19, the eve of the day on which the intercollegiate cross country run and the Harvard-Yale football game are to be decided.

With the interstate three cushion billiard season promises to be unusually interesting. William Huey, of Chicago, who won the three cushion championship from George Moore in New York last month, said that it was the hardest match he ever played. Alfredo O'Bro, the former champion, has challenged for the title and this match will be one of the features on the green cloth next month.

Willie Hoppe, the balkline champion, so far outclasses the other players of prominence at that style of billiards that a handicap tournament has been arranged in order to bring the leading professionals and the champion together on somewhat even terms. Hoppe will be on scratch in this tournament, which will begin in New York Nov. 15. The contest will be limited to six players, each game to be on a 500-point basis under the rules governing 18-2 balkline, with the exception that the anchor spaces shall be seven inches square instead of 3 1/2 x 7 inches, which formerly prevailed in all championship matches. Several other handicaps have been named for this competition, but the most likely participants who will face Hoppe are Koji Yamada, George Sutton, Ora Morningstar, Harry P. Cline and Jacob Schaefer, Jr. Other contestants have sent in entries, but the actual participants, with their handicap allowances, will be named within the next ten days.

One of the first matters taken up by Chairman Fred A. Wenzel, of the New York state athletic commission, when he assumed his new official duties, was the renewal of licenses to hold boxing exhibitions at the New York Athletic club and Crescent Athletic club of Brooklyn. The prompt action of the newly appointed executive enabled these two organizations to perfect plans for trouts on Oct. 29 and 30 to select men who will take part in the international boxing championships under the auspices of the A. A. A. at the Panama-Pacific exposition, San Francisco, early next month. Arrangements have been made to have the weight classes so divided that the series can be run concurrently in the gymnasiums of the respective clubs.

Additional interest attaches to these trouts owing to the announcement of Secretary-Treasurer Fred W. Rubien, of the Amateur Athletic Union, that the proceeds will be turned over to the James E. Sullivan memorial fund. This fact has brought assurances of hearty co-operation from many A. A. U. centers. Entries have been received from Montreal and Toronto as well as from Boston, Cleveland, Pittsburg, Philadelphia and Buffalo clubs, so that the winners in the several classes will be thor-

oughly representative as the best men in their respective divisions.

CARRANZA MEN READY FOR TRIP THROUGH U. S.

Five Thousand Troops With Arms Are Given Permission to Cross Border.

Eagle Pass, Tex., Oct. 24.—Five thousand Carranza troops, mostly Indians, arrived in Piedras Negras last night in preparation for their journey through the United States to Agua Prieta, Sonora, where they will assist the garrison against an impending attack by Villa forces. All arrangements have been completed, with the permission of the war department, for the troops to cross at Eagle Pass and go from here to Douglas, Ariz., where they will cross the border to Agua Prieta.

All arms, cannon, ammunition and supplies will be placed in box cars and sealed officially by United States Consul W. H. Blocker at Piedras Negras. The cargo will be shipped as ordinary freight under guard of United States soldiers. The Mexicans will be transported in passenger coaches and be accompanied by a detachment of American soldiers. The Mexicans will be in charge of Generals Castro, Mayoc and Benjamin Hill, who have expressed themselves as being positive this country will enable them to win decisively from General Villa in the expected battle at Agua Prieta.

CARRANZA FORCES VICTORIOUS.

El Paso, Tex., Oct. 24.—According to advices to the Carranza consulate here Carranza columns have occupied Jimenez and Casas Grades, Chihuahua. A third column is said to be moving toward Ojinaga, opposite Presidio, Tex.

The occupation of Jimenez is said to have met with slight resistance, the Villa force retiring to Chihuahua city. Jimenez is the third largest city of the state and is one hundred miles south of Chihuahua city. It is the junction of the railroad to Parral to the westward. The forces which are said to have occupied Casas Grades are reported to have been composed of deserters. General Lopez Polon and General Licon were executed by Carranza at Casas Grades, according to reports received today. They, together with General Quijano, deserted the Villa army at Casas Grades a week ago and were captured. Quijano, with some of his men, escaped.

Now Is After Rebel Territory.

Torreon, Coahuila, Mex., via Laredo, Tex., Oct. 24.—General Carranza has received a number of representations from Washington concerning conditions in districts not yet under his control. To all these the answer has been that as soon as the troops of his government dominate these districts full protection of life and property will be accorded. Assurances have been given that there will be no delay in forcing from these regions the rebels who now are living there.

POSSIBLE KILLS FUGITIVE WANTED FOR MURDER

Charleston, W. Va., Oct. 24.—Burke McClure, the merchant who fled from Mann, Logan county, after the murder of his wife and her cousin, and the shooting of two other persons, was shot to death today at the home of his brother-in-law in Oceana, Wyoming county, by the posse of Sheriff Challin of that county.

LOUISIANA 'OLDEST MAN' IS DEAD AT AGE OF 113

New Orleans, La., Oct. 24.—John Shay, 113 years old, said to have been the oldest man in Louisiana, was buried here today. Shay, who died yesterday, was born in County Kerry, Ireland, on June 24, 1802, according to members of his family. For many years he was a prominent figure both in local and state politics.

The General Says: "A good roof is indispensable to comfort and happiness." Two of our most popular roofing materials, used and known the world over, and bringing comfort and satisfaction to all, are

Certain-teed

Roofing — guaranteed 5, 10 or 15 years, according to thickness, backed by the responsibility of our big mills. No climate is too rigorous to affect Certain-teed Roofing. It has stood up under all conditions for years and years. For sale by dealers everywhere at reasonable prices. Slate Surfaced Shingles — guaranteed 10 years, made of the same high-grade materials as used in Certain-teed Roofing. Genuine red or green crushed slate is firmly imbedded into the surface, producing a most artistic finish. They are flexible—a true sign of thorough saturation and long life.

General Roofing Manufacturing Company World's largest manufacturer of Roofing and Building Papers. New York City Chicago Philadelphia St. Louis Boston Cleveland Pittsburg Seattle Detroit San Francisco Cincinnati Minneapolis Kansas City Atlanta Houston London Hamburg Sydney

of mail service throughout the republic. The operation of all railway lines is now hampered on account of shortage of rolling stock, but steps have been taken to correct this. It is announced that an order has been placed for 200 passenger cars and a large number of freight cars. Gratification was expressed today at General Carranza's headquarters at the promptness in which the United States has displayed its sincerity of recognition by the recent order preventing exportations from Villa territory in consequence of revenue that he might obtain by the sale of native products.

SAYS BIG CROP PROVIDES ENOUGH FOR GERMANY FOR ALL COMING NEEDS

Berlin, via London, Oct. 24.—The food supply situation in Germany, based on the incomplete 1915 crop returns, which are declared to be more than large enough for coming needs, is explained in a statement issued by Under-Secretary of State Arnold Walschaffe, at the instance of Dr. Bethmann-Hollweg, the imperial chancellor. The under-secretary says: "It is true that our enemies have shut us from importation and seek to starve out the peaceful working population. The old law of supply and demand no longer controls the market as in peace. Government regulations have replaced this law in order to prevent too high prices for the poor. We have in Germany carried over so much from the old harvest to the new that we are compelled to reduce the supply by 60,000,000 hundredweight which will be fed to the cattle. We can do this because we now are assured of the goodness and plenty of our crop."

SAYS FRANZ JOSEF HAS ENNOBLED DR. DUMBA

Berlin, Oct. 24, via London, 11:25 p. m.—Dr. Constantin Theodor Dumba, whose recall as Austro-Hungarian ambassador to the United States was requested by President Wilson, arrived in Berlin today with his wife. Commenting on the arrival of the diplomat, the Vossische Zeitung says: "We learn from an unusually well-informed source that Emperor Francis Joseph has ennobled Ambassador Dumba."

FOSTER BEATS JOHNSON IN PITCHING BATTLE

Webb City, Mo., Oct. 24.—Walter Johnson, of the Washington Americans, and George Foster of the World champion Boston Americans, pitched a scoreless duel for eight innings here today, Johnson in the uniform of Webb City and Foster twirling for Pittsburg, Kans. Then in a ninth inning Johnson was hit for a two-bagger, fumbled a sacrifice grounder and walked the next man and all three runners scored. Pittsburg won, 3 to 0.

"The Tide— seems to be running strongly against coffee." says Printers Ink

From 1904 to 1914 the Consumption of Coffee In this Country Increased 3.2% From 1904 to 1914 the Consumption of POSTUM Increased 120%

The first Postum was sold in 1895. After a marvelous growth for nine years, Postum sales further increased 120% from 1904 to 1914

Postum, made of wheat and a bit of wholesome molasses, is a delicious beverage. It is free from coffee and its drug caffeine—the cause of coffee headache, coffee sleeplessness, coffee heart, coffee nerves, and so on.

And people are finding it out!

ISHPEMING WINS FROM GLADSTONE

Visiting Team Was Outplayed at Union Park Yesterday— Score 23 to 0.

The Ishpeming City football team evened up its defeat by the last Gladstone aggregation last year by winning from it yesterday by a score of 23 to 0. The game was fast and several sensational plays were made. George Beauchamp, who made two of Ishpeming's touchdowns, shared the honors for star playing with Nebel, of Gladstone. Beauchamp, who has been playing with Ishpeming teams for the past ten years, has always been a steady and heady player. Nebel is the player whose sensational work defeated Ishpeming last year, and the Gladstone team is built around him. He is fast, and can run a hundred yards in less than eleven seconds. Several times during the contest it looked as if he would get away for a touchdown.

The score of the game by quarters and the officials were as follows: 1st 2nd 3rd 4th Ishpeming 3 0 14 6 Gladstone 0 0 0 0

W. C. Plummer, referee, C. J. Stevenson, umpire; W. H. Norman, head linesman; Herbert Johns, time keeper; T. L. Duran, Gladstone, and Ed Amelien, Negaunee, linesmen.

Ishpeming scored in the first quarter on a drop kick by Arvid Hendrickson from the twenty-five yard line. The points in the third quarter were made on two touchdowns by Beauchamp and two goal kicks by Arvid Hendrickson. "Bill" Gill made Ishpeming's final touchdown in the fourth quarter. Hendrickson failed to kick the goal.

Details of the Game. Gladstone kicked off to Gust Johnson on Ishpeming's forty yard line, and he was downed in his tracks. Beauchamp made eight yards around left end and on the next play twelve more at the same place. Aas made an end run of twenty-five yards and brought the ball to Gladstone's twelve yard line. Greesey made a yard through center, but Aas was held without a gain. On the third down Hendrickson dropped back for a drop kick, and sent the ball between the goal posts after three minutes of play.

Ishpeming kicked off to Gladstone and the ball was carried by Gladstone's thirty-five yard line. Nebel was called on several times in succession and in all he made twenty-eight yards. Elia intercepted a forward pass on Ishpeming's thirty yard line and Beauchamp got away with a run of twenty yards on the first play. The Gladstone line held and Ishpeming was forced to punt the ball going to Gladstone on its eleven yard line. Nebel made twenty-seven yards on two plays. Then the Ishpeming line braced and Gladstone was forced to kick. Green made two yards through center and in three tries Beauchamp gained fifteen yards. The quarter ended with the ball on Gladstone's forty yard line.

No Score in Second Quarter. The Gladstone team braced on the resumption of play in the second quarter and the ball went over on the thirty-five yard line. Nebel made five yards on a center rush, but the ball went to Ishpeming on the forty yard line. The Nebel recovered the ball. Gladstone's big half back got away with a ten yard run and the ball went to Ishpeming on the forty-five yard line, when Beauchamp intercepted a forward pass. The half ended with the ball in Ishpeming's possession on the thirty-eight yard line.

Two Touchdowns in Third. Gill, Ishpeming's captain, did not play in the first half. Green being in at full back. In the second the captain took his old position and Green went in at center, replacing Leffler. Swartzberg took Gust Johnson's place at end and Robare succeeded Reidy at guard. Nebel ran twenty yards on the kick off and on the two following plays made eight yards. The ball went to Ishpeming on the fifty-five yard line, but the

Ishpeming men were unable to gain and punted to the visitors five yard line. The kick was returned on the first play and Arvid Hendrickson got the ball on the forty yard line and ran ten yards. Gill took the ball for eight and in the next play he made four yards. Gill and Aas carried the ball to Gladstone's six yard line and Beauchamp was sent over for the first touchdown of the game, after seven minutes of play. The second touchdown came in seven more minutes, after Ishpeming held Gladstone for down on the fifty-five yard line. Elia made twenty-five yards on a forward pass and on ground to the goal line was gained as follows: Hendrickson, nine yards; Gill, two; Aas, two; Beauchamp, six; Gill, two, placing the ball on the four yard line. Aas, three; Aas, no gain; Beauchamp, one yard to touchdown. Time was called shortly after the touchdown was made.

In the fourth quarter the Ishpeming players executed some fine forward passes and several times Swartzberg, after making long runs, failed to catch the ball only by a few inches. The last touchdown was made after six minutes of play on a seven yard plunge through center by Gill. The contest ended with the ball in Gladstone's possession on the thirty yard line. A few minutes before the game ended Arvid Hendrickson failed on an attempted drop kick for goal.

What will undoubtedly be the hardest game that the Ishpeming team have had this season will be played next Sunday, when the last and undefeated Stanbaugh eleven will come here for the final game of the championship series. Stanbaugh has defeated and held scores less every team on the Menominee range and for several years has held the championship of that district. Manager Leffler will endeavor to arrange a game with the Hibbing, Minn., team for the championship of the Northwest. Clarence Shea, formerly of this city, is playing right end, and Arthur Gustaf, a member of the old "Peerless eleven," of Ishpeming, is Hibbing's star half back. Hibbing will play Duluth next Sunday at Virginia for a \$100 side bet.

The line up of the teams yesterday were as follows: Gladstone: Henry Stromstrom, center; Joe Lindback, right guard; George Wehnertner, left guard; Ed Roagan, right tackle; Lloyd Hoglund, left tackle; Fred Artley, right end; Joe Bonlet, left end; "Bill" Jordan, quarterback; "Pat" McDonald, right half back; Howard Nebel, left half back; Mike Tommel, full back; Clifford Munker, Chase Lassway, substitutes. T. L. Duran, trainer. Ishpeming: Leffler, Green, center; Ryan, Reidy and Robare, guards; August Hendrickson and Maki, tackles; Johnson, Swartzberg and Elia, ends; Arvid Hendrickson, quarterback; Beauchamp, right half back; Aas, left half back; Green and Gill, full back.

LOST TO ESCANABA. Ishpeming Bowlers Were Defeated in Three-Game Match by 166 Pins.

Escanaba's five-men bowling team on Saturday night defeated the Empire team of this city at the best alleys in Escanaba, by a total of 166 pins in the three games. Escanaba rolled a total above 900 in each of the games. William Matt and Van de Wiele of the Escanaba team, had the highest averages, while John Tigo, of the Ishpeming team, was close behind them, his average in the three games being 291. Van de Wiele had the highest score, rolling 256 in the second game.

The scores were:

Ishpeming	171	150	101
Hendrickson	101	195	133
Tato	100	214	209
W. Hendrickson	167	178	171
Saline	180	169	105

"THE LORELEI MADONNA"

"The Lorelei Madonna" is the title of the Vitagraph company's Broadway Star feature, in three parts, that will be included in tonight's program at Ishpeming theater. It was written by L. Case Russell. Among the prominent players in the cast are Alma Re-

hen, Juan Dela Cruz, George Stanley, George Kunkel, Maxine Moore, Edgar Martin Koller, J. A. McGee and George Holt. "The Hypnotic Money," a Kalem comedy, will also be shown tonight.

An outline of the story of "The Lorelei Madonna" follows:

Brought up in the atmosphere of the content, Malcolm's one great ambition is to paint a Madonna worthy to be placed in the great Mission chapel. His wealthy and worldly uncle, Morrison, introduces the boy into the life of the world, the boy's lack of sophistry proving a great source of amusement to him. In Tahiti, they visit Vesey's Palace, a notorious dive, where a beautiful girl called Alma, or "The Lorelei," is the premier danseuse. King La Farge, the richest peer in the South Sea Islands, is favored above the other habitués of the place, so that when Malcolm becomes fascinated with the dancer and shows it he nearly kills the young man. Malcolm's artistic soul is set ablaze when the Lorelei to add variety to the entertainment, impersonates the Madonna, and his reverent admiration awakens in the woman a desire to know the only man who has never looked upon her as his lawful prey.

She conceives a genuine love for Malcolm, and his, knowing nothing of her media of life, learns to love her. But he finds her dancing for LaFarge's edification, understands the situation at last, and his idol shattered, Malcolm turns against her. But she has proved the necessary inspiration for his painting of the Madonna, and through it, he is led to believe that the woman's reformation is complete and that she truly loves him. He is about to take her in his arms when LaFarge, in a frenzy of rage, shoots—intending to kill Malcolm—but instead kills Alma.

Older and wiser, Malcolm returns to the little Mission town and there finds happiness with Alice, the companion of content days, as his wife.

DEFEATED MARQUETTE.

In a special match Friday evening, between Ishpeming and Marquette five-men teams, the Marquette City quintet won by a total of seventy-five pins. Marquette won the first two games by a margin of thirty-one, but fell down in the final game. For Ishpeming, E. Hendrickson did the best bowling, his total in the three games being 626. Eldredge was high man for Marquette, with a total of 521. A return match will be bowled some evening this week. The scores were as follows:

A DELIGHTFUL COMEDY.

One of the few superlative theatrical offerings of the season will be shown next Friday evening at the Ishpeming theater, when "Potash and Perlmutter," the notable comedy success of last season will be repeated. It proved one of the rare offerings that made good to the letter on the advance notices.

ISHPEMING IN BRIEF.

Mrs. W. J. Williams, of Escanaba, is in the city visiting relatives. Miss Mary Lynch is here from Duluth visiting her father, M. F. Lynch. Leo Schilling is visiting his brother, Edward F. Schilling, in Detroit. Mrs. W. J. Vivian, of Houghton, is visiting her daughter, Mrs. C. H. Moss. Mrs. O. D. McClure and children will visit the next few weeks with relatives in Gibson, Ills. Fred Melka will leave today for his home in Bay City, after a week's visit with relatives in Ishpeming. The members of the Ishpeming Ski club will conduct a Halloween party in the clubhouse Friday evening, the 29th. W. P. Belden and Thomas Clancey have returned from Lansing, where they spent two or three days on business. W. E. Hill, of the Winthrop, will tonight open his ten-pin automatic bowling alley in the McEnroe block, in the room recently vacated by John Gouge. It is a new game here, and

Negaunee Department

SHIPPING SEASON NEARING A CLOSE

Nearly All of the Stockpiles of Iron Ore Already Have Been Cleaned Out.

Mining companies operating in and around Negaunee are preparing for the close of the shipping season. Several of the companies already have completed their largest shovel work and the only shipments of ore now are from the pockets. Much of the ore is being loaded into cars as soon as it is hoisted; the remainder goes in the stockpiles.

This season has been one of the most successful in several years. Although orders were not received until late in the summer many of the mines had steam shovels working all summer. Saturday the shovel which has been working at the Prince of Wales mine stockpile was tied up for the year. The large pile has been shipped. At the opening of the shipping season there were over 200,000 tons of ore in the pile. The shovel had worked almost every day during the summer. It is the first time in several years that the stockpile at the Prince of Wales has been entirely cleaned out.

Work is going forward rapidly cleaning out the large pile of ore in the mine, which has been closed all summer. It is expected that the few remaining tons in the pile will be shipped before the end of the week. The shovel will complete work in the last few days and tomorrow the work of cleaning up the mine will be started. When the shipping season opened there were over 75,000 tons in the pile.

Mining men acquainted with the conditions, predict this winter will be one of the best the Lake Superior mines have had for years. With practically all of the stockpiles gone much work will be required to replenish them before the 1916 season.

The mines in Iron county, which were the last in the upper peninsula to be operated at capacity are getting back into the industrial list rapidly. Nearly all of the mines are now being worked and ore is sent out as fast as it can be loaded. It was necessary for the Chicago & Northwestern railway company to lease three hundred ore cars from the Great Northern railway to take care of the Menominee and Gogebic range shipments.

In Marquette county there are 115 mines, thirty-two of which are in operation. More than 2,500 men are employed underground and nearly 1,300 on surface at the properties. Several new properties will be opened next season as a number of those where development work has been going on are nearly ready to become producing.

STACK WORK STARTED.

Oscar Hayston, foreman for the Weber Construction company, of Milwaukee, is making good headway with the new concrete stack for the city water works and electric light station. Besides Mr. Hayston a crew of four men is being employed. The stack, which will be reinforced throughout, will be 135 feet high. At the base the stack is nine feet

IT SAVED HIS BABY'S LIFE. Some years ago, in a letter to the manufacturers, H. G. Vines, Arispe, Iowa, stated that Chamberlain's Cough Remedy had saved his baby from dying with the croup. This is a favorite remedy for croup with many mothers, and is pleasant and safe to take. Obtainable everywhere.

GOVERNOR SAW MANY CONVICTS

W. N. Ferris in Marquette Saturday, and from 7 a. m. Until Shortly Before 3 p. m., When His Train Left, He Was Busy Interviewing Men at Prison.

Heard Pleas of Quartet Sent Up for So-called Seeberville Murder, but gave No Intimation of What His Course Will Be—No Word About Politics.

Governor Ferris visited Marquette Saturday. It was a visit of business, and not of pleasure. The governor met but few Marquette residents other than those whose temporary or permanent home, as the case may be, is the Marquette prison. There he heard the pleas of between fifty and sixty convicts who urged on him that they were worthy of varying degrees of clemency.

Looked Into Seeberville Cases.

Among the men whom the governor talked to were Polkinghorne, Groff, Davis and Cooper, serving terms for the so-called Seeberville murder, which was one of the fatal episodes of the copper country strike. These are the men in whose behalf the governor was a few months ago presented with petitions containing thousands of names of copper country residents.

Polkinghorne is the only copper country man in the prison, and his case is believed to stand in somewhat more favorable light before the governor than that of the other three. For Polkinghorne, before the outbreak of the strike, was serving as a deputy sheriff, appointment of Sheriff Granger. The other three men were among the armed guards brought in to protect property. It has been generally commented that had Polkinghorne been tried alone he would almost surely have been acquitted, and that he was not tried alone has been attributed to a desire of the lawyers to use the particular strength of his case to bolster up the others.

Governor Ferris talked briefly with all four men Saturday, but was non-committal when asked what he thought of their cases. He intended to read the testimony and also to take the advice of the state attorneys on certain points before coming to a decision. He gave no indication to a newspaperman what he would be likely to do.

Clemency for Several.

It is generally believed as a result of the governor's visit several men will be released from the Marquette prison, although he made no definite promise to any convict. Several of the cases were sent to him, however, are worthy of his attention, and he appeared to be favorably impressed by the statements of the convicts concerned. He intimated that in all cases in which he might grant clemency he would expect the convicts to provide themselves with dependable first friends, who in advance of their release would give assurance that they would have employment as soon as they left the prison.

Governor Ferris had nothing to say about politics. He had, indeed, no time to talk politics. He was in good spirits and health, and appeared much stronger than on the occasion of his last previous visit to Marquette. Much of his good spirits come from the improved health of Mrs. Ferris, who is now quite well again, after having been ill for many months, at times critically ill.

In the copper country, where the governor went to address a gathering of teachers, he characterized as rubbish talk that he was a candidate for his party's nomination for senator from Michigan or for vice president. But he was quoted as expressing his ability of his again being a candidate for his present office. The governor believes that Chase S. Osborn is likely again to be in the field for the Republican nomination.

SOO CANAL PASSAGES.

Sault Ste. Marie, Mich., Oct. 24.—[Special.]—Upbound vessels passing the canal the last twenty-four hours were: Matthews, Wilson, 8 last night; Earhart, 9:40; Castala, 10; Huntington, Glen River, 10:30; Turner, 11; Bessmer, Corlies, midnight; Cornell, Bell, 1 a. m.; Ellwood, 3:30; M. A. Hanna, 4; Meyrow, 5; Cornelius, Holden, 8; Iroquois, 9; Mack, Ashley, Conly, 9:30; North-vern King, Andrew Upson, 9:30; Morrison, 11:30; (small) Wolf, John Owen, 1 p. m.; Nottingham, 1:30; Randolph, 1:45; Warner, Thompson, Superior City, Zenith City, Mariska, 2:30; Odanah, 3; Luck, Norma, Toiler, 5; Hartwell, Harmonic, 5:30; D. O. Mills, 6.

CAUSE OF CONSTIPATION.

Constipation results from a lack of moisture in the residual matter of the food. To effect a permanent cure more water must be taken half an hour before breakfast and about the third of a glass an hour and a half after each meal, also eat an apple or banana before breakfast and before going to bed. Make sure that your bowels move just after breakfast whether there is an inclination or not. When a medicine is needed take Chamberlain's Tablets as they are mild and gentle in effect, but no medicine should be taken when operations can be induced naturally each day. To effect a permanent cure time and patience are required as bad habits are more easily formed than broken up. Obtainable everywhere.

FLOUR AND FEED FOR SALE.

Write us for prices on straight or mixed lots of hay, straw, oats etc. Soo Flour & Feed store, Sault Ste. Marie, Mich. 9-30-1mo.

WOUND PROBABLY FATAL.

Earl McKenzie Accidentally Shot Near Munising Yesterday.

Earl McKenzie, aged twenty years, son of Robert McKenzie, old resident of Munising, was probably fatally shot yesterday afternoon about three o'clock, when a shot gun he was carrying on a hunting trip was accidentally discharged. He was holding the gun by the muzzle and the charge tore off part of his hand and entered his side, penetrating the abdominal cavity. Last evening physicians held out little hope of his recovery. Mr. McKenzie was well-known and popular at Munising, and the accident was learned of with great regret.

AUTO IN LAKE.

W. H. Johnston's Car Came Through Hard Experience Without Damage.

Largely owing to the gameness of Jack Thompson, nephew of W. H. Johnston of Ishpeming, Mr. Johnston's Franklin car came through a high dive from the level of Lake Street to the lake shore, at a point about midway between the gas house and the Carr bridge, Saturday morning practically without damage. Mr. Thompson was seeking to turn the car and he had the gears in reverse, with the back of the car turned to the lake. The gears seemed to stick, and the car was forced over both M., M. & S. E. and South Shore railroad tracks to the edge of the embankment. Mr. Thompson realized that the car was going over the twenty-foot declivity, to the lake level, but though he knew nothing about the nature of the ground it was headed for, he stuck to the steering job and sought to assure that it would go down on all four wheels. As a result the car remained right side up and swung around broadside to the beach in shallow water. A small sea was running at the time and the waves broke over the car until it was pulled out by the use of horses. It was driven to Ishpeming on its own power, and the damage was almost negligible.

CITY ENGINEER WILL REVISE BLOCK PLANS

Will Be Ready for State Sanitary Engineer Dec. 1—Two Years Overdue.

Complete plans and specifications of the sewer system, showing all possible sources of contamination of the water, are now being prepared by Margaret W. Wright, the city engineer, to be submitted to the state sanitary engineer. These plans are now two years overdue, and as they must be approved by the state board of health, under penalty of a severe fine, the street department is making every effort to have them ready by December 1.

Under the old council regime, the original block plans were inadequately revised for the inspection of the state sanitary engineer, who promptly rejected them. Later Charles Cummings, who then acted as city engineer on a per diem basis, started to correct the plans, but owing to a misunderstanding as regards the remuneration for the work he discontinued it. Since the new system of government has been in effect, the street department has been too much occupied with routine work and improvements to give the block plans any attention, but the officials have lately been insistent that the work be completed, and for the next few weeks the street department will be almost wholly engaged on it.

After the expiration of the period allotted by the state law, which occurred two years ago, for every day the municipality is behind in submitting its block plans, a fine of \$4,000 is provided, which would make Marquette's penalty run well up into the millions. It is understood, however, that the state will waive this claim, inasmuch as some of the cities were unable to grasp exactly what was required, while others found it impossible to do the work within the time specified.

INFINITE VARIETY OF POTATOES AT BANQUET

Best Pedigreed Cloverland Stock Will Be Served—Seventy-five Expected.

Aristocrats of the potato world, with scientific titles and pedigrees a yard long, prepared in all of the fifty-seven varieties, will form part of the roast turkey "dinner" at the banquet of the Upper Peninsula Potato Growers' annual convention. Besides these, of course, there will be a generous serving of delicacies, to delight exacting tastes, but potatoes will have an unusually important place on the menu. They will be the finest products of Cloverland, the committee says.

The banquet will be held at Guild Hall on Thursday, October 28, at 7:30 p. m., and will be served by the ladies of Guild Hall. It will be open to the public, and it is anticipated that about seventy-five people will attend, including the out-of-town visitors to the congress. Frank H. Vandenberg will act as toastmaster, and there will be a few informal speeches, in addition to a musical program.

The committee announced on Saturday that potatoes for the exhibit are arriving steadily, and in large quantities. Leo M. Geismar, of Houghton, expresses unshaken confidence that Houghton will carry off the greater share of the prizes, but exhibitors of Dickinson and Schoolcraft counties appear equally sure of gaining the honors.

NONE SO GOOD AS CHAMBERLAIN'S.

"I consider Chamberlain's Cough Remedy the best medicine on the market for colds and coughs."—Mrs. D. H. McDowell, Fort Wayne, Ind. Obtainable everywhere.

Those who use gas coke save money and are not troubled with soot, dirt or smoke. 10-1-0-ff

M.H.S. TEAM IS VICTORIOUS

Defeats Soo Eleven Saturday by Score of 27-7—Game Is Bitterly Fought, Particularly Second Half—Marquette's Goal Line Crossed First Time This Season

Splendid Team Play Marks M. H. S. Work—Purcell, Soo Full-Back, Is Individual Star of Game—The Marquette Players Praise Treatment They Receive

Favored by ideal football weather, the Marquette High school team took the Sault Ste. Marie eleven into camp last Saturday afternoon at the latter's grounds to the tune of 27 to 7. The game proved more bitterly contested than the score would indicate, as, with the exception of the second quarter, when Marquette scored all her points, both teams fought hard every instant, with little gaining or yielding to any extent.

Both elevens resorted almost entirely to straight football, using line plunges and end runs extensively. The line-plunging of Purcell, Soo's star full-back, was the individual feature of the game, while the sensational and run rolls, right half-back for Soo, in the third quarter, was responsible for Soo's lone touchdown. On this play Follis brought the ball to Marquette's eight-yard line, after a run of fifty yards. From here, Purcell carried it across and kicked goal.

The playing of the Marquette eleven was characterized not so much by individual effort as by splendid team play. The machine-like precision in all of its formations, and the skill of the team in handling forward passes, combined with unusual grit and aggressiveness, proved overwhelming, however, everything was above criticism, and when the Marquette players arrived home late Saturday night, they were enthusiastic in their praises of the treatment they were accorded.

Ed St. John, Marquette's star half-back, was unable to play because of injuries sustained in practice last week. His place was filled by Doetsch, who put up an excellent game.

Following is a detailed description of the game:

First Quarter.

The kick-off was fumbled by Marquette, and was recovered by Soo on Marquette's thirty-yard line. From there it was advanced to her ten-yard line, but Marquette's defense stiffened and held her down. Sonnenberg punted and the ball was returned to Marquette's thirty-yard line. The Soo could not gain, and the ball went over on down. Morrison then made a run around end for thirty yards before being stopped. Line plunges brought the ball to Soo's thirty-yard line, when the first quarter ended. Score, 0-0.

Second Quarter.

Marquette opened up a little, and by pretty passes crossed the goal four times within the first few minutes of play. The first pass was to L. Morrison, who downed the ball on Soo's five-yard line. Sonnenberg then went over for a touchdown, and Morrison kicked goal. On the next play, Marquette brought the ball to her opponent's twenty-yard line by plunging. A clever pass from Sonnenberg to Morrison resulted in a score. Morrison again kicking goal. Line plunges and straight formations gained again for Marquette, and for the third time she outwitted Soo, a pass from Pendill to L. Morrison bringing the ball down to the adversary's one-yard line. W. Morrison kicked the ball across, and Gustafson carried the ball across, and Sonnenberg kicked goal. The last score resulted when Sonnenberg intercepted a forward pass by Soo, and was downed on Soo's five-yard line. W. Morrison scored a touchdown from here, but missed the goal. Score, 27-0.

Third Quarter.

An attempted pass by Soo was intercepted by Pendill, who gained fifteen yards before being downed. Marquette then held her down, and Follis made his sensational fifty-yard run around end, resulting in a score for Soo. Line plunges gained nothing this quarter, although Soo came back full of fight, and put up a battle that made the team's cause take on fresh hope. Score, 27-7.

Fourth Quarter.

Players of both teams were exhausted in the final period, the only gain of any account being L. Morrison's pretty run of thirty yards to the Soo's ten-yard line. Marquette, however, was unable to advance the ball farther, and on being held for the game ended with the ball in Soo's possession. Final score: M. H. S., 27; Soo, 7.

The line-up of the Marquette team was as follows: W. Morrison, full-back; Doetsch, right half-back; L. Morrison, left half-back; Gustafson, quarterback; Malone, center; H. Johnson, right guard; Daniels, right tackle; Malone, right end; M. Johnson, left guard; Sonnenberg, left tackle; Pendill, left end.

MARQUETTE SECOND WINS.

Trounces Second Team of Negaunee High School on Sat.—Score 20-0.

The Marquette High School second team had little trouble in trouncing the second team of the Negaunee High school at the new fair ground last Saturday afternoon, the score being 20-0. The feature of the game was an eighty-yard run for a touchdown by Havener, Marquette's full-back. At no stage of the game was Marquette in serious danger of having her goal line crossed, and romping home with a victory proved a comparatively easy matter.

TONNAGE SOUGHT IN VAIN.

Ore Sale May Be Prevented by Inability to Secure Shipment.

Indicative of the great demand for lake tonnage is the following Cleveland dispatch:

"A good finish in the lake trade is assured and the outlook for next season is getting better daily.

"A big eastern concern is in the market for a block of one of fair size for this season's delivery, but it is not likely the order will be booked, owing to scarcity of vessel capacity. The matter has been taken up with several shippers, but they are not in shape to take on any more business as they will have to stop pretty lively the remainder of the season to take care of the orders already booked.

"The indications are that 1915 will be the banner year of the lake trade and there is more demand for vessel property than there has been for a number of years. It is not likely many orders for bulk freighters will be placed owing to the high prices and late delivery. There is a big demand for material in all lines and builders would not guarantee delivery on a big ship much before next July.

"A contract for a steamer for a special trade is practically closed and it is expected that more orders will come from the coast as the lake builders make better delivery than the eastern yards. Several parties are figuring on buying freighters and an offer for four modern steamers was turned down last week. Big carriers are not on the market. Some figuring for small and medium-sized ships is being done and a few deals may be closed. With most of the freighters under contract for the remainder of the season, few of the ships wanted could be sold on prompt delivery.

SHOWING HERE IS CONVINCING

R. M. Andrews, Menominee Editor, Now Comes Out for Municipal Ownership.

The accounts of the Marquette water service are cited by Roger M. Andrews, editor of the Menominee Herald-Leader, as offering evidence that municipal ownership, under proper conditions, would be a good thing for Menominee. In a signed article in Saturday's edition, Mr. Andrews says that the meeting last week, at which Mayor Begole was one of the speakers, showed clearly that the masses of Menominee residents favor municipal ownership, and he announces that henceforth the Herald-Leader will support it. The statement says:

"The Herald-Leader, acting in good faith to every man, woman and child in Menominee, rich or poor, high or low, to the best of the newspaper's ability, desires to have obtained at the polls on November 1st a fair, full, honest and complete expression of the wish and will of the freetholders of Menominee on the water question.

"In this position, we have, we thoroughly believe, the support of every citizen on every side and from every viewpoint.

"We believe it is the province of the press of any community to come out fairly and squarely in favor of or in opposition to any problem before the people and voice its honest conviction.

"When the Herald-Leader came out in opposition to bonding the city of Menominee to buy the water company's plant or build a water plant of its own, we stated honestly and fearlessly our reasons. We believed that the majority of the people did not want to buy the water works plant or build one of their own.

"Mayor Lloyd called a mass meeting which was held in the opera house last week to discuss the water question. We were present at that meeting, which was a representative meeting of the people of Menominee. It was a representative meeting of the taxpayers of this city, and any one who was present at that meeting, would deserve to be ridiculed if he did not agree that the people assembled in the opera house on Wednesday were overwhelmingly in favor of municipal ownership of the water supply of Menominee.

"The Herald-Leader's great objection to the bond issue was the probability of our building a separate municipal plant of our own, and thus having a competing plant. We now know that if the people vote in favor of bonding the city, that the city cannot build a new plant without again submitting the question to the people. We believe this is a fair solution of the problem before us, and the Herald-Leader urges the freetholders of Menominee to authorize \$800,000 for its plant.

"After listening to the spontaneous outbursts of applause when Mayor Begole and Mayor Lloyd expressed themselves in favor of municipal ownership of the water works, we are convinced that our opinion was wrong, and having no other object in view than to serve the best interests of the community, we willingly agreed to join with the people and with Mayor Lloyd in assisting in any way within our power to the end that every taxpayer may vote 'Yes' on the bonding of the city to our own water plant.

"We surrender our opinion to no man, but are always willing to surrender to the will and voice of the people.

"Mr. Andrews gives it, as his personal opinion, after an investigation of the record of the municipal water plant of Marquette, and the official account books of the city, as shown to him by Mayor Begole, that, under proper conditions, it would be an excellent thing in every way for Menominee to own its own water works.

"If he had not believed that, he never would have signed the agreement with Mayor Lloyd."

SOUTH SHORE EXCURSION.

For the Cloverland Potato Congress at Marquette, Mich., Oct. 27 to 29 the South Shore will have the usual low round trip fares in effect from all stations in Michigan including Saxon, Wis., to Marquette and return. Tickets on sale Oct. 26, 27 and 28, with return limit of Oct. 31. 10-22-15.

A Savings Bank in Your Home

We keep on hand at all times a supply of Home Savings Banks, which we are glad to loan free of cost to depositors. The deposit of One Dollar in our Savings Department entitles a person to one of these banks which have been found by many of our people of great value in forming the savings habit.

The First National Bank, Marquette, Mich.

There is no mystery connected with The Variety Store's Supremacy As An Economical Supply Center

You will find vivid explanation in our high grade merchandise and low prices. The more you learn about our goods and prices, the greater will be your inclination to concentrate your purchases here.

We are offering some great inducements in Woolen Blankets, Knitting Yarns, Woolen Mittens and Gloves, Woolen Hosiery, Fall and Winter Underwear in union suits or separate pieces, Sleeping Garments, Knit Shawls, Siberian Scarfs and a very large line of new winter goods too long to enumerate.

It will pay you to buy your winter goods here as our prices can not be beaten by anybody.

BOWLING LEAGUE WILL OPEN SEASON TONIGHT

Players Are Handicapped—First Game Will Be Katzenjammer Kids vs. Penslars.

The newly organized Business Men's league of Marquette will commence its season's bowling schedule at 7:30 tonight, when the Katzenjammer Kids line up against the Penslars. The league this year will be conducted on a handicap basis, so that each of the ten teams of which it is comprised has an equal chance for championship honors for the coming season.

A printed list of all games scheduled will soon be given out by the committee, and all bowlers who have been chosen to take part in these games are asked to adhere strictly to the schedule. This will overcome the unsportsmanlike feeling, which is always caused when substitutes are called upon to fill in.

The committee has drawn up a full set of rules, a printed copy of which will be presented to each team captain in a few days. League bowlers have been notified that they are expected to abide strictly by these rules. Any violation or unsportsmanlike conduct on the part of those who participate in the games is threatened with expulsion from the league. The committee, consisting of R. F. Birchard, W. W. Kuehl, and Wm. Penhaligan, is making serious efforts to eliminate any undesirable feature from the game, in order to insure the position of bowling at the head of all indoor sports.

A waiting list is now being formed, and applications will be considered in rotation only.

The first week's schedule is as follows:

Monday—Katzenjammer Kids vs. Penslars.

Tuesday—Front St. vs. Square Deals.

Wednesday—Mineralites vs. Vikings.

Thursday—Merry Widows vs. Bismarks.

Friday—Wanderers vs. Pathfinders.

All games to commence at 7:30 p. m. The league handicaps for the season follows:

Mineralites—Van Iderstine (9), A. E. Mills (9), E. G. Jenks (9), O. Manes (9), E. W. Allen (9), W. W. Kuehl (9), M. H. Foard (9) Capt.

Bismarks—Sullivan (15) Capt., Edlund (15), Sears (15), Hansen (15), Dorais (15), Cameron (15).

Vikings—O. Levene (9) Capt., Erickson (9), Jeanson (15), O. Olson (1), H. Johnson (9), Windoff (16).

Pathfinders—R. W. Eldridge (9) Capt., Birchard (9), L. Lawrence (9), A. Haslett (9), McCulloch (9).

Katzenjammer Kids—E. Short (14) Capt., Leskie (9), Birse (25), H. Stolpe (9), W. Morrison (5).

Wanderers—McKeruehan (9) Capt., Riopelle (9), Hayes (9), L. H. Smith

NOTICE!
All bills payable to A. LaVallee are now due and must be paid on or before Nov. 1st, at 118 West Bluff street, or to J. H. Primeau, Jr., Washington street. 10-20-22-25.

A farm engine driven by a gas motor has been invented in Europe that is equipped with its own producing plant for making gas from waste material such as bark, sawdust or dry leaves.
