

USKUP IS REPORTED RECAPTURED BY THE SERBIAN ARMY
THINK REAL STORY OF NEW YORK BOMB PLOT STILL HIDDEN
FRENCH CABINET RESIGNS; REAL REASON IS UNCERTAIN

ALLIES SENDING TROOPS TO HELP ON BALKAN LINE

While Austro-Germans and Bulgars Continue Advance Toward Turkey, Hundreds of Thousands of French and British Soldiers Rush to Fight With Defenders

Attitude of Greece Toward Lending of Entente Forces Creates Anxiety, But Assurances Are Government Will Allow It—Teutons in Russia Checked.

London, Oct. 28, 9:15 p. m.—Outside of the German official statement, which records the advance of the Austro-German forces and the capture by the Bulgarians of Zajcar and Knajevats, both on the Timok river, northeast of Nish, and the heights of Pirot almost directly east of Nish, there is little or no authentic news of the invasion of Serbia. There are reports, however, that the Serbians have recaptured Uskup, which is not improbable, if, as Saloniki dispatches report, the French now hold the line of Krivolak, Radovista and Strumitza for, with an army there and the Serbians at Veles, Uskup would form a dangerous salient.

For the moment the danger spot for the Serbians is the northeast corner, where they are being attacked from three sides and must eventually fall back toward the southwest. Thus far they have been retiring in good order, and, despite the seriousness of the situation, optimism prevails in the Serbian quarters in London, which probably are best able to judge of the assistance being sent by Great Britain, France and Russia.

BRITISH REINFORCEMENTS LARGE

The French, according to German dispatches, have already landed 150,000 men with one hundred guns at Saloniki. While the whereabouts of the British reinforcements remains a secret, that they are of considerable size may be judged from the fact that although General Sir Charles C. Monro, recently appointed to command the Gallipoli operations, is already on the spot, the government has decided to send General Sir Bryant Mahon, who commanded the columns which relieved Mafeking in the South African war, to co-operate with the French.

Greater anxiety exists as to the attitude of Greece. It is known that Austria, Germany and Bulgaria, have seriously complained of the continued hospitality shown the allies at Saloniki, and one account goes so far as to say that the Greek government has asked the allies to leave Greek territory. Against this is the quoted assurance given by the Greek minister at Paris to the French government that Greece has no intention of committing any hostile act toward the allied troops.

GERMAN ATTACKS CHECKED

Except around Riga and Dvinsk where the Germans are renewing their efforts to reach the Dvina river and near Czartorysk on the Sty, there has been no heavy fighting in the Russian arena. Engagements on a small scale have taken place west of Riga, showing that the Germans are attacking in a new direction. Hitherto their main attacks have been from the south and southwest of that city where they were checked. On the Sty and in Galicia the German offensive, according to the Russian report, has been stopped.

ITALIAN OFFENSIVE FIERCE

Udine, Italy, via Paris, Oct. 28.—News of the great Italian offensive all along the Isonzo front is being brought down by the wounded and the men of the convoys which are escorting Austrian prisoners to the rear. In three days over 3,000 prisoners have passed through Udine which gives some idea of the magnitude of the operations. All the soldiers agree that the artillery preparation preceding the offensive, lasting three days, was appalling.

wounded gunner, "how much worse was it for those yonder where the shells burst?" The Italian soldiers assert with pride that they are now reaping the benefit of a systematic destruction of the Austrian observatory points on the mountain peaks, mastered after fierce struggles during the last month and the lack of which, they say, has greatly decreased the accuracy of the aim of the Austrians. The men say that six months of warfare has enabled them to understand the tricks of their opponents.

TURKISH VICTORY REPORTED

Berlin, by Wireless to Tuckerton, N. J., Oct. 28.—Turkish troops have engaged and repulsed an Anglo-French force near Strumitza, according to a dispatch from Sofia, given out today by the Over-Seas News agency. "Bulgarian and Turkish mountain artillery has done great execution," says the dispatch. "Two thousand prisoners, among whom were troops of all colors, have arrived at Sofia."

CALLS SERBIAN CAMPAIGN WON

London, Oct. 28.—The Frankfurter Zeitung is quoted in comment on the Balkan situation telegraphed here that the campaign against Serbia may now be considered won in its essentials. "Serbian troops are still fighting in the northeastern corner," says the paper, "but their country must soon yield to our pressure. The day when the Bulgarian and German armies united will be an important date in the world's history."

BULGARIANS CAPTURE PIROT

Amsterdam, via London, Oct. 29, 2:30 a. m.—A dispatch received here from Sofia says that after long and sanguinary fighting the Bulgarians captured the fortress of Pirot. The dispatch adds that some civilians were killed in the Russian bombardment of Varna, but that little material damage was done.

DENIES FLATLY ANY PEACE MOVE BY EITHER SIDE

London, Oct. 28, 4:06 p. m.—An emphatic denial that Great Britain was engaged in any peace negotiations, direct or indirect, was made by David Lloyd George, the minister of munitions, in reply to a question in the house of commons today.

Mr. Lloyd George spoke for Premier Asquith when the question, which Aman Bryce had given notice, came up. The query was as to whether unofficial exchanges of views had been carried on between Berlin and London with the possible object of the conclusion of an early peace and whether inquiries of a similar nature had been made by official representatives of any neutral power.

WANT FREEDOM FIRST

"The words of the prime minister still hold good," Mr. Lloyd George added, referring not only to the question of peace negotiations, but to the query as to whether the premier still adhered to the declaration in his Guild Hall speech that Great Britain should not sheath her sword until "the freedom of Europe was assured."

ADMITS U. S. HAS RIGHT TO SUBMIT PROTESTS TO ARBITRAL BOARD

London, Oct. 28.—The foreign secretary, Sir Edward Grey, said in the house of commons today that the American government had the right to demand the submission to an international tribunal of verdict of a British prize court. Sir Edward made this admission on being pressed as to the power given to the American government in this regard in the British note of July 31, last.

OFFICIALS SAY ACTUAL FACTS ARE A MYSTERY

United States District Attorney Marshall Asserts Only Evidence Against Alleged Conspirators Is Contained in Fay's Confession and the Explosives Found.

Suggestion That Arrests Were Made Too Soon Is Met With Explanation That Quick Action Was Required to Prevent Some Ship from Being Blown Up.

New York, Oct. 28.—All the alleged evidence obtained by the government against the five men charged with conspiracy in plotting to disable steamships with war munitions for the allies by placing clock-work bombs on the rudders or propellers of the vessels is contained in the confession of Robert Fay, who says he was a lieutenant in the German army, and in the explosives materials found in his possession. This was announced today by William J. Flynn, chief of the secret service and U. S. Marshall, United States district attorney.

PAPERS SHOW NOTHING

Both officials asserted that none of the papers and letters taken from Fay's room in Weehawken, N. J., threw any light as to who were Fay's financial backers, if he had any, or tended to show any connection between Fay's activities in the United States and officials in Europe. Fay, himself, said in his confession that his plan to come to America and obstruct war munitions ships was approved by German secret service officials, but, according to Mr. Marshall no evidence other than Fay's word has been obtained.

REAL STORY STILL HIDDEN

"The government is far from convinced that the real story of the plot has been unearthed," said Mr. Marshall. "We have not finished investigating. Yet we have no basis for any further arrests." The cases of the five men are to be presented to the federal grand jury next week. Dr. Herbert Kienzle, charged with complicity in the conspiracy, obtained his release on \$25,000 bond today.

FAY WAS READY TO WORK

That Fay had completed three steel shells with springs and clock-work mechanism ready for attachment to a vessel and had the explosives prepared to place into the shells was explained by police officials today in answer to questions whether the arrests of Fay and Walter L. Scholz, his brother-in-law, last Sunday, had not been made before sufficient evidence had been obtained against other persons. The police assert that had the arrests been delayed it would have given Fay an opportunity to carry out his threat of placing a bomb on a ship.

John C. Knox, assistant United States district attorney, was sent to Weehawken to examine the scene where Fay carried on his experiments. He visited Fay's room and the boat house on the Hudson river where explosives were stored.

NORTH CAROLINA FEELS TWO SLIGHT QUAKES

Asheville, N. C., Oct. 28.—Two distinct earth shocks were felt here at 12:35 o'clock this morning. The shocks came about two minutes apart and lasted only a few seconds. Houses were shaken and many people were aroused from sleep. Telephone inquiries from various points in the surrounding country indicated that the shock was general. No serious damage is reported.

TODAY'S WEATHER

Washington, Oct. 28.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy Friday and Saturday.

DESCRIBES THE MEETING OF BULGARS AND TEUTONS

Press Dispatch Tells How Balkan Army Joined Hands With Austro-German Forces.

Berlin, by Wireless to Sayville, L. I., Oct. 28.—Among the items given out for publication today by the Over-Seas News agency was the following: "The Austro-Hungarian, Bulgarian and German commands have met on the Balkan heights. In the twilight of Oct. 26 in the rugged Dobrovo mountains, where the patrols of the allied powers were looking out for each other, there suddenly appeared two Bulgarian officers and twenty-five men.

"According to the Cologne Gazette all were splendid soldiers and well equipped. A majority of them were veterans who had fought in the Balkan war against Serbia. They were given an enthusiastic reception by the soldiers of the central powers. "The military commanders and the duke of Mecklenburg hastened to a place northeast of Brza Palanka, near the town of Milutinovich, where the historical meeting of the east and west took place. Later there was a brilliant parade in the conquered Serbian fortress of Kladovo.

COUNT IS EXECUTED DESPITE ALL PROTESTS

Amsterdam, via London, Oct. 29, 4:20 p. m.—The Echo Belge says that Count Joseph de Hemptinne was executed at Ghent on Oct. 28. He was a member of a prominent Catholic family.

A Rome dispatch of Oct. 19 said that Pope Benedict asked the request of the British and Belgian legations, had interceded with Emperor William on behalf of the Baron de Hemptinne, condemned to execution by the German authorities.

RUSSIA WANTS MANY MILLIONS IN LOAN IN U. S.

New York, Oct. 28.—Agents of the Russian government, it was reliably reported here today, are seeking to establish a credit loan in this country, somewhat similar to the recent \$500,000,000 Anglo-French credit loan—although no bond issue is contemplated—of from \$50,000,000 to \$100,000,000 and more, if it can be obtained.

Details of the proposed loan were lacking, but in one quarter it was reported that the Russian government was willing to pay as high as 9 per cent interest for a loan of this size. This report added that the loan probably would be for eighteen months and would be in the neighborhood of \$60,000,000. It is said that negotiations looking to the establishment of the loan have been under way for some time and that a definite announcement might be forthcoming soon.

ALLIES ASK FOR MONEY

New York, Oct. 28.—The first call for funds available from the Anglo-French \$500,000,000 credit loan was made today by Basil B. Blackett, secretary of the Anglo-French commission, and Octave Homberg, one of the French members who remained in this country to adjust matters in connection with the loan. Lord Reading, chairman of the commission and the two other British members sailed Oct. 16 and have reached Great Britain.

The call requests banks throughout the country where the funds have been deposited to remit, by Nov. 15, 15 per cent of the proceeds to the National City bank here, the institution designated as the depository of the proceeds as called for. Letters to this effect went out today, bearing the signatures of Messrs. Blackett and Homberg and others will go forward to other banks tomorrow and Saturday.

It is expected that the call will place at the disposal of the British and French governments between \$60,000,000 and \$70,000,000—15 per cent of the amount paid in—by Nov. 15. This will be placed in the National City bank to the credit of "The British and French government central joint account."

Ottawa, Ont., Oct. 28.—Charles Snowden, of Port Huron, Mich., is given as wounded in tonight's casualty list of the Canadian forces in Europe, issued by the militia department here.

M. VIVIANI IS NOT IN GOOD HEALTH, IS EXPLANATION

Although Rumors of Important Changes Had Been Circulated Since Delcasse Left Ministry, Action of Premier Comes as Surprise; Duties Too Trying?

Aristide Briand, Who Was Asked to Form a New Cabinet, So Far Has Not Succeeded in His Task—Former Body Had Already Received a Vote of Confidence

Paris, Oct. 28, 11:15 p. m.—The French cabinet of which Rene Viviani was head, resigned today, but up to a late hour tonight Aristide Briand, who was called upon to form a new cabinet, had not succeeded in completing his task. The subject of M. Viviani's retirement from the premiership and the reorganization of the cabinet was discussed at length by the political leaders, but as no definite arrangement could be reached the chamber of deputies, which was awaiting the appearance of the ministry in the house, adjourned in the afternoon without any formal announcement having been made.

VIVIANI'S HEALTH AFFECTED?

There had been rumors since the resignation of Theophile Delcasse, the foreign minister, of important changes in the cabinet, but the withdrawal of M. Viviani was in the nature of a surprise, as his ministry received a vote of confidence in the chamber recently by a very large majority. One explanation offered is that Premier Viviani has overtaxed his strength in his official position by his strenuous services in connection with the war.

Aristide Briand, who held the office of minister of justice in the late cabinet, and who was premier in 1913, in a statement respecting the changes in the cabinet said he had received no official mandate as there was no ministerial crisis. Throughout the day he conferred with the political leaders of all shades of opinion with the purpose of reorganizing the ministry so as to include the best available men in the country. It is believed that M. Briand will be officially invested with the mission of forming a new cabinet as soon as his selections for the various portfolios are made.

MEXICAN LINES BEING DRAWN FOR BIG BATTLE

Washington, Oct. 28.—Major General Funston reported to the war department today that with the arrival at Douglas, Ariz., tomorrow morning of additional troops now enroute he would be prepared to guard American territory against violation in the impending attack by Villa forces upon Agua Prieta, the Mexican town just across the border. Two batteries of field guns, two regiments of infantry and a troop of cavalry make up the reinforcements for the border patrol at Douglas. Instructions to General Funston are positive not to permit the Villa soldiers to cross into American territory for the purpose of attempting a flank movement on the defense of Agua Prieta. Artillery will be used, if necessary, to repel such a movement.

TROOPS ARE ON WAY

General Calles, commanding the Carranza garrison, has built a semi-circle of trenches about the town fronting southward, preparing to make his fight with his back against the international border. Several thousand additional men sent to him by General Carranza will cross United States territory from Pedras Negras and Laredo by train and under guard of American troops. They will travel without arms, their weapons being collected at the border and sealed

in baggage cars attached to the train until it crosses the line at Agua Prieta. In making his arrangements for the impending battle General Funston reported he had posted a troop at Naro to guard the border on western flank of Douglas, the rest of the forces ordered to the scene going to Douglas direct.

HOW RUSSIAN WARSHIPS SHELLLED VARNA IS TOLD

Fleet Fired on Bulgar Port; Planes Dropped Bombs; Squadron Not Damaged.

Petrograd, Oct. 28, via London, Oct. 29, 3:30 a. m.—An official communication issued this evening goes more extensively into the bombardment of Varna by Russian warships and the attack by German submarines against the Russian squadron than the communication issued by the Russian war office, the communication says: "Our Black sea fleet bombarded guns with heavy guns for about an hour while hydroplanes dropped bombs. The harbor works, sheds and coast batteries were damaged, but the town itself was not hit.

"During the bombardment the Russian fleet was attacked by German submarines, which were driven off without our suffering any loss. During the day our wireless station recorded a telegram from a German station to Constantiople, asserting that a German submarine attack had resulted in seriously damaging a Russian battleship. "Fleet Not Damaged.

"This statement is one of the usual German lies which is proved by the fact that our fleet returned to Sebastopol, without sustaining the least damage or loss of life. The driving of the submarine failed to interfere with the bombardment because the submarine attack was repulsed by the smaller guns while the main armament continued to fire on the town.

"After the bombardment the fleet steamed across the bay in front of the town and then headed for Sebastopol. Our aviators dropped twenty-one bombs in the vicinity of the harbor. They were subjected to a terrific fire, but none of them was hit and all returned safely."

STEEL TRADE IS ON INCREASE IN HUGE BOUNDS

New York, Oct. 28.—So great has been the sudden and general revival of the iron and steel trade of the United States it was said by authorities today that with virtually every blast furnace and steel mill in the country working night and day to capacity the demand for iron and steel products cannot be satisfied and it is today almost impossible to buy for immediate delivery pig iron, scrap, or ingots in sizeable quantities at any industrial plant in the country. The revival, which began about the first of last July, has been coming on rapidly with a deluge of orders since the middle of August and may not yet have reached its high mark. Within these three months the price of pig iron, long regarded as the barometer of trade, has increased approximately 35 per cent and that of steel and steel products—except steel rails—has gone up about 15 per cent.

DEMAND EXCEEDS SUPPLY

"At the present time the demand for pig iron and for the various lines of steel is in excess of the producing capacity of the furnaces and mills of the United States," reads a statement issued today by Judge Albert H. Gary, chairman of the United States Steel corporation. "The manufacturers are unable to make deliveries entirely satisfactory to the purchasers with respect to a large majority of the different kinds of finished steel. "There is nothing to indicate that there will be a decrease in the demand for any of these products for some time. While prices received are still low, they have been and are increasing and apparently will go higher so that fair and reasonable profits may be expected. "Of course these very satisfactory conditions are more or less affected by the war business, so-called, yet it is undoubtedly true that there is a better feeling throughout the general iron and steel trade than has been experienced for some years past."

Amsterdam, via London, Oct. 29, 3:45 a. m.—A dispatch from the Bulgarian news agency says the Bulgarians have occupied Port Danube and captured Kosik.

SCHOOL BURNS, 20 CHILDREN DIE, BODIES JAM DOOR

Fire, the Origin of Which Is Unknown, Wrecks Parochial Building in Peabody, Mass.—Most of Victims Are Girls—Only Ten of Dead Identified.

Responding to Fire Drill Quickly and Orderly, Pupils March Toward Door, Where Crippled Child Stumbles, Falls and Upsets Others as They Enter Hall

Peabody, Mass., Oct. 28.—Twenty children, most of them girls, ranging in age from seven to seventeen years, lost their lives today in a fire which destroyed St. John's parochial school. Another girl has injuries which are regarded as probably fatal, while others were less severely hurt.

The six hundred children had entered their class rooms for the morning session when the fire was discovered and although a majority of them were guided to safety by Sisters of the Order of Notre Dame, who were their teachers, panic seized a large number as they neared the front door and in their rush to escape they lost their footing and their bodies blocked the exit. It was in the front vestibule that nearly all of the bodies were found.

TEN BODIES IDENTIFIED

Of the nineteen bodies at an undertaker's tonight, ten had been identified. All of the Sisters escaped but Mother Superior Marie Carmelia was seriously burned. At the convent house tonight it was said that her injuries probably were not fatal, although she is prostrated by the disaster and the suffering of her charges.

ORIGIN IS A MYSTERY

How the fire started may never be known. An early theory that a boiler explosion caused it having been dismissed, the state police officials tonight were of the opinion that a storeroom in the basement where a gas meter was located was its source, but investigation of the theory was difficult as the place where the storeroom had been was entirely burned.

The first word of the fire is believed to have come from a tardy pupil who smelled smoke and reported it to the Mother Superior. The children had just finished morning prayer when the gong sounded for a fire drill.

CRIPPLE FELL CAUSING DEATHS

Mother Marie hurried to tell the Sisters of the actual danger and the movements of the fire drill were quickly started. A few days ago in a practice drill the building was emptied within two minutes. It would have been cleared in almost the same time today, in the opinion of the Rev. Nicholas J. Murphy, pastor of St. John's Roman Catholic church, but for the falling of a child, believed to be a cripple, in the front vestibule.

NOT LACK OF PRECAUTION

Criticism by citizens of the lack of fire escapes on the school building were met by statements from state and town officials that every requirement of law had been met. Deputy Chief George C. Neal of the state police said that the loss of life "apparently was not due to any lack of fire precautions, but simply to the unfortunate place in which the fire started, almost under the front steps, and the accident which blocked the front door." The building was a three-story brick structure of eleven rooms, nine of which were used as classrooms. Within it was finished in wood and the flames ran entirely through it so that tonight only the outer walls were standing.

Amsterdam, via London, Oct. 28, 7:37 a. m.—A telegram from Budapest to the Cologne Volks Zeitung says that King Peter of Serbia probably will leave that country and go to Italy.

THE DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY
The Mining Journal Company, Limited.

Issued daily except on Sundays. Contains Associated Press dispatches, and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES:

Per year, by mail.....\$6.00 Per month, by carrier..... .50

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

FRIDAY, OCT. 29, 1915.

THE POTATO SHOW.

The upper peninsula potato yield may bulk less than usual this year, but no person who sees the exhibits in the potato show at Guild Hall can feel any doubt that no better potatoes were ever grown in the upper peninsula, or anywhere else, than the prize winning stock displayed there. It is an impressive exhibit of what real fineness in potatoes means, and it is a revelation to persons who have thought of this humble product as one that is delivered, unsorted, by the bushel, and one in which the importance of careful choices of varieties and thorough culture was not so great as it is in other branches of farming. These persons, who would be inclined to say that "potatoes are potatoes," in this show find that there are potatoes and potatoes, and that there is the same real significance in the gradations of varieties that there is in the varieties of apples. In connection with the show the commercial significance of intelligent potato culture, grading and sales methods is being expounded. In fact, the show is, first of all, practical, and its basic purpose is to help make this upper peninsula crop more valuable than it has ever been in the past. It has an intimate relation to the general movement for improved agriculture in the upper peninsula.

OUT OF THE ORDINARY.

Over in Chippewa county an original thing has been done. It is the time honored custom of boards of supervisors to accept, without particular dissent, the reports of the committees on equalization, as well, indeed, of most other committees. But in Chippewa the township members got at odds over the valuations for the different parts of the county, with the result that a group of insurgents worked out an equalization of its own and then passed it, by a vote of 12 to 11. Sharp words were said incidentally, and the meeting was not entirely even tempered.

But there's little to be regretted in that. As a rule our boards of supervisors are altogether too sweet tempered. It is a condition that means that matters are proceeding in a well established routine, according to ancient rules and traditions, that innovation is regarded as hardly respectable and that the man who is so thoughtless as to ask inquisitive questions must be put in the dangerous class. A resident of Chippewa should rejoice that the county's supervisors can still get hot, talk straight from the shoulder and get things in a tangle once in a while. It carries a certain promise for the future.

TO VISIT DELTA.

Delta county supervisors, in special session assembled, will receive the state tax commission on official business Monday. At the recent meeting of the board, to equalize the assessments of the county, \$62,500 was added to the Gladstone assessment because the board was of the opinion that the Gladstone assessor was far too considerate in dealing with his fellow citizens when it came to estimating the amount of personal property of which they are possessed.

Supervisor Mason, of Gladstone, one of the members of the board who takes his duties seriously and talks out in meeting on occasions, opined that this was a wrongful procedure, that the assessments for Gladstone represented as high a proportion of actual value as did those for the remainder of the county. But he failed to impress the majority of his fellow members, and the boast for Gladstone was allowed to stand.

Whereupon Mr. Mason proceeded to demonstrate that he was not talking to the board because he was entranced by his own eloquence, for he made formal request to the state tax commission for a review of the Delta county assessments.

The response of the commission was immediate. Its work, it will be hoped, will be effective. As it has not yet subjected Delta to the searching review with which it recently favored Marquette, it may fall out that the Delta board sadly erred in so offending the Gladstone member that he felt compelled to resort to its members. It may fall out that the investigation that will be made next week will persuade the commissioners not that Gladstone was equalized too high by the county board, but that the other divisions of the county, including Escanaba, were equalized far too low, in which event the county may come in for far more attention than it would like to receive.

Marquette's experience with the tax commission would seem to indicate that it is the part of wisdom not to encourage its attentions, but rather to see that they are postponed to the most remote day. For when the commission descends on a county it means that valuations in that county are shoddy, high, while at the same time the slow progress of its work assures that for

some years to come other counties, perhaps most of the counties, will have far too low valuations. And that means, in practice, that the counties that the commission has revealed fair but indifferently when the state board of equalization goes into session.

ENGLAND'S SEA POWER.

While England is cutting by a sorry figure just now in warfare upon land she is more the mistress of the seas than ever before. Her navy has swept German commerce and German sea power from the oceans and it is holding the German navy so closely under cover that for present purposes it is practically obliterated. And finally has come the challenge of the British navy to the challenger of the German submarines.

Daily it is more apparent that at last an effectual way has been found to frustrate the German undersea raids. What it is has thus far been kept secret, for obvious reasons, but the fact stands out that only occasionally do we hear of ships being torpedoed by the kaiser's submarines. On the other hand, British submarines, long held inactive for want of anything within reach to strike at, have made their appearance in the Baltic sea.

These submarines are apparently inflicting more damage upon Germany in the Baltic than is made known by the news dispatches. Their object is to destroy the ships which convey food and war munitions to Germany from Sweden, now its chief source of supply from the outer world. An inkling of what is going on in the Baltic is afforded by Germany's admission that one of its armed cruisers, the Prince Adalbert, has been sunk there, with nearly all its crew, by a British submarine. Furthermore, assurance is given that there has been no loss of life in the torpedoing of merchant vessels.

If sea power, as many students of history declare, is the deciding factor in every war in which it can be applied, England has good cause to look forward to the future with confidence rather than discouragement.

PEACE TALK FROM BERLIN.

It is significant that every German success, no matter how incomplete, is followed by an outburst of peace talk from Berlin. The story that Von Buelow is arranging peace terms and will ask President Wilson and King Alfonso of Spain to intervene is merely the latest of a score of such inspired yarns.

The explanation of these stories may be read in another dispatch of yesterday, which said that up to October 29 Prussia alone had lost 2,021,078 men—exclusive of the navy lists and of officers serving in Turkey. Prussia contains 40,000,000 of the 65,000,000 persons in the German empire. On this basis, the total German losses would be 3,282,000. Those of Austria were estimated at close to 2,000,000 more than a month ago.

Many wounded soldiers have recovered and returned to the colors, but the net loss remains a staggering proportion of the fighting force of the two kaisers. Meantime, exhausted Russia continues to feed her myriads into the war mill. France refuses to show the slightest sign of weakness, and the British empire is resolute.

The fatal accident on the Negaunee-Ishpeming road this week serves again to show that there can be no real safety on the highways until the law requires horse drawn, as well as power driven, vehicles to carry lights. Such a law is required for the safety of both, for absence of lights on wagons and carriages creates as much danger for the occupants of these vehicles as for those in the motor cars. Frequent accidents due to this cause are reported, but they are as nothing compared with the accidents that are narrowly escaped. It has come to be a question whether the drivers of horse drawn vehicles are not contributing more to the dangers of the road than those who pilot cars. For instance, a Marquette motorist reports that the other day he approached a wagon loaded with hay on the Carp river bridge. There was ample room to pass, but, just as he was opposite the horses, a single horse detached to a runaway, that had been completely hidden by the hay, was turned out into the road. Only quick action on the part of the motor car driver and the fact that he had his car well under control served to prevent a serious accident. Experiences like this, illustrating the heedlessness of drivers of horses, could be multiplied almost without number. They seem to assume that the entire burden of keeping the road safe falls on the automobilists.

John Dunnevide, who leaves the Chronicle to return to the Detroit Free Press, had the important post of city editor on the latter paper before he left it to come to Marquette. That his service was appreciated and his departure regretted was shown by the fact that during the period of his residence

here he received several offers to return to Detroit. Mr. Dunnevide is a capable newspaper man, and in his new position on the Free Press he will have considerable scope for his abilities. He has many friends in the upper peninsula who, while regretting his departure, will be gratified that he is getting in line for larger work.

Prosecutor Galbraith, who says it is currently reported that there is general gambling in Houghton county, assures that if there is, some day, a fine row over its toleration it will be impossible to pass the buck to him by forwarding to Sheriff Cruse and his aides a letter formally directing their attention to the current reports and recalling to them the duty they have assumed of enforcing the laws. Mr. Galbraith notes that there is nothing in the law, or the practice of his office, that makes it incumbent on him to search out the evidence of offenses of this nature, but it is plainly his duty to call to the attention of the proper officials such reports as come to his ears. The prosecutor's letter suggests that there is gambling, and a great deal of it, in Houghton county, else he would hardly have so departed from the usual attitude of a well ordered prosecutor. And he places the responsibility for action against it where it properly belongs, with the sheriff, who has taken oath to enforce the laws and who is very well paid for doing so. The buck is with the sheriff and he will not be able to pass it on, even if he desires to.

STATE PRESS

The dry Sunday is skidding a trifle in Chicago.—Bay City Times.

Don't laugh at the elephant afraid of the mouse story. Many a man is afraid of a mouse.—Saginaw News.

Cheer up, those of you who pay rent. The Chicago scientist who was agitating for a thirteen-month year has been silenced.—Pontiac Press Gazette.

"Charles S. Mellen bares New Haven railway's history," says a newspaper heading. Almost anything goes since Anthony Comstock died.—Detroit Times.

New Jersey snowed under woman's suffrage by a tremendous majority. Never mind, mother, New Jersey is a dinky little state anyway.—Lansing State Journal.

Official figures show that Pennsylvania has an automobile for every fifty persons. The forty-nine, presumably, are looking for a chance to cross the streets.—Detroit News.

As a boy we learned that the fanciful name of New Jersey was "Blue Hen's Chickens State," and the blow received by the suffragists there on Tuesday makes us think it is still an appropriate sobriquet.—Jackson Patriot.

Senator William Alden Smith develops the bigger war plan as a political program, and the William Alden Smith club of Michigan will know that if there is anything the senator loathes it is a political program.—Grand Rapids Press.

As far as the preparedness program is concerned, such guerrilla warfare as Bryan's tends to bring the president aid and comfort from the Republican ranks, and to consolidate all classes into a united, non-partisan and true American attitude.—Adrian Telegram.

Women are succeeding today in nearly every department of intellectual work that was formerly the exclusive field of men. They have their natural aptitudes and their sex limitations, as men have, but it's never safe to establish a dividing line between male and female capacity, and say that women cannot cross it.—Bay City Tribune.

TIMELY QUIFS

How True.
In any event the movement to enlarge the alphabet and reconstruct the English language will give somebody something to occupy his mind with.—Cleveland Leader.

Hurry Up!
General Exhaustion seems to be very slow about reporting for duty upon European battle fronts.—Louisville Courier-Journal.

Trained.
Whether fully prepared for war or not the Turks ought to be thoroughly prepared for slaughter. They have been practicing on the Armenians for years.—Kansas City Journal.

Familiar.
The anti-anthrax toxin is said to have been a success, although the patient died from heart failure. It may be, but it sounds so like the familiar bulletin that the operation was successful, but the patient died.—Pittsburgh Dispatch.

Prediction.
Ex-President Taft thinks the cabinet members should be given a place on the floor of congress. It might be contended that they would be there largely for decorative purposes, but that impression would quickly pass away.—Cleveland Plain Dealer.

Itching Torture Stops
It is unnecessary for you to suffer from eczema, ringworm, rashes and similar skin troubles. A little Zemo, gotten at any drug store for 25c, or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively insect bites.

Zemo is a wonderful disappearing liquid and does not smart the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress.

Zemo, Cleveland.

EDITORIAL OPINION

A Divekeeper's Philosophy.
The police closed the Green Tree cabaret in New Orleans, a notorious resort, and found written in chalk on the bar this announcement:
"This has been called the most respectable place in New Orleans. No longer will I associate with the women and men who have frequented it. I lose all, but I will live among clean people and make my living honestly."
For his children's sake, many success and contentment come to him.

Greece Sets a High Price.
Greece wants Constantinople as the price of intervention in behalf of the allies. Cyprus is not enough. And if Greece cannot have Constantinople the Greeks prefer that the Turks should keep the Balkan nations.

The Beer Question.
Warden Thomas Mott Osborne, of Sing Sing, said in New York:
"Some people think every criminal is as degraded and besotted as the tramp to whom a woman said:
"Yes, my man, I will help you. First, though, one question—the beer question. Do you drink beer, or do not drink it?"
"Why, lady, I drink it, of course," said the tramp, with a puzzled look. "Did we think I squirted it into me arm wid a syringe?"

The Wrong Ticket.
A Tommy from leave from the front had been given a free railroad pass to take him home, and he utilized part of his brief holiday in getting married. On the return journey when the conductor asked to see his pass, he produced by accident his marriage license. The conductor handed the paper back to him.
"This is the ticket for a very long and tiresome journey, young man," he said gravely; "but not on this line."—Boston Transcript.

In Liquid Form.
Mrs. Casey (belongingly)—"Plavars yer werk's wages, an' the rint count' due tomorrow?"
Casey—"He aise, now, woman! Oi lost it too a hole."

Gentle Brocken.
Young man, an only son, married against the wishes of his parents. A short time afterward, in telling a friend how to break the news to them, he said:
"Start off by telling them that I am dead, and then gently work up to the climax."—Answers.

LOWER STATE NOTES

HOLLAND—Eugene Filipe, a Hope college student, secured a hunter's license went to Time Creek bay and spotted a flock of ducks. He fired six times in quick succession, killing ten and wounding five. Filipe was told by Hans Fisher, the owner, that he had killed his valuable flock of breeding ducks and that it would cost him about \$50.

TRAVERSE CITY—C. A. Huson and E. S. Wimetroub, of Chicago, have bought 45,000 lots fronting on the Abutyn, Dennis, Spider and Perch lakes in Mayfield township and are plating the property into summer resort lots which they plan to sell to Chicago, Cincinnati and Louisville people who come north to spend the summer. This is the largest real estate deal made here in years. In addition to the cottages that will be built in the spring a \$5,000 clubhouse will be constructed ready for next season's business.

HASTINGS—Falling from a tree from which he was shaking chestnuts for his brothers and sisters, Harold Messner, aged sixteen, of Hastings, sustained injuries which caused his death at his mother's home near Barryville. Harold had gone home to spend the day. The children had waited for him to set the chestnuts which were high up in the tree. He climbed twenty-five feet above the ground and a shower of nuts came down. The children's exclamations of joy changed to cries of terror when the limb broke and Harold crashed to the ground and lay motionless.

LANSING—Word reached Lansing from Detroit this week that Frederick C. Martindale, a starter in two primary campaigns for the Republican nomination for governor, is preparing to enter the contest again next year. While there is no official confirmation of this report many state house politicians are of the opinion that the former secretary of state would like to make a third attempt to land the nomination. In 1912 Martindale was defeated for the nomination by Amos Musselman of Grand Rapids and in the primary contest last year he finished second to Chase S. Osborn of the Soc.

LANSING—During the calendar year 1914 the Michigan railroad commission passed upon and authorized the issuance of securities on the part of corporations doing business in the state amounting to \$22,808,239, according to the report of the commission for the year 1914. The list of securities passed included stocks, bonds, notes and all other evidences of indebtedness and the sum was divided as follows: Steam and electric railways, \$20,104,000; light, gas, water and power companies, \$9,577,500; telephone companies, \$769,239; miscellaneous public utilities, not coming under any of the above three heads, \$458,500.

DETROIT—Distribution of a 600 per cent. stock dividend to shareholders of the Ford Motor company of Canada, equivalent at the present price of the stock to \$18,000,000, was recommended by the company's stockholders at their annual meeting in the general office of the company in Walkerville, Ont. This action closely follows payment of a 51 per cent. cash dividend, which was made by the company to its stockholders within the last two weeks. The annual stock dividend is recommended as a part of the plan approved by the stockholders for increasing the company's capital stock from \$1,000,000 to \$11,000,000. The plan contemplates the issue of 80,000,000 par value of new stock to the present shareholders, for which capital account will be compensated by the transfer of 80,000,000 from the company's surplus fund to capital stock. There are but 150 stockholders.

ABOUT POCAHONTAS.
Question to the student of lies the interesting question about John Smith is whether his life was or was not saved by Pocahontas. Upon that point he had the opportunity to tell a thrilling tale in his book, "The Indian Education," written in Virginia and published in England in 1808. Among his thrilling experiences he there describes a little excursion to the Chickahominy, where he falls in with hostile Indians, becomes the target for twenty or thirty arrows, and is captured by two hundred men only because he gets mixed in a swamp. Being brought before their Indian king, although Smith knows not a word of his language, he says, "I presented him with a compass dial, describing by my best means the use thereof, whereat he so amazingly admired, as he suffered me to proceed in a discourse of the roundness of the earth, the course of the sun, moon, stars and planets." Eventually he is brought before "their emperor," the great Opochan Congoh, commonly called Powhatan. Efforts are made to kill him by Indians whose relatives he has slain, but the guards save him in the course of time, after "describing to him the territories of Europe which was subject to our great king whose subject I was, the innumerable multitude of his ships, I have him to understand the noises of trumpets and terrible manner of fighting." Smith is then sent home with four men, one carrying his "Gonne and Kupaeske," while the other two were "loaded with bread."

Elsewhere in the book he mentions the Princess Pocahontas, daughter of Powhatan. This lady was a girl—perhaps twenty years old—and another contemporary, Strachey, tells curious tales of the maiden's fondness for turning cart-wheels through the streets of Jamestown. About the time Pocahontas married John Rolfe and went to England (1616), Smith published a little book in which he says:
"After some six weeks (elsewhere he makes it four weeks) fattening amongst these savage countries, at the minute of my execution, she hazarded the beating out of her own braines to save mine."

Then in 1624 Smith published another book, "The General History," in which his memory seems suddenly to have unburied, for he rewrites his narrative, adds a hundred to his earlier enumeration of two hundred adventures; additionally remembers that the Indians brought out a bag of gunpowder which they proposed to plant next spring; and is brought before Powhatan. With many new details he describes that potentate, and at last comes to the most exciting scene in the drama. You can see it all! The dusky Emperor, R. C. Princess Pocahontas, L. C.; the hero be-

for the footlights, bound but undaunted, his eyes flashing defiance.

"A long consultation was held, but the conclusion was two great stones were brought before Powhatan; then as many as could lay hands on him, dragged him to their advantage, held his head, and being ready with their clubs, to beat on his brains. Pocahontas, the king's dearest daughter, when no entreaty could prevail, got his head in her arms, and laid her own upon his to save him from death; whereas the emperor was contented he should live."

No sympathetic person would ask why the eye-witness and the chief person in this wondrous episode should have neglected for eight years to put it into his publications; or why it should have taken him sixteen years more to recall the affecting details. Professor Edward Channing implies John Smith on the barbed sentence. "The utter unreliability of Smith's account, entirely apart from the Pocahontas story." But why not be more trustful? Who knew more about his own adventures than John Smith? Why brand as a falsehood a tale which has entertained millions of young Americans? The proof is somewhat inferential. It seems certain that Smith was a contig; and if he was condemned to be brain-d instead of boiled, what more natural than that Pocahontas should have interposed her tender person between the uplifted club and the former favorite of Charazta Tragabigzanda? John Smith is a fact. Pocahontas is a fact, and we

Copper Country

FORMER MILL OWNER ALL IS IN READINESS AT ONTONAGON DEAD

Martin Rich, Who Sold to Diamond Match Co. in 1888 Passes at Age of Seventy-Four.

Milton E. Dickens of Houghton, was advised yesterday by wire of the death in Horizon, Wis., of his brother-in-law, Martin Rich, Mr. Rich will be recalled to old residents of the copper country as a member of the firm of Rich Bros., owners of the mill at Ontonagon that later became the property of the Diamond Match company. Mr. Rich moved to Horizon when he disposed of his interests in the match company. He was seventy-four years old at the time of his death.

Mr. Rich sold his interest in Ontonagon about 1888. Up to that time he had been for many years probably the most prominent and influential citizen of Ontonagon. He is remembered by old residents as a man of good qualities, business energy and genial disposition. In Wisconsin he was best known as an Odd Fellow and was up to the time of his death the oldest member of the order in that state. A short time ago when he celebrated the fiftieth anniversary of his initiation it was made the occasion for a big Odd Fellows banquet in Milwaukee.

TWINNS SEEKING A HOME.

Good Will Farm Has a Couple of Youngsters Anyone Could Love.

Mrs. Donaldson has on hand at Good Will Farm a Christmas present suitable for any home in which there are no children. Christmas brings to mind naturally the idea of children and Mrs. Donaldson thinks she has absolutely the perfect Christmas present for some childless man to give to his home. There presently is a pair of twins. There are at the farm, awaiting a home and father and mother love, a baby boy and girl, two years and four months old. They are pretty and jolly and healthy and bright. They are of American parentage. Mrs. Donaldson desires above all things that these babies be adopted into the same home so that they may not be separated.

The poor babies won't have a word to say about the matter. They have not communicated as yet their desires about anything, excepting food. But they have shed cheer around Good Will Farm, where babies are nothing new, and it is believed that they are just the thing to complete a home where, to say the least, a baby is a novelty.

"S-O-M-E Doughnut!"

"Any time you want real goodies use Calumet Baking Powder! My mother uses it—she's tried all others—she's learned her lesson—now she sticks to Calumet."

"Unequalled for making tender, wholesome, light bakings. Wonderful leavening and raising qualities—uniform results. Mother says Calumet is the most economical to buy—most economical use. Try it at once."

Received Highest Awards

THE CALUMET BAKING POWDER CO. CHICAGO

ALL IS IN READINESS FOR WRESTLING MEET

Cornish Style Bouts Will Be Put on at Colosseum Rink, at Calumet, Saturday.

Secretary John Bennetts of the Ambeck Athletic association, which will put on its second Cornish wrestling tournament at the Colosseum rink, Calumet, Saturday afternoon and evening of this week, yesterday announced that all entries have been received. The list includes the best known Cornish wrestlers in this part of the country, the Cornish champions, middleweight and heavyweight of Canada, claimant to the championship of South Africa and nearly all the copper country wrestlers who took part in the tournament at Ambeck on Labor day.

The biggest interest seems to center in the entry of Beecher Brunson of Manhattan, Charles Salotti of Laurium and Clarence Pope of Neagame, between which three, it is believed, the first honors of the tournament will lie.

Copper country wrestling fans fail to take into consideration, however, the fact that Joseph Martin, heavyweight champion of Canada, who wrestles at 200 pounds, may have something to say when it comes to settling first honors. Martin will wrestle on a par, some authorities believe, with Salotti, Pope and Brunson, as will Triggs of Skandia, Mich., who claims the South Africa championship.

Martin's brother, Herb Martin, middleweight champion of Canada, has also entered. The four Chapman brothers of Trimountain are in and Shorjian, the Armenian who was a strong runner-up in the Ambeck tournament, but is in better trim now, will take part. Herman Stoll states that he may not wrestle. Stoll is not in condition for the tournament.

The Entries.

The complete list of entries follows: Beecher Brunson, weight 220, Manhattan; Charles Salotti, 208, Laurium; Joseph Martin, 200, Cobalt, Ont.; Paul Arthur, 190, Trimountain; James H. Friggs, 220, Skandia; Albert Williams, 170, Ambeck; Clarence Pope, 170, Neagame; Frank Caphardt, 168, Painesdale; Steven Anderson, 160, Copper City; Frank Pellegrini, 155, Trimountain; Herb Martin, 158, Cobalt, Ont.; John Poshak, 158, Ambeck; John Sundberg, 154, Ambeck; John Mosking, 153, Ambeck; Charles Shorjian, 150, Mohegan; William Andrews, 146, Painesdale; Thomas Bennetts, 145, Painesdale; Harry Jeffery, 145, Trimountain; Basil O'Leary, 135, Copper City; John Petting, 143, Mohawk; Charles Hoar, 143, Ambeck; John Beaudoin, 145, Ambeck; Hans Hansen, 155, Trimountain; Charles Chapman, 140, Trimountain; Steven Bennett, 138, Trimountain; Thomas Chapman, 136, Trimountain; Walter Chapman, 135, Trimountain; Isaac Hiltunen, 138, Mohawk; George Kelley, 138, Hurontown; Jacob Kratt, Jr., 135, Trimountain.

The Officials.

Jack Rowett, claimant of the heavyweight championship of the world, has been named head stickler. The other two sticklers will be Louis Morgan of Calumet and Jeffery of Painesdale.

Prizes in the tournament will total \$370, divided as follows: \$150, \$110, \$90, \$40, \$20, \$25 and \$15. Wrestling is to start at 2:30 o'clock in the afternoon and will be continued until all standards and the finals have been wrestled off. The standard Red-path rules, published in the Gazette some time ago, will govern the tournament. No decision reached in a riding phase has been announced but the wrestlers generally seem to believe that bridging should be allowed and no fall given unless a man is thrown squarely upon at least three pins.

That there will be an even larger attendance at this tournament than at the Ambeck Labor day tournament seems assured. A large number will come from the towns along the south range, while Keweenaw will contribute heavily.

MORNING FOOTBALL MATCH.

Hancock and Houghton Students Given Chance to See Marquette-Calumet.

Hancock will present a strong lineup in the football team at the Driving park tomorrow morning. The game will be played in the morning because of the game at Calumet in the afternoon between the Marquette eleven and Calumet of the championship of the upper peninsula.

McGee will appear at tackle for the Hancock team in the morning match while Truscott will play one end. These players were substitutes and have been put in the line-up because of injuries received by Anthony and Schilling.

MISDEMEANOR CASE DISMISSED.

Acme Suit Club Gang Now Has But One Charge Against It.

In justice court in Calumet yesterday morning Prosecuting Attorney Galbraith dismissed the misdemeanor charge against the Acme suit club gang and the four are now held only on the circuit court charge of violating the gambling laws. They are still in jail in default of bail.

It is expected Mr. Galbraith will make a new complaint on the misdemeanor charge within a short time.

NONE SO GOOD AS CHAMBERLAIN'S.

"I consider Chamberlain's Cough Remedy the best medicine on the market for colds and coughs," Mrs. D. H. McDowell, Fort Wayne, Ind. Obtainable everywhere.

FOR CONSTIPATION.

When you want a pleasant laxative try Chamberlain's Tablets. They are mild and gentle and produce no gripping or other unpleasant effect. Obtainable everywhere.

UNIVERSITY ALUMNI ORGANIZE.

Hancock University of Michigan Men to Aid Union Fund.

Hancock alumni of the University of Michigan who attended the meeting in the high school Wednesday evening were enthusiastic for the organization of an association in that city. The association will endeavor to obtain from the university a fair share of the contributions for the million dollar clubhouse to be built at Ann Arbor.

Because most of those at the meeting Wednesday have not been to Ann Arbor for many years, the remarks of Arnold Ruthstrom, a recent graduate, were heard with interest. Mr. Ruthstrom told of inadequate facilities at the university for students, the club quarters being too small to accommodate more than a limited number of students.

The proposed association for Hancock will start with a membership of thirty-two. This number, however, does not include graduates from surrounding towns. The charter will be open to all towns in the county. The association hopes to raise \$300 this fall as its contribution for the clubhouse.

And it is not intended to allow the association to pass into history after this object has been obtained. John C. Condon, Dr. W. W. Kimmel and Superintendent of Schools H. D. Lee have been appointed to arrange for the banquet Nov. 9.

SONS OF THE REVOLUTION.

Initial Steps Taken Toward Organization of Houghton Chapter.

Because of the apparently considerable number of copper country residents with American Revolutionary ancestry it has been decided by those immediately interested to attempt the formation of a chapter of the Sons of the Revolution in the district, probably with headquarters in Houghton.

The original intention was to call a meeting of eligibles on those who might believe they can prove eligibility but as the number of known eligibles is small it has been decided to conduct this canvass by mail. A meeting of those interested enough to write a response to this suggestion will later be called.

The suggestion is that any man in the copper country who had an ancestor engaged in the army of the colonies during the Revolutionary war write to the secretary of the voluntary committee stating that fact. The letter should be addressed to Secretary, Sons of the Revolution, Box 323, Houghton, Mich. The number of responses will determine the practicability of attempting the organization of a chapter.

The object of the organizers is to have in the copper country a purely American patriotic society, one with American ancestry as its prime qualification for membership. There is now no such society. The G. A. R. and the Spanish War Veterans are patriotic societies but the qualifications do not imply American birth or ancestry.

LAKE AND RAIL DIVORCE.

Houghton Marine Man Discusses Its Effect on the Copper Country.

Recent Associated Press dispatches stated that the inter-state commerce commission has extended the time of the so-called divorce of the lake and rail transportation lines from Dec. 1 to Dec. 15. This ruling has made discussion of the divorce timely and a Houghton marine man yesterday started the discussion. He suggests that the businessmen of the copper country had better do something in the direction of protesting against the divorce, for their own interests. In so doing they would be following the example of commercial organizations at Duluth, Chicago, Buffalo, Detroit and other important lake ports.

The man who is being quoted declined to permit the use of his name as he fears there might be a suggestion of self-interest, though that element does not enter into it.

"The question of rates does not enter into this matter of divorcing the lake and rail lines," he said. "It appears simply to be a movement to prevent the railroads from enjoying a monopoly of the lake transportation business. The rates are now cut down to a point that will permit no further reduction, the lake and rail rate being just about one-half of the all-rail rate between two given points."

"The railroads operate these boat lines at a loss as far as the actual operation of the boats is concerned but the boats serve as feeders for the rail lines and thus are profitable indirectly."

"The manner in which the receivers of freights in the copper country would be affected would be in the quality of service. As it is now the copper country is served by three big steamer lines that are owned by railroads. The only independent line is the Port Huron and Duluth. These three lines are in competition for business. The result is better service, with no question of rate involved. If the inter-state commerce commission refuses to permit the railroads to own steamboats it seems inevitable that the result will be a single big steamboat line. There will be no competition and this means lower quality service."

"Should there be but one line it is natural that the single line will not go to the expense of running in to Portage lake with a small shipment, when it might just as well, from its point of view, wait another week or so till there is an accumulation of copper country freight."

"If anyone was suffering by reason of the union of rail and lake lines there could be no objection to the divorce. But there is no wrong done anyone by the present system and there is competition between the boats and the railroads. Copper country businessmen should make a protest against the divorce, for their own interest."

The steamer Martin Mullen of the Hutchison fleet arrived in port last night with 5,500 tons of coal for the Copper Range Consolidated. She is discharging this coal at the Copper Range dock. The arrival of the Mullen recalls memories of the man for whom she is named, Martin Mullen of Cleveland, who died in this city Wednesday. Mr. Mullen is mourned sincerely by many Houghton friends after the ship that bears his name will be to them today a mute reminder of a well loved old friend.

FIXES CIRCUIT COURT TERMS.

Judge O'Brien Makes But One Change in the Calendar.

An order fixing the time of holding court in the various counties of his circuit during the years 1916 and 1917. Only one change from the calendar for the past two years is made, the opening of the Houghton county September term being changed to the second Monday in September. The following is the calendar to be observed for the ensuing two years:

- Houghton County—Fourth Monday in January. First Monday in April. Second Monday in September. First Monday in November.
 - Beraga County—First Monday in January. Third Monday in August. Third Monday in October.
 - Keweenaw County—Third Monday in January. First Monday in June. Fourth Monday in August. Fourth Monday in October.
- Naturalization in Houghton county is set for the first Wednesday of each term, continuing, if necessary, on the following Thursday.
- In Beraga county the first day of January and May terms. In Keweenaw county the first day of the June and August terms.
- The judge yesterday opened the Ke-

WRIGLEY'S DOUBLEMINT CHWALING GUM

Yoo-Hoo!

Brighten your smile with the fragrant, toothsome contents of this air-tight, wax-wrapped WRIGLEY package. You're thirsty. Your appetite and digestion need it. Your teeth, tongue, throat and taster will welcome it. It absorbs mental as well as dental shocks.

It's the largest seller in the world, because its full, long-lasting flavors and its real Mexican chicle body are of WRIGLEY quality—the best that men, money and machines can produce.

WRIGLEY'S SPEARMINT and WRIGLEY'S DOUBLEMINT—different flavors

With each package is a United Profit-Sharing Coupon—you get valuable premiums. Vooly-voe? We! We! 517

Wecanaw county October term at Eagle River and next Monday he will open the November term of the Houghton county court.

The first day of the term will be devoted to the arrangement of the calendar, the second day to motions and Wednesday will be naturalization day. The remainder of the week will be taken up with various non-jury matters.

Henry Block, United States naturalization examiner, arrived in Houghton yesterday to prepare for the examination he will conduct before Judge O'Brien next Wednesday.

Mr. Block was pleased to learn on his arrival that a number of the public school systems of Houghton county are arranging to open night schools for the teaching of English to aliens, according to a suggestion made by his department through him on the occasion of his last visit.

He says that several upper peninsula school districts are considering this plan. A night school has been decided on for Ironwood and he believes Ishpening and Neagame are to do something in that direction. He hopes that other upper peninsula towns with large foreign-born populations will follow a similar course.

He does not expect that the plan will be taken up by such cities as Marquette and the Soo, which have no considerable foreign colonies.

YIELD CASH TO FIGHT.

South African Privates Sacrifice Good Positions—Now in England.

London, Oct. 28.—In the ranks of the South African contingent, now in a training camp in Hertfordshire, there are more men who have relinquished large salaries to serve the mother country as a shilling a day than in any other command of the size in the imperial army. One private before his enlistment drew a salary of more than \$25,000 a year as manager of one of the most important firms in the South African colony. Magistrates, well-to-do farmers and miners, civil servants of high position and even men who fought as officers in the campaign under Botha against German Southwest Africa, but had no commissions open to them in the new contingent, are in the ranks.

The South African contingent is filled with young Boers, as well as colonial whose British parents were pioneers in that world. Its motto, Fendrecht Markt Macht—union makes strength—is Dutch.

Cold weather affected the troops at first, after their work in the burning deserts of German Africa, but with warm clothing they rather prefer it, as they enjoy sharper appetites. The contingent will be sent to the front as soon as acclimated.

JAIL OPTION VIOLATORS.

Owosso Sleuths Nab Farmer City Treasurer and Wholesaler.

Owosso, Oct. 28.—Jay M. Matteson, former city treasurer and until recently a member of a local business firm, was sentenced to serve twenty days in the county jail and pay a fine of \$50 for violating the local option law.

Matteson had been running a motor-oms between here and Chesaning and police suspected him of bringing liquor back and disposing of it. They searched his motor car and found sixteen half pint bottles of whiskey. He was arrested and three hours later was serving his sentence. Matteson has a wife and child.

Judge Gilday, of Monroe, who sentenced Matteson, imposed the maximum sentence on James Pollak, of Chicago, for a similar offense, giving him six months in the workhouse and fining him \$130. Pollak acted as agent for a wholesale liquor house and had been selling whiskey here in gallon lots.

DEFIES DEATH TO DESTROY BALLOON

Paris, Oct. 28.—Sergeant Aviator "G. U." who recently destroyed a German captive balloon and an aeroplane on one trip, describes his double exploit in a letter received by friends at Fontenay Le-Comte, where he was a high school teacher.

He is now suffering by reason of the union of rail and lake lines there could be no objection to the divorce. But there is no wrong done anyone by the present system and there is competition between the boats and the railroads. Copper country businessmen should make a protest against the divorce, for their own interest."

The steamer Martin Mullen of the Hutchison fleet arrived in port last night with 5,500 tons of coal for the Copper Range Consolidated. She is discharging this coal at the Copper Range dock. The arrival of the Mullen recalls memories of the man for whom she is named, Martin Mullen of Cleveland, who died in this city Wednesday. Mr. Mullen is mourned sincerely by many Houghton friends after the ship that bears his name will be to them today a mute reminder of a well loved old friend.

IN STERLING LIVES A GIRL

Who Suffered As Many Girls Do—Tells How She Found Relief.

Sterling, Conn.—"I am a girl of 22 years and I used to faint away every month and was very weak. I was also bothered a lot with female weakness. I read your little book 'Wisdom for Women,' and I saw how others had been helped by Lydia E. Pinkham's Vegetable Compound, and decided to try it, and it has made me feel like a new girl and I am now relieved of all these troubles. I hope all young girls will get relief as I have. I never felt better in my life."—Mrs. JOHN TETREAULT, Box 116, Sterling, Conn.

Massena, N. Y.—"I have taken Lydia E. Pinkham's Vegetable Compound and I highly recommend it. If anyone wants to write to me I will gladly tell her about my case. I was certainly in a bad condition as my blood was all turning to water. I had pimples on my face and a bad color, and for five years I had been troubled with suppression. The doctors called it 'Anemia and Exhaustion,' and said I was all run down, but Lydia E. Pinkham's Vegetable Compound brought me out all right."—Miss LAVISA MYRES, Box 74, Massena, N. Y.

Young Girls, Heed This Advice. Girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound.

Somehow the torpedo boat destroyers do not seem to make an impressive figure in the present war.—Chattanooga Times.

DEATH OF JOHN RISSOMEN.

John Rissomen, a Tamarack trapper, erroneously reported yesterday as named Christenson, died yesterday morning in the Tamarack hospital as the result of injuries received in the mine on Tuesday.

Somehow the torpedo boat destroyers do not seem to make an impressive figure in the present war.—Chattanooga Times.

END INDIGESTION OR STOMACH PAIN IN FIVE MINUTES

"Pape's Diapepsin" Makes Sick, Sour, Gassy Stomachs Feel Fine.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eruptions of undigested food, no dizziness, bloating, tooth aches or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diapepsin will save them from any stomach misery.

Please, for your sake, get a large fifty-cent case of Pape's Diapepsin from any drug store and put your stomach's right. Don't keep on being miserable. Life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapepsin belongs in your home anyway. Should one of the family eat something which doesn't agree with him, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest, surest remedy known.

Pape's Diapepsin belongs in your home anyway. Should one of the family eat something which doesn't agree with him, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest, surest remedy known.

After your cold drive stop at **Stafford's Drug Store** for a cup of delicious hot coffee or chocolate. Just what you need for a "warmer."

Committee Overruled Chippewa County.

The record-breaking session of the board of supervisors came to a heated climax when, by a vote of 12 to 11, the board adopted a substitute report on equalization of the county tax rate. This report presented by Supervisor John A. Goetz, of DeTour, and prepared by him and several other disgruntled county members, who worked all night at their task, was substituted for the report submitted by the committee on equalization, appropriations and apportionment after a hot debate by the same vote, 12 to 11. Those who voted in favor of the adoption of the substitute report are: Supervisors Atkins, Bernier, Campbell, Curtis, A. Goetz, J. A. Goetz, Kemp, Kendrick, McEvoy, McMahon, Pollock, and Rainey. Those who went on record as opposed to the substituted report are: Supervisors Aldrich, Baker, Eaton, Handy, Kirvan, Laid, Lapsis, Parker, Rinley, Runnels and Field. That the board may have to convene in extra session because of the acceptance of a majority of one of the substitute reports is probable if a certain unnamed member makes good his threat to call an investigation by the state tax commission. Just before the final vote was taken Supervisor Handy moved that the matter be deferred for one week, and that the board convene in the presence of the state tax commissioners, and attempt to thresh the

The Civic and Commercial association, urging that the contract for the second section of the Pickford road be not let, but that the money which said section would cost be expended otherwise, for immediate improvements on other sections, was received and placed on file, no action being taken as the contract for the second section of the Pickford road has been let to A. T. Bound. An opinion from the prosecuting attorney, relative to the legality of releasing A. T. Bound from his bid on the Pickford road work, was received. The opinion stated that it was a matter for the discretion of the board, but that because of the extenuating circumstances, he would urge careful consideration, although he could see no way whereby Bound could be legally released. On motion of Supervisor McEvoy, it was declared the sense of the board that Bound either enter into a contract to complete the work at the stated figure, \$47,000, or forfeit his deposit of \$2,600.

Taxes Show Increase.

The amount of taxes levied for all purposes in Delta county for the year 1915 exceed last year's levies by \$111,163.10. These figures were made public by County Clerk A. J. Pepin, who has just completed a tabulation of taxes levied the present year. The amount of taxes levied in this county in 1914, including state, county, city, township school, roads and for every other purpose, was \$313,333.58. This year the total of tax levies in the county amounted to \$424,496.68. The total assessed valuation of the county in 1914 was \$10,444,068, while the assessed valuation for the present year is \$10,788,098. Or on an increased valuation of \$344,030 taxes in the county are increased \$111,163.10.

Open Air School.

Definite steps have been taken by members of the Escanaba Woman's club to establish an open air school room for delicate school children. All efforts of the club members for the next year are to be directed toward that object. The need for such an adjunct to the public schools is regarded by the club members as imperative, as at the present time children of delicate health are quartered with robust youngsters in the schools, to the detriment of both those who are well and those who are not strong physically. In other cities the open air school room plan has been carried out with marked success. Plans for the establishment of the open air schoolroom were discussed at the first business meeting of the club of the season at the Pythian Temple and with a large part of the club membership present. Mrs. C. M. Frost, delegate from the local club to the annual convention of the State Federation of Women's clubs, held recently at Lansing, read an interesting paper on the work of the state meeting, before the local members.

WANTED

A local store wants the services of a red-headed woman who is ambitious to learn the work in a modern ready-to-wear garment store. The position affords rapid advancement to the right person. Address letter to 1-2-3, Mining Journal, 10-29-15

City Brevities

Today's weather: Fair. Yesterday's temperatures: Seven a. m., 49 degrees; noon, 58; 7 p. m., 46; highest, 59; lowest, 33.

St. Paul's Guild will not meet this afternoon.

Dr. I. Sietto, of Michigan, spent yesterday in this city.

Fred H. Berg, of Ishpeming, was a visitor to Marquette yesterday.

John Klapperich, of Superior, was a visitor here yesterday for the day.

The Baptist Aid society will meet at the church parlors this afternoon at 3 o'clock.

A ten-pound baby girl was born to Mr. and Mrs. John McCarthy early this morning.

Miss Katherine Shortall left yesterday for Chicago, after visiting at the Huron Mountain club.

P. B. Spear will leave for Houghton today, and will attend the Marquette-Calumet game at Calumet tomorrow.

Miss Margaret Comers arrived home yesterday morning, after a two weeks' visit with friends at Superior and Duluth.

Mrs. John E. Stranberg, of Chatham, has returned to her home after visiting with Mrs. Tielander, of the Merchants' hotel for a few days.

Owing to repairs to the car track, for the next two or three days, street cars will not run beyond Front and Main streets, opposite the South Shore depot.

The Mining Journal has a bunch of keys picked up on the street, which the owner may have by calling. There are on the ring three keys, a corkscrew and a beer opener, from which Sherlock would doubtless deduce that the owner is a fisherman.

INSURE WITH PETER WHITE & CO. SUFFRAGE PICTURE TODAY.

"Your Girl and Mine" at the Delft Theatre and Evening.

"Your Girl and Mine," a seven reel equal suffrage photoplay, will be the attraction this afternoon and evening at the Delft. The picture will be presented under patronage of the Women's Welfare club, which has bought out the house for this afternoon, when it will have as its guests women from Ishpeming and Negaunee and other parts of the county. The afternoon presentation will be preceded by a few words of welcome to these guests by Mrs. A. T. Roberts, president of the club. This evening general admissions will be sold for "Your Girl and Mine." For the matinee today the seats are reserved for holders of tickets purchased from the Women's Welfare club.

The Chicago News comments as follows on "Your Girl and Mine": "It was produced by the Selig Polyscope company from the manuscript of Gibson Wilets for Mrs. Medill McCormick, chairman of the congressional committee of the National American Woman's Suffrage association. "The husband in the unhappy family concerned in the play is an impetuous and unscrupulous individual who constantly extorts money from his scantily wife. When she threatens to deprive him of further allowances he justifies his demands by pointing to the law which makes the wife's possessions the husband's property. "This state of affairs continues for years. Meanwhile the young wife's aunt's promulgating the gospel of woman's rights. In spite of her persecutions the wife refuses to embrace the cause of equal suffrage. Although jeered and laughed at Aunt Jane continues untiringly to urge the advantages of 'votes for women.' "Even after the husband is killed through his own folly his widow suffers many tribulations caused by an injustice in his will, the husband has appointed his father guardian of their two children and not until after the mother has experienced considerable mental agony does she succeed in retaining possession of her off-spring. "Through the efforts of Aunt Jane, a woman doctor is called in one of the children becomes ill and later she engages a woman lawyer to fight the unjust clause in the husband's will and finally Aunt Jane succeeds in winning over the suffering wife to the cause of suffrage. "Photographically this motion picture has especially fine features. By a special dissolving process whereby a character is made to appear and disappear gradually, two women symbolizing 'suffrage' and 'justice' appear in certain scenes. Abraham Lincoln also is portrayed delivering his address on the equality of man and woman."

Commission to Visit Delta.

Members of the state tax commission will convene in Escanaba tomorrow morning, to review the assessed valuation of all property in Delta county. Summons were received by Sheriff Andrew Iverson to be served on all of the supervisors of the county, requiring every member of the board to be present before the tax commission, when that body convenes here. Each supervisor will be required to appear before the commission with the assessment roll for his township, ward or city and to submit to an examination as to the assessed valuation of all property in this township, ward or city. Simultaneously with the reconvening of the county board the tax commission will open a session at the court house in Escanaba and it is probable that the members of the board of supervisors will be required to remain in the city until all of the work of the commission has been completed. As it is probable that the assessments in every township and city of the county will be reviewed by the commission, the session is likely to continue through several days. An appeal to the tax commission for a review of property valuations fixed in the county by the board of supervisors at their recent October session was made by Supervisor Carl P. Mason of Gladstone, following the action of the board in adding \$82,500 to the assessed valuation of the city of Gladstone, over the figures presented to the board by the Gladstone board of review.

Will Seek Mandamus.

The mandamus action of the dries to attempt to force the county board of supervisors to act favorably upon the petitions for a local option vote in Menominee county in the spring will probably be filed with County Clerk Carl A. Anderson as clerk of circuit court within a few days. Edwin Rowden, of Lansing, one of the attorneys employed by the Michigan Anti-Saloon league, who was here for several days preparing his material for the court action, returned to the state capital with the material he had gathered. Mr. Rowden, together with some of the local men interested in the battle on the side of the dries, went over the proceedings of the county board and over the petitions that were turned down by the board preparatory to asking Circuit Judge R. C. Flannigan to compel the supervisors to put the question before the people. The fact that the mandamus action is contemplated is taken as evidence that there will be no new local option petitions circulated before the supervisors meet again on Dec. 16. Following the unfavorable action on the dry petitions and the adjournment of the board it was rumored that the option forces were planning to circulate new petitions and present them to the supervisors. The supervisors turned down the petitions after receiving information from the attorney general's office that the petitions could be held invalid if on their face they showed that more than one petition had been circulated in one voting precinct.

Upper Peninsula

Had to Pay Costs.

Victor Hamilton, who was arraigned before Judge C. D. McEwen, in police court at Escanaba, on a charge of failing properly to support his family, had a lot of wind taken out of his sails. He appeared in court to announce that differences with his family had been patched up and that there was no further necessity of holding the case on the calendar. He appeared considerably surprised and somewhat incensed to learn that costs amounting to \$10 must be paid by him, but after the court had given him until 4 o'clock to settle he grew more docile and finally paid the amount.

Was Supt. of Menominee Water Plant.

James J. Campbell, for thirty years connected with the Menominee Water company and for eighteen years superintendent, died at his home at 1002 Main street. Death came at the end of a two weeks' illness with typhoid fever. He had been critically ill for several days, but was reported better on Tuesday. James J. Campbell was born on his father's farm in Bay Settlement, Wis., on Oct. 28, 1860, and was the fourth son in a family of eleven children. He was graduated from the country grade school near his home and worked on his father's farm until he was twenty years of age. In 1889 he moved to Menominee and worked as a machinist under Andrew Gram in what was then the Ludington-Wells company. In 1884 the Menominee Water company was organized and in 1885, when the plant began operations, Mr. Campbell began what proved to be a continuous service of thirty years for the corporation. He moved rapidly up the line of promotion and in March 1897 he was named superintendent of the water company, succeeding George E. Wilde, a position which he held up until the time of his death.

Commission to Visit Delta.

Members of the state tax commission will convene in Escanaba tomorrow morning, to review the assessed valuation of all property in Delta county. Summons were received by Sheriff Andrew Iverson to be served on all of the supervisors of the county, requiring every member of the board to be present before the tax commission, when that body convenes here. Each supervisor will be required to appear before the commission with the assessment roll for his township, ward or city and to submit to an examination as to the assessed valuation of all property in this township, ward or city. Simultaneously with the reconvening of the county board the tax commission will open a session at the court house in Escanaba and it is probable that the members of the board of supervisors will be required to remain in the city until all of the work of the commission has been completed. As it is probable that the assessments in every township and city of the county will be reviewed by the commission, the session is likely to continue through several days. An appeal to the tax commission for a review of property valuations fixed in the county by the board of supervisors at their recent October session was made by Supervisor Carl P. Mason of Gladstone, following the action of the board in adding \$82,500 to the assessed valuation of the city of Gladstone, over the figures presented to the board by the Gladstone board of review.

No one has ever been worse off for keeping money here. Hundreds have been worse off for not having done so.

Markets

FOREIGN AFFAIRS AGAIN TAKE GREAT PROMINENCE IN THE NEW YORK MARKET

New York, Oct. 28.—Foreign affairs asserted some of their former prominence today, the fall of the French ministry being attended by further vague peace rumors and consequent severe declines in many of the so-called war stocks.

Refusal of the British government to extend the time for submitting proofs of American purchases of German goods offered another phase of the complicated conditions across the water.

Prices led the late rise, the common advancing almost four points to 43 1/2, its highest price of recent years. Anaconda copper added to its previous high record, gaining 1 1/2 to 79 1/2.

BOSTON COPPERS.

Boston, Mass., Aug. 28.—The Boston coppers opened strong. They sagged off a bit in sympathy with New York around noon, but showed great strength before the close.

COUGHED CONTINUALLY

Day and Night—Man Says Nothing Helped But Vinol.

That statement does not surprise us. We have told the people of Marquette many times during the last ten years that Vinol is the greatest remedy for chronic coughs and colds that we ever sold.

"I took a heavy cold which settled into a chronic cough. It seemed as though I coughed continually day and night, so I could not sleep. I was all run-down and so weak I could hardly keep about."

"I took a heavy cold which settled into a chronic cough. It seemed as though I coughed continually day and night, so I could not sleep. I was all run-down and so weak I could hardly keep about."

MACEDONIA COMPLETELY IN BULGARIAN HANDS

So Say Advisers from Sofia, Which Also State These Forces Are Fighting Serbs.

Sofia, Oct. 28, via London, Oct. 29.—The occupation of southern Macedonia is an accomplished fact, according to advisers received there. South of the Vranja-Katchania line the Bulgarians, reports say, either have established their authority or the Macedonians, who have risen against the Serbians, have installed their own local government subject to the approval of the authorities.

Macedonian volunteers are fighting with the regular army, 32,000. The advance of the Bulgarian troops has been due to the comparatively weak Serbian forces they have met and the assistance given them by Macedonians, according to reports from reliable sources, which add that only a few hill mountain roads through Montenegro now connect Serbia with the outside world.

The Austro-German advance is being impeded by bad roads. Since the beginning of their offensive there have been only three days on which no rain has fallen. The mountain plateaus are already deeply covered with snow.

\$2,000,000 FIRE SAID TO BE INCENDIARY

Pier of Steamship Company at Seattle Destroyed—Two Previous Attempts Made.

Seattle, Wash., Oct. 28.—Fire, supposedly incendiary in origin, tonight destroyed pier 14 at the foot of Second street, occupied by Dowell & Co. Ltd., agents for the Blue Funnel line of British steamers, with much valuable merchandise, with a loss that probably will exceed a half a million dollars.

Two deliberate attempts to destroy pier 14 by fire were made early last Tuesday, when a fire of 32,000 lbs. of highly inflammable rattle stacked on top of rolls of white paper which occupied a floor space of fifty square feet.

BIG NATIONAL ISSUES ARE NOT FOR POLITICS

Administration, McAdoo Says, Aims to Bar Parties from Fundamental Questions.

Helena, Mont., Oct. 28.—Efforts of the administration at Washington to prevent certain fundamental questions, such as the tariff, from being "battledoor and shuttlecock party politics" were discussed here today by Secretary of the Treasury William G. McAdoo at a breakfast tendered him by state officials and prominent citizens of Montana.

"We are trying," said Mr. McAdoo, "to take certain fundamental questions out of politics so that they may not be party questions in the future as they have been in the past. Among them is the tariff.

IMMIGRATION OFFICIALS GET CHINESE STOWAWAYS HIDING ABOARD STEAMER

San Francisco, Oct. 28.—United States immigration inspectors raided the Pacific Mail steamer Mongolia early today and captured eighty-six Chinese stowaways, who arrived aboard the steamer from the Orient on its last trans-Pacific voyage.

The raid was made on advice from Washington that the Mongolia was "alive with stowaways." The stowaways will be sent back at the expense of the steamship company.

ABOUT 300,000 BABIES DIE BEFORE ONE YEAR

The Census Bureau estimates that 300,000 babies died in this country last year before the age of one year, and it is stated that one-half of these deaths were needless if all mothers were strong and infants were breast-fed.

Expectant mothers should strive to increase their strength with the strength-building fats in Scott's Emulsion which improves the blood, suppresses nervousness, aids the quality of milk, and feeds the very life cells.

Physicians prescribe Scott's Emulsion; it is doubly important during nursing. No alcohol. Every druggist has it. Insist on Scott's—the white-food medicine. No advanced prices.

BRITISH TOMMIES PRAISE THE GUNS

Since Battle of Loos They Have Been Telling of Great Bombardment.

British Headquarters, France, Oct. 10.—(Correspondence of the Associated Press).—Since the taking of Loos all the army is singing the praises of the guns and the planes. No such bombardment had ever been heard on the British front as that which preceded the attack.

There seemed no intervals between the report of the guns, not even those of the beat of a snail drum. The roar had the power and continuity of Niagara Falls. House windows in the surrounding country kept up a continuous rattle.

It is the sweetest sound in the world to the soldier, the sound of the retreat from Mons. "It means you will get into the German trench and have a fair fight of it and you won't charge into the play of the machine guns or be hung up in the barbed wire."

As morning approached after the night of bombardment, officers on the British front were looking at their wrist watches. In front of Loos the figure six marking the half hour—half past six—was the goal of the creeping minute hand.

At that moment waves of men rose from the first line British trenches, and the volume of shell-fire was lifted from the first line German to the second line as the stream from a hose is lifted from one flower bed to another.

With the first flush of dawn the birds of war had come from their aerodromes, the shells from the planes were all that the onlooker might see.

"I should think that we had eight planes that day to one of the Germans," said an aviator. "We had concentrated planes as well as guns."

Paris, Oct. 10.—(Correspondence of the Associated Press).—The Franco-American flying corps is issuing a circular in which it describes the objects of the corps, which are to assist France and to train Americans in military aviation for possible service in the American army should the occasion arise.

"What was the spirit that moved these young American citizens to cross the ocean and volunteer as French aviators?" says the pamphlet. "As one of them said 'we wished to return the compliment which Lafayette and Rochambeau paid to us, we wanted to belong to that fine and sportsmanlike institution, the French Aviation corps, and we felt that Americans ought to help a republic that was in a contest where the liberty of all nations was at stake.'"

The first American volunteers were Elliot Cowdin, James J. Bach, Frazier Curtis, H. G. Gerin, Bert Hall, D. S. Masson, Norman Prince, Andrew Ruel, and William Thaw. They were trained in one of the first aviation schools in France, that at Pau.

The second class uses a thirty-five horse-power penguin also not sufficiently strong to rise into the air. Then a machine is given the pupil in which he can scarcely leave the earth.

If he does rise he skims along in straight lines. The fourth class is entrusted with straight line flying on a six-cylinder machine capable of rising about a hundred feet. The fifth contingent practices turning in an aerodrome, so that pupils become thoroughly experienced in wheeling to right or left.

The sixth division undertakes larger circuits at greater heights on fifty horse-power machines. Cross country flying and spiral ascents to a height of 500 yards are the exercises of the seventh class.

When all of these courses have been completed, the pupils are given a final examination. The first class is given a thirty-five horse-power penguin also not sufficiently strong to rise into the air. Then a machine is given the pupil in which he can scarcely leave the earth.

Occasionally a plane was observed to slip down like a hawk which had loosed a fish in the water. At all hazards that intertidal aviator was going to identify the shell-bursts of the batteries which he reported.

The first thing was to hold what was taken in this advance. All the labor of turning the wrecked German into British trenches, of making new dug-outs, traverses and parapets and laying out barbed-wire had to be done before the German concentrating swept back in counter-attack, which was expected and which came.

At that moment waves of men rose from the first line British trenches, and the volume of shell-fire was lifted from the first line German to the second line as the stream from a hose is lifted from one flower bed to another.

With the first flush of dawn the birds of war had come from their aerodromes, the shells from the planes were all that the onlooker might see.

**WANT CLOSED SEASON
TO SAVE PARTRIDGE**

Negaunee Sportsmen Favor a
Year at Least—Rain Killed
Birds.

Negaunee sportsmen are vigorously urging a closed season on partridge for at least one year. The step is advisable, they say, because of the inroads made on the game by the unfavorable weather conditions of the past few months. The hatch of partridge was nearly as large as usual last spring, but during the latter part of June and all through July and August the prolonged rains, northwest storms and cold weather killed large numbers of the young birds. Old time woodsmen report that 90 per cent. of this year's hatch was lost. In the more remote sections, where game is usually plentiful, partridge are scarce, widely scattered and wild. Most of them are the old birds.

The small wild animals, such as weasel, mink and skunk, levy a heavy toll on partridge. Wildcats, fox, owls and hawks also prey on the birds, especially during the winter months when the snow protects the field mice on which the fox and owls live chiefly when there is no snow.

Partridge are scarcer now than they were at the close of last deer season, when all of the hunting was over. After the hunters are through the remaining partridge must stand the test of the winter. There will be few birds left when the nesting time comes in the spring.

It has been suggested that the state game commissioners be given the power to put a closed season on any protected bird or animal, after a hard breeding period, without recourse to the legislature.

PREPARED FOR HALLOWE'EEN.

Officers Will Keep Sharp Lookout for Those Who Damage Property.

Marshal Newcombe has instructed the police to be on the watch tonight and tomorrow night for Halloween celebrators who damage property. Last year the officers permitted boys and girls to enjoy innocent fun, but their good will was taken advantage of by a number. Much damage was done to property and several arrests were made. This year the marshal has appointed a number of special policemen who will be on duty in plain clothes, in all parts of the city.

The rubbing of soap, candles and other dirt upon the windows in the business section of the city will be prohibited. The police have adopted a unique form of punishment for the boys and girls who are caught marking windows with soap and tallow. They will be formed into a window washing club, and with a policeman in attendance will be required to wash every window that is marked in the block where the offense occurred.

theater this afternoon, when the moving picture entitled "Your Girl and Mine," will be shown. A large number plan to attend.

The postal department has provided the Ishpeming postoffice with a specially constructed cart for the delivery of parcel-post packages.

Rev. A. C. Smith, who spent the last several weeks in the city visiting his son, Dr. H. S. Smith, and family, has left for his home in Jamesville, Wis. He was accompanied by his grandson, Colton Smith, who will visit there. The boy is recovering from a severe attack of scarlet fever.

Bricklayers are making rapid progress on "Amen Bros." creamery building, on Ely street, which is being erected by J. S. Wahlman. Good headway is also being made on the Knights of Pythias building, on Division street, where Contractor King started bricklayers to work Monday.

The manager of the Stambaugh football team, which is to play the Ishpeming City eleven here Sunday for the championship of the upper peninsula, has sent word that they will be accompanied by from seven to one hundred rosters. They will arrive on the St. Paul train at 10:10.

Dr. Paul Johnson, son of E. A. Johnson of this city, who has had dental parlors in Iron Mountain the last few years, and Miss Henrietta Alexandria of Crystal Falls. The wedding was attended by Dr. Johnson's mother and brother-in-law, Dr. Walter Coveau, and Mrs. Coveau who made the trip to the range in Dr. Coveau's car.

The Ishpeming telephone operators, who gave a dancing party Tuesday evening in the Anderson hall, have received much praise for the manner in which the party was conducted. The hall was very prettily decorated and everyone had a good time. There were very few of the "new" dances on the program. The girls plan to give a party once a year, hereafter.

The fall mission meetings of the Mission church, corner Third and Bank streets, will begin tonight, at 7:30 o'clock, and continue with meetings Saturday, at 2:30 and 7:30 p. m.; and Sunday, at 10:30 a. m. and 7 o'clock in the evening. Rev. Isak Hoyem, of Gladstone, and Rev. Karl A. Johnson, of Ironwood, will preach at these meetings. All Scandinavians are welcome.

Earl Charles, the six-year-old son of George W. Bell, the well-known merchant tailor, died yesterday afternoon at 1 o'clock from scarlet fever, from which he had been a sufferer for the past three weeks. The funeral will be held this afternoon, at 2:30 o'clock, from the home, and only the immediate relatives will attend. Rev. N. C. Karr, pastor of the First Methodist Episcopal church, will officiate.

Telephone operators in Egypt are required to speak English, French, Italian, Greek and Arabic.

DEATH OF MRS. WILLIAMS.

Pioneer Resident of Negaunee Dies of Pneumonia at Age of Seventy-Four.

Mrs. Lucy Williams died at 5:30 yesterday afternoon at her home on Teal Lake avenue. Mrs. Williams had been ill since Sunday, although she was able to attend church on Sunday evening. She contracted bronchitis, which later developed into pneumonia, and despite the fact that her health had been failing for five years, her death was sudden. She was seventy-four years old, and a pioneer resident of Negaunee, having come here forty-five years ago. She is survived by one daughter, Mrs. John Ellis, of Gwinn, Mich., who was with her when she died, and three sons, Arthur Lampson, of Negaunee, Charles Lampson, of Duluth, George Lampson, of Two Rivers, Wis., and one brother, James Holcomb, of Ionia, Mich. Funeral arrangements will be made in the receipt of word from her relatives.

BARASA WITNESS.

Former Negaunee Man Will Be Called In Barrel Murder Case.

Negaunee friends of Attorney Barasa, of Chicago, are watching with interest the outcome of "the barrel murder" which has been extensively written up in the Chicago papers the past few days. While Mr. Barasa is not one of the attorneys, he will be one of the most important witnesses, as his business card, found in the murdered man's pocket, was the means by which he was identified by the Chicago police.

LOCAL LACONICS.

Charles Taylor was a business visitor yesterday, at Marquette.

A dance will be given Saturday evening at the Labor temple.

John J. Wentela was a business visitor yesterday at Marquette.

A. A. Miller, of Calumet, spent yesterday in the city, on business.

A daughter has been born to Mr. and Mrs. Oscar Johnson, Main street.

A. C. Seass has returned from Little Lake, where he spent several days at his camp.

Mr. and Mrs. Gust Anderson were the guests of Marquette relatives and friends yesterday.

William Block and Charles Deidrich, of Michigan, were Negaunee visitors yesterday afternoon.

Al Willman arrived home yesterday morning from Wausau, Wis., where he spent the past two weeks.

R. S. Arehildahl arrived home yesterday morning from Iron Mountain, where he spent a few days on business.

J. D. Ireland, an official of the M. A. Hanna company, with headquarters at Duluth, was in the city yesterday, on business.

Mrs. Robert W. Cleminson, of Michigan, was the guest at the home of her brother, George Feigel and family, yesterday.

Mrs. Delia Rice and son, Lemere, of Marquette, arrived home yesterday, to spend a few weeks visiting with relatives and friends.

Miss Sallie Garbolino and John Frezilo, well-known Negaunee Italian residents, were united in marriage yesterday afternoon by a local justice.

Negaunee members of the Order of Owls have been invited to attend the sixth annual Halloween party to be given by the Ishpeming Nest tomorrow evening at Anderson's hall. Music will be furnished by Jaedecke's orchestra and the admission will be fifty cents a couple.

William Robinson, of Munising, accompanied by a party of friends, passed through the city yesterday in the former's automobile, enroute to Duluth, where they will spend a few days visiting. The car was stalled Wednesday night in the woods several miles from Marquette, because of a broken axle.

The condition of John Stewart, who has been seriously ill at his home on Teal Lake avenue for the past several days, was reported as being much more favorable yesterday than it had been for the past few days. Mr. Stewart is one of Negaunee's oldest residents and is well-known throughout the upper peninsula.

Dr. A. W. Haidle will depart this afternoon for Ann Arbor, where he will spend a week in attendance at the regular meeting of the Michigan State

COMFORTING WORDS.

Many a Marquette Household Will Find Them So.

To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove comforting words to hundreds of Marquette readers.

Mrs. D. M. Parker, 615 Division St., Marquette, says: "My back ached most all the time. When I got up in the morning, I felt tired and all worn-out. When I tried to straighten after stooping, sharp pains darted through my sides. One of my friends advised me to try Doan's Kidney Pills and I did, although I had taken other kidney medicine without benefit. Doan's Kidney Pills greatly relieved me."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Parker had. Foster-Milburn Co., Props., Buffalo, N. Y.

BANQUET GIVEN AT GUILD HALL

Spread of Potato Growers' Association Last Night Is Well-Attended—Speakers Enthusiastic Over Success of Exhibit—F. H. Vandenberg Is Toastmaster.

Marquette County Makes Good Showing in Prize Exhibits—Agricultural Experts Declare This Year's Stock Superior to Last Year—Awards Announced

With an attendance that taxed the capacity of the hall to the utmost the annual banquet of the Potato Growers' Association last night proved an even greater success than was anticipated.

The banquet was held in Guild Hall, starting at 6:30, and the sumptuous spread, included roast turkey, prize-winning potatoes, and all the other delectable side-dishes.

Prize Winners Announced. The complete list of the prize winners announced last evening, immediately before the banquet, showed that Marquette county had fared better in the exhibit than was expected.

- Class One.—Rural.—First—Peter Westman, Daggett, Menominee. Second—Chas. Salensky, Marquette. Third—Wm. Christenson, Menominee. Green Mountain.—First—Clifford Bourdeau, Marquette. Second—Soren Miller, Sandus, Marquette. Third—A. J. Menhemick, Marquette. Barabanks.—First—E. E. Stenbricker, Swanson, Menominee. Second—A. W. Thompson, Vulcan, Dickinson. Third—A. W. Thompson, Vulcan, Dickinson. Irish Cobblers.—First—Chas. Salensky, Menominee. Second—George Basal, Marquette. Third—Northland Orchard company, Marquette. Early Ohio.—First—Joseph Huffin, Stephenson, Menominee. Second—W. E. Wickert, Escanaba. Third—F. W. Miller, Manistique. County Potato Association.—First—Marquette County Potato association. Second—Iron County Potato association. Third—Dickinson County Potato association. Seed Potato.—First—Peter Westman, Daggett, Menominee. Second—Hjalmar C. Olson, Ironwood, Gogebic. Third—Northern Orchard company, Marquette. Best Graded Table Stock.—First—Jens P. Peterson, Iron River, Iron. Second—Clifford Bourdeau, Marquette. Third—Chas. Salensky, Menominee. Boys and Girls Club.—First—Iron Mountain Boys and Girls club, Dickinson. Second—Loretta Boys and Girls club, Dickinson. Third—Fehl Boys and Girls club, Dickinson. Sweep Stake.—Peter Westman, Daggett, Menominee.—Potatoes in Containers.—Chas. Salensky, Menominee. (To consumer direct).

Splendid Exhibits. Five hundred exhibits, all of them magnificent specimens of their respective types, made the task of the judges particularly difficult. The potatoes are arranged in half-bushel containers and the superb display has been a source of surprise to many of the on-lookers, who have been accustomed to think of tubers as anything but beautiful.

Potato Diseases Discussed. Another exhibit of diseased potatoes forms an interesting educational display. Tubers are shown with rhizoctonia, late blight, black leg rot, black scurf, and other diseases. These diseases formed the subject of an illuminating address yesterday after-

noon by Prof. G. H. Coons, the plant pathology expert of East Lansing. The speaker made the astounding statement that the loss due to these diseases amounts to \$3,000,000 or \$6,000,000 per year in this state.

Better Specimens This Year. The potato congress this year, the experts declare, is far ahead of the similar affair last year at Menominee. In spite of the poorer climatic conditions, which should normally result in a poorer stock, the specimens show a far superior development.

ENGINEER COOK DIES WITH CHEST CRUSHED. Veteran Railroad Man Squeezed Between Locomotive Tender and Ore-car.

Wesley Cook, the veteran L. S. & I. engineer, with his chest crushed by being pinioned between the tender of his locomotive and the car to which it was coupled by means of a chain, died yesterday afternoon at St. Luke's hospital, within two hours after the accident occurred.
