

FRENCH CAPTURE 18 MILE RIDGE

CHEMIN-DES-DAMES AND 6,000 MEN FALL TO NIVELLE'S ARMY AFTER BITTER FIGHTING

(BULLETIN) PARIS, May 6.—Every gain scored by the French in yesterday's brilliant advance, northeast of Soissons, was maintained against numerous heavy counter-attacks last night, the war office announced today. Consolidation of this ground has made them masters of most of the ridge crowned by the Chemin-des-Dames, along a front of more than eighteen miles.

This morning nearly thirty kilometers of the Chemin-des-Dames were in French hands. The correspondent, while on his way to the battlefield, visited the abandoned Fort Coude, from which Soissons was formerly bombarded almost daily by the Germans. Before they were forced out, the Germans exploded forty tons of powder in an effort to destroy the structure and laid mines and traps for the French. One electric fuse was found, but German prisoners informed the French that it was only a dummy and intended to blow-up any one entering the fort.

The Germans have hurled counter-attacks after counter-attacks against the French forces in their newly acquired positions northeast of Soissons, taken in their advance toward Laon, and eastward along the Chemin-des-Dames, but their efforts were useless. General Nivelle's men clung tenaciously to them throughout Saturday night and Sunday and inflicted heavy casualties on the Germans. The greater portion of the eighteen mile front has been consolidated and as a result of the two days fighting 6,000 Germans have been taken prisoners.

Not content with Saturday's gains northeast of Soissons, the French Sunday enlarged their holdings by capturing, in isolated operations, important German points of support north of the Moulins-de-Laffaux and north of Graye-en-Laonnois.

PETROGRAD SEES NEW ATTACK.

Petrograd, May 6, via London, 2:50 p. m.—Petrograd is again warned of an impending German attack upon it by way of Libau, in an army order which directs the disposition of forces to resist such an attack. The warning was given by General Korniloff, commanding the troops in the Petrograd district, who, in his order of the day, says: "We have received reports that the enemy is concentrating large forces against our northern front. German merchantmen are at Libau, ready, as soon as the ice has melted, to embark troops and, under cover of the German fleet, to carry out a landing which may possibly be made quite close to Petrograd."

OVER-TAKE GERMAN ARTILLERY.

The French troops advanced so rapidly that some of the German artillery could not be removed and was captured, together with some of their field artillery. Even the selected soldiers of the Prussian guards were unable to stem the advance. They were brought up in motor lorries when the other Germans had wavered and fallen back, but all they accomplished was to increase the bag of prisoners, which is continually growing in size. While the guards were alighting from the lorries they were caught under a heavy fire of the French artillery and suffered terribly. Men returning from the lines assert that the number of German dead lying on the battlefield is greater than ever seen on one spot during the fighting in France.

LARGE FLEET PUSHES WAY THROUGH ICE JAM OFF WHITEFISH POINT

Sault Ste. Marie, Mich., May 6.—Piloted by the tugs Illinois and Sabin, a large fleet was gotten through the ice jam at Whitefish Point safely today. Scarcely had the last of the steamers made their way through, however, before an increasing northwest wind tonight, filled the small channel with heavy ice. About forty steamers are still fast in the ice near Whitefish point and no relief was expected for several days.

Washington, May 6.—Decisive steps for the hygiene and mental welfare of the nation's soldiers and sailors have been determined upon by the Council of National Defense as a strict war measure.

PRESENT SLAV GOVERNMENT TO STAY IN POWER

Controversy Between Council of Workmen and Soldiers and Provisional Committee Has Been Settled.

EXPLAIN FOREIGN POLICY

Petrograd, Friday, May 4.—(10:30 p. m.—via London, May 6.—8:00 p. m.—Delayed)—The controversy between the council of workmen and soldiers' delegates and the provisional government, that, for the last twenty-four hours, has threatened such serious consequences, has been settled.

CHEERS GREET SPEAKERS.

When the speaker declared that the temporary government had acquitted itself of the charge brought against it by explaining, in concise terms, what it meant by the vague form of yesterday's declaration, a great cheer arose from the vast assemblage and lasted for several minutes.

FINANCIAL SITUATION CLARIFIED.

At the same time the financial situation has been pretty well clarified in direct conferences, while the naval situation has been brought to a point where a general conference may be sought.

DUMBA SAYS WILSON IS ALONE TO BLAME FOR U. S. ENTRY INTO WAR

Amsterdam, via London, May 6, 9:55 a. m.—"The entire fault for America's entry into the war lies with President Wilson, who is an obstinate Anglophile autocrat, filled with doctrinaire stubbornness," writes Dr. Constantine Theodore Dumba, former Austro-Hungarian ambassador to the United States, in the May number of the Oesterreichische Rundschau, a copy of which has been received here.

ALL URGE MODERATION.

Others spoke in the same temperate vein and the gathering soon broke up with complete conciliation established between the government and the proletariat.

GERMAN AIRPLANE IN FIRST FLIGHT OF WAR OVER ODESSA, RUSSIA

Berlin, May 6, via London, 6 p. m.—(British admiralty, per wireless press)—Odesa, in Russia, on the Black sea, was visited by a German airplane yesterday, being the first occasion in the war that a German machine has flown over this Russian seaport.

BALFOUR VISITS LANSING AT HIS VIRGINIA HOME

Two Statesmen Hold Quiet Conference to Sum Up Work of British Mission

Washington, May 6.—Foreign Secretary Balfour and Sir Eric Drummond, of the British war mission, the British ambassador and Lady Spring-Rice, slipped quietly out of town today to spend Sunday with Secretary Lansing, at Dunston Hall, one of the famous manor houses of Virginia, built by George Mason. Secretary and Mrs. Lansing were here for his week end.

Mr. Lansing had expressed to Mr. Balfour his wish for a quiet conference to sum up the work of the mission to date and plan for what remained to be done, and it was decided that the old Virginia manor house would provide an ideal spot as well as giving Mr. Balfour a view of the old Dominion.

It is understood that the statesmen confined their discussions largely to the program rather than to detailed phases of the negotiations. The formal meetings of the British and American representatives on shipping, trade and military questions have resulted in the appointment of a group of sub-committees to discuss an American expeditionary corps to France, material, intelligence, munitions, hospital, shipping, the allies needs in imports, and America's resources towards filling those needs.

FINANCIAL SITUATION CLARIFIED.

At the same time the financial situation has been pretty well clarified in direct conferences, while the naval situation has been brought to a point where a general conference may be sought.

VIVIANI AND JOFFRE GIVEN BIG OVATION

French Mission Cheered and Feted by People of Kansas City and St. Louis—Thousands in Parades.

ALL PLEDGE SUPPORT

Kansas City, Mo., May 6.—The "Sacred Union" of the United States and the entente allies will not be deserted until German imperialism has been destroyed and the peace of the world assured.

In those words, M. Viviani, head of the French mission, acknowledged here today the proffered pledges of the loyalty and undivided co-operation of the middle west in the war of democracy against autocracy. The mission at the western end of their trip through America, spent here a morning filled with manifestations of the spirit and patriotism of this section. Thousands of persons, waving the French tri-color and the stars and stripes, lined the streets and crowded all available space at the religious-loyalty meeting at Convention hall.

The audience was told by M. Viviani that the United States had not entered the war alone to help France, but rather to uphold the torch of civilization and to obtain for the world ultimate peace. His words were greeted with applause that subsided only when Marshal Joffre spoke a few words, to return the thunderous ovation given to his country and to her soldiers.

"You free Americans so well understand why thousands and thousands of our children now are sleeping their last," M. Viviani said. "You know it was not because there was in our heart the desire to conquer. It was not the fight of an army against an army, but it was the fight of democracy against autocracy."

"COME AND HELP FRANCE"

"You will come not to help France, but to aid the cause of civilization. France, blessing and fighting, with many destroyed homes and tombs, has held the German flood, that now is going back. Come to France you Americans, and help civilization and liberty. It is the best way, the only way to help the peace of the world."

The former premier spoke of the gratitude felt by the commission for the co-operation and willingness to serve in the war shown here and elsewhere on the trip through this country. He likened the people of the middle west to his own countrymen, saying they would evidence the same attributes of thrift and courage in carrying out the war that has been shown in France.

His speech came at the close of the meeting, after Mayor Edwards, of Kansas City, and Governors Gardner, of Missouri, and Capper, of Kansas, had promised their states would not fail to do their "bit."

Kansas City gave the visitors a great reception, in which many officials, thousands of school children, high school students, high school red cross units, national guardsmen and Boy Scouts took part. Tremendous crowds gave the visitors continued ovations.

ATTEND ST. LOUIS MEETING.

St. Louis, May 6.—The French mission arrived here from Kansas City at 7:30 o'clock tonight and went at once to the Coliseum, which was packed to the door. On the journey across Missouri members of the mission had the best view of the country's agricultural operations, intensified by the war demands for foodstuffs, that they have seen thus far on their trip. Brief stops were made at Carrollton, Moberly and Mexico, where crowds gathered and bands played patriotic tones.

RAILROADS OPEN FIGHT FOR HIGHER FREIGHT RATES

Washington, May 6.—The railroads of the country will open here tomorrow their fight for a general fifteen per cent advance in freight rates, confident that a substantial advance, if not the percentage sought, will be granted. Virtually everyone of the hundreds of companies operating the network of steam transportation lines in the country, nearly 250,000 miles in extent, will be represented at the hearings before the interstate commerce commission. Hearings will be held during the week and will be resumed May 23.

CUBAN REBELS THREATEN LIVES OF FOREIGNERS

American And English Residents of Island Send Appeal For Help to U. S.

New York, May 6.—Charges that Cuban negro rebels are burning and pillaging the homes and property of Americans and other foreigners in the districts of Palmarito, Dayate and Mirande, Oriente province, were made by twenty-four American and British refugees, who arrived here today. They predicted that there will be a massacre of the white residents remaining unless the United States intervenes and asserted that the Cuban government is powerless to cope with the situation. Most of the refugees escaped with only the clothes they wore.

The accusations were substantiated by an appeal for aid, signed by 106 Americans remaining in the territory occupied by the rebels. The appeal, the refugees said, will be forwarded to the state department at Washington.

The threat of a massacre is contained in a statement, included in the appeal, alleged to have been written by General Blas Maso. The statement Maso is reputed to have made, said:

WANT AMERICAN INTERVENTION.

"You will holler loudest and we will destroy until your hollering will be heard in Washington and force American intervention. For the time being we will not fight the government troops and we will not kill you unless you oppose us. We are only fighting now with the torch, terrorizing and organizing."

"But if Menocal does not step out May 20 we will fight and kill. We are 15,000 rebels in this province, all well armed and the whole province will become a wilderness. Your government can prevent this by intervention."

"I give an American commission to come to the interior and see our forces, see the destruction that we are making, and tell their government the truth."

The statement concludes with the following message from the general's aide: "You will notice that we rebels are negroes to a man. You will remember the negro revolution of 1912, when 5,000 negroes were killed in this province."

"We remember that, too, and now that we are armed, the death of 5,000 defenseless negroes in 1912 shall now be avenged in a horrible war, I assure you."

POPE AGAIN VOICES APPEAL FOR PEACE

Calls on People of World to Pray That War End and Asks Rulers to Listen to Pleas.

Rome, via Paris, May 6, 5:30 p. m.—Pope Benedict, in a letter to Cardinal Gasparri, the papal secretary of state, referred to a letter which he wrote in 1915, in which he said:

"Prepare the minds of everyone for the reception of an invitation for peace, which we propose to address to the belligerents on the first anniversary of the outbreak of the war," and adds:

"We indicated then to the people a unique method of composing their differences with honor, and on a basis of durable international peace. We conjured them then, in the name of God and humanity, to abandon their project of mutual destruction and come to a just and equitable accord, but the voice which called for the cessation of the frightful conflict remained without an echo. The sombre tide of over-flowing hatred between the belligerents seems to rise still higher and the war is enveloping other countries in a frightful whirlwind, multiplying the ruins and massacres."

CONFIDENCE NOT WEAKENED.

"Still our confidence is not weakened and we hope that the day is no longer far distant when all men's sons of the same Celestial Father will begin again to consider each other as brothers. The suffering of the peoples has become almost insupportable and is rendered more intense by the general desire for peace. May the Divine Redeemer, with infinite goodness of heart that counsels gentleness, prevail also in the minds of the governments and that, conscious of their responsibility before God and humanity, they may resist no longer the voice of the people invoking peace."

The letter ends with a call that: "Pious and devoted invocations arise from all corners of the earth, from the humblest hut to the most sumptuous palaces, to obtain for the upheaved world, the desired peace."

ing after the deputies' car. They lost it on the desert and passed it, but later it was hemmed in near Florence. The deputies, protesting, but not resisting, gave up the prisoner, who was taken fifteen miles back on the Florence-Mesa road and hauled to a telegraph pole.

U. S. INVENTORS WORK HARD TO CHECK U-BOATS

Secretary Daniels Announces He Is Confident American Ingenuity Will Find Way to Combat Submarines.

TRY OUT ALL DEVICES

Washington, May 6.—Advices from the navy consulting board, concerning progress towards finding a solution for the submarine menace, referred to in New York yesterday by Chairman W. L. Saunders, of the board, have not reached the navy department tonight, but were expected tomorrow.

Secretary Daniels said that while no information would be made public as to the nature of experiments, which have been in progress, he was satisfied that American ingenuity eventually would check the under-sea boats.

Mr. Daniels spoke, however, without knowledge of the specific devices with which the members of the consulting board have been experimenting and his confidence was based wholly on the record for mechanical inventiveness, which American engineers and scientists have maintained for years.

CLEARS UP MISAPPREHENSION.

A telegram to the Associated Press, from Lawrence Addicks, of Elizabeth, N. J., chairman of the special naval problem committee of the consulting board, served to clear up, somewhat, misapprehension concerning Mr. Sanders' statement yesterday. The message follows:

"I fear some of the statements in the morning papers regarding the naval consulting board may unwittingly give wrong impressions regarding progress made in combating the submarine menace and that conclusions are likely to be drawn that the problem has been either fully solved or given up as hopeless."

"While it is evident that specific information as to progress made would be contrary to public policy at this time, as chairman of the committee of the board dealing specifically with the submarine menace, I feel justified in saying that good and satisfactory progress has been made and that we have now under practical trial some novel devices of great promise."

"This committee was formed at the time of the break with Germany to take over all problems relating to the detection and destruction of submarines and the defeat of the torpedo, and has under its direction the various experimental stations devoted to this work. In addition to this, Mr. Edison is separately conducting a line of experiments in his own laboratory, regarding the results which I am not qualified to speak."

Mr. Addicks' statement confirms the understanding officials of the department have had of the progress being made by the inventor. Every precaution has been taken by the departments, however, to prevent any knowledge of the nature of experiments from becoming public. That policy will be pursued.

THINK WAY WILL BE FOUND.

"I have great faith that American ingenuity will find a means of combating the submarines," said Secretary Daniels tonight. "Although I had in mind no special device among the hundreds which have been proposed to us to fight the menace, I truly believe something will be developed that will be effective against the under-water boats."

"Experts of the naval consulting board and of the navy department are working hard experimenting with the devices which may go a long way towards giving us victory. Some probably have merit, and others not, but all are being given fair tests. The precise nature of any, of course, cannot be disclosed."

MOB TAKES PRISONER FROM OFFICERS AND PUTS HIM TO DEATH

Phoenix, Ariz., May 6.—Star Dailey, who killed James Ray Gibson, a traveling salesman, near Mesa, eighteen miles east of here, last Thursday night, was taken from deputy sheriffs, at 4 o'clock this morning, on this side of Florence, and hanged by a party of Phoenix and Florence citizens.

The deputies were spiriting Dailey alias Ashmore, from the country jail in this city to the penitentiary. An attempt was made early Saturday evening to remove Dailey from the jail but it was abandoned by the officials who learned that the road to Florence was being watched at several points. Learning later that a crowd was forming here to take him from the jail the officials, soon after midnight, removed Dailey quietly and put him into an automobile.

WHY HE HESITATES.

The German chancellor is, it is reported, being pressed from all sides with importunities to state Germany's peace terms. The last official word we have had on the subject of those terms is the statement that accompanied the original German overtures for peace to the effect that if they were scorned the Germans would never again be willing to contemplate such easy terms as they then proposed offering.

But that is beside the point that just now there is a considerable clamor in Germany for a statement from the government of what it is actually fighting for. The various segments of the German public are not disposed to accept as final the general assurance that "defense of the Fatherland" is the motive for the continued war.

The socialists, generally speaking, want declared a policy of no annexation, and are willing to end the war on terms much easier than the junkers are ready to contemplate.

Without waiting for action by the government, the bankers and business men of Iron county who have taken hold of the food situation have established a minimum price for potatoes, with the announcement that they are ready to enter into contracts with all farmers who desire them to purchase their potatoes at the rate of seventy-five cents a bushel.

The price named is one that seems very small, compared with the prices that have been paid for potatoes the past several months. But it is sufficiently large to allay the apprehensions of farmers who have believed that heavy plantings might yield crops that would force prices down to where they would represent an absolute loss.

The Iron county business men are willing to lay it for their local farmers. They are entirely safe in doing so, for nothing is more remote than the chance that they would have to buy potatoes at the minimum price they name.

THE CENSORSHIP CLAUSE. The modification of the censorship clause of the espionage bill was effected in the house by such a heavy vote that the restoration of the original clause can be regarded as unlikely.

One thing that may have had a bearing on the modification of the clause is the experience of the entente allies, which, by liberalization of policy, have indicated a belief that the censorship was, in the earlier months of the war, badly overdone in matters of no military significance.

evidence given by the American press that it is capable, with a minimum of restriction, of meeting its responsibilities in a patriotic manner. Under the terms of an informal agreement with the government officials about what should and should not be printed, the military interests of the country have been guarded with great care by the newspapers.

The vote in the house indicates how little favor in this country there is for encroachment on the right of free speech and free printed utterance, when there is no evidence to show that it is being abused.

A BERLIN ESTIMATE. Unfortunately there is too large an element of truth in the statement made by the Berlin Zeitung Mittag that "for the entente's momentary needs America has nothing to offer but a blown egg shell."

When the man of military age and physical qualifications hides behind a skirt, however, he should remember that he can't hide so that he people can't see him.—Indianapolis News.

Apparently the German vandals are not despoiling the French country from which they are retreating as thoroughly as they were some days ago. They haven't the time.—Kansas City Journal.

Nov comes the suggestion that Colonel Roosevelt, instead of Mr. Root, be the head of the Russian mission. Its basis is the view that attacks on Mr. Root, many of them emanating from radical sources in this country, and the apparent fact that he will be represented in Russia as an enemy of "the people" will unfairly impair, even before he starts on his important mission, its chances for success.

The country has heard how matters stand from the great exchanges and the great purveyors of foodstuffs. The secretary of agriculture, basing his statements upon the reports of trained observers and statisticians, has sounded a warning. The president, fully informed regarding the gravity of the situation, has issued an urgent appeal for action.

Great stress has been laid by every government agency since the declaration of war on the necessity for raising bumper crops in order to feed ourselves and our allies. Indications of a willingness to respond have been gratifying. Every-

the heavy responsibility of whipping a green company into condition for serious service. It is important to note this, because it will perhaps help to enlighten some persons as to the insecure basis of the archaic military machine that we have been placing our dependence on.

From Lansing comes a word of warning against the lost motion and ineffective effort that will be the fruit of too many patriotic movements conducted without reference to one another. In some communities a duplication of effort is noted and a tendency to work at cross purposes.

Timely Quips

Shocking. It must be a terrible shock to the czar to find that the world goes on just the same now that he is merely a private citizen in jail.—Kansas City Star.

See? Of the 442 Americans left in Germany only 186 were born in the United States, and it is safe to assume that most of them are more German than American and give no cause for soliloquy.—Springfield Republican.

Don't Worry. Of the 442 Americans left in Germany only 186 were born in the United States, and it is safe to assume that most of them are more German than American and give no cause for soliloquy.—Springfield Republican.

Haste. Apparently the German vandals are not despoiling the French country from which they are retreating as thoroughly as they were some days ago. They haven't the time.—Kansas City Journal.

Editorial Opinion

The Food Emergency.

It is a difficult thing for a country that has never known anything bordering upon a famine in foodstuffs to realize that conditions can arise which make empty its bins, barns and warehouses of its reserve store of grain long before a new crop can be gathered to replenish them.

The anomaly is at hand, however, and its presence is due to a combination of circumstances not difficult to be understood by those who take the trouble to inquire. Plainly and briefly, at a time when the wheat supply in reserve and in prospect should be immensely larger than usual, to meet the domestic and overseas demands, it is, and it promises to be, unless extraordinary means shall be employed to prevent it, far smaller than usual.

The country has heard how matters stand from the great exchanges and the great purveyors of foodstuffs. The secretary of agriculture, basing his statements upon the reports of trained observers and statisticians, has sounded a warning. The president, fully informed regarding the gravity of the situation, has issued an urgent appeal for action.

Great stress has been laid by every government agency since the declaration of war on the necessity for raising bumper crops in order to feed ourselves and our allies. Indications of a willingness to respond have been gratifying. Every-

Enduring! Certain-teed is a name which has come thru the storm of business competition stronger than ever. It stands for quality, dependability, satisfaction and fair dealing.

Certain-teed Roofing

is the most efficient type of roof for factories, office buildings, farm buildings, garages, etc. It costs less to buy, less to lay and less per year of life than other types of roofing.

The cost of laying prepared roofings is the same whether you use good materials or poor. Therefore, it pays to get CERTAIN-TEED, which is the best.

For residences, CERTAIN-TEED Slate Surfaced Asphalt Shingles have all the advantages of CERTAIN-TEED Roofing, plus artistic beauty.

Investigate CERTAIN-TEED before deciding on any type of roof. For sale by dealers everywhere.

body with available land, from professional farmers to commuters, women club members and children with plots in school gardens has rallied to the call to be a "soldier of the soil."

To supply the missing link in the chain, the Merchants' association has evolved an excellent plan to be applied in the agricultural district tributary to New York City.

Such committees would have an important place in the campaign for intensive foodstuff production. A farmer in showing extensive correspondence regarding funds for enlarging his work.

Not a False Distinction. The president of the psychiatric, Dr. Johannes Kaempf, bitterly arraigns President Wilson for drawing a false distinction between the German government, or ruling dynasty and class, and the German people.

A Justifiable Blow. Ever punctual himself, King George III. expected similar punctuality in others. Lord Hartford knew and respected his royal master's wishes.

A Laugh Or Two. The beginner gazed wistfully at the caddy for a moment. "Look here," he said, "I'm tired of you laughing at my game. If I hear any more of your impudence I'll crack you over the head."

Significant. The tailor's sign in a little inland town was an apple, simply an apple. The people were amazed at it. They came in crowds to the tailor, asking him what on earth the meaning of the sign was.

Revising a Career. "Charley, dear," said young Mrs. Torbins, "the first thing you did after joining a military company was to get into the guardhouse! And I thought you were going to be another Napoleon."

the glass of the clock's face. The king, knowing nothing of the episode, let him off with a slight reprimand.

"The clock struck first, your majesty," was Hertford's immediate rejoinder. The aptness of the speech and the mock solemnity of the culprit in delivering it won the king's laughter and forgiveness.

Not Dead but Bald. Availing herself of her ecclesiastical privileges, the clergyman's wife asked questions which, coming from anybody else, would have been thought impertinent.

Jus as in Life. Booth Tarkington said, in New York, the other day: "The average man treats spiritualism as a joke. An illustrator found out recently that I was interested in the subject, so he rushed upon me with a story about a widow who tried to get in touch with her deceased husband."

Out for Ease. Some of the inmates of an asylum were engaged in sawing wood, and an attendant thought that one old man, who appeared to be working as hard as anybody, had not much to show for his labor.

Lower State Notes. PONTIAC—J. S. Gould, of the Nine-mile road, was arrested on a charge of bigamy preferred by David N. Barnum, of Ponton, father of Mrs. Etta Barnum Gould, who Gould is said to have married in 1905.

EAST LANSING—The annual senior "sawing out" at Michigan Agricultural college took place with impressive ceremonies. The event this year was of more than the usual significance because it marked the last meeting of the class intact, as many of the seniors will leave to take the reserve officers' training at Fort Sheridan May 8, while others left last week to do their bit toward increasing food production.

LANSING—Governor Sleeper will call a special session of the legislature by the end of the present year. Matters included in the call will be the budget plan of state finances, the report of the commission which will be appointed to investigate the advisability of allowing railroads to increase passenger fares and an appropriation to give Michigan's needy financial assistance, providing the war continues and the conditions warrant such a step.

LANSING—Duplication of effort, waste and confusion can be avoided, in the opinions of the war preparedness board, if patriotic activities are confined to a few channels. Already in communities, there are three or four organizations doing the same or similar work.

LANSING—Nothing will be done toward recruiting the national guard of Michigan until the federal government orders it placed at war strength. (This was the statement by members of the state military board. The board tentatively approved the plans for the new Coldwater army. A dozen members of the new Michigan state troops, or mounted constabulary assembled at the East Lansing barracks. Fifty will constitute the troops at the start. Dr. D. C. Adams, of Hastings, formerly of Detroit, has been commissioned a first lieutenant in the officers reserve corps. Farmer boys in Freepoot schools over fourteen years old will be released for work on farms May 4 and will receive credit. Most of the jurors summoned for the May term of the circuit court in Common next week are farmers but Judge Minor has announced he will excuse all who desire to work their farms.

FLINT—To save her son from possible conscription, according to officers at the local recruiting station, a Flint woman induced her husband to leave home, placing her dependent upon the son for support. The husband left, but went immediately to offer his services in place

of the youth, who he says has a "broad yellow streak." The father, forty years old, was ineligible, but left his address saying he would be ready when the call came. "I hope the kid gets drafted, anyway," was his parting remark. "It might make a man of him yet."

LANSING—Michigan lumber makers for the first time have landed a big contract to furnish the highest grade of butter obtainable for the United States navy. The government has contracted for 350,000 pounds, and the contract for 150,000 more is expected to be let to Michigan men May 7. The navy buys its year's supply of butter in the ninety days beginning about May 1. Butter must score 94, which is one point higher than the Michigan state brand, the most perfect butter known to Michigan commerce. Navy butter has come from the western states, but this year, through Commissioner Woodworth and his dairy butter expert, H. D. Wendt, the Michigan creameries were prevailed upon to bid. And they secured the following contracts: Parma, 100,000 pounds in tubs and three cents over the market price; Elgin; Cobleville, 100,000 pounds in tubs at seven cents over the market price; Fremont, 100,000 pounds in tubs at seven cents plus; Reeman, 500,000 pounds in tubs at seven cents plus. Several creameries located in Ottawa county have made a bid of three cents over the market price for 150,000 pounds in tubs. This is the contract which is expected to be let May 7.

LANSING—Nothing will be done toward recruiting the national guard of Michigan until the federal government orders it placed at war strength. (This was the statement by members of the state military board. The board tentatively approved the plans for the new Coldwater army. A dozen members of the new Michigan state troops, or mounted constabulary assembled at the East Lansing barracks. Fifty will constitute the troops at the start. Dr. D. C. Adams, of Hastings, formerly of Detroit, has been commissioned a first lieutenant in the officers reserve corps. Farmer boys in Freepoot schools over fourteen years old will be released for work on farms May 4 and will receive credit. Most of the jurors summoned for the May term of the circuit court in Common next week are farmers but Judge Minor has announced he will excuse all who desire to work their farms.

FLINT—To save her son from possible conscription, according to officers at the local recruiting station, a Flint woman induced her husband to leave home, placing her dependent upon the son for support. The husband left, but went immediately to offer his services in place

City Brevities

William Fidle, of Shingleton, was a business visitor in the city Saturday.

George Tucker returned Saturday from Republic, where he spent the past week on business.

The Women's Relief Corps will meet this afternoon at 2:30 o'clock in Keough's hall.

Miss Evelyn Gauthier returned to this city yesterday from a business trip to Ironwood.

M. H. Eldred, Stuart Eldred and W. A. Grey, of Ishpeming, were visitors in the city yesterday.

C. O. Lewis, of Escanaba, returned home last night after spending the week end with relatives and friends.

The Young Ladies' sodality of St. Peter's parish will entertain with a card party and social at the Baraga school building Wednesday evening.

The Fire Department was called to the home of E. J. Timmins, 341 Genesee street, last night about 8:00 o'clock to extinguish a blaze caused by an oven becoming overheated.

O. W. Swanson, manager of the Oakland Garage, has made numerous improvements to the interior of his establishment, on Champion street, and will this week take over the agency for "Keystone oils and grease."

Mrs. D. D. Johnson and daughter Norene, left last night for Chicago after spending the past several months in this city with her mother Mrs. Anna Turner. She was accompanied to Chicago by her sister Miss Loretta Turner.

Wounded in France—J. R. MacPherson, of 232 west Prospect street, has received word that his brother, Angus L. MacPherson, has been seriously wounded in action on the battle line "Somewhere in France." Mr. MacPherson whose home is in Stratford, Ont. has been at the front for a year and a half.

Will Till An Acre—Donald Begole and C. B. Madden, of the Lake Shore Engine works, have taken an acre of the land which A. Mathews has offered free use of and will till it the coming season. The land has already been plowed, and will soon be planted. It is located on Crescent street, not far from the Lake Shore Engine works.

Has Stock of Roses—Henry E. Johnson, one of the best known rosarians in the country, has received a collection of over 500 roses bushes, comprising hybrid perpetuals, teas and climbers, which he offers for sale. They are from a well known nursery, and are guaranteed stock. Mr. Johnson is looking after the needs of rose fanciers who formerly obtained stock from the late John Harland.

Will Open Wednesday—The formal opening of Doncker's new ice cream parlor will be held next Wednesday afternoon at 2:30 o'clock. Practically all of the equipment has arrived and is now being installed. The walls and ceiling of the addition are cleverly designed, and the balcony at the rear gives to the parlor a decidedly attractive effect. Mrs. Weedman's orchestra will furnish music during the afternoon.

Women's Chance to Help—A meeting of all women interested in war relief will be held in the Guild hall this afternoon at 4 o'clock. The Rev. B. G. Burt will speak on the plans of the Guild for keeping the Guild hall open to workers every day except Sundays during the war. Other addresses will be made and the program of work will be laid out. A cordial invitation to attend this meeting is extended to all Marquette women.

Perseverance Won Out—Robert J. Gillon has at last won admission to the U. S. defense service. A short time ago he applied to the U. S. army recruiting officer in Marquette, and was passed. On arriving at Jefferson Barracks, however, he failed to qualify in the physical examination, and returned home. Shortly after he went to Ishpeming, and applied there. He was refused admittance. Refusing to be downed he left here a few days ago for Oshkosh, Wis., and now writes his relatives here that he has been admitted to the United States navy, as apprentice.

Girls Visit Prison—Saturday morning a party of girls from the Normal school visited the Marquette prison making the trip in the prison motor truck. The girls were taken through the various departments, and the work was explained to them by the guards. They express themselves as highly appreciative of the courtesies shown them. Those who made the trip are "Smiles" Avigne, "Fritz" Getzloff, "Love" Devine, "Sub" French, "Curly" Dufrene, "Fat" Swanson, "Sunshine" Carlson, "Sweet" Carlson, "Straw" Smith, "Bobbie" Burns, "Berkie" Berkstrom, "Billie" Larson, and "Fat" Rashleigh.

Auto Truck Caught Fire—An auto truck, remodeled from a Franklin touring car and owned by William Lewinstein, a North Marquette merchant, caught fire at about 4:45 o'clock yesterday afternoon in a lot near the Lewinstein store, and was completely demolished. The flames had gained considerable headway before water could be hauled to the scene and it was but the work of a few minutes before the woodwork was enveloped. The gasoline tank exploded within a short time after the flames broke out. Attempts to remove the engine from the burning mass proved fruitless, the mechanism being badly damaged in the effort. The truck is a complete wreck.

They Like the Army—Glowing reports of life in the United States army come from three Marquette young men who enlisted early in April. They are Harry Handford, Joseph Belanger and Joseph Verlinde, who enlisted here April 9. The men passed their examinations at Jefferson Barracks April 17. Handford is now

Theatrical

At the Opera House.
 Episodes 8 and 9 of "Patria" will be shown at the opera house tonight.

Much interest has been evidenced by the public in this great patriotic serial as shown by the large crowds that come each Monday night to see this entertaining picture. Mrs. Vernon Castle as the leading character, Patria, has enthralled many audiences by her daring achievements before the camera.

In addition to this film the Pathe weekly news will be shown, also a Triangle comedy "Her Cave Man."

At the Delft.
 Virginia Pearson, as Anne, will be shown in the Fox film "Bitter Truth" at the Delft today.

Anne, a girl of the slums, is caught with her lover and they are both sentenced to terms in prison, she unjustly. When she is free she vows vengeance on Judge Marcus the man who sentenced her. After some time she becomes companion for the judge's wife and sees a great deal of the judge. She arranges through some politicians, in opposition to the judge, to put the judge in a position which will be detrimental to his character and they will use the scandal against him.

"Betty to the Rescue" will be seen at the Delft on Tuesday and Wednesday, featuring Fannie Ward.

"20,000 Leagues."
 The taking of pictures of human beings, playing their allotted roles in a drama which is being performed at the bottom of the ocean, has been accomplished in the wonder picture, "Twenty Thousand Leagues Under the Sea," which will receive its first Marquette presentation at the opera house Thursday and Friday, matinee and night. Two performances will be given daily during the engagement of this spectacular submarine romance, at 2:15 and 8:15. Seats may be reserved in advance.

The story of this play is a dramatization of Jules Verne's masterpiece of imaginative fiction. Fifty years ago this talented writer was looked upon as a wild dreamer. His stories were read by millions of people because they stirred the imagination as no other writer had ever done. Today the world is using many of the things that Jules Verne pictured in words. In the filming of this undersea romance the marvelous Williamson inventions were used for the photographing. A motion picture studio was established at the bottom of the sea, and many thrilling scenes, including a fight with an octopus and a trip through the shark infested waters near Mysterious island are photographically recorded. The taking of this picture required two years' time and the services of more than 2,000 actors. All the characters made famous by Verne in his story appear in the film spectacle. Captain Nemo and his submarine Nautilus are shown accomplishing the mastery of the deep, and Ned Land, the prince of harpooners appears in all his glory.

Vandenboom's home churned butter-milk is the best tonic on the market. try it. 5-5-64.

Upper Peninsula
 Recruits for Company M.

Outlying towns and rural districts in Chippewa county are coming with a will to the aid of Company M. The first public demonstration of this fact was a meeting at Rudyard under the auspices of the War council of Chippewa county. At the close seven young men stepped forward and registered their intention of joining the So company of the Michigan National Guard. The young men who answered to the call for recruits are: Dean Anderson, Joe LeGault, Alfred Vigeau, Irving Goodrich, Joseph Elmhurst, Elmo Jarble and Ollus Berkompas. For nearly two hours the crowd listened intently to talks by Francis T. McDonald, W. E. Davidson, of the Soo; and Captain Crossman, in charge of the machine gun company at Fort Brady.

W. J. Ross Sells Out.
 One of the largest sales of realty in Mackinac county for some time was put through when W. J. Ross sold to a Mr. Tillie, of Milwaukee, 3,900 acres of land at Kenneth, his home there including personal property, household effects, tools, implements, etc. The price paid was in the neighborhood of \$40,000. Mr. Ross and family vacated the house which is now occupied by the agent of the new owner, who will operate the farm. It is understood that Mr. Tillie will at once begin the work of reopening the old limestone quarry, which has been idle for a number of years. This was the first limestone quarry to be operated in the county and for years lime was manufactured there, and the ruins of the old kilns are still standing.—St. Ignace Enterprise.

Speaker Stirs Menominee Women.
 "Unpatriotic," "Out of Place," "Pro-German" were some of the characterizations with patriotic Menominee women of a talk delivered by Mrs. Gerald McDowell, of Kenosha, at a meeting of the Menominee Woman's club. Mrs. McDowell, who was a visitor at the club meeting, was asked to say a few words,

and when she deviated from a talk in suffrage to a talk on the war and the part of the United States in the war, she expressed sentiments which met with the hearty disapproval of Menominee women. Among other things in her talk she declared the United States should not send any soldiers to Europe; spoke slightly of General Joffre in order of the French mission who is an honor guest in this country, and defended Mayor Thompson of Chicago for his much-criticized remarks regarding an invitation to the French mission to visit

Chicago; asserted that national guardians had informed her that they did not want to go to France to fight, defended La Follette and the other obstructionists in congress for their actions during the present crisis. Mrs. McDowell's sentiment regarding free speech, in the course of which she said she would be "willing to serve a term in prison in order to make the statements I feel I have a right to make," were declared entirely out of place in time of a great national emergency such as the present by Menominee women.

Your Store

We call this "your store" for the reason that you are at liberty to come and go as you please, whether for sight-seeing, rest, recreation or shopping. It is not only a mercantile establishment to make money but to offer you every convenience in the way of the little luxuries that will come to you at no cost whatever. Whenever it has been possible for us to install new fixtures that would help you in your shopping, and make more satisfactory to you every purchase, we have done so, and in our merchandise we have tried to give you always a little better value for your money than you expected. As a result, oftentimes our advertisements may seem to you a little far-fetched, but we want to impress upon you that each and every item advertised by us is exactly as represented.

STYLISH SUITS

Every detail of the new suits is pleasing to this season's shoppers—and the details are many and varied. It is this variety of detail which makes our showing of so much interest. If you have, not yet made your selection you should certainly see the new models.

We Are Offering At \$25

Smart new models of gabardine, men's wear serge, twills and tricotine; in the new shades of green, gold, grey, beige, rookite and the ever popular navy blue. Never have we offered so many beautiful suits at \$25.

New Voile Waists at \$2.50

Of exceptionally fine quality Voile daintily trimmed. Where is the woman who will spend these fine afternoons sewing when she can have such pretty waists as these can be had for so little money as \$2.50.

Upper Peninsula

Farm Agent Engaged.

B. P. Pattison, instructor in agriculture at Purdue university and a practical farmer of wide experience, has been engaged as county farm agent for Delta county. Mr. Pattison is thirty-seven years of age, and in addition to wide college experience, is an actual farmer. He owns a farm at Cairo, Mich., and was raised on a farm. He was graduated from the Michigan Agricultural College in 1912. For two years he served as instructor in agriculture at the University of West Virginia and for the past two years has held a similar position at Purdue University.

Questionable Resorts Closed.

"And if any one asks you who gave you the orders, you can tell him that I did." That was the parting word of Mayor Riley to Chief of Police Toland, after he had directed the chief to close every questionable resort in the city. And the chief found a number of them. One of the dirty nests found was that run by William Sears, porter for the Delta hotel, on the second floor at 418 Livingston street. One of the inmates of this place was Sears' own sister. Other places were Mayne Tavern, 216 Secord's, Mabel Dayton's and Pearl Adams'—Escanaba Journal.

Had Narrow Escape.

Irene Van Hagen, eleven years old, daughter of Mr. and Mrs. Peter Van Hagen, of Menominee, escaped death by a narrow margin when a passer-by saved her from going over the lower bridge into the swirling waters of the Menominee river. Irene was riding on the handlebars of a bicycle driven by eight-year-old Arthur Van Hagen, her cousin, and the son of Earl Van Hagen. The lad tried to go too fast and lost control of the wheel on the bridge crossing toward Marinette. The girl was thrown off the handlebars toward the left side of the bridge, where there is no sidewalk, and rolled to the very edge of the structure when a man ran out and saved her from falling into the river. The girl received a deep cut on her forehead and one side of her face was somewhat bruised, but received no other injuries.

Letters Are Not Delivered.

Thousands of letters to men in the army, principally to recruits who recently answered the call to the colors, are going astray because the persons writing to them are not putting the full address on the communications. Similar conditions existed shortly after the mobilization of troops on the Mexican border, and the result was that needless work was given the dead letter office. It is advisable, say men of experience in the army, to make the ad-

dress as full as possible. Not alone should the regiment be named, but the company of which the enlisted man is a member, as well as city or fort where the organization is located, should be noted. Also, the full name of the party with middle initials should be on the envelope, inasmuch as there may be others with like names.

Who Stole the Flag?

Who stole the American flag from the Horner flooring plant at Newberry? There are a hundred men employed at the plant who would give a month's wages to discover the perpetrator, and be given the privilege of punching his brass. A near riot occurred among the men when it was discovered that a large flag that had been hung up inside the mill was missing. Some of the men refused to go to work until the flag was restored, and had the men been able to discover the perpetrator of the theft he would have been seriously handled. Quiet was finally restored by an agreement to purchase a new flag, the men making up a purse of over \$30 for the purpose.

Plan School Gardens.

Plans have been outlined for making effective the school garden movement in Escanaba. The committee is made up as follows: P. D. Davis, chairman; Attorney J. C. Baker, secretary; E. E. King, Mrs. A. C. Barras and Mrs. C. E. Andrews. The city has been divided into seven school units, as follows: Franklin school, St. Joseph's, St. Anne's, Bar, Jefferson, Washington and Webster. An Escanaba unit committee of five members will be named, composed of a teacher in each school, a member of the women's club, a member selected from the women at large in the school unit and two practical gardeners. The members of this committee will serve in an advisory capacity for the school gardeners in their unit.

Soo Man Has Grievance.

One of the strongest boosters for the proposed new charter at the Soo is Adrian Nicholas, wholesale produce dealer, and his enthusiasm has increased as the result of a conflict with the water works department. Although there is but two dollars involved, Mr. Nicholas will probably state his grievance to the board of public works. According to Mr. Nicholas he called the water works department to flush his sewer, depositing two dollars at the city hall before the work was started. He declares that the department employees made one visit to his store on Magazine street, but without result and upon their coming the second time the trouble had been repaired. He asked for the return of his two dollars, but Recorder Eaton, secretary of the board of public works, told him he could not return it until authorized by Water Commissioner Melay. Mr. Melay declares that the department

used every effort to repair the trouble and a second trip was necessary because the men were not prepared to work in eighteen inches of water on the first trip. "The city does sewer flushing more as an accommodation than anything else," declared Secretary Eaton. "There is no money in the work. This case is just like that of a physician who is called out on a case. If the patient is well when the physician arrives who pays the bill if it is not the patient."

Arrests in Iron County.

At Alpha, Iron county, two Germans were arrested, charged with making insulting remarks about the flag. When taken before the prosecutor, they were released after they signified their willingness to become American citizens. Papers were made out and the men swore allegiance to the United States. An arrest on a similar charge was made at Crystal Falls, and another in Iron River. In both instances, the men were intimidated, and not realizing the seriousness of what they were doing, they made jesting remarks about the flag, which were resented by bystanders. Each paid small fines and were released.

Last Drive This Spring.

In about two weeks the Menominee River Boom company will begin its last drive on the Menominee river. The logs in the Pine river, the farthest north tributary of the Menominee, are at present being driven, and it will take about two weeks to get these logs down to the Menominee, and then the final drive down the main river will be commenced. When the last log goes over the dam at the paper mill a method of transporting logs, originating on the Menominee over a half a century ago, will be ended. It is expected that about 14,000,000 feet of logs will make up this spring's drive, these logs coming to mills located in Menominee and Marinette. It is announced by officials of the Boom company that in the last fifty years between ten and twelve billion feet of logs have been transported from the Menominee to the mills. In one season alone there was over 700,000,000 feet of logs brought down. Next year the booms and piers will be lifted from the river.

Organize in Dickinson.

One of the most earnest and representative meetings of business men ever held in Dickinson county was convened in response to telephone calls sent out by Messrs. Fox, Kelly, Murray and Ballard, who had attended the peninsula patriotic rally at Escanaba. Representatives were in attendance from nearly every district in the county. Foster City was represented by R. W. Pierce; Sagola by John J. Flanagan; Loreto, Charles H. Baxter; John Paul, Charles Albert and others; Vulean, Wm. Kelly, B. R. Miller and Franklin Copeland. There was a large delegation from Norway. Among them were: Gordon Murray, Dan A. Stewart, Sam Perkins, Judge Brackett, Attorneys Turner and Knight, Professor Borchert, Editor Knight, Merchant Ruyitch, Joseph E. Bergeron and Postmaster Bush. Breiting was represented by A. W. Brynolson and J. A. Trevarthian. A committee was appointed to name a permanent committee to handle the several phases of the question and the following were named: Chairman, William Kelly; secretary, Chester Knight; general affairs, O. C. Davidson, E. F. Brown, Charles H. Baxter, R. W. Pierce; executive, Clinton V. Ballard, Gilbert V. Carpenter, Arthur W. Thompson, B. R. Miller, Z. W. Storrs, Swan Peterson, Gordon Murry; business men, Hon. John Daprato, August E. Brauns, John E. Anderson, Franklin Copeland, Archie P. Farrell; bankers, Richard S. Powell, Wilbur W. Thompson, D. A. Stewart; publicity, Tom A. Hanna, J. E. Knight, Walter Hosking; field, E. A. Newbauer, Anton Anderson, John J. Flanagan, Guy A. Richards, Edward Skoor, Fred Langford, John Gidson, Andrew Bjorkman; schools, Donald O'Hara, Leslie E. Butler, C. S. Borchardt, C. C. Sweeney, Gustavo A. Pizzardi, V. G. T. Rohner. It is probable that Chairman Kelly will call another meeting at an early date to receive reports from the several committees.

GREAT RESPONSE TO FIRST LIBERTY LOAN

Golden Flood of Subscriptions Continues to Pour In—Ask Individual Assistance.

Washington, May 6.—The golden flood of subscriptions to the "Liberty Loan" continue to sweep in upon the treasury today without abatement. Officials estimated that since 2 o'clock Saturday, when the last compilation was made, offers had been received by wire, totaling as much as the big aggregate made public last night, \$172,000,000. Should this estimate be correct, the total thus far approaches \$300,000,000. Thus far only the banks and wealthy individuals had been heard from. The small investor's voice has not been heard except indirectly. A program is under consideration that will enable virtually everyone in the country with only a small amount to spare to buy at least one bond.

"It is intended to make the bonds of such denominations," Secretary McAdoo announced today, "and the payments on such easy terms, that it will give every inhabitant of the land the opportunity to help."

Consideration of this and other details indicates that small investors will be permitted, in some manner yet to be formulated, to pay for bonds by installments, lasting over a considerable period of time.

WANTS PUBLIC PARTICIPATION.

Mr. McAdoo is very desirous of having the bonds placed with the actual investing public, rather than the banks, and in this he has the endorsement of the federal reserve board and most of the financial institutions with which he has discussed his program. To have the banks absorb most of the offering, or even a considerable part of it, officials feel, might be injurious to the financial system of the country to the extent to which it would tie up funds which ought to be kept in a fairly liquid condition.

To encourage individual subscriptions, treasury officials have approved a design of a button to be worn in the coat lapel, stating that the wearer is the owner of a liberty bond. Mr. McAdoo has ordered the preparation of this button in large quantities. One button will be given to each subscriber. The legend on the button has not been finally approved, but it may read about as follows:

"I own a Liberty Bond. Do You?"

The need of individual subscriptions to the loan was emphasized tonight in a statement by Secretary McAdoo.

The man who isn't afraid of his wife is a single man.

—New York receives weekly from 125 to 175 carloads of chickens, averaging 20,000 pounds to the car.

ENGLAND WORKED OUT INDUSTRIAL CHANGE

M. S. Amos, With British Commission, Tells How Country Was Reorganized.

Washington, May 6.—Great Britain's transformation of her great industrial system for war purposes was described here today by Maurice S. Amos, the British munitions expert, who was one of the chief factors in working out the change. Mr. Amos told of some of the many things he had been laying before American officials since he came to Washington with the Balfour mission, to give the United States the benefit of England's experience.

"England's industry, which before the war was unorganized," he said, "had gradually to be diverted from the usual channels to specific war work in four different ways. First, was the regulations under the defense of the realm act, in the early days of the war, under which speculation in war necessities was absolutely prohibited by requiring a government license. This, of course, restricted and stabilized such dealings and gave the government a semi-control through its influence over dealers. The attempt to do away with middle-men entirely, however, failed absolutely."

WAR GOODS GIVEN PREFERENCE.

"Secondly the railroad executive committee, which has an even greater control than your kindred body here, gave priority to war goods, with such results that manufacturers desired to be classified as war manufacturers in order to secure immediate transport.

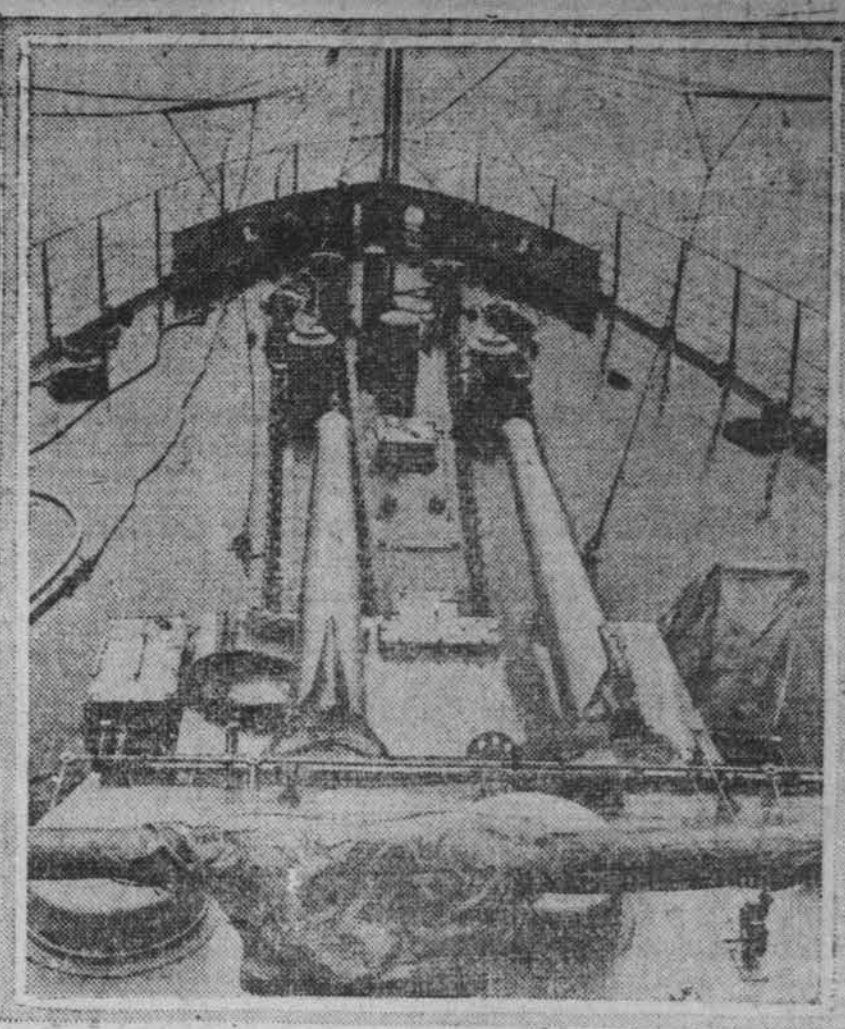

"Third, the exemption from military service of men engaged in war necessities made many manufacturers change over from general trade to war work in order to secure general stability.

"Most of all, however, in this re-adjustment, was the priority committee, of the ministry of munitions. At first the committee itself had divided manufacturers into three classes of very different degrees of national urgency. We endeavored to elicit all work on the basis of its war importance and cover every contract in such way as to keep the most important work always first.

"Three classes of work were soon made public and the aid of every individual in the kingdom asked. First was class A, for immediate war work, to have precedence over everything else in securing supplies, labor, transportation. The second group, class B, we described as work looking to the maintenance, without extension, of the present industrial plants and stocks. Class C we described as other work, especially foreign trade."

The soil in back yards is apt to be heavy. A liberal supply of coal ashes worked into the soil when spading will help.

TURRET GUNS OF THE LOUISIANA.

Two of the four 12-inch turret guns of the U. S. S. Louisiana, one of Uncle Sam's most powerful pre-dreadnought type of battleships.

GREAT FOOD RIOTS OCCUR IN SWEDEN

Many Cities Scenes of Disturbances Caused by Shortage of Stocks of Rations.

Stockholm, May 6.—via London, 10:55 a. m.—Women who stood in line to buy potatoes in the southern part of Stockholm yesterday became unruly when informed that the stock was exhausted and began a demonstration which assumed proportions that kept the police busy until after midnight. Several policemen were injured by stones thrown and a number of the rioters received scalp-wounds from the police sabers. Sixteen arrests were made.

RIOTING IN OTHER CITIES.

Serious rioting also occurred in Gothenburg. It was begun by buyers who demanded bread from the bakers without presenting bread cards. When they were refused supplies, they began taking bread by force, often without paying for it. This procedure was eventually extended to the butcher shops which

were plundered until a troop of Huzzars was summoned. The soldiers were kept busy during the night and several of them were injured by stones, other missiles. Ten of the rioters were taken to hospitals. Many other persons were injured, but went home.

Hunger demonstrations occurred at Norrköping on both Friday and Saturday. Butcher shops there were plundered, chiefly by factory girls, of whom many were arrested.

No potatoes are to be had in Stockholm and many other cities and villages of Sweden.

MANAGER WESTON ARRIVES.

Succeeds Otto Snyder in Charge of Stone & Webster Companies.

W. L. Weston, new general manager of the Houghton County Electric Light company and the Houghton County Traction company, arrived Saturday and has assumed his duties. Mr. Weston succeeds Otto Snyder, who has been acting as manager since Gardner Rogers was transferred to Woonsocket, R. I., some months ago. He has been manager of the Paducah, Ky., Light and Power company for the past seven years and before that has been connected with other Stone & Webster companies in the south.

DISTINGUISHED JURIST COMES.

Judge Wiest, of Lansing, to Act for Judge O'Brien This Week.

One of Michigan's most distinguished jurists, Judge Howard M. Wiest, of Lansing, presiding circuit court judge of Michigan, will be in Houghton today and will remain for a week.

Judge Wiest comes to act for Judge O'Brien, trying cases in which the latter had an interest as an attorney before coming to the bench. There are in all seven of these cases, some of them of peculiar interest.

WHEN TWO GREAT ACTORS DIED.

It has been my fortune to encounter two rather startling coincidences in connection with the death of Mr. Booth and John McCullough. The night that Edwin Booth died I was taking supper in the dining room of the Players' club with three friends. There were no other men in the club. It was about 2 o'clock in the morning. We, of course, knew that Mr. Booth was ill, but his death was not expected immediately. While we were talking over our meal, suddenly every light in the club went out. My companions began to call for the waiter and protest loudly. From the darkness right at our elbow a voice, that of Mr. McCullough, the manager of the club, said: "Hush! Mr. Booth is dead!"

The day Mr. McCullough died I happened to be studying the play "Cymbeline." I was reading the song in Act IV:

Fear no more the heat of the sun,
Nor the furious winter's rages;
Thou thy worldly task hast done,
Home art gone and 'tis thy wages;
Golden lads and girls all must,
As chimney sweepers come to dust,
When a friend of mine opened the door of my room in the Sturtevant house and said: "McCullough's dead."—E. H. Southern in Scribner's.

SCULPTOR HEADS ACADEMY.

Herbert Adams, the sculptor, has become president of the National Academy of Design at its annual election of officers, J. Alden Weir, the retiring president elected last year, refusing to serve again.

The new president of the academy was born in Vermont in 1858. After attending the Institute of Technology in Worcester, Mass., and the Normal Art School in Boston, he spent five years in the study of his art in Paris. There he made his first notable portrait bust, that of Miss Adeline V. Pond, who later became his wife. The delicacy of Mr. Adams' art has been shown to great advantage in his busts of women. In public work some of the sculptor's most important achievements are to be seen in the two bronze doors of the Vanderbilt Memorial in St. Bartholomew's church in this city and the bronze doors representing "Fidelity" in the Library of Congress at Washington.

He did the colossal statue of Light in the electrical tower at the Buffalo exhibition and the Victories lining the avenue in the approach to the Dewey Arch, erected to honor America's naval hero. Mr. Adams has done notably fine work in medallions and other work in relief. He has been very successful in polychromatic sculpture and later in the combination of marble and bronze and marble and gilded wood in his sculpture.

Copper Country

FINNS TO CELEBRATE OVERTHROW OF CZAR

Copperdom Finnish Residents to Participate in Big Program on May 27.

A celebration, national in character, that probably will bring together the largest number of people of any one race in the copper country will take place at the Amphidrome May 27. It will be a fête of the Finns in celebration of the overthrow of Russian autocracy.

Finland probably has contributed to the copper country a greater population than any one race. They are from a former independent country that long has suffered under the iron rule of the Romanoffs and the overthrow of that dynasty and the freedom of the Russian people, which means the freedom of the Finnish people if not of Finland itself, gives them naturally great joy.

Details of the celebration have not been worked out, but it is understood that Oscar J. Larson of Duluth, former prosecuting attorney of Houghton county, one of the foremost Finns in America, has been invited to be the principal speaker.

The gathering will be of all Finns of the copper country. The race in this country has divided with socialism as the line of demarcation. This line is to be forgotten for this occasion. All Finns, including all societies, churches, political organizations, all of them will unite for this occasion.

Such details as a big parade, an immense mixed choir and entertainment features are promised, but are yet to be worked out.

Poles Also Celebrate.

Rather more significance than usual attaches itself to the celebration announced for next Sunday by the Polish people of Painesdale. It is in observance of the anniversary of the adoption of the Polish constitution, the Polish Fourth of July in a way.

Constitution government is coming in to its own these days. Crowns are toppling off and it may be that a few of the wearers thereof will be head shorter ere long. Poland's struggle for liberty has been one of the inspirations to oppressed peoples for centuries. The Polish people can put rather more heart into their celebration this year, and the Painesdale arrangements indicate that they will do just that.

The celebration opens with a high mass in the Painesdale Catholic church. It will be followed by a parade of the Polish societies to the Finnish hall, where addresses will be made by Rev. Father Jakstys, in Polish, and Superintendent F. A. Jeffers of the Adams township schools, in English.

In the evening in the same hall there will be presented a historical Polish drama, the plot of which revolves around Poland's struggle for liberty.

Charles Adkins, twenty-three years old, and Miss Linnie Fox, thirty-nine years old, both of Hopkins county, Ky., were married recently. Adkins said his bride nursed him when he was a small boy. "She did not believe me then when I told her that when I grew up I would marry her, but I meant it just the same," Adkins said after the ceremony.—St. Louis Globe-Democrat.

M. C. M. ORGANIZES ENGINEER BATTALION

President McNair Announces Call for This Unit Has Been Responded to by Alumni.

A battalion of United States engineers, to be known as the Michigan College of Mines battalion, is the result of an address delivered by Colonel J. P. Petermann, of Calumet, at the banquet of the Alumni association of the Michigan College of Mines a week ago.

After a lapse of one week, President F. W. McNair, of the college, was enabled to give on Saturday the announcement that the battalion virtually is organized, officered and manned. The cheerfulness with which this strong and important military unit was brought into existence indicates the patriotic intent of the copper country.

The battalion will consist of three companies of which the Calumet Engineers, now the only company in this branch of the service in the state, will be Company A. The members of the Calumet company cheerfully accede to the merging of their company with the Michigan College of Mines battalion and the loss of its identity as a company representing the Calumet community. They do this for the common good of the copper country and because of the high regard they have for alumni of the Michigan College of Mines, who have been their leaders in both civil and military life. Captain Ralph Loveland, of the Calumet Engineers, is a graduate of the college in the class of 1914.

Scope of the Plan.

The plan of the battalion organization is this: It will be known as the Michigan College of Mines battalion of engineers of Michigan in the National Guard of the United States.

It will be officered by alumni of the Michigan College of Mines, with the exception of present vacancies in the Calumet company, which will be filled from among the membership of that company.

The Calumet Engineers will be Company A. Companies B and C will be wholly new, with the exception that their non-commissioned officers will for the most part be drawn from the Calumet company in order to facilitate the training and organization of the companies.

The organization will be completed this week, with the companies up to full peace strength at least, and the battalion will be mustered into the service of the state within ten days.

Within a month it is confidently expected the battalion will be equipped and mustered into the service of the United States and in active training at some mobilization camp.

As soon as the preliminary organization is effected non-commissioned officers of the Calumet company will begin drilling the recruits.

The Principal Officers.

The alumni committee canvassed the list of the alumni thoroughly and has selected the principal officers for the new companies, which selections have been recommended to Governor Sleeper for commissions, as follows:

For major, Benjamin W. Vallat, class of 1901, of Detroit. Mr. Vallat has had experience as an engineer in the copper and iron counties of Michigan, in the iron country of Minnesota, and in the mines of Wyoming and Colorado. Formerly mine at Ironwood. For the last few years he has been engaged in manufacturing principally war munitions, at Walkerville, Ont. He is now president of the Dominion Forge and Stamping company, of Walkerville.

For adjutant, Ira G. Penberthy, class of 1907, Calumet, who has been for several years an engineer for the Calumet & Hecla, and was for some time a member of Company A. As adjutant in the battalion, he will take the rank of captain.

For supply officer (to rank as first lieutenant), W. E. Lewis, class of 1911. Before and since his graduation he has had experience on the Marquette range, at the Ojilway, at the Shannon mine, and with the Chino Mining company. He is now at Ewen, where his father is ill.

For captain of Company B, Harold M. (Sig) Schmidt, class of 1915. Besides experience before graduation, he has worked since for a time at the Isle Royale mine, been mine foreman at the Green Monster in Nevada, and is now in the efficiency department of the Calumet & Hecla. Mr. Schmidt has martial blood in his veins, his father, a Saginaw banker, having been lieutenant colonel of the 33d Michigan during the Spanish American war.

For captain of Company C, Carl G. Smith, class of 1909, son of Fred Smith, once head of the Wolverine and Mohawk mines. He has had experience at the Calumet & Hecla, and on the Gogebic range.

For first lieutenant of Company B, Eryon S. White, graduating this year, a member of Tau Beta Pi and toastmaster at the recent senior class banquet. White's father was in charge of the Michigan smelter when the plant was being erected and later went with the Braden Copper company. Mr. White is now in the employ of a British syndicate operating mines in Russia.

For first lieutenant of Company B, W. H. Clark, a former student, who is now in the underground department of the Calumet & Hecla and was formerly a member of Company A.

For first lieutenant of Company C, Harold L. Parrish, just graduating, who

GOOD WILL FARM TAG DAY.

Charitable Effort Cannot be Relaxed Because of War Appeals.

Mrs. L. J. Donaldson, superintendent of Good Will Farm, yesterday announced that the annual tag day for the benefit of the farm will be on June 2.

"I realize," said Mrs. Donaldson yesterday "that the people of the copper country have had to meet numerous demands for money and that they have responded generously. But they must be reminded of the fact that in spite of the war and the responsibilities it entails, in spite of the cry for help from Belgian children, these poor upper peninsula children of Good Will Farm also are dependent on their bounty. I would be very happy indeed could I remove this burden from a generous public, but I cannot and so will again make an appeal through a tag day effort."

MARQUETTE PROOF.

Should Convince Every Marquette Reader.

The frank statement of a neighbor, telling the merits of a remedy, bids you pause and believe. The same endorsement by some stranger far away commands no belief at all. Here's a Marquette case. A Marquette citizen testifies. Read and be convinced.

Michael Conway, 541 Spring St., Marquette, says: "There is no doubt but what Doan's Kidney Pills are all right and I will tell anybody about them. About five or six years ago, when I was working in the woods, my kidneys were in bad shape and I felt had all over. My back bothered me somewhat, but what caused the most trouble was the irregular action of my kidneys. The kidney secretions were highly colored and contained a brick-dust-like sediment. Doan's Kidney Pills relieved me of the trouble."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Conway had. Foster-Milburn Co., Props., Buffalo, N. Y.

IMMUNE.

"I am delighted to meet you," said the father of the college student, shaking hands warmly with the professor. "My son took algebra from you last year, you know."
"Pardon me," said the professor, "he was exposed to it, but he did not take it."—Christian Register.

NOTES OF SPORT

Scouts for major league clubs are watching the work of "Chief" Myers, the big first baseman on the Notre Dame University team. Myers is believed to be one of the hardest hitting collegians in the country.

"White" Dillon, a member of the Ohio State University championship football eleven, is now a member of the navy, having enlisted as a private. He has been assigned to duty on the mosquito fleet, which will patrol the coast to guard against U-boats.

The board of managers of the Central A. A. U. will meet in Chicago May 14 to award the following championships for the season: Junior track and field, senior track and field, all-around track and field, junior cross-country run, senior cross-country run, ten-mile run, senior swimming events.

James C. Dunn, president of the Cleveland Americans, is casting about for an outfielder to strengthen the club hitting. Dunn passed up an opportunity to purchase Sam Crawford, the veteran of the Detroit club, and is now wishing that he hadn't. In view of his recent hitting, it is considered likely that Detroit will retain the veteran.

Military training is finding its way in the spring football training camps. Jack W. Wiloe, coach of the Ohio State University eleven, is instructing his players in handling "wounded comrades." The squad members pair off, hoist their partner on their shoulders and race twenty-five yards. They then pair off in reverse order and repeat the performance. Wiloe says the exercise strengthens the leg and back muscles.

The third annual Chicago automobile derby, scheduled for June 9, has been set back until June 16, because of a desire to give the drivers more time after the Cincinnati Memorial Day race to repair any cars which might be damaged in that event. The race will be for 250 miles. The prize money has been set at \$21,000. The first ten drivers to finish will divide \$20,000, and \$500 will go to the leader at the end of 100 and 200 miles. Practically every well known driver in the country has said he will compete.

Because his jaw was broken in a contest decided before the Minneapolis Boxing club, Joe Burger, a lightweight, is suing the club and its officials for damages under the workmen's compensation act. Burger alleges he was regularly employed by the club to "work" in a boxing contest with Alvie Miller, of Loraine, O., on Feb. 9. Miller, his "fellow employe," swalloped him so hard that his jaw was fractured. He has been unable to work at his profession since. Normally Burger says he is capable of earning \$35 a week. He demands approximately one-third of that amount, or \$11 a week since the date of the injury, according to terms of the compensation act. He also asks for \$200 paid for medical treatment.

The efforts to increase the production of foodstuffs in Indiana on account of the war is playing havoc with the track team of Purdue University. Several track stars are seniors in the agricultural school and more than forty members of the graduating class in this department have been sent out to assist Indiana farmers and town-let gardeners in raising bumper crops. Track Coach O'Connor, however, is hopeful that a plan can be arranged whereby the athletes may be permitted to return to Purdue to participate in the track meets. Crowe, the Purdue shot putter, and Arbuckle, the conference javelin throw champion, are two men who have already gone forth to assist the farmers and their loss will be felt keenly, if they are not permitted to participate in the meets. Van Aken, captain of the track team, and one of the star runners, also may be called upon to leave school and join the corps of county assistants.

A little less than a week before the date set for the forty-third Kentucky Derby, at Louisville, finds practically everything ready for the bugle to call to the post on May 12 what may be the largest international field for the richest three-year-old race in America. Fine weather has permitted the trainers to key their charges up to the racing point and if the race was to be decided today, a formidable field could be sent to the post. Almost all of the twenty-five foreignbred colts that were nominated are doing all that their trainers ask of them and it is likely that the number of starters will be greater than ever before. Probably four countries will be represented. Treviso is Irish bred; La Chiesone came from France; and of the twenty-three others bred in England, the most prominent are North Star III, Omar Khayyam, Jack Mount, War Star and King Herod. Against these foreign stars are entered among others, such Eastern cracks as Rickety, Ticket, Tumbler, Crack O'Day, and Top O'Wave, and Harry Kelly, Cudgel, Green Jones, Midway, Berlin, Milkman, Westy Hogan and Acabado from the West. Most of them are now in Kentucky and some of the trainers will send their charges to Lexington for a year or two as a final preparation for the Derby. Matt Winn, general manager of the new Louisville Jockey club, is preparing for the largest crowd that ever visited historic Churchill Downs. All the boxes, including forty built this spring, have been sold. A free paddock is an innovation to be introduced Derby Day. All persons entering the track will have access to the paddock without

the customary extra charge. The fence separating it from the grandstand has been removed, thus adding further space to the extensive lawn. It is estimated that 10,000 persons, who lack the \$2 admission to the track, will take advantage of the center field, which is free on Derby Day. Arrangements have been made for seventy pari-mutuel machine ticket sellers and a like number of cashiers to care for the betting. This is the largest single force that ever operated these machines in Kentucky.

Now that the definite announcement has been made that the annual Decoration Day speedway race will be held on the track at Sharonville, Ohio, this year, instead of at Indianapolis, drivers from all parts of the United States and some sections of the war zone of Europe are getting into communication with the Cincinnati management with a view to starting in the 250-mile classic. The sanction for the race and its conditions have been received from Secretary Kennerdel, of the American Automobile association, and drivers have already assured the management they

will be out in sufficient numbers to make the race exciting, even should there be no additions to the list of starters already pledged, either by mail or telegraph. The first foreign drivers to send in their entries were Josef Christians, the Belgian star, who is in the aviation corps of his country in Flanders, and Enrico Cagno and Jack Scales, who have been attached to the Italian army. Another noted driver who is expected to start is Eddie Rickenbacker. He was a member of the Indianapolis Speedway team last year. Dario Resta, who won the international championship last year, also has been heard from in connection with the Decoration Day race and indications are that Ralph De Palma will enter two American made cars in the race. Billy Chandler has informed Manager Harry Shosley that he will have two, and possibly three, cars in the race. Other prospective starters are Ralph Mulford, Ira Veil, Louis Chevrolet, S. Ostewig, Fred Duesenberg, and L. C. Erbes. Gil Anderson, H. Atkin, and other speed demons who took part in the last Labor Day race, are still to be heard from,

but it is confidently expected that as soon as they receive entry blanks they will send in their acceptances.

NO LONGER FOR GERMANS.

The disposition of the scholarships for Germans, established at Oxford by Cecil Rhodes, which has caused debate in England since the war destroyed Rhodes' hopes for rapprochement among Great Britain, Germany, and the United States, which should guarantee permanent peace, has reached a partial settlement. The statement of the Rhodes trustees for the last year, copies of which have just reached this country, contain the announcement that by an act of Parliament, adopted on petition of the trustees, the German scholarship provision, which was made in a codified form, and hence could be nullified without affecting the Rhodes bequest in its entirety, has been canceled. The scholarships thus set free," says the trustees, "will be distributed among communities within the British Empire not provided for under the will."

While the statement does not say so,

it seems probable that this may mean India, Canada, Newfoundland, Australia, Tasmania, New Zealand, South Africa, Bermuda, and Jamaica are already provided for by the bequest, and the suggestion has been made in England since the war began that the loyalty of India to the Empire made such recognition most desirable.

The German scholarships were decided upon by Rhodes after he had formed his plan for bringing Americans and Colonials to Oxford. Rhodes was a great admirer of William Pitt, and the Kaiser's decision to teach English in the schools of Germany inspired Rhodes to include Germans in his Oxford plan. The position of the German scholars was different from that of Colonials or Americans. There were only nearly a hundred Americans, as against nearly a hundred Germans, and about eighty Colonials. They received \$1,250 a year, as against the \$1,500 given to the others; on the theory that they would spend the twenty-eight weeks of the year which Oxford allows to vacations at home. Instead of leaving the choice to local authorities, as in the United States and in many of the

colonies, they were appointed by the Kaiser or in practice, by his Minister of Education.

HOMES FOR JEWISH CHILDREN.

The Children's Home Bureau of the Department of Public Charities, New York city, has issued an appeal for homes for Jewish children. The bureau wishes foster parents for some children until their own parents are able to take care of them, while for other children permanent homes are wanted. Payment of \$13 a month is made for the care of each child. In the last six months the bureau has cared for over 500 children in private homes. This includes Catholic, Jewish and Protestant children, each being placed in a home of its own faith.

RHEUMATISM.

If you are troubled with chronic or muscular rheumatism give Chamberlain's Liniment a trial. The relief from pain which it affords is alone worth many times its cost. Obtainable everywhere.—Adv.

LUCKY STRIKE
LUCKY STRIKE

LUCKY STRIKE

cigarette

It's

toasted

THINK of a cigarette "served" to you as appetizingly as the hot, buttered toast that comes to your breakfast table.

Well, that's the idea on this new Lucky Strike cigarette: the tobacco—it's toasted. There's a thought to make your mouth water for a new cigarette flavor.

Until we discovered the toasting principle, a good ready-made cigarette from Burley tobacco wasn't possible; flavor wouldn't hold.

Yet there was the big million-man-power affection for Burley—60 million pounds poured from those green, blue and red tin boxes last year.

The old kitchen stove—the toasting fork

So we worked five years—then came the big simple idea of toasting the tobacco to hold the flavor. Now, enjoy a really delicious new cigarette flavor: Lucky Strike—the real Burley cigarette—it's toasted.

National Gas Range Week

May 7 to May 12

SPECIAL!

A \$2.50 Aluminum Kettle with Safety Cover given with Detroit Jewell Ranges—This Week Only

Michigan Gas & Electric Co.

THEATRICAL.

A lecture by a trained nurse, Mabel L. Briggs, and motion pictures on "Twilight Sleep" will be the attraction at the Ishpeming theatre today and tomorrow.

This afternoon and evening, and tomorrow afternoon, only women will be admitted, and tomorrow night only men over twenty-one years of age.

Walthall at Butler Tonight.

Henry B. Walthall, America's foremost actor, with Mary Charleson, will be seen tonight at the Butler theatre in "Burning the Candle," an Essanay production.

ISHPEMING IN BRIEF.

Sodergren Bros. are painting the interior of the fire hall. Miss Loretta Gallery has returned from Chicago, where she visited for a couple of weeks.

Harold, John and Conrad, and one sister, Miss Antella Trosvig, all of whom reside in the city.

Several thousand trout fry will be received here this week and will be taken to the streams by local sportsmen.

The monthly meeting of the board of directors of the Y. M. C. A. will be held this evening at the "Y" building, with a lunch at 5:45.

The Marquette City Gas & Electric company, now known as the Michigan Gas & Electric company, will this week observe National gas week, during which there will be a special sale of Detroit Jewell gas ranges.

Dr. V. H. Vandevanter left last night for Chicago, where he will spend a couple of days before going to Battle Creek, to attend a meeting of the State Medical society.

Miss Kate Dorothy, who has been located in Missoula, Mont., for some years past, visited here for a short time last week, stopping off on her way to New York, where she will spend a week of her days purchasing merchandise for The Missoula Mercantile company.

The funeral of the late Charles Forsberg was held yesterday afternoon from the Swedish Lutheran church, Rev. J. E. Borg, the pastor, conducted the services.

Winifred Wahlman, eldest son of Mayor J. S. Wahlman, has received an appointment to Annapolis and will immediately prepare for taking the examination.

The officials of the Marquette County Gas & Electric company, who control lighting and traction plants in a number of cities in the Northwest, have changed the name of the local concern to the Michigan Gas & Electric company.

Harry Johnson, son of J. L. Johnson of this city, who for the past several years has been located on the Mesaba range, recently accepted a position in Minneapolis, where his family will make their home in the future.

TO KEEP MEXICAN ART.

The taking from Mexico without government authorization of objects of art or archaeological interest which have been in the churches has been strictly prohibited on the ground that such objects are the property of the nation.

CHAMBERLAIN'S TABLETS HAVE DONE WONDERS FOR ME.

"I have been a sufferer from stomach trouble for a number of years, and although I have used a great number of remedies recommended for this complaint, Chamberlain's Tablets is the first medicine that has given me positive and lasting relief."

Fifteen Are Accepted.

Mr. Thoms Saturday received notices of the acceptance of fifteen young men out of twenty-nine who enlisted in the navy. This is the best showing of acceptances to the credit of the Ishpeming office.

Those who have been accepted are: Albin A. Tassolri of Palatka; Samuel H. Montombo, of Pentago, Mich.; Oscar W. Dahlgren, of Alpha, Gustav W. Anderson, Iron River; Leo A. Carriere and James H. Thompson, Gladstone; Thomas J. Paul, Jr., and Richard A. Velenza, Ishpeming; Harold W. Johnson, Florence; Russell A. Schulte, Calumet; George D. Gren, Matchwood; John H. Olson, Escanaba; Fritzjof C. Aas, Mimsing; John A. Peterson, Ontonagon; and John S. Erickson, Crystal Falls.

Those rejected are Edward S. Masters, Munising; Albert J. Blomberg, Edward W. Sivertsee, George B. Leighlan and Carl A. Grand, Escanaba; Guy E. Brasen, Houghton; Merle W. Schlepely, Ford, Mont.; Baden Sincor, Hancock; Harold E. Criller, Calumet; Edward N. Moline and Fred J. Bregger, Crystal Falls; Harold L. Reil, Norwalk, Conn.; Ray Bergerson, Eureka, Mont.; Percy Hughes, Iron Mountain and F. Beck, Crystal Falls.

A SYMBOL OF HEALTH.

The Pythagorians of Ancient Greece ate simple food, practiced temperance and purity. As a badge they used the five pointed star which they regarded as a symbol of health.

BOSTON COPPERS.

Ishpeming, Mich., May 6.—Prices were slightly lower today. The features were a point re-acton in Anaconda and Kennecott and an advance of 1/2 points in Utah Copper. There has been considerable comment in regards to the Utah Copper quarterly statement. At first it was interpreted as bearish. However, after more careful scrutiny the actual net receipts from all sources seem to be above those of the preceding quarter. Alaska Golds quarterly report indicates an operating profit of \$113,000. Greene Cananea's April production was approximately 800,000 pounds under the March figures. According to New York statements, it is now estimated that the U. S. Government requirements for remainder of 1917 will amount to about 450,000,000 pounds of copper. East Butte produced in April 2,081,000 pounds. The news from abroad was more assuring, especially that in regards to Russia. At the present, the Government bond issue is attracting considerable attention, but when this is out of the way and it is found the bonds are oversubscribed, as has been predicted, we believe it will have a

MUSCLE SORENESS RELIEVED.

Unusual work, bending and lifting or strenuous exercise is a strain on the muscles, they become sore and stiff, you are crippled and in pain. Sloan's Liniment brings you quick relief, easy to apply, it penetrates without rubbing and drives out the soreness. A clear liquid, cleaner than musky plasters or ointments, it does not stain the skin or block the pores. Always have a bottle handy for the pains and aches of rheumatism, gout, lumbago, grippe, bruises, stiffness backache and all external pain. At your druggist, 25c.—Adv.

Negaunee Department

LOCAL FISHERMEN VISIT TROUT STREAMS

Hundreds Go to Carp River and Morgan Pond Seeking Catches —Weather Interferes.

Hundreds of Negaunee men and boys spent Saturday and yesterday at nearby lakes and streams seeking the elusive trout. Some of the anglers only ventured a short distance from the city, while some of the more enthusiastic went to streams fifteen and twenty miles distant.

The Carp river near the city cemetery, and Morgan Pond were the most popular resorts yesterday, and scores of fishermen could be seen coming and going to fishing "holes" at all hours of the day. The banks of the Carp lined with anglers and all seemed to be meeting with success.

Saturday and yesterday were busy days for the game wardens and Deputy Rough was out until long after dark. "You can talk about fishermen at the ocean resorts, well the seaside was nothing compared to the banks of Morgan Pond Saturday," said Mr. Rough, yesterday. "The anglers were out at daylight and I never saw so many at one small body of water before at any one time. From Morgan pond and on the Morgan creek to a point opposite Morgan Heights, a distance of a half mile, I counted forty-seven fishermen and over half of them were boys. Every boy that could get a couple of old railroad ties together had rafts and were out in the center of the pond. Up until noon I only counted a dozen fish among the whole bunch.

"A cold northwest wind was blowing and there is considerable snow along the banks of Morgan creek, and the hillsides are still covered with snow so that practically all of the fishermen had fires burning to keep themselves warm. I do not think that there will be any good fishing until the wind changes to the south and the weather warms up a lot.

Will Kill Dogs in Woods.

"The members of the game commission's department all have orders to carry their rifles with them during this time of the year and we have special instructions to shoot all dogs running loose in the woods on sight. There are several hound dogs being permitted to run loose in the woods north of the city and I hope that the owners will tie them up before I am compelled to shoot them. Dogs running at large molest the deer, which are coming into the clearings at this time.

LOCAL LONICONS

The residence of Sam Goodman, on Jennings street, is being remodelled.

Mrs. Fred Jackson of Duluth, is spending a few days in the city visiting with relatives and friends.

Miss Bessie Blacker, of Chicago, arrived in the city yesterday to spend a few weeks visiting with friends.

Miss Hilda Palo, bookkeeper at the Finnish Co-Operative store, spent the weekend at Marquette visiting with friends.

Mrs. Thomas Scoulen, daughter Marie, and son Joseph, arrived home yesterday morning from Chicago, where they spent a few days visiting.

Azel Snob and family, who have been living at Eagle Mills for the past two years, have moved to the city and have taken up their residence on Jennings street.

Charles Jewell, eldest son of Captain Samuel Jewell, arrived in the city yesterday morning from Bisbee, Ariz., to spend a few weeks visiting with his parents.

The city electrical department will begin work today installing an arc light on the roadway between the C. F. & L. company's office and the C. & N. W. Railway company's water tank.

The purchasing committee of the city council has been authorized to buy a steel flag pole, similar to the one in use in the high school yard, to be used in the city square opposite the city building.

Cladya Mae, the seven-year-old daughter of William Hess, entertained thirty-five of her little friends at her home Saturday afternoon with a birthday party. The feature of the party were a number of patriotic surprises, which were given those present.

William Argall Sr. took his first ride in his new Ford automobile yesterday and came to grief before he had driven the machine half a block. Mr. Argall had only been given two hours instruction in running the machine when it was turned over to him with the understanding that he was competent enough to handle it properly. He got it started with the help of friends and as he was rounding the corner near his home on Gold street a car from Ishpeming crossed his path and becoming confused he steered the machine into a high board fence. The car escaped damage, but a large strip of the fence was ruined.

NOTICE TO COAL DEALERS.
The city of Negaunee will receive bids on 2,500 tons of 1/4 in. Youghbiogeny soft coal F. O. B. coal trestle up to Wednesday, May 9, 1917 at 5 p. m. Alfred Bellstrom Superintendent. 5-3-6t.

WANTED—Girl for general housework. Apply Mrs. Ted Butler, 324 Gold St. 5-1-6t

FOR SALE—Forty acre farm about two miles from Negaunee. Thirty acres are cleared. Inquire at Mining Journal office, Negaunee. 5-3-6t.

WELLKNOWN FINN DIES.

K. O. Sarista, Prominent Socialist, Died Suddenly Yesterday at Labor Temple.

K. O. Sarista, one of Negaunee's best known Finnish residents, died suddenly yesterday morning at the Labor temple. He was in apparently good health when he retired Saturday night, but yesterday morning at about 11:30 groans were heard from his room. Occupants of the temple went to his room but found him sleeping. At noon his room was again visited and he was found dead.

Sarista was about forty years old and was single. He had been a resident of Negaunee for the past ten years and was employed as a clerk. He was prominent in labor circles and was the secretary of the Western Federation of Miners in Negaunee. He was also secretary of the Workers Hall company, which controls the Labor temple. He had made his home at the Labor temple for the past year. Arrangements for the funeral have not yet been completed.

BROKE AUTO WHEEL.

The first automobile accident of the season in Negaunee occurred Saturday afternoon, when James Battoni, driving a new Oakland five passenger car, ran into the curbing at the corner of Main street and Pioneer avenue. Mr. Battoni was forced to run into the curbing to save himself from crashing into a horse and driver. The man with the horse was coming down the wrong side of Main street and as Mr. Battoni saw him too late to avoid a collision turned into the curb. The left front wheel of Mr. Battoni's car was demolished, but the machine was not otherwise damaged. None of the occupants were hurt.

STAR THEATER TONIGHT.

"The Happiness of Three Women," adapted from the screen by the Oliver Morosco Photoplay company from Albert Payson Terhune's thrilling drama of social life, marks the return to Paramount pictures favorite, who enjoys the distinction of having appeared in the productions of two other Paramount producers, the Famous Players and Lasky companies. He is now co-starring with the captivating Myrtle Stedman, and the stellar combination will undoubtedly delight discriminating photoplay followers. "The Three Sparks" will be the extra vaudeville attraction tonight and tomorrow.

SILENT COPS ORDERED.

In order to avert automobile accidents at some of the city's most prominent street corners the city council has authorized the purchase of a dozen silent policemen for motorists. The "coops" will be located on the principle streets and will be put up as soon as they are received.

NAMED BY GOMPERS

R. M. Andrews, of Menominee, has been named as a member of the committee on labor of the council of national defense by Samuel Gompers, head of the American federation of labor. The letter of notification from Mr. Gompers to the Menominee man says: "Each member of the advisory commission of the council of national defense is in charge of a special committee responsible for specific work. The undersigned is chairman of the committee of labor, including conservation of health and welfare of workers. As chairman of that committee I am asking a number of men and women, not confined to any walk of life to contribute of their time and ability to the work of this committee."

Upper Peninsula

Broke Into Station.

Charged with breaking into the Caspian station and stealing rubber boot tops, beer and whiskey last Tuesday Joseph Gobart and Angelo Albert, of Caspian, were arrested and after being found guilty were sentenced to thirty days in the county jail. The pair also paid costs of \$10 each. Allen Gobart, section foreman, was found guilty of receiving stolen goods, and he was fined \$10 and costs.

"More Daylight" at Escanaba.

In Escanaba on Sunday, May 13, the clocks and watches of the city will be turned ahead one hour, and Monday everything will be started off on the new schedule. The manufacturing plants, the Escanaba Manufacturing company, the I. Stephenson company and the Birdseye Vencer company are favorable to the plan and are working hard to have the change in time established generally in the city.

Minimum Price Fixed.

The gardening committee appointed by the Patriotic league of Iron River district is deluged with applications for land. The belief that because so many people are to plant potatoes, potatoes will be cheap next fall, has been entirely dispelled. At a meeting of the Patriotic league, the members voted to give a contract to any farmer in the county, guaranteeing him seventy-five cents per bushel for all the potatoes he grows. The same action was taken by the business men of Crystal Falls and other sections of the country are taking similar action.

Soo Company Filling Up.

There won't be any room in Company M for Soo boys after Monday, if Manistig sends the men it has promised, according to reports from Fort Brady, which indicate that the Soo's home company will be mustered to full strength by the first of next week. Four men apply at the oo ll. shrdlunfymfwppyypld for enlistment at the Soo recruiting office and were sent to Fort Brady. They are Paul Pater, 1004 East Portage avenue; Chester Smith, 512 Ridge street; Michael Wagner, 121 West Portage, and Torvald Christenson, of Salt Lake, Mich. Word was received at Fort Brady that officers will be allowed to take married men in the militia if their families have means to make them independent and not likely to become wards of the state.

What Is Mattcote?

MATTCOTE is a full-bodied oil paint without gloss that comes ready for use. It dries to a soft, velvety finish that is agreeable to the eyes and meets all requirements of modern home decoration.

It is made in shades and tints to suit your every need. It makes a beautiful, non-fading background for pictures and furniture. It can be washed and will last five or more years where other finishes must be done every year. Mattcote can be applied by anyone. It can be used on plaster, woodwork, stucco, burlap, composition board, metal or even over wall paper. It is applied similarly to kalsomine and a gallon will cover from 500 to 700 sq. ft.

MATTCOTE WEEK
From May 7th to 12th we will have a Special Mattcote Display in our store. We invite you to stop in and examine the beautiful displays of this splendid material. We will be pleased to give you color-cards and full information.

FR. BARTH TO SPEAK AT PATRIOTIC RALLY

Widely-Known Escanaba Orator Consents to Participate—Other Plans in Progress.

The Rev. Fr. F. X. Barth, of Escanaba, one of the best known of upper peninsula orators, will be the principal speaker at the patriotic meeting to be held in the city hall Wednesday night, at 7:30 o'clock.

Another speaker will be an Ishpeming miner, William Pryor, who stirred the citizens of that city recently by a remarkable appeal. Mr. Pryor is a Cornishman, with a message which all should hear. His talk will follow that of Father Barth's.

Arthur W. Jones, in charge of the music for the Marquette Patriotic league, is preparing an attractive program. He is now working on a new song which he will submit for approval Wednesday night.

More Men for Company M.

A number of recruits for Company M, Thirty-Third Michigan Infantry, stationed here to guard the docks, are expected this week. The company is to be recruited to full war strength, and rapid progress in this work is reported from the Soo, the home of the company.

In response to a request for blankets for the members of the company, the South Shore railroad has offered to furnish the men with all the blankets they may need and for as long a period as may be necessary. "This relieves the situation greatly," said one of the officers yesterday. "We are expecting blankets from the war department every day, but until they arrive we have to be supplied from some other source."

It is expected that the passage of the army bill will have a decided effect on recruiting here. Those who enlist before conscription is enforced will have a decided advantage over those who are drafted later on. "Those who enlist now may later on be placed in command over their pals," is the way the officers put it. The fact that the army bill increases the pay of private soldiers to \$30 a month is also an important factor, as this, with all expenses provided for, is equivalent to the salaries which the majority of young men between the ages of nineteen and twenty-five are now receiving.

SOUTH SHORE DOCK CREW BEGINS WORK

Will Start Filling Pockets Today—No Boats Expected for Several Days.

Activities at the D. S. S. & A. dock will begin today, when a crew of about fifteen men will be placed at work, filling the pockets with the season's first shipment of ore. It is expected early this morning. The L. S. & I. railroad began moving ore about the first of the month.

It is still uncertain, however, when the first boat will be loaded, or what that boat will be. Ice conditions outside of Marquette harbor show little improvement, the fields being so heavy as to prevent a steamer making progress in them. The ice inside the breakwater is practically gone, however.

Conditions are still unfavorable for the opening of Whitefish Bay, according to advices from the Soo. The ice there has been packed hard by northwest winds the past three days. Although the wind has shifted at intervals, it has not been strong enough to release the fleet of fifty upbound and fifteen downbound boats, which have made little or no progress the past week.

Of the conditions at the Soo, the Soo News says:

"Upbound boats which got an early start the first of the week and reached Whitefish point are in sight of the fleet of down-bound freighters, but the ice is so heavy they are unable to move either way. The Great Lakes Towing & Wrecking company tugs, the A. Adams, Illinois, and Sabon, are working their way slowly through to Lake Superior, aided by the whalebacks Nelson, Cort and Mather, and under favorable conditions should get through in a comparatively short time.

"The ice in the upper St. Mary's river and Whitefish bay is still very heavy and captains are not making much effort to get through, fearing injury to their vessels. The tug Schenck returned to the Soo with the freighter Sir Thomas Shaughnessy, which broke a wheel near Ironpoint Point. Repairs will be made here. Other boats, including the City of Bangor have returned for supplies.

"Many boats remain tied at Brady pier, others are at anchor in the river abreast of the Marquette City Dairy Co., and will not move until conditions are more favorable."

CHOICE ROSE STOCK.

I have just received a shipment of a choice lot of rose bushes, hybrid perpetual and hybrid tea and climbers, which I am now ready to deliver at reasonable prices to parties desiring them. Inquire H. E. Johnson, 606 Pine St. Phone 8293. Office phone 480.

"TWENTY THOUSAND LEAGUES."

For the first time in history a drama with the floor of the ocean as a stage has been performed, and to the astonishment of the scientific world, it has been filmed in pictures which necessarily were taken beneath the waves. The most fascinating tale of imaginative adventure, Jules Verne's "Twenty Thousand Leagues Under the Sea," has been visualized, and every one of his immortal heroes, from the resourceful Captain Nemo down to Ned Land, the harpioneer, will be shown upon the screen at the Opera House two days, next Thursday and Friday.

This superb photodramatic production will be brought here with all the embellishments that made it a wonderful hit at the Broadway theater, Chicago, and the Washington theater, Detroit, in each of which houses "Twenty Thousand Leagues Under the Sea," enjoyed a long extended engagement, playing to capacity houses each day. This spectacular production will be presented here by the Barnet Film Attractions in the same gorgeous manner that it was exhibited on Broadway and in Detroit. The same managerial staff and symphonic orchestra of thirty pieces that contributed to the success of this wondrous film spectacle during its initial engagement will be brought here with the production, promising one of the most elaborate photodramatic presentations to be brought to this city.

Princess Pine, 50c. a bunch. One bunch enough for two quarts of medicine. Phone 216. 5-3-64.

DON'T LET YOUR COUGH HANG ON.

A cough that racks and weakens is dangerous, it undermines your health and thrives on neglect. Relieves it at once with Dr. King's New Discovery. This soothing balsam remedy heals the throat, loosens the phlegm, its antiseptic properties kill the germs and the cold is quickly broken up. Children and grown-ups alike find Dr. King's New Discovery pleasant to take as well as effective. Have a bottle handy in your medicine chest for gripe, croup and all bronchial affections. At drugists, 50c. -Adv.

THIRTY-FOUR APPLY FOR TRAINING CAMP

Marquette District to Send Good-Sized Delegation—Capt. McNeal Coming Tuesday.

Thirty-seven applicants for the officers' training camp, which opens at Fort Sheridan, Ill., tomorrow, is the representation thus far from the Marquette district, according to J. C. Cannon, chairman of the examining board for the district. As no date has yet been set for the closing of applications others are expected this week. Captain J. W. McNeal, in charge of recruiting for the district, with headquarters at Escanaba, will be in the city Tuesday to examine applicants for the camp, and make final arrangements for the departure of the successful men.

The receipt by Mr. Cannon yesterday of a message to the effect that the house and senate had passed the measure which will allow every student at the camp \$100 a month salary is expected to add great impetus to the recruiting for the camp in this vicinity.

To straighten out a misunderstanding in regard to eligibility to the training camp it is stated that a college education is a valuable, but not essential, feature. Any man with experience in an executive position is wanted, whether it is at the head of a business or at the head of an important department in a business. Such men are needed especially, right now, for the first volunteer officers.

Several applicants for officers' reserve corps who have been tentatively accepted have been eagerly awaiting notice of final selection. Some civilians appear to have misunderstood the instructions, believing that the approval of their fitness guaranteed final selection. Accordingly, the central department has issued an order containing various instructions, and among them are the following:

"The fact that a man has been reported as suitable by the board which examined him and has been given the duplicate copy of application card does not authorize him to enter the camp. As noted under directions on the back of the card which he is instructed to read and follow the camp commander will select and notify 2,500 men for each camp to attend. More than the fortunate 2,500 may be certified as suitable by the boards which examine them; but of these only 2,500 may attend. The camp commander will send to each of these 2,500, except members of the engineer company, a postal-card instructing him to report. Upon receipt of this postal card the candidate will start for camp—not before."

Another question has arisen in regard to the camp: Are married men eligible? The department emphasizes the fact that married men are eligible, and, in fact, it is the middle-aged men and those having practical executive experience and ability who are particularly wanted at this time.

PATRIOTIC SERMONS.

Were Preached Yesterday in Marquette Churches by Local Pastors.

Patriotic sermons were preached yesterday in Marquette churches. At St. John's, at low mass, the Rev. Father Jodocy, the pastor, urged on the men of the congregation who are eligible for service in the army and navy, and who have no responsibilities that stand in the way of service by them, the duty of enlistment, that they may give the greatest service in their power to their country. Father Jodocy repeated the gist of sermon at the high mass, in French.

The Rev. Charles J. Johnson at last night's service at the Methodist church gave the first of a series of sermons on our allies, taking as his subject Belgium. He drew an interesting parallel between the efforts of the Spanish armies in the sixteenth century to conquer the low countries and the invasion of Belgium by Germany. The perfidy of Germany's conduct with regard to Belgium was described at length.

Hold Princess Radziwill.

PRINCESS RADZIWILL.

The Princess Catherine Radziwill, whose proposed lecture tour of the United States under the patronage of many prominent New York society women has been interrupted by her detention at Ellis Island at the instance of the United States immigration authorities, who question her right to enter the country.

IMPROMPTU MEETING WAS WELL ATTENDED

Addresses and Music Attracted Good Crowd to Company M. Camp Yesterday.

An impromptu patriotic rally at the headquarters camp of Company M., at the South Shore station grounds, yesterday afternoon, beginning at 2 o'clock, attracted several hundred persons, who listened to a program of short addresses and music by the Prison band.

The meeting was determined on by the Patriotic league late Saturday night, as an introduction for Sergeant Mahoney, who has been sent to Marquette to resume recruiting work in conjunction with the committees of the league. Despite the fact that no advertisement of the gathering was possible the attendance was gratifying, and there was marked evidence of patriotic spirit.

There were several short addresses, some of the remarks being made by men called from the crowd. James Russell spoke briefly on the importance of the work of the league and the special needs of the hour. Sergeant Mahoney, in charge of the recruiting work, and who yesterday was joined by another non-commissioned officer, who will assist him, also spoke, and there were remarks by the Rev. Charles J. Johnson, Fred Price, and finally, by John R. Van Eevera, president of the Patriotic league.

The Prison band played several selections, and made an excellent impression. Its numbers being well applauded. Its part in the program was a red letter event for the band, and even prouder and happier than the leader was the man who carried the flag.

Recruiting Tent Opened.

At the suggestion of the officers of the Patriotic league, Sergeant Mahoney has established his headquarters in a tent at the station grounds, a step off Front street. This is a more prominent location than the Electric shop, which was proposed for a recruiting office, and much more desirable than the office in the government building. The camp of Company M attracted many visitors, though as yet there is little of a military nature about it except the uniforms of the men, and is an excellent hunting place for recruits.

Interest in the service is developing rapidly, largely through the efforts of the Patriotic league, and the results are expected to show themselves speedily in many additions to the Roll of Honor.

LEGISLATURE CHANGED GAME LAW PROVISIONS

State Commissioner Oates Has Prepared Digest of Laws—Additional Power Given.

The Mining Journal has received from State Game and Fish Commissioner Oates a digest of the game laws as they stand after amendment by the recent session of the legislature. The most important amendment is the one giving the game commissioner and the public domain commissioner power to change the hunting seasons as fixed by law, to meet extraordinary conditions. The following are important citations from Mr. Oates' summary of the law:

-GAME FOR CAMP-

Hereafter it shall be lawful for camps composed of not less than six persons to secure a permit to kill one deer for camp use during the deer hunting season. The fee for such permit is fifty cents for each person comprising the camp.

-RABBITS-

Hereafter the open season for killing rabbits will be Oct. 1 to Feb. 1, both inclusive.

-DOGS-

Hereafter it will be unlawful for any person to have any kind of a dog in the woods, hunting camp, logging camp or club house, during the deer hunting season.

-CATS-

Hereafter any cat pursuing or killing any game animal or bird protected by the laws of this state may be killed by the owner of land or any warden or other officer whose duty it is to enforce the game and fish laws and the owner who permits any such cat to run at large shall be deemed guilty of a misdemeanor.

-WATERFOWL-

Hereafter it shall be unlawful to kill or hunt any wild water fowl save only from sunrise to sunset of each day of the open season for hunting and killing such water fowl. The closed season on woodcock extends to 1920. The open season for killing water fowl will be Sept. 15 to Dec. 31, inclusive.

-GESE AND BRANT-

Hereafter it shall be unlawful for any person to kill more than six geese and brant in one day or more than fifteen in possession at any one time or to kill more than twenty-five in one calendar year.

-PARTRIDGE-

Hereafter the open season on partridge shall be from Oct. 1 to Nov. 9, inclusive. It will be noticed that the partridge season closes the day before the deer season opens, which will avoid the necessity of having bird dogs in camp during deer hunting season.

-WOODCOCK-

Hereafter the open season for killing woodcock shall be Oct. 1 to Nov. 9.

-HUNTER'S LICENSE LAW-

Hereafter it shall be unlawful for owners of lands, which have been posted as a game refuge, to hunt upon same without securing a license.

Hereafter a license may be issued to a minor under seventeen and over twelve years of age, to hunt and trap, upon
