

ZEEBRUGGE SHELLED BY ENGLISH

BRITISH NOW HAVE BULLECOURT AND ROUEX IN THEIR GRASP

FORCED PEACE THE CHIEF AIM OF SOCIALISTS

Members of Executive Committee of Council of Workmen's and Soldiers' Delegates Outline Opinion.

RECEIVE-FRENCH OFFICIAL

London, May 13.—M. Skoleless, a member of the executive committee of the Council of Workmen's and Soldiers' delegates, according to a Reuter's dispatch from Petrograd, asserted in his speech Saturday that while the committee of which he is a member is opposed to a separate peace, it was of the opinion that the war might be ended by an agreement between the German and Russian democracies.

For this reason, he said, it proposed to enter into negotiations with the representatives of German democracy, at the International Socialist conference. Skoleless is going to Stockholm to attend the conference as representative of the Workmen's and Soldiers' delegates.

WARNS RUSSIAN SOCIALISTS

Petrograd, via London, May 13.—Albert Thomas, French minister of munitions, was received yesterday afternoon by the executive committee of the Council of Workmen's and Soldiers' delegates. In a speech which lasted more than two hours M. Thomas, indicated what French public opinion expected from New Russia. He said France was at times uneasy regarding the assistance which Russia might lend. The hopes of the French democracy were that the new Russia would help France unreservedly.

M. Thomas then analyzed the mistakes French Socialists might make regarding the ideas of Russian Socialists, and vice versa. It was necessary, he said, to find cases and conditions on which common action could be taken. The speaker explained why the majority of French Socialists considered it impossible to meet the majority of German Socialists in a conference which would have been convoked without preliminary recognition of common principles.

To realize democratic ideals, the French minister said, all must work together to assure the defeat of Germany. M. Thomas will confer with the committee again Monday.

CANNOT TAKE HASTY STEPS.

Petrograd, May 13, via London, 9 p. m.—Addressing a congress of delegates of the field army, Minshiviki Seretelli, member of the council of Workmen's and Soldiers' delegates, declared that the German and Austrian proletariat had not yet emerged from the stage of chauvinistic intoxication, into which they had been plunged by Dr. Von Bethmann-Hollweg, the imperial German chancellor, and the imperialist bourgeoisie.

"As long as the German proletariat marches with Emperor William," said the speaker, "our position is clear. Should we now stretch a fraternal hand toward the peoples of central Europe to conclude a separate peace it would be an eternal shame which would lead inevitably to the downfall and annihilation of Russia."

FRENCH SOCIALISTS TO ACT.

Paris, May 13, 4:45 p. m.—L. Turmanie says the national council of the French Socialist party, to be held May 27, will be called upon to vote on a resolution demanding the trial of German and Austrian Socialists who make themselves accomplices of the governments of the central powers which are held responsible for suddenly precipitating the war, in spite of proposals to submit the questions at issue to arbitration before the Hague tribunal.

ALL CAMPS FULL; WILL HOLD OTHERS

Captain Cosby Announces First 40,000 Men Have Been Secured—Gives Plans.

New York, May 13.—The full quota of 40,000 men, which the war department requested for the officers' training camp throughout the country, was recruited within twenty days after the issuance of the call, Captain Arthur F. Cosby, of the Military Training Camps association, announced here tonight.

OTHER CAMPS TO BE HELD.

which will begin their work Tuesday. Captain Cosby said it is expected another series of camps will be held, probably

MUCH BUSINESS STILL BEFORE BOTH HOUSES

Congress Opens Sixth Week of War Session With Crowded Calendars

Washington, May 13.—Congress begins the sixth week of war tomorrow with the calendars of both houses still filled with legislation which the administration feels is essential to the successful conduct of the conflict with Germany.

The senate, after two weeks' debate on the espionage bill, drawn by the department of justice, is expected to pass that measure tomorrow.

The house probably will conclude discussion of the \$1,800,000,000 war revenue bill early in the week and send it to the senate when two days of committee hearings have indicated that many changes are to be made in its structure before it goes to the White House for the president's signature.

The espionage bill has been stripped of the press censorship section, which caused much of the opposition to its passage. The injection of an amendment last night prohibiting the use of cereals of grains in the manufacture of intoxicants during the war, although a bitter pill to the foes of prohibition, probably will not greatly delay ultimate passage of the entire measure.

TO ADD "T. R." AMENDMENT.

Conferees on the war army bill, called to meet again tomorrow, because the house, after once rejecting the so-called Roosevelt amendment, now wants to put it in, are not expected to take long at their task, and tomorrow the bill may reach the senate floor.

Since the Roosevelt amendment originated in that body it is possible that the army measure can be disposed of without much debate and early in the week sent to the president.

In the house an effort may be made to put food control legislation through after the war bill. In both houses the food legislation is expected to cause much debate and arouse some decided opposition, although it probably will have the force of the administration behind it.

The senate finance committee tomorrow will continue hearings on the war tax bill, and consider, particularly, stamp, estate and inheritance taxes and the proposed new postal rates.

AUTO ACCIDENTS TAKE LARGE TOLL

Ten Killed Near Chicago Alone Over Week-End in Grade Crossing Smash-Ups.

Chicago, May 13.—Six persons, three men and three women, were killed late today when an automobile in which they were riding was struck by a train at a grade crossing in Blue Island, a suburb.

Guy Ferree, owner and driver of the car, was probably fatally injured and was taken unconscious to a hospital.

Ferree is a realty dealer of Chicago. Part of the wreckage of the automobile was carried for a quarter of a mile on the pilot of the engine.

MANY ACCIDENTS REPORTED.

According to Ferree the dead are: Jacob Livingston, 50, president of a shirt manufacturing concern; Mrs. Jacob Livingston, 45; Miss Esther Nowitz, 19, a clerk; Miss Josephine Tobin, 30; Benjamin Hophstedt, 35, and an unidentified man, a friend of Mr. Livingston's.

Four other persons were killed in other motor car accidents at grade crossings in Chicago and suburbs today, bringing the total dead up to ten. All told eighteen persons were injured.

SAY HOLLWEG IN NO DANGER OF LOSING OUT

Berlin Reports Declare Imperial Chancellor's Position Continues Secure Despite Talk Against Him.

PAYS VISIT TO VIENNA

BERLIN, May 13, via Amsterdam and London, 7:08 p. m.—Dr. Von Bethmann-Hollweg, the German imperial chancellor left Berlin last night for Vienna to confer with Count Ottokar Czernin von Chudnitz, the Austro-Hungarian foreign minister.

Berlin, May 13, via London, May 14, 2:45 a. m.—While the baiting of the imperial chancellor is going on the events of the last forty-eight hours would seem to indicate that Dr. Von Bethmann-Hollweg's position continues to be absolutely secure. The chancellor returned from a hurried visit to Great Headquarters Saturday morning and left the same night for Vienna, after having spent the day in conferring with the reichstag party leaders with respect to the interpellations on Germany's war aims.

Both his visit to great headquarters and his trip to the Austrian capital were made in connection with the chancellor's declaration covering the war aims, which he will submit to the reichstag Tuesday. Both the government and the "middle-road" parties are desirous of avoiding an extensive or acrimonious debate, and representatives of the latter will unite in a joint statement, or present independent coinciding declarations.

It is contended that the chancellor holds enough strong cards in the present military situation, the success of the U-boats, the record sixth war loan and the improvement in the food situation to beat off his opponents, who have been at his heels for months past.

VON BATOCKI WOULD RESIGN.

Amsterdam, May 13, via London, 10:53 a. m.—Adolph von Batocki, president of the food regulation board in Germany, has asked permission to resign, according to a Berlin telegram, owing to severe criticism by members of the reichstag of his administration of the food supply.

While permission to retire has been temporarily withheld, the message adds, it is expected his resignation will be shortly announced, constituting a severe setback for the conservative party leaders.

KAISER HAS TEETH FIXED.

Copenhagen, May 13, via London, 10:45 p. m.—Emperor William recognizes no state of war with the United States so far as his personal comfort is concerned. He has summoned his American dentist, Arthur Newton Davis, of Piquette, Ohio, to visit him at Great Headquarters this week.

The war has proved toothache to be no respecter of international relations and throughout the long months of tension between Germany and the United States, the imperial and royal family and the highest officials of the state have continued to patronize their respective American dentists. Each new crisis was marked by almost ludicrous rush of members of the royal family, foreign office officials, and other dignitaries to get their teeth attended to before the possible departure of the American dentists.

The emperor's personal view of the relations with the United States is the official interpretation of his government, which, in a communication regarding the continuance of the Belgian relief work, speaks not of war, but of the "abandonment of neutrality" by the United States.

Along the same lines is a declaration in the reichstag committee by Major General Friederich, who said there was no intention to intern Americans.

SUFF LEADER SAYS U. S. MUST GIVE WOMEN VOTE BEFORE IT IS DEMOCRATIC

Columbus, Ohio, May 13.—"Not until the United States has given self government to women can it blaze the way for democracy," declared Mrs. Carrie Chapman Catt, president of the National Woman's Suffrage association in an address this afternoon before the Mississippi Valley Victory Suffrage conference. She scored the United States for posing in the world war as the champion of democracy, when "it is only a democracy for half her people."

MC ADOO WILL OPEN DRIVE FOR "LIBERTY LOAN"

Secretary to Tour Middle West Urging People to Subscribe

Washington, May 13.—Secretary McAdoo will make a tour of the middle west, beginning May 17 at Chicago, and going as far west as Denver, in the interests of the Liberty Loan, the formal campaign for subscriptions to which opened today. He will address representative audiences in some of the chief cities to bring home to the people of the middle west the need of unanimous cooperation with the government in making of the big issue more than a success.

Mr. McAdoo, in his official capacity, will tell his audiences that the United States is not engaged in half a war, but is in a fight to the finish with autocracy still strongly entrenched. He will seek to unloosen the purse strings of all classes so that the Liberty Loan will not only be fully subscribed but tremendously over-subscribed, and thus Germany will realize, in the words of a statement he issued tonight: "That we have billions to sacrifice in the cause of liberty."

The secretary will speak in Chicago May 17; Milwaukee, May 18; St. Paul, May 19; Des Moines, May 21; Lincoln, Neb., May 22; Denver, May 23; Kansas City, May 24, and probably in other cities for which no definite arrangements have yet been made.

PEOPLE MUST DO "THEIR BIT"

"With the announcement today of the details of the Liberty Loan," Mr. McAdoo said tonight, "the preliminary campaign is ended and the actual campaign has begun. There are thirty days within which the people of the United States must make good the action of congress in pledging all the resources of the country for the conduct of a righteous war—a war for universal liberty."

"Failure to subscribe the \$2,000,000,000 required would be a concession of national impotence. We must over-subscribe this loan as an indication that America is stirred to the depths and aroused to the summit of her greatness in the cause of freedom."

"Let us not endanger success by complacent optimism. Let us not satisfy ourselves with the reflection that someone else will subscribe the required amount. Let every man and woman in the land make it his or her business to subscribe to the Liberty Loan, and if they cannot subscribe themselves let them induce somebody else to subscribe."

How to buy a Liberty bond was fully outlined in abstract telegraphed today to the federal reserve banks for widespread dissemination. The public announcement of the terms and other details, marked the opening of the campaign for actual subscriptions, accompanied by the percentage of the sum subscribed for. Application blanks for Liberty bonds, printed by the hundred thousand, have been distributed widely.

U. S. OPENS SHIP BUILDING CAMPAIGN

First Contract for Administration's Billion Dollar Program to Combat U-Boats Signed.

Washington, May 13.—Signing of the first contract for ship construction under the administration's billion dollar building program was announced tonight by the federal shipping board. The contract went to the Los Angeles Shipbuilding & Drydock company, and called for delivery in 1918 of eight steel vessels, each to carry 8,800 tons of cargo.

It also was announced the board is bargaining for 250,000 tons additional steel and wood tonnage, for delivery as early as possible. Some of the wooden ships already are under construction, their builders proceeding without awaiting formal contracts.

TO BUILD 1,000 SHIPS.

The shipping board plans to have built within the next eighteen months at least 1,000 ships, steel and wood, of more than 3,000,000 aggregate tonnage, to combat the German submarine campaign. Bills to be introduced in congress this week call for an initial appropriation of \$400,000,000. Later an additional \$250,000,000 will be asked, and if this is not enough still more will be sought.

BALFOUR PAYS A VISIT TO T. R. AT OYSTER BAY

British Foreign Minister and Colonel Have "Supper" Together at Sagamore Hill.

JOFFRE CANADA'S GUEST

New York, May 13.—Foreign Minister Arthur J. Balfour, of Great Britain, head of the war mission to the United States, spent a somewhat militant Sunday, although it was supposed to be a day of rest for the weary envoy.

In the morning the British statesman went to the Cathedral of St. John the Divine, where he listened to a war sermon by the Rev. Dr. Charles H. Brent, Episcopal bishop of the Philippines. In the afternoon he went to Oyster Bay for a visit to Colonel Theodore Roosevelt. There were no formal entertainments for the members of the mission and Mr. Balfour's colleagues spent the day as they pleased.

Mr. Balfour motored to Oyster Bay, but did not arrive at Sagamore Hill until nearly 6 o'clock. He had supper then, not dinner—for the Roosevelts have dinner at midday on Sunday—with the family, and then viewed the famous chopping block where Colonel Roosevelt gets his favorite exercise cutting wood.

The British statesman and the former president have long been friends and the visit was purely social in character. No intimation was given of what they had talked about.

JOFFRE GUEST OF MONTREAL.

Enroute with Joffre's special train, May 13.—Marshal Joffre and Vice Admiral Cochet, of the French war mission, were speeding toward Washington tonight after a brief visit to Montreal. The welcome accorded them in the Canadian city was equal in spontaneity and enthusiasm to the greetings they received in any of the cities of the United States during their tour of 4,000 miles. For the five and a half hours that they were the guests of the dominion government in Montreal they met with a continuous round of cheers.

The party expects to reach Washington before noon Monday.

WARM WELCOME FOR VIVIANI.

Boston, May 3.—Boston gave a warm welcome today to Renzo Viviani, former premier of France, and head of the French war mission to the United States. The distinguished visitor, coming a day after the city had welcomed Marshal Joffre, was feasted, toasted and cheered by thousands.

Notwithstanding a cold, drizzling rain that fell all day M. Viviani and his party were taken through the streets decorated with the colors of France, Great Britain and the United States and were applauded enthusiastically wherever they went.

Accorded a gracious welcome by Governor McCall, Mayor Curley and other state and city officials, the French statesman later was the center of a unique reception in the Boston Public Library. A visit to the home of A. Lawrence Lowell, president of Harvard University, and to the Widener Memorial library of that institution, together with another reception and dinner at the Boston City club made up the day's entertainment.

M. Viviani spoke in the public library to an audience that filled every available foot of space. He asserted that he was never alarmed at the neutrality of the United States.

"I knew in my heart," he said, "that your great country could not contemplate the slaughter of innocents, the burning of cathedrals and other outrages, without throwing in your lot with France and her allies."

He praised the comradeship of the officers and soldiers at the western front, asserting that they were "out to dispel the enemy who jumped at our throats in 1914."

M. Viviani, pleaded for "a spiritual union across the sea," which he said would forever safeguard the principles of true democracy. The present war, he said, must be a fight to the finish, and there must only be the thought of victory in the minds of all the allies.

DYNAMITE EXPLOSION WRECKS LABOR TEMPLE

Kansas City, Mo., May 13.—An explosion, believed to have been caused by dynamite, partially wrecked the Labor Temple here today. One man sleeping in the building was seriously injured. The damage is estimated at \$20,000.

GERMAN U-BOAT BASE BADLY DAMAGED BY SHELLS FROM WARSHIPS AND AIRPLANES

(BULLETIN.) ROTTERDAM, May 13, via London, 10:26 a. m.—According to reports received here the naval attack yesterday on the German submarine base Zeebrugge, on the Belgian coast, was the most destructive yet made by British warships. Two submarine sheds were blown up. Sixty-three persons were killed and upwards of a hundred others were taken to hospitals.

(BULLETIN.)

LONDON, May 13, 6:40 p. m.—An official statement issued this evening by the British admiralty relative to the naval and aerial bombardment of Zeebrugge says:

"A very heavy bombardment of the important area at Zeebrugge was successfully carried out Saturday morning by a portion of our forces under orders of the Dover vice admiral.

"The royal naval air service rendered valuable co-operation and over fifteen aerial combats occurred, in which four enemy machines were destroyed and five others were driven down out of control.

"Two of our machines failed to return. One of these descended in Dutch territory and was interned."

(BULLETIN.)

BERLIN, May 13, via London, 10:25 a. m.—"Enemy monitors, during foggy weather, early Saturday morning, shelled Zeebrugge from a great distance," the German admiralty announced today. "Our batteries replied. There was no loss of life. Slight material damage was done.

"Two enemy airplanes were shot down."

(BULLETIN.)

LONDON, May 13, 10:46 p. m.—Most of the village of Bullecourt, in the Hindenburg line, is now in the hands of the British, who also, according to the official report from headquarters in France, occupy the western section of Rouex.

(BULLETIN.)

AMSTERDAM, May 13, via London, 10:46 a. m.—For seven hours, on Wednesday, a great fire raged on the imperial wharves at Wilhelmshaven, according to advices received here today. The submarine building department was seriously damaged. The district has been closed to the public.

(Wilhelmshaven is the chief German naval station and war harbor in the North sea, and is the second largest naval base of the empire. It is situated in the province of Hanover, on the north side of Jade bay. The harbor contains numerous docks and slips capable of accommodating war vessels of every description and size.)

(Associated Press War Summary.)

After days of intensive fighting, in which positions have changed hands numerous times, the British troops have recaptured the greater portion of the village of Bullecourt and have repulsed violent counter-attacks delivered by the Germans east of the village.

Along the Scarpe river, to the east of Arras, there also have been sanguinary encounters. Portions of the village of Rouex have been taken by the British and another step forward has been gained by them on the western slopes of Greenland hill.

There has been no let-up in the air fighting. Eleven German airplanes were accounted for Saturday by the British, ten of them in air battles and one by an anti-aircraft gun. The British themselves lost six machines.

FRENCH ALSO GAIN.

On the southern end of the line held by the French, the Germans, Sunday morning, made strong attacks on the plateau of Craonne, on the sector of Rheims, and in the region of Maisons de Champagne. Not alone did the French put down all three attacks, causing heavy casualties, but they pushed back the German line, and in addition made prisoners.

There is still no indication of the approach of any fighting of moment between the Austro-Germans and Russians on the eastern front from the Baltic sea to Rumania.

In Macedonia violent artillery duels are in progress along the entire front, with the preponderance in the gun power apparently on the entente side. Sunday saw no infantry actions there.

SOME ENGLISH STRIKERS VOTE TO RETURN TO POSTS—OTHERS OPPOSE

London, May 14.—The strike of engineers in various parts of England continues. Indications are, however, that the strikers will return to work at some places, for instance in Derby, where they balloted in favor of a resumption of work. It also is said that the men out in Manchester will return to their posts. At some important centers, such as Barrow and Birkenhead, the men are reported to be determined to continue the strike.

CHICAGO BOARD OF TRADE CONSIDERS WHEAT SITUATION

Chicago, May 13.—Board of Trade directors met today to consider the wheat situation and at the end of the six hour meeting in the Union league club, President Joseph P. Griffen said: "No statement will be given out until after another meeting is held at 8 o'clock Monday morning."

All the leading private wire brokerage firms were notified during the day that a meeting of members of such firms would be held tomorrow morning, "to discuss trade conditions and to see what action could be taken regarding taking trade in wheat and May corn, the calling of margins and other features," which call for prompt action.

On the distinguished mission to Russia, headed by Elihu Root, are representatives of labor and socialism, the spokesman of labor being James Dun...

A GERMAN MANEUVER?

The Russian socialists propose a peace conference of the socialists of all nations. There will be eager acceptance from Germany, where the proposal will be viewed as promising excellent opportunity of serving the Fatherland at the council table...

THE BURDENED NEWSPAPERS.

The Chicago Tribune has taken the same course as the Chicago Herald and raised its price to two cents. In a circular dealing with the subject, the Tribune points out that not only has the rising price of everything that enters into the outputting of a newspaper increased so that the one cent price was ridiculously low, but that the increase will serve to curtail the consumption of print paper, which is now selling at 100 per cent advance over the price prevailing before the war...

obviously overdone, it can be expected that consolidation will pave the way to community retrenchment. The latter development would not, in many instances, be an unmitigated blessing.

ECONOMY TESTS.

While we're settling down to war economies, it may be interesting to note how the English people go about it. Here are a dozen questions that a London newspaper put to its readers, insisting that they're not really economizing unless they can answer eight in the affirmative:

Do you save all your string? Do you ever throw away rubber bands? Do you ask shopkeepers not to use unnecessary paper in wrapping up your purchases? Do you use your pencils down to the unusable stump? Have you kept within the ration limit? Have you cut down on your smoking? Have you ever told a shopkeeper that he was overcharging you? Have you ever resisted an impulse to attend a picture show? Are you taking care of your clothes? Are you reducing your lighting bill to the minimum? Are you shaving yourself at home? Do you ever walk to save car fare? It doesn't look like an especially good list from the standpoint of an American. Some of these economies don't mean much to us. The Cleveland Leader submit a substitute dozen that seems on the whole more sensible and pertinent. Here they are: Do you polish your own shoes? Do you refrain from walking on rough ground to save shoes? Do you manicure your own nails? Do you have your trousers pressed at home? Are you going to make a garden this year? Do you buy all the monthly magazines, or get them at the library? Do you get the department of agriculture's reports on food economies and give them to your wife to read? When you get your hair cut do you let the barber persuade you that he has a tonic which will keep you from getting bald? Do you turn down the instantaneous heater as soon as the tank is full of hot water? Do you leave the soap in the bath tub? Do you forget the electric light in the basement? Do you use an umbrella instead of calling a taxi? If any of these tests don't apply to any particular reader, very well—make up your own list. It's a fine exercise. It would pay every family to sit down and figure out a set of test questions for itself and its neighbors.

State Press

It won't hurt the garbage can to be starved considerably.—Battle Creek Enquirer. The second district does not regard its temporary congressman, Mark Bacon, as a shining Mark.—Flint Journal. Uncle Sam needs 2,000 veterinarians who will rank as lieutenants. There are many and various paths to glory in these crowded days.—Pontiac Press Gazette. Having a great secret is one of the charms of any administration during war times. Keeping it is one of the things that proves great statesmanship.—Adrian Telegram. Colonel Bryan is to lecture to the farmers of the south on crop production. Let's hope they don't take a whole day off from their work to listen to his address.—Kalamazoo Gazette. Some girls are willing to go out to domestic service nowadays if there are no children in the family and the mistress will do the cooking, sweeping, and laundry work.—Jackson Citizen Press.

A Laugh Or Two

No Escape. "I understand your automobile has gotten you into trouble." "It's always getting me into trouble one way or another," replied Mr. Chuggins. "When it runs, I get arrested for speeding. When it refuses to run, I get arrested for profanity."—Washington Star. Quits. The hours were flying by, and still Algy, the bore, remained with her. "Do you like music?" she inquired listlessly. "Yes," he replied. "I am always carried away by music." She flew to the piano and played several airs. Then she turned and looked at him. "You are not gone yet?" "No," he answered. "But you told me that music always carried you away?" "Yes," he retorted, "but I said music."

Drat Joseph.

The oldest inhabitant of Little Cockleton possessed a telescope which he never used. "Why don't you make use of it sometimes, James?" asked a neighbor. "It used to be a goo'n," said James sorrowfully, but it's broke now." "Broke?" asked the neighbor. "How's that?" "Well," said James, "it was such a goo'n that I could see the old church on the ground, you would surely break your

STARS AND STRIPES AND UNION JACK FLY TOGETHER IN LONDON.

For the first time in British history a foreign flag has floated from the historic Victoria tower in London. On "America Day," when the English celebrated with enthusiasm the entrance of the United States into the world war, the stars and stripes was run up on the tower flag pole alongside the Union Jack. The two flags have been kept flying together since.

steep five miles away quite plain, but Joseph, the scoundrel, got the lend of it and tried to make out the steeple of the Methodist chapel more'n ten miles away. He tried an' tried an' couldn't so that he strained his glass, and it's never been right since. Drat Joseph!

Quitting Even.

"Jack Potts is telling every one that you're a piker. He says you quit the game last night, when no gentleman would quit it."

"I quit the game when we were even. At 10 o'clock Potts had all my money, and at 12 I had all of his. That made us even, so I quit."—Boston Transcript.

Rude.

A pawnbroker was rudely awakened in the middle of the night by a furious knocking at his front door. "Wh-what's the matter?" he asked. "I want to know the time." "You infernal rascal! Do you mean to say you woke me up for that?" "Well, you've got my watch," he explained.—Everybody's Magazine.

Bless the Collar!

The minister was struggling to put on a new four-ply collar and the perspiration was starting from every pore. "Bless the collar!" "Oh, yes, bless it! Bless the blessed collar!" "My dear," said his wife, "what is our text for this morning's sermon?" "The twenty-first verse, 1-fifth-fifth Psalm," he replied in short gasps. "The words of his mouth were s-moother than butter, but w-war was in his h-heart."

Edwin's Plan.

Little Edwin's allowance was one cent each day, provided he took his cod liver oil each morning regularly and each Sunday the seven cents which he saved during the week was put into the contribution box at Sunday school.

One Monday night Edwin rushed breathlessly in from school and climbing into the euphoric he got the bottle of much despised medicine and took it to his mother, saying, "Ma, I guess I'll take this week's physic in advance. Bill Brown an' I's goin' to the movies to-night an' I need the money."

It Sounds Ridiculous.

Joseph H. Chante said, at a luncheon in New York: "When the Germans talk about protecting little nations, freeing the seas and championing international law, it sounds so ridiculous that it reminds me of the tramp."

"Lady," said a tramp to a farmer's wife, "could you oblige me with the loan of a cake of soap?" "The farmer's wife threw up her hands. "Soap!" she said. "Do you mean to tell me you desire soap?" "Yas'm," said the tramp. "Me partner's got the lice-sings and I want to scare him."—Washington Star.

"De Profundis."

At the first training camp at Plattsburg last summer an undersized "rookie" was one day struggling along through mud that threatened to engulf him and his pack. The company were singing, and when they came to the chorus he joined in with growls and grumbles that seemed to come from well down toward his belt. Beyond doubt, melody was not his forte. A big, hulking sergeant came along. "What's the matter? What are you howling about?" "I'm singing bass," explained the "rookie."

The Passion for Learning.

"You mustn't go near the open windows, dear," said a mother during house-cleaning time to her three-year-old daughter. "If you should fall out on the ground, you would surely break your

when he pays heat, light and telephone bills, and the travelers for commercial houses must pay 10 per cent excess on their railway tickets, the farmers are called upon to pay no additional sums except where they come within the limitations of the income tax. Farm products will command high prices and bear no war taxes. This ought to make every farmer determined to make his property produce its highest.—Detroit Journal.

Swine and Sheep.

The recent high prices of meat may well direct attention to the value of swine and sheep as meat producers. The department of agriculture reports a general revival of interest in the hog industry in the south and west, which might be profitably duplicated in the north and east. With live hogs quoted at \$5 per hundred weight on a dull market, there is slight danger that the supply will be increased at a loss. Even those fastidious persons who "snave" touch pork" do eat bacon, ignoring its origin, and though the consumption of fresh pork falls off in summer the demand for bacon and hams is perennial. As swine mature more rapidly than beef cattle and are much more prolific their meat supply might be considerably increased in a twelve-month. The increase in the number of swine in the United States seems to have hardly kept pace with the increased number of farms and the demand for pork products for export. The value of such exports in 1916 was the tidy sum of \$12,380,000, and once the submarine danger is overcome foreign nations will take all we can spare.

Moreover, the farmer can turn over the capital invested in swine more quickly and readily than in any other livestock, with less labor, care and equipment are necessary. The hog's table manners are abominable, but he is not necessarily dirty; given a chance and he is as clean as any other farm animal. He waxes fat on the by-products of the farm, the kitchen waste and the "mubbins" from the corn-crisk, requiring less of the food which the consumer uses directly from the earth than any other.

The number of sheep in the United States has diminished by 8,000,000 since 1910; Michigan's quota has lessened by 20,000 in that time. And yet farmers were wont to regard sheep as essential on a well-managed farm. They give two crops a year; the increase and the wool—the latter "coming in handy" to pay off harvest hands. They are efficient weed destroyers, keep down overgrowth, require little care in summer when the farmer is busiest, and furnish the succulent chops and the leg of mutton with caper sauce we esteem good eating. It is difficult to account for their loss of favor, save through tariff changes, or unless the modern farmer shares the prejudice of John Randolph, of Roanoke, who, it was said, would go out of his way at any time to kick a sheep.

Lower State Notes

HOLLAND—John Weaver, 25, narrowly escaped death when his sleeve was caught in a steam saw near Jamestown. Weaver tried to brush a pile of sawdust away when his arm was drawn in and badly cut. His left hand was amputated at once. His conditions is serious. PETOSKEY—The old Beaver River Paper and Bag company has been ordered by the United States court of appeals to pay its city taxes, amounting to \$4,000. The receivers for this company were sued by the city to recover these taxes and the city won in both the lower and higher courts. FLINT—School boys of Flint and Genesee county are to be mobilized for work on farms, according to a plan which has been devised by the committee on preparedness and defense, with the assistance of school authorities and County Farm Agent John E. Rieman. They will be given their school credits to the end of the year and allowed to remain away until November 1. KALAMAZOO—Rev. Caroline Bartlett Crane, state chairman of the Michigan Woman's committee for Patriotic service, took an option on the second parcel of 800 bushels of seed potatoes. She announced that 700 bushels of the first parcel had been disposed of. These were of a late variety and the second consignment will be early tubers, for which there has been a big demand. The Kalamazoo Y. M. C. A. will open a campaign next week to raise \$10,000 as this city's portion of Michigan's war fund. ANN ARBOR—Leland Buxton swallowed a drill, so he can't drill. Buxton, a freshman engineer from Detroit, was with the national guard on the border and didn't come to school until about the time drilling started here. He received an appointment to the Officers' Reserve corps and was supposed to go to Fort Sheridan. He went to a dentist to have his teeth fixed. The dentist's drill slipped and it went into Buxton's commissary department, so he's in the hospital instead of the army. EAST LANSING—E. C. Lindeman, state leader of Boys' and Girls' clubs, has announced the following Agricultural college for positions as city garden and supervisors, one of the steps taken in the farm products preparedness campaign: Arne G. Kettunen, of Ishpeming; Houghton; Glen O. Stewart, of Avilla, Ind.; Cross Pointe; John Kelham, of Avilla, Ind.; to Holland; Gordon C. Edwards, of Hastings; to Darbier; Chas. Jasburg, of Hancock; to Marquette. Appointments will also be made during the next few days for garden supervisors for Birmingham, Ypsilanti and Wakefield. William P. VanBuskirk, of Erie, Pa., has been appointed assistant county agricultural agent in Ottawa county. About 200 county normal school students met at the Michigan Agricultural

Copper Country

MARQUETTE MEN CAN JOIN ENGINEERS

Capt. Loveland Announces There Is Plenty of Room for Those Who Want to Enlist.

Captain Ralph A. Loveland, of Company A, Calumet Engineers, original company of the Michigan Battalion of Engineers, reports that he has received requests from young men residing in Marquette for information concerning the organization in the copper country of the proposed two new companies. One Marquette young man, during a long distance telephone conversation with Captain Loveland, stated that there is a good sized party of Marquette country young men who are desirous of enlisting in the battalion. They will be afforded every opportunity to do so. It is understood that they include men particularly well fitted for engineering work.

Although there have been no actual enlistments in the two new companies and cannot until the companies are formally taken into the national guard, which will be after their organization, about seventy young men have already agreed to enlist. A total of 130 young men is wanted, sixty-five for each company, for a start. It is anticipated that by the end of another fortnight both companies will be filled.

Sunday Schools Affected.

Due to the fact that so many of the old Sunday school baseball players are in the army or navy, there is to be no league this season. The Hancock team lost some of its material with the departure of the naval reserves, while the range towns gave up some of their men to Company G. There is plenty of material still in the copper country to make the league a success, but these boys feel it their duty to wield a shovel or hoe instead of swinging a baseball club.

Keweenaw Engineers Company.

One of the new companies in the Michigan Battalion of Engineers will virtually be a Keweenaw county company. For this reason the people of Keweenaw county are filling a lively interest in the organization and are willing to lend every assistance in recruiting it up to standard. They want to make it a company worthy in every way of the "old dominion," the pioneer district of the Michigan copper region.

The matter of an armory for the Keweenaw company is now being seriously considered by the officers of Company C, Engineers. They believe that they can obtain the Glaedon rink, at Mohawk, which could be fitted up for use as an armory at little expense. The Calumet armory, of course, will be battalion headquarters but three companies will crowd it somewhat and make necessary many changes. Therefore the Keweenaw boys believe they will be able to secure permission to use the Glaedon.

Frederick W. Stevens, Michigan chairman for the Red Cross, on Saturday advised the Red Cross chapters of Houghton county, which are located at Houghton and Calumet, that it has been decided there may be only one chapter in each county of the state. As a result a meeting will be called later in the present week to co-ordinate the activities of the two chapters and make of them a unit. As a matter of fact there have been three chapters in Houghton county because the women of the south range district began the work long before either of the recognized chapters were started, though latterly becoming a unit of the Houghton chapter. The county idea will be popular in Houghton county as it will remove the possibility of confusion.

In the meantime the Calumet chapter organization is going ahead with its plans for a campaign for members. A meeting is to be held tonight at the Calumet High school to decide on the details. The Calumet district is expected to receive a large number of new members.

A GRADUATE NURSE

Why She Recommends Lydia E. Pinkham's Vegetable Compound.

Chicago, Ill.—"I was in poor health for two years, caused by a displacement, and during six months of this time was under a doctor's care without getting any help. I decided to try Lydia E. Pinkham's Vegetable Compound and it made me feel like a new woman. I am entirely relieved of the displacement and periodic pains, and am now the mother of a beautiful healthy baby. I am a graduate nurse and will be glad to recommend Lydia E. Pinkham's Vegetable Compound to other women."—Mrs. R. W. SLOAN, 6028 So. Park Avenue, Chicago, Ill.

There are many women who suffer as Mrs. Sloan did and who are being benefited by this great medicine every day. It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration. If you need special advice write Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass.

pected to provide 2,000 Red Cross memberships.

Dr. W. S. Whisler, of Calumet, has gone to Chicago, where he will become an instructor in the federal army service of dental officers. Dr. Whisler is well equipped for such service. He has been located in Calumet a great many years. He probably will return home about the middle of the week, after arranging to enter the service.

L. A. Suverkrup and Harry Aldrich, students at the Michigan College of Mines, have been notified of their acceptance at the Fort Sheridan officers' training camp. Mr. Aldrich left last night. Mr. Suverkrup is at his home in New York and his notification has been forwarded.

The organization meeting of the Copper Country Children's Relief Club Friday night was rendered abortive Saturday when Governor Sleeper announced that the state campaign for Belgian relief might be abandoned.

This decision came after a request by Governor Sleeper of the national foreign relief board for information touching the federal relief measures. The national board informed the governor and the state board that the government had appropriated several millions of dollars for foreign relief and that it is now optional with the states to proceed with separate campaigns. In view of this fact, in connection with the other demands made upon the people of the state, the governor decided to call off the state campaign and so advised the state through the Associated Press.

The decision reached the copper country just after the formation of a Belgian relief club, which promised to be an aggressive organization. The work was halted Saturday when it was just gathering a most encouraging momentum.

THE LADIES LEND A HAND.

Industrial Society of Hancock Congregational Church Offers \$2,000.

Two thousand dollars has been subscribed toward the building fund for the erection of a new edifice by the Ladies' Industrial society, of the First Congregational church of Hancock, action being taken at a meeting of the organization Friday afternoon.

Of the above amount the society now has approximately \$1,900 in its treasury, which has been raised through rummage sales and other sources. The first installment will be paid July 1, and it is proposed to conduct an active campaign to raise the balance of the sum as soon as the task can be accomplished. Members of the organization plan an energetic campaign to meet this obligation.

The building committee is now collecting data in connection with the drafting of plans for the proposed edifice. Sketches were furnished the congregation several weeks ago by architects. The original idea of the church board to have a parish house built separate from the church, the former to be utilized for social and recreation purposes, has not been altered. With the amount of money available, combined with pledges, the congregation expects to be in a position shortly to proceed with the work.

STORE IS MODERNIZED.

Ed. Haas & Co., of Houghton, Complete Metropolitan Equipment.

With the final installation of a complete equipment of oak display cases, Ed. Haas & Co., of Houghton, have concluded a plan of modernizing the store that has been in progress for several months.

The changes give to Sheldon street another store that is the equal of the men's furnishing shops in any but the very largest cities. The members of the firm take some pride in the fact that Ed. Haas & Co. is the oldest firm name in Houghton. It has been the mark of a Houghton business house for thirty-four years.

The firm began its modernizing process by putting in a metropolitan display front, which was completed several weeks ago. At the same time special display cases were installed to suit the peculiar needs of the store and to harmonize with the entrance. The cases now present all goods in the store, with the exception of shoes, under glass. This is not done solely for decorative effect, but as a contribution to service. Any customer may now examine without the assistance of a clerk almost any article in the store. There are special trays and cases for the actual examination of the goods and in every way the equipment adds to the convenience of the customer and the efficiency of the salesman.

CITY INSPECTORS NAMED.

List in Hands of County Clerk—Will be Released Later.

The four supervisors in Hancock, one for each ward, have forwarded to County Clerk Kaiser the personnel of the inspection board of inspectors for this city. In cities with a population of less than 30,000 the appointments are placed in the hands of the supervisors. County Clerk Kaiser announced yesterday morning that the makeup of the Hancock board will not be announced until a later date. It is possible that sub-registrars will be named when the work is undertaken.

WHOOPIING COUGH.

One of the most successful preparations in use for this disease is Chamberlain's Cough Remedy. S. W. McClinton, Blandon Springs, Ala., writes: "Our baby had a whooping cough as bad as most any baby could have it. I gave him Chamberlain's Cough Remedy and it soon got him well." Obtainable everywhere.—Adv.

RECEPTION FOR BISHOP.

Church Dignitary and Board Members to Tour the County.

Tentative plans for the entertainment of Bishop Theodore Henderson, head of the Methodist church in Michigan, and members of the conference endowment board who will accompany him, were outlined yesterday. The bishop will be in Hancock next Friday on his tour of the upper peninsula in the interest of the endowment fund.

On Friday afternoon the guests will be taken to the different Methodist churches of the copper country by automobile. Following the evening meeting there will be a public reception in the church parlors. Special music is now being arranged.

FIRST VACATION IN YEARS.

Veteran Employee of Hancock Taking a Well Deserved Rest.

Alex. Seigel, superintendent of hydrants and general utility man in the employ of the city of Hancock for the past seventeen years, is taking a vacation. Friday and Saturday of last week were the first days he has had to himself during the long period he has been on the city's pay roll.

Mr. Seigel is not certain what his status will be with the city at the present time. His name was not included in the list of appointments read last Monday evening, yet Mr. Seigel says he has been given to understand that he was to continue in the city's employ.

A WARNING TO MOTORISTS.

Little Girl Killed by Superintendent Robinson's Car—He Is Exonerated.

Hilma Arem, a little Hancock girl, was killed Friday evening, when she ran into the automobile of Phil I. Robinson, superintendent of the Houghton County Electric Light company, when he was driving through the street on which she lived.

Justice Ronleau of Hancock, held an inquest Saturday night and the finding of the jury, after hearing the witnesses, was that Mr. Robinson was driving slowly and was not in any way to blame for the accident.

MRS ANTHONY'S DIAMONDS.

According to New York papers, the biggest and brightest diamond ring ever seen in "Peacock Valley" was exhibited the other night by Mrs. Charles H. Anthony of Munich, Ind.

The trinket is almost two inches long. It contains three large diamonds of about three carat each, surrounded by thirty smaller stones. Its surface, of rectangular shape, rounded at the corners, is something more than two inches in diameter. With it Mrs. Anthony wore a diamond armband and pendant earrings two inches long, mounted with a pair of four-and-a-half carat diamonds.

The ring was a birthday present from Mr. Anthony.

NO APPETITE---LITTLE SLEEP

Symptoms of a Run-down Condition, We Have a Remedy.

We ask every weak, run-down person in Marquette to try our Vinol, with the understanding that their money will be returned if it does not re-establish their health. Letters like the following give us confidence:—

"I am in the millinery business and on my feet most of the time. I got so weak and run-down that I lost my appetite and was unable to sleep, had a severe chronic cold and lost my color. I learned about Vinol through a friend, and within three weeks after taking it I noticed an improvement, and soon gained in weight, health and strength. I am recommending Vinol to my friends and they also speak highly of it." Catherine Hoar, West Chester, N. Y.

In hundreds of cases where old-fashioned cod liver oil, emulsions, and other tonics have failed to restore strength and health, Vinol has succeeded, because while it contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates, its good work is not retarded by useless grease and oil. The Stafford Drug Co.

Vinol is sold in Ishpeming by The P. P. Tillson Drug Co., and in Negaunee by Arnett Bros. Druggists. Also at the leading drug stores in all Michigan towns.

BASEBALL

Detroit, 2; Boston, 1.

Detroit, May 13—A two-base hit by Cobb, coming after a single by Bush and Young's sacrifice, gave Detroit a 2 to 1 victory over Boston in twelve innings here today. Boston scored in the second on Walker's three-base hit and Gardner's single. Singles by Heilman and Vitt and a sacrifice by Burns tied it in the eighth.

Both Ethuke and Shore pitched great ball, the former allowing only five hits, none of which came after the sixth inning.

Score: R. H. E. Boston...0100000000—1 5 1 Detroit...0000001000—2 8 4 Batteries: Shore and Agnew; Ethuke and Spencer.

Chicago, 1; New York, 0.

Chicago, May 13—Eddie Cicotte held New York to two hits today, while Chicago touched Nick Cullip for five, and won the final game of the series here 1 to 0. Gandill and Schalk were not feeling well and Lyon and Jordan were inserted into the line-up for the first time this season.

Score: R. H. E. New York...00000000—0 2 1 Chicago...00010000—1 5 2 Batteries: Cullip and Walker; Cicotte and Lyon.

St. Louis, 3; Philadelphia, 1.

St. Louis, May 13—Kob held Philadelphia to five hits today and St. Louis won 3 to 1. St. Louis knocked Meyers out of the box in the first inning.

Score: R. H. E. Philadelphia...10000000—1 5 1 St. Louis...05120000—3 9 1 Batteries: Meyers, Schauer and Schaag, Halcy; Koob and Severoid.

Cleveland, 2; Washington, 0.

Cleveland, May 13—Cleveland today made it three out of four from Washington, winning 2 to 0.

Score: R. H. E. Washington...00000000—0 5 1 Cleveland...00100010—2 2 3 Batteries: Shaw and Ainsmith, Henry; Coveltske and O'Neil.

"CHAMBERLAIN'S TABLETS HAVE DONE WONDERS FOR ME."

"I have been a sufferer from stomach trouble for a number of years, and although I have used a great number of remedies recommended for this complaint, Chamberlain's Tablets is the first medicine that has given me positive and lasting relief." writes Mrs. Anna Kadin, Spencertown, N. Y. "Chamberlain's Tablets have done wonders for me and I value them very highly." Obtainable everywhere.—Adv.

He used a pebble in his day, to keep his mouth moist— WE use WRIGLEY'S Here's Mr. Brawn, who flourished in the stone and club age. History tells us he relied upon a pebble to keep his mouth and throat refreshed. Poor Brawn—wouldn't he have smacked his lips over WRIGLEY'S! And wouldn't he have welcomed its refreshing aid to his over-worked digestion! Not so much, though, as WE welcome it, because most of us don't get the husky exercise HE did. WE need just what WRIGLEY'S gives us, in just the way it serves us. The whole world is finding it out and finding, too, that in WRIGLEY'S the The Flavor Lasts!

(Beware of imitations—none can equal the WRIGLEY quality—material flavor and lasting goodness.)

GARDEN CITIES OF ENGLAND.

In the garden cities of England, such as Letelworth and Hampstead, the site mark: "Don't drink! Don't chew and the town was laid out as a whole with reservations for public and semi-public buildings, parks, playgrounds and civic centers. The location of factories, business houses and stations was designated and the sites of the residences were carefully planned. The result has been highly gratifying from every point of view. The convenience and comfort of the citizens have promoted, a high degree of beauty has been obtained and the health of the communities have become far famed. When these garden cities are compared with the towns that have grown up without planning the value of town planning becomes evident. In one of the needs of community life are recognized and provided for; in the other the community is ignored and each individual is left to follow his own initiative. In one a high measure of comfort is assured the individual by his taking the proper place in the community; in the other the individual clash in their efforts to promote self-interest, with result that the few secure the desired comforts at the expense and disadvantage of many.—Pollock's "Modern Cities."

Markets

BOSTON COPPERS. Ishpeming, Mich., May 12—The bears and those who sold stocks expecting to buy them back cheaper are finding little satisfaction in the market. With the exception of railroads, there has been practically no decline in the list for the past month. The steel shares are in reality selling higher. On April 10 Steel Common closed at 108 1/2, Crucible 60 1/2 and Anaconda closed at 78. Steel closes today seven points higher and Crucible over five points, while Anaconda is unchanged. After some realizing on the opening day, prices turned strong. The market has been sold to a standstill and we believe there is a large short interest, and that just as soon as the taxation program is decided upon there will be a sharp return in prices. We continue to believe that on any weak spots. RHEUMATISM. If you are troubled with chronic or muscular rheumatism give Chamberlain's Liniment a trial. The relief from pain which it affords is alone worth many times its cost. Obtainable everywhere.—Adv.

J. A. MINNEAR & CO. BROKERS

MEMBERS CHICAGO BOARD OF TRADE. MARKETS AT A GLANCE. Steel stocks were active and strong Saturday. Coppers likewise were higher. Notwithstanding all the bearish news, prices on average are higher now than they were a month ago. Further sensational advances in grains Saturday.

Take Hall's Family Pills for constipation.—Adv.

COMPANY M PITCHES CAMP FOR SUMMER

Soldiers Set Up Tents Near Picnic Rocks—Patriotic Demonstration Wednesday.

Company M, Thirty-Third Michigan infantry, established a permanent camp Saturday near Picnic Rocks, and both guard divisions were busy all day moving their equipment from the boarding cars stationed near the D. S. S. & A. and the L. S. & I. docks.

Located near the point of beach which juts out towards Picnic Rocks, the officers have chosen an ideal spot. The tents, set up amidst the pine trees, present a picturesque appearance. Drilling for the recruits will begin this week, and the lake boulevard will be utilized as a parade and drill ground. A headquarters has been installed in the headquarters tent and all is ready for the summer's routine. A visit to the camp reveals an interesting insight into the daily life of the men and furnishes an idea of what the soldiers of Uncle Sam are called upon to do in preparation for the war.

More recruits are expected from the Soo this week, and it is anticipated by the officers that before the week is out the complement will be raised to 100 men.

May Leave Today.

Sergeants Mahoney and Kurth, in charge of recruiting for the regular army here, expect to send out three or four recruits today, and, in fact, are preparing for an unusually busy week. "We expect that recruiting here will pick up from this time on," said one of the sergeants. "We believe the young men are beginning to realize that it is their duty to their homes and their country to come forward and join the colors."

Plans are in progress, under the auspices of the Patriotic league, for a celebration Wednesday, which it is expected a number of recruits for the regular army will leave for camp. It is planned to arrange a parade, to be participated in by members of the various fraternal organizations and the school children. It is hoped to secure two bands for the event.

Leaves for Fort Sheridan.

Saturday afternoon Henry Anderson, employed as an engineer by the L. S. & T. railway, left for Fort Sheridan, Ill., to begin a course of instruction in the officers' training camp. Mr. Anderson received his notification Saturday noon, and is the second of the applicants from this city to be summoned.

OATES MAY RESIGN.

But He Says He Has No Understanding of That Effect With the Governor.

W. R. Oates, lately a resident of Marquette, has taken cognizance of a report that he would resign as state game commissioner by issuing a statement in which he says that he has under consideration plans that would mean resumption by him of the practice of law, but he has come to no decision in the matter. He denies that there is any agreement with Governor Sleeper that he shall resign. Mr. Oates says:

"It is true that I have under consideration one or two propositions which may eventually result in my resuming the practice of my profession. I have not definitely decided, however, to discontinue my work in this department. There are certain new and constructive departmental plans which have recently been put into effect that I wish to see well established before I take up any other kind of work. I do wish to emphasize the absolute verity of this statement though, that no trace or understanding of any kind was directly or indirectly made or hinted at between the governor and myself, which would warrant the impression conveyed that I had agreed to resign."

It was reported last week that Mr. Oates would leave the game department to become associated with Alex. J. Groesbeck in the attorney general's department. He and Mr. Groesbeck are close friends, and have been associated in several political contests during the past few years.

Sportsmen of the state would view with great regret Mr. Oates' retirement from the office of game commissioner, as he is generally credited with having made the department more efficient and valuable to the state than it has ever been before.

GOVERNOR FREES STRIKE DEPUTIES

Paroles of Polkinghorne, Groff and Cooper Are Terminated by Recent Order.

Officers of the Marquette prison yesterday received word that Governor Sleeper had terminated the paroles of Ed Polkinghorne, Josh Cooper and William Groff, who were sent to the prison in February, 1913, from the copper country, for manslaughter, from seven and a half to fifteen years. The three men and Davis, who is still confined in the prison, were held for trial for the killing of strikers during a melee at a boarding house that developed when the quartet, who were special deputies, sought to effect the arrest of a striker who had trespassed, against orders, on company property. The case was one of the most bitterly fought that has ever occurred in the copper country, and finally resulted in a jury finding the man guilty. Judge Plannigan, who presided at the trial, sent the quartet to Marquette, with long sentences.

Last year, pending a motion for a new trial, Polkinghorne was at liberty for several months, but finally the new trial was denied, and he rejoined the other men in the Marquette prison. Late last year Governor Ferris paroled Polkinghorne, Groff and Cooper, for an indefinite period, Davis being refused clemency because of a bad prison record. Governor Sleeper now gives the men their full liberty.

Parole Violator Returned.

Deputy Warden Catlin has returned from Lansing with Charles Walker, a parole violator, in charge. Walker, who is a third offender, was released from the prison last year by Governor Ferris.

Melch Malinowski was received at the prison, yesterday, from Saginaw, to serve a life sentence for the killing of his wife, to whom he had been married six years. He is twenty-eight years old; he fired several shots into the woman's body.

Walter Godfrey, who with three others, is held at Detroit on the charge of killing Max Schreiber, a saloon keeper, pleaded not guilty, as did his pals, when arraigned last week. Godfrey was paroled from the Marquette prison several months ago, and since that time has had a hand in several crimes.

SOO CANAL PASSAGES.

Sault Ste. Marie, Mich., May 13.—(Special).—Upbound vessels passing the canal the last twenty-four hours were: The Atlabassa, Dunham, 7:30 last night; Sawyer, Tuxbury, Redfern, 8; Midland King, 9; Walsh, Leopold, 11; North Pines, 2 a. m.; Yuma, Collins, 3; Grandville, Richardson, Wickwire, 4:30; Persens, 6; Hagarty, 6:30; J. J. Brown, 8:30; Flagg, Warner, 9; (Large) Fitzgerald, Monroe Smith, 10; Cornell, Utica, Mariska, Kotcher, 11:30; Harvey Brown, 1 p. m.; Steuart, J. E. Upson, Lagonda, 2:30; Arthur Orr, Matafa, 3; Norton, 5; Snyder, Bethlehem, 6; D. O. Mills, 6:30.

CONSISTORY DEFERS GOLDEN CELEBRATION

International Crisis Prompts Postponement of Anniversary Observance Here Next Month.

Due to economic and other disturbances growing out of the war situation the proposed jubilee reunion of Francis M. Moore consistory and co-ordinate bodies, which was to have been held in this city Tuesday, Wednesday and Thursday, June 5, 6 and 7, has been indefinitely postponed.

Following is the official order, issuing from the office of the commander-in-chief, George Tucker:

"May, 12 1917. "Illustrious Officers and Sublime Princes, of Francis M. Moore Consistory. "It is with profound regret that wholly uncontrollable conditions compel the announcement that the ceremonial of Francis M. Moore Consistory planned for Tuesday, Wednesday and Thursday, June 5, 6 and 7 has been indefinitely postponed.

"This decision has been most reluctantly reached, it having been ardently desired to fittingly observe the golden anniversary of the institution of the supreme council of the jurisdiction to which we owe our allegiance agreeably to earlier recommendations and engagements.

"It has been apprehended, moreover, that unnecessarily radical changes, as well as our fraternal as in business life may induce a panicky attitude of public mind, well calculated to defeat the very purpose our self-imposed economies are designed to accomplish, and inculcate mischief among. To avoid this, both in word and in act, has been our sincere wish and earnest intent.

"It is known by every sublime prince that the ceremonials of Scottish rite degrees are compatible with the most solemn hour possible to the life of nations, and the foregoing announcement should not be interpreted to lend color to any contrary misconception.

"It is only after the most general consultation possible with the illustrious officers and earnest workers of the consistory and co-ordinate bodies of the Rite in this valley, and with the most convincing evidence of the necessity for this action in our possession, that the responsibility is assumed to make it public that under the unprecedented conditions forced upon us, our originally planned reunion and jubilee cannot be held.

"Affectionately yours, "GEORGE TUCKER, "Commander-in-Chief of Francis M. Moore Consistory."

SERMON ON WAR.

The Rev. Johnson Denounces German Brutality and Extols French.

The Rev. Dr. Charles J. Johnson preached the second of his sermons on "The Great War," before a congregation which packed the First Methodist Episcopal church last night. The church was attractively decorated with flowers and flags. Miss Lolita VanChesting sang "La Marseillaise."

Early in his talk the Rev. Johnson expressed the hope that the writer or writers of the anonymous letters, which he has been receiving during the past several days, were in the congregation, and declared that he would endeavor to give them something more to ponder over.

"France is not decadent," he said. "The French are not degenerate. The battle of the Marne, the struggle at the Somme and the victory at Verdun attest to the heroic qualities of the modern Frenchman. They are fighting nobly to recover their lost territory, to deliver their deported and distressed women, and children and men, they are fighting for their existence as a nation and for the liberties of humanity.

"When the accounts of the outrages imputed to the German army in France were made known, it was received with mingled amazement, horror and doubt. But later investigation has established beyond all doubt the appalling tales of pillage, wanton destruction, of property, the violation of women, indiscriminate slaughter of civilians and of every abominable crime and brutality that ever defiled the blood-stained annals of man.

"The army that harried and ravaged the land of northern France carried brutality and cruelty to 'ruth' degree. When I think of the unprovoked and uncalculated for arson, rape and murders I tremble when I consider that God is just—I read 'vengeance is mine, I will repay.'"

INSURE WITH PETER WHITE & CO.

Theatrical

De't Theater.

Gladys Coburn, supported by an all-star cast will be seen in a Fox feature, "The Primitive Call."

This dramatic pietization of a woman's power for good or evil provides wonderful possibilities for portraying the ability of this excellent screen artist, Miss Coburn.

Marie Doru in "Lost and Won" will be shown at this theater on Tuesday, matinee and night.

At the Opera House.

Mrs. Vernon Castle will be seen tonight in chapters 10 and 11 of the fascinating serial "Patria." In addition to this serial picture a Triangle comedy will be shown, "Caught With the Goods," together with a Pathe weekly and Ford animated weekly.

Followers of Mary Pickford will be interested to note that she will appear in "A Poor Little Rich Girl" at this theater on Friday and Saturday.

Rosanna Hoffman, 94, of Pittsburgh, walks a mile daily to pray for world peace.

THIS IS THE DAY FOR DRESSES

The season's newest style ideas in dresses for women will be shown here today in the special display of the new models which come here in charge of Mr. Hulquist, direct from the house of Weiss & Co.

All women who love pretty things to wear will be intensely interested. No matter what price a woman is prepared to pay, whether it be \$10.00, or \$100.00, or any price between, there will be the satisfaction of making selection from styles that are truly stylish and exclusive.

The display will be open and ready to be shown at ten o'clock this morning.

A SPECIAL FEATURE

of this dress sale is a large assortment of dainty garments which has been sent here from the factory, apart from the sample line, and from which dresses may be selected for immediate delivery. This special assignment contains nearly all sizes, and in addition to the advantage of getting them delivered immediately there is

An Extra Cash Discount of Ten Per Cent

on the garments sold from this special shipment.

You may choose Taffeta or Crepe de Chene Dresses at - - \$15
Silk Poplin and White Net Dresses for Graduation at - - \$9.75
Handsome Silk Dresses for street and for sports wear at - \$22.50

Because this semi-annual dress sale is usually attended by a great number of people, it will be necessary to arrange fittings for another day. Selections, however, can be made today and garments reserved by only a part payment at time of purchase. WE WILL MAKE NO CHARGE FOR FITTINGS

Notes of Sport

Howard Hoffman, one of the speediest huffbacks ever developed at De Pauw University, is a member of the United States navy, having enlisted as a second class mechanic. Four other De Pauw athletes have joined the colors.

Carl Weilmann, the tall left handed pitcher with the St. Louis Americans, probably will be unable to pitch for several weeks. He is suffering from an infection of the kidneys and has been ordered to remain in bed. Weilmann has not been at his best this spring.

Sol Butler, the negro sprinter of Duquesne German college, will compete in the "Big Nine" outdoor track and field championships to be held at the University of Chicago, June 9. He is entered in the 100 and 220 yard dashes and broad jump. Butler won the broad jump at the University of Pennsylvania relay carnival.

Ty Cobb, the noted star of the Detroit Americans, has advised St. Louis friends that he's ready to join the colors. "I am not going to volunteer, however," Cobb said, "for I believe in the selective conscription plan. When they call me, I'll be ready. I shall be willing to serve in any capacity."

Opening of the officers' reserve training camp at Fort Riley, Kan., will almost disrupt the track team of the Kansas State Agricultural college. Members of the team already designated for attendance are Captain Wilder, hurdler and broad jumper; Tillson, two-mile; Holyoak, sprinter, and Enlow, pole vault and discus. Several others have applied for permission to attend and may be accepted.

Ty Cobb, the Detroit star, is through questioning the decisions of Silk O'Loughlin, the veteran American league umpire. O'Loughlin called a strike in a recent game here that Ty thought was too high. He protested. "Never missed a strike in my life, Ty," Silk said. "Well, that one was too high," said Cobb. "Tromble with you, Ty, is that you took too long a stride," retorted O'Loughlin. "What do you mean?" flashed back Ty. "Are you trying to tell me how to bat?" "Well, aren't you

trying to tell me how to umpire," was Silk's quick comeback. Ty took another swing.

For the first time in nineteen years, the University of Michigan will not hold its annual intercollegiate outdoor track meet this season. The war was given as the reason for the cancellation of the event. Twenty-one schools had entered.

Tennis is again commanding attention at Purdue and an effort is being made to arrange matches with other colleges. Coach James has out his squad to eight men. They are: Stier, Tatman, Fatout, Yong, Dossett, Mar-Tinez, Mayer and Roman. Mayer, Tatman and Stier were members of last year's squad.

Ralph Greenleaf, of Chicago, the 17 year old pocket billiard star, probably will be the next challenger of the championship now held by Frank Taborski, of Syracuse, N. Y. Greenleaf, whose home is in Menominee, Ill., shows more promise, in the opinion of experts, than any other pocket billiard player who has broken into the game in years.

Dr. James A. Naismith, head of the physical training department of the University of Kansas, has been granted a leave of absence from his duties for the duration of the war. Dr. Naismith is chaplain of the First Regiment, Kansas National Guard, and last summer was on the border with the regiment.

Although Governor Cox has ruled that Les Darcy, the Australian middleweight, cannot box George Chip here May 19, the promoters are still hopeful that the contest will be decided. A committee of business and professional men will call on the governor and attempt to convince him that there is no solid reason why Darcy should be barred from boxing in this state.

Eight former college football players, some of whom played last fall, are among the Detroit applicants for the Officers' Reserve corps. Harry Costello, athletic director at the University of Detroit, and two of his players, Ward, left tackle, and Pisula, guard, have answered the call. Moriarty, Kerwin, Cornell, Tucker and Gardner, who have played independent football here, are the others. Kerwin and Moriarty were for-

mer Georgetown stars, as were Costello and Ward. Cornell played at the University of Michigan, Tucker at Pennsylvania and Gardner at Carlisle.

Minneapolis golf clubs, following out the suggestion of the department of agriculture that every available plot of ground be cultivated, are planting farm products in the unused portions of their links. The Minikahda club and the Interlachen club are planting garden truck, and the Minneapolis Golf club is preparing to plant four acres of potatoes.

President Navin and Manager Jennings of the Detroit Americans are strongly in favor of a plan to start the baseball season about two weeks later than the usual opening and playing a little later in the fall. Mid-April weather has been responsible for many postponements this season, as usual, and it is believed that many double headers could be avoided if the season did not open until the last week in April.

A 10 per cent tax on baseball would mean "the destruction of the game" in the opinion of August Herman, president of the Cincinnati Nationals, and chairman of the National Baseball commission. "No league enjoys such profits that it could survive a 10 per cent impost," Mr. Herman said. "The various leagues might as well shut their gates immediately if such a measure goes into effect. Every league, every club owner is ready and willing to make such sacrifices for the nation as he possibly can, but the business of baseball could not well be conducted against a dead loss. President Johnson, of the American league has already made the announcement that his circuit could not live under such a burden. I can only say the same for the whole world of baseball. If the major leagues could not keep on, what earthly chance would there be for the minors?"

No tennis tournaments except for women players will be held at Kansas City during the war, according to the plans of the Kansas City Tennis association. President Paul Pinkerton has notified the five largest clubs, at which all of the city's tournaments previously have been held, that the association will not sanction even inter-club matches, as he declared tennis players are confronted with a more serious problem

"HAVE YOU BOUGHT A BOND?"

The above photograph shows the war advertisement on the wall of the National Bank of Commerce in New York City. It is believed this is the first time that any financial institution has used this method of announcing its war wares. The demand for war bonds is greater than ever the most optimistic forecast, and from every class of inventor there is a scramble to get aboard the financial "band wagon."

MONGOLIA FIRED AT BY SUBMARINE?

Liner Which Fired First Shot for U. S. in War Reports Another Attack.

(Name of city deleted by censor) May 13.—The American steamship Mongolia, from which the country's first shot in the war with Germany was fired with such accuracy that a German submarine was sunk, arrived at an American port today from Europe, bringing a report by the officers of another apparent encounter with a U-boat.

The second adventure was on May 4, according to Lieutenant Bruce M. Ware, the man who commanded the naval gun crew which disposed of the submarine on April 19, the anniversary of the battle of Lexington.

BELIEVE THEY SAW TORPEDO.

The Mongolia was on her homeward voyage, Lieutenant Ware said, when about midnight, on May 4, the wake of what was believed to be a torpedo was seen ahead in the moonlight. The missile,

if it was one, passed under the ship's bow. No submarine was sighted, but a shot was fired from one of the Mongolia's guns in the direction from which the supposed torpedo had come and nothing further was heard or seen to indicate a submarine's presence. The gunners on the Mongolia were jubilant upon their arrival. They reiterated their conviction that the shot on April 19, sank the submarine. It was fired, Lieutenant Ware said, by James A. Goodwin, gunner's mate, of Portsmouth, Va. Lieutenant Ware declared that through his glasses he saw the shot strike the U-boat's periscope and that the hit was followed by a cloud of white vapor, as if an internal explosion had been caused. After that the submarine did not reappear, he said.

MIDDLE WEST BANKERS RECEIVE INFORMATION ON NEW LIBERTY LOAN

Chicago, May 13.—Information and printed application for bonds inviting subscriptions for the Liberty Loan, were mailed today to 6,000 bankers in Iowa, the greater part of Wisconsin and Michigan, and two-thirds of Indiana and Illinois, by W. A. Heath, reserve agent and chairman of the federal reserve banks of Chicago.

RUSSIAN GENERAL RESIGNS HIS POST

Korniloff, at Head of Petrograd Garrison, Says There Are too Many Commanders.

Petrograd, May 13, via London, 2:45 p. m.—General Korniloff, commander of the Petrograd garrison, resigned today. The general explained to an interviewer that his resignation was due to an impossible position arising from the efforts of various organizations to control the garrison and added: "Well, then, let them take the responsibility." **TOO MANY COMMANDERS.** The last straw which led to the commander's resignation was the demand made by the executive committee of the council of Soldiers and Workmen's delegates that all Korniloff's orders should be presented to the committee for its endorsement. General Korniloff will go to the front to command one of the armies.

General Korniloff was in command of the Petrograd district at the time the imperial government was overthrown and personally placed under arrest the former Empress Alexandra, who was residing at the Tsarskoe-Selo palace.

In an order issued May 6 General Korniloff warned the inhabitants of the capital that a German attack on the capital was impending by way of Libau, and directed the reorganization of reserve elements to defend the city. After the publication of this order, the council of Soldiers and Workmen's delegates requested garrisons around Petrograd not to send troops into the capital without a written request from the executive committee.

MANY ARRESTED IN DES MOINES FOR NOT OBEYING 'BLUE LAW'

Des Moines, Ia., May 13.—Sixty-three arrests were made in Des Moines today as the result of the enforcement of the Iowa "Blue Laws," long regarded as obsolete, and usual Sunday business activities were practically suspended. Cigar stores, drug stores, garages, fruit stands, ice cream parlors, confectionery establishments and other similar enterprises were closed all day.

Most of those arrested are citizens with small businesses who declare they are not bound by the Sunday closing provision of the Iowa laws.

THOUGHT U. S. FEARED DIVISION.

Speaking in New York, James W. Gerard said that at the time the Lusitania was sunk an official of the German government in Berlin told him that the United States would not "dare" to make any move because there were 5,000,000 German reservists in America who would rise against this country. "I said to him," declared the former ambassador: "Can you point to one single man with an American passport who is serving in your army? There are thousands serving in the armies of the allies of American citizenship. If you can show me one American in your army I will believe then that the German-Americans are with you."

Mr. Gerard referred to Sir Roger Casement's activities in Germany. He said: "I would like to have the Irish-Prussians go with me to the camp at Limburg, where the Germans collected 2,500 Irishmen and sent Roger Casement to seduce them. He did succeed in getting about thirty to join the German army, but 2,470 remained, as all Irishmen will true to their oath. And I should like to ask this small band of Prussian-Irishmen whether they think they are going to come nearer to home rule for Ireland by supporting the autocracy of Prussia or by getting behind President Woodrow Wilson."

Upper Peninsula

Telephone Improvements.

The Michigan State Telephone company will expend considerably more than \$50,000 in the district immediately surrounding Iron Mountain during the next several months. Lyman Green, the construction superintendent, will make his headquarters here and will employ between thirty and forty men. The work includes four new lines from Iron Mountain to Crystal Falls, and two from this city to Marquette along the county road. Several more wires are also to be erected between Iron Mountain and Powers. The service is now very much congested and the additional wires have become absolutely necessary in order to handle the business.—Iron Mountain Press.

Creamery for the Soo.

A modern creamery, up-to-date in every way, and costing not less than \$100,000 to build, will be erected on the east side of Ashmun street, south of the power canal, at the Soo, construction to start not later than July 1, and operation to commence by September. Fred W. Meen, president and proprietor of the Rhineland Creamery and Produce company, of Rhineland, Wis., the biggest concern of its kind in this part of the country, closed the deal. "I was absolutely astonished at the wonderful farming country you have here," he told members of the Commercial association executive board. It seems incredible that you have not already a big and modern creamery here and I am certain your city offers just the opening I want. A creamery such as ours will be not only a decided asset to a city, but to the farmers as well. We offer a spot cash market for all the cream the company can possibly give us, and provide, in my estimation, a great incentive to cattle raising on a big commercial scale. The farmers of Wisconsin, the wealthiest and most prosperous in the country, as a class, are devoted to cattle raising almost exclusively, and there is no reason why an ever increasing number of yours should not be also." The creamery will be housed in a new brick or stone building, with fifty foot frontage, and about 130 feet deep. It will employ ten or a dozen hands to start, and more later. The establishment at Rhineland, a city of 7,000, employs twenty now, and is growing.

Cattle Raising in Dickinson.

West Branch township, Dickinson county, will soon become the center of the ranching business of Michigan. Skelly Brothers, residents of the copper country, were the pioneers in the business. They established a cattle ranch in the vicinity of Ralph a number of years ago and have been very successful. They have established the fact that it is possible to pasture cattle in the upper peninsula for a longer period than in Wisconsin and Illinois, also, that cattle fatten quicker and better on our grasses. During the past winter the firm maintained several hundred head of cattle at their ranch. The cattle wintered well and are now in prime condition. The brothers intend to enlarge their operations in the near future. The Quinn Brothers, of McHenry, Illinois, now intend establishing a large goat ranch in the vicinity of Ralph. The firm acquired several thousand acres of land from the Stephenson company. Three thousand acres of the tract have been fenced and a number of buildings erected. It required six miles of fencing to enclose the tract. The senior member was in Ralph last week inspecting the improvements. It will require ten days to finish the work. The initial shipment of goats will be 2,000. The firm will ship them from Mexico and they will arrive in the course of a few weeks. Mr. Quinn is confident that the goats will thrive in this territory. A Mr. Carpenter, of Des Moines, Iowa, has purchased 8,800 acres of outcrop lands in the township. The Ford River farm is included in the tract. At this farm there is at present over three hundred acres under cultivation. Mr. Carpenter has an-

nounced that he will plant two hundred and fifty acres to potatoes this spring. This will give West Branch the largest potato plantation in the state. He plans to colonize the remainder of the lands. His intention is to clear forty acres of every one hundred and sixty acres and sell to the Iowa tenant farmers. This will result in increasing the population of West Branch very materially. The lands are well situated for diversified farming. A Mr. Bowers, a resident of Iowa, has also purchased 1,280 acres of cut over lands in the township. He will engage in the cattle business and expects his first herd in a few days.

Battalion Is Organized.

Simple and impressive was the ceremony in the Soo army, when Captain Connelly, of Co. A, taking his place at the head of the home battalion, which was lined up in company front, and at attention said: "Major, I present to you the First Battalion, Soo Reserve Corps of Infantry." And Major Chase S. Osborn, stepping upon a chair to command a better view of the four companies, accepted in words which stirred every man in the organization to the depths. Major Osborn announced his intention of forming a committee "for the good of the battalion" to consist of one member and one officer from each company, all grievances to come before it with his decision, as commanding officer, final in cases of a tie vote. He roused the men to a high pitch of applause when he stated that if the state and federal governments "do not inform you, I will." Captain Ira MacLachlan, Co. M, Thirty-third Michigan Infantry, spoke briefly, following Major Osborn. The burden of his talk was a heartfelt appeal for Soo men for the Soo company. "I want to come back here after the war with a Soo company. It looks dubious now. But I have turned down twelve Marquette men recently. I want home boys." As a result one member of the battalion enlisted and others, it is said, made up their minds to do so within a few days.

P. O. Employment Bureau.

The Escanaba postoffice will serve as an employment bureau during the summer months in order to bring together farmers needing help and those who would work on the farms. The following communication has been forwarded to the postmaster from the U. S. employment bureau at Chicago which explains the work to be done and what it is hoped to accomplish: "This office is very much interested in securing competent farm help for work on the farms in our district, comprising the states of Illinois, Indiana, Michigan and Wisconsin. At this writing we have received many more applications from farmers for experienced farm help than we have been able to meet. However, we are daily receiving applications from well appearing boys and young men, most of them 16 to 21 years of age from high schools and coming from very good families, who are anxious to go on farms in this vicinity for the coming season. They would be willing to work for reasonable wages, and it is felt that if the farmers in your locality could at all see their way clear to employ one or more of such young men, it will greatly facilitate our work and enable us to supply more farmers with help than heretofore owing to the scarcity, as above stated, of experienced farm help. Some of the young men above referred to have had some farm experience, but most of them have had none whatever. If you could see your way clear toward acting in the capacity of a clearing house for farmers adjacent to your office, it would facilitate the placement, taking their applications for such help as may be needed, forwarding same to this office and assisting in directing help to the employers on arrival of the prospective farm workers at your city."

TRY "BURNS FAMILY" SOAP.

Burns Family Soap is made differently from other soaps. The premium is in the soap. That is why it will not wash out clean and out last all other soaps at your Grocer's. 8-25-m-17

EDISON FINDS WAY TO WIPE OUT U-BOATS OFFICIALLY ANNOUNCED.

Thomas A. Edison, the famous inventor, and life president of the Naval Advisory board, who, according to an official announcement, has, in co-operation with the Advisory board found a way to wipe out the German U-boat menace. Announcement was made by W. L. Saunders, chairman of the Naval Advisory board. "I cannot say more at this time," said Mr. Saunders, "than that we have submitted a concrete plan to the navy department to handle the hostile submarine craft. It is not a theoretic plan, but one which is based on actual experiments."

WALTER STERNE TO FORT SHERIDAN

Ishpeming Young Man Passed Examination in Class A—Has Reported for Duty.

Albert E. Sterne Saturday received a letter from his son Walter, who a few weeks ago passed the examination for admission to Fort Sheridan to train for the officers' reserve corps, advising him that he had been admitted, and had given up his position to report for duty. He passed the examination in Class A. His letter is in part as follows:

"I have just received word that I had been admitted to the officers' training camp at Fort Sheridan. I am tickled to death. They graded the applicants, A, B, and C. I was graded A, the highest possible grade. I will go out there today.

"I will be at Fort Sheridan for three months. While we will be put through a very stiff course of training, eight hours of drill and four hours of study, when we finish we will be given commissions. One out of every three will go into active service, the other two will be put on reserve and held. We will be used to train the new army of 500,000 that will come by draft. So probably none of us will be leaving here until next spring, a year from now.

"What do you know about it? I was out at Fort Sheridan yesterday and met my old room mate Tutthill from M. A. C. He is there to train like myself. He says there are a lot from M. A. C. there. We will have a great time.

"Fort Sheridan is on the lake and it ought to be nice and cool there this year. The weather is getting fine here. We sleep in barracks and get good food."

GIVEN ROUSING FAREWELL

Ishpeming Young Man, Departing for Fort Sheridan, is Cheered on His Way.

Elzey Hayden, first of the Ishpeming young men to receive notice that he was subject to call to the officers reserve corps training camp at Fort Sheridan, departed for there Friday night. Clarence B. Randall, who received a message the previous day advising him to report for duty, left that same night.

Members of the home guard were out for drill Friday evening and marched to the Northwestern station to bid Mr. Hayden farewell. About 150 men were in line. Several hundred, others also congregated and cheered as the train pulled out.

For the past few years Mr. Hayden, who held a responsible position in the engineering department of the Cleveland-Cliffs Iron company, has been city engineer. Inasmuch as there will be little new street work this summer, it is hardly likely that an engineer to succeed him will be appointed at a regular salary, but one will be engaged from time to time as his services are needed.

Robert Potter to France

Robert Potter, second son of Judge W. T. Potter, who for the past two years has been a student in Harvard University, has enlisted in the American Ambulance corps, to serve with the French army in France. He will leave New York for France on either June 13 or 20, and will enter the service at once. This service is not only voluntary, but the position carries with it no compensation.

Mr. Potter has advised his parents that he is not yet certain that he will be able to come home for a few days visit before departing for France. If he is unable to come home, his parents will go East to bid him goodbye. He writes that many Harvard students are enlisting in the army or navy.

The members of the Thabitia club will conduct a dancing party tomorrow night in the Anderson hall. Jaedecke's orchestra will furnish the music.

OLD PIONEERS PASS.

A. W. Conradson, aged seventy-one, well known merchant, died yesterday afternoon at 2 o'clock from a complication of diseases. Mr. Conradson has kept a grocery store on Cleveland avenue for over thirty years and is one of the pioneers of this city. Mr. Conradson came here from Jylap, Denmark, where he was born. Arrangements for the funeral have not been completed.

Mrs. Eva Peterson, aged eighty-one years, died Saturday at her home on Empire street. Mrs. Peterson is an old resident, coming to this city in 1873. Her husband, a well known stone-mason, died here several years ago. She is survived by two sons and two daughters, Otto and Mrs. Hellman, of Ishpeming, and Holkan and Mrs. Robertson, of Pontiac. The funeral will be held at 1:30 today from the Swedish Lutheran church.

WORMS HANDICAP YOUR CHILD.

Worms drain the strength and vitality of children, making them dull and listless. Their power to resist more serious diseases is reduced and energy and interest in play is lacking. Kiekapoo Worm Killer is a mildly laxative remedy in candy tablet form that children like to take. It kills and removes the worms and lets your child grow strong and healthy like other children. Don't let your child be dragged down by worms. Full directions on the box. At all druggists, 25c.—Adv.

FOR SALE—Five-passenger touring car at a bargain. Fred Delongchamp, Chgo. 4-25-17

MICHIGAN BOYS TO BE MOBILIZED

Planned to Use Large Numbers of Them the Coming Summer in Work on Farms.

George W. McCormick, of Menominee, who is the upper peninsula representative on the Michigan War Preparedness board, named some time ago by Governor Sleeper, has suggested a plan of mobilizing the school boys of Michigan for farm work. If the plan is adopted, excellent results will, it is believed, be achieved, particularly in harvesting potatoes and other food crops.

It is estimated that there are 208,000 boys in the state from fourteen to eighteen years of age. Of this number, 100,000 are in the cities, and ordinarily produce nothing during the vacation period. It is planned to organize these boys in a systematic manner.

Each boy who does his duty will be given a badge and at the close of his service will be granted an honorable discharge, signed by the governor. The boys will be sent to the country districts in squads, in command of a captain, and will be quartered in town halls, grange halls and school houses, where other accommodations cannot be provided. They will be paid by the state and the farmers.

Michigan has led with plans to mobilize the boys of the state, but already Illinois is following its lead.

Word comes from boys in many parts of the state expressing willingness to work on the farms or in gardens, or to take up other occupations that will help during the crisis.

In every county, township and city in the upper peninsula steps are being taken to get the boys into line for summer work, either in the home gardens or in the farming districts, and the results promise to be satisfactory.

Mr. McCormick has been devoting much of his time since his appointment on the Michigan Preparedness board to formulating plans for increasing the food supply.

FAIR AT DIORITE.

The Catholic women, of Diorite and vicinity, will conduct a church fair in Diorite hall tonight, tomorrow and Wednesday afternoon and evening. The women plan to entertain large crowds and there will be a large and well assorted display of fancy and useful articles to be offered for sale. Refreshments will be served. Some attractive booths have been erected and the hall is to be decorated in the national colors. The net proceeds will go into a fund being raised for a new church, which will be erected in the near future. This church will serve Catholic families of

Clarksburg, as well as Diorite. The Rev. Father Blecker, who, for some time, was assistant to the late Father Boudas, of St. Joseph's church, has charge of the work in Diorite and vicinity. The women extend an invitation to their friends to attend their bazaar.

THEATRICAL.

Charlie Chaplin, Mable Normand and Marie Dressler, one of the greatest combination of stars ever brought together for a comedy screen production, will be seen this evening at the Ishpeming theater in "Tillie's Punctured Romance," in six parts. This picture has been shown for more return bookings than any comedy ever secured. In Calumet last week the theater could not accommodate the crowds after the first performance. It was shown there for three weeks.

Selig Play at Butler.

"Little Lost Sister," the Selig version of Virginia Brooks' world-famous novel of Vasa. Natives of Sweden will find much in the pictures to interest them, as they cover a large variety of subjects. They include military and industrial activities, winter and summer sports of various kinds, scenes of lakes, rivers and mountains, also of city life. The pictures were specially taken for the Ivan Film company, of Minneapolis, with the object of pleasing all classes.

Motion pictures of Sweden, will be shown tomorrow, matinee and night, at

BATTLES AND PHENOMENA.

The statement is one of General Maude's dispatches from Mesopotamia that "the fighting had to be temporarily suspended owing to a mirage, but upon this lifting our offensive continued," is taken by the New York Herald as its text for an editorial on other instances in which unusual natural phenomena have played a part in the setting of the stage of war, greatly influencing the conduct of battles. Beginning with a reference to the account in scripture of the battle at the onset of which Joshua said, "Sun, stand thou still on Gibeon, and thou, moon in the valley of Ajalon," when the leader of Israel smote the Amorites hip and thigh, the Herald proceeds:

Tacitus, who was as good a reporter as ever sat down hereafter for fact, tells of a Roman army that might have won the "big push" of that day if an eclipse

of the sun had not driven the legions to panic and flight. In the stirring days that gave birth to a Dutch Republic William of Orange's fleets were frozen fast over night, but this interposition of nature was overcome, for the sailors disembarked and in a battle on the ice gave the Spaniards as fine a trouncing as history records. In more modern days a stampede of wild horses dispersed an army that invaded Patagonia, while in the Boer-English war flights of grasshoppers that obscured the sun frequently interfered with operations. In the first battle of our war with Mexico hostilities were suspended while soldiers of both armies extinguished a prairie fire that threatened to drive everybody to flight.

Curiously enough the Herald ignores the tradition of the sand storm in the desert which swallowed up an army of Cambyses during the conqueror's campaign in Egypt.

MANY REJECTIONS.

Rigid Examination for Recruits is Not Being Passed by Many Young Men.

According to a report received at the navy recruiting office in Ishpeming Saturday, the percentage of young men applying for enlistment in the navy who fail is larger than the percentage of men accepted. During the week before last, out of twenty-nine applicants in Saginaw, Mich., but four passed. The percentage of applicants received at the Ishpeming station was larger, ten out of thirty having been accepted. In Chicago, 293 out of 773, were accepted; in Milwaukee, sixty-three out of 149 passed the examination and in New York, 148 out of a total of 677 were accepted.

Among those sent from the Ishpeming office to Milwaukee for examination and accepted are Park Glenn Martin, 436 Carney street, Marinette, Wis.; Carl L. Lundquist, 409 Lincoln street, and William Paul, 3716 Emma street, Menomonee.

Among those rejected were Algot Anderson, 324 Center street, Marquette, and Debert Moody, 317 South Linnie street, Escanaba.

The office was notified Saturday that Reynolds Wassburg, of Hibbing, and Daniel J. Vaughan, 201 Mather street, Marquette, had passed the examination. Both applicants were sent from the Ishpeming office.

William H. Feldhake, of Ellington, Ill., left for Milwaukee Saturday evening, after taking the examination at the local office. Mr. Wassburg, of Hibbing, who had been here awaiting word from Milwaukee, left Saturday evening for that city and expects to be in the training camp near Chicago within a few days.

While Mr. Thoms, in charge of the recruiting work here, is from Saginaw, he says it is mighty proud of the fact that the Ishpeming office had a larger percentage of acceptances than Saginaw, as shown by the figures mentioned above.

ISHPEMING IN BRIEF.

Mrs. F. P. Tullson has returned from the South, where she spent the winter.

Mr. and Mrs. R. W. Erickson drove over from Iron River Saturday and returned yesterday.

Charles Parks, Jr., has returned to Hibbing, Minn., where he has been located for some time past, after a visit with his parents here.

James Trellbeck, who is employed as a mining engineer on the Gogebic range, visited relatives at the National and in the city the past two days.

Miss Mayme Coyne, of Turin, was a week-end visitor with Miss Margaret Gleason, who teaches school at Turin, but who came home to spend Saturday and yesterday.

Richard Thompson, son of H. S. Thompson, a student in the University at Ann Arbor, has enlisted in the Engineers corps, and expects to leave for France with the Michigan and Ohio battalions.

With the high wind that has prevailed here every day for a week past, the city street sprinklers have been in constant use and even then there is much dust flying, especially in parts of the city that the sprinklers cannot cover.

C. H. Moss, who is interested in the development of vegetable gardens, has received a donation of ten boxes of giant powder from the Du Pont Powder company, to be used in blasting stumps for the plots donated by the Golf club.

A number of the members of the local Pythian lodge, also members of the Pythian Sisters, went to Munising yesterday by special train. There was also a large delegation of members from Marquette. A degree team, chosen from

the Ishpeming and Marquette lodge, exemplified secret work on a class of Munising men.

The Carpenter-Cook company received a second delivery truck Saturday, for use of the fruit department. This truck is smaller than the White truck received early in the week. The latter has a capacity for hauling three and a half tons to a load.

Vampa's band will give a dance in Anderson hall a week from next Saturday night, May 26. The band will play on the streets before going to the hall. The band has been engaged to furnish music for one of the local Finnish societies on Decoration Day.

The members of the Ishpeming fire department are completing arrangements for their annual memorial service and visit to the cemetery, to be held June 2. The firemen will attend services in St. John's church in the morning and in the afternoon will decorate the graves of departed members of the organization.

James A. Blackney left Saturday evening for Jackson, where he will attend the grand lodge session of the Royal Arch Masons, as representative of the Ishpeming lodge. Thor Orem will represent the Blue lodge, of this city, at a meeting to be held in Jackson the latter part of the week. He will leave for there today or tomorrow.

The members of the Ishpeming lodge of Elks will observe flag-day on the evening of June 14. George Wanek, exalted ruler, has appointed a committee to complete the arrangements. It is probable that the exercises will be open to the public. The committee is composed of:

Queer Makeup for Fighting in Desert.

The above photograph shows an "Anzac" officer equipped for desert warfare. Were it not for the revolver and gas mask he might easily pass for an American track athlete.

posed of M. A. Kahn, chairman; J. S. Wahlman, O. G. Aas, A. T. Devine, E. E. Reidinger and W. H. Trevarrow.

Upper Peninsula

Milkman Under Ban.

One milk dealer of Escanaba will have to make conditions in his barn more sanitary before he sells any more milk to people of the city and a number of other milkmen will be investigated by John T. Rowe, dairy and food inspector, and Dr. A. J. Carlson, head of the health department. "Conditions about the barn were far from being in a sanitary condition," said Dr. Carlson, "so we were forced to take steps to stop the sale of milk by this milkman until he better the sanitation."

Suicide by Hanging.

Bengi Torkelson, a native of Sweden, and a resident of Iron Mountain for nearly thirty years, committed suicide at his rooms on Iron Mountain street, by hanging. A piece of express twine was employed. A noose was placed around his neck and the end fastened over a nail in the wall. He was almost in a sitting position when found, his hands on the floor, and legs extending across the doorway.

Torkelson, who was a bachelor, had been in ill health for some time and undoubtedly committed the deed while despondent. He occupied the rooms with John Youngquist, another bachelor, who found the body and notified the police and coroner. Torkelson had been employed in the Chapin mine for many years. Of late years he worked at odd jobs around the city in the summer and in the woods in the winter. He was about sixty-two years of age. Two cousins—Nels and John Anderson—reside in Homestead.

Strike Effective at the Soo.

Fifty dredge and tug engineers and deckhands, scowmen, crane men and tug captains employed on all tugs, dredges and scows, with the exception of the harbor tugs owned by the Great Lakes Towing and Wrecking company, went on strike at the Soo in response to a general order covering the Great Lakes district. The men are asking that they be given an eight hour work day, instead of twelve hours, at the present monthly pay. All efforts at arbitration have failed so far. Most of the men are employees of the Great Lakes Dredge & Dock company, which is doing harbor improvement work at this port. Some are employed in the Canadian Soo in the same kind of work. The strike order affects them as well. Harry Pattison, secretary of the International Brotherhood of Steam Shovel and Dredgemen, said that the men would not return to work until they received orders from their head office. Efforts to reach an agreement by arbitration have not been successful, he said. Two other unions besides the one mentioned are participating in the strike. They are Tug Firemen's and Linemen's Protective association and the Dredgeworkers' Protective association.

Rejects "More Daylight" Plan.

Escanaba will not officially adopt the daylight saving plan. Members of the city council unanimously adopted the report and a resolution framed by a special committee, providing that all city departments shall continue to be conducted according to standard time. It was reported to the council that neither the northwestern nor the St. Paul officials will consider the adoption of the new time plan at their shops, docks or plants. It was also reported that a great majority of the workmen of the city are opposed to the movement. A vote taken in one department at the Northwestern shops showed 105 votes against the adoption of the new time plan. Another test, taking by writing letters to the business men of the city, showed 111 in favor of the movement and 12 against it. The council in the resolution made no recommendation for the guidance of other bodies and institutions of Escanaba, preferring to confine action to affairs of the city. The report of the committee follows: "We, the committee appointed by the mayor, to confer with the officials of the C. & N. W. Ry. company, as to whether or not such company will accept the more daylight plan for its round house, machine shops, car repair shop, ore docks, tie plant and other shops, beg leave to report that said company will not accept or operate under any plan but the present plan of standard time. We further report that we are advised that the C. M. & St. P. company, will also operate under standard time and will not accept any change, and find that such change would not, in the opinion of your committee, be accepted universally."

Negaunee Department

MRS. ROCK INJURED IN AUTO ACCIDENT

Was Run Over by Car Driven by Captain Perkins, of Diorite, Saturday Night.

Mrs. J. Rock, Jr., was painfully, but not seriously, injured Saturday evening when she was run over by a five-passenger automobile. The automobile was being driven by Captain Perkins, of Diorite, who was being instructed how to run it by John Wentela.

The accident occurred at the corner of Tobin and Iron streets. Mrs. Rock was walking on the north side of Iron street and Captain Perkins was going west on Iron street, when he seemingly lost control of the auto and was headed for a telephone pole when Wentela gave the wheel a jerk, turning the car up on the sidewalk, knocking Mrs. Rock down. One of the front wheels passed over her legs. Doctors could not determine the complete extent of her injuries, but think that she will be confined to her home for several weeks.

A warrant against Captain Perkins will be issued this morning for a violation of the motor laws. Police men have been instructed to keep a sharp lookout for new drivers and to keep them on the back streets. Hereafter machines going to Ishpeming must go to the county road by way of Gold street while machines entering the city must come on Iron street by way of Silver street, thus avoiding the chance of accidents on the Gold street corner.

MISSION STARTED YESTERDAY.

A two weeks' mission, at which two well known missionaries of the Redeemerist Order, of St. Louis, will officiate, was started yesterday morning at the 10:30 service at St. Paul's Catholic church. The mission will end on Sunday, May 27.

The first week of the mission, May 13 to 20, is for the women only, and the second week will be exclusively for the men. It is the aim of the mission to reclaim those who have strayed away from the practice of their religious duties and to arouse the careless and indifferent. Rev. Fr. Dittmar, pastor of St. Paul's, extends a cordial welcome to both Catholics and non-Catholics to attend the services.

CELEBRATED TIN WEDDING.

Mr. and Mrs. Victor Menard, of 308 Clark street, were pleasantly surprised Saturday evening by 35 relatives and friends, the occasion being their tenth anniversary. At the moment of the guests' arrival with the clammering of tin utensils the place became a house of mirth, and a most enjoyable evening was spent with music, cards, dancing and, but not least, a delectable lunch.

LOCAL LAONICS

Dr. H. W. Sheldon is having an addition built to his garage.

The ice on Teal lake is rapidly disappearing, and is now about half gone.

Thomas Pellow has gone to Chicago, where he will spend a week or more on business.

The Oliver Iron Mining company will pay its employees at the Queen group of mines today.

The employees of the Cambria and Hartford mines of the Republic Iron & Steel company were paid Saturday.

Mrs. Thomas H. Gribble and daughter, Dorothy, have returned from a few weeks' visit with relatives at Detroit.

Mr. and Mrs. Elias Dawe have returned from a few days' visit with relatives and friends in the copper country.

The interior of the local office of James Pickands & Co., coal and wood dealers, has been painted and redecorated.

Leonard Field, who is employed in a factory at Racine, Wis., is spending a few days in the city, visiting with his folks.

Mrs. Fred Jackson has returned to her home at Duluth, after spending a few days here visiting with relatives and friends.

John Meisch, Sr., who was injured a few days ago by being run over by a horse and rig, while at work on one of the city streets, has recovered from his injuries and has resumed his duties.

Mr. and Mrs. H. J. Trevarrow spent the past few days at Greenland, where they were called on account of the death of the former's mother, Mrs. Mary Trevarrow, widow of the late Captain John Trevarrow. She was eighty-four years old and was a pioneer resident of the copper country.

At a special meeting of the council Friday evening the members acted favorably upon the application of Charles Johnson for a wholesale warehouse license for malt and brewed liquors.

Michael Bessalo was granted privilege of moving from Silver street to the Bice building on Iron street, which was recently vacated by Michael Marietti.

The home guard will meet at the high school tonight at 7 o'clock. They will go from there to the playgrounds, where they will drill for the evening. Members of the old Light Infantry are requested to turn in their guns to William Ford, former officer of the company, for the home guard's use. The guns will be returned to their rightful owners after the home guard is efficient in the manual of arms.

OPEN CITY'S ROCK CRUSHING PLANT

Has Been Completely Overhauled and Is Now in Good Condition for Season's Work.

The city's rock crushing plant will be put in operation this week. It has been completely overhauled during the winter and the machinery and equipment has been put in the best of condition. A large amount of road building has been planned, and it is likely that the crusher will be worked two shifts, for a few weeks, in order to get out enough rock so that the work will not be delayed when it is once started.

A large crew of city employes have been working on the Cambria and Hartford road, between Negaunee and Ishpeming, for the past two weeks, getting it in condition to handle the traffic between the two cities. Work will be started this week on the rebuilding of the Negaunee end of the county road between Negaunee and Ishpeming, and it will be closed to traffic during the time that the road work is in progress.

It is the plan of the board of public works to rebuild the county road. It has been in wretched condition for several years and although a large amount of repair work was done every summer, it was impossible to keep it in good order. Gold and Silver streets, the principal highways used to reach the county road, will be rebuilt along the same lines. It is expected that the work will take two or three months.

Al Bellstrom, superintendent of the board of public works, intends to make every effort to have the road work completed in good season, and he will employ a large crew of men. He intends to cut down the high spots considerably, and the soft spots will be filled in. The stretch of road, which will be about a mile and a quarter in length from the Ishpeming line to the corner of the county road and Gold street, will be finished with macadam. There will be little grading to be done, and the city officials do not anticipate having any trouble getting enough rock so that the work can proceed without interruption.

The only concern of the city officials is over the scarcity of labor and teams. It is probable that some difficulty will be experienced at first in getting enough labor for the job.

"When the road is completed it will be one of the finest stretches in this section," a member of the board of public works said yesterday. "We plan to have the main highway enter the city by way of Silver street, although Gold street will also be macadamized. It is likely that the railroad company's will install crossing gates at the Silver and Gold street crossings, as they are dangerous, and it has been a miracle that some serious accident has not taken place there. There are always swiftness on these crossings and during the summer, when the ore business is at its height, trains are running back and forth over the crossings during the day and night."

DIED IN WEST.

Edward Yorkey has departed for Salt Lake City, Utah, where he was called because of the death of his brother, Fred Yorkey, which occurred last week in that city. He left Negaunee about three years ago for Salt Lake City, where he conducted a barber shop. He was the youngest of seven brothers, four of whom reside in Negaunee, one at Detroit and one at Bark River. Besides his brothers he is survived by his father and a widow. It is likely that the remains will be brought here for interment.

BUREAU OF MINES CAR.

The United States bureau of mines instruction and rescue car, which is in charge of A. A. Kroghdal, of this city, for the bureau, has arrived here, after being in the east for several months, where it was overhauled and put into condition, for a tour of the Lake Superior region mines. Mr. Kroghdal has taken the car to Ironwood, where it will

be stationed for a few weeks, while he is engaged in instructing the miners of that section in first aid and rescue work. It has been fitted out with an entire new equipment of rescue apparatus.

STAR TODAY.

The Inter Ocean Film company will present, the seven reel feature, "Sweden as it is Today." This picture comes direct from remarkable runs in Minneapolis, St. Paul and Duluth, where it has been patronized by thousands of people who rarely attend the picture theaters. The picture was shown in Duluth under the auspices of the Swedish-American league. The picture shows scenes in Sweden, the Trollhattan Falls, Stockholm, Poryos, the meeting of the kings at Malmo, the Swedish army being mobilized, the exchange of wounded soldiers of Germany, Russia, and Austria through Sweden, scenes from Skio, Varmland, Lapland and Stockholm, and many other famous places in the "Land of the Midnight Sun."

Matinee starting at 2 p. m. new time.

ROYAL THEATER.

Irene Fenwick and Owen Moore, will be seen tonight in "A Girl Like That," Famous Players-Paramount production.

NOTICE TO COAL DEALERS.

The city of Negaunee will receive bids on 2,500 tons of 3/4 in. Youghiogheny soft coal F. O. B. coal treat up to Wednesday, May 9, 1917 at 5 p. m. Alvin Bellstrom Superintendent. 5-3-67.

ECONOMY IN BURIED WIRES.

A small fraction of the money spent in recent years by the railroads, telegraph and telephone companies of our northern states in repairing the ravages to their wires by ice, sleet, and wind would in all probability have been sufficient to bury all these wires. And if there could be some way of computing the cost, it is likely that the damage and delays directly traceable to overhead wires in the large cities of the country aggregate a sum which would have constructed underground conduits, and thus banished the most serious affliction of urban thoroughfares. Some progress has been made in these directions, but nothing commensurate with the need or with the economies that could be effected if all overhead wires could be abolished.—Philadelphia Ledger.

A SYMBOL OF HEALTH.

The Pythagorians of Ancient Greece ate simply food, practiced temperance and purity. As a badge they used the five pointed star which they regarded as a symbol of health. A red five pointed star appears on each package of Chamberlain's Tablets, and still fulfills its ancient mission as a symbol of health. If you are troubled with indigestion, biliousness or constipation, get a package of these tablets from your druggist. You will be surprised at the quick relief which they afford. Obtainable everywhere. Sold Everywhere.—Adv.

FR. BUCHHOLTZ URGES YOUNG MEN TO ENLIST

Speakers Extol Country's Flag and Urge Young Men to Enlist in the Service.

"War is awful, but there are worse things, and peace at the price of national shame and dishonor is one of them," declared the Rev. Father H. A. Buchholtz, rector of St. Peter's cathedral, to an audience which taxed to its capacity the Baraga auditorium Saturday night.

Sacrifices from All.

"We had hoped to be called upon to act as mediators in this great struggle, but now America must settle it by another method. She has engaged in a war for civilization and democracy, that you and I may enjoy our personal freedom and liberty, and she has appealed to us for help. She is calling for support, and that support must entail a sacrifice from every man, woman and child who recognizes the American flag."

"Strict obedience to the nation's call is the first, the greatest and the holiest duty of every citizen. Patriotism is the vital element in a nation's honor—a civic virtue. He who loves nothing has nothing, and is the lowest type of humanity. Self-preservation is the first law of nature and never in history has a great nation refused to defend its honor."

Pointing to the American flag, which draped the stage of the auditorium, Father Buchholtz told all it stood for, its virtues, its victories, and declared, "we are proud to be citizens of the greatest, freest and best land on God's green earth, and a land whose flag has never been lowered in final defeat."

Urges Enlistment.

"I feel," continued Father Buchholtz, "that there are no slackers, no cowards among the young men of Marquette. I feel that in them lies the virtues, the abilities and the courage which have kept America in the lead. I am sure that they possess the same qualifications as did the great volunteer army which flocked to answer the call of General George Washington during the revolution; the same valor and determination of purpose as had the boys in blue during the Civil war, who did not rest until the broken sword of the confederacy lay at the feet of General Grant; and the same proud spirit of patriotism and justice that brought to a speedy and victorious end the Spanish-American war."

"America needs men. Some of us are too old to fight, or for other reasons cannot go. Young men, your country is calling for you! Are you going to heed that call? This flag, your flag and my flag, has been insulted; its rights have been questioned and its sovereignty doubted. As an American citizen I resent that insult. Do you? Then rush to your colors, young men! Enlist!"

Father Buchholtz stretched out his arms, pleadingly, as he urged every able-bodied young man in the audience to do his share towards the defense of American democracy and freedom.

Commends Work of the League.

In conclusion Father Buchholtz commended the work being done by the Marquette Patriotic League, and urged every individual in the audience to become a member and in that way help in the work. He also expressed his willingness and that of his two curates, the Rev. Fathers Papnet and Seifert, to perform any service which the officers of the league may deem fit to assign to them, and he placed the Young Men's social center, in the basement of the Baraga school, to the disposal of the local chapter of the Red Cross.

Is a Holy War.

That America is engaged in a holy

war was the thought developed by Harvey B. Hatch, who quoted extensively from the Declaration of Independence and from Washington's several addresses in substantiation of the assertion. Mr. Hatch touched a responsive chord, and each of his several climaxes was greeted by applause.

"We are at war," Mr. Hatch began, "and whenever I think of war I think of the holy wars. If ever there was a holy war, the one in which we are engaged is of that kind. War to defend the right of the people to govern themselves and to avenge an open insult is a holy war."

Here Mr. Hatch quoted that clause in the Declaration of Independence which declares, "We hold these truths to be self-evident, that all men are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty and the pursuit of happiness; that, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that whenever any form of government becomes destructive of these ends it is the right of the people to alter or abolish it, and to institute a new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness."

"When Germany, in attacking the United States, thought that we would not fight in defense of these principles, she mistook the temper of the American people. She forgot the American patriots who struggled at Bunker Hill, Lexington, Concord, Yorktown and Valley Forge. She forgot the American armies at Shiloh, Vicksburg, Spotsylvania, Antietam, and in the Wilderness during our great civil conflict. She forgot Theodore Roosevelt and the brave hosts that stormed up the lead-swept hills at San Juan.

"The days now impending will, I am sure, disclose that the young men of the present generation are not slackers, but will fly to arms and maintain the glorious traditions of the fighting men who have won the nation's victories in its past conflicts.

"Places in the hall of fame are awaiting the boys and young men of our own city and should it be my privilege, when the heroes are returning from the conflict, to be near the reviewing stand of the president of our country and his aides, I know it will be my greater privilege to see, filing past, a brigade of boys from Marquette."

The Red Cross.

John R. Van Evera, president of the Marquette Patriotic League, before introducing the speakers, outlined the purposes and explained the organization of the Red Cross. He urged, in view of the great part which it is enabled to play in the present crisis, that every person become a member.

The musical program, arranged by A. W. Jones, was an attractive feature. Mrs. Vierling, attired in a Red Cross nurse's uniform, and carrying an American flag, read, in an impressive manner, the story of the composition of the "Star Spangled Banner," and concluded by singing this national anthem. The audience joined in the chorus. Mrs. Vierling sang with the feeling and expression which gave to the words of the anthem their full significance. Miss Katherine Carpenter also sang a solo, and did so very pleasingly. She received hearty applause.

LAST MASONIC DANCE.

The last of the winter series of Masonic dances will be held in Colonial hall on Friday night, May 18. Dancing will begin promptly at 8:30 and continue until midnight. Mrs. Weedman's orchestra will furnish the music. Light refreshments will be served during the evening.

As the road from Ishpeming is now in good condition it is hoped that many "up-the-road" people will attend.

Northern Queen Rebekah lodge will go to Ishpeming this evening, May 14, by special train, leaving at 6:30. Maceabees wishing to attend the Maceabee meeting that night or anyone wishing to spend the evening in Ishpeming may take this train.

COMMITTEE.

(5-12-21.)

U. P. URGED DO GIVE MORE MEN TO ARMY

Lieutenant McNeal, Stationed at Escanaba, Launches Big Recruiting Drive.

The regular army still needs 10,000 men to bring it to war strength, and the upper peninsula is looked to for 486 of these, according to a statement forwarded yesterday by Lieutenant J. W. McNeal, stationed at Escanaba. Lieutenant McNeal urges that everything possible be done to encourage enlistments from this city.

His statement follows: "That administration is anxious to get this quota by May 22, in order that the present force of 2,500 trained men now on recruiting may be released for other imperative work."

"The upper peninsula recruiting office has a personnel of one officer, eight men, and one clerk. If three of these men are at various points in the district that would give us four points for recruits to apply."

"Since the government does not furnish transportation to recruits until examined by a member of the recruiting party, all applicants must pay their own fare to a recruiting office. When one realizes that every cent he pays out of his own pocket for car fare, is just the same as saving the government that amount, no objection can be raised. Furthermore this gives all patriotic societies a chance to do good work by furnishing transportation to those who cannot pay their own. Just to do 'our bit' transportation should not deter anyone from joining."

"Men who join the regular army now have excellent chances of promotion to all grades not excluding that of commissioned officers. The regular army must soon be divided into skeleton organizations in order to take in the first and second drafts. One can easily see how this will effect promotion."

"The following branches are still open: Infantry, field artillery and cavalry. "The upper peninsula has already furnished fifty per cent of its quota which is as good as any section of the United States and much better than most. It should be an easy matter for us to be the first recruiting office closed and our men released for other duties."

"The four recruiting stations will be located as follows: Main station, 813 Ludington street, Escanaba, Mich. No. 1 sub-station, Marquette, Mich. No. 2 sub-station, Iron Mountain, Mich. No. 3 sub-station, Hancock, Mich.

"In order to fill this quota each county should enlist five men for each 4,000 population, regardless of those already enlisted."

"We are still enlisting single men between the ages of eighteen and forty years who pass the physical examination."

LECTURE MAY 30.

David Goldstein, of Boston, Will Speak Under Auspices of the K. of Cs.

David Goldstein, of Boston, a well known orator and author, will deliver a lecture in the Baraga Auditorium on Wednesday, May 30th, under the auspices of the Knights of Columbus. "Peace and War" is the subject to be discussed. Mr. Goldstein was formerly a leader in the Socialist movement, having been the first candidate of the Socialist party for mayor of Boston. He is a convert from Judaism, is a keen, penetrating intellect, a marvellous flow of language, and a trenchant, almost blood-brothered way of driving fact after fact home to his hearers. Mr. Goldstein will treat his subject here under three headings, giving the causes of the war and the way to establish peace in our domestic, industrial and governmental relations. Admission will be free to the public.

Mr. Goldstein will meet the Knights informally after the meeting, and promises to give a talk to members only.

"USE AIRPLANE TO TAKE FOOD OUT TO BOAT"—TELEGRAMS

Since the reports stating that the crew of the Munising were short of provisions were published Mayor Begole has received several telegrams from various parts of the country, all suggesting that airplanes be used to carry food to the stranded men.

The suggestions are doubtless timely and good, and made in all good faith, but airplanes are yet a novelty to Marquette. Moreover, it is not likely, now that the five steamers are together, that any of the men are suffering from lack of food. Combined larders are surely sufficient to meet any needs along that line.

Saturday Chief of Police McIntosh also received a telegram containing a similar suggestion. The messages follow:

"Brooklyn, N. Y. "Why not use aeroplanes to take food to crews marooned on ice?"

"Scarsdale, N. Y. "Why not send condensed food by aeroplane to steamer Munising?"

"Upper Montclair, N. J. "Aeroplane could probably drop sufficient food on the freighter Munising marooned on ice-floe near your city to sustain the crew until the ice breaks. Newspaper reports indicate no hope of reaching them by steamer."

"Englewood, N. J. "Why not try to supply food to crew of Munising and others by aeroplane?"

"Dayton, Mich. "Send food to crew on Munising by airship."

The five steamers are slowly working their way towards Presque Isle, and it is estimated that they covered about two miles during Saturday and Sunday. They are working close together, one breaking the channel and the others following in its wake. Weather conditions will determine, largely, whether the boats will be forced to keep up this sort of a struggle until port is reached. The heavy, windrowed ice shows no signs of breaking up, although all along the harbor the lake is entirely free of ice, for a considerable distance from shore.

No Immediate Relief.

Reports from the Soo indicate that will be no immediate relief from ice conditions which are obstructing navigation to an extent never before approached on the Great Lakes, until there is a heavy east wind and plenty of rain, according to marine men familiar with the situation.

The Soo News says: "The idea that the ice going over the rapids will clear Whitefish Bay and upper St. Mary's river is entirely wrong, and as one marine man puts it, the ice that goes over the rapids is not even the proverbial drop in the bucket. A heavy rain will melt the small fields of ice, while a heavy wind will drive the larger fields out into the lake. There has not been an east wind since April 25. On that day the maximum velocity was thirty miles an hour.

"Captain C. V. Montague has put in his claim as the hard luck commander of the season. During the trip through Whitefish Bay, the John B. Cowle, of which he is commander, dropped three buckets from its wheel in heavy ice. But determined to get to the Soo, Captain Montague sent his boat through the ice fields with only one bucket. As he entered the Poe lock, the propeller struck a heavy piece of ice and was gone. A tug towed her to Brady pier where repairs will be made.

"The tug Sabin working from 8 o'clock Friday morning was able to get the steamer Vulcan into the Poe lock by 10 o'clock this morning. The boat is without a wheel. She was found near Parisian Island.

"Downbound freighters are waiting from thirty-six to forty-eight hours to be locked through the American or Canadian canals.

"Already, with the season hardly begun, it is assumed that all chance of setting new season's tonnage records is gone."

AMBULANCE MEN HONORED.

The New York Times, issue of May 11, says: "Forty-two students of the University of California, who will go to France to drive in the American Ambulance Field service, were guests at a luncheon at Sherry's yesterday afternoon, given by Mrs. Edward N. Breitung, Marshal Joffre sent his aid-de-camp, Lieutenant Colonel de Tessin, to wish 'good luck to the young Californians who are going to France.'"

"Before the luncheon, the corps under Inspector General Platt Andrew, paraded in Fifth avenue from Fifty-ninth street to Fourteenth street, escorted by the motor-cycle and armed cars of the First Armored Motor Car battery. At Fourteenth street the corps stood at attention while the Joffre party passed on its way from Brooklyn. An enthusiastic crowd which had gathered to see the Frenchmen cheered the Californians.

"Among the guests at the luncheon were ex-Ambassador and Mrs. Myron T. Herrick, Dudley Field Malone, Chauncey McCormack, of Chicago, who has been prominently connected with the American Ambulance work in the Middle West; Mr. and Mrs. W. K. Vanderbilt, and Miss Anne Morgan.
