

BRITISH MISSION LEAVES THE U. S.

SPIES IMPERIL SAFETY OF AMERICAN NAVY NEW FRIENDSHIP IS BORN BETWEEN COUNTRIES AS RESULT OF CONFERENCES

'BERLIN KNEW U. S. FLEET WAS ON WAY'-SIMS

Admiral at Head of the American Flotilla Fleet in English Waters Tells of Its Narrow Escape.

GOVERNMENT CONCERNED

Washington, May 25.—Four days before the American destroyer flotilla arrived at the English coast...

INFORMATION WAS POSITIVE.

The admiral said his information was positive. His dispatch was not made public, and for obvious reasons, nothing will be given out concerning how the news came into his possession...

Immediate publicity was given the salient fact, however, the department making clear that its purpose was to let the people know of the activity and success of the flotilla...

The destroyers now aiding in the hunt for submarines in European waters, under the direction of Admiral Sims, put into port at Queenstown on May 16. How long they were in crossing the Atlantic, or from what port they sailed, never has been announced...

No official word would comment tonight on the possible means by which the news was conveyed to Germany. If it did not go from a secret wireless plant, it must have been carried in some dispatch that the allied cable censors passed as innocent...

The vigilance of the censors and of every agency of the government engaged in rooting out the spy system. Every German known to have been connected with the espionage work of his government already is under arrest, or under surveillance. Other arrests may follow at any time and now that the country is at war and the revelation of its secrets may mean death to its sailors and soldiers, swift punishment undoubtedly will be dealt out to any convicted spy.

WATCH FOR GERMAN SPIES.

Men now in custody operated when the United States was a neutral. Spying now is a very different thing and is likely to lead to the gallows instead of comfortable detention quarters.

In announcing Admiral Sims' dispatch, the navy department, through the committee on public information, said: "The department calls attention to this fact as proof that the German spy system is still at work in this country, making imperative the need of secrecy in connection with our naval operations. The premature publication of ship movements is particularly a source of danger."

GERMAN INFLUENCES AGAINST U. S. SEEN IN ARGENTINE PRESS

Washington, May 25.—German influences, officials here believe, are at work in the Argentine Republic, in an effort to create friction and distrust between that country and the United States government.

The latest evidence of this influence is an attempt to excite adverse criticism, in a portion of the Argentine press, of the action of the state department in investigating the Argentine wheat embargo, the purpose being to place this government's inquiries in the light of an unwarrantable impeachment of the integrity of the official reports of the Argentine government.

Tokio, May 24, 11:50 a. m. (delayed)—The admiralty announced that Japanese squadrons are operating in the South Pacific ocean and in the Mediterranean against enemy submarines.

ITALIANS MAKE FRESH PROGRESS ON CARSO FRONT

From Plava to Adriatic Sea Cadorna's Men Continue Their Advances

(Associated Press War Summary) From Plava, on the Isonzo to the Adriatic sea, the Italians and Austrians are fighting bitterly and the troops of General Cadorna are making steady progress, especially on the southern end of the twenty-one-mile front.

North and south of Jamiano, eight miles south of Gorizia, the Italians have driven the Austrians back and taken additional important positions. The gains here are a direct menace to the defenses of Trieste. The fighting is made harder because of the bare, hilly country.

The Austrians have attempted to check the Italian advance on the southern Carso, by making violent counter-attacks south and east of Gorizia. At all points of attack the Austrians were driven back with heavy losses. The number of prisoners taken by General Cadorna's command since Wednesday morning has increased to 10,245, including more than 300 officers.

Local infantry attacks by the British and the Germans and intensive artillery and aerial activity on the Arras front may indicate a renewal shortly of the intensive fighting there. Around Loos and near Bullecourt both armies have made attacks, but with no great success yet reported.

CROWN PRINCE BEATEN BACK.

On the Aisne front, northwest of Reims, the Germans, after an artillery bombardment, gained a foothold in the French lines after several attempts. Immediate counter-attacks by the French, however, drove the forces of the German crown prince from most of the captured elements.

General Petain's forces have occupied most of the Chevreux wood, east of Craonne, after inflicting heavy losses on the Germans and taking thirty prisoners. Two German battalions were almost annihilated by the French.

The American destroyer contingent, now with the British fleet, is doing its part in taking some of the sting from the submarine menace. Premier Lloyd George, in the house of commons on Friday, gave high praise to American aid and said that more effective blows have been dealt the submarines during the last three weeks than in any corresponding period of the war.

ANOTHER LOAN IS MADE TO ENGLAND

U. S. Has Loaned \$400,000,000 to Great Britain and \$745,000,000 to All Allies.

Washington, May 25.—Treasury officials today closed the international ledger for May with another debit to the British government of \$75,000,000, bringing the total, thus far lent Great Britain, up to \$400,000,000. A payment of \$75,000,000 also was made to Italy, on her credit of \$100,000,000, previously announced.

LOAN \$25,000,000 A DAY.

Exactly thirty days have elapsed since this government made its first loan to the allies. During this period the amount placed at the disposal of five allied nations has reached a total of \$745,000,000 and has been at the rate of nearly \$25,000,000 a day.

A marked falling off in loans, it is said, probably will be noted in June, as first pressing demands already have been satisfied and a definite program of installment payments probably will be placed into effect within the next thirty days.

BODY OF AMBASSADOR GUTHRIE TO BE BURIED IN PITTSBURG THURSDAY

Pittsburg, Pa., May 25.—Funeral services for the late George W. Guthrie, ambassador to Japan and former mayor of Pittsburg, will be held here next Thursday. Upon arrival here, the body will be taken to the home of Mrs. James P. Brown, sister of Mrs. Guthrie.

New York, May 25.—This year's Cuban sugar crop will be approximately 2,800,000 tons, according to an official statement issued by the Cuban government in Havana, and made public here tonight by the Republic's news bureau. Compared with last year's record crop this year is said to show a decrease of only 5 per cent.

U. S. WARSHIPS NOT DESTROYED SAYS DANIELS

Secretary of Navy in Emphatic Denial of Rumors That American Craft Have Been Sent to Bottom.

CALLS STORIES "VICIOUS"

Washington, May 25.—A categorical denial that any American naval vessels have been sunk in the war was issued tonight by Secretary Daniels, to counteract a "campaign of vicious rumors that is being carried on so industriously by persons unknown."

It was the first official notice to be taken of a report of a flood of naval disasters, that started almost as soon as it was known that American destroyers were in the war zone.

DANIELS REGRETS STORIES.

"It is with deep regret," said the secretary in a formal statement, "that I note the daily stream of false reports with regard to the sinking of American ships. Brokers' wires are a particular source for these baseless rumors that cannot but be the cause of needless distress to every true American, as well as to the mothers and fathers of the nation who have sons at sea."

"The department has given repeated assurance that its policy is to be one of absolute frankness with respect to disaster. If it should be that ships are sunk, full information will be given out officially and quickly."

"The reason for these false reports cannot be ascertained. The one hope is that the press will refuse to aid this campaign of vicious rumor that is being carried on so industriously by persons unknown."

AFFECTED MANY MARKETS.

Although only in remote cases have the sensational rumors found their way into print, their distribution has been widespread and in some cases their influence has been marked by wide fluctuations in grain, cotton and stock exchanges. The Washington correspondents and news services have had innumerable queries about reported disasters to one or another destroyer or battleship, and one rumor, widely circulated, told of a mythical engagement off Helgoland, in which a large number of American ships were supposed to have been lost.

All of these stories have been denied informally by the naval censor, and hundreds of newspapers, acting under a voluntary censorship, and relying on the government's assurance of a policy of frankness, have refrained from publishing them.

DENY ATTEMPT WAS MADE ON LIFE OF RUSSIAN MINISTER

Petrograd, May 25, via London, 10:52 p. m.—Reports that attempts were made on the life of Minister of War Kerensky, early this week, are without foundation.

(A Jewish daily newspaper, of New York, on May 22, published a cablegram from Petrograd, which said that an unsuccessful attempt had been made on the life of M. Kerensky. The dispatch added that all participants had been arrested. Later dispatches, direct from Petrograd, announced M. Kerensky had left the capital to visit all the Russian war fronts.)

TELL EDITORS OF TECHNICAL PAPERS NEED OF CO-OPERATION

Washington, May 25.—Members of the cabinet, and others actively engaged in the conduct of the war, outlined war aims and needs today to a meeting of editors of the country's technical and trade publications. All emphasized the magnitude of the task facing the nation and urged the publishers to support the government in the change from peace to war conditions in industry. The cabinet officers and representatives of the Council of National Defense told in detail of what the council is doing toward war preparation.

NEW YORK LEAD IN RECRUITING THURSDAY

Washington, May 25.—New York state held first place in the regular army recruiting yesterday with 183 men, as against 138 for Illinois. The total for the day was 1,252, making 82,680 men enlisted since April 1.

GOETHALS CALLS WOODEN SHIP PLAN HOPELESS

Declares That It Would Be Impossible to Build Fleet Without Aid of Steel

New York, May 25.—Major General George W. Goethals, speaking informally tonight at the annual dinner here of the Iron and Steel Institute, declared that the proposal to build 1,000, three thousand ton wooden ships in eighteen months "is simply hopeless."

"On the principles of the selective draft I have again been called to the government's service and confronted with the proposition of turning out 1,000 three-thousand ton wooden ships in eighteen months," said General Goethals.

"I found that contracts for wooden ships had been let in all directions, but I was unable to find plans. When you consider that the birds are now nesting in the trees that will go to build those ships the proposition is simply hopeless."

NOW TURNING TO STEEL.

"I asked Mr. Farrell, of the United States Steel corporation, if it was not possible to turn to steel. He assured me it was and I asked permission to turn to steel as well as wood. I finally got permission. I began a campaign for money, and as I regard all boards as long, narrow and wooden, and being a firm believer in absolute authority in all undertakings, I wanted money and authority."

"This is now being discussed in the house committee and I have been promised the money in ten days or two weeks. I have got to have the co-operation of manufacturers, makers of machinery, in fact everything that goes to make the complete ship; and if what Lloyd George said is true, that ships are going to win the war, everybody who helps build ships will help win the war."

THIRTY KILLED IN KANSAS CYCLONE

Tornado Causes Great Destruction in South Central Part of the State.

Wichita, Kans., May 25.—Thirty persons are known to have been killed, fifty-three have received injuries from which it is said several will die, and property worth thousands of dollars was destroyed, later today when a tornado swept up through Sedgewick and Harvey counties, in the south central part of the state.

Andale, a village of less than 300 inhabitants, bore the brunt of the twister's rage, eighteen lives being the toll before the storm, which was accompanied by a blinding rain, bore on to the northwest. Nine were killed near Sedgewick.

The country southeast of Newton furnished the remaining fatalities, three lives being lost five miles from that city. The country between Andale and Newton was pierced by a path from a quarter to a half mile wide. Sedgewick, the largest town between Andale and Newton, barely escaped from the storm's fury, a few houses in one corner of the city limits being the only loss.

ATTACK WAS SUDDEN.

So suddenly did the tornado arrive that telephone and telegraph lines were broken before word could be sent ahead of the impending danger. The sun had been shining but a few minutes before in Andale, when suddenly the roar was heard coming from the southwest. Even before some of these hearing it could escape to storm cellars and basements, the storm burst. It went as quickly as it came, leaving behind a ruined village. A young farmer seeing the twister informed the railroad authorities here.

A special train was hastily gathered and with doctors and nurses was on the scene within an hour. First aid was given to the injured and the most severely hurt, while the bodies of the victims were brought here.

LARGEST TRANSACTION IN SPOT COTTON ON NEW ORLEANS MARKET

New Orleans, May 24.—The largest single transaction in spot cotton ever made in this market, involving 14,200 bales, was recorded today. The value was at least \$1,500,000. The transaction swelled the total spot sales to 18,894 bales, the largest day's total in twenty years, and spot quotations were marked up 21 points to 21 1/2 cents a pound for middling, the highest in more than fifty years.

MOVEMENT OF GOLD TO JAPAN CAUSES ALARM

Treasury Department Is Mystified Over Sudden Huge Exports from the U. S. to 'Flowery Kingdom.'

NO CAUSE CAN BE FOUND

Washington, May 25.—Treasury officials, engrossed in the far-reaching program of international financing, upon which this country lately has entered, today turned their chief attention to the unexpected and somewhat disconcerting discovery that for the past month Japan has been withdrawing gold from the United States at the rate of \$130,000,000 to \$200,000,000 a year.

Gold exports to Japan within the last three or four weeks, it was stated authoritatively, have been between \$10,000,000 and \$15,000,000. Since January 1 they have totalled \$35,000,000. In the past eight months they have reached an aggregate of about \$50,000,000. Within the next thirty days, the government has been informed, they will approximate 50 per cent of the entire sum already exported. There is every indication that the big shipment will continue for several months at least, and in an increasingly large ratio. Informal overtures already have been made to the government, looking to the shipment from San Francisco to Japan next month of a large consignment of gold.

Shipments are being made by banking interests, with the full knowledge of the Japanese government. In at least one instance the Japanese government, through an attaché of the embassy here, has approached officials of this government with a view to facilitating the trans-Pacific movement.

CAUSE IS A MYSTERY.

Officials here cannot account for the seemingly large movement on the ground that it is to restore the balance of trade and to secure the necessary foreign exchange statistics to ascertain if the big shipments are due to economic laws. The mystery is more economic than political, it is said, and there is nowhere apparent any disposition to question the motives of the government or citizens of Japan in withdrawing all the gold to which they are entitled. At the same time it is realized that heavy exports of gold from this country are highly undesirable and if carried to extreme limits, greatly beyond the apparent bounds of the present Japanese program—might inject an element of embarrassment in the domestic and international financial situation.

British officials, including Lord Cromwell, governor of the Bank of England, have noted, with some surprise, the tendency of American gold to flow westward, and have discussed the situation with treasury officials. The British agree that it is to the interest of all concerned that the United States conserve its supply of gold and that a way be found to discourage very heavy withdrawals.

Added to this is the apprehension that notwithstanding the utmost care and vigilance on the part of all concerned in such a movement, some seepage from the golden stream may reach the shores of Germany, and gold is one of the last things that this government and the allies want Germany to have.

BAR GOLD FROM GERMANY.

Only two other nations have been withdrawing gold from the United States recently, Spain and Mexico. The amount withdrawn by Mexico is said to be very small and the shipments to Spain have not approached in magnitude those recently made and contemplated by Japan. American and British officials have co-operated in watching shipments, both to Spain and Mexico. To the end that none of the gold might reach Germany and have satisfied themselves that none has done so.

They also feel certain that none of the shipments will find their way to Germany. Japan is regarded as doing a tremendous work in her sphere of the war, with the full intent of continuing this aid. Her active and vigorous co-operation with the United States in seeing that no gold shipped from this country enters Germany is reckoned upon with confidence.

Under present laws there is no way of preventing the export of gold from the United States. Anyone who has it may ship it. Only by legislation, so far neither needed nor contemplated, it is said, could the president be empowered to place an embargo on gold. But there are ways of discouraging such shipments, and these ways have been put into operation recently, with respect both to Spanish and Japanese shipments.

NEW FRIENDSHIP IS BORN BETWEEN COUNTRIES AS RESULT OF CONFERENCES

Washington, May 25.—The British war mission left American soil and crossed into Canada today, after six weeks of conferences, which have reached into every phase of American life, and are expected vitally to affect the future of this country, if not of the world.

Confidence and sympathy born of personal contact of British and American officials cannot be measured in words. This country knows the allies needs in details and in the order of their importance and degree of their availability. Thus it is possible for the United States to enter into co-operation with the Grand Alliance in the way most calculated to bring success.

There have been no formal agreements, or binding treaties. Foreign secretary Balfour said upon his arrival, the United States would not be asked, nor expected, to abandon its traditional policies, even to the extent of declaring against a separate peace.

Much that has been tentatively agreed upon cannot finally be put into effect until legislation has been passed by congress. The great benefit of the mission's visit, however, has been the decisive advice of men who have actually been in the fire of this war.

Great Britain and the United States undoubtedly have been placed on a closer basis of friendship than at any time since the separation a century and a quarter ago. The controversies during two and a half years of neutrality have dissolved in a fuller understanding by American officials of the difficulties of belligerency. Mr. Balfour, who was in this country longer than any previous foreign secretary had been away from London since the Napoleonic wars, has seen realized his life dream of a closer sympathy between the two great branches of the English-speaking people.

Mr. Balfour, who was in this country longer than any previous foreign secretary had been away from London since the Napoleonic wars, has seen realized his life dream of a closer sympathy between the two great branches of the English-speaking people. The mission found it necessary to leave a number of its experts here to help handle the enormous amount of new work developed.

BALFOUR IN TORONTO.

Toronto, May 25.—Arthur J. Balfour, British foreign minister, arrived from Niagara Falls this afternoon. He was vociferously cheered at the station and later by thousands of persons who had assembled in the vicinity. He was accompanied him to Queens Park, where the reception ceremonies were held.

Addresses were presented to Mr. Balfour by Premier Hearst, in behalf of the province, and by the mayor, in behalf of the city.

When Mr. Balfour was bidden not to forget that he had come among countrymen, as well as friends, he replied: "I did not need that invitation to entertain this sentiment. I have left on the other side of the border a nation of friends. I come into Canada to a great free country, composed not only of friends, but of countrymen. We think the same thoughts, we live in the same civilization, we belong to the same empire, and if anything, could have cemented more closely the bonds of the empire, if anything could have made us feel that we were indeed of one flesh and one blood, with one common history behind us; if anything could have cemented this feeling, it is the consciousness that now for two years and a half we have been engaged in this great struggle, in which, I think God, all North America is now as one."

FRIENDSHIP ON FIRM BASIS.

The immediate diplomatic result has been to lengthen the British view from a near-sighted absorption in the immediate war needs, to a broader consideration of world reconstruction afterwards. Similarly the American viewpoint has been fore-shortened from absorption in the future to immediate pressing emergency. Both sides feel they have gained a truer perspective.

President Wilson's plan for a league of nations has been discussed informally, but not conclusively. One member of the mission said all the French and most of the British would leave the trenches tomorrow if they did not think this was the last war. No definite diplomatic decisions are known to have been made.

The British mission has been much less disturbed than have American officials by Russian news. They express confidence that all will come out well with Russia, and that while her immediate military efforts are greatly crippled by the ally, both in form of government, in war aims, and in opposition to the German system, will hold her fast to the alliance.

The restoration of Poland, urged by the President as one of the terms of a just peace, has been discussed, as were Ireland and Mexico. The most far-reaching understandings arrived at have been in trade matters. In general the United States will give the allies preferential treatment in commerce. Details, however, could not be agreed upon as congress has not yet passed the legislation necessary to deal with embargo, trading with the enemy, and the like.

TO ASSURE UNIFORM PRICES.

The joint allied buying commission is expected to result from the conferences and to sit here regularly in conjunction with separate bodies in London. This will assure uniform prices for all the allies, prevent extortion, because of competition, and distribute supplies scientifically and economically.

The United States will co-operate, as far as possible, in maintaining the British blockade. The shipping problem has been the most serious of all. The British left up doing that the April rate of destruction of tonnage by submarines approached the point of fatality. The American building program has been extraordinarily expedited and one of England's grating shipping experts summoned across the water to supply further details. Many of the seized German ships have

THE WEATHER

SATURDAY, MAY 26.

Marquette and vicinity: Partly cloudy.

Upper Peninsula: Fair Saturday, showers at night or Sunday.

THE DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY The Mining Journal Company, Limited. Issued daily except on Sundays. Contains Associated Press dispatches, and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per year, by mail, \$5.00 Per month, by carrier, .50 Entered as mail matter of the second class in the postoffice at Marquette, Mich. SATURDAY, MAY 26, 1917.

ARE MAKING PROGRESS.

"I think what has been accomplished in these forty days most remarkable," Mr. Balfour said, on the eve of his departure for home, in estimating American preparations for the war. As Mr. Balfour is conservative, not given to guff and overstatement, we can assume that he said exactly what he believed.

WE ARE NOT GULLIBLE.

There will be a large measure of approval for the action of President Gompers, of the American Federation of Labor, in refusing to consider the invitation of President Undersecret, of the Dutch Federation, to send delegates from America to the Stockholm Trade Union congress, which is to meet at the same time as the international socialist conference.

HANDS OFF, PLEASE.

The Escanaba Journal says, under the above heading: There is a story in circulation to the effect that Alex J. Groesbeck, attorney general, will oppose Governor Sleeper for the Republican nomination for governor next year.

"PASSING THE BUCK"

As a classic example of "passing the buck" the new revenue bill offered to the house of representatives by Chairman Claude Kitchin of the ways and means committee is entitled to first prize, says the Saginaw Courier-Herald.

State Press

Russia begins to show signs of returning sanity.—Detroit Free Press. Germany is about due to produce a Patrick Henry.—Grand Rapids Herald.

Solid Support.

When an Oregon congressman made a campaign speech in a town of his district, Bastus came to him, saying: "Ah jee' wonda say, sah, dat ah kin pledge you'll do solid cullud vote ob Grant county."

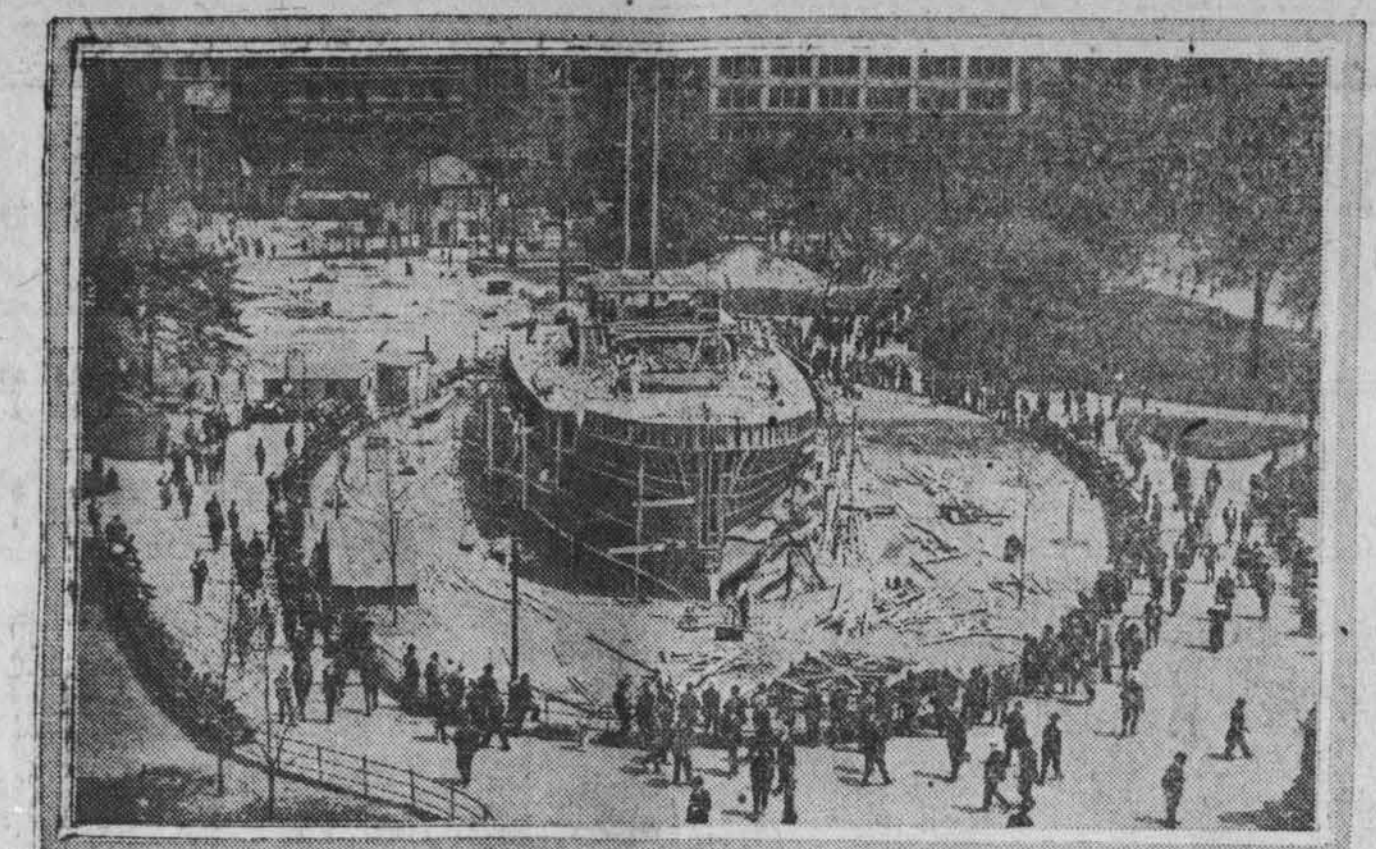

Wanted All.

The customer picked up a knife from the counter and handed it to the butcher, with a friendly smile. "I don't really want it," he said, "but if you will cut it off I will take it along with the rest."

No Abuse Desired.

An attorney was consulted by a woman desiring of bringing action against her husband for a divorce. She related a harrowing tale of the ill-treatment she had received at his hands. So impressive was her recital that the lawyer was startled out of his usual professional composure.

THE BATTLESHIP THAT WILL NEVER GO TO SEA.

New York City.—To stimulate recruiting a monster superdreadnaught is being built here in Union Square in the shadow of some of the city's loftiest buildings. The work of construction is drawing great noon-hour throngs and many attracted by the construction work have applied to the naval recruiting station established in the park. The photograph shows the monster vessel in its bed of grass in the park which is the "breathing place of millions."

Timely Quips

Big. Seven billions for war sounds big, but it is not so much for a country that wastes enough food in a week to feed Belgium for a year.—Washington Post.

Lost. In these times of war and hunger what has become of the scientist who could put the nourishment of a pound of beef steak in a capsule?—Florida Times-Union.

Tricky. The Kaiser "fell for it" when the devil took him up on a high mountain and showed him the nations of the world. It is an old trick of the devil.—Superior (Wis.) Telegram.

Offensive. A speaker in the reichstag is reported to have said that "the existence of Belgium as a semi-sovereign state would constitute a lasting menace to the peace of Europe." Belgium's great offense has been its menace to Prussian militarism.—New York World.

A Laugh Or Two

Selecting a Title. "I'm going to call this novel 'The Diplomat,'" said Mr. Penwiggles.

Nothing Wonderful. Visitor—You don't know who I am, do you, Jimmy? Jimmy—Naw! Visitor—Aha! I know who you are, though. Jimmy—Aw, that ain't nothin'—I know that myself.—Boston Transcript.

The Constitutional. "Let us call things by their right names!" exclaimed William Jennings Bryan in a temperance address in Miami.

Short Meter. The twins, just arrived at the creeping age, were visiting at grandpa's. Now grandpa, after working in the fields all day, rested his feet by going barefoot.

Solid Support. When an Oregon congressman made a campaign speech in a town of his district, Bastus came to him, saying: "Ah jee' wonda say, sah, dat ah kin pledge you'll do solid cullud vote ob Grant county."

Wanted All. The customer picked up a knife from the counter and handed it to the butcher, with a friendly smile.

No Abuse Desired. An attorney was consulted by a woman desiring of bringing action against her husband for a divorce.

Lower State Notes

HASTINGS—"Be good to your country" was the parting instruction given by Nicholas Akser, a naturalized German pioneer resident of Hope township, after he had called his three sons to his bedside. He died soon afterward. Akser was in Germany visiting relatives when the war began.

FLINT—The Flint committee on home defense and preparedness is endeavoring to interest other Michigan municipalities in its proposal to obtain immediate effect for statewide prohibition as a measure of preparedness. Secretary Arthur Pound and Chief of Constabulary William L. Stevenson, who conferred with Governor Sleeper, report the governor as non-committal and reluctant to call the necessary special session of the legislature unless in case of an emergency or there is an overwhelming demand from other cities. The Flint war bureau contends that indiscriminate sale of firearms, combined with whiskey, might easily bring about serious trouble and the best time to suppress it is before it occurs.

PORT HURON—Mrs. Susie S. Graves, for twenty-five years great finance keeper of the Ladies of the Modern Maccabees and one of the best known workers in the fraternal circles of the United States, died at her home here. She began her fraternal work in 1893, when she was elected great finance keeper of the order at Grand Rapids, a position which she held continuously until her death. At one time she was chairman of the board of auditors of the supreme hive, Ladies of the Maccabees of the World, now the Women's Benefit association, but since 1904 her activities were confined to the Ladies of the Maccabees. She leaves a daughter, Mrs. Robert M. Meisel, of Port Huron. Memorial services will be held here June 10 by officials of the Ladies of the Maccabees. Mrs. Rachel Bailey, of Grand Rapids, will deliver the memorial address. During her term of office as finance keeper Mrs. Graves had disbursed nearly \$100,000 for the order.

MONROE—Driven insane by fear that he would be drafted into the army, Hollis Knolls, twenty-five years old, a farmer of Dundee, Monroe county, attacked a physician who went to attend him, wounded his mother when a shotgun he was handling was discharged and killed himself. His condition was first noticed Sunday night when he told Recruiting Officer Carr that he had been denounced as a German spy. At 3 o'clock the following morning he again went to the recruiting officer and wanted to enlist. He was detained by a deputy sheriff, but was released after being treated by a physician. When the doctor went to his home to see him again, Knolls attacked him. Later Knolls was handling a shotgun and when it was discharged a part of the shot struck his wife's mother, Mrs. Mary Knolls McCrone, sixty-eight years old. She ran to a neighbor's for help. A crowd searched the house and found Knolls dead in the cellar with his head shattered by a charge of shot.

LANSING—A definite plan of getting in touch with the former farm labor now employed in the factories and industrial plants of the state was decided upon by the food preparedness committee. Blanks are being prepared which are to be sent to every factory in the state. Upon those the name, age and condition of every man in the factory who came from the farm is requested; also whether or not he will return for a short time and whether or not the employer will let him go. When these are received, properly filled out, it is expected that the committee will be in a position to send competent help to almost any farmer who wants it. The labor problem now looms larger than ever. From all parts of the state come requests for labor, not for the exact present, but for the future. A delegation representing the canners of the western part of the state were elected with the commission. They wanted the members to visit the towns in the canning belt during their trip in that vicinity early in June. As outlined to the commission, the increased acreage which is sure to be planted and part of which has already been planted will

Editorial Opinion

Mr. Hoover's Sad Incapacity. Such opposition to the appointment of Herbert C. Hoover as food controller as has developed in the United States is not based on the plea that he is not a business man, which, alas, is true. By profession he is a mining engineer, and he knows so little of business that, being in Europe when the desperate condition of Belgium was revealed, he abandoned his profession and voluntarily organized the greatest and the most efficient relief work ever known in human history.

Mr. Hoover disbursed tens of millions of dollars, fed millions of people, allayed the suspicions of conqueror and conquered, and was so successful in all respects that when Germany, the super-efficient, was compelled to put the empire on rations, it went to him for advice and instruction. If, like most members of the senate, he had only been a politician or a lawyer, there is no telling what prodigies of merchandising and distribution he might have accomplished.

Coming with no better record than this before the experienced captains of industry who dominate the senate, what can such a man expect? He has no backing but his record, no standing anywhere except as he is acclaimed by creditentials and, of course, no business credentials that would get him past the doorkeeper of a caucus or convention. Knowledge of all this at the right time might have made the starving populations of Belgium and northern France choose death in preference to relief at the hands of one so poorly equipped for business, as the senate understands business.—New York World.

Not a "Food Dictator"

By the general public the president's plan for food control during the war may not be regarded as a measure of comfort and reassurance, rather than as in any way a signal of alarm.

The prospects are good for large general crop, in some staple lines for record crops, owing to the increased acreage planted, the stimulus to unusual effort, and the measures already under way for aiding the farmers to secure the capital and labor for the great agricultural drive.

But there will be an unusual demand on the American crops owing to the situation in Europe; and the problem of so meeting that demand that Europe may get what this country can safely spare, and no more than that, is one that requires scientific and systematic handling of the factors of stock taking, conservation and distribution.

To that end, special machinery for the emergency is required.

Therefore it is proposed to create an administrative body with broad powers of investigation and control, in order that the problem may be dealt with in a scientific way, leaving as little as may be to chance, and eliminating the risk of artificial shortage and consequent abnormal prices, whether through over-exportation or the speculative operations of the small class of food handlers and market manipulators whom Mr. Hoover vigorously calls "skunks."

The appointment of a food control body is therefore a measure of public security against the contingency of privation and excess prices in a country which of a moral certainty will grow enough food to supply abundantly its own wants, and still have a surplus for export.

One may presume that the fundamental function of such a body will be in inventorying, and apportioning or distributing.

There will be a basic process of stock taking and striking of balances, between domestic needs and capacity for export. Europe is responsible for this war (and if the guilty parties could be ascertained and convicted no gallows would be too high for their exemplary suspension in the sight of all mankind), and the American people can not be expected to deprive themselves to the privation point of the food they grow, in order that combatants in Europe may have plenty. We must do our fair share toward feed-

BIDS WANTED. Bids will be received for the construction of the addition to the Tilden township hall. Plans and specifications to be procured from township clerk, J. H. Thompson, National Mine, Mich. Township board reserves the right to cancel or to bid. Bids should be in by July 2nd, 5-26-17

swamp the canners unless more help is secured for them. To a great extent, and in most sections of the canning belt, this work is done by women, but at the same time male labor, mostly high school boys, is to be brought in. These boys must be provided with homes and part of the request of the canners was to impress upon the people of the towns that they must procure lodging places for the boys who come. Four or five members of the commission will make the western trip and speak at all of the places where canneries are operated. In addition to the farm labor proposition and the canning plants, the commission listened to routine reports. All of them showed that the larger acreage asked for was coming and that in many cases double acreage over last year would be the rule. Beans continue the leader in the increase of acreage, although there are to be more potatoes planted than are figured on a week or so ago.

COPPER RANGE COMPANY.

A quarterly dividend of \$1.50 per share, being Dividend No. 25, an extra dividend of \$1 per share, being Dividend No. 40, will be paid on June 15th, 1917, to stockholders of record at the close of business on May 25th, 1917.

W. W. PORTALS, TREASURER. Boston, May 15th, 1917. 5-19-19-23-25-30 6-2-6

Upper Peninsula

Instantly Killed.

John Harper, fireman on the switch engine at Mackinaw City, was instantly killed at 4:30 o'clock Tuesday afternoon. He had just stepped from his engine at a stop near the depot to speak to a fireman on the local freight when he ran into an electric wire that had been blown down by the wind. The deceased leaves a wife and three children, quarantined with scarlet fever, and in destitute circumstances.

County Agent at Work.

J. W. Weston, assistant state leader of the county agents working under the state and national agricultural boards, has arranged to have Mackinac county served by a county agent, M. A. Lach, who will divide his time between Mackinac and Lapeer counties. It has been suggested by Lapeer county that the two counties combine in the purchase of a Ford auto for the use of the county agent. The Mackinac County Food Preparedness committee succeeded in getting a carload of 600 bushels of choice seed from Elmira. These potatoes are being disposed of at about \$3.15 per bushel.

Fell Into Shaft—Killed.

Benedetto Angeloni, a skip tender, met death in No. 1 shaft of the Peowabie mine at Iron Mountain by falling from the cage. In company with four other miners, Angeloni had just started for surface for lunch. When about thirty feet up his absence was noted. He was found at the bottom of the shaft, and taken to the surface. Dr. Coffin was called and found life extinct, Angeloni having suffered several fractures of the skull and a broken leg. Angeloni leaves one brother, Paul, who also works for the Peowabie, and his mother, three sisters and one brother in Italy, the father being dead. He was twenty-three years old.

Wrong Sand Was Sent.

Another unlooked for delay will retard the opening of the Menominee filtering plant. This time the trouble is the non-arrival of the sand for the filter bed which has put another setback to the operation of the plant. The sand which is used for a filter bed is purchased from firms located along the Atlantic coast. The sand of the Atlantic shores is the best sand obtainable for this purpose. One carload of sand has been received, but by some mistake, the wrong grade of sand was sent and Superintendent Berry, who is in charge of the work, ordered it returned. It was of too fine a grain to assure proper results. Notice has been received that five carloads of the sand of proper grade are on the way. As soon as these cars arrive operations at the plant will be commenced.

Child Had Terrible Death.

William Wery-Kolsie, the four-year-old child of Mrs. Stephanie Wery-Kolsie, is dead as the result of a terrible accident which befell the little fellow at the home of Mrs. H. Lattin at Jam Dam, an Adventist settlement a short distance from Harris, in Menominee county. The little boy fell into a vat of boiling milk and, although rescued promptly and given every attention, died after lingering for about twelve hours. The accident occurred at the Lansville home, where the boy has been staying since his mother went away some time ago without giving her destination. She has not written since she left and her present location is not known to any of the neighborhood people. The Lansville family had just taken from the stove a large tub of boiling milk, which was to be cooled and fed to the calves. The vessel was

placed on the kitchen floor, but the child evidently did not notice it for he toddled over towards it and fell into the tub backwards. His screams attracted instant attention and he was lifted out and help summoned. The little boy was terribly sealded, but the boy lived until the next morning at 8 o'clock, when he passed away.

Conditions Are Improved.

The troubles that boats had had from ice in St. Mary's river are practically at an end, according to marine men, who assert that what little ice is in Whitefish Bay will soon melt or be driven out into the lake. The canals are free from ice and very little has come down over the rapids this week. There is still ice in Whitefish Bay, but it is broken up, and not bothering the vessels. A favorable wind, one from the east or south will drive it out into the lake. Considerable trouble is being experienced from ice at Marquette, Duluth and other ports on Lake Superior, where an off shore wind is necessary to open the harbors. Wednesday was a quiet day at the locks, with only one vessel passage until 7 p. m., when a fleet of winter boats went through. The storm resulted in at least three accidents near the Soo. Besides the J. H. Barlow, which grounded at Hay Point, the Steel trust steamer William E. Corey went on the rocks at Gros Cap Point Wednesday afternoon and is badly damaged. Tugs were sent to aid the steamer, but could do nothing. The seas were too heavy for a lighter to be used. During the heaviest part of the storm the Argo grounded at Big Point opposite the pumping station.

Many women are occupying English pulpits.

THE RULE OF AUSTRIA.

The empire of Austria-Hungary contains thirteen races, only two of which are said to be contented with or enthusiastic for the empire of the Hapsburgs. The other eleven are unhappy under it, praying for a day of delivery. It has been wondered why the subject races of Austria-Hungary have not made their discontentment felt during the war. Now, if ever, seemed the time to rebel or to bring concessions from the overlords. "The Land of Deepening Shadow," tells why the Hapsburg empire has managed to hold together, though all its parts were ready to fall apart. It is a story of harsh repression. In Bohemia, no club may hold a private meeting. Even at friendly gatherings in private houses a representative of the police must be present. Political meetings are completely under the charge of the police officers. Soldiers conscripted in Bohemia are sent to the districts occupied by a Rumanian population, Rumanians to Bohemia. A Bohemian regiment which was suspected of planning to desert to the Russians was marched away between three Bavarian regiments. The officers were shot and very tenth man in the ranks. It is now the practice to "dilute" all Bohemian units, so that not more than 20 per cent of the men in any one organization is of this race. In civil life, all anti-government newspapers were suppressed at the beginning of the war. Nationalist parties were broken up. Leaders were exiled where they were not forced into bearing arms in places far distant from their homes. "By May, 1916, the death sentences of civilians pronounced in Austria since the beginning of the war exceeded 4,000. Of these, 965 were Czechs. A large proportion of the condemned were women. The total of soldiers executed amounts to several thousands." Austria-Hungary has been ready, in short, to blaze into rebellion. But it could no more than smolder. A part of the tremendous power of empire has been used to smother every spark, to keep the tinder far removed from fire. It will be amazing if after war these stern repressions are not paid for in violence.—Toledo Blade.

A GRATEFUL BRITON.

Under the heading "Friendly American Feeling," the Times prints a letter signed "British Officer," which reads in part as follows: "My experience while on a special mission in the United States is that the heads of the big manufacturing firms have high ideals and make the best product they can. They make mistakes, as we all do. I say from the bottom of my heart thank God they are on our side and will help finish this job, so that we shall never see this hell on earth again. "As an evidence of friendly feeling of Americans it may interest my countrymen to know that in September I was in Tacoma. There I got a telegram to go back to New York and sail for England the following Wednesday evening. When I got the wire I found that if I left Tacoma on a 6 o'clock train on Saturday evening I should just make my connection. "I arrived in Chicago on Tuesday evening and caught the New York Central. I knew I had to be in New York the following evening. The next morning the conductor came to my berth early and said: 'Our engine broke down last night and we are four hours late. We will miss our connection at Cleveland but we have wired to try to keep the train.' "When we arrived the train had gone. I went to the superintendent of the line and told him my position, that I was a British officer on duty. He said: 'Stay where you are. I will give you a special train to Buffalo and you can catch the Empire State Express there at noon.' It was then 7:45 a. m. At 9 a. m. the special took me out of the station and arrived within a mile of Buffalo at 11:39 a. m., 176 miles in two hours and thirty minutes. "We were then held by traffic, but arrived at the station at 11:45 and I caught the express, which landed me at New York at 10:10 p. m., as promised. The company never charged me one cent, but said they were glad to help me. Would any British railway have done this?—London dispatch in New York Times.

KILLED IN THE WAR.

The number of men killed in the war thus far was estimated at 7,000,000 by Arthur Henderson, member of the British war council, in an address at Richmond. He estimated the total casualties of the war to be in excess of the population of the United Kingdom, which, by the census of 1911, was 45,370,520. Mr. Henderson said that after nearly three years of nearly unprecedented military effort there was no immediate prospect of cessation of hostilities. The character of the war and its prolongation tempted some persons to ask why peace should not be attempted by other means. He would tell them, he said, it was because the lust of world domination which dictated the policy of aggressive military action on the part of Germany continued to be supported by the German emperor and his Prussian advisers.

TROUBLE ENTIRELY DISAPPEARED.

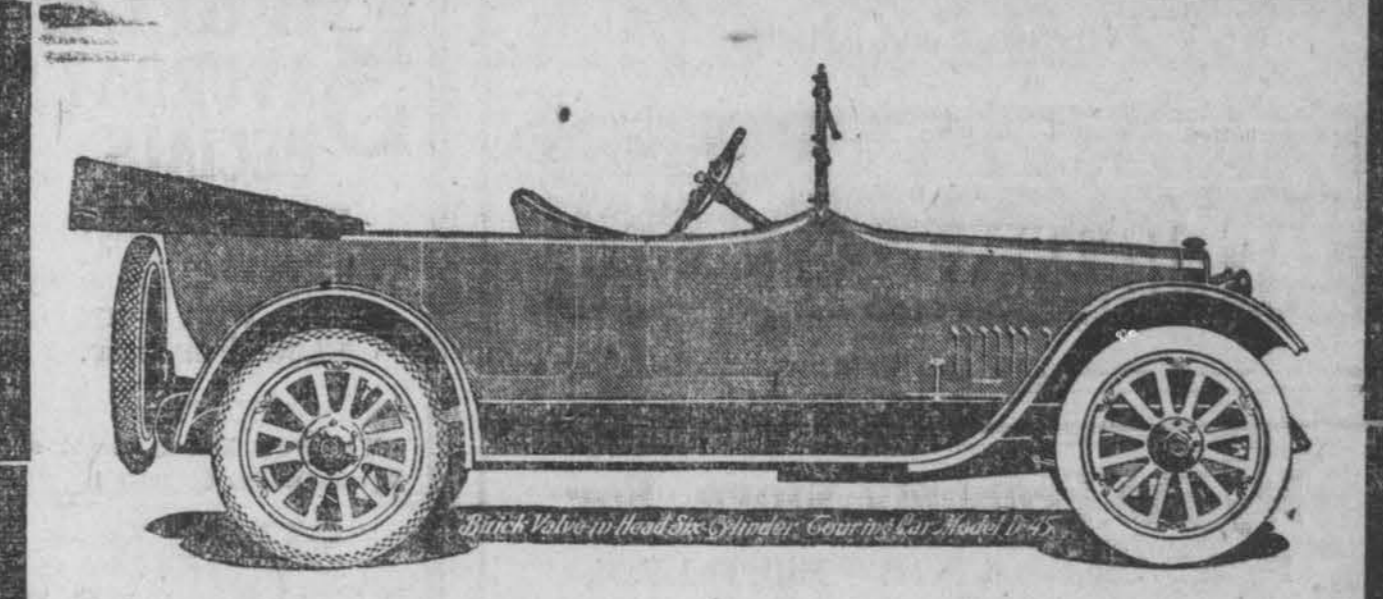

Knudt Lee, Wannaska, Minn., writes: "For several years my daughter had a bad chronic cough. Not until we tried Foley's Honey and Tar did anything produce any great relief. In a few days the trouble entirely disappeared and has never returned." Contains no opiates; a safe, reliable, remedy; children like it. Sold Everywhere.—Adv.

HE ALMOST FELL DOWN.

A. M. Hunsicker, Bogue Chitto, Miss., writes: "I suffered from rheumatism, kidney and bladder trouble, also dizziness; would almost fall down at times. Foley's Kidney Pills gave me entire relief. Disordered kidneys give warning by pains in side and back, sore muscles, swollen joints, tired and languid feeling. Sold Everywhere.—Adv.

THE WORLD'S "SWEET TOOTH." The German beet-sugar supply was cut off. Prices lapsed. Cuban plantation owners were prepared. Nearly every one of them has since become wealthy. Cuba is now enjoying an era similar to that of the California gold rushes in the late forties, or the more recent oil boom in Oklahoma. While the sudden rise and fall of prosperity in a gold-mining community is caused by the rapid exhaustion of the metal, Cuba's sugar lands, even where cultivation without fertilization has been carried on for fifty or sixty years, seem inexhaustible. The soil is one of the richest to be found in any part of the world. The forced retirement of Germany as a competitor was the immediate cause of Cuba's prosperity, but slower forces have been at work for years and are even more vital. The world has shamelessly cultivated and pampered an insatiably sweet tooth. Sugar used to be a luxury. Witness now the soda fountain and candy store, which flourishes one to the square block in almost every American community. America does not stand alone. England and Denmark are ravenous sugar eaters. Spain and Italy alone seem to be moderate. Since 1880 the per capita sugar consumption in the United States has gone up from approximately forty pounds to ninety. In thirty-six years our national sugar consumption has quadrupled. Cuba's sugar production this year exceeds the entire world's output of that staple fifty years ago.—George F. Worts, in the American Review of Reviews. —The rural population of the United States as a whole is a little over half.

H. D. Hughes, principal of the High school, left last night on a business trip to Chicago.

Ivo Coveyo left for the Soo yesterday after a two weeks visit with her sister Mrs. I. Moran, Ridge street.

Mrs. J. C. Fassbender, and daughter Clara and Mrs. F. J. Trevillion, and daughter Myrl, are spending the week-end visiting friends in Chicago.

The Woman's Relief Corps will meet at the Peter White Public Library at 10:45 o'clock tomorrow to attend service in the First Baptist church.

F. D. Moran returned to Detroit yesterday after spending the past week visiting his sisters, Mrs. Fred Bureau and Mrs. John Siegel, in this city.

Mrs. Ford H. Smith left yesterday for her home in Grand Rapids. Mrs. Smith had been called to Marquette by the illness of her father, F. La Rue.

The funeral of the late John Selander will be held tomorrow afternoon at 2 o'clock from the house at 224 west Ridge street. Rev. Lundgren will officiate and interment will be at Park cemetery.

Skandia Aid Society—Members of the Skandia Aid society will meet at Keough's hall at 1 o'clock Sunday afternoon to attend the funeral of John Selander, West Ridge street, which will be held at 2 o'clock.

All Had Good Time—Those who attended the dancing party given last night by Troop No. 3, Boy Scouts, declared that the affair was the "best yet". The Scout parties have been among the most enjoyable social affairs of the season. Mrs. Woodman's orchestra furnished the music last night, and the boys conducted a refreshment booth.

Seven Steamers In Ice—Seven large freighters bound for this port, are held in the ice about three miles off Presque Isle, waiting for the south wind which shippers and mariners believe has ceased to be a factor in the elements. The steamers presented an unusual and at the same time attractive sight last night as they lay, brightly lighted, but a short distance apart.

"Keep to the Right"—Chief of Police Mosher, assisted by Frank Trombley, motor police, has begun an active campaign on the traffic problem. Hereafter all cars must keep to the right of the road, particularly in the business districts, and no car is allowed to turn around in the middle of any downtown block. Cars must go to the nearest corner to make the turn. As for the "dummy policeman", which were yesterday placed on the corners of Front and Washington and Third and Washington streets, they mean just what they say, the authorities point out—"keep to the right". It is believed that the "dummy police" will do much towards controlling the heavy traffic on these two corners.

"Old Clothes Day"—Don't forget next Tuesday, "Old Clothes Day", is the urgent appeal of the committee in charge. On that day the following committee will be stationed in the Guild Hall to receive donations of old clothes but not too old for relief work in France: Mrs. M. W. Jopling, Mrs. George Higbee, Miss Ada Mapes, Mrs. August Mellin, Mrs. Charles Willesen, Mrs. E. J. Pearce, Mrs. A. E. Archambeau, Mrs. Jane Smith and Mrs. C. J. Larsen. Men's and boys' clothing is what is most needed, the committee declares, and any or all donations of these articles will be greatly appreciated. Donors owning automobiles or to whom such are available are asked to bring their donations to the Guild Hall, while a car will be continually in service during the day hauling old clothes from homes which have previously notified the committee.

**At the Churches**

**Methodist Episcopal.**  
Throughout Methodism, the morning service is devoted to some phase of the work of the gospel ministry. In compliance therewith, the pastor will preach from the subject, "The Gospel Ministry: Its Claims Upon the Laity and Young Men." This service will commence at 11 o'clock. "Loyalty Day" will be observed at the evening service, commencing at 7:30. "Disloyalty" says President Wilson, "must be put down with a strong hand." The pastor will preach on the subject, "American Ideals: Shall They be Crucified by the Kaiser?" This constitutes the fourth in the series of sermons on "Our Allied Nations and Armies." The "Liberty Loan" campaign is on and its features and merits will be briefly explained. "Financial Volunteers" are needed. Patriots will profit by attendance at this service. The Sunday school session will convene at 9:45 a. m. The Epworth league devotional service is held at 6:45, and a soul- uplifting season awaits those who attend. The mid-week prayer service is held Wednesday evening at 7:30 o'clock. Pastor and people cordially extend the hospitality of the church to the general public; the traveling and transient public in particular. Charles J. Johnson, minister.

**First Baptist.**  
The Sunday school will meet at 9:45 a. m. Morning worship at 11 o'clock, with a sermon on "The Speaking Part." The veterans of the G. A. R. will attend this service. The quartette will render E. S. Homer's, "In That Day Shall This Song Be Sung," also the following selections: "The Vacant Chair" and "We Are Tinting Tonight." Company M. of the state militia, will attend this service. Young people's meeting at 6:30 p. m. in charge of Group 1. Evening worship at 7:30 with a sermon on "War for Love vs. Love for War." The quartette will sing the anthem, "My Trust is in Thy Word." The quartette is composed of the following members: Soprano, Florence June; alto, Zerella Smith; tenor, Edwin Hosking; bass, H. T. Sharp. The organist is Mrs. Darlus LaPlant and the violinist is Russell M. Babcock. The mid-week prayer meeting will be on Wednesday night at 7:30, followed by a meeting of the advisory board at 8:30 o'clock. The public is cordially invited to attend these services.

**St. Peter's Cathedral.**  
Pentecost festival is to be celebrated in St. Peter's cathedral at 7:30 a. m. mass tomorrow. The members of the Holy Name society will receive communion in a body at this service. The pontifical high mass will begin at 10:15 and will be followed by confirmation and the imparting of the Pappal Blessing. The Rt. Rev. Bishop Eis will make his solemn entrance into the cathedral accompanied by the clergy and confirmation class, composed of seventy-six children and twenty-three adults, of whom eighteen are converts to the Catholic faith. The bishop will also administer the sacrament of confirmation at St. John's church at 3 o'clock in the afternoon. Pontifical vespers will take place at 7:30 o'clock. A special musical program has been arranged by the choir for the morning service.

**Presbyterian.**  
Sunday school will meet at 9:45, the Young Men's class will have a special session. Service at 11 o'clock, subject of the sermon will be "The Blue and the Gray." At the evening service the pastor will speak on the subject, "Spiritual Preparedness." Christian Endeavor meets at 8:30. The Sunday school is arranging to donate a lawn sign, in memory of their charter members for which a collection will be taken at the service tomorrow.

**Swedish Lutheran.**  
Morning worship at 10 o'clock; subject of sermon: "How to Remain in the Love of Jesus Christ." Sunday school at 11:30. Bible class at 6:45; study topic: "The Gift of the Holy Ghost." Evening service at 7:30; subject of sermon: "The Christian Church." Devotional service and prayer meeting Wednesday evening at 7:45. The Ladies' society will meet Friday afternoon at 2:30.—Carl E. Lundgren, pastor.

**Swedish Methodist Episcopal.**  
Morning worship at 10:30 o'clock; subject of sermon: "Receive Ye the Holy Ghost." Sunday school at 12 o'clock. Epworth league prayer meeting at 7 o'clock. Evening service at 7:30, subject of sermon: "The End of Things." Wednesday evening prayer meeting at 7:45.—K. M. Wilkins, pastor.

**German Lutheran.**  
Pentecost services will be held at 10 o'clock. The pastor will preach on the subject, "The Church of Jesus Christ." The Sunday school will meet at 11:15.

**St. Paul's Episcopal.**  
Sunday school will meet at 9:45, morning prayer at 11 o'clock with evening prayer at 7:30.

**First Church of Christ, Scientist.**  
Sunday school at 9:45 a. m.; Sunday lesson at 11 a. m., subject, "Soul and Body."

Moszkowski Misses Ross, Hamby, McCombs and Mrs. Halby.

LES DARCY'S BODY WILL BE SENT BACK TO AUSTRALIA

Memphis, Tenn., May 25.—Arrangements were completed tonight for sending the body of Les Darcy, pugilist, who died here yesterday, to his former home in Australia for burial. The body will be shipped aboard a steamer for Australia.

A Queens county, New York, man accused of drunkenness was sentenced to attend church services once a week for a year.

A boy of 16, arrested in New York recently, admitted that he had committed fifty-nine burglaries.

Bowel regularity is the secret of good health, bright eyes, clear complexion, and Dr. King's New Life Pills are a mild and gentle laxative that regulates the bowels and relieves the congested intestines by removing the accumulated wastes without griping. Take a pill before retiring and that heavy head, that dull spring fever feeling disappears. Got Dr. King's New Life Pills at your druggist, 25c.—Adv.

## BASEBALL

### American League.

Philadelphia, 10; Detroit, 6. Detroit, May 25.—Philadelphia won another loosely played game from Detroit today, the game going eleven innings. The visitors bunched four hits and two sacrifice flies with three Detroit errors for six runs in the final inning. Score: R. H. E. Philadel. . . . . 20 10 0 0 0 0 6—10 13 0 Detroit . . . . . 4 0 0 0 0 0 0 0 2—6 12 6 Batteries: J. Bush, Schauer and Myers; Daus and Stange.

### Cleveland, 6; New York, 5.

Cleveland, May 25.—Cleveland made it two straight from New York today, winning 6 to 5. New York led 5 to 0 when Cleveland went to bat in the ninth. Three singles, two doubles, an infield hit, a pass and a wild pitch scored six runs in the ninth. With two out and the bases full in the ninth Speaker stole home with the tying run. Score: R. H. E. New York . . . . . 0 0 0 0 1 0 0 4—5 11 1 Cleveland . . . . . 0 0 0 0 0 0 0 6—6 9 2 Batteries: Schocker, Russell and Nunnemaker; Gould, Lambeth and O'Neil.

### Boston, 3; St. Louis, 0.

St. Louis, May 25.—Leonard was in great form today, allowing but two hits, and Boston shut out St. Louis. Score: R. H. E. Boston . . . . . 0 0 0 1 1 0 0 1—3 7 0 St. Louis . . . . . 0 0 0 0 0 0 0 0—0 2 5 Batteries: Leonard and Thomas; Grooin, Hamilton and Severid.

### Chicago, 5; Washington, 1.

Chicago, May 25.—Erratic playing by Washington enabled Chicago to make it three straight from the visitors today. Score: R. H. E. Washington . . . . . 0 0 0 0 1 0 0 0—1 5 5 Chicago . . . . . 1 0 1 0 2 0 0 1—5 6 0 Batteries: Harper, Craft, Ayres and Henry; Benz and Schalk.

### National League.

Philadelphia, 5; Cincinnati, 2. Philadelphia, May 25.—Philadelphia bunched seven hits, which included two home runs and three doubles, in three innings today and defeated Cincinnati. During Cincinnati's batting practice Catcher Adams, of Philadelphia, had his nose broken when a bat slipped out of the hands of Manager Mathewson and hit him in the face. Score: R. H. E. Cincinnati . . . . . 0 0 2 0 0 0 0 0—2 5 2 Philadelphia . . . . . 0 0 0 2 2 1 0 0—5 11 1 Batteries: Schneider, Rogan and Clarke; Rixey and Killifer.

### Brooklyn, 4; Pittsburg, 3.

Brooklyn, May 25.—Brooklyn made it two straight with Pittsburg today, winning 4 to 3. Score: R. H. E. Pittsburg . . . . . 0 0 0 2 0 0 1 0 0—3 7 2 Brooklyn . . . . . 1 1 2 0 0 0 0 0—4 12 1 Batteries: Cooper, Jacobs and Fisher; Cadore and Miller.

### Chicago, 6; New York, 1.

New York, May 25.—Chicago sent New York into third place by defeating them today. Score: R. H. E. Chicago . . . . . 0 0 0 0 0 3 2 1 0—6 9 0 New York . . . . . 0 0 0 0 1 0 0 0 0—1 7 5 Batteries: Demaree and Wilson; Perritt, Tosrean, Smith, Middleton and McCarthy.

### Boston, 4; St. Louis, 2.

Boston, May 25.—Boston won its first game of the week today, defeating St. Louis. Score: R. H. E. St. Louis . . . . . 0 1 0 0 0 0 0 1 0—2 6 2 Boston . . . . . 2 1 0 0 0 1 0 0—4 7 1 Batteries: Watson, Steele, North and Gonzales; Rudolph and Gowdy.

National League. Chicago, 6; New York, 1. Cincinnati, 2; Philadelphia, 5. St. Louis, 2; Boston, 4. Brooklyn, 7; Pittsburg, 3.

American Association. Indianapolis, 4; Columbus, 1. Toledo, 11; Louisville, 5. Minneapolis, 6; Milwaukee, 5-1. St. Paul, 2; Kansas City, 4.

CULTIVATING GARDENS. The spade has become mightier than the pen with several Princeton professors. Six learned gentlemen have placed their classes in second place, and are turning to their potato patch or corn field.

Professor Christian Gauss, of the modern literature department, has a plot of fifty acres under cultivation. Professor Wilson, of the civil engineering department, has also gone into farming on a fairly large scale.

The university authorities have rented and given a tract of fifty acres to non-landholders in the faculty, who are cultivating it. Four professors have taken advantage of this plan.

IRISH BARRISTER'S SPEECH. The following speech was made by an Irish barrister on behalf of his client, whose cow had been killed by a train: "If the train had been run as it should have been run, or if the bell had been rung as it should have been rung, or if the whistle had been blown as it should have been blown, both of which they did neither, the cow would not have been injured when she was killed."

### PERUNA EXPELS CATARRH

It does more—it builds up the weakened system, regulates the digestion, removes the inflammation, overcomes the poisons of catarrh, and invigorates all over. Forty-four years of success proves its great value, of which thousands gladly testify. Accept the verdict of two generations yourself. Don't be swayed by prejudice, when your health is at stake. Take Peruna and get well. Liquid or tablet form, whichever is the more convenient. The Peruna Company, Columbus, Ohio

## PLANNED TO LOOT ISHPEMING STORE

Officer Swanson Arrested Man  
Who Was About to Rob  
Bradford & Co.

Nicholas Swanson, the police officer, while passing along Canada street about 11 o'clock Thursday night, noticed the shadow of a man reflected on the rear of the Jenks block, close to the back entrance of the J. L. Bradford company's clothing store. A string of cars stood on the Northwestern siding, and the man could not be seen from the street. Mr. Swanson got behind the cars and he found the fellow, who later gave his name as Jones, standing between the building and the track. One of the panes of glass in the rear of the store door had been broken and the bar on the inside had been pulled back, so that the store could be entered.

When accused of having broken the window and removed the bar with the intention of committing a robbery, Jones made emphatic denial of the charge, but Mr. Swanson took him to jail and called John A. Olson, of the firm, by telephone. Mr. Swanson believed Jones had a confederate and that he was in the store, but though Mr. Swanson and Mr. Olson went all through the place, they could not find anyone, nor could they discover that anything had been stolen. Jones pleaded innocence, declaring that he had been drinking and that he wandered around back of the store without knowing where he was going.

Mr. Olson is positive that the window was not broken when the store was closed. He believes the man picked up by the officer had planned a robbery, and that if he had not been caught, he would probably have helped himself to anything he wanted in the store.

The man Paul Jones would not tell anything about where he came from, or where his home was. As there was nothing to be gained by holding Jones Marshal Treverrow gave him a limited time to get out of the city.

### AT HEAD OF CLASS.

Ishpeming Young Man President of Seniors in Dental College.

Announcement of the commencement exercises to be held by members of the Senior class of the Chicago College of Dental Surgery have been received here by relatives of Sidney B. Goodney, Byron Lundahl and Edward W. Ham, who are members.

Mr. Goodney is the president of the class, which numbers 300. The commencement exercises will be held Tuesday evening in the Garrick theater, Chicago. The three Ishpeming young men entered the college together some three years ago and, besides carrying on their studies, they also played in an orchestra. All are excellent musicians and their services were in demand.

### NEW FIXTURES.

Manager D. C. Raphael, of the Style Shop, in the Pascoe building, corner Main and Pearl streets, is justly proud of the new fixtures he recently installed. Only part of the new equipment has arrived, but the cases that have been put in are modern, and entirely different from anything previously seen here. Both the wall and show cases are constructed of mahogany, with plate glass fronts, and they are lighted by electricity. A shadow box for the display of a waist, on bust, occupies the center of the wall space. The new cases take up less room than the old ones, and, besides, the goods are displayed to much better advantage.

### TO MEET IN LIBRARY.

A public meeting will be held next Thursday evening at 8 o'clock, new time in the Carnegie public library for the purpose of discussing plans and hearing Thursday evening at 8 o'clock, new time, what the Y. M. C. A. plans to do for the sailors and soldiers. At this meeting steps will be taken to raise Ishpeming's proportion of the "Y" war fund, \$1,000 of which has already been subscribed by members of the committee. Each member of the committee has pledged himself to see a certain number of citizens and secure their promise to attend the meeting. J. R. Thompson will be the principal speaker. There will be appropriate music.

## GRIFFITH PICTURE DEPICTS HISTORY

Three Themes of the Great Film  
Deal With Events of World  
Importance.

D. W. Griffith's latest spectacle, "Intolerance," the attraction at the Ishpeming theater Monday and Tuesday, June 4 and 5, with a matinee Tuesday, comes here following its half year of popularity at the Liberty theater, New York, supplemented by long runs in Philadelphia, Pittsburgh, Chicago, San Francisco and Los Angeles. It is a tremendous representation of historic events in three distinct periods of the world's history, placed in apposition with a story of life among the people in America of today, with an embellishment of orchestral music, heightened by theatrical effects.

Ancient Babylon, Judea at the time of Christ, Medieval Paris and a modern American city are the scenes of the stories. The settings provided for the scenes in and about the ancient city of Babylon are so massive as to stagger the imagination. Tremendous battles are fought on the walls of the great city.

When the Nazarene Himself is seen in the streets of Jerusalem, there is the visualization, in reverent artistry, of an actual saviour of mankind—often surpassing in beauty or in effectiveness some of the world's most famed paintings of incidents at the time of Christ. Then, again, the horrors of the massacre of St. Bartholomew are set forth with the skill of a master of effects, in surroundings that suggest the actual period.

The story of today tells of a man brought to the gallows for a crime he did not commit and saved only through the timely intervention of a governor, sought by the confessed murderer in a racing automobile and caught, in the nick of time, as he sat in the observation car of an express train overtaken by the motorcar.

Over 125,000 people took part in "Intolerance," quite the largest cast ever assembled for any production. Some of this country's most prominent film stars have the leading roles, among them, Mae Marsh, Miriam Cooper, Lillian Gish, Constance Talmadge, Seena Owen, Margery Wilson, Bessie Love, Robert Herron, Elmer Clifton, Alfred Paget, Walter Long and Tully Marshall.

### MRS. BEATTY PASSES.

Former Well known Resident of Beacon Died Tuesday in Chicago.

Mrs. Cornelia E. Beatty, widow of the late Judge J. F. Beatty of Beacon, died Tuesday in Chicago, where she had resided since the passing of her husband, in January, 1912. Her body was received in Beacon yesterday morning and the funeral was held at 10 o'clock, with burial in the Champion cemetery.

The deceased, who was eighty-seven years of age, was well known, and had many friends in this section, and particularly in the western end of the county, where she was a pioneer. Judge Beatty and his family came to Marquette, from New York state, in 1873, and soon after took up their residence in Beacon, where they resided continuously until his death. Mr. Beatty held the office of justice of the peace in Beacon for a long term of years, and was regarded as one of the town's most substantial and highly esteemed citizens.

Since leaving Beacon the deceased had been making her home with her son, Harry E. Beatty, in Chicago. Besides her son, Harry, she is survived by another son, Charles M., and a daughter, Mrs. P. McPherson. The latter resides in Tiffin, Ohio. The body was accompanied to Champion by the two sons, Mrs. McPherson being unable to come on account of sickness. Services were conducted by the Rev. Ruell, pastor of the Methodist church, at Beacon. Mrs. Will Perkins, of Alpha, a granddaughter of the deceased, attended the funeral.

Ladies' coats and suits at cut prices.

### THEATRICAL.

Lou Tellegen, the famous Lasky star, will be seen this afternoon and evening at the Butler theater in "The Victory of Conscience," a Lasky production on the Paramount program. The story has to do with the spiritual and mental awakening of Louis, Count de Tavaannes. The count and his handsome, harum scarum companion, Prince Dimitri Karitzin, steal a little dancing girl from a French tavern. The girl falls in love with Louis, but he casts her aside, and is nearly killed in a fight with her former sweetheart. Upon recovering, the former sinner enters the priesthood.

How he again meets the dancer, wins her admiration and induces her to enter a monastery, is brought-out in a way that has never been seen before by the photographic audience.

### Big Comedy Bill Today.

Max Linder and Hank Mann, two of the best comedians in the movies, will be seen in comedies that will be presented this afternoon and evening at Ishpeming theater. The Linder picture is an Essanay production, "Max in a Taxi," and the Fox comedy in which Mr. Mann is the star is "His Love Fight." Other pictures that will be shown this afternoon are the seventh episode of "The Secret Kingdom," a Big V comedy, Mutual Weekly and "See America First."

Triple trading stamps today in our clothing, dry goods and furniture departments. F. Braastad & Co.

## WATCH MOVEMENT OF METAL MARKET

Many Local Men Show Great Interest in Steel and Allied Industrials.

Ishpeming men interested in the metal markets are now watching the quotations closely. Stocks have been showing an upward tendency for some days past, with Steel particularly strong. Many here are financially interested in the steel stocks, and Minnear & Co.'s brokerage office is a busy place, the room usually being well filled from the time the markets open until they close.

According to reports received from the Eastern industrial centers, prosperity in the steel trade is becoming more acute. The demand for steel products is said to be greater than at any previous time since the war began, and in the opinion of experts in the trade there can be no recession as long as the present wave of buying continues. Pressure for steel deliveries is reported in all quarters, and the government is placing orders that must lead to delays in deliveries to other buyers.

It is said that the government's shipping board's program will probably require 40,000 tons of steel plates a month for the building of small merchant vessels. Arrangements are being made to divide the tonnage between the mills. The wire mills have agreed to furnish the government with the tonnage of special wire it requires, and five mills will fill the order in proportion to their productive capacity. This wire is to be used on battleships now in the course of construction.

Rail mills are estimated to be booked ahead for from one year to eighteen months. Now buying by three of the leading railroad systems for 1918 delivery has been closed within the past few days and tonnage for shipment to France and Russia are under negotiation.

Additional advances in steel prices are reported and experts declare that the top has not yet been reached. Pig iron quotations have been advanced \$1 to \$2 a ton to \$44 a ton for No. 2 furnace iron and Bessemer iron in Chicago, and open hearth billets and bars at Pittsburgh are up \$5 to \$8 a ton. Advances in bolts and nuts are expected shortly, as the demand is so heavy that manufacturers are nearly three months behind on deliveries.

Triple trading stamps at Braastad's.

### ISHPEMING IN BRIEF.

Thomas F. Cole, the well known mining man, was in the city yesterday.

Mr. and Mrs. Frank Chynoweth, 463 South Pine street, are the parents of a daughter.

George Whomer, accompanied by Jack Martin and other friends drove to Munising and return, yesterday.

The women of Grace Episcopal church Guild will conduct a pantry sale this morning in Tilton's drug store.

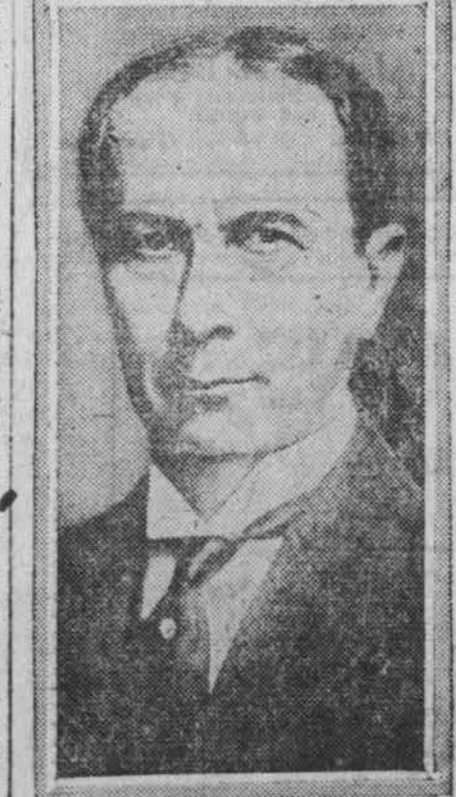

Vampa's band will conduct a dance tonight in the Anderson hall and will play a few selections on the street before going to the hall.

Al Hebbard, a former resident, who travels for the Automobile Protective association of Gladstone, is in the city for a few days.

A meeting of the commercial club was held yesterday afternoon in the council chamber for the purpose of discussing plans for observing a half holiday every Thursday during the summer.

Commencing next week there will be occasional nights when the same pictures will be presented at both the Ishpeming and Butler theaters. Monday Charlotte Walker in "Partners," a Mutual masterpiece, written by Rex Beach, the well known author, will be shown

## Judge Lovett Volunteers Services to Red Cross.

Judge Robert S. Lovett, formerly of Texas, but now of New York, chairman of the Board of the Union Pacific Railroad, who has volunteered to give practically the whole of his time to any work to which he may be assigned by the Red Cross.

In volunteering, Judge Lovett said to Henry P. Davison, chairman of the War Council of the American Red Cross: "I am too old to go to the front, but I am anxious to do my bit in whatever way I can be made useful."

It is possible that Judge Lovett will be placed in charge of a bureau to coordinate the various philanthropic undertakings throughout the country.

at both houses. The Fox feature booked for Tuesday will also be shown at both houses, but on Wednesday, Thursday, Friday and Saturday there will be a distinct program in each theater.

The members of St. John's guild, who are conducting a bazaar in St. John's hall, will give a sack of flour as a door prize tonight. The bazaar will be brought to a close this evening.

The Home Guard band, Thursday evening played several selections on the street. Some 2,000 persons enjoyed the music. The band plays well, considering the short time it has been together.

The members of the Home Guard Band will go to Beacon tonight in automobiles to furnish music for a parade and a patriotic meeting to be held in the town hall there. George Tucker, of Marquette, will be the principal speaker.

C. J. Byrns, manager of the Soo Lumber company, has been in the city, having stopped off here on his way from Rochester, Minn., where he took his son, Ashton, for treatment in Mayo Bros' hospital. Mrs. Byrns accompanied him to Rochester and is now with their son there.

Ladies' coats and suits at cut prices.

### THE ARIZONA SOCK.

A New Jersey reader of the New York Sun writes to it as follows:

"What countless thousands of army socks must be cast aside because of undarned punctures! Cast aside while 95 per cent of the material is still serviceable! In the Southwest years ago there used to be what was known as 'Arizona socks.' And an 'Arizona sock' is not to be despised as a comfortable and practical foot covering for long hikes in warm weather.

"The 'Arizona sock' is home-made. The principle is the same. Take an empty cotton flour sack, turn it wrong side out, dust free the adhering flour, wash and dry the sacks. After this cleaning tear it into four-inch strips about four feet long, leaving seamless edges. Place one end under the foot along the line of the base of the toes, hold it there while bringing the strip up and over the toes, and then spirally wrap the foot and ankle, puttee fashion, finally tucking in the end about the ankle. The 'Arizona sock' is reversible, can be worn end for end or on either foot. It can be quickly and easily washed and readily dried. It is cheap, soft, adjustable to any size or peculiarity of foot. In a recently washed condition it may also serve as a handkerchief or as a belt, and, stripped narrower, as a rifle cleaner.

"Whether or not the 'Arizona sock' is now worn by Arizona's representatives at Washington is mere conjecture. But the quartermaster's department of the army would need no such immediate personal demonstrations to prove the practical principle and convert thousands of miles of governmental red tape into wider strips for army socks."

### PAINTINGS AND TAPESTRIES.

The relative value of paintings and tapestries at the very time that tapestries were being produced in large numbers—the Fifteenth century, when weavers of Arras, Lille, Tournai, Brussels, Bruges and Paris, to say nothing of those of Italy and Spain, were turning them out in profusion—may surprise some unacquainted with the history of weaving. Pope Leo X. paid to Raphael the equivalent of \$10,000 for the 155 panels of the Apostles, and Peter Van Aelst, the Brussels weaver who converted the design into cloth, received \$150,000. This suite, as now preserved in the vatican, is valued at a million and a half, although much of its color has faded. But while Raphael probably executed his paintings in six months, it took Van Aelst and his assistants four years to finish them on the looms, while, of course, the intrinsic value of the gold thread and other loom materials was considerable.

Today the sole repository of the art of tapestry weaving is the workshop of the Gobelins, established by Louis XIV. in 1662 with 250 workmen, who are now reduced to sixty. Only a century ago there were a number of such repositories. The pope, the king of Spain, and the king of Bavaria maintained workshops in Rome, Madrid and Munich. William F. Paris tells us in "Decorative Elements in Architecture" (Lane: \$5 net), and others existed in Turin and Naples. But more than a half century ago all of these went out of existence. Not until 1906 did the Gobelins court any publicity by giving an open exhibition of their work, a display then being made at the annual exposition of French artists in Paris.—New York Evening Post.

### HARD WORK FOR WOMEN.

It is doubtful if there is any work harder than house work. Overwork tells on the kidneys, and when the kidneys are affected one looks and feels older than the actual years. Mrs. A. G. Wells, R. R. 3, Rocky Mount, N. C., writes: "I cannot praise Foley Kidney Pills enough for the wonderful benefit I have derived." Sold Everywhere.—Adv.

# DOES IT PAY TO TELL THE TRUTH?

Two years ago a young American made a daring journey with a motion picture camera into the musty archives of this nation and unearthed dramatic material that netted him a fortune. Not content to rest on his laurels he took this well earned sum and put it back into a work that rips through world-old fallacies with the power of a human torpedo loaded with indisputable facts. The towering result of this combination of exhaustive research and enormous resources is

## D. W. GRIFFITH'S Colossal Spectacle

# INTOLERANCE

### OR LOVE'S STRUGGLE THROUGHOUT THE AGES

It is the most daring innovation in the history of drama since the time of the Ancient Greeks. It cost more than any ten plays you ever saw. There are 125,000 people in it, 7,000 horses and 1,500 chariots. The plots annihilate time and space. Four stories in different eras of the world's development merge into a mighty climax that keeps alive the hope of redemption in the heart of man and reveals the evolution of a thousand centuries.

## It Makes a 4-Ring Circus Look Like a Side Show

# SEE

### Copper Country

#### HOUGHTON TO RAISE MONEY FOR RED CROSS

Campaign Is Opened and Strenuous Efforts Are Being Made to Secure \$10,000.

The collection of \$10,000 in Houghton county for the use of the army Y. M. C. A. began yesterday. It will be a two-days campaign. The workers have every hope of success.

Only fragmentary reports as yet have been received, but they are encouraging. Two shafts of the Calumet & Hecla Consolidated contributed \$300. The Calumet & Hecla smelters contributed \$1,000.

The campaign is in progress throughout the county, following mass meetings everywhere. J. R. Thompson, of Ishpeming, was in the county Thursday night, speaking at Houghton and Hancock. He stirred up big crowds with an eloquent discussion of the horrors of the war and an appeal to patriotism.

"Give till it hurts" is the Canadian war motto and this is coming to be the copper country motto. The Y. M. C. A. campaign is only a part of it.

The Red Cross is keeping up an active campaign for members throughout the district and is succeeding wonderfully. The Houghton chapter conducted a rummage sale Thursday and cleaned up \$210 in a few hours.

Reports from banks indicate that the copper country is taking up Liberty Loan bonds most encouragingly.

It is now announced that all the profits from the Red Jacket street carnival, the week of the Fourth of July, will be turned over to the Red Cross.

**COW PROBLEM MAY BE SOLVED.** Mayor Ferris of Houghton Hopes He Has Critics Under Control.

The village of Houghton has had a lot of municipal problems in its history and probably the one that was considered hardest to solve was the cow nuisance. Mayor Ferris thinks it has been solved. He is not saying it is solved, even while breathing a hope that it has reached a solution he knocks on wood and voices a prayer for assistance.

Mayor Ferris inherited the cow nuisance as a long line of which was coincident with the arrival of spring and the first appearance of the lush grass-not so lush thus far this year, of course, but none the less lush-people began to complain of robber cows. The old plan was being shot at the mayor's office. The cows were decaying and destroying lawns and making night hideous with their bells.

The mayor's "dander riz" one Sunday and he went out with the East Houghton pound master and corralled fifteen mavericks. And the next day he put the whole village street force to work rounding up cows and then promulgated a detum to this effect and in this wise: Hereafter when a cow is impounded the owner thereof must pay the fees and penalties to the mayor in person. It may be that the old fear of a dentist's

office had something to do with it. In any event the cow nuisance began to subside. The rule is still in force and it is having a good effect.

The mayor yesterday found it advisable to issue another warning. It transpires that Poundmaster Gitzon was in the act Thursday afternoon of impounding a cow. The owner of said cow, a woman well advanced in years, caught him in the act and proceeded to belabor him with a club. Remaining strictly on the defensive, the poundmaster withstood the assault and impounded the critter.

Mayor Ferris yesterday announced that in the future any person that interferes with the poundmaster in the performance of his duty will be prosecuted. There will be no exceptions. Mayor Ferris has a habit of carrying out any program that he lays out.

**"DOC. GIBSON WILL RECOVER.** John T. McNamara Hears From Invalid Canadian Officer.

In a letter received yesterday by John T. McNamara Dr. J. L. Gibson, the dentist-soldier-athlete, now at his home in Calgary Alberta, writes that he is recovering from the wounds that invalidated him home from France.

From the time of "Gib's" return to Canada last December it was believed that his wounds might terminate fatally, but he now writes that an operation has set him on the road to recovery and that he shortly will be in perfect health, though probably lame for life.

He also writes that he is eager to get back to France and may even return to Houghton in the hope of getting back in a Michigan National Guard outfit, as his lameness may cause his rejection by the British army if he again offers himself, or at least might mean his retention in a training camp.

**RECORD CATCH OF BEAVER.** Edgar Davis and John D. Peck of Sidnaw, Check in 35 Pelts.

Edgar Davis and John D. Peck of Sidnaw, trappers, were in Houghton yesterday to check in at County Clerk Kaiser's office thirty-five beaver pelts, the largest single bunch of beaver reported at the office since the open season went into effect a few years ago.

These beaver were taken in the Sturgeon river and its tributaries this spring. Peck calls it a small catch because he says there are very many beaver in these rivers. He explains their poor luck this spring by the low water in the rivers and the unusually cold spring.

"For beaver went move when the weather is cold," is his explanation. These pelts will sell for from \$5 to \$15, according to size and quality. The trappers expected to dispose of them in Houghton.

**A REGISTRATION PROBLEM.** County Clerk Does Not Believe a Voting Residence Is Required.

Here is a draft registration problem. A man arrived from Minnesota two months ago. This does not give him a voting residence in Michigan. Will he have to send his registration back to Minnesota?

County Clerk Kaiser does not think so. He believes that the government want the names and records, no matter how it gets them; that a man can claim any place of residence and register there, providing he intends to continue it as his residence. An absentee is a man only temporarily in a place. Such a man must send his registration home.

The county clerk will have all supplies for registration in the hands of the precinct registrars today.

**DISCREDITS BOONE RUMOR.** Dr. West Not Advised of Any Mishap to Former Assistant Now at Front.

An inquiry, from the family of Dr. Boone, former assistant to Dr. W. K. West on the Copper Range staff, Painesdale, reached Dr. West yesterday. Dr. Boone is now serving with the British army and a rumor recently was circulated that he had been killed. The rumor was to the effect Dr. West had been so advised.

Dr. West hastened to reassure Dr. Boone's family. He had not heard from Dr. Boone nor from anyone else and the rumor was published without his knowledge. He is confident that if a medical officer of the British army had been killed his family would be notified. Dr. West is confident Dr. Boone is still alive and doing his duty.

**TIMBERMAN MEETS DEATH.** Struck by Skip in Quincy Shaft—Funeral Sunday Afternoon.

Andrew Jokela, twenty-six years of age, a timberman employed by the Quincy, was killed late Thursday by being struck by a skip. The deceased is survived by a widow.

### Upper Peninsula

#### Escanaba Teachers Resign.

Miss Helen Simonson, who for the past five years has been head of the department of household arts of the Escanaba high school, has resigned her position and will leave at the close of the present school year. She will go to Detroit where she will assist in this branch of the work in the Detroit schools. Three others of the high school faculty will also leave at the end of the present school term.

Professor Clean C. Hicks, instructor in history and public speaking, is waiting for his application for Fort Sheridan training camp to be accepted. He will probably be called before long. Robert Selkirk, instructor in physics and chemistry, plans to leave soon, as does C. H. Howison, commercial teacher.

**Red Cross Launched in Delta.** The Delta county chapter of the American Red Cross society was enthusiastically launched by prominent men and women of Escanaba at a meeting held at the city hall Thursday night. The meeting was presided over by George M. Mashek, temporary chairman of the Delta county chapter. Mr. Mashek explained the purpose of the organization and of the steps that had already been taken for the establishment of a chapter. Mr. Mashek told of the preliminary organization of the chapter by ten charter members with himself as chairman; Dr. Chenoweth, vice chairman; Mrs. I. G. English, secretary, and Mrs. M. N. Smith, treasurer.

In addition Mrs. C. E. Andrews and Mrs. A. C. Barras have been designated to solicit memberships. The state Red Cross officers have not yet acted upon the application for a charter for Delta county, but with the filing of the application the members were authorized to proceed as though a charter had already been granted. The activity of the members of the Delta county chapter will be guided by the state society and at present the work will be centered on a vigorous membership campaign and on the raising of funds for the work, made so necessary by the entrance of the United States into the European war.

Mrs. C. E. Andrews followed Chairman Mashek in offering a detailed explanation of the duties of the chapter members, which, when fully established, will consist largely in making surgical dressings and hospital supplies, in addition to knitting and sewing various articles for the use of American soldiers at the front.

**School Children Will Help.** The boys and girls of all the schools in Menominee, nearly 3,500 of them, are going to provide the men of the battleship Michigan with knitted mufflers and wristlets. The Michigan has been operating for some time in the warm southern climate and the crew will feel the change when duty calls them to the chill regions of the north Atlantic. The opportunity for Menominee boys and girls to do their patriotic "bit" was brought to the attention of a special meeting of the Menominee school board by R. W. Hoskin, head of the local Red Cross, who presented a letter from Mrs. Newberry Brooks, of Detroit, one of the sponsors for the work being done for enlisted men in the U. S. navy. She wrote that it would be a splendid thing if Menominee would become responsible for furnishing 150 mufflers and 150 wristlets for the men. Mr. Hoskin took the matter up with Messrs. Menjensson and Wemple, of the Marinette Knitting Mills, and these gentlemen offered to have the goods made up and turn them over at less than cost, for the sum of \$250. The mufflers and wristlets are knitted, the former being sixty inches long.

The school board approved the plan of having these goods furnished by the boys and girls of the board. Mr. Hoskin was authorized by the board to order the work done at once. An appeal will be made in the school rooms to the children and samples of the articles shown them. An explanation of the work of enlisted naval men will be made to the young people and each one asked to do some work for somebody so that they may earn a little money to be devoted to making up this fund.

Each school boy and girl earns and contributes ten cents the whole amount will be taken care of.

The three-story brick houses which lined the streets in this neighborhood were not unimpressive in appearance, but they were devoid of modern comforts. For instance, their only water supply was derived from the street pump. Colonel Richard M. Hoe, the celebrated inventor of printing presses, who lived in this part of the city at the time, relates that a friend of his, thinking the labor of bringing water from the pump to his house rather onerous for a maid-servant, told his coachman to fetch the water, but the man protested that it was not within his province. "Very well," said his employer, "bring around the carriage and horses." When they arrived he directed the maid to get in with her pails, and then told the driver to take her to the pump and fill her pails and then bring her back.

**HAD A VERY BAD COUGH.** This letter should interest every reader. "Last winter I had a very bad cough. I used medicines, but they did me no good. I took one bottle of Foley's Honey and Tar and it cured me. (Signed) V. DeKuster, Amberg, Wis." No substitute is as good as Foley's Honey and Tar for coughs, colds, croup and whooping cough. Sold Everywhere.—Adv.

# Will Prohibition Be Adopted As a War-Measure?

## An Investigation of the Results in Nineteen "Dry" States

Nation-wide prohibition as a war measure would affect everybody in the United States. The good results of such a policy have been praised continuously in the press of the belligerent countries, and are cited in America by prohibition advocates to explain the great strides of the "dry" movement in the United States during the past two years.

To get a true conception of what citizens of the "dry" States have experienced under prohibition law, THE LITERARY DIGEST made a strictly impartial inquiry in all the States that have had prohibition laws of one kind or another in operation for not less than one year. Two questions were asked of the representatives of public opinion in these commonwealths—the editors of the press: First: Whether In Their State Prohibition Is a Success? Second: Whether They Would Recommend It to Other States? From nineteen States, 157 replies have been received.

In THE LITERARY DIGEST for May 26th, the results of this nation-wide canvass is shown. This is the first non-partizan investigation of the kind ever made. The result is most illuminating, and will interest every one from brewers to bishops.

Other articles of immediate interest in this number of THE DIGEST are:

### How the Motor-Truck Contributes to Patriotic Efficiency

24,000,000 horses consume the food produced on 120 million acres of land—land that is capable of supporting 40,000,000 human beings. The great war will be won or lost by our food supply and Harry Wilkin Perry, in this number of THE DIGEST, shows how the use of the motor-truck will divert an enormous food-supply into channels where it will be most effective.

THE LITERARY DIGEST appeals to, and is carefully read by, manufacturers, business executives, progressive retailers, everywhere throughout the nation, and this number will be of particular interest to them inasmuch as all varieties of commercial vehicles are pictured and described. Prospective buyers of motor-trucks are especially urged to buy THE DIGEST this week and read these interesting announcements.

FUNK & WAGNALLS COMPANY (Publishers of the Famous NEW Standard Dictionary), NEW YORK

#### ON THE WATER WAGON.

In the first of the earliest, if not actually the first, fireproof structures erected in New York, the publishing house of Harper & Brothers is this year celebrating its centennial, having been established in 1817. It was on the site of the present building that the four brothers started publishing books.

In their early married days the brothers lived adjacent to their place of business. James took up his abode in Rose street, one of the narrow, winding ways which are characteristic of the lower part of the city. It is said that all the streets hereabout were originally laid out by the cows that picked their way from the town up to their pasture-grounds in the Bowery, and that the Dutch burghers built their houses on the line of these cow-tracks. If this is not the true explanation of the crooked streets of this part of the city, it is the only plausible one which has been offered.

The three-story brick houses which lined the streets in this neighborhood were not unimpressive in appearance, but they were devoid of modern comforts. For instance, their only water supply was derived from the street pump. Colonel Richard M. Hoe, the celebrated inventor of printing presses, who lived in this part of the city at the time, relates that a friend of his, thinking the labor of bringing water from the pump to his house rather onerous for a maid-servant, told his coachman to fetch the water, but the man protested that it was not within his province. "Very well," said his employer, "bring around the carriage and horses." When they arrived he directed the maid to get in with her pails, and then told the driver to take her to the pump and fill her pails and then bring her back.

**HAD A VERY BAD COUGH.** This letter should interest every reader. "Last winter I had a very bad cough. I used medicines, but they did me no good. #### WAR ON THE WHALE.

Unless whales are protected by international game laws, properly enforced, the time is not remote when these magnificent mammals will soon be as scarce in the sea as the buffalo is on land.

No one knows this better than the whaling companies, of course, who have millions of dollars invested in plants which could probably be used as fish reduction plants in case of the exhaustion of the whaling grounds below a paying yield, while their vessels could be employed in some other fishery.

It is said by some that when a ground, the whales will breed back. But modern steam whaling is so annihilating that it will not leave enough whales to breed back.

The extermination of these mammoths of the sea would be a lamentable loss to mankind, not only owing to their great commercial value, but because they are among the noblest of creatures.

Steam whaling and the business of converting every part of the whale into commercial products is one of the profitable industries of British Columbia. It would be reasonable to suppose that the whaling companies would be in favor of prolonging their profitable business by the conservation of the whales. This conservation would have to be one of the larger movements of the kind, which have international scope, like the sealing laws, and the proposed agreement between the United States and Canada, to conserve the halibut by a closed season.—Vancouver Sun.

#### To Overcome Eczema

Never mind how often you have tried and failed, you can stop burning, itching eczema quickly by applying a little zemo furnished by any druggist for 25c. Extra large bottle, \$1.00. Healing begins the moment zemo is applied. In a short time usually every trace of eczema, tetter, pimples, rash, black heads and similar skin diseases will be removed.

For clearing the skin and making it vigorously healthy, always use zemo, the penetrating, antiseptic liquid. It is not a greasy salve and it does not stain. When others fail it is the one dependable treatment for skin troubles of all kinds.

The E. W. Rose Co., Cleveland, O.

#### MORALS AND THE MOVIES.

Europe is buying more motion picture film from America than ever before. This is an excellent branch of our export trade. It does not take much raw material. It gives employment to many grades of labor from the rough to the highest grade. It distributes money through all the stages of its progress from the crude product to the finished film.

Europe finds in the "movies" a big relief, of relaxation from the long strain and horror of war. It wants American pictures but what an indictment of American morals is contained in the report of our Vice-Consul David C. Kerr, stationed at Birmingham, England, who notifies the secretary of commerce that "the only recommendation offered by renting agents as to any improvements desired in American films is a request for less of the sexual problem!"

We are so habituated to seeing indecent plays, suggestive "movies" and women in scant drapery that we have lost the proper sense of proportion morally.

"Less of the sexual problem," says Europe. The message is a good one from a people who are being made better, cleaner, truer as they are tried in the fire of war.—Financial America.

#### A PAGE FROM HISTORY.

"Boersman," writing for the New York American, says that a few days ago he read Scott's Life of Napoleon with singular interest, finding in its account of the policy of justice and magnanimity which Great Britain followed with respect to France after the Napoleonic wars a forecast of what will be her policy with respect to Germany when the present war comes to a conclusion.

In the book referred to Scott points out that England saw the justice and policy of securing to France after Waterloo every accession of well regulated freedom. "All the prophecies," he says, "which had been circulated to animate the French people against the allies, of their seeking selfish and vindictive objects, or endeavoring to destroy the high national rank which that fair kingdom ought to hold in Europe were proved to be utterly fallacious.

"The English did not impose an unfavorable treaty of commerce upon France, which Napoleon affirmed was their design, and the omission to insist on which he afterwards considered as a culpable neglect of British interest by the British ministers."

"Britain, of whom all that was selfish was expected and predicted by Napoleon and his friends—Britain, who was said to meditate enchainning France commercially—has by opening her ports to the manufacturers of France had the honor to lead the way to a new and more honorable species of traffic, which has in some degree the property ascribed by the poet to mercy—it blesseth him who gives and him who takes!"

**TRUCK TO SAW WOOD.** Certain United States soldiers on the Mexican border found that the sawing of wood for camp use was a rather arduous task, until one of their number worked out a plan to make an army truck do most of the work, according to the June Popular Mechanics Magazine. A circular saw, with its shafting, was mounted on a roughly made framework, and thereafter when wood was to be cut, an idle truck was backed into place beside the improvised equipment. After the rear wheels had been raised up on jacks, one of them was connected with a shaft by a belt and the engine started at the desired speed. Except when the wood was very tough no special attention was given to the motor after it was once set running.

Rome is consuming increasing quantities of wine.

INDUSTRIAL ISSUES AGAIN A STRIKING FEATURE OF TRADING

New York, May 25.—Industrial stocks were again the striking feature of today's extremely active market, United States Steel being the pivot around which trading most often revolved. Steel recorded the new maximum of 134, at an extreme advance of 2 1/2 points, and closed at a very slight recession from the top.

Almost the entire list of equipments, munitions, metals, shippings, oils, and many unclassified issues, followed in the wake of steel. That stock was dealt in to the extent of 430,000 shares, or about 25 per cent of the day's dealings.

There were frequent pauses, but almost every setback gave way to a fresh buying wave which sent quotations higher than before. Public participation was a factor of no small importance. The business of rails constituted almost the sole drawback to the day's bullish operations. Total sales amounted to 1,700,000 shares.

BOSTON COPPERS.

Ishpeming, Mich., May 25.—Today 1,618,000 shares were traded in the New York market, the heaviest for the year. Early the steel shares were the leaders, but around the noon hour the coppers started upward at a rapid rate and several one to four-point gains were scored. Inspiration, Kennecott, Utah Copper and Chino were the favorites, although Calumet & Arizona, Calumet & Hecla, Copper Range and Mohawk gave a good account of themselves. The advance has not been rapid. The market is by no means over-bought, and we believe we are going to see higher prices. If we do get any little reaction stocks should be bought. Some of the low priced issues came into their own today, with Davis Daly a feature. The markets are discounting the great prosperity we are certain to have in the next few months. In addition to this, the bull arguments were: The elimination of the retroactive feature of the war tax; the better outlook in Russia and the lessening of the number of submarine victims. One hundred and fifty dollars is predicted for Steel Com-

Negaunee Department

MEN LIKE THE WORK AT FORT SHERIDAN

C. J. Stevens Writes Negaunee Friends Telling of Work Done at Training Camp.

Military work is somewhat different at Fort Sheridan, Ill., where the men of the officers' reserve corps are being trained, than on the Mexican border with the national guard, says C. J. Stevens, a member of the high school faculty, who has been at the camp since it was opened in a letter to friends here. Mr. Stevens, before coming to Negaunee in December, spent six months on the border as a member of the national guard.

"We arrived here on Monday and started in drilling on Tuesday, writes Mr. Stevens. "We kept it up steadily and get much more than I ever remember having on the border. We have been issued full equipment and everything is new, rifles and all. That is more than the department did for the national guard.

"Thus far we have been drilling without arms and have made good progress, but expect to start out with rifles in a day or so. We are now working out elementary matter, which is treated in the school of the soldier and the school of the squad. I am acting corporal and have a good chance to get some much needed experience in drilling.

"We have a fine bunch of men here almost all are college men and the majority have had military experience of some sort. There are a few rather old men here.

"I have not seen anything of 'Todd' Kennedy. As there are no directories made out yet it is hard to find anyone. At present we are situated in the regular barracks and have all conveniences. The mess is very good, costing about \$1 a day to feed each man. We have potatoes, meat of some kind and bread and butter three times a day and all we want of it. For breakfast we have eggs, potatoes, rice, steak, prunes and coffee. The coffee is not as good as it might be. That is about the only thing we can find fault with. The food is much better than we got with the national guard. "To give you an idea of what we do I will say that we get up at 5:15 and fall in line at 5:30 and from that time until 9:30 in the evening we do not have much time to ourselves. We get about five hours of drilling in all every day. We have to study two hours five nights in the week from 7:30 until 9:30.

"I would like to hear occasionally from some of my Negaunee friends and I want to let them know that every man here likes it and we have been treated here so far. Give my best regards to the members of the Negaunee high school."

Beaulieu Moves Again. Ed Beaulieu, a Negaunee man, who enlisted in the regular army a few weeks ago, has advised relatives here that today his regiment, which has been stationed at Fort Bliss, Tex., for the past few weeks, will move north to the border line of Tennessee and Georgia. The movement of the troops will be a 2,000 mile ride across four states and according to his letter the soldiers are getting all kinds of riding care for Beaulieu complains of the warm weather on the Mexican border and informed his parents that there are many of the men who are unable to stand it. "There are a good many who go to the hospital every day on account of the heat," he writes. "I am feeling fine and taking good care of myself and am toughing it out fine and dandy.

"We are getting all the marching we want here and just had another two day hike. "Last Wednesday I got a pass to El Paso and went there and took in the sights. Was a little late getting back and had some job getting past the guards. The fifth one caught us and marched us to our sleeping quarters, where we were given a lecture by the captain. There are 30,000 men here and they have a hard job keeping track of them all.

"There will be a lot of fellows from Negaunee drafted into the army I suppose. Well some of them will be sorry that they did not enlist before the draft because when they are drafted they will not be able to get in the kind of work they like and it is not all pleasure that way. We have got our haversacks now and they are something like the 'jacks' in the woods for carrying stuff. They weigh sixty-three pounds when loaded and besides that we have our rifles, belt, cartridges and bayonet. Our canteen and first aid outfits we carry only when on the march.

"I expect to be transferred to the cavalry soon and will like that better. I met some fellows from Marquette Sunday, one of them was Fred Robare. "I am writing this letter at the Y. M. C. A. and the orchestra is playing inside and the military band in front of the building outside so it is pretty hard to hear myself think, so I will close."

STAR TODAY.

Clara Kimball Young in "The Dark Silence." A story of the sufferings of a woman for a man torn from her, and later blinded in the war; she becomes a Red Cross nurse, only to be sent at some hospital with her fiancé. The pain and joys of such an experience are expressed in this film as only Clara Kimball Young can express them. Matinee starting at 2 p. m.

ROYAL.

Jeanne Eagels, the stage favorite in five part Pathe Gold Rooster play, "The World and the Woman." A striking story of the regeneration of a fallen woman through life.

LOYALTY DAY.

Palmer Residents Will Have Celebration Tuesday for Flag Dedication.

Prominent residents of Palmer have announced a "Loyalty Day" celebration which will be held on Tuesday when a flag will be unfurled on a new sixty foot steel flag pole. The board of education has also provided new forty foot poles for each of the four country districts.

A patriotic program of marches, drills, songs, recitations and speeches has been arranged for by the teachers of the schools. M. J. Kennedy, prosecuting attorney, will deliver the principal address. President James Kaye, of the Normal, Simon Anderson, county commissioner of schools, County Agricultural Agent Walker and Miss Margaret Justin, of the Agricultural College Extension division will give short talks. Captain John Huhtala, secretary of the Palmer board of education, will hoist the town's flag and the Echo band will furnish the music for the occasion.

Miss Justin will visit the schools and will judge a garment exhibition of the various sewing clubs of the school district and prizes will be awarded in each of the three clubs for the girl doing the best work in the club. The members of the board of education and townspeople have extended an invitation to the residents of neighboring cities to be present and assist in making the loyalty day a big event.

DIED FROM INJURIES.

Robert Rieg, for the past five years pumpman at the Breitung mine, died at his home on Merry street Thursday morning at 6 o'clock from injuries received at the mine a month ago. The deceased was fifty-four years old and had been a resident of Negaunee for the past fourteen years. Prior to his being employed at the Breitung mine he worked at the Maas mine for several years and was well known in the city. The deceased is survived by the following children, his wife having died here two years ago: Mrs. William Jones, Mrs. Clarence Donithorne and the Miss Edith and Harry, all residents of Negaunee. A brother Joseph and a sister, Mrs. Robinson reside in England. Two sisters Mesdames T. Smith and A. Whitehouse are residents of Waterbury, Conn., and may come here for the funeral. The deceased was a member of English Oak lodge, Sons of St. George, the members of which will have charge of the funeral, which will probably be held tomorrow afternoon.

EXPECTS CALL SOON.

Joseph Sedlock, janitor at the high school, has received word from his brother, Emery, who has been in the regular army for the past five years. The young man is now with his regiment which is doing service in a concentration and training camp in Georgia. He has written his brother here that there are many recruits there training while the veterans are guarding German prisoners. According to the letter he expects to leave for France before many weeks. He was with Pershing's army in Mexico and is anxious to get into active service again. Sedlock is now a sergeant and has won his badge as an expert rifleman.

Ladies' coats and suits at cut prices. LOCAL LACONICS. Captain William S. Hezgatton spent yesterday on business at Gwin.

Mr. and Mrs. John Webb, Cherry street, are rejoicing over the birth of a daughter.

Oral J. Lacombe, Barth Dushane, Joe White, Ed Bernard and Louis Boucier spent yesterday at Little Lake.

Mrs. Charles Eastrom has returned to her home at Marquette after spending a few days here visiting with her sister, Mrs. Dave Scanlon.

The committee in charge of the Red Cross list neglected to report the names of the Misses May Noel and Ida Sundell among those submitted for publication.

All honorary and active members of the fire department are requested to be at the fire hall Wednesday, Memorial day, at 12:15 for the purpose of participating in the Decoration day parade.

The employees of the Athens mine unfurled a new flag from a thirty-six foot flag pole, on top of the shaft house yesterday. The flag is eight by twelve and can be seen from nearly all part of the city.

Several Negaunee young men, who have enlisted in the Michigan engineers have already had their physical examinations and all have succeeded in passing. Dr. G. M. LeHomer, of the Negaunee hospital staff, is the examiner, and a very rigid examination is given.

Triple trading stamps at Braastad's. MUSCLE SORENESS RELIEVED. Unusual work, bending and lifting or strenuous exercise is a strain on the muscles, they become sore and stiff, you are crippled and in pain. Sloan's Liniment brings you quick relief, easy to apply, it penetrates without rubbing and drives out the soreness. A clear liquid, cleaner than messy plasters or ointments, it does not stain the skin or block the pores. Always have a bottle handy for the pains and aches of rheumatism, gout, lumbago, grapple, bruises, stiffness, backache and all external pain. At your druggist. 25c—A-V.

LEVINE BROS., Negaunee, Mich.

BANK ASSESSMENTS TO BE UNCHANGED

Tentative Figures of City Assessor Brown Proposed Considerable Increase.

Tentative assessments of \$300 a share on the stock of the First National bank, \$200 a share on the Marquette National, and \$115 a share on the Marquette County Savings bank, made by City Assessor Brown, which he believed were conservative values for these stocks, led to the opening up of the question of bank assessments at the session of the board of review yesterday.

The members of the board, however, decided that, inasmuch as the rule of assessment followed here in the past is generally followed in Michigan, it would be inadvisable to depart from it. Consequently the banks were assessed the same as last year, the value of each share being determined by subtracting the value of the real estate on which taxes are paid from the amount of the capital stock, plus the surplus, plus the undivided profits and dividing by the number of shares.

A. E. Miller appeared at the hearing for the First National, D. H. Ball, for the Marquette National and E. A. Macdonald for the Savings Bank. It was urged in behalf of the banks that the tentative figures proposed by Mr. Brown were arbitrary and that, in view of the fact that the previous practice in Marquette in taxing these properties is the same as is followed, with few exceptions, throughout the state, it should be continued here.

The members of the board were unanimously of this opinion, after the matter had been discussed at some length.

C. C. I. Assessment Less.

The Cleveland-Cliffs Iron company's assessment is some \$60,000 less than it was last year, due principally to the shipment of a part of the stockpile that has been in reserve at the Presque Isle dock for several years past. The Pioneer Iron company, which operated the Cleveland-Cliffs Iron company's furnaces, has lost its separate identity, all of its holdings having been taken over by the parent company.

The C. C. I. Co. assessment in Marquette this year is approximately \$1,300,000, or well over ten per cent of the total roll. The furnace property is assessed at \$750,000.

The assessment roll will not show any great variation from the roll of last year, which totaled \$10,732,831—realty, \$7,828,515; personal property, \$2,904,316. The principal reduction allowed from an old valuation was 10 per cent on the lake frontage in the lower harbor not in use. This affects principally the Leggett estate, which owns the Cinder Pond property, and is represented by A. Mathews. This property was assessed at \$40,000, in accordance with the ruling of the tax commission. The figure has been ridiculously high. It is said that the property has been offered for half that amount.

Many inequalities in exemption have been corrected this year. City Assessor Brown listed all exempted and partially exempted property, and had inquiry made into the financial condition of the families owning, or interested, in them. In some cases it was found that property exempted was owned by widows or members of whose families returned a good income. Changes were made with the purpose of equalizing the tax burden in cases of this kind. In some cases property that has been exempted was assessed; in others the amount of partial exemption was decreased.

A considerable number of taxpayers have appeared before the board. The final sessions will be held today.

CANNOT SELL LIQUOR TO MEN IN UNIFORM

Local Dealers Are Reminded of Recent Army Act, and Urged to Abide by It.

Uncle Sam is taking stern measures to protect the morale of his national guardsmen and regular army forces, and, as a result, any saloonkeeper who sells intoxicating liquor to a man wearing the United States army uniform is liable to a fine of \$1,000 and one year in jail. This provision is included in the new anti-liquor regulation of a recent army act, and saloonkeepers in every city where divisions of either branch of the service are stationed have been warned to observe it.

To protect the dealers here against probable fine and imprisonment, one of the liquor houses has sent letters to Marquette saloonmen, urging strict adherence to the law and the widest possible publicity regarding it. It urges that the purpose of the regulation and the penalty for violation be impressed upon every dealer in the city. Following is the letter:

"We herewith send you a copy of the new anti-liquor provision of the army act, which has been signed by the president and is now law.

"It is unlawful to sell any intoxicating liquor, beer, ale or wine to any officer or member of the military forces in uniform.

"The penalty for violation of this provision is \$1,000 fine and one year in jail.

"We suggest that you instruct your salesmen to notify the retail dealers of this and to urge strict obedience to it.

"This is the suggestion sent out by the National Wholesale Liquor Dealers' association of America. We all know that ignorance of the rule does not excuse us in the eyes of the law."

Affects Conditions Here.

The ruling affects the liquor dealers in Marquette, in view of the fact that Company M, Thirty-Third Infantry, is stationed here. As pointed out by Captain MacLachlan, in an address before about seventy-five business men in the Guild Hall recently, in which the captain endorsed the army Y. M. C. A. movement, drinking among guardsmen is a thing which the officers are often powerless to correct without the strictest cooperation of the saloonkeepers.

EVEN CONVICTS MUST REGISTER

Inmates of Local Institution Subject to Law General E. H. Crowder Announces.

Press dispatches received by The Mining Journal indicate that even inmates of the state prison here and elsewhere will not be exempt from draft registration, despite the fact that the federal law bars them from serving in the army or navy in any capacity, even when their terms of imprisonment have expired.

"When we say that every male must register, we mean just that," is the answer given by Provost Marshal General E. H. Crowder, to inquiries received from the warden of various penal institutions in the country. "All males between the ages of 21 to 31 inclusive—even convicts and aliens—MUST register."

General Crowder, press dispatches say, is very emphatic in declaring that no one is exempt from registration, but he also emphasizes the difference between the registration and the draft—that exemptions, for men who have served prison terms, inmates of penal insti-

HELD FOR 'JUMPING' BOARD BILL HERE

Authorities Dig Up Startling Chapters in Life of Young Man Held in City Jail.

Ivan W. Montgomery, 24 years of age, who came to Marquette from Munising several weeks ago, claiming to represent the Northern Collecting Agency, of Detroit, Milwaukee and Munising, will this morning appear before Municipal Judge Byrne to answer to a charge of "jumping" a board bill of about \$27, at the Clifton Hotel.

Wednesday Montgomery applied for enlistment in the regular army to the recruiting officers stationed here, and he was to leave the same evening for Escanaba, to receive his final examination. As he was boarding the 5:15 train he was arrested by Officer Matt, on a complaint filed by George Trethewey, proprietor of the Clifton Hotel. Since that time Montgomery has been held in the city lock-up, awaiting a hearing.

Investigation has brought to light various other dubious chapters in Montgomery's life. The Northern Collecting Agency it appears, originated in Munising, Montgomery posing as the manager, and there is no such firm in either Detroit or Milwaukee. Furthermore, according to a Munising business man who was in the city yesterday to see Montgomery, neither the bill submitted to him nor the money, if any, which he collected, have ever been returned to his clients. The Munising man yesterday endeavored to secure the bills he placed in Montgomery's hands, but the latter failed to produce them.

Montgomery, the officers here declare, has also been arrested in Kansas City, Mo., charged with receiving stolen goods. Information secured by them shows that the young man married a Kansas City girl, who was suspected of several thefts, and that he was arrested when attempting to dispose of the articles she had stolen. In Menominee, Mich., also Montgomery is claimed to have gotten into trouble.

From Munising come similar reports. In addition to the fraudulent business which he is alleged to have carried on there, he is also wanted for "jumping" a board bill contracted at the Superior House, and for failing to pay an account at the Savings Bank store.

Montgomery is a neat-appearing young man, and bears no ear-marks of the record which is claimed to possess.

tutions, sick, crippled, etc., will be granted at the time the draft is made, but not before.

"It is impossible at present," General Crowder said, "to answer most questions in regard to exemptions as the rules for exemptions are only outlined in the selective draft bill and must, in many cases, be drawn by the president."

Warden J. H. Russell, of the Marquette prison, said last night that he had received no orders in reference to registering prisoners at the local institution, and that he is at present unable to announce what procedure will be followed in regards to these men.

"The only instructions I have received to date," said Warden Russell, "were those asking me to supply the names of men whose terms expire within the next few months. These men, I understand, will be given opportunity to do farm labor if they wish. This plan is in line with the government's program for intensive food production and will be one of the means of supplying the need for farm labor."

MILLINERY SALE.

Special sale today of millinery at one-half price. 430 East Michigan street.

ENGINEERS ORDERED TO REPORT MONDAY

Will Appear at Houghton for Inspection by Army Officer—Enlistments Booming.

All of the iron country recruits for the Michigan battalion of engineers, in which a number of Marquette men have enlisted, have been ordered to report in Houghton, for government inspection, Monday morning, at 10 o'clock. The men will be allowed to return home immediately after inspection and their expenses will be refunded.

Orders forwarded to A. B. King, in charge of recruiting for the battalion here, read "Have all the men examined before coming, if possible, and recruit as many more as possible. The inspection will be made by a regular army inspector, who comes direct from the war department for this work."

Enlistments Increasing.

That enlistments for the battalion are "booming" is the optimistic view taken by Major B. W. Vallat, at Houghton. "There is nothing to it now," said the major yesterday. "Things are booming and we'll be in fine shape by the first of the week. We are getting good reports from the iron country and we expect a big representation from that district." There seems to be no doubt that by the first of next week the battalion will be in good position to have the regular army inspector to come on and "look it over." The "flying squadron," headed by Lieutenant "Pat" Lewis, has spent the past few days in Keweenaw county, with the net result of fourteen applications.

Enlistments reported yesterday by the Houghton recruiting office are:

- E. J. Hendrickson.
- J. P. Dietz.
- D. O. Paquette.
- E. E. Ertanen.
- C. O. Kunka.
- C. LaPoint.
- Charles Larsen.

According to reports the battalion is not getting all the material it wants from the vocational point of view. An engineering unit must be composed of specialists, and the battalion now wants, particularly, timbermen, miners, steel construction men, lumbermen, teamsters and cooks—the latter preferred at this time.

There may be a suspicion that a cook might not be particularly valuable in an engineering outfit, but a good cook is doubtless one of the best assets any military company can have. The Michigan battalion of engineers therefore appeals to the patriotism of the cooks, to come forward and enlist.

You! Must Register.

This Does Not Mean Some, but Includes All Men Between 21 and 31 Without Exception.

In an "Official Registration Guide" just issued, every possible question about registration is anticipated—and answered.

It points out: 1—That claiming exemption does not necessarily mean exemption.

2—That registrars will be required to answer a dozen questions—including "Is he Bald"—which will put on record a complete description of the person registered.

3—That men with dependents should not "let their military ardor interfere with the wish of the nation to reduce war's misery to a minimum."

4—That on the other hand, unless the person you have in mind is solely dependent on you, it is folly to attempt to hide behind "petticoats and children."

5—That if born in Alaska, Hawaii, or Porto Rico, a man is a "natural-born citizen."

6—That a felon or one morally deficient may claim exemption on that ground.

7—That the question, "married, single, which?" doesn't mean were you once but are you now. And the question "race?" can be answered only Caucasian, Mongolian, Negro, Malayan or Indian.

8—That "occupation" doesn't mean what you did once, or what you are best fitted to do, but "what your job is right now."

Theatrical

At the Delft.

At the Delft will be seen the drama "The Waiting Soul" with Mme. Petrova in the leading role.

Mme. Petrova is seen as Grace Vaughan who falls in love with a married man who obtains a divorce to marry her. After a few years of married life he realizes that he has been lead astray and leaves Grace to earn her own living and goes back to his first wife, Grace drifts about for several years and finally is brought in contact with Willard Ashbrook who befriends her and sees that she obtains a position as a nurse and she becomes one of the most efficient nurses in the hospital. The inevitable happens. She falls in love with a patient but it is right for her to marry him without telling him about her past life!

We Make No Charge For Purchasing Your War Bonds

BUYING WAR BONDS is not spending money—it is one way of saving money. Instead of having it in the bank ready for instant use, you have loaned the amount to the United States Government—the richest, the best paying Nation on earth. U. S. Government Bonds are the safest investment known. This is your opportunity to invest safely and at the same time render your country a distinct service. We will serve you without charge in the purchase of war bonds. Place your subscription with this Bank.

BABY CLINIC AT CITY HALL TODAY

Dr. Bennett and Visiting Nurse Will Be in Charge of the Consultations.

The second baby clinic held at the offices of the health department, under direction of Dr. Bennett, the health officer, is announced for this morning, between the hours of 9 and 11 o'clock. The visiting nurse will be present to assist Dr. Bennett, and mothers with baby problems to present will be welcomed.

"There are infinite possibilities for good in these baby clinics, if those whose infants can benefit from them, and who are not obtaining other advice, will take advantage of them," Dr. Bennett said yesterday. "They are designed to follow up the work of the Child Welfare week. What they can accomplish depends on the response of the mothers. It has not so far been as large as it should be, but will probably increase. The clinics offer a rare opportunity for mothers with baby problems that are puzzling them, who do not feel able to get other assistance.

"A case in point is a little six weeks old baby who was brought to us weighing only five pounds. It had been having a hard time, and without proper direction it would possibly not have lived. We succeeded in getting it on the right path, and it has made an admirable gain. There are, perhaps, many similar cases, in which infants are not doing well, and where other assistance cannot be obtained, where we can do highly useful work. If the clinics are made the most of by the mothers they can become an important activity of the public health department."

Max Figman will be seen in an extraordinary comedy, "He Wouldn't Wear Glasses."

At the Opera House.

"The Wax Model," a Pallas Paramount picture with Vivian Martin in the leading part, will be the attraction at the opera house tonight.

Both the gay and serious side of an artist's life are depicted in this picture. This picture is one that is able to bring out the piquancy and charm that has made Vivian Martin the popular screen star that she is.

Next Tuesday the people of Marquette will have a chance to see one of the most prominent comedians of the world, Max Linder. Mr. Linder will be seen in his first screen production "Max Comes Across."

There will be also a comedy tonight which they rightly called, "Maggie's First False Step."

According to recent report there are 30,900,000 eggs in cold storage in New York state.

"INTOLERANCE" TO BE SHOWN HERE

Griffith's Latest Film Masterpiece at the Opera House May 6 and 7.

That D. W. Griffith's latest spectacle "Intolerance," which had long and successful runs in New York, Chicago, Philadelphia, Pittsburgh, San Francisco and Los Angeles, is coming to the Marquette Opera House for two days, starting Wednesday night, June 6, with a matinee on Thursday, is an announcement that will doubtless interest every person who saw this eminent director's "Birth of a Nation." "Intolerance" tells of love's struggle throughout the ages by means of four stories, the scenes of which are laid in Ancient Babylon; in Judea in the time of Christ; in Medieval Paris and in a modern American city.

"Appalling in magnitude and grandeur; tremendous; stupendous; magnificent; awe-inspiring; wonderful, and unsurpassed in splendor," are some of the descriptive terms used by the leading dramatic critics of this country to describe "Intolerance." Max Marsh, Seena Owen, Miriam Cooper, Constance Talmadge, Bessie Eyre, Margery Wilson, Elmer Clifton, Lillian Gish, Robert Herron, and Alfred Papp are among the film favorites having the principal roles. The production to be seen here has just recently closed a six months' engagement at the Colonial theatre, Chicago, and carries a superb Symphony orchestra of twenty pieces, a chorus and a load of scenery and effects.

PRaises GALLI-CURCI.

Famous Critic Pays Tribute to Singer Who Will Be Heard Here.

Dr. M. L. Bartlett, of Des Moines, Iowa, who is frequently and affectionately referred to as "The Grand Old Man" of music in the middle west, after hearing the gifted coloratura soprano Galli-Curci, who is to sing at the Normal Auditorium Monday June 4, in joint recital with Rudolph Ganz paid her the following tribute:

"Considering the times, the situation is quite unusual. Time was when sensations were perhaps more frequent than within recent years, when we have had more frequent opportunities to hear the best in musical art, both vocal and instrumental. But now we have a living representation of one such as we had supposed to belong to past generations. We read of the triumphs of those of past generations, such as the great Henrietta Sonntag, Julia Grisi, Marie Malibran, Jenny Lind, Adeline Patti, Christine Nilsson, and we think of them as being greater than those of the present.

"Thus, taking into consideration times past and present, a star of such radi-

and brilliancy as Galli-Curci is epoch-making event. Nothing like it has taken place in this country since the advent of Jenny Lind and Adeline Patti whom I heard in her prime, closely followed by Nilsson, Gerster, Mella, a Soubrier, though none of the latter reached the sublime heights in all respects as did Patti."

Seats for this concert are now on sale at the Marquette opera house box office.

A law has been drafted in Nebraska authorizing any peace officer in the state to arrest any one whose breath has the odor of liquor.

COVERING SERB ATTACK WITH BARRAGE FIRE.

The stirring events connected with the Allied advances on the western front have taken public attention from the East, where Serbs and Bulgarians are fighting daily. This remarkable photograph shows Bulgarians seeking to counter attack, and being prevented from doing so by the Serbian barrage fire. The shells are seen bursting immediately before them.
