

NO SYMPATHY FOR DRAFT ENEMIES

MANY HURT IN RACE RIOTS AT EAST ST. LOUIS

Several Fresh Disturbances Break Out and Police and Soldiers Have Hard Time Protecting Negroes.

TWO WHITE MEN WOUNDED

East St. Louis, Ill., May 29.—Three white men and three negroes were wounded tonight in a recurrence of riots that started Monday night, after a meeting to protest against the wholesale importation of negro laborers.

Two White men were taken to St. Mary's hospital in a serious condition as a result of a gunshot wound. They were unarmed.

The intermittent formation of small mobs continued during the entire evening, but with soldiers patrolling the streets in pairs none of them gained any appreciable size.

At 11 o'clock Colonel C. E. Clayton, who is in command of six companies of militia on guard here, declared he expected little more trouble tonight.

'RESTRICTED ZONES' GUARDED

Colonel Clayton stationed his men, each armed with a rifle and ninety rounds of ammunition, 100 feet apart in the section where trouble was most feared. Orders were issued to let no one pass into the "restricted zones" without being challenged.

Hundreds of arrests were made, especially at the approaches of the Eads and Free bridges. One negro, who carried a sack containing eight revolvers and 300 rounds of ammunition, was taken.

About 11 o'clock a fire started in one of the negro sections and three houses were destroyed before the flames were extinguished. The fire is believed to have been started by rioters. Police estimated that at least 1,500 negroes had left the city for suburbs or crossed the river to St. Louis.

Eight negroes were arrested on the Free bridge today on their way from St. Louis to East St. Louis in an automobile in which police found five revolvers and 500 cartridges. Several other negroes halted this afternoon on their way to East St. Louis were found carrying weapons and were disarmed.

ONE NEGRO NEAR DEATH

One of the wounded negroes, Hardy Haris, who probably will die, said a white man asked him where he was going and when he did not reply, he said the white man drew a revolver and fired.

A crowd soon gathered, policemen used clubs freely and the mob was dispersed only to gather a few minutes later in a chase after Charles Ervin, who finally was halted by a bullet. Ervin's conditions is not serious. The negro is alleged to have said the blacks would put up a fight if trouble started tonight.

All saloons here were closed at 6 o'clock this evening and moving picture theaters, by order of the mayor, failed to open their doors.

ITALIANS HALT TRIESTE DRIVE FOR THE MOMENT

Fighting On Northern End of Line Near Gorizia, However, Grows Violent

(Associated Press War Summary.) On the southern end of the line near the head of the Gulf of Trieste, in the Austro-Italian theater, the Italians, for the moment, have nerved in their titanic effort to push forward to Trieste and heavy fighting again is in progress to the north around Gorizia, Piava and the Vodice.

East of Gorizia and on the Vodice the Austrians attempted to carry the offensive to the Italians, but the artillery fire of the Italians stopped the assaults and in the last named sector the Italians themselves delivered an attack, and notwithstanding stubborn resistance made progress. Likewise in the Piava sector the Austrians were driven back and 100 men made prisoners.

BOTH TAKE MANY PRISONERS.

Around Duino, at the lower end of the line, the Austrians heavily bombarded the Italians in their new positions and ineffectually tried to oust them. Both sides are claiming the capture of large numbers of prisoners since the new battle from Tolmino to the sea began. The Italians asserting that they have taken 23,681 and the Austrians 14,500.

Tuesday passed with relative calm on both the British and French fronts in France. Following reports of an increase in the Russian artillery activity against the Austrians in the Eastern theater, comes a statement that there has been a renewal of the activity of the Russo-Rumanian forces against the Teutonic allies in Rumania and that early attacks by them are expected. The victims to Jassy, the new capital of Rumania, of M. Thomas, the French minister of munitions, and M. Kerensky, the Russian minister of war, possibly may be connected with the revival of the activity of the Russo-Rumanian troops.

BEER TAKES LARGE PORTION OF BARLEY

Report Compiled for President Shows 'Amber Fluid' Needs \$2,500,000 Bushels Yearly

Washington, May 29.—If the administration exercises the prohibition powers proposed in congress, it was authoritatively stated today, the ban will fall upon beer, into the production of which goes about 32,500,000 bushels of barley every year.

The American people do not eat barley, but their allies in France will eat every bit they can get, and for each bushel of barley exported for food, that much wheat can be kept for home consumption.

DOES NOT AFFECT WHISKEY.

A complete report upon the relation of the liquor trade to the food supply has just been compiled for President Wilson, after careful investigation, by an expert.

The report is said to hold that the manufacture of whiskey does not substantially affect the food supply, because corn is the chief ingredient and the 32,000,000 bushels of corn converted annually into whiskey is not an appreciable part of the country's yearly 3,000,000,000 corn crop.

ANTI-DRAFT MEET IN TOLEDO CAUSES SERIOUS RIOTING

Toledo, O., May 29.—Two thousand persons, including militia men, pacifists, police and citizens, were participants in a riot here tonight as the outcome of an attempt of anti-conscription speakers to address a crowd in the streets.

The outbreak, occurred when a citizen's cry of "Hurray! Hurray! for Wilson" was answered "Kaiser Wilson," from one of the pacifists. Soldiers stationed at a recruiting office nearby resented the remark and the riot resulted. Several persons were more or less seriously injured. Police were called and several arrests were made.

RUSSIA NOT TO DESERT ALLIES ENVOY AVERS

Prof. Bakhtmetief, at Head of Special Mission to U. S., in Tokio Interview Denies Separate Peace Remors.

PLEASED WITH OUTLOOK

Tokio, Japan, May 29.—"I am immensely satisfied with conditions in Russia, including Siberia," said Professor Boris Bakhtmetief, the new Russian ambassador to the United States, on arriving here today.

"I think the new regime is carrying on the work of organization successfully and will soon be able to launch an offensive against the enemy."

WILL NOT SEEK PEACE.

Professor Bakhtmetief is at the head of a special mission of forty on his way to the United States. He repudiated the idea that his country would make a separate peace. Difficulties had occurred, he said, but they had been exaggerated, and it was unreasonable to assume that the ancient animosity could be overcome without encountering resultant obstacles.

During the trip from Petrograd, Professor Bakhtmetief said, he was impressed by the desire of the people to cooperate with the government and continue the war to the victory which was essential to the salvation of Russia.

HEADS BIG COMMISSION.

Washington, May 29.—The names of several Russian publicists recently have been suggested to the state department as possible successors to George Bakhtmetief, as Russian ambassador, and that of Professor Bakhtmetief was among the number. There has been no formal application, however, to afford the American government an opportunity to express its opinion of the acceptability of any of the persons named.

It is understood that the Russian embassy also, is still without official confirmation of the selection of a successor to fill the vacancy. The suggestion is made that Professor Bakhtmetief probably is using the title ambassador as a result of having been appointed ambassador on special mission, as Elihu Root was named by President Wilson, when he was chosen head of the American mission to Russia.

TO GET CORDIAL WELCOME.

The government is preparing to give a cordial reception to the Russian commission when it reaches the United States, with the purpose of demonstrating the full sympathy of the United States government and people for the newly founded Russian republic. The visitors will be met at the port of arrival by special representatives of the state, war and navy departments and brought on a special train to Washington.

NEW YORK SLACKERS HASTEN TO TAKE OUT MARRIAGE LICENSES

New York, May 29.—An abnormal demand for marriage licenses has been observed here yesterday and today, with the majority of applicants men who are of conscription age. Officials say it is a renewal of the run on the marriage license bureau, begun when the selective draft law was passed, and which stopped when it was announced from Washington that newly married men would be treated the same as bachelors.

SHERMAN E. BURROUGHS WINS IN CONGRESSIONAL FIGHT IN NEW HAMPSHIRE

Manchester, N. H., May 29.—Sherman E. Burroughs, Republican candidate for congress, from the First New Hampshire district, to succeed the late Congressman Cyrus A. Sulway, Republican, was elected today over Patrick H. Sullivan, the Democratic candidate, by 1,240 votes, according to unofficial returns.

GOVERNOR OF OREGON NAMES NEW SENATOR

Salem, Ore., May 29.—Governor James Withycombe tonight announced that he had appointed C. L. McNary, of Salem, Ore., former justice of the state supreme court, to succeed the late Harry Lane, as United States senator for Oregon. Mr. McNary is a Republican, succeeding a Democrat. He is forty-three years old.

ITALY'S MISSION TO TOUR SOUTH AND THE MIDDLE WEST

Prince of Udine and Companions to Leave Washington Monday

Washington, May 29.—The Prince of Udine, and other members of the Italian war mission, will leave Washington next Monday, June 4, on a trip through the south and middle west, going first to Atlanta. Following is the itinerary announced today by the state department:

Leave Washington Monday, June 4; Atlanta, June 5; Birmingham, June 5; New Orleans, June 6; Memphis, June 7; St. Louis, June 8; Burlington, Ia., June 8; Chicago, June 9; Pittsburg, June 11; Harrisburg, June 12; New York, June 12; Philadelphia, enroute to Washington after the visit in New York.

ROUTE KEPT SECRET.

The mission will travel on a special train provided by the government. The exact routes and time of departure will be kept secret for reasons of safety, but the local committees at the places at which they will stop will be given full details. The Prince of Udine will present to the state Thursday an autograph letter to the American people, especially entrusted to him by King Victor Emmanuel. The prince, with other members of the mission, paid a formal visit today to Vice President Marshall at the capitol. The vice president extended the invitation to address the senate.

EARLY PASSAGE OF FOOD BILL IS SEEN

Senate Considers Similar Measure to That Passed Recently in the House.

Washington, May 29.—Considerable progress was made by the senate today toward passage of the administration food survey and production bill. Early in the day the agriculture committee substituted for the measure the senate has been considering, the similar bill which already has passed the house, thereby paying the way for prompt final enactment.

WOULD PENALIZE SPECULATORS.

Into the house bill the committee had written an amendment by Senator Poinchester to penalize the storage of food, fuel and other necessities, with attempt to corner a market, with a provision by Senator Kenyon exempting farmers and other original producers. During the debate Senator Sherman criticized the activities of the Council of National Defense. He said he did not question the council's motives, but thought it was interfering with the general welfare of the country by its orders in many cases.

COUNTRY'S EXPORT TRADE LAST YEAR OVER SIX BILLION

Washington, May 29.—The country's climbing export trade reached a yearly total of more than \$6,000,000,000 during the twelve months ending with April, establishing another new record. For the year ending with April, 1916, the total was less than \$4,000,000,000 and for the year before that only about \$2,500,000,000.

Merchandise exports for April amounted to \$530,000,000, compared with \$551,000,000 for March. The April exports of merchandise totaled \$234,000,000, an aggregate surpassed only once in the country's history.

MICHIGAN MAN IS NAMED AS SUPREME JUSTICE OF PHILIPPINES

Washington, May 29.—George R. Malcolm, of Michigan, and Thomas A. Street, of Alabama, were today nominated to be associate justices of the supreme court of the Philippine Islands.

JONES & LAUGHLIN TO TAKE OVER G. N. MINES

St. Paul Minn., May 29.—Louis W. Hill, president of the Great Northern Railroad company, announced today that the final details of the leasing of Lave big ore mines to Jones & Laughlin, Pittsburg steel manufacturers, by trustees of the Great Northern Ore properties, were completed today.

London, May 29.—An impressive demonstration by many thousands of workmen, organized by the British Workers' league, was held in Hyde Park Sunday to express fraternal greetings to the peoples of entente allied countries, and the determination of the workers to continue the war to a victorious conclusion. These sentiments were voiced in stirring speeches from twelve platforms.

VOLUNTEER PLAN A FLAT FAILURE OFFICIALS SAY

Point to Daily Recruiting Figures as New Proof That System Has Broken Down in Time of Emergency.

PLAN BIG FINAL DRIVE

Washington, May 29.—War department officials are pointing to the daily recruiting figures as proof anew that the volunteer system again has broken down in time of national emergency. Yesterday's regular army recruiting brought in 2,237 men, making a total of 87,318 since April 1. Illinois was first with 300 and New York second with 295.

But army officers declare that a great drive for volunteers to fill the army and national guard to the new war strength will be necessary unless there is to be serious delay in organizing the newly authorized regiments. These, of course, are for the regular army, and quite apart from the army to be raised by selective conscription.

LESS THAN 200,000 VOLUNTEER.

Despite the fact that the nation is at war and American regulars are under orders for the fighting front in France, less than 200,000 men have enlisted since April 1, in the regulars and national guard.

The present rate of enlistment—1,200 to 1,500 a day—officials say, must be increased to 10,000 or 20,000 a day if the forces, which in all probability will be among the first to follow Major General Pershing's division to Europe, are to go forward promptly. An appeal to the country from the president may be necessary to get the men.

The national guard is in even worse situation. The present total strength of the force is less than 200,000 and raised to a war footing, as has been ordered, should total 330,000. In addition the sixteen national guard division plan, or which the war department is working would require nearly as many more to fill necessary additional regiments.

CANNOT ATTRACT MEN.

The most striking fact in connection with the recruiting rate for the regulars, officers say, is that even the announcement that General Pershing would lead a division to France without delay, failed utterly to stimulate enlistments. The daily average recruiting has dwindled steadily.

If voluntary enlistments falls, despite the recruiting campaigns that are in prospect, the only recourse will be to fill up the regulars and national guard with men selected for military service under the draft.

SEVENTY-FOUR AMERICANS PRISONERS IN GERMANY

Washington, May 29.—A list of all known American prisoners of war in Germany made public today by the state department contains the names of seventy-four men, all of whom were taken from merchant ships captured by German war vessels.

London, May 29.—The agitation for total prohibition is considered to be doomed to failure by those who have seen the good results effected by the central board of liquor control. It is stated that excessive drinking has ceased to be a problem so far as the army is concerned and that restriction will do all that is necessary in other walks of life.

The central board of control's report says that by establishing a strict system for the control and inspection of public houses it is possible to reduce excessive drinking. In houses in which liquor can be sold under conditions of comfort and decency and in which recreation and the sale of food is provided, customers are less inclined to drink to excess.

Statistics show that for the first quarter of 1917 convictions for drunkenness totalled 6,176 against 7,744 in the corresponding period of 1916, 14,078 in 1915 and 10,007 in the first quarter of 1914.

HOSPITAL SHIP TORPEDOED BY GERMAN U-BOAT

Dover Castle Sent to Bottom Without Warning--Auxiliary Also Sunk

London, May 29, 7:50 p. m.—The British hospital ship Dover Castle, has been torpedoed and sunk, it is announced officially. The British armed merchant cruiser Hilary also has been torpedoed and sunk, and a British destroyer has been sunk after a collision. The text of the British announcement reads:

SUNK WITHOUT WARNING.

"His majesty's hospital ship Dover Castle was torpedoed without warning at 6:30 o'clock on Saturday in the Mediterranean. At 8:30 she was again torpedoed and subsequently sank. The whole number of hospital patients and the hospital staff were safely transferred to other ships and the crew were also saved, with the exception of six men, who are missing and are feared to have been killed by the explosions.

"His Majesty's armed merchant cruiser Hilary has been torpedoed and sunk in the north sea. Four men were killed by the explosion.

"One of his majesty's torpedo boat destroyers has been in collision and sunk. There were no casualties."

TO SELL LIBERTY BONDS IN THEATRES

Producers and Managers of Country to Take Active Part in Floating Big Loan.

New York, May 29.—Plans were announced here tonight for carrying the campaign for the sale of Liberty Loan bonds into virtually every theater in the United States, during the week beginning June 4, at a meeting of prominent managers and producers. A committee was appointed to aid in obtaining speakers and providing application blanks. A salesman will be stationed in each theater lobby, it was said, with bonds for sale.

BANKS TO SOLICIT DEPOSITORS.

Presidents of the forty-nine national banks in this city formulated plans to increase the subscriptions of their respective depositors. Thus far, it was said, only about 5 per cent of the depositors had invested in Liberty bonds. Announcement was made that banks, trust companies and industrial corporations having their main offices in New York, already have subscribed to nearly \$500,000,000 of the loan.

JAPANESE ARMY TO RUSSIA, NEXT BIG MOVE IN WAR

Washington, May 29.—Dispatch of Japanese troops, in large force, to the Russian front is "apparently the next big move in the world war," it was predicted today by a person high in diplomatic circles.

Fearing a separate Russian peace with Germany, Japan publicists are advising this course to save Asia from German aggression, it was declared.

It was stated that "since little is known of the real status of Russian affairs, one fact stands uppermost, that Japanese armies must aid in maintaining the Russian battle lines as the only course to keep the Teutons ultimately out of China."

It was explained that while Japanese soldiers are conscripted for the primary object of defense, public sentiment in the mikados empire would sanction sending troops to distant foreign service in such a case—the object being "to thwart an ultimate invasion of China and the orient."

BRAZIL CHAMBER PASSES BILL TO REVOKE NEUTRALITY

Rio Janeiro, May 29.—The chamber of deputies tonight, on its last reading, unanimously passed the bill authorizing the revocation of Brazil's neutrality in the German American war. The bill was amended so as to authorize the government to utilize German ships now in Brazilian ports.

U. S. MOVES TO JAIL ALL WHO DISOBEY LAW

Attorney General Gregory Announces the Government Will Take Most Drastic Steps Against Conspirators

SCENT A GERMAN PLOT

Washington, May 29.—Attorney General Gregory today instructed United States attorneys and marshals throughout the country to use their utmost efforts to arrest and prosecute all persons responsible for the agitation which has manifested itself in localities from New England to Texas against the registration June 5 of men subject to selective draft.

This agitation has made itself felt somewhat in many sections, but thus far there apparently is little connection between the outbreaks. Officials have undertaken an exhaustive investigation to determine if the whole anti-draft sentiment is not rooted in extensive machinations of German propagandists in this country having a central headquarters.

MAY BE GERMAN PLOT.

Color to this theory is lent in some degree by the marked similarity in the methods of procedure in widely separated communities. Some officials believe that the entire agitation is manufactured by German agents, who backed in their original program calling for an armed country, upon America's entry into the uprising of German reservists in this war, have turned their energies to this method of hindering the military plans of the government.

If such is the case, the conspiracy will come to nothing, officials believe. The department of justice, it was authoritatively announced tonight, expects virtually 100 per cent of eligibles to register, and prompt prosecution under the criminal provisions of the law will be instituted in the few cases where the law is not observed.

To bring out the full registration, Attorney General Gregory today invited the entire nation to constitute itself a committee of the whole and every man of military age a committee of one to report slackers.

SHOULD REPORT 'SLACKERS.'

"Every man subject to registration is not only expected by the department of justice to comply with the law," reads an official statement, "but also to constitute himself a committee of one in his community to see that each of his acquaintances who should register does so, or is promptly reported for prosecution under the criminal provision of the law. Attorney General Gregory invites all young men of the country to cooperate in the enforcement of the law as a part of their patriotic duty.

"Determined to crush in inefficiency every movement designed to thwart or interfere with registration, as provided for in the law, the department is having its officers throughout the country arrest promptly all agitators against compliance with the law.

"The department is not dependent entirely upon its agencies to discover the loyal activity. State and municipal police are co-operating and members of national, patriotic and commercial organizations which were enlisted after the declaration of a state of war to guard against all acts inimical to the general welfare are engaged to call to the attention of United States attorneys and marshals all instances or attempts to discourage registration."

GRAND JURY TO ACT PROMPTLY.

New York, May 29.—The federal grand jury will convene Monday and will be in readiness promptly to act on any reported violation of the president's draft proclamation, it was announced today at the office of the United States district attorney.

"We are no going to tolerate any monkey business on June 5," said Assistant District Attorney John C. Knox. "Any man or woman trying to dissuade a man from registering will find accommodations in jail."

U. S. ARMY DIRIGIBLE COVERS 320 MILES IN THIRTEEN HOURS

Akron, O., May 29.—The army dirigible balloon, which started from the government aviation field at Chicago this morning, landed near Medina, a few miles west of Akron, at 1 o'clock this afternoon, after making the 320 miles in thirteen hours.

Vertical text on the left margin containing various advertisements and notices.

THE DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY The Mining Journal Company, Limited.

Issued daily except on Sundays. Contains Associated Press dispatches, and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per year, by mail, \$6.00 Per month, by carrier, .60

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

WEDNESDAY, MAY 30, 1917.

AN ILLUMINATING INCIDENT.

An anarchistic mob of socialist and pro-German sympathies, which, when its members had failed to gain access to the Auditorium where the pacifists were in session Sunday, attempted to hold an overflow meeting in the lake front park, was dispersed by the Chicago police, after a period of rioting, because, for one thing, the meeting was not authorized, and for another, the utterances of the speakers were grossly insulting to the President, disloyal and seditious.

The respectable gentlemen who were hounding the Auditorium peace terms meeting were prompt to repudiate the "overflow" gathering, but it cannot escape attention that the audience within the Auditorium must have had much in common with the crowd that adjourned to the lake front park, because all the latter would have been within the hall, to cheer the sentiments of the speakers and to add their support to the resolutions, if only the hall had been large enough.

The pacifist organizations before the war, though they included many conscientious and loyal Americans, were, to large extent, subsidized by German agents working in this country, who had access to unlimited amounts of German gold to carry out their purposes. This has been conclusively shown by unimpeachable evidence, presented in open court.

The unpatriotic and pro-German forces, such as there are of them in the country, and the anarchistic element, can now find no better way of beveling the government's plans than by further peace propaganda and by ambitious efforts to take, as far as that may be possible, initiative in our foreign relations out of the government's hands.

The account of the riots attending the Auditorium gathering throws a flood of light on the character and purposes of the men most interested in these efforts. It, and similar accounts of other such activities, should give to good Americans warning that they should be led severely alone. The energy of the nation must now be concentrated on the task of getting in a position to fight the war effectively.

THE SHIP PROGRAM.

The ships of the United States' emergency fleet will be partly of wood, but mostly of steel. The announcement that the shipping board expected to have 1,000 wooden ships in commission in eighteen months was, it is now explained, made unofficially, and the board was not at the trouble of denying it because it was willing that Germany should be kept guessing as to the country's plans. But, as Colonel Goethals has pointed out, the birds are still nesting in the trees from which the lumber for these 1,000 ships would have to come, and their production in the time mentioned is without the bounds of possibility. Some wooden ships there will be—the full capacity of the shipyards that can build them will be utilized—but the principal dependence of the shipping board will have to be the steel mills, on which so many other things of national import depend.

The response of the captains of the steel mills to Colonel Goethals' request for their largest co-operation in helping the shipping board to meet the demand for new tonnage is immediate and gratifying, not only in its patriotic ardor, but in their confidence that the impossible will be accomplished. The Steel corporation and the Lackawanna Steel & Iron company have, it is announced, promised 3,000,000 tons of shipping in eighteen months, and Colonel Goethals, for the shipping board, has accepted their proposals. Plans for the engine and equipment of the proposed vessels are going on apace.

This wonderful achievement of production, loaded on top of industries already crowded to capacity, will be made possible largely by standardization of design. The ships that will be built will be alike as peas in a pod. Material for them will be run out in great quantities, will be interchangeable, uniform to the fraction of an inch and will permit of unheard of speed in assembling. The ships, however, will be well and strongly built, fit for good service long after the war. Supplement them with a law that will permit American tonnage to compete with other tonnage for world traffic and they will be the nucleus of a fleet that will restore to the American flag something of the prestige that it had on the seven seas before our civil war.

BUY A BOND.

The banks of Marquette and adjoining counties are doing all that can be expected of them to insure the general participation of the people of their communities in the Liberty Loan. They are placing their facilities of service and advice at the behest of the public. They are urging participation in the loan as a sound business step and as a patriotic duty, and they making such participation easy for the individual.

Their offer, as outlined in their advertisement running in The Mining Journal this week, to carry loans for the incomplete payments for the bonds at 3 1/2 per cent interest assures that subscribers can buy the bonds on time and have them carried for the interest return of the bonds. They can pay the installments in sums within their means as rapidly as they can, and presently have in possession the bonds, the fruits of saving that might not otherwise be made and evidence of keen patriotic interest in the success of the war.

The man who can buy a bond of small denomination outright, or in installments, should not get the idea that his assistance in financing the huge loan would be so small as to be inconsequential. The government attaches the highest importance to the small subscriptions, and counts on a huge number of them. \$50, \$100, \$200 and fractions of \$1,000, to contribute largely to the success of the issue. So truly is this the case that plans for placing the loan in even as small as \$10 units are being outlined.

The little man is to be an important factor in this loan, and the part he takes in making it successful will be as worthy of commendation as the part of the big man. It is to be hoped that he will respond liberally to the patriotic offers of the banks.

THE RED CROSS NEEDS MONEY.

The American Red Cross society has launched a campaign to secure a fund of \$100,000,000, to aid in carrying on the work of that organization. It is pointed out that this work will be greatly enlarged when the new American army is organized, and as troops are sent to the front the Red Cross must be ready to administer to their needs. Moreover, it is important that the Red Cross shall continue and extend its humanitarian work among the war victims along the various battle fronts, particularly in Belgium, France and Russia. A large part of this work consists of fighting disease and starvation among the civilian population of the war-scourged sections, and is a line of effort to win the sympathy and active support of every thinking citizen.

When the Red Cross says it needs more money, therefore, the response should be prompt and generous. It is true that there are many calls for money these days, but none is more worthy or more entitled to favorable consideration than the appeal of the Red Cross society.

Enlistments Monday were below 1,400. When they were coming in at the best rate, they were 2,000, or thereabouts. The government is faced with the necessity of invoking the draft to get men in as expected to get through volunteering. The country has accepted the principle of the draft so wholeheartedly that voluntary recruitment, evidently, can no longer be depended on to bring needed forces of men. The government can be expected to take cognizance of this condition without delay.

Many towns are seeking the U. S. camps, with an eye to business. But in view of the present purposes of the government they will find that many of the lines of "business" that have in the past flourished greatly when soldiers were about will languish, to the advantage of the soldiers and of all others worthy of consideration. Uncle Sam is going to throw the maximum safeguards about the welfare of his men.

The government is making it hot for persons who are seeking to discourage registration. It cannot make it too hot for these offenders. The penalty for failure to register is a term in prison, maximum one year. The penalty for discouraging registration might well be five times the maximum proposed for those who disobey the law.

The Memorial day exercises this year should take on an added solemnity because of the circumstances that will attend them. They should be participated in largely by the adult population, and be given an atmosphere worthy of their great significance.

Hoarding of food brings its own punishment, on occasions. Many a housewife who thought she was being long-headed in stocking up is now basking bread from flour that she bought at from \$3 to \$4 a barrel above the present market price. There is no doubt that hoarding had a large part in the recent food

scarc. Wholesalers report a considerable falling off in business in certain lines, which they do not hesitate to attribute to overstocking, a few weeks ago, by housewives who were made to feel panicky by the many stories of an impending food shortage. Nothing, it appears, could have been more efficacious in restoring sanity, to the thought in connection with food supply than the shutting off of trading in the Chicago wheat pit.

Colonel Goethals modestly says he does not see why he was chosen for the highly important post of head of the shipping board, but he will do his best. The answer is Panama.

The character of the news from their part of the front has in no manner decreased the enthusiasm with which the Italian mission is being welcomed in America.

It promises to be a bad year for baseball. The upper peninsula towns should thank their stars that they are not tangled up in a bush league.

Germany hopes that Russia is wobbling on the war; it fears, with good reason, that the same thing is true of Austria.

The apparent lull on the western front doubtless means that there is another big storm brewing.

State Press

Russia has another start on what seems to be the right road, and may get along all right if some soap-box orator doesn't make a speech.—Detroit Journal.

If the colonel wants to suggest something patriotic for his disbanded army—there are the wheat, oats, corn, potatoes to be looked after.—Adrian Telegram.

To many men greater bravery is required to remain at home than to enlist. Without the strenuous effort of the man at home the efforts of those at the front would be barren of results.—Jackson Patriot.

Events of the past few days have done more than anything since the declaration of war to bring home to all America the realization that we are not only at war, but that we are in a big struggle involving all of us.—Kalamazoo Gazette.

Colonel Roosevelt is enough of a man and a fighter to swallow his disappointment, which may really be considered to be keen, and has already done the right thing in releasing his tentatively organized forces to federal service under the army plans.—Grand Rapids News.

Timely Quips

Literary. Germany has produced socialistic literature long enough to make a revolution seem pretty nearly due.—Washington Star.

Rallying. India is rallying nobly to the defense of a starving world. She reports the largest crop of rice ever harvested.—Kansas City Journal.

Educational. When Germany gets rid of Kaiserism, it will take several years for democratic Germany to cure the ex-militarists of the habit of crowding the common people off the sidewalk in Berlin.—Rochester Herald.

Financial. If we really want to finance the allies, we shall send Balfour around the Chautauque circuit and put Joffre in the movies, and thus collect in three months more than all the belligerents can spend in three years.—New York Evening Post.

Liberation. The United States has become the world's greatest liberator. She liberated herself in 1776 from the grip of a tyrant across the Atlantic. In 1808 she liberated Cuba from the grip of another tyrant across the Atlantic, and in 1917 she is going to overthrow the last mighty tyrant and monster of the human race.—(Wilton, Wis.) Herald.

A Laugh Or Two

The Two Bills. Vice President Marshall, at a luncheon at Atlantic City, was condemning the Kaiser. "From the time he mounted the throne," he said, "from the time he ousted Bismarck and imprisoned his own mother in a castle, he showed what a dangerous bully he was. "His memory in history will be like the memory of that other Bill, an East Side one, to whose widow a neighbor said: "So Bill's dead." "Yes, he's dead." "I suppose he's hittin' the harp with the angels now." "More likely," said the widow, "he's hittin' the angels with the harp."

Over-Certainty. Senator La Follette said at a luncheon: "He laughs best who laughs last. My enemies are so sure of my political ruin that they remind me of the editor of the Cincinnati Scimitar. "A leading citizen of Cincinnati was taken down with appendicitis. They rushed him off to St. Timothy's hospital

Advertisement for Martha Washington Shoes by F. Mayer Boot & Shoe Co. The ad features an illustration of a woman's foot in a high-heeled shoe and text describing the shoes as stylish, comfortable, and popular. It includes the company name, location (Milwaukee, Wisconsin), and a list of shoe styles like pumps, oxfords, and high-cuts.

to be operated on, and the editor, hearing the grave news, crowded into his last edition a note that said: "Our esteemed fellow-townsmen, J. Smith Carberry, will be operated upon tomorrow at St. Timothy's by Surgeon Cutter for a very dangerous attack of appendicitis. He will leave a wife and five children."

The Haymaker. Thomas A. Edison said at his recent birthday dinner: "What nonsense to declare that the trusts have gobbled up all the opportunities! Why, there are more opportunities than ever there were. Look at automobileing. Look at flying. "But most of us are stupid and lazy and we don't grasp our opportunities. "The successful man not only makes hay while the sun shines—he makes it from the grass that other people let grow under their feet."

Editorial Opinion. The Republican Party. It is true that for the past six years Republican history has been characterized by fractional struggles for control. Disruption came not because of a difference over principles. The trouble was over leadership. Even at the height of its civil war, when it split into two fighting factions, it was not a matter of issues. The Republican platform of 1912 and the Progressive platform were almost identical upon the great questions of the day. The Republican policies have remained the same, and they have endured the acid test of politics party disruption.

Knockdown Argument. It is to Hiram L. Johnson, senator from California, that San Francisco owes her city-built and city-conducted street railway system. When Johnson first advocated municipal street railways, all the bosses fought him tooth and nail. He had, however, no difficulty in defeating the bosses. His one argument, which he used again and again, was this: "The people are able to own and operate their public school system—there's no profit in that. They are able to own and operate their sewage system—no

Advertisement for Bon-Opto eye treatment. The ad claims that the treatment can strengthen eyesight by 50% in one week. It includes a testimonial from a woman who was cured of her eye problems and a list of symptoms it treats, such as blurred vision and eye strain.

able time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by the use of this prescription. Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation and redness will quickly disappear. If your eyes bother you even a little it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time.

Note: Another prominent Physician to whom the above article was submitted, said: "Yes, the Bon-Opto prescription is truly a wonderful eye remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or misty glasses. I can highly recommend it in case of weak, watery, aching, smarting, itching, burning eyes, red, blurred vision or for eyes inflamed from exposure to smoke, sun, dust or wind. It is one of the very best preparations I feel should be kept on hand for regular use in almost every family." Bon-Opto, referred to above, is not a patent medicine or a secret remedy. It is an ethical preparation, the formula being printed on the package. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances or refund the money. It can be obtained from any oculist and is sold in this city by STAFFORD DRUG CO., Marquette.

ever can. Thomas B. Reed once said, "The perfect tariff bill is the bill every man writes in his own mind." That kind of a bill is never enacted into law, it never can be. Tariff legislation in the United States must ever be a series of compromises between interests and communities. It can never be satisfactory to all in its paragraphs and its details. But the Republican tariff policy has been satisfactory to the country, and has made and kept the nation prosperous. The Republican party of today is true to the fundamentals of Republicanism. It would have triumphed last fall had it not been for artificial issues which beclouded the real difference between Republicanism and Democracy. The party has never been in the habit of inventing new faiths and new programs to meet every apparent turn in the tide of public opinion. Nor does it intend to do so in the present, for that is not the way of real enlightened leadership.—Philadelphia Press.

The World's Greatest Saver. How would you like to have the job of spending ten billion dollars a year of other people's money? That is what presumably one man will be delegated to do, the proposed purchasing agent for the Allies. He would be the most prolific spender in the world's history. He would buy on a scale never before even dreamed of for one man. If he were a hard working and conscientious individual and so impressed with the importance of his work that he kept at it daily, respecting neither Sundays nor holidays, and if he could find others willing to deal with him at all times, so that he could work three hundred and sixty-five days a year, he would be spending considerably more than twenty-seven million dollars a day. To those who are money mad, this no doubt appears as a good job.

It is not so very long ago that a play was popular on the American stage whose plot centered about the difficulties of an individual who had to spend a million dollars in the short space of a single year. He found it no easy task, and it taxed the inventive genius of the author and forced him to strain the intervention of Providence a little in order to get rid of the money. But here is a man who must, in real life, spend more than twenty-seven times as much every day in the year as the hero of the sprightly farce comedy was given a year to spend.

Of course he will not spend it all in person, although he will be responsible for its expenditure. It would take an army of men to count out twenty-seven million dollars a day. It will take a large force to contract for that expenditure. The international purchasing agent will have to perfect a strong organization under him, leaving the details to the men in subordinate positions. For it is no easy task to spend ten billion dollars a year.—Saginaw Courier-Herald.

See What Is Ahead of You. War is bad business, but you never make the mistake of thinking that war means bad business. Mars has lately become the foremost employer of labor and the leading customer of commerce.

It takes a dozen farmers, mechanics, trappers, butchers, bakers, tailors and shoemakers to maintain a soldier. We can't put a million men under arms without putting at least twelve million men under the eight-hour clock. We must build cruisers, cast cannon, produce rifles, tin meat, raise food, weave khaki, pack surgical kits, cobble footwear, construct motor cars, extend transportation, manufacture uniforms, knit socks, erect forts, roll armor plate, draw wire, mine metal and fuel, mix explosives, process chemicals, provide ammunition, airships, electrical equipment in such quantities that existing capacities will stagger under the sudden burden.

Every trade and every branch of trade, from Bangor to Bellingham and from cannery to foundry, will soon be mobilized for the colossal task of transforming an industrial giant into a Titan warrior. With a few months we must accomplish what Germany required thirty years to do. Think of it! More than a quarter of a century of preparation to be crowded into less than a year!

Factories must work day and night shifts, railroads will operate extra trains, produce will ride to port from every arable acre on the continent. We have become the armory, and the bread-box of our allies and we have called a host to the colors whose needs alone will total billions of dollars in food and raiment and weapons. The hugest sum of money that ever poured from this country's treasury is about to flood the United States. There will be work for everybody and everybody must work.

Get busy and keep busy. Hire new help, enlarge your plant, order machinery at once. The government isn't counting expenses, but minutes. Patriotism is flooding Washington with ready cash and Washington is shipping it in carload lots to the manufacturer and retailer. An unprecedented era of prosperity is around the bend.—Boston Herald.

DON'T LET YOUR COUGH HANG ON. A cough that racks and weakens is dangerous, it undermines your health and thrives on neglect. Relieves it at once with Dr. King's New Discovery. This soothing balsam remedy heals the throat, loosens the phlegm, its antiseptic properties kill the germs and the cold is quickly broken up. Children and grown-ups alike find Dr. King's New Discovery pleasant to take as well as effective. Have a bottle handy in your medicine chest for gripe, croup and all bronchial affections. At druggists, 50c.—A-2.

Township board reserves right to reject any or all bids. Bids should be in by June 2nd. 5-26-17. COPPER RANGE COMPANY. A quarterly dividend of \$1.50 per share, being Dividend No. 29, and an extra dividend of \$1 per share, being Dividend No. 30, will be paid on May 31, 1917, to stockholders of record at the close of business on May 25, 1917. W. W. PAINE, Treasurer. Boston, May 15th, 1917. 5-16-19-25-26-30 6-2-6. Lower State Notes. FLINT—Prosecutor Roy E. Brownell personally headed a raid upon alleged blind pigs and disorderly resorts in Flint's Chinatown as a variety street, one block long, is known. As a result twenty-two persons spent Sunday in jail. The assortment of charges against them includes illegal sale of liquor, intoxication, disorderly conduct, etc. ANN ARBOR—Dr. Udo Wile, Dr. C. L. Washburn and Dr. Harry Malajan, all members of the faculty of the medical school of the University of Michigan, received orders to report June 1 at Fort Benjamin Harrison. Dr. Wile holds a commission as major in the medical corps of the army, while Dr. Washburn and Dr. Malajan are captain and lieutenant, respectively. To meet the increased demand instructions in the pathology and bacteriology of infectious and diseases similar peculiar to modern warfare, courses in the pathology of camp and trench infections, hospital infections, trauma, repair, military occupations and bacteriology trench and camp infections will be offered during the summer school of the university, beginning July 2. EAST LANSING—Theodore Roosevelt should be allowed to place the American flag on the western front and we should not stop there, but place the stars and stripes on the eastern, Austrian and all fronts as soon as possible," said Bishop Theodore Henderson, delivering the baccalaureate sermon at the M. A. C. "The United States was forced into this war for the defense of humanity and it is not only the duty of America to train an army, but to train a nation as well. Universal training is essential. You members of the class of 1917 have one of the greatest opportunities to show your greatness and to dedicate yourselves to God and humanity. Those who return to the farm to help increase the production of food, without any mercenary motives, will be just as patriotic as those who go to the firing line. The engineers will build thousands of merchant ships, but we must have something to put into these ships when completed to help feed the starving nations. Both the boys on the farms and in the trenches will be needed to win the war."

Copper Country

BALTIC MINING CO. NOW IS DEFUNCT

Decree Handed Down by Judge P. H. O'Brien Finally Winds Up Concern's Affairs.

The Baltic Mining company ceased to have a corporate entity yesterday morning by virtue of a decree handed down by Judge P. H. O'Brien in the circuit court.

The decree was in response to a petition by the stockholders of the company, the Copper Range company, which owns all the stock of the Baltic.

The Baltic Mining company was organized in September, 1907, and has since conducted the mining and milling operations of the Baltic, though the company has almost from the beginning been controlled and wholly owned by the Copper Range company.

The petition in this case was similar to that brought by the Trimountain Mining company, but the latter is still in litigation because of the opposition of United States Senator Willard Saulsbury, of Delaware, and Michael M. Foley, of Houghton.

ALUMNI REUNION TONIGHT. Graduates of Suomi College to Make Merry at Institution.

Suomi college, of Hancock, will be a scene of merry-making this evening when the annual reunion of graduates of the college takes place. This is an affair that for years has preceded the annual commencement exercises, and tonight's attendance promises to be the biggest in a decade.

Guests of the evening will be this year's senior class who will graduate tomorrow evening. The commencement exercises will take place at Germania hall and the program as previously announced in these columns will be carried out.

The class of 1917 will be enrolled tonight as a part of the alumni association. Members of the faculty, many of them graduates of the college, will be present. Relatives of several of this year's graduating class arrived in Hancock yesterday to witness the closing.

DEATH OF ITALIAN VETERAN.

John Bandoni, one of the earliest Italian residents of Calumet, residing there forty-four years, died yesterday. He was the last surviving charter member of the Calumet Italian Benevolent association, one of the oldest and strongest organizations of the kind in the upper peninsula. He was employed by the Calumet & Hecla for many years, retiring in 1908. He served under Garibaldi in the Italian army against Austria in 1866 and ever since enjoyed a pension from the Italian government.

ATTORNEY TO WED DETROIT GIRL.

Mrs. Edward William Cline, of Detroit, has announced the engagement of her daughter, Miss Esther Cline, to Carlos J. Jolly, of Painesdale. Mr. Jolly is assistant prosecuting attorney of Houghton county.

TO SAW TROUGH REEF LIGHT.

Arthur B. Champlain, former keeper of Passage Island light near Marquette, arrived in Calumet yesterday to take charge of the temporary light and siren at Saw Tooth reef, off Keweenaw point.

CALUMET COMMENCEMENT.

Superintendent Hall, of Calumet, announced yesterday that the high school commencement exercises will take place June 21. There are 115 members in the graduating class.

TRAVEL AMIDST THE SCENIC WONDERS OF THE GREAT WEST THIS SUMMER.

A vacation trip this year is almost a necessity in order to provide one with the rest and diversion which is most welcome at this time.

Let our experienced travel representatives plan a delightful western trip for you, one which will be unusual and surprising in the wealth of entertainment and interesting features it will offer.

You will enjoy a wide diversity of scenery, and your trip will include direct and de luxe railway travel and comfortable automobile tours through the national parks, bring you directly to the distinctive attractions to be found in the wonderful West, Colorado, Utah, California. The Pacific Northwest and Alaska can be included in a grand circle tour.

You should know also of the splendid opportunities offered for a summer's outing in the Black Hills of South Dakota. Join one of our personally conducted tours to Yellowstone National Park and Rocky mountain (Estes) National Parks, Salt Lake City and Denver, Colorado, which will be operated once per week commencing June 23, and affording a visit to "two national parks in two weeks."

Favorable rates and splendid train service. Any agent of the Chicago & Northwestern Ry will be glad to assist you in planning your trip and supply full particulars covering all details of travel. Ask for descriptive literature or address C. A. Cairns, general passenger and ticket agent, Chicago & Northwestern Ry., 226 W. Jackson St., Chicago, or M. W. Hollister, general agent, Houghton, Mich.

BASEBALL

Cleveland, May 29.—Cleveland played and won its first extra inning game of the season today, defeating Detroit in the tenth inning. With one out in the final round, Speaker singled, took second on an out, Guisto walked and Speaker scored when Harris doubled. It was Coveleskie's fifth straight victory and his fourth shut-out of the year. By winning Cleveland went into third place.

Score: R. H. E. Detroit . . . 0000000000—0 7 0 Cleveland . . . 0000000001—1 8 2 Batteries: James and Stange, Spencer; Coveleskie and O'Neil.

Boston, 2-9; Washington, 1-0. Washington, May 29.—Boston won both games of a double header from Washington today. In the first game Dumont held Boston scoreless until the ninth, when he was found for three hits. Boston pounded Harper hard in the second game, while Ruth was invincible.

Score: R. H. E. Boston . . . 0000000002—2 7 1 Washington . . . 000010000—1 6 1 Batteries: Leonard and Thomas, Agnew; Dumont and Henry.

Second game: R. H. E. Boston . . . 010071000—9 14 0 Washington . . . 000000000—0 6 2 Batteries: Ruth and Agnew; Harper and Almsmith.

Philadelphia, 4-4; New York, 0-3. Philadelphia, May 29.—Philadelphia won both games from New York here today. In the first contest the home team won by hard hitting, while Bush was effective and was given perfect support. McInnis, whose batting record for the day was six hits and a sacrifice in eight trips to the plate, won the second contest by driving in two runs in the eighth inning with a double.

Score: R. H. E. New York . . . 0000000000—0 6 2 Philadelphia . . . 003010000—4 10 0 Batteries: Fisher, Monroe and Nunnaker; Bush and Meyer.

Second game: R. H. E. New York . . . 1000000020—3 6 0 Philadelphia . . . 01000102—4 8 0 Batteries: Mrogridge and Walters; Noyes and Schlang.

Chicago, 4; St. Louis, 2. Chicago, May 29.—Felix's home run drive, which cleared the left field fence, following two singles in the first inning, gave Chicago a lead which St. Louis was unable to overcome, and the locals won the first game of the series.

Score: R. H. E. St. Louis . . . 000011000—2 5 2 Chicago . . . 300001000—4 8 0 Batteries: Groom, Hamilton, Rogers and Seaverid; Russell, Cloutte and Schalk.

NATIONAL LEAGUE.

St. Louis, 7; Cincinnati, 4. Cincinnati, May 29.—Cincinnati could not hit Watson and St. Louis won the first game of the series here today.

Score: R. H. E. St. Louis . . . 020210110—7 10 1 Cincinnati . . . 030100000—4 8 2 Batteries: Meadows, Watson and Gonzales; Ring, Knetzer, Ehler and Wingo.

TODAY'S GAMES.

(Note—Each team in both leagues is scheduled to play two games today.)

American League. Detroit at Cleveland. Boston at Washington. New York at Philadelphia. St. Louis at Chicago.

National League. Chicago at Pittsburgh. Philadelphia at New York. Brooklyn at Boston. St. Louis at Cincinnati.

YESTERDAY'S RESULTS.

American League. Detroit, 0; Cleveland, 1. Boston, 2-9; Washington, 1-0. Philadelphia, 4-4; New York, 0-3. Chicago, 4; St. Louis, 2.

National League. Cincinnati, 4; St. Louis, 7. All other games postponed because of rain.

American Association. Indianapolis, 1-0; Louisville, 6-1. Toledo, 8; Columbus, 0. Kansas City, 1; Minneapolis, 1. Game called on account of darkness. Milwaukee-St. Paul, no game; rain.

Liberty Loan

Backed By All the Resources of the Richest Nation In the World

A UNITED STATES Government Liberty Loan Bond is the safest investment on earth. It is backed by the total resources of the richest nation in the world. It pays an absolutely net income—it is practically as good as cash with none of the risk of actual cash.

No investment you hold can be safer and no other bond enjoys such a broad and ready market in case you wish to sell.

A PROFITABLE INVESTMENT. The last great government bond issue sold for par in 1898 and for 110 3/4 in 1900. So highly were these bonds regarded by investors that the Secretary of the Treasury only succeeded in buying back one-tenth of the issue when he offered redemption.

BE A GOVERNMENT BOND HOLDER.

The Liberty Loan offers an opportunity for you to become a government bondholder.

Investors! Put your money where it is tax exempt—in Liberty Bonds.

School Teachers! Liberty Bonds are as good as a pension. They are the safest investment in the world.

Married Men! Liberty Bonds are as safe as life insurance for your family. Uncle Sam never goes out of business.

Mothers! Buy a bond for the baby. Give him his start in life with Uncle Sam as a backer.

Young Business People! Get your financial start by putting your savings into a Liberty Bond.

Trustees! Relieve yourself of the worry of separate investments by putting monies in trust into Liberty Bonds.

Employers! Help your employees get ahead by loaning them money for Liberty Bonds.

Old People! Relieve yourself of financial worry and make sure of the safety of your estate by concentrating your capital in Liberty Bonds.

Organizations! Put your sinking fund where it will be safe and will draw interest—in Liberty Bonds.

Widows! Avoid the risk of business dealings about which you know nothing by investing in Liberty Bonds.

New Americans! Put your money where it will be safe—in Liberty Bonds.

Enlisted Men! Be sure your money is safe and benefiting those at home by putting it in Liberty Bonds before you go.

A SAFE NET INCOME.

Our Government has made these bonds exempt from all state or federal taxes, except estates and inheritances. They thus give an income absolutely net to you, regardless of the income tax. There are many investments paying a higher rate of interest which do not yield as much as 3 1/2 per cent net after all taxes have been paid.

SUBSCRIBE TODAY.

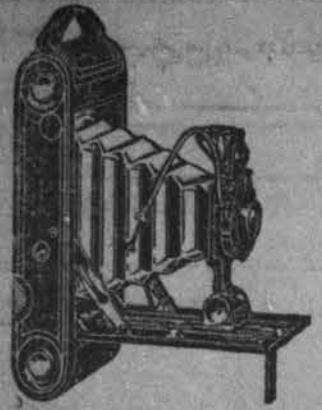

Subscribe for your Liberty Bonds today. Millions of dollars of Liberty Bonds have already been sold. If you have not the cash at present, borrow it from your employer or from the banks who are making a specialty of lending for this purpose. You can be a government bond holder if you will. Secretary of the Treasury McAdoo says: "The greatest immediate service the American people can render in this War for universal liberty throughout the world is to furnish the means for its vigorous prosecution. This bond issue is the first step. I earnestly bespeak the co-operation of every citizen throughout the length and breadth of the land in this great service of patriotism."

THE BEST BASIS FOR CREDIT.

Liberty Loan Bonds are the best possible basis for credit. When you need a loan you can present them to your banker and get the money you need. As soon as you repay your note, he will return the bonds to you. They will have been drawing interest for you the entire time. A Liberty Loan Bond is worth many times its face value in the credit it secures for you.

DETROIT

Lower State Notes

LANSING—The board of regular army officers which is hunting a site for a permanent division camp in either the state of Wisconsin or Michigan, has started its last week's work. The report must be in by next Saturday. Major Frank Wells, formerly the regular army officer stationed at the state military camp and of late mustering officer at Fort Wayne, passed through Lansing on his way to Jackson, where he will inspect a site with Major Ruckey. The medical corps member of the board is at Grayling to look over the state military reservation. Colonel Walter Rogers, the state quartermaster, left to join Major Ruckey there, although hardly anybody in the state offices has much idea that

Grayling will be chosen. It is considered here that if the camp for the division is awarded to Michigan some site along the east shore of Lake Michigan will be chosen. Grayling and other interior and northern central points are said to be too cold in the winter for permanent camps. Major Wells said that the hunt for the site has practically been narrowed down to about a dozen in the two states, but he would give no intimation as to what the chances of any one of them were. As far as any decision was concerned, the board had not even taken up the final discussion in regard to any one site. About ten or fifteen sites which were in waste lands of this state and Wisconsin had already been practically discarded, the major said, but beyond this nothing like a decision had been reached. "Many places we have been," said Major Wells, "do not seem to have any idea of the

magnitude of the government's plans. In many instances we had to explain to the local committees that the division of soldiers would be a larger population than the population of the town itself. If the entire camp were laid out on a table, so to speak, it would take 840 acres for the quarters alone, to say nothing of drill grounds, rifle ranges, etc., which must accompany the land."

LANSING—The captain, first sergeant and company clerk of each company in the national guard will be placed on duty about June 1 to prepare their outfits for the mobilization ordered by the federal government on July 15. The men will be placed on duty at the initiative of the state military board and the war preparedness board has guaranteed to pay them. The idea is to have the matters pertaining to each company in tip-top shape when the date for the actual mobilization arrives. The recruiting to war strength going on in the meantime will make the work of some of the officers necessary and the three selected are adjudged the best combination.

LANSING—This week is the last of the state tuberculosis survey so far as free public clinics are concerned. The anti-tuberculosis party will spend the week in Oceana county, holding clinics in Hart and Shelby. Next Saturday the public part of the two years' program will come to a close and all that will remain will be the gathering up of odds and ends of the work and the making of a detailed report of what has been done. Seventy of the eighty-three counties of the state have been covered in the survey. The thirteen counties that could not be visited for lack of time and funds are: Arenac, Gladwin, Oscoda, Lake, Missaukee, Roscommon, Ogemaw, Iosco, Alcona, Osceola, Crawford, Kalkaska and Benzie. Although the number of counties not visited is nearly one-sixth of the total number of counties, the total population of these left-over counties is only a trifle over 100,000, so that only about one-thirtieth of the people of the state were not reached by the survey. There are no cities of any considerable size in the counties not visited and, while the tuberculosis problem is big enough everywhere, it is not as pressing there as in the larger centers of population.

FOR THE GIRL GRADUATE. Come in and inspect our grand showing of new graduation dresses just received. Our prices are very reasonable. L. Getz Dept. Store. 5-29-17.

City Brevities

The Peter White Public library will not be open today. Gene Dayton, of Gladstone, spent yesterday visiting friends in the city. Captain and Mrs. W. H. Johnston and Mrs. H. S. Thompson, of Ishpeming, visited in the city yesterday. Miss Ida Ellola, of Hancock, has returned to her home after visiting friends in the city for the past few days. Nat Rowe, who has been teaching school in Oklahoma City, Okla., for the past several months, is visiting friends in the city. Jones & Frei, Marquette County agents for the Dodge Brothers car, have delivered a sedan model to John H. Lewis, proprietor of the Marquette Hotel.

Mr. and Mrs. A. J. Yunbluth, of Ishpeming, were in the city yesterday, enroute to their farm near Rumley, where they will spend the next few days. All the Boy Scouts of the city will meet in the Scout headquarters this morning at 8:45 o'clock to participate in the Memorial Day parade, which forms on West Ridge street at 9 o'clock.

The dance given last night by the Ukelele club at Bureau's Hall was a decided success their being about 50 couple in attendance, dancing was enjoyed from 9 to 1. Mrs. Weedman's orchestra furnished music for the occasion. A memorial service for the deceased members of the Knights of Columbus of Marquette council will be held at St. Peter's cathedral at 8:30 o'clock this morning. The members will assemble at the club rooms and will attend the solemn high mass in a body.

Program in Assembly—The Osiris Literary society, of the Normal school, gave a Memorial Day program in assembly yesterday morning. The program was made up of patriotic readings and musical numbers.

Registration in Progress—Fifty-three men, between the ages of 21 and 30, inclusive, have already registered for draft at the county clerk's office. These include both residents and non-residents, the latter including traveling men, sailors and others who expect to be absent from their homes on June 5, Duty Day.

Installs Butter Machine—Norman McLean has installed in his grocery store, on Third street, a Hobart combination peanut-butter and coffee-grinding apparatus, a recent invention. The heavy demand for peanut-butter, as a cheaper substitute for the creamery brand, encouraged Mr. McLean to make the investment. The device is the first of its kind to be installed in a Marquette store, and is already in operation.

Brought Hearty Response—The appeal for old clothes to aid work of war relief now being carried on by the Duryas War Relief committee in northern France brought a gratifying response yesterday. All day long a steady stream of bundles of old clothes poured into the Guild Hall, the headquarters of the committee in charge of the work. The committee members last night expressed themselves as highly gratified with the generous showing. The work will be continued today.

Has Bad Record—Ivan Montgomery, the young man who is held in the city lock-up on a charge of "jumping" a board bill at the Clifton hotel, and against whom several other similar charges have been made, from Munising, is a paroled inmate of the Ionia state prison, according to word received by the authorities here yesterday. He was sent up from Menominee county for embezzlement, and was paroled from Ionia during the latter part of April, last. He is being held here awaiting word from relatives. Concerning his case a recent issue of the Menominee Herald-Leader says: "Ivan Montgomery, twenty-four years old, who was in trouble with the authorities in Menominee several times, and who was finally released on parole with John J. O'Hara, as his 'best friend' has evidently betrayed the local lawyer's confidence, for he is now in trouble again at Marquette, charged with 'jumping' a \$27 board bill."

Situation Affects Program—Indications are that Marquette's road-building program for this season is going to be hit by the same conditions which have already affected various other communities throughout the country. Labor, both skilled and unskilled, is unusually scarce. Some of the skilled mechanics which have been employed by the city have already enlisted in the branches of the army which affords them an opportunity to work at their trade, and it is a difficult matter to replace them. It is unlikely that the re-building of the stretches of road on Washington Street, between Fourth and Park Avenue, and on Lake Street, between the gas house and the old Carp furnace, will have to be abandoned, although no definite action has yet been taken. Likewise, every community in the country is being urged to conserve its resources, as a patriotic duty, and to cut down improvement programs as much as possible.

RECOMMENDS CHAMBERLAIN'S. "I take pleasure in recommending Chamberlain's Colic, Cholera and Diarrhoea Remedy, having used it in my family for the past thirteen years. I have tried other remedies, but Chamberlain's is the only one that ever gave me permanent relief. We are never without it even when on a visit or summer outing, and I cannot say too much in praise of it," writes Emerson Demerec, Harpursville, N. Y. Obtainable everywhere.—Adv.

Get one of those fine gingham house dresses for 88 cents, all sizes and patterns at L. Getz Dept. Store. 5-29-17.

"HOLY CITY" SATURDAY.

Rendition of Sacred Cantata, by St. Paul's Chorus Choir, is Postponed. The date of the singing of Gaul's Holy City, by the chorus that has been rehearsing at St. Paul's church for some weeks past, has been changed to Saturday, June 2. About fifty of the best musicians of the city will take part in the various solos, duets, trios, and choruses that comprise the cantata. Solo parts will be taken by the following: Miss Grace Zerbel, Miss Kate Snell, Miss Flora Retalio, Mrs. Nellie Dump, Miss Marie Harkin, Mrs. Arthur Twining, Mrs. James Norton, A. W. Jones, E. E. Austin, Percy Quinn, and C. A. Abby. The accompaniment will be taken by Mrs. J. W. Weston, pianist, and A. P. Hamby, organist. The performance promises to be one of the best that has ever been given here by local talent. The music of the cantata is rich in melody, and is very popular among choral organizations, although it has not been heard in Marquette for more than fifteen years. The cantata is a musical interpretation of St. John's vision of Heaven. The first part suggests the contemplation of the apostle as he looks forward to the glories of paradise and expresses his desire for the higher life. The second part hints of the sublime worship and adoration of the angelic hosts above. The program will begin at 7:30 o'clock and the collection taken will go to the war relief work of this city.

Theatrical

At the Delft. "Each to His Kind" will be repeated tonight at the Delft theater.

The famous Japanese actor, Sessue Hayakawa, will take the leading role, that of an East Indian. Those who have seen Hayakawa, in some of the other productions in which he has starred, cannot speak too highly of his portrayal of the emotionless Jap. In "Each to His Kind" he has to change from his naturally stolid appearance and become an emotional prince of India. This picture is rich in the depicting of the oriental scenes and makes a vivid contrast with the English society and customs.

At the Opera House.

Bessie Love will be seen in "A Daughter of the Poor" at the opera house this afternoon and evening.

The character played by Miss Love in this feature differs from any she has done heretofore. She takes the part of a girl who has inherited a small toy shop, as well as a lazy uncle, who is himself shiftlessness personified and hates all people with money. He spends a large part of his leisure influencing his niece to believe as he does. The natural result is that Bessie develops an unusual affection for poor people and an intense prejudice against the other luckier ones who are able to live beyond the reach of want. Her struggle between love and "duty" when she finds that the man she has given her heart to is a millionaire's son instead of a chauffeur, as she had believed, results in an amusingly dramatic situation. With a keen appreciation of the requirements of the part, Bessie Love again proves her right to be considered one of the natural stars of the screen.

As a special program, in the afternoon only, there will be shown in addition to the regular program "Max Comes Across," featuring the great European comedian, Max Linder. A novelty musical act will be presented by Alex Duo, an exceptional vaudeville artist.

INSURE WITH PETER WHITE & CO. NEW WAISTS JUST IN.

Ladies shirt waists in all the new materials and in the latest styles and colors, now ready for your inspection. L. Getz Dept. Store. 5-29-17.

DEMAND FOR SUGAR OFF.

Paris, May 29.—The demand for sugar in Paris has fallen to one-third of what it was before the card system was adopted. Advocates of the system conclude from this result that the cards have imposed frugality. They ask for the extension of the system to meat, bread, coal and gasoline. It is asserted, however, that this reduced demand for sugar is not necessarily due to decreased consumption.

Most housewives, anticipating the introduction of cards, had laid in a supply that will last another month or more. A great many retail dealers, grocers, bakers and butchers are in favor of the card system in preference to meatless days and other restrictions that disturb the routine of business. They contend that it is the only effective means of effecting real and substantial economies. Meatless days, they say, would result in considerable wastage through the disorganization of shipping during the heated season.

THE "NATIONAL SHOE"

Paris, May 29.—All Paris is talking of the "national shoe"—a uniform style of economical footwear intended to cheapen prices and save leather. The government is considering a project of this kind, but it is not so comprehensive as the general public supposes. It is proposed to adopt a uniform style of cheap shoe for the benefit of refugees and people in modest circumstances who are unable to pay fifty francs a pair. Expensive shoes with high tops for women will still be made for those who are able to pay for them.

CHAMBERLAIN'S TABLETS.

Fred E. Hunt, of Seneca Falls, N. Y., says: "I have no hesitancy in recommending Chamberlain's Tablets for the stomach and liver for they proved to be the best medicine I ever used." Obtainable everywhere.—Adv.

Tickets can be found at Marquette Opera House Box Office.

Champion Swimmer Weds Girl Whose Life He Saved.

New York, May 27.—A Boston romance culminated in the Municipal Building here when Lidger Gagne and Louise King said their "I do's" before Deputy City Clerk M. J. Cruise. In one way their story really begins a dozen years ago, when a freight car ran over Gagne, cutting off an arm and a leg. Gagne bravely went to work to be at his handicap, and within the last few years has made himself recognized as one of Boston's best swimmers. He has won many medals and championships. Lolling on Revere Beach one day last summer he heard a scream. Gagne swam swiftly to the spot, dived and brought up Louise King. After an hour of desperate first-aid on the beach she was revived. The romance followed.

Lake Superior & Ishpeming Railway Munising, Marquette & Southeastern Railway DECORATION DAY EXCURSION RATES. Fare and one-third for the round trip between all stations, except that between Marquette and Negaunee or Ishpeming the round trip rate will be fifty cents. Tickets will be sold on May 29, 30 and 31; good for return to and including May 31, 1917. Summer schedule goes into effect Sunday, May 27, 1917. Trains will be run Sundays to and from Munising, Princesburg, Big Bay, Ishpeming and intermediate points. Trains leave Marquette for Big Bay and intermediate stations: Week days, 9:25 a. m. and 12:30 p. m.; Sundays, 8:50 a. m. 5-29-17

Man Power Plus Dollar Power Is Your Country's Need

The men will be raised and the Government
is now calling for the money by means of the

LIBERTY LOAN

with which to equip the men and supply
the sinews of war in general.

If you can't bear arms, you can buy bonds.

The Liberty Bonds will be issued in amounts
as low as \$50.00 and the undersigned banks
of Marquette County will assist their patrons
in buying by advancing the money to cover
the purchase, allowing them to pay 10% on
each \$100 bond, charging only 3½% interest
on the unpaid balance. 3½% is the interest
the government will pay on the bonds so the
face value is all the purchaser really pays.

The purchase of at least one bond of
\$100 is every citizen's patriotic duty.

ASHTON V. BYRNS DIES IN ROCHESTER

Former Ishpeming Man Passed Away at Hospital There, After Long Illness.

Ashton V. Byrns, second son of Charles J. Byrns, died Monday in Mayo Bros' hospital, Rochester, Minn., where he had been a patient for the past week or so.

Mr. Byrns had been in poor health for the past several years, having been afflicted with heart trouble. Last year he spent some time in Chicago, receiving treatment from a specialist. Later he went to Mayo Bros' hospital, and he appeared to be considerably benefited by the treatment he received. The doctors told him he had a slight chance of recovering, if additional complications did not occur. He returned to his home at the Soo feeling considerably improved, but a month or so ago he began to fail and he went to the hospital for further treatment. His condition grew worse after he arrived there, and the Mayo Bros. gave very little hope for his recovery.

WORK IS STOPPED AT FORBES MINE

Decline of Demand for High Phosphorous Ores Leads to Closing of Property.

The Jones & Laughlins company has discontinued operations at its Forbes mine at Iron River. The property may be idle for an extended period, as there is little or no demand for the high phosphorous ores which it produces. The Bristol mine, at Crystal Falls, has also closed. The Forbes worked a force of 100 men, and the Bristol about 150.

As practically all of the mines in the Iron River district produce high phosphorous ores, it is likely that there will be other suspensions, or at least a considerable reduction of working forces. High phosphorous ores are used almost exclusively in the manufacture of foundry iron, and the low phosphorous ores, which are produced in other districts of the Lake Superior country, are used in the manufacture of steel products. Steel is in unusual demand at this time, and there is very little demand for foundry iron.

Clean House In Half a Morning

The modern woman doesn't need a whole week for spring house cleaning. The electric vacuum cleaner has solved the problem. No more back-aching rug-beating. The new electric cleaners will clean them better and quicker where they are. Let us tell you how you can save the expense of one of these magic servants the first month you've used one. Our plan is simple—it has made hundreds of women grateful already this season. Why not you?

Markets

Efforts of short interests to depress prices unsuccessful. New York, May 29.—Efforts by the short interests to depress prices in today's irregular market met with indifferent success, the list rising briskly in the last hour and wiping out many early declines of one to three points.

The Russian situation, as disclosed by overnight advices, was one of the developments put forward by professional traders to affect values. Initial prices were one to two points under yesterday's close. United States Steel was among the first to yield, dropping two points in the first hour. In the last fifteen minutes steel crept slowly up to 13 3/4% and closed only a fraction lower, making a net gain of a point. Other industrials of like description made almost proportionate recoveries. Total sales amounted to 1,025,000 shares.

BOSTON COPPERS.
Ishpeming, Mich., May 29.—While prices early were weak and lower, markets today closed buoyant. The steel shares started the rally, Steel common advancing 3 points from its low of 130 1/2 while Crucible Steel advanced 4 points from its low of 77. The markets are in a very strong position and it looks as if the reaction is over for the time being. We firmly believe we will see very much higher prices in the next few weeks. Copper and metal prices were advanced today. It is stated there are urgent inquiries for early delivery. Alouez declared a quarterly dividend of \$3.00 payable July 3rd to stock of record June 13th. The porphyry coppers will announce their dividends Friday. Ahmeek should also declare this week. Butte & Superior's report for the quarter ending March 31st indicated a profit of only \$1,061,020 as against \$2,309,068 in the previous quarter. About 5,000 tons a month less were mined and treated during the past quarter. Corn products and Crucible Steel look like favorites while Kennecott is one of the best coppers to pick up. No markets tomorrow "Memorial Day".
J. A. MINNEAR & CO.

CHICAGO GRAINS.
Chicago, May 29.—Wheat closed unsettled today.
July opening, 20 1/2; closing, 20 1/2; September opening, 18 1/2; closing, 18 1/2; July corn closing, 130 1/2; September, 126 1/2. July oats closing, 57 1/2; September, 51 1/2.

CHICAGO PRODUCE.
Chicago, May 29.—Butter lower; creamery, 37 1/2@42. Eggs higher; receipts, 41,434 cases; firsts, 34@34 1/2; ordinary firsts, 30 1/2@31 1/2; at mark, cases included, 32@34 1/2. Poultry alive lower, fowls, 18 1/2.

TO PLAN FOR FOURTH.

Women Will Meet Tomorrow Evening To Discuss Plans For Children's Parade.

A meeting of women from the several wards will be held this evening, at 8 o'clock, in the council chamber, for the purpose of discussing plans for the patriotic parade to be held on the morning of the Fourth. Committees for each ward will be named to organize the children, as well as adults, who will take part in the parade. Ishpeming has had some wonderfully fine children's parades in the past, but it is expected that the one on the Fourth will surpass any previously held here.

The general committee has appointed Miss V. Winifred Lacey chairman of the women's and children's division. Miss Lacey had general charge of the children's parades during the homecoming celebration in 1912, and during the upper peninsula firemen's tournament in 1914.

Parade Pictures Saturday.

Manager Butler, of the Ishpeming theater, has been asked to show the motion pictures of the parade held here three years ago in connection with the matinee and evening performances next Saturday, so that adults and children may have an opportunity to get ideas from the parade given at that time. The children of the city will be greatly interested in the picture as they will be able to see themselves as they appeared at that time.

The parade pictures will be given in addition to the usual program, without any extra admission charge.

SALESMAN POISON VICTIM.

A. E. Frankie, a Milwaukee salesman, who was well known in this section, died Monday in Milwaukee from pneumonia poisoning. He was taken ill one day last week in Escanaba and after remaining a couple of days in Francis hospital there his condition was improved, and he was removed to his home in Milwaukee, where he died shortly after his arrival. Mr. Frankie traveled in the upper peninsula for several years.

Mrs. John Graham of Bessemer is visiting Mrs. Will Mufgr.

THEATRICAL.

There will be continuous matinees this afternoon, commencing at 2:30 o'clock, at both the Ishpeming and Butler theaters. "The Adventures of Buffalo Bill," with Colonel William F. Cody, the famous scout, in the title role, is the offering at the Ishpeming, with vandyville, an excellent novelty musical sketch by McRay and St. Clair.

In the "Adventures" five thousand troops and Indians are pictured in battles on the varied sites of the battlefields where Colonel Cody won his great renown. The killing of the Indian chief, Tall Bull, the capture of Sitting Bull, the fighting in the Bad Lands, "Buffalo Bill's" perilous knife duel with Yellow Hand, chief of the Ogallala, Red Cloud's hand, all of historic record, are portrayed in the picture. Scenes of Colonel Cody's later life, up to the time of his death, also are shown. One picture him with the prince of Monaco owner of the Rockies, a few years ago.

Earle Williams, of the Vitagraph company, will be seen both afternoon and evening at the Butler theater in "Arsene Lupin," a thrilling story that has been read by thousands.

WORLD'S GREATEST SHOW.

One of Chicago's Leading Dramatic Critics So Characterizes "Intolerance."

"The World's greatest show" is what Ashton Stevens, Chicago's leading dramatic critic, termed D. W. Griffith's latest success, "Intolerance," which commences a two day's engagement at the Ishpeming Theater next Monday.

The theme of "Intolerance" is love's struggle throughout the ages. The action of its four episodes takes place in ancient Babylon, Medieval Paris, Judea of the time of the Nazarene, and a modern American city. There are three love stories and each story has its own set of characters. Its cast, the largest one ever assembled for any stage production—125,000 people took part in it—numbers as principal players some of America's most famous film stars.

Words are inadequate to describe this stupendous work. One episode alone, (the Babylon one), cost more than any entire spectacle heretofore presented in a theater. Never before have scenic backgrounds to equal the gigantic palace of Belshazzar, the temple of Bel, and the mighty walls of Babylon; been constructed for any stage offering. Ancient conflict, waged with catapult and battering ram, cross-bow and flaming engine, siege tower and liquid fire, Mr. Griffith's reproduces as warfare was never before presented anywhere.

The principal players of the world's largest cast are Mae Marsh, Lillian Gish, Miriam Cooper, Constance Talmadge, Bessie Love, Seena Owen, Margery Wilson, Robert Harron, Alfred Paget, Elmer Clifton, Tully Marshall and Walter Long. A symphony orchestra will interpret the score.

"PEACE AND WAR."

Noted Lecturer Will Give Address at Ishpeming Theater Sunday Evening.

David Goldstein, secretary of the Boston School of Political Economy, will give a free lecture Sunday evening, commencing at 8:30 o'clock, new time, at the Ishpeming theater on "Peace and War," under auspices of Ishpeming council, Knights of Columbus. At the conclusion of his address, Mr. Goldstein will answer any questions asked him.

Speaking of an address in San Francisco, the Monitor, of that city, said: "There were 3,000 people in Dreamland pavilion last night. That immense auditorium and its spacious galleries were packed to the doors. Hundreds were obliged to stand; many were turned away. The sea of humanity that greeted the speaker when he stepped forth must have been an inspiring sight to him. To a less courageous man the knowledge that hundreds of his sworn enemies, the 'Reds,' were also gathered there, come to defy him and cry him down, might have been disconcerting, to say the least. But to Goldstein, 'the more merrier.' There never was a crowd of Socialists big enough yet to do anything but sharpen his wit the keener, and reinforce his daring all the more."

"Goldstein's lecture was more than a lecture. It was a spectacle and a debate—one man against hundreds. The air was surcharged with the electricity of the conflict. The dramatic suspense was keener than in the most breathless play. To see that little Napoleon of the platform marshalling his forces—'facts, facts, facts'—against the guerrilla warfare of his enemies, and mercilessly mowing them down till they were flattened like a wheatfield after a cyclone, was an intellectual treat."

NO NON-RESIDENT BLANKS HERE.

A number of non-resident young men in the city who are between the ages specified for registration under the provisions of the selective draft bill, are at a loss to know how they are going to register inasmuch as no non-resident blanks are available. Because of this those whose homes are in distant cities may be unable to have their names registered on the fifth, although several plan to make affidavits next Tuesday, in the event blanks are not received and have them forwarded to the sheriff or clerk in their home counties.

"Y" MEETING AT ESCANABA.

Hubert Jarvis, of this city, who served in the national guard on the board, will give a talk at a public meeting, to be held tomorrow evening at Escanaba for the purpose of raising funds for the "Y" war work. Mr. Jarvis will tell what the association did for the soldiers on the border, Captain E. J. Sharp, of Grand Rapids, who spoke here last week, will also give an address and Miss Mabel Wilkinson, a Red Cross nurse, who recently returned from France, will be among the speakers.

E. J. Townsend, who is secretary of the War "Y" committee in this county, may attend the meeting.

WANTED—Boy at the Superior Bakery.

FOR SALE—Hard coal heater in good condition. W. E. Turner, Third and Pearl Sts., Ishpeming. 5-25-21

HEAR YE! CITIZENS of ISHPEMING HEAR YE!

MASS MEETING IN ARMY Y. M. C. A. AT CARNEGIE LIBRARY AT EIGHT O'CLOCK.

Mr. J. R. Thompson will speak for the boys in service. Come out and do your bit. Get on the band wagon and do it now.

Do not neglect to read Skud's Special Advertisement in tomorrow's paper.

ISHPEMING IN BRIEF.

William Zetter, a well known resident of Republic, was in the city yesterday.

William Harris of the Lake Argonne, left yesterday for Iron River to visit his uncle, Captain Harry Sleeman, and family.

The Carnegie Public Library will be closed today, and commencing June 1 the library will close at 8 o'clock, instead of 8:30.

Judging from the heavy clouds of smoke that hung over the city yesterday, there are some bad forest fires south of here.

Dr. S. G. Main is spending the week in Chicago, attending the meeting of the Danlop Pyorrhea Research society, of which he is a member.

Boy Mathews, manager of Solwood & Co's dry goods store, has an appropriate window display for Decoration Day, which has created considerable favorable comment.

Rev. Lewis Keast, former pastor of the Salisbury Methodist church, for the first two years pastor of the church at Salisbury will preach at the Salisbury church next Sunday morning and evening.

The offering at the Butler, where the performance will begin at 7 o'clock, will

LADY COLEBROOK.

Lady Colebrook, who has been the most active in war relief of any of her countrywomen since her arrival in America from England, more than a year ago, is now doing "her bit" for the war sufferers abroad by working as saleswoman in a millinery and gown shop in New York. She is toiling nine hours each day and cooking her own luncheon with the other shop girls in order that she may supply her suffering countrywomen with food and Red Cross supplies.

Lady Colebrook is the wife of Lord Edward Arthur Colebrook, of the British army, and her only son and heir to the baronetcy, Sir Guy Colebrook, is an officer on board H. M. S. Tiger, Sir David Batty's flagship—Detroit Free Press.

Upper Peninsula

Jumped Through Car Window.

A bruised head and a sprained wrist are the only evidences on the person of Charles Haakala to show that he jumped through the window of a passenger train on the Chicago & Northwestern while the train was running at a moderate rate of speed between Bessemer and Siemsen. Haakala was being taken from Marquette to Ironwood to consult a physician regarding his mental condition, and when his traveling companion, John Niemi, was not looking, he hastily opened the car window and leaped through it. A section crew sent from Ironwood to pick up what it was thought remained of Haakala found the man entirely whole, nursing a few bruises and a sore head, in the woods a short distance from where the daring leap occurred.

Power Truck Does Good Work.

The power fire truck has a couple of times saved its cost in property in this city, and it saved many times its worth when the big forest fire that hissed and rolled out in the swamp to the southeast of the Carpenter mine threatened to burn up everything in wood construction at the mine, says the Crystal Falls Diamond Drill. A strong south wind blew the embers of the previous day into a flame that rolled through the timber like a hot knife through a print of butter. Slowly, but surely, it swept on towards the Carpenter mine, which is surrounded on three sides by a dense swamp. The officials at the Carpenter early in the day came to the conclusion

that they were in for trouble and men were sent to do what human effort could to stem the advance of the flames. Instead of dying down, towards evening the wind kept increasing in velocity, and about 7 o'clock a call was sent in for assistance and the truck was ordered sent to the mine and attachment was made to the water main that extends from the city to the Carpenter property. The firemen remained at the Carpenter during the greater part of the night, leaving there only when the flames had been thoroughly checked.

Passports Are Now Required.

"If business continues as poor as it has been since Friday afternoon when orders in council went into effect making it necessary for every man of military age leaving Canada to get a passport from the immigration department, the ferry company will be forced to go out of business," said A. E. Pickering, manager of the International Transit company, operating the ferry between the two Soos. The details of two immigration officers at the ferry dock was reduced to one by Thomas M. Ross, chief inspector. Each trip of the ferry from Canada brings from four to five women, but no men. Usually, the majority of passengers are men. When the new order went into effect, under the direction of Special Immigration Inspector Reynolds, the rush of applicants for passports was so heavy that the officials were unable to handle the crowds. A temporary passport was issued and the situation cleared. Even the train crew of C. P. R. E. trains running into the American Soo are obliged to have passports. An inspector at the depot in the Canadian Soo is refusing to pass passengers bound for United States

LOCAL LACONICS

The dry goods stores in the city will close today at noon.

T. A. Thoren was a business visitor yesterday at Marquette.

Walter Farrer has taken a position as clerk in A. J. Bie's store.

The Order of Owls will give a patriotic dance tonight in Kirkwood's hall. Holmberg's five-piece orchestra will furnish the music.

The funeral of the late Walter Webb, who died Saturday morning at Duluth, was held yesterday morning from St. Paul's Catholic church.

Mrs. Godfrey Trotochoud, Sr., left yesterday afternoon for Detroit, where she will spend a few weeks visiting with her daughter, Mrs. Henry Phillips.

Thomas Morrisette, who was one of the Negaunee young men to enlist in the Upper Peninsula Engineers' battalion, returned yesterday afternoon from the copper country, where he attended the inspection of the battalion.

cities, unless they are able to qualify for a passport. Americans who work in the Canadian Soo are having no trouble securing passports, neither are Canadians employed on this side being detained. Permits are only given those who have legitimate business on this side.

Auto Thief Arrested.

One arrest has been made and more are expected to follow as a result of the theft of automobiles for joy rides at Escanaba. It is likely the youth taken Saturday by the police authorities will be punished. Just what steps will be taken have not been announced. Auto thefts are punishable by from six months to several years in the penitentiary. The police are resolved to do everything to halt the work of the thieves and prosecutions will follow, even if the car is driven but a single block.

No Probate Judge Yet.

The contest that has been on since the death of Judge Lotf for the position of probate judge of Iron county is not settled yet, although it is generally conceded that A. F. Dixon, of Iron River, has the inside track. The contest has now narrowed down to a three-cornered fight between Dixon, Ritze and Caswell. Mr. Dixon is understood to have the backing of Representative O'Brien, of this district, and also the endorsement of Senator Roberts. Judge Ritze has the backing of the mining operators in the Iron River district, and is a lower peninsula man well known to some of Governor Sleeper's friends. Mr. Caswell has the backing of Senator Moriarty and of the people on this side of the county who know him. There is no ill-feeling engendered in the contest unless it is between the members of the legal profession, as no one not an attorney is eligible to the position of probate judge in this county. Senator Moriarty went to Lansing in the interest of Mr. Caswell, and at the same time Mr. O'Brien went there in the interest of Mr. Dixon. It is understood that a gentleman representing Mr. Ritze visited Lansing last week, so the governor has had all the views and virtues of the several applicants laid before him.

Cars Crashed in Menominee.

An accident occurred near the German church in which automobiles belonging to two prominent Menominee county men met amidships, and threw the occupants from the cars. Charles De Melle, Sr., well known Stephenson man, was driving his car south on Jenkins street and the auto of Barney Nadeau was going up Ogden avenue. The cars reached the corner at the same time and the accident resulted. Patrolman Jossart was doing traffic duty at Ogden avenue and Broadway. He saw the collision and went to the scene. He found that Mrs. Nadeau and three of her daughters had been thrown out of the car. Mrs. Nadeau was badly shaken up, but only slightly injured. The daughters were uninjured, but were badly frightened. Mrs. Nadeau was taken to the office of Dr. E. V. McComb, where she was given medical attention. She was soon able to leave for home. In the De Melle auto, Francis Baldwin, one of the Wilson-Henes company employes, was sitting beside Mr. De Melle and three of the Baldwin children were in the tonneau. No one in this car was injured. The cars were taken to a garage, where repairs were made, and the two parties resumed their journeys homeward.

Negaunee Department

2,000 WILL MARCH IN BIG PARADE

Memorial Day Program Is Completed and Final Arrangements Are Made.

The Memorial Day program today will probably be one of the largest held anywhere in the upper peninsula. It is expected that over 2,000 will be in the parade which will form on Merry street promptly at 1 o'clock.

Since the publication of the list of societies who will participate in the day's observance several more have been added which will bring the list of fraternal organizations in line to twenty-five. Besides the fraternal orders there will be several patriotic orders: The Ishpeming Home Guards, made up of over 100 young men; the Ishpeming Drum and Bugle corps, with twenty members; Negaunee Boy Scouts and the Flower Boys' brigade. The Negaunee city band will head the parade, followed by the members of the city council and city officials in automobiles. The members of the fire department will be in line in uniform and the supervisors of the city will also turn out.

There will be three bands, Negaunee City, Star and Vaapa's Famous Italian band, of Ishpeming. With the bands and the drum and bugle corps there will be plenty of music during the afternoon. The members of the various lodges will be assigned to their places in line by the marshals, Dr. B. J. Miller and Harry S. Nightengale.

Marshal John A. Wasmuth will have the entire police force on duty during the afternoon to keep order while the parade is being held. The police department will make a determined effort to keep the streets on which the procession will traverse free from moving automobiles. "Everything will be run off on schedule if the auto owners obey instructions," said Marshal Wasmuth yesterday. "I will have my men out and they will prevent car owners from parking on the streets along the line of march. We are going to do everything we can to prevent accidents and I trust that automobile owners will co-operate with us."

Cars coming from Ishpeming must pass up the Gold street road and continue east as far as Silver street. Machines going to Ishpeming will go by way of Gold street.

The line of march today will include Iron street, Pioneer avenue between

Iron and Main streets and between Case and Peck streets, Main street as far as Mitchell avenue and on Mitchell avenue as far as Case street. The parade will go on Case street as far as Pioneer avenue and from there will go to the high school where the ranks will be broken.

The city school officials are making arrangements for the seating of a large crowd in the auditorium of the high school. Extra chairs will be placed and an effort will be made to accommodate all who wish to attend the ceremonies of the G. A. R.

SENIOR CLASS PLAY.

High School Students Will Stage Comedy Wednesday in Auditorium.

"The Private Secretary," said to be one of the funniest and cleanest farce comedies ever written will be presented Wednesday evening, June 6, in the high school auditorium by members of the senior class. The direction of the play has been under the supervision of Miss Siemen, a member of the high school faculty, who has had considerable experience in amateur theatricals.

The performance will begin at 8 o'clock and between the acts there will be musical specialties. Tickets are now on sale at Perkins' Drug store and the high school students are also disposing of them. The cast of characters, which is composed of members of the graduating class, is as follows:

Mr. Marsland—Arnold Chavette.
Harry Marsland (his nephew)—John Kaumainen.
Mr. Cattermole—Ephrem Chavette.
Douglas Cattermole (his nephew)—Elmer Arsoot.
Rev. Robert Spalding—Thomas Farrer.
Mr. Sydney Gibson (tailor of Bond St.)—Francis Edwards.
John (a servant)—Samuel Korhblum.
Knox (a wife server)—John Leverton.
Edith Marsland (daughter to Mr. Marsland)—Evelyn Casey.
Eva Webster (her friend)—Cecy Brunner.
Mrs. Stead (Douglas' landlady)—Sybil Bellstrom.
Miss Ashford—Nellie Nelson.

CULLIS MAKING GOOD.

Roy Cullis, a former Negaunee baseball player, "is burning up" the Head of the Lakes-Mesahe league this season with his hitting and general playing. "Cully" is a member of the Chisholm nine, which is in first place and in a game played Sunday against the Virginia club Cullis drove out a home run scoring two runs which won the game. In the Saturday game, which was a slugging match the former Negaunee player got two hits out of six trips to the plate. In the two games the Chis-

Telephone 21

holm team made thirty-four hits while Virginia got twenty-five safe blows. Inar Swanson, an Ishpeming boy, is holding down first base for Chisholm and Saturday he made five hits in six trips to the plate. In the Sunday battle he collected safely once.

"THOMAS H. INCE'S CIVILIZATION"

Manager of the Star announces Thomas H. Ince's million dollar spectacle, "Civilization," as the attraction at the Star theater on Saturday. "Civilization" is the last word in screen successes. When originally presented at the Criterion theater, New York City, it attracted the attention of every dramatic reviewer, clergymen and amusement seeker in the great Metropolis; in fact, it became the sole topic of conversation because of its message to humanity. It is not denied that "Civilization" was conceived and produced for the sole purpose of terminating the great war now raging in Europe. Neither can it be denied that it has had a potent effect in this direction, as witnessed by the comments of those responsible for the continuation of the strife.

SIX FOR NAVY.

Six well known Negaunee young men passed the entrance and preliminary examinations yesterday afternoon at the Ishpeming recruiting office. The boys expect to leave for Milwaukee, where they will take the final examinations,

either on Sunday or Monday evening when a big patriotic demonstration will be held. Postmaster Peter Trudell, Jr., will make arrangements for the demonstration today. The young men who enlisted yesterday were: John "Packey" Jennings, Eugene Boyer, Vergo Anderson, William Viant, William Stromer and Edwin Ethier. The latter enlisted as a first class fireman and will probably be sent aboard a ship as soon as he is accepted.

STAR TODAY.

George Walsh, will be seen today in a William Fox photoplay, "Melting Millions," which is the story of a man who wants to get rid of his money, but is kept from doing so by the rise of the woman who expects to marry him. Also two reel Fox film comedy, "The Cloud Puncher" to make 7 reel program. Matinee starting at 3 p. m.

HOW'S THIS?

We offer one hundred dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 35 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him. NATIONAL BANK OF COMMERCE, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75 cents per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.—Adv.

HAVE YOU HEARD OF THE WORLD'S GREATEST SHOW?

Out of the travail and suffering of the Civil War D. W. GRIFFITH reared an epic which won universal admiration and told the true story of the reconstruction period for the first time in stage history. The wonderful returns from this great success "THE BIRTH OF A NATION" provided the producer with the necessary funds to present his astounding creation

FIGURES SHOW CITY IS DOING ITS SHARE

Enlistments Believed to Compare Favorably With Other Cities of the Country.

Is Marquette doing its duty in the matter of enlistments? This is the question that has been asked again and again of its citizens, and which has caused much discussion since the declaration of war, and the subsequent opening of the army recruiting station in this city.

The records of the army recruiting officers stationed here show that since the opening of the station in the post-office building fifty-two men have been sent to Jefferson Barracks, Mo., from Marquette. While all of the recruits may not have been Marquette young men, it is safe to say that at least 40 per cent of the number had residence in this city. That is the city's contribution to the regular army alone.

There are now four Marquette young men at Fort Sheridan, training for commissions in the officers' reserve corps. They are Robert Peters, Walter Hadley, Henry Anderson and Ed Shauer. There are twenty-one Marquette men enlisted in the Michigan battalion of engineers, which was formally inspected and enrolled Monday, at Houghton, by a regular army officer. In addition several others, numbering probably ten or fifteen, have left to join the navy or some one of the various branches of the regular army, such as the signal corps, the aerial division, etc. These estimates are exclusive of former Marquette young men who have joined the service from outside points. The figures show that Marquette has done probably as much, comparatively, as any other city in the upper peninsula to build up the army.

Following is a full list of the men who have been sent to Jefferson Barracks, Mo., from Marquette, since the opening of the enlistment station here:

BRILLIANT SPEAKER TONIGHT

David Goldstein, of Boston, Will Be Heard At Baraga Auditorium.

The free public lecture on "Peace and War" by David Goldstein of Boston, under the auspices of the Marquette Council of the Knights of Columbus at Baraga Auditorium at 8 o'clock tonight promises to be one of the most interesting discourses heard in the city for some time.

Speaking of Mr. Goldstein's address in Troy, N. Y., The Record declared his defense of American institutions to be "one of the most remarkable demonstrations of a patriotic nature in the history of Troy from the earliest days down to the present time."

The work of Mr. Goldstein has been a great factor in defeating the Socialist administration of Flint, Mich., Belleville and Granite City, Ill., and Milwaukee, while his work in Massachusetts has played and still plays a great part in defeating the Socialist political propaganda. At the time that Mr. Goldstein resigned from the Socialist movement there were 40,000 votes polled by the Socialists in Massachusetts. Their poll has since been reduced to less than 10,000.

In Minot, N. D., Mr. Goldstein debated with Arthur LeSueur, now one of the five members of the National Executive Committee of the Socialists party. The Minot Daily Reporter declares Mr. LeSueur to be a "ready debater, a lawyer, and an orator second to no Socialist in the world in his equipment of scholarship, preparedness and oratorical ability to cope with the arguments of David Goldstein." The debate—before an audience of 3,000 persons—was the beginning of the end of Socialism in Minot, for it is now no more a factor. Besides Mr. LeSueur, who was expected to be the Congressional victor, has taken himself to other fields in another state. The Minot Democrat played the role of "I told you so." When Arthur LeSueur and other Socialists hounded David Goldstein to debate with the King of Ward Co. Socialists, the Democrat knew that Mr. LeSueur had not sized up his man. "We warned Artie as to just what he would get—but he would rush in where it was not wise for him to tread."

Mr. Goldstein is usually greeted with packed houses. His recent debate in Springfield, Mass., was attended by 4,500 persons, while thousands were turned away.

The public are invited to the lecture which will be held in the Baraga Auditorium at 8 o'clock. Admission will be free to all. Questions will be answered by the speaker.

LADIES SUITS NOW ON SALE.

This season's latest models in ladies' suits are now offered at marvelous reductions. Come in and investigate. L. Getz Dept. Store. 5-29-17.

LAST OF IMPRISONED BOATS MAKE HARBOR

Marigold Towed in With Broken Propeller—Columbia Tied Up at Big Bay.

Once more a small fleet of craft of various types has succeeded in freeing itself from the grip of the heavy ice off Marquette harbor, all of the boats, except the fish tug Columbia, making this port yesterday. The Columbia left early yesterday morning for Big Bay, and word of her safe arrival there came late in the afternoon. She had run short of fuel and, finding an open lane to the northwest, headed for Big Bay to take on supplies before attempting the return trip to her dock here.

The steamers Brown, Argo, Thompson and Warrior are in the lower harbor, and the Peter White, Steel King and the Michigan are loading ore at the L. S. & I. docks. The coast-guard cutter Marigold was towed into port late Monday night by the Durocher tug Thompson, and is now laid up at the Durocher dock for repairs to her propeller, which suffered considerable damage in the outgoing trip last week when she attempted to relieve the ships nearby the harbor.

No Change Yesterday.

Yesterday brought little or no change in the ice conditions off the harbor. Although the temperature rose considerably it was not accompanied by the long-looked-for south wind.

Already both the D. S. S. & A. and the L. S. & I. docks have suffered heavily from the delay in shipping. The loading of the steamer Brown yesterday with 7,219 tons of ore marked the first shipment for the season from the South Shore docks, as compared with a tonnage of 118,627 for the corresponding period last year. The L. S. & I. dock will show, to June 1, a shortage of about 500,000 tons, as compared with last year. Receipts of coal at both the Spear and Pickands docks are likewise far below those of last year. The situation has hit shipping from and to this port as it has never before been affected.

The steamer Thompson, which is now unloading coal at Spear's dock, is expected at the South Shore docks for ore today.

MURDER MYSTERY STILL UNSOLVED

Facts Surrounding Death of Former Local Boy Yet Unknown to Chicago Police.

The circumstances surrounding the murder of Grover Cleveland Henry, alias Fred L. Higgins, formerly of this city, and son of William Henry, of this city, still remain one of the mysteries confronting the Chicago police department. Although Henry's murder occurred some three months ago, the Chicago police have not been able to secure any clew by which they could bring the perpetrators to justice.

Commenting on the murder, in connection with two other murder mysteries, the Chicago Tribune yesterday had the following:

"Three entries on a card index in the detective bureau are typical. They mark the purgatory in which records of unsolved murders and burglaries must remain for a year before they are finally shelved in the obscurity of the 'unsolved crimes' pigeon hole.

"Fred L. Higgins, chauffeur, automobile thief, and race worker, was found murdered on a lonely stretch of the Jackson highway, south of Hammond, Ind., on the afternoon of Feb. 20.

"The one clew was a button on the trousers. Other marks of identification had been cut away. The button led to a tailor, and the tailor led to Valentino Del Guerra, Higgins' sweetheart. She gave the detectives information that turned suspicion against W. Palmer Sparks, the associate of Higgins, who has been missing since the day of Higgins' death.

"Since the hue and cry died down they have found the weapon with which Higgins was killed. It was dragged from under a step in a north side garage, with a checkroom ticket on the Morrison hotel that brought out Higgins' grip, long since missing. They have traced the revolver from the time it was issued by the Colts Arms company, through wholesale dealers in St. Louis and Milwaukee, into the hands of Higgins.

"Finally they have located a brother and the father of the missing Sparks. The brother, a bank employe, is Royce Sparks, of 6109 Walnut avenue, Philadelphia, Pa. The father, a retired farmer, lives in Wilmington, Del.

"On April 25 a letter was written to Royce Sparks from Baltimore, Md. The address appeared to be in the handwriting of W. Palmer Sparks. But the letter carried no information, and was allowed to pass unchallenged."

SOO CANAL PASSAGES.

Sault Ste. Marie, Mich., May 29.—(Special).—Upbound vessels passing the canal the last twenty-four hours were: Linden, Dimmick, 9 p. m.; Malletts, McKinney, Sonomet, 10:20; Campbell, midnight; Hagarty, Nottingham, 12:30 a. m.; Nettleton, Stadacona, 2; Newbold, Brazil, Bunny, 4; Garretson, Hydrex, 4:30; Beaverton, 5; Cooke, Stuart, Barnum, Oades, Underwood, Utley, 6; Elbert, Lynch, 8; Bangor, 11; Wilbert Smith, 11:30; Cygnus, Willis King, noon; Hamonic (old), Wolf, Saunders, Jr., 1 p. m.; Pontiac, Hart, 2; Edmondton, 2:30; William Livingstone, 3; Harvard, Marcia, Mack, 5:30; Allegheny, G. Quincy, Shaw, Nye, 8.

COAL BIDS WANTED.

Sealed proposals will be received at the Newberry state hospital, Newberry, Michigan, up to one o'clock p. m. of June 6, 1917, for furnishing the hospital's requirements for bituminous or semi-bituminous coal for the year. Proposals to cover six thousand (6000) tons or any part thereof. For Particulars address Dr. E. H. Campbell, Newberry, Mich. 5-24-17.

HEALTH OFFICERS ON 'FLY THE FLAG' IS CLEAN-UP 'RAMPAGE'

Are Ridding City of Health Hazards—Property Owners Given Final Warning.

Dr. A. K. Bennett, city health officer, assisted by Robert Hume, sanitary inspector, has begun an energetic clean-up campaign which bids fair to rid the city of many menaces to the public health. It is not a campaign of mere words, for notifications to property owners throughout the city have been sent out thick and fast, with the "do it now" warning attached. Some of these have already borne fruit.

A recent inspection of the Pioneer furnace location of Dr. Bennett and Mr. Hume brought to light conditions which have led to drastic action by the health authorities. Evidently the situation had not before been brought to the attention of company officials, for they have assured the authorities of prompt attention to the matter. As a result it is likely that a sewer system will be installed at the location, and that a general clean-up will be made there.

Dr. Bennett has also notified the owners of the Erei block, which was recently swept by fire, that they must at once take steps towards cleaning away the debris. In view of the approach of warm weather, and the fact that a bakery shop, a candy store and a restaurant had quarters in the buildings destroyed by the fire, the fly nuisance that the debris will give rise to, unless it is cleaned up, has been pointed out to the authorities as demanding urgent attention.

Similar measures are being taken with other property owners in various parts of the city, more particularly in the outlying districts. Every case reported is receiving prompt and thorough attention.

"The danger of disease from carelessly-kept premises cannot be over estimated," said Dr. Bennett yesterday. "One small district, improperly kept and unsanitary, threatens the entire community, particularly during the warm weather. The real hot weather has not yet set in, and we are taking these steps now to anticipate it and the dangers in its train. We find, in most instances, that bad conditions are not due to willful neglect on the part of the property owner."

The danger of disease from carelessly-kept premises cannot be over estimated," said Dr. Bennett yesterday. "One small district, improperly kept and unsanitary, threatens the entire community, particularly during the warm weather. The real hot weather has not yet set in, and we are taking these steps now to anticipate it and the dangers in its train. We find, in most instances, that bad conditions are not due to willful neglect on the part of the property owner."

SPRING CONDITIONS UNUSUALLY SERIOUS

Northern Michigan Forest Protective Association, However, Reports Small Loss.

Secretary Thomas B. Wyman, of the Northern Forest Protective association reports the seventh season of the association as having begun on May 10, with the following appointees as wardens:

H. W. Agnew, Soo Junction.
Thomas McIntire, Newberry.
J. H. Roundtree, Grand Marais.
Mike White, Steuben.
Ricus Guidebeck, Munising.
C. H. Slater, Munising.
Joseph Pelisser, At large.
Walter Cunningham, Winters.
Raymond Friedley, Winters.
James Parker, Eben Junction.
Edgar Henriksen, Yalmar.
Frank Farquhar, Gwinn.
William Rigstad, Iron River.
Charles H. Anderson, L'Ange.
Arthur Anderson, Fehle.
Wendelin Krich, Michigamme.
Edwin F. Sauberg, Ishpeming.
J. K. Nesbitt, Sidaav.
A. Kallander, Wakefield.
John Welsh, Greenland.
F. E. Krieg, Birch.
James Haskins, Koroelock.
William J. Weston, Bessemer.
Richard Henry, Ontonagon.
One Crane, Ontonagon.
S. B. Simpson, Chassell.
T. A. Kelly, Watersmeet.
Frank Tuttle, Skanee.
N. J. Ferguson, Matchwood.

The fortnight ending May 23 was, perhaps, the most trying period since private patrol has been established in the upper peninsula, as the constant north winds, frosty nights and bright, sunny days created conditions of an extremely serious nature. The customary spring rains did not occur, with the result that all open lands became so dry that fires would travel rapidly both with and against the wind.

While many fires were reported and large areas of slash were burned, the actual damage was comparatively small and was confined almost entirely to harvested material standing in the slash. There was very little, if any, damage to standing timber.

The constant demand upon the settler to clear land for cropping purposes led to an unusual amount of clearing, and the great majority of fires were escaped clearing fires.

The Northern Forest Protective association will appreciate the co-operation of the people of the upper peninsula both in preventing and reporting fires. Nothing of value can be destroyed without the entire community feeling, in a measure, the loss.

Although conditions have greatly improved, there is still danger, and this risk will continue until vegetation is well advanced.

'FLY THE FLAG' IS ASKED OF CITIZENS

Parade to Begin at 9 O'Clock—Dinner at Noon in Keough's Hall—Baseball.

In honor of the veterans of the G. A. R., and of the Spanish-American war, as well as to America's entry into the great world struggle, this day is dedicated. It is urged, therefore, that Old Glory be displayed from every residence, every building in the business districts and, in fact, every place where the colors will be seen to advantage.

The parade this morning will form on West Ridge Street, near the Peter White Public Library, at 9 o'clock. It is urged that the various organizations which have been asked to participate be ready to fall in line by at least 8:45 o'clock. The members of the Marquette Chapter, American Red Cross, will meet in the Red Cross shop, Pythian building, at 8:45 o'clock, and will proceed from there to Ridge Street.

According to present arrangements the parade will be participated in by members of Company M, Thirty-Third Michigan infantry, a number of fraternal organizations, school children above the seventh grade, the Red Cross, and the members of the G. A. R., residing in Marquette. The latter will ride in carriages.

The parade will move east on Ridge St. to Cedar, north on Cedar to Michigan, west on Michigan to Third, south on Third to Washington and east on Washington to the opera house, where the following memorial program will be observed:

- Music by the band.
 - Invocation—The Rev. B. G. Burt.
 - Reading of the general orders from the G. A. R. Headquarters—A. A. Cole.
 - Music—N. S. N. quartette.
 - Reading—Mrs. E. G. Rushmore.
 - Reading of Lincoln's Gettysburg address—E. A. Macdonald.
 - Music—High school chorus.
 - Reading of the governor's proclamation.
 - Music—N. S. N. quartette.
 - Address—W. A. James.
 - Music—High school quartette.
 - Benediction—The Rev. Fr. Buchholtz.
 - America—The audience.
- Afternoon Program.**
- Albert Jackson Relief corps, No. 188, will serve dinner to the members of the G. A. R., the Spanish-American veterans and their families and the members of Company M, Thirty-Third Michigan infantry, as well as all those who take part in the morning's program in Keough's hall at 12 o'clock noon. The corps will hold its annual memorial services in the afternoon, beginning at 2:30 o'clock.
- The following program will be given:
- "The Star Spangled Banner"—Mrs. James Gray.
 - Invocation—The Rev. Charles J. Johnson.
 - Selection, violin and piano, "Jolly Robbers' Overture," and "Popular America"—Carl and Van Lynn.
 - Reading, "Drafted"—Mrs. M. Zryd.
 - Vocal solo, "My Own United States"—Miss Alice VanCheestain.
 - Piano selection, "Battles of Chattanooga, Lookout Mountain and Missionary Ridge"—Mrs. William Raymond.
 - Vocal solo—William Schunk.
 - Reading, "Your Flag and My Flag"—Mrs. Dan Keough.
 - Address—The Rev. Fr. Jodocy.
 - Piano, with drum accompaniment, "The Coming of the Band, Characteristic Patrol"—Mrs. John Lang and Master Stanley Lynn.
 - America—Mrs. James Gray, assisted by the audience.

CHRISTIAN SCIENCE WORK.

Church Organization Has Been Active in Relief Measures.

The local Church of Christ, Scientist, has received the following letter relating to the war relief work of the organization.

"In view of the large amount of money which has been contributed by Christian Scientists throughout the country to our War Relief Fund, we feel that you should be informed as to the good being done. As a Church we have collected and distributed nearly \$300,000.00 for war relief since the beginning of hostilities, and the work is being actively continued. We have established our own committees in the war stricken countries of Europe and are reaching those who are in need of aid directly through this means. The work is conducted without expense to the fund itself, the committees giving their entire time to it without any compensation.

In this way we feel that we are in a position to afford the very best relief work that can be given, although we are of course in sympathy with every effort that is being made by others for the mitigation of human suffering of every kind.

Our contributions have gone to Armenia, Serbia, Poland, Lithuania, Belgium, Russia, Italy, Switzerland, Holland, France, England, Germany, Canada and Australia. In countries where we have not had committees of our own, money has been sent through the State Department at Washington or through duly accredited and authorized relief committees where a minimum charge is made for administration. In this way we have been enabled to reach children who have been silent sufferers from the general devastation that has been wrought through many of the populous districts in which they live. This aid is not confined to Christian Scientists, but is extended to people of all nationalities and religions who are worthy of help. Our activities have not extended so much to the American Red Cross society and to work done on the battlefield, as to the relief of those who have been stricken in their homes, through hunger and other forms of deprivation.

"We appreciate deeply all that is being done towards the equipment of efficient hospital service for the wounded, through the Red Cross and other agencies, but as our energies have been bent in other directions, we have not

PEACE and WAR

ALL ARE INVITED

FROM DR. BENNETT.

Relative to a recent report, in which it was stated that a certain section of uninspected beef had not been found in the meat market operated by Charles Dorais, I wish to state that I, as health officer, with Robert Hume, sanitary inspector, visited the shop in person and found, on the dressing table, within the shop, a section of beef which at that time were told by one of the butchers employed there that the meat was to be cut up for sausage. I wish to make this statement to correct Mr. Dorais' misstatement, appearing in a recent issue of the Mining Journal.
