Growth in the UP

Unemployment rates in the Upper Peninsula have dropped again this month, mostly because of seasonal employment. When the snow starts to fly and the tourists are gone, we will once again be facing unemployment rates in the 20

will once again be facing unemployment rates in the experient range.

The leaders of Schoolcraft County and Manistique need to continue looking for viable ways of increasing employment.

The Schoolcraft County Economic Development Corporation (EDC), the Chamber of Commerce, the city council and the county commission have all fought hard to bring jobs into Schoolcraft County.

A seasonal job is better than unemployment, but does not help our community as much as a full-time, year-round job wonld.

would.

Schoolcraft County has many able bodied, hard working people who simply cannot find a suitable job.

Tourism helps the economy of Schoolcraft County, but government officials need to show manufacturing businesses what the county has to offer

what the county has to other.

We have a major highway in our front yard, a recreational
paradise, a hard-working, dependable work force and local
government willing to work to bring business to the area.

We are lucky to have Manistique Papers and Pfizer

Specialty Minerals in town that have steady work with good pay and benefits, but we cannot rely on two industries if we

pay and contents, our we cannot rety out two industries it we are to survive as a community. Nor can we rely on the lumber industry. Although "below cost" lumber sales have temporarily continued, a stroke of a pen could change everything, virtually destroying the area umber industry

So what do we do to increase industrial growth in the area? First, we need to promote the community by stressing the

positive aspects of the area.

Next, we need to increase high tech job training. One possibility would be to increase the number of Big Bay de Noc Community College classes offered in Manistique, or set up a

When asked why Manistique

ridge have a different way of viewing things. Not bet-ir, not worse, just different. In this column. I will try to explain some of the dif-

ferences and why they exist.

If food is the key to any man's heart, I am in love with the Upper Peninsula.

I guess love never comes without its price.

In the Upper Peninsula, I have to sacrifice diversity of food with quality of food.

Escanaba or Marquette.

But on the other hand, the food I have tried around the Manistique area more than makes up for what I am

the Manistique area more than makes up for what I am losing.
Restaurants in the UP don't mess around with low fat, frilly foods.
Food here is still pleasurable to eat.
Sour cream has not been replaced with yogurt as a baked potato topping. Real butter has not been replaced with margarine.
That is one of the reasons food tastes so good here.
Yoopers have not buckled under by pressures to eat low fat, low calorie foods and lowe it.
Whether you the years and hopen at Danny's or a Whether has the years and hopen at Danny's or a

low fat, low calorie foods and low it.

Whether you try eggs and bacon at Danny's or a Marley Burger at Marley S Burger and Afrilly on will get outstanding food, the way it was supposed to be made. I don't advocate eating with reckless abandon, but I like to think food is one of life's simple pleasures. If keeping fit healthy means eating a toft burger with imitation mayonnaise, dig my grave right now. I would rather keel over and die than have to eat "heast smart" food.

I enjoy condition of I through I was the standard of the same of the

Salad would logically be next. The gorgonzola with endive is only \$5.50 (even though I don't know what gorgonzola or endive are).

Now comes the main course, fricasse of lobster and veal, which comes with creamed corn risoto, rossted peppers and fresh tomatese. The price tags \$25.90.

To wash it all down, a bottle of Fomerol Chateau Plinee would be inceil. It's only \$3.91.

Add to that the 15 percent gratuity that is part of every bill at Cygnus and you'r to looking at spending a small fortune. The price for the above dinner (that did not include deept would be \$148.55.
