# Japs Drop Bombs On Defenseless Towns Of Luzon

## MacArthur's Forces Under Ground In Fierce Raids

By Rice Yahner

WASHINGTON, Jan. 7- (A) -"defenseless" towns.

Many natives were killed in "merciless" raids, the War department said in its evening communique, naming seven towns in central Luzon as having been thus attacked - and four of them destroyed—since the Japanese invaded

the main island of the Philippines. "The Japanese apparently deliberately chose Sundays and religious holidays for these attacks, knowing that on such days a large number of civilians would be attending church or on the streets," the Army statement said.

Raids Heavy On Holidays

aerial forays were particularly The four towns reported razed by

bombing were Baler, Santa Rosa, Calamba and Tarlac, the latter the south down the Malayan west fjord during the night and for largest with a population of about

## **City Makes** Progress On Sewer System

structed and two sites for sewage mph. pumping stations purchased.

In the last several years the city has spent more than \$200,000 for the construction of storm and sani tary sewers, not including expendi tures for pumping station sites and for the site of the disposal plant at Carp river.

#### Further Segregation

The Spring street storm sewer permits further separation of sanitary sewage, but construction of two more pumping stations, one at Baraga avenue and Lake streets, and the other at the foot of Walnut street, and installation of a relatively small number of additional storm sewers will be necessary before segregation will be complete for the entire city.

Sites for the two pumping stations were purchased last year at a cost of \$5,877. A site for the sewage disposal plant at Carp river was acquired by the city in 1939 at a cost of \$3,500.

Final plans for construction of the disposal plant also were prepared last year by the engineering firm of Shoecraft, Drury and Mc Namee and have been submitted to the state for approval.

#### Projects Uncertain

Work will be continued this year as a city-sponsored WPA project but at this time officials are un certain what jobs can be undertaken. WPA quotas and the national defense program will be the controlling factors.

In view of strict priorities or steel and other materials, it is considered unlikely the city will be able to undertake any major work toward construction of the disposa plant this year.

When the city program is complete, a sewer to be built in Lake street will carry sanitary sewage to the Carp river where it will be processed in the disposal plant. Surface runoff in the city, free from sewage contamination, will be discharged directly into Lake Su-

#### **Questions** And Answers On Auto Sale Ban

new automobiles and trucks, and the official answers given: Q. What are the "freezing" or-

ders and what is their purpose? A. There are three orders; one for passenger automobiles, one for light trucks, and one for medium and heavy trucks and truck trailers. The orders were issued January 1 and effect a temporary "freezing" until January 15 of automobiles and trucks in the hands prohibited from selling or delivering to consumers. The consumers are likewise prohibited from purchasing or accepting delivery.

Q. What is the purpose of the A. They give the Government

uary 15 a rationing plan under which existing stocks of automobiles and trucks may be distributed where most needed. Q. Can a dealer now deliver an

automobile which a person bought prior to January 1, paid for in full, but did not actually take delivery?

Q. How can the purchaser in such a position get his money back? A. That is a nutter to be arranged between the parties. 1942 Demonstrators "Frozen"

Q. What about automobiles classed as "demonstrators?" A. The order makes no excep-

tion. If the demonstrator is a 1942 model it is "frozen," regardless of how many miles it has been driven. A. They are affected only if they

have been driven less than 1,000 Q. May a dealer or distributor sell cars or trucks to another dealer or to another distributor?

Q. How about the automobile

# At Low Point **Since 1936**

At 11 o'clock last night the official temperature here was reported by the Weather Bureau to be 11 below zero, Temperatures of 14 or 15 below were predicted before morning, but it was expected that the mercury would rise somewhat today, with definite relief from the cold wave probable tonight or tomorrow.

Falling to the lowest level in nearly six years, the mercury yesterday reached 15 degrees below zero, as the cold wave continued its fifth day.

It was the lowest temperature reading here since February 16, 1936, when it was -15. Yesterday's "high" was 2 degrees below zero, and high for the week has been only 2 or 3 degrees above the dividing line. In Ishpeming the mercury has not been above the zero mark since Sunday.

Although only a light trace of snow fell here Tuesday night and Wednesday, a blizzard raged in Houghton, where there were 14 inches of snow on the ground, compared to only about an inch here. Only eight-tenths of an inch has falled in Marquette since January

## Instructions On Tire Ban **Not Received**

Lloyd LeVasseur, county clerk, and Mrs. Mary A. Hogan, city clerk, have been named tire rationing administrators and chairmen of their respective boards in Marquette county and the city of Marquette, but specific instructions on how the rubber conservation program will be carried out here have not been received.

Under the first plan, city and county committees were organized by Mayor Louis W. Biegler, acting as city defense director, and John S. Courtney, chairman of the county defense council. While waiting for the "go" signal, however, word was received January 3 that the committees would be reduced to three members each.

This information eliminated the groups named by Biegler and Courtney, and left the matter in the hands of the state tire rationing committee. It is understood that the smaller committees will be chosen from names submitted by Biegler and Courtney

Committees Not Complete The county tire rationing committee will consist of LeVasseur and two other persons, and the

Hogan and two other persons. The state board reduced the size of the committees upon instructions from Washington. These instructions also stated that representatives of tire retailers, and consumer and public health representatives would be dropped from the commit-

city committee will consist of Mrs.

Marquette county has been allotted 27 tires and 23 tubes for January for passenger cars and 92 tires and 77 tubes for trucks and buses, but instructions as to how they may be procured are awaited.

No Certificates Certificates of purchase, without which a tire cannot be bought, have not been received here.

LeVasseur has received official notification of his appointment and also the following letter from the state defense council:

"Upon the advice of the Office of Price Administration and the Commodities Distribution committee of the Michigan Council of Defense, each county clerk in Michigan has been designated tire rationing administrator for his county. Two other citizens have been designated to serve with you as members of your county tire rationing board from the nomination submitted by your county defense council. Official oath forms and appointment papers will be sent to you from the OEM office in Cleveland

Tires Must Be Inspected This letter is your authority to distribute forms and receive applications for the purchase of tires under the OPA regulations starting Jan. 5. Forms and regulations were sent to you by mail Jan. 2. You will note that the applicant for the purhase of new tires and tubes must lands. Then anti-aircraft batteries resent a certificate of inspection for each tire. As county tire rationing administrator, you should temporarily designate operators of regularly authorized car and tire dealer service station (not gasoline stations) as inspectors. This will be a temporary measure. More com-plete information and service will be provided later.

"Certificates for purchase to be issued to successful applicants will be sent to you soon. Please note that such certificates cannot be issued by you alone; each application must be passed upon by at least two members of the county tire rationing board, and each certificate of purchase must be signed by two members."

Lieutenant Colonel Harold A. Furlong, state defense administrator, and Arthur Sarvis, state tire rationing administration, signed the port. letter. Accompanying it were application forms.

But pending the designation of two other board members; receipt of purchase certificates, and "more information to be provided later," LeVasseur said he can take no ac-

## 29 Hunting **Fatalities** During 1941

Getting in the line of fire is the worst accident hazard the Michigan hunter faces in the field, the state

3. Alfonso conservation department reports after tabulating the causes of 29 deaths and 110 injuries during the

1941 hunting season. were injured, four of them fatally, when they were struck by shot fired at game birds or rabbits, in many cases from the guns of their own companions. During the deer season 17 hunters were caught in the line of fire-more often beyond the target than between the shooter and the game-and five were

The accident toll in the field from all causes in the recent season was 11 killed and 41 injured deer hunting and 18 killed and 69 injured at small game hunting, which is three fewer killed in each group than were recorded in 1940. The number of injuries increased, however, by 13 in the deer season and by 20 in the small game season. Many Mistaken For Game

During the deer season, other causes of accidents were: Mistaking humans for deer or bear, 14 (two of them fatal); gun falling from insecure rest, four (one fatal); loaded gun in buildings, two; hunting with safety off, one; mis-

cellaneous, six. In the small game season the secondary accident causes were: mistaking humans for game, three; holding gun by muzzle, eight (three fatal); stumbling, seven (two fatal); careless loading, unloading, six (two fatal); careless fence crossing, one (fatal); "didn't know it was loaded," one; gun falling from insecure rest, one; gun barrel rupture, one; miscellaneous, 23 (six fatal), among them such oddities as the case of the hunter who threw stones into a rabbit hole to drive out a rabbit, hit the trigger

Other casualties during the hunting season not classified as gun-December 7 was the experience of Harbor, the passengers realized hunting accidents include nine a Newberry man, Alton A. that I'm more particular than some group people. Hold to the old-fashioned idea, you know, that cleanliness is which roles were taken by Miss Aili which roles were taken by Miss Aili which roles were taken by Miss Aili keep a maid a long time."

And so it goes on with a gentle vote that energy to working for ary 20. Red Cross or some other form of

#### national defense. Nothing Is Right

Then, too, you all know the con- Will Be Held In firmed and chronic fault finder; the one who, on every festive occasion, comments that the lunch really was a bit too hopeless, don't you know. It would seem as if any one could manage to have good coffee and tea at a party instead of serving that lukewarm stuff. Or maybe she is the one for whom the coffee or tea is always too strong and some one has to scoot around arranging to bring her a pitcher of hot water. Or she is dieting and simply can't eat frosted cakes. "It would be so nice," says the critical one, "if hostesses would be thoughtful enough to serve melba toast at parties. I am not the only one on such a diet, I am sure. When guests come to my house I do try to take their likes and dislikes into account."

In war time and peace time, we could dispense with the woman who accepts hospitality and then criticizes her hostess and her house. The living room rug was simply a wreck, the drapes would have been the better for a cleaning, and "did you see the finger marks all over that front door? Now what would you call that centerpiece on the table? I suppose it was high art. Dotty does fancy herself as being artistic, but if that centerpiece is art then give me a tomato can with a blossoming geranium.' A Gossip Bomber

Close sister to that kind of a woman is the one who never feels her MACHINE MENDING day complete and well-spent unless she has heard and circulated some exciting piece of gossip. Now every one has a slight weakness on the side of gossip, of hearing amusing and diverting things about friends and acquaintances, but the woman I mean isn't content with that gentle and foolish tittle-tattle.

The gossip she enjoys has to have such a punch of unexpectedness and innuendo that it makes the listener's eyes boggle. She makes the sly suggestion: "Do you know I think Edith and Abe are having trouble? It does sound unbelievable and maybe there is nothing to it, but I saw them the other evening and they were hardly speaking and today I heard Edith had gone east to visit her mother. I suppose it will be an indefinite Well, you know she has a difficult disposition. Expect there would be friction. Did you hear that Tully got caught in an unfortunate speculation? I hear he dropped five or six thousand dollars. Probably that is why they are not going away for a vacation this winter.'

And so on and so forth. The gossip needs excitement and is not at off with soap and water daily. all averse to doing everything in her power to start the excitement of her friends . . . those and others McLean.

#### Gilbert Brown Gives Talk On 'Mental Hygiene'

Despite the frigid weather, there was a large attendance at the meeting of the Fisher street unit of the Parent-Teachers association Monday night.

The program opened with group singing of "God Bless America," and following the business meeting. Ralph Barber, of the Howard Junior high faculty, sang two vocal solos: "Miss Kitty O'Toole" and "The Old Road."

Gilbert Brown, of the Northern Michigan College of Education faculty, the guest speaker, in his talk on "Mental Hygiene," stressed the progress made in treating patients suffering from mental illness. He noted that modern treatment had gone a long way from the old practice in which mentally ill patients were beaten to drive out the evil spirits. Now each case is studied carefully to ascertain the cause and treatment is given accordingly. The speaker reminded that mental disorders have an emotional basis and often have their origin in circumstances occuring in early childhood. He emphasized the importance of parents giving children the proper training and making an effort to understand them.

The dads were hosts for the evening at the social hour. They rated A plus on hospitality and the lunch, which they served, of piping hot coffee, welcome on such a cold night, and substantial sandwiches. Hosts were A. Terrill, Ralph Fleury, Grant McCauley, Robert Woodin and Arthur Lemieux. Mrs. Ralph Fleury poured.

# Fans Eager For Marquette-Calumet Hockey Game On Palestra Rink

## Perfect Ice **Assures Fast** Play Tonight

Advance ticket sales for the Marquette-Calumet hockey clash here tonight were nearly as brisk as the weather yesterday — which was plenty brisk — indicating that a large crowd will be at the Palestra to see the two sextets meet for the first time this season.

Since the game scheduled to be played in Calumet Tuesday night between Calumet and Painesdale was postponed, first place in the Northern Michigan league will be at stake in tonight's battle.

Regardless of the outcome of the Painesdale-Soo tilt in Soo's Pullar Stadium tonight, if the Sentinels can keep their record clear by beating Calumet, they will remain in first place. If Painesdale and Cal-

TWO FEATURES TONIGHT Tonight's hockey program will be sparked by two features. From 6:15 to 6:30 Connie Pleban, George Kolvuniemi and Frank Gresnick will be heard over WDMJ, the Mining Journal radio station, on the "Penalty Box" broadcast from Hotel Clifton, and Miss Marie Markert, pretty Michigan winter queen, will give a figure skating exhibition between the first and second periods of the

umet win, however, they will again be tied for the top spot, a point

#### ahead of Marquette.

Off To Flying Start Another possibility is a victory for both Marquette and the Soo, which would boost Marquette's hold on first place to two points. The Sentinels would have seven; Soo, five, and Painesdale and Calumet would be relegated to a cellar

deadlock with four each. With Marquette off to a flying start in the loop race-undefeated prospect of seeing a far betterthan-average Marquette team in But baseball is particularly vulaction against an always - tricky nerable to the backwash of war, great lungfulls of pure, fresh monand dangerous Calumet crew, with the players fine material for other nature lovers. hockey fans in this area are ex-

#### Kukuk Returns To Squad

The Marquette squad will be intact for this all-important game. Norman "Boots" Kukuk, who has been nursing a charleyhorse suffered in a collision with Soo's Jack Weston in Sault Ste, Marie last week, is ready for action again. Kukuk's injury kept him out of

the Painesdale game. Coach Pleban has been holding workouts each night at the Palestra since cold weather made good

E. J. "Lock" Schumacher, of Houghton, league president, reporting yesterday on the postponement of the Calumet-Painesdale game. scheduled for Tuesday, said it had been snowing steadily in the Copper Country since Saturday.

You can hardly see your hand in front of you up here," Schumacher said over the telephone. "It's cold and there is plenty of snow. It would have been impossible to hold the game in Calumet. Driving conditions were too severe. We will reschedule the

game as soon as possible. "The storm will not prevent Cal- in Women's league matches, umet from making the trip to Marquette Thursday, nor will it keep Painesdale home," he stated.

#### Pfeiffers Virtually Win First-Round Crib Title

Adding to their first-place margin, the Pfeiffer Beers last night won from the Independents and next week will go into final matches of the Marquette Cribbage league's first round with an almost insurmountable lead.

The Peiffers scored 13,867 to the Indees' 13,402, while the secondplace Fitger Beers were defeating the American Legion, 13,696 to 13,- Golf Club Tops Tip Top 524. ## Golfer Reduces Weight,

Accepted by Air Corps DETROIT, Jan. 7- AP -Tommy Sheehan, former Notre Dame golf captain and runnerup for the 1941 Michigan open championship, today was 15 pounds lighter than a month ago, so the U.S. Army Air Corps accepted his enlistment and indicated he would be called for

duty by February 1. Sheehan passed physical examinations at 180 pounds, the weight medical examiners fixed for him when he previously reported for service. He is 24 years old.

## J. C. Penney **Store Opens** This Morning

ISHPEMING, Jan. 7 — Ishpeming's new J. C. Penny store, completely equipped and stocked, was ready today for the public inspection on its grand opening Thursday

Customers will get a greater degree of service than was possible before because of improved facilities for display, for merchandise storage and for customer reception

Modernity is the keynote from the window displays, through departmental signatures, handling of sales, fixtures and stock. From the mezzanine balcony spectators will get an excellent view of the main floor, from which vantage point they will receive a better impression of the thought and consideration given to layout of main floor fixtures for the greater convenience of the shopping public.

#### Definite Departments

The personnel of the store has been assigned to definite departments and each employe has been active in the transfer of merchandise from the old store and in the placing of stock in the new, so there will be no confusion attendant upon the change-over. Following is the personnel of the

The liver should pour 2 pints of bile juice into your bowels every day. If this bile is not flowing freely, your food may not digest. It may just decay in the bowels. Then

# STATEMENT TO GOSSARD EMPLOYEES:

WHAT OTHERS THINK OF UNIONS

The Rev. John A. O'Brien, in a pamphlet, "The Church and a Living Wage," issued with the imprimatur of Bishop John Francis Noll:

> "Labor unions have been established in the effort to enable the worker to negotiate with the employer on a basis of equal bargaining power. . . . A Laborer alone does not possess the economic bargaining power of the industrial capitalist. Stanislaus Yankowski, applying at the gates of a factory for a job, has little or no power of obtaining what he believes to be a fair living wage. But Stanislaus Yankowski banded together with every employee in the factory has vastly greater bargaining power and consequently a better chance of getting a fair wage."

> "Whatever increases in wages and improvements in the conditions of labor have been secured in the last fifty years in America have been traceable chiefly to the work of the LABOR UNIONS. . . . On the whole, they have been the powerful factor in lifting the industrial worker from the condition of economic serfdom to that of a free man. . . . The right, therefore, of the worker to form associations of his own choosing and the right to bargain collectively with his employer have become recognized as among the most important and fundamental of all his rights.'

The Federal Council of Churches of Christ in America, in a resolution adopted by the biennial meeting, December, 1940:

> "RESOLVED that the Federal council record its conviction that not only has labor a right to organize but also that it is socially desirable that it do so because of the need of collective action the maintenance of standards.'

The Rev. James Myers, in a pamphlet, "The Christian Attitude Towards Labor:

> "It would be . . . in order to point out to all workers that it is their moral duty to join unions. For, while no worker should be coerced by force or intimidation by his fellows into joining a union, it is equally clear that if he is informed and unselfish, he will desire to join. History shows that no other force has been more effective than labor unionism in gaining better conditions for wage earners. It is selfish for a wage earner to accept the improvement in wages, hours and freedom gained for him chiefly by the influence of the labor movement and yet refuse to cooperate and pay dues."

One of the most appreciative estimates of the work the International Ladies' Garment Workers' Union is doing on so many fronts was pronounced recently by Judge William Burke, of Hartford, Conn., in a decision handed down by him. Perhaps his own words may tend to explain what it is that the 275,000 members find in the International Ladies' Garment Workers' Union, why it is that they are so loyal and devoted to it and so proud of it. Judge Burke said:

"I find that the International Ladies' Garment Workers' Union . . . today is actually more than a trade union. It might be said that it is also a welfare agency, an educational institution, a philanthropic society and a kind of experimental station for the amicable adjustment of industrial disputes . . . in the forty years of its existence, it has accomplished for its membership a reduction of hours from 74 a week . . . to the present week of 40 hours at materially increased wages. . . . Its 'extra-curricular' activities make it a "way of life' as well as a bargaining agency."

# Stocks Recover After Release Of Budget Message

## **Most Issues** Erase Part Of Early Losses

NEW YORK, Jan. 7—Æ—Stocks sold off rather sharply today as the market awaited President Roosevelt's budget message, but after A this document was released at midday most issues recovered a part of the losses.

While Wall Street thinking remained preoccupied with the na-tion's \$56,000,000,000 armament program and the means for its financing-these were outlined in the budget message-it appeared the market was going through a corrective reaction from its substantial year-end upturn.

The theory that technical factors controlled the day's early trends was supported, brokers said, by the market's moderate improvement after the budget proposals were announced. At the same time | B it was suggested the morning decline had in some measure discounted the tax boosting provisions outlined by the President.

#### Stock Average Drops

In view of the magnitude of the projected spending for planes, tanks, guns and ships the proposed additional taxes of \$9,000,000,000 for the next fiscal year seemed to financial observers in line with ideas formed Tuesday after the President had disclosed the country's war building intentions.

Developments at the fighting fronts seemed to have no particular influence on price movements, although sentiment took account of more good reports from Russia and some that were not so favorable from the Pacific.

On the day the Associated Press 60-stock average registered a drop p of .2 point at 38.4. Activity was unimpressed with

total transfers at 629,570 shares, compared with 801,860 Tuesday. Rails Stage Comeback

Among stocks closing fractionally lower were U. S. Steel, Bethle- F. hem, Montgomery Ward, Boeing, Douglas, American Can, Standard Ge Oil of New Jersey and Texas Co. Wider losses were shown by Sears G Roebuck, Eastern Airlines, Du Pont and Dow Chemical. Ameri- Go can Telephone gave up 3 1-8 and Coca-Cola fell 2 5-8 to a new 1941-

Rail shares came back in the late Gt proceedings and leaders of this department had modest final gains. H Patino Mines, a recently favored specialty, was marked up 2 1-4 to a new high for the last year. The

company produces tin in Bolivia. In the curb better marks were posted for Aluminum of America,

# **Busy in Oats** And Rye Pits

wheat and corn prices near or Louis G & E A above levels at which the Govern-oats and rye pits here today.

Oats rose a cent or more a bushel to the highest prices since 1928, May futures reaching 59 cents, compared with 37 a year ago and a 1932 low of 16 cents. In the spot day. market No. 1 white oats sold as high at 61 cents, equaling the spot market peak established in 1934 and, with that exception, the highest since 1928.

Rye was up about two cents at one stage but wheat and corn gained only fractions.

Wheat futures closed unchanged to 3-8 higher compared with yesterday, May \$1.29 1-8 to 1-4, July \$1.30 3-8 to 1-2; corn, 1-8 to 1-2 up, May 85 3-4 to 7-8; July 87 5-8 to oats, 3-4 to 1 1-8 up, May 58 3-4; rye, 1 1-4 to 1 3-8 up, May 80 1-8 to 1-4; soybeans, 1 to 1 1-2 higher; lard, 10 to 13 higher.

## **Bond Market** Withstands **Debt Forecast**

27 Bottom of foot. 47 Era. 28 Mollusks. NEW YORK, Jan. 7- AP -The 30 Plants for Government bond market today withstood without a ripple of dis-31 Tunisian location the forecast of an unprecedented rise in the Federal 32 Australian debt contained in President Roosevelt's budget message. 33 One who

Prices maintained extreme composure in the forenoon preceding publication of the message and, as if in direct answer to the enormous task outlined, began picking up momentum almost as soon as the last paragraph had been read. At the close of the stock exchange the few issued traded on that market were up 1-32 to 9-32 point. In the more expanded trading over the counter small net gains were the rule, particularly in longer term maturities.

Corporate bonds, too, strengthened after the message had been read. Numerous rails, utilities and a selected group of foreign dollar loans perked up major fractions to a point or more and while there were a few laggards, these were in the minority.

In the advancing column were, among others, American & Foreign Power 5s at 65, St. Paul 5s at 10 1-8, Columbia Gas & Electric 5s at 101 1-4, Cuba Northern Railway 5 1-2s at 29 1-2, Illinois Central 4 3-4s at 41 3-4, Southern Pacific 4 1-2s at 51 1-2 and New York Central 5s at 56.

Foreign loans pushing up one to two or more points included Argentine 4s at 70 3-4, the 4 1-2s at 76 5-8, Denmark 4 1-2s at 26 1-2

But the ABCD commanders regard these as difficulties which can be overcome in time. It's "fighting guts" that count in the long run.

BEER-The czars of the liquor industry at Washington profess no fear over wartime or permanent prohibition laws. Their private canvass of Administration and Congressional sentiment convinces them that there is no danger of a repetition of the 1917-1919 experience when the drys capitalized on

the war to enthrone Volsteadism. Conditions then and now are quite different, according to the liquor people. In 1917 more than 50 per cent of the country had embraced prohibition, whereas less than 10 per cent are now on the wagon. The white ribboners were well financed and organized. The wets were cocky and complacent. Now the prohibs are dispirited and demoralized, except for a few professions who have no popular following. Moreover, the liquor interests are policing their bad boys lest excessive drinking precipitates a serious demand for national pledge-taking,

The distillers have been foresighted. Perhaps out of fear that built up a supply of whiskey that will last at least four years. They may need it, for OPM plans to halt distilling of spirits and utilize the plants for making alcohol. There is no shortage of ingredients for beer at the present moment. Nevertheless, the boys are keeping again!" their fingers crossed. If the war lasts for years, and if Uncle Sam must feed the hordes of Russia, China and Europe, there may be a booze blackout.

SINKINGS-Where is the United States fleet? And where is the Japanese fleet? In view of the expectation that any conflict between the two nations would be waged on the water almost exclusively, these are the questions which have been on everybody's lips since December 7, 1941,

Although naval secrets cannot be revealed, there need be no mystery about the general positions of the two navies. The last word from our side was Frank Knox's statement that, our Pacific fleet had escaped the Hawaiian debacle and was "seeking out the enemy. It is quite obvious that our warships have not ventured into narrow Japanese waters, where they would be trapped by subs, mines, and land-based planes. Our units are undoubtedly off on the high seas "somewhere in the Pacific," awaiting a chance for a general engagement. It is also clear that Tokyo is keeping its lighter, hitand-run navy in home ports and waters while she seeks to whittle our naval forces down to her size, She will not chance a battle with us at any time in the near future.

Our smaller vessels, as dispatches reveal, have probably withdrawn toward Singapore and the Dutch East Indies. The protection of those objectives is far more important to the war's outcome than relieving Manila or even Hawaii. In fact, it is understood that many sinkings of enemy transports credited to the Dutch were accomplished by Uncle Sam's subs.

STOPS-Capital and labor are

waging a furious backstage struggle to obtain dominant influence on the War Labor Board which will arbitrate all industrial disputes for the duration. The preliminary skirmishing suggests that the new agency will have plenty of trouble on its hands, crisis or no crisis, The AFL and CIO regard the personnel of the board as so important that they have negotiated a temporary truce in order to make their power felt at the White House. Both organizations

want all authority over industry

and labor vested in the WLB. Philip Murray seeks to deprive Sidney Hillman of the power he has exercised as OPM's representative. The

## Legislature Will Convene January 19

By G. Milton Kelly

LANSING, Jan. 7- (P) -Governor tonight issued a formal order calling the legislature into special session January 19 to deal with problems presented by the war.

The Governor in the text of the call gave no clue to the issues he would present, and said he would not disclose them "until the time comes." He said that might be the day he presents to the lawmakers his special message outlining the matters he wants considered. The legislature in special session is limited by the constitution to consideration of business requested by the Governor.

Although Van Wagoner declined to go farther than a statement that the legislature's work probably would be "confined to this war emergency," rumor in the capitol says he may ask for \$5,000,000 to be expended by the state administrative board as war needs arise.

#### Subjects for Consideration

these are subjects which probably will come before the legislature for specific consideration

Provision of funds for a steppedthe new draft registration.

Financing recruiting, training and equipping of air raid wardens, auxiliary police and firemen. Establishing rationing systems for tires, automobiles and possibly other items as directed by the Fed-

Grants for wives and widows of

Proposals to double state troops

#### manpower and equip them. Job Benefit Revision Unknown

It was understood the Governor, himself, has not yet decided what course to pursue on proposed liberalization of the Michigan unemployment compensation law. It has not yet been determined, it was said, whether state action would be required in event the Federal Government decided to take over that program, which provides funds for By Samuel Hopkins Adams the support of the unemployed.

The state unemployment compensation commission recommended, before the subject of federalization was raised, that the grants be made more liberal because of great unemployment expected to result from the conversion of factories into munitions production units.

Van Wagoner made it clear in statements at press conferences that he would bend every effort to make the legislature's session harmonious, in sharp contrast to the bitter feud between him and the Republican majority members at the regular 1941 session.

because of the war emergency, to act on war matters," he declared.

"We would need a specific and the war to any one else unless the Indian digger shape," I told him.

"Thanks," he said, We would need a pretty clear understanding there would be no op- Her face took on that shadow position before opening it up to that I'd noticed before. "Oh, no; other matters."

Nugent issued a statement that "politics should be forgotten she must have figured that I was face lit up like a parade. I took "Well, look," in the present emergency by both

Van Wagoner blew cold on suggestions of a delegation of Detroit officials that he ask the legislature to appropriate \$7,600,000 for Detroit defense activities, declaring at a subsequent press conference that "we could not very well do it May Hold Funds Available

He said he took a view that it would be better to hold a pool of resources available for use anywhere should actual emergency arise, in the theory it is impossible to predict now where the money will be needed most. In addition, he asserted, similar aid for other municipalities would amount to a huge um. He added, it has not been decided what proportion of the war financing burden in local commun-Ities will be borne by the Federal Government. He promised the dele-

gation to consider its request. Auditor General Vernon J. Brown, chairman of the state land Prof. Loren Oliver for a brush office board, addressed a letter to hook. There's nothing like bor-Van Wagoner proposing that 20,000 rowing to start you on a friendly lax-reverted properties held by the footing with the neighbors. elate in Lincoln Park, Melvindale and Allen Park might be made high. ## NEA Camera Right on Deck in Pacific

When United States soldiers, sail-Usually informed quarters said ors and civilian technicians recently set out in a huge, warship-protected convoy to reinforce America's Far Eastern outposts, an NEA Service up selective service schedule and photographer-correspondent sailed with them through the war-periled waters of the Pacific. He is Jonathan Rice, detached from the NEA Service San Francisco bureau to get for readers of The Mining Journal dramatic "spot" photos, such as the one above, showing a deck scene on one of the big transports. Strict Emergency needs of the state orders compelled passengers and police, and expansion of its radio crew of the convoy to have lifebelts at all times. At right, Rice is pictured making himself as comfortable as possible, despite the en-

# Tambay Gold

THE STORY: Mom Baumer, 10 years on the road with her trailer "Feederia," wangles permission from Jane Ann Judson. last of the Mauries of run-down Tambay Plantation, to set up her lunch wagon there. Her first customer (by invitation) is a bearded professor from nearby Welliver U. who is digging for Indian relics at Tambay. Then she asks Jane Ann to supper.

ANGEL GETS A CHILL

CHAPTER III

"I'm not rightly open for trade anyhow." fense would be allowed in the ses- yet," I told Jane Ann, watching cherub on a pink cloud. "The specal session was called setting, "There won't be any- your own luck with that face and to you?"

could feel her tense up. "Snoopy ones, of course. No-

friendly. She said, "I've got to ive somewhere. My theory is that I'll keep this up as long as I can and then go down with the ship.' I liked the way she said it and the set of her chin and the look in her eye that said she wasn't asking odds of hell or horseflesh, for one city without making similar down," I said, for an idea was fermenting in the old brainpan.

"Maybe not," she said, I tapped my garter and peeled off three ten-spots from the roll. "What's this?" she said.

"The first month's rent." "Just for wagon-space? It's too much. "It's either worth that or noth-

ing at all. My risk."

She took the money then. "All right," she said. "Thank you." She was coming unshrunk a little. I gave the space the once-over. There was plenty to be done before I could get along. First I went to the stockade and touched

# Our Service Follows The U.S. Mail Route!

Through the mails, our service has reached out to bring safety and convenience to customers who are not in a position to call at the bank regularly or who live many miles from Marquette.

Banking by Mail is an established service at this bank that . assures you of the same careful attention to routine banking transactions as if you called in person. If you live outside of Marquette, you can still give your finances the benefit of First National Service BY MAIL. It's safe, easy, and convenient! A letter from you will bring in return full particulars.
