Assault On Dutch Indies

Fifty-Sixth Year

## 116 Japs Slain By Chicagoan In Philippines

WITH GEN. MAC ARTHUR ON THE BATAAN PENINSULA, Feb. 13 (Delayed)-P-Captain Arthur W. Wermuth, of Chicago, who has killed 116 Japanese and captured many more, is America's No. 1 one-man army to his fellow officers of the 57th Filipino scout regiment.

He "absolutely accounted" for at least 116 Japanese with his 45-caliber Tommy-gun and Garand rifle, his fighting companions said today. He has won the Silver Star for

gallantry, the Distinguished Ser-vice Cross for extraordinary heroism, and the Purple Heart with

two clasps. Led Many Scouting Raids

Thrice wounded, he spent more than two weeks in January more behind the Japanese lines than the Americans. He has led so many scouting raids he has lost count. His actions have forestalled many enemy attacks and prepared

the way for American counter-at-I had been trying to locate Wermuth for three weeks, but when I went to the front, he was in the hospital. When I went to the hospital, he had returned to the front. I finally located him today, just out of the hospital and on his way to battle. At dinner, 1 got part of his story and other officers gave me the rest.

Wermuth fights the war like he played football for Northwestern military academy at Lake Gene- By Eddy Gilmore va, Wis .- fearlessly and for keeps. This 190-pounder with a Van Dyke

## **Draft Board** Reclassifying Registrants

The Marquette county draft board, which is doing a "very fair, thorough and conscientious job," is now engaged in the task of reclassification under new regulations and must review the status of all men in the county not now inducted in the United States Army, Major Arthur Holmes, of the inspector general's department, U. S. Army, said here yesterday.

Major Holmes is attached to the selective division in Michigan and came here to explain new selective service regulations to the board, consisting of John J. Walsh, of Marquette; Paul Ameen, of Ishpeming, and John Bush, of Negaunee, and to the Federal Government appeal agent in this area, George C. Quin-

nell, Marquette attorney. Because of the great necessity for increasing the manpower of the mation's Army to combat the forces of Germany, Japan and Italy, regulations affecting deferment have been tightened and draft boards throughout the country are being called upon to make a close study of each individual case.

### Commends Local Board

"In a job of this nature, there is bound to be some criticism, but the board has a conscientious determination to perform its difficult task in a fair manner. Every registrant has the right to appeal.'

Major Holmes stated that "every man deferred by the Marquette county draft board has been deferred because the board acted strictly under rules and regulations of the selective service act.

"By the same token, registrants who have been inducted are serving in the Army for the same reasonthe board has acted according to requirements of the act."

### False Information Costly

## **Award Given** To Marquette **NYA Youth**

Forrest Shouldice, 21, of Marquette, who enrolled in the Ironwood resident training center, September 26, 1940, last week was awarded the title of "NYA Youth Worker Most Valuable to War Production" at that center.

The award resulted from a survey by officials of the National Youth Administration and gives Shouldice place as a runner-up for state and national titles. The award was by unanimous vote of the center director, shop supervisors and shop superintendent. Presentation of the award was made by Gordon E. Jacquart, resident center director at ceremonies attended by 200 NYA youths, staff members, and general public.

### Machine Shop Worker

Young Shouldice was assigned to the machine shop, and quickly learned the operation of lathes, milling machine, grinders, drill press, and precision hand tools. His versatility, personal qualities, specific skills and aptitudes won him

the award. "Forrest Shouldice is one of 150 NYA youths gaining war production experience and training in the Ironwood training center shops," said Jacquart. "In the past month 15 youths from the Ironwood center have been drafted by industry to man the machines of war production. Letters are received daily from youths who have been trained at the Ironwood center during the past five years and who are now in war production industries. now in war production industries. Our workers are prepared to step into industry because the new NYA training system is patterned after the production methods of

## **State Plans** To Dedicate **Deer Yards**

Within a short time the state conservation department will initiate a new land program designed to safeguard northern Michigan's swamplands as winter yarding grounds for one of the largest deer herds in the nation.

Approximately 20 large swamp tracts in various parts of the Peninsula will be dedicated by the conservation commission as purchase units, and lands within these tracts will be accumulated gradually by the state. Dedication of other tracts will follow on the basis of a master plan prepared by the game division of the conservation lepartment.

Yellow Dog Swamp The Yellow Dog swamp, one of the most important deer yards in Marquette county and in the Peninsula, it is expected, will be among the first dedicated.

Initiation of such a plan long has been advocated by Upper Peninsula sportsmen and the Northern Michigan Sportsmen's Association. representing most of the sportsmen's organizations in this region.

Progressive depletion of swamp lands has for several years been seen as a threat to the northern deer herd, which during winter months is forced by deep snow to seek cover and food in low lands.

Purchase of key yarding areas, it is asserted, will check this depletion and, through controlled logging operations, will maintain a constant food supply. Comprehensive Study

Although details have not been made public, it is understood that the conservation department's plan is the result of a long, comprehensive study of yarding conditions throughout the Peninsula. So detailed has been the survey that the exact acreage and ownership of all tracts to be included in the dedicated areas has been deter-

Once the areas have been dedicated all tax delinquent lands therein will be withheld from sale, and as other properties revert to the state through tax delinquency they will be added to the blocks. Purchases will be made from time to time by the conservation commission, as monies are available, to round out the units.

While cutting may be authorized in the new units, it is understood that all logging will be for the principal purpose of providing and stabilizing food supplies. It is improbable that clear cutting, which has ruined many swamps in the Peninsula as winter deer yards, will be permitted on state-owned lands under any circumstances. Tracts where cedar growth is over-mature, however, frequently can be improved as a source of food through selective cutting.

The program will be financed with money obtained through the earmarking of \$1.50 of each deer license fee for the purchase of public hunting grounds and game management.

## **Auto Plants** Get Into War Production

(EDITOR'S NOTE: How is the much-discussed "conversion" of the auto industry to war production working out? Wide World News sent Staff Writer Gladwin Hill to Detroit to find out firsthand. Here is his first report.)

By Gladwin Hill

DETROIT, Feb. 15 - (Wide World)-The vast building that a few days ago was clattering away as the world's biggest auto assembly plant was filled with a strange, heavy silence, and the handful of workmen munching lunches on the sidelines had the bewildered look of men seeing a ghost.

The fantastically complex maze of humming, clashing, whining machinery amidst which they and thousands of others had shuttled, begrimed and gnome-like, turning out a complete Plymouth car every 20 seconds, was stilled, the silence broken only by the sputtering of an acetylene torch.

The lunchers' eyes turned upward to where a goggled workman with fresh brown paper bearing with a knife of flame was inexorably cutting down the overhead gun parts. conveyor tracks, the bloodstream It's that of automobile assembly.

Dazed by Change

Below on the factory floor two black-overalled workmen pawed confusedly over a tangled heap of huge machines, unusuable for their dismantled conveyor lines. They new armament jobs, are filling up had never seen anything like this the factory yards and even the indebtedness are deductible, with before. For 30 years the auto industry had been constantly building, building, building—expanding, ing 5, 10, 20 tons, are being moved refining, accelerating. Now it had from building to building in the abruptly to stop-to tear down and revamp. To make armament.

The half-mile-long floor as off is rolling out Army cars. sembly lines were cleared, empty as bowling alleys. Big cutting, the cartoonist's dream of a luxury owes money on a lien or mortage pressing and boring machines were shoved back, in the jumble of an Army car right behind it. Not the the interest may be deducted. ### Farm Bloc Counters

THE farm bloc in Congress has returned to the attack. Its answer to the collaborawith the purpose of stabilizing prices.

As they had strength enough to secure ganizations intact. of preventing sharp increases in the cost fashion.

tation with the President, it would seem possibilities, to war production. to be by no means certain that the President would accept a bill tying up the surpluses during the period of the war. If he chose to incur the enmity of the farm bloc by vetoing it, there is no doubt that his veto would be sustained.

The relation between the farm bloc prosharply advanced as a result of farm prices, ers their position will be greatly strength-

It will call for some political courage will play hob with the nation's economy.

### The Time Issue

There is little to be said for the legislature's action proposing that the state be by the state is proposed. taken off the war time. While, before it was much impressed by the legislators' support for it, and as holding that the majorsumption that majority opinion goes along kind a legislative body always hears from

The support for the proposal to take the state off war time has come principally from the farmers, who, in the Governor's view, are more "scared than hurt." But not all the farmers are opposed to the new time and most of the city dwellers favor it. hasty action. Under the circumstances, the Governor should not approve the bill unless it can be shown that it meets with the desires of a considerable majority, something the fact that the legislature passed it does not show.

to veto it. He has been in receipt of many | American radio correspondent who was stamessages urging that he do so. But he will hear no less emphatically from those who his broadcasting facilities because his charges want it made a law. If he goes along with of complacency and incompetence were dethe latter, the state will enter into a period clared to be disturbing to the morale of the of badly scrambled time, one time for the population in the fortress city. had worked with metal. There is no question about the

### Slow Mobilization

Where morale is far from being what it should be, it is almost invariably the fact that men are not being used on war work, or are being frustrated by the indecision or the incompetence of their superiors. The people are not withholding their support; where they are in a poor mood they are being denied the opportunity to contribute their

support. Thus one of the great sources of discontent is the slowness with which contracts have been placed to mobilize industrial resources that are relatively small, taken separately, but large when combined. Perhaps it was not possible to utilize them all immediately in the first stage of the war effort. But the quicker they are used now, the more we shall get not only materials of war but the full aroused moral energy of the great mass of

the people. Another great source of disconsome cases this is due to military even have a chance to entertain a definite job to do which they be- around them knows ought to be filled by abler men. ### **Goofy Bundles** To Congressmen Help In One Way

(By MANTHEI HOWE)

Uneasy lies the head of a pension - to - self - voting Congressman these days. Friday night when the listeners heard news reports via their radios and noted that Congress was thinking of repealing the pension bill there was a concerted guffaw from most groups.

And are the Congressmen ever stewing in their own juices of worry and apprehension about that!

It is to be noted that 435 members of the house and at least a third of the Senate are up for reelection; and election not too many months away. Of course it is barely possible that during the period from now to election something so serious may happen that the minds of the people will be taken off the ticklish subject of pensions to protect our hard-working Congress-

### Chickens Home to Roost

But there is not a man in the House or Senate who, if he is inis not perfectly aware that Amer- years' separation. icans hate to let a joke die. Every Congressman, who has to campaign for re-election knows perfectly well that it is quite in the cards that when he arises to make an election speech and begins windup with the announcement of how he will pledge himself to forsake all personal advange, will think only in terms of what is good for the country, some devilish member of his audience will yelp glee-"Sure, you should not think of self now. You got that all taken care of when you voted yourself a pension, didn't you?"

And Mr. Congressman knows during the campaign, will be greeted with howls of laughter and

One of the worst angles of the situation is that Congress hustled

### They Wrote Letters

As soon as newspapers and radio Miss L. Neidhart. speakers began to comment on the bill, Congressmen began to get letters from back home, and they nest in war time?"

Even more worrisome were those bizarre contributions that began arriving and which are still being once fully awake to the fact that sent. One can reply with reason- we have got to win this war, and Smith, Mrs. Charles Richardson, East Prospect street. able argument to indignant letter that it is not entirely impossible Mrs. A. B. Linquist, Mrs. E. C. writers, but what can a Congress- to lose it, one may expect to have Quarters, Mrs. Robert Brunner, man say to donors of goofy con- all men in office, from the highest Mrs. Alfred Chubb, Mrs. Sarah tributions? Laughter is an infinite- to the lowest, required to give ac- Bunt and Mrs. Charles Bottum. ly harder thing to combat than ver- count of their stewardship. bal arguments.

The unfortunate thing is that, had the Congressmen been willing to forego the pension action or had proceeded with less haste, the people might have been brought to see that there is something to be said for a pension bill for Congressmen. It would free them to a degree from having to consider the constituents back home when they voted on a bill that ought to be considered in terms of good for the whole country, even if it might not be popular with the Congressman's constituents.

### Not Now, They Say

There are things to be said in favor of a pension bill, but the American people do not seem in a mood, at present, to listen to those things.

Ridiculous as the pension bill for Congressmen situation has become, it does have this exceedingly beneficial effect. It tends to make the people look more closely at the conduct of members of the House and the Senate. It serves as a warning that the people, in the serious situation that is confronting this country and the world, are beginning to become restless when they hear about politicians looking to their own fortunes rather than that of the United States.

Every Congressman up for reelection will have to expect that his record will be scrutinized. One would even be safe in saying that the country as a whole might be considerably better off if some of the men were not returned. As far as that is concerned one might even suspect that it would be profitable to the country in the long run, to pay some fellows to go back home and stay there.

### Choose the Man

Party loyalty may be a necessary thing in peace times. It has 32 Greek letter. 53 Comes back its advantages, but, it seems to me, 24 Two (Roman). that today any intelligent person, who is really concerned in keeping intact our form of democratic government and in retaining the rights and privileges given us by that form of government, can do no less than elect men to office not because they are Democrats, Republicans. Protestants or Catholics, business men or college professors, but because the candidates have records of integrity and high ideals, because they have shown themselves the men to handle the

And one suspects that when we begin to hear what this war will cost us, not in money (though that makes some gripe) but in men, the American people are going to rise to demand that men in office do their duty, that when they are found derelict they shall be ousted promptly. We might content ourselves with grumbling when mistakes are made that involve money, but mistakes that may cost human lives will not be so indifferently tolerated.

When the American people are

### Townsfolk Are **Invited To Hear** Fine Singing

"The Madrigalists" will give a program at 9:50 this morning in the auditorium of the Northern Michigan College of Education. There is no admission charge and townsfolk are invited to attend.

Ensembles given over entirely to the singing of madrigals are still somewhat unusual, and this is the first program of its kind given in

The madrigals are short and the program in consequence is much shorter than one might judge when first scanning the selections. As the reader will note the songs are varied, chosen to afford opportunity to sing distinctive music from many divergent sources. Following is the program:

English madrigals: 'Sing We and Chant It" ... Morley "Weep, O Mine Eyes" .... Bennet On the Plains, Fairy

Italian and French chansons: 'Il biano e dolce cigno" . . Arcadelt "Gia torna" ...... Marenzio
"Au joli bois" ...... Tessier "Quand mon mary" ......Lassus Intermission Part songs and glees: "Never Weather-Beaten

Which is the Properest Day to Sing" .....Arne

English folk songs: "The Dark-Eyed Sailor" (arr.) Vaughan Williams 'Just As the Tide Was Flowing" (arr) Vaughan Williams

White spirituals from the southern mountains: "The Hebrew Children" "Lonesome Valley" .(arr) Buchanan "The Old Ship of Zion" ...... (arr) Gatwood

VI. American folk songs: Elanoy" (Illinois) .... (arr) Lief 'Bangam and the Boar" 'Leather Wing Bat" Tarry Rinkum Rarey" (Arkansas) (Arkansas) .....(arr) Lief

### BACON AND EGGS New ways of serving tried and

proven dishes give many a meal the desired life to place it above average. Here's the way Gene Tierney, screen actress, likes bacon and eggs. She separates the whites from the yolks, keeping each yolk carefully separate from the others. Whips up the whites until stiff, butters slices of bread on both sides, places a thin slice of cheese on each slice, swirls the whipped bread, leaving a hollow in the cenraisins, chopped; 3-4 cup currants, Strips of bacon cut the right size top egg whites. All this goes into Add molasses and sour milk to the broiler on the lowest rung and the chopped suet. Mix and sift brolls until bacon is crisp and egg two cups of flour with the soda, white lightly browned. It's hearty salt and spices, then combine with and has gobs of eye and taste apsuet mixture. Dust fruit with re- peal. maining flour and to batter. Pour

### War Changes Way Of Living In Scotland

Mrs. Jean Melvin, 301 West Kaye avenue, is a staunch American now, proud of her adopted country and keenly loyal to it, but she was born in Scotland and, like all Scots, her thoughts turn to relatives in the old country now and

For some years, she has been sharing with the editor of this page, the Christmas issue of "The Northern Scot."

This year's copy, which arrived recently, is smaller as to the number of the pages and carries reminder of how the war has changed the way of living. Bought Fighter Plane

For instance, on the first page appears a picture of a plaque with a message issued by the Ministry of Aircraft Production: "In the hour of peril Moray Spitfire fund, through "The Northern Scot," earned the gratitude of the British nation sustaining the valour of the Royal Air Force and fortifying the cause of freedom by the gift of spitfire aircraft. They shall mount up with wings as eagles.

In the spring of 1941, "The Nor-Wheeler, Ga., isn't happy about it. tures of the fighting plane show the name "Moray" on the fuselage. There are pictures of the Moray-

shire Home Guard unit in uniform, and other pictures of young Scots who are prisoners of war, three brothers on active service, and of Elks mixed cribbage play at 8 to-ight in Elks clubrooms. other lads from Moray who lost their lives in the war. Back to Horse and Buggy

The dearth of automobiles and petrol were responsible for another picture which shows Mr. Cochrane Fraternal Order of Eagles, 8 and his daughter, seated in an open summer in that vehicle. There is a whole page of soldiers

# Sentinels Beat Soo Again; Play Here Tomorrow In Non-League Tilt

## **Indian Rally** Falls Short; Score, 8-7

(Special to The Mining Journal)-The Marquette Sentinels continued their scoring rampage here this afternoon to nip the fighting Sault Ste. Marie Indians, 8 to 7, in a Northern Michigan Hockey league battle played before 2,053 fans, largest crowd of the season at the

The victory assured Marquette of at least a tie for first place when the schedule is completed and boosted the Queen City sextet to six full games ahead of the second-place Lock City crew.

It marked the first time the Sentinels played the new Soo team and, as they have against the other aggregations placed on the ice this season by Coach Taffy Abel, they won quite handily. Red McClure and Pat Wilson have been added to the Soo roster.

### Brink Joins Sentinels

Milton "Curly" Brink, who performed here as playing coach two seasons ago, made his debut in a Marquette uniform and celebrated it by collecting a goal in the second period. Brink has been working in his home town, Eveleth, Minn., and was signed up just in time to beat the February 15 deadline. He will complete the season with Marquette and will participate in the playoffs.

today's triumph, scoring the Sen- tor's badge. tinels' second goal and gaining assists on three others. Soo's Don Olson acquitted himself well, also. Handsome Don made the Indians' first goal five minutes after the opening bell, and he also made the Indians' last goal a minute and a half before the game ended.

Marquette held a 2-1 lead in the first period, stretched it to 5-2 in the second and then hung on grimly while Soo staged a determined rally in the finale. The Indians outscored Marquette, 5-3, the last period.

### Meet In Marquette Tuesday

## **Range Union** Negotiates For Contract

ISHPEMING, Feb. 15—The Marquette Range Industrial Union has the end of the shipping season on started negotiations with the the Great Lakes, didn't arrive last a contract to cover workers at the store for the coming season. Princeton and Negaunee mines, op-

erated by the company. The contract would give the Range Industrial Union sole barhours of employment, vacations and seniority preferences.

The Industrial union, to obtain of sportsmanship and cooperation, the contract, must submit proof of it is difficult for a group to fail in membership of 51 per cent of the employes whom the contract is to affect. Officials asserted today they can show 90 to 98 per cent membership at the Princeton mine.

The Range Union already has six ontracts with the Cleveland-Cliffs Iron company, covering employes at the Cliffs Shaft, Lloyd, Athens and Mather mines, the Tilden open pit

# **British Win Aerial Battle**

(Continued From Page 1) British lines between El Mechili

and Tmimi and it appeared that they might try to bypass Tobruk. The RAF communique spoke of British troops in the Acroma region, but did not make clear whether the battle lines had been pushed back to that point. If so, it would place the Axis within 90 miles of Egypt and represent an overnight dvance of 30 to 40 miles. Movements behind the German

lines indicated that Rommel possibly was "working up to an attack," a military commentator said. (North of Axis-held Bengasi, Berlin said, German bombers sank a 9,000-ton transport and damaged two others totaling 15,000 tons so badly that they were considered lost. The Germans said the ships were sailing in two British convoys and that two light cruisers, two destroyers and a large merchant ship were hit by bombs. The Germans also said they dive-bombed British columns in the Ain El

Gazala region. (Rome claimed the Axis forced a British retreat east of El Mechili and that German and Italian columns continued intense activity to the rear of the enemy. Tobruk was bombed and five Curtiss planes were shot down in dogfights, Rome

LLOYD LE VASSEUR,

STATE OF MICHIGAN. THE CIRCUIT COURT FOR THE COUNTY OF MARQUETTE IN CHANCERY

In the Matter of the Petition of Vernon J. Brown, Auditor Gen-eral of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

To the Circuit Court for the County of Vernon J. Brown, Auditor General of the State of Michigan, respectfully shows

That he is the Auditor General of the State of Michigan and makes and files this petition under, by virtue of and pursuant to the provisions of Act No. 200 of the Public Acts of 1893, as amended. Lot 1 except East 1200 feet. and Act No. 126 of the Public Acts of 1933, as amended;
2. That Schedule A annexed hereto is cept R/W M 94.

the tax record required by the act first above mentioned and contains the description of all lands in the aforesald county described as beginning at a point where they were returned as delinquent, the description of all lands in said county in said county which are delinquent for any installment of taxes under the

terest and charges are valid, delinquent and unpaid, and have remained delinquent and unpaid for sufficient time to authorize 17 38 1939 6.56 of, and that the said taxes, interest, collection fee and expenses so extended in said A lot in the NE corner of NE34 schedule against each parcel of land there-in described constitute a valid lien upon each of the said several parcels of land SW44 of SW34 against which extended in favor of the peo-ple of the State of Michigan, the payment of which lien this court may enforce as a NW14 of 8W14 y the sale thereof. Wherefore your petitioner prays:

a. That within the time provided by law this court may determine and decree that the aforesaid taxes, interest, collection fee and charges are valid and converted to the conver stitute a valid lien upon each of the said NE% of NE% several parcels of land described in said schedule as therein extended;
b. That within the time provided by law 29 40 this court make a final decree in favor SW1/4 of NW1/4

several amounts of taxes, interest, collection fee and expenses, as computed and extended in said schedule against the several parcels of land therein contained;

c. That said decree provide that in default of the payment so ordered of the said several sums, computed and veral parcels of land, or such interest therein as may be necessary to satis-fy the amount decreed against the same, shall severally be sold as the law pro-

to this court may seem just and equitable. And your petitioner will ever pray, etc. Dated: November 28, 1941. Auditor General of the State of Michigan, for and in behalf of said State.

## Today In Washington

By David Lawrence

WASHINGTON, Feb. 15-Bills are before Congress to guarantee to workers about 60 per cent of

18.85 er war is or is not going on the serious. cost of hardships should be borne But Budget Director Harold D. by the Government.

ing put into a state of insolvency livelihood and pay him only his vilian consumer as well as by the His presence, whether as teamsalary, for example, does not re- military and naval forces.

mulgated by the War and Navy they do material expenses. 63.42 Department and it is doubtful Many Indirectly Affected whether the heads of those de-

Salesmen Out of Luck

Without sanction of law and car owners and thus aid in conserv- whom labor, liberals and back- be served. purely as an arbitrary ruling, the ing autos and tires, but the expense bench conservatives could unite. 11.87 contract any sales expenses.

tirely to such work must disconmarkets and dismiss all its sales-3.55 men and sales management. It old customers and to maintain relawith those manufacturers who may not be converted 100 per cent to war work. It must abolish the sales department or pay for it out 16.69 of net income, which, under present day taxes, means that the cost item almost double what it was be-

Here is the Federal Government virtually confiscating the good-will 2.28 and customer relationship built up 1.39 over years and years of hard work and for which a company may That part of Lot 21 North of a straight have invested a substantial amount of capital, but there is no compensation for this confiscatory action. Businesses are not asking for it either, but many of them at least would like to be able to maintain their sales departments and pay for them out of gross income before

52.86 taxes. Could Prevent Abuse If it be thought that this might 11.08 be abused, then the regulations could easily be amended to read 9.00 that the total deduction for sales 6.28 costs should not exceed the average of the three years preceding Jan-5.64 uary 1, 1942. Thus a company 1.64 would be permitted to deduct for 1.64 tax purposes the cost of maintaining a sales department as against the time when compeition would 1.33 be suddenly resumed. The two Washington doctors have performed the operation, originated by Dr. Egas Moniz, of ances and have watched many of

### Restraint Previous Treatment

They reported the first largescale results of their work in 'Psychosurgery," a book just pubisheed by Charles C. Thomas, of Springfield, Ill.

Until the Washington physicians had the courage to begin their series of operations five years ago, the only treatment for the completely depressed or wildly nervous individual was restraint in an institution and sometimes even restraint in bed.

This treatment included sedative drugs, hot and cold baths, careful mental development by trained psychiatrists and slow restoration of minds through such handicrafts as weaving, bookbinding, sewing, painting and sculpturing.

The importance of the new operation is indicated by the fact that today more than half of all hospital beds in the nation are occupied by mental patients. Dr. Freeman and Dr. Watts do

not claim that their operation will work in every case or in even half the cases now in hospitals. Dr. Freeman, the psychiatrist of the team, determines whether the patient is one who can be benefited by the operation, which is performed by Dr. Watts, the surgeon.

Some are not benefited. They

## **Families On** Isle Royale **Await Spring**

HOUGHTON, Feb. 15—The visit of two planes to Isle Royale last week to get the selective service registration of three men living on the Island revealed interesting facts about the people who make their home on that isolated strip of land in Lake Superior.

The three men who registered for selective service are John E. Snell, William Gerber and Einard Jukari, all of whom are with the national park service on Mott island in Rock Harbor. Snell, who is 20 years of age, is from Wheaton, Ill., and Gerber, also 20, is from Menominee. Both young men are caretakers and perform a variety of duties. Einard Jukuri, camp cook, is about 42 and his home is in Allouez, Keweenaw county.

A fourth man, Karl Gilbert, is a park ranger. He left the island with the plane last week on vacation and probably will not return until spring.

### Patrol Island Monthly

The park service men at Mott island make a patrol of the entire the Japanese invaders. Island once a month, two men going on the patrol and two remaining at the headquarters camp. These patrols, made by snowshoe, sometime require from 12 to 16 days and the men are away from camp all that time. At night they stop at small cabins located in cer- By Henry Bellamann tain sections of the island and from there communicate with the Isle Royale Park Service office in Houghton each night via a portable, two-way radio. With the departure of Gilbert, the patrols will be made by Snell and Gerber. Jukuri will remain at the headquarters camp, where he also will maintain contact with the mainland by radio.

Only three families remain on the island during the winter and these reside at Hay Bay about midway along the south coast of the island and directly north of the mainland. They are Mr. and Mrs. Sievert Anderson, Mr. and Mrs. Edward Kavlick and their four-yearold son. Mrs. Skadberg is a daughter of Mr. and Mrs. Anderson.

The three families operate a commercial fishing business and reside on the island the entire year. Mr. and Mrs. Anderson have not been to the mainland in seven years. Food and other supplies are brought to these families during the shipping season by the former J. Pierpont Morgan yacht, the S. S. Winyah, now a privately-owned vessel used to haul fish to the

The Livingstones lived near the

Presbyterian church. Parris thought this must be very convenient and pleasant, but Drake did not regard it as an advantage. Drake McHugh was an orphan, too, and lived with his aunt and uncle, both of whom were as old as Madame von Eln. Drake said that when he was 21 he would inherit his money, Parris had heard people say it was too bad that Drake had to grow up without parents. He could not imagine why they said this. He had no parents either and he was very happy. He often thought that it would be very strange to have a father and mother. He was sure grandmother. It would have been

too bad, he decided, for her not to have had him all to herself. After dinner Mrs. Livingstone retired for a nap, and the Major sat on the front porch, smoking. "C'mon, Parris, let's go down in the back where it's shady."

"I hate Sundays, don't you?" Drake threw a stick at a tall

The Newspaper's Prime Function Is The Presentation Of NEWS-Quickly — Impartially — Completely

Bill and Anne Palmer live over on Church street in a nice little brick house. They might be people you know, because they're just average folks. They don't play an important part in world affairs themselves, but they're mighty interested in the people who do. They like to keep themselves informed about what's happening where, and why-and they like to know about the things that happen-WHEN they happen. So-they read the

There's a lot of significance to that. There's a lot of Bill and Anne Palmers in the world and most of them are hungry for news of that world. Naturally they turn to the one source they can depend on, that they've ALWAYS depended on, ever since they were kids. Their newspaper. They KNOW that the prime function of that newspaper is the presentation of the Newsquickly, impartially, completely. That's what your newspaper does for you. And it's an important job.

THE DAILY MINING JOURNAL "Upper Michigan's Largest Daily"
