

Dutch Prepare For Last-Ditch Stand In Java

Indies Oil Center Left In Flames

By Witt Hancock

BATAVIA, Netherlands East Indies, Feb. 16.—Gloomy but determined, the Dutch drew their lines for a last-ditch stand in Java today as the Japanese fought a \$100,000,000 petroleum fire in Palembang, southern Sumatra, rich East Indian oil center which fell to them from Dutch hands.

The loss of Palembang—producer of 50 per cent of the total petroleum output of the entire Dutch East Indies—and the apparent successful Japanese landing in force in Sumatra made the United Nations' outlook in Indies even gloomier. But the Dutch were determined to defend their positions in Sumatra to the last and continue the stand in Java.

Their determination to fight to the last was apparent in the thoroughness with which they smashed their great investment in Palembang.

Victory Costly To Invaders

Not in six months, it was estimated here, would it be possible for the enemy to set the fields flowing again, and his thrust, for all its success, cost him enormous casualties and at least seven vessels crippled by American-British-Dutch bombs dropped over the Bangka Strait just east of Palembang. Two of the ships were cruisers; five were laden transports.

Nevertheless, successive communiqués both from the Dutch command and from the Allied high command for the southwest Pacific told a story of increasing gloom.

Though Palembang's oil was lost to the invaders in a \$100,000,000 fire that represented perhaps the greatest single voluntary self-destruction of national property in history, it was lost also to the United Nations, as had been the supplies of Balikpapan and Taranakan on Borneo island. Lost, in fact, was substantially all the production of all these islands.

268 Miles From Batavia

Strategically, too, the Allied position grew worse as the enemy continued to land in force about Palembang, for that city lies but 268 air miles from Batavia, the heart of the Allied war effort on Java island. There were indications that the attack upon Java, itself, even now is in preparation.

In southern Celebes island savage fighting continued in interrupted around the area of Macassar port. How this action was going generally was not known here.

The island of New Guinea, far to the east, was again brought back into the active theater with Japanese bombings of an unstarred point on which "great damage" was acknowledged.

The struggle in southern Sumatra, meanwhile, was rising in violence to become one of the decisive battles of the Pacific war.

Come From Two Directions

The enemy's principal forces appeared to be springing from Borneo, the island to the northeast whose western coastline has been substantially occupied. There also was a possibility that Singapore's fall had released other Japanese troops for a drive due southward.

The area of reddest action was the Sumatra island stretch extending eastward from Palembang, itself, to the Bangka Strait, which separates Sumatra from Bangka island. There, where the invader's ships were sailing up the Musi river, Allied bombing planes were in violent action.

Jap Military Uniforms Uncovered in Coast Raids

SACRAMENTO, Feb. 16.—Japanese army and navy uniforms, important secret documents and three empty aerial bomb casings were among the truck loads of contraband seized by Federal agents in sweeping raids on Japanese quarters today. Thirteen Japanese nationals were arrested.

More than 30 Japanese were questioned and their homes searched. It was the third major move of the Federal bureau to counteract possible sabotage and enemy spying activities in northern California in two weeks, following similar raiding operations at Vallejo and Salinas.

Nat Pieper, chief of the FBI at San Francisco, personally supervised the more than 20 separate raiding parties which combed the Japanese section of Sacramento and searched enemy alien residences in the vicinity of air fields and vital military installations.

The army and navy uniforms, the number of which was not disclosed, were seized in the custody of T. Takahashi, secretary of Tojo Kai, an organization of former Japanese naval officers.

Pieper said Takahashi claimed the uniforms were for ceremonial purposes only. The bomb casings also were found in Takahashi's custody, Pieper said.

Detroiters Plead Guilty To Swindling Charges

FLINT, Mich., Feb. 16.—Two of five persons charged with swindling several hundred persons of thousands of dollars through sale of stock in a "mystery machine" supposed to yield huge profits pleaded guilty today to violation of the "blue sky" laws.

The two, Carlton G. Horton, 39, and Dr. Edward R. Smith, 57, of Detroit, appeared before Circuit Judge George Desjardins, of Lapeer, shortly after waiving municipal court examinations. They will be sentenced March 10.

Jap Subs In Indian Ocean, Tokyo Reports

TOKYO (From Japanese Broadcasts), Feb. 16.—Navy Minister Admiral Shigetaro Shimada told the Japanese parliament today in a report on the fall of Singapore that Japanese submarines already were in the Indian ocean and that Japanese naval operations there now would be increased.

Similarly forecasting broadened operations now that Singapore has been knocked out, Col. Hideo Ohira, chief of the army press section, said in a broadcast "Japan is in a position to control the fate of India and Australia."

60,000 Surrender Arms

Reporting first to Emperor Hirohito and then to the diet, Japan's military leaders said that 60,000 British and imperial troops had laid down their arms in unconditional surrender at Singapore, and that the Japanese navy had taken over the big fleet bases and such British ships as remained there.

What ships remained were not specified, but imperial headquarters claimed earlier that 32 transports attempting to remove the British were damaged or forced aground and that the 5,200-ton British cruiser Arethusa, a light cruiser, an auxiliary cruiser, a submarine and two gunboats were among vessels believed sunk.

Word of the fall of the British stronghold of 10 p. m. Sunday (9 a. m. EWT Sunday) brought out the biggest headlines of the war in Tokyo newspapers and touched off great street celebrations.

Formal observance of the victory will be Wednesday when the main body of Japanese troops is expected to enter the city.

K. C. Supreme Treasurer, Daniel J. Callahan, Dies

WASHINGTON, Feb. 16.—Daniel J. Callahan, 75, supreme treasurer of the Knights of Columbus since 1930 and widely known as a banker and steamship executive, died tonight at his home of a heart attack which followed a two weeks' illness.

Loss of Singapore To Force Revision of Allied War Plans

By KIRKE L. SIMPSON
Wide World War Analyst

The fall of Singapore is the bitterest British military defeat in generations. Its cost in men and battle equipment not only to Britain but to the United Nations is certainly heavy. And the strategic consequences are not yet full measurable in either a military or political sense.

Japanese hands that powerful British Gibraltar of the east imposes a grim veto on Allied plans for early reconquest of the China sea. Coastal batteries on which Britain lavished millions to dominate the vital Indian ocean-China sea-Pacific communication link will now be turned against her.

Few Footholds Left

The only remaining United Nations footholds in the China sea are the Manila bay forts, the tip of Bataan peninsula held by MacArthur and his men, and isolated spots garrisoned by American-Filipino detachments elsewhere in the Philippines. How long they can hold out is questionable. They already have wrought a military miracle of gallantry and endurance their countrymen can never forget.

Even before Britain's flag came down over Singapore, the Japanese foe was using his Malayan victory as a springboard for a new and dangerous stab at the Dutch Indies. His invasion forces are already firmly planted in Sumatra, across Malacca Strait, Dutch destruction of priceless oil wells and installations on that westernmost island of the Netherlands Indies indicates a further Allied retreat to Java already is in motion.

There is no escape from the

Navy Honors Its Hero Dead

Led by Admiral Chester W. Nimitz (right center), and his aide (just to his right), the officers and men of a U. S. warship salute their dead—heroes of the Pacific Fleet's force surprise attack on Jap bases in the Marshall and Gilbert islands, February 1. Services were held aboard the naval heroes' ship at Pearl Harbor.

Pair Still Sought In Six-Year-Old Murder

ST. JOSEPH, Mich., Feb. 16.—Sheriff Al Hastings, of Berrien county, said today that two persons are still sought in connection with the murder of Austinio Gagliano, Millburg fruit farmer, following the arrest of Gagliano's widow, Mary, 59, in Chicago.

Two nephews of the slain man have already been sentenced. Joseph Neuf, 30, was convicted of first degree murder a year ago and is serving life. Sam Tomasiolo, 31, pleaded guilty to second degree murder and was sentenced to 20 to 30 years.

Gagliano was killed on Feb. 1, 1936.

House Begins Consideration Of Supply Bill

WASHINGTON, Feb. 16.—The House began consideration today of a \$221,169,700 supply bill for the State, Commerce and Justice departments, but turned the debate into a free-for-all discussion of oil, actors, dancers, preparedness, the British fleet and Congressional sessions.

The debate will be resumed Wednesday. Tomorrow is to be given over to debate on, and anticipated quick passage of, an emergency measure appropriating approximately \$32,000,000 for the War department, the Maritime Commission and the lend-lease administration.

The interest was displayed in the bill taken up today which appropriates for the 12 months beginning next July 1, \$26,994,400 for the State department, \$84,438,600 for the Justice department, \$97,307,000 for the Commerce department and \$12,259,700 for the judiciary.

Add Funds To Train Pilots

The House appropriations committee increased by approximately \$16,000,000 a budget request for civilian pilot training. The budget bureau asked \$20,069,919 to provide instruction for 31,900 pilots.

Reds Occupy More Towns On Vast Front

By Eddy Gilmore

MOSCOW, Tuesday, Feb. 17.—The Russians announced officially today the occupation of several more points on the vast winter front with "heavy losses in manpower and material" inflicted on the Germans, but front dispatches indicated the Nazis were hurling into action the reserves which they had hoped to save for their spring offensive.

A supplementary communique also said that in the northwest Red cavalrymen had retaken 40 more inhabited localities in the last few days.

The regular Soviet information bureau communique did not name the localities, a characteristic omission for more than a week now. (But the BBC in a broadcast heard by CBS said the Red army striking south of Smolensk had crossed the Sozh river, a tributary of the Dnieper which flows southwestward into White Russia. No source was given for the report.)

Say 65 Transports Sunk

Reports from the Baltic said the Red fleet had sunk 65 enemy transports laden with equipment, troops and supplies in seven months. One submarine was credited with destroying 38,000 tons of enemy shipping.

The BBC also quoted Moscow reports that "a Russian village has shelled a German-occupied village at the approaches to Leningrad," after battering through ice jams to get at the Nazi fortifications.

(The London radio also said Moscow had announced the occupation of several more villages on the southern Donets front where "the enemy is in retreat with the Russians hard on his heels.")

The Russians, without revealing the disposition of their troops, were trying hard to disrupt any Nazi effort to get set for the promised spring blows.

Court-Martial Demanded For Kimmel and Short

WASHINGTON, Feb. 16.—Representative Young (D-Ohio) demanded today court-martial proceedings against Rear Admiral Husband Kimmel and Major General Walter N. Short, blamed by a board of inquiry for some events that enabled the Japanese to carry out their attack on Pearl Harbor.

Criticizing the officers for requesting retirement to civil life instead of asking to tell their story before a military court, Young declared that "Americans must get tough" and insist upon a trial whether officers wanted it or not.

"Instead," said the Ohioan in a House speech, "of requesting that court-martial proceedings be instituted against them, which would be the natural thing to do if their conduct is to be vindicated, it is stated that they have requested retirement."

"Is this because of consciousness of guilt? If we permit Admiral Kimmel and General Short to retire, American taxpayers will be compelled to pay these two officers \$5,000 per annum each."

"I denounce this. Americans must get tough. Dictatorship aggression leaped at us. These officers acted as if the isolationists had been right all along. We have been forced backward. The nation is in peril."

Young declared that the officers should be punished if proved guilty of dereliction of duty.

Welsh Wins Plurality In Grand Rapids Vote

GRAND RAPIDS, Mich., Feb. 16.—Mayor George W. Welsh won reelection tonight when he received 79 votes more than 50 per cent of the total vote cast for the four candidates for mayor.

Welsh received a total of 10,813 votes while his closest opponent, Ernest T. Conlon, received 5,033 votes. Joseph A. Kozak received 3,515 and Joseph P. Wright polled 2,166.

Court Upholds Bethlehem Profits in World War I

WASHINGTON, Feb. 16.—A twenty-two per cent profit claimed by the Bethlehem Shipbuilding corporation under 13 contracts of World War I was upheld today by the Supreme Court with the finding that, although it seemed high, it conformed to "the standard established by common practice" at that time.

The decision noted that "in this country, every war we have engaged in has provided opportunities for profiteering and they have been too often scandalously seized." In the same paragraph, however, it added that Congress had ample authority "to protect the nation against war profiteering" and it was not up to the court to do so.

Launching Of Warship Ends 'Defense Era'

By A. F. Hannan, Jr.

PORTSMOUTH, Va., Feb. 16.—The new 35,000-ton battleship Alabama, which Secretary of the Navy Knox confidently asserted was one of the "ships which will bring us victory," was launched here today as thousands cheered her down the ways into the Elizabeth river.

Knock described the launching as signaling the end of a defense era, and the beginning of a "war era," as thousands, many who had fasted, stood with steel and welder's torch, sturd in driving rain beneath her towering bow to witness the impressive ceremonies.

Within less than four hours the giant was towed into a biting basin where she will get her guns—nine 16-inch mounted on three turrets, plus latest type anti-aircraft armament and secondary broadside batteries.

9 Months Ahead of Schedule

The 680-foot vessel, capable of more than 27 knots speed, was launched nine months ahead of schedule, and Knox declared that welding and other methods employed in her construction had decreased structural weight so as to add measurable to her gun, armor and ammunition capacity.

As the Alabama, first battleship built here in almost 50 years, slid down the ways, workmen in the giant Navy yard made ready for laying the keel for the Kentucky, which will be larger, by 10,000 tons, than the ship christened today.

The Alabama was the sixth battleship to be launched under the defense building program, and the last of a class of four which includes the Massachusetts, the Indiana and the South Dakota. Knox revealed some of her sister ships already have joined the fleet.

THREE DIE IN CRASH

HOBBS, N. M., Feb. 16.—Three men were killed and two were injured in a highway accident 12 miles south of here Sunday. Roy Linn, of Bay City, Mich., first listed by state police as fatally injured, was in a satisfactory condition today, hospital attendants reported. The five were members of a drilling crew enroute to an oil field near here.

U-Boats Believed Sunk After Hitting Tankers, Smelting Oil Refinery

Peril Grows For American Bataan Forces

WASHINGTON, Feb. 16.—Singapore's fall put defenders of the Philippines on the alert today against a shift of Japanese air and other forces from Malaya to the Manila bay fighting front.

Resumption of the attempt to bomb Corregidor into helplessness was viewed by qualified military observers as a possible result of the release of the Japanese forces which conquered Singapore.

The enemy bombers abandoned the Manila bay fortress after a month ago approximately a score of planes taking part in successive raids had been shot down by anti-aircraft gunners.

The fall of Singapore likewise released Japanese artillery and tank forces which may be used in a drive to retake defenders of the Bataan peninsula.

Big Guns Open Up

Heavy artillery fire in Bataan today signalled an apparent Japanese attempt to knock out the hard-hitting American field guns which have helped hold the foe at bay.

The enemy artillery has been hammering away steadily in the last 24 hours, the War department reported. Enemy warplanes have been spotting the effect of the firing and blasting at American guns and their crews with bombs.

The latest turn of the Philippine struggle, viewed as another preliminary to a renewed full scale offensive against General Douglas MacArthur's little army, was keenly watched by official observers because of the defenders' effective use of artillery in smashing previous attacks.

Normandie Not Beyond Salvage, Officials Claim

NEW YORK, Feb. 16.—Rear Admiral Adolphus Andrews, commandant of the Third Naval district, here today said the "ultimate" loss of the \$60,000,000 Normandie today, but district headquarters explained later that he did not mean the vessel was beyond salvage.

In a letter to Mayor F. H. LaGuardia thanking him for police and fire work in combating the flames which eventually caused the giant vessel to topple over, Admiral Andrews wrote:

"The ultimate loss of the ship in no way detracts from the credit due you and civilian forces who lent their every effort in our behalf."

The district public relations office said later that the commandant referred to the capsizing of the ship when he spoke of "ultimate loss" and did not mean to imply that it was lost completely.

A special naval board is investigating the fire.

Nazis Ready for New Blow; To Drive Through Turkey?

By E. C. Daniel

LONDON, Feb. 16.—While the desert armies in Libya, on the western flank of Suez, maneuvered toward what appeared likely to be another major battle, the portent of a coming German storm through Turkey on the other flank appeared in reports reaching London today.

From Turkey, more on guard than ever, came travellers' accounts saying that the Germans in Bulgaria, Rumania, Greece and the captive Greek islands almost within a stone's throw of the Turkish shore were assembling prepared, building concrete barges, gathering fleets of little motor-sail boats, rushing airports to completion and noisily practicing disembarkation tactics from rafts.

Mass Planes, Troopships

Private reports reaching London mentioned increasing concentrations not only of fighters and bomber aircraft in Nazi-held southeastern Europe but also of air troop transports and Stukas.

The same sources said the Italians were building at Genoa two huge mercantile submarines similar to the German Deutschland, which visited the United States during the World war, possibly with the hope of establishing trade with the Far East if the Suez canal can be seized.

Available clues to Hitler's plans indicated that the Germans might intend merely to hold their line in north and central Russia while coordinating a drive through Turkey

Killed 116 Japs

Capt. Arthur W. Wernuth (above) of Chicago was reported by AP correspondent Clark Lee to have killed 116 Japanese and captured many more on Bataan peninsula, Philippines. His fellow Filipino Scout officers call him America's No. 1 one-man Army. This photo was made about the time of his graduation from Northwestern Military Academy near Lake Geneva, Wis., in 1932. Wernuth has won the Silver Star for gallantry, the Distinguished Service Cross and the Purple Heart award with two clasps.

Japs Control Thaton On Burma Front

By Daniel De Luce

Rangoon, Burma, Feb. 16.—The British announced today their troops have withdrawn from the Thaton-Duynzeik area to the line of the Bilin river, about 30 miles nearer Rangoon.

This withdrawal, carried out yesterday, apparently left the Japanese in control of Thaton and brought the British right flank to about 40 miles north of Moulmein at a point where the Bilin empties into the Gulf of Martaban.

The Bilin flows north and south and the new British lines presumably were re-established along its west bank. Here the imperial forces occupy more concentrated positions from which they will be better able to combat Japanese spearheads thrusting toward the Burma road, China's lifeline.

The official British announcement said the Japanese did not attempt to interfere with the

U.S. Planes Attack Raiders Off Aruba

By Chandler Diehl

BALBOA, C. Z., Feb. 16.—Lieut.-Gen. Frank Andrews, U. S. commander of the Caribbean defenses, said tonight there were indications that American airmen sank some of the German submarines whose torpedoes crashing into two small tankers at the Dutch island of Aruba early today sent 24 seamen to a flaming death.

General Andrews and his aide, Capt. Robert Bruskin, were in Aruba on an inspection tour and were jolted out of their beds about 1:30 a. m. when the torpedoes struck in the harbor.

"Flames were shooting straight up and seemed mountainous," said Captain Bruskin, in telling of the scene he and the general saw as they rushed toward Nicholas bay.

Hear Cries Of Crewmen

One of the tankers "just seemed to break apart," and the officers said they could hear the cries of the stricken crewmen in the baracuda-infested waters where oil blazes engulfed the sailors.

General Andrews said American planes stationed on Aruba and the nearby island of Curacao to aid the Dutch garrisons immediately took off and that oil slicks found on the water some distance from the smashed ships were indications that the submarines were hit.

A stream of tracer bullets or shells flashed over the heads of General Andrews and Captain Bruskin as the Nazis sought to hit the Lago oil refinery ashore.

"We figured there were 10 or 15 shots," the captain said.

A torpedo which General Andrews said was of German make was found ashore. It was 18 feet long, and had missed its target.

Two men were known to have been killed, and 15 others were missing from one of the tankers which exploded almost immediately. Seven were missing from the second ship, and in addition 18 men were hospitalized.

Find Shells In Yard

General Andrews also said that the raiders struck again at 3:15 a. m., sending one torpedo into a sea-going tanker of American registry, but that ship was not sunk and none of its crew was injured.

Herbert White, an Associated Press photographer who was with the American officers, said that at daylight the officers found the fragments of apparently four-inch or six-inch shells in the refinery yard.

Happening to be in Aruba overnight on an unscheduled but customary inspection tour, the general was awakened about 1:30 this morning when two tankers anchored outside Nicholas bay were attacked.

He said they were small, shallow-draft ships used for carrying oil from Venezuelan fields. One was sunk and the other wrecked otherwise, he reported.

The submarines then fired at the refinery of the Lago Oil and Transport company.

"A few shells at the refinery went over us."

Then a sea-going tanker of an American registry was attacked, but not sunk in a subsequent attack at 3:15 a. m.

None was hurt on the big sea-going tanker.

Find Torpedo on Shore

First reports were that three officers and 12 of the crew were missing out of 25 aboard the coastwise ship which exploded and sank. Seven were reported missing, two dead and 18 hospitalized out of the

(Turn to Page 9, Column 6)

Army Lowers Physical Standards For Servicemen

WASHINGTON, Feb. 16.—The United States, organizing its military might to crush the Axis, enrolled perhaps 1,650,000 youngsters aged 20 and 21 and roughly 7,350,000 older men today for possible service with the armed forces.

There was a grimness about this first wartime draft registration since 1918—less of banter among men waiting in lines—that contrasted with the first roll call 17 months ago of those aged 21 to 35.

But reports from over the country indicated that it was carried out with smooth efficiency by the volunteer selective service machinery, which had been geared to its task by two peacetime registrations.

The pool of manpower was enlarged further today with an announcement by the Army that it had lowered physical standards to make available for military service a larger ratio of new draft registrants and thousands of others who previously had been given deferred classifications. The requirements for teeth and eyes have been modified.

Ordinance On Light, Power Rates Adopted

Sweeping aside all objections to revision of electric light and power rates, including a petition signed by a large number of Trowbridge Park residents, the city commission last night passed an ordinance regulating the rates and conditions under which electricity will be sold by the city outside its corporate limits after March 1.

The vote for the ordinance was 3 to 1. Mayor Biegler and Commissioners Anderson and Tierney supported the measure and Commissioner McGinley voted against it. Commissioner Patrick was absent.

Lighting Rate

Under the new schedule the standard lighting rate, applicable to customers using lighting and small appliances, will be 5 cents per kilowatt hour for the first 200 KWH, 4 cents a kilowatt hour for the next 100 KWH's, 3 cents for the next 100 and 2 cents for all over 400. The minimum charge will be 50 cents per month for annual customers and \$1 a month for seasonal camp customers, except where a higher minimum applies or where electric motors are used.

Under the combined lighting and heating rate, which applies to residential and non-commercial customers using an electric stove, water heater or some major electric heating device, 5 cents a kilowatt hour is charged for the first 50 kilowatt hours and 2 cents for all over 50. The minimum is \$3 a month, except where a higher minimum applies according to rules. Minimum charges for camps will be made only for six months out of each year.

Range of Minimums

The minimum rates will range from a low of 50 cents a month for standard lighting to a high of \$3 a month for combined lighting and heating rate in certain sections. In no cases will the minimum charges be less than the present minimums in localities as shown below:

Location	Lighting Range	Tot.
Trowbridge Pk.	\$.50	\$1.00
Harvey	.50	1.00
Lakewood	.50	1.00
Middle Island Pt.	.50	1.00
N. of Middle Isle	1.00	2.00
Negaunee twp.	1.00	2.00
Cherry Creek	1.00	2.00
Sands	1.50	3.00
Green Garden	1.50	3.00
Skandia	1.50	3.00
Carlsend	1.50	3.00
Lawson	1.50	3.00
Dukes	1.50	3.00

Regulations provide that when heating devices of more than 1,000 watts and motors of more than one horsepower are used they must be approved by the light and power department as to load and starting characteristics.

Neon and fluorescent lighting units must include corrective devices to create the highest possible power factor, and all wiring must conform to the national electric code and must pass inspection by the regular city inspector.

No Guarantee

If any appliance or device proves to be detrimental to the service to other customers, due to condition or size, service may be discontinued until the appliance or device is corrected or eliminated. The city will not guarantee continuous service and will not be responsible for damages resulting from power failure.

In support of the ordinance Mayor Biegler pointed out that under existing rate schedules for areas outside the city much current is being sold at a loss. In the case of one person who complained against the proposed increase it was found that he obtained current at an average cost of 1.25 cents a kilowatt hour, compared to a production cost, exclusive of plant and other fixed overhead, of 1.50 cents a kilowatt hour.

Little or No Profit

In six out of 25 bills selected at random for Trowbridge Park customers, the mayor said, it was found that the city made little or no profit on the sale of current. The average cost a kilowatt hour to these customers was 1.55 cents, 1.35 cents, 1.22 cents, 1.64 cents, 1.02 cents and 1.25 cents.

"In these cases," the mayor added, "it is obvious that the Trowbridge customers paid less than city customers. We cannot sell current at a loss at the expense of city taxpayers."

Supporting the mayor, Commissioner Tierney asserted it not only was imperative that rates be revised in keeping with the costs of production and distribution, but also that the light and power department maintain "a good, big sinking fund for emergencies."

In another case an owner of two houses in Trowbridge Park complained that he would lose his tenants if rates were revised. An investigation showed that whereas the tenants paid on the average of only 1.43 and 1.66 cents a kilowatt hour, the landlord, a city customer, paid an average of 1.79 cents.

In conclusion, the mayor asserted that there is no foundation for the rumor that rates in the city will be raised. "It has never been discussed," he said, "and it is not contemplated."

Action on purchase of copper cable for the light and power department and 12 water meters for the water department was deferred for one week in the city.

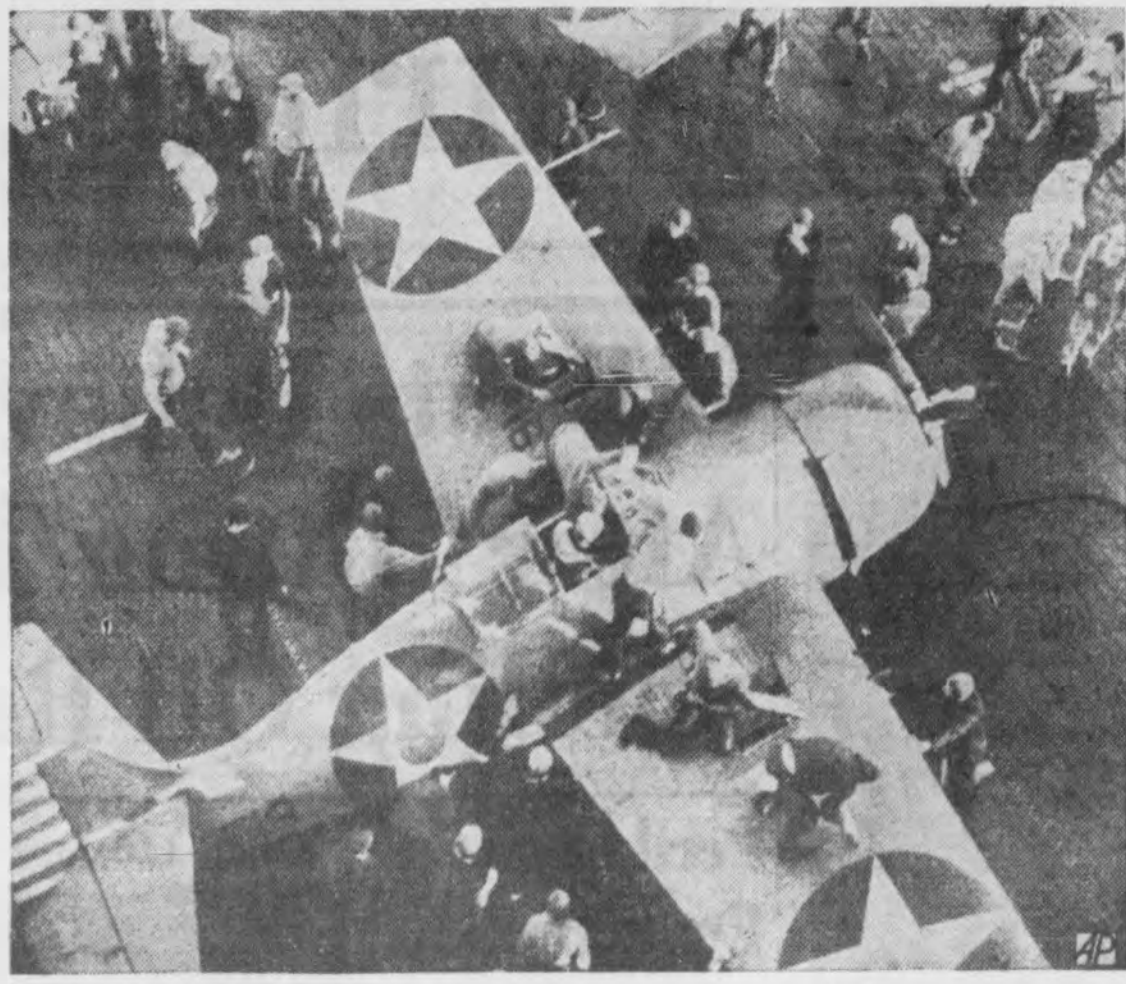

The request of T. R. Coats for permission to erect a sign at 412 South Front street was referred to the department of health and safety with power to act.

Students Volunteer For Extra Body-Building Drills

Northern Michigan College of Education men students, many of whom probably will see some form of military service before the end of the war, realize the value of physical training in preparation for such service.

That's why many were quick to volunteer for extra hours of training when Coach C. B. Hedgecock received requests from armed services to institute additional body-building work.

The War and Navy departments and Marine Corps suggested additional participation in boxing, wrestling, swimming and track, but Northern, lacking a swimming pool, has substituted gym apparatus drill for that sport.

Five Periods Weekly

College rules require only three hours' weekly physical education for freshmen and two for second-year men, while upper classmen are not compelled to participate.

However, many juniors and seniors already have signified their intention of partaking of all the physical training they can get and freshmen and sophomores are increasing their participation to the limit.

Boxing and wrestling classes are being formed in addition to classes in apparatus work, which includes among other things, training on horizontal and parallel bars and tumbling.

"Apparatus work," Coach Hedgecock said yesterday, "is considered superior for developing muscles, particularly in the shoulders, and while we lack swimming facilities it'll work no handicap."

Fun in Courses, Too

The students also will be instructed in fundamentals of military drill. Imitation rifles, are not available, but that idea may take material shape later.

Hedgecock also said that all of the five-period course (each student will be asked to train on five different days of each week) need not be undertaken in the gymnasium. Participation in weekend sports, such as skiing and skating, will be credited to each student.

Cranium Crackers

Movies still make news despite the war. While those people are standing between you and the screen, try out on these questions.

1. What child star made his American debut in "How Green Was My Valley," and where was the locale of the story?
2. What star donated her salary from one picture to charity in memory of Carole Lombard?
3. What best selling novel of 1940 has been filmed with Ann Sheridan, Ronald Reagan, Robert Cummings and Betty Field as stars?
4. Has war increased or decreased the production of movies?
5. Did the chief character in "The Man Who Came to Dinner" stay for dinner?

Answers on Page 9

Most of the 20,000 residents of Manado, Celebes, are Christians in contrast with the remainder of the island's population, which is largely Moslem and Hindu.

Stenglein Has Model Plane On Display

A model of a United States Army air corps Curtis P-40 plane, built to scale by Jack Stenglein, is on display in the show windows of the Stenglein Printing company's establishment on South Front street.

The plane is a low-wing fighter, weighing five and one-half pounds. It has a seven and one-half foot wing span and is powered by a one-third horsepower gasoline motor. It is painted silver and blue and is complete to the smallest detail, including a transparent hatch and cover.

Stenglein said yesterday the machine passed its flight test on Teal Lake last week with "flying colors," its average flight being approximately two minutes in length. It is equipped with an 18-inch propeller blade. It varies from the actual Curtis plane only in that the landing gear is attached to the body of the plane instead of the wings.

Stenglein said, "because it makes the model more durable on rough landing fields."

Stenglein has been making model planes since he was a youngster and has been constructing gas-powered planes for the last three years. He builds them in a basement workshop at his home, 517 Pine street.

The window display is well worth close inspection. Immediately in front of the large model is the wreckage of a smaller Army P-35, beside which Jack has painted the popular slogan: "Remember Pearl Harbor."

Stenglein is already at work on another model—a Bell-Aircobra with a six and one-half foot wing spread and retractable landing gear.

PRETTY POOR AVERAGE

BROOKLYN—P—This city is sending four home-grown baseball products to the major leagues this year but only one—Lefty Bob Chipman—will play with the Dodgers. The others are Cy Block with the Cubs, Sid Gordon with the Giants and Tommy Holmes with the Braves.

Man Jailed For 60 Days for Drunkenness

Peter Blist, 219 Washington street, arrested by city police for being drunk on North Fourth street, was committed to the county jail for 60 days yesterday after being arraigned in city court. The alternative sentence was payment of a \$25 fine and costs.

Joseph Huron, 1720 Tracy avenue, arrested by city police for driving an automobile without an operator's license, paid a fine of \$2 and \$1 costs.

Willard Koski, 422 South Seventh street, arrested by city police for driving without a chauffeur's license, paid a fine of \$2 and \$1 costs.

John Karkku, 2001 Fitch avenue, paid a fine of \$1 and \$1 costs for hauling a truck load which exceeded in height the maximum allowed by state law, 12 feet, six inches. He was arrested by state police on US-41.

1,026 Sign In Marquette For Draft

One thousand and twenty-six men between the ages of 20 and 44 registered in Marquette Saturday, Sunday and Monday for U. S. Army duty under the selective service act.

The registration was the third since the act was passed and affected men who had not registered on September 16, 1940, or last July.

The draft board announced yesterday that the draft lottery will be held within the next few weeks and that new registrants would be classified as soon as possible after the lottery determines their order numbers.

394 At City Hall

The registration place in the city hall building had the biggest "run" yesterday, 394 registering between 7 a. m. and 9 p. m. One hundred and thirty-seven signed up at the Fisher street school, and 96 registered in North Marquette at the 5-B precinct polling place on Presque Isle avenue.

In addition to the 627 enrolled yesterday, 399 registrations were taken by the draft board Saturday and Sunday, including men who called at the office in the Vierling block and those who signed at industrial plants. Registrants at the Cliffs Dow chemical plant are not included in the total, 1,026. No report was received by the board from that plant last night.

Michigan

Township Primary—The following candidates were named on the Michigan township ticket in the primary election held here Monday:

E. G. Muck, supervisor; Gus Schwendeman, clerk; Kate Dierich, treasurer; Harold Strom, highway commissioner; Pat Anderson, overseer of highways; E. R. Christensen, justice of peace; Dorothy Elmes, board of review; Albert Olson, Edward Allison; Russell Jalava, Wilfred Young, constables.

Merchants Will Convene On March 2

The annual dinner-meeting of the Marquette Retail Merchants bureau will be held in the Clifton hotel Monday, March 2, beginning at 6:30.

The question of whether parking meters would help to relieve parking congestion in downtown Marquette will be taken up. Other subjects to be discussed are the closing schedule for 1942 and truck delivery regulations.

L. C. Aschom, chairman of the bureau, will preside. Some musical instrument strings are now wound with a nylon filament to protect them from excessive moisture and wear.

Warns Constipated Folks About Lazy Liver

Many doctors say constipation with its headaches, mental dullness, that half alive feeling often result if liver bile doesn't flow freely every day into your intestines—so take Dr. Edwards' Olive Tablets to insure gentle yet thorough bowel movements. Olive Tablets are simply wonderful to stir up liver bile secretion and tone up muscular intestinal action. 15¢, 50¢, 60¢. All drug stores.

85 Attending FBI Police School Here

Eighty-five members of the Upper Peninsula Association of Law Enforcement Officers and others registered here yesterday for the U. P. police school sponsored by the Federal Bureau of Investigation. Classes will be held daily during the week in the city hall auditorium.

Civilian defense is the theme of the conference, which is under the supervision of the following FBI officials: V. D. Garvey, special agent attached to the educational division of the FBI, Billings, Mont.; M. Wilson MacFarlin, special agent, Grand Rapids; Pat Munley, agent, Grand Rapids, and D. D. Moorehead, resident agent, Sault Ste. Marie.

The quarterly conference of U. P. officers, conducted by the FBI, opened the school sessions in the auditorium yesterday morning. Local arrangements are in charge of Donald McCormick, Marquette chief of police.

All officers, including city, county and state police, will attend a dinner in the Clifton hotel tomorrow evening, beginning at 6:30, to hear an address on "Civilian Defense" by Capt. Donald S. Leonard, president of the International Association of Chiefs of Police and civilian defense coordinator for Michigan. It will be broadcast by U. P. radio stations.

An address of welcome was delivered to the men yesterday by Mayor Louis W. Biegler.

February 19 "Women's National Defense Day"

LANSING, Feb. 16.—Governor Van Wagener today proclaimed February 19 as "Michigan women's national defense day," declaring he did so "in recognition of the valuable contribution the women have made, are making and will continue to make, in the cause of national unity and national victory in war."

"Women of Michigan," the proclamation said, "will render distinguished services to the victory program by sensible buying of food, by opposing exploitation of consumers, by making food last longer through careful avoidance of waste, and by refusing to help spread rumors and gossip of a vicious, detrimental or fifth column nature."

Pythian Order 78 Years Old February 19

The Knights of Pythias, one of the world's largest fraternal societies, and one of two to be founded in the United States, will mark its 78th birthday Thursday, February 19.

Although this order was founded in Washington, D. C., on Feb. 19, 1864, when Washington lodge No. 1 was instituted, it had its actual beginning in Michigan in 1858, when the ritual was written.

Justus R. Rathbone, a graduate of Madison university, New York, went to Eagle Harbor, Keweenaw county, in 1858, to teach a country school. Shortly before he arrived there, Rathbone had seen a play, based on the immortal story of the friendship of Damon and Pythias, enacted in New York. After he arrived there, an amateur theatrical society was founded in Eagle Harbor community, to help pass the long winter evenings.

Rathbone was one of the organizers of this society, and one of the plays was based on the Damon and Pythias story.

Write Ritual in Schoolhouse

Enacting this play, Rathbone became so impressed with the story of the friendship of these two ancient Greeks that an idea for a new fraternal order occurred to him. Inspired, he wrote the ritual one evening in the school house where he taught the three "R's" during the day.

A few years later he was in Washington and showed the ritual to several of the nation's highest officials. By a special act of Congress, a charter was granted for the founding of the Knights of Pythias order, and the Washington lodge was instituted with five charter members.

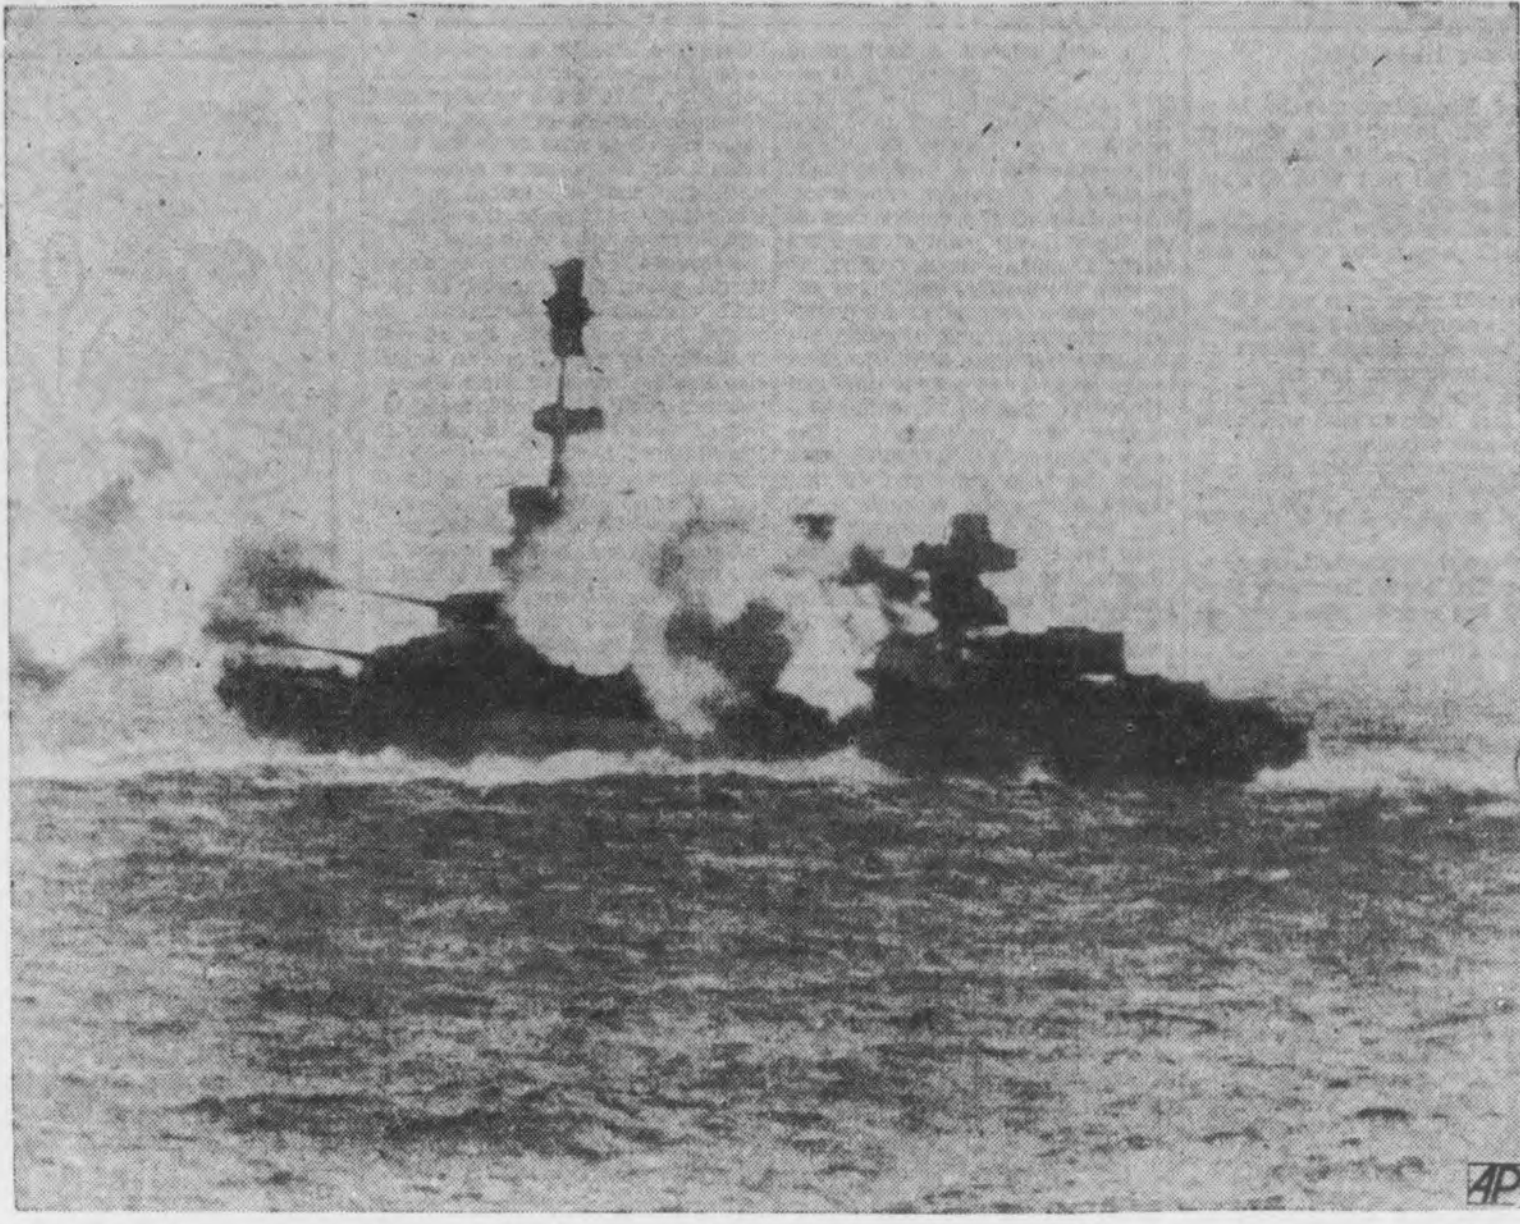

From this humble beginning on the shores of Lake Superior, this fraternal order has spread all over the United States and the Dominion of Canada with subordinate lodges in small hamlets and large cities. The school house today is a shrine of the Knights of Pythias.

In commemoration of the anniversary of the founding of the order, many subordinate lodges in the Grand Domain of Michigan are planning celebrations of the event.

Court Dismisses Abbott Suit Against Michigan

LANSING, Feb. 16.—Declaring it cannot take action in a case not started within three years from the happening of the event, the state court of claims today dismissed the \$13,000,000 suit of Charles S. Abbott, Ann Arbor attorney and engineer, against the state of Michigan.

Series of Articles Tells Facts About American Navy

WHAT is the Navy?

The question, "What is the Navy?" is much like the one, "What is the United States?" One statement can't answer the broad, general question even partially. In order to get a composite view of the world's most complex organization it is necessary to find the smallest, common denominator.

The United States is engaged in what may prove to be the greatest and most far reaching in results of any war in its history. Mr. and Mrs. John Q. Public are well aware of this and are naturally curious about America's first line of defense, the United States Navy.

This and subsequent articles will explain some of the little known or understood aspects of the Navy. Ships, Men, Bases

The word "navy" originally meant "ships of war." As world navies grew in size and importance the word navy became associated with its officers and men and now, today, is generally used to include naval bases.

Thus we have what is known as the "naval-triangle": ships, men and bases. All are of equal importance and, were one side of the triangle knocked out, two sides would collapse for lack of support.

Since each of these Navy components is indispensable, interdependent and equally important, let's take them up one by one.

First of all, ships. A warship is a combination ship, hotel, city and fortress.

What is Must Have As a ship it must be sea-worthy and able to move about at high speed. As a hotel it must have accommodations for its crew 24 hours a day. As a city it must look after the health of its citizens, be policed, provisioned with food and water and provide recreational facilities.

As a fortress it must be strong enough to withstand the shock of attack and above all it must have armament capable of striking decisive blows at the enemy.

All these facilities must be self-contained and independent of replenishment over long periods.

Our largest ships are a block and a half long, tower five stories above the water, and have a power plant large enough to supply the electrical needs of a large city.

(The U. S. S. Lexington supplied the city of Tacoma, Washington, with electricity when Tacoma's power plant broke down in 1929.)

The modern ship-of-war is a very complex unit designed so compactly that it makes a one-room hothouse seem positively roomy. It is probably the most complicated piece of machinery yet built by man.

(Next—The Battleship)

Bank Debts For City Up 18 Per Cent

Bank debts, considered one of the reliable business indices, showed a 18 per cent increase in Marquette in January over the same month a year ago, according to figures just released by the Minneapolis Federal Reserve bank.

Although Marquette's total was \$4,341,000, an increase of \$418,000 over January, 1941, and the largest in the Peninsula, Escanaba was a close second with debts of \$4,199,000, which represented an increase of 21 per cent over last year. Sault Ste. Marie, in fourth place, had the largest percentage increase, debts there soaring from \$2,202,000 in 1941 to \$3,863,000 this year, a gain of 75 per cent.

The volume of bank debts for the Peninsula average 18 per cent above January, 1941, but was below the average for the Ninth Federal Reserve district, which was 30 per cent over January, 1941.

A comparison of debts reported by U. P. members banks follows:

No. of Business Days:	Jan. 1942	Jan. 1941
Bessemer	\$ 1,207,000	\$ 1,066,000
Cabaret	1,297,000	1,429,000
Crystal Falls	497,000	518,000
Escanaba	4,199,000	3,436,000
Hancock	3,395,000	3,331,000
Houghton	1,988,000	1,629,000
Iron Mountain	3,179,000	2,442,000
Iron River, Stambaugh	1,627,000	1,540,000
Ironwood	2,874,000	2,446,000
Jaspewing	2,122,000	2,002,000
L'Anse	622,000	628,000
Manistique (1 bank)	619,000	323,000
Marquette	4,341,000	3,923,000
Menominee	3,975,000	3,186,000
Newberry	2,997,000	2,323,000
Norway	483,000	497,000
Sault Ste. Marie	3,863,000	2,202,000
Total	\$36,399,000	\$30,851,000

Dotsch, Wilson Confer With Van Wagener

LANSING, Feb. 16.—James D. Dotsch, a member of the liquor control commission, and Thomas J. Wilson, state civil service director, who recently criticized the commission's administrative practices, conferred behind closed doors tonight with Governor Van Wagener.

Wilson recommended sweeping reorganization of the commission, recommending dismissal of 115 employees at a saving he estimated at \$171,000 a year.

None of the participants would discuss what took place in the meeting, although it was understood Dotsch took issue with some of the statements Wilson made in his report. Dotsch carried into the conference a thoroughly marked copy of the civil service report.

'COLONEL' JESSICA OKLAHOMA CITY, Feb. 16.—P

—It's "Colonel" Jessica Dragonette now. At a birthday party in her honor given by Col. Earl H. DeFord and his staff, the concert singer was awarded a commission as first honorary colonel of nearby Will Rogers Field.

WIFE OF JUDGE DIES SAN FRANCISCO, Feb. 16.—P

Mrs. Olive Wilbur, 74, wife of Judge Curtis D. Wilbur, of the Ninth United States circuit court of appeals, died here as the result of a private elevator accident in the Wilbur apartment. Judge Wilbur, Secretary of the Navy in the Coolidge cabinet, suffered slight injuries in the accident.

Your Federal Income Tax

BAD DEBTS—METHOD OF DEDUCTION Bad debts constitute a considerable item in the returns of many taxpayers, and may be treated in one of two ways—either by deduction from gross income in respect to debts ascertained to be worthless either in whole or in part and charged off, or by a deduction of a reasonable addition to a reserve for bad debts. Taxpayers were given an option for 1921 to select either of the two methods. The method used in the return for 1921 must be used in returns for subsequent years unless permission is granted by the Commissioner of Internal Revenue to change to the other method. Application to change must be made at least

30 days prior to the close of the taxable year for which the change is to be effective. However, a taxpayer filing a first return for 1941 may select either of the two methods, subject to the approval of the commissioner upon examination of the return. Permission to adopt the reserve method is limited to taxpayers having a large number of accounts where credit is extended over a considerable period of time. It is not granted for the purpose of handling one specific debt.

What constitutes a "reasonable addition" to a reserve for bad debts must be determined in the light of the facts, and will vary as between classes of business and with conditions of business prosperity. It will depend primarily upon the total amount of debts outstanding as of the close of the taxable year, those arising currently as well as those arising in prior taxable years, and the total amount of the existing reserve. In case subsequent realizations upon outstanding debts prove to be more or less than estimated at the time of the creation of the existing reserve, the amount

of the excess or inadequacy in the existing reserve should be reflected in the determination of the reasonable addition necessary in the taxable year. A taxpayer using the reserve method should show in his return the volume of charge sales (or other business transactions) for the year, and the percentage of the reserve to such amount, the total amount of notes and accounts receivable at the beginning and end of the taxable year, and the total amount of the debts ascertained to be worthless and charged against the reserve during the taxable year.

Tire Ration Regulations Broadened

Under terms of new regulations received yesterday by the county rationing board practicing ministers of any religious faith are eligible to obtain tires under the first priority list and a second priority list is established under which users in eight classifications are eligible to purchase retreaded and recapped tires and new passenger tires of an obsolete type.

The provision applying to ministers reads as follows: "A vehicle which is operated by a regularly practicing minister of any religious faith and which is used principally in and is necessary to the performance of his religious duties."

Under "list B" established by the new regulations there are two classifications: (a) A passenger car used principally to provide one or more of seven transportation services and (b) trucks used for any important purpose not included in list A.

The seven services listed under the first category are as follows:

1. Licensed jitney, taxi or similar transportation service to the general public.
2. Transportation of persons to enable them to render construction or mechanical, structural or highway maintenance and repair services.
3. Transportation of executives, engineers, technicians and workers to and from, or within, such of the following as are essential to the war effort: Power generation or transmission facilities, transportation or communication facilities, or agricultural, extractive, industrial, military or naval establishments.
4. Transportation on official business of Federal, state or local government employees engaged in the performance of government functions essential to public health, safety or the war effort.
5. Transportation of produce and supplies to and from the farm if an applicant operating such farm does not own or possess a truck or other practical means of transportation.
6. Transportation of traveling salesmen who are engaged in the sale of farm, extractive or industrial equipment, foods or medical supplies, the distribution of which is essential to the war effort.
7. Transportation of newspapers for wholesale delivery. Provided that a passenger automobile to be eligible under this paragraph must be used exclusively for one or more of the purposes in this subsection.

City Paragraphs

Mr. and Mrs. Alfred LeMire have returned from Sault Ste. Marie where they attended the Marquette-Soo hockey game.

Mr. and Mrs. Edward Connors attended the Marquette-Soo hockey game in Sault Ste. Marie Sunday afternoon.

Mrs. Walter Johnson, who is a patient in a Green Bay hospital, where she underwent an operation last Wednesday, will return home Wednesday.

E. L. Wilmers, plant chief of the Marquette telephone of the Michigan Bell Telephone company, is

attending a district conference today in Menominee.

Stores Open As Usual—Observance of Washington's birthday anniversary Sunday, February 22 will not affect the closing schedule of stores in Marquette, it was reported yesterday. Stores will remain open until 9 p. m. Saturday and until 6 p. m. Monday, as customary.

Slowly Sinking The land around London is sinking at the rate of nine inches a century. It was about 70 feet higher in the late Stone Age than it is at present.

Spring Is Here! Perry Hatch Saw A Real Robin

You can't convince Perry Hatch, 336 East Crescent street, that spring isn't here, or at least just around the corner. Perry was poking around the yard at his home when he looked up and spotted a robin. He insisted, further, that it was not a groesbeck but a bona fide robin.

And if that was not convincing enough, Perry said he also saw two crows last Friday morning at 9 o'clock.

Bell Company Seeks Right To Issue Bonds

The Michigan Bell Telephone company has applied for Federal authorization to act as state-wide issuing agent for United States defense bonds being purchased by its employees under a voluntary payroll allotment plan. J. C. Geeling, manager of the Marquette exchange, said yesterday.

The company does not seek authority to act as issuing agent for the general public, but to employ only, although U. S. Savings Stamps are offered for sale to the public at most of the company's business offices.

The effect of large employers, such as Michigan Bell, acting as issuing agents for the bonds is to lighten the load on government agencies, which have been swamped with defense bond orders, particularly since the attack on Pearl Harbor.

In the past, when enough funds were accumulated to buy a bond, the Michigan Bell company remitted the funds to the post office, which in turn sent the bond to the employee by registered mail. At present, those employees who wish to purchase bonds, either on small weekly or monthly installments or by payment in full, may so arrange with the company. That practice would be continued if the company should be authorized to act as an issuing agent, Geeling said.

SUPERSTITION

The natives of Central Africa believe that trees possess spirits and a weird ceremony must take place before a tree can be chopped down.

Broadcast Of Leonard's Talk Covers U. P.

Arrangements have been completed for an all-Upper Peninsula broadcast from Marquette tomorrow evening of an address on "Civilian Defense" by Capt. Donald S. Leonard, commander of the Detroit state police district who is now serving as Michigan civilian defense coordinator.

Capt. Leonard's talk will be broadcast over WDMJ, the Mining Journal station; WSOO at Sault Ste. Marie; WJMS at Ironwood; WDBC at Escanaba and WHDF at Calumet.

He will speak at a special meeting of 125 members of the Upper Peninsula Association of Law Enforcement Officers and other officials, held in conjunction with the FBI-sponsored police school which opened here yesterday.

"Capt. Leonard is considered an authority on civilian defense and is perhaps more qualified than any other person in the state to give us the true picture of civilian defense," Ralph Sheehan, of the Marquette state police post, said yesterday.

40 Deputies Finish Course In First Aid

Forty members of the first aid class of the county sheriff's department of the Marquette county defense council attended a dinner-meeting at the Midway last night, marking completion of their basic course, and voted unanimously to continue with the advanced course.

The class was instructed by Arthur N. MacQuade, of Marquette, who was presented with a gift by his "students." Each person completed the 20-hour course, classes being held bi-weekly in the supervisors room at the court house.

Guests of the group were M. Wilson MacFarlin, special agent of the FBI, Grand Rapids; V. D. Garvey, special agent, Billings, Mont.; Pat Munley, Grand Rapids agent; Judge John Siegel, of Marquette; Sheriff R. E. Davidson, of Ontonagon county, and Sheriff William Miron, of Delta county.

MacFarlin, Garvey and Munley gave short addresses. Al Fontaine, president of the Marquette Rod and Gun club, was toastmaster.

The course is being taken by deputy sheriffs in conjunction with the county defense preparation program. They are under the supervision of Sheriff Howard C. Treado.

New Land Program

WHEN the state conservation department's plan for dedication as purchase units of important winter deer yards in the Peninsula is put into effect, this region will have one of the nation's finest game management programs.

For several years depletion of swamplands through clear-cutting operations has emphasized the need for measures to safeguard key deer yards upon which herds are dependent for food and shelter during the winter months, for the yards are bottle-necks through which the herds must pass each season.

Dedication of these strategic areas throughout the Peninsula is a logical step in the state's land program. Many years ago the legislature approved the Northern Michigan Sportsmen's association's proposal that \$1.50 of each deer license fee be set aside for the acquisition of public hunting grounds, game management and research.

For the most part, however, quantity rather than quality of acreage has been emphasized. Large tracts were needed to stabilize the supply of game. They have been provided. Large public hunting grounds were needed to safeguard the public's interest in the state's wildlife assets. They have been provided. But in addition to vast tracts acquired through purchase, the state has come into possession of hundreds of thousands of acres through tax delinquency, which has enabled it to round out its purchase units without added cost.

Many months ago sportsmen concluded that as far as acreage was concerned the state was reaching a saturation point. Those who long had advocated purchase of large tracts quickly changed their views, suggesting the acquisition of smaller acreages of relatively high value from the standpoint of food and cover, particularly winter deer yards.

Planning The Law

Of the increased taxes imposed by the new legislation the greater part, no matter what the plan of raising them will be, will fall on those in the lower income brackets and on corporations. With regard to the former, taxes can be made considerably higher on incomes up to \$50,000. But the very rich are already so hard hit that there is little more to be got out of them.

The withholding plan for obtaining immediate revenue is gaining in favor in Congress. Many Congressmen have preferred the sales tax. But it is more plainly seen from day to day that the sales tax would prove a disappointment as a means of meeting Federal income needs. With the Government a prospective user of 50 per cent of the nation's energies, there will be less and less of consumers' goods to tax.

Declining sales tax income bids fair to be a serious problem for the states, which now secure some 40 per cent of their revenues from it. But it is to be said for the sales tax that it bears on all alike, and that it is easy to collect. The withholding tax is open to the objection that while it is easy to collect where labor is concentrated in plants, large and small, which have good accounting methods and adequate executive organizations, no one has been able to evolve a plan for collecting it from the farmers and hundreds of thousands of workers in informal manner.

When the tax issue gets to the debatable stage it is predicted that the labor unions will strongly oppose the withholding tax, on the ground that it is inequitable. As the great bulk of their members are employed in highly organized industries, none of them could escape it, while difficulties in the way of collection would work to the advantage of farmers and hundreds of thousands of other workers. The withholding tax would, however, yield the greatest amount of money in the shortest time. The chief Congressional tax expert estimates that a five per cent holding tax would yield \$4,000,000,000 annually, flowing in steadily month to month, as against a yield of \$2,000,000,000 from three per cent sales tax paid by manufacturers, processors and servicers. But, if food, clothing and medicines were exempted, this amount would be reduced to \$750,000,000.

The superior value in yield of the withholding tax seems to point to it as the tax that Congress must impose, if there is to be anything like the yield of \$9,000,000,000 desired under the new legislation. The administrative difficulties would be great, but if it is the tax that will most greatly increase income, there seems to be no alternative to accepting it and making the best possible job of overcoming these difficulties.

Inquiry Ordered

Responsibility for the conditions that made the fire that knocked out the Normandie possible is to be fixed by a naval board appointed by Secretary Knox. Its inquiry may be supplemented by independent investigation by a Congressional committee. It has been proposed in both Houses.

That it should be proposed after the Secretary has acted reflects Congressional opinion that, while the report of the President's commission on the Pearl Harbor disaster was admirable as far as it went it stopped far short of telling the whole story. The Congressmen want to have the whole story about the fire on the Normandie.

The Navy had the responsibility for seeing not only that the Normandie was refitted for use in carrying on the war, but for seeing that it was kept secure during the time the refitting was in progress and until it was ready to be put to its new uses. This responsibility was not met. The country should know who failed, and why, and for the failure appropriate penalties should be imposed.

British Are Uneasy

Demand for a revamping of the British cabinet has been intensified by the escape of the Nazi warships from Brest. While the admiralty is able to show that it probably would not have occurred had it not been for weather conditions that made it practically impossible to destroy them, coming as it did when it appeared that Singapore was at its last gasp it was too much for British equanimity.

The responsibility of Government may be indivisible, as Mr. Churchill has said, but popular demand that heads shall fall when things so badly is a historic experience of government. While Mr. Churchill has so far stood it off, it may be that the time has come when he will have to yield something to public opinion.

His personal position is impregnable. There is no man of equal stature who could be put in his place. The all but unanimous vote of confidence in the House of Commons the other day was a tribute to him, rather than to the Government as a whole. There has long been substantial opinion that the country would be better served if some men now in the Government were replaced by men outside it. Unless Mr. Churchill yields the point he may soon have to seek another vote of confidence, under conditions more trying than those which prevailed when he last forced the issue.

The situation in Britain has close resemblance to the one in this country. If we had such a thing as votes of confidence, there is no doubt that it would be voted that the President is preeminently the man to carry the conflict through. But there is, nevertheless, vigorous opinion that the Government would be much stronger if his cabinet was revamped to strengthen it by drafting for service men more able and vigorous than some of the members who now have portfolios. If there is need for digesting much more bad news, public demand that this be done is likely to become emphatic.

Contemporary Opinion

We Want Action

Just why Congressman Fred Bradley, of this district, has felt called upon to "explain" to his constituents the act under which the national Congress raided the Treasury of the nation, by providing retirement pensions for themselves, will be difficult for the ordinary taxpayer to understand.

Congressman Bradley, in his explanation of the act, makes it plain that he will vote for the repeal of the measure and that if the act remains on the statute books of the nation, he will not qualify for benefits under its provisions. The fact remains that in the eyes of most people in the United States this measure constitutes the most nefarious act ever perpetrated upon the people of any nation by their governing body, in time of war.

There can be no justification for a body, elected by the people to protect and safeguard their interests, in betraying the trust imposed in them, by voting life pensions to themselves, particularly at a time when the taxpayers are straining every resource to buy guns and ammunition for a valiant band of fighting defenders in the Philippine islands and to send men and accoutrements of modern warfare to every war front in the world.

Just how this unconscionable act was steered through Congress without every Senator and every Representative being forced to show his hand, is not important now. The people of the Eleventh Congressional district of Michigan will be glad to know that their Congressman will vote for the repeal of this measure at his first opportunity and it will be their hope that he will particularly concern himself with making that opportunity possible at the earliest date.—Escanaba Daily Press.

Camouflage

A new Nazi blitz trick was recently discovered in a sector of the Russian front. After a battle, when the whole district had been cleared of Germans, a Red Army unit suddenly heard machine-gun fire close by.

Thirty Years Ago

(February 17, 1912)

Marquette
W. P. Belden, of Ishpeming, was in Marquette yesterday. Mr. Belden is a member of the commission that framed the workmen's compensation bill that has met with the approval of labor throughout the state.

J. H. Foster is making extensive improvements to his store in preparation for the annual spring sale. J. H. LaRoche will today give away tickets to the first 12 persons at his store after 2 o'clock today. They will entitle holders to \$10 worth of muslin underwear for \$6.

Miss Hannah Peterson, the milliner for Mrs. M. E. Smith, left last night to visit wholesale houses in Chicago and Cleveland. Mark Elliott, former county clerk and now superintendent of the Interstate Iron company, on the Mesaba range, was in Marquette yesterday.

Wise generalship won the basketball game between the Calumet YMCA and Northern Normal for the former last evening, the score being 27 to 24. Mrs. John D. Crowley, 132 West Park street, entertained last night in honor of her brother, Henry Bauman. The evening was spent with cards and music.

Ishpeming
What is claimed to be the biggest strike of ore ever made on the Cayuna range was made recently on the North range, near Rabbit Lake. The section is in Minnesota's newest iron district.

Mrs. Charles Burt will entertain members of the Tuesday club next Monday afternoon instead of Tuesday at her home on North Maple street.

Pictures taken of the Ishpeming ski tournament last year and of the dog races on Cleveland field will be included among those to be shown by Lyman Howe at the Ishpeming theater on Feb. 25 and 29.

The Elks at Munising will entertain the Ishpeming Elks minstrel company this evening, following their performance in the Munising opera house.

Negaunee

The drivers and teamsters who travel over the county road either between here and Ishpeming or in the Negaunee end appreciate the work that has been done to keep the road open and clear of snow.

Negaunee dealers who have been shipping potatoes to points in Wisconsin and Illinois, are receiving high prices for them.

A surprise party was given Thursday for Jesse Coombe at his home. About 25 of his friends made their appearance early in the evening. A delightful lunch was served. (From The Mining Journal Files)

Guns, Butter, Feather Beds

There is pending before Congress a proposal to appropriate \$300,000,000 for relief of workers made idle while the plants that employed them are converted to war production purposes. Automobile workers would be one of the principal groups to benefit.

The Michigan legislature has before it a proposal of the Governor that unemployment compensation be increased and extended over a longer period and in addition the Governor asks a debt moratorium for those thrown out of work by war conversions.

The unemployment due to the auto plant conversion presents a problem both humanitarian and practical. Not only would it be quite wrong to leave those idle in actual want but it would also be extremely unwise to fail to keep them mobilized for the time when their services will be badly needed. It appears to us that the measures proposed go quite considerably beyond the necessities in the case.

For two years the automobile workers as a group have had steady employment at good wages. Surely all of them are not without a backlog to take care of themselves. They will soon find work again at good wages and in light of that it does not seem quite plausible that their creditors will be pressing upon them for immediate payment of debts. The picture which the union leaders and the professional bleeding hearts are painting of thousands suddenly thrown into the streets to starve just does not fit with what all of us know has been going on.

There is the further consideration that the automobile workers are by no means the only group, nor indeed the largest group, that have been discriminated by the necessities of war. The employees of retail automobile dealers and the dealers themselves are in similar straits with no signs of early relief. Go into the thousands of small towns and see what has happened to the carpenter, the plumber and the electrician who can no longer get materials. Many of them have shut up shop and gone away to look for jobs.

No Government, certainly not one fighting a war, can relieve all these people. They must and they are making their own adjustments, harsh and uncomfortable as they may be. Most of us know for a certainty now what we long suspected, that we cannot have "guns and butter." If there are any groups that imagine they can have not only guns and butter but feather beds in addition, they had better be disillusioned.—Wall Street Journal.

The Stand of the Amish
If the quiet Amish people in St. Joseph county are accepting conscription without application for exemption as conscientious objectors and even are enlisting voluntarily, it must be because they find in this war something unlike all others that sets it apart as a holy cause.

For the faith of the Amish folk frowns upon war and armed resistance, and none are more careful than they to obey the commands of conscience. Nor is it believable that they have taken a new attitude without soberly considering all their reasons.

The decision they seem to have reached is an impressive judgment on the bloody anti-Christianity of the Twentieth century.—Detroit Free Press.

Quotations

Speed is essential, for any lagging in the conversion effort may lead directly to the death of American fighting men.—Donald M. Nelson, War Production Board head.

And now upon the resources, valor, skill, and energy of these United States largely, perhaps principally, hangs the future of an entire way of life, as for a year or more it hung upon the British Commonwealth alone.—Lord Halifax, British ambassador to the U. S.

This war can't be won by the spirit responsible for Pearl Harbor or the burning of the Normandie. Our people will hate to get tough with themselves, and get tough with the traitors, saboteurs, and fifth columnists in our midst.—Rabbi A. H. Silver, Cleveland.

The Ethiopians have shown that they are fit to be free.—Foreign Under-secretary Richard Law of Great Britain.

Never in history has a country cooperated so openly and so loyally with another country as Panama has with the United States.—President de la Guardia, of Panama.

I want you to understand the importance—the downright historical importance—of tomorrow.—W. L. Batt, director, Materials Division. WPA.

The Unforgivable Sin

To read, against a background of flaming headlines telling of aggression's advance in the Pacific, that thousands of hours have been lost in a vital industry because of an obscure quarrel over a single employee is a painful experience. The merits of the controversy at the River Rouge plant of the Ford Motor Company have nothing to do with the matter; machinery exists for the redress of all legitimate grievances and it would not prejudice the cause of the workers in the slightest to permit that machinery to function while full production was maintained. The work stoppages had no countenance from the high command of the United Automobile Workers—in fact they drew a passionate plea from the U. A. W. president, Mr. Thomas, that they be ended immediately "for the very existence of our nation." The tragedy of the situation lies in the fact that they will mean that money or services are withheld from the nation at a time when both are urgently needed if the nation is to live.

The cold fact is that injustice, waste and inefficiency must be combated with every means at the disposal of the American people—not soon found to secure discipline in the ranks of union workers. This very week interruptions to production have occurred which show there is no discipline, not even the authority of the national labor unions themselves, to prevent thousands of men from suddenly leaving their jobs on the slightest provocation. This weakness in the agreement made between President Roosevelt and the CIO and AFL national leaders was pointed out in December when the historic conference was held at which management and labor agreed to refrain from work stoppages. This agreement was characterized then by this writer as a paper agreement and it was pointed out that while employers are bound to accept findings of governmental labor boards, there is no law or penalty of law applying to unions which interrupt the production program.

New York Chats

By Charles B. Driscoll

NEW YORK—Talking with Paul Henreid, the film actor, the other day, I marvelled that he, Viennese and speaking English, should speak such perfect American English.

"Where did you learn it?" I asked. "In England." "That makes it all the more wonderful," I ventured. He wanted to know why. I said it had been my observation that Englishmen seldom speak English as we do, and that a foreigner, learning English in England, nearly always misses American English for life.

Henreid, who works with Michele Morgan in "Joan of Paris," speaks a brand of cultivated English speech which is often heard in the American West and Northwest.

He Publishes Books
And, speaking of the Northwest, I met a man from Idaho the other day who attracted the attention of a good many important folk during a short visit to New York. Because we had had some correspondence, he was good enough to call around at my workshop.

He is James H. Gipson, founder and head of a unique institution in Caldwell, Idaho, called Canyon Printers. It is a publishing house that publishes books. Some of its books in recent years have attracted much favorable comment among New York critics.

No one who sees a book from Canyon fails to ask "What in the world is a book publishing house doing in Caldwell, Idaho?" The answer might be that it is publishing books. It's almost as simple as that.

Mr. Gipson, a man of medium height, graying hair and a face that, at some angles, bears a strong resemblance to Lincoln's face, says he is residing at Ellis Island.

Besides, he argues, is there any sense or justice in having practically all the book publishing houses in one city? He gave me figures that I didn't attempt to remember, but they included about 80 reputable book publishing houses for the whole country, with one in Indianapolis, one in Chicago, two in Philadelphia, two in Boston, and all the rest in New York.

And one in Caldwell, Idaho. "That's not right," he says. "There should be prosperous publishers out where the people are, where the influence is primarily American, where judgments can be made in peace and quiet, away from the hurly-burly and noise and influence of the city."

Nothing could induce him to live in New York, he said. Yet he marvels at the city's tremendous energy, complicated life and splendid buildings. His amazement at the vast expanse of the Lincoln building, where I occupy a little cell, was child-like.

"This place must be big enough to contain the whole state of Idaho," he said. "And all so slick and clean and well-kept! Not even a flaw in the marble floors and walls! It's amazing!"

Mr. Gipson publishes chiefly the kind of books called Americana. Mostly, his authors have never been published before. He is happy if an author turns out so well for him that big Eastern publishers demand books by the same author. He likes to discover talent.

He never solicits a manuscript, but reads about a thousand a year that come in by mail.

Fairness to Interned Japs
Justice Carroll G. Walter, of New York, upholds the best traditions of American fairness and justice when he rules that an enemy alien whose company has been used by an American company, must have the right to defend the suit, and must be permitted to consult with his counsel. The largest in this case heads one of the largest Jap companies in America, and is residing at Ellis Island.

There'll be bluebirds over the white canyons of Manhattan one of these days, and we will want to be proud of our wartime record for fairness and justice, even to interned Japs in our midst.

Released by McNaught Syndicate, Inc.

Last Flight

A young Washingtonian, John Gillespie Magee, Jr., has joined that company of soldier poets who, by their deaths, have given their lines a certain immortality. Thus it is quite appropriate that the manuscript of his sonnet, "High Flight," should be placed on exhibition beside those of the famous war poems of the American, Alan Seeger; the Canadian, John McCrea; and the Englishman, Rupert Brooke, at the Library of Congress. Like those of Seeger and Brooke young Magee's seemed to embody a presentment of approaching death. For in a double sense he has now "slipped the surly bonds of earth." A pilot officer of the Royal Canadian Air Force, young Magee was killed in action in England.

"High Flight" is not, strictly speaking, a war poem. It is, like Saint Exupery's book, rather an expression of that almost religious exaltation that the sensitive poet feels as he climbs higher and higher from earth and its tragic petty-ness. Though spontaneous and high-hearted, "High Flight" is hardly a great poem in the strictly literary sense. The figures are correct without being arresting, and perhaps an older and more practiced poet would not have chosen a highly mannered Italian form in which to express an emotion and an experience peculiar to this strange age we inhabit. Nevertheless as it stands the poem is evidence that this was a genuine poet from whom, had he been spared, great things might have come.—Washington Post.

Wide Uses of Corn

"Rubber from Corn" is a head over an editorial in the Salina Journal, suggesting that Kansas corn has what it takes to supply rubber for the American people.

Corn is a versatile vegetable. It probably would yield up rubber as it yields up white oil for the salad. Out of corn comes molasses and glucose. Out of corn comes breakfast food, pancakes, hooch, shellac, wall board and delirium tremens.—Emporia Gazette.

Gob Humor

Voice (on telephone)—Are you the game warden? Game Warden—Yes, ma'am. Voice—Well, thank goodness, I have the right person at last. Would you please suggest some games suitable for a children's party?—From the U. S. Submarine Base (Pearl Harbor, T. H.) Weekly.

Side Glances

"Maybe it's sinful to have such thoughts, but don't you wish we were young enough again to be insulted?"

Today In Washington

By David Lawrence

WASHINGTON, Feb. 15.—Anxiety over the defense program may well be manifested if some method is not soon found to secure discipline in the ranks of union workers. This very week interruptions to production have occurred which show there is no discipline, not even the authority of the national labor unions themselves, to prevent thousands of men from suddenly leaving their jobs on the slightest provocation.

This weakness in the agreement made between President Roosevelt and the CIO and AFL national leaders was pointed out in December when the historic conference was held at which management and labor agreed to refrain from work stoppages. This agreement was characterized then by this writer as a paper agreement and it was pointed out that while employers are bound to accept findings of governmental labor boards, there is no law or penalty of law applying to unions which interrupt the production program.

Will Not Be Fined
The men who forced a strike in the Ford plant a few days ago will not be punished. The Ford Company has granted a closed shop and has agreed to dismiss any worker whom the union wants dismissed. Yet, because Ford officials acting under terms of the contract refused to dismiss one troublesome worker until the union made such a request, the plant's activities were interrupted by a walkout involving many thousands of men.

Within the last 48 hours 10,000 workers at a Baltimore shipyard stopped work. The labor leaders said it wasn't a "strike." But it was, of course, an interruption. Someone has to order these men out. There must be some concerted action before a large body of men leave their work benches and drop their tools.

The right to strike was never intended to cover the right of rebellion against the Government in war time. With most factories engaged today in defense work, every interruption delays or retards the making of the weapons or supplies needed for the Army or Navy or air force. If an employer were to lock out his plant, it would be seized under the commandeering statutes. Labor unions, however, are immune from the hand of the law. They can indirectly sabotage the program if they like, and nothing will happen to them under present potential regimes in Washington, which depends for its continuance in power on retaining the good favor of the labor votes that are controlled by the union bosses.

Management has been put in a straightjacket by the New Deal administration. Although this is hardly the time to eliminate wage differentials between north and south, the war labor board has voted to begin to do so with respect to aluminum workers, which means it soon will be a basis for friction in other industries. This is one way to bring about increased costs and stimulate the inflationary trend.

Yet if the employer resisted these demands and refused to accept them, he would have his plant seized at once and either the Army or Navy would replace him in charge to operate that plant. The labor unions are under no such compulsion. It is true that since Pearl Harbor the number of strikes in defense plants has diminished almost to the vanishing point, but this past week the friction has begun again. Employers are complaining about the use of the "slow-down," a technique analogous to the "sit-down" strike which was introduced into America by the CIO after it was applied by the popular front radicals in France who helped involuntarily to bring about the collapse of that country.

Aid To Enemy

Under the slow-down, the employer knows economic power is being used against him. When the grievances are settled, the rate of output usually increases. Every employer of a large amount of labor who has had any experience with the slow-down knows when it occurs and keeps records of how the output jumps when the controversy is settled. But "slow-downs" today are an aid and comfort to the enemies of the United States. "Slow-downs" today mean delay in forging weapons needed by the soldiers who go into battle soon—millions of American boys whose lives must be risked because of lack of preparation of the proper weapons.

Congress is asleep or else intimidated on the labor question. It hasn't done its duty. The Senate is really responsible for what has happened. The Smith bill passed the House but the Administration leaders in the Upper House, doubtless directed by President Roosevelt, have done nothing about it. It will probably be after more disasters have overtaken American forces, and the citizenry begins to ask questions about the inefficiency of the executive, that something may be expected to happen on the lack of discipline among labor unions. (Reproduction rights reserved.)

Pity The Tall Girl

They used to say that nobody liked a fat man, and this war begins to make things look as though nobody likes a tall woman. Even in peacetime, the poor souls in trouble over ready-made suits and dresses, but she managed to get by. Now about everything is going to be sized around that "mean" woman they've been holding up as a model, and Miss Slender is in a tough spot.

Stockings are going to be her biggest bother—particularly if the corset is horizontal to the space she takes up vertically. Silk is gone and nylon seems on the way—and Miss Slender can't get a size 11 stocking in town; in fact, she has a hard job getting a 10. That is real foot trouble, but there is more to it. Girls 5 feet 10 and up, so they tell us, need 34 inches of stocking, and that length, it is understood, is something that is not to be allowed for in future production; best they can do is 32, which, it seems, doesn't allow for free give-and-take from the girdle garter. Of course pretty soon there won't be any girdle garters. With skirt cloth being cut down and the "mean" model being just a sawed-off type of little girl, Miss Slender wonders how she is going to make ends meet.—Chicago Sun.

Smiles
Gentleman would like to meet attractive young lady with four good tires.—Ad in San Diego paper.

Alibi
The young man walking down the street one morning seemed to have had an encounter with a steamroller. "Who beat you up?" asked the first man he met. "You see, it's this way," he answered. "I took my girl to a restaurant last night, and she found a fly in her soup." She called the waiter and said, "Take this insect out of here." "So what?" "So he threw me down a flight of stairs." Rays of Sunshine.

Scrambled eggs," ordered a customer in a city market restaurant, "milk toast," murmured his companion, who was not feeling well. "Scramble two and a grave yard stew," sang out the waitress with the Titan hair.

"Here," corrected the man, "I want milk toast." "You'll get it, Buddy," replied the girl. "That's what they call toast in Pittsburgh where I worked."

The two customers held a conference and decided to "put one over" on the "fresh young thing" from Pittsburgh. The first one wanted a glass of milk and the second a cup of black coffee.

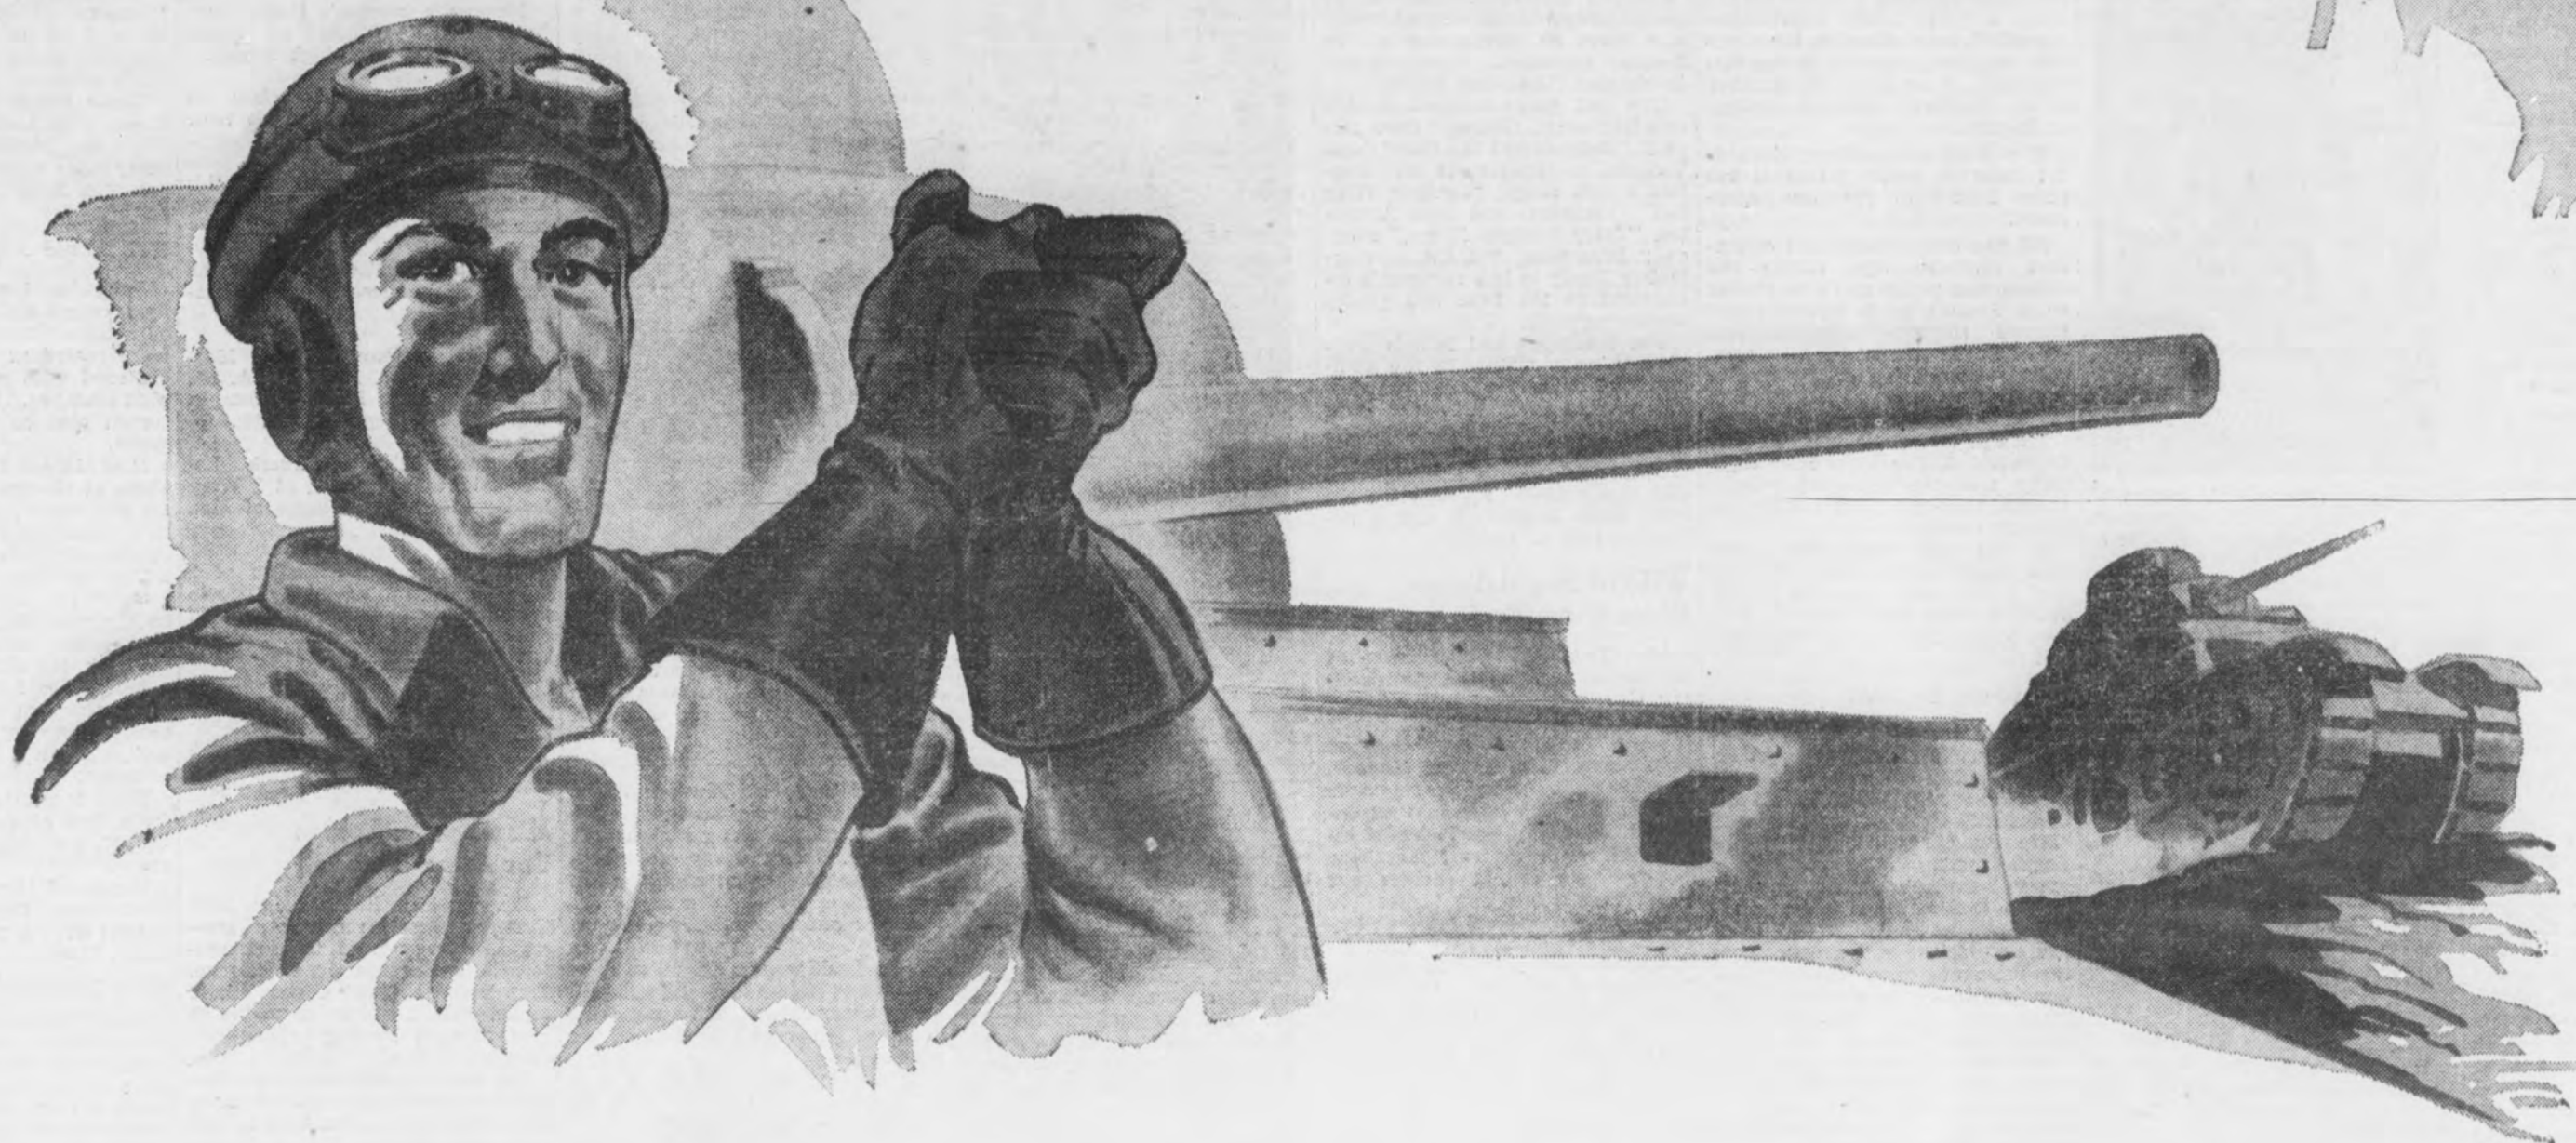

When the girl appeared to put a "setup" of the restaurant artillery in front of the men the second one gave the following order: "A bottle of lactal fluid for my friend and a scuttle of Java with no sea foam for me."

"Chalk one up a dipper of ink," shouted the girl; she didn't even grin. "You'll get it, Buddy," replied the girl. "That's what they call toast in Pittsburgh where I worked."

A friend of ours in the Defense Housing Registry at Washington is pretty busy these days trying to find rooms for the hundreds of new Government employees arriving daily.

Recently this inspector, looking over a proposed project, asked the landlady, "How many share the bath?" "Well," admitted the prospective recipient of Government bounty, "things are a mite crowded—but we still take our baths separately.—Quote.

Thanks for the Tanks, Folks!

The More Dollars You Save in Defense Bonds . . . The More "Axis-Crushers" Our Army Will Have

AMERICA must produce 45,000 tanks this year! 60,000 planes! 20,000 anti-aircraft guns! Altogether, 56 billion dollars worth of fighting equipment to smash the military maniacs attacking us.

That's why billions of fighting dollars—your dollars saved for Defense Bonds and Stamps—are needed and needed now!

That's why every American man, woman, and child must put every dime and dollar not into auto tires but into automatic rifles—not into luxuries, but into tanks—not into spending for the pursuit of happiness, but into Defense Bonds for the relentless pursuit of our enemies.

An important part of America's job, your job, this year is to spend less

and save more—to invest in safety with perfect safety! Not only does the United States Government guarantee your money, it guarantees to give you back \$4 for every \$3 you save in Defense Bonds when you hold the Bonds to maturity! In fact, \$18.75 brings you \$25 with absolutely no effort or work on your part!

Make up your mind right now to save for Defense Bonds—regularly. Set aside as much as you can. Make every pay day Bond day! Remember, you can start saving for a Bond by getting Defense Stamps for as little as 10 cents.

You Get a \$25⁰⁰ Bond for Only \$18⁷⁵

Facts About Defense Bonds, Series E

HOW MUCH DO THEY COST? UPON MATURITY YOU
YOU LEND UNCLE SAM GET BACK

- \$18.75 . . . \$25.00
- \$37.50 . . . \$50.00
- \$75.00 . . . \$100.00
- \$375.00 . . . \$500.00
- \$750.00 . . . \$1,000.00

When is maturity? Ten years from the time you buy the Bond. If you need the money before then, you can cash the bonds at any time after 60 days from their issue date. A table of cash-in values is printed on each Bond. Naturally, the longer you hold the Bond, up to 10 years, the more money you'll get back. But you'll never get less than you put in.

What's the interest rate? When held to maturity, the Bonds yield 2.9% per year on your investment, compounded semiannually—you get back \$4 for every \$3 you save in Defense Bonds.

Where do I go to buy a Bond? To your local Bank, Post Office, Savings and Loan Association, or other Defense Bond Agency.

What about Defense Stamps? Buying Defense Stamps is a convenient way of saving money with which to buy a real Defense Bond. Stamps are sold for as little as 10¢.

When should I buy a Bond? Start now; buy regularly. If your company has a Pay-Roll Savings Plan, take advantage of it NOW! INVEST IN SAFETY—WITH PERFECT SAFETY!

AMERICA NEEDS MEN . . . MATERIALS . . . MONEY and the Money Must Come from YOU

BONDS or BONDAGE? Make this Your Answer

PAY-ROLL SAVINGS PLAN

EMPLOYEES: Under the voluntary Pay-Roll Savings Plan (approved by organized labor) you simply save a part of your pay every pay day toward the purchase of Defense Bonds. Tell your foreman or department head you want to ENROLL NOW!

EMPLOYERS: Do your part. If you haven't already offered our workers a Pay-Roll Savings Plan, write or wire Treasury Department, Pay-Roll Savings Section, 709 Twelfth Street, NW., Washington, D. C., for full particulars.

Madrigalists Gave Exceptionally Fine Program At College Yesterday

Women Ready To Register When Needed

(By MANTHEI HOWE)
The growing realization that a huge army will need to be drafted for military and industrial service is gradually bringing home to the people of America that they will be called upon to face tremendous problems and make hitherto unknown adjustments.

It is obvious that if there is to be a sufficiently large and well trained army of young men in active service, some, now employed in munition and other defense industries, will have to be mustered into military service and their places taken by older men and women.

We Look Pop-Eyed
This drafting off of men from war industries to go into active service presents such a new problem to us that it may take some folk a while to get used to the idea of holding a selective registration of the woman power of the nation. We have to confess that, in America, we have had a rather cockeyed and sentimental attitude toward our women. We liked to think of the American Beauty connotation, feeling that women were doing their part if they looked charming, married, and reared a family; and the men were perfectly willing to protect them from the hardships of the world.

At least that was the tradition even though it was frequently more well-kept verbally than actually. It disturbed a good many persons when women went into the business and professional fields. Women have long since proved their ability to earn their living, but despite that, some Americans still cling to the American beauty tradition.

It's Inexplicable
Doubtless we may, before this year is over, see a registration of women. It is certain that such registration will not come for several months, and assuredly it will not come before it is necessary. Only, it is the part of good sense to make up our minds that if the fortunes of war are such that more and more young men have to be sent into the field, the increasing necessity may make it necessary to take men out of the industries and they will have to be replaced by women.

However, it is a certainty that if, and when, the time comes that women are called to do their part they will be more than ready to take over.

There is no least reason why a great many women should not go into industry for the duration. There is work requiring delicacy of touch and accuracy that women can do most capably. There are even jobs requiring considerable strength that women can handle with no least danger to themselves, for the women during the past 30 or 40 years have progressed a long way from the screaming, clinging vine girl of the Victorian era.

They Served Courageously
As far as that is concerned there have always been American women who were equal to any need that arose. Women in pioneer outposts could fire a rifle and fight. More than one American woman has loaded guns and passed the powder horn to the men in her family when she was helping to defend her home.

In this war it so happens that two-thirds of the jobs in key industries can be perfectly well handled by women, thus releasing men for military service.

And the time may not be so far off when every available man will be needed and will want to enlist in this fight that is giving promise of being unexpectedly long-drawn out and bitter.

Hi, Neighbor!

Federico Mariscal, 2, salutes U. S. in New York. Senor Federico A. Mariscal, his dad, is new attaché at Mexican ministry in Guatemala.

Society-Club

Ash Wednesday Services—Holy Communion services will be held at 7:15 and 9:30 Wednesday morning in the Morgan Memorial chapel. There will be an evening service at 7:30 with the Rev. John Carleton, rector, preaching the sermon.

Register Now—A first aid class will be conducted in the First Presbyterian church, meeting two evenings a week. All women wanting to enroll in the class are asked to telephone the instructor, Mrs. Herbert Seddon, 77, before this evening.

Woman's Club—The Marquette Woman's club will meet at 2:30 Wednesday afternoon, in the Federated Women's club. The program will be in charge of the American citizenship committee of which Mrs. W. L. Casler is vice-chairman. The hostesses will be Mrs. Oscar Niemi, Mrs. J. Flanagan, Mrs. Norman Hudson, Mrs. Donald Melin, Mrs. S. D. Miller, Mrs. Fred Saunders, Mrs. M. W. Anderson and Miss Mary McKinnon.

First aid classes—In addition to First Aid classes previously announced, Mrs. Jennie Murphy is instructor for a class held from 2 to 4 Tuesday and Thursday afternoons in the Northern Michigan Children's clinic; and Miss Lily Olson is in charge of a class which meets at the clinic from 7 to 9, Monday and Tuesday evenings, 1:30 to 3:30 in the afternoon. There will be nurses from Houghton, Iron, Dickinson, Menominee, Delta, Baraga, Alger and Marquette counties attending this conference which is given to provide special training for graduate nurses who will serve nursing courses.

For nurses—Graduate nurses are reminded that Mrs. Martha Hatch, nursing consultant for the mid-western area of the American Red Cross will conduct a nurses' conference Thursday and Friday in the Northern Michigan Children's clinic. The meetings will be held from 9 to 12 in the morning and 1:30 to 3:30 in the afternoon. There will be nurses from Houghton, Iron, Dickinson, Menominee, Delta, Baraga, Alger and Marquette counties attending this conference which is given to provide special training for graduate nurses who will serve nursing courses.

With a registration of women, not a registration of volunteers, but a registration of the women, that would be the most practical way to handle the situation, for a woman might volunteer for a job for which she had little training, leaving a job in which she was making a more important contribution to national defense.

Would Be Helpful
If we have a registration of all women from 18 to 60, say, then the government will know exactly what kind of training those women have had, what jobs they could handle most successfully, and how they could be distributed as needed might arise.

It would make for a greater national efficiency and an assurance of fewer mistakes being made.

Maybe we shall have a national registration of women (though I believe we shall within 12 months) but, if we do have such a registration, one can depend upon it that women will stand ready to do anything required of them.

This war has had a pronounced leveling effect all over the world. Women in Russia, Germany, England, Canada, have been employed in defense industries, in agricultural pursuits. There is no special reason to expect American women to escape taking their part in the struggle, or to want to escape that responsibility.

Ensemble Was Notable For Its Clarity Of Tone And Perfection Of Blending Of Its Voices

There was quite a flurry of snow yesterday morning, but that did not keep a great many appreciative townfolk from attending the excellent program presented by the Madrigalists as an assembly number at the Northern Michigan College of Education.

It was an extraordinary delightful hour of music which is too little known to American audiences.

All the compositions had originality and charm, during the Elizabethan period and even earlier when Flemish bards roamed about Europe singing madrigals and chansons, French and Italian composers contributing their share in building up the appealing folk music.

Though the whole program was delightful, this reviewer liked especially well the first two groups, English madrigals, and Italian and French chansons.

In the days when good Queen Bess reigned in England, after dinner, guests were wont to gather about a table and, supplied with part-books, they sang madrigals and ballads.

Reproduced the Mood
The Madrigalists were seated about a table on the stage yesterday morning and with books before them sang "Sing We and Chant It" (Morley) and it with "Fire Fire" had a lusty, jocular, English quality to it, reminiscent of some of the scenes in Shakespeare. "Weep, O Mine Eyes" in more serious mood, was an especially beautiful song in the first group, where the tonal quality of the ensemble was particularly in evidence. In a more gay mood was, "On the Plains, Fairly Trains."

Did one only imagine that there was a quite different folk feeling to the Italian and French chansons, when compared to the English madrigals? "Il bianco e dolce cigno" and "Gia Torna" seemed to have a deeper emotional content, a sonorous beauty; and the voices of the singers were so perfectly on pitch, so nicely balanced and blended that the listener had much the same feeling of overtones, of support, and richness that one gets from pipe organ music. "Au joli bois" ("Tessier) and "Quand mon mary" ("Lassus) were more reminiscent of the swing and robustness of the English folk song with a dittone of Gallic lightness of expression.

Understood the Words
Possibly, though, there were a good many in the audience who liked best the English part songs and folk songs and those from our own country.

The music of Campton's "Never Weather-Beaten Sail" was as provocative to the imagination as the title, and variety was lent the program by the trio, baritone, bass and tenor, singing Calcott's "To All You Ladies Now on Land." The youngsters in the audience loved "Which is the Proper Day to Sing" Monday, Tuesday and so on.

Of the English folk songs (all arranged by Vaughan Williams) it would be hard to make a choice, though every one was aware of the beauty of the singing in "The Dark-eyed Sailor," with the humming accompaniment, "The Turtle Dove," and the pianissimo in "Just as the Tide Was Flowing."

It's "Chamber Music" of Song
There is a thrilling contralto voice in the ensemble, as well as a beautiful soprano, but one became so intent on following the pattern of the music, and the singers' voices were so well blended, that it was only now and then in incidental solo phrases that one had opportunity to hear the individual voices. Of the white spirituals group from the southern mountains, con-

Weddings

Dagenais-Butler
Miss Betty Ann Butler, daughter of Mr. and Mrs. Bernard E. Butler, 117 Champion street, was married to Robert Dagenais, son of Mr. and Mrs. Edward Dagenais, at a candle-light ceremony performed at 7:30 Saturday morning in St. Peter's cathedral by the Rev. Emil Beyer.

The couple was attended by Miss Gertrude Dieckhoff and Ted Butler. The bride wore a white satin wedding gown and her only jewelry was a string of pearls, the gift of the groom. Her veil was held in place with an arrangement of white bows and flowers. She carried a bouquet of pink lilies.

Her attendant's dress was of pink taffeta with which she wore a taria of pink veiling and flowers. Pink carnations and blue iris formed her bouquet.

Edwards-Reynolds
Miss Vera E. Reynolds, R. N., of this city, daughter of Mr. and Mrs. E. L. Reynolds, of L'Anse, was married Saturday afternoon to Theodore W. Edwards, of Houghton, formerly of L'Anse. The ceremony was performed at 1:30 in the parsonage of the First Congregational church, Hancock, the Rev. Wayne L. Waters officiating. The couple was attended by Mr. and Mrs. Miles E. Killmar, of Hancock.

The bride wore a navy blue reidinge ensemble and matching hat, and a corsage of Briarcliff roses. Her only jewelry was a double string of pearls, the gift of the groom.

Can You Answer This Test on Manners?
Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

- 1. When you answer the telephone and it is for someone else, is it better to say, "One moment, please" or "Wait a minute"?
- 2. When answering the door should a maid open it wide or just a crack?
- 3. What should a maid say when she answers the door to a caller she does not know, and her employer is not at home?
- 4. How far from the dinner table should chairs be placed?
- 5. Should the dishes in which warm food is to be served be warmed?

Answers
1. "One moment, please."
2. Open it wide. To open it just a crack seems inhospitable.
3. "Mrs. Brown is not in. May I tell her who called?"
4. The front edge of the chair should be even with the table's edge.
5. Yes.
Better "What Would You Do" solution—(a).

Horde 'Frog'
Every time a horse sets down his feet, it steps on a frog. He has a triangular, elastic, horny pad, called a "frog," on the bottom of each foot.

Meetings

Mothers and Daughters club at 8 tonight in home of Mrs. Fred Cote, 2318 Presque Isle avenue.

Marquette women's chorus rehearsal, 7:15 tonight in music room of Graveret high school.

No surgical dressing class in Guild hall today. Materials have not arrived.

Troop 4, Girl Scouts, at 4 this afternoon in Graveret kindergarten room.

Finland National Lutheran church choir rehearsal at 7:30 tonight.

Special communication Marquette lodge No. 101, F. & A. M., 7:30 tonight in Masonic Temple. Work in FC degree. Lunch.

Covenant Mission Church Ladies' Aid, of Carlsbad, at 2 Wednesday afternoon in home of Mrs. Stanley Holly.

Visiting Nurse association at 2 this afternoon in agency's office to organize and begin First Aid course. Miss Lily Olson, instructor.

St. Luke's alumni society, 8 tonight in Federated Women's clubhouse. Hostesses, Mrs. Mabel Aho, Mrs. Sadie Lindholm and Mrs. Martha Johnson.

Miss Mudge Leaves For Army Service
Dr. and Mrs. E. J. Mudge, East Crescent street, received a message Saturday from their daughter, Miss Barbara Jean Mudge, that she is at Fort Custer, under sealed orders, and so is unable to give time of leaving or her destination.

She became affiliated some time ago with the American Red Cross and received a commission as 2nd lieutenant in the United States Army nursing corps. She was one of the first contingent of doctors and nurses of the Northwestern university hospital unit, recently called to active service, which went to Fort Custer.

The Northwestern unit consists of 50 physicians, 120 nurses and some 500 technicians, dietitians, orderlies and secretaries. Miss Mudge is affiliated with U. S. Base Hospital Unit No. 12. She is a graduate of Graveret high school, attended Lawrence college, Appleton, Wis., for a year, and completed her nurses training course at Northwestern, in the Evanston hospital, Evanston, Ill.

Births
Born to:
Mr. and Mrs. Archie Tousignant, National Mine, a son, Darren Lee, February 11, in St. Mary's hospital.

Mr. and Mrs. William F. Frazier, 505 Fisher street, a daughter, Ruth Ann, February 12, in St. Mary's hospital.

HE KNEW 'EM ALL
BOSTON—(P)—The new coach of the Boston Red Sox, Larry Woodall, caught under four managers—Hughie Jennings, Ty Cobb, George Moriarty and Buckie Harris—with Detroit. The Tigers sold him to Portland in 1929. He was with San Francisco as a coach from 1934 through last season.

WHITWATER, PLUS
ST. LOUIS—(P)—Seven National league hurlers turned in no-hit game performances last year. They were Lon Warneke, Hank Gornick, Tom Hughes, Johnny Vander Meer, Paul Erickson, Whit Wyatt and Truett Sewell. Gornick and Hughes were rookies and Gornick went back to the minors shortly after his big day.

Beta Omega Tau Held Initiation, Dinner Dance

Beta Omega Tau, sorority of the Northern Michigan College of Education, held an initiation and dancing party Saturday evening in the Theta Omicron Rho chapter house. Those initiated were Miss Alice Susan, Miss Dorothy Keough, Miss Florence MacDonald and Miss Mary Alice Smith, all of Marquette, and Miss Betty Tegge, of Iron River.

Had Dinner After Initiation
Following the initiatory candle-light ceremony, members attended a dinner served at 7:30. Guests were seated at small tables, each centered with a bouquet of rose-pink lantana. The nut cups, which served also as place cards, were green.

Miss Margaret Kepler, Beta president, at the speaking program after the dinner, greeted guests and new members, and introduced the toastmaster, Miss Carol Garby. The program theme was "The Torch," the sorority emblem, the flame, the active members, and the rays, the alumnae.

Miss Alice Susan spoke for the pledges, Miss Catherine Hansen, a senior, represented the active members, and Mrs. Rollin Thoren, the alumnae. The toastmaster read letters from two alumnae, Miss Frances Olivey, and Miss Catherine Alexander.

Guests at the dinner were Miss Ruth Craig, faculty advisor; Mrs. Gilbert Brown, patroness; and Mrs. Rollin Thoren, alumna. **Made Attractive Programs**
Dance programs made by Miss Alice Susan and Miss Dorothy Keough were most attractive. They were square booklets with, on the cover, a black line drawing, and a printed amusing comment. Raggedy Ann, convict, rabbit, pig and hobo, were the five different designs used.

Members and guests attending the dances were, in addition to those already mentioned: Rollin Thoren; Miss Margaret Kepler, Henry Lindeman; Miss Jean DeVoie, Lee Oien; Miss Jean Beaudin, Steven Thomas; Miss Agnes Ryan, Robert Gelina; Miss Henrietta Alexander, Charles Carpenter; Miss Dorothy Keough, Marvin Olson; Miss Florence MacDonald, Kenneth Menard; Miss Alice Susan, Don Larson; Miss Betty Tegge, George Jepson; Miss Carol Garby, Paul Kotila; Miss Rosemary Leonard, Robert Burton; Miss Mary Jane Reinhardt, Gerald McIntyre; Miss Beverly Cowen, Irving Menucci; Miss June Davey, Robert Kelly; Miss Marigone DesJardins, Robert Ericson; Miss Mary Jane Ednerd, Edward Bunker; Miss Betty Olds, Richard Bonifas; and Miss Mary Jane Kanney and Henry Askinan.

Fruit punch and Valentine heart-shaped cookies were served during the evening. The following were the committee charge of arrangements: Dinner, Miss Thaddea Dunnebacke; decorations, Miss Catherine Hansen, Miss Phyllis Sundberg, and Miss Rosemary Leonard; program, Miss Carol Garby; music, Miss Betty Tegge; refreshments, Miss Mary Alice Smith and Miss Florence MacDonald.

New! Delicious! Thrifty!

meat muffin

the KARO way

Here's "something new" in meat dishes—as tasty a dish as you ever served. This combination of ham, beef, tart fruits and KARO is a winner. Serve it—and listen to the family cheer!

15¢ a portion

MEAT MUFFIN
1 lb. ground beef
1/2 lb. ground ham
1 cup soft bread crumbs
2 eggs, slightly beaten
1/2 (1 1/2) can pineapple wedges
1/2 KARO (blue label)
1 tbs. prepared mustard
1 tsp. salt
1/2 tsp. pepper
8 apricot halves
1/4 cup milk
2 tbs. KARO (red label)
Combine beef, ham and bread crumbs. Mix together eggs, milk, KARO (blue label) mustard, salt and pepper. Open can of pineapple wedges; drain, and add 1/4 cup of fruit syrup to egg mixture. Blend well with meat. Fill large greased muffin tins about 3/4 full. Arrange about 6 pineapple wedges on each muffin. Top with apricot half. Pour about 1/2 teaspoon KARO (red label) over each, and bake in a moderate oven (350 degrees F.) about 35 minutes, or until done. Makes 8 servings.

Northern Michigan Cagers Leave For Invasion Of Lower Peninsula

Play Four Games in As Many Nights

The greatest basketball team ever to wear the Olive and Gold of Northern Michigan College of Education will leave here at 8 this morning for a four-day invasion of Lower Peninsula courts.

Four opponents will be met in as many nights. It's a Herculean task for Coach C. B. Hedgecock's cagers, but they've done it before and are confident of at least equaling last year's record performance. On the 1941 tour the Wildcats met and defeated Detroit Tech, 61-50; Michigan Normal, 45-40, and Grand Rapids University, 73-56, losing only to Central Michigan on the final night, 44-42.

Meet Same Teams Again

Those same schools will be met again, as follows: Central Michigan at Mt. Pleasant Wednesday, Michigan Normal at P'land Thursday, Grand Rapids U. Friday and Detroit Tech Saturday.

Two of those schools already have felt the Wildcats' claws on the Marquette court this season. Detroit Tech dropped a 56-35 engagement early in the season and Central Michigan lost, 56-48, last month.

Mainly responsible for Northern's top all-time basketball record is the forward combination of Harold (Babe) Anderson, of Munising, and Eddie (Speed) Olds, of Ishpeming. Together they've accounted for 515 points out of 918 the Wildcats run up in disposing of 23 out of 15 opponents.

Olds, a senior with one of the best scoring records ever held by a Northern cager, has netted 129 field goals and 31 free throws in 15 games. Except for the contest with Superior, Wis., Teachers, when he was held to seven points while the Wildcats were losing, his lowest mark in one game was 14 points against Detroit Tech. Eight times his total was 20 or above.

Two Other Seniors on Squad

Henry Lindeman, of Channing, a freshman, has played center regularly, while other members of the starting five are Guards Norman Slough, of Manistique, and Chauncey St. Germain, of Baraga. In addition to Olds, Slough and St. Germain are the only seniors on the squad.

Reserves making the trip are Jack Reifing, of Menominee; John Mercer, of Marquette; Benny Montcalm, of Munising; Walter Hampton, of Negaunee, and Paul Kotila, of L'Anse.

Olds, Anderson, Slough and St. Germain are the only letter winners left of the 1940-41 squad which won nine games and lost six.

Bill Terry On Sidelines At Giants' Camp

By John Wilds
MIAMI, Fla., Feb. 16.—Bill Terry watched his successor, Mel Ott, put the New York Giants through their first baseball workout today, then declared "we've got a chance to win."

It was the first time since 1915 that Terry, dressed in street clothing, had been on the sidelines while his team was starting spring practice. He was promoted this year to general manager in charge of the Giant farm system after serving as player and manager.

"It feels all right to get out of uniform," he commented, adding, "the team is definitely improved. We've got a chance to win, if we start clicking. We have some players who can hit, and the team ought to make a lot of runs."

Asked whether Boudreau's youth and relative inexperience would handicap him, Walker said he thought not because "baseball is pretty much of a cut-and-dried proposition now anyway."

"I didn't do the club a whole lot of good last year, but I believe I'll hit much better this season," he declared.

Marquette, Soo Sextets Clash in Palestra Tonight; New Players To Make Debut

W	L	T	P	G	OG
Marquette	14	2	1	23	89 55
Soo	13	3	1	17	66
Calumet	6	11	0	12	67 75
Pair-dale	5	11	0	10	51 88

GAMES TONIGHT
Painesdale at Calumet.
Soo at Marquette (exhibition game).

By Jimmie Ward
Marquette hockey fans will get their first glimpse of another new Sault Ste. Marie sextet at the Palestra tonight when the league-leading Sentinels clash with the defending champion Indians in an especially-arranged game, the result of which will not effect the league standings. The opening faceoff is set for 8:15.

Red McClure and Pat Wilson, who joined the Indian squad in

boosted and bolstered many times since the start of the season while Marquette went on winning with practically the same lineup.

Comparatively few changes have been made in the Marquette roster. Goalie George Wolff was obtained from Duluth to replace Earl Tripp, who needed more seasoning to play the caliber of hockey prevailing in the Northern Michigan circuit.

Frank Deagle was obtained from the Soo to give Marquette two sets of defenses of practically equal strength, each of whom is capable of bringing the puck up on a break, and Joe Kucier and Brink were obtained to make replacements in the forward lines and fill a big vacancy left by the induction of Norman Kukuk into the U. S. Navy.

In contrast to this Soo has made many changes. To mention a few: Red Storey, Don Durno, Don Christie, Charley Good, Al Taylor. The rebuilding effort was climaxed by the recent addition of Red McClure and Pat Wilson.

New No. 2 Line Shines
The Marquette line of Ad Safian, Eddy Olson and Les Kangas made its power felt in the Sunday game, figuring in four of the eight goals. Brink has not skated much this season and will take it easy until he recovers his efficient "ice legs." He will fill in the No. 1 line with Ike Prokaski and Hodge Johnson at least until Lloyd Hill fully recovers from an ankle injury.

Marquette has a busy week. Following tonight's clash, the Sentinels will engage Painesdale here Thursday night in a regular league game, and next Sunday night the Soo Indians will return for a league clash with Marquette.

Thursday night will be "military night" when the 563rd company, Michigan state troops, and all other military organizations in the city will be guests of the Marquette Hockey club. Officers and members of the U. S. Army medical examining board from Kalamazoo, Mich., here this week to examine U. P. registrars, also will be guests of the club for the Painesdale game.

Jon Flanagan on Program
As an added attraction tonight, the club has obtained the services of Jon Flanagan, outstanding Escanaba figure skater, who will present two acts, one during the first intermission and the second between the second and third periods.

Flanagan was one of the best performers in the fourth annual Marquette carnival program at the Palestra Saturday, February 7.

Who Holds The Record?

By Tom Norton
Five Greatest Football Players of All Time:

The five greatest football players of all time were chosen by sports writers and coaches in the following order: 1—Jim Thorpe, halfback, Carlisle, Indian School, 1912; 2—Ernie Nevers, fullback, Stanford, 1925; 3—Tom Harmon, halfback, Michigan, 1940; 4—Red Grange, quarterback, Illinois, 1920; 5—Purge Heeler, guard, Yale, 1891.

Longest Service by a College Basketball Coach:
Ward (Piggy) Lambert of Purdue starts his 25th season as coach of the Boilermakers this year. Lambert has steered Purdue into 11 titles or shares in titles during his career at that institution.

One For The Book:
Special Policeman Paul Adams was assigned to a football game at the Marquette Palestra in a game with Hartford, May 1 of that season. The Boston outer guardians had 11 errors chalked up against them before the game ended.

Fastest Time by an Ice Boat:
The Scud, carrying 750 square yards of sail and owned by James B. Weaver, made a mile and a quarter over a straightaway course on the Shrewsbury river, N. J., in 52 seconds, January 20, 1885.

QUERY:
To settle an argument can you tell me what is the record for chiming the bar with both hands?
ANSWER:
Mr. A. Lewis, of England, is credited with chiming the bar, using both hands, a total of 78 times. This record was made in 1913.

Matches Men Snowfall Puts Suicide Hill In Excellent Condition For Ishpeming's Big Ski Classic

ISHPERING, Feb. 16.—Everything will be in readiness for the fifty-fifth renewal of the Ishpeming ski tournament next Sunday afternoon when one of the largest fields in the history of the event blasts at the Suicide Hill records. Entries, pouring in today, showed that some of the best talent in the middle west will be here for the largest event of the year to date.

The greatest winter thrill for Ishpeming was assured by another heavy fall of snow last night, which greatly aided the work done yesterday by 32 volunteer members of the Ski club.

The scaffold has been snowed and, with the new fall of snow, should be in top condition. Riders were practicing this morning.

In the meantime, the organization is being set up to handle the show. Approximately 100 persons will have a part in making certain that everything clicks from the opening until the last rider has descended the scaffold.

Official Personnel
Following are the officials for the meet:
General chairman—Russell E. King.
Secretary—James E. Flaa.
Admissions—Carl H. Egan.
Hill captain—Leslie R. Lehman.
Announcer—W. H. Treloor.
Flagman—William C. Peterson.
Starters—C. E. Tonkin, Roy Hosking, William Harvey.
Judges—Harold A. Grinden, Duluth, Minn., Leonard Flaa, Ishpeming.
Chief scorer—John Trosvig.
Auditors—Walter Murray, C. C.

Refreshment stand—Mrs. Wayne J. Williams.
S. Anderson—Carl H. Egan, Sam M. Cohodas, Walter Hansen, Howard Medlyn, William A. Elson, Arnold M. Cohodas, Clarence Shimm, E. B. Fisk, E. William Johnson, Lloyd A. Holmgren, Thomas L. Collins, Grant Fitch, Patrick J. Gleason, C. C. Hebbard, Spencer Heiden, Proctor W. Maynard, Nathan Narotzky, Charles Pryor, George J. Quail, John A. Ruona, Ben Renz, A. C. Stam, Maurice G. Johnson, Archie Knudsen, Frank B. Hennessey, E. C. Mandley, R. W. Braund, Ralph E. Magnuson, John B. Hakola, A. R. Olson, James S. Tomlinson, Charles Lechrone, Andrew E. Pasander, Alfred H. Wassberg.

Down Sports Trail
BY WHITNEY MARTIN
Wide World Sports Columnist
NEW YORK, Feb. 16.—(Wide World)—Our cute parlor trick of opening our mouth and putting our foot in it has got us into a jam again, as usual.

This time it concerns a piece we wrote on the dire effects of compulsory physical training in colleges if the young men of today are like our young men of 20 years ago. It was supposed to be funny. Apparently it was just loud.

Mr. George E. Freeland, a physical education instructor of Tyler, Tex., indignantly writes that our attempt at humor has done our young men a grave injustice. That is an attribute we hadn't associated with it. Usually it just makes strong men weep a little and Joe Miller shudder in his grave.

Spoke Of Early 20's
However, that's neither here nor there. We were writing from our observations of 20 years ago, pointing out that the non-athletic lads were a little on the pathetic side when they abruptly plunged into physical exercise, and that they carefully avoided repetition of their ordeal.

Which was true enough, but Mr. Freeland brings out several good points we didn't mention, not thinking the piece would be taken quite so seriously.

For one thing, the boys of that era had no particular incentive to continue with exertion which they found to be painful and, as far as they could see, useless. Today, Mr. Freeland says, they have an incentive.

Good leadership, as Mr. Freeland points out, can help renovate an apathetic individual. But it is the incentive that really counts, and combine that with the leadership and you have something.

The "bale America" program isn't a joke. It might be scoffed at in ordinary times when the average citizen thinks he is in good enough condition if he can get about without wheezing too much when he walks. Now the young fellows have a goal in their physical fitness program.

It will be a tough march to the goal in many cases, but our young men have the fortitude to stick to it and prove that their let-George-do-it attitude was purely a personal choice and not due to the fact they didn't have the inherent ability to develop into athletes.

Marquette Hockey Club Will Be the Guest of the Soo at Painesdale

Marquette hockey club will be the guest of the Soo hockey club at Painesdale, Mich., tonight.

The Soo hockey club is the defending champion of the Northern Michigan Hockey League.

The game will be held at the Painesdale Ice Arena.

The Marquette club is led by Coach George Wolff.

The Soo club is led by Coach Fred Gault.

The game is expected to draw a large crowd.

The Soo club has a strong lineup.

The Marquette club is looking for a good victory.

The game will be a good one.

The Soo club is the favorite.

The Marquette club is expected to play well.

The game is set for 8:15.

The Soo club has a good record.

The Marquette club is a contender.

The game is a must.

The Soo club is the champion.

The Marquette club is the challenger.

Training In First Aid To Begin Tonight

ISHPEMING, Feb. 16—Several hundred residents of Ishpeming are expected to attend the first of a series of first aid training sessions to be held at 8 Tuesday evening in the high school auditorium.

All persons who enrolled for civilian defense work are expected to be present. Persons who did not sign up, but who desire to serve are welcome to take the first aid course.

"Events of the past week should have taught us the need for preparedness," said a defense work chairman today, "and by civilian preparedness we mean, among other things, that at least one member of each family should be trained in first aid."

Give Red Cross Course

The standard American Red Cross first aid training course will be given. There will be 10 two-hour sessions. At each it is planned to devote the first hour to lecturing and the second to classroom instruction.

"The public can now see the gradual development of the program," the chairman said. "We have to spend some time in organization and in preparing for this work. We had to line up courses in first aid for smaller groups then give them an advanced course so they could teach others."

"We have our complement of teachers and they will be in charge of individual groups in the classroom work to follow the lectures." Under the civilian defense program, training in first aid is one of the first requirements for all participants. Dr. N. J. McCann, in charge of emergency medical work for civilian defense in the county, will preside at Tuesday's session.

Obituary

Ernest W. Anderson

ISHPEMING, Feb. 16—Ernest W. Anderson died Monday morning in Newberry state hospital where he had been a patient since May 1, 1925.

He was born September 7, 1888, in Ishpeming and for 18 years was employed in the land office of the Cleveland-Cliffs Iron company.

He leaves an aunt, Mrs. Charlotte Johnson, of Ishpeming, a cousin, Carl A. Carlson, also of this city, and several cousins in Illinois and Minnesota. The body was brought to Bjork's funeral home where services will be held at 2:30 Wednesday afternoon, at the Rev. Eugene Lundberg, of the Evangelical Mission church, officiating. Interment will be made in the Ishpeming cemetery.

Pall bearers will be Alfred Johnson, Victor Anderson, George and Siegfried Quaal, Carl Corneliusson and Clarence Larson.

Mrs. George Drach

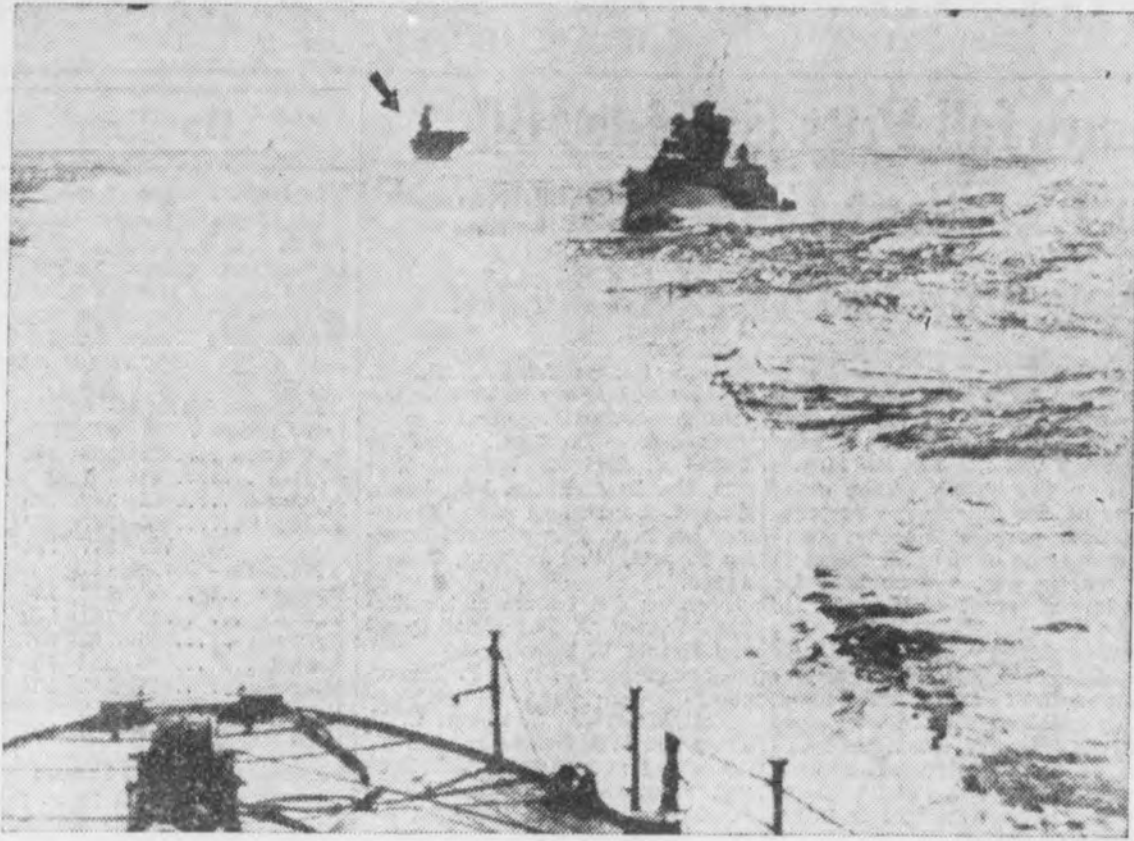

ISHPEMING, Feb. 16—Word has been received here of the sudden death of Mrs. George Drach, of Burlingame, Calif., a former resident of Ishpeming. Mrs. Drach formerly was manager for Levine Bros. store in Ishpeming, and is now one of the managers of the Emporium at Burlingame, Calif.

Mrs. Drach leaves her husband and three sons, George, Jr., of Eugene, Ore., who is in the Army air service; Richard, a student of the University of California; and Jack, a student at Stanford university.

Mrs. Louis Innerebner

MICHIGANME, Feb. 16—Mrs. Louis Innerebner, 26, of Michiganme, died at 11:30 last night in St. Luke's hospital, Marquette, where she had been a patient five weeks. She was born in Polonez, Wis., on February 16, 1915. She leaves her husband, a son, Garold, and parents, Mr. and Mrs. Frank Richter, all of Michiganme; four sisters, Romona, of Tigerton, Wis.

Best Talent in U. P. Booked For Ishpeming's Ice Revue

ISHPEMING, Feb. 16—Ishpeming residents will be given an opportunity to see some of the best skating talent in the Upper Peninsula when the Winter Sports club opens carnival week Wednesday night with an ice revue at the municipal rink. The Ishpeming Skating club is co-operating.

The program will start at 8 and will run about an hour.

Because of the anticipated large attendance, persons who can do so are asked to walk to the rink to avoid traffic congestion as much as possible.

Champion To Perform

Jon Flannigan, of Escanaba, Upper Peninsula men's figure skating champion; Pat Kazda, of Iron Mountain, upper Michigan and northern Wisconsin boys' champion; Elaine Hill, of Negaunee, junior girls' champion of the Peninsula, and Marie Markert, 1941 Michigan winter queen, will be among the individual stars.

In addition, Escanaba is sending four of its best speed skaters for an exhibition that promises to be one of the thrills of the show. Jack Setterberg and Joe Scott, Jr., of Iron Mountain, will be seen in a figure skating exhibition. In addition to its junior champion, Negaunee will send Lyle Anderson, one of the most promising young skaters of the district, and Gertrude Kellgren.

Ishpeming Talent

The best of Ishpeming's talent, which appears under the Ishpeming Skating club colors for the first year, will present the first part of the show. There will be a girls' ice chorus of eight, two solo numbers, a waltz routine and a brother and sister act.

"This promises to be one of the best skating shows ever presented in Ishpeming," Clifford Sundblad, Winter Sports club president, said today, "and we want residents of

Esther, Pensaola, Fla.; Edna and Patsy, both of Michiganme, and an aunt, Estella Prezedelski. The body was taken to Stensrud funeral home, where it will remain until services are held at 9 Thursday morning in the St. Agnes church, Michiganme. Burial will be made in Lakeview cemetery.

Missionary Society Meets This Evening

ISHPEMING, Feb. 16—The Women's Missionary society of the Bethany Lutheran church will meet at 8 Tuesday evening, the theme of the session being "To Will and To Work in India."

Scriptures will be read by Miss Ruby Verquist, followed by a dialogue, "A Century in India" by Miss Irma Peterson and Mrs. Fred Blewett, and a poem, "Waiting India," by Mrs. Katherine Lemlin. Hostesses are Mrs. Carl Lemlin, Mrs. Walfred Lundblad, Mrs. Harold Moyle, Mrs. George Lindblom and Miss Vendia Larson.

Woman Divorces Husband To Join Naval Service

SOUTH HAVEN, Mich., Feb. 16—A romance put a reverse English on matrimony for Seaman Jack Robinson and his bride of 14 months, a nurse teaching first aid in Michael Reese hospital, Chicago. Mrs. Nina Rice Robinson told relatives here she had divorced her husband in Texas, where they were married, so that she might join him in naval service. She said the Navy turned her first application down because she was married.

BOY DIES OF INJURIES

COLDWATER, Mich., Feb. 16—Robert Lee Fuller, 4, died Sunday in Branch Community hospital of injuries suffered last night when a truck driven by his father, Wayne Fuller, overturned on a rural road near here. The boy's father was uninjured.

Ishpeming Briefs

The United North Lodge will meet at 7:30 tonight.

The Royal Neighbors will meet at 7:30 tonight.

The Daughters of Isabella will meet at 8 Wednesday in the K. of C. clubrooms.

Mrs. Eugene Bennett and daughter, Karen Ebba, have gone to Detroit where Mr. Bennett is employed.

A duplicate bridge luncheon will be held Saturday, February 28, in the Mather Inn. Anyone wishing to attend is asked to make reservations with Mrs. A. C. Braastad.

Group 1 of the Women's Guild, of Grace Episcopal church, will meet at 2:30 Thursday afternoon at the home of Mrs. S. R. Elliott. Mrs. P. P. Hartt will be assisting hostess.

No Chance for Special Aid, Governor Learns

LANSING, Feb. 16—Governor Van Wagoner returned from Washington today, reporting he was "convinced there isn't a chance" that Congress will grant supplementation of unemployment compensation benefits.

"There may be some chance of other aid such as an increased WPA appropriation or some other grant," the Governor said, "but I am convinced there isn't a chance to get any help directly for unemployment compensation."

In Washington he discussed the problem with Federal officials and governors of several other states. He said he found the other governors "very sympathetic" toward Michigan's rising volume of war "transition" unemployment, but adamant in their stand that Federal supplementation would be "an opening wedge for Federalization" of the program.

705 REGISTER FOR MILITARY SERVICE

ISHPEMING, Feb. 16—Registration of men in the 20-44 age group here today added 705 names to the roster of those eligible for military service under the draft law. This number included those registered at the city hall and at mines. Included among registrants at the city hall was Harry Kipke, University of Michigan regent and former football coach at the university, who is spending a few days in Ishpeming enjoying winter sports and visiting friends.

Town Club Will Meet At 6:30 at Inn

ISHPEMING, Feb. 16—The Town club will hold its ladies' night program at 6:30 Tuesday evening in the Georgian room of the Mather Inn.

Members are asked to be at the hotel before 6:30, as the committee in charge wants to start the program promptly to give them an opportunity to attend the first aid meeting in the high school auditorium.

"Many members of the club," said Oscar Sandell, program chairman, "have enrolled for participation in civilian defense. The first general session on first aid, for lecture and demonstration, will be held Tuesday night.

"This means we must start our meeting on time so the program can be carried out."

City Police Officers Attending FBI School

ISHPEMING, Feb. 16—Three members of the city police force are attending the police school being held this week in Marquette under the direction of FBI agents.

They are Chief Nestor Eckloff, Assistant Marshal William J. Olds and Night Captain Joseph Nault. Their attendance was authorized by the city council when it voted to cooperate with the police school.

FOR RENT

One of the best residential choices in town, excellent location, seven rooms with full basement, stoker heat, garage. Available now. Phone 1493, Marquette.

U. S. Sailors View Results Of Jap Bomb

While one of their comrades works with another man below deck, two crew members of a U. S. warship view the damage caused by a Japanese bomb. The warship was among the Pacific Fleet's force that staged the surprise raid on Japanese bases in the Marshall and Gilbert islands. (Associated Press Telemat)

Work Begun On Ice Throne At City Rink

NEGAUNEE, Feb. 16—Remodeling of the throne at the arena rink, to be used in the coronation of the Queen of the North here Saturday night, was started today.

Edward Stevens, secretary of the Negaunee Skating club, chairman of the committee in charge of the coronation ceremony for Negaunee, is assisted by a co-chairman, Al Quaal, of Ishpeming, who has a major part in winter sports and carnival celebrations in Ishpeming.

The throne will be made approximately 30 feet wider with a background of solid ice in addition to the painted panels and fir back drops on the stage.

The platform, which is six feet above the level of the rink, will be built up with blocks of ice, in back of which will be colored lights.

Snow will be banked up at each side of the platform and terraced to the ground. Circular ice steps will replace the wooden steps used at the coronation of the Negaunee queen.

A crew of men will begin cutting ice Tuesday morning. Equipment has been loaned by Ernest P. Racine, of the Racine Ice company, of Ishpeming.

Two large ice figures will be constructed in front of the platform. Edward Pavaglio, of the Twin City Granite Works, of Marquette, will do the carving on the ice throne and the figures.

Japs Control Thaton On Burma Front

(Continued From Page 1)

British reorganizing movement. It was understood there was little fighting, the Japanese simply following up the British out of gunshot.

The British withdrawal was undertaken to avert danger of infantry units being overwhelmed piecemeal by the enemy. Furthermore, the Bilin river offers a potentially good position for counter-offensive operations.

The stream is very shallow and easily fordable in the dry season, however, it is flanked by low, bushy hills and troop concentrations and artillery batteries are liable to have little cover protecting them from enemy dive-bombers.

This little river is about 105 miles from Rangoon by road, but only 75 as the bomber flies.

In six days since the capture of Martaban, across the Salween river from Moulmein, the Japanese have advanced 60 miles up the road toward Rangoon.

Athwart the Rangoon-Martaban railway, Thaton is only 50 miles from the vital junction of Pegu on the Rangoon to Mandalay line. The Japanese appeared driving for Pegu to cut the railroad over which the great bulk of supplies for China are hauled to the end of the vital Burma road at Lashio.

Some military experts believed the Japanese might attempt to cross the Gulf of Martaban for a direct assault on Rangoon, chief port for China. Rangoon is 85 miles across the water from the battleground and 125 miles by road and rail around the gulf.

Jap Supply Dumps Hit The Japanese were using their familiar infiltration tactics and supporting their land forces with dive-bombers and strafing planes flying at tree top level.

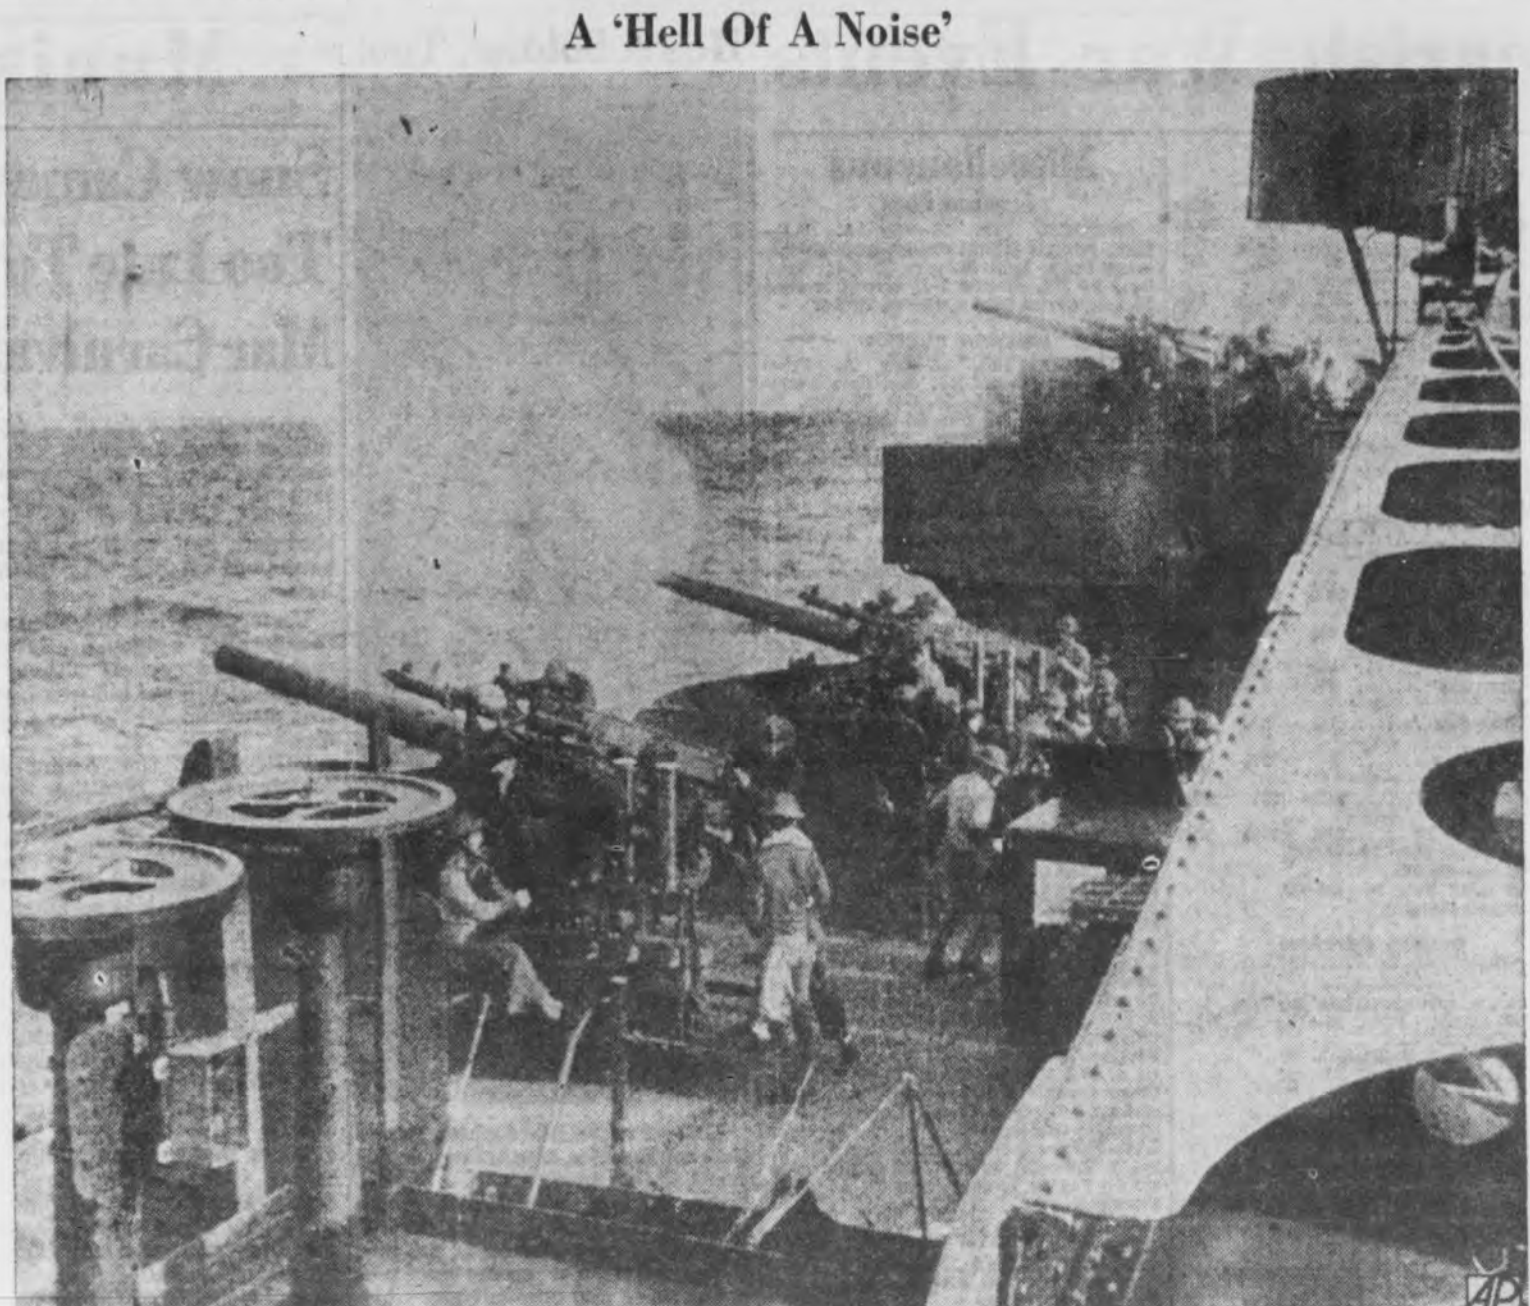

American and British planes concentrated on supply dumps and communication lines, and were said to be inflicting severe punishment.

Even should the railway be cut at Pegu, or even if Rangoon should fall, the Burma road still could be used. Supplies could be carried over an alternative route from Calcutta through Upper Burma by way of Shamo into China.

New Route Under Construction The Burma road, itself, was not directly threatened, because the main Japanese effort was concentrated far south of its terminal.

Thousands of hardened Chinese veterans are deployed along the northern sections of the front guarding the road directly.

Coolies were blasting a new route to China through 10,000-foot

Aimed at targets on the horizon, guns of a cruiser are loosed at Jap objectives, adding to what an eye witness described as a "hell of noise" in the U. S. Navy's attack on the Marshall and Gilbert Islands. Associated Press photo from Pathe News.

Negaunee Briefs

The Red Cross surgical dressing class will not meet today. Materials have not been received.

Mr. and Mrs. Glenn Oppermann, of Appleton, Wis., are spending a week at the home of Mr. and Mrs. Earl Makiela, Main street.

St. Margaret's guild of St. John's Episcopal church will hold a special meeting at 7:30 tonight in Guild hall.

Dr. and Mrs. George Knutson and Mr. and Mrs. Arthur Hansen have gone to the Gateway in Wisconsin to spend the week.

Ted Thompson collected \$30 bounty in the county treasurer's office yesterday on a female coyote which he shot Sunday while hunting rabbits near CCC Camp 1620 in the Escanaba River tract.

Donald Duquette, son of Mr. and Mrs. George Duquette, Bluff street, has been promoted to sergeant in Company B, 107th Engineers. He is now stationed in New York.

Mr. and Mrs. Elmer Johnson and daughter, Karen Marie, of Republic, were weekend visitors at the home of Mrs. Johnson's parents, Mr. and Mrs. Peter Larson.

Miss Marion Johnson, 520 County Road, has gone to Escanaba where she has accepted a position as stenographer with the Delta Hardware.

The Luther league of the Finnish Evangelical Lutheran church will hold a skating party at 7:30 this evening. Following the skating a lunch will be served at the parsonage.

The women of the Finnish Evangelical Lutheran church contributed \$22 to the Red Cross war fund, their contribution being the proceeds of a coffee social held Thursday in the church parlors.

Charles J. Marketty, 205 Clark street, was guest of honor at a party given recently to celebrate his seventieth birthday. A turkey dinner was served. The evening was spent in reviewing "old times." Mr. Marketty, who received many gifts, is one of the oldest residents of Negaunee and was employed up until a year ago by the Cleveland-Cliffs Iron Co.

peaks of the forbidding Himalayas between Sadyia, in the northeast Indian province of Assam, into China's Sikkim province. This new route, considerably northwest of the Burma road and beyond reach of Japanese bombers, is one-third completed. But the engineering is difficult and its completion may take the better part of this year.

Palmer PTA Observes Founder's Day Wednesday

PALMER, Feb. 16—The Palmer Parent-Teachers association will hold its monthly meeting Wednesday at 7:30. After the business meeting, Founder's day will be celebrated. Mrs. Stephen Trehwella and Mrs. William Riekkilä are in charge of the program.

A playlet entitled "Mrs. Brown Makes Some Friends" will be given by the Junior girls of the high school, under the direction of Miss Imogene Harter. Characters in the play are:

Mrs. Brown—Lillian Moyle. Mrs. Green—Charlotte Maki. Mrs. Collins—Rosalie Miljour. Mrs. Stanbridge—Mavis Maki.

The second feature of the entertainment will be "Blackout and Candlelight," a play written by Mrs. Harlowe Wood, of Munising. The cast:

Leaders—Mrs. William Riekkilä and Mrs. Adeline Moyle. First group—Mrs. H. Johnson, Mrs. Peter Lucel, Mrs. Werner Riekkilä, Mrs. Elmer Riekkilä, Mrs. Emil Larson.

Second group—Mrs. William Pietila, Mrs. Stephen Trehwella, Mrs. Ed Thunander, Miss Lempi Appleberg.

During the intermission the audience will be entertained by piano solos played by Miss Martha Huhtala. Following the program, refreshments, including a Founder's day birthday cake, will be served. All members are urged to be present and all other interested adults are invited.

Today's Answers To Cranium Crackers

Questions on Page 2

1. Roddy McDowell made his American debut in "How Green Was My Valley," a play about miners in Wales.

2. Joan Crawford donated her salary from one picture for charity in memory of Carole Lombard.

3. "Kings Row," a best selling novel published in 1940, has been filmed with Ann Sheridan, Robert Cummings, Ronald Reagan and Betty Field starring.

4. War has decreased the production of feature films but has increased the output of short subjects, especially those dealing with first aid, defense, the Army, etc.

5. The chief character in "The Man Who Came to Dinner" not only stayed for dinner but helped himself to all the facilities of his host's home without the latter's permission.

Peril Grows For American Bataan Forces

(Continued From Page 1)

guns and lighter 75 millimeter artillery have maintained an apparent superiority over the foe ever since MacArthur's men retired to the Bataan peninsula stronghold following the loss of Manila.

Until some batteries are silenced or overwhelmed by Japanese reinforcements, a renewed offensive faces the same risk of being smashed as the previous half dozen or more major attacks.

The Jap reinforcements reported to have arrived in the Philippines since two weeks of savage assaults dwindled to minor actions on February 5 were believed by observers here to include substantial forces of artillery to cope with the deadly fire of the defenders.

MacArthur's 155's, massive weapons of some 15 tons which hurl a 95-pound shell for about 10 miles, played a decisive role in smashing an offensive on January 25, enabling the defenders to rout an attack on their right flank while being forced back on the opposite side of the peninsula.

No Shortage of Ammunition Ammunition brought up from underground storage in Corregidor fortress thus far has shown no sign of running short.

The Japanese are credited with a formidable array of field guns of all types, but many are outranged by the American weapons. In the years of fighting in China they have never had to contend with artillery fire such as they have encountered in the Philippines.

One new peril to the Bataan defenders resulting from the fall of Singapore is that the Japanese may now be able to shift additional artillery from Malaya to Bataan.

School Music Groups' Program February 27

NEGAUNEE, Feb. 16—The Negaunee high school band and girls' and boys' glee clubs will present a program Friday evening, February 27, in the high school auditorium.

The girls' glee club is under the direction of Miss Helen Raatikainen. The band and boys' glee club are directed by H. W. Nordling. Patriotic music will be featured by the band. Music groups have been rehearsing this program several weeks. It will include music of popular appeal.

Tickets are on sale and may be purchased from members of the band and glee clubs, and students of the Central Grade school. The admission charge is nominal.

Jap Subs In Indian Ocean, Tokyo Reports

(Continued From Page 1)

ed to make its triumphant entry into Singapore city.

Domei said 1,000 British troops were permitted to remain under arms temporarily as an auxiliary police force. The rest, the news agency said, would be taken at once to prison camps.

Domei said the 60,000 troops reported captured included 15,000 British troops, fortress guards and volunteers, 13,000 Australians, and the rest Indians and native troops.

The British first asked for terms at 2:30 p. m. Sunday, Domei reported. It said Lieut. Gen. A. E. Percival, the British commander, agreed to the unconditional surrender demanded by Lieut. Gen. Tomosuki Yamashita, Japanese commander in chief, in a 49-minute meeting starting at 7 p. m. at a Ford Motor company plant just outside the city of Singapore.

The death rate for children one to four years of age has been cut more than 75 per cent in the last 40 years.

U. S. Planes Attack Raiders Off Aruba

(Continued From Page 1)

ship's company of the small tanker which was wrecked.

An unexploded torpedo found on the shore was declared by the general to have been of German origin.

He said there were no American or Dutch casualties ashore and that the conduct of the populace was orderly and calm.

Captain Robert Bruskin, one of the officers accompanying General Andrews on his inspection tour, gave this description of the attack.

"As 1:30 a. m. an explosion knocked me out of bed. The others likewise were jarred from their beds.

"Ship Seemed To Break Apart" "I looked out the window. Flames were shooting straight up and seemed mountainous. The ship just seemed to break apart.

"Flaming oil spread over a wide area under a steady wind. We all dashed outside. I could hear cries out in the water which, I learned, were badly infested with haracuda.

"Several boats put out, but the flames held them back. Some crewmen of the vessel who jumped immediately after the attack managed to reach shore.

"Just then I noticed a second ship about 100 yards away also was on fire. Then there came a stream of tracer bullets from the dark of the ocean.

Tanker Torpedoed at Pier "We figured there were 10 or 15 shots, apparently aimed at the refinery—probably 37 or 40 mm. shells.

"However, no fires were started. Just as this excitement was subsiding—it now was about 20 hours later and flames on the water were still spreading—we heard another explosion upshore and learned this morning an American tanker was torpedoed at her pier. A hole was blasted all the way through one bunker, but it was empty and did not catch fire."

Three Tankers Sunk ARUBA, Dutch West Indies, Feb. 16—A lone enemy submarine slipped boldly into these waters off the Venezuelan coast Sunday night, torpedoed and presumably sank three tankers, damaged another and ineffectively shelled the mammoth Standard Oil plant on this island.

Three of the tankers were attacked here and the fourth off Curacao, another Dutch island east and slightly south of Aruba. The latter, although heavily damaged, reached port.

No Casualties on Island There were no casualties in the wild shelling of the oil installations here. Reports were lacking immediately on casualties aboard the tankers.

Both Aruba and Curacao are garrisoned by British and American troops sent there to aid the Dutch garrisons in upholding Dutch sovereignty in the Western Hemisphere.

Aruba and Curacao refine aviation gasoline from oil brought in by shallow draft tankers from the nearby Venezuelan and Colombian oil fields. The Standard subsidiary on Aruba, the Lago company, only recently disclosed its plans for the erection of a new \$10,000,000 cracking plant to increase its production of fuel vital to the Allied war effort.

Produce Large Oil Supply The Aruba refinery's normal capacity is more than 250,000 barrels of crude a day; Curacao's refinery is known as the world's second largest.

The two islands were once estimated officially to produce a third of the Allies' supplies of high octane (aviation) gasoline.

British troops landed on Aruba and Curacao in May, 1940, just after the German invasion. The dispatch of American troops, of unestimated number, was announced by the U. S. Department of State on last Feb. 11.

Photographer Sees Attack (EDITOR'S NOTE: Herbert White, Associated Press photographer, attached to the Caribbean defense command, accompanied Lieut.-Gen. Frank Andrews on a routine inspection trip to Aruba which unexpectedly gave them an eyewitness view of the enemy submarine attacks on the Dutch West

Mission Over; Pilot Returns To Report

His aerial mission over, the senior pilot returns from his flight over Taron island to report to his captain. He took part in the attack on Jap bases in the Marshall and Gilbert Islands. Behind him is bomb damage Jap fliers inflicted on his warship. (Associated Press Telemat)

Close Stores For Carnival, Mayor Asks

NEGAUNEE, Feb. 16—Several Negaunee merchants today voiced approval of a suggestion that stores be closed at 8 Saturday night for the coronation of the Queen of the North at the arena rink.

Mayor Leslie W. Richards requests general adoption of this plan so that clerks and other employees may attend the coronation ceremony and the ice show to follow.

Ishpeming merchants reached a tentative agreement to close that night for the Ishpeming coronation, which has been advanced to Friday night in cooperation with the Upper Peninsula winter carnival plans, and it is expected that they also will close their stores at 8 Saturday night.

Merchants who will close their stores at 8 Saturday night are requested to phone 404, Negaunee, and report their names so that a complete list may be announced.

House Begins Consideration Of Supply Bill

(Continued From Page 1)

and the committee voted \$36,000,000 to instruct 49,500 fliers.

"If this war is to be won," the committee said in explanation, "obviously it will be won with planes and pilots," and since "we are setting about on a huge expansion of our air power, scores of thousands of pilots will be needed."

What little debate was devoted to the bill itself today dealt mostly with the civilian pilot training program. Unless the training program is speeded up, declared Representative Hook (D-Mich.), "we won't have 50 per cent enough pilots."

Otherwise, the debate proceeded along these lines: Criticizing the Office of Emergency Management for sending posters to Congressmen and others Representative Pfeiffer (R-NY) asserted "we are not going to win the war with gaudy posters."

"Hit them with both barrels," he suggested. "Pork barrels" asked Representative Hoffman (R-Mich.). "The taxpayers will come home in a barrel," contributed Rep. Sumner (R-Ill.).

There was renewed criticism also of the OCM for employing Actor Melvyn Douglas and dancer Mayris Chaney.

Hoffman sought to obtain unanimous consent for consideration of a bill to repeal pensions for Congressmen, but was unable to obtain recognition for that purpose.

Great Britain Hiding? Later he referred to contentions of some Americans in the past that the British fleet was "our first line of defense," and asked "whether we're hiding behind Great Britain or whether Great Britain is hiding behind our arms?"

Hoffman again attempted in vain to obtain unanimous consent of the House for immediate repeal of a recent statutes setting up a Congressional pension plan, and, when blocked, cried: "Well, it went through that way."

Former Lansing Mayor Dies in Los Angeles

LOS ANGELES, Feb. 16—J. P. Max A. Templeton, 63, former mayor of Lansing, Mich., died here today with pneumonia.

He had come here only a week ago with Mrs. Templeton. Services will be held here tomorrow with burial in Lansing.

Last year American women used 52,000 tons of cleansing cream, 27,000 tons of skin lotions, 20,000 tons of complexion soap and 2,500 tons of rouge.

Many Stock Traders Ignore Bearish War Events

Early Gains Cut at Close; Volume Low

NEW YORK, Feb. 16.—Efforts to ignore bearish war news were partly successful in today's stock market although early recoveries faded to a considerable extent at the close.

The Associated Press average of 60 stocks was unchanged at 37.1. Of 667 individual issues traded 236 were up, 22 down and 210 unchanged. Volume dwindled to negligible proportions in the final two hours and transfers totaled 376,150 shares. They compared with 319,320 Friday, which was the smallest since last June.

Bethlehem Steel finished off 1-2 although the company won a Supreme court decision upholding a lower court ruling that the Government could not recover excess profits paid to the concern and its subsidiaries in World War I.

On the upside, U. S. Steel and Youngstown Sheet ended a shade higher as this week's mill operations for the industry were estimated up 7 of a point at 86.2 per cent of capacity.

Modest improvement was retained by Chrysler, Goodrich, Kennecott, American Smelting, Patino Mines, Montgomery Ward, United Aircraft, Dow Chemical, Texas Co., Johns-Manville, J. I. Case and American Telephone.

On the offside were General Motors, Santa Fe, New York Central, Union Pacific, Western Union, Consolidated Edison, Anaconda, U. S. Rubber, Standard Oil of New Jersey, Westinghouse, American Can, Sears Roebuck and Douglas Aircraft.

In a spotty curb gains were held up by Aluminum of America, Glen Alden Coal, American Gas and Electric Bond & Share, Mead Johnson was off five on merger transactions. A bit under water were Gulf Oil, Humble Oil and New Jersey Zinc. Transactions approximated 71,000 shares versus 76,000 in the previous full session.

Few Carriers Go Higher On Bond Market

NEW YORK, Feb. 16.—Except for strength a few rails and weakness in a group of British Empire issues, most changes in today's bond market were in fractions with gains and losses about evenly balanced.

Of the five major groups in the Associated Press averages four ended unchanged and one—the utilities—lost 1 of a point. Trading in all sections continued light, sales amounting to \$6,425,500, par value, compared with \$6,617,600 last Friday.

Pulling away from the main list of domestic bonds and posting list-sized gains were New Haven 4s at 29, Lake Erie & Western 3s at 98 1/2, St. Paul 4 1/2s at 46 3/4 and 4s at 46, St. Louis-Southern Western 4s at 80 1/2 and Pere Marquette 5s at 69 1/2.

Holding fractionally either way of Saturday's prices were Washab 4 1/4s, New York Central 5s, Missouri-Kansas-Texas 5s, Southern Pacific 4 1/2s and Goodrich 4 1/4s. Announcements that the Standard Oil of New Jersey's Anaconda refinery had been the scene of enemy submarine activity failed to bring out any of that company's 2 3/4s, the issue finishing unchanged at 104 3/8 an sale of only two bonds.

Wheat Up; Government Lifts Price

CHICAGO, Feb. 16.—Wheat prices were up about a cent a bushel today as the Commodity Credit Corporation, Government's ever normal granary agency, raised by that much the price at which it offered old grain for sale to millers.

Other grains followed the upturn in wheat, rye and soybeans advancing more than a cent at one stage, but later losing much of its gain due to profit-taking. Failure of the Government to increase its asking prices on corn and feed wheat held feed grain advances in check. Prices of wheat closed 3-8 to 7-8 cent higher than Saturday, May \$1.30-1.8 to 1-4, July \$1.31-7-8 to \$1.32, corn, unchanged to 1-2 up, May \$7.5-8 to 3-4, July 9-1-2 up, 1-8 to 1-2 up; rye, unchanged to 1-2 higher; soybeans, 1-8 to 5-8 higher, and lard, unchanged to three higher.

Two Women Killed In Headon Auto Crash

HOWELL, Mich., Feb. 16.—Mrs. Viola Bates, 32, of Howell, a bride of four months, and Mrs. Helen Shelters, 33, of Lansing, were killed yesterday in a head-on automobile collision west of Howell.

Jack Bates, husband of one of the victims, suffered a fractured leg. Ernest Shelters' husband, the other victim, and their three children incurred minor injuries.

CHEVROLET 1937—Pickup truck. Overhauled. 2 new tires, new battery, heater, low mileage. Also 1935 1/2-ton pickup, sand box. Phone 1620, Marquette.

1940 FORD TRUCK, long wheel base; new motor installed; good tires. A good buy.

1936 CHEVROLET TRUCK, long wheel base; in good condition; good tires. ONE LOGGING TRAILER with home made bunk; ready for work. Also car parts and truck parts. Inquire E.H. Lamp, Eben Jet, Mich.

Used Cars

FORD—1936 V-8 sedan. Completely overhauled. Excellent condition. 7 tires. Absolutely must sell. Phone 1616, Mgt., after 4:30 p. m.

PONTIAC—1939 4-door sedan, low mileage, good tires, paint and upholstery. A-1 heater and defroster. Dunlithorne Motor, Negaunee.

FORD 1940—107-inch wheel base. New heavy duty motor, 34-7 dual rear tires. Two-speed axle. Ideal for logging.

BUICK 1939—Four-door sedan, small series. Equipped with four new tires. A wonderful buy. Phone 148, Mgt., TWIN CITY CHEVROLET, 301 North Main, Ishpeming.

Wanted—Automobiles

USED CARS and Used Tires. Wanted by the Master Motors, Studebaker Sales, 117 West Division Street, Ishpeming.

Van Wagoner To Veto Time Law Change

LANSING, Feb. 16—(AP)—Governor Van Wagoner made clear today his intention to veto a recently enacted legislation intended to turn Michigan's clocks back an hour.

Although he declined to be quoted, the Governor left no doubt in minds of newsmen at two press conferences that the measure was as good as dead.

His office was flooded with telegrams, letters, post-cards and petitions. A staff of eight clerks struck a total showing 3,952 of the writers wanted him to veto the bill, while 1,349 asked him to sign it into law.

Blow to Farmer Solons

Van Wagoner made public text of a letter from John A. Hannah, president of Michigan State college, asking him to veto the measure on grounds it would "create no end of confusion."

The letter from Hannah, head of an institution which has the close ear of agriculture, came as a blow to farmer members of the legislature who had fathered the "slow" time bill.

"Even the most critical admit that the added hour of daylight, aside from the saving of electrical energy, is a desirable feature," Hannah wrote the Governor. "This evening hour is of great importance in the victory garden program in that it will permit city workers a long evening that can be devoted to the gardening projects and the production of food is of much greater importance in the war effort than is as yet generally appreciated."

"It will not surprise me at all if this country is forced to become food conscious within the next year. A drought or crop failure

in any important agricultural area may bring us up against such a reality."

'Farmers Not Inconvenienced'

Opponents of the "war" time plan under which most of the state now functions, Hannah wrote, base their opposition principally on the "personal inconvenience caused by being forced to arise before daylight."

"It is my feeling that the farmers of Michigan are not inconvenienced by the new time," he asserted. "During the growing season they work from daylight until dark and will accommodate their working schedules to the daylight period without reference to the time shown on the clocks."

Van Wagoner received floods of other communications, among them one suggesting "V for victory

and V for veto" and another suggesting that "we should act like Americans" and abandon opposition to war time.

A feminine writer evidently had some trouble making up her mind. She summed up her attitude: "I favor the new time at night, but the old time is much better in the morning. Since I can't have both, let's leave it as it is."

Lawmakers Get Mail, Too

Page boys and messengers delivered armful of telegrams to legislators, too, whose "fan mail" volume stepped up sharply with the time controversy.

Rep. Maurice E. Post, Republican, Rockford, said he thought no effort would be made to override a veto of the legislation, although he still considered the Governor should sign it.

He said he did not see how the Governor could veto the time bill, since it was Van Wagoner who allowed the legislature to consider it. The executive office said Van Wagoner opened the subject only because of pressure from the legislature itself.

State Troops Relieved Of Radio Station Watch

LANSING, Feb. 16—(AP)—A detachment of regular Army troops was ordered today to relieve Michigan state troops guarding a Federal radio monitor station at Allegan.

Governor Van Wagoner, announcing the change, said the company of state troops from Kalamazoo,

which has been on duty since December 24, would return to private life immediately. He said he had no further assignment immediately in mind for its members.

Regular Army men were ordered to guard duty to succeed them by Major General J. M. Cummins, Sixth Corps area commander. Van Wagoner said the general expressed appreciation to officers and men of the state troops for having "so effectively contributed to this important protective measure."

Indians Name Stalin Outstanding Warrior

NEW YORK, Feb. 16—(AP)—The red men of America have chosen Premier Josef Stalin, of Russia, as the outstanding warrior of 1941 and named him an honorary chieftain.

Chief Paul Horn, member of the executive council of the Indian Confederation of America, announced today that chiefs of the tribes of the United States, Canada, Mexico and Central America had voted to honor Stalin.

His closest runnerup was British General Archibald Wavell. Most of the chiefs thought that since the United States did not enter the war until the last month of 1941, American warriors should not be considered until this year.

A magnificent war bonnet is being prepared for Stalin, Chief Horn added, and will be sent to Moscow.

The elf owl, no larger than a sparrow, is the smallest owl in North America.

Tax Blues In U.S. Amusing To Canadians

By Harry Lang

TORONTO, Ont., Feb. 16—So we Americans are going to start moaning when March 15 rolls around, and we make our first wartime income tax payments to Uncle Sam, are we?

Well, you've no idea how that amuses the Canadians. Any Canadian income taxpayer would gladly change places with his American cousin when tax day comes around. Because when it comes to paying income taxes, these Canadians are forced to dig deeply into their pockets.

I'm going to tell you all about it. Let's start with a tabulation of how much a married couple, without dependents, will pay in income taxes this year, in Canada and the United States. Here it is:

Annual Income	United States	Canada
\$ 1,600	\$ 6	\$ 71
3,000	138	355
5,000	375	925
10,000	1,305	2,930
20,000	4,614	8,030
50,000	20,439	26,235
100,000	37,704	60,395

How's that? Startling? Certainly, and don't you feel a bit better about that payment to Uncle Sam?

It's Only Beginning

Well, that's still only the beginning. Here in Canada there's not just an income tax—it's a double-barrelled one.

The Canadians pay a regular income tax, and then a second income tax, Canada calls it the National Defense Tax.

The defense tax is taken out of salary checks and wage envelopes. It's paid on the total income—on everything over \$660 a year if you're single, or over \$1,200 a year if you're married.

Here's the schedule: Single persons getting over \$660 a year have five per cent of their pay deducted from their weekly wage. So do married persons getting over \$1,200 a year. Single persons who get more than \$1,200 a year pay seven per cent.

In other words, if you're single, and make \$30 a week, you had \$210 of it right back to the Government on payday.

Or, rather, when you open your pay envelope, there isn't \$30 in it; there's only \$27.90.

Exemptions Similar

Now take the Canadian income tax itself. The only things about it that are like our United States tax setup are the exemptions. Like the United States, Canada allows her taxpayers a \$750 single-person exemption; \$1,500 for a married couple and \$400 for each dependent. But there the resemblance ends.

In Canada, the rate of tax begins at 15 per cent.

If you're single, and get from \$15 a week up, you start paying right there.

A single Canadian, who gets \$15 a week, has to pay \$2.25 of that weekly wage to his Government as income tax.

Now, add that to the five per cent he has to pay as his national defense tax. That's \$3 gone out of his original \$15, already.

And that still is only the beginning.

He has to pay an unemployment insurance tax, too, which also is taken out of his pay envelope. This amounts to something over one per cent of his pay. On a \$15 a week salary, that's only 15 cents each week—but pile it along with the others, and the pay-envelope starts gasping from malnutrition.

Those "Hidden" Taxes

Then there are the "hidden" taxes.

In Canada, there's a Federal sales tax. It's eight per cent on everything you buy that's produced or manufactured in Canada.

If you're lucky enough to own an automobile, you'll pay from 10 to 13 cents tax on every gallon of gasoline you buy.

There's a Federal dominion tax of three cents a gallon, plus provincial taxes that run from seven to 10 cents a gallon.

In Canada, you pay a 20 per cent tax on all amusement admission tickets.

And you pay a 25 per cent tax when you buy any of a long list of things that we in America have come to regard not so much luxuries as necessities. These include cameras, radios, phonographs, cigarette lighters, electric lamps and bulbs and gas or electric ranges.

News Behind The News

By Ray Tucker

WASHINGTON, Feb. 16—The Duke of Alba is one of the world's most prized noblemen. He is a descendant of King James II on the English side and of Christopher Columbus on the Spanish end.

He has misty, historical connections with the founder of Winston Churchill's famous family. But he deserves current headlines chiefly because he was able to buy a \$6,000 American automobile at a time when not even Leon Henderson can wrangle a recaptured tire for his cheap fiver.

A month ago His Grace, now living in London, forwarded through British channels a request for permission to purchase the expensive limousine. It came across Price Administrator Henderson's desk and he snorted. The rolypoly rationer of motors was once a prominent member of the Friends of Spanish Democracy, a fiercely anti-Franco organization. Not so long ago he entertained the "friends" at his home here, with Poetess Dorothy Parker as guest of honor, and the rally broke up in a window-smashing scuffle between Leon and uninvited photographers from a local newspaper.

So the Duke's application waved before Leon's bull-red face like a crimson flag. A baggy-trousered proletarian, he saw no reason why the noble exile should be allowed to buy a car when American citizens were riding buses, making other sacrifices for the democratic way of locomotion and losing their jobs through conversion of the Detroit industry to wartime production. "To hell with the Duke," he said as he tossed the petition in the wastebasket.

SLOW—But the hotheaded Leon rebuffed the distinguished member of royalty without consulting Cordell Hull. The duke was just another chieftain to the Price Administrator. To the Secretary of State he was an important pawn in the game of international diplomacy.

Although minister of education in the last royal cabinet, Alba is regarded as a Spanish liberal. His English connections commend him to the Court of St. James's and to the Churchill government. He is the Duke of Berwick as well as the Duke of Alba, deriving his British title from the fact that his primeval ancestor, a natural son of James II, married Mistress Arabella Churchill, London's assignment in the whirligig of world politics is to prevent Spain from joining the Axis, and Alba is counted on to block or delay such an alliance. So Mr. Hull figured, perhaps rightly, that it might be advisable to try another experiment in "appeasement."

Leon's prohibition of the sale was overruled by the State department with the approval of the White House. The car was shipped to a New York dock, where it was held pending arrival of certain necessary papers, including the purchase price. It seems the duke was a bit slow about that little matter. But the limousine, including several spare tires, is now enroute to His Grace.

NEWS—General Douglas A. MacArthur's crisp, laconic communiqués from Bataan have excited favorable comment from writers and editors throughout the country. But historical accuracy punctures the legend that these inspiring dispatches are tossed off by World War II's hero in the midst of shot and shell. He has a rewrite man at the Capital—Lieutenant Colonel Francis V. Fitzgerald, an ex-reporter. Here is the inside story of those daily statements:

The general scribbles a rough message describing details of the fighting late in the day, which is early the next morning Washington time. He forwards his report to Corregidor by phone, messenger or portable radio. Naval operators on the island in Manila harbor short-wave the account to Honolulu, whence it is relayed to the Capital in the early hours. It is on Colonel Fitzgerald's desk when he reaches the office. He revises the coded script, paraphrasing freely to make it difficult for the Japs to break down the cipher. If the MacArthur original were issued to the

were visitors at the home of Mr. and Mrs. Elias Kulle last week.

Pvt. Charles Iostalo has been called back to the Army and has gone to Fort Sheridan, Ill., where he will report for temporary duty.

U.S. Cruise

By Albert N. Leman

COALS—A gasoline shortage in Hawaii—due partly to Pearl Harbor and Hickam Field losses and super-increased demands—has created an unforeseen aftermath. High octane until recently has been at a premium there. One of the difficulties the Army had to surmount was the complication caused by the emergency use of low-grade fuel which ate away the rubber lining of the self-sealing tanks in some airplanes. Such coating is a new invention which prevents fires and leakage loss, should an enemy bullet hit the petrol reserve.

Tankers have been scarce because, although they are almost as much a part of the Navy as a warship, the order to arm them came too late. Without guns a lone vessel is as helpless as a clay pigeon. The mounting of protective cannon and the assemblage of convoys caused delays in shipments.

The ironical twist is that with the Far East slipping through our

press, it would enable enemy intelligence officers to intercept more confidential data.

Around 10 a. m. the colonel—who was born in Minneapolis, once served as secretary to a Utah governor and did newspaper work in Salt Lake City, Los Angeles and Kansas City—walks into the Army press room. Reporters huddle around him while he stands under a large-scale map of the Philippines. If the story of the day requires elucidation, "Fitz" explains it with references to the wall outline. Then he flips out his fat watch from his vest pocket and gives the signal for the correspondents to flash their offices simultaneously. When big news like the fall of Manila comes through, he takes the precaution of locking doors and pulling shades.

EVIL—The deeper motives behind Government retirement-plan lobbyists' drive to drag Congressmen into the Federal pension system has not been disclosed in Capitol Hill debate or editorial discussion. The hidden factors cast a more sinister light on the honorables' action in voting themselves a pro bono publico bonus.

Uncle Sam's employees and their paid emissaries have been struggling since 1919 to convince Congress that they should be provided for generously in their old age. They have had to buck Presidents, Cabinet members and private economy groups. Calvin Coolidge restricted retirement pay to \$900 annually with the tart retort that "My papa never earned more than \$1,500 a year, but he left a nice estate to his children." Herbert Hoover promised to expand and regularize the system but he never did. One of FDR's first acts in the 1933 program of reducing expenses was to shave the amount payable to the superannuated. It has been a hard battle, and ordinarily the unpenalized lawmakers were hostile and unsympathetic.

But the fact that members of both houses have now become beneficiaries is courted on to change things. Instead of dealing with an-

tagonistic legislators, the lobbyists will be talking with friends and allies. Future proposals to liberalize terms and payments, inasmuch as improvements will nest-egg the solons who vote on these propositions will be easier to obtain. The pensioners have been smart. They have operated in accord with the ancient political policy of "If you can't beat 'em, join 'em." There is the fundamental evil of this back-scratching scheme.

OUT—Mr. Roosevelt set a style for men's headgear when he laid a wreath at Abraham Lincoln's feet on the birthday of the Civil War President. For nine years FDR has paid floral tribute to a Chief Executive whose war-time burdens approximated those which the White House must shoulder today. Previously he always attended this ceremonial in a top hat. But last week he wore his old gray fedora. After Military Aide "Paw" Watson had placed the Presidential offering at the foot of the famous statue of the rail splitter, he whispered: "What's the idea of wearing that thing instead of a topper?"

"Listen," replied Mr. Roosevelt, "top hats in the United States are out for the duration!"

New York

By Albert N. Leman

COALS—A gasoline shortage in Hawaii—due partly to Pearl Harbor and Hickam Field losses and super-increased demands—has created an unforeseen aftermath. High octane until recently has been at a premium there. One of the difficulties the Army had to surmount was the complication caused by the emergency use of low-grade fuel which ate away the rubber lining of the self-sealing tanks in some airplanes. Such coating is a new invention which prevents fires and leakage loss, should an enemy bullet hit the petrol reserve.

Tankers have been scarce because, although they are almost as much a part of the Navy as a warship, the order to arm them came too late. Without guns a lone vessel is as helpless as a clay pigeon. The mounting of protective cannon and the assemblage of convoys caused delays in shipments.

The ironical twist is that with the Far East slipping through our

goaded and guiding the Government. That is one of the freedoms for which we are fighting.

SNEAK—The Army breathes more easily now that another military road bordering the Panama Canal has been opened on which caissons and "jeeps" can speed from ocean to ocean in two hours. Military circles are still anxious about what might be hidden in the mysterious jungles between that region and central Mexico. Word reaches this city that President Avila Camacho's agents are having trouble with the German residents and coffee planters in Chiapas, the southernmost state of the republic bordering Guatemala.

Police have located powerful two-way radios in remote haciendas which have been in communication with Axis undercover men in various parts of the country. Landing fields have been discovered in places where there are no private planes. Stores of arms and ammunition have been unearthed. In each case the owners have a plausible explanation that the materials are merely for their personal protection but the answers do not ring true. All would be useful to an enemy advancing toward the Isthmus.

Mexican patrols have been increased along the sparsely populated Pacific coast, where secluded coves were once the rendezvous of pirates who sailed the Spanish Main. Previous to the war Nazi ships dispatched cargoes there. Coast guards fear that hostile raiders and submarines might sneak into the bays for fuel, supplies, and information. Planes landed from blockade runners might be concealed. The unsettled area is too close to the Canal Zone for comfort.

HOWL—Defeats and blunders are making Americans mad. Many New York leaders believe this is a healthy reaction—a symptom of vanishing apathy. Private citizens have quit being voiceless totem pole dumplings and are speaking out. Congress and the Administration are bombarded with questions. The future Gold Star fathers and mothers are in no mood to accept the assurance that "teacher knows best."

They are asking: Why so soon after Oahu's lesson was the Navy caught taking a second nap, which allowed gross carelessness to wreck the liner Normandie? Why did Washington bureaucrats again fail to check up on what precautions against damage their subordinates had taken? How many more needless mistakes before we learn that a sea war is no August yachting regatta?

They deny that dissatisfaction is disunity. In critical times a watchman's shrill alarm is more useful than a swing band's sweet lullaby. An aroused nation, aware of its difficult objective and increasing dangers, will stand shoulder to shoulder and silently endure priorities, taxes, rations, regimentation, and even defeats if unavoidable, but will justifiably howl when stumblebums in high places prolong the struggle and imperil success by incompetence. Fair criticism is a means of

Wife Mighty Proud Of Bataan Hero

DETROIT, Feb. 16—P—Mrs. Jean Wermuth, wife of Captain Arthur W. Wermuth, credited with bagging 116 Japs in the Philippines and capturing many more, is mighty proud of her husband, but more than that, she wants him back.

"I'm so happy I feel like howling, but please, please, send my husband back home," she said when informed of her husband's exploits. Mrs. Wermuth, a surgical nurse, is employed at Ardmore hospital at Ferndale. She is living at the home of a brother in suburban St. Clair shores.

Rather Have Him Back

"I tingle all over," she exclaimed. "I'm too excited to tell

charged cargoes there. Coast guards fear that hostile raiders and submarines might sneak into the bays for fuel, supplies, and information. Planes landed from blockade runners might be concealed. The unsettled area is too close to the Canal Zone for comfort.

you just how I feel. But I'd rather have him back than hear that he had been made a hero."

It was news to her, she said, that her husband is a captain.

"He was only a lieutenant when he was recalled to active duty a year ago. And all those decorations! I'm the happiest woman in the world tonight."

"I've been frantic with fear for months," she continued. "I haven't heard from him since the attack began. Gee, it's good to hear that he's all right."

She said she met her husband when she was a nurse in Ravenswood hospital, Chicago.

Father Was Physician

"His father, the late Dr. Arthur C. Wermuth, Sr., was a staff physician there," she said. "Art thought he wanted to be a physician, too, and kept following his father around the hospital. We started talking in the hospital corridors and two weeks later we were married."

"That was the middle of May in 1935. We were married on June 1. Art was studying in the medical school at Loyola university then, but he decided he didn't want to be a doctor and we moved to Traverse City, Mich. He got a job as drug salesman."

Mrs. Wermuth's father, Eli P. Wilkins, lives in Arizona.

The sea urchin walks on the tips of its teeth.

SINGAPORE FIRST TO ARRIVE LAST TO LEAVE MCDANIEL

By C. YATES MCDANIEL
Singapore, Feb. 11 (10:30 A. M.; 11:30 P. M. Eastern War Time, Tuesday) (A. P.)—The sky over Singapore is black with the smoke of a fire this morning as I write this once before.

'DEFINITELY LAST MESSAGE'

"I am leaving."
That message, at the end of a fragmentary but poignant dispatch telling of fearful air raids on Singapore during its last stand against the Japanese, was the last word received by the Associated Press from its staff reporter in Singapore, C. Yates McDaniel.

McDaniel was the last American reporter to remain in the city.

Instead of glancing the routine time-stamp at the beginning of his message, McDaniel marked it "definitely last."
Born in China, McDaniel has spent much of his life in the Orient. This is the fourth time he has seen a great city fall to the Japanese. He was in Tientsin, Nanking and Hankow when they fell.
