

### City Seeking Approval Of Sewer Project

The department of public works, on authorization of the city commission, will seek Federal approval of a \$22,534 WPA project for construction of sanitary storm sewers, officials announced yesterday.

As sponsor of the work the city offers to appropriate \$10,632 for materials and supervision, while the Government's share for labor would be \$11,902.

Strict regulations on the employment of WPA labor, limiting it to national defense projects and essential public works, makes it uncertain when the proposed sewers will be constructed. It is possible, however, that upon completion of other jobs in this area some work will be approved this summer.

**Project Divided**

The project is divided into two parts—sanitary sewers and storm sewers. Under the first division 1-100 feet of eight-inch pipe would be laid in Champion street and four manholes constructed. For this job 50 yards of solid rock will have to be removed. In Garden street 430 feet of 12-inch pipe would be laid and one manhole and a diversion chamber built. In Hampton street 310 feet of 12-inch pipe would be laid and one manhole and a diversion chamber built. Lateral connections would be made in the three streets.

**Two Storm Sewers**

To complete the city's storm sewer system, which will permit segregation of surface water from sanitary sewage in all parts of the city, 1,140 feet of 18-inch concrete pipe would be laid in Genesee street and four brick manholes and 12 catch basins constructed. In Adams street 680 feet of 15-inch pipe, three manholes and 10 catch basins would be installed.

All of this work, it is pointed out, must be finished before sewage can be pumped to the Carp river for treatment at a plant to be constructed there.

**Easter Program Friday In Church at Big Bay**

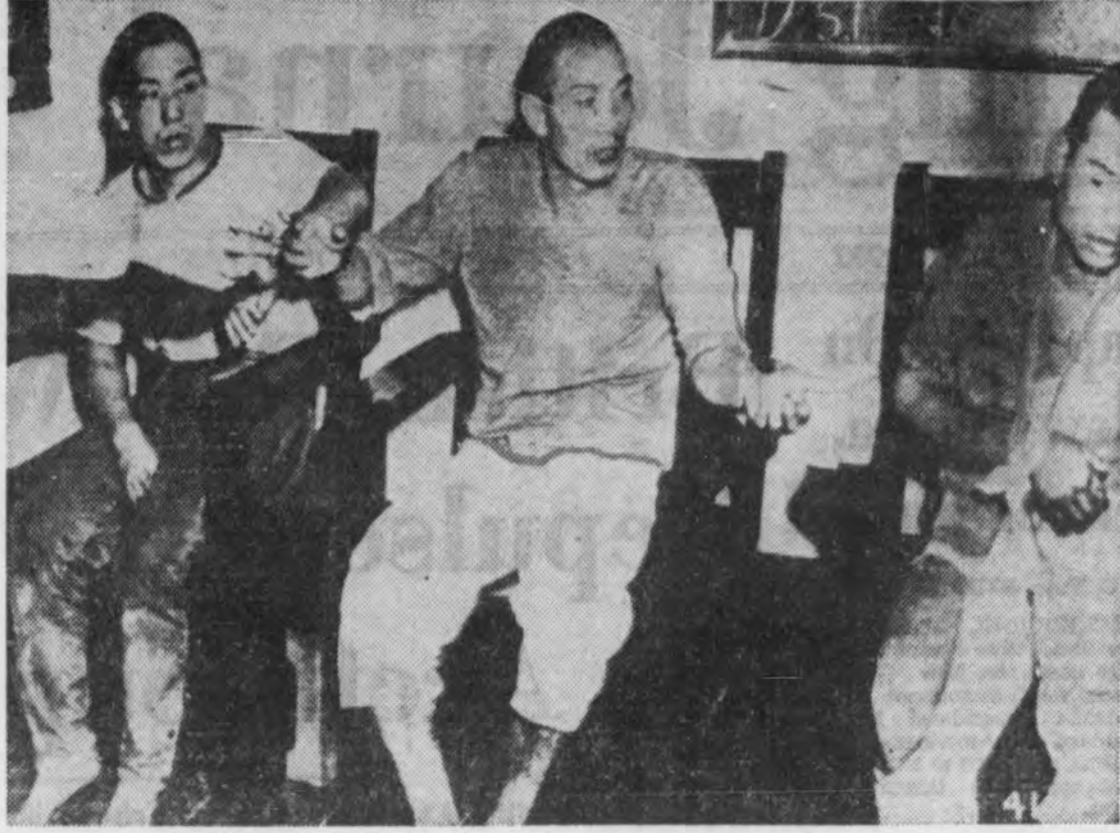

**BIG BAY, March 31**—In the Community Presbyterian church the following Easter program will be given Friday evening at 7:30 by the Sunday school:

Prelude—Jane Berkland.  
Opening song—"All Hail the Power."

Scripture reading.  
Prayer—Mrs. Berkland.  
Song by Sunday school—"In My Heart There Rings a Melody."  
Welcome exercise.  
"Tis Easter"—Carol Hutter.  
"He Lives"—Choir song.  
"The Easter Story"—Lyle Gunderson.  
"Easter Acrostic"—Primary class (Alta Chaffee, Marjorie Utter, Fern Chaffee, Patricia Barber, Beverly Burk, Leola Haley, Ronald Hutter, Martha Feltner, Barbara Phillips, Donald Phillips).  
Solo, "Wonderful for Me"—Lila Gross.  
Recitation, "Eastern Vision"—Paul Matson.  
Recitation, "Song of Triumph"—William Hutter.  
Primary song, "Jesus Little Friends"—(Leola Haley, Inez McQuire, Daryl McQuire, Kendal Pascoe, David Chaffee, Alta Chaffee, Fern Chaffee, Barbara Phillips).  
"Wonderful Hands"—Choir song.  
Recitation, "I Can Sing"—Lillian Allen.  
"Easter Lilies"—Florence Phillips.  
Trio, "One Day"—June, Marie and Gerald Thorpe.  
"Easter Day"—Leland Gunderson.  
"Listen Friends"—Gertrude Johnson.  
Choir song—"O Holy Cross."  
"Because He Was A Boy"—(Raymond Phillips, Harold Paquette, Dewey Thorpe, Lewis Lockery, Dale Allen, Carrol Scot, Roy Matson).  
"We Too Shall Live"—Kendall Pascoe.  
Reading, "The Walk to Emmaus"—Lila Gross.  
Duet, "The Savior for Me"—Mrs. Pascoe and Donna Pascoe.  
"Behold! Believe!"—Joyce Barber, Marilyn Utter.  
Talk—The Rev. John Hamel.  
Missionary offering.  
Congregational hymn—"Low in the Grave He Lay."  
Benediction—The Rev. John Hamel.

A campaign is underway in Canada to collect 25,000 tons of scrap rubber during the current year.

### Jap Raiders Shot Down And Captured

These Japanese aviators were shot down and taken prisoners during Nipponese raid on Manila, former capital of the Philippine Islands. (U. S. Army Signal corps photo).

### Third Draft Numbers

- Local order numbers—501 to 601—of registrants in the third selective registration in Marquette county follow:
- | Order No. | Serial | Name                             |
|-----------|--------|----------------------------------|
| 501       | 946    | Emil A. Gustafson, Marquette     |
| 502       | 161    | Edward I. Coughlin, Ishpeming    |
| 503       | 1164   | Edwin S. Bice, Marquette         |
| 504       | 697    | Herman J. Paju, Ishpeming        |
| 505       | 1397   | Albert L. Gauthier, Marquette    |
| 506       | 2604   | Emil Saari, Palmer               |
| 507       | 2398   | John H. Forss, Marquette         |
| 508       | 2538   | Leonard C. Smith, Marquette      |
| 509       | 436    | Rudolph Milavec, Marquette       |

### City Paragraphs

Wesley Mahan is a surgical patient at the Mayo clinic, Rochester, Minn.

Mrs. Jerry Beauchamp, 216 Jackson street, is a surgical patient in St. Mary's hospital.

Mr. and Mrs. E. Frohling are spending a few days visiting relatives and friends in the Copper Country.

John Mahon and Raymond Tegge have returned to Iron River after a brief visit here. They were guests of Mr. and Mrs. G. E. Moyle.

Mrs. Robert Turmu has returned to her home in Houghton after visiting her parents, Mr. and Mrs. Max Krollik.

Miss Dorothy Dix has returned to Marquette after sending a few days at the home of her parents in Houghton.

**Receives Commission**—Gereon R. Fredrickson, of Iron Mountain, former student at the Northern Michigan College of Education, has been commissioned a second lieutenant of infantry in the U. S. Army after completing the course at the officers' training school, Fort Benning, Ga. He has been assigned to active duty. Fredrickson entered the school as a private.

**U. S. Civil Service**—The U. S. Civil Service Commission announces an examination for zone deputy collector, Bureau of Internal Revenue, for employment in Illinois, Michigan and Wisconsin. Applications will be accepted until April 29. Complete information may be obtained at the Marquette postoffice by requesting a copy of civil service announcement No. 7-39.

### Coast Guard Station Gets Picket Boat

A 38-foot picket boat was received here Monday from the East coast by the Marquette Coast Guard and will be placed in service shortly. It is the first of its kind to be used here.

Although its speed is not known, the cabin-type craft is powered with a 250-horsepower engine. It is designed for fast rescue work in choppy seas and officials believe it will be a valuable addition to the station's fleet.

While picket boats are not as seaworthy as the slower surf boats, their speed makes them more suitable for patrol operations, which, because of the large amount of sport trolling and commercial fishing, have been particularly important in this area.

A fast Chris-Craft speed boat has been used here the last few years for emergency work, but this type cannot be used in heavy seas which often are rolling when rescues are necessary.

The picket boat has sleeping accommodations and a galley.

### Armed Guards Placed On Ore Carriers

Six apprentice seamen of the Marquette Coast Guard station have been assigned to armed guard duty on ore carriers plying the Great Lakes as part of a precautionary effort to prevent sabotage.

The guard service was announced yesterday by the district Coast Guard headquarters in Cleveland. An armed guard detail of two to four men under a petty officer will be assigned to each boat.

The announcement said the guards would be assigned on vessels moving through the Detroit, St. Clair and St. Mary's rivers, Lake St. Clair, and the Sault Ste. Marie locks and harbors.

During the last war, such guards boarded vessels only as they approached the Sault locks, and left when the ship had cleared them.

The details will board the ships at their lower lake ports and make the complete trip each way.

Men on guard duty from Marquette are Charles D. D'Auto, Richard W. Green, George Michael, John W. Kowalczyk, Eugene C. Rozyla and John Rutkowski.

(Time) 5:30 a. m.; 8:30 a. m.; 12 noon; 3:00 p. m.; 7:00 p. m.  
Leave Mackinaw City (Eastern War time) 7:00 a. m.; 10:00 a. m.; 1:30 p. m.; 4:30 p. m.; 8:30 p. m.

### Acid Indigestion

What many doctors do for it... When excess stomach acid causes gas, acid stomach or heartburn, doctors prescribe the fastest-acting medicine known for symptomatic relief—medicines like those in Bell-San Tablets. No laxative. If your bottle is to us and get double your money back. \$6.

### Passenger Tire Retreads Available

Passenger automobile tire retreads will be rationed in Marquette county this month for the first time, Lloyd LeVasseur, of the county rationing board, said yesterday.

The quota for April follows:

Tires Retreads Tubes	23	26
Passenger	101	98
Truck	92	98

Compared with a quota of 130 truck tires and tubes, 108 truck tires and 98 truck tubes were rationed by the board in the county last month. Sixty-one passenger automobile tires and 52 passenger tubes were sold. The quota was 60 tires and 48 tubes, raised at the request of the board from an original quota of 29 tires and 24 tubes.

#### May Get Tubs, Too

The county was apportioned 37 truck retreads last month, LeVasseur said, but only 10 were sold.

Amendments to the rationing regulations are being prepared to provide for issuance of purchase certificates for inner tubes to persons eligible under Class B, the board has been informed by the state rationing headquarters.

Class B includes persons eligible for retreads, but not for new tires. Previously there has been no provision for issuing inner tubes to persons on the Class B list.

Recent court rulings have held that when pending litigation is affected by rationing orders of the Office of Price Administration, the rationing orders will control the finding by the court on the rights of the litigants.

#### Public Need Paramount

Federal District Judge Luther B. Way, of Norfolk, Va., sustained the validity of OPA's rationing order and issued an injunction permanently restraining the delivery of new tires and tubes to a buyer who claimed to have arranged the purchase before the Government "froze" all tire sales, according to an OPA bulletin.

Judge Way stated from the bench that the urgent need for rubber and its vital importance to the prosecution of the war is such that all citizens should comply with rationing regulations. The public need is paramount and must prevail regardless of the technical fact of ownership, he held.

Judge O'Brien, of the Omaha, Neb., municipal court, made a parallel finding in two replevin suits brought by Omaha residents to obtain possession of tires.

### Obituary

#### Mrs. Lucy Lavake

Mrs. Lucy Lavake, 52, died early Tuesday afternoon in St. Luke's hospital after a long illness.

She had been a resident of this city since last November, coming here from Munising, and made her home with her daughter, Mrs. G. A. Grenholm, 209 East Hewitt avenue.

The body will remain in the Tomella funeral home until Thursday morning, when it will be taken to Manistique for burial.

#### Joseph Gobert

Joseph Gobert, 54, died in the family home, 716 North Sixth street, Tuesday morning after an illness of more than nine months with a heart ailment.

He was born in Stephenson, Mich., December 1, 1878. The family had lived here for 22 years. Mr. Gobert was an employee of the Lake Superior & Ishpeming railway and was a Disabled War Veteran.

Besides his wife, he leaves four daughters and one son. The son is Joseph Harold Gobert and the daughters are Irene, Eileen, Lois and Rose Gobert. He also leaves two brothers, Allen Gobert, of Princeton, and Louis Gobert, of Argonne, Wis. There are 13 nieces and 16 nephews. Funeral services will be held Thursday at 3 p. m. in the Swanson funeral home. Burial will take place in Park cemetery.

#### Alyce Jean Johnson

Alyce Jean Johnson, 14-year-old daughter of Mr. and Mrs. Steve Johnson, 1107 North Fourth street, died in St. Luke's hospital at 2:45 Tuesday morning after being ill for 10 days with lobar pneumonia.

Alyce Jean was a freshman in

### Commission Ponders Holiday Problem for City Employees

All city offices will close Friday afternoon and city employees will be given a half-holiday in observance of Good Friday, the city commission decided Monday.

Meanwhile, however, the commission continued to wrestle with the holiday problem as it affects city employees. Under study is the question of how many holidays should be regarded as "official" by the city and whether employees should be given a Monday holiday in the event a "legal" holiday falls on Sunday.

The problem is complicated by the fact that the number of holidays observed varies from state to state. New York state has 11, whereas the Kentucky legislature recently passed a measure limiting holidays to Independence Day, Labor Day and Christmas.

In a preliminary discussion of the matter Monday night, Mayor Biegler offered a list of eight holidays to be observed by the city government, adding that the commission could eliminate one or more at its discretion. The holidays mentioned are New Year's, Washington's

Gravesent high school, a member of Troop 7, Girl Scouts, also a member of the Sunday school, 1942 confirmation class of the Messiah Lutheran church and the junior choir. She was born here on July 1, 1927.

Besides her parents she leaves two sisters, Janet, 6, and Muriel, 4, her grandmother, Mrs. Albertine Johnson, and several aunts and uncles.

The body is in the Swanson funeral home and funeral services will be held Thursday at 2:30 p. m. in the Messiah Lutheran church with burial taking place in the family plot in Park cemetery.

#### Mrs. E. J. Longyear

Nevada Patten Longyear, wife of Edmund J. Longyear, of 10531 Garwood Place, Los Angeles, California, died Monday morning, March 30. Mr. and Mrs. Longyear made their home in Minneapolis, Minnesota, from 1901 to 1923, when they moved to reside permanently in California, making frequent trips back to visit friends and relatives in Minnesota, Michigan and Indiana.

Mrs. Longyear was born in Booneville, Indiana, in 1868, the daughter of Mr. and Mrs. George W. Patten, later moving with her parents to Petoskey, Mich., where she married Mr. Longyear in 1890. They celebrated their golden wedding two years ago in April.

She and Mr. Longyear were pioneers in the early days of the iron development in Michigan and the Mesabi range in Minnesota. Mr. and Mrs. Longyear resided in Hibbing, Minnesota, for 10 years.

Mrs. Longyear was active all her life in the development of the cultural, educational and religious life of the communities in which she lived. She was a charter member of Trinity Baptist church, Minneapolis, and was active in Minneapolis in church and YWCA work and other philanthropic organizations.

She leaves her husband, a daughter, Mrs. Ralph Lutz, of Palo Alto, California, her sons, Dr. Clyde S. Richard P., Edmund J., Jr., of Los Angeles, and Robert D., of Minneapolis, and eight grandchildren. She also leaves four sisters.

Funeral services will be at Forest Lawn, Glendale, California today.

### Hotel Manager Faces State Labor Charge

Charged with employing three female workers at the Northland hotel more than 54 hours a week in violation of state labor laws, William Monfort, hotel manager, pleaded not guilty when arraigned in city court yesterday and was released on bond of \$200 to await trial here next Tuesday afternoon, beginning at 2.

The charge was brought against him by the state department of labor and industry following an investigation by T. A. Nevela, of Ironwood, deputy state inspector of the department and its representative in the Upper Peninsula.

The complaint, signed by Nevela, charged Monfort with employing the women more than an average of nine hours a day or more than 54 hours a week.

The state law covering the case, Nevela said, follows: "No male under the age of 18 years and no female shall be employed, permitted or suffered to work in any factory, mill, warehouse, workshop, quarry, clothing, dressmaking or millinery establishment, or any place where the manufacture of any kinds of goods is carried on, or where any goods are prepared for manufacturing, or in any laundry, store, shop or

### Tomlinson Ship Officers For 1942

Henry Lester is fleet engineer of the Tomlinson line, whose vessel captains and chief engineers for the 1942 season are:

**Sylvania**—William Hill, Thomas E. Bouchard.

**Ball Bros.**—C. R. Baker, R. B. Feget.

**Adams**—J. C. Taylor, Joseph Brown.

**Raney**—C. U. Danielson, A. M. Bartow.

**Young**—Edward Cahours, A. M. Olson.

**Sierra**—J. E. Drury, Leo Gall-

### 568 Tables Allotted To U. P. Roads

With the tourist season just around the corner the state highway department is preparing to place 3,500 roadside tables along Michigan trunklines for the convenience of the public. Of the total number, 568 will be placed in the Upper Peninsula.

State Highway Commissioner G. Donald Kennedy said yesterday an effort is being made to anticipate the trend tourist travel may take and to locate roadside tables accordingly. This year most of them will be placed closer to communities and established resort development to accommodate tourists who are expected to stay longer in one area rather than take long tours.

Existing roadside parks and turnouts will be maintained, al-

though the number of tables will be reduced in parks in more isolated sections.

In the Upper Peninsula the highway department maintains six parks with water supplies, sanitary facilities, stoves and tables, and 22 roadside turnouts with some of these facilities.

During the winter the tables are stored in highway maintenance

garages. Now they are being repaired and refinished.

Rationing of motor fuel took effect in the Union of South Africa on February 2.

Present war conditions have given rise to a greatly increased Canadian demand for American cotton yarns.

# Presenting NEW STYLES FOR Spring!

## They're Here! All The Fashion-New SPRING COATS

Ready... with a scoop collection of all the important coat fashions for Spring! Personally selected from Chicago showings... and ready in our store for your inspection today! Casual coats, Box coats, Trim tailored coats... and every one an unexpectedly fine value at these prices!

- Fleece
- Shetlands
- Tweeds
- Cabardine Coverts
- Browns
- Grays
- Blacks
- Navies
- SIZES TO FIT ALL—10 TO 48

**\$12.95 OTHERS TO \$35**

### A Smart Wardrobe... Must Include A Smart SUIT

This Spring, more than ever, the most important item in your wardrobes will be your suit! These—newly arrived, include Long jacket styles, "Soft" belt types, Man tailoreds, Shetlands, Twills, Herringbones, Cabardines, Coverts. We present them proudly... because of their ultra-smart styling and their out-of-the-ordinary value.

- PASTELS
- SOFT PLAIDS
- BOLD HERRINGBONES
- TWEEDY MIXTURES
- NAVIES
- BLACKS
- BROWNS
- GRAYS
- SIZES TO FIT ALL—10 TO 44

## GETZ DEPT. STORE

Biggest Store Because Best Values

### From where I sit...

by Joe Marsh

BEST storekeeper I ever knew was a fellow named Sam Abernethy. Sam's specialty was to take over some run-down store that somebody else had given up as a failure. Then Sam would turn it into a gold mine.

"But the most important thing of all," he used to say, "is to remember who's Boss!"

"You may think you are Boss of your business... but you're not. The Public, your customers, are the real bosses... and you've got to run your business the way they want it."

That little statement of Sam's made a big impression on me... particularly since it certainly seemed to work so well in Sam's case.

And Sam isn't the only one. I see the beer industry feels the same way... certainly, the brewers believe in running their business the way you and I would like to see it run.

Folks like us like to see beer sold in clean, quiet, decent places.

*Joe Marsh*

### AAA Program Designed As Aid in War

The Marquette county AAA program is serving to encourage and help farmers of the county to improve their farms and increase production to such an extent that they will contribute a great deal to the "food for freedom" program. This was evidenced yesterday at the final monthly meeting of the county AAA committee. Meetings have been held during the month in all communities in the county, attended by AAA committee members and Mrs. Carmen R. Ewing, field representative.

Soil building and potato allotment payment plans were explained to the farmers. They also were informed that they could earn 70 per cent of their crop land by seeding clover, bromegrass, alfalfa and timothy and applying such materials as superphosphate and triple super-phosphate furnished by the Agricultural Adjustment Administration. They must also apply ground limestone and cooperate in weed control.

**Wheat Being Shipped Here**  
 "Farmers having potato allotments (three acres or more) have been informed that they must plant 80 per cent of their allotment to be eligible for payment," Mrs. Irene Piascecki, committee secretary, said. "They may plant more without being penalized."

The secretary announced that a 45-ton carload of wheat, obtained at Chicago through the Commodity Credit Corporation, has been ordered for Marquette and a 30-ton carload of wheat will be shipped to Republic.

Farmers must pay for the wheat at the Triple-A office in the Harlow block in Marquette. Orders for lime will be taken this month. Edward Esbrook has been awarded the contract for delivering lime in this county, and orders may be sent to the Triple-A office.

Mrs. Ewing has instructed farm women of the part they can play in the 1942 AAA program.

**Goal For 1942**  
 "The goal for 1942 is the production and preparation of enough food to assure every resident of the United States three square meals a day, plus a sufficient supply of food to send to others overseas and a reserve for future use," she said. "Every farm woman is asked to have a garden. She also must know what to feed the family and how to prepare food that is appetizing and healthful. The biggest challenge to farm women," she continued, "is to do the job they always do but to do it a little better."

The secretary said yesterday that "by keeping the soil in top shape, the AAA not only helps farmers reach record production by increasing the efficiency of machines and man labor, but the quality of the food produced is improved."

### 30 Passengers Hurt In Bus-Truck Crash

NORWALK, Ohio, March 31—P—Thirty passengers, many of them Michigan residents, were injured today when a westbound Greyhound bus collided with a truck and swerved into the side of a bridge 12 miles east of here.

State highway patrolmen said the bus driver, Henry Capron, 37, of Akron, deliberately swerved against the bridge to avoid a 20-foot plunge down an embankment into the Vermilion river.

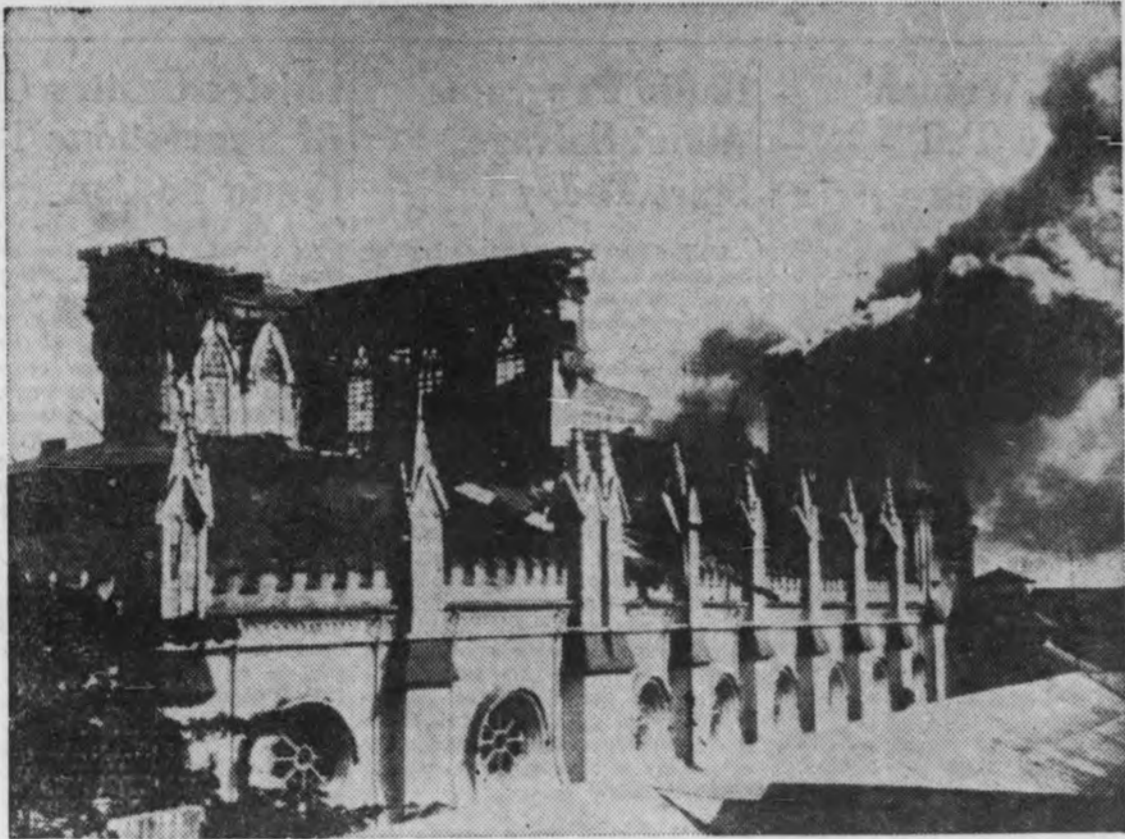

Marjorie Mlotke, of Dearborn, Mich., and another passenger were critically injured. They remained in Memorial hospital.

### February Sales Tax Collections \$5,690,000

LANSING, March 31—P—The state revenue department reported today Michigan's sales and use tax collections during February were slightly below the anticipated \$6,000,000 total. The department said total revenue was approximately \$5,690,000, compared with \$5,781,000 in the same month a year ago.

Walter F. Reddy, deputy commissioner, said the February collection in 1941 included \$1,011,000 in sales taxes on automobiles, indicating that consumer purchasing this year was continuing heavy because collections almost held normal level without auto sales.

### Manila's Ancient Cathedral Bombed By Japs

The centuries old Santo Domingo cathedral, in the heart of Manila's walled city, in flames as Japs bombed the defenseless city following the withdrawal of native and United States troops during Christmas week. Hundreds of natives were killed in the bombings. (NEA Telephoto)

### Government Needs Typists In Washington

Emphasizing that no longer do "women wait while men fight," the United States Civil Service commission announced yesterday that the Government needs women stenographers and typists between 18 and 53 years of age for immediate service in Washington, D. C.

"The national defense program needs women workers for war service in Washington as badly as the armed forces need men," the commission said. "All women selected for service in the nation's capital will be given a brief spot examination by a local civil service representative to determine their eligibility and if they are found to be qualified they will immediately be given a position in Washington."

**Housing Facilities Ample**  
 Stenographers must be able to take dictation at the rate of 80 or more words a minute, and typists should be able to type at least 50 words a minute. Salaries begin at \$1,440 a year and every opportunity for advancement is given.

The commission said that a recent survey showed ample housing facilities in Washington for Government employees. Rooms are available within 30 to 45 minutes from Government offices. Single rooms may be procured for \$25 to \$53 a month, and double rooms range from \$20 to \$30 a person by the month. Meals may be obtained at a minimum expenditure of \$1 a day.

Any stenographer who is qualified and "willing to serve her country and do her part toward winning the war," should seek further information and apply at the Marquette postoffice, at any first or second-class postoffice or at the U. S. Employment Service office in the Kaufman building, Marquette.

The ancient silk road between China and the Mediterranean is still traceable for many miles by deep ruts left by the traffic of centuries.

### Lemon Juice Recipe Checks Rheumatic Pain Quickly

If you suffer from rheumatic, arthritis or neuritis pain, try this simple inexpensive home recipe that thousands are using. Get a package of Ru-Ex Compound, a two-week supply. Today mix it with a quart of water, add the juice of 4 lemons. It's easy. No trouble at all and pleasant. You need only 3 tablespoons two times a day. Often within 48 hours—sometimes overnight—splendid results are obtained. If the pain does not quickly leave and if you do not feel better, return the empty package and Ru-Ex will cost you nothing to try as it is sold by your druggist under an absolute money back guarantee. Ru-Ex Compound is for sale and recommended by Fenius Pharmacy and drug stores everywhere.

### Scrap Copper Near Top Of Salvage List

Copper is one of the scarcest and most needed metals in the war effort, W. J. Weber, chairman of the Marquette county Salvage for Victory committee, said yesterday in an appeal to all residents to collect scrap metals in homes, shops, offices and factories.

"It doesn't matter whether the articles are made of copper," he said. "Even limited amounts can be processed and used. Copper pipe and tubing, old lighting fixtures, unused or obsolete heating and plumbing supplies, broken or damaged cooking utensils—these are just a few of the brass or copper articles likely to be found in the average home, all of which will add to the grand total, no matter how small they may seem alone."

**Salvage Unused Copper**  
 In 1941 approximately 34 per cent of the copper supply came from scrap. In 1942 it is plain that even this must be substantially augmented by an increase in the return of potential copper now lying unused in cellars, attics and backyards on farms and in shops and factories, the salvage committee chairman emphasized.

Not only copper, but all scrap metals, rags and wastepaper are in demand by war industries, the committee chairman stated. Emphasis has been placed on the fact that salvaged materials should be sold to waste material dealers, or given to charitable agencies which in turn sell to dealers. By this method, prompt return of the salvage

has been no reassignments so far, and we don't expect there will be until about half our doctors leave us."

More than a million workers are expected to be employed in the auto industry's war plants before the end of this year. This would compare with a peak employment of 543,000 in 1941.

Regular DANCE in the BARN Saturday Night. Prizes for men's and women's most comical Easter bonnet.

### State Expected To Lose 2,000 Doctors in 1942

LANSING, March 31—P—William J. Burns, secretary of the Michigan State Medical society, predicted today that approximately one-third of Michigan's 4,900 practicing physicians will be in the armed forces by the end of the year.

He said about 500 doctors already were now in military service and that 1,500 will be serving or commissioned and awaiting call before the year ends.

Burns said that, based on Army reports the nation's combined forces may reach nearly 8,000,000 men in 1943. Michigan probably will lose 2,000 to 2,500 doctors by the end of that year.

"No part of the service has been seriously hampered because of the loss of medical personnel," Burns said, "and plans are ready to reassign physicians before that will be allowed to happen. There have

**MONTGOMERY WARD**

Buy your **HAT** at Wards **BRANDON FUR FELTS** Here are the Easter styles and colors you expect in \$3.50 hats! Genuine FUR felts—good looking, and long-wearing. **2 98**

vage to repeated use in industry is assured.

**WATER SUPPLY POLLUTED**  
 GRANDVILLE, Mich., March 31—(P)—Residents of Grandville were warned today by Dr. J. D. Brooks, county health officer, that their water supply is polluted, as a result of a recent Grand river flood. No cases of sickness as a result of the pollution have been reported.

**INSANE MAN DIES**  
 IONIA, Mich., March 3—(P)—George Spagnolo, 42, a former Midland resident and an inmate of the Ionia hospital, died of a heart ailment after he was restrained by attendants at the institution when he became violent, a coroner's jury decided today.

**BURNS FATAL TO MAN**  
 GRAND RAPIDS, Mich., March 31—(P)—Burns received a week ago when he was overcome and fell into a bonfire in which he was burning refuse were fatal today to Lincoln Bovee, 83, of Grand Rapids. He died in Butterworth hospital here.

### Honored By Navy

Lieut. Comm. J. V. Peterson, U. S. Navy flier, has been recommended for the Distinguished Flying Cross for leading a squadron that bombed a 27,000-ton Kongo class Jap battleship off Luzon early in the Pacific fighting.

### Army Induction Center Opened at Kalamazoo

KALAMAZOO, Mich., March 31—P—Western Michigan volunteers will have their own Army induction center, beginning tomorrow.

Volunteer recruits will come here for examination and induction, rather than going to Detroit as in the past, if they live west of an imaginary line from Presque Isle county in northern Lower Michigan to Lenawee county in the south.

Volunteers from eastern Michigan counties will continue to go to Detroit for examination and induction.

Draftees will be inducted as before, some counties sending their men here and other sending them to Detroit.

Since 1920, the average speed of freight trains has increased 62 per cent.

Point Barrow, Alaska, is the northernmost postoffice operated by U. S. Postoffice department.

**\$3 75 ?**

Is it worth it, that's the thought? Is "good credit standing" worth that to you. Some will say it is, others will disagree.

Your local merchant, garage dealer, hospital or doctor will render much better service if your answer is yes. Local merchants extend courtesies to those who appreciate favors most.

The value you place on your credit, of course, must be determined by you. If you need \$50 to keep your credit good, it will cost you \$3.75 and you will have five months in which to repay.

(Payments include charges at the rate of 2 1/2% per month. This rate is less than the maximum permitted by the small loan act.)

# St. Paul's Episcopal Auxiliary Holds Annual Event In Guild Hall

## War Certainly Holds Mirror Up To People

(By MANTHEI HOWE)

This war certainly has an enlightening way of showing up old human nature. Doesn't it now? Ordinarily, in peace time we go along each of us indulging in our pet follies, our own special idiosyncrasies, or in truly constructive endeavors. Nobody pays much attention to it unless we step too far aside in one direction or the other. Everybody, like a snowball rolling down hill, proceeds under his own momentum. In the instances of individuals, emergencies arise and show us up to our own amazement, and that of our friends.

### Brings Surprises

There may be a huge fire which endangers the lives of a great many people. Then we are amazed to see some mouse, ordinarily inconspicuous man who, perhaps, viewed from the standpoint of his bank account, had not been too successful, who almost without realizing it conducts himself with bravery while some lad who might be expected to be the hero, is scared stiff.

There will be an accident and some men, too conscious of danger, or too accustomed to thinking in terms of whether a thing can or cannot be done, stepping aside to let some meek-as-Moses woman handle the situation.

Look at how many of us drift along from year to year rather bored with existence and ourselves, until some emergency makes us snap out of our smug and selfish complacency and we do a pretty good job of acting like fine human beings.

That which, in greater or lesser degree characterizes all of us sometime during our lives, comes out with even greater clarity when there is a great emergency like the war.

### Traits Come to the Surface

Then those who are ordinarily inclined to be hysterical become more so. Fortunately there are always a lot of folk who think objectively about any national crisis even if they can't do a very good job along that line when thinking of their own affairs. They keep their feet on the ground.

They concede that things are in considerable of a mess, that intuitively all the things have not been done that should have been done and that a lot of things certainly have been left undone that ought to have been done, but . . . they pitch in and work grimly without wasting any time on hating the Japs or the Germans, the racketeers or the slackers. There is a job to do and they keep their feet solidly planted on the ground and swing that job.

On the other hand there are folk who as we say "fly off the handle," who think in terms of what is or is not convenient to them. A lot of us are considerably surprised, too, when we find ourselves in that class.

The blasted old war is made of the whipping post or "out" for a lot of our good qualities and our bad ones.

### They Don't Want To

Some one will ask certain people to serve on committees and there will be a goodly proportion who, simply because they are lazy and don't want to bestir themselves, will say: "Oh, I can't. I'm too busy," and yet the very same persons will be at the club two or three nights a week playing cards or will be able to attend any number of social gatherings, or go away for a trip of two or three weeks.

Those happenings in the war are reminders that we aren't many of us completely honest with ourselves and acquaintances.

There are persons who are carrying all the load they should be carrying if they are to swing the job that provides them bread and butter, a job that has to be done, but they haven't time, because they don't want to do the work.

Ask folk to buy bonds and when they want to, when they are aware of the necessity of such purchase, when they are willing to do their part, they manage to chisel a bit from this or that of the budget (and heaven only knows how they succeed in doing that sometimes) and buy bonds.

### Could It They Would

Other folk will tell their friends: "I wish I could buy some bonds but I simply can't do it," and then will give the lie to what they have said by spending \$40 or \$50 on a spring wardrobe, a trip, something new in the way of furniture for the house.

They are depending on the good old "out" of excuses for something they simply don't want to do. They want to win the war if some other folk will make all the sacrifices and do all the work.

Then there are the folk who have to have a sweet sugar-coating of praise, or of position, if they are to cooperate. They'll work on the committee, if the chairmanship will be given to them. They are perfectly willing to give orders, but hanged if they will take orders from Bill Jones or Peter Smiley or some other person. They take the war as an opportunity to get their first good share in the public limelight, or to add to the prestige they have already established in the past.

Club members, who have belonged to clubs with important departments devoted to Americanism and good citizenship, who may even have read papers or gotten up programs on the subject, will blithely go along seeking nothing incongruous in the fact that they have more sugar, nylon stockings, girdles and spics than any housewife has any right to have in these times. They, even though their refrigerators and electric stoves are good for much more use, will try to whangle new ones to make sure they are not inconvenienced.

All the peculiar quirks, the oddities, the good and bad characteristics of people come to the surface when there is a war. For-

## Society-Club

**On Honor Roll**—It should have been Mary Wolf and not Nancy Wolf who was credited with having received 5 A's on the Howard Junior high school honor roll.

**Visits Here**—Mrs. Alfred Howard, of Alexandria, Virginia, who was formerly Miss Dorothy Hart of this city, is here to visit her parents, Mr. and Mrs. Louis Hart, of Bluff street.

**Arrives Safely**—For two months Mr. and Mrs. George Schastan, 350 Bluff street, did not hear from their son, P. F. C. Russell, who is in the Army. Like many other parents they wondered and worried a bit. Naturally this will be a happy Easter for them, since they have just received a letter from their son saying he arrived in Iceland and is well.

**Finish First Aid**—The following members of the standard Red Cross First Aid class which was held in the Gravenet high school, with Mrs. C. A. Arps, as instructor, have completed the course and will receive certificates: The Misses Mary Bebo, Virginia Carlson, Mary Delaney, Suzanne Dolf, Shirley Fritz, Patricia McQuade, Allen O'Neil, Anne Olivier, Betty Stensrud, Helen Vestal, Lois Woodin and Dorothy Yerebeck.

**Messiah Service**—The first of the Holy Week Communion will be celebrated at the Messiah Lutheran church at 7:30 this evening. There will be an administration of the Sacrament of Baptism and reception of members. The intermediate choir, under the direction of Miss Virginia Johnson, will sing, "Bread of the World," by Franz. At the offertory, a trio composed of the Misses Dorothy Simpura, Shirley Fern, and Ruth Backels, will sing "God is a Spirit" by Meredith.

**Music Dates at College**—On Thursday night, April 9, the orchestra of the Northern Michigan College of Education, will give its annual concert at 8, in the auditorium. Dr. Roy Williams will be in charge of the program. On April 25, the Upper Peninsula high school orchestral festival will be held in the auditorium, with several high school ensembles participating. May 5, the college band and glee club will give its annual concert in the auditorium.

**Circle Meetings**—The following Circles of the Woman's Society of Christian Service of the First Methodist church will meet at the time, and with the hostesses designated: Circle 1, Mrs. Ralph Benson, in the warden's home at the Marquette Branch prison, at 2:30 this afternoon; Circle 2, Mrs. C. P. Drury, 414 East Hewitt avenue, at 2:30 Thursday afternoon; Circles 3 and 4, Mrs. Robert Brunner, 203 East Park street, on Thursday; and Circle 5, Mrs. Henry Peterson, 1212 Second street, at 7:30 Friday night.

### TO WASH WOOLENS

Ordinarily, unless very soiled, woolen socks and gloves need no soaking. Wash in a very mild, lukewarm suds, turning and rubbing lightly on both sides. Rinse in clear water of the same degree and dry on wood or rustproof wire forms at room temperature.

Unfortunately for this old world and its peoples, most human beings when they get shoved with their backs to the wall, really come through in pretty good shape, as note the response of the civilians after Pearl Harbor, but often it takes a bomb or two before we really behave.

## Silver Tea And Easter Sale Set For Saturday

Each year St. Paul's Auxiliary sponsors a silver tea and Easter sale in the Guild hall to which all interested persons are invited. Many attend because they welcome the opportunity to buy attractive Easter gifts or because they want especially delicious foods for the festive meal. An equal number attend because they enjoy the opportunity to drink a cup of tea and visit.

Saturday is the date for this annual event and the hours are 2:30 to 5 in the Guild hall. Members of the Auxiliary will offer baked goods of all kinds for sale. Moreover there will be delicious homemade candies, marmalade, swirls, colored Easter eggs, and a "white elephant" table where you may find just exactly the small decorative article or gadget for which you have been looking.

## Meetings

**Marquette city employes**, Local 293, at 8 tonight in the Union hall, Nester block.

**Royal Neighbors** at 7:45 tonight in Knights of Columbus hall. Social hour after meeting.

**Quarterly meeting** of the Finnish Suomi Synod church in parish hall Presque Isle and Fair avenues, at 7:30 tonight.

**Marquette Post**, No. 2439, Veterans of Foreign Wars, at 8 tonight in the Y. W. hall, 238 Baraga avenue. Election of officers.

**Group L of St. Paul's Auxiliary**, tonight after Lenten services, in lower rooms of Guild hall, Potluck lunch.

**Ladies' Aid of Finnish Evangelical Lutheran National church** at 8 tonight in the social rooms. Devotional address by the Rev. A. L. Maki. Hostess, Mrs. H. Makiranta.

**Dr. Warren Lambert** will speak on "Injuries Due to Heat and Cold and Poisons" at the lecture to civilian defense first aid classes in the Gravenet high school auditorium at 8:15 tonight. The lecture follows regular study periods and is open to persons other than members of the first aid classes.

### Can You Answer This Test on Manners?

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. If an acquaintance plays for you a recording of one of his favorite songs would it be polite to say you don't care for it?
  2. If you are talking to a man in the service should you feel you must talk about the war all of the time?
  3. Should you criticize the way the war is being run if you are a civilian talking to a man in the service?
  4. Is it good taste for a person to complain about his financial "sacrifices" for the war, while talking to a person who has a son or husband in the armed forces?
  5. Would parents object to a girl visiting a young man at Army camp if they had no objection to her dating him before he went into the Army?
- What would you do if—  
You hear someone bragging about

## 'She Did Look Like A Woman' But It Was Hard To Tell

"Small figures in dungarees who wore asbestos gloves would make the coal onto a moving belt. . . ." The figures were women — part of the London gasworks' "black gang."

LONDON—The heat was so intense it seared the face and when a gong sounded and the circular doors of six furnaces were suddenly thrown open, you wondered why the metal didn't disintegrate.

In the retort house of this London gasworks, down along the Thames, this operation of opening and closing the great doors is called discharging the fires and every-time it happened not only would flame and heat jump out from the fiery furnaces but great clouds of soot enveloped everyone who stood near.

A long cylindrical stem of coal flowed from these furnaces and dropped into a trough five feet below. As it fell, small figures in dungarees who wore asbestos gloves, would make it onto a moving belt, which carried it all away.

### Three Women In "Black Gang"

The plant engineer leaned over and, shouting into my ear to make himself heard, said: "That's a woman."

He pointed to a small figure in dungarees, who stood raking the pink-hot coal onto the moving belt, which in turn passed beneath jets of cold water.

She did look like a woman, somewhat, when you looked closely. Dungarees, pulled tight around a small waist, which suddenly bulged out around hips, that were round and broad, said so. But you couldn't tell by the face. Not easily, anyway. Coal dust, two layers deep, gave a dark velvet sheen to her face and made an impenetrable mask—until she smiled.

Three women were working as a "black gang" team around this particular furnace and trough. One was pushing the guard cart in front to take the splashing cinders, another was sweeping and stoking the trough and a third was maneuvering the long red-hot

how he outsmarted one of the rationing plans—  
(a) Give him the idea that you think he is a smart fellow?  
(b) Let him know that you don't think much of his action?

- Answers  
1. No.  
2. No.  
3. No. He might very well resent your talk.  
4. No.  
5. No.  
Better "What Would You Do?" solution—(b).

## Radio Programs About Salvage Start Today

Collecting of waste paper is going on apace in Marquette and housewives are asked to continue to save all newspapers, magazines, and cardboard.

On Saturday of this week the collection will be made in district No. 3, which includes the west side of Front street and all the area west and north of Front to Fair avenue.

A series of programs on salvage will be broadcast over WDMJ. The city salvage for victory committee is cooperating with the radio committee of the American Legion Auxiliary, of which Mrs. Leo Murk is chairman, and the first broadcast of the series will be given at 5:15 this afternoon.

## Use Makeup To Aid Drama To Skin

If you have a clear, smooth complexion, it's your business to learn to use cosmetics so that the natural texture and glow of your skin are dramatized, says Alicia Hart. Unless it is used to conceal minor blemishes or rough spots, the wise woman's foundation preparation will give her face a delicate, translucent finish rather than a heavy caked look. It ought to be smoothed on lightly and allowed to set for a moment or two before rouge is applied.

There is a new foundation which does the job royally and practically—as it should, since it's made by a titled American woman. It is thinner, more delicate than some liquid foundations, yet it clings like alabaster. The liquid smells like a summer meadow.

### Look Natural

Rouge should be placed on the cheeks where your natural color shows after violent exercise or gentle pinching. The edges must be blended out, entirely. Cream rouge or even a lipstick suits most women.

To achieve a dull mat finish with powder, apply it generously and let it set for a moment, then whisk off the excess with powder brush or a clean fluff of cotton.

Powder should exactly match your natural skin tones. Some women find it flattering to leave the powder off when they use a good foundation such as the new one mentioned here. This of course, produces a different finish—not dull, but with a sheen.

Rouge and lipstick are most becoming when they match, or at least harmonize, with the color of your cheeks and lips when you are wearing any color other than black or white.

### EXTENSION CORDS

It is not a safe idea to nail extension cords to wall or floor. If it is necessary to use long cords which must go along wall or floor surface, do fasten with clips especially made for that purpose.

Certain specified articles of prime necessity in Cuba have again been accorded special tariff treatment as a means of minimizing living costs of the Cuban public.

## Chitter-Chatter Gives Resume Of Suggestions To Be Used At Home To Conserve Supplies

A recent business publication notes: "Since October 27, 1938 when Hankow fell, the Chinese, with inferior weapons and a shortage thereof, without control of the air and with no knowledge of what modern army code books say, have fought the Japanese to a standstill. They have done it through high morale, which is not just esprit de corps; it is based on a conviction in the individual soldier that he has something worth fighting and dying for. That is why the Chinese and Russians are fighting so well."

That same high morale should make civilians realize that there are numerous things which civilians can do to help win the war; all that is required is thought and a bit of effort. The following are things we are asked to do, with suggestions how such can be done.

### Refrigerator Tips

America has 18,000,000 electric refrigerators. Get the most out of all such equipment.

1. Don't open the refrigerator any oftener than is absolutely necessary. Take out of the box all things at one time needed for the preparation, or serving of the meal. After the meal, assemble all the articles and place back with one opening of the door.

2. Don't put hot food or dishes in the refrigerator. Don't pack the box full of foods, packages, cans. Free circulation is important to refrigeration.

3. Remove tops of vegetables before putting them in box to keep. Also remove paper wrappings and bags.

4. Place all left-over foods in small-est possible dishes, for it takes electric power to cool containers.

5. Arrange foods so they are easily located without hunting through the box.

### Care of Silk Stockings

Since we do not know how much silk or nylon hosiery will be available in the future as the materials in both kinds of stockings are needed for making parachutes, we need to care for those we have. We want to make them last.

The first suggestion, as given by the office for emergency management, division of information in Detroit, is a series of "Don'ts":

Don't wear silk or nylon hose while doing your housework, or when going marketing, or other activities requiring much walking. Cotton and lisle hose should be worn for housework.

Put the stocking on properly by rolling the stocking down carefully, slipping your foot into the toe, adjusting the hose over the heel and then drawing the stocking up slowly over the leg. Fasten garters in the reinforced top.

Wash the stockings after each wearing, and as soon as possible after they've been taken off; using a lukewarm, mild neutral soap suds. Don't rub or wring the stockings. Rinse them two or three times in water of the same temperature. Roll in a turkish towel or other absorbent material. When putting stockings away be careful not to snag them on rough wood on the inside of bureau drawers.

### Proper Care of Suits

The great need of woolens for the men in the Army makes it imperative that all civilians give their wool clothing proper care. Given that care, the suit, topcoat, or overcoat will last twice as long.

Avoid too frequent pressing. Hand pressing is better for the garment than machine pressing.

Before pressing always brush fabric thoroughly, and use damp cloth under iron. Let suits hang 24 to 48 hours after pressing to give "creases" a chance to set.

Always hang suits on hangers and wooden ones are better for this purpose than metal. Buttoning the coat helps to keep the proper "set." Hang trousers from the bottom for their weight helps to pull them into shape.

Avoid loading pockets with "junk," as too much bulk or weight pulls a suit or coat out of shape. Have soiled fabrics cleaned to assure longer wear.

### When You Market

To make your food dollars go farther requires clever marketing, storing, and cooking.

As to marketing, learn the quantities of food your family needs and don't buy too much; especially when buying perishable vegetables. Don't buy a large quantity of eggs at one time unless the family will eat the eggs before they deteriorate. Know how much meat will be used at each meal, and buy that amount.

When storing foods—Keep potatoes in cool, dark place. Wash fresh greens at once, drain, and place in covered container in refrigerator. Keep butter and eggs in covered containers since both can absorb odors, as does uncovered milk. The refrigerator with soda and water at least once a week.

Cooking — Improperly cooked food is a source of waste. Cook vegetables in very little water, and use the water for gravies, soups, or sauces for the vegetables as it is full of vitamins and minerals. Cook vegetables only a short time, as overcooking destroys vitamins and minerals. Don't use soda in vegetables as it destroys many food elements.

Well, Chitter-chatter has been most un-chitter-chatterlike in content, but there's a war.

### ZESTY CANAPES

Here's a canape that will make a hit with your guests: Crisp crackers spread generously with cream cheese topped with cooked shrimps which have been dipped in Worcestershire sauce.

### KEEP HATS DUSTED

Felt hats should be kept free from dust always. A drop of water on a dusty surface will make a dirty spot that may sink into the felt and be difficult to remove later.

**"MIDDLE-AGE" WOMEN (38-52 yrs. old)**

### 'Scandinavia' Is Book To Appeal To Many Readers

"Scandinavia, the Background for Neutrality" is a book that will be of special interest for those who were born in Denmark, Sweden, Norway, Iceland, or Finland or have yearned to visit those lands.

It is a 1940 book, written by Alma Luise Olson, and was loaned to this reviewer by Mrs. Ellen Meyer, of Baraga, who is a cousin of the author.

Miss Olson was for many years special correspondent in Scandinavia for the New York Times, and the king of Sweden awarded her the Royal Medal of Vasa for the work she has done in spreading the knowledge of Sweden, its literature and arts in the United States.

**Is Story of Democracy**  
In the book the writer tells of the history, the present social system, and the national character of the people in each of the Scandinavian countries. She traces the history of the growth of the democratic ideals in those countries.

Commenting on her book the author says: "Totalitarian ideologies change over night, the smoke of battle is transient, as transient as the decrees of dictators. Against the tumult and the horrors of the dying 1930s these pages confidently set the historical developments that through the centuries have helped to create the five liberty-loving democracies." And now that the Nazis have over-run Norway, Finland and Denmark, there is a cheering note to be found in the picture of Sweden continuing, even if ineffectually, to make a stubborn stand.

After reading Miss Olson's book (and it is not fast or easy reading) one puts down the volume with the feeling: "Well, Hitler may be having his day now, but people who plodded ahead toward real democracy cannot long be submerged and kept under the rule of a dictatorship."

**Alike But Different**  
The author first went to Sweden in 1927 when there was still talk of the peaceful living together of nations. In her opening chapter, a United North, there is much information about the history and how she maintained a history of 100 years free of war.

Those who have thought of the peoples of all Scandinavian countries as being much alike, will receive some startling surprises in reading Miss Olson's book, for though there is a general cultural likeness, there are many striking though minor differences in the Scandinavian countries.

It is interesting to note how Norway has progressed toward a practical democratic way of life as far as freedoms are concerned, though some of the methods of accomplishment are so different from ours. The railways are state-owned and are looked upon as social institutions that must not be run for profit. For all public utilities the state is owner and operator. State monopolies cover a range as wide as the telegraph, telephone, radio, tram systems, liquor distribution and munitions manufacture. The electric power plants are run primarily by local municipalities, with only about one fourth in the control of private owners or the state. There is a grain and flour monopoly because grain and flour are mostly imported and therefore cannot come within the scope of the co-operatives. In their turn claiming practically the same agricultural field, the co-operatives since 1930 have been protected by law in a complete monopoly of milk marketing. Organization of labor has had full legal recognition since 1936, and in addition, every worker is granted legal support for freedom in political opinion. Norway is a pioneer in grants to day workers, vacation with pay to manual industrial workers. \* \* \* Norway as the radical state becomes all the more interesting, as it operates, through the very fact that it is not totalitarian.

**Train for Strength**

Commenting on Iceland the author shows that there is considerable state control there, too, and that Herman Jonasson, elected premier in 1934, favors some form of compulsory labor for the state. Anent education, he said: "Youth must be trained for the practical tasks required in the building of a nation. Here as elsewhere in the world, there has been a trend to shirk labor, but through out folk high schools, rural co-operatives, our projects to counteract unemployment, we aim to train young men and women to do well the common tasks of every day, the things they need to know in order to build up a strong and free state."

For one month each summer, youth of 14 to 18 work under a rigorous discipline in the Swedish army, only their training is in work and not military fields. The book contains a large amount of most interesting information about the Scandinavian countries; things we might well know that we may recognize the likeness to ours of the spirit of the people of those countries and note where, in many instances, they have progressed farther than we have in social and labor reforms.

One feels sure that but few of the readers are familiar with the histories of the respective countries in the detail to which those histories are briefly summarized; that few know the struggles the Scandinavian have made to formulate and forge toward a permanent philosophy of peace and government by law and order.

The book is in the Peter White Public Library.

**Manufacture of Lawn Mowers To Be Stopped**  
WASHINGTON, March 31.—The lawn mower has hit the front. To conserve steel, the War Production Board ordered a halt in the manufacture of all mowers after June 30, except those used to harvest crops.  
Drastic curtailment was decreed from now until the end of June in the amount of iron and steel which may be used by mower manufacturers.

### Wife And Son With MacArthur At The Front

While brave but outnumbered American troops resisted Jap forces, the wife of Gen. Douglas MacArthur stayed by his side as Corregidor. In this picture taken after the war began they are leaving officers' mess. (NEA Telephoto)

In military uniform, little Arthur MacArthur, 4-year-old son of the general, stands near a tunnel on the island fortress of Corregidor, before the spectacular dash with his parents to Australia. (NEA Telephoto)

News Behind The News

By Ray Tucker

**WASHINGTON, March 31**—Democratic Senators have called for examination of a long-buried document which they claim will demonstrate that the business of appeasing Japan and withholding information of her plots against the United States began almost 20 years ago. This hidden chapter of history, they say, will depict the interplay of Calvin Coolidge and Charles Evans Hughes as the fathers of this policy.

When testimony on pending immigration bills in 1924 hinted at large-scale Oriental penetration of Hawaii, the Philippines and the West Coast, the then Secretary of Labor, James J. Davis, sent a special commission to investigate conditions in those areas. As the Senator recalls the case over the span of years, the report described in detail Japanese plans for infiltrating into this territory with economic domination as the long-time objective, but with an eventual conflict also in view. It forecast, according to the Pennsylvania, almost the exact situation which existed before the Pearl Harbor attack.

Mr. Davis submitted the findings to a Cabinet meeting, and Mr. Coolidge instructed him to turn them over to Mr. Hughes, who was then Secretary of State. The latter described the collected data as an "excellent piece of work," but promptly pigeonholed the papers lest they provoke Tokyo. A Senate immigration and naturalization subcommittee now considering the tightening of enemy alien legislation has requested that the dust-encased memorandum be turned over to it. The evidence will provide the Administration with political ammunition next fall should the GOP assault Messrs. Roosevelt and Hull for their "coddlings" of our present foe.

**MILK MELODIES**

A GIRL THAT ANYONE COULD FOOL WAS MISS BELINDA BLANK. EACH DAY WAS APRIL FIRST TO HER SHE FELL FOR EVERY PRANK!  
BUT BOY! HER WITS ARE KEEN TODAY FOR SMARTNESS, SHE'S A WOW! OUR MILK'S WHAT MAKES MISS BLANK ALERT! SO SHE'S THE KIDDER NOW!  
Our pure milk PROMOTES QUICK-MINDEDNESS.

**Bancroft DAIRY**  
Phone 570

ials than those plant managers who have clung to outmoded methods. The lawyer-economist is an 18-karat optimist about the future. He foresees an era of unexampled output at low cost, high wages and unparalleled consumption—a system dreamed about by both idealists and realists. Wartime discoveries will reduce the price of all finished articles by 50 per cent or more. Artificial rubber, for instance, eventually may be produced for seven cents a pound instead of the peacetime figure of 17-up, magnesium for six as against 26, aluminum for five instead of 17. With these revolutions in prospect, Thurman envisions through his pipesmoke the best of all possible worlds.

**INSISTS**—Mrs. Eleanor Roosevelt has crossed us up again! She has not the slightest notion of stepping off the front (or inside) pages, despite her temporary retirement from the official stage. The humorous fact is that the girl reporters who chronicle her sayings and doings are now organizing themselves into what they call "Mrs. Roosevelt's Press Conference association." They are going to regularize themselves without regard for masculine taunts about their "Marching and Chowder club."

Like some of the First Lady's other activities, her Monday morning interviews got out of control a bit. A lobbyist or two sneaked into the sacred convocations and capitalized on the contact. Irresponsible writers and visitors have broken the rule on quoting the President's wife directly. These experiences have galled such skilled and craftswomen as May Craig, Mary Hornaday and Ruby Black. So, with the blessing of their hostess, they are framing drastic regulations governing these ceremonies. Only authorized reporters, radio commentators and magazine representatives residing at the Capital will be eligible henceforth, and they must shell out two dollars annually for their dainty credentials.

Men—alas!—still will be barred from these intimate commings. Mrs. Roosevelt insists on restricting attendance to the sweater sex because, in her opinion, it tends to make more jobs for the ladies. Furthermore she thinks that her remarks are handled more felicitously by the romantic and sympathetic distaffers.

**BARED**—Washington's most reputable physicians are holding nightly indignation meetings about the wretched working and living conditions which confront Federal employes, especially girls and women. Seventy per cent of their patients consist of newcomers whose illness is traceable directly to lack of proper consideration at the office or adequate care at home.

Many of these people labor from

15 to 18 hours a day or night. Their average pay of \$1,450 a year seems large to those who come from small towns, but they find that amount is an impossible sum on which to live and eat healthfully. Youngsters accustomed to decent surroundings are huddling four and six in tiny bedrooms. With little money and no time to spare, they toss down a "coke" and a sandwich for breakfast and lunch. To go to and from their jobs through the Capital's congested traffic is a struggle. Nervous diseases were never so prevalent here as now. Lonesomeness in this cold, unfriendly set of government aggravates their mental and physical ailments.

The doctors would send a delegation in protest to the White House if they dared, but they fear that their intervention might be misunderstood. Even the President's admirers would like to ask why husky workmen get overtime after 40 hours, while Uncle Sam's children are overlooked by the Section Chief.

**CROOKS**—D. Conan Doyle, son of the creator of Sherlock Holmes, recently paid a visit to J. Edgar Hoover of the FBI.

Our "head dick" expressed some surprise that a dabbler in imaginative detective stories should have anticipated so many of the criminal-catching tricks now in general use. "But Mr. Hoover," replied the handsome fellow who still calls his father "Pop," "my father actually employed his fiction ideas in tracking crooks. Although not one person in a million knows it, he solved many tough cases for Scot-

land Yard, including one involving a man missing for 18 years.

### New York

By Albert N. Leman

**MARINES**—A rumor among MacArthur's men in Australia is that unless General Yamashita does better in Bataan than Homma, he too will be expected to perform "seppuku," as that type of suicide is called in Tokyo upper-class circles. Frenzied deification of success is rather difficult for the occidental mind to grasp but it explains why the Nipponese are such insatiable fighters, according to Americans who finally have arrived in New York from the East.

When a Russian cruiser overhauled a Japanese transport in the 1904 war, the officers contemptuously rejected the demand for surrender. Then they gathered on the quarterdeck and to a man committed hara-kiri. The fanaticism of the old Samurai set was so intense that its members scorned trade and picked up coins with chopsticks to avoid contamination.

Since the modern leader group places such a high value on "face," it also attempts ruthless measures to wreck the reputation of its hated enemies. A report relayed from the Orient is that in Shanghai the victors are trying to destroy white prestige by using captured United States marines and the British colonial troops as ricksha coolies. A modern race, actually believing that its emperor is a god incarnate and its own blood and moral code is superior to all others, makes

about the toughest hombre Uncle Sam has ever tackled.

**SUEZ**—Errand boy Von Papan has hurried home from Ankara to report. Hitler will offer Thrace, Syria and Iraq—formerly under the Ottoman empire—as a bribe to Turkey for an undisputed path through the Near East; and after that deluge in the original Noah's ark land, according to Allied missions now in New York. The invasion of Burma by Tojo means that he is afraid to tackle MacArthur and will sidestep him through India in order to join with the Nazis as they pour down from the Ukraine.

However, Kemal Pasha's old country does not scare easily. She is the only nation in the Levant which has not passed through a major political crisis in the last 20 years. The Ataturk laid this solid foundation because he insisted that his people mind their own business and not mix into foreign affairs. General Inonu has followed these isolationist policies. The Germans tried to weaken his resolution by starting a rebellion in neighboring Iraq through the Quisling, Galiani, supported by four colonels nicknamed for very obvious reasons the "Golden Square" but the hush money went down the drainpipe when the uprising was squelched.

The Allies have been strengthening Anatolia's backbone by rushing a railroad through Palestine. South African engineers were requested but Rand law forbids a Springbok from serving outside his own continent. The men were reclassified as civilians to get around the constitutional taboo. The tracks run through a section which is four-fifths solid rock. One tunnel was blasted through a mile of stone. A new bridge has been thrown across the Suez canal to speed up supply movements in the latest danger zone.

**INCOME**—Congressmen, now wrestling with proposed labor legislation, might be surprised to know the extent of the workers' problem in Great Britain—at war since 1939. For instance in Kent recently 1,000 coal miners went on strike and were fined by the court because they had not given the required 21-days' notice to allow time for arbitration. Their leaders were sentenced to two months in jail. Government spokesmen claimed that 25,000 tons of fuel had been lost during the illegal stoppage.

In Coventry—the scene of the worst of all blitzkriegs—over 3,000 skilled workers charged that they had been replaced by women in order to lower the wage standard. The men preferred to loaf rather than violate their principles and accept unskilled pay through the employment exchanges. The Clydeside shipyard employes and 600,000 members of the Amalgamated Engineering union have been agitating for higher salaries.

Their proposals before Parliament are to set a work week of a fixed number of hours and then to exempt from income taxation all overtime earnings. In some industries the levy eats up so much of the extra remuneration, that toilers prefer not to stay on the job beyond regular hours. People who contacted the visiting Soviet delegation said that the strangers were amazed to find that walkouts still could occur in British factories.

**CHOIRS**—Although we have been shooting for four months, Tin

### Ride 'Em Buddy

Buddy Rogers, Mary Pickford's band-leading husband, goes from the air waves to the air corps, volunteering as a Navy flying instructor. In Los Angeles he passes deep perception test under watchful eye of Dr. Oliver Eess.

Pan Alley ignores Germany and concentrates on Japan with such tunes as "You're a Sap, Mr. Jap," and "Good-bye, Mama, I'm Off to Yokohama." However the Germans themselves at least have a grim appreciation of American swing tunes according to an incident reported in Venice. A couple of Nazi staff colonels ducked several young ladies into the sea because the signoras were dancing to New York-made records.

Italian aviators present came to the girls' rescue and in the resultant brawl one of the Teutons received a broken jaw. The local police refused to arrest the fliers, but finally, in order to appease Berlin's injured dignity, the culprits were scolded. Now whenever Adolf's officers appear on the streets or in restaurants the natives tauntingly whistle American airs and phonographs blare our song hits from open windows. The British Broadcasting company uses Reich and Italian melodies—after they were banned for a short while—because the management believes they are necessary for the quality of the programs. The government pays to the custodian of enemy property a copyright fee which is held in trust until peace.

The Mikado is still performed in theaters in this country, but if it is ever prohibited, the curb would be only a belated compliance with the request of the Japanese government made 25 years ago. Since the United Kingdom and Russia are allies, Sir Granville Bantock has rearranged the stirring words and music of the Internationale in order to make them suitable for English choirs. Now plous folk lustily sing the once outlawed anthem.

The first condensed milk plant in the world was at Torrington, Conn., in 1851.

### Serve Budget-Wise Meal for Easter

It's time to think of the Easter feast, says Mrs. Gaynor Maddox. Plan to serve spring fruits and vegetables in abundance and a low-cost meat with a high-grade flavor. Try this carefully worked out menu as part of your Happy Easter gathering.

**Shoulder of Lamb with Rhubarb Stuffing** (8 to 10 servings)  
Four to 5-pound shoulder lamb, salt and pepper. 2-1/2 cups finely cut rhubarb, 1-2 cup water, 1-2 cup white corn syrup, 2-1/2 cups soft bread crumbs, 1 tablespoon finely chopped carrot tops.

Have bone removed from shoulder lamb to form pocket. Wipe meat with cloth. Salt and pepper inside pocket. Combine rhubarb, water and corn syrup. Heat to boiling and boil for 3 minutes. Combine with bread crumbs and chopped carrot tops. Use to stuff pocket in lamb shoulder. Skewer pocket in place. Place on rack in a roasting pan and roast, uncovered, in moderate oven (300 deg. F.), allowing 35 minutes per pound. If a meat thermometer is used, roast until temperature reads 180 deg. F.

**Tomato Rose Salad** (Serves 8)  
Eight firm tomatoes, 12 ounces cream cheese, 2 hard-cooked egg yolks, watercress, French dressing. Peel tomatoes and chill. Soften cheese with milk. Form 2 rows of petals on each tomato by pressing level teaspoons of strained cheese against the side of tomato, then drawing the spoon down with a curving motion. Sprinkle center of each tomato with hard-cooked egg yolk pressed through a sieve. Serve on crisp watercress with French dressing.

**Fig Banana Brick** (Serves 8)  
Two tablespoons quick-cooking tapioca, 1-1/2 cups milk, 2 tablespoons sugar, 1-8 teaspoon salt, 1 cup dried figs, 1 cup heavy cream, 1 cup mashed bananas, 1-2 teaspoon grated lemon rind, 2 teaspoons vanilla. Cook tapioca and milk over hot water about 10 minutes; strain but do not rub tapioca through sieve. Add sugar and salt to strained milk mixture. Chill. Boil figs 10 minutes in water to cover. Drain, cool, clip stems and chop. Whip cream until stiff. Combine with figs, cold milk mixture, bananas, lemon rind and vanilla; mix thoroughly. Pour into freezing tray of refrigerator and freeze, stirring 2 or 3 times. Unmold and slice.

**Menu**  
**BREAKFAST:** Grapefruit juice, crisp bacon, wholewheat toast, coffee, milk.  
**LUNCHEON:** Cream of fresh spinach, toasted hard rolls, honey cookies, tea, milk.  
**PARTY OR EASTER DINNER:** Fresh fruit cocktail, shoulder of lamb with rhubarb stuffing, potato balls, baby lima beans, enriched clover leaf rolls, tomato rose salad, fig banana brick, coffee, milk.

It is expected that more than a million workers will be employed in the automotive industry's war plants before the end of this year. True members of the cat family are characterized by power to retract their claws, rendering their footsteps harmless.

### 'Neath Your Easter Finery The GOSSARD Line of Beauty

**How FIT are you?**

On the fit of your girdle depends the success of your clothes. Gossard makes this Hi-Top step-in for three different figure types... to assure custom-like fit. Of R&C\*\* satin batiste and firm Leno elastic with a two-inch elastic collar for a snug waistline.

Models A, average; D, tall average; and G, slender.

**\$5 and up**  
A Gossard 3's bra (in small, medium and large bust types) of lace and R&C\*\* satin.

### Choose Armour's 75th Anniversary Triumph for Easter Feasting

**Star Ham in Easter Dress!**  
Bake and glaze your Tender-Tested Star Ham as directed below. Stud with cloves in 4-leaf clover designs. Surround with salad nests of pineapple slices topped with canned pear halves, tinted with red cinnamon candy. Then serve it proudly—the heartiest of all Easter greetings for your family and guests!

**Armour's Star Ham**

The richest, tastiest ham of all time... Tested for tenderness before it comes to you!

☆ Yes, lady, you can select this magnificent Armour's Star Ham for your Easter dinner with perfect assurance... Knowing before you put it in your oven that it will come out rich, mild and deliciously tender!

First, because these superb Star Hams are sugar-cured and slow-smoked over hickory and hardwood fires in Armour's own secret way to give you sweeter, milder flavor. Then scientifically tested for tenderness before they come to you.

Armour's "Tender-Test." During the smoking process, a ham from every batch is diathermally tested... individually checked by thermometer to make sure it has reached the internal temperature that food authorities have found gives the best tenderness and quicker cooking quality American wieners.

Over two million women will choose Armour's Tender-Tested Star Ham for Easter! What better proof that it's America's most delicious ham!

**HOW TO BAKE AND GLAZE**  
Wrap your Tender-Tested Star Ham in its inside glassine wrapper. Place, fat side up, in an uncovered baking pan. Bake in 325°F. oven, 18 minutes per pound, 45 minutes before done, remove paper and rind, score the fat in squares. Then glaze with a mixture of 2 cups brown sugar and 1/2 cup corn syrup. Return to the oven until baking is finished and the ham is golden brown.

3 DELICIOUS TYPES  
(1) TENDER-COOKED, in the yellow wrapper.  
(2) READY-TO-COOK, in the white wrapper.  
(3) TENDER-COOKED, boneless—in cans.

### Anti-Freeze Should Be Saved—OPA

As a means of conserving chemicals needed for war materials and to decrease the need for anti-freeze next winter, car owners are urged by the Office of Price Administration to save their anti-freeze solutions for future use.

For greatest efficiency and best possible results, however, the OPA asks that motorists observe the following rules:

1. Drain the anti-freeze from the car as soon as cold weather is past. Rust protection ingredients in the solution are used up by summer driving, and the anti-freeze itself, often is lost by leakage or by over-filling the radiator with water.
2. Discard all anti-freeze that is brown or rusty unless, after standing, it clears up practically water-white or retains some of its original color. There is little value in saving anti-freeze that is badly diluted or weakened.
3. Store saved solution in sealed and labeled glass or earthen containers. Thin steel cans often rust through from the outside.
4. If fresh anti-freeze has to be added in the fall to bring the solution up to full protective strength, be sure that this new anti-freeze is of the same brand as the saved solution.

Anti-freeze solution used more than one winter should be frequently tested and inspected during use, and when it becomes brown or rusty in the radiator and does not clear up on standing, it should be discarded immediately even though a satisfactory test can be obtained on freezing protection.

### Follow These Rules For Overseas Mail

Rules for the guidance of persons corresponding with friends and relatives in foreign countries, issued by Byron Price, director of censorship, were announced here yesterday by John S. Courtney, Marquette postmaster.

They are:

1. Postal communication with enemy or enemy occupied countries is illegal and will not be permitted, except:

- (a) Through the agency of the American Red Cross, which will transmit short messages of a personal nature.
  - (b) Communications with prisoners of war.
2. In order to make the censorship of international mail as effective and economical as possible, the public is earnestly requested to conform to the following rules in regard to correspondence with persons in foreign countries, other than enemy or enemy occupied countries:

#### Correspond in English

(a) The name and full address of the sender must be stated both on the outside of the envelope and in the letter itself.

(b) Correspondence should be in English if possible; the letters should be legible, clear and brief. Avoid use of abbreviations, nicknames, phrases or codes in place of customary reference or description of any person, firm, location or other information.

(c) If English is not used the name of the language should be written in English on the face of the envelope.

(d) No mention should be made of defense matters, shipping, or weather conditions.

(e) Firms employed on munitions or other government work should not mention that fact in writing abroad.

#### Army Posts Secret

(f) Firms and individuals, except as indicated below, should refuse to act as intermediaries or agents for the receipts and transmissions of postal correspondence on behalf of persons in foreign countries.

(g) A member of the Army corresponding with foreign countries will not give the name of his post, camp, or station, but should give as his address the Army post office, number of his unit in care of Postmaster, New York, or San Francisco, or the address of a friend or relative in the United States, to whose care a reply can be sent for forwarding.

3. Failure to comply with these rules may lead to delay in transmission, or in the return of correspondence to the sender.

### Deputy Wardens Named At Jackson and Ionia

LANSING, March 31—(AP)—New deputy wardens at two state penitentiaries were appointed today from civil service lists.

Garrett Heys, state corrections director, said wardens of the two institutions, after consultation with him, had appointed George I. Francis as deputy at the state prison of southern Michigan and Fred C. Sanborn as deputy at the Ionia reformatory.

Both men have been educational directors at their respective institutions.

Francis replaces Glen E. Carpenter, who has been deputy for two and a half years and formerly was chaplain at both the southern Michigan and Ionia institutions. Sanborn replaces Edward B. Good, who has been in office for about three years.

Carpenter survived civil service examinations, but placed below the top three candidates for the job, while Good failed to complete the examination.

**NOTICE OF ELECTION**  
Notice is hereby given that an annual township election will be held in Precinct No. 1 of the township of Marquette, county of Marquette, state of Michigan, at the township building in Marquette township, within said township, on Monday, April 6, 1942, for the purpose of voting for the election of the following officers: Supervisor, clerk, treasurer, highway commissioner, justice of the peace (full term) member of the board of review and two constables. The polls of said election will be open at 7 a. m. and will remain open until 6 p. m. on said day of election.  
HENRY T. BELMORE, Jr.,  
Township Clerk.

### Fire After Jap Raid On Manila

Burning buildings along Taft avenue in the Barrio Paranaque, Manila, Philippine Islands, roar testimony of the fury of the Japanese air raid of December 13, shortly after the war began. This picture is among the first to arrive in the United States from the Philippines since the start of hostilities in the Pacific. It came via Australia. (Associated Press Photo from U. S. Army Signal Corps.)

### Mexican Masquerade

By Cecil Carnes

THE STORY: Allan Steele, posing as magazine photographer, seeks Dr. Sargent and daughter, on U. S. mission in Mexico's peninsula, who have disappeared; also news of Harry Bishop, maddened by mysterious injection while on the same mission, Bishop, found, repeated only "The yellow devil!" Allan, after a meeting with enigmatic Col. Escobar, of Rural Guard, checks in at Inn of Thousand Delights, quizzes its proprietor, Sun Su, a Chinese working with U. S. Sun Su tells him there is Japanese cannery on nearby island; that beautiful and "evil" Eurasian girl connected with it is often seen with Col. Escobar. Allan meets her—"Senor Steele, Miss Minor."

#### THE COLONEL—TRAITOR?

##### CHAPTER VI

"You are most polite, senor!" she acknowledged, and while her dark eyes held his, the smile grew faintly provocative. "We will meet again—later!"

"I shall live only for that moment!"

Then she and the smile and the delicate fragrance were gone, tapping toward the patio. Sun Su touched a bell, and when an Indian boy answered the call, directed him to get Allan's bags from the car and place them in room 7. Allan hardly heard the exchange.

"What's her name—Minor?"

"Asia Minor." The Chinese must have noticed the half-irritable lift of the American's brows, for he spread his hands again in deprecatory fashion. "It is not a jest, senor. I have seen her passport; it was issued by the British government in India and is quite in order. From another source I have learned her father was an English ship captain who married an Indian woman in Calcutta. No doubt he had a sense of humor, for he insisted on naming their daughter 'Asia.'"

"Well—no matter what she's called, said Allan with conviction. "She'd knock them cold. If you have an opportunity, you might

mention to Senorita Minor that I'm prepared to be her slave!"

Whereupon it was the proprietor's brows that went up. Allan left them there, and smiled to himself as he followed the Indian boy and the bags. In a wall mirror, as he left the lobby for a narrow corridor, he had a fleeting glimpse of Sun Su leaning across the desk and staring after him in obvious perplexity.

Asia! It sounded strange at first, but after he had repeated it a few times it began to be rather attractive. A Eurasian, he mused, starting to shed his damp garments when the boy had left him to the privacy of a cool dark bedroom. A British subject, and something of a pariah in her native land; cast out by the Indian element and cold-shouldered by the British. That meant she probably hated the English, mused Allan, which would account for her throwing in with a Japanese outfit—especially if the wily Nipponese were up to something which would be to the detriment of England!

"It all fits in!" he muttered, slipping into a bathrobe. He laughed at the recollection of Sun Su's disapproving countenance. "Watch out for your laurels, my gallant Colonel Escobar! Until I find out if she knows anything about the Sargents or poor Harry Bishop, I'm going to make a strong bid for your Asia's tenderest affections!"

He wandered down the hall, tracing the noise of running water to its source, and in another minute was stretched out in a tub of cool water. While his grateful body proceeded to absorb moisture instead of exuding it, he ran over in his mind what he had heard from the Chinese.

He believed he was on the track of something, though just what he couldn't yet determine. "The yellow devil!" That was the one lead he had from poor mad Harry, and what better description could you want of a mysterious Japanese group who objected to anybody spying on them?

What could be their secret racket, if any? He weighed some of the more obvious possibilities. A submarine base? No, hardly that, way up in the Gulf of California. A heavily fortified depot for war materials? Perhaps, though again the location did not suggest such a scheme. A supply base for sea planes and bombers? A base complete with repair shops, oil tanks and ammunition?

"More like it!" he decided, finishing his ablutions with a shower, "But what would that have to do with the missing Sargents?"

He had to give that one up for the time being, he told himself, rubbing hard with a big towel. Dry and deliciously cool, he went back to his room, threw himself on his snowy bed and relaxed. It was a pleasant change from day after day of driving the sedan through a parched countryside beneath a broiling sun...

He began to formulate several plans of campaign. His first care would be to check up on the fishing company, working always cautiously if only from respect for what had happened to Harry Bishop. Had Harry got the goods on them somehow and paid the penalty with his reason?

There were various promising angles of approach—and easily the most appealing was the alluring Asia! He might get some hint from her of what was afoot if he played the game carefully. At least it would be no hardship to have a mild flirtation with the lady in the hope of speaking a fast one through her defenses.

Presently he heard the sound of a measured step and the ring of spurs from the patio, upon which the window of his room opened. Came the scraping of chairs, followed by the murmur of two voices, a man's and a woman's. Allan listened. He could not make out any words, but he was sure he knew those voices.

He stole to his window and looked cautiously through a crack in its shutter. Yes! Asia and Colonel Escobar, nose to nose at a small table some 20 yards distant. They were talking earnestly, and Allan would have given much to know the subject of conversation. He saw Escobar take a long white envelope, backed with sealing-wax, from the breast pocket of his tunic and slip it across the table to Asia; and he saw the young woman

an put it carefully in her handbag and close the catch securely. He did a quick problem in angles and distances. If he wasn't mistaken, the bathroom down the hall might easily be within earshot of the couple. Worth trying, anyhow!

He sped down the deserted hall, his bare feet soundless on the red tile flooring. Into the bathroom—across the room to the window! It was all a matter of seconds. Then he was listening—hard! Escobar was speaking, his voice light but with an undertone of seriousness.

"And when, dear lady, am I to receive the reward you promised me? Could I do more than I have to prove my devotion?"

"It will be soon—now!" Allan had to strain his already strained ears to catch the low response. "You'll have no reason to regret your kindness to me, Alfredo! This—what you have done for me—will literally save my life!"

"I hope it won't cost me mine," said the colonel good-humoredly. "For my sake, querida mia, never let anyone guess who gave you what's in that envelope. Even for your dear sake, I've no desire to face a firing squad at dawn! And now—let's talk of more agreeable things, my reward, for instance." Allan found himself curiously uninterested in the colonel's reward. He went back to his bedroom and started dressing.

So Sun Su had sized up Escobar correctly, he reflected. Moreover, the shrewd Chinaman's comment and the remarks Allan had just overheard matched perfectly with the incident of the "friend" who had hurled the epithet "Traitor!" at the colonel of rurales. No reasonable doubt of his perfidy could remain.

"Seemed like such a decent fellow, too," summed up the American half regretfully. "As he said himself, you can't believe in anybody—any more, or figure what they may be up to!"

(To Be Continued)

Phobos and Deimos, the two moons of the planet Mars, each are about the size of the city of Paris.

### MacArthur Honors Air Hero

For extraordinary heroism during an attack on the Japanese bridge-heads in northern Luzon, Lieut. Jack Dale, U. S. Army Air Corps, was awarded the Distinguished Service Cross on Dec. 22. General Douglas MacArthur is pinning the medal on him.

### Hamtramck Dress Shop Denied Tax Exemption

LANSING, March 31—(AP)—A business establishment may not claim sales tax exemption on the grounds it has engaged in unethical business practices and therefore cannot furnish complete record of its transactions, the state board of tax appeals ruled today.

The board assessed a tax and penalty of \$17,122 against Laskey-Fried, Inc., a Hamtramck dress shop, charging the shop reported gross sales of \$183,527 but actually had sales totaling \$542,905.

The board said the concern explained it bought "original" models to sell to eastern purchasers described as "style pirates" and that such sales violated the code of ethics of the Fashion Originators' Guild of which it is a member. Customers refused to permit a record of their purchases for fear of "blacklisting," according to testimony by the firm.

### State Intangible Tax Returns Below 1941

LANSING, March 31—(AP)—The state revenue department reported collection of approximately \$1,350,000 as the deadline for filing state intangible tax returns neared at midnight tonight.

Last year, the first of the tax, \$2,945,000 was collected, but a drop of between \$300,000 and \$400,000 was predicted by the department for this year's return because of new amendments to the law.

The tax is levied on cash on hand or in banks, investments in stocks, bonds, building and loan associations, notes and accounts receivable, mortgages, land contracts and similar property. The first \$3,000 in bank or building and loan deposits is exempt and so is 10 percent of the tax as computed.

### Governor on Tour Of State's Defense Area

LANSING, March 31—(AP)—Governor Van Wagoner today began a combined business and pleasure visit of the metropolitan defense area which will keep him from his office until next Monday.

The Governor said he would inspect war plants of the Murray Body Corp. and Packard Motor Car Co. in Detroit, the General Motors Corp. in Pontiac and also survey precautions at the international Blue Water bridge at Port Huron and Michigan state troop units in the metropolitan defense area.

# Semifinal Tilts On Tap Tonight In Annual City Basketball Meet

## Sidney Adams Gym Scene Of Cage Warfare

Semi-final games in the annual city independent basketball tournament will be played tonight in the Sidney Adams gymnasium at Gravenet high school. The program will open at 7, and the public is invited to attend. There is no admission.

Bitter rivals after a season of scheduled cage warfare in which the schedule championship is still undetermined, the independent courtmen are set to go the limit tonight for the right to play for the tournament championship in the finals tomorrow night.

Since the season title has not been won by any team—the schedule was not completed—the tournament championship offers an additional lure.

**Orange Crush Abdicate**  
The opener tonight will find the Berryman tangling with the IMA, and the nightcap will find those rollicking Tri Mus of Northern—erstwhile rivals of the missing Orange Crushers—battling the Marquette Steam Laundry quintet.

The Marquette Bottling Works (Orange Crush) won the championship in 1939-40 and 1940-41 but is not defending its title this season. The current edition of the Orange Crush, composed of varsity members of the Northern Wildcats, is entered in the annual Hermansville independent meet.

The Orange Crush abdicated this season when most of its members either entered service with the country's armed forces or retired from competition. Roger Keast, former Gravenet coach and spearhead of the squad's attack for two seasons, is a lieutenant in the infantry. Eddy Dubais joined the Army, and Marie Kiva answered the last draft call.

**Plenty of Talent**  
There is plenty of talent among the squads now competing for the vacant title. The Steam Laundry boast of such aces as Paul Wiseman, Fred Fyholm, and Harris Barry, former Gravenet high school stars, and Crowley, a former Baraga Parochial player.

Standouts on the Berryman five are Ludholtz, Ramburg, and of course F. and H. Berryman, themselves.

The Tri Mus are a squad of college players, many of whom were on the Northern squad. In a quarterfinal tilt, the Laundry defeated Malvasio's Service, 34-31; the IMA defeated Quality Hardware, 33-27; Berryman trimmed Thetas, 27-21, and the Tri Mus won on a forfeit from the Coast Guards, who have been called to service and were unable to be present.

## Heath Clouts Two Homers, Indians Win

**HATTIESBURG, Miss., March 31—P—**Jeff Heath's two home runs wiped out a lot of good pitching by Dave Koslo today and the Cleveland Indians defeated the New York Giants for the fourth time in five meetings, 3 to 2, in 10 innings.

Heath's two blows were the only Indian scores until Manager Lou Boudreau singled Clint Brown home with the winning run in the extra frame. Approximately 3,000 soldiers saw the game.

**Dodgers Again Down Yankees**  
**DAYTONA BEACH, Fla., March 31—P—**Billy Herman, Brooklyn infielder who won yesterday's baseball game with his first hit in 22 trips to the plate, crashed out a ninth inning double today that enabled the Dodgers to tie the New York Yankees and go on from there for a 4 to 3 triumph.

It was the second straight victory for the Dodgers over the Yankees who defeated them in the 1941 World Series, four games out of five.

## Cochrane Reports For Navy Duty

Mickey Cochrane (right) former manager of the Detroit Tigers, and now a lieutenant in the Naval Reserve, started baseball activities rolling when he reported for duty at the Great Lakes, Ill., naval training station. Cochrane, Benny McCoy (center), a former Detroit and Philadelphia star, and Lieut. Comm. J. R. Cook, Great Lakes athletic officer, look over one of the uniform shirts to be worn this summer by the station baseball team.

## Howard, Eben Fives Meet Tonight for County Title

The mythical junior high school basketball championship of Marquette county will be at stake in Eben tonight when the Howard Juniors, of Marquette, tangle with the fast Eben junior prep quintet in a game starting at 7:30.

An Eben high school intramural

## Browns' Rally In 9th Beats Detroit, 5-4

**LAKELAND, Fla., March 31—P—**The St. Louis Browns scored two runs in the ninth off Charley Fuchs, Detroit's leading rookie hurler, to beat the Tigers today, 5 to 4.

The Browns nicked veteran Tommy Bridges for four doubles and two singles in the first four innings and only the backing of two Tiger double plays held the St. Louisans to three runs. Roy Henshaw, who took over in the fifth, didn't allow a Brownie to get on base in four frames.

**Tigers' "Win Streak" Snapped**  
Chat Laabs walked to open the ninth, advanced on Walt Judnich's single and scored on an infield out and then a wild pitch and a long fly brought Judnich home with the winning run.

The setback abruptly stopped Detroit's winning streak at two games.

St. Louis scored in the second on singles by Glen McQuillen and Vern Stephens and a two-bagger by veteran Rick Ferrell, but the Tigers matched the run in their half of the inning with the aid of boots on grounders by Pinky Higgins and Birdie Tebbets and a single by Bob Patrick.

Don Gutteridge's single and two-bagger by Harland Clift, Laabs and Judnich gave the Browns two more runs in the third.

Another Brown error, this one by Gutteridge on a roller from the bat of Ned Harris, set up Detroit's single in the seventh.

**The Score in Eighth**  
In the eighth, the Tigers utilized two two hits to tie the count. Patrick let off with a single and Eric McNair walked. Tebbets moved both runners along with a sacrifice.

Don Ross batted for Henshaw and scored Patrick with an infield single and then Jimmy Bloodworth's second hit brought McNair home.

## Wings, Leafs In Stanley Cup Finals

**DETROIT, March 31—P—**The Detroit Red Wings entered the finals of the Stanley cup hockey playoffs tonight with a 3 to 1 victory over the defending champion Boston Bruins in the second game of the best-of-three semi-finals series before 13,525, largest crowd ever to see a game here.

The Red Wings, last year's cup finalists also, will meet the Toronto Maple Leafs, conquerors tonight of the New York Rangers, in a best-out-of-seven series for the battered trophy.

In eliminating the Bruins, Detroit, the National Hockey league's surprise team with a late season spurt that has netted 10 consecutive victories on home ice, carried the fight all the way.

**Cages 160-Foot Shot**  
The heroes were 23-year-old Jack Carveth, playing his first year of big league hockey, and veteran Don Grosso, Carveth, playing on a "kid" line, scored the first two of Detroit's goals. Grosso, with Goalie Frankie Brimsek off the ice as Boston used six forwards in a desperate attempt to tie the count, made a brilliant 160-foot bull's-eye in the last minute of play to assure Detroit of victory.

Carveth sent the Red Wings into the lead in the first four minutes of play. He grabbed the puck from Center Art Jackson and got off a pass intended for Jerry Brown in front of the Boston net. It never reached Brown, however, striking Jack Crawford's leg and bouncing high past Brimsek.

**Boston Headlocks Score**  
Boston, unable to match Detroit's offensive tonight, evened the count midway in the period on a goal by Herbie Cain. All Cain had to do after Harvey and Art Jackson had worked the puck from behind the net was to jam it past Goalie Johnnie Mowers' leg when the latter tried to cover up an opening.

For the next 40 minutes the game was scoreless as both teams sought to break the deadlock and only spectacular saves by Brimsek, who had 41 to 15 for Mowers, kept the score down.

Then, at 9:45 of the third period, Carveth got the second of his tallies after a faceoff deep in Boston territory. Jerry Brown passed to Adam Brown and, in a scramble, the latter shoved the puck toward the goal. Carveth came out of nowhere to beat Brimsek with a whistling shot.

It was all Detroit after that, but the red light flashed again six sections before the game ended when Brimsek was taken out and six forwards placed on the ice.

**Only Two Penalties Called**  
This time Center Don Grosso grabbed the disc in his own territory as the Bruins charged in, got over his own blue line, and sent a shot down the ice toward the unprotected goal. To the consternation of the Bruins, the 150-foot drive found its mark and it was all over.

Only two penalties were called—both against Boston—and the only excitement came when Boston's Desse Smith accused a spectator of leaning over the boards and taking a crack at him. He retaliated with his stick, but officials and players ended the argument before anything could come of it.

**Leafs Eliminate Rangers**  
**TORONTO, March 31—P—**The Toronto Maple Leafs advanced to the final round of the National Hockey league's Stanley cup playoffs tonight by defeating and eliminating the New York Rangers, league champions, 3 to 2. It was the fourth victory in six games for the Leafs.

Detroit's surprising Red Wings, conquerors of the cup defending Boston Bruins, will furnish the opposition in the final round.

Tonight the Leafs scored in every period to build up an advantage that a two-goal last-period rush by the Rangers could not wipe out.

**Finals Begin Saturday Night**  
**TORONTO, March 31—P—**Toronto and Detroit will open a best-of-seven series for the Stanley cup here next Saturday night, Toronto club officials announced tonight.

The second game of hockey's world series also will be here next Tuesday, with the third and fourth games in Detroit, the following Thursday and Sunday. Dates for extra games, if necessary, have not yet been set.

**CONFINED TO HOSPITAL**  
**EAST LANSING, March 31—(P)—**C. O. Wilkins, treasurer at Michigan State college, accompanying the college baseball team on a southern trip, has been confined to an Atheron, Ga., hospital with pneumonia, President John A. Hannah disclosed today.

tickets, bought anywhere from five to thirty dollars, give them the right to let loose a blast whenever the feeling arises. And in several of these instances, it has arisen so much that the Garden walls rocked—and not from cheers.

EVERY ONE'S OKAY, COWBOY, BUT REMEMBER, YOU ASKED FOR IT!

## Big Red Is 25

**Man o' War celebrates 25th birthday on Faraway Farm of owner, Samuel D. Riddle, near Lexington, Ky. Big Red won 20 out of 21 races as two and three-year-old, has sired more than 300, which have won more than \$2,000,000.**

PHILADELPHIA, March 31—P—Cuffing his opponent around in the last round with a two-fisted attack, Heavyweight Mello Bettina won a 10-round decision over the veteran Gus Dorazio before a capacity crowd of 9,000 at the Arena tonight. Until the last stanza the fight was virtually even.

At the end, Dorazio, Philadelphia Italian who at 190 outweighed the former light-heavyweight champion from Beacon, N. Y., by five pounds, was stumbling around the ring, missing wild swings, while Bettina stung him with lefts and rights. The decision was unanimous.

**Wants Fight With Louis**  
The southpaw Bettina, who wants a title fight with Heavyweight Champion Joe Louis sometime this summer, absorbed considerable punishment before coming out on top.

He was on the verge of a knock-out in the sixth round when Dorazio smashed home a terrific right that drove Bettina into the ropes. The crowd let out a roar as Bettina's legs sagged and he grabbed Dorazio to hold on. Gus, a 2 to 1 underdog in the betting, tried hard for the kill, but Bettina recovered and fought back savagely. At the bell Dorazio landed a hard right to the stomach that hurt, and Bettina showed it as he stumbled to his corner.

Dorazio never again came close to victory although in the first and eighth rounds he missed two savage rights that had "knockout" written all over them.

**Rallies In Last Round**  
Bettina, revived in his corner after the sixth, slowed up Dorazio in the seventh with hard cracks. He repeated delaying tactics in the next two rounds, although Gus landed several that hurt, then came out swinging for his winning rally in the last round. Gus was completely outclassed in the final stanza, barely on his feet at the bell. His seconds dashed out to the middle of the ring and poured cold water over him to help clear the mental cobwebs.

Bettina's southpaw style puzzled Gus at the start. He took many jabs in the face without getting in a return. Gus kept boring in, however, constantly trying to get Bettina into a corner. When he did he socked home wicked punches that cut Bettina's right eye and nose.

Dorazio suffered a cut over his right eye in the first round, in addition to a "mouse" under his eye.

**Detrioter Stopped By Zamaris in First Round**  
**DETROIT, March 31—P—**Frank Zamaris, East Orange, N. J., heavyweight, stopped Al Reiss, of Detroit, in the first round of a scheduled six-round bout on a boxing card here last night.

The stunning swinging Zamaris damaged Reiss so badly that Referee Lou Handler summered Dr. F. Geny, O'Brien, state boxing commission physician, who ordered the fight halted. Handler awarded Zamaris a technical knockout.

## Algier County Juniors Hold Ski Tourney

**MUNISING, March 31—**There was little snow on the scaffold at the city playgrounds Sunday afternoon, but skiers built a bump of their own and held a combination Alger county and "open" ski tournament. The results were:

**Doubles**  
Class C—Billy Brisson, 46-43—141.5; Keith Langevin, 35-34—139.7; Reino Kinnunen, 37-33—136.8.

**Class B—**Ted Belfry, 39-40—138.7; Kenneth Warner, 41-40—122.6.

**Class A—**Shirley Robare, 48-45—150.5; Robert Cowell, 42-44—129.4; Elmo Kinnunen, 43-42—122.8.

**Senior Class—**Ed Brisson, 41-47—152.2; Emmett Levy, 48-50—152.1; Billy Alexander, 46-49—150.8; Dave Olson, 52-52—150.6; Walter Alexander, 50-51—150.1.

(\*)Denotes fall.  
Most graceful rider—Emmett Levy, 77.1 points.  
Longest standing jump—Dave Olson, Marquette, 52 feet.

Winners of the A, B and C classes were awarded trophies which were offered for competition last year. Billy Brisson won possession of the Class A cup, donated by Emmett Levy. Kenneth Warner won it last season. The Class B trophy, donated by the Munising Lions club and won last year by Billy Alexander, was taken by Ted Belfry. Shirley Robare copped the Class A cup, donated by the People's State bank, and which was won last year by Thurman Stevenson and John Truden, who were tied.

**HAS 1908 FOR 9 GAMES**  
**COLUMBUS, Ohio, March 31—P—**Louis Farkas, of Toledo, rolled 1903 for fifth place in the all-events and the only change among the leaders in the American Bowling Congress tourney today.

**Ishpeming Five Takes Early Lead in U. P. Pin Tourney**  
**IRON MOUNTAIN, March 31—**The opening weekend assault in the annual Upper Peninsula bowling tournament being staged at the Recreation alleys here left the Ishpeming Paradise Bar quintet in top spot by nearly 200 pins. The Marquette county team posted a 2,721.

In second place is the Manistique Moran-Miller five with 2,556 and 611 in singles were the leading scores rolled here last weekend. The tournament opened Saturday.

The Munising William Bottlers are in third place with 2,535, and the Ishpeming Sportlands are only a pin behind in fourth spot. The Iron Mountain Quality Cleaners are fifth with 2,532.

**72-Year-Old Bowler**  
Outstanding individual feat was

the 621 in doubles turned in by Charley Robinson, 72-year-old former Iron River kegger, now of Manistique. He teamed up with another veteran, V. Rumelle, to post 1,181 in doubles.

Marquette will send large delegations to the U. P. meet the weekends of April 11 and 18.

Collick Cites Recreational Achievements

ISHPEMING, March 31—One of the notable achievements of the Republican party in its administration of municipal affairs in Ishpe- ming for the past six years, S. H. Collick, party chairman, said today, has been its assistance to commu- nity recreational activities which have a popular following. "The record," Mr. Collick said, "should speak for itself. Let's ex- amine it. "For the year 1935-36, just previous to a change whereby the fiscal year coincided with the cal- endar year, the city administration spent \$2,067.44 for recreational and community activities. In 1936, first on record when the fiscal and cal- endar years coincided, we spent \$3,645.94, in 1937 jumped to \$5,- 221.01, in 1938 to \$7,879.79, in 1939 to \$11,574.21, in 1940 it was back to \$7,340.03 and last year was \$9, 242.29.

Cover Many Activities Expenditures provide for the city band, the homecoming, winter sports, the skating rink, hockey rink, the Children's Christmas activities and like events. "That figure for 1939 was high, in comparison to the others because of appropriations to aid the home- coming program, highlight of the city's modern history, and to the Industrial association band. "The council, which has been pre- dominantly Republican in political complexion, has repeatedly been asked for appropriations from a number of sources. The policy of the council has been to assist where possible, but it has first insisted that the agency or organization prove its service and the value of its program. Band Very Popular The band, through its series of summer programs has entertained thousands of persons. It has been available for special occasions with- out extra charge. The winter sports club has given us our only park and has been one of the finest promotions of its kind in the coun- try. The skating rink has appealed to hundreds of children. All the way along the line, this policy of proving the worth while character of the activity has been followed by the council, and whenever this popularity and community service has been demonstrated, the coun- cil has been conscious of the par- tial responsibility it bears. Little Tax Increase "All this has been accomplished without corresponding increase in tax rates. The people of this com- munity had a tax rate in 1936 of 33.88, and in 1941 of 35.32. This increased tax rate has not by any means been due to the city's in- creased aid to recreational ac- tivities. There have been a multiplicity of demands for improved and greater municipal services in all phases of the administration. "There is but one conclusion to draw: that these greater services and the small increase in tax rate reflect very clearly the careful at- titude the council has pursued in spending the taxpayers' money and demanding the most in service for expenditures made."

Fightin' Mountain Boys

Deep inside icy banks, men are protected from winter. Caves like this are comfortable for four men. Here one cooks over a gas stove, another cleans rifle, third reads. Vent to top of snow bank keeps air fresh.

Caves protect motor toboggans. Masked troops on march.

These pictures show Uncle Sam's new mountain troops training in Washington Cate's Paradise Valley, near Mount Rainier, where winter's snows still run deep.

43 Adults Direct Work Of Girl Scouts

ISHPEMING, March 31—In addition to the 200 girls active in Girl Scouting in Ishpeiming, there are 43 adults registered as leaders. Seventeen of these leaders are orga- nized into an association, which meets once a month to review and plan work. Ten council members, who are officers and committee chairmen, meet once a month with troop advisors. They study the work of the troops, their plans for the future and determine what steps are needed to strengthen or coordinate programs.

Another group of eight com- mittee members meets when the oc- casion demands, with chairmen of committees to assist in planning projects.

Adult Personnel

The adult personnel of the Girl Scout organization in Ishpeiming, follows: Mrs. Grant T. Hollett, commis- sioner; Mrs. Peter Handberg, deputy commissioner and training chairwoman; Mrs. James E. Flata, treasurer, camp committee, fi- nance committee; Mrs. R. K. Dur- land, secretary, membership com- mittee; Mrs. Howard Medlyn, reg- istrar; Mrs. R. D. Schaal, program chairman; Mrs. Harlow Stannard, and Mrs. Seth Rahm, program com- mittee; Mrs. James Travig, camp chairman; Mrs. R. M. Johnson, chairman, group organization; Mrs. John Murphy, Mrs. C. J. Stake, Mrs. Clem Gothe, group organiza- tion; Mrs. Alex Ham, chairman, public relations; Mrs. J. C. Camer- on, Mrs. Ruth Lamm, public rela- tions; Proctor Maynard, finance chairman, advisory chairman, camp committee; Miss Mabel Dawe, fi- nance committee; Mrs. L. R. Leh- mann, Mrs. C. E. Tonkin, Mrs. A. C. Stam, Mrs. L. J. Hill, troop mothers; W. T. Bath, troop advise- r; Mrs. Kenneth Stangeberg, Mrs. J. P. Bertucci, Miss Dorothy Pauli, Miss Dorine Amell, Mrs. Roger Bergdahl, Mrs. Morris Mais, Mrs. Clyde Sundberg, Mrs. S. Hebbard and Miss Katherine Allen, troop leaders; and Mrs. Wilfred Tippett and the Misses Mary Jane Rein- hardt, Marjorie Irwin, Mary Jane Murphy, Rita Pope, Jeanne Beau- din, Ellen Taylor and Isabel Tay- lor, assistant troop leaders.

Scholarship Roll Topped By Roy Eade

ISHPEMING, March 31—Boys continue to take scholastic honor in the Ishpeiming high school, with Roy Eade, son of Mr. and Mrs. James Eade, 831 North Pine street leading the parade.

For the third quarter of the school year, Eade, a junior, had a straight A record for six subjects for the highest ranking in the student body. Close behind him were two other junior boys, William Gray and Douglas Erickson, both with five A's and a B. There are no other marks close to theirs.

In numbers, however, girls out- rank boys, 15 to 5. The scholastic awards follow:

Honor Roll Seniors—Hope Corlett, 3A, 2B; Elisha Greifer, 2A, 3B; Carol Lind- berg, 2A, 2B; George Miller, 2A, 3B; Ellen Norman, 2A, 3B; Grace Skevis, 2A, 2B; Marion Thomas, 3A, 2B.

Juniors—Betty Dawe, 3A, 2B; Roy Eade, 6A; Douglas Erickson, 5A, 1B; William Gray, 5A, 1B. Sophomores—Joy Champion, 2A, 2B; Carolyn Giesler, 3A, 1B; Marian Ham, 2A, 2B; Juanita LeMay, 2A, 2B.

Freshmen—Mary Vaughn Hen- nessey, 2A, 2B; Bertha Johnson, 3A, 1B; Helen Kaarto, 2A, 2B; Elaine Laakso, 3A, 1B; Keith Le- Clair, 2A, 3B.

Honorable Mention Seniors—Marcella Dubinsky, Van Qual, Marion Vain.

Juniors—Esther Erkkila, Paul Lemin.

Sophomores—Charles Allen, Phyllis Anderson, June Antilla, Mary Coad, Shirley Coole, Joanne Lindborn.

Freshmen—Mary Lee Andrew, Barbara Johnson, Leonore Nigra, Shirley Rinne, Jeanette Tupala.

Pork Removed From Surplus Food List

ISHPEMING, March 31—For the first time since the food stamp plan has been in effect in Marquette county pork has been removed from the surplus commodity list, the April bulletin reveals.

Following are the surplus com- modities recognized for the period April 1 to April 31, inclusive: Shell eggs, corn meal, dried prunes, butter, wheat flour, en- riched wheat flour, self-rising and enriched self-rising flour, whole wheat flour, hominy grits, dry ed- ible beans, fresh vegetables includ- ing potatoes, fresh peas, apples, oranges and grapefruit.

SUFFOCATE IN SHELTER

CAIRO, March 31—NINE persons died of suffocation at Alexan- dria Sunday during a daylight air raid when 2,000 persons rushed into a shelter meant to accom- modate only 100. No bombs were dropped.

Jap Bases On New Guinea, Timor Raided

(Continued From Page 1)

Australian home forces, will head the other. All Australia rumbled with the immensity of the war preparations. Troops and supplies were on the move everywhere as operational orders flashed across the continent.

'Must Win War Or Die'

Prime Minister John Curtin de- clared at a reception for General Blamey that the recent return of part of the Australian forces in the Middle East had been agreed to by the British government "to give us a stiffening of battle-seasoned vet- erans."

Curtin said that neither his gov- ernment nor Parliament would in- terfere with the military and that he was proud of the intimate as- sociation achieved between Aus- tralia and the United States.

General Blamey, warning Aus- tralians that 1942 may be the year which will determine the life or death of this nation, declared, "there is no question that we have got to win this war or die."

Aerial Fight Over Darwin

DARWIN, Australia, March 31—P—Their wings flashing like mir- rors in the bright sunlight, United States and Australian planes fought with Japanese zero fighters 12,000 to 15,000 feet over Darwin this afternoon.

The dogfight followed another abortive raid by seven twin-engi- ned Mitsubishi bombers much like that of yesterday, when seven bombers dropped 30 bombs.

Today the Japanese bombers made a single run over their target and dropped 20 bombs, most of which landed harmlessly in the bush. There were no casualties.

Meanwhile Allied defenders and the Japanese fighter escort mixed it up in the waters in Dar- win. One of the Japanese craft slip- ped suddenly into a long, scream- ing dive, but pulled out near the ground and streaked out of sight toward the west.

Later the pilot of an Allied fighter took to his parachute and apparently landed near the harbor, where boats and a land party set out to search for him.

One Allied plane was lost in yes- terday's fight.

Exploits of Bomber Pilots Told

UNITED STATES ARMY HEAD- QUARTERS in Australia, March 31—P—Planes of the American Army bomber command operating from bases in the Philippines and the Netherlands Indies sank or apparently damaged 46 Japanese transports and 16 warships and destroyed more than 50 Japanese planes up to March 1, it was announced today.

The bomber command's chief, Col. Eugene L. Eubank, of Fort Arthur, Tex., and Albuquerque, N. M., gave the account today in telling for the first time of the breath-taking exploits of the men who man the flying fortresses.

Indicative of the extent of these were the recommendations for awards up to the fall of Java: 12 Distinguished Service Crosses, 25 Distinguished Flying Crosses, 61 Silver Stars and 22 Orders of the Purple Heart, with the honors spread through all ranks.

American losses in personnel and equipment were amazingly low, Colonel Eubank said. He did not give figures, but said, "these planes can carry an awful lot of lead and still come back to their bases."

Only two planes were lost through pilot errors, such as bad take-offs or landings—a record

Hitler Moving 100 Divisions Into Russia

(Continued From Page 1)

reported the sinking of a German U-boat and a transport in the Bar- ents sea.

Five Nazi planes were destroyed during the day near Moscow, it said and listed 25 downed yesterday against six Soviet craft lost.

As for the land front, the official announcement said that again during the day there were "no essential changes" in positions.

45,000 Sacrificed in Crimea

ROSTOV, April 1—(Wednes- day)—P—The Germans have sacrificed 45,000 men in repeated efforts to capture Sevastopol in the Crimea, and now the Russians have launched their own counter-off- ensive there, Tass said today in a Sevastopol dispatch.

The dispatch said the Germans had "hurled into action the units reserved for their much advertised spring offensive, but these also have been ground into the dust by the Red army."

For 150 days, Tass pointed out, Sevastopol has resisted Germany's strongest attacks, all the while maintaining regular contact by sea with the Soviet Black sea fleet.

Panama May Organize Army For Defense

PANAMA, March 31—(P)—Presi- dent Ricardo Adolfo de la Guardia told the nation tonight that Pana- ma without an army since 1921— would organize one "if cooperation in defense of our territory demands it."

Reviewing the world situation in a broadcast, the chief executive de- clared "we must be determined to die rather than see the democratic form of life destroyed forever un- der the totalitarian heel."

Panama has cooperated whole- heartedly with the United States in the vast program to safeguard the Panama canal, but has not yet called up an army.

March Tax Collections Over Three Billions

WASHINGTON, March 31—P— The heaviest tax collection month in Treasury history closed tonight with more than \$3,000,000,000 of income and excess profits taxes in the till.

The exact figure will not be known for several days, but in the first 28 days of the month the "take" was \$3,014,183,964. This was more than two and a half times the \$1,197,680,363 collected in a similar period last year.

WANTS TO SUSPEND HOLIDAYS

WASHINGTON, March 31—(P)— Legislation to suspend for the duration of the war all provisions of law recognizing any day as a holiday, except Christmas, was in- troduced today by Chairman Van Nuys (D-Ind.) of the Senate ju- diciary committee.

Ishpeiming Briefs

The Viking lodge will meet at 8 tonight in United North hall. Mrs. Clyde E. Sundberg has left for New York where she will visit her husband, who is stationed at Fort Monmouth, N. J.

The Ishpeiming Ski club dance, which was to be held Thursday evening, has been postponed until April 16.

All Juniors of the First Metho- dist church will meet at 4 this after- noon. The Junior choir will sing at the Easter services Sunday.

The Sunday school of the Beth- any Lutheran church will meet at 4 Thursday afternoon for a rehearsal of the Easter program. All children are urged to be present.

Services will be held at 7:30 Thursday and Friday in the Pres- byterian church. There will be a reception of new members and communion Thursday evening.

The Woman's Society of Chris- tian Service of the Cleveland Ave- nue Methodist church, will meet at 2:30 this afternoon in the church parlors. Mrs. C. O. Peterson and Mrs. Andrew Johnson are hos- tesses.

Francis Tonkin has gone to De- troit to spend a few days. He was accompanied by his mother and brother, Mrs. Erwin Tonkin and James Aho, who will visit relatives and friends in Lansing.

The Junior choir of the Bethany Lutheran church will rehearse at 6:15 tonight. The choir will sing for the evening service at 7:30. After the service the Bethany choir will rehearse.

Services will be held at 7:30 to- night in the First Methodist church with the Rev. Ernest Brown, of Negaunee, as speaker. At the Thursday evening service the pas- tor will preach.

There will be a Norwegian Com- munion service at 7:30 Thursday evening and an English Commu- nion service at 7:30 Friday evening at the Trinity Lutheran church. The congregation will unite with the other Lutheran churches at the Bethany Lutheran church for the three-hour Good Friday service, from 12 to 3.

H. G. WELLS ILL

LONDON, March 31—(P)—H. G. Wells, 76-year-old author and his- torian, was reported suffering from bronchitis and fatigue today.

Boy Scouts Will Collect Waste Rags

ISHPEMING, March 31—Ishpe- ming housewives were advised today that the Boy Scouts of Troops 25 and 26, cooperating with the sal- vage committee of the county indus- trial defense council, have under- taken the collection of waste rags. The first collection will be made Saturday morning, April 4.

James Westwater, Scoutmaster of Troop 26, suggested today that housewives leave waste rags in con- tainers or tied-up bundles on porch- es so there will be a minimum of confusion when the boys make their rounds Saturday.

Two trucks, manned by adults, will be provided to assist the Scouts. Sell Rags To Scrap Dealers Rags will be disposed of to scrap dealers at a price that is uniform throughout the county. Proceeds will be divided between the two troops and the money used for Scouting purposes.

This project has been under way in neighboring communities for some weeks and results have been satisfactory.

"The boys are enthusiastic," Scout leaders said today, "about this project primarily because it gives them an opportunity to be of definite service in the war salvage campaign and also because it gives them an incentive to build troop treasuries for purposes all members will enjoy."

Two of Four Heirs To Texas Bequest Traced

GRAND RAPIDS, Mich., March 31—(P)—Edward Jannenga, Kent county undersheriff, said today he had traced two of four heirs to a Texas bequest of \$49,000.

Jannenga, asked by Texas au- thorities to make an investigation, said he had information that Louise C. Rosander now is living in Chicago and that William Floehr is a resident of South Bend, Ind. Two others are yet to be lo- cated, C. P. O'Brien and Mrs. Bridget O'Brien.

The four heirs were last report- ed residing in Grand Rapids.

Obituary

Beaglehole Services

Funeral services for Mrs. Anne Beaglehole, former Ishpeiming resi- dent who died in Wilmington, Del., will be held at 2 Wednesday in the First Methodist church, the Rev. Lewis Keast officiating. This changes the previous notice that services would be held in Mudge's funeral home. The order of the Eastern Star, of which Mrs. Beaglehole was a member, will attend the services.

Viola Waara

ISHPEMING, March 31—Viola Waara, infant daughter of Mr. and Mrs. Wilbert Waara, 401 High street, died this morning in the Northern Michigan clinic, Mar- quette.

Funeral services will be held at 3 Wednesday afternoon in Bjork's funeral home. The Rev. C. Tamminen, of the Bethel Lutheran church, officiating.

Interment will be made in the Ishpeiming cemetery.

Robert Frederick Schrader

ISHPEMING, March 31—Robert Frederick Schrader, infant son of Mr. and Mrs. Ray Schrader, of Palo Alto, Calif., died this morning after a brief illness. Mrs. Schrader and her son were visiting Mrs. Schrader's parents, Mr. and Mrs. Sigurd Anderson, 829 East Michi- gan street.

Funeral services will be held in Bjork's funeral home at 1:45 Wednes- day with the Rev. G. A. Schugren, of the Cleveland Avenue Methodist church, officiating.

Interment will be made in the Ishpeiming cemetery.

Over 50 Registered For Defense Duty Tuesday

ISHPEMING, March 31—More than 50 persons registered for civi- lian defense with the Ishpeiming council today, which was consid- ered an excellent record in view of the previous heavy enrollment and the number of persons who are asked to keep themselves available for private industrial work.

There is definite need for all persons to register, it was stressed today, if a well-defined defense set- up for Ishpeiming is to be formed.

### Last of 1931 Bond Issue Paid in Full

NEGAUNEE, March 31—The last outstanding bonds against the city of Negaunee, which matured March 20, have been paid in full leaving the city without a bonded debt and a cash balance of \$155,000.

With the money now on deposit and funds to be received from the state from various sources, such as liquor licenses and rebates, city officials expect to receive approximately \$100,000 and conduct city affairs until the next tax money is received in December without borrowing.

The bonds retired March 20 were 60 in the amount of \$500 each and 30 in the amount of \$1,000, issued to pay for construction and installation of extensions and improvements of the main trunk line sanitary sewer system.

The bonds were dated October 20, 1931, and were issued following a special election in September, 1931. The proposal was approved by a majority of only 51 votes, 282 ballots being cast in the affirmative and 231 in opposition. The proposal carried in the first three wards of the city but was defeated in the Fourth and Fifth wards.

The bonds were issued by the First National Bank of Chicago and sold through the John Nuvreen & Co. A letter from the latter expressed its appreciation for the city's cooperation and promptness in meeting payments of principal and interest and complimented the city on its fine record.

### Corregidor Defies Jap Blasting

Topside barracks on Corregidor Island, wrecked by Jap bombers in one of their vain efforts to dislodge United States troops who are still holding the stronghold at the mouth of Manila bay. (NEA Telephoto)

### All Teachers Registered For Defense

NEGAUNEE, March 31—Negaunee school teachers and employees have registered 100 per cent with the Negaunee civilian defense council, with the exception of one employee who is confined to his home because of illness.

Registration at the city building, however, was disappointing as only 22 persons volunteered during the afternoon and six registered during the evening. Late afternoon today only six had registered.

Negaunee, nevertheless, has a high registration for its population, the present total being well over a thousand.

Clerks yesterday encountered one resident who was under the impression that he was to receive some compensation for his work under the civilian defense program and when informed that all services are voluntary, he left the building without enrolling.

All persons who register now will receive a card certifying their registration in the civilian volunteer program and those who registered at prior dates may obtain cards at the civilian defense office in the city building beginning Monday next week. Former registrants are requested to not apply for cards until that date, so as not to interfere with the present registration.

### At The Vista

NEGAUNEE, March 31—A double feature bill composed of "Rise and Shine" and "Behind the News" is at the Vista Wednesday and Thursday. The first film stars Jack Oakie with Linda Darnell, George Murphy, Walter Brennan and Merton Berle. The latter film, starring Lloyd Nolan, Frank Albertson and Doris Davenport, is a newspaper story combining comedy, drama and romance.

### PACKARD HEAD RESIGNS

DETROIT, March 31—(AP)—Because of ill health, Max M. Gillman has resigned as president of the Packard Motor Car Co. He had been with the company since 1918.

### City Defense Council To Obtain Films

NEGAUNEE, March 31—A series of motion pictures for civilian defense will be shown in Negaunee beginning April 9, it was announced today by the city's civilian defense council through R. A. Gilmore, who is in charge of instruction and films for local defense classes.

The first films to be shown April 9 consist of two reels, the first being "Army In Overalls," lasting seven minutes, and the second, "Power For Defense," which runs 10 minutes.

The films have been produced by the Office of Emergency Management and are being distributed at no cost to the local councils other than transportation charges.

Other films to be shown here are "Aluminum" and "Women In Defense," each 10 minutes in length, on May 4; "Safeguarding Military Information," 10 minutes, and "Men and Ships," 22 minutes, on May 14, and "Defense Review" running for 30 minutes, on May 18.

The first film authorized for training purposes by the Office of Civilian Defense, entitled "Fighting the Fire Bomb," is now being distributed and the Negaunee council has been assured that it will be available for showing here during April or May.

### Palmer PTA Will Honor Cage Champs

PALMER, March 31—The Parent-Teachers association of Palmer will sponsor a dinner Saturday, April 11, in the school in honor of the Palmer basketball team which won the Class E championship of the Upper Peninsula.

The public is invited to attend. Tickets are on sale and reservations may be made by telephoning Mrs. William Riekkki, 770-F3, Negaunee.

The committee, in charge of arrangements, is composed of Mrs. William Riekkki, Mrs. Adeline Moyle, Miss Lempi Appleberg and Mrs. William Peitila.

### Officers on Lake Tugs Get Wage Increase

CLEVELAND, Ohio, March 31—(AP)—Capt. Chester W. Willett, president of the Great Lakes Towing Co., announced today an agreement with the licensed Tugmen's Protective association (AFL) for wage increases of 75 cents to \$1.25 per day for officers on tugs operated by the company.

The new scale for 1942, drawn up for signature by the company and the association, calls for \$12.75 a day for all ports, compared with \$12 a day for large ports and \$11.50 for small ports last year.

The agreement affects about 125 regular officers and an equal number of "extra" men. The company operates tugs in all major lake ports except Milwaukee.

Negotiations with unlicensed tugmen are continuing.

### Investiture Service For Girl Scouts Tonight

NEGAUNEE, March 31—The Negaunee Girl Scout council will award service numerals at an investiture ceremony Wednesday at 7:30 in the girls' activity room of the Central grade school.

A member of the national Girl Scout council will be in charge of the induction of new council members and present the numerals.

The troop committee ladies will be in charge of the refreshments and Mrs. Earl Makela and Mrs. John Honkavaara are the hostesses.

### Uninterrupted Service On DSR System Assured

DETROIT, March 31—(AP)—Agreeing to a recommendation of Theodore W. Kheel, mediator of the War Labor Board, officials of CIO and AFL unions today said they would respect each other's rights for "the duration of the war" in the jurisdictional dispute over employees of the Detroit Street Railway system.

Kheel said the agreement would "insure uninterrupted service" for the duration.

### Increased Efficiency Lowers Warplane Costs

KANSAS CITY, March 31—(AP)—J. H. Kindelberger, president of North American Aviation, Inc., said today increased efficiency had reduced the cost of military planes to the extent that his company had returned \$14,000,000 to the Government rather than accept it as profit.

"The effect of our manufacturing efficiency," he said, "has reduced the cost of a plane 33 1-3 per cent over the cost of that same

plane in the summer of 1940, when the cost of both labor and materials were lower."

### Kansas City Journal Suspends Publication

KANSAS CITY, March 31—(AP)—The Kansas City Journal today wrote "30"—the end in newspaper parlance—to its 88-year history.

With its final edition, the afternoon daily suspended publication at the order of its principal owner, Morris Schapiro, of Baltimore.

Suspension of the Journal left Kansas City with two daily newspapers, the afternoon Kansas City Star and the morning Kansas City Times, both published by the Kansas City Star company.

### Negaunee Briefs

The choir of the Mitchell Methodist church will rehearse tonight. Evening prayer and service of the St. John's Episcopal church will be at 7:15 tomorrow evening.

Mr. and Mrs. Albert Rice have received word that their son, Corporal Albert D. Rice, has arrived safely in Ireland.

The junior choir of the Bethany Lutheran church will meet at 6:15 tomorrow evening. Holy communion service will be at 7:30.

The midweek Lenten service and communion of the Covenant Mission church will be at 7:45 tomorrow evening.

The Membership and Youth Fellowship classes of the Mitchell Methodist church will meet at 7 and 7:30, respectively, tomorrow night.

The meeting of the Negaunee Woman's club scheduled for the afternoon of April 7 has been changed to an evening meeting and will be a mother and daughter party.

The junior and senior choirs of the Covenant Mission church, which were to have rehearsed last night, will meet, instead, at 7 and 8, respectively, tonight. Also, at 7, the junior and intermediate classes of the Sunday school will meet.

William Kangas, 28, who resides near Palmer, pleaded guilty in municipal court yesterday to a charge of driving a car while drunk and was sent to the county jail for 90 days because he was unable to pay a fine of \$50 and \$15 costs. He was arrested at 11:45 Monday night by state police on M-35 in the Sunrise location.

Blood plasma now is being made safer for transfusion by addition of 0.2 per cent of sodium sulfathiazole, which assures sterility of the plasma.

## War Correspondent Answers 'Where's Our Navy?' Query

By John A. Moroso, 3d WITH NORTH ATLANTIC FLEET, March 31—(AP)—"Where's our Navy?" runs a current gripe among Monday-morning admiral. I found the answer to this shortly after joining the north Atlantic fleet as a war correspondent. "This branch of the Navy is slugging hard in icy, wind-whipped waters. They have taken thousands of ships through U-boat infested waters in nose-thumbing journeys marked by danger every knot of the way. These men have been forced to use every available unit to the utmost and they are using their ships roughly and without fear." The guiding hand out here is Vice-Admiral Royal Eason Ingersoll, a slightly-built, bushy-browed man of 58 who works about 120 hours in a seven-day week. Ingersoll, son of the late Admiral Royal R. Ingersoll and father of Lieut. Royal R. Ingersoll, 28, stands about five feet seven inches tall, and has penetrating blue-green eyes that seem to take in everything. His mind works evenly and quickly—officers say he never gets excited.

It speaks precisely with a quiet voice marked by a twangy-Indiana dialect. Although born in Wash-

### Ington, D. C., he maintains a home in La Porte, Ind.

He admits frankly that there is a great submarine menace in the Atlantic, but, says he: "The situation in the Atlantic is bound to improve with placing in service of new destroyers, anti-submarine vessels and planes. The capacity of the United States to build will eventually defeat them." As to the winter work of his men: "Nobody could have done any better than they did under the conditions which they had to operate."

### ENDS LONG SERVICE

GRAND RAPIDS, Mich., March 31—(AP)—Robert E. Patterson, 79, who will conclude 26 years' service as Kent county drain commissioner next December 31, when his term expires, will not be a candidate for re-election, he announced today. Before taking his present office he served eight years as Paris township supervisor and taught for 23 years in Kent county schools.

### HURT RIDING IN TRAILER

GRAND RAPIDS, Mich., March 31—(AP)—Injured when the two-wheel trailer in which they were riding broke loose from an automobile and collided with another car tonight, June Coons, 8, and Gloria Coons, 9, were in critical condition at St. Mary's hospital here. The car was driven by Martin Goense, father of Gloria.

STATE OF MICHIGAN, The Probate Court for the County of Marquette. At a session of said Court, held at the Probate Office in the City of Marquette in said County, on the 17th day of March, A. D. 1942. Present: Hon. Carroll C. Rushton, Judge of Probate.

In the Matter of the Estate of Louis Gravenet Kaufman, Deceased. Marie J. Kaufman, widow of said decedent, and devisee under his will, having filed in said Court her petition, praying that an instrument filed in said Court be admitted to Probate as the last will and testament of said deceased and that administration of said estate be granted to The First National Bank & Trust Company of Marquette, or to some other suitable person. It is Ordered, that the 11th day of April, A. D. 1942, at nine A. M., at said Probate Office is hereby appointed for hearing said petition. It is Further Ordered, that Public notice thereof be given by publication of a copy hereof, once each week, for three successive weeks previous to said day of hearing in The Daily Mining Journal, that being a newspaper printed and circulated in said County, the last such publication to be at least two full days before the date hereon appointed for such hearing. (Seal) CARROLL C. RUSHTON, Judge of Probate, 3-18-42 Weds.

### Reuther Plan Attacked In Public Debate

By David J. Wilkie

DETROIT, March 31—(P)—The Reuther plan for speeding up aircraft production was alternately derided and defended at an all-day press conference here today by Charles E. Wilson, president of General Motors corporation, and Walter P. Reuther, labor leader and author of the plan.

**'Conceived for Publicity'**

Wilson termed the plan one conceived chiefly for "publicity and political purposes" with nothing in it "that would be helpful," and Reuther retorted by accusing industry of waste and inefficiency, and with being more interested "in maintaining peacetime production than in defense production."

Wilson was flanked by three members of his executive and engineering staff and Reuther had with him three associates on the executive staff of the United Automobile Workers (CIO). At a microphone in the center of the long table on the auditorium stage was George H. Denny, radio talk-show host and moderator.

The Reuther plan, Wilson said in his opening statement, was "a gun and butter plan and not a something else plan; a plan to produce something our military authorities did not require and still do not require, even in this war emergency."

**Raps Industry For Time Waste**

Referring to the proposal as a "publicity trick to attract attention," Wilson asserted: "It could hardly have been a considered opinion based on a true engineering and manufacturing survey of what could be done, because the exact product to be manufactured was not specified."

Reuther, responding, asserted that he had been unable to present the proposal to management representatives because of their unwillingness to discuss it. The plan, he said, was not put forward "just in terms of 500 plans a day. It was more than that; it was an over-all approach to the organization of American industry that would insure the maximum utilization of man-power and machine-power, by an over-all direction and coordination of these facilities."

The first Berrien district embraces the twin cities of Benton Harbor and St. Joseph, as well as all northern Berrien county. Emery said he had submitted his resignation to Governor Van Wag-

Reuther, responding, asserted that he had been unable to present the proposal to management representatives because of their unwillingness to discuss it.

The afternoon session brought a several-times repeated challenge by Wilson to Reuther to prove that his plan did not propose exactly the "same kind of a business as usual" program with which Reuther accused the industry.

In elaborating his proposal for "over-all coordination and direction," with the industry operating as one unit and with labor having a voice in the effort, Reuther insisted that "labor is not trying to take over management; it does not challenge General Motors' right to have Mr. Wilson as its president."

**Bad Axe Physician On Crippled Children's Group**

LANSING, March 31—(P)—Dr. Ira D. McCoy, of Bad Axe, today was appointed by Governor Van Wagoner to succeed Frank Couzens, of Detroit, resigned, as member of the state crippled children commission for the term ending March 23, 1944.

The Governor also announced reorganization of the state crime commission which recommends revision of the state criminal code to the legislature. He named State Representatives Victor A. Knox, of Sault Ste. Marie, to succeed George E. Watson, of Capac, and Colin L. Smith, of Big Rapids, to succeed M. Clyde Stout, of Ionia, and State Senators D. Stephen Benzie, of Norway, and Charles C. Duges, to replace J. Neal Lamoreaux, of Grand Rapids, and William Palmer, of Lansing. All will serve until October 2, 1943.

Other appointments: Stephen Farco, of Detroit, to the state fair board, succeeding Frank Wheatlake for the term ending April 14, 1946.

Sister Mary Immaculata Lamey, of Detroit, to succeed Sister Marie Bernard, resigned, for the term ending April 10, 1943, and Miss June Ramsey, of Detroit, reappointed for an identical term as members of the state board of registration of nurses.

### Main Street On The Capsized Normandie

This isn't a sidewalk along a metal-surfaced street, but rather a lamp-lit board runway on the side of the U. S. S. Lafayette (ex-Normandie), built to aid in salvage operations of the capsized liner in New York.

### Liquor Board Schedules Six U. P. Conferences

LANSING, March 31—(P)—The liquor control commission announced today it would conduct a series of 19 out-state conferences to consider liquor problems in relation to the war.

Following a public hearing required by law, which is scheduled to be held tomorrow night in Detroit, the commission will conduct the following program of meetings: At Jackson April 6, Muskegon April 7, Saginaw April 13, Port Huron April 14, Flint April 20, Ypsilanti April 27, Cadillac May 4, Traverse City May 5, Petoskey May 6, Big Rapids May 7, Kalamazoo May 11, Sault Ste. Marie May 18, Escanaba May 19, Iron River May 20, Hancock May 21, Ontonagon and Ironwood May 22, Grand Rapids May 25, and Benton Harbor June 8.

The announcement said licensees would be told of precautions they may take to avoid interfering with industrial workers in noon hours and before starting the day's work.

### Chairman of Berrien Draft Board Resigns

BENTON HARBOR, Mich., March 31—(P)—Solon Emery, former mayor, has resigned the chairmanship of the first Berrien county selective service district because, he said today, the district was being called upon to contribute a disproportionate number of selectees to the armed services.

Emery said he had submitted his resignation to Governor Van Wag-

### Road Employee Dismissed For Violation of Rule

LANSING, March 31—(P)—Thomas J. Wilson, state personnel director, disclosed today he had ordered the first dismissal of a state employee for infraction of the civil service commission's "no politics" rule.

He said G. Donald Kennedy, state highway commissioner, had been notified to dismiss Max Schoenith, a highway department bridge operator, because his name appears on a ballot as candidate for alderman in Cheboygan at the April 6 election. Schoenith's removal from the payroll was ordered effective today.

The civil service commission adopted the "no politics" rule months ago and since issued frequent warnings that violations would result in dismissals.

### Expense Pay Withheld From Murphy's Check

LANSING, March 31—(P)—Auditor General Vernon J. Brown announced today he would withhold from the pay check of Lieut. Gov. Frank Murphy \$102, pending decision of the legality of expense accounts Murphy has collected in that amount.

Release of the money, Brown said, will depend on an attorney general opinion on the issue requested by the state administrative board.

Peculiarly, a majority of the members of the board had sanctioned the arrangement under which Murphy would have received \$15 a day as a per diem wage for attending meetings of the administrative board's defense committee, plus actual expenses. Brown conceded he was one of those who acquiesced originally in the secret arrangement to give Murphy these allowances.

He said G. Donald Kennedy, state highway commissioner, had been notified to dismiss Max Schoenith, a highway department bridge operator, because his name appears on a ballot as candidate for alderman in Cheboygan at the April 6 election.

The civil service commission adopted the "no politics" rule months ago and since issued frequent warnings that violations would result in dismissals.

Emery said he had submitted his resignation to Governor Van Wag-

Maximum prices have been fixed for motion picture theater admissions in Canada.

### 16 Changes In Election Laws Urged

LANSING, March 31—(P)—County clerks and election officials from throughout the state have proposed 16 major changes in Michigan's election laws, for consideration of a legislative study commission April 22.

Harry F. Kelly, secretary of state and chairman of the commission, said the group probably would make no recommendations, but would, on the other hand, present to the legislature an exhaustive report pointing to weaknesses in election laws, how other states have corrected them and other information for the lawmakers' guidance.

Following are items which will come up for discussion at the April meeting, Kelly said: Proposed division of Detroit and Grand Rapids into representative districts for election of members of the legislature.

Revision of the secret primary election ballot law, county clerks complaining that many votes are lost under the present method.

Loss of electors' privilege of registering on election day, which some election officials contend opens the way for fraud and abuse.

Prohibition against issuing absent voters' ballots the Saturday preceding primary or general election, now allowable up to the Monday before election, and elimination of a requirement that applications for such ballots must be witnessed.

Requirement that candidates for elective offices be registered voters.

More liberal terminology in election laws to allow the counting of imperfectly marked ballots in which the voters' intent nevertheless is clear.

State specifically the rights of election challengers, to avoid controversies such as have arisen in the past.

Allow progressive tabulation of the vote as it is cast, to speed election returns.

Declaration of election days as school holidays, allowing use of schools as polling places.

Unification of hours in which polling places are open, and unification of size and type of print on ballots.

Proposal that township officers be elected for two-year instead of one-year terms, and a variety of miscellaneous suggestions.

Good Morning! This is Wednesday, April the First, 1942.

ONLY 4 MORE DAYS AND IT'S EASTER.

The closer we come to Easter the more suits we sell. Women who prefer Paris Fashion quality are agreeably surprised to find so much suit beauty here at
