U. S. ARMY HEADQUAR-TERS IN AUSTRALIA, April 20-(Monday) - A -Allied planes made large-scale assaults upon Japanese shipping yesterday at Rabaul, New Britain, and a direct hit was reported on one vessel. All Allied aircraft returned safely to their bases despite heavier enemy fighter opposition than encountered recently.

Two new air raid alarms kept a jittery Japan on the alert for four hours Sunday in fear of a repetition of the widespread attacks of Saturday in which the Japanese people for the first time in their modern history felt the bitter effects of war in their homeland.

# Certificates Awarded To Raid Wardens

"You men have a job to do when ou return home, and unless each and every one of you is determined to carry out the program and spread the knowledge you have obtained, the effort will have failed," Charles H. Rogers. Twelfth district committeeman of the Department of Michigan, American Legion, and administrator of the U. P. air raid warden school conducted here last week, told more than 50 men at the closing session

The wardens were given certifi-cates signifying that they had successfully completed the air raid course and were qualified to return to their home towns to conduct community schools, which are scheduled to be held this week. The same instruction will be given in community schools as was given in the state school in East Lansing and seven district courses throughout the state U. P. Area "Important"

"We are grateful to you for atending the school," Rogers said. "It shows you are eager to serve our country. You are going to hear men in your community say: 'We have no time for this stuff; we must make a living; we can't paricipate.

"It will be your duty to make them realize that this work is important. The most sorrowful words poken, and you will hear them often, are: 'It can't happen here. It happened at Pearl Harbor. It happened at Singapore, and it can

Rogers emphasized that the Upper Peninsula was important to the nation's war effort because it supplies large quantities of iron ore and timber.

"Civilians, employers and every warden school of district seven, besingle person in your communities ing mindful of the great effort, sacmust be made war-conscious, re- rifice, and expense which have been gardless of the sacrifices they must incurred in our behalf and for the make to prepare themselves for benefit of the citizens of the Upper ossible air raids and invasion by Peninsula, hereby tender our sinthe enemy," he said. The War Department inspection of the Tech cadets will be the fourteenth such occasion. The unit, then a battalion, was given its first inspection in May, 1929, when it was eight months old. Every year since it has received the official War Department rating of "Excellent."

Hundreds of high school athletes, coaches, principals, superin-tendents, and teachers are expected to attend the track meet. The college hopes that most of these can reach Houghton Friday in order to see the engineering show.

Student chairman is Robert Town, of Detroit. Among his aides s George Swenson, Jr., Michigan Tech sophomore who was the first high school student to win the \$4,-000 scholarship offered by RCA for the young man most likely to make valuable contributions to the radio industry of the future. #### It Wasn't So **Funny In Days** 'Way Back When'

(By MANTHEI HOWE)

The other day a small boy wearing a blue Jack Tar suit with long, tight fitting bell-bottomed trousers and blouse ambled along Washington street with his mother. He attracted no end of attention. The men thought him a sturdylooking, attractive tot, and the women thought him adorable.

It reminded me of how lucky he was that he lived today instead of about 50 years ago. For about one of the gooflest things women have done in the way of clothing and child rearing they perpetrated in

Do you remember the pleated skirts and blouses with flowing silk ties that most boys of those years had to wear until they were five or six years old? Of course, they wore short hair-cuts which proclaimed them boys, but the pleated skirts carried a feminine connotation that husbands hated. Poverty Had Compensations

cumstances were in luck in those years, for their mothers couldn't afford to buy the materials to make those pleated skirts and those kids wore dad's trousers cut down church will meet at 8 Tuesday to boy's size. But in the days of Little Lord Fauntleroy most women had the idea that "nice" little boys didn't Don't know how they got that idea, any more than how they got the namby-pamby notion that it was polite to poke the little finger out stiffly when holding the handle of the cup when drinking But the small boy who fought in the days of good Queen Victoria was likely to have a fight with the gang and a less successful but more voluble fight at home. However, I never knew of a dad who didn't stand by his son on such occasions, and more than one little woman felt a horrible suspicion that all men were brutes. Cleanliness Was Disgrace

With the disappearance of the Little Lord Fauntleroy fad, the boys still had reason to fight the gangs. For the "nice" lads were supposed to wear clean clothes, and to keep hands and face clean and their hair brushed. Mothers demanded that, as they had a right to, but there were urchins who did no more than dip their hands in water and sprinkle their faces from Saturday night to Saturday night. The only use to which they put a comb was to place tissue paper over it so they could make

A gang of the dirty faced lads would see some lad with smoothly brushed hair, clean hands and face and a well-brushed suit and they would begin yodeling: "Dude! Hi, sissy-pants. Lookit the dude!" Dude was a fighting word. And

# Wings' Lead Overcome In Final Period

TORONTO, April 19-#-Toronto scored three times in the final period to defeat Detroit, 3-1, Saturday night and gain the Stanley cup, emblematic of world hockey

Sweeney Schriner got two of the goals that enabled the Maple Leafs to become the first team in the National league history to win the cup after losing the first three games of the best-of-seven play-

The Wings were two men short when the second period opened but with all players available the Leafs were trapped down the ice and the Wings broke away, three abreast, to open the scoring. Howe fired a backhand shot from the right side of the Toronto net that beat Broda. He took a direct pass from Orlando. Abel started the play.

The Leafs ganged as Wings took four penalties to two for the Toronto team but they kept their net

When Orlando was sent off for holding, Toronto countered by sending on four wings and just as the Detroiter stepped back on the Highe. rink the Leafs tied the score on a tally by Schriner.

Two minutes later the home team went out in front on Langelle's shot and as the end neared Schriner connected for the third Leaf tally of the period.

# Banner Year **Expected By Golf Club**

ISHPEMING, April 19 - With the largest membership it has had in five years, the Wawonowin Golf club will have the best season in its history, it was predicted by Claude H. Tripp, president, at the club's annual meeting last night in the Mather Inn.

Three new holes, under construction last summer, have been com-pleted and will be ready for use with the opening of the course. Last summer only six holes could be used, because three were abandoned when construction of the Mather mine was started.

#### New Equipment

New equipment purchased for the course includes poles, flags and cups for the greens, tee balls, a ball retriever for the water hole on the second fairway, and ball-washers. A truck, mower and green spiker also have been purchased, repairs have been made at the club house and a new roof will be put on the building this spring. "In spite of the fact that the

country is at war, recreation in some form is a necessity," Tripp said. "Therefore, we are looking forward to an active season, because many persons will not take long trips and a number of former members are planning to rejoin

'We offer an opportunity to play on a nine-hole course which has been considerably improved and made more interesting.'

#### Republic Labor Survey To Be Started Tuesday

REPUBLIC, April 19-William Fountain, of Marquette, met with the American Legion and auxiliary last Thursday night and explained the labor survey to be conducted in Republic, beginning Tuesday, as a means of preparing for the anticipated shortage of labor in factories and on farms. Each member of every family will be asked to list his skills and abilities and his willingness to participate in the war program, either as a worker in an armament plant or factory or on a farm producing food.

All members of the Legion auxiliary are requested to report Monday evening at the home of Mrs. Ruth Johnson, Republic avenue, at 7:30 for final instructions.
