Michigan Day at the World's Exposition at St. Louis has been set by Governor Bliss for Thursday October 12-

To the People of the State of Michgan, Greeting: The Universal Exposition commemor

ating the acquisition by the United States of the vast territory known as the Louisiana Purchase is now in progress at St. Louis. The event it commemorates is not only one of the most im-portant in the world's history, but the Exposition itself is the greatest and most complete exhibition of the achievements of the human race ever made.

Michigan though not of the Louisiana Purchase, is by her history, her traditions and her people, closely related to that great event and the magnificent states which have grown out of it.

Her natural products and manufactures find at this exposition a prominent place and have received applause. Her progress in education and the arts has been signally recoginized.

To properly emphasize the relation of Michigan to the Exposition, the events which it celebrates and the achievements it represents, the twelfth day of October, 1904, has been set aside as "Michigan Day" wheron can be celeworth and achievments of our great

A duty all people owe themselves, that they may live long and prosper, is to take a certain amount of recreation.

Brainworkers especially owe this to themselves. Mrs. Brooks Became So Welk She Thinks She Would Have Died But For Dr. Williams' Pink Pills.

Mrs. Sarah L. Brooks, of No. 45 Lin coln Park, Chicago, Illinois, gives the following account of ner cure from distressing spells of vomicing:

"For five years off and ou I was treated in vain by different doctors for relief from a stomach trouble which showed itself in frequent and trying spells of vomiting. Part of the time I was able to work and again I would be confined to bed for three or four days in

"My stomach was at times so delicate that it would not retain even plain water. The spells would sometimes occur at intervals of half an hour, and would leave me so weak that I would be compelled to lie down between them. I would have several of them during the night following a day of such attacks. Finally I became so weakened that I had to give up working altogether. I weighed only ninety-four pounds.

"Last January I read about Dr. Williams' Pink Pills for Pale People in one of the Chicago daily papers and bought a box and began to use them. After I had used half a box I found that I could keep on my stomach the food I atc. I was encouraged by this and kept on using the pills for four months. At the end of that time the vomiting spells had ceased altogether and my weight went up to 142 pounds and is still growing.

HONOR ACCEPTED BY DAVIS

LETTER OF DEMOCRATIC NOMI-NEE FOR VICE PRESIDENT.

A Synopsis of the Document in Which He Gives His Views on Cam-paign Issues.

Elkins, W. Va., Oct. 2.-Hon. Henry Davis, democratic nowinee for vice president of the United States, has forwarded to Hon. John Sharp Williams, chairman, and other members of the sotification committee, his letter formally accepting the nomination. He says the times are propitious for the reinstatement of the democratic party in control of the government, and declares that thoughtful and patriotic people are becoming more and more dis-trustful of the heady and personal element of the present administration, and are more than willing to see it replaced by one that better recognizes constitutional and other lawful restraints. He charges the administration with extravagance in governmental expenditure.

With reference to the Panama canal, Mr. Davis deprecates the action of the present administration, which inflicted a wound upon our national honor by its disregard of the rights of a weaker nation in order to gain a doubtful credit for energy in forwarding that great en-

On the tariff question Mr. Davis says that many of the existing tariff rates are undoubtedly too high upon such articles as enables the manufacturer to sell his products abroad cheaper than "I think I surely would have died if it had not been for Dr. Williams' Pink Pills for I sometimes vomited clear blood, and for three or four days at a time I could not eat a bite of anything. One doctor said I had chronic inflammation to extend the success of the democratic party. the success of the democratic party, which stands for a wise, conservative and gradual change in the tariff laws, which will equalize the burdens of taxation and make honest competition possible. But in making such changes its purpose will be to legislate with a due regard, for the labor and capital involved in industrial enterprises,

Mr. Davis points out the evils which come to the people through combinations of capital and corporate interests which are so conducted as to be pernicious and harmful to the general interest. He heartily endorses the declaration in the St. Louis platform in favor of arbitration. He declares the revival by the republican party of the race issue must of necessity retard the development of the southern states, and will seriously interfere with the industrial progress of both sections. He denounces the evidences of fraud in the public service under the present administration as disclosed by the investigations of the post office and land depart-

DEATH COMES SUDDENLY.

Career of Sir William Vernon-Harcourt, Prominent Figure in British Politics, Ends.

London, Oct. 3 .- Sir William Vernon-Harcourt, "the finest political gladiator of his age," died very suddenly Saturday at Nuneham Park, near Oxford, the county seat which he recently inherited from his nephew. Only his wife, a daughter of the late John Lothrop Motley, the historian and former American minister to Great Britain, was with him. When Sir William went to bed Friday

SIR WILLIAM VERNON-HARCOURT had been suffering from a slight chill. Saturday morning when he was called he replied cheerily: "In a short time." Later a servant entered the room and found Sir William lying dead on his bed. His son, Lewis Vernon-Harcourt, member of parliament for the Rossendale division of Lancashire, was hastily summoned from London

Sir William George Granville Vernon Harcourt was born October 14, 1827. Educated at Trinity college, Cambridge, where he graduated in 1851, he was called to the bar. He entered political life in 1858, when he made an unsuccessful contest for the Kirkcaldy burghs. 1873, on which occasion he was knighted. When Gladstone returned to power in May, 1880, Sir William Harcourt was nominated secretary of state for the home department. He went out of office in June, 1885, but in January, 1886, he was made chancellor of the exchequer.

Gold Dredging Company in Iowa Finds Itself in Bad Shape-Stenographer Burns Books,

Des Moines, Oct. 4.-The Iowa Lillooett Gold Dredging company and the Hawkeye company, organized for the purpose of dredging the Frazier river in British Columbia, has announced a shortage of over \$40,000. The books have disappeared and a pretty stenog-rapher, who has suddenly blossomed out as a society belle in diamonds and allks, acknowledges she burned them. The stock has fallen to one cent, and such men as ex-Secretary of State George Dobson, ex-Gov. Frank D. Jackson, Mayor Mattern, of Des Moines, Chief of Police James Jones and Prof. Calvin, of the state university, are caught. A meeting of the stockholders has been called at Iowa Falls for to-

The crash came when the state bank of lowa Falls refused to cash two checks for \$10,000 and \$23,000 respectively, and signed by officers of the company. An immediate explanation was demanded of the secretary, Byron B. Bliss, Scarcely had the demand been made before his wife instituted insanity proceedings in the district

More sensational, however, was the admission of Maud Hamilton, the stenographer, when pressed by the attorney for information. She admitted burning the books. She claims she was told to. The feeling here is strong against her. She is "standing pat," and positively refuses to reveal any of the company's business, which it is claimed she certainly knows. Miss Hamilton rides in a carriage with a Hamilton rides in a carriage with a footman and appears to be absolutely unconcerned about the company's losses.

"No, sir. But if he had his horses all ready, and was going to that point, I would call him a very mean farmer if he refused to take me," was the young fellow's reply.

All Quiet at Mukden.

St. Peteraburg, Oct. 4.-The war commission adjourned Monday night without issuing further news from the front. A dispatch from Mukden filed there at 10:30 o'clock Monday night states merely that all is quiet there. There is in-tense interest here in developments at Mukden, but the public and apparently the authorities also are utterly in the dark as to what is transpiring. The little news received from Port Arthur comes from abroad, but that little is satisfactory inasmuch as it records a urther repulse of the Japanese forces.

THE KEGS WERE LIGHTER.

Dr. Lorimer's Easy Explanation of an Apparently Difficult Per-

Rev. George C. Lorimer, whose death at Aix was recently reported, was the main impetus that earried on the building of Boston's magnificent Tremont Temple, and Dr. Lorimer's wit, sincerity and imaginative sympathy made him a great favorite with the students of Harvard during-his residence in Boston.

At Cambridge, one day, according to a current story, an undergraduate asked the opinion of Dr. Lorimer on drinking-moderate drinking.

"I am opposed to it," the clergyman said. "It is perilous. It frequently leads to drunkenness. In fact, most drunkards were moderate drinkers first."

"Naturally malt liquors and wines, though, are strengthening, aren't they?" the student asked.

Dr. Lorimer smiled.

"Beer," he said, "is very strengthening. I have known young men to have sent to their rooms large kegs of beer that they could not budge at first, and a day or two later they would be able to lift these kegs with ease."

"You have been working for us some time?" inquired the official.
"Yes, sir," the young fellow answered.
"Have you ever had any complaint to make?"

"No, sir," answered the employe.

"Well, if you were working for a farmer, would you have the nerve to ask him to harness his horses and take you to a certain part of the country?" the director asked.

"Dear Mrs. Pinkham:—I am so pleased with the results obtained from Lydia E. Pinkham's Vegetable Compound that I feel it a duty and a privilege to write you about it.

"I suffered for more than five years with ovarian troukies, causing an unpleasant discharge, a great weakness, and at times a faintness would come over me which no amount of medicine, diet, or exercise seemed to correct. Your Vegetable Compound found the weak spot, however, within a few weeks—and saved me from an operation—all my troubles had disappeared, and I found myself once more healthy and well. Words fail to describe the real, true, grateful feeling that is in my heart, and I want to tell every sick and suffering sister. Don't dally with medicines you know nothing about, but take Lydia E. DIRECT: PRIMARIES

The Milwaukee Sentinel, the main organ of the Wisconsin Stalwarts, thinks that the Tribune underestimated the stalwarts when it said that their way of arguing against a direct primary law was to secuse La Follette of ambition. The stalwarts, it appears, would be against a direct primary law even if La Fohette had never been born, and they would know why they were against it. "Their reasons amount in number to at least fifteen. Here follow/these reasons with comment:

1. Because the voters cannot have personal knowledge of the comparative fitness of the candidates with whom they are not acquainted and are in danger of voting for persons unworthy of trust and who would not, if known, command their confidence and support.

Under the convention system the voters have to elect delegates to the convention. In case the delegates are pledged to certain candidates the voters have to choose between those candidates. So even under the convention system the voters may have to make the tremendous intellectual effort of which the Sentinel believes them incapable. But in most cases it is true, the delegates are not pledged. Then the voters have to form an opinion with regard to the personal qualifications of each delegate. This process is as much more difficult than the other in proportion as there are more delegates than offices. Under the direct primary system the voters nominate one man for each office. Under the convention system the voters elect many men to nominate the one man, which system demands more of the voters?

2. Because the direct primary system necessarily keeps out of office everybody but office seekers and tends to swell the number of that class.

Pretense aside, the office doesn't seek the man once in a thousand times. The man seeks the office. Is it better that he should seek it from a boss or from the people?

3. Because the expense of making a canvass to secure a nomination is a practical bar to a poor man. On the contrary, money will buy a boss far quicker than a whole electorate.

4. Because it gives the rich an advantage over the poor.

[See No. 3.]

5. Because it authorizes nominations by minorities which, in case of a large number of candiof the people.

Is it seriously contended that boss nominations are made by majorities? In Chicago the boss nominations in the senatorial districts are often so made that not a hundred people in the district have ever before heard the candidate's name.

6. Because it subjects the people to the annovance and burden of two campaigns instead of

The bosses who at present relieve the people of the annoyance and burden of going to the primaries have charged much an excessive price for their time that the people are driven now to doing their work for themselves.

7. Because it secures to men in office a mani. parties.—Chicago Tribune.

MCEWEN. EDITORANDMOR.

8. Because it takes from the people the right to draft their own platforms and confers that power on candidates which is putting the cart beore the horse. The people should never surrender them. It is thought they escaped the authority to make their own platforms and reducing the night to parts unknown. quire the candidates to stand on them and carry them out. If the people now made their own plat. from here to the Escanaba Woodenforms and if the stalwarts of Wisconsin had not ware Co. on the Beaver Brauch repudiated several platforms this argument would mean something. Under a direct primary system the caudidates would have to announce their opinions and if they failed to live up to those opinions, their next appeal to the people would have its inconveniences and embarrassments.

9. Because the abrogation of the state convention would mean the disintegration and disruption of party organization.

It would. Of the present kind of organization. attire. Of the slush-fund, padded pay-roll organization. But there would be a different and better kind of organization. People with identical opinions will always organize.

> Millionaire Sued for Two Cents. Because he refused to pay two cents toll, James C. Fender, a millionaire, was recently arrested. Mr. Fender drove past a tollgate on the Darby pike at Eddystone, Pa., but did not drive through it. He argued that because he did not drive through the gate, but turned onto the pike alongside it, he has no right to pay toll. The case will involve hundreds of dollars, for the defendant says he will carry the case to the supreme court if judgment is against him.

Australia's New Postal Service. A really desirable coin-in-the-slot machine has been introduced in Australia in the form of a mail collection box so arranged that if a letter is dropped into one opening and a penny into another the words "one penny paid" are impressed on a corner of the envelope and the postage is thus shown to be prepaid.

FOUR DAYS OF FIERCE FIGHTING AT PORT ARTHUR.

Japanese Force of 4,000 Men Cut to Pieces, Only Twelve Coming Out Alive.

London, Oct. 4.-The Daily Telegraph's Nagasaki correspondent, cabling under date of September 25, says: "Terrible artillery conflicts are adding to the horrors of the situation at Port Arthur. On September 22 and 23 the Russians made sorties against positions held by the Kanagawa regiment, and desperate fighting ensued. The Japanese force was practically annihilated, only one non-commissioned officer and 11 men remaining alive out of the 4,000 who went into the engagement.

"The Japanese tunnel into Port Arthur was completed on September 24 and was immediately used. The result

is unknown."

Heavy Japanese Losses. Chefoo, Oct. 4.-An official report from Gen. Stoessel, dated September 23, reached Chefoo Monday, confirming a previous report of the repulse of the ing from neighboring forts and batter-Japanese attack on Port Arthur which ies. Attack Lasts Four Days. From semi-official sources it is learned that the attack began on the 19th along the whole line and lasted four days, various positions changing hands many times. The high hill mentioned was a very important position to the Russians. The Japanese attacked repeatedly, day and night, finally occupying the position on the night of September 22 after suffering very severe losses. The attempt to retake this hill being 'extremely hazardous, Gen. Stoessel refused to issue the order, but called for volunteers. Everybody called upon responded. whereupon a requisite number of men were selected, Lieut. Poggorsky and Capt. Sychaff leading them. Soldiers and officers alike carried grenades (explosive shells weighing from two to six pounds which are thrown by hand), and with these they attacked the Japanese temporary fortifications and drove the latter from all of their positions. Admiration Was Expressed at Exhbilt from Upper Penninsula at

State Fair.

Speaking of the upper peninsula exhibit at the state fair at Pontiac recently, the Detroit Journal had the following: Michigan's upper peninsula counties have fairly outline themselves in the exhibits at the state fair this year. The opinion has always been broadcast that the only crops to be raised in that section were coppar and iron. This is a delusion. Northern Michigan has more areable land than the area of the states of Massachusetts and New Jersey combined, and can support as great a population, entirely aside from mines and

Some exhibits sent down, not from all the upper counties, indicate that there is truth in these assertions. Not all the crops of the southern part of the state can be raised owing to differences of climate, but when these difficulties are understood, and the proper crops tried, a fairly large growth is realized.

It is asserted by Leo M. Geismar, in charge of the state experiment station at Chatham, Alger county, and also of the state fair exhibit, that the upper peninsula is the best grazing and dairying land in the entire United States if not in the world. All forage crops reach a luxuriant growth there, and sickness among stock is almost unknown. Hard grains also prosper if the proper hardy varieties are used, and great yields are secured. The same is true of fruits and vegetables.

Such crops as corn, tomatoes and melons cannot be successfully raised as The following district officers for the yet in that country, although experiments are being made to secure hardy varieties that will succeed.

All early ripening crops do well, as also all fall planted crops, the snow pro tecting them through winter. Samples of forage crops shown are: Clover from Ontonagon, 5½ feet in height; alfalfa (cut three times a year), over 5 feet; blue grass, 4 feet; red top, 51 feet; timothy, 5 feet 8 inches; broom grass, over 8 feet. These growths have made sheep raising a prosperous industry in the last few years. Great samples of wheat, rye and barley are shown, as well as oats that are simply marvelous in growth, reminding one of the freak Anna S. Seldon, Stambaugh. Celifornia growths. DEER ON LUDINGTON STREET

Wounded Animal Was Chased Into City by Dog.

Last Saturday occurred the unusual spectacle of a deer on the streets of this city. Wounded by the bullet of some hunter, in violation of the game law and chased by a hound, also a violation of the law, a fawn appeared at the west end of Ludington street and would probably have proceeded farther into the city had it not been captured. Archie Blair, teamster for T. J. Martin first saw the fawn. It was then near the Cemetery and was running in the direction of the city. It staggered and fell several times but each time gained its feet again in time to escape the dog that pursued it. Blair left his wagon, chased off the dog and as the deer -fell again picked it up and put it in his wagon. The deer was exhausted and weak from a wound in its breast. Blair drove with the deer to T. J. Martin's store, and an effort was made to find game warden A. V. Aronson, and learn what should be done with the deer. The warden was out of town but Prosecuting Attorney John Cumminsky advised that the deer be held to see whether it would recover. The deer however, was too far gone to recover and died within a few hours.

Doan's Kidney Pills make strong

ealthy kidneys.

Mr. Edward Fleming, of 112 S. Fannie street says: 'I slipped as I went to step from a wagon, fell and injured my back and after that I had backache nearly all the time. I was told by a doctor that the nerves of my spine were injured and he treated me accordingly, but my back still continued to ache so much that I was able to do but little work. When I read about Doan's Kidney Pills, the general symptoms of kid-ney disease seeming to resemble those I suffered from I thought it would be well to try this remedy so I procured a box at Mead's drug store and used it. The treatment benefitted me greatly and I noticed an improvement in a few days. Doan's Kidney Pills proved to be a remedy that can be depended upon that is the reason I can recommend

BOND STEEL POST CO.,

CHICHESTER'S ENGLISH

POOLE POOLE

A strong, reliable, steady player. One of the best in the whole line-up. Accurate in every way and always "in the game." Has frequently appeared before all the best critics and has never yet failed to come up to all expectations. Unusually strong in practice.

RIGHT JACKLE,

CHICKERING

Has scored as many "touchdowns" as any other player in the country. Is a general favorite with enthusiasts and never fails to sustain the reputation for good wearing qualities. Is included on the "All American team" every year, and will continue to hold the high place.

RIGHT GUARD,

WEBER

A brilliant performer. Never fails to arouse the utmost enthusiasm. Can execute the most difficult "runs" with the greatest of ease. Has the reputation of being one of the strongest players in the country, and is renowned in many other countries.

CENTER,

BAUER

Second to none in all the qualities that go to make the ideal performer. Easy to "tackle," but graceful in appearance, and an adept at "end runs." Never fails to "gain the required distance" in public approval. Never tires, but improves under vigorous action.

LEFT GUARD,

BENT

Is the "center" of attraction to thousands who delight in masterful work. Has been carefully trained and is always in the pink of condition "Hits the line" with telling effect and given a fair field can beo'downed" by no opponent.

LEFT TACKLE,

HAZELTON

Responds to the "signal" with amazing alacrity and has "kicked goal" in every contest. Is continually "gaining ground" among those who can appreciate unusual qualities. Has the advantage of experience and the "coaching" of the world greatest players.

The

FOOT BALL

Season is now on and perhaps is is not generally known that Delta county boasts of a line-up that will

LEFT END

CHASE

Plays in any position with equal facility. Grand to action, subtle in execution and full of brill ant surprises. Never ruled out of the game for "foul" playing. An indispensable player in our great and world renow ed line up.

RIGHT HALF BACK FISCHER

One of the handsomest and highest salaried players in the line-up, but worth the price. Has a resonant voice of great purity that charms admirers and strikes dismay to the hearts of the opposition. Will always be one of the greatest favorites with the public.

FULL BACK

KIMBALL

Accorded the highest place by world renowned players. Combines all the qualities that captivates lovers of the beautiful, and is always in harmony. Stands supreme in variety of superior qualities. Pleases the most critical at all times.

QUARTER BACK

EMERSON

Has few equals in this imposing line-up of the world's most noted players. Never "fumbles" when given the ball and always "scores" many points in every contest where surpassing excellence is required. One of the most conspicuous figures on any field.

LEFT HALF BACK Hobart M. Cable

Knows all the fine points of the game and has played in all the leading cities in the country with pronounced success. Has won high bonors and numerous medals for superior playing when pitted against celebrated opponents.

RESERVES

A brilliant, talented bunch of players second to few in all the points that characterize performers of renown. They can acceptably fill any position.

Reserves:=

Franklin, Whitney, Howard, Haddorff, Straube.

The above named experts have been secured at great expense. Perhaps these names that compose the "line-up" and reserves are known to you. To such as are unfamiliar with them will say: You will know them all as makers of the leading pianos of the world, and challenge any other "line-up" at the odds of 5 to 1.

Any of the above can be seen at "Coach" E. A. Tiffany's, 806 Ludington street, Escanaba, or if not in, their full history and record will be cheerfully given to any and all interested in the best pianos made to-day. From this list one would be sure to get full value for every dollar invested, with the additional knowledge that as all, as any one of them come direct from the makers. Are bought for cash at the lowest possible cost, and sold at the least expense of any firm doing business in the west. Wouldn't it seem foolish for anyone tobuy any piano before first seeing this line and getting the prices. Strictly one price, for cash or easy payments monthly.
