NUMBER 45

THE CIRCUIT COURT

COURT

Was in Session Here All This Week

MANY CASES CONTINUED

Non Jury Cases Heard Yesterday—Will Be Through Monday.

Claud Mason, aged 16 pleaded guilty to the charge of burglary. On account of the youth of the lad and being assured that he would change his ways Judge Stone suspended sentence and allowed the boy to return to his home.

The offence for which the boy was charged was the burglary of Hoyt's grocery store at Gladstone. Godfrey Holenbury who was implicated in the same offence with the Mason boy was too ill to attend court and the case against him was suspended.

John O'Donnell pleaded not guilty to the charge of robbing a companion of \$3.00. The case was not tried however O'Donnell was dismissed with the understanding that he leave town.

O'Donnell has given the authorities here considerable trouble. He will be kept track of by the authorities and if he does not conduct himself properly will probably be brought to Escanaba for trial.

The following cases were continued: The People vs. Mike Shea. For selling liquor to a habitual drunkard.

Sarah J. Barras vs. Madge Corcoran, administratrix. Troyer.

Alexander McPhee vs. Fred Cota Jr. Trespass on the case.

Fredrick W. Finck, trustee in bankruptcy vs. Edward Nelson, Ester Nelson and John Nelson.

Henry Jacque vs. Peter McRae.

Oliver Raymond a farmer of Ford River township was tried in circuit court Tuesday charged with assault with intent to do great bodily harm less than the crime of murder upon John Barnowski a neighbor living in the same township. The trouble between the two men started over a disputed boundary line dividing their farms. Each claimed that the other was trespassing, and their enmity became so bitter that it finally resulted in a battle in which Barnowski was shot in the leg.

Barnowski it is claimed was mowing grass on the disputed ground and when ordered off by Raymond refused to leave. Raymond then fired at him with a revolver three times, the last shot taking effect in the leg. Raymond in his defense said that he shot at his neighbor merely to frighten him and that he never intended to hit him. He says that Barnowski advanced on him with the scythe and he tried to frighten him by firing. The jury brought in a verdict of guilty of assault and battery and the judge, in view of the man's poor circumstances, imposed but a small fine of \$10.00 with costs, in all amounting to \$25.00.

PLAYED TIE GAME

Local High School and Gladstone City Teams Played Pierce Game Saturday.

A tie game was played last Saturday at South Park between the local High School team and the Gladstone City team. Considering the fact that Escanaba had three of its best men, Hessel, Semer and Mead out of the game the showing the Escanaba boys made was a very good one. Gladstone last year played a tie game with Escanaba's championship team and their line-up this season is practically the same although they played Saturday without their regular full back. At first it looked as if Gladstone would score. Receiving the ball shortly after the kick off they rushed it down to within five yards of Escanaba's goal. Here Escanaba held firm for two downs and on the next play got the ball on a fumble and punted out of danger. Gladstone again brought the ball back near Escanaba's goal but Escanaba took a brace and held for downs. At this point Escanaba's green men seemed to have recovered from their attack of stage fright and went to work with a will. Never after the first few minutes of play was Escanaba's goal in danger while it looked several times as though Escanaba would score. Riley and Lowell proved the best ground gainers for the home team while Walsh and Lehr made good gains on end runs.

The game showed the excellent physical condition of the high school boys in sharp contrast to their opponents.

The ball changed hands frequently, both sides punting on a third down. In the second half when Escanaba was within ten yards of Gladstone's goal, Gladstone got the ball on a fumble and punted. The ball went high in the air and assisted by the wind went nearly the entire length of the field.

Unfortunately the weather was very inclement and only a few enthusiasts ventured out to see the game.

SENTENCE SUSPENDED

Lacrosc and Hutchinson Plead Guilty to Simple Larceny.

Joseph Lacrosc and John Hutchinson two lads who were charged with the statutory offence of burglary were brought in court Tuesday morning.

Both boys pleaded guilty to simple larceny and sentence was suspended until the next term of court. Lacrosc had already served 121 days in the county jail and was released. Hutchinson was also allowed to go free, his bail however remaining in force. The deed for which they were arrested was the breaking into of Geo. Preston's boat house and the theft of several articles. Judge Stone took occasion to give the boys some sound advice. He urged them to secure work and make something of themselves. Attorneys A. H. Ryall and C. D. McEwen were appointed by the court to defend the boys.

IMPORTANT CASE

Will Be Tried This Week at Municipality.

The case which will attract the greatest attention at the term of the Alger county circuit court in session this week at Municipality is that of the People vs. James Tyner. Tyner is the man who made the dastardly attempt to murder Prosecuting Attorney Freeman on the evening of the Fourth of July. He will be defended by Attorney Crocker, of Ishpeming. The court will appoint some attorney to prosecute the case. It is said that an effort will be made by the defense to have the case continued until the next term of court in the hope that Tyner will fare better. Tyner has said that he expects to get not more than a ten year sentence.

WANT CRUSHED STONE

Maple Street Property Owners Present Petition to Council.

A petition from all the property owners on Maple street was presented to the council Tuesday evening asking that the material for paving that street be changed from gravel to crushed stone. This petition provoked considerable discussion as the contract has already been let to pave it with gravel. None of the aldermen objected to giving the property owners the kind of street they wanted but they argued that the change from gravel to crushed stone should be made in a legal manner so that all assessments levied could not be disputed.

STREET ACCEPTED

Council Formally Accepts Sarah Street at Last Meeting.

At a special meeting of the council held Tuesday evening Sarah street was formally accepted as complete by the common council. Previous to the meeting the members of the council visited the street and thoroughly looked the work over. No objections were raised and the street was declared accepted and Joseph Fleming, the contractor was paid the 20 per cent of the price of the street which the council had held back until the street was accepted.

MRS. NESS

WINS CASE

Jury Brings Verdict of \$1000 in Her Favor Against the City.

BROUGHT SUIT FOR \$3000

That Amount was Asked Because of Injuries Received From Defective Sidewalk.

The case of Mrs. Christina Ness against the city of Escanaba in which she asked the sum of \$3,000 for injuries received because of a defective walk, came up for trial Tuesday afternoon. The case was the longest one tried this week and occupied the court until 9 o'clock Wednesday night when the jury after being out six hours brought in a verdict in favor of Mrs. Ness for the sum of \$1000.

Mrs. Ness in her declaration says that on the 27th day of April 1904 at about 6:30 p. m., as she was passing along the sidewalk on the west side of Charlotte street between Second and Third streets and immediately in front of premises occupied by Richard R. Genge, she unavoidably stepped with her right foot on a plank or board in said sidewalk and that the weight of her body, tipped the plank down between the stringers and that her foot went down to the ground and she tripped suddenly, partly fell and stumbled forward toward the ground and that she made a strong effort to regain her balance and prevent falling down and in the struggle for self-poise wrenched herself and thereby dislocated her kidneys and also strained the genital organs. That as a result of her injuries she was confined to her bed from April 27th 1904 to May 20th, 1904, and during that time was unable to change her position in bed and frequently vomited blood and was subject to such severe pains in her back and abdomen as to cause frequent fainting. That since the 20th of May 1904, she has been able to move about only with the greatest precaution and every moment still attended with the greatest pains and that such injuries are liable to prove permanent.

The declaration alleged that the injury and disability were caused by a defect in the sidewalk caused by allowing and permitting the stringers in the sidewalk on which the board rested to become old, rotten, split and broken so that they would not hold nails, and by allowing the board or plank to become decayed, split and rotten so that it would not hold nails and that the board had become loose and out of place, and at times torn up and liable to tie up and turn over and that the sidewalk had been in such dangerous condition for the space of three months prior to the injury received by Mrs. Ness.

Mrs. Ness was treated during her illness caused by said injury by Drs. C. H. and H. W. Long who testified in court as to the injuries received by her.

Mrs. Ness was represented by Attorney C. D. McEwen and also associate council attorneys Cumiskey and Yelland, while the city's case was tried by City attorney James Clancy.

W. C. T. U. Notes.

The union will meet at the home of Mrs. J. C. Cox, 304 Campbell street, Monday, Oct. 31. By vote of the society it was decided to change the day of meeting from Monday to Thursday.

A pantry sale will be held at Mead's drug store Saturday Oct. 29.

At the last meeting money was appropriated for the Old Ladies' Home at Grand Rapids, Mich. The different unions throughout the state have been giving assistance to this home.

The prohibition lecture given Monday evening at the Presbyterian church by W. A. Brubaker of Chicago, was very well attended and very much enjoyed by those who listened to him; he is a very forcible and logical speaker and held the attention of his audience throughout. The prohibition cause is slowly but steadily gaining ground throughout the country according to his statistics.

Anyone having cast off clothing to give to the poor will leave the same to the home of Mrs. Robert McCourt, 510 Mary street.

Divorce Granted.

Mrs. Dora Mitchell was granted a divorce in circuit court Tuesday. She testified that she had not seen her husband Samuel Mitchell since 1889 and that she had been forced to support herself and children during the greater part of her married life. She said she had no definite knowledge of her husband's whereabouts.

Christian Science.

Services every Sunday morning at 10:30 and Wednesday at 7:30 p. m. at 606 South Charlotte street. Subject for Sunday: "Adam and Fallen Man". All are cordially invited to these services.

DEATH WAS

UNFORTUNATE

Miss Matilda Jensen Died Monday While Having Teeth Extracted

TOOK CHLOROFORM

Never Revived and all Efforts of Physicians to Restore Her Proved Fruitless.

Miss Matilda Jensen of this city, aged 24, died in the office of Dr. A. S. Winn shortly before noon Monday while having 14 teeth extracted. Chloroform had been administered but after the teeth were pulled the young woman failed to revive. Dr. Winn at once called in Drs. M. P. Feneelon and W. A. Lemire but their efforts to restore the young woman were fruitless.

The death is one of the most unfortunate affairs that have occurred in recent years in this city. Dr. Winn is profoundly sorrowful over the tragedy.

Miss Jensen came to my office accompanied by her mother said Dr. Winn. She was suffering badly from toothache and there were fourteen teeth that had to be pulled. She was given chloroform and I had pulled two lower teeth when I felt her flinch and knew that she was reviving and I gave her a little more chloroform and then pulled twelve upper teeth. She did not revive as she should and I administered a stimulant which however did not have the desired effect and I then sent for physicians. They did everything for her that was possible but the shock was evidently too great and her death could not be helped.

On Tuesday Coroner Henry McFall called a jury to investigate the cause of the girl's death. After an all-afternoon session the jury returned a verdict stating that the cause of death was a shock anasthetia narosis or a combination of both. When called up before the jury Dr. Winn stated that he considered himself competent to administer chloroform and that he had been doing so for the past 20 years.

The funeral of Miss Jensen was held Wednesday afternoon from the Norwegian Danish Lutheran church, Rev. Tollefsen officiating.

ALGER AND DIEKEMA

Spoke to Large Audience Here Last Monday.

General R. A. Alger and Chairman G. K. Diekema of the Republican state central committee addressed a large audience at the Peterson opera house last Monday evening. On account of a troublesome cold Gen. Alger made his address short. His speech was however a strong and convincing one. Mr. Diekema spoke to more length and covered state as well as national affairs.

He proved himself an able speaker and emphasized the strong points of his speech with appropriate stories. Judge Emil Glaser presided at the meeting and introduced the speakers in turn.

WAS GREAT SUCCESS

St. Patrick's Church Fair Came to a Close Wednesday Night.

St. Patrick's church fair came to a close Wednesday night after a most successful season. On the final evening supper was served to fully 800 persons. In the ring contest Miss Lottie McCauley was the winner, with Miss Millie Grenier second and Miss Mary Powers third. Willie Ehnera won the pony with Lester Brotherton second and Kenton Cleary third.

In political contests T. B. White received the most votes for Judge of Probate, Charles Semer for Treasurer, John Tolan for Sheriff, and Frank Stoik for County Clerk.

CONTINUES A SUCCESS

New Vaudeville Theatre Draws Large Crowds.

Benjamin Salinsky's new vaudeville has had good crowds at all of the performances during the past week. The shows have been clean and contain no objectionable features whatever.

Next week there will appear The Osavs, Andrew Roberts, Frank Ellis, and the Germain Bros., all good attractions. There will also be a change of the moving pictures and illustrated songs.

\$7,500,000 IN NEW SHIPS

Nineteen Giant Lake Freighters will Be Built for 1905.

In the past few weeks, orders have been placed with the shipyards of the great lakes for no less than nineteen coarse freight carriers, all of them, with one exception, being of great size, 500 feet or over, sister ships, it might be said in loose employment of the phrase, of the much discussed steamer Wolvin, which has been breaking all the cargo records in the season now drawing to a close. These nineteen ships will cost, it is estimated, \$7,500,000, and their construction, together with other new work, rebuilds, repairs, and miscellaneous activities, will give the fresh water shipyards one of the busiest and most prosperous seasons in their history.

The late order of the Pittsburg Steamship company for four giant steamers, each nine feet longer than the Wolvin, with a combined capacity of 800,000 tons for the season, is the largest single order for new ships ever placed on the great lakes. In this connection it may be stated that the new ships already contracted for will have a combined season's capacity of 3,000,000 tons, or over.

The American shipbuilding company will construct fourteen of the projected giant freighters, including the four steamers to be built for the Pittsburg Steamship company. The Great Lakes Engineering works at Detroit has contracts for four.

Another big ship to be turned out for next year is the sister steamer to the Tonesta, which is to ply on the Anchor line route.

Richard Perow

Richard Perow, the Republican nominee for sheriff, was born in New York state 41 years ago. For the last 25 years he has been a resident of the state of Michigan, having moved from the east when he was 16 years of age. Outside of a year or two spent in Ne-gaunee Mr. Perow has lived in Delta

county since coming to Michigan. For the past two years he has held the position of undersheriff and has become conversant with the duties of the office. He has a large number of friends throughout the county who will tender him their support, and this coupled with the usual Republican majority will undoubtedly secure him the election.

WOMAN MEETS DEATH.

Murder Is Charged to Son of Man With Whom She Is Said to Have Arranged Trust.

Peoria, Ill., Oct. 23.—The death of a prominent woman from injuries alleged to have been received in an encounter last Saturday with the son and daughter of a man with whom she had tried to arrange a clandestine asseting and the arrest of the son on a charge of murder, has created a sensation in this city.

Mrs. Nellie Thomason, wife of a former real-estate dealer in this city, is dead at her home in Lacon.

Richard Higgins, son of John G. Higgins, a member of the board of supervisors of Peoria county and prominent in politics, is under arrest on a state warrant, accused of murder.

Mrs. Thomason's death is said to have been the result of a mysterious affair in the waiting-room of the Rock Island depot, this city. Mrs. Thomason expected to meet John G. Higgins in the waiting-room. Instead she encountered Richard Higgins, aged 26; his sister, Jennie, 27, and his uncle, Douglas McDonald.

The son and daughter learned by accident that the woman expected their father to meet her.

Mr. Higgins was in St. Louis when a letter from Mrs. Thomason was received at the Higgins home. Richard opened it. It is said the family had suspected for a long time that relations existed between Higgins and the woman. Young Higgins determined to make an attempt to prevent a scandal and arranged with his sister and uncle to keep the engagement with Mrs. Thomason.

When Mrs. Thomason arrived in the waiting-room, Saturday morning, she was confronted by the son and daughter of the man to whom she had written.

What took place in the waiting-room is a mystery. Only four persons were present, Mrs. Thomason, Richard and Jennie Higgins, and their uncle.

TRAGEDY AT CHURCH.

Political Row Follows Services and One Man Is Killed—Another Fatally Stabbed.

Huntington, W. Va., Oct. 24.—Within half an hour after the benediction had been pronounced at the close of services in the little church near Mill Creek, on the Big Sandy river, Sunday, one man who had listened to the sermon was dead and another was fatally stabbed. The tragedy was the result of a political argument in which half a dozen members of the congregation engaged after leaving the church. The dead man is William Kennedy, 39 years old, who leaves a wife and family. Henry Wellman, stabbed during the fight, is dying.

The state tax laws are an issue of importance in the pending campaign in West Virginia, and when church was cut a group of men stood near the building and began discussing the question. The argument grew bitter, and in a short time blows were struck. Ralph Wellman, who had taken a leading part in the dispute, is alleged to have drawn a revolver and shot Kennedy, who died in a few minutes. A moment after the shot was fired, Henry Wellman, a relative of the murdered man, received a knife thrust and fell with blood streaming from a wound in his chest. The authorities were notified and Ralph Wellman, Foster Wright and John Shrewsbury were placed under arrest. It is alleged that Shrewsbury is the man who stabbed Henry Wellman. William Kennedy, the dead man, was one of the wealthiest residents of the community, and all those who took part in the fight are well known and respected.

NIP BLACKMAIL PLOT.

Chicago Millionaires Threatened in Letters Inform Police Who Make Capture.

Chicago, Oct. 24.—Millionaires of Chicago recently have been annoyed by a mysterious letter writer asking for fabulous amounts under threats of death, who is at last thought to have been captured. Locked up at the Central police station is Roger McDonald, 22 years of age, and living at 1478 Roscoe street, who is charged with being the author of the letters.

Through a decoy package placed in a hole at the northwest corner of Irving Park boulevard and Leavitt street by Central station detectives, Friday night McDonald was caught. He vigorously denies that he is the author of the letters, but the police compared his handwriting with the letters sent to the prominent Chicagoans and Chief O'Neill announced that it was identical.

Among those who received the mysterious letters were Harlow N. Higginbotham, James S. Kirk and Milton W. Kirk.

New York, Oct. 24.—On board the steamer Slavonia, which arrived Sunday from Trieste, Pugno and Palermo, were 2,063 Austro-Hungarian immigrants.

SQUIBS AND FUNNY-BITS.

"I'm afraid, Johnny," said the Sunday school teacher, rather sadly, "that I shall never meet you in the better land." "Why? What have you been doin' now?"

"Contentment is better than riches," said the philosopher. "Yes," answered Mr. Dustin Stax, complacently. "But I don't see any objection to having both."

"How much does the baby weight?" they asked. "I haven't the slightest idea," said the proud young father. "It has been nearly three hours since we weighed him last."

"Why, Harry, how much you look like your father," remarked a visitor to a four-year-old. "Yes'm," answered Harry, with an air of resignation. "That's what everybody says, but I can't help it."

"My daughter has developed a perfect passion for music," said the woman next door. "Yes," replied Mrs. Snapple. "I'll bet it isn't a circumstance to the passion your daughter's music arouses in my husband."

"Now, my child," said the cannibal mother to the youngest hopeful, "I want you to be on your good behavior and not make a pig of yourself." "What for?" demanded the young savage. "Because we're going to have that new minister for dinner."

"Yes," said the pompous man at the summer resort, "we move in the very best society when we're at home."

"Yes," replied the man with the cold gray eye. "I have some friends in that business, too. Do you use the up-to-date padded vans?"

AMERICAN AGRICULTURE.

The west, with its billion dollar corn crops, its half million dollar wheat crops, its quarter million dollar oat crops, has been the country's bulwark in the storms of inflated finance.

Agriculture this year will add about \$4,000,000,000 dollars to the country's wealth, and foreign customers will pay us not far from \$900,000,000 for our agricultural products, shipped to them over the sea.

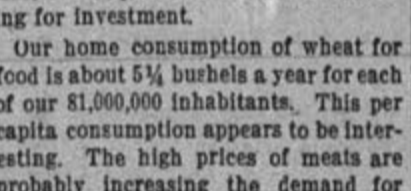

It is the American farmer who has paid off our huge indebtedness to Europe, who has brought back our securities from foreign banks, and who has sent American capital around the world looking for investment.

Our home consumption of wheat for food is about 5 1/2 bushels a year for each of our 81,000,000 inhabitants. This per capita consumption appears to be interesting. The high prices of meats are probably increasing the demand for bread.

A VOICE FROM THE PULPIT.

Rev. Jacob D. Van Doren, of 57 Sixth street, Fond Du Lac, Wis., Presbyterian clergyman, says: "I had attacks of kidney disorders which kept me in the house for days at a time, unable to do anything. What I suffered can hardly be told. Complications set in, the particulars of which I will be pleased to give in a personal interview to any one who requires information. This I can conscientiously say, Doan's Kidney Pills caused a general improvement in my health. They brought great relief by lessening the pain and correcting the action of the kidney secretions."

BLOOD WILL TELL

A THEORY SUPPORTED BY FRESH, CONCLUSIVE EVIDENCE

A Recent Instance Proves That a Woman's Happiness is Largely Dependent on the State of Her Blood.

When the blood is disordered every organ of the body is affected unfavorably and fails to discharge its functions properly. In the case of every woman's nature has made special provision for a periodical purification of the blood and so long as this occurs her health and spirits unflinchingly reveal the beneficial results. So slight a cause as a cold or a nervous shock may produce a suppression of this vital function and until it is restored she is doomed to misery. The remedy that has proved most prompt and effective in all disorders peculiar to the female sex, is that which brought such great relief to Miss Mattie Griggs, of No. 807 Indiana street, Lawrence, Kansas, concerning which she speaks as follows:

"In the winter of 1903, from some unknown cause, there was a cessation of functions peculiar to my sex for a period of four months. I became very weak and could not get up stairs without help. I had nausea and pain and a constant headache. I was under the care of a physician for three months, but he did not succeed in curing me. Then a lady friend told me about the merits of Dr. Williams' Pink Pills which she had used in her family and she induced me to try them. It was in May when I first began to use them and in June I had fully recovered my health, and have since remained perfectly well."

In all cases of delayed development of young girls; in anemia or weakness due to impoverished blood and showing itself in pallor, lack of ambition, despondency and nervousness; also in the great constitutional disturbances attending the period known as the change of life, Dr. Williams' Pink Pills are invaluable for women, whose health is always closely dependent on the state of the blood. They are sold by all drug stores. A booklet of valuable information, relating to the care of a woman's health at all important periods, and entitled "Plain Talks to Women," will be sent free in a sealed envelope to any one who chooses to write for it to the Dr. Williams' Medicine Company, Schenectady, N. Y.

EXCELLENT PLAY THIS EVENING

Miss Clara Thropp Will Play in "A Doll's House."

Escanaba theatre goers have a treat in store for them in the presentation of "A Doll's House" at the Peterson Opera house this evening.

"A Doll's House" is the first work of Henrik Ibsen, the greatest of living playwrights. In these social plays Ibsen stands for the development of the ideal of the individual which in "A Doll's House" is entered upon eight years of lying trickery and frivolity. The plan adopted by him to have the situation around which the story is woven happen before the curtain rises, while the climax consists in the revelation and effect of this act. In each he solves a psychological question, that of this evening being "under these conditions, what would marriage be?"

Miss Thropp as Nora plays the part of the wife who practiced deception, originally to save her husband and after that, because it was easier to lie than to tell the truth. She bows to her husband's every wish, since it is better for the moment to think with him than against him. When the time comes that she needs his broad shoulders which protect them both, he throws her off, thinks of the effect his wife's act will have only upon himself.

With the forged document in his own possession he exclaims "I am saved." It doesn't matter about his wife and children.

His frenzy, is the revelation to the wife of what their married life has been, that during the eight years they have never had one serious conversation, that she has been his doll wife and the children his doll children, that he thought he loved, because it so amused him. From a bewildered helpless doll, Nora rises to the human being who owes her highest and greatest duty to herself. When he has educated himself and she herself, then will they be fit to live together in the holy estate of matrimony, is her parting words, as she leaves him.

Miss Thropp has a genius for character portrayal. She lives the part she plays for the time at least, and her audience lives it with her, enjoying the little successes, and suffering the most poignant woes.

Arthur J. Pickens is a polished actor and he makes the part of Torvald Helmer wonderfully real and human, and at least sufficiently hateful. As Dr. Rank, the quizzical sentimental, courageous, gentlemanly, exemplification of twentieth century knighthood, Charles Tingley does excellently. He is a foil to the intensity of the others. Leon M. Hattenbach is equally good in the much different role of Nels Krogstad, who is a villain by force of circumstance, but remains through it all very much a man, and finally under happier stars, redeems his past.

The after piece "The Truant Spouse" was a clever bit of work, in which Miss Thropp demonstrates that she has voice for song as well as for the drama.

GHOSTS AS INCENDIARIES

Marinette has Haunted House—Story Told Herald Leader.

The following story is told the Herald Leader at Menominee and refers to a Marinette dwelling:

The house in quest of which is a one story affair, consists of three rooms.

Until recently the house was occupied by a widow, who declares she was terrorized nightly by a shadowy form hovering over her bed. The vision appeared each night in a different form and the widow says she was awakened at various times by the rattling of dishes in the cupboard. The widow moved from the house last week owing to the disturbances. The neighbors claim that they have often seen mysterious shadows float around the room.

Another peculiar thing about the house is that in the morning of Oct. 6, the widow was startled to find one of her beds afire. The fire was smothered, but in a few minutes it broke out anew in the cupboard. Again it was smothered, but soon broke out again this time under the sofa. Nearly every day since Oct. 6 fire has broken out at some point in the house. The terrified widow is unable to explain the matter. At one time some clothing hanging on a life in a yard caught fire and was consumed. The origin of the flames is a mystery.

LAFOLLETTE AGAIN UPHELD

Another Opinion Against the Stalwarts Filed at Madison.

Madison, Wis., Oct. 25.—A third opinion came down in the republican factional case in the supreme court yesterday, Judge Winslow filing a long concurring opinion in effect holding the LaFollette ticket regular. Judge Winslow holds the party committee in the state superior to the national committee because recognized and regulated by law, while the national committee is merely a "voluntary" body.

PORTER J. WHITE IN "FAUST"

A Gorgeous Electrical and Mechanical Display.

In brief, the plot is as follows: Faust a learned alchemist, doctor of philosophy, having reached that age when all pleasures that the world contains fails, invokes the aid of spirits to give him new emotions, that life might be worth living. In response to his frenzied appeal, Mephisto appears and agrees to give Faust youth, health and passions, and all the pleasurable enjoyment to be drawn therefrom, upon condition that when the gamut has been run his soul shall belong to Mephisto. Faust is dazzled and held spellbound by a beautiful vision of Marguerite, wrapped in an angelic halo, which fades away as he passionately rushes upon it. He accedes to Mephisto's demand and a compact is drawn between them. The aged and senile philosopher is transformed into a handsome youth, burning with passion and eager with anticipation. From this time forward his one thought is of

MISS OLGA VERNE AS MARGUERITE

Marguerite. Then follow his meetings with her, their mutual love, his betrayal of her confidence, the poisoning of her mother, while seeking only to make her slumber more deeply; the return of Valentine, her soldier brother, whose anguish and rage know no bounds when informed of his blasted home.

He meets Faust in a duel and by the devil's aid is killed. Insidious Mephisto excites the justice-loving neighbors of Marguerite by informing them of the seeming unnatural murder of her mother, and she is carried off to prison.

Faust finds his way into Marguerite's cell partially demented. He proposes to carry her away to escape the dread consequences of her crime, but at this time the gentle spirit goes out and Mephisto claims Faust as his own, who is saved by the intervention of the spirit of repentance and remorse. Ministers throughout the country highly endorse "Faust" as a moral lesson. At Peterson's Opera house Thursday Nov. 3rd.

THE AUDITOR GENERALSHIP.

The office in the state government of the greatest responsibility after that of governor, is the office of auditor general. The business of the auditor's department has increased so in recent years that it requires a force of assistants to carry it on about equal to that of all the other departments of the state government combined. The work is most intricate, and often difficult and responsible; and the volume of the department's financial transactions in a year exceeds a half million of dollars, besides the auditing of all state expenditures. The title to a large percentage of the real property of the state is in its keeping in the course of a single term, and upon the regularity and legality of its proceedings depends a goodly portion of the state's revenue, and the correctness of all of its disbursements. In no position under the state's authority is there demanded an officer of clearer head, of more efficient and thoroughly trained business qualities, of more accurate judgment or faithful character.

In the nomination of Dr. James B. Bradley of Eaton Rapids for the position the republican party has presented to the people of the state a man in whom those requisites are eminently combined. He is a native of Michigan, born in Shiawassee county. He is in the prime and vigor of life, being 46 years old on the 19th of November next. He is a man of education and business training, graduated from Rush Medical College in Chicago eighteen years ago, and long enjoying a large and valuable practice in Eaton county. He is a patriotic citizen and a faithful republican, and has been trusted and honored both in the councils of his party and in official responsibilities by his government and by the people. Chairman of the republican county committee for the last four years, member of the board of county pension examiners two terms, mayor of the city of Eaton Rapids two terms, these are some of the positions he has occupied with credit to himself and advantage to the community; and now, in the larger jurisdiction of the state and the weightier responsibility of the auditor general's office, he will bring a ripper judgment and maturer powers, and the same zeal and faithfulness that his fellow citizens have recognized in him.

The U. P. interscholastic football championship race appears to have narrowed down to three teams, Hancock, Menominee and Escanaba. Ishpeming's defeat at the hands of Menominee was

rather an upset. It didn't fall in with the scheme of things as seen from this part of the peninsula, as Ishpeming has had a habit of getting into the finals. However, this year it appears that Menominee bowled her out decisively and fairly, and is entitled to full credit for a well fought game. Hancock, Escanaba and Menominee all look pretty fast. The U. P. champions should this year keep the lower Michigan players working overtime.—Mining Journal.

After an exhaustive review of the situation in the Hoosier state, Walter Wellman, the staff correspondent of the Record-Herald, says: "With Republican ranks virtually solid, with the Democracy bound to lose a few thousands of the Bryanites, with nothing present in the public mind to lead to an upheaval, and with Indiana a republican state to start with, one does not need to be a seventh son to foresee the result." And he estimates the Republican plurality at somewhere between 15,000 and 30,000.

W. N. Mills of Menominee, republican candidate for the office of state senator from the district, addressed a large audience at Brimley last Saturday night and made votes for himself and other candidates on the ticket.

Mr. Mills is a forcible speaker, as well as a humorous one and besides keeping his audience in a laugh from the beginning to the end of his speech he interested his hearers in his presentation of the issues of the day.—Soo News.

A young woman in Marinette has been awarded \$12,000 by the jury in a recent trial in circuit court. She had sued the M & M Paper Co., for \$20,000 damages alleged to have been sustained by injury while in the performance of her duties in the mill of the defendant company. Her hair got caught in a revolving shaft and it was literally torn out by the roots. The company will take an appeal to the supreme court without doubt.

In the election two years ago Wisconsin cast a total of 366,000. Of these LaFollette received 193,500; Rose, 146,000; Social Democrats, 16,000 and the Prohibitionist, 9,600. Plurality for LaFollette, over Rose, 46,500. The vote cast this year will probably reach 380,000.

The C. and N. W. has decided to build a line from Green Bay to Gillet, in the western part of Oconto county and open up a country that is as yet without railway facilities. There is a large body of timber in that part of the state, which is one of the motives for the extension.

SHOWING THE WAY

This Public Statement of an Escanaba Citizen will be Appreciated.

Many a reader of this in Escanaba has gone through the self same experience in part and will be glad to show the way to get rid of the constant aches and pains of a bad back. Profit by an Escanaba citizen's experience.

Theo. Farrell of 411 Wells avenue engineer on the Northwestern says: "The majority of men who follow me calling suffer from backache, in some cases like myself they are a long time on the road before the symptoms develop. In others the jarring and swinging of the cab brings on attacks much sooner. I watched the action of the kidney secretions and had a special constructed seat made on the engine to counteract its effect. As soon as found that my kidneys were not just right I took some good kidney tonic to correct them. Reading about Doan's Kidney Pills I decided to leave off the remedy I always depended upon and procured a box at Mead's drug store with the intention of giving them a chance to prove that there was something of merit in their composition. The results obtained were all that could be wished. Since I stopped I have had no indication of a return."

For sale by all dealers. Price 5 cents. Foster-Milburn Co. Remember the name Doan's and take no substitute.

ESCANABA AND VICINITY

The Iron Port Reporters' Weekly Grist of Information, Gathered in Their Daily Rounds of the City--General Notes.

While on his way to Escanaba last Saturday to convey Mrs. Hulbert there for medical and surgical aid the gasoline launch of Dr. Bouscine became disabled through the balking of the engine, and after floating helplessly about for several hours a fish tug happened along and towed the crippled craft into Washington Harbor. Mrs. Hulbert, who is the wife of the pastor of the M. E. church, is quite seriously ill with a complication of the stomach, and it was determined to convey her to the mainland that her case might be diagnosed by one or more physicians who were to be called in for consultation. It is indeed a sad case, and the Hulberts have the sympathy of the islanders in their sore troubles.—Sturgeon Bay Advocate.

The suit brought by the Warren Thomas Shoe company against Young & Fillion to collect a bill alleged to have been due for shoes came up in court Thursday morning. The case never reached the jury as Judge Stone after hearing the testimony directed a verdict in favor of the local firm. Young & Fillion offered an offset to the claim of the Warren Shoe Co. which exceeded that claim.

Pianos manufactured by The Cable Company were selected as the official instrument for twenty of the state buildings at the St. Louis Exposition the Michigan building being one of them. Factory branch store 604 Ludington street Ebanaba.

The Cleveland-Cliffs Iron company will bring the title to mineral rights on the Baldwin kiln road, at Negaunee, into court for settlement. The company bought the land from the city some time ago, thinking it also had bought the mineral rights, but the council has a different view and refuses to deed subterranean rights.

N. Johnson, a Marinette butcher, the other day killed a cow which was almost a walking hardware store. Inside her he found 15 nails, two screws and a pitchfork tine. The cow had been apparently in the best of health and was giving good milk until the demands of the meat eaters caused the slaughter.

Lights Not to Burn.

It has been decided by the lighthouse board not to continue the various lights in the vicinity of the Door in Green Bay during the winter months, and they will be extinguished along in December and not be relighted until the opening of navigation next spring.

The stations had been kept open all of last winter for the convenience of the Ann Arbor boats, on condition that these were to call at Pilot and Plum islands occasionally during the inclement season and furnish the keepers with such aid and assistance as was required when passing through the door. Having failed to do as was promised the government has determined to shut down the lights altogether hereafter, as it was a great hardship to the men and their families to be thus isolated and cut off from all intercourse with the outside world for the entire year.

Many Hawks Attracted

Never before in that part of the country, it is declared, have hawks been as numerous as they are at present on Grand Island, off Munising, to which they are attracted by the game birds which make their home there. The birds have been seen in flocks numbering seven or eight. Fully twenty-five hawks have been killed by the gamekeepers on Grand Island and the war of extermination still goes on. A further consignment of twenty-six game birds has been received from Sweden by the Cleveland-Cliffs company, owner of the island. These birds, like those which preceded them, have been turned loose in the game preserve, which is proving an ideal place for them. Another consignment is expected shortly.

FARMER KILLS HIMSELF

Menominee County Farmer Becomes Despondent and Takes His Life.

Henry Ploutz, a farmer living about three and a half miles south of Powers, Menominee county, committed suicide late last week by shooting himself in the head. Shortly before putting an end to his career, he went to a neighbor's house and asked to borrow a rifle, saying he intended to kill a dog. The rifle was loaned him and when the man was a few rods from his house he placed the rifle to his face and shot. The bullet entered below the jaw and escaped through the top of the head, blowing the entire face off. Despondency prompted the deed. Ploutz leaves a wife and five children in poor circumstances.

MISTAKEN FOR DEER

A. A. Day of Naubinway Shot Through Both Legs by Careless Hunter.

A. A. Day of Naubinway was shot through both legs while walking on the Soo Line track between Gilchrist and Naubinway on Wednesday evening of last week, by careless deer hunters. Mr. Day was carrying a picture of President McKinley tied up in white paper and it was this the hunter shot at, the bullet going true to the mark hitting the picture and ploughing through both legs. After the shot, the hunter rushed out of the brush and discovered his terrible mistake. A hand car was sent for and the wounded man taken to Gilchrist and later to the Manistique hospital.

MAY PLAY AT ST. LOUIS

Minnesota and Michigan Foot Ball Teams Invited to Meet There.

President Northrup of the University of Minnesota received a telegram from President Francis of the Louisiana Purchase exposition inviting Minnesota to play Michigan for the western foot ball championship at St. Louis. A similar invitation was sent to President Angell. Minnesota has expressed willingness to play the game but Michigan says it is too far ahead to be able to say anything definitely.

EARTH IS HOLLOW.

STRANGE BELIEF OF FLORIDA

...that we live on inside of globe— Will incorporate New City, Calling It Jerusalem.

The Koreshan Unity, a queer religious sect, who believe that the earth is a hollow globe...

The Koreshan Unity has posted legal notices in the Estero post office that a meeting of the citizens will be held for the purpose of arranging to incorporate a city to contain 12 miles square territory, and erect buildings, etc.

To give ample room for the 10,000,000 of population which they hope to gather there in time...

It is understood that the Koreshan Unity will purchase all the lands of the United Land company embraced in the proposed corporate limits.

The New Jerusalem is to be laid out on a scale which will dwarf into insignificance all plans of present large cities.

There will be great temples, from which broad avenues will radiate in every direction, and the picturesque Estero bay and river will play an important part in the future of the new city.

The owners of the groves of grapefruit and oranges that are now planted on Estero creek will find at their own doors a market to utilize the crops grown, and eventually New Jerusalem is to become the leading seaport of the world.

Dr. Teed, the high priest of the Koreshan unity at Estero, was in Jacksonville, Fla., the other day on business connected with incorporating the new city. In addition Dr. Teed has just purchased the fine tourist hotel on St. James' island, in Charlotte harbor, and his plan is to make this a huge Chautauqua university, with hotel accommodations at popular prices for thousands of guests.

At Estero there is already a large ship-building plant, which is very prosperous; a factory for the manufacture of shays and other manufacturing concerns which employ a great number of men.

The new colony is to run on the cooperative plan. Each member is given a certain piece of work to do, and he is paid out of the treasury of the colony. No member is to own more than the other.

KEPT HOUSE IN PIANO BOX

Wife of San Francisco Man Had to Live in Queer Domicile and Look After 250 Chickens.

An interesting decree of divorce has been granted to Mrs. Stella Butler, wife of Paul J. Butler, of San Francisco.

She is the daughter of F. Anrys, and her husband, after he had purchased several lots in the sand dunes last year, conceived the idea of constructing a residence of piano boxes furnished by his father-in-law.

The little woman also made other accusations to support her charges of cruelty, which were corroborated by her sister, Miss Pearl Anrys.

JURY GIVES BALL OPINION.

Pennsylvania Body Says Player May Suppress Interferer and Acquits Defendant.

A Luzerne county, Pa., jury has established a novel precedent in baseball decisions. It found that a man who is interfered with when it comes his turn to bat may use the bat to violently suppress the man who interferes.

George Glomb was acquitted of the charge of striking John Broiley on the head with a bat. The evidence showed that Glomb, whose team was playing the John Mitchell club, came to bat at a time when the score was close and men were on bases.

Broiley, who is a strong hitter, wanted to bat in Glomb's place, and in the dispute which ensued, tried to push him away from the plate, whereupon Glomb struck him upon the head with the bat. The defense contended that it was a baseball dispute, and that Glomb was in the right in trying to bat. The jury promptly acquitted him.

WED ON CAPITAL OF \$4,000

New York Salvation Army Publishes List of Matrimonial Necessities—Small Sum Needed.

The New York Salvation Army has undertaken to come to the rescue of every sighing swain and blushing lass whose joint income or possessions reach just 12 cents under the five-dollar limit.

How to wed and be comfortable on an outlay of \$4,000 is set forth in the following table:

FOR THE BRIDE		FOR THE GROOM	
Gown	20	Derby hat	10
Shoes	10	Shoes	10
Underwear	10	Underwear	10
Shoes	10	Shoes	10
Lingerie, etc.	10	Suit	50
Total	50	Total	90

This list of prices was issued recently. Heretofore, while the army has held out inducements to impoverished sweethearts to wed, it has not specified just what the cost would be.

In addition to clothing and furnishing the home for the young couples, the Salvation Army will see that the ceremony will be performed free.

The couple can go to the army's annex in West Thirty-ninth street and choose their furniture. The purchase price of three dollars does not include grand pianos or like luxuries, but the furniture is substantial and as bright and clean as fresh paint and varnish can make it.

TRAVELS BY RAIL IN AUTO

Enthusiast Completes 2,000 Mile Trip in Flanged Wheel Machine on Railroad Tracks.

Automobilists are deeply interested in learning of the completion of the 2,000 mile trip of Charles J. Glidden of Boston over the railroad tracks of the Soo and Canadian Pacific from Minneapolis to Vancouver.

The trip was made in a 24-horsepower automobile, with steel flanged wheels substituted for the ordinary rubber tires. At times a speed of 60 miles an hour over long distances was maintained.

With a clear right of way Mr. Glidden says he could have made an average speed of 60 miles an hour for the entire trip. An increase of 15 miles an hour over the speed of the machine on an ordinary macadam road was shown in this trip.

W. E. Scarritt, president of the American Automobile association, fails to agree with any of the conclusions of Mr. Glidden. He said:

"Automobile traveling on rails with steel-flanged wheels will never be anything more than a fad.

"Instead of a steel-flanged car traveling on rails, there has been suggested the plan of steel plates, flanged, laid over the ordinary roadbeds. The only difference between this plan and that of Mr. Glidden is that in one case the wheels of the car are flanged and restricted to railroad, while in the other case the roadbed is flanged and made a better road for all classes of vehicles. The automobile, with its rubber tired wheels, can run over it at a higher speed than can be attained in such a car as described by Mr. Glidden."

LONDONERS WEARING RAGS

Hard Times in British Capital Said to Be Source of Flood of Repair Orders.

A great deal has been said and written of late about hard times and the tightness of money in London. During a recent week official returns have shown a falling off in the consumption of expensive French wines and brandies and this has been attributed to a lack of ready cash among classes which hitherto indulged in such luxuries.

"In all my long experience," said a fashionable tailor, "I never have known such pressure in the repair and renovation line. Society is short of money. Ordinary business is slack, but we are inundated with repair orders. Coats are sent to be relined, resilked, cleaned, and pressed. Trousers have to be turned inside out and sometimes resewed. I am referring to some of my best customers, who a few years ago would never have entertained such an idea. Often enough clothes are quite past repair, and we are obliged to point this out to clients. Formerly in such cases the order was to send them to the church army. Now my customers ask me to send them back. What they do with them is a mystery."

Largest Diamond.

Unfortunately, the largest diamond in the world is not of the crystalline sort used as a gem. If it were its value would be fabulous, for it is 17 times larger than the famous Victoria diamond, the largest of modern finds, which was sold for \$1,500,000.

Its value depends upon the use to which it can be put when broken up, for it is of the amorphous kind, known technically as carbon.

Remarkable Music.

The largest and most complete automatic musical instrument in the world, an orchestron which combines all the instruments of an orchestra, with a compass from the deepest note of the contrabass to the highest note of the piccolo, is exhibited in the German section of the Palace of Liberal Arts in the world's fair.

NOTE.—The following article has been widely published and is one of the most remarkable illustrations of the value of careful marshaling and analysis of facts in presenting a subject to the public.

LEVELERS

The Mission of Whiskey, Tobacco and Coffee.

The Creator made all things, we believe.

If so, He must have made these. We know what He made food and water for, and air and sunshine, but why Whiskey, Tobacco and Coffee?

They are here sure enough and each performing its work.

There must be some great plan behind it all; the thoughtful man seeks to understand something of that plan and thereby to judge these articles for their true worth.

Let us not say "bad" or "good" without taking testimony.

There are times and conditions when it certainly seems to the casual observer that these stimulant narcotics are real blessings.

Right there is the ambush that conceals a "killing" enemy.

One can slip into the habit of either whiskey, tobacco or coffee easy enough, but to "untangle" is often a fearful struggle.

It seems plain that there are circumstances when the narcotic effect of these poisons is for the moment beneficial, but the fearful argument against them is that seldom ever does one find a steady user of either whiskey, coffee or tobacco free from disease of some kind.

Certainly powerful elements in their effect on the human race.

It is a matter of daily history testified to by literally millions of people that Whiskey, Tobacco and Coffee are smiling, promising, beguiling friends on the start, but always false as hell itself in the end. Once they get firm hold enough to show their strength, they insist upon governing and drive the victim steadily towards ill health in some form; if permitted to continue to rule, they will not let up until physical and mental ruin sets in.

A man under that spell (and "under the spell" is correct) of any one of these drugs frequently assures himself and his friends: "Why, I can leave off any time I want to. I did quit for a week just to show I could." It is a sure mark of the slave when one gets to that stage. He wiggled through a week fighting every day to break the spell, was finally whipped and began his slavery all over again.

The slave (Coffee slave as well as Tobacco and Whiskey) daily reviews his condition, sees perfectly plain the steady encroachments of disease, how the nerves get weaker day by day and demand the drug that seems to smile and offer relief for a few minutes and then leave the diseased condition plainer to view than ever and growing worse. Many times the Coffee slave realizes that he is between two fires. He feels bad if he leaves off and a little worse if he drinks and allows the effect to wear off.

So it goes on from day to day. Every night the struggling victim promises himself that he will break the habit and next day when he feels a little bad (as he is quite sure to) breaks, not the habit, but his own resolution. It is nearly always a tough fight, with disaster ahead rare if the habit wins.

There have been hundreds of thousands of people driven to their graves through disease brought on by coffee drinking alone, and it is quite certain that more human misery is caused by coffee and tobacco than by whiskey, for the two first are more widely used, and more hidden and insidious in the effect on nerves, heart and other vital organs, and are thus unsuspected until much of the dangerous work is done.

Now, Reader, what is your opinion as to the real use the Creator has for these things? Take a look at the question from this point of view.

There is a law of Nature and of Nature's God that things slowly evolve from lower planes to higher, a sturdy, steady and dignified advance toward more perfect things in both the Physical and Spiritual world. The ponderous tread of evolutionary development is fixed by the Infinite and will not be quickened out of natural law by any man's methods.

Therefore we see many illustrations showing how nature checks too rapid advance. Illinois raises phenomenal crops of corn for two or three years. If she continued to do so every year her farmers would advance in wealth far beyond those of other sections or countries. So Nature interposes a bar every three or four years and brings on a "bad year."

Here we see the leveling influence at work.

A man is prosperous in his business for a number of years and grows rich. Then Nature sets the "leveling influence" at work on him. Some of his investments lose, he becomes luxurious and lazy. Perhaps it is whiskey, tobacco, coffee, women, gambling, or some other form. The intent and purpose is to level him. Keep him from evolving too far ahead of the masses.

A nation becomes prosperous and great like ancient Rome. If leveling influence set in she would dominate the world for all time. But Dame Nature sets her army of "levelers" at work. Luxury, over-eating and drinking, licentiousness, waste and extravagance, indulgences of all kinds, then comes the wreck. Sure, Sure, Sure.

So the Creator has use for Whiskey, Tobacco and Coffee to level down the successful ones and those who show signs of being successful, and keep them back in the race, so that the great "field" (the masses) may not be left too far behind.

And yet we must admit that same all-wise Creator has placed it in the power of man to stand upright, clothed in the armor of a clean cut steady mind and say unto himself, "I decline to exchange my birthright for a mess of pottage."

"I will not deaden my senses, weaken my grip on affairs and keep myself cheap, common and behind in fortune and fame by drugging with whiskey, tobacco or coffee, life is too short. It is hard enough to win the good things, without any sort of handicap, so a man is certainly a 'fool trader' when he trades strength, health, money, and the good things that come with power, for the half-asleep condition of the 'drugg' with the certainty of sickness and disease ahead."

It is a matter each individual must decide for himself. He can be a leader and semi-god if he will, or he can go along through life a drugged clown, a cheap "hewer of wood or carrier of water."

Certain it is that while the Great Father of us all does not seem to "mind" if some of his children are foolish and stupid, he seems to select others (perhaps those he intends for some special work) and allows them to be threshed and castigated most fearfully by these "levelers."

If a man tries flirting with these levelers awhile, and gets a few slaps as a hint, he had better take the hint or a good solid blow will follow.

When a man tries to live upright, clean, thrifty, sober, and undrugged, manifesting as near as he knows what the Creator intends he should, happiness, health and peace seem to come to him. Does it pay?

This article was written to set people thinking, to rouse the "God within" for every highly organized man and woman has times when they feel a something calling from within, for them to press to the front and "be about the Father's business," don't mistake it; the spark of the Infinite is there and it pays in every way, health, happiness, peace, and even worldly prosperity, to break off the habits and strip clean for the work cut out for us.

It has been the business of the writer to provide a practical and easy way for people to break away from the coffee habit and be assured of a return to health and all of the good things that brings, provided the abuse has not gone too far, and even then the cases where the body has been rebuilt on a basis of strength and health run into the thousands.

It is an easy and comfortable step to stop coffee instantly by having well-made Postum Food Coffee served rich and hot with good cream, for the color and flavor is there, but none of the caffeine or other nerve-destroying elements of ordinary coffee.

On the contrary the most powerful rebuilding elements furnished by Nature are in Postum and they quickly set about repairing the damage. Seldom is it more than 2 days after the change is made before the old stomach or bowel troubles or complaints of kidneys, heart, head or nerves show unmistakable evidence of getting better and ten days time changes things wonderfully.

Literally millions of brain-working Americans today use Postum, having found the value and common sense in the change.

TALKS WITHOUT TONGUE.

Robbed of Organ by Surgical Operation, New Jersey Man Articulates Better Than Before.

Tongueless, yet able to talk better than when in possession of his organ of speech—that is the remarkable condition of William Bunling, a wealthy bachelor of Elmer, N. J., who received treatment recently in Philadelphia.

Mr. Bunling came to the Hahnemann hospital to have his throat treated for what he believed to be inflammation, caused by a severe cold. Upon investigation the doctors found the disease to be much more serious than the patient had suspected, and that in order to save his life his tongue must be removed. It was swollen to twice its normal size, so that Mr. Bunling was unable to articulate plainly.

After the operation the first words the patient spoke, "Is it all over?" were the plainest he had spoken since his trouble began, several years ago. Those in attendance were able to understand everything he said.

Wrong Department.

A prominent physician tells this story at the expense of the modern craze for specialization in the medical profession. A poor woman went to a dispensary to ask for aid for her little son, who had had one of his fingers smashed. At the first room where she applied she was told by a curt attendant that the boy could not be treated there.

"Wrong place," he explained, "this is the eye and ear department." "Very dear thumb and finger department!" inquired the woman, simply.—Tit-Bits.

Where the Sin Lay.

A rather plain lady asked the opinion of her minister: "Is it a sin to feel a trifle of vanity when I am called handsome by a gentleman?" "Not a sin for you, my child, but a terrible responsibility hangs upon the gentleman."—Tit-Bits.

BAD WEATHER BRINGS REST

EXHAUSTED ARMIES IN FAR EAST UNABLE TO FIGHT.

Call Caused by Rains and Impassable Roads—Losses Are Enormous.

St. Petersburg, Oct. 21.—Apart from skirmishes and exploits of scouting parties, there is almost a complete suspension of operations in Manchuria. The heavens have interposed to put a stop to bloodshed. Rain, impassable roads and exhausted armies are factors sufficient in themselves to explain the cessation of hostilities, and these conditions are aggravated by a dense fog overspreading the whole of the theater of war. Behind this pall either side would be able to change the disposition of whole forces in absolute secrecy, but the obscurity renders absolutely dangerous any attempt at a forward movement. When the curtain of mist is lifted the fighting may be resumed under totally changed conditions.

Mukden, Oct. 25. (via Peking).—The Russian forces on the left again crossed the Shalke river on October 21 and are now pushing forward towards the Japanese positions, entrenching as they advance. At the same time, Russian batteries are continually bombarding the Japanese, who can be plainly seen busily engaged in the making of trenches. This plan of the Russians to entrench as they advance was adopted because it was found in the recent big battle that it was impossible to advance without some protection in the face of the Japanese shrapnel fire. The Russian batteries are now better screened than they were in former engagements, but the troops on both sides apparently make no great efforts to conceal themselves.

The Russian and Japanese armies are now separated by less than four miles and the whole field of operations of both armies can be plainly seen.

The question of fuel is becoming a serious one. The greater part of the Chinese corn has already been used for fuel and for fodder, while most of the houses in the Chinese villages have been destroyed and their wood used for fuel. Without fuel and without shelter beyond that provided by tents, it seems impossible for the armies to remain in the field during the increasing cold weather.

St. Petersburg, Oct. 25.—Emperor Nicholas has received the following dispatch from Gen. Kuropatkin, dated October 23:

"The night of October 22-23 passed quietly. At nine o'clock this (Sunday) morning the whole of our volunteer sharpshooters harassed the enemy, while the Japanese tried to attack our outposts, but were everywhere repulsed by the Russian fire."

St. Petersburg, Oct. 25.—There is no news of immediate importance from the far east. The indications are that both sides are heavily entrenching, though it is believed that Gen. Kuropatkin will be ready for a forward move at an early moment unless heavy Japanese reinforcements compel him to remain on the defensive. Reports that Japanese reinforcements are arriving, taken in connection with the enforced inactivity of the Russian forces on account of the weather, are felt to be a grave factor in the situation. There is reason to believe that the Japanese are drawing heavily upon the Port Arthur army as well as on Japan, in hopes of securing a numerical superiority that will enable Field Marshal Oyama to inflict a crushing blow upon Gen. Kuropatkin when hostilities are resumed.

Tokio, Oct. 24.—Manchurian headquarters, reporting by telegraph, says that the number of Russian dead found on the battlefield and interred up to October 22 makes a total of 10,550. Upon this total Russian casualties are estimated to exceed 60,000. The Japanese captured a total of 45 guns during the Shalke operations.

A DESPERATE BATTLE.

St. Louis Detectives and Suspected Robbers Fight—Three Killed and Three Wounded.

St. Louis, Oct. 22.—Two city detectives are dead, and another is not expected to live, while one train robber suspect is at the morgue and two others are in the city hospital, one probably fatally wounded and the other badly beaten up, as the result of a desperate battle Friday between five officers and three men whom they tried to arrest.

The dead are: John J. Shea, detective; Thomas Dwyer, detective; Al Rose, suspect.

The wounded are: James McCluskey, detective, shot through the stomach; critical; C. C. Blair, suspect, shot four times through the body; Harry H. Vaughn, suspect, badly beaten about the head by detectives when he sought to aid his friends in the battle.

Two Big Fires in One Day.

St. Louis, Oct. 25.—A second large fire in 12 hours broke out in Brown's block at midnight, and at 3 a. m. the whole block was in flames. The loss will be \$200,000. A fire Monday noon destroyed a dozen buildings with a loss of \$75,000. This place will suffer severely.

Damage by Earthquake.

London, Oct. 24.—Dispatches received here from various points report a rather severe earthquake and much damage to property throughout Scandinavia and Denmark about 11:30 o'clock Sunday morning. Thus far, however, no fatalities have been reported.

Fire in Chicago.

Chicago, Oct. 24.—Marshal Campion fought his first big fire as head of the Chicago department Saturday night, the blaze being in the wholesale grocery house of Durand & Kasper and causing a damage of \$200,000.

VEST HAD SOME DOUBTS.

Thought the Legislature Might Repeal All the Smart Young Man Know.

Senator Cockrell tells of the case of a young man who once appeared before the commission appointed in Missouri to examine applicants for admission to the bar of that state. It appears, says the New York Herald, that this youthful applicant, who had failed miserably in all that pertained to jurisprudence, civil law, case law, summary law and due process of law, was finally asked by Mr. Vest, for a long time senator from Missouri, whether there remained any questions which the young man would like to have put to him.

"I regret to say," remarked Mr. Vest, "that you have failed to come up to the mark in the branches of law upon which we have examined you. But," added Mr. Vest, in a most kindly spirit, "we will question you further, if you so desire."

"Well, sir," responded the applicant, "I would suggest, if you please, that I be questioned on the statutes."

At this Mr. Vest smiled sadly. "My dear young man," added he, "I do not doubt that you're up on the statutes; but I do doubt that you will succeed in the law. Suppose you should have the utmost familiarity with the statutes, what's to prevent the legislature from repealing all you know?"

Business Announcement.

Among the oddities in the smoke room of Clyde Fitch's country house at Northbrook there is a notice of the dissolution of a partnership between two colored barbers.

The notice, three feet square, is written in red ink on yellow paper. It occupies a corner between two crossed canoe paddles, and it reads:

"The Dissolution of co-partnership heretofore existing between Me and moze Jones in de barber profession an heretofore dissolved, pussions Who O must pay to de subscriber. Dem what de firm O must call on Jones, as de firm is insolved."—N. Y. Sun.

Six Doctors Failed.

South Bend, Ind., Oct. 24. (Special).—After suffering from Kidney Disease for three years; after taking treatment from six different doctors without getting relief, Mr. J. O. Laudeman, of this place, found not only relief but a speedy and complete cure in Dadd's Kidney Pills.

Speaking of his cure, Mr. Laudeman says: "Yes, I suffered from Kidney Trouble for three years and tried six doctors to no good. Then I took just two boxes of Dadd's Kidney Pills and they not only cured my kidneys, but gave me better health in general. Of course I recommended Dadd's Kidney Pills to others and I know a number now who are using them with good results."

Mr. Laudeman's case is not an exception. Thousands give similar experiences. For there never yet was a case of Kidney Trouble from Backache to Bright's Disease that Dadd's Kidney Pills could not cure. They are the only remedy that ever cured Bright's Disease.

Occasionally men are candidates for office because they can't help it, but usually it's because the people can't help it.—Chicago Daily News.

Piso's Cure cannot be too highly spoken of as a cough cure.—J. W. O'Brien, 322 Third Ave., N., Minneapolis, Minn., Jan. 6, 1907.

Man cannot lift himself by his bootstraps, but many a man has pulled himself up with a corkscREW.

Miss Nettie Blackmore, Minneapolis, tells how any young woman may be permanently cured of monthly pains by taking Lydia E. Pinkham's Vegetable Compound.

"YOUNG WOMEN:—I had frequent headaches of a severe nature, dark spots before my eyes, and at my menstrual periods I suffered untold agony. A member of the lodge advised me to try Lydia E. Pinkham's Vegetable Compound, but I only scorned good advice and felt that my case was hopeless, but she kept at me until I bought a bottle and started taking it. I soon had the best reason in the world to change my opinion of the medicine, as each day my health improved, and finally I was entirely without pain at my menstruation periods. I am most grateful."—NETTIE BLACKMORE, 28 Central Ave., Minneapolis, Minn.

Painful Periods

are quickly and permanently overcome by Lydia E. Pinkham's Vegetable Compound. The above letter is only one of hundreds of thousands which prove this statement to be a fact. Menstruation is a severe strain on a woman's vitality, if it is painful something is wrong. Don't take narcotics to deaden the pain, but remove the cause—perhaps it is caused by irregularity or womb displacements, or the development of a tumor. Whatever it is, Lydia E. Pinkham's Vegetable Compound is guaranteed to cure it.

If there is anything about your case about which you would like special advice, write freely to Mrs. Pinkham. She will treat your letter as strictly confidential. She can surely help you, for no person in America can speak from a wider experience in treating female ills. She has helped hundreds of thousands of women back to health. Her address is Lynn, Mass., and her advice is free. You are very foolish if you do not accept her kind invitation.

Details of Another Case.

"DEAR MRS. PINKHAM:—Ignorance and carelessness is the cause of most of the sufferings of women. I believe that if we properly understood the laws of health we would all be well, but if the sick women only knew the truth about Lydia E. Pinkham's Vegetable Compound, they would be saved much suffering and would soon be cured.

"I used it for five months for a local difficulty which had troubled me for years, and for which I had spent hundreds of dollars in the vain endeavor to rectify. My life forces were being sapped, and I was daily losing my vitality.

"Lydia E. Pinkham's Vegetable Compound cured me completely, and I am most grateful, and am most pleased to endorse such a great remedy."—MISS JENNIE L. EDWARDS, 604 H St., N. W., Washington, D. C.

Mrs. Pinkham, whose address is Lynn, Mass., will answer cheerfully and without cost all letters addressed to her by sick women.

CARIBOU FOR GRAND ISLAND

A. O. Jopling Has Gone East to Get Herd of Five Head.

A. O. Jopling, the forester for the Cleveland-Cliffs Iron company, who has had general direction of the company's operations on Grand Island for the past few years, has departed for Montreal, to meet a shipment of a herd of caribou destined for that beautiful resort.

There will be five caribou in the herd and they will be turned loose with the other animals to wander at will within the limits of the island. The resort is rapidly being made one of the finest game preserves in the country, and it is the intention of the Cleveland-Cliffs Iron company to supply it with all the game, animals, birds and fish that live in climates similar to that of this region. Recent additions to the animal life at the island have included several shipments of Swedish game birds. Since the Cleveland-Cliffs company purchased the island a few years ago hardly a month has passed without some new game being introduced. All the animals run at large. The time is rapidly coming when no trip to the north country will be considered complete without a visit to Grand Island, to see the profusion of animal life in wild state.

Cornerstone Relics Examined.

The old cornerstone of the Chippewa county court house, set in place when the foundations of the building were laid during the summer of 1877, was removed and opened by County Clerk John E. Parsille this week. The removal of the stone was rendered necessary by the reconstruction work now in progress. The box is made of block-lead and was supposed to be dust and damp proof. That it is not wholly so was proven when the cover was lifted and it was seen that its contents had become water-soaked and frayed about the edges. The box contained copies of several newspapers, including one of The Mining Journal giving a write-up of the Soo and the new court house.

It also contained specimens of "wild cat" paper money, including a \$10 bill issued by the Bank of Chippewa, and numerous small coins of current dates.

Photographs of veterans of the Civil war were also found, but those were so faded as to be indistinguishable. A lengthy document giving the history of the county and the building of the court house was signed by Andrew Jackson, chairman of the board of supervisors; Oren B. Lyon, county clerk; John Scott, supervising architect. The box also contained a blank bond for \$500 such as was issued by the county at the time for the purpose of defraying the cost of building the court house.

More Light for the Soo.

Changes under way in the plant of the Edison Soo Electric company have been completed and as a result the people of the Soo are assured a service in the way of lighting far better than has been possible before. The new dynamo is a 450 kilowatt machine of 2,300 or 4,000 volts as desired. The three-phase or four-wire system is now in operation. The big machine has direct connection by a six-inch shaft belted to engines and water wheels. Under the new system it will be possible to shut down any set of wheels without stopping the others. Besides the big new dynamo the company has a 150 kilowatt machine of the single phase design. This machine will be used for Sunday work or whenever needed. A 100 kilowatt single phase machine will take care of the arc light circuit exclusively. A direct current of 500 volts will also be available for motors, elevators and similar work. The machines have been set up on foundations of concrete and are solid, with minimum of vibration.

Blue Laws for U. P. Town.

The mayor of a certain upper peninsula town has declared the Gospel in these words: "There will be no slot machines, no roulette wheels, no 'big mit' men, in town; there will be no saloons open on Sunday or after 11:30 at night; no minors drinking or smoking cigarettes while I am mayor of the place. Let's up our three months' record: One carload of slot machines shipped out of town, five arrests for selling liquor to minors and it is now costing the city \$100 per month to board drunken stiff. Now 'live up to the law and be friends,' is my motto. If I were to be elected president, every man in this town would obey these laws until I left Washington."—Munising Republican.

ROBBED \$00 LINE

Cashier of Soo Depot at Manistique a Defaulter.

Irving P. Leahy, cashier at the Soo Depot at Manistique left that place suddenly last week and a shortage of from \$800 to \$1000 has been discovered in his accounts. Leahy made out a ticket for Milwaukee for himself just before he left.

Fish Hatchery Robbed

Last week it was learned that fish had been stolen from the pond in the government park and also hatchery at the Soo. Some valuable specimens have been taken. There is an investigation now going on under the direction of Game Warden Chas. Chapman and it is said that some of the leading business men are implicated in the affair. 200 of the large rainbow trout are said to be missing.

MILLION CARS OF ORE.

Tremendous Output of Lake Superior Mines for 1904.

At the rate the mines have been shipping their product during the past month, the amount of ore forwarded from the Lake Superior region this season will reach if it does not exceed 20,000,000 tons. This will be a decrease of 4,000,000 tons from last year's total and will be about 8,000,000 tons less than the record-breaking figures recorded in 1902, but it will be materially greater than estimates made two or three months ago.

Considering the output of the last two seasons there is a tendency to belittle the magnitude of the present year's output, still 50,000,000 tons constitute an enormous amount. It would load a fleet of 2,000-ton freighters, which connected with the usual towline of 500 feet, would stretch from New York half way to Liverpool. Loaded into the old-style ore cars of 20 tons capacity, it would fill a train of a million cars. Such a train, running 20 miles an hour day and night, would take two weeks to pass a given point. It would fill a double-track railroad from Boston to San Francisco. Made in steel rails weighing 60 pounds to the yard, the ore would lay a four-track railroad around the globe at the equator. It means a production of over 2,500 tons per hour for every working day of the year; and it would load a 20-ton car of ore every 30 seconds of the day and night for every day of the year.

Statistics of Piano Factories.

Over 25,000 wage earners are directly employed by piano factories and concerns (263 in number) in the United States. Census report table number eleven, at Washington, given a record of but one piano establishment in the United States that furnishes employment to over 1,000 persons. The Cable company of Chicago has 1,800 employees on the pay roll. They are doubtless today the greatest manufacturers of pianos and organs in the world, controlling large factories in Chicago and St. Charles, Ill., and Boston, Mass. Leslie's Weekly, May 26th, 1904.

The Cable Piano Co. have opened a factory branch store at 604 Ludington street, Escanaba.

Moose Coming In.

Northern Michigan will in time become as good hunting ground for moose as Canada, reports coming in nearly every week of their being seen in this vicinity, says the Soo Times. A few days ago while at the Neebish John F. Moloney saw three as fine specimens as could be imagined, one old fellow with large spreading horns seeming to be the boss of the herd. Several have lately been seen on Sugar island and at Little Rapids.

Ben's Theatre.

Matinee and evening performances seven days in the week. On Saturday and Wednesday matinee, five cents for children.

KING LIKES HIS INCOGNITO

George of Greece Enjoys Himself When Visiting Paris—Walks Streets Unattended.

No king is more democratic than George of Greece, when he visits Paris. Lately he put up at the Hotel Bristol and insisted that his incognito must be respected. Unattended, he strolled on the great boulevards, seated himself at the restaurant that pleased him and studied the passing crowd with the most amused interest.

A young army officer is telling gleefully that one night he halted King George and asked him for a light for his cigar. Then, recognizing the king, the officer uncovered and bowed. His majesty was not pleased that he was known, but he only said mildly: "Be quick, if you please. I am rather hurried."

Again the king sought to unveil the future by dropping a coin in one of the fortune-telling machines which one sees everywhere in Paris. The card he drew read:

"You will succeed very soon in all your undertakings." His majesty departed smiling as happily as if he had his foot on the sultan's throat.

A Thorough Believer.

The Chicago Daily News remarks that the theory that school life is a cause of nervousness looks thoroughly sound to little Johnny.

HANG JAP WOMAN FOR SPY

Russian Cavalry Officer Tells Pathetic Tale of Female Patriot Who Met Death.

A pathetic story is published in Moscow with the annotation that it was told in the military hospital by a wounded Russian cavalry officer.

"It was during our rapid and unfortunate retreat from Telissu. Two of our Cossacks, pushing forward a dwarf, marched up to Col. Riabinin with the words, 'Your honor, this is a Japanese.'"

"As we had no time for formalities, the dwarf was tried on the spot. There were no papers of value upon him, but those he had proved unmistakably that he was a spy. He was sentenced to be hanged.

"All the time the little fellow, with a contemptuous look upon his face, kept chattering in good Russian, 'I don't deny it; do what you like!' 'At any rate, they can meet death,' commented Riabinin.

"At four o'clock he was strung up, and, when the poor wretch's body fell from the cart, a little silver chain jerked from underneath his tunic and glistened a moment in the sun.

"An hour later we were sitting together pouring vodka into our tea pannikins, when in rushed one of the spy's captors. 'Your honor,' he shouted, 'it's a woman! We were taking this.' And he put in my hand the silver chain with a pendant locket containing the portrait of an unmistakable European in Russian officer's uniform.

"'Good God, what a race of people!' said Col. Riabinin. A terrible silence fell upon us all."

DIES FROM X-RAY BURNS.

Chief Assistant of Thomas A. Edison Passes Away a Martyr to Modern Science.

Clarence M. Dally, an electrical engineer, formerly of Chicago, is dead at East Orange, N. J., a martyr to science. His illness was due to experimental work in connection with Roentgen rays. He suffered for years and underwent seven operations, which finally culminated in the amputation of both his arms.

During his experimental work with the X-ray Mr. Dally was Thomas A. Edison's chief assistant. He worked at the laboratory in West Orange night and day. In his work with the fluoroscope his hands were badly burned by the rays. Six months after the first indications of burning appeared the hands began to swell and Mr. Dally suffered great pain for two years, when he went to Chicago and obtained a position with an incandescent lamp company.

Cancer finally developed on the left wrist, and he went east for treatment. More than 150 pieces of skin, taken from his legs, were grafted onto his hands without success. Seven amputations robbed him of fingers, hands and arms.

During the seven years he had been unable to care for himself. All the time before his arms were amputated he was obliged to rest his hands in water during the night to allay the burning sensation.

COMPLETING MINING FEAT.

Solution of Great Problem in Hydraulic Engineering Draws to a Close.

One of the most interesting engineering feats on the Pacific slope is approaching completion by the Golden Drift Mining company. A pressure dam containing more than 3,000,000 feet of lumber and thousands of tons of rocks is not of itself a novelty, but the purpose of the power obtained is significant. It solves a problem of great value to Rogue River valley in Oregon. Sufficient water will be furnished for irrigating 20,000 acres besides washing placer ground of high elevation. Sixteen 400 horse-power turbines are to be installed, of which four are now in. Each four turbines operate in tandem two five-step centrifugal pumps raising 18,000 gallons per minute 430 feet, or 9,000 with pressure equal to an elevation of 830 feet, for mining. Pumps with less steps out of tandem elevate great volumes 70 feet for irrigation.

School in Skyscraper.

Accommodation for nearly twice as many pupils as any other elementary school in the world will be found in a "sky scraper" to be erected within a few months in New York city. It is planned that the new school shall be ten or more stories high and have about 15 class rooms to the floor. The entire building will contain at least 150 classrooms, accommodating between 7,500 and 8,000 children. The building will be absolutely fireproof. Only the desks and doors will be inflammable. If a fire should occur in a room it could be closed up until the flames had died out.

Odd Election Bets.

With the approach of election some funny bets are being made on the presidential result. One man has wagered that if Parker is not elected he will stand on a cake of ice weighing 300 pounds in his bare feet until the ice melts. The Roosevelt man says if his favorite is defeated he will let his hair grow until 1908. According to another bet, if Parker is defeated, the Parker man is to roll a peanut across the Brooklyn bridge. If Roosevelt is beaten his man will have to get shaved on one side of the face only for one month.

Some Consolation.

Alas! that there should be only 177 American families who possess the proper heraldic qualifications for "exalted rank" in the British dominion. But if rank is but the guinea stamp, as Burns says, the dollar stamp on certain American escutcheons will probably continue to pass current at par in titled circles of England.
