## ROTH LEGS PUNCTURED

Walter S. Peters Accidentally Shot  
at the Oliver Hotel Sunday  
Morning.

AND HE WILL RECOVER

Bullet from 38 calibre Revolver Tore  
Ragged Flesh Wounds Through  
Both Legs.

Walter S. Peters, a prominent young  
Oshkosh man, had a narrow escape from  
death at the Oliver hotel last Sunday  
morning, through the accidental dis-  
charge of a 38 caliber revolver.

Mr. Peters, who has been engaged as  
a timber inspector in the Georgian Bay  
district, arrived in Escanaba Saturday  
evening to visit with friends on his way  
home to Oshkosh.

While dressing at the Oliver house  
Sunday morning, placed his heavy 38  
calibre revolver on the dresser and in  
his movements about the room, acci-  
dentally brushed the gun to the floor.

The weapon was of the hammerless  
style, and upon striking the floor it was  
discharged, the bullet entering the calf  
of the left leg, and passed upward strik-  
ing the right leg near the knee, tear-  
ing ugly wounds through both limbs.

The shot attracted a number of em-  
ployees and guests of the hotel, who  
immediately attempted to check the  
flow of blood.

A physician was hastily summoned  
and the unfortunate young man's  
wounds were dressed. Both wounds  
were flesh wounds, and Mr. Peters will  
recover.

The young man left Sunday evening  
for his home, being met at Green Bay  
by his father.

## ENJOYABLE TRIP

Was that taken on Str. Maywood to  
Marinette Sunday.

The crowd of excursionists who took  
advantage of the excursion rates on the  
Steamer Maywood to Marinette last  
Sunday was far below the expectations  
of those in charge of arrangements,  
only about 150 participating. Those,  
however, who did make the trip pro-  
nounced it one of the most enjoyable  
trips that has been arranged on that  
vessel this year.

The boat left the Stephenson dock  
shortly after nine o'clock Sunday morn-  
ing and arrived in Marinette a little  
past noon.

The afternoon was pleasantly spent  
at Northern Chautauqua assembly  
grounds where an excellent program  
was rendered.

The returning boat left Marinette at  
8:30 p. m. and arrived in Escanaba about  
midnight.

## Yeomen Coming Here

The Menominee lodge of yeomen will  
give a big excursion to this port some  
time this month in one of the excursion  
steamers from Menominee. It is prob-  
able that several hundred yeomen with  
their wives will participate in the trip.  
They will be entertained here by the  
Escanaba lodge.

## IRISH-AMERICAN CLUB

Picnic and Celebration of O'Connell  
Day at Maywood Tomorrow

The Irish American Club of Escanaba  
will celebrate O'Connell day tomor-  
row at Maywood and it is expected  
that a large number of pleasure seek-  
ers will be attracted to that popular  
resort.

The Escanaba military band has been  
engaged to furnish the musical pro-  
gram at the picnic grounds and also  
aboard the steamer Maywood.

Athletic contests and games will be  
held on the grounds and the day will be  
well filled with enjoyable events.

## Christian Science

Christian Science services are held  
every Sunday morning at 10:30, and  
Wednesday evening at 7:30 over No-  
vack's jewelry store, 806 Ludington  
street, in the rooms at the rear end of  
hall. Subject for Sunday: "Soul."  
All are cordially invited.

## Sturgeon Bay Tomorrow

The Sturgeon Bay aggregation of ball  
tossers will be here tomorrow and a  
fast game of ball can be expected.

The Bays have not been defeated  
this season and Escanaba will have a  
strong line-up, with "Buck" Nolden in  
the box. The game should attract a  
large crowd of enthusiastic fans.

## FR. EUSEBIUS LEAVES

Transferred to Bonifas church, at  
Louisville, Kentucky

The Rev. Fr. Eusebius, who for five  
years past, has been pastor of St. Jo-  
seph's Catholic church, of this city, has  
been transferred to St. Bonifas's church  
Louisville, Ky.

Rev. Fr. Julius of Calumet will  
assume the pastorate of St. Joseph's  
church.

The announcement of the transfer of  
Fr. Eusebius came as a surprise and  
shock to all his congregation and also  
to a great many people outside the  
Catholic church.

Though but a young man, Fr. Euse-  
bius has, in the few years he has been  
in charge of St. Joseph's pastorate,  
accomplished a great deal for his con-  
gregation and has also been instrumen-  
tal in bringing into closer relationship  
the Catholic and Protestant peoples of  
the city.

## See Good Shooting

Mrs. F. E. Butler, or as she is better  
known, "Annie Oakley" who is the most  
famous markswoman in the world, and  
who was for years with Buffalo Bill's  
Wild West shows, will be in Escanaba  
August 13th in the interest of the Union  
Metallic Cartridge Co.

On the south bay shore at 2 p. m.,  
she will give a free exhibition of fancy  
shooting, for the purpose of demon-  
strating the superiority of U. M. C. car-  
tridges. Most of the shooting will be  
done with a 22 calibre rifle, but some  
high power guns will also be demon-  
strated. No doubt a goodly number of  
sportsmen of the city will be on hand  
to witness the exhibition.

## ONE CERTAINTY

Some Escanaba People Fully Realize  
It Now

When the back aches from kidney ills,  
When urinary troubles annoy you,  
There's a certain way to find relief;  
A sure way to be cured.  
Doan's Kidney Pills will do it.  
Escanaba people endorse this claim.

Mrs. A. V. Linquist, of 1401 Escanaba  
St., Escanaba, Mich., says: "I can  
recommend Doan's Kidney Pills highly.  
I have suffered from kidney trouble  
and backache for a number of years.  
There was a dead, dull aching across  
the small of my back, so severe at  
times as to almost lay me up in bed.  
I tried many remedies but without suc-  
cess. Finally seeing Doan's Kidney  
Pills recommended by well-known Es-  
canaba people whom they had cured, I  
got a box at the Mead Drug Co. I was  
surprised as well as gratified at the  
almost immediate relief I received. I  
used two boxes in all and the trouble  
left me and never returned."

For sale by all dealers. Price 50  
cents. Foster-Milburn Co., Buffalo,  
New York, sole agents for the United  
States.

Remember the name Doan's and  
take no other.

## Horse Ran Away

A spirited saddle horse ridden by Sol-  
omon Greenhoot last Sunday became  
frightened in some manner, and getting  
beyond control of the rider, ran away.  
The horse dashed down Dousman street  
at breakneck speed and turned up Lud-  
ington, where it dashed into Kurz Bros'  
sale stable and was stopped. Mr.  
Greenhoot was uninjured.

## CIRCUS COMING.

Ringling Brothers are Coming with the  
Biggest Show on Earth.

Friday, August 24th is Ringling Broth-  
ers' circus day. The greatest show  
in the world will bring its wonders to  
us at last. For weeks circus has been  
in the air, and now the dream of day  
and night is to be realized. Eighty-  
five cars are used to carry the immense  
aggregation, and it needs no prophet to  
foretell the crowds that will greet the  
splendid caravans. This year the Ring-  
ling Brothers' great shows are almost  
twice as big as ever before, and that  
fact makes comparison with any other  
show impossible and indicates tremen-  
dous size.

## Conference to be Held Here

The Northern Swedish Methodist  
Episcopal conference will take place at  
the Swedish Methodist church in this  
city on Aug. 22 and will continue for  
six days.

## MATINEE RACES

at Driving Park

Some good races are expected tomor-  
row afternoon at the matinee race meet  
arranged at the Driving park by the  
Gentlemen's Riding and Driving club.  
The races will be called at 2 o'clock  
sharp.

## U. P. PHYSICIANS WERE HERE

Upper Peninsula Medical Societies  
Met in Escanaba this Week.

## THURSDAY AND FRIDAY

D. A. F. Snyder of this City Elected  
as President of Society for Con-  
ing Year

Physicians from all parts of the pen-  
insula were in Escanaba on Thursday  
and Friday of this week to attend the  
annual meeting of the Upper Peninsula  
Medical Society.

The visiting physicians while here  
were the guests of the Delta County  
Medical Society and several enjoyable  
social features were arranged by that  
society for the entertainment of the  
visitors.

The sessions of the society were held  
at the city hall and a program consist-  
ing of papers on subjects of interest to  
the profession was carried out. The

address of welcome, was delivered by  
Attorney I. C. Jennings who offered the  
visitors the freedom of the city. A  
key to the city, carved from bird's-eye  
maple, was presented to President Lau-  
baugh.

On Thursday evening the members of  
the society boarded the Steamer Lotus  
for a trip to the head of the bay. The  
party stopped at Gladstone on the re-  
turn trip where an elaborate banquet  
was served at the Hawarden Inn.

The business session of the society  
took place Friday morning. The elec-  
tion of officers resulted as follows:

President—Dr. A. F. Snyder of Es-  
canaba.

First vice president—Dr. P. T. Phill-  
ips of Menominee.

Second vice president—Dr. C. H.  
Rodi of Calumet.

Secretary—Dr. A. Walker of Menom-  
inee.

It was decided to hold the next an-  
nual meeting of the society at Menom-  
inee.

Following the business session the  
visitors were given an automobile ride  
about the city, visiting the ore docks,  
ore crusher, Escanaba Woolenware  
company's factory and the I. Stephe-  
nson company's plant at Wells. A fine  
banquet at the Oliver followed, given  
by the Escanaba druggists.

Following is the program of the two  
days' session.

## K. P.'S AT GLAD- STONE NEXT WEEK

Upper Peninsula Reunion of Knights  
of Pythias to Be Great Event

## 600 GUESTS EXPECTED

Large Number of Tents Secured to  
Provide Lodging for Guests

The annual reunion of the Upper  
Peninsula Knights of Pythias which  
takes place on Thursday and Friday of  
next week promises to be an event of  
unusual interest.

Pythian lodges all over the peninsula  
have been getting ready for the meet-  
ing and have been drilling their degree  
teams for the contest which will be the  
leading feature of the meet.

The arrangement committee of the  
Gladstone lodge has prepared for 600  
guests and has secured 100 new wall  
tents which will be pitched on the  
grounds of the Hawarden Inn. In addi-  
tion to the tents and regular hotel ac-  
commodations, rooms have been secured  
in all the best homes of the city.

On Thursday, following the reception  
of the visitors and the opening of the  
lodge, the trophy contest begins.

On Friday there will be an excursion  
on the Steamer Maywood on Little Bay  
de Noc and in the evening there will  
be dancing at the Gladstone theatre to  
which citizens as well as lodge mem-  
bers are invited.

The citizens of Gladstone will extend  
a cordial welcome to all visitors. The  
upper bay city will be in holiday attire  
with the Pythian colors, red, yellow  
and blue prominently displayed. Every-  
thing points to a most successful gather-  
ing.

## WON'T DEMAND EXTENTION

Water Company Now Said to Be  
Willing to Build Filter Plant

It is understood from information  
given out by the Escanaba Water com-  
pany this week that that company  
plans to commence the construction of  
a filtration plant in this city without  
adhering to their demand for an exten-  
sion of their franchise.

The Escanaba Water company made  
a proposition to the city in which they  
agreed to build a filtration plant if the  
city would extend their franchise and  
pay more for the rent of fire hydrants.  
This proposition the city rejected and  
it is now announced that the water com-  
pany will build the filter plant without  
insisting on an extension of the fran-  
chise.

Supt. Hatton will leave next week to  
confer with the officials of the company  
in the east.

## POPULARITY GROWING

Sentiment Strong for William Alden  
Smith for U. S. Senator

Congressman William Alden Smith's  
recent trip through the Upper Penin-  
sula made him many friends and re-  
ports from the different cities which he  
visited speak of him in very favorable  
terms. In Delta county Mr. Smith has  
many admirers who believe him to be  
the right man for this state to send to  
the United States senate.

At the Detroit convention Congress  
Smith showed his strength in securing  
the introduction of a resolution which  
places the party on record as favoring  
the election of U. S. Senators by a direct  
vote by the people.

It was a noticeable fact that at the  
convention nearly one half of the dele-  
gates wore Smith buttons.

## THAT GAS FRANCHISE

The Iron Port desires to repeat its  
belief expressed last week that a gas  
franchise should not be granted to H. C.  
Higgins who it is understood will soon  
ask for one in the near future.

It is but a few years since Thomas  
Higgins and the other stockholders of  
the company which originally owned the  
gas plant, sold the gas plant to the city  
for 18,000 and now H. C. Higgins  
brother of Thomas Higgins and his  
partner in the promotion of gas  
franchise deals has returned asking for  
a gas franchise.

It looks to us like a poor business  
proposition for the city, after paying  
\$18,000 for this plant to turn about and  
grant a franchise. The city would be  
left with the plant and would lose the  
amount paid for it.

The service given by the gas plant in  
this city when operated by Mr. Higgins  
was very very poor and the unpleasant  
memory if it still lingers in the minds  
of some of our citizens.

Whether Mr. Higgins really intends  
to build a gas plant costing 150,000 in  
this city, provided he gets a franchise  
we do not know, but we very much  
doubt it.

# RIGID INSPECTION OF MEAT CERTAIN UNDER NEW RULES

## Secretary of Agriculture Wilson Promulgates Regulations for the Guidance of Packers and Federal Overseers at Packing Plants.

Washington.—Secretary Wilson has made public the regulations under the new law governing the inspection of meat products for interstate and foreign trade. They do not, however, cover the subject of interstate transportation of meat or the microscopic inspection of pork for export. Regulations on these subjects, it was stated, will be issued later.

The general regulations provide that the scope of the inspection shall cover all slaughtering, packing, meat-canning, salting, rendering or similar establishments whose meats or meat food products, in whole or in part, enter into interstate or foreign commerce, unless exempted from inspection by the secretary of agriculture. Under the law the only establishments which may be exempted by the secretary are retail butchers and retail dealers supplying their customers in interstate or foreign trade, but even those exempted classes are required to submit to the secretary an application for exemption.

**Sanitary Regulations.**  
Sanitary regulations require the establishments in which animals are slaughtered or meat and meat food products are prepared, packed, stored or handled to be suitably lighted and ventilated, and to be maintained in a sanitary condition. All portions of the buildings must be whitewashed or painted, or where this is impracticable, they must be washed, scraped or otherwise rendered sanitary. All trucks, trays, chutes, platforms, racks, tables, knives, saws, cleavers and all utensils and machinery used in handling meats must be thoroughly cleaned daily.

**Clean Outer Clothing.**  
Employees of the establishments must wear outer clothing of a material that is easily cleaned and made sanitary. Toilet rooms, urinals and dressing rooms are required to be entirely separate from apartments in which carcasses are dressed or meats and meat food products are prepared. Managers of establishments will not be permitted to employ any person affected with tuberculosis in any of the departments where carcasses are dressed, meats handled, or meat food products prepared.

Butchers who dress diseased carcasses are required to cleanse and disinfect their hands and implements before touching healthy carcasses.

**Inspectors to Report.**  
Weekly reports on sanitation are to be made by the employees in charge of various departments to the inspector in charge of the station, who in turn must report weekly to the chief of the bureau of animal industry at Washington.

The provision relating to dyes, chemicals and preservatives is stringent.

Heretofore the ante mortem inspection has been made in the stock yards, at the time the animals arrived, and has covered animals which were to be slaughtered at establishments where inspection was maintained, and those which were slaughtered for local trade. The new law does not authorize inspection of animals for local trade. It came to the attention of the department that speculators were taking advantage of this form of inspection, and the farmers who shipped the animals to market were there by losing several hundred thousand dollars a year. Under the new form of inspection the shipper will be absolutely protected, and will receive full price for all animals which pass the inspection.

The inspection of animals before slaughter, designated in the regulations as the ante mortem inspection, is changed to conform to the new law, and to give the secretary of agriculture authority to require that all animals suspected of disease on this ante mortem inspection shall be slaughtered separately and apart from all other animals, under the careful supervision of federal inspectors.

**Destruction of Carcasses.**  
Special provision is made for the destruction for food purposes of carcasses and parts of carcasses and meat food products which, upon inspection or reinspection prove to be unclean, unsound, unhealthful, unwholesome, or otherwise unfit for human food. All such meat will be placed in a tank in the presence of a government inspector and sufficient coloring matter will be added to render it impossible that the tankage can be used for lard or other eatable product. If any establishment refuses to follow the tankage regulation, inspection will be withdrawn.

The meat inspection law under

which the regulations are issued, contains a provision that no meat or meat food product shall be sold or offered for sale by any person, firm or corporation in interstate or foreign commerce under any false or deceptive name, but established trade names which are usual to such products and which are not false and deceptive and which shall be approved by the secretary of agriculture are permitted.

The regulation on this subject provides that trade labels which are false or deceptive in any particular shall not be permitted, and that a meat food product whether composed of one or more ingredients, shall not be named on the trade label with a name stating or purporting to show that the said meat food product is a substance which is not the principal ingredient contained therein, even though such a name be an established trade name.

These provisions in regard to labels conform to the requirements of the pure food law. It was stated at one time that the provisions of the meat inspection law conflicted with the pure food law, but this idea is not borne out by the regulations just issued.

**Supervision of Stamps.**  
All stamps, labels and certificates showing that meat and meat food products have been inspected and passed are required either to be affixed by a government employe or to be affixed by an employe of the establishment under the personal supervision of a government employe.

Certificates are required for exports of cattle, sheep, swine and goats, and the meat and meat food products thereof, and no vessel having on board any such animals, meat or meat food products for export will be allowed to clear by the customs officers until the certificate of the secretary of agriculture, showing that the meat is sound, healthful, wholesome and fit for food, is produced.

**Free Access to Houses.**  
For the purpose of enforcing the law and the regulations, inspectors and other government employes under the direction of the inspector, must have access to establishments at all times by day or night, whether the establishments be operate or not.

The regulation directs attention to the fact that it is a felony, punishable by fine or imprisonment, for any firm or corporation or any agent or employe thereof, to give or offer, directly or indirectly, to any department employe engaged in meat inspection any money or other thing of value with intent to influence the employe in the discharge of his duty.

**Labeling Carcasses.**  
The provisions in regard to labeling carcasses which are found diseased and which have been condemned, are very complete. A system of tags, numbered in duplicate, with reports to the inspector in charge, who, in turn, reports to Washington, will make it impossible for any carcass which has once been tagged by a department employe to escape the vigilance of the inspectors.

**Method of Appeal.**  
Whenever the proprietor of an establishment questions the action of the inspector in condemning any carcass or meat, he may take an appeal to the inspector in charge, and from the inspector in charge if he desires, to the chief of the bureau of animal industry, or to the secretary of agriculture whose decision is final, so far as the department is concerned.

All inspectors in charge of the meat inspection stations are directed to notify the municipal authorities of the character of the inspection and to cooperate with such authorities in preventing the entry of condemned meat or other products into the local markets.

Running through the regulations is a carefully prepared scheme which will effectually prevent the entrance into sausage, curing, canning and other chopped meat establishments of any carcasses which were not inspected and passed by federal inspectors at the time of slaughter.

One of the important provisions of the regulations is the following definition:

"U. S. inspected and passed." This phrase shall mean that the carcasses, parts of carcasses, meats and meat food products so marked are sound, healthful, wholesome and contain no dyes, preservatives, chemicals or ingredients, which render meats or meat food products unsound, unhealthful, unwholesome, unclean or unfit for human food."

**Alleged Robber Arrested.**  
Philadelphia.—After a search of two and a half months Lewis Halbert, accused of robbing the suburban home of Edward L. Walsh, a millionaire of this city, of jewelry valued at \$10,000 last May, was arrested in Chicago.

**Dismisses Land Fraud Charge.**  
Milwaukee.—Judge Quarles, of the United States district court, released Joseph Black, John C. Black and August Anderson, of Shawano, Wis., held on land fraud indictments by the grand jury at Portland, Ore.

# FOUR YEARS OF AGONY.

Whole Foot Nothing But Proud Flesh  
—Had to Use Crutches—"Cuticura Remedies the Best on Earth."

"In the year 1899 the side of my right foot was cut off from the little toe down to the heel, and the physician who had charge of me was trying to sew up the side of my foot, but with no success. At last my whole foot and way up above my calf was nothing but proud flesh. I suffered untold agonies for four years, and tried different physicians and all kinds of ointments. I could walk only with crutches. In two weeks afterwards I saw a change in my limb. Then I began using Cuticura Soap and Ointment often during the day, and kept it up for seven months, when my limb was healed up just the same as if I never had trouble. It is eight months now since I stopped using Cuticura Remedies, the best on God's earth. I am working at the present day after five years of suffering. The cost of Cuticura Ointment and Soap was only \$6, but the doctors' bills were more like \$600. John M. Lloyd, 718 S. Arch Ave., Alliance, Ohio, June 27, 1905."

## ABOUT WOMEN.

Freshness is not to be despised in women, vegetables or flowers.  
A woman of gushing proclivities is apt to consider herself irresistible. The woman who nags her husband deservedly sits down to a lonely meal.  
Wise is the woman who does not expect a man's devotion at election time.

The woman who constantly quotes her husband seldom realizes what an intolerable bore she is to others.

A woman with a musical voice may babble of coal dust and sauer kraut, and still compel you to think of lute strings.—Exchange.

## Harriman Lines to Petome Floral Routes.

Executive officers of the Union Pacific road in Chicago are planning to build several large greenhouses along the main lines of this company in Nebraska, Wyoming, Utah and other districts, with the object of having at every table in every dining car over the entire system a bouquet of freshly cut flowers at every meal. In addition to table and other decorations it is planned to grow flowers on a scale sufficiently large to allow a free distribution of roses to women and carnations, or other seasonal flower, not only in dining cars but to passengers in every car of every train, and in winter as well as in summer, the idea being to make patrons feel that the flowers are a part of the trip over this road and not precious little souvenirs. The greenhouses will probably be located at Grand Island, Neb., Cheyenne, Wyo., Denver, Col., and Ogden, Utah. In California and in the territory of the Sunset route in the south the company has no trouble in getting outdoor flowers all year. But even in these districts the scheme of flowers for passengers and car decorations is to be enlarged upon. Dining rooms along all lines are to be supplied freely with plants and blooms. The California and southern resources with the greenhouses to be built along the central route will put the Union, Southern Pacific and Oregon Short Lines in a position where they may become known as the floral lines, an appellation officers of the Harriman lines hope to merit.

**Destroys Odor of Gas.**  
M. Deltrain, of Geneva, has combined certain materials, put together in the form of a small solid cone, which, when dissolved in petrol of benzine, destroy the odors of burned gases, and leave an agreeable perfume behind.

The Erie Railroad has just placed orders for 1,600 new freight cars. From the Standard Steel Car Company, to be built at the Butler, Pa., shops, have been ordered 500 drop end steel-underframe gondola cars of 100,000 pound capacity, weighing 42,600 pounds each, and 45 feet in length. These are for delivery in January, 1907. For delivery in December next, the Erie has also ordered 500 flat cars, to be built by the same company. These will be 40 feet in length, with steel underframes and a capacity of 100,000 pounds.

At the American Car & Foundry Company's works at Chicago there are building 590 produce cars for delivery in November and December next. These are also steel underframe cars, 36 feet in length, and of 50,000 pounds capacity. At the same company's Detroit works are building for the Erie 100 Hart convertible cars for delivery next January. These are to be of 100,000 pounds capacity, and will weigh 43,000 pounds each. They will be 41 feet 6 inches in length, with wood bodies and steel underframes.

Five new electric cars for the Rochester division have been ordered from the St. Louis Car company for the line to Mt. Morris now being electrically equipped. Four of these are passenger cars and the fifth a combination passenger and baggage car. Each will be equipped with four 75-horsepower Westinghouse motors.

Boys will be boys, especially the gay old ones who have passed 60.

# PENINSULAR HAPPENINGS

### A RELIGION-CRAZED FARMER MADE SANE BY BLOW ON THE HEAD.

### JACK-KNIFE SURGERY

#### A Chapter of Noteworthy Incidents and Accidents That Happened in Michigan.

#### Knocked Senseless.

Rapped on the head with a chair, John McCullum has become sane and released from Port Huron jail. He is the prosperous farmer living near the "state line," who became "converted" to religion some time ago, and at once began to act queer. He was bound to make everybody he met see the light. One of his pet plans was to regenerate sinful Detroit by building an immense cathedral in Grand Circus park. He was put in jail here last week, and immediately began to try to convert his fellow prisoners.

He was so violent in his solicitations that one of the latter thought that McCullum was going to assault him. He picked up a chair and hit the farmer a blow that laid his scalp open. Blood flowed freely, and to the astonishment of the doctors when the flow was stopped McCullum's mind had cleared. He was released, and returned to his wife and 10 children on the "state line."

#### Heroic Surgery.

Arthur Brown, of Hart village, aged 13, may lose his leg as the result of a snake bite. With three companions he was looking for water lilies in a small stagnant pond. The boys heard a warning rattle on the shore, but paid no attention. No sooner had Brown reached shore than a snake bit him in the calf of the left leg. Arthur's companions had read of the terrible effect of a rattlesnake bite, so they decided to cut the bitten spot from Brown's leg. He refused to allow his leg to be operated on with a small rusty knife, so two of the boys held him and the other cut an inch from his leg. The doctors say that more harm will result from the rusty knife than the snakebite and that the poison from both may result fatally.

#### Ball Player Injured.

The death of Fred Lewis, a prominent young business man, is feared as the result of his being struck on the temple by a baseball during a game at Perry, between Owosso and Perry. Lewis played two innings after he was injured. He was taken ill and was driven to his home in Owosso. His right side is paralyzed and he is unconscious. Four batters were hit during the game. Lewis is 39 years old, married and has two children. He is a member of Lewis & Loomis, the grocery firm whose store was recently destroyed by a gasoline explosion. The ball game went to Owosso by the score of 5 to 0.

#### Pounded to Jelly.

Charles Davis, driver for Phillips, Penoyer & Co., wholesale grocers, lies at the Saginaw General hospital, hovering between life and death. Davis was loading his wagon at the warehouse. He turned too short when starting away, upsetting the wagon, and was entangled in the whiffletrees. The horses ran at a frightful speed half a mile, literally pounding the victim to a jelly upon the asphalt pavement. Davis was believed to be dead when released. He was almost naked, his body was bruised and bleeding from head to foot, and one leg had to be amputated.

#### Brilliant Student Killed.

Wallace Cook, aged 18, died at the Lansing hospital Wednesday, three hours after he was run over at the Grand Trunk crossing. Both legs were taken off. Cook was a son of Rev. A. E. Cook, of Fenton, and a graduate of Fenton high school. He planned entering the state university next fall. He was working in the Reo motor car factory during the summer. He had won distinction as a speaker and held the gold medal for last year's state high school oratorical contest.

#### A Five-Year-Old Heroine.

Rena Elson, aged 5 years, will probably lose her life as the result of an act of real heroism. She plunged into a bonfire to save her baby sister, aged 3, from burning to death. The baby had stumbled into the midst of the fire and Rena, without hesitation, leaped in and pulled the little one out. Rena's clothing was a mass of flames when she rescued the baby, and her back and arms were terribly burned.

#### Employed Children.

State Factory Inspector A. B. Glaspele has taken out warrants for the proprietors of a Saginaw match factory which is fighting the trust, for employing girls under age. He found seven below 13 years. This is Somers' second alleged offense. Glaspele says other factories there are violating the law and that he will prosecute every one.

Just before her death Mrs. Katrina Welmer, a well-to-do widow of Flint, called in her attorneys and told them that she wanted no flowers and no display at her funeral.

Complaints have been made to the prosecuting attorney of Lansing that "blind pigs" are being conducted near the Waverly park and Pine lake resorts.

While sleeping in the long grass in front of his home, little 3-year-old Emil Miller, of Menominee, was run over by a lawnmower in the hands of a man trimming the lawn. His legs were terribly cut.

A fine gold medal has been offered by Gov. Warner to the member of the national guard of the state who shall perform sentinel duty at the military encampment at Indianapolis most satisfactorily.

## MICHIGAN NEWS.

### Senatorial Apportionment.

The supreme court, in response to the petition of Attorney Stephen D. Williams, of Detroit, has granted a writ of mandamus ordering the secretary of state to ignore the apportionment law enacted by the legislature of 1905, and to issue notices for the election of senators this fall under the apportionment of 1895, "unless the executive of the state, before the time expires for giving such notices, shall convene the legislature in special session to make new senatorial apportionment."

Secretary of State Prescott says he will obey the mandate of the court, and will issue the call under the law of 1895 unless Gov. Warner calls a special session. "Wayne county, under a just apportionment, would be entitled to at least five senators, if not more," said Attorney Williams. "The representatives come under another apportionment, which is not included in the petition for a mandamus." "If we can get along without it, there will be no extra session of the legislature because of the decision of the supreme court on the 1905 apportionment," said Gov. Warner. "If we can legally act under the law of 1895, I think it would be the best plan to save the state the expense of \$15,000 which an extra session would require. However, I have not looked up the matter or consulted with others as to whether we can act under the 1895 apportionment."

### Where is Mr. McIntyre?

Many men and women and children disappear in Michigan every week, but few mysteries of this nature last as long as has the mystery of the disappearance of Donald McIntyre, of Howell, a substantial citizen, of some marked peculiarities, but seemingly of sound mind, who left Howell on the 8:36 a. m. train, June 15 last, and went to Lansing. There he stayed all night at a sister's, called on his son, George McIntyre, Saturday morning, at his office, and left there, as was supposed, to take the train for Howell. He has not been heard of since.

He wore a dark, worn suit of clothes and a light drab hat. He is 74 years old, 5 feet 10 inches in height, and has a full gray beard, and gray eyes.

It is now thought he is deranged.

Mr. and Mrs. McIntyre have lived in Howell about 12 years, and are a highly respected family, and always living happily. Before moving to Howell they lived on a farm in Isocoo township, Livingston county.

### Good Work For Convicts.

Horatio S. Earle, state commissioner of highways, declares that he knows what he is talking about when he proposes to have convicts in northern Michigan crush stone for farmers of southern Michigan to use in improving rural highways. Mr. Earle says he can deliver crushed rock from the northern peninsula to Detroit and Wayne county for less than \$2 per cubic yard. In fact, he says a company is already organized to show that this can be done.

Before the fifth annual convention of Michigan's Rural Letter Carriers in Battle Creek Mr. Earle said that, while it was all right to make the convicts work, they should leave the trades alone, as the general labor field is injured by convict "cheap labor."

### Campers in Peril.

Forest fires which for hours threatened destruction to the lumbering town of Birch, 16 miles northwest, and to which place aid was rushed from Marquette by a special train, have been beaten back, and the danger is considered over. Mill property and logs valued at \$500,000 were in jeopardy.

Flames are still raging through the woods north of the town. The country is sparsely settled, but there is fear that camping parties have been cut off. Anxious relatives have left for the scene in an effort to reach them.

### Teachers' Institutes.

Approximately 5,000 teachers are assembled at the summer institutes at various places in the state, according to W. H. French, deputy superintendent of public instruction. Seven counties have a combined institute at Ypsilanti, with an enrollment of 1,400. Kalamazoo has 550 teachers from eight counties; Mt. Pleasant normal 715 from seven counties, and Marquette 400 from six counties. Besides these there are summer sessions at 14 county normal schools.

### Fear He Is Insane.

Charles Bassett, a well-known farmer, disappeared Wednesday after driving into Mason and leaving his team. Relatives are searching throughout the county. There is concern regarding him because a sister committed suicide a few years ago while insane and other members of the family are said to have been deranged at times during their lives. Mr. Bassett, however, has never shown any indication of mental trouble.

### Phelan Bound Over.

Rev. John Phelan, the Baptist minister, formerly of Cement City, who was brought back from Burlington, Ia., to stand trial on the charge of killing checks, was given a hearing before Justice Helmer, of Jackson, and bound over to the circuit court. His bail was fixed at \$2,500. His attorney, S. C. Badgley, objected to the sum on the ground that it was exorbitant. Several pastors of the place are endeavoring to raise enough money for his defense.

### Oakland county capital will establish a bank in Otisville.

Hersey is to have electric lights. Frank McIntyre will install the plant and operate it as a private enterprise.

Lee Olmstead, who left Kalamazoo a year ago for the west for the benefit of his health, was burned to death in a cement factory at Bridgewater, N. D. His body will be brought back for burial.

The board of state auditors has made an allowance of \$4,585 for rebuilding the storage warehouse at the Jackson prison recently damaged by fire. An allowance of \$5,250 for rebuilding Crosswell cottage at the Industrial Home for Girls at Adrian was also authorized.

## From the State Capital

Information and Gossip Furnished by Special Correspondent at Lansing.

### Lansing.—The supreme court has passed squarely on the constitutionality of the Nottingham amendment to the medical registration law forbidding offensive advertising by physicians and sustains it. The law was passed in 1903, and in December of that year Dr. James D. Kennedy, of the Detroit firm of Kennedy & Kergan, was cited to appear before the state board of registration in medicine and show cause why he should not be deprived of his certificate to practice, for having inserted an "ad." containing matter of an "obscene and offensive nature derogatory to good morals," in the Evening News of September 19, 1903. Dr. Kennedy instituted suit in chancery, charging that the members of the board were prejudiced and that the new section of the law referred to was unconstitutional. His bill was dismissed in the lower court and this decision the supreme court now sustains. Agreeing with the trial judge that the testimony utterly failed to sustain the contention of prejudice, the court gave itself up to the consideration of the validity of the law. Dr. Kennedy's reason was based on the assumption that the revocation of a license is an exercise of judicial power. "All of complainant's objection to the constitutionality of the law are completely answered by saying that this assumption is unfounded," the court declares. Dr. Beverly D. Harrison, secretary of the state board of registration in medicine, says that the Kennedy case will probably be taken up again when the board resumes its sessions in October. "We shall probably resume the taking of evidence, in which we were interrupted by the temporary injunction," said the doctor, "and we shall be able to consider perhaps 20 more cases that have been reported to us. I think that in time improper practitioners can be driven out of the state by the enforcement of this law. There may also be some cooperation on the part of the postal authorities, who have been on the verge of interference for some time."

### Primary Election Law.

The county canvassers' statements, on file with Secretary of State Prescott, show the extent to which the new primary election law will be applied. In 59 of the 83 counties the Republicans will vote on the nomination of congressman, and the Prohibitionists will make use of the law in the Seventh district, comprising six counties, for the naming of their congressional candidate. In Macomb county a primary must be conducted in every voting precinct to allow the Prohibitionists to vote on their candidate for congress, and no other party having elected to nominate its county ticket or any other candidates by the direct voting method. The Republicans will nominate their county officers in 48 counties, the Democrats in eight, the Prohibitionists in three, and the Socialists in one. The Republicans have decided to elect 36 representatives by direct voting, and the Democrats five. The Republicans in 11 senatorial districts voted for the new method, the Democrats in one, and the Prohibitionists in two. Four counties had primary election laws previously, namely, Wayne, Kent, Muskegon and Alpena. These should be added to the list of counties where all parties will nominate their tickets by direct vote. With the representatives in the legislature for those counties, 57 is the total to be nominated by the Republicans, and seven senators may be added for this reason to the 11 to be nominated under the general law.

### Case Will Establish Precedent.

The supreme court reversed the case of Motiva Conneau against the Muskegon Traction & Lighting company. The plaintiff sued the company for injuries done her by one of the cars of the company. The circuit judge was of opinion she did not make a case and directed a verdict for the defendant. The plaintiff is given another trial. The case is said to be without precedents. The young woman was injured in a rush of excursionists for a street car at a resort owned by the company. The question involved is whether the company is liable for not maintaining proper railings at the resort so that such a rush as that in which the plaintiff was injured would be impossible.

### Circuit Court Decision Upheld.

The state supreme court at Lansing handed down a decision affirming the judgment of Circuit Court Judge E. L. Beach, who refused last September to recognize the decree of a Chicago, Ill., circuit court granting a divorce to Howard E. Hewes against his wife, Mrs. Nester-Hewes, on the ground of desertion. Previously the court at Saginaw had granted Mrs. Hewes a similar decree on the ground of extreme cruelty, but on Hewes' representation that he wished to contest the case on its merits it was reopened. In the meantime Hewes secured the Chicago decree. The supreme court upholds the Saginaw decision in every point.

### Will Not Call Special Session.

Although Judge Ostrander of the state supreme court decided not only that the senatorial apportionment acts of 1905 and 1901 were invalid, but that there is not a valid senatorial apportionment act extant, Gov. Warner insists he will not call a special session of the legislature to enact a new and valid law. The governor relies upon the majority opinion of the court, which directs that notice of election be given under the act of 1895. He bases his refusal to call the legislature together on the ground that the expense should be avoided and that the inequalities complained of can be borne until the regular legislative session.

### College Will Not Get Money.

The board of trustees of Hillsdale college has been unsuccessful in its endeavor to have the executor of the estates of Rev. and Mrs. J. C. Ferris, late of Lansing, pay to the college about \$1,200, which in an alternative will of the husband, had been bequeathed. The wife, surviving him, she, instead, became the possessor of the property. She became mentally incompetent before she died and never carried out the desire of the husband, which the college claimed was in the nature of an agreement.

### New Corporations.

The Detroit Metal Furniture company, \$100,000, and the Progressive Light company, of Detroit, \$10,000, filed articles of incorporation.

### Lightning Causes Death.

John Siegrist, aged 20, died after a year's illness, following a shock from a bolt of lightning.

### Liquor Cases Decided.

Two liquor cases were decided by the supreme court. The conviction of Herman and Ernest Boldt at Albion for selling liquor without a city license of \$500 was set aside for the reason that the council ignored its charter in the construction of the license providing for such licenses. The conviction of John W. Bronner, of Cass county for selling liquor to a minor was affirmed, but his partner, Jacob Harold, was discharged because he had nothing to do with the sale.

### Miss Addie Corey Declares Her Brother is Not Qualified to Protect 16-Year-Old Boy, Who is Awarded to Mother.

Reno, Nev.—Mrs. William Ellis Corey, wife of the president of the United States Steel corporation, was awarded a divorce in the Second district court of Nevada.

Mrs. Corey was in tears when told that she had been given a decree and the custody of her 16-year-old son, Allan Corey. She drove at once to her home on Riverside avenue, where she says she will continue to reside. No evidence was submitted by the defense and there was no argument.

The question of alimony was not introduced. Mrs. Corey admitted that in May, 1906, several weeks before her petition for divorce was filed, she negotiated through her attorneys a financial settlement with her husband. Miss Addie Corey, sister of the respondent, corroborated Mrs. Corey's statement that Corey had deserted his wife and told how she and her aged mother had made several ineffectual attempts to effect a reconciliation.

"Do you consider Mr. Corey a proper custodian for his son?" she was asked.

"I do not for the reason that he is not a proper person for his son to associate with. He has no home and his associates are not fit companions for a young man of Allan's age. I do not think any wealthy New York man is fit to have charge of a boy of his age."

### MEAT INSPECTION IN GERMANY

#### Strict Regulations Regarding Examination Are Put Into Effect.

Berlin.—The revised regulations for the application of the meat inspection law, recently adopted by the bundesrath, were published Monday and show a considerable increase of severity in the provisions of the law.

The regulations provide that when the important organs have been removed from a carcass, inspection can be made only by a veterinary expert, instead of the ordinary examiners, and that the meat of such carcasses can only be pronounced fit for food under certain specific conditions.

A much more thorough examination of the lymphatic glands of an animal also is required. These glands from all of the carcass must be subjected to inspection by microscope. The glands as well as other organs must remain attached to fresh and prepared meats, so far as is necessary for trustworthy inspection.

### FORCED TO GIVE UP BY POVERTY

#### Former Mayor of Paterson, N. J., Surrenders to Jail Warden.

Paterson, N. J.—William H. Belcher, former mayor of this city, returned to Paterson Monday and surrendered to David Morris, night warden of the county jail. Belcher was forced by poverty to give himself up. He had been in New York for several days. He said he had no means with which to make restitution of the funds he is alleged to have obtained before he fled from the city, and would answer the charges against him.

### Woman Dies at the Age of 112.

Laporte, Ind.—Mrs. Ferdinand Reese, the oldest woman in Indiana and perhaps in the United States, died here Monday, aged 112 years. According to documents in her possession she was born in Volzgravitz, Poland, in 1791, and after marrying and burying two husbands in Poland, came to America in 1870, settled at Buffalo, N. Y., where she married Ferdinand Reese. Her husband died two years ago.

### Visible Supply of Grain.

New York.—The visible supply of grain as compiled by the produce exchanges Saturday, July 28, was as follows: Wheat 28,381,000 bushels, increased 2,466,000; corn, 5,215,000, decreased 652,000; oats, 5,913,000, decreased 208,000; rye, 1,361,000, decreased 27,000; barley, 1,698,000, increased 29,000.

### Two Killed in Explosion.

Vincennes, Ind.—Two men were killed and more than 20 were injured by the explosion of a boiler at the plant of the Vincennes Paper Mills company Monday. The property loss is \$15,000. The dead: Harry Borders, Vincennes, aged 50, single; Lalo Lichey, aged 35, married.

### Jeweler Robbed and Killed.

Madison, Wis.—The body of Joseph Bardenheir, jeweler, missing since July 23, was found in the woods three miles east of here Monday. He had been robbed and murdered.

### Rains Hamper Sanitation Work.

Colón.—The month of July witnessed a series of heavy rains on the isthmus which have hampered the work of sanitation in Colón. Preparations are being made to pave the principal streets of Colón with brick.

## FAR INTO THE FROZEN NORTH

### History of the Polar Explorations of the Past.

Lieut. R. E. Peary is now in the north in an eighth attempt to reach the pole, if, as seems probable, he has not already perished in the arctic regions as have so many others before him. Walter Wellman, newspaper correspondent and explorer of world-wide reputation, is at Spitzbergen, from which point he will make his third attempt to reach the pole, this time by means of an airship. Solomon August Andre sacrificed his life and the lives of two companions in an effort to reach the cap of the earth in a balloon.

Practically the whole of arctic exploration history has been made within less than the last 100 years, though the first arctic voyage was made as early as 1500 by a Portuguese navigator in an effort to discover the northwest passage to India. While many later voyages were made for the same purpose the first expedition made with the idea of reaching the pole was not made until early in the last century. Since that time many lives have been sacrificed in an effort to conquer the elements of the frozen north and bring from them the secrets supposed to lie at the top of the world.

One of the largest expeditions organized for arctic exploration, and one of the most disastrous, was that of Sir John Franklin, which sailed from England in 1845, and entered the arctic regions by the Baffin bay route in July of that year. No member of this party ever returned. Both England and the United States made heroic efforts to send succor to these intrepid explorers. Urged by the tears of Lady Franklin expedition after expedition went into the frozen north in an effort to relieve, or if too late for that to learn the fate of Franklin and his companions, but it was not until 1858 that any definite trace of the party was found. Franklin's wife had resolutely refused to give up hope and had fitted out several expeditions at her own expense to search for her missing husband. One of these under

WALTER WELLMAN  
Commander of the Airship Expedition to the North Pole.

Capt. McClintock discovered in King William's Land the remains and records of the lost explorers. All of the 105 members of the party had perished of cold and hunger.

Another ill-fated polar expedition that fitted out by the New York Herald, and commanded by Commander De Long, of the United States navy. The steamer Jeannette sailed through Behring straits and became ice-bound. For two years the helpless vessel drifted with the ice, the great pack finally crushing her staunch hull and forcing the members of the expedition to take to three small boats. One of the boats reached a settlement and obtained relief, another was lost in a storm and of the third all but two of its occupants perished of cold and starvation.

Probably no other name is so intimately associated with arctic exploration as that of Robert E. Peary, U. S. N., who it is thought probable has sacrificed his life to the cause of unraveling the mysteries of the north. Since 1886 arctic exploration has been practically a hobby with him, and during the past 20 years he has made eight voyages to the polar regions for purposes of scientific study and exploration, giving to the world more valuable information than has been secured from any other one source. It was Lieut. Peary who proved that Greenland is an island; he discovered Independence bay on the Greenland coast, five degrees farther north than any previous authentic discoveries; he crossed the Greenland ice cap and he gave to the world its first knowledge of the Whale Sound Eskimos. When setting out on his last voyage to the north he was confident of his ability to reach the pole, and scientific people rather expected to see him accomplish that difficult task.

Walter Wellman, who heads the novel airship expedition, is not a novice at arctic exploration, as this is his third trip into the frozen north. The first of these was in 1894 when he tried to reach the pole over the Spitzbergen route by the use of aluminum boats. In May, 1898, he started on a second voyage, but on this expedition he met with a painful accident at a time when success seemed sure, and had to return.

The Soo News fittingly remarks: "Epitaph for Russell Sage—"

Relatives of the late Russell Sage will contest his will. The bulk of his vast fortune was left to his wife.

And now it's President Ellis Corey of the United States steel corporation who is in the divorce court.

No gamblers were allowed with the Hatch shows here during carnival week—so the management announced.

Mayor Becker of Milwaukee is collecting wild animals for the zoo in that city. His latest acquisitions are two bear cubs.

The St. Louis, Mo., girl who dieted on pickles and vinegar to reduce her flesh, has succeeded. Her friends attended the funeral.

Escanaba is making great strides in sidewalk building this summer. Several miles of cement walk have been built already this season and the work is going on continually in all parts of the city.

With the work of the state convention of the present week completed, Michigan state campaign will be formally opened, although no active work in that direction will probably be started until late in September. There would seem to be very little need for any sort

of a state campaign in Michigan this year. Governor Warner is just completing his first term in office and that first term has been as satisfactory to all the people of Michigan in every respect as that of any governor since Michigan became a state. Every interest of the state has been guarded and every effort in behalf of state interests has been successful. Not a word of fault has been found with any state officer or any member of the present administration. Such a record well deserves the popular endorsement it is sure to receive.

Our old friend Henry Clews, who was very confident that Russell Sage would surprise the country with the number and importance of the charitable bequests in his will, must be greatly surprised himself, if he was sincere in his early statements, for practically all the Sage wealth is left to the widow, with no provision for charitable undertakings. Perhaps Mrs. Sage, who is described as a big hearted, kindly woman, and who has shown a penchant, as great as one as might be expected in such an unfavorable environment as she has lived in, for charitable work will use the enormous fortune of which she is now possessed, to good ends. In that case many of the Sage millions will be spent to good effect. But it appears that in any event old Russell himself would be little to thank. His reputation for narrow parsimony and thorough disregard of others will, because of the nature of his will, follow him to the grave. His memory is to be as unlovely as was his reputation.—Marquette Mining Journal.

In opposing the granting of a franchise to H. C. Higgins for the construction and operation of a gas plant in this city, the Iron Port is neither "laboring under false impression as to the standing of the present municipal lighting plant" nor "seeking to cover up undesirable features of the present lighting service given to the consumers of Escanaba," as the Mirror insinuates in its issue of Monday.

The standing of the municipal lighting plant is a matter of record. The books and reports of the plant are always open and reports are sent regularly to the council. The gas plant has never run behind and nets the city a profit of approximately a hundred dollars per month.

The last semi-annual report of the gas plant as audited by R. E. Morrell showed a gain of \$1111.96 for six months ending Dec. 31, 1905. Subtracting from this amount interest on bonds and depreciation and the plant shows a net gain of approximately one hundred dollars per month.

## Sending Money Away

Many people, when they wish to send money to some other place, think they must go to the POSTOFFICE or EXPRESS OFFICE to buy a money order, or that they must send the cash itself in a registered letter or express package. Not so. The BANK is the best institution for the transfer of funds, no matter how small the remittance you wish to make. Bank money orders (or bank drafts, which are really the same thing), are CHEAPER, SAFER and more convenient than any other form of remittance.

It takes less time and less trouble to get a bank money order than a postal money order. At the postoffice you have to fill out an application blank before the order can be issued. At the bank you simply ask for an order for so much money, and it is promptly filled out and handed to you—NO RED TAPE and NO DELAY.

We sell money orders payable in all the principal cities of the world.

To find out for a certainty whether or not your heart is affected. One person in four has a weak heart; it may be you. If so, you should know it now, and save serious consequences. If you have short breath, fluttering, palpitation, hungry spells, hot flushes; if you cannot lie on left side; if you have fainting or smothering spells, pain around heart, in side and arms, your heart is weak, and perhaps diseased. Dr. Miles' Heart Cure will relieve you. Try a bottle, and see how quickly your condition will improve.

"About a year ago I wrote to the Miles Medical Co., asking advice, as I was suffering with heart trouble, and had been for two years. I had pain in my heart, back and left side, and had not been able to draw a deep breath for two years. Any little exertion would cause palpitation, and I could not lie on my left side without suffering. They advised me to try Dr. Miles' Heart Cure and Nervine, which I did with the result that I am in better health than I ever was before, having gained 14 pounds since I commenced taking it. I took about thirteen bottles of the two medicines, and haven't been bothered with my heart since."

**For the Stomach Heart and Kidneys**  
**Dr. Shoop's Restorative is a Cause Cure—not a Symptom Cure.**

It is a common mistake to take artificial diet-stimulants for stomach troubles—or heart stimulants for weak heart—or so-called kidney remedies for diseased kidneys. These organs do not act separately or of their own accord—they have an control over themselves—and not once in 80 times is the sickness the fault of the organ. It is the fault of the nerves which control the organs—and only through the nerves can stomach, kidney or heart disorders be cured. Dr. Shoop, of Racine, Wisconsin, learned early in his medical experience that these inside nerves were the power nerves—that through them only was it possible to cure the ailments of the stomach, heart, kidneys, and all other ailments of the body. For all of these ailments are not separate ailments, but are merely symptoms of the same ailment—when the inside nerves are restored the symptoms and the sickness disappear. The remedy which Dr. Shoop prescribed for these ailments is known as Dr. Shoop's Restorative. It relieves the pain and distress of kidney, stomach and heart troubles quicker even than those medicines designed simply to give temporary relief. Dr. Shoop's Restorative can cure the most stubborn cases. For sale and recommended by

# CUPID EVER BUSY

**Merry and Impractical Little God of Love Seems Never to Take a Vacation From His Pleasing Duties.**

## FIVE OF HIS MOST RECENT PRANKS

**Victims Selected From All Walks of Life and in Many Climes—American Mining Engineer and Grecian Countess Among Others Shot By His Unerring Arrows—John Bull Shown How Love Laughs at Law.**

New York.—Within the space of a brief few days, Cupid has played more pranks than the most romantic school-girl could ever conjure up in her wildest dreams!

He has brought together an American mining engineer and a Grecian countess at the mouth of a Mexican mine. He has married off a rich young fellow to the nurse who pulled him through appendicitis. He has presided at a midnight wedding at which a dashing young naval officer and a pretty chorus girl were the principals. He has hired a special train so that a New York millionaire's son could marry a divorcee in another state.

And last of all, but not least, he has arranged a wedding on the high seas, outside the international three-mile limit, so that an impatient young couple wouldn't have to wait two weeks for the banns to be published, thus single-handedly getting aside the stern and implacable majesty of the British common law.

It has been left for Miss Alice Whyte and M. Hall Cowan to show John Bull how love laughs at law. They just couldn't wait two weeks longer, so they were married according to the rites of the Church of England far out at sea. That saved the two weeks banns and made happy two young persons very much in love, says the world.

The two young people come from Windsor, Ont. The young man popped the question four years ago and got his whispered "yes," sweetest word in the world. But they couldn't be married then, for the fact that the young man hadn't been graduated from the University of Michigan and hadn't established himself in business.

Sent for Promised Wife.

He was graduated in 1904. Soon after he got a position with Hiram Walk-

journey, and so were several friends.

"You see," she explained, "Mr. Cowan couldn't get away and it came down to a point of my going to Trinidad. We had been engaged for four years and we didn't want to wait any longer. But at first everything seemed to go wrong.

"When Mr. Cowan sent for me first I was too ill to go. The second time I couldn't make the Maraval. Then he sent for me to come on the 6th of August, but that made it too long. So at last we arranged for this trip of the Maraval and Capt. Hunter is going to give me away.

"Well, all our plans were made for this voyage," continued Miss Whyte, "when suddenly Mr. Cowan discovered that we would have to wait for two weeks until the banns could be published. Here I was, all ready to sail, without any chaperon except the stewardess, and I must wait two weeks before I could be married.

"We expect to reach Granada on Monday and we plan to be married while the ship is far out at sea at eight o'clock that evening. Now, you know, the sea belongs to everybody and marriage laws—stupid things!—don't concern Father Neptune. So when we land at Trinidad on the next morning—it is 150 miles from Granada—we shall be legally married and the horrid old banns can't bother us."

It all came out as they planned. Three cheers and a tiger for Cupid this time!

Blindly Led by Cupid.

What's a trip to Mexico where love is concerned? How could the Countess de Lilly, a charming young widow, or George A. Schroeder, a handsome young mining engineer, guess that it was Cupid who was leading them to the mouth of the Ventura mine in Mexico?

Mr. Schroeder is engineer for the

ago to inspect them and there she met the American. The rest was easy, because Cupid had his mind made up.

Mr. Schroeder pleaded his case and the Greek countess agreed to become the plain American "Mrs." So they came back to Brooklyn to be married. There a few days ago they were wed.

But this didn't end the ceremonial part of the wedding. The countess wanted also a wedding in the faith of her fathers, so all the party jumped into automobiles and were whisked over to Manhattan and up to the little Greek church, Seventy-second street, near Lexington avenue, where there was another wedding, according to the full ritual of the orthodox Greek church.

There was a crowd of the couple's friends to see the beautiful ceremony, which included hymns and chants by a full vested choir. The ceremonies ended with the crowning of the couple with flowers.

And Cupid had come out victor again.

Love God at Work in Hospital.

The doctors shook their heads. The lad that lay on the operating table before them was pretty far gone. He had gangrenous appendicitis, and the poison had already set in.

"One chance in a hundred," said the operating surgeon as he prepared the instruments and motioned to his assistants to administer the anaesthetic.

"And now, Miss Vanhorn, if you please," he said, turning to a pretty trained nurse who stood ready to help. Soon the ether had done its work and the knives began. An hour later

Cook Daniels. The laws said them nay. But they did.

"It is forbidden," read the laws of the state of Colorado, "that either party to a divorce, either guilty or innocent, marry within a year."

Here was pretty Mrs. Daniels, just freed from the bonds and head over heels in love with young Mr. Schley, unable to marry the man of her second choice. And here was the young man, a resident of Colorado Springs, and quite ill, eager to marry before it might be too late.

What were they to do?

Cupid solved the problem as usual. What are laws where love is concerned? He just suggested to young Mr. Schley, to whom money is no object, that he hire a special train, cross the state line into Nebraska at 60 miles an hour, there pledge their troth and return married in spite of Colorado laws.

It was no elopement. The two young people had been devoted to each other openly ever since the divorce was granted.

Sidney was the nearest point, 153 miles away. It was only the work of a moment to order the train and the railway officials had it ready in record time. There were two luxurious drawing-room cars and an engine. One compartment was crammed with wedding gifts; every compartment was fragrant with American Beauties. With all the guests aboard the train started off to the fluttering of many handkerchiefs.

Soon the engineer, assured of a fat

## The Immodesty of the Peek-a-Boo Waist

By LALLA SELBINI, French Actress.

IT IS far easier to give a definition of immodesty than of modesty. Immodesty can be typified by two words, in my estimation—the "peek-a-boo waist."

While I appear every afternoon and evening on a roof garden in a tight-fitting bathing suit, I must confess my sense of modesty would never go so far as to wear a peek-a-boo waist.

There is nothing more immodest than one of these suggestive, half-revealing, half-concealing garments that women have taken as a part of their costuming.

Some one has said that for me to criticize peek-a-boo waists is a little strange, since my appearance is so utterly unhampered by conventional clothing. Let me make one point clear; there is nothing more immodest about a woman's figure clothed in the tight-fitting bathing suit than in a statue. While a woman may appear on the stage in a costume which accentuates an act she is giving, it is a part of her stage profession. So long as it is not vulgar from an aesthetic sense, it cannot be vulgar at all. Real vulgarity or immodesty can only exist where the artistic sense is shocked, and to a pure mind with artistic instincts dominating it there cannot be susceptibility to immodest suggestions.

The Venus of Medici is an exquisite figure. I am sure there are few people who would admit being shocked at this old Greek statue. Yet how infinitely vulgar and suggestive she would be if some shocked lady would garb her in a peek-a-boo waist.

On the street I think women should wear street clothes. The peek-a-boo waist with its multitudinous holes, its glimpse of lingerie and colored ribbons is far more immodest than the so-called outrageously low-necked gown of the English society woman or the strip tights of the beautifully formed actress.

American women have gained a reputation of discretion as compared with French women, but I must say that we would never be guilty of going the lengths of displaying our persons as the apparently conventional American women do in the peek-a-boo waist.

## The Married Man's Summer Rights

By MRS. CLARENCE BURNS, President of the Little Mothers' Club, New York.

Is the summer exodus of wives fair to American husbands? Is it equitable and just for the breadwinner of a family to be left desolate and alone in a dismantled house for three or four months in the summer while his wife rocks gayly back and forth with the piazza brigade of a summer hotel.

Does a married man deserve a home eight months in the year or twelve?

I consider it confirmed selfishness on the part of the American woman that she can bring herself to desert her faithful spouse each recurring summer season. It is my continual wonder that she can vegetate on mountain heights and seaside sands while he, poor thing, sweaters at home. But our women are as hopelessly selfish, as our men are proverbially kindhearted.

The American man is the only husband the world over that would consent to be turned into a pseud-widower one-quarter in every year.

But our men are proverbially tender-hearted and long-suffering. They suffer their summer doom of widowerhood without complaint. Isn't it quite the usual thing?

I admit that Mr. Gayboy, writing eloquently of his utter boredom and sadness and having the time of his life incidentally, is legion. His moping consists of fetes on roof gardens and charming little suppers with the other women.

Isn't this the sort of thing a woman must expect who deliberately leaves her husband to his own devices three months at a stretch?

If a woman is ill or has sick children it is perfectly legitimate for her to go away within commuting distance of the city. And I suppose the mother of marriageable daughters is not to be censured for carrying them off to happy hunting-grounds. But all other women who willfully desert are foolish.

## Enduring Qualities of True Greatness

By PRESIDENT ARTHUR T. HADLEY, of Yale University.

Men are saved by what they do, not by what they profess. But it is not enough to get things done. They must be done right.

In law or in medicine, in business or in politics, you will find heroes that you wish to be like. A strong man of any kind will find friends and followers. Be he prize fighter or fanatic, politician or millionaire, philosopher or Christian, there will be men who will choose him for a hero and stand or fall by the choice.

I believe that whenever it comes to a great crisis—political, industrial or moral—there is enough of the spirit of Christ in America to save us.

But though we have good ground for hope we are far short of having ground for complacent assurance. That part of our people which turns with avidity to sensational accounts of robbery and arson and murder is not far removed from the multitude that cried "Not this man, but Barabbas!"

That part which looks to platform or press for appeals to its passions, and which seeks a leader who can give voice to the promptings of its own prejudices or emotions, has advanced little beyond the stage of those who clamored for the crucifixion.

The battles and the fortunes of a Marlborough—nay, the very empire of a Louis—pale before the majestic constancy of purpose of William of Orange.

In the great drama of slavery and secession we draw our largest inspiration not from the brilliant arguments of the orators nor the brilliant strategy of the generals, but from the patient endurance of two great, heavy-hearted men on opposite sides, unlike in all else but alike in unselfish devotion to principle as they understood it—Lee and Lincoln.

Carl A. Jaeger, the patient, was back in bed, slowly coming out of the influence of the anaesthetic. At his side sat the trained nurse, Miss Vanhorn, with a look of concern upon her fair face, for the case was very grave.

Would the young man's temperature slowly fall and recovery set in? Or would his heart give out under the tremendous strain of the ether and the shock, and he pass away as a tale that is told?

The young man stirred and moaned. The nurse fanned his forehead, beaded with cold drops of sweat. He moaned again. She watched him as closely as a cat watches a mouse.

He slowly came back to consciousness.

"I'm thirsty," he moaned.

The nurse gave him a spoonful of hot water. A full drink of the cold water he craved might have meant death just then. When he asked for food he got a sip of milk, nothing more.

The days went by and the young man slowly improved. Finally the surgeon made his last visit.

"Young man," said he, "you owe your life to your nurse, not to me."

That was a year ago. Cupid, the cunning rogue, got in his work at once. Young Mr. Jaeger didn't want to give up the acquaintance of Miss Vanhorn when he was discharged, cured. He asked permission to call, and got it. It doesn't take the wisdom of a Solomon to guess the rest.

They were married the other day at the Presbyterian-Mansie, Hackensack, by Rev. C. Rudolph Kuebler. Dr. David St. John, head of the Hackensack hospital's corps of physicians, and the young man's father, Gustav L. Jaeger, a rich New York manufacturer, were the only witnesses.

Miss Margaret Vanhorn came from Mahwah and young Mr. Jaeger has a home in Maywood, N. J. They are now away on a wedding trip to Halifax.

Cupid even presides when the surgeons use their knives.

Cupid on a Special Train.

Laws of the sovereign state of Colorado? Fiddlesticks! Chaloner B. Schley, son of millionaire Grant B. Schley, of the Wall Street firm of Moore & Schley, bankers and brokers, No. 80 Broadway, wanted to marry handsome Mrs. Edith Turner Daniels, just divorced from Maj. C. William

tip, was hitting it up a mile a minute, and they were in Sidney in two hours and a half. The party drove at once to the Lutheran church, where they waited until a marriage license was secured. Then the Rev. J. S. Leamer tied the knot. Five minutes later bride, bridegroom and wedding guests were speeding back to Colorado Springs. The wedding breakfast was served on the train, and there was plenty of champagne to drink the health of the couple who had circumvented the law that they might become husband and wife.

Not so bad for Cupid this time, eh?

Cupid Behind the Scenes.

Up the bay several weeks ago came Admiral Evans' fleet and the big Indiana, one of Uncle Sam's crack battleships. They cast anchor in the North river, where Admiral Evans directed, and soon officers and men were ashore stretching their legs.

Now, some of those gay young fellows of the fleet hadn't seen a pretty girl for so long that they just ached to go to some show. So what could be better than "The Social Whirl" at the Casino? No sooner said than done.

All hands took a box and the one closest to the stage chanced to be Ensign Freeman Hall, paymaster. All of a sudden Cupid took a hand. Ensign Hall spied dashing Miss Eleanor Lund on the stage and promptly lost his heart. He secured an introduction and paid ardent court.

The rest of the story was told before Rev. Dr. Henry Marsh Warren, the "hotel chaplain," when a cab drove up before his home, No. 43 West Ninety-fourth street, a few nights ago—or rather morning, because it was well after midnight. In the cab were the young naval officer and Miss Lund.

Now in common with most clergymen, Rev. Dr. Warren retires at an early hour. This particular night was no exception. But the furious jangling of the bell awoke him and Mrs. Warren.

"We want to get married," announced Ensign Hall.

"Not so fast," cautioned Dr. Warren. "I'll have to ask a few questions."

But he was soon satisfied. He found that the officer was 35 years old and his bride 22. Then Mrs. Warren was summoned as a witness and the knot was tied.

& Sons' oil interests in Port of Spain, Trinidad. He went away and did well. He sent for Miss Whyte. She was too ill to take the journey. So the impatient bridegroom-to-be had to wait.

But let Miss Whyte tell her own story just as she told it reclining in a steamer chair on the deck of the good ship just before she sailed from the Brooklyn dock recently. Her mother and father were there to bid her Godspeed on her strange wedding

Ventura corporation, of London, and also for the rich Stratton Independence mine in Colorado. His corporation sent him to the mine in Mexico just as the handsome young countess went there on a business trip. They met in that far-off land under sunny skies, and the romance of the place—perhaps Cupid had a hand—drew them to one another.

The widow was rich, and among her properties were mines in Mexico. Thither she journeyed a few months

## SUCCESS OF A CRUSADER.

American Consul at Munich Runs Down Dealer in Worthless Degrees.

Six years ago in January a man walked into the consulate at Munich and had the assurance to tell me, writes James H. Worman, United States consul, Three Rivers, that he was going to America to buy himself a professional degree, saying that in America anything could be done with money. I watched that fellow's return and secured evidence that his fraudulent license and academic degree emanated from Chicago. To my sorrow I soon learned that a traffic fair spread was carried on from our country with many lands, but especially Germany.

Four years ago I brought home photographic reproductions of a bushel of such worthless documents, but to my sorrow learned that only the original documents could be used in the courts, and my whole endeavor was berated as a tempest in a teapot.

Persistence of endeavor, however, rewarded me with evidence right here at home against a prominent state official of Illinois. I caused his removal and insisted on making of him an example, both on account of the wrong he had committed here and the suffering he had entailed upon American practitioners in Germany. The government and courts there have long ago lost faith in our ability to stay the perpetration of this wrong because of the delay in our courts.

There still remain others whose punishment should follow, and there is reason to hope that the full measure of success may yet crown my efforts to rid our country of this shameful traffic and Germany of its consequent imposition.

## AUTOMOBILE FOR SOUDAN.

Car Made for the Sirdar of Egypt on the Vast Sandy Stretches.

As the result of extensive experiment in the use of an automobile on the desert a novel car has just been completed for the use of the sirdar of Egypt, reports the Motor World, who will use it on the vast sandy stretches of the Soudan.

The wheels are entirely enclosed by light metal side plates, leaving nothing but the broad, solid rubber tires exposed, and it is thought that the latter will remove the difficulty of getting over the surface of loose, shifting sand without becoming imbedded so deeply as to impede progress. To prevent the fine grit working into any part of the mechanism the entire underbody is protected by an ingeniously devised apron.

## SAVE DIMES AND CENTS.

Young Man's Example Faithfully Followed Will Fill Your Purse.

"I can afford an occasional rainy day once in awhile now," said a young man who, according to the New York Sun, doesn't worry over living beyond his means, "and the reason is that I save my dimes and cents. Whenever I get a dime or a cent in change, I keep it and every night I dump the day's accumulations into a tin box.

"About once a month I gather up the harvest and have it changed into bills. You may not believe it, but the month's receipts frequently run over \$25, and have gone as high as \$35.

"The saving comes easily and the result seems all out of proportion. One must keep steadily at it, however, to achieve results, for there is a continual temptation to spend your small change and also to borrow from the bank in cases of apparent emergency.

**The Building of Physical Culture City**

A Few of the Many Subjects to which my magazine Religiously Devoted

Years ago I lost my respect for so-called authorities. I was weak, miserable, emaciated. Various doctors took my money, but I received no benefit. There was the turning point. I began to think for myself. I interested myself in various natural means of building health and in proof of the accuracy of the theories I gradually evolved, I built such a powerful physique that I secured a world-wide reputation as athlete.

Having no respect for authorities, my magazine is therefore a part of myself. It is without precedent in the publishing world. It attracted attention from the first issue, and is now read monthly by over half a million people. My magazine is leading a reform for a cleaner, stronger and nobler manhood and womanhood. In it, I am trying to annihilate the world's greatest curses—profligacy, corruption, muscular inactivity, gluttony, drugs, alcohol and tobacco.

I am now engaged in the building of what I term a PHYSICAL CULTURE CITY. For this purpose I bought 2,000 acres of land about 40 miles from New York, on which there is a lake of nearly 100 acres. I expect to build a city free from saloons, tobacco shops, drug stores and all other demoralizing influences.

I am trying to solve the problem of healing my HOME with SUNLIGHT. I do not consider this difficult. I expect to give readers of my magazine the result of this experimentation.

I believe that BABIES ARE KILLED BY THE THOUSANDS by wrong methods. To prove this theory accurate and for my own personal pleasure, I am adopting from twenty to thirty infants of from six to twelve months of age. These babies will be secured from large cities, one from each. I intend to publish various articles describing my methods of developing these infants. Their homes will be more like a greenhouse than an ordinary dwelling. I believe any human being can possess a strong, superb body if he is willing to make the efforts required.

**MEN'S DEPARTMENT** Each issue of my magazine contains a profusely illustrated article of exercises for men—Arthur Duffey, the world-renowned athlete, contributes the Department devoted to the World of Athletics. He is also writing a series of articles about professional football in Amateur Athletics.

**IN THE WOMAN'S DEPARTMENT** There appear monthly exercises for remedying defects and building a strong, beautiful body. Also a question column, wherein replies to all queries are made, and a detailed weekly menu of healthful foods with recipes.

**BOYS AND GIRLS' DEPARTMENT** consists of various exercises of especial value for boys and girls.

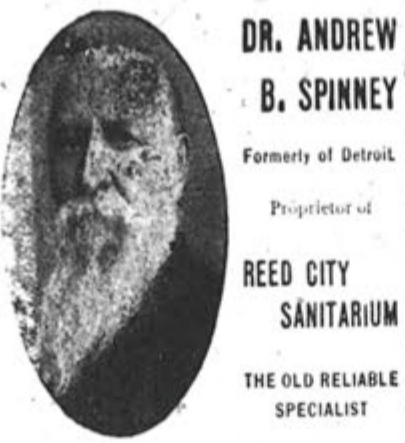

**STORIES**—I am running a weird and wonderful, interesting serial story in which are pictured the habits and character of inhabitants of Jupiter.

**MEDICAL AND OTHER QUACKS.** Years ago I started the crusade against medical quacks. The justice of my contentions has been recognized by other publications and medical quacks are doomed. Our monthly articles are of striking interest.

**SPECIAL OFFER—VALUABLE TREATISES FREE**—To introduce my PHYSICAL CULTURE magazine, I am giving to every subscriber a free, home drugless treatment for any of the usual complaints, or a lesson that will enable anyone to develop any part of his body, or instructions for remedying any of the common physical defects.

The price of my magazine is ten cents a copy or \$1.00 per year. Upon receipt of \$1.00 we will put you on our list for a year's subscription and immediately forward you the treatise or instructions you might desire. If not satisfactory after receiving the magazine and treating your money will be refunded without question. I do not want your money until satisfied. If interested, I will send a back number, free of charge, upon receipt of your address.

Address, BERNARR MACFADDEN, Editor and Publisher, Main Office: Physical Culture City, Spotswood P. O., N. J., 137 Marquette Bldg., CHICAGO.

**DR. ANDREW B. SPINNEY**  
Formerly of Detroit  
Proprietor of  
**REED CITY SANITARIUM**  
THE OLD RELIABLE SPECIALIST

DO YOU WANT FREE CONSULTATION AND CORRECT OPINION OF YOUR CASE.

If you are poor your treatment is free. If you are discouraged and we can cure you, we will wait our pay until you are well. Come and see us; this is your last chance.

We live to do good, are honest with all. Forty-five years' experience free. This trip and today only.

The above is the picture of the only Dr. A. B. Spinney in this state. His history is an interesting fifteen years in private practice, of these in East Saginaw, Mich., with a large practice as a physician then had a two years professor in Detroit Homeopathic College and twenty-two years in Detroit. Had one of Alma Sanitarium eighteen months; about one year, and for the past seven years has owned a sanitarium at Reed City. In December 13, 1902 his sanitarium was burned, some fifteen thousand dollars, but in eight hours he had bought another and in good shape for business again. He will go to Belding, Mich., next spring, where he has a Sanitarium with sixty rooms nearly completed.

There is a firm in Detroit calling themselves Spinney & Co. Their history is this: Anson Spinney founded the same, but he has been dead some three years, as an extract from the Detroit News of September 8th, 1900, will show. The office has been run by his heirs, some physicians in the same that they could not tell about a year ago when Kerigan & Spinney bought them out and have been running the business since. I am the only Dr. Spinney in the state. Have been here forty-five years, so do not make a mistake and do not write the wrong firm if you wish to see me. I am at the Sanitarium every Sunday afternoon in a month. Will be at the place mentioned below as follows:

Are coming to your town on date and at the mentioned and are willing to give you time and the benefit of my forty-four years' experience, free.

matters not how long you have been sick, what your ailment, our consultation and advice is free, and our opinions are always the result of careful examinations and a life-long experience. The patient is always told the truth and upon just what he can rely. To all who are poor we give treatment absolutely free, charging cost of medicine. Operations at hospital free, only charging exact cost while patient is recovering.

any person suffering from PILES or any other disease we will wait for our pay until you are cured. If you will secure us, you will be cured. Come to us and we will cure you. Our prices are the lowest of any chronic disease specialists in the state. Charges at sanitarium only actual cost. We treat all cases of chronic diseases, but special attention given to the treatment of the following standing diseases, viz.: Nasal Catarrh, Bronchitis, Mucous and Tubercular Diseases of Throat, Foreign Growths in the Larynx, Sinusitis, Bronchitis, Bronchial Consumption, Spitting of Blood, Loss of Voice, Endocarditis, Insipient Consumption, Asthma, Dropsy of the Heart, General Debility, Diseases Peculiar to Women, Neuralgia and all cases of Nervous Diseases, Diseases of the Eyes and Bladder, Stricture, Constipation, Hemorrhoids, Club Feet, Cross-Eyes, Tumors, etc., etc. also Jaundice, Dyspepsia, Rheumatism, and all forms of Liver, Stomach and Kidney Diseases.

**Markable Cures** Perfected in old cases which have been neglected or unsuccessfully treated. No elements or failure. Parties treated by mail express, but personal consultation is preferred.

**Member Date** of visit. Come early and be cured. A friendly call may save you future suffering. It has made life anew to thousands who have been pronounced beyond hope. Bring a photograph of your wife, for examination. Address all mail to
