PLANT HAS MADE MONEY

Special Report on Municipal Lighting Plant is Prepared by A. H. Rolph

COVERS ELEVEN YEARS

Statement Shows that Lighting Plant Has made Over \$12,000 for the City

By direction of the City Council A. H. Rolph has made a complete investigation of the financial condition of the Escanaba Municipal Lighting plant and his report which was submitted to the council at a special meeting last night shows that the plant has made a gain of over \$12,000.

Mr. Rolph's report covers all of the financial dealings of the lighting plant with the city and dates back to 1895 when the city purchased the plant. The report covers 119 pages and is a complete detailed report of all the receipts and disbursements of the plant.

The item of taxes which the city would have received had the plant been operated by a private concern, together with the interest on the same, has been charged against the plant and amounts to nearly \$5,000. Interest on the overdrafts of the plant has also been charged and amounts to about \$4,000.

During the past two years the report shows that the gain of the plant has been about \$6,000.

Mr. Rolph's report should establish beyond doubt the fact that the plant is a paying institution and is another argument in favor of the retention of the plant by the city.

NEW CASH REGISTER

In Paul's Billiard Rooms is Beautiful Machine.

Harry A. Paul, proprietor of Paul's billiard room and cigar store, last Monday installed a new cash register in his place of business at 606 Ludington street.

The machine was constructed especially for him by the National Cash Register Co., of Dayton, Ohio, and is a handsome piece of work and keeps a complete record of all transactions in his place of business. Cash sales, credit sales and cash paid out are all accounted for besides keeping general sales separate from the billiard and pool account.

With every cash purchase, the machine throws out a cash register receipt, numbered consecutively, bearing the date of issue, and amount of purchase besides Mr. Paul's business card and a mark to distinguish the class of sale.

These receipts are given to the customers and are good for a chance on a drawing which will take place every evening at nine o'clock. Four prizes are awarded every night. Mr. Paul has been in business here for the past three years and has always conducted a quiet and orderly place, and his recent purchase attests his patronage and the popularity of his store.

COREY BROUGHT BACK

Syrian Fruit Vender Arrested at Cadillac on Serious Charge

Frank Corey, the Syrian fruit vender who formerly conducted a store on upper Ludington street, and who it is alleged eloped from this city with Mrs. Charles Peterson, was arrested last Saturday at Cadillac by Acting Sheriff F. W. Aronson and brought back to this city.

A serious charge is preferred against the prisoner by Charles Peterson, husband of the woman with whom Corey is claimed to have eloped.

Corey was arraigned Monday afternoon before Judge Glaser but owing to the fact that Mrs. Peterson is sick at Milwaukee and unable to be brought to Escanaba at this time, a continuance of the case was asked by the prosecuting attorney until such time as Mrs. Peterson can be brought to this city.

Refused Request

The city council on Tuesday evening rejected the request of Prosecuting Judd Yelland asking that the City Council authorize the city attorney to assist him in the prosecution of the case of the city against Ex-Alderman Edward Smith charged with malfeasance in office. The case comes up in the October term of court and Mr. Yelland pointed out to the council that public sentiment demanded that the case be prosecuted as vigorously as possible.

The aldermen at first seemed willing to grant the request and a motion to grant the request was made.

City Atty. Jennings however raised an objection to the proposition and stated that the council had no authority to appoint him or any one else to assist the prosecuting attorney in the prosecution of a case of this kind. Mr. Jennings declared that such a proceeding was irregular and that should the council appoint him to assist Mr. Yelland, Judge Stone would probably not permit him to act unless with the consent of the defendant.

Primaries Will be Held in City Today and Convention on Monday

It is quite likely that F. W. Aronson will be nominated without opposition for the office of sheriff. Up to several days ago it looked as if there would be a sharp contest for the place between Mr. Aronson and Phil Dupont.

Mr. Dupont has decided to withdraw from the race and there seems to be no obstacles in the way of Mr. Aronson's nomination.

A Whirlwind of Pleasure

Would properly term "A Breezy Time." It is one of the most effective musical farce comedies in town, this year. There is just plot enough to keep people guessing. As to the specialties given by the different members of the company, each one of whom is an artist in his or her line. There has been written many new additions in the line of comedy to "A Breezy Time" for the coming season, and the above company will surpass anything that may be seen here in the line of farce comedy. Although I consider myself cured I keep Doan's Kidney Pills in the house and always expect to. You cannot praise them too highly to suit me."

MOBILE FEARS STORM

CITIZENS DREAD REPETITION OF RECENT BLOW.

BUILDINGS MAY FALL IN

Structures That Stood Brunt of Recent Hurricane Likely to Collapse if Elements Again Grow Boisterous.

Mobile, Ala.—Haunted by the recollection of the great storm which has just passed, sustaining further injury and increased financial loss from a heavy rainfall and fearful of what the morrow would bring the residents of the city of Mobile had a most uncomfortable 12 hours Monday.

Many residents of the place were at times in a state of semi-panic over the dispatches from Washington which directed that storm warnings be displayed along the Florida coast.

There was a slight grain of comfort in the earlier messages, as they did not mention Mobile among the places likely to be visited by the storm coming up through the Gulf of Mexico. Late in the day, however, the name of Mobile was added to the list of places in the path of a possible tornado and Mobile's cup, which had been full of misery all day, commenced to drip over the edge.

It is a fact well known to every inhabitant of the city that a second violent wind coming so closely after that of last week, even though it does not reach the proportion of the recent hurricane, must cause greatly increased injury to the buildings of the city, and possibly some loss of life.

Many structures were weakened so badly by the recent blow that they will not be able to withstand a second attack of even less vigor, and must surely collapse.

The office of the weather bureau was overwhelmed by anxious visitors who called by the hundreds to learn of the probabilities of another storm. Local Observer Aschenberger was able to give only slight information and announced a low condition of his barometer, which was poor consolation for his visitors.

The business houses of the city sustained almost as much financial loss from a heavy rainstorm which set in shortly after midnight Monday and lasted about 12 hours, as from the recent disaster.

BRUTALLY FLOG THE PEASANTS

Cossacks Compel Relatives to Beat One Another With Whips.

Kherston.—Ninety-seven peasants were tried here Monday on the charge of having devastated the estate of M. Krivosheina, formerly minister of railroads.

Sixty-three were sentenced to imprisonment, while 34 were acquitted. The trial brought out a recital of the horrible atrocities committed by the authorities upon the accused.

The chief of the district, accompanied by a detachment of Cossacks, reached the estate soon after the devastation.

All the peasants on the ground were at once gathered in. No investigation was made.

The chief invited priests to administer the last sacrament to the prisoners and then ordered the Cossacks to beat them to death. The butchery lasted for four hours.

Twenty-three peasants were killed and 135 were mutilated. The Cossacks, then thoroughly tired out, compelled the peasants to continue flogging each other, and men had to beat their own brothers, sons and fathers.

The victims of the slaughter were innocent, those really guilty having escaped by flight.

In spite of these revelations the court found sentences as related above.

SHOULD FILE THE STATE RATE

Interstate Commission Issues General Order on New Rail Law.

Washington.—The interstate commerce commission has reached a conclusion with respect to the railway rate law which it has embodied in a general order made public Monday. It holds that where a state rate forms a part of an interstate rate the state rate should be filed with the commission. This is an entirely new feature in connection with the operations of the interstate commerce commission. The further announcement was made that the commission intends, wherever possible, to construe the law in advance without waiting for any particular complaint to be made upon which to base its decision.

BABY'S TORTURING HUMOR.

Ears Looked as if They Would Drop Off—Face Mass of Sores—Cured by Cuticura in Two Weeks for 75c.

"I feel it my duty to parents of other poor suffering babies to tell you what Cuticura has done for my little daughter. She broke out all over her body with a humor, and we used everything recommended, but without results. I called in three doctors, they all claimed they could help her, but she continued to grow worse. Her body was a mass of sores, and her little face was being eaten away; her ears looked as if they would drop off. Neighbors advised me to get Cuticura. Soap and Ointment, and before I had used half of the cake of Soap and box of Ointment the sores had all healed, and my little one's face and body were as clear as a new-born babe's. I would not be without it again if it cost five dollars. Instead of seventy-five cents. Mrs. George J. Steese, 701 Colburn St., Akron, Ohio."

Duse Refuses Jubilee.

Eleanor Duse, the famous Italian actress, has positively vetoed a plan to celebrate her jubilee as was done in England and France for Ellen Terry and Bernhardt. When the subject was broached to the signora she thanked her friends but declined the honor. She enjoys the distinction—almost unique in her profession—of shunning everything in the shape of publicity. As a general rule she also scorns the usual artifices of her sex on the stage in the matter of paint and powder, appearing almost as nature made her, rapidly graying hair and all.

"Tips" Given by Monarchs.

King Edward disburses a good deal of money in tips every year. Each visit to one of his subjects costs him from \$1,000 to \$3,000. At shooting parties the gamekeepers get \$15 each and the gamekeepers \$25 or \$50 each. When he goes abroad he does still better. On the occasion of his recent visit to the kaiser he gave away nearly \$10,000 in this way. When the czar visited England he left behind a check for \$15,000 to be distributed among servants who attended him.

HAY FEVER

Cure For The Blues

ONE MEDICINE THAT HAS NEVER FAILED

Health Fully Restored and the Joy of Life Regained.

When a cheerful, brave, light-hearted woman is suddenly plunged into that perfection of misery, the BLUES, it is a sad picture. It is usually this way: She has been feeling "out of sorts"

for some time; head has ached and back also; has slept poorly, been quite nervous, and nearly fainted once or twice; head dizzy, and heart beats very fast; then that bearing-down feeling, and during her periods she is exceedingly despondent. Nothing pleases her. Her doctor says: "Cheer up; you have dyspepsia; you will be all right soon."

But she doesn't get "all right," and hope vanishes; then come the brooding, morbid, melancholy, everlasting BLUES.

Don't wait until your sufferings have driven you to despair, with your nerves all shattered and your courage gone, but take Lydia E. Pinkham's Vegetable Compound. See what it did for Mrs. Rosa Adams, of 819 13th Street, Louisville, Ky., niece of the late General Roger Hanson, C.S.A. She writes: Dear Mrs. Pinkham:

"I cannot tell you with pen and ink what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered with female troubles, extreme lassitude, 'the blues,' nervousness and that all-gone feeling. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it not only cured my female derangement, but it has restored me to perfect health and strength. The buoyancy of my younger days has returned, and I do not suffer any longer with despondency, as I did before. I consider Lydia E. Pinkham's Vegetable Compound a boon to sick and suffering women."

If you have some derangement of the female organism write Mrs. Pinkham, Lynn, Mass., for advice.

"SAVED BY a GIRL"

Once Again the Summer Girl Has Proved Herself a Real Heroine with a Remarkable List of Successful Deeds of Courageous Rescue.

Which is the braver—man or woman?

This is a question that nobody can answer, for the simple reason that it is impossible to tell to what degree of heroism either will go when occasion demands. A little girl of five, who under ordinary conditions would scream at the sight of a tiny flame, will dash through a conflagration to save the life of a baby brother who has fallen into the blaze.

A young woman daintily clad and afraid in her normal mood to go into the water without holding to the life-line, will, forgetting self entirely, plunge into the stormy flood to rescue a drowning person as quickly as the trained life-saver.

Compared individually with members of the opposite sex, women today stand forth ahead, says the New York World. For instance, the summer girl and the summer man, classed together in ordinary affairs, are far apart when it comes to matters of heroism. It is the summer girl who shows "the real stuff" when it comes to a pinch.

All summer long there have been young women who have performed deeds of splendid daring. Many of them have not been reported in public print.

This attribute of bravery on the part of our women is not new. This summer's exhibitions of it are only new. And it is only meet that the story of some of them should be told again.

When young Earl Buckley fell from the pier into the sea at Island Heights, N. J., only Mrs. V. Floyd Campbell heard his cry. She screamed for help. Then, as she saw the lad rise and sink out of sight again, she plunged into the water. She was fully clothed and swam with difficulty. There was still enough life in the boy when she reached him and enough of desperate terror to make him very dangerous. He grabbed Mrs. Campbell, and with arms around her neck and legs twined about her body, clung with a death-grip.

Then came a frantic struggle for life. She struck the boy in the face and tried to choke him. His weight and her heavy clothing bore them far under the surface. When they rose again she put forth all her strength to drag their weight nearer the shore, where the shallows would give her a foothold. Her efforts were successful and thus she brought the boy to land, and together they fell on the beach, exhausted.

At Lake Hopatcong Miss Edna Hartman saved the lives of four drowning persons on as many occasions. Miss Hartman is only 18 years old, very pretty and a splendid swimmer. Another heroine of Lake Hopatcong is Miss Effie Field, of Rutherford, N. J., who plunged into the water in her Sunday finery and rescued Walter Hutchinson, a 12-year-old boy, in the nick of time.

Mrs. Frederick G. Ware has just added another rescue to the 14 she has made in the nine years that she has lived near the canal at Ansonia, Conn. She has saved six boys, four girls, three women and two men from drowning. Her latest rescue, and one of the most difficult, was that of Mrs. Charles Cahill, who fell into the canal where the water is 12 feet deep. Mrs. Ware leaped in after her, fully dressed, and after a hard struggle in the presence of several men, who were too frightened to give aid, brought the unconscious woman to shore.

Saved Two from Death. Then there was the brave rescue by Mrs. Frederick E. Crane, of Brook-

Mrs. Frederick E. Crane.

Syn, of her ten-year-old daughter and the latter's playmate, who together fell off a pier into deep water at Saybrook, N. J. She went in after them. Encumbered by her heavy clothing, she performed a great feat of physical prowess in bringing the two girls safely to land, where she herself sank exhausted from the shock and strain. And not least among the water ho-

roines is Miss Mamie Sheehan, of this city, who a few weeks ago plunged into the Navesink river and saved the life of James Edward Connolly, a retired merchant of Washington, and personal friend of President Roosevelt. Miss Sheehan swam a long distance to reach Mr. Connolly, who had fallen into the water from a canoe and could not swim. With consummate skill she brought him safely to land. Miss Florence Bowen, a pretty Chelsea girl, saved the life of her six-year-old nephew when they were well out at sea. The little lad fell out of the boat in which the two were rowing and sank. When the child came to the surface he was some distance from the boat, and Miss Bowen saw there was not a moment to lose. She sprang into the water and swam to the youngster. She got a firm hold of him and piloted him back to the side of the boat.

Eleven-Year-Old Heroine. And this brave deed was equalled,

It not surpassed, by the achievement of little Mary Edick, age 11, granddaughter of United States Commissioner Shields, in saving the life of her playmate, Tommy Williams, age ten. It was in the Hudson river, off Grand View. Tommy had swam out into the river a long distance—much longer than he had ever attempted before—and then discovered, out there all alone, that his strength was failing. That discovery brought panic, and, with a scream for help, he sank. At first Mary, watching his pranks from the shore, thought he was still playing. When he rose to the surface only the back of his head showed, and again he disappeared. Instantly Mary dived from the pier and swam with all her strength toward the ripples. As Tommy came up she seized him by the hair. Holding him at arm's length and swimming, "sailor fashion," with the other hand, she made for the shore, crying for help. Mr. Edick heard her calls and helped her at the shore to take the unconscious boy from the water and to restore him to life.

The summer's deeds of the girl hero include the capture of many burglars. The record of her accomplishments in this line have made many a pretty story. The World Magazine has told how Mrs. Esther Evans, the plucky little janitress at the apartment house, No. 128 West Twenty-ninth street, has captured since June 29 seven burglars and turned them over to the police.

Seized and Held Burglar. Then there was Mrs. Margaret Hayes, who found a man ransacking the rooms of a boarder at No. 907 East One Hundred and Sixty-fifth street. "What are you doing here?" she asked him. "I'm looking for a girl," he said. "What is that in your hand?" she asked, pointing to a gold watch. He dropped it and tried to push past Mrs. Hayes. Instantly she grabbed him by the throat. In the struggle the fellow dropped a "jim-

my." Her calls brought aid, and the burglar was arrested.

But the interest always comes back most strongly to the woman who rushes voluntarily into danger to save the lives of others. Near Cedar Grove, N. J., a horse attached to a light runabout became frightened at a passing auto and dashed at high speed along the turnpike. In the carriage were two girls, and in her fright the one who was driving dropped the reins. The horse was on a dead run when it approached a field in which Miss Pauline Weiss was picking daisies. The two girls were clinging to each other and crying out in terror. Miss Weiss dropped her apron, half filled with flowers, vaulted over the four-rail fence and ran to the middle of the road. She seized the bridle of the horse as it got abreast of her, and held on, swaying back and forth and sawing on the bit, for more than a hundred yards.

Quite similar to this was the daring act of Mrs. George Corwin, of Stamford. She seized the bit of a frantic horse dashing toward a crowd in the main street of Bridgeport, and by her courage and presence of mind undoubtedly saved the lives or limbs of more than one person.

Miss Annie Barner hesitated not a moment to risk a horrible death under the wheels of a Pennsylvania railway train at Elizabeth, N. J., to save the life of two-year-old Edward Copeland, who had wandered to the track. The speeding locomotive was almost on him when Miss Barner climbed up the steep embankment, seized the child and drew him out of danger.

Fought with Mad Dog. The terror that a mad dog inspires in the mind of a young woman did not cause Miss Anna Winters, 17 years old, to hesitate when the moment

scarcely injured, while the little heroine was severely burned about the face and chest.

Another "little mother" of five years, Hannah Lavin, of No. 774 East One Hundred and Fifty-seventh street, was left alone to care for her two baby brothers while the real mother went to market. When Mrs. Lavin returned there were fire engines and an excited crowd in front of the house and smoke was pouring from the windows of her flat. She swooned in attempting to make her way through the halls, suffocating with smoke, to the third floor, where she had left her

Miss Anna Winters.

children. But meanwhile little Hannah had worked her way out of the burning flat, little three-year-old Joe clinging to her skirts and the one-year-old baby in her arms, covered with an old shawl to shut out the sight and suffocating smell of the smoke. Willing hands were ready at the last flight of stairs to help the little heroine and her charges.

VOTE-BUYING IN ENGLAND.

Bribery Rampant at the Close of the Eighteenth Century.

Votes have been purchased shamelessly and on a huge scale in British elections. An arrangement was once made in the borough of Wendover by which two candidates were to be elected after a distribution of £6,000 (\$30,000) among the voters. The account reads: "This being settled a gentleman was employed to go down, when he was met according to previous appointment by the electors about a mile from the town. The electors asked the stranger where he came from. He replied, 'From the moon.' They then asked, 'What news from the moon?' He answered that he had brought from hence £6,000 to be distributed among them. The electors, being thus satisfied with the golden news from the moon, chose the candidates and received their reward."

At Hindon a man dressed fantastically as the dancing Punch called at the house of the voters and left behind him sums of five to ten guineas (\$25 to \$50). Another device was to collect the citizens at the inns and hand them their reward through a hole in the door. For these offenses the house of commons passed a resolution that Hindon should be disfranchised, but so lax were the morals of the time—the close of the eighteenth century—that the resolution was never acted upon.

Again in 1859 the "Man in the Moon" turned up in Wakefield. He went about openly distributing money and did not appear to be in the least ashamed of his occupation. At Dublin, in 1868, a hole in the wall served the purpose of a distributing center for the £5 (\$25) notes, while at Shaftesbury an alderman paid through a hole in the door of his office a sum of 20 guineas (\$100) to each elector.

WRESTLING IN SCOTLAND.

Athletic Sport on the Famous Field at Grasmere.

The sports field at Grasmere lies at the foot of a characteristic ridge of fells, very narrow at the top and as steep nearly as the side of a house. As you sit in the grandstand this ridge rises up in front of you.

On the bare, precipitous slopes of it the guides' race is run. On the verdant lawn on which the grandstand is placed the wrestling matches are held and those spectators who are not in the stand make a ring around the lawn. There are coaches and carriages, too, all around, on which people sit and watch and have picnic luncheons, and it all looks rather like Lord's cricket ground reduced in size. In Cumberland wrestling the fall is won directly a man is thrown to the ground. There is no need to pin the shoulders down as in Graeco-Roman wrestling. Here at Grasmere all is ended just when the Graeco-Roman catch-as-catch-canners would be getting to the serious work. Were it not so the Grasmere sports would last all the year round. As it was, several matches went on at the same time.

Many of the men had their thighs embroidered with wonderful flowers or designs in silk or wool—the work of their women folk, who were now straining to get a glimpse of how the charm worked from the swaying ranks of the people around the ground.

Boys wrestled; men with white hair, who had gained in experience what they had lost in elasticity, wrestled. The boys seemed to be young Orlando temerarily trying a fall with the Charleses of the profession, and who knows that there was not some Rosalind who saw it all dimly from the crowd and was ready to say afterward, "Sir, you have wrestled well and overcome more than your enemies."—London Standard.

From the State Capital

Information and Gossip Furnished by Special Correspondent at Lansing.

Lansing.—Lansing educators will

take part as usual in the coming meeting of the state Teachers' association at Battle Creek to be held in conjunction with a general state institute called by Superintendent of Public Instruction Kelley. While Lansing schools have not been ordered closed it is believed the number from here in attendance will be usually large. The dates for the convention are Thursday, Friday and Saturday, October 25-27. At one of the general sessions Friday, Hon. H. R. Pattingill and Deputy Superintendent French will discuss the subject of needed school legislation in Michigan. Principal N. B. Sloan, of the high school, is chairman of the high school section, and one of the papers before that section will be read by H. E. Gardner, of this city, on "Essentials and Nonesentials of Geometry." Superintendent W. D. Sterling will take part in the discussions of the school board section. In the primary section, Miss Lois Wilson will read a paper on "Primary Reading." Miss Frances J. Squires is secretary of the kindergarten section and Miss Gertrude Camp of the drawing section. The programme for the meeting is just out. Among its features will be: Report of a commission on a uniform course of study for grades; addresses of Hon. N. C. Shaeffer, of Pennsylvania, on "Training in Morals in Public Schools," and on "The High School Problem;" Prof. Vincent, of Chicago university, on "Psychology of the Child-Group," and "Type versus Talent in Education;" Miss Laura Fisher, of Boston, on the Educative Value of Kindergarten Methods; County Superintendent O. State's Work is Stopped.

Routine work is piling up in the capitol on account of the staff of clerks devoting all their time in an effort to satisfy Candidate Kimmerle that the state government is a well-conducted institution. He wants to know the cash balance in the treasury at the beginning and end of the Winan's administration and succeeding years, the amount of money received by the state from the general government in 1890 and succeeding years and the rate of interest each year since 1890, and actual receipts of the state and state institutions outside of the tax levy during the Winan's administration and since 1890.

Dispute Over Primary Vote.

The vote for congressman by Kent county at its primary on September 11 is open to attack. The other counties of the district voted on the day, prescribed in the general primary law, September 4, but Kent waited until its own county primary, a week later. The notice that the primary should be held September 4 was given by the secretary of state, but was disregarded. The vote cast on September 11 is considered illegal.

Blamed for Lineman's Death.

The Michigan State Telephone company was blamed in a verdict of the coroner's jury in the case of Burton W. Evans, line foreman, who was electrocuted on a pole. It was declared that the company should have taken better care that its wires did not sag onto the lighting wires where they cross. Evans' shock was received through a telephone wire that came into contact with a city lighting wire.

Socialists Nominate Ticket.

Saginaw Socialists have nominated a full county ticket and Benjamin R. Cushman for mayor and Albert Eynon for state senator. Cushman is endorsed by the labor party. The Prohibitionists named a full county and legislative ticket with William A. Hearrt, of Caro, for congress.

C. G. Wing Nominated.

C. G. Wing, president of the Ludington State bank, was nominated by the Democrats of the Ninth district at Ludington, for congress, to oppose James C. McLaughlin. Charles H. Kimmerle attended the meeting and spoke.

Childs to Coach Lansing.

The resignation of Fred B. Close as coach of the Lansing high school eleven, has been accepted, and Harold Childs has been appointed his successor. Close has coached the high school team for eight years and is regarded as one of the best in the state.

State to Banish Quack Doctors.

The state board of examiners in medicine plans a crusade against quacks. The particular marks are said to be alleged "wonder doctors" who work in connection with licensed physicians, the latter of whom sign certificates in case of death. Doctors who do nothing worse than write a prescription in Latin for a man who is terribly ill with a white coating on the tongue and cause him to pay 50 cents at the drug store for some sugar-coated pellets, will not be placed under the ban.

Christian Endeavor Convention.

For the State Christian Endeavor convention, to be held in Lansing, November 1 to 4, the provisional programme gives promise of a very helpful convention. The first public meeting occurs Thursday evening, November 1, when President Chamberlain, of Detroit, will deliver his message, and Rev. E. B. Allen the convention address. Friday's sessions begin with the Bible study and quiet hour led by Rev. Mr. Allen, and the first of a series of such studies conducted by him during the first hour of each day. This is followed by the Workers' institute in charge of C. H. Hubbell, of Ohio, and the business sessions with reports of the state officers. In the afternoon Miss Glenn will preside over a conference on missionary methods, and a practical demonstration of a mission study class, and then follows the rallies of the various denominations. The evening session includes a conference on the local societies and its works, led by Mr. Hubbell. A brief talk by Rev. J. A. Dunkel, of Saginaw, and an address by Rev. Mr. Bissel, a former missionary to India. On Saturday William Shaw, of Boston, will lead the institutes, taking up several topics of interest to all Endeavorers. The district rallies will be held and the Junior rallies will be conducted by Miss Parsons, of Kalamazoo, in the afternoon. Mr. Shaw and Miss Glenn will speak in the evening, and the election of officers will also take place at this session. Sunday will begin with Mr. Allen's quiet hour and include regular church services with Endeavor speakers, and mass meetings for men and women in the afternoon, regular Endeavor services with delegate leaders at six o'clock, and the convention will close in the evening with a special song and praise service, an address and a Christian Endeavor benediction. During the three days of the convention there will be several special features, such as a display of missionary literature and one of strictly Christian Endeavor publications. A reunion of Michigan delegates to the international convention at Baltimore last year will be held and a banquet of the Veteran's union, an organization which includes many of the past and present officers of local society and local county, district and state unions.

Veterans Have Reunion.

The meeting of the twelfth annual reunion of company D, Fourteenth Michigan infantry, which company, during the war of the rebellion, was known as the Lansing Rangers, was held in the G. A. R. hall, and was attended by 30 of the original 110 members of the company, many of them being accompanied by their wives. It is planned to reorganize the old regimental association and to hold a large meeting in this city in about one year. Officers of the company association were elected: President, Hiram Griffin, of Eaton Rapids; vice president, Chas. Hayner, of Rockford; secretary and treasurer, Henry W. Newson, of Grand Lodge.

State Teachers Association.

The next meeting of the Michigan State Teachers' association will be held at Battle Creek during the three days beginning October 25. Under the law teachers are entitled to their time and compensation if they attend the state institute which has been called for the same time and place, but it was stated that there was only a small percentage of teachers who would attend, and it was decided not to close the Lansing schools. Teachers who desire to go may do so.

Named by Saginaw Democrats.

Saginaw county Democrats nominated D. M. Hunter, of Burt, a well-known farmer and merchant, for senator, and Henry J. Zacharias and Edward W. Courtenay for the legislature. Eugene A. Snow won over L. T. Durand for the nomination for circuit judge to fill out the unexpired term of Mr. Snow's brother, the late Judge Byron H. Snow.

Gubernatorial Candidates Work.

Gov. Warner has begun an active campaign and dates are being rapidly filled for him by the state central committee. P. H. Kelley and Congressman Sam Smith will accompany him. Charles H. Kimmerle, Democratic candidate for governor, is campaigning every day.

Universalist State Convention.

The state convention of Universalist churches will be held in this city on October 10, 11 and 12, and a programme is being prepared for the entertainment of the visitors by the ladies' society.

Benefits General Fund.

Penalties exacted from Michigan railroads for failure to pay their taxes during the pendency of litigation, will yield the state a million and a quarter dollars, aside from the magnificent fund that will be distributed to the schools. It is generally understood this money will be placed to the credit of the general fund, although the legality of it is yet to be passed upon by Attorney General Bird. Unless it is appropriated by the next legislature it will materially reduce taxation.

TIME TO GET BUSY

Last week Saginaw witnessed the breaking of ground for the first manufacturing plant secured through the efforts of the newly organized business men's association, and it is claimed that more new industries are to follow. All this has come about because the people of that city have doffed their coats and got busy for the betterment of industrial Saginaw.

Over in Menominee the business men's association have,

FOR BOTH

One disease of thinness in children is scrofula; in adults, consumption. Both have poor blood; both need more fat. These diseases thrive on leanness. Fat is the best means of overcoming them; cod liver oil makes the best, and healthiest fat and

SCOTT'S EMULSION

is the easiest and most effective form of cod liver oil. Here's a natural order of things that shows why Scott's Emulsion is of so much value in all cases of scrofula and consumption. More fat, more weight, more nourishment, that's why.

SCOTT & BOWNE, Chemists

through their untiring efforts, secured a number of new industries within the past year.

They are still pounding away trying to locate more.

What the people of Saginaw can do; what the people of Menominee can do—the people of any city can do. Any city or community can hustle for itself and cities, like individuals; must hustle to progress.

It is time that Escanaba made an effort to push to the front as a manufacturing city. It is time for the business men and citizens generally to get together and start the ball rolling. Let us not stand idle while other cities all around us are pushing to the front. It is no time to stand idle; let us "get busy."

There is no valid reason why Escanaba should not get her share of manufactures; no reason why we should not push to the front and line up with other cities all around us.

We have the natural resources; we are blessed with excellent shipping facilities, both by rail and water.

All of these things count in the struggle for commercial supremacy and we have them. What we need is the "push and go" and we can make of our beautiful city one of the commercial centers of northern Michigan.

We hope Governor Warner will find it possible to spend a day or two in our county. His honesty and straightforward manner of doing what he thinks he ought to do has made him popular with all our people and he can help us." This statement was made by the committee chairman of the county that two years ago regarded Fred M. Warner as a weak candidate. Many of the Republicans of that county believed what was said of him by his political opponents rather than what was known of him by his neighbors and friends, but they all know him now, and it is safe to assume that Governor Warner will come nearer receiving a full vote of his party at the coming election than has any republican candidate for Governor during the past many years.

There is talk of an independent Republican ticket to be placed in the field this fall in opposition to the regular Republican ticket. We are at a loss to understand how such a movement could start in the Republican ranks and doubt if it originated there. The nominees on the Republican ticket are all good competent men and worthy the support of the Republicans of this county for a second term. They were regularly nominated at a Republican convention and no opposition to any of them developed either at the primaries or in the convention.

We prophesy that the name of "Independent Republican" will draw very few votes from the regularly nominated Republican ticket this fall.

There will be a vigorous prosecution of the case against Ex-Alderman Edward Smith. The prosecuting attorney feels that public sentiment demands it and has asked the City Council to authorize the city attorney to

For Lung Troubles

Ayer's Cherry Pectoral certainly cures coughs, colds, bronchitis, consumption. And it certainly strengthens weak throats and weak lungs. There can be no mistake about this. You know it is true. And your own doctor will say so.

"My little boy had a terrible cough. I tried everything I could hear of but in vain until I tried Ayer's Cherry Pectoral. The first night he was better, and he steadily improved until he was perfectly well."—Mrs. S. J. STEELE, Allen, Ill.

assist him with the case. The Council has refused the request however, believing that the whole burden of the prosecution rests with the prosecutor's office.

The nominees on the Republican County ticket do not feel any apprehension over the fact that there may be a so called "Independent Republican ticket" in the field this fall. In fact they would rather see a contest of some kind than have the election go by default.

Headache Causes and a Cure

Blood pressure or congestion—a rushing of blood to the frontal region is the direct cause for all headaches. To cure instantly and positively, this pressure must be relieved and the blood sent to its proper channels. Dr. Shoop's Twenty Minute Headache Cure never fails—it puts into circulation congested blood which presses and irritates the nerves. In handy tablet form—pleasant to take. Suited for all temperaments. For sale and recommended by

At The Grindstone

The man who toils on and on, just to make ends meet and getting nothing ahead is said to have "his nose on the grindstone" all the time. There are thousands in this sad plight, and all because they do not apply business methods to their private affairs and make their running expenses LESS than their earnings. The difference—even though it be a small difference—would gradually grow into a comfortable balance in the bank. That gives independence, comfort and finally relief from the "daily grind." Try it—next month but NOW. Open a bank account with \$10, \$5, or even \$1. It is immaterial what the AMOUNT of the deposit is—MAKING THE START is the important thing. Three per cent interest paid.

Head Ache Sometimes?

If so, it will interest you to know that it can be stopped with Dr. Miles' Anti-Pain Pills; and without any bad after-effects, and this without danger of forming a drug habit or having your stomach disarranged. They positively contain no opium, morphine, cocaine, chloral, ether or chloroform in any form. Dr. Miles' Anti-Pain Pills relieve pain, and leave only a sense of relief. The reason for this is explained by the fact that headache comes from tired, irritable, turbulent, over-taxed brain nerves. Anti-Pain Pills soothe and strengthen these nerves, thus removing the cause. They are harmless when taken as directed.

"We use Dr. Miles' Anti-Pain Pills for the cure of headache, and we think that there is nothing that will equal them. They will cure the severest spell of nervous or sick headache in a very few minutes. I am of a nervous temperament, and occasionally have spells when my nerves seem to be completely exhausted, and I tremble so I can scarcely contain myself. At these times I always take the Anti-Pain Pills, and they quiet me right away. It is remarkable what a soothing effect they have upon the nerves."
MRS. F. E. KARL, Detroit, Mich.

"No Millinery Like Ours"

This little phrase was never demonstrated more forcibly than during our opening days, as evidenced by the great throngs of women who visited our MILLINERY Section. Words of praise were heard everywhere about the store---the Styles are so pretty this season.

One woman who attended the opening, said: "Why, you have the loveliest hats in town." Another woman whispered to several of her friends who were viewing all the other Millinery Openings about town: "Why, this store shows the most and prettiest hats of any of them and the PRICES ARE REASONABLE, TOO."

Having noticed that we could not show our black hats during the regular Fall Opening, on OCTOBER 8th and the following days we will make a very special showing of Rich Black Hats and Trimmings---all at Special Prices.

KRATZES' THE HOME OF "SINCERITY" CLOTHES

Our Showing of Fall Styles is Unexcelled in Desirability or Value.

When we speak of values, we imply the existence of two things—moderate prices and unquestionable quality. SINCERITY CLOTHES—and we are exclusive agents for this great line of clothing—combines these two very attractive features. We know personally of many instances, where the same goods of other makers are sold at an average of \$3.00 per suit more than we ask. The name of SINCERITY CLOTHES rests on their unquestioned quality of materials and workmanship. It is claimed that 80 per cent of all clothes are doctored with the hot flat-iron in the course of making. Faults that occur in the cutting or sewing, that should be corrected by hand needle work, are "covered up by SHRINKING or STRETCHING by Doctor Goose the hot flat-iron." SINCERITY CLOTHES are revised when necessary by old-fashioned hand-needle work and it is this fact that enables us to guarantee them against the faults of ordinary clothing. We invite your inspection of the many new styles and fabrics.

He cut its throat and then went to the house for a rope to drag home his game. When he came back after an absence of five or ten minutes; Lo! and behold, his deer was gone, and that young person's visions of venison steak went likewise. AMERICAN OCCUPATION OF CUBA IS ATTACKED BY THE MODERATES

Executive Committee of Party Deposed from Power Scores Representatives of United States for Alleged Rank Par- tiality in Espousing Cause of Rebels and Making Their Demands Part of Their Creed.

Havana.—Opposition to the American occupation of Cuba and the rule of Gov. Taft is already developing. The executive committee of the moderate party, which was deposed from power, is assuming a hostile attitude and in a manifesto issued Monday accuses the Americans of rank partiality in espousing the cause of the rebels and making the rebel demands a part of the conditions laid as obligatory in settlement.

In addition to this the first anti-American demonstration occurred in Havana Monday evening, when a band of 150 academy students and other youths straggled through the downtown streets shouting "Viva the Cuban Republic!" and "Down with American control!"

These unfavorable developments took place after a series of events during the day which made things look bright for Gov. Taft and his plan of pacification and reconstruction of the Cuban republic, chief among which was the enthusiasm with which a large crowd of the best people in Havana greeted his address to the graduates of the university.

Taft Gets an Ovation.
In this address he reassured the Cubans of the honesty of the American

eventually restore to Cuba the integrity of her situation.

Speaks at the University.
The ties which unite America, as protector, and Cuba as ward, seemed strengthened by the events of the day, the chief of which was an address which Gov. Taft delivered to the graduates of the university. The flower of Havana society was present, listened to the governor's assurances of America's kindly intent and his advice to the Cubans and gave him a mighty ovation when he concluded.

Besides this, Gov. Taft arranged with the supreme justices of the republic for the drafting of a proclamation of general amnesty, which will probably be promulgated. Another act which helped to advance the executive's popularity was the rescinding of an order of the Palma administration evicting a number of poor families at Camp Columbia to make room for the American troops.

Following this it became known that Gov. Taft and Assistant Secretary of State Bacon had cabled for their wives to join them here, a step which cannot but be most agreeable to the Cuban people and which will strongly cement the bonds of affec-

tion between them and the American provisional administration.

Gets Enthusiastic Greeting.
The presence of the secretary of war of the United States in Havana and his assumption of the government of Cuba were unreservedly and enthusiastically approved by the highest intellectual, social and business elements of the capital at the university ceremony. The audience, in addition to 75 students who, according to the custom here, graduate at the beginning instead of the close of the college year, consisted of 700 persons, divided equally between men and women.

The welcome accorded to Gov. Taft and Assistant Secretary of State Bacon was unexpectedly vigorous and spontaneous. It began from the moment of their arrival and increased as the governor uttered sentiments regarding the American occupation which found an answering response in the hearts of all present.

The arrival of Gov. Taft was the signal for enthusiastic applause. He entered accompanied by Assistant Secretary of State Bacon, Capt. McCoy, his personal aid-de-camp; the American minister, Mr. Morgan, and Judge Schöenrich, of Porto Rico, and was conducted by Dr. Berriel, rector of the university, and Lincoln De Zayas, acting secretary of public instruction, between lines of capped and gowned university professors, to the presiding seat in the center of the platform.

Welcome Was Genuine.
The applause continued throughout the time occupied by the governor's entrance and left no doubt of the genuineness of his welcome. After the annual address on the history and progress of the university, which was delivered by Dr. Manuel Rodriguez, professor of mythology, Gov. Taft presented the diplomas to the successful students and then made a notable ad-

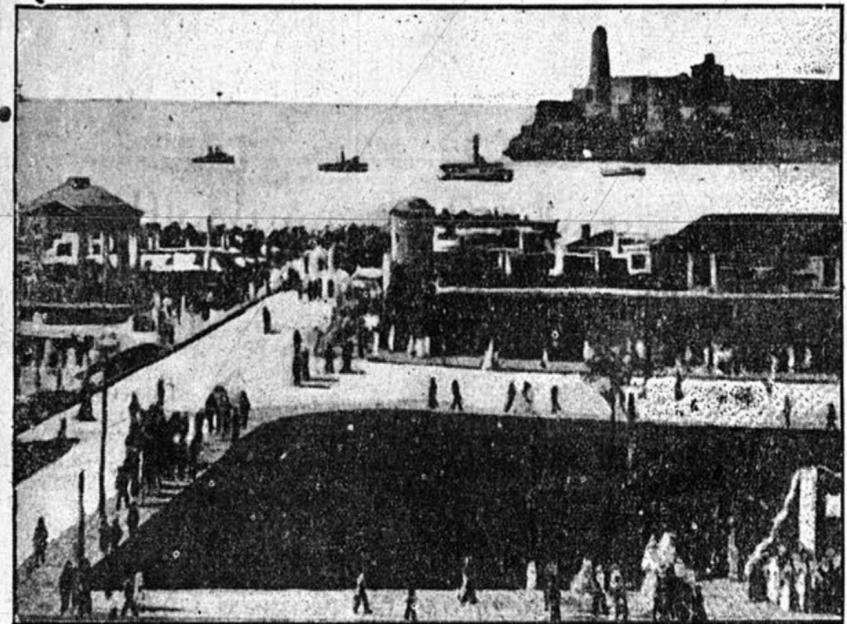

dress, the spirit of which was that the intervention of the United States was undertaken solely to assist Cuba and the Cubans and that her future was dependent upon her young men.

Mr. Taft spoke impressively in English, which many of his auditors understood, pausing at every sentence for its interpretation by Judge Schöenrich, amid applause and frequent college yells.

The governor concluded with the words "Viva Cuba!" and the cheering which ensued continued uproariously for five minutes. At the conclusion of the governor's speech scores of prominent men and women crowded about him, demonstrating their sympathy with his work and anxious to shake hands with him.

As the governor and his party were leaving the university the students and others crowded about Mr. Taft's automobile, cheering for President Roosevelt, Gov. Taft, the United States and Cuba.

Befriends Poor Families.
Learning that many poor families occupying the temporarily disused barracks at Camp Columbia were about to be summarily evicted by order of the Cuban authorities in prep-

government in its capacity as protector of the new republic. These declarations resulted in an ovation which lasted fully five minutes and which plainly indicated that the cream of Havana's citizenship welcomed the American intervention, but likewise desired that Cuba's independence should be safeguarded.

The manifesto of the executive committee of the moderate party strongly implies that the American commission is to blame for the intervention. It summarizes the attitude of the party, eulogizes ex-President Palma, his actions and his resignation, reiterates the legality of the last election and denies all responsibility for the revolution and the results thereof.

The manifesto asserts that the bases presented by President Roosevelt's commissioners were practically the same as those submitted by the liberals. In justification of their action in deserting congress the moderate leaders say that intervention was then already an accomplished fact.

Call Americans Unjust.

They consider the intimation of the American commissioners that the retention of the presidency by Senator Palma was the only possible solution bringing a result other than intervention impossible, and they declare furthermore that they were not able to assist in a congress whose powers had been declared illegitimate.

The document says also that the American commissioners in order to back their erroneous interpretation of the situation sent a letter to the speaker of the house stating positively certain conditions as essential for the person eligible to the presidency. The moderate party could not act without liberty of action and it therefore resolved not to return to congress. In conclusion the manifesto says the party will always sustain social order and these same principles which will

ation of the occupation of the quarters by the brigade of marines, Gov. Taft directed that these people remain undisturbed in their homes for a period of 15 days. In the meanwhile a portion of the marines will remain under canvas. The order of eviction had been issued in the name of the provisional government.

Upon hearing of the plight of the present tenants of the barracks, Gov. Taft went to Camp Columbia in an automobile, explained that he had not been aware of the conditions and rescinded the order. He left the camp amid cheers and warm expressions of gratitude from the people.

The news of this act of humanity spread rapidly and received the highest praise. These evidences of American good will have earned such general favorable comment that the landing of the battalion of marines which will constitute the garrison here caused hardly a ripple of excitement.

Rebels Guard the Roads.

Outside Havana the roads are being guarded by former rebels much more closely than before. Sentinels are stationed every few rods along the principal thoroughfares. The leaders say this doesn't prevent the freebooters from looting and murdering under pretense of belonging to the army.

The men under Pino Guerra and Castillo moved Monday because the places where they had been stationed afforded no more fodder for their horses. No official notice as yet has been given to disarming and disbanding, but the generals insist there will be no trouble when the time comes. Arrangements have been made to begin returning the men to their homes.

"All appears to be satisfactory," said Pino Guerra in his camp at La Violeta farm, near Arroyo Arenas. "I expect to conclude the negotiations so that my six brigades will be back in Pinar del Rio by next Monday."

Supervisor of Indian Schools.
Washington.—Reuben Perry, formerly superintendent of the Navajo Indian agency, was appointed by the secretary of the interior supervisor of Indian schools.

Carries Cargo of Chinese.
St. Johns, N. F.—An American yacht claiming to hail from New York, left Pinar del Rio, having aboard 43 Chinamen, whom it is supposed she is trying to smuggle into Canadian or American ports.

Bad Blaze in Cleveland.
Cleveland, O.—An early morning fire Friday caused an explosion of oil in the building of the Pittsburg Plate Glass company, destroyed that building and communicated flames to a half-dozen other buildings in the congested part of downtown district. A second explosion in the building where the fire originated resulted in the walls falling about 11 o'clock and three firemen were taken to hospitals in ambulances, but none are thought to be fatally hurt. The loss by the fire is about \$300,000.

LAZOR AND TIME SAVERS.

Advice That Will Be Found of Value to the Housewife.

Just knowing when and how to do a few little tricks about the household is of no end of value in saving time, worry and expense. To clean the porcelain kettle, fill it half full with hot water and put in a tablespoonful of powdered borax; let it boil. If this does not remove all the stains, scour with a cloth rubbed with soap and borax.

A cork soaked in oil makes a good substitute for a glass stopper. Apply a drop of oil to the door hinges to keep them from creaking.

Kitchen tables may be made "white as snow" if washed with soap and wood ashes. Floors look best scrubbed with cold water, soap and wood ashes. Add to the covered brick used as a door stop a strip of the covering sewed strongly to the sides, and raised just enough to admit the foot, then lift it by the toes and save stooping.

To purify the air of the cellar and destroy parasitical growth, place some roll brimstone in a pan, set fire to it, close the doors and windows as tightly as possible for two or three hours; repeat every three months.

Half an ounce of gum arabic dissolved in a wineglassful of boiling water, and adding plaster-of-paris to form a thick paste. Apply with a brush to the edges of broken china, and join ends evenly together.

FROM AN OLD COOK BOOK.

Culinary Hints Good To-Day as When They Were Written.

Always have lobster sauce with salmon.

And put mint sauce your roasted lamb on.

Veal cutlets dip in egg and bread crumb.

Fry till you see a brownish red come. Grate Gruyere cheese on macaroni; Make the top crisp, but not too bony. In venison gravy, currant jelly. Mix with old port, see Francatelli.

In dressing salad, mind this law—With two hard yolks use one that's raw.

Roast veal with rich stock gravy serve.

And pickled mushrooms, too, observe. Roast pork, sans apple sauce, past doubt.

Is "Hamlet" with the prince left out. Your mutton chops with paper cover, And make them brown all over.

Broil lightly your beefsteak—to fry it Argues contempt of Christian diet.

Kidneys a finer flavor gain By stewing them in good champagne. By stall fed pigeons. When you've got them,

The way to cook them is to pot them. Wood grouse are dry when cooks have marred 'em; Before you roast 'em, always lard 'em.

THINGS TO BE AVOIDED.

Common Mistakes Made by Inexperienced House Furnishers.

House furnishing is one of the most difficult of arts, especially to the ambitious housewife, who is not quite certain that her taste is all that might be expected of her. A few "don'ts" will give her a little help.

Don't place a bronze figure of mercury in a window where it appears to be pulling down the drapery with one hand and crushing down a lamp shade with the other. Place the statue where it will seem less destructive.

Don't place a lamp near the lace curtain, or in any other part of a room so that it will keep nervous people on the point of starting off for the fire brigade.

Don't place marble busts or bronze figures where they look so insecure that reading a book near them in comfort is an impossibility.

Don't choose pedestals that are so ornamental that the objects placed on the pedestals become secondary in importance.

Don't buy pedestals any way, if you can avoid it. If you must have them, don't place them so near your library shelves that the books cannot be taken out without moving all the furniture.

Soups for Cold Weather.

When cold weather sets in then is the time for hot soups. Cream soups are the rule in summer. Fruit soups, to introduce midsummer luncheons, and even dinners, are more and more used every year in country houses. Stew fresh cherries, blackberries or raspberries in as much water as there is fruit. Then mash them, press them through a sieve to extract the seeds, sweeten, thicken slightly with arrowroot and simmer gently until the soup is limpid. A little lemon juice or wine can be added for zest. Or red currants may be used with the fruit. Fruit soups are served ice cold in bouillon cups. Two or three fresh cherries or berries are sometimes floated in the cups. Grapes may be used when cherries are out of season.

Take Care of the New Broom.

Just as it is quite true that "new brooms sweep clean," so it is also true that by a little care and forethought these same brooms may be kept in that desirable condition.

A broom not in use always should be kept upside down, so that the straws fall outward. This keeps it in shape. In sweeping, use first one side and then the other. If you sweep always on the same side of your broom it will soon grow one-sided and have to be cast aside. When, however, a broom is not badly worn, only matted out of shape, it can be straightened by wetting, pulling into shape and drying, bottom upward.

MICHIGAN EVENTS NOTED

MRS. DOWIE SAYS SHE IS DONE WITH ELIJAH II. FOR ALL TIME.

THEN ELIJAH II. LAUGHED

Brings Suit to Set Aside Two Deeds She Says She Was Forced to Give the Prophet.

Parted Forever.

In an interview Mrs. Jane Dowie, wife of John Alexander Dowie, "Elijah II.," said that she and her husband are completely estranged and that under no circumstances will she ever go back to him. She politely says he belongs to the "down-and-out club." Gladstone, her son, sides with her.

Mrs. Dowie waxes very warm when the name of her husband is mentioned. She says he is only a big humbug and fraud and that at the very zenith of his power he would often laugh and remark, "How easy those people in my congregation are."

Mrs. Dowie has brought suit in Muskegon to set aside two deeds to Dowie's former retreat at White Lake, known as Ben MacDhul. She charges that she executed the deeds as the result of undue influence.

Dowie recently declared publicly that he had not known a moment's happiness with his wife for 25 years, as she was constantly nagging him. Mrs. Dowie charges that he even threatened suicide if she refused to do his bidding.

Their trouble is said to have really begun a year ago last summer, when they were living at Ben MacDhul. Dowie suddenly left the retreat and Mrs. Dowie says that a few days later her husband's agents came to her with the demand that she deed over the retreat to her husband. She says that they threatened Dowie would secure a divorce, publicly scandalize her and depose her from the church. Under this pressure, she says, she signed the deeds, although certain Dowie had no grounds for divorce.

Boomer's Dream.

It was a lovely dream that D. A. Boomer, Michigan Central night operator at the Jackson junction, had when he thought or professed to think that he had been assaulted by three bold, bad highwaymen, just as Lloyd A. Dynes, at Gallen, and Harry Armstrong, of Ward's Crossing, had, but alas! his dream is o'er.

Detectives of the Michigan Central reported after a full investigation that Boomer had tried to work a bluff in order to get a day job.

They say he wasn't assaulted at all and that the crime, which was heralded as a counterpart of the Dynes and Armstrong assaults, was but the creation of his fertile mind.

Mr. Boomer has lost his job, even the night one.

Restored by X-Ray.

Unable to understand why his 3-year-old daughter, Paula, had suddenly been deprived of both speech and hearing, the Rev. Edward L. Bartke, pastor of the German Lutheran church of Florence, had an X-ray examination made, disclosing the fact that one-half of a peanut had found lodgement near the left eardrum and was pressing against the membrane. The nut, which showed signs of decomposition, was removed, and the child is recovering the use of those senses. The child had either sniffed the nut up through the nose, or the nut had become imbedded in the ear and had worked his way to the point whence it was abstracted.

He Denies It.

C. A. Boomer, Michigan Central operator at the lonely telegraph station east of the junction, whose reported assault was declared to have been a ruse to relieve himself of night work and get another job through a play on the sympathy of railroad officials, says the stories to this effect are unqualifiedly false. Boomer says he has not been discharged, that he resigned at the solicitation of his wife and was notified to report for duty last night.

Alleged Fraud.

The United States has begun suit to recover \$4,000 pension money from Henry Loucks, of Carson City. It is charged that, although Loucks enlisted in Co. K, Twenty-first Michigan, he fought his way only as far south as Bowling Green, Ky., and that he deserted and lived in Canada till the close of the war. He applied for a pension in 1880 and convinced the pension officers that the entry "deserted" against his name was incorrect. He was granted a \$6 pension, which was later increased, but has now been altogether stopped. His \$800 farm in Montcalm county is attached.

Eight Hundred Idle.

Hundreds of lives were endangered by fire which broke out in the North Kearsarge branch of the Osceola Consolidated mine in the eighteenth level of No. 1 shaft. The alarm was spread and the miners made a mad rush for the drifts connecting with No. 3 to the northward. They were then hoisted to the surface. Both shafts are sealed airtight and the only method of combating the flames is to cut off the supply of air and smother the fire. Nearly 800 men are thrown out of work.

A number of Owosso and Cofunna business men are going to appeal to the wholesale houses of Detroit for help in inducing the Grand Trunk to run another train into Detroit.

The history of the University of Michigan from 1837 to 1906, a work commenced by Prof. B. A. Hinsdale and completed after his death by Prof. Demmon, has just been printed.

Miss Katherine King, daughter of Prof. and Mrs. Harry E. King, of the University of Pekin, has entered the University of Michigan. They were rescued from Pekin by a vessel at the time of the Boxer uprising.

THE OWEN CASE.

Meeting of Owen and Miss Curtis After Coroner's Verdict.

After the verdict had been rendered in the case of Mrs. J. B. Owen, of Lansing, which set forth the fact that she came to her death through the effects of carbolic acid, but expressed doubt whether she, herself, or others administered it. Chief of Police Behrardt accompanied Miss Maxine Curtis to the home of J. B. Owen. She was after some of her belongings.

Miss Curtis had no conversation with Owen since she had confessed her infatuation. She offered to return to Owen a plain gold ring which he had given her in Detroit, when they were on the way east with the body of his wife. Owen, however, did not care to accept it.

On her return from the Owen house Miss Curtis was asked if she would consider a proposition of marriage from Owen.

"No, not much," she answered spiritedly.

Miss Curtis announced that she would go to Chicago.

Prosecutor McArthur says there will be no further proceedings. There was little evidence for any other theory than suicide, except the showing that, according to Miss Curtis' testimony, Owen had wished himself free to marry her.

The feature of the closing session of the inquest was the reading of two letters received by Miss Curtis, in the handwriting, she testified, of Owen. The latter refused to say whether or not they were his. They were written to her while in Muskegon last July.

Man and Gold Missing.

The stockholders of the Marinette-Nevada Gold Mining Co., all of whom reside in Menominee and Marinette, Wis., are exceedingly anxious at present over the carload of gold ore shipped from their mine near Goldfield, Nev., three weeks ago. The load was worth \$2,000. Herman A. Goethe, of Marinette, foreman at the mine, has also been missing for three weeks. It is feared that foul play is at the bottom of the mystery.

Loss Is \$50,000.

For the second time in 36 hours fire visited the Detroit Y. M. C. A. building Thursday morning and the employees who sleep there had to fly for their lives once more. The whole top floor was gutted and the roof destroyed, while the rest of the building was flooded with water, and will be uninhabitable for some months to come. The loss is at least \$50,000. The other fire, Tuesday-midnight, caused a loss of \$10,000.

No Poles On Her Farm.

Mrs. Fannie Bookes, of Charleston township, objected to telephone poles being set on her property, and backed up her objections with a shotgun. The telephone gang of thirty men backed down and proceeded with their work further along the line.

This was last week, and the telephone posts yet remain to be set, Mrs. Bookes still standing on her shotgun argument.

Goes Free.

J. Harry Cowley, of Lansing, a promoter, who was arrested in August, charged with forging Union Pacific stock certificates, will probably not be prosecuted. After going to great expense in tracing the alleged forged papers through the employment of Pinkerton men, the Union Pacific "got cold feet."

MICHIGAN IN BRIEF.

Supt. Sterling, of the Lansing schools, has given the teachers authority to use simplified spelling.

Solden Allen, an aged and well-known Waverly farmer, was killed Thursday by falling from a load of hay.

The grand lodge meeting and Uniform Rank, Knights of Pythias, field day exercises will be held in Traverse City October 2, 3 and 4.

Patrick Folen opened the door of the oven in the Genesee Iron foundry and saw a kitten sleeping. At the risk of his life he rescued it.

Blood poisoning originating from a silver he ran into his foot last week caused the death of Eugene Goodrich, a pioneer of Atlas township.

William Wilcox, a mining engineer of Norway, was struck on the head with the lever of his engine and instantly killed Thursday. He was single and the only support of his widowed mother.

The wages of the woodsmen are unusually high this fall. The Nester Estate Co. is contracting to pay \$35 a month and board, with a bonus of \$5 a month if the men remain throughout the winter.

Henry A. Rose, manager of the Santa Lorna plantation in Cuba, the property of a Port Huron stock company, has notified the company that a band of rebels recently swooped down on the plantation and confiscated all the horses and mules.

While four men were at work on the F. Armstrong farm, near Beaver, a huge black bear suddenly appeared in their midst as they were standing in a clover field. A panic ensued, but weapons were soon secured. It required ten shots to kill the animal.

Marshal Nolan, of Grayling, is in Saginaw looking for John Jones, a farmer, who Wednesday night started from his home near Grayling to town with \$425. He failed to show up in Grayling and no trace of him has since been found. There is no explanation for his disappearance.

While making an inspection of the Oakland county jail, Turnkey Calbert found a quantity of 22-caliber cartridges in a water tank. They were evidently placed there by a prisoner.

Eight or 10 cars of Lake Shore freight were demolished in Dorr in an accident caused by a broken wheel. An unknown man was thrown over the fence, but escaped unhurt.

The inquest into the death of Chas. Bates failed to clear the mystery. Bates returned to Ortonville from attending the state fair in Detroit and two days later died from injuries which he was supposed to have received at the fair.

Humphreys' Specifics for Children

The introduction of Humphreys' Specifics into the home is often through the children. When your child comes in from play, hot and feverish; and after being in bed, is restless, tosses and mumbles about, a dose of Humphreys' Specific Number One, quiets the child and the chances are largely in favor of the little one waking in the morning perfectly well and happy. Thus serious fevers and sickness may be prevented by keeping this Specific in the house.

Humphreys' Specifics also include the following cures for Children's Diseases: No. 2 for Worms; No. 3 for Colic; No. 4 for Diarrhea; No. 13 for Croup; No. 20 for Whooping Cough.
