THIRTY-EIGHTH YEAR

ESCANABA, MICHIGAN, SATURDAY, NOVEMBER 7, 1908

NUMBER 44

## REPUBLICAN VICTORY

National State and County Tickets Win in This District

BY GOOD MAJORITIES

Strength Expected To Be Shown By Democrats Did Not Materialize

Another Republican victory was recorded in Delta county on Tuesday when the entire national, state and county tickets were given majorities ranging from 1200 to 2000. The result was somewhat different than was expected as it was believed that the Democratic ticket would run stronger. The union labor vote which was claimed by the Democrats evidently did not go that way.

The landslide was quite general throughout the county, every precinct being carried by the Republicans.

### Warner Carries State

Although the returns from the state are not all complete it is safe to say that Warner is elected by a majority of over 5,000. The Upper Peninsula pulled the governor through, giving him a majority of about 20,000. Taft has carried the state by over 100,000. Returns from all the states now show that the Republicans have secured 319 electors and the Democrats 156. The next congress will be composed of 216 Republicans and 175 Democrats.

### All Seek Foreign Trade.

Owners of even the smallest toy manufacturing establishments in the Nuremberg district, Germany, cater to the foreign trade. Factories employing from six to twenty people are no exception to this rule.

### Nationalities Remain Apart.

In the French schools in Aickers and Tuis the Arabic boys sit with the French in school, but out of school they do not mix much.

### Disappointments Lead to Success.

Men's best successes come after their disappointment—Beecher.

### Struck By Runaway

Otto Peterson, a young man living at 115 No. Charlotte street, sustained a broken leg and other injuries, by being struck by a runaway at the corner of Ludington and Charlotte streets Wednesday night.

The runaway started near O'Meara's bakery where a horse and buggy belonging to John Barras was standing. A rig driven at a furious pace by an intoxicated man collided with Mr. Barras' rig and the horse becoming frightened ran east on Ludington street. At the corner of Charlotte and Ludington, the buggy struck a telephone pole and was badly broken up. Mr. Peterson was at the corner and was hit by the buggy and knocked to the sidewalk. He was taken to the hospital where he may be forced to remain for some time. The driver of the rig who started the runaway is known to the police and will probably be required to settle for the damage which resulted.

### WILL PLAY NEGAUNEE

Local High School Foot Ball Team Will Have Hard Game To-Day

The Escanaba and Negaunee High School foot ball teams will battle at the South park grounds to-day to determine which of the two teams will remain in the interscholastic champion race.

The Negaunee eleven has disposed of all the teams it has met so far this season and the game to-day will undoubtedly prove a hard one.

### Tried to Board Train

James Hughes, a stranger, was seriously injured Wednesday night while attempting to board the blind baggage of the south bound North-Western passenger train near the Escanaba station. He fell under the wheels and his right leg was crushed in addition to other injuries about the back. At the time of the accident a boy who was with Hughes at once ran to the station and notified the station officials. The victim was removed to the Delta county hospital.

### McNabb Held Up

Marcus McNabb was attacked by two hold-up men Sunday night near the alley at the rear of the First Presbyterian church. After a struggle McNabb was overpowered by his assailants and his pockets searched. The robbers secured nothing for their pains although Mr. McNabb had a ten dollar bill in a match safe which was overlooked.

## ELECTION RETURNS.

### DEFEATED NORWAY

Escanaba High School Team Victorious By Score of 17 to 0.

The Escanaba High School won from Norway last Saturday by a score of 17 to 0 and is thereby advanced one step further in the interscholastic contest. In Saturday's game the local team showed considerable improvement in form and in both defensive and offensive play completely outclassed their opponents. By being penalized repeatedly in the first half Escanaba was unable to score during that half although they had the oval several times close to Norway's goal. In the second half, the Escanaba team started out with more determination and in five minutes had scored the first touch down. The open style play was used by the locals with good results.

Following was the lineup of the two teams:

Norway	Escanaba
Martina	i. e. Groth
Costa	i. t. Whitney
A. Anderson	i. g. Stromberg
Hellberg	c. Lippold
Sharley	r. g. Grosneek
Olsen	r. t. Kelly
Bostrom	r. e. Jensen
Johnson	q. Matthews
Oliver	i. h. Manning
Perkins	r. h. F. Hirn
W. Anderson	f. b. Hill

### "A Prince of Sweden"

New, fresh and bright as a copper cent, fresh from the mint, now comes that favorite Swedish Dialect Comedy Drama, "A Prince of Sweden." Comedy Dramas seem to be the attractions that draw the crowds now-a-days and so far this season "A Prince of Sweden" decidedly held its own. And justly so, for the noted theatrical critics have been a unit in the declaration that the pretty piece takes, ranks side by side with Ole Olson and Yon Yonson.

From its first presentation to the public, the play has proven highly successful and from the time it left its birthplace, its career has been one continual march of triumph.

"A Prince of Sweden," always in the hands of a company of artists, has undergone several changes, all of them for the better, and proceeds smoothly and swiftly and is destined for a long and prosperous career because it is one of the few plays written in America that will always be interesting. And the tale that the Prince of Sweden tells is amusing and interesting enough for anybody's taste. Carl Olson, the peerless impersonator is to be seen in the leading part while the balance of the company comprise a list of talented artists. To further enliven and brighten the evening's performance, the management has added at a great expense seven or eight highclass specialties which are alone said to be doubly worth the modest price of admission to be charged for the coming engagement here, on Sunday Nov. 8 matinee and evening.

### Illegal Hides Seized

On Wednesday Deputy State Game Warden C. E. Hayward seized two packages of hides which were being shipped by express to Oshkosh. The packages when opened were found to contain mink and muskrat skins perfectly cured and it is claimed that the animals bearing them could not have been trapped during the open season which has just passed. One of the packages was shipped by William Allen of Kates and the other by Hans Hansen of Chatham.

The owners have been notified to appear in Judge Linden's court to-day.

### GOT WRONG MAN

Wm. Mason Held Up By Masked Robbers Who Took Him To Be Nick Walch Jr.

William Mason, bar tender at the saloon of Nicholas Walsh Jr., on the Ford River road, was held up by two masked men as he returned to the saloon from a drive to this city. The robbers evidently mistook Mason for Nick Walch for after gagging and tying him securely they searched for a diamond pin and ring which Mr. Walch was known to wear. Not finding these they went away cursing at their mistake. Mason after struggling for two hours was able finally to loosen the ropes and shout for help. William Morrison the night bar tender went to his assistance.

### Limits Number of Saloons

The village council of Munising has passed the following ordinance: "That from and after the adoption of this ordinance the number of saloons for the sale at retail of intoxicating liquors as a beverage in the village is hereby limited to and not exceed nineteen, until such times as the population shall equal or exceed ten thousand, as shown by the last state or federal census; and when the population of said village shall equal or exceed ten thousand, the number of such saloons shall be limited to and not exceed one for each five hundred of such population of said village. The board of trustees of said village shall not at any time approve the statutory bond of any person as a retail dealer in intoxicating liquors (other than as a druggist) so that at any time the number of such saloons may exceed the number limited by Section 1 to this ordinance."

### MUST TIE HORSES

No Horses Will Hereafter Be Allowed to Stand Alone on Streets

In order to prevent another runaway accident such as occurred on Ludington street Wednesday night, Chief of Police George Rowe has announced that he will enforce the ordinance requiring that all horses left alone on the streets shall be tied. There will be no exception made to the rule and all horse owners must comply. Chief Rowe will also see that the horses left to stand are properly blanketed by their owners.

### Young Mother Passed Away

Mrs. Ada M. Adolfsen, wife of Oscar Adolfsen, died Wednesday at the home of the family at 1414 Wells avenue, after an illness from tuberculosis. Mrs. Adolfsen was but 24 years of age and is survived by her husband and a year old babe. Funeral services were held at the Swedish Baptist church yesterday afternoon, the Rev. Antonson of Manistique officiating.

### GREAT INTEREST SHOWN

Many Citizens Attended Meeting At Elk's Hall To Receive Election Returns

The Elks hall was crowded on Tuesday night by many citizens eager for election returns. Arrangements had been made with the telephone and telegraph companies for obtaining the returns at the hall as fast as they came in and the returns were then posted on the bulletin boards.

The meeting was arranged by the Businessmen's association as a smoker and the large attendance showed that the meeting was just what the citizens wanted.

### TWENTY KISSES IN A PLAY

This is the Record in "Quincy Adams Sawyer," That Big New England Play From New York.

If all the world loves a lover, it is equally true that all theatre-goers enjoy a lovers on the stage who are given to osculatory demonstration. There have been many famous kisses on the stage. The first one of note was the Emma Abbott kiss, and more recently there has been the Netherlands-Carmen kiss. Most people would not give the snap of a finger for a play in which they could not see the hero make love to one or more pretty women; they like to see in osculatory exercises as often as the story of the play may permit. The great New England play, "Quincy Adams Sawyer," which is attracting crowded houses everywhere, takes its name from a wealthy young Boston lawyer, who goes into the country for his health, and charms all the village girls. In the play this young hero beats the stage record for kissing. His kissing opportunities in the first and second acts may be limited, but with his osculations of the third and fourth acts he more than makes up for his deficiencies in the previous two acts.

In the third act one may find a good study in the art of kissing. "Quincy Adams Sawyer" is at a good old-fashioned huskingbee, and, when he finds a red ear, takes great pleasure evidently in carrying out the penalty of kissing every girl present. He goes from the free-from-care kiss to the reverent salute he presses on the brow of the blind girl, Alice Pettengill. The actor who plays the role told an interviewer in New York recently that the kissing he had to do was a fearful bore. He looked upon it as having to do so much kissing for so much a week. He complains because the management gave him a number of extra girls to kiss in the husking-bee scene.

"Quincy Adams Sawyer" will be presented in Escanaba at Peterson's Opera House, Friday evening, Nov. 13.

### Child Died Suddenly

After an illness of but a few hours Elsie O'Dess, the six year old daughter of Mr. and Mrs. Frank O'Dess, passed away last Saturday morning at the home of the parents at 319 South Birch street. The little girl although suffering from a heavy cold attended school the day before and took supper with her parents as usual. In the evening however she grew suddenly ill and a physician was called. It was found that she was suffering from a severe attack of pneumonia and her condition became steadily worse until the end came at 10 o'clock on Saturday. Her death is a sad loss to her parents and the sympathy of their many friends is extended to them. Funeral services were held from St. Anne's church on Sunday afternoon.

### Shot in Mistake For Deer

Otto Sternhagen, aged fifteen years, who lives with his parents on a farm twelve miles distant from Florence, is a patient at St. George's hospital at Iron Mountain, suffering from a buckshot wound in the left side. It appears that when young Sternhagen and two of his brothers, who are his seniors, were near the Popple river, Henry Hall a carpenter, living at Florence, a half hour or so before, Sternhagen and his brothers appeared on the scene, Hall had seen a deer near that spot. Not being aware of the presence of the Sternhagens, and seeing the brush move, he fired (thinking it a deer). Hall, like a man, instead of fleeing, stood his ground and assisted in caring for the victim of the accident.

### OLD RESIDENT GONE

Charles E. Brotherton Passed Away After Short Illness on Friday Night of Last Week

Charles E. Brotherton, one of Escanaba's most respected citizens, and a pioneer resident of this section, died on Friday night of last week after an illness of but a few hours. Death came unexpectedly, following an attack of an affection of the liver. Even the members of Mr. Brotherton's family did not realize the seriousness of his condition until the end was very near and his death came as a terrible shock to them and to his many friends throughout the city.

Mr. Brotherton was 74 years of age and is survived by his wife, two sons and five daughters in addition to two brothers. The surviving children are: D. A. Brotherton, H. O. Brotherton, Mrs. M. A. Berrigan, Mrs. F. L. Aldrich, Mrs. A. E. Seaman and Edna and Irma Brotherton. The surviving brothers are Frank Brotherton of Escanaba and Wilfred Brotherton of Marquette.

Mr. Brotherton made his home here for over 40 years. He was employed in the land department of the Northwestern road and was one of the best informed men in land matters in the peninsula. His acquaintance was wide; he had many warm friends throughout this district. Mr. Brotherton was a man of high character and unquestionable honesty and his death is a severe loss to this community.

He was a member of the First Methodist church.

Funeral services were held from the family home on Ogden avenue on Sunday afternoon, under Masonic auspices.

The pall bearers were H. W. Coburn, Solomon Greenhoot, W. J. Hatton, J. M. Miller, H. D. Brainard and James Blake.

### Trains Rural Teachers

With twelve students enrolled at the present time, the county normal training class started in Menominee in September is making good progress. The department was established at the request of the county school authorities, who were handicapped in securing teachers for rural schools. A room was provided for the class in the Roosevelt school building. The department is really under state control. The state furnishes \$1,000 to be used in paying salaries, and the county and city are expected to each provide one-half

## BRIEF REVIEW OF A WEEK'S EVENTS

MOST IMPORTANT HAPPENINGS OF THE PAST WEEK TOLD IN CONDENSED FORM.

### ROUND ABOUT WORLD

Information Gathered from All Quarters of the Civilized World and Prepared for the Perusal of the Busy Man.

#### PERSONAL

President Roosevelt issued the annual proclamation setting apart Thursday, November 26, as Thanksgiving day.

Orville Wright, the aeroplane pilot, left the hospital at the Fort Myer (W. Va.) army post to which he had been confined for six weeks.

After being out two hours, the Jersey City (N. J.) jury in the case of Theodore Whitmore, on trial for the murder of his wife, returned a verdict of not guilty.

William H. Fletner, a New York lawyer with offices in Wall street, was sentenced to one year's imprisonment in the penitentiary for grand larceny.

Rear Admiral Alfred Reynolds Cowden was placed on the retired list of the navy on his sixty-second birthday.

Gov. Curtis Guild, Jr., of Massachusetts was seized with a severe attack of gastritis, the third within a year.

William Montgomery, ex-cashier of the Allegheny National bank, was for the second time found guilty in Pittsburgh of embezzlement and abstraction of funds.

Prince Henry of Prussia spent several hours in the air as the guest of Count Zeppelin, who made an ascension in his remodeled airship. Not only did the prince thoroughly enjoy his experience, but he sat at the steering wheel for many miles of the flight.

Dr. C. S. Mack, coroner of Laporte county, Indiana, resigned to become pastor of a Swedenborgian church in Toledo, O.

Countess Szechenyi, formerly Miss Gladys Vanderbilt, gave birth to a daughter.

Will H. Pettis, former county treasurer, pleaded guilty at Sac City, Ia., to embezzling \$27,000 of the funds of the county and was sentenced to ten years in the penitentiary.

Mrs. Lillian M. N. Stevens of Portland, Maine, was unanimously re-elected president of the National Women's Christian Temperance union.

Edward English, a wealthy lumberman of Mount Vernon, Wash., was kidnapped and forced to write home for \$5,000 ransom, but later escaped.

#### GENERAL NEWS

Newspaper comment, ridiculing or bewailing the negligence of Chancellor Von Buelow and the foreign office officials in letting pass the interview with the German emperor that was printed in London, seems to have made the position of the chancellor untenable and it is believed that his resignation will be offered and accepted soon.

With the refusal of President Castro to revoke his order prohibiting the transshipment of goods for Venezuelan ports from Curacao, in compliance with the demands of the Netherlands government, the early arrival of a blockading fleet of Dutch ships is expected at one of the Venezuelan ports.

About 150 helpless inmates of the asylum for feeble-minded women at Rome, N. Y., were rescued from a burning building.

At Heidelberg, Lee county, Ky., Ephraim Angel and Harvey Ross engaged in a fight, and as a result Angel was shot and killed and Ross was fatally injured.

Fire started by Hallowe'en roysters totally destroyed the Belton (Tex.) compress and 10,000 bales of cotton. The loss will exceed \$250,000.

Forty thousand members of Catholic church societies took part in a parade which closed the centenary celebration of the Boston diocese.

It was reported that Russia was about to send an ultimatum to Austria-Hungary and was mobilizing the army.

While experimenting with his "wind wagon," Dr. Julian P. Thomas, the aeronaut, met with an accident at the Morris park experiment grounds of the Aeronautic society, and was seriously injured.

Invoking only the unwritten law in her defense, Mrs. Nancy Murrill has been acquitted at Jackson, Ky., of murder. She killed Miss Mary Terry, with whom her husband was infatuated.

Oscar Hoganson, a young farmer, was found dead with a bullet hole in his head, near Marengo, Ill.

The Farmers' Society of Equity was organized at Indianapolis, Ind., at a convention of representatives from a number of states.

The executive council of the National Woman's Christian Temperance union decided to hold its 1909 session at Omaha, Neb.

Rev. Dr. M. W. Stryker, president of Hamilton college, was dangerously injured in a runaway accident.

The Chicago-Duluth limited, north-bound, on the Northwestern road, left the track at Kempton, Wis. A number of passengers and several trainmen were injured.

The final hearing of the government's case to dissolve the Standard Oil Company was set for February 23 in St. Louis.

John B. Jackson, a prominent millionaire of Pittsburg, Pa., was thrown from his horse and killed.

While Wilbur Wright, the American aeroplane pilot, was making a flight at Le Mans, France, the motor of the machine exploded.

The first squadron of the Atlantic battleship fleet arrived at Olongapo, P. I.

Many accidents, one of which resulted in the death of a 12-year-old schoolboy in the Bronx, were reported in New York as a result of the 40-mile an hour northwest gale.

Pumped full of air by three friends "as a joke," John Schlink, 21 years old, died in Bridgeport, Conn.

The Grand Trunk Pacific Railway Company let a contract for a 4,000,000 bushel elevator at Fort William, Ontario.

A prominent politician of New York is accused by a New York judge with having engaged in "white slave" traffic.

Orders have been given that the British squadron, under the command of Rear Admiral Sir Percy Scott, proceed to South America on the completion of its South African program.

Thirty-nine New York cooks, laundresses, nursery and chamber maids were the recipients this year of the prizes given annually by the German Housewives' society for faithfulness and length of service.

Winston Green, a negro youth, was electrocuted in the state penitentiary at Richmond, Va., for attempted criminal assault.

As the battleships of the Atlantic fleet proceed to the navy yard they will be painted a slate color.

President Roosevelt has agreed to recommend to congress in his next message the passage of a law to conserve the public health, similar to the one proposed by the American Medical association.

A mob of about 30 men attacked the Roane county jail, Kingston, Tenn., and killed George Cook, held on the charge of murdering John King, a ferryman at Southwest Point.

E. A. S. Blake, a contractor convicted of attempting to bribe John M. Kelly to qualify on the jury to try Abraham Ruef and vote for Ruef's acquittal, made a full confession in court at San Francisco, implicating Ruef's counsel.

The body of a murdered man was found in a sack at Lapham's Lane, Mich.

Eight battleships comprising the second squadron of the American Atlantic fleet, under command of Rear Admiral William H. Emory, arrived at Amoy, China.

Fire broke out in the 11-story Neave building at Race and Fourth streets, Cincinnati, and in the panic that ensued about twenty persons were injured.

Two squadrons of cavalry and a band were ordered to Hawaii as an addition to the garrison there.

Wreckage picked up in the North sea confirms the fears that the steamer Yarmouth foundered while crossing from the Hook of Holland to Harwich. Her crew of 23 men was lost.

Reports from Tampico, Mexico, show that over 50 lives have been lost in the oil fields as a result of the poisonous gases emitting from the big hole in the ground caused by the recent fire.

A dispatch from Smyrna says that the Young Turks, believing that the sultan has a secret understanding with Tewfik Pasha, the foreign minister, have decided to dethrone him and replace him by his third son.

The Barcelona municipality has offered a prize of \$1,000 for the best poster design for advertising Barcelona as a winter resort, and the mayor of the city has especially invited the competition of American artists.

With Gov. Curtis Guild, Jr., making an eloquent plea for religious toleration in its broadest and kindest sense, which brought thousands of Catholics to their feet in wild applause, and prominent Catholics delivering addresses, the opening day of the five-days observance of the centennial anniversary of the founding of the diocese of Boston came to a close. The day opened with a pontifical mass in the Holy Cross cathedral, celebrated by the papal delegate to the United States, Most Rev. Diomedeo Falconio.

Alfred H. Curtis, former president of the National Bank of North America, testified that Charles W. Morse was to blame for the illegal banking transactions of which they are both accused.

"Ted" Burton, under arrest at Reelfoot Lake, Tenn., confessed that information he gave led to the murder of Capt. Quentin Rankin and implicated many persons in the night rider outrages there.

A. H. Curtis, co-defendant with Charles W. Morse, the New York financier accused of violating the national banking laws, took the stand in his own defense, promising to reveal everything.

Nicholas Tschalkovsky, the Russian patriot who has been imprisoned in St. Petersburg for nearly a year, was released on bail.

Mrs. J. I. Petrie of New York was robbed of \$1,700 worth of jewelry on a San Francisco street car.

Rather than face the charge of having stolen money from her employers, Mary Lavin, 50 years old, a domestic employed in the home of Charles and John Cusick of Chicago, saturated her clothing with kerosene and burned herself to death.

Edward Cook & Co., soap-makers, obtained a libel judgment of \$115,000 against certain English newspapers owned by Lord Northcliffe, which charged that the company was attempting to form a trust.

# News Notes from Lansing

Interesting Happenings at the State Capital of Michigan.

#### Lansing.—The fourth biennial international banquet given by the ladies of St. Mary's parish at Monroe, the second oldest in the state, was the social event of the season, and drew the largest and most enthusiastic audience seen in the city in years.

The drill room of the Armory opera house was fittingly and tastefully draped with American colors and the flags of Germany, France and Ireland. Special Treasury Agent Burton Parker of Detroit, was toastmaster. Nearly 1,500 sat down at the tables. The speakers were: Master of ceremonies, Mayor Boyce Dansard of Monroe; address of welcome, Rev. Joseph Joos of Monroe; toastmaster, Burton Parker of Detroit; "French-American," Rev. Lafayette Bancher of Lansing; "German-American," William Vollmayer of Toledo; "Irish-American," William C. Maybury of Detroit; "American Citizen," Thomas E. Wendock of Detroit; the "Ladies," Camillus Carroll of Fort Wayne, Ind. The program also included several musical numbers. About \$1,000 was realized, which will go to the benefit of the church.

#### M. A. C. Opposes M. N. G.

Capt. R. C. Vandercrook of the battery of field artillery here has filed a complaint with the state military board that the Agricultural college authorities have fined four members of his command for absenting themselves from college while attending target practice at Sparta, under orders from the state authorities. The four students were fined three dollars each. Adj. Gen. McGurrin has written to the president of the state board of agriculture asking what the attitude of the board is toward the National Guard and whether it is the policy of the college to oppose the work of the military organizations.

#### Two Counties Need \$100,000.

Three hundred and ten families in Presque Isle and Alpena counties alone will need not only assistance throughout the winter and next summer, before crops mature, but will have to be aided with building material, horses' food, clothing and farming implements, if they are to live without suffering. Of these, 185 live in Presque Isle and 125 in Alpena counties. To give them the aid necessary to barely start them anew in life, approximately \$100,000 will be needed. For other fire sufferers throughout the state fully \$25,000, if not more, will be required. These are the estimates made by the state commission appointed by Gov. Warner to supervise the relief of the forest fire victims in northern Michigan.

#### Not Much for Depositors.

Creditors of the Farmers' and Merchants' bank, an institution which was run by Henry and George H. Seymour at Sherwood, until the owners filed a petition to be declared bankrupts, will realize from \$15,000 to \$20,000 of the \$40,000 liabilities, according to estimate made before Referee in Bankruptcy H. P. Davock. George H. Seymour, the son, testified at the hearing before the referee that he did not know that the bank was insolvent until the day before the petition was filed. The business of the bank was carried on in a small room. The large safe stuck about six feet out in the woodshed. A loan of \$14,000 to the Sherwood Heading Company, it is alleged, precipitated the failure.

#### Pastor Resigns; Will Be Tried.

Rev. George B. Lyford, pastor of the Ross Memorial Congregational church at Port Huron, has resigned on request of the trustees of the church and will be tried by the official board on charges which are not made public. The charges have been the subject for gossip by members of the congregation for some time and a woman's name has been brought into them. Rev. Mr. Lyford is 52 years old and had been twice married. He has three children, an infant a week old, a girl of ten years by his second wife and one of 16 by his first. Rev. Mr. Sutherland of Lansing occupied the pulpit at the services and will remain for the trial of the accused minister.

#### Warner Sued by Hillsdale Man.

Papers have been served upon Gov. Warner, Mr. and Mrs. L. A. Britton of Hillsdale having commenced suit for personal damages, aggregating \$6,000. While the governor was campaigning at Hillsdale nine weeks ago, Britton's horse became frightened at his approaching automobile. The horse plunged over an embankment, throwing the occupants out of the carriage.

#### Chelsea Bank Pays \$70,879.

Receiver Wedemeyer of the failed Glazier State bank at Chelsea, has paid the state of Michigan \$70,879.77 on the account of its deposit in the institution. Including the \$50,000 paid by one of the surety companies on Glazier's bond to the state there has been received \$326,625.11, nearly 50 per cent. of the state's deposit in the bank when it failed.

#### Would Aid Companies.

Insurance Commissioner Barry will send H. A. Chapin, a department inspector, into Presque Isle county to investigate the condition of the two mutual fire insurance companies on which will fall a greater part of the fire losses in the county. It is believed that the companies have been hard hit and that some way may be devised to aid them.

#### Five Thousand Teachers Meet.

Delegates attended the fifty-sixth annual meeting of the Michigan State Teachers' association, which was held in Saginaw. They found the city profusely decorated. There was a "free" concert for teachers only at the Auditorium. The program was entirely grand opera, some of the leading artists of the country appearing. The alumni banquet for graduates of the University of Michigan was held at the Saginaw club. Indications pointed to an attendance of more than 5,000.

#### September Banner Month.

The state fair assisted in making September the banner month of the year for the Detroit United railway. The gross earnings for the month were \$668,489, an increase of \$2028. Expenses and taxes were \$423,136, an increase of \$475. This leaves \$245,353 net, an increase of \$1,755. Other income amounted to \$5,028, an increase of \$1,184, making the total income \$250,581, an increase of \$2,939. Deduct from this charges amounting to \$135,049, an increase of \$2,085, and the surplus for the month remains \$115,532.

#### Rules no Ballots Necessary.

The attorney general's department mailed letters to the county clerks of this state informing them that the question of the adoption of the new constitution might be placed on Abbott voting machines, and that no ballots were necessary where the Abbott machines were used.

#### Will Buy Rifle Range.

At a meeting of the state military board here Capt. Beckwith of Bay City was authorized to close the deal for the purchase of land three miles south of Bay City for use as a rifle range for the Bay City and Saginaw militia. The range will be 1,200 yards long and 110 yards wide, and will cost about \$1,800.

#### Hazer Expelled by M. A. C.

Hugo H. Lapski of Grand Rapids, a sophomore engineer, was expelled from college for instigating and participating in various hair-cutting and ducking escapades that have been perpetrated upon the freshmen during the last three weeks. The discipline committee is said to have found Lapski guilty of two very severe hazing cases.

#### Three Cities Elect Mayors.

Two other cities besides Detroit—Saginaw and Port Huron—elected mayors at the general election. The Republican organizations in these three cities had local bills passed several years ago throwing the municipal elections in with the general elections, the idea being that the presidential, state and county tickets would pull through the local pretty nearly every time.

#### Sauerkraut Expensive This Year.

According to the predictions of Michigan grocers, sauerkraut will command a better price this winter than at any time in recent years, as the local crop of cabbages is very short, and buyers for kraut manufacturers are in this vicinity buying the crop of the farmers before they have an opportunity to bring the crop to the cities. Cabbages retailed for five and ten cents a head, which is a much better price than has been asked in several years. It is with great difficulty that the grocers are securing a sufficient amount of apples to supply their customers.

#### Lawyer Released from Jail.

C. E. Stone, the Cleveland attorney who was detected placing dynamite on the car tracks, was cared for by local members of the Masonic order, of which he himself is a member. Stone's father arrived from Cleveland to care for him. Stone first came to the M. A. C. several days ago and entered classes, saying he expected to take up farming in the west. He was a bright student and had plenty of money.

#### Obnoxious Rule Omitted.

Some one learned that house rule No. 44, adopted by the last legislature and under which a two-thirds vote is required to discharge a committee from the further consideration of a bill, does not appear in the Michigan manual for 1907. The rule is regarded as obnoxious because it requires 67 votes to take a bill from a committee while only 51 is necessary to its passage. The telephone and telegraph taxation bill was smothered in a house committee because Representative Dust could not muster enough votes to take it from the committee, while having sufficient to pass it. The secretary of state's office it is stated that the rule was omitted from the manual because that part of the "red book" was printed before the house adopted its rules.

# ADMIT THEIR CRIME

## JOHN KURKA AND MRS. SCHULTZ CONFESS TO MURDER.

### GUILTY LOVE THE MOTIVE

#### Michigan Prisoners Tell Police How Woman's Husband Was Slain by His Half-Brother and Body Hidden.

Detroit, Mich.—After confessing their guilt to the police Monday, John Kurka, a teamster, and Mrs. Anthony Schultz were arraigned before Justice of the Peace Gerhard in Ham-track township and pleaded guilty to the charge of murdering Mrs. Schultz's husband, who was a half-brother of Kurka.

The latter said that the crime was attributable to an illicit affection between himself and his half-brother's wife. Kurka had been living in the home of the Schultz couple.

"Annie, I've told them all about it," said Kurka, when the woman was brought before the police after Kurka's confession, and the woman dropped, sobbing and hysterical, into a chair. The police officials sat silent for ten minutes until she controlled herself, and then listened to her story.

According to the two confessions, the police say, Schultz was murdered in his bed about 3:30 a. m., the wife in another room being able to hear the fatal blow of the ax each time it fell. She then was called into the room and lifted the feet of the dead man as Kurka lifted the shoulders while they carried the body to the green dump wagon in which Kurka took it from the extreme northeastern limits of the city, down through Detroit's business section, seven miles, to the secluded lane in the western suburbs, where it was later found hidden under a pile of straw.

#### Two Counties Need \$100,000.

Three hundred and ten families in Presque Isle and Alpena counties alone will need not only assistance throughout the winter and next summer, before crops mature, but will have to be aided with building material, horses' food, clothing and farming implements, if they are to live without suffering. Of these, 185 live in Presque Isle and 125 in Alpena counties. To give them the aid necessary to barely start them anew in life, approximately \$100,000 will be needed. For other fire sufferers throughout the state fully \$25,000, if not more, will be required. These are the estimates made by the state commission appointed by Gov. Warner to supervise the relief of the forest fire victims in northern Michigan.

#### Not Much for Depositors.

Creditors of the Farmers' and Merchants' bank, an institution which was run by Henry and George H. Seymour at Sherwood, until the owners filed a petition to be declared bankrupts, will realize from \$15,000 to \$20,000 of the \$40,000 liabilities, according to estimate made before Referee in Bankruptcy H. P. Davock. George H. Seymour, the son, testified at the hearing before the referee that he did not know that the bank was insolvent until the day before the petition was filed. The business of the bank was carried on in a small room. The large safe stuck about six feet out in the woodshed. A loan of \$14,000 to the Sherwood Heading Company, it is alleged, precipitated the failure.

#### Pastor Resigns; Will Be Tried.

Rev. George B. Lyford, pastor of the Ross Memorial Congregational church at Port Huron, has resigned on request of the trustees of the church and will be tried by the official board on charges which are not made public. The charges have been the subject for gossip by members of the congregation for some time and a woman's name has been brought into them. Rev. Mr. Lyford is 52 years old and had been twice married. He has three children, an infant a week old, a girl of ten years by his second wife and one of 16 by his first. Rev. Mr. Sutherland of Lansing occupied the pulpit at the services and will remain for the trial of the accused minister.

#### Warner Sued by Hillsdale Man.

Papers have been served upon Gov. Warner, Mr. and Mrs. L. A. Britton of Hillsdale having commenced suit for personal damages, aggregating \$6,000. While the governor was campaigning at Hillsdale nine weeks ago, Britton's horse became frightened at his approaching automobile. The horse plunged over an embankment, throwing the occupants out of the carriage.

#### Chelsea Bank Pays \$70,879.

Receiver Wedemeyer of the failed Glazier State bank at Chelsea, has paid the state of Michigan \$70,879.77 on the account of its deposit in the institution. Including the \$50,000 paid by one of the surety companies on Glazier's bond to the state there has been received \$326,625.11, nearly 50 per cent. of the state's deposit in the bank when it failed.

#### Would Aid Companies.

He was a bright student and had plenty of money.

# NEW DISTRICTS AND NEW RAILWAYS

## WESTERN CANADA AFFORDS BETTER CONDITIONS THAN EVER FOR SETTLEMENT.

To the Editor—Sir:—Doubtless many of your readers will be pleased to have some word from the grain fields of Western Canada, where such a large number of Americans have made their home during the past few years. It is pleasing to be able to report that generally the wheat yield has been good; it will average about 20 bushels to the acre. There will be many cases where the yield will go 35 bushels to the acre, and others where 50 bushels to the acre has been recorded. The oat and barley crop has been splendid. The prices of all grains will bring to the farmers a magnificent return for their labors. An instance has been brought to my notice of a farmer in the Pincher Creek (Southern Alberta) district—where winter wheat is grown—who made a net profit of \$19.55 per acre, or little less than the selling price of his land. 30, 40, and 50 bushel yields are recorded there. The beauty about the lands in Western Canada is that they are so well adapted to grain-raising, while the luxuriant grasses that grow everywhere in abundance make the best possible feed for fattening cattle or for those used for dairying purposes.

The new homestead regulations which went into force September, 1908, attracted thousands of new settlers. It is now possible to secure 160 acres in addition to the 160 acres as a free grant, by paying \$3.00 an acre for it. Particulars as to how to do this and as to the railway rates can be secured from the Canadian Government Agents.

"The development throughout Western Canada during the next ten years will probably exceed that of any other country in the world's history," is not the statement of an optimistic Canadian from the banks of the Saskatchewan, but of Mr. Leslie M. Shaw of New York, ex-Secretary of the United States Treasury under the late President McKinley and President Roosevelt, and considered one of the ablest financiers of the United States. "Our railway companies sold a good deal of their land at from three to five dollars an acre, and now the owners are selling the same land at from fifty to seventy-five dollars, and buying more up in Canada at from ten to fifteen."

The editor of the Monticello (Iowa) Express made a trip through Western Canada last August, and was greatly impressed. He says: "One cannot cross Western Canada to the mountains without being impressed with its immensity of territory and its future prospects. Where I expected to find frontier villages there were substantially built cities and towns with every modern convenience. It was formerly supposed that the climate was too severe for it to be thought of as an agricultural country, but its wheat-raising possibilities have been amply tested. We drew from Ontario many of our best farmers and most progressive citizens. Now the Americans are emigrating in greater numbers to Western Canada. Seventy-five per cent. of the settlers in that good country located southeast of Moose Jaw and Regina are Americans. Canada is well pleased with them and is ready to welcome thousands more."

#### MODESTY.

Teacher (encouragingly)—Come, now, Willie, spell chickens.

Willie—I'm afraid I'm too young to spell chickens, teacher, but you might try me on eggs.

Lewis' Single Binder—the famous straight 5c cigar, always best quality. Your dealer or Lewis' Factory, Peoria, Ill.

Many a man lies in an effort to stand up for another.

E. SNYDER, Mgr. 10-31-4w HONE 553

# NOTES FROM MEADOWBROOK FARM

By William Pitt

Rake and burn up the rubbish.

That low, wet ground will do well in Herd's grass.

Kill a sheep this fall and corn the meat. It is delicious.

Never feed more to the animals than they will eat up clean.

Often the pessimist needs a change of diet as much as anything else.

Keep down the weeds in the fall. It will lighten the work in the spring.

Pig raising is most successful where skim milk is a large part of the feed ration.

Machinery all housed? You cannot afford to let the rust eat out the lining of your pocketbook.

Irregular feeding is one contributory cause to horses acquiring the habit of bolting their feed.

Put a mulch of straw manure around the berry bushes and the grape vines, but don't put on too early.

Your first mistake is excusable, your second, never; for no man has any business making the same mistake twice.

The dairyman's profits come in during all the year. That is one reason why that type of farming is better than any other.

A good herd of cows of one breed and in thrifty condition is the best kind of an index to the character of the farmer who owns them.

Colts will not raise themselves. Hit-and-miss methods never yet produced the best horses. Remember that raising colts pays if you give them intelligent care.

Careful feeding can keep up the milk flow. It does not pay to let it run down, for once a smaller yield is established it cannot be increased until after another calving.

The cold rains of the fall prove a great drain upon the vitality of the live stock. The farmer that does not provide shelter for the animals is working against his own interests.

Not only place the farm machinery under cover, but oil it up so that atmospheric dampness will not rust the exposed bright parts. A little time now will save days of trouble next spring.

A tidbit in the way of a piece of sugar or an apple will prove ideal in winning the confidence of the colt. Always have something for him, and you will be proud and delighted at the attention he will shower upon you.

Grade up your dairy cows by using a pure bred bull. It may take a few years to do it, but each year saving the best of the heifer calves will give you, in time a herd of sows that will prove far more profitable than your present herd.

Raise the best crops you can and sell them at the best price you can, but don't speculate. The farmer that begins to deal on the grain market has taken his first step to ruin, for nothing but failure and loss ever came to the farmer who tried his hand at the game.

An old riddle that is being tried on the farmers again is that of selling them a new and wonderful kind of wheat and binding them by a contract to return to the man (who thus places them in a way to get rich), a certain number of bushels of the grain next year. Look out for it.

Sheep that have been a long time without salt are apt to make themselves sick eating too much of it when the opportunity comes. Be regular in feeding it to them, or, better still, provide a box to which the flock can have access at all times. They will help themselves, and will eat only such as is good for them.

Good vinegar can be made from apple parings in the following way: Take the parings and put them in a six-gallon stone jar and tamp them with a potato masher till they are pretty well bruised, then pour water over them till covered. We continue to put parings in till they have been in a week or more, then we strain out the parings and pour the cider into a keg and repeat the operation till one keg is full. We then lay an old piece of cotton cloth over the bung and let nature do the rest. In two months we have a keg of the finest kind of vinegar.

Rape makes a good pasture for hogs.

Plow the land only when it crumbles away from the plow.

Not, "Shall I build a silo?" but "How large shall I build it?"

Get things in shape for the winter. Make the poultry snug.

Try feeding wheat to the hens and see if it will increase the egg yield.

Kind words is the oil that makes the machinery of life run smoothly.

Get after the tent caterpillars in the trees. Cut out their nests and burn them.

Why not a good dairy if a dairy herd at all? You can have such by care in breeding.

Currant bushes should be propagated only from bushes that bear the most and best fruit.

Attend to the tile draining this fall. Perhaps all that ails that young orchard is the need of tiling.

Poison vines growing in the fence corners are poor testimonials to a farmer's character. Dig 'em out.

Good winter quarters must be provided for the sheep if they do well. They need sunlight, fresh air and dry floor.

Neglected to mark the turkeys and now there comes the dispute with the neighbors as to who's who, and what's what.

Pound for pound, sheep manure is three times as valuable as cow manure. One argument in favor of keeping sheep on the farm.

The manure spreader is a drudge saver. Many a farmer thinks he cannot afford one who would find that a few seasons' work would more than pay for it.

The overhead rack is a poor place from which to feed the horse. Besides being an unnatural way for the animal to feed, it causes a great deal of dust, which is a bad thing.

Have a hospital pen where the sheep that give evidence of being sick can be isolated and treated. Many a contagious disease can in this way be kept from spreading in a flock.

Pull a few of the tomato plants on which green tomatoes still hang and put in the cellar. They will ripen and you will continue to have ripe, fresh tomatoes until after Thanksgiving, if you manage right.

The chief trouble with the party line is that some folks make hogs of themselves and monopolize the telephone in visiting to the prevention of the transaction of urgent business by other parties on the same line.

The township or consolidated school for the country districts has this advantage that better teachers and better equipment can be provided at no greater expense than would be required for the several smaller district schools.

No farmer ever did things so well but that somewhere there was room for improvement. Always be on the lookout for better methods and new ideas which will make the work of the farm easier and the productiveness of the farm greater.

Watch the chickens when the farmer is going through the barnyard, and you can often learn a heap as to what kind of a man he is. If the hens run as though in fear of their lives be sure that that farmer has a brutal strain in him which even the chicks have discovered.

Don't let the fences get in bad repair. It is not only an invitation to the stock to get breechy, but it makes the work of fixing them up much more difficult than would have been the case had they been fixed in season. Remember the old adage, "A stitch in time saves nine."

A road which has successfully stood the test of two years at Mankato, Minn., and cost only 80 cents a lineal foot, was made by overlaying the ordinary road with crushed stone and gravel upon which a dressing of cement was spread followed by a coating of sand and then well rolled.

In our opinion the best time for a cow to come fresh is in the fall, for the stimulus which then comes to the lacteal glands will with proper feeding and care continue a good milk flow through the winter; then, with fresh grass in the spring, a still further stimulus is received. On the other hand, the cow that is fresh in the spring receives all the stimulus at once, then as fly time comes she begins to shrink and when she goes on winter feed she falls off rapidly.

A farm paper suggests a use for old tin cans by melting off the tops and bottoms and straightening out the tin and lining the inside of the chicken house. It certainly would make the walls and corners mice and rat proof, but how about the lice and mites? The small overlapping pieces of tin would prove ideal hiding places for the pests. This difficulty might be overcome, however, by whitewashing and making sure that the cracks were plastered flush with the white wash.

**LIVED ON TEN CENTS A WEEK.**

Bill Doolittle's System a Good One, But Not Attractive.

"Dy'u find smoking hurts y'u?" asks Hi Biddle, a Yankee lawyer, in Willie Brook's story, "The Solar Machine," in Harper's.

"It probably doesn't do me any good," I said; "but I'd have trouble quitting it."

"No, y'u wouldn't. Smoke this," He took from his vest pocket the fellow to the stogey in his mouth and tossed it across the table to me. "Ever hear how Bill Doolittle lived on ten cents a week?"

I confessed that Bill's economies had never been brought to my attention.

"Wal," said Biddle, "he took dinner with a friend on Sunday, an' ate enough to last 'im till Wednesday. Then he bought ten cents' worth of tripe, an' he hated tripe so like thunder that it lasted 'im the rest of the week. These seegars work a good deal like that tripe. You take to smokin' 'em, an' y'u won't want more'n one or two a day."

**15 YEARS OF SUFFERING.**

Burning, Painful Sores on Legs—Tortured Day and Night—Tried Many Remedies to No Avail—Cured by Cuticura.

"After an attack of rheumatism, running sores broke out on my husband's legs, from below the knees to the ankles. There are no words to tell all the discomforts and great suffering he had to endure night and day. He used every kind of remedy and three physicians treated him, one after the other, without any good results whatever. One day I ordered some Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent. He began to use them and in three weeks all the sores were dried up. The burning fire stopped, and the pains became bearable. After three months he was quite well. I can prove this testimonial at any time. Mrs. V. V. Albert, Upper Frenchville, Me., July 21, 1907."

**LOCATED.**

"Goodness, sonny, are you in pain?" "Naw, the pain's in me—boo-hoo!"

**Putting it Politely.**

It was evident that the directors were very nervous. Anxiously they awaited the coming of the president, who had summoned them in haste. At length he appeared, greatly distressed. "Gentlemen," he said, "I am very sorry to say that it is my duty to impart to you some disagreeable news. I assure you that this is the saddest day of my life. I would rather have cut off my right arm than been compelled to send for you on an occasion of this kind. It is most—"

"What's the matter?" one of the directors impatiently asked.

"The cashier has aviated."

**Well Prepared.**

"I learn," she said reproachfully, "that you were devoted to no fewer than five girls before you finally proposed to me. How do I know that you didn't make desperate love to all of them?"

"I did," he replied, promptly.

"You did?" she exclaimed.

"Certainly," he returned. "You don't suppose, for a moment, that I would be foolishly enough to try for such a prize as you are without practicing a little first, do you?"

**PUZZLE SOLVED.**

Coffee at Bottom of Trouble.

It takes some people a long time to find out that coffee is hurting them. But when once the fact is clear, most people try to keep away from the thing which is followed by ever increasing detriment to the heart, stomach and nerves.

"Until two years ago I was a heavy coffee drinker," writes an ill. stockman, "and had been all my life. I am now 56 years old.

"About three years ago I began to have nervous spells and could not sleep nights, was bothered by indigestion, bloating, and gas on stomach affected my heart.

"I spent lots of money doctoring—one doctor told me I had chronic catarrh of the stomach; another that I had heart disease and was liable to die at any time. They all dieted me until I was nearly starved but I seemed to get worse instead of better.

"Having heard of the good Postum had done for nervous people, I discarded coffee altogether and began to use Postum regularly. I soon got better, and now, after nearly two years, I can truthfully say I am sound and well.

"I sleep well at night, do not have the nervous spells and am not bothered with indigestion or palpitation. I weigh 32 pounds more than when I began Postum, and am better every way than I ever was while drinking coffee. I can't say too much in praise of Postum, as I am sure it saved my life."

"There's a Reason."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

**KEPT GETTING WORSE.**

Five Years of Awful Kidney Disease.

Nat Anderson, Greenwood, S. C., says: "Kidney trouble began about five years ago with dull backache, which got so severe in time that I could not get around. The kidney secretions became badly disordered, and at times there was almost a complete stop of the flow. I was examined again and again and treated to no avail, and kept getting worse. I have to relieve Doan's Kidney Pills for my final relief and cure. Since using them I have gained in strength and flesh and have no sign of kidney trouble."

Sold by all dealers. 50 cents a box. Fater-Milburn Co., Buffalo, N. Y.

**Unusually Severe Drought.**

The water in Lake Champlain during the recent drought reached the lowest point recorded in local history, nine feet below high water mark. Steamers were obliged to abandon many of their trips on account of the impossibility of making landings at the docks. The mountain brooks became almost dry, and the beds of some of the largest rivers were mere threads of water. The drought and forest fires were ruinous to agricultural interests.—New York Sun.

**\$100 Reward, \$100.**

The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh of the Bladder. It is the only positive cure known to the medical fraternity. Catarrh being a local disease, requires a constitutional treatment. Dr. H. C. Carter's Catarrh Cure is taken directly upon the blood and mucous surfaces of the system, thereby destroying the cause of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have secured the exclusive powers that they offer for the cure of this disease for any case that it fails to cure, and will refund the money.

Prepared by H. C. CARTER, Toledo, O. Sold by Druggists. Take this Catarrh Cure for Catarrh of the Bladder.

**Savagery in Civilization.**

It is no time to say that man cannot, in civilized society, be guilty of cannibalism. I tell you there are more cannibals in New York than in the isles of the Pacific; and if to-day you were suddenly to take away the support that comes from eating men, there would be thousands and thousands of empty maws to-morrow in that city.—Henry Ward Beecher.

Low's Single Binder straight 5c. Many numbers for rent to 10c cigars. Your dealer or Lewis Factory, Peoria, Ill.

There are two sides to every story—and none have four and a ceiling.

Mrs. Winslow's Soothing Syrup. For children teething, soothes the gums, reduces inflammation, cures whooping cough, cures colic.

You don't have to go to a rink to see a lot of cheap skates.

If Cures While You Walk. Allens' Foot and Hand Cream, hot, sweaty callous, cracked feet, chapped chaps.

Stealing time from sleep is a poor way to beat it.

Put new shoes on the youngster. Look at them in a week. They're usually battered, scraped, almost shapeless. Get a pair of Buster Brown Shoes. Scuffing, scraping, kicking doesn't mar them—they thrive on knocks. They wear.

**BUSTER BROWN Blue Ribbon SHOES**  
For youngsters, \$1.50 to \$2.50

White House Shoes for grown-ups. Ask your dealer for them.

**THE BROWN SHOE CO., Makers**  
ST. LOUIS, U. S. A.

**For Sprains**

Sloan's Liniment is the best remedy for sprains and bruises.

It quiets the pain at once, and can be applied to the tenderest part without hurting because it doesn't need to be rubbed—all you have to do is to lay it on lightly. It is a powerful preparation and penetrates instantly—relieves any inflammation and congestion, and reduces the swelling.

**Sloan's Liniment**

is an excellent antiseptic and germ killer—heals cuts, burns, wounds and contusions, and will draw the poison from sting of poisonous insects.

Price, 25c., 50c., and \$1.00.

**Dr. Earl S. Sloan, Boston, Mass., U.S.A.**

Sloan's book on horses, cattle, sheep and poultry sent free.

# INVENTOR EDISON, WORTH \$50,000,000, RETIRES

BY WILLARD W. GARRISON.  
ILLUSTRATIONS BY J. MELVILL.

THE NEW SOUNDER

EDISON IN HIS LABORATORY

THE TALKING MACHINE

**T**HOMAS A. EDISON, known as the "father of invention in America," is worth close to \$50,000,000, it is said. To cap the climax of his career of turning out thousands of useful contrivances, he has retired from the field.

His life is now being devoted to the pursuits of science, merely for the enjoyment which he gleams from that sort of thing. He has awarded himself a life commission of roving into the depths of pure science and he is steering clear of the commercialism which was previously attached to his inventions.

He figures that he has already more than his share of worldly goods and it is his aim to live from his early accumulations for the rest of his life. All his life he has been devoting himself to the invention of money-making devices, which, when put upon the market, drew into his coffers great amounts of coin of the realm.

Hence the laboratory at Llewellyn, N. J., which for years has been his constant habitation, sees little of him these days. In the darkened rooms of that laboratory he often worked for five days and nights at a stretch, with little or no sleep, on some problem which had been given him for solution.

The country's men of money declare that there have been few puzzles which Edison failed to solve, whether they were of chemical, electrical or mechanical nature. Now, however, finances have been put behind him and he is delving into various subjects regardless of the money consideration attached to them. In fact things have come his way so easily in the past few years that there are few fields left for him to conquer, hence his retirement.

To-day, at the age of 61 years, he is roving the country seeking chemical problems which he may solve for his own amusement. No man in the world's history has solved as many intricate puzzles in the realm of inventions as has Edison, and most of his achievements have been in the line of electricity, but despite his many marvels with the mysterious currents, he has not the love for that study that he has developed for chemistry. While there was plenty of mysteriousness about electricity to draw the whole intellect of an inventor, Edison has taken far more interest in the study of chemistry, and, it is recorded, no chemist the world over is quite as efficient as Mr. Edison.

Chemistry was the first science to captivate the wonderful intellect of this man, but he says himself that he has never had the chance to delve into its mysteries with the full power of the fertile mind he possesses. And now he is taking advantage of the opportunity which made itself by reason of his marvelous success in all lines of invention.

He is now taking life more easily than since the time he started out to earn his living as a newsboy at the age of 12 years. His education was a limited one, but, thanks to his mother, he received the essentials of a grammar school education.

He promised his friends that since his announced retirement he would give up slaving days, nights, Sundays and holidays in his laboratory at Llewellyn and he has kept his promise faithfully. He invades the dark corners of his workshop only when some fanciful problem in chemistry presents itself and he feels impelled to get at the bottom of it.

This fall Mr. Edison took jaunts about the country in pursuit of some of the pleasure which his years of work compelled him to miss. He promised himself that he would see something of the world. He aimed to travel a great deal during the remaining years of his life, and he has already laid out a route of travel which will probably occupy his time for several years to come.

Early in 1909 he plans to repair to his new purchased Florida home where he will pass the late winter months and early spring. He took much interest in planning for this Florida home, for it was almost the first time he had any particular longing for a home of high class type. He had previously been so wrapped up in his works of invention that a home to him was a mere vision put aside in a moment by the appearance of a problem which needed solving.

Towards the last of August he departed for the Pacific coast with his family, and he announced on leaving New York that he would be there perhaps a month if the west interested him to that extent. It is hard to interest Thomas A. Edison, and his friends and family know it. He has seen so much more of the wonderful accomplishments of mechanics, chemistry and electricity that there are few problems which can prove of interest.

That the life of Thomas A. Edison has entered a new epoch was evidenced by his recent visit on a fun-making tour on Long Island, where he spent three days. Soon after that visit, however, the spell of delving into chemistry took possession of him and he repaired to his laboratory and was not seen for several days among his friends. Then he departed for the Pacific coast, and Florida will see him early in 1909.

To the art of telegraphy Edison has given many inventions of the greatest imaginable efficiency. The automatic repeater was an evolution of Edison's ideas and also the quadruple telegraph, printing telegraph, etc. It was in his early life, soon after he left the employ of the telegraph companies of the country. Later in life he perfected machines for quadruple and sextuple telegraphic transmission; the carbon telegraph transmitter; the microtasmeter for detection of small changes in temperature; the phonograph, the aerophone, the incandescent light system, the kinetoscope and hundreds of other inventions of somewhat similar nature.

If one scans the average American home of to-day, he sees dozens of Edison inventions in every-day use, and many which the housewife finds she cannot get along without. The visitor entering the hall of a big apartment building is admitted to the flat he wishes to visit by a tap upon an electric bell, the evolution of Edison's experiments with electricity. The place is

perhaps heated by electricity, the heating device being Edison's invention also. On the sitting room table is a phonograph, evolved by Edison. Then there is the telephone, parts of which are products of his wonderful intellect. Those are the principal devices about the household of the middle-class American, for which the world must thank Thomas A. Edison, but, besides these, there are dozens of other small contrivances which few persons know as his inventions.

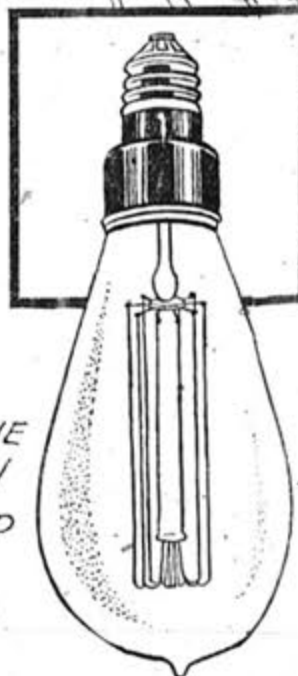

Edison is known as one of the country's most noted men, and, it is recorded, the fame of the inventor seldom attaches itself to his name until after his remains are laid to rest, therefore even greater credit should be given him, for he is a world-famed character despite the fact that he is not dead.

Thomas Alva Edison is an Ohio production. He was born at Milan, O., February 11, 1847. He was the favorite son and his parents Samuel and Nancy E. Edison, while they took great pride in their boy, found themselves incapable of giving him the education that such a bright lad deserved. His mother, however, realized that his intellect was above the average of that of a lad of his age, and having had a fairly good education, as learning went in those days, tutored him at home in reading, writing and arithmetic.

At the age of 12 years home ties were broken and he left the hearth which he had known since his birth to take up a position as newsboy on the Grand Trunk railway. He fell in with many railway telegraph operators, and his love for the mysterious about that vocation led him to study it at the instance of his friends among the knights of the key.

Soon he went into telegraphy actively as an operator and, though he was yet a very young man, he clicked off messages in all parts of the United States and Canada.

Soon familiarity with his instruments led him to see flaws in them and the possibility for evolving new ideas to add efficiency to the system. Telegraphy then was young and there was plenty of opportunity for a wide-awake person to add improvements to the system.

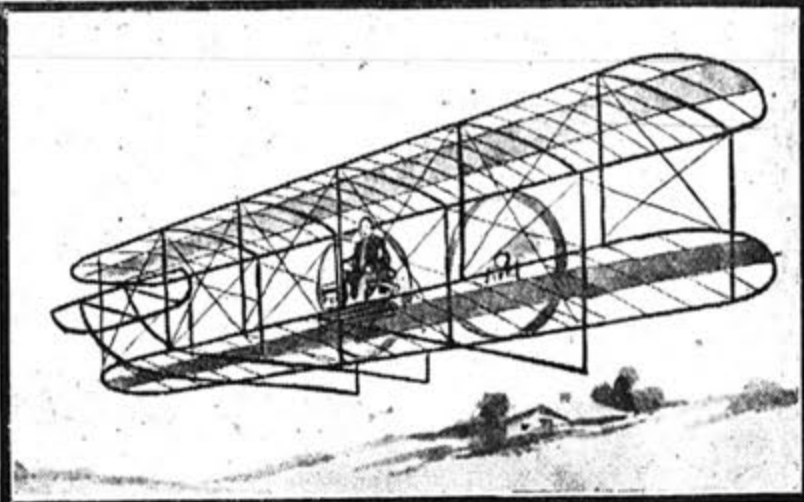

THE NEW LAMP

EDISON AS A TRAIN BOY

THOMAS EDISON

EDISON'S HEAVIER THAN AIR FLYING MACHINE

A few years as an operator sufficed to show him where there was an opening for his ideas. He established a workshop at Newark, N. J., working there evenings while he was employed as a telegraph operator near by. In 1876 he removed to Menlo, N. J., and later to West Orange, N. J.

In 1873 he married Miss Mary G. Stillwell, and his home now is in the town where he established himself when his work first showed signs of success—West Orange, N. J.

Many honors were conferred upon Mr. Edison in his later years. The French government, because of a favor which he conferred, bestowed upon him the titles of chevalier officer, and afterwards he was made honorary commander of the Legion of Honor. In 1903 he was appointed honorary chief consulting engineer of the St. Louis world's fair.

## AGAINST AMBIDEXTERITY.

Sir James Crichton-Browne, lecturing recently at Cambridge, said that in the present movement in England and Germany in favor of ambidexterity he fancied he detected the old taint of faddism. Ambidexterity on a large scale is impossible and undesirable, according to Sir James. It was by the superior need of his right hand that man gained the victory and to try to undo his dextral preeminence is simply to fly in the face of evolution. There has been no instance, said Sir James, of any tribe, community or people that has grown out of it or broken away from it and found salvation in ambidexterity. A recently published book alleged that the Japanese were by law and practice ambidextrous, but he had the authority of the Japanese ambassador emphatically to deny this.

**CHEEVER BUCKBEE**  
315 Dearborn St. CHICAGO, ILL.

**Their Loss Regretted**

The Gladstone Delta learns with regret that the office force of the Cleveland Cliffs Iron Company at that point will be removed to Marquette. It says: So many of our best young men will leave a vacancy in Gladstone—social, political and financial—that will be hard to fill. These men have so long been a force in the life of our city that their removal can but create a feeling of personal loss among all who are a part of that life. It is true that the step has long been in contemplation, and the company has, of course, the best of economic reasons for its action; but the sense of loss will be none the less acute among those who remain behind. The personal loss will be the greatest, but the business men will feel the effects, also.

**Manistique Harbor Improvement**

Graying Bros. of Green Bay have secured the first contract on the improvement of the Manistique Harbor, this providing for the removal of the west pier and building a new one, a work which means an expenditure of \$45,000. The contractors are to commence work not later than May 1st and have it completed by Oct. 15th. The pier will be 350 feet in length.

**Advantages of Wit.**

Man could direct his ways by plain reason and support his life by tasteless food; but God has given us wit, and flavor, and brightness, and laughter, and perfumers, to enliven the days of man's pilgrimage, and to "charm his pained steps over the burning marie."—Sydney Smith.

**Dr. PRICE'S**

**CREAM BAKING POWDER**

Made from healthful grape cream of tartar

Will make twice as much good bread, biscuit and cake, pound for pound, as the low priced imitations made from alum and alum phosphates, and will make the food appetizing and healthful.

Dr. Price's Cream Baking Powder is not only economical but makes the food more wholesome.

Total	\$2,308.17

**Farmer Badly Injured**

Noah Asline, a farmer in the vicinity of Norway, met with an accident late last week which may cost him his life. He now lies in a precarious condition at the hospital, to which he was removed following an explosion of dynamite of which he was the victim. Asline was engaged in blasting stumps. After the man had prepared a charge he sought a safe distance, where he remained for a short time. The powder failing to explode as quickly as he thought it should the farmer walked back to investigate. Just as he neared the stump the explosion occurred, and a piece of the stump struck him shattering one of his legs and otherwise injuring him. Little hope for his recovery is entertained.

### Does It Pay To Go To School?

The Massachusetts Commission on Industrial and Technical Education has made a careful investigation of more than 800 cases of boys and young men and have reported upon the comparative weekly wages of those trained in the shops and those trained in the schools. The results of the investigation of this commission will be of interest to every parent in this city and it would be a most excellent thing if, after reading this article, each parent would have a talk with his own boy respecting its contents. The following table speaks emphatically of the value of school training.

Average wages of boys trained	
In Shops	In School
Age	Week
14... \$ 4.00	
15... 4.50	
16... 5.00	
17... 6.00	
18... 6.00	\$10.00
19... 8.50	11.75
20... 9.50	15.00
21... 9.50	16.00
22... 11.50	20.00
23... 11.75	21.00
24... 12.00	23.00
25... 12.75	31.00

From the above table we see that the average boy in the shops of Massachusetts is able to earn between the ages of 14 and 25 years a total of \$5252. The average boy in Mass. who spends four years in a technical or high school is able to earn between 18 and 35 years a total of \$7863. If the result of this investigating proves anything, it shows that the boy who goes to school until he is 18 years old and works faithfully, by the time he has reached the age of 25 years he has acquired the necessary educational equipment to enable him to earn \$2481 more than his brother who started to work at 14 years of age.

It would be a very interesting problem if a commission could be appointed to investigate the earning capacity of several hundred boys in Delta County who left school at the age of 14 or 15 years and compare these with the earning power of an equal number of boys who completed the course of the city high school. This is a question that interests every parent and guardian in this city and it is possible for any one to investigate the matter far enough to satisfy himself of the value of a boy or girl taking the training of the schools. An educational committee of the American Foundrymen's Association reports that two years at school, from 14 to 16 years, doubles a boy's value in the foundry.

Notwithstanding such reports as the above named which are being made from year to year and the accepted value of school training for boys and girls, there were 36 pupils from 13 to 15 years of age who completed the eighth grade in this city last June who did not report for work in the high school in September. The most of them are kept at home presumably to earn a few cents a day which is all their services are worth. As the school law can not be enforced against any child that has completed the common branches, the question of attending school in the case of an eighth grade graduate is left with the parent or guardian. Any parent who realizes that the few additional years needed to complete a high school course will very soon double the earning power of the boy or girl, will certainly find some way for them to complete a high school course.

**Innocent Suffer with Guilty.**  
There is no sort of wrong deed of which a man can bear the punishment alone; you cannot isolate yourself, and say that the evil which is in you shall not spread. Men's lives are as thoroughly blended with each other as the air they breathe. Every sin causes suffering to others besides those who commit it.—George Eliot.

**Try the Smiles First.**  
Tears are woman's reserve force, to be used only when smiles fail to win.—Chicago Record-Herald.

**Italian Proverb.**  
Little dogs start the bark, but great ones catch it.

### A STEADY DRAIN

Sick Kidneys Weaken the Whole Body—Make You Ill, Languid and Depressed

Sick kidneys weaken the body through the continual drainage of life giving albumen from the blood into the urine, and the substitution of poisonous uric acid that goes broadcast through the system sowing the seeds of disease. Loss of albumen causes weakness, languor, depression. Uric poisoning causes rheumatic pain, nervousness, nausea, cricks in the back, gravel and kidney stones. The proper treatment, and the best remedy is Doan's Kidney Pills. Samuel Peterson, of 514 Thistle Ave., Iron Mountain, Mich. says: "Doan's Kidney Pills are the only medicine that ever did me any good for a bad case of kidney complaint, backache and difficulty with the kidney secretions. I always had pains through the small of my back during the several years I suffered with my kidneys. The secretions were irregular and unnatural in appearance. The pains often came on suddenly and each attack of the trouble was worse than the former. I tried many remedies but nothing seemed to give me relief. I saw Doan's Kidney Pills recommended and got a box. They helped me the first day. I took two boxes and since then have had no further trouble. My back is as strong as it ever was and I have no more pains."

Plenty more proof like this from Escanaba people. Call at Mead Drug Co.'s store and ask what their customers report.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

### Milk Fever

Humphreys' Veterinary Specific A. A. in Milk Fever saves the life of the cow and its usefulness inasmuch as the milk does not dry up under this treatment.

Milk Fever begins after calving. The cow refuses food, is depressed and dull, hangs her head; urine scanty; bowels confined; horns and nose hot; quick pulse; breathing heavy with heaving flanks.

A few doses of A. A. breaks up the fever and saves the cow.

Price 60 cents at all dealers, or sent on receipt of price.

A 500 page Book on the treatment and care of Domestic Animals and Stable Cattle to hang up, mailed free. H. HUMPHREYS' HOME, MEDICINE CO., Corner William and Ann Streets, New York.

### Will Open Important District

Actual construction work has been begun on the branch which will connect Van's Harbor and Garden, Delta county with the main line of the Soo road at Cook's mill. Several crews of men are at work grading the right-of-way and laying the ties and rails. Although no official announcement has been made as to the time that the line will be placed in commission it is believed that trains will be running over the branch before Jan. 1. This improvement will bring the citizens of Garden in closer touch with the outside world. Garden is a model little city. Situated in one of the best farming sections in the upper peninsula, it is a thriving community. During the summer months the residents have the opportunity to get across the bay to Escanaba, but in winter they are practically cut off except by wagon road and the distance around is so far it makes it a tedious trip.

### Notice

State of Michigan Twenty-fifth Judicial Circuit—In Chancery  
Charles Erickson and J. W. Stone, Complainants, vs. County of Delta, in Chancery, at the City of Escanaba, Michigan.  
Adolph Kurz and J. W. Stone, Defendants, vs. County of Delta, in Chancery, at the City of Escanaba, Michigan.  
In this cause it appearing that defendant, Adolph Kurz, is not a resident of this state but resides in the City of Chicago, Illinois. Therefore, on motion of Judd Yelland, solicitor for said Complainants, it is ordered that the said defendant enter his appearance in said cause on or before four months from the date of this order, and that within twenty days the complainants cause this order to be published in the Iron Port, a newspaper published and circulating in said County, said publication to be continued once in each week for six weeks in succession.  
Judd Yelland, Solicitor for Complainants.  
J. W. Stone, Circuit Judge.  
Business Address: Escanaba, Mich.

State of Michigan. The circuit court for the County of Delta, in Chancery.  
Ellen McGraw, Complainant, vs. John T. McGraw, Defendant, in Chancery, at the City of Escanaba in said County on the 24th day of October, A. D. 1908.

In this cause it appearing from affidavit on file, that the residence of the defendant cannot be ascertained after due inquiry and that the complainant, although having made inquiries of the former neighbors and acquaintances of the said defendant and of each of the known relatives of the defendant as would be likely to know the last place of residence of the defendant and is unable to ascertain the same.

On motion of C. D. McEwen, solicitor for the complainant, it is ordered, that said non-resident defendant, John T. McGraw cause his appearance to be entered in this cause within five months from the date of this order, and in case of his appearance he cause his answer to the Complainant's Bill of complaint to be filed, and a copy thereof to be served on said solicitor for the complainant, within twenty days after service on said non-resident defendant of a copy of said Bill and Notice of this order; and that in default thereof, said bill be taken as confessed by said non-resident defendant.

## BLOOD DISEASES

### GUARANTEED CURED OR NO PAY

If you ever had any contracted or hereditary blood disease, you are never safe until the virus or poison has been removed from the system. You may have had some disease years ago, but now and then some symptom alarms you. Some poison still lurks in your system. Can you afford to run the risk of more serious symptoms appearing as the poison multiplies? Beware of mercury or mineral drugs used indiscriminately—they may ruin the system. Twenty years' experience in the treatment of these diseases enables us to prescribe specific remedies that will cure all blood diseases of the worst character, leaving no bad effects on the system. Our New Method Treatment will purify and enrich the blood, heal up all ulcers, clear the skin, remove bone pains, fallen out hair will grow in, and swollen glands will return to a normal condition, and the patient will feel and look like a cured person. Any case we accept for treatment will be guaranteed a complete cure if instructions are followed.

**READER,** if in doubt as to your condition, you may consult us FREE OF CHARGE. Beware of incompetent doctors who have no reputation or reliability. Drs. K. & K. have been established over 20 years. WE CURE Nervous Debility, Varicose Veins, Blood and Secret Disorders, Kidney and Bladder Complaints. Consultation Free. If Unable to Call, Write for a Question List for Home Treatment.
