## PARENTS COMMITTEE FILES PROTEST WITH BOARD OF EDUCATION

### School Board Receives and Considers Grievances of Parents Whose Children Were Denied Diplomas Without Notice Last Spring

## COMPLAINT IS PLACED ON FILE

After being held in abeyance for several weeks the formal protest against the management of the Escanaba public schools and certain practices that have sprung up in past years in the high school department, was filed with the members of the board of education for the city of Escanaba on Tuesday evening by the parents' committee whose children were refused diplomas on the eve of commencement last spring.

The communication was received by the board and after being freely discussed was placed on file and a committee was named to collect resolutions that have been passed affecting the management of the schools and to submit any new recommendations that may be thought necessary.

The protest filed with the board contained three sections of charges and upon which was based the recommendation that the present su-

perintendent of schools should be asked to resign.

In the first section of the protest the theory of teaching advocated by Supt. Davis was attacked, it being held that the advancement of pupils according to age rather than knowledge being radically wrong.

In the second section attention was called to the record made by graduates of the Escanaba high school in higher institutions of learning. A letter from Prof. John O. Reed dean of the literary department of the University of Michigan showed that of six records of the Escanaba students at the university last year, two passed in all subjects, one was conditioned in two subjects which conditions however were removed one was warned and two were placed on probation. The record however did not cover that of all students entered from Escanaba and

## THREE DAYS CELEBRATION OPENS THIS MORNING

### Home-Comers in Escanaba Will be Greeted and Entertained Today, While Tomorrow Big Picnic Will be Launched

Today is home comers day in Escanaba.

Beginning with this morning Escanaba's big three day celebration will be opened and with favorable weather it is hoped to eclipse all former attendance records in this city.

The members of the different committees in charge of today's program will meet this morning at 9 o'clock at the office of Chairman John Power and the day will be a busy one for all of the members.

The members of the several home coming committees are as follows: Transportation, W. W. Oliver, Julius Greenhoot, B. D. Winegar; Music, Patrick Fogarty, John J. Sour wine and M. Priester; conference, Emil Glaser, Ald. James Powers, Matt Priester; entertainment, D. E. Glavin, Patrick Fogarty and Julius Greenhoot.

Today the members of the committee will meet all incoming trains and boats to greet the visitors here. The Escanaba city band will parade the street during the forenoon and

early in the afternoon a meeting will be held at a tent on upper Ludington street, when addresses will be delivered by both home comers and prominent men of the city. Every effort will be made to royally entertain the visitors throughout the day.

Tonight Peterson's hall where the exhibits will be arranged will be thrown open to the public and at 8:30 o'clock the first free street act will be given at Mary and Ludington streets.

Tomorrow morning the big farm ers picnic proper will be opened and two busy days for both the visitors and local people have been planned. Escanaba this morning will put on its holiday dress in honor of the visitors and by night it is hoped that every business place on the street will be decorated with the colors of the grangers.

The city hall has been decorated for the first time in the history of the city and tonight in front of the building the word "Welcome" will be shown in a large electric sign.

## Prominent Local Capitalists Combine in Big Enterprise Which Means Much to the Future of Escanaba

## INHALES GAS TO END SORROW THAT DROVE TO DRINK

### DEATH OF WIFE AND CHILD TAKES ALL JOY FROM MAN'S LIFE.

### MAKES CAREFUL PREPARATION TO SHUFFLE OFF AND LEAVES EXCUSING NOTE.

(Special to Morning Press.)

DETROIT, Mich., Aug. 25.—Fear that the death of his pretty young wife, which was followed after a few weeks by the death of his baby, would make a drunkard of him, led Herman Pollock, an electrician to end an existence that he felt was no longer worth living by turning on the gas.

His act was carried out with a cool attention to detail. He left a letter in which he gave a remarkable exposition of the feelings that led him to bridge the gap between himself and those he loved. It read:

Dear Friends: I am going to my wife and baby, so please don't be sorry, or angry with me. It is either this or take to drink and this is better. I would rather go now while I am respected by you all. Whatever is left after my debts are paid I leave to Bertha Piliash, Tillie Blushen, Herman Hoepel and Herman Mrook to be trustees. Good bye, God has mercy.

HERMAN POLLOCK. Pollock's wife, for whom he showed extraordinary affection, died June 21. On July 12 their baby passed away.

## JOSEPH SEIBEL IS INDICTED BY JURY

### FORMER SHERIFF OF MARINETTE MAKES "NOT GUILTY" PLEA—SIX COUNTS.

(Special to Morning Press.)

MARINETTE, Wis., Aug. 25.—Joseph Seibel, sheriff for Marinette county in 1907 and 1908, has been indicted twice by the grand jury. One containing four counts and the other two. He entered a plea of not guilty.

The first count of the latter indictment relates to a sum of \$198, which it is charged was paid to Seibel June 6, 1908, and that he embezzled it.

The second count alleges that he kept \$72.62 for his own use, June 6, 1908.

The third count alleges that he embezzled \$272.62 paid to him by phrosia Vieau, as a fine against Thomas Vieau.

The fourth count alleges that Seibel pretended he was the proper person to whom such fine should be paid.

The second indictment contains two counts and the dates alleged are May 25; they both relate to a slot machine which was operated in the Umberham place at Crivitz and was owned by Hugo Muehrke.

The first count charges that Seibel received \$30 from Muehrke to influence him against destroying the machine. The second count charges that on the same date Seibel received \$100 from Muehrke in the same matter.

## New Company Will Push Construction of New Interurban Line Which Will Eventually be Extended to Rapid River Two More Power Dams and Mill Will

## ORGANIZATION IS PERFECTED

Announcement was made yesterday that all of the property of the Escanaba Electric Street Railway company and the Escanaba Power company, has been taken over by the Escanaba Traction company, in which the stock is held by a number of prominent capitalists of the city.

The Escanaba Traction company in addition to operating the regular business of the two companies absorbed, will push the construction of the interurban line connecting Escanaba and Gladstone and which line will ultimately be extended to Rapid River.

The company will also carry out the construction of two additional power dams on the Escanaba river and as soon as the necessary arrangements can be made will provide for the building of a big pulp manufacturing plant on the river.

The officers of the traction company are:

John K. Stack, president; J. C.

Kirkpatrick, vice-president; P. L. Utley, secretary; M. N. Smith, treasurer.

The members of the board of directors are: John J. Cleary, J. V. Moran, James Malloy, John K. Stack, J. C. Kirkpatrick, P. L. Utley, M. N. Smith and H. W. Reade, auditor.

The consolidation of the two companies into one large corporation bringing together in a single enterprise practically all of the leading capitalists of the city, means much for the future of Escanaba. The company has already shown that its policy will be a progressive one by completing all plans for the construction of the new interurban line and which extension is to be carried out as soon as possible. The ultimate extension of the line to Rapid River and the construction of a big pulp mill and two additional power dams on the Escanaba river insure a marked addition to Escanaba's industries in future years.

## PICK RASPBERRIES FROM A TALL TREE

(Special to Morning Press.)

BATTLE CREEK, Mich., Aug. 25.—Picking raspberries from a tree is a most unusual proceeding yet this is just what one may do on the J. H. Braun farm, seven miles southwest of Battle Creek.

A giant elm standing on the lawn near the house produces a fine crop of the luscious raspberries every year, that is, the vines that grow in profusion from a big crotch, 20 feet from the ground, do.

It is supposed the vines started from seeds deposited in the crotch by birds years ago.

The tree is at least 75 years old and is still growing vigorously.

## THEY CAN'T PAWN VESSEL LICENSES

(Special to Morning Press.)

CLEVELAND, O., Aug. 25.—The local inspector of steamboats received copies of the amendments to the rules of the steamboat inspection service. The most important ruling made is in section four, which says:

Any license granted to a master, mate, pilot, engineer or operator, pursuant to the provisions of title I.II. of the revised statutes of the United States shall be immediately revoked if for any purpose the holder thereof voluntarily parts with its possession or places it beyond his personal control by pledging or depositing it with another.

## DRUG INSPECTOR LIKES THE U. P.

### SAYS HE HAS HAD NO REASON TO MAKE ANY COMPLAINT.

F. L. Henderson, state pharmacy inspector, is now in the upper peninsula.

This is the second time since the board was established that the pharmacies of this region have been inspected.

Mr. Henderson has found many violations of the law the past year, but he has no reason to complain of the way the druggists of the upper peninsula conduct their business.

He had a druggist arrested at a lower peninsula summer resort a few days ago as he found that he was selling an enormous quantity of beer to resorters. He learned that the druggist was disposing of two wagon loads a day.

## TO SPEND WHOLE FORTUNE FIGHTING UXORICIDE CHARGE

(Special to The Morning Press.)

CASSOPOLIS, Mich., Aug. 25.—Steve Pangburn, of this city, who is awaiting trial on the charge of killing his wife, says that he will spend his entire fortune in his own defense, if for no other reason than to prevent his wife's relatives from benefiting by it.

Pangburn and his wife quarreled and when he began shooting their daughter ran from the house to summon neighbors.

On their return Mrs. Pangburn lay on the floor, dead and the man was beside her slouching a shotgun.

Miss Alice Moody of Ishpeming is in the city as the guest of Miss Elsie Kemmer.

## BOY IS CHARGED WITH MURDER OF FOUR, ONE DAY

### HAMMER AND GUN USED TO MAKE ROBBERY POSSIBLE.

(Special to Morning Press.)

ABERDEEN, S. D., Aug. 25.—Emil Victor, a youth scarcely out of his teens, was arraigned in court yesterday to stand trial for the alleged murder of four persons.

The quadruple crime, which Victor is said to have confessed, was committed on July 2. The victims were John W. Christie, his wife, his daughter Mildred, and Michael Ronayne, a farm hand. The scene of the tragedy was the Christie farm.

Victor was employed on a neighboring farm. Robbery is believed to have been the motive. Christie was agent for an elevator company. He was known to have considerable money.

Christie had been milking a cow when the murderer appeared from behind and felled him with a blow from a hammer. A bullet killing another, attracted still others, who were shot dead.

The boy was arrested next day.

## LONGEST RAISE IN THE IRON REGION

### NEW SHAFT AT A NEGAUNEE MINE BROUGHT UP 730 FEET IN SINGLE LIFT.

The Cleveland-Cliffs Iron company's engineers and miners have accomplished a creditable piece of work in the completion of the 730-foot lift for the new shaft in the Negaunee mine field.

This is, so far as is known here the highest raise ever completed in a Lake Superior iron mine in one lift. There were no accidents.

Before the raise was started several tests of the ground were made from surface. It was thought that quicksand might be encountered. This proved to be the case.

The company plans to make the shaft one of the best and most substantial on the range. The timbering was carried up from the bottom as the workmen proceeded. The portion between surface and the ledge will be lined with concrete.

The task of putting the concrete in position will be easy compared with the work necessary in lining shafts through quicksand from surface before the raise from the underground workings is brought up to meet it.

## COMPLETE PROGRAM FOR LABOR CELEBRATION HAS BEEN FIXED BY THE COMMITTEE IN CHARGE OF BIG AFFAIR

### Organize Labor Will Hold Boards in Escanaba on September 6 When General Holiday Will be Enjoyed

The complete program for Escanaba's big Labor day celebration to be held here on Aug. 6, was announced yesterday. On that day organized labor will hold the center of the stage in Escanaba and a general holiday will be enjoyed by all workers as well as the employing classes. Members of the committee in charge of the plans for the day have been steadily at work on their plans for the past month and every effort has been exerted to plan a celebration that will eclipse any similar event ever arranged here.

The big labor day parade will be formed on Wells avenue at the city hall and will march East on Wells to Tilden, north on Tilden to Ludington and west on Ludington to Charlotte street.

Street cars will be in waiting at that point and the entire crowd of marchers and celebrators will be taken to South park free of charge. Following will be the order in which

the different unions will appear: Local 1832, carpenters and joiners; local 43 lumber hangers, 191 retail clerks, 44 ore trimmers, 144 coal heavers, 340 barbers, 270 brewery workers, 443 teamsters 400 coal holsters 208 top dock workers, 515 machinists, 34 masons, 279 top dock workers and local 268 cigarmakers.

Immediately after the parade the program at the park will be opened with games and music. At 1:30 o'clock the athletic events will be resumed and at 2 o'clock the formal program of the day will be held, with addresses being delivered by Hon. John Power and City Atty. I. C. Jennings. A ball game and other athletic contests will complete the program of the afternoon. The Escanaba city band has been engaged for the entire day and will furnish music at the pavilion while at the park. The big celebration will come to a close with a grand ball at Peterson's hall.

## TRIES TO END LIFE IN JAIL

(Special to Morning Press.)

MARQUETTE, Mich., Aug. 25.—Thomas Pool, who has been confined in the county jail at Baraga on a grave charge, tried to end his life. Pool had been up before Judge Streeter and after having been found guilty was committed to the jail again, to await sentence.

In some way, probably through the aid of some congenial friend, he procured a quantity of cyanide and ended up by drinking about an ounce of it.

Antidotes were given to him and the man recovered.

## FLINT'S TYPHOID EPIDEMIC RAGES

(Special to Morning Press.)

FLINT, Mich., Aug. 25.—Twenty seven people are now confined in Hurley hospital with typhoid and the wards are full.

One death, Vernon Barnes, 18 months, was reported Wednesday.

Nothing has been done to check the epidemic, and the city officials are more alarmed than ever.

Keep your candles in the ice box this warm weather. They will remain beautifully bright throughout a whole evening's use if they are hardened first in this way.

Fervent Prayer That Went Up From Man at Bottom of Well, at Mercy of Wicked Wag.

An old man in Georgia named Jack Baldwin, having lost his hat in an old dry well one day, hitched a rope to a stump and let himself down. A wicked wag named Neal came along just then and, quietly detaching a bell from Baldwin's old blind horse, approached the well, bell in hand, and began to tinging.

Jack thought the old horse was coming and said, "Hang the old blind horse! He's coming this way, sure, and he ain't got no more sense than to fall in on me. Whoa, Ball!"

"Great Jerusalem! The old blind fool will be right on top of me in a minute! Whoa, Ball! Whoa, haw, Ball!"

Neal kicked a little dirt on Jack's head, and Jack began to pray: "Oh, Lord, have mercy on--Whoa, Ball!--a poor sinner--I'm gone now! Whoa, Ball! Our Father who are in--whoa, Ball!--hallowed be Thy--gee! What'll I do?--name. Now I lay me down to sl--gee, Ball!"

Neal could hold in no longer and shouted a laugh which might have been heard two miles, which was about as far as Jack chased him when he got out.

"What might that statue be, Brother Williams?"

Brother William was stumped, but would never confess it.

"That, brothers and sisters," he said, "is a statue of Mass'r Abe Lincoln a-blessing the fruitful fields of old Virginia."

How to Learn. The best way to study nature is to go right to it.

"I suppose so."

"Oh, I know it. I was once disposed to doubt the industry of the ant, of which so much is said."

"And you learned better?"

"I did. I had a controversy with a naturalist over the question, and I thought I had him beaten until he gave me a demonstration."

"Took you out and showed you the ants at work, did he?"

"Well, not exactly that; but he took me along on one of his scientific expeditions, and then maliciously pitched my tent over an ant hill. By the time I discovered what was happening the conviction was forced upon me that ants are really and truly industrious. They are small, but they made me move, and some of them went right along with us to the next camping place."

Stimulus. "Proving, what are you going to do with that?"

BED IS MOST IMPORTANT.

Article of Furniture Upon Which a Generous Expenditure is Wise.

The bed is acknowledged to be the most important article in the house by that law which declares that, no matter what a man's obligations to his debtors, his bed he may not be deprived of.

In choosing the mattress, to begin with, it is well to know that most hair mattresses for full sized beds weigh forty pounds. When the hair is short or they are sometimes made to weigh forty-five pounds.

The prepared cotton felt mattresses are both sanitary and comfortable. They cost about \$15. They are infinitely better than the poor quality hair mattresses.

Cheaper than these and not comparing with them in value are those made of ordinary cotton felt, costing about \$7.50, still better than a poor hair; cotton and wool at \$5, African fiber with cotton top at \$4.50 and, least desirable of all, the excelsior with cotton top and bottom at \$2.50.

In buying mattresses as well as box springs it is well to remember that imperial edges and fancy ticks, although attractive, add no real value to the mattress and increase the price considerably.

The best pillows are made of live geese feathers. The softest are made of live geese feathers and down, but they are not the most practical.

THE EMANCIPATED BEE.

A Story With a Mighty Good Suffragette Moral.

A colony of bees is a demonstration of the capabilities of the weaker sex. They manage everything and see to everything, and the most ardent opposer of the suffrage must admit that the work is well done.

There are other things about bees quite as wonderful as their rule of life. Their eyes reflect in a hundred facets many things which perhaps we cannot see, and those triple eyes set in the center of the forehead may be a powerful vision more wonderful still.

These endowments are no part of their powers of work, for the eyes of the drones are yet larger and more powerful than the eyes of the workers—a necessary qualification, perhaps, for those who look on. Do they criticize the busy Marthas who toil around them, as is often the way of the idle? If so, the workers heed them not, but still go working on.

Mrs. Taft's Log of Travel.

In Mrs. Taft's tally of miles she easily outstrips the wives of all other American presidents since that historic day when Liberty bell rang out its famous message from the town of Independence hall, says Human Life.

She has seen moonlight nights on the broad waters of the Pacific from the bridge of that monster ship, the Minnesota; she has watched the dirt fly at the big ditch down in the Panama country, and she has risked her life on the Transiberia railway in that 6000 mile dash across the gigantic width of Asia which the czar planned as a spectacular affair to catch the world's attention.

On practically all of the missions as a popular peace envoy Mrs. Taft has accompanied her husband. In the matter of distance this would mean more miles than one would care to figure, for no American outside of the navy has ever covered so much of the earth's surface in behalf of the government as the new president.

THE NEW VERB "TO FRIVOL."

It Has Been Coined Recently by the Gay and Rich.

The idle and joyous rich have coined a new term to express their routs and parties.

To frivol is the new verb, and it means anything from tea and toast to dinners and dances.

The dictionary is uncompromising in its definition of the adjective frivolous; also the nouns frivolity and frivolousness and the adverb frivolously, but when it comes to frivolling it is speechless.

"Trifling, of little weight, trivial and unimportant"—so it defines this harmless, inoffending little word. Add to frivol—to tread the flowery path of dalliance through the joyous idle hours—when once it becomes a coined verb, in what harsh terms will the dictionary describe it?

But to me frivol is not a bad word. I feel in the humor to like its sound, for it seems to carry with it all the gaieties of life. It means to laugh, to dance and sing and shout, to idle gravely and not malleously. It means the lighter side of a workaday world. It is a summer word, a word for beaches and picnics. It suggests hammocks under the trees and rocking chairs on broad, cool piazzas.

Rich people claim it as their own, but nobody knows how to frivol better than the hardworking wage earner once the opportunity offers itself. When all the wealth and fashion of Newport meet at a magnificent ball after a day spent in motoring, luncheons, teas, dinners and bridge, they say they have been frivolling. And so they have if they really enjoyed it.

But frivolling and ennui do not go hand in hand. G. K. Chesterton says that only the superficial find life superficial, and he might have added that only the unfrivolous know how to frivol. And, untrue as it may sound, the idle rich are not really frivolous.

They are too stale at the business to know how to practice it. The most frivolous person in the world is a working girl out on a holiday, except perhaps an Italian peasant on a feast day. People whose lives are one continuous relaxation never relax at all. Their nerves are kept on a strain until they are ready to snap, and that is why nervous prostration is a disease of the idle rich. The real secret of relaxation is known only to those who work hard six days in the week and frivol on the seventh.

Rich people claim it as their own, but nobody knows how to frivol better than the hardworking wage earner once the opportunity offers itself.

USEFUL SHOE CHEST.

It Makes For Neatness in the Arrangement of Bedroom.

Nothing makes a room look more untidy than various boots and shoes standing about in the corners or under the dressing table or chairs. Sometimes, it is true, they are tucked away under the bed, but that, although out of sight, is still far from an ideal resting place.

The box get a good sized strong box and after taking off the lid and one of the long slides saw off the corners of the short sides to form the slope for the top lid. A shelf must now be inserted, as shown in the sketch. Part of the lid is replaced and screwed or nailed into position. The two doors or flaps open reverse ways, one upward and one down, the bottom one requiring a catch to fasten into the shelf when shut.

Humor and Philosophy BY DUNCAN H. SMITH

CONTENTMENT.

CONTENTMENT is a happy bird. And many times we fall in our attempt to sprinkle salt upon its nervous tail.

To capture it directions come in neatly printed form. And one would think it easy were to take the bird by storm.

Some tell us if we eat and drink the proper kind of food that we can lay our hands upon a member of the brood.

At any rate, we find it is a most elusive bird that will not come for smiles or frown or for a coaxing word.

Something to Speak Of. A group of proud parents were discussing their youthful prodigies.

"My Mary went into the high school when she was eleven years old."

"My Johnny has caught up three grades already without trying."

"Quite remarkable," commented an older man who hadn't been saying a word, "but do you know my little grandchild had appendicitis before she was three?"

Wife Waiting. "He frequently comes home at 2 a. m."

"Somewhat muddled, I expect?" "Well, his legs are not altogether seaworthy."

The Unattainable. Though great inventions everywhere are more and more applied, of limitations we complain.

Competent Liar. "Why did you leave your last place?" "My last job?"

The Reason. "Look at that man." "I see him." "What makes him so top shoudered?"

Ambiguous. Of all the false philosophers that daily come and go the very worst, it seems to me, not to agree nor disagree.

PERT PARAGRAPHS. Lots of people talk about getting at the truth, but nobody really wants it all.

If one's earning capacity were in proportion to one's spending capacity, what a lot of joy rides some of us would have!

BOY FIREBUGS ADMIT CRIMES

OVER 100 HOUSES BURNED IN CINCINNATI SUBURBS VALUED AT \$200,000.

(Special to Morning Press.) CINCINNATI, Ohio, Aug. 25.—A gang of boys, ranging from 12 to 15 years in age along the little Miami River, have partly confessed to the burning of many houses in Hyde Park, Cincinnati.

Within the last eight months there have been fully 100 fires in Hyde Park. Many looked suspicious.

In confessing, the boys, one of whom is named Dooley, is in the Lancaster (Ohio) Reform School now, have laid themselves liable to severe punishment. They have burned, it is said, fully \$200,000 worth of property.

The police arrested Albert Lem on, aged 15 years, "Lefty" Miller, aged 13, Ray Thompson, aged 13 and Samuel Eastman, aged 15. When taken to headquarters the boys confessed, but said Dooley had been the ringleader.

Their arrest came after they "squealed" on a negro who is said to have stolen a "Johnboat" at their camp.

RABID DRY-LAW FOR ALABAMANS

(Special to Morning Press.) MONTGOMERY, Ala., Aug. 25.—The Fuller bill passed in the senate.

The measure forbids the possession even of liquor, except in private residences, making the accused party prove his own innocence before any evidence against him is introduced.

It makes the use of the word saloon a crime, bars the advertisement of liquors from billboards and signs, and holds that even possession of a federal liquor license is an absolute proof of guilt in selling intoxicants.

STEAM IS CHEAPER THAN WATER POWER

(Special to Morning Press.) SHAWANO, Wis., Aug. 25.—Ex Assemblyman M. J. Wallrich told the special legislative committee on water powers that it was cheaper to ship coal from West Virginia to generate power than to use the water powers in the vicinity of Shawano. Mr. Wallrich favored state control of water powers under a commission similar to the one which now regulates the railroads.

STEAMER IS CUT DOWN OFF DETOUR

SENATOR, DETROIT CRAFT, IS RAMMED AND SUNK BY THE NORMAN B. REAM. MISUNDERSTOOD SIGNALS, AS IS SUPPOSED, SENDS BOAT TO BOTTOM—REAM NOT HURT. The cause of the accident is not positively known. However, it is understood that signals were misunderstood. The Senator was just leaving her dock at Detour when the Ream rammed her. When the crash came the crew of the Ream immediately stood by, ready to man the small boats. When it was found that there was no immediate danger, the Ream proceeded down. She was damaged but slightly. The crew of the Senator has not left its quarters, but is lodged forward, the only portion above water. The steamer Senator is owned by the Wolverine Steamship company. Laden with iron ore bound from Duluth to Cleveland, the Senator passed the Soo at 5 o'clock Sunday morning, in charge of W. K. Nesbitt, captain, and Charles Ernst, first mate.

BELIEVE YANTIC WILL STAY HERE

IF NOT, UPPER MICHIGAN RESERVES WILL GET SMALLER VESSEL. Regarding the rumors that were circulated during the absence of the Yantic, to the effect that the ship would be transferred, officers of the ship are inclined to make light of the matter. On the other hand, it is stated by some of the men on board the ship that from conversation with residents of Milwaukee it seemed to be regarded as almost a certainty that Wisconsin is going to have one of the ships that took part in the maneuvers of the past two weeks. Furthermore, it is stated that a new dock is being built to accommodate a government ship and it is a well known fact that steps have already been started towards enlisting young men of the state of Wisconsin for a naval reserve division with headquarters at Ashland. Captain Guy Eaton of the U. S. S. Gopher, of the Minnesota naval reserves, said that he knew nothing of the reports that Hancock was to lose the Yantic, and suggested that Duluth wants a bigger boat, and that if the state of Michigan can not stand the expense of maintaining two ships of the size of the Don Juan and the Yantic, the Gopher might suit the requirements of the Hancock division.

### VIGOROUS PROTEST

(Continued from page one.)  
therefore could not be taken by the board as representing the actual conditions existing in the public schools.  
Directly contrary to the report made by Dean Reed was a letter attached from Prof. A. C. Whitney, examiner for the university and who has inspected the local high school for several years. In his letter Mr. Whitney says that he considers the grade of work now being accomplished in the Escanaba high school as greatly improved over that of five or six years ago. The only recommendation made by Mr. Whitney was that the standard of salaries paid in the local high school be raised materially.  
The incidents attending commencement of this year when eight students were refused diplomas on the evening of graduation was rehearsed in detail in the communication together with other incidents intended to show existing unfavorable conditions.  
As the board has already taken action that will prevent incidents similar to that of last commencement occurring again it is believed that the matter will now be allowed to drop.

### CURTISS NOW IS "KING OF AIR"

ONLY AMERICAN ENTERED IN FRENCH CONTESTS SETS WORLD'S SPEED MARK.

(Special to Morning Press.)  
RHEIMS, France, Aug. 25.--Glenn Curtiss is now king of the air. He made a world's speed record, covering the ten-kilometer course (six and one-fifths miles) in 8 minutes and 35 3/5 seconds.

This beats the record established a little earlier in the day by Bleriot who took 8 minutes and 42 2/5 seconds to make the round of the course.

This performance proves the Herriot-Curtiss machine the fastest yet built.

Another feature was a flight of one hour and ten minutes, made by Pauthan on a Voisin biplane. At present this is the record for duration at Rheims. The distance covered was fifty-six kilometers, which stands as a record in the Grand Prix de la Champagne.

The Wright machines, which made such a good display yesterday, were in ill luck.

### "STRICTLY FRESH" EGGS HATCH OUT

FOURTEEN LIVE CHICKS FOUND IN CASE SHIPPED INTO CHICAGO.

(Special to Morning Press.)  
CHICAGO, Aug. 25.--Chicken fanciers and commission merchant marveled when a brood of 14 chickens, alive and well, was found in a case of eggs shipped to Chicago from Missouri.

The case was marked strictly fresh. Indisputable evidence that the eggs had hatched in transit was seen.

Incubator experts declared a temperature of at least 101 degrees must have been required to accomplish the automatic hatching. The chickens were given to a teamster and transferred to the care of a motherly Plymouth Rock.

### SHERIFF'S WIFE HAD AN EXCITING TIME

INSANE WOMAN MIGHT HAVE TAKEN LIFE OF MRS. H. O. CLINE.

(Special to Morning Press.)  
MASON, Mich., Aug. 25.--Mrs. Strikland was adjudged insane by the probate court of this county.

The other morning Mrs. H. O. Cline, wife of the sheriff awoke and found Mrs. Strikland standing by her bed and bending over her with a large camphor bottle in her hand which she held over Mrs. Cline's head as though she were going to strike her.

Mrs. Strikland said she was only trying to find out whether she was true or not. After a little while Mrs. Cline succeeded in getting her back to her cell.

### LON. PERRY SAYS HE NEVER KILLED ONE NOT EVEN A BEEF

COLORED MAN CHARGED WITH MURDER INSISTS HE IS INNOCENT.

(Special to Morning Press.)  
LANSING, Mich., Aug. 25.--"I never killed no one, not even a beef. They have got it in for me and have framed up a case against me, but I am innocent of the murder of Lauzen," declared Alonzo Perry, colored, who is under arrest charged with the murder of R. G. Lauzen in this city more than eleven years ago.

The old murder case against the negro was reopened by Chief Behrendt upon the receipt of information from former citizens of Lansing who allege Perry admitted that he hit Lauzen over the head with a pipe of gas pipe.

One of the affidavits is signed by a woman who declares that she was instructed how to testify at the examination of John Miller, who was charged with the murder, but was released and Perry arrested on the same charge. The woman says that Perry burned a shirt on the morning of the murder.

An old memorandum book containing the notation: "The murderer of Lauzen will be in Lansing, August 30," was found at the Hotel Wentworth recently and handed to the police. From this clue the witnesses who claim to have information detrimental to Perry were located by Chief Behrendt. Police Sergeant Lewis was dispatched to Cadillac, where he secured the affidavits and arrested Perry at night in a lumber camp, 18 miles distant.

R. G. Lauzen was murdered early in the morning on February 9, 1898, in an upper room at 120 Washburn street west. The murder was a most brutal one and the murderer left no clue to his identity. The victim was known as "Frenchy" and was a card sharp.

Perry was once arrested for the crime but was discharged and arrested on a charge of perjury of which he was convicted. He was sentenced to serve five years in Jackson prison but was pardoned by Gov. Pringle, December 14, 1906. He has since served time for highway robbery.

### AUTOMATIC STOKER ON MILWAUKEE ROAD

ENGINES EQUIPPED WITH PATENT DEVICE TO LESSEN FIREMEN'S LABOR.

(Special to Morning Press.)  
LACROSSE, Wis., Aug. 25.--Several of the Milwaukee engines are about to be equipped with automatic stokers.

The stoker is a simple little car-like arrangement and yet it will be able to spray great shovelfuls of coal on the furnaces of freight engines with greater force than the road has employed since its early beginning.

The automatic stoker is not arranged to do away with the stoker of flesh and blood, but is rather to be used as an implement to assist him.

The car is made up as a great hopper on wheels. It is backed into the tender, filled with coal by hand and pushed forward to the mouth of the furnace, which it fits perfectly. The compressed air is then turned on slowly and the force shoots the coal into the furnace in the form of a heavy spray, the fuel falling evenly over the entire furnace of the fire box.

Miss Clara Hinze of Green Bay is visiting in the city with friends and relatives.

Miss Hazel Shipman has returned from a short visit with friends at Marquette.

If you keep the tea towels in sight, then have them fresh, clean and whole and hang them on a long metal curtain pole in a convenient place, say back of the sink. This is better than placing the towels on a nail against the wall, as is usually done, and it permits them to dry out quickly.

The Misses Elsie and Agnes Constance of Marquette are visiting in the city with friends and relatives.

Do not scrub your unpainted wicker furniture with soap and water, as it will turn yellow and ruin its looks. Instead, try scrubbing it with a strong solution of salt water. If you have pieces that are so shabby that they must either be painted or thrown away try the salt water treatment first. Scrub well and put in the sun and air to dry quickly.

Mrs. Greene will give a special demonstration of the Bodice Shirt Waist Buckel this week at The Ed. Erickson company. All are invited to call. 377-137-13.

A house that is spotless at the price of a family's peace or of the housekeeper's best self is the worst sort of an investment. You, the woman, are of vastly more importance than your surroundings. If you feel yourself becoming a mere drudge if your family is growing away from you mentally, if your nerves are weakening under a fetich of cleanliness, get time to read.

### CATCHES 10,000 FLIES AN HOUR MAY BE? YES?

(Special to Morning Press.)  
KANSAS CITY, Aug. 25.--R. E. Haward has invented a machine. His invention consists of a cylinder or something like a water wheel mounted on a box containing clockwork to turn it. Above the box is a wire cage with an opening in the bottom affording a passage through to the cage above.

A little sugar spread on the wheel completes the arrangement for the reception and entrapment of Mr. Fly. He alights on the wheel, the wheel turns, the fly turns with it and before he knows it he finds himself in the box, from which there is no exit except to the cage.

When the cage is full, Haward plunges it into a pail of gasoline and the flies perish as the Egyptian host perished in the waters of the Red Sea. Haward says his machine will catch 10,000 flies an hour.
