The Fair Savings Bank EMPLOYEES' PICNIC AT FAYETTE TUESDAY, JULY 28th STORE CLOSED ALL DAY

TO STOP ADVANCE OF ARMY WORM

Washington, July 23.—Letters, telephone messages, and individual callers have been soliciting aid from the U. S. Department of Agriculture to stop the advance of the hordes of army worms that threaten their fields of wheat, oats, corn, timothy, blue grass, and other grasses.

The army worm is a smooth, striped caterpillar about an inch and a quarter long and a quarter of an inch in diameter. It is rather dark in appearance. While normally it feeds by night and hides by day, not being generally noticed, as soon as it has increased to such a number that its food supply falls short, it starts to travel and becoming bolder, feeds both night and day.

If the worms have not yet attacked a field the most practical way to keep them out is to plow furrows in front of them, throwing the furrow in the direction toward which they are traveling. The worms will fall into the furrow and when this is fully they may be killed either by dragging a log back and forth in the furrow or by destroying the worms in holes previously dug at intervals of 20 feet in the bottom of the furrow.

All of the "Colorado" or former Orozco revolutionists, are being depended upon by the leaders of the revolution, as their deaths have been decreed by Villa. Where it is not now possible for federals to join the new movement, they are being advised to revolt and do everything possible to prevent the Carranza administration from establishing peace, it is said.

American cattlemen from western Chihuahua report that Roque Gomez, with more than 300 filibusters, is encamped on the Palomas Land & Cattle company's ranch below Columbus. Recruits are joining the ranks of the federal filibusters each night, they say. Many of these recruits are from El Paso and are being sent out to the New Mexico line and across to Gomez's camp.

MANY FARMERS TO ATTEND BIG PICNIC

C. W. Olmsted, of the Fair Savings Bank, who is serving as advance agent for the Fair Store's big picnic at Fayette next week and incidentally enjoying a ten days outing, is paying the way for a tremendous gathering of the Big Bay district farmers.

Mrs. L. Olson and daughter, Matilda, and son Oscar, of the Soo, stopped in the city yesterday enroute to a visit at Chicago. Subscribe for The Morning Press.

clivity of the United States border, for United States government officials here declare that the federal land-owners in northern Mexico realize that their only hope of saving their properties is in the hope that this will bring about the intervention.

While they do not think such a counter revolution would ever grow to such an extent as to become formidable, they are said to hope that the counter revolution will sufficiently embarrass the Carranza administration that the United States will be forced to intervene in order to restore permanent peace.

It is said between \$50,000 and \$75,000 has been obtained for the new movement and that quantities of arms and ammunition have been purchased. Men are being sent to points along the New Mexico-Chihuahua border each night in numbers and are being supplied with equipment after they cross the line.

The leaders of the counter revolution are counting on the possible release of the federal prisoners at Fort Wingate, N. M., who are expected to join the revolutionary movement. Large numbers of federal officers and soldiers are also expected to join, as they fear they will be executed if they remain in the territory controlled by Carranza.

DETROIT BUYS JACOBSON FROM CHATTANOOGA TEAM

Mobile, Ala., July 23.—Scout Sam Kennedy of the Detroit American league team, here today, announced the purchase of Outfielder William Jacobson of the Chattanooga Southern association club. Jacobson was owned by the New York Nationals last season.
