HUNDREDS ARE LOST

(Special to the Press.)
Christopher, Ill., Oct. 27.—Twenty-seven bodies were recovered, 159 escaped and 116 are still entombed at eight o'clock tonight in the Franklin Coal and Coke Company Mine. Rescuers are working in an effort to reach the entombed men but no sign comes from the debris choked tunnel since three o'clock this afternoon when voices were heard by the earliest rescuers. The mine is still on fire and will either be flooded or sealed tomorrow.

PROGRAM PLEASING

A program that was pleasing in its every detail was that given under the auspices of the women of St. Patrick's church at St. Patrick's hall last evening. Every number included in the program was enthusiastically received by the audience that packed the hall to its greatest capacity, all of the instrumentalists and vocalists being forced to respond to encores by enthusiastic applause. Atty. Joseph F. Cuddy delivered a short address and by his witticisms and homely drawn phrases won the admiration of his audience.

FIRST BANQUET STAGED AT DELTA

The first annual banquet of the Escanaba Builders and Traders Association was staged last night at the new Delta hotel private dining room. The affair was staged under the direction of Charles E. Jacobson, a member of the organization. The banquet was of a seven course nature and was elaborately staged, with special attention being paid to the place cards. For instance at the plate of John H. Knutson of the Home Electric Company was placed a small branch of a tree and on a card attached read "a new fangled switch." Following the banquet the members of the party repaired to the home of C. E. Snyder at 516 Stephenson avenue where a smoker was held when different members of the organization delivered addresses.

ATTENDING BIG ROAD CONGRESS

J. B. Moran, of the Delta Contracting Company, left last night for Milwaukee to attend the Northwestern Road Congress, which will open in that city this morning and continuing through Saturday. Authorities on road building from all parts of the country will attend the congress and address the delegates on different methods of road construction. Road building machinery manufactured in every section of the United States will be on display and tests of different material will be carried out for the benefit of the contractors who will be in attendance.

GERMANY GETS NO COPPER FROM U.S.

New York, Oct. 27.—According to the customs house records of shipments of copper to Europe in September not a pound of the metal was directed to ports of Germany, Austria or Belgium. In ordinary times Germany is the largest foreign customer of American refineries of imports, and the abrupt cessation of exports reflects the curtailment of imports from other nations that Germany has experienced since the war began. Since the start of the war, exports of the metal from our ports to Europe have declined approximately 76,000,000 pounds, as compared with the same period of 1913.

SAYS PUZZLE IS OFFERED

The following communication was received by the Press last night:
Puzzle For Voters
"Heads I Win, Tails You Lose"
Try to figure it out.

An interesting legal puzzle comes up in connection with the present political campaign. It will be remembered that Rushton has been city attorney for several years and that when he concluded to beat Torval Strom out of the office of Prosecuting Attorney, he fixed up a nice pleasant little scheme with his friends in the city council, whereby he was to quietly resign as city attorney and the council was to quietly appoint his law partner as city attorney in his stead. Keep the nice, fact job in the family you see. And so it was fixed, and now Rushton proposes to become Prosecutor for the county. Now suppose the voters decide that it is both wise and fair to have both of these important public offices held by the same law firm, and then suppose that the city and county should get into some litigation, for instance about paying the cost of paving a street in front of the court house. Could Rushton act for the county while his law partner acted for the city? Or would the firm have to dissolve and after the case was tried, form a new partnership which would last until the next law suit of the same kind arose? Or would the court say that the confidential relations existing between the partners was such as to disqualify them both from acting in the case and would the city then have to hire another attorney for that case and the county also hire another attorney for that case? Would Rushton try as hard as he could to beat his partner, or would his partner try as hard as he could to beat Rushton while his partner was city attorney and his party county attorney or rather while Rushton was county attorney, and his partner was city attorney and his partner—no, let us say while Rushton was county attorney and partner was city attorney and the two together composing a single partnership or unity would not his partner be also city attorney at the same time he was county attorney and Rushton be also county attorney at the same time he was city attorney and both of them be city attorney and county attorney and the city and county each and both have the same attorney in the same case and both Rushton and his partner have the nice soft snap of two important political offices in the same firm with the two nice fat salaries?

Commenting on this interesting situation, Attorney Joseph F. Cuddy, the Democratic Candidate for prosecuting attorney says:
"Horace Greely used to tell an amusing and pointed story of a White man and an Indian who one day went hunting together and the total product of their joint efforts was a Buzzard and a turkey. When they had camped for the night the White man said to the Indian:
"Well, now John, we will divide up equal. You take the Buzzard and I'll take the turkey or I'll take the turkey and you take the Buzzard."
"I h," grunted the Indian, "White man never once talk turkey to me."

CIRCUIT COURT HUGHITT WILL CLOSE IN GAME

AFTER LASTING BUT SLIGHTLY OVER A WEEK, SESSIONS WILL PROBABLY CLOSE TO-DAY

All jury cases were concluded in circuit court yesterday afternoon and the October panel discharged by Judge R. C. Flannigan.
The jury in the action brought by Thomas Vallencourt of North Escanaba against Peter Biehler of Groos, was instructed at the opening session of court yesterday morning and after being out for three hours returned a verdict for the plaintiff in the sum of \$65.
The case of John Heim of Bark River against the Chicago and NorthWestern railway was given trial yesterday morning and the plaintiff given a verdict of \$150. Atty. Ryall appeared for the plaintiff while Attorney's Spencer and Bell defended the railroad.
Heim brought action against the Chicago & NorthWestern railway to recover damages for injury to a valuable horse while being shipped over the road to him at Bark River. The jury found for the plaintiff after a short time of deliberation.
A divorce suit was heard by the court yesterday afternoon and several more will come before the court this morning. Circuit court will probably be formally closed sometime today.

JOS. F. CUDDY WAS SPEAKER

Joseph F. Cuddy, democratic candidate for prosecuting attorney Monday night addressed an audience at the city hall upon the Clayton Amendment to the Sherman Anti-Trust Law which exempt labor organizations from the provisions of the Sherman law.
Mr. Cuddy delivered the address at the city hall Monday night after a telegram had been received from H. E. Willis of the Brotherhood of Locomotive Engineers of Washington, D. C., announcing that he would be unable to address the meeting here.

MAN KNOWN HERE DIES IN CEDARBURG

Notice was yesterday received in the city of the death of James Hickley of Cedarburg, Wis., well known to many people of Escanaba because of his numerous visits here. The notice was received by Mrs. Anna Pryal and Mrs. Pryal together with her sons, James, Robert and Joseph will leave this morning for Cedarburg to attend the funeral.
Mr. Hickley frequently visited in Escanaba and the announcement of his death will come as a subject of much sorrow to his large circle of acquaintances.

SCHOOL CHILDREN RECEIVE PRIZES

Mayor O. P. Chatfield, Prosecuting Attorney T. E. Strom, Superintendent F. E. King and Matt Peterson, secretary of the Delta County Fair Association, visited the grade schools and school yesterday, and at each building the men delivered a short talk and presented the pupils with the ribbons and money they received as prizes at the county fair.

FOR COUNTY CLERK

A man who has been trained for the work that he will undertake is Albert J. Pepin, Republican candidate for county clerk. Mr. Pepin has made for the city of Escanaba the best City Clerk Escanaba has ever had. His energy; his nature's common sense; his willingness to work and go to the bottom of every matter that comes before him will make of him one of the best county clerks the people of Delta county have ever had in that office.
As city clerk Mr. Pepin has acquainted himself with every detail of the city's business until today he is a traveling encyclopedia of city facts and figures. When he enters the office of county clerk Mr. Pepin will take the same interest in the work of that office that he has displayed in affairs of the city. Mr. Pepin deserves election on his record as a faithful public servant.

MANDAMUS ASKED FOR

ACTION REGARDING SUBMISSION OF LOCAL OPTION PETITIONS GIVEN HEARING YESTERDAY

Attorneys for both the "drys" and the "wets" yesterday afternoon appeared before Judge R. C. Flannigan in arguments on the mandamus proceedings instituted by the "drys" of the county after the petitions they submitted, had been turned down by the county board of supervisors. After arguments had been submitted by Atty. A. H. Ryall, for the "drys", Pros. Atty. T. E. Strom in defense of the board of supervisors and Atty. Joseph F. Cuddy, for the objectors to the petitions, Judge Flannigan took the matter under advisement and will render his decision at a later date.
Atty. A. H. Ryall was the first to appear in his argument before Judge Flannigan. Atty. Ryall read at length of opinions that had been handed down from the supreme court of the state and cited incidents which he alleged were applicable to the case in Delta county. Atty. Ryall argued upon what he considered the three chief objections made, namely: That signatures were fraudulently placed on the petitions; that the posting was not carried out in strict accordance with the law and that the board of supervisors had not authority to act upon the affidavits accompanying the petitions.
After summing his case up into three sections Atty. Ryall took each and argued against it in its turn. He also took up the definition of the word "immediate" which had been given a careful rehearsal by Atty. Cuddy when appearing before the board of supervisors. Atty. Ryall argued that the word expressed nothing definite as to days as well as a few hours.
Judge Flannigan asked Atty. Ryall's interpretation of one section, that is, "were the petitions properly and lawfully posted and did it make any difference whether they were or not?"
Atty. Ryall cited several cases of similar nature brought up in the state and pointed to several decisions of supreme court to substantiate his contentions.
Pros. Atty. T. E. Strom then appeared and in a clear and concise manner set before the court what he believed to be the true and just existing conditions under which the board of supervisors had rejected the petitions. The big question upon which practically all argument thereafter was based, was upon the circulation and posting of the local option petitions. Mr. Strom illustrated his contention as follows: Three or six men in the same ward circulate a petition for Local Option. Upon the completion of the circulation, all engaged in the work must attach all of the petitions to each other and copies must be made of all, in order that a full list of all names secured may be posted in three conspicuous places of the ward. He further contended that unless all petitions were attached, a person who believed his name had been fraudulently placed there would be compelled to go to all places of posting to learn whether or not his name was included in the list.
Mr. Strom stated that in many cases the petitions circulated in the same voting precinct had not been attached, according to the findings of the board of supervisors which was one of the main reasons that the petitions had been rejected.
Atty. Joseph Cuddy, who appeared for the objectors before the board of supervisors, gave a decidedly logical and brilliant argument on the summing up of the case. He argued that the affidavits in a number of cases which accompanied the petitions had been secured prematurely, that is they had been secured by the circulator before the ten day posting limit had been passed. Atty. Cuddy spoke for fully 15 minutes before Judge Flannigan who had asked him for information of which he might be possessed.
At the conclusion of the arguments Judge Flannigan collected the papers in the case and will hand down his decision later.

GARDEN MAN TURNS TABLES

It might be a good policy for highwaymen to hold up just ordinary residents of Escanaba but when a man from Garden comes to town the robbers should be furnished with marks of distinction.
Alton Olmsted, a lumberman of Garden Bay was called to Escanaba as a jury man in circuit court. Mr. Olmsted served on the jury on Monday night and after the night session was walking down Emore street, with a considerable sum of money in his pocket. As he neared the Henry Blacksmith shop on South Emore street he noticed two suspicious looking characters lurking in the shadows. As he was about to pass them one leaped at him from behind and the other ordered him to hold up his hands.
Instantly Olmsted thought of the money in his pocket and struck the man in the face with such a force that he fell to the ground and as he turned about to meet the other highwayman he was speeding around the corner of the building.
Olmsted continued down town, carried out his mission and returned to the home at which he was stopping, unmolested.

WAR

(Continued from page one.)
Paris, Oct. 27.—The smashing tactics of the Germans along the North sea coastline continued incessantly today, when the big guns were turned on Neuport and the allies had to withstand constant attacks of masses of troops. Very little progress however, was made by the Germans, who were faced with the strongest resistance.
Yesterday's crossing of the Yser apparently had only a moral effect as the Germans were confronted by solid lines of allied troops and were prevented from advancing, without overwhelming efforts, farther toward the channel ports. The character of the country prohibits a rapid movement as the land is cut up by canals and two strong series of defensive works separate them from Dunkirk.
Berlin, via Amsterdam and London, Oct. 27.—A report from the general headquarters, dated Monday forenoon, says:
"West of the Yser canal, between Neuport and Dixmude, which is still occupied by the enemy, our troops attacked the hostile positions, which are obstinately defended. The British fleet co-operated, but was forced back by the heavy artillery fire. Three ships were hit. During the afternoon of Oct. 25 the fleet kept beyond the distance of sight.
"Near Ypres the battle is stagnant. Southwest of Ypres and west and southwest of Lille, our attacks are progressing. During severe street fighting the English suffered great losses, leaving about five hundred prisoners. North of Arras, a heavy French attack broke down, the French losses being severe."
Paris, Oct. 27.—The following official communication was issued by the French war office tonight:
"Belgium, Neuport has been violently bombarded and the effort of the Germans has continued on the front between Neuport and Dixmude without, according to the latest advices, any result whatever having been reached.
"All the front comprised between LaBasse and th' estomac has been the object of violent attacks at night, all of which have been repulsed. On the remainder of the front, there is nothing to report."

bureau issued the following statement at 10.10 this evening: "The situation continues to be satisfactory. The fighting is severe and continuous, but ground is being gained and many prisoners have been taken. One of our divisions has captured two guns."
London, Oct. 27.—The battle for the Straits of Dover, one of the most sanguinary of the war, is continuing with unabated fury, but thus far without either side gaining any decided advantage. The Germans, who, at terrible cost in life, succeeded last Saturday in crossing the Yser canal between Neuport and Dixmude, have not been able to make any further progress, as the allies, according to a report of the German general headquarters issued this morning, are obstinately defending their positions.
It is the same farther south, around Armentieres, Lille, LaBasse and Arras. The opposing armies are delivering fierce attacks, gaining or losing a few miles or less of ground with sacrifices in life that are appalling. The whole countryside is fairly reeking with the blood of thousands of killed and wounded.
In the towns and villages with which the country is dotted, and most of which have been laid in ruins by the artillery, most desperate fighting has occurred when the cavalry and infantry came into contact. Both sides speak of the heavy losses they have imposed on their adversaries, but say nothing of their own dead or wounded, to fill the places of whom reinforcements are being brought forward.
The British fleet, which did such execution in bombarding the German bank as the invaders advanced along the coast, seems to have withdrawn yesterday afternoon. The Germans say this was because their artillery was beginning to reach the ships. The relief is expressed here, however, that the fleet will be able to render inalienable the German occupation of any part of the Belgian or French coasts.
The opinion also is expressed in London that the operations of the allied vessels in the North sea off the Belgian coast and in the vicinity of the Straits of Dover may cause the German fleet to come.
Stafford, Eng., via London, Oct. 27.—The serious time of the war, said Lord Charles Beresford, in a speech here tonight, would begin when the Germans were forced over the frontier and were in their own country and with their own base of supplies.
This was not going to be a short war, Lord Charles added. It would take more than six months or a year to put Emperor William on his back, he said.
Nobody knew what would happen in the next naval battle, in which modern instruments of warfare were used, Lord Charles continued. The element of luck would come into play, but, luck or no luck, Germany, he declared, must be humbled and humiliated.
"The work is being done by order of the city and county officials and it is generally understood that these officials issue their orders by direction of Lord Kitchener," Mr. "owlin said.
London, Oct. 27.—England is now speculating on when the Germans, influenced by the presence of rival ships, will attempt to bring units of their own navy into action off the Belgian coast. German submarines have been sighted here and there off the coast during the past week. So far no success have been accredited them, and it is contended here that the German people must be clamoring for naval retaliation. It would not surprise the British, therefore, if the sea phase of the struggle became more general and more pronounced in the near future, though nothing like a general naval action is expected.
As the days come and go and the promised visit of the Zeppelin airships to England do not materialize, the public seemingly is beginning to believe that these monster aircraft are being held in reserve for the day that the German navy comes out and that they then will be used in force to assist the warships in an endeavor to cripple the British fleet.
Dover, via London, Oct. 27.—The steamer Amiral Ganteaume was sunk today by a mine just outside Boulogne harbor. About twenty or thirty persons were drowned, owing to the panic which prevailed as the passengers were being transferred to the cross-channel steamer Queen, which rushed to the assistance of the sinking vessel. Most of the passengers were peasants from Pas de Calais, who had been taken aboard at Calais to be transferred to Boulogne.
London, Oct. 27.—It is officially announced that the channel steamer Queen rescued twenty-five hundred passengers from the French steamer Amiral Ganteaume, blown up by a mine off Boulogne.
Brussels, Oct. 27, by Way of London.—Nearly seven million people in Belgium are confronted with famine, unless they receive help from the outside at once. The American minister, Brand Whitlock, says that less than two weeks supply of food remains in the cities, while conditions in the rural districts are even more acute.
In some cities for her soldiers, she still disclaims the responsibility of feeding the responsibility of feeding the Belgians.
Mr. Whitlock has had on hand for the last two weeks only peasants' blackbread, and the supply of that is short. One hundred soup kitchens are feeding more than one hundred thousand of the needy in Brussels. Families formerly rich are discharging their servants, because they are bankrupt. Noblemen may be seen slipping into the soup kitchens.
The factories at Brussels are closed. Many stores remain open but have no business. The street cars are being operated, but the railway train service has been suspended. The supplies of coffee, tea, flour, rice and salt are practically exhausted.
Reports received by Minister Whitlock from Louvain, Liege and Namur say that the conditions in those cities are even worse than they are in Brussels. Louvain has only a four days' supply of flour, while Liege has no flour at all. The peasants in many districts have been forced to exist on legumes, as the crops of beets and cabbages have been ruined.
The Belgians in Antwerp appear curious as well as alarmed over the Germans. They stand quietly in great crowds before the windows of the cafes watching the German officers as they ydine.
London, Oct. 27.—The American commission for the relief of sufferers from the war in Belgium will be unable to ship its first cargo, consisting of twenty-five hundred tons of food-stuffs, until Wednesday, because of the delay of the board of trade in granting the necessary license to export food from England.
The commission will have to replace all food now being procured in England for shipment to Belgium by an equal amount brought from some other country. The British government has declined to promise any definite fund for the use of the commission, beyond lump contributions, the exact amount of which is not known. The commission therefore expects that the greater amount of the supplies for Belgium must come from neutral countries.
There being among the many thousands of Belgian refugees in England large numbers of officers and men of the Belgian army, the Belgian legation has opened a bureau in order to facilitate their return to active service with the forces in the field.

COUNCIL PROCEEDINGS

Escanaba, Mich., Oct. 20th, 1914.
A regular meeting of the Common Council of the city of Escanaba was held in the Council Chambers on the above named date.
Present: Mayor Chatfield, Ald. E. Wickert, Tolan, Noreus, Cuthbert, Swan, Wm. Wickert, Pryal, Follo, Smith, Wood and Buchholts—11.
Absent: Ald. Stratton, Sheahan and Johnson—3.
Ald. Swan, seconded by Ald. E. Wickert, moved that the minutes of the preceding meetings be approved without reading.
Ayes unanimous.
Escanaba, Mich., Oct. 17th, 1914.
To the Honorable Mayor, O. P. Chatfield, and Members of the Common Council, City.
Gentlemen:
The undersigned, respectfully petition you to have erected an arc light at the intersection of Georgia and Ayer streets.

SAYS PASTORS TALK MUCH, SAY LITTLE

Battle Creek, Oct. 27.—Technical "hifalutin" language in the pulpits too much preaching and not enough real talking, too much facts and statistics in the churches, and too many "ologies" and "isms" were blamed for the failure of the ministers to reach the people, by the Rev. George Knepper, Ann Arbor, who addressed the members of the second district of the Michigan Christian Missionary society (Berrien, St. Joseph, Van Buren, Cass, Kalamazoo and Calhoun counties).

"What I think we ought to do," said Mr. Knepper, with emphasis, "is stop preaching and come down to talking, come down to the men and know them. One reason preachers fail to reach men and women today is that they don't know men and women. One trouble is that we know books better than we know human hearts."

ROOSEVELT'S DAUGHTER AIDING PARIS REFUGEES

Paris, Oct. 27.—Mrs. Richard Derby, daughter of Theodore Roosevelt, last night brought good cheer to the refugees installed at the Northern Railway station. While visiting the station with her husband Mrs. Derby noticed one particularly unfortunate young woman from Lille who nursed a baby.

Mrs. Derby removed her cloak and gave it to the young woman.

Mrs. Derby rem

The misery of the refugees brought tears to Mrs. Derby's eyes, and she distributed gold pieces among them. Her husband meantime gave cigarettes to the English, French and Belgian soldiers in the station.

On leaving Mrs. Derby gave a sum to be distributed among the refugees, and was warmly thanked by the director in charge.

MAKES GOOD, HEALTHY FLESH.

West End Drug Store Offers to Pay for Samose if it Falls.

Begin the use of Samose today, and you will soon notice a gain in good, healthy flesh. To all who are thin, weak and run down, this remarkable fleshforming food promises plump, rosy, perfect health, vigor and vitality.

Most people eat enough to become fat; the trouble is not lack of food, but lack of assimilative power.

Samose mingles with the food that is eaten, so that it is assimilated by the blood, and builds up pleasing plumpness and good, healthy flesh. Those who use Samose for a week or ten days will soon notice a gain in weight and an improvement in general strength and health.

Samose is in tablet form, pleasant to take, and is sold by one of the most reputable drug stores in Escanaba, The West End Drug Store, under their personal guarantee to refund the money if it does not give satisfaction.

COOPER WAS PAID MONEY IN ADVANCE
New York, Oct. 27.—It has been officially reported that the man who was paid in advance for the world's series was Robert M. Ward. The name of this player who was paid \$25,000 by McGraw's club at the beginning of the season who was paid a full \$25,000. The name of this player who was paid \$25,000 appears among the list of players either the Braves or the Athletics as a matter of fact he was the world's series most played player of the year. Charles O. Brogklyn Field was the Robert M. Ward offered the \$25,000 tempting contract, and Cooper just about to accept when he was suddenly seized by an idea. "Hold on," said the player, "about my world's series money know the Giants are sure to get that."

"Well, what would your offer be?" inquired Mr. Ward.

"At least \$2,000," answered Cooper. "Well, would you like it?" "I would you rather wait until the series?" inquired the Field.

"I'll take it now," said Cooper. He did.

HARVARD WILL START GRIND FOR MICHIGAN

Cambridge, Mass., Oct. 27.—With Hurry Up Yost's band of Michigan warriors coming out of the west this week primed for battle, it behooves the Harvard coach to cast their eyes about and gather shattered remnants of their force to prepare in all seriousness for the invading foe.

Fumble Leads to Score
It is said on good authority that a rush through the line was well started when Kratt of Penn State smashed into Rollins, who was carrying the ball, bouncing it out of his hands. Ten yards away Wilcox grabbed the ball and dashed fifty yards, tying the score. This year may be true and again it may have been circulated for a purpose. Harvard may be unwillingly forced to try a novel formation in which there appeared to be several short passes.

Saucy's injury proved to be a pulled ligament in his knee, which will keep him out for a fortnight, if not the season.

Brickley Leaves Hospital.
Eddie Mahan, Tack Hardwick, Willie Trumbull and Mal Logan expect to get down to real work, starting tomorrow. There is a question whether Mahan and Pennock, who may report late in the week, will be able to stand the strains of a hard contest without cracking.

Capt. Brickley, who was operated on recently for appendicitis, was discharged from the hospital today and passed a happy Sunday at his home.

CARPENTER'S UNION

Mr. Carl Young of Indianapolis will speak at the next regular meeting, Oct. 28. Try and be present.

MARANVILLE IS BEST SHORTSTOP

Walter J. Maranville, "the world's greatest shortstop," since the world's series the title has been fastened upon him. Before the Athletics and Braves met, Maranville was choice of the majority who voted on the question of supremacy in the short field.

Since the series, even the men who held out for Bush, Barry and Tinker have switched their vote to the diminutive wizard of the Boston infield. Probably a bit smaller than Bush, but faster, Maranville has convinced balldom that he is the best in existence at his position. In the last week a dozen or more "all-America" baseball teams have been picked in newspapers and weeklies. All of these give the shortstop job to "The Rabbit."

He is a player strictly on the style of Bush. He covers a bit more ground than Donie, and as remarked before is even faster, which to those who have watched Bush for year and never say Maranville seems impossible. As a hitter he has nothing much on the Tiger midget and will not pull as many passes. The 1914 records of the two are interesting:

Player	G.	AB.	R.	H.	SB.	Av.
Bush	157	595	97	143	37	.240
Maranville	156	585	74	148	28	.253

In scoring runs Bush is far ahead of Maranville. The reason is apparent when the positions of the two players in the batting order is considered. Bush, at the top, has Vitt or Morarity, Cobb, Crawford and Veach, the last three comprising the next best hitting combination in the league, behind him, while Maranville batting sixth or seventh, must depend upon the batter or leadoff men to put him over.

Johnny Evers is largely responsible for Maranville's rapid development. "The Rabbit" was a star last year, but no one jacked him over Bush, Barry et al. This year he had Evers to work

SAYS FEDERAL LEAGUE CAUSE OF ALL TROUBLE

Alleging that the Federals have injected too much commercialism into baseball and that it is up to the people who have the interest of minors at heart to get together at Omaha and agree on a reduction in salary that will put them somewhere near a paying basis, President Frank R. Weeks of the Wisconsin Illinois league yesterday sounded the keynote of practically every executive who presides over the affairs of the "little fellows" of the organized ranks.

Like almost every other minor organization in the country, the Wisconsin-Illinois experienced its share of tough sledding in 1914, and more trouble is looming on the horizon.

"It is an easy way out of our difficulty to unload them on some body else," said President Weeks, "and I believe that is what we are doing when we say that our excessive loss this year was caused by the baseball war between the National and American league. Why not admit that we are on the wrong basis in trying to meet a monthly payroll of \$1800 to \$2000 with a season's attendance of only 25,000 to 30,000 people? The only way to stop this evil is to prevent overbidding on young players."

ROOTERS WELCOME WOLVERINES HOME

Ann Arbor, Mich., Oct. 27.—It was a sorry lot of athletes which tumbled off the train in Ann Arbor Sunday morning with a very much disgruntled coach at their head. A big crowd of cheering rooters who had remained through a two-hour wait for the delayed train served to dispel a little of the gloom which surrounded the foot ball squad, however, and last night all was talk of the plans to the Harvard game of Saturday.

Yost last night gave out his first announcement of his campaign, stating that he would use Larry Splawn as a place kicker on Saturday. The reason for switching the wizard drop kicker to a new style is the weak line which Splawn was forced to depend on in getting away his kicks.

Of the two men hurt in the Syracuse game Splawn alone will be able to appear against the Crimson. Whittien seems out of it. Staats is expected to go in at the right end post, leaving Benton at the left wing. Lyons, Bushnell, Rebor, Catlett and McHale are others who are likely to feel the coach's displeasure at their Saturday showing.

HAVE COMFORT IN KITCHEN

Proper Placing of Electric Fan Will Make Work Far Easier and Less Trying to Temper.

For the woman who does her own cooking there is hardly any one thing that can give so much kitchen comfort as an electric fan. I have one placed on a shelf diagonally in line with the top of the window. As everyone knows, heat, smoke and cooking odors rise to the ceiling, and, unless given an outlet, permeate all the rooms. Most apartment kitchens have one window, often on a court. Unless there is a good breeze circulating outside the hot air will not go out very quickly, even if the window is open at the top; at least, not quickly enough to prevent smoke and odors from escaping into the other rooms. An electric fan placed as I have said will instantly drive the hot or smoky air out at the top of the window, and an incoming stream of cool air will be forced through the lower opening of the window.

A 16-inch electric fan costs about fourteen dollars. If you already have an electric fan and don't know just where to put it in order to make it do the greatest amount of good possible, try it in the kitchen, and cook it cool, smokeless, odorless comfort—Kansas City Star.

HOUSEHOLD HINTS.

Powdered starch applied instantly to fruit stains will remove them. To loosen rusty screws apply a red-hot poker to the head of the screw.

If brass is rubbed with sweet oil after being polished it will not tarnish so quickly.

For cleaning tin there is nothing better than dry flour rubbed on with a newspaper.

Soak new potatoes in water that has a little soda dissolved in it, and you will find that they scrape and clean beautifully.

A well-beaten white of an egg whipped into mashed potatoes before serving them will add greatly to the looks and to the taste of the dish. To prevent wet shoes becoming hard, clean them and rub vaseline over them before putting them away. This will keep them flexible and prevent the leather from cracking.

Egless Ice Cream.

A scant teaspoonful flour to two quarts of new milk. Put three pints on to boil in a tin pail set in a kettle of boiling water. Mix flour with the other pint of milk till smooth, then stir it in the boiling milk. Let it boil ten or fifteen minutes, and just before taking it from the fire stir in one and one-half pounds pulverized sugar; any good white sugar will do. Care must be taken to stir all the time after putting in sugar, only letting it remain a moment, or just long enough to dissolve it. Take from stove and strain at once through a crash towel. When cold add one quart of cream. Flavor with vanilla in the proportion of one and one-quarter teaspoonful to a gallon.

Steamed Chocolate Pudding.

Butter, three tablespoonfuls; sugar, two-thirds cupful; one egg; milk, one cupful; pastry flour, two and one-fourth cupfuls; baking powder, four teaspoonfuls; unsweetened chocolate, two and one-half squares; salt, one-fourth teaspoonful; vanilla, one teaspoonful.

Cream the butter, add sugar gradually and egg well beaten. Mix and sift flour with baking powder and salt, and add alternately with the milk to the first mixture, then add chocolate, melted. Turn into a buttered mold or individual cups; cover and steam two hours.

Golden Fritters.

One pint of water, one pint of flour, six eggs beaten very light, each beaten separately, one tablespoonful of butter. Let the butter boil in the water for a few minutes, then thicken smoothly with flour. Let it remain a short time on the fire, stirring all the time; then put it in a mixing dish and add the eggs. Beat the batter long and hard, then fry in lard. Stir the lard hard and then drop in the fritters by spoonfuls. These are very nice served with fruit or maple sirup.

To Remove Scorch.

If your iron is too hot and you scorch the piece you are ironing, brush the scorched part lightly with peroxide which will immediately remove the scorch. Then brush over with cold water, (or if starched goods, with cold starch water) and iron under a dry cloth.

Home-Made Baking Powder.

One cupful cream tartar, one-half cupful soda, one-half cupful corn starch; sift the ingredients five or six times, so as to have them thoroughly mixed. This recipe one knows is pure; makes about one pound and costs about one-half what you would pay in the store for it.

Delayed Ironing.

If for any reason you cannot iron when your clothes are dampened and ready, cover them well with newspaper and put in a cool place—preferably the basement or cellar. They will keep for two or three days in this way.

Sauce for Cold Lamb.

Melt a glassful of currant jelly. Add a glassful of port wine. Bring to a boil, but not boiling point. Serve in a small tureen with cold lamb or beef.

EMBARGO ON HAY IS HURTING U. P.

Sault Ste. Marie, Oct. 27.—Because of an embargo placed this week by the Canadian government on Michigan hay and other similar products, Chippewa county produce dealers and farmers stand to lose thousands of dollars. It is hardly likely that local dealers will be unable to find market for Chippewa hay but the Canadian demand which always has been a factor in the quick movement of hay grown in this country and has been

the means of stiffening the local quotations from \$1 to \$1.50 per ton, there is no doubt that at least this amount per ton will be lost to our farmers. The embargo followed the report of the outbreak of the hoof and mouth disease in Berrien county and the statement that federal and state officials had become so alarmed that a campaign had been started to quell the epidemic. It seems there is a Canadian law which provides that embargoes shall be declared on the fodder products of any state or province where such disease exists and to a distance of fifteen miles beyond the boundaries. The embargo will continue for six months at least and until the epidemic is thoroughly eliminated.

End of the Season Reductions!

At The Beginning of The Wearing Season

Sale Begins This Morning and Continues Until Stock Is Sold

This sensational reduction in prices on all Ladies' and Misses' Garments is made now, not because we have been getting more than just small profits on them, but on account of the long delayed cold weather having shortened the wearing season, leaving us with a much larger stock than we would like to have at the end of October. Consistent with good modern merchandising methods, disposing of all goods in their season while there is a demand for the merchandise, following out the practice.
