

ARMIES BATTLE STUBBORNLY

ESCAPE WAS MIRACULOUS

Of the wrecking of a St. Paul road passenger train on Thursday, when Supt. J. M. Clifford, formerly of this city, was slightly injured, the Green Bay Gazette says:

Three sleepers and the private car of Division Superintendent J. M. Clifford of the fast through Marquette-Chicago train of the Chicago, Milwaukee & St. Paul road went over a 15-foot embankment at Arbutus siding, north of Pembine, about midnight, and not one of the 50 persons in the cars received a serious injury.

The railroad official and two passengers were bruised but no one else was hurt, according to the report given out at the division headquarters here. Charles Katz of Parksburg, Pa., and Mrs. Mary Forgothine of Marquette, sustained bruises, but neither was obliged to enter a hospital. Both were brought to this city and taken to the Beaumont hotel, where physicians attended them.

A broken rail, it is thought, caused the wreck. The cold temperature snapped the rail, it is supposed.

The engine and one coach passed over the broken rail safely, but the three rear coaches and the superintendent's car were toppled over and down the incline. About 40 persons were in the berths in the sleepers and they were able to leave the overturned cars after holes had been cut in the roof and sides. The coaches were in total darkness after the wreck. The passengers were transferred to other coaches and taken on through to this city, Milwaukee and Chicago.

The train was going at reduced speed on account of the cold, or it is probable that some serious, if not fatal injuries might have been caused to passengers when the coaches went into the ditch.

To Charles Katz, the eastern man, who was in the Marquette sleeper, the escape of the passengers was miraculous. When seen in his room at the hotel by a Gazette reporter, Mr. Katz said: "I was plinned down into my berth under something, but managed to extricate myself. It seemed hours before anyone came to the coach, but not an outcry was made, no one even murmured as they lay in their berths. I could hardly realize such a condition if I had not been through it. Women and children were as quiet as if they were watching a moving picture show. We helped each other out of the sleeper. It is hard to realize but it is a fact that in our sleeper the people made themselves comfortable. When the train crew informed us that cars were waiting on the track ahead to take us away several wanted to know if the other cars were heated. They would have remained in the wrecked car rather than go out into the cold and ride in a coach that was not warmed.

Mrs. Forgothine, who is at the Beaumont hotel also, was traveling with two children.

M'FALL FUNERAL THIS AFTERNOON

Funeral services over the body of Henry McFall, pioneer resident of the city, who passed away Thursday morning, will be conducted this afternoon at the family home on South Douglas avenue at 2 o'clock.

Rev. W. J. Datson, rector of St. Stephen's Episcopal church will officiate and interment will take place at Lakeview cemetery.

DISTRIBUTE A BIG SUM

Officials of the Oliver Iron Mining Company on the Marquette, Menominee, Mesaba and Vermillion ranges, have received word that over \$20,000 will be distributed as pensions among the employees of the Oliver Company. The announcement is contained in the fourth annual report of the United States Steel and Carnegie Pension fund established Jan. 1, 1911, and applicable to the employees of the United States Steel corporation and its subsidiaries. The employees of twenty-eight subsidiary companies are now participating in the pension distribution. The largest sum is distributed among the employees of the American Steel and Wire, with the Carnegie Steel company a close second. There was paid last year to old and infirm employees of the American Steel & Wire \$115,722.62, the pensioned employees of the Carnegie company divided \$112,914.71. Next in line was the American Sheet & Tin Plate company, with a distribution of \$48,879.43. The National Tube company was fourth, with \$47,346.93.

The distribution among the employees of the Oliver Iron Mining Company on the Marquette, Menominee, Mesaba, and Vermillion ranges was \$20,161.47. The former employees on the Marquette range received a larger sum than those on any of the other ranges, the distribution for this county having been \$9,711.81. Of this sum former workmen of the Lake Superior mines received \$6,720.21. Pensioned employees of the Champion mine received \$1,885.40, and those of the Queen mines, Negaunee, \$1,306.20.

On the Gogebic range \$288 was paid pensioned employees of the Atlantic mine, \$3,362.45 to those of the Norrie and Aurora mines, and \$1,725.55 to those of the Tilden.

On the Menominee range there was a distribution of \$2,402.88. Of this sum, \$1,473.42 went to former employees of the Chapin and \$659.15 to former Aragon men.

On the Mesaba range, former employees of the Adams mine received \$288; Canisteo, \$223.20; Glenco, \$61.50; Graham, \$393.95; Soudan, \$733.68; and Zenith, \$98.35.

The distribution through the pension fund during the four years since its establishment is \$1,575,021.33. The sum distributed in 1914 was \$511,967.80; in 1913, \$422,818.14; in 1912, \$358,780.92; 1911, \$281,457.37.

The number of former employees participating in the benefits Jan. 1, 1914, was 2,092. Last year 612 were added, and 183 were discontinued, making the present number 2,521.

The averages of ages of former employees participating in the benefits last year was 63.33 years, their average service 23.76 years, and the average monthly pension, \$20.40.

ESCANABA AGAIN LOSES

LOCALS DROP SECOND GAME TO MARINETTE AFTER FOUR MINUTES EXTRA TIME ARE PLAYED

After it was necessary to play four minutes over time to decide the game, the basketball contest at the high school gymnasium last evening, between the local high school and the crack Marinette squad, was awarded to Marinette by a score of 20 to 18.

The game of last night was one of the fastest and cleanest ever played at the local gymnasium and will go down as such in the history of local basketball. After the severe drubbing that they handed the locals at Marinette last week, the Wisconsin City squad came here last night with the firm intention of repeating the act and even more easily than that of a week ago.

Before a small audience, the first half ended with the score standing 13 and 12 in favor of Marinette. The last half was filled with thrills and keen excitement and when the time was called on the last half the score stood 18 and 13. To decide the contest it was agreed that the contest should go to the team making the first basket. After about four minutes of hard and fast playing, House, center for Marinette, threw a clean basket, clinching the game by a two point margin.

PIONEER IS LAID TO REST

A large number of pioneer residents of Escanaba yesterday morning attended the funeral of Cyril Grenier, at St. Anne's church at 9 o'clock. M. R. Grenier had made this city his home continuously for nearly a half a century and many who had known him throughout that long term of years yesterday morning at the funeral paid their final respects to his memory. A great many beautiful floral offerings were received at the home showing well the esteem in which he was held. Following the impressive service at the church the body was escorted to its final resting place at St. Anne's cemetery.

HOTEL CLERKS HAVE EXPERIENCE

"Give me my wife, my child and my \$200" shrieked a half dressed, unkempt man as he dashed into the lobby of the new Delta hotel near midnight Thursday.

Now "Billie" Sopher, the clerk on duty at that time didn't have the man's child, nor his wife nor his \$200 and clerk who was also behind the desk, but they couldn't convince the half crazed man that they weren't harboring a child, a wife or a sock full of money behind the desk.

The man finally admitted after much questioning on the clerks part that he didn't care so much about the wife or child but he did want his money. The clerks finally convinced the man that they didn't have the money either and induced him to call the police station.

The "Cops" came to the hotel and with the man went in search of the lost wife, child and money but after walking and talking a block with the man decided that he was just plain crazy and that he never had a wife, daughter, son, money or anything else. As a result the man was taken to the lockup and confined until yesterday when he was allowed to go.

The clerks are both young men of a large amount of hair and it is safe to say that it will be months before it will comb smoothly again.

FARM POPULATION IS LEAPING UPWARD

That the number of farmers in Cleveland today is double the number of people engaged in tilling the soil here ten years ago is the assertion of those acquainted with the facts. Interest in Cleveland lands has grown with each year since the establishment of the Upper Peninsula Development Bureau and to that organization practically the entire credit is due for the success that has been and is being achieved in bringing settlers to the lands of this territory.

An exchange says: It is believed a census of the upper peninsula rural district today would show twice the number of farmers that it boasted a decade ago. The statement may seem somewhat broad, but is based entirely on information furnished by J. H. Jasberg and other authorities in the Upper Peninsula Development Bureau, the South Shore road and other interests that have been instrumental in throwing open to the public thousands of acres of land for farming purposes in the last few years.

"The upper peninsula is not making the mistake that its southern peninsula friends made and permit the cities north of the straits to suffer the same fate that has fallen to practically every other section of the country when the lumber industry has completed its work," said Mr. Jasberg in an interview at Houghton. Mr. Jasberg is colonizing agent for the South Shore.

"It is not proposed to wait peacefully until the end has come, as other places have done, but we will work aggressively to make provision for the day when the last giant tree shall have been felled and the last piece of timber run through the mill."

SWITCHMAN IS INJURED AT WORK

James Powers, son of Poor Commissioner and Mrs. James Powers, and prominent in railway circles, was seriously injured yesterday morning when he was caught between two passenger coaches that were being coupled in the local Chicago and North-Western yards. Mr. Powers is employed as a switchman and was carrying out his duty when the two cars came together, pinning him between.

Though Mr. Powers was able to walk from the yards, he was taken to St. Francis hospital in an ambulance and at the hospital received the attention of Dr. H. B. Reynolds.

BATTLE OF SOISSONS IS RENEWED WITH TERRIBLE EFFECT BY ARMY OF KAISER

Letters From Participants in Naval Battle Declare That a British Battleship Was Lost in Conflict--Cannot Consider Peace

GEN. VILLA WOUNDED

(Special to The Press.) Washington, Jan. 29.—"Gen. Villa has been wounded, according to rumors in Mexico City," states a dispatch from Consul Silliman. Dispatches from Vera Cruz report that Carranza and the members of his government will go to Mexico City immediately.

ROCKEFELLER DENOUNCED

(Special to the Press.) New York, Jan. 29.—John D. Lawson, coming direct from a conference with John D. Rockefeller, Jr., made a dramatic denunciation of that young millionaire before the Federal Industrial Committee today. He declared that Rockefeller, in his testimony, had given reason for every discontent that agitates the laboring class today. He ridiculed the Rockefeller Foundation of inquiry into the industrial conditions, which would require many years, asking scornfully what was labor to do in the meantime.

He said: "Labor has been crushed by machine guns and hired soldiers. Men, women and children had died; homes are ruined and we are to let bygones be bygones." He said the laborers' great desire was for lasting industrial peace but it could not be brought about by purposeless conferences. So far as possible the remedies must be equal.

EXPLAINS SENSATION CAUSED BY A MINE

London, Jan. 29.—A member of the crew of the steamer Linari, which was sunk by a mine in the North Sea, sends to relatives here an account of "how it feels to be blown up by a mine." He says: "It seems exactly like a cart going over a big brick. Everyone was shot off his feet, the forepart of the ship was thrown up into the air, the iron bulkheads fled to pieces, and the windlass went over the bows. The instruments on the bridge were shattered, lamps fell, tables were blown out of their sockets, and dishes went sailing in all directions. All this at exactly the same instant. The captain and first officer were lifted off the

CARD PARTY ENJOYABLE

One of the most complete and elaborate card parties to be staged by the women of St. Patrick's church in several months, was that of last night at St. Patrick's hall.

A complete musical program was carried out proving most enjoyable to those in attendance. Brotherton's orchestra furnished the music for the opening of the affair and with practically all of the decorations used for the Boys Brigade banquet still in place, the scene was indeed a pleasing one.

The program carried out was: Mrs. William Ramspeck, vocal solo; Dagnon Brothers, vocal duet; Misses Doherty, piano duet; Lester Brotherton, cello solo.

The woman's prize went to Mrs. Morgan, first, and Mrs. William Gallagher, second. Gentleman's prize, Joseph Boyle, first, and William Belanger, second.

LOW TEMPERATURES ABOUT ISHPERING

Points on the Marquette range in the vicinity of Ishpeming and Negaunee, reported the lowest temperatures of Colverland on Thursday morning. Records ranging from 32 to 48 degrees below zero are reported from that district. The Ishpeming correspondent for the Mining Journal said:

According to the temperatures recorded by the tested thermometer at the Cleveland-Cliffs Iron company's office here, the mercury fell to a lower point yesterday morning than at any previous time in the past ten years. The lowest temperature was thirty-two degrees below. It was the first time since Feb. 17, 1904, that the mercury had dropped to thirty-two. In the winter of 1907 the lowest mark recorded was thirty degrees on Feb. 4. In 1912 it was thirty degrees on Jan. 12 and 31 below Feb. 10.

Few of the thermometers in the business or residence districts were in agreement yesterday morning. Some showed temperatures as low as forty degrees below, and a number recorded from thirty-two to thirty-eight below. At 7 o'clock it was thirty degrees below on South Pine street, near the Oliver office, and at the same hour thermometers on Main street and Cleveland avenue recorded from twenty-eight to thirty-four degrees below. At 5 o'clock thermometers in the vicinity of the Salisbury recorded forty below, it is said. A 9 o'clock yesterday morning it was twenty below, and at no time during the day did the mercury rise above the zero mark.

Humboldt also established a new record mark for several years past yesterday, when the government thermometer at the South Shore station recorded forty-eight below. It was forty-four below at 7:30; forty-one at 8:10 and twenty-two at 9:45.

Thermometers in Republic recorded forty below at 5 o'clock and it was reported to be thirty below there at 11 o'clock. Michigan's low mark yesterday was forty-two below. Humboldt's lowest previous temperature this winter was twenty-eight below on the 22nd.

AVIATORS DROP BOMBS ON TRENCHES AT NIGHT

Great Battle is Fought on the Sand Dunes East of Nieuport and Both Sides Claim to Have Gained Many New Strongholds.

CRUISER SINKING IS CONFIRMED

Berlin, Jan. 29.—The official News Bureau says private letters from participants in the recent naval battle confirm the statement that a large British armored cruiser was sunk.

LETTERS FROM PARTICIPANTS IN NAVAL BATTLE DECLARE THAT A BRITISH BATTLESHIP WAS LOST IN CONFLICT--CANNOT CONSIDER PEACE

London, Jan. 29.—German forces in great strength have renewed the battle of Soissons. Two attempts to cross the Aisne were made. Both were repulsed by the French. In retaliation the French aviators made a night attack on the German camps raining bombs on the trenches and dugouts occupied by the invaders for three hours in the region of Laon De Fere and at points across the river in front of Soissons. The official report makes no mention of the damage done.

(Special to the Press.) London, Jan. 29.—Confirmation of the Berlin report of the attack by German airships on Dunkirk was contained in a French statement. The raid was made at midnight on the twenty-eighth and was the second within a week. The object of the raiders is believed to have been to destroy the headquarters of Gen. French, the British commander in chief. Paris states that while the damage wrought was insignificant, the raiders killed and injured a number of persons. Two German aviators were brought down by the French and British gunners today. One airship was destroyed by the British cannon on the Flanders front. It is believed that the machine is one of the squadron raiding Dunkirk. An other luckless aviator met a similar fate in Vosges near Germer Villa when two officers were captured.

We lost the most important action on Thursday which occurred in the Sand Dunes east of Nieuport. The French assert the allies gained a foothold on the great Dune where the terrible fight occurred on Jan. 17, but Berlin says the allies were repulsed in artillery combats with an occasional unsuccessful infantry attack, which occurred on the remainder of the battle front.

(Special to the Press.) Petrograd, Jan. 29.—Course Gazette in an important semi-official announcement as to the possibility of concluding peace with Austria says such ideas are devoid of foundation and declares peace only can be made after a complete and final victory over Germany; as only in that event can enduring tranquility prevail over Europe.

(Special to the Press.) London, Jan. 29.—A dispatch from Alexandria state the American cruiser Tennessee has already brought 4,000 refugees from Syria to Alexandria and two thirds are Russians, mostly destitute. The British Government is caring for the refugees. Twelve thousand more are expected in Alexandria tomorrow.

Mrs. George Southerland and daughter, Verette, of this city, left yesterday for a months visit at Marinette with the former's parents, Mr. and Mrs. J. G. Hedquist.

DEMOCRATS WORRIED OVER FINANCE AFFAIRS

Washington, Jan. 29.—The administration has taken up in earnest the question of how the government's expenses shall be kept within its income during the next fiscal year. A cabinet conference debated the situation at length.

Estimates of expenditures for the year far exceeded the amount expected from the revenues. While no decision was reached by the members of the cabinet it is understood that none of them could see a way of escaping from extending the limit on the war tax unless congress should:

"Reduce all appropriation bills.

"Abandon the \$34,000,000 river and harbor bill or adopt Postmaster General Burleson's plan for reducing the cost of the rural service, by putting carries on a contract basis."

It was also said to be possible that congress might be asked to curtail the army and navy bills. Another plan which might be tried was to lower income tax assumptions below

CHATFIELD IS TO DECIDE

A number of business men of the city have approached Mayor O. P. Chatfield during the past few days, in an attempt to induce him to seek the office of Mayor for another term. Though Mayor Chatfield is giving the matter very careful consideration, he stated to the Press that he would not render a decision for several days at the most.

It is said that the business men who have approached Mr. Chatfield in relation to seeking his name, are

AMONG THE THEATRES

THE ROYAL AND GRAND "O'Meer Jim"

Jim, a policeman, and his wife, Margaret, live happily until Margaret becomes intimate with the "people next door." One evening when Jim is on duty, the Wilsons invite Margaret to join a game of cards.

After Davis' death, Jim starts for the town in which Margaret is. The town is directly over a mine. On Jim's arrival he learns that the town is sinking.

Grace Cunard and Francis Ford will appear at this house today in "The Mysterious Rose" a two reel gold seal picture that should draw largely.

The comedy picture to be shown is "The Rural Demons" in which Willie Ritchie is featured.

The comedy for this afternoon and evening is "It's a Bear", an Edison picture.

What She Wanted

"I want to stop my baby's cough," said a young mother Tuesday. "but I won't give him any harmful drugs."

Nothing "in a Name." Another of Ilie's little troubles: Pennsylvania's great gun works are located at Bethlehem, Columbia State.

LIVE ITEMS of INTEREST

J. A. Williamson of Minneapolis is in the city on business.

Miss C. V. Walet of Chicago is in the city on business.

W. P. Andrews, of Joliet, Ill., spent yesterday in the city on business.

Miss Helen Bogren left last evening for Marquette, Mich., where she will spend the week end.

B. J. Goodman of Little Lake was in the city yesterday on business.

D. I. Dixon, manager of the Michigan State Telephone Exchange, at Menominee, was in the city yesterday in conference with Manager Sundquist of the local exchange.

George D. McKenny of Appleton, Wis., was in the city yesterday on business.

William Riley of the Carpenter Cook Company of Menominee, is in the city to spend the week end with relatives.

John E. Kennan of Iron River, Mich. is in the city on business.

C. S. Sullivan left yesterday morning for a business trip to Chicago.

Atty. H. R. Dotsch was in Menominee, Mich., on legal business yesterday.

John Marks of Milwaukee arrived in the city on business last night.

H. J. Boyd of Marquette, Mich. is here on business.

Charles Ellsworth, of Isabella, Mich. will arrive in the city today to spend the week end with relatives here.

Abram Baum, son of Mr. and Mrs. A. Baum, of this city, who recently submitted to an operation for appendicitis at the Milwaukee hospital at Milwaukee, is reported to be greatly improved.

MAY MOVE CATHOLIC CHURCH AND MANSE

Gladstone, Mich., Jan. 29.—At the conclusion of the services at All Saints' Catholic church last Sunday morning, Rev. Father Bennett addressed the members of his parish upon the question of moving the church and parsonage from its present location to the site occupied by the All Saints' parochial school building.

The matter was discussed at some length and a special committee was appointed by the members of the parish to investigate the cost of moving the buildings. As soon as the committee completes their investigation, a meeting will be called and the matter finally disposed of.

In addition to the school property, the church also owns the six lots in the block where the church is located. It is thought that this property can be disposed of and the money thus obtained be used to defray the cost of moving the buildings to the new site.

Before the property can be disposed of, special permission will have to be secured from Bishop Eis of Marquette, Mich. All property owned by Catholic churches is under the supervision of the Bishop of the diocese.

Father Bennett stated that he hoped that the buildings could be moved to the new site at a cost of about \$3,000.00. This figure includes the building of new foundations.

A majority of the parishioners seem to favor the idea and at the time the committee makes its report, the members of the parish will vote on the question, and if a favorable vote is received, the work of soliciting funds with which to carry on the work will at once begin.

Each member of the parish will give in accordance to their means and it is thought that if the proposition meets with favorable consideration, that there will not be any difficulty in raising the needed funds.

It is said that even though the church is not moved, extensive repairs will have to be made before another winter. The present heating plant is inefficient and a more modern system will have to be installed. There are numerous other repairs to be made and it is thought that the buildings can be moved to the new site and put in first class condition at a moderate cost.

With the buildings located on the school property, they would be in the central part of the city and when the grounds are put in first class shape, then the property would add much to the attraction of that neighborhood.

While the buildings are old, it is thought that they will stand to be moved without any damage.

The Catholic church has quite an investment in real estate in Gladstone. The school property represents an investment to date of about \$15,000. The lots upon which the church and parsonage stand are among the most valuable in that district and would make ideal residence lots.

TO ESTABLISH INSANITY OF NELSON GUELBAULT

Houghton, Mich., Jan. 29.—That Nelson Guelbault, the Lake Linden man held in the county jail on a charge of murdering his uncle at Lake Linden, a week ago, is insane, may be established by the commission which today examined the defendant. The hearing was private and the report will be made a court record at a public hearing to be held in circuit court Tuesday morning.

the atrocious crime to the examining physicians, and he further claimed he knew nothing of an attempt to end his life in the county jail yesterday morning. He apparently did not know what cell he occupied, nor did he seem to know where he was or why he is a prisoner.

effects of his ordeal yesterday when he attempted to suicide by hanging, he makes no complaint to attendants.

STEEL CORPORATION PAYS HALF MILLION IN PENSIONS.

Pittsburgh, Pa., Jan. 29.—More than half a million dollars were paid to aged and infirm former employees in the steel industry during 1914, according to the fourth annual report of the United States Steel and Carnegie pension funds which made public here last night. The expenditure was \$511,967.90, an increase over 1913 of \$89,152.76. The fund was started January 1, 1911, since which time there has been a total distribution to retired employes amounting to \$1,575,621.33.

The Morning Press

Is read daily by more people than all the other newspapers in Delta County combined.

WHY?

Because

The Morning Press prints the news when it is news

Because

The Morning Press presents each morning the news of the entire previous day and previous night.

Because

The Morning Press, with its unsurpassed telegraphic service, gives each morning the complete story of the great European war, up to the early morning hours.

Because

The Morning Press guards its columns from all matter not fit to be read in the home.

Because

If its news and is right and fit to print, you see it first in The Morning Press.

Daily since the first issue of the Morning Press, its army of readers has steadily increased. Each day brings its new names to the circulation list, people who want their money's worth of newspaper.

There's a Reason

The Reason Is---The Press Itself

Subscribe for it today and join the ever growing Press army of readers.

DOESN'T BELIEVE THAT PEOPLE WANT TEST

Washington, Jan. 29.—President Wilson vetoed the immigration bill today, because of the literacy test for admission of aliens. His message was received in the house and referred to the immigration committee, whose chairman Representative Burnett, will move next Thursday that the measure be passed over the executive veto.

While advocates of the bill express confidence, other members asserted that the required two-thirds majority to force the measure into law, over the head of the chief executive, could not be procured. Three times has an immigration bill containing a restrictive literacy test been vetoed—first by President Cleveland, next by President Taft, and now by President Wilson. Twice congress has failed to override the presidential disapproval.

The president in his message frankly told the house, which originated the bill, that he had no pride of opinion on the question and was not "foolish enough to profess to know the wishes and ideals of America better than the body of her chosen representatives know them."

"If the people of this country have made up their minds to limit the number of immigrants by arbitrary tests, and so reverse the policy of all the generations of Americans that have gone before them, it is their right to do so," Mr. Wilson said. "I am their servant, and have no license to stand in their way. But I do not believe they have so made up their minds."

Senate leaders insist that there will be no trouble re-passing the bill in the upper house. This was done in the past administration, but the house failed to muster a two-thirds majority by a narrow margin. When the measure passed the house last year it was by a bare two thirds majority, and Representative Underwood said today there was question whether a two-thirds vote could be procured now.

BRITISH HAVE NO FEAR OF DRAFTING

London, Jan. 29.—Many supporters of the government, including members of the free churches, hitherto stoutly opposed to militarism, now openly advocate compulsory service.

Some Welsh Liberals are foremost in this. One prominent eloquent member of the government strongly allied with Welsh non-conformity, declares freely in private gatherings his changed views. He insists that, as every citizen is bound to bear his proportionate cost of the monetary expenses of the state, so every citizen should bear his part in its defense.

Apparently, however, the military authorities have not present desire for conscription. They hesitantly as men as they can handle and equip. Knowing this, the authorities negative the active conscription movement, while reserving the power to launch a demand, should the necessity arise later.

Times Criticizes Coast Defenses.
The Times's history of the war, published today, severely criticizes the British preparations. It declares the defenses of the British coast were treated, up to the time of the outbreak of war, as a matter of secondary importance. Some forts were little more than show places, not fitted for serious conflicts with modern armored ships. Most of the east coast towns had no fortifications whatever.

Referring to the engagement between the Hartlepool battery and the German ships, it says: "It must be a cause of regret to most Englishmen that, in this first battle of modern time between a British battery on British soil and the enemy's fleet at sea the British soldiers were hopelessly handicapped by inadequate guns. The men were splendid."

Londoners Rejoice Quietly.
Canada evidently showed more enthusiasm over Sunday's great naval victory than England. On Sunday there were not signs of public rejoicings. Few flags were showing in demonstrations. I counted around Piccadilly circus 30 big flag-poles, and only five displayed flags. This seeming indifference, which runs with the strenuous preparations and unceasing work here, amazes and puzzles every foreign observer.

21 POUNDS OF IRON IS TIED TO BOY'S NECK; PENALTY FOR DANCING.

Phillips, Wis., Jan. 29.—As a penalty for having disobeyed and gone to a dance, Albert Hartman Jr., for three days wore a twenty-one pound railroad iron, chained to his neck with seven feet of log chain, according to neighbors, who finally threatened his father's arrest. The boy was brought here today by Sheriff Hicks, to have a blacksmith cut the chain. With the thermometer twenty-six degrees below zero the boy went to school three days, carrying the heavy burden three miles each way, before the authorities interfered. The keys were thrown into a well.

Talented Youth.
"My oldest son," said Mrs. Twickenbury, "speaks several languages quite fluently."—Christian Register.

Always look for that Name.

HOUSTON TO SAVE MIGRATORY BIRDS

Washington, Jan. 29.—The department of agriculture intends to rigidly enforce the provisions of the federal migratory bird law which prohibits the shooting of such birds during the spring. It is explained that as the result of numerous letters received, officials of the department are of the opinion that sportsmen may unintentionally violate the law.

The law provides that no water fowl may be shot in the northern or breeding zone after January 15 except in New Jersey, where the season extends to February. In most of the southern or wintering zone the season closes February 1, but extends to February 15 in Florida, Georgia and South Carolina.

No change has been made in the department regulations which were promulgated October 1 last, and it is announced that there is no possibility of the prohibition of spring shooting being notified this year. It is the purpose of the government to investigate all reports of violations of the law and to prosecute them.

For a good lunch, go to the Majestic. No waits. Quick service. 400 Ludington street. 1357-343-4f

WAR MUST END IN FIVE MONTHS

New York, Jan. 29.—Statisticians have estimated that five months of the greatest war of history have cost the nations involved \$6,000,000,000 (killed, wounded and captured) and \$7,000,000,000. These figures are subdivided as follows:

- Losses:
Great Britain—Eight hundred officers killed, 4,000 wounded; 15,000 men killed, 60,000 wounded, 25,000 missing.
France—Total casualties, 1,100,000, of whom 180,000 has been killed.
Russia—Total casualties, 1,500,000 of whom 250,000 have been killed.
Belgium—Thirty thousand killed, 58,000 wounded, 35,000 captured.
Serbia—Total casualties 170,000 said by Austria to have been captured, 80,000.
Germany—Two hundred and fifty thousand killed, 850,000 wounded, 400,000 missing.
Austria—Total casualties, 1,500,000, of which 160,000 have been killed.
Expenses:
Great Britain—Two hundred and twenty-five million dollars a month, a total of \$1,225,000,000 at the end of the year.
France—Three hundred million dollars a month, a total of \$1,500,000,000.
Russia—Three hundred and fifty million dollars a month, a total of \$1,750,000,000.
Germany—Three hundred million dollars a month, a total of \$1,500,000,000, in addition to paying the expenses of her ally, Turkey.
Austria—Estimated to tal \$1,000,000,000.
In addition, all the warring nations are said to have lost perhaps as much as they have spent by the paralyzation of commerce and industry. Owing to this tremendous cost, financial authorities say that the war must end within the next five months.

THOUGHT HUSBAND DEAD; RETURNS HOME

New York, Jan. 29.—Mrs. William L. McKay, who was Miss Davina McRoberts of St. Paul, now the wife of Captain Oswald of the Seventh Royal Fusiliers, reached New York on the steamship New Cameronia, wearing mourning for her husband, who stood at her side as the ship docked. She had not had time to purchase other garments before the Cameronia left Glasgow, where she had put on black because her husband's name had been listed among the dead in the trenches in France. Captain Oswald was only wounded, however. When he had recovered he went to Dundee, where he had left his bride, and found that she had left and mourning him as dead, was about to sail home on the Cameronia. He hurried to Glasgow and reached there a short time before the ship sailed.

U.S. HAS LESS IN ILLITERACY

Washington, Jan. 29.—The percentage of illiteracy in certain European countries is much higher than in the United States, while in other countries of Europe it is considerably lower, according to census bureau statistics.

The percentage of illiteracy in the United States for the total population more than ten years of age is 7.7; for the native white population, 3. In Bulgaria the illiteracy percentage is 65; in Greece 70; Hungary, 33; Italy 37; Portugal 69; Roumania 61; Russia 69; Serbia 79, and Spain, 58.

In Denmark, Germany, the Netherlands, Sweden, Switzerland and the United Kingdom the percentage of illiteracy is lower than that of the native white population of this country. Australia has least illiteracy than the United States, but in all other non-European countries the percentage is very high.

Morning Press Want Ads

Advertisements of Lost, for Sale, Wanted, to Rent, etc., not exceeding 25 words, inserted in this column three consecutive days for 25 cents, or one week for 50 cents, if paid in advance. If charged, price will be 40 and 75 cents, respectively. For each 5 words or fraction over 25 words, add 5 cents.

BOARD OF PARDOONS NOT BE INVESTIGATED

Lansing, Mich., Jan. 29.—The house of representatives sat down emphatically on the proposal by Representative Ford, of Detroit, to investigate the board of pardons' action in the case of the convict Van Vorce, whose wife preferred charges against Chaplain Lougher of the Jackson prison that brought his resignation under fire. The board of pardons has declined to authorize a parole for Van Vorce, whose minimum term is up and during the past few weeks a Detroit newspaper has been seeking to force the legislature to act.

When Ford pressed his resolution to a vote he was able to command the support of but fifteen members, while seventy-seven voted against his proposal to put the board of pardons on

the carpet. Ford weakened his own case by a vitriolic speech in favor of his resolution, in the course of which he said that he could pick out 100 prisoners in Jackson who would stack up pretty well in the legislature and charged that patronage had been used to change the views of one representative who first favored an investigation. This latter charge brought an indignant denial from Speaker Smith and the legislator concerned.

The net result of Representative Ford's attention to the Van Vorce case is that he himself is in bad with his colleagues, and that the board of pardons is left with full discretion to release Van Vorce when it believes he is entitled to clemency.

To Prevent Mold on Books.
During continued damp weather books often become musty and even moldy. This can be prevented by placing a few drops of oil of lavender and Canada balsam in the back corner of each bookshelf.

IS UNDECIDED ON STATE 'PROBE' BILL

Lansing, Mich., Jan. 29.—Senator Henry E. Straight, of Goldwater, who proposes to father a state-wide prohibition bill in the senate, introducing it within a few days, said that he will hold conference first with several of the "dry" leaders of the senate on points at issue.

The principal point to be decided is whether the bill shall provide for statutory prohibition for the entire state, without submitting the matter to a vote of the people.

The next point is that if prohibition is to be submitted to a vote, what election will be named as the one in which prohibition will come up for decision. The third point is, if prohibition is adopted, when will it go into effect. The matter must be submitted to a

vote at a general election, if submitted at all. It is hardly likely, Senator Straight said this noon, that this bill could be put through in time for a vote in the election in April. The next general election would be in November, 1916, when there is a presidential election.

"One of the questions is whether or not prohibition should be submitted at the time of a presidential election," said Senator Straight.

"If the legislature were to set any later date, however, another legislature would meet before such later election and could overturn the proposition if it wanted to do so."

FIRE THREATENS A HOME

Fire that started between the floors last night threatened the home of Mrs. C. E. Morson at 611 Ogden avenue, and not until the members of No. 1 and No. 2 fire departments had been at work on the blaze for some time, was it brought under control.

The flames, it is believed, originated between the first floors of the home from an overheated chimney. The loss of the fire, though small, was covered by insurance.

NOTICE

You who are not insured.
Of course the Delta Insurance Agency had the risk, both building and furniture, so the assured does not have to worry, all the loss sustained will be the annoyance of having the fire. Have you got insurance or just a policy. Better call up Beggs, phone 499 and find out.

MANY SAW THE PICTURE CABIRIA

Two capacity audiences yesterday saw the 12 reel presentation of "Cabiria" at its initial appearance in Escanaba at the Delt theater.

The two audiences that saw the three hour run of pictures declared the feature to be the most stupendous and gigantic ever shown in this city. The picture is absolutely without equal and it is highly doubtful if a picture of the same standard will ever be exhibited here again.

BABY SAYRE START HAVING PICTURES TAKEN

(Special to the Press.)
Washington, Jan. 29.—Baby Sayre, grandson of the President, posed for his first picture today. His unique collection of gifts is rapidly increasing. He has 55 pair of shoes, 7 hats, great variety of rattles, any number of dolls, a big Princeton tiger and enough silver mugs to serve in an orphan asylum.

THAW AND ASSOCIATES ARE TO BE ARRAIGNED

(Special to The Press.)
New York, Jan. 29.—Harry Thaw will be arraigned for trial before Justice Weeks on Feb. 27 for conspiracy, with his associates in the Mattowan escape, Butler, Duffy, O'Keefe and Flood. Deputy Attorney General Kennedy will oppose any motion for a separate trial.

PRICE OF BREAD IS RAISED IN CHICAGO

(Special to The Press.)
Chicago, Jan. 29.—The retail price of bread will be raised from 5 to 6 cents per loaf Monday. The Master Bakers Association agreed upon the increase tonight because of the high price of flour. It is expected that larger concerns will follow suit shortly.

LIFE SAVERS ARE TO GET PENSIONS

The Townsend bill, recently passed by the house and senate, which provides for retirement on pension of lifesavers the government employ, will make it easier to obtain good men for the service on the great lakes. That the difficulty in keeping the service up to a high standard will be overcome is the prediction of Captain S. M. Landry, inspector of all stations on the great lakes except those on Lake Michigan.

In the Eleventh district, which includes this port, are eleven keepers and five surfmen whose periods of service and age entitle them to retirement. Among them is Captain Henry

is one of the oldest keepers in the great lakes' service.

The pension bill will greatly increase the chances of surfmen working up to be keepers of stations, as the pensioning of the keepers at the age limit, or at the end of thirty years' service will create vacancies.

By the terms of the bill the retirement of the men will rest entirely with the secretary of the treasury, and as the close of a man's thirty years' service is neared, or his age limit reached, he must apply for pension. If all persons now eligible in the service were pensioned considerable recruiting would have to be done.

The keepers and surfmen in the Eleventh district who are eligible to pension are: Keeper H. D. Ferris, and Surfman Samuel Neal, Harbor Beach; Keeper Geo. W. Plough, Lakeview station, near Port Huron; Keeper John H. Frahm, Point Aux Barques station; Keeper Henry Gill, Port Austin station; Keeper Henry Cleary, Marquette; Keeper Thomas H. McCormick, Portage; Keeper Joseph Valentine, Hammond; Keeper George S. Cleary, Bois Blanc; Keeper John D. Person, Thunder Bay island; Keeper J. E. Henderson and Surfman A. Silverthorn, Samuel Newell and M. Hilliard, Sturgeon Point; Keeper R. M. Small and Surfman C. Parner, Tawas.

WOULD PREVENT OUSTING OF OATES

Lansing, Jan. 29.—More politics is to be thrown into the senate hopper by Senator Sam Odell. He wants to prevent Governor Ferris from appointing a state game warden to succeed Warden William Oates.

He proposes to wipe out the game warden's department, consolidate its work with that of the public domain commission under four heads as follows: Protection, fish culture, game propagation and forest protection.

Each department would have a chief at a salary of \$2,000 a year, named by the domain commission. Each chief would be given power to name as many deputies as he needs to carry on the work.

Oates' commission expires July 1. The position is one of the fattest the governor has to fill. The appointment is for four years and the object of the Odell bill is to prevent a Democrat from taking the office. The public domain commission is composed of Republicans.

Senate members are unfavorable to the Odell move to abolish the game warden department. They consider it as ill-advised as Odell's liquor resolution calling upon Governor Ferris to tell the senate his views on temperance. And it is said that this latest move from the senator from Oceana is so palpably raw from a political standpoint that not only the bill, but the liquor resolution will be buried in the final vote.

WOMAN KILLS PET DOG AND THEN SELF

St. Louis, Mo., Jan. 29.—Miss Nellie Wright, a spinster, killed her pet dog, Tina, in order that she might take it to heaven with her and then committed suicide. In a note which was found in her room she said that she was sure she would be lonely after death and that she believed there "is a heaven for dogs who have made life brighter for people on earth."

She had taken every precaution to see that Tina died a painless death. On a cushion at the foot of her bed was found the body of Tina. The animal had been chloroformed and a dog blanket was placed with care over its body.

Miss Wright herself then took chloroform.

The woman worked in the office of a mattress factory, and her employer, Louis H. Stehle, said that for the last few days she had been acting queerly. She lived alone and so far as is known had no relatives.
