

## THOUGH NO IMPORTANT BATTLES ARE WON FIERCE FIGHTING GOES FORTH ALONG LINES

### THIRD ZEPPELIN ATTACK IS FEARED BY LONDON

Rumor Afloat in Metropolis of World That Aircrafts are EnRoute There for Raid--Report However Denied By Berlin

**BULLETIN**

London, Feb. 1.—There is an unconfirmed rumor that a fleet of Zeppelins are enroute here. One report says five Zeppelins were sighted at Romford, twelve miles away. It is denied by wireless from Berlin that a raid is in progress.

**BULLETIN**

Berlin, Feb. 1.—The government press bureau announces that the German army invasion in France has confiscated \$250,000,000 raw materials available for military purposes, mostly wool, cloth, metals and fuel.

**BULLETIN**

Washington, Feb. 1.—The German governments protest against the purchase by the Allies of Hydroplanes from the Curtiss Plant at Hammondsport N. Y., was overruled today by secretary Bryan.

**BULLETIN**

Dublin, Feb. 1.—A German submarine pursued the mail steamer Leinster for five miles late yesterday off the Irish coast but was distanced before it could fire a torpedo.

*(Special to The Press.)*

London, Feb. 1.—Violent German attacks on three parts of the line in France were repulsed today according to the French official statement.

The Berlin statement regarding the operations in the western theater simply says there is nothing to report.

Last night was calm along the front but this morning the Kaiser's Landstrum violently renewed an attack on British and French positions north of the road between Bethune and La Bassée in an effort to recapture the trenches they lost after fighting last Monday and Tuesday. Each attack is broken by the allies artillery and musketry. The Germans left many dead on the field.

Simultaneously the Germans attempted a surprise attack with bombs against the French stronghold at Beaumont Hamel but the fire they met was so terrific they were compelled to flee and so precipitately that they left on the field explosives destined to blow up French trenches.

Fontaine Madame and Forest of Lagurrie in the Argonne region were scenes of great activity. Fighting continues in these places without definite results. Operations in Vosges and Alsace are suspended owing to heavy snow. A Paris statement reports a German defeat Sunday southeast of Ypres where the yattacked the Allies position orth of the canal. A terrific artillery fire supporting the furious fusillade of musketry effectually checked the attackers. On the remainder of the front artillery conflicts are wage. These are particularly violent in the north.

*(Special to The Press.)*

Paris, Feb. 1.—The French foreign office this afternoon issued the following statement of the progress of the war:

"The struggle during the day of the 30th was confined, on almost every front to artillery combats. The cannonading was very intense on one side or the other at numerous points. Our artillery has everywhere secured the advantage."

"Before LaBassée the British army took all the trenches which it momentarily lost. In the sectors of Arras, Ypres, Soissons, Rheims and Perthes our batteries have dispersed several concentrations of troops, bivouacs and convoys."

"In the Argonne, in the woods of La Gurrie, where our troops were obliged on the 29th to retreat slightly, as already reported, the Germans yesterday delivered near-Fontaine Madan three new attacks, which were repulsed."

"From the Argonne to the Vosges there has been no change. We hold, notably near Badonville, the village of Angonmont, which the Germans pretend to have occupied."

Carder Turner returned to his home in the city yesterday morning after having attended the convention of the Northern Assurance Company of Michigan at Detroit and visited with

## GREAT LOSS FROM STORM

**BULLETIN**

Lexington, Ky., Feb. 1.—Every river town in Kentucky is threatened by floods as a result of recent rains in Ohio and the upper Mississippi.

**BULLETIN**

Mason City, Iowa, Feb. 1.—The worst blizzard of the season is raging over northern Iowa. A number of trains are stuck in the snow.

**BULLETIN**

Milwaukee, Feb. 1.—A blizzard of unusual proportions is paralyzing traffic through out Wisconsin. Hundreds of telegraph poles are down.

*(Special to The Press.)*

Dayton, Ohio, Feb. 1.—Dayton, Hamilton and other cities in the Miami valley face the exact situation that led to the great flood two years ago. The flood is a prevention from all work. The great Miami river has risen six feet. At Dayton the ice floes are being dynamited. Men are patrolling the river banks.

**BULLETIN**

Gary, Ind., Feb. 1.—Repetition of the flood of 1913 is feared in the Calumet Valley. The river is a mile wide here and rising.

**BULLETIN**

St. Louis, Feb. 1.—Dynamiting of ice has caused a flood from the Meramec river below St. Louis and the water continues to rise.

## TO INITIATE LAST MOOSE OF CHARTER

The charter of the Moose lodge of this city will be finally closed on Thursday evening of this week and all residents of the city who desire to become members of the organization should take advantage of this final opportunity for initiation and save the additional fee that will be charged after the date named.

Intense interest is being aroused over the city and in fact the entire district over the rapid growth of the Moose organizations. Not only has the Escanaba lodge had a phenomenal growth but also the lodges of Manistique, Iron Mountain and Norway. The local Moose last week initiated a large class at Rapid River and on Thursday evening will take one of their largest classes into the local organization

## CUDDY WILL MAKE APPEAL TO COURT

Announcement has been made at Sault Ste. Marie that Atty. Joseph F. Cuddy, of this city, with Atty. M. M. Larmouth, of the Soc. will apply for an injunction before the Chippewa county circuit court this week, to restrain the supervisors of Chippewa county from submitting the local option question at the April election. Atty. Cuddy was called into the case after the submission of the question had been ordered, but he has discovered discrepancies in the petitions, on which the board took action, that will be brought to the attention of the court when the restraining order is applied for.

**Patch Broken Plaster.**

To fill up the broken place in the plastering make a mixture as follows: Two parts each of sifted coal ashes and sand, one part of wheat flour, mixed with water. This can be applied with little trouble, and hardens quickly.

**To Mend Broken Dishes.**

There is nothing better for mending broken dishes or a lamp that is loose in the collar than alum-meloid and used white hot.

## PREPARE FOR BIG CANTATA

### SCHOOL ENTERTAINMENT WILL ATTRACT A HOST OF PATRONS

Preparations are rapidly going forward for the operetta to be presented at the high school auditorium on Friday evening and Saturday afternoon, Feb. 5 and 6. The program without doubt, will furnish pleasure and amusement for all who attend. Miss Ryan and Miss Snyder and the teachers of the primary grades are working very hard to make this entertainment a great success.

On Friday evening the program will open promptly at 7:30 o'clock while the matinee of Saturday afternoon will open at 2 o'clock. For the Friday evening performance the price for seats in the front portion of the auditorium will be fixed at 35 cents, 25 cents for the rear seats and 15 cents for all seats in the balcony. For the matinee performance the admission fee for adults will be 25 cents and for children 10 cents. Seats and tickets will be on sale at the Mead Drug Company's store; the Groose Drug store and at all of the school buildings.

The proceeds derived from the entertainment will be used for equipping the playgrounds.

The story of the operetta is as follows:

Two little boys while away the time in bed, before they grow sleepy, by playing "Sailing out to sea." Just as they have everything fixed to start on "The Cruise of the Trundlebed," they fall fast asleep; so a good fairy comes on the scene and takes them on a journey around the world. In their dreams they visit a number of foreign countries, but they manage to get back just as the clock strikes four, at which hour the fairy finds she must disappear, as she is not allowed on earth after daylight. Just as she is making her escape, the youngsters wake up and try to catch her, but she gets away. The two boys compare notes and conclude that all they had seen must be real, and the curtain goes down as they scamper off with their clothes under arms.

## BUCK DEER CROSSES ICE.

A monster buck deer crossed the ice of Green Bay from the Stonington shore to a point a short distance south of the Escanaba Brewing Company's plant on Sunday. The buck trotted slowly across the ice and his actions were watched by a number of people. On reaching the road on the shore he took to the trail, and without apparently noticing a team, followed him but a short distance, followed the road to a point nearly opposite the old fair grounds site. There he met a team in the road and plunged into the woods.

## LIBRARY BOARD HELD MEETING

The first meeting of the fiscal year of the Library board was held last evening in the parlors of the library at which time officers were named for the coming year. The old system of naming the librarian each year as secretary of the board was departed from at the session and a member of the board named to fill that position.

Salaries were also fixed for the librarian and her assistants and it is understood that they remain practically the same as last year.

The officers named are: J. J. Cox, president; Emil Gleser, president pro tem; F. H. VanCleve, secretary.

W. G. Thick, manager of the dry goods department of the Fair Store, left last night for New York City where he will make his annual report.

## MAN KNOWN HERE GOES INTO BANK

W. J. Reynolds, former treasurer of Iron County and brother of Edward Reynolds of this city, has been appointed as assistant cashier of the Iron County Bank at Crystal Falls. Mr. Reynolds succeeds C. Kelley, who has been connected with the bank for a number of years and who retires to become postmaster of Crystal Falls. Mr. Reynolds is well known in this city.

## SHIP BILL IN BALANCE

(Special to The Press.) Washington, Feb. 1.—After a day of sensational developments in the senate, the fate of the government ship purchase bill tonight hangs in a balance. From the best information obtainable tonight the balance can only be tipped in favor of the bill by the Democratic caucus agreeing to make the bill a straight out government ownership proposition and further agreeing to inhibition against the purchase of interned ships. The Democratic forces began to crumble this afternoon when senator Clarke of Arkansas moved to recommit the bill to the committee on commerce and Sen. Stone moved to table that motion. Stone's motion was lost 44 to 42. An adjournment was taken without further decisive action. A Democratic caucus will be held before tomorrow to agree upon a compromise of some kind.

## LANCOUR IS CANDIDATE

H. H. Lancour, formerly a member of the Delta county board of supervisors from Baldwin township, is to make a vigorous campaign for the nomination and election to the office of supervisor from his township, this spring.

Yesterday Mr. Lancour issued the following statement to the taxpayers and voters of Baldwin township:

**Candidate for Supervisor**

"I desire to announce to the taxpayers and all voters of Baldwin township that I will be a candidate for the office of supervisor at the coming primaries, and the April election subject to the action of the people. I served as a member of the Delta county board of supervisors from Baldwin township for two years and gave my entire undivided attention to the work of securing a square, economical and efficient government of the township of Baldwin and with partiality to no one. My record is familiar to the people of the township and I request the voters of the township to consider my candidacy fairly and make a decision accordingly. I respectfully solicit your vote at the primaries and at the election on Monday April 5, 1915.

Yours Sincerely,  
HENRY H. LANCOUR,  
Perkins, Mich.

## JNO. FOLLO IS OUT FOR CLERK

City Clerk John Follo shed his hat into the political ring for the spring primaries when he announced his candidacy on the Republican ticket, for the office of City Clerk.

Mr. Follo was appointed on Jan. 1 to fill the office of City Clerk for the unexpired term of Albert J. Peppin and with the experience that he has already attained in his close attention to the duties of the office, Mr. Follo believes himself to be the logical man to fill the job.

Mr. Follo will present his petition to himself within a few days.

## POLICE OFFICERS GET HONORS

An important change in the city police force was instituted yesterday that will take effect today. In short, Escanaba is to have a captain and two sergeants among its police officers.

Kunze Larson was named as Captain of the force and his duty nights will be the same as the chief's during the day. Joseph Carney and Edward Brunell are the sergeants named and both will have permanent and fixed beats in the future.

It is believed that with the establishment of the new force will be

## 2 BOILERS EXPLODED

### CRASH AT NORTH WESTERN TIE PRESERVING PLANT YESTERDAY MORNING STOPS OPERATION

An explosion at the North Western tie preserving plant early yesterday morning wrecked two boilers and put the entire plant out of commission for several days. No effort can be made to determine the extent of the damage nor to undertake repairs until boiler inspectors have arrived here to determine the cause of the explosion.

E. H. Vandenberg, a fireman, was in the boiler room when the crash came without warning. Aside from being sprinkled liberally with soot and coal dust and being severely frightened, he suffered no ill effects.

The foundations and under portions of both boilers were badly wrecked but until an investigation is made, no cause can be given for the crash. It came without warning shortly after 4 o'clock yesterday morning and while the plant was being operated at full capacity.

The plant has been working with both day and night crews and the accident to the machinery will throw a considerable number of men out of employment until the cause for the accident can be ascertained and repairs made to the damaged boilers.

## POSTMISTRESS IS APPOINTED

Mildred E. Jensen has been appointed as postmistress at the North Escanaba station of the Escanaba post office. The office has been moved from its former quarters to the building formerly occupied by Dr. A. E. Kitchin, as an office at 1323 Hartnett avenue. Mrs. Jensen will give her entire time to the duties of the office and through arrangements made by Postmaster Michael Doherty a more efficient postal service than ever before provided for the people of North Escanaba, is now to be provided.

## TRAIN WRECK SHOWS VALUE OF NEW CARS

The wrecking of a St. Paul road passenger train at Pembine last week when Supt. J. M. Clifford, formerly of this city, was slightly injured, has again demonstrated the efficiency of steel sleeping cars in preventing fatalities when such accidents occur. All authorities agree that had not all of the derailed coaches been of steel construction a number of passengers would have been killed. That many of the railroads in Michigan have not yet complied with the federal order to discard all wooden sleepers, has been brought to the attention of members of the legislature at Lansing. Senator A. T. Roberts, of Marquette, has announced at Lansing that unless the railroads signify their intention of obeying the federal recommendation he will introduce a bill compelling all roads in Michigan to use nothing but steel sleeping cars.

## INDIANS DOWN THE BRAVE PIN SQUAD

The Indian bowling squad last evening defeated the Braves at the Olmsted bowling alleys two games out of the three rolled. The Indians last evening appeared for the first time in their new jersey sweaters and were very "natty" in appearance.

The score:

Braves—	Wood	158	168	189
McNabb	149	181	158	
Dessero	160	160	160	
Matt	204	126	204	
		671	605	711

Indians—

Wetton	142	208	179	
Burton	188	150	154	
Villemur	153	188	157	
Olmsted	182	188	157	
Olmsted	164	162	158	
		677	702	649

Fred Stephenson, who fractured a rib by falling on an ice covered side-

## WOMAN DIED HERE YESTERDAY

Mrs. Adam Granchamp, 76 years of age, passed away at the home of her daughter on South Mary street, yesterday morning after an illness extending over several weeks. The body of the woman will be shipped this morning to Garden, the former home of the woman, where the funeral will be held this morning at 10 o'clock.

A daughter, Miss Albina Granchamp and the husband survive the woman.

## BUCK LAW INTRODUCED

Senator A. T. Roberts of Marquette, has introduced in the Michigan state senate an amendment to the state game laws, permitting a hunter to kill only one deer and that a buck during the legal hunting season.

Sentiment in favor of a buck law, especially in this part of the state, is more pronounced than it was two years ago, when a similar measure failed to pass the legislature. The proposed law has the approval of the state game warden's department. It is designed as a safeguard to hunters as well as to prevent to some extent, the wholesale slaughter of deer.

The bill makes it unlawful to kill a buck whose horns are not three inches long. Senator Roberts points out that the buck law has practically eliminated hunting accidents in other states where it has been in force. The hunter will not fire until he sights the horns of a deer.

State Game Warden Oates, in his biennial report filed with the legislature several weeks ago, said:

"Rough estimates by deputies of this department indicate that there are about forty thousand deer in the upper peninsula and between four and five thousand in the lower peninsula. It would seem that the logical economic move would be to close the season for the killing of deer for a term of years, below the straits. But such action, under our constitution, is not permissible, according to legal authorities.

"In our opinion the limiting of the killing of deer to a male deer with horns would result in a marked field replenishment of this animal in the lower peninsula in a few years. Scarcity of cover has been assigned by some as a reason for depletion in the lower peninsula."

Expressions of disapproval by persons from every part of the upper peninsula regarding the bill introduced in the legislature by Senator Odell, of Shelby, providing for the abolition of the state game, fish and forestry department and the formation of a game and fish division to be under the jurisdiction of the public domain commission have been received by the legislators. The present system, it is pointed out, has been carefully built up, until now it is highly efficient.

## MUSIC CLUB HAS PROGRAM

The Music Club will hold its regular meeting at 7:45 o'clock this evening at Grinnell Brothers Music Store, in addition to the regular program arranged for the evening Mr. Joseph R. Eastwood, of Chicago, will sing.

The topics for study will be music of Bohemia and Norway, presented by the Nineteenth century composers: Smetana, Dvorak, Grieg and Sinding. The following program, of which Cora Hicks Brace has charge, will be presented by the young ladies of her piano class, assisted by William Peterson, violin and club ladies; Mrs. Lund, Mrs. Barras, Mrs. Carlson and Gertrude Lindsay, vocalists.

Drorak—On The Holy Mount; Good Night; Songs My Mother Taught; Canzonetta Indienne—violin.

Smetana—Polka Poetique; Bohemian Dance; Cradle Song; Aus der Heimat—Viola.

Sinding—Serenade; Fruhlingsrauschen; Marche Grottesque; Sylevin. Grieg—Violin Sonata, First Movement; Wedding Procession; Ballade G Minor; Margaret's Cradle Song; In A Boat and To Spring.

WIFE OF UNDERTAKER ALLO IS CALLED TO GREEN BAY

Mrs. J. A. Allo left yesterday for Green Bay where she was called by the death of Henry Remick, a cousin, who died on Sunday evening after a brief illness of pneumonia. The man was about 35 years of age and is survived by several brothers.

## RESOLUTIONS ARE ADOPTED

### RAILROAD MEN OF CITY GO ON RECORD AS BEING IN FAVOR OF RAISE IN PASSENGER RATES

A mass meeting of the railroad men of Escanaba and Wells was held on Sunday afternoon at which time resolutions were adopted favoring the raise of rates asked for by the railroads of the state of the legislature. The following are the resolutions adopted:

WHEREAS, The Railway Companies of the Upper Peninsula of Michigan are asking for an increase in the present Passenger rates, and

WHEREAS, It is the honest belief of the employes, that the several Railway Companies, operating in the Upper peninsula of Michigan cannot make improvements that tend to promote the SAFETY, convenience and comfort of the traveling public, and receive a fair interest on moneys invested, on the present two cent per mile passenger rate, there let it be

RESOLVED, That we the Railway employes of this community do hereby declare ourselves in favor of the enactment of such laws by the State Legislature, of Michigan, that will allow the Railway Companies the right to charge a passenger rate of three cents per mile. And it is further

RESOLVED, That a copy of these Resolutions be offered to the press of all cities of this community, and that copies of these Resolutions be forwarded to the Representative and Senator of the State of Michigan, representing this district.

Signed:  
H. L. ROSE,  
LEO ROLAND,  
O. J. THORSEN,  
C. J. TOBIN,  
E. J. McMARTIN,  
J. HENRY OLIVER,  
H. W. MOORE,  
JOHN DWYER,  
GEORGE SPECHT,  
PETER WEYDELT,  
Committee.

## YOUNG MAN IS CALLED BY MAKER

John McDonald, the 17 year old son of the late James McDonald died Sunday Jan. 24th, at his home at Beechwood. He was a patient sufferer for the last 13 months from a pus case from a ruptured appendix. He was operated on at Stambaugh hospital Dec. 24, 1913, and all hopes were entertained for his recovery but later complications set in and he was taken to Chicago where he underwent another serious operation after he was taken to his home at Beechwood. He is a brother of the late James McDonald, who was accidentally killed by a C. & N. W. passenger train Nov. 12, 1913. This is the third death in the family in less than three years. In his seizure of sickness John won the affection and admiration of all who knew him. The remains were taken to Iron River Tuesday evening, and the funeral was held Wednesday morning at St. Agnes Church. Mass was offered by Rev. Fr. Linhart. Interment was in Iron River Cemetery by the side of his father and brother.

He is survived by his mother, one sister, Marion, and two brothers, Edwin and Alex. The outside relatives who were in attendance were: Mr. and Mrs. E. J. Malhot and daughters of Houghton, Miss Mary and Viola Meyers of Waukegan, Mr. J. and Duncan A. McTear, and Miss Jewel Mousseau of Escanaba, D. L. McRae of Crystal Falls, Miss Aurora Dastien of Elwoods, Mrs. Patterson, Mrs. J. J. Larson, Miss Mayme Hendrickson of Beechwood. Those who served as pallbearers were: Dougal Williams, Loyal Green, John Mahon, William Lally Anton and Michael Stanley.

## FORMER ESCANABAN DIES IN THE WEST

Miss Cora Carlson, formerly a resident of this city and a student of the local high school, passed away Saturday at Pierre, S. D., after an illness extending over several months time.

Since leaving this city six years ago Miss Carlson has taken up the work of milliner and was employed along that line when her illness came, bringing her death some time later.

## UNITED STATES DEPARTMENT OF AGRICULTURE.

### Local Office Weather Bureau.

Escanaba, Mich., Feb. 2, 1915. For Escanaba and vicinity: Tuesday probably snow. Highest temperature yesterday 14 degrees. Lowest temperature yesterday 4 degrees. Precipitation yesterday 0 inches. Temperatures at even hours yesterday:

2 a. m.	24	12 noon	8
4 a. m.	20	2 p. m.	7
6 a. m.	15	4 p. m.	6
8 a. m.	12	6 p. m.	5
10 a. m.	10	8 p. m.	4

Temperatures at even hours one year ago yesterday:

2 a. m.	16	12 noon	15
4 a. m.	14	2 p. m.	13
6 a. m.	12	4 p. m.	11
8 a. m.	10	6 p. m.	9

his business, has something to sell and something in which he wishes to interest patrons. An article cannot be sold by hiding it from the people to whom the merchant wishes to sell it. He can only let the people of the district served by his store, know that he has the article and he offers to sell it at a reasonable price, by advertising. The mail order house is going to advertise today, tomorrow and for all time of the future that advertising can be made to pay. The merchant owes it to himself and to his business to get more business, but the mail order houses are going to continue declaring 50 per cent dividends just so long as the average merchant refuses to advertise what he has to sell. The merchant who is content to sit in his store and wall at the mail order houses, without making any effort to increase his business, deserves to lose

day 0 inches.

### HARVEY A. SPINDLER, Observer.

It costs six dollars a minute to talk from New York to San Francisco. In other words a telephone line for men only.

They're going, gentlemen! Only nine more days for some public spirited citizen to step up and take Escanaba's mayoralty nomination.

How dull and tame life will seem down in Mexico City when thin's settled down and no opportunity is offered to greet a new president every week.

If they let those lawyers alone, there will be mighty little money left to pay players either in organized baseball or the outlaw league.

The failure of the city's gas service made many go breakfastless on Sunday morning. It also put out of commission the typesetting equipment of The Press, but that was only a little incident to the multifarious jobs of getting out a newspaper.

Some foolish people sympathize with those senators down at Washington when they are forced to hold an all night session. They don't deserve sympathy. Their own inefficiency has made of them the victims of such foolishness.

It was reported that the Castles, exponents of near risk dances, had become estranged. They deny the estrangement and numerous photographs published prove that they are not estranged—at least not more than two or three inches.

It is reported on excellent authority that Mrs. Sayre walks the floor with the White House babe when it has the colic. Although the source of the news is apparently unimpeachable it is but natural that we should suspect that this story is but a hideous rear-back designed to secure suffragists' votes for the Republicans.

A Chicago mail order house has declared the largest dividend in history. Stockholders have received 50 per cent on their investment in the enterprise. This result has been achieved during one of the dullest periods in the history of the United States, through persistent, continuous advertising. In a smaller way the average merchant can add to his business by honest advertising. Advertising alone is the business getter of the mail order house. The mail order house can be fought successfully only by the use of the same methods that it uses to get patronage. The day is past when a merchant can sit in his store and wait for patronage to come.

# "GERMAN DEFEAT LONG WAY OFF"

In several sections of our front. Particularly fortunate was our offensive in the region of the village of Nijula Polanska, southwest of Dukla (Galicia) where by bayonet attacks we captured three of the enemy's trenches. Likewise fortunate was our offensive on the front southwest of Jaslika and Ballgrood and southeast of Loudovick, where in one sector our troops gained a position protected by wire fences.

"During these two days we took thirty-five more officers and 2,500 soldiers prisoners, captured two rapid-fire guns and one cannon; while our other troops took prisoners, the exact number of which has not been determined."

"On the Black sea on Jan. 27 our fleet hunted out near Samsun the Turkish cruisers Medjidieh and Breslau, pursuing them until nightfall. On Jan. 25, 26 and 27 our torpedo craft sank several Turkish sailing ships. On the 28th one of them attempted a bold raid upon Trebizond, where, after cannonading the enemy's troops, which fled, she damaged barracks and four depots. The same torpedo boat, silenced, at Rizah, two of the enemy's batteries, sank several shipping craft and damaged barracks."

The following report from the general staff of the Russian army of the Caucasus was given out:

"On the Sari Kamysh front, on the evening of Jan. 27, one of our columns, profiting by a snowstorm, crossed the crest of the mountains and seized, after a violent struggle, the village of Garness, making prisoner there the chief of the Thirteenth Turkish division, with his staff, sixteen officers, seven sergeants and 350 others, and capturing three cannon, more than two hundred rifles, a convoy train and a large quantity of war munitions and provisions."

"The next day the Turks attacked the column, but were repulsed by a counter attack with great losses, abandoning to us a rapid-fire gun."

"Elsewhere there have been the usual fusillades."

Vienna, via London, Feb. 1.—The following official statement was issued tonight:

"There have been vigorous artillery combats on both sides of the Danube and Nida rivers. Our artillery, which has been making good practice recently, succeeded yesterday in compelling the enemy, under the severest fire, to evacuate some trenches."

"There have also been artillery engagements on the rest of the Polish front. In the Carpathians the day passed quietly."

Berlin, Feb. 1.—"On the East Prussian frontier," says an official statement issued here today, "there are no events of importance. In Poland, near Borjnow, to the west of Lodz, a Russian attack was repulsed."

London, Feb. 1.—According to the Daily Mail's Venice correspondent telegrams received there from Bucharest and Uskub say that an immense Austro-German army is concentrated at Tekla Schipka, on the Danube, at the junction of the Hungarian, Roumanian and Serbian frontiers. The force, the dispatches add, is ready to pour into Serbia, but prevented from moving by the flood.

Petrograd, Feb. 1.—Advices from Julfa of Jan. 30, say that in an engagement at Sofia, Persia, the Turks, who suffered severe losses, retreated precipitately toward Tabriz. At noon the same day the Russian troops entered the direction of Maragha. The Russian consul general at Tabriz reports that among the trophies at Tabriz was a flag of the Holy War.

Amsterdam, Feb. 1.—Large numbers of German troops destined for the Ypres front have been concentrated, according to the Telegraph. Fresh troops, with war materials, are reported to be assembling on the Yser front, and activity on the Ostend railway is taken to indicate that another serious effort will be made to break through the allies' lines in Flanders. The Telegraph prints a report that 2,000 German troops have been transferred from Roulers to the eastern front.

"So vanished all possibility of further direct communication with the African protectorates, which hitherto, had been able to communicate via Kamina. As a matter of fact, there had been from the very beginning a disturbance of the system which prevented us from receiving any reports from the governor of East Africa after the outbreak of war. And so the material which we have here collected, and which, is the main, reached Berlin by circuitous routes and very late, and is mostly derived from private or from enemy newspapers, must necessarily remain fragmentary, and some it must also be regarded as untrustworthy."

Washington, D. C., Feb. 1.—Senator Williams of Mississippi interrupted Senator Smith shortly after 10 o'clock to ask:

"Has the senator calculated the amount of money his speech is costing the American people?"

Senator Williams then stated that "the speeches made by the Republican senators during their fight against the hiping bill had cost more than \$500,000 in printing bills and stenographers' fees. Senator Burton's speech had lasted more than thirteen hours and cost \$250,000 he said; that of Senator Lodge \$150,000; that of Senator McMillin \$200,000 and that of Senator Root up to 1 o'clock \$41,600."

"It's a lucky thing," Senator Clapp suggested, "that no personal liability attaches to senators for their remarks."

**A Food and Nerve Tonic**  
is frequently required by old age. We always recommend  
**Rexall Olive Oil Emulsion**  
It refreshes the eyes every morning by applying to them an eye-salve filled with boracic acid lotion. This not only gives a sense of refreshment, but also cures the eyes.

## GOOD ANALYSIS OF WORRY

Foolish and Altogether Too Prevalent Habit Which All Should Strive to Avoid.

We worry because we are afraid of something. Worry is fear of the consequences of something that has occurred or something that may happen. A curious thing about it is that it is never associated with the immediate present. It is generally in the future, though sometimes in the past. Animals and babies who are conscious of nothing but the present cannot worry. As all creatures, except human beings, live only for the moment, they do not worry because they have no recollection of what has happened and can form no conception of what may happen.

Human beings having the capacity to look back or forward, mentally are susceptible to the fear that causes worry, and as most persons live more in the past or future than in the present, this tendency affects for worry or not, according to our viewpoint of life in other respects. Worry is mental fear of an impending something.

Persons afflicted will be less worried about their condition than relatives or friends who sympathize with them. A person may worry in anticipation of a sickness or operation, but when they have the sickness or the operation is performed, the worry disappears, and, though they may fear, they cannot worry in the present.

## WOULD BE SOME PUNISHMENT

Congressman Had Right Idea, Unless It Came Under Heading of "Cruel and Unusual."

Congressman Thomas U. Sisson of Mississippi smiled when the topic turned to the proper punishment for a negligent husband. He said he was reminded of a case of that kind.

Some time ago a married man ran away with a silly young girl, and after an exciting chase the elopers were captured and returned home. Naturally the escapade was the one theme of conversation in the small town where they lived, and everybody in the corner store had his own idea as to what the husband's punishment should be.

One suggested a life sentence, another suggested that 50 years in the penitentiary would be the proper thing, while a third spoke eloquently of tar and feathers.

"You are all wrong," finally remarked a little man sitting in the corner. "I have a scheme that beats all of yours a mile down the boulevard."

"What is it?" chorused the crowd, quickly glancing at the speaker. "You wouldn't hang him, would you?"

"No," was the quiet rejoinder of the little man. "I would turn him over to his wife's mother."

Much of Men's Labors Vain. Between the hen and consumer there is a waste of \$200,000,000 worth of eggs each year.

This was the testimony given at the attorney general's "egg trust" inquiry by William Mann of the law department of the New York Central railroad, who read a letter from the department of agriculture to support his claim.

According to these figures the American egg crop is worth \$700,000,000 a year, and \$30,000,000 is lost through breakage in transit.

The egg as the hen lays it is almost invariably a good egg, ten the evidence, but one out of every ten the hen lays for market is broken on the way there. Three of the remaining nine eggs are added before they reach the consumer, and 40 per cent of the eggs are good only for strong palates or tanning leather.

## Thinking of His Wife.

A colored man engaged in a short job in an Irvington house the other day expressed himself quite forcefully to the man of the house, the subject being the outlook for an increase in emigration from Europe to this country, perhaps next year, as a consequence of the great war. "I'm opposed," said the colored man, "to all this mess of people coming to this country."

"Why so? This country ought to be open to all the world, to everybody who wants to improve his condition."

"I don't think so, no sir. I don't like to see these foreigners coming in here taking work away from our wives."

## Petrified Lizard's Tragedy.

Uncle John Brady exhibited a freak of nature in Yellville, Ark., recently. He located a bee tree on Tar Klin, near Pratt, and the tree, which was dead, fell down.

He had a section of the tree, about six feet long, containing the bees and the honey, cut out, and a few inches below where the section was saved off was found a large red-headed lizard, eight inches long, which had petrified. The lizard was evidently in the tree when the bees took refuge there, and was unable to make its escape and died, after which petrification ensued.

## Not Obstinate.

"Would you vote for prohibition?" "Of course I would," replied Senator Sorghum. "My constituents are strong for prohibition."

"Does that fact influence your ideas?"

"It does, so long as my constituents exert so much influence over my employment. I'd rather go thirsty than hungry."

## SUFFERERS SEEK PROFESSOR'S AID

Notoriety Annoys Professor.

Beloit, Wis., Feb. 1.—Since his unique feat of hypnotizing a blind student and restoring his sight by mental suggestion was made public here last Monday, Prof. Karl T. Waugh, Beloit college, has received scores of letters from all over the United States, from the blind, the halt and the sick, asking him to use his powers to cure their afflictions. Paralysis, cataract of the eye, deafness, rheumatism are included.

Notoriety Annoys Professor. Prof. Waugh, who is a quiet, unassuming and rather absent-minded man of 35, does not take kindly to the student notoriety.

One traveling salesman has written asking for absent treatment for a severe case of "nerves" and a business man of Lafayette, Ind., giving the name as J. T. Henderson, visited Prof. Waugh and induced the professor to give him treatment for a "fixed idea" which he declares was haunting him. The result of his treatment is still in doubt.

## Would Buy the Secret.

A traveling hypnotist has written the Heloit man asking him if he would sell his treatment for blindness. The professional declared that was the only "trick" he did not possess.

In answer to queries as to how it was possible to hypnotize a blind man since the ordinary subject is hypnotized through the eyes, Prof. Waugh explains that he does it by an electric driven tuning fork that emits a low, monotonous sound. The subject is required to fix his mind on an imaginary object and to listen intently to the hum of the fork. It was by this method that Prof. Waugh hypnotized Fay H. Chase, blind college boy, whom he cured by his treatment.

## NO ATROCITIES IN BELGIUM REPORT

Washington, Feb. 1.—Of the thousands of Belgian refugees who are now in England not one has been subjected to atrocities by German soldiers.

This, in effect, is the substance of a report, received at the state department from the American embassy in London. The report states that the British government thoroughly had investigated thousands of reports to the effect that German soldiers had perpetrated outrages on the fleeing Belgians.

During the early period of the war columns of British newspapers were filled with the accusations. Agents of the British government, according to the report from the American embassy at London, carefully investigated all of these charges; they interviewed the alleged victims and sifted all the evidence.

As a result of the investigations the British foreign office notified the American embassy that the charges appeared to be based upon hysteria and natural prejudice. The report added that many of the Belgians had suffered severe hardships, but they should be charged up against the exigencies of war rather than the brutality of the individual German soldiers.

## DEMOCRATIC COUNTY CONVENTION

A delegate convention of the Democratic Party of Delta County, Michigan is hereby called to be held at the Court House in the City of Escanaba Michigan, on Thursday, the 4th day of February, A. D. 1915, at 2 o'clock p. m. for the purpose of electing ten delegates to the Democratic State Convention to be held at the City of Lansing, Michigan, on Tuesday, the 16th day of February, 1915, at 12 o'clock noon of said day, for the purpose of placing in nomination candidates for the second state offices to be supported and voted for at the April general election, 1915, and the transaction of other business.

- The several townships and wards of said county are entitled to the following representation in said convention respectively:
- |                      |   |
|----------------------|---|
| City of Escanaba—    | 3 |
| First Ward           | 2 |
| Second Ward          | 2 |
| Third Ward           | 2 |
| Fourth Ward          | 3 |
| Fifth Ward           | 4 |
| Sixth Ward           | 3 |
| Seventh Ward         | 1 |
| City of Gladstone—   | 1 |
| First Ward           | 1 |
| Second Ward          | 1 |
| Third Ward           | 1 |
| Fourth Ward          | 1 |
| Baldwin Township     | 1 |
| Bark River Township  | 2 |
| Bay de Noc Township  | 1 |
| Brampton Township    | 1 |
| Cornell Township     | 1 |

PATMONT WANTED AS AN ARSONIST

Detroit, Feb. 1.—The Rev. Louis R. Patmont, anti-liquor orator and much-kidnapped preacher is missing again. Detectives failed to find him in Milwaukee Thursday, according to dispatches from that city, when they went to his home to arrest him on a charge of arson, following an indictment by a grand jury in Newark, N. J. This makes the third disappearance of the preacher.

Patmont's first sensation was his alleged kidnapping in Westville, Ill., by the liquor interests of the town. He was rescued from that predicament by the Rev. Claude Witte, then pastor of the Plum street church of Christ of this city, and came here to recuperate from his experience.

Thought Mentally Deranged. Last spring he was again reported kidnapped from his home here and for weeks was missing. He was finally located in a little town near Milwaukee, where it was said he had wandered while mentally deranged.

Patmont is now charged with arson in connection with the burning of the chapel of the church of Christ in New York in 1913. His father, a Milwaukee minister, is said to have held a mortgage on the chapel.

At the time of Patmont's alleged kidnapping, several prominent Detroiters put up money to aid in the search for him. They again came to the front with funds when he disappeared a second time. The local police took a hand in the Detroit disappearance, and a detective was sent to bring Patmont back to the preacher escaping the train.

Wanted Wife "Purified." After he took up mission work in Wisconsin town, he divorced his wife.

Patmont charged that "for more than a year she failed to keep her marriage obligations." He placed her in a Biblical institute in Boise City, Idaho, and she would take her back when she was purified. It was the wife's testimony before a grand jury in New York that led to an indictment. She was taken to the New Jersey city secretly and held there.

TOIT TRIBUNE MERGED INTO NEWS. Detroit, Feb. 1.—Officers of the Morning News association of this city announced last night the merger of the Detroit Tribune's morning paper, the Detroit News, afternoon paper, and the discontinuance of the Tribune publication, except on Sundays, when it will be known as the Detroit News Tribune.

The Detroit Tribune was first established seventy-nine years ago.

DREDGING GOING ON AT PANAMA CANAL

Panama, Feb. 1.—Canal engineers now are optimistic regarding the permanence of the channel through the Culebra section, where the slides recently occurred. For the past month dredging operations have been more than able to keep ahead of the incoming silt and there is no longer any serious anxiety about assuring a safe passage to battleships during the formal opening of the canal.

Col. Goethals and the other canal engineers are of the opinion that at least a year's hard and steady dredging will be necessary before all movements of earth will have ceased.

Notwithstanding the handicap of the slides traffic through the waterway is increasing as is shown by the tolls collected.

Hundreds of health articles appear in newspapers and magazines, and in practically every one of them the importance of keeping the bowels regular is emphasized. A constipated condition invites disease. A dependable physic that acts without inconvenience or griping is found in Foley Cathartic Tablets. For sale by all dealers.

DEPORTATION OF ALIENS HALTED

The immigration department of the U. S. Department of labor is confronted with a vexing problem that is becoming more difficult to solve as the European war continues. It is unable to deport undesirable aliens, except to a few countries, and throughout the United States the number of European subjects who no longer can remain within the borders of this nation is increasing.

This information comes from D. G. Povey, immigration inspector of the Soo, who was in Houghton yesterday in connection with the case of Jonas Pintar, a Hungarian, of Kearsarge, Minn. Pintar is charged with abandoning a fourteen-year-old son and otherwise violating the statutes which govern the conduct of an American. A private hearing was conducted in the county building yesterday afternoon and the testimony will be forwarded to the department at Washington. Until that time Pintar will remain in the county jail, unless he is released on bonds.

Within the district which Mr. Povey represents, no less than thirty aliens are awaiting transportation. Efforts have been made on three or four occasions to return them to Russian and Finland and transportation was furnished them. The destination, however, was England in each case and the English authorities immediately ordered them returned to the United States. Under these conditions, the undesirable are held under surveillance and under bonds until through transportation is again opened. The only countries to which it is now possible to deport aliens are France, England and Italy.

FRENCH LANGUAGE IS FORBIDDEN BY GERMANS

Berlin Feb. 1.—The German military authorities in Alsace-Lorraine have just decided to take steps for the further suppression of the French language in business affairs. In the Reichsland, and the substitution of German in its place. The commanders of the four army corps stationed there have issued a decree prohibiting the use of French on signs and placards posted on the streets on the inner or outer walls of shops or other places of business. Bills, receipts, letter heads, and other business forms must be in the German language; books must be kept exclusively in that language, and only in Germany money, Metz and several towns in upper Alsace are exempted from the decree.

FEW RESERVES ON PANAMA TRIP

Houghton, Mich., Jan. 30.—The hopes of members of the Hancock naval reserve in connection with the Panama trip were blasted yesterday with the receipt of a communication from the U. S. navy department by Executive Officer Paul Ruppe, containing orders relative to the trip. The orders are so exacting that only a very limited number of middies will be given the opportunity to make the trip, and the conditions governing the cruise are such that the Michigan brigade will have a slim representation.

Ordinary seamen will receive no compensation during the trip and aside from actual subsistence, the expense must be borne by the middies. The department is less liberal with brigade officers as they must pay for all of their expenses, including subsistence. The cruise will take three months, and because of the duration it is doubtful if any of the Hancock members can make arrangements for such an extended vacation.

Because of the limited number for which reservations can be made, the matter of choice is determined by the records of the men. The cruise will begin at Norfolk, Va., February 20 with stops at practically every port en route to San Francisco. The usual entertainment features will be provided and considerable expense will be involved in shore expeditions.

APPLETON MANAGER GOES TO LITTLE ROCK

Appleton, Wis., Feb. 1.—George Brautigam, who managed the Appleton W.-I. team last year, purchased his release yesterday and will sign with Little Rock, Ark., of the Southern league. The berth secured for him by Harry Sylvester, a former Papermaker, now with the New Orleans team. Brautigam was considered one of the best infielders in the W.-I. league, Oshkosh having made a bid for him last summer at the time Hayes and Ormsby were sold to Green Bay. It is the second time he has purchased his release here. Two years ago he bought his freedom to sign with Indianapolis, but was farmed out to Springfield, O., and came back here last year to manage the Papermakers. If there was any doubt about Appleton not having a team next year his freedom confirms the report that there will be no ball here in 1915.

self so as to relieve the coal famine. "That would have been an illegal act a despot act. I don't believe he would have done it. I think at that time he would have taken advice and would have restrained himself from this seizure of private property in direct violation of all principles of government."

Tells Joke on Roosevelt. Mr. Taft referred to Col. Roosevelt frequently in the course of his lecture and always had a little joke to crack at the colonel's expense. At one time he said: "Col. Roosevelt divides all the presidents into two types—the Lincoln type and the Buchanan type. Of course, he puts himself in the Lincoln class and he places me in the Buchanan class. He reminds of the little girl that came home and said: 'Father, I am the brightest scholar in my class.' The father was delighted and asked the child: 'When did your teacher tell you that?' 'Oh,' said the little girl, 'she didn't tell me; I've just found it out myself.'"

Praise for Wilson. The former president also praised President Wilson for re-establishing the custom of delivering his message to congress in person. "That's a good thing," he said, "because it attracts the attention of the country to what the president has to say and to what congress does with the president's recommendations."

At the end of his discourse, he submitted to questioning. The first was asked what he thought of the recall.

Against Recall. "I am against the initiative and the referendum as well as the recall," he shouted, "because they do not express the will of the people as has been shown in places where they have been tried and where people will not vote upon these things. Representative government is responsive to the needs of the people, but these things are not. The other question was about woman suffrage, and upon this Mr. Taft dodged. 'My views on woman suffrage,' he said smiling, 'would not please'

LIVE ITEMS OF INTEREST

Mrs. T. W. Swisky of Chicago is the guest of her sister, Mrs. M. L. Fried at 316 Tilden avenue.

A party of Escanaba young people went to Rapid River on Friday evening and took part in basket social and dance at Maple Wood Grange hall. The event was filled with pleasant features for members of the Escanaba party, who returned to the city enthusiastic over their eventful outing.

SAYS WILSON IS A RIP VAN WINKLE

Indianapolis, Ind., Feb. 1.—Senator Sherman of Illinois replied to President Wilson's recent Jackson day speech here in an address before the Indiana Republican editorial association.

Quoting the President's declaration that the Republican party had not had a new idea in thirty years, the senator asked: "Where has this Rip Van Winkle slept the last thirty years who now rubs his eyes and says the Republican party has not had a new idea in all that time? The great national statutes of thirty years have sprung from the councils of that party. He cannot distinguish between the morning light of Republican sunrise of things doing and done and the dusk that is falling on the Democracy."

"The President recently admitted in Indianapolis," Senator Sherman said at the outset, "that the Democrats are a minority party and that they are still on trial. The returns of the last November distinguish between a trial and a verdict against the defendant." "Call the roll of thirty years!" continued Senator Sherman. "Labor repudiated only by the idleness of Democratic administrations; manufacturers were active; our foreign commerce rose with every year, neither was it depended on war supplies for its volume, continuance or trade balances. Restraints of trade and monopolies were curbed. The first great anti-trust act was drawn by a Republican. It is the same level from which the heights and depths of effective legislation have since been measured."

MINISTER ADMITS HE IS A PURJURER

Atlanta, Ga., Feb. 1.—Testimony began in the superior court at the trials of D. S. Lehon, C. C. Tedder and Arthur Thurman, indicted for subordination of perjury in the Leo M. Frank murder case. They are charged with procuring false affidavits from the Rev. C. R. Ragdale and R. L. Barber saying they overheard James Conley, a negro acknowledge the murder of Mary Phagan, a factory girl, for which Frank stands convicted. Ragdale and Barber repudiated the affidavits. Lenon is manager of a detective agency which took up Frank's defense.

Admits Signing Affidavit. Ragdale testified that on April 23 last he signed the affidavit in the office of Luther Z. Rosser, one of Frank's lawyers, in the presence of Roser, Lehon and Barber. The only truth in the affidavit he said, was that he had heard two negroes discussing the Frank case. "Thurman told me," the witness testified, "that this conversation could be fixed up to appear as a confession by Conley to another negro." Ragdale testified Thurman gave him \$200 and gave Barber \$100. "Thurman told me," the witness testified they each got \$100 out of the deal," said the witness. "That same night a man with a voice like Lehon's called me on the telephone and said: 'Told to Sit Stead. "Ragdale, you sit steady in the boat. We can give bond for any amount and there's \$1,000 waiting for you if this thing goes through.'"

Under cross-examination Ragdale said that on the day he made his original affidavit his "mind was in a whirl" and that he "was practically unconscious" of what he did.

G.A.R. VETERAN HAS A NARROW ESCAPE

East Knox, Me.—Feb. 1.—Major Simon Pratt, battle-scarred veteran of more bloody fields than any other G. A. R. man in Waldo county, who came home in '64 with part of a near slipped by a mine ball, two toes gone and a thumb shot off, came near ending his eventful life in a most unsoldierly way yesterday.

Although he is 78 and weighs more than 200 pounds, Major Pratt is able to help some round the place. He reached into a barrel to get a hen that had nested in it and pitched in head first. His grandson, Lafayette Marden, 13 years, and Lafayette's chum, Roscoe D. Clewley, were not strong enough to get the major out, but Lafayette saw a block and tackle, and put a clove hitch around his grandfather's ankles, and they finally hoisted him out.

AMONG THE THEATRES LARGE STOCKS OF POTATOES HELD

THE BIJOU

"The Master Key" will be shown at this house today in its eighth episode. Residents of the city who have been following this picture will welcome the appearance of this section. "The Fatal Hanson" is a Sterling comedy for today and the Victor drama will be "The Wayward Son." For Thursday Manager Hines has booked "The Manicure Girl."

MARATHON SPEECHES IN THE U. S. SENATE

Washington, D. C., Feb. 1.—The length of Senator Smoot's speech recalled other notable speeches in the senate. In 1891 Senator Charles J. Faulkner spoke thirteen hours on the Force bill; in 1893 Senator William V. Allen spoke fourteen hours on the repeal of the silver purchase clause in the Sherman law; in 1901 Senator Thomas H. Carter spoke fourteen hours on a river and harbor bill; in 1908 Senator LaFollette spoke eighteen hours and twenty minutes on the Vreeland-Aldrich emergency currency bill and in 1914, Senator Burton for 12 hours and ten minutes on a river and harbor bill. Senator Edward W. Carmack in 1907 made a notably long speech on the ship subsidy measure and Senator Owen in 1908, another long speech on the admission of Arizona to the Union.

You see it first in the Press.

Washington, Feb. 1.—In announcing that unusually large stocks of potatoes were held on January 1 in the large potato-producing states, the department of agriculture warned southern growers, who usually sell their spring crops in competition with the stocks carried over in the northern states, to take notice of the situation. "Prices are unusually low, and there fore may not decline further," the department's statement said, "but material advances in the next few months can not be forecast from present supplies. The United States seldom imports or exports relatively a large quantity of potatoes. Therefore the European war has no material direct bearing upon the potato market of the United States." Stock are held by growers more largely than usual; this year their holdings were nearly 5.5 times the amount held by dealers, whereas in the past five years their holdings have average four times dealers' holdings.

Worth Seeing. When a woman pays \$1 a pair for hose she generally wants to let you see what she got for her money.—Washington Herald.

### WINTER CARE OF THE HORSES

Many Farmers Allow Their Work Teams to Stand in Stable Without Necessary Exercise or Air.

(By J. M. BELL.)  
Why do so many farmers neglect their work teams during the winter months? By neglect I mean, why are so many farm horses kept shut up in close stalls, close stables, when not actively at work; fed a heavy allowance of heating grain, all the forage they can stuff, and only given exercise when actually at work on the field or on the road?

In a natural state, in any climate, the horse, like all animals, must necessarily take exercise in seeking a means of subsistence, therefore, a horse which is kept by man must have exercise in the open air (whenever practicable) in order that he may be able to give his owner the full equivalent in good honest work for the feed that he eats.

Farm teams are used to working hard all spring, summer and fall. The fall season for the farmer is when inclement weather prevails. Outdoor work for the faithful farm team will be uncertain.

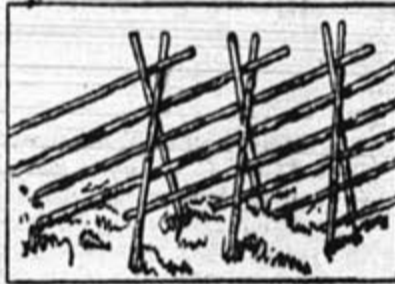

Don't let them stand up in the stable for days at a time, fed heavily on heating food, breathing only the vitiated air of the stable.

Under the most favorable conditions, the average stable does not furnish pure oxygen to horses or cattle that are kept constantly confined. They get the much-needed daily exercise at irregular intervals, and in consequence suffer from many ailments incident to close confinement, along with heavy feeding.

### PROTECTION FOR THE FARM

Serviceable and Durable Fence Can Be Built of Split Poles or of Small Round Saplings.

A fence of split poles or of small round saplings not split, can be built

A Good Pole Fence.

which is very serviceable and durable, says Wisconsin Agriculturist.

The fence is built up in the manner shown by the illustration. Each pole is driven into the ground and rested in the crook of the crossed uprights. All are then nailed, and the nails should be of uniform length; and the more regular and alike in size they are, the better will be the fence.

### TEMPERATURE FOR CHURNING

If Cream is Too Warm the Butter Will Come Soft and Salvy—Best to Use Dairy Thermometer.

The proper temperature for churning varies at different times of the year, with character of feed, with period of lactation and breed of cows. As a rule, the temperature should be about sixty degrees in winter and fifty-six in summer, and the cream should be held at these temperatures for at least an hour before churning. If the cream is too warm, the butter will come soft and salvy. It will have poor keeping quality and there will be a large loss of fat in the buttermilk. If the cream is too cold, it will not stick to the churn. It is well to measure the temperature so that churning may be accomplished in twenty-five to thirty minutes and the butter come in firm condition. A dairy thermometer should be used in controlling the temperature.

### DESIRABLE QUALITY IN EGGS

Actual Age is Only One of Factors Which Affect Excellence—Term "Fresh" is Synonymous.

Because of the readiness with which eggs spoil, the term "fresh" has become synonymous with the idea of desirable quality in eggs. However, the actual age of an egg is only one of the factors which affect the quality. An egg 48 hours old that has lain in a wheat shock during a warm July rain would probably be swarming with bacteria and be absolutely unfit for food, while another egg stored eight months in a first-class cold-storage room would be of much better quality.

### GENERAL FARM NOTES

A cow will not do her best when she is in the least worried.  
Liberal feeders in the dairy are generally the most successful dairymen.  
You cannot cure the defects in grain or flavor by the use of butter color.  
Cows kept in a comfortable condition consume less feed, thrive better and give more milk.  
The more comfortable you can make your animals, the less feed it will take to maintain them in good condition.

**Uneeda Biscuit**  
Nourishment—fine flavor—purity—crispness—wholesomeness. All for 5 cents, in the moisture-proof package.

### GRAHAM CRACKERS

A food for every day. Crisp, delicious and strengthening. Fresh baked and fresh delivered. 10 cents.

### SNAPAROONS

A delightful new biscuit, with a rich and delicious cocoanut flavor. Crisp and always fresh. 10 cents.

Buy biscuit baked by **NATIONAL BISCUIT COMPANY**

### GOLD NUGGETS FOR LADIES

This fully tested scientific method of treatment with Suppositories and Medicated Supporters quickly and positively relieve diseases and disorders peculiar to the sex. Uterine and Ovarian pains, Inflammations, Ulcerations, Displacements, Disturbances due to change of life, etc. etc., are promptly corrected and banished. Elegantly put up, easy of application and moderate in price. Full courses of treatment for \$2.00. Get free booklet.

### L. R. OFFERS BIG 'SLICE' OF PRIZE

New York, Jan. 30.—Colonel Theodore Roosevelt wants to give \$10,000 to the cause of the unemployed workmen of this city. He made the announcement to an audience which filled the Metropolitan opera house at a meeting of the Inter-church Unemployment Committee.

The colonel declared that if he can get congress to take quick action in the matter of returning to him the \$40,000 Noble peace prize which he was awarded in 1906 for his part in ending the Russo-Japanese conflict, he will donate one-fourth of the sum to the Inter-church committee.

Congress has the \$40,000.

At present congress has charge of the \$40,000. Colonel Roosevelt always refused to accept the money for his personal use. He turned it over to a board of trustees to be applied to the establishment of a foundation for the promotion of industrial peace. But the foundation was not established and the trustees decided to return the sum to him.

The offer of \$10,000 for the unemployed—which was entirely unexpected by the audience and was made by the colonel in quite a casual manner—brought out a burst of applause that lasted for several minutes.

### NEVER GET JEALOUS, WIVES ARE ADVISED

Chicago, Feb. 1.—Never get jealous of another woman who attracts your husband; it's the last thing on earth to do; if you really want to keep your husband, according to Mrs. Havelock Ellis, English militant, who is in Chicago to lecture on eugenics, votes for women and sex questions.

Here is one of the eugenic epigrams coined by Mrs. Ellis in her talk: "Jealousy, the most awful force in the world is largely fear; a woman who is jealous of her husband merely is afraid of losing him."

"Defy any woman to steal your husband; study your rival's good points—the reasons why your husband is attracted to her, and copy them."

"Utter and complete frankness between husband and wife is the prime essential to married happiness; complete divorce of love and money is a prime requisite."

### How Mr. Davis Got Rid of a Bad Cough.

"Some time ago I had a very bad cough" writes Lewis T. Davis, Blackwater, Del. "My brother McCabe Davis gave me a small bottle of Chamberlain's Cough Remedy. After taking this I bought half a dozen bottles of it but only used one of them as the cough left me and I have not been troubled since." Obtainable everywhere.

### Thinking of His Wife.

A colored man engaged in a short job in an Irvington house the other day expressed himself quite forcefully to the man of the house, the subject being the outlook for an increase in emigration from Europe to this country, perhaps next year, as a consequence of the great war. "I'm opposed," said the colored man, "to all this mess of people coming to this country."

"Why so? This country ought to be open to all the world, to everybody who wants to improve his condition." "I don't think so, no, sir. I don't like to see these foreigners coming in here taking work away from our wives."—Indianapolis News.

### Petrified Lizard's Tragedy.

Uncle John Brady exhibited a freak of nature in Yellville, Ark., recently. He located a bee tree on Tar Kiln, near Pratt, and the tree, which was dead, fell down.

He had a section of the tree, about six feet long, containing the bees and the honey, cut out, and a few inches below where the section was sawed off was found a large red-headed lizard, eight inches long, which had petrified.

The lizard was evidently in the tree when the bees took refuge there, and was unable to make its escape and died, after which petrification ensued.

### Not Obstinate.

"Would you vote for prohibition?" "Of course I would," replied Senator Sorghum. "My constituents are strong for prohibition."

"Does that fact influence your ideas?"

"It does, so long as my constituents start so much influence over my employment. I'd rather go thirsty than hungry."

### Morning Press Want Ads

Advertisements of Lost, for Sale, Wanted, to Rent, etc., not exceeding 25 words, inserted in this column three consecutive days for 25 cents, or one week for 50 cents, if paid in advance. If charged, price will be 40 and 75 cents, respectively. For each 5 words or fraction over 25 words, add 5 cents.

#### WANTED

WANTED—Dressmaking. Inquire at 209 No. Fannie St. 1441-8-3t. wtkly

WANTED—Girl to clerk in store. Escanaba Mercantile Store, 310 Stephenson Ave. 1495-30-3t.

WANTED TRAINED NURSES—Young women who wish to take up nursing as a profession are invited to send application for entry into the spring class of The Grace Hospital Training School. A large class is being formed on account of an increase in capacity of the Hospital. Large and well-equipped Nurses Home. Home influences excellent. Graduates prepared for State Registration in Michigan and other states. Address Principal, The Grace Hospital Training School for Nurses, Detroit, Mich. 1494-29-6t. E. O. D.

WANTED TO RENT—Two unfurnished rooms in private house, with heat and bath. X. Y. Z., care Morning Press. 1498-31-3t.

FOR RENT—Rooms for light housekeeping. Heat, light and bath. Apply at 605 Stephenson avenue or phone 841-W. 1497-30-3t.

WANTED—Lady with experience in canvassing. Call Mr. McCabe, 9 to 10:30 o'clock, Ludington hotel. 33-3t.

#### FOR RENT

FOR RENT—or Sale, five room house on Hattie street, North Escanaba. Inquire at 526 South Charlotte street 1140-288-4t

FOR RENT—Farm 60 acres cleared. A No. 1 land. Renter must be self sustaining, no others need apply. For further particulars inquire James S. Doherty care Morning Press office

FOR RENT—Two large finely furnished rooms in house with all modern conveniences. Inquire at Press office. 1500-31-6t.

FOR RENT—Downstairs, 309 S. Fannie St. Inquire at 410 Hale St. or Phone 474-J. 1501-33-3t.

FOR SALE—Farm 160 acres 3-4 miles from railroad station and all cleared and in high state of cultivation. 180 bearing fruit trees. Good spring well good house and out buildings. This farm is situated abouting the Escanaba River. Price \$25.00 per acre. Terms 1-2 purchase price cash, balance on time at 6 per cent interest.

FOR SALE—China closet. Inquire at Elks Cafe, 508 Ludington street. 1499-31-3t

FOR SALE—Stewart heater, cheap taken at once. Inquire National Cash Register Co. 1264-317-

FOR SALE—Metz roadster, run about 4000 miles. Botch magneto. Garage needed for new car. Phone for appointment. E. D. Gordon. 1475-28-6t

# SPORTING DEPARTMENT

## MINOR LEAGUE MEN GET TOO MUCH PAY

Appleton, Wis., Feb. 1.—"The trouble with baseball in Wisconsin is that they are paying too much salary," said George Hogriever the other night in talking over the situation. "In the olden days, I mean when we had the 1891 Wisconsin league, the average salary was \$75 a month and we had a team that could have made any nine in the W.-I. go last year. That team had F. Schwab, catcher; Crazy Smith, Edinger, Rogers, pitchers; Fultz, first base; Connelly, second base; Shumway, short stop; R. Schwab, third base; Arnold, left field; Joe Wright, center field, and I played right."

"If that outfit Schmidt, Wright and I went up. I consider Joe Wright, formerly of Oshkosh, one of the greatest outfielders the game ever had. Had he taken care of himself there would have been one better. He could field in either direction, would come in on a ground ball in a way that they do not know now, and was a powerful thrower. You could not come home on a single to center on time. He was also fast in getting away to fire, being a left hand batter."

"It was Joe who brought me here after the Kansas City team broke up. I was playing there then and had met him there the year before when he was with Ottumwa, Iowa. From here Joe went to Oshkosh in 1892, East Pennsylvania 1893, Southern league in 1894, Louisville 1895, Pittsburgh 1896-7, Milwaukee, 1898, Omaha, 1899. You can imagine the class of ball he was playing when he was with Louisville, the team which was later transferred to Pittsburgh. He was playing right field with Hans Wagner center and Fred Clark left. Later Wagner was pulled in to short and Joe went to center."

"Schmidt went up to Pittsburg and made good as a pitcher until he cut his arm. After that it was useless."

Hogriever reached the Cincinnati team of the National league from that '\$75 bunch.'"

The game was different in those old days. There was no team work and if you stole a base you simply made up your mind when to go and went. Hit and run plays were not thought of. It was every man for himself and outfielders did not wait for ground hits to come to them," said Hogriever.

## SPRING WORK TO START APRIL 20

Ann Arbor, Mich., Feb. 1.—Spring training for the University of Michigan football squad will start April 20 and last at least two weeks, it was announced by head coach Fielding H. Yost.

Yost had particularly only an intimate conference with the younger men, the sophomores who were members of Coach Douglas' yearling eleven last fall coming in for a good deal of attention. The men were closely questioned as to just what experience they had had in football work, as Yost wants to get an accurate idea of just what his assets are for next fall.

The importance of keeping up the scholastic standards was emphasized, but as far as known none of the veterans are in danger, although several are a little uncertain until they bear from their examinations. In addition to the personal interviews, Yost outlined to the squad plans for winter training.

Every candidate for the Michigan football team is expected to spend one hour in the gymnasium each day from now until spring. As far as possible this gym work will be organized and put on a definite basis. Capt. "Bill" Cochran and the other veterans will all have charge of squads of candidates, and the different "teams" of gridiron hunkies will compete in relay races, tugs-of-war and wrestling bouts. Contests between the different squads are to be features of the coming indoor track season.

The gym work will be discontinued in April, when the spring training starts and outdoor work in passing and kicking the ball will be continued by the men themselves after coaches Yost and Schultz leave. In the summer every Michigan football man will pack a pigskin in his suit case, and the Wolverines will boot the balls all around the globe, as two of them are going abroad, if the war stops in time.

The training this fall will start practically as early as last season, but it will probably not be as strenuous as in the 1914 campaign, since the Michigan squad will not be so largely a green outfit.

Morning Press "want ads" bring results.

## FULTZ OBJECTS TO DRAFT END

New York, Feb. 1.—David Fultz, president of the Baseball Players' league, said tonight:

"I would consider exempting the American association from the draft as a detriment to the members of the players' fraternity now in that league, unless the American association would operate as a full major league with all major rights and paying major league salaries."

"Should the draft be eliminated from the association and it should continue to operate under its present rating it would mean a lot of players would be bottled up in that league with very little chance to advance in their profession."

**Many Others.**  
"Each year eight players are drafted from the American association, but the draft brings up a good many other players. Class AA clubs are continually in fear that they will lose a valuable man in the draft for \$2,500 so they sell him before the drafting season."

"With the draft eliminated, big minor league clubs would not be compelled to sell players to protest themselves, and should on each of these clubs sell a player it would be resented by the fans of the major league city, with the result that there would not be much chance for promotion in that league."

## TAFT TAKES RAP AT ROOSEVELT

Philadelphia, Feb. 1.—Ex-President Taft invited another controversy with his one-time friend, ex-President Roosevelt, when he said he did not believe Roosevelt would have manned the hard coal miners with soldiers in 1902, as the colonel boasted he would have done. Mr. Taft made this assertion in the course of a University extension lecture on 'The Executive Power—Its Duties and Responsibilities, in Horticultural hall.'

He was discussing the limits within which a president should act and said he did not believe a president should regard his powers as limited only by the constitution. "Mr. Roosevelt," he went on, illustrating his point, "settled the coal strike by asking, as first citizen of the country, the two parties to come together and submit their differences to arbitration. That was a great act, probably the greatest act in his administration. But, in his autobiography, Mr. Roosevelt tells us that if the parties had not agreed to arbitrate, he would have sent the soldiers to the mines to seize them and that he would have worked the mines himself so as to relieve the coal famine."

"That would have been an illegal act a despotic act. I don't believe he would have done it. I think at that time he would have taken advice and would have restrained himself from this seizure of private property in direct violation of all principles of government."

**Tells Joke on Roosevelt.**  
Mr. Taft referred to Col. Roosevelt frequently in the course of his lecture and always had a little joke to crack at the colonel's expense. At one time he said:

"Col. Roosevelt divides all the presidents into two types—the Lincoln type and the Buchanan type. Of course, he puts himself in the Lincoln class and he places me in the Buchanan class. He reminds of the little girl that came home and said: 'Father, I am the brightest scholar in my class.' The father was delighted and asked the child: 'When did your teacher tell you that?' 'Oh,' said the little girl, 'she didn't tell me; I've just found it out myself.'"

**Praise for Wilson.**  
The former president also praised President Wilson for re-establishing the custom of delivering his message to congress in person. "That's a good thing," he said, "because it attracts the attention of the country to what the president has to say and to what congress does with the president's recommendations."

At the end of his discourse, he submitted to questioning. The first was asked what he thought of the recall.

**Against Recall.**  
"I am against the initiative and referendum as well as the recall," he shouted, "because they do not express the will of the people as has been shown in places where they have been tried and where people will not vote upon these things. Representative government is responsive to the needs of the people, but these things are not. The other question was about woman suffrage, and upon this Mr. Taft dodged. 'My views on woman suffrage,' he said smiling, 'would not please

## HOG BREEDING HINTS

**Correct Feeding and Clean Houses Are Essential.**  
**Profits Depend on Persistency of Herdsman in Fighting Unsanitary Conditions — Alfalfa Makes Best Muscle and Bone.**

(By A. D. BURHANS.)

A hog and his health are soon parted if the caretaker is the least inclined to allow the pigs to care for themselves. Pig profits in the corn belt depend on the persistency of the herdsman in fighting unsanitary conditions. And doubly hard must the pig grower work to ward off disease if he does not give forage an important place on the bill of fare.

Any hog, to have a clean system, must have the correct kind of feeding. Naturally, the hog eats much grass and forage. When he cannot get it, he is unable to do what nature tells him to do in keeping his system in exact tone.

Pigs grown on forage and carried into the breeding period and then through the winter on rightly cured hay and sops made of clean feed are always ready to withstand exposure.

A clean digestive apparatus and liver can throw off many impurities of a hog's body. Alfalfa pasturage is found to make the best bone and muscle on pigs of any known forage. Clover is good, but cannot equal the unkillable alfalfa plant.

Alfalfa or clover pasturage keeps the pig's blood cool and the bowels in excellent condition. It also grows an earlier maturing animal. For winter use this plant should be cured as green as possible. Cook in after cutting, and do not allow the sun to bleach it until all the color is gone. Not long since I saw a farmer who was feeding alfalfa hay, cured green and very toothsome, on a feeding floor. This was late in the fall.

Between the three trough-feeds daily an abundance of this fine hay was tossed upon the floor, where the pigs devoured it greedily. The trough-feed was of cracked corn and more alfalfa to balance it.

Dairymen declare alfalfa to produce as much milk as bran, and if it is so, why would it not balance corn well in hog feeding? The cut alfalfa and corn are steamed before feeding. I have never seen hogs thrive better on any fare than did the ones I refer to above.

## FAVOR BOARD TO HAVE SUPERVISION OVER GAME

Lansing, Mich., Feb. 1.—Creation of a non-partisan commission to have complete supervision over the fish and game departments of the state is legislation to be proposed at the present session of the state law-makers by the Michigan Association of Sportsmen.

**Ferris Makes Attack.**  
Indorsement of the one-buck law and other bills for the protection of wild life in the state, proposed by the state game warden's department, Governor Ferris' attack upon the hunters and fishermen in his address before the association, Wednesday afternoon, President W. B. Mershon's answer at the annual banquet at Hotel Downey in the evening, and the employment of Watts Humphrey of Saginaw to draft a bill proposing a non-partisan game and fish commission were the principal features of sportsmen's convention Wednesday.

At the business session, Wednesday afternoon, the association went on record as opposed to placing the fish and game departments under the public domain commission. The association would entirely divorce the departments from politics and place them under the control of a non-partisan commission. A bill providing for such a commission will be drafted by Watts Humphrey of Saginaw and passed upon by the executive board of the association. The association unanimously indorsed the state game warden department's proposed legislation providing for the closed season on deer for five years or longer in the lower peninsula and the restriction of deer hunters to one buck per season, and also the bills prohibiting spring shooting in accordance with the federal laws and the making of the hunter's license law general.

Governor Ferris' address created considerable consternation among the members of the association and brought a reply from W. B. Mershon at the banquet in the evening.

"If I had my way about it there would be no animals killed," declared Governor Ferris in an address.

"The hunter's love of killing is but the instincts of the beast in man. The average boy or girl resembles, the savage in his love of killing animals. Grown up men are like them. I am a lover of wild animals and want them preserved. I haven't any faith in what the schools can do in preserving animal life. Mothers and fathers must train their children not to kill."

"I am in favor of the most stringent laws for the protection of wild life and game. I would make it prohibitive to fish and hunt except when food is a necessity. For 20 years the gun should be laid aside and a strict enforcement be made of the laws which are placed upon the statute books for the protection of game."

"There is nothing strange in the cause of the European conflict. The European nations have been preparing for that war for years. Some tell us that we should also prepare and that teaching of boys to hunt and shoot will go a long way towards preparing for the defense of this country. Is there any wonder that there is war when the belligerent instincts of boys are nursed and increased. I am not in favor of training boys for war for that is the cause of war."

## HOG BREEDING HINTS

**Correct Feeding and Clean Houses Are Essential.**  
**Profits Depend on Persistency of Herdsman in Fighting Unsanitary Conditions — Alfalfa Makes Best Muscle and Bone.**

(By A. D. BURHANS.)

A hog and his health are soon parted if the caretaker is the least inclined to allow the pigs to care for themselves. Pig profits in the corn belt depend on the persistency of the herdsman in fighting unsanitary conditions. And doubly hard must the pig grower work to ward off disease if he does not give forage an important place on the bill of fare.

Any hog, to have a clean system, must have the correct kind of feeding. Naturally, the hog eats much grass and forage. When he cannot get it, he is unable to do what nature tells him to do in keeping his system in exact tone.

Pigs grown on forage and carried into the breeding period and then through the winter on rightly cured hay and sops made of clean feed are always ready to withstand exposure.

A clean digestive apparatus and liver can throw off many impurities of a hog's body. Alfalfa pasturage is found to make the best bone and muscle on pigs of any known forage. Clover is good, but cannot equal the unkillable alfalfa plant.

Alfalfa or clover pasturage keeps the pig's blood cool and the bowels in excellent condition. It also grows an earlier maturing animal. For winter use this plant should be cured as green as possible. Dairymen declare alfalfa to produce as much milk as bran, and if it is so, why would it not balance corn well in hog feeding? The cut alfalfa and corn are steamed before feeding. I have never seen hogs thrive better on any fare than did the ones I refer to above.

## FAVOR BOARD TO HAVE SUPERVISION OVER GAME

Lansing, Mich., Feb. 1.—Creation of a non-partisan commission to have complete supervision over the fish and game departments of the state is legislation to be proposed at the present session of the state law-makers by the Michigan Association of Sportsmen.

**Ferris Makes Attack.**  
Indorsement of the one-buck law and other bills for the protection of wild life in the state, proposed by the state game warden's department, Governor Ferris' attack upon the hunters and fishermen in his address before the association, Wednesday afternoon, President W. B. Mershon's answer at the annual banquet at Hotel Downey in the evening, and the employment of Watts Humphrey of Saginaw to draft a bill proposing a non-partisan game and fish commission were the principal features of sportsmen's convention Wednesday.

At the business session, Wednesday afternoon, the association went on record as opposed to placing the fish and game departments under the public domain commission. The association would entirely divorce the departments from politics and place them under the control of a non-partisan commission. A bill providing for such a commission will be drafted by Watts Humphrey of Saginaw and passed upon by the executive board of the association. The association unanimously indorsed the state game warden department's proposed legislation providing for the closed season on deer for five years or longer in the lower peninsula and the restriction of deer hunters to one buck per season, and also the bills prohibiting spring shooting in accordance with the federal laws and the making of the hunter's license law general.

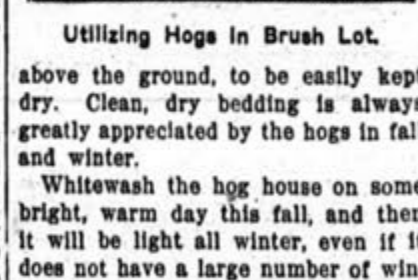

Governor Ferris' address created considerable consternation among the members of the association and brought a reply from W. B. Mershon at the banquet in the evening.

"If I had my way about it there would be no animals killed," declared Governor Ferris in an address.

"The hunter's love of killing is but the instincts of the beast in man. The average boy or girl resembles, the savage in his love of killing animals. Grown up men are like them. I am a lover of wild animals and want them preserved. I haven't any faith in what the schools can do in preserving animal life. Mothers and fathers must train their children not to kill."

"I am in favor of the most stringent laws for the protection of wild life and game. I would make it prohibitive to fish and hunt except when food is a necessity. For 20 years the gun should be laid aside and a strict enforcement be made of the laws which are placed upon the statute books for the protection of game."

"There is nothing strange in the cause of the European conflict. The European nations have been preparing for that war for years. Some tell us that we should also prepare and that teaching of boys to hunt and shoot will go a long way towards preparing for the defense of this country. Is there any wonder that there is war when the belligerent instincts of boys are nursed and increased. I am not in favor of training boys for war for that is the cause of war."

**Utilizing Hogs in Brush Lot.**  
above the ground, to be easily kept dry. Clean, dry bedding is always greatly appreciated by the hogs in fall and winter.

Whitewash the hog house on some bright, warm day this fall, and then it will be light all winter, even if it does not have a large number of windows.

Plan to have the front of the house open on all nice winter days, and a flood of sunlight will help to rid the place of any disease that may be lurking about.

Dust should be avoided in the house. Keep it clean, and hoe it out often. Bedding is cheap. Use plenty of it.

**Cost of Feeding Calf.**  
An Indiana man asks what it will cost to feed a calf until it is three months old. One of the eastern experiment stations made some experiments along this line two years ago and figured it out that it cost \$10.40 per calf for the first three months, counting the whole milk worth two dollars per hundred. About twenty-seven dollars for feed for the calf for the first year.

**Place for Seed Corn.**  
The seed corn has been carefully gathered by this time. Now see that it is stored in such a way that the germinating powers will not be weakened. The average farmhouse has some room in the attic or some place where it can be kept successfully. The house that is complete will make provisions for these things.

**Get Cash for Eggs.**  
Locate as many egg customers in the nearest city as you are able. Keep the profits that usually go to the grocer and commercial agent for yourself. Cash for eggs is the best way to succeed.

# MICHIGAN STATE NEWS

## GIVES LEGISLATURE CONTROL OF LABOR

Lansing, Mich., Feb. 1.—In an obstructive little resolution sent to the desk during Thursday afternoon's session of the house, Representative Noble Ashley of Detroit, paved the way for what may mean some sweeping legislation in the interests of the working man of Michigan.

On its face, the resolution seemed innocuous enough, but the purpose of the proposal is to open up a big and broad issue as between employer and employee. The Ashley proposal is a concurrent resolution recommending the submission to the voters of an amendment to Section 29 of Article 5 of the constitution. If this amendment should have power and authority to regulate the hours of labor for all persons. Under the present constitution the legislature's activities in this line are limited to women and children. Once this limitation is removed, the big question of hours for all the classes of employes will be open and organized labor will flock to Lansing to obtain minimum work day legislation.

The 'companies all insist there is to be no underground lobbying. They claim their fight will be above board, on the floor of the house—in public hearings and before the committee. They claim theirs is a righteous and just cause and they are going to get it by aboveboard methods or fail.

## FARE MEASURE IS TO BE INTRODUCED

Lansing, Mich., Feb. 1.—After a conference of railway representatives at the capital, Wednesday afternoon to which Receiver Paul H. King of the Pere Marquette was invited, decision was reached to withhold the straight two and one-half and three-cent fare bill and substitute a graded passenger fare measure based on passenger service earnings.

The straight two and one-half cent fare measure was the bill drawn up by the Pere Marquette operating receiver, R. King, and was to have been introduced Thursday. Mr. King consented to hold up the measure after representatives of the other road indicated a preference for the graded fare proposition, especially since it would give the Pere Marquette the same or even greater relief.

The graded fare bill fixes the dead line between two and one-half and three cent rates at the passenger service earning capacity of \$3,000 per mile. In other words, all roads showing passenger earnings of \$3.00 per mile or more will be qualified to charge two and one-half cents a mile. All under this earning rate will be entitled to make a three-cent-a-mile charge.

It is understood this bill would give the Pere Marquette the authority to increase its rates to three cents since none of its lines have shown passenger earnings of \$3,000 a mile. The Pere Marquette, however, cannot afford to charge three cents in competi-

tion with a two and one-half cent rate line because it would mean the loss of all through business.

Rogers I Wykes of Grand Rapids special attorney for the state against the Duluth, South Shore and Atlantic railway in its passenger rate suit with the state is in Lansing in an advisory capacity for the railways that are seeking to gain the right of better passenger fares. It is understood the graded fare bill the railway conference prefers over the Pere Marquette receiver's flat fare measure is drawn by Mr. Wykes.

The 'companies all insist there is to be no underground lobbying. They claim their fight will be above board, on the floor of the house—in public hearings and before the committee. They claim theirs is a righteous and just cause and they are going to get it by aboveboard methods or fail.

## TEACHERS' BILL IS READY NOW

Lansing, Feb. 1.—The teachers' retirement bill is ready for introduction in the senate by Senator Verdler of Grand Rapids.

Paragraph one of section six reads: "All teachers, except those who being under contract when this act takes effect, do not elect to come under its provisions, shall contribute to the retirement fund according to the following provisions:

"A teacher who has taught five years shall contribute one-half of one per cent of his or her annual salary, but not more than \$5 annually.

"A teacher who has taught more than five years, but less than 15, shall contribute one per cent, while one who has taught more than 15 years shall contribute two per cent."

Paragraph four of section 13 reads: "In case the amount of said fund, not including the principal of the permanent fund, is at any time insufficient to carry out the provisions of this act, there is hereby appropriated out of the general fund in the state treasury such additional sum or sums as may be necessary to pay the retirement annuities and expenses herein provided for."

Representatives say that if the state is to be held up for any portion of the retirement fund to make the annuities good, then the referendum should be attached to any bill passed in order that the electors may pass upon it.

## AFTER MANY YEARS

L. L. Southern, Eau Claire, Wis., writes: "Years ago I wrote you in regard to great results I obtained from Foley Kidney Pills. After all these years I have never had a return to those terrible backaches or sleepless night; I am permanently cured." Men and women, young and old, find this reliable remedy relieves rheumatism, backache, stiff joints and all caused by weak or diseased kidneys or bladder.—Sold by all dealers.

**LET a tobacco chewer use up half a pouch of "Right-Cut," and he begins telling his friends about the Real Tobacco Chew.**

**Nearly all seem to like the small chew that satisfies.**

A little chew of pure, rich, mellow tobacco—cut fine, short shred—seasoned and sweetened just enough, cuts out so much of the grinding and spitting.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to get tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end.

It is a goodly chew, cut fine and short shred so that you won't have to grind up it with your teeth. Grinding an ordinary sized tobacco makes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with molasses and licorice. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

**One small chew takes the place of two big chews of the old kind.**

**PROHIBITION**

The lawful liquor trade of the United States is opposed to state prohibition. It favors a licensed, regulated and controlled traffic, which will respect itself and be respected by the people whom it serves. It advocates temperance, and believes that individual training and self-control will do more to retain temperance among the American people than ill-considered laws under which the people rather tend to disregard traditional habits of self-restraint. It opposes national prohibition as absolutely contrary to our scheme of government.

# NIGHT PASSENGER SEVEN HOURS LATE

On account of the severe sleet and snow storms over Illinois and Wisconsin that raged throughout the day yesterday, passenger trains due to arrive here during the day were later than in years before.

Train No. 113 due to arrive here at 7:35 last evening did not arrive at the local station until 2 o'clock this morning and the passenger due to arrive at 2 o'clock yesterday afternoon did not arrive here until 5 o'clock yesterday afternoon. Telegraph wires were down and the Press telegraph service was received from Chicago only after it had been transferred four times and had been sent by the way of Minneapolis.

**Bath Robe Came First.**  
According to some of the old pictures, the patriarchy wore bath robes a long time before baths were invented.

**Kangaroo's Voracious Appetite.**  
The kangaroo which is noted for its enormous appetite, is said to be able to eat as much grass as six sheep.

**FIVE CENTS PROVES IT**

**A Genuine Offer.** Cut out this ad, enclose with 5 cents to Foley & Co., Chicago, Ill., and they will send you our trial package of Foley's Honey and Tar Compound for coughs, colds, croup, bronchial and influenza; Foley Kidney Pills and Foley Cathartic Tablets. For sale in your town by all dealers.

# Social Happenings of the Day

**Mr. and Mrs. Trotter Entertain**  
Mr. and Mrs. Gust Trotter were hosts on Sunday evening to about 30 young people of this city and Wells at a party given at their home on South Fannie street in honor of Miss Emeline Couillard, a sister of Mrs. Trotter.

The affair was arranged as a surprise in honor of the birthday of Miss Couillard and with all plans secretly arranged, the young woman was completely surprised when the guests arrived.

The evening was spent in playing games and the carrying out of a musical program.

An elaborate luncheon was served by the hostess, Mrs. Trotter.

## D. E. GLAVIN AND WIFE LEAVE ON AN EXTENDED TRIP

Mr. and Mrs. D. E. Glavin left yesterday for a month's trip through the west, touching at points in Washington, Oregon and finally stopping at the Panama-Pacific Exposition at San Francisco.

This is the first time that Mr. Glavin has left his work on the Northwestern road here in 30 years.

## Strength of Character.

Strength of character is not mere strength of feeling—it is the resolute restraint of strong feeling. It is unyielding resistance to whatever would discredit us from without or unsettle us from within.—Charles Dickens.

# TO SHOOT ALL SYMPATHIZERS

(Special to the Press.)

Washington, Feb. 1.—General Patsio Carranza has issued a decree declaring that foreigners whose complicity and connivance with the enemy can be proved will be shot. The state department has instructed the United States officials at Tampico to get details of Gonzalez purposes. It is noted that Carranza intimated recently that owners of oil mills are in sympathy with the enemy.

## Wanted the Job Completed.

The visiting lady had kept her hosts at the open door fully half an hour saying good-by. Finally an irate masculine voice indoors called out: "Say, Maria, if you're going out, go; if you're staying, stay; but for heaven's sake don't ooze out."—Harper's Magazine.

## Definition of Love.

Love is an awakening, an inspiration, dulling the edge of resentment, sharpening the eloquence of wit, impoverishing distinction, guaranteeing equality and proclaiming the omnipotence of God.—Wills George Emerson.

## Do You Find Fault With Everybody?

An irritable, fault-finding disposition is often due to a disordered stomach. A man with good digestion is nearly always good natured. A great many have been permanently benefited by Chamberlain's Tablets after years of suffering. These tablets strengthen the stomach and enable it to perform its functions naturally. Obtainable everywhere.

# AMONG THE THEATRES

## THE ROYAL AND GRAND

Manager Sullivan announced last night that, starting today, he would cut the prices of his two houses, the Grand and Royal, from ten cents to five cents on every day of each week excepting Mondays, Thursday and Sundays, when, as announced, big features will be shown and the prices of admission will be 10 cents.

Five reels of pictures will be shown and all will be of strictly high class, giving to Escanaba people two five cent movie houses. Five reels of excellent pictures are offered for tonight.

## THE DELFT

Manager Jacobs of the Delft theater believes he has one of the funniest two part features he has had the pleasure of presenting to the local people in many months, at the Delft today.

The feature is "Bunnys Little Brother" and supported by Flora Finch, the picture is indeed a laugh producer.

"The Hearst Selig News Pictorial" will appear today in an especially interesting number.

"The Moonshine and the Man" is a Vitagraph drama while G. M. Anderson is presented in "Broncho Billy's Judgement."

A continuous matinee is offered at this house beginning at 2:30 o'clock.

## At the Dentist's.

I asked this question of my daughter last night: "Did your little daughter make much fuss when the dentist was filling her teeth today?" My daughter replied: "She never opened her mouth."—Exchange.

# FRIDAY'S PLAN TURNED DOWN

Detroit, Feb. 1.—Professor David Friday's scheme of a state income tax as a substitute for a personal tax did not receive support from the members of the Michigan State Tax association last night in the adoption of resolutions at the closing session, the consensus of opinion being that the present ad valorem system should not be abandoned on personal property without further trial. The report of the resolutions committee caused extended debate, but in the main the resolutions were approved as submitted. The recommendation that a reasonably elastic tax limitation be fixed, subject to variation only by a vote of the property holders within any taxing district where additional sums are sought was rejected.

The suggestion that the governor and attorney general should, with the state tax board of equalization was amended, the governor and attorney general being omitted.

The association recommended the establishment of a budget system for proposed state expenditures and a compulsory uniform system of accounting for the several counties. The recommendation of the state commission for a separate assessment of land and its improvements was approved. The principle of a low specific tax on intangible values commonly known as credits, except municipal bond issues was approved. The principle of a low specific mortgage tax to be graded by the length of time of the maturity of the loan or by an actual charge also met with approval. The work of the state tax commission was highly commended.

# TARIFF IS BIG 1916 ISSUE SAYS KELLY

Washington, Feb. 1.—Reviewing the work of the sixty-third congress, now ending, Representative Patrick H. Kelley, of Michigan, pointed out that the one single issue dividing the two great parties is the tariff. He declared the republicans and progressive are reuniting on the great question of protection, and that the next national campaign will be fought out on the question of protection of American labor capital.

Mr. Kelley declared that the middle aisle, on one side of which sit the Democrats and on the other the republicans and the progressives, forms no division on questions of suffrage, prohibition, immigration, state rights, government ownership, repeal of free trade, national defense, currency legislation, conservation or the trusts—the great questions which have engrossed the attention of this congress. And he declared the democratic party can take no credit to itself for enactment of laws in any of these subjects, because republicans and democrats have indiscriminately favored and opposed all these measures with-

out regard to party lines. The single joint of difference, he insisted, is the matter of protection.

"The republican," said Mr. Kelley, "will tell you that he is for protection because it is a matter of civilization and standards of living."

"Protection is a matter of civilization, and standards of living."

"Protection is a matter of civilization, because in the last analysis, it is largely a question of wages and conditions of employment. If you strike at wages, you strike at the home and the home is the headwater of the world's civilization."

If a better cough syrup than Foley's Honey and Tar Compound could be found, we would carry it. We know this reliable and dependable medicine has given satisfaction for more than forty years; therefore we never offer a substitute for the genuine. Recommended for coughs, colds, croup, whooping cough, bronchial and influenza. No opiates. For sale by all dealers.

For auto service between Gladstone and Rapid River, call McCarthy and Barbeau, Gladstone. Good comfortable cars. Also agents for Reo The Fifth and Jeffrey cars. Phone 28 and 33-3t.

You see it first in the Press.

# GREAT RESULTS BY SAFETY COMMITTEE

Copies of a report, which shows the almost unbelievable results of the "safety first" movement inaugurated by the Chicago & Northwestern Railway company several years ago, have been received by all of the employees in this city of that corporation. The statement shows that the reduction in the number of accidents on the Northwestern system for four and one-half years ending Dec. 31, 1914, as compared with four and one-half years on the same basis as year ending June 30, 1910, before the safety committees were organized.

The mileage has increased from 7,953 in 1910 to 8,423 in 1914 and yet the reduction in accidents has been remarkable, as shown in the following table:

One hundred and seventy-three fewer employees killed, a decrease of 35.3 per cent.

Ten thousand six hundred and seventy-one fewer employees injured, a decrease of 27.3 per cent.

Nine hundred and sixty-one fewer passengers injured, a decrease of 22.8 per cent.

Two hundred and ten fewer outsiders killed, a decrease of 19.4 per cent.

Two hundred and twenty-eight fewer employees injured, a decrease of 8.2 per cent.

There was a reduction in number and deaths and injuries for six months during 1909 and six months in 1914 that tends to bring out the effectiveness of the work done by the safety committees. The figures show 61 employees killed during that period in 1909 and only 24 in 1914, while the number of employees injured during that period in 1909 was 4,546 and only 3,025 during the period in 1914.

The result of the safety work is shown in the statement that 381 fewer deaths and 11,890 fewer injuries were caused in four and one-half years on the Northwestern system, which operates in nine states.

A meeting of the Young Women's Auxiliary of the Presbyterian church will be held on Tuesday afternoon at the home of Mrs. S. H. Davis, 402 Wolcott street.
